

1

00:00:00,000 --> 00:00:05,000

Tonight on Fact or Fake, Paranormal Files.

2

00:00:05,000 --> 00:00:09,000

Look at that.

3

00:00:09,000 --> 00:00:11,000

Oh, my God!

4

00:00:11,000 --> 00:00:15,000

I just don't believe that an ex person would be able to do that.

5

00:00:15,000 --> 00:00:19,000

Something is really strange.

6

00:00:19,000 --> 00:00:22,000

I'm actually getting a small spike over here.

7

00:00:22,000 --> 00:00:25,000

We're gonna do an EVP session.

8

00:00:25,000 --> 00:00:27,000

Oh, cough.

9

00:00:27,000 --> 00:00:29,000

Eerie.

10

00:00:29,000 --> 00:00:31,000

I'm hearing footsteps.

11

00:00:31,000 --> 00:00:33,000

Kill the lights.

12

00:00:33,000 --> 00:00:35,000

Hey, guys!

13

00:00:35,000 --> 00:00:36,000

Did you find something?

14

00:00:36,000 --> 00:00:37,000

Yeah, I did.

15

00:00:37,000 --> 00:00:38,000

Oh, my goodness.

16

00:00:38,000 --> 00:00:40,000

There's a flying saucer.

17

00:00:40,000 --> 00:00:41,000

Getting a series of lights right there.

18

00:00:41,000 --> 00:00:43,000

Oh, my God.

19

00:00:43,000 --> 00:00:46,000

What the heck is happening?

20

00:00:46,000 --> 00:00:48,000

Oh, my God.

21

00:00:48,000 --> 00:00:50,000

Oh, my God.

22

00:00:50,000 --> 00:00:53,000

That's a flyer.

23

00:00:53,000 --> 00:00:55,000

Get down, Jim.

24

00:00:55,000 --> 00:00:57,000

Move it.

25

00:00:57,000 --> 00:01:00,000

Move it.

26

00:01:00,000 --> 00:01:02,000

Move it.

27

00:01:02,000 --> 00:01:05,000

Move it.

28

00:01:05,000 --> 00:01:08,000

Move it.

29

00:01:09,000 --> 00:01:12,000

Move it.

30

00:01:12,000 --> 00:01:14,000

Move it.

31

00:01:14,000 --> 00:01:17,000

Move it.

32

00:01:17,000 --> 00:01:18,000

So, let's get started.

33

00:01:18,000 --> 00:01:21,000

Well, I've got another UFO video,

34

00:01:21,000 --> 00:01:23,000

but this one's a little bit different.

35

00:01:23,000 --> 00:01:27,000

This is a UFO that is abducting an aircraft.

36

00:01:36,000 --> 00:01:39,000

Oh, my God!

37

00:01:39,000 --> 00:01:42,000

Watch what happens after it makes contact.

38

00:01:44,000 --> 00:01:47,000

Okay, what it does after it makes contact,

39

00:01:47,000 --> 00:01:49,000

it drops down for a second,

40

00:01:49,000 --> 00:01:52,000

and then shoots up.

41

00:01:52,000 --> 00:01:53,000

Does that seem unusual?

42

00:01:53,000 --> 00:01:56,000

I guess it depends on the phenomena we're talking about.

43

00:01:56,000 --> 00:01:59,000

I mean, if this makes it look like the weight of it was pushing the plane down.

44

00:02:02,000 --> 00:02:07,000

Was there a report of a plane that mysteriously disappeared over Southern California?

45

00:02:07,000 --> 00:02:09,000

I didn't hear anything about this,

46

00:02:09,000 --> 00:02:11,000

and it's not like it's flying over the Bermuda Triangle.

47

00:02:11,000 --> 00:02:13,000

You know what I like most about this video?

48

00:02:13,000 --> 00:02:14,000

The UFO flies like a hummingbird.

49

00:02:14,000 --> 00:02:17,000

Well, it sounds pretty much like a cool concept,

50

00:02:17,000 --> 00:02:19,000

but it's probably CGI.

51

00:02:19,000 --> 00:02:20,000

Let's see what else we have today.

52

00:02:20,000 --> 00:02:22,000

I have a great video. It comes from Mike Geyer.

53

00:02:22,000 --> 00:02:25,000

He and his friends have a really interesting hobby.

54

00:02:25,000 --> 00:02:27,000

It's called creeping.

55

00:02:27,000 --> 00:02:31,000

They sneak into scary places just for the thrill of it.

56

00:02:31,000 --> 00:02:33,000

I've actually dubbed them creepers.

57

00:02:33,000 --> 00:02:36,000

So on one of their creeping expeditions,

58

00:02:36,000 --> 00:02:40,000

they find themselves in abandoned hospital right here in LA, Linda Vista.

59

00:02:40,000 --> 00:02:43,000

Hospitals were now in the area for being super haunted.

60

00:02:44,000 --> 00:02:46,000

I'm not sure.

61

00:02:59,000 --> 00:03:01,000

Oh, my goodness.

62

00:03:03,000 --> 00:03:04,000

I'm not sure.

63

00:03:04,000 --> 00:03:08,000

I think it would be a lot of fun to go run around in a so-called haunted hospital,

64

00:03:08,000 --> 00:03:11,000

but there is a possibility that these guys just put something there.

65

00:03:12,000 --> 00:03:15,000

I think it's worth our investigation.

66

00:03:15,000 --> 00:03:16,000

I think this is pretty good.

67

00:03:16,000 --> 00:03:19,000

I think we might be able to pull something more out of this video,

68

00:03:19,000 --> 00:03:22,000

but why don't we see what other things we have today to look at?

69

00:03:22,000 --> 00:03:24,000

Shilan, I'm excited to hear what you have.

70

00:03:25,000 --> 00:03:26,000

I brought you guys a case.

71

00:03:26,000 --> 00:03:28,000

It's really gruesome, so prepare yourselves.

72

00:03:28,000 --> 00:03:30,000

It's all about cattle mutilations.

73

00:03:30,000 --> 00:03:33,000

Now, down in San Luis, Colorado,

74

00:03:33,000 --> 00:03:36,000

there have been four reported cases within a single month.

75

00:03:37,000 --> 00:03:39,000

Now, this story came from the Colorado Springs News,

76

00:03:39,000 --> 00:03:41,000

so let's go ahead and play it.

77

00:03:41,000 --> 00:03:44,000

Strange things have been happening here.

78

00:03:44,000 --> 00:03:50,000

When I come in that gate, I'm just hoping there's nothing any more dead animals.

79

00:03:50,000 --> 00:03:52,000

This calf was found mutilated on Monday.

80

00:03:52,000 --> 00:03:54,000

That's mutilated?

81

00:03:54,000 --> 00:03:56,000

The thing is torn apart.

82

00:03:56,000 --> 00:03:58,000

I mean, all that's left is the rib cage.

83

00:03:58,000 --> 00:04:03,000

Generally, when you have this much carnage on a normal predator kill,

84

00:04:03,000 --> 00:04:06,000

you'll see a lot of blood on the hair around the areas.

85

00:04:07,000 --> 00:04:10,000

Another strange case in the San Luis Valley.

86

00:04:10,000 --> 00:04:11,000

Wow.

87

00:04:11,000 --> 00:04:15,000

A lot of people have reported that right before they find a calf that's been mutilated,

88

00:04:15,000 --> 00:04:17,000

a lot of helicopters are flying by.

89

00:04:17,000 --> 00:04:22,000

Black ops helicopters, other airplanes, other, you know, flying objects.

90

00:04:22,000 --> 00:04:24,000

They did contact the ufologist, Chuck Zuckowski,

91

00:04:24,000 --> 00:04:28,000

and he sent me over some stills from the actual calf mutilation that he investigated.

92

00:04:28,000 --> 00:04:35,000

He reported seeing no blood, no depressions in the ground, absolutely no organs.

93

00:04:35,000 --> 00:04:38,000

As you can see from the hollowed out rib cage.

94

00:04:40,000 --> 00:04:45,000

Looking at the carcass, it looks more surgical than savage.

95

00:04:45,000 --> 00:04:47,000

Now, this is what I love most about this case.

96

00:04:47,000 --> 00:04:49,000

Not only is it unexplainable, we have an eyewitness.

