81
00:04:23,879 --> 00:04:23,440
Adam Apollo Adam good evening how are

82
00:04:26,310 --> 00:04:23,889
you man

83
00:04:28,980 --> 00:04:26,320
mmm doing great Jimmy great to be here

84
00:04:32,070 --> 00:04:28,990
with you yeah it's great to hear your

85
00:04:33,719 --> 00:04:32,080
voice and before we get started let's

86
00:04:37,500 --> 00:04:33,729
get one thing out of the way which is

87
00:04:39,390 --> 00:04:37,510
the first time guest disclaimer alright

88
00:04:41,640 --> 00:04:39,400

now the next time you're on the show

89

00:04:43,800 --> 00:04:41,650

you're not gonna get it but you get it

90

00:04:45,360 --> 00:04:43,810

doubt which is this it's just you and I

91

00:04:47,340 --> 00:04:45,370

Adams sitting on my couch having a

92

00:04:49,200 --> 00:04:47,350

conversation as friends and where that

93

00:04:50,610 --> 00:04:49,210

conversation starts it starts where it

94

00:04:52,980 --> 00:04:50,620

ends it ends but we're gonna end his

95

00:04:55,020 --> 00:04:52,990

friends there you go you're ready to go

96

00:04:57,090 --> 00:04:55,030

sounds good to me Jimmy let's do it

97

00:04:59,360 --> 00:04:57,100

let's let's start with the basics

98

00:05:02,520 --> 00:04:59,370

where'd you grow up

99

00:05:05,070 --> 00:05:02,530

well my parents divorced when I was 2

100

00:05:07,200 --> 00:05:05,080

years old so even though I was born in

101

00:05:10,320 --> 00:05:07,210

Oakland California they traveled a lot

102

00:05:12,830 --> 00:05:10,330

until I was around 2 and then my dad

103

00:05:16,260 --> 00:05:12,840

ended up in Austin Texas he's a musician

104

00:05:18,120 --> 00:05:16,270

my mom ended up in a little tiny town

105

00:05:20,580 --> 00:05:18,130

called Red River New Mexico way up at

106

00:05:23,879 --> 00:05:20,590

9,000 feet in the Sangre de Cristo

107

00:05:27,050 --> 00:05:23,889

Mountains of northern New Mexico and so

108

00:05:29,730 --> 00:05:27,060

I was between them a lot as a kid

109

00:05:31,440 --> 00:05:29,740

basically traveled back and forth you

110

00:05:33,990 --> 00:05:31,450

know every few months until I started

111

00:05:36,510 --> 00:05:34,000

school and then I was with my mom in

112

00:05:39,620 --> 00:05:36,520

school primarily cuz this tiny little

113

00:05:42,930 --> 00:05:39,630

school with like 30 kids K through five

114

00:05:44,969 --> 00:05:42,940

was just way better for my education

115

00:05:47,010 --> 00:05:44,979

than the Austin City Schools as you can

116

00:05:50,129 --> 00:05:47,020

imagine I tried Austin City Schools

117

00:05:52,800 --> 00:05:50,139

around 2nd grade it was a total [h__\h]

