83

00:04:02,640 --> 00:03:59,769

physicist lecturer Stanton T Friedman

84

00:04:04,530 --> 00:04:02,650

received his BSC and MSC degrees in

85

00:04:08,369 --> 00:04:04,540

physics from the University of Chicago

86

00:04:10,379 --> 00:04:08,379

in 1955 in 1956 he was employed for 14

87

00:04:14,699 --> 00:04:10,389

years as a nuclear physicist by such

88

00:04:18,199 --> 00:04:14,709

companies as GE GM Westinghouse trw

89

00:04:20,580 --> 00:04:18,209

systems Aerojet general Nucleonics and

90

00:04:22,620 --> 00:04:20,590

McDonnell Douglas working in such highly

91

00:04:25,920 --> 00:04:22,630

advanced classified eventually canceled

92

00:04:28,469 --> 00:04:25,930

programs as nuclear aircraft fission and

93

00:04:30,960 --> 00:04:28,479

fusion rockets and various compact

94

00:04:34,500 --> 00:04:30,970

nuclear power plants he became

95

00:04:37,409 --> 00:04:34,510

interested in UFOs in 1958 and in since

96

00:04:41,310 --> 00:04:37,419

nineteen sixty seven has lectured about

97

00:04:44,640 --> 00:04:41,320

them at more than 600 this is a mouthful

98

00:04:48,540 --> 00:04:44,650

600 colleges 100 professional groups in

99

00:04:50,909 --> 00:04:48,550

50 states 10 canadian provinces in 18

100

00:04:53,250 --> 00:04:50,919

other countries he has published more

101
00:04:56,580 --> 00:04:53,260
than 90 UFO papers and has appeared on

102
00:04:58,439 --> 00:04:56,590
hundreds of radio TV programs he is the

103
00:05:01,050 --> 00:04:58,449
original civilian investigator of the

104
00:05:03,750 --> 00:05:01,060
Roswell incident he co-authored the

105
00:05:06,060 --> 00:05:03,760
crash at Corona the definitive study of

106
00:05:09,510 --> 00:05:06,070
the Roswell incident and my personal

107
00:05:10,530 --> 00:05:09,520
favorite top secret magic he has

108
00:05:12,330 --> 00:05:10,540
provided

109
00:05:15,270 --> 00:05:12,340
written testimony to congressional

110
00:05:17,820 --> 00:05:15,280
hearings and it has appeared twice at

111
00:05:21,060 --> 00:05:17,830
the United Nations and i gotta tell you

112
00:05:24,630 --> 00:05:21,070
Stanton that is an impressive bio how

113
00:05:26,070 --> 00:05:24,640

are you tonight um very good here in

114

00:05:28,230 --> 00:05:26,080

beautiful fredericton new brunswick

115

00:05:29,910 --> 00:05:28,240

canada where it was 10 below this

116

00:05:32,100 --> 00:05:29,920

morning and we had about eight inches of

117

00:05:35,850 --> 00:05:32,110

snow today so with the three feet we've

118

00:05:39,810 --> 00:05:35,860

already had this fall winter season so

119

00:05:41,970 --> 00:05:39,820

no sandals no sandals no sandals at all

120

00:05:45,000 --> 00:05:41,980

though I was in Brazil de less than a

121

00:05:46,770 --> 00:05:45,010

month ago and it was 85 down there well

122

00:05:48,270 --> 00:05:46,780

you can get your warm on i guess but

123

00:05:50,310 --> 00:05:48,280

then you've got to eventually go back to

124

00:05:55,680 --> 00:05:50,320

the snow but right now i'm not wearing

125

00:05:57,900 --> 00:05:55,690

socks so there you go alright well this

126

00:06:00,990 --> 00:05:57,910

isn't an interview this is a

127

00:06:03,180 --> 00:06:01,000

conversation okay and i'm very excited

128

00:06:05,220 --> 00:06:03,190

about having you on it is an honor but

129

00:06:08,610 --> 00:06:05,230

and you hear that all the time but i

130

00:06:10,050 --> 00:06:08,620

really appreciate it but we're going to

131

00:06:12,480 --> 00:06:10,060

do this in a few different sections but

132

00:06:15,870 --> 00:06:12,490

it's just a conversation and the way

133

00:06:17,670 --> 00:06:15,880

that I feel that my listeners our

134

00:06:20,370 --> 00:06:17,680

listeners on the Dark Matter radio

135

00:06:22,650 --> 00:06:20,380

network if I find it interesting they

136

00:06:26,400 --> 00:06:22,660

will too so it's just a conversation

137

00:06:30,270 --> 00:06:26,410

okay are you ready yep okay let's talk

138

00:06:34,140 --> 00:06:30,280

about mj-12 first the mj-12 documents

139

00:06:35,940 --> 00:06:34,150

now for most people listening to the

140

00:06:37,980 --> 00:06:35,950

show in the art bell you know fanbase

141

00:06:40,020 --> 00:06:37,990

out there know about the mj-12 documents

142

00:06:43,170 --> 00:06:40,030

but for the ones that dome for the new

143

00:06:45,570 --> 00:06:43,180

listeners what are they and when did

144

00:06:50,280 --> 00:06:45,580

they first appear how and when did they

145

00:06:52,860 --> 00:06:50,290

first appear well in december 1984 my

146

00:06:55,080 --> 00:06:52,870

colleague well Jamie Shander a and

147

00:06:59,490 --> 00:06:55,090

William Moore and I had worked together

148

00:07:04,710 --> 00:06:59,500

on Roswell related stuff and a roll of

149

00:07:08,190 --> 00:07:04,720

film arrived at Jamie's house in the

150

00:07:10,080 --> 00:07:08,200

Hollywood area and it was unprocessed

151

00:07:13,380 --> 00:07:10,090

and it didn't have a return to dress and

152

00:07:15,810 --> 00:07:13,390

Bill is processed a lot of film role of

153

00:07:20,610 --> 00:07:15,820

35 people may not remember there used to

154

00:07:22,770 --> 00:07:20,620

be 35 millimeter film out there and he

155

00:07:23,970 --> 00:07:22,780

process it and it turns out there were

156

00:07:28,230 --> 00:07:23,980

two sets

157

00:07:31,160 --> 00:07:28,240

of eight negatives each of a briefing

158

00:07:35,580 --> 00:07:31,170

for president-elect dwight d eisenhower

159

00:07:42,360 --> 00:07:35,590

and it was labeled top secret magic Maj

160

00:07:45,150 --> 00:07:42,370

IC and dated in november 1952 now the

161

00:07:48,690 --> 00:07:45,160

context here is that Ike had just won

162

00:07:51,300 --> 00:07:48,700

the election for president in less than

163

00:07:53,670 --> 00:07:51,310

a month about a month earlier and this

164

00:07:55,620 --> 00:07:53,680

is a briefing for the president-elect he

165

00:07:58,170 --> 00:07:55,630

didn't actually become president until

166

00:08:01,380 --> 00:07:58,180

nineteen fifty three and in this

167

00:08:05,880 --> 00:08:01,390

briefing and its eyes only for the

168

00:08:09,180 --> 00:08:05,890

president alone in other words I it's a

169

00:08:11,850 --> 00:08:09,190

briefing which states that the roswell

170

00:08:16,650 --> 00:08:11,860

incident happened of summarizes I'm not

171

00:08:20,190 --> 00:08:16,660

going to read from it and that it this

172

00:08:24,800 --> 00:08:20,200

group operation majestic-12 was set up

173

00:08:27,240 --> 00:08:24,810

by president truman in September of 1947

174

00:08:29,610 --> 00:08:27,250

to deal with what happened at Roswell

175

00:08:32,300 --> 00:08:29,620

and to serve as a central clearinghouse

176

00:08:35,400 --> 00:08:32,310

if you will for the important UFO stuff

177

00:08:39,930 --> 00:08:35,410

twelve members on the group were listed

178

00:08:41,580 --> 00:08:39,940

and they all made sense except one in

179

00:08:43,380 --> 00:08:41,590

other words if you're going to have a

180

00:08:45,300 --> 00:08:43,390

top secret group they all have to have

181

00:08:47,790 --> 00:08:45,310

high level security clearances you got

182

00:08:50,880 --> 00:08:47,800

to have competent people and boy this

183

00:08:52,500 --> 00:08:50,890

was an all-star cast well with three

184

00:08:56,610 --> 00:08:52,510

former directors of Central Intelligence

185

00:08:58,860 --> 00:08:56,620

for example exactly but it was you know

186

00:09:02,370 --> 00:08:58,870

was called majestic I believe it right

187

00:09:05,910 --> 00:09:02,380

the first it said had anybody yourself

188

00:09:08,040 --> 00:09:05,920

or Jamie shandar at the time was this

189

00:09:11,160 --> 00:09:08,050

the first time anybody had ever heard

190

00:09:14,130 --> 00:09:11,170

the words majestic or magic 12 uh any

191

00:09:15,960 --> 00:09:14,140

kind of sensible context yes that this

192

00:09:17,940 --> 00:09:15,970

wasn't preaching to the converted in

193

00:09:22,890 --> 00:09:17,950

other words we didn't already have our

194

00:09:26,910 --> 00:09:22,900

mitts on mj-12 or majestic-12 magic 12

195

00:09:29,130 --> 00:09:26,920

no I and the problem was that you know

196

00:09:32,280 --> 00:09:29,140

I'm a nuclear physicist I like to have

197

00:09:35,190 --> 00:09:32,290

facts data facts in hand before putting

198

00:09:37,319 --> 00:09:35,200

mouth in gear and here this looked too

199

00:09:40,530 --> 00:09:37,329

good to be true and there was one real

200

00:09:43,289 --> 00:09:40,540

the strong point that worried me and the

201
00:09:45,869 --> 00:09:43,299
list of people i mean secretary defense

202
00:09:49,019 --> 00:09:45,879
was on there and dr. vannevar bush and

203
00:09:51,900 --> 00:09:49,029
you know was a really top-notch group of

204
00:09:54,989 --> 00:09:51,910
people accept that how in the world

205
00:09:58,169 --> 00:09:54,999
could dr. Donald Howard Menzel of

206
00:09:59,910 --> 00:09:58,179
Harvard University be a member of such a

207
00:10:02,879 --> 00:09:59,920
group that know all about flying saucers

208
00:10:06,749 --> 00:10:02,889
alien bodies it talks about Roswell

209
00:10:10,019 --> 00:10:06,759
recovery embodies and stuff uh when men

210
00:10:12,329 --> 00:10:10,029
zol wrote three anti UFO book he was the

211
00:10:15,030 --> 00:10:12,339
biggest skeptic of the time so

212
00:10:16,919 --> 00:10:15,040
supposedly right also you don't need a

213
00:10:21,389 --> 00:10:16,929

high level security clearance to teach

214

00:10:24,569 --> 00:10:21,399

astronomy at Harvard unless unless he

215

00:10:26,160 --> 00:10:24,579

was there for a reason well that was the

216

00:10:29,280 --> 00:10:26,170

kicker what I'm saying is we didn't dare

217

00:10:31,799 --> 00:10:29,290

to go public right until we had a lot

218

00:10:33,840 --> 00:10:31,809

more information because all we needed

219

00:10:36,869 --> 00:10:33,850

was to go public men somebody say gotcha

220

00:10:39,869 --> 00:10:36,879

I made that up myself and you guys fell

221

00:10:42,629 --> 00:10:39,879

for it when you guys guy I don't want to

222

00:10:44,789 --> 00:10:42,639

jump I don't want to jump ahead but when

223

00:10:47,460 --> 00:10:44,799

you guys did eventually go public with

224

00:10:51,030 --> 00:10:47,470

this was there any official government

225

00:10:54,239 --> 00:10:51,040

response anything immediate no no uh

226

00:10:56,639 --> 00:10:54,249

there was later when on the guy who

227

00:11:00,720 --> 00:10:56,649

wrote the big report about Roswell

228

00:11:03,749 --> 00:11:00,730

Colonel Weaver I made a passing comment

229

00:11:07,109 --> 00:11:03,759

to Nick Redfern from England now living

230

00:11:09,359 --> 00:11:07,119

in Texas uh that everybody says the

231

00:11:11,009 --> 00:11:09,369

mj-12 documents are fraudulent and you

232

00:11:12,869 --> 00:11:11,019

know was a quick comment it wasn't an

233

00:11:17,489 --> 00:11:12,879

explanation or anything just a statement

234

00:11:20,519 --> 00:11:17,499

and the kicker is this but I've heard I

235

00:11:24,150 --> 00:11:20,529

think every criticism that's been made

236

00:11:26,280 --> 00:11:24,160

of the reports now I under the documents

237

00:11:29,369 --> 00:11:26,290

now I should stress there's well over a

238

00:11:31,559 --> 00:11:29,379

hundred mj-12 documents I say three of

239

00:11:34,289 --> 00:11:31,569

them are definitely genuine and one

240

00:11:35,879 --> 00:11:34,299

probably is the rest are phonies and

241

00:11:38,039 --> 00:11:35,889

people say what do you mean if they're

242

00:11:41,249 --> 00:11:38,049

phony why aren't these phony because you

243

00:11:43,019 --> 00:11:41,259

look at the specifics and in my books

244

00:11:45,679 --> 00:11:43,029

I've shown that some of them are phony

245

00:11:48,409 --> 00:11:45,689

with wrong information false information

246

00:11:51,269 --> 00:11:48,419

lifting something that I found in a book

247

00:11:53,009 --> 00:11:51,279

as if it was an original document

248

00:11:57,840 --> 00:11:53,019

when in fact it wife and stuff like that

249

00:12:00,030 --> 00:11:57,850

I faces grammar possibly too well yeah

250

00:12:04,860 --> 00:12:00,040

all that kind of stuff there were some

251
00:12:06,929 --> 00:12:04,870
crucial things I that were you know that

252
00:12:09,389 --> 00:12:06,939
I could show made sense although I

253
00:12:11,850 --> 00:12:09,399
didn't know it before hand there are

254
00:12:14,040 --> 00:12:11,860
dates in this thing when somebody meant

255
00:12:17,119 --> 00:12:14,050
with somebody else like a check I've

256
00:12:19,350 --> 00:12:17,129
been to 20 archives over the years

257
00:12:22,199 --> 00:12:19,360
presidential archives in the library

258
00:12:23,970 --> 00:12:22,209
Congress and a whole bunch of places if

259
00:12:25,650 --> 00:12:23,980
somebody pay me full time I thought I'd

260
00:12:28,110 --> 00:12:25,660
spent my life because I love digging

261
00:12:29,400 --> 00:12:28,120
into things like that okay I had a sick

262
00:12:33,840 --> 00:12:29,410
I should stress I had a security

263
00:12:36,749 --> 00:12:33,850

clearance for 14 years and so I know a

264

00:12:38,549 --> 00:12:36,759

lot about security I wrote classified

265

00:12:40,290 --> 00:12:38,559

documents myself I mentioned it's not

266

00:12:42,170 --> 00:12:40,300

the brig but only because I hear some

267

00:12:45,989 --> 00:12:42,180

really stupid things from people who

268

00:12:48,239 --> 00:12:45,999

I've had people tell me well Stan surely

269

00:12:51,179 --> 00:12:48,249

those members of mj-12 would have told

270

00:12:52,769 --> 00:12:51,189

their wives what they were doing and of

271

00:12:55,769 --> 00:12:52,779

course that's not true I never told my

272

00:12:57,840 --> 00:12:55,779

wife anything classified people the work

273

00:13:00,629 --> 00:12:57,850

done security don't it's risky it's

274

00:13:01,920 --> 00:13:00,639

dangerous and especially if the enemies

275

00:13:05,280 --> 00:13:01,930

think they can get it stuff from your

276

00:13:06,840 --> 00:13:05,290

family and not from you you know bad bad

277

00:13:08,639 --> 00:13:06,850

deal I've had people tell me though

278

00:13:11,879 --> 00:13:08,649

everything is Declassified after 25

279

00:13:13,619 --> 00:13:11,889

years Stan did you know that no I didn't

280

00:13:16,110 --> 00:13:13,629

some people think if you've got a top

281

00:13:18,780 --> 00:13:16,120

secret clearance you have access to all

282

00:13:23,040 --> 00:13:18,790

top secret documents it's totally untrue

283

00:13:25,769 --> 00:13:23,050

you need to have a need to know so just

284

00:13:28,319 --> 00:13:25,779

having a clearance it won't get you

285

00:13:31,590 --> 00:13:28,329

access you have to be approved for

286

00:13:34,019 --> 00:13:31,600

access but there are specifics in the

287

00:13:36,269 --> 00:13:34,029

document so the one I'm proudest of

288

00:13:39,179 --> 00:13:36,279

besides what I found out about dr.

