

A man with dark hair and a mustache is shown from the chest up, speaking into a large black studio microphone. He is wearing a black t-shirt with a colorful graphic on the front. The background consists of dark horizontal blinds. A bright light source is visible on the left side of the frame, creating a soft glow. The overall lighting is dim, typical of a radio broadcast booth.

leading researchers and lecturers

52
00:02:52,270 --> 00:02:49,400
specializing in ancient civilization

53
00:02:53,559 --> 00:02:52,280
technologies mr. Martel's research has

54
00:02:55,599 --> 00:02:53,569
been featured worldwide

55
00:02:58,119 --> 00:02:55,609
numerous television and radio networks

56
00:03:01,539 --> 00:02:58,129
such as the Discovery Channel History

57
00:03:03,759 --> 00:03:01,549
Channel sci-fi channel the BBC amongst

58
00:03:05,800 --> 00:03:03,769
others lecturing throughout the world

59
00:03:08,559 --> 00:03:05,810
mr. Martel has dedicated his studies to

60
00:03:10,300 --> 00:03:08,569
ancient artifacts in the Sumerian

61
00:03:12,459 --> 00:03:10,310
culture by using the latest in

62
00:03:15,940 --> 00:03:12,469
scientific research supporting evidence

63
00:03:18,759 --> 00:03:15,950

and data he is now enjoying his sixth

64

00:03:21,699 --> 00:03:18,769

season on ancient aliens I would like to

65

00:03:24,030 --> 00:03:21,709

welcome to the program right now mr.

