1
00:00:35,900 --> 00:00:22,460
this is KJ cr-z research radio job on

2
00:00:43,680 --> 00:00:38,550
all right everybody welcome back welcome

3
00:00:48,540 --> 00:00:43,690
back whoo live from Burbank California

4
00:00:52,560 --> 00:00:48,550
this is KJ see our fade to black on the

5
00:00:54,180 --> 00:00:52,570
dark matter radio network yeah I would

6
00:00:59,250 --> 00:00:54,190
like to thank Jason Martel for coming in

7
00:01:02,910 --> 00:00:59,260
that was awesome okay follow us on

8
00:01:05,719 --> 00:01:02,920
Twitter that's at kjc our fade to black

9
00:01:09,270 --> 00:01:05,729
you go over to YouTube you can email us

10
00:01:11,999 --> 00:01:09,280
Jimmy at Jimmy Church radio.com we'll be

11
00:01:14,940 --> 00:01:12,009
getting to that stuff in just a second I

12
00:01:15,510 --> 00:01:14,950
would like to welcome to the show right

13
00:01:20,969 --> 00:01:15,520

now

14

00:01:25,560 --> 00:01:20,979

Ralph wolf McCarran ralpherz is was on

15

00:01:28,680 --> 00:01:25,570

the board of MUFON LA since 1992 I need

16

00:01:31,200 --> 00:01:28,690

to explain that is 21 years as their

17

00:01:34,380 --> 00:01:31,210

technical director webmaster and video

18

00:01:37,770 --> 00:01:34,390

analyst since 2001 he was a member of

19

00:01:39,539 --> 00:01:37,780

lau forg and that is the los angeles UFO

20

00:01:41,460 --> 00:01:39,549

research group and that was started over

21

00:01:44,460 --> 00:01:41,470

at UCLA right here in los angeles and

22

00:01:47,250 --> 00:01:44,470

then with an truffle mr. McCarran took

23

00:01:49,080 --> 00:01:47,260

four years to catalog he's gonna tell us

24

00:01:52,710 --> 00:01:49,090

all about this and in just a second that

25

00:01:55,320 --> 00:01:52,720

James McDonald archive he is considered

26

00:02:00,030 --> 00:01:55,330

one of the original investigators of

27

00:02:03,180 --> 00:02:00,040

area 51 he is listed on ufi Montcalm UFO

28

00:02:05,730 --> 00:02:03,190

mine calm as one of the people related

29

00:02:08,729 --> 00:02:05,740

to area 51 I'd like to welcome to the

30

00:02:11,100 --> 00:02:08,739

program right now Ralph wolf McCarran

31

00:02:13,140 --> 00:02:11,110

wolf how are you sir good buddy how you

32

00:02:17,520 --> 00:02:13,150

doing

33

00:02:20,160 --> 00:02:17,530

we've got a lot to talk about and before

34

00:02:23,729 --> 00:02:20,170

before we get because what we're gonna

35

00:02:24,990 --> 00:02:23,739

do with with Wolf is we're gonna we're

36

00:02:26,640 --> 00:02:25,000

gonna talk for about an hour and then in

37

00:02:29,310 --> 00:02:26,650

the second hour we're gonna be taking

38

00:02:32,310 --> 00:02:29,320

your phone calls and everything will be

39

00:02:33,960 --> 00:02:32,320

on skype and we'll get to that in just a

40

00:02:35,490 --> 00:02:33,970

little bit and I'll give you the secret

41

00:02:39,360 --> 00:02:35,500

Skype number that won't be secret

42

00:02:43,199 --> 00:02:39,370

anymore but but before we get to all of

43

00:02:44,729 --> 00:02:43,209

that what I asked the same thing of

44

00:02:48,160 --> 00:02:44,739

Jason Martel I asked this of every

45

00:02:50,110 --> 00:02:48,170

single guest what gotcha

46

00:02:52,270 --> 00:02:50,120

into this what got you into this

47

00:02:55,449 --> 00:02:52,280

research you've been doing it for almost

48

00:02:57,790 --> 00:02:55,459

half of your life or longer what got you

49

00:02:59,410 --> 00:02:57,800

in to doing this type of research when I

50

00:03:03,339 --> 00:02:59,420

was 12 years old I read Chariots of the

51
00:03:06,309 --> 00:03:03,349
god one Dawkins book which was published

52
00:03:08,770 --> 00:03:06,319
in 68 so did you see the movie when it

53
00:03:12,910 --> 00:03:08,780
was in first theater yeah I did to

54
00:03:15,400 --> 00:03:12,920
change me oh man yeah you know what was

55
00:03:19,479 --> 00:03:15,410
funny and and we're just gonna talk you

56
00:03:21,370 --> 00:03:19,489
know we're friends but when that movie

57
00:03:23,380 --> 00:03:21,380
came out and that book came out at that

58
00:03:26,559 --> 00:03:23,390
age I just thought why doesn't everybody

59
00:03:27,820 --> 00:03:26,569
know about this it makes sense to me you

60
00:03:30,550 --> 00:03:27,830
know did it do the same thing for you

61
00:03:32,199 --> 00:03:30,560
yeah yes no I mean that it was it just

62
00:03:33,759 --> 00:03:32,209
didn't treat me to get into the field

63
00:03:36,039 --> 00:03:33,769

and to start reading everything I could

64

00:03:37,990 --> 00:03:36,049

on the subject basically so I started

65

00:03:40,930 --> 00:03:38,000

really young and then uh I just read as

66

00:03:42,870 --> 00:03:40,940

much as I could the original group of

67

00:03:45,340 --> 00:03:42,880

guys let's let's get right into area 51

68

00:03:47,860 --> 00:03:45,350

because we will run out of time before

69

00:03:50,289 --> 00:03:47,870

you know it the original group of guys

70

00:03:52,650 --> 00:03:50,299

and you and I were talking about this a

71

00:03:55,900 --> 00:03:52,660

couple of weeks ago but UFO mine calm

72

00:03:57,190 --> 00:03:55,910

really changed it for me like Chariots

73

00:04:00,039 --> 00:03:57,200

of the Gods you know there's a few

74

00:04:02,460 --> 00:04:00,049

seminal moments with everybody and UFO

75

00:04:09,069 --> 00:04:02,470

mind and I'm gonna guess here and say

76
00:04:11,949 --> 00:04:09,079
1996 1995 1996 you know AOL 1.0 UFO mind

77
00:04:14,410 --> 00:04:11,959
when I discovered that website and I

78
00:04:17,259 --> 00:04:14,420
have no idea how many seems like

79
00:04:20,319 --> 00:04:17,269
probably a thousand pages of stuff of

80
00:04:21,909 --> 00:04:20,329
data and and back then extensive it

81
00:04:26,050 --> 00:04:21,919
would be extensive today but back then

82
00:04:29,590 --> 00:04:26,060
it was crazy I spent probably the better

83
00:04:33,190 --> 00:04:29,600
part of two months reading and clicking

84
00:04:34,990 --> 00:04:33,200
on every single link on that site and

85
00:04:39,430 --> 00:04:35,000
after a couple of months I'll never

86
00:04:42,430 --> 00:04:39,440
forget it i Don the last link I was done

87
00:04:46,420 --> 00:04:42,440
and I was almost depressed but that

88
00:04:47,980 --> 00:04:46,430

website it was so and I just want to put

89

00:04:48,670 --> 00:04:47,990

this in the right frame of mind for

90

00:04:52,240 --> 00:04:48,680

everybody

91

00:04:54,790 --> 00:04:52,250

it was so comprehensive you know it was

92

00:04:56,469 --> 00:04:54,800

right it was spot-on the money and it

93

00:04:59,740 --> 00:04:56,479

talked about everything in such a

94

00:05:03,370 --> 00:04:59,750

factual way and and so forth but you

95

00:05:07,720 --> 00:05:03,380

were on that website you were one of the

96

00:05:10,270 --> 00:05:07,730

original people linked to area 51 on UFO

97

00:05:12,700 --> 00:05:10,280

mine calm and and that is a very

98

00:05:14,470 --> 00:05:12,710

important thing so though that original

99

00:05:16,330 --> 00:05:14,480

group of guys and and I'm just setting

100

00:05:20,020 --> 00:05:16,340

this up for everybody we're talking

101
00:05:23,610 --> 00:05:20,030
about Jim Goodall John Lear jump in if I

102
00:05:28,810 --> 00:05:23,620
miss anybody Sean Morton huff gene Huff

103
00:05:31,720 --> 00:05:28,820
Gloria Norio Hayakawa George Knapp Bob

104
00:05:33,970 --> 00:05:31,730
Lazar right that original core group of

105
00:05:36,460 --> 00:05:33,980
guys there's only maybe ten names on

106
00:05:39,520 --> 00:05:36,470
that list you're one of those names so

107
00:05:41,620 --> 00:05:39,530
let take us back to that time and how

108
00:05:44,200 --> 00:05:41,630
did you get into that and how did you

109
00:05:45,700 --> 00:05:44,210
find was it even called area 51 back

110
00:05:48,100 --> 00:05:45,710
then there were other different names

111
00:05:51,460 --> 00:05:48,110
for there's the ranch the box

112
00:05:54,159 --> 00:05:51,470
pilots called the Box you know dream

113
00:05:55,990 --> 00:05:54,169

land you know there's so many different

114

00:05:57,400 --> 00:05:56,000

names they called it but that there's

115

00:05:59,080 --> 00:05:57,410

not really ever been an official name

116

00:06:00,430 --> 00:05:59,090

but you know different people that work

117

00:06:01,300 --> 00:06:00,440

there whatever had you know call the

118

00:06:03,400 --> 00:06:01,310

different things but it was never

119

00:06:05,050 --> 00:06:03,410

released to later you know was it called

120

00:06:06,580 --> 00:06:05,060

area 51 when you started your research

121

00:06:09,219 --> 00:06:06,590

well that was that was part of the

122

00:06:10,570 --> 00:06:09,229

plotting of the the the way the

123

00:06:12,490 --> 00:06:10,580

government plotted the land maps or

124

00:06:13,719 --> 00:06:12,500

whatever there's an area 10 and area 12

125

00:06:15,460 --> 00:06:13,729

there's all these different areas so

126

00:06:18,040 --> 00:06:15,470

that was just one of the designations

127

00:06:19,480 --> 00:06:18,050

but you know it had different names some

128

00:06:22,990 --> 00:06:19,490

people work there called it the ranch

129

00:06:24,880 --> 00:06:23,000

right okay okay so that's where s4 got

130

00:06:26,740 --> 00:06:24,890

its designation to because that was just

131

00:06:28,360 --> 00:06:26,750

a position on a map yeah well there's

132

00:06:29,890 --> 00:06:28,370

two well there's kind of most people

133

00:06:31,870 --> 00:06:29,900

know this but there's actually two s

134

00:06:33,400 --> 00:06:31,880

fours it's kind of confusing because

135

00:06:35,350 --> 00:06:33,410

there's s for the Lazar talks about in

136

00:06:39,460 --> 00:06:35,360

your Papoose Lake but there actually is

137

00:06:42,190 --> 00:06:39,470

a site for that in Tonopah that's used

138

00:06:43,600 --> 00:06:42,200

to test radar like you know we have all

139

00:06:46,090 --> 00:06:43,610

the radars in the world there from

140

00:06:47,560 --> 00:06:46,100

Russia from Japan and when we test

141

00:06:50,080 --> 00:06:47,570

stealth aircraft what it have you not

142

00:06:52,030 --> 00:06:50,090

this site for is where they have all

143

00:06:54,070 --> 00:06:52,040

these you know all these radars from all

144

00:06:55,840 --> 00:06:54,080

over the world different countries where

145

00:06:57,250 --> 00:06:55,850

they Jam the planes and try to see if

146

00:06:59,170 --> 00:06:57,260

they're stealth or whatever see if they

147

00:07:01,060 --> 00:06:59,180

can and that's a missile test range

148

00:07:02,380 --> 00:07:01,070

right Tunip a Tonopah well total balls

149

00:07:05,469 --> 00:07:02,390

tested this really tested the stealth

150

00:07:08,620 --> 00:07:05,479

aircraft I mean Willie they they built

151
00:07:09,930 --> 00:07:08,630
it at Lockheed they transported area 51

152
00:07:13,180 --> 00:07:09,940
it was test flown there and then they

153
00:07:13,399 --> 00:07:13,190
once once the RDS done the test they'd

154
00:07:14,959 --> 00:07:13,409
be

155
00:07:17,149 --> 00:07:14,969
these little mini ministry hangers out

156
00:07:18,769 --> 00:07:17,159
Tonopah legate you know 1820 hangers

157
00:07:21,379 --> 00:07:18,779
were the Stealth's would stay in the

158
00:07:22,850 --> 00:07:21,389
guys that phoom lived on the base and

159
00:07:24,949 --> 00:07:22,860
worked out their from you know months at

160
00:07:26,779 --> 00:07:24,959
a time and they just fluid and that got

161
00:07:28,369 --> 00:07:26,789
