occasionally think how quickly our

9
00:00:52,599 --> 00:00:49,940

differences worldwide would vanish if we

10
00:00:55,790 --> 00:00:52,609

were facing an alien threat from outside

11
00:01:01,060 --> 00:00:58,540

cracking everybody how you do and I hope

39

00:03:09,610 --> 00:03:03,379

you had a great weekend Rita and I went

40

00:03:12,610 --> 00:03:09,620

down to San Diego literally I posted one

41

00:03:16,390 --> 00:03:12,620

picture on Twitter one we just totally

42

00:03:19,740 --> 00:03:16,400

relax just engaged no social media

43

00:03:21,339 --> 00:03:19,750

nothing nothing turn the phone's off and

44

00:03:23,890 --> 00:03:21,349

there you go

45

00:03:27,189 --> 00:03:23,900

so we're here we're back we've got an

46

00:03:31,149 --> 00:03:27,199

amazing week lined up here on fade to

47

00:03:33,220 --> 00:03:31,159

black tonight Linda Moulton Howe is here

48

00:03:35,649 --> 00:03:33,230

to discuss the recent closing of the

49

00:03:39,819 --> 00:03:35,659

National Solar Observatory by the FBI

50

00:03:42,009 --> 00:03:39,829

and her excellent coverage on that of

51
00:03:45,610 --> 00:03:42,019
course I posted an interview that I did

52
00:03:49,390 --> 00:03:45,620
with ransom Godwin over the weekend who

53
00:03:51,159 --> 00:03:49,400
courageously went up onto the grounds

54
00:03:55,809 --> 00:03:51,169
and the compound up there and shot of

55
00:03:58,330 --> 00:03:55,819
some video and so I was able to reach

56
00:04:00,789 --> 00:03:58,340
out to ransom and the interview was

57
00:04:03,159 --> 00:04:00,799
amazing we've got that up and you can go

58
00:04:06,159 --> 00:04:03,169
and check that out so that happened over

59
00:04:10,080 --> 00:04:06,169
the weekend and I think we posted the

60
00:04:15,699 --> 00:04:13,199
Friday right yeah I did that on Friday

61
00:04:17,229 --> 00:04:15,709
so there you go it's just been an

62
00:04:20,199 --> 00:04:17,239
amazing weekend and Linda has been doing

63
00:04:21,939 --> 00:04:20,209

her coverage on it so she is here and we

64

00:04:24,969 --> 00:04:21,949

will be talking about that at the bottom

65

00:04:26,070 --> 00:04:24,979

of the hour tomorrow night right here on

66

00:04:30,520 --> 00:04:26,080

fade to black

67

00:04:33,459 --> 00:04:30,530

Freeman is here last week Rita and I

68

00:04:35,950 --> 00:04:33,469

went and watched Don peyote and if you

69

00:04:39,490 --> 00:04:35,960

haven't seen Don peyote maybe after the

70

00:04:43,330 --> 00:04:39,500

show tonight go and watch Don peyote

71

00:04:46,240 --> 00:04:43,340

watch the movie Freeman is just he's

72

00:04:48,580 --> 00:04:46,250

really good and he downplayed his role

73

00:04:50,770 --> 00:04:48,590

in the film he's he's excellent he's in

74

00:04:53,830 --> 00:04:50,780

a bunch of scenes there so anyway we

75

00:04:55,570 --> 00:04:53,840

watched that last week and had nothing

76
00:04:58,379 --> 00:04:55,580
to do with Freeman being on the show

77
00:05:01,110 --> 00:04:58,389
isn't that weird how synchronicity works

78
00:05:03,929 --> 00:05:01,120
but tomorrow night Freeman fly Freeman

79
00:05:06,510 --> 00:05:03,939
now he just goes by one one name Freeman

80
00:05:08,010 --> 00:05:06,520
will be with us and then Wednesday night

81
00:05:11,850 --> 00:05:08,020
it's been a while

82
00:05:14,670 --> 00:05:11,860
Clifford stone is back and he's here to

83
00:05:16,950 --> 00:05:14,680
talk about disclosure and it may not be

84
00:05:18,990 --> 00:05:16,960
what you think and he's got some

85
00:05:21,510 --> 00:05:19,000
documents we're gonna do all of that and

86
00:05:22,950 --> 00:05:21,520
that's kicking off on Wednesday night

87
00:05:24,119 --> 00:05:22,960
Thursday is another failure tonight with

88
00:05:26,610 --> 00:05:24,129

open lines all night long

89

00:05:29,640 --> 00:05:26,620

Jon Rappoport of course is going to be

90

00:05:34,740 --> 00:05:29,650

here with there's no more fake newsroom

91

00:05:37,290 --> 00:05:34,750

live right now I've been on all of the

92

00:05:40,260 --> 00:05:37,300

social media sites over the weekend and

93

00:05:42,749 --> 00:05:40,270

today with all of this National Solar

94

00:05:45,269 --> 00:05:42,759

Observatory breaking news that has been

95

00:05:47,339 --> 00:05:45,279

going on took a little bit I mean we

96

00:05:49,260 --> 00:05:47,349

first covered it at the beginning of the

97

00:05:51,809 --> 00:05:49,270

week last week the mainstream media

98

00:05:55,230 --> 00:05:51,819

eventually did pick it up I think even

99

00:05:57,269 --> 00:05:55,240

CNN had it yesterday or maybe the day

100

00:06:01,200 --> 00:05:57,279

before of course it was covered in Fox

101
00:06:04,950 --> 00:06:01,210
and RT and and so forth but it was all

102
00:06:06,719 --> 00:06:04,960
over the web and I had to stay on top of

103
00:06:11,700 --> 00:06:06,729
the social media the best that I could

104
00:06:13,170 --> 00:06:11,710
because of it just everywhere everywhere

105
00:06:16,680 --> 00:06:13,180
that you can think everybody was

106
00:06:19,800 --> 00:06:16,690
covering it luckily not only do we have

107
00:06:21,809 --> 00:06:19,810
Linda in New Mexico but aside from that

108
00:06:25,529 --> 00:06:21,819
we were able to reach out to so many

109
00:06:27,929 --> 00:06:25,539
people that were were there on location

110
00:06:30,089 --> 00:06:27,939
and on top of that I got the story

111
00:06:33,269 --> 00:06:30,099
broken to me from somebody that was up

112
00:06:36,779 --> 00:06:33,279
there right after the closure happened

113
00:06:40,860 --> 00:06:36,789

and it wasn't in the media yet so now

114

00:06:43,379 --> 00:06:40,870

also maybe tomorrow it might be

115

00:06:46,230 --> 00:06:43,389

Wednesday night but a friend of ours and

116

00:06:50,300 --> 00:06:46,240

a friend of yours had an airplane crash

117

00:06:52,499 --> 00:06:50,310

in his backyard today yeah literally and

118

00:06:56,999 --> 00:06:52,509

things are a little bit hectic right now

119

00:06:58,619 --> 00:06:57,009

a little bit dramatic but we will have I

120

00:07:00,149 --> 00:06:58,629

don't want to say what it is I just want

121

00:07:03,119 --> 00:07:00,159

him to have his privacy right now but

122

00:07:05,369 --> 00:07:03,129

he's gonna be on with us maybe tomorrow

123

00:07:09,089 --> 00:07:05,379

night to talk about that pretty

124

00:07:10,940 --> 00:07:09,099

incredible to see what he went through

125

00:07:13,970 --> 00:07:10,950

so that'll be tomorrow night

126
00:07:17,000 --> 00:07:13,980

132
00:07:32,690 --> 00:07:29,490
Church radio calm okay breaking news the

133
00:07:35,330 --> 00:07:32,700
National Solar Observatory reopened

134
00:07:38,870 --> 00:07:35,340
today with a statement released from

135
00:07:41,780 --> 00:07:38,880
aura about the FBI evacuation I posted

136
00:07:44,240 --> 00:07:41,790
the statement today over at on stellar

137
00:07:46,580 --> 00:07:44,250
on stellar calm you can go and read the

138
00:07:49,190 --> 00:07:46,590

full statement over there I mentioned

139

00:07:51,860 --> 00:07:49,200

earlier I interviewed ransom Godwin who

140

00:07:55,340 --> 00:07:51,870

shot the video of the empty compound I

141

00:07:56,990 --> 00:07:55,350

spoke with him earlier today and he said

142

00:07:58,430 --> 00:07:57,000

as of last night they made this

143

00:07:59,840 --> 00:07:58,440

announcement yesterday this statement

144

00:08:00,650 --> 00:07:59,850

that they were gonna reopen they went

145

00:08:03,470 --> 00:08:00,660

out there last night

146

00:08:06,830 --> 00:08:03,480

and the entire site was still empty and

147

00:08:09,350 --> 00:08:06,840

no security there at all they sent me

148

00:08:11,710 --> 00:08:09,360

some drone footage I didn't know that

149

00:08:15,830 --> 00:08:11,720

there was that many houses up there of

150

00:08:18,470 --> 00:08:15,840

the empty streets pretty much still the

151

00:08:22,550 --> 00:08:18,480

same it's a ghost town but they did

152

00:08:25,190 --> 00:08:22,560

reopen today and a security guard up

153

00:08:26,840 --> 00:08:25,200

there was spoken to as well and I think

154

00:08:29,600 --> 00:08:26,850

Linda is going to have some more

155

00:08:34,390 --> 00:08:29,610

156

00:08:37,190 --> 00:08:34,400

breaking news coca-cola coca-cola is

157

00:08:41,810 --> 00:08:37,200

159

00:08:47,660 --> 00:08:44,610

excited I can't get into any other

195

00:10:45,680 --> 00:10:43,320

details than that skip this show

196

00:10:50,150 --> 00:10:45,690

cracking our dead guys birthday today is

197

00:10:52,790 --> 00:10:50,160

John Ritter 1948 to 2003 yeah there was

198

00:10:55,910 --> 00:10:52,800

Three's Company and I get that but he

199

00:10:58,820 --> 00:10:55,920

also made the greatest UFO documentary

200

00:11:03,770 --> 00:10:58,830

film ever that's right

201
00:11:06,710 --> 00:11:03,780
real men and he made that back in 1987

202
00:11:09,410 --> 00:11:06,720
and if you haven't seen that movie real

203
00:11:13,280 --> 00:11:09,420
men with Jim Belushi and John Ritter

204
00:11:17,030 --> 00:11:13,290
right there in 1987 on September 11th

205
00:11:21,380 --> 00:11:17,040
strangely enough 2003 he started having

206
00:11:22,490 --> 00:11:21,390
our problems and he was rehearsing right

207
00:11:26,000 --> 00:11:22,500
here in Burbank

208
00:11:27,710 --> 00:11:26,010
he began sweating vomiting chest pains

209
00:11:29,690 --> 00:11:27,720
he was taken across the street to the

210
00:11:31,700 --> 00:11:29,700
Providence st. Joseph's Medical Center

211
00:11:34,970 --> 00:11:31,710
in Burbank by coincidence the same

212
00:11:37,310 --> 00:11:34,980
hospital where he was born and both of

213
00:11:38,100 --> 00:11:37,320

our daughters were born at st. Joseph's

214

00:11:41,430 --> 00:11:38,110

right

215

00:11:43,680 --> 00:11:41,440

by coincidence and that's where he was

216

00:11:46,199 --> 00:11:43,690

born physicians misdiagnosed Ritter

217

00:11:47,790 --> 00:11:46,209

treated him for a heart attack but

218

00:11:50,040 --> 00:11:47,800

things got worse

219

00:11:52,470 --> 00:11:50,050

he diagnose a diagnosed ritter with

220

00:11:55,530 --> 00:11:52,480

having an aortic dissection a tear in

221

00:11:59,480 --> 00:11:55,540

the aorta that grows he died during

222

00:12:02,730 --> 00:11:59,490

surgery to repair it six days before his

223

00:12:08,940 --> 00:12:02,740

55th birthday on this day in history

224

00:12:12,569 --> 00:12:08,950

OT D 1976 NASA publicly unveils for the

225

00:12:14,550 --> 00:12:12,579

first time the space shuttle that's

226

00:12:20,269 --> 00:12:14,560

right the Space Shuttle enterprise on

227

00:12:27,420 --> 00:12:20,279

this day in 1976 Fader fact the word

228

00:12:30,690 --> 00:12:27,430

oxymoron is itself an oxymoron this is

229

00:12:36,240 --> 00:12:30,700

because it derives from ancient Greek

230

00:12:41,040 --> 00:12:36,250

wear oxy means sharp and morose which

231

00:12:43,639 --> 00:12:41,050

means stupid think about that the next

232

00:12:49,050 --> 00:12:43,649

time you hear someone using the word

233

00:12:52,410 --> 00:12:49,060

trying to sound smart think about that

234

00:12:55,110 --> 00:12:52,420

now also on this day in history it's a

235

00:12:58,380 --> 00:12:55,120

big day that's right

236

00:13:02,819 --> 00:12:58,390

bringing on Kurtis Don Vito the lead

237

00:13:04,889 --> 00:13:02,829

singer of snoo because Kurtis today your

238

00:13:06,389 --> 00:13:04,899

new album is released and I'm holding it

239

00:13:13,079 --> 00:13:06,399

up to the cameras right there how you

240

00:13:17,519 --> 00:13:13,089

doing yes it is I'm holding it up and

241

00:13:19,550 --> 00:13:17,529

there it is it's amazing I've had it for

242

00:13:24,840 --> 00:13:19,560

a little bit I got the sneak preview

243

00:13:25,650 --> 00:13:24,850

yeah it's a great CD man thanks alright

244

00:13:28,560 --> 00:13:25,660

yes

245

00:13:29,670 --> 00:13:28,570

where can every got some nerve you've

246

00:13:30,870 --> 00:13:29,680

got some nerve I get some real

247

00:13:32,579 --> 00:13:30,880

statements there with that one

248

00:13:36,900 --> 00:13:32,589

know what working every light of

249

00:13:38,880 --> 00:13:36,910

everything oxymoronic yeah oh that's

250

00:13:40,949 --> 00:13:38,890

funny that's funny

251
