1  
00:00:15,310 --> 00:00:12,360

[Music]

2  
00:00:19,420 --> 00:00:15,320

this hope radiates for the masses

3  
00:00:20,859 --> 00:00:19,430

headline the best in July 8 1947 beyond

4  
00:00:23,560 --> 00:00:20,869

the airport who has announced on

5  
00:00:25,810 --> 00:00:23,570

applying there - found under now in the

6  
00:00:29,340 --> 00:00:25,820

possession of the honor the game is

7  
00:00:32,189 --> 00:00:29,350

rigged change the game changer I

8  
00:00:36,460 --> 00:00:32,199

occasionally think how quickly our

9  
00:00:39,160 --> 00:00:36,470

differences worldwide would vanish if we

10  
00:00:40,660 --> 00:00:39,170

were facing an alien threat from outside

11  
00:00:42,350 --> 00:00:40,670

this way

12  
00:00:42,580 --> 00:00:42,360

[Music]

13  
00:00:46,030 --> 00:00:42,590

[Applause]

14

00:00:49,270 --> 00:00:46,040

[Music]

15

00:00:52,300 --> 00:00:49,280

two black with your host Jimmy church on

16

00:00:57,639 --> 00:00:52,310

the game-changer Radio Network and K GRA

17

00:01:06,910 --> 00:01:02,790

I need your help to get to the year 1985

18

00:01:09,670 --> 00:01:06,920

[Music]

19

00:01:11,580 --> 00:01:09,680

fade to black with Jimmy Church on the

20

00:01:26,330 --> 00:01:11,590

game changing Network

21

00:01:31,609 --> 00:01:26,340

[Music]

22

00:01:43,890 --> 00:01:34,330

fade to black

23

00:01:57,570 --> 00:01:45,770

[Music]

