2
00:00:21,109 --> 00:00:18,390

all right welcome back fade to black

3
00:00:22,710 --> 00:00:21,119

dane wiggington is here

4
00:00:25,109 --> 00:00:22,720

excited

5
00:00:26,870 --> 00:00:25,119

tomorrow night sonia grace wednesday

6
00:00:29,509 --> 00:00:26,880

night director

7
00:00:31,990 --> 00:00:29,519

researcher james fox is here thursday

8
00:00:34,549 --> 00:00:32,000

night is fader night open lines all

9
00:00:36,950 --> 00:00:34,559

night long but tonight is day

10
00:00:39,110 --> 00:00:36,960

with a background in solar energy former

11
00:00:40,310 --> 00:00:39,120

employee of bechtel power corporation

12
00:00:41,270 --> 00:00:40,320

and as a

13
00:00:45,990 --> 00:00:41,280

lion

14

00:00:47,120 --> 00:00:46,000

licensed contractor in california and

15

00:00:48,470 --> 00:00:47,130

arizona

16

00:00:51,389 --> 00:00:48,480

[Music]

17

00:00:53,350 --> 00:00:51,399

he's the lead researcher for

18

00:00:55,430 --> 00:00:53,360

geoengineeringwatch.org i spent my

19

00:00:57,830 --> 00:00:55,440

weekend over there it's such a great

20

00:00:59,990 --> 00:00:57,840

website and has investigated all levels

21

00:01:03,270 --> 00:01:00,000

of geoengineering from stratospheric

22

00:01:06,390 --> 00:01:03,280

aerosol geoengineering sag to solar

23

00:01:08,950 --> 00:01:06,400

radiation management srm to ionosphere

24

00:01:10,630 --> 00:01:08,960

heater facilities like harp dane has

25

00:01:13,030 --> 00:01:10,640

appeared in numerous films radio

26

00:01:15,030 --> 00:01:13,040

interviews in an effort to educate the

27

00:01:17,590 --> 00:01:15,040

public on the extremely dire

28

00:01:19,910 --> 00:01:17,600

environmental and health dangers we face

29

00:01:22,390 --> 00:01:19,920

from the ongoing global climate

30

00:01:23,910 --> 00:01:22,400

intervention programs he lives right

31

00:01:25,590 --> 00:01:23,920

here in california and i would like to

32

00:01:28,789 --> 00:01:25,600

welcome back to fade to black dane

33

00:01:31,590 --> 00:01:28,799

wiggington dane good evening how are you

34

00:01:32,630 --> 00:01:31,600

hear me okay uh a little louder but uh

35

00:01:35,190 --> 00:01:32,640

yeah

36

00:01:36,310 --> 00:01:35,200

okay sorry we're having

37

00:01:39,350 --> 00:01:36,320

an

38

00:01:41,510 --> 00:01:39,360

unusual situation on this end

39

00:01:42,950 --> 00:01:41,520

we haven't had before so i hope that's

40

00:01:44,789 --> 00:01:42,960

hope you hear me okay i'll try to work

41

00:01:47,109 --> 00:01:44,799

with it as we go yeah it's you're

42

00:01:48,310 --> 00:01:47,119

getting louder so just get closer to the

43

00:01:50,550 --> 00:01:48,320

microphone

44

00:01:51,910 --> 00:01:50,560

how's that right there okay we'll we'll

45

00:01:53,830 --> 00:01:51,920

survive

46

00:01:56,550 --> 00:01:53,840

you know it's called fighting the man

47

00:01:58,870 --> 00:01:56,560

dane fighting the man

48

00:02:00,870 --> 00:01:58,880

you know and you're so used to it but uh

49

00:02:01,749 --> 00:02:00,880

welcome back and

50

00:02:06,550 --> 00:02:01,759

uh

51

00:02:08,710 --> 00:02:06,560

especially right now for me

52

00:02:11,190 --> 00:02:08,720

it couldn't come at a more important

53

00:02:14,390 --> 00:02:11,200

time but but things are

54

00:02:16,470 --> 00:02:14,400

are strange on this planet when i hear

55

00:02:19,430 --> 00:02:16,480

everybody arguing

56

00:02:21,270 --> 00:02:19,440

about climate change uh

57

00:02:23,510 --> 00:02:21,280

climate engineering

58

00:02:24,470 --> 00:02:23,520

and both sides of the fence can't seem

59

00:02:31,910 --> 00:02:24,480

to agree

60

00:02:35,509 --> 00:02:33,830

yeah there's a lot of dichotomous

61

00:02:37,270 --> 00:02:35,519

thinking going on and that needs to go

62

00:02:38,309 --> 00:02:37,280

away because we don't we're not dealing

63

00:02:40,470 --> 00:02:38,319

with the

64

00:02:43,030 --> 00:02:40,480

this or that equation we're dealing with

65

00:02:43,990 --> 00:02:43,040

this and that equation it's important to

66

00:02:46,630 --> 00:02:44,000

remember

67

00:02:49,350 --> 00:02:46,640

anything everything every form of human

68

00:02:50,470 --> 00:02:49,360

activity that affects the energy balance

69

00:02:53,270 --> 00:02:50,480

of the planet

70

00:02:55,030 --> 00:02:53,280

is a form of geo-engineering that being

71

00:02:57,030 --> 00:02:55,040

said the intentional

72

00:02:58,150 --> 00:02:57,040

programs to intervene in earth's climate

73

00:02:59,830 --> 00:02:58,160

systems

74

00:03:01,190 --> 00:02:59,840

is the greatest and most immediate

75

00:03:03,270 --> 00:03:01,200

threat of all

76
00:03:05,350 --> 00:03:03,280
and in the attempt to mask the damage

77
00:03:07,430 --> 00:03:05,360
done to the planet from countless forms

78
00:03:09,030 --> 00:03:07,440
of anthropogenic activity

79
00:03:12,149 --> 00:03:09,040
climate engineering

80
00:03:14,790 --> 00:03:12,159
is radically further fueling the overall

81
00:03:16,790 --> 00:03:14,800
fire on every front it's decimating

82
00:03:18,869 --> 00:03:16,800
every aspect diverse life support system

83
00:03:21,110 --> 00:03:18,879
so i hope people on every side of the

84
00:03:22,630 --> 00:03:21,120
fence can get past dichotomous thinking

85
00:03:24,949 --> 00:03:22,640
understand that it's not a simple

86
00:03:26,390 --> 00:03:24,959
equation there are many factors involved

87
00:03:27,750 --> 00:03:26,400
but all that being said climate

88
00:03:29,670 --> 00:03:27,760

engineering is the biggest hole in the

89

00:03:34,229 --> 00:03:29,680

bottom of the boat jimmy

90

00:03:36,789 --> 00:03:34,239

the uh the debates that are going on uh

91

00:03:38,229 --> 00:03:36,799

dane and i know that you you see and

92

00:03:40,949 --> 00:03:38,239

read this every day and i read your

93

00:03:43,750 --> 00:03:40,959

newsletter uh when you send it out a

94

00:03:47,030 --> 00:03:43,760

couple times a week i'm i'm on top of it

95

00:03:50,869 --> 00:03:47,040

but what i find the most fascinating is

96

00:03:51,910 --> 00:03:50,879

that i everybody can agree

97

00:03:54,630 --> 00:03:51,920

on

98

00:03:55,670 --> 00:03:54,640

or generally that there is something

99

00:03:59,350 --> 00:03:55,680

happening

100

00:04:02,390 --> 00:03:59,360

but nobody can agree on on a scientific

101
00:04:05,350 --> 00:04:02,400
level and on an educated level as to

102
00:04:07,509 --> 00:04:05,360
what is causing it and that's the part

103
00:04:10,309 --> 00:04:07,519
for me i just sit back and go do we have

104
00:04:13,030 --> 00:04:10,319
to argue about this or can't we just

105
00:04:15,110 --> 00:04:13,040
recognize that this is a situation where

106
00:04:17,349 --> 00:04:15,120
we are at the tipping point and we've

107
00:04:19,270 --> 00:04:17,359
got to come up with some solutions isn't

108
00:04:22,150 --> 00:04:19,280
that the most fascinating part about

109
00:04:26,390 --> 00:04:22,160
this where science is an agreement but

110
00:04:29,430 --> 00:04:26,400
yet uh they want to fight about it

111
00:04:31,110 --> 00:04:29,440
regards to academia

112
00:04:33,030 --> 00:04:31,120
the

113
00:04:35,270 --> 00:04:33,040

propensity

114

00:04:36,790 --> 00:04:35,280
to ignore the climate engineering

115

00:04:39,110 --> 00:04:36,800
element of the room

116

00:04:41,110 --> 00:04:39,120
is truly perplexing there can be no

117

00:04:42,629 --> 00:04:41,120
legitimate discussion about the climate

118

00:04:44,469 --> 00:04:42,639
or the state of the climate without

119

00:04:45,830 --> 00:04:44,479
first and foremost addressing climate

120

00:04:47,670 --> 00:04:45,840
engineering

121

00:04:49,909 --> 00:04:47,680
that is not to

122

00:04:51,590 --> 00:04:49,919
negate all other forms of human activity

123

00:04:53,830 --> 00:04:51,600
this is important as well

124

00:04:55,189 --> 00:04:53,840
too many people have tried to convince

125

00:04:56,550 --> 00:04:55,199
themselves

126
00:04:57,909 --> 00:04:56,560
that

127
00:05:01,030 --> 00:04:57,919
paving the planet cutting down the

128
00:05:02,870 --> 00:05:01,040
forest poisoning the oceans is all fine

129
00:05:05,510 --> 00:05:02,880
but that has no effect which is not true

130
00:05:06,550 --> 00:05:05,520
of course it can't it can't not have an

131
00:05:09,189 --> 00:05:06,560
effect

132
00:05:12,070 --> 00:05:09,199
that being said again though climate

133
00:05:14,070 --> 00:05:12,080
engineering's for over 70 years over 70

134
00:05:15,189 --> 00:05:14,080
years the first life support systems

135
00:05:17,189 --> 00:05:15,199
have been intervened with so when you

136
00:05:19,430 --> 00:05:17,199
hear people claim that they've seen

137
00:05:20,870 --> 00:05:19,440
certain scenarios 20 30 40 years ago

138
00:05:23,029 --> 00:05:20,880

maybe they have but that doesn't mean it

139

00:05:24,790 --> 00:05:23,039

was natural because we know that these

140

00:05:27,189 --> 00:05:24,800

programs were deployed at full scale

141

00:05:29,749 --> 00:05:27,199

immediately after world war ii

142

00:05:30,710 --> 00:05:29,759

but the bottom line is it's all of the

143

00:05:32,710 --> 00:05:30,720

above

144

00:05:35,990 --> 00:05:32,720

now climate engineering in particular

145

00:05:38,230 --> 00:05:36,000

has prevented the planet from responding

146

00:05:39,510 --> 00:05:38,240

to the damage done that's critical to

147

00:05:41,189 --> 00:05:39,520

understand

148

00:05:43,749 --> 00:05:41,199

as certain changes take place in the

149

00:05:46,390 --> 00:05:43,759

planet it would naturally try to

150

00:05:48,150 --> 00:05:46,400

compensate or reach another equilibrium

151
00:05:49,830 --> 00:05:48,160
climate engineering has disabled it from

152
00:05:51,670 --> 00:05:49,840
being able to do that this is also

153
00:05:54,629 --> 00:05:51,680
important to understand jimmy when

154
00:05:57,270 --> 00:05:54,639
people talk about first natural cyclical

155
00:05:59,350 --> 00:05:57,280
patterns that does not apply here this

156
00:06:01,270 --> 00:05:59,360
it doesn't apply any more than

157
00:06:02,710 --> 00:06:01,280
uh throwing somebody off a 100-story

158
00:06:04,230 --> 00:06:02,720
building and say hey people die it's

159
00:06:05,270 --> 00:06:04,240
natural no they wouldn't have died right

160
00:06:07,430 --> 00:06:05,280
then if you wouldn't have thrown them

161
00:06:09,110 --> 00:06:07,440
off the building mathematically speaking

162
00:06:12,070 --> 00:06:09,120
the changes happening on our planet are

163
00:06:16,390 --> 00:06:12,080

happening conservatively statistically

164

00:06:18,629 --> 00:06:16,400

mathematically 170 times faster than any

165

00:06:20,870 --> 00:06:18,639

previous paleo event so this is not

166

00:06:23,430 --> 00:06:20,880