97

00:04:49,000 --> 00:04:52,000

Chuck actually said that the rancher would allow us to be on his ranch.

98

00:04:52,000 --> 00:04:55,000

It just seems like an amazing case to investigate.

99

00:04:55,000 --> 00:04:57,000

So, Chilan, excellent research.

100

00:04:57,000 --> 00:04:59,000

I think this is a really good case.

101

00:04:59,000 --> 00:05:00,000

Let's move on.

102

00:05:00,000 --> 00:05:01,000

Okay.

103

00:05:01,000 --> 00:05:03,000

This is kind of a fun one.

104

00:05:04,000 --> 00:05:11,000

Swamp guy Dave Shealy actually caught the legendary Skunk Ape on camera, or so he claims.

105

00:05:11,000 --> 00:05:13,000

Take a look at it, some way you think.

106

00:05:15,000 --> 00:05:16,000

There he is.

107

00:05:16,000 --> 00:05:19,000

So, the Skunk Ape is just Bigfoot.

108

00:05:19,000 --> 00:05:22,000

It's the Florida version of Bigfoot, yes.

109

00:05:23,000 --> 00:05:25,000

Wait a second, what is this?

110

00:05:25,000 --> 00:05:28,000

If there's one thing that I believe in, it's Bigfoot.

111

00:05:28,000 --> 00:05:32,000

And so, anytime we get any somewhat compelling video, I think it's worth an investigation.

112

00:05:32,000 --> 00:05:39,000

Look at this guy and tell me that this doesn't remind you of someone who kind of has almost an attitude with his walk.

113

00:05:39,000 --> 00:05:40,000

Watch.

114

00:05:40,000 --> 00:05:41,000

Oh my gosh.

115

00:05:41,000 --> 00:05:44,000

He's like this, he's like, look everyone, Patterson film, look at me.

116

00:05:44,000 --> 00:05:47,000

It's been seen by numerous, numerous people.

117

00:05:47,000 --> 00:05:50,000

But there are other witnesses, then that gives a little more credibility.

118

00:05:50,000 --> 00:05:52,000

I mean, I'm interested in cases like this.

119

00:05:52,000 --> 00:05:53,000

I love cryptoids.

120

00:05:55,000 --> 00:05:56,000

Look at the way that he runs.

121

00:05:56,000 --> 00:05:59,000

He runs just like a larger guy would run.

122

00:06:00,000 --> 00:06:04,000

I don't think that this video is compelling.

123

00:06:04,000 --> 00:06:07,000

But wait a second, this is supposed to be Marsh, right?

124

00:06:07,000 --> 00:06:09,000

So, that's really hard to walk through.

125

00:06:09,000 --> 00:06:10,000

Yes.

126

00:06:10,000 --> 00:06:11,000

So, a human would have a hard time.

127

00:06:11,000 --> 00:06:13,000

It's like you're sloshing through it.

128

00:06:13,000 --> 00:06:15,000

Well, that's a good point, Bill.

129

00:06:15,000 --> 00:06:20,000

I spent a lot of time in the Everglades and we went throughout the expanse of the park.

130

00:06:20,000 --> 00:06:22,000

And there are a lot of marshy areas.

131

00:06:22,000 --> 00:06:27,000

There are alligators everywhere and it wouldn't be easy to just stride along this way.

132

00:06:27,000 --> 00:06:30,000

What do you say we shelf it for now and see what else we have today?

133

00:06:30,000 --> 00:06:31,000

I agree.

134

00:06:31,000 --> 00:06:34,000

So, J.L., I think that brings us to your case in Indiana.

135

00:06:35,000 --> 00:06:42,000

There's a woman named Caroline Milligan who was suspecting some paranormal activity in an old cemetery near her home.

136

00:06:42,000 --> 00:06:53,000

So, one night she went out there with a team of paranormal researchers and they found a very curious EMF spike near a tombstone of an old civil war soldier named James.

137

00:06:53,000 --> 00:06:57,000

And they left the cemetery definitely feeling like they had experienced something.

138

00:06:57,000 --> 00:06:58,000

They didn't exactly know what.

139

00:06:58,000 --> 00:07:03,000

But when she went home and scoured the tapes, they found a very interesting image.

140

00:07:04,000 --> 00:07:05,000

Here it is.

141

00:07:09,000 --> 00:07:10,000

Wow.

142

00:07:10,000 --> 00:07:11,000

Wow.

143

00:07:11,000 --> 00:07:12,000

That was so bad.

144

00:07:12,000 --> 00:07:13,000

We wind that.

145

00:07:13,000 --> 00:07:14,000

What was that?

146

00:07:17,000 --> 00:07:18,000

Look at that.

147

00:07:18,000 --> 00:07:23,000

Now that went completely undetected by these researchers that were there that night.

148

00:07:23,000 --> 00:07:24,000

It went right through them.

149

00:07:24,000 --> 00:07:25,000

Yes.

150

00:07:26,000 --> 00:07:28,000

Are there any theories on what it could be?

151

00:07:28,000 --> 00:07:29,000

There is actually.

152

00:07:29,000 --> 00:07:34,000

There used to be a railroad crossing there and so some people call it a ghost train.

153

00:07:34,000 --> 00:07:37,000

They think that it might be a train passing through.

154

00:07:37,000 --> 00:07:39,000

I'm really excited about this case.

155

00:07:39,000 --> 00:07:41,000

I mean, it looks like it's good video.

156

00:07:41,000 --> 00:07:42,000

It's got a good story with it.

157

00:07:42,000 --> 00:07:45,000

I'm thinking of experiments already that we could replicate.

158

00:07:45,000 --> 00:07:46,000

Absolutely.

159

00:07:46,000 --> 00:07:50,000

I've already contacted Caroline Milligan and she is more than happy to talk to us.

160

00:07:50,000 --> 00:07:51,000

So this is a great case.

161

00:07:51,000 --> 00:07:52,000

I think we all agree.

162

00:07:52,000 --> 00:07:54,000

Let's just lock this one in.

163

00:07:54,000 --> 00:07:55,000

Let's do it.

164

00:07:57,000 --> 00:07:58,000

Right.

165

00:07:58,000 --> 00:08:00,000

We still need to choose our other case.

166

00:08:00,000 --> 00:08:02,000

What do you think from the ones that we've seen?

167

00:08:02,000 --> 00:08:03,000

Catamutilation.

168

00:08:03,000 --> 00:08:04,000

Catamutilation.

169

00:08:04,000 --> 00:08:05,000

Oh yeah, I agree with that.

170

00:08:05,000 --> 00:08:06,000

It was recent.

171

00:08:06,000 --> 00:08:07,000

We have a witness.

172

00:08:07,000 --> 00:08:08,000

I say we do catamutilation.

173

00:08:08,000 --> 00:08:10,000

I really like the Skunkape.

174

00:08:10,000 --> 00:08:11,000

I like the Skunkape too.

175

00:08:11,000 --> 00:08:14,000

But I do feel we have more things going for us with the catamutilation.

176

00:08:14,000 --> 00:08:15,000

Well, let's save it then.

177

00:08:15,000 --> 00:08:17,000

Let's put it off for now and let's do catamutilation.

178

00:08:18,000 --> 00:08:22,000

Bill, Chilan and Larry, why don't you guys go to Colorado?

179

00:08:22,000 --> 00:08:23,000

Sounds good.

180

00:08:23,000 --> 00:08:24,000

That works for me.

181

00:08:24,000 --> 00:08:25,000

All right, guys.

182

00:08:25,000 --> 00:08:28,000

And Indiana, Gio and Austin, I'm going to need your help with some stunts.

183

00:08:28,000 --> 00:08:29,000

I'm thinking of...

184

00:08:29,000 --> 00:08:30,000

All right, let's pack it up and go.

185

00:08:30,000 --> 00:08:31,000

All right.

186

00:08:36,000 --> 00:08:39,000

Coming up on Fact or Faked Paranormal Files.

187

00:08:40,000 --> 00:08:41,000

What is that?

188

00:08:44,000 --> 00:08:47,000

When it came out of focus, it looked pretty good.

189

00:08:47,000 --> 00:08:49,000

We saw footsteps.

190

00:08:49,000 --> 00:08:50,000

Was that you?

191

00:08:51,000 --> 00:08:53,000

Guys, camera three just completely went dead.