66

00:03:26,830 --> 00:03:24,040

Jason Martel Jason are you with us I

67

00:03:28,539 --> 00:03:26,840

sure am Jim Ian thank you so much for

68

00:03:28,929 --> 00:03:28,549

having me on your show yeah this is

69

00:03:31,470 --> 00:03:28,939

great

70

00:03:34,689 --> 00:03:31,480

I really appreciate it now we've got

71

00:03:37,800 --> 00:03:34,699

we're gonna do a full hour no

72

00:03:42,550 --> 00:03:37,810

commercials just a conversation and

73

00:03:45,369 --> 00:03:42,560

let's go you ready I sure AM and we'll

74

00:03:47,860 --> 00:03:45,379

pack it in as much as we can within 60

75

00:03:49,599 --> 00:03:47,870

minutes I really appreciate it but the

76

00:03:51,909 --> 00:03:49,609

first thing that I have to know and I'm

77

00:03:55,119 --> 00:03:51,919

a big fan of the show huge huge since

78

00:03:57,839 --> 00:03:55,129

day one but are you surprised with the

79

00:04:01,149 --> 00:03:57,849

success of the show of ancient aliens

80

00:04:02,679 --> 00:04:01,159

I'm unbelievably impressed and just to

81

00:04:05,679 --> 00:04:02,689

give your audience an idea of the

82

00:04:08,409 --> 00:04:05,689

success in the TV industry if the show

83

00:04:11,170 --> 00:04:08,419

has anything about above 0.5 in

84

00:04:12,309 --> 00:04:11,180

viewership per episode that means 0.5 is

85

00:04:14,409 --> 00:04:12,319

half a million people

86

00:04:16,300 --> 00:04:14,419

then it's doing a good thing ancient

87

00:04:20,849 --> 00:04:16,310

aliens averages from what I understand

88

00:04:24,010 --> 00:04:20,859

to be around point 9 that's 900,000 to

89

00:04:27,310 --> 00:04:24,020

1.9 million people watching per episode

90

00:04:29,770 --> 00:04:27,320

and the funny thing is is they run

91

00:04:32,409 --> 00:04:29,780

repeats and it still gets the same

92

00:04:34,870 --> 00:04:32,419

numbers so for whatever reason Jimmy yes

93

00:04:37,029 --> 00:04:34,880

I'm extremely grateful to be part of the

94

00:04:39,450 --> 00:04:37,039

platform that delivers this information

95

00:04:42,670 --> 00:04:39,460

to the public how do you explain the the

96

00:04:44,950 --> 00:04:42,680

fascination you know I mean it seems

97

00:04:48,339 --> 00:04:44,960

like it's come on sudden but on top of

98

00:04:52,029 --> 00:04:48,349

that every channel it seems like right

99

00:04:55,659 --> 00:04:52,039

now on cable and satellite has something

100

00:04:59,050 --> 00:04:55,669

to do with you know aliens UFO ancient

101
00:05:02,170 --> 00:04:59,060
aliens the Ark you know lost Sybil is a

102
00:05:04,659 --> 00:05:02,180
it is just sudden and strong Wow how do

103
00:05:06,430 --> 00:05:04,669
you explain that right now a good friend

104
00:05:07,399 --> 00:05:06,440
of mine was just recently in the dubai

105
00:05:10,639 --> 00:05:07,409
reads

106
00:05:13,850 --> 00:05:10,649
the United Emirates enta they even over

107
00:05:17,149 --> 00:05:13,860
there or playing ancient aliens on like

108
00:05:20,449 --> 00:05:17,159
everywhere in hotels and airports and he

109
00:05:22,189 --> 00:05:20,459
was sending me shots via iPhone I can't

110
00:05:25,759 --> 00:05:22,199
explain it Jimmy other than to say that

111
00:05:27,409 --> 00:05:25,769
I think it's just you know the timing of

112
00:05:30,829 --> 00:05:27,419
the way things are escalating in the

113
00:05:33,079 --> 00:05:30,839

last hundred years you know things have

114

00:05:34,389 --> 00:05:33,089

exponentially increased and changed no

115

00:05:37,100 --> 00:05:34,399

one would have thought that you'd have a

116

00:05:38,959 --> 00:05:37,110

phone that could fit in your hand 50

117

00:05:41,209 --> 00:05:38,969

years ago it wouldn't be possible you

118

00:05:43,189 --> 00:05:41,219

know walk around without wires so I

119

00:05:45,079 --> 00:05:43,199

think it's just about that time where we

120

00:05:47,809 --> 00:05:45,089

reach or reaching a precipice beyond

121

00:05:50,029 --> 00:05:47,819

2012 we've hit that marker and now gone

122

00:05:51,979 --> 00:05:50,039

beyond it and it's time for a change in

123

00:05:54,139 --> 00:05:51,989

a new outlook well and I think that

124

00:05:57,049 --> 00:05:54,149

people are looking for answers they

125

00:05:58,069 --> 00:05:57,059

finally they have a way to research you

126

00:06:01,639 --> 00:05:58,079

know with the internet like you're

127

00:06:03,739 --> 00:06:01,649

saying but now they want answers and and

128

00:06:06,350 --> 00:06:03,749

I think that that has a lot to do with

129

00:06:09,769 --> 00:06:06,360

the success of not only you know gives

130

00:06:11,749 --> 00:06:09,779

researchers like you a platform because

131

00:06:13,669 --> 00:06:11,759

now people are asking new questions and

132

00:06:16,959 --> 00:06:13,679

and you can respond but I think they

133

00:06:19,519 --> 00:06:16,969

just want answers is that what you feel

134

00:06:23,389 --> 00:06:19,529

well Jimmy I don't want to set up a good

135

00:06:25,249 --> 00:06:23,399

marketing promise there but at the end

136

00:06:26,929 --> 00:06:25,259

of the show yes my latest endeavor which

137

00:06:28,219 --> 00:06:26,939

I'll give you a plug at the end is to do

138

00:06:31,579 --> 00:06:28,229

just that is to educate the public

139

00:06:33,859 --> 00:06:31,589

directly not just on what you see on TV

140

00:06:35,959 --> 00:06:33,869

but yeah you're right people are

141

00:06:38,989 --> 00:06:35,969

searching for answers and thankfully we

142

00:06:42,290 --> 00:06:38,999

now have connected tools that we can get

143

00:06:44,419 --> 00:06:42,300

an opinion from a global perspective and

144

00:06:46,999 --> 00:06:44,429

not just in your own region or from your

145

00:06:47,600 --> 00:06:47,009

own specific religion let's jump in I'm

146

00:06:51,259 --> 00:06:47,610

gonna jump

147

00:06:55,669 --> 00:06:51,269

we've got a lot to get in here really in

148

00:06:58,040 --> 00:06:55,679

such a short time but Planet X Planet X

149

00:07:01,179 --> 00:06:58,050

it seems to mean I've got a lot of

150

00:07:04,429 --> 00:07:01,189

friends over at the Jet Propulsion and

151
00:07:06,919 --> 00:07:04,439
it seems that everybody is talking about

152
00:07:08,419 --> 00:07:06,929
it and I think a lot of astronomers you

153
00:07:10,699 --> 00:07:08,429
know that's what they're doing they're

154
00:07:13,609 --> 00:07:10,709
looking for this do you think we're

155
00:07:16,029 --> 00:07:13,619
getting close to an answer we are on a

156
00:07:19,069 --> 00:07:16,039
scientific level there's a crossover

157
00:07:20,959 --> 00:07:19,079
between the paranormal and science on

158
00:07:21,110 --> 00:07:20,969
various topics and Planet X is one of

159
00:07:33,050 --> 00:07:21,120
the

160
00:07:35,719 --> 00:07:33,060
scientific telemetry in space has been

161
00:07:38,570 --> 00:07:35,729
leading to the idea that the planets

162
00:07:40,640 --> 00:07:38,580
there's a gravitational influence on all

163
00:07:43,370 --> 00:07:40,650

the outer planets that seems to suggest

164

00:07:46,370 --> 00:07:43,380

there's some other large planet causing

165

00:07:47,870 --> 00:07:46,380

this influential Pole but they haven't

166

00:07:50,750 --> 00:07:47,880

been able to find this planet so they

167

00:07:53,240 --> 00:07:50,760

fine-tuned this research into using

168

00:07:54,920 --> 00:07:53,250

infrared telescopes and when they

169

00:07:56,960 --> 00:07:54,930

flipped on all these telescopes Jimmy

170

00:08:00,560 --> 00:07:56,970

several years ago they found out that

171

00:08:02,120 --> 00:08:00,570

there's all kinds of these planets just

172

00:08:04,820 --> 00:08:02,130

kind of floating around in our vicinity

173

00:08:07,610 --> 00:08:04,830

so the problem hasn't been filming

174

00:08:10,340 --> 00:08:07,620

Planet X it's identifying it because

175

00:08:12,800 --> 00:08:10,350

when we have a plate of the of the sky

176

00:08:15,409 --> 00:08:12,810

it might contain a hundred different

177

00:08:17,090 --> 00:08:15,419

candidates of extra extrasolar planets

178

00:08:19,730 --> 00:08:17,100

that are you know kind of floating in

179

00:08:21,560 --> 00:08:19,740

our vicinity but tracking the orbits of

180

00:08:24,260 --> 00:08:21,570

all of these and determining which ones

181

00:08:27,110 --> 00:08:24,270

might come close to Earth or a candidate

182

00:08:29,000 --> 00:08:27,120

for this ancient planet x nibiru it's

183

00:08:31,100 --> 00:08:29,010

just a lot of data now that's not to say

184

00:08:32,829 --> 00:08:31,110

that someone doesn't know exactly where

185

00:08:35,360 --> 00:08:32,839

it is and then it's not being tracked

186

00:08:37,279 --> 00:08:35,370

but completely honest with you I'm not

187

00:08:38,920 --> 00:08:37,289

aware of that and there is no public

188

00:08:41,029 --> 00:08:38,930

data as of yet

189

00:08:45,079 --> 00:08:41,039

scientifically confirming a planet acts

190

00:08:47,390 --> 00:08:45,089

well asteroids just seem to pop up you

191

00:08:49,280 --> 00:08:47,400

know I would think with all of you know

192

00:08:51,710 --> 00:08:49,290

the radars and and the things that we

193

00:08:53,449 --> 00:08:51,720

have pointy you know telescopes radar

194

00:08:55,730 --> 00:08:53,459

telescope everything that's radio

195

00:08:57,740 --> 00:08:55,740

telescope pointing out into the universe

196

00:09:00,740 --> 00:08:57,750

that we know everything that's going on

197

00:09:02,930 --> 00:09:00,750

out there but yet a huge asteroid sneaks

198

00:09:04,390 --> 00:09:02,940

up on us it seems like every single

199

00:09:06,769 --> 00:09:04,400

month

200

00:09:10,070 --> 00:09:06,779

well you're right and and the way I

201
00:09:12,710 --> 00:09:10,080
answer in the Planet X envelope Jimmy is

202
00:09:15,620 --> 00:09:12,720
that we have a very astute amateur

203
00:09:19,190 --> 00:09:15,630
astronomy community anything from hail

204
00:09:20,540 --> 00:09:19,200
Bob to Shu Laker shoemaker-levy 9 which

205
00:09:23,210 --> 00:09:20,550
broke up and several eyes large

206
00:09:25,940 --> 00:09:23,220
fragments and impacted Jupiter anything

207
00:09:28,579 --> 00:09:25,950
on an on a large scale happening within

208
00:09:30,470 --> 00:09:28,589
our solar system the amateur astronomy

209
00:09:32,449 --> 00:09:30,480
community always picks it up before the

210
00:09:34,970 --> 00:09:32,459
professional community and Eska like

211
00:09:37,310 --> 00:09:34,980
escalates it to them because there are

212
00:09:38,900 --> 00:09:37,320
many eyes so if anything is coming

213
00:09:39,319 --> 00:09:38,910

towards the inner part of our solar

214

00:09:42,730 --> 00:09:39,329

system

215

00:09:46,340 --> 00:09:42,740

that's planetary size we're gonna see it

216

00:09:48,439 --> 00:09:46,350

asteroids comets you're right we need a

217

00:09:50,750 --> 00:09:48,449

much better near-earth asteroid

218

00:09:52,610 --> 00:09:50,760

detection program but it is interesting

219

00:09:56,329 --> 00:09:52,620

that allow these comets and asteroids

220

00:09:59,120 --> 00:09:56,339

seem to follow a similar elongated path

221

00:10:02,360 --> 00:09:59,130

that come in the same direction of where

222

00:10:04,850 --> 00:10:02,370

we proposed a Planet X path might also

223

00:10:07,879 --> 00:10:04,860

contain it's like these debris czar in

224

00:10:11,360 --> 00:10:07,889

some ancient orbit if you will I just

225

00:10:14,870 --> 00:10:11,370

got a text in from Robert Osorio of

226

00:10:16,579 --> 00:10:14,880

Lancaster California and he's got he's

227

00:10:19,490 --> 00:10:16,589

got a great question and I'm gonna lay

228

00:10:23,329 --> 00:10:19,500

it out there where do you think Planet X

229

00:10:26,180 --> 00:10:23,339

is right now in the now now where is it

230

00:10:28,160 --> 00:10:26,190

right yeah well here's here's the more

231

00:10:31,550 --> 00:10:28,170

complexed answer to this gentlemen is

232

00:10:33,050 --> 00:10:31,560

that every every model that we've been

233

00:10:35,569 --> 00:10:33,060

putting around Planet X is based around

234

00:10:38,269 --> 00:10:35,579

one Sun the latest research that I've

235

00:10:40,519 --> 00:10:38,279

been doing changes that model so it's

236

00:10:42,620 --> 00:10:40,529

not as easy to answer anymore most solar

237

00:10:44,689 --> 00:10:42,630

systems that we've been filming external

238

00:10:45,410 --> 00:10:44,699

solar systems on our own are at least

239

00:10:47,360 --> 00:10:45,420

binary

240

00:10:50,420 --> 00:10:47,370

they have at least two suns some of them

241

00:10:53,420 --> 00:10:50,430

in 6/8 and it's intricate dance it's

242

00:10:55,670 --> 00:10:53,430

very good chance that that the science

243

00:10:58,280 --> 00:10:55,680

is showing us we are a binary solar

244

00:11:00,199 --> 00:10:58,290

system we have two sons if there is a

245

00:11:01,790 --> 00:11:00,209

Planet X it's not looping around just

246

00:11:05,360 --> 00:11:01,800

our one Sun it's looping around the

247

00:11:07,400 --> 00:11:05,370