natural in any way shape or form with

167

00:06:25,350 --> 00:06:23,440

climate engineering being

168

00:06:28,230 --> 00:06:25,360

the single greatest factor in the

169

00:06:30,710 --> 00:06:28,240

equation but that doesn't mean the only

170

00:06:33,189 --> 00:06:30,720

factor by any means if you have

171

00:06:34,469 --> 00:06:33,199

many slices to a pie you have one slice

172

00:06:36,309 --> 00:06:34,479

that's bigger than the rest but that

173

00:06:38,390 --> 00:06:36,319

doesn't mean the rest don't count so

174

00:06:39,990 --> 00:06:38,400

it's important to frame this correctly

175

00:06:41,909 --> 00:06:40,000

and important for people to understand

176
00:06:43,909 --> 00:06:41,919
it's not a simple equation we have not

177
00:06:46,230 --> 00:06:43,919
been good stewards to the planet i don't

178
00:06:48,710 --> 00:06:46,240
think there's any arguing that one but

179
00:06:49,430 --> 00:06:48,720
that being said climate engineering

180
00:06:51,510 --> 00:06:49,440
is

181
00:06:53,510 --> 00:06:51,520
derailing every

182
00:06:56,150 --> 00:06:53,520
imaginable aspect of verse life support

183
00:06:58,710 --> 00:06:56,160
systems and on top of that jimmy it's

184
00:07:00,710 --> 00:06:58,720
contaminating every single breath we

185
00:07:02,629 --> 00:07:00,720
take you me

186
00:07:05,189 --> 00:07:02,639
and everyone else and that's an

187
00:07:08,230 --> 00:07:05,199
immediate fight for life

188
00:07:12,230 --> 00:07:08,240

how are the scientists today

189

00:07:14,790 --> 00:07:12,240

responding to your work and others that

190

00:07:16,469 --> 00:07:14,800

are reporting on geoengineering is it

191

00:07:19,189 --> 00:07:16,479

something that's closer

192

00:07:21,430 --> 00:07:19,199

to being recognized and discussed or is

193

00:07:23,110 --> 00:07:21,440

that still the elephant in the room

194

00:07:25,430 --> 00:07:23,120

uh it's getting closer because it's

195

00:07:26,629 --> 00:07:25,440

getting all but impossible to hide we

196

00:07:28,710 --> 00:07:26,639

have

197

00:07:31,029 --> 00:07:28,720

just completed

198

00:07:33,189 --> 00:07:31,039

in the last week and a half

199

00:07:34,950 --> 00:07:33,199

a project that's been in the works for a

200

00:07:36,710 --> 00:07:34,960

very long time

201
00:07:38,390 --> 00:07:36,720
geo engineering watch and a team of

202
00:07:39,350 --> 00:07:38,400
scientists and attorneys that we work

203
00:07:41,270 --> 00:07:39,360
with

204
00:07:43,110 --> 00:07:41,280
we have just completed

205
00:07:45,350 --> 00:07:43,120
the first of its kind atmospheric

206
00:07:47,189 --> 00:07:45,360
testing specifically looking for

207
00:07:49,749 --> 00:07:47,199
confirmation of climate engineering

208
00:07:52,230 --> 00:07:49,759
contamination at altitude

209
00:07:53,909 --> 00:07:52,240
we have successfully confirmed that i

210
00:07:56,869 --> 00:07:53,919
have more to announce

211
00:07:59,830 --> 00:07:56,879
at a later date our lab testing is

212
00:08:01,749 --> 00:07:59,840
extraordinarily extensive and ongoing

213
00:08:03,029 --> 00:08:01,759

but this is

214

00:08:06,070 --> 00:08:03,039

testing

215

00:08:08,390 --> 00:08:06,080

that is court admissible and i'll i have

216

00:08:10,309 --> 00:08:08,400

to leave it at that point i'm not at

217

00:08:11,430 --> 00:08:10,319

liberty to say anymore again i'm working

218

00:08:13,510 --> 00:08:11,440

with a team of attorneys we have

219

00:08:16,150 --> 00:08:13,520

confidentiality agreements but

220

00:08:18,629 --> 00:08:16,160

the bottom line is academia has backed

221

00:08:21,029 --> 00:08:18,639

themselves into quite a corner by

222

00:08:23,670 --> 00:08:21,039

doubling down on their denial for so

223

00:08:26,150 --> 00:08:23,680

long now what happens when this is fully

224

00:08:27,749 --> 00:08:26,160

exposed those in academia who denied it

225

00:08:29,029 --> 00:08:27,759

the whole time

226

00:08:30,629 --> 00:08:29,039

have a lot of explaining to do and

227

00:08:32,149 --> 00:08:30,639

there's only two possibilities for their

228

00:08:33,509 --> 00:08:32,159

denial they're either criminally

229

00:08:34,790 --> 00:08:33,519

negligent of the profession in which

230

00:08:36,709 --> 00:08:34,800

they claim to be an expert or they're

231

00:08:38,389 --> 00:08:36,719

lying take your pick

232

00:08:42,389 --> 00:08:38,399

this uh

233

00:08:43,990 --> 00:08:42,399

yeah i realized uh i i understand the uh

234

00:08:45,829 --> 00:08:44,000

uh

235

00:08:47,829 --> 00:08:45,839

you don't have the ability to comment a

236

00:08:49,670 --> 00:08:47,839

whole lot further but but i'm gonna

237

00:08:51,670 --> 00:08:49,680

press you on a couple of points if i can

238

00:08:55,269 --> 00:08:51,680

if i may and if you can't answer you

239

00:08:56,949 --> 00:08:55,279

just can't answer is this something that

240

00:08:59,990 --> 00:08:56,959

uh

241

00:09:03,110 --> 00:09:00,000

washington will undoubtedly

242

00:09:05,590 --> 00:09:03,120

reply in a very negative sense if the

243

00:09:08,230 --> 00:09:05,600

proof is that there are metals in the

244

00:09:11,190 --> 00:09:08,240

atmosphere that there's geo engineering

245

00:09:13,430 --> 00:09:11,200

going on at altitude

246

00:09:16,150 --> 00:09:13,440

that can only be done by

247

00:09:18,550 --> 00:09:16,160

uh with the knowledge of washington

248

00:09:20,550 --> 00:09:18,560

whether they are part of it or not

249

00:09:25,190 --> 00:09:20,560

but is this something that they're going

250

00:09:28,150 --> 00:09:26,710

if we can expose this issue i don't

251

00:09:29,829 --> 00:09:28,160

think they'll have any choice but to

252

00:09:31,910 --> 00:09:29,839

respond i think there'll be a shock wave

253

00:09:33,430 --> 00:09:31,920

around the globe as populations realize

254

00:09:34,790 --> 00:09:33,440

they've been subjected to a grand and

255

00:09:36,630 --> 00:09:34,800

lethal experiment without their

256

00:09:38,550 --> 00:09:36,640

knowledge or consent an experiment from

257

00:09:40,389 --> 00:09:38,560

which there is no return

258

00:09:43,190 --> 00:09:40,399

the liability

259

00:09:45,269 --> 00:09:43,200

factor in this equation alone has long

260

00:09:46,949 --> 00:09:45,279

since been incomprehensible the moment

261

00:09:48,310 --> 00:09:46,959

you intervene with the climate system at

262

00:09:51,030 --> 00:09:48,320

this level

263

00:09:52,790 --> 00:09:51,040

no event can be considered natural thus

264

00:09:54,230 --> 00:09:52,800

every event has to be considered to some

265

00:09:56,310 --> 00:09:54,240

degree a consequence of climate

266

00:09:58,790 --> 00:09:56,320

engineering operations

267

00:10:00,630 --> 00:09:58,800

this disclosure will overturn the system

268

00:10:02,470 --> 00:10:00,640

i would argue it will galvanize people

269

00:10:04,550 --> 00:10:02,480

in a common cause understanding what

270

00:10:06,470 --> 00:10:04,560

their governments have done to them

271

00:10:08,710 --> 00:10:06,480

the collusion and cooperation on this

272

00:10:11,269 --> 00:10:08,720

issue is profound no matter what

273

00:10:12,230 --> 00:10:11,279

adversarial

274

00:10:14,150 --> 00:10:12,240

uh

275

00:10:16,069 --> 00:10:14,160

scenarios between

276

00:10:19,509 --> 00:10:16,079

opposing nations

277

00:10:21,350 --> 00:10:19,519

china russia u.s on the surface

278

00:10:24,389 --> 00:10:21,360

the collusion and cooperation with this

279

00:10:25,829 --> 00:10:24,399

issue is absolutely positively going on

280

00:10:27,030 --> 00:10:25,839

you can't just climb an engineer over

281

00:10:28,710 --> 00:10:27,040

your own country we have senate

282

00:10:30,710 --> 00:10:28,720

documents 800 pages long posted

283

00:10:32,310 --> 00:10:30,720

geogearing watch that we originally

284

00:10:33,910 --> 00:10:32,320

found the yellow highlights and some of

285

00:10:34,870 --> 00:10:33,920

those you might see in other sources are

286

00:10:35,990 --> 00:10:34,880

ours

287

00:10:37,509 --> 00:10:36,000

your listeners can look it up by

288

00:10:39,509 --> 00:10:37,519

searching massive senate document

289

00:10:41,269 --> 00:10:39,519

geograinwatch.org

290

00:10:42,949 --> 00:10:41,279

in that document it's expressly

291

00:10:44,949 --> 00:10:42,959

described the

292

00:10:46,550 --> 00:10:44,959

cooperation between normally opposing

293

00:10:48,150 --> 00:10:46,560

nations because of the cross-border

294

00:10:49,269 --> 00:10:48,160

ramifications now there are exceptions

295

00:10:51,829 --> 00:10:49,279

to this

296

00:10:53,509 --> 00:10:51,839

one exception is iran they are certainly

297

00:10:55,910 --> 00:10:53,519

not participating in these programs and

298

00:10:57,590 --> 00:10:55,920

whatever anyone thinks about iran in any

299

00:10:59,269 --> 00:10:57,600

other sense they are definitely not

300

00:11:00,710 --> 00:10:59,279

participating perhaps one of the reasons

301
00:11:01,910 --> 00:11:00,720
they're being targeted in addition to

302
00:11:10,069 --> 00:11:01,920
the

303
00:11:12,230 --> 00:11:10,079
iran

304
00:11:13,910 --> 00:11:12,240
that they have invaded nobody for 230

305
00:11:16,870 --> 00:11:13,920
years the u.s has invaded nearly 100

306
00:11:18,710 --> 00:11:16,880
nations in as many years and there are

307
00:11:20,790 --> 00:11:18,720
issues going on like climate engineering

308
00:11:22,470 --> 00:11:20,800
in the case of iran they have spoken on

309
00:11:23,990 --> 00:11:22,480
the floor of the u.n

310
00:11:25,829 --> 00:11:24,000
stating and they have sophisticated

311
00:11:28,230 --> 00:11:25,839
military and

312
00:11:29,829 --> 00:11:28,240
atmospheric monitoring equipment they

313
00:11:31,509 --> 00:11:29,839

stated on the floor of the end that the

314

00:11:32,949 --> 00:11:31,519

precipitation for their country was

315

00:11:34,470 --> 00:11:32,959

being cut off by nato weather

316

00:11:36,870 --> 00:11:34,480

modification programs and that is

317

00:11:37,990 --> 00:11:36,880

absolutely positively the truth here's

318

00:11:40,870 --> 00:11:38,000

my question

319

00:11:43,829 --> 00:11:40,880

what would we do what would americans do

320

00:11:45,590 --> 00:11:43,839

if the iranian military or other

321

00:11:47,269 --> 00:11:45,600

nation allies with them were cutting off

322

00:11:49,829 --> 00:11:47,279

the precipitation to the u.s would we

323

00:11:51,670 --> 00:11:49,839

not consider that an act of war

324

00:11:53,750 --> 00:11:51,680

is it that uh

325

00:11:56,949 --> 00:11:53,760

one of the key elements of geo

326

00:11:58,949 --> 00:11:56,959

engineering is

327

00:11:59,910 --> 00:11:58,959

used as a weapon system

328

00:12:02,389 --> 00:11:59,920