118

00:05:55,050 --> 00:05:52,810

show except for art class which was

119

00:05:58,110 --> 00:05:55,060

amazing I started learning how to draw

120

00:06:00,540 --> 00:05:58,120

in 3d which was the best part right but

121

00:06:02,960 --> 00:06:00,550

my dad also lived in Philadelphia for a

122

00:06:06,180 --> 00:06:02,970

time and st. Louis for a time after that

123

00:06:09,060 --> 00:06:06,190

and eventually moved to the North Shore

124

00:06:11,460 --> 00:06:09,070

of Oahu in Hawaii my mom around the same

125

00:06:14,370 --> 00:06:11,470

time ended up moving to North Carolina

126

00:06:16,409 --> 00:06:14,380

and so I've spent a lot of time in the

127

00:06:19,570 --> 00:06:16,419

mountains of Western North Carolina and

128

00:06:21,969 --> 00:06:19,580

also in Hawaii during my

129

00:06:23,679 --> 00:06:21,979

middle school and teenage years that's

130

00:06:26,379 --> 00:06:23,689

pretty cool I mean you get a little

131

00:06:28,059 --> 00:06:26,389

taste of everything mm-hmm you know I

132

00:06:30,249 --> 00:06:28,069

want to ask you this though

133

00:06:33,610 --> 00:06:30,259

New Mexico for all of us right high

134

00:06:35,649 --> 00:06:33,620

strangeness capital of the world did

135

00:06:39,070 --> 00:06:35,659

anything anything crazy go down at that

136

00:06:43,059 --> 00:06:39,080

age yeah absolutely when I was really

137

00:06:46,899 --> 00:06:43,069

little I was I think about six I

138

00:06:49,179 --> 00:06:46,909

remember being in first grade and kind

139

00:06:51,429 --> 00:06:49,189

of trying to process my experience after

140

00:06:53,529 --> 00:06:51,439

it happened at school the next day and

141

00:06:56,800 --> 00:06:53,539

trying to figure out if it was a dream

142

00:07:01,029 --> 00:06:56,810

or not but my mom at the time was living

143

00:07:03,580 --> 00:07:01,039

at this ranch and she led horse tours

144

00:07:06,279 --> 00:07:03,590

and I had a little donkey named Chiquita

145

00:07:09,100 --> 00:07:06,289

and we do these horse rides way up into

146

00:07:12,459 --> 00:07:09,110

the mountains and one evening I went

147

00:07:15,399 --> 00:07:12,469

outside and sometimes the night sky up

148

00:07:18,850 --> 00:07:15,409

there at 9,000 feet in New Mexico's just

149

00:07:20,439 --> 00:07:18,860

so crisp and clear and dry I used to

150

00:07:23,709 --> 00:07:20,449

joke that you'd have to look for the

151
00:07:26,579 --> 00:07:23,719
dark places between the stars and I was

152
00:07:29,860 --> 00:07:26,589
walking around this little lake that was

153
00:07:31,570 --> 00:07:29,870
just in the ranch and kind of cruising

154
00:07:34,110 --> 00:07:31,580
around looking at the stars and just

155
00:07:37,510 --> 00:07:34,120
having a moment to myself outside and

156
00:07:39,909 --> 00:07:37,520
all the sudden this light comes down the

157
00:07:41,890 --> 00:07:39,919
valley and it gets brighter and brighter

158
00:07:44,890 --> 00:07:41,900
and brighter and then it comes right

159
00:07:47,829 --> 00:07:44,900
over me and over the lake and I remember

160
00:07:51,010 --> 00:07:47,839
it getting so bright that it was like

161
00:07:54,879 --> 00:07:51,020
blindingly white and I was what is that

162
00:07:57,570 --> 00:07:54,889
and then all of a sudden it just blinks

163
00:08:02,079 --> 00:07:57,580

shoots off and flies over the mountain

164

00:08:04,390 --> 00:08:02,089

and I was like it was quiet there was no

165

00:08:06,999 --> 00:08:04,400

sound there was no nothing just this

166

00:08:09,820 --> 00:08:07,009

light I went back to the house I was mom

167

00:08:12,219 --> 00:08:09,830

I saw this light it was huge in the sky

168

00:08:13,540 --> 00:08:12,229

she's like whoa really it's like yeah it

169

00:08:15,279 --> 00:08:13,550

was like amazing I don't know what it

170

00:08:18,850 --> 00:08:15,289

was she's like that sounds really

171

00:08:20,920 --> 00:08:18,860

interesting like strange you know and I

172

00:08:23,409 --> 00:08:20,930

remember being at school and telling

173

00:08:25,990 --> 00:08:23,419

people about in there like aha sure okay

174

00:08:26,439 --> 00:08:26,000

cool some big thing in the sky that's

175

