1
00:00:06,590 --> 00:00:04,610
on the Dark Matter radio network hi this

2
00:00:13,390 --> 00:00:06,600
is Rob Reiner from anvil and you're

3
00:00:13,400 --> 00:00:27,080
Church radio

4
00:00:33,800 --> 00:00:30,290
all right we're back this is fade to

5
00:00:36,799 --> 00:00:33,810
black today is Friday December 27 2013

6
00:00:39,049 --> 00:00:36,809
it is just two days after Christmas I

7
00:00:42,080 --> 00:00:39,059
hope everybody had a great holiday so

8
00:00:43,610 --> 00:00:42,090
far we are live from the Jaypee

9
00:00:46,310 --> 00:00:43,620
Motorsports studios right here in

10
00:00:48,110 --> 00:00:46,320
Burbank California for kjc are in the

11
00:00:49,640 --> 00:00:48,120
dark matter radio network I am your host

12
00:00:52,670 --> 00:00:49,650
Jimmy Church and I do want to thank

13
00:00:54,710 --> 00:00:52,680

Robert Salas for coming in his time is

14

00:00:56,390 --> 00:00:54,720

precious and just let me say he doesn't

15

00:01:00,500 --> 00:00:56,400

do that

16

00:01:02,569 --> 00:01:00,510

what we just did often if ever and it

17

00:01:04,850 --> 00:01:02,579

was a it was a coup d'etat to get him in

18

00:01:08,240 --> 00:01:04,860

here and I really appreciate his time

19

00:01:10,120 --> 00:01:08,250

it's a fantastic story you can follow us

20

00:01:12,530 --> 00:01:10,130

on Twitter or Facebook YouTube

21

00:01:13,130 --> 00:01:12,540

everything is fade to black fade to

22

00:01:18,830 --> 00:01:13,140

black

23

00:01:22,760 --> 00:01:18,840

the way like our Facebook fan page which

24

00:01:24,529 --> 00:01:22,770

is Jimmy Church radio.com go like us we

25

00:01:25,910 --> 00:01:24,539

keep everything updated over there if

26
00:01:28,430 --> 00:01:25,920
you've got anything you need to say you

27
00:01:30,260 --> 00:01:28,440
can certainly do it there anything

28
00:01:32,180 --> 00:01:30,270
interesting you can post it I will

29
00:01:35,600 --> 00:01:32,190
certainly talk about it you can also

30
00:01:38,240 --> 00:01:35,610
email your thoughts to me personally and

31
00:01:40,609 --> 00:01:38,250
I will get to all of them eventually I

32
00:01:43,699 --> 00:01:40,619
might even write back you can write me a

33
00:01:46,249 --> 00:01:43,709
Jimmy at Jimmy Church radio.com I tried

34
00:01:48,020 --> 00:01:46,259
to read them all and everything has been

35
00:01:51,040 --> 00:01:48,030
positive over the last week and thank

36
00:01:55,130 --> 00:01:51,050
you for that great feedback on the show

37
00:01:57,529 --> 00:01:55,140
okay now bumper music i do want to thank

38
00:01:59,600 --> 00:01:57,539

doug aldrich for that and we won't be

39

00:02:02,150 --> 00:01:59,610

thanking him too much in the future but

40

00:02:06,020 --> 00:02:02,160

it's exciting to hear Doug's music here

41

00:02:09,529 --> 00:02:06,030

on the show okay I want to jump into a

42

00:02:13,990 --> 00:02:09,539

subject that is near and dear to me

43

00:02:19,040 --> 00:02:14,000

which is time travel and specifically

44

00:02:22,550 --> 00:02:19,050

John Titor now last month in November

45

00:02:26,630 --> 00:02:22,560

actually last month was the 13 year

46

00:02:29,240 --> 00:02:26,640

anniversary of his appearance on the

47

00:02:33,470 --> 00:02:29,250

Internet and for all of this

48

00:02:36,679 --> 00:02:33,480

back then it was it was an event now a

49

00:02:39,410 --> 00:02:36,689

few things have happened like that on

50

00:02:41,150 --> 00:02:39,420

the internet stories that proliferated

51
00:02:43,699 --> 00:02:41,160
on the Internet

52
00:02:47,479 --> 00:02:43,709
a few things a few stories have happened

53
00:02:51,619 --> 00:02:47,489
and certainly you know going way back to

54
00:02:55,040 --> 00:02:51,629
the USA computer hoax that was an

55
00:02:57,320 --> 00:02:55,050
incredible and for all of you veterans

56
00:03:01,100 --> 00:02:57,330
out there they just went whoa Jimmy nice

57
00:03:05,449 --> 00:03:01,110
one the USA computer we've got to visit

58
00:03:10,190 --> 00:03:05,459
that story on a future show but John

59
00:03:14,569 --> 00:03:10,200
Titor the way that he appeared back then

60
00:03:17,479 --> 00:03:14,579
and it was in November of 2000 the way

61
00:03:24,100 --> 00:03:17,489
that he appeared back then I was all

62
00:03:26,780 --> 00:03:24,110
over art bells forums back then and

63
00:03:28,910 --> 00:03:26,790

participating and reading and suddenly

64

00:03:32,589 --> 00:03:28,920

this guy shows up his name was time

65

00:03:36,229 --> 00:03:32,599

travel underscore zero time travel zero

66

00:03:39,259 --> 00:03:36,239

starts posting on the internet now on

67

00:03:42,680 --> 00:03:39,269

art bells forms and we thought at the

68

00:03:46,340 --> 00:03:42,690

time everybody that this was his first

69

00:03:49,449 --> 00:03:46,350

appearance and I'll talk about his

70

00:03:53,900 --> 00:03:49,459

actual first appearance and in a bit but

71

00:03:58,099 --> 00:03:53,910

it was a fascinating story and I'm

72

00:04:00,830 --> 00:03:58,109

reading I couldn't wait to sign on and

73

00:04:03,349 --> 00:04:00,840

get over to the forums to see what was

74

00:04:06,379 --> 00:04:03,359

happening next with John Titor okay so

75

00:04:07,960 --> 00:04:06,389

for everybody out there that this story

76

00:04:11,690 --> 00:04:07,970

is new to you

77

00:04:15,770 --> 00:04:11,700

John Titor claimed that he was a time

78

00:04:19,279 --> 00:04:15,780

traveler from the Year 2036 and he was

79

00:04:23,629 --> 00:04:19,289

back now well then we're talking about

80

00:04:28,400 --> 00:04:23,639

time travel now is now then as then in

81

00:04:31,159 --> 00:04:28,410

2000 he he was doing a drive-by and he

82

00:04:36,680 --> 00:04:31,169

stuck around for around four months and

83

00:04:40,810 --> 00:04:36,690

then disappeared he has never been heard

84

00:04:43,820 --> 00:04:40,820

from since and this is the thing for me

85

00:04:49,219 --> 00:04:43,830

well for everybody that knows about the

86

00:04:52,250 --> 00:04:49,229

John Titor story if it was a hoax it's

87

00:04:53,909 --> 00:04:52,260

possible that it was if it was a hoax it

88

00:04:57,920 --> 00:04:53,919

has never been

89

00:05:01,580 --> 00:04:57,930

disproven or proven nobody has ever

90

00:05:03,450 --> 00:05:01,590

found out and all of the investigations

91

00:05:07,619 --> 00:05:03,460

who John Titor

92

00:05:11,550 --> 00:05:07,629

was or who the hoaxer was and that is

93

00:05:13,439 --> 00:05:11,560

the part of the story that well the

94

00:05:16,649 --> 00:05:13,449

credibility issue I mean it's time

95

00:05:20,029 --> 00:05:16,659

travel and it is it is out there I get

96

00:05:23,219 --> 00:05:20,039

that but normally you can uncover

97

00:05:25,499 --> 00:05:23,229

something and then it's all blown out of

98

00:05:28,499 --> 00:05:25,509

the water and and it's always just a

99

00:05:32,059 --> 00:05:28,509

hoax okay cool all right we get it but

100

00:05:35,309 --> 00:05:32,069

it has never been uncovered the story

101

00:05:37,890 --> 00:05:35,319

just has lingered and lingered and

102

00:05:38,790 --> 00:05:37,900

lingered on the internet for those of

103

00:05:42,950 --> 00:05:38,800

you that are new

104

00:05:45,929 --> 00:05:42,960

you can Google John Titor and have

105

00:05:50,040 --> 00:05:45,939

literally thousands if not maybe a

106

00:05:52,980 --> 00:05:50,050

hundred thousand responses and areas to

107

00:05:56,909 --> 00:05:52,990

go to there are plenty of videos on

108

00:06:00,149 --> 00:05:56,919

YouTube on on the subject but the thing

109

00:06:06,329 --> 00:06:00,159

is with John Titor and this story is

110

00:06:10,559 --> 00:06:06,339

that it seems to be true I want it to be

111

00:06:14,119 --> 00:06:10,569

true he what he freely okay this all

112

00:06:18,540 --> 00:06:14,129

started in like I said November 2000 and

113

00:06:22,139 --> 00:06:18,550

he was posting publicly and he posted

114

00:06:26,369 --> 00:06:22,149

pictures and he also yeah pictures and

115

00:06:28,889 --> 00:06:26,379

he also answered questions and he from

116

00:06:32,070 --> 00:06:28,899

my memory I think he answered everything

117

00:06:35,159 --> 00:06:32,080

that was thrown at him some of the

118

00:06:36,860 --> 00:06:35,169

questions he would answer two or three

119

00:06:39,269 --> 00:06:36,870

different times

120

00:06:41,490 --> 00:06:39,279

people would ask the same questions over

121

00:06:44,999 --> 00:06:41,500

and over he adds some questions he

122

00:06:46,200 --> 00:06:45,009

refused to answer and of course if you

123

00:06:48,360 --> 00:06:46,210

think about it and you've got an

124

00:06:50,399 --> 00:06:48,370

opportunity to speak to a time traveler

125

00:06:52,320 --> 00:06:50,409

and ask him a question the first thing

126

00:06:55,139 --> 00:06:52,330

you're gonna do is what stocks do I buy

127

00:06:57,360 --> 00:06:55,149

you know who won the World Series in in

128

00:06:59,300 --> 00:06:57,370

blah blah blah and those were the

129

00:07:02,999 --> 00:06:59,310

questions that he refused to answer

130

00:07:05,759 --> 00:07:03,009

understandably so but and it reminds me

131

00:07:07,340 --> 00:07:05,769

of back to the future but that's a

132

00:07:12,650 --> 00:07:07,350

that's a the story

133

00:07:15,230 --> 00:07:12,660

but and then he said he had to leave and

134

00:07:18,680 --> 00:07:15,240

when it and it was one of those things

135

00:07:22,460 --> 00:07:18,690

where for me person was like no you know

136

00:07:26,390 --> 00:07:22,470

don't don't go it was a it was a four

137

00:07:28,850 --> 00:07:26,400

month journey for all of us on the

138

00:07:36,860 --> 00:07:28,860

internet with Teeter at that time and

139

00:07:41,530 --> 00:07:36,870

then poof gone now supposedly there is a

140

00:07:44,440 --> 00:07:41,540

John Titor exiting this time video

141

00:07:47,630 --> 00:07:44,450

there's been rumors about that forever

142

00:07:50,390 --> 00:07:47,640

now certainly if the video was out there

143

00:07:54,400 --> 00:07:50,400

I think if somebody would have posted it

144

00:07:57,380 --> 00:07:54,410

by now somewhere but if anybody knows of

145

00:07:59,840 --> 00:07:57,390

where this video is if there's access to