00:13:42,870 --> 00:13:40,959
where can everybody go and get it I've

252
00:13:44,410 --> 00:13:42,880
got mine working everybody go and get

253
00:13:46,420 --> 00:13:44,420
theirs

254
00:13:49,030 --> 00:13:46,430
well you can go to our websites new

255
00:13:52,180 --> 00:13:49,040
ucomm or you go to snus or calm where

256
00:13:55,750 --> 00:13:52,190
you find it iTunes and Amazon are you

257
00:13:58,930 --> 00:13:55,760
like anywhere now my the opening track

258
00:13:59,860 --> 00:13:58,940
on this you are freaking me out is is

259
00:14:02,650 --> 00:13:59,870
right there

260
00:14:06,310 --> 00:14:02,660
but the other tracks on this like holy

261
00:14:08,530 --> 00:14:06,320
hell which is is really good do you have

262
00:14:11,080 --> 00:14:08,540
a favorite track right now do you go

263
00:14:15,670 --> 00:14:11,090

back and listen to to stuff after you do

264

00:14:18,040 --> 00:14:15,680

it yeah you know we definitely go back

265

00:14:23,080 --> 00:14:18,050

and make sure that we definitely want to

266

00:14:24,940 --> 00:14:23,090

put it up in the world so yeah you know

267

00:14:26,970 --> 00:14:24,950

I can't say which one every day it's a

268

00:14:28,600 --> 00:14:26,980

different one it's like uh you know it's

269

00:14:30,610 --> 00:14:28,610

you're freaking me out

270

00:14:33,790 --> 00:14:30,620

well maybe it's a settling queen maybe

271

00:14:36,340 --> 00:14:33,800

it's you know it's it spinning roulette

272

00:14:39,580 --> 00:14:36,350

wheel yeah yeah I'm with you on that and

273

00:14:42,430 --> 00:14:39,590

it's it's classics new but one of the

274

00:14:45,580 --> 00:14:42,440

things that I love about you guys and

275

00:14:48,000 --> 00:14:45,590

you and I have talked about this you

276

00:14:51,730 --> 00:14:48,010

guys are all about the rock and roll

277

00:14:54,010 --> 00:14:51,740

right you're about to get our well you

278

00:14:56,680 --> 00:14:54,020

know that's what I'm saying and this

279

00:14:58,930 --> 00:14:56,690

weekend Curtis Reed and I we went out of

280

00:15:00,640 --> 00:14:58,940

town and we relaxed and we were

281

00:15:01,840 --> 00:15:00,650

listening to music and we were hanging

282

00:15:04,810 --> 00:15:01,850

out with some friends and one of the

283

00:15:09,910 --> 00:15:04,820

things that we talked about is I'm not

284

00:15:13,540 --> 00:15:09,920

so sure if kids today understand what

285

00:15:16,780 --> 00:15:13,550

it's like to emotionally freak out when

286

00:15:21,820 --> 00:15:16,790

you see a band perform live or when you

287

00:15:24,970 --> 00:15:21,830

you know when you hear an album that was

288

00:15:27,400 --> 00:15:24,980

a band in the studio playing as a band

289

00:15:32,490 --> 00:15:27,410

I'm not taking away from the electronic

290

00:15:37,870 --> 00:15:35,890

yeah that's what you know that human

291

00:15:39,760 --> 00:15:37,880

element that's being stripped away from

292

00:15:44,430 --> 00:15:39,770

music everything's got to be perfect now

293

00:15:48,610 --> 00:15:44,440

you know and it's all it's all digitally

294

00:15:50,440 --> 00:15:48,620

mixed and and manipulated and moved

295

00:15:53,530 --> 00:15:50,450

around in the computer so that every

296

00:15:56,720 --> 00:15:53,540

beat is exactly perfect and and I can

297

00:16:01,280 --> 00:15:56,730

appreciate you know that but

298

00:16:03,230 --> 00:16:01,290

human element is stripped away and you

299

00:16:05,480 --> 00:16:03,240

know as musicians you know the music

300

00:16:07,250 --> 00:16:05,490

breeze you listen to some of it you know

301
00:16:09,740 --> 00:16:07,260
some of a lot of live stuff that's still

302
00:16:11,569 --> 00:16:09,750
going on and it's not dead right right

303
00:16:15,439 --> 00:16:11,579
when you listen to the older stuff it's

304
00:16:19,040 --> 00:16:15,449
like you know it's not perfect computer

305
00:16:21,019 --> 00:16:19,050
rhythms it's it moves and it takes you

306
00:16:23,780 --> 00:16:21,029
along for a ride you know and your

307
00:16:26,000 --> 00:16:23,790
breathe just like you do I love this

308
00:16:30,230 --> 00:16:26,010
stuff so you know what we're recording

309
00:16:33,079 --> 00:16:30,240
yeah we don't play any tricks we get in

310
00:16:37,400 --> 00:16:33,089
and replayed live you know well as a

311
00:16:41,060 --> 00:16:37,410
singer when I listen to this and I and I

312
00:16:43,460 --> 00:16:41,070
hear the way that you do that do you do

313
00:16:46,160 --> 00:16:43,470

you go in and pick your stuff apart and

314

00:16:49,430 --> 00:16:46,170

like replace words or replace syllables

315

00:16:53,120 --> 00:16:49,440

or do you use sing entire lines and just

316

00:16:57,560 --> 00:16:53,130

try to get everything there because of

317

00:17:01,850 --> 00:16:57,570

the feeling well what we usually do is

318

00:17:04,130 --> 00:17:01,860

is I'll do at least three days just I'll

319

00:17:06,380 --> 00:17:04,140

do it the way it was written then I'll

320

00:17:08,630 --> 00:17:06,390

do it another way and I'll change a few

321

00:17:10,760 --> 00:17:08,640

things just to see you know and then

322

00:17:12,770 --> 00:17:10,770

I'll listen to that and I'll go okay let

323

00:17:15,199 --> 00:17:12,780

me try this and then we'll listen to

324

00:17:18,350 --> 00:17:15,209

everything down and go yeah let's go

325

00:17:20,449 --> 00:17:18,360

back to the original way we what happens

326

00:17:22,189 --> 00:17:20,459

but sometimes you strike gold and you

327

00:17:24,260 --> 00:17:22,199

know so you get in there and you utilize

328

00:17:26,630 --> 00:17:24,270

the studio for what it is you know you

329

00:17:29,710 --> 00:17:26,640

got the ability to do multiple takes so

330

00:17:34,940 --> 00:17:29,720

we go for it well and see I think that's

331

00:17:38,720 --> 00:17:34,950

one of the tools that people have today

332

00:17:42,560 --> 00:17:38,730

is wall Pro Tools and in digital editing

333

00:17:42,950 --> 00:17:42,570

and now it has become a crutch that's so

334

00:17:44,870 --> 00:17:42,960

many

335

00:17:46,610 --> 00:17:44,880

yeah they don't go and learn the whole

336

00:17:50,270 --> 00:17:46,620

song they're not even worried about that

337

00:17:52,850 --> 00:17:50,280

they know that they can go in and do a

338

00:17:54,169 --> 00:17:52,860

gazillion takes and then turn around and

339

00:17:58,640 --> 00:17:54,179

just piece all of this stuff together

340

00:18:00,049 --> 00:17:58,650

and then use a also tune right yeah and

341

00:18:02,720 --> 00:18:00,059

then you don't have to be great thing

342

00:18:04,909 --> 00:18:02,730

it's just you know on to no you're

343

00:18:06,770 --> 00:18:04,919

perfect that's right and and so they

344

00:18:08,210 --> 00:18:06,780

don't they don't practice anymore

345

00:18:09,260 --> 00:18:08,220

they're not even going to the studio

346

00:18:11,990 --> 00:18:09,270

prepared

347

00:18:14,900 --> 00:18:12,000

the studio is a place for them to just

348

00:18:16,250 --> 00:18:14,910

go and assemble and not necessarily

349

00:18:19,700 --> 00:18:16,260

perform it

350

00:18:22,340 --> 00:18:19,710

it's a producer's game they just bring

351
00:18:26,720 --> 00:18:22,350
where they want to be the face and look

352
00:18:31,610 --> 00:18:26,730
who's there pretty much you know that's

353
00:18:34,070 --> 00:18:31,620
why popular stuff yeah it's the same

354
00:18:37,010 --> 00:18:34,080
because there's like their to produce

355
00:18:40,610 --> 00:18:37,020
this and you see all of that and they're

356
00:18:46,040 --> 00:18:40,620
writing the song I saw this was last

357
00:18:47,180 --> 00:18:46,050
year I think it was read a corrected me

358
00:18:50,300 --> 00:18:47,190
and it was Beyonce

359
00:18:53,900 --> 00:18:50,310
so Beyonce releases this song last year

360
00:18:59,440 --> 00:18:53,910
and that had all of like eight words in

361
00:19:08,000 --> 00:18:59,450
the entire song right eighth word 55 0

362
00:19:09,530 --> 00:19:08,010
50 producers really 5050 I don't know

363
00:19:11,770 --> 00:19:09,540

what you have to do today to get your

364

00:19:13,910 --> 00:19:11,780

name on somebody's track as a producer

365

00:19:17,480 --> 00:19:13,920

you know I know I know

366

00:19:21,800 --> 00:19:17,490

oh you know begs the question does she

367

00:19:23,960 --> 00:19:21,810

need that much help just I mean I don't

368

00:19:25,760 --> 00:19:23,970

want to be critical you know I know the

369

00:19:28,040 --> 00:19:25,770

answers get a lot of fans but did she

370

00:19:29,960 --> 00:19:28,050

leave that my child well I guess the

371

00:19:33,350 --> 00:19:29,970

periods and the apostrophes and the

372

00:19:35,890 --> 00:19:33,360

commas all deputies and credits right

373

00:19:38,570 --> 00:19:35,900

they all get producer credits so now

374

00:19:42,560 --> 00:19:38,580

what are you guys touring what what's

375

00:19:44,660 --> 00:19:42,570

the plans yeah and a couple of months

376

00:19:47,480 --> 00:19:44,670

we're gonna be heading to the UK and

377

00:19:51,380 --> 00:19:47,490

we're gonna do a trek around there

378

00:19:53,600 --> 00:19:51,390

you're gonna and everything booked ready

379

00:19:57,170 --> 00:19:53,610

to go yeah well there's this tell adding

380

00:19:59,240 --> 00:19:57,180

dates so you know well no well no we're

381

00:20:00,520 --> 00:19:59,250

we get there yeah yeah I know how that

382

00:20:03,470 --> 00:20:00,530

can go

383

00:20:05,390 --> 00:20:03,480

Graham bonnet tweeted out today that he

384

00:20:07,400 --> 00:20:05,400

just got back from his three or four

385

00:20:08,450 --> 00:20:07,410

weeks over in the UK and he's

386

00:20:11,690 --> 00:20:08,460

immediately

387

00:20:15,350 --> 00:20:11,700

yeah he's heading over to Japan to play

388

00:20:17,880 --> 00:20:15,360

with Michael Schenker and MSG yeah yeah

389

00:20:20,100 --> 00:20:17,890

I know those guys are back together yeah

390

00:20:22,530 --> 00:20:20,110

well yeah well you know we're playing

391

00:20:24,840 --> 00:20:22,540

Michael shaker weird festival or played

392

00:20:26,610 --> 00:20:24,850

in Wales shakers playing I wonder if

393

00:20:29,820 --> 00:20:26,620

Graham's gonna be there yeah Wow

394

00:20:32,220 --> 00:20:29,830

wouldn't that be great yeah you know

395

00:20:35,130 --> 00:20:32,230

grandma if I run into grandma I'll

396

00:20:35,700 --> 00:20:35,140

mention you well I I reached out to him

397

00:20:37,920 --> 00:20:35,710

today

398

00:20:41,520 --> 00:20:37,930

which reminds me okay I wanna I want to

399

00:20:43,860 --> 00:20:41,530

back up I remember we were talking about

400

00:20:45,930 --> 00:20:43,870

talking about being prepared in the

401
00:20:49,050 --> 00:20:45,940
studio today right now it's this Pro

402
00:20:52,320 --> 00:20:49,060
Tools world and and nobody rehearse --is

403
00:20:55,560 --> 00:20:52,330
but there are there were times when I

404
00:20:58,560 --> 00:20:55,570
would go into a studio and the singers

405
00:21:00,570 --> 00:20:58,570
well or the band that's practiced and

406
00:21:03,120 --> 00:21:00,580
rehearsed they go when they get their

407
00:21:05,240 --> 00:21:03,130
stuff done it's a job and and they

408
00:21:09,330 --> 00:21:05,250
prepare and they write and singers that

409
00:21:12,200 --> 00:21:09,340
prepare you can tell they come in they

410
00:21:18,390 --> 00:21:12,210
know what they want to do and I remember

411
00:21:21,300 --> 00:21:18,400
Ronnie Dio cutting these tracks and I'm

412
00:21:24,500 --> 00:21:21,310
listening to them from you know outside

413
00:21:27,060 --> 00:21:24,510

of the studio door just blasting through

414

00:21:28,800 --> 00:21:27,070

like the whole song and going okay let's

415

00:21:30,480 --> 00:21:28,810

play the act I'm gonna double a couple

416

00:21:33,330 --> 00:21:30,490

of tracks let's go through okay boom

417

00:21:34,980 --> 00:21:33,340

boom boom all in order right he's

418

00:21:37,680 --> 00:21:34,990

doubling these parts he wants to double

419

00:21:40,530 --> 00:21:37,690

Kara's go back loose harmonies and you

420

00:21:43,920 --> 00:21:40,540

know so the song is five minutes long he

421

00:21:46,290 --> 00:21:43,930

was done I mean he was done with

422

00:21:49,830 --> 00:21:46,300

everything in like 30 minutes

423

