WITH JIMMY CHURCH

1
00:00:03,619 --> 00:00:01,550
major and I will tell you I've been in

2
00:00:06,079 --> 00:00:03,629
situations where I'm driving down a road

3
00:00:09,140 --> 00:00:06,089
or I remember once being Peru on a

4
00:00:12,200 --> 00:00:09,150
little train and I'm looking up at the

5
00:00:14,570 --> 00:00:12,210
site which is destabilized right right

6
00:00:17,540 --> 00:00:14,580
that's situation yeah that situation

7
00:00:19,970 --> 00:00:17,550
it's so cyclical out here it seems like

8
00:00:23,720 --> 00:00:19,980
we go through the same thing year after

9
00:00:25,160 --> 00:00:23,730
year where there's no rain then you know

10
00:00:28,339 --> 00:00:25,170
everything dries out we go through the

11
00:00:30,259 --> 00:00:28,349
fires then the rain comes and all the

12
00:00:31,910 --> 00:00:30,269
hillsides are stripped away of all the

13
00:00:33,950 --> 00:00:31,920

vegetation so then we got to deal with

14

00:00:35,870 --> 00:00:33,960

the mudslides and then it's like rinse

15

00:00:38,479 --> 00:00:35,880

and repeat right and then we just do it

16

00:00:41,450 --> 00:00:38,489

all over again it's not a place where

17

00:00:43,340 --> 00:00:41,460

people should live now I you know I I

18

00:00:45,860 --> 00:00:43,350

don't mean that nastily I meant that

19

00:00:48,979 --> 00:00:45,870

from a geological point of view it's not

20

00:00:50,779 --> 00:00:48,989

I mean you know because I've seen some

21

00:00:53,020 --> 00:00:50,789

of the pictures recently I saw I think

22

00:00:56,029 --> 00:00:53,030

on the news earlier today or an Internet

23

00:01:00,470 --> 00:00:56,039

so a big mud slide with boulders that

24

00:01:02,389 --> 00:01:00,480

come down over a road ya know you'd

25

00:01:04,189 --> 00:01:02,399

either you have to deal with it and

26

00:01:07,340 --> 00:01:04,199

accept it as it is but you're not going

27

00:01:09,460 --> 00:01:07,350

to change it from you know nature's

28

00:01:12,050 --> 00:01:09,470

point of view now you just mentioned

29

00:01:13,370 --> 00:01:12,060

what's this is what's really funny I'm

30

00:01:15,440 --> 00:01:13,380

gonna make this really quick because I

31

00:01:18,499 --> 00:01:15,450

want your reaction to this you and I

32

00:01:21,050 --> 00:01:18,509

we've sat and we talked so much and we

33

00:01:23,620 --> 00:01:21,060

agree on so much and and I've learned so

34

00:01:26,600 --> 00:01:23,630

much from you but there's one thing

35

00:01:27,530 --> 00:01:26,610

where you and I just don't agree and

36

00:01:32,060 --> 00:01:27,540

that's the own attorney

37

00:01:33,859 --> 00:01:32,070

Yonaguni yep oh yeah you went okay and

38

00:01:36,289 --> 00:01:33,869

actually I was mentioning yawning just

39

00:01:38,840 --> 00:01:36,299

now because that ties in with what we

40

00:01:41,120 --> 00:01:38,850

were just talking about what you have at

41

00:01:43,280 --> 00:01:41,130

Yonaguni and I don't know if everyone's

42

00:01:45,830 --> 00:01:43,290

familiar with it but you have these

43

00:01:48,440 --> 00:01:45,840

underwater structures are called

44

00:01:50,420 --> 00:01:48,450

structures but I'm using that non

45

00:01:53,060 --> 00:01:50,430

definitively that doesn't mean they're

46

00:01:55,429 --> 00:01:53,070

artificial as I'm using the term you can

47

00:01:57,170 --> 00:01:55,439

have natural geological structures and

48

00:02:01,580 --> 00:01:57,180

I'm convinced that it's primarily

49

00:02:04,850 --> 00:02:01,590

natural underwater and the way the rock

50

00:02:08,029 --> 00:02:04,860

breaks out it is fault as heavily

51
00:02:10,479 --> 00:02:08,039
faulted I'm talking now geology he's got

52
00:02:13,479 --> 00:02:10,489
these cracks in it their form by the

53
00:02:16,759 --> 00:02:13,489
earthquakes that occur there's a very

54
00:02:18,530 --> 00:02:16,769
active tectonic area in fact I could

55
00:02:22,399 --> 00:02:18,540
tell you a lot of fun stories about that

56
00:02:24,709 --> 00:02:22,409
I was I've been there four times and up

57
00:02:27,649 --> 00:02:24,719
to two weeks at a time diving at that

58
00:02:30,770 --> 00:02:27,659
type of thing and I am convinced that

59
00:02:33,619 --> 00:02:30,780
it's primarily a natural structure under

60
00:02:36,559 --> 00:02:33,629
water now there's lots of evidence for

61
00:02:39,259 --> 00:02:36,569
human habitation on the island going

62
00:02:41,089 --> 00:02:39,269
back to a very remote period going back

63
00:02:43,940 --> 00:02:41,099

to the end of the last ice age when

64

00:02:46,610 --> 00:02:43,950

you're on one end of Yonaguni you can

65

00:02:49,940 --> 00:02:46,620

actually see Taiwan on a clear day

66

00:02:51,470 --> 00:02:49,950

literally see Taiwan and recently

67

00:02:53,990 --> 00:02:51,480

because you were talking about recent

68

00:02:57,409 --> 00:02:54,000

research there's now information that's

69

00:03:02,270 --> 00:02:57,419

come out that in fact when you look at

70

00:03:06,080 --> 00:03:02,280

the topography underwater topography

71

00:03:09,679 --> 00:03:06,090

between Yonaguni and Taiwan at one point

72

00:03:11,360 --> 00:03:09,689

during the late Ice Age the sea levels

73

00:03:13,069 --> 00:03:11,370

were low enough that there was actually

74

00:03:15,020 --> 00:03:13,079

a land bridge between them and I do

75

00:03:17,530 --> 00:03:15,030

believe there was interchange etcetera

76

00:03:20,659 --> 00:03:17,540

so there were ancient people living on

77

00:03:23,990 --> 00:03:20,669

Yonaguni and when sea levels were lower

78

00:03:26,330 --> 00:03:24,000

a lot of these structures were exposed

79

00:03:28,189 --> 00:03:26,340

and I believe that they were using them

80

00:03:31,699 --> 00:03:28,199

they may have even slightly modified

81

00:03:35,270 --> 00:03:31,709

them but it's not a pyramid in my

82

00:03:37,009 --> 00:03:35,280

assessment built artificially and that

83

00:03:39,229 --> 00:03:37,019

gets back to what we were just talking

84

00:03:41,089 --> 00:03:39,239

about when I was there for one of the

85

00:03:43,969 --> 00:03:41,099

trips there was actually a small tsunami

86

00:03:46,280 --> 00:03:43,979

I mean it was big enough to you know

87

00:03:49,280 --> 00:03:46,290

cause a lot of damage and I actually

88

00:03:51,920 --> 00:03:49,290

went out to the cliffs of Yonaguni to

89

00:03:55,759 --> 00:03:51,930

see for myself how the rocks were being

90

00:03:58,339 --> 00:03:55,769

split and broken off in huge chunks and

91

00:04:01,999 --> 00:03:58,349

being carried away in forming this

92

00:04:06,860 --> 00:04:02,009

incredible step-like square topography

93

00:04:08,629 --> 00:04:06,870

but for me it naturally ah yeah I look

94

00:04:11,119 --> 00:04:08,639

at this now you've Skoob it you've been

95

00:04:15,140 --> 00:04:11,129

there and I understand that but I know

96

00:04:17,300 --> 00:04:15,150

when I look at just pictures of it from

97

00:04:19,819 --> 00:04:17,310

remotely when you haven't looked at the

98

00:04:24,110 --> 00:04:19,829

entire site and you see how the very

99

00:04:26,370 --> 00:04:24,120

regular even what looks like cut marks

100

00:04:30,630 --> 00:04:26,380

then grazed in

101
00:04:32,340 --> 00:04:30,640
ooh what everyone would agree is natural

102
00:04:35,970 --> 00:04:32,350
and there's all the gradations in

103
00:04:38,760 --> 00:04:35,980
between and a very strong currents that

104
00:04:41,030 --> 00:04:38,770
sweep out the debris and then you can

105
00:04:43,350 --> 00:04:41,040
find that elsewhere etc I mean it's a

106
00:04:46,530 --> 00:04:43,360
remarkable sight is an absolutely

107
00:04:48,990 --> 00:04:46,540
remarkable sight when I first was on my

108
00:04:50,850 --> 00:04:49,000
way there on the airplane actually you

109
00:04:53,430 --> 00:04:50,860
mentioned John Anthony was my first trip

110
00:04:55,860 --> 00:04:53,440
there was with John Anthony West right

111
00:04:58,200 --> 00:04:55,870
we went together we both learned to

112
00:05:00,180 --> 00:04:58,210
scuba dive before we went there so we

113
00:05:02,250 --> 00:05:00,190

could scuba dive on it because that's

114

00:05:06,390 --> 00:05:02,260

the only way you can see I mean I was

115

00:05:08,520 --> 00:05:06,400

already writing the scientific paper and

116

00:05:11,400 --> 00:05:08,530

I just was going there to confirm and

117

00:05:14,040 --> 00:05:11,410

get the final pieces of evidence but

118

00:05:15,780 --> 00:05:14,050

everything changed when I saw it on

119

00:05:17,850 --> 00:05:15,790

well I suppose when I say on the ground

120

00:05:18,510 --> 00:05:17,860

underwater when I saw it underwater for

121

00:05:21,210 --> 00:05:18,520

myself

122

00:05:22,740 --> 00:05:21,220

yeah it was it was I don't want to say

123

00:05:24,450 --> 00:05:22,750

it wasn't disappointed because it was

124

00:05:29,070 --> 00:05:24,460

disappointing awful that's what you

125

00:05:33,360 --> 00:05:29,080

loved it to be you know the definitive

126

00:05:36,690 --> 00:05:33,370

evidence of ancient structures to that

127

00:05:39,510 --> 00:05:36,700

remote period in that part of Asia I

128

00:05:41,190 --> 00:05:39,520

mean I would love that but you know me I

129

00:05:43,260 --> 00:05:41,200

mean we've talked about this before I

130

00:05:50,720 --> 00:05:43,270

have to go with the evidence as I see it

131

00:05:56,640 --> 00:05:53,730

earn your scuba gear your underwater and

132

00:06:08,160 --> 00:05:56,650

clearly over your shoulder on the wall

133

00:06:10,590 --> 00:06:08,170

is carved it says watch your step I wish

134

00:06:12,300 --> 00:06:10,600

but but if I could not change the

135

00:06:15,000 --> 00:06:12,310

subject but change the subject just a

136

00:06:17,460 --> 00:06:15,010

little bit Yonaguni is one thing and I'm

137

00:06:19,830 --> 00:06:17,470

not convinced by it but then we do have

138

00:06:22,830 --> 00:06:19,840

on Java and I've been there to see this

139

00:06:26,130 --> 00:06:22,840

site we have on Java the site of Goodman

140

00:06:28,680 --> 00:06:26,140

Padang right which is absolutely in my

141

00:06:31,380 --> 00:06:28,690

assessment in my opinion looking at the

142

00:06:33,810 --> 00:06:31,390

evidence the real thing going back to

143

00:06:37,310 --> 00:06:33,820

the same remote period even earlier

144

00:06:40,940 --> 00:06:37,320

possibly based on radiocarbon dating

145

00:06:43,550 --> 00:06:40,950

sigh geophysical work that Danny Hillman

146

00:06:45,980 --> 00:06:43,560

not should not to Jawa has been

147

00:06:49,180 --> 00:06:45,990

working on if I pronounce his Indonesian

148

00:06:53,870 --> 00:06:49,190

name correctly he goes by Danny Hillman

149

00:06:56,240 --> 00:06:53,880

he and you know so maybe Yonaguni in my

150

00:06:59,450 --> 00:06:56,250

opinion didn't pan out but we have

151
00:07:02,300 --> 00:06:59,460
another site from the same general area

152
00:07:05,000 --> 00:07:02,310
Indonesia right in this case versus

153
00:07:06,710 --> 00:07:05,010
Japan and I have no doubt whatsoever and

154
00:07:09,710 --> 00:07:06,720
I've been talking about this for

155
00:07:13,510 --> 00:07:09,720
actually decades now that yeah we

156
00:07:16,090 --> 00:07:13,520
probably have a center of early

157
00:07:20,330 --> 00:07:16,100
civilization and that part of the world

158
00:07:24,170 --> 00:07:20,340
just as we do in Egypt just as we do in

159
00:07:27,890 --> 00:07:24,180
Turkey etc and all of this builds up a

160
00:07:30,890 --> 00:07:27,900
larger picture that there was what I

161
00:07:33,230 --> 00:07:30,900
call an earlier cycle civilization that

162
00:07:35,690 --> 00:07:33,240
existed at the end of the last ice age

163
00:07:38,440 --> 00:07:35,700

so we have good evidence in my

164

00:07:41,600 --> 00:07:38,450

assessment at grinnin Padang we have

165

00:07:43,310 --> 00:07:41,610

incredible evidence and with gobekli

166

00:07:45,890 --> 00:07:43,320

tepe in Turkey which you and I have

167

00:07:48,710 --> 00:07:45,900

talked about quite a bit we have the

168

00:07:51,470 --> 00:07:48,720

evidence and Egypt from the Sphinx but

169

00:07:54,620 --> 00:07:51,480

I'm not going to personally dilute that

170

00:07:57,560 --> 00:07:54,630

if I couldn't use that term with things

171

00:08:00,730 --> 00:07:57,570

that are questionable like Yonaguni or

172

00:08:03,890 --> 00:08:00,740

things that are totally bogus and I

173

00:08:05,930 --> 00:08:03,900

wasn't the way I see it with for

174

00:08:07,400 --> 00:08:05,940

instance the so-called Bosnian pyramids

175

00:08:08,960 --> 00:08:07,410

I only think about that because someone

176
00:08:11,420 --> 00:08:08,970
wrote to me about that today and asked

177
00:08:13,220 --> 00:08:11,430
my opinion once again on the so-called

178
00:08:15,170 --> 00:08:13,230
Bosnian sorry I've never done a show

179
00:08:15,710 --> 00:08:15,180
I've never done this show on the Bosnian

180
00:08:18,830 --> 00:08:15,720
pyramids

181
00:08:22,400 --> 00:08:18,840
I haven't been sold don't do a show on

182
00:08:25,850 --> 00:08:22,410
them I you know that I tend to be very

183
00:08:29,330 --> 00:08:25,860
honest and I don't like to take any kind

184
00:08:32,830 --> 00:08:29,340
of native view on things or belittle

185
00:08:35,960 --> 00:08:32,840
other people and if I do I apologize

186
00:08:40,969 --> 00:08:35,970
right away hopefully but the Bosnian

187
00:08:42,950 --> 00:08:40,979
pyramids they they are not what some

188
00:08:46,810 --> 00:08:42,960

people claim they are what would it take

189

00:08:49,760 --> 00:08:46,820

to change your your mind on Yonaguni oh

190

00:08:50,900 --> 00:08:49,770

I would have to find some really

191

00:08:55,070 --> 00:08:50,910

definitive

192

00:08:58,430 --> 00:08:55,080

evidence that those were artificial

193

00:09:01,970 --> 00:08:58,440

structures I would have to find a

194

00:09:05,240 --> 00:09:01,980

doorway with a doorway were a doorway or

195

00:09:07,310 --> 00:09:05,250

maybe something where you have stones

196

00:09:10,040 --> 00:09:07,320

have actually been built and stacked

197

00:09:14,540 --> 00:09:10,050

together what you have is bedrock that

198

00:09:16,340 --> 00:09:14,550

has been shifted apart sort of it almost

199

00:09:18,080 --> 00:09:16,350

looks like an ancient quarry in fact

200

00:09:20,360 --> 00:09:18,090

many people including myself have

201
00:09:23,480 --> 00:09:20,370
suggested tentatively maybe it could be

202
00:09:26,330 --> 00:09:23,490
a part in ancient quarry but I'm not

203
00:09:29,210 --> 00:09:26,340
even convinced of that and people say

204
00:09:31,190 --> 00:09:29,220
it's right angles and it's so smooth and

205
00:09:33,920 --> 00:09:31,200
perfect well actually when you go

206
00:09:37,040 --> 00:09:33,930
underwater and you look at it directly

207
00:09:40,340 --> 00:09:37,050
it's not the angles are not perfectly

208
00:09:43,400 --> 00:09:40,350
right angles they fall they follow the

209
00:09:45,350 --> 00:09:43,410
fault lines they follow the bedding I'm

210
00:09:49,030 --> 00:09:45,360
using geological terms but they follow

211
00:09:52,570 --> 00:09:49,040
the bedding of the rock I mean it it

212
00:09:54,290 --> 00:09:52,580
unfortunately for the ancient

213
00:09:59,030 --> 00:09:54,300

civilization from the ancient

214

00:10:01,760 --> 00:09:59,040

civilization point of view it's it fits

215

00:10:05,480 --> 00:10:01,770

natural geology is it stupendous

216

00:10:07,430 --> 00:10:05,490

incredible natural geology yes do you

217

00:10:10,760 --> 00:10:07,440

get somewhat similar things elsewhere

218

00:10:13,580 --> 00:10:10,770

yes do you get anything precisely like

219

00:10:16,400 --> 00:10:13,590

that elsewhere no but is every

220

00:10:19,040 --> 00:10:16,410

geological formation every geological

221

00:10:21,440 --> 00:10:19,050

structure on Earth unique at some level

222

00:10:25,130 --> 00:10:21,450

yes this is a part of geology that's why

223

00:10:28,150 --> 00:10:25,140

you can take a little rock sample and if

224

00:10:31,970 --> 00:10:28,160

you have enough data and you do the

225

00:10:34,250 --> 00:10:31,980

analysis yeah you can say oh this rock

226

00:10:36,200 --> 00:10:34,260

came from this quarry in this country

227

00:10:38,510 --> 00:10:36,210

etc etc and they do that for instance

228

00:10:40,760 --> 00:10:38,520

with artwork sculptures and whatnot

229

00:10:45,680 --> 00:10:40,770

everything in geology is unique to

230

00:10:47,840 --> 00:10:45,690

assert a certain level the when people

231

00:10:50,030 --> 00:10:47,850

say to me almost there's nothing exactly

232

00:10:52,100 --> 00:10:50,040

like Yonaguni elsewhere therefore it

233

00:10:55,400 --> 00:10:52,110

must be artificial no that doesn't work

234

00:10:57,770 --> 00:10:55,410

that's not the way geology is the the

235

00:10:59,960 --> 00:10:57,780

other part about you know goonie though

236

00:11:02,690 --> 00:10:59,970

you just suggested that there's a

237

00:11:04,150 --> 00:11:02,700

possibility of it may be an ancient

238

00:11:06,670 --> 00:11:04,160

quarry

239

00:11:07,869 --> 00:11:06,680

well that would be significant too as

240

00:11:09,999 --> 00:11:07,879

well wouldn't it that would be

241

00:11:12,009 --> 00:11:10,009

significant and actually I'm not

242

00:11:14,259 --> 00:11:12,019

convinced as an ancient quarry but what

243

00:11:18,069 --> 00:11:14,269

I am convinced of and a lot of people

244

00:11:19,660 --> 00:11:18,079

miss this when they hear me say

245

00:11:22,059 --> 00:11:19,670

something and then I don't say exactly

246

00:11:24,429 --> 00:11:22,069

what they want to hear which is that oh

247

00:11:28,590 --> 00:11:24,439

yeah this is a ancient pyramid under

248

00:11:31,389 --> 00:11:28,600

water and proves you know ancient

249

00:11:36,249 --> 00:11:31,399

civilization there and part of MU or

250

00:11:38,309 --> 00:11:36,259

linear whatnot I'm convinced that based

251
00:11:41,350 --> 00:11:38,319
on the evidence that people were

252
00:11:44,499 --> 00:11:41,360
inhabiting that Island at this revoke

253
00:11:47,590 --> 00:11:44,509
period on the island on the surface

254
00:11:50,340 --> 00:11:47,600
there are tombs for instance there are

255
00:11:52,749 --> 00:11:50,350
what they now call tombs ancient tombs

256
00:11:54,670 --> 00:11:52,759
some of them are more modern they are

257
00:11:57,610 --> 00:11:54,680
still being used but some of them are

258
00:12:00,850 --> 00:11:57,620
very very ancient and when you look at

259
00:12:03,090 --> 00:12:00,860
those tombs they are absolutely human

260
00:12:06,309 --> 00:12:03,100
constructed carved out of the bedrock

261
00:12:08,740 --> 00:12:06,319
actually carved out different formations

262
00:12:12,280 --> 00:12:08,750
of bedrock than the under water

263
00:12:16,120 --> 00:12:12,290

structures but they are I am convinced

264

00:12:18,790 --> 00:12:16,130

carved in ancient times to essentially

265

00:12:21,309 --> 00:12:18,800

mimic if you would the underwater

266

00:12:24,790 --> 00:12:21,319

structures so what I'm saying is that

267

00:12:27,850 --> 00:12:24,800

just like we who in awe at the Grand

268

00:12:29,650 --> 00:12:27,860

Canyon or the man in the mountain you

269

00:12:31,480 --> 00:12:29,660

know natural formations that type of

270

00:12:34,139 --> 00:12:31,490

thing and even make copies of them I

271

00:12:36,879 --> 00:12:34,149

think the ancient people were incredibly

272

00:12:38,769 --> 00:12:36,889

impressed by what they saw Yonaguni

273

00:12:41,019 --> 00:12:38,779

which were still impressed by and they

274

00:12:43,600 --> 00:12:41,029

were even imitating it to a certain

275

00:12:45,340 --> 00:12:43,610

extent I've also hypothesized that when

276

00:12:47,410 --> 00:12:45,350

this was above water more or less sea

277

00:12:50,079 --> 00:12:47,420

levels were lower they may have used

278

00:12:54,490 --> 00:12:50,089

Yonaguni as some kind of platform or

279

00:12:57,040 --> 00:12:54,500

staging ground did they maybe modify it

280

00:12:59,740 --> 00:12:57,050

very slightly I'm not opposed to that

281

00:13:02,799 --> 00:12:59,750

concept what I'm opposed to are what I'm

282

00:13:06,850 --> 00:13:02,809

saying the evidence it indicates to me

283

00:13:10,540 --> 00:13:06,860

is that it's not in total or even

284

00:13:12,280 --> 00:13:10,550

primarily artificial structure I'm not

285

00:13:15,360 --> 00:13:12,290

denying that humans were there in

286

00:13:17,450 --> 00:13:15,370

ancient times and admiring it using it

287

00:13:19,460 --> 00:13:17,460

imitating it

288

00:13:22,130 --> 00:13:19,470

you know it's not really a

289

00:13:26,750 --> 00:13:22,140

black-and-white issue there's a lot of

290

00:13:29,210 --> 00:13:26,760

gray area in there no yes and and it in

291

00:13:32,000 --> 00:13:29,220

a way it kind of bums me out but the

292

00:13:33,380 --> 00:13:32,010

thing is my all but we make there's

293

00:13:35,060 --> 00:13:33,390

something else that before I'm sorry

294

00:13:37,610 --> 00:13:35,070

didn't you interrupt - sure one thing

295

00:13:39,769 --> 00:13:37,620

you have to remember are think about

296

00:13:42,380 --> 00:13:39,779

especially when you go to the Far East

297

00:13:45,140 --> 00:13:42,390

and we're talking modern Japan and now

298

00:13:48,260 --> 00:13:45,150

China it just off the coast of China and

299

00:13:52,100 --> 00:13:48,270

Taiwan they have a very very long

300

00:13:54,560 --> 00:13:52,110

tradition of admiring nature imitating

301
00:13:58,190 --> 00:13:54,570
nature you think of you know like Zen

302
00:13:59,990 --> 00:13:58,200
gardens and right right right that type

303
00:14:02,900 --> 00:14:00,000
of thing and I think actually at

304
00:14:05,660 --> 00:14:02,910
Yonaguni you can trace this tradition

305
00:14:07,550 --> 00:14:05,670
back to a very remote period I think

306
00:14:10,010 --> 00:14:07,560
that served neat but go ahead I'm sorry

307
00:14:11,720 --> 00:14:10,020
something bums you out well in that we

308
00:14:14,090 --> 00:14:11,730
see things and we all want the

309
00:14:15,920 --> 00:14:14,100
fantastical to you know to possibly

310
00:14:18,410 --> 00:14:15,930
break through and be true parallel

311
00:14:22,280 --> 00:14:18,420
worlds time-traveled you know and and

312
00:14:24,440 --> 00:14:22,290
something like Jana Guney is right there

313
00:14:27,950 --> 00:14:24,450

and it's the same but Yonaguni to me

314

00:14:29,870 --> 00:14:27,960

looks very real as opposed to the

315

00:14:32,600 --> 00:14:29,880

Bosnian pyramid I look at that night

316

00:14:35,240 --> 00:14:32,610

it's a hill oh absolutely the Bosnian

317

00:14:37,970 --> 00:14:35,250

pyramids don't even look real and that's

318