it ready for you know the final stages

162
00:07:30,049 --> 00:07:28,379
before it went off to a war whatever

163
00:07:32,359 --> 00:07:30,059

okay we'll take this back to that time

164

00:07:35,779 --> 00:07:32,369

okay so what year was this your first

165

00:07:38,659 --> 00:07:35,789

trip out what what year well i and you

166

00:07:40,219 --> 00:07:38,669

go with well i i started early on I just

167

00:07:42,350 --> 00:07:40,229

I think I read an article is our annual

168

00:07:46,309 --> 00:07:42,360

magazine which you know was published by

169

00:07:48,169 --> 00:07:46,319

Don Ecker and a vicar and I'm I I was

170

00:07:50,629 --> 00:07:48,179

intrigued by the you know the Lazar

171

00:07:52,879 --> 00:07:50,639

story in about area 51 back then nobody

172

00:07:55,579 --> 00:07:52,889

really knew where every 51 was or were

173

00:07:57,679 --> 00:07:55,589

how to get to it or whatever only guys

174

00:07:59,329 --> 00:07:57,689

that were kind of like you know guys

175

00:08:01,429 --> 00:07:59,339

maybe worked at Edwards or guys that

176
00:08:03,109 --> 00:08:01,439
kind of were black op kind of guys would

177
00:08:05,600 --> 00:08:03,119
kind of knew kind of where it was but

178
00:08:07,129 --> 00:08:05,610
not really so I read that article I was

179
00:08:09,259 --> 00:08:07,139
interested in - it's so much a UFO

180
00:08:11,689 --> 00:08:09,269
convention and and sure enough nouriel's

181
00:08:13,909 --> 00:08:11,699
there and norio and i meet the first

182
00:08:17,119 --> 00:08:13,919
time he's got all his you know pictures

183
00:08:19,129 --> 00:08:17,129
of all the satellite pictures are very

184
00:08:22,129 --> 00:08:19,139
51 and whatnot and this was probably

185
00:08:23,749 --> 00:08:22,139
back like in a 90 or 91 it was with the

186
00:08:26,179 --> 00:08:23,759
it was the UFO Expos that were held at

187
00:08:27,589 --> 00:08:26,189
the LA Hyatt Regency hotels the real

188
00:08:30,230 --> 00:08:27,599

early ones and that's that's one that

189

00:08:32,839 --> 00:08:30,240

were Lear spoke at and even a William

190

00:08:34,540 --> 00:08:32,849

Cooper was that - no bill yeah Cooper

191

00:08:37,279 --> 00:08:34,550

and actually got videos of both of those

192

00:08:39,759 --> 00:08:37,289

not widely seen on the internet but uh

193

00:08:43,159 --> 00:08:39,769

but actually a video of both of those uh

194

00:08:44,569 --> 00:08:43,169

talks but uh that's kind of how I got

195

00:08:45,170 --> 00:08:44,579

interested into it and then I just

196

00:08:47,629 --> 00:08:45,180

started going

197

00:08:49,100 --> 00:08:47,639

I was already in MUFON you know I was

198

00:08:50,509 --> 00:08:49,110

already you know you're talking I

199

00:08:52,429 --> 00:08:50,519

started when I was like 12 years old so

200

00:08:53,749 --> 00:08:52,439

so I already had this but I started to

201
00:08:55,340 --> 00:08:53,759
do and I started getting a way of

202
00:08:57,799 --> 00:08:55,350
regular beautiful research and getting

203
00:08:59,509 --> 00:08:57,809
into my own research like it I wasn't

204
00:09:00,620 --> 00:08:59,519
really wanted to be involved with MUFON

205
00:09:02,720 --> 00:09:00,630
and that kind of thing I kind of wanted

206
00:09:04,189 --> 00:09:02,730
to do my own and kind of get away and

207
00:09:06,499 --> 00:09:04,199
start I figured if anybody knows where

208
00:09:08,030 --> 00:09:06,509
the were the you know where this stuff

209
00:09:09,679 --> 00:09:08,040
is that it's gonna be the military so I

210
00:09:11,480 --> 00:09:09,689
started getting involved in black ops

211
00:09:15,519 --> 00:09:11,490
research so that's kind of where I focus

212
00:09:18,410 --> 00:09:15,529
my research and then I started I

213
00:09:20,600 --> 00:09:18,420

produced a video back in like 91 that

214

00:09:22,220 --> 00:09:20,610

was sold through UFO magazine that told

215

00:09:23,809 --> 00:09:22,230

people is called the area 51 viewers

216

00:09:27,049 --> 00:09:23,819

guide and would basically told people

217

00:09:27,530 --> 00:09:27,059

how to get to area 51 okay I sold like

218

00:09:29,900 --> 00:09:27,540

five

219

00:09:31,670 --> 00:09:29,910

600 copies and people would buy it just

220

00:09:35,060 --> 00:09:31,680

so they could figure know how to get to

221

00:09:37,130 --> 00:09:35,070

every 50 internet before rightful didn't

222

00:09:38,630 --> 00:09:37,140

know you know there was no is real early

223

00:09:40,970 --> 00:09:38,640

internet so people didn't really know

224

00:09:44,240 --> 00:09:40,980

how to get out there so what did you do

225

00:09:45,470 --> 00:09:44,250

just head up the the highway looking for

226

00:09:48,050 --> 00:09:45,480

the black mailbox

227

00:09:51,020 --> 00:09:48,060

you know I well I started yeah I started

228

00:09:53,150 --> 00:09:51,030

doing like these little solo ventures by

229

00:09:55,370 --> 00:09:53,160

myself but then after I had my video

230

00:09:57,410 --> 00:09:55,380

tapes out I started getting kind of a

231

00:10:00,710 --> 00:09:57,420

little bit of a fan base but I I met a I

232

00:10:04,390 --> 00:10:00,720

met another guy up on freedom Ridge back

233

00:10:06,560 --> 00:10:04,400

in the day this is the early days before

234

00:10:08,330 --> 00:10:06,570

that used to be able to hike to freedom

235

00:10:10,400 --> 00:10:08,340

Ridge I have to go on the back side you

236

00:10:12,680 --> 00:10:10,410

couldn't get around the border because

237

00:10:14,570 --> 00:10:12,690

it was blocked by the guards actually

238

00:10:16,280 --> 00:10:14,580

the security guards at the base actually

239

00:10:18,140 --> 00:10:16,290

originally blew it up with dynamite

240

00:10:20,900 --> 00:10:18,150

there was another little road that was

241

00:10:22,520 --> 00:10:20,910

actually accessible to get in but it was

242

00:10:23,810 --> 00:10:22,530

it was still inside the border but they

243

00:10:25,400 --> 00:10:23,820

still knew that the guards knew that

244

00:10:26,600 --> 00:10:25,410

they didn't want to be going in there so

245

00:10:29,930 --> 00:10:26,610

we used to have to hike up the backside

246

00:10:31,250 --> 00:10:29,940

it's a two-hour hike and I met a partner

247

00:10:32,780 --> 00:10:31,260

of mine that actually bought my

248

00:10:34,700 --> 00:10:32,790

videotape I'm sitting in a lawn chair on

249

00:10:36,050 --> 00:10:34,710

freedom Ridge and this guy comes up

250

00:10:37,910 --> 00:10:36,060

we're talking about stuff and he's like

251

00:10:38,870 --> 00:10:37,920

oh oh yeah I bought this how do you know

252

00:10:40,910 --> 00:10:38,880

how to get up here or about this

253

00:10:43,010 --> 00:10:40,920

videotape he goes oh you Ralph McCarran

254

00:10:45,350 --> 00:10:43,020

oh I bought your tape so it's here's the

255

00:10:46,940 --> 00:10:45,360

kind about my tape that I met but it

256

00:10:48,890 --> 00:10:46,950

ended up he sees me became good friends

257

00:10:51,860 --> 00:10:48,900

like lifelong friends but he was he's a

258

00:10:53,630 --> 00:10:51,870

guy that was actually became a part of

259

00:10:55,820 --> 00:10:53,640

my team I started assembling a team of

260

00:10:56,870 --> 00:10:55,830

guys to go out there have a pilot that

261

00:11:00,740 --> 00:10:56,880

flew for Sky West

262

00:11:03,500 --> 00:11:00,750

well before we get yeah but I want you

263

00:11:05,660 --> 00:11:03,510

to set up how did you your first trip I

264

00:11:07,880 --> 00:11:05,670

mean you're going out you got maps in

265

00:11:09,620 --> 00:11:07,890

your hand I guess right what are you

266

00:11:11,330 --> 00:11:09,630

looking for how do you know well you the

267

00:11:14,570 --> 00:11:11,340

black mailbox is the first thing that's

268

00:11:21,470 --> 00:11:14,580

the the beacon there the 2001 space on

269

00:11:23,450 --> 00:11:21,480

your out there bursa and you find the

270

00:11:25,640 --> 00:11:23,460

black mailbox yeah yeah I mean they go

271

00:11:28,880 --> 00:11:25,650

right hand turning mailbox on highway

272

00:11:30,140 --> 00:11:28,890

375 the only one so yeah you you best

273

00:11:32,630 --> 00:11:30,150

were baek's people in the early days you

274

00:11:34,490 --> 00:11:32,640

just camp out at that mailbox and you

275

00:11:36,230 --> 00:11:34,500

know people would go and just you know

276

00:11:38,720 --> 00:11:36,240

but there and and you're talking it's

277

00:11:39,500 --> 00:11:38,730

like a that's still 12 miles away from

278

00:11:42,740 --> 00:11:39,510

the border

279

00:11:44,090 --> 00:11:42,750

so people would just stay there because

280

00:11:45,320 --> 00:11:44,100

they don't really know where two people

281

00:11:48,110 --> 00:11:45,330

kind of knew where to look like hey you

282

00:11:49,340 --> 00:11:48,120

look you know this way and that's kind

283

00:11:50,870 --> 00:11:49,350

of this mountain range and that's kind

284

00:11:52,700 --> 00:11:50,880

of where lights come in but people back

285

00:11:54,020 --> 00:11:52,710

then would look always at the Janet

286

00:11:55,220 --> 00:11:54,030

flights coming and and people thought

287

00:11:57,050 --> 00:11:55,230

there were UFOs and they weren't they

288

00:11:58,280 --> 00:11:57,060

were just the workers coming in and the

289

00:11:59,780 --> 00:11:58,290

flights the planes would leave like a

290

00:12:01,730 --> 00:11:59,790

four in the morning outside of you know

291

00:12:03,920 --> 00:12:01,740

McCarran Airport across from the Luxor

292

00:12:05,420 --> 00:12:03,930

and people thought they were seeing this

293

00:12:07,340 --> 00:12:05,430

UFO is actually the Jan of the plane

294

00:12:08,570 --> 00:12:07,350

coming at you for a little while so it

295

00:12:09,440 --> 00:12:08,580

looks like a UFO it looks like it's

296

00:12:11,870 --> 00:12:09,450

hovering she's looking at an aircraft

297

00:12:13,490 --> 00:12:11,880

right at 7:37 and then it would make a

298

00:12:16,160 --> 00:12:13,500

turn right and the turn would be its

299

00:12:18,050 --> 00:12:16,170

turning so it's going to land at area 51

300

00:12:19,310 --> 00:12:18,060

right so people would for years would

301

00:12:21,590 --> 00:12:19,320

just you know look at this plane to

302

00:12:23,300 --> 00:12:21,600

think it was a UFO but it wasn't not in

303

00:12:25,130 --> 00:12:23,310

la la' guys like Shawn Warren and stuff

304

00:12:27,740 --> 00:12:25,140

like that would take people out to see

305

00:12:29,540 --> 00:12:27,750

this UFO and it wasn't a UFO was a jet

306

00:12:30,770 --> 00:12:29,550

who else would you see out there when

307

00:12:36,320 --> 00:12:30,780

you were out there was it guys like

308

00:12:38,270 --> 00:12:36,330

Shawn Morton yeah long time ago when he

309

00:12:40,010 --> 00:12:38,280

used to do I took one of his trips just

310

00:12:41,810 --> 00:12:40,020

for fun is back in the day with a couple

311

00:12:43,010 --> 00:12:41,820

friends of mine and we went out there

312

00:12:44,570 --> 00:12:43,020

but we did see some interesting things

313

00:12:47,450 --> 00:12:44,580

we would go stay at a place called

314

00:12:50,000 --> 00:12:47,460

campfire Hill which is it's halfway

315

00:12:51,110 --> 00:12:50,010

down groom lick road you know and it was

316

00:12:53,420 --> 00:12:51,120

a place where a lot of research would

317

00:12:54,920 --> 00:12:53,430

stay and hang out and get Pinnock as

318

00:12:58,130 --> 00:12:54,930

whatnot and look at the base and we used