second son failed brown dwarf even the

248

00:11:10,910 --> 00:11:07,410

ancients over thirty ancient cultures

249

00:11:13,069 --> 00:11:10,920

depicted two sons so this is a new math

250

00:11:15,290 --> 00:11:13,079

that we're trying to look into that

251
00:11:17,569 --> 00:11:15,300
explain something more earthbound here

252
00:11:19,490 --> 00:11:17,579
as the cycle of precession why we have

253
00:11:21,620 --> 00:11:19,500
the twelve constellations of time

254
00:11:25,009 --> 00:11:21,630
markers that we run through right but

255
00:11:27,019 --> 00:11:25,019
Planet X does tie into that as well but

256
00:11:29,449 --> 00:11:27,029
this is a much more complex algorithm

257
00:11:32,030 --> 00:11:29,459
that we're looking into now okay so let

258
00:11:33,559 --> 00:11:32,040
me grab grab hold of all of this and

259
00:11:36,680 --> 00:11:33,569
this is you know also for everybody

260
00:11:40,819 --> 00:11:36,690
listening the Sumerians originally wrote

261
00:11:44,110 --> 00:11:40,829
about this about 6,000 years ago and the

262
00:11:47,000 --> 00:11:44,120
orbit is how many years three thousand

263
00:11:48,870 --> 00:11:47,010

four new 3,600 years is what they

264

00:11:52,150 --> 00:11:48,880

calculate is a completed sir

265

00:11:57,700 --> 00:11:52,160

360 degrees but yes 3,600 years and it's

266

00:11:59,050 --> 00:11:57,710

an elliptical orbit right uh yeah you're

267

00:12:03,520 --> 00:11:59,060

the smart guy I'm just the guy with the

268

00:12:06,940 --> 00:12:03,530

microphone okay okay so it's a 3,600

269

00:12:09,040 --> 00:12:06,950

Maya or 3600 year elliptical orbit they

270

00:12:09,370 --> 00:12:09,050

started writing about this 6,000 years

271

00:12:11,530 --> 00:12:09,380

ago

272

00:12:16,500 --> 00:12:11,540

and so what explained it explain to me

273

00:12:23,800 --> 00:12:21,310

okay the timeline for Nibiru yes okay so

274

00:12:25,840 --> 00:12:23,810

basically what we're talking about is

275

00:12:27,250 --> 00:12:25,850

that the I'm going to kind of have to

276

00:12:28,840 --> 00:12:27,260

give you the Twitter version here so

277

00:12:31,420 --> 00:12:28,850

we're talking about the most ancient

278

00:12:33,460 --> 00:12:31,430

records that we have currently on earth

279

00:12:36,130 --> 00:12:33,470

as far as from a complete civilization

280

00:12:39,670 --> 00:12:36,140

and this comes from 4000 years ago so

281

00:12:42,670 --> 00:12:39,680

that people understand it's 2013 if we

282

00:12:44,830 --> 00:12:42,680

went back 2,000 years roughly you know

283

00:12:47,440 --> 00:12:44,840

two thousand thirteen years ago from now

284

00:12:50,890 --> 00:12:47,450

you're at the crossover between ad and

285

00:12:53,560 --> 00:12:50,900

BC okay Donna if you go back another two

286

00:12:56,380 --> 00:12:53,570

thousand years from there you're at the

287

00:12:58,900 --> 00:12:56,390

Sumerian culture so it's 2,000 years

288

00:13:01,660 --> 00:12:58,910

before the Jesus time and you know ad -

289

00:13:03,940 --> 00:13:01,670

BC 2,000 years before that were at the

290

00:13:07,180 --> 00:13:03,950

Sumerian culture they left us a plethora

291

00:13:09,040 --> 00:13:07,190

of tablets and cuneiform texts that

292

00:13:12,700 --> 00:13:09,050

explain many things that have to do with

293

00:13:15,580 --> 00:13:12,710

our current religions where these gods

294

00:13:18,160 --> 00:13:15,590

come from and so these are all in the

295

00:13:20,470 --> 00:13:18,170

form of stone tablets so I hope that is

296

00:13:22,300 --> 00:13:20,480

a at least as a basis to explain what

297

00:13:25,780 --> 00:13:22,310

we're talking about on many of these

298

00:13:28,950 --> 00:13:25,790

tablets mmm some of our latest Sciences

299

00:13:31,990 --> 00:13:28,960

have confirmed what they have in the

300

00:13:34,710 --> 00:13:32,000

6,000 year old tablets or even four

301

00:13:36,910 --> 00:13:34,720

thousand year old tablets that have

302

00:13:38,710 --> 00:13:36,920

astronomical information that showed the

303

00:13:41,170 --> 00:13:38,720

distance between their outer planets

304

00:13:44,020 --> 00:13:41,180

what the outer planets look like the

305

00:13:47,440 --> 00:13:44,030

actual colors of them so on some of this

306

00:13:49,540 --> 00:13:47,450

information comes the story of actual

307

00:13:51,490 --> 00:13:49,550

beings that visited from one of these

308

00:13:53,710 --> 00:13:51,500

planets that they denote and it's a

309

00:13:56,650 --> 00:13:53,720

planet that that is actually a part of

310

00:13:58,660 --> 00:13:56,660

our solar system and so that's where

311

00:14:00,610 --> 00:13:58,670

modern astronomers have been looking for

312

00:14:02,000 --> 00:14:00,620

something that seems to fall into a

313

00:14:04,160 --> 00:14:02,010

similar line

314

00:14:06,170 --> 00:14:04,170

of what these ancients have spoken about

315

00:14:08,600 --> 00:14:06,180

another world that exists within our

316

00:14:11,420 --> 00:14:08,610

solar system and that gods come from

317

00:14:14,690 --> 00:14:11,430

that so it's a pretty heavy topic well

318

00:14:18,680 --> 00:14:14,700

it is and so if they were again with the

319

00:14:20,660 --> 00:14:18,690

timeline that you're laying out new

320

00:14:22,670 --> 00:14:20,670

breweries swung me beer ooh

321

00:14:25,430 --> 00:14:22,680

I'm sorry swung by and now it's in this

322

00:14:28,460 --> 00:14:25,440

elliptical orbit came went back swung

323

00:14:30,880 --> 00:14:28,470

back around and should be on its way

324

00:14:34,460 --> 00:14:30,890

back if it's on a 3,600 year to

325

00:14:37,040 --> 00:14:34,470

trajectory is right now that's I just

326

00:14:39,680 --> 00:14:37,050

want to make this totally clear so is

327

00:14:42,680 --> 00:14:39,690

this something that's gonna just jump in

328

00:14:44,840 --> 00:14:42,690

at any moment and hopefully why say

329

00:14:46,460 --> 00:14:44,850

something oh gee me I don't think so and

330

00:14:47,660 --> 00:14:46,470

to be honest with you I'm sure there are

331

00:14:49,820 --> 00:14:47,670

a lot of people trying to get more

332

00:14:51,320 --> 00:14:49,830

specific information but from a high

333

00:14:53,840 --> 00:14:51,330

level here's how I would explain it

334

00:14:55,940 --> 00:14:53,850

you know the Sumerians talked about this

335

00:14:58,040 --> 00:14:55,950

planet being captured by our solar

336

00:15:00,650 --> 00:14:58,050

system at a very early state they

337

00:15:03,350 --> 00:15:00,660

explained it in a sacred text called the

338

00:15:05,030 --> 00:15:03,360

Enuma Elish just like there were seven

339

00:15:07,880 --> 00:15:05,040

days of creation in the Bible the

340

00:15:09,950 --> 00:15:07,890

Sumerians have seven tablets of creation

341

00:15:13,640 --> 00:15:09,960

and on this story that you numeral ish

342

00:15:16,220 --> 00:15:13,650

they explain how Nibiru becomes attached

343

00:15:18,740 --> 00:15:16,230

to our solar system when the planets

344

00:15:21,200 --> 00:15:18,750

were still soft they hadn't become a

345

00:15:23,270 --> 00:15:21,210

solid mass to me that's interpreted as

346

00:15:26,330 --> 00:15:23,280

when the beginning of our solar system

347

00:15:28,250 --> 00:15:26,340

took place we're talking around 4.7

348

00:15:31,070 --> 00:15:28,260

billion years ago when the planets first

349

00:15:33,800 --> 00:15:31,080

started coalescing in the mass so if

350

00:15:35,660 --> 00:15:33,810

we're talking four point seven billion

351
00:15:39,230 --> 00:15:35,670
years ago when Planet X becomes a part

352
00:15:41,860 --> 00:15:39,240
of our solar system and it takes 3,600

353
00:15:46,220 --> 00:15:41,870
years for it to do an orbit if we divide

354
00:15:47,750 --> 00:15:46,230
4.7 billion years by 3,600 years we see

355
00:15:50,600 --> 00:15:47,760
that Nibiru was already completed in

356
00:15:51,620 --> 00:15:50,610
orbit over a million times coming

357
00:15:54,260 --> 00:15:51,630
through the inner part of our solar

358
00:15:57,100 --> 00:15:54,270
system it's possible that not every time

359
00:16:01,600 --> 00:15:57,110
it loops by it has a catastrophic effect

360
00:16:04,910 --> 00:16:01,610
well which brings me to my next question

361
00:16:07,220 --> 00:16:04,920
there's also the theory that Nibiru

362
00:16:10,420 --> 00:16:07,230
collided with earth and created the moon

363
00:16:12,700 --> 00:16:10,430

could could Nibiru be

364

00:16:13,930 --> 00:16:12,710

chunks of nothing now maybe the asteroid

365

00:16:16,510 --> 00:16:13,940

belt I don't know

366

00:16:18,850 --> 00:16:16,520

well you're close the Sumerians

367

00:16:21,160 --> 00:16:18,860

explained that what took place was in

368

00:16:23,220 --> 00:16:21,170

this primitive state when when our

369

00:16:26,380 --> 00:16:23,230

planets hadn't become a solid mass

370

00:16:27,730 --> 00:16:26,390

Nibiru became attracted to the inner

371

00:16:30,400 --> 00:16:27,740

part of our solar system by the

372

00:16:33,040 --> 00:16:30,410

gravitational pull of you know Jupiter

373

00:16:36,010 --> 00:16:33,050

and Saturn and Uranus and eventually as

374

00:16:38,050 --> 00:16:36,020

it started to become orbiting around our

375

00:16:40,120 --> 00:16:38,060

inner part of our solar system the

376

00:16:43,630 --> 00:16:40,130

Sumerians explained that one of the

377

00:16:47,440 --> 00:16:43,640

moons of Nibiru labeled as north wind

378

00:16:50,110 --> 00:16:47,450

this moon actually whacked our primitive

379

00:16:52,780 --> 00:16:50,120

earth that they called Tiamat and this

380

00:16:55,000 --> 00:16:52,790

interaction this explosion between the

381

00:16:57,430 --> 00:16:55,010

moon of Nibiru physically hitting our

382

00:16:59,890 --> 00:16:57,440

primitive earth knocked us into a new

383

00:17:02,170 --> 00:16:59,900

orbit where it is today and the remnant

384

00:17:04,740 --> 00:17:02,180

the breeze of that collision created the

385

00:17:08,620 --> 00:17:04,750

asteroid belt what the Bible calls the

386

00:17:10,569 --> 00:17:08,630

hammered out bracelet so yes

387

00:17:15,720 --> 00:17:10,579

there there is this interaction in the

388

00:17:18,640 --> 00:17:15,730

past that all all science seems to point

389

00:17:21,490 --> 00:17:18,650

that this actually did take place one

390

00:17:25,179 --> 00:17:21,500

last point on this Jimmy is we've heard

391

00:17:28,150 --> 00:17:25,189

of Pangaea well if if there was a

392

00:17:31,299 --> 00:17:28,160

collision between this Planet X moon and

393

00:17:34,440 --> 00:17:31,309

our ancient earth and it's with earth

394

00:17:37,350 --> 00:17:34,450

and 1/2 and earth becomes half a planet

395

00:17:40,150 --> 00:17:37,360

well think about this for a second

396

00:17:42,910 --> 00:17:40,160

Pangaea shows us that all the continents

397

00:17:45,250 --> 00:17:42,920

were connected at one point we were one

398

00:17:47,350 --> 00:17:45,260

chunk of land and because of severe

399

00:17:48,970 --> 00:17:47,360

achill reference of water we become a

400

00:17:51,280 --> 00:17:48,980

sphere but the oceans if they were

401
00:17:53,590 --> 00:17:51,290
siphoned off it's a chunk of land and

402
00:17:55,419 --> 00:17:53,600
only the skin of an apple at the surface

403
00:17:58,060 --> 00:17:55,429
the continents have now moved into place

404
00:18:00,040 --> 00:17:58,070
so all of the science supports the idea

405
00:18:02,830 --> 00:18:00,050
of these initial collisions the

406
00:18:06,250 --> 00:18:02,840
cosmology of our solar system summarized

407
00:18:09,430 --> 00:18:06,260
in these ancient Sumerian texts well a

408
00:18:12,880 --> 00:18:09,440
hundred years ago the continental shift

409
00:18:16,030 --> 00:18:12,890
was not even talked about now it is

410
00:18:18,430 --> 00:18:16,040
accepted you know that is except that is

411
00:18:22,510 --> 00:18:18,440
that is what's taught in our schools now

412
00:18:23,769 --> 00:18:22,520
and and ok well what got you into

413
00:18:25,450 --> 00:18:23,779

because

414

00:18:28,599 --> 00:18:25,460

I want to talk about hitch in here in a

415

00:18:30,999 --> 00:18:28,609

second but was it Zechariah that got you

416

00:18:33,700 --> 00:18:31,009

into this original what what happened in

417

00:18:35,950 --> 00:18:33,710

your life that you know what was the

418

00:18:38,830 --> 00:18:35,960

change that caused you to get into this

419

00:18:42,580 --> 00:18:38,840

research the Twitter version again here

420

00:18:45,219 --> 00:18:42,590

is you know I'm 39 now and so when I was

421

00:18:46,680 --> 00:18:45,229

21 someone in college had just kind of

422

00:18:50,680 --> 00:18:46,690

casually mentioned that there was

423

00:18:53,440 --> 00:18:50,690

pyramids and a face on Mars and you know

424

00:18:55,029 --> 00:18:53,450

I was just a waiter and a surfer and had

425

00:18:56,440 --> 00:18:55,039

no interest in or knowledge of any of

426
00:18:58,570 --> 00:18:56,450
this type of information to paranormal

427
00:18:59,889 --> 00:18:58,580