00:08:30,670 --> 00:08:26,449

weird

176

00:08:32,680 --> 00:08:30,680

and nobody really treated it as

177

00:08:34,450 --> 00:08:32,690

seriously as I felt it

178

00:08:38,290 --> 00:08:34,460

so I started wondering like was this a

179

00:08:39,580 --> 00:08:38,300

dream and I actually went to my mom you

180

00:08:41,409 --> 00:08:39,590

know a couple weeks later and I was like

181

00:08:43,240 --> 00:08:41,419

mom do you remember me going outside and

182

00:08:44,980 --> 00:08:43,250

did I come back in and tell you I saw

183

00:08:47,950 --> 00:08:44,990

something bright in the sky she's like

184

00:08:51,340 --> 00:08:47,960

yeah you saw something and that was it

185

00:08:55,090 --> 00:08:51,350

and that was the only time I really saw

186

00:08:57,490 --> 00:08:55,100

something unquestionably powerful in the

187

00:08:59,920 --> 00:08:57,500

sky when I was living in New Mexico even

188

00:09:02,710 --> 00:08:59,930

though I saw shooting stars all the time

189

00:09:04,300 --> 00:09:02,720

when just all the time just everywhere

190

00:09:07,240 --> 00:09:04,310

and this guy anytime I look at the sky

191

00:09:09,640 --> 00:09:07,250

boom there's one you know and I didn't

192

00:09:12,700 --> 00:09:09,650

think anything interesting about that

193

00:09:14,680 --> 00:09:12,710

until he started realizing that

194

00:09:17,050 --> 00:09:14,690

sometimes shooting stars don't go

195

00:09:19,480 --> 00:09:17,060

straight sometimes they turn 90 degrees

196

00:09:21,070 --> 00:09:19,490

half the way but I had to learn how to

197

00:09:26,260 --> 00:09:21,080

pay attention to that as I grew older

198

00:09:30,190 --> 00:09:26,270

now when your awakening was at the age

199

00:09:35,230 --> 00:09:30,200

of 15 years a very critical age for for

200

00:09:39,730 --> 00:09:35,240

any teenager but between your first

201
00:09:43,210 --> 00:09:39,740
sighting in New Mexico and the age of 15

202
00:09:45,250 --> 00:09:43,220
was there was there contact was there

203
00:09:47,620 --> 00:09:45,260
was there things that were going on

204
00:09:51,730 --> 00:09:47,630
through that period of you know 7 8

205
00:09:57,450 --> 00:09:51,740
years the only other major experience I

206
00:10:01,000 --> 00:09:57,460
had that came with an object in the sky

207
00:10:01,600 --> 00:10:01,010
that I couldn't explain happened with my

208
00:10:03,610 --> 00:10:01,610
dad

209
00:10:06,220 --> 00:10:03,620
and a couple of my stepbrothers when he

210
00:10:07,830 --> 00:10:06,230
was living just outside st. Louis in a

211
00:10:10,480 --> 00:10:07,840
little town called Robbinsville and

212
00:10:11,920 --> 00:10:10,490
there's sort of a shortcut from the

213
00:10:14,230 --> 00:10:11,930

highway you could take this dirt road

214

00:10:16,960 --> 00:10:14,240

and take a shortcut over to where we

215

00:10:19,720 --> 00:10:16,970

lived in this little valley train tracks

216

00:10:23,800 --> 00:10:19,730

and a river and we were taking this dirt

217

00:10:25,600 --> 00:10:23,810

road shortcut and at some point you know

218

00:10:28,030 --> 00:10:25,610

I'm the backseat my dad's in the front

219

00:10:31,960 --> 00:10:28,040

seat my stepbrothers in the passenger

220

00:10:35,230 --> 00:10:31,970

seat and he looks up out through the

221

00:10:37,300 --> 00:10:35,240

dashboard window and he says stop the

222

00:10:39,040 --> 00:10:37,310

car stop the car stop the car and my dad

223

00:10:40,960 --> 00:10:39,050

like hits the brake stops the car we

224

00:10:43,270 --> 00:10:40,970

jump out of the car he's like get out

225

00:10:44,710 --> 00:10:43,280

get out and we get out we're like what's

226

00:10:46,000 --> 00:10:44,720

going on you know I'm my heartbeats

227

00:10:48,160 --> 00:10:46,010

racing I'm like

228

00:10:50,650 --> 00:10:48,170

what's happening and he's like look look

229

00:10:52,870 --> 00:10:50,660

look we look at the sky and there's

230

00:10:55,720 --> 00:10:52,880

these three lights and they're in a

231

00:11:00,280 --> 00:10:55,730

triangle shape and they're just weaving

232

00:11:03,520 --> 00:11:00,290

back and forth across the sky and we're

233

00:11:06,490 --> 00:11:03,530

all just whoa and then all of a sudden