00:21:51,570 --> 00:21:49,840

I remember him walking out I might be

424

00:21:54,750 --> 00:21:51,580

exaggerating it might have been thirty

425

00:21:58,530 --> 00:21:54,760

two minutes but he comes he comes out of

426

00:22:01,710 --> 00:21:58,540

the studio he goes let's have dinner I

427

00:22:04,740 --> 00:22:01,720

was like you know he's there to work

428

00:22:07,710 --> 00:22:04,750

right to get it done oh yeah you could

429

00:22:11,010 --> 00:22:07,720

tell yeah is that guy that guy's always

430

00:22:12,870 --> 00:22:11,020

nailed it you know that he put the

431

00:22:15,720 --> 00:22:12,880

worked in and all the effort it took to

432

00:22:18,300 --> 00:22:15,730

be that great well that's the way I hear

433

00:22:20,539 --> 00:22:18,310

it from you on this record do you work

434

00:22:23,419 --> 00:22:20,549

the same way

435

00:22:24,469 --> 00:22:23,429

well yeah I mean how else you gonna be

436

00:22:26,119 --> 00:22:24,479

able to nail it

437

00:22:27,649 --> 00:22:26,129

you know I mean I don't want to go in

438

00:22:31,489 --> 00:22:27,659

there waste anybody's time when we're

439

00:22:33,019 --> 00:22:31,499

recording right you know I mean I get in

440

00:22:35,899 --> 00:22:33,029

there you know and what we what we

441

00:22:38,930 --> 00:22:35,909

usually do is you know the whole band

442

00:22:41,209 --> 00:22:38,940

will be in there for basic tracks we'll

443

00:22:42,649 --> 00:22:41,219

lay it down live and then we'll come in

444

00:22:45,049 --> 00:22:42,659

after that you know we'll do some

445

00:22:47,299 --> 00:22:45,059

overlays and and thanks and eventually

446

00:22:48,889 --> 00:22:47,309

I'll get to do my real vocal track at

447

00:22:51,440 --> 00:22:48,899

that point it's what's called scratch

448

00:22:56,329 --> 00:22:51,450

vocal and if those guys want to run down

449

00:22:59,259 --> 00:22:56,339

a song ten times you know I'm singing

450

00:23:03,619 --> 00:22:59,269

the whole time it's it's so true because

451

00:23:08,180 --> 00:23:03,629

the the other side for me is when I

452

00:23:10,579 --> 00:23:08,190

watch your live videos and you guys are

453

00:23:14,419 --> 00:23:10,589

there we hurt I mean from the from the

454

00:23:17,149 --> 00:23:14,429

word go you guys live are as impressive

455

00:23:19,519 --> 00:23:17,159

as what the albums are which says to me

456

00:23:22,249 --> 00:23:19,529

but you guys went in cut these albums

457

00:23:25,190 --> 00:23:22,259

ready to go the songs were ready to go

458

00:23:28,399 --> 00:23:25,200

and when you're going out live you hear

459

00:23:30,289 --> 00:23:28,409

that you hear that the band is there for

460

00:23:32,149 --> 00:23:30,299

the audience and they're they're there

461

00:23:34,489 --> 00:23:32,159

to impress and that's that's what I get

462

00:23:36,879 --> 00:23:34,499

out of snoo and I'm not I'm not joking

463

00:23:39,529 --> 00:23:36,889

around about this well thank you it's

464

00:23:42,139 --> 00:23:39,539

it's nice to hear I appreciate that I

465

00:23:44,899 --> 00:23:42,149

got you're right I mean we definitely

466

00:23:48,199 --> 00:23:44,909

you know want to give everything we have

467

00:23:50,419 --> 00:23:48,209

to the audience I mean we do it for

468

00:23:53,089 --> 00:23:50,429

ourselves we love it but you know what

469

00:23:56,239 --> 00:23:53,099

when they're feeling it then we feel it

470

00:23:59,149 --> 00:23:56,249

twice as much so we're giving it to the

471

00:24:00,949 --> 00:23:59,159

audience and then they give it back and

472

00:24:02,959 --> 00:24:00,959

then it just spins around in a big

473

00:24:06,440 --> 00:24:02,969

circle and it's a giant ball of energy

474

00:24:10,459 --> 00:24:06,450

and everybody's just high on music it's

475

00:24:12,819 --> 00:24:10,469

home Oh Rita just said we're gonna have

476

00:24:25,129 --> 00:24:12,829

a karaoke night over at the house and

477

00:24:26,359 --> 00:24:25,139

478

00:24:28,490 --> 00:24:26,369

called you've got some nerve and you can

513
00:26:11,000 --> 00:26:08,760

find it everywhere there it is snoo

514

00:26:12,620 --> 00:26:11,010

you've got some nerve all right now

515

00:26:15,350 --> 00:26:12,630

coming up in a couple of minutes I'm

516

00:26:19,990 --> 00:26:15,360

gonna get out of here Linda Moulton Howe

517

00:26:23,390 --> 00:26:20,000

was going to be here our community has

518

00:26:26,060 --> 00:26:23,400

and had some of the most dramatic stuff

519

00:26:29,290 --> 00:26:26,070

happened to it this past week with the

520

00:26:33,830 --> 00:26:29,300

closure and the evacuation of the

521

00:26:36,710 --> 00:26:33,840

National Solar Observatory of I've

522

00:26:42,409 --> 00:26:40,129

somebody that went up there and shot the

523

00:26:45,110 --> 00:26:42,419

empty streets a virtual ghost town

524

00:26:47,899 --> 00:26:45,120

couple of things that ransom found

525

00:26:49,909 --> 00:26:47,909

ransom Godwin that he was up to when he

526

00:26:53,810 --> 00:26:49,919

was up there that I thought were so

527

00:26:57,080 --> 00:26:53,820

intriguing one the workshop was left

528

00:27:00,740 --> 00:26:57,090

open garage door tools everything just

529

00:27:02,600 --> 00:27:00,750

out no security anywhere that's the

530

00:27:05,090 --> 00:27:02,610

first thing and I found that very very

531

00:27:06,740 --> 00:27:05,100

strange he said he also felt that it was

532

00:27:08,720 --> 00:27:06,750

sanitized it was to clean all the

533

00:27:10,970 --> 00:27:08,730

windows were cleaned the floors were

534

00:27:15,259 --> 00:27:10,980

mopped you could see footprints in the

535

00:27:16,669 --> 00:27:15,269

freshly mopped floors and then at the

536

00:27:19,720 --> 00:27:16,679

end of one of the hallways in the

537

00:27:26,480 --> 00:27:19,730

laboratory on the top of the trashcan is

538

00:27:31,399 --> 00:27:26,490

a video game The X Files now was this

539

00:27:35,500 --> 00:27:31,409

some kind of clue was this a joke I it

540

00:27:38,539 --> 00:27:35,510

was definitely done for a reason right

541

00:27:41,720 --> 00:27:38,549

think about that well all of that

542

00:27:44,330 --> 00:27:41,730

brought this community into asking some

543

00:27:47,090 --> 00:27:44,340

of the craziest questions that had to be

544

00:27:49,190 --> 00:27:47,100

asked there was also some disinformation

545

00:27:50,990 --> 00:27:49,200

and other stuff that was going on out

546

evening

686
00:35:18,819 --> 00:35:16,040
hey Jimmy thank you and I'm glad that we

687
00:35:21,520 --> 00:35:18,829
can focus some attention on the strange

688
00:35:26,260 --> 00:35:21,530

story this being now the twelfth night

689

00:35:29,190 --> 00:35:26,270

from September 6 when the very first

690

00:35:32,890 --> 00:35:29,200

stories where most of us were not aware

691

00:35:35,109 --> 00:35:32,900

because this was a creeping story this

692

00:35:36,089 --> 00:35:35,119

started with the FBI

693

00:35:39,809 --> 00:35:36,099

coming in

694

00:35:42,749 --> 00:35:39,819

on September 6 closing down the National

695

00:35:45,180 --> 00:35:42,759

Solar Observatory at sunspot that sits

696

00:35:48,120 --> 00:35:45,190

at nine thousand two hundred feet on

697

00:35:50,370 --> 00:35:48,130

Sacramento Peak up looking down onto

698

00:35:53,999 --> 00:35:50,380

White Sands and Holloman Air Force Base

699

00:35:57,539 --> 00:35:54,009

two highly sensitive areas in the United

700

00:35:59,729 --> 00:35:57,549

States and by the seventh the eighth the

701
00:36:03,509 --> 00:35:59,739
ninth and 10th the 11th so were going

702
00:36:06,390 --> 00:36:03,519
about a week it took a week for rumors

703
00:36:09,329 --> 00:36:06,400
to start penetrating the public psyche

704
00:36:13,739 --> 00:36:09,339
first in social media and then starting

705
00:36:16,440 --> 00:36:13,749
in emails and on the 12th one of the

706
00:36:18,420 --> 00:36:16,450
most interesting things as background to

707
00:36:22,170 --> 00:36:18,430
where we're headed with what's happening

708
00:36:25,999 --> 00:36:22,180
now is what the Otero County Sheriff

709
00:36:29,130 --> 00:36:26,009
said to the local Alamogordo newspaper

710
00:36:31,950 --> 00:36:29,140
about the fact that he knew that the FBI

711
00:36:34,229 --> 00:36:31,960
had come in and closed down the

712
00:36:37,170 --> 00:36:34,239
observatory and there were rumors that

713
00:36:39,150 --> 00:36:37,180

they had closed down the post office but

714

00:36:41,160 --> 00:36:39,160

there now is great controversy about

715

00:36:43,559 --> 00:36:41,170

whether it had already been closed down

716

00:36:46,049 --> 00:36:43,569

for some other reason before the FBI

717

00:36:48,799 --> 00:36:46,059

closed down the observatory another one

718

00:36:53,969 --> 00:36:48,809

of those moving factors but nevertheless

719

00:36:58,999 --> 00:36:53,979

here is what the OT row County Sheriff

720

00:37:03,289 --> 00:36:59,009

Bennie House had to say to the media on

721

00:37:06,479 --> 00:37:03,299

around the 12th of September a week ago

722

00:37:08,880 --> 00:37:06,489

quote the FBI is refusing to tell us

723

00:37:10,890 --> 00:37:08,890

what's going on we've got people up

724

00:37:14,489 --> 00:37:10,900

there at Sun SPOT that requested us to

725

00:37:16,559 --> 00:37:14,499

stand by while they evacuated nobody

726

00:37:19,620 --> 00:37:16,569

would really elaborate on any of the

727

00:37:22,589 --> 00:37:19,630

circumstances as to why the FBI were up

728

00:37:25,559 --> 00:37:22,599

there what their purpose was nobody will

729

00:37:28,259 --> 00:37:25,569

say but for the FBI to get involved that

730

00:37:30,299 --> 00:37:28,269

quick and be so secretive about it there

731

00:37:33,299 --> 00:37:30,309

was a lot of stuff going on there was a

732

00:37:36,319 --> 00:37:33,309

Black Hawk helicopter this is the

733

00:37:40,109 --> 00:37:36,329

sheriff now a bunch of people around

734

00:37:42,959 --> 00:37:40,119

antennas and work crews on towers but

735

00:37:45,329 --> 00:37:42,969

nobody would tell us anything meaning

736

00:37:48,450 --> 00:37:45,339

the Sheriff's Office they wanted the FBI

737

00:37:49,350 --> 00:37:48,460

wanted the sheriff there while they were

738

00:37:51,180 --> 00:37:49,360

shutting it

739

00:37:52,380 --> 00:37:51,190

but they wouldn't even tell the sheriff

740

00:37:55,350 --> 00:37:52,390

what was going on

741

00:37:57,540 --> 00:37:55,360

the sheriff continued they wanted us up

742

00:38:00,240 --> 00:37:57,550

there to help evacuate but nobody would

743

00:38:02,520 --> 00:38:00,250

tell us anything we went up there and

744

00:38:04,470 --> 00:38:02,530

everything was no threat

745

00:38:07,080 --> 00:38:04,480

nobody would identify any specific

746

00:38:09,900 --> 00:38:07,090

threat we hung out for a little while

747

00:38:12,960 --> 00:38:09,910

when we left no reason for us to be

748

00:38:17,190 --> 00:38:12,970

there nobody would tell us what we were

749

00:38:21,960 --> 00:38:17,200

supposed to be watching okay now that

750

00:38:26,970 --> 00:38:21,970

was the sheriff when you jump to what it

751

00:38:30,930 --> 00:38:26,980

was that the what's called the aura this

752

00:38:33,330 --> 00:38:30,940

is the Association for research in

753

00:38:38,870 --> 00:38:33,340

astronomy that is supposed to have

754

00:38:43,380 --> 00:38:38,880

managed the observatory and the only

755

00:38:47,220 --> 00:38:43,390

quote that they put out back then at

756

00:38:52,110 --> 00:38:47,230

that time was saying something that was

757

00:38:54,590 --> 00:38:52,120

like this is only a security issue and

758

00:38:58,320 --> 00:38:54,600

they kept repeating eight the words a

759

00:39:01,710 --> 00:38:58,330

security issue and that was all that

760

00:39:04,680 --> 00:39:01,720

reached out from aura and people were so

761

00:39:08,420 --> 00:39:04,690

frustrated because they weren't getting

762

00:39:11,760 --> 00:39:08,430

any specific information and that's when

763

00:39:14,100 --> 00:39:11,770

within a very short period of time after

764

00:39:17,640 --> 00:39:14,110

aura put out I know

765

00:39:19,860 --> 00:39:17,650

no-nothing press release that here I

766

00:39:22,050 --> 00:39:19,870

have it quote the association of