319

00:13:00,200 --> 00:12:58,140

to hike a peak called Whitesides that's

320

00:13:02,480 --> 00:13:00,210

that's beef this is before freedom Ridge

321

00:13:03,890 --> 00:13:02,490

was even in existence or you know Glen

322

00:13:06,410 --> 00:13:03,900

Campbell is one who found discovered

323

00:13:07,940 --> 00:13:06,420

freedom Ridge Gary Schultz is the one

324

00:13:10,040 --> 00:13:07,950

who kind of discovered him and his wife

325

00:13:11,390 --> 00:13:10,050

discovered kind of Whitesides at least

326

00:13:12,560 --> 00:13:11,400

like maybe hey that mountain we can hike

327

00:13:14,300 --> 00:13:12,570

up that maybe that's still within the

328

00:13:16,730 --> 00:13:14,310

border so I would hike up there with a

329

00:13:18,560 --> 00:13:16,740

backpack and put my cameras back there

330

00:13:19,820 --> 00:13:18,570

my video cameras and I was one of the

331

00:13:21,170 --> 00:13:19,830

early guys that actually was able to

332

00:13:22,460 --> 00:13:21,180

shoot the base without getting kakuzu

333

00:13:24,170 --> 00:13:22,470

I'd hide my cameras and stuff and not

334

00:13:25,820 --> 00:13:24,180

let the guards the guards saw that you

335

00:13:27,980 --> 00:13:25,830

had cameras they would basically contact

336

00:13:30,290 --> 00:13:27,990

the security but it still take a new

337

00:13:32,570 --> 00:13:30,300

from Alamo would take another 45 minutes

338

00:13:33,680 --> 00:13:32,580

for the sheriff to come to get me so by

339

00:13:35,180 --> 00:13:33,690

that time I'd already hiked down the

340

00:13:37,720 --> 00:13:35,190

mountain I'd be gone you know were you

341

00:13:38,900 --> 00:13:37,730

ever arrested no because I would always

342

00:13:41,210 --> 00:13:38,910

always

343

00:13:43,940 --> 00:13:41,220

well we back in the day we had scanners

344

00:13:45,320 --> 00:13:43,950

we'd monitor the the sheriff we'd

345

00:13:46,550 --> 00:13:45,330

monitor all the guards just when they

346

00:13:48,650 --> 00:13:46,560

were in the clear they weren't encrypted

347

00:13:49,910 --> 00:13:48,660

so this is early this is like 92 you

348

00:13:51,260 --> 00:13:49,920

know so I was able to listen all the

349

00:13:53,210 --> 00:13:51,270

guards talking it was like a

350

00:13:54,470 --> 00:13:53,220

cat-and-mouse game he would we listened

351

00:13:55,819 --> 00:13:54,480

to the guards the guards could never

352

00:13:58,069 --> 00:13:55,829

how we knew what they were doing all the

353

00:13:59,420 --> 00:13:58,079

time because you know we were we were

354

00:14:00,889 --> 00:13:59,430

listening to them but at the time they

355

00:14:03,470 --> 00:14:00,899

didn't know it but you're lugging up

356

00:14:06,860 --> 00:14:03,480

you're taking with you it was Anna video

357

00:14:09,560 --> 00:14:06,870

cameras telescope telescope binoculars

358

00:14:11,150 --> 00:14:09,570

folding chairs and Whitesides was the

359

00:14:12,680 --> 00:14:11,160

the first mountain that we could hike up

360

00:14:15,170 --> 00:14:12,690

and I was the first to get video footage

361

00:14:17,420 --> 00:14:15,180

of the base and all this stuff was you

362

00:14:20,000 --> 00:14:17,430

know in the early days it was like all

363

00:14:21,350 --> 00:14:20,010

eventually all the footage that people

364

00:14:23,329 --> 00:14:21,360

see on documentaries most that footage

365

00:14:24,530 --> 00:14:23,339

came from me of the base it's it's you

366

00:14:26,480 --> 00:14:24,540

know I was content by learning channel

367

00:14:27,560 --> 00:14:26,490

discovery what have you history I mean

368

00:14:30,019 --> 00:14:27,570

just goes on and on

369

00:14:32,269 --> 00:14:30,029

they knew like I was the area 51 guy to

370

00:14:33,920 --> 00:14:32,279

go to guy to get footage of the base

371

00:14:37,360 --> 00:14:33,930

whether it was a guards Blackhawks

372

00:14:40,100 --> 00:14:37,370

coming after me or whatever okay so

373

00:14:42,500 --> 00:14:40,110

before I asked the obvious question

374

00:14:44,420 --> 00:14:42,510

which is you know what was the coolest

375

00:14:46,340 --> 00:14:44,430

thing you know what did you see what you

376

00:14:48,410 --> 00:14:46,350

know what was the one thing and and all

377

00:14:49,970 --> 00:14:48,420

of that I want to ask you a couple of

378

00:14:53,060 --> 00:14:49,980

questions about some of the things that

379

00:14:56,689 --> 00:14:53,070

Bob Lazar has gone on the record and and

380

00:14:58,939 --> 00:14:56,699

mentioned and talked about such as when

381

00:15:02,329 --> 00:14:58,949

he talks about Papoose Lake and s4 and

382

00:15:04,040 --> 00:15:02,339

these the hangars on the on the sides of

383

00:15:05,900 --> 00:15:04,050

Bounce I'm not I'm not in any way

384

00:15:08,689 --> 00:15:05,910

discrediting anything that Bob Lazar a

385

00:15:11,090 --> 00:15:08,699

set but did you see anything that would

386

00:15:14,870 --> 00:15:11,100

back up maybe what Bob Lazar had said

387

00:15:16,430 --> 00:15:14,880

and as well as some of the the test

388

00:15:19,699 --> 00:15:16,440

flights that he was talking about with

389

00:15:22,759 --> 00:15:19,709

some of the the craft well I could get

390

00:15:24,680 --> 00:15:22,769

into what I saw in 93 out there with a

391

00:15:27,550 --> 00:15:24,690

group of people this was I think the

392

00:15:29,480 --> 00:15:27,560

Shawn one trip but uh we saw I saw

393

00:15:30,980 --> 00:15:29,490

something I mean I don't know stole

394

00:15:32,930 --> 00:15:30,990

today's what it was but we did see

395

00:15:34,430 --> 00:15:32,940

something that looked like a star that

396

00:15:36,439 --> 00:15:34,440

was just sitting in the sky for a long

397

00:15:37,730 --> 00:15:36,449

period of time and it basically just

398

00:15:39,110 --> 00:15:37,740

kind of dropped out of the sky but

399

00:15:40,579 --> 00:15:39,120

stopped like over the base like it

400

00:15:42,170 --> 00:15:40,589

didn't fall like a meteor it didn't keep

401
00:15:43,309 --> 00:15:42,180
going it stopped and there kind of

402
00:15:45,500 --> 00:15:43,319
hovered there for a walk grew really

403
00:15:47,660 --> 00:15:45,510
bright and then it's slowly kind of

404
00:15:49,160 --> 00:15:47,670
lowered itself into the base and then it

405
00:15:50,750 --> 00:15:49,170
was another time where we had it where

406
00:15:53,449 --> 00:15:50,760
we saw somebody kind of they were

407
00:15:55,189 --> 00:15:53,459
watching this this the sky but they saw

408
00:15:57,650 --> 00:15:55,199
like a section of the sky move almost

409
00:15:58,819 --> 00:15:57,660
like a piece of the sky like it's like

410
00:16:00,470 --> 00:15:58,829
you're watching the stars all of a

411
00:16:02,120 --> 00:16:00,480
sudden you see this huge section of the

412
00:16:03,889 --> 00:16:02,130
sky move and if we're like a

413
00:16:05,720 --> 00:16:03,899

cut-and-paste through yeah like

414

00:16:07,309 --> 00:16:05,730

something like a you know let's say

415

00:16:08,060 --> 00:16:07,319

there's a triangle in the sky you see it

416

00:16:11,570 --> 00:16:08,070

move

417

00:16:14,300 --> 00:16:11,580

I've heard other people in the past but

418

00:16:16,880 --> 00:16:14,310

UFOs seeing people have exciting seeing

419

00:16:18,110 --> 00:16:16,890

things like this where you know you know

420

00:16:18,950 --> 00:16:18,120

how you talk about like a triangle where

421

00:16:22,180 --> 00:16:18,960

it's cloaked and it looks like

422

00:16:25,340 --> 00:16:22,190

something's moving almost like the the

423

00:16:26,870 --> 00:16:25,350

the the Schwarzenegger movie the

424

00:16:28,010 --> 00:16:26,880

predator you know where I kind of look

425

00:16:31,940 --> 00:16:28,020

at something it's invisible but

426

00:16:34,010 --> 00:16:31,950

distorted it was kind of like that kind

427

00:16:35,450 --> 00:16:34,020

of thing but we did see it and it was

428

00:16:37,040 --> 00:16:35,460

it's kind of weird and I can't even

429

00:16:39,410 --> 00:16:37,050

explain it but that's what it do you

430

00:16:40,790 --> 00:16:39,420

have anything posted online but I don't

431

00:16:45,110 --> 00:16:40,800

want to jump ahead but is there anything

432

00:16:49,100 --> 00:16:45,120

posted online about that no okay so

433

00:16:51,020 --> 00:16:49,110

you're up there and like I said the way

434

00:16:53,840 --> 00:16:51,030

that bob lazar and i'm not gonna this is

435

00:16:56,180 --> 00:16:53,850

not a bob lazar show but he certainly

436

00:16:59,510 --> 00:16:56,190

had some pretty fascinating things to

437

00:17:02,810 --> 00:16:59,520

say and it he was first or you know one

438

00:17:04,579 --> 00:17:02,820

of the first but with the testing of

439

00:17:06,890 --> 00:17:04,589

craft you're up on top of the hill

440

00:17:08,270 --> 00:17:06,900

you've got your binoculars you've got

441

00:17:12,290 --> 00:17:08,280

your video camera you've got your

442

00:17:16,910 --> 00:17:12,300

friends you've got a folding chair did

443

00:17:19,370 --> 00:17:16,920

you ever see a craft no not if not at 51

444

00:17:22,550 --> 00:17:19,380

well it every 51 they would do all their

445

00:17:24,770 --> 00:17:22,560

tests and this was like you know not you

446

00:17:25,880 --> 00:17:24,780

could just black test let's say you know

447

00:17:27,380 --> 00:17:25,890

Lazar used to say they didn't my

448

00:17:28,940 --> 00:17:27,390

Wednesdays at a certain time it was

449

00:17:30,170 --> 00:17:28,950

always seven o'clock or whatever in the

450

00:17:31,910 --> 00:17:30,180

morning or whatever and Shawn would do

451
00:17:34,240 --> 00:17:31,920
the same thing take people out there but

452
00:17:36,800 --> 00:17:34,250
a lot of tests are done because I

453
00:17:39,260 --> 00:17:36,810
monitor the base we have a group of

454
00:17:40,400 --> 00:17:39,270
researchers we we do scanner you know

455
00:17:41,930 --> 00:17:40,410
frequency research where we have

456
00:17:43,760 --> 00:17:41,940
scanners and you know we bring anyway

457
00:17:46,220 --> 00:17:43,770
we're we got you know frequencies

458
00:17:48,290 --> 00:17:46,230
control tower frequencies to the tower

459
00:17:49,520 --> 00:17:48,300
we ran the guards this is in the early

460
00:17:50,840 --> 00:17:49,530
days we had a lot of a lot of

461
00:17:52,940 --> 00:17:50,850
frequencies to the planes we could hear

462
00:17:54,710 --> 00:17:52,950
the pilots we recorded hours and hours

463
00:17:56,870 --> 00:17:54,720

of data from area 51 as far as research

464

00:17:58,070 --> 00:17:56,880

a lot of this a lot of them they would

465

00:18:00,260 --> 00:17:58,080

do stuff in the morning like around

466

00:18:02,540 --> 00:18:00,270

10:00 o'clock lunch time is always quiet

467

00:18:03,980 --> 00:18:02,550

they break off and then they gear up for

468

00:18:07,910 --> 00:18:03,990

stuff at night but stuff was always done

469

00:18:10,370 --> 00:18:07,920

at night as far as testing and as far as

470

00:18:11,630 --> 00:18:10,380

Lazar goes there's you know with Stan

471

00:18:13,340 --> 00:18:11,640

Freeman and everything like that Stan

472

00:18:15,620 --> 00:18:13,350

research and pretty well thoroughly and

473

00:18:17,600 --> 00:18:15,630

and could never really prove his in his

474

00:18:20,450 --> 00:18:17,610

education background or whether he went

475

00:18:21,480 --> 00:18:20,460

to certain things so I still kind of on

476

00:18:23,100 --> 00:18:21,490

the fence with Lazar

477

00:18:24,570 --> 00:18:23,110