146

00:08:02,150 --> 00:07:59,850

it my email is Jimmy at Jimmy Church

147

00:08:05,450 --> 00:08:02,160

radio.com I'll keep your name in

148

00:08:07,160 --> 00:08:05,460

confidence but if anybody knows of that

149

00:08:10,400 --> 00:08:07,170

video out there I would certainly like

150

00:08:14,210 --> 00:08:10,410

to see it so anyway so then March 21st

151

00:08:18,190 --> 00:08:14,220

2001 was his last post and and then

152

00:08:21,230 --> 00:08:18,200

suddenly he's vanished and the

153

00:08:26,000 --> 00:08:21,240

investigation started and it continues

154

00:08:28,820 --> 00:08:26,010

to this day there is a series of videos

155

00:08:32,360 --> 00:08:28,830

on YouTube I think it's called searching

156

00:08:35,959 --> 00:08:32,370

or looking for John Titor multiple

157

00:08:38,630 --> 00:08:35,969

episodes of this crew of guys in Florida

158

00:08:40,790 --> 00:08:38,640

that go out and chase down the attorney

159

00:08:44,630 --> 00:08:40,800

the attorneys brother I think the

160

00:08:46,220 --> 00:08:44,640

attorneys son and we'll get to that in a

161

00:08:49,130 --> 00:08:46,230

second that occurred there's also

162

00:08:52,670 --> 00:08:49,140

there's been a play made there's a

163

00:08:55,430 --> 00:08:52,680

there's a video a movie a serious

164

00:08:58,760 --> 00:08:55,440

b-movie on the internet as well I

165

00:09:01,280 --> 00:08:58,770

thought that and I think there still is

166

00:09:03,350 --> 00:09:01,290

something in development a you know like

167

00:09:07,040 --> 00:09:03,360

a major motion picture and the story is

168

00:09:08,930 --> 00:09:07,050

so compelling that I'd almost love to be

169

00:09:11,590 --> 00:09:08,940

involved in and write a screenplay on

170

00:09:17,180 --> 00:09:11,600

that because the story is absolutely

171

00:09:19,700 --> 00:09:17,190

amazing now although the entire story

172

00:09:21,110 --> 00:09:19,710

can be just written off as a hoax there

173

00:09:23,780 --> 00:09:21,120

is something

174

00:09:26,690 --> 00:09:23,790

err about the story that grabs us all

175

00:09:29,030 --> 00:09:26,700

his details about it the life in the

176

00:09:33,140 --> 00:09:29,040

future and the predictions that he made

177

00:09:35,630 --> 00:09:33,150

and not only not only that but but what

178

00:09:38,810 --> 00:09:35,640

what day-to-day life is like in the

179

00:09:41,660 --> 00:09:38,820

future his reasons for not only coming

180

00:09:43,730 --> 00:09:41,670

back to the year 2000 but what his

181

00:09:45,980 --> 00:09:43,740

journey was back into the 70s and the

182

00:09:48,760 --> 00:09:45,990

reason why he was time-traveling that

183

00:09:52,840 --> 00:09:48,770

you know he was a member of the army

184

00:09:58,160 --> 00:09:52,850

there was all of those details but it it

185

00:10:02,720 --> 00:09:58,170

the the predictions that he made some

186

00:10:05,780 --> 00:10:02,730

some came true absolutely did some of

187

00:10:09,800 --> 00:10:05,790

them were completely wrong but the thing

188

00:10:12,019 --> 00:10:09,810

is is he had his out in in his story you

189

00:10:17,380 --> 00:10:12,029

know about you know he's in a parallel

190

00:10:20,900 --> 00:10:17,390

time and so what happens in our time and

191

00:10:22,610 --> 00:10:20,910

what occurs when he time travels are two

192

00:10:26,050 --> 00:10:22,620

different things and one doesn't affect

193

00:10:29,540 --> 00:10:26,060

the other so even though he may say

194

00:10:33,440 --> 00:10:29,550

something is going to happen or did

195

00:10:37,670 --> 00:10:33,450

happen it's in another time another time

196

00:10:40,940 --> 00:10:37,680

line so that was his out and in reality

197

00:10:44,470 --> 00:10:40,950

when you go back and look at it it makes

198

00:10:48,190 --> 00:10:44,480

sense and not only that for me

199

00:10:52,790 --> 00:10:48,200

it was the pictures that he posted and

200

00:10:53,600 --> 00:10:52,800

his his time machine now I haven't built

201
00:10:59,750 --> 00:10:53,610
a time machine

202
00:11:01,579 --> 00:10:59,760
idea but what he posted not only did he

203
00:11:04,400 --> 00:11:01,589
post pictures of the time machine but he

204
00:11:08,120 --> 00:11:04,410
posted the manual and some of the

205
00:11:10,910 --> 00:11:08,130
schematics and when you look at the the

206
00:11:14,470 --> 00:11:10,920
the photographs and you look at him up

207
00:11:18,230 --> 00:11:14,480
close the level of detail is

208
00:11:22,550 --> 00:11:18,240
extraordinary and this is the thing if

209
00:11:24,980 --> 00:11:22,560
it was a hoax and that time machine was

210
00:11:27,260 --> 00:11:24,990
built even a or let's just say it's it's

211
00:11:31,160 --> 00:11:27,270
a hoax okay let's just go with that for

212
00:11:32,660 --> 00:11:31,170
now the way the level of detail on that

213
00:11:34,910 --> 00:11:32,670

and the way that it was built and I'm

214

00:11:37,790 --> 00:11:34,920

talking about switches and butts

215

00:11:42,410 --> 00:11:37,800

and cabling and labeling and lettering

216

00:11:46,430 --> 00:11:42,420

and labels all of that it's the amount

217

00:11:49,280 --> 00:11:46,440

of work that went into that and then you

218

00:11:51,290 --> 00:11:49,290

tie that into the manual and the amount

219

00:11:55,430 --> 00:11:51,300

of work and detail that goes into that

220

00:11:57,139 --> 00:11:55,440

and the the the people that would have

221

00:12:01,670 --> 00:11:57,149

to be exposed to this it wouldn't just

222

00:12:03,199 --> 00:12:01,680

be you know a one-man operation you've

223

00:12:05,840 --> 00:12:03,209

got you would have to have artists

224

00:12:08,240 --> 00:12:05,850

involved to create the manual you would

225

00:12:10,490 --> 00:12:08,250

have to have a technical writer involved

226

00:12:12,680 --> 00:12:10,500

to write that you would have to have an

227

00:12:16,160 --> 00:12:12,690

engineer and a model builder to build

228

00:12:19,189 --> 00:12:16,170

this time machine and his description on

229

00:12:21,590 --> 00:12:19,199

how the time machine actually ran made

230

00:12:25,300 --> 00:12:21,600

sense it made so much sense that

231

00:12:28,939 --> 00:12:25,310

somebody went and tried to patent it

232

00:12:33,129 --> 00:12:28,949

actually applied for a patent on John

233

00:12:36,379 --> 00:12:33,139

teeters time machine the entire story so

234

00:12:39,380 --> 00:12:36,389

somebody who was involved in this and I

235

00:12:40,970 --> 00:12:39,390

would I would venture to guess and if

236

00:12:43,579 --> 00:12:40,980

somebody involved with the hoax is

237

00:12:45,769 --> 00:12:43,589

listening to me right now is gonna go

238

00:12:47,389 --> 00:12:45,779

well yeah he's right in that there would

239

00:12:50,630 --> 00:12:47,399

have to have been dozens of people

240

00:12:53,210 --> 00:12:50,640

involved with this story and somebody

241

00:12:56,470 --> 00:12:53,220

would have somebody's cover would have

242

00:13:02,750 --> 00:12:56,480

been blown and to this day it hasn't

243

00:13:06,769 --> 00:13:02,760

there has been no no artwork or or ideas

244

00:13:09,980 --> 00:13:06,779

or designs or sketches and nothing has

245

00:13:12,949 --> 00:13:09,990

surfaced anywhere and that is what makes

246

00:13:16,040 --> 00:13:12,959

the story so crazy I mean it's too easy

247

00:13:18,139 --> 00:13:16,050

to write off it truly is because the

248

00:13:22,130 --> 00:13:18,149

subject matter alone right there he just

249

00:13:25,160 --> 00:13:22,140

got done nah nah nah not true hoax

250

00:13:27,439 --> 00:13:25,170

good story but it's a hoax but when you

251

00:13:31,850 --> 00:13:27,449

start to add all of these other things

252

00:13:34,699 --> 00:13:31,860

together you come up with maybe this

253

00:13:37,309 --> 00:13:34,709

thing is a true story maybe there's

254

00:13:42,050 --> 00:13:37,319

something to this and that's what draws

255

00:13:45,620 --> 00:13:42,060

you in now there'll be a video of this

256

00:13:48,110 --> 00:13:45,630

radio show we we post everything and so

257

00:13:48,470 --> 00:13:48,120

when we do the video I will include in

258

00:13:50,780 --> 00:13:48,480

the vid

259

00:13:54,379 --> 00:13:50,790

the photographs of everything that I'm

260

00:13:57,620 --> 00:13:54,389

talking about and then you'll you'll

261

00:14:00,050 --> 00:13:57,630

understand okay so we'll get that tie in

262

00:14:03,290 --> 00:14:00,060

there but you have to remember that back

263

00:14:07,490 --> 00:14:03,300

in 2000 when these videos start popping

264

00:14:11,420 --> 00:14:07,500

up on the net you take one look and

265

00:14:13,850 --> 00:14:11,430

you're like no way this is this is real

266

00:14:14,900 --> 00:14:13,860

this does look like some type of

267

00:14:17,449 --> 00:14:14,910

army-issue

268

00:14:19,610 --> 00:14:17,459

equipment and then you look at the

269

00:14:20,990 --> 00:14:19,620

manual and the and the manual and the

270

00:14:22,750 --> 00:14:21,000

schematics and everything matches

271

00:14:26,180 --> 00:14:22,760

there's nothing wrong there's nothing

272

00:14:28,819 --> 00:14:26,190

incorrect and I was looking for

273

00:14:30,829 --> 00:14:28,829

something incorrect and the longer that

274

00:14:34,850 --> 00:14:30,839

I read the longer that I looked and I

275

00:14:37,699 --> 00:14:34,860

rechecked and checked I just I I got I

276

00:14:41,329 --> 00:14:37,709

got sucked in I really did and to this

277

00:14:42,519 --> 00:14:41,339

day I would just love for either Teeter

278

00:14:46,340 --> 00:14:42,529

to come back

279

00:14:49,370 --> 00:14:46,350

that would be paramount or the second

280

00:14:52,069 --> 00:14:49,380

thing is somebody to get busted please

281

00:14:55,790 --> 00:14:52,079

you know we we all need that the story

282

00:14:58,579 --> 00:14:55,800

has just continued to this day and and

283

00:15:00,410 --> 00:14:58,589

it's not gonna go away until one of two

284

00:15:02,810 --> 00:15:00,420

things happened somebody gets busted

285

00:15:05,560 --> 00:15:02,820

where Teeter comes back and says okay I

286

00:15:08,120 --> 00:15:05,570

got a couple of dates for it this is

287

00:15:11,720 --> 00:15:08,130