289

00:13:41,009 --> 00:13:39,189

Menzel and that came as a shock to me I

290

00:13:42,780 --> 00:13:41,019

had one run-in with him while he was

291

00:13:44,460 --> 00:13:42,790

alive all these guys were dead the last

292

00:13:47,069 --> 00:13:44,470

one died just a few months before we got

293

00:13:51,019 --> 00:13:47,079

this roll of film how convenient one

294

00:13:56,489 --> 00:13:51,029

copy a coincidence you know uh and

295

00:13:59,369 --> 00:13:56,499

besides uh dr. men zol there were other

296

00:14:03,840 --> 00:13:59,379

things in the documents that made you be

297

00:14:05,129 --> 00:14:03,850

at cautious uh you check the dates and

298

00:14:07,379 --> 00:14:05,139

they're okay

299

00:14:10,769 --> 00:14:07,389

there is a place where it says the

300

00:14:13,139 --> 00:14:10,779

briefing officer was Admiral Roscoe age

301
00:14:16,319 --> 00:14:13,149
he'll encoder now he had been a director

302
00:14:17,849 --> 00:14:16,329
of Central Intelligence but he was not

303
00:14:20,460 --> 00:14:17,859
an admiral he was only a Rear Admiral

304
00:14:24,210 --> 00:14:20,470
and some people have said aha that

305
00:14:26,249 --> 00:14:24,220
proves it's phony well at the eisenhower

306
00:14:28,889 --> 00:14:26,259
library i was able to find that there

307
00:14:32,249 --> 00:14:28,899
were minutes taken a meetings at the

308
00:14:35,489 --> 00:14:32,259
White House by general good pastor who

309
00:14:37,229 --> 00:14:35,499
was like staff secretary he'd write

310
00:14:39,599 --> 00:14:37,239
minutes after each meeting of who said

311
00:14:42,809 --> 00:14:39,609
what and what work had to be done and so

312
00:14:46,769 --> 00:14:42,819
forth and these are called mem cons

313
00:14:50,280 --> 00:14:46,779

memorandum of conversations and he lists

314

00:14:53,669 --> 00:14:50,290

the attendees at these meetings any list

315

00:14:56,400 --> 00:14:53,679

them all buy generic rank the military

316

00:14:58,619 --> 00:14:56,410

ones general Jones Admiral Smith that

317

00:15:00,739 --> 00:14:58,629

sort of thing he doesn't say what right

318

00:15:04,590 --> 00:15:00,749

isn't safe or Star Jones Rear Admiral

319

00:15:07,859 --> 00:15:04,600

that no just a generic right even

320

00:15:09,869 --> 00:15:07,869

himself the proof of the pudding was he

321

00:15:12,799 --> 00:15:09,879

he was listed as one of the attendees

322

00:15:16,559 --> 00:15:12,809

general good faster he signed the memo

323

00:15:18,600 --> 00:15:16,569

Brigadier General good pastor and yet

324

00:15:20,999 --> 00:15:18,610

I've had some critics say well obviously

325

00:15:24,449 --> 00:15:21,009

the documents fraudulent because that

326

00:15:26,639 --> 00:15:24,459

rear he wasn't had really was a rear him

327

00:15:28,799 --> 00:15:26,649

I talked to two different archivists at

328

00:15:30,780 --> 00:15:28,809

the eyes narrowing library ask them

329

00:15:33,269 --> 00:15:30,790

whether this use of generic ranks

330

00:15:35,729 --> 00:15:33,279

bothered them and accept both fed

331

00:15:37,979 --> 00:15:35,739

independently of course not that was

332

00:15:40,379 --> 00:15:37,989

standard practice if you read a book

333

00:15:44,789 --> 00:15:40,389

that i groped you'll find his use of

334

00:15:47,280 --> 00:15:44,799

generic ranks i well let me let me jump

335

00:15:50,039 --> 00:15:47,290

in 13 let me jump in really quick you

336

00:15:52,590 --> 00:15:50,049

said there was four of the the set that

337

00:15:56,100 --> 00:15:52,600

you feel that our genuine three probably

338

00:15:59,279 --> 00:15:56,110

four were were those on the original

339

00:16:01,019 --> 00:15:59,289

roll of film no there were the original

340

00:16:04,499 --> 00:16:01,029

roll of film had the I sahar briefing

341

00:16:09,329 --> 00:16:04,509

document and it had the Truman Forrestal

342

00:16:13,439 --> 00:16:09,339

memo that was the memo from Truman to

343

00:16:15,869 --> 00:16:13,449

Forrestal in 1947 establishing operation

344

00:16:18,160 --> 00:16:15,879

majestic-12 accountable only to the

345

00:16:22,120 --> 00:16:18,170

president of the United States

346

00:16:24,850 --> 00:16:22,130

that was the enable enabling start of

347

00:16:26,800 --> 00:16:24,860

everything the third one was found we

348

00:16:29,379 --> 00:16:26,810

had been getting some strange letter of

349

00:16:31,210 --> 00:16:29,389

postcards actually well I know where

350

00:16:32,949 --> 00:16:31,220

your I know where you're going and I'm

351
00:16:36,240 --> 00:16:32,959
gonna ask you about that in one second

352
00:16:38,800 --> 00:16:36,250
but I just want to be clear so I'm the

353
00:16:42,990 --> 00:16:38,810
everything was on film how many of the

354
00:16:46,480 --> 00:16:43,000
documents of majestic or actual paper

355
00:16:51,069 --> 00:16:46,490
well the one that was found the third

356
00:16:53,319 --> 00:16:51,079
one is a memo from Cutler Robert Cutler

357
00:16:56,079 --> 00:16:53,329
who was Ike's national security adviser

358
00:16:59,439 --> 00:16:56,089
is slightly different title back then to

359
00:17:07,750 --> 00:16:59,449
general Nathan twining and in it in the

360
00:17:09,970 --> 00:17:07,760
heading it mentions a majestic 12 uh a

361
00:17:11,620 --> 00:17:09,980
meeting is going to be held at a certain

362
00:17:14,199 --> 00:17:11,630
time it was supposed to be held another

363
00:17:18,309 --> 00:17:14,209

time it just notified the right people

364

00:17:20,110 --> 00:17:18,319

that there's been a change and uh people

365

00:17:21,699 --> 00:17:20,120

jumped on that one the Cutler time

366

00:17:23,409 --> 00:17:21,709

that's available if you go to the

367

00:17:26,740 --> 00:17:23,419

National Archives which has been moved

368

00:17:30,100 --> 00:17:26,750

now to college park maryland they'll

369

00:17:33,310 --> 00:17:30,110

pull out a copy of the original majestic

370

00:17:35,890 --> 00:17:33,320

that memo the cover twining memo well

371

00:17:37,690 --> 00:17:35,900

how you found this memo how is shan dara

372

00:17:39,909 --> 00:17:37,700

found this memo i think is one of the

373

00:17:41,680 --> 00:17:39,919

more intriguing stories out of a you

374

00:17:43,690 --> 00:17:41,690

started to touch upon that when you

375

00:17:46,380 --> 00:17:43,700

mentioned well yeah posters it was kind

376

00:17:50,280 --> 00:17:46,390

of weird they were getting strange

377

00:17:53,080 --> 00:17:50,290

postcards from hither thither and yon

378

00:17:55,000 --> 00:17:53,090

somebody anybody can send mail you know

379

00:17:57,100 --> 00:17:55,010

no big deal but there was enough

380

00:17:59,350 --> 00:17:57,110

information or to suggest that we should

381

00:18:04,390 --> 00:17:59,360

be going to somebody should be going to

382

00:18:08,080 --> 00:18:04,400

Washington and uh checking at one of the

383

00:18:10,090 --> 00:18:08,090

archives there and so bill and Jamie who

384

00:18:12,190 --> 00:18:10,100

were hoping to make a movie out of this

385

00:18:13,810 --> 00:18:12,200

whole thing in a book and all kinds of

386

00:18:17,620 --> 00:18:13,820

deal i mean i'm on the east coast there

387

00:18:20,680 --> 00:18:17,630

in the west coast you know and they went

388

00:18:24,430 --> 00:18:20,690

and they look we were notified that

389

00:18:26,380 --> 00:18:24,440

certain papers were being reviewed that

390

00:18:28,750 --> 00:18:26,390

had been reviewed by the government at

391

00:18:30,790 --> 00:18:28,760

the National Archives so they went to

392

00:18:33,190 --> 00:18:30,800

that file

393

00:18:36,010 --> 00:18:33,200

and they it one of the postcards

394

00:18:38,470 --> 00:18:36,020

mentioned a certain post office box and

395

00:18:41,410 --> 00:18:38,480

it would turns out this was a file box

396

00:18:44,560 --> 00:18:41,420

but they found those papers in ed at the

397

00:18:48,880 --> 00:18:44,570

National Archives National Archive are

398

00:18:52,110 --> 00:18:48,890

locked yes national archive and the

399

00:18:57,340 --> 00:18:52,120

kicker was that when you looked at this

400

00:19:00,910 --> 00:18:57,350

document its original paper and it even

401
00:19:03,010 --> 00:19:00,920
has a slant red pencil mark through the

402
00:19:05,560 --> 00:19:03,020
security marking and I didn't find out

403
00:19:08,230 --> 00:19:05,570
until later what that meant I asked an

404
00:19:11,530 --> 00:19:08,240
archivist not there but I think Eisner

405
00:19:14,080 --> 00:19:11,540
Larry what does that mean that Flint red

406
00:19:15,700 --> 00:19:14,090
pencil wire through the security mark he

407
00:19:17,110 --> 00:19:15,710