you know mmm and there's some weird

478

00:18:26,580 --> 00:18:24,580

things with this you know social

479

00:18:27,960 --> 00:18:26,590

security number with with the I mean I

480

00:18:30,330 --> 00:18:27,970

social security number is an ID number

481

00:18:32,310 --> 00:18:30,340

on his badge that there's that story

482

00:18:34,290 --> 00:18:32,320

about Goodall asking a guy you've heard

483

00:18:36,990 --> 00:18:34,300

that story yeah yeah tag on and whatnot

484

00:18:39,360 --> 00:18:37,000

and but you know as far as having any

485

00:18:43,460 --> 00:18:39,370

proof anything flying at it as for that

486

00:18:48,630 --> 00:18:43,470

that I never really a garnered until I

487

00:18:50,580 --> 00:18:48,640

had a talk with the hiker archaeologist

488

00:18:53,540 --> 00:18:50,590

Jerry Freeman okay well we're gonna get

489

00:18:57,480 --> 00:18:53,550

to Gerry Freeman in just a second but

490

00:19:00,150 --> 00:18:57,490

when you when you film and you say the

491

00:19:03,150 --> 00:19:00,160

action is always at night was there

492

00:19:04,650 --> 00:19:03,160

anything that you couldn't explain well

493

00:19:07,860 --> 00:19:04,660

because and the reason why I'm getting

494

00:19:11,340 --> 00:19:07,870

to that it could have been Aurora could

495

00:19:13,860 --> 00:19:11,350

have been some type of oh not only

496

00:19:15,840 --> 00:19:13,870

Aurora but anything else drones all the

497

00:19:18,360 --> 00:19:15,850

technology that we have today was tested

498

00:19:20,820 --> 00:19:18,370

back then but was there anything that

499

00:19:22,799 --> 00:19:20,830

you just couldn't explain away as an

500

00:19:24,150 --> 00:19:22,809

airplane it's tough that one instant

501
00:19:25,980 --> 00:19:24,160
1993 that was the only incident

502
00:19:27,510 --> 00:19:25,990
everything else since then was you know

503
00:19:28,620 --> 00:19:27,520
either b2 is going up and down the base

504
00:19:29,640 --> 00:19:28,630
gene test we always knew when they were

505
00:19:31,440 --> 00:19:29,650
doing testing because you have to

506
00:19:33,690 --> 00:19:31,450
understand that we were monitored there

507
00:19:35,340 --> 00:19:33,700
but the base with scanners so we had all

508
00:19:37,380 --> 00:19:35,350
the frequencies to the tower to the

509
00:19:39,690 --> 00:19:37,390
ground crews everything and we could

510
00:19:40,919 --> 00:19:39,700
know they would basically you know they

511
00:19:43,860 --> 00:19:40,929
basically say when they're gonna do a

512
00:19:45,270 --> 00:19:43,870
you know it'll you know a Oh 800 hours

513
00:19:46,530 --> 00:19:45,280

or whatever they when the test was gonna

514

00:19:48,690 --> 00:19:46,540

go down so we already knew when they're

515

00:19:51,900 --> 00:19:48,700

gonna test because we were tapped into

516

00:19:53,130 --> 00:19:51,910

the frequencies and and so we would know

517

00:19:54,480 --> 00:19:53,140

when stuff will go off at night we just

518

00:19:55,650 --> 00:19:54,490

wait around a lot of times was 2:00 in

519

00:19:57,770 --> 00:19:55,660

the morning to 6:00 the morning there's

520

00:20:00,210 --> 00:19:57,780

one strange incident where they were

521

00:20:01,590 --> 00:20:00,220

this was really nuts cuz they kept this

522

00:20:02,940 --> 00:20:01,600

is in the early days they kept trying to

523

00:20:04,590 --> 00:20:02,950

they were they were pissed because their

524

00:20:06,990 --> 00:20:04,600

encryption wasn't working they're trying

525

00:20:08,580 --> 00:20:07,000

to go scramble to go to digital and they

526
00:20:09,900 --> 00:20:08,590
want to work they said well we should be

527
00:20:11,310 --> 00:20:09,910
going to clear should we go in the clear

528
00:20:13,049 --> 00:20:11,320
and that hold night I have this whole

529
00:20:15,960 --> 00:20:13,059
thing recorded this whole thing at area

530
00:20:17,040 --> 00:20:15,970
51 on on tape I still have it and and

531
00:20:19,230 --> 00:20:17,050
they were like moving around these

532
00:20:20,850 --> 00:20:19,240
satellite trucks like I almost imagine

533
00:20:25,080 --> 00:20:20,860
like I assume that they were trying to

534
00:20:26,340 --> 00:20:25,090
do some type of a GPS kind of hooking up

535
00:20:28,740 --> 00:20:26,350
with satellites they kept moving these

536
00:20:31,110 --> 00:20:28,750
trucks but the area 51 is mostly a lot

537
00:20:32,580 --> 00:20:31,120
of weapons okay they do all kinds of

538
00:20:34,380 --> 00:20:32,590

weaponry there and and you know lasers

539

00:20:36,480 --> 00:20:34,390

things like that

540

00:20:38,760 --> 00:20:36,490

you know stealth planes outfit with

541

00:20:41,070 --> 00:20:38,770

lasers it's it's it's all like black

542

00:20:42,390 --> 00:20:41,080

weaponry now it could could it be your

543

00:20:45,450 --> 00:20:42,400

full weaponry could or your phobia

544

00:20:46,710 --> 00:20:45,460

weapon sure could you know but but that

545

00:20:48,720 --> 00:20:46,720

part of it I don't know but I do have

546

00:20:50,070 --> 00:20:48,730

some really crazy stories about people

547

00:20:53,430 --> 00:20:50,080

that I know inside a Rachel - little

548

00:20:55,500 --> 00:20:53,440

alien that I've talked to that you know

549

00:20:56,670 --> 00:20:55,510

they're their husbands are dead he's

550

00:20:59,490 --> 00:20:56,680

worked there but I've heard all kinds of

551
00:21:02,600 --> 00:20:59,500
crazy stories I can tell you and so um

552
00:21:06,450 --> 00:21:02,610
well let's get to jerry Freeman okay so

553
00:21:08,340 --> 00:21:06,460
Jerry Freeman was a teacher he's a

554
00:21:10,080 --> 00:21:08,350
teacher he was a teacher / head to some

555
00:21:13,530 --> 00:21:10,090
high or something like that or he's an

556
00:21:17,010 --> 00:21:13,540
educator and he decided oh yeah and he's

557
00:21:21,120 --> 00:21:17,020
gonna go check out the 49ers who were

558
00:21:23,310 --> 00:21:21,130
the the the pioneers to the West Coast

559
00:21:25,440 --> 00:21:23,320
he was an avid hiker he climbed Mount

560
00:21:28,710 --> 00:21:25,450
Whitney and stuff and he was a teacher

561
00:21:32,310 --> 00:21:28,720
at pear blossom high but uh the way I

562
00:21:33,840 --> 00:21:32,320
came up on his story is he actually he

563
00:21:36,120 --> 00:21:33,850

actually was looking for the 49ers the

564

00:21:39,210 --> 00:21:36,130

pioneers he was he was with his

565

00:21:40,140 --> 00:21:39,220

daughters he's researching the trail you

566

00:21:41,700 --> 00:21:40,150

know through America they eventually

567

00:21:43,740 --> 00:21:41,710

died in Death Valley if you look up the

568

00:21:45,150 --> 00:21:43,750

Pioneers the 49ers but he was

569

00:21:46,830 --> 00:21:45,160

researching their whole trail and trying

570

00:21:50,280 --> 00:21:46,840

to retrace the steps of what they did

571

00:21:52,830 --> 00:21:50,290

and there's an inscription that they did

572

00:21:55,260 --> 00:21:52,840

they basically went through Papoose Lake

573

00:21:57,540 --> 00:21:55,270

s4 and there was an inscription they

574

00:21:59,940 --> 00:21:57,550

made an AI Canyon of Assam marking you

575

00:22:03,990 --> 00:21:59,950

know the 49ers there in the wall there

576
00:22:05,760 --> 00:22:04,000
now who said this inscription was made I

577
00:22:07,590 --> 00:22:05,770
don't know what guess it's known or

578
00:22:09,300 --> 00:22:07,600
something I poked at study the 49ers

579
00:22:10,980 --> 00:22:09,310
known that this it was in their journals

580
00:22:13,680 --> 00:22:10,990
I think okay got you something

581
00:22:15,180 --> 00:22:13,690
and so Jerry back then contacted Nellis

582
00:22:17,490 --> 00:22:15,190
Airforce range like hey I'm a teacher my

583
00:22:19,740 --> 00:22:17,500
historian I researched the 49ers gonna

584
00:22:21,240 --> 00:22:19,750
get access to he knew that their trail

585
00:22:23,310 --> 00:22:21,250
went through Papoose Lake or went

586
00:22:25,500 --> 00:22:23,320
through there that area which was all of

587
00:22:29,610 --> 00:22:25,510
it all of his is right there you have

588
00:22:32,430 --> 00:22:29,620

the test ranges Nellis area 51's for

589

00:22:37,350 --> 00:22:32,440

it's all right there and he's planning

590

00:22:39,720 --> 00:22:37,360

some type of hike to go through the test

591

00:22:42,390 --> 00:22:39,730

ranges Nellis Air Force Base and pile

592

00:22:44,120 --> 00:22:42,400

Eagles right and possibly area 51 okay

593

00:22:47,640 --> 00:22:44,130

so pick it up so I can't do that so he

594

00:22:49,410 --> 00:22:47,650

so he is they told him of course the the

595

00:22:50,520 --> 00:22:49,420

called the base and said can I do this

596

00:22:52,860 --> 00:22:50,530

and they turn him down of course because

597

00:22:54,960 --> 00:22:52,870

it's going through the border of you

598

00:22:57,120 --> 00:22:54,970

know 51 and you know the olden Ellis

599

00:22:59,870 --> 00:22:57,130

range which is you know highly secure so

600

00:23:02,310 --> 00:22:59,880

so he's gonna get it so he eventually

601
00:23:04,830 --> 00:23:02,320
was just like you know screw it I'm

602
00:23:07,400 --> 00:23:04,840
gonna do it I'm just gonna go in yet his

603
00:23:09,420 --> 00:23:07,410
brother dropped him off like on the

604
00:23:11,100 --> 00:23:09,430
fourth side of the base like the south

605
00:23:12,660 --> 00:23:11,110
side or something and that was an area

606
00:23:14,490 --> 00:23:12,670
where the guards don't really hang the

607
00:23:18,060 --> 00:23:14,500
guards are mostly hang out near groom

608
00:23:19,890 --> 00:23:18,070
Lake and and you know the the north gate

609
00:23:21,150 --> 00:23:19,900
and stuff like that that's really kind

610
00:23:24,930 --> 00:23:21,160
of monitored where all the tours come in

611
00:23:26,010 --> 00:23:24,940
and acted 375 so they don't he came in

612
00:23:27,210 --> 00:23:26,020
in the area that was actually kind of

613
00:23:29,490 --> 00:23:27,220

smart because of something that is

614

00:23:30,570 --> 00:23:29,500

really not you could basically kind of

615

00:23:32,760 --> 00:23:30,580

if you know what you're doing kind of

616

00:23:35,250 --> 00:23:32,770

hike in and kind of go undetected now he

617

00:23:37,500 --> 00:23:35,260

hiked he was really smart cos during the

618

00:23:39,690 --> 00:23:37,510

daytime he stayed on the hills so you'd

619

00:23:42,270 --> 00:23:39,700

want any you know road traffic any guard

620

00:23:44,430 --> 00:23:42,280

seemed so he he there's actually if you

621

00:23:46,260 --> 00:23:44,440

look at a map there's a hill range that

622

00:23:49,080 --> 00:23:46,270

follows kind of into Papoose Lake so

623

00:23:50,910 --> 00:23:49,090

during the day he hide he City hiked as

624

00:23:53,430 --> 00:23:50,920

fast as he could during the day and then

625

00:23:55,020 --> 00:23:53,440

every any and every time you see a car

626

00:23:56,070 --> 00:23:55,030

he ducked down like if you saw a car

627

00:23:58,500 --> 00:23:56,080

like there's a little road that goes

628

00:24:00,210 --> 00:23:58,510

through s4 right there where's s4

629

00:24:02,040 --> 00:24:00,220

supposedly is so he'd see him do you see

630

00:24:03,450 --> 00:24:02,050

a vehicle he ducked down you know he's

631

00:24:04,440 --> 00:24:03,460

always paranoid the guards are gonna see

632

00:24:07,170 --> 00:24:04,450

him he's by himself

633

00:24:09,000 --> 00:24:07,180

hike then he leaves canteens so when he

634

00:24:10,140 --> 00:24:09,010

comes back he's not gonna run out of