fade to black I'm your host Jimmy Church

288

00:15:13,639 --> 00:15:11,730

on K JCR and the dark matter radio

289

00:15:27,560 --> 00:15:13,649

network stay with us

290

00:15:41,490 --> 00:15:31,500

this my popular opinion reading a book

291

00:15:46,110 --> 00:15:41,500

will not make you smarter she's always

292

00:16:01,470 --> 00:15:46,120

giving it to you straight on the dark

293

00:16:01,480 --> 00:16:21,610

this is KJ CR Jimmy Church radio

294

00:16:28,790 --> 00:16:23,780

part everybody welcome back

295

00:16:31,970 --> 00:16:28,800

this is fade to black I'm your host

296

00:16:36,650 --> 00:16:31,980

Jimmy Church we're on kjc r and the dark

297

00:16:38,000 --> 00:16:36,660

matter radio network don't forget you

298

00:16:40,910 --> 00:16:38,010

can email me right now to Jimmy a

299

00:16:43,490 --> 00:16:40,920

2-meter to radio.com I do read them all

300

00:16:46,000 --> 00:16:43,500

and I just my right back

301
00:16:50,569 --> 00:16:46,010
follow us on Twitter Facebook YouTube

302
00:16:52,040 --> 00:16:50,579
like subscribe follow everything is

303
00:16:52,910 --> 00:16:52,050
right there go over to Jimmy Church

304
00:16:54,980 --> 00:16:52,920
radio.com

305
00:16:58,519 --> 00:16:54,990
check it out spend some time there go

306
00:17:01,100 --> 00:16:58,529
check out that Sphinx Giza pyramid fly

307
00:17:02,900 --> 00:17:01,110
by application that is there and don't

308
00:17:05,329 --> 00:17:02,910
forget by the way do turn off the music

309
00:17:07,130 --> 00:17:05,339
after the show if you want to spend some

310
00:17:11,299 --> 00:17:07,140
more time on it listen to the music but

311
00:17:12,740 --> 00:17:11,309
I don't want you to miss a word of what

312
00:17:16,130 --> 00:17:12,750
I'm talking about right now which is

313
00:17:19,250 --> 00:17:16,140

John Titor John Titor

314

00:17:21,710 --> 00:17:19,260

a time traveler from 2036 first showed

315

00:17:24,559 --> 00:17:21,720

up in November of 2000 on the internet

316

00:17:27,230 --> 00:17:24,569

and started posting he hung around in

317

00:17:29,540 --> 00:17:27,240

our timeline for about four months and

318

00:17:32,240 --> 00:17:29,550

then suddenly vanish and disappeared and

319

00:17:35,330 --> 00:17:32,250

nobody's heard from him since and I

320

00:17:39,470 --> 00:17:35,340

remember listening to a couple of art

321

00:17:41,750 --> 00:17:39,480

bells old shows and where he would say

322

00:17:47,540 --> 00:17:41,760

okay John Titor is listening give us a

323

00:17:48,950 --> 00:17:47,550

call well John if you're listening shoot

324

00:17:50,260 --> 00:17:48,960

me an email give me a call call me on

325

00:17:53,090 --> 00:17:50,270

skype right now

326

00:17:56,659 --> 00:17:53,100

fade to black 14 we'd love to hear from

327

00:17:58,040 --> 00:17:56,669

you but so he he hung around for about

328

00:18:01,520 --> 00:17:58,050

four months and then suddenly

329

00:18:04,669 --> 00:18:01,530

disappeared and there was a video a

330

00:18:08,510 --> 00:18:04,679

purported video that shows him leaving

331

00:18:12,650 --> 00:18:08,520

us and going back to where he came from

332

00:18:18,650 --> 00:18:12,660

now his mission was to get a computer

333

00:18:21,020 --> 00:18:18,660

from the 1970s because this specific

334

00:18:22,880 --> 00:18:21,030

computer will get we'll get to that the

335

00:18:27,190 --> 00:18:22,890

details of that entire story here in a

336

00:18:31,130 --> 00:18:27,200

few but would help solve some

337

00:18:33,290 --> 00:18:31,140

programming issues in in 2036 so he had

338

00:18:34,400 --> 00:18:33,300

to go back and get this computer now the

339

00:18:35,600 --> 00:18:34,410

story behind the computer

340

00:18:38,060 --> 00:18:35,610

we're gonna get to that because there's

341

00:18:41,120 --> 00:18:38,070

a lot of details with it who and what

342

00:18:43,310 --> 00:18:41,130

knew what it was and a lot of stuff has

343

00:18:45,230 --> 00:18:43,320

come out so we'll address that in a

344

00:18:49,220 --> 00:18:45,240

second but what I wanted to get to now

345

00:18:51,860 --> 00:18:49,230

is his original set of post and

346

00:18:54,650 --> 00:18:51,870

predictions that started in November

347

00:18:57,590 --> 00:18:54,660

2009 he did a solid four months of this

348

00:19:00,970 --> 00:18:57,600

but in November 2000 a few things

349

00:19:05,870 --> 00:19:00,980

happened right away and I remember

350

00:19:08,900 --> 00:19:05,880

reading it now a lot of this has to let

351

00:19:10,400 --> 00:19:08,910

me get to the first one and this is what

352

00:19:14,180 --> 00:19:10,410

he wrote he said I was just about to

353

00:19:16,100 --> 00:19:14,190

give up this is November 2nd 2001 he

354

00:19:18,920 --> 00:19:16,110

says I was just about to give up hope on

355

00:19:22,100 --> 00:19:18,930

anyone knowing who Tipler or ker was on

356

00:19:25,610 --> 00:19:22,110

this world line the basics for time

357

00:19:28,040 --> 00:19:25,620

travel start at CERN see ER n everybody

358

00:19:31,550 --> 00:19:28,050

knows about CERN in Switzerland in about

359

00:19:35,780 --> 00:19:31,560

a year and end in 2034 with the first

360

00:19:38,540 --> 00:19:35,790

time machine built by GE too bad we

361

00:19:41,780 --> 00:19:38,550

can't post pictures or I'd show it to

362

00:19:45,380 --> 00:19:41,790

you now on the surface there's a couple

363

00:19:48,740 --> 00:19:45,390

of things in this post okay first thing

364

00:19:51,700 --> 00:19:48,750

he says too bad we can't post pictures

365

00:19:55,430 --> 00:19:51,710

because I remember reading that thinking

366

00:20:00,500 --> 00:19:55,440

what does he mean we we all can post

367

00:20:01,400 --> 00:20:00,510

pictures on the net so either he's new

368

00:20:03,110 --> 00:20:01,410

to the Internet

369

00:20:05,600 --> 00:20:03,120

our version of the internet doesn't know

370

00:20:07,760 --> 00:20:05,610

how to post pictures number two doesn't

371

00:20:09,620 --> 00:20:07,770

have a camera or three doesn't have

372

00:20:12,680 --> 00:20:09,630

pictures of the specific time machine

373

00:20:15,530 --> 00:20:12,690

from 2034 I'm not too sure what he meant

374

00:20:18,890 --> 00:20:15,540

there but it was a weird line to type

375

00:20:21,160 --> 00:20:18,900

and for somebody to have in the vision

376

00:20:24,740 --> 00:20:21,170

of a hoax to type something like that

377

00:20:26,960 --> 00:20:24,750

and that type of verbage is either

378

00:20:28,640 --> 00:20:26,970

genius or somebody doesn't know what

379

00:20:31,760 --> 00:20:28,650

they're doing there's no gray area in

380

00:20:35,480 --> 00:20:31,770

the middle here but that right there

381

00:20:39,680 --> 00:20:35,490

that line grabbed me from day one but it

382

00:20:43,850 --> 00:20:39,690

was the other part about CERN CERN at

383

00:20:46,130 --> 00:20:43,860

the time there there was some basic

384

00:20:48,190 --> 00:20:46,140

information coming out about CERN and

385

00:20:49,899 --> 00:20:48,200

its possibilities and

386

00:20:52,060 --> 00:20:49,909

and with some of the experiments that

387

00:20:56,229 --> 00:20:52,070

they were planning there was some of it

388

00:20:57,940 --> 00:20:56,239

there but basically it was wasn't common

389

00:21:00,249 --> 00:20:57,950

knowledge about certain with anybody

390

00:21:02,320 --> 00:21:00,259

unless you were within the inner circle

391

00:21:04,210 --> 00:21:02,330

there but this is the curious thing that

392

00:21:08,729 --> 00:21:04,220

happened and he talks about this in in

393

00:21:12,009 --> 00:21:08,739

later post which I'll get to was about

394

00:21:14,259 --> 00:21:12,019

miniature black holes being created at

395

00:21:18,729 --> 00:21:14,269

CERN that would open up the door to

396

00:21:22,409 --> 00:21:18,739

time-travel now the thing is is that

397

00:21:27,489 --> 00:21:22,419

actually happened now does that mean

398

00:21:29,680 --> 00:21:27,499

he's a time traveler no everybody knows

399

00:21:31,509 --> 00:21:29,690

that CERN was coming online and these

400

00:21:34,239 --> 00:21:31,519

were some of the possibilities but

401
00:21:36,609 --> 00:21:34,249
unless you were and we know that now but

402
00:21:39,549 --> 00:21:36,619
unless you were part of the the inner

403
00:21:41,680 --> 00:21:39,559
workings at CERN you probably didn't

404
00:21:45,180 --> 00:21:41,690
know anything about it and now if you

405
00:21:48,779 --> 00:21:45,190
were a scientist not working at CERN and

406
00:21:52,239 --> 00:21:48,789
you were in the physics or what have you

407
00:21:54,310 --> 00:21:52,249
then you may dream about the

408
00:21:56,859 --> 00:21:54,320
possibilities of CERN and would be able

409
00:22:00,700 --> 00:21:56,869
to put that into a post and have it make

410
00:22:04,090 --> 00:22:00,710
sense but I don't think that John Titor

411
00:22:05,950 --> 00:22:04,100
the hoaxer came from that level of

412
00:22:09,700 --> 00:22:05,960
intelligence and would be able to put

413
00:22:11,979 --> 00:22:09,710

that in a post like that where it made

414

00:22:13,869 --> 00:22:11,989

sense and that it actually came true

415

00:22:17,259 --> 00:22:13,879

that was one of the most intriguing

416

00:22:20,859 --> 00:22:17,269

posts that he had ever done ok then he

417

00:22:23,700 --> 00:22:20,869

goes on the same day he posed is there a

418

00:22:27,690 --> 00:22:23,710

site where I don't need to register

419

00:22:31,869 --> 00:22:27,700

personal information to post pictures

420

00:22:35,590 --> 00:22:31,879

again what kind of question is that to

421

00:22:37,930 --> 00:22:35,600

ask now unless you're a genius and you

422

00:22:40,599 --> 00:22:37,940

know that you need to write in this

423

00:22:42,609 --> 00:22:40,609

fashion I just don't see somebody having

424

00:22:45,789 --> 00:22:42,619

that type of if you're hoaxing and

425

00:22:48,940 --> 00:22:45,799

you're just not that smart or you've got

426

00:22:51,310 --> 00:22:48,950

50 people working behind you posting

427

00:22:53,560 --> 00:22:51,320

this stuff and nobody has been exposed

428

00:22:56,379 --> 00:22:53,570

you have to understand the way that I

429

00:22:58,960 --> 00:22:56,389