said well that standard practice here

408
00:19:19,930 --> 00:19:17,120
when you're going to declassify a

409
00:19:22,420 --> 00:19:19,940
document you do that so people will know

410
00:19:23,770 --> 00:19:22,430
that it's been Declassified you have to

411
00:19:26,440 --> 00:19:23,780
stamp it with the appropriate security

412
00:19:27,910 --> 00:19:26,450
markings but still now I didn't know

413
00:19:29,710 --> 00:19:27,920

that night like I said I spent a lot of

414

00:19:32,100 --> 00:19:29,720

time at archives and nobody else I knew

415

00:19:36,010 --> 00:19:32,110

knew it but it was an indicator of

416

00:19:39,700 --> 00:19:36,020

legitimacy where is the where's the

417

00:19:43,510 --> 00:19:39,710

Cutler twining memo right now I is it

418

00:19:48,430 --> 00:19:43,520

back of the archives yes oh yes original

419

00:19:50,770 --> 00:19:48,440

document okay so that's what I have item

420

00:19:53,620 --> 00:19:50,780

in my books and stuff like that but in

421

00:19:58,570 --> 00:19:53,630

its brief and the kicker about the

422

00:20:04,300 --> 00:19:58,580

Cutler twining memo is that uh mr.

423

00:20:07,900 --> 00:20:04,310

Philip class I who was the biggest noisy

424

00:20:11,260 --> 00:20:07,910

negative estoy Z naysayer anti UFO guy

425

00:20:13,080 --> 00:20:11,270

ever saw he was in a senior avionics

426

00:20:15,430 --> 00:20:13,090

editor for aviation week in space

427

00:20:18,460 --> 00:20:15,440

technology in Washington so he was the

428

00:20:20,560 --> 00:20:18,470

go-to debunker because he was convenient

429

00:20:22,570 --> 00:20:20,570

right there in Washington you know not a

430

00:20:25,090 --> 00:20:22,580

scientist you understand oh no a

431

00:20:26,740 --> 00:20:25,100

debunker and the FBI doesn't like him

432

00:20:28,270 --> 00:20:26,750

you can go on the internet and see is

433

00:20:29,920 --> 00:20:28,280

that the AI file and they were very

434

00:20:32,920 --> 00:20:29,930

upset about him but they couldn't

435

00:20:35,470 --> 00:20:32,930

prosecute him because to do so for

436

00:20:36,430 --> 00:20:35,480

leaking classified information they

437

00:20:38,740 --> 00:20:36,440

would have to reveal the information

438

00:20:40,450 --> 00:20:38,750

they didn't want to do that but they had

439

00:20:43,410 --> 00:20:40,460

some very strong words to say about it

440

00:20:45,840 --> 00:20:43,420

anyway I got challenged about this one

441

00:20:50,370 --> 00:20:45,850

perhaps you didn't notice Phil said to

442

00:20:53,550 --> 00:20:50,380

me in a letter that I it was done in the

443

00:20:57,240 --> 00:20:53,560

large pie cut type but the standard at

444

00:20:59,970 --> 00:20:57,250

the National Security Council is a leap

445

00:21:02,400 --> 00:20:59,980

type and he had nine documents to prove

446

00:21:04,590 --> 00:21:02,410

that they challenged me I will give you

447

00:21:06,600 --> 00:21:04,600

a hundred dollars each for every genuine

448

00:21:10,620 --> 00:21:06,610

document meeting a whole bunch of

449

00:21:13,500 --> 00:21:10,630

criteria you still have the check not in

450

00:21:17,100 --> 00:21:13,510

the same size and style type right as

451
00:21:19,860 --> 00:21:17,110
the Cutler 20 memo well phil has never

452
00:21:21,630 --> 00:21:19,870
been and i've checked since it never in

453
00:21:24,090 --> 00:21:21,640
his life was at the Eisenhower library

454
00:21:26,070 --> 00:21:24,100
I've spent weeks there and I was going

455
00:21:28,260 --> 00:21:26,080
there anyway shortly after that he gave

456
00:21:32,280 --> 00:21:28,270
me 60 days but two weeks later I was I

457
00:21:35,540 --> 00:21:32,290
taken Aaron library and look for pike a

458
00:21:39,030 --> 00:21:35,550
type memos meeting his all his criteria

459
00:21:42,360 --> 00:21:39,040
and I quickly found them a psycho type

460
00:21:45,270 --> 00:21:42,370
is bigger it shows up I hope people know

461
00:21:48,900 --> 00:21:45,280
what typewriters are many around anymore

462
00:21:52,110 --> 00:21:48,910
but anyway I found 14 documents he said

463
00:21:54,240 --> 00:21:52,120

a limit up to a maximum of 10 so I

464

00:21:58,170 --> 00:21:54,250

figured I had insurance with 14 you know

465

00:22:01,830 --> 00:21:58,180

so I dug out 14 I made copies I send him

466

00:22:05,210 --> 00:22:01,840

copies of them and an invoice for a

467

00:22:08,340 --> 00:22:05,220

thousand dollars ten times a hundred and

468

00:22:10,170 --> 00:22:08,350

he paid me I told everybody about

469

00:22:13,500 --> 00:22:10,180

challenging me and nobody about paying

470

00:22:15,240 --> 00:22:13,510

me but here's the crazy part this is

471

00:22:18,720 --> 00:22:15,250

typical of the intellectual bankruptcy

472

00:22:21,200 --> 00:22:18,730

of the pseudoscience of anti ufology I

473

00:22:26,700 --> 00:22:21,210

like the way that sounds that was nice

474

00:22:29,580 --> 00:22:26,710

uh he as I pointed out to people anybody

475

00:22:31,260 --> 00:22:29,590

who's listened the Eisenhower library

476
00:22:34,440 --> 00:22:31,270
had two hundred fifty thousand pages of

477
00:22:37,950 --> 00:22:34,450
national security council materials to

478
00:22:40,050 --> 00:22:37,960
generalize from nine done in a certain

479
00:22:43,590 --> 00:22:40,060
typewriter through a certain type faith

480
00:22:45,420 --> 00:22:43,600
to 250,000 is ridiculous I mean if you

481
00:22:48,540 --> 00:22:45,430
had a hundred documents in ninety time

482
00:22:49,890 --> 00:22:48,550
nine we're all done in the let's say a

483
00:22:51,420 --> 00:22:49,900
leap type and you don't have the

484
00:22:53,420 --> 00:22:51,430
hundreds but you know it's there because

485
00:22:55,410 --> 00:22:53,430
it's referenced that you might be

486
00:22:57,070 --> 00:22:55,420
legitimate and saying it's probably done

487
00:23:01,660 --> 00:22:57,080
the same type but from

488
00:23:05,650 --> 00:23:01,670

92 250,000 does not compute but that's

489

00:23:10,630 --> 00:23:05,660
typical of like I say that the false

490

00:23:13,140 --> 00:23:10,640
arguments that are made I and let me

491

00:23:16,180 --> 00:23:13,150
mention my findings about dr. menville

492

00:23:19,000 --> 00:23:16,190
if I said I had one run-in with him I

493

00:23:21,100 --> 00:23:19,010
was speaking at to a Harvard engineering

494

00:23:25,030 --> 00:23:21,110
alumni group and I called him early in

495

00:23:27,970 --> 00:23:25,040
the day we had never talked and I gave

496

00:23:29,500 --> 00:23:27,980
my name oh I know all about you I said

497

00:23:32,560 --> 00:23:29,510
oh you saw my congressional testimony

498

00:23:34,420 --> 00:23:32,570
next to yours now I've seen letters and

499

00:23:36,490 --> 00:23:34,430
memos you can't be a scientist and

500

00:23:38,830 --> 00:23:36,500
believe in flying saucers he said so I

501
00:23:41,380 --> 00:23:38,840
left because it was such a funny remark

502
00:23:42,850 --> 00:23:41,390
and he got angry inside of ranting and

503
00:23:45,400 --> 00:23:42,860
raving they said look dr. Mendel I

504
00:23:48,130 --> 00:23:45,410
didn't call argue with you I called out

505
00:23:49,470 --> 00:23:48,140
of courtesy speaking on your campus I

506
00:23:51,370 --> 00:23:49,480
don't know whether they've made it

507
00:23:54,100 --> 00:23:51,380
invitations available to everybody

508
00:23:56,080 --> 00:23:54,110
whether it's a closed group I never know

509
00:23:57,730 --> 00:23:56,090
what some campuses you don't know who's

510
00:24:00,640 --> 00:23:57,740
sponsoring on who's going to be let in

511
00:24:03,190 --> 00:24:00,650
and so he backed off a little bit said

512
00:24:06,160 --> 00:24:03,200
oh well of course I won't go so I told

513
00:24:09,310 --> 00:24:06,170

the story that night that's the electric

514

00:24:12,430 --> 00:24:09,320

effect but I couldn't resist but so I

515

00:24:16,150 --> 00:24:12,440

was not a fan of dr. menville however I

516

00:24:17,920 --> 00:24:16,160

found a letter in the papers of dr.

517

00:24:22,900 --> 00:24:17,930

Vannevar Bush won the top scientist

518

00:24:25,150 --> 00:24:22,910

during the war uh headed the ran I don't

519

00:24:29,800 --> 00:24:25,160

know dozens and dozens of technical

520

00:24:32,110 --> 00:24:29,810

projects uh having to do with radar the

521

00:24:34,660 --> 00:24:32,120

proximity fuze he was present at the

522

00:24:39,220 --> 00:24:34,670

first test of the atomic bomb etc etc a

523

00:24:44,680 --> 00:24:39,230

real wheel and Aaron his papers I found

524

00:24:48,610 --> 00:24:44,690

a memo from a lawyer in Boston thanking

525

00:24:51,460 --> 00:24:48,620

him for his assistance in getting dr.