right

329

00:12:06,550 --> 00:12:02,399

we're not dropping nuclear bombs

330

00:12:09,190 --> 00:12:06,560

we're starving the population which is

331

00:12:10,710 --> 00:12:09,200

not only an act of war of course but

332

00:12:12,629 --> 00:12:10,720

it's that's got to be one of the most

333

00:12:13,829 --> 00:12:12,639

effective tools

334

00:12:16,790 --> 00:12:13,839

uh that

335

00:12:18,949 --> 00:12:16,800

one could almost hope for in a in a very

336

00:12:22,829 --> 00:12:18,959

sick scenario

337

00:12:26,069 --> 00:12:22,839

it absolutely is that is a

338

00:12:28,550 --> 00:12:26,079

core objective of climate engineering it

339

00:12:30,870 --> 00:12:28,560

is the crown jewel weapon of the power

340

00:12:32,629 --> 00:12:30,880

structure they can destabilize and

341

00:12:34,470 --> 00:12:32,639

topple nations without the populations

342

00:12:37,030 --> 00:12:34,480

of those nations ever even

343

00:12:39,750 --> 00:12:37,040

realizing they're at war let's look at

344

00:12:42,310 --> 00:12:39,760

all the nations named after 911 by

345

00:12:43,910 --> 00:12:42,320

general wesley clark as targets

346

00:12:45,509 --> 00:12:43,920

to be taken down in the middle east

347

00:12:47,750 --> 00:12:45,519

every one of those nations has since

348

00:12:50,150 --> 00:12:47,760

underwent a once in one thousand year

349

00:12:52,629 --> 00:12:50,160

drought that is not nature that's

350

00:12:54,790 --> 00:12:52,639

climate modification uh nations in

351

00:12:57,430 --> 00:12:54,800

africa same scenario

352

00:12:59,990 --> 00:12:57,440

cutting cutting off of the precipitation

353

00:13:01,030 --> 00:13:00,000

and then those nations being forced to

354

00:13:03,829 --> 00:13:01,040

allow

355

00:13:06,790 --> 00:13:03,839

what amounts to u.s occupation so again

356

00:13:09,030 --> 00:13:06,800

i i realize we have many honorable men

357

00:13:12,230 --> 00:13:09,040

and women in the us military what i'm

358

00:13:13,670 --> 00:13:12,240

asking them to do is to examine what

359

00:13:15,509 --> 00:13:13,680

they're a part of

360

00:13:16,790 --> 00:13:15,519

there's a lot of compartmentalization so

361

00:13:18,870 --> 00:13:16,800

that the left hand doesn't know what the

362

00:13:22,389 --> 00:13:18,880

right hand is doing we have

363

00:13:23,990 --> 00:13:22,399

two former u.s air force generals

364

00:13:26,470 --> 00:13:24,000

working with our team

365

00:13:28,230 --> 00:13:26,480

a former u.s air force colonel

366

00:13:31,430 --> 00:13:28,240

they did not realize these programs are

367

00:13:33,910 --> 00:13:31,440

going on and they are understandably

368

00:13:37,190 --> 00:13:33,920

distressed about this now and and i want

369

00:13:39,990 --> 00:13:37,200

to stress this the ramifications to us

370

00:13:42,230 --> 00:13:40,000

any future we may yet have and to the

371

00:13:43,030 --> 00:13:42,240

planet as a whole

372

00:13:45,269 --> 00:13:43,040

is

373

00:13:46,710 --> 00:13:45,279

grave beyond imagination from climate

374

00:13:48,310 --> 00:13:46,720

engineering it's destroying the ozone

375

00:13:50,629 --> 00:13:48,320

layer disrupting the hydrological cycle

376

00:13:51,910 --> 00:13:50,639

and contaminating the entire planet

377

00:13:54,310 --> 00:13:51,920

on the current course jimmy

378

00:13:55,750 --> 00:13:54,320

mathematically speaking

379

00:13:57,350 --> 00:13:55,760

and i realize people may roll their eyes

380

00:13:59,110 --> 00:13:57,360

and walk away at this statement but none

381

00:14:00,949 --> 00:13:59,120

of us will be here much longer and that

382

00:14:02,949 --> 00:14:00,959

is a statistical mathematical fact and

383

00:14:05,430 --> 00:14:02,959

when i say that i don't mean centuries

384

00:14:07,350 --> 00:14:05,440

out or decades out our time horizon is

385

00:14:09,670 --> 00:14:07,360

unimaginably short mathematically

386

00:14:11,590 --> 00:14:09,680

speaking if the current rate of

387

00:14:13,030 --> 00:14:11,600

biosphere disintegration

388

00:14:15,350 --> 00:14:13,040

is allowed to continue and climate

389

00:14:16,790 --> 00:14:15,360

engineering being the top of the causal

390

00:14:20,790 --> 00:14:16,800

factors

391

00:14:22,550 --> 00:14:20,800

it's not a coincidence is it that the

392

00:14:25,670 --> 00:14:22,560

countries

393

00:14:27,829 --> 00:14:25,680

that are on our enemies list north korea

394

00:14:29,189 --> 00:14:27,839

is a perfect example they can't grow

395

00:14:31,030 --> 00:14:29,199

anything there

396

00:14:32,870 --> 00:14:31,040

south korea

397

00:14:36,389 --> 00:14:32,880

you know a couple of miles south of

398

00:14:38,230 --> 00:14:36,399

north korea is just fine

399

00:14:39,910 --> 00:14:38,240

if that that's not coincidence

400

00:14:42,069 --> 00:14:39,920

afghanistan

401
00:14:45,430 --> 00:14:42,079
you can't grow anything there

402
00:14:48,470 --> 00:14:45,440
and it's it's just fascinating to see

403
00:14:52,310 --> 00:14:48,480
that these very specific areas

404
00:14:53,430 --> 00:14:52,320
just can't seem to grow anything

405
00:14:56,069 --> 00:14:53,440
it is not

406
00:14:57,430 --> 00:14:56,079
a coincidence as you correctly stated

407
00:14:58,870 --> 00:14:57,440
and

408
00:15:01,750 --> 00:14:58,880
the

409
00:15:04,790 --> 00:15:01,760
use of this weapon is not limited to

410
00:15:07,509 --> 00:15:04,800
opposing nations at this point

411
00:15:09,350 --> 00:15:07,519
we must consider parts of

412
00:15:10,470 --> 00:15:09,360
the usa

413
00:15:12,629 --> 00:15:10,480

also

414

00:15:15,189 --> 00:15:12,639

in the crosshairs in the case of

415

00:15:17,110 --> 00:15:15,199

california

416

00:15:18,790 --> 00:15:17,120

whatever the objectives whatever the

417

00:15:20,069 --> 00:15:18,800

agendas we can

418

00:15:22,710 --> 00:15:20,079

debate that

419

00:15:23,990 --> 00:15:22,720

but the fact that climate engineering

420

00:15:25,910 --> 00:15:24,000

operations

421

00:15:28,230 --> 00:15:25,920

are and have been cutting off the flow

422

00:15:30,629 --> 00:15:28,240

of precipitation to the state

423

00:15:33,350 --> 00:15:30,639

contaminating soils and waters

424

00:15:35,110 --> 00:15:33,360

destroying the ozone layer rendering it

425

00:15:37,189 --> 00:15:35,120

difficult if not impossible to grow here

426

00:15:38,790 --> 00:15:37,199

as well under many circumstances now the

427

00:15:40,230 --> 00:15:38,800

fact that that is directly related to

428

00:15:42,230 --> 00:15:40,240

climate engineering including the fires

429

00:15:43,910 --> 00:15:42,240

jimmy the fires

430

00:15:46,230 --> 00:15:43,920

are most directly related to climate

431

00:15:47,910 --> 00:15:46,240

engineering and this is not to say again

432

00:15:49,990 --> 00:15:47,920

because many people

433

00:15:52,069 --> 00:15:50,000

don't listen to the entire statements

434

00:15:54,629 --> 00:15:52,079

when i'm trying to frame something

435

00:15:56,150 --> 00:15:54,639

accurately this is not to say that other

436

00:15:58,310 --> 00:15:56,160

forms of human activity have not

437

00:15:59,189 --> 00:15:58,320

affected earth's energy balance

438

00:16:01,749 --> 00:15:59,199

and

439

00:16:04,470 --> 00:16:01,759

disrupted the equilibrium of this hero

440

00:16:06,150 --> 00:16:04,480

i fully acknowledge that fact i

441

00:16:07,590 --> 00:16:06,160

acknowledge all the factors but what i'm

442

00:16:09,110 --> 00:16:07,600

stating is

443

00:16:10,150 --> 00:16:09,120

mathematically speaking climate

444

00:16:11,590 --> 00:16:10,160

engineering is the single most

445

00:16:13,749 --> 00:16:11,600

destructive wall and for example in the

446

00:16:15,990 --> 00:16:13,759

case of the wildfires not only is it

447

00:16:18,550 --> 00:16:16,000

cutting off precipitation toxifying

448

00:16:20,230 --> 00:16:18,560

soils which kills root systems

449

00:16:22,470 --> 00:16:20,240

and they're dying back just as fast as

450

00:16:24,230 --> 00:16:22,480

the crowns of the trees are dying back

451
00:16:25,590 --> 00:16:24,240
we have more dry lightning because we

452
00:16:26,710 --> 00:16:25,600
have an ionized atmosphere it's more

453
00:16:28,069 --> 00:16:26,720
electrically conductive we have a

454
00:16:29,910 --> 00:16:28,079
destroyed ozone layer that's frying the

455
00:16:32,550 --> 00:16:29,920
trees from the top down we have an

456
00:16:34,870 --> 00:16:32,560
incendiary dust i.e heavy metals like

457
00:16:36,470 --> 00:16:34,880
aluminum that are coating foliage from

458
00:16:37,509 --> 00:16:36,480
every imaginable direction climate

459
00:16:41,269 --> 00:16:37,519
engineering

460
00:16:44,069 --> 00:16:41,279
is fueling the wildfires and

461
00:16:46,949 --> 00:16:44,079
we believe we have enough data now to

462
00:16:49,430 --> 00:16:46,959
confirm that the

463
00:16:52,230 --> 00:16:49,440

extraordinary northern cal or northern

464

00:16:54,069 --> 00:16:52,240

latitude wildfire

465

00:16:55,749 --> 00:16:54,079

crisis and the same has happened in

466

00:16:57,269 --> 00:16:55,759

southern hemisphere

467

00:16:59,189 --> 00:16:57,279

is actually being utilized by the

468

00:17:01,030 --> 00:16:59,199

climate engineers to achieve enough

469

00:17:02,629 --> 00:17:01,040

atmospheric particulate loading which

470

00:17:04,630 --> 00:17:02,639

spins toward the polar regions because

471

00:17:07,110 --> 00:17:04,640

of the coriolis effect in order to

472

00:17:09,669 --> 00:17:07,120

provide a temporary and i stress that

473

00:17:11,829 --> 00:17:09,679

word temporary cooling effect for the

474

00:17:14,309 --> 00:17:11,839

polar regions and that's how desperate

475

00:17:16,949 --> 00:17:14,319

they are climate engineering again

476
00:17:19,110 --> 00:17:16,959
core problem of the whole equation

477
00:17:20,390 --> 00:17:19,120
why the

478
00:17:21,750 --> 00:17:20,400
uh

479
00:17:23,029 --> 00:17:21,760
why the

480
00:17:26,630 --> 00:17:23,039
why

481
00:17:29,430 --> 00:17:26,640
united states

482
00:17:30,830 --> 00:17:29,440
is it a is it a monetary decision is it

483
00:17:34,230 --> 00:17:30,840
to control

484
00:17:36,950 --> 00:17:34,240
agriculture is you know is it is it

485
00:17:40,070 --> 00:17:36,960
you know it is a part of the economy why

486
00:17:42,710 --> 00:17:40,080
why control it here i know that they do

487
00:17:44,549 --> 00:17:42,720
you know and i could see especially here

488
00:17:45,669 --> 00:17:44,559

in california the reason why i asked the

489

00:17:49,190 --> 00:17:45,679

question

490

00:17:53,029 --> 00:17:49,200

um here in california which literally

491

00:17:55,669 --> 00:17:53,039

uh feeds the entire united states uh in

492

00:17:56,870 --> 00:17:55,679