767

00:39:25,850 --> 00:39:22,060

universities for research and Astronomy

768

00:39:29,460 --> 00:39:25,860

who manages the facility is addressing a

769

00:39:32,100 --> 00:39:29,470

security issue at this time we have

770

00:39:34,380 --> 00:39:32,110

decided to vacate the facility as

771

00:39:36,720 --> 00:39:34,390

precautionary measure it was our

772

00:39:39,540 --> 00:39:36,730

decision to evacuate the facility and

773

00:39:44,010 --> 00:39:39,550

that was the fulsome press release back

774

00:39:47,580 --> 00:39:44,020

then okay so now why this started

775

00:39:53,700 --> 00:39:47,590

becoming the International story that it

776

00:39:58,140 --> 00:39:53,710

did is because they after that list

777

00:40:02,380 --> 00:39:58,150

within probably a day I started getting

778

00:40:06,900 --> 00:40:02,390

emails coming from all over the world

779

00:40:09,370 --> 00:40:06,910

literally saying that half a dozen solar

780

00:40:11,589 --> 00:40:09,380

observatories in both the northern and

781

00:40:14,200 --> 00:40:11,599

the southern hemisphere had been shut

782

00:40:17,230 --> 00:40:14,210

down it was a conspiracy something was

783

00:40:20,920 --> 00:40:17,240

happening on the Sun that the world was

784

00:40:24,579 --> 00:40:20,930

not supposed to see and I'm reading

785

00:40:27,900 --> 00:40:24,589

these emails and thinking number one if

786

00:40:31,630 --> 00:40:27,910

something's happening on the Sun if you

787

00:40:34,420 --> 00:40:31,640

black out six observatories on the earth

788

00:40:37,480 --> 00:40:34,430

it doesn't mean anything there are over

789

00:40:39,130 --> 00:40:37,490

a thousand there would be all kinds of

790

00:40:40,299 --> 00:40:39,140

telescopes that would be focused on

791

00:40:43,269 --> 00:40:40,309

something

792

00:40:46,779 --> 00:40:43,279

shutting down six it was it didn't make

793

00:40:49,000 --> 00:40:46,789

any sense so I asked my colleague Peter

794

00:40:52,650 --> 00:40:49,010

Levin des if he would do some checking

795

00:40:55,599 --> 00:40:52,660

on what was the state of solar

796

00:40:58,559 --> 00:40:55,609

observatories on planet earth in the

797

00:41:02,289 --> 00:40:58,569

northern and the southern hemispheres on

798

00:41:07,059 --> 00:41:02,299

September 12th and he went through and

799

00:41:09,490 --> 00:41:07,069

sent me a direct quote from six seven

800

00:41:12,249 --> 00:41:09,500

eight of the solar observatories there

801
00:41:16,140 --> 00:41:12,259
was not a single one where there was any

802
00:41:20,440 --> 00:41:16,150
kind of a problem except that noted at

803
00:41:21,339 --> 00:41:20,450
sunspot New Mexico where the FBI had

804
00:41:25,269 --> 00:41:21,349
closed it down

805
00:41:29,289 --> 00:41:25,279
for security reasons now by that time

806
00:41:33,490 --> 00:41:29,299
that night I started receiving a bunch

807
00:41:36,609 --> 00:41:33,500
of there are eight hundred UFOs parked

808
00:41:38,890 --> 00:41:36,619
around the Sun and the world is trying

809
00:41:42,339 --> 00:41:38,900
to keep people from seeing it and it got

810
00:41:46,210 --> 00:41:42,349
crazier and crazier and it was clearly

811
00:41:50,140 --> 00:41:46,220
people taking advantage of a story that

812
00:41:53,079 --> 00:41:50,150
was beginning to run with rapid legs and

813
00:41:55,480 --> 00:41:53,089

make hysterical headlines so that they

814

00:41:57,039 --> 00:41:55,490

could make some money on the clicks to

815

00:41:58,660 --> 00:41:57,049

their websites there's no question that

816

00:42:01,539 --> 00:41:58,670

that is what started happening with

817

00:42:04,180 --> 00:42:01,549

those crazy headlines well let's jump

818

00:42:07,029 --> 00:42:04,190

back to a reality check of what were

819

00:42:09,339 --> 00:42:07,039

some of the interesting emails that

820

00:42:12,910 --> 00:42:09,349

might have something to do with what

821

00:42:14,980 --> 00:42:12,920

actually occurred that had the FBI come

822

00:42:16,250 --> 00:42:14,990

in on September 6 here is what I'm

823

00:42:19,940 --> 00:42:16,260

reading directly

824

00:42:22,670 --> 00:42:19,950

I heard this theory that some days

825

00:42:27,230 --> 00:42:22,680

before the closing of the observatory on

826

00:42:30,410 --> 00:42:27,240

September 6 a person got mad at the

827

00:42:32,960 --> 00:42:30,420

observatory and possibly made threats to

828

00:42:36,380 --> 00:42:32,970

them because the observatory was going

829

00:42:39,140 --> 00:42:36,390

to be shut down this guy was concerned

830

00:42:41,330 --> 00:42:39,150

about jobs that would be lost because of

831

00:42:44,360 --> 00:42:41,340

all the business the observatory brought

832

00:42:48,380 --> 00:42:44,370

to this small town as a footnote on a

833

00:42:52,340 --> 00:42:48,390

yearly basis in terms of a census for

834

00:42:55,310 --> 00:42:52,350

sunspot New Mexico the number is seven

835

00:42:57,410 --> 00:42:55,320

zero on the census and so those would be

836

00:43:00,920 --> 00:42:57,420

probably just people working at the

837

00:43:03,410 --> 00:43:00,930

observatory and what when as I read this

838

00:43:06,110 --> 00:43:03,420

thinking and another email came and said

839

00:43:08,540 --> 00:43:06,120

I have I live in this area and I heard

840

00:43:11,120 --> 00:43:08,550

there was a bomb threat at the

841

00:43:16,550 --> 00:43:11,130

observatory which sounded like this

842

00:43:19,760 --> 00:43:16,560

other email now the here again is this

843

00:43:22,370 --> 00:43:19,770

rationale if there was somebody who was

844

00:43:25,070 --> 00:43:22,380

upset that the observatory was going to

845

00:43:26,390 --> 00:43:25,080

be closed down and no 70 jobs would have

846

00:43:29,690 --> 00:43:26,400

to go someplace else

847

00:43:32,150 --> 00:43:29,700

why would they blow up or threaten to

848

00:43:34,820 --> 00:43:32,160

blow up the very institution that they

849

00:43:37,430 --> 00:43:34,830

are arguing that they want to see stay

850

00:43:39,500 --> 00:43:37,440

there for jobs and this is the way this

851

00:43:42,740 --> 00:43:39,510

story has gone turning right turning

852

00:43:46,130 --> 00:43:42,750

left turning upside down nothing really

853

00:43:52,550 --> 00:43:46,140

really making sense and then when you

854

00:43:56,030 --> 00:43:52,560

get to yesterday at 5:30 p.m. I got the

855

00:43:57,890 --> 00:43:56,040

release from aura the Association of

856

00:44:00,410 --> 00:43:57,900

universities for research in astronomy

857

00:44:03,950 --> 00:44:00,420

they're based in Washington DC this is

858

00:44:06,560 --> 00:44:03,960

the only second comment that they have

859

00:44:08,660 --> 00:44:06,570

made since the very first one on

860

00:44:11,570 --> 00:44:08,670

September 6th which didn't say anything

861

00:44:14,210 --> 00:44:11,580

this is much longer and I think it is

862

00:44:17,590 --> 00:44:14,220

worth at least going into some of it

863

00:44:21,380 --> 00:44:17,600

because this is the current official

864

00:44:23,870 --> 00:44:21,390

authority and then we'll talk about the

865

00:44:26,300 --> 00:44:23,880

people who are up there looking at the

866

00:44:30,080 --> 00:44:26,310

entire site through drones and walking

867

00:44:34,320 --> 00:44:30,090

around today but here is as of 530 P

868

00:44:37,470 --> 00:44:34,330

mountain time yesterday Sunday this is

869

00:44:41,610 --> 00:44:37,480

what came to me at Birth files.com

870

00:44:44,850 --> 00:44:41,620

in an email quote sunspot Solar

871

00:44:47,790 --> 00:44:44,860

Observatory is transitioning back to

872

00:44:50,940 --> 00:44:47,800

regular operations as of September 17th

873

00:44:54,540 --> 00:44:50,950

and that would be after being closed for

874

00:44:57,600 --> 00:44:54,550

12 days from September 6 and then it

875

00:44:59,850 --> 00:44:57,610

says quote on September 6 the

876

00:45:02,130 --> 00:44:59,860

association of universities for research

877

00:45:05,460 --> 00:45:02,140

in astronomy aura and the National

878

00:45:07,910 --> 00:45:05,470

Science Foundation NSF made the decision

879

00:45:10,230 --> 00:45:07,920

to temporarily vacate the sunspots solar

880

00:45:13,680 --> 00:45:10,240

observatory at Sacramento peak New

881

00:45:17,100 --> 00:45:13,690

Mexico as a precautionary measure while

882

00:45:19,860 --> 00:45:17,110

addressing a security issue the facility

883

00:45:22,590 --> 00:45:19,870

closed down in an orderly fashion and is

884

00:45:24,660 --> 00:45:22,600

now reopening the residents that vacated

885

00:45:27,570 --> 00:45:24,670

their homes will be returning to the

886

00:45:30,510 --> 00:45:27,580

site and all employees will return to

887

00:45:34,170 --> 00:45:30,520

work this week aura has been cooperating

888

00:45:38,330 --> 00:45:34,180

with and ongoing this is quote an

889

00:45:41,790 --> 00:45:38,340

ongoing law enforcement investigation of

890

00:45:45,180 --> 00:45:41,800

criminal activity that occurred at

891

00:45:48,900 --> 00:45:45,190

Sacramento peak and the occurred that

892

00:45:51,870 --> 00:45:48,910

occurred means something specific that

893

00:45:55,080 --> 00:45:51,880

is not stated and a criminal activity

894

00:45:57,690 --> 00:45:55,090

that occurred at Sacramento peak during

895

00:46:01,470 --> 00:45:57,700

this time we became concerned that a

896

00:46:04,710 --> 00:46:01,480

suspect in the investigation potentially

897

00:46:07,650 --> 00:46:04,720

posed a threat to the safety of local

898

00:46:10,200 --> 00:46:07,660

staff and residents for this reason or a

899

00:46:12,150 --> 00:46:10,210

temporarily vacated the facility and

900

00:46:15,960 --> 00:46:12,160

seized science activities at this

901
00:46:19,800 --> 00:46:15,970
location in that threat the bottom

902
00:46:22,620 --> 00:46:19,810
threat or the potential attack in those

903
00:46:25,620 --> 00:46:22,630
two emails that I read from just a few

904
00:46:28,650 --> 00:46:25,630
minutes ago this does not go into detail

905
00:46:31,140 --> 00:46:28,660
but it continues the decision to vacate

906
00:46:33,780 --> 00:46:31,150
was based on the logistical challenges

907
00:46:36,290 --> 00:46:33,790
associated with protecting personnel at

908
00:46:40,520 --> 00:46:36,300
such a remote location again it's at

909
00:46:42,630 --> 00:46:40,530
9,200 feet on Sacramento Peak the most

910
00:46:43,680 --> 00:46:42,640
population that is supposed to be there

911
00:46:47,430 --> 00:46:43,690
year-round

912
00:46:49,109 --> 00:46:47,440
zero seventy it overlooks the vast and

913
00:46:52,680 --> 00:46:49,119

important of White Sands Missile Range

914

00:46:57,200 --> 00:46:52,690

and further the Holloman Air Force Base

915

00:46:59,910 --> 00:46:57,210

and it continues quote and the need for

916

00:47:02,819 --> 00:46:59,920

expeditious response that means quick

917

00:47:06,540 --> 00:47:02,829

fast and effective for expeditious

918

00:47:08,849 --> 00:47:06,550

response to the potential threat or I

919

00:47:11,339 --> 00:47:08,859

determined that moving the small number

920

00:47:13,349 --> 00:47:11,349

of on-site staff and residents off the

921

00:47:15,329 --> 00:47:13,359

mountain was the most prudent and

922

00:47:17,910 --> 00:47:15,339

effective action to ensure their safety

923

00:47:20,309 --> 00:47:17,920

in light of recent developments in the

924

00:47:22,829 --> 00:47:20,319

investigation we have determined there

925

00:47:25,890 --> 00:47:22,839

is no risk to staff in sunspots solar

926

00:47:29,089 --> 00:47:25,900

observatory is transitioning back to

927

00:47:31,589 --> 00:47:29,099

regular operations as of September 17th

928

00:47:33,750 --> 00:47:31,599

given the significant amount of

929

00:47:36,990 --> 00:47:33,760

publicity the temporary closure has

930

00:47:39,930 --> 00:47:37,000

generated and the consequent expectation

931

00:47:42,870 --> 00:47:39,940

of an unusual number of visitors to the

932

00:47:45,540 --> 00:47:42,880

site we are temporarily engaging a

933

00:47:48,180 --> 00:47:45,550

security service while the facility

934

00:47:51,740 --> 00:47:48,190

returns to a normal working environment

935

00:47:54,569 --> 00:47:51,750

well here Jimmy my question would be why

936

00:47:57,960 --> 00:47:54,579