526

00:24:54,460 --> 00:24:51,470

Menzel off on this charge of being

527

00:24:56,860 --> 00:24:54,470

disloyal I look at this and say what the

528

00:24:58,480 --> 00:24:56,870

heck is that all about why would rental

529

00:25:01,690 --> 00:24:58,490

they were going to take away of security

530

00:25:04,720 --> 00:25:01,700

clearance why I have one and you know

531

00:25:06,880 --> 00:25:04,730

what's the kicker here so I called the

532

00:25:08,830 --> 00:25:06,890

lawyer firm and found out that there's

533

00:25:10,269 --> 00:25:08,840

over eleven hundred pages of stuff about

534

00:25:13,180 --> 00:25:10,279

the hearings

535

00:25:16,690 --> 00:25:13,190

thing in the newspapers Washington Post

536

00:25:19,479 --> 00:25:16,700

New York Times didn't see anything so I

537

00:25:21,489 --> 00:25:19,489

called him Harvard had over 11 other

538

00:25:23,529 --> 00:25:21,499

pages I called Harvard how could I get

539

00:25:24,700 --> 00:25:23,539

access to his papers it turns out i had

540

00:25:28,180 --> 00:25:24,710

to get permission from three different

541

00:25:30,909 --> 00:25:28,190

people including his wife to look at his

542

00:25:34,149 --> 00:25:30,919

unpublished autobiography so I did that

543

00:25:36,190 --> 00:25:34,159

written permission mind you and I got a

544

00:25:39,700 --> 00:25:36,200

grant from the fun for UFO research and

545

00:25:43,060 --> 00:25:39,710

I went down the harbor and I spent three

546

00:25:45,369 --> 00:25:43,070

days and I was totally shocked I was

547

00:25:47,979 --> 00:25:45,379

blown away I didn't know where to look

548

00:25:50,200 --> 00:25:47,989

because his UFO papers were supposedly

549

00:25:54,719 --> 00:25:50,210

at the American Philosophical Society

550

00:25:57,639 --> 00:25:54,729

library in Washington DC so you know

551
00:25:59,680 --> 00:25:57,649
what's what's going on here what where

552
00:26:02,799 --> 00:25:59,690
would I find UFO stuff well I saw file

553
00:26:05,469 --> 00:26:02,809
it's a JFK so I decided to look there

554
00:26:08,289 --> 00:26:05,479
and that was the eye opener the real

555
00:26:11,950 --> 00:26:08,299
lucky break it turns out that men zol

556
00:26:13,749 --> 00:26:11,960
new JFK because he was on the board of

557
00:26:16,709 --> 00:26:13,759
overseers at Harvard in this area of

558
00:26:19,089 --> 00:26:16,719
interest was astronomy and men's will

559
00:26:21,669 --> 00:26:19,099
work closely with him on that and he

560
00:26:26,019 --> 00:26:21,679
really liked JFK's Menzel's wife told me

561
00:26:27,999 --> 00:26:26,029
that partly because Kennedy wrote his

562
00:26:29,529 --> 00:26:28,009
own report instead of asking benzyl to

563
00:26:31,209 --> 00:26:29,539

do it a lot of the other people that

564

00:26:34,959 --> 00:26:31,219

were done why don't you write the report

565

00:26:36,729 --> 00:26:34,969

you know and they're in correspondence

566

00:26:41,499 --> 00:26:36,739

between the two not only are they on a

567

00:26:45,129 --> 00:26:41,509

personal basis but this is in the

568

00:26:48,700 --> 00:26:45,139

campaign yer of nineteen sixty Kennedy

569

00:26:50,519 --> 00:26:48,710

running for president and mendelssohn

570

00:26:54,310 --> 00:26:50,529

there's one area where I may be able to

571

00:26:55,869 --> 00:26:54,320

be of some assistance I was at a longer

572

00:26:59,489 --> 00:26:55,879

continuous association with the National

573

00:27:02,339 --> 00:26:59,499

Security Agency and its Navy predecessor

574

00:27:06,729 --> 00:27:02,349

NSA no such agency never says anything

575

00:27:10,869 --> 00:27:06,739

mr. Snowden's releasing ainger right

576

00:27:13,180 --> 00:27:10,879

right right uh mentals telling him I've

577

00:27:17,200 --> 00:27:13,190

an alarm tenuous association when we are

578

00:27:20,619 --> 00:27:17,210

properly cleared to each other I can

579

00:27:21,830 --> 00:27:20,629

tell you more this is for the present

580

00:27:24,409 --> 00:27:21,840

right is that

581

00:27:27,409 --> 00:27:24,419

that must have been a tremendous aha

582

00:27:29,000 --> 00:27:27,419

moment I know it was and then I found a

583

00:27:31,490 --> 00:27:29,010

bunch of other things in mental zone

584

00:27:34,220 --> 00:27:31,500

comments those hearings he said where

585

00:27:36,140 --> 00:27:34,230

the risk experience of his life I mean

586

00:27:40,730 --> 00:27:36,150

one of the reasons you get a kick out of

587

00:27:42,470 --> 00:27:40,740

why he was considered disloyal I he gave

588

00:27:44,269 --> 00:27:42,480

a pair of stockings to a Russian

589

00:27:47,990 --> 00:27:44,279

astronomer to take to his wife and

590

00:27:51,289 --> 00:27:48,000

nylons were big currency bikes about

591

00:27:54,409 --> 00:27:51,299

that he let it make trips expedition in

592

00:27:58,370 --> 00:27:54,419

the Soviet Union in 1936 obviously

593

00:28:01,070 --> 00:27:58,380

discipline and he said nice things at a

594

00:28:03,340 --> 00:28:01,080

Russian American friendship dinner in

595

00:28:05,480 --> 00:28:03,350

1942 when everybody said nice things

596

00:28:07,130 --> 00:28:05,490

because thank goodness for the Russians

597

00:28:09,789 --> 00:28:07,140

holding off the German so we could get

598

00:28:13,100 --> 00:28:09,799

organized and eventually attack and

599

00:28:15,019 --> 00:28:13,110

Normandy and so forth but I mean that

600

00:28:19,760 --> 00:28:15,029

this was some real hearing and it would

601
00:28:21,529 --> 00:28:19,770
be terrible experience for but I so is

602
00:28:23,389 --> 00:28:21,539
this certainly wasn't disloyal but he

603
00:28:26,389 --> 00:28:23,399
did classified work for the FBI for the

604
00:28:28,880 --> 00:28:26,399
CIA for all kinds of people exactly

605
00:28:31,639 --> 00:28:28,890
which would explain why I mean to my

606
00:28:34,250 --> 00:28:31,649
eyes reading into this is exactly why he

607
00:28:37,750 --> 00:28:34,260
would be part of mj-12 Mickey was the

608
00:28:40,100 --> 00:28:37,760
world class cryptographer he taught

609
00:28:44,539 --> 00:28:40,110
cryptography he learned Japanese to help

610
00:28:46,639 --> 00:28:44,549
break the Japanese codes and so he uh

611
00:28:49,039 --> 00:28:46,649
there were symbols on some of the pieces

612
00:28:52,820 --> 00:28:49,049
from Roscoe for example he's the perfect

613
00:28:54,380 --> 00:28:52,830

guy to look at those but he did all this

614

00:28:58,070 --> 00:28:54,390

work and nobody knew about it there are

615

00:29:01,730 --> 00:28:58,080

two special issues of us um sky and

616

00:29:03,830 --> 00:29:01,740

telescope magazine and one at the

617

00:29:05,930 --> 00:29:03,840

anniversary of his death was dedicated I

618

00:29:07,610 --> 00:29:05,940

mean when he died was dedicated to men's

619

00:29:10,279 --> 00:29:07,620

own one at the hundredth anniversary of

620

00:29:12,830 --> 00:29:10,289

his birth neither one of these say

621

00:29:17,210 --> 00:29:12,840

anything at all about his highly

622

00:29:19,070 --> 00:29:17,220

classified work after the war uh which

623

00:29:21,289 --> 00:29:19,080

is kind of remarkable which included

624

00:29:23,810 --> 00:29:21,299

just didn't know about it exactly and

625

00:29:26,389 --> 00:29:23,820

included every single intelligence

626

00:29:27,980 --> 00:29:26,399

agency that we had running at the time

627

00:29:31,250 --> 00:29:27,990

in the country he was involved with

628

00:29:33,260 --> 00:29:31,260

every single one he it was top dog and

629

00:29:35,150 --> 00:29:33,270

so I developed a healthy respect for him

630

00:29:37,400 --> 00:29:35,160

and I have people I haven't yet

631

00:29:40,100 --> 00:29:37,410

to find a critic who was actually

632

00:29:42,770 --> 00:29:40,110

visited the archives at Harvard to find

633

00:29:45,500 --> 00:29:42,780

anything on which the basic criticism of

634

00:29:47,630 --> 00:29:45,510

my conclusion that non mental certainly

635

00:29:50,870 --> 00:29:47,640

belonged on this group also incidentally

636

00:29:53,480 --> 00:29:50,880

he wrote science fiction that's right

637

00:29:56,510 --> 00:29:53,490

that's right that suits him for writing

638

00:29:58,970 --> 00:29:56,520

cover stories if you know and his first

639

00:30:04,010 --> 00:29:58,980

book interestingly enough was translated

640

00:30:05,570 --> 00:30:04,020

into Russian well okay we're short on

641

00:30:08,810 --> 00:30:05,580

time I want to touch on a couple of

642

00:30:10,100 --> 00:30:08,820

other things really quick in 1982 so you

643

00:30:12,500 --> 00:30:10,110

had these documents you've been

644

00:30:14,840 --> 00:30:12,510

researching you you're spending all of

645

00:30:17,150 --> 00:30:14,850

this time at the archives but back in

646

00:30:19,310 --> 00:30:17,160

nineteen eighty-two Bill Moore approach

647

00:30:22,550 --> 00:30:19,320

to you about creating those bogus

648

00:30:25,130 --> 00:30:22,560

Roswell documents and and then you have

649

00:30:28,610 --> 00:30:25,140

that whole Richard Doty project Aquarius

650

00:30:31,460 --> 00:30:28,620

teletype thing so when he combined that

651

00:30:33,230 --> 00:30:31,470

at later on did did a question your own

652

00:30:35,420 --> 00:30:33,240

judgment on the documents that you look

653

00:30:38,950 --> 00:30:35,430

back and go maybe just maybe I'm being

654

00:30:41,210 --> 00:30:38,960

fooled well I was always wary of that

655

00:30:44,150 --> 00:30:41,220

look I had an experience in the fifth

656

00:30:46,970 --> 00:30:44,160

grade our teacher was teaching a science

657

00:30:48,860 --> 00:30:46,980