234

00:11:08,740 --> 00:11:06,500

they like speed up it spins a little

235

00:11:10,750 --> 00:11:08,750

faster goes down over by the horizon and

236

00:11:15,100 --> 00:11:10,760

then shoots across the sky like a

237

00:11:16,810 --> 00:11:15,110

shooting star gone and gone and we are

238

00:11:19,870 --> 00:11:16,820

all just looking at each other like did

239

00:11:22,150 --> 00:11:19,880

that just happen like did we just see

240

00:11:25,030 --> 00:11:22,160

that an epiphany

241

00:11:26,560 --> 00:11:25,040

that's an epiphany right yeah and that's

242

00:11:30,520 --> 00:11:26,570

one of those moments where you know and

243

00:11:35,740 --> 00:11:30,530

I'm you know it's like 9 or 10 at the

244

00:11:38,020 --> 00:11:35,750

time where you're just like how like

245

00:11:40,390 --> 00:11:38,030

what is that like come on

246

00:11:44,830 --> 00:11:40,400

like there's no aircraft that does that

247

00:11:49,420 --> 00:11:44,840

and by this age I I was already just

248

00:11:52,990 --> 00:11:49,430

extremely logical and investigative in

249

00:11:53,350 --> 00:11:53,000

all of my thinking I was real smart in

250

00:11:56,590 --> 00:11:53,360

school

251
00:11:59,650 --> 00:11:56,600
I generally aced everything I had above

252
00:12:02,020 --> 00:11:59,660
4.0 grade average I you know won

253
00:12:04,990 --> 00:12:02,030
trophies for being the top grade point

254
00:12:08,020 --> 00:12:05,000
average from K through fifth grade and I

255
00:12:10,600 --> 00:12:08,030
had problems with a lot of the answers

256
00:12:13,060 --> 00:12:10,610
that I got in school and at that point

257
00:12:15,550 --> 00:12:13,070
in time you know I started really

258
00:12:18,670 --> 00:12:15,560
wondering and questioning certain things

259
00:12:22,240 --> 00:12:18,680
about the way that we describe our

260
00:12:25,570 --> 00:12:22,250
history the way we describe our reality

261
00:12:28,390 --> 00:12:25,580
I had significant issues with questions

262
00:12:30,400 --> 00:12:28,400
like you know what is heat and and then

263
00:12:32,740 --> 00:12:30,410

the teacher like actually can't answer

264

00:12:35,350 --> 00:12:32,750

the question for me like what heat is oh

265

00:12:37,420 --> 00:12:35,360

it's vibrating molecules I was like well

266

00:12:39,700 --> 00:12:37,430

what are the vibrating molecules oh well

267

00:12:41,890 --> 00:12:39,710

they're protons and electrons and

268

00:12:48,040 --> 00:12:41,900

neutrons and okay what is that made of

269

00:12:51,550 --> 00:12:48,050

and then they're like right no I would

270

00:12:54,040 --> 00:12:51,560

run into dead ends with teachers all the

271

00:12:56,560 --> 00:12:54,050

time and and I was like you know there's

272

00:12:59,280 --> 00:12:56,570

some there's some real problems with our

273

00:13:01,740 --> 00:12:59,290

our thinking and the

274

00:13:03,800 --> 00:13:01,750

a lot of gaps that I'm finding

275

00:13:07,490 --> 00:13:03,810

throughout school and that only grew

276

00:13:11,550 --> 00:13:07,500

especially as I got into middle school I

277

00:13:13,620 --> 00:13:11,560

started feeling more and more that I had

278

00:13:15,480 --> 00:13:13,630

this kind of sinking feeling like my

279

00:13:18,269 --> 00:13:15,490

teachers were lying to me about stuff

280

00:13:20,129 --> 00:13:18,279

and and I'd hear some story about

281

00:13:22,259 --> 00:13:20,139

something that happened in history or

282

00:13:24,420 --> 00:13:22,269

you know hear the way that something was

283

00:13:28,379 --> 00:13:24,430

described in science and I would just be

284

00:13:31,379 --> 00:13:28,389

like that does not ring true for me like

285

00:13:34,259 --> 00:13:31,389

there's a problem here and it was the

286

00:13:39,420 --> 00:13:34,269

feeling of that problem and the real

287

00:13:43,379 --> 00:13:39,430

sense of like depression and anxiety and

288

00:13:45,749 --> 00:13:43,389

feeling like I'm being lied to and that

289

00:13:47,730 --> 00:13:45,759

there's something odd and wrong about

290

00:13:51,090 --> 00:13:47,740

this whole story of reality that I'm in

291

00:13:53,699 --> 00:13:51,100

that eventually led to this experience