your thoughts and so I was like no

428
00:19:02,440 --> 00:18:59,899
there's not there's there's no reason

429
00:19:03,999 --> 00:19:02,450
NASA would hide any of that so for

430
00:19:05,919 --> 00:19:04,009
whatever reason the spark of interest

431
00:19:08,769 --> 00:19:05,929
became put placed in me and in that

432
00:19:10,479 --> 00:19:08,779
topic and when I started to look into

433
00:19:14,440 --> 00:19:10,489
what they had just turned on which was

434
00:19:16,060 --> 00:19:14,450
the Internet in 1996 I found out that

435
00:19:17,979 --> 00:19:16,070
there was some interesting things going

436
00:19:20,919 --> 00:19:17,989
on with NASA and it turned out that

437
00:19:24,820 --> 00:19:20,929
there was a company called Malin space

438
00:19:27,190 --> 00:19:24,830

science systems that equipped all of the

439

00:19:28,989 --> 00:19:27,200

orbiters we've sent to Mars with their

440

00:19:31,869 --> 00:19:28,999

cameras and space science systems

441

00:19:33,999 --> 00:19:31,879

cameras and it turns out so all of the

442

00:19:35,739 --> 00:19:34,009

pictures of the face and the pyramids

443

00:19:38,709 --> 00:19:35,749

were coming from this one photographer

444

00:19:40,629 --> 00:19:38,719

the scientific photographer company and

445

00:19:42,789 --> 00:19:40,639

they happen to also be in San Diego

446

00:19:45,489 --> 00:19:42,799

where I was attending college mm-hmm so

447

00:19:47,289 --> 00:19:45,499

I just contacted dr. Mike Malin as a

448

00:19:49,599 --> 00:19:47,299

layman college student and asked him

449

00:19:52,109 --> 00:19:49,609

point-blank on the phone is there any

450

00:19:55,029 --> 00:19:52,119

possibility that these structures are

451

00:19:59,200 --> 00:19:55,039

artificial on Mars and he said no and

452

00:20:02,019 --> 00:19:59,210

this forced me to look into the data

453

00:20:04,239 --> 00:20:02,029

deeper and I was able to find several

454

00:20:07,749 --> 00:20:04,249

peer level review scientists that held

455

00:20:10,239 --> 00:20:07,759

PhDs didn't work at NASA but had

456

00:20:14,200 --> 00:20:10,249

published material such as dr. Marc

457

00:20:15,969 --> 00:20:14,210

Carlotto where you know they ran tests

458

00:20:17,889 --> 00:20:15,979

and published data that I'm sure NASA

459

00:20:19,389 --> 00:20:17,899

did but they never shared with the

460

00:20:21,849 --> 00:20:19,399

public and let me give you an idea of

461

00:20:24,549 --> 00:20:21,859

what I'm saying dr. Marc COLLADA would

462

00:20:27,249 --> 00:20:24,559

take algorithms mathematical algorithms

463

00:20:30,099 --> 00:20:27,259

and use satellite telemetry over Russia

464

00:20:32,609 --> 00:20:30,109

run these algorithms and say oh look

465

00:20:36,070 --> 00:20:32,619

these are troops tanks and missiles

466

00:20:37,280 --> 00:20:36,080

hiding under a under a tarp or some

467

00:20:40,040 --> 00:20:37,290

shrubs but

468

00:20:42,860 --> 00:20:40,050

the math could find them the fractal

469

00:20:44,930 --> 00:20:42,870

patterns of artificiality when they run

470

00:20:47,990 --> 00:20:44,940

these same algorithms on the telemetry

471

00:20:50,200 --> 00:20:48,000

of Mars over Cydonia the face and

472

00:20:54,080 --> 00:20:50,210

pyramids come out to be over 98%

473

00:20:56,600 --> 00:20:54,090

probability of artificiality things like

474

00:20:59,960 --> 00:20:56,610

that that are just simple tests that

475

00:21:02,330 --> 00:20:59,970

could be done NASA never embraced but

476

00:21:05,000 --> 00:21:02,340

other people did and if anyone were to

477

00:21:07,100 --> 00:21:05,010

do the research on these topics this is

478

00:21:08,750 --> 00:21:07,110

what I came forth in finding so you were

479

00:21:12,790 --> 00:21:08,760

in college at the time did you suddenly

480

00:21:15,350 --> 00:21:12,800

change your your focus of education I

481

00:21:17,150 --> 00:21:15,360

did I dropped out of college and became

482

00:21:21,580 --> 00:21:17,160

an entrepreneur and founded my first

483

00:21:29,090 --> 00:21:26,720

so zecharia sitchin with his book the

484

00:21:32,120 --> 00:21:29,100

12th planet that had to come into play

485

00:21:33,920 --> 00:21:32,130

when did you pick that up well you know

486

00:21:35,360 --> 00:21:33,930

Jimmy as I started to realize that

487

00:21:37,520 --> 00:21:35,370

there's stuff all over Mars that's

488

00:21:39,560 --> 00:21:37,530

artificial it started to put my focus

489

00:21:41,300 --> 00:21:39,570

back here on earth and realizing that

490

00:21:43,700 --> 00:21:41,310

there's megalithic monuments all over

491

00:21:46,310 --> 00:21:43,710

the earth that seem to point to our

492

00:21:48,410 --> 00:21:46,320

human origins in a lost epic of time

493

00:21:51,320 --> 00:21:48,420

that are not currently on the books

494

00:21:52,880 --> 00:21:51,330

meaning the Sumerians are the last and

495

00:21:54,620 --> 00:21:52,890

final culture that just kind of right

496

00:21:57,440 --> 00:21:54,630

out of the Stone Age we have on the

497

00:21:59,150 --> 00:21:57,450

books but as I've been realizing and

498

00:22:01,400 --> 00:21:59,160

studying over the last 10 years there's

499

00:22:03,500 --> 00:22:01,410

a whole slew of new information

500

00:22:06,860 --> 00:22:03,510

thankfully through the show like ancient

501
00:22:09,850 --> 00:22:06,870
aliens that have been bringing forth all

502
00:22:12,800 --> 00:22:09,860
of these new sites gobekli tepe

503
00:22:15,380 --> 00:22:12,810
markawasi and the gate of the gods

504
00:22:16,940 --> 00:22:15,390
all these various megalithic sites that

505
00:22:19,820 --> 00:22:16,950
kind of add to the collection that we

506
00:22:22,250 --> 00:22:19,830
know of now like Stonehenge and Giza and

507
00:22:25,730 --> 00:22:22,260
it's starting to form a new pattern of

508
00:22:29,300 --> 00:22:25,740
information that is essentially in my

509
00:22:32,390 --> 00:22:29,310
opinion Jimmy all markers of a large

510
00:22:35,360 --> 00:22:32,400
clock a large system of time which I

511
00:22:36,980 --> 00:22:35,370
call The Lost cycle of time and we call

512
00:22:39,290 --> 00:22:36,990
it currently now as we're trying to

513
00:22:42,920 --> 00:22:39,300

figure it out we call it the precession

514

00:22:45,560 --> 00:22:42,930

of the equinoxes well I want to stop you

515

00:22:49,400 --> 00:22:45,570

right there because I think gobekli tepe

516

00:22:51,230 --> 00:22:49,410

is the game changer for everybody out

517

00:22:56,810 --> 00:22:51,240

there researching it can

518

00:23:00,110 --> 00:22:56,820

for the 12,000 years okay when you think

519

00:23:02,480 --> 00:23:00,120

about you know no civilization no

520

00:23:05,390 --> 00:23:02,490

farming no nothing no organization no

521

00:23:07,460 --> 00:23:05,400

city living no nothing and send that go

522

00:23:10,400 --> 00:23:07,470

gobekli tepe wasn't supposed to exist

523

00:23:14,210 --> 00:23:10,410

and now it not only does it exist it's

524

00:23:16,940 --> 00:23:14,220

real now it's but it's been five six

525

00:23:20,480 --> 00:23:16,950

seven years it's very new but I just

526

00:23:23,150 --> 00:23:20,490

think it is the game changer and I don't

527

00:23:25,250 --> 00:23:23,160

know where the gap is between gobekli

528

00:23:28,010 --> 00:23:25,260

tepe and the pyramids but there's a

529

00:23:31,670 --> 00:23:28,020

large chunk of nothing there and gobekli

530

00:23:35,030 --> 00:23:31,680

tepe says now we have to change the way

531

00:23:36,950 --> 00:23:35,040

that we look at everything exactly and

532

00:23:39,170 --> 00:23:36,960

you know that that's the thing Jimmy is

533

00:23:42,080 --> 00:23:39,180

that there there are many lost pieces of

534

00:23:44,740 --> 00:23:42,090

this puzzle where go Beckley Tepe is

535

00:23:46,550 --> 00:23:44,750

starting to put into a perspective of

536

00:23:49,310 --> 00:23:46,560

highly speculative

537

00:23:51,920 --> 00:23:49,320

you know belief in a linear timeline

538

00:23:53,450 --> 00:23:51,930

meaning we were really dumb in the past

539

00:23:55,520 --> 00:23:53,460

and we're gonna get super smart in the

540

00:23:57,260 --> 00:23:55,530

future I don't think so

541

00:23:59,030 --> 00:23:57,270

everyone has heard of things called the

542

00:24:01,520 --> 00:23:59,040

dark ages we have also heard of

543

00:24:03,410 --> 00:24:01,530

something called the Golden Age Plato

544

00:24:06,410 --> 00:24:03,420

had a term for something called the

545

00:24:09,380 --> 00:24:06,420

great year which meant a larger cycle of

546

00:24:11,480 --> 00:24:09,390

time where we continually as a large

547

00:24:13,730 --> 00:24:11,490

epic of time go through the dark ages

548

00:24:16,100 --> 00:24:13,740

and then the Golden Age the Dark Ages in

549

00:24:18,380 --> 00:24:16,110

the Golden Age but this is a much larger

550

00:24:20,750 --> 00:24:18,390

cycle of time and it brings into

551
00:24:23,000 --> 00:24:20,760
question a lot of the monuments that we

552
00:24:25,700 --> 00:24:23,010
have built around the world which seemed

553
00:24:27,560 --> 00:24:25,710
to be marked to certain star

554
00:24:29,420 --> 00:24:27,570
constellations where there's alignments

555
00:24:31,430 --> 00:24:29,430
and to kind of just briefly get into the

556
00:24:33,680 --> 00:24:31,440
top of Jimmy you probably have heard of

557
00:24:35,780 --> 00:24:33,690
this one Giza is one of the most famous

558
00:24:39,140 --> 00:24:35,790
examples we you know we have these three

559
00:24:40,790 --> 00:24:39,150
pyramids at the Giza Plateau and one

560
00:24:42,560 --> 00:24:40,800
small one of the three is slightly

561
00:24:43,850 --> 00:24:42,570
offset otherwise they'd be all perfectly

562
00:24:48,200 --> 00:24:43,860
a lot talking about the Iranian

563
00:24:50,810 --> 00:24:48,210

alignment yes yes exactly so it turns

564

00:24:53,750 --> 00:24:50,820

out the three Pyramids of Giza are a

565

00:24:57,560 --> 00:24:53,760

perfect mirror reflection of the Orion

566

00:25:00,650 --> 00:24:57,570

constellation however they don't line up

567

00:25:03,470 --> 00:25:00,660

in the sky and on the ground they don't

568

00:25:04,880 --> 00:25:03,480

line up and until we roll back the clock

569

00:25:08,030 --> 00:25:04,890

to ten

570

00:25:09,590 --> 00:25:08,040

in 500 BC now the pyramids were

571

00:25:12,860 --> 00:25:09,600

supposedly built by the Egyptians in

572

00:25:14,900 --> 00:25:12,870

2500 BC however again using Star

573

00:25:17,450 --> 00:25:14,910

constellation software where you can say

574

00:25:22,250 --> 00:25:17,460

where the star is going to be a above me

575

00:25:24,110 --> 00:25:22,260

tonight tomorrow or in 10,500 BC we can

576

00:25:26,990 --> 00:25:24,120

mathematically calculate and show that

577

00:25:29,510 --> 00:25:27,000

there's this alignment at 10,500 BC

578

00:25:30,740 --> 00:25:29,520

where the pyramids are directly aligned

579

00:25:33,740 --> 00:25:30,750

in the sky with the Orion constellation

580

00:25:38,539 --> 00:25:33,750

the Sphinx is looking directly east into

581

00:25:41,240 --> 00:25:38,549

the lion the lion no somehow there's

582

00:25:45,020 --> 00:25:41,250

this alignment with unbelievable

583

00:25:47,720 --> 00:25:45,030

monuments two points in the sky as a

584

00:25:51,350 --> 00:25:47,730

reference point and this marker repeats

585

00:25:53,840 --> 00:25:51,360

every 10,000 years or so why did they do

586

00:25:56,270 --> 00:25:53,850

that these are questions which I'm now

587

00:25:58,970 --> 00:25:56,280

pursuing Jimmy is that all of these

588

00:26:01,460 --> 00:25:58,980

ancient sites seem to be astronomical

589

00:26:04,250 --> 00:26:01,470

markers as to where we were or where

590

00:26:08,120 --> 00:26:04,260

they were in this larger cycle of time

591

00:26:13,600 --> 00:26:08,130

which seems to last 24,000 years and

592

00:26:16,850 --> 00:26:13,610

keeps repeating I I I hung out with

593

00:26:19,430 --> 00:26:16,860

Michio Kaku one day and it was just the

594

00:26:21,049 --> 00:26:19,440

two of us just one-on-one okay I talked

595

00:26:23,270 --> 00:26:21,059

about Bray yeah I talked about this

596

00:26:24,560 --> 00:26:23,280

briefly last night on the air but we

597

00:26:27,230 --> 00:26:24,570

talked you know eight hours you talk

598

00:26:31,000 --> 00:26:27,240

about a lot of stuff but I I brought up

599

00:26:33,830 --> 00:26:31,010

pune punku to him and gobekli tepe and

600

00:26:36,140 --> 00:26:33,840

he said how old I said well you know

601
00:26:38,180 --> 00:26:36,150
twelve thousand years fifteen thousand

602
00:26:40,789 --> 00:26:38,190
years no way no ten thousand years

603
00:26:42,860 --> 00:26:40,799
that's it that's ice age and he shut me

604
00:26:43,610 --> 00:26:42,870
down great guy I don't want you know I

605
00:26:44,720 --> 00:26:43,620
don't wanna say anything negative

606
00:26:49,549 --> 00:26:44,730
because he's a really cool guy

607
00:26:52,250 --> 00:26:49,559
but it's that Orthodox Education guy

608