and telling us that the Sun stand still

658

00:30:50,780 --> 00:30:48,870

on the planets go around the Sun and I

659

00:30:53,360 --> 00:30:50,790

just read in my 49th sent a volume

660

00:30:55,400 --> 00:30:53,370

encyclopedia at home that the whole

661

00:30:58,400 --> 00:30:55,410

solar system is moving around the galaxy

662

00:31:01,640 --> 00:30:58,410

at 12 miles a second so I objected and

663

00:31:03,260 --> 00:31:01,650

she gave me a very hard time so I didn't

664

00:31:05,390 --> 00:31:03,270

sense a teacher but I brought in the

665

00:31:07,940 --> 00:31:05,400

encyclopedia the next day and she backed

666

00:31:10,910 --> 00:31:07,950

off but it taught me a very important

667

00:31:14,300 --> 00:31:10,920

lesson facts in hand before mouth in

668

00:31:15,920 --> 00:31:14,310

gear and I was in debating in high

669

00:31:19,910 --> 00:31:15,930

school we had a state championship came

670

00:31:22,910 --> 00:31:19,920

one year and uh the same holds true have

671

00:31:27,350 --> 00:31:22,920

facts ready to go and never make up

672

00:31:30,740 --> 00:31:27,360

anything well I have a great basket but

673

00:31:33,050 --> 00:31:30,750

Jamie Shan Dara was collaborating you

674

00:31:36,230 --> 00:31:33,060

know with Bill more since I don't know

675

00:31:38,690 --> 00:31:36,240

79 1980 I got the two of them together

676

00:31:40,940 --> 00:31:38,700

actually well do you think the two of

677

00:31:42,170 --> 00:31:40,950

them knew about Arthur Bray well we

678

00:31:43,730 --> 00:31:42,180

didn't even get a chance to talk about

679

00:31:45,740 --> 00:31:43,740

the Canadian connection it with this

680

00:31:47,870 --> 00:31:45,750

whole thing I don't think they know any

681

00:31:48,560 --> 00:31:47,880

more than i did i l've looked at the

682

00:31:52,460 --> 00:31:48,570

break

683

00:31:57,620 --> 00:31:52,470

papers in Ottawa and the will respect

684

00:31:59,269 --> 00:31:57,630

papers with our embrace stuff now I we

685

00:32:02,600 --> 00:31:59,279

had a falling out about several things

686

00:32:04,999 --> 00:32:02,610

but it wasn't there was no suspicion

687

00:32:06,470 --> 00:32:05,009

people have way overstated the notion

688

00:32:08,930 --> 00:32:06,480

that well we ought to fake some

689

00:32:10,519 --> 00:32:08,940

documents and I can see the point you

690

00:32:14,120 --> 00:32:10,529

put some bait out there and see who

691

00:32:16,159 --> 00:32:14,130

jumps for it so I didn't appreciate that

692

00:32:19,279 --> 00:32:16,169

and I was at the 89 new fund meeting

693

00:32:21,919 --> 00:32:19,289

where bill went on and on and on and

694

00:32:25,039 --> 00:32:21,929

said some dumb things and I was very

695

00:32:26,749 --> 00:32:25,049

upset about that because I was supposed

696

00:32:32,029 --> 00:32:26,759

to get a copy of his paper reporting

697

00:32:34,539 --> 00:32:32,039

gaben I didn't and I but I know I got a

698

00:32:37,549 --> 00:32:34,549

safer bill he was a hard-working guy

699

00:32:41,480 --> 00:32:37,559

he'd go off and dig stuff out and dig

700

00:32:43,730 --> 00:32:41,490

stuff out find out about people I you

701
00:32:45,860 --> 00:32:43,740
know he had his flaws and he got out of

702
00:32:49,369 --> 00:32:45,870
the business and you know that's a

703
00:32:51,529 --> 00:32:49,379
separate story but I've been willing to

704
00:32:55,580 --> 00:32:51,539
look at everybody's objections to the

705
00:32:59,060 --> 00:32:55,590
mj-12 documents and uh you know because

706
00:33:00,710 --> 00:32:59,070
if there's a fact that i can't repudiate

707
00:33:03,499 --> 00:33:00,720
or can't refute if there's something

708
00:33:05,330 --> 00:33:03,509
about them that doesn't stand up then I

709
00:33:07,549 --> 00:33:05,340
want to know what I want to be the one

710
00:33:10,730 --> 00:33:07,559
to break the story not them and i have

711
00:33:12,830 --> 00:33:10,740
in my books you will notice that i have

712
00:33:15,740 --> 00:33:12,840
identified a number of documents as

713
00:33:19,820 --> 00:33:15,750

fraudulent and tell you why exactly I

714

00:33:20,990 --> 00:33:19,830

you know so and I was good I live a mile

715

00:33:24,169 --> 00:33:21,000

from the university of new brunswick

716

00:33:28,129 --> 00:33:24,179

here in fredericton new brunswick and i

717

00:33:31,100 --> 00:33:28,139

called the the archivist at the Marshall

718

00:33:34,009 --> 00:33:31,110

archives General George Marshall I said

719

00:33:37,999 --> 00:33:34,019

can you think of any reason why this

720

00:33:39,980 --> 00:33:38,009

particular general should be connected

721

00:33:44,299 --> 00:33:39,990

with mj-12 because it said that in one

722

00:33:47,600 --> 00:33:44,309

of the documents and he said no I he

723

00:33:51,470 --> 00:33:47,610

doesn't belong there are why don't you

724

00:33:53,779 --> 00:33:51,480

read his book Oh what book he gave me

725

00:33:55,610 --> 00:33:53,789

the title and I called the University

726

00:33:58,460 --> 00:33:55,620

Library over here which I use quite a

727

00:34:02,210 --> 00:33:58,470

lot and they had the book I went over

728

00:34:05,840 --> 00:34:02,220

and got it took it out and there were

729

00:34:09,139 --> 00:34:05,850

three documents that had been copied

730

00:34:12,859 --> 00:34:09,149

basically retyped it to some extent but

731

00:34:14,899 --> 00:34:12,869

with exact language and where the

732

00:34:17,570 --> 00:34:14,909

signatures the handwritten stuff fit

733

00:34:21,859 --> 00:34:17,580

right on top of it these were clearly

734

00:34:23,570 --> 00:34:21,869

what I call emulations made to look as

735

00:34:26,300 --> 00:34:23,580

if they were something that they weren't

736

00:34:29,240 --> 00:34:26,310

so it was very handy to find these

737

00:34:31,490 --> 00:34:29,250

documents and to have the university

738

00:34:33,290 --> 00:34:31,500

there and that gave me a clue as to how

739

00:34:38,690 --> 00:34:33,300

they were being faked and so I found

740

00:34:41,240 --> 00:34:38,700

some other materials it was a hunt for

741

00:34:44,780 --> 00:34:41,250

clues right you know and it was

742

00:34:47,480 --> 00:34:44,790

fascinating and exciting and uh so I

743

00:34:50,480 --> 00:34:47,490

finally got my act together I'm the

744

00:34:52,040 --> 00:34:50,490

grandma moses of the UFO book writers

745

00:34:55,609 --> 00:34:52,050

you know i didn't write books until i

746

00:34:57,650 --> 00:34:55,619

was an old guy now my name is on five of

747

00:34:59,839 --> 00:34:57,660

five of them and I've written four words

748

00:35:05,180 --> 00:34:59,849

for several others people like me to

749

00:35:07,430 --> 00:35:05,190

write four words for well to get paid so

750

00:35:09,620 --> 00:35:07,440

today are you comfortable in the way

751
00:35:12,440 --> 00:35:09,630
that you've I mean you have been staunch

752
00:35:15,620 --> 00:35:12,450
you have you have stood your ground you

753
00:35:19,690 --> 00:35:15,630
feel that you feel is positive today as

754
00:35:22,700 --> 00:35:19,700
you did 15 20 years ago yes uh I do

755
00:35:25,339 --> 00:35:22,710
about these few documents remember I am

756
00:35:27,710 --> 00:35:25,349
NOT saying and people always ask the

757
00:35:30,470 --> 00:35:27,720
wrong questions are those mj-12

758
00:35:32,240 --> 00:35:30,480
documents genuine well you gotta look at

759
00:35:34,040 --> 00:35:32,250
each one right I'm talking about the

760
00:35:37,820 --> 00:35:34,050
foot yeah before that you've always

761
00:35:41,510 --> 00:35:37,830
stood by yes I am satisfied about them

762
00:35:43,670 --> 00:35:41,520
and you know I would love for somebody

763
00:35:45,170 --> 00:35:43,680

else to get a roll of film over here I'd

764

00:35:48,320 --> 00:35:45,180

like to see some more you know but

765

00:35:51,079 --> 00:35:48,330

people forget incidentally that the guy

766

00:35:53,390 --> 00:35:51,089

who is at risk I mean the envelope

767

00:35:55,579 --> 00:35:53,400

didn't have a return to dress on it but

768

00:35:59,329 --> 00:35:55,589

King brought the original roll of film

769

00:36:01,790 --> 00:35:59,339

uh but the guy who sent the envelope is

770

00:36:04,460 --> 00:36:01,800

the guy is at risk is against the law to

771

00:36:05,750 --> 00:36:04,470

release classified information to people

772

00:36:08,450 --> 00:36:05,760

who don't have a clearance and a

773

00:36:11,150 --> 00:36:08,460

need-to-know suck so he couldn't just uh

774

00:36:12,470 --> 00:36:11,160

you know well those guys are all dead

775

00:36:16,010 --> 00:36:12,480

why don't you just tell us what's going

776

00:36:18,470 --> 00:36:16,020

on that's against the law and I get

777

00:36:20,720 --> 00:36:18,480

and by some people I tell them I am NOT

778

00:36:23,240 --> 00:36:20,730

for releasing disclosing everything

779

00:36:24,770 --> 00:36:23,250

about flying saucers because I think

780

00:36:28,160 --> 00:36:24,780

there's some legitimate national

781

00:36:29,930 --> 00:36:28,170

security matters of course I you know

782

00:36:31,400 --> 00:36:29,940

are the Russians and Chinese kind of

783

00:36:33,920 --> 00:36:31,410

release their technical data that

784

00:36:35,870 --> 00:36:33,930

they've lean from any crashed saucers

785

00:36:40,340 --> 00:36:35,880

that they have recovered I don't think

786

00:36:41,990 --> 00:36:40,350

so i can answer that no okay well you

787

00:36:44,780 --> 00:36:42,000

see my point and people give me a hard

788

00:36:49,100 --> 00:36:44,790

time for that exactly exactly all

789