look at it now certainly I do want the

430

00:23:01,960 --> 00:22:58,970

story to be true yes ok all right am i

431

00:23:04,450 --> 00:23:01,970

skeptic on this sort of

432

00:23:09,159 --> 00:23:04,460

and the only reason why I say sort of is

433

00:23:13,269 --> 00:23:09,169

because it's been 13 years and nobody

434

00:23:16,629 --> 00:23:13,279

has been busted yet and that's the part

435

00:23:19,180 --> 00:23:16,639

for me that grabs me you know I wait I

436

00:23:21,399 --> 00:23:19,190

search all the time I just jump in every

437

00:23:23,289 --> 00:23:21,409

couple of weeks and I'll Google John

438

00:23:25,600 --> 00:23:23,299

Titor to see if there's anything new or

439

00:23:28,450 --> 00:23:25,610

anything breaking or any news or

440

00:23:30,820 --> 00:23:28,460

somebody busted or just anything out

441

00:23:33,369 --> 00:23:30,830

there so I I've always tried to stay on

442

00:23:37,389 --> 00:23:33,379

top of it nothing has happened

443

00:23:40,659 --> 00:23:37,399

okay so later November 2nd he post I'll

444

00:23:43,350 --> 00:23:40,669

be happy to send them to you and answer

445

00:23:51,009 --> 00:23:43,360

any questions you may have

446

00:23:54,850 --> 00:23:51,019

Wow really okay so now on November 2nd

447

00:23:56,740 --> 00:23:54,860

he answers somebody and it says I saw

448

00:23:59,499 --> 00:23:56,750

the post and requesting basic systems

449

00:24:01,450 --> 00:23:59,509

for gravity distortions for a gravity

450

00:24:06,009 --> 00:24:01,460

distortion system that will allow time

451
00:24:10,360 --> 00:24:06,019
travel here is what they are number one

452
00:24:14,820 --> 00:24:10,370
a magnetic housing units for dual you

453
00:24:18,669 --> 00:24:14,830
ready Micro singularities number two

454
00:24:22,169 --> 00:24:18,679
electron injection manifold to alter the

455
00:24:26,310 --> 00:24:22,179
mass and gravity of micro singularities

456
00:24:31,419 --> 00:24:26,320
three cooling an x-ray venting system

457
00:24:34,330 --> 00:24:31,429
for gravity sensors of vgl system I'm

458
00:24:40,060 --> 00:24:34,340
gonna get to that right after this five

459
00:24:43,570 --> 00:24:40,070
main clocks for ceci immunise and number

460
00:24:49,990 --> 00:24:43,580
six main computer units of which there

461
00:24:52,629 --> 00:24:50,000
are three now this is the thing time

462
00:24:54,190 --> 00:24:52,639
travel going back to HG Wells and

463
00:24:57,730 --> 00:24:54,200

science fiction and the way it's been

464

00:24:59,350 --> 00:24:57,740

written and dreamed about there's some

465

00:25:00,610 --> 00:24:59,360

major problems with it and I'm not

466

00:25:04,499 --> 00:25:00,620

talking about the grandfather paradox

467

00:25:07,450 --> 00:25:04,509

that's that's nothing in that simple but

468

00:25:10,269 --> 00:25:07,460

one of the problems with time travel and

469

00:25:12,490 --> 00:25:10,279

if you like I said going back to HG

470

00:25:14,200 --> 00:25:12,500

Wells and and all any movie that you can

471

00:25:15,160 --> 00:25:14,210

think of anybody that's traveling in

472

00:25:18,490 --> 00:25:15,170

time

473

00:25:20,770 --> 00:25:18,500

there's one thing that is a big problem

474

00:25:22,000 --> 00:25:20,780

and if you've never thought about it I'm

475

00:25:24,880 --> 00:25:22,010

gonna lay it out to you right now so

476

00:25:27,570 --> 00:25:24,890

just listen get really close to your

477

00:25:30,580 --> 00:25:27,580

speaker and listen to what I'm saying

478

00:25:34,270 --> 00:25:30,590

if you're on this earth and you're

479

00:25:37,680 --> 00:25:34,280

moving in time the earth is still in

480

00:25:42,670 --> 00:25:37,690

orbit it's moving around the Sun so

481

00:25:46,360 --> 00:25:42,680

although you may vanish poof and go

482

00:25:48,760 --> 00:25:46,370

somewhere that doesn't mean that when

483

00:25:54,070 --> 00:25:48,770

you get to where you're going you're

484

00:25:57,220 --> 00:25:54,080

landing back on planet Earth because the

485

00:25:59,890 --> 00:25:57,230

earth is moved think about that for a

486

00:26:02,830 --> 00:25:59,900

second if you're a time traveler the

487

00:26:05,620 --> 00:26:02,840

last thing that you want is to go and

488

00:26:08,140 --> 00:26:05,630

spin the dial and pick a date and vanish

489

00:26:09,880 --> 00:26:08,150

and poof and then wind up in in space

490

00:26:16,420 --> 00:26:09,890

somewhere in a vacuum without a

491

00:26:19,630 --> 00:26:16,430

spacesuit dead think about that and

492

00:26:24,510 --> 00:26:19,640

that's what this addresses this last

493

00:26:29,140 --> 00:26:24,520

post and it is something that up until

494

00:26:30,520 --> 00:26:29,150

teeters posting in 2000 all the science

495

00:26:32,200 --> 00:26:30,530

fiction writers and everything out that

496

00:26:38,860 --> 00:26:32,210

nobody's address this nobody's talked

497

00:26:43,450 --> 00:26:38,870

about it and it's addressed here now so

498

00:26:45,550 --> 00:26:43,460

so now today when discussing time travel

499

00:26:48,850 --> 00:26:45,560

believe it or not and I believe because

500

00:26:51,280 --> 00:26:48,860

of what Titor posted scientists now have

501
00:26:55,000 --> 00:26:51,290
to forcefully address that and not only

502
00:26:56,800 --> 00:26:55,010
that the writers that are writing in in

503
00:26:58,380 --> 00:26:56,810
books and movies and so forth if you're

504
00:27:02,380 --> 00:26:58,390
getting consider this but at that time

505
00:27:08,470 --> 00:27:02,390
it was an original thought that was put

506
00:27:10,270 --> 00:27:08,480
down in this post now he says that is

507
00:27:13,000 --> 00:27:10,280
one of the problems will try and travel

508
00:27:17,050 --> 00:27:13,010
that we had to fix in the future we

509
00:27:19,540 --> 00:27:17,060
could time travel but we couldn't land

510
00:27:24,220 --> 00:27:19,550
our feet where we needed our feet to

511
00:27:27,970 --> 00:27:24,230
land but once we got that fix all bets

512
00:27:28,900 --> 00:27:27,980
were off and that's what allowed time

513
00:27:32,730 --> 00:27:28,910

travel

514

00:27:36,870 --> 00:27:32,740

now again if all of this is a hoax

515

00:27:40,840 --> 00:27:36,880

somebody very smart and probably a few

516

00:27:43,930 --> 00:27:40,850

brains had to be applied into this kind

517

00:27:45,610 --> 00:27:43,940

of thinking and again and I'm gonna run

518

00:27:48,520 --> 00:27:45,620

this in the ground on this program

519

00:27:50,380 --> 00:27:48,530

tonight for 13 years nothing has really

520

00:27:55,600 --> 00:27:50,390

been shot down in this story and nobody

521

00:27:57,940 --> 00:27:55,610

has been caught nobody and if they're

522

00:27:59,470 --> 00:27:57,950

with everybody out there that would have

523

00:28:00,910 --> 00:27:59,480

to have been involved in this hoax

524

00:28:03,160 --> 00:28:00,920

somebody would have been caught

525

00:28:07,450 --> 00:28:03,170

certainly somebody writing something

526

00:28:13,180 --> 00:28:07,460

like this and it hasn't happened but

527

00:28:16,750 --> 00:28:13,190

John Titor says in 2036 they fixed the

528

00:28:18,910 --> 00:28:16,760

gravity and time delays the gravity

529

00:28:22,870 --> 00:28:18,920

sensors and the main clocks that allowed

530

00:28:25,630 --> 00:28:22,880

the time-traveling the time traveler to

531

00:28:29,380 --> 00:28:25,640

actually end up where he needed to be

532

00:28:32,110 --> 00:28:29,390

his foot on terra firma and not out in

533

00:28:35,350 --> 00:28:32,120

the vacuum of space being sucked away

534

00:28:37,080 --> 00:28:35,360

somewhere you know and if you think

535

00:28:41,470 --> 00:28:37,090

about the implications of that how many

536

00:28:45,780 --> 00:28:41,480

how many hapless guinea pigs are out

537

00:28:49,840 --> 00:28:45,790

there in the year 2036 2035 2030 for

538

00:28:53,110 --> 00:28:49,850

going into the GE plant over General

539

00:28:56,320 --> 00:28:53,120

Electric's and would have to test out

540

00:28:58,240 --> 00:28:56,330

this time machine and and how many times

541

00:29:02,220 --> 00:28:58,250

they had to go well okay that didn't

542

00:29:04,510 --> 00:29:02,230

work that didn't work that didn't work

543

00:29:08,230 --> 00:29:04,520

but apparently they got it worked out

544

00:29:15,820 --> 00:29:08,240

and it's an amazing thought then

545

00:29:17,560 --> 00:29:15,830

November 4th he posts this gem he

546

00:29:18,990 --> 00:29:17,570

responds to a question and the question

547

00:29:24,820 --> 00:29:19,000

is this

548

00:29:26,890 --> 00:29:24,830

what does time-traveling look like okay

549

00:29:29,890 --> 00:29:26,900

think about this for a second and this

550

00:29:33,430 --> 00:29:29,900

is his response and again I'm quoting

551

00:29:36,190 --> 00:29:33,440

here the unit has a ramp up time after

552

00:29:39,280 --> 00:29:36,200

the destination coordinates are fed into

553

00:29:41,880 --> 00:29:39,290

the computers an audible alarm and small

554

00:29:44,190 --> 00:29:41,890

lights start a short countdown at

555

00:29:47,280 --> 00:29:44,200

which point you should be secured in a

556

00:29:50,610 --> 00:29:47,290

seat the gravity field generated by the

557

00:29:53,100 --> 00:29:50,620

unit overtakes you very quickly you feel

558

00:29:55,590 --> 00:29:53,110

a tug toward the unit similar to rising

559

00:29:57,840 --> 00:29:55,600

quickly in an elevator and it continues

560

00:30:01,830 --> 00:29:57,850

to rise based on the power setting the

561

00:30:04,410 --> 00:30:01,840

unit is working under at 100% power the

562

00:30:07,080 --> 00:30:04,420

constant pole of gravity can be as high

563

00:30:10,530 --> 00:30:07,090

as 2 G's or more depending on how close

564

00:30:13,290 --> 00:30:10,540

you are to the unit there are no serious

565

00:30:18,390 --> 00:30:13,300

side effects but I try to avoid eating

566

00:30:21,990 --> 00:30:18,400

before a flight he continues no bright

567

00:30:24,240 --> 00:30:22,000

flash of light is seen outside the

568

00:30:28,200 --> 00:30:24,250

vehicle appears to accelerate as the

569

00:30:31,560 --> 00:30:28,210

light is bent around it we have to wear

570

00:30:33,840 --> 00:30:31,570

sunglasses or close our eyes as this