00:26:55,250 --> 00:26:52,260
educated guy out there that just doesn't

609
00:26:57,049 --> 00:26:55,260
want to open up his mind and and see

610
00:26:58,970 --> 00:26:57,059
what's lying in front of them and that's

611
00:27:00,409 --> 00:26:58,980
where I like I said gobekli tepe is the

612
00:27:02,390 --> 00:27:00,419
one thing that's that we can date

613
00:27:04,010 --> 00:27:02,400

because of you know the carbon and the

614

00:27:05,480 --> 00:27:04,020

carbon dating in the garbage and

615

00:27:07,610 --> 00:27:05,490

everything that it was filled with and

616

00:27:10,220 --> 00:27:07,620

we can actually date that now to twelve

617

00:27:11,750 --> 00:27:10,230

thousand so I that is the game changer

618

00:27:13,549 --> 00:27:11,760

but he didn't want to hear about pune

619

00:27:15,830 --> 00:27:13,559

punku and he said you can't date rock

620

00:27:16,980 --> 00:27:15,840

and that's the end of Puma Puma punku

621

00:27:19,890 --> 00:27:16,990

I'm sorry

622

00:27:21,750 --> 00:27:19,900

and yeah and and he just you just shut

623

00:27:24,330 --> 00:27:21,760

me down you just can't date it you can't

624

00:27:27,750 --> 00:27:24,340

date it ice ages 10,000 and that's the

625

00:27:29,460 --> 00:27:27,760

end of the discussion well I would sure

626

00:27:31,650 --> 00:27:29,470

love to have a discussion like that and

627

00:27:33,570 --> 00:27:31,660

I understand that many people are rooted

628

00:27:35,460 --> 00:27:33,580

in their ways and in all respect to meet

629

00:27:38,190 --> 00:27:35,470

you a kaku he might have valid reasons

630

00:27:40,320 --> 00:27:38,200

for why he stands behind that but you

631

00:27:43,350 --> 00:27:40,330

know that it's an interesting point and

632

00:27:45,299 --> 00:27:43,360

to further clarify Jimmy you know all of

633

00:27:48,450 --> 00:27:45,309

the ancient cultures over thirty of them

634

00:27:50,820 --> 00:27:48,460

seemed to track a much larger cycle of

635

00:27:52,740 --> 00:27:50,830

time we heard about this from the Mayans

636

00:27:55,260 --> 00:27:52,750

and their idea of the calendar system

637

00:27:57,540 --> 00:27:55,270

that ended in 2012 but it's a much

638

00:28:01,590 --> 00:27:57,550

larger calendar system and people didn't

639

00:28:03,360 --> 00:28:01,600

quite really understand you know so to

640

00:28:06,060 --> 00:28:03,370

kind of put this in perspective I know

641

00:28:08,220 --> 00:28:06,070

this is kind of weird stuff people first

642

00:28:10,350 --> 00:28:08,230

hearing about this but let me give you a

643

00:28:12,990 --> 00:28:10,360

couple more you know data points in a

644

00:28:16,310 --> 00:28:13,000

simple analogy go when I'm talking about

645

00:28:20,460 --> 00:28:16,320

a cycle of time that lasts 24,000 years

646

00:28:23,280 --> 00:28:20,470

that's if we live a hundred years or 120

647

00:28:26,430 --> 00:28:23,290

years at best we're just a blip in a 24

648

00:28:28,500 --> 00:28:26,440

thousand year cycle exactly so if the

649

00:28:31,770 --> 00:28:28,510

ancients tell us that a 24 thousand year

650

00:28:34,500 --> 00:28:31,780

cycle we go through X of the Dark Ages

651
00:28:35,940 --> 00:28:34,510
where we forget everything in the Golden

652
00:28:37,770 --> 00:28:35,950
Age and we seem to become enlightened

653
00:28:39,060 --> 00:28:37,780
and very in touch with God and our

654
00:28:41,100 --> 00:28:39,070
ability to do things

655
00:28:44,640 --> 00:28:41,110
what is the responsible for this cycle

656
00:28:46,770 --> 00:28:44,650
and for us to be able to retain that

657
00:28:48,810 --> 00:28:46,780
knowledge you know there's an insect

658
00:28:52,110 --> 00:28:48,820
here on earth called the mayfly and it

659
00:28:54,600 --> 00:28:52,120
only lived 24 hours if there was a

660
00:28:58,799 --> 00:28:54,610
mayfly that you know came up to another

661
00:29:01,200 --> 00:28:58,809
mayfly and it was a cloudy day and he

662
00:29:03,710 --> 00:29:01,210
said hey you know I heard this rumor of

663
00:29:07,290 --> 00:29:03,720

something called sunshine and a breeze

664

00:29:08,970 --> 00:29:07,300

but I just I haven't seen it and they

665

00:29:10,919 --> 00:29:08,980

died and they never seen it sunshine or

666

00:29:12,150 --> 00:29:10,929

breeze but it does exist but it just

667

00:29:15,210 --> 00:29:12,160

didn't exist on the day they were alive

668

00:29:17,820 --> 00:29:15,220

exactly so so there seems to be

669

00:29:20,700 --> 00:29:17,830

something that exists here Jimmy where

670

00:29:23,250 --> 00:29:20,710

here's my little data point for everyone

671

00:29:25,880 --> 00:29:23,260

listening all the ancients tell us that

672

00:29:28,350 --> 00:29:25,890

this larger cycle of time affects us

673

00:29:30,650 --> 00:29:28,360

there's two other smaller cycles that

674

00:29:33,910 --> 00:29:30,660

also affect us so that you understand

675

00:29:36,950 --> 00:29:33,920

the first small cycle is day and night

676
00:29:39,410 --> 00:29:36,960
because we're spinning on our axis on

677
00:29:42,530 --> 00:29:39,420
our axis this astronomical effect the

678
00:29:44,240 --> 00:29:42,540
earth is spinning on its axis we have a

679
00:29:46,490 --> 00:29:44,250
day and night effect that's caused

680
00:29:48,200 --> 00:29:46,500
you're on earth that literally causes

681
00:29:50,000 --> 00:29:48,210
you as it gets dark out to lose

682
00:29:52,250 --> 00:29:50,010
consciousness and go to sleep

683
00:29:54,620 --> 00:29:52,260
plants close up and open up in the

684
00:29:56,450 --> 00:29:54,630
morning there's a physical response to

685
00:29:58,330 --> 00:29:56,460
this first tiny little astronomical

686
00:30:01,340 --> 00:29:58,340
cycle because we're spinning on an axis

687
00:30:04,310 --> 00:30:01,350
cycle number two is the earth is going

688
00:30:07,490 --> 00:30:04,320

around the Sun and as we go around the

689

00:30:10,430 --> 00:30:07,500

Sun every year seasons change

690

00:30:12,770 --> 00:30:10,440

animals migrate temperatures change I

691

00:30:15,410 --> 00:30:12,780

mean there are physical effects based on

692

00:30:17,690 --> 00:30:15,420

an astronomical cycle of us going around

693

00:30:20,330 --> 00:30:17,700

the Sun well Jimmy there's a third

694

00:30:23,810 --> 00:30:20,340

astronomical cycle it appears that

695

00:30:28,130 --> 00:30:23,820

because we're binary to Suns

696

00:30:31,010 --> 00:30:28,140

our Sun is orbiting our second Sun and

697

00:30:33,950 --> 00:30:31,020

so as our Sun is moving through space

698

00:30:37,400 --> 00:30:33,960

orbiting another Sun we're going along

699

00:30:40,730 --> 00:30:37,410

for the ride and this this orbit of our

700

00:30:43,970 --> 00:30:40,740

two suns is a twenty-four thousand year

701
00:30:45,140 --> 00:30:43,980
cycle and this is all the new science

702
00:30:48,140 --> 00:30:45,150
where I'm not just pulling this out of

703
00:30:51,500 --> 00:30:48,150
the air this is hard data being crunched

704
00:30:54,080 --> 00:30:51,510
by well-paid people and organizations

705
00:30:56,690 --> 00:30:54,090
looking into this to say what is the

706
00:30:59,030 --> 00:30:56,700
best model to calculate why we have this

707
00:31:01,010 --> 00:30:59,040
precession of the equinoxes and we go

708
00:31:02,180 --> 00:31:01,020
through these different pinpoints of

709
00:31:05,090 --> 00:31:02,190
looking at different constellations

710
00:31:07,880 --> 00:31:05,100
aligning with our North Star how do you

711
00:31:10,390 --> 00:31:07,890
explain and I you know we all have

712
00:31:13,070 --> 00:31:10,400
theories but how do you explain

713
00:31:15,620 --> 00:31:13,080

astronomy that goes back four five six

714

00:31:19,490 --> 00:31:15,630

seven eight nine ten thousand years

715

00:31:21,050 --> 00:31:19,500

calendars astrology how do you explain

716

00:31:24,080 --> 00:31:21,060

that we're still trying to grasp it

717

00:31:26,180 --> 00:31:24,090

today with all of our technology but yet

718

00:31:27,590 --> 00:31:26,190

everybody and I'm talking to you not now

719

00:31:30,710 --> 00:31:27,600

in the sumerians but you know the

720

00:31:33,140 --> 00:31:30,720

Egyptians and and everything is you know

721

00:31:34,550 --> 00:31:33,150

how do you explain their knowledge of it

722

00:31:36,410 --> 00:31:34,560

like you're saying right now twenty-four

723

00:31:38,300 --> 00:31:36,420

thousand year cycles of time the

724

00:31:40,220 --> 00:31:38,310

Sumerian artifacts a lot of that stuff

725

00:31:42,440 --> 00:31:40,230

tells stories that go back a half a

726

00:31:44,180 --> 00:31:42,450

million years you know how do you

727

00:31:44,950 --> 00:31:44,190

explain this knowledge of astronomy and

728

00:31:47,470 --> 00:31:44,960

a straw

729

00:31:50,230 --> 00:31:47,480

great question well here's what I think

730

00:31:52,840 --> 00:31:50,240

Jimmy here's what I think my hypothesis

731

00:31:54,279 --> 00:31:52,850

is that there's a lost culture probably

732

00:31:56,049 --> 00:31:54,289

several but let's just leave it at

733

00:31:59,259 --> 00:31:56,059

there's a lost culture in my opinion

734

00:32:02,200 --> 00:31:59,269

we've called it Atlantis for now sure

735

00:32:05,230 --> 00:32:02,210

but I'm gonna get more narrowed if we

736

00:32:06,700 --> 00:32:05,240

look at all of these sites starting at

737

00:32:09,310 --> 00:32:06,710

gobekli tepe mm-hmm

738

00:32:12,610 --> 00:32:09,320

all of the pillars that gobekli tepe

739

00:32:15,700 --> 00:32:12,620

have a certain figure a being depicted

740

00:32:18,279 --> 00:32:15,710

on the pillars they're tall narrow and

741

00:32:22,480 --> 00:32:18,289

they always have their hands folded at

742

00:32:24,430 --> 00:32:22,490

the waist if we go to Rapa Nui Island

743

00:32:26,230 --> 00:32:24,440

the moai heads mm-hmm

744

00:32:29,019 --> 00:32:26,240

these aren't just heads on the island of

745

00:32:31,029 --> 00:32:29,029

Rapa Nui on Easter Island as people may

746

00:32:32,649 --> 00:32:31,039

have heard of that mm-hmm we've dug out

747

00:32:35,470 --> 00:32:32,659

the heads and they're long narrow

748

00:32:37,389 --> 00:32:35,480

statues and their hands are folded at

749

00:32:40,419 --> 00:32:37,399

the waist mm-hmm the statues in

750

00:32:41,499 --> 00:32:40,429

Indonesia bottle Valley yep hands folded

751

00:32:43,690 --> 00:32:41,509

at the waist

752

00:32:46,950 --> 00:32:43,700

there's something about even the

753

00:32:50,350 --> 00:32:46,960

Sumerians depicted beings with knowledge

754

00:32:52,720 --> 00:32:50,360

like you know Sumerians not Anunnaki

755

00:32:54,940 --> 00:32:52,730

actual Sumerians hands always folded at

756

00:32:57,310 --> 00:32:54,950

the waist there seems to be a reference

757

00:32:59,200 --> 00:32:57,320

in my opinion Jimmy of all of the link

758

00:33:04,320 --> 00:32:59,210

all of the great Ancients we know of

759

00:33:07,930 --> 00:33:04,330

Egyptians Mayans marion's they all had

760

00:33:09,669 --> 00:33:07,940

information from this Lost culture and I

761

00:33:12,039 --> 00:33:09,679

don't think these these log this lost

762

00:33:14,110 --> 00:33:12,049

culture was completely human they might

763

00:33:15,399 --> 00:33:14,120

have been a hybrid or something they

764

00:33:18,070 --> 00:33:15,409

were much more advanced than the

765

00:33:20,499 --> 00:33:18,080

standard human from our current history

766

00:33:22,539 --> 00:33:20,509

our current history is still connected

767

00:33:26,590 --> 00:33:22,549

to them but we're just now starting to

768

00:33:29,470 --> 00:33:26,600

uncover them well you just don't go from

769

00:33:32,830 --> 00:33:29,480

being a hunter-gatherer carrying a club

770

00:33:34,690 --> 00:33:32,840

you know wearing an animal skin one day

771

00:33:37,960 --> 00:33:34,700

and the next day building the pyramids

772

00:33:39,399 --> 00:33:37,970

it just doesn't happen and that's what

773

00:33:41,710 --> 00:33:39,409

and that's what they want that you know

774

00:33:44,440 --> 00:33:41,720

that's that that's what the books are

775

00:33:46,570 --> 00:33:44,450

telling us happen and it's just it's an

776

00:33:47,440 --> 00:33:46,580

absolute impossibility going back to

777

00:33:50,379 --> 00:33:47,450

gobekli tepe

778

00:33:52,240 --> 00:33:50,389

on a couple of those columns I'm sure

779

00:33:54,730 --> 00:33:52,250

you notice right next to those cross

780

00:33:58,379 --> 00:33:54,740

hands that you're talking about they're

781

00:34:01,480 --> 00:33:58,389

wearing a belt with a belt buckle

782

00:34:03,940 --> 00:34:01,490

12,000 years ago I'm sorry you know

783

00:34:05,769 --> 00:34:03,950

there was much more advanced than than

784

00:34:09,220 --> 00:34:05,779

what they're trying to give man credit

785

00:34:11,859 --> 00:34:09,230

for there's something else there there

786

00:34:13,990 --> 00:34:11,869

is Jimmy and so all of my latest

787

00:34:17,530 --> 00:34:14,000

research is pointing me to the fact that

788

00:34:19,389 --> 00:34:17,540