292

00:13:57,499 --> 00:13:53,709

which you call my awakening teachers

293

00:14:00,300 --> 00:13:57,509

don't teachers don't and scientist right

294

00:14:02,730 --> 00:14:00,310

they they don't like it when they can't

295

00:14:04,920 --> 00:14:02,740

answer a question or when they know that

296

00:14:08,069 --> 00:14:04,930

they have yeah yeah or over they have to

297

00:14:10,290 --> 00:14:08,079

stick to dogma that they don't believe

298

00:14:14,009 --> 00:14:10,300

and suddenly you guys are in an

299

00:14:15,660 --> 00:14:14,019

adversarial position last night and I

300

00:14:17,790 --> 00:14:15,670

know about your interest in theoretical

301
00:14:18,780 --> 00:14:17,800
physics and we're gonna talk about some

302
00:14:21,059 --> 00:14:18,790
of that in just a bit

303
00:14:24,360 --> 00:14:21,069
last night I was listening to an old

304
00:14:25,590 --> 00:14:24,370
interview with Richard Fineman and here

305
00:14:29,069 --> 00:14:25,600
we have one of the great you know

306
00:14:31,439 --> 00:14:29,079
theoretical physicist of our generation

307
00:14:34,710 --> 00:14:31,449
and somebody that is so respected but

308
00:14:37,949 --> 00:14:34,720
this interviewer says define 'men he

309
00:14:40,019 --> 00:14:37,959
goes okay you know when you got to back

310
00:14:42,300 --> 00:14:40,029
Mnet's and you're trying to push him

311
00:14:45,269 --> 00:14:42,310
together and there's a force there and

312
00:14:49,069 --> 00:14:45,279
there's a force and and it's repelling

313
00:14:52,170 --> 00:14:49,079

what is that Fineman got pissed

314

00:14:54,059 --> 00:14:52,180

he's like why would you want me why

315

00:14:55,379 --> 00:14:54,069

would you ask you know you know why why

316

00:14:57,389 --> 00:14:55,389

do you even want to know the answer to

317

00:14:59,790 --> 00:14:57,399

that question you know why do you and he

318

00:15:02,550 --> 00:14:59,800

danced for 10 minutes

319

00:15:04,139 --> 00:15:02,560

yeah and never went back and answered

320

00:15:07,500 --> 00:15:04,149

the question because he doesn't know

321

00:15:09,750 --> 00:15:07,510

because nobody knows the answer to that

322

00:15:12,120 --> 00:15:09,760

question although when we get into

323

00:15:12,990 --> 00:15:12,130

theoretical physics I'm gonna speak

324

00:15:14,670 --> 00:15:13,000

about something

325

00:15:16,590 --> 00:15:14,680

that will actually explain the answer to

326

00:15:18,750 --> 00:15:16,600

that question much more fully and richly

327

00:15:21,180 --> 00:15:18,760

than Fineman did even though I believe

328

00:15:24,960 --> 00:15:21,190

you know Fineman is absolutely brilliant

329

00:15:28,500 --> 00:15:24,970

made a lot of great breakthroughs but

330

00:15:31,950 --> 00:15:28,510

physics itself has been missing huge

331

00:15:35,130 --> 00:15:31,960

chunks of reality and part of that is

332

00:15:37,470 --> 00:15:35,140

you know a result of the way that we

333

00:15:39,720 --> 00:15:37,480

have studied reality and the way we've

334

00:15:41,970 --> 00:15:39,730

constrained our capacity for

335

00:15:44,370 --> 00:15:41,980

understanding through developing

336

00:15:48,360 --> 00:15:44,380

specific models like the scientific

337

00:15:50,490 --> 00:15:48,370

method etc mhm and we try to remove the

338

00:15:53,370 --> 00:15:50,500

subjective observer as much as possible

339

00:15:55,470 --> 00:15:53,380

but of course you can't remove the

340

00:15:57,830 --> 00:15:55,480

subjective observer when everybody is a

341

00:15:59,280 --> 00:15:57,840

subjective observer and we're all just

342

00:16:00,210 --> 00:15:59,290

cross-referencing with our own

343

00:16:03,870 --> 00:16:00,220

subjectivity

344

00:16:06,510 --> 00:16:03,880

so there's innate problems to logic in

345

00:16:08,280 --> 00:16:06,520

the scientific method itself and then

346

00:16:11,100 --> 00:16:08,290

these problems of course become part of

347

00:16:14,130 --> 00:16:11,110

physics as science tries to break away

348

00:16:15,780 --> 00:16:14,140

from religion and you know that there's

349

00:16:18,060 --> 00:16:15,790

a whole long story we could get into

350

00:16:21,200 --> 00:16:18,070