24

00:02:09,600 --> 00:02:05,550

today is Wednesday August 7 2019 218

25

00:02:10,109 --> 00:02:09,610

days into the new year just 147 days

26

00:02:13,710 --> 00:02:10,119

left

27

00:02:15,510 --> 00:02:13,720

we are live we are live from a bunker

28

00:02:19,950 --> 00:02:15,520

somewhere in the middle of beautiful

29

00:02:22,470 --> 00:02:19,960

downtown Burbank California and I would

30

00:02:26,490 --> 00:02:22,480

like to welcome everybody listening all

31

00:02:33,260 --> 00:02:26,500

around the world all across the United

32

00:02:39,200 --> 00:02:33,270

States hither and thither to and fro

33

00:02:43,410 --> 00:02:39,210

back and forth up and down east and west

34

00:02:46,260 --> 00:02:43,420

north and south far and near

35

00:02:48,090 --> 00:02:46,270

this is fade to black for kjc are the

36

00:02:51,650 --> 00:02:48,100

game changer Network in Katy RA the

37

00:02:55,290 --> 00:02:51,660

planet I am your host Jimmy Church

38

00:02:57,930 --> 00:02:55,300

what is cracking everybody are you ready

39

00:03:01,680 --> 00:02:57,940

what a week on the show amazing week

40

00:03:06,300 --> 00:03:01,690

amazing and tonight cap off this week

41

00:03:09,720 --> 00:03:06,310

Scott Wolter is here Scott we are going

42

00:03:13,740 --> 00:03:09,730

to do a full wrap-up of the latest

43

00:03:16,649 --> 00:03:13,750

season season for four of America on

44

00:03:22,179 --> 00:03:19,119

unbelievable Scott is back he is the

45

00:03:24,100 --> 00:03:22,189

author and host of America on earth has

46

00:03:26,920 --> 00:03:24,110

been president the American petrographic

47

00:03:30,100 --> 00:03:26,930

services since 1990 he's also

48

00:03:32,940 --> 00:03:30,110

responsible for all of the investigation

49

00:03:37,210 --> 00:03:32,950

going into the Kensington Runestone

50

00:03:41,080 --> 00:03:37,220

since the year 2000 and tonight we are

51  
00:03:44,830 --> 00:03:41,090  
going to discuss episode by episode the

52  
00:03:48,509 --> 00:03:44,840  
last season of America on earth season 4

53  
00:03:51,970 --> 00:03:48,519  
season 4 Scott congratulations

54  
00:03:54,180 --> 00:03:51,980  
hey Jimmy thank you for having me on and

55  
00:03:57,940 --> 00:03:54,190  
I can't believe we're sitting here

56  
00:04:00,580 --> 00:03:57,950  
talking about the season that is now

57  
00:04:02,860 --> 00:04:00,590  
aired M is in the history books it's

58  
00:04:06,119 --> 00:04:02,870  
it's just amazing you know they just

59  
00:04:08,920 --> 00:04:06,129  
went by so quick it's hard to believe

60  
00:04:10,180 --> 00:04:08,930  
man your man in the world you're a man

61  
00:04:14,970 --> 00:04:10,190  
of the world hey Scott am I on

62  
00:04:20,979 --> 00:04:18,550  
okay that's not it's just your cavernous

63  
00:04:25,719 --> 00:04:20,989

research facility that you're sitting in

64

00:04:28,000 --> 00:04:25,729

I see you know what happened I can go to

65

00:04:30,010 --> 00:04:28,010

a different room but we just about two

66

00:04:33,600 --> 00:04:30,020

weeks ago replace the carpet in our

67

00:04:35,950 --> 00:04:33,610

living room right with the good for oh

68

00:04:36,460 --> 00:04:35,960

that's what it see that's what I just

69

00:04:44,650 --> 00:04:36,470

said

70

00:04:46,300 --> 00:04:44,660

you're cavernous okay it's fine it's

71

00:04:49,060 --> 00:04:46,310

fine don't even worry about it no here

72

00:04:52,089 --> 00:04:49,070

we go I'm gonna listen only the best for

73

00:04:54,909 --> 00:04:52,099

you pal oh this Scott is better Scott

74

00:04:58,570 --> 00:04:54,919

yes that sounds great you want to attack

75

00:05:01,810 --> 00:04:58,580

did you go into a closet no I'm down in

76  
00:05:04,719 --> 00:05:01,820  
my basement my rock room and I'm gonna

77  
00:05:06,070 --> 00:05:04,729  
stare at Lake Superior agates and I'm

78  
00:05:08,439 --> 00:05:06,080  
just going to look at beautiful

79  
00:05:12,659 --> 00:05:08,449  
multicolored banding as I talk to you

80  
00:05:16,950 --> 00:05:12,669  
all right man I you know I I have

81  
00:05:19,240 --> 00:05:16,960  
assembled along with Rita an amazing

82  
00:05:21,909 --> 00:05:19,250  
collection of crystals and different

83  
00:05:26,140 --> 00:05:21,919  
stones and I don't know I have a bunch

84  
00:05:27,480 --> 00:05:26,150  
of stuff here in the bunker but over at

85  
00:05:30,150 --> 00:05:27,490  
the house now

86  
00:05:33,659 --> 00:05:30,160  
man it's it's it's just incredible and

87  
00:05:37,279 --> 00:05:33,669  
just right well you know the thing is is

88  
00:05:42,059 --> 00:05:37,289

I different stones like I'm doing now

89

00:05:45,260 --> 00:05:42,069

for the camera and you just look you

90

00:05:49,170 --> 00:05:45,270

look at it and you're holding history

91

00:05:52,499 --> 00:05:49,180

right and I wish I was I wish I was a

92

00:05:55,800 --> 00:05:52,509

geologist or I knew what I was looking

93

00:05:58,499 --> 00:05:55,810

at or how I you know how I could analyze

94

00:06:00,420 --> 00:05:58,509

the age of it and where it came from and

95

00:06:02,730 --> 00:06:00,430

and stuff because you're holding stuff

96

00:06:05,820 --> 00:06:02,740

that could be you know hundreds of

97

00:06:09,350 --> 00:06:05,830

millions if not billions or two years

98

00:06:14,339 --> 00:06:09,360

old and that you're holding history and

99

00:06:16,439 --> 00:06:14,349

I'm doing it right now as we talk so you

100

00:06:19,740 --> 00:06:16,449

know I just I'd love to hear you say

101  
00:06:21,120 --> 00:06:19,750  
that because I think most people out

102  
00:06:23,640 --> 00:06:21,130  
there don't have that kind of

103  
00:06:27,180 --> 00:06:23,650  
appreciation when they see something

104  
00:06:29,909 --> 00:06:27,190  
like a crystal or a fossil or something

105  
00:06:32,969 --> 00:06:29,919  
that's natural and beautiful and just

106  
00:06:35,370 --> 00:06:32,979  
stop and think about how old that is I

107  
00:06:37,469 --> 00:06:35,380  
mean that in itself is mind-boggling

108  
00:06:40,439 --> 00:06:37,479  
even you can't even put it into

109  
00:06:43,409 --> 00:06:40,449  
perspective you know with human life I

110  
00:06:46,260 --> 00:06:43,419  
mean it just goes so far back I mean if

111  
00:06:48,540 --> 00:06:46,270  
that doesn't sort of you know get your

112  
00:06:52,409 --> 00:06:48,550  
attention and humbly up nothing well

113  
00:06:55,890 --> 00:06:52,419

right I went I went into a cave and in

114

00:07:00,510 --> 00:06:55,900

like Tennessee or Kentucky when I was a

115

00:07:01,709 --> 00:07:00,520

kid and I remember that it's all caves

116

00:07:04,920 --> 00:07:01,719

down there right

117

00:07:07,170 --> 00:07:04,930

the I forget the names of each cave that

118

00:07:09,600 --> 00:07:07,180

is you know in each city they've got you

119

00:07:13,310 --> 00:07:09,610

know the the thing going on there but I

120

00:07:16,830 --> 00:07:13,320

went into this it's just this huge cave

121

00:07:19,459 --> 00:07:16,840

looking at you know I'm 10 years old 11

122

00:07:24,240 --> 00:07:19,469

years old looking at these crystals

123

00:07:26,330 --> 00:07:24,250

growing in there giant you know I don't

124

00:07:29,730 --> 00:07:26,340

even know how many feet you know huge

125

00:07:31,920 --> 00:07:29,740

lights to like right and I'm looking at

126

00:07:34,610 --> 00:07:31,930

what one of them was called it's isn't

127

00:07:36,839 --> 00:07:34,620

it called like the giant crystal cave

128

00:07:38,790 --> 00:07:36,849

yeah yeah crystal

129

00:07:40,800 --> 00:07:38,800

that's right I've been there yeah it's

130

00:07:42,870 --> 00:07:40,810

it's insane

131

00:07:45,960 --> 00:07:42,880

to walk through there I mean it's just

132

00:07:49,500 --> 00:07:45,970

insane and and they're growing they're

133

00:07:51,810 --> 00:07:49,510

alive they are alive you are a hundred

134

00:07:54,900 --> 00:07:51,820

percent right and they go for miles and

135

00:07:57,660 --> 00:07:54,910

miles in some cases they go for tens and

136

00:07:59,730 --> 00:07:57,670

even hundreds of miles underground can

137

00:08:08,850 --> 00:07:59,740

you imagine if you ever got lost in

138

00:08:12,300 --> 00:08:08,860

there yeah I know people did get lost

139

00:08:15,810 --> 00:08:12,310

I just watched I want to move on but I

140

00:08:20,850 --> 00:08:15,820

just watched a documentary that took

141

00:08:22,620 --> 00:08:20,860

place and I want to say it was Guatemala

142

00:08:25,410 --> 00:08:22,630

I could be wrong but there was a giant

143

00:08:28,380 --> 00:08:25,420

cave system down there and so they

144

00:08:31,880 --> 00:08:28,390

they're down there and they find what

145

00:08:34,770 --> 00:08:31,890

they're calling the the the first human

146

00:08:36,330 --> 00:08:34,780

you know in in the Americas I think

147

00:08:39,780 --> 00:08:36,340

that's the title of the documentary it's

148

00:08:47,540 --> 00:08:39,790

a NatGeo thing or PBS and it was of a

149

00:08:51,990 --> 00:08:47,550

girl and I think she was fifteen

150

00:08:55,200 --> 00:08:52,000

thousand years old I could be wrong in

151  
00:08:57,420 --> 00:08:55,210  
that but becae old it was somewhere but

152  
00:09:01,430 --> 00:08:57,430  
she had clothes or you know I mean she

153  
00:09:04,920 --> 00:09:01,440  
had stuff I okay but but anyway anyway

154  
00:09:09,360 --> 00:09:04,930  
she got lost she got lost in the cave

155  
00:09:10,950 --> 00:09:09,370  
got lost lost her footing and was you

156  
00:09:14,580 --> 00:09:10,960  
know found at the bottom of the cave-in

157  
00:09:16,140 --> 00:09:14,590  
with animal bones but she you know she

158  
00:09:20,130 --> 00:09:16,150  
was probably down there looking for

159  
00:09:22,860 --> 00:09:20,140  
water or whatever and just got lost and

160  
00:09:26,040 --> 00:09:22,870  
lost in the dark and then went off an

161  
00:09:27,750 --> 00:09:26,050  
edge and right ended up yeah maybe she

162  
00:09:30,660 --> 00:09:27,760  
fell into water to I mean it could have

163  
00:09:32,820 --> 00:09:30,670

been rice and underground you know cave

164

00:09:35,490 --> 00:09:32,830

with water and man that you go in there

165

00:09:38,640 --> 00:09:35,500

it's lights out you know yeah you got a

166

00:09:41,550 --> 00:09:38,650

torch and everything is good right right

167

00:09:44,550 --> 00:09:41,560

you got a torch it's lit up well you're

168

00:09:52,840 --> 00:09:44,560

safe that torch goes out inside of a

169

00:09:55,449 --> 00:09:52,850

cave it's bright

170

00:09:58,689 --> 00:09:55,459

pun lights out the lights out it's a

171

00:10:01,710 --> 00:09:58,699

it's a it's a crazy documentary I wanted

172

00:10:05,079 --> 00:10:01,720

to ask you this before we move on yeah

173

00:10:07,539 --> 00:10:05,089

how far and you may know these answers

174

00:10:10,359 --> 00:10:07,549

you may not but there's a reason for me

175

00:10:15,400 --> 00:10:10,369

setting you up for the last question how

176

00:10:18,219 --> 00:10:15,410

far have we drilled how deep have we

177

00:10:22,590 --> 00:10:18,229

drilled how deep underground have we

178

00:10:28,119 --> 00:10:22,600

drilled into the earth into the earth

179

00:10:32,979 --> 00:10:28,129

well I can tell you I myself have been

180

00:10:35,919 --> 00:10:32,989

in a in a mind that was over a half mile

181

00:10:38,499 --> 00:10:35,929

deep now that's not a drill that's just

182

00:10:42,129 --> 00:10:38,509

a mind okay and when I went on there it

183

00:10:43,779 --> 00:10:42,139

was like in the high 80s I mean I had to

184

00:10:45,669 --> 00:10:43,789

strip off my clothes I was wearing a

185

00:10:48,219 --> 00:10:45,679

t-shirt and I was still sweating and

186

00:10:51,699 --> 00:10:48,229

that was just the geothermal heat of the

187

00:10:55,329 --> 00:10:51,709

earth because I was down so far and when

188

00:10:59,169 --> 00:10:55,339

I went when I went down it was a snow

189

00:11:01,299 --> 00:10:59,179

storm above I mean at the surface so

190

00:11:04,629 --> 00:11:01,309

yeah you know you have to think about

191

00:11:08,349 --> 00:11:04,639

that but I I think my guess is we have

192

00:11:13,210 --> 00:11:08,359

probably drilled at least 10 miles deep

193

00:11:15,639 --> 00:11:13,220

I would guess 5.7 miles I point ok well

194

00:11:16,960 --> 00:11:15,649

ok they're nuts that's far I mean 10

195

00:11:19,359 --> 00:11:16,970

miles okay

196

00:11:21,219 --> 00:11:19,369

I'm with you on that I would I would

197

00:11:25,449 --> 00:11:21,229

guess but it's five point seven miles

198

00:11:27,340 --> 00:11:25,459

which is nothing right nothing nothing

199

00:11:29,409 --> 00:11:27,350

compared to the size of the earth that's

200

00:11:32,829 --> 00:11:29,419

just barely scratching the surface yeah

201  
00:11:36,359 --> 00:11:32,839  
now I'm going somewhere with this ok all

202  
00:11:41,999 --> 00:11:36,369  
right ok so five point seven miles deep

203  
00:11:47,019 --> 00:11:42,009  
then we have radar or some type of

204  
00:11:51,129 --> 00:11:47,029  
seismic x-ray to look through the earth

205  
00:11:53,649 --> 00:11:51,139  
to the other side the answer is well you

206  
00:11:55,989 --> 00:11:53,659  
can use ice I don't know if our seismic

207  
00:11:57,999 --> 00:11:55,999  
activity will go all the way through the

208  
00:12:00,999 --> 00:11:58,009  
earth I think it might have the

209  
00:12:03,519 --> 00:12:01,009  
capability of going through you know the

210  
00:12:05,349 --> 00:12:03,529  
lithosphere you know around the earth to

211  
00:12:06,579 --> 00:12:05,359  
the other side but to be quite frank

212  
00:12:08,079 --> 00:12:06,589  
with you this

213  
00:12:10,449 --> 00:12:08,089

geophysical work that you're talking

214

00:12:12,670 --> 00:12:10,459

about I'm not an expert on I know enough

215

00:12:14,920 --> 00:12:12,680

to be dangerous but I can't answer your

216

00:12:17,230 --> 00:12:14,930

question with any certainty but I don't

217

00:12:20,829 --> 00:12:17,240

I don't know if we have the capability

218

00:12:22,929 --> 00:12:20,839

to go straight through and measure you

219

00:12:24,759 --> 00:12:22,939

know one side to the other maybe we do

220

00:12:25,629 --> 00:12:24,769

but if we do I'm not aware of it right

221

00:12:30,340 --> 00:12:25,639

exactly

222

00:12:38,590 --> 00:12:30,350

now as far as you know is there a CT

223

00:12:45,550 --> 00:12:38,600

scan is there is there an x-ray of

224

00:12:49,809 --> 00:12:45,560

planet Earth no well I think as far as

225

00:12:53,170 --> 00:12:49,819

actual you know an x-ray in the true

226

00:12:57,160 --> 00:12:53,180

sense no but do we have a good idea of

227

00:13:00,579 --> 00:12:57,170

how the earth is constructed and we

228

00:13:04,420 --> 00:13:00,589

understand how it's how it's made up

229

00:13:07,150 --> 00:13:04,430

yeah I think we do and now that's

230

00:13:13,629 --> 00:13:07,160

exactly where I'm going see you and I

231

00:13:18,610 --> 00:13:13,639

think alike we don't know much we have a

232

00:13:20,759 --> 00:13:18,620

good scientific idea of what is down

233

00:13:24,550 --> 00:13:20,769

there and how the earth may be

234

00:13:28,600 --> 00:13:24,560

constructed and what it is made up of at

235

00:13:32,170 --> 00:13:28,610

different levels but do we actually know

236

00:13:33,069 --> 00:13:32,180

we've only drilled down 5.7 miles that's

237

00:13:35,590 --> 00:13:33,079

it

238

00:13:37,569 --> 00:13:35,600

beyond that beyond that what is in the

239

00:13:41,470 --> 00:13:37,579

Earth's core what is going on

240

00:13:44,800 --> 00:13:41,480

is it molten iron that is that is

241

00:13:47,800 --> 00:13:44,810

rotating and causing the magnetic field

242

00:13:51,699 --> 00:13:47,810

and as their molten layers of this and

243

00:13:54,790 --> 00:13:51,709

that and okay all right oh I think the

244

00:13:56,889 --> 00:13:54,800

answer to that is is yes and and the

245

00:13:59,620 --> 00:13:56,899

evidence is going to be in the bulk and

246

00:14:02,710 --> 00:13:59,630

volcanic activity that we see happening

247

00:14:06,369 --> 00:14:02,720

on the planet all the time we see that

248

00:14:08,350 --> 00:14:06,379

with the movement of the plates I think

249

00:14:11,860 --> 00:14:08,360

that this whole general idea of plate

250

00:14:14,259 --> 00:14:11,870

tectonics with a molten you know mantle

251  
00:14:18,249 --> 00:14:14,269  
that plastic and moving and then a

252  
00:14:19,490 --> 00:14:18,259  
really hot core that makes sense to me I

253  
00:14:21,350 --> 00:14:19,500  
mean again and

254  
00:14:23,660 --> 00:14:21,360  
one of the most impactful things that

255  
00:14:26,060 --> 00:14:23,670  
convinces me of that is when I went down

256  
00:14:28,040 --> 00:14:26,070  
to that mind you know I started off in a

257  
00:14:29,900 --> 00:14:28,050  
snowstorm and I had to take all my

258  
00:14:32,300 --> 00:14:29,910  
clothes off because it was almost 90

259  
00:14:35,150 --> 00:14:32,310  
degrees right you know half mile down

260  
00:14:37,340 --> 00:14:35,160  
and if you kept going I gotta believe it

261  
00:14:40,130 --> 00:14:37,350  
would get hotter and maybe the reason

262  
00:14:41,690 --> 00:14:40,140  
we've only drilled down 5.7 miles which

263  
00:14:43,970 --> 00:14:41,700

is still a hell of a long ways

264

00:14:45,650 --> 00:14:43,980

well is because the temperatures got to

265

00:14:50,090 --> 00:14:45,660

the point where the drilling equipment

266

00:14:54,860 --> 00:14:50,100

just didn't work so Hollow Earth that's

267

00:14:58,520 --> 00:14:54,870

right out then that's not I I don't buy

268

00:15:00,050 --> 00:14:58,530

that for a second but that's me and I

269

00:15:02,270 --> 00:15:00,060

can tell you one thing Jimmy I have

270

00:15:04,520 --> 00:15:02,280

learned that when you don't have a

271

00:15:06,980 --> 00:15:04,530

definitive answer to something you

272

00:15:09,500 --> 00:15:06,990

always leave that back door open but I

273

00:15:12,440 --> 00:15:09,510

gotta tell you I might leave the screen

274

00:15:16,190 --> 00:15:12,450

door closed in the heavy door open a

275

00:15:19,450 --> 00:15:16,200

skosh right but but I am you're gonna

276

00:15:22,730 --> 00:15:19,460

have to work on me for that one I have

277

00:15:24,950 --> 00:15:22,740

looked at cutaways of the earth just

278

00:15:28,370 --> 00:15:24,960

like everybody else has since elementary

279

00:15:31,580 --> 00:15:28,380

school right we've all seen seen those

280

00:15:35,150 --> 00:15:31,590

and I've just thought in the back of my

281

00:15:37,460 --> 00:15:35,160

mind over and over again okay all right

282

00:15:40,430 --> 00:15:37,470

smart minds have put this together and

283

00:15:42,710 --> 00:15:40,440

they have the numbers have been crunched

284

00:15:44,930 --> 00:15:42,720

and the analysis has been done and to

285

00:15:48,170 --> 00:15:44,940

the best that they can put together this

286

00:15:49,550 --> 00:15:48,180

is what is going on but I'm not alluding

287

00:15:51,590 --> 00:15:49,560

to hollow or if that's not where I'm

288

00:15:54,250 --> 00:15:51,600

going with this but what act where I'm

289

00:15:58,370 --> 00:15:54,260

going is is that we really don't know

290

00:16:00,710 --> 00:15:58,380

right we we we don't and it's part of

291

00:16:02,420 --> 00:16:00,720

what makes this planet so wonderful is

292

00:16:04,100 --> 00:16:02,430

that there are things to discover and

293

00:16:07,460 --> 00:16:04,110

there are things to go out there in

294

00:16:09,620 --> 00:16:07,470

research maybe one day we will we will

295

00:16:11,750 --> 00:16:09,630

have all of those definitive answers and

296

00:16:14,810 --> 00:16:11,760

maybe everybody is right but that's what

297

00:16:17,600 --> 00:16:14,820

makes your investigations and things out

298

00:16:21,040 --> 00:16:17,610

there so much fun is that there's so

299

00:16:23,530 --> 00:16:21,050

much to learn isn't there well I

300

00:16:27,200 --> 00:16:23,540

couldn't have said it better myself and

301

00:16:30,500 --> 00:16:27,210

I think your point is is a good one and

302

00:16:32,270 --> 00:16:30,510

when we get to one of the episodes I'm

303

00:16:33,079 --> 00:16:32,280

going to come back and bring this up

304

00:16:34,969 --> 00:16:33,089

because

305

00:16:37,669 --> 00:16:34,979

there were some things that happened

306

00:16:39,649 --> 00:16:37,679

this season that really forced me to

307

00:16:43,969 --> 00:16:39,659

rethink a lot of things that I thought

308

00:16:46,009 --> 00:16:43,979

that I understood so yeah and and you

309

00:16:47,659 --> 00:16:46,019

know just you know I'll give you I'll

310

00:16:49,399 --> 00:16:47,669

give you another example I even wrote

311

00:16:52,339 --> 00:16:49,409

one of my one of my first book I ever

312

00:16:55,309 --> 00:16:52,349

wrote on Lake Superior I guess it was

313

00:16:57,859 --> 00:16:55,319

published in 1986 I was in my early 20s

314

00:17:01,369 --> 00:16:57,869

and one of the things I talked about was

315

00:17:04,909 --> 00:17:01,379

the Bering Strait land bridge migration

316

00:17:08,779 --> 00:17:04,919

and the peopling of North America then

317

00:17:11,359 --> 00:17:08,789

they went to South America merica you

318

00:17:13,609 --> 00:17:11,369

know across Panama there and then all

319

00:17:15,949 --> 00:17:13,619

the way down to South America and the

320

00:17:18,199 --> 00:17:15,959

last place that they showed up was down

321

00:17:20,239 --> 00:17:18,209

near the Strait of Magellan and guess

322

00:17:21,939 --> 00:17:20,249

what that whole theory that we all

323

00:17:25,669 --> 00:17:21,949

accepted as kids

324

00:17:27,949 --> 00:17:25,679

is it's completely throw it out the

325

00:17:30,019 --> 00:17:27,959

window and I pick up that book and I

326

00:17:32,899 --> 00:17:30,029

look at that diagram I have and I'm like

327

00:17:35,779 --> 00:17:32,909

wow I thought that was that was it and

328

00:17:38,629 --> 00:17:35,789

now we know I can just tear this page

329

00:17:41,749 --> 00:17:38,639

out and it just doesn't work anymore

330

00:17:44,269 --> 00:17:41,759

I you know when I was when I was a kid

331

00:17:46,210 --> 00:17:44,279

and I would spin the globe around and

332

00:17:49,879 --> 00:17:46,220

look at it there was a couple of things

333

00:17:53,239 --> 00:17:49,889

that stood out to me and number one the

334

00:17:55,820 --> 00:17:53,249

first thing I asked it'd I just looked

335

00:17:58,310 --> 00:17:55,830

it's like okay our planet is a bunch of

336

00:18:02,269 --> 00:17:58,320

puzzle pieces this goes here this goes

337

00:18:05,720 --> 00:18:02,279

here this goes here it's obvious and the

338

00:18:09,109 --> 00:18:05,730

other part of it for me and I've heard

339

00:18:11,359 --> 00:18:09,119

this sort of discussed lately but that

340

00:18:13,879 --> 00:18:11,369

at one point if everything was all put

341

00:18:19,279 --> 00:18:13,889

together then that means half of the

342

00:18:21,200 --> 00:18:19,289

planet was water right right right

343

00:18:23,299 --> 00:18:21,210

if you put everything together the rest

344

00:18:26,169 --> 00:18:23,309

of the planets water and this is the

345

00:18:29,509 --> 00:18:26,179

other part that that messes with my head

346

00:18:31,789 --> 00:18:29,519

that the water part when you look at

347

00:18:34,549 --> 00:18:31,799

there's the circumference of the earth

348

00:18:38,869 --> 00:18:34,559

is 25,000 miles right or thereabouts

349

00:18:44,899 --> 00:18:38,879

right plus or minus at the equator and

350

00:18:46,430 --> 00:18:44,909

at 25,000 miles the depth of the oceans

351

00:18:49,880 --> 00:18:46,440

which seems D

352

00:18:53,800 --> 00:18:49,890

when you're on a boat but the depth of

353

00:18:56,960 --> 00:18:53,810

the oceans is nothing actually right

354

00:19:00,080 --> 00:18:56,970

look at the earth as a whole the the

355

00:19:03,290 --> 00:19:00,090

water that's around it is actually a

356

00:19:06,130 --> 00:19:03,300

very insignificant part about of what

357

00:19:09,530 --> 00:19:06,140

makes up our planet it may seem

358

00:19:12,320 --> 00:19:09,540

weight-wise volume-wise absolutely and

359

00:19:15,580 --> 00:19:12,330

in fact I think in the Marianas Trench

360

00:19:18,380 --> 00:19:15,590

I think the deepest spot in the ocean is

361

00:19:20,450 --> 00:19:18,390

God I forget now it's either just over

362

00:19:22,790 --> 00:19:20,460

seven miles or just over 12 miles I

363

00:19:25,400 --> 00:19:22,800

can't remember but those are the deepest

364

00:19:28,670 --> 00:19:25,410

spots you know the average depth is is

365

00:19:31,820 --> 00:19:28,680

much less than that and you know yeah

366

00:19:33,500 --> 00:19:31,830

it's it's just a fraction but it sure

367

00:19:35,900 --> 00:19:33,510

looks like a lot of water when you look

368

00:19:38,690 --> 00:19:35,910

at the globe but in in actuality if you

369

00:19:42,920 --> 00:19:38,700

take the actual volume relative to the

370

00:19:44,600 --> 00:19:42,930

volume of the of the of the rock or of

371

00:19:46,940 --> 00:19:44,610

the molten stuff and whatever's in the

372

00:19:50,660 --> 00:19:46,950

center it's just a tiny little fraction

373

00:19:56,590 --> 00:19:50,670

yeah and it's so fascinating to me to

374

00:20:00,980 --> 00:19:56,600

think about when we talk about drift and

375

00:20:02,450 --> 00:20:00,990

tectonics and what we pretty much I

376

00:20:05,420 --> 00:20:02,460

think we're all in agreement has been

377

00:20:10,130 --> 00:20:05,430

going on and and will continue to go on

378

00:20:13,730 --> 00:20:10,140

we're not done with it is this is this

379

00:20:18,920 --> 00:20:13,740

is all new right this is new this is new

380

00:20:20,840 --> 00:20:18,930

this is stuff that came too serious

381

00:20:23,840 --> 00:20:20,850

thought in the 1950s

382

00:20:29,990 --> 00:20:23,850

wasn't really accepted in the scientific

383

00:20:32,330 --> 00:20:30,000

circles until the 70s we you know and

384

00:20:34,510 --> 00:20:32,340

and we're sitting here 2019 you would

385

00:20:37,820 --> 00:20:34,520

have thought that this is old proven

386

00:20:40,790 --> 00:20:37,830

disgust it is not we are learning new

387

00:20:44,600 --> 00:20:40,800

stuff every single day aren't we well

388

00:20:46,850 --> 00:20:44,610

you know this this this this discussion

389

00:20:49,430 --> 00:20:46,860

we're having I can't help but think that

390

00:20:51,470 --> 00:20:49,440

some people are wondering you know how

391

00:20:54,350 --> 00:20:51,480

are they on this get on this

392

00:20:58,550 --> 00:20:54,360

philosophical rant but I have to tell

393

00:20:59,840 --> 00:20:58,560

you I love it because what you're saying

394

00:21:02,690 --> 00:20:59,850

is that

395

00:21:05,269 --> 00:21:02,700

you know I when I look back maybe 20

396

00:21:07,399 --> 00:21:05,279

years ago 30 years ago it seemed to me

397

00:21:09,739 --> 00:21:07,409

in some ways everything had been

398

00:21:12,919 --> 00:21:09,749

discovered the world had been explored

399

00:21:15,680 --> 00:21:12,929

you know all the questions that that we

400

00:21:17,989 --> 00:21:15,690

had about everything was pretty much

401  
00:21:19,820 --> 00:21:17,999  
figured out right I remember there was a

402  
00:21:22,219 --> 00:21:19,830  
time in my life when I actually thought

403  
00:21:25,909 --> 00:21:22,229  
that but the point you're making now is

404  
00:21:27,680 --> 00:21:25,919  
spot on and I'd love to disagree with

405  
00:21:30,739 --> 00:21:27,690  
you you know that Jimmy but I can I

406  
00:21:34,669 --> 00:21:30,749  
wholeheartedly agree that it's almost

407  
00:21:37,099 --> 00:21:34,679  
like there is so much new thing so many

408  
00:21:40,129 --> 00:21:37,109  
new things that are being discovered so

409  
00:21:42,409 --> 00:21:40,139  
many things that we thought we knew we

410  
00:21:44,149 --> 00:21:42,419  
are not what we are not what we thought

411  
00:21:45,289 --> 00:21:44,159  
and actually are something completely

412  
00:21:47,659 --> 00:21:45,299  
different

413  
00:21:49,839 --> 00:21:47,669

I mean archaeology right now is just

414

00:21:52,700 --> 00:21:49,849

literally been turned on its head and

415

00:21:56,149 --> 00:21:52,710

you know I think a lot of this dogma and

416

00:21:58,369 --> 00:21:56,159

and entrenched beliefs that people have

417

00:22:01,609 --> 00:21:58,379

you just have to just you just have to

418

00:22:03,769 --> 00:22:01,619

throw it out and now more than ever you

419

00:22:06,940 --> 00:22:03,779

have to keep an open mind and you know

420

00:22:11,239 --> 00:22:06,950

what I was alluding to before was was

421

00:22:13,310 --> 00:22:11,249

extraterrestrials and alien contact even

422

00:22:15,619 --> 00:22:13,320

a couple three years ago Jimmy I

423

00:22:18,950 --> 00:22:15,629

wouldn't have even really had any time

424

00:22:28,159 --> 00:22:18,960

to discuss it I tried I tried to get you

425

00:22:33,799 --> 00:22:28,169

to discuss it and we think some of that

426  
00:22:36,739 --> 00:22:33,809  
money now I mind I mind is wide open I

427  
00:22:39,919 --> 00:22:36,749  
haven't made up my mind completely yet

428  
00:22:42,259 --> 00:22:39,929  
on this but to say that I'm rethinking

429  
00:22:44,210 --> 00:22:42,269  
it is an understatement

430  
00:22:46,489 --> 00:22:44,220  
now well and we're gonna get to Episode

431  
00:22:48,200 --> 00:22:46,499  
two here in just a second okay

432  
00:22:49,940 --> 00:22:48,210  
let's let's we're gonna start with

433  
00:22:53,749 --> 00:22:49,950  
Episode one and we're gonna do that at

434  
00:22:55,669 --> 00:22:53,759  
the top of the hour I want to I want to

435  
00:22:59,299 --> 00:22:55,679  
ask you this very very important

436  
00:23:02,960 --> 00:22:59,309  
question this season season four which

437  
00:23:05,299 --> 00:23:02,970  
just wrapped of America on earth was was

438  
00:23:08,359 --> 00:23:05,309

different than the previous three

439

00:23:10,879 --> 00:23:08,369

seasons wasn't it why did you approach

440

00:23:13,200 --> 00:23:10,889

it like this and what for you what makes

441

00:23:16,950 --> 00:23:13,210

it so different

442

00:23:19,530 --> 00:23:16,960

well it there's a there's there's a

443

00:23:22,710 --> 00:23:19,540

number of reasons why it's different but

444

00:23:24,630 --> 00:23:22,720

at the same time I think that there were

445

00:23:26,580 --> 00:23:24,640

a lot of things that were the same I

446

00:23:28,830 --> 00:23:26,590

mean you know it you know three

447

00:23:31,800 --> 00:23:28,840

three-and-a-half years elapsed between

448

00:23:34,140 --> 00:23:31,810

the last episode of season three in the

449

00:23:36,630 --> 00:23:34,150

first episode of this and quite frankly

450

00:23:39,420 --> 00:23:36,640

I never thought the show would come back

451

00:23:41,160 --> 00:23:39,430

I was you know I was happy and and

452

00:23:42,510 --> 00:23:41,170

moving on with my life and maybe you

453

00:23:43,620 --> 00:23:42,520

know do something different I never

454

00:23:45,750 --> 00:23:43,630

thought this would happen I never

455

00:23:49,830 --> 00:23:45,760

dreamed it would happen but I'm glad

456

00:23:52,440 --> 00:23:49,840

that it did and really we didn't from a

457

00:23:56,790 --> 00:23:52,450

production standpoint change things too

458

00:23:58,170 --> 00:23:56,800

much although I think that most of the

459

00:24:00,630 --> 00:23:58,180

people that worked on the show before

460

00:24:03,660 --> 00:24:00,640

and worked on it this year are just

461

00:24:04,950 --> 00:24:03,670

better you know I knew what I was doing

462

00:24:08,010 --> 00:24:04,960

when I went into this I mean when I

463

00:24:09,210 --> 00:24:08,020

first first you know it got started with

464

00:24:12,060 --> 00:24:09,220

American or they didn't know what the

465

00:24:14,010 --> 00:24:12,070

hell I was doing and and I just I felt

466

00:24:17,970 --> 00:24:14,020

more comfortable I don't know if that

467

00:24:20,850 --> 00:24:17,980

came across but I just felt more dialed

468

00:24:23,850 --> 00:24:20,860

in I know that we did fewer takes that

469

00:24:25,830 --> 00:24:23,860

we moved on and on and quite frankly I

470

00:24:29,640 --> 00:24:25,840

think we were able to generate better

471

00:24:31,770 --> 00:24:29,650

content in many cases because of the

472

00:24:34,740 --> 00:24:31,780

experience that we had and we were able

473

00:24:37,500 --> 00:24:34,750

to go on and do more things that we just

474

00:24:40,190 --> 00:24:37,510

didn't have time for before because it

475

00:24:44,480 --> 00:24:40,200

took longer to get the stuff we needed

476

00:24:48,090 --> 00:24:44,490

you know the music has always been good

477

00:24:49,860 --> 00:24:48,100

you know the shows is shot beautifully I

478

00:24:50,370 --> 00:24:49,870

mean you can't say that it doesn't look

479

00:24:52,290 --> 00:24:50,380

good

480

00:24:53,820 --> 00:24:52,300

I think our graphics are great they

481

00:24:56,430 --> 00:24:53,830

really didn't change they might have

482

00:24:58,860 --> 00:24:56,440

been zipped up just a little bit but a

483

00:25:02,790 --> 00:24:58,870

lot of people have said they felt like

484

00:25:04,080 --> 00:25:02,800

it did have it was definitely America on

485

00:25:08,970 --> 00:25:04,090

earth but there was something different

486

00:25:11,400 --> 00:25:08,980

about it and I hope people you know feel

487

00:25:13,230 --> 00:25:11,410

that it was it was it was different but

488

00:25:16,290 --> 00:25:13,240

it was it was better than it was before

489

00:25:18,660 --> 00:25:16,300

yeah I think yeah the production value

490

00:25:21,510 --> 00:25:18,670

was definitely kicked up a notch and

491

00:25:24,720 --> 00:25:21,520

that that comes with time you know it is

492

00:25:25,960 --> 00:25:24,730

it's just you know yeah yeah time and

493

00:25:29,499 --> 00:25:25,970

experience

494

00:25:33,490 --> 00:25:29,509

so there's that part of it but also the

495

00:25:35,950 --> 00:25:33,500

flow of the show this isn't although it

496

00:25:38,440 --> 00:25:35,960

has all of those classic Walther

497

00:25:41,110 --> 00:25:38,450

elements right we've got Templars and

498

00:25:43,379 --> 00:25:41,120

we've got you know lost treasures and

499

00:25:46,600 --> 00:25:43,389

and you know we're searching for stuff

500

00:25:50,369 --> 00:25:46,610

Vikings and in all so all of that part

501  
00:25:53,440 --> 00:25:50,379  
is in there we've got a live of the

502  
00:25:56,860 --> 00:25:53,450  
inscriptions and carvings and and things

503  
00:25:59,440 --> 00:25:56,870  
to normally investigate but then you go

504  
00:26:01,149 --> 00:25:59,450  
into other zones too as well and you

505  
00:26:05,980 --> 00:26:01,159  
started to step outside of your box

506  
00:26:09,430 --> 00:26:05,990  
didn't you yeah well yes I mean the the

507  
00:26:11,230 --> 00:26:09,440  
the thing that was most different about

508  
00:26:13,869 --> 00:26:11,240  
the show was some of the subjects that

509  
00:26:16,450 --> 00:26:13,879  
we looked into and you know you say a

510  
00:26:19,330 --> 00:26:16,460  
little bit out of my box well I think

511  
00:26:23,680 --> 00:26:19,340  
it's it's not so much what I think as my

512  
00:26:26,200 --> 00:26:23,690  
box I think it's a different subject

513  
00:26:27,519 --> 00:26:26,210

matters and and the reason I said you

514

00:26:32,019 --> 00:26:27,529

know I know what people typically think

515

00:26:34,960 --> 00:26:32,029

of the geological based investigations

516

00:26:37,360 --> 00:26:34,970

but you know something Jimmy the process

517

00:26:39,999 --> 00:26:37,370

of Investigation regardless of what

518

00:26:42,610 --> 00:26:40,009

you're looking into does not change if

519

00:26:44,889 --> 00:26:42,620

you're investigating you know who made

520

00:26:48,490 --> 00:26:44,899

this inscription where did this you know

521

00:26:49,899 --> 00:26:48,500

carving come from the rune stone you're

522

00:26:52,389 --> 00:26:49,909

investigating a murder case you're

523

00:26:56,289 --> 00:26:52,399

investigating a bombing you're

524

00:26:59,049 --> 00:26:56,299

investigating Bigfoot the process is the

525

00:27:01,869 --> 00:26:59,059

same you you gather as many facts as

526

00:27:05,560 --> 00:27:01,879

possible you interpret those facts and

527

00:27:07,749 --> 00:27:05,570

and it and and try to develop some ideas

528

00:27:10,360 --> 00:27:07,759

as to what those facts are telling us

529

00:27:12,610 --> 00:27:10,370

and ultimately if you have enough

530

00:27:15,009 --> 00:27:12,620

evidence and you feel like you can draw

531

00:27:17,049 --> 00:27:15,019

a definitive conclusion then you do it

532

00:27:18,970 --> 00:27:17,059

and so it really doesn't matter what

533

00:27:22,090 --> 00:27:18,980

you're looking into that's the process

534

00:27:24,940 --> 00:27:22,100

of investigation that at the end of the

535

00:27:28,440 --> 00:27:24,950

day is my wheelhouse I do it mostly with

536

00:27:31,269 --> 00:27:28,450

rock and concrete in my normal life but

537

00:27:33,639 --> 00:27:31,279

again it's the process that's the same

538

00:27:35,619 --> 00:27:33,649

so it really doesn't matter and actually

539

00:27:37,749 --> 00:27:35,629

I really like the idea that we stepped

540

00:27:39,420 --> 00:27:37,759

out of my wheelhouse a little bit and

541

00:27:41,310 --> 00:27:39,430

looked into some of these other

542

00:27:43,440 --> 00:27:41,320

things and when we get to those few

543

00:27:45,900 --> 00:27:43,450

episodes that I'm talking about I think

544

00:27:47,850 --> 00:27:45,910

you want to talk about they were some of

545

00:27:49,920 --> 00:27:47,860

my favorites and and quite frankly I

546

00:27:52,710 --> 00:27:49,930

think they were some of the best

547

00:27:54,870 --> 00:27:52,720

episodes and I think well I'll talk

548

00:27:57,270 --> 00:27:54,880

about one in particular where we

549

00:27:59,580 --> 00:27:57,280

actually changed the direction of our

550

00:28:02,250 --> 00:27:59,590

investigation based on evidence that we

551  
00:28:05,130 --> 00:28:02,260  
found during the investigation as we

552  
00:28:06,960 --> 00:28:05,140  
were filming and I think we got it right

553  
00:28:09,210 --> 00:28:06,970  
in the end and that's the way it's

554  
00:28:11,850 --> 00:28:09,220  
supposed to work let's take a break

555  
00:28:15,990 --> 00:28:11,860  
right here Scott and we will come back

556  
00:28:18,060 --> 00:28:16,000  
with episode 1 Vikings in the desert

557  
00:28:20,490 --> 00:28:18,070  
this is fade to black I am your host Amy

558  
00:28:24,450 --> 00:28:20,500  
Church Scott Wolter is here we are going

559  
00:28:27,630 --> 00:28:24,460  
to do an episode by episode breakdown of

560  
00:28:29,760 --> 00:28:27,640  
the last season season 4 of America

561  
00:28:32,130 --> 00:28:29,770  
unearthed this is fade to black you can

562  
00:28:34,170 --> 00:28:32,140  
follow me on Twitter add J Turks radio

563  
00:28:37,170 --> 00:28:34,180

you can follow Scott at real Scott

564

00:28:38,550 --> 00:28:37,180

Wolter on Twitter he's right there I'll

565

00:28:39,400 --> 00:28:38,560

be right back after this real Forex stay

566

00:28:52,530 --> 00:28:39,410

with us

567

00:29:02,560 --> 00:28:59,970

[Music]