571

00:30:37,980 --> 00:30:33,850

happens due to a short burst of

572

00:30:39,930 --> 00:30:37,990

ultraviolet radiation personally I think

573

00:30:43,410 --> 00:30:39,940

it looks like you're driving under a

574

00:30:44,190 --> 00:30:43,420

rainbow after that it appears to fade to

575

00:30:46,500 --> 00:30:44,200

black

576

00:30:48,690 --> 00:30:46,510

you like that don't you and it remains

577

00:30:51,450 --> 00:30:48,700

totally black until the unit is turned

578

00:30:54,060 --> 00:30:51,460

off we are advised to keep the windows

579

00:30:56,970 --> 00:30:54,070

closed as a great deal of heat builds up

580

00:30:59,850 --> 00:30:56,980

outside of the car the gravity field

581

00:31:03,660 --> 00:30:59,860

also traps a small air pocket around the

582

00:31:06,620 --> 00:31:03,670

car that acts as your only oxygen supply

583

00:31:09,300 --> 00:31:06,630

unless you bring compressed air with you

584

00:31:11,850 --> 00:31:09,310

this pocket will only last for a short

585

00:31:13,460 --> 00:31:11,860

period and the carbon sensor tells us

586

00:31:18,930 --> 00:31:13,470

when it is too dangerous

587

00:31:21,510 --> 00:31:18,940

the c2 o4 unit is accurate from 50 to 60

588

00:31:26,370 --> 00:31:21,520

years a jump and travels at about 10

589

00:31:29,070 --> 00:31:26,380

years an hour at 100% power you do hear

590

00:31:31,710 --> 00:31:29,080

a slight hum as the unit operates and

591

00:31:35,010 --> 00:31:31,720

when the power changes or the unit turns

592

00:31:37,650 --> 00:31:35,020

off there is a great deal of electrical

593

00:31:44,390 --> 00:31:37,660

crackling noise from static electricity

594

00:31:48,120 --> 00:31:44,400

and quote what a gem well written and

595

00:31:51,180 --> 00:31:48,130

again for all of those sci-fi writers

596

00:31:56,270 --> 00:31:51,190

out there up until this time nobody

597

00:32:01,080 --> 00:31:56,280

looked at time-traveling like this ever

598

00:32:03,690 --> 00:32:01,090

the description for me back then was and

599

00:32:11,640 --> 00:32:03,700

I hate to use the word compelling but it

600

00:32:15,810 --> 00:32:11,650

sucked me in it really did but at the

601
00:32:18,240 --> 00:32:15,820
time this was the thing I was waiting

602
00:32:21,450 --> 00:32:18,250
for some genius I'm not quite smart

603
00:32:25,740 --> 00:32:21,460
enough to get out in one of these forum

604
00:32:27,780 --> 00:32:25,750
threads and just chop this guy to shreds

605
00:32:30,360 --> 00:32:27,790
and get this over with

606
00:32:32,640 --> 00:32:30,370
there was just no way I needed somebody

607
00:32:35,210 --> 00:32:32,650
I think we were all doing it by the way

608
00:32:39,080 --> 00:32:35,220
all of us that were reading back then

609
00:32:42,720 --> 00:32:39,090
were posting questions to hopefully

610
00:32:46,530 --> 00:32:42,730
cause him to stumble I think all of that

611
00:32:48,360 --> 00:32:46,540
was the intention of the questions well

612
00:32:52,320 --> 00:32:48,370
maybe some of them were genuine

613
00:32:54,360 --> 00:32:52,330

I suppose you know most of us wanted to

614

00:32:57,330 --> 00:32:54,370

believe but we were also expecting the

615

00:33:00,210 --> 00:32:57,340

inevitable which was somebody was gonna

616

00:33:02,490 --> 00:33:00,220

come in and bust this guy you know maybe

617

00:33:06,210 --> 00:33:02,500

an ex-girlfriend was gonna post have a--

618

00:33:07,830 --> 00:33:06,220

this guy you know a friend of his you

619

00:33:10,680 --> 00:33:07,840

know something that was gonna happen

620

00:33:12,900 --> 00:33:10,690

somebody he was gonna trip up somewhere

621

00:33:15,390 --> 00:33:12,910

and just say the wrong thing at the

622

00:33:18,150 --> 00:33:15,400

wrong time and and then his cover's

623

00:33:19,740 --> 00:33:18,160

blown and it's over with and quite

624

00:33:24,530 --> 00:33:19,750

honestly you know that just never

625

00:33:29,940 --> 00:33:24,540

happened so back to the 5100 computer

626

00:33:34,320 --> 00:33:29,950

which was built by IBM and John stated

627

00:33:36,810 --> 00:33:34,330

that his mission was to go from 2036

628

00:33:39,000 --> 00:33:36,820

back to 1975 and if I get any of the

629

00:33:41,070 --> 00:33:39,010

facts wrong or anything anybody wants to

630

00:33:44,610 --> 00:33:41,080

bust my chops on this I'm talking live

631

00:33:47,790 --> 00:33:44,620

on the radio right now have at it by the

632

00:33:53,040 --> 00:33:47,800

way is his mission was to go from 2036

633

00:33:56,760 --> 00:33:53,050

back to 1975 and recover an IBM 5100

634

00:33:59,160 --> 00:33:56,770

computer now when I started to read this

635

00:34:02,130 --> 00:33:59,170

back then I thought AHA now this is a

636

00:34:05,250 --> 00:34:02,140

situation where he can't he can't

637

00:34:06,540 --> 00:34:05,260

fabricate anything he's got a this has

638

00:34:08,669 --> 00:34:06,550

got to keep his story straight

639

00:34:10,409 --> 00:34:08,679

I actually thought at the time

640

00:34:13,530 --> 00:34:10,419

that if somebody was gonna bust him it

641

00:34:18,389 --> 00:34:13,540

was going to be about this 5100 and and

642

00:34:21,470 --> 00:34:18,399

and later on as years past from from

643

00:34:24,030 --> 00:34:21,480

2000 when he law as the years passed

644

00:34:26,520 --> 00:34:24,040

some information has come out about this

645

00:34:31,200 --> 00:34:26,530

and I'll visit that in a second but he

646

00:34:37,760 --> 00:34:31,210

said that the 5100 computer had the

647

00:34:41,819 --> 00:34:37,770

ability to read mainframe computers and

648

00:34:45,059 --> 00:34:41,829

their languages now what's he referring

649

00:34:48,990 --> 00:34:45,069

to when he says that today we're used to

650

00:34:50,730 --> 00:34:49,000

laptops and and tablets and what have

651
00:34:55,280 --> 00:34:50,740
you you know there's still some towers

652
00:34:57,000 --> 00:34:55,290
being sold somewhere but in the 60s and

653
00:34:59,970 --> 00:34:57,010
70s

654
00:35:02,339 --> 00:34:59,980
IBM built these monstrosities that

655
00:35:04,349 --> 00:35:02,349
you've seen in the movies these huge

656
00:35:06,079 --> 00:35:04,359
things the size of refrigerators with

657
00:35:08,730 --> 00:35:06,089
the big tape drives on them and and

658
00:35:12,390 --> 00:35:08,740
whatnot and I worked at Bell

659
00:35:14,430 --> 00:35:12,400
Laboratories in in the ninety nineteen

660
00:35:17,490 --> 00:35:14,440
80s and I'll never forget we had this

661
00:35:20,520 --> 00:35:17,500
main computer room on the first floor of

662
00:35:22,260 --> 00:35:20,530
one of the buildings that handled all of

663
00:35:24,059 --> 00:35:22,270

the computing systems any computer that

664

00:35:26,490 --> 00:35:24,069

you saw in somebody's desk was just a

665

00:35:28,559 --> 00:35:26,500

monitor everything was tied into these

666

00:35:30,660 --> 00:35:28,569

computers downstairs these huge things

667

00:35:32,970 --> 00:35:30,670

and people running around in lab coats

668

00:35:37,950 --> 00:35:32,980

that's what I'm talking about

669

00:35:43,109 --> 00:35:37,960

okay so the computers in 2036 had some

670

00:35:46,740 --> 00:35:43,119

issues and they needed to get a 5100 I B

671

00:35:48,420 --> 00:35:46,750

M which at that time in 1975 the 5100

672

00:35:50,640 --> 00:35:48,430

was like one of the first personal

673

00:35:52,440 --> 00:35:50,650

computers it's a little desktop little

674

00:35:55,829 --> 00:35:52,450

Cruiser thing with a built-in monitor

675

00:35:58,020 --> 00:35:55,839

and again if you're watching this as a

676
00:36:02,099 --> 00:35:58,030
video you're probably looking at a

677
00:36:04,440 --> 00:36:02,109
picture of it right now but anyway that

678
00:36:08,670 --> 00:36:04,450
this computer had the ability to plug

679
00:36:11,819 --> 00:36:08,680
into a mainframe and access its code and

680
00:36:13,319 --> 00:36:11,829
they needed to do that in the future for

681
00:36:16,710 --> 00:36:13,329
whatever reason that doesn't matter but

682
00:36:20,880 --> 00:36:16,720
but the fact that he stated something

683
00:36:22,140 --> 00:36:20,890
specific that this 5100 had the ability

684
00:36:24,329 --> 00:36:22,150
to read may

685
00:36:26,490 --> 00:36:24,339
frame computers was a piece of

686
00:36:30,029 --> 00:36:26,500
information that could be checked out

687
00:36:34,559 --> 00:36:30,039
and guess what the internet did and

688
00:36:39,890 --> 00:36:34,569

people did and we found out that yes

689

00:36:44,130 --> 00:36:39,900

indeed a small Corps of Engineers a

690

00:36:45,930 --> 00:36:44,140

handful of guys at IBM confirm this and

691

00:36:49,319 --> 00:36:45,940

they were the ones that knew that

692

00:36:51,990 --> 00:36:49,329

absolutely it could do this it had some

693

00:36:55,650 --> 00:36:52,000

kind of I can't remember 360 emulator

694

00:37:00,720 --> 00:36:55,660

circuited whatever and allowed you know

695

00:37:02,279 --> 00:37:00,730

the ROM to be written read but it was it

696

00:37:03,410 --> 00:37:02,289

was something that all of us could go

697

00:37:06,329 --> 00:37:03,420

aha

698

00:37:08,849 --> 00:37:06,339

maybe he's telling the truth about this

699

00:37:11,430 --> 00:37:08,859

but he had also said in his post

700

00:37:14,220 --> 00:37:11,440

something else that I think all of us

701
00:37:19,230 --> 00:37:14,230
found interesting which was this it was

702
00:37:25,160 --> 00:37:19,240
a relative of his that worked on the

703
00:37:27,930 --> 00:37:25,170
original 5100 now I thought to myself

704
00:37:32,250 --> 00:37:27,940
there's there's the smoking gun in this

705
00:37:34,049 --> 00:37:32,260
hoax he leads us on this 5100 path and

706
00:37:36,029 --> 00:37:34,059
everybody confirms it but then in

707
00:37:38,039 --> 00:37:36,039
reality if you look at this you start to

708
00:37:43,410 --> 00:37:38,049
peel back the layers a little bit did he

709
00:37:47,730 --> 00:37:43,420
slip up for the first time in that did

710
00:37:50,700 --> 00:37:47,740
this hoaxer have a relative that gave

711
00:37:53,640 --> 00:37:50,710
him or gave the team of hoaxers this

712
00:37:56,730 --> 00:37:53,650
information about the 5100 and inserted

713
00:37:58,819 --> 00:37:56,740