didn't aura and the National Science

937

00:48:01,230 --> 00:47:57,970

Foundation and the University of New

938

00:48:04,260 --> 00:48:01,240

Mexico State University why didn't they

939

00:48:07,440 --> 00:48:04,270

say all of this back on September 6

940

00:48:09,770 --> 00:48:07,450

that's right that's right that's that's

941

00:48:13,500 --> 00:48:09,780

one of the biggest questions of all

942

00:48:16,680 --> 00:48:13,510

exactly and they've had 12 days to

943

00:48:22,559 --> 00:48:16,690

figure out this press release while all

944

00:48:27,109 --> 00:48:22,569

of these click money operations 800 UF I

945

00:48:30,480 --> 00:48:27,119

was parked around the Sun if six solar

946

00:48:33,270 --> 00:48:30,490

observatories more closing down around

947

00:48:36,510 --> 00:48:33,280

the world because something that I mean

948

00:48:38,970 --> 00:48:36,520

it was it was crazy and actually to

949

00:48:41,640 --> 00:48:38,980

credible journalists who work hard

950

00:48:44,760 --> 00:48:41,650

trying to get the pressure of fact that

951
00:48:48,349 --> 00:48:44,770
is really irritating it's angering

952
00:48:51,390 --> 00:48:48,359
because what's happening now this story

953
00:48:53,790 --> 00:48:51,400
should proves it that we are have

954
00:48:56,880 --> 00:48:53,800
entered an age I think of it now that

955
00:48:57,540 --> 00:48:56,890
the web once upon a time was really

956
00:48:59,940 --> 00:48:57,550
helpful in

957
00:49:02,010 --> 00:48:59,950
research it's now being manipulated

958
00:49:04,440 --> 00:49:02,020
politically in every other way sort of

959
00:49:07,350 --> 00:49:04,450
like a cesspool that when you get into

960
00:49:10,560 --> 00:49:07,360
it you have to work overtime just trying

961
00:49:13,590 --> 00:49:10,570
to find out what is fact on the web

962
00:49:16,830 --> 00:49:13,600
because so much of it now is abused

963
00:49:20,010 --> 00:49:16,840

misused and manipulated to generate

964

00:49:22,830 --> 00:49:20,020

money through clicks on sensational

965

00:49:25,050 --> 00:49:22,840

titles that have absolutely no vetting

966

00:49:28,500 --> 00:49:25,060

nothing behind them and one of the

967

00:49:31,470 --> 00:49:28,510

shocking I'm going to say promoters of

968

00:49:33,420 --> 00:49:31,480

the idea that Observatory solar

969

00:49:36,450 --> 00:49:33,430

observatories would be closed down

970

00:49:38,250 --> 00:49:36,460

around the world to keep the world from

971

00:49:41,850 --> 00:49:38,260

seeing something on the Sun completely

972

00:49:43,140 --> 00:49:41,860

irrational but that was pushed by The

973

00:49:46,170 --> 00:49:43,150

Drudge Report

974

00:49:49,680 --> 00:49:46,180

there was no vetting no investigation it

975

00:49:52,410 --> 00:49:49,690

was rip and paste just put up stuff and

976
00:49:54,570 --> 00:49:52,420
then Drudge would have the influence of

977
00:49:56,900 --> 00:49:54,580
multiplying the number of people who

978
00:49:59,100 --> 00:49:56,910
would be then assuming that

979
00:50:01,380 --> 00:49:59,110
observatories were being closed down

980
00:50:04,740 --> 00:50:01,390
around the planet did it have something

981
00:50:07,140 --> 00:50:04,750
to do with 800 UFOs park but I mean it

982
00:50:11,390 --> 00:50:07,150
was crazy it was insane it was

983
00:50:13,980 --> 00:50:11,400
frustrating and at earthfiles on the 12

984
00:50:17,430 --> 00:50:13,990
because I do my earthfiles YouTube

985
00:50:21,060 --> 00:50:17,440
channel live report every Wednesday

986
00:50:24,570 --> 00:50:21,070
night I was able to with the help of

987
00:50:27,270 --> 00:50:24,580
Peter Levin des research to post the

988
00:50:29,760 --> 00:50:27,280

same named observatories that have been

989

00:50:32,700 --> 00:50:29,770

on Drudge and at other websites with the

990

00:50:35,850 --> 00:50:32,710

comments that anybody could go to any

991

00:50:38,640 --> 00:50:35,860

web site with any solar observatory or

992

00:50:40,800 --> 00:50:38,650

any any telescope you can do that

993

00:50:43,050 --> 00:50:40,810

yourself you can type in a search you

994

00:50:46,140 --> 00:50:43,060

can put in a title you can go you can

995

00:50:48,570 --> 00:50:46,150

read about the status of the observatory

996

00:50:51,990 --> 00:50:48,580

which is what Peter did and then I put

997

00:50:54,510 --> 00:50:52,000

it together saying here there's nothing

998

00:50:57,080 --> 00:50:54,520

there are none of these there's none of

999

00:51:00,150 --> 00:50:57,090

these observatories that are down and

1000

00:51:03,750 --> 00:51:00,160

this then was where the tide began

1001
00:51:06,720 --> 00:51:03,760
turning from what I was seeing audiences

1002
00:51:10,299 --> 00:51:06,730
and people started sending me hundreds

1003
00:51:13,509 --> 00:51:10,309
of emails saying thank you

1004
00:51:17,529 --> 00:51:13,519
bringing some pressure of fact to this

1005
00:51:20,709 --> 00:51:17,539
story and as of today we far exceeded a

1006
00:51:23,140 --> 00:51:20,719
hundred thousand views and I'm grateful

1007
00:51:27,999 --> 00:51:23,150
because it means that what not all is

1008
00:51:31,089 --> 00:51:28,009
lost if you do try to do investigation

1009
00:51:33,429 --> 00:51:31,099
and you do try to report hard fact even

1010
00:51:35,469 --> 00:51:33,439
if we don't have the answer to what

1011
00:51:38,769 --> 00:51:35,479
exactly this criminal activity is that

1012
00:51:40,989 --> 00:51:38,779
the FBI closed this down we at least

1013
00:51:44,739 --> 00:51:40,999

have been able to eliminate that there

1014

00:51:46,529 --> 00:51:44,749

was no population of solar observatories

1015

00:51:50,859 --> 00:51:46,539

around the world that were closed down

1016

00:51:52,719 --> 00:51:50,869

that there were no objects around the

1017

00:51:54,549 --> 00:51:52,729

Sun that was being done by people who

1018

00:51:57,009 --> 00:51:54,559

were using Photoshop and all kinds of

1019

00:51:59,439 --> 00:51:57,019

crazy things to generate those quick

1020

00:52:02,620 --> 00:51:59,449

monies and so what are we left with

1021

00:52:06,069 --> 00:52:02,630

tonight on the 17th of September on

1022

00:52:08,679 --> 00:52:06,079

Monday twelve full days later we are

1023

00:52:12,999 --> 00:52:08,689

left with this press release which ends

1024

00:52:16,749 --> 00:52:13,009

with this paragraph quote we recognize

1025

00:52:20,169 --> 00:52:16,759

that the lack of communications while

1026
00:52:23,949 --> 00:52:20,179
the facility was vacated was concerning

1027
00:52:26,519 --> 00:52:23,959
and frustrating for some however our

1028
00:52:30,609 --> 00:52:26,529
desire to provide additional information

1029
00:52:33,880 --> 00:52:30,619
had to be balanced against the risk that

1030
00:52:39,150 --> 00:52:33,890
if spread at the time the news would

1031
00:52:42,370 --> 00:52:39,160
alert the suspect and impede the law

1032
00:52:45,069 --> 00:52:42,380
enforcement investigation that was a

1033
00:52:48,489 --> 00:52:45,079
risk we could not take close quote and

1034
00:52:50,829 --> 00:52:48,499
in that last paragraph it's like they

1035
00:52:53,169 --> 00:52:50,839
almost pull the rug out from under

1036
00:52:55,569 --> 00:52:53,179
everything else preceding they are

1037
00:52:59,469 --> 00:52:55,579
basically saying that whatever this is

1038
00:53:03,429 --> 00:52:59,479

with a suspect criminal activity it has

1039

00:53:07,479 --> 00:53:03,439

still not been explained at any level

1040

00:53:10,209 --> 00:53:07,489

what is this criminal activity on that I

1041

00:53:12,279 --> 00:53:10,219

have news on that so I'll help you out

1042

00:53:15,400 --> 00:53:12,289

on that right now but this is it you

1043

00:53:19,029 --> 00:53:15,410

bring up one of the craziest points

1044

00:53:21,279 --> 00:53:19,039

about this press release here how are

1045

00:53:22,540 --> 00:53:21,289

they trying to keep this quiet from the

1046

00:53:24,700 --> 00:53:22,550

suspect

1047

00:53:33,370 --> 00:53:24,710

with friggin blackhawk helicopters and

1048

00:53:36,730 --> 00:53:33,380

the FBI in an evacuation that then

1049

00:53:39,520 --> 00:53:36,740

caught everybody when that sheriff who

1050

00:53:42,250 --> 00:53:39,530

is a credible guy was frustrated right

1051
00:53:45,040 --> 00:53:42,260
that meant that everybody else in the

1052
00:53:49,660 --> 00:53:45,050
media myself included says something

1053
00:53:52,600 --> 00:53:49,670
weird is going on here and then why did

1054
00:53:55,990 --> 00:53:52,610
an NSF why didn't aura step up to the

1055
00:53:57,910 --> 00:53:56,000
plate exactly then and explain and this

1056
00:54:01,180 --> 00:53:57,920
press release even though it's better

1057
00:54:03,880 --> 00:54:01,190
Jimmy it's still it is frustrating

1058
00:54:06,130 --> 00:54:03,890
because it makes it sound so serious and

1059
00:54:08,350 --> 00:54:06,140
it doesn't explain anything okay so this

1060
00:54:13,590 --> 00:54:08,360
is what I've got this is breaking right

1061
00:54:16,600 --> 00:54:13,600
before the show is that there was

1062
00:54:20,560 --> 00:54:16,610
\$15,000 worth of communication equipment

1063
00:54:23,830 --> 00:54:20,570

that was stolen up there from one of the

1064

00:54:28,510 --> 00:54:23,840

employees and was taken out into the

1065

00:54:31,270 --> 00:54:28,520

market it was not computer equipment but

1066

00:54:33,880 --> 00:54:31,280

it was very specific communication

1067

00:54:36,160 --> 00:54:33,890

equipment now there's that part of it

1068

00:54:39,160 --> 00:54:36,170

and that this specific person that was

1069

00:54:42,600 --> 00:54:39,170

doing this theft was was doing this for

1070

00:54:46,210 --> 00:54:42,610

for quite a while and it was easy to

1071

00:54:49,990 --> 00:54:46,220

steal gear from up there and turn around

1072

00:54:52,900 --> 00:54:50,000

and sell it for profit so there there's

1073

00:54:55,870 --> 00:54:52,910

that part now that mate let's let's stop

1074

00:54:57,640 --> 00:54:55,880

for a second Linda and suppose that this

1075

00:55:00,430 --> 00:54:57,650

is actually what happened

1076
00:55:03,610 --> 00:55:00,440
then why the evacuation and why was

1077
00:55:06,160 --> 00:55:03,620
silence why not arrest this guy and not

1078
00:55:07,890 --> 00:55:06,170
freak out you know half of the planet

1079
00:55:11,770 --> 00:55:07,900
like they did and then there was one

1080
00:55:15,220 --> 00:55:11,780
Jimmy Jimmy just to reinforce and drive

1081
00:55:19,330 --> 00:55:15,230
the nail home stolen equipment already

1082
00:55:22,860 --> 00:55:19,340
after the fact would not justify the FBI

1083
00:55:25,840 --> 00:55:22,870
Union closing down and evacuating

1084
00:55:28,510 --> 00:55:25,850
evacuating makes the bottom threat idea

1085
00:55:31,030 --> 00:55:28,520
possibly as part of this story for real

1086
00:55:33,670 --> 00:55:31,040
yeah it's a cover story no doubt there's

1087
00:55:35,830 --> 00:55:33,680
we don't we're gonna find out hopefully

1088
00:55:38,470 --> 00:55:35,840

eventually what actually won't

1089

00:55:41,230 --> 00:55:38,480

but we all know by the way that they

1090

00:55:44,560 --> 00:55:41,240

handled it with the sheriff and with

1091

00:55:47,170 --> 00:55:44,570

with the evacuation and the dead silence

1092

00:55:49,330 --> 00:55:47,180

with the media that we didn't know if it

1093

00:55:51,100 --> 00:55:49,340

was environmental Linda we didn't know

1094

00:55:53,890 --> 00:55:51,110

if there was a threat to the community

1095

00:55:55,270 --> 00:55:53,900

or to the wildlife was there some kind

1096

00:55:57,790 --> 00:55:55,280

of radiation leak we didn't know

1097

00:56:02,170 --> 00:55:57,800

anything right or was it et right we

1098

00:56:07,720 --> 00:56:02,180

didn't know anything in the past week

1099

00:56:09,340 --> 00:56:07,730

UFO reports over Mount Taylor that's you

1100

00:56:13,630 --> 00:56:09,350

know that's going toward the Roswell

1101
00:56:16,990 --> 00:56:13,640
region and if you say that Sacramento

1102
00:56:19,660 --> 00:56:17,000
Peak overlook white sands Holloman in

1103
00:56:22,240 --> 00:56:19,670
that general area that historically for

1104
00:56:25,540 --> 00:56:22,250
at least 70 years has said some

1105
00:56:28,630 --> 00:56:25,550
association with UFOs you can see that

1106
00:56:31,360 --> 00:56:28,640