568

00:29:05,759 --> 00:29:02,570

all right welcome back beta-blocker mero

569

00:29:10,299 --> 00:29:05,769

symmetry tonight Scott Wolter is here

570

00:29:15,060 --> 00:29:10,309

now the bunker cam I actually know what

571

00:29:19,480 --> 00:29:15,070

the issue is we our streaming company

572

00:29:21,759 --> 00:29:19,490

did an update today and which I knew

573

00:29:26,049 --> 00:29:21,769

that this transition was going to happen

574

00:29:29,590 --> 00:29:26,059

and we were supposed to have everything

575

00:29:32,560 --> 00:29:29,600

up and running for the show tonight drew

576

00:29:36,190 --> 00:29:32,570

is working on it and there you go

577

00:29:39,340 --> 00:29:36,200

okay I will I'll keep you updated as we

578

00:29:41,080 --> 00:29:39,350

move along but we should be we should be

579

00:29:44,230 --> 00:29:41,090

solid okay and that's what it is

580

00:29:46,379 --> 00:29:44,240

okay so just everybody relax you can do

581

00:29:50,680 --> 00:29:46,389

without the bunker cam for a few minutes

582

00:29:53,499 --> 00:29:50,690

okay all right videos running though and

583

00:29:56,110 --> 00:29:53,509

we'll rock solid in here so maybe we'll

584

00:29:58,330 --> 00:29:56,120

post a video of the show so you guys can

585

00:30:00,850 --> 00:29:58,340

go back and and watch it our guest is

586

00:30:04,299 --> 00:30:00,860

Scott Wolter we're doing an episode by

587

00:30:07,450 --> 00:30:04,309

episode of season 4 of America an earth

588

00:30:10,269 --> 00:30:07,460

they just wrapped and we're gonna start

589

00:30:14,049 --> 00:30:10,279

with episode 1 Vikings in the desert

590

00:30:16,389 --> 00:30:14,059

what's going on here Scott well that was

591

00:30:19,570 --> 00:30:16,399

an interesting episode for a number of

592

00:30:24,999 --> 00:30:19,580

reasons and you know what are the odds

593

00:30:27,129 --> 00:30:25,009

that you know somebody back and I we

594

00:30:29,499 --> 00:30:27,139

really don't know exactly when it was

595

00:30:32,470 --> 00:30:29,509

found probably back in the 60s or maybe

596

00:30:35,249 --> 00:30:32,480

even back in the 50s finds a saddlebag

597

00:30:39,820 --> 00:30:35,259

with a bunch of metal artifacts that

598

00:30:44,919 --> 00:30:39,830

actually turn out to be old Viking era

599

00:30:48,279 --> 00:30:44,929

and and older artifacts in in a cache

600

00:30:50,350 --> 00:30:48,289

and the question of course is how did

601  
00:30:53,350 --> 00:30:50,360  
these legitimate artifacts get there and

602  
00:30:56,049 --> 00:30:53,360  
and this was in an area outside of

603  
00:30:58,200 --> 00:30:56,059  
Sedona which is absolutely one of my

604  
00:31:00,340 --> 00:30:58,210  
favorite places in the world

605  
00:31:03,970 --> 00:31:00,350  
geologically it's just it's just a

606  
00:31:06,580 --> 00:31:03,980  
paradise it's so beautiful there but you

607  
00:31:10,060 --> 00:31:06,590  
know and and really you know it

608  
00:31:11,529 --> 00:31:10,070  
the answer is realistically one of two

609  
00:31:15,909 --> 00:31:11,539  
possibilities

610  
00:31:18,629 --> 00:31:15,919  
either somebody in you know recent times

611  
00:31:21,190 --> 00:31:18,639  
probably within the last 100 150 years

612  
00:31:24,609 --> 00:31:21,200  
possibly an immigrant that came from

613  
00:31:27,159 --> 00:31:24,619

Northern Europe brought these artifacts

614

00:31:30,700 --> 00:31:27,169

to America and somehow they got lost in

615

00:31:32,799 --> 00:31:30,710

the desert certainly that's plausible

616

00:31:35,469 --> 00:31:32,809

and in fact if I had to put money down

617

00:31:38,769 --> 00:31:35,479

I'd say that's probably the more likely

618

00:31:42,219 --> 00:31:38,779

scenario however the other possibility

619

00:31:44,979 --> 00:31:42,229

is maybe maybe there were explorers that

620

00:31:48,039 --> 00:31:44,989

came here during the Viking era and made

621

00:31:51,759 --> 00:31:48,049

their way to the desert Southwest now

622

00:31:53,379 --> 00:31:51,769

it's a you know at first blush I'll be

623

00:31:56,529 --> 00:31:53,389

the first one to say that sounds like a

624

00:31:59,349 --> 00:31:56,539

stretch however you know again we talked

625

00:32:01,359 --> 00:31:59,359

about it just just when you think that

626  
00:32:05,109 --> 00:32:01,369  
you you you think you know what's going

627  
00:32:09,310 --> 00:32:05,119  
on and this is gotta be what's what

628  
00:32:11,289 --> 00:32:09,320  
happened you're proven wrong and so you

629  
00:32:12,999 --> 00:32:11,299  
have to keep an open mind about these

630  
00:32:16,239 --> 00:32:13,009  
things so that's what we did we looked

631  
00:32:18,430 --> 00:32:16,249  
at and said okay if the Vikings did make

632  
00:32:21,460 --> 00:32:18,440  
it here how the heck could they have

633  
00:32:24,249 --> 00:32:21,470  
gotten here and I think we we laid out

634  
00:32:26,919 --> 00:32:24,259  
the most plausible scenario coming down

635  
00:32:30,219 --> 00:32:26,929  
the west coast probably after going

636  
00:32:31,869 --> 00:32:30,229  
through the Northwest Passage around the

637  
00:32:34,359 --> 00:32:31,879  
Bering Strait land bridge we were just

638  
00:32:37,210 --> 00:32:34,369

talking about Alaska and then down the

639

00:32:39,489 --> 00:32:37,220

coast around Baja and then up into the

640

00:32:42,759 --> 00:32:39,499

Salton Sea where there just happens to

641

00:32:47,409 --> 00:32:42,769

be a legend of a Viking ship that was

642

00:32:50,379 --> 00:32:47,419

seen back around 1900 so you know that's

643

00:32:53,349 --> 00:32:50,389

the premise and we were actually given

644

00:32:55,419 --> 00:32:53,359

access to that incredible audio tape

645

00:32:56,950 --> 00:32:55,429

that you heard of a first-hand witness

646

00:32:59,379 --> 00:32:56,960

that told him what I thought was a very

647

00:33:02,739 --> 00:32:59,389

compelling story that was cool as hell

648

00:33:04,810 --> 00:33:02,749

to listen to for the first time and and

649

00:33:07,299 --> 00:33:04,820

then go down to Baja and see that

650

00:33:09,580 --> 00:33:07,309

incredible petroglyph of what sure

651  
00:33:12,460 --> 00:33:09,590  
looked like a ship to me and what sure

652  
00:33:14,799 --> 00:33:12,470  
looked like a Viking ship and then

653  
00:33:17,289 --> 00:33:14,809  
talking about the oral aural stories of

654  
00:33:21,789 --> 00:33:17,299  
the indigenous people I mean very

655  
00:33:24,250 --> 00:33:21,799  
plausible did it prove it no but it

656  
00:33:29,110 --> 00:33:24,260  
certainly left the door wide open

657  
00:33:31,690 --> 00:33:29,120  
and you know it's it's it wasn't it was

658  
00:33:32,440 --> 00:33:31,700  
it was a lot of fun and what were the

659  
00:33:34,630 --> 00:33:32,450  
artifacts

660  
00:33:37,450 --> 00:33:34,640  
well Russian hasn't answered yeah what

661  
00:33:40,540 --> 00:33:37,460  
were the artifacts well there was

662  
00:33:43,120 --> 00:33:40,550  
actually probably about a dozen

663  
00:33:45,550 --> 00:33:43,130

artifacts that I saw I don't know if she

664

00:33:47,140 --> 00:33:45,560

had all of them with her but actually

665

00:33:50,460 --> 00:33:47,150

they were broken up into three different

666

00:33:53,380 --> 00:33:50,470

groups there was Viking era artifacts

667

00:33:55,690 --> 00:33:53,390

from you know the 10th 11th century

668

00:33:58,990 --> 00:33:55,700

there were artifacts from the 7th and

669

00:34:01,990 --> 00:33:59,000

8th centuries and there were Roman era

670

00:34:04,780 --> 00:34:02,000

artifacts going back to like the 4th

671

00:34:06,610 --> 00:34:04,790

century 3rd and 4th centuries so really

672

00:34:09,820 --> 00:34:06,620

what you had was a collection of

673

00:34:13,120 --> 00:34:09,830

artifacts that spanned you know almost a

674

00:34:16,389 --> 00:34:13,130

thousand years in time so you know they

675

00:34:18,820 --> 00:34:16,399

weren't all from one site they were a

676

00:34:21,220 --> 00:34:18,830

collection and you know I think some

677

00:34:23,139 --> 00:34:21,230

people would you know your mind automate

678

00:34:26,830 --> 00:34:23,149

well it's probably a modern-day

679

00:34:28,869 --> 00:34:26,840

collector well you know people back back

680

00:34:30,790 --> 00:34:28,879

in medieval times and before that they

681

00:34:33,879 --> 00:34:30,800

collected things - I don't think human

682

00:34:36,129 --> 00:34:33,889

beings practices and and things that we

683

00:34:38,590 --> 00:34:36,139

do are any different now than they were

684

00:34:40,270 --> 00:34:38,600

back in history so they could have been

685

00:34:41,980 --> 00:34:40,280

collected back during the Viking era

686

00:34:43,919 --> 00:34:41,990

they could have been collected in the

687

00:34:49,270 --> 00:34:43,929

18th or 19th centuries we don't know

688

00:34:52,960 --> 00:34:49,280

it's it's very interesting and the when

689

00:34:57,070 --> 00:34:52,970

we look at the Vikings in in a general

690

00:34:59,860 --> 00:34:57,080

sense most unless you are a hardcore

691

00:35:02,140 --> 00:34:59,870

historian and study these things most

692

00:35:06,790 --> 00:35:02,150

people don't know that the Vikings made

693

00:35:08,770 --> 00:35:06,800

it to Paris they made it to the Middle

694

00:35:10,390 --> 00:35:08,780

East - and they didn't sail there they

695

00:35:13,210 --> 00:35:10,400

traveled along the rivers and they

696

00:35:15,190 --> 00:35:13,220

walked over with and I think you know a

697

00:35:16,840 --> 00:35:15,200

lot of people automatically assume when

698

00:35:19,030 --> 00:35:16,850

you think of the Vikings they think well

699

00:35:21,280 --> 00:35:19,040

the guys that sailed across the oceans

700

00:35:24,010 --> 00:35:21,290

and that they were navigators well they

701  
00:35:26,680 --> 00:35:24,020  
were but like other cultures and and

702  
00:35:29,710 --> 00:35:26,690  
other explorers and Marauders they

703  
00:35:32,470 --> 00:35:29,720  
travelled overland just as well so you

704  
00:35:33,820 --> 00:35:32,480  
know it and the other the other way they

705  
00:35:36,820 --> 00:35:33,830  
could have gotten there has come up

706  
00:35:37,900 --> 00:35:36,830  
through the the Gulf of Mexico the Rio

707  
00:35:40,359 --> 00:35:37,910  
Grande River

708  
00:35:42,099 --> 00:35:40,369  
you get pretty darn close to where those

709  
00:35:44,079 --> 00:35:42,109  
artifacts were found and they could have

710  
00:35:47,589 --> 00:35:44,089  
walked up there I mean it's very

711  
00:35:48,970 --> 00:35:47,599  
plausible at this point we just don't

712  
00:35:50,529 --> 00:35:48,980  
have enough evidence to draw a

713  
00:35:50,890 --> 00:35:50,539

definitive conclusion one way or the

714

00:35:57,099 --> 00:35:50,900

other

715

00:35:58,779 --> 00:35:57,109

episode 2 alien artifacts okay let me

716

00:36:02,170 --> 00:35:58,789

ask you a question Jim you watched that

717

00:36:05,170 --> 00:36:02,180

episode yes okay and if you didn't

718

00:36:07,240 --> 00:36:05,180

that's okay I'll take it I saw parts of

719

00:36:10,089 --> 00:36:07,250

it I did of course it's called alien

720

00:36:11,770 --> 00:36:10,099

artifacts so yes well if that doesn't

721

00:36:13,539 --> 00:36:11,780

get your attention I don't know what we

722

00:36:17,140 --> 00:36:13,549

all huh that's right okay so what's your

723

00:36:20,470 --> 00:36:17,150

question okay my question is first off

724

00:36:22,120 --> 00:36:20,480

what did you think when I called those

725

00:36:23,920 --> 00:36:22,130

guys out on that first batch of

726  
00:36:25,930 --> 00:36:23,930  
artifacts do you remember when I went

727  
00:36:28,059 --> 00:36:25,940  
through there and I told them not just

728  
00:36:31,150 --> 00:36:28,069  
that I didn't think the artifacts were

729  
00:36:33,279 --> 00:36:31,160  
legitimate but as I always try to do is

730  
00:36:36,460 --> 00:36:33,289  
tell them why I don't think the

731  
00:36:40,870 --> 00:36:36,470  
illegitimate and yes I do remember that

732  
00:36:44,559 --> 00:36:40,880  
and this is this is where and I and the

733  
00:36:48,730 --> 00:36:44,569  
tension right the tension that was there

734  
00:36:52,510 --> 00:36:48,740  
when we get into this zone it's one

735  
00:36:55,809 --> 00:36:52,520  
thing to talk about Vikings or the

736  
00:36:57,910 --> 00:36:55,819  
Phoenicians right that's you know we're

737  
00:37:00,670 --> 00:36:57,920  
talking about a terrestrial situation

738  
00:37:03,099 --> 00:37:00,680

that we can identify with when you get

739

00:37:07,539 --> 00:37:03,109

into alien artifacts and you are in

740

00:37:10,870 --> 00:37:07,549

possession of this you are automatically

741

00:37:14,920 --> 00:37:10,880

in a defensive position because you

742

00:37:17,740 --> 00:37:14,930

can't prove anything you can't right and

743

00:37:20,559 --> 00:37:17,750

so that's that's where the tension will

744

00:37:22,720 --> 00:37:20,569

are you know it will always be there the

745

00:37:25,660 --> 00:37:22,730

and then there's the third element to

746

00:37:28,750 --> 00:37:25,670

this I think that everybody it doesn't

747

00:37:30,940 --> 00:37:28,760

matter if you're a skeptic or or not or

748

00:37:34,900 --> 00:37:30,950

what side of the fence you are on about

749

00:37:38,470 --> 00:37:34,910

et visiting earth we know that we are

750

00:37:40,990 --> 00:37:38,480

not alone you can't go into that zone

751  
00:37:44,529 --> 00:37:41,000  
and say and be that ignorant that we are

752  
00:37:48,519 --> 00:37:44,539  
the only thing in the universe okay so

753  
00:37:50,289 --> 00:37:48,529  
now so we've got that problem where we

754  
00:37:51,700 --> 00:37:50,299  
know that we're not alone I mean that is

755  
00:37:55,120 --> 00:37:51,710  
just completely ignorant

756  
00:37:57,130 --> 00:37:55,130  
think that so we throw all of these in

757  
00:37:59,770 --> 00:37:57,140  
together and then you want to call

758  
00:38:01,150 --> 00:37:59,780  
somebody out well it's a it's a it's a

759  
00:38:03,790 --> 00:38:01,160  
tough position to be in

760  
00:38:06,070 --> 00:38:03,800  
right okay so take us through this I

761  
00:38:09,370 --> 00:38:06,080  
describe to everybody what these

762  
00:38:12,670 --> 00:38:09,380  
artifacts are well the first group of

763  
00:38:16,839 --> 00:38:12,680

artifacts were brought to me by a group

764

00:38:18,520 --> 00:38:16,849

of guys that are from Mexico and they're

765

00:38:20,890 --> 00:38:18,530

they're part of a group called the Jack

766

00:38:22,420 --> 00:38:20,900

detectors and they took me out in the

767

00:38:23,710 --> 00:38:22,430

jungle and they showed me a site where

768

00:38:25,810 --> 00:38:23,720

they said that they collected these

769

00:38:27,790 --> 00:38:25,820

these artifacts and there was three of

770

00:38:30,609 --> 00:38:27,800

them that they showed me two of them

771

00:38:34,120 --> 00:38:30,619

were sort of flat carved stones maybe a

772

00:38:36,400 --> 00:38:34,130

little bit bigger than your palm one was

773

00:38:38,410 --> 00:38:36,410

of a spaceship another one was a an

774

00:38:42,310 --> 00:38:38,420

alien looking creature kind of tucked

775

00:38:47,470 --> 00:38:42,320

inside of a vicita spices vertical

776

00:38:50,410 --> 00:38:47,480

almond shaped pod or I don't know what

777

00:38:52,720 --> 00:38:50,420

it was but that was and then the third

778

00:38:55,690 --> 00:38:52,730

artifact quite frankly looked like a

779

00:38:59,710 --> 00:38:55,700

phallic to me and it was it was made of

780

00:39:02,800 --> 00:38:59,720

soapstone and it had sort of a ball at

781

00:39:05,589 --> 00:39:02,810

the top of a rod shaped thing and and it

782

00:39:08,530 --> 00:39:05,599

was carved in the shape of the head of

783

00:39:11,770 --> 00:39:08,540

an alien and I mean it just it just

784

00:39:13,900 --> 00:39:11,780

looked hokey from the get-go well anyway

785

00:39:15,790 --> 00:39:13,910

so I go out into the field and I went

786

00:39:17,920 --> 00:39:15,800

into these caves or they said they found

787

00:39:20,589 --> 00:39:17,930

them and I remembered I look at the

788

00:39:22,870 --> 00:39:20,599

artifacts before we went out and and I'm

789

00:39:25,030 --> 00:39:22,880

always looking at you know like the the

790

00:39:26,800 --> 00:39:25,040

sediment that's in the groups because

791

00:39:28,870 --> 00:39:26,810

these things are that where they were

792

00:39:30,460 --> 00:39:28,880

packed with dirt right mm-hmm and I

793

00:39:32,260 --> 00:39:30,470

remembered what the dirt looked like and

794

00:39:34,930 --> 00:39:32,270

then when I was in the cave I said to

795

00:39:37,750 --> 00:39:34,940

myself well one thing that we can do to

796

00:39:40,000 --> 00:39:37,760

check the veracity of their story is to

797

00:39:42,190 --> 00:39:40,010

see if the dirt in these little crevices

798

00:39:42,730 --> 00:39:42,200

they said yeah we pulled it right out of

799

00:39:49,599 --> 00:39:42,740

there

800

00:39:51,849 --> 00:39:49,609

dirt on the stones and it didn't so

801  
00:39:54,460 --> 00:39:51,859  
right from the get-go there's a problem

802  
00:39:56,050 --> 00:39:54,470  
there now just because it didn't match

803  
00:39:58,300 --> 00:39:56,060  
doesn't mean that they're lying that

804  
00:40:00,250 --> 00:39:58,310  
they didn't come from there they could

805  
00:40:02,349 --> 00:40:00,260  
have found artifacts that came and were

806  
00:40:04,670 --> 00:40:02,359  
dirtied up somewhere else or came from

807  
00:40:06,859 --> 00:40:04,680  
another location and were put there

808  
00:40:10,069 --> 00:40:06,869  
and they found somebody else's practical

809  
00:40:11,839 --> 00:40:10,079  
joke but clearly they didn't match and

810  
00:40:14,480 --> 00:40:11,849  
they weren't even close and they

811  
00:40:17,450 --> 00:40:14,490  
accepted that but then the thing that

812  
00:40:19,849 --> 00:40:17,460  
really and then I showed them you know

813  
00:40:22,609 --> 00:40:19,859

what I thought was evidence of a modern

814

00:40:26,359 --> 00:40:22,619

tooling on you know that phallic

815

00:40:27,740 --> 00:40:26,369

artifact and then the one I earned it

816

00:40:33,859 --> 00:40:27,750

around and I showed them and you could

817

00:40:37,670 --> 00:40:33,869

clearly see the letters you F oh I mean

818

00:40:40,250 --> 00:40:37,680

it and they looked at that and they just

819

00:40:41,720 --> 00:40:40,260

said hey and I asked him I said hey guys

820

00:40:44,000 --> 00:40:41,730

is there something going on here you

821

00:40:45,559 --> 00:40:44,010

want to tell me about like you know are

822

00:40:48,440 --> 00:40:45,569

you guys playing some type of a joke

823

00:40:50,510 --> 00:40:48,450

with me and you know I have to say what

824

00:40:51,019 --> 00:40:50,520

you saw on cameras exactly the way it

825

00:40:54,710 --> 00:40:51,029

was

826

00:40:57,740 --> 00:40:54,720

they said Scott you're an expert we

827

00:41:00,980 --> 00:40:57,750

asked you here to tell us the truth and

828

00:41:02,930 --> 00:41:00,990

if you say these are fake we believe you

829

00:41:05,089 --> 00:41:02,940

and we thank you for coming here and

830

00:41:07,490 --> 00:41:05,099

taking the time and telling us the truth

831

00:41:10,700 --> 00:41:07,500

and it was such a heartfelt thing Jimmy

832

00:41:13,039 --> 00:41:10,710

I I almost felt bad but I didn't about

833

00:41:15,319 --> 00:41:13,049

you know punching him out a little bit

834

00:41:17,900 --> 00:41:15,329

but you know I had to you know because

835

00:41:21,589 --> 00:41:17,910

clearly they weren't authentic and I I

836

00:41:23,329 --> 00:41:21,599

will say this and I you know I'll never

837

00:41:25,130 --> 00:41:23,339

probably never see those guys again I

838

00:41:27,589 --> 00:41:25,140

would tell you if I thought they were

839

00:41:29,480 --> 00:41:27,599

involved I don't think they were I think

840

00:41:32,559 --> 00:41:29,490

they honestly found something that

841

00:41:35,420 --> 00:41:32,569

somebody else put there I went through

842

00:41:41,180 --> 00:41:35,430

this is a few years ago I went through

843

00:41:44,200 --> 00:41:41,190

about oh I'm going to take a rough guess

844

00:41:47,539 --> 00:41:44,210

here I'm gonna say I looked at about 40

845

00:41:54,640 --> 00:41:47,549