this into the story because they were

714

00:38:02,849 --> 00:37:58,829

the ones that knew about it

715

00:38:07,980 --> 00:38:02,859

possibility strong possibility and as it

716

00:38:10,019 --> 00:38:07,990

turns out I'll get to that I don't want

717

00:38:12,660 --> 00:38:10,029

to I don't want to get too sideways in

718

00:38:16,079 --> 00:38:12,670

the story but as it turns out now today

719

00:38:18,450 --> 00:38:16,089

and then now now you know the some John

720

00:38:22,440 --> 00:38:18,460

Titor investigators out there have found

721

00:38:26,339 --> 00:38:22,450

that the lawyer that represents John

722

00:38:28,079 --> 00:38:26,349

teeters family owns a company called the

723

00:38:32,130 --> 00:38:28,089

John Titor foundation we'll get into

724

00:38:35,750 --> 00:38:32,140

that too as well but he's got relatives

725

00:38:39,770 --> 00:38:35,760

and his son that are compete

726

00:38:43,130 --> 00:38:39,780

nerds and possibly could this

727

00:38:44,930 --> 00:38:43,140

information have come from them it's

728

00:38:47,750 --> 00:38:44,940

like the one little hole in the story

729

00:38:50,360 --> 00:38:47,760

there's half of it that makes sense and

730

00:38:52,070 --> 00:38:50,370

is it's a total genius and then there's

731

00:38:55,940 --> 00:38:52,080

the other half of it where it's just a

732

00:39:00,530 --> 00:38:55,950

big aha moment okay with that I'm gonna

733

00:39:04,070 --> 00:39:00,540

take a break this is Kay JCR fade to

734

00:39:06,800 --> 00:39:04,080

black I am your host Jimmy church we on

735

00:39:10,250 --> 00:39:06,810

the Dark Matter radio network and I hope

736

00:39:13,970 --> 00:39:10,260

you're having a great Friday two days

737

00:39:15,980 --> 00:39:13,980

after Christmas all right Doug take us

738

00:39:35,180 --> 00:39:15,990

out I'll be back in just a moment

739

00:39:35,190 --> 00:39:46,180

this is kjc our Jimmy Church radio

740

00:40:38,219 --> 00:39:48,590

Queens of the Stone Age you listen to

741

00:40:43,900 --> 00:40:40,449

all right everybody welcome back

742

00:40:46,089 --> 00:40:43,910

this is fade to black you're listening

743

00:40:48,689 --> 00:40:46,099

to KJ CR and the dark matter radio

744

00:40:51,249 --> 00:40:48,699

network I am your host Jimmy Church I

745

00:40:53,920 --> 00:40:51,259

feel like one of those late-night radio

746

00:40:55,390 --> 00:40:53,930

guys I really do

747

00:40:57,609 --> 00:40:55,400

and I hope you're having a wonderful

748

00:41:00,160 --> 00:40:57,619

Friday email me to Jimmy at Jimmy Church

749

00:41:04,390 --> 00:41:00,170

radio.com tell me what you think about

750

00:41:06,819 --> 00:41:04,400

John Titor it's an amazing story spend

751

00:41:10,569 --> 00:41:06,829

some time this week if it's a news story

752

00:41:13,509 --> 00:41:10,579

to you John Titor spent some time this

753

00:41:16,870 --> 00:41:13,519

week doing a little bit of reading send

754

00:41:19,029 --> 00:41:16,880

me some email post tweet you know what

755

00:41:21,670 --> 00:41:19,039

to do you can follow us you can

756

00:41:25,680 --> 00:41:21,680

subscribe to us you can certainly like

757

00:41:29,829 --> 00:41:25,690

us alright talking about John Titor and

758

00:41:34,180 --> 00:41:29,839

if you're just coming in now telling the

759

00:41:37,420 --> 00:41:34,190

story about a time traveler from 2036

760

00:41:40,900 --> 00:41:37,430

his name was John Titor time travel

761

00:41:44,380 --> 00:41:40,910

underscore zero is what he had used for

762

00:41:49,150 --> 00:41:44,390

a bunch of forums originally oddly

763

00:41:51,219 --> 00:41:49,160

enough tied to art Bell in the year 2000

764

00:41:53,049 --> 00:41:51,229

now all of the posts that he had done

765

00:41:56,229 --> 00:41:53,059

and I'm not going to read it would take

766

00:41:59,559 --> 00:41:56,239

literally two weeks of shows to to read

767

00:42:03,099 --> 00:41:59,569

everything that he had posted but and

768

00:42:04,829 --> 00:42:03,109

all of the original posts took place pre

769

00:42:08,400 --> 00:42:04,839

9/11

770

00:42:14,559 --> 00:42:08,410

okay those events hadn't happened yet so

771

00:42:17,170 --> 00:42:14,569

if you think about it in those terms the

772

00:42:20,410 --> 00:42:17,180

world certainly the United States but

773

00:42:25,630 --> 00:42:20,420

the world changed radically shortly

774

00:42:28,359 --> 00:42:25,640

after that but okay so he says that he's

775

00:42:30,370 --> 00:42:28,369

from the Year 2036 and he had to go back

776

00:42:33,660 --> 00:42:30,380

to 1975 which I'm going to talk about

777

00:42:37,749 --> 00:42:33,670

right now and he was on his way back to

778

00:42:40,390 --> 00:42:37,759

2036 when he decided to stop by the year

779

00:42:43,630 --> 00:42:40,400

2000 do a little drive-by hang out with

780

00:42:46,709 --> 00:42:43,640

his family do a little visit and not

781

00:42:48,819 --> 00:42:46,719

only that check this out

782

00:42:56,440 --> 00:42:48,829

to visit

783

00:43:03,699 --> 00:42:56,450

himself Little John Titor mini John mini

784

00:43:06,489 --> 00:43:03,709

Teeter yeah and the thing is about the

785

00:43:09,870 --> 00:43:06,499

story and all of the post and everything

786

00:43:12,309 --> 00:43:09,880

that had gone down at that time it

787

00:43:16,180 --> 00:43:12,319

nobody shot any holes in it nobody was

788

00:43:19,449 --> 00:43:16,190

able to really pick it apart his story

789

00:43:23,109 --> 00:43:19,459

if it was a hoax his story was so well

790

00:43:28,029 --> 00:43:23,119

put together that nobody could and we're

791

00:43:30,999 --> 00:43:28,039

still trying okay so now picking up

792

00:43:33,099 --> 00:43:31,009

where I left off before the break we're

793

00:43:35,589 --> 00:43:33,109

talking about the 5100 computer that he

794

00:43:37,539 --> 00:43:35,599

went back to go and get now check this

795

00:43:40,900 --> 00:43:37,549

out Nana and I have been saying and you

796

00:43:43,900 --> 00:43:40,910

have to understand and get your head

797

00:43:46,959 --> 00:43:43,910

around exactly what I'm trying to say to

798

00:43:49,120 --> 00:43:46,969

you which is he answered just about

799

00:43:53,589 --> 00:43:49,130

every question that was thrown at him

800

00:43:58,029 --> 00:43:53,599

and some of it was fairly quick in

801
00:44:00,969 --> 00:43:58,039
response and also I meant to say this

802
00:44:03,579 --> 00:44:00,979
earlier but for somebody from 2036 it

803
00:44:08,319 --> 00:44:03,589
didn't seem like he was too too versed

804
00:44:10,660 --> 00:44:08,329
in in computers but in the way that at

805
00:44:13,359 --> 00:44:10,670
least in the way that they ran in the

806
00:44:14,920 --> 00:44:13,369
year 2000 I don't know what it was like

807
00:44:18,489 --> 00:44:14,930
in 2036

808
00:44:20,799 --> 00:44:18,499
but sometimes he seemed a little

809
00:44:23,589 --> 00:44:20,809
juvenile when it came to computing and

810
00:44:26,259 --> 00:44:23,599
he also insisted that he wasn't a

811
00:44:29,650 --> 00:44:26,269
physicist and he wasn't a scientist he's

812
00:44:33,249 --> 00:44:29,660
just a soldier in an army from the

813
00:44:34,779 --> 00:44:33,259

future that was sent on a mission and he

814

00:44:36,279 --> 00:44:34,789

would try it the other thing was that

815

00:44:39,089 --> 00:44:36,289

was fascinating that you know he

816

00:44:42,969 --> 00:44:39,099

believed in Jesus and okay so anyway

817

00:44:46,660 --> 00:44:42,979

before I get sideways here's a question

818

00:44:50,039 --> 00:44:46,670

that was thrown at him why did you go

819

00:44:56,859 --> 00:44:50,049

back to 1975 simple enough question

820

00:45:01,319 --> 00:44:56,869

admits he says and I quote the first leg

821

00:45:02,470 --> 00:45:01,329

of my trip was from 2036 to 1975 after

822

00:45:06,040 --> 00:45:02,480

2v

823

00:45:10,210 --> 00:45:06,050

gl checks the divergence was estimated

824

00:45:13,359 --> 00:45:10,220

at about 2.5 percent from my 2036 time I

825

00:45:16,480 --> 00:45:13,369

was sent to get an IBM computer system

826

00:45:18,700 --> 00:45:16,490

called to fit the 5100 it was one of the

827

00:45:21,190 --> 00:45:18,710

first portable computers made and it

828

00:45:23,740 --> 00:45:21,200

will and it has the ability to read

829

00:45:28,630 --> 00:45:23,750

older IBM programming languages in

830

00:45:32,230 --> 00:45:28,640

addition to APL and basic we need the

831

00:45:36,870 --> 00:45:32,240

system to debug various legacy computer

832

00:45:42,040 --> 00:45:36,880

programs in 2036 UNIX has a problem in

833

00:45:45,099 --> 00:45:42,050

2038 on my world line it is known that

834

00:45:47,890 --> 00:45:45,109

the 5100 series is capable of reading

835

00:45:51,330 --> 00:45:47,900

all of the IBM code written before the

836

00:45:54,370 --> 00:45:51,340

widespread use of APL and basic

837

00:45:58,530 --> 00:45:54,380

unfortunately there are none left that

838

00:46:02,920 --> 00:45:58,540

anyone can find on my world line

839

00:46:05,380 --> 00:46:02,930

technologies themselves are not lost but

840

00:46:08,650 --> 00:46:05,390

some of the older tools and techniques

841

00:46:10,300 --> 00:46:08,660

have been lost I think there was more

842

00:46:13,810 --> 00:46:10,310

detailed information about the war

843

00:46:18,130 --> 00:46:13,820

posted earlier when I leave I will

844

00:46:24,790 --> 00:46:18,140

return to 2036 the computer I have is

845

00:46:27,790 --> 00:46:24,800

expected there and of post now if you're

846

00:46:31,150 --> 00:46:27,800

gonna tell a lie if you're gonna make

847

00:46:33,490 --> 00:46:31,160

something up you can't come up with

848

00:46:38,470 --> 00:46:33,500

these kind of details you just can't do

849

00:46:42,849 --> 00:46:38,480

it and everybody out there everybody has

850

00:46:46,990 --> 00:46:42,859

lied the Pope has lied everybody has

851

00:46:50,740 --> 00:46:47,000

lied at least once and whether it is

852

00:46:55,270 --> 00:46:50,750

something simple like hey have you ever

853

00:47:00,670 --> 00:46:55,280

stolen a pen ever taken a pen from your

854

00:47:04,510 --> 00:47:00,680

place of employment no I haven't that's

855

00:47:11,200 --> 00:47:04,520