there is this lost civilization let's

789

00:34:21,309 --> 00:34:19,399

just as an example call it again an

790

00:34:24,190 --> 00:34:21,319

Atlantean culture and if there was some

791

00:34:26,290 --> 00:34:24,200

Atlantis some advanced ancient culture

792

00:34:28,000 --> 00:34:26,300

you know their continent wouldn't have

793

00:34:29,349 --> 00:34:28,010

just sunk into the ocean more than

794

00:34:32,169 --> 00:34:29,359

likely they would have been a global

795

00:34:34,329 --> 00:34:32,179

civilization just like we are they would

796

00:34:36,129 --> 00:34:34,339

have been global that's why all of the

797

00:34:39,460 --> 00:34:36,139

monuments we see these megalithic

798

00:34:41,649 --> 00:34:39,470

monuments are globally placed and these

799

00:34:44,770 --> 00:34:41,659

monuments like you mentioned earlier

800

00:34:48,460 --> 00:34:44,780

puma punku or Teotihuacan or Machu

801
00:34:50,639 --> 00:34:48,470
Picchu mm-hmm or sexy ghulam on many of

802
00:34:53,859 --> 00:34:50,649
these locations show a type of

803
00:34:56,400 --> 00:34:53,869
architecture where the stone masonry to

804
00:35:00,130 --> 00:34:56,410
connect the stones and make the walls

805
00:35:02,500 --> 00:35:00,140
they use no mortar they use a system

806
00:35:04,690 --> 00:35:02,510
where somehow which we can't even do

807
00:35:08,079 --> 00:35:04,700
today or don't do today they were

808
00:35:10,300 --> 00:35:08,089
somehow able to heat the hardest stones

809
00:35:12,579 --> 00:35:10,310
that we have access to D right granite

810
00:35:15,910 --> 00:35:12,589
they would heat these stones into a

811
00:35:18,160 --> 00:35:15,920
molten state like putty McLovin

812
00:35:19,960 --> 00:35:18,170
and then they could easily turn it into

813
00:35:22,450 --> 00:35:19,970

a square a circle or poke a hole through

814

00:35:25,660 --> 00:35:22,460

it and and then they would harden again

815

00:35:27,609 --> 00:35:25,670

back into a stone State so that's how

816

00:35:29,859 --> 00:35:27,619

they made a lot of these walls was a as

817

00:35:31,990 --> 00:35:29,869

a term we we call now you can google it

818

00:35:34,839 --> 00:35:32,000

called to people to think bit rough

819

00:35:37,990 --> 00:35:34,849

occasion and we see this vitrification

820

00:35:39,250 --> 00:35:38,000

effect in many areas across ancient

821

00:35:42,069 --> 00:35:39,260

sites and it just kind of makes you

822

00:35:44,410 --> 00:35:42,079

scratch your head because how did they

823

00:35:47,410 --> 00:35:44,420

have the ability to heat stone to a

824

00:35:49,839 --> 00:35:47,420

molten State and a lot of this masonry

825

00:35:52,599 --> 00:35:49,849

that was done not only here in South and

826

00:35:56,440 --> 00:35:52,609

Central America but it was identical to

827

00:35:58,329 --> 00:35:56,450

what was going on in Giza you know and

828

00:36:00,010 --> 00:35:58,339

that's that's fat and they just want to

829

00:36:03,550 --> 00:36:00,020

just say that it was coincidence that

830

00:36:05,530 --> 00:36:03,560

that evolution just allowed us to learn

831

00:36:07,990 --> 00:36:05,540

the same things at the exact same time

832

00:36:09,819 --> 00:36:08,000

you know again that's when my BS meter

833

00:36:11,830 --> 00:36:09,829

goes off Jason it's just like you know

834

00:36:16,840 --> 00:36:11,840

it just no I'm not

835

00:36:18,730 --> 00:36:16,850

buying it right okay go ahead

836

00:36:20,590 --> 00:36:18,740

well just gonna say you know one of the

837

00:36:22,990 --> 00:36:20,600

more you know top-level things when

838

00:36:25,480 --> 00:36:23,000

people hear of like UFOs

839

00:36:27,520 --> 00:36:25,490

we have to realize that UFO sightings

840

00:36:29,560 --> 00:36:27,530

have been going on for thousands of

841

00:36:31,600 --> 00:36:29,570

years you know all the way up and even

842

00:36:33,640 --> 00:36:31,610

through Renaissance artwork

843

00:36:35,620 --> 00:36:33,650

we have various depictions of these

844

00:36:38,820 --> 00:36:35,630

things from various cultures that show

845

00:36:41,620 --> 00:36:38,830

what appear to be man flying a craft now

846

00:36:43,750 --> 00:36:41,630

you know not even going back too far

847

00:36:46,630 --> 00:36:43,760

into our past in even more recent times

848

00:36:49,450 --> 00:36:46,640

world war one world war two when we

849

00:36:52,120 --> 00:36:49,460

first started flying over Australia and

850

00:36:55,000 --> 00:36:52,130

South Africa and we started to interact

851
00:36:56,860 --> 00:36:55,010
for the first time with aboriginals you

852
00:36:59,350 --> 00:36:56,870
know a white man would get out of a prop

853
00:37:01,240 --> 00:36:59,360
plane and light up a cigarette and hold

854
00:37:03,310 --> 00:37:01,250
up a voice recorder to aboriginal and

855
00:37:04,900 --> 00:37:03,320
record his voice aboriginals freaking

856
00:37:07,150 --> 00:37:04,910
out he's like looking at the plane he's

857
00:37:09,010 --> 00:37:07,160
looking at the cigarette and the flame

858
00:37:12,130 --> 00:37:09,020
that he was able to control me records

859
00:37:13,750 --> 00:37:12,140
his voice so they're taken aback and

860
00:37:15,970 --> 00:37:13,760
they think that even the plane is alive

861
00:37:17,980 --> 00:37:15,980
they would even be dropped shipments to

862
00:37:19,450 --> 00:37:17,990
the Troops of supplies and sometimes

863
00:37:21,190 --> 00:37:19,460

these supplies wouldn't hit the Troops

864

00:37:23,650 --> 00:37:21,200

would land in the middle of a tribe

865

00:37:26,290 --> 00:37:23,660

tribe cracks it open and it's like guns

866

00:37:29,200 --> 00:37:26,300

and fruit and and and you know canned

867

00:37:31,750 --> 00:37:29,210

goods so when the soldiers eventually

868

00:37:34,000 --> 00:37:31,760

left again world war one world war two

869

00:37:36,070 --> 00:37:34,010

soldiers leave what happens is an

870

00:37:40,330 --> 00:37:36,080

interesting effect the aboriginals makes

871

00:37:42,670 --> 00:37:40,340

straw models very very much identical to

872

00:37:45,460 --> 00:37:42,680

what you see is a prop plane scrape away

873

00:37:48,010 --> 00:37:45,470

runways and sit there for hours looking

874

00:37:50,920 --> 00:37:48,020

at the sky praying for the airplane gods

875

00:37:53,230 --> 00:37:50,930

yeah that's right so it's the same thing

876

00:37:55,720 --> 00:37:53,240

that we see happening even further back

877

00:37:57,760 --> 00:37:55,730

thousands of years ago our ancient

878

00:38:00,220 --> 00:37:57,770

people went to great lengths to create

879

00:38:01,510 --> 00:38:00,230

artifacts and wall carvings wasn't like

880

00:38:03,550 --> 00:38:01,520

somebody just slap some paint on the

881

00:38:05,560 --> 00:38:03,560

wall thing yeah I saw something we're

882

00:38:08,200 --> 00:38:05,570

talking about years of effort to convey

883

00:38:11,200 --> 00:38:08,210

sacred information where they saw things

884

00:38:13,000 --> 00:38:11,210

and interacted with beings that we now

885

00:38:15,160 --> 00:38:13,010

today just kind of go oh it was

886

00:38:16,060 --> 00:38:15,170

mythology people were making it up I

887

00:38:18,910 --> 00:38:16,070

don't think so

888

00:38:23,080 --> 00:38:18,920

well exactly the winged disc with the

889

00:38:25,809 --> 00:38:23,090

Anunnaki right well the winged disc is

890

00:38:28,329 --> 00:38:25,819

another whole other topic and show

891

00:38:30,160 --> 00:38:28,339

for a future conversation Jimmy but it

892

00:38:31,449 --> 00:38:30,170

was something that they said it was

893

00:38:32,229 --> 00:38:31,459

something that they saw though and

894

00:38:36,609 --> 00:38:32,239

that's my point

895

00:38:38,620 --> 00:38:36,619

it was it could have been a craft but it

896

00:38:41,380 --> 00:38:38,630

also could have been you know the disk

897

00:38:43,269 --> 00:38:41,390

the Son of God is an interesting term

898

00:38:45,309 --> 00:38:43,279

it's used to describe Jesus and many

899

00:38:48,939 --> 00:38:45,319

other sacred figures but if you think

900

00:38:51,489 --> 00:38:48,949

about it the Sun as a round disc nothing

901
00:38:54,099 --> 00:38:51,499
would live without the Sun plants

902
00:38:56,529 --> 00:38:54,109
animals us and ancient people were well

903
00:39:01,900 --> 00:38:56,539
aware of the fact of why they worshipped

904
00:39:05,199 --> 00:39:01,910
the Son of God the actual Sun in the sky

905
00:39:08,199 --> 00:39:05,209
before we've got well we've got about 20

906
00:39:10,120 --> 00:39:08,209
minutes left but it's probably good

907
00:39:14,140 --> 00:39:10,130
all of it will be discussed on my next

908
00:39:18,489 --> 00:39:14,150
favorite subject the Baghdad battery the

909
00:39:22,329 --> 00:39:18,499
Baghdad battery how well tell us tell us

910
00:39:25,539 --> 00:39:22,339
how it got discovered first well who

911
00:39:28,660 --> 00:39:25,549
discovered it 60 years ago they found

912
00:39:32,069 --> 00:39:28,670
about a dozen of these batteries in the

913
00:39:35,920 --> 00:39:32,079

Iraq region that seemed to be around

914

00:39:38,380 --> 00:39:35,930

four to eight inches in height and their

915

00:39:41,400 --> 00:39:38,390

little tiny clay pots with a with a

916

00:39:44,079 --> 00:39:41,410

copper filling and an iron rod and

917

00:39:45,430 --> 00:39:44,089

science has proven that these dozen or

918

00:39:48,729 --> 00:39:45,440

so batteries so far that have been

919

00:39:51,519 --> 00:39:48,739

discovered or around you know 2500 BC

920

00:39:52,209 --> 00:39:51,529

era and sure enough it's an ancient

921

00:39:55,660 --> 00:39:52,219

battery

922

00:39:57,819 --> 00:39:55,670

it literally generates positive volt do

923

00:39:59,380 --> 00:39:57,829

where all 12 found at the same time

924

00:40:01,660 --> 00:39:59,390

where they found in different locations

925

00:40:03,400 --> 00:40:01,670

they were found in different locations

926

00:40:05,589 --> 00:40:03,410

and what's really interesting about this

927

00:40:08,289 --> 00:40:05,599

Jimmy is that you know if we think about

928

00:40:11,439 --> 00:40:08,299

the 2500 BC just at pakka

929

00:40:17,079 --> 00:40:11,449

you know you know epoch of time we have

930

00:40:20,229 --> 00:40:17,089

in the you know ancient Iraq area these

931

00:40:24,009 --> 00:40:20,239

batteries discovered and then over in

932

00:40:26,259 --> 00:40:24,019

Egypt at the same time 2500 BC we find

933

00:40:29,559 --> 00:40:26,269

these wall reliefs of what appear to be

934

00:40:32,559 --> 00:40:29,569

ancient light bulbs literally ancient

935

00:40:35,289 --> 00:40:32,569

light bulbs as it carved in these

936

00:40:37,930 --> 00:40:35,299

Egyptian walls plugged into what appear

937

00:40:39,790 --> 00:40:37,940

to be some type of energy device so yes

938

00:40:42,100 --> 00:40:39,800

several people in the ancient

939

00:40:43,300 --> 00:40:42,110

astronaut community myself included have

940

00:40:45,640 --> 00:40:43,310

made the connection and have done

941

00:40:48,280 --> 00:40:45,650

physical experiments showing that the

942

00:40:50,860 --> 00:40:48,290

ancient battery did exist in functions

943

00:40:53,170 --> 00:40:50,870

and these ancient light bulbs in the

944

00:40:54,700 --> 00:40:53,180

same epoch of time you could probably

945

00:40:57,580 --> 00:40:54,710

connect it to the battery and generate

946

00:40:59,410 --> 00:40:57,590

that that electricity well when you look

947

00:41:02,560 --> 00:40:59,420

at the widget its constructed you know

948

00:41:04,660 --> 00:41:02,570

an iron rod I've seen your demonstration

949

00:41:05,320 --> 00:41:04,670

on it a few times fascinated every time

950

00:41:08,380 --> 00:41:05,330

I've seen it

951
00:41:11,530 --> 00:41:08,390
but you know with the copper and it's

952
00:41:13,600 --> 00:41:11,540
that old what else could it be what it's

953
00:41:16,480 --> 00:41:13,610
not decoration you know it's not

954
00:41:19,360 --> 00:41:16,490
something that was put on a shelf it had

955
00:41:22,060 --> 00:41:19,370
a function and I can't I can't think of

956
00:41:27,960 --> 00:41:22,070
anything else now I will say where are

957
00:41:30,580 --> 00:41:27,970
the wires you know what I mean I release

958
00:41:32,770 --> 00:41:30,590
you know what people say that they're in

959
00:41:34,060 --> 00:41:32,780
the Dendera reliefs right there they're

960
00:41:35,920 --> 00:41:34,070
plugged into some type of power source

961
00:41:39,640 --> 00:41:35,930
well you know when you look at the

962
00:41:42,250 --> 00:41:39,650
Dendera there's no question at least to

963
00:41:44,560 --> 00:41:42,260

me that that is a light bulb but when

964

00:41:50,050 --> 00:41:44,570

you go one step further and it is true

965

00:41:53,860 --> 00:41:50,060

that there is no soot anywhere and I'm

966

00:41:56,080 --> 00:41:53,870

just sorry you know mirrors or any other

967

00:41:57,490 --> 00:41:56,090

way of trying to light anything for the

968

00:41:59,310 --> 00:41:57,500

length of time that those guys are

969