635

00:24:11,460 --> 00:24:10,150

water because you got to worry about

636

00:24:13,530 --> 00:24:11,470

water when you hike you have to so he

637

00:24:15,660 --> 00:24:13,540

left a bunch of canteens coming in and

638

00:24:18,240 --> 00:24:15,670

so when you go back he'd have water so

639

00:24:19,710 --> 00:24:18,250

so he got he took all kinds of pictures

640

00:24:21,930 --> 00:24:19,720

it's it's I can give you a link to it

641

00:24:25,500 --> 00:24:21,940

well before I worry I want everybody to

642

00:24:29,370 --> 00:24:25,510

understand that this is a very famous

643

00:24:31,830 --> 00:24:29,380

story but you all of this is firsthand

644

00:24:33,960 --> 00:24:31,840

you spoke to him directly and he told

645

00:24:35,250 --> 00:24:33,970

you yeah he told you every detail on the

646

00:24:38,670 --> 00:24:35,260

story I want to set the record straight

647

00:24:41,640 --> 00:24:38,680

this isn't hearsay you spoken he told

648

00:24:44,100 --> 00:24:41,650

you the entire story himself now the the

649

00:24:47,220 --> 00:24:44,110

guards the security at Nellis has told

650

00:24:50,070 --> 00:24:47,230

him no I cannot come in and check out

651
00:24:52,350 --> 00:24:50,080
anything this is off-limits top you know

652
00:24:55,860 --> 00:24:52,360
top secret security blah blah blah yeah

653
00:24:58,260 --> 00:24:55,870
so but he's taken it upon himself to do

654
00:25:00,000 --> 00:24:58,270
some type of day hike or is this is this

655
00:25:02,399 --> 00:25:00,010
now a two day hike

656
00:25:04,889 --> 00:25:02,409
for day hikes so this guy is going

657
00:25:09,200 --> 00:25:04,899
through the desert through the Nellis

658
00:25:12,509 --> 00:25:09,210
test range adjacent the area 51

659
00:25:16,139 --> 00:25:12,519
undetected looking for an inscription in

660
00:25:18,659 --> 00:25:16,149
a cave somewhere right now okay what

661
00:25:20,850 --> 00:25:18,669
does he see okay well he gets he

662
00:25:23,190 --> 00:25:20,860
eventually gets the the thing that I was

663
00:25:25,500 --> 00:25:23,200

most wanted to know was Papoose Lake of

664

00:25:26,820 --> 00:25:25,510

course s for his Lazar always said

665

00:25:28,950 --> 00:25:26,830

there's hangar doors and there's lights

666

00:25:30,060 --> 00:25:28,960

that come up you know what not at

667

00:25:33,029 --> 00:25:30,070

nighttime and then they test the

668

00:25:35,129 --> 00:25:33,039

aircraft so I told Jerry I said when you

669

00:25:36,450 --> 00:25:35,139

were at s4 he took a picture of him

670

00:25:38,490 --> 00:25:36,460

inside

671

00:25:40,500 --> 00:25:38,500

you know the Nellis Range taking a

672

00:25:41,970 --> 00:25:40,510

picture of you know right there in the

673

00:25:43,649 --> 00:25:41,980

dry lake yeah the Papoose mountains

674

00:25:47,700 --> 00:25:43,659

right so we're these suppose that hangar

675

00:25:49,289 --> 00:25:47,710

doors are so um he told me I said did

676
00:25:50,580 --> 00:25:49,299
you see any lights when you were there

677
00:25:52,500 --> 00:25:50,590
at nighttime he spent the night up there

678
00:25:53,970 --> 00:25:52,510
looking at the Palouse mountains you see

679
00:25:56,039 --> 00:25:53,980
anything in there's a little row where

680
00:25:57,960 --> 00:25:56,049
they cease the security traffic what

681
00:26:00,690 --> 00:25:57,970
have you and he said that at nighttime

682
00:26:02,070 --> 00:26:00,700
he did see some lights at the bottom of

683
00:26:04,590 --> 00:26:02,080
the base that looked like a hangar door

684
00:26:06,299 --> 00:26:04,600
was opening and like these lights were

685
00:26:08,129 --> 00:26:06,309
really bright he didn't see anything fly

686
00:26:09,810 --> 00:26:08,139
out of it or anything like that but he

687
00:26:11,730 --> 00:26:09,820
says he did say he saw these bright

688
00:26:15,450 --> 00:26:11,740

lights at the bottom of the mountain and

689

00:26:16,649 --> 00:26:15,460

then the door shut and that's the only

690

00:26:18,539 --> 00:26:16,659

reference I ever heard of anybody

691

00:26:20,940 --> 00:26:18,549

outside that physically saw something

692

00:26:22,049 --> 00:26:20,950

outside of lazarre's story so that's why

693

00:26:24,090 --> 00:26:22,059

I still kind of on the fence with

694

00:26:26,639 --> 00:26:24,100

Lazarre because it still shows that this

695

00:26:28,259 --> 00:26:26,649

guy did see something at the base there

696

00:26:31,799 --> 00:26:28,269

like hangar doors had opened up at night

697

00:26:34,139 --> 00:26:31,809

but nothing flew out so but it's that

698

00:26:37,470 --> 00:26:34,149

he's the first probably the only guy to

699

00:26:40,259 --> 00:26:37,480

cooperate Lazar story at least there's

700

00:26:42,149 --> 00:26:40,269

something kind of there as far as a

701
00:26:43,649 --> 00:26:42,159
facility or something as far as a

702
00:26:47,129 --> 00:26:43,659
facility being there's where is this

703
00:26:51,139 --> 00:26:47,139
photograph his wife has it have you seen

704
00:26:53,340 --> 00:26:51,149
it no I've seen pictures of it that were

705
00:26:56,879 --> 00:26:53,350
Pablo's in an interview of what was like

706
00:26:59,129 --> 00:26:56,889
for a magazine cover but I I've seen the

707
00:27:00,480 --> 00:26:59,139
picture of it yeah but that's it but a

708
00:27:01,860 --> 00:27:00,490
well what did you see when you saw the

709
00:27:08,279 --> 00:27:01,870
picture just a picture of the mountains

710
00:27:10,320 --> 00:27:08,289
mountains okay so nothing like that okay

711
00:27:12,720 --> 00:27:10,330
so his hiking light you know I mean so

712
00:27:13,960 --> 00:27:12,730
he gets in and what else did he tell you

713
00:27:15,249 --> 00:27:13,970

that he saw before he

714

00:27:16,840 --> 00:27:15,259

well he was just trying to get them a

715

00:27:18,039 --> 00:27:16,850

description in the description he's told

716

00:27:20,080 --> 00:27:18,049

me if I if he was running out of light

717

00:27:21,789 --> 00:27:20,090

he was dying a thirst he said if I had

718

00:27:22,840 --> 00:27:21,799

he goes if I have one or two more hours

719

00:27:24,009 --> 00:27:22,850

that would have I would have been able

720

00:27:26,230 --> 00:27:24,019

to see who's trying to take a photo of

721

00:27:28,330 --> 00:27:26,240

that in description of the forty niners

722

00:27:30,190 --> 00:27:28,340

so he eventually got out he hiked his

723

00:27:32,110 --> 00:27:30,200

way back he came into trouble with the

724

00:27:33,700 --> 00:27:32,120

there's like the guard shack and he was

725

00:27:35,440 --> 00:27:33,710

dying and dying of thirst in his canteen

726

00:27:36,519 --> 00:27:35,450

was low he actually hustled to the back

727

00:27:38,019 --> 00:27:36,529

of the guard shack and there were guards

728

00:27:40,090 --> 00:27:38,029

in there there was a security truck and

729

00:27:41,590 --> 00:27:40,100

he filled up his water bottle he found a

730

00:27:43,299 --> 00:27:41,600

hose fill his water boat really back in

731

00:27:45,100 --> 00:27:43,309

the snuck back out but he was like right

732

00:27:48,070 --> 00:27:45,110

on these guys at the shack so he got out

733

00:27:49,419 --> 00:27:48,080

and he got away with it and and and you

734

00:27:52,299 --> 00:27:49,429

know he was just one of the few guys to

735

00:27:55,570 --> 00:27:52,309

get inside 51 without being you know

736

00:28:04,419 --> 00:27:55,580

detected by the guards when did he pass

737

00:28:06,610 --> 00:28:04,429

away he died of cancer yeah I got a

738

00:28:08,769 --> 00:28:06,620

cancer you have prostate cancer did he

739

00:28:09,310 --> 00:28:08,779

ever write a book okay well before I get

740

00:28:13,960 --> 00:28:09,320

to that

741

00:28:16,269 --> 00:28:13,970

so there is closure to this story where

742

00:28:20,940 --> 00:28:16,279

he says and well I'll let you tell the

743

00:28:26,860 --> 00:28:20,950

story he gets to the cave and he finds

744

00:28:28,570 --> 00:28:26,870

what well no not that cave no that is a

745

00:28:31,509 --> 00:28:28,580

crazy part of this story though that's

746

00:28:33,639 --> 00:28:31,519

not nykänen that's that's outside of 51

747

00:28:36,070 --> 00:28:33,649

okay still about the the forty niners

748

00:28:37,869 --> 00:28:36,080

though yeah okay this was a different

749

00:28:38,560 --> 00:28:37,879

cave this is prior to any of this even

750

00:28:40,600 --> 00:28:38,570

happening

751

00:28:43,210 --> 00:28:40,610

he was just hiking and he walks into

752

00:28:46,240 --> 00:28:43,220

this cave on the trail before Nellis and

753

00:28:48,610 --> 00:28:46,250

and he finds us this is this box that he

754

00:28:51,129 --> 00:28:48,620

he just gave it up to the museum I'm

755

00:28:52,480 --> 00:28:51,139

like I found this but you know claiming

756

00:28:54,519 --> 00:28:52,490

it was supposedly had some items and

757

00:28:58,330 --> 00:28:54,529

ever supposed to be the 49ers or the

758

00:29:00,759 --> 00:28:58,340

pioneers box but it ended up being where

759

00:29:02,440 --> 00:29:00,769

the box had glue in it so a lot of

760

00:29:04,450 --> 00:29:02,450

people blamed him for this hoax like

761

00:29:06,730 --> 00:29:04,460

that he found this box of the 49ers and

762

00:29:08,110 --> 00:29:06,740

it was a hoax and it wasn't real so when

763

00:29:09,879 --> 00:29:08,120

a lot of people see that they think that

764

00:29:11,649 --> 00:29:09,889

he was a hoax tree he did this but he

765

00:29:13,210 --> 00:29:11,659

says that he just found it and presented

766

00:29:15,009 --> 00:29:13,220

the museum so there's no really proof of

767

00:29:18,220 --> 00:29:15,019

us knowing that but some people try to

768

00:29:20,169 --> 00:29:18,230

discredit him against the him actually

769

00:29:23,279 --> 00:29:20,179

hiking in the Papoose Lake because of

770

00:29:25,749 --> 00:29:23,289

this incident so it's kind of well

771

00:29:26,850 --> 00:29:25,759

supposedly in this trunk and this has

772

00:29:30,000 --> 00:29:26,860

nothing to do again

773

00:29:32,340 --> 00:29:30,010

area 51 but this kind of debunks his own

774

00:29:36,320 --> 00:29:32,350

story which and it's a fascinating story

775

00:29:39,660 --> 00:29:36,330

about sneaking in to an ellis an area 51

776

00:29:41,700 --> 00:29:39,670

looking for something else and i'm sure

777

00:29:44,220 --> 00:29:41,710

you talked to him about ufos but we'll

778

00:29:46,169 --> 00:29:44,230

we'll talk about that in a second but he

779

00:29:51,000 --> 00:29:46,179

says that he finds this trunk and in

780

00:29:55,620 --> 00:29:51,010

this trunk a pair of shoes baby shoes a

781

00:29:58,980 --> 00:29:55,630

telescope a doll like a straw doll a

782

00:30:01,799 --> 00:29:58,990

couple of books some money was was in

783

00:30:03,090 --> 00:30:01,809

this trunk and so tell tell us what

784

00:30:04,380 --> 00:30:03,100

happened well if people want to look for

785

00:30:05,570 --> 00:30:04,390

it it's actually it was on an episode of

786

00:30:08,520 --> 00:30:05,580

mysteries at the museum

787

00:30:11,190 --> 00:30:08,530

that one show that's on TV so you can

788

00:30:12,810 --> 00:30:11,200

probably youtube it or whatever but it's

789

00:30:17,100 --> 00:30:12,820

about the trunk and about that thing so

790

00:30:19,169 --> 00:30:17,110

but that was just a thing about the only

791

00:30:20,789 --> 00:30:19,179

reason i tell the story is because it

792

00:30:22,049 --> 00:30:20,799

gives some validity to Lazar that's the