a 12-month cycle there's a reason you

493

00:18:00,310 --> 00:17:56,880

know there are reasons why you get

494

00:18:02,950 --> 00:18:00,320

strawberries in the winter in chicago

495

00:18:05,350 --> 00:18:02,960

and and we recognize that

496

00:18:07,190 --> 00:18:05,360

but is it

497

00:18:09,270 --> 00:18:07,200

here in california where we have these

498

00:18:11,909 --> 00:18:09,280

specific areas of drought where there's

499

00:18:13,190 --> 00:18:11,919

no it should be never a shortage of

500

00:18:16,390 --> 00:18:13,200

water here

501
00:18:19,029 --> 00:18:16,400
uh farmers weren't able to and it was a

502
00:18:21,909 --> 00:18:19,039
bad two-year run we had

503
00:18:24,230 --> 00:18:21,919
it is that an economic decision you know

504
00:18:26,070 --> 00:18:24,240
to raise the prices of fruits and

505
00:18:29,110 --> 00:18:26,080
vegetables you know what's the reason

506
00:18:31,590 --> 00:18:29,120
for it you must be careful not to try to

507
00:18:33,830 --> 00:18:31,600
over simplify the situation

508
00:18:36,710 --> 00:18:33,840
is there disaster capitalism occurring

509
00:18:38,549 --> 00:18:36,720
in this equation absolutely

510
00:18:39,909 --> 00:18:38,559
comparable as i've given this example

511
00:18:41,669 --> 00:18:39,919
before the

512
00:18:43,350 --> 00:18:41,679
pirates loading their pockets up as the

513
00:18:44,789 --> 00:18:43,360

ship sinks and they're going to sync

514

00:18:46,390 --> 00:18:44,799

with it but at the moment they still are

515

00:18:48,789 --> 00:18:46,400

more concerned about

516

00:18:51,190 --> 00:18:48,799

lining their pockets so we have disaster

517

00:18:52,950 --> 00:18:51,200

capitalism occurring absolutely we have

518

00:18:55,430 --> 00:18:52,960

what amounts to a

519

00:18:57,990 --> 00:18:55,440

weather disaster trading derivatives

520

00:19:01,990 --> 00:18:58,000

market you know that

521

00:19:03,830 --> 00:19:02,000

was a gaming casino ran by those who are

522

00:19:05,350 --> 00:19:03,840

orchestrating the weather

523

00:19:06,789 --> 00:19:05,360

but we have to look at the bigger

524

00:19:09,190 --> 00:19:06,799

picture

525

00:19:11,990 --> 00:19:09,200

there are feedback loops triggered on

526
00:19:13,350 --> 00:19:12,000
the planet already that cannot be turned

527
00:19:14,549 --> 00:19:13,360
off so in addition to climate

528
00:19:17,830 --> 00:19:14,559
engineering being used for weather

529
00:19:19,750 --> 00:19:17,840
warfare a primary objective

530
00:19:22,070 --> 00:19:19,760
is to

531
00:19:23,350 --> 00:19:22,080
mask the true severity of what's

532
00:19:26,310 --> 00:19:23,360
unfolding

533
00:19:28,070 --> 00:19:26,320
from populations specifically

534
00:19:30,310 --> 00:19:28,080
u.s populations is critical in this

535
00:19:32,150 --> 00:19:30,320
equation to mass the severity and

536
00:19:34,150 --> 00:19:32,160
immediacy of what's unfolding until the

537
00:19:35,750 --> 00:19:34,160
last possible moment so back to the

538
00:19:37,350 --> 00:19:35,760

water and the flooding

539

00:19:39,029 --> 00:19:37,360

there's a process called chemical ice

540

00:19:40,470 --> 00:19:39,039

nucleation for weather modification

541

00:19:42,549 --> 00:19:40,480

these are patented processes we have

542

00:19:43,909 --> 00:19:42,559

patents going back over 50 years for

543

00:19:46,150 --> 00:19:43,919

these processes what does this mean it

544

00:19:48,390 --> 00:19:46,160

means that they can seed cloud moisture

545

00:19:51,350 --> 00:19:48,400

with chemically and or biological

546

00:19:54,870 --> 00:19:51,360

biological nucleating agents

547

00:19:56,870 --> 00:19:54,880

which causes ice to form at much

548

00:19:59,110 --> 00:19:56,880

above normal temperatures

549

00:20:01,830 --> 00:19:59,120

that creates a cold dense layer of air

550

00:20:03,750 --> 00:20:01,840

that descends to the surface they can

551
00:20:06,470 --> 00:20:03,760
chemically convert what should have been

552
00:20:09,510 --> 00:20:06,480
a liquid precipitation event i.e rain

553
00:20:10,549 --> 00:20:09,520
into snow and we're not speculating the

554
00:20:12,310 --> 00:20:10,559
chinese

555
00:20:14,150 --> 00:20:12,320
scientists openly announced that they

556
00:20:15,110 --> 00:20:14,160
were doing the same engineering winter

557
00:20:16,950 --> 00:20:15,120
weather

558
00:20:18,230 --> 00:20:16,960
fox news and popular science covered

559
00:20:19,350 --> 00:20:18,240
this any of your listeners can look it

560
00:20:20,870 --> 00:20:19,360
up or they can go to the homepage of

561
00:20:22,789 --> 00:20:20,880
georgewatch.org and search the

562
00:20:25,270 --> 00:20:22,799
engineering winter section and learn far

563
00:20:26,950 --> 00:20:25,280

more than they wanted to know so

564

00:20:29,350 --> 00:20:26,960

what objective does this carry out it

565

00:20:30,789 --> 00:20:29,360

confuses and divides the population as

566

00:20:31,590 --> 00:20:30,799

to the true state

567

00:20:36,630 --> 00:20:31,600

of

568

00:20:38,950 --> 00:20:36,640

pending and and very imminent now

569

00:20:40,549 --> 00:20:38,960

societal collapse it masks that from the

570

00:20:42,470 --> 00:20:40,559

population until the last possible

571

00:20:44,630 --> 00:20:42,480

moment and in the meantime everything we

572

00:20:47,510 --> 00:20:44,640

described is still going on weather

573

00:20:50,870 --> 00:20:47,520

warfare uh disaster capitalism all of

574

00:20:53,830 --> 00:20:50,880

that going on but again a complicated

575

00:20:55,590 --> 00:20:53,840

equation many agendas being carried out

576
00:20:57,029 --> 00:20:55,600
but not just to this or that equation

577
00:20:59,350 --> 00:20:57,039
much more complex

578
00:21:01,990 --> 00:20:59,360
when we come back after the break well

579
00:21:03,669 --> 00:21:02,000
the reason why uh we'll continue this

580
00:21:07,190 --> 00:21:03,679
conversation after the break but the

581
00:21:09,510 --> 00:21:07,200
reason why that i ask is that

582
00:21:12,789 --> 00:21:09,520
uh by possibly doing something

583
00:21:15,669 --> 00:21:12,799
short-sighted in a in a s in a in a

584
00:21:18,870 --> 00:21:15,679
general area say california

585
00:21:21,590 --> 00:21:18,880
that the after effects of that is what

586
00:21:24,230 --> 00:21:21,600
is happening high in the atmosphere

587
00:21:25,909 --> 00:21:24,240
and nature is nature and this planet

588
00:21:28,390 --> 00:21:25,919

runs a certain way

589

00:21:30,549 --> 00:21:28,400

by doing something short-sighted for

590

00:21:33,510 --> 00:21:30,559

capital gains we're having these

591

00:21:35,510 --> 00:21:33,520

long-term effects right is is is that

592

00:21:37,430 --> 00:21:35,520

something else that is happening

593

00:21:40,230 --> 00:21:37,440

yes absolutely the downstream

594

00:21:42,230 --> 00:21:40,240

consequences are unimaginable but we

595

00:21:44,870 --> 00:21:42,240

have so many factors in the equation we

596

00:21:47,270 --> 00:21:44,880

have perhaps as many as 50 feedback

597

00:21:50,549 --> 00:21:47,280

loops right now which once triggered

598

00:21:51,990 --> 00:21:50,559

feed on themselves so in the case of

599

00:21:54,230 --> 00:21:52,000

this is the biggest one of all so this

600

00:21:56,710 --> 00:21:54,240

is the one i will name methane not

601
00:21:58,870 --> 00:21:56,720
talking about cow flatulence talking

602
00:22:00,870 --> 00:21:58,880
about formerly frozen methane hydrating

603
00:22:02,310 --> 00:22:00,880
clathrate deposits bermuda triangle

604
00:22:03,669 --> 00:22:02,320
that's been methane released for many

605
00:22:06,149 --> 00:22:03,679
many decades

606
00:22:07,830 --> 00:22:06,159
that's when the c4 warms you have huge

607
00:22:08,950 --> 00:22:07,840
methane fields that release it's

608
00:22:10,470 --> 00:22:08,960
happening in the arctic on an

609
00:22:11,830 --> 00:22:10,480
unimaginable scale right now what

610
00:22:13,430 --> 00:22:11,840
happens when that methane migrates

611
00:22:15,110 --> 00:22:13,440
through the water column hits the sea

612
00:22:16,789 --> 00:22:15,120
surface and migrates into the atmosphere

613
00:22:17,830 --> 00:22:16,799

starts to cover the planet like a layer

614

00:22:20,149 --> 00:22:17,840

of glass

615

00:22:22,390 --> 00:22:20,159

you also have other gases

616

00:22:24,470 --> 00:22:22,400

nitrous oxide is another these gases are

617

00:22:27,190 --> 00:22:24,480

profoundly more

618

00:22:29,430 --> 00:22:27,200

effective at trapping heat then co2

619

00:22:30,789 --> 00:22:29,440

they're they're much bigger dangers that

620

00:22:31,830 --> 00:22:30,799

are not talked about by the science

621

00:22:34,149 --> 00:22:31,840

community

622

00:22:35,669 --> 00:22:34,159

so once you start that heating and the

623

00:22:37,830 --> 00:22:35,679

methane starts to cover the planet like

624

00:22:38,789 --> 00:22:37,840

a layer of glass and nitrous oxide as

625

00:22:40,549 --> 00:22:38,799

well

626
00:22:41,750 --> 00:22:40,559
then you have more heating more methane

627
00:22:43,750 --> 00:22:41,760
release

628
00:22:45,510 --> 00:22:43,760
more heating it feeds on itself is that

629
00:22:47,909 --> 00:22:45,520
clear and you have about you have about

630
00:22:49,110 --> 00:22:47,919
50 of those cycles going on now climate

631
00:22:50,710 --> 00:22:49,120
engineering as you correctly stated is

632
00:22:54,470 --> 00:22:50,720
triggering its own cycles the boreal

633
00:22:55,750 --> 00:22:54,480
forest burn downs are one so as they

634
00:22:58,230 --> 00:22:55,760
create the conditions that allow for

635
00:23:00,149 --> 00:22:58,240
these epic wildfires to occur

636
00:23:01,990 --> 00:23:00,159
those fires add to the overall heating

637
00:23:04,390 --> 00:23:02,000
which adds to more fires and the

638
00:23:06,470 --> 00:23:04,400

cascading effect occurs so you're

639

00:23:07,590 --> 00:23:06,480

exactly right it's just a very complex

640

00:23:09,510 --> 00:23:07,600

equation and there are many of these

641

00:23:11,590 --> 00:23:09,520

feedback loops occurring let's take a

642

00:23:15,230 --> 00:23:11,600

break right here dain this is fade to

643

00:23:17,990 --> 00:23:15,240

black i am your host jimmy church

644

00:23:19,149 --> 00:23:18,000

geoengineeringwatch.org is the website

645

00:23:20,710 --> 00:23:19,159

the links are at

jimmychurchradio.com

647

00:23:25,590 --> 00:23:23,520

tremendous source of information right

648

00:23:27,190 --> 00:23:25,600

there at geoengineeringwatch.org

649

00:23:29,029 --> 00:23:27,200

tonight it's stained wiggington i'm

650

00:23:30,700 --> 00:23:29,039

yours timmy church this is fade to black

651
00:23:31,909 --> 00:23:30,710
we'll be right back stay with us

652
00:23:34,710 --> 00:23:31,919
[Music]