00:42:01,750 --> 00:41:59,320

carving those reliefs in those walls

970

00:42:03,730 --> 00:42:01,760

there would be a half inch of soot on

971

00:42:06,900 --> 00:42:03,740

everything and there would be evidence

972

00:42:09,190 --> 00:42:06,910

of it everywhere and there is nothing

973

00:42:10,600 --> 00:42:09,200

you're right you mean and so there's two

974

00:42:13,210 --> 00:42:10,610

points there really around the battery

975

00:42:16,150 --> 00:42:13,220

and the bulb backing up what you're

976

00:42:19,540 --> 00:42:16,160

saying all the evidence shows that you

977

00:42:21,640 --> 00:42:19,550

know taking a torch and holding down in

978

00:42:23,590 --> 00:42:21,650

these deep crypts and recesses of tombs

979

00:42:25,510 --> 00:42:23,600

where they're carving hieroglyphics and

980

00:42:27,400 --> 00:42:25,520

wall reliefs in Egypt there's no

981

00:42:28,930 --> 00:42:27,410

evidence of a flame burning so that

982

00:42:30,490 --> 00:42:28,940

discounts that the other theory is that

983

00:42:32,860 --> 00:42:30,500

they're using copper mirrors to reflect

984

00:42:35,050 --> 00:42:32,870

sunlight it just doesn't hold up on

985

00:42:37,510 --> 00:42:35,060

alternative theory as they were actually

986

00:42:42,160 --> 00:42:37,520

using a primitive form of electricity

987

00:42:44,800 --> 00:42:42,170

now the Baghdad battery yes it it was a

988

00:42:48,400 --> 00:42:44,810

battery no one discounts that now modern

989

00:42:50,470 --> 00:42:48,410

science and you know history will say

990

00:42:53,350 --> 00:42:50,480

that the Baghdad battery was more than

991

00:42:56,500 --> 00:42:53,360

likely just used to electroplate

992

00:43:00,100 --> 00:42:56,510

gold onto jewelry meaning it was enough

993

00:43:02,380 --> 00:43:00,110

of an electricity current that you could

994

00:43:04,720 --> 00:43:02,390

generate you could heat up gold and

995

00:43:07,300 --> 00:43:04,730

spray it over jewelry but here's another

996

00:43:10,000 --> 00:43:07,310

alternative interesting fact about the

997

00:43:12,700 --> 00:43:10,010

battery the batteries they discovered

998

00:43:14,260 --> 00:43:12,710

are all about you know a few inches high

999

00:43:16,270 --> 00:43:14,270

I even own several and have done

1000

00:43:18,820 --> 00:43:16,280

experiments as you mentioned mm-hmm but

1001
00:43:21,760 --> 00:43:18,830
the ones in Egypt like the Dendera

1002
00:43:24,250 --> 00:43:21,770
reliefs show a battery that's four to

1003
00:43:26,200 --> 00:43:24,260
six feet tall right so if we took the

1004
00:43:28,180 --> 00:43:26,210
same principles of a four-inch battery

1005
00:43:31,120 --> 00:43:28,190
and applied it to a four foot tall

1006
00:43:34,360 --> 00:43:31,130
battery on camera I was able to generate

1007
00:43:36,580 --> 00:43:34,370
with my my little 5 inch battery 4 volts

1008
00:43:38,680 --> 00:43:36,590
mm-hmm which if you think of a modern

1009
00:43:40,570 --> 00:43:38,690
flashlight being powered by 9 volts not

1010
00:43:44,320 --> 00:43:40,580
so bad that's right if you had the same

1011
00:43:46,480 --> 00:43:44,330
elements in a 4 to 6 foot setup why

1012
00:43:50,410 --> 00:43:46,490
couldn't you generate a hundred volts

1013
00:43:52,000 --> 00:43:50,420

and and and to back that up you know one

1014

00:43:55,000 --> 00:43:52,010

of the things they did jimmy is that in

1015

00:43:57,100 --> 00:43:55,010

ancient Egypt for the various gods to

1016

00:43:59,620 --> 00:43:57,110

entice people to follow this God or that

1017

00:44:01,780 --> 00:43:59,630

God that the Baghdad battery is a

1018

00:44:05,050 --> 00:44:01,790

principle was used to power certain

1019

00:44:08,140 --> 00:44:05,060

statues where the statue would would

1020

00:44:11,320 --> 00:44:08,150

build up a static electricity charge and

1021

00:44:12,940 --> 00:44:11,330

he would literally have a hum so people

1022

00:44:15,010 --> 00:44:12,950

would walk in and see the statue and

1023

00:44:16,780 --> 00:44:15,020

would feel the presence literally of

1024

00:44:21,070 --> 00:44:16,790

some type of an energy they would touch

1025

00:44:25,930 --> 00:44:21,080

the statue and be like oh it's gods no

1026

00:44:29,950 --> 00:44:25,940

it's a Baghdad are all of all 12 are

1027

00:44:31,720 --> 00:44:29,960

they similar in design they're all

1028

00:44:36,670 --> 00:44:31,730

similar in design and they all have a

1029

00:44:38,440 --> 00:44:36,680

very recognizable shape and and you the

1030

00:44:41,380 --> 00:44:38,450

ones that you own are they originals are

1031

00:44:45,250 --> 00:44:41,390

they replicas okay no I've simply hired

1032

00:44:48,010 --> 00:44:45,260

people to replicate by dimension and the

1033

00:44:50,080 --> 00:44:48,020

same materials Baghdad battery replicas

1034

00:44:52,300 --> 00:44:50,090

and the simple principles of a Baghdad

1035

00:44:55,750 --> 00:44:52,310

battery again are is a clay pot copper

1036

00:44:58,630 --> 00:44:55,760

lining iron rod and when you mix any

1037

00:45:00,400 --> 00:44:58,640

weak acidic acid between the copper

1038

00:45:04,150 --> 00:45:00,410

plate and the iron rod within the clay

1039

00:45:07,360 --> 00:45:04,160

jar like grape juice wine vinegar lemon

1040

00:45:09,310 --> 00:45:07,370

juice it creates positive electrons

1041

00:45:11,050 --> 00:45:09,320

so the larger the battery you're just

1042

00:45:14,140 --> 00:45:11,060

pouring more juice into the battery

1043

00:45:17,080 --> 00:45:14,150

creating more voltage pretty much yeah

1044

00:45:19,390 --> 00:45:17,090

makes sense to me it has to it what I

1045

00:45:20,860 --> 00:45:19,400

wanted I wanted to make a comment about

1046

00:45:25,210 --> 00:45:20,870

the gold plating

1047

00:45:28,740 --> 00:45:25,220

even if Jason even if it was used for

1048

00:45:33,400 --> 00:45:28,750

gold plating that is amazing technical

1049

00:45:35,050 --> 00:45:33,410

exactly exactly okay I wanted to before

1050

00:45:38,290 --> 00:45:35,060

I let you go we've got a few minutes

1051
00:45:40,990 --> 00:45:38,300
left I wanted to talk about sitchin a

1052
00:45:45,040 --> 00:45:41,000
little bit do you mind oh of course

1053
00:45:46,990 --> 00:45:45,050
I bough the stitching in his five five

1054
00:45:49,570 --> 00:45:47,000
zero fifty years of research that he

1055
00:45:53,020 --> 00:45:49,580
left us he he did all of his own

1056
00:45:56,380 --> 00:45:53,030
translations well he did he was raised

1057
00:45:58,180 --> 00:45:56,390
you know in Palestine on the Hebrew and

1058
00:46:00,070 --> 00:45:58,190
the Old Testament and so had a much

1059
00:46:02,710 --> 00:46:00,080
different understanding than we might

1060
00:46:05,410 --> 00:46:02,720
think of being a journalist coming from

1061
00:46:08,650 --> 00:46:05,420
Palestine and understanding the Hebrew

1062
00:46:12,340 --> 00:46:08,660
versions of the Bible exactly so he's

1063
00:46:17,440 --> 00:46:12,350

doing his own translations did anybody

1064

00:46:19,270 --> 00:46:17,450

before Sitchin imply that he was his

1065

00:46:22,660 --> 00:46:19,280

research based on anything else or was

1066

00:46:24,790 --> 00:46:22,670

this just a complete discovery oh not at

1067

00:46:26,140 --> 00:46:24,800

all I've got two books awfully right off

1068

00:46:29,350 --> 00:46:26,150

for reference here that I wanted to

1069

00:46:32,710 --> 00:46:29,360

least share on the air sure he L Malone

1070

00:46:34,930 --> 00:46:32,720

is an author that Sitchin commonly

1071

00:46:37,390 --> 00:46:34,940

referenced in his materials as a scholar

1072

00:46:39,880 --> 00:46:37,400

Emmie Alma Lowen looked at early

1073

00:46:42,990 --> 00:46:39,890

Mesopotamia and Iran and again looked at

1074

00:46:46,660 --> 00:46:43,000

various artifacts and descriptions and

1075

00:46:49,660 --> 00:46:46,670

similarities between how the Assyrians

1076

00:46:51,760 --> 00:46:49,670

the Acadians the Sumerians all seem to

1077

00:46:54,670 --> 00:46:51,770

have a similar line of influence which

1078

00:46:57,360 --> 00:46:54,680

came out of early Iraq Sumer even

1079

00:47:00,130 --> 00:46:57,370

another author author Andrew Robinson

1080

00:47:02,830 --> 00:47:00,140

wrote a nice book called the story of

1081

00:47:05,290 --> 00:47:02,840

writing and so there are some very

1082

00:47:08,560 --> 00:47:05,300

interesting resources well beyond

1083

00:47:11,860 --> 00:47:08,570

Sitchin where people can understand the

1084

00:47:13,960 --> 00:47:11,870

context of this sacred information Jimmy

1085

00:47:16,800 --> 00:47:13,970

the real paradox here is simply this

1086

00:47:19,480 --> 00:47:16,810

most mainstream scholars or

1087

00:47:21,130 --> 00:47:19,490

archaeologists or linguists for this

1088

00:47:22,779 --> 00:47:21,140

matter would

1089

00:47:25,410 --> 00:47:22,789

Wabble with sit-ins interpretations

1090

00:47:28,359 --> 00:47:25,420

around a certain word or a phrase

1091

00:47:31,630 --> 00:47:28,369

nepheline Anunnaki Nibiru

1092

00:47:33,970 --> 00:47:31,640

however Sitchin as well as Erich von

1093

00:47:35,859 --> 00:47:33,980

däniken and several others were very

1094

00:47:38,200 --> 00:47:35,869

rare and few between

1095

00:47:41,650 --> 00:47:38,210

Sitchin more academics staying on just

1096

00:47:43,359 --> 00:47:41,660

him chose to say listen I'm not only

1097

00:47:45,849 --> 00:47:43,369

going to just squabble over this word or

1098

00:47:48,730 --> 00:47:45,859

phrase I'm going to put everything into

1099

00:47:51,549 --> 00:47:48,740

question and try and explain everything

1100

00:47:54,819 --> 00:47:51,559

under an envelope of understanding that

1101
00:47:58,509 --> 00:47:54,829
makes sense so Sitchin broke free from

1102
00:48:00,069 --> 00:47:58,519
current linguistic restraints and said

1103
00:48:02,650 --> 00:48:00,079
I'm going to give you a story that

1104
00:48:03,970 --> 00:48:02,660
encompasses all of the information not

1105
00:48:05,859 --> 00:48:03,980
let let's just try to figure out this

1106
00:48:07,839 --> 00:48:05,869
one little phrase or this word what does

1107
00:48:11,259 --> 00:48:07,849
all of the information mean what is the

1108
00:48:13,720 --> 00:48:11,269
overall message mean so this is a much

1109
00:48:16,990 --> 00:48:13,730
more esoteric topic that current

1110
00:48:18,670 --> 00:48:17,000
linguists or people very much so

1111
00:48:20,289 --> 00:48:18,680
interested in the origins of the Bible

1112
00:48:23,019 --> 00:48:20,299
coming at it from a religious or

1113
00:48:25,049 --> 00:48:23,029

Christian or Hebrew perspective there

1114

00:48:29,019 --> 00:48:25,059

needs to be a balance between science

1115

00:48:33,039 --> 00:48:29,029

religion and history and and thankfully

1116

00:48:34,630 --> 00:48:33,049

the ancient astronaut theory is giving

1117

00:48:36,670 --> 00:48:34,640

that like ancient aliens is giving this

1118

00:48:39,430 --> 00:48:36,680

information a fresh new look because the

1119

00:48:41,499 --> 00:48:39,440

origins of where we come from is a very

1120

00:48:43,930 --> 00:48:41,509

intriguing and interesting topic we all

1121

00:48:47,440 --> 00:48:43,940

need mystery in life and I don't think

1122

00:48:49,960 --> 00:48:47,450

the black and white version science or

1123

00:48:51,279 --> 00:48:49,970

religion is the way to answer it and

1124

00:48:54,130 --> 00:48:51,289

most people are understanding that

1125

00:48:55,359 --> 00:48:54,140

nowadays okay I have a another text that

1126

00:48:58,839 --> 00:48:55,369

came in I don't have a last name her

1127

00:49:01,390 --> 00:48:58,849

name's Helen and she says and this is a

1128

00:49:04,630 --> 00:49:01,400

great question she says it was there

1129

00:49:07,950 --> 00:49:04,640

anything on ancient aliens that you

1130

00:49:10,420 --> 00:49:07,960

couldn't talk about or could not share

1131

00:49:14,140 --> 00:49:10,430

well I'm a topical go ahead and give the

1132

00:49:15,339 --> 00:49:14,150

plug in early 2014 do you have a web

1133

00:49:16,960 --> 00:49:15,349

browser and you're in front of the

1134

00:49:23,079 --> 00:49:16,970

computer you're gonna want to remember

1135

00:49:25,059 --> 00:49:23,089

this URL ancient school.com and in that

1136

00:49:28,089 --> 00:49:25,069

venture in 2014 I'm going to be

1137

00:49:30,730 --> 00:49:28,099

launching ancient school where myself

1138

00:49:33,130 --> 00:49:30,740

and other experts from the community of

1139

00:49:35,020 --> 00:49:33,140

the ancient astronaut field are going to

1140

00:49:37,660 --> 00:49:35,030

be giving weekly lessons

1141

00:49:39,520 --> 00:49:37,670

so that people with in video format can

1142

00:49:41,740 --> 00:49:39,530

watch and learn and will be given

1143

00:49:44,560 --> 00:49:41,750

homework to understand and learn and

1144

00:49:47,080 --> 00:49:44,570

educate themselves from people like

1145

00:49:49,030 --> 00:49:47,090

myself if they're so inclined

1146

00:49:52,030 --> 00:49:49,040

we'll get the link up on our website

1147