793

00:30:25,200 --> 00:30:22,059

only reason okay

794

00:30:27,750 --> 00:30:25,210

alright well we're gonna take a quick

795

00:30:29,760 --> 00:30:27,760

break wolf and when we come back let's

796

00:30:32,070 --> 00:30:29,770

pick it up I want to talk about some

797

00:30:36,090 --> 00:30:32,080

Russian research I would like to get

798

00:30:38,549 --> 00:30:36,100

into that planes that are over at what

799

00:30:40,890 --> 00:30:38,559

is actually being tested over at area 51

800

00:30:42,570 --> 00:30:40,900

today and your thoughts on that all

801
00:30:44,520 --> 00:30:42,580
right now do shoot us an email to Jimmy

shoot me an email to Jimmy at Jimmy

835
00:33:04,270 --> 00:33:00,710
Church radio calm and you can also do

836
00:33:06,820 --> 00:33:04,280
that over on the website all right there

837
00:33:07,930 --> 00:33:06,830
were a bunch of documents wolf we're in

838
00:33:11,260 --> 00:33:07,940

the studio with Wolf

839

00:33:14,110 --> 00:33:11,270

ralphe ralphe wolf McCarran I've known

840

00:33:16,900 --> 00:33:14,120

him as wolf for years it's hard to to

841

00:33:19,270 --> 00:33:16,910

say row a bunch of NSA documents that

842

00:33:22,020 --> 00:33:19,280

were just released yeah they're like two

843

00:33:25,680 --> 00:33:22,030

thousand nine hundred of them all on

844

00:33:27,760 --> 00:33:25,690

area 51 secret aircraft Soviet MiG's

845

00:33:30,760 --> 00:33:27,770

what can you tell us about it I know

846

00:33:33,460 --> 00:33:30,770

you've been checking them out I have

847

00:33:35,530 --> 00:33:33,470

looked briefly it's a mountain and when

848

00:33:38,170 --> 00:33:35,540

I say mountain a mountain of material

849

00:33:39,820 --> 00:33:38,180

but what stands out well I mean they

850

00:33:42,130 --> 00:33:39,830

talk about stuff kind of already known

851
00:33:44,350 --> 00:33:42,140
in the field as far as tacit blue and an

852
00:33:47,140 --> 00:33:44,360
ox carton and some of the early stuff

853
00:33:48,310 --> 00:33:47,150
but there's no alien body things there

854
00:33:50,140 --> 00:33:48,320
there's no none of that it's just

855
00:33:51,730 --> 00:33:50,150
basically stuff that they decided to

856
00:33:53,320 --> 00:33:51,740
kind of declassify because it's been a

857
00:33:55,930 --> 00:33:53,330
while but it's kind of stuff that's

858
00:33:57,400 --> 00:33:55,940
already kind of been through the you

859
00:33:59,680 --> 00:33:57,410
know people kind of public knowledge

860
00:34:00,610 --> 00:33:59,690
kind of know about I'm still going

861
00:34:02,050 --> 00:34:00,620
through the documents because there's

862
00:34:04,030 --> 00:34:02,060
there's a lot of them a lot of pages to

863
00:34:06,160 --> 00:34:04,040

read but and still try to clean the one

864

00:34:08,260 --> 00:34:06,170

thing that comm I that brought to me

865

00:34:11,889 --> 00:34:08,270

what was pretty wild is there there's

866

00:34:14,440 --> 00:34:11,899

been this security manual for the guards

867

00:34:16,899 --> 00:34:14,450

at area 51 that I've been put in

868

00:34:18,820 --> 00:34:16,909

possession for like 15 years it's never

869

00:34:21,399 --> 00:34:18,830

been we kind of kept this under to our

870

00:34:24,310 --> 00:34:21,409

hat certain people in the field and I

871

00:34:25,780 --> 00:34:24,320

guess I could talk about it now but it

872

00:34:27,220 --> 00:34:25,790

was released one of the guards that

873

00:34:28,750 --> 00:34:27,230

worked at area 51 kind of slipped it to

874

00:34:30,760 --> 00:34:28,760

another researcher friend of ours and

875

00:34:32,350 --> 00:34:30,770

then we had this document for a while a

876

00:34:34,060 --> 00:34:32,360

lot of people there were other

877

00:34:37,330 --> 00:34:34,070

arrangement one researchers thought this

878

00:34:39,370 --> 00:34:37,340

thing was hoaxed wasn't real but it

879

00:34:41,560 --> 00:34:39,380

they finally released it which is just

880

00:34:44,200 --> 00:34:41,570

this year in those documents set of

881

00:34:45,550 --> 00:34:44,210

pages I've had this this security manual

882

00:34:48,280 --> 00:34:45,560

for the security guards for like 15

883

00:34:49,780 --> 00:34:48,290

years and but it's the same manual that

884

00:34:51,250 --> 00:34:49,790

they released that they release is in

885

00:34:53,980 --> 00:34:51,260

there you can look it up it's dead three

886

00:34:56,830 --> 00:34:53,990

security police it's a manual that just

887

00:34:58,270 --> 00:34:56,840

tells you know the operations for the

888

00:34:59,650 --> 00:34:58,280

guards you know once you have what job

889

00:35:02,830 --> 00:34:59,660

you work there

890

00:35:05,410 --> 00:35:02,840

it shows what the badges look like at 51

891

00:35:06,610 --> 00:35:05,420

at that time for their passes it's with

892

00:35:08,140 --> 00:35:06,620

stuff that I would hold back because the

893

00:35:10,240 --> 00:35:08,150

researcher you hold back data you don't

894

00:35:13,720 --> 00:35:10,250

tell everything cuz you need some things

895

00:35:15,220 --> 00:35:13,730

to keep back like you know for instance

896

00:35:17,050 --> 00:35:15,230

like how do you pay for your food at the

897

00:35:19,030 --> 00:35:17,060

base you know somebody tells me they

898

00:35:20,620 --> 00:35:19,040

worked there I can throw them curveball

899

00:35:23,200 --> 00:35:20,630

questions that things that I know about

900

00:35:24,460 --> 00:35:23,210

air 51 that nobody knows they don't tell

901
00:35:25,690 --> 00:35:24,470
me the answer then I know they're you

902
00:35:27,760 --> 00:35:25,700
know well the truth is always in the

903
00:35:29,290 --> 00:35:27,770
details always and always have to keep

904
00:35:31,270 --> 00:35:29,300
things as a researcher that you don't

905
00:35:32,980 --> 00:35:31,280
you know you can't divulge you can't

906
00:35:35,320 --> 00:35:32,990
publish or whatever so but there's

907
00:35:37,570 --> 00:35:35,330
things like this that we captain and it

908
00:35:39,490 --> 00:35:37,580
does show the sensors the ground sensors

909
00:35:42,520 --> 00:35:39,500
that the guards you know when you come

910
00:35:44,290 --> 00:35:42,530
to the base we detect metal these are

911
00:35:45,970 --> 00:35:44,300
sensors that are made by joslin defense

912
00:35:49,690 --> 00:35:45,980
systems that do you want to tell

913
00:35:57,430 --> 00:35:49,700

everybody what I know oh we're not gonna

914

00:36:00,130 --> 00:35:57,440

mention that I so so so want to say

915

00:36:04,690 --> 00:36:00,140

something yeah okay but I did hold it in

916

00:36:09,910 --> 00:36:04,700

my hand yeah yeah okay all right

917

00:36:12,490 --> 00:36:09,920

but in this guard manual is there one

918

00:36:13,710 --> 00:36:12,500

thing that said was there anything crazy

919

00:36:17,080 --> 00:36:13,720

any shoot-to-kill

920

00:36:20,380 --> 00:36:17,090

anything about what to do with anybody

921

00:36:22,270 --> 00:36:20,390

that is that is caught well it tells

922

00:36:24,820 --> 00:36:22,280

their operations and stuff it shows the

923

00:36:26,260 --> 00:36:24,830

building numbers at area 51 it has some

924

00:36:28,300 --> 00:36:26,270

you know info about the base that you

925

00:36:29,830 --> 00:36:28,310

could kind of nothing secret but the

926

00:36:33,970 --> 00:36:29,840

guards are just there to do their job

927

00:36:37,720 --> 00:36:33,980

you know and I there was a one incident

928

00:36:40,420 --> 00:36:37,730

that Glen Campbell and I were hiking to

929

00:36:42,310 --> 00:36:40,430

Freedom Ridge once and this is a kind of

930

00:36:43,870 --> 00:36:42,320

a wild story and and we're hiking up the

931

00:36:45,190 --> 00:36:43,880

hill and we see all these cars coming at

932

00:36:46,840 --> 00:36:45,200

the base like these tourists are gonna

933

00:36:48,280 --> 00:36:46,850

man these guys are going kind of fast

934

00:36:49,870 --> 00:36:48,290

like they should slow down because a

935

00:36:50,530 --> 00:36:49,880

base you know when you come down groom

936

00:36:52,030 --> 00:36:50,540

Lake Road

937

00:36:53,200 --> 00:36:52,040

kind of a lot of people don't know

938

00:36:54,820 --> 00:36:53,210

they're coming onto the border because

939

00:36:56,170 --> 00:36:54,830

it goes there's this turn there's a

940

00:36:58,300 --> 00:36:56,180

sharp right turn all of a sudden there's

941

00:36:59,980 --> 00:36:58,310

the signs but if you don't know that if

942

00:37:01,720 --> 00:36:59,990

you're going down this long road for 12

943

00:37:03,970 --> 00:37:01,730

miles and you're going fast you might

944

00:37:05,980 --> 00:37:03,980

just blow right through that right and

945

00:37:07,450 --> 00:37:05,990

you're not careful mm-hmm so these guys

946

00:37:08,950 --> 00:37:07,460

in a truck they're come blowing through

947

00:37:10,870 --> 00:37:08,960

we're like oh who are these guys like

948

00:37:12,700 --> 00:37:10,880

what about you idiots you know so they

949

00:37:13,930 --> 00:37:12,710

come blowing through the sign we're on

950

00:37:15,370 --> 00:37:13,940

top of the hill we could see right into

951
00:37:17,470 --> 00:37:15,380
the GAR you know at the guard shack we

952
00:37:19,420 --> 00:37:17,480
can see and then we see the guys you

953
00:37:21,520 --> 00:37:19,430
know pull the people out you know m16s

954
00:37:22,930 --> 00:37:21,530
on their heads and everything and they

955
00:37:24,340 --> 00:37:22,940
call the sheriff and the sheriff comes

956
00:37:26,590 --> 00:37:24,350
and they have to arrest them and make

957
00:37:28,510 --> 00:37:26,600
them sign a document was it Bob Lazar no

958
00:37:29,950 --> 00:37:28,520
but they make them sign a document that

959
00:37:31,420 --> 00:37:29,960
you can never come here if this happens

960
00:37:33,370 --> 00:37:31,430
again they have to pay a fine was it

961
00:37:37,270 --> 00:37:33,380
Shawn Morton no but they have to go to

962
00:37:38,830 --> 00:37:37,280
Alamo the in Alamo to the where the

963
00:37:41,710 --> 00:37:38,840

sheriff's and Alamo Nevada and they have

964

00:37:43,000 --> 00:37:41,720

to you know basically pay a fine and

965

00:37:44,110 --> 00:37:43,010

then it basically says they can never

966

00:37:45,460 --> 00:37:44,120

you know if they do that again they'll

967

00:37:47,980 --> 00:37:45,470

be thrown in jail for like 20 years or

968

00:37:49,390 --> 00:37:47,990

whatever though you know so so but they

969

00:37:51,160 --> 00:37:49,400

they pay a heavy fine for that but we

970

00:37:52,420 --> 00:37:51,170

did see you know the guards point guns

971

00:37:54,340 --> 00:37:52,430

at people and all that stuff so it was

972

00:37:56,740 --> 00:37:54,350

kind of a waltz have you ever heard and

973

00:37:58,660 --> 00:37:56,750

you know we'd uh there's nothing ever

974

00:38:00,850 --> 00:37:58,670

really concrete but have you ever heard

975

00:38:03,850 --> 00:38:00,860

of anybody actually getting arrested and

976
00:38:05,440 --> 00:38:03,860
being taken somewhere I mean what's the

977
00:38:07,450 --> 00:38:05,450
holding what would the holding cell be

978
00:38:09,100 --> 00:38:07,460
like at area 51 they don't they don't

979
00:38:10,990 --> 00:38:09,110
take it air if you want to take it Alamo

980
00:38:12,790 --> 00:38:11,000
I mean these people were arrested they

981
00:38:15,880 --> 00:38:12,800
were taken to the sheriff's which is

982
00:38:17,980 --> 00:38:15,890
Allen Lords 45 minute drive from Rachel

983
00:38:19,720 --> 00:38:17,990