a lie everybody's taking a pen from work

856

00:47:13,810 --> 00:47:11,210

it's not right but everybody has and so

857

00:47:16,330 --> 00:47:13,820

if you're gonna turn around and and have

858

00:47:18,040 --> 00:47:16,340

to be forced into making something

859

00:47:21,670 --> 00:47:18,050

whether you're talking to the police or

860

00:47:25,180 --> 00:47:21,680

your mom you just wrecked the car and

861

00:47:30,460 --> 00:47:25,190

you got to concoct some story whatever

862

00:47:34,030 --> 00:47:30,470

it is you're gonna stay basic you're

863

00:47:37,950 --> 00:47:34,040

gonna say keep it simple you have to you

864

00:47:42,670 --> 00:47:37,960

just have to I've said it on this show

865

00:47:47,100 --> 00:47:42,680

many many times the truth is in the

866

00:47:50,980 --> 00:47:47,110

details the truth is in the details and

867

00:47:53,950 --> 00:47:50,990

if you are telling the truth you can

868

00:47:57,040 --> 00:47:53,960

literally get down to the most minut

869

00:48:00,670 --> 00:47:57,050

detail of anything that you are trying

870

00:48:02,530 --> 00:48:00,680

to explain from the car that is passing

871

00:48:04,840 --> 00:48:02,540

to your left to the clothes that you

872

00:48:06,550 --> 00:48:04,850

have on to what the person is wearing to

873

00:48:09,730 --> 00:48:06,560

your right is it sunny

874

00:48:11,050 --> 00:48:09,740

is it cloudy are you cold are you warm

875

00:48:13,180 --> 00:48:11,060

how much money is in your pocket

876

00:48:14,980 --> 00:48:13,190

whatever detail you need for that moment

877

00:48:20,590 --> 00:48:14,990

that because it's the truth you can

878

00:48:24,430 --> 00:48:20,600

immediately grab so when John Titor is

879

00:48:28,000 --> 00:48:24,440

posting these kind of details in his

880

00:48:31,630 --> 00:48:28,010

post that's what causes everybody to

881

00:48:36,310 --> 00:48:31,640

pause for a second and think to

882

00:48:41,640 --> 00:48:36,320

themselves hey you know what this guy it

883

00:48:48,490 --> 00:48:41,650

reads as truth I mean it just reads

884

00:48:51,610 --> 00:48:48,500

fluidly it doesn't feel made-up but of

885

00:48:56,320 --> 00:48:51,620

course it's a hoax it has to be made up

886

00:48:59,380 --> 00:48:56,330

right what did I just say if you're

887

00:49:01,570 --> 00:48:59,390

gonna lie if you're gonna hoax you don't

888

00:49:04,500 --> 00:49:01,580

have these kind of details and this is

889

00:49:09,300 --> 00:49:04,510

just a paragraph that I just read you

890

00:49:14,530 --> 00:49:09,310

there are photographs and manuals and

891

00:49:17,710 --> 00:49:14,540

details of just doubt it is crazy how

892

00:49:20,350 --> 00:49:17,720

detailed this hoax is and how far

893

00:49:23,620 --> 00:49:20,360

somebody was willing to go to either

894

00:49:28,150 --> 00:49:23,630

hoax or if it's true then it's all

895

00:49:29,800 --> 00:49:28,160

simple check out this post again I just

896

00:49:32,950 --> 00:49:29,810

find this so interesting

897

00:49:35,080 --> 00:49:32,960

question earlier you said something was

898

00:49:37,780 --> 00:49:35,090

wrong with the UNIX computer code on

899

00:49:42,550 --> 00:49:37,790

your world line what's wrong with it

900

00:49:45,670 --> 00:49:42,560

his answer quote yes and with yours too

901
00:49:48,970 --> 00:49:45,680
I have to believe that there must be a

902
00:49:52,330 --> 00:49:48,980
UNIX expert out there someplace that can

903
00:49:55,180 --> 00:49:52,340
confirm that I'm not exactly sure what

904
00:49:58,180 --> 00:49:55,190
the technical issue is but I believe

905
00:50:07,210 --> 00:49:58,190
some sort of UNIX system registry stops

906
00:50:10,930 --> 00:50:07,220
in 2038 and quote and a post now going

907
00:50:14,860 --> 00:50:10,940
back to what I had just said if you're

908
00:50:17,650 --> 00:50:14,870
going to lie you can't you just don't

909
00:50:20,110 --> 00:50:17,660
have details and in this little

910
00:50:23,710 --> 00:50:20,120
paragraph that I've just read you it's

911
00:50:27,310 --> 00:50:23,720
very short but it's very telling he

912
00:50:29,440 --> 00:50:27,320
doesn't give an answer here and if like

913
00:50:33,250 --> 00:50:29,450

I said if somebody is behind him if

914

00:50:36,100 --> 00:50:33,260

there's some some team of writers behind

915

00:50:40,030 --> 00:50:36,110

him telling him what to or writing these

916

00:50:41,830 --> 00:50:40,040

posts intelligently then why isn't there

917

00:50:44,250 --> 00:50:41,840

an answer here because this is one of

918

00:50:47,200 --> 00:50:44,260

the easiest things to answer isn't it

919

00:50:50,140 --> 00:50:47,210

but his answer says well you know

920

00:50:52,900 --> 00:50:50,150

there's got to be a UNIX expert out

921

00:50:56,880 --> 00:50:52,910

there and you know what there are and

922

00:51:01,240 --> 00:50:56,890

there was and they checked it out and

923

00:51:04,120 --> 00:51:01,250

that's the crazy thing if there is think

924

00:51:06,550 --> 00:51:04,130

about what I'm saying if there is a

925

00:51:10,750 --> 00:51:06,560

computer expert in this little hoax team

926
00:51:12,190 --> 00:51:10,760
of Titor team Titor then this question

927
00:51:13,900 --> 00:51:12,200
is answered because they want to stay

928
00:51:16,720 --> 00:51:13,910
factual and they want to convince us all

929
00:51:20,410 --> 00:51:16,730
that this is real but instead it's a

930
00:51:22,780 --> 00:51:20,420
vague answer it's an answer coming from

931
00:51:25,270 --> 00:51:22,790
somebody that I'm sorry but it's telling

932
00:51:30,930 --> 00:51:25,280
the truth and this is what I firmly

933
00:51:33,610 --> 00:51:30,940
believe I want it to be true oh I do and

934
00:51:35,530 --> 00:51:33,620
and before you think you know okay Jimmy

935
00:51:40,890 --> 00:51:35,540
all right Jimmy you're nuts

936
00:51:43,720 --> 00:51:40,900
they it's been 13 years now I'm waiting

937
00:51:46,750 --> 00:51:43,730
I'm waiting for somebody

938
00:51:49,900 --> 00:51:46,760

to come forward and just rip the covers

939

00:51:51,940 --> 00:51:49,910

off of this and go haha alright we've

940

00:51:54,099 --> 00:51:51,950

all been had because then you know what

941

00:51:58,000 --> 00:51:54,109

great you know what it's a great story

942

00:52:00,310 --> 00:51:58,010

it will make a great movie awesome but

943

00:52:02,500 --> 00:52:00,320

it hasn't happened yet and that's why

944

00:52:05,470 --> 00:52:02,510

you're listening to fade to black I am

945

00:52:08,140 --> 00:52:05,480

your host Jimmy Church kjc are on the

946

00:52:10,090 --> 00:52:08,150

dark matter radio network we are live

947

00:52:13,000 --> 00:52:10,100

from the Jaypee Motorsports Studios

948

00:52:15,730 --> 00:52:13,010

right here in Burbank California or

949

00:52:17,920 --> 00:52:15,740

about John Titor when we come back one

950

00:52:39,760 --> 00:52:17,930

more segment then I'm out of here back

951
00:52:45,680 --> 00:52:42,440
Viveca box here and you are listening to

952
00:52:52,400 --> 00:52:45,690
my boy Jimmy Church Oh Jimmy chose radio

953
00:53:17,420 --> 00:52:52,410
calm this my popular opinion reading a

954
00:53:24,979 --> 00:53:20,430
hard everybody thanks for coming in

955
00:53:31,650 --> 00:53:24,989
tonight fade to black

956
00:53:34,529 --> 00:53:31,660
I'm your host Jimmy Church kjc are on

957
00:53:36,259 --> 00:53:34,539
the dark matter radio network just love

958
00:53:41,519 --> 00:53:36,269
saying that rolls off the tongue

959
00:53:44,999 --> 00:53:41,529
dark matter radio never all right shoot

960
00:53:46,559 --> 00:53:45,009
me an email Jimmy at Jimmy Church radio

961
00:53:49,799 --> 00:53:46,569
calm follow us on Twitter Facebook

962
00:53:52,650 --> 00:53:49,809
YouTube get er done get over to the

963
00:53:55,079 --> 00:53:52,660

website spend some time there

964

00:53:58,140 --> 00:53:55,089

we've also on the website before I get

965

00:54:00,390 --> 00:53:58,150

back to John Titor on the website we've

966

00:54:04,950 --> 00:54:00,400

got some pretty cool little Easter eggs

967

00:54:06,630 --> 00:54:04,960

stashed on all of the pages and if you

968

00:54:08,609 --> 00:54:06,640

go around and you find them okay great

969

00:54:10,559 --> 00:54:08,619

cool you know it's some of its funny

970

00:54:12,329 --> 00:54:10,569

some of its cool but you got to do the

971

00:54:15,329 --> 00:54:12,339

work you got to go to the website and

972

00:54:19,380 --> 00:54:15,339

check it out and if you do figure some

973

00:54:22,170 --> 00:54:19,390

of them out there's only one way out of

974

00:54:23,729 --> 00:54:22,180

it and I will find out and it'll be

975

00:54:26,880 --> 00:54:23,739

really cool and I'll respond to

976

00:54:32,579 --> 00:54:26,890

everybody that figures it out okay all

977

00:54:34,259 --> 00:54:32,589

right so now moving on John Titor how

978

00:54:38,160 --> 00:54:34,269

does the John Titor saga

979

00:54:41,519 --> 00:54:38,170

end well so far it hasn't it's continued

980

00:54:44,670 --> 00:54:41,529

on for 13 years but with all of the

981

00:54:47,880 --> 00:54:44,680

investigations that have and are ongoing

982

00:54:50,219 --> 00:54:47,890

by the way and certainly my own I

983

00:54:52,729 --> 00:54:50,229

mentioned earlier a series of videos on

984

00:54:55,890 --> 00:54:52,739

YouTube you can go check this out and

985

00:54:57,900 --> 00:54:55,900

there's stuff on Wikipedia too as well

986

00:54:59,880 --> 00:54:57,910

and and there's plenty of websites that

987

00:55:02,910 --> 00:54:59,890

you can go to and you can I was also a

988

00:55:05,519 --> 00:55:02,920

good resource for material is John Titor

989

00:55:06,989 --> 00:55:05,529

comm and Oliver Williams if you're

990

00:55:09,630 --> 00:55:06,999

listening I've been trying to chase you

991

00:55:12,599 --> 00:55:09,640

down Oliver we've got to get you on the

992

00:55:17,339 --> 00:55:12,609

show so we can have an official the

993

00:55:21,299 --> 00:55:17,349

return of John Titor episode alright so

994

00:55:25,380 --> 00:55:21,309

how did it end well an Italian TV show

995

00:55:28,920 --> 00:55:25,390

and it was called Voyager and I still

996

00:55:30,540 --> 00:55:28,930

remember when this went down aired a