any headline about the observatory being

1107
00:56:33,040 --> 00:56:31,370
closed down with that explanation that

1108
00:56:35,110 --> 00:56:33,050
you're going to have a percentage that

1109
00:56:39,790 --> 00:56:35,120
are going to jump to that which then

1110
00:56:42,640 --> 00:56:39,800
went wild with the jerry-rigged photos

1111
00:56:45,430 --> 00:56:42,650
or images that were phony having to do

1112
00:56:49,990 --> 00:56:45,440
with UFOs and it just shows you if it

1113
00:56:53,430 --> 00:56:50,000

was stealing equipment and selling it it

1114

00:56:57,880 --> 00:56:53,440

still does not explain the evacuation

1115

00:57:01,720 --> 00:56:57,890

taking everybody out and having security

1116

00:57:04,090 --> 00:57:01,730

there today why would it still be weird

1117

00:57:07,540 --> 00:57:04,100

I talked with he asked me to call him

1118

00:57:10,870 --> 00:57:07,550

Paul M you know him yes he is a drone

1119

00:57:15,250 --> 00:57:10,880

pilot he was good enough to go there

1120

00:57:17,920 --> 00:57:15,260

today and I made some notes about some

1121

00:57:20,770 --> 00:57:17,930

of the things that he had to say it's

1122

00:57:25,470 --> 00:57:20,780

very interesting and here is one of the

1123

00:57:28,960 --> 00:57:25,480

most interesting of all some people

1124

00:57:34,480 --> 00:57:28,970

appear he talked with him appear to have

1125

00:57:38,160 --> 00:57:34,490

been silenced by NDA's non-disclosure

1126

00:57:41,080 --> 00:57:38,170

agreement he spoke to a solar

1127

00:57:44,980 --> 00:57:41,090

observatory visitor this afternoon off

1128

00:57:48,540 --> 00:57:44,990

the record who said they had signed a

1129

00:57:49,599 --> 00:57:48,550

non-disclosure form and that they were

1130

00:57:52,779 --> 00:57:49,609

compensated

1131

00:57:56,109 --> 00:57:52,789

enough money where they would not want

1132

00:57:58,809 --> 00:57:56,119

to talk let's take a break right here

1133

00:58:02,609 --> 00:57:58,819

we've got more to talk about and I know

1134

00:58:06,279 --> 00:58:02,619

that you've seen the footage Paul and

1135

00:58:08,769 --> 00:58:06,289

and ransom sent me the drone footage

1136

00:58:11,140 --> 00:58:08,779

that they just shot and I look at that

1137

00:58:14,380 --> 00:58:11,150

we'll talk about that when we come back

1138

00:58:16,779 --> 00:58:14,390

this is a you know what's funny as I

1139

00:58:19,180 --> 00:58:16,789

roll into the music here Linda this is a

1140

00:58:23,019 --> 00:58:19,190

story that is now permanently cemented

1141

00:58:25,239 --> 00:58:23,029

into the UFO community forever I mean

1142

00:58:32,349 --> 00:58:25,249

this is something to go back and discuss

1143

00:58:34,839 --> 00:58:32,359

for a very long time right I think they

1144

00:58:37,089 --> 00:58:34,849

completely blew it and and we've got

1145

00:58:38,920 --> 00:58:37,099

something to talk about in ten years you

1146

00:58:41,470 --> 00:58:38,930

and I are gonna have dinner and talk

1147

00:58:43,029 --> 00:58:41,480

about the National Solar Observatory our

1148

00:58:44,589 --> 00:58:43,039

all right welcome back fade to black I

1245

01:03:38,559 --> 01:03:36,859

am your host Jimmy Church our guest

1246

01:03:40,059 --> 01:03:38,569

tonight Linda Moulton out we're gonna

1247

01:03:42,760 --> 01:03:40,069

talk about a lot tonight but right now

1248

01:03:46,150 --> 01:03:42,770

we're discussing the closure of the

1249

01:03:49,329 --> 01:03:46,160

National Solar Observatory and sunspot

1250

01:03:50,800 --> 01:03:49,339

New Mexico and Linda okay now a couple

1251

01:03:54,490 --> 01:03:50,810

of things I want I want your thoughts

1252

01:03:59,410 --> 01:03:54,500

here a couple of really interesting

1253

01:04:01,930 --> 01:03:59,420

things stand out for me and as you know

1254

01:04:03,700 --> 01:04:01,940

Ransome Godwin went up there and took a

1255

01:04:07,990 --> 01:04:03,710

walk through and shot this video

1256

01:04:11,050 --> 01:04:08,000

I interviewed ransom last week and what

1257

01:04:14,380 --> 01:04:11,060

he experienced and went through up there

1258

01:04:16,800 --> 01:04:14,390

all interesting three points number one

1259

01:04:19,660 --> 01:04:16,810

when he pulled up to the police tape a

1260

01:04:22,450 --> 01:04:19,670

sheriff the sheriff the Attero County

1261

01:04:27,609 --> 01:04:22,460

Sheriff was there and it just said yo

1262

01:04:32,530 --> 01:04:27,619

what's up and split left him left him at

1263

01:04:34,960 --> 01:04:32,540

the gate to walk onto the property now I

1264

01:04:36,819 --> 01:04:34,970

that that that right there I don't know

1265

01:04:39,040 --> 01:04:36,829

what the answers are but I don't know

1266

01:04:43,950 --> 01:04:39,050

about you but a sheriff has never let me

1267

01:04:48,880 --> 01:04:46,180

welcome back to that I'm gonna give you

1268

01:04:51,370 --> 01:04:48,890

my three points the second one that I

1269

01:04:54,640 --> 01:04:51,380

thought was extremely interesting was

1270

01:04:57,730 --> 01:04:54,650

that the workshop for the cars up there

1271

01:05:00,040 --> 01:04:57,740

and the trucks the garage doors were

1272

01:05:01,599 --> 01:05:00,050

left open and all of the tools and the

1273

01:05:03,099 --> 01:05:01,609

mechanics - were all left out in the

1274

01:05:06,370 --> 01:05:03,109

open anybody could have gone in and

1275

01:05:09,370 --> 01:05:06,380

vandalized it that I found strange the

1276

01:05:12,579 --> 01:05:09,380

the third thing was they boarded up all

1277

01:05:14,980 --> 01:05:12,589

of the windows of the houses like they

1278

01:05:17,230 --> 01:05:14,990

were expecting a hurricane that was

1279

01:05:21,359 --> 01:05:17,240

strange and then the fourth thing that I

1280

01:05:24,700 --> 01:05:21,369

just find trippy as all get-out is that

1281

01:05:27,849 --> 01:05:24,710

he saw and it's on videotape

1282

01:05:29,980 --> 01:05:27,859

and on top of one of the trash cans in

1283

01:05:32,170 --> 01:05:29,990

the sanitized hallway that was just

1284

01:05:35,140 --> 01:05:32,180

mopped and cleaned up and the windows

1285

01:05:40,089 --> 01:05:35,150

clean on the top of the trash can is an

1286

01:05:42,809 --> 01:05:40,099

x-files DVD now wait wait if you're not

1287

01:05:45,130 --> 01:05:42,819

trying to mess with the public's mind

1288

01:05:47,170 --> 01:05:45,140

there's it's just it

1289

01:05:49,779 --> 01:05:47,180

none of those four things right there

1290

01:05:51,370 --> 01:05:49,789

don't make any sense if the FBI is going

1291

01:05:53,559 --> 01:05:51,380

to go up there and evacuate and then

1292

01:05:59,880 --> 01:05:53,569

turn around and allow all of this to go

1293

01:06:02,799 --> 01:05:59,890

down the contradiction between having

1294

01:06:05,170 --> 01:06:02,809

grudges open because that's what Paul M

1295

01:06:08,890 --> 01:06:05,180

also he told them all was there I yeah

1296

01:06:12,970 --> 01:06:08,900

yeah yeah Paul is a friend of ransoms

1297

01:06:15,309 --> 01:06:12,980

and Paul was there today and called and

1298

01:06:19,000 --> 01:06:15,319

talked to me this afternoon like at 3:00

1299

01:06:22,750 --> 01:06:19,010

p.m. not that long ago and he said I

1300

01:06:25,630 --> 01:06:22,760

noticed that the residential streets the

1301
01:06:29,309 --> 01:06:25,640
houses all the windows are still boarded

1302
01:06:33,099 --> 01:06:29,319
up and that they had put orange cones

1303
01:06:35,380 --> 01:06:33,109
like orange coning off the residential

1304
01:06:37,299 --> 01:06:35,390
houses with all of the would still

1305
01:06:40,089 --> 01:06:37,309
boarding up the windows as you said like

1306
01:06:41,109 --> 01:06:40,099
you would do for a hurricane and that

1307
01:06:48,099 --> 01:06:41,119
the garages

1308
01:06:50,740 --> 01:06:48,109
during a period of time when nobody is

1309
01:06:54,039 --> 01:06:50,750
there that contradicts the idea that

1310
01:06:56,980 --> 01:06:54,049
they had \$15,000 in computer equipment

1311
01:07:00,069 --> 01:06:56,990
that was stolen from the observatory the

1312
01:07:04,120 --> 01:07:00,079
none of this is making any logical sense

1313
01:07:06,759 --> 01:07:04,130

and the I heard about that Paul M and

1314

01:07:09,190 --> 01:07:06,769

ransom said that they they didn't know

1315

01:07:10,779 --> 01:07:09,200

whether to laugh or to think that

1316

01:07:13,870 --> 01:07:10,789

somebody was trying to send a signal

1317

01:07:15,039 --> 01:07:13,880

that the x-files DVD was on top of an

1318

01:07:19,630 --> 01:07:15,049

open trash can

1319

01:07:22,240 --> 01:07:19,640

well if any of this can be looked at and

1320

01:07:26,430 --> 01:07:22,250

tried to be analyzed given the fact that

1321

01:07:29,259 --> 01:07:26,440

today Paul M said it was still barren

1322

01:07:31,420 --> 01:07:29,269

empty like still like a ghost town

1323

01:07:33,970 --> 01:07:31,430

outside of the fact that there were some

1324

01:07:36,069 --> 01:07:33,980

people in the solar observatory he

1325

01:07:39,309 --> 01:07:36,079

walked in he saw them he said nobody

1326

01:07:42,190 --> 01:07:39,319

looked happy everybody was frowning one

1327

01:07:45,130 --> 01:07:42,200

security female guard came up to him and

1328

01:07:48,970 --> 01:07:45,140

said may I answer your questions and

1329

01:07:52,420 --> 01:07:48,980

when he said yeah what has happened here

1330

01:07:55,990 --> 01:07:52,430

why they said we cannot make comment so

1331

01:07:58,870 --> 01:07:56,000

nothing really has changed and this is

1332

01:08:00,759 --> 01:07:58,880

highlighting the fact that if the

1333

01:08:04,210 --> 01:08:00,769

windows are boarded up that they've

1334

01:08:08,940 --> 01:08:04,220

added orange cones to separate out the

1335

01:08:12,430 --> 01:08:08,950

residential area if they trash and are

1336

01:08:14,440 --> 01:08:12,440

or the garage are open that anybody

1337

01:08:17,410 --> 01:08:14,450

could walk in and take that kind of

1338

01:08:19,539 --> 01:08:17,420

equipment where is the security that you

1339

01:08:23,229 --> 01:08:19,549

would think would be operational at this

1340

01:08:25,030 --> 01:08:23,239

observatory if \$15,000 of computer

1341

01:08:27,640 --> 01:08:25,040

equipment have been stolen and they are

1342

01:08:31,930 --> 01:08:27,650

now concerned about the vulnerability of

1343

01:08:34,090 --> 01:08:31,940

the observatory yeah now see this Linda

1344

01:08:36,309 --> 01:08:34,100

you've been you've been doing this for a

1345

01:08:37,809 --> 01:08:36,319

long time you've been doing the some of

1346

01:08:40,360 --> 01:08:37,819

the most effective journalism and

1347

01:08:44,919 --> 01:08:40,370

research not only for our community but

1348

01:08:47,470 --> 01:08:44,929

in any genre of journalism and when you

1349

01:08:49,870 --> 01:08:47,480

hear all of this how many red flags are

1350

01:08:50,740 --> 01:08:49,880

just throwing up here for you to go whoa

1351

01:08:52,809 --> 01:08:50,750

wait a minute

1352

01:08:54,220 --> 01:08:52,819

somebody's yanking our chain here we're

1353

01:08:56,979 --> 01:08:54,230

just not getting the straight story

1354

01:09:00,430 --> 01:08:56,989

we're not getting the straight story and

1355

01:09:03,610 --> 01:09:00,440

one that sort of crept in around

1356

01:09:07,149 --> 01:09:03,620

September 12 kind of on the edges of

1357

01:09:09,280 --> 01:09:07,159

things meaning there was an email here

1358

01:09:12,490 --> 01:09:09,290

you probably said nothing coherent but

1359

01:09:14,260 --> 01:09:12,500

it was suggesting that the FBI may have

1360

01:09:17,860 --> 01:09:14,270

been called in because there was a

1361

01:09:20,649 --> 01:09:17,870

Chinese spy that was working in the

1362

01:09:23,519 --> 01:09:20,659

observatory and that they learned that

1363

01:09:26,410 --> 01:09:23,529

computer equipment had been turned into

1364

01:09:30,939 --> 01:09:26,420

observation for the Chinese government

1365

01:09:33,309 --> 01:09:30,949

of white sands and Holloman well that is

1366

01:09:35,919 --> 01:09:33,319

not proven I'm saying those are the

1367

01:09:38,309 --> 01:09:35,929

kinds of around the edges of the story

1368

01:09:41,320 --> 01:09:38,319

crept in the possibility of

1369