00:14:42,740 --> 00:14:37,980

in part because they're not real number

319

00:14:46,400 --> 00:14:42,750

one and you've got huge huge hills which

320

00:14:48,380 --> 00:14:46,410

only from certain angles sort of maybe

321

00:14:50,480 --> 00:14:48,390

look like something and then when

322

00:14:53,600 --> 00:14:50,490

they're bulldozed and carved up with

323

00:14:56,329 --> 00:14:53,610

backhoes you little section sort of

324

00:15:01,390 --> 00:14:56,339

maybe look like something the thing

325

00:15:05,170 --> 00:15:01,400

about Yonaguni is you've never seen it

326

00:15:09,050 --> 00:15:05,180

let me well I don't mean this this sound

327

00:15:11,510 --> 00:15:09,060

the wrong way but it's very hard to see

328

00:15:14,329 --> 00:15:11,520

in photographs you've actually not seen

329

00:15:17,960 --> 00:15:14,339

it unless you've not only dived it but

330

00:15:20,960 --> 00:15:17,970

dived the extent of it if someone puts

331

00:15:23,240 --> 00:15:20,970

you down in one little spot on Yonaguni

332

00:15:25,810 --> 00:15:23,250

underwater I'm talking scuba and then

333

00:15:28,670 --> 00:15:25,820

doesn't let you explore the whole

334

00:15:31,340 --> 00:15:28,680

structure it could be very convincing

335

00:15:33,710 --> 00:15:31,350

even right in front of you

336

00:15:36,500 --> 00:15:33,720

when you start looking at how it grades

337

00:15:40,130 --> 00:15:36,510

in and you actually start exploring the

338

00:15:42,520 --> 00:15:40,140

geology with you know background and the

339

00:15:46,010 --> 00:15:42,530

type of rocket is that type of thing

340

00:15:48,290 --> 00:15:46,020

it's you know something else comes out

341

00:15:50,780 --> 00:15:48,300

I'll say one more thing about right now

342

00:15:54,050 --> 00:15:50,790

I could not even see the rock on my

343

00:15:56,960 --> 00:15:54,060

first diver - why because it's all

344

00:15:59,000 --> 00:15:56,970

covered with what I call organic scum as

345

00:16:04,400 --> 00:15:59,010

a geologist it's covered with organisms

346

00:16:06,800 --> 00:16:04,410

covered with corals and sea squirts or

347

00:16:08,540 --> 00:16:06,810

whatever they call them sponges that

348

00:16:10,640 --> 00:16:08,550

type of thing is sort of like if you

349

00:16:15,020 --> 00:16:10,650

took something that's a bit rougher and

350

00:16:17,510 --> 00:16:15,030

then you took cement you know thin layer

351

00:16:20,000 --> 00:16:17,520

cement and put it over it and smooth

352

00:16:22,100 --> 00:16:20,010

everything over and it would make it

353

00:16:26,690 --> 00:16:22,110

look much nicer and neater that's

354

00:16:28,790 --> 00:16:26,700

essentially what's happened our usage at

355

00:16:31,280 --> 00:16:28,800

Yonaguni so it gives even more of the

356

00:16:33,230 --> 00:16:31,290

impression that it's a artificial

357

00:16:36,980 --> 00:16:33,240

structure and then you have things like

358

00:16:39,350 --> 00:16:36,990

quote post holes people that people have

359

00:16:42,500 --> 00:16:39,360

thought they saw post holes which are

360

00:16:44,240 --> 00:16:42,510

very regularly spaced etc etc I've

361

00:16:47,060 --> 00:16:44,250

looked at those in detail what they are

362

00:16:51,620 --> 00:16:47,070

is a long a joint or a fracture in the

363

00:16:52,940 --> 00:16:51,630

rock little organisms will burrow in and

364

00:16:55,040 --> 00:16:52,950

they'll make their little home and

365

00:16:57,890 --> 00:16:55,050

they'll make though actually wrote the

366

00:17:00,200 --> 00:16:57,900

rock away and they'll make a hole

367

00:17:02,510 --> 00:17:00,210

basically where they're living and these

368

00:17:04,610 --> 00:17:02,520

it's very common biology and marine

369

00:17:07,130 --> 00:17:04,620

biology they space themselves very

370

00:17:09,319 --> 00:17:07,140

evenly because they have their own

371

00:17:11,960 --> 00:17:09,329

little territory we'll use that term

372

00:17:15,350 --> 00:17:11,970

loosely and so they make what look like

373

00:17:16,250 --> 00:17:15,360

very regular structures in geology and

374

00:17:19,100 --> 00:17:16,260

biology

375

00:17:22,130 --> 00:17:19,110

you get regularities and patterns all

376

00:17:25,579 --> 00:17:22,140

the time and they look artificial to the

377

00:17:27,290 --> 00:17:25,589

untrained eye well it's really it's

378

00:17:29,810 --> 00:17:27,300

incredible sight I would never

379

00:17:32,570 --> 00:17:29,820

discourage anyone from going there it's

380

00:17:34,760 --> 00:17:32,580

it's a one of the wonders of the world

381

00:17:37,120 --> 00:17:34,770

it just is more natural than artificial

382

00:17:40,060 --> 00:17:37,130

in my assessment well we

383

00:17:42,790 --> 00:17:40,070

we will continue to disagree but you

384

00:17:44,620 --> 00:17:42,800

know you have to go there we should take

385

00:17:45,880 --> 00:17:44,630

a trip where you die you should tear

386

00:17:47,410 --> 00:17:45,890

there wouldn't that be fun

387

00:17:50,980 --> 00:17:47,420

we should take a trip and I want to

388

00:17:53,140 --> 00:17:50,990

clarify and we could do your radio show

389

00:17:55,630 --> 00:17:53,150

from underwater oh man it will be so

390

00:17:57,280 --> 00:17:55,640

cool don't worry I'm joking because they

391

00:18:02,410 --> 00:17:57,290

do have these things where you can talk

392

00:18:03,610 --> 00:18:02,420

and whatnot does Katie scuba dive not to

393

00:18:06,130 --> 00:18:03,620

my knowledge

394

00:18:08,110 --> 00:18:06,140

okay you can learn she can learn it's

395

00:18:11,500 --> 00:18:08,120

not hard if I can do it anyone can do it

396

00:18:14,530 --> 00:18:11,510

well Marcus her mother her water type

397

00:18:19,150 --> 00:18:14,540

her and really could do produce the show

398

00:18:20,650 --> 00:18:19,160

from on deck by notice I know she does

399

00:18:22,660 --> 00:18:20,660

plenty of snorkeling and that type of

400

00:18:25,240 --> 00:18:22,670

thing so scuba is not that far from at

401
00:18:29,260 --> 00:18:25,250
me actually I find scuba diving easier

402
00:18:31,450 --> 00:18:29,270
than more i I find it easier to scuba

403
00:18:33,160 --> 00:18:31,460
dive than to snorkel personally now

404
00:18:36,160 --> 00:18:33,170
we've got two minutes before the break

405
00:18:39,460 --> 00:18:36,170
and I need some clarification from you

406
00:18:41,980 --> 00:18:39,470
you said earlier sort of maybe about

407
00:18:44,620 --> 00:18:41,990
three times is that an academic term

408
00:18:46,600 --> 00:18:44,630
Robert yeah what you know what we do

409
00:18:49,030 --> 00:18:46,610
when we're in academia we say sort of

410
00:18:51,280 --> 00:18:49,040
maybe when we don't want to be totally

411
00:18:54,340 --> 00:18:51,290
committed because it always sounds bad

412
00:18:55,900 --> 00:18:54,350
when academic is totally committed to

413
00:18:58,120 --> 00:18:55,910

something because that's not the way we

414

00:19:01,600 --> 00:18:58,130

are we always look for evidence we're

415

00:19:03,970 --> 00:19:01,610

always open to changing our mind so we

416

00:19:06,060 --> 00:19:03,980

John West used to make fun of me for

417

00:19:09,550 --> 00:19:06,070

this he said you know I talked about my

418

00:19:11,440 --> 00:19:09,560

hypothesis well you know my working

419

00:19:13,810 --> 00:19:11,450

hypothesis well that's what I believe at

420

00:19:17,820 --> 00:19:13,820

the moment but I'm open to changing my

421

00:19:21,280 --> 00:19:17,830

mind if evidence comes in that merits

422

00:19:24,640 --> 00:19:21,290

rethinking something sort of maybe man I

423

00:19:27,190 --> 00:19:24,650

can't wait that's a colloquial version I

424

00:19:29,140 --> 00:19:27,200

can't wait to use that in a sentence now

425

00:19:31,180 --> 00:19:29,150

when we come back after the break we've

426

00:19:33,790 --> 00:19:31,190

got a lot to talk about I want to get to

427

00:19:36,010 --> 00:19:33,800

all of the latest news out of Giza

428

00:19:37,720 --> 00:19:36,020

there's a ton of it because we're going

429

00:19:40,690 --> 00:19:37,730

to spend the rest of the show talking

430

00:19:42,700 --> 00:19:40,700

about what happened 12,000 years ago

431

00:19:45,190 --> 00:19:42,710

we've got to talk about the end of the

432

00:19:46,750 --> 00:19:45,200

last ice age all of your latest research

433

00:19:47,770 --> 00:19:46,760

there's a lot of stuff to get through

434

00:19:49,360 --> 00:19:47,780

and

435

00:19:53,200 --> 00:19:49,370

we come back after the break we'll start

436

00:19:55,660 --> 00:19:53,210

564

00:26:12,160 --> 00:26:08,900

kg RA the planet can follow me on

565

00:26:13,870 --> 00:26:12,170

twitter @jj radio and dr. Schaack has a

566

00:26:15,789 --> 00:26:13,880

Twitter account he hasn't used in about

567

00:26:17,289 --> 00:26:15,799

15 years since the start of Twitter but

568

00:26:20,950 --> 00:26:17,299

we have it up there

569

00:26:22,510 --> 00:26:20,960

it is dr. Robert M shock and we have it

570

00:26:25,180 --> 00:26:22,520

up there on Twitter maybe you'll pay

571

00:26:27,039 --> 00:26:25,190

attention to Twitter these days it's

572

00:26:31,690 --> 00:26:27,049

going to be huge they say that Twitter

573

00:26:33,610 --> 00:26:31,700

might get big dr. Schaack now yeah yeah

574

00:26:35,140 --> 00:26:33,620

I don't know I believe that when the

575

00:26:37,630 --> 00:26:35,150

President of the United States she

576

00:26:40,720 --> 00:26:37,640

starts using it I'm with you on that

577

00:26:44,169 --> 00:26:40,730

we'll have to wait and see and now check

578

00:26:47,110 --> 00:26:44,179

this out and I love a good conspiracy a

579

00:26:48,250 --> 00:26:47,120

couple of this one involves you a couple

580

00:26:50,799 --> 00:26:48,260

of months ago I had a guest on the show

581

00:26:55,210 --> 00:26:50,809

that just got back from Egypt and in

582

00:26:58,600 --> 00:26:55,220

Giza and and reported back to me live on

583

00:27:02,650 --> 00:26:58,610

the air with this saying that they were

584

00:27:05,140 --> 00:27:02,660

traveling south into Saqqara right off

585

00:27:08,169 --> 00:27:05,150

of the plateau and then off to their

586

00:27:13,390 --> 00:27:08,179

right and it's still in giza off to

587

00:27:15,880 --> 00:27:13,400

their right is a NASA warehouse that

588

00:27:18,039 --> 00:27:15,890

says NASA on the side of it with NASA

589

00:27:21,960 --> 00:27:18,049

trucks and then they started to notice

590

00:27:28,810 --> 00:27:21,970

NASA trucks next to the Great Pyramid

591

00:27:30,700 --> 00:27:28,820

hmm well that's your answer know

592

00:27:34,770 --> 00:27:30,710

anything what you know did they give any

593

00:27:38,560 --> 00:27:34,780

more information that's what I depend on

594

00:27:42,270 --> 00:27:38,570

the u.s. is faster yes that's very

595

00:27:45,580 --> 00:27:42,280

interesting I don't know I don't know

596

00:27:47,799 --> 00:27:45,590

two months ago just got back here two

597

00:27:49,720 --> 00:27:47,809

months ago Wow now you're gonna be

598

00:27:51,010 --> 00:27:49,730

you're gonna be out there which I'm

599

00:27:52,720 --> 00:27:51,020

going to be out there in May and June

600

00:27:55,630 --> 00:27:52,730

you're gonna be out there man tuned

601
00:27:59,919 --> 00:27:55,640
you're gonna do some filming too as well

602
00:28:03,580 --> 00:27:59,929
I hope so yes okay and Willie has we're

603
00:28:05,130 --> 00:28:03,590
working on a documentary with Jim feel

604
00:28:08,310 --> 00:28:05,140
to you and I have talked

605
00:28:09,900 --> 00:28:08,320
spoken about this off the air and yeah

606
00:28:14,150 --> 00:28:09,910
we're going to put together a

607
00:28:17,820 --> 00:28:14,160
documentary with Jim fields who is

608
00:28:20,100 --> 00:28:17,830
award-winning filmmaker and this is with

609
00:28:22,430 --> 00:28:20,110
Oracle the organization for the research

610
00:28:24,810 --> 00:28:22,440
of ancient cultures the nonprofit and

611
00:28:25,440 --> 00:28:24,820
yeah we're very excited about this

612
00:28:28,110 --> 00:28:25,450
project

613
00:28:30,390 --> 00:28:28,120

yeah he is he is really really good and

614

00:28:34,710 --> 00:28:30,400

for everybody out there Jim fields was

615

00:28:37,440 --> 00:28:34,720

the director of the ramones documentary

616

00:28:39,690 --> 00:28:37,450

that came out a couple of years ago end

617

00:28:42,060 --> 00:28:39,700

of the century end of the century it is

618

00:28:44,400 --> 00:28:42,070

a tremendous film he is so talented and

619

00:28:48,240 --> 00:28:44,410

so do me a favor make sure that he gets

620

00:28:50,940 --> 00:28:48,250

a shot of that NASA warehouse well if we

621

00:28:53,340 --> 00:28:50,950

find it and if it's still there and

622

00:28:55,910 --> 00:28:53,350

we're allowed to get a shot of it we

623

00:28:59,220 --> 00:28:55,920

will I have to be careful though because

624

00:29:00,810 --> 00:28:59,230

as well you've not been to Egypt you've

625

00:29:02,850 --> 00:29:00,820

never been to you know you have got to

626
00:29:06,510 --> 00:29:02,860
come to Egypt with me sometime with the

627
00:29:07,980 --> 00:29:06,520
IU and Rita and maybe so they what do

628
00:29:09,840 --> 00:29:07,990
you call it the fate or not it's a fader

629
00:29:11,730 --> 00:29:09,850
no come along yeah we could have a

630
00:29:16,500 --> 00:29:11,740
Phaedra not the Egypt trip sometime I

631
00:29:17,880 --> 00:29:16,510
can't wait for that great time but one

632
00:29:19,680 --> 00:29:17,890
thing you'll learn is that you do have

633
00:29:21,780 --> 00:29:19,690
to be careful in Egypt and sometimes

634
00:29:25,800 --> 00:29:21,790
they do not like things photographed or

635
00:29:29,550 --> 00:29:25,810
filmed so you have to be careful they're

636
00:29:31,590 --> 00:29:29,560
gonna hate me the selfie King too as

637
00:29:34,620 --> 00:29:31,600
well you've always got the camera at the

638
00:29:37,370 --> 00:29:34,630

ready so I know I'm I take pictures of

639

00:29:41,250 --> 00:29:37,380

everything I take pictures of everything

640

00:29:43,170 --> 00:29:41,260

but in Egypt I do am careful and you

641

00:29:45,770 --> 00:29:43,180

know you don't take pictures of military

642

00:29:48,450 --> 00:29:45,780

installations that type of thing no you

643

00:29:50,400 --> 00:29:48,460

on the tourist sites they're usually

644

00:29:52,320 --> 00:29:50,410

pretty very they're usually good about

645

00:29:54,720 --> 00:29:52,330

but they will tell you bluntly if you

646

00:29:56,520 --> 00:29:54,730

can't take pictures of this and that in

647

00:29:57,750 --> 00:29:56,530

the past it was sometimes they simply

648

00:30:00,570 --> 00:29:57,760

didn't want you to take pictures because

649

00:30:01,770 --> 00:30:00,580

they want to sell postcards or books it

650

00:30:04,380 --> 00:30:01,780

was as simple as that

651

00:30:07,950 --> 00:30:04,390

well you're gonna be out there in May

652

00:30:11,010 --> 00:30:07,960

and we just said this and June just had

653

00:30:14,790 --> 00:30:11,020

this terrorist bombing of a tourist bus

654

00:30:16,620 --> 00:30:14,800

there in Giza still in the city it

655

00:30:17,970 --> 00:30:16,630

wasn't like it was at the base of the

656

00:30:21,360 --> 00:30:17,980

pyramids

657

00:30:24,720 --> 00:30:21,370

no but nonetheless are you concerned

658

00:30:26,340 --> 00:30:24,730

about safety well no you I think you

659

00:30:29,390 --> 00:30:26,350

always have to be concerned about safety

660

00:30:32,310 --> 00:30:29,400

anywhere you go that includes America

661

00:30:35,130 --> 00:30:32,320

because I don't want gelfand engine but

662

00:30:37,440 --> 00:30:35,140

we certainly have issues in America I

663

00:30:41,070 --> 00:30:37,450

grew up in Washington DC I was born in

664

00:30:42,990 --> 00:30:41,080

Washington DC so I've always been wary

665

00:30:45,690 --> 00:30:43,000

that type of thing I'm certainly that

666

00:30:49,590 --> 00:30:45,700

way when traveling and other countries

667

00:30:52,770 --> 00:30:49,600

including Asia but to the specific point

668

00:30:55,649 --> 00:30:52,780

is a horrible thing what happened in

669

00:30:58,350 --> 00:30:55,659

terms of the bombing it was a bomb that

670

00:31:00,600 --> 00:30:58,360

went off it was late last year just

671

00:31:03,419 --> 00:31:00,610

before a couple of days before New Year

672

00:31:06,210 --> 00:31:03,429

and it was I know exactly where it

673

00:31:08,909 --> 00:31:06,220

occurred I looked it up immediately I'm

674

00:31:12,270 --> 00:31:08,919

familiar with the area it's not someone

675

00:31:15,510 --> 00:31:12,280

it's not somewhere someone like myself

676
00:31:17,970 --> 00:31:15,520
would ever go personally or certainly

677
00:31:22,169 --> 00:31:17,980
not take tourists personally I don't

678
00:31:24,390 --> 00:31:22,179
know why that tourist bus was there it

679
00:31:28,110 --> 00:31:24,400
was a bomb as I understand that was

680
00:31:29,880 --> 00:31:28,120
planted in our behind wall so that was

681
00:31:32,610 --> 00:31:29,890
concealed it was a place where there

682
00:31:36,360 --> 00:31:32,620
wasn't as much military security as

683
00:31:39,029 --> 00:31:36,370
there is other places Egypt is really a

684
00:31:41,730 --> 00:31:39,039
very very secure country it's a very

685
00:31:43,919 --> 00:31:41,740
safe country in my assessment when

686
00:31:47,700 --> 00:31:43,929
something like that this happens it's a

687
00:31:50,130 --> 00:31:47,710
horrible horrible situation but it's not

688
00:31:54,000 --> 00:31:50,140

the norm in Egypt it really is not the

689

00:31:58,100 --> 00:31:54,010

norm in Egypt and as soon as it happened

690

00:32:01,380 --> 00:31:58,110

within the 24 hours or less the

691

00:32:04,620 --> 00:32:01,390

government knew what was going on they

692

00:32:08,039 --> 00:32:04,630

researched it they cracked down they

693

00:32:10,789 --> 00:32:08,049

actually I this is you know I I hate

694

00:32:15,090 --> 00:32:10,799

even thinking of it this way but 40

695

00:32:19,230 --> 00:32:15,100

terrorists were killed and essentially

696

00:32:22,080 --> 00:32:19,240

what they you there's a war they have a

697

00:32:26,880 --> 00:32:22,090

war internal war against terrorists and

698

00:32:30,419 --> 00:32:26,890

terrorism and in Egypt it's always been

699

00:32:31,060 --> 00:32:30,429

the case that they cracked down hard I

700

00:32:33,639 --> 00:32:31,070

think

701
00:32:36,580 --> 00:32:33,649
rightfully so to keep their country

702
00:32:38,200 --> 00:32:36,590
stable and safe so in my assessment and

703
00:32:40,330 --> 00:32:38,210
I've been going back and forth to Egypt

704
00:32:43,330 --> 00:32:40,340
for three decades now

705
00:32:47,379 --> 00:32:43,340
I think it's as safe as it's ever been

706
00:32:50,350 --> 00:32:47,389
in fact safer than it has been in many

707
00:32:55,480 --> 00:32:50,360
years at this immediate point in time

708
00:32:58,539 --> 00:32:55,490
now what is interesting for me that in

709
00:33:00,340 --> 00:32:58,549
this audience with your research when

710
00:33:02,460 --> 00:33:00,350
you go back to the original stuff that

711
00:33:05,669 --> 00:33:02,470
you did with John Anthony West jaws and

712
00:33:08,110 --> 00:33:05,679
you started to run into these dates

713
00:33:10,659 --> 00:33:08,120

others out there Robert Bauval and of

714

00:33:14,279 --> 00:33:10,669

course Graham Hancock and others started

715

00:33:18,249 --> 00:33:14,289

to look at this very consistent date of

716

00:33:23,259 --> 00:33:18,259

10,500 BC of course gobekli tepe comes

717

00:33:27,070 --> 00:33:23,269

into play and this date starts to spread

718

00:33:29,139 --> 00:33:27,080

around the world in different regions

719

00:33:33,249 --> 00:33:29,149

different civilizations different

720

00:33:36,539 --> 00:33:33,259

cultures this date now is very very

721

00:33:39,340 --> 00:33:36,549

consistent and it not only coincides

722

00:33:42,340 --> 00:33:39,350

your original research going back with

723

00:33:46,060 --> 00:33:42,350

John Anthony West but it's now out there

724

00:33:48,940 --> 00:33:46,070

it's almost to the point now that it is

725

00:33:51,850 --> 00:33:48,950

an accepted date of something that

726

00:33:54,369 --> 00:33:51,860

happened here on this planet not only

727

00:33:57,669 --> 00:33:54,379

throughout our community but in academia

728

00:33:59,919 --> 00:33:57,679

how does that make you feel oh it makes

729

00:34:02,889 --> 00:33:59,929

me feel good I guess I mean that people

730

00:34:05,350 --> 00:34:02,899

are really recognizing this and more

731

00:34:07,749 --> 00:34:05,360

importantly I don't know I I do care

732

00:34:10,180 --> 00:34:07,759

that people recognize it that's nice etc

733

00:34:12,069 --> 00:34:10,190

but what's really important is exactly

734

00:34:14,859 --> 00:34:12,079

what you said that you have this

735

00:34:17,290 --> 00:34:14,869

consistency of the evidence around the

736

00:34:21,250 --> 00:34:17,300

world and I believe that the consistency

737

00:34:24,430 --> 00:34:21,260

of the evidence is that we have a high

738

00:34:27,159 --> 00:34:24,440

civilization a cycle of civilization

739

00:34:29,079 --> 00:34:27,169

whatever you want to call it at the end

740

00:34:31,960 --> 00:34:29,089

of the last ice age that's the ten

741

00:34:36,819 --> 00:34:31,970

thousand to ten thousand 500 BC your

742

00:34:38,980 --> 00:34:36,829

sighting and that all collapses shortly

743

00:34:41,889 --> 00:34:38,990

thereafter when I say shortly thereafter

744

00:34:44,860 --> 00:34:41,899

based on Greenland ice cores we can now

745

00:34:46,960 --> 00:34:44,870

date it very precisely did 9700

746

00:34:49,540 --> 00:34:46,970

which is the end of the last ice age

747

00:34:53,280 --> 00:34:49,550

which is also the same time that played

748

00:34:56,770 --> 00:34:53,290

a way back one said that Atlantis

749

00:34:59,080 --> 00:34:56,780

collapsed our Atlantis was destroyed by

750

00:35:00,520 --> 00:34:59,090

natural cataclysms so you've got

751
00:35:02,290 --> 00:35:00,530
everything from Plato which you know

752
00:35:03,840 --> 00:35:02,300
when I was a graduate student people

753
00:35:06,160 --> 00:35:03,850
went laughs if you would take Plato

754
00:35:10,300 --> 00:35:06,170
seriously but now I think we do have to

755
00:35:13,450 --> 00:35:10,310
acknowledge that he is talking the same

756
00:35:16,420 --> 00:35:13,460
timeframe that modern science and

757
00:35:20,050 --> 00:35:16,430
mardian modern archaeology and modern

758
00:35:23,320 --> 00:35:20,060
analysis of linguistic evidence modern

759
00:35:26,290 --> 00:35:23,330
analyses of archeoastronomy Robert

760
00:35:29,080 --> 00:35:26,300