00:49:54,760 --> 00:49:52,040

later on tonight for everybody out there

1148

00:49:56,260 --> 00:49:54,770

and you can certainly email us and I'll

1149

00:49:59,170 --> 00:49:56,270

get you that information right back to

1150

00:50:01,750 --> 00:49:59,180

you but so was there anything was there

1151
00:50:03,700 --> 00:50:01,760
anything that you just couldn't was too

1152
00:50:08,380 --> 00:50:03,710
controversial that could make it a

1153
00:50:11,980 --> 00:50:08,390
challenge well you know ancient aliens

1154
00:50:15,220 --> 00:50:11,990
is is a great show and there's topics

1155
00:50:17,440 --> 00:50:15,230
that get formed around the producers

1156
00:50:20,320 --> 00:50:17,450
vetting these topics but there are

1157
00:50:22,090 --> 00:50:20,330
sometimes topics that come up that just

1158
00:50:25,450 --> 00:50:22,100
being very loose about it you know

1159
00:50:26,830 --> 00:50:25,460
either dive too deep into current

1160
00:50:30,280 --> 00:50:26,840
religious views let's say around

1161
00:50:32,620 --> 00:50:30,290
Christian beliefs and Satan and the

1162
00:50:35,590 --> 00:50:32,630
devil and things like that or things

1163
00:50:40,270 --> 00:50:35,600

that have to do with you know classified

1164

00:50:43,000 --> 00:50:40,280

information and current things that are

1165

00:50:44,980 --> 00:50:43,010

is it UFO or is that you know classified

1166

00:50:47,800 --> 00:50:44,990

spaceship type thing

1167

00:50:50,470 --> 00:50:47,810

there are definitely perimeter topics

1168

00:50:52,960 --> 00:50:50,480

that I would like to talk about not

1169

00:50:54,580 --> 00:50:52,970

breaking clearance or security

1170

00:50:55,900 --> 00:50:54,590

clearances or anything I would never do

1171

00:50:58,780 --> 00:50:55,910

anything like that and plus I don't have

1172

00:51:01,690 --> 00:50:58,790

any but there's definitely topics that I

1173

00:51:04,210 --> 00:51:01,700

feel are better to explore outside of

1174

00:51:06,340 --> 00:51:04,220

the 60 Minutes of what you get on TV and

1175

00:51:08,140 --> 00:51:06,350

some of those again from my interests

1176

00:51:10,480 --> 00:51:08,150

are definitely of our biblical origins

1177

00:51:12,460 --> 00:51:10,490

things involving the Ark of the Covenant

1178

00:51:14,710 --> 00:51:12,470

Moses some of these pieces of

1179

00:51:17,670 --> 00:51:14,720

information that you know we have a very

1180

00:51:20,350 --> 00:51:17,680

black-and-white story of our history and

1181

00:51:23,770 --> 00:51:20,360

it's very interesting that with this

1182

00:51:25,720 --> 00:51:23,780

global access to data we can get many

1183

00:51:29,860 --> 00:51:25,730

perspectives on the same story and

1184

00:51:32,950 --> 00:51:29,870

ascertain what is the true path well

1185

00:51:34,720 --> 00:51:32,960

exactly and I have a problem with and I

1186

00:51:37,450 --> 00:51:34,730

want to talk about knowledge apocalypse

1187

00:51:40,480 --> 00:51:37,460

here in just a second but I have a

1188

00:51:43,030 --> 00:51:40,490

problem with nothing between practically

1189

00:51:45,070 --> 00:51:43,040

a Stone Age existence and the sudden

1190

00:51:47,980 --> 00:51:45,080

appearance of what appeared to be

1191

00:51:48,790 --> 00:51:47,990

everything you know and I'm not not only

1192

00:51:50,380 --> 00:51:48,800

the may

1193

00:51:53,590 --> 00:51:50,390

oolitic stuff in the pyramids but

1194

00:51:57,310 --> 00:51:53,600

astronomy advanced math you know

1195

00:51:59,530 --> 00:51:57,320

everything just happened overnight and I

1196

00:52:01,570 --> 00:51:59,540

just have a problem with that

1197

00:52:03,070 --> 00:52:01,580

well Jimmy we're going to need to

1198

00:52:04,780 --> 00:52:03,080

explore this further because you won't

1199

00:52:06,850 --> 00:52:04,790

have a problem with this if I can get it

1200

00:52:09,490 --> 00:52:06,860

to sink into your head that it's just a

1201
00:52:11,110 --> 00:52:09,500
repeating cycle think of it this way and

1202
00:52:14,530 --> 00:52:11,120
I'll just give you an example of data

1203
00:52:16,510 --> 00:52:14,540
again to support this idea in the time

1204
00:52:19,990 --> 00:52:16,520
of Copernicus and Galileo

1205
00:52:22,300 --> 00:52:20,000
we were just rediscovering that we orbit

1206
00:52:24,730 --> 00:52:22,310
the Sun right the time of the Egyptians

1207
00:52:26,770 --> 00:52:24,740
and the Sumerians they were very

1208
00:52:30,670 --> 00:52:26,780
knowledgeable about the workings of the

1209
00:52:32,740 --> 00:52:30,680
solar system 4,000 years ago we seem to

1210
00:52:34,390 --> 00:52:32,750
know everything the Egyptians the

1211
00:52:36,190 --> 00:52:34,400
Sumerians were very knowledgeable and

1212
00:52:39,280 --> 00:52:36,200
then we went into something called the

1213
00:52:40,870 --> 00:52:39,290

Dark Ages and we forgot at all as we

1214

00:52:43,600 --> 00:52:40,880

started to just come out of the Dark

1215

00:52:45,610 --> 00:52:43,610

Ages Copernicus and Galileo started to

1216

00:52:47,380 --> 00:52:45,620

say hey wait a minute all this stuff

1217

00:52:50,050 --> 00:52:47,390

over the last couple thousand years is

1218

00:52:52,360 --> 00:52:50,060

wrong we're now on the upswing again

1219

00:52:56,350 --> 00:52:52,370

we're just about parallel with Sumerian

1220

00:52:59,650 --> 00:52:56,360

and Egyptian times in that they forgot

1221

00:53:02,500 --> 00:52:59,660

it 4000 years ago we remembered it 2,000

1222

00:53:04,300 --> 00:53:02,510

years ago and now today we're kind of

1223

00:53:06,820 --> 00:53:04,310

realizing that there's a bigger picture

1224

00:53:08,590 --> 00:53:06,830

so Jimmy there's a different there's a

1225

00:53:11,410 --> 00:53:08,600

definitely a bigger topic for us to

1226

00:53:13,330 --> 00:53:11,420

explore around this loss cycle of time

1227

00:53:16,420 --> 00:53:13,340

and how it influences cultures here on

1228

00:53:18,490 --> 00:53:16,430

earth well exactly and and and everybody

1229

00:53:20,140 --> 00:53:18,500

just seems to forget one you know a

1230

00:53:23,230 --> 00:53:20,150

couple of basic things and one of them

1231

00:53:25,990 --> 00:53:23,240

is this we forgot hieroglyphics

1232

00:53:28,270 --> 00:53:26,000

you know almost overnight you know when

1233

00:53:29,800 --> 00:53:28,280

when we go back and rediscover Egypt it

1234

00:53:32,050 --> 00:53:29,810

was a lost language that even the

1235

00:53:34,180 --> 00:53:32,060

Egyptians didn't read anymore you know

1236

00:53:36,910 --> 00:53:34,190

completely forgotten and when you bring

1237

00:53:41,410 --> 00:53:36,920

up the Dark Ages when the Romans left

1238

00:53:43,690 --> 00:53:41,420

Great Britain they had nothing you know

1239

00:53:46,620 --> 00:53:43,700

it was like they forgot how to do

1240

00:53:49,120 --> 00:53:46,630

anything and and it can happen so

1241

00:53:52,420 --> 00:53:49,130

quickly so there is no question that

1242

00:53:55,390 --> 00:53:52,430

there is a huge 4 5 6 7 8 9 10 thousand

1243

00:53:58,300 --> 00:53:55,400

year gap where something was there and

1244

00:54:00,760 --> 00:53:58,310

and nobody wants to say they just want

1245

00:54:02,800 --> 00:54:00,770

to say it was it was you know the Stone

1246

00:54:05,560 --> 00:54:02,810

Age and that's the expression

1247

00:54:08,110 --> 00:54:05,570

I hear you okay well tell us about

1248

00:54:13,060 --> 00:54:08,120

before we go tell us about knowledge

1249

00:54:14,770 --> 00:54:13,070

apocalypse okay well you know I I as I

1250

00:54:17,440 --> 00:54:14,780

mentioned I'm 39 now and so I've been

1251
00:54:19,540 --> 00:54:17,450
doing this research since I was 21 and I

1252
00:54:22,300 --> 00:54:19,550
thought it was time to at least give a

1253
00:54:24,550 --> 00:54:22,310
very easy to read book kind of the

1254
00:54:27,430 --> 00:54:24,560
Cliff's Notes discussion of the topics

1255
00:54:28,990 --> 00:54:27,440
that I've come to be interested in so

1256
00:54:31,420 --> 00:54:29,000
that it can be easily passed on to other

1257
00:54:33,610 --> 00:54:31,430
people as a gateway to understanding the

1258
00:54:36,060 --> 00:54:33,620
ancient astronaut topic so knowledge

1259
00:54:40,270 --> 00:54:36,070
apocalypse is just you know a very basic

1260
00:54:43,060 --> 00:54:40,280
read on my exploration and understanding

1261
00:54:45,460 --> 00:54:43,070
that there's something going on not only

1262
00:54:47,920 --> 00:54:45,470
on you know on Mars but you're on earth

1263
00:54:50,620 --> 00:54:47,930

and how we kind of fit into that from

1264

00:54:54,270 --> 00:54:50,630

our from our ancient past everything is

1265

00:54:56,020 --> 00:54:54,280

over at x-pac's yes definitely uh

1266

00:54:58,630 --> 00:54:56,030

anyone's interested in what we're

1267

00:55:00,700 --> 00:54:58,640

talking about tonight head over 2x facts

1268

00:55:03,640 --> 00:55:00,710

or just just Google Jason mark towel I

1269

00:55:05,020 --> 00:55:03,650

have a plethora of videos on on YouTube

1270

00:55:08,200 --> 00:55:05,030

and you're welcome to follow me on

1271

00:55:10,630 --> 00:55:08,210

Facebook or Instagram and you know this

1272

00:55:13,450 --> 00:55:10,640

is a lifelong passion for me Jimmy I'm

1273

00:55:15,820 --> 00:55:13,460

very much interested in carrying the

1274

00:55:19,420 --> 00:55:15,830

torch and learning about these topics

1275

00:55:21,850 --> 00:55:19,430

and thankfully with modern technology

1276

00:55:24,010 --> 00:55:21,860

and the things we can do today

1277

00:55:26,680 --> 00:55:24,020

I hope to bring people along with us my

1278

00:55:31,210 --> 00:55:26,690

buddy Giorgio tsoukalos who's you know

1279

00:55:32,350 --> 00:55:31,220

also the hair guy on Jillian's and we

1280

00:55:34,570 --> 00:55:32,360

never would have guessed that his hair

1281

00:55:39,160 --> 00:55:34,580

was going to go viral but it did so I've

1282

00:55:41,620 --> 00:55:39,170

got a t-shirt you know a really great

1283

00:55:43,900 --> 00:55:41,630

guy and we're really good friends and

1284

00:55:45,400 --> 00:55:43,910

and you know I give him a lot of credit

1285

00:55:47,620 --> 00:55:45,410

for carrying the ancient alien torch but

1286

00:55:49,390 --> 00:55:47,630

we do plan on doing some tours in 2014

1287

00:55:51,520 --> 00:55:49,400

and going to some of these sites and

1288

00:55:55,930 --> 00:55:51,530

again using technology Jimmy you know

1289

00:55:58,810 --> 00:55:55,940

people hear about drones and autonomous

1290

00:56:01,750 --> 00:55:58,820

flight craft that can do things overseas

1291

00:56:05,170 --> 00:56:01,760

we also put these purposes to use for

1292

00:56:08,230 --> 00:56:05,180

archaeology we have some people spinning

1293

00:56:10,300 --> 00:56:08,240

up on our side training to use drones so

1294

00:56:12,940 --> 00:56:10,310

that the next time we visit Machu Picchu

1295

00:56:14,920 --> 00:56:12,950

and sacsayhuamán we can actually get the

1296

00:56:16,660 --> 00:56:14,930

same perspective that a helicopter or

1297

00:56:17,920 --> 00:56:16,670

someone climbing a cliff

1298

00:56:19,539 --> 00:56:17,930

we wouldn't want to do that we'll just

1299

00:56:22,750 --> 00:56:19,549

send our drone and we're gonna really

1300

00:56:24,670 --> 00:56:22,760

put forth some new data and video to

1301
00:56:27,279 --> 00:56:24,680
explore some of these areas with the

1302
00:56:30,250 --> 00:56:27,289
public I just saw a video the other day

1303
00:56:33,190 --> 00:56:30,260
on YouTube of a little one of those

1304
00:56:34,779 --> 00:56:33,200
little you know for prop pod hello you

1305
00:56:38,339 --> 00:56:34,789
know remote-controlled helicopter

1306
00:56:41,349 --> 00:56:38,349
whatever that cruised around Giza and

1307
00:56:45,670 --> 00:56:41,359
flew around the pyramids and what it

1308
00:56:47,680 --> 00:56:45,680
changed me it really did I yeah I

1309
00:56:49,779 --> 00:56:47,690
couldn't believe it high-def up close

1310
00:56:51,700 --> 00:56:49,789
you know just a few feet off of the

1311
00:56:55,180 --> 00:56:51,710
pyramids up and down and around and

1312
00:56:55,990 --> 00:56:55,190
around the Sphinx it was insane I'll

1313
00:56:57,670 --> 00:56:56,000

send you the link

1314

00:57:00,910 --> 00:56:57,680

I'll find the link and I'll I'll get it

1315

00:57:02,650 --> 00:57:00,920

out there to you check it out and that's

1316

00:57:03,789 --> 00:57:02,660

you know that's some of the stuff that

1317

00:57:06,009 --> 00:57:03,799

we're going to be exploring through

1318

00:57:08,589 --> 00:57:06,019

ancient school and whether people sign

1319

00:57:10,329 --> 00:57:08,599

up as a member or just come check it out

1320

00:57:13,420 --> 00:57:10,339

I think it's definitely an interesting

1321

00:57:15,339 --> 00:57:13,430

mix between archaeology and technology

1322

00:57:16,839 --> 00:57:15,349

of what's what's kind of come and coming

1323

00:57:20,349 --> 00:57:16,849

ahead of us well I'd like to thank you

1324

00:57:22,029 --> 00:57:20,359

1326
00:57:25,599 --> 00:57:23,960