00:36:51,020 --> 00:36:49,110

entitled to know everything no all right

790

00:36:52,940 --> 00:36:51,030

let's change gears let's change gears a

791

00:36:57,110 --> 00:36:52,950

little bit here let's uh let's get a

792

00:36:59,750 --> 00:36:57,120

little little fun john g Fuller's book

793

00:37:02,570 --> 00:36:59,760

the interrupted journey changed my life

794

00:37:03,950 --> 00:37:02,580

now and I'm going to take the time here

795

00:37:07,790 --> 00:37:03,960

I'm gonna give you a 30 second story

796

00:37:09,710 --> 00:37:07,800

really quick well in 1983 I'm a kid I'm

797

00:37:12,260 --> 00:37:09,720

like 21 years old or something's 30

798

00:37:15,290 --> 00:37:12,270

years ago I move into this house in

799

00:37:17,270 --> 00:37:15,300

pasadena it's an empty house and I move

800

00:37:19,310 --> 00:37:17,280

in and I'm walking through this empty

801
00:37:21,470 --> 00:37:19,320
house all the walls painted white fresh

802
00:37:23,540 --> 00:37:21,480
carpet it's there's an i have no

803
00:37:27,200 --> 00:37:23,550
furniture there's nothing in this house

804
00:37:30,350 --> 00:37:27,210
and in one of the bedrooms I find two

805
00:37:34,910 --> 00:37:30,360
paperback books on a bookshelf up on the

806
00:37:37,160 --> 00:37:34,920
top of the closet and one of them was

807
00:37:38,870 --> 00:37:37,170
the interrupted journey now I did it I

808
00:37:41,030 --> 00:37:38,880
didn't have it was crazy because I

809
00:37:42,530 --> 00:37:41,040
didn't have a TV I didn't have a radio I

810
00:37:44,750 --> 00:37:42,540
might have had a blanket and a pillow

811
00:37:46,880 --> 00:37:44,760
that that first night you know that I

812
00:37:50,900 --> 00:37:46,890
moved in the house and I started reading

813
00:37:55,430 --> 00:37:50,910

that book and it freaked me out and it

814

00:37:57,200 --> 00:37:55,440

changed my life and and so let's let's

815

00:37:58,880 --> 00:37:57,210

talk about let's start from the

816

00:38:00,650 --> 00:37:58,890

beginning a little bit in case anybody

817

00:38:02,660 --> 00:38:00,660

isn't familiar i know you've got a new

818

00:38:05,120 --> 00:38:02,670

book out about this but Betty and Barney

819

00:38:10,310 --> 00:38:05,130

Hill had claimed to have been abducted

820

00:38:14,330 --> 00:38:10,320

by ETS in it was New Hampshire what 1960

821

00:38:16,100 --> 00:38:14,340

1961 5161 take take us through the

822

00:38:18,860 --> 00:38:16,110

events of that evening really really

823

00:38:20,720 --> 00:38:18,870

quickly the abridged version they were

824

00:38:22,630 --> 00:38:20,730

coming back to their home in portsmouth

825

00:38:25,310 --> 00:38:22,640

new hampshire which is done on the coast

826

00:38:29,180 --> 00:38:25,320

from canada they've taken sort of

827

00:38:29,900 --> 00:38:29,190

adelaide sort of like a vacation sort of

828

00:38:31,789 --> 00:38:29,910

a delayed

829

00:38:33,740 --> 00:38:31,799

moon kind of thing and they were going

830

00:38:35,660 --> 00:38:33,750

to stay overnight up in northern New

831

00:38:38,240 --> 00:38:35,670

Hampshire except that they heard on the

832

00:38:39,920 --> 00:38:38,250

radio that a hurricane was hitting Tory

833

00:38:41,930 --> 00:38:39,930

New Hampshire and they didn't want to be

834

00:38:43,670 --> 00:38:41,940

out on the road with a hurricane and and

835

00:38:45,589 --> 00:38:43,680

incidentally and I think this has

836

00:38:48,289 --> 00:38:45,599

something to do with the story for me

837

00:38:51,049 --> 00:38:48,299

but a bi-racial couple for back then

838

00:38:54,950 --> 00:38:51,059

extraordinary circumstances yes and

839

00:38:57,890 --> 00:38:54,960

betty was a social work for the state of

840

00:38:59,690 --> 00:38:57,900

New Hampshire and Barney worked for the

841

00:39:01,420 --> 00:38:59,700

post office was on the governor Civil

842

00:39:05,990 --> 00:39:01,430

Rights Commission these are very

843

00:39:08,120 --> 00:39:06,000

respectable people are and they're

844

00:39:10,569 --> 00:39:08,130

coming home it's late at night nobody

845

00:39:13,130 --> 00:39:10,579

around Betty spots of light in the sky

846

00:39:14,870 --> 00:39:13,140

tells Barney she's watching a UFO and he

847

00:39:17,779 --> 00:39:14,880

says out Betty it's not it was probably

848

00:39:21,260 --> 00:39:17,789

a Piper Cub looking over there over the

849

00:39:24,710 --> 00:39:21,270

mountains and not many people around I'm

850

00:39:27,410 --> 00:39:24,720

sure on those roads and they see it go

851
00:39:29,210 --> 00:39:27,420
in front of the moon I get a kick out of

852
00:39:31,190 --> 00:39:29,220
somebody saying oh it's just Jupiter

853
00:39:34,819 --> 00:39:31,200
yeah Jupiter always goes in front of the

854
00:39:37,190 --> 00:39:34,829
moon you know they see it go near the

855
00:39:39,529 --> 00:39:37,200
old man of the mountain which dropped

856
00:39:41,900 --> 00:39:39,539
into the lake later but as a geological

857
00:39:43,640 --> 00:39:41,910
formation that looked like the abandoned

858
00:39:46,150 --> 00:39:43,650
that's about 48 feet high and I said it

859
00:39:48,289 --> 00:39:46,160
was one and a half times that height

860
00:39:51,230 --> 00:39:48,299
that doesn't sound like Jupiter either

861
00:39:52,849 --> 00:39:51,240
obviously it comes closer now they're

862
00:39:54,769 --> 00:39:52,859
beginning to get a little concerned my

863
00:39:59,029 --> 00:39:54,779

stops the car in the middle of the road

864

00:40:01,370 --> 00:39:59,039

nobody around and casados binoculars and

865

00:40:03,529 --> 00:40:01,380

sees this round front of pancake shaped

866

00:40:06,170 --> 00:40:03,539

object if you will with the robe windows

867

00:40:07,700 --> 00:40:06,180

around the middle and with the

868

00:40:10,069 --> 00:40:07,710

binoculars you can see inside the

869

00:40:12,710 --> 00:40:10,079

windows and there's a bunch of beings

870

00:40:15,079 --> 00:40:12,720

there which they women and stuff like

871

00:40:18,019 --> 00:40:15,089

that right and and so but at the time

872

00:40:20,059 --> 00:40:18,029

that that's what happened but they

873

00:40:22,220 --> 00:40:20,069

didn't all of this was recalled later

874

00:40:25,250 --> 00:40:22,230

right so they're 12 nothing hard about

875

00:40:27,529 --> 00:40:25,260

but they remembered seeing the the but

876

00:40:30,519 --> 00:40:27,539

the bodies the beings inside behind the

877

00:40:36,500 --> 00:40:30,529

windows but then there were strange

878

00:40:38,000 --> 00:40:36,510

noises on the car and that they was

879

00:40:39,980 --> 00:40:38,010

strange they drove away they did two

880

00:40:42,230 --> 00:40:39,990

things that they would ye would never

881

00:40:43,520 --> 00:40:42,240

done gone from a primary road to a

882

00:40:45,880 --> 00:40:43,530

secondary road than to a

883

00:40:48,170 --> 00:40:45,890

sherry road and then there's a fade-out

884

00:40:50,000 --> 00:40:48,180

noises again in the car and I get home

885

00:40:52,250 --> 00:40:50,010

and I got home two hours later than they

886

00:40:54,200 --> 00:40:52,260

should have gotten home which was quite

887

00:40:56,240 --> 00:40:54,210

a mystery and Barney's shoes were

888

00:40:59,150 --> 00:40:56,250

scuffed and he was a meticulous dresser

889

00:41:04,540 --> 00:40:59,160

that was crazy and Betty's dress was

890

00:41:09,800 --> 00:41:04,550

torn renault dress strange anyway uh

891

00:41:12,380 --> 00:41:09,810

Betty called her sister who's the mother

892

00:41:15,140 --> 00:41:12,390

of the co-author of the book Kathleen

893

00:41:16,880 --> 00:41:15,150

Martin's mother and Kathleen was in the

894

00:41:18,560 --> 00:41:16,890

room when this call came through and

895

00:41:20,090 --> 00:41:18,570

talking about seeing the UFO nothing

896

00:41:22,940 --> 00:41:20,100

about being abducted could she know

897

00:41:25,550 --> 00:41:22,950

about me but they had some health

898

00:41:27,860 --> 00:41:25,560

problems why they develop ulcers and the

899

00:41:29,480 --> 00:41:27,870

doctors after awhile says funny there's

900

00:41:30,380 --> 00:41:29,490

nothing more I can do for you I think

901

00:41:32,750 --> 00:41:30,390

you really ought to see this

902

00:41:36,530 --> 00:41:32,760

psychiatrist people thought resolve

903

00:41:38,420 --> 00:41:36,540

stress with ulcers you know which we now

904

00:41:41,690 --> 00:41:38,430

know isn't completely true at all but

905

00:41:44,240 --> 00:41:41,700

anyway doctor they the most fortunate

906

00:41:45,680 --> 00:41:44,250

thing about the store is the doctor that

907

00:41:47,660 --> 00:41:45,690

they were recommended to was dr.

908

00:41:51,380 --> 00:41:47,670

Benjamin Simon a psychiatrist from

909

00:41:53,570 --> 00:41:51,390

Harvard background and the world expert

910

00:41:56,990 --> 00:41:53,580

on what was then called shell-shocked

911

00:41:58,610 --> 00:41:57,000

War veterans now we'd say PTSD when I

912

00:42:00,800 --> 00:41:58,620

say world-class expert here in a

913

00:42:02,810 --> 00:42:00,810

hospital that had three thousand beds

914

00:42:06,050 --> 00:42:02,820

for such guys coming out of World War

915

00:42:09,650 --> 00:42:06,060

two the army made a movie let there be

916

00:42:12,590 --> 00:42:09,660

light starring dr. Simon explaining how

917

00:42:14,120 --> 00:42:12,600

he brought people back to be among the

918

00:42:16,640 --> 00:42:14,130

living so to speak you know your buddy's

919

00:42:20,180 --> 00:42:16,650

head gets blown off next to you and he

920

00:42:21,440 --> 00:42:20,190

handle that you know not easy so dr.