192

00:08:53,000 --> 00:08:54,000

Larry, guys!

193

00:08:54,000 --> 00:08:55,000

Did you find something?

194

00:09:04,000 --> 00:09:06,000

It's all about catamutilations.

195

00:09:06,000 --> 00:09:09,000

There have been four reported cases within a single month.

196

00:09:09,000 --> 00:09:10,000

Let's do catamutilation.

197

00:09:10,000 --> 00:09:15,000

There's a woman who was suspecting some paranormal activity in an old cemetery near her home.

198

00:09:17,000 --> 00:09:18,000

All right, let's pack it up and go.

199

00:09:18,000 --> 00:09:19,000

All right, yeah.

200

00:09:23,000 --> 00:09:24,000

All right, guys.

201

00:09:24,000 --> 00:09:26,000

We're here in Indiana, heading to Fisher's.

202

00:09:27,000 --> 00:09:29,000

Caroline was out here on her own paranormal investigation,

203

00:09:29,000 --> 00:09:31,000

trying to see if she could capture anything.

204

00:09:31,000 --> 00:09:36,000

She didn't even realize that this image was there until she went back and reviewed it.

205

00:09:36,000 --> 00:09:40,000

I think that the cemetery is going to be a perfect place for a ghost hunt.

206

00:09:40,000 --> 00:09:44,000

A witness, Caroline, is waiting for us at the cemetery, and she's going to give us a tour.

207

00:09:47,000 --> 00:09:48,000

Mr. Caroline.

208

00:09:48,000 --> 00:09:49,000

Yes.

209

00:09:49,000 --> 00:09:50,000

How are you doing? It's a pleasure. I'm Austin.

210

00:09:50,000 --> 00:09:51,000

I'm thinking.

211

00:09:51,000 --> 00:09:52,000

Nice to meet you.

212

00:09:52,000 --> 00:09:53,000

Let's start from the beginning.

213

00:09:53,000 --> 00:09:55,000

You know, what brought you out to the cemetery here?

214

00:09:55,000 --> 00:09:59,000

You know, all the activity we were having in our house when we used to live out this way.

215

00:09:59,000 --> 00:10:04,000

I mean, we had everything from footsteps to actually door knobs turning.

216

00:10:04,000 --> 00:10:05,000

So we ticked something off.

217

00:10:07,000 --> 00:10:10,000

During the video, nobody felt anything, saw anything.

218

00:10:10,000 --> 00:10:11,000

No.

219

00:10:11,000 --> 00:10:15,000

I mean, the only person you see in the frame of the camera actually appeared to just, like, nothing happened.

220

00:10:15,000 --> 00:10:16,000

Right.

221

00:10:16,000 --> 00:10:17,000

Didn't notice it.

222

00:10:18,000 --> 00:10:21,000

So we came out here, and we're just walking through just talking.

223

00:10:21,000 --> 00:10:25,000

We didn't see anything, didn't feel anything as we're walking through that particular area.

224

00:10:25,000 --> 00:10:27,000

And it was on playback. Here it was.

225

00:10:27,000 --> 00:10:30,000

To me, it almost looks like it would be like the caretaker.

226

00:10:30,000 --> 00:10:35,000

Wow. Take us to the woods.

227

00:10:35,000 --> 00:10:36,000

Okay.

228

00:10:42,000 --> 00:10:44,000

Caroline, recreate for me the night.

229

00:10:44,000 --> 00:10:48,000

Well, we will come in to see if we could get what we thought was in our house.

230

00:10:48,000 --> 00:10:51,000

We could catch them actually kind of here on their home turf.

231

00:10:52,000 --> 00:10:56,000

I know Indiana had an overwhelmingly large amount of Civil War soldiers, right?

232

00:10:56,000 --> 00:10:57,000

Yeah, we did.

233

00:10:57,000 --> 00:10:59,000

But there's only one that's buried here.

234

00:10:59,000 --> 00:11:04,000

We started doing research and found out that he was buried not too far away from where we lived.

235

00:11:06,000 --> 00:11:07,000

What's the name of this soldier?

236

00:11:07,000 --> 00:11:08,000

His name's James.

237

00:11:08,000 --> 00:11:09,000

Last name's Payne.

238

00:11:09,000 --> 00:11:11,000

He's the only headstone that points that way.

239

00:11:11,000 --> 00:11:14,000

And if you actually were to follow that headstone, it would go into the back of our old house.

240

00:11:20,000 --> 00:11:21,000

This is it.

241

00:11:21,000 --> 00:11:22,000

So this is James' headstone right here.

242

00:11:22,000 --> 00:11:23,000

Yep. Yes, it is.

243

00:11:26,000 --> 00:11:28,000

Company 39th, that's the truth.

244

00:11:28,000 --> 00:11:30,000

So what exactly do you know about James?

245

00:11:30,000 --> 00:11:32,000

He's classified as a deserter on his draft card.

246

00:11:32,000 --> 00:11:34,000

And how did you find this out?

247

00:11:34,000 --> 00:11:39,000

I went down to Indianapolis and I was able to look up his draft card and show that he was a deserter.

248

00:11:42,000 --> 00:11:43,000

Thank you so much, Caroline.

249

00:11:43,000 --> 00:11:44,000

You're welcome.

250

00:11:44,000 --> 00:11:45,000

It's been a pleasure.

251

00:11:46,000 --> 00:11:52,000

I think we start our experiments, then we break out our equipment and we spend the night here and see what happens.

252

00:11:52,000 --> 00:11:57,000

Alright guys, let's get started.

253

00:11:57,000 --> 00:12:03,000

Tonight we've prepared three experiments to recreate what Caroline captured in the cemetery.

254

00:12:03,000 --> 00:12:05,000

We have a mechanical experiment.

255

00:12:05,000 --> 00:12:07,000

We have a natural occurrence.

256

00:12:07,000 --> 00:12:10,000

We have a human experiment to try and explain what happened that night.

257

00:12:14,000 --> 00:12:15,000

Hi guys, I got my helmet.

258

00:12:15,000 --> 00:12:17,000

I'm going to grab the ATV to get ready for the first experiment.

259

00:12:17,000 --> 00:12:23,000

First experiment we're doing, we're testing a theory that people think it was just a vehicle just driving past the camera.

260

00:12:26,000 --> 00:12:27,000

I'm going to get on an ATV.

261

00:12:27,000 --> 00:12:30,000

I'm going to haul as fast as I can right by the camera, see if it looks anything like the video.

262

00:12:32,000 --> 00:12:39,000

I'm not really sure what this is going to look like, but my feeling is that we'll probably be able to make out the ATV and Austin's body on our camera.

263

00:12:39,000 --> 00:12:45,000

But if we get him zooming past at a certain speed, then maybe it will look like a blur.

264

00:12:48,000 --> 00:12:51,000

I'm going to say that the camera person was right about here.

265

00:12:51,000 --> 00:12:54,000

Let's give him enough room between here and the tree.

266

00:12:54,000 --> 00:12:57,000

So let's face it directly toward this tree.

267

00:12:58,000 --> 00:13:00,000

That's not right, right there.

268

00:13:00,000 --> 00:13:02,000

I mean that's where I would hold it.

269

00:13:02,000 --> 00:13:08,000

We're going to take our tripod and camera and try to match about the same height to where that was.

270

00:13:09,000 --> 00:13:11,000

Alright, what do you think, Ben? Are we ready to go?

271

00:13:11,000 --> 00:13:13,000

Let's call Austin and see.

272

00:13:14,000 --> 00:13:16,000

Hey Austin, start your engine.

273

00:13:18,000 --> 00:13:23,000

Ready in three, two, one, go!

274

00:13:37,000 --> 00:13:45,000

The original Caroline video, you can see the outline of the main light, you know what they're describing as the lantern.

275

00:13:45,000 --> 00:13:50,000

But there's two other faint lights here and you can actually almost see all the way through it. It's transparent.

276

00:13:50,000 --> 00:13:53,000

Let's play here and try and compare the visuals.

277

00:13:55,000 --> 00:14:00,000

That light we're seeing is a reflection of your shirt. You're not seeing anything else at this point.

278

00:14:01,000 --> 00:14:05,000

Well you're seeing the headlights of the ATV which are much, much brighter than this.

279

00:14:05,000 --> 00:14:10,000

And on top of all of that, this ATV is not the quietest thing in the world.