Bauval course comes in heavily there as

761
00:35:31,270 --> 00:35:29,090
a real founder of the current wave of

762
00:35:34,660 --> 00:35:31,280
archaeal astronomy even though it gets

763
00:35:37,360 --> 00:35:34,670

back to the 19th century all of this

764

00:35:39,130 --> 00:35:37,370

evidence ancient mythologies and tracing

765

00:35:43,110 --> 00:35:39,140

back the origins of ancient mythologies

766

00:35:47,320 --> 00:35:43,120

it all goes back to that period of about

767

00:35:51,880 --> 00:35:47,330

9,000 I would place about 9700 BC back

768

00:35:56,850 --> 00:35:51,890

to about 10,500 as you're citing that

769

00:36:00,700 --> 00:35:56,860

period there was a major civilization

770

00:36:04,690 --> 00:36:00,710

sophistication on the planet earth that

771

00:36:08,650 --> 00:36:04,700

was devastated and well it's gotten to

772

00:36:09,850 --> 00:36:08,660

the moon destroyed 9700 BC Zep tepi were

773

00:36:12,220 --> 00:36:09,860

you starting to say Zep tepi

774

00:36:15,520 --> 00:36:12,230

you know it's gotten to guess and it's

775

00:36:17,670 --> 00:36:15,530

gotten to the point where when I start

776

00:36:20,770 --> 00:36:17,680

to read an article or I hear a

777

00:36:23,590 --> 00:36:20,780

researcher say we've been looking into

778

00:36:27,670 --> 00:36:23,600

this and and it's like I can already

779

00:36:30,070 --> 00:36:27,680

hear the year right I can already hear

780

00:36:33,370 --> 00:36:30,080

it it everything keeps pointing back to

781

00:36:35,800 --> 00:36:33,380

this which takes it takes us to this the

782

00:36:37,450 --> 00:36:35,810

this crater up in Greenland now I want

783

00:36:39,910 --> 00:36:37,460

to spend some time on this yeah yeah so

784

00:36:41,320 --> 00:36:39,920

Zep tepi biwi dimensions up Tepe just

785

00:36:43,750 --> 00:36:41,330

because I thought you said it but maybe

786

00:36:46,200 --> 00:36:43,760

you weren't saying it but this is what

787

00:36:50,260 --> 00:36:46,210

the Egyptians called this early period

788

00:36:52,690 --> 00:36:50,270

Zep tepi the beginning the when I say

789

00:36:57,190 --> 00:36:52,700

the Egyptians the dynastic Egyptians of

790

00:36:58,900 --> 00:36:57,200

going back 5,000 or so years ago 4,500

791

00:37:01,060 --> 00:36:58,910

5,000 years ago

792

00:37:03,910 --> 00:37:01,070

they were talking about this earlier

793

00:37:06,190 --> 00:37:03,920

period that you know all the

794

00:37:09,040 --> 00:37:06,200

Egyptologists all the historians had

795

00:37:12,310 --> 00:37:09,050

dismissed as again the same level as

796

00:37:15,670 --> 00:37:12,320

Atlantis and Plato is just a myth but it

797

00:37:21,310 --> 00:37:15,680

turns out we now have evidence for it

798

00:37:23,500 --> 00:37:21,320

and the when we go to the the builders

799

00:37:26,620 --> 00:37:23,510

script and we start to talk about that

800

00:37:28,570 --> 00:37:26,630

where other researchers out there even

801
00:37:31,180 --> 00:37:28,580
professional academics will go well you

802
00:37:33,040 --> 00:37:31,190
know even in Egypt they don't talk about

803
00:37:41,620 --> 00:37:33,050
the flood myth you know they don't refer

804
00:37:43,900 --> 00:37:41,630
to Atlantis what yes they did but back

805
00:37:46,840 --> 00:37:43,910
to Greenland because when that when the

806
00:37:49,480 --> 00:37:46,850
news broke on this about three weeks ago

807
00:37:53,320 --> 00:37:49,490
and I start to read the article I like I

808
00:37:54,520 --> 00:37:53,330
just said I somehow felt right and then

809
00:37:58,900 --> 00:37:54,530
right there

810
00:38:01,330 --> 00:37:58,910
you know 12,000 years ago is the

811
00:38:04,840 --> 00:38:01,340
breaking news yeah but that that's

812
00:38:07,870 --> 00:38:04,850
misleading because you also get what

813
00:38:09,670 --> 00:38:07,880

becomes a cycle of everyone then jumps

814

00:38:11,800 --> 00:38:09,680

on this date and if they don't have a

815

00:38:14,710 --> 00:38:11,810

date for something then they put it at

816

00:38:17,260 --> 00:38:14,720

that date and that's not necessarily

817

00:38:19,600 --> 00:38:17,270

real the Hiawatha crater that you're

818

00:38:22,600 --> 00:38:19,610

talking about under the Greenland ice

819

00:38:25,660 --> 00:38:22,610

that had been known for some time but

820

00:38:27,610 --> 00:38:25,670

now has really been analyzed etc it's

821

00:38:29,920 --> 00:38:27,620

Pleistocene and we know that's

822

00:38:32,260 --> 00:38:29,930

Pleistocene based on a strategic V

823

00:38:35,080 --> 00:38:32,270

excetera that doesn't mean it's

824

00:38:37,420 --> 00:38:35,090

necessarily this period I mean well the

825

00:38:40,450 --> 00:38:37,430

Pleistocene covers about two and a half

826

00:38:43,300 --> 00:38:40,460

million years roughly and it could be

827

00:38:45,010 --> 00:38:43,310

anywhere in that is it probably later in

828

00:38:47,650 --> 00:38:45,020

the Pleistocene yes but it's not

829

00:38:50,920 --> 00:38:47,660

necessarily terminal Pleistocene it's

830

00:38:54,700 --> 00:38:50,930

not necessarily this period this gets

831

00:38:59,050 --> 00:38:54,710

into the whole issue of what brought

832

00:39:01,870 --> 00:38:59,060

this cycle to it and what caused the end

833

00:39:06,010 --> 00:39:01,880

of the last ice age etc etc and then you

834

00:39:08,460 --> 00:39:06,020

get into the impact hypothesis

835

00:39:10,299 --> 00:39:08,470

proponents which has now been

836

00:39:14,650 --> 00:39:10,309

circulating for

837

00:39:16,749 --> 00:39:14,660

about dozen years and evidence whether

838

00:39:20,949 --> 00:39:16,759

there was an impactor or not when I say

839

00:39:24,099 --> 00:39:20,959

impactor meteorite or asteroid or

840

00:39:27,519 --> 00:39:24,109

something like that comment they're all

841

00:39:31,779 --> 00:39:27,529

variations on theme and recently with

842

00:39:33,549 --> 00:39:31,789

the Hiawatha crater and Greenland a lot

843

00:39:35,920 --> 00:39:33,559

of people have jumped on that and said

844

00:39:38,769 --> 00:39:35,930

what this is the evidence of the impact

845

00:39:41,410 --> 00:39:38,779

this is the crater from it or one of the

846

00:39:44,859 --> 00:39:41,420

craters from it but the dating isn't

847

00:39:47,949 --> 00:39:44,869

even secure on that in fact it's it's

848

00:39:50,650 --> 00:39:47,959

really just speculation and hypothesis

849

00:39:54,880 --> 00:39:50,660

as to whether it's that date or not

850

00:39:57,459 --> 00:39:54,890

well fulfilling prophecy someone says oh

851
00:39:59,499 --> 00:39:57,469
you know they here we've got we have

852
00:40:02,140 --> 00:39:59,509
this hypothesis here we find a crater oh

853
00:40:04,390 --> 00:40:02,150
that crater must be tied in with this

854
00:40:07,539 --> 00:40:04,400
hypothesis it must date to that period

855
00:40:09,339 --> 00:40:07,549
but you look at the actual data in the

856
00:40:11,920 --> 00:40:09,349
actual research paper it doesn't say

857
00:40:14,380 --> 00:40:11,930
that at all in fact it's very ambiguous

858
00:40:17,650 --> 00:40:14,390
I mean the evidence is ambiguous as to

859
00:40:20,799 --> 00:40:17,660
what the data that is well what an

860
00:40:25,929 --> 00:40:20,809
impact crater that big would it cause

861
00:40:28,749 --> 00:40:25,939
the end of the last ice age or no that

862
00:40:31,209 --> 00:40:28,759
continued the ice age yeah yeah this is

863
00:40:33,969 --> 00:40:31,219

actually another thing that a lot of

864

00:40:35,559 --> 00:40:33,979

people get very confused by and I'm glad

865

00:40:39,089 --> 00:40:35,569

you brought it up so that we can clarify

866

00:40:43,299 --> 00:40:39,099

it those that have suggested there was

867

00:40:46,419 --> 00:40:43,309

impact a comment meteorite meteor

868

00:40:48,429 --> 00:40:46,429

becoming a meteorite hits asteroid that

869

00:40:50,799 --> 00:40:48,439

type of thing let's talk in terms of a

870

00:40:52,929 --> 00:40:50,809

comet may be a break up in the

871

00:40:56,019 --> 00:40:52,939

atmosphere and a bunch of particles

872

00:40:59,229 --> 00:40:56,029

coming down that they're really

873

00:41:01,390 --> 00:40:59,239

referring to what's known as the Younger

874

00:41:06,130 --> 00:41:01,400

Dryas the beginning of the Younger Dryas

875

00:41:09,729 --> 00:41:06,140

ten thousand nine hundred BC and what

876

00:41:12,939 --> 00:41:09,739

you get from a feature like that from an

877

00:41:16,949 --> 00:41:12,949

incident like that impact is usually

878

00:41:20,109 --> 00:41:16,959

from what we understand of the past

879

00:41:22,419 --> 00:41:20,119

geological cycles you get a cooling

880

00:41:23,800 --> 00:41:22,429

event because you put a lot of dust and

881

00:41:28,090 --> 00:41:23,810

debris into the atmosphere

882

00:41:30,370 --> 00:41:28,100

block out this on you essentially get a

883

00:41:33,760 --> 00:41:30,380

cooling event and what you have had ten

884

00:41:36,760 --> 00:41:33,770

thousand nine hundred BC is that the ice

885

00:41:39,070 --> 00:41:36,770

age was beginning to warm some and then

886

00:41:42,190 --> 00:41:39,080

you have a cooling event for twelve

887

00:41:46,840 --> 00:41:42,200

hundred years before you have the final

888

00:41:50,470 --> 00:41:46,850

snap out of the ice age at 9700 BC and

889

00:41:52,300 --> 00:41:50,480

what is interesting is that your 10,500

890

00:41:54,490 --> 00:41:52,310

BC that you were just talking about a

891

00:41:57,550 --> 00:41:54,500

lot of people talk about that's actually

892

00:42:00,700 --> 00:41:57,560

during the Younger Dryas that's after

893

00:42:03,610 --> 00:42:00,710

the so called comet impact if there was

894

00:42:06,070 --> 00:42:03,620

a comet impact at that time and it's

895

00:42:10,930 --> 00:42:06,080

before the ultimate end of the last ice

896

00:42:14,500 --> 00:42:10,940

age so it's really there there's several

897

00:42:17,290 --> 00:42:14,510

different things going on there but the

898

00:42:19,150 --> 00:42:17,300

bottom line is even at ten thousand nine

899

00:42:22,270 --> 00:42:19,160

hundred BC and I've looked at the

900

00:42:24,490 --> 00:42:22,280

evidence very carefully and I continue

901
00:42:28,240 --> 00:42:24,500
to look at is more comes out it comes

902
00:42:29,890 --> 00:42:28,250
out and I've been analyzing it and at

903
00:42:33,700 --> 00:42:29,900
one point I was convinced that there was

904
00:42:36,570 --> 00:42:33,710
a comet or an impactor but looking at

905
00:42:40,480 --> 00:42:36,580
the evidence critically it's

906
00:42:43,960 --> 00:42:40,490
non-diagnostic it's non definitive in my

907
00:42:47,800 --> 00:42:43,970
assessment in my opinion and from my

908
00:42:51,700 --> 00:42:47,810
training and it can point either to a

909
00:42:53,650 --> 00:42:51,710
comet hour impactor or to the Sun and I

910
00:42:56,670 --> 00:42:53,660
believe now that all the evidence is

911
00:43:02,350 --> 00:42:56,680
pointing to the Sun and solar events

912
00:43:06,610 --> 00:43:02,360
everything from vitrified Rock to nano

913
00:43:10,120 --> 00:43:06,620

diamonds to shocked quartz etc etc can

914

00:43:12,550 --> 00:43:10,130

come from a solar event a major major

915

00:43:17,800 --> 00:43:12,560

solar event the likes of which we've

916

00:43:21,460 --> 00:43:17,810

never seen in historical times when the

917

00:43:22,510 --> 00:43:21,470

Sun throws out huge balls of our nose

918

00:43:25,390 --> 00:43:22,520

plasma

919

00:43:28,600 --> 00:43:25,400

it's basically gaseous if you would are

920

00:43:31,630 --> 00:43:28,610

charged particles coming at us at

921

00:43:34,750 --> 00:43:31,640

relativistic speeds hitting earth and in

922

00:43:35,840 --> 00:43:34,760

fact interestingly a solar event like

923

00:43:38,900 --> 00:43:35,850

that

924

00:43:41,420 --> 00:43:38,910

can carve craters it can create craters

925

00:43:44,060 --> 00:43:41,430

we know this from the moon we know this

926
00:43:46,310 --> 00:43:44,070
from evidence that's coming from Mars

927
00:43:49,240 --> 00:43:46,320
now so you can actually get what looked

928
00:43:54,290 --> 00:43:49,250
like impact craters that most people

929
00:43:57,350 --> 00:43:54,300
conventionally would call yeah let's say

930
00:43:59,330 --> 00:43:57,360
as the result of meteorites or comets or

931
00:44:01,580 --> 00:43:59,340
asteroids you can actually get that from

932
00:44:04,580 --> 00:44:01,590
plasma discharges from the Sun from

933
00:44:06,500 --> 00:44:04,590
solar events too so the bottom line is

934
00:44:08,840 --> 00:44:06,510
that some of evidence is very ambiguous

935
00:44:10,810 --> 00:44:08,850
and non diagnostic but I do think we

936
00:44:13,280 --> 00:44:10,820
have other evidence that's quite

937
00:44:15,560 --> 00:44:13,290
distinctive and diagnostic and point

938
00:44:17,990 --> 00:44:15,570

pointing to actually the Sun being the

939

00:44:20,000 --> 00:44:18,000

main culprit as to what was happening at

940

00:44:22,610 --> 00:44:20,010

the end of the last ice age okay let's

941

00:44:24,470 --> 00:44:22,620

define because we're gonna spend so much

942

00:44:26,990 --> 00:44:24,480

time on this right now let's define

943

00:44:30,080 --> 00:44:27,000

exactly what we're talking about the

944

00:44:33,590 --> 00:44:30,090

comet okay if we're gonna have some type

945

00:44:37,820 --> 00:44:33,600

of you know Cataclysm some type of major

946

00:44:40,250 --> 00:44:37,830

event here yeah and it there there's I

947

00:44:43,820 --> 00:44:40,260

just want to point out that as we're

948

00:44:46,820 --> 00:44:43,830

talking about there is lots of evidence

949

00:44:50,570 --> 00:44:46,830

of a major event at the end of the last

950

00:44:54,050 --> 00:44:50,580

ice age the 9700 BC great I was talking

951
00:44:56,960 --> 00:44:54,060
about you have an incredible literally

952
00:44:59,230 --> 00:44:56,970
overnight and this is based on sediment

953
00:45:01,640 --> 00:44:59,240
cores Greenland ice cores etc you have

954
00:45:04,660 --> 00:45:01,650
incredible temperature changes at that

955
00:45:07,790 --> 00:45:04,670
time you have in the geologic record

956
00:45:11,120 --> 00:45:07,800
earthquake activity volcanic activity

957
00:45:16,430 --> 00:45:11,130
accelerated by orders of magnitude you

958
00:45:19,090 --> 00:45:16,440
have evidence of at 9700 BC incredible

959
00:45:22,880 --> 00:45:19,100
extinction events of large mammals

960
00:45:26,720 --> 00:45:22,890
across the face of North America and

961
00:45:28,340 --> 00:45:26,730
around the world so you have and this is

962
00:45:30,380 --> 00:45:28,350
a little bit of the evidence you have

963
00:45:31,790 --> 00:45:30,390

lots of evidence of something major

964

00:45:34,490 --> 00:45:31,800

happening then you actually have

965

00:45:37,370 --> 00:45:34,500

extinction of humans a die-off of humans

966

00:45:39,350 --> 00:45:37,380

and a restriction and then you can see

967

00:45:42,080 --> 00:45:39,360

even linguistic evidence how they were

968

00:45:45,590 --> 00:45:42,090

restricted to a small pocket and spread

969

00:45:48,170 --> 00:45:45,600

out again so there was a major Cataclysm

970

00:45:49,640 --> 00:45:48,180

a major catastrophe at the end of the

971

00:45:53,210 --> 00:45:49,650

last ice age

972

00:45:55,670 --> 00:45:53,220

now what are we talking about here

973

00:45:57,950 --> 00:45:55,680

when we are dealing with temperature

974

00:45:59,660 --> 00:45:57,960

changes we know about the woolly mammoth

975

00:46:02,630 --> 00:45:59,670

and we know that they were frozen in

976

00:46:04,430 --> 00:46:02,640

spot right yeah some cases now that's a

977

00:46:07,759 --> 00:46:04,440

little earlier because then later they

978

00:46:09,079 --> 00:46:07,769

we have a huge upswing in temperature so

979

00:46:11,089 --> 00:46:09,089

that's what I'm saying if you go back

980

00:46:13,009 --> 00:46:11,099

into the last ice age there are several

981

00:46:15,769 --> 00:46:13,019

different things happening at different

982

00:46:18,140 --> 00:46:15,779

periods I'm actually focusing more in

983

00:46:19,910 --> 00:46:18,150

the very end of the last ice age but in

984

00:46:22,099 --> 00:46:19,920

terms of temperature changes in some

985

00:46:25,339 --> 00:46:22,109

places locally you could be talking

986

00:46:28,670 --> 00:46:25,349

several tens of degrees Fahrenheit

987

00:46:31,489 --> 00:46:28,680

change very very very mean literally

988

00:46:33,739 --> 00:46:31,499

overnight I mean yeah up or down though

989

00:46:37,160 --> 00:46:33,749

that's what I'm asking because awaking

990

00:46:39,380 --> 00:46:37,170

it and at the end of within the ice age

991

00:46:41,299 --> 00:46:39,390

for instance when you had began the

992

00:46:44,210 --> 00:46:41,309

Younger Dryas you were going down and

993

00:46:46,249 --> 00:46:44,220

but that was less temperature difference

994

00:46:50,120 --> 00:46:46,259

in at the very end of the ice age when

995

00:46:52,700 --> 00:46:50,130

it went up dramatically and so and you

996

00:46:54,680 --> 00:46:52,710

had virtually instantaneous melting for

997

00:46:57,259 --> 00:46:54,690

instance of glaciers that type of which

998

00:46:59,150 --> 00:46:57,269

is where I'm going what yeah so when

999

00:47:03,680 --> 00:46:59,160

we're talking about a mile or two of ice

1000

00:47:06,049 --> 00:47:03,690

right literally stacked up to to melt

1001
00:47:09,019 --> 00:47:06,059
the ice I would think that it would take

1002
00:47:11,569 --> 00:47:09,029
you know tens of thousands of years I

1003
00:47:15,019 --> 00:47:11,579
don't care how warm it is but that

1004
00:47:17,210 --> 00:47:15,029
certainly was a case that was not the

1005
00:47:19,729 --> 00:47:17,220
case that was not the case that's what

1006
00:47:22,099 --> 00:47:19,739
you would think that's what I used to

1007
00:47:24,739 --> 00:47:22,109
think when I was a graduate student and

1008
00:47:27,019 --> 00:47:24,749
we used to laugh about old maybe you

1009
00:47:29,089 --> 00:47:27,029
know it only took a few centuries hahaha

1010
00:47:31,729 --> 00:47:29,099
well we can't really say that because we

1011
00:47:34,729 --> 00:47:31,739
all get flunked out right now we know

1012
00:47:36,680 --> 00:47:34,739
that it literally happened there's a

1013
00:47:38,450 --> 00:47:36,690

paper that came out maybe 10 years ago

1014

00:47:40,940 --> 00:47:38,460

that was talking about maybe happened in

1015

00:47:43,519 --> 00:47:40,950

three years maybe five years that type

1016

00:47:46,099 --> 00:47:43,529

of thing and that was like crazy crazy

1017

00:47:48,640 --> 00:47:46,109

talk we thought now we know it literally

1018

00:47:51,799 --> 00:47:48,650

happened overnight and we have in

1019

00:47:53,150 --> 00:47:51,809

sediment cores in ice cores etc I mean

1020

00:47:54,769 --> 00:47:53,160

when I say literally overnight the

1021

00:47:56,870 --> 00:47:54,779

resolution is such that you can see it

1022

00:47:59,359 --> 00:47:56,880

within it happened within a couple of

1023

00:48:01,940 --> 00:47:59,369

weeks but the resolution isn't any

1024

00:48:03,160 --> 00:48:01,950

better than that and for all practical

1025

00:48:05,109 --> 00:48:03,170

purposes

1026

00:48:07,059 --> 00:48:05,119

talking overnight and probably literally

1027

00:48:10,000 --> 00:48:07,069

was overnight now how would you get that

1028

00:48:12,849 --> 00:48:10,010

it's not buy all of a sudden warming the

1029

00:48:15,339 --> 00:48:12,859

general atmospheric temperature by you

1030

00:48:17,079 --> 00:48:15,349

know how many degrees think of it this

1031

00:48:19,690 --> 00:48:17,089

way if you all of a sudden you take a

1032

00:48:23,349 --> 00:48:19,700

blowtorch to something and you zap it

1033

00:48:26,260 --> 00:48:23,359

with incredible temperature with

1034

00:48:30,309 --> 00:48:26,270

incredible heat that will do it in what

1035

00:48:33,760 --> 00:48:30,319

we had based on my reconstruction other

1036

00:48:38,020 --> 00:48:33,770

especially astrophysicists people like

1037

00:48:39,760 --> 00:48:38,030

Anthony dr. anthony peratt or Atmos

1038

00:48:41,710 --> 00:48:39,770

Alamos National Laboratory

1039

00:48:44,020 --> 00:48:41,720

he's a plasma physicist who's been

1040

00:48:46,180 --> 00:48:44,030

studying this what we had was a major

1041

00:48:48,339 --> 00:48:46,190

solar outbursts something that now some

1042

00:48:50,980 --> 00:48:48,349

people are calling it is a micro nova

1043

00:48:52,839 --> 00:48:50,990

the Sun having gone micro Nova just

1044

00:48:56,230 --> 00:48:52,849

another way of saying the same thing of

1045

00:49:00,160 --> 00:48:56,240

essentially and we were hit in some

1046

00:49:05,770 --> 00:49:00,170

cases by locally by what would look like

1047

00:49:10,299 --> 00:49:05,780

huge lightning which can you know carry

1048

00:49:12,490 --> 00:49:10,309

incredible temperatures locally so

1049

00:49:15,309 --> 00:49:12,500

lightning hitting something literally

1050

00:49:19,299 --> 00:49:15,319

zapping it incinerating our you know

1051
00:49:20,770 --> 00:49:19,309
melting virtually immediately when we

1052
00:49:23,020 --> 00:49:20,780
come back after the break we're gonna

1053
00:49:25,359 --> 00:49:23,030
talk about just that we need to take

1054
00:49:27,640 --> 00:49:25,369
this a little bit further because I I

1055
00:49:29,470 --> 00:49:27,650
need my brain to be clarified if we're

1056
00:49:31,660 --> 00:49:29,480
talking about a comment we're talking

1057
00:49:34,500 --> 00:49:31,670
about a media or some type of strike

1058
00:49:38,260 --> 00:49:34,510
causing this in my mind it says

1059
00:49:40,150 --> 00:49:38,270
temperatures being reduced well if it's

1060
00:49:44,500 --> 00:49:40,160
the other way around and what we're

1061
00:49:46,780 --> 00:49:44,510
talking about a huge CME or solar flare

1062
00:49:48,789 --> 00:49:46,790
or some kind of plasma activity now

1063
00:49:51,069 --> 00:49:48,799

that's the exact opposite we're talking

1064

00:49:53,440 --> 00:49:51,079

about temperatures being raised and

1065

00:49:55,599 --> 00:49:53,450

let's finish this conversation when we

1066

00:49:57,760 --> 00:49:55,609

come back I'm fascinated with this

1067

00:50:00,490 --> 00:49:57,770

something happened and it was right at

1068

00:50:02,380 --> 00:50:00,500

that magical number that magical number

1069

00:50:04,720 --> 00:50:02,390

ten thousand five hundred nine thousand

1070

00:50:08,109 --> 00:50:04,730

seven hundred twelve thousand years ago

1071

00:50:10,210 --> 00:50:08,119

that's why dr. Robert M shock is here

1072

00:50:12,580 --> 00:50:10,220

I'm your host Jimmy Church this is

1073

00:50:16,290 --> 00:50:12,590

black more with dr. Schaack right after

[Music]