921

00:42:24,530 --> 00:42:21,450

Simon didn't know a darn thing about

922

00:42:27,440 --> 00:42:24,540

flying saucers but he knew a great deal

923

00:42:29,840 --> 00:42:27,450

about helping people get over missing

924

00:42:31,970 --> 00:42:29,850

time traumatic experiences whatever you

925

00:42:33,650 --> 00:42:31,980

want to call it and he said the

926

00:42:37,820 --> 00:42:33,660

emotional intensity did ten sessions

927

00:42:39,800 --> 00:42:37,830

each Betty and Barney separately now so

928

00:42:41,030 --> 00:42:39,810

they couldn't tell an induced amnesia at

929

00:42:42,620 --> 00:42:41,040

the end of each sessions they couldn't

930

00:42:45,710 --> 00:42:42,630

tell the other one what went on right

931

00:42:47,420 --> 00:42:45,720

and he had to stop one session each

932

00:42:51,290 --> 00:42:47,430

because he didn't think they could

933

00:42:55,190 --> 00:42:51,300

handle it the terror and Kathleen is

934

00:42:56,819 --> 00:42:55,200

made available at tapes of copies of

935

00:42:59,160 --> 00:42:56,829

those tapes

936

00:43:02,670 --> 00:42:59,170

dr. Simon in writing said that the

937

00:43:05,489 --> 00:43:02,680

emotional intensity with every bit as

938

00:43:07,890 --> 00:43:05,499

great as it was for the shell shock War

939

00:43:10,769 --> 00:43:07,900

veterans they worked coming from him

940

00:43:12,870 --> 00:43:10,779

exactly that means a great deal you know

941

00:43:16,469 --> 00:43:12,880

it's not a parlor hypnotist kind of

942

00:43:20,519 --> 00:43:16,479

thing and so a recognized world-class

943

00:43:22,940 --> 00:43:20,529

expert and under hypnosis comes the

944

00:43:25,380 --> 00:43:22,950

story that they were abducted on board

945

00:43:27,329 --> 00:43:25,390

treated as specimens in separate rooms

946

00:43:30,150 --> 00:43:27,339

stick a needle here scrape some skin

947

00:43:31,979 --> 00:43:30,160

there can lock of skin here and all the

948

00:43:34,949 --> 00:43:31,989

details are in the book one of the

949

00:43:37,769 --> 00:43:34,959

strangest things was that Betty under

950

00:43:41,130 --> 00:43:37,779

hypnosis is she's trying to get the

951
00:43:43,529 --> 00:43:41,140
leader makes it has a great line I know

952
00:43:46,650 --> 00:43:43,539
you're not from around here where are

953
00:43:49,440 --> 00:43:46,660
you from you know understatement of the

954
00:43:51,029 --> 00:43:49,450
years right and he shows her what I can

955
00:43:54,089 --> 00:43:51,039
only describe as a three-dimensional

956
00:43:57,410 --> 00:43:54,099
model maybe a hologram three feet by

957
00:44:01,019 --> 00:43:57,420
three feet by two feet a bunch of stars

958
00:44:02,969 --> 00:44:01,029
supposedly based stars and trade routes

959
00:44:05,640 --> 00:44:02,979
and occasional expeditions and Betty's

960
00:44:07,529 --> 00:44:05,650
looking at this thing and I can imagine

961
00:44:11,059 --> 00:44:07,539
what was going in dr. Simon said what

962
00:44:14,219 --> 00:44:11,069
else well because because at that time

963
00:44:16,559 --> 00:44:14,229

nobody had heard of an abduction you

964

00:44:18,449 --> 00:44:16,569

know so this doctor is never modeled for

965

00:44:20,279 --> 00:44:18,459

that there was no model for any of this

966

00:44:21,599 --> 00:44:20,289

so he probably doesn't know how to deal

967

00:44:23,759 --> 00:44:21,609

with it but he's hearing this for the

968

00:44:26,729 --> 00:44:23,769

first time should be writing it down for

969

00:44:29,880 --> 00:44:26,739

his book that he but anyway he taped all

970

00:44:32,999 --> 00:44:29,890

the session again to his credit after

971

00:44:35,759 --> 00:44:33,009

Betty describes this star map she sees

972

00:44:37,589 --> 00:44:35,769

and when she has some were you on a map

973

00:44:39,630 --> 00:44:37,599

the wise guy says you know where you are

974

00:44:41,400 --> 00:44:39,640

no I don't know anything about astronomy

975

00:44:42,449 --> 00:44:41,410

how can I tell you around problem if you

976

00:44:45,930 --> 00:44:42,459

don't know where you're at end of

977

00:44:48,089 --> 00:44:45,940

discussion well dr. Simon asks but if

978

00:44:50,400 --> 00:44:48,099

she can remember what this map looked

979

00:44:53,249 --> 00:44:50,410

like she said yes she's got good had

980

00:44:55,559 --> 00:44:53,259

good 3d memory and he gave her a

981

00:44:57,420 --> 00:44:55,569

posthypnotic suggestion if and only if

982

00:45:00,539 --> 00:44:57,430

you can remember it accurately please

983

00:45:03,870 --> 00:45:00,549

draw it later on she went home she drew

984

00:45:06,390 --> 00:45:03,880

it brought it in next time it's in the

985

00:45:07,799 --> 00:45:06,400

book okay stop stop stop right there I

986

00:45:10,380 --> 00:45:07,809

need everybody to understand exactly

987

00:45:15,000 --> 00:45:10,390

well what year did she draw the star map

988

00:45:17,069 --> 00:45:15,010

what year I would have been early 64

989

00:45:19,589 --> 00:45:17,079

early 64 and you know where I'm going

990

00:45:21,769 --> 00:45:19,599

with this with 1969 so we'll visit that

991

00:45:25,730 --> 00:45:21,779

in a second but she draws this star map

992

00:45:29,370 --> 00:45:25,740

from a 3d visual that she got from her

993

00:45:32,250 --> 00:45:29,380

you know her captive or whatever abduct

994

00:45:34,859 --> 00:45:32,260

her she draws the star map and she

995

00:45:36,779 --> 00:45:34,869

remembers that she draws it now this to

996

00:45:38,309 --> 00:45:36,789

me this star map and we're going to get

997

00:45:40,819 --> 00:45:38,319

we're gonna spend some time on this but

998

00:45:43,380 --> 00:45:40,829

this is this was a real game-changer and

999

00:45:46,529 --> 00:45:43,390

not only for me when I found out when

1000

00:45:49,160 --> 00:45:46,539

the book came out no no no exactly but

1001

00:45:53,460 --> 00:45:49,170

because the book the book came out in 66

1002

00:45:55,950 --> 00:45:53,470

so um she draws this star map and then

1003

00:45:58,799 --> 00:45:55,960

what you want to jump ahead and talk

1004

00:46:03,089 --> 00:45:58,809

about Marjorie fish now well yeah I a

1005

00:46:05,940 --> 00:46:03,099

woman a schoolteacher in Ohio read the

1006

00:46:08,339 --> 00:46:05,950

book had studied a member of mensa very

1007

00:46:10,890 --> 00:46:08,349

bright gal gal me Marjorie fish she'd

1008

00:46:14,099 --> 00:46:10,900

studied astronomy and biology and so

1009

00:46:15,480 --> 00:46:14,109

forth and she wondered if there's

1010

00:46:18,809 --> 00:46:15,490

anything she could do and she actually

1011

00:46:21,329 --> 00:46:18,819

visited city in New Hampshire from Ohio

1012

00:46:22,680 --> 00:46:21,339

to get more information about it then

1013

00:46:25,650 --> 00:46:22,690

she did something nobody else had ever

1014

00:46:28,140 --> 00:46:25,660

done she wound up building more than

1015

00:46:31,079 --> 00:46:28,150

twenty three dimensional models of our

1016

00:46:34,710 --> 00:46:31,089

local neighborhood little beads on fish

1017

00:46:35,839 --> 00:46:34,720

line actually on a frame and the hard

1018

00:46:38,039 --> 00:46:35,849

part is to get them in the right

1019

00:46:40,620 --> 00:46:38,049

three-dimensional location I've seen

1020

00:46:44,759 --> 00:46:40,630

photographs of it of her model it's

1021

00:46:46,289 --> 00:46:44,769

insane well she thought she hopefully

1022

00:46:47,370 --> 00:46:46,299

could find a three dimensional pattern

1023

00:46:49,680 --> 00:46:47,380

that matched the two dimensional

1024

00:46:52,529 --> 00:46:49,690

drawings he said to have the distances

1025

00:46:54,150 --> 00:46:52,539

right and we had lousy values for the

1026
00:46:56,519 --> 00:46:54,160
distances astronomers weren't going

1027
00:46:57,900 --> 00:46:56,529
anywhere you needed two angles to see

1028
00:46:59,789 --> 00:46:57,910
his particular start didn't matter

1029
00:47:01,499 --> 00:46:59,799
whether it was 20 light years or 40

1030
00:47:03,749 --> 00:47:01,509
light years but it does if you're trying

1031
00:47:07,230 --> 00:47:03,759
to figure out on the 3d basis you see

1032
00:47:09,200 --> 00:47:07,240
and Marjorie I got a call from a pro the

1033
00:47:11,910 --> 00:47:09,210
aerial phenomena research organization

1034
00:47:14,130 --> 00:47:11,920
because Marjorie had asked them if they

1035
00:47:17,910 --> 00:47:14,140
knew anybody a scientist who could help

1036
00:47:19,529 --> 00:47:17,920
her and they thought of me and because i

1037
00:47:21,900 --> 00:47:19,539
was traveling a lot i went to visit

1038
00:47:23,970 --> 00:47:21,910

Marjorie i had conversations with her i

1039

00:47:25,560 --> 00:47:23,980

was with her in Chicago

1040

00:47:27,960 --> 00:47:25,570

she showed one of the models to dr.