different artifacts from Mexico that

846

00:42:00,170 --> 00:41:54,650

were found in this cave and they looked

847

00:42:04,039 --> 00:42:00,180

okay to my eyes this is me they looked

848

00:42:06,410 --> 00:42:04,049

too perfect in that the representations

849

00:42:08,720 --> 00:42:06,420

that are on this I held a knife all

850

00:42:12,440 --> 00:42:08,730

right this ceremonial knife and the

851  
00:42:16,849 --> 00:42:12,450  
knife was about I don't know two feet

852  
00:42:19,520 --> 00:42:16,859  
foot and a half long very ornate with

853  
00:42:23,900 --> 00:42:19,530  
these crazy

854  
00:42:26,840 --> 00:42:23,910  
Stone teeth on on the night but on the

855  
00:42:31,280 --> 00:42:26,850  
hilt of the knife is a perfect alien

856  
00:42:33,620 --> 00:42:31,290  
head just like we see today in the

857  
00:42:37,130 --> 00:42:33,630  
movies right with the with the eyes and

858  
00:42:38,150 --> 00:42:37,140  
the face almond-shaped elongate head

859  
00:42:41,960 --> 00:42:38,160  
right right

860  
00:42:45,350 --> 00:42:41,970  
and so they sand all that the guy that

861  
00:42:48,230 --> 00:42:45,360  
had this who's a radio host in in Mexico

862  
00:42:49,880 --> 00:42:48,240  
he's a very cool guy he had told me said

863  
00:42:52,040 --> 00:42:49,890

well you know we've had this analyzed

864

00:42:55,160 --> 00:42:52,050

and and the dirt and the organic

865

00:42:59,360 --> 00:42:55,170

material and the grooves here with the

866

00:43:01,880 --> 00:42:59,370

glue that was that is huge to hold this

867

00:43:06,080 --> 00:43:01,890

together is fifteen thousand years old

868

00:43:07,670 --> 00:43:06,090

and and I was like okay well and I'm

869

00:43:09,500 --> 00:43:07,680

holy I'm like this doesn't look like

870

00:43:11,830 --> 00:43:09,510

it's fifteen thousand years old this

871

00:43:15,110 --> 00:43:11,840

thing looks like it was made yesterday

872

00:43:19,970 --> 00:43:15,120

and and and I went through a bunch of

873

00:43:24,980 --> 00:43:19,980

stuff well anyway he sent me some videos

874

00:43:28,700 --> 00:43:24,990

of them going on an expedition with the

875

00:43:30,680 --> 00:43:28,710

guys this team that is going to the

876

00:43:33,710 --> 00:43:30,690

secret location in this mountain that

877

00:43:38,300 --> 00:43:33,720

where he got the artifacts from and they

878

00:43:41,140 --> 00:43:38,310

spend spending like a day maybe even two

879

00:43:44,690 --> 00:43:41,150

days on this hike through the jungle

880

00:43:48,440 --> 00:43:44,700

machetes no trail no road right they

881

00:43:51,200 --> 00:43:48,450

park and they are going into the jungle

882

00:43:53,870 --> 00:43:51,210

right right hacking their way through

883

00:43:57,350 --> 00:43:53,880

they finally get to the site and they go

884

00:43:58,970 --> 00:43:57,360

into this cave and deep in and they're

885

00:44:01,340 --> 00:43:58,980

this is like two days into the

886

00:44:03,590 --> 00:44:01,350

expedition they're sweating then they

887

00:44:06,950 --> 00:44:03,600

get down into this cave where there are

888

00:44:10,400 --> 00:44:06,960

guys archaeologists that are in there

889

00:44:13,670 --> 00:44:10,410

digging and they're pulling stuff up or

890

00:44:17,600 --> 00:44:13,680

pulling stuff up live on camera that is

891

00:44:19,400 --> 00:44:17,610

you know in in in the dirt in the mud

892

00:44:22,520 --> 00:44:19,410

and they're pulling this stuff out

893

00:44:25,700 --> 00:44:22,530

cleaning it up and and it's alien heads

894

00:44:29,720 --> 00:44:25,710

you know like crazy sculptures and

895

00:44:31,310 --> 00:44:29,730

things of human sitting with with alien

896

00:44:32,000 --> 00:44:31,320

heads at their feet you know they're

897

00:44:34,670 --> 00:44:32,010

pulling this

898

00:44:39,190 --> 00:44:34,680

and cleaning it up and taking out of

899

00:44:43,099 --> 00:44:39,200

this cave system now I was picturing

900

00:44:46,250 --> 00:44:43,109

some you know some production room

901  
00:44:48,200 --> 00:44:46,260  
somewhere some factory that is cranking

902  
00:44:49,910 --> 00:44:48,210  
this stuff out where you've got a bunch

903  
00:44:53,780 --> 00:44:49,920  
of people around doing this stuff with

904  
00:44:57,920 --> 00:44:53,790  
dremel you know and creating this stuff

905  
00:45:02,300 --> 00:44:57,930  
and if this is a hoax they are going to

906  
00:45:05,359 --> 00:45:02,310  
great lengths you know machete their way

907  
00:45:08,090 --> 00:45:05,369  
through the jungle to this cave system

908  
00:45:11,810 --> 00:45:08,100  
when they could if that you know they

909  
00:45:14,359 --> 00:45:11,820  
could find an easier way to to put

910  
00:45:16,609 --> 00:45:14,369  
together a cave expedition than what was

911  
00:45:19,160 --> 00:45:16,619  
presented in this video it looked gnarly

912  
00:45:22,250 --> 00:45:19,170  
to me well anyway if you're gonna put a

913  
00:45:26,420 --> 00:45:22,260

hoax together this is certainly pretty

914

00:45:28,700 --> 00:45:26,430

elaborate I don't I don't know what to

915

00:45:32,270 --> 00:45:28,710

make of it there and so I just saw they

916

00:45:38,359 --> 00:45:32,280

sent me a video recently and the

917

00:45:40,609 --> 00:45:38,369

sculpture Scott was it had to have been

918

00:45:42,230 --> 00:45:40,619

if I'm gonna make a guesstimate here I'm

919

00:45:49,340 --> 00:45:42,240

gonna say a half a ton

920

00:45:53,030 --> 00:45:49,350

it was probably five feet tall of some

921

00:45:55,340 --> 00:45:53,040

kind of stone I don't know

922

00:45:58,400 --> 00:45:55,350

you know agate I don't I don't know some

923

00:46:00,320 --> 00:45:58,410

kind of marble stone it was in color

924

00:46:02,840 --> 00:46:00,330

I've seen a lot of them that are made of

925

00:46:04,670 --> 00:46:02,850

jadeite and and I'll get into that

926  
00:46:07,040 --> 00:46:04,680  
because I'm actually looking at a whole

927  
00:46:09,020 --> 00:46:07,050  
host of these artifacts right now yes

928  
00:46:11,930 --> 00:46:09,030  
that were sent to me that that were

929  
00:46:15,920 --> 00:46:11,940  
found and you're describing the exact

930  
00:46:18,050 --> 00:46:15,930  
same type of situation that that that

931  
00:46:20,109 --> 00:46:18,060  
I'm actually talking with some people

932  
00:46:22,370 --> 00:46:20,119  
about right now they've sent me videos

933  
00:46:25,550 --> 00:46:22,380  
but not only did what are they pulling

934  
00:46:29,420 --> 00:46:25,560  
out artifacts there's got skeletons

935  
00:46:32,420 --> 00:46:29,430  
there yes okay so let me do a video let

936  
00:46:36,950 --> 00:46:32,430  
me let me continue and then off the air

937  
00:46:40,760 --> 00:46:36,960  
we'll we'll cross check names and stuff

938  
00:46:44,930 --> 00:46:40,770

we may be talking about it could be it

939

00:46:45,890 --> 00:46:44,940

could be the same but I maybe not anyway

940

00:46:49,040 --> 00:46:45,900

go ahead

941

00:46:53,510 --> 00:46:49,050

in this in this last video they've got a

942

00:46:55,700 --> 00:46:53,520

pickup truck with this giant statue in

943

00:46:58,670 --> 00:46:55,710

the back of the truck it's all roped up

944

00:47:01,610 --> 00:46:58,680

with ropes it's tied down I'm gonna say

945

00:47:03,920 --> 00:47:01,620

it's a seated figure some kind of king

946

00:47:06,650 --> 00:47:03,930

or God or whatever he seated and it's

947

00:47:11,270 --> 00:47:06,660

probably four or five feet tall four

948

00:47:13,610 --> 00:47:11,280

three four feet wide and and and deep so

949

00:47:15,140 --> 00:47:13,620

when I say a half a ton I don't know you

950

00:47:17,150 --> 00:47:15,150

know this is marble I don't know how

951  
00:47:19,910 --> 00:47:17,160  
much it weighs but I'm looking at you

952  
00:47:21,950 --> 00:47:19,920  
know eight yeah eight nine ten guys

953  
00:47:23,390 --> 00:47:21,960  
struggling to get this out of the back

954  
00:47:26,810 --> 00:47:23,400  
of the truck and they put it on the

955  
00:47:30,470 --> 00:47:26,820  
ground and it's still roped up but the

956  
00:47:34,960 --> 00:47:30,480  
camera which is high-def goes over the

957  
00:47:39,110 --> 00:47:34,970  
entire sculpture and it is it's aged

958  
00:47:40,460 --> 00:47:39,120  
it's cracked it's it's not like the

959  
00:47:41,330 --> 00:47:40,470  
artifacts that well it hasn't been

960  
00:47:43,400 --> 00:47:41,340  
cleaned up yet

961  
00:47:46,280 --> 00:47:43,410  
but you could tell as the cameras going

962  
00:47:49,250 --> 00:47:46,290  
over it with the cracks and stuff that

963  
00:47:51,230 --> 00:47:49,260

are in it if it was just carved then

964

00:47:54,470 --> 00:47:51,240

somehow they carved the cracks into a

965

00:48:00,230 --> 00:47:54,480

two and made it look old but that being

966

00:48:08,750 --> 00:48:00,240

said on this on this sculpture clearly

967

00:48:11,960 --> 00:48:08,760

are aliens flying saucers et the solar

968

00:48:14,300 --> 00:48:11,970

system the universe star pattern star

969

00:48:17,420 --> 00:48:14,310

maps all over this thing

970

00:48:20,710 --> 00:48:17,430

front to back the seated figure is there

971

00:48:25,730 --> 00:48:20,720

but the rest of it it is it's ornately

972

00:48:27,950 --> 00:48:25,740

covered with these references to ET now

973

00:48:30,170 --> 00:48:27,960

I I can I don't know I don't know what

974

00:48:32,330 --> 00:48:30,180

to make of what I am looking at here

975

00:48:34,880 --> 00:48:32,340

because if you're gonna fake it

976

00:48:38,540 --> 00:48:34,890

Ill don't know how it could be faked I'm

977

00:48:41,780 --> 00:48:38,550

assuming out of the gate like you that

978

00:48:44,600 --> 00:48:41,790

this is some something modern but it

979

00:48:46,310 --> 00:48:44,610

looks old and I don't know I don't know

980

00:48:49,570 --> 00:48:46,320

what's going on it's all coming from the

981

00:48:53,390 --> 00:48:49,580

same region the same mountain in Mexico

982

00:48:55,940 --> 00:48:53,400

well you know I don't know if it's the

983

00:48:59,630 --> 00:48:55,950

same stuff I will tell you this I have

984

00:49:07,550 --> 00:48:59,640

been approached by one too

985

00:49:10,160 --> 00:49:07,560

three four five six different groups not

986

00:49:12,650 --> 00:49:10,170

related not connected in any way shape

987

00:49:16,460 --> 00:49:12,660

or form from six different parts of

988

00:49:19,460 --> 00:49:16,470

Mexico and we're talking covering all

989

00:49:25,580 --> 00:49:19,470

over the map and they're coming up with

990

00:49:28,010 --> 00:49:25,590

stuff that is similar but not the same

991

00:49:30,320 --> 00:49:28,020

although you know it's it's weird

992

00:49:32,060 --> 00:49:30,330

because there's a some you know a couple

993

00:49:36,350 --> 00:49:32,070

of the groups are pulling out artifacts

994

00:49:39,680 --> 00:49:36,360

that are very similar in style in size

995

00:49:41,990 --> 00:49:39,690

in what's being depicted you know the

996

00:49:43,940 --> 00:49:42,000

artwork has sort of a similarity to it

997

00:49:46,280 --> 00:49:43,950

but then there's other areas where

998

00:49:48,410 --> 00:49:46,290

they're just like this this one area

999

00:49:50,810 --> 00:49:48,420

that I'm working on now they're pulling

1000

00:49:56,180 --> 00:49:50,820

out artifacts that are made of this

1001  
00:49:58,460 --> 00:49:56,190  
beautiful green jadeite and some of the

1002  
00:50:01,490 --> 00:49:58,470  
pieces are pulling out you talk about

1003  
00:50:03,500 --> 00:50:01,500  
this statue that weighs half a ton one

1004  
00:50:03,860 --> 00:50:03,510  
of the pieces they have is twelve feet

1005  
00:50:07,850 --> 00:50:03,870  
tall

1006  
00:50:12,470 --> 00:50:07,860  
it weighs several tons and it's the same

1007  
00:50:16,330 --> 00:50:12,480  
thing they can't even move it and like I

1008  
00:50:18,560 --> 00:50:16,340  
said these they've sent me videos I

1009  
00:50:21,110 --> 00:50:18,570  
don't know what to make of it either and

1010  
00:50:22,940 --> 00:50:21,120  
and and they're all covered with these

1011  
00:50:24,770 --> 00:50:22,950  
alien you know these scenes of these

1012  
00:50:28,760 --> 00:50:24,780  
aliens there's rituals

1013  
00:50:30,950 --> 00:50:28,770

there's symbols that are carved on them

1014

00:50:33,080 --> 00:50:30,960

that looked like a language but I don't

1015

00:50:35,480 --> 00:50:33,090

know what the hell it is and it's it's

1016

00:50:36,710 --> 00:50:35,490

it's not a language because and I'll

1017

00:50:40,760 --> 00:50:36,720

tell you there's another group of

1018

00:50:42,590 --> 00:50:40,770

artifacts that I have drawn these little

1019

00:50:46,160 --> 00:50:42,600

symbols that cover these things all over

1020

00:50:51,470 --> 00:50:46,170

them and I have drawn over a thousand

1021

00:50:57,550 --> 00:50:51,480

symbols a thousand not one repeat not

1022

00:51:02,030 --> 00:50:57,560

one okay I want you to go to Twitter and

1023

00:51:05,540 --> 00:51:02,040

check out what has just been posted I

1024

00:51:07,280 --> 00:51:05,550

think I'm not sure here but I think I

1025

00:51:11,870 --> 00:51:07,290

took these pictures I think that's my

1026  
00:51:13,410 --> 00:51:11,880  
hand in these images I've just retweeted

1027  
00:51:15,210 --> 00:51:13,420  
it you can see the knife

1028  
00:51:20,970 --> 00:51:15,220  
the ceremonial knife that I was talking

1029  
00:51:23,910 --> 00:51:20,980  
about and got the guys sitting on the

1030  
00:51:26,610 --> 00:51:23,920  
you know in a sitting position yes on

1031  
00:51:29,580 --> 00:51:26,620  
the hilt yeah the hand there's laid on

1032  
00:51:33,870 --> 00:51:29,590  
the end yeah and then there's a sort of

1033  
00:51:37,980 --> 00:51:33,880  
a pinkish colour variegated yep blade

1034  
00:51:40,590 --> 00:51:37,990  
with the sort of light greenish colour

1035  
00:51:43,680 --> 00:51:40,600  
teeth on it yep and I've held this in my

1036  
00:51:45,690 --> 00:51:43,690  
hand and like I said this is about it's

1037  
00:51:49,580 --> 00:51:45,700  
about two feet long it's huge

1038  
00:51:52,410 --> 00:51:49,590

right yep and now that that figure that

1039

00:51:54,600 --> 00:51:52,420

yeah that that the the figure that

1040

00:51:59,670 --> 00:51:54,610

you're seeing there's that's an alien

1041

00:52:01,680 --> 00:51:59,680

head yes yeah you know at the hilt and I

1042

00:52:03,960 --> 00:52:01,690

looking at some of these other pieces

1043

00:52:05,730 --> 00:52:03,970

like there's a I see you've got the

1044

00:52:08,130 --> 00:52:05,740

arrow there and then you have the P to

1045

00:52:11,190 --> 00:52:08,140

see the symbols on that force P yep yep

1046

00:52:14,910 --> 00:52:11,200

yep that's the exact same kind of stuff

1047

00:52:17,310 --> 00:52:14,920

I'm talking about now imagine I have

1048

00:52:18,900 --> 00:52:17,320

drawn now if you look at these I'll bet

1049

00:52:21,000 --> 00:52:18,910

you anything if you look closely at

1050

00:52:22,800 --> 00:52:21,010

these symbols you will not find anything

1051  
00:52:24,450 --> 00:52:22,810  
that repeats in fact I'm looking at it

1052  
00:52:26,880 --> 00:52:24,460  
now and I don't see anything that

1053  
00:52:29,810 --> 00:52:26,890  
repeats some of them are very similar

1054  
00:52:32,610 --> 00:52:29,820  
but they're not the same I've got a book

1055  
00:52:33,960 --> 00:52:32,620  
with over a thousand of these symbols on

1056  
00:52:37,530 --> 00:52:33,970  
various artifacts

1057  
00:52:40,320 --> 00:52:37,540  
none of them repeat not one now if I go

1058  
00:52:45,120 --> 00:52:40,330  
to the second set of images where I'm

1059  
00:52:49,020 --> 00:52:45,130  
holding the hilt there's a second set

1060  
00:52:53,640 --> 00:52:49,030  
and you can see that right there I'm

1061  
00:52:55,560 --> 00:52:53,650  
holding it up to the camera and and let

1062  
00:52:57,210 --> 00:52:55,570  
me get this retweeted you may not be

1063  
00:53:00,320 --> 00:52:57,220

seeing it hold on for a second I don't

1064

00:53:04,050 --> 00:53:00,330

see it okay just I saw the first group

1065

00:53:08,760 --> 00:53:04,060

we can yeah yeah hold on for a second

1066

00:53:13,620 --> 00:53:08,770

real real Scott troublemaker there it is

1067

00:53:17,160 --> 00:53:13,630

I got you okay alright and I'm posting

1068

00:53:22,920 --> 00:53:17,170

these up here now yeah so check it check

1069

00:53:26,400 --> 00:53:22,930

it out you've got it now and and you can

1070

00:53:26,880 --> 00:53:26,410

see it yeah now see that's that's the

1071

00:53:29,220 --> 00:53:26,890

help me

1072

00:53:31,220 --> 00:53:29,230

see this guy sitting now and see what

1073

00:53:37,430 --> 00:53:31,230

would this actually is it's pretty crazy

1074

00:53:40,140 --> 00:53:37,440

now no you know what Jim I've seen

1075

00:53:42,150 --> 00:53:40,150

hundreds of these you see them do you

1076  
00:53:43,920 --> 00:53:42,160  
see the pipe and I have a bunch of them

1077  
00:53:46,859 --> 00:53:43,930  
here and I'm studying them right now I

1078  
00:53:49,230 --> 00:53:46,869  
it's the same imagery exact same stuff

1079  
00:53:51,120 --> 00:53:49,240  
in fact it almost looks like the same

1080  
00:53:54,630 --> 00:53:51,130  
artist but there's no way one person

1081  
00:53:56,910 --> 00:53:54,640  
could do all these now these these

1082  
00:54:00,359 --> 00:53:56,920  
smaller pieces and even that big blade

1083  
00:54:03,120 --> 00:54:00,369  
you're talking about that stuff is

1084  
00:54:05,039 --> 00:54:03,130  
actually a zeolite mineral and it's a

1085  
00:54:07,920 --> 00:54:05,049  
secondary mineral that grows inside a

1086  
00:54:10,620 --> 00:54:07,930  
volcanic rock and I know it's volcanic

1087  
00:54:13,230 --> 00:54:10,630  
rock because I've seen pictures of where

1088  
00:54:16,140 --> 00:54:13,240

they come from up in these mountains and

1089

00:54:19,710 --> 00:54:16,150

it's mostly rhyolite and intermediate

1090

00:54:22,710 --> 00:54:19,720

and felsic volcanic and that's where

1091

00:54:27,839 --> 00:54:22,720

this zeolite the secondary zeolite what

1092

00:54:30,029 --> 00:54:27,849

it does is it fills fractures and they

1093

00:54:32,220 --> 00:54:30,039

must be mining them out or weathers out

1094

00:54:34,049 --> 00:54:32,230

the stuff ends up on the ground and then

1095

00:54:37,499 --> 00:54:34,059

they polish it they carve these these

1096

00:54:39,660 --> 00:54:37,509

these artifacts and there's no way to

1097

00:54:41,910 --> 00:54:39,670

date the rock

1098

00:54:44,309 --> 00:54:41,920

I'm sure the rock is millions of years

1099

00:54:46,950 --> 00:54:44,319

old but it lends itself to these

1100

00:54:51,120 --> 00:54:46,960

carvings because it's somewhat soft but

1101  
00:54:55,200 --> 00:54:51,130  
yet it's hard enough to you know to hold

1102  
00:54:58,019 --> 00:54:55,210  
the carvings and and you know I think

1103  
00:55:02,249 --> 00:54:58,029  
these things are incredible artwork yeah

1104  
00:55:04,319 --> 00:55:02,259  
I know I know they are but well I I do

1105  
00:55:11,870 --> 00:55:04,329  
because at the end of the episode if you

1106  
00:55:16,829 --> 00:55:11,880  
if you recall our guest you know mark

1107  
00:55:19,170 --> 00:55:16,839  
I'll just leave it at mark tested you

1108  
00:55:21,809 --> 00:55:19,180  
know the glue from this one artifact and

1109  
00:55:24,329 --> 00:55:21,819  
he got ninety two hundred years and then

1110  
00:55:27,390 --> 00:55:24,339  
i retested the glue from a different

1111  
00:55:29,549 --> 00:55:27,400  
part of the same artifact and got almost

1112  
00:55:33,079 --> 00:55:29,559  
the same test result and if you watch

1113  
00:55:36,990 --> 00:55:33,089

the episode when I got that test result

1114

00:55:39,870 --> 00:55:37,000

I you know I knew the result that he got

1115

00:55:40,980 --> 00:55:39,880

but for some reason I just it didn't

1116

00:55:46,650 --> 00:55:40,990

really

1117

00:55:50,520 --> 00:55:46,660

in real life I'm like well yeah okay

1118

00:55:52,950 --> 00:55:50,530

we'll listen why Scott I gotta take a

1119

00:55:58,260 --> 00:55:52,960

break right here wait I gotta do it I

1120

00:56:00,030 --> 00:55:58,270

gotta do it we'll be we'll be right back

1121

00:56:03,700 --> 00:56:00,040

with Scott Wolter this is fade to black

1122

00:56:41,839 --> 00:56:38,330

[Music]