653
00:23:36,710 --> 00:23:34,720
you're listening to a preview of fade to

660
00:23:55,950 --> 00:23:52,480
welcome back faded black i'm real stupid

661
00:23:58,630 --> 00:23:55,960
church tonight dane wiggington is here

662
00:24:00,950 --> 00:23:58,640
geoengineeringwatch.org is the website

663
00:24:03,029 --> 00:24:00,960

tomorrow night sonya grace wednesday

664

00:24:05,190 --> 00:24:03,039

night james fox

665

00:24:07,190 --> 00:24:05,200

thursday night open lines all night long

666

00:24:09,990 --> 00:24:07,200

tonight it is dane

667

00:24:11,750 --> 00:24:10,000

now uh okay dane

668

00:24:14,950 --> 00:24:11,760

i have been in southern california for

669

00:24:15,750 --> 00:24:14,960

35 years i have fought through

670

00:24:18,470 --> 00:24:15,760

uh

671

00:24:19,750 --> 00:24:18,480

seven-year stretches of not a drop of

672

00:24:27,269 --> 00:24:19,760

rain

673

00:24:28,230 --> 00:24:27,279

the last three months every single day

674

00:24:30,470 --> 00:24:28,240

right

675

00:24:32,390 --> 00:24:30,480

we've never had that before

676
00:24:35,909 --> 00:24:32,400
and it's not my imagination

677
00:24:38,230 --> 00:24:35,919
it uh it's raining it rained yesterday

678
00:24:39,830 --> 00:24:38,240
it has not stopped is this

679
00:24:42,149 --> 00:24:39,840
geoengineering

680
00:24:44,710 --> 00:24:42,159
can you hear me okay jimmy i got you

681
00:24:46,789 --> 00:24:44,720
is this audio any better it's perfect

682
00:24:49,110 --> 00:24:46,799
okay you are the man

683
00:24:50,630 --> 00:24:49,120
in regard to

684
00:24:53,269 --> 00:24:50,640
what's happening in southern california

685
00:24:55,830 --> 00:24:53,279
the climate engineers can and are

686
00:24:57,190 --> 00:24:55,840
creating various pressure zones

687
00:24:59,669 --> 00:24:57,200
in order to

688
00:25:01,350 --> 00:24:59,679

in some cases spin enough moisture into

689

00:25:02,230 --> 00:25:01,360

the atmosphere

690

00:25:04,070 --> 00:25:02,240

to

691

00:25:05,750 --> 00:25:04,080

chemically nucleate that moisture the

692

00:25:07,190 --> 00:25:05,760

process i described before the break

693

00:25:08,870 --> 00:25:07,200

again it's called chemical ice

694

00:25:10,470 --> 00:25:08,880

nucleation for weather modification we

695

00:25:11,430 --> 00:25:10,480

have patents of this going back 50 plus

696

00:25:14,149 --> 00:25:11,440

years

697

00:25:16,950 --> 00:25:14,159

so this is one of the ways of cooling

698

00:25:18,950 --> 00:25:16,960

things down although temporarily that

699

00:25:21,190 --> 00:25:18,960

surface layer of cool may be only a few

700

00:25:23,029 --> 00:25:21,200

hundred feet thick in some cases

701
00:25:23,750 --> 00:25:23,039
now at the same time we're communicating

702
00:25:26,070 --> 00:25:23,760
with

703
00:25:27,430 --> 00:25:26,080
aircraft pilots some commercial

704
00:25:29,029 --> 00:25:27,440
some private some of these private

705
00:25:31,110 --> 00:25:29,039
pilots on their jets fly some very

706
00:25:32,710 --> 00:25:31,120
important people they contacted us

707
00:25:34,390 --> 00:25:32,720
because they were very alarmed one

708
00:25:35,750 --> 00:25:34,400
former military pilot

709
00:25:38,870 --> 00:25:35,760
their

710
00:25:42,630 --> 00:25:38,880
gulf stream went into a forced automatic

711
00:25:43,909 --> 00:25:42,640
descent from over 40 000 feet because it

712
00:25:46,789 --> 00:25:43,919
was about

713
00:25:49,350 --> 00:25:46,799

45 degrees above normal outside that

714

00:25:52,630 --> 00:25:49,360

aircraft the air was so warm the air was

715

00:25:54,230 --> 00:25:52,640

not dense enough to carry that aircraft

716

00:25:55,510 --> 00:25:54,240

what we see on satellite imagery right

717

00:25:57,430 --> 00:25:55,520

now around the globe and we look at

718

00:25:59,750 --> 00:25:57,440

satellite imagery every single day from

719

00:26:01,909 --> 00:25:59,760

all over the globe we can find nothing

720

00:26:04,070 --> 00:26:01,919

that looks like a naturally formed

721

00:26:06,070 --> 00:26:04,080

system meteorologically speaking it is

722

00:26:07,750 --> 00:26:06,080

completely tainted completely off the

723

00:26:09,110 --> 00:26:07,760

rails we are completely in uncharted

724

00:26:11,269 --> 00:26:09,120

territory

725

00:26:13,350 --> 00:26:11,279

so the climate engineers control the

726
00:26:14,710 --> 00:26:13,360
spigot quite literally they decide where

727
00:26:18,470 --> 00:26:14,720
it rains

728
00:26:20,630 --> 00:26:18,480
will be and i want to stress the toxic

729
00:26:22,630 --> 00:26:20,640
part in our testing we have

730
00:26:24,630 --> 00:26:22,640
identified in addition to the usual

731
00:26:27,269 --> 00:26:24,640
stuff suspects of heavy metals aluminum

732
00:26:29,190 --> 00:26:27,279
barium strontium polymer fibers

733
00:26:31,269 --> 00:26:29,200
we have now identified positively in

734
00:26:32,789 --> 00:26:31,279
snow samples and these are taken by very

735
00:26:34,149 --> 00:26:32,799
highly credentialed scientists that we

736
00:26:37,350 --> 00:26:34,159
work with

737
00:26:38,870 --> 00:26:37,360
surfactants surfactants are used well so

738
00:26:40,710 --> 00:26:38,880

you have surfactants and soap many

739

00:26:41,830 --> 00:26:40,720

people have seen foaming rain foaming

740

00:26:43,510 --> 00:26:41,840

runoff

741

00:26:45,430 --> 00:26:43,520

the surfactants

742

00:26:47,430 --> 00:26:45,440

affect the molecular

743

00:26:49,990 --> 00:26:47,440

tension of water molecules is there's a

744

00:26:52,470 --> 00:26:50,000

lot of various effects and uses it is a

745

00:26:54,470 --> 00:26:52,480

part of the mix with for example

746

00:26:56,390 --> 00:26:54,480

aluminum nanoparticulates we know this

747

00:26:57,909 --> 00:26:56,400

from the manufacturing

748

00:26:59,590 --> 00:26:57,919

statistics

749

00:27:01,590 --> 00:26:59,600

and data it keeps the particles from

750

00:27:02,630 --> 00:27:01,600

sticking together so this comes down in

751

00:27:05,190 --> 00:27:02,640

the rain

752

00:27:06,950 --> 00:27:05,200

this is toxic synthetic urea is used in

753

00:27:08,470 --> 00:27:06,960

chemical ice nucleating

754

00:27:10,870 --> 00:27:08,480

so we have basically the atmosphere

755

00:27:12,549 --> 00:27:10,880

jimmy being used as a physics lab with

756

00:27:14,310 --> 00:27:12,559

no regard for the consequences

757

00:27:16,950 --> 00:27:14,320

whatsoever

758

00:27:19,669 --> 00:27:16,960

the uh the air is one thing the

759

00:27:21,669 --> 00:27:19,679

atmosphere is one thing huge concern

760

00:27:25,430 --> 00:27:21,679

huge huge concern

761

00:27:26,950 --> 00:27:25,440

but the oceans uh uh dane and you and i

762

00:27:29,269 --> 00:27:26,960

i remember uh

763

00:27:31,830 --> 00:27:29,279

talking about this a couple of years ago

764

00:27:33,909 --> 00:27:31,840

and what is going on with these dead

765

00:27:35,669 --> 00:27:33,919

parts of the ocean i want to i want to

766

00:27:38,230 --> 00:27:35,679

address that for a second

767

00:27:40,310 --> 00:27:38,240

but then the news

768

00:27:44,070 --> 00:27:40,320

over the last couple of days about

769

00:27:47,190 --> 00:27:44,080

releasing all of the uh nuclear garbage

770

00:27:49,029 --> 00:27:47,200

from fukushima directly into the ocean

771

00:27:51,190 --> 00:27:49,039

because the ocean is just going to clean

772

00:27:53,029 --> 00:27:51,200

itself up anyway so

773

00:27:54,789 --> 00:27:53,039

it's okay to do

774

00:27:56,149 --> 00:27:54,799

uh did you hear about this news the

775

00:27:57,750 --> 00:27:56,159

other day

776

00:28:00,070 --> 00:27:57,760

somebody making that claim that the

777

00:28:02,070 --> 00:28:00,080

ocean would clean itself up

778

00:28:05,110 --> 00:28:02,080

and fukushima you know dumping all of

779

00:28:06,630 --> 00:28:05,120

the nuclear waste into the ocean is is

780

00:28:08,310 --> 00:28:06,640

no big deal

781

00:28:10,789 --> 00:28:08,320

yeah well you know we're told a lot of

782

00:28:13,269 --> 00:28:10,799

things are no big deal in the meantime

783

00:28:16,149 --> 00:28:13,279

uh we are on the fast track to total

784

00:28:17,510 --> 00:28:16,159

global planetary omnicide let me put a

785

00:28:18,950 --> 00:28:17,520

figure behind that and then i'll back up

786

00:28:20,630 --> 00:28:18,960

and answer your questions if i can just

787

00:28:22,470 --> 00:28:20,640

to put this in statistical perspective

788

00:28:24,870 --> 00:28:22,480

for your listeners sure

789

00:28:26,230 --> 00:28:24,880

we've lost 60 of us wildlife populations

790

00:28:28,149 --> 00:28:26,240

in the last 40 years and i encourage

791

00:28:29,510 --> 00:28:28,159

your listeners to investigate everything

792

00:28:31,190 --> 00:28:29,520

i say

793

00:28:33,510 --> 00:28:31,200

60 in 40 years in the current

794

00:28:35,909 --> 00:28:33,520

mathematical trajectory of species loss

795

00:28:37,510 --> 00:28:35,919

the zero hour for no wildlife left on

796

00:28:40,789 --> 00:28:37,520

planet earth if the rate of die-off does

797

00:28:42,389 --> 00:28:40,799

not accelerate and it is is 2026

798

00:28:45,110 --> 00:28:42,399

2026.