1075

00:50:32,340 --> 00:50:29,310

way out here we listen to Jimmy Church

1076

00:50:34,870 --> 00:50:32,350

you're listening to faint and black

1077

00:50:36,160 --> 00:50:34,880

always on the edge of the hottest

1078

00:50:39,460 --> 00:50:36,170

alternative talk

1079

00:50:58,090 --> 00:50:39,470

Jimmy church with fade to black stay GRA

radio.com Akane's

1081

00:51:03,220 --> 00:51:01,460

earthquakes wildfires this year we've

1082

00:51:06,010 --> 00:51:03,230

experienced more than our fair share

1083

00:51:08,500 --> 00:51:06,020

this is Jimmy Church a fade to black and

1084

00:51:10,690 --> 00:51:08,510

last month I decided to make sure my

1085

00:51:13,360 --> 00:51:10,700

family does not have to worry about food

1086

00:51:16,600 --> 00:51:13,370

should we get caught in a real emergency

1087

00:51:18,490 --> 00:51:16,610

situation introducing Humana a healthy

1088

00:51:20,110 --> 00:51:18,500

storable product that tastes so good

1089

00:51:22,090 --> 00:51:20,120

that you'll want to eat it every day

1090

00:51:24,820 --> 00:51:22,100

instead of just during those times of

1091

welcome back beta-blockers Jimmy Church

1157
00:54:56,690 --> 00:54:54,750
our guest tonight dr. Robert M shock

1158
00:55:00,440 --> 00:54:56,700
tomorrow night is Fator night open lines

1159
00:55:02,599 --> 00:55:00,450
all night long and right now we're gonna

1160
00:55:04,490 --> 00:55:02,609
continue the conversation that we left

1161
00:55:07,060 --> 00:55:04,500
off with before the break where we are

1162
00:55:10,250 --> 00:55:07,070
talking about these solar events and

1163
00:55:14,120 --> 00:55:10,260

Robert helped me understand what we're

1164

00:55:17,150 --> 00:55:14,130

talking about here in this type of solar

1165

00:55:21,380 --> 00:55:17,160

outburst or a mini Nova I am picturing

1166

00:55:25,130 --> 00:55:21,390

in my mind's eye a giant active bright

1167

00:55:27,650 --> 00:55:25,140

cloud of plasma traveling across the

1168

00:55:30,620 --> 00:55:27,660

solar system and earth happened to just

1169

00:55:32,930 --> 00:55:30,630

be in the way is that what we're talking

1170

00:55:35,839 --> 00:55:32,940

about yeah that's one way to picture it

1171

00:55:39,079 --> 00:55:35,849

so a couple of quick comments because as

1172

00:55:41,180 --> 00:55:39,089

you were leading into the last

1173

00:55:43,790 --> 00:55:41,190

commercial break you were talking about

1174

00:55:46,910 --> 00:55:43,800

how a comet would make things colder

1175

00:55:49,070 --> 00:55:46,920

solar outbursts would make things warmer

1176
00:55:51,650 --> 00:55:49,080
or to put another way you were saying

1177
00:55:55,430 --> 00:55:51,660
well is it cold or warm the bottom line

1178
00:55:58,250 --> 00:55:55,440
is what we know geologically is at 9700

1179
00:56:00,579 --> 00:55:58,260
BC we had a dramatic warming event

1180
00:56:02,450 --> 00:56:00,589
that's the end of the last ice age etc

1181
00:56:04,730 --> 00:56:02,460
comet would not do that

1182
00:56:06,530 --> 00:56:04,740
do that a meteorite or asteroid would

1183
00:56:08,390 --> 00:56:06,540
not do that it would generally make it

1184
00:56:11,390 --> 00:56:08,400
colder which is why some people have

1185
00:56:13,250 --> 00:56:11,400
suggested there was one at ten thousand

1186
00:56:15,530 --> 00:56:13,260
nine hundred BC because we have the

1187
00:56:18,250 --> 00:56:15,540
beginning of a cooling event but what's

1188
00:56:20,300 --> 00:56:18,260

really critical and where all the

1189

00:56:23,920 --> 00:56:20,310

civilizations are brought to their knees

1190

00:56:26,720 --> 00:56:23,930

and destroyed we're armed at the time

1191

00:56:29,150 --> 00:56:26,730

the time when civilizations are brought

1192

00:56:31,670 --> 00:56:29,160

down and destroyed this earlier cycle of

1193

00:56:33,950 --> 00:56:31,680

civilization when we have the major

1194

00:56:37,730 --> 00:56:33,960

extinction events when we have all these

1195

00:56:41,000 --> 00:56:37,740

other calamities that's 9700 BC that's a

1196

00:56:44,000 --> 00:56:41,010

major warming event now what you were

1197

00:56:46,339 --> 00:56:44,010

just talking about one way to picture it

1198

00:56:49,070 --> 00:56:46,349

one way to picture it is this huge

1199

00:56:53,150 --> 00:56:49,080

coronal mass ejection this huge ball of

1200

00:56:56,359 --> 00:56:53,160

plasma and that type of material you

1201
00:57:01,930 --> 00:56:56,369
know protons electrically charged

1202
00:57:03,740 --> 00:57:01,940
particles of electrons hydrogen etc all

1203
00:57:07,700 --> 00:57:03,750
hurdlings

1204
00:57:10,010 --> 00:57:07,710
the earth and included with in this

1205
00:57:12,730 --> 00:57:10,020
especially if you have a major one

1206
00:57:16,430 --> 00:57:12,740
just want to point this out would be

1207
00:57:19,010 --> 00:57:16,440
heavier elements also residual heavier

1208
00:57:21,200 --> 00:57:19,020
element so even things like iridium and

1209
00:57:23,120 --> 00:57:21,210
platinum you can get spikes because of

1210
00:57:24,710 --> 00:57:23,130
this I just want to throw that out

1211
00:57:26,570 --> 00:57:24,720
because sometimes people say well we

1212
00:57:29,660 --> 00:57:26,580
have a really amor platinum spike that

1213
00:57:31,339 --> 00:57:29,670

must prove a meteorite no it doesn't but

1214

00:57:33,890 --> 00:57:31,349

this would be hurling toward the earth

1215

00:57:37,520 --> 00:57:33,900

if we happen to be in the way we would

1216

00:57:41,240 --> 00:57:37,530

be hit there are other scenarios however

1217

00:57:43,490 --> 00:57:41,250

where the Sun undergoes a major outburst

1218

00:57:46,550 --> 00:57:43,500

what's been sometimes known as a micro

1219

00:57:49,790 --> 00:57:46,560

nova or a mini nova where in fact you

1220

00:57:51,920 --> 00:57:49,800

get ejecta coming from the Sun full

1221

00:57:54,830 --> 00:57:51,930

spread if you would and everything is

1222

00:57:56,960 --> 00:57:54,840

being hit and there's no way for the

1223

00:57:58,670 --> 00:57:56,970

earth to realistically get out the way

1224

00:58:01,040 --> 00:57:58,680

or the other plans to get out of the way

1225

00:58:02,170 --> 00:58:01,050

so you have different types of solar

1226

00:58:06,170 --> 00:58:02,180

outburst

1227

00:58:08,720 --> 00:58:06,180

either way it could be devastating will

1228

00:58:10,250 --> 00:58:08,730

be devastating to creatures on the

1229

00:58:14,349 --> 00:58:10,260

surface of the earth and this is exactly

1230

00:58:17,750 --> 00:58:14,359

what happened based on the evidence in

1231

00:58:20,390 --> 00:58:17,760

9700 BC at the end of last ice age now

1232

00:58:22,940 --> 00:58:20,400

we have everything that is left behind

1233

00:58:25,550 --> 00:58:22,950

that different researchers have been

1234

00:58:28,070 --> 00:58:25,560

pointing to which is of course you know

1235

00:58:31,010 --> 00:58:28,080

the vitrified Rock and the glass and and

1236

00:58:33,650 --> 00:58:31,020

the shock quartz and nano diamonds is

1237

00:58:35,720 --> 00:58:33,660

the the big you know talk today yeah

1238

00:58:37,820 --> 00:58:35,730

yeah no no diamonds just if I could

1239

00:58:39,980 --> 00:58:37,830

address that really quickly nano

1240

00:58:45,320 --> 00:58:39,990

diamonds are the big talk of the day in

1241

00:58:48,859 --> 00:58:45,330

some cases daño diamonds are really poor

1242

00:58:51,530 --> 00:58:48,869

evidence in most situations because nano

1243

00:58:55,579 --> 00:58:51,540

diamonds are actually quite common and

1244

00:58:58,130 --> 00:58:55,589

they tend to collect as like deposits

1245

00:59:00,140 --> 00:58:58,140

this is I don't mean throw too much

1246

00:59:02,839 --> 00:59:00,150

geology out but you can think about

1247

00:59:04,970 --> 00:59:02,849

David diamonds are very hard nanos

1248

00:59:07,960 --> 00:59:04,980

diamonds are just incredibly small

1249

00:59:10,579 --> 00:59:07,970

microscopic diamonds and you can get

1250

00:59:13,370 --> 00:59:10,589

deposits or concentrations of nano

1251
00:59:16,520 --> 00:59:13,380
diamonds in all kinds of situations

1252
00:59:17,420 --> 00:59:16,530
because they're left behind as a residue

1253
00:59:21,050 --> 00:59:17,430
when everything

1254
00:59:25,640 --> 00:59:21,060
erodes away or they collect as I said

1255
00:59:29,600 --> 00:59:25,650
live deposits essentially if you think

1256
00:59:32,000 --> 00:59:29,610
of someone winnowing material or

1257
00:59:33,880 --> 00:59:32,010
someone's panning for gold but in a

1258
00:59:36,410 --> 00:59:33,890
natural setting you get certain things

1259
00:59:39,140 --> 00:59:36,420
coming out and collecting and you get

1260
00:59:41,360 --> 00:59:39,150
that with nano diamonds so in some cases

1261
00:59:43,760 --> 00:59:41,370
you can have collections of nano

1262
00:59:45,740 --> 00:59:43,770
diamonds that actually are much much

1263
00:59:47,720 --> 00:59:45,750

older than the deposits they're found in

1264

00:59:52,040 --> 00:59:47,730

then the other problem with nano

1265

00:59:56,690 --> 00:59:52,050

diamonds is nano diamonds that appear to

1266

00:59:58,670 --> 00:59:56,700

be caused by impactors may not

1267

01:00:02,530 --> 00:59:58,680

necessarily be from impactors there's

1268

01:00:07,220 --> 01:00:02,540

evidence that they with shot quartz and

1269

01:00:11,570 --> 01:00:07,230

other things of the same genre I'll use

1270

01:00:14,150 --> 01:00:11,580

that term can be produced by lightning

1271

01:00:16,670 --> 01:00:14,160

strikes even conventional lightning

1272

01:00:18,620 --> 01:00:16,680

strikes and when we're talking about a

1273

01:00:21,440 --> 01:00:18,630

solar outburst you could think of an

1274

01:00:24,760 --> 01:00:21,450

equivalent of lightning strikes but many

1275

01:00:28,340 --> 01:00:24,770

many many orders of magnitude more

1276

01:00:31,220 --> 01:00:28,350

powerful but even with modern lightning

1277

01:00:34,210 --> 01:00:31,230

strikes in the last 2 or 3 years there

1278

01:00:37,400 --> 01:00:34,220

has been an allison descent evidence

1279

01:00:39,470 --> 01:00:37,410

indicating that when you look at the

1280

01:00:42,440 --> 01:00:39,480

mineralogy of what's formed where a

1281

01:00:45,170 --> 01:00:42,450

lightning hits rock where a hits sand on

1282

01:00:49,850 --> 01:00:45,180

a beach etc you get all these same

1283

01:00:53,020 --> 01:00:49,860

features that people for so long thought

1284

01:00:55,820 --> 01:00:53,030

could only be caused by physical

1285

01:00:58,820 --> 01:00:55,830

impactor such as meteorites and comets

1286

01:01:00,680 --> 01:00:58,830

and asteroids then I wanted to just

1287

01:01:03,770 --> 01:01:00,690

mention before I forget and you just

1288

01:01:06,110 --> 01:01:03,780

brought up vitrified Rock so for

1289

01:01:08,420 --> 01:01:06,120

instance in Egypt in what's known as the

1290

01:01:12,380 --> 01:01:08,430

Libyan desert although is actually Egypt

1291

01:01:15,910 --> 01:01:12,390

you get the Libyan desert glass covers

1292

01:01:19,430 --> 01:01:15,920

literally spread out as a field of

1293

01:01:21,500 --> 01:01:19,440

natural glass over about 2,500 square

1294

01:01:25,220 --> 01:01:21,510

kilometres if I remember correctly a

1295

01:01:27,680 --> 01:01:25,230

huge vast area the conventional view has

1296

01:01:29,300 --> 01:01:27,690

always been must have been meteorite or

1297

01:01:31,040 --> 01:01:29,310

something like that but there's no

1298

01:01:35,120 --> 01:01:31,050

crater there's no evidence

1299

01:01:39,170 --> 01:01:35,130

of actual extraterrestrial material it's

1300

01:01:43,460 --> 01:01:39,180

fused quartz and other things that were

1301

01:01:46,070 --> 01:01:43,470

heated to a incredibly high degree arm

1302

01:01:50,060 --> 01:01:46,080

to the point where they melted and then

1303

01:01:51,830 --> 01:01:50,070

Rican shield as glass well a logical

1304

01:01:53,180 --> 01:01:51,840

explanation when you start thinking

1305

01:01:54,650 --> 01:01:53,190

about and putting all the evidence

1306

01:01:57,380 --> 01:01:54,660

together this is what you would get

1307

01:01:59,650 --> 01:01:57,390

during a major major solar outbursts

1308

01:02:03,020 --> 01:01:59,660

where this must have been an area where

1309

01:02:05,090 --> 01:02:03,030

you had a direct plasma strike if you

1310

01:02:08,030 --> 01:02:05,100

would and that's just one example you've

1311

01:02:10,910 --> 01:02:08,040

got another one the so called Dhokla

1312

01:02:14,120 --> 01:02:10,920

glass in Egypt also that covers another

1313

01:02:15,800 --> 01:02:14,130

four hundred square kilometres and alive

1314

01:02:17,570 --> 01:02:15,810

is glass some of it looks like what

1315

01:02:19,940 --> 01:02:17,580

people will expect glass to look like

1316

01:02:22,730 --> 01:02:19,950

other looks more like what I would call

1317

01:02:25,520 --> 01:02:22,740

slag deposits where the melt head the

1318

01:02:27,620 --> 01:02:25,530

rock has been melted it serve bubbles up

1319

01:02:30,260 --> 01:02:27,630

and then rican Geo's is a very crude

1320

01:02:33,050 --> 01:02:30,270

natural glass and we're finding this

1321

01:02:35,420 --> 01:02:33,060

around the world at this time period now

1322

01:02:39,680 --> 01:02:35,430

at the end of the last ice age wouldn't

1323

01:02:42,110 --> 01:02:39,690

there have been well you're gonna answer

1324

01:02:44,360 --> 01:02:42,120

this I'm picturing if something like

1325

01:02:49,370 --> 01:02:44,370

that occurs wouldn't there have been

1326
01:02:53,510 --> 01:02:49,380
massive fires I mean we have evidence of

1327
01:02:56,360 --> 01:02:53,520
that massive fires at that time because

1328
01:02:58,670 --> 01:02:56,370
in some cases it literally incinerated

1329
01:03:01,550 --> 01:02:58,680
what was on the surface so if you have

1330
01:03:04,280 --> 01:03:01,560
volatile moderna Bowl combustible

1331
01:03:06,500 --> 01:03:04,290
materials you were setting massive fires

1332
01:03:09,740 --> 01:03:06,510
the other thing you have is massive

1333
01:03:12,380 --> 01:03:09,750
flooding and massive rain because you

1334
01:03:15,290 --> 01:03:12,390
are melting so much water whether it's

1335
01:03:18,560 --> 01:03:15,300
hitting glaciers and essentially you

1336
01:03:23,540 --> 01:03:18,570
know vaporizing them immediately hitting

1337
01:03:26,120 --> 01:03:23,550
water and vaporizing it and plus the

1338
01:03:29,120 --> 01:03:26,130

overall increased global temperatures

1339

01:03:31,490 --> 01:03:29,130

which would put a lot you know which

1340

01:03:33,920 --> 01:03:31,500

would put a lot more water into the

1341

01:03:36,520 --> 01:03:33,930

atmosphere the atmosphere can only hold

1342

01:03:38,770 --> 01:03:36,530

so much water so it comes back down as

1343

01:03:43,540 --> 01:03:38,780

precipitation

1344

01:03:46,840 --> 01:03:43,550

and so you had massive flooding massive

1345

01:03:50,780 --> 01:03:46,850

rises in sea level along the coast but

1346

01:03:54,500 --> 01:03:50,790

surface flooding inland flooding flash

1347

01:03:56,780 --> 01:03:54,510

floods that type of thing so you got

1348

01:04:00,440 --> 01:03:56,790

both going on at the same time is it

1349

01:04:03,320 --> 01:04:00,450

easy then for two different researchers

1350

01:04:07,250 --> 01:04:03,330

to I'm going to use the term long here

1351
01:04:10,550 --> 01:04:07,260
but have a miss diagnosis right now one

1352
01:04:14,180 --> 01:04:10,560
being the possibility of an asteroid

1353
01:04:18,100 --> 01:04:14,190
impact yeah yes I think it's absolutely

1354
01:04:20,870 --> 01:04:18,110
easy for a misdiagnosis to occur

1355
01:04:23,210 --> 01:04:20,880
especially given that and I am guilty of

1356
01:04:25,040 --> 01:04:23,220
this in the past and I'm probably guilty

1357
01:04:26,990 --> 01:04:25,050
of it now but I won't know that until

1358
01:04:28,670 --> 01:04:27,000
the future and more evidence comes in

1359
01:04:29,870 --> 01:04:28,680
I'm not saying I'm guilty of what we're

1360
01:04:33,080 --> 01:04:29,880
talking about right now but you know in

1361
01:04:35,600 --> 01:04:33,090
little things right um for a long time I

1362
01:04:38,570 --> 01:04:35,610
looked a lot of this data with the same

1363
01:04:41,600 --> 01:04:38,580

lens the same eyes the same training

1364

01:04:44,120 --> 01:04:41,610

because I went to Yale for my PhD in

1365

01:04:46,880 --> 01:04:44,130

geology and geophysics was my master's

1366

01:04:50,510 --> 01:04:46,890

degrees as I heard you commented

1367

01:04:54,740 --> 01:04:50,520

commented in introducing me and we were

1368

01:04:56,680 --> 01:04:54,750

all trained to look a certain way at

1369

01:05:00,170 --> 01:04:56,690

things because we didn't know any better

1370

01:05:03,590 --> 01:05:00,180

essentially when you saw certain types

1371

01:05:06,950 --> 01:05:03,600

of things like vitrified rock or nano

1372

01:05:10,610 --> 01:05:06,960

diamonds are shocked quartz the only

1373

01:05:13,190 --> 01:05:10,620

logical conclusion one was taught is

1374

01:05:16,790 --> 01:05:13,200

that must be some kind of impactor

1375

01:05:19,010 --> 01:05:16,800

asteroid meteorite comment we weren't

1376

01:05:21,290 --> 01:05:19,020

thinking about lightning we weren't

1377

01:05:25,100 --> 01:05:21,300

thinking about solar outburst

1378

01:05:29,450 --> 01:05:25,110

because we have no we have no evidence

1379

01:05:31,370 --> 01:05:29,460

of this in recorded history everyone was

1380

01:05:33,830 --> 01:05:31,380

still thinking the Sun is relatively

1381

01:05:37,580 --> 01:05:33,840

stable nothing like this whatever really

1382

01:05:40,130 --> 01:05:37,590

happened so it wasn't even a possibility

1383

01:05:42,740 --> 01:05:40,140

that we entertained

1384

01:05:44,570 --> 01:05:42,750

how much more like for me once you start

1385

01:05:47,300 --> 01:05:44,580

looking at that all the evidence falls

1386

01:05:51,050 --> 01:05:47,310

into place and it explains everything so

1387

01:05:51,740 --> 01:05:51,060

much better how much warning time do you

1388

01:05:55,880 --> 01:05:51,750

have

1389

01:05:58,970 --> 01:05:55,890

and I I'm gonna ask you this again when

1390

01:06:02,810 --> 01:05:58,980

it happens again or back then you and I

1391

01:06:04,510 --> 01:06:02,820

are out at gobekli tepe right ten

1392

01:06:06,800 --> 01:06:04,520

thousand years ago you and I are

1393

01:06:08,930 --> 01:06:06,810

performing a ceremony with some buddies

1394

01:06:11,930 --> 01:06:08,940

right we're hanging out performing a

1395

01:06:15,680 --> 01:06:11,940

ceremony and looking at the sky when

1396

01:06:17,390 --> 01:06:15,690

something happens how much time are we

1397

01:06:20,240 --> 01:06:17,400

talking about here are we talking about

1398

01:06:23,600 --> 01:06:20,250

seconds minutes or days no no probably

1399

01:06:27,290 --> 01:06:23,610

what you're talking about is you would

1400

01:06:29,630 --> 01:06:27,300

see a flash you as crises solar flare so

1401

01:06:32,000 --> 01:06:29,640

these flashes of light if it was a

1402

01:06:34,370 --> 01:06:32,010

daylight yes that's a stay light beam

1403

01:06:38,120 --> 01:06:34,380

right on so we're seeing the Sun and all

1404

01:06:41,120 --> 01:06:38,130

of a sudden we see solar flares coming

1405

01:06:43,730 --> 01:06:41,130

out those take those tribal at the speed

1406

01:06:45,710 --> 01:06:43,740

of light from the Sun so we're not

1407

01:06:47,390 --> 01:06:45,720

seeing them in real time we're seeing by

1408

01:06:50,000 --> 01:06:47,400

a delay what is that eight minutes or

1409

01:06:53,210 --> 01:06:50,010

something right but but instantaneous

1410

01:06:56,360 --> 01:06:53,220

for us as far as we're concerned now

1411

01:06:59,210 --> 01:06:56,370

based on the evidence we have for the

1412

01:07:01,640 --> 01:06:59,220

how fast coronal mass ejections can

1413

01:07:05,210 --> 01:07:01,650

travel and how fast solar winds can

1414

01:07:07,010 --> 01:07:05,220

travel etc once you see flares like that

1415

01:07:10,910 --> 01:07:07,020

you know that something's probably

1416

01:07:14,350 --> 01:07:10,920

coming behind it and that something is

1417

01:07:16,460 --> 01:07:14,360

traveling at very high speeds even

1418

01:07:18,680 --> 01:07:16,470

relativistic speeds you know close to

1419

01:07:21,020 --> 01:07:18,690

the speed of light but not at the speed

1420

01:07:23,600 --> 01:07:21,030

of light an answer to your question it

1421

01:07:26,480 --> 01:07:23,610

could be anywhere off the top of my head

1422

01:07:29,060 --> 01:07:26,490

from 16 hours if it was moving very

1423

01:07:32,450 --> 01:07:29,070

quickly that would be served typical or

1424

01:07:36,320 --> 01:07:32,460

maybe a couple of days couple of days

1425

01:07:38,780 --> 01:07:36,330

and we're not talking a long time and in

1426

01:07:40,610 --> 01:07:38,790

the meantime you've got solar flares

1427

01:07:43,610 --> 01:07:40,620

you've probably got things coming in

1428

01:07:45,980 --> 01:07:43,620

between what's sometimes known as solar

1429

01:07:47,690 --> 01:07:45,990

particle events or proton events you've

1430

01:07:51,170 --> 01:07:47,700

got different things moving at different

1431

01:07:55,820 --> 01:07:51,180

speeds from the speed of light for

1432

01:07:58,640 --> 01:07:55,830

actual electromagnetic today particles

1433

01:08:00,410 --> 01:07:58,650

traveling at various relativistic speeds

1434

01:08:01,970 --> 01:08:00,420

so you're getting pummeled by a number

1435

01:08:04,940 --> 01:08:01,980

of different things

1436

01:08:06,920 --> 01:08:04,950

if we were back in gobekli tepe times

1437

01:08:08,690 --> 01:08:06,930

and we'll assume for a second that the

1438

01:08:11,090 --> 01:08:08,700

Quebec Lee tepee people did not have

1439

01:08:13,640 --> 01:08:11,100

cellphones or the equivalent did not

1440

01:08:17,450 --> 01:08:13,650

have computers or the equivalent they

1441

01:08:19,700 --> 01:08:17,460

may have you know even a few days to

1442

01:08:24,289 --> 01:08:19,710

before it all hits that hits and

1443

01:08:27,769 --> 01:08:24,299

everything you know comes to be if we're

1444

01:08:29,599 --> 01:08:27,779

talking in modern times your computers

1445

01:08:31,880 --> 01:08:29,609

and cell phones and communication

1446

01:08:36,470 --> 01:08:31,890

systems are going to start coming going

1447

01:08:39,170 --> 01:08:36,480

down even before or the final hit even

1448

01:08:42,170 --> 01:08:39,180

before the mage or coronal mass ejection

1449

01:08:45,309 --> 01:08:42,180

am I making sense yes you are and so do

1450

01:08:46,700 --> 01:08:45,319

you and I have enough time to bury

1451

01:08:52,130 --> 01:08:46,710

gobekli tepe

1452

01:08:54,289 --> 01:08:52,140

to save it this is another issue what I

1453

01:08:57,470 --> 01:08:54,299

believe was happening with gobekli tepe

1454

01:09:00,769 --> 01:08:57,480

and what I believe happens when you have