1041

00:47:30,450 --> 00:47:27,970

Hynek i was at am you find conference

1042

00:47:33,450 --> 00:47:30,460

where she gave a paper and i published

1043

00:47:36,270 --> 00:47:33,460

the first article about her work and

1044

00:47:37,950 --> 00:47:36,280

what's remarkable she's one of most

1045

00:47:42,870 --> 00:47:37,960

objective people I ever met you just

1046

00:47:45,180 --> 00:47:42,880

died last April incidentally and in my

1047

00:47:47,130 --> 00:47:45,190

movie UFOs real there's a statement from

1048

00:47:49,410 --> 00:47:47,140

the head of the Astronomy Department and

1049

00:47:51,630 --> 00:47:49,420

Ohio State University saying how

1050

00:47:55,050 --> 00:47:51,640

accurate her work was as students looked

1051
00:47:57,510 --> 00:47:55,060
at used her models as teaching tools and

1052
00:48:02,400 --> 00:47:57,520
the bottom line is she was able to

1053
00:48:05,099 --> 00:48:02,410
identify the base stars all the stars in

1054
00:48:07,530 --> 00:48:05,109
the model but the important thing is so

1055
00:48:11,130 --> 00:48:07,540
okay these big stars that look as big as

1056
00:48:13,950 --> 00:48:11,140
a nickel she Betty said Zeta 1 and Zeta

1057
00:48:16,560 --> 00:48:13,960
2 Reticuli that's the constellation of

1058
00:48:19,290 --> 00:48:16,570
reticulum and normally people say well

1059
00:48:22,290 --> 00:48:19,300
who cares what's special about them well

1060
00:48:25,320 --> 00:48:22,300
as it turns out we didn't know it before

1061
00:48:28,470 --> 00:48:25,330
him they're the closest to each other

1062
00:48:32,430 --> 00:48:28,480
pair of sun-like stars in our entire

1063
00:48:35,099 --> 00:48:32,440

local neighborhood here you're only 39

1064

00:48:36,570 --> 00:48:35,109

now we know they're 39.3 light-years

1065

00:48:39,060 --> 00:48:36,580

away now we have much better data

1066

00:48:42,030 --> 00:48:39,070

because we used the hipparcos satellite

1067

00:48:43,680 --> 00:48:42,040

to measure millions of positions but

1068

00:48:45,599 --> 00:48:43,690

that data wasn't available to many years

1069

00:48:47,700 --> 00:48:45,609

later well and it certainly wasn't

1070

00:48:49,530 --> 00:48:47,710

available to Betty when she drove

1071

00:48:52,500 --> 00:48:49,540

through the original star map and

1072

00:48:54,870 --> 00:48:52,510

exactly and that for everybody you need

1073

00:48:58,790 --> 00:48:54,880

to really wrap your head around that for

1074

00:49:03,780 --> 00:48:58,800

a second she drew the star map in

1075

00:49:07,320 --> 00:49:03,790

1964-65 correct in 64 this information

1076

00:49:11,010 --> 00:49:07,330

wasn't firmly confirmed for anybody

1077

00:49:13,880 --> 00:49:11,020

until nineteen sixty-nine Marjorie fish

1078

00:49:17,280 --> 00:49:13,890

started putting her star map together in

1079

00:49:20,700 --> 00:49:17,290

1968 and for all of this to have

1080

00:49:22,170 --> 00:49:20,710

happened it just I I can't like I said I

1081

00:49:24,420 --> 00:49:22,180

just can't wrap my head around it just

1082

00:49:25,980 --> 00:49:24,430

like you've got to be kidding me it's

1083

00:49:27,570 --> 00:49:25,990

it's what it's the one thing about the

1084

00:49:30,570 --> 00:49:27,580

Betty and Barney Hill story that I think

1085

00:49:32,820 --> 00:49:30,580

just adds adds to the credibility of

1086

00:49:35,250 --> 00:49:32,830

well let me finish the specialness about

1087

00:49:36,849 --> 00:49:35,260

these two stars you go Stan you go you

1088

00:49:39,249 --> 00:49:36,859

go stand

1089

00:49:41,170 --> 00:49:39,259

the closest to each other pair of

1090

00:49:43,479 --> 00:49:41,180

sun-like stars in our entire local

1091

00:49:47,589 --> 00:49:43,489

neighborhood the Sun from the next star

1092

00:49:49,839 --> 00:49:47,599

is 4.3 light years these two stars from

1093

00:49:51,400 --> 00:49:49,849

each other only 39.3 light-years from

1094

00:49:53,529 --> 00:49:51,410

here which is just down the street the

1095

00:49:55,079 --> 00:49:53,539

galaxy's 100,000 light years across so

1096

00:49:58,450 --> 00:49:55,089

you know this is right down the street

1097

00:50:01,479 --> 00:49:58,460

these two stars are only an eighth of

1098

00:50:04,269 --> 00:50:01,489

the light year apart they're 30 times

1099

00:50:05,499 --> 00:50:04,279

closer to each other than the Sun is to

1100

00:50:07,239 --> 00:50:05,509

the next star over we're out in the

1101
00:50:10,870 --> 00:50:07,249
boonies these guys got next-door

1102
00:50:14,170 --> 00:50:10,880
neighbors and there are cool billion

1103
00:50:16,180 --> 00:50:14,180
years older than the Sun and from a

1104
00:50:18,880 --> 00:50:16,190
planet around one looking at the other

1105
00:50:21,729 --> 00:50:18,890
stars visible all day long mind you

1106
00:50:25,569 --> 00:50:21,739
right and you could easily determine if

1107
00:50:27,670 --> 00:50:25,579
they put their Kepler up you know a

1108
00:50:30,579 --> 00:50:27,680
million years ago they know where what

1109
00:50:33,339 --> 00:50:30,589
else is around that's one of the strange

1110
00:50:35,589 --> 00:50:33,349
things that the debunkers don't think

1111
00:50:38,109 --> 00:50:35,599
that anybody out there is ahead of us

1112
00:50:39,759 --> 00:50:38,119
from and what are they you know

1113
00:50:41,229 --> 00:50:39,769

seriously I don't think anybody has ever

1114

00:50:45,279 --> 00:50:41,239

done this but what what are the

1115

00:50:47,979 --> 00:50:45,289

mathematical odds of of Marjorie

1116

00:50:51,009 --> 00:50:47,989

figuring this out from the original star

1117

00:50:54,579 --> 00:50:51,019

map to have it line up using she used

1118

00:50:57,579 --> 00:50:54,589

our son right yeah exactly so for it to

1119

00:51:00,489 --> 00:50:57,589

like what what are the odds very very

1120

00:51:02,170 --> 00:51:00,499

small is the best I can say as I say in

1121

00:51:04,630 --> 00:51:02,180

my movie you can hear the comments from

1122

00:51:07,809 --> 00:51:04,640

the head of the Astronomy Department at

1123

00:51:10,420 --> 00:51:07,819

Ohio State University I believe it or

1124

00:51:13,239 --> 00:51:10,430

not she couldn't take out the star

1125

00:51:18,640 --> 00:51:13,249

catalogues she had to get the his

1126

00:51:21,249 --> 00:51:18,650

permission to copy numbers out of crazy

1127

00:51:24,640 --> 00:51:21,259

and as I was very pleased i published

1128

00:51:27,400 --> 00:51:24,650

the first article in saga magazine

1129

00:51:31,319 --> 00:51:27,410

everybody's favorite old oh yeah there

1130

00:51:34,960 --> 00:51:31,329

you go but what's interesting is that in

1131

00:51:36,729 --> 00:51:34,970

Kathleen Mardan her niece and my book

1132

00:51:39,309 --> 00:51:36,739

captured and Kathy did eighty-five

1133

00:51:41,200 --> 00:51:39,319

percent of the work uh have a whole

1134

00:51:43,930 --> 00:51:41,210

chapter on it and the objections of the

1135

00:51:45,549 --> 00:51:43,940

model and all that sort of stuff none of

1136

00:51:48,819 --> 00:51:45,559

that of course was in the interrupted

1137

00:51:50,050 --> 00:51:48,829

journey there was a map and what do you

1138

00:51:54,530 --> 00:51:50,060

make of this we don't know

1139

00:51:57,590 --> 00:51:54,540

well I was able to include all the stuff

1140

00:52:00,320 --> 00:51:57,600

that's been done and I got astronomy

1141

00:52:02,270 --> 00:52:00,330

magazine because of my saga magazine

1142

00:52:04,700 --> 00:52:02,280

article i got the editor of astronomy

1143

00:52:05,930 --> 00:52:04,710

publish an article and they're got more

1144

00:52:08,060 --> 00:52:05,940

response than anything they'd ever

1145

00:52:09,950 --> 00:52:08,070

published they published letters for

1146

00:52:12,620 --> 00:52:09,960

like 11 straight issues and they put out

1147

00:52:16,130 --> 00:52:12,630

a 32-page full color booklet with zaida

1148

00:52:18,200 --> 00:52:16,140

Reticuli incident they sold 10,000

1149

00:52:21,350 --> 00:52:18,210

copies in no time flight that's unheard

1150

00:52:23,060 --> 00:52:21,360

of for this kind of exactly and then

1151
00:52:24,290 --> 00:52:23,070
Carl Sagan's lawyer at threatens to sue

1152
00:52:25,550 --> 00:52:24,300
them because his name was on the

1153
00:52:29,420 --> 00:52:25,560
practice he's one of the people who

1154
00:52:31,280 --> 00:52:29,430
responded and it turns out the publisher

1155
00:52:33,980 --> 00:52:31,290
had a brain tumor and died less than six

1156
00:52:36,070 --> 00:52:33,990
months later but he caved in to them and

1157
00:52:39,680 --> 00:52:36,080
they made me an offer I couldn't refuse

1158
00:52:41,660 --> 00:52:39,690
because I was instigated the article and

1159
00:52:43,880 --> 00:52:41,670
I want it with 18 thousand copies of

1160
00:52:47,510 --> 00:52:43,890
this 32-page full color booklet in my

1161
00:52:49,490 --> 00:52:47,520
garage in California but I got rid of

1162
00:52:51,980 --> 00:52:49,500
them all I moved many of them here to

1163
00:52:53,570 --> 00:52:51,990

Fredericton New Brunswick and if I had

1164

00:52:55,430 --> 00:52:53,580

another fifteen thousand or eighteen

1165

00:52:58,040 --> 00:52:55,440

thousand i could sell them to i think i

1166

00:53:01,550 --> 00:52:58,050

would prove the interest you know that

1167

00:53:06,950 --> 00:53:01,560

that's the point and very exciting work

1168

00:53:09,140 --> 00:53:06,960

and because of Kepler now suddenly our

1169

00:53:11,270 --> 00:53:09,150

old position of we're at the top of the

1170

00:53:15,190 --> 00:53:11,280

heap cuz we up the only products in the

1171

00:53:18,050 --> 00:53:15,200

universe right no wrong it's exactly

1172

00:53:22,130 --> 00:53:18,060

right now the best estimates based on

1173

00:53:25,160 --> 00:53:22,140

the cover data are that is about a

1174

00:53:27,170 --> 00:53:25,170

planet per star some have five star and

1175

00:53:31,310 --> 00:53:27,180

five planets and some at none but

1176

00:53:33,980 --> 00:53:31,320

overall so in our galaxy with a couple

1177

00:53:38,780 --> 00:53:33,990

hundred billion stars we got a few

1178

00:53:41,210 --> 00:53:38,790

billion at least planets instead of ours

1179

00:53:45,620 --> 00:53:41,220

you know the city people used to say

1180

00:53:48,110 --> 00:53:45,630

that there might be as many as 8,000

1181

00:53:51,380 --> 00:53:48,120

places I could send a signal a better

1182

00:53:53,960 --> 00:53:51,390

number today would be eight billion why

1183

00:53:56,150 --> 00:53:53,970

and I have trouble with SETI as you know

1184

00:53:57,860 --> 00:53:56,160

like say it stands for silly effort to

1185

00:54:00,530 --> 00:53:57,870

investigate rather than search for

1186

00:54:03,240 --> 00:54:00,540

extraterrestrial intelligence but for

1187

00:54:05,730 --> 00:54:03,250

good reason uh

1188

00:54:07,590 --> 00:54:05,740

astronomers who attack UFOs don't do

1189

00:54:10,050 --> 00:54:07,600

their homework they don't read the site

1190

00:54:12,420 --> 00:54:10,060

five large scale scientific studies that

1191

00:54:16,080 --> 00:54:12,430

I talked about they don't know anything

1192

00:54:18,680 --> 00:54:16,090

about national security dr. Tyson of the

1193

00:54:21,090 --> 00:54:18,690

Hayden Planetarium has stated publicly

1194

00:54:23,040 --> 00:54:21,100

the proof that the government can't keep

1195

00:54:26,130 --> 00:54:23,050

secrets is how much we know about

1196

00:54:28,080 --> 00:54:26,140

President Clinton's genitalia funny

1197

00:54:33,870 --> 00:54:28,090

remarks which has nothing to do with the

1198

00:54:37,530 --> 00:54:33,880

NSA NSA CIA CIA etc etc they also know

1199

00:54:40,530 --> 00:54:37,540

nothing about a technology interstellar

1200

00:54:42,930 --> 00:54:40,540

travel dr. Tyson himself once dated a

1201
00:54:45,420 --> 00:54:42,940
program that I was on to where they're

1202
00:54:50,160 --> 00:54:45,430
at the same time Peter Jennings special

1203
00:54:51,900 --> 00:54:50,170
in 2005 that our fastest craft would get

1204
00:54:53,520 --> 00:54:51,910
to the nearest star if it was heading in

1205
00:54:54,870 --> 00:54:53,530
the right direction in seventy thousand

1206
00:54:57,210 --> 00:54:54,880
years and that's not fast enough

1207
00:54:58,860 --> 00:54:57,220
scientists of course he didn't bother to

1208
00:55:02,640 --> 00:54:58,870
mention it doesn't have a propulsion

1209
00:55:04,470 --> 00:55:02,650
system on right throw a bottle in the

1210
00:55:07,380 --> 00:55:04,480
noise I can I tell you how long it takes

1211
00:55:10,350 --> 00:55:07,390
across the ocean I don't know exactly

1212
00:55:12,930 --> 00:55:10,360
exactly well we're update we're up

1213
00:55:14,850 --> 00:55:12,940

against we're at the top of the hour and

1214

00:55:16,770 --> 00:55:14,860

I don't want to cut you off but I will

1215

00:55:19,020 --> 00:55:16,780

say this will you come back on the show

1216

00:55:22,440 --> 00:55:19,030

when we have some more time yes and

1217

00:55:25,080 --> 00:55:22,450

don't forget my my website no we r dot

1218

00:55:27,900 --> 00:55:25,090

dot fantin Friedman calm all of that

1219

00:55:29,520 --> 00:55:27,910

will be up on our website everybody can

1220

00:55:31,800 --> 00:55:29,530

go you can go over and check that out

1221

00:55:34,470 --> 00:55:31,810

but I wanted to jump in and just say

1222

00:55:38,430 --> 00:55:34,480

really quick coming up next we're going

1223

00:55:41,130 --> 00:55:38,440

to have norio Hayek a lion and he now I

1224

00:55:44,040 --> 00:55:41,140

don't wanna I don't want to say anything

1225

00:55:46,020 --> 00:55:44,050

at all here that's another conversation

1226

00:55:48,330 --> 00:55:46,030

for norio and I to have it in a few

1227

00:55:51,240 --> 00:55:48,340

minutes but you did a lot of

1228

00:55:55,560 --> 00:55:51,250

investigating into bob lazar yet rigor

1229

00:55:57,270 --> 00:55:55,570

and with everything we don't have enough

1230

00:55:58,650 --> 00:55:57,280

time to go into all of it and again I

1231

00:56:01,620 --> 00:55:58,660

would love to have you back on to talk

1232

00:56:03,990 --> 00:56:01,630

about it but it when all the cards were

1233

00:56:06,630 --> 00:56:04,000

dealt how did you feel about Bob in the

1234

00:56:08,640 --> 00:56:06,640

end a very bright guy who's not telling

1235

00:56:10,620 --> 00:56:08,650

the truth about himself or about his

1236

00:56:13,320 --> 00:56:10,630

experiences he claims he has degrees

1237

00:56:15,420 --> 00:56:13,330

from MIT and Caltech neither one ever

1238

00:56:16,920 --> 00:56:15,430

heard of them well he did go to peers

1239

00:56:21,839 --> 00:56:16,930

down the street for my house

1240

00:56:25,290 --> 00:56:21,849

two perfectly fine school I've and his

1241

00:56:27,630 --> 00:56:25,300

gross michalka yes it'll actually no no

1242

00:56:30,240 --> 00:56:27,640

but you will he does tell a good story

1243

00:56:32,640 --> 00:56:30,250

you know yeah it does tell a good story

1244

00:56:35,339 --> 00:56:32,650

and I'm there's an article on my website

1245

00:56:38,400 --> 00:56:35,349

I guess and I've done something about

1246

00:56:41,010 --> 00:56:38,410

fraud and ufology and stuff I say

1247

00:56:44,640 --> 00:56:41,020

they're very bright guy but he is not a

1248

00:56:46,680 --> 00:56:44,650

scientist we were supposed to meet a

1249

00:56:50,069 --> 00:56:46,690

couple of times and somehow he backed

1250

00:56:54,780 --> 00:56:50,079

out when I was in Las Vegas through

1251
00:56:56,579 --> 00:56:54,790
George Knapp outstanding journalists

1252
00:56:59,549 --> 00:56:56,589
about me why pose one knows absolutely

1253
00:57:02,190 --> 00:56:59,559
one of the best and so you know it's not

1254
00:57:04,440 --> 00:57:02,200
that I wasn't trying and I got asked

1255
00:57:07,470 --> 00:57:04,450
what it would take to convince me and by

1256
00:57:10,440 --> 00:57:07,480
a buddy of his and I said oh a resume a

1257
00:57:13,349 --> 00:57:10,450
list of his papers you know copies of

1258
00:57:15,960 --> 00:57:13,359
his diplomas maybe stuff like that and i

1259
00:57:18,870 --> 00:57:15,970
sent him a whole batch of stuff i never

1260