1123

00:56:46,020 --> 00:56:43,859

welcome back fade to black I'm your

1124

00:56:49,710 --> 00:56:46,030

signature tonight Scott Wolter is here

1125

00:56:53,579 --> 00:56:49,720

or doing a season four breakdown episode

1126  
00:56:55,559 --> 00:56:53,589  
by episode of America on earth now we

1127  
00:56:58,319 --> 00:56:55,569  
were just talking about who totally got

1128  
00:57:00,750 --> 00:56:58,329  
to Episode two alien artifacts and we've

1129  
00:57:04,230 --> 00:57:00,760  
got so much more to cover Scott but I

1130  
00:57:08,819 --> 00:57:04,240  
want to finish our thoughts when you get

1131  
00:57:11,760 --> 00:57:08,829  
to 9,000 year old blue how if it's a

1132  
00:57:14,450 --> 00:57:11,770  
hoax how do you pull that off you said

1133  
00:57:17,099 --> 00:57:14,460  
that that didn't change your mind well

1134  
00:57:20,520 --> 00:57:17,109  
all I can say is is it got my attention

1135  
00:57:22,290 --> 00:57:20,530  
big time and I mean like I said before

1136  
00:57:25,020 --> 00:57:22,300  
I'm not ready to say that these things

1137  
00:57:27,809 --> 00:57:25,030  
are authentic the question now becomes

1138  
00:57:29,970 --> 00:57:27,819

okay can you fake that could that be

1139

00:57:32,160 --> 00:57:29,980

part of this whole process of faking it

1140

00:57:34,680 --> 00:57:32,170

and the answer is I think it's possible

1141

00:57:36,410 --> 00:57:34,690

but you still have to prove it now one

1142

00:57:40,589 --> 00:57:36,420

of the ways that it could be faked is

1143

00:57:43,049 --> 00:57:40,599

you could take a mammoth bone right it's

1144

00:57:45,150 --> 00:57:43,059

Pleistocene an age nine thousand year

1145

00:57:47,819 --> 00:57:45,160

old mammoth absolutely is it hard to get

1146

00:57:50,640 --> 00:57:47,829

not really and you pulverize it and you

1147

00:57:52,500 --> 00:57:50,650

mix it with an it a modern adhesive you

1148

00:57:54,000 --> 00:57:52,510

might be able to get that date I don't

1149

00:57:56,250 --> 00:57:54,010

even know if you can do that but in

1150

00:57:59,190 --> 00:57:56,260

theory that makes sense to me the

1151  
00:58:03,390 --> 00:57:59,200  
problem with that is if you're using a

1152  
00:58:05,910 --> 00:58:03,400  
modern organic based adhesive you mix

1153  
00:58:08,039 --> 00:58:05,920  
with this bone we should be able to tell

1154  
00:58:10,530 --> 00:58:08,049  
the difference that is something I plan

1155  
00:58:13,559 --> 00:58:10,540  
on doing so you know hold that thought

1156  
00:58:17,670 --> 00:58:13,569  
until we get there but until I prove to

1157  
00:58:20,359 --> 00:58:17,680  
myself that this is not faked I'm not

1158  
00:58:23,400 --> 00:58:20,369  
ready to say they're authentic but man

1159  
00:58:25,470 --> 00:58:23,410  
like I said before I am paying attention

1160  
00:58:27,900 --> 00:58:25,480  
big time and it demands further

1161  
00:58:30,809 --> 00:58:27,910  
investigation because what's at stake

1162  
00:58:33,780 --> 00:58:30,819  
Jim if these things indeed are that old

1163  
00:58:36,450 --> 00:58:33,790

and they were made by some indigenous

1164

00:58:38,370 --> 00:58:36,460

culture back at that time I mean you've

1165

00:58:41,339 --> 00:58:38,380

seen the imagery that's on them and the

1166

00:58:44,039 --> 00:58:41,349

iconography my god it's unmistakable

1167

00:58:46,650 --> 00:58:44,049

that there is alien contact with humans

1168

00:58:51,150 --> 00:58:46,660

being depicted is that what it means I

1169

00:58:51,630 --> 00:58:51,160

don't know man but it's it's rocked my

1170

00:58:52,970 --> 00:58:51,640

world

1171

00:58:55,190 --> 00:58:52,980

there isn't a

1172

00:59:01,970 --> 00:58:55,200

there's a factory somewhere cranking

1173

00:59:04,010 --> 00:59:01,980

this stuff out if you know you don't

1174

00:59:07,760 --> 00:59:04,020

we're not ready to draw that conclusion

1175

00:59:09,770 --> 00:59:07,770

yet no we just don't know you've hit the

1176

00:59:13,340 --> 00:59:09,780

nail on the head there's a factory

1177

00:59:18,430 --> 00:59:13,350

either back then or now right no matter

1178

00:59:21,290 --> 00:59:18,440

what they were cranking this stuff out I

1179

00:59:26,630 --> 00:59:21,300

held like I said I went through about 40

1180

00:59:29,090 --> 00:59:26,640

pieces and it was just it's too much you

1181

00:59:32,570 --> 00:59:29,100

know for your brain to handle you know I

1182

00:59:34,340 --> 00:59:32,580

move far man man man yeah well you know

1183

00:59:37,250 --> 00:59:34,350

the last thing I'll say on this is I

1184

00:59:39,230 --> 00:59:37,260

have seen probably over a thousand of

1185

00:59:41,870 --> 00:59:39,240

these pieces now well I have seen over a

1186

00:59:44,900 --> 00:59:41,880

thousand and and your brain does kind of

1187

00:59:47,390 --> 00:59:44,910

say yeah tap the brakes Man III right

1188

00:59:49,400 --> 00:59:47,400

right which I can't deal with this but

1189

00:59:51,530 --> 00:59:49,410

that that's your brain doing that that's

1190

00:59:54,470 --> 00:59:51,540

that doesn't necessarily mean it's

1191

00:59:57,380 --> 00:59:54,480

reality we have to you know kind of pull

1192

01:00:00,440 --> 00:59:57,390

pull ourselves up and you know take a

1193

01:00:02,480 --> 01:00:00,450

step back and what I always do is I

1194

01:00:04,700 --> 01:00:02,490

always revert to the science let's draw

1195

01:00:06,200 --> 01:00:04,710

us let's get some facts here let's see

1196

01:00:08,690 --> 01:00:06,210

if we can figure this thing out because

1197

01:00:10,790 --> 01:00:08,700

if we just let our minds run I mean

1198

01:00:12,560 --> 01:00:10,800

it'll go all over the place and you can

1199

01:00:15,140 --> 01:00:12,570

you can run yourself into these dark

1200

01:00:17,770 --> 01:00:15,150

shadows or these corners there's no way

1201

01:00:20,270 --> 01:00:17,780

out you just got to take a step back

1202

01:00:22,730 --> 01:00:20,280

revert to the science and let's see what

1203

01:00:26,900 --> 01:00:22,740

see we can figure out well of course and

1204

01:00:29,620 --> 01:00:26,910

you would have you would think that with

1205

01:00:34,330 --> 01:00:29,630

artifacts like this in such quantity

1206

01:00:36,980 --> 01:00:34,340

that this would have been exposed

1207

01:00:40,330 --> 01:00:36,990

there's there's way too much of it

1208

01:00:42,380 --> 01:00:40,340

there's way too much of it there was a

1209

01:00:45,470 --> 01:00:42,390

manures there were a couple of

1210

01:00:49,040 --> 01:00:45,480

situations like this I forget the priest

1211

01:00:50,890 --> 01:00:49,050

that was in Colombia he had the same

1212

01:00:53,570 --> 01:00:50,900

issue

1213

01:00:55,310 --> 01:00:53,580

yeah it'll come to as soon as we hang up

1214

01:00:58,730 --> 01:00:55,320

I would write both of us but I know

1215

01:01:01,730 --> 01:00:58,740

father right

1216

01:01:05,870 --> 01:01:01,740

I'd be assembled a collection of

1217

01:01:10,089 --> 01:01:05,880

artifacts mm I old and my just

1218

01:01:14,660 --> 01:01:10,099

incredible stuff plates huge sheets of

1219

01:01:17,120 --> 01:01:14,670

inscribed copper and silver and just

1220

01:01:18,500 --> 01:01:17,130

strange text on them yeah nobody's been

1221

01:01:21,500 --> 01:01:18,510

able to figure out because there are

1222

01:01:24,260 --> 01:01:21,510

pictures that survived oh my god what's

1223

01:01:26,030 --> 01:01:24,270

his name I know exactly yeah and and and

1224

01:01:30,620 --> 01:01:26,040

they never found out who made those

1225

01:01:34,490 --> 01:01:30,630

stuff and and I forget and hint you know

1226

01:01:37,280 --> 01:01:34,500

thousands of pieces then like his house

1227

01:01:39,170 --> 01:01:37,290

burned down and everything was lost you

1228

01:01:41,030 --> 01:01:39,180

know we have the photographs okay no

1229

01:01:43,430 --> 01:01:41,040

what happened is the Catholic Church

1230

01:01:45,349 --> 01:01:43,440

took the stuff right it ended a point of

1231

01:01:47,720 --> 01:01:45,359

the Vatican is what happened but he

1232

01:01:49,970 --> 01:01:47,730

didn't reveal all this stuff and what

1233

01:01:52,520 --> 01:01:49,980

happened was he was sent down there into

1234

01:01:54,710 --> 01:01:52,530

the jungles and he befriended the the

1235

01:01:57,650 --> 01:01:54,720

local indigenous people and the Chiefs

1236

01:01:59,690 --> 01:01:57,660

you know grew to trust him and so they

1237

01:02:01,730 --> 01:01:59,700

would go into the you know they would

1238

01:02:03,500 --> 01:02:01,740

send his people into these caves and

1239

01:02:05,570 --> 01:02:03,510

into the jungles and they would come

1240

01:02:07,040 --> 01:02:05,580

back with these these these amazing

1241

01:02:11,570 --> 01:02:07,050

artifacts and they would give them to

1242

01:02:14,720 --> 01:02:11,580

him and he stockpiled them over over

1243

01:02:17,390 --> 01:02:14,730

several decades in fact I have talked to

1244

01:02:19,790 --> 01:02:17,400

people that went down there and met him

1245

01:02:22,790 --> 01:02:19,800

and saw these artifacts before the

1246

01:02:27,349 --> 01:02:22,800

Vatican came and took them and they said

1247

01:02:29,720 --> 01:02:27,359

he was a wonderful guy and he the

1248

01:02:31,910 --> 01:02:29,730

artifacts are amazing that if some of

1249

01:02:32,870 --> 01:02:31,920

them were made of gold some of them were

1250

01:02:35,930 --> 01:02:32,880

made of silver

1251

01:02:39,109 --> 01:02:35,940

they were just incredible and they had

1252

01:02:41,720 --> 01:02:39,119

ancient texts and I remember some of the

1253

01:02:44,000 --> 01:02:41,730

iconography was very Egyptian like and

1254

01:02:46,640 --> 01:02:44,010

you also see some of the iconography on

1255

01:02:48,140 --> 01:02:46,650

these alien artifacts for lack of a

1256

01:02:49,880 --> 01:02:48,150

better you know whatever what are we

1257

01:02:52,190 --> 01:02:49,890

going to call them that also has

1258

01:02:54,320 --> 01:02:52,200

Egyptian iconography it's incredible

1259

01:02:56,990 --> 01:02:54,330

yeah and some of that looks like some of

1260

01:02:59,930 --> 01:02:57,000

the crop circles too as well father

1261

01:03:01,970 --> 01:02:59,940

Crespi's but some of the designs and

1262

01:03:04,720 --> 01:03:01,980

that father's work is some of the

1263

01:03:07,820 --> 01:03:04,730

artwork is incredible father Crespi

1264

01:03:10,000 --> 01:03:07,830

recipe that's it yep father trust me yep

1265

01:03:12,350 --> 01:03:10,010

right all right speaking of caves

1266

01:03:14,030 --> 01:03:12,360

episode 3 cave of sea

1267

01:03:16,880 --> 01:03:14,040

I didn't see this episode what happened

1268

01:03:20,740 --> 01:03:16,890

there oh that was a great one actually

1269

01:03:23,420 --> 01:03:20,750

that was Chris Courtney was a guy who

1270

01:03:26,720 --> 01:03:23,430

contacted us actually rate at the end of

1271

01:03:28,730 --> 01:03:26,730

season three and we didn't have we don't

1272

01:03:30,320 --> 01:03:28,740

we you know what happened we thought we

1273

01:03:32,120 --> 01:03:30,330

were going to get a season four and then

1274

01:03:34,760 --> 01:03:32,130

they sold h2 and that was the end of

1275

01:03:36,530 --> 01:03:34,770

that but he was a guy we were going to

1276

01:03:38,210 --> 01:03:36,540

do that episode and season four back

1277

01:03:40,640 --> 01:03:38,220

then and obviously the show didn't

1278

01:03:42,770 --> 01:03:40,650

continue so we had to put it off but

1279

01:03:45,410 --> 01:03:42,780

when when we got renewed that was one of

1280

01:03:47,150 --> 01:03:45,420

the K at one of the episodes that we

1281

01:03:50,390 --> 01:03:47,160

wanted to do so we did and basically

1282

01:03:51,980 --> 01:03:50,400

when he was 12 years old he was in the

1283

01:03:53,540 --> 01:03:51,990

backyard of the house that he was living

1284

01:03:56,240 --> 01:03:53,550

in at the time and he was chasing a

1285

01:03:58,370 --> 01:03:56,250

salamander went down a hole and he

1286

01:04:01,850 --> 01:03:58,380

pulled a rock out and he realized there

1287

01:04:03,980 --> 01:04:01,860

was a cave there that had an entrance

1288

01:04:06,680 --> 01:04:03,990

with steps that had been mortared in

1289

01:04:09,860 --> 01:04:06,690

this thing had been crafted by man that

1290

01:04:11,630 --> 01:04:09,870

led down into a natural cave a limestone

1291

01:04:16,880 --> 01:04:11,640

cave just like we were talking about

1292

01:04:19,480 --> 01:04:16,890

earlier and you know he was 12 years old

1293

01:04:23,060 --> 01:04:19,490

at the time he's in his mid-50s now and

1294

01:04:27,170 --> 01:04:23,070

he just wanted to know who made this

1295

01:04:30,290 --> 01:04:27,180

what was it used for I it's bothered me

1296

01:04:32,330 --> 01:04:30,300

my whole life I can you help me so if

1297

01:04:36,680 --> 01:04:32,340

you watch the episode what we what we

1298

01:04:38,720 --> 01:04:36,690

look into is that probably during you

1299

01:04:43,010 --> 01:04:38,730

know Neolithic times it was probably

1300

01:04:47,930 --> 01:04:43,020

used as a shelter for early indigenous

1301

01:04:51,650 --> 01:04:47,940

people and a source of water later on it

1302

01:04:56,030 --> 01:04:51,660

was probably used during the Whiskey

1303

01:04:58,640 --> 01:04:56,040

Rebellion to get fresh water and maybe

1304

01:05:00,110 --> 01:04:58,650

hide hide whiskey that was one of the

1305

01:05:02,510 --> 01:05:00,120

thoughts that we had because the Whiskey

1306

01:05:05,060 --> 01:05:02,520

Rebellion and Shippensburg Pennsylvania

1307

01:05:07,790 --> 01:05:05,070

certainly was alive and well there later

1308

01:05:11,030 --> 01:05:07,800

on we looked into the whole idea of the

1309

01:05:13,850 --> 01:05:11,040

Underground Railroad that maybe slaves

1310

01:05:15,380 --> 01:05:13,860

that were escaping from the south we're

1311

01:05:19,640 --> 01:05:15,390

hiding out in this cave at least

1312

01:05:22,040 --> 01:05:19,650

temporarily and you know we really don't

1313

01:05:25,310 --> 01:05:22,050

pretty deep into that and then the other

1314

01:05:26,330 --> 01:05:25,320

thing that we looked into was could it

1315

01:05:31,520 --> 01:05:26,340

have been used

1316

01:05:33,740 --> 01:05:31,530

part of a ritual chamber for a masonic

1317

01:05:36,700 --> 01:05:33,750

like organization called the Knights of

1318

01:05:38,540 --> 01:05:36,710

the Golden Eagle and the reason we

1319

01:05:41,630 --> 01:05:38,550

looked into the Knights of the Golden

1320

01:05:44,180 --> 01:05:41,640

Eagle is because Chris about a month and

1321

01:05:47,120 --> 01:05:44,190

a half after he found this cave actually

1322

01:05:50,540 --> 01:05:47,130

found a Masonic medal for the Knights of

1323

01:05:53,630 --> 01:05:50,550

the Golden Eagle so we looked into that

1324

01:05:57,170 --> 01:05:53,640

and a couple of really cool things

1325

01:05:58,910 --> 01:05:57,180

happened one is we met some people some

1326

01:06:02,930 --> 01:05:58,920

older folks that were moving out of a

1327

01:06:07,670 --> 01:06:02,940

house that back in the you know the

1328

01:06:09,230 --> 01:06:07,680

mid-1800s there was a family that lived

1329

01:06:11,900 --> 01:06:09,240

there that had a young daughter who

1330

01:06:14,810 --> 01:06:11,910

would bring food when she was 12 years

1331

01:06:16,790 --> 01:06:14,820

old she would cross this field and then

1332

01:06:18,890 --> 01:06:16,800

cross a river to these caves on the

1333

01:06:20,930 --> 01:06:18,900

other side of the river not the Courtney

1334

01:06:23,270 --> 01:06:20,940

cave but these other caves that I

1335

01:06:25,430 --> 01:06:23,280

actually went and visited where slaves

1336

01:06:29,180 --> 01:06:25,440

did hide out and she would bring food to

1337

01:06:30,950 --> 01:06:29,190

them and you know I mean if you stop and

1338

01:06:33,710 --> 01:06:30,960

think about it that was heroic because

1339

01:06:35,660 --> 01:06:33,720

if the family would have been caught

1340

01:06:37,910 --> 01:06:35,670

they could have been killed for

1341

01:06:40,550 --> 01:06:37,920

harboring slaves and for helping them

1342

01:06:42,560 --> 01:06:40,560

because it was against the law the other

1343

01:06:46,270 --> 01:06:42,570

thing that was really cool is I got to

1344

01:06:49,670 --> 01:06:46,280

meet a woman named Valerie still who

1345

01:06:52,790 --> 01:06:49,680

actually played in the WNBA she played

1346

01:06:55,550 --> 01:06:52,800

over in Europe professionally university

1347

01:06:57,500 --> 01:06:55,560

at Kentucky grad just a phenomenal

1348

01:06:59,990 --> 01:06:57,510

basketball player but she is a

1349

01:07:03,440 --> 01:07:00,000

descendant of a guy by the name of

1350

01:07:06,440 --> 01:07:03,450

William still who worked with Harriet

1351

01:07:09,110 --> 01:07:06,450

Tubman helping slaves escape from the

1352

01:07:11,600 --> 01:07:09,120

south and he was the guy who would

1353

01:07:13,640 --> 01:07:11,610

record all the information about these

1354

01:07:17,300 --> 01:07:13,650

slaves when they came in it would record

1355

01:07:19,850 --> 01:07:17,310

their names their physical features any

1356

01:07:22,160 --> 01:07:19,860

any historical information who their

1357

01:07:26,210 --> 01:07:22,170

owners were were you know what counties

1358

01:07:29,090 --> 01:07:26,220

they came from and we took valerie and

1359

01:07:32,860 --> 01:07:29,100

we went to the Pennsylvania Historical

1360

01:07:37,210 --> 01:07:32,870

Society and the curator pulled out an

1361

01:07:39,599 --> 01:07:37,220

original copy written in Valerie's

1362

01:07:41,849 --> 01:07:39,609

ancestors own hand

1363

01:07:43,799 --> 01:07:41,859

and on the top of one of the pages he

1364

01:07:46,259 --> 01:07:43,809

opened it - it said Harriet Tubman

1365

01:07:49,499 --> 01:07:46,269

brought these you know these escaped

1366

01:07:51,959 --> 01:07:49,509

slaves in and she's reading this and as

1367

01:07:55,529 --> 01:07:51,969

we were filming this Jim we're all

1368

01:07:59,009 --> 01:07:55,539

weeping it was so powerful and so

1369

01:08:02,069 --> 01:07:59,019

emotional I I you know I think it came

1370

01:08:04,829 --> 01:08:02,079

across a little bit on television but

1371

01:08:06,690 --> 01:08:04,839

they really toned it down I mean there

1372

01:08:09,509 --> 01:08:06,700

wasn't a dry eye in the house it was

1373

01:08:13,140 --> 01:08:09,519

really one of one of the most magical

1374

01:08:15,989 --> 01:08:13,150

moments of any any episode we ever

1375

01:08:17,070 --> 01:08:15,999

filmed now I did see I did see pieces of

1376

01:08:22,169 --> 01:08:17,080

this episode

1377

01:08:25,289 --> 01:08:22,179

now that you've reminded me and what my

1378

01:08:30,209 --> 01:08:25,299

memory says is the cave was in two

1379

01:08:36,089 --> 01:08:30,219

sections one was modern right with with

1380

01:08:37,709 --> 01:08:36,099

modern steps and and it yeah the top up

1381

01:08:43,249 --> 01:08:37,719

at the entrance and then in the back

1382

01:08:47,309 --> 01:08:43,259

half of the cave it it it was untouched

1383

01:08:50,070 --> 01:08:47,319

but it's natural it was natural at this

1384

01:08:51,660 --> 01:08:50,080

particular time this past year I mean

1385

01:08:52,919 --> 01:08:51,670

they had all kinds of rain we're still

1386

01:08:55,800 --> 01:08:52,929

getting all kinds of rain in the Midwest

1387

01:08:59,010 --> 01:08:55,810

here and it was flooded worse than it's

1388

01:09:02,339 --> 01:08:59,020

ever been and in the end what we what we

1389

01:09:03,930 --> 01:09:02,349

concluded right was that the that the

1390

01:09:05,999 --> 01:09:03,940

cave was probably used for multiple

1391

01:09:08,430 --> 01:09:06,009

things over the over the centuries right

1392

01:09:10,649 --> 01:09:08,440

right but it definitely was used because

1393

01:09:14,669 --> 01:09:10,659

there was actually a building that used

1394

01:09:17,660 --> 01:09:14,679

to exist over it so it was hidden and we

1395

01:09:20,760 --> 01:09:17,670

think it was used for initiation rituals

1396

01:09:23,430 --> 01:09:20,770

for the Knights of the Golden Eagle and

1397

01:09:25,829 --> 01:09:23,440

when I learned more about their rituals

1398

01:09:28,229 --> 01:09:25,839

now remember this is not a sanctioned

1399

01:09:30,870 --> 01:09:28,239

body it's not a true Masonic body

1400

01:09:33,359 --> 01:09:30,880

sanctioned by the Grand Lodge this is

1401

01:09:35,430 --> 01:09:33,369

sort of an offshoot that you know

1402

01:09:38,309 --> 01:09:35,440

obviously some of these guys were Masons

1403

01:09:42,899 --> 01:09:38,319

and they they base their rituals pretty

1404

01:09:45,030 --> 01:09:42,909

closely to to Masonic ritual but it fit

1405

01:09:48,030 --> 01:09:45,040

perfectly and I and because of that

1406

01:09:50,669 --> 01:09:48,040

metal it turned out one of the founders

1407

01:09:52,930 --> 01:09:50,679

of the Knights of the Golden Eagle used

1408

01:09:56,020 --> 01:09:52,940

to live in that house on

1409

01:09:58,060 --> 01:09:56,030

property so to me that was conclusive

1410

01:09:59,590 --> 01:09:58,070

evidence along with the metal and the

1411

01:10:02,320 --> 01:09:59,600

fact that there was a house to hide

1412

01:10:04,930 --> 01:10:02,330

these guys activities inside the

1413

01:10:07,540 --> 01:10:04,940

building and in the cave where they were

1414

01:10:11,140 --> 01:10:07,550

they had their in this their their

1415

01:10:14,880 --> 01:10:11,150

initial initiation so that was a cool

1416

01:10:18,010 --> 01:10:14,890

episode yeah it was a cool episode and

1417

01:10:19,960 --> 01:10:18,020

I'm a little bit jealous you know with

1418

01:10:21,790 --> 01:10:19,970

the courtney cave in that when I was

1419

01:10:26,890 --> 01:10:21,800

growing up I never found anything like

1420

01:10:29,830 --> 01:10:26,900

that in my backyard but Chris Chris was

1421

01:10:31,570 --> 01:10:29,840

a great guest and we ended up having the

1422

01:10:34,450 --> 01:10:31,580

final scene where I delivered all the

1423

01:10:38,170 --> 01:10:34,460

information to him near the mason-dixon

1424

01:10:41,050 --> 01:10:38,180

line at a distillery and I had to

1425

01:10:43,690 --> 01:10:41,060

deliver my lines drinking beautiful

1426

01:10:46,060 --> 01:10:43,700

scotch whisky and I it was really tough

1427

01:10:49,810 --> 01:10:46,070

tough sledding but I got through it I'm

1428

01:10:52,660 --> 01:10:49,820

still looking I want to buy a house here

1429

01:10:54,880 --> 01:10:52,670

in in Los Angeles I want to buy a house

1430

01:10:59,500 --> 01:10:54,890

that's got a bomb shelter you know from

1431

01:11:02,350 --> 01:10:59,510

the 50s I mean there's all of these

1432

01:11:05,260 --> 01:11:02,360

story this urban legend you know about

1433

01:11:07,750 --> 01:11:05,270

how many homes here you know in the

1434

01:11:10,300 --> 01:11:07,760

suburbs of Los Angeles that come

1435

01:11:12,400 --> 01:11:10,310

equipped with a bomb shelter I haven't

1436

01:11:16,060 --> 01:11:12,410

found it yet but man how cool would that

1437

01:11:18,220 --> 01:11:16,070

be right in a sure there's some strange

1438

01:11:20,920 --> 01:11:18,230

stuff going on in LA we hit those

1439

01:11:22,900 --> 01:11:20,930

basements down there man we don't have a

1440

01:11:25,030 --> 01:11:22,910

basement I'm sure I'm sure there's a lot

1441

01:11:27,310 --> 01:11:25,040

more than anybody realizes you know we

1442

01:11:31,120 --> 01:11:27,320

don't have basements in California isn't

1443

01:11:33,130 --> 01:11:31,130

that crazy you don't need no in in in

1444

01:11:35,260 --> 01:11:33,140

the Midwest or through the entire

1445

01:11:38,890 --> 01:11:35,270

country every house has got a basement

1446

01:11:41,100 --> 01:11:38,900

family room whatever not here in

1447

01:11:45,220 --> 01:11:41,110

California they don't exist there are

1448

01:11:47,110 --> 01:11:45,230

basements basement right now and when

1449

01:11:49,630 --> 01:11:47,120

and the nice thing is when it's really

1450

01:11:51,340 --> 01:11:49,640

hot in the summertime you come down here

1451

01:11:56,170 --> 01:11:51,350

oh my god it's beautiful

1452

01:11:58,030 --> 01:11:56,180

yeah and cool yeah episode four though

1453

01:12:01,360 --> 01:11:58,040

right which one was that the Ripper

1454

01:12:04,000 --> 01:12:01,370

unmasked oh yeah this is one of those

1455

01:12:05,980 --> 01:12:04,010

different episodes that was kind of as

1456

01:12:10,830 --> 01:12:05,990

you would say out of our wheelhouse but

1457

01:12:13,690 --> 01:12:10,840

I thought I thought we had a really cool

1458

01:12:17,230 --> 01:12:13,700

suspect somebody who was very famous I'm

1459

01:12:20,400 --> 01:12:17,240

not saying that we got it right but I

1460

01:12:22,660 --> 01:12:20,410

think we made a really strong case and

1461

01:12:24,880 --> 01:12:22,670

you know there is something that

1462

01:12:27,910 --> 01:12:24,890

happened during the making of that

1463

01:12:30,970 --> 01:12:27,920

episode that has to do with Freemasonry

1464

01:12:33,820 --> 01:12:30,980

then even now I still can't go into too

1465

01:12:35,950 --> 01:12:33,830

many details but what I will tell you is

1466

01:12:40,540 --> 01:12:35,960

that when I first interviewed the

1467

01:12:43,840 --> 01:12:40,550

Freedmen's at their house in Long Island

1468

01:12:46,720 --> 01:12:43,850

and they laid out their theory about who

1469

01:12:49,840 --> 01:12:46,730

they thought Jack the Ripper was it's

1470

01:12:54,640 --> 01:12:49,850

one of the things they focus on focused

1471

01:12:57,670 --> 01:12:54,650

on as physicians was the rooms that the

1472

01:13:00,040 --> 01:12:57,680

Ripper created on the victims during you

1473

01:13:04,330 --> 01:13:00,050

know the murders that he committed and

1474

01:13:08,710 --> 01:13:04,340

all I'm going to tell you is that there

1475

01:13:11,730 --> 01:13:08,720

was a pattern of something that is

1476

01:13:15,820 --> 01:13:11,740

connected to Freemasonry that I

1477

01:13:17,890 --> 01:13:15,830

recognized the problem is it's one of

1478

01:13:21,300 --> 01:13:17,900

the few things that we are not allowed

1479

01:13:25,180 --> 01:13:21,310

to talk about so I can't talk about it

1480

01:13:28,120 --> 01:13:25,190

but I was so torn because the

1481

01:13:30,340 --> 01:13:28,130

investigator in me wanted to run with

1482

01:13:32,890 --> 01:13:30,350

that because it was a what did what it

1483

01:13:37,600 --> 01:13:32,900

told me is that the Ripper was a

1484

01:13:42,400 --> 01:13:37,610

freemason and what's interesting is our

1485

01:13:44,740 --> 01:13:42,410

suspect was a freemason in 1880 and I

1486

01:13:46,510 --> 01:13:44,750

got a man I want to make sure you get my

1487

01:13:48,910 --> 01:13:46,520

numbers right because similar dates

1488

01:13:51,340 --> 01:13:48,920

happen in another episode but let's just

1489

01:13:52,980 --> 01:13:51,350

say the murders happen in 1886 and I

1490

01:13:56,350 --> 01:13:52,990

don't remember if that's right or not

1491

01:14:00,490 --> 01:13:56,360

but our suspect became was raised as a

1492

01:14:02,590 --> 01:14:00,500

freemason the year before he was a Mason

1493

01:14:06,270 --> 01:14:02,600

that year when the murders happened and

1494

01:14:11,080 --> 01:14:06,280

then the year after he left masonry

1495

01:14:12,990 --> 01:14:11,090

interesting and yeah do you with and

1496

01:14:18,130 --> 01:14:13,000

I've done a few Jack the Ripper shows

1497

01:14:21,970 --> 01:14:18,140

here and be fight I'm not going to go

1498

01:14:24,400 --> 01:14:21,980

into those details but the the Jack the

1499

01:14:28,540 --> 01:14:24,410

Ripper case you would you know it's

1500

01:14:30,910 --> 01:14:28,550

modern enough where we we know the names

1501

01:14:32,770 --> 01:14:30,920

of the victims we have the locations we

1502

01:14:35,830 --> 01:14:32,780

have all kinds of evidence and

1503

01:14:41,230 --> 01:14:35,840

everything it's it's an insane case to

1504

01:14:45,250 --> 01:14:41,240

have gone unsolved you know what it is

1505

01:14:47,860 --> 01:14:45,260

and I'll tell you the one thing that

1506

01:14:51,010 --> 01:14:47,870

would solve that case is obviously DNA

1507

01:14:55,120 --> 01:14:51,020

right right because there are some

1508

01:14:58,090 --> 01:14:55,130

pretty well known usual suspects and

1509

01:15:00,130 --> 01:14:58,100

it's not a long list and I think that

1510

01:15:03,550 --> 01:15:00,140

there are some really good can including

1511

01:15:07,420 --> 01:15:03,560

including ours good candidates and if we

1512

01:15:10,900 --> 01:15:07,430

had DNA from any of those victims

1513

01:15:13,150 --> 01:15:10,910

you know surely they must have left his

1514

01:15:16,210 --> 01:15:13,160

own DNA somewhere on those victims or

1515

01:15:19,750 --> 01:15:16,220

his victims DNA would be somewhere in on

1516

01:15:22,060 --> 01:15:19,760

his clothing or or something but that

1517

01:15:25,720 --> 01:15:22,070

technology and and that science just

1518

01:15:27,130 --> 01:15:25,730

didn't exist at that time it did it's a

1519

01:15:29,830 --> 01:15:27,140

shame and we just don't have any

1520

01:15:31,660 --> 01:15:29,840

artifacts left I mean you know there was

1521

01:15:33,460 --> 01:15:31,670

a kidney that was sent to the police for

1522

01:15:38,380 --> 01:15:33,470

crying out well why didn't somebody say

1523

01:15:41,910 --> 01:15:38,390

that you know right yeah I check the

1524

01:15:45,700 --> 01:15:41,920

ripper for for me is not only

1525

01:15:48,100 --> 01:15:45,710

fascinating but I think this is this is

1526

01:15:50,440 --> 01:15:48,110

this is my take I don't think they they

1527

01:15:52,420 --> 01:15:50,450

ever wanted that case solved not

1528

01:15:54,550 --> 01:15:52,430

publicly I think that they know not the

1529

01:15:57,220 --> 01:15:54,560

media yeah it was the biggest media

1530

01:16:00,550 --> 01:15:57,230

friend who was more a news person and

1531

01:16:02,980 --> 01:16:00,560

and magazines and articles I mean you

1532

01:16:04,990 --> 01:16:02,990

know and and it's kind of sad on one

1533

01:16:08,200 --> 01:16:05,000

hand but you know you look what's

1534

01:16:10,750 --> 01:16:08,210

happening today I mean the media is all

1535

01:16:12,900 --> 01:16:10,760

over every word the president says every

1536

01:16:16,090 --> 01:16:12,910

candidate says every you know

1537

01:16:19,330 --> 01:16:16,100

legislature I mean it's too much you

1538

01:16:20,980 --> 01:16:19,340

know but there's so much money involved

1539

01:16:23,710 --> 01:16:20,990

and back then it really wasn't any

1540

01:16:25,780 --> 01:16:23,720

different it was it was different but it

1541

01:16:28,000 --> 01:16:25,790

was the same yeah no you're right about

1542

01:16:31,600 --> 01:16:28,010

that I think it's a cover-up

1543

01:16:33,730 --> 01:16:31,610

I do that's I think that they knew

1544

01:16:38,130 --> 01:16:33,740

exactly who it was and it was different

1545

01:16:40,720 --> 01:16:38,140

times in a different place and somebody

1546

01:16:42,460 --> 01:16:40,730

somebody got away with it because they

1547

01:16:44,650 --> 01:16:42,470

could and I don't know if it was the

1548

01:16:47,820 --> 01:16:44,660

monarchy that was involved or if his

1549

01:16:51,610 --> 01:16:47,830

politicians or money or or you know

1550

01:16:54,490 --> 01:16:51,620

extremely wealthy families I just think

1551

01:16:57,340 --> 01:16:54,500

that they knew I think that it's a it's

1552

01:17:00,760 --> 01:16:57,350

a cover-up and and somebody got clean

1553

01:17:02,830 --> 01:17:00,770

away with it that's my take that's why

1554

01:17:04,420 --> 01:17:02,840

it's unsolved somebody clearly got away

1555

01:17:07,510 --> 01:17:04,430

with murder there's no question about

1556

01:17:10,090 --> 01:17:07,520

that was you know was it some did he did

1557

01:17:13,510 --> 01:17:10,100

that person get help I I don't know

1558

01:17:15,550 --> 01:17:13,520

enough about all of it to say but they

1559

01:17:17,920 --> 01:17:15,560

clearly got away with it and it really

1560

01:17:22,120 --> 01:17:17,930

makes you makes you wonder if it was our

1561

01:17:24,040 --> 01:17:22,130

guy he went on to live many more years

1562

01:17:27,700 --> 01:17:24,050

after that and had a very successful

1563

01:17:30,340 --> 01:17:27,710

career Arthur Conan Doyle guy that wrote

1564

01:17:32,110 --> 01:17:30,350

the Sherlock Holmes mysteries he was our

1565

01:17:34,510 --> 01:17:32,120

guy but I'll tell you what if you look

1566

01:17:37,270 --> 01:17:34,520

into his history there's some awful

1567

01:17:39,880 --> 01:17:37,280

fishy stuff that we didn't go into into

1568

01:17:43,210 --> 01:17:39,890

the show that actually makes him even

1569

01:17:45,700 --> 01:17:43,220

more interesting so I don't know whoever

1570

01:17:49,380 --> 01:17:45,710

it was he got away with it there you go

1571

01:17:55,570 --> 01:17:49,390

now when we come back Phoenicians in

1572

01:17:58,630 --> 01:17:55,580

America and you know what I had a I had

1573

01:18:01,200 --> 01:17:58,640

a friend I had a co-worker this is many

1574

01:18:04,840 --> 01:18:01,210

years ago many years ago 15 years ago

1575

01:18:06,910 --> 01:18:04,850

where you know and I'm all fascinated

1576

01:18:11,430 --> 01:18:06,920

with these subjects and and this guy he

1577

01:18:13,480 --> 01:18:11,440

looked at me he goes I'm a Phoenician

1578

01:18:18,370 --> 01:18:13,490

okay all right

1579

01:18:21,580 --> 01:18:18,380

and he said we invented everything we

1580

01:18:24,460 --> 01:18:21,590

invented boats and shipping and language

1581

01:18:26,620 --> 01:18:24,470

and writing and married before everybody

1582

01:18:29,180 --> 01:18:26,630

else Phoenicians were the start of it

1583

01:18:31,880 --> 01:18:29,190

all we knew everything about this planet

1584

01:18:36,170 --> 01:18:31,890

and with there's something to be said

1585

01:18:39,230 --> 01:18:36,180

for that exactly exactly and he was he

1586

01:18:48,560 --> 01:18:39,240

deadpanned me right in the eyes

1587

01:18:50,060 --> 01:18:48,570

I'm a phoenician our guest is Scott

1588

01:18:53,090 --> 01:18:50,070

Wolter we're doing an episode by episode

1589

01:18:55,340 --> 01:18:53,100  
of season 4 of America on earth it just

1590

01:18:56,870 --> 01:18:55,350  
wrapped more when we come back with

1591

01:19:00,680 --> 01:18:56,880  
Scott after this short break stay with

1592

01:19:10,450 --> 01:19:08,399  
[Music]