1455

01:09:02,930 --> 01:09:00,779

these major solar outbursts is you have

1456

01:09:05,720 --> 01:09:02,940

a big one and I think there was a really

1457

01:09:08,690 --> 01:09:05,730

big one at the end of the last ice age

1458

01:09:11,780 --> 01:09:08,700

that's what we see is a huge spike but

1459

01:09:13,760 --> 01:09:11,790

what you also have in the geological

1460

01:09:18,140 --> 01:09:13,770

record in the high score record is a

1461

01:09:22,370 --> 01:09:18,150

number of spikes after that of lesser

1462

01:09:25,340 --> 01:09:22,380

intensity but still coming so the Sun

1463

01:09:28,760 --> 01:09:25,350

was very volatile it was going through

1464

01:09:32,300 --> 01:09:28,770

these up-and-down swings if I could put

1465

01:09:35,240 --> 01:09:32,310

it this way and to use the geological

1466

01:09:38,660 --> 01:09:35,250

analogy it was like a major earthquake

1467

01:09:41,180 --> 01:09:38,670

with aftershocks and maybe even some

1468

01:09:43,729 --> 01:09:41,190

four shocks - but aftershocks definitely

1469

01:09:45,320 --> 01:09:43,739

so what I believe we have at Quebec Lee

1470

01:09:48,620 --> 01:09:45,330

today have you analyzed it very

1471

01:09:52,670 --> 01:09:48,630

carefully is it was hit parts were

1472

01:09:54,740 --> 01:09:52,680

knocked down that would have been due to

1473

01:09:57,080 --> 01:09:54,750

probably the accompanying earthquakes

1474

01:09:59,330 --> 01:09:57,090

etc and earthquakes are very strongly

1475

01:10:01,610 --> 01:09:59,340

correlated with solar activity we now

1476
01:10:04,430 --> 01:10:01,620
know that even in the present day and

1477
01:10:07,760 --> 01:10:04,440
there are reasons for that but I think

1478
01:10:11,420 --> 01:10:07,770
that Gobekli Tepe was being hit they

1479
01:10:14,000 --> 01:10:11,430
were trying to quickly react it than

1480
01:10:15,479 --> 01:10:14,010
they would get hit again baby a bit more

1481
01:10:18,209 --> 01:10:15,489
minor so

1482
01:10:22,020 --> 01:10:18,219
outbursts another coronal mass ejection

1483
01:10:24,540 --> 01:10:22,030
coming in and eventually just got to be

1484
01:10:26,760 --> 01:10:24,550
so much I think they are the evidence

1485
01:10:30,120 --> 01:10:26,770
indicates they were putting the pillars

1486
01:10:32,310 --> 01:10:30,130
up you know sort of in crude very

1487
01:10:34,520 --> 01:10:32,320
crudely into position and covered the

1488
01:10:38,790 --> 01:10:34,530

whole thing over so would they have time

1489

01:10:41,640 --> 01:10:38,800

yes but they were taking time from just

1490

01:10:43,320 --> 01:10:41,650

trying to survive otherwise to bury it

1491

01:10:46,200 --> 01:10:43,330

and preserve it because it must have

1492

01:10:49,380 --> 01:10:46,210

been incredibly important to them but so

1493

01:10:51,360 --> 01:10:49,390

it's not just one big fell swoop yes

1494

01:10:53,790 --> 01:10:51,370

it's one big fell swoop but then they're

1495

01:10:58,740 --> 01:10:53,800

what I call aftershocks to use the

1496

01:11:00,780 --> 01:10:58,750

geological analogy no wasn't that's when

1497

01:11:03,979 --> 01:11:00,790

they were really trying to reconstruct

1498

01:11:06,090 --> 01:11:03,989

and then ultimately buried gobekli tepe

1499

01:11:09,050 --> 01:11:06,100

something else that I was just thinking

1500

01:11:11,160 --> 01:11:09,060

of as we were talking about this even in

1501

01:11:13,200 --> 01:11:11,170

1859 when we had the so-called

1502

01:11:15,390 --> 01:11:13,210

Carrington event yep when I say

1503

01:11:18,510 --> 01:11:15,400

so-called it's it's not so called it's

1504

01:11:22,229 --> 01:11:18,520

named after Richard Carrington who saw

1505

01:11:25,950 --> 01:11:22,239

the first solar flares and what I meant

1506

01:11:28,410 --> 01:11:25,960

by this so-called was that the event we

1507

01:11:31,080 --> 01:11:28,420

call it the Carrington event actually it

1508

01:11:33,870 --> 01:11:31,090

was a couple of coronal mass ejections

1509

01:11:36,570 --> 01:11:33,880

given off by the Sun one after the other

1510

01:11:39,690 --> 01:11:36,580

so it's like we were hit and then we

1511

01:11:42,479 --> 01:11:39,700

were hit again right after that now when

1512

01:11:46,140 --> 01:11:42,489

you have a major major solar flare or a

1513

01:11:48,270 --> 01:11:46,150

mini Nova or micro Nova from the Sun we

1514

01:11:49,920 --> 01:11:48,280

don't know exactly what it's going to be

1515

01:11:52,320 --> 01:11:49,930

like we haven't experienced this before

1516

01:11:54,780 --> 01:11:52,330

whether that might even be I'm

1517

01:11:58,620 --> 01:11:54,790

speculating a bit here but with cause

1518

01:12:00,780 --> 01:11:58,630

with reason it may even be that it gives

1519

01:12:04,530 --> 01:12:00,790

off is sort of like hiccups and hiccups

1520

01:12:09,080 --> 01:12:04,540

again sneezes and hiccups again so that

1521

01:12:12,150 --> 01:12:09,090

we're getting pummeled by some in a row

1522

01:12:14,729 --> 01:12:12,160

separate by you know maybe a few years

1523

01:12:18,750 --> 01:12:14,739

or a decade or maybe even only a few

1524

01:12:20,310 --> 01:12:18,760

months what about going underground well

1525

01:12:23,010 --> 01:12:20,320

that's what you have to do that's how

1526

01:12:26,550 --> 01:12:23,020

people survived there are no doubt that

1527

01:12:29,380 --> 01:12:26,560

Turkey you get dirty exactly what

1528

01:12:31,530 --> 01:12:29,390

Cappadocia you'll see when we go to

1529

01:12:33,790 --> 01:12:31,540

have you been to Quebec wake up eh nope

1530

01:12:37,420 --> 01:12:33,800

okay so we're going to take a big trip

1531

01:12:41,440 --> 01:12:37,430

to Rio Rita and Katy and some phaidor

1532

01:12:43,750 --> 01:12:41,450

nuts right Egypt will go to Turkey will

1533

01:12:46,630 --> 01:12:43,760

go Cappadocia we'll go get but got back

1534

01:12:50,410 --> 01:12:46,640

Gobekli Tepe MA now my tongues gained

1535

01:12:51,940 --> 01:12:50,420

tight Quebec Cappadocia is incredible

1536

01:12:55,450 --> 01:12:51,950

because you have all the underground

1537

01:12:58,780 --> 01:12:55,460

cities there but what is important to me

1538

01:13:01,540 --> 01:12:58,790

is you have the right geological terrain

1539

01:13:04,510 --> 01:13:01,550

so you've got a fairly soft volcanic

1540

01:13:07,480 --> 01:13:04,520

rock that's easy to carve into once you

1541

01:13:10,920 --> 01:13:07,490

carve into it it hardens and it's in

1542

01:13:14,410 --> 01:13:10,930

would be incredibly good to survive

1543

01:13:16,690 --> 01:13:14,420

underground from these type of surface

1544

01:13:20,730 --> 01:13:16,700

events because among other things you

1545

01:13:24,310 --> 01:13:20,740

would get very powerful armed solar

1546

01:13:26,380 --> 01:13:24,320

flares and as we said coronal mass

1547

01:13:28,420 --> 01:13:26,390

ejections what would what would look

1548

01:13:30,310 --> 01:13:28,430

like huge lightning bolts hitting so to

1549

01:13:33,070 --> 01:13:30,320

protect from that but you would also

1550

01:13:36,310 --> 01:13:33,080

have radiation levels on the surface of

1551

01:13:38,710 --> 01:13:36,320

the earth very strong radiation levels

1552

01:13:41,740 --> 01:13:38,720

we can estimate that they were strong

1553

01:13:45,370 --> 01:13:41,750

enough in some cases large mammals would

1554

01:13:47,710 --> 01:13:45,380

die within three days to a week or so

1555

01:13:50,920 --> 01:13:47,720

humans are large mammals what's the best

1556

01:13:53,020 --> 01:13:50,930

way to survive this to get out of the

1557

01:13:54,370 --> 01:13:53,030

way of the surface radiation to go

1558

01:13:57,300 --> 01:13:54,380

underground because the rock will

1559

01:14:00,340 --> 01:13:57,310

protect you that this is very well known

1560

01:14:02,260 --> 01:14:00,350

people who worry about these things to

1561

01:14:04,000 --> 01:14:02,270

this day if they're going to protect

1562

01:14:07,360 --> 01:14:04,010

their computers and whatnot

1563

01:14:09,970 --> 01:14:07,370

they put them in underground caverns and

1564

01:14:13,540 --> 01:14:09,980

bunkers that type of thing this the rock

1565

01:14:15,760 --> 01:14:13,550

will protect from radiation so going

1566

01:14:17,890 --> 01:14:15,770

into ground really is the way to go and

1567

01:14:19,780 --> 01:14:17,900

I want to point out that the underground

1568

01:14:21,790 --> 01:14:19,790

shelters were talking about if you were

1569

01:14:23,530 --> 01:14:21,800

talking about comet bombardments it

1570

01:14:25,030 --> 01:14:23,540

wouldn't help you at all because they

1571

01:14:28,030 --> 01:14:25,040

would collapse under that type of

1572

01:14:30,490 --> 01:14:28,040

bombardment but from a solar event they

1573

01:14:33,010 --> 01:14:30,500

would be excellent and we have

1574

01:14:36,540 --> 01:14:33,020

linguistic evidence going back to the

1575

01:14:38,800 --> 01:14:36,550

end of the last ice age that

1576

01:14:40,930 --> 01:14:38,810

indo-european languages would they

1577

01:14:41,910 --> 01:14:40,940

originate from they actually originated

1578

01:14:47,649 --> 01:14:41,920

from

1579

01:14:50,589 --> 01:14:47,659

that can be traced by looking at

1580

01:14:53,890 --> 01:14:50,599

language families in sort of doing a

1581

01:14:57,719 --> 01:14:53,900

genealogy of language and dating it to

1582

01:15:00,729 --> 01:14:57,729

when various branches split off

1583

01:15:02,259 --> 01:15:00,739

linguistically and it's amazing the

1584

01:15:04,660 --> 01:15:02,269

people that have done these studies

1585

01:15:06,040 --> 01:15:04,670

linguists they don't care about you know

1586

01:15:08,379 --> 01:15:06,050

what I'm talking about

1587

01:15:12,489 --> 01:15:08,389

but they trace it back to a pocket of

1588

01:15:14,290 --> 01:15:12,499

people that survived about ten thousand

1589

01:15:18,370 --> 01:15:14,300

nine thousand seven hundred years ago

1590

01:15:20,469 --> 01:15:18,380

not years ago in BC almost twelve

1591

01:15:22,930 --> 01:15:20,479

thousand years ago to that region in

1592

01:15:25,870 --> 01:15:22,940

Turkey which is exactly where you find

1593

01:15:27,609 --> 01:15:25,880

the underground cities now I do want to

1594

01:15:29,830 --> 01:15:27,619

point out you know I'm saying a lot but

1595

01:15:32,379 --> 01:15:29,840

I always like to clarify things these

1596

01:15:35,319 --> 01:15:32,389

underground cities there is no doubt

1597

01:15:37,839 --> 01:15:35,329

they were used thousands of years later

1598

01:15:40,359 --> 01:15:37,849

the standard archaeologists will say to

1599

01:15:42,250 --> 01:15:40,369

you oh you know they might even say

1600

01:15:45,189 --> 01:15:42,260

shocked is crazy talking about this

1601

01:15:47,529 --> 01:15:45,199

because they know that these were used a

1602

01:15:50,049 --> 01:15:47,539

thousand years ago two thousand years

1603

01:15:51,700 --> 01:15:50,059

ago maybe three thousand years ago I've

1604

01:15:53,500 --> 01:15:51,710

explored them I've looked at them very

1605

01:15:56,350 --> 01:15:53,510

carefully yes of course they were used

1606

01:15:59,020 --> 01:15:56,360

then but that doesn't mean that's when

1607

01:16:01,180 --> 01:15:59,030

the whole thing began that doesn't mean

1608

01:16:03,459 --> 01:16:01,190

that they were reusing something that

1609

01:16:05,319 --> 01:16:03,469

was much older and there's lots of

1610

01:16:09,040 --> 01:16:05,329

geological evidence that these things go

1611

01:16:12,040 --> 01:16:09,050

back much further in time than the

1612

01:16:15,310 --> 01:16:12,050

standard historians say for instance you

1613

01:16:18,399 --> 01:16:15,320

they had to carve these out they had to

1614

01:16:20,830 --> 01:16:18,409

remove incredible amounts of rock where

1615

01:16:23,290 --> 01:16:20,840

are the huge piles of rock that they

1616

01:16:25,180 --> 01:16:23,300

removed if they were only a couple of

1617

01:16:27,310 --> 01:16:25,190

thousand years old at most you would

1618

01:16:30,219 --> 01:16:27,320

still have these huge piles of rock but

1619

01:16:32,319 --> 01:16:30,229

because they go back so far I believe

1620

01:16:35,229 --> 01:16:32,329

that rock has you know weathered away

1621

01:16:37,479 --> 01:16:35,239

and and gone with a breeze so to speak I

1622

01:16:40,299 --> 01:16:37,489

have the same I have the same arguments

1623

01:16:42,370 --> 01:16:40,309

when it comes to Giza in the great

1624

01:16:44,770 --> 01:16:42,380

pyramids and we'll discuss that in a

1625

01:16:47,439 --> 01:16:44,780

second yeah well yeah I mean all these

1626

01:16:49,180 --> 01:16:47,449

all these sites not all of them Quebec

1627

01:16:52,060 --> 01:16:49,190

Lee Tepe was not reused because it was

1628

01:16:55,120 --> 01:16:52,070

buried and preserved right but he's the

1629

01:16:59,140 --> 01:16:55,130

sphinx Cappadocia these

1630

01:17:03,250 --> 01:16:59,150

reused and venerated even for thousands

1631

01:17:04,930 --> 01:17:03,260

of years later so you know it's it's I

1632

01:17:08,070 --> 01:17:04,940

don't want to say the obvious but you

1633

01:17:12,100 --> 01:17:08,080

know you go to the Colosseum in Rome

1634

01:17:14,800 --> 01:17:12,110

that was built in the 1st century AD 500

1635

01:17:17,230 --> 01:17:14,810

years from now someone finds the coin

1636

01:17:19,900 --> 01:17:17,240

that I dropped there and they show this

1637

01:17:24,040 --> 01:17:19,910

is only 500 years old that's nonsense

1638

01:17:27,490 --> 01:17:24,050

that's right and now okay so the same

1639

01:17:29,620 --> 01:17:27,500

evidence that we are talking about here

1640

01:17:31,300 --> 01:17:29,630

at different sites around the world I'm

1641

01:17:34,600 --> 01:17:31,310

talking about the vitrified Rock and the

1642

01:17:37,930 --> 01:17:34,610

shocked quartz and nano diamonds is this

1643

01:17:40,680 --> 01:17:37,940

consistent around the planet in other

1644

01:17:44,290 --> 01:17:40,690

words dr. Schaack could you go to

1645

01:17:46,900 --> 01:17:44,300

Indonesia and go to the same time period

1646

01:17:48,520 --> 01:17:46,910

and and go through the layers of

1647

01:17:51,580 --> 01:17:48,530

sediment and find the same evidence

1648

01:17:55,060 --> 01:17:51,590

there of this at that time period as you

1649

01:17:58,510 --> 01:17:55,070

would in in North America or in

1650

01:18:00,820 --> 01:17:58,520

Greenland or across Europe and Africa is

1651

01:18:02,860 --> 01:18:00,830

the same evidence there consistently

1652

01:18:07,000 --> 01:18:02,870

around the planet as opposed to being

1653

01:18:09,010 --> 01:18:07,010

localized yes no no it's actually very

1654

01:18:12,610 --> 01:18:09,020

consistent as I'm piecing it together

1655

01:18:15,970 --> 01:18:12,620

around the planet which also indicates

1656

01:18:18,130 --> 01:18:15,980

that we're talking solar events because

1657

01:18:21,220 --> 01:18:18,140

when you have a major solar event like

1658

01:18:25,180 --> 01:18:21,230

this it doesn't hit in just one spot it

1659

01:18:27,310 --> 01:18:25,190

actually plows into the earth piles into

1660

01:18:29,830 --> 01:18:27,320

the magnetosphere plows into the

1661

01:18:32,050 --> 01:18:29,840

atmosphere if you would and it spreads

1662

01:18:34,360 --> 01:18:32,060

around the globe I mean this is a way

1663

01:18:39,660 --> 01:18:34,370

that electric current currents are

1664

01:18:42,280 --> 01:18:39,670

caused carried etc and we find it and

1665

01:18:44,890 --> 01:18:42,290

consistently not only around the world

1666

01:18:47,020 --> 01:18:44,900

now as we know what evidence to look for

1667

01:18:48,460 --> 01:18:47,030

and that's part of the problem to look

1668

01:18:50,590 --> 01:18:48,470

for the evidence so when I was a

1669

01:18:52,210 --> 01:18:50,600

graduate student at Yale we weren't

1670

01:18:54,010 --> 01:18:52,220

thinking these terms and we weren't

1671

01:18:56,410 --> 01:18:54,020

looking for this type of evidence that

1672

01:18:58,030 --> 01:18:56,420

you know you know people don't realize

1673

01:18:59,950 --> 01:18:58,040

this sometimes when they're not in the

1674

01:19:00,400 --> 01:18:59,960

sciences but maybe they realize it in

1675

01:19:02,350 --> 01:19:00,410

real life

1676

01:19:04,060 --> 01:19:02,360

if you're not tuned in to something

1677

01:19:06,010 --> 01:19:04,070

you're not looking for something you

1678

01:19:08,080 --> 01:19:06,020

often don't notice it there's been all

1679

01:19:08,890 --> 01:19:08,090

kinds of psychological studies about

1680

01:19:12,939 --> 01:19:08,900

this for

1681

01:19:14,979 --> 01:19:12,949

even for you know ordinary things and

1682

01:19:18,100 --> 01:19:14,989

that's one reason eyewitnesses and

1683

01:19:20,919 --> 01:19:18,110

courts and trials can be so far off

1684

01:19:22,600 --> 01:19:20,929

because they're looking you know you

1685

01:19:24,340 --> 01:19:22,610

don't see what you're not looking for in

1686

01:19:27,729 --> 01:19:24,350

many cases but the answer to your

1687

01:19:29,919 --> 01:19:27,739

question is yes I'm convinced we're game

1688

01:19:33,459 --> 01:19:29,929

very consistent picture around the world

1689

01:19:37,390 --> 01:19:33,469

and it's not just on earth so for

1690

01:19:40,419 --> 01:19:37,400

instance we have to look at the moon and

1691

01:19:43,120 --> 01:19:40,429

the moon has evidence of this also in

1692

01:19:46,390 --> 01:19:43,130

fact some of the earliest evidence for a

1693

01:19:50,229 --> 01:19:46,400

major solar output for a major solar

1694

01:19:52,950 --> 01:19:50,239

outburst was found by he's now deceased

1695

01:19:54,180 --> 01:19:52,960

unfortunately by but astronomer

1696

01:19:58,240 --> 01:19:54,190

astrophysicist

1697

01:20:01,780 --> 01:19:58,250

whose name was Thomas gold and he found

1698

01:20:04,750 --> 01:20:01,790

based on the Apollo missions and you

1699

01:20:08,700 --> 01:20:04,760

know what was that almost 50 years ago

1700

01:20:12,790 --> 01:20:08,710

now odd the Apollo missions

1701

01:20:15,550 --> 01:20:12,800

vitrification and glazed lunar rocks as

1702

01:20:18,820 --> 01:20:15,560

he taught called it that indicate there

1703

01:20:20,919 --> 01:20:18,830

was a major solar outburst and it

1704

01:20:22,870 --> 01:20:20,929

actually makes sense in hindsight that

1705

01:20:25,120 --> 01:20:22,880

you might recognize this on the moon

1706

01:20:27,130 --> 01:20:25,130

first if it's if you're not looking for

1707

01:20:28,899 --> 01:20:27,140

it because it's much more obvious on the

1708

01:20:31,209 --> 01:20:28,909

moon because the moon doesn't have much

1709

01:20:33,100 --> 01:20:31,219

of an atmosphere at all so things like

1710

01:20:34,689 --> 01:20:33,110

this are preserved one thing you have to

1711

01:20:36,970 --> 01:20:34,699

realize a lot of these features

1712

01:20:38,830 --> 01:20:36,980

especially vitrified Rock they break

1713

01:20:41,740 --> 01:20:38,840

down in the atmosphere very quickly

1714

01:20:45,010 --> 01:20:41,750

they're not um I'm talking geologically

1715

01:20:48,100 --> 01:20:45,020

very quickly they degrade that type of

1716

01:20:50,320 --> 01:20:48,110

thing so he actually found evidence of

1717

01:20:52,720 --> 01:20:50,330

this on the moon initially and anything

1718

01:20:54,340 --> 01:20:52,730

that is going to hit the earth is also

1719

01:20:57,280 --> 01:20:54,350

going to hit the moon the moon is that

1720

01:21:00,250 --> 01:20:57,290

close to us from astronomical point of

1721

01:21:02,740 --> 01:21:00,260

view and it may may or may not be the

1722

01:21:05,110 --> 01:21:02,750

case but what did the Chinese do just

1723

01:21:08,530 --> 01:21:05,120

now they went to the dark side of the

1724

01:21:10,450 --> 01:21:08,540

Moon the back of the Moon and be

1725

01:21:12,850 --> 01:21:10,460

interested to see what they find there

1726

01:21:15,580 --> 01:21:12,860

because of course as the moon goes

1727

01:21:17,100 --> 01:21:15,590

around the earth that also faces the Sun

1728

01:21:18,780 --> 01:21:17,110

you know

1729

01:21:21,890 --> 01:21:18,790

sometimes they're gonna find a McDonalds

1730

01:21:24,930 --> 01:21:21,900

that's what I heard

1731

01:21:27,900 --> 01:21:24,940

let's take my breath okay so there we go

1732

01:21:30,420 --> 01:21:27,910

evidence of this occurs all over the

1733

01:21:34,230 --> 01:21:30,430

earth and also on the moon as does

1734

01:21:36,870 --> 01:21:34,240

McDonald's continue the conversation I'm

1735

01:21:40,200 --> 01:21:36,880

01:24:45,430 --> 01:24:43,550
eliminated from the body the less time

1806
01:24:47,830 --> 01:24:45,440
that way sits in our intestine spreading

1807
01:24:49,780 --> 01:24:47,840
toxins to our bloodstream this tea helps

1808
01:24:51,640 --> 01:24:49,790
cleanse chemicals caused by outside

1809
01:24:54,700 --> 01:24:51,650
intruders from our entire digestive

1810
01:24:57,010 --> 01:24:54,710
system and get this weight loss can be a

1811
01:24:59,230 --> 01:24:57,020
side effect and with continued use of

1812
01:25:01,660 --> 01:24:59,240
the tea you can experience clearer

1813
01:25:04,330 --> 01:25:01,670

healthier younger looking skin increased

1814

01:25:05,740 --> 01:25:04,340

energy and a happier outlook on life so

1815

01:25:08,620 --> 01:25:05,750

if you're tired of being tired

1816

01:25:12,490 --> 01:25:08,630

get the life change tea at get the tea

1817

01:25:15,430 --> 01:25:12,500

calm that's get the tea calm and like me

1818

01:25:17,170 --> 01:25:15,440

you'll be glad you did did you know that

1819

01:25:19,480 --> 01:25:17,180

when you're on the road with limited

1820

01:25:21,400 --> 01:25:19,490

data or Wi-Fi available you can still

1821

01:25:24,160 --> 01:25:21,410

listen to every minute of fade to black

1822

01:25:27,280 --> 01:25:24,170

by just calling six oh five five six two

1823

01:25:29,590 --> 01:25:27,290

four four eight two no smartphone app or

1824

01:25:31,840 --> 01:25:29,600

Internet needed it saves your data plan

1825

01:25:35,140 --> 01:25:31,850

and no extra cost if you have unlimited

1826

01:25:37,480 --> 01:25:35,150

minutes just call six oh five five six

1827

01:25:39,940 --> 01:25:37,490

two four four eight two you can listen

1828

01:25:47,800 --> 01:25:39,950

to me Jimmy Church on any phone anytime

[Applause]

1831

01:25:59,250 --> 01:25:56,600

you wanna know a secret I love ponies I

1832

01:26:01,810 --> 01:25:59,260

really love ponies I'm serious I

1833

01:26:04,710 --> 01:26:01,820

couldn't stay sane without poor mr.

1834

01:26:10,960 --> 01:26:04,720

Brooks I fade to black

1835

01:26:14,930 --> 01:26:12,800

this is fade to black

1836

01:26:18,620 --> 01:26:14,940

with Jimmy Church on the game changer

1837

01:26:21,010 --> 01:26:18,630

radio network and K GRA the global radio

1838

01:26:32,939 --> 01:26:21,020

alliance

1839

01:26:35,100 --> 01:26:32,949

[Music]