280

00:14:10,000 --> 00:14:12,000

I mean did you notice me going by?

281

00:14:12,000 --> 00:14:13,000

Yeah.

282

00:14:13,000 --> 00:14:15,000

I think somebody else would notice an ATV on the video as well.

283

00:14:15,000 --> 00:14:16,000

Yeah, completely.

284

00:14:17,000 --> 00:14:27,000

Assuming that this video is a real representation of what happened, I would have to absolutely rule out that this was any type of vehicle.

285

00:14:27,000 --> 00:14:32,000

It's just way too noisy, it would have been seen and I just don't think it's possible.

286

00:14:36,000 --> 00:14:41,000

There's a theory that this image was actually a naturally occurring dust level.

287

00:14:43,000 --> 00:14:49,000

And that there are flashlights of the people walking through reflected of this dust level coming through.

288

00:14:49,000 --> 00:14:53,000

So what we've got is this dolly track used in motion pictures.

289

00:14:53,000 --> 00:14:56,000

Then our dolly is going to be a high powered fan.

290

00:14:56,000 --> 00:14:58,000

Let's get it on the tracks.

291

00:15:03,000 --> 00:15:06,000

Let it be known that Austin still plays the dollies.

292

00:15:07,000 --> 00:15:08,000

To the day I die.

293

00:15:08,000 --> 00:15:12,000

What we're going to do is we're going to put Fuller's Earth underneath the actual track.

294

00:15:13,000 --> 00:15:15,000

And Gael will be pulling it along.

295

00:15:15,000 --> 00:15:18,000

And as it goes over it, I'll be back here filming.

296

00:15:18,000 --> 00:15:23,000

And hopefully we'll get it to suck up enough of this very fine dirt with a reflected light.

297

00:15:23,000 --> 00:15:27,000

And when it passes through, we'll see the same thing that we saw in the video.

298

00:15:32,000 --> 00:15:34,000

Looks good, looks good. Let's power up the fan.

299

00:15:34,000 --> 00:15:36,000

Hey Austin, kill the lights.

300

00:15:36,000 --> 00:15:37,000

Got it.

301

00:15:37,000 --> 00:15:39,000

Camera's rolling.

302

00:15:39,000 --> 00:15:41,000

Fan is ready.

303

00:15:44,000 --> 00:15:45,000

Okay, go ahead J-AI.

304

00:15:56,000 --> 00:15:59,000

We're going to put Fuller's Earth underneath the actual track.

305

00:15:59,000 --> 00:16:02,000

Hopefully we'll see the same thing that we saw in the video.

306

00:16:02,000 --> 00:16:03,000

Kill the lights.

307

00:16:03,000 --> 00:16:05,000

Camera's rolling.

308

00:16:05,000 --> 00:16:06,000

Let's power up the fan.

309

00:16:06,000 --> 00:16:07,000

Okay, go ahead J-AI.

310

00:16:13,000 --> 00:16:18,000

Nice, nice.

311

00:16:18,000 --> 00:16:20,000

How to look.

312

00:16:20,000 --> 00:16:23,000

The whole kind of plume lingered in the air quite a bit.

313

00:16:23,000 --> 00:16:27,000

The video when it comes by, it appears and then it disappears.

314

00:16:30,000 --> 00:16:33,000

This stuff is taking a long time to settle back down.

315

00:16:33,000 --> 00:16:37,000

That much dust up in the air, you're going to see some reaction from the person as well.

316

00:16:37,000 --> 00:16:42,000

Anyone who's walking along, you would think your natural reaction is to kind of shield your eyes.

317

00:16:42,000 --> 00:16:44,000

Or kind of move just side like that.

318

00:16:44,000 --> 00:16:46,000

I just don't think that it could have occurred here in the first place.

319

00:16:46,000 --> 00:16:52,000

And secondly, if it were an actual dust devil, you would expect the trees to react.

320

00:16:52,000 --> 00:16:53,000

Maybe the clothes on the person.

321

00:16:53,000 --> 00:16:55,000

That's a lot of wind that's coming by.

322

00:16:55,000 --> 00:16:56,000

I just didn't see that.

323

00:16:56,000 --> 00:17:00,000

I think it's pretty safe to say that this was not a dust devil.

324

00:17:00,000 --> 00:17:02,000

Man-made or natural.

325

00:17:07,000 --> 00:17:10,000

We can't completely dismiss that this could be a hoax.

326

00:17:10,000 --> 00:17:16,000

One of the best ways that we could try to replicate this is by building curtain of water vapor.

327

00:17:16,000 --> 00:17:19,000

Let's see if we can get this balanced up here and then we'll tie it down.

328

00:17:19,000 --> 00:17:25,000

You really can't see water vapor in the air unless some type of light is projected onto it.

329

00:17:25,000 --> 00:17:32,000

That possibly could explain what happened in the video because you're not seeing it there until this light passes through.

330

00:17:32,000 --> 00:17:38,000

What we've got here is a high pressure water pump that we've connected to a water source out on the street.

331

00:17:38,000 --> 00:17:44,000

We have PVC pipe and we're going to push water through the PVC pipe and water is going to come out the misting nozzles.

332

00:17:44,000 --> 00:17:52,000

Connected to these misters on the top, we've got some leaf blowers which will help push the water down and make it to a solid curtain.

333

00:17:56,000 --> 00:17:58,000

We remembered something that Caroline had told us.

334

00:17:58,000 --> 00:18:02,000

She believed that what she saw in the video was a person.

335

00:18:02,000 --> 00:18:04,000

It was not a train.

336

00:18:04,000 --> 00:18:06,000

Austin is an athletic guy.

337

00:18:06,000 --> 00:18:14,000

We thought that he would be able to run as fast as we needed him to run through that mist and try and create the effect that we were looking for.

338

00:18:14,000 --> 00:18:22,000

It's really important that you get far enough back and get enough speed so that when you pass Gael and myself that you're clipping.

339

00:18:22,000 --> 00:18:25,000

Got you all framed up.

340

00:18:25,000 --> 00:18:27,000

I'm rolling.

341

00:18:27,000 --> 00:18:30,000

Okay, Austin, power up your light.

342

00:18:30,000 --> 00:18:32,000

Go!

343

00:18:37,000 --> 00:18:40,000

Wow!

344

00:18:40,000 --> 00:18:46,000

You know what happened is when it came out of focus, it looked pretty good.

345

00:18:46,000 --> 00:18:49,000

What did the light look like as it was passing?

346

00:18:49,000 --> 00:18:51,000

Kind of like a orb.

347

00:18:51,000 --> 00:18:55,000

Kind of like a blob that we were holding at waist level.

348

00:18:55,000 --> 00:19:05,000

I'm still not quite sure that on the video it's going to look as transparent as whatever object Caroline captured.

349

00:19:07,000 --> 00:19:13,000

I say we break out our IR cameras and see what other kind of explanation we can find that's actually paranormal.

350

00:19:13,000 --> 00:19:15,000

Well, let's wire it up, huh?

351

00:19:15,000 --> 00:19:17,000

Let's go.

352

00:19:20,000 --> 00:19:27,000

Our attempts to recreate the phantom as an elaborate hoax or a natural occurrence weren't entirely convincing.

353

00:19:27,000 --> 00:19:30,000

So now it's time to look at a paranormal investigation.

354

00:19:30,000 --> 00:19:36,000

We're going to start by setting up our four infrared cameras and doing a sweep of the cemetery to find out what's really happening here.

355

00:19:36,000 --> 00:19:37,000

How's it looking?

356

00:19:37,000 --> 00:19:40,000

It's looking great. We've got them all set up, recording.

357

00:19:40,000 --> 00:19:43,000

So number one is where Caroline videotaped the event.

358

00:19:43,000 --> 00:19:46,000

Number two is that gate that's inside the cemetery.

359

00:19:46,000 --> 00:19:48,000

Number three is down in the ravine.

360

00:19:48,000 --> 00:19:50,000

And number four is over James Grave.

361

00:19:50,000 --> 00:19:51,000

Ready to get spooked?

362

00:19:51,000 --> 00:19:53,000

Hell's do it.

363

00:19:53,000 --> 00:19:55,000

Hell's go.

364

00:20:01,000 --> 00:20:04,000

Look at this one.