01:09:43,749 --> 01:09:41,330

international espionage and why I think

1370

01:09:48,870 --> 01:09:43,759

it's worth bringing up even though

1371

01:09:52,570 --> 01:09:48,880

nothing has been proven is that when you

1372

01:09:56,890 --> 01:09:52,580

consider the fact that the solar

1373

01:10:00,750 --> 01:09:56,900

observatory and white sands and Holloman

1374

01:10:03,729 --> 01:10:00,760

Air Force Base we do get international

1375

01:10:06,040 --> 01:10:03,739

scientists we get international people

1376

01:10:09,310 --> 01:10:06,050

and military that come in to these

1377

01:10:12,669 --> 01:10:09,320

sensitive areas the possibility that

1378

01:10:16,680 --> 01:10:12,679

something like the observatory at 9,000

1379

01:10:19,870 --> 01:10:16,690

200 feet could have been hacked into or

1380

01:10:22,870 --> 01:10:19,880

turned into some kind of an observation

1381

01:10:24,850 --> 01:10:22,880

post so that they could keep track of

1382

01:10:28,120 --> 01:10:24,860

something at White Sands and Holloman

1383

01:10:31,689 --> 01:10:28,130

that is another area that there hasn't

1384

01:10:36,430 --> 01:10:31,699

been much discussion about but it might

1385

01:10:38,590 --> 01:10:36,440

be closer to a real truth and look at

1386

01:10:41,680 --> 01:10:38,600

how sensitive our government is to the

1387

01:10:45,820 --> 01:10:41,690

idea any international espionage now

1388

01:10:48,880 --> 01:10:45,830

because of all the Soviet stuff so I'm

1389

01:10:52,390 --> 01:10:48,890

laying that out there not as any other

1390

01:10:55,709 --> 01:10:52,400

thing but to say we have not had anybody

1391

01:10:58,120 --> 01:10:55,719

explain to us what possible

1392

01:11:02,140 --> 01:10:58,130

international sabotage could that

1393

01:11:06,160 --> 01:11:02,150

Observatory be misused because it is up

1394

01:11:08,380 --> 01:11:06,170

above such sensitive military areas and

1395

01:11:11,740 --> 01:11:08,390

so that's a question mark that hangs out

1396

01:11:15,070 --> 01:11:11,750

there and yet that's still that would

1397

01:11:17,470 --> 01:11:15,080

not explain how garages would be left

1398

01:11:19,720 --> 01:11:17,480

open that anybody could walk into while

1399

01:11:21,939 --> 01:11:19,730

they boarded up windows and they're

1400

01:11:24,640 --> 01:11:21,949

putting orange cones at the houses yeah

1401

01:11:28,149 --> 01:11:24,650

and and to do all of that and and just

1402

01:11:30,340 --> 01:11:28,159

put up some simple police tape and then

1403

01:11:32,140 --> 01:11:30,350

anybody that wanted to drive up the road

1404

01:11:35,290 --> 01:11:32,150

and walk onto the property could do so

1405

01:11:38,410 --> 01:11:35,300

it's it's a contradiction it's a paradox

1406

01:11:40,570 --> 01:11:38,420

actually it's like a real paradox and

1407

01:11:43,540 --> 01:11:40,580

it's okay

1408

01:11:46,750 --> 01:11:43,550

now let's let's explore a couple of

1409

01:11:49,120 --> 01:11:46,760

other ideas here that one of them that

1410

01:11:51,370 --> 01:11:49,130

you have been covering along with myself

1411

01:11:55,360 --> 01:11:51,380

for a while now our fast radio bursts

1412

01:11:57,490 --> 01:11:55,370

two days before the raid the big

1413

01:12:00,850 --> 01:11:57,500

announcement came about the repeater

1414

01:12:03,040 --> 01:12:00,860

right the repeater FSB that pops out

1415

01:12:06,130 --> 01:12:03,050

then there was some rumors the day

1416

01:12:09,100 --> 01:12:06,140

before of the closure that I was

1417

01:12:14,580 --> 01:12:09,110

following up with was that said he was

1418

01:12:17,070 --> 01:12:14,590

involved with there along with the other

1419

01:12:20,800 --> 01:12:17,080

scientific crew with the fast repeater

1420

01:12:24,040 --> 01:12:20,810

we're all tied into these observatories

1421

01:12:25,500 --> 01:12:24,050

in New Mexico is there a possibility

1422

01:12:29,009 --> 01:12:25,510

Linda

1423

01:12:31,109 --> 01:12:29,019

that this observatory or shared

1424

01:12:34,549 --> 01:12:31,119

information with another observatory

1425

01:12:37,529 --> 01:12:34,559

about picking up and detecting something

1426

01:12:39,720 --> 01:12:37,539

well I don't know about the last

1427

01:12:43,259 --> 01:12:39,730

question but I know a lot about the

1428

01:12:46,680 --> 01:12:43,269

first question the fast radio bursts is

1429

01:12:49,680 --> 01:12:46,690

a story that has been developing and

1430

01:12:53,399 --> 01:12:49,690

evolving for a decade not before and

1431

01:12:56,009 --> 01:12:53,409

that it's in the last year that I did an

1432

01:12:58,560 --> 01:12:56,019

interview with avi Loeb he is the

1433

01:13:02,069 --> 01:12:58,570

chairman of the Astronomy Department of

1434

01:13:05,189 --> 01:13:02,079

Harvard University he is on the board of

1435

01:13:07,470 --> 01:13:05,199

directors for star shot star shot is

1436

01:13:09,149 --> 01:13:07,480

this very exciting project I've done a

1437

01:13:11,549 --> 01:13:09,159

lot of work about this at Earth files

1438

01:13:12,899 --> 01:13:11,559

everything I'm saying now anybody who

1439

01:13:17,430 --> 01:13:12,909

would like to get in depth

1440

01:13:20,310 --> 01:13:17,440

you just go to WWF is calm in the search

1441

01:13:22,589 --> 01:13:20,320

you type in fast radio bursts and you

1442

01:13:25,709 --> 01:13:22,599

will see the many reports I have done

1443

01:13:29,970 --> 01:13:25,719

about that type in star shot it's

1444

01:13:33,930 --> 01:13:29,980

usually all caps sta are sa chhoti I've

1445

01:13:36,979 --> 01:13:33,940

done a lot of work on that star shot was

1446

01:13:40,229 --> 01:13:36,989

funded about two years ago by the

1447

01:13:44,129 --> 01:13:40,239

Russian billionaire billionaire who now

1448

01:13:47,609 --> 01:13:44,139

lives in San Jose and he working with

1449

01:13:50,250 --> 01:13:47,619

Harvard working with other astronomy

1450

01:13:55,020 --> 01:13:50,260

departments their idea boils down to

1451

01:13:58,080 --> 01:13:55,030

this can we get lasers put together in a

1452

01:14:01,259 --> 01:13:58,090

bank that would be the propulsion system

1453

01:14:04,049 --> 01:14:01,269

for small craft it's two or three years

1454

01:14:07,560 --> 01:14:04,059

ago they were calling them wafer W a fer

1455

01:14:09,720 --> 01:14:07,570

wafer craft think of your iPhone imagine

1456

01:14:12,740 --> 01:14:09,730

that we are now going to start moving

1457

01:14:17,339 --> 01:14:12,750

into outer space in star shot by

1458

01:14:19,890 --> 01:14:17,349

projecting iPhones at say 20% 30% the

1459

01:14:24,120 --> 01:14:19,900

speed of light by the propulsion of

1460

01:14:26,549 --> 01:14:24,130

lasers light pushing at those iPhones

1461

01:14:31,140 --> 01:14:26,559

that will be protected by a small shield

1462

01:14:34,229 --> 01:14:31,150

and the big idea is that maybe in two

1463

01:14:36,359 --> 01:14:34,239

years maybe three years we will start

1464

01:14:38,669 --> 01:14:36,369

one there's a question about whether

1465

01:14:39,419 --> 01:14:38,679

we're going to launch from the earth or

1466

01:14:41,700 --> 01:14:39,429

from the moon

1467

01:14:43,439 --> 01:14:41,710

if we can get a launch facility up on

1468

01:14:45,930 --> 01:14:43,449

the moon we're not fighting atmosphere

1469

01:14:48,120 --> 01:14:45,940

but we would have to get a facility on

1470

01:14:50,060 --> 01:14:48,130

the moon so it may be the launch will be

1471

01:14:53,850 --> 01:14:50,070

from Earth through the atmosphere first

1472

01:14:55,950 --> 01:14:53,860

whatever happens here is the goal if

1473

01:14:59,399 --> 01:14:55,960

they can get one of these we'll call

1474

01:15:02,729 --> 01:14:59,409

them the iPhone type wafer crap going at

1475

01:15:05,490 --> 01:15:02,739

20% the speed of light and then in a few

1476

01:15:08,189 --> 01:15:05,500

months they do one at 30% and then next

1477

01:15:10,680 --> 01:15:08,199

year maybe 40% and that they start

1478

01:15:15,149 --> 01:15:10,690

getting a whole bunch of the small crap

1479

01:15:17,430 --> 01:15:15,159

being propelled by laser light going at

1480

01:15:21,840 --> 01:15:17,440

these percentages of the speed of light

1481

01:15:25,290 --> 01:15:21,850

toward Alpha Centauri Alpha Centauri is

1482

01:15:29,640 --> 01:15:25,300

four light-years from Earth going

1483

01:15:33,390 --> 01:15:29,650

full-tilt 186,000 miles a second so if

1484

01:15:36,240 --> 01:15:33,400

you're going 30% or 50% let's take 50%

1485

01:15:39,060 --> 01:15:36,250

it's easier to calculate so you would

1486

01:15:41,459 --> 01:15:39,070

add another two years so you might be

1487

01:15:43,830 --> 01:15:41,469

able to get to Alpha Centauri in seven

1488

01:15:46,169 --> 01:15:43,840

years and then you might be able to get

1489

01:15:48,060 --> 01:15:46,179

photographs and then send them back to

1490

01:15:50,669 --> 01:15:48,070

earth if you could go fifty percent the

1491

01:15:54,090 --> 01:15:50,679

speed of light and the whole idea is

1492

01:15:58,290 --> 01:15:54,100

that we're getting away from any kind of

1493

01:16:02,820 --> 01:15:58,300

hydrocarbon propulsion heavy tanks this

1494

01:16:07,010 --> 01:16:02,830

would be light now avi Loeb is working

1495

01:16:10,890 --> 01:16:07,020

on and he prepared a paper after

1496

01:16:13,890 --> 01:16:10,900

analysis of up to I think to the 27 fast

1497

01:16:16,439 --> 01:16:13,900

radio bursts and in his paper as the

1498

01:16:20,220 --> 01:16:16,449

chair of the Department of astronomy at

1499

01:16:22,680 --> 01:16:20,230

Harvard he proposes that we consider

1500

01:16:25,560 --> 01:16:22,690

this as the hypothesis for fast radio

1501
01:16:31,260 --> 01:16:25,570
bursts that they are the first evidence

1502
01:16:35,399 --> 01:16:31,270
of light speed transport in our universe

1503
01:16:38,689 --> 01:16:35,409
mm-hmm the location is three billion

1504
01:16:45,000 --> 01:16:38,699
light-years from Earth and a small

1505
01:16:48,390 --> 01:16:45,010
galaxy a single galaxy is where some of

1506
01:16:52,169 --> 01:16:48,400
these repeaters have been so when you

1507
01:16:53,010 --> 01:16:52,179
read the paper that avi loved it as the

1508
01:16:54,780 --> 01:16:53,020
chair of the

1509
01:16:56,310 --> 01:16:54,790
astronomy department and you listen to

1510
01:16:57,440 --> 01:16:56,320
that interview that I did with a matter

1511
01:17:01,320 --> 01:16:57,450
of files.com

1512
01:17:03,540 --> 01:17:01,330
you realize that whether or not we as a

1513
01:17:06,240 --> 01:17:03,550

world human family have understood

1514

01:17:07,560 --> 01:17:06,250

what's happening the universities of

1515

01:17:10,260 --> 01:17:07,570

this planet

1516

01:17:10,950 --> 01:17:10,270

the advanced astrophysicists of this

1517

01:17:14,640 --> 01:17:10,960

planet

1518

01:17:17,700 --> 01:17:14,650

they are already contemplating working

1519

01:17:21,330 --> 01:17:17,710

on plans how do we get off planet Earth

1520

01:17:26,100 --> 01:17:21,340

how do we find exoplanets that might be

1521

01:17:28,770 --> 01:17:26,110

able to support life Mars is going to be

1522

01:17:32,670 --> 01:17:28,780

a project maybe Elon Musk will manage it

1523

01:17:36,420 --> 01:17:32,680

but we are already with large money

1524

01:17:39,600 --> 01:17:36,430

large universities large concepts we are

1525

01:17:42,180 --> 01:17:39,610

looking at ways we can get off this

1526

01:17:46,380 --> 01:17:42,190

planet and discover other places and

1527

01:17:49,230 --> 01:17:46,390

that becomes the exciting atmosphere in

1528

01:17:52,590 --> 01:17:49,240

which fast radio bursts are now being

1529

01:17:55,160 --> 01:17:52,600

discussed as the context that they're

1530

01:17:57,480 --> 01:17:55,170

they themselves might be proof of

1531

01:17:59,010 --> 01:17:57,490

advanced intelligence in this universe

1532

01:18:01,950 --> 01:17:59,020

three billion light years away and

1533

01:18:04,530 --> 01:18:01,960

that's through Harvard do you think that

1534

01:18:06,510 --> 01:18:04,540

because of and it reminds me of the

1535

01:18:09,630 --> 01:18:06,520

movie contact right this is almost

1536

01:18:11,430 --> 01:18:09,640

exactly how we would expect it to play

1537

01:18:12,570 --> 01:18:11,440

