with our special presentation from

15

00:01:02,410 --> 00:00:58,649
everybody here at fade to black

16

00:01:04,460 --> 00:01:02,420
I'm the Malibu deep underwater base and

17

00:01:06,950 --> 00:01:04,470
entrance that was discovered off the

18

00:01:08,750 --> 00:01:06,960
coast of Malibu at Point Dume which

19

00:01:11,480 --> 00:01:08,760
appears to be the Holy Grail a view a

20

00:01:13,490 --> 00:01:11,490
phone you have so researchers that have

21

00:01:17,929 --> 00:01:13,500
been looking for it for the past 40

22

00:01:20,539 --> 00:01:17,939
years we made the discovery on the week

23

00:01:23,270 --> 00:01:20,549
of May 12th which was a Monday we

24

00:01:25,880 --> 00:01:23,280
announced it on the site's Facebook

25

00:01:28,580 --> 00:01:25,890
Twitter on Tuesday and then on Wednesday

26
00:01:31,340 --> 00:01:28,590
we announced it to the world what you

27
00:01:33,499 --> 00:01:31,350
are looking at here is the third image

28
00:01:34,609 --> 00:01:33,509
that we release and you need to

29
00:01:37,660 --> 00:01:34,619
understand one thing that is very

30
00:01:41,800 --> 00:01:37,670
important these are the straight files

31
00:01:45,520 --> 00:01:41,810
untouched there's nothing funny here

32
00:01:48,560 --> 00:01:45,530
nothing has been manipulated at all

33
00:01:51,770 --> 00:01:48,570
these are the straight images from

34
00:01:55,310 --> 00:01:51,780
Google Earth and you can clearly see in

35
00:01:59,450 --> 00:01:55,320
this image it is two and a half miles

36
00:02:03,289 --> 00:01:59,460
wide 1.35 to one point four five miles

37
00:02:05,330 --> 00:02:03,299
deep 6.6 miles off of the Malibu coast

38
00:02:08,510 --> 00:02:05,340

that's PCH that you see off in the

39

00:02:09,370 --> 00:02:08,520

distance and the ceiling is 500 feet

40

00:02:12,550 --> 00:02:09,380

thick

41

00:02:14,920 --> 00:02:12,560

this image here is our topography study

42

00:02:18,610 --> 00:02:14,930

that we did you can see the anomaly off

43

00:02:25,030 --> 00:02:18,620

to the left you can see ranges that go

44

00:02:28,840 --> 00:02:25,040

from 450 meters or 4 hunt 1476 feet from

45

00:02:32,410 --> 00:02:28,850

the surface the top of the water to the

46

00:02:35,650 --> 00:02:32,420

bottom of the platform it is absolutely

47

00:02:39,430 --> 00:02:35,660

enormous the bottom of the entrance is

48

00:02:43,450 --> 00:02:39,440

700 meters or 20 296 feet from the

49

00:02:46,450 --> 00:02:43,460

surface the distance between the pillars

50

00:02:50,680 --> 00:02:46,460

is two thousand seven hundred and

51
00:02:53,970 --> 00:02:50,690
forty-five feet wide the pillars are 600

52
00:02:56,230 --> 00:02:53,980
to 630 feet tall 100 feet at the base

53
00:02:59,260 --> 00:02:56,240
this image here you are looking directly

54
00:02:59,740 --> 00:02:59,270
south to the north you can see Portwenn

55
00:03:02,260 --> 00:02:59,750
MA

56
00:03:06,310 --> 00:03:02,270
the Marine Corps Naval Air Station off

57
00:03:08,800 --> 00:03:06,320
in the distance at 12 o'clock PCH

58
00:03:12,400 --> 00:03:08,810
right there running up the coast to

59
00:03:15,790 --> 00:03:12,410
Malibu this is a set of nine images take

60
00:03:18,840 --> 00:03:15,800
taken in a panoramic sense now you are

61
00:03:21,160 --> 00:03:18,850
looking a little bit to the east a

62
00:03:24,010 --> 00:03:21,170
little bit off to the distance but what

63
00:03:26,830 --> 00:03:24,020

you can see here is that the structure

64

00:03:30,250 --> 00:03:26,840

itself doesn't fit in with its natural

65

00:03:35,410 --> 00:03:30,260