365

00:20:09,000 --> 00:20:16,000

Zebulon Hartman, 1807, 1843.

366

00:20:24,000 --> 00:20:26,000

Guys, camera three just completely went dead.

367

00:20:26,000 --> 00:20:29,000

Rain three just went completely blank. It's out.

368

00:20:29,000 --> 00:20:31,000

My walkie is going out as well.

369

00:20:33,000 --> 00:20:35,000

What happened?

370

00:20:39,000 --> 00:20:41,000

Something is really strange.

371

00:20:41,000 --> 00:20:51,000

I try not to blow things out of proportion, but when I'm walking around, I'm hearing little bits of like leaves, like a moving.

372

00:20:52,000 --> 00:21:00,000

We've been out here a while now, and I can't help it feel that somebody has been walking beside us ever since we started our first sweep.

373

00:21:00,000 --> 00:21:08,000

I'm hearing leaves rustling on the ground when there's no wind and it kind of seems like they're footsteps.

374

00:21:08,000 --> 00:21:14,000

And it sounds as if somebody is keeping pace with us with their footsteps.

375

00:21:14,000 --> 00:21:20,000

Maybe we should look for any leaves that move from those footsteps you've been hearing.

376

00:21:29,000 --> 00:21:31,000

You see that?

377

00:21:31,000 --> 00:21:33,000

What is that?

378

00:21:41,000 --> 00:21:43,000

Those leaves just move.

379

00:21:44,000 --> 00:21:51,000

I can't help it feel that somebody has been walking beside us ever since we started our first sweep.

380

00:21:51,000 --> 00:21:53,000

What is that?

381

00:21:53,000 --> 00:21:55,000

Did those leaves just move?

382

00:21:55,000 --> 00:21:58,000

That's really, really strange.

383

00:21:58,000 --> 00:22:02,000

We have to try and see if we can capture it on your camera.

384

00:22:02,000 --> 00:22:07,000

So I'm going to zoom in pretty good, and we're just going to crouch down, okay?

385

00:22:07,000 --> 00:22:09,000

As low as we can.

386

00:22:09,000 --> 00:22:14,000

Now you focus wherever you focus that light, I'm going to try to follow.

387

00:22:18,000 --> 00:22:21,000

Be really careful here. This is pretty steep.

388

00:22:24,000 --> 00:22:26,000

It didn't happen that time.

389

00:22:26,000 --> 00:22:29,000

It's like I turned my light on and now it's not happening.

390

00:22:29,000 --> 00:22:31,000

That was really strange.

391

00:22:31,000 --> 00:22:34,000

I was like, I'm going to go back and look for the leaves.

392

00:22:34,000 --> 00:22:36,000

I turned my light on and now it's not happening.

393

00:22:36,000 --> 00:22:38,000

That was really strange.

394

00:22:38,000 --> 00:22:40,000

It may have been an insect.

395

00:22:40,000 --> 00:22:49,000

I'm thinking the only real possible explanation is that it was some type of insect that's moving underneath the undergrowth here.

396

00:22:49,000 --> 00:22:53,000

So what we're going to do now is we're going to go over to James Payne's grave site.

397

00:22:53,000 --> 00:22:59,000

Is it possible that the ghostly figure that was captured on Caroline's video is James Payne?

398

00:23:00,000 --> 00:23:04,000

We're going to do an EVP session and see if he's trying to communicate with us.

399

00:23:10,000 --> 00:23:15,000

The night vision camera is close enough we'll be able to detect if any individual leaf moves.

400

00:23:15,000 --> 00:23:18,000

We've got our EVP audio recorder right here.

401

00:23:18,000 --> 00:23:20,000

We're going to sit down. Let's do a session.

402

00:23:21,000 --> 00:23:23,000

Ready guys?

403

00:23:24,000 --> 00:23:30,000

James, was it you who was in the video that we were investigating tonight?

404

00:23:33,000 --> 00:23:38,000

James, Ben and I had some odd experiences tonight here in the cemetery.

405

00:23:38,000 --> 00:23:44,000

We felt that someone led us to your grave site was at you.

406

00:23:46,000 --> 00:23:51,000

We saw footsteps or what looked like them was at you.

407

00:23:53,000 --> 00:24:02,000

Are you still frozen from Colorado?

408

00:24:02,000 --> 00:24:03,000

It was chilly.

409

00:24:03,000 --> 00:24:05,000

You battled some extreme temperatures there.

410

00:24:05,000 --> 00:24:10,000

First of all, I'd like to tell you a little bit about Indiana and what happened with us.

411

00:24:10,000 --> 00:24:15,000

So our first experiment with the ATV, we couldn't replicate the transparency.

412

00:24:17,000 --> 00:24:22,000

So we moved on and we tried creating our own dust devil and this is what happened.

413

00:24:24,000 --> 00:24:28,000

You see that we're creating a lot of wind and leaves and things are moving.

414

00:24:28,000 --> 00:24:31,000

And in the original you didn't see any of that.

415

00:24:31,000 --> 00:24:35,000

The final experiment that we tried is creating a miscreen.

416

00:24:35,000 --> 00:24:41,000

Our cameras were focused on the light that was coming through and the rest of it just didn't quite look right.

417

00:24:42,000 --> 00:24:48,000

What we decided to do at this point is to do an EVP session at the grave site.

418

00:24:48,000 --> 00:24:54,000

In this soundbite, you'll hear Austin talking and you'll hear Austin cough.

419

00:24:54,000 --> 00:24:58,000

Now what came after that was not any of us.

420

00:25:08,000 --> 00:25:09,000

Did you guys all hear that?

421

00:25:09,000 --> 00:25:13,000

He coughs and you hear cough.

422

00:25:13,000 --> 00:25:16,000

You hear a voice repeat cough.

423

00:25:16,000 --> 00:25:17,000

Yes.

424

00:25:17,000 --> 00:25:19,000

And then you hear a deep sigh after.

425

00:25:24,000 --> 00:25:25,000

So eerie.

426

00:25:25,000 --> 00:25:26,000

I know, that's weird.

427

00:25:30,000 --> 00:25:31,000

That is cool.

428

00:25:31,000 --> 00:25:32,000

It's very strange.

429

00:25:32,000 --> 00:25:36,000

Some very strange things were happening that night.

430

00:25:36,000 --> 00:25:38,000

What do you think of our efforts in replicating it?

431

00:25:38,000 --> 00:25:45,000

I don't think you were able to exactly replicate the videos, but you were still able to obtain good evidence of the paranormal.

432

00:25:45,000 --> 00:25:51,000

The efforts were great in the experiments, but I think that this video is a fact we did not debunk the video.

433

00:25:51,000 --> 00:25:54,000

Hey, just like I originally said, perfect setting for a ghost story.

434

00:25:54,000 --> 00:25:55,000

I agree.

435

00:25:55,000 --> 00:25:58,000

I think this could very well be a paranormal case.

436

00:25:58,000 --> 00:26:00,000

We weren't able to replicate the video.

437

00:26:00,000 --> 00:26:04,000

I think that there is something still unexplained in the cemetery of Indiana.

438

00:26:09,000 --> 00:26:10,000

So that was Indiana.

439

00:26:10,000 --> 00:26:11,000

What happened in Colorado?

440

00:26:11,000 --> 00:26:21,000

Well, if you remember the news segment that G-Lion brought us about the four catamutilations in San Luis, Colorado, we had a compelling video and a seemingly credible witness.

441

00:26:21,000 --> 00:26:22,000

Here's what happened.

442

00:26:28,000 --> 00:26:32,000

San Luis Valley is the largest alpine valley in the world.

443

00:26:32,000 --> 00:26:36,000

So this area was founded as a cattle rancher community.

444

00:26:36,000 --> 00:26:43,000

It still is a cattle rancher community, and they've been having these loss of their livestock now for a number of years.

445

00:26:43,000 --> 00:26:49,000

The rancher actually reported seeing some unexplained lights in the sky right before all these cattle mutilations happened.

446

00:26:49,000 --> 00:26:52,000

Interesting. That brings in maybe extraterrestrial possibilities.

447

00:26:52,000 --> 00:26:55,000

Maybe it is actually a UFO.

448

00:26:55,000 --> 00:27:00,000

Chuck Zakowski is the urophologist, and he's been meeting us on the outskirts of town.