Nevada area 51 basically and that's a

984
00:38:21,520 --> 00:38:19,730
sheriff substation yeah that's the

985
00:38:23,710 --> 00:38:21,530
sheriff that as a contract with the base

986
00:38:26,650 --> 00:38:23,720
and what have you you know when any type

987
00:38:28,990 --> 00:38:26,660
of trouble happens he's kind of the you

988
00:38:30,820 --> 00:38:29,000

know liaison to the base to for you know

989

00:38:32,590 --> 00:38:30,830

people that don't work there kind of

990

00:38:38,860 --> 00:38:32,600

thing have you ever been confronted by

991

00:38:40,900 --> 00:38:38,870

the security let's go we used to do

992

00:38:42,880 --> 00:38:40,910

crazy things and Glenn used to do things

993

00:38:45,190 --> 00:38:42,890

like this to we you know we do things

994

00:38:48,630 --> 00:38:45,200

like we'd drive up to the border in our

995

00:38:52,000 --> 00:38:48,640

cars park the car off the side of the

996

00:38:53,200 --> 00:38:52,010

road right before the border and you

997

00:38:54,490 --> 00:38:53,210

know Glenn D these things like funny

998

00:38:55,750 --> 00:38:54,500

things like he'd get in the back of the

999

00:38:57,730 --> 00:38:55,760

car and they'd throw a blanket over his

1000

00:38:59,080 --> 00:38:57,740

head you know his whole body so the

1001
00:39:00,700 --> 00:38:59,090
guards come and freaked out they can't

1002
00:39:02,080 --> 00:39:00,710
see anybody in the car so they're

1003
00:39:03,850 --> 00:39:02,090
freaking out they have to find you right

1004
00:39:04,359 --> 00:39:03,860
because they don't know they see a car

1005
00:39:06,309 --> 00:39:04,369
by the

1006
00:39:08,049 --> 00:39:06,319
they don't know if you hiked in right so

1007
00:39:09,970 --> 00:39:08,059
their job is to physically find that

1008
00:39:11,319 --> 00:39:09,980
person so they were flashing the lights

1009
00:39:12,970 --> 00:39:11,329
in the car they don't see anybody so

1010
00:39:15,099 --> 00:39:12,980
they pull out the Black Hawk or whatever

1011
00:39:16,029 --> 00:39:15,109
and they gotta find you you know so he

1012
00:39:18,039 --> 00:39:16,039
would spend the night in the car the

1013
00:39:19,779 --> 00:39:18,049

next day just pull tricks with him and

1014

00:39:21,190 --> 00:39:19,789

jump in the car the next day but we used

1015

00:39:23,440 --> 00:39:21,200

to monitor their frequencies and stuff

1016

00:39:24,930 --> 00:39:23,450

so we always had kind of the the ante up

1017

00:39:26,920 --> 00:39:24,940

on them you know that kind of thing so

1018

00:39:29,730 --> 00:39:26,930

yeah they were there's one instant

1019

00:39:32,049 --> 00:39:29,740

incident there you know where they data

1020

00:39:33,309 --> 00:39:32,059

you know we do things like that too and

1021

00:39:35,170 --> 00:39:33,319

they chase you know they send the Black

1022

00:39:36,460 --> 00:39:35,180

Hawk after us and then I pop out of a

1023

00:39:39,009 --> 00:39:36,470

bush and get a good shot of the Black

1024

00:39:41,140 --> 00:39:39,019

Hawk there were many times where we you

1025

00:39:42,609 --> 00:39:41,150

know hide and get I have tons of

1026
00:39:47,079 --> 00:39:42,619
videotape of guards I'm eventually gonna

1027
00:39:48,549 --> 00:39:47,089
post it eventually I have a okay

1028
00:39:51,690 --> 00:39:48,559
but eventually I'm gonna post this stuff

1029
00:39:54,339 --> 00:39:51,700
on YouTube I got I got you know years of

1030
00:39:56,859 --> 00:39:54,349
video data that's just like just insane

1031
00:39:57,999 --> 00:39:56,869
but there's all kinds of stories like

1032
00:39:59,079 --> 00:39:58,009
that there was a time where we once

1033
00:40:01,059 --> 00:39:59,089
cornered the guards we were with a

1034
00:40:03,039 --> 00:40:01,069
reporter from the New York Times and we

1035
00:40:05,349 --> 00:40:03,049
record we we were with Glenn and bunch

1036
00:40:06,640 --> 00:40:05,359
of other guys at for buys and and we

1037
00:40:09,160 --> 00:40:06,650
took this reporter out to kind of

1038
00:40:12,430 --> 00:40:09,170

confront the guards in the the north

1039

00:40:14,829 --> 00:40:12,440

side of area 51 and we actually cornered

1040

00:40:16,329 --> 00:40:14,839

this guard in in you know made a circle

1041

00:40:17,650 --> 00:40:16,339

around we cornered them so we could get

1042

00:40:20,440 --> 00:40:17,660

the New York Times guy to kind of

1043

00:40:21,700 --> 00:40:20,450

confront him he was he was stuck because

1044

00:40:23,229 --> 00:40:21,710

he couldn't have the whole thing on

1045

00:40:24,999 --> 00:40:23,239

audiotape because we were courting his

1046

00:40:26,589 --> 00:40:25,009

frequencies but he was stuck so the New

1047

00:40:28,749 --> 00:40:26,599

York Times reporter jumped out NASA guy

1048

00:40:30,130 --> 00:40:28,759

like who do you work for and they say

1049

00:40:32,769 --> 00:40:30,140

the usual tag line which is the Nellis

1050

00:40:34,900 --> 00:40:32,779

range and this is all is he driving one

1051

00:40:36,220 --> 00:40:34,910

of the infamous white yes the early

1052

00:40:38,440 --> 00:40:36,230

white they're different colors now but

1053

00:40:41,200 --> 00:40:38,450

but then they were the white turkey yeah

1054

00:40:42,670 --> 00:40:41,210

white jeeps yeah and and and so he he

1055

00:40:44,259 --> 00:40:42,680

confronted him and he said the Nellis

1056

00:40:45,609 --> 00:40:44,269

you know I work for the Nellis test

1057

00:40:49,539 --> 00:40:45,619

range he's not gonna say he works for

1058

00:40:54,849 --> 00:40:49,549

you know this is 2025 years ago yeah

1059

00:40:58,420 --> 00:40:54,859

2293 maybe 93 so yeah 20 years ago and I

1060

00:41:00,309 --> 00:40:58,430

guess it heard for everybody out there

1061

00:41:03,400 --> 00:41:00,319

listening when you're telling a story

1062

00:41:06,160 --> 00:41:03,410

like this well it's firsthand but Glen

1063

00:41:07,960 --> 00:41:06,170

Campbell I mentioned earlier about UFO

1064

00:41:10,239 --> 00:41:07,970

mine calm it's written about that

1065

00:41:13,660 --> 00:41:10,249

unusual mind and but you're with the guy

1066

00:41:16,180 --> 00:41:13,670

that that started that website it's you

1067

00:41:17,770 --> 00:41:16,190

guys out there together and you're out

1068

00:41:21,940 --> 00:41:17,780

there playing

1069

00:41:23,440 --> 00:41:21,950

possum with the guards from area 51 I

1070

00:41:25,839 --> 00:41:23,450

just want everybody to understand

1071

00:41:27,970 --> 00:41:25,849

exactly what you're trying to say here

1072

00:41:29,859 --> 00:41:27,980

and that's a pretty heavy thought and

1073

00:41:32,230 --> 00:41:29,869

it's a pretty heavy thing to say

1074

00:41:35,109 --> 00:41:32,240

obviously it happened and you recorded

1075

00:41:36,670 --> 00:41:35,119

everything but I mean it's just a

1076

00:41:38,230 --> 00:41:36,680

fascinating story yeah there's another

1077

00:41:40,300 --> 00:41:38,240

incident where we used to we used to run

1078

00:41:42,339 --> 00:41:40,310

along the we used to do this which to

1079

00:41:45,339 --> 00:41:42,349

really kind of get to him weed weed I

1080

00:41:47,470 --> 00:41:45,349

did it's a Tonopah once we'd take our

1081

00:41:49,660 --> 00:41:47,480

take our for buys and start you know

1082

00:41:51,190 --> 00:41:49,670

haulin ass down the road right like

1083

00:41:53,290 --> 00:41:51,200

right coming up to the guard gate and

1084

00:41:56,290 --> 00:41:53,300

then they always have roads along run

1085

00:41:58,660 --> 00:41:56,300

along the border or the the you know and

1086

00:42:00,250 --> 00:41:58,670

I knew this so we call we brought a halt

1087

00:42:02,230 --> 00:42:00,260

and a somebody make a quick left and

1088

00:42:03,820 --> 00:42:02,240

they see us because there's a guard sex

1089

00:42:06,640 --> 00:42:03,830

they freak because they're like who are

1090

00:42:08,290 --> 00:42:06,650

these guys you know and we're going down

1091

00:42:09,609 --> 00:42:08,300

the board I mean this is because I you

1092

00:42:12,609 --> 00:42:09,619

know a videotape a lot of things out

1093

00:42:14,260 --> 00:42:12,619

there as far as doing research I want to

1094

00:42:15,490 --> 00:42:14,270

get a lot of stuff on videotape so we're

1095

00:42:17,290 --> 00:42:15,500

hauling ass the native course send a

1096

00:42:18,970 --> 00:42:17,300

guard after us and there they actually

1097

00:42:20,830 --> 00:42:18,980

pulled us over try to pull us over and

1098

00:42:22,089 --> 00:42:20,840

they got m16s and stuff and I'm trying

1099

00:42:23,620 --> 00:42:22,099

to videotape all this stuff and they're

1100

00:42:25,060 --> 00:42:23,630

all worried what do you go taping all

1101

00:42:26,500 --> 00:42:25,070

this you know their air raise or

1102

00:42:28,150 --> 00:42:26,510

whatever their microwaves are or just

1103

00:42:30,130 --> 00:42:28,160

I'm trying to tape stuff around the base

1104

00:42:31,270 --> 00:42:30,140

and and they come up and they see us you

1105

00:42:33,400 --> 00:42:31,280

know we're sitting there were scanners

1106

00:42:34,990 --> 00:42:33,410

in our car okay we got scanners and

1107

00:42:37,210 --> 00:42:35,000

antennas on the roof and everything and

1108

00:42:39,579 --> 00:42:37,220

say they know we're monitoring us them

1109

00:42:41,170 --> 00:42:39,589

and then and then you know I'm saying I

1110

00:42:44,260 --> 00:42:41,180

got video cameras and everything I got

1111

00:42:46,630 --> 00:42:44,270

patches on my jacket like area 51 crazy

1112

00:42:47,890 --> 00:42:46,640

stuff so it's like it gets kind of

1113

00:42:49,210 --> 00:42:47,900

hectic I've taken many people out there

1114

00:42:50,530 --> 00:42:49,220

where they're almost like you know

1115

00:42:52,410 --> 00:42:50,540

peeing in their pants and sweating

1116

00:42:54,640 --> 00:42:52,420

because you know these guards are

1117

00:42:56,770 --> 00:42:54,650

chasing you and and some people get a

1118

00:42:59,410 --> 00:42:56,780

little it can be a little sketchy at

1119

00:43:01,720 --> 00:42:59,420

times you know it sounds like this is

1120

00:43:04,060 --> 00:43:01,730

just fascinating to me it sounds like

1121

00:43:05,890 --> 00:43:04,070

you were always a step ahead of the

1122

00:43:07,870 --> 00:43:05,900

guards yes you know you could see their

1123

00:43:10,720 --> 00:43:07,880

lights you're out there at night and and

1124

00:43:13,210 --> 00:43:10,730

so forth did you ever get snuck up on

1125

00:43:14,710 --> 00:43:13,220

you did you ever get caught well there's

1126
00:43:17,050 --> 00:43:14,720
one time I mean there's ground sensors

1127
00:43:19,240 --> 00:43:17,060
there's all kinds of heat you know

1128
00:43:20,200 --> 00:43:19,250
there's there's vibration everything is

1129
00:43:22,750 --> 00:43:20,210
in the ground that everything is

1130
00:43:24,820 --> 00:43:22,760
monitored did you ever get snuck up on

1131
00:43:27,520 --> 00:43:24,830
well we had frequencies to the sensors

1132
00:43:29,109 --> 00:43:27,530
so we used to we used to flip the dip

1133
00:43:31,100 --> 00:43:29,119
switches on the sensors the guards never

1134
00:43:33,290 --> 00:43:31,110
knew this but

1135
00:43:34,700 --> 00:43:33,300
we used to flip this okay so you're

1136
00:43:37,940 --> 00:43:34,710
talking there's a sensor on groom Lake

1137
00:43:39,200 --> 00:43:37,950
Road which is where most the tourists

1138
00:43:40,490 --> 00:43:39,210

take to go to area 51 and we knew where

1139

00:43:41,810 --> 00:43:40,500

all the senses was because there was a