799

00:28:46,950 --> 00:28:45,120

wow nearly 10 years ago geonge.org was

800

00:28:48,389 --> 00:28:46,960

the first major website we're the

801
00:28:49,909 --> 00:28:48,399
largest website in the subject of geo

802
00:28:51,990 --> 00:28:49,919
engineering in the world nearly 33

803
00:28:53,590 --> 00:28:52,000
million million visitors we were the

804
00:28:55,029 --> 00:28:53,600
first to publish based on our work with

805
00:28:56,630 --> 00:28:55,039
former government scientists fish and

806
00:28:59,350 --> 00:28:56,640
game and forest service

807
00:29:00,710 --> 00:28:59,360
that insect populations were completely

808
00:29:02,630 --> 00:29:00,720
imploding

809
00:29:05,510 --> 00:29:02,640
many in academia rolled their eyes and

810
00:29:07,350 --> 00:29:05,520
walked away because they are paid

811
00:29:09,190 --> 00:29:07,360
not to address the truth

812
00:29:10,950 --> 00:29:09,200
now they can't hide it any longer so

813
00:29:12,710 --> 00:29:10,960

anyone who bothers to look up insect

814

00:29:14,549 --> 00:29:12,720

apocalypse we'll see exactly what we

815

00:29:15,669 --> 00:29:14,559

said a decade ago

816

00:29:17,590 --> 00:29:15,679

80

817

00:29:18,710 --> 00:29:17,600

plus terrestrial insect population

818

00:29:23,029 --> 00:29:18,720

decline

819

00:29:26,470 --> 00:29:23,039

the insects can't make it we will not be

820

00:29:29,029 --> 00:29:26,480

here for long so the bottom line is

821

00:29:31,110 --> 00:29:29,039

the web of life the pillars of the web

822

00:29:33,350 --> 00:29:31,120

of life are completely collapsing back

823

00:29:36,230 --> 00:29:33,360

to the dead oceans in fukushima

824

00:29:38,710 --> 00:29:36,240

obviously fukushima is an absolute

825

00:29:40,870 --> 00:29:38,720

cataclysm with no end in sight no known

826

00:29:43,430 --> 00:29:40,880

technology to fix it three nuclear

827

00:29:45,269 --> 00:29:43,440

full-blown china syndrome meltdowns and

828

00:29:47,269 --> 00:29:45,279

we're building 60 more

829

00:29:48,630 --> 00:29:47,279

of these reactors right now we have 400

830

00:29:50,870 --> 00:29:48,640

plus on the globe

831

00:29:53,029 --> 00:29:50,880

all of them are ticking fukushima time

832

00:29:54,630 --> 00:29:53,039

clocks but is that the major causal

833

00:29:57,430 --> 00:29:54,640

factors for the dead oceans you

834

00:29:59,510 --> 00:29:57,440

described no it is not is it a problem

835

00:30:01,110 --> 00:29:59,520

absolutely is it a worsening problem

836

00:30:02,870 --> 00:30:01,120

absolutely is the fish contaminated all

837

00:30:06,310 --> 00:30:02,880

the way to the west coast of the us

838

00:30:08,470 --> 00:30:06,320

absolutely but nuclear

839

00:30:11,190 --> 00:30:08,480

contamination in that form does not kill

840

00:30:13,350 --> 00:30:11,200

with the kind of speed we're seeing now

841

00:30:15,990 --> 00:30:13,360

what's the major sources of the die-off

842

00:30:16,870 --> 00:30:16,000

the oceans are warming at catastrophic

843

00:30:20,310 --> 00:30:16,880

speed

844

00:30:22,149 --> 00:30:20,320

warmer water holds far less oxygen so we

845

00:30:23,510 --> 00:30:22,159

have dead zones occurring all over the

846

00:30:26,070 --> 00:30:23,520

globe these are

847

00:30:29,269 --> 00:30:26,080

hypoxic and anoxic zones low and no

848

00:30:31,269 --> 00:30:29,279

oxygen and that is what kills with the

849

00:30:32,789 --> 00:30:31,279

greatest speed back to the bermuda

850

00:30:34,470 --> 00:30:32,799

triangle and the ship sinking's there

851
00:30:36,389 --> 00:30:34,480
that we now know is methane released

852
00:30:38,789 --> 00:30:36,399
from the sea floor so when you have

853
00:30:39,909 --> 00:30:38,799
these massive fields of methane releases

854
00:30:41,909 --> 00:30:39,919
you have

855
00:30:44,070 --> 00:30:41,919
hydrogen sulfide can release with it the

856
00:30:45,510 --> 00:30:44,080
water deoxygenates everything in that

857
00:30:47,350 --> 00:30:45,520
region dies

858
00:30:49,750 --> 00:30:47,360
we have plankton die off right now let's

859
00:30:51,590 --> 00:30:49,760
let's weave that back to geo engineering

860
00:30:53,669 --> 00:30:51,600
climate engineering destroying the ozone

861
00:30:55,430 --> 00:30:53,679
layer single greatest causal factor for

862
00:30:58,710 --> 00:30:55,440
destroying the ozone layer at the

863
00:31:00,870 --> 00:30:58,720

current rate of ozone loss

864

00:31:03,590 --> 00:31:00,880

we're looking at total ozone layer

865

00:31:05,510 --> 00:31:03,600

collapse by about 20 25 or 20

866

00:31:06,789 --> 00:31:05,520

so we have a former contract

867

00:31:07,990 --> 00:31:06,799

nasa contract engineer that worked

868

00:31:09,430 --> 00:31:08,000

directly with us with equipment we

869

00:31:11,990 --> 00:31:09,440

supplied him so that's one more factor

870

00:31:14,950 --> 00:31:12,000

that gives us a very short timeline but

871

00:31:17,510 --> 00:31:14,960

the destroyed ozone layer kills plankton

872

00:31:19,510 --> 00:31:17,520

what's the bottom line pillar not just

873

00:31:23,269 --> 00:31:19,520

for the ocean food chain but actually

874

00:31:25,029 --> 00:31:23,279

for life on earth plankton plankton

875

00:31:28,470 --> 00:31:25,039

yep correct

876

00:31:31,350 --> 00:31:28,480

no doubt and and when and i want you to

877

00:31:34,149 --> 00:31:31,360

continue but we always think of trees as

878

00:31:34,870 --> 00:31:34,159

our source of oxygen right and okay all

879

00:31:37,029 --> 00:31:34,880

right

880

00:31:39,430 --> 00:31:37,039

you know okay we can go with that

881

00:31:42,789 --> 00:31:39,440

plankton and the oceans

882

00:31:45,509 --> 00:31:42,799

are the the the base of all of the food

883

00:31:47,830 --> 00:31:45,519

cycles and and the oxygen from the ocean

884

00:31:49,830 --> 00:31:47,840

that feeds our atmosphere

885

00:31:52,070 --> 00:31:49,840

and if we're removing the oxygen from

886

00:31:53,590 --> 00:31:52,080

the oceans then you can

887

00:31:54,389 --> 00:31:53,600

start to figure out what's going on

888

00:31:55,590 --> 00:31:54,399

right

889

00:31:57,830 --> 00:31:55,600

correct and

890

00:31:59,590 --> 00:31:57,840

boreal forest second greatest source of

891

00:32:00,630 --> 00:31:59,600

oxygen on the planet plankton greatest

892

00:32:02,230 --> 00:32:00,640

source

893

00:32:03,830 --> 00:32:02,240

so the food chain in the ocean is

894

00:32:05,190 --> 00:32:03,840

absolutely collapsing plankton have to

895

00:32:06,870 --> 00:32:05,200

feed in the upper layers of the water

896

00:32:09,029 --> 00:32:06,880

column because they photosynthesize

897

00:32:11,269 --> 00:32:09,039

they're being fried with the intense uv

898

00:32:13,830 --> 00:32:11,279

and i'm not stating though that this is

899

00:32:15,269 --> 00:32:13,840

the only problem again we have fukushima

900

00:32:17,269 --> 00:32:15,279

we have

901
00:32:19,110 --> 00:32:17,279
countless sources of contamination into

902
00:32:20,230 --> 00:32:19,120
our seas i mean we've

903
00:32:21,909 --> 00:32:20,240
we have poisoned them in every

904
00:32:24,230 --> 00:32:21,919
imaginable way

905
00:32:27,430 --> 00:32:24,240
but the warming of the oceans is also a

906
00:32:30,310 --> 00:32:27,440
huge factor statistically

907
00:32:32,470 --> 00:32:30,320
the planet is warming at the thermal

908
00:32:34,870 --> 00:32:32,480
energy equivalent rate the heat energy

909
00:32:37,909 --> 00:32:34,880
equivalent rate of four to five

910
00:32:40,230 --> 00:32:37,919
hiroshima bombs per second

911
00:32:41,990 --> 00:32:40,240
per second and i i realize that may be

912
00:32:43,509 --> 00:32:42,000
hard to fathom for people i encourage

913
00:32:44,789 --> 00:32:43,519

them to look it up they will find

914

00:32:46,710 --> 00:32:44,799

science study

915

00:32:49,269 --> 00:32:46,720

citing exactly what i just stated that's

916

00:32:52,149 --> 00:32:49,279

a thermal energy equivalent of about 400

917

00:32:53,830 --> 00:32:52,159

000 fukushima bombs per day

918

00:32:56,470 --> 00:32:53,840

that energy has gone into the oceans

919

00:32:59,669 --> 00:32:56,480

we're seeing ocean temperatures in some

920

00:33:00,710 --> 00:32:59,679

regions of the arctic 25 degrees above

921

00:33:01,509 --> 00:33:00,720

normal

922

00:33:03,190 --> 00:33:01,519

so

923

00:33:04,630 --> 00:33:03,200

all of this creates this cascading

924

00:33:05,830 --> 00:33:04,640

effect that you described before the

925

00:33:06,710 --> 00:33:05,840

last break

926
00:33:09,350 --> 00:33:06,720
and

927
00:33:10,870 --> 00:33:09,360
one factor triggers 10 more which

928
00:33:13,190 --> 00:33:10,880
triggered 10 more

929
00:33:15,350 --> 00:33:13,200
bottom line is we're on the fast track

930
00:33:17,269 --> 00:33:15,360
to a lifeless planet and here's the big

931
00:33:18,950 --> 00:33:17,279
variable jimmy it's not that you wake up

932
00:33:20,310 --> 00:33:18,960
overnight the planet stops supporting

933
00:33:22,870 --> 00:33:20,320
life overnight

934
00:33:24,630 --> 00:33:22,880
but the power structure knows this is

935
00:33:26,070 --> 00:33:24,640
unfolding they know they can't hide it

936
00:33:28,149 --> 00:33:26,080
from the population much longer and i

937
00:33:29,590 --> 00:33:28,159
would argue this at the moment

938
00:33:31,269 --> 00:33:29,600

they believe

939

00:33:33,430 --> 00:33:31,279

they can't hide it any longer the power

940

00:33:35,590 --> 00:33:33,440

structure will play some very big cards

941

00:33:37,509 --> 00:33:35,600

global conflict perhaps false flags that

942

00:33:39,590 --> 00:33:37,519

make 911 look like

943

00:33:41,830 --> 00:33:39,600

uh kids playing with firecrackers who

944

00:33:43,269 --> 00:33:41,840

knows what they will do at this point

945

00:33:44,070 --> 00:33:43,279

what

946

00:33:48,470 --> 00:33:44,080

uh

947

00:33:49,750 --> 00:33:48,480

i just want your imagination to run free

948

00:33:51,430 --> 00:33:49,760

for a second

949

00:33:54,549 --> 00:33:51,440

what is it

950

00:33:56,710 --> 00:33:54,559

that the these bankers and these power

951
00:33:59,909 --> 00:33:56,720
players at the very top of uh the

952
00:34:03,509 --> 00:33:59,919
pyramid the very top of everything

953
00:34:06,549 --> 00:34:03,519
what do they expect to be living on

954
00:34:08,470 --> 00:34:06,559
when there are no bees to pollinate when

955
00:34:09,990 --> 00:34:08,480
there are no insects when there are no

956
00:34:12,869 --> 00:34:10,000
fish in the oceans

957
00:34:15,430 --> 00:34:12,879
what fun what beautiful planet are they

958
00:34:17,109 --> 00:34:15,440
planning on living on with with all of

959
00:34:19,430 --> 00:34:17,119
the money and the power in the future if

960
00:34:20,710 --> 00:34:19,440
they destroy everything i just don't

961
00:34:23,669 --> 00:34:20,720
understand

962
00:34:25,669 --> 00:34:23,679
the uh the moral uh aspect of this i

963
00:34:27,909 --> 00:34:25,679

don't get it dane

964

00:34:30,310 --> 00:34:27,919

let's examine that question first you're

965

00:34:31,349 --> 00:34:30,320

exactly correct you know many ask

966

00:34:33,349 --> 00:34:31,359

jimmy

967

00:34:34,790 --> 00:34:33,359

who are they who are they at the top of

968

00:34:36,470 --> 00:34:34,800

the pyramid and you're exactly right

969

00:34:38,550 --> 00:34:36,480

it's the central bankers and i.e those

970

00:34:40,069 --> 00:34:38,560

who run the central bankers they can

971

00:34:41,829 --> 00:34:40,079

print whatever they want for whatever

972

00:34:43,270 --> 00:34:41,839

they want they they own militaries

973

00:34:44,629 --> 00:34:43,280

therefore they own countries that is the

974

00:34:47,510 --> 00:34:44,639

top of the food chain as you correctly

975

00:34:49,430 --> 00:34:47,520

stated in regard to their behavior again

976
00:34:50,629 --> 00:34:49,440
we have to look at it as a complex

977
00:34:54,470 --> 00:34:50,639
scenario

978
00:34:56,950 --> 00:34:54,480
that this paradigm that has been formed

979
00:34:58,390 --> 00:34:56,960
has always been a certain near-term

980
00:35:00,470 --> 00:34:58,400
death sentence if it was allowed to

981
00:35:01,349 --> 00:35:00,480
continue but those in power

982
00:35:03,750 --> 00:35:01,359
jimmy

983
00:35:06,950 --> 00:35:03,760
we know how addictive power is it's

984
00:35:08,550 --> 00:35:06,960
certainly the perhaps the most addictive

985
00:35:10,950 --> 00:35:08,560
uh

986
00:35:13,190 --> 00:35:10,960
factor for certain types of people

987
00:35:14,790 --> 00:35:13,200
and if we look at psychoanalysis of

988
00:35:16,150 --> 00:35:14,800

those types of people that end up at the

989

00:35:17,910 --> 00:35:16,160

top of the food chain because they do

990

00:35:20,310 --> 00:35:17,920

things that you or i wouldn't

991

00:35:22,150 --> 00:35:20,320

there's a common thread in their various

992

00:35:23,829 --> 00:35:22,160

forms of psychosis

993

00:35:25,430 --> 00:35:23,839