1840

01:26:37,979 --> 01:26:35,110

welcome back fade to black I am your

1841

01:26:40,169 --> 01:26:37,989

host Jimmy Church what a great

1842

01:26:44,550 --> 01:26:40,179

conversation - that I expected this as

1843

01:26:46,740 --> 01:26:44,560

dr. Schaack but a great conversation and

1844

01:26:50,040 --> 01:26:46,750

we are going to continue things right

1845

01:26:55,080 --> 01:26:50,050

now we are talking about the possibility

1846

01:26:56,300 --> 01:26:55,090

of the this cataclysmic event 12,000

1847

01:26:59,959 --> 01:26:56,310

years ago

1848

01:27:03,479 --> 01:26:59,969

10,000 BC or thereabouts 10,500 as

1849

01:27:06,479 --> 01:27:03,489

possibly being solar and I have to ask

1850

01:27:10,160 --> 01:27:06,489

you this Robert let's back up a little

1851
01:27:13,140 --> 01:27:10,170
bit here or a lot B something triggered

1852
01:27:14,760 --> 01:27:13,150
this for you there was some kind of

1853
01:27:17,040 --> 01:27:14,770
epiphany in your life where you went

1854
01:27:19,410 --> 01:27:17,050
wait a minute there absolutely was

1855
01:27:21,720 --> 01:27:19,420
because I was not in this ties in with

1856
01:27:23,970 --> 01:27:21,730
what we were talking about I was not

1857
01:27:26,400 --> 01:27:23,980
thinking in terms of the Sun I was not

1858
01:27:30,620 --> 01:27:26,410
thinking in terms of solar events and I

1859
01:27:33,750 --> 01:27:30,630
was perplexed by this and the evidence

1860
01:27:36,360 --> 01:27:33,760
for what was some people were

1861
01:27:38,189 --> 01:27:36,370
interpreting as a comet or meteor it

1862
01:27:39,990 --> 01:27:38,199
didn't really make a lot of sense

1863
01:27:42,570 --> 01:27:40,000

because that should cause a cooling

1864

01:27:44,430 --> 01:27:42,580

event not a warming event that didn't

1865

01:27:47,250 --> 01:27:44,440

seem that there was any direct evidence

1866

01:27:51,300 --> 01:27:47,260

it was all circumstantial and what

1867

01:27:54,630 --> 01:27:51,310

really turned things around was a trip

1868

01:27:56,430 --> 01:27:54,640

to Easter Island we went to Easter

1869

01:27:58,439 --> 01:27:56,440

Island Katie and I went to Easter on we

1870

01:28:01,290 --> 01:27:58,449

were married on Easter Island I think

1871

01:28:03,120 --> 01:28:01,300

you may know that that's right and that

1872

01:28:05,490 --> 01:28:03,130

was just an incredible trip it was so

1873

01:28:07,439 --> 01:28:05,500

much fun and of course it's one of these

1874

01:28:10,080 --> 01:28:07,449

places that has all kinds of ancient

1875

01:28:12,750 --> 01:28:10,090

mysteries the moai the big heads and

1876

01:28:16,169 --> 01:28:12,760

torsos that type of thing but something

1877

01:28:18,150 --> 01:28:16,179

that Easter Island has is the wrong go

1878

01:28:20,970 --> 01:28:18,160

wrong go script that it's sort of a

1879

01:28:24,240 --> 01:28:20,980

hieroglyphic type script it's really

1880

01:28:26,220 --> 01:28:24,250

interesting because you know linguists

1881

01:28:31,770 --> 01:28:26,230

and whatnot have been trying to decipher

1882

01:28:35,280 --> 01:28:31,780

it for 150 years of are there bouts ever

1883

01:28:40,229 --> 01:28:35,290

since it was discovered in the 1860s

1884

01:28:43,320 --> 01:28:40,239

1870s with no success they can't even

1885

01:28:45,870 --> 01:28:43,330

agree if it's really you know what kind

1886

01:28:50,640 --> 01:28:45,880

of script it might be if it is

1887

01:28:53,700 --> 01:28:50,650

Cedric cetera so to make a long story

1888

01:28:56,870 --> 01:28:53,710

short we were we Katie and I were

1889

01:28:59,879 --> 01:28:56,880

watching electric universe some

1890

01:29:03,360 --> 01:28:59,889

documentary actually and in that

1891

01:29:07,169 --> 01:29:03,370

documentary they mentioned someone who I

1892

01:29:10,129 --> 01:29:07,179

had met before at conferences and spoken

1893

01:29:13,590 --> 01:29:10,139

with and that was dr. anthony peratt at

1894

01:29:15,899 --> 01:29:13,600

los alamos who is this plasma physicist

1895

01:29:17,970 --> 01:29:15,909

I mentioned him briefly at the beginning

1896

01:29:20,760 --> 01:29:17,980

of this show when they we start our

1897

01:29:24,780 --> 01:29:20,770

conversation and something he had been

1898

01:29:27,479 --> 01:29:24,790

studying was petroglyphs ancient

1899

01:29:30,090 --> 01:29:27,489

engravings on rocks and what he found is

1900

01:29:32,669 --> 01:29:30,100

that a certain class of petroglyphs that

1901

01:29:34,860 --> 01:29:32,679

go back to the end of the last ice age

1902

01:29:36,330 --> 01:29:34,870

and that's my dating now the end of the

1903

01:29:41,550 --> 01:29:36,340

last ice age he's very ancient

1904

01:29:44,610 --> 01:29:41,560

petroglyphs mimic or seemed to be of the

1905

01:29:47,430 --> 01:29:44,620

same diagnostic features and shapes as

1906

01:29:50,070 --> 01:29:47,440

plasma configurations that he had been

1907

01:29:52,320 --> 01:29:50,080

modeling in the laboratory that you

1908

01:29:55,280 --> 01:29:52,330

would get when you had a major solar

1909

01:29:58,560 --> 01:29:55,290

outburst and how could this be

1910

01:30:02,370 --> 01:29:58,570

coincidental and what he determined and

1911

01:30:06,450 --> 01:30:02,380

I absolutely agree with is that in

1912

01:30:07,500 --> 01:30:06,460

ancient times when you had a major solar

1913

01:30:10,680 --> 01:30:07,510

outburst

1914

01:30:13,740 --> 01:30:10,690

you would see things in the sky right

1915

01:30:16,620 --> 01:30:13,750

now people know about the rora borealis

1916

01:30:19,020 --> 01:30:16,630

the Northern Lights you have the same

1917

01:30:21,390 --> 01:30:19,030

thing in the South what this is as solar

1918

01:30:23,820 --> 01:30:21,400

winds essentially plasma and a very

1919

01:30:26,070 --> 01:30:23,830

small scale compared to what we had the

1920

01:30:28,910 --> 01:30:26,080

end of the last ice age hitting the

1921

01:30:32,070 --> 01:30:28,920

magnetosphere hitting the atmosphere

1922

01:30:33,450 --> 01:30:32,080

interacting with the nitrogen oxygen the

1923

01:30:36,649 --> 01:30:33,460

atmosphere and you get these pretty

1924

01:30:40,470 --> 01:30:36,659

lights and well aren't they pretty and

1925

01:30:44,250 --> 01:30:40,480

you see them at high latitudes but

1926

01:30:46,770 --> 01:30:44,260

during a major outburst as we had at the

1927

01:30:49,500 --> 01:30:46,780

end of the last ice age you would get

1928

01:30:53,209 --> 01:30:49,510

things like the Northern Lights around

1929

01:30:57,240 --> 01:30:53,219

the world because of the incoming

1930

01:30:58,960 --> 01:30:57,250

coronal mass ejections etc and not only

1931

01:31:01,420 --> 01:30:58,970

that but with the

1932

01:31:03,970 --> 01:31:01,430

incredible intensities of the outburst

1933

01:31:06,280 --> 01:31:03,980

they would take on very diagnostic

1934

01:31:09,880 --> 01:31:06,290

shapes that look like what some people

1935

01:31:12,760 --> 01:31:09,890

call stick figures stick figure humans

1936

01:31:14,320 --> 01:31:12,770

with little shapes are little Donuts it

1937

01:31:17,250 --> 01:31:14,330

looks like it's known as synchrotron

1938

01:31:20,880 --> 01:31:17,260

radiation on the sides you would get

1939

01:31:23,770 --> 01:31:20,890

what would look like donuts or cascading

1940

01:31:27,010 --> 01:31:23,780

cylindrical shapes you would get very

1941

01:31:30,820 --> 01:31:27,020

importantly what appears in the sky to

1942

01:31:33,790 --> 01:31:30,830

be stick figure humans with the heads of

1943

01:31:37,650 --> 01:31:33,800

birds again we tend to anthropomorphize

1944

01:31:41,290 --> 01:31:37,660

things but you get these very specific

1945

01:31:44,260 --> 01:31:41,300

images in the sky these configurations

1946

01:31:47,470 --> 01:31:44,270

plasma configurations he identified

1947

01:31:49,240 --> 01:31:47,480

these on petroglyphs around the world in

1948

01:31:52,390 --> 01:31:49,250

over a hundred and thirty countries he

1949

01:31:54,190 --> 01:31:52,400

and his team Haiti was watching this

1950

01:31:56,470 --> 01:31:54,200

while I was sort of distracted and she

1951

01:32:00,700 --> 01:31:56,480

said this looks like the wrong go wrong

1952

01:32:02,710 --> 01:32:00,710

go script and put it all together that

1953

01:32:05,220 --> 01:32:02,720

we need to start looking at the Sun and

1954

01:32:07,270 --> 01:32:05,230

the Easter Islanders it wasn't a

1955

01:32:09,310 --> 01:32:07,280

undeciphered script in the sense that

1956

01:32:10,990 --> 01:32:09,320

they were writing stories and fairy

1957

01:32:14,490 --> 01:32:11,000

tales or something like that but they

1958

01:32:17,620 --> 01:32:14,500

were recording what they saw in the sky

1959

01:32:20,190 --> 01:32:17,630

during a major solar outburst at the end

1960

01:32:24,450 --> 01:32:20,200

of the last ice age what we have

1961

01:32:28,150 --> 01:32:24,460

surviving are the Rango Rango these

1962

01:32:31,960 --> 01:32:28,160

inscriptions these depictions I believe

1963

01:32:34,000 --> 01:32:31,970

we believe of plasma configurations that

1964

01:32:37,480 --> 01:32:34,010

were seen in the sky and how they would

1965

01:32:40,240 --> 01:32:37,490

change over time as the solar outbursts

1966

01:32:44,110 --> 01:32:40,250

progressed as coronal mass ejections

1967

01:32:46,450 --> 01:32:44,120

came in there the physical rongorongo is

1968

01:32:48,790 --> 01:32:46,460

carved on wooden tablets which were very

1969

01:32:52,750 --> 01:32:48,800

valuable on Easter Island they are

1970

01:32:55,510 --> 01:32:52,760

copies of copies of copies even in the

1971

01:32:59,530 --> 01:32:55,520

19th century when the Easter Islanders

1972

01:33:01,330 --> 01:32:59,540

were questioned as to what these meant

1973

01:33:04,390 --> 01:33:01,340

they pointed to this guy had something

1974

01:33:06,310 --> 01:33:04,400

to do with the sky so the actual tablets

1975

01:33:10,230 --> 01:33:06,320

don't go back to the end of the last ice

1976

01:33:12,410 --> 01:33:10,240

age but just as we don't have a Plato's

1977

01:33:15,290 --> 01:33:12,420

manuscripts going back

1978

01:33:20,209 --> 01:33:15,300

two thousand three hundred four hundred

1979

01:33:23,330 --> 01:33:20,219

years etc we believe these are copies of

1980

01:33:27,080 --> 01:33:23,340

what was going on so it was really Katie

1981

01:33:29,410 --> 01:33:27,090

putting this together with the work

1982

01:33:31,879 --> 01:33:29,420

coming out of Los Alamos with the

1983

01:33:34,310 --> 01:33:31,889

petroglyphs and we had just gone to

1984

01:33:40,149 --> 01:33:34,320

Easter Island that this time this was

1985

01:33:42,770 --> 01:33:40,159

back nine ten years ago that she got me

1986

01:33:45,590 --> 01:33:42,780

considering the Sun and that the Sun is

1987

01:33:48,830 --> 01:33:45,600

not as stable as everyone tends to

1988

01:33:53,359 --> 01:33:48,840

believe it's undergone these major solar

1989

01:33:55,550 --> 01:33:53,369

outbursts micro nove or many Nova's some

1990

01:33:57,350 --> 01:33:55,560

people are referring to and that we

1991

01:34:01,189 --> 01:33:57,360

really had to look at this seriously so

1992

01:34:03,609 --> 01:34:01,199

the rongorongo was actually pivotal and

1993

01:34:07,760 --> 01:34:03,619

interestingly I will say this publicly

1994

01:34:11,750 --> 01:34:07,770

interestingly the Los Alamos team

1995

01:34:14,930 --> 01:34:11,760

members of dr. peratt's

1996

01:34:17,359 --> 01:34:14,940

team have since confirmed to us that

1997

01:34:21,229 --> 01:34:17,369

they discovered the same thing they

1998

01:34:23,780 --> 01:34:21,239

agreed with us with Katie's insight but

1999

01:34:26,390 --> 01:34:23,790

they had not published this in fact this

2000

01:34:28,040 --> 01:34:26,400

is part of the issue because certain

2001

01:34:30,800 --> 01:34:28,050

groups of people not to get into

2002

01:34:33,229 --> 01:34:30,810

conspiracy theories but you know this

2003

01:34:36,890 --> 01:34:33,239

happened in the past this could happen

2004

01:34:38,540 --> 01:34:36,900

again it will happen again so you know

2005

01:34:40,729 --> 01:34:38,550

it's a little scary to some people and I

2006

01:34:45,530 --> 01:34:40,739

don't want to be a scare monger but I'm

2007

01:34:49,129 --> 01:34:45,540

just looking at evidence now is the okay

2008

01:34:51,260 --> 01:34:49,139

all right I want to almost a it well it

2009

01:34:53,450 --> 01:34:51,270

does it doesn't I want to stay on plot

2010

01:34:54,890 --> 01:34:53,460

but there's other stuff too as well I'm

2011

01:35:02,149 --> 01:34:54,900

looking at the clock and you and I do

2012

01:35:04,790 --> 01:35:02,159

this every single time well because the

2013

01:35:08,000 --> 01:35:04,800

peratt confirmation for all of this is

2014

01:35:10,250 --> 01:35:08,010

very very important any need you need

2015

01:35:12,109 --> 01:35:10,260

somebody right a physicist write a

2016

01:35:14,359 --> 01:35:12,119

plasma physicist to come in who's

2017

01:35:17,149 --> 01:35:14,369

already been doing the research to to

2018

01:35:19,310 --> 01:35:17,159

confirm this and and him taking a look

2019

01:35:21,169 --> 01:35:19,320

at the Ron go Ron go and saying hey this

2020

01:35:23,450 --> 01:35:21,179

is exactly what I've been seeing around

2021

01:35:26,240 --> 01:35:23,460

the world too it's nothing but more

2022

01:35:28,220 --> 01:35:26,250

confirmation but that's right

2023

01:35:30,170 --> 01:35:28,230

I want to make a quick point if it's not

2024

01:35:31,610 --> 01:35:30,180

obvious to all the listeners because

2025

01:35:35,540 --> 01:35:31,620

things aren't always obvious until

2026

01:35:38,390 --> 01:35:35,550

hindsight this is definitive of a solar

2027

01:35:40,880 --> 01:35:38,400

outbursts solar activity unusual solar

2028

01:35:43,900 --> 01:35:40,890

activity you don't get things like this

2029

01:35:46,490 --> 01:35:43,910

from a comet or a meteor or asteroid

2030

01:35:48,970 --> 01:35:46,500

hitting us but you do get this from

2031

01:35:52,640 --> 01:35:48,980

solar activity so this is actually quite

2032

01:35:56,630 --> 01:35:52,650

diagnostic of unusual solar activity now

2033

01:35:58,280 --> 01:35:56,640

today the the reporting on this has been

2034

01:36:01,040 --> 01:35:58,290

coming in pretty consistently over the

2035

01:36:03,500 --> 01:36:01,050

last three years and it's starting to

2036

01:36:05,690 --> 01:36:03,510

get for me a little bit alarming and I'm

2037

01:36:08,030 --> 01:36:05,700

talking about the pole shifts and oh

2038

01:36:10,790 --> 01:36:08,040

yeah agentic action that is going on

2039

01:36:14,270 --> 01:36:10,800

right now can you help me understand yes

2040

01:36:16,310 --> 01:36:14,280

well I mean we no one really understands

2041

01:36:19,070 --> 01:36:16,320

what's going on in the terms of the

2042

01:36:23,020 --> 01:36:19,080

geophysics or in astrophysics but what

2043

01:36:26,570 --> 01:36:23,030

we know is that solar activity

2044

01:36:29,990 --> 01:36:26,580

influences geophysical activity so the

2045

01:36:33,200 --> 01:36:30,000

Sun has and the Sun and the dynamics of

2046

01:36:38,270 --> 01:36:33,210

the Sun have incredible effect on our

2047

01:36:41,630 --> 01:36:38,280

magnetosphere and on our magnetic pole

2048

01:36:44,060 --> 01:36:41,640

and also earthquake activity and

2049

01:36:46,730 --> 01:36:44,070

volcanic activity all of this has

2050

01:36:49,250 --> 01:36:46,740

electrical component to it to put it

2051
01:36:49,550 --> 01:36:49,260
very simply in a magnetic component to

2052
01:36:57,110 --> 01:36:49,560
it

2053
01:37:00,290 --> 01:36:57,120
been very dramatically weakening over

2054
01:37:02,960 --> 01:37:00,300
time it's become unstable it's moving a

2055
01:37:07,310 --> 01:37:02,970
lot of people suggest that we may go

2056
01:37:10,010 --> 01:37:07,320
into a magnetic pole reversal in which

2057
01:37:13,610 --> 01:37:10,020
case you know we may lose our magnetic

2058
01:37:15,560 --> 01:37:13,620
field for a short period of time when I

2059
01:37:18,350 --> 01:37:15,570
say short I don't know how long but I'm

2060
01:37:21,230 --> 01:37:18,360
talking geologically short we know from

2061
01:37:24,890 --> 01:37:21,240
the geologic record that the magnetic

2062
01:37:27,260 --> 01:37:24,900
pull of the earth has flipped a number

2063
01:37:30,590 --> 01:37:27,270

of times reversed a number of times gone

2064

01:37:34,580 --> 01:37:30,600

down to zero if we have a weakening

2065

01:37:37,610 --> 01:37:34,590

shield magnetic shield if the pole flips

2066

01:37:39,410 --> 01:37:37,620

if it goes weakens is if it continues to

2067

01:37:41,650 --> 01:37:39,420

weaken as it is now that

2068

01:37:44,450 --> 01:37:41,660

makes us more vulnerable to outside

2069

01:37:47,300 --> 01:37:44,460

radiation well as from outside of the

2070

01:37:49,130 --> 01:37:47,310

earth system more vulnerable to attacks

2071

01:37:50,930 --> 01:37:49,140

by the Sun I don't let's say the Sun

2072

01:37:53,390 --> 01:37:50,940

being bad here but you know if it

2073

01:37:56,660 --> 01:37:53,400

undergoes a solar outburst or when it

2074

01:37:59,900 --> 01:37:56,670

does so this is all becoming quite

2075

01:38:02,709 --> 01:37:59,910

critical and we you and I think I've

2076

01:38:06,979 --> 01:38:02,719

spoken about this before but our

2077

01:38:09,200 --> 01:38:06,989

civilization is so vulnerable to these

2078

01:38:14,270 --> 01:38:09,210

types of events and we're so dependent

2079

01:38:17,900 --> 01:38:14,280

on electronics and GPS systems and all

2080

01:38:22,580 --> 01:38:17,910

this type of thing a communication

2081

01:38:26,240 --> 01:38:22,590

system set even now we are feeling the

2082

01:38:30,470 --> 01:38:26,250

effects of that even minor solar flares

2083

01:38:33,110 --> 01:38:30,480

cause transformers to blow and parts of

2084

01:38:35,990 --> 01:38:33,120

grid systems to go down temporarily or

2085

01:38:39,530 --> 01:38:36,000

for computers to crash and you know some

2086

01:38:42,200 --> 01:38:39,540

Airport no flights can go out you know

2087

01:38:44,689 --> 01:38:42,210

we're just starting to get a sense of

2088

01:38:48,580 --> 01:38:44,699

how how devastating this could be or

2089

01:38:52,580 --> 01:38:48,590

will be to our civilization is it is it

2090

01:38:55,400 --> 01:38:52,590

I was might sound like a fear monger and

2091

01:38:57,530 --> 01:38:55,410

I don't mean to be but we get control be

2092

01:39:00,169 --> 01:38:57,540

realistic we should just close our eyes

2093

01:39:01,880 --> 01:39:00,179

to this no no we can't we can't control

2094

01:39:06,680 --> 01:39:01,890

Gaia we can't control mother nature

2095

01:39:10,610 --> 01:39:06,690

whether it's and soleus the Sun and we

2096

01:39:15,229 --> 01:39:10,620

can't control or our Sun now I was

2097

01:39:18,439 --> 01:39:15,239

reading last week that it has it

2098

01:39:23,570 --> 01:39:18,449

possibly has something to do with the

2099

01:39:26,419 --> 01:39:23,580

flow of molten iron yes and and that

2100

01:39:30,680 --> 01:39:26,429

that flow I'm almost picturing a river

2101
01:39:33,979 --> 01:39:30,690
right as as change directions and right

2102
01:39:37,189 --> 01:39:33,989
now our magnetic pole is like it's

2103
01:39:39,830 --> 01:39:37,199
almost in Siberia now yeah yeah yeah

2104
01:39:42,650 --> 01:39:39,840
it's really changing we may be changing

2105
01:39:44,510 --> 01:39:42,660
directions but that flow that because

2106
01:39:46,700 --> 01:39:44,520
it's flowing it's moving so it's got

2107
01:39:49,160 --> 01:39:46,710
electric and magnetic currents in it

2108
01:39:51,650 --> 01:39:49,170
that is interacting with the rest of the

2109
01:39:53,320 --> 01:39:51,660
solar system the main influencer being

2110
01:39:59,980 --> 01:39:53,330
the

2111
01:40:01,330 --> 01:39:59,990
our solar system is a little I mean you

2112
01:40:04,030 --> 01:40:01,340
and I have talked about things like this

2113
01:40:06,430 --> 01:40:04,040

before a little teeny like a little you

2114

01:40:08,590 --> 01:40:06,440

know just compared to the rest of the

2115

01:40:11,640 --> 01:40:08,600

galaxy much less the universe so you

2116

01:40:13,900 --> 01:40:11,650

there's all these various factors that

2117

01:40:15,370 --> 01:40:13,910

some of which we probably can't even

2118

01:40:20,140 --> 01:40:15,380

imagine at the moment that can be

2119

01:40:23,610 --> 01:40:20,150

influencing us but the Sun is definitely

2120

01:40:28,510 --> 01:40:23,620

a big one and we really don't understand

2121

01:40:31,270 --> 01:40:28,520

we the internal dynamics of the Earth or

2122

01:40:33,520 --> 01:40:31,280

the Sun and you know I'm I don't want to

2123

01:40:37,660 --> 01:40:33,530

sound the wrong way by a PhD in geology

2124

01:40:41,380 --> 01:40:37,670

and geophysics is I'm not agree things

2125

01:40:45,540 --> 01:40:41,390

but I am aware of what we are ignorant

2126

01:40:49,990 --> 01:40:45,550

of is the timing of these events

2127

01:40:52,300 --> 01:40:50,000

consistent there have been people that

2128

01:40:54,570 --> 01:40:52,310

have been looking for cycles in this

2129

01:41:00,130 --> 01:40:54,580

this has actually become very popular in

2130

01:41:02,140 --> 01:41:00,140

recent years and decades and I don't

2131

01:41:02,920 --> 01:41:02,150

want to be too definitive about this

2132

01:41:06,490 --> 01:41:02,930

right now

2133

01:41:10,810 --> 01:41:06,500

but I suspect that there is a cycle of

2134

01:41:13,600 --> 01:41:10,820

about I hate to take the put this way

2135

01:41:16,810 --> 01:41:13,610

but about probably twelve thousand or so

2136

01:41:19,270 --> 01:41:16,820

year if you know what precession is we

2137

01:41:22,180 --> 01:41:19,280

do a processional cycle it's probably on

2138

01:41:24,730 --> 01:41:22,190

a half half processional cycle this

2139

01:41:26,970 --> 01:41:24,740

processional cycle is about 24 to 26

2140

01:41:30,640 --> 01:41:26,980

thousand years we're probably talking

2141

01:41:33,730 --> 01:41:30,650

major incidents like this every half

2142

01:41:36,660 --> 01:41:33,740

processional cycle and there are various

2143

01:41:41,200 --> 01:41:36,670

potential reasons for that with the Sun

2144

01:41:43,750 --> 01:41:41,210

destabilizing re-calibrate equal debris

2145

01:41:47,500 --> 01:41:43,760

aiding again I don't want to be too

2146

01:41:51,450 --> 01:41:47,510

definitive but I know such things but

2147

01:41:55,420 --> 01:41:51,460

we'll probably do right now for another

2148

01:41:57,250 --> 01:41:55,430

we call it solar correction to sort of

2149

01:42:01,090 --> 01:41:57,260

play off the stock market when it

2150

01:42:04,720 --> 01:42:01,100

corrects itself and we have evidence

2151
01:42:06,439 --> 01:42:04,730
very direct evidence from of solar

2152
01:42:08,810 --> 01:42:06,449
activities

2153
01:42:12,279 --> 01:42:08,820
the end of the last ice age up to the

2154
01:42:16,009 --> 01:42:12,289
present the Sun was very unstable

2155
01:42:18,379 --> 01:42:16,019
agitated a lot of solar events major

2156
01:42:20,029 --> 01:42:18,389
flaring that type of thing at the end of

2157
01:42:21,799 --> 01:42:20,039
the last ice age just what we've been

2158
01:42:23,629 --> 01:42:21,809
talking about in major solar outbursts

2159
01:42:27,319 --> 01:42:23,639
of course that end of the last ice age

2160
01:42:31,449 --> 01:42:27,329
it was still fairly unstable although

2161
01:42:34,909 --> 01:42:31,459
calming down for the couple of millennia

2162
01:42:37,520 --> 01:42:34,919
host end of the last ice age then it

2163
01:42:39,709 --> 01:42:37,530

went into a quite stable period for

2164

01:42:42,709 --> 01:42:39,719

thousands of years and that's when

2165

01:42:45,020 --> 01:42:42,719

civilization re-emerged from what Katie

2166

01:42:50,149 --> 01:42:45,030

and I call Siddha are the solar induced

2167

01:42:52,909 --> 01:42:50,159

Dark Age so from 9700 BC to about 3700

2168

01:42:54,439 --> 01:42:52,919

BC I'm using those numbers specifically

2169

01:42:56,299 --> 01:42:54,449

so we have about six thousand year

2170

01:43:00,199 --> 01:42:56,309

period just so people can grasp onto

2171

01:43:02,449 --> 01:43:00,209

that so far about six thousand years we

2172

01:43:04,279 --> 01:43:02,459

had what we call Dark Age or solar

2173

01:43:07,189 --> 01:43:04,289

induced Dark Age because it was brought

2174

01:43:09,859 --> 01:43:07,199

by the Sun bringing down that early

2175

01:43:14,029 --> 01:43:09,869

cycle of civilization then by the fourth

2176
01:43:16,459 --> 01:43:14,039
millennium BC 3700 BC just to use round

2177
01:43:21,620 --> 01:43:16,469
numbers we have a reimburse of

2178
01:43:23,739 --> 01:43:21,630
civilization and Sumer in Egypt in the

2179
01:43:26,479 --> 01:43:23,749
Far East that type of thing and

2180
01:43:27,739 --> 01:43:26,489
civilization flourishes and the next

2181
01:43:31,399 --> 01:43:27,749
thing you know you've got cell phones

2182
01:43:36,259 --> 01:43:31,409
and computers and you and I talking on

2183
01:43:38,540 --> 01:43:36,269
the radio etc etc but what has happened

2184
01:43:41,419 --> 01:43:38,550
in the last hundred years and especially

2185
01:43:44,689 --> 01:43:41,429
the last few decades is the Sun has

2186
01:43:48,889 --> 01:43:44,699
started to destabilize again and we're

2187
01:43:50,989 --> 01:43:48,899
seeing solar activity and inactivity it

2188
01:43:53,149 --> 01:43:50,999

goes both ways it gets very active this

2189

01:43:55,909 --> 01:43:53,159

or goes dormant think it's very active

2190

01:43:58,489 --> 01:43:55,919

again and we're seeing this anomalous

2191

01:44:03,259 --> 01:43:58,499

behavior and the Sun which we haven't

2192

01:44:06,080 --> 01:44:03,269

seen for ever eight ten thousand twelve

2193

01:44:08,959 --> 01:44:06,090

thousand years right yeah no we've never

2194

01:44:12,259 --> 01:44:08,969

seen it in historical times you know the

2195

01:44:14,239 --> 01:44:12,269

Sun had been acting like this for the

2196

01:44:16,779 --> 01:44:14,249

last two hundred years we wouldn't have

2197

01:44:18,649 --> 01:44:16,789

gotten to the point where you've gotten

2198

01:44:20,740 --> 01:44:18,659

technologically because it would have

2199

01:44:25,130 --> 01:44:20,750

knocked us out

2200

01:44:26,960 --> 01:44:25,140

periodically are you suggesting that dr.