1593

01:19:12,609 --> 01:19:10,460  
welcome back fade to black our guest

1594

01:19:14,649 --> 01:19:12,619  
tonight Scott Wolter one of our favorite

1595

01:19:18,010 --> 01:19:14,659  
favorite friends of the show we are

1596

01:19:22,209 --> 01:19:18,020  
doing an episode by episode recap of

1597

01:19:23,919 --> 01:19:22,219  
season four of America on earth and this

1598

01:19:25,569 --> 01:19:23,929  
is the deal see every time that Scott's

1599

01:19:27,189 --> 01:19:25,579  
on the show he's like I can't talk about

1600

01:19:29,439 --> 01:19:27,199  
it to me you gotta wait I can't talk

1601

01:19:32,379 --> 01:19:29,449

about it you can't talk about a Jimmy

1602

01:19:35,169 --> 01:19:32,389

gotta wait well not tonight tonight

1603

01:19:37,240 --> 01:19:35,179

Scott agreed with me everything

1604

01:19:41,100 --> 01:19:37,250

everything will get answered tonight and

1605

01:19:43,479 --> 01:19:41,110

we're gonna jump to episode five of

1606

01:19:45,990 --> 01:19:43,489

America on earth which is phoenicians in

1607

01:19:51,010 --> 01:19:46,000

America now before we get to that Scott

1608

01:19:54,040 --> 01:19:51,020

hasn't everybody I mean America the

1609

01:19:56,680 --> 01:19:54,050

Americas have been visited by everybody

1610

01:20:01,270 --> 01:19:56,690

right we've got evidence of Egyptians

1611

01:20:04,450 --> 01:20:01,280

and Vikings and of course the Templars

1612

01:20:06,370 --> 01:20:04,460

and and the possibility of you know

1613

01:20:12,310 --> 01:20:06,380

maybe even you know from Polynesia may

1614

01:20:13,450 --> 01:20:12,320

and Asia did that that we it was visited

1615

01:20:17,709 --> 01:20:13,460

by everybody

1616

01:20:20,680 --> 01:20:17,719

why not the Phoenicians right well the

1617

01:20:24,879 --> 01:20:20,690

Phoenicians were here I firmly believe

1618

01:20:26,709 --> 01:20:24,889

that and you know we've said this for a

1619

01:20:28,600 --> 01:20:26,719

long time that there were cultures

1620

01:20:31,240 --> 01:20:28,610

coming from all over the world visiting

1621

01:20:35,910 --> 01:20:31,250

here and we've explored just about every

1622

01:20:39,069 --> 01:20:35,920

culture coming here over millennia and

1623

01:20:41,080 --> 01:20:39,079

you know I I just don't understand

1624

01:20:44,169 --> 01:20:41,090

although I don't hear the complaining

1625

01:20:46,870 --> 01:20:44,179

and the pushback like we used to even in

1626

01:20:49,000 --> 01:20:46,880

the you know the the six seven years

1627

01:20:51,580 --> 01:20:49,010

that we have been doing this show the

1628

01:20:54,160 --> 01:20:51,590

pushback is it's gotten more quiet

1629

01:20:55,810 --> 01:20:54,170

because I think we're going back to what

1630

01:20:58,180 --> 01:20:55,820

you and I were talking about there are

1631

01:21:00,069 --> 01:20:58,190

so many new things that are coming out a

1632

01:21:01,689 --> 01:21:00,079

lot of what we thought about that

1633

01:21:04,350 --> 01:21:01,699

doesn't have anything to do with history

1634

01:21:07,990 --> 01:21:04,360

it has to do with other stuff it's just

1635

01:21:10,890 --> 01:21:08,000

been turned on its head so I I think

1636

01:21:13,450 --> 01:21:10,900

that these this old idea that you know

1637

01:21:15,640 --> 01:21:13,460

you know there was a fence around the

1638

01:21:17,689 --> 01:21:15,650

continent nobody could get in nobody got

1639

01:21:20,750 --> 01:21:17,699

out it's just ridiculous and

1640

01:21:22,400 --> 01:21:20,760

I think more and more people and and and

1641

01:21:24,770 --> 01:21:22,410

I've said this a long time ago I said

1642

01:21:26,510 --> 01:21:24,780

look I'm not going to go in and try to

1643

01:21:27,950 --> 01:21:26,520

change the minds of people that won't

1644

01:21:31,040 --> 01:21:27,960

listen and change their mind the

1645

01:21:32,870 --> 01:21:31,050

scholars their minds are made up but

1646

01:21:36,080 --> 01:21:32,880

I'll tell you what if enough people out

1647

01:21:38,419 --> 01:21:36,090

there just everyday people ask the

1648

01:21:39,590 --> 01:21:38,429

question well this makes sense to me

1649

01:21:41,959 --> 01:21:39,600

what's the matter with you guys

1650

01:21:44,390 --> 01:21:41,969

eventually they're going to have to come

1651  
01:21:46,520 --> 01:21:44,400  
around if enough public pressure is put

1652  
01:21:47,750 --> 01:21:46,530  
on to them they're gonna have to put you

1653  
01:21:50,750 --> 01:21:47,760  
know they're gonna have to do way with

1654  
01:21:52,490 --> 01:21:50,760  
their stodgy outdated ideas and I think

1655  
01:21:57,770 --> 01:21:52,500  
that's starting to happen I really do

1656  
01:22:00,760 --> 01:21:57,780  
now when it comes to we're gonna get to

1657  
01:22:03,620 --> 01:22:00,770  
the phoenicians in just a second but

1658  
01:22:06,620 --> 01:22:03,630  
when we look at the Mediterranean and

1659  
01:22:11,120 --> 01:22:06,630  
and we know that the Romans and the

1660  
01:22:13,550 --> 01:22:11,130  
Greeks were were boating around shipping

1661  
01:22:17,720 --> 01:22:13,560  
around trading all over the

1662  
01:22:20,600 --> 01:22:17,730  
Mediterranean there isn't any well

1663  
01:22:23,959 --> 01:22:20,610

there's sort of some and I just watched

1664

01:22:25,939 --> 01:22:23,969

a amazing documentary about this about

1665

01:22:28,459 --> 01:22:25,949

the Egyptians it's one thing on the Nile

1666

01:22:30,650 --> 01:22:28,469

did they build boats forget about the

1667

01:22:35,090 --> 01:22:30,660

movie Cleopatra and how she you know

1668

01:22:40,850 --> 01:22:35,100

cruised into Rome but the real evidence

1669

01:22:42,860 --> 01:22:40,860

of seafaring ships built by the

1670

01:22:44,959 --> 01:22:42,870

Egyptians that were cruising around the

1671

01:22:48,370 --> 01:22:44,969

Mediterranean that gets a little bit

1672

01:22:53,030 --> 01:22:48,380

sketchy if you follow the dogma of

1673

01:22:56,030 --> 01:22:53,040

historians Xena but when it comes to the

1674

01:22:59,330 --> 01:22:56,040

Straits of Gibraltar and and heading out

1675

01:23:02,900 --> 01:22:59,340

into the Atlantic is there any evidence

1676

01:23:05,570 --> 01:23:02,910

of Romans and Greeks and and and

1677

01:23:09,650 --> 01:23:05,580

possibly the Egyptians getting out into

1678

01:23:13,040 --> 01:23:09,660

the Atlantic and heading west well to be

1679

01:23:15,680 --> 01:23:13,050

honest with you I really don't know if

1680

01:23:19,280 --> 01:23:15,690

if we have any tangible evidence like a

1681

01:23:20,840 --> 01:23:19,290

shipwreck or written records but but

1682

01:23:23,180 --> 01:23:20,850

actually I think there are some written

1683

01:23:27,290 --> 01:23:23,190

written records that could be and have

1684

01:23:31,810 --> 01:23:27,300

been interpreted that way you know they

1685

01:23:36,679 --> 01:23:31,820

I'm trying to think of the mandaeans

1686

01:23:39,589 --> 01:23:36,689

were known to follow the star America

1687

01:23:43,850 --> 01:23:39,599

which is Venus when it's an evening star

1688

01:23:45,949 --> 01:23:43,860

and I think that that tradition carried

1689

01:23:49,429 --> 01:23:45,959

on and you have to remember back in

1690

01:23:52,569 --> 01:23:49,439

those days if if you had knowledge of a

1691

01:23:56,270 --> 01:23:52,579

place where you could go to get amazing

1692

01:23:59,390 --> 01:23:56,280

resources and in the you know that the

1693

01:24:03,469 --> 01:23:59,400

the obvious one is the copper that was

1694

01:24:05,569 --> 01:24:03,479

layin around the Great Lakes region here

1695

01:24:09,290 --> 01:24:05,579

where I live I mean it's still laying on

1696

01:24:11,709 --> 01:24:09,300

the ground copper was extremely valuable

1697

01:24:14,060 --> 01:24:11,719

back in those days in fact it had

1698

01:24:18,199 --> 01:24:14,070

antibacterial properties it was it was

1699

01:24:21,709 --> 01:24:18,209

easy to to use it was malleable and it

1700

01:24:24,020 --> 01:24:21,719

was it was valuable and you know if you

1701

01:24:25,669 --> 01:24:24,030

had a source of it it were you could

1702

01:24:28,489 --> 01:24:25,679

just go and pick it up and you didn't

1703

01:24:32,060 --> 01:24:28,499

have to mine it and it was 99.9% pure

1704

01:24:34,459 --> 01:24:32,070

are you gonna tell anyone and I think

1705

01:24:37,100 --> 01:24:34,469

it's I think it's it's pretty well

1706

01:24:39,739 --> 01:24:37,110

established that you know these secrets

1707

01:24:42,080 --> 01:24:39,749

to sailing on the open oceans and the

1708

01:24:44,659 --> 01:24:42,090

technology and the knowledge that they

1709

01:24:47,449 --> 01:24:44,669

had to be able to do it was was very

1710

01:24:50,870 --> 01:24:47,459

tightly held I mean because that was

1711

01:24:53,089 --> 01:24:50,880

powerful it was valuable and so that's

1712

01:24:55,699 --> 01:24:53,099

but it also creates a problem for

1713

01:24:57,560 --> 01:24:55,709

historians today because they didn't

1714

01:24:59,659 --> 01:24:57,570

just write it down and said yeah we went

1715

01:25:02,560 --> 01:24:59,669

over here and we did this and we did it

1716

01:25:05,659 --> 01:25:02,570

this way and here's how we navigated

1717

01:25:09,500 --> 01:25:05,669

that stuff was held very tightly it was

1718

01:25:12,379 --> 01:25:09,510

it was ultra high you know top secret so

1719

01:25:15,799 --> 01:25:12,389

but it presents a real challenge for us

1720

01:25:17,239 --> 01:25:15,809

but I don't have any doubts at all that

1721

01:25:22,339 --> 01:25:17,249

they were able to do it and that they

1722

01:25:27,109 --> 01:25:22,349

did it and and what tips things over

1723

01:25:31,429 --> 01:25:27,119

because when we talk about Spain or

1724

01:25:34,549 --> 01:25:31,439

Portugal or the United Kingdom this is

1725

01:25:39,169 --> 01:25:34,559

all the modern era this is when I say

1726

01:25:42,640 --> 01:25:39,179

modern you know 1400 1500 1600 that's a

1727

01:25:46,000 --> 01:25:42,650

different technology in a different era

1728

01:25:50,800 --> 01:25:46,010

and we're getting into industrial and

1729

01:25:53,229 --> 01:25:50,810

and an accurate smelting and and menorah

1730

01:25:55,260 --> 01:25:53,239

mean mechanical ideas and navigation

1731

01:25:58,030 --> 01:25:55,270

things started to come into play there

1732

01:26:00,580 --> 01:25:58,040

what we are talking about with Anthony's

1733

01:26:02,080 --> 01:26:00,590

life it was beginning yeah right yeah

1734

01:26:03,879 --> 01:26:02,090

but when we're talking about the

1735

01:26:06,550 --> 01:26:03,889

Phoenicians or we're talking about the

1736

01:26:10,540 --> 01:26:06,560

ancient Greeks or Romans where we're

1737

01:26:13,060 --> 01:26:10,550

getting into a timetable now that starts

1738

01:26:16,839 --> 01:26:13,070

to get pretty crazy but even for the

1739

01:26:20,830 --> 01:26:16,849

Greeks that didn't happen until 200 BC

1740

01:26:23,709 --> 01:26:20,840

100 BC same thing for the Romans

1741

01:26:25,300 --> 01:26:23,719

you know Greece Greece being founded I'm

1742

01:26:28,629 --> 01:26:25,310

staying on Greece for a reason

1743

01:26:32,620 --> 01:26:28,639

going into the Phoenicians Greece is 600

1744

01:26:35,800 --> 01:26:32,630

BC and and the Romans Rome wasn't set

1745

01:26:38,589 --> 01:26:35,810

we're talking about 400 BC 300 BC 200 BC

1746

01:26:40,899 --> 01:26:38,599

the technology and and what they were

1747

01:26:42,939 --> 01:26:40,909

doing to get around to the Mediterranean

1748

01:26:45,189 --> 01:26:42,949

get around the Mediterranean didn't

1749

01:26:47,740 --> 01:26:45,199

happen for a few hundred years when

1750

01:26:50,620 --> 01:26:47,750

we're talking about the Phoenicians now

1751

01:26:54,879 --> 01:26:50,630

we are really pushing back the clocks

1752

01:26:57,370 --> 01:26:54,889

we're getting to a thousand BC you know

1753

01:26:58,959 --> 01:26:57,380

the evidence of the you know the ships

1754

01:27:00,760 --> 01:26:58,969

and their depictions and how they were

1755

01:27:05,800 --> 01:27:00,770

doing the things out of you know

1756

01:27:11,669 --> 01:27:05,810

modern-day Lebanon was 8 800 BC we have

1757

01:27:16,180 --> 01:27:11,679

the incredible how do I want to say this

1758

01:27:19,390 --> 01:27:16,190

incredible documentation of what they

1759

01:27:21,700 --> 01:27:19,400

were doing and you know having an

1760

01:27:25,899 --> 01:27:21,710

alphabet like they did at a thousand BC

1761

01:27:29,229 --> 01:27:25,909

and and and seafaring vessels they they

1762

01:27:32,530 --> 01:27:29,239

had conquered the Mediterranean by 800

1763

01:27:35,589 --> 01:27:32,540

BC that that's we're getting into crazy

1764

01:27:38,140 --> 01:27:35,599

town aren't we I don't think it's crazy

1765

01:27:40,000 --> 01:27:38,150

at all I mean look we were on crazytown

1766

01:27:42,520 --> 01:27:40,010

about an hour ago talking about aliens

1767

01:27:44,950 --> 01:27:42,530

and the technically can you imagine the

1768

01:27:46,620 --> 01:27:44,960

technology that they had right and I

1769

01:27:49,300 --> 01:27:46,630

mean if you want to just get crazy

1770

01:27:52,180 --> 01:27:49,310

what's to say that there wasn't some

1771

01:27:54,500 --> 01:27:52,190

higher technology that was brought here

1772

01:27:57,620 --> 01:27:54,510

or that was discovered

1773

01:27:59,930 --> 01:27:57,630

going back eight ten thousand years ago

1774

01:28:05,770 --> 01:27:59,940

I mean now you're talking Phoenicians

1775

01:28:08,299 --> 01:28:05,780

back a thousand BC so what I mean I I

1776

01:28:11,540 --> 01:28:08,309

honestly you know and and let's just

1777

01:28:13,419 --> 01:28:11,550

take the the alien possibility out of

1778

01:28:15,859 --> 01:28:13,429

the equation

1779

01:28:17,750 --> 01:28:15,869

could there have been technologies that

1780

01:28:19,339 --> 01:28:17,760

were developed to sail the open oceans

1781

01:28:21,109 --> 01:28:19,349

and go anywhere they wanted around the

1782

01:28:23,919 --> 01:28:21,119

world I don't have any doubt about that

1783

01:28:27,109 --> 01:28:23,929

I have no problem with that i I think we

1784

01:28:29,149 --> 01:28:27,119

you you put constraints on your own mind

1785

01:28:30,859 --> 01:28:29,159

when you start to say well you know this

1786

01:28:32,779 --> 01:28:30,869

is what we think we understand and you

1787

01:28:34,100 --> 01:28:32,789

go back five hundred more years they

1788

01:28:35,660 --> 01:28:34,110

couldn't have understood that well I

1789

01:28:38,449 --> 01:28:35,670

think that's a mistake to say that

1790

01:28:40,669 --> 01:28:38,459

because you don't know and I think you

1791

01:28:43,219 --> 01:28:40,679

did the way your logical mind wants to

1792

01:28:46,549 --> 01:28:43,229

sort of frame it you know that can be

1793

01:28:50,089 --> 01:28:46,559

dangerous and I don't know man I I I

1794

01:28:51,680 --> 01:28:50,099

just I I think you just have to really

1795

01:28:53,509 --> 01:28:51,690

be careful I think they could I

1796

01:28:55,189 --> 01:28:53,519

personally think they could go wherever

1797

01:28:58,549 --> 01:28:55,199

they wanted and they did it for a long

1798

01:29:02,000 --> 01:28:58,559

time they did and the evidence is

1799

01:29:05,299 --> 01:29:02,010

clearly there I remember I was at the

1800

01:29:07,729 --> 01:29:05,309

met the Metropolitan in New York in the

1801

01:29:10,939 --> 01:29:07,739

mid-90s and I went through a Phoenician

1802

01:29:14,649 --> 01:29:10,949

exhibit and I looked at this this draw

1803

01:29:22,910 --> 01:29:14,659

and I and I see the date right I'm like

1804

01:29:24,979 --> 01:29:22,920

1050 BC say what remember looking at at

1805

01:29:28,310 --> 01:29:24,989

the Met and I'm looking at the trade

1806

01:29:31,009 --> 01:29:28,320

routes of the Phoenicians and and it

1807

01:29:32,600 --> 01:29:31,019

went straight out of the Straits of

1808

01:29:35,930 --> 01:29:32,610

Gibraltar we're talking about that a few

1809

01:29:38,899 --> 01:29:35,940

minutes ago and they they looked at the

1810

01:29:42,919 --> 01:29:38,909

Atlantic Ocean and they had the ships to

1811

01:29:45,350 --> 01:29:42,929

do just that why would they stop I would

1812

01:29:48,229 --> 01:29:45,360

think that they would just keep going to

1813

01:29:51,319 --> 01:29:48,239

see what was over the horizon and that's

1814

01:29:53,989 --> 01:29:51,329

human nature isn't isn't it though and

1815

01:29:57,919 --> 01:29:53,999

they they were doing it I absolutely

1816

01:30:01,279 --> 01:29:57,929

think so and and I I just

1817

01:30:03,140 --> 01:30:01,289

when I hear certain people just poopoo

1818

01:30:04,580 --> 01:30:03,150

these ideas are that didn't happen

1819

01:30:07,349 --> 01:30:04,590

because they don't think there isn't I

1820

01:30:10,379 --> 01:30:07,359

mean what about human nature just that

1821

01:30:12,479 --> 01:30:10,389

the nature of of our species is just to

1822

01:30:15,029 --> 01:30:12,489

see around the next corner how much

1823

01:30:17,429 --> 01:30:15,039

farther do we have to go and maybe some

1824

01:30:19,919 --> 01:30:17,439

of these people they had they had

1825

01:30:21,810 --> 01:30:19,929

nowhere else to go you know maybe they

1826

01:30:24,869 --> 01:30:21,820

were in a situation where they had they

1827

01:30:26,399 --> 01:30:24,879

were leaving a war-torn country or maybe

1828

01:30:27,359 --> 01:30:26,409

they had a bounty on their head and

1829

01:30:29,069 --> 01:30:27,369

they're like you know let's see I

1830

01:30:31,349 --> 01:30:29,079

normally get my head cut off so I go

1831

01:30:32,129 --> 01:30:31,359

back so you know that open ocean doesn't

1832

01:30:33,869 --> 01:30:32,139

look too bad

1833

01:30:36,049 --> 01:30:33,879

that's exactly wrong I mean who knows

1834

01:30:39,179 --> 01:30:36,059

who knows we don't know what's going on

1835

01:30:41,969 --> 01:30:39,189

I think when you start to say when you

1836

01:30:43,919 --> 01:30:41,979

start putting limits on people they're

1837

01:30:48,149 --> 01:30:43,929

gonna they're gonna surprise you yeah

1838

01:30:50,849 --> 01:30:48,159

that day they traded all the way from

1839

01:30:53,639 --> 01:30:50,859

Lebanon well you know what's Lebanon

1840

01:30:56,489 --> 01:30:53,649

today all the way across northern Africa

1841

01:31:00,929 --> 01:30:56,499

you know conquered everything Carthage

1842

01:31:03,750 --> 01:31:00,939

all the way through Spain modern day

1843

01:31:06,529 --> 01:31:03,760

Spain Tangier and and through the

1844

01:31:09,599 --> 01:31:06,539

Straits in into the Atlantic Ocean and

1845

01:31:11,609 --> 01:31:09,609

there that's I thought I just think that

1846

01:31:15,569 --> 01:31:11,619

they kept on going what evidence did you

1847

01:31:17,819 --> 01:31:15,579

find that they were here well in this

1848

01:31:19,709 --> 01:31:17,829

particular episode there was an artifact

1849

01:31:23,759 --> 01:31:19,719

that was found just outside of Rock

1850

01:31:25,770 --> 01:31:23,769

Springs Wyoming that was carved on a

1851

01:31:30,479 --> 01:31:25,780

piece of sandstone a bunch of symbols

1852

01:31:32,609 --> 01:31:30,489

that many people looked looked at and

1853

01:31:34,349 --> 01:31:32,619

said were Phoenician in fact there was

1854

01:31:38,099 --> 01:31:34,359

an article that was written by Barry

1855

01:31:41,939 --> 01:31:38,109

fell back in the 70s and he said this

1856

01:31:47,279 --> 01:31:41,949

was Phoenician script and he he actually

1857

01:31:50,459 --> 01:31:47,289

translated it now between you and me you

1858

01:31:54,599 --> 01:31:50,469

know Ill get Barry fell a lot of credit

1859

01:31:58,109 --> 01:31:54,609

for being you know Harvard scholar with

1860

01:32:00,629 --> 01:31:58,119

an open mind who not just you know you

1861

01:32:03,899 --> 01:32:00,639

know bothered to even look into the idea

1862

01:32:06,119 --> 01:32:03,909

but published a book America BC where he

1863

01:32:08,849 --> 01:32:06,129

talked about a lot of people making

1864

01:32:10,889 --> 01:32:08,859

these transatlantic voyages and coming

1865

01:32:13,319 --> 01:32:10,899

to the Americas and other places and so

1866

01:32:15,750 --> 01:32:13,329

I give him a lot of credit he looked at

1867

01:32:20,070 --> 01:32:15,760

a lot of inscriptions carved here and in

1868

01:32:21,840 --> 01:32:20,080

the US or I should say in North America

1869

01:32:24,270 --> 01:32:21,850

and and he said that they were people

1870

01:32:26,820 --> 01:32:24,280

that came from Europe and so he deserves

1871

01:32:28,680 --> 01:32:26,830

a lot of credit for doing that and I

1872

01:32:32,100 --> 01:32:28,690

think in some cases he was right on the

1873

01:32:34,200 --> 01:32:32,110

money however I will say that there were

1874

01:32:37,050 --> 01:32:34,210

many situations that I've looked at

1875

01:32:40,350 --> 01:32:37,060

where I thought berry fel overreached in

1876

01:32:43,110 --> 01:32:40,360

some in some cases what some people

1877

01:32:46,260 --> 01:32:43,120

called plow marks probably were claw

1878

01:32:49,800 --> 01:32:46,270

marks but he had an interpretation for

1879

01:32:53,490 --> 01:32:49,810

everything and I think in the end that

1880

01:32:55,620 --> 01:32:53,500

worked against him and it was actually a

1881

01:32:59,070 --> 01:32:55,630

good lesson for me to learn because you

1882

01:33:01,500 --> 01:32:59,080

know you really have to stay within do

1883

01:33:03,780 --> 01:33:01,510

bounds and make sure that you don't

1884

01:33:07,530 --> 01:33:03,790

overreach even though you want something

1885

01:33:10,830 --> 01:33:07,540

to be something really badly you know

1886

01:33:12,810 --> 01:33:10,840

you you really have to make sure you

1887

01:33:15,060 --> 01:33:12,820

have to have the evidence the support

1888

01:33:16,710 --> 01:33:15,070

before you open your mouth because the

1889

01:33:19,230 --> 01:33:16,720

last thing you want to have happen is

1890

01:33:23,730 --> 01:33:19,240

have somebody pack it up your end and

1891

01:33:26,160 --> 01:33:23,740

prove you wrong and you know that's a

1892

01:33:29,000 --> 01:33:26,170

slippery slope Manion and and I've

1893

01:33:32,010 --> 01:33:29,010

really worked hard to try to avoid that

1894

01:33:34,170 --> 01:33:32,020

and I just think berry fell overreached

1895

01:33:36,360 --> 01:33:34,180

in some cases and I think it undermined

1896

01:33:39,450 --> 01:33:36,370

a lot of the good work that he did do

1897

01:33:42,750 --> 01:33:39,460

and in and this is one of those cases

1898

01:33:46,950 --> 01:33:42,760

yeah berry firfer for the youngsters out

1899

01:33:50,670 --> 01:33:46,960

there right monied - you need to know

1900

01:33:53,910 --> 01:33:50,680

where all of us come from and berry fell

1901

01:34:01,160 --> 01:33:53,920

is one of those cats that you just need

1902

01:34:04,410 --> 01:34:01,170

to go and check him out in in some cases

1903

01:34:08,960 --> 01:34:04,420

you know - tragic story on how you want

1904

01:34:11,940 --> 01:34:08,970

to look at it but he was a trailblazer I

1905

01:34:15,630 --> 01:34:11,950

don't think anybody has had critics like

1906

01:34:18,180 --> 01:34:15,640

Barry fellows hat they came down on him

1907

01:34:21,000 --> 01:34:18,190

as bad that was it must have been tough

1908

01:34:23,880 --> 01:34:21,010

on him it must have been you know he was

1909

01:34:28,020 --> 01:34:23,890

he was the first Universal academic to

1910

01:34:30,300 --> 01:34:28,030

step on a line right and you know good

1911

01:34:33,090 --> 01:34:30,310

for him he you know and and like I say

1912

01:34:33,600 --> 01:34:33,100

there were many many cases in my opinion

1913

01:34:37,200 --> 01:34:33,610

where he

1914

01:34:41,250 --> 01:34:37,210

was right on and he was brave and he

1915

01:34:42,420 --> 01:34:41,260

said it and he stood behind it but on

1916

01:34:43,980 --> 01:34:42,430

the other hand there were some other

1917

01:34:47,940 --> 01:34:43,990

cases where he definitely I think

1918

01:34:49,590 --> 01:34:47,950

overreached and that's where some of

1919

01:34:51,690 --> 01:34:49,600

that criticism is well you got people

1920

01:34:53,970 --> 01:34:51,700

coming after you the last thing you want

1921

01:34:55,710 --> 01:34:53,980

to do is get Mammal right yeah and and

1922

01:34:57,510 --> 01:34:55,720

he did do that he gave him plenty of

1923

01:35:00,600 --> 01:34:57,520

bullets for the guns there's there's no

1924

01:35:03,540 --> 01:35:00,610

guy okay that doesn't diminish the good

1925

01:35:05,370 --> 01:35:03,550

things that you know he did I want to

1926

01:35:08,040 --> 01:35:05,380

make sure that people realize he

1927

01:35:15,660 --> 01:35:08,050

deserved a lot of credit and he is worth

1928

01:35:17,760 --> 01:35:15,670

researching for sure yeah this shows an

1929

01:35:20,850 --> 01:35:17,770

example of that let's get to episode

1930

01:35:24,570 --> 01:35:20,860

number six we're only halfway through

1931

01:35:26,610 --> 01:35:24,580

the season oh and and here we go again

1932

01:35:28,560 --> 01:35:26,620

we're running out of time are we gonna

1933

01:35:31,350 --> 01:35:28,570

are we gonna have to do like part two of

1934

01:35:33,930 --> 01:35:31,360

this because you know what I gotta tell

1935

01:35:36,030 --> 01:35:33,940

you I love those first few episodes

1936

01:35:39,360 --> 01:35:36,040

there were some fantastic stuff there

1937

01:35:42,420 --> 01:35:39,370

but the last half was was some of the

1938

01:35:48,740 --> 01:35:42,430

best stuff we've ever done episode 6 the

1939

01:35:53,010 --> 01:35:48,750

spy who saved America yeah that was

1940

01:35:56,220 --> 01:35:53,020

Valerie Plame was my tipster and oh my

1941

01:35:58,710 --> 01:35:56,230

god what a wonderful woman she is and I

1942

01:36:01,320 --> 01:35:58,720

have to say that woman is an American

1943

01:36:03,470 --> 01:36:01,330

hero in my eyes now for those of you

1944

01:36:06,060 --> 01:36:03,480

that don't know who Valerie Plame is

1945

01:36:10,050 --> 01:36:06,070

those that were around back in the early

1946

01:36:12,900 --> 01:36:10,060

2000s she was the spy who was outed by

1947

01:36:16,050 --> 01:36:12,910

the Bush administration specifically

1948

01:36:18,390 --> 01:36:16,060

Dick Cheney because her husband wrote an

1949

01:36:20,340 --> 01:36:18,400

article that basically was published I

1950

01:36:22,730 --> 01:36:20,350

think in the New York Times who

1951

01:36:25,080 --> 01:36:22,740

basically said that the whole Iraq war

1952

01:36:27,660 --> 01:36:25,090

and the argument that the Bush

1953

01:36:29,430 --> 01:36:27,670

administration made that it was you know

1954

01:36:31,200 --> 01:36:29,440

that we had to go in and attack them

1955

01:36:31,980 --> 01:36:31,210

because they had weapons of mass

1956

01:36:34,980 --> 01:36:31,990

destruction

1957

01:36:37,530 --> 01:36:34,990

he wrote that that was all BS and it

1958

01:36:39,540 --> 01:36:37,540

turns out he was right but because he

1959

01:36:42,540 --> 01:36:39,550

wrote that article they got they sought

1960

01:36:46,680 --> 01:36:42,550

revenge against him but by outing his

1961

01:36:47,400 --> 01:36:46,690

wife out as a spy and you know that was

1962

01:36:49,680 --> 01:36:47,410

you know

1963

01:36:52,800 --> 01:36:49,690

pardon my french shitty enough rice but

1964

01:36:54,630 --> 01:36:52,810

the problem is when you out a spy all of

1965

01:36:58,920 --> 01:36:54,640

a sudden all of their associates

1966

01:37:01,320 --> 01:36:58,930