997

00:55:33,540 --> 00:55:30,550

special

998

00:55:35,190 --> 00:55:33,550

John Titor and it happened and I'm gonna

999

00:55:38,160 --> 00:55:35,200

guess now I'm gonna say five or six

1000

00:55:41,730 --> 00:55:38,170

years ago and there was a private

1001
00:55:43,350 --> 00:55:41,740
detective that was involved and they are

1002
00:55:47,610 --> 00:55:43,360
going through first off they're trying

1003
00:55:49,950 --> 00:55:47,620
to find any sources of the Titor family

1004
00:55:51,420 --> 00:55:49,960
the Titor name which you should do on

1005
00:55:54,120 --> 00:55:51,430
your own go and check that out that's

1006
00:55:57,390 --> 00:55:54,130
pretty interesting but also the John

1007
00:56:02,640 --> 00:55:57,400
Titor foundation now there was an

1008
00:56:05,430 --> 00:56:02,650
address that was that was dug up and it

1009
00:56:07,260 --> 00:56:05,440
was to a post office box in Kissimmee

1010
00:56:08,760 --> 00:56:07,270
Florida and again there's a whole video

1011
00:56:11,550 --> 00:56:08,770
series on the net where you can check

1012
00:56:14,370 --> 00:56:11,560
this out where they actually go to I

1013
00:56:18,320 --> 00:56:14,380

think to actually to post office boxes

1014

00:56:22,320 --> 00:56:18,330

and they chased this down and they go to

1015

00:56:26,430 --> 00:56:22,330

some offices that are empty when they

1016

00:56:28,080 --> 00:56:26,440

get there but I had supposedly belonged

1017

00:56:31,830 --> 00:56:28,090

to and I think they did not supposedly

1018

00:56:37,080 --> 00:56:31,840

belong to Larry Hebert who is the

1019

00:56:39,510 --> 00:56:37,090

attorney of the Titor family or so he

1020

00:56:41,520 --> 00:56:39,520

says and then he represents John teeters

1021

00:56:43,320 --> 00:56:41,530

mom and if you go back and listen to

1022

00:56:46,260 --> 00:56:43,330

some of the old episodes of coast to

1023

00:56:48,240 --> 00:56:46,270

coast which I invite you to do with

1024

00:56:49,890 --> 00:56:48,250

Larry haver Larry Haber's got John

1025

00:56:55,110 --> 00:56:49,900

teeters mama in the other line and does

1026

00:56:58,050 --> 00:56:55,120

this whole translation thing with his

1027

00:57:00,210 --> 00:56:58,060

mom with John teeters mom and again well

1028

00:57:03,750 --> 00:57:00,220

done if it's if it's all an act

1029

00:57:07,560 --> 00:57:03,760

but anyway Larry Hebert as it turns out

1030

00:57:11,220 --> 00:57:07,570

is the CEO of a foundation with John

1031

00:57:14,220 --> 00:57:11,230

teeters name on it now Larry Hebert of

1032

00:57:17,700 --> 00:57:14,230

all things turns out to be an

1033

00:57:19,440 --> 00:57:17,710

entertainment lawyer now this is where

1034

00:57:24,830 --> 00:57:19,450

everybody should just go wait wait wait

1035

00:57:27,450 --> 00:57:24,840

wait what an entertainment attorney

1036

00:57:29,730 --> 00:57:27,460

representing the family why why is that

1037

00:57:31,680 --> 00:57:29,740

well he's got a whole story on how he

1038

00:57:34,160 --> 00:57:31,690

got involved and how he was brought into

1039

00:57:38,550 --> 00:57:34,170

this okay all right and I'm not saying

1040

00:57:43,200 --> 00:57:38,560

anything bad about Larry Hebert the

1041

00:57:44,220 --> 00:57:43,210

attorney because by all standards he's a

1042

00:57:49,650 --> 00:57:44,230

he's

1043

00:57:52,470 --> 00:57:49,660

attorney and everybody speaks well and

1044

00:57:53,520 --> 00:57:52,480

highly about he's got no no shady past

1045

00:57:55,830 --> 00:57:53,530

to him

1046

00:57:58,290 --> 00:57:55,840

I just find it curious that in a

1047

00:58:02,010 --> 00:57:58,300

situation like this why is the family

1048

00:58:04,050 --> 00:58:02,020

hiring an entertainment lawyer unless

1049

00:58:08,400 --> 00:58:04,060

there's something else to it not not

1050

00:58:10,440 --> 00:58:08,410

anything dark but maybe maybe he's a

1051

00:58:12,750 --> 00:58:10,450

friend of a friend I mean he's got his

1052

00:58:14,250 --> 00:58:12,760

own story I'm just speculating here but

1053

00:58:16,230 --> 00:58:14,260

maybe he's a friend of a friend maybe he

1054

00:58:19,080 --> 00:58:16,240

was referred maybe he's working pro bono

1055

00:58:20,400 --> 00:58:19,090

maybe the teeter family's broke maybe

1056

00:58:23,430 --> 00:58:20,410

they didn't have a choice

1057

00:58:26,670 --> 00:58:23,440

maybe he approached them whatever but

1058

00:58:29,520 --> 00:58:26,680

Larry Haber seems by all accounts to be

1059

00:58:32,970 --> 00:58:29,530

a stand-up guy except for there's one

1060

00:58:39,210 --> 00:58:32,980

little problem his brother Rick Haber is

1061

00:58:44,030 --> 00:58:39,220

an arleigh computer expert and again

1062

00:58:46,290 --> 00:58:44,040

I've just talked about this for Oh

1063

00:58:49,349 --> 00:58:46,300

better part maybe an hour hour and a

1064

00:58:52,410 --> 00:58:49,359

half and I've already told you I'm not

1065

00:58:55,710 --> 00:58:52,420

really a skeptic on this I am playing

1066

00:58:59,040 --> 00:58:55,720

the role of skeptic but I want to

1067

00:59:01,320 --> 00:58:59,050

believe and when you put and put this

1068

00:59:03,120 --> 00:59:01,330

part of the ending to the story and not

1069

00:59:07,140 --> 00:59:03,130

an ending but where we are standing

1070

00:59:10,940 --> 00:59:07,150

today to the story it causes some issues

1071

00:59:14,099 --> 00:59:10,950

but if he's an entertainment attorney

1072

00:59:18,900 --> 00:59:14,109

and you've got a sensational story like

1073

00:59:22,070 --> 00:59:18,910

this right there in your pocket it would

1074

00:59:24,960 --> 00:59:22,080

seem like any movie studio in in

1075

00:59:27,840 --> 00:59:24,970

Hollywood would be chomping at the bit

1076

00:59:30,030 --> 00:59:27,850

to get this story because it would make

1077

00:59:31,680 --> 00:59:30,040

a sensational movie there's no question

1078

00:59:33,720 --> 00:59:31,690

about it it's got everything all

1079

00:59:36,420 --> 00:59:33,730

everything in there Anna and the thing

1080

00:59:37,740 --> 00:59:36,430

is even though if you're gonna write and

1081

00:59:39,150 --> 00:59:37,750

you're a Hollywood script writer and

1082

00:59:41,340 --> 00:59:39,160

you're gonna write a screenplay and

1083

00:59:45,390 --> 00:59:41,350

you're gonna create something like this

1084

00:59:46,650 --> 00:59:45,400

out of your own imagination kudos I mean

1085

00:59:49,020 --> 00:59:46,660

that would be an achievement but the

1086

00:59:52,220 --> 00:59:49,030

thing is you wouldn't be making it up

1087

00:59:55,410 --> 00:59:52,230

because this story is true this story

1088

00:59:57,420 --> 00:59:55,420

actually happened the post actually

1089

00:59:58,080 --> 00:59:57,430
occurred on the net art Belle did

1090

01:00:01,140 --> 00:59:58,090
receive the

1091

01:00:03,990 --> 01:00:01,150
original faxes in 1978 all the forms

1092

01:00:06,750 --> 01:00:04,000
stuff has been preserved everything has

1093

01:00:10,650 --> 01:00:06,760
been archived the photographs are real

1094

01:00:13,230 --> 01:00:10,660
out well the real pics I should say all

1095

01:00:17,070 --> 01:00:13,240
of that is real so it would seem like a

1096

01:00:19,230 --> 01:00:17,080
Hollywood production company would be

1097

01:00:21,690 --> 01:00:19,240
all over this and if you're Larry Haber

1098

01:00:25,080 --> 01:00:21,700
that's the easiest thing to negotiate I

1099

01:00:29,100 --> 01:00:25,090
would think so why hasn't it happened

1100

01:00:35,340 --> 01:00:29,110
the b-movie that is out there and it's

1101

01:00:36,440 --> 01:00:35,350

bad it's B it's C it's D sue me is is

1102

01:00:41,010 --> 01:00:36,450

awful

1103

01:00:43,770 --> 01:00:41,020

so Larry Haber if he and it has intended

1104

01:00:46,230 --> 01:00:43,780

to make some money off of this what I

1105

01:00:49,200 --> 01:00:46,240

would have thought that there would be

1106

01:00:52,740 --> 01:00:49,210

something moving forward in a very grand

1107

01:00:55,230 --> 01:00:52,750

scale and that hasn't happened so it's a

1108

01:00:58,710 --> 01:00:55,240

just a very funny twist which again in

1109

01:01:03,240 --> 01:00:58,720

its own weird way adds the element of

1110

01:01:07,080 --> 01:01:03,250

truth back into the story it's an

1111

01:01:07,860 --> 01:01:07,090

amazing story I tell you what I've got

1112

01:01:11,010 --> 01:01:07,870

to get out of here

1113

01:01:13,440 --> 01:01:11,020

next week is New Year's everybody have a

1114

01:01:16,650 --> 01:01:13,450

great New Year's and have a great safe

1115

01:01:21,030 --> 01:01:16,660

weekend this weekend next Thursday

1116

01:01:22,710 --> 01:01:21,040

John Anthony West here in the studio

1117

01:01:25,560 --> 01:01:22,720

well not here in the studio he's in New

1118

01:01:28,710 --> 01:01:25,570

York but we'll be coming in via Skype

1119

01:01:31,830 --> 01:01:28,720

and I'm going to try to get his video

1120

01:01:34,320 --> 01:01:31,840

feed live somehow we're gonna figure out

1121

01:01:38,130 --> 01:01:34,330

a way to get that done he wants to do

1122

01:01:40,860 --> 01:01:38,140

video and as well as and he also he's

1123

01:01:44,010 --> 01:01:40,870

insisting by the way I'm doing the

1124

01:01:47,310 --> 01:01:44,020

entire three hours and I have the

1125

01:01:49,770 --> 01:01:47,320

feeling talking to John this week that I

1126

01:01:52,290 --> 01:01:49,780

only have to ask one or two questions

1127

01:01:55,080 --> 01:01:52,300

and then I just kick back and then three

1128

01:01:57,540 --> 01:01:55,090

hours are his but do enjoy it that'll be

1129

01:02:00,330 --> 01:01:57,550

next Thursday I know that I said last

1130

01:02:01,590 --> 01:02:00,340

night that he would be on Wednesday I

1131

01:02:05,970 --> 01:02:01,600

did that in the air

1132

01:02:09,450 --> 01:02:05,980

forget it that okay so everybody out

1133

01:02:10,680 --> 01:02:09,460

there have a great safe weekend we will

1134

01:02:12,840 --> 01:02:10,690

see you next week

1135

01:02:15,990 --> 01:02:12,850

the show is produced by executive

1136

01:02:19,500 --> 01:02:16,000

producer is Rita Kumari on produced by

1137

01:02:24,240 --> 01:02:19,510

Hilton Jay Paul music is by doug aldrich