2201

01:44:30,890 --> 01:44:26,970

Schaack are you suggesting that through

2202

01:44:34,550 --> 01:44:30,900

ice core samples and sedimented sediment

2203

01:44:38,330 --> 01:44:34,560

layers around the world that every 12

2204

01:44:41,510 --> 01:44:38,340

thousand years that this this evidence

2205

01:44:43,550 --> 01:44:41,520

is there yes yes yes I mean we this

2206

01:44:45,200 --> 01:44:43,560

needs more analysis I always couched

2207

01:44:47,450 --> 01:44:45,210

myself just like we were talking about

2208

01:44:49,190 --> 01:44:47,460

what did you say you were making fun not

2209

01:44:51,830 --> 01:44:49,200

making finally you were you didn't like

2210

01:44:55,580 --> 01:44:51,840

you were becoming my language may sort

2211

01:44:57,860 --> 01:44:55,590

of sort of maybe sort of yeah yeah so I

2212

01:44:59,540 --> 01:44:57,870

mean I don't want to be too definitive

2213

01:45:01,660 --> 01:44:59,550

on this because I still want to look at

2214

01:45:04,100 --> 01:45:01,670
more evidence but it's certainly

2215

01:45:08,000 --> 01:45:04,110
suggestive this way the evidence I'm

2216

01:45:11,090 --> 01:45:08,010
seeing that we have a star which like

2217

01:45:13,550 --> 01:45:11,100
any other star this is our Sun our Sun

2218

01:45:16,340 --> 01:45:13,560
and the Sun can be defined as a star

2219

01:45:19,430 --> 01:45:16,350
with plants around it so we've got a Sun

2220

01:45:22,430 --> 01:45:19,440
that behaves like most other stars

2221

01:45:24,979 --> 01:45:22,440
behave and they're not always perfectly

2222

01:45:28,130 --> 01:45:24,989
stable beautiful and they're this hair

2223

01:45:30,200 --> 01:45:28,140
still lan ball of fire that's unchanging

2224

01:45:32,060 --> 01:45:30,210
and perfect I mean that's what people

2225

01:45:35,720 --> 01:45:32,070
have thought for thousands of years well

2226

01:45:38,570 --> 01:45:35,730

no it's not the case the Sun goes

2227

01:45:41,060 --> 01:45:38,580

through these cycles and I think we may

2228

01:45:42,710 --> 01:45:41,070

be I believe personally based on the

2229

01:45:46,729 --> 01:45:42,720

evidence that we're at the verge of a

2230

01:45:50,590 --> 01:45:46,739

new cycle and it's an it could be cast

2231

01:45:53,210 --> 01:45:50,600

dropping for us on planet Earth today

2232

01:45:54,740 --> 01:45:53,220

something that Katie and I always think

2233

01:45:56,900 --> 01:45:54,750

of when we think about these things I'll

2234

01:45:58,910 --> 01:45:56,910

just throw it out now not only do we

2235

01:46:00,890 --> 01:45:58,920

have all this sophisticated technology

2236

01:46:03,530 --> 01:46:00,900

with GPS and satellites and

2237

01:46:04,310 --> 01:46:03,540

communications we and I think it was a

2238

01:46:07,640 --> 01:46:04,320

big mistake

2239

01:46:11,420 --> 01:46:07,650

personally we have around the world

2240

01:46:15,080 --> 01:46:11,430

nuclear power plants and those will be

2241

01:46:16,970 --> 01:46:15,090

devastated by a solar outburst we saw

2242

01:46:19,910 --> 01:46:16,980

what happens with just a little

2243

01:46:24,700 --> 01:46:19,920

earthquake and whatnot tsunami with

2244

01:46:29,120 --> 01:46:24,710

Fukushima there are there are other

2245

01:46:32,570 --> 01:46:29,130

geologists around the world that are

2246

01:46:33,620 --> 01:46:32,580

coming up with these same ideas and

2247

01:46:35,540 --> 01:46:33,630

research as you

2248

01:46:37,160 --> 01:46:35,550

yes yes when you look start looking at

2249

01:46:39,470 --> 01:46:37,170

things like geophysical research letters

2250

01:46:43,040 --> 01:46:39,480

and whatnot yes it's starting to come

2251
01:46:45,590 --> 01:46:43,050
together now like anything unfortunate

2252
01:46:50,560 --> 01:46:45,600
19 say unfortunately in the sciences a

2253
01:46:55,010 --> 01:46:50,570
lot of people tend to be much more much

2254
01:46:58,100 --> 01:46:55,020
science breeds incredible specialization

2255
01:47:00,280 --> 01:46:58,110
so something that I've always been to a

2256
01:47:02,750 --> 01:47:00,290
certain extent is not only having my own

2257
01:47:04,370 --> 01:47:02,760
specialties but also trying to

2258
01:47:06,650 --> 01:47:04,380
synthesize and look at the bigger

2259
01:47:09,560 --> 01:47:06,660
picture as we're talking about now so a

2260
01:47:12,040 --> 01:47:09,570
lot of it what happens is that you get

2261
01:47:14,420 --> 01:47:12,050
one paper that's talking about

2262
01:47:16,610 --> 01:47:14,430
earthquake anomalies and how they

2263
01:47:19,780 --> 01:47:16,620

correlate with solar flares or solar

2264

01:47:22,850 --> 01:47:19,790

activity another one looking at

2265

01:47:26,150 --> 01:47:22,860

specifically the changing magnetic pole

2266

01:47:27,860 --> 01:47:26,160

another one you know basically talking

2267

01:47:32,420 --> 01:47:27,870

about all the little details we've been

2268

01:47:35,510 --> 01:47:32,430

talking about and part of what I find

2269

01:47:38,870 --> 01:47:35,520

fascinating is synthesizing this all

2270

01:47:41,210 --> 01:47:38,880

together and also realizing in some

2271

01:47:43,040 --> 01:47:41,220

cases it's it's you know you got

2272

01:47:45,230 --> 01:47:43,050

specialists they can look at one little

2273

01:47:48,200 --> 01:47:45,240

piece but they don't put it into the

2274

01:47:51,050 --> 01:47:48,210

bigger picture and I sometimes wonder if

2275

01:47:53,390 --> 01:47:51,060

it's almost too scary to do that and

2276

01:47:56,660 --> 01:47:53,400

what about the the the cross

2277

01:47:59,540 --> 01:47:56,670

pollenization of this with other types

2278

01:48:01,310 --> 01:47:59,550

of research like astrophysicists and

2279

01:48:03,500 --> 01:48:01,320

theoretical physicists that are looking

2280

01:48:09,110 --> 01:48:03,510

at our solar system and and the universe

2281

01:48:11,390 --> 01:48:09,120

are they saying the same binding for

2282

01:48:13,760 --> 01:48:11,400

instance this is very interesting

2283

01:48:16,880 --> 01:48:13,770

we're finding more and more evidence

2284

01:48:19,870 --> 01:48:16,890

that other stars are just like the Sun

2285

01:48:21,800 --> 01:48:19,880

that this other stars they undergo these

2286

01:48:23,210 --> 01:48:21,810

outbursts again

2287

01:48:26,960 --> 01:48:23,220

to use the term that some people are

2288

01:48:30,350 --> 01:48:26,970

using micro nove or many nove and some

2289

01:48:34,310 --> 01:48:30,360

of them are very regular basis as our

2290

01:48:37,000 --> 01:48:34,320

Sun may prove to be so they're not huge

2291

01:48:41,390 --> 01:48:37,010

people used to think in terms of Nova

2292

01:48:43,550 --> 01:48:41,400

Nova star going Nova it destroys all the

2293

01:48:45,890 --> 01:48:43,560

planets in its solar system if there are

2294

01:48:47,270 --> 01:48:45,900

planets going around it just fries them

2295

01:48:49,670 --> 01:48:47,280

completely no we're

2296

01:48:52,520 --> 01:48:49,680

[h__\h] something different where it's

2297

01:48:55,340 --> 01:48:52,530

much more minor from an Astrophysical

2298

01:48:57,470 --> 01:48:55,350

plan view but of course major for

2299

01:49:00,200 --> 01:48:57,480

anything on the planet life on the

2300

01:49:02,870 --> 01:49:00,210

planet so we're finding I think more and

2301
01:49:04,870 --> 01:49:02,880
more evidence astrophysically and if you

2302
01:49:07,490 --> 01:49:04,880
start looking up there's a lot in

2303
01:49:10,270 --> 01:49:07,500
journals about this buried and journals

2304
01:49:13,940 --> 01:49:10,280
about other stars they're doing just

2305
01:49:16,790 --> 01:49:13,950
what I'm talking about for the Sun and

2306
01:49:18,320 --> 01:49:16,800
again to me that as a scientist that's

2307
01:49:20,090 --> 01:49:18,330
sort of comforting that we're not

2308
01:49:24,890 --> 01:49:20,100
talking about something weird and

2309
01:49:28,580 --> 01:49:24,900
extraordinary when you look at the big

2310
01:49:32,390 --> 01:49:28,590
picture more less you know other stars

2311
01:49:34,010 --> 01:49:32,400
out there other planetary systems let's

2312
01:49:36,080 --> 01:49:34,020
take a break right here and let's get

2313
01:49:39,230 --> 01:49:36,090

into a little bit of overtime dr.

2314

01:49:41,450 --> 01:49:39,240

Schaack and I'm going to when I come

2315

01:49:44,420 --> 01:49:41,460

back after the break I'm going to take

2316

01:49:46,700 --> 01:49:44,430

dr. Schaack out of the box and I do this

2317

01:49:48,160 --> 01:49:46,710

every single time he's on the show we'll

2318

01:49:51,140 --> 01:49:48,170

see if I can get him out of the closet

2319

01:49:53,150 --> 01:49:51,150

well this will be number eight Robert if

2320

01:49:54,800 --> 01:49:53,160

you think about it we'll be right back

2321

01:49:58,190 --> 01:49:54,810

we'll be right back after this short

2322

01:49:59,690 --> 01:49:58,200

break our guest dr. Robert M shock this

2323

01:50:03,720 --> 01:49:59,700

is fade to black I'm yours to be Church

2324

01:50:19,680 --> 01:50:17,090

[Music]

2325

01:50:22,560 --> 01:50:19,690

biblical volunteer and you are listening

2326

01:50:25,310 --> 01:50:22,570

to my boy Jimmy Church on Jimmy Church

2327

01:50:32,200 --> 01:50:29,250

this my popular opinion reading a book

2328

01:50:35,120 --> 01:50:32,210

will not make you smarter

2329

01:50:38,200 --> 01:50:35,130

but listening to Jimmy church will

2330

01:50:42,470 --> 01:50:38,210

[Applause]