449

00:27:00,000 --> 00:27:02,000

Chuck was there on the scene when the cattle were found.

450

00:27:02,000 --> 00:27:08,000

He took those photos. He's the one that's been studying catamutilations and UFOs.

451

00:27:08,000 --> 00:27:10,000

So he's a very, very important person here.

452

00:27:14,000 --> 00:27:15,000

Hey Chuck.

453

00:27:15,000 --> 00:27:16,000

Bill Murphy.

454

00:27:16,000 --> 00:27:17,000

How's it going? Chuck Zakowski.

455

00:27:17,000 --> 00:27:18,000

Yeah, nice to meet you.

456

00:27:18,000 --> 00:27:21,000

Now we've got a pretty interesting case here. I'm glad you've come out for this.

457

00:27:21,000 --> 00:27:23,000

You know, the ranch is just down the street a little bit.

458

00:27:23,000 --> 00:27:25,000

I can show you. I'll take you down there.

459

00:27:25,000 --> 00:27:26,000

I'll be heading off in that direction.

460

00:27:26,000 --> 00:27:27,000

Okay. All right.

461

00:27:27,000 --> 00:27:28,000

All right. Perfect.

462

00:27:33,000 --> 00:27:35,000

Mr. Sanchez, I'm Larry. Good to meet you.

463

00:27:35,000 --> 00:27:37,000

Mr. Sanchez, I'm Chilan. Nice to meet you.

464

00:27:37,000 --> 00:27:38,000

Hi, I'm Bill.

465

00:27:39,000 --> 00:27:43,000

I guess our first question would be, how did you happen to stumble upon these cows that were mutilated?

466

00:27:43,000 --> 00:27:46,000

I just came on to check on my cows. I happened to find those two.

467

00:27:46,000 --> 00:27:47,000

Daniel, can you show us where it happened?

468

00:27:47,000 --> 00:27:48,000

Yes.

469

00:27:48,000 --> 00:27:49,000

Hold them.

470

00:27:49,000 --> 00:27:50,000

All right.

471

00:27:53,000 --> 00:27:56,000

Okay, this is the area right here where the calf was found.

472

00:27:56,000 --> 00:27:59,000

Where did you find the carcass when you were first arrived on the scene?

473

00:27:59,000 --> 00:28:01,000

It was actually laying right here on the tree.

474

00:28:03,000 --> 00:28:06,000

That's the first thing we looked at to see whether or not it was dropped.

475

00:28:06,000 --> 00:28:08,000

It was almost as if someone laid it here.

476

00:28:11,000 --> 00:28:13,000

Both of you guys saw this calf and the carcass.

477

00:28:13,000 --> 00:28:15,000

What do you think caused it?

478

00:28:15,000 --> 00:28:18,000

I mean, were there certain incisions? Were they surgical? Was it clean?

479

00:28:18,000 --> 00:28:20,000

Was there any blood, any fur, any tracks around?

480

00:28:20,000 --> 00:28:25,000

When you just see an animal laying there, completely void of its internal organs, gut it out.

481

00:28:25,000 --> 00:28:27,000

And there's no other debris anywhere around on the ground.

482

00:28:27,000 --> 00:28:30,000

No blood, no blood markings on the hide.

483

00:28:30,000 --> 00:28:34,000

Then you're going, hmm, this doesn't look like a known predator kill.

484

00:28:34,000 --> 00:28:36,000

This falls into an unknown death.

485

00:28:39,000 --> 00:28:42,000

So when did you last see these calves alive?

486

00:28:42,000 --> 00:28:43,000

The day before.

487

00:28:43,000 --> 00:28:45,000

I usually come pretty often to check on the cows.

488

00:28:45,000 --> 00:28:48,000

Previous to this morning of walking upon this cow,

489

00:28:48,000 --> 00:28:50,000

had you seen anything out of the ordinary?

490

00:28:50,000 --> 00:28:54,000

Well, in August I saw some lights over in the other place.

491

00:28:55,000 --> 00:28:57,000

We come out of the mountains.

492

00:28:57,000 --> 00:28:58,000

Really?

493

00:28:58,000 --> 00:29:00,000

Really comes out of the mountains.

494

00:29:00,000 --> 00:29:02,000

Like from that hill there.

495

00:29:02,000 --> 00:29:04,000

Like a kid would come up.

496

00:29:04,000 --> 00:29:06,000

And did it move? Did it follow?

497

00:29:06,000 --> 00:29:08,000

It moved real, real slow.

498

00:29:09,000 --> 00:29:13,000

We learned Manu Sanchez witnessed an unexplained light that was hovering over the mountain

499

00:29:13,000 --> 00:29:16,000

where the light ended up as we discovered the mulet of cow.

500

00:29:16,000 --> 00:29:18,000

But the carcass disappeared soon after.

501

00:29:18,000 --> 00:29:23,000

Our plan is to sweep the area, look for paranormal evidence such as unusual magnetic fields

502

00:29:23,000 --> 00:29:25,000

or even traces of radiation.

503

00:29:25,000 --> 00:29:29,000

We also hope to find remnants of the cow that we can have tested for abnormalities.

504

00:29:33,000 --> 00:29:35,000

I have the EMF reader. You have the guy who can counter.

505

00:29:35,000 --> 00:29:40,000

We want to check for different levels of radiation, magnetic field changes, all of that stuff.

506

00:29:40,000 --> 00:29:42,000

We'll start out at the Cypress Tree that Manu showed us.

507

00:29:42,000 --> 00:29:44,000

That's where he found the fourth calf.

508

00:29:47,000 --> 00:29:50,000

I want to start reading my tri-field meter seeing if there are any anomalies in the area.

509

00:29:50,000 --> 00:29:52,000

Natural radiation occurs.

510

00:29:52,000 --> 00:29:57,000

So you just look for like a baseline, see if the whole area is generating.

511

00:29:57,000 --> 00:30:01,000

If you have a spike at the site, that's what we have to do cognizant of.

512

00:30:04,000 --> 00:30:05,000

I'm not getting anything at all.

513

00:30:05,000 --> 00:30:10,000

Not even right over here by the stick, which is where Manu pointed out to us that he found the fourth mutilated calf.

514

00:30:13,000 --> 00:30:15,000

I'm going to try to uncover the area and grow some samples.

515

00:30:16,000 --> 00:30:18,000

There's a pretty big cow that was here.

516

00:30:20,000 --> 00:30:23,000

There's got to be some remains. Things just couldn't completely disappear.

517

00:30:26,000 --> 00:30:29,000

Okay guys, I'm actually getting a small spike over here.

518

00:30:32,000 --> 00:30:34,000

Hey guys, did you find something?

519

00:30:34,000 --> 00:30:35,000

Yeah, I did.

520

00:30:35,000 --> 00:30:36,000

Yeah, I did.

521

00:30:43,000 --> 00:30:46,000

I'm going to try to uncover the area and grow some samples.

522

00:30:46,000 --> 00:30:50,000

Hey guys, Jalan, Larry, did you find something?

523

00:30:50,000 --> 00:30:51,000

Yeah, I did.

524

00:30:56,000 --> 00:30:58,000

I found a bone from the cattle.

525

00:30:58,000 --> 00:30:59,000

Oh wow.

526

00:30:59,000 --> 00:31:01,000

It's not even touched his bone.

527

00:31:02,000 --> 00:31:04,000

Excellent. We got these samples.

528

00:31:04,000 --> 00:31:06,000

Let's get out from under here guys.

529

00:31:12,000 --> 00:31:18,000

Skeptics believe cattle mutilations are a result of either a man-made hoax or a natural predator attack.

530

00:31:18,000 --> 00:31:23,000

If it's a man-made hoax, how do they do this overnight without leaving any trace evidence behind?

531

00:31:23,000 --> 00:31:28,000

To help uncover this mystery, we enlisted the help of a local veterinarian, Dr. Amy Mason.

532

00:31:28,000 --> 00:31:32,000

She's going to be performing an actual mutilation on a real dead cow.

533

00:31:33,000 --> 00:31:36,000

We need to have all these cameras set up so we can document everything to do with this recreation.

534

00:31:36,000 --> 00:31:41,000

We're going to set up two of our cameras so we can document this experiment from beginning to end.