suddenly become suspects as also being

1967

01:37:06,120 --> 01:37:01,330

spies and their lives are in danger and

1968

01:37:07,800 --> 01:37:06,130

so it was you know it was just really an

1969

01:37:12,930 --> 01:37:07,810

awful thing that happened of course her

1970

01:37:15,450 --> 01:37:12,940

career is over but in any case she she

1971

01:37:17,880 --> 01:37:15,460

was the one that said hey back during

1972

01:37:21,720 --> 01:37:17,890

the Revolutionary War George Washington

1973

01:37:24,570 --> 01:37:21,730

had was was basically getting his rear

1974

01:37:28,530 --> 01:37:24,580

end handed to him by the British in

1975

01:37:30,990 --> 01:37:28,540

several battles in a row and he decided

1976

01:37:33,540 --> 01:37:31,000

that he was going to embrace the concept

1977

01:37:35,760 --> 01:37:33,550

of espionage and he set up something

1978

01:37:38,970 --> 01:37:35,770

called the culper spy ring now the

1979

01:37:41,520 --> 01:37:38,980

culper spy ring had five male members

1980

01:37:43,970 --> 01:37:41,530

that we know about that were secretly

1981

01:37:47,040 --> 01:37:43,980

transmitting intelligence message

1982

01:37:50,240 --> 01:37:47,050

messages about British activities in New

1983

01:37:52,620 --> 01:37:50,250

York City to Washington through this

1984

01:37:55,290 --> 01:37:52,630

circuitous route that went out through

1985

01:37:58,170 --> 01:37:55,300

Long Island across the Long Island Sound

1986

01:38:01,830 --> 01:37:58,180

into Connecticut and then back into into

1987

01:38:04,740 --> 01:38:01,840

new northern New York where George

1988

01:38:07,740 --> 01:38:04,750

Washington's you know base camp was but

1989

01:38:11,340 --> 01:38:07,750

there also was reference to a female spy

1990

01:38:14,970 --> 01:38:11,350

and she was referred only to as agent

1991

01:38:16,620 --> 01:38:14,980

355 I find it interesting and I pointed

1992

01:38:19,020 --> 01:38:16,630

this out in the episode but I don't

1993

01:38:21,840 --> 01:38:19,030

think that they said anything about it

1994

01:38:25,260 --> 01:38:21,850

but if you add five five and three what

1995

01:38:28,860 --> 01:38:25,270

number do you get 13 the number of the

1996

01:38:31,220 --> 01:38:28,870

Sacred Feminine right right so I thought

1997

01:38:33,690 --> 01:38:31,230

that was kind of interesting and I'm

1998

01:38:36,090 --> 01:38:33,700

surprised but I'm not surprised because

1999

01:38:38,460 --> 01:38:36,100

their founding fathers certainly

2000

01:38:40,890 --> 01:38:38,470

understood the concept of the Sacred

2001

01:38:42,330 --> 01:38:40,900

Feminine and I don't think it's an

2002

01:38:45,480 --> 01:38:42,340

accident that they picked that number

2003

01:38:47,010 --> 01:38:45,490

but in any case the identity of agent

2004

01:38:53,280 --> 01:38:47,020

three five five has never been

2005

01:38:56,330 --> 01:38:53,290

identified until now so who was it well

2006

01:38:59,610 --> 01:38:56,340

it was there were there were three

2007

01:39:01,110 --> 01:38:59,620

suspects one was Peggy Shippen Arnold

2008

01:39:05,840 --> 01:39:01,120

who was Benedict

2009

01:39:13,830 --> 01:39:05,850

wife and she was an interesting person

2010

01:39:16,470 --> 01:39:13,840

but she was not three fives us right she

2011

01:39:21,060 --> 01:39:16,480

was not then the next one was Anna man

2012

01:39:23,610 --> 01:39:21,070

see strong who definitely was helping

2013

01:39:26,340 --> 01:39:23,620

the Patriot cause and she was assisting

2014

01:39:28,470 --> 01:39:26,350

in the culper spy ring definitely

2015

01:39:31,740 --> 01:39:28,480

working with at least two or three of

2016

01:39:34,830 --> 01:39:31,750

the of the known agents that were part

2017

01:39:40,170 --> 01:39:34,840

of that spiral and I've drawn a blank

2018

01:39:45,240 --> 01:39:40,180

now who was the third woman Anna Nancy

2019

01:39:49,620 --> 01:39:45,250

strong God it'll come to me but she was

2020

01:39:52,710 --> 01:39:49,630

a woman who had helped some of the the

2021

01:39:54,870 --> 01:39:52,720

Patriots who had been captured and put

2022

01:39:57,990 --> 01:39:54,880

on these slave ships in New York Harbor

2023

01:40:01,440 --> 01:39:58,000

that were basically dying and under

2024

01:40:04,080 --> 01:40:01,450

these horrible conditions and she was

2025

01:40:05,790 --> 01:40:04,090

helping to rescue some of these people

2026

01:40:10,200 --> 01:40:05,800

sneak them out from underneath the nose

2027

01:40:13,440 --> 01:40:10,210

of the British and I can't think of her

2028

01:40:17,640 --> 01:40:13,450

name oh my god it's terrible but if you

2029

01:40:20,280 --> 01:40:17,650

go to my blog you can I wrote a blog for

2030

01:40:22,140 --> 01:40:20,290

every episode and I have pictures there

2031

01:40:24,990 --> 01:40:22,150

and I talked about the episodes but in

2032

01:40:29,880 --> 01:40:25,000

any case the the conclusive evidence to

2033

01:40:32,780 --> 01:40:29,890

me was this woman was given a pension

2034

01:40:38,520 --> 01:40:32,790

was they have a whether Lydia Lydia

2035

01:40:41,940 --> 01:40:38,530

durog no that's not it nope if you say

2036

01:40:49,470 --> 01:40:41,950

it I'll remember and raise pardon and

2037

01:40:53,070 --> 01:40:49,480

Bates nope nope I can't do it dang it

2038

01:40:54,510 --> 01:40:53,080

anyway I feel bad I can't think of it

2039

01:40:57,170 --> 01:40:54,520

but anyway we found a letter that was

2040

01:41:01,160 --> 01:40:57,180

written by General George Washington

2041

01:41:05,210 --> 01:41:01,170

during the time of the Revolutionary War

2042

01:41:08,460 --> 01:41:05,220

basically ordering her and her children

2043

01:41:11,030 --> 01:41:08,470

to get rations and she was given a

2044

01:41:14,520 --> 01:41:11,040

pension for the rest of her life

2045

01:41:17,490 --> 01:41:14,530

now Congress and

2046

01:41:19,799 --> 01:41:17,500

and Congress okayed this now she had to

2047

01:41:21,660 --> 01:41:19,809

have done something right and she was

2048

01:41:23,910 --> 01:41:21,670

living in New York City

2049

01:41:27,060 --> 01:41:23,920

and she was getting this intelligence

2050

01:41:30,330 --> 01:41:27,070

passing it on and we identify her as

2051

01:41:33,839 --> 01:41:30,340

agent three five five and I'm I'm 100%

2052

01:41:35,790 --> 01:41:33,849

convinced that we've that we unmasked

2053

01:41:38,970 --> 01:41:35,800

her so I'm pretty proud of that and you

2054

01:41:43,470 --> 01:41:38,980

know what all of the guest experts that

2055

01:41:46,470 --> 01:41:43,480

we had and my tipster were women and I

2056

01:41:50,339 --> 01:41:46,480

thought it was very apropos that it was

2057

01:41:53,430 --> 01:41:50,349

about a female agent so and they were

2058

01:41:56,910 --> 01:41:53,440

all wonderful beautiful highly

2059

01:41:59,549 --> 01:41:56,920

intelligent women that were our suspects

2060

01:42:02,399 --> 01:41:59,559

and who are tipsters and it was really a

2061

01:42:06,540 --> 01:42:02,409

great episode and a guy and I got a

2062

01:42:09,149 --> 01:42:06,550

chance to thank Valerie for her service

2063

01:42:11,700 --> 01:42:09,159

and everybody else that the the women

2064

01:42:14,370 --> 01:42:11,710

that have served our country in the past

2065

01:42:16,950 --> 01:42:14,380

and today they all deserve our gratitude

2066

01:42:21,209 --> 01:42:16,960

and it was great to be able to say

2067

01:42:24,209 --> 01:42:21,219

something to all of them the episode

2068

01:42:26,490 --> 01:42:24,219

seven Bigfoot of the bayou now before we

2069

01:42:30,779 --> 01:42:26,500

get to the break we'll talk about this

2070

01:42:37,560 --> 01:42:30,789

but just one question how good is that

2071

01:42:39,240 --> 01:42:37,570

swamp gas Chile I put some hot sauce in

2072

01:42:41,129 --> 01:42:39,250

there and I pounded that down like it

2073

01:42:44,700 --> 01:42:41,139

was going out of stock that was great

2074

01:42:45,660 --> 01:42:44,710

was it as good as it looked it was man

2075

01:42:48,000 --> 01:42:45,670

and it was great

2076  
01:42:51,330 --> 01:42:48,010  
swamp gas Chile that's what they called

2077  
01:42:54,000 --> 01:42:51,340  
it I couldn't believe it but they did it

2078  
01:42:58,740 --> 01:42:54,010  
was there okay all right what side of

2079  
01:43:00,950 --> 01:42:58,750  
the fence are you with Bigfoot well

2080  
01:43:04,439 --> 01:43:00,960  
let's put it this way

2081  
01:43:06,479 --> 01:43:04,449  
Ill really didn't have a lot of interest

2082  
01:43:09,419 --> 01:43:06,489  
in Bigfoot prior to doing the first

2083  
01:43:11,669 --> 01:43:09,429  
episode we did in season three when I

2084  
01:43:14,069 --> 01:43:11,679  
got to go to Nepal which was amazing

2085  
01:43:16,709 --> 01:43:14,079  
right but you know I I will say this Jim

2086  
01:43:18,629 --> 01:43:16,719  
I'm still very skeptical about Bigfoot

2087  
01:43:22,529 --> 01:43:18,639  
and I remember when I went into the

2088  
01:43:25,470 --> 01:43:22,539

first episode I said look unless I see a

2089

01:43:29,010 --> 01:43:25,480

body or I see a skeleton or shake

2090

01:43:31,680 --> 01:43:29,020

Bigfoot's hand I'm going in a skeptic

2091

01:43:33,750 --> 01:43:31,690

and I'm going to go out of skeptic that

2092

01:43:36,420 --> 01:43:33,760

doesn't mean I'm saying it doesn't exist

2093

01:43:39,990 --> 01:43:36,430

because here again I don't know but I

2094

01:43:43,080 --> 01:43:40,000

will say this of nearly every person

2095

01:43:47,940 --> 01:43:43,090

that I talked to who said that they saw

2096

01:43:51,210 --> 01:43:47,950

a Bigfoot I absolutely 100% believe

2097

01:43:53,610 --> 01:43:51,220

those people believe that they saw a

2098

01:43:55,980 --> 01:43:53,620

Bigfoot I believe that they believe they

2099

01:43:58,140 --> 01:43:55,990

saw him that doesn't necessarily mean

2100

01:44:01,320 --> 01:43:58,150

that they saw him but these people were

2101  
01:44:03,900 --> 01:44:01,330  
not lying to me they saw something and

2102  
01:44:06,540 --> 01:44:03,910  
they believed it was Bigfoot and I could

2103  
01:44:10,020 --> 01:44:06,550  
just see it in their in their eyes in

2104  
01:44:12,420 --> 01:44:10,030  
their body language in their voice they

2105  
01:44:16,140 --> 01:44:12,430  
saw something and it scared the crap out

2106  
01:44:20,250 --> 01:44:16,150  
of them and you and I are on the same

2107  
01:44:23,010 --> 01:44:20,260  
page okay I'm right there with you you

2108  
01:44:25,950 --> 01:44:23,020  
know until I see a body you know I see

2109  
01:44:29,040 --> 01:44:25,960  
something with you know but and that's

2110  
01:44:32,310 --> 01:44:29,050  
it and I'm still kind of there today but

2111  
01:44:35,550 --> 01:44:32,320  
two years ago last year I'm sorry last

2112  
01:44:39,090 --> 01:44:35,560  
year I saw my first set of big

2113  
01:44:41,820 --> 01:44:39,100

footprints right my first and in this

2114

01:44:44,070 --> 01:44:41,830

field some kids found it came and got me

2115

01:44:46,320 --> 01:44:44,080

we have it in a documentary you can see

2116

01:44:48,420 --> 01:44:46,330

the footage but anyway this thing is I

2117

01:44:52,680 --> 01:44:48,430

don't know it's like 18 inches 2 feet

2118

01:44:55,440 --> 01:44:52,690

you know long to two to two and a half

2119

01:44:58,080 --> 01:44:55,450

inches in the ground you can see the

2120

01:44:59,460 --> 01:44:58,090

toes and we found four prints right that

2121

01:45:03,180 --> 01:44:59,470

left right left right

2122

01:45:05,310 --> 01:45:03,190

they're like 6 feet apart and and I'm

2123

01:45:08,130 --> 01:45:05,320

standing there and I'm not even denting

2124

01:45:11,400 --> 01:45:08,140

the ground and I'm looking at this fresh

2125

01:45:13,230 --> 01:45:11,410

print you know with the grass inside of

2126

01:45:15,840 --> 01:45:13,240

it you know the whole thing and it's

2127

01:45:19,700 --> 01:45:15,850

like it was made a few hours prior in

2128

01:45:23,280 --> 01:45:19,710

this hard compacted ground and I'm

2129

01:45:29,060 --> 01:45:23,290

perplexed man I step back from that ah

2130

01:45:35,760 --> 01:45:32,040

got my attention now yeah well you know

2131

01:45:39,270 --> 01:45:35,770

like I said yeah the problem I have is

2132

01:45:41,520 --> 01:45:39,280

there have been literally thousands tens

2133

01:45:42,149 --> 01:45:41,530

of thousands of sightings over the years

2134

01:45:44,790 --> 01:45:42,159

and

2135

01:45:49,799 --> 01:45:44,800

really all over the world but yet not

2136

01:45:51,810 --> 01:45:49,809

one body not one bone nothing you know

2137

01:45:55,620 --> 01:45:51,820

you know when I when I get to that we

2138

01:46:00,089 --> 01:45:55,630

got 20 seconds before the break look at

2139

01:46:03,750 --> 01:46:00,099

the panda right Panda supposed to be

2140

01:46:10,409 --> 01:46:03,760

their descriptions drawings is that it

2141

01:46:15,919 --> 01:46:10,419

and that's a 20th century find that's a

2142

01:46:20,850 --> 01:46:15,929

modern discovery they avoided us and and

2143

01:46:23,370 --> 01:46:20,860

were so elusive Scott that for thousands

2144

01:46:26,069 --> 01:46:23,380

of years oh you know I I know I look I'm

2145

01:46:27,689 --> 01:46:26,079

still a skeptic look I am I'm on the

2146

01:46:29,459 --> 01:46:27,699

fence but I'm on the fence in the

2147

01:46:31,679 --> 01:46:29,469

opposite direction with Bigfoot

2148

01:46:33,899 --> 01:46:31,689

I just am I need something more

2149

01:46:36,839 --> 01:46:33,909

definitive but I saw that football right

2150

01:46:39,330 --> 01:46:36,849

and in me too that doesn't mean that I

2151

01:46:40,109 --> 01:46:39,340

don't I doesn't mean I'm saying it

2152

01:46:43,739 --> 01:46:40,119

doesn't exist

2153

01:46:46,919 --> 01:46:43,749

I don't know but come on man I mean

2154

01:46:51,179 --> 01:46:46,929

footprints are great you know why you

2155

01:46:52,979 --> 01:46:51,189

know you know is pretty compelling I

2156

01:46:55,319 --> 01:46:52,989

mean it's gotta be a dead one out there

2157

01:46:57,409 --> 01:46:55,329

somewhere come on I know I know Scott if

2158

01:46:59,759 --> 01:46:57,419

you would have been standing next to me

2159

01:47:01,649 --> 01:46:59,769

looking at this footprint in the ground

2160

01:47:06,959 --> 01:47:01,659

and just looking around and then looking

2161

01:47:10,229 --> 01:47:06,969

back at this I'm telling you I'm telling

2162

01:47:12,270 --> 01:47:10,239

you if I lost sleep over that we got to

2163

01:47:14,580 --> 01:47:12,280

take a break right here so our guest

2164

01:47:17,219 --> 01:47:14,590

tonight is Scott Wolter we're doing

2165

01:47:20,299 --> 01:47:17,229

episode by episode breakdown of season 4

2166

01:47:24,060 --> 01:47:20,309

of America on earth when we come back

2167

01:47:26,040 --> 01:47:24,070

episode 8 Chicago's mystery bomber we're

2168

01:47:27,630 --> 01:47:26,050

gonna get to episode 10 don't you worry

2169

01:47:39,840 --> 01:47:27,640

we'll be right back stay with us

2170

01:47:45,580 --> 01:47:41,830

welcome back beta-blocker Miro's

2171

01:47:48,790 --> 01:47:45,590

temperatures tonight Scott Wolter we you

2172

01:47:51,340 --> 01:47:48,800

know this is the thing about having

2173

01:47:53,350 --> 01:47:51,350

Scott on the show the conversation is

2174

01:47:55,600 --> 01:47:53,360

all you can say whatever you want Scott

2175

01:48:06,340 --> 01:47:55,610

but but the conversation between the two

2176

01:48:09,040 --> 01:48:06,350

of us is honest it is a real guy it

2177

01:48:10,960 --> 01:48:09,050

didn't happen yeah that's my excuse yeah

2178

01:48:11,770 --> 01:48:10,970

yeah you can use it you can use it I'm

2179

01:48:14,020 --> 01:48:11,780

not that smart

2180

01:48:16,000 --> 01:48:14,030

let's get to Episode eight Chicago's

2181

01:48:20,080 --> 01:48:16,010

mystery bomber we've got to get to

2182

01:48:21,970 --> 01:48:20,090

episode 10 it's to boil so Chicago's

2183

01:48:25,390 --> 01:48:21,980

everybody and that was really a

2184

01:48:27,070 --> 01:48:25,400

fantastic episode because first first

2185

01:48:29,800 --> 01:48:27,080

off I didn't eat I never even heard of

2186

01:48:33,040 --> 01:48:29,810

the Haymarket affair and you know the

2187

01:48:35,170 --> 01:48:33,050

the riots and the bombing and and that

2188

01:48:37,960 --> 01:48:35,180

it led to Labor Day you know why we

2189

01:48:40,450 --> 01:48:37,970

celebrate Labor Day today and and you

2190

01:48:42,280 --> 01:48:40,460

know the the people that fought for the

2191

01:48:44,710 --> 01:48:42,290

eight-hour day and decent working

2192

01:48:46,810 --> 01:48:44,720

conditions and elimination of child

2193

01:48:49,660 --> 01:48:46,820

labor and you know the things that we

2194

01:48:52,150 --> 01:48:49,670

enjoy today is just people don't realize

2195

01:48:55,540 --> 01:48:52,160

that a lot of people died in the fight

2196

01:48:58,420 --> 01:48:55,550

to get those laws passed but what was

2197

01:49:01,360 --> 01:48:58,430

really fascinating was you know here's a

2198

01:49:04,710 --> 01:49:01,370

mystery to this day nobody knew who

2199

01:49:09,820 --> 01:49:04,720

threw the bomb that night on May 4th of

2200

01:49:13,420 --> 01:49:09,830

1886 and so what we did was we got the

2201

01:49:15,130 --> 01:49:13,430

FBI involved and that was such a cool

2202

01:49:18,400 --> 01:49:15,140

experience and we got to go up to

2203

01:49:20,200 --> 01:49:18,410

northern Minnesota to to Camp Ripley a

2204

01:49:22,510 --> 01:49:20,210

place that I know about my whole life

2205

01:49:24,640 --> 01:49:22,520

but I've never been on there right and I

2206

01:49:26,980 --> 01:49:24,650

didn't place how big of an area it was

2207

01:49:29,740 --> 01:49:26,990

but we went to their bombing range and

2208

01:49:33,790 --> 01:49:29,750

we set up a bunch of mannequins and we

2209

01:49:36,580 --> 01:49:33,800

recreated I actually made one of you

2210

01:49:40,210 --> 01:49:36,590

know I made a few of those bombs that

2211

01:49:44,620 --> 01:49:40,220

were on display at the Museum in Chicago

2212

01:49:48,460 --> 01:49:44,630

and we blew him up and you know it was

2213

01:49:50,170 --> 01:49:48,470

really surprising because you know at

2214

01:49:50,979 --> 01:49:50,180

first I thought well if you blow up this

2215

01:49:52,689 --> 01:49:50,989

bomb it's going to

2216

01:49:54,549 --> 01:49:52,699

blow people's heads off and arms are

2217

01:49:57,459 --> 01:49:54,559

going to go fly-in and you know it's

2218

01:49:58,450 --> 01:49:57,469

going to be just carnage but it really

2219

01:50:01,479 --> 01:49:58,460

wasn't like that

2220

01:50:04,270 --> 01:50:01,489

and I came to realize after dealing with

2221

01:50:09,310 --> 01:50:04,280

these guys with the FBI that things like

2222

01:50:12,279 --> 01:50:09,320

the you know the Boston Marathon bombing

2223

01:50:14,859 --> 01:50:12,289

was very similar in that you know these

2224

01:50:16,899 --> 01:50:14,869

bombs go off and at first you see people

2225

01:50:20,250 --> 01:50:16,909

kind of standing around and you don't

2226

01:50:22,870 --> 01:50:20,260

realize how badly injured people are

2227

01:50:25,089 --> 01:50:22,880

because the shrapnel fragments aren't

2228

01:50:28,149 --> 01:50:25,099

that big but they're traveling at such a

2229

01:50:30,520 --> 01:50:28,159

high velocity and when we looked at

2230

01:50:34,930 --> 01:50:30,530

these mannequins after the bomb blew up

2231

01:50:37,299 --> 01:50:34,940

only two of them even fell over and I

2232

01:50:39,009 --> 01:50:37,309

thought well gee that's not bad and then

2233

01:50:41,589 --> 01:50:39,019

I started looking closely at these

2234

01:50:44,169 --> 01:50:41,599

mannequins and there was shrapnel that

2235

01:50:46,180 --> 01:50:44,179

had gone through the bodies like through

2236

01:50:48,520 --> 01:50:46,190

the heart to the lungs to the stomach

2237

01:50:51,970 --> 01:50:48,530

through the head I mean you don't

2238

01:50:54,399 --> 01:50:51,980

realize because at first you just don't

2239

01:50:56,439 --> 01:50:54,409

see the damage but there's a lot more

2240

01:50:58,959 --> 01:50:56,449

damage that happens when these these

2241

01:51:01,930 --> 01:50:58,969

even these crude bombs go off and wrote

2242

01:51:05,140 --> 01:51:01,940

it down to the human body was like was

2243

01:51:07,930 --> 01:51:05,150

really you know it was an eye-opener to

2244

01:51:09,939 --> 01:51:07,940

say the least and and the other thing

2245

01:51:14,169 --> 01:51:09,949

about this episode that was absolutely

2246

01:51:16,359 --> 01:51:14,179

fantastic was you know the researchers

2247

01:51:18,939 --> 01:51:16,369

that that gave me the information to

2248

01:51:22,209 --> 01:51:18,949

read and we all sat down and we agreed

2249

01:51:24,399 --> 01:51:22,219

that this George Meng guy was probably

2250

01:51:27,700 --> 01:51:24,409

the bomber and we were going to

2251

01:51:30,870 --> 01:51:27,710

investigate him and and you know see if

2252

01:51:34,120 --> 01:51:30,880

we could we could make a compelling and

2253

01:51:36,580 --> 01:51:34,130

conclusive case well as I was doing the

2254

01:51:40,060 --> 01:51:36,590

investigation I talked to a historian in

2255

01:51:45,029 --> 01:51:40,070

Chicago and this guy his name was

2256

01:51:49,529 --> 01:51:45,039

Richard Lindbergh he was oh by the way

2257

01:51:54,250 --> 01:51:49,539

excuse me one sec I was told that

2258

01:51:57,129 --> 01:51:54,260

Elizabeth Burgin was the the woman I

2259

01:51:59,439 --> 01:51:57,139

couldn't remember Oh three five five yep

2260

01:52:04,000 --> 01:51:59,449

Elizabeth Burgin was the a and I'm so

2261

01:52:04,300 --> 01:52:04,010

glad a friend of mine CJ she tested me

2262

01:52:07,000 --> 01:52:04,310

that

2263

01:52:08,770 --> 01:52:07,010

she says Scot Elizabeth Burgin and

2264

01:52:12,130 --> 01:52:08,780

that's what what but anyway getting back

2265

01:52:14,320 --> 01:52:12,140

to this guy he was a historian and he

2266

01:52:17,200 --> 01:52:14,330

laid out his case and he said now I

2267

01:52:21,160 --> 01:52:17,210

think it was this guy and here's why and

2268

01:52:23,500 --> 01:52:21,170

he convinced me so I basically sat down

2269

01:52:27,250 --> 01:52:23,510

with the field producer and we called

2270

01:52:28,960 --> 01:52:27,260

back to committee films and I said I I

2271

01:52:30,790 --> 01:52:28,970

don't want to look into this George Ming

2272

01:52:33,310 --> 01:52:30,800

anymore I think it's this guy and this

2273

01:52:37,390 --> 01:52:33,320

is why I think it's this guy so we

2274

01:52:39,640 --> 01:52:37,400

changed change directions and the

2275

01:52:46,690 --> 01:52:39,650

conclusion the thing that absolutely

2276

01:52:48,490 --> 01:52:46,700

clinched it was I was given by this

2277

01:52:52,870 --> 01:52:48,500

expert with the FBI

2278

01:52:55,630 --> 01:52:52,880

Kirk Yeager dr. Kirk Yeager the the

2279

01:52:58,210 --> 01:52:55,640

transcripts from the testimony of the

2280

01:53:01,630 --> 01:52:58,220

witnesses that were there that night who

2281

01:53:04,090 --> 01:53:01,640

described the Haymarket bomber and so

2282

01:53:07,990 --> 01:53:04,100

what we did is we went to the police

2283

01:53:11,860 --> 01:53:08,000

station and I think it was Cook County

2284

01:53:14,530 --> 01:53:11,870

hope I have that right in in Chicago and

2285

01:53:18,640 --> 01:53:14,540

a sketch artist

2286

01:53:20,830 --> 01:53:18,650

a detective sketch artist I read the

2287

01:53:24,850 --> 01:53:20,840

testimony I gave him the descriptions

2288

01:53:27,280 --> 01:53:24,860

and he drew the sketch and when I pulled

2289

01:53:30,670 --> 01:53:27,290

out the picture of our new suspect and

2290

01:53:36,160 --> 01:53:30,680

put it next to his sketch it was a spot

2291

01:53:37,780 --> 01:53:36,170

on match I couldn't believe it and you

2292

01:53:43,030 --> 01:53:37,790

know if you watch the episode I think

2293

01:53:44,710 --> 01:53:43,040

you'll agree that the new suspect is is

2294

01:53:46,750 --> 01:53:44,720

the guy that threw the bomb I think we

2295

01:53:50,200 --> 01:53:46,760

finally unmasked the Haymarket bomber

2296

01:53:53,350 --> 01:53:50,210

and what really is important about that

2297

01:53:55,360 --> 01:53:53,360

is that you know if new evidence comes

2298

01:53:58,120 --> 01:53:55,370

in and it takes you in a different

2299

01:54:00,430 --> 01:53:58,130

direction you go there yeah you have to

2300

01:54:02,740 --> 01:54:00,440

you have to you have to and I'm not

2301

01:54:05,680 --> 01:54:02,750

afraid to admit the first guy we looked

2302

01:54:08,890 --> 01:54:05,690

at we were wrong it wasn't him and the

2303

01:54:10,810 --> 01:54:08,900

new evidence took us there and that's

2304

01:54:14,170 --> 01:54:10,820

that's the way it's supposed to work so

2305

01:54:15,910 --> 01:54:14,180

I'm really proud of that investigation

2306

01:54:17,560 --> 01:54:15,920

even though we didn't talk about that

2307

01:54:20,200 --> 01:54:17,570

during the episode

2308

01:54:22,540 --> 01:54:20,210

that's what happened in real life let's

2309

01:54:25,089 --> 01:54:22,550

uh now let's get back into your

2310

01:54:26,740 --> 01:54:25,099

wheelhouse actually episode 9 in episode

2311

01:54:31,330 --> 01:54:26,750

10 episode 9 Drake's

2312

01:54:33,399 --> 01:54:31,340

lost treasure yes that was another one

2313

01:54:35,319 --> 01:54:33,409

that I knew very little about at the

2314

01:54:37,990 --> 01:54:35,329

outset but I read a bunch of articles

2315

01:54:41,439 --> 01:54:38,000

about it and I really got into this

2316

01:54:42,970 --> 01:54:41,449

episode and you know I there are some

2317

01:54:45,520 --> 01:54:42,980

things I can tell you about this episode

2318

01:54:51,700 --> 01:54:45,530

now that I couldn't talk about before

2319

01:54:54,160 --> 01:54:51,710

but we had one guest who had all kinds

2320

01:54:57,100 --> 01:54:54,170

of what he thought was evidence that

2321

01:54:59,439 --> 01:54:57,110

proved that were were the actual

2322

01:55:03,399 --> 01:54:59,449

artifacts that Drake used to make the

2323

01:55:06,060 --> 01:55:03,409

land land claim plaque you know he

2324

01:55:09,790 --> 01:55:06,070

thought he had some of the treasure that

2325

01:55:12,310 --> 01:55:09,800

Drake had found and he showed us all

2326

01:55:14,800 --> 01:55:12,320

kinds of stuff and I have to say Jim not

2327

01:55:18,160 --> 01:55:14,810

one of these things now one of them was

2328

01:55:19,780 --> 01:55:18,170

legitimate not one and and so what

2329

01:55:22,270 --> 01:55:19,790

happened was we spent like two and a

2330

01:55:25,450 --> 01:55:22,280

half days of this guy and we can't use

2331

01:55:28,419 --> 01:55:25,460

any of the content and you know I mean

2332

01:55:30,220 --> 01:55:28,429

he believed what he had and I I'm just

2333

01:55:33,910 --> 01:55:30,230

tell him dude none of this is good none

2334

01:55:36,939 --> 01:55:33,920

of it so we had we had a relatively

2335

01:55:39,220 --> 01:55:36,949

small amount of content and so that's

2336

01:55:41,620 --> 01:55:39,230

why you see a lot of reenactments in

2337

01:55:45,089 --> 01:55:41,630

that episode and by the way the guy who

2338

01:55:48,129 --> 01:55:45,099

plays francis drake is a brother Mason

2339

01:55:51,220 --> 01:55:48,139

and an actor and a sound guy who

2340

01:55:53,050 --> 01:55:51,230

actually worked on season three of

2341

01:55:56,379 --> 01:55:53,060

America on earth and we got to be really

2342

01:55:59,020 --> 01:55:56,389