surroundings this discovery was made by

66

00:03:37,270 --> 00:03:35,420

Maxwell Dale Romero and myself two weeks

67

00:03:39,150 --> 00:03:37,280

ago yes it's all over the internet now

68

00:03:43,440 --> 00:03:39,160

but that's not the point

69

00:03:49,710 --> 00:03:43,450

this has been in the center the hub of

70

00:03:52,150 --> 00:03:49,720

USO UFO activity going back 40 years

71

00:03:54,640 --> 00:03:52,160

thousands of witnesses up and down the

72

00:03:57,250 --> 00:03:54,650

coast the residences here just pull up

73

00:03:59,500 --> 00:03:57,260

lawn chairs and watch the lights come in

74

00:04:03,760 --> 00:03:59,510

and out of the water all day long it's

75

00:04:07,270 --> 00:04:03,770

what they do now is this proof of an

76

00:04:08,920 --> 00:04:07,280

entrance to something inland we don't

77

00:04:11,590 --> 00:04:08,930

know it could be natural it could be ten

78

00:04:12,340 --> 00:04:11,600

thousand years old could be a hundred

79

00:04:15,699 --> 00:04:12,350

years old

80

00:04:17,349 --> 00:04:15,709

we don't know older than that it's a

81

00:04:20,380 --> 00:04:17,359

possibility with the thickness of the

82

00:04:22,250 --> 00:04:20,390

Dome of the ceiling that there is a dome

83

00:04:25,330 --> 00:04:22,260

there full of oxygen we don't

84

00:04:27,890 --> 00:04:25,340

no it could be an ancient natural

85

00:04:31,280 --> 00:04:27,900

anomaly but why it has not been

86

00:04:35,270 --> 00:04:31,290

investigated or revealed until now we

87

00:04:37,940 --> 00:04:35,280

don't know we will be covering this over

88

00:04:41,330 --> 00:04:37,950

the next few months extensively we're

89

00:04:45,410 --> 00:04:41,340

planning an expedition now to head out

90

00:04:47,840 --> 00:04:45,420

to the edge of the platform and getting

91

00:04:51,080 --> 00:04:47,850

cameras under the water we are working

92

00:04:54,620 --> 00:04:51,090

on that and hopefully we will have a

93

00:04:56,840 --> 00:04:54,630

video presentation shortly again this is

94

00:05:00,260 --> 00:04:56,850

north looking south off of the coast and

95

00:05:03,350 --> 00:05:00,270

look how the structure does not fit in

96

00:05:08,150 --> 00:05:03,360

with its natural surroundings here is

97

00:05:11,510 --> 00:05:08,160

another shot it just doesn't match it

98

00:05:14,030 --> 00:05:11,520

could go inland it could be the entrance

99

00:05:17,270 --> 00:05:14,040

to the China Lake naval station which is

100

00:05:19,760 --> 00:05:17,280

38% of the United States Navy's total

101
00:05:21,320 --> 00:05:19,770
land holdings around the world and it

102
00:05:25,070 --> 00:05:21,330
sits in the middle of the Mojave Desert

103
00:05:28,550 --> 00:05:25,080
it can continue on on a northeast line

104
00:05:32,480 --> 00:05:28,560
directly from this point to area 51 or

105
00:05:35,630 --> 00:05:32,490
maybe to Hawthorne Lake where the Navy

106
00:05:37,250 --> 00:05:35,640
has their undersea warfare center we

107
00:05:40,040 --> 00:05:37,260
don't know this is from the seafloor

108
00:05:42,950 --> 00:05:40,050
looking directly in as you can see it's

109
00:05:46,610 --> 00:05:42,960
over 2,000 almost 3,000 feet in between

110
00:05:48,350 --> 00:05:46,620
those two pillars multiple ships can

111
00:05:51,500 --> 00:05:48,360
pass through this is from inside the

112
00:05:54,970 --> 00:05:51,510
structure looking out from behind one of

113
00:05:59,360 --> 00:05:54,980

the pillars potentially the biggest

114

00:06:03,110 --> 00:05:59,370

breaking story in ufology since Roswell

115

00:06:04,730 --> 00:06:03,120