535

00:31:41,000 --> 00:31:47,000

It's good to be able to try to recreate this as close as possible to the mutilation on mine and whales property.

536

00:31:52,000 --> 00:31:54,000

I think this is probably our vet.

537

00:31:54,000 --> 00:31:55,000

Dr. Mason.

538

00:31:55,000 --> 00:31:56,000

Hey.

539

00:31:56,000 --> 00:32:03,000

Dr. Mason let us know that the cow has died of natural causes and it's gone ahead and registered our experiment with the American Humane Society.

540

00:32:03,000 --> 00:32:10,000

We've also promised that after the experiments, this calf will then be moved to the wolf sanctuary so that it does not go to waste.

541

00:32:10,000 --> 00:32:17,000

She's going to help us try to replicate the evidence that we found with the mutilated cattle, which shows very precise incisions.

542

00:32:17,000 --> 00:32:21,000

Now on the edges of some of these incisions appear to be burn marks.

543

00:32:21,000 --> 00:32:26,000

We're hopeful that by using an electric cauterizer, we can mimic some of these same results.

544

00:32:26,000 --> 00:32:31,000

Let's try this. Let's go right for what this is. It's coming up like this.

545

00:32:36,000 --> 00:32:37,000

There it goes.

546

00:32:47,000 --> 00:32:49,000

You can see though how long it would take.

547

00:32:49,000 --> 00:32:50,000

Yeah.

548

00:32:52,000 --> 00:32:54,000

Almost an inch thick.

549

00:32:54,000 --> 00:32:55,000

Yep.

550

00:32:55,000 --> 00:32:58,000

So this isn't something that someone can easily and quickly do.

551

00:32:58,000 --> 00:32:59,000

No.

552

00:33:01,000 --> 00:33:07,000

And you know from looking at how it does burn the edges a bit of the flesh, I mean it's cauterizing

it.

553

00:33:07,000 --> 00:33:11,000

So if there was a blood flow, it could seal those vessels with a bunch of bleeding.

554

00:33:11,000 --> 00:33:13,000

Yeah, I am noticing that there is no blood.

555

00:33:13,000 --> 00:33:14,000

There is no blood.

556

00:33:15,000 --> 00:33:17,000

Dr. Mason first used the cauterizer.

557

00:33:17,000 --> 00:33:22,000

It started to look very similar, very clean, precise cuts.

558

00:33:22,000 --> 00:33:29,000

The only drawback from that is one, you need an electric source and two, it just took forever.

559

00:33:29,000 --> 00:33:34,000

I'm not saying whoever did those weren't out there all night, but it is just very unlikely.

560

00:33:39,000 --> 00:33:42,000

Have you ever heard of a predator being able to make these types of cuts?

561

00:33:42,000 --> 00:33:49,000

Usually you'll see claw marks and bite marks and teeth marks and you'll see where they've left tracks and trails.

562

00:33:49,000 --> 00:33:51,000

No, they're not neat.

563

00:33:53,000 --> 00:33:55,000

This happened in 24 hours.

564

00:33:55,000 --> 00:33:57,000

Now where did the mess go?

565

00:33:58,000 --> 00:34:01,000

The cauterizer didn't prove very practical in this sense.

566

00:34:01,000 --> 00:34:03,000

Maybe it was something portable that made the cuts.

567

00:34:03,000 --> 00:34:05,000

Possibly a laser.

568

00:34:07,000 --> 00:34:09,000

So a doctor, actually we have a laser.

569

00:34:09,000 --> 00:34:13,000

Maybe we can try to use that as make some precision cuts.

570

00:34:20,000 --> 00:34:22,000

How's it going, doctor?

571

00:34:22,000 --> 00:34:24,000

You know, I don't think it's cutting very well.

572

00:34:25,000 --> 00:34:29,000

With this laser, it would take an incredibly long time.

573

00:34:31,000 --> 00:34:33,000

The laser wasn't effective at all.

574

00:34:33,000 --> 00:34:38,000

If it wasn't a cauterizer or a laser, maybe it was something like a knife or a scalpel.

575

00:34:39,000 --> 00:34:41,000

It was a knife.

576

00:34:49,000 --> 00:34:53,000

Notice how the cuts ended up being a series of smaller cuts.

577

00:34:53,000 --> 00:34:59,000

We can see that all the instruments that we've been using, none of them really exactly matched the photos that we've been looking at.

578

00:34:59,000 --> 00:35:01,000

The blades cut through easier.

579

00:35:01,000 --> 00:35:08,000

The cauterizer leaves the slight carbonization at the tissue's edge and the laser isn't satisfactory at all.

580

00:35:08,000 --> 00:35:14,000

I don't think that there's a person capable to clean out a carcass like the pictures that we saw.

581

00:35:16,000 --> 00:35:18,000

The carcass was completely cleaned out.

582

00:35:19,000 --> 00:35:22,000

The weight of any meat, any organ material, any vessels.

583

00:35:22,000 --> 00:35:26,000

You know, I just don't believe that a person would be able to do that.

584

00:35:30,000 --> 00:35:34,000

If people aren't doing this, maybe it is a result of animal attacks.

585

00:35:34,000 --> 00:35:40,000

To test this theory, we're going to leave the carcass out overnight to see if it attracts either predators or scavengers.

586

00:35:40,000 --> 00:35:53,000

The fact that San Luis has had five accounts of UFO sightings reported since 1996 and Manuel Sanchez, the rancher, has actually said that he saw lights in the sky before he found his last mutilated cattle.

587

00:35:53,000 --> 00:35:59,000

Makes me think that there might be a correlation between whismacine in the sky and what they're finding mutilated on the ground.

588

00:36:05,000 --> 00:36:10,000

So instead of just doing four cameras out into the field, I think we should put one skyward.

589

00:36:10,000 --> 00:36:12,000

Let's aim it northward.

590

00:36:15,000 --> 00:36:18,000

Alright, so base camp will stay here and then you guys will go out in the field.

591

00:36:18,000 --> 00:36:21,000

It's a good idea. Let's just stay in radio contact with each other.

592

00:36:22,000 --> 00:36:25,000

Alright, so right now we have cameras looking this way.

593

00:36:25,000 --> 00:36:27,000

One is here.

594

00:36:27,000 --> 00:36:30,000

Two is going to be diagonally through the street towards the river.

595

00:36:30,000 --> 00:36:32,000

Three is going to be boarded by the river on this end.

596

00:36:32,000 --> 00:36:35,000

And of course four we have in front of the car looking up.

597

00:36:35,000 --> 00:36:38,000

So we have eyes everywhere. Everything's being recorded.

598

00:36:38,000 --> 00:36:40,000

And I'm going to turn these on and we're going to go green.

599

00:36:40,000 --> 00:36:42,000

We see that over there? Where?

600

00:36:42,000 --> 00:36:44,000

Looks like something fell.

601

00:36:44,000 --> 00:36:46,000

I want to go take a look.

602

00:36:46,000 --> 00:36:47,000

Alright.

603

00:37:11,000 --> 00:37:13,000

What is that?

604

00:37:21,000 --> 00:37:24,000

We have eyes everywhere. Everything's being recorded.

605

00:37:24,000 --> 00:37:26,000

What is that?

606

00:37:29,000 --> 00:37:30,000

I want to go take a look.

607

00:37:30,000 --> 00:37:32,000

Alright. What is it?

608

00:37:32,000 --> 00:37:34,000

I can't tell.

609

00:37:34,000 --> 00:37:36,000

That's just a log.

610

00:37:41,000 --> 00:37:46,000

I know that this place did have five reported instances since 1996.

611

00:37:46,000 --> 00:37:48,000

So I'm hoping that we do see something in the sky.

612

00:37:48,000 --> 00:37:50,000

Manual did report seeing something.

613

00:37:52,000 --> 00:37:54,000

This is the path that they're taking.

614

00:37:54,000 --> 00:37:56,000

We're actually on it right now.

615

00:37:57,000 --> 00:38:00,000

The closer we get to them, they scatter.

616

00:38:00,000 --> 00:38:03,000

If there is somebody doing these mutilations,

617

00:38:03,000 --> 00:38:06,000

it would be extremely hard for them to actually get to these cattle

618

00:38:06,000 --> 00:38:08,000

because they are so scared of those humans.