2331

01:50:44,360 --> 01:50:42,480

hurricanes earthquakes wildfires this

2332

01:50:46,820 --> 01:50:44,370

year we've experienced more than our

2333

01:50:49,130 --> 01:50:46,830

fair share this is Jimmy Church of fade

2334

01:50:51,140 --> 01:50:49,140

to black and last month I decided to

2335

01:50:53,570 --> 01:50:51,150

make sure my family does not have to

2336

01:50:56,720 --> 01:50:53,580

worry about food should we get caught in

2337

01:50:59,150 --> 01:50:56,730

a real emergency situation introducing

2338

01:51:00,830 --> 01:50:59,160

Humana a healthy storable product that

2339

01:51:02,870 --> 01:51:00,840

tastes so good that you'll want to eat

2340

01:51:05,120 --> 01:51:02,880

it every day instead of just during

2341

all right welcome back an amazing

2411
01:54:49,580 --> 01:54:45,370
conversation with dr. Robert M shock

2412
01:54:53,940 --> 01:54:49,590
tonight moving into overtime period and

2413
01:54:58,170 --> 01:54:53,950

this is if you were me if you were I and

2414

01:55:01,590 --> 01:54:58,180

you were sitting with a geologist

2415

01:55:04,740 --> 01:55:01,600

somebody that you know a professor a PhD

2416

01:55:07,200 --> 01:55:04,750

in geology right from a Boston

2417

01:55:10,830 --> 01:55:07,210

University you would ask the questions

2418

01:55:14,040 --> 01:55:10,840

that I am about to ask so Robert let me

2419

01:55:17,550 --> 01:55:14,050

get the thought out and then I want your

2420

01:55:18,810 --> 01:55:17,560

reaction okay and it's and it's this I'm

2421

01:55:24,720 --> 01:55:18,820

gonna get you to come out of the closet

2422

01:55:27,420 --> 01:55:24,730

here we go oh I've been very successful

2423

01:55:32,959 --> 01:55:27,430

with you it's this this is the thought

2424

01:55:35,580 --> 01:55:32,969

if the pyramids were built at 2600 BC

2425

01:55:36,120 --> 01:55:35,590

I'm talking about the plateau right

2426

01:55:39,630 --> 01:55:36,130

there

2427

01:55:41,459 --> 01:55:39,640

we got three pyramids let the the first

2428

01:55:43,950 --> 01:55:41,469

two the two Biggie's

2429

01:55:47,190 --> 01:55:43,960

two and a half million blocks each based

2430

01:55:50,190 --> 01:55:47,200

on that in the peer logistics there and

2431

01:55:53,280 --> 01:55:50,200

the manpower the amount of stones that

2432

01:55:56,160 --> 01:55:53,290

were cut that's one thing but there is

2433

01:56:00,870 --> 01:55:56,170

something missing from the Giza Plateau

2434

01:56:06,300 --> 01:56:00,880

there should be ginormous garbage pits

2435

01:56:10,950 --> 01:56:06,310

full of fish heads full of copper

2436

01:56:14,390 --> 01:56:10,960

chisels full of pigs bones and cow there

2437

01:56:18,209 --> 01:56:14,400

should be garbage there that would be

2438

01:56:21,510 --> 01:56:18,219

astronomical and it's not and the reason

2439

01:56:25,550 --> 01:56:21,520

why I'm concerned about that is that if

2440

01:56:27,930 --> 01:56:25,560

it was at 2600 BC then this debris

2441

01:56:30,240 --> 01:56:27,940

everything that would be involved with

2442

01:56:32,910 --> 01:56:30,250

that kind of manpower would be left

2443

01:56:39,380 --> 01:56:32,920

behind and there as evidence and it's

2444

01:56:41,940 --> 01:56:39,390

not why well I mean you're asking me

2445

01:56:44,940 --> 01:56:41,950

because I think a lot of this goes back

2446

01:56:47,010 --> 01:56:44,950

much earlier this actually ties in with

2447

01:56:48,990 --> 01:56:47,020

what we were talking about before when

2448

01:56:50,890 --> 01:56:49,000

remember we were talking about the

2449

01:56:54,399 --> 01:56:50,900

underground cities right I can

2450

01:56:57,850 --> 01:56:54,409

same point that you would pull out so

2451
01:57:00,250 --> 01:56:57,860
much debris and whatnot building these

2452
01:57:01,870 --> 01:57:00,260
huge underground cities you'd have to

2453
01:57:04,840 --> 01:57:01,880
bring that to the surface you'd have

2454
01:57:07,090 --> 01:57:04,850
huge piles of it that's all dissipated

2455
01:57:09,100 --> 01:57:07,100
away it's all gone to the wind so speak

2456
01:57:11,560 --> 01:57:09,110
it's weathered away what you have at the

2457
01:57:13,720 --> 01:57:11,570
Giza Plateau is a little bit different

2458
01:57:16,240 --> 01:57:13,730
situation and I've actually contended

2459
01:57:18,189 --> 01:57:16,250
this for a long time that many of these

2460
01:57:23,709 --> 01:57:18,199
structures at least their origins I

2461
01:57:25,840 --> 01:57:23,719
don't deny 2600 BC I don't deny that the

2462
01:57:29,110 --> 01:57:25,850
ancient dynastic Egyptians were using

2463
01:57:31,330 --> 01:57:29,120

the plateau that they were carving some

2464

01:57:33,430 --> 01:57:31,340

tombs there even that they were using

2465

01:57:35,709 --> 01:57:33,440

the structures they were repairing the

2466

01:57:37,780 --> 01:57:35,719

structures there's direct evidence of

2467

01:57:40,930 --> 01:57:37,790

that they were repairing the Sphinx they

2468

01:57:43,450 --> 01:57:40,940

recurred the head I'm convinced they

2469

01:57:46,750 --> 01:57:43,460

we're doing things with a great pyramid

2470

01:57:49,030 --> 01:57:46,760

and second pyramid and third pyramid but

2471

01:57:53,380 --> 01:57:49,040

they weren't the originators of all

2472

01:57:55,630 --> 01:57:53,390

these structures and not only do you

2473

01:57:57,520 --> 01:57:55,640

have a situation where any original

2474

01:58:00,550 --> 01:57:57,530

garbage and debris as you were talking

2475

01:58:06,130 --> 01:58:00,560

about would have long wasted away would

2476

01:58:07,630 --> 01:58:06,140

have weathered away disintegrated that

2477

01:58:10,689 --> 01:58:07,640

type of thing but you had all these

2478

01:58:13,209 --> 01:58:10,699

other guys using the plateau and I'm not

2479

01:58:15,160 --> 01:58:13,219

saying they were neat freaks but they

2480

01:58:17,649 --> 01:58:15,170

would have cleaned up some of this they

2481

01:58:20,919 --> 01:58:17,659

probably moved some of it out of the way

2482

01:58:22,899 --> 01:58:20,929

and we actually have a lot of evidence

2483

01:58:27,000 --> 01:58:22,909

that that's exactly what happened so

2484

01:58:30,910 --> 01:58:27,010

I'll give you example the Giza Plateau

2485

01:58:34,709 --> 01:58:30,920

2,000 years ago in ancient Roman times

2486

01:58:37,840 --> 01:58:34,719

was highly venerated it was used people

2487

01:58:41,110 --> 01:58:37,850

visited we know that there were all

2488

01:58:44,110 --> 01:58:41,120

kinds of Roman structure steps and

2489

01:58:45,939 --> 01:58:44,120

pathways that type of thing where are

2490

01:58:48,930 --> 01:58:45,949

they now they were actually all removed

2491

01:58:52,510 --> 01:58:48,940

in the last 2,000 years so it's

2492

01:58:55,080 --> 01:58:52,520

undergone a number of changes and a lot

2493

01:58:57,459 --> 01:58:55,090

of that debris I'm sure was removed

2494

01:59:00,370 --> 01:58:57,469

purposefully when it was being reused

2495

01:59:03,760 --> 01:59:00,380

for other purposes etc besides having

2496

01:59:04,740 --> 01:59:03,770

simply decayed away because the reason

2497

01:59:09,240 --> 01:59:04,750

why I think this is

2498

01:59:13,140 --> 01:59:09,250

such an important point is that your

2499

01:59:16,050 --> 01:59:13,150

classic Egyptologist their argument

2500

01:59:19,130 --> 01:59:16,060

doesn't hold water and one of the other

2501

01:59:23,160 --> 01:59:19,140

things that I pull into play here is

2502

01:59:25,770 --> 01:59:23,170

simply population and when you go and

2503

01:59:28,410 --> 01:59:25,780

you look at the population curve and you

2504

01:59:31,620 --> 01:59:28,420

can find these charts all over the

2505

01:59:35,400 --> 01:59:31,630

internet about how many people lived in

2506

01:59:38,970 --> 01:59:35,410

ancient Egypt at this time every man

2507

01:59:41,550 --> 01:59:38,980

woman and child from the Mediterranean

2508

01:59:46,260 --> 01:59:41,560

to the origins of the Nile going into

2509

01:59:50,100 --> 01:59:46,270

Ethiopia was put to work oh yeah it was

2510

01:59:51,840 --> 01:59:50,110

insane right yeah they were all put to

2511

01:59:53,520 --> 01:59:51,850

work they were all doing this I don't

2512

01:59:56,220 --> 01:59:53,530

know how they got anything else done if

2513

01:59:58,680 --> 01:59:56,230

that was the case I mean it's one of the

2514

02:00:01,860 --> 01:59:58,690

things that they avoid in in this

2515

02:00:03,390 --> 02:00:01,870

conversation you know that's it it

2516

02:00:06,330 --> 02:00:03,400

doesn't really make sense I mean it

2517

02:00:09,570 --> 02:00:06,340

makes a lot more sense I think from a

2518

02:00:12,180 --> 02:00:09,580

logistic point of view that these things

2519

02:00:14,820 --> 02:00:12,190

go back much earlier and frankly they

2520

02:00:17,280 --> 02:00:14,830

they span a longer period of time as far

2521

02:00:20,850 --> 02:00:17,290

as construction and rebuilding that type

2522

02:00:23,040 --> 02:00:20,860

of thing when you go in if you look at

2523

02:00:25,380 --> 02:00:23,050

if this is what I find fascinating right

2524

02:00:27,420 --> 02:00:25,390

you go and you look at a chart of of the

2525

02:00:28,920 --> 02:00:27,430

pyramids from Saqqara all the way to

2526

02:00:30,420 --> 02:00:28,930

Gaza and you look at the amount of

2527

02:00:33,600 --> 02:00:30,430

pyramids and you look at the size of

2528

02:00:35,610 --> 02:00:33,610

them and they're trying to tell you that

2529

02:00:40,940 --> 02:00:35,620

this went down in a hundred fifty years

2530

02:00:42,180 --> 02:00:40,950

right it's like stop with that it's

2531

02:00:45,720 --> 02:00:42,190

impossible

2532

02:00:47,880 --> 02:00:45,730

there wasn't enough people there to do

2533

02:00:50,210 --> 02:00:47,890

this I agree with you

2534

02:00:52,860 --> 02:00:50,220

I'll don't understand that part that's

2535

02:00:55,080 --> 02:00:52,870

plus it's not just what you see on the

2536

02:00:58,050 --> 02:00:55,090

surface but there's a lot under the

2537

02:01:00,510 --> 02:00:58,060

surface and I mean that in a double way

2538

02:01:01,920 --> 02:01:00,520

one there are structures for instance

2539

02:01:03,900 --> 02:01:01,930

I'm convinced that held war in

2540

02:01:08,130 --> 02:01:03,910

particular this is a site that I'd like

2541

02:01:09,630 --> 02:01:08,140

to get into more especially if I could

2542

02:01:11,490 --> 02:01:09,640

do it through or called the organization

2543

02:01:14,220 --> 02:01:11,500

for the research of ancient cultures

2544

02:01:16,680 --> 02:01:14,230

it's one of the projects we'd like to do

2545

02:01:18,359 --> 02:01:16,690

there's evidence of essentially what's

2546

02:01:23,250 --> 02:01:18,369

been called a labyrinth

2547

02:01:25,800 --> 02:01:23,260

outside in the area outside the pyramid

2548

02:01:29,760 --> 02:01:25,810

there but that's that's that's awara

2549

02:01:32,700 --> 02:01:29,770

it's a car for instance there are a huge

2550

02:01:35,939 --> 02:01:32,710

underground not exactly a city but

2551

02:01:40,399 --> 02:01:35,949

underground chambers and whatnot which

2552

02:01:43,620 --> 02:01:40,409

would have been a huge feat to carve out

2553

02:01:46,020 --> 02:01:43,630

independent of the pyramid that you see

2554

02:01:48,780 --> 02:01:46,030

on the surface so there's a lot going on

2555

02:01:50,669 --> 02:01:48,790

and it really boggles the mind and I

2556

02:01:53,129 --> 02:01:50,679

absolutely agree with you it doesn't

2557

02:01:55,470 --> 02:01:53,139

make sense that this all happened within

2558

02:01:57,959 --> 02:01:55,480

a very short period during dynastic

2559

02:02:01,770 --> 02:01:57,969

times it doesn't make any sense and I'm

2560

02:02:04,459 --> 02:02:01,780

just talking about the logistical part

2561

02:02:06,600 --> 02:02:04,469

look we can talk about the amount of

2562

02:02:08,490 --> 02:02:06,610

rocks that were carved we can talk about

2563

02:02:11,580 --> 02:02:08,500

the weight of the red granite that you

2564

02:02:13,140 --> 02:02:11,590

know and traveling 500 miles and how did

2565

02:02:16,109 --> 02:02:13,150

they pull that well okay all right that

2566

02:02:18,660 --> 02:02:16,119

Aswan we yes I understand all of that

2567

02:02:19,950 --> 02:02:18,670

but for me I just step back and I go

2568

02:02:24,149 --> 02:02:19,960

wait a minute two and a half million

2569

02:02:27,689 --> 02:02:24,159

stones that means copper chisels which

2570

02:02:30,899 --> 02:02:27,699

wouldn't work while you're talking many

2571

02:02:33,839 --> 02:02:30,909

copper chisels per block not one more

2572

02:02:36,839 --> 02:02:33,849

block right now we're talking about a

2573

02:02:39,540 --> 02:02:36,849

huge amount of copper a huge amount of

2574

02:02:42,060 --> 02:02:39,550

what where is everything

2575

02:02:44,339 --> 02:02:42,070

no it just doesn't it doesn't it doesn't

2576

02:02:46,350 --> 02:02:44,349

it doesn't work the logistics don't work

2577

02:02:49,770 --> 02:02:46,360

see this is I think one of the problems

2578

02:02:51,720 --> 02:02:49,780

to the Egyptologists have done a certain

2579

02:02:53,640 --> 02:02:51,730

number of I guess experimental

2580

02:02:56,010 --> 02:02:53,650

archaeology is what we can call it

2581

02:02:58,890 --> 02:02:56,020

that's a term they often use okay so you

2582

02:03:02,160 --> 02:02:58,900

take a copper chisel and you chip out

2583

02:03:04,500 --> 02:03:02,170

one little block and you have to keep re

2584

02:03:07,580 --> 02:03:04,510

honing your copper chisel because it's

2585

02:03:10,379 --> 02:03:07,590

bending on you and what not and then you

2586

02:03:12,209 --> 02:03:10,389

off-camera you cheat and use some power

2587

02:03:14,669 --> 02:03:12,219

tools I mean they really do this they do

2588

02:03:16,680 --> 02:03:14,679

this yes yes yeah yeah and then you know

2589

02:03:19,550 --> 02:03:16,690

lo and behold for a National Geographic

2590

02:03:22,319 --> 02:03:19,560

or whatever special I don't want the old

2591

02:03:24,810 --> 02:03:22,329

National Geographic so maybe it wasn't

2592

02:03:26,729 --> 02:03:24,820

them but whatever they do is special I

2593

02:03:28,470 --> 02:03:26,739

know they show how they did it with

2594

02:03:30,450 --> 02:03:28,480

ancient tools well why have they really

2595

02:03:31,810 --> 02:03:30,460

done they've cut out couple blocks

2596

02:03:34,030 --> 02:03:31,820

they've cheated a little bit

2597

02:03:37,750 --> 02:03:34,040

on the side it doesn't really

2598

02:03:39,819 --> 02:03:37,760

demonstrate anything and especially not

2599

02:03:43,089 --> 02:03:39,829

when you scaled up to what really

2600

02:03:44,620 --> 02:03:43,099

happened in ancient times and you look

2601
02:03:46,689 --> 02:03:44,630
at the real structures

2602
02:03:49,870 --> 02:03:46,699
yeah billions of blocks as you say to

2603
02:03:52,990 --> 02:03:49,880
the logistics don't work no and and I

2604
02:03:56,069 --> 02:03:53,000
know I'm being a little juvenile here

2605
02:03:59,200 --> 02:03:56,079
and how I'm trying to present this but

2606
02:04:05,430 --> 02:03:59,210
the point it makes the point yes because

2607
02:04:10,540 --> 02:04:08,020
situation where you've got cameras

2608
02:04:13,689 --> 02:04:10,550
rolling and you are demonstrating that

2609
02:04:18,459 --> 02:04:13,699
it takes a day to carve one of these

2610
02:04:20,560 --> 02:04:18,469
blocks right that that tips everything

2611
02:04:23,649 --> 02:04:20,570
over it doesn't make any sense because

2612
02:04:26,830 --> 02:04:23,659
this is supposed to be 25 years in a

2613
02:04:30,899 --> 02:04:26,840

period where these blocks were quarried

2614

02:04:35,830 --> 02:04:30,909

and placed every two and a half minutes

2615

02:04:40,080 --> 02:04:35,840

every stonemason and specialist in such

2616

02:04:43,270 --> 02:04:40,090

things that I've ever interacted with

2617

02:04:45,459 --> 02:04:43,280

they some of the cases those they serve

2618

02:04:47,260 --> 02:04:45,469

tried to support the standard standard

2619

02:04:50,080 --> 02:04:47,270

story and they say oh yeah I could do

2620

02:04:51,609 --> 02:04:50,090

that etc etc but then when you talk to

2621

02:04:53,350 --> 02:04:51,619

them further about how long it would

2622

02:04:56,379 --> 02:04:53,360

take them to do it how much it would

2623

02:04:58,930 --> 02:04:56,389

cost in modern money and also what tools

2624

02:05:00,819 --> 02:04:58,940

they're using etc and you put it

2625

02:05:03,970 --> 02:05:00,829

together I come to the same conclusion

2626

02:05:06,310 --> 02:05:03,980

that you're driving at it doesn't really

2627

02:05:08,770 --> 02:05:06,320

make sense to extrapolate this back into

2628

02:05:11,290 --> 02:05:08,780

dynastic times and say that they did it

2629

02:05:14,109 --> 02:05:11,300

now when are we gonna get so did that

2630

02:05:16,870 --> 02:05:14,119

the way the standard Egyptologists and

2631

02:05:21,910 --> 02:05:16,880

historians claim now when are we going

2632

02:05:24,970 --> 02:05:21,920

to get to the bottom of the the library

2633

02:05:27,760 --> 02:05:24,980

the chamber of secrets underneath this

2634

02:05:29,800 --> 02:05:27,770

is very very important that's under this

2635

02:05:31,899 --> 02:05:29,810

you're going back in time for me

2636

02:05:35,109 --> 02:05:31,909

personally but also forward in time

2637

02:05:37,510 --> 02:05:35,119

because there is that chamber under the

2638

02:05:40,359 --> 02:05:37,520

left paw the Sphinx that Thomas de Becky

2639

02:05:44,169 --> 02:05:40,369

and I found with geophysical techniques

2640

02:05:46,060 --> 02:05:44,179

back in the early 1990s

2641

02:05:49,569 --> 02:05:46,070

you know the Egyptian authorities have

2642

02:05:52,029 --> 02:05:49,579

wanted to sort of squelch this and what

2643

02:05:54,100 --> 02:05:52,039

not to my knowledge yes there's lots of

2644

02:05:56,439 --> 02:05:54,110

rumors people argue that well maybe

2645

02:05:58,569 --> 02:05:56,449

they've already gone into it I don't see

2646

02:06:01,119 --> 02:05:58,579

a good evidence of that but it is there

2647

02:06:03,429 --> 02:06:01,129

and as you know we have the textual

2648

02:06:06,250 --> 02:06:03,439

evidence now with method being The

2649

02:06:09,669 --> 02:06:06,260

Guardian met hit she was a lioness that

2650

02:06:12,129 --> 02:06:09,679

was the original incarnation the

2651
02:06:14,649 --> 02:06:12,139
original version of the Sphinx guarding

2652
02:06:18,029 --> 02:06:14,659
the archive underneath her under the

2653
02:06:21,819 --> 02:06:18,039
left paw so I am doing everything I can

2654
02:06:26,770 --> 02:06:21,829
working a way to raise money and get

2655
02:06:28,419 --> 02:06:26,780
permission to explore that further let

2656
02:06:33,509 --> 02:06:28,429
me put it that way

2657
02:06:37,929 --> 02:06:33,519
and this will be a major I think a major

2658
02:06:39,850 --> 02:06:37,939
discovery potentially when we get

2659
02:06:42,189 --> 02:06:39,860
finally get in and we don't know what's

2660
02:06:46,119 --> 02:06:42,199
going to be in there but I think it

2661
02:06:49,979 --> 02:06:46,129
could be incredibly significant to Jo so

2662
02:06:53,649 --> 02:06:49,989
it's going to take money and cooperation

2663
02:06:56,199 --> 02:06:53,659

does the government does the government

2664

02:06:57,850 --> 02:06:56,209

there know that there was something

2665

02:07:00,639 --> 02:06:57,860

underneath the Sphinx I mean do they

2666

02:07:04,509 --> 02:07:00,649

know absolutely they I had I turned over

2667

02:07:07,419 --> 02:07:04,519

all the raw data etc to the Egyptian

2668

02:07:12,369 --> 02:07:07,429

government they're aware of the raw data

2669

02:07:14,589 --> 02:07:12,379

spoken with authorities there some of

2670

02:07:16,359 --> 02:07:14,599

them have you knows I Hawass we don't

2671

02:07:18,069 --> 02:07:16,369

need to get into him now he's denied

2672

02:07:20,919 --> 02:07:18,079

that there's anything there even though

2673

02:07:23,949 --> 02:07:20,929

he had all the raw data but times

2674

02:07:27,339 --> 02:07:23,959

changed different people are now in the

2675

02:07:30,609 --> 02:07:27,349

top positions and I think there's a new

2676
02:07:33,939 --> 02:07:30,619
openness and willingness potentially to

2677
02:07:35,739 --> 02:07:33,949
explore further and so I'm very I want

2678
02:07:38,199 --> 02:07:35,749
to stay very positive very hopeful that

2679
02:07:43,649 --> 02:07:38,209
we'll have a chance to explore the

2680
02:07:45,939 --> 02:07:43,659
chamber and the the Grand Museum is

2681
02:07:48,310 --> 02:07:45,949
waiting for this and I thought it was

2682
02:07:51,009 --> 02:07:48,320
going to be open last November

2683
02:07:53,830 --> 02:07:51,019
yeah it's supposed I'm told that it may

2684
02:07:55,899 --> 02:07:53,840
be open this summer and part of the

2685
02:07:57,769 --> 02:07:55,909
question is it so for those that don't

2686
02:08:01,639 --> 02:07:57,779
know it's the

2687
02:08:03,799 --> 02:08:01,649
new multi Multi multi I don't know how

2688
02:08:07,449 --> 02:08:03,809

many tens of millions of dollars museum

2689

02:08:10,369 --> 02:08:07,459

that they're building to house all the

2690

02:08:14,149 --> 02:08:10,379

well not all of them but you know the

2691

02:08:18,829 --> 02:08:14,159

major antiquities the beautiful statuary

2692

02:08:21,199 --> 02:08:18,839

etc that is now currently in the Old

2693

02:08:22,849 --> 02:08:21,209

Cairo Museum the Egyptian Museum in

2694

02:08:26,629 --> 02:08:22,859

Cairo which is a beautiful building a

2695

02:08:28,999 --> 02:08:26,639

self that goes back to what late 1800s

2696

02:08:31,879 --> 02:08:29,009

Early 1900s somewhere around there turn

2697

02:08:34,729 --> 02:08:31,889

of that century but it's you know it's

2698

02:08:37,189 --> 02:08:34,739

olds or Victorian style to put it

2699

02:08:41,059 --> 02:08:37,199

crudely and they are building this

2700

02:08:44,269 --> 02:08:41,069

beautiful new modern museum

2701

02:08:46,639 --> 02:08:44,279

state-of-the-art Katie and I had the

2702

02:08:48,439 --> 02:08:46,649

opportunity to speak with the director

2703

02:08:51,289 --> 02:08:48,449

at length when we were there on one of

2704

02:08:54,409 --> 02:08:51,299

our trips to Egypt he showed us parts of

2705

02:08:56,389 --> 02:08:54,419

it that have been completed something

2706

02:08:59,479 --> 02:08:56,399

that they did which makes a lot of sense

2707

02:09:03,979 --> 02:08:59,489

as they completed their conservation

2708

02:09:07,039 --> 02:09:03,989

restoration portions first so that they

2709

02:09:09,769 --> 02:09:07,049

can conserve and protect the antiquities

2710

02:09:13,459 --> 02:09:09,779

before they put them on display it's

2711

02:09:14,929 --> 02:09:13,469

going to look out to the Giza Plateau so

2712

02:09:17,029 --> 02:09:14,939

there'll be essentially like a big

2713

02:09:18,499 --> 02:09:17,039

window on one part of the museum where

2714

02:09:21,769 --> 02:09:18,509

you can actually look out and see the

2715

02:09:24,909 --> 02:09:21,779

pyramids not that's that close to it's

2716

02:09:28,129 --> 02:09:24,919

not going to obscure the plateau and

2717

02:09:33,199 --> 02:09:28,139

it's pretty good it's pretty close I'm

2718

02:09:35,209 --> 02:09:33,209

looking through the windows what I'm

2719

02:09:36,739 --> 02:09:35,219

saying is that I don't think you can see

2720

02:09:38,359 --> 02:09:36,749

when you're on the plateau it's not like

2721

02:09:40,519 --> 02:09:38,369

all of a sudden this big building is

2722

02:09:43,219 --> 02:09:40,529

looming and now making the pyramids look

2723

02:09:44,929 --> 02:09:43,229

bad I thought that was my point right I

2724

02:09:46,879 --> 02:09:44,939

I think they're doing a very good job

2725

02:09:49,669 --> 02:09:46,889

with it it's incredible what they're

2726

02:09:52,189 --> 02:09:49,679

doing and very well designed is it's

2727

02:09:54,949 --> 02:09:52,199

it's going to be gorgeous I believe and

2728

02:09:57,439 --> 02:09:54,959

something that the director said to us

2729

02:10:00,469 --> 02:09:57,449

is this not just for tourists in fact

2730

02:10:02,269 --> 02:10:00,479

it's not even primarily for tourists yes

2731

02:10:04,129 --> 02:10:02,279

of course they like tourists and they're

2732

02:10:06,979 --> 02:10:04,139

very proud of their country and the

2733

02:10:09,379 --> 02:10:06,989

scheme of the world but he also

2734

02:10:11,339 --> 02:10:09,389

impressed to us that he wants it for the

2735

02:10:13,260 --> 02:10:11,349

Egyptian people to understand there

2736

02:10:17,700 --> 02:10:13,270

heritage and to appreciate their own

2737

02:10:20,729 --> 02:10:17,710

heritage which i think is wonderful 750

2738

02:10:23,609 --> 02:10:20,739

million dollars spent so far and they're

2739

02:10:27,089 --> 02:10:23,619

like seven hundred seven hundred and

2740

02:10:29,100 --> 02:10:27,099

fifty million dollars okay that makes

2741

02:10:31,790 --> 02:10:29,110

sense that I believe that yeah I didn't

2742

02:10:34,589 --> 02:10:31,800

realize it was quite that high already

2743

02:10:36,780 --> 02:10:34,599

they're playing logged into this I heard

2744

02:10:38,550 --> 02:10:36,790

some numbers last week I was watching a

2745

02:10:43,280 --> 02:10:38,560

documentary and the construction and

2746

02:10:45,750 --> 02:10:43,290

they are actually comfortable in saying

2747

02:10:47,910 --> 02:10:45,760

1.1 billion when it's all said and done

2748

02:10:51,689 --> 02:10:47,920

yeah that makes sense that makes sense

2749

02:10:54,660 --> 02:10:51,699

that makes sense actually and that's a

2750

02:10:55,890 --> 02:10:54,670

lot of money especially in Egypt it's

2751

02:11:02,910 --> 02:10:55,900

it's huge

2752

02:11:06,120 --> 02:11:02,920

it's well worth it they're there it's

2753

02:11:08,490 --> 02:11:06,130

you know it's there's what can you say

2754

02:11:11,069 --> 02:11:08,500

it's Egypt and they have some of the

2755

02:11:14,220 --> 02:11:11,079

most incredible antiquities and it makes

2756

02:11:16,830 --> 02:11:14,230

sense in my opinion to conserve them

2757

02:11:20,000 --> 02:11:16,840

properly to preserve them properly and

2758

02:11:24,270 --> 02:11:20,010

to display them in the best way possible

2759

02:11:27,060 --> 02:11:24,280

so what's up next for you not only for

2760

02:11:30,560 --> 02:11:27,070

research in your trips but everything

2761

02:11:34,260 --> 02:11:30,570

else what what's what's on the horizon

2762

02:11:36,330 --> 02:11:34,270

well the research continues the trips

2763

02:11:38,580 --> 02:11:36,340

continue but that ties in with the

2764

02:11:40,709 --> 02:11:38,590

research and something we mentioned this

2765

02:11:43,919 --> 02:11:40,719

very briefly that I'm very excited about

2766

02:11:46,530 --> 02:11:43,929

is doing a documentary with Jim fields

2767

02:11:49,200 --> 02:11:46,540

and we hope to start shooting part of

2768

02:11:52,229 --> 02:11:49,210

that at least preliminarily in Egypt

2769

02:11:54,780 --> 02:11:52,239

this summer and this is being done with

2770

02:11:58,609 --> 02:11:54,790

the organization for the research of

2771

02:12:02,760 --> 02:11:58,619

ancient cultures which is a non-profit

2772

02:12:07,410 --> 02:12:02,770

you know fully government-approved

2773

02:12:11,250 --> 02:12:07,420

should we say nonprofit organization

2774

02:12:12,689 --> 02:12:11,260

that I am a founding member of but other

2775

02:12:14,339 --> 02:12:12,699

people of course are involved and we

2776

02:12:16,530 --> 02:12:14,349

have a board of directors that type of

2777

02:12:19,649 --> 02:12:16,540

thing but we're going to do this

2778

02:12:22,379 --> 02:12:19,659

documentary we hope and we also want to

2779

02:12:24,120 --> 02:12:22,389

raise money for research including some

2780

02:12:27,720 --> 02:12:24,130

of the projects we've been talking about

2781

02:12:29,640 --> 02:12:27,730

during the conversation today so I hope

2782

02:12:32,130 --> 02:12:29,650

that I know you have always links from

2783

02:12:34,880 --> 02:12:32,140

your website but I hope that people will

2784

02:12:39,830 --> 02:12:34,890

go to my website Robert Schoch comm and

2785

02:12:42,720 --> 02:12:39,840

look at the links look at the really

2786

02:12:44,580 --> 02:12:42,730

they can get information there as to

2787

02:12:46,710 --> 02:12:44,590

what's going on and the latest

2788

02:12:49,110 --> 02:12:46,720

developments and there's links to Oracle

2789

02:12:51,030 --> 02:12:49,120

in the projects so I'm excited about all

2790

02:12:53,190 --> 02:12:51,040

this and look I think we have a very

2791

02:12:54,870 --> 02:12:53,200

bright future no you're gonna be we're

2792

02:12:59,790 --> 02:12:54,880

gonna see you next month and I'm very

2793

02:13:01,170 --> 02:12:59,800

excited about this you in conscious life

2794

02:13:05,070 --> 02:13:01,180

Expo what are you going to be speaking

2795

02:13:08,820 --> 02:13:05,080

about this time around well I have to

2796

02:13:11,070 --> 02:13:08,830

think about that don't I think I

2797

02:13:12,060 --> 02:13:11,080

actually I'll probably I think some of

2798

02:13:14,070 --> 02:13:12,070

the things we've been talking about

2799

02:13:17,310 --> 02:13:14,080

during this conversation to elaborate on

2800

02:13:20,670 --> 02:13:17,320

that I'll come back to Egypt and Turkey

2801

02:13:22,800 --> 02:13:20,680

and really I think probably what I'll

2802

02:13:26,520 --> 02:13:22,810

focus on is the end of the last ice age

2803

02:13:30,150 --> 02:13:26,530

and all the new evidence as accumulating

2804

02:13:32,310 --> 02:13:30,160

for incredibly sophisticated cultures

2805

02:13:34,230 --> 02:13:32,320

and civilizations around the world but

2806

02:13:37,140 --> 02:13:34,240

also the warning of you know what

2807

02:13:40,410 --> 02:13:37,150

happened to them and how we need to

2808

02:13:43,140 --> 02:13:40,420

learn from that well safe travels coming

2809

02:13:45,150 --> 02:13:43,150

out here and the links for Roberts

2810

02:13:49,170 --> 02:13:45,160

website are right there at Jimmy Torrio

2811

02:13:52,500 --> 02:13:49,180

comm do go and check out Oracle I dunno

2812

02:13:54,600 --> 02:13:52,510

I believe you're Egypt tours your two

2813

02:13:57,000 --> 02:13:54,610

trips out those are both sold out those

2814

02:13:59,130 --> 02:13:57,010

are both sold out at the moment but what

2815

02:14:01,530 --> 02:13:59,140

I would do is encourage people to get my

2816

02:14:03,180 --> 02:14:01,540

personal mailing list so when you go to

2817

02:14:06,690 --> 02:14:03,190

Robert Schoch and everyone should know

2818

02:14:09,930 --> 02:14:06,700

how spell my name s CH och Robert Schoch

2819

02:14:12,330 --> 02:14:09,940

comm you can sign up for my personal

2820

02:14:14,520 --> 02:14:12,340

mailing list go to the contact page and

2821

02:14:17,520 --> 02:14:14,530

they'll give you information but also go

2822

02:14:20,220 --> 02:14:17,530

to Oracle's website and there's a link

2823

02:14:23,550 --> 02:14:20,230

from my website and get put on the

2824

02:14:27,930 --> 02:14:23,560

oracle mailing list because even though

2825

02:14:30,570 --> 02:14:27,940

the current egypt trips are sold out the

2826

02:14:33,870 --> 02:14:30,580

board of directors of oracle has already

2827

02:14:35,970 --> 02:14:33,880

been discussing possibility of future

2828

02:14:38,100 --> 02:14:35,980

trips not this year but in coming years

2829

02:14:40,950 --> 02:14:38,110

and not only to egypt

2830

02:14:42,600 --> 02:14:40,960

the other places as well so because

2831

02:14:46,290 --> 02:14:42,610

that's part of the educational mission

2832

02:14:48,750 --> 02:14:46,300

of Oracle to take people to some of

2833

02:14:50,340 --> 02:14:48,760

these sites because there's yeah you can

2834

02:14:54,660 --> 02:14:50,350

read about them all you want you can

2835

02:14:58,440 --> 02:14:54,670

look at YouTube videos and documentary

2836

02:15:01,320 --> 02:14:58,450

specials etc but there is really nothing

2837

02:15:04,170 --> 02:15:01,330

like going to see them for yourself and

2838

02:15:06,330 --> 02:15:04,180

experience in them no I don't for

2839

02:15:08,790 --> 02:15:06,340

yourself so I'm not criticizing you

2840

02:15:10,650 --> 02:15:08,800

Jimmy I know you're with me sometimes

2841

02:15:13,830 --> 02:15:10,660

this is the thing I'm just saying for

2842

02:15:16,830 --> 02:15:13,840

the general person if they can make it

2843

02:15:19,710 --> 02:15:16,840

work for them it's great to visit the

2844

02:15:22,110 --> 02:15:19,720

sites now not everyone can for various

2845

02:15:24,600 --> 02:15:22,120

reasons whether it's personal or

2846

02:15:26,670 --> 02:15:24,610

financial or whatnot I understand that

2847

02:15:29,700 --> 02:15:26,680

so you know I'm not criticizing anyone

2848

02:15:32,790 --> 02:15:29,710

but if people have a chance it's always

2849

02:15:34,500 --> 02:15:32,800

fun to do yeah I don't know of course

2850

02:15:36,330 --> 02:15:34,510

there's the King's Chamber and there's

2851

02:15:39,810 --> 02:15:36,340

Kisa and that and the and the Great

2852

02:15:41,790 --> 02:15:39,820

Sphinx but getting off of the plateau I

2853

02:15:44,760 --> 02:15:41,800

don't know

2854

02:15:48,630 --> 02:15:44,770

and Luxor and I get all of that but for

2855

02:15:51,420 --> 02:15:48,640

me at well this era p.m. of course but I

2856

02:15:59,460 --> 02:15:51,430

think I want to go to Ed foo you know

2857

02:16:03,480 --> 02:15:59,470

it's incredible right right there is so

2858

02:16:05,340 --> 02:16:03,490

much in Egypt so much in Egypt so if

2859

02:16:07,430 --> 02:16:05,350

people have a chance but you know the

2860

02:16:10,980 --> 02:16:07,440

second best thing it is really

2861

02:16:13,860 --> 02:16:10,990

incredible what we can do now with

2862

02:16:16,740 --> 02:16:13,870

modern technology of people get a good

2863

02:16:19,140 --> 02:16:16,750

sense of it from videos and that type of

2864

02:16:21,000 --> 02:16:19,150

thing and I've had people that travel

2865

02:16:22,590 --> 02:16:21,010

with me and they've watched a log videos

2866

02:16:25,290 --> 02:16:22,600

and whatnot and actually I encourage

2867

02:16:27,960 --> 02:16:25,300

people to do that whether they can or

2868

02:16:29,870 --> 02:16:27,970

can whether they can travel to Egypt or

2869

02:16:33,120 --> 02:16:29,880

not because those that can't of course

2870

02:16:35,610 --> 02:16:33,130

that is the next best substitute but

2871

02:16:37,500 --> 02:16:35,620

those that do travel for instance with

2872

02:16:40,260 --> 02:16:37,510

me or whatever

2873

Erich von däniken George Noory it's a

2909

02:18:16,980 --> 02:18:15,220

it's a full weekend of events you're

2910

02:18:19,110 --> 02:18:16,990

gonna want to go and check it out right

2911

02:18:21,570 --> 02:18:19,120

now now I mentioned earlier at the front

2912

02:18:23,730 --> 02:18:21,580

of the show before I get out of here one

2913

02:18:26,280 --> 02:18:23,740

of the things that I am going to present

2914

02:18:28,500 --> 02:18:26,290

tomorrow there are two things I'm gonna

2915

02:18:33,660 --> 02:18:28,510

set up for fate or night one of them is

2916

02:18:36,210 --> 02:18:33,670

CERN and their plans right now for a new

2917

02:18:39,690 --> 02:18:36,220

Collider and the current one which is

2918

02:18:42,750 --> 02:18:39,700

the largest thing that was built on

2919

02:18:45,630 --> 02:18:42,760

planet Earth that it it you think about

2920

02:18:48,060 --> 02:18:45,640

the engineering that goes behind it and

2921

02:18:50,940 --> 02:18:48,070

what they are doing with it it's it's

2922

02:18:54,541 --> 02:18:50,950

the design and the implementation of the

2923

02:18:57,600 --> 02:18:54,551

LHC it is incredibly huge the most

2924

02:19:01,680 --> 02:18:57,610

complex crazy thing that humans have

2925

02:19:06,300 --> 02:19:01,690

ever built they are going to take that

2926

02:19:08,610 --> 02:19:06,310

a hundred now think about that now I'm

2927

02:19:11,160 --> 02:19:08,620

gonna go over all of that tomorrow and

2928

02:19:16,770 --> 02:19:11,170

the other thing that I am going to lay

2929

02:19:21,000 --> 02:19:16,780

out for you tomorrow is how much data do

2930

02:19:24,900 --> 02:19:21,010

you create every single day how much

2931

02:19:27,150 --> 02:19:24,910

data do you create not the data that you

2932

02:19:29,910 --> 02:19:27,160

might be thinking about let you know

2933

02:19:31,709 --> 02:19:29,920

like writing the annual report for your

2934

02:19:34,709 --> 02:19:31,719

brokerage firm right I'm not talking

2935

02:19:37,830 --> 02:19:34,719

about that I'm talking about data that

2936

02:19:40,950 --> 02:19:37,840

is created by you automatically and you

2937

02:19:44,340 --> 02:19:40,960

don't even know about it right that kind

2938

02:19:47,220 --> 02:19:44,350

of data do you have any idea about this

2939

02:19:49,170 --> 02:19:47,230

well you probably don't so tomorrow I'm

2940

02:19:53,850 --> 02:19:49,180

gonna help you understand all of this

2941

02:19:56,190 --> 02:19:53,860

because first there is your cell phone a

2942

02:20:00,381 --> 02:19:56,200

smartphone there's your tablet there's

2943

02:20:04,230 --> 02:20:00,391

your laptop there is your car and and

2944

02:20:09,150 --> 02:20:04,240

Google and with Google that means Chrome

2945

02:20:13,290 --> 02:20:09,160

that means Android and data is you

2946

02:20:16,620 --> 02:20:13,300

create data every second of the day and

2947

02:20:19,230 --> 02:20:16,630

you don't have any idea about how much

2948

02:20:21,600 --> 02:20:19,240

data is actually collected so tomorrow

2949

02:20:23,250 --> 02:20:21,610

I'm gonna give you the full report I'm

2950

02:20:25,110 --> 02:20:23,260

gonna tell you how much data I'm gonna

2951
02:20:28,650 --> 02:20:25,120
tell you where it's going I'm gonna tell

2952
02:20:31,801 --> 02:20:28,660
you what kind of data and how much that

2953
02:20:35,430 --> 02:20:31,811
is collected in a 24-hour period

2954
02:20:37,650 --> 02:20:35,440
it is unbelievable so I'm going to set

2955
02:20:40,110 --> 02:20:37,660
that up for tomorrow night for Fator

2956
02:20:42,240 --> 02:20:40,120
night and we will discuss this it's a

2957
02:20:44,761 --> 02:20:42,250
it's a very important report that

2958
02:20:48,690 --> 02:20:44,771
combined with CERN and throw all of that

2959
02:20:50,310 --> 02:20:48,700
into one big pile and add on your phone

2960
02:20:52,200 --> 02:20:50,320
calls so that's what's going to go down

2961
02:20:54,091 --> 02:20:52,210
tomorrow night fate or night with that I

2962
02:20:57,091 --> 02:20:54,101
want to thank dr. Robert Emms shark for

2963
02:20:59,540 --> 02:20:57,101

another great conversation and of course

2964

02:21:02,761 --> 02:20:59,550

I've got to get out of here because

2965

02:21:04,650 --> 02:21:02,771

there is food at my house right now