1140

00:43:44,390 --> 00:43:41,820

guy that actually tripped over one he's

1141

00:43:46,520 --> 00:43:44,400

walking out there so he you know he

1142

00:43:47,870 --> 00:43:46,530

brought it to Glenn and we started kind

1143

00:43:49,850 --> 00:43:47,880

of doing research on him and stuff like

1144

00:43:51,320 --> 00:43:49,860

that so we used to we used to trip the

1145

00:43:52,670 --> 00:43:51,330

sensor so the guards would think they're

1146

00:43:53,900 --> 00:43:52,680

going into the west side of the base

1147

00:43:55,760 --> 00:43:53,910

where they're going to the other side of

1148

00:43:57,770 --> 00:43:55,770

the base because we tripped the sensors

1149

00:44:00,260 --> 00:43:57,780

we flipped the dip switches so this was

1150

00:44:04,160 --> 00:44:00,270

stuff like you know we could come into

1151

00:44:05,660 --> 00:44:04,170

the the you know to groom lake road and

1152

00:44:07,400 --> 00:44:05,670

trip sensors on purpose and they start

1153

00:44:11,630 --> 00:44:07,410

heading toward and toward the north side

1154

00:44:13,010 --> 00:44:11,640

of the base so you see dips which I want

1155

00:44:15,590 --> 00:44:13,020

to everybody didn't understand a dip

1156

00:44:17,480 --> 00:44:15,600

switch is a series of switches or it

1157

00:44:19,880 --> 00:44:17,490

could be one but it's usually a series

1158

00:44:23,180 --> 00:44:19,890

of four little tiny switches that you

1159

00:44:25,160 --> 00:44:23,190

can turn on and off a dip switch is what

1160

00:44:27,500 --> 00:44:25,170

is inside of your garage door opener

1161

00:44:29,390 --> 00:44:27,510

that's a dip switch so you're going up

1162

00:44:32,890 --> 00:44:29,400

on these ground sensors and these

1163

00:44:34,910 --> 00:44:32,900

vibration sensors and turning them off

1164

00:44:36,170 --> 00:44:34,920

essentially what you're doing with it we

1165

00:44:38,000 --> 00:44:36,180

know what the dip switch settings were

1166

00:44:39,560 --> 00:44:38,010

on the north side of the base so we take

1167

00:44:47,810 --> 00:44:39,570

that and make it so it's on the other

1168

00:44:49,010 --> 00:44:47,820

side of the bed is it false signal the

1169

00:44:51,440 --> 00:44:49,020

guards they think if somebody's coming

1170

00:44:52,760 --> 00:44:51,450

on this side of the base and then they

1171

00:44:54,080 --> 00:44:52,770

go to that side of the base then we'd be

1172

00:44:56,630 --> 00:44:54,090

able to go in and get her you were

1173

00:44:59,210 --> 00:44:56,640

turning you were turning an elite guard

1174

00:45:00,560 --> 00:44:59,220

force into freaking frack yeah and they

1175

00:45:04,430 --> 00:45:00,570

were running around all over the place

1176

00:45:05,690 --> 00:45:04,440

today new videotape yeah oh that is it

1177

00:45:07,070 --> 00:45:05,700

would make us so they would go to the

1178

00:45:08,960 --> 00:45:07,080

north side so we'd be able to go on to

1179

00:45:10,400 --> 00:45:08,970

the other side which is like ten miles

1180

00:45:12,530 --> 00:45:10,410

away and I'd be able to get up to the

1181

00:45:14,360 --> 00:45:12,540

mountain shoot video of the base so I'd

1182

00:45:15,920 --> 00:45:14,370

have it for you know documentaries or

1183

00:45:18,590 --> 00:45:15,930

whatever what have you so they you know

1184

00:45:19,580 --> 00:45:18,600

we kind of we play we've played a lot of

1185

00:45:22,820 --> 00:45:19,590

cat-and-mouse back then

1186

00:45:25,460 --> 00:45:22,830

did you ever see ever see Aurora any

1187

00:45:27,200 --> 00:45:25,470

proof of that well you know I spent so

1188

00:45:28,430 --> 00:45:27,210

many times out there used to go out

1189

00:45:30,500 --> 00:45:28,440

there like four or five times a year

1190

00:45:32,030 --> 00:45:30,510

I know everybody I know Pat really well

1191

00:45:33,410 --> 00:45:32,040

every little alien and everybody there

1192

00:45:36,830 --> 00:45:33,420

and you Joe Travis really well he's

1193

00:45:38,840 --> 00:45:36,840

passed on I just got I got just got text

1194

00:45:43,999 --> 00:45:38,850

in from somebody in Florida and they

1195

00:45:47,489 --> 00:45:45,930

actually the sensors they're different

1196

00:45:48,779 --> 00:45:47,499

now though these were the early sensors

1197

00:45:51,120 --> 00:45:48,789

they have actually changed them since

1198

00:45:53,609 --> 00:45:51,130

okay back to work did you ever see

1199

00:45:55,140 --> 00:45:53,619

Aurora the elusive Aurora Aurora was a

1200

00:45:57,749 --> 00:45:55,150

plane that was supposedly was creating

1201
00:45:59,430 --> 00:45:57,759
the sky quakes coming in from California

1202
00:46:01,640 --> 00:45:59,440
the people and the sky quakes have

1203
00:46:03,870 --> 00:46:01,650
stopped I mean I remember those

1204
00:46:05,880 --> 00:46:03,880
constantly and they've stopped but back

1205
00:46:10,589 --> 00:46:05,890
to the point did you ever see anything

1206
00:46:12,749 --> 00:46:10,599
like that and no but it was the aurora

1207
00:46:14,880 --> 00:46:12,759
was like I think was McDonnell Douglas

1208
00:46:17,099 --> 00:46:14,890
Byrd and and it was kind of funded but

1209
00:46:18,239 --> 00:46:17,109
then it kind of they went with something

1210
00:46:20,339 --> 00:46:18,249
else that dropped out but but I'm back

1211
00:46:22,739 --> 00:46:20,349
in 93 94 we were already monitoring the

1212
00:46:24,210 --> 00:46:22,749
drones back in 93 off of coming off of

1213
00:46:26,069 --> 00:46:24,220

Nellis and stuff we already knew that

1214

00:46:28,349 --> 00:46:26,079

they were doing a lot of big drone

1215

00:46:30,450 --> 00:46:28,359

testing and and and things like that

1216

00:46:32,730 --> 00:46:30,460

well they're testing something out there

1217

00:46:34,980 --> 00:46:32,740

what what is it that you saw well I

1218

00:46:36,059 --> 00:46:34,990

didn't like you said it until that 93

1219

00:46:37,440 --> 00:46:36,069

event that's the only thing I saw

1220

00:46:40,529 --> 00:46:37,450

everything else we were monitoring like

1221

00:46:41,910 --> 00:46:40,539

be twos stels I got tons of video of

1222

00:46:45,029 --> 00:46:41,920

them doing wargames I do a lot of war

1223

00:46:46,410 --> 00:46:45,039

games out there you know MiG's and you

1224

00:46:49,349 --> 00:46:46,420

know jets flying over your head you know

1225

00:46:51,329 --> 00:46:49,359

the British British plane I mean it just

1226

00:46:53,309 --> 00:46:51,339

just everything like you'll see like you

1227

00:46:54,650 --> 00:46:53,319

know stealth getting revealed out there

1228

00:46:57,329 --> 00:46:54,660

just all kinds of stuff you know

1229

00:46:58,979 --> 00:46:57,339

phantoms we used to we used to go visit

1230

00:47:00,900 --> 00:46:58,989

the fan crashes up there and everything

1231

00:47:04,229 --> 00:47:00,910

there's a lot of guys researchers that

1232

00:47:05,460 --> 00:47:04,239

were just really big into and to trying

1233

00:47:06,779 --> 00:47:05,470

to find out what's going on I spent a

1234

00:47:10,200 --> 00:47:06,789

lot of time on ridges up there but never

1235

00:47:12,299 --> 00:47:10,210

I never until 93 after 93 I never really

1236

00:47:14,039 --> 00:47:12,309

saw anything besides regular well this

1237

00:47:16,140 --> 00:47:14,049

laughs it's the long it's the longest

1238

00:47:18,499 --> 00:47:16,150

runway in the world right it's like the

1239

00:47:21,599 --> 00:47:18,509

longest and they've just made it longer

1240

00:47:23,640 --> 00:47:21,609

so it begs have asked the question why

1241

00:47:25,620 --> 00:47:23,650

well the reason they extend runways to

1242

00:47:28,769 --> 00:47:25,630

the b2 because the b2 takes a long time

1243

00:47:30,299 --> 00:47:28,779

to land to physically land because it

1244

00:47:32,130 --> 00:47:30,309

just wants to stay up it takes a long

1245

00:47:33,420 --> 00:47:32,140

time for that thing to land that's why

1246

00:47:35,339 --> 00:47:33,430

they have to extend the runway was for

1247

00:47:37,079 --> 00:47:35,349

the b2 but now they have that hangar out

1248

00:47:38,160 --> 00:47:37,089

there you know what the hangar they've

1249

00:47:41,069 --> 00:47:38,170

been building that for you is a really

1250

00:47:43,259 --> 00:47:41,079

big hangar it's bigger than the the you

1251
00:47:44,940 --> 00:47:43,269
know the other hangar that's out well

1252
00:47:46,589 --> 00:47:44,950
I've seen them I've seen the pictures

1253
00:47:48,150 --> 00:47:46,599
but some people believe there might be

1254
00:47:52,289 --> 00:47:48,160
like one of those stealth blimps in

1255
00:47:54,269 --> 00:47:52,299
there or nobody's actually from ticaboo

1256
00:47:55,380 --> 00:47:54,279
peak which is another vantage point into

1257
00:47:56,460 --> 00:47:55,390
area 51 they actually

1258
00:47:57,930 --> 00:47:56,470
when they started building this hangar

1259
00:47:59,670 --> 00:47:57,940
they already actually knew there were

1260
00:48:01,380 --> 00:47:59,680
guys like us up there monitoring the

1261
00:48:04,559 --> 00:48:01,390
base so they would actually built the

1262
00:48:06,720 --> 00:48:04,569
the the workers inside everyone built

1263
00:48:09,120 --> 00:48:06,730

this dirt mountain in front of the

1264

00:48:11,730 --> 00:48:09,130

hangar to kind of block people like us

1265

00:48:13,049 --> 00:48:11,740

from looking into this hangar to see

1266

00:48:14,609 --> 00:48:13,059

what's coming in or out of it

1267

00:48:17,160 --> 00:48:14,619

but everything they do at night they go

1268

00:48:18,420 --> 00:48:17,170

you know nighttime they go all the

1269

00:48:19,740 --> 00:48:18,430

testing is done at night and there's a

1270

00:48:22,170 --> 00:48:19,750

reason why they do most of testing goes

1271

00:48:23,549 --> 00:48:22,180

on during a new moon because there's no

1272

00:48:25,380 --> 00:48:23,559

moon it ended not gonna test during a

1273

00:48:26,549 --> 00:48:25,390

full moon because you can see you know

1274

00:48:27,720 --> 00:48:26,559

as well as I know you're out in the

1275

00:48:29,220 --> 00:48:27,730

desert in the middle of the desert and

1276

00:48:31,380 --> 00:48:29,230

the moon's full moon you could see

1277

00:48:32,849 --> 00:48:31,390

really really well I mean the moon's

1278

00:48:34,230 --> 00:48:32,859

like a great light bulb right you can

1279

00:48:35,609 --> 00:48:34,240

look next to you now when it's a new

1280

00:48:37,920 --> 00:48:35,619

moon you can't see a foot you're out it

1281

00:48:39,359 --> 00:48:37,930

area51 you can't see a foot in front of

1282

00:48:41,400 --> 00:48:39,369

your two feet when there's a new moon I

1283

00:48:42,599 --> 00:48:41,410

mean it it's dark you know right so

1284

00:48:45,660 --> 00:48:42,609

that's when they do most their testing

1285

00:48:47,339 --> 00:48:45,670

when it's a new moon I wanted to get

1286

00:48:49,769 --> 00:48:47,349

this going really quick at the top of

1287

00:48:52,799 --> 00:48:49,779

the hour we are gonna start taking your

1288

00:48:55,349 --> 00:48:52,809

calls so I'm gonna release the number

1289

00:48:58,650 --> 00:48:55,359

now to Skype it is

1290

00:49:01,980 --> 00:48:58,660

fade to black fade to black

1291

00:49:05,039 --> 00:49:01,990

no spaces and the number fourteen no

1292

00:49:08,640 --> 00:49:05,049

spaces again fade to black

1293

00:49:25,780 --> 00:49:08,650

14 Chloe back right after this everybody

1294

00:49:32,230 --> 00:49:29,450

hi I'm Lisa Vance your listings Jimmy