619

00:38:11,000 --> 00:38:14,000

I think we've scoured this whole area,

620

00:38:14,000 --> 00:38:17,000

but I don't think we're going to have a fresh mutilation

621

00:38:17,000 --> 00:38:19,000

that we're going to see tonight.

622

00:38:19,000 --> 00:38:21,000

We knew the chances were slim that we would encounter

623

00:38:21,000 --> 00:38:24,000

anything that could explain what's happening here in the Sanchez Ranch.

624

00:38:24,000 --> 00:38:28,000

Even if we spent months out here, there's no guarantee we get what we need.

625

00:38:28,000 --> 00:38:31,000

In the morning, we're going to check the carcass and the footage

626

00:38:31,000 --> 00:38:34,000

to see if it's attracted a predator or whatever it is

627

00:38:34,000 --> 00:38:36,000

that's causing these mutilations.

628

00:38:41,000 --> 00:38:44,000

Yesterday, we tried to recreate the cattle mutilation

629

00:38:44,000 --> 00:38:47,000

as something being man-made, but we weren't very successful.

630

00:38:47,000 --> 00:38:50,000

And our nighttime investigation didn't reveal anything paranormal.

631

00:38:50,000 --> 00:38:54,000

But an overnight camera did catch a bird feeding off the carcass.

632

00:38:54,000 --> 00:38:58,000

Perhaps these mutilation is uncaused by anything paranormal or man-made,

633

00:38:58,000 --> 00:39:01,000

but are a result of a more natural occurrence.

634

00:39:10,000 --> 00:39:13,000

One of the theories on the mutilation of cows

635

00:39:13,000 --> 00:39:17,000

on how the precise incisions get there is from natural bloating from within.

636

00:39:17,000 --> 00:39:20,000

So we have an experiment here to try to replicate that

637

00:39:20,000 --> 00:39:22,000

and see if we can get those precise incisions.

638

00:39:25,000 --> 00:39:26,000

So I have the new bladder here.

639

00:39:26,000 --> 00:39:29,000

We're going to put that into the spot.

640

00:39:29,000 --> 00:39:32,000

And this is our large cow hide.

641

00:39:33,000 --> 00:39:37,000

One of the big differentiations between just a cow dying of natural causes

642

00:39:37,000 --> 00:39:42,000

and the pasture and a cattle mutilation is the presence of surgical-like cuts

643

00:39:42,000 --> 00:39:44,000

within the hide.

644

00:39:44,000 --> 00:39:48,000

So what we've gone ahead and done is found consumer-grade cow hide.

645

00:39:48,000 --> 00:39:51,000

And we've mounted it onto a large board.

646

00:39:53,000 --> 00:39:55,000

And we've put a balloon in there that we can blow up with air

647

00:39:55,000 --> 00:39:59,000

to mimic the natural gases expanding underneath the skin.

648

00:40:01,000 --> 00:40:04,000

Hopefully we can make that balloon blow up to the point that it would split the skin

649

00:40:04,000 --> 00:40:08,000

and it would create these very surgical-like incisions within the hide.

650

00:40:08,000 --> 00:40:09,000

Okay, you guys ready?

651

00:40:09,000 --> 00:40:10,000

Yep.

652

00:40:10,000 --> 00:40:11,000

How many of you are?

653

00:40:11,000 --> 00:40:12,000

Here we go. Let's start.

654

00:40:16,000 --> 00:40:17,000

It's blowing up pretty nice.

655

00:40:17,000 --> 00:40:18,000

It is blowing up.

656

00:40:23,000 --> 00:40:25,000

I see a tear for me.

657

00:40:26,000 --> 00:40:27,000

It's ripping back here.

658

00:40:27,000 --> 00:40:28,000

It's ripping on this side.

659

00:40:28,000 --> 00:40:30,000

Are you getting that? You see it? Yeah.

660

00:40:31,000 --> 00:40:32,000

That's really precise.

661

00:40:35,000 --> 00:40:39,000

Now one of the things that is a hallmark of some of these mutilation cases

662

00:40:39,000 --> 00:40:41,000

is radioactivity in the area.

663

00:40:41,000 --> 00:40:45,000

Believe it or not, there was a slight trace of radioactivity

664

00:40:45,000 --> 00:40:48,000

right where the mutilated cow was found.

665

00:40:49,000 --> 00:40:53,000

We decided we would do our darners to fan out and look for any trace evidence.

666

00:40:53,000 --> 00:40:57,000

But it was right under the tree where we found a single bone.

667

00:40:58,000 --> 00:41:04,000

We had it analyzed by Dr. Thomas Wade, who is the director of Zoological Studies at UCLA.

668

00:41:04,000 --> 00:41:06,000

And it came back completely normal.

669

00:41:06,000 --> 00:41:10,000

Although it was a cow bone, we thought maybe it was from the fourth mutilation.

670

00:41:10,000 --> 00:41:12,000

There was nothing unusual about it.

671

00:41:13,000 --> 00:41:16,000

We were actually lucky enough to find a cow that had died of natural causes

672

00:41:16,000 --> 00:41:19,000

and we contacted a local veterinary surgeon, Dr. Mason.

673

00:41:19,000 --> 00:41:23,000

She came out to help us try to replicate these mutilations.

674

00:41:23,000 --> 00:41:28,000

She used a cauterizer, a sharp knife and a high-powered laser.

675

00:41:28,000 --> 00:41:32,000

But it made too big of a mess and it was just way too slow.

676

00:41:32,000 --> 00:41:38,000

So we came to the determination if a trained professional couldn't do this, nobody else could either.

677

00:41:38,000 --> 00:41:43,000

So now that we have this carcass, we thought why not put a camera on it and watch it overnight?

678

00:41:43,000 --> 00:41:45,000

The footage that we got of the cow that we left out

679

00:41:45,000 --> 00:41:48,000

showed that there were a lot of birds preying on this carcass.

680

00:41:48,000 --> 00:41:52,000

So we thought, okay, that pointed us towards natural theories, natural occurrence theories.

681

00:41:52,000 --> 00:41:54,000

So we had to start looking at that.

682

00:41:54,000 --> 00:41:57,000

So we thought why not do a bloat test?

683

00:41:57,000 --> 00:42:01,000

A lot of theories out there say that these animals that died, their natural gases within their bodies

684

00:42:01,000 --> 00:42:07,000

actually caused their skin to expand and bloat and then rip and look like surgical incisions.

685

00:42:07,000 --> 00:42:10,000

So for us to mimic that, we went ahead and got a shammy

686

00:42:10,000 --> 00:42:13,000

and we started expanding that to see if we can get the same results.

687

00:42:13,000 --> 00:42:15,000

And you've got to take a look at this.

688

00:42:18,000 --> 00:42:19,000

It's ripping.

689

00:42:25,000 --> 00:42:27,000

Almost in a straight line.

690

00:42:27,000 --> 00:42:31,000

It actually seems to follow just the shape of the bladder.

691

00:42:33,000 --> 00:42:37,000

And when we actually did the mutilation with Dr. Amy Mason,

692

00:42:37,000 --> 00:42:41,000

we noticed that the organs underneath the skin also have that curvature.

693

00:42:41,000 --> 00:42:45,000

When the organs inflate, it makes a curved hair.

694

00:42:46,000 --> 00:42:50,000

I know that cows generate a lot of methane and other gases inside,

695

00:42:50,000 --> 00:42:53,000

so I could see that being a factor.

696

00:42:53,000 --> 00:42:58,000

You guys think this is possibly what caused this animal to rupture in that way?

697

00:42:58,000 --> 00:43:03,000

Definitely, because even with a calf that we were using that was only dead for about 24 hours

698

00:43:03,000 --> 00:43:06,000

when we started our experimentation, had already begun bloating.

699

00:43:06,000 --> 00:43:08,000

And Dr. Amy Mason actually pointed that out to us.

700

00:43:08,000 --> 00:43:13,000

So what we're trying to say is this case doesn't look like it's paranormal.

701

00:43:13,000 --> 00:43:19,000

Given the indicators of the bloat test and how the scavengers were picking on the carcass posthumously,

702

00:43:19,000 --> 00:43:22,000

I would say that it is a natural phenomena.

703

00:43:22,000 --> 00:43:25,000

It's a very plausible explanation that this was a natural occurrence.

704

00:43:25,000 --> 00:43:27,000

I say this case is closed.