and that common thread is this and this

994

00:35:27,510 --> 00:35:25,440

is straight from the psychoanalysis

995

00:35:29,510 --> 00:35:27,520

manual a near total lack of

996

00:35:31,510 --> 00:35:29,520

comprehension as to the consequences of

997

00:35:32,470 --> 00:35:31,520

their actions even to themselves they

998

00:35:36,310 --> 00:35:32,480

behave

999

00:35:38,630 --> 00:35:36,320

and at this point the whole system is

1000

00:35:40,710 --> 00:35:38,640

like a cancer with each cell

1001
00:35:43,589 --> 00:35:40,720
and perhaps good men and women in this

1002
00:35:45,190 --> 00:35:43,599
process that are simply in their

1003
00:35:47,270 --> 00:35:45,200
compartmentalized bubble and don't

1004
00:35:49,510 --> 00:35:47,280
realize what they're participating in

1005
00:35:53,030 --> 00:35:49,520
and the goal of the cancer is what jimmy

1006
00:35:54,230 --> 00:35:53,040
to proliferate to expand at any cost

1007
00:35:56,550 --> 00:35:54,240
the host

1008
00:36:00,470 --> 00:35:56,560
eventually dies and that is the track

1009
00:36:02,550 --> 00:36:00,480
we're on what fun would it be living in

1010
00:36:04,069 --> 00:36:02,560
a bunker for the next hundred years with

1011
00:36:06,230 --> 00:36:04,079
your family

1012
00:36:08,790 --> 00:36:06,240
right because that's what they're gonna

1013
00:36:11,349 --> 00:36:08,800

end up doing

1014

00:36:14,870 --> 00:36:11,359

well we would be fortunate if it was a

1015

00:36:15,750 --> 00:36:14,880

hundred years if we look at

1016

00:36:17,270 --> 00:36:15,760

past

1017

00:36:19,109 --> 00:36:17,280

events in earth's history we're in the

1018

00:36:21,030 --> 00:36:19,119

sixth great mass extinction now and

1019

00:36:23,750 --> 00:36:21,040

we're not just entering that curve we

1020

00:36:25,750 --> 00:36:23,760

are far into that curve

1021

00:36:28,069 --> 00:36:25,760

and if we look at paleo events the most

1022

00:36:30,470 --> 00:36:28,079

comparable is called the petum event the

1023

00:36:33,030 --> 00:36:30,480

paleocene eocene thermal maximum 55

1024

00:36:35,349 --> 00:36:33,040

million years ago methane mass expulsion

1025

00:36:37,750 --> 00:36:35,359

but again an event that happened at

1026
00:36:40,230 --> 00:36:37,760
minimum 170 times slower than what's

1027
00:36:42,230 --> 00:36:40,240
happening now but even that event 55

1028
00:36:44,790 --> 00:36:42,240
million years ago the equilibrium period

1029
00:36:45,990 --> 00:36:44,800
afterward was about 10 to 20 million

1030
00:36:46,870 --> 00:36:46,000
years

1031
00:36:49,109 --> 00:36:46,880
so

1032
00:36:50,150 --> 00:36:49,119
i think we need to make it clear

1033
00:36:51,990 --> 00:36:50,160
that

1034
00:36:54,870 --> 00:36:52,000
we will never know the planet we have

1035
00:36:57,589 --> 00:36:54,880
known at best will know a planet

1036
00:36:59,589 --> 00:36:57,599
that supports some life now i know that

1037
00:37:01,670 --> 00:36:59,599
shuts people down and i want to stress

1038
00:37:03,589 --> 00:37:01,680

i'm not in any political party

1039

00:37:05,430 --> 00:37:03,599

i have unimaginable angst for the

1040

00:37:07,829 --> 00:37:05,440

so-called environmental organizations

1041

00:37:10,150 --> 00:37:07,839

and the global warming organizations and

1042

00:37:12,150 --> 00:37:10,160

their unimaginable hypocrisy for

1043

00:37:13,990 --> 00:37:12,160

ignoring this issue

1044

00:37:15,510 --> 00:37:14,000

they're protecting their 501c3

1045

00:37:17,030 --> 00:37:15,520

nonprofits so they're ignoring the

1046

00:37:19,190 --> 00:37:17,040

single greatest environmental threat of

1047

00:37:21,190 --> 00:37:19,200

all their hypocrisy has truly left me

1048

00:37:23,109 --> 00:37:21,200

perplexed

1049

00:37:25,190 --> 00:37:23,119

but that being said

1050

00:37:27,589 --> 00:37:25,200

the severity of our situation is what it

1051

00:37:30,790 --> 00:37:27,599

is and i i can't

1052

00:37:32,710 --> 00:37:30,800

candy coat that i won't do that but

1053

00:37:35,190 --> 00:37:32,720

i would argue this as dark as the

1054

00:37:36,950 --> 00:37:35,200

horizon is if our collective efforts

1055

00:37:39,349 --> 00:37:36,960

could salvage any part of earth's life

1056

00:37:41,109 --> 00:37:39,359

support systems so that someone makes it

1057

00:37:42,150 --> 00:37:41,119

through this is that not worth fighting

1058

00:37:43,670 --> 00:37:42,160

for

1059

00:37:49,190 --> 00:37:43,680

that's exactly right

1060

00:37:52,550 --> 00:37:49,200

uh these these huge global

1061

00:37:54,470 --> 00:37:52,560

uh companies like buyer and and monsanto

1062

00:37:56,950 --> 00:37:54,480

these large you know dupont the large

1063

00:37:59,270 --> 00:37:56,960

chemical companies that also

1064

00:38:02,470 --> 00:37:59,280

uh control every aspect of the

1065

00:38:04,790 --> 00:38:02,480

geoengineering side of things one

1066

00:38:05,910 --> 00:38:04,800

they have the gmo seeds that are going

1067

00:38:08,310 --> 00:38:05,920

in the ground

1068

00:38:10,390 --> 00:38:08,320

they sell those to the farmers they loan

1069

00:38:13,349 --> 00:38:10,400

the farmers the money and this is on a

1070

00:38:15,109 --> 00:38:13,359

global scale this is across countries

1071

00:38:17,190 --> 00:38:15,119

they loan them the money in a lease

1072

00:38:20,069 --> 00:38:17,200

program to to purchase the equipment and

1073

00:38:22,630 --> 00:38:20,079

the seeds then they they turn around and

1074

00:38:24,630 --> 00:38:22,640

control the water from the air

1075

00:38:26,870 --> 00:38:24,640

they are spraying

1076

00:38:29,270 --> 00:38:26,880

the the air with the stuff that is

1077

00:38:30,550 --> 00:38:29,280

controlling what they are planning in

1078

00:38:33,109 --> 00:38:30,560

the ground

1079

00:38:36,390 --> 00:38:33,119

and they are paid at every scale and

1080

00:38:39,430 --> 00:38:36,400

profit from every version

1081

00:38:42,069 --> 00:38:39,440

of their business model that ultimately

1082

00:38:43,670 --> 00:38:42,079

is what is happening today and nobody

1083

00:38:46,390 --> 00:38:43,680

wants to stand up and do anything about

1084

00:38:48,470 --> 00:38:46,400

it dane

1085

00:38:50,230 --> 00:38:48,480

what you describe is exactly right jimmy

1086

00:38:53,349 --> 00:38:50,240

i mean you've you've always been

1087

00:38:56,230 --> 00:38:53,359

completely on top of

1088

00:38:58,069 --> 00:38:56,240

the scenarios in our

1089

00:39:00,470 --> 00:38:58,079

paradigm you know i know that from our

1090

00:39:02,390 --> 00:39:00,480

previous conversations and

1091

00:39:05,109 --> 00:39:02,400

this is where you end up we're back at

1092

00:39:07,430 --> 00:39:05,119

the cancer point where so many are just

1093

00:39:08,390 --> 00:39:07,440

going about their lives

1094

00:39:10,230 --> 00:39:08,400

in

1095

00:39:12,230 --> 00:39:10,240

a sort of a bubble

1096

00:39:16,230 --> 00:39:12,240

and not realizing that

1097

00:39:17,829 --> 00:39:16,240

this paradigm in and of itself

1098

00:39:19,430 --> 00:39:17,839

is

1099

00:39:20,870 --> 00:39:19,440

has pushed us past the point of no

1100

00:39:23,349 --> 00:39:20,880

return and i want to i want to stress

1101
00:39:24,550 --> 00:39:23,359
that too we're we are through the guard

1102
00:39:26,390 --> 00:39:24,560
rail

1103
00:39:28,710 --> 00:39:26,400
and as you know if you crash through the

1104
00:39:30,150 --> 00:39:28,720
guardrail and you're hurtling through

1105
00:39:33,190 --> 00:39:30,160
the air putting on your brakes doesn't

1106
00:39:35,190 --> 00:39:33,200
do a lot of good at that point and

1107
00:39:37,510 --> 00:39:35,200
as i've compared in the past the human

1108
00:39:39,670 --> 00:39:37,520
race right now the majority of the human

1109
00:39:41,349 --> 00:39:39,680
race unfortunately is like the occupants

1110
00:39:42,870 --> 00:39:41,359
of that car

1111
00:39:44,470 --> 00:39:42,880
and they're arguing about what station

1112
00:39:45,589 --> 00:39:44,480
to put the radio on while they're

1113
00:39:47,270 --> 00:39:45,599

hurtling through the air toward the

1114

00:39:49,190 --> 00:39:47,280

bottom of the canyon

1115

00:39:51,510 --> 00:39:49,200

and that paradigm has to change and

1116

00:39:53,750 --> 00:39:51,520

again it it must change from the bottom

1117

00:39:55,510 --> 00:39:53,760

up we are being censored

1118

00:39:57,109 --> 00:39:55,520

so radically and i know you know this

1119

00:40:00,069 --> 00:39:57,119

you mentioned it earlier as an example

1120

00:40:01,829 --> 00:40:00,079

for this geoengineeringwatch.org

1121

00:40:04,390 --> 00:40:01,839

should be and was the top of the first

1122

00:40:05,990 --> 00:40:04,400

page on a google search which is the the

1123

00:40:06,870 --> 00:40:06,000

eighty percent of search engines on the

1124

00:40:08,470 --> 00:40:06,880

planet

1125

00:40:12,230 --> 00:40:08,480

we're the top of the first page for a

1126

00:40:14,790 --> 00:40:12,240

search of the geoengineering term

1127

00:40:18,230 --> 00:40:14,800

about five months ago google completely

1128

00:40:19,030 --> 00:40:18,240

erased us gone deleted from 20 pages of

1129

00:40:22,470 --> 00:40:19,040

their

1130

00:40:24,710 --> 00:40:22,480

engineering term we're still on the top

1131

00:40:26,470 --> 00:40:24,720

of other search engines being duckduckgo

1132

00:40:27,829 --> 00:40:26,480

but that's the kind of censorship we're

1133

00:40:30,230 --> 00:40:27,839

experiencing we have a hundred thousand

1134

00:40:32,310 --> 00:40:30,240

youtube subscribers it goes out to none

1135

00:40:33,750 --> 00:40:32,320

we have four massive facebook pages with

1136

00:40:36,390 --> 00:40:33,760

three or four hundred thousand likes

1137

00:40:38,950 --> 00:40:36,400

between all of them goes out to no one i

1138

00:40:40,230 --> 00:40:38,960

mean uh they are desperately trying to

1139

00:40:42,870 --> 00:40:40,240

hide this issue because again i would

1140

00:40:44,150 --> 00:40:42,880

argue of all the challenges we face

1141

00:40:46,870 --> 00:40:44,160

this issue

1142

00:40:49,109 --> 00:40:46,880

is the most grave

1143

00:40:52,470 --> 00:40:49,119

the most immediate threat of all and

1144

00:40:54,630 --> 00:40:52,480

potentially the most uniting issue for

1145

00:40:57,270 --> 00:40:54,640

populations all over the globe if we

1146

00:40:59,109 --> 00:40:57,280

could expose this it would unite

1147

00:41:00,790 --> 00:40:59,119

catalyzed populations into a common

1148

00:41:04,550 --> 00:41:00,800

cause they would understand again what

1149

00:41:07,750 --> 00:41:06,950

over the last year

1150

00:41:27,910 --> 00:41:07,760

i

1151

00:41:29,829 --> 00:41:27,920

the news has

1152

00:41:33,510 --> 00:41:29,839

completely flipped

1153

00:41:36,790 --> 00:41:33,520

in that now ice is now growing again in

1154

00:41:39,430 --> 00:41:36,800

greenland and and antarctica are they

1155

00:41:41,510 --> 00:41:39,440

trying to change the public's perception

1156

00:41:44,390 --> 00:41:41,520

as to what is going on

1157

00:41:47,670 --> 00:41:44,400

or is there actual cooling and ice is

1158

00:41:49,910 --> 00:41:47,680

starting to grow again which way is it

1159

00:41:52,390 --> 00:41:49,920

well as i state this i want i'm asking

1160

00:41:55,670 --> 00:41:52,400

your listeners to not believe me

1161

00:41:57,990 --> 00:41:55,680

but to look at for example a film online

1162

00:42:01,190 --> 00:41:58,000

called chasing ice they can watch this i

1163

00:42:03,589 --> 00:42:01,200

think it's 2.99 online so they don't

1164

00:42:04,950 --> 00:42:03,599

have to believe me or anyone else they

1165

00:42:06,710 --> 00:42:04,960

can see with their own eyes a

1166

00:42:09,349 --> 00:42:06,720

non-political film

1167

00:42:11,829 --> 00:42:09,359

that shows firsthand unbelievably

1168

00:42:13,510 --> 00:42:11,839

shocking riveting footage of ice

1169

00:42:15,510 --> 00:42:13,520

deposits all over the globe

1170

00:42:16,470 --> 00:42:15,520

disintegrating so the story about

1171

00:42:18,870 --> 00:42:16,480

greenland

1172

00:42:21,589 --> 00:42:18,880

that was hyped up to create exactly the

1173

00:42:23,430 --> 00:42:21,599

fact that it is clearly created

1174

00:42:24,630 --> 00:42:23,440

was about one

1175

00:42:27,030 --> 00:42:24,640

single

1176

00:42:28,829 --> 00:42:27,040

glacier that they statistically made it

1177

00:42:31,430 --> 00:42:28,839

look like there was more loading on that

1178

00:42:32,950 --> 00:42:31,440

glacier why because there's more

1179

00:42:34,390 --> 00:42:32,960

precipitation there why is there more

1180

00:42:36,550 --> 00:42:34,400

precipitation because you have more

1181

00:42:38,230 --> 00:42:36,560

precipitation on a warming planet the

1182

00:42:41,190 --> 00:42:38,240

atmosphere holds seven percent more

1183

00:42:42,950 --> 00:42:41,200

moisture for every degree sea of warming

1184

00:42:44,630 --> 00:42:42,960