good friends and and he he's become a

2343

01:56:01,300 --> 01:55:59,030

freemason but the actor who plays

2344

01:56:03,700 --> 01:56:01,310

Francis Drake is a guy named Tom Colvin

2345

01:56:07,000 --> 01:56:03,710

I actually saw him tonight at lodge he

2346

01:56:09,220 --> 01:56:07,010

says he's a great dude and anyway that's

2347

01:56:11,649 --> 01:56:09,230

why you saw so many reenactments there

2348

01:56:15,490 --> 01:56:11,659

because a lot of the content that we we

2349

01:56:18,280 --> 01:56:15,500

filmed we just couldn't use and and that

2350

01:56:21,370 --> 01:56:18,290

plaque that plaque I think that plaque

2351

01:56:24,580 --> 01:56:21,380

is real but we had we had a power

2352

01:56:26,890 --> 01:56:24,590

tripping person at the at the library at

2353

01:56:29,049 --> 01:56:26,900

the Bancroft library there who wouldn't

2354

01:56:30,819 --> 01:56:29,059

let us do the XRF testing that they'd

2355

01:56:33,549 --> 01:56:30,829

already agreed to let us do

2356

01:56:37,359 --> 01:56:33,559

and the sad part is if we could have

2357

01:56:40,839 --> 01:56:37,369

done the XRF testing and and tested the

2358

01:56:42,939 --> 01:56:40,849

the build up on the on the artifact if

2359

01:56:44,530 --> 01:56:42,949

there was organic material there we

2360

01:56:47,379 --> 01:56:44,540

could have taken a small sample it could

2361

01:56:49,319 --> 01:56:47,389

have dated it we could have proven one

2362

01:56:51,879 --> 01:56:49,329

way or another that can still be done

2363

01:56:54,010 --> 01:56:51,889

and they wouldn't let us do it I will

2364

01:56:56,410 --> 01:56:54,020

tell you this at lunch that day after we

2365

01:57:00,339 --> 01:56:56,420

left that library I have never been so

2366

01:57:02,379 --> 01:57:00,349

pissed off in my life and it was

2367

01:57:04,450 --> 01:57:02,389

unnecessary it should never happen and

2368

01:57:06,760 --> 01:57:04,460

it had nothing to do with like you know

2369

01:57:09,910 --> 01:57:06,770

personality conflict it was just a power

2370

01:57:11,470 --> 01:57:09,920

tripping single individual that just

2371

01:57:14,080 --> 01:57:11,480

said no you're not gonna test it yeah

2372

01:57:19,839 --> 01:57:14,090

and that that'll stop I just watched a

2373

01:57:21,520 --> 01:57:19,849

series on Tesla and the crew and who has

2374

01:57:23,350 --> 01:57:21,530

they've been guest on this show and I

2375

01:57:26,620 --> 01:57:23,360

have also had them over on coast to

2376

01:57:30,970 --> 01:57:26,630

coast but they you know they fly over to

2377

01:57:33,189 --> 01:57:30,980

the Tesla Museum and they get there it's

2378

01:57:36,520 --> 01:57:33,199

like Romania or something right and so

2379

01:57:37,780 --> 01:57:36,530

they they get to the Tesla Museum and

2380

01:57:40,990 --> 01:57:37,790

they're looking at the stack of

2381

01:57:45,209 --> 01:57:41,000

documents about the amount of crates and

2382

01:57:48,040 --> 01:57:45,219

and things that were you know taken from

2383

01:57:50,109 --> 01:57:48,050

the Tesla's home with all of his

2384

01:57:53,709 --> 01:57:50,119

document and there's a miscommunication

2385

01:57:56,290 --> 01:57:53,719

in these documents about how many trunks

2386

01:57:59,770 --> 01:57:56,300

of documents there were the FBI says one

2387

01:58:03,100 --> 01:57:59,780

thing the State Department says another

2388

01:58:06,189 --> 01:58:03,110

the museum says another and and so they

2389

01:58:09,100 --> 01:58:06,199

were like okay well and he goes this is

2390

01:58:09,669 --> 01:58:09,110

the museum curator I left over from the

2391

01:58:13,330 --> 01:58:09,679

Cold War

2392

01:58:16,510 --> 01:58:13,340

kind of guy and there at the stack of

2393

01:58:18,370 --> 01:58:16,520

documents okay but who signed the

2394

01:58:22,030 --> 01:58:18,380

documents on the last weekend you can't

2395

01:58:23,950 --> 01:58:22,040

see that you can see the top page wait a

2396

01:58:30,250 --> 01:58:23,960

minute we just flew from the United

2397

01:58:32,350 --> 01:58:30,260

States number of people and you're gonna

2398

01:58:35,129 --> 01:58:32,360

tell us that you can't do what you told

2399

01:58:39,910 --> 01:58:35,139

us we could do it's the hell one one guy

2400

01:58:42,189 --> 01:58:39,920

power-tripping killed it you know so in

2401

01:58:44,260 --> 01:58:42,199

this case was a woman but I will tell

2402

01:58:44,500 --> 01:58:44,270

you I have never been so pissed off in

2403

01:58:46,600 --> 01:58:44,510

my

2404

01:58:49,510 --> 01:58:46,610

light I was so pissed I didn't eat I

2405

01:58:51,070 --> 01:58:49,520

couldn't eat lunch that tells you I was

2406

01:58:53,380 --> 01:58:51,080

mad

2407

01:58:55,930 --> 01:58:53,390

you know what we moved on and we

2408

01:58:58,360 --> 01:58:55,940

finished the episode there's one thing

2409

01:59:01,090 --> 01:58:58,370

that was also did not make that episode

2410

01:59:03,400 --> 01:59:01,100

we were up at wale Cove and when I

2411

01:59:05,080 --> 01:59:03,410

talked to the archaeologists and you

2412

01:59:06,910 --> 01:59:05,090

know we thought maybe this is where

2413

01:59:08,710 --> 01:59:06,920

Drake could have brought his ship and

2414

01:59:13,060 --> 01:59:08,720

repaired it

2415

01:59:15,040 --> 01:59:13,070

I actually dull in that Harbor in the

2416

01:59:18,340 --> 01:59:15,050

rough some of the roughest waves you'll

2417

01:59:20,740 --> 01:59:18,350

ever see and they cut that hole that

2418

01:59:22,510 --> 01:59:20,750

whole segment out because it really

2419

01:59:23,970 --> 01:59:22,520

didn't make sense to go diving there

2420

01:59:26,590 --> 01:59:23,980

there was nothing there to see it was

2421

01:59:28,540 --> 01:59:26,600

supposed to bring in a little action but

2422

01:59:31,360 --> 01:59:28,550

it just didn't make sense so they cut it

2423

01:59:33,070 --> 01:59:31,370

but what you would have seen is there

2424

01:59:35,680 --> 01:59:33,080

was these beautiful seals that were

2425

01:59:37,810 --> 01:59:35,690

swimming with us in the water and I

2426  
01:59:40,480 --> 01:59:37,820  
popped out at one point about five feet

2427  
01:59:42,310 --> 01:59:40,490  
away here's this you know this seal I

2428  
01:59:44,890 --> 01:59:42,320  
was looking right at his face you know

2429  
01:59:47,020 --> 01:59:44,900  
how they talk about ancient sailors

2430  
01:59:48,760 --> 01:59:47,030  
would see mermaids and a lot of people

2431  
01:59:53,050 --> 01:59:48,770  
believed that they were the faces of

2432  
01:59:56,650 --> 01:59:53,060  
seals yep and I'm telling ya they look

2433  
01:59:58,480 --> 01:59:56,660  
human and it was creepy as hell but they

2434  
02:00:00,190 --> 01:59:58,490  
were so cute you know it's like you're

2435  
02:00:02,560 --> 02:00:00,200  
not afraid on one hand but on the other

2436  
02:00:03,250 --> 02:00:02,570  
hand it's like these things are big too

2437  
02:00:06,160 --> 02:00:03,260  
you know

2438  
02:00:07,960 --> 02:00:06,170

anyway it was it was really fun but that

2439

02:00:11,500 --> 02:00:07,970

didn't make the cut the cutting room

2440

02:00:14,020 --> 02:00:11,510

floor I got the finale

2441

02:00:19,570 --> 02:00:14,030

rabitor you know the pixel purgatory

2442

02:00:25,060 --> 02:00:19,580

that is episode 10 the finale exodus of

2443

02:00:31,540 --> 02:00:25,070

the Templars now tell me you watched I

2444

02:00:34,300 --> 02:00:31,550

did I did and I do want because there

2445

02:00:37,180 --> 02:00:34,310

are some spoilers involved here I want

2446

02:00:39,880 --> 02:00:37,190

everybody to go and and watch the entire

2447

02:00:42,520 --> 02:00:39,890

season right now the season isn't

2448

02:00:45,070 --> 02:00:42,530

available for streaming online

2449

02:00:49,420 --> 02:00:45,080

I've got everything locked down and is

2450

02:00:51,880 --> 02:00:49,430

taping and the exodus of the Templars is

2451  
02:00:54,910 --> 02:00:51,890  
not playing

2452  
02:00:57,300 --> 02:00:54,920  
for another two days on Travel Channel I

2453  
02:01:00,430 --> 02:00:57,310  
think it's on the 10th and the 12th of

2454  
02:01:05,110 --> 02:01:00,440  
this are the replays yeah I'm all over

2455  
02:01:08,710 --> 02:01:05,120  
this so everybody that's listening right

2456  
02:01:11,490 --> 02:01:08,720  
now is going to go to travel and and and

2457  
02:01:14,290 --> 02:01:11,500  
set it up so you can tape it or watch it

2458  
02:01:18,370 --> 02:01:14,300  
and there are some spoilers involved

2459  
02:01:22,480 --> 02:01:18,380  
here but I told Scott that we had to

2460  
02:01:25,240 --> 02:01:22,490  
discuss episode 10 it is too important

2461  
02:01:29,770 --> 02:01:25,250  
of an episode you you did confide with

2462  
02:01:33,340 --> 02:01:29,780  
me that it was certainly the the only

2463  
02:01:34,990 --> 02:01:33,350

way to wrap up the season and that it

2464

02:01:36,790 --> 02:01:35,000

was probably the most important show

2465

02:01:37,870 --> 02:01:36,800

that you've ever done I will agree with

2466

02:01:40,840 --> 02:01:37,880

you

2467

02:01:44,530 --> 02:01:40,850

and here's it was a fantastic episode

2468

02:01:47,200 --> 02:01:44,540

it's it's in my opinion it's by far the

2469

02:01:48,970 --> 02:01:47,210

best episode of the season it's right up

2470

02:01:53,590 --> 02:01:48,980

there with it with the two-part finale

2471

02:01:55,510 --> 02:01:53,600

of season 3 right episode 12 and 13 but

2472

02:01:57,910 --> 02:01:55,520

this episode that we're talking about

2473

02:02:01,030 --> 02:01:57,920

should have been two episodes there's a

2474

02:02:04,300 --> 02:02:01,040

lot that didn't make it a lot that

2475

02:02:07,900 --> 02:02:04,310

didn't make it and it's unfortunate but

2476

02:02:09,940 --> 02:02:07,910

what did get in there was was was epic

2477

02:02:11,590 --> 02:02:09,950

no I really I really and I'm not just

2478

02:02:12,730 --> 02:02:11,600

saying that because you know me I'll be

2479

02:02:15,580 --> 02:02:12,740

honest with you there are a couple

2480

02:02:17,530 --> 02:02:15,590

episodes early on that you know at the

2481

02:02:19,780 --> 02:02:17,540

phoenicians episode with that artifact I

2482

02:02:22,240 --> 02:02:19,790

wasn't wild about that episode I didn't

2483

02:02:25,480 --> 02:02:22,250

think it was a great artifact it was fun

2484

02:02:28,030 --> 02:02:25,490

to to look into the possibility and

2485

02:02:31,240 --> 02:02:28,040

everything but man this episodes got

2486

02:02:35,590 --> 02:02:31,250

everything it was now I thought here's

2487

02:02:37,900 --> 02:02:35,600

the spoiler alert I want to get to the

2488

02:02:39,520 --> 02:02:37,910

the key part and then we're gonna back

2489

02:02:43,350 --> 02:02:39,530

up to the beginning of the episode but

2490

02:02:46,390 --> 02:02:43,360

the key part about this and I thought

2491

02:02:54,340 --> 02:02:46,400

Scott was just given a gift from heaven

2492

02:02:59,190 --> 02:02:54,350

here where you you've got you've got a

2493

02:03:03,820 --> 02:02:59,200

stone you've got a stone that is

2494

02:03:05,050 --> 02:03:03,830

engraved something is something not only

2495

02:03:07,990 --> 02:03:05,060

so tangible

2496

02:03:10,930 --> 02:03:08,000

but it is it's exactly where your

2497

02:03:13,570 --> 02:03:10,940

expertise lies and I'm watching this I'm

2498

02:03:18,370 --> 02:03:13,580

like Scott is just given this is this is

2499

02:03:20,560 --> 02:03:18,380

a gift this is a gift it doesn't get

2500

02:03:22,480 --> 02:03:20,570

much better no it would have the only

2501

02:03:24,790 --> 02:03:22,490

thing that would have been better is if

2502

02:03:26,950 --> 02:03:24,800

it had a hook Dex at the bottom of the

2503

02:03:27,670 --> 02:03:26,960

middle no I thought that's where it was

2504

02:03:30,490 --> 02:03:27,680

going

2505

02:03:33,790 --> 02:03:30,500

actually I thought here we go we're

2506

02:03:37,090 --> 02:03:33,800

gonna have a hook that it was no it was

2507

02:03:38,410 --> 02:03:37,100

just actually don't Jim I have to tell

2508

02:03:41,860 --> 02:03:38,420

you I've known about that inscription

2509

02:03:43,570 --> 02:03:41,870

for almost 10 years and we we couldn't

2510

02:03:50,320 --> 02:03:43,580

talked about it on it I've been sitting

2511

02:03:53,140 --> 02:03:50,330

on it because we just we just wasn't

2512

02:03:56,890 --> 02:03:53,150

ready until now but now we can talk

2513

02:03:59,170 --> 02:03:56,900

about it so tell us the stone I want you

2514

02:04:01,390 --> 02:03:59,180

to describe it for everybody but it's

2515

02:04:05,170 --> 02:04:01,400

about I don't know foot and a half

2516

02:04:07,470 --> 02:04:05,180

square right on the page you're talking

2517

02:04:09,970 --> 02:04:07,480

about the one in Newport right yes yes

2518

02:04:12,550 --> 02:04:09,980

it's called the in hoc Signo Vinces

2519

02:04:16,030 --> 02:04:12,560

stone which mean it's a Latin

2520

02:04:18,550 --> 02:04:16,040

inscription in block letters and it

2521

02:04:21,820 --> 02:04:18,560

basically means in this sign thou shall

2522

02:04:24,220 --> 02:04:21,830

conquer you know the legend has it it

2523

02:04:27,790 --> 02:04:24,230

was first uttered by Constantine back in

2524

02:04:31,840 --> 02:04:27,800

the 4th century before he went into

2525

02:04:35,730 --> 02:04:31,850

battle and it's been used by various you

2526  
02:04:38,950 --> 02:04:35,740  
know groups for for you know ever since

2527  
02:04:41,590 --> 02:04:38,960  
including the Knights Templar and it's

2528  
02:04:43,960 --> 02:04:41,600  
right there but actually what you may

2529  
02:04:46,300 --> 02:04:43,970  
not realize and you know as I watched

2530  
02:04:47,680 --> 02:04:46,310  
the episode I'm going god we didn't talk

2531  
02:04:49,240 --> 02:04:47,690  
about this we didn't talk about that

2532  
02:04:52,780 --> 02:04:49,250  
because we couldn't we just didn't have

2533  
02:04:55,090 --> 02:04:52,790  
enough time cuz it was so much but it's

2534  
02:04:57,970 --> 02:04:55,100  
actually a bed rock outcrop that was

2535  
02:04:59,530 --> 02:04:57,980  
bedrock that's not a loose Boulder like

2536  
02:05:02,650 --> 02:04:59,540  
the narragansett rune stone of the

2537  
02:05:05,140 --> 02:05:02,660  
kensington stone that is the that is the

2538  
02:05:07,600 --> 02:05:05,150

bedrock but what happened is if you

2539

02:05:10,030 --> 02:05:07,610

notice there was a concrete wall right

2540

02:05:12,730 --> 02:05:10,040

behind us where we were passing supplies

2541

02:05:14,980 --> 02:05:12,740

down and I think we were using tested

2542

02:05:18,340 --> 02:05:14,990

but that seawall was put in there about

2543

02:05:18,580 --> 02:05:18,350

a century ago and it changed the dynamic

2544

02:05:21,130 --> 02:05:18,590

of

2545

02:05:23,080 --> 02:05:21,140

Beach that's why that rock is now buried

2546

02:05:26,950 --> 02:05:23,090

but in the past it would have been

2547

02:05:28,840 --> 02:05:26,960

exposed right right and probably stuck

2548

02:05:33,040 --> 02:05:28,850

out of the ground maybe four or five six

2549

02:05:36,760 --> 02:05:33,050

feet and in this side thou shalt conquer

2550

02:05:40,510 --> 02:05:36,770

and it's about a mile away from the

2551

02:05:42,730 --> 02:05:40,520

Newport tower and across the bay is the

2552

02:05:45,730 --> 02:05:42,740

Narragansett rune stone inscription with

2553

02:05:48,420 --> 02:05:45,740

our hook decks so you know I've been

2554

02:05:51,760 --> 02:05:48,430

arguing that the Templars came over here

2555

02:05:54,360 --> 02:05:51,770

around 1400 and built the Newport Tower

2556

02:05:57,310 --> 02:05:54,370

carved the Narragansett rune stone and

2557

02:05:57,790 --> 02:05:57,320

you know what else would be connected to

2558

02:06:00,580 --> 02:05:57,800

Oh

2559

02:06:02,650 --> 02:06:00,590

in this sign thou shalt conquer and you

2560

02:06:05,230 --> 02:06:02,660

remember that the dimensions that they

2561

02:06:08,590 --> 02:06:05,240

laid out the inscription were exactly

2562

02:06:12,070 --> 02:06:08,600

two to one exactly two to one

2563

02:06:15,460 --> 02:06:12,080

and that oblong square as we call it in

2564

02:06:19,690 --> 02:06:15,470

Freemasonry is a very important indeed

2565

02:06:22,600 --> 02:06:19,700

sacred ratio that is found in our lodges

2566

02:06:26,410 --> 02:06:22,610

it's the dimensions of all kinds of

2567

02:06:29,260 --> 02:06:26,420

important things throughout history that

2568

02:06:33,370 --> 02:06:29,270

are related to Templar ISM and in

2569

02:06:34,350 --> 02:06:33,380

Freemasonry and it was that a

2570

02:06:40,930 --> 02:06:34,360

coincidence

2571

02:06:43,180 --> 02:06:40,940

this is absolutely intentional and the

2572

02:06:46,060 --> 02:06:43,190

weathering was fantastic the technology

2573

02:06:48,850 --> 02:06:46,070

we were able to use was amazing and how

2574

02:06:53,800 --> 02:06:48,860

about the archaeologists we got how

2575

02:06:55,810 --> 02:06:53,810

about that yes yes yes and and well

2576

02:06:59,500 --> 02:06:55,820

is he while we've been talking on the

2577

02:07:01,090 --> 02:06:59,510

phone Oh what did he say he said you're

2578

02:07:05,680 --> 02:07:01,100

doing great are you gonna talk about our

2579

02:07:08,890 --> 02:07:05,690

episode I said yes I said we will who

2580

02:07:13,510 --> 02:07:08,900

are talking about is Brad Lidge who is a

2581

02:07:16,090 --> 02:07:13,520

retired former major league pitcher for

2582

02:07:19,020 --> 02:07:16,100

the Philadelphia Phillies who threw the

2583

02:07:22,230 --> 02:07:19,030

last pitch I think it was in the 2009

2584

02:07:27,600 --> 02:07:22,240

somebody can google it world series and

2585

02:07:29,830 --> 02:07:27,610

while he was and he retired in 2013 but

2586

02:07:30,430 --> 02:07:29,840

while he was still in Major League

2587

02:07:32,090 --> 02:07:30,440

Baseball

2588

02:07:33,800 --> 02:07:32,100

remember he was telling me goes look

2589

02:07:36,050 --> 02:07:33,810

because I'm travelling on the road he

2590

02:07:38,090 --> 02:07:36,060

goes you can only watch so much TV he

2591

02:07:41,090 --> 02:07:38,100

can only play so many card games he said

2592

02:07:45,320 --> 02:07:41,100

I decided to go back to college and get

2593

02:07:50,990 --> 02:07:45,330

my master's in archaeology and the dude

2594

02:07:54,200 --> 02:07:51,000

is smart he's he's such a good dude I

2595

02:07:58,520 --> 02:07:54,210

mean I can't even tell you he's humble

2596

02:08:00,200 --> 02:07:58,530

he's he's just he's just great and so we

2597

02:08:02,240 --> 02:08:00,210

have some plants there are some things

2598

02:08:03,830 --> 02:08:02,250

that we want to do but he was the

2599

02:08:06,410 --> 02:08:03,840

archaeologist that we brought with us

2600

02:08:08,510 --> 02:08:06,420

and you know if you watch the episode

2601  
02:08:11,120 --> 02:08:08,520  
you'll see he isn't some guy who's just

2602  
02:08:13,310 --> 02:08:11,130  
pandering to me right he's you know he's

2603  
02:08:15,350 --> 02:08:13,320  
asking some hard questions but at the

2604  
02:08:16,790 --> 02:08:15,360  
same time he's open-minded and he's

2605  
02:08:19,100 --> 02:08:16,800  
going you know what Scott you got a

2606  
02:08:21,410 --> 02:08:19,110  
pretty pretty compelling argument here I

2607  
02:08:23,090 --> 02:08:21,420  
think you're on to something and you

2608  
02:08:25,850 --> 02:08:23,100  
know he's not saying that just because

2609  
02:08:27,740 --> 02:08:25,860  
he's my friend or anything else he's

2610  
02:08:30,830 --> 02:08:27,750  
saying it because he really he really

2611  
02:08:34,100 --> 02:08:30,840  
believes it there is you go on the

2612  
02:08:38,090 --> 02:08:34,110  
record in this episode where you're

2613  
02:08:41,510 --> 02:08:38,100

talking about the naira against extreme

2614

02:08:45,620 --> 02:08:41,520

yeah we're use you say definitively that

2615

02:08:49,460 --> 02:08:45,630

there is no questions about this being

2616

02:08:54,560 --> 02:08:49,470

authentic that this is what it is this

2617

02:08:56,660 --> 02:08:54,570

is real of course well and and as far as

2618

02:09:01,810 --> 02:08:56,670

the in hock stone goes I think the

2619

02:09:06,890 --> 02:09:04,070

morale tradition that takes these things

2620

02:09:11,210 --> 02:09:06,900

back a hundred and a hundred and fifty

2621

02:09:14,150 --> 02:09:11,220

years at least so you know who know

2622

02:09:16,850 --> 02:09:14,160

about the hawk Dex until I published my

2623

02:09:19,820 --> 02:09:16,860

book in 2000 nobody knew about the hook

2624

02:09:22,270 --> 02:09:19,830

Dex and using it in the proper context

2625

02:09:26,870 --> 02:09:22,280

you kidding me

2626  
02:09:28,820 --> 02:09:26,880  
look there is zero evidence that speaks

2627  
02:09:30,650 --> 02:09:28,830  
against these things and how can there

2628  
02:09:33,500 --> 02:09:30,660  
be evidence against them if they're real

2629  
02:09:35,060 --> 02:09:33,510  
that evidence can't exist this is what a

2630  
02:09:38,210 --> 02:09:35,070  
lot of people don't understand

2631  
02:09:40,730 --> 02:09:38,220  
so we're seeing that there is actually

2632  
02:09:43,130 --> 02:09:40,740  
and there's more evidence of the

2633  
02:09:45,089 --> 02:09:43,140  
Templars being here and this is part of

2634  
02:09:47,399 --> 02:09:45,099  
a much bigger story

2635  
02:09:50,580 --> 02:09:47,409  
about how this country was really

2636  
02:09:54,629 --> 02:09:50,590  
founded and what those tenants and

2637  
02:09:57,419 --> 02:09:54,639  
principles are that are what the

2638  
02:09:58,589 --> 02:09:57,429

founding fathers intended and I got to

2639

02:10:00,449 --> 02:09:58,599

be honest with you and I don't want to

2640

02:10:02,699 --> 02:10:00,459

get into a political discussion but I'm

2641

02:10:05,609 --> 02:10:02,709

telling you that the politicians on both

2642

02:10:08,009 --> 02:10:05,619

sides of the aisle have lost that they

2643

02:10:10,409 --> 02:10:08,019

have no freaking clue what the

2644

02:10:12,869 --> 02:10:10,419

Constitution is really all about and

2645

02:10:16,739 --> 02:10:12,879

what this country was was founded upon

2646

02:10:20,250 --> 02:10:16,749

and I really think that it creates an

2647

02:10:22,409 --> 02:10:20,260

opportunity for us and for me to make

2648

02:10:24,149 --> 02:10:22,419

sure that we get this evidence out that

2649

02:10:25,919 --> 02:10:24,159

the true story of the founding of this

2650

02:10:27,119 --> 02:10:25,929

country which started with the

2651

02:10:30,209 --> 02:10:27,129

Kensington Runestone

2652

02:10:32,790 --> 02:10:30,219

as the initial land claim the stake in

2653

02:10:35,040 --> 02:10:32,800

the ground and that obligation was

2654

02:10:38,879 --> 02:10:35,050

passed on to our founding fathers who

2655

02:10:41,459 --> 02:10:38,889

finished the job who were all freemasons

2656

02:10:43,409 --> 02:10:41,469

and not just freemasons they were also

2657

02:10:45,389 --> 02:10:43,419

Knights Templar I hate to break it to

2658

02:10:47,250 --> 02:10:45,399

people that's something most people

2659

02:10:50,939 --> 02:10:47,260

don't know but that's a fact

2660

02:10:53,639 --> 02:10:50,949

and these artifacts like the ones in

2661

02:10:56,069 --> 02:10:53,649

Newport the Narragansett rune stone the

2662

02:10:58,709 --> 02:10:56,079

in hoc Signo Vincas and my god the

2663

02:11:01,020 --> 02:10:58,719

Newport Tower is the most important

2664

02:11:03,569 --> 02:11:01,030

stone and mortar structure in this

2665

02:11:06,330 --> 02:11:03,579

country there should be a museum built

2666

02:11:08,669 --> 02:11:06,340

around it and yet we're still talking

2667

02:11:12,119 --> 02:11:08,679

about it today people go well I think it

2668

02:11:14,939 --> 02:11:12,129

was a it's it's so maddening Jimmy it

2669

02:11:17,459 --> 02:11:14,949

makes me it makes my skin crawl that

2670

02:11:19,830 --> 02:11:17,469

we're not treating these things with the

2671

02:11:21,479 --> 02:11:19,840

respect they deserve because this is the

2672

02:11:23,909 --> 02:11:21,489

true history of the founding of this

2673

02:11:27,029 --> 02:11:23,919

country well and we've got one minute

2674

02:11:29,279 --> 02:11:27,039

left Scott and I want to thank you first

2675

02:11:31,739 --> 02:11:29,289

for not only this show tonight but for

2676

02:11:35,699 --> 02:11:31,749

all of the work that you do I

2677

02:11:37,739 --> 02:11:35,709

I know that the season just wrapped but

2678

02:11:41,520 --> 02:11:37,749

are we gonna see a season five are you

2679

02:11:43,770 --> 02:11:41,530

already working on it well no we're not

2680

02:11:47,509 --> 02:11:43,780

working on it and I don't know if we're

2681

02:11:51,719 --> 02:11:47,519

going to get a season five or not and

2682

02:11:54,959 --> 02:11:51,729

you know I I really have mixed mixed

2683

02:11:57,510 --> 02:11:54,969

emotions because I I would love to do a

2684

02:11:59,550 --> 02:11:57,520

season five I think there's

2685

02:12:02,520 --> 02:11:59,560

I know that there's plenty that we can

2686

02:12:05,910 --> 02:12:02,530

do but I also want to continue to do the

2687

02:12:07,800 --> 02:12:05,920

story that is still out there there's a

2688

02:12:10,650 --> 02:12:07,810

lot of content that we have that we have

2689

02:12:12,000 --> 02:12:10,660

not shared yet that has to do with the

2690

02:12:15,450 --> 02:12:12,010

Templars and the founding of this

2691

02:12:17,570 --> 02:12:15,460

country and it's amazing stuff so I

2692

02:12:19,800 --> 02:12:17,580

really want to do it and if it's if

2693

02:12:22,500 --> 02:12:19,810

America on earth is a vehicle that'd be

2694

02:12:24,750 --> 02:12:22,510

fantastic if not we'll do it somewhere

2695

02:12:26,280 --> 02:12:24,760

else but if this does turn out to be the

2696

02:12:29,880 --> 02:12:26,290

last season that I don't know if that's

2697

02:12:32,100 --> 02:12:29,890

going to happen or not all I can say is

2698

02:12:35,880 --> 02:12:32,110

I've been so lucky and so fortunate I

2699

02:12:38,760 --> 02:12:35,890

think History Channel h2 and Travel

2700

02:12:41,400 --> 02:12:38,770

Channel especially they treated me so

2701

02:12:43,200 --> 02:12:41,410

well and gave us this opportunity I'm

2702

02:12:45,570 --> 02:12:43,210

really grateful and I'm grateful to you

2703

02:12:47,220 --> 02:12:45,580

to Jimmy because you know all kidding

2704

02:12:49,980 --> 02:12:47,230

aside we have a lot of fun on your show

2705

02:12:51,360 --> 02:12:49,990

and we laugh and and grit into all this

2706

02:12:54,060 --> 02:12:51,370

crazy stuff but I really appreciate

2707

02:12:56,820 --> 02:12:54,070

having this this outlet your you're a

2708

02:12:59,310 --> 02:12:56,830

great dude a good friend and I really

2709

02:13:02,730 --> 02:12:59,320

appreciate it thank you so much God give

2710

02:13:05,340 --> 02:13:02,740

my best to Jann and I've got my fingers

2711

02:13:07,740 --> 02:13:05,350

crossed so do all of us for a season

2712

02:13:10,550 --> 02:13:07,750

five and we always look forward to your

2713

02:13:14,040 --> 02:13:10,560

next venture thank you so much god

2714

02:13:17,490 --> 02:13:14,050

alright well chat soon but Scott Wolter

2715

02:13:20,850 --> 02:13:17,500

and this is you can go to it's all

2716

02:13:24,150 --> 02:13:20,860

simple hooked x.com and Scott Wolter

2717

02:13:25,890 --> 02:13:24,160

answers dot blog spot.com all the links

2718

02:13:27,360 --> 02:13:25,900

are over at Jimmy Church radio calm and