out if it actually happened right I'm

1538

01:18:14,460 --> 01:18:12,580

talking about the National Solar

1539

01:18:18,450 --> 01:18:14,470

Observatory and the feds coming in and

1540

01:18:21,090 --> 01:18:18,460

and shutting it down do you think that

1541

01:18:22,800 --> 01:18:21,100

all of these observatories around the

1542

01:18:25,140 --> 01:18:22,810

world all these astronomers know each

1543

01:18:28,080 --> 01:18:25,150

other they all communicate when they see

1544

01:18:31,260 --> 01:18:28,090

something whether it's some supernova or

1545

01:18:34,500 --> 01:18:31,270

they see that they contact their their

1546

01:18:36,510 --> 01:18:34,510

their friends to confirm what they are

1547

01:18:38,790 --> 01:18:36,520

seeing lock in on this what do you think

1548

01:18:40,800 --> 01:18:38,800

is this what it is is this a black hole

1549

01:18:43,140 --> 01:18:40,810

eating another black hole whatever right

1550

01:18:45,020 --> 01:18:43,150

do you think that there is the

1551

01:18:49,200 --> 01:18:45,030

possibility that they were communicating

1552

01:18:52,200 --> 01:18:49,210

about a fast radio bursts and what was

1553

01:18:54,510 --> 01:18:52,210

going down this week and maybe the feds

1554

01:18:56,730 --> 01:18:54,520

had to go in and sanitize this place and

1555

01:18:59,700 --> 01:18:56,740

then just use some crazy cover story and

1556

01:19:02,400 --> 01:18:59,710

that they went in and and removed any

1557

01:19:04,740 --> 01:19:02,410

evidence of any communication well

1558

01:19:06,720 --> 01:19:04,750

here's the problem with that hypothesis

1559

01:19:09,960 --> 01:19:06,730

there is absolutely

1560

01:19:14,750 --> 01:19:09,970

no indication of a threat of any kind

1561

01:19:18,000 --> 01:19:14,760

the fast radio bursts last less than

1562

01:19:23,160 --> 01:19:18,010

this is hard to believe they last less

1563

01:19:26,660 --> 01:19:23,170

than 1/2 of a second but the energy from

1564

01:19:31,340 --> 01:19:26,670

these 3 billion light-years away is

1565

01:19:36,090 --> 01:19:31,350

equivalent to half a billion of our Suns

1566

01:19:37,979 --> 01:19:36,100

this is where they very first data as

1567

01:19:40,860 --> 01:19:37,989

scientists just couldn't believe what

1568

01:19:43,680 --> 01:19:40,870

they were looking at and there was one

1569

01:19:46,590 --> 01:19:43,690

paper that was presented about how a

1570

01:19:47,660 --> 01:19:46,600

fast radio bursts in less than half a

1571

01:19:50,729 --> 01:19:47,670

second

1572

01:19:54,110 --> 01:19:50,739

emitted the amount of energy of 500

1573

01:19:57,150 --> 01:19:54,120

million of our Suns and there was no

1574

01:19:59,370 --> 01:19:57,160

afterglow that's him just

1575

01:20:02,220 --> 01:19:59,380

incomprehensible right how could there

1576
01:20:05,580 --> 01:20:02,230
be any kind of an energy surge like that

1577
01:20:08,960 --> 01:20:05,590
in half a second and no afterglow no

1578
01:20:11,700 --> 01:20:08,970
heat signature nothing left over well

1579
01:20:14,930 --> 01:20:11,710
depending upon what this advanced

1580
01:20:18,210 --> 01:20:14,940
technology is which is what caught

1581
01:20:21,630 --> 01:20:18,220
caught the attention of avi Logue and

1582
01:20:24,060 --> 01:20:21,640
others that's why he put together this

1583
01:20:26,160 --> 01:20:24,070
wonderful paper to read on the

1584
01:20:30,830 --> 01:20:26,170
hypothesis that this could be the very

1585
01:20:34,229 --> 01:20:30,840
first evidence of light speed technology

1586
01:20:36,780 --> 01:20:34,239
operating in such a way that we expect

1587
01:20:38,850 --> 01:20:36,790
after glows we expect that that much

1588
01:20:41,820 --> 01:20:38,860

energy would take something so massive

1589

01:20:45,750 --> 01:20:41,830

to produce well it does take massive

1590

01:20:48,510 --> 01:20:45,760

amounts to produce but we're thinking in

1591

01:20:50,970 --> 01:20:48,520

terms of earth we're not thinking in

1592

01:20:54,270 --> 01:20:50,980

terms of what's out there and that's

1593

01:20:56,729 --> 01:20:54,280

what's so exciting about the fast radio

1594

01:20:59,970 --> 01:20:56,739

bursts research right now know

1595

01:21:02,970 --> 01:20:59,980

ultimately what do you think if you were

1596

01:21:07,140 --> 01:21:02,980

gonna take a crack at this journalist

1597

01:21:08,790 --> 01:21:07,150

friend of mine what what what why did

1598

01:21:15,300 --> 01:21:08,800

they close down the National Solar

1599

01:21:19,080 --> 01:21:15,310

Observatory well I think at this point

1600

01:21:22,260 --> 01:21:19,090

that we've heard pieces

1601
01:21:26,250 --> 01:21:22,270
we haven't nobody has told us the real

1602
01:21:29,060 --> 01:21:26,260
heart and that would be in the pattern

1603
01:21:32,940 --> 01:21:29,070
is the sheriff was deliberately left out

1604
01:21:35,010 --> 01:21:32,950
the FBI it was in charge rights in the

1605
01:21:38,090 --> 01:21:35,020
beginning and their jurisdiction would

1606
01:21:39,950 --> 01:21:38,100
be national security national security

1607
01:21:44,040 --> 01:21:39,960
could involve

1608
01:21:47,030 --> 01:21:44,050
international or it could be spies or

1609
01:21:51,210 --> 01:21:47,040
national or it could have to do with

1610
01:21:54,450 --> 01:21:51,220
some kind of theft as you pointed out

1611
01:21:56,940 --> 01:21:54,460
but the cept might be the coverage for

1612
01:22:00,240 --> 01:21:56,950
something like that more insidious story

1613
01:22:03,510 --> 01:22:00,250

of equipment at the solar observatory

1614

01:22:06,450 --> 01:22:03,520

being hacked or used by an a foreign

1615

01:22:10,650 --> 01:22:06,460

country to monitor and watch white sands

1616

01:22:14,190 --> 01:22:10,660

and Holloman Air Force Base something

1617

01:22:16,590 --> 01:22:14,200

that has not been reported is my guess

1618

01:22:18,540 --> 01:22:16,600

is what we're going to learn and that it

1619

01:22:21,930 --> 01:22:18,550

may have to do with international

1620

01:22:25,080 --> 01:22:21,940

sabotage or that bomb threat

1621

01:22:28,140 --> 01:22:25,090

those two emails that I said nothing

1622

01:22:31,110 --> 01:22:28,150

proved but they did come early on and

1623

01:22:33,660 --> 01:22:31,120

they came from two people independently

1624

01:22:36,150 --> 01:22:33,670

who had either had somebody living there

1625

01:22:38,310 --> 01:22:36,160

or knew people who were living there at

1626
01:22:41,820 --> 01:22:38,320
the solar observatory that's where those

1627
01:22:44,940 --> 01:22:41,830
two emails came including one about a

1628
01:22:49,830 --> 01:22:44,950
bomb threat so somewhere between bomb

1629
01:22:52,860 --> 01:22:49,840
threat and some international misuse

1630
01:22:54,900 --> 01:22:52,870
perhaps of equipment that might tie into

1631
01:22:58,080 --> 01:22:54,910
your story but would not be the bottom

1632
01:23:00,570 --> 01:22:58,090
line I do not think this is over yet I

1633
01:23:03,900 --> 01:23:00,580
do not think we've heard the end of this

1634
01:23:06,900 --> 01:23:03,910
and it and if you took the whole big

1635
01:23:09,420 --> 01:23:06,910
enchilada of the last 12 days and you

1636
01:23:12,120 --> 01:23:09,430
said what is the single most significant

1637
01:23:14,130 --> 01:23:12,130
thing I'm sorry I'm learning to juniper

1638
01:23:18,120 --> 01:23:14,140

and Jennifer is really bad right now in

1639

01:23:20,820 --> 01:23:18,130

September it would be that a federal

1640

01:23:24,080 --> 01:23:20,830

authority like the National Science

1641

01:23:28,290 --> 01:23:24,090

Foundation and aura in Washington DC

1642

01:23:31,530 --> 01:23:28,300

would not have been smarter about their

1643

01:23:33,300 --> 01:23:31,540

very first press release to the media

1644

01:23:37,680 --> 01:23:33,310

and to the war

1645

01:23:40,860 --> 01:23:37,690

I know I know and if you are if you are

1646

01:23:42,510 --> 01:23:40,870

an employee up there let's say Linda

1647

01:23:45,270 --> 01:23:42,520

Moulton Howes living in one of those

1648

01:23:48,240 --> 01:23:45,280

houses with your husband and maybe even

1649

01:23:49,770 --> 01:23:48,250

a child and a dog right and they're

1650

01:23:50,940 --> 01:23:49,780

gonna come to you and say you got to

1651

01:23:53,870 --> 01:23:50,950

pack up and you got to leave this

1652

01:23:58,530 --> 01:23:53,880

afternoon you better have a good reason

1653

01:24:01,440 --> 01:23:58,540

federal agency or not and what Paul M

1654

01:24:03,660 --> 01:24:01,450

learned today that I talked about that

1655

01:24:06,270 --> 01:24:03,670

if somebody has been paying good money

1656

01:24:07,740 --> 01:24:06,280

that was supposed to be money high

1657

01:24:11,070 --> 01:24:07,750

enough that you're not going to argue

1658

01:24:15,540 --> 01:24:11,080

about signing a nondisclosure agreement

1659

01:24:18,930 --> 01:24:15,550

quote this is directly from Paul they

1660

01:24:21,950 --> 01:24:18,940

had signed a non-disclosure form and

1661

01:24:26,840 --> 01:24:21,960

said they were compensated enough money

1662

01:24:31,860 --> 01:24:26,850

where they would not want to talk now

1663

01:24:33,780 --> 01:24:31,870

what is behind doing that I don't know

1664

01:24:38,490 --> 01:24:33,790

and and this is the other thing that the

1665

01:24:41,760 --> 01:24:38,500

bomb threat part or espionage I would

1666

01:24:44,280 --> 01:24:41,770

expect and I and I've heard all of this

1667

01:24:46,980 --> 01:24:44,290

and so of you I would expect the ATF to

1668

01:24:49,620 --> 01:24:46,990

be involved if there's explosives I

1669

01:24:53,760 --> 01:24:49,630

would expect the Department of Homeland

1670

01:24:55,980 --> 01:24:53,770

Security to be up there with spies and

1671

01:24:58,380 --> 01:24:55,990

espionage and computer hacking that

1672

01:25:00,270 --> 01:24:58,390

there would be not to say that the FBI

1673

01:25:02,670 --> 01:25:00,280

may not have the overall jurisdiction

1674

01:25:05,100 --> 01:25:02,680

but you're going to bring in other if

1675

01:25:07,560 --> 01:25:05,110

there's a bomb threat I don't want the

1676

01:25:11,040 --> 01:25:07,570

FBI up there I want the ATF up there I

1677

01:25:12,690 --> 01:25:11,050

could be wrong but as a resident up

1678

01:25:14,790 --> 01:25:12,700

there I would want to know that this is

1679

01:25:16,850 --> 01:25:14,800

being handled correctly and it just

1680

01:25:21,810 --> 01:25:16,860

seems like it hasn't and that's the part

1681

01:25:25,440 --> 01:25:21,820

the story doesn't wash yeah nothing yet

1682

01:25:28,320 --> 01:25:25,450

has come into gel to focus and that's

1683

01:25:32,070 --> 01:25:28,330

why this is not over and everybody

1684

01:25:35,220 --> 01:25:32,080

listening to Jimmy also do a stereo and

1685

01:25:36,690 --> 01:25:35,230

listen to earth files when I do I'm

1686

01:25:38,910 --> 01:25:36,700

going to be doing a report Wednesday

1687

01:25:41,370 --> 01:25:38,920

night on what else I have learned from

1688

01:25:45,360 --> 01:25:41,380

some people who are doing some tramping

1689

01:25:46,330 --> 01:25:45,370

in the grass for me and that between you

1690

01:25:49,210 --> 01:25:46,340

me and

1691

01:25:51,820 --> 01:25:49,220

maybe a couple of others we're going to

1692

01:25:54,760 --> 01:25:51,830

try to keep updating with the pressure

1693

01:25:57,730 --> 01:25:54,770

of fact what is truly one of the

1694

01:26:00,130 --> 01:25:57,740

strangest evolving two-week stories I

1695

01:26:01,780 --> 01:26:00,140

have ever encountered yeah no doubt no

1696

01:26:04,240 --> 01:26:01,790

doubt let's let's take a break right

1697

01:26:06,310 --> 01:26:04,250

here and Linda when we come back if it's

1698

01:26:09,280 --> 01:26:06,320

okay with you let's take a dance around

1699

01:26:11,320 --> 01:26:09,290

some of your other research and we'll

1700

01:26:13,660 --> 01:26:11,330

see where we end up how's that sound

1701

01:26:15,070 --> 01:26:13,670

it's always fun when you're here thank

1702

01:26:17,590 --> 01:26:15,080

you so much for taking the time tonight

1703

01:26:19,960 --> 01:26:17,600

Linda on this very very busy week for

1704

01:26:21,700 --> 01:26:19,970

all of us our guest tonight is Linda

1705

01:26:23,650 --> 01:26:21,710