the climate engineers can manipulate

1185

00:42:47,589 --> 00:42:44,640

direct that and chemically nucleate it

1186

00:42:48,710 --> 00:42:47,599

to load a little bit more in one small

1187

00:42:50,470 --> 00:42:48,720

region

1188

00:42:51,270 --> 00:42:50,480

it probably

1189

00:42:53,190 --> 00:42:51,280

one

1190

00:42:55,510 --> 00:42:53,200

two hundredth of greenland's surface

1191

00:42:58,309 --> 00:42:55,520

area and yet that one two hundredth is

1192

00:42:59,510 --> 00:42:58,319

what made headlines while the other 199

1193

00:43:01,109 --> 00:42:59,520

200s

1194

00:43:02,069 --> 00:43:01,119

were disintegrating

1195

00:43:03,750 --> 00:43:02,079

so

1196

00:43:07,270 --> 00:43:03,760

what we have is

1197

00:43:09,910 --> 00:43:07,280

right now today as we speak

1198

00:43:12,870 --> 00:43:09,920

record low global

1199

00:43:14,870 --> 00:43:12,880

polar ice right now today uncharted

1200

00:43:17,190 --> 00:43:14,880

territory record low

1201

00:43:19,349 --> 00:43:17,200

what we see with temperature readings we

1202

00:43:21,910 --> 00:43:19,359

don't see an and i'm not a gore fan i

1203

00:43:24,470 --> 00:43:21,920

want to state that for your listeners

1204

00:43:26,710 --> 00:43:24,480

al gore was quite the hypocrite carbon

1205

00:43:27,990 --> 00:43:26,720

credits are a sham but that doesn't

1206

00:43:29,990 --> 00:43:28,000

change the reality and climate

1207

00:43:31,510 --> 00:43:30,000

engineering has been used to divide the

1208

00:43:33,109 --> 00:43:31,520

population exactly what you just

1209

00:43:35,750 --> 00:43:33,119

described is how climate engineering is

1210

00:43:37,030 --> 00:43:35,760

used and remember jimmy remember all the

1211

00:43:39,750 --> 00:43:37,040

snow in

1212

00:43:41,589 --> 00:43:39,760

boston 2014 2015 all the headlines about

1213

00:43:42,790 --> 00:43:41,599

record snow in boston absolutely

1214

00:43:44,710 --> 00:43:42,800

absolutely

1215

00:43:47,030 --> 00:43:44,720

what didn't they tell us when that was

1216

00:43:49,270 --> 00:43:47,040

occurring they didn't tell us

1217

00:43:50,470 --> 00:43:49,280

oh by the way fourteen thousand feet up

1218

00:43:53,190 --> 00:43:50,480

in the sierras in the middle of winter

1219

00:43:54,470 --> 00:43:53,200

there is nothing nothing no snow what

1220

00:43:56,069 --> 00:43:54,480

don't they tell us about global

1221

00:43:58,710 --> 00:43:56,079

temperatures this is scientifically

1222

00:44:02,870 --> 00:43:58,720

absolutely indisputed period

1223

00:44:04,630 --> 00:44:02,880

we are at the 400 i believe the 413th or

1224

00:44:07,430 --> 00:44:04,640

414th

1225

00:44:09,349 --> 00:44:07,440

consecutive month of above

1226

00:44:11,069 --> 00:44:09,359

normal global temperatures and

1227

00:44:13,109 --> 00:44:11,079

everywhere we monitor

1228

00:44:15,030 --> 00:44:13,119

geoengineeringwatch.org monitors again

1229

00:44:16,470 --> 00:44:15,040

we see an under reporting of the

1230

00:44:17,589 --> 00:44:16,480

official high temperatures not an over

1231

00:44:19,430 --> 00:44:17,599

reporting

1232

00:44:22,550 --> 00:44:19,440

we're seeing nighttime low temperatures

1233

00:44:24,150 --> 00:44:22,560

rise twice as fast as daytime highs

1234

00:44:25,430 --> 00:44:24,160

when they create an engineered cool down

1235

00:44:27,109 --> 00:44:25,440

event and they just did the same thing

1236

00:44:29,510 --> 00:44:27,119

last year with lake erie remember that

1237

00:44:32,150 --> 00:44:29,520

lake erie had record snow that's right

1238

00:44:35,030 --> 00:44:32,160

tiny little area and they had to use the

1239

00:44:37,750 --> 00:44:35,040

lake effect snow to create that in one

1240

00:44:40,230 --> 00:44:37,760

tiny little patch of real estate

1241

00:44:42,390 --> 00:44:40,240

to nucleate this this

1242

00:44:44,390 --> 00:44:42,400

winter weather we see the same thing

1243

00:44:46,630 --> 00:44:44,400

through uh parts of the great lakes

1244

00:44:48,309 --> 00:44:46,640

regions even the minnesota just snowed

1245

00:44:49,990 --> 00:44:48,319

in may you probably saw that the

1246

00:44:52,069 --> 00:44:50,000

minneapolis got their all-time hundred

1247

00:44:54,470 --> 00:44:52,079

and seventeen year record snow for me

1248

00:44:57,589 --> 00:44:54,480

you see that yep

1249

00:45:01,750 --> 00:44:57,599

all of that one tiny place in the whole

1250

00:45:03,270 --> 00:45:01,760

wide world is used to create a headline

1251

00:45:05,829 --> 00:45:03,280

that is then used to

1252

00:45:07,990 --> 00:45:05,839

polarize and divide the population

1253

00:45:09,589 --> 00:45:08,000

and thus keep their eye off the ball and

1254

00:45:10,550 --> 00:45:09,599

certainly to keep their eye off of the

1255

00:45:11,910 --> 00:45:10,560

sky

1256

00:45:16,630 --> 00:45:11,920

so

1257

00:45:18,550 --> 00:45:16,640

off the scale

1258

00:45:20,230 --> 00:45:18,560

meltdown temperatures

1259

00:45:23,109 --> 00:45:20,240

and again

1260

00:45:25,109 --> 00:45:23,119

this is not about

1261

00:45:27,270 --> 00:45:25,119

the type of

1262

00:45:28,550 --> 00:45:27,280

carbon credit sham or the sort of

1263

00:45:29,670 --> 00:45:28,560

environmental

1264

00:45:30,870 --> 00:45:29,680

group

1265

00:45:32,550 --> 00:45:30,880

mantras

1266

00:45:34,390 --> 00:45:32,560

that are ignoring the climate

1267

00:45:36,230 --> 00:45:34,400

engineering elephant in the room

1268

00:45:38,550 --> 00:45:36,240

again i have great angst for those

1269

00:45:40,710 --> 00:45:38,560

groups and those people

1270

00:45:42,069 --> 00:45:40,720

but the facts are what they are we live

1271

00:45:43,349 --> 00:45:42,079

in a fish bowl

1272

00:45:45,030 --> 00:45:43,359

everything we put in the atmosphere

1273

00:45:46,630 --> 00:45:45,040

doesn't float off into space somewhere

1274

00:45:48,150 --> 00:45:46,640

it stays here

1275

00:45:49,990 --> 00:45:48,160

and you can't do what we've done to the

1276

00:45:51,510 --> 00:45:50,000

planet and not have unimaginable

1277

00:45:53,349 --> 00:45:51,520

consequences

1278

00:45:55,349 --> 00:45:53,359

we just uh

1279

00:45:57,349 --> 00:45:55,359

went through these reports a couple of

1280

00:45:59,109 --> 00:45:57,359

weeks ago here in southern california

1281

00:46:01,349 --> 00:45:59,119

we've had all of this

1282

00:46:03,910 --> 00:46:01,359

crazy record rain right it's been

1283

00:46:05,270 --> 00:46:03,920

raining every single day and i enjoy it

1284

00:46:07,270 --> 00:46:05,280

because it never rains here it is

1285

00:46:09,109 --> 00:46:07,280

southern california but

1286

00:46:10,550 --> 00:46:09,119

these reports came out a couple of weeks

1287

00:46:13,030 --> 00:46:10,560

ago that

1288

00:46:16,790 --> 00:46:13,040

uh all of this record rain in record

1289

00:46:19,109 --> 00:46:16,800

snow but because of the

1290

00:46:20,950 --> 00:46:19,119

uh river system that we have built here

1291

00:46:23,270 --> 00:46:20,960

the la river and and so forth and

1292

00:46:24,230 --> 00:46:23,280

everything is concrete that 99 of the

1293

00:46:26,630 --> 00:46:24,240

water

1294

00:46:29,270 --> 00:46:26,640

uh didn't get to the aquifers and

1295

00:46:31,349 --> 00:46:29,280

replenish anything it just

1296

00:46:33,589 --> 00:46:31,359

rinsed out into the ocean

1297

00:46:35,990 --> 00:46:33,599

is there now you know and it just like

1298

00:46:37,349 --> 00:46:36,000

depressed me right we wasted the

1299

00:46:39,589 --> 00:46:37,359

opportunity

1300

00:46:42,710 --> 00:46:39,599

to save water it went out into the

1301

00:46:44,870 --> 00:46:42,720

oceans is there any benefit to that

1302

00:46:47,990 --> 00:46:44,880

fresh water going to the oceans does it

1303

00:46:51,270 --> 00:46:48,000

help us in the back end somewhere or was

1304

00:46:53,990 --> 00:46:53,190

well certainly when you interfere with

1305

00:46:58,390 --> 00:46:54,000

the

1306

00:46:59,270 --> 00:46:58,400

consequences but that being said given

1307

00:47:03,190 --> 00:46:59,280

the

1308

00:47:04,470 --> 00:47:03,200

uh human development we have now

1309

00:47:06,069 --> 00:47:04,480

obviously would make more sense to

1310

00:47:08,630 --> 00:47:06,079

retain that water

1311

00:47:10,309 --> 00:47:08,640

that being said this much all this must

1312

00:47:12,069 --> 00:47:10,319

be considered in the equation this is

1313

00:47:14,710 --> 00:47:12,079

the type of data that is not

1314

00:47:16,550 --> 00:47:14,720

disseminated on any official source even

1315

00:47:19,430 --> 00:47:16,560

though we see larger rain readings in

1316

00:47:22,069 --> 00:47:19,440

places and many of those places of late

1317

00:47:23,750 --> 00:47:22,079

have been in valley areas for example in

1318

00:47:26,790 --> 00:47:23,760

northern california

1319

00:47:29,829 --> 00:47:26,800

in the last several years reading

1320

00:47:32,069 --> 00:47:29,839

california which is near where i live

1321

00:47:34,630 --> 00:47:32,079

has had

1322

00:47:36,790 --> 00:47:34,640

substantial rain

1323

00:47:38,950 --> 00:47:36,800

readings rain

1324

00:47:40,950 --> 00:47:38,960

precipitation events in the valley areas

1325

00:47:43,270 --> 00:47:40,960

but what's not occurring orographic

1326
00:47:44,390 --> 00:47:43,280
enhancement what does that mean it means

1327
00:47:46,790 --> 00:47:44,400
in the mountains for example

1328
00:47:49,270 --> 00:47:46,800
northeastern writing where i live

1329
00:47:52,150 --> 00:47:49,280
during periods of recent years

1330
00:47:54,870 --> 00:47:52,160
the historic levels of enhanced rain

1331
00:47:56,390 --> 00:47:54,880
orographic enhancement are not occurring

1332
00:47:58,390 --> 00:47:56,400
so in areas

1333
00:47:59,990 --> 00:47:58,400
far northeast of rain that historically

1334
00:48:01,510 --> 00:48:00,000
would have gotten three or four times

1335
00:48:03,349 --> 00:48:01,520
the rain redding

1336
00:48:05,510 --> 00:48:03,359
would normally get

1337
00:48:07,510 --> 00:48:05,520
that is not occurring why isn't it

1338
00:48:08,950 --> 00:48:07,520

occurring because what we see

1339

00:48:11,190 --> 00:48:08,960

is as the moisture is moving in off the

1340

00:48:13,270 --> 00:48:11,200

pacific coast it's aerosolized i.e the

1341

00:48:14,230 --> 00:48:13,280

jet dispersions of tiny particles what

1342

00:48:16,390 --> 00:48:14,240

does that do

1343

00:48:18,630 --> 00:48:16,400

it creates too many condensation nuclei

1344

00:48:20,390 --> 00:48:18,640

too many particles so the moisture can't

1345

00:48:22,390 --> 00:48:20,400

combine in a big enough in a big enough

1346

00:48:24,870 --> 00:48:22,400

drop to fall as rain

1347

00:48:26,390 --> 00:48:24,880

so it migrates that moisture further so

1348

00:48:28,470 --> 00:48:26,400

we have days and days of this

1349

00:48:30,710 --> 00:48:28,480

featureless sky as they're migrating

1350

00:48:32,470 --> 00:48:30,720

that moisture inland to use it inland

1351

00:48:34,549 --> 00:48:32,480

radio frequency transmissions also

1352

00:48:36,470 --> 00:48:34,559

spreads this in every direction

1353

00:48:37,670 --> 00:48:36,480

um we might be out to a break so maybe

1354

00:48:39,349 --> 00:48:37,680

i'll say this should i save this after

1355

00:48:41,270 --> 00:48:39,359

the break jimmy yeah save it for after

1356

00:48:43,510 --> 00:48:41,280

the break and i'm reading uh what's

1357

00:48:45,430 --> 00:48:43,520

going on here on twitter like john just

1358

00:48:47,510 --> 00:48:45,440

said we got a lot more rain than usual

1359

00:48:50,069 --> 00:48:47,520

down here in kansas city the most since

1360

00:48:53,430 --> 00:48:50,079

1993 you're somebody else i live in

1361

00:48:56,150 --> 00:48:53,440

akron ohio and yes this is for real it's

1362

00:48:58,390 --> 00:48:56,160

getting worse every year too

1363

00:49:00,630 --> 00:48:58,400

so yeah you know i i think all of us can

1364

00:49:02,630 --> 00:49:00,640

recognize it and we you know we're all

1365

00:49:04,870 --> 00:49:02,640

old enough to live through the the

1366

00:49:07,349 --> 00:49:04,880

cycles of of spring and winter and

1367

00:49:09,670 --> 00:49:07,359

summer and see that things are different

1368

00:49:11,510 --> 00:49:09,680

today it's not like it was

1369

00:49:13,430 --> 00:49:11,520

and something is going on and we've got

1370

00:49:14,710 --> 00:49:13,440

to get to the bottom of it this is fade

1371

00:49:16,710 --> 00:49:14,720

to black our guest tonight dane

1372

00:49:17,750 --> 00:49:16,720

wiggington we come back we're going to

1373

00:49:19,510 --> 00:49:17,760

finish

1374

00:49:21,270 --> 00:49:19,520

where we are right now with this

1375

00:49:23,349 --> 00:49:21,280

conversation i'm your host jimmy church

1376

00:49:27,589 --> 00:49:23,359

twitter is on fire i'm reading all of it

1377

00:49:33,190 --> 00:49:30,069

you have just listened to a full hour