around that if you want to go yeah we

351
00:16:25,050 --> 00:16:21,210
and we can go there and the reason why

352
00:16:26,850 --> 00:16:25,060
for certainly with me and I think a lot

353
00:16:30,060 --> 00:16:26,860
out a lot of people out there that have

354
00:16:32,370 --> 00:16:30,070
the time to invest into research into

355
00:16:34,650 --> 00:16:32,380
the UFO question and what is going on

356
00:16:38,670 --> 00:16:34,660
out there and seeking answers you will

357
00:16:41,070 --> 00:16:38,680
eventually align yourself with physics

358
00:16:44,790 --> 00:16:41,080
theoretical physics the quantum

359
00:16:47,310 --> 00:16:44,800
mechanical side of things and that part

360
00:16:51,750 --> 00:16:47,320
of science the theoretical physicist out

361
00:16:54,750 --> 00:16:51,760
there and that that are into astronomy

362
00:16:57,600 --> 00:16:54,760
and the and the cosmology side of things

363
00:17:00,750 --> 00:16:57,610

down to the quantum level understand

364

00:17:04,110 --> 00:17:00,760

that the numbers and the math and the

365

00:17:06,240 --> 00:17:04,120

equations clearly state a lot of

366

00:17:10,350 --> 00:17:06,250

fantastical things that point in the

367

00:17:12,600 --> 00:17:10,360

direction of the planets and intelligent

368

00:17:16,800 --> 00:17:12,610

life and we're not alone and in the

369

00:17:19,590 --> 00:17:16,810

theories of multiverses and that that

370

00:17:21,750 --> 00:17:19,600

that that research will take you and

371

00:17:24,929 --> 00:17:21,760

they are right there with us and we are

372

00:17:25,829 --> 00:17:24,939

getting close because of the research

373

00:17:28,680 --> 00:17:25,839

that is going

374

00:17:30,840 --> 00:17:28,690

to prove these things that have been

375

00:17:34,080 --> 00:17:30,850

unprovable in the past and we are right

376

00:17:36,239 --> 00:17:34,090

there that's theoretical physics and and

377

00:17:39,060 --> 00:17:36,249

getting into that is a very important

378

00:17:41,039 --> 00:17:39,070

part of our community here and it's

379

00:17:43,980 --> 00:17:41,049

starting to blend don't you think

380

00:17:47,039 --> 00:17:43,990

they're starting to overlap well because

381

00:17:49,440 --> 00:17:47,049

we're starting to uncover a deeper

382

00:17:51,060 --> 00:17:49,450

underlying truth we've realized we've

383

00:17:53,190 --> 00:17:51,070

had a lot of theories and a lot of

384

00:17:55,680 --> 00:17:53,200

beliefs but we're starting to see a

385

00:17:57,299 --> 00:17:55,690

deeper underlying truth and once you

386

00:17:59,399 --> 00:17:57,309

begin to get the underlying framework

387

00:18:02,190 --> 00:17:59,409

everything starts to make sense I mean

388

00:18:04,919 --> 00:18:02,200

when we zoom back into my life story and

389

00:18:07,680 --> 00:18:04,929

we look at me as a little kid going into

390

00:18:10,619 --> 00:18:07,690

high school I got fascinated with the

391

00:18:12,389 --> 00:18:10,629

Drake Equation which for most of your

392

00:18:15,109 --> 00:18:12,399

listeners probably are aware of it but

393

00:18:17,820 --> 00:18:15,119

it's basically an equation to estimate

394

00:18:19,289 --> 00:18:17,830

what the likelihood is of there being

395

00:18:21,419 --> 00:18:19,299

other intelligent life out in the

396

00:18:23,009 --> 00:18:21,429

universe now at the time when I did the

397

00:18:26,340 --> 00:18:23,019

Drake Equation there's a couple parts

398

00:18:30,859 --> 00:18:26,350

that you plug in one of them is you know

399

00:18:34,830 --> 00:18:30,869

what is the percentage of stars around

400

00:18:37,889 --> 00:18:34,840

that have planets that have the capacity

401
00:18:40,470 --> 00:18:37,899
to support life now at the time that I

402
00:18:43,169 --> 00:18:40,480
was in high school the number of planets

403
00:18:44,850 --> 00:18:43,179
with the capacity to support life the

404
00:18:47,789 --> 00:18:44,860
stars the percentage of stars that would

405
00:18:50,340 --> 00:18:47,799
have those planets was extremely low my

406
00:18:53,249 --> 00:18:50,350
she thought it was like zero number of

407
00:18:56,369 --> 00:18:53,259
stars that have planets is gonna be

408
00:18:59,220 --> 00:18:56,379
maybe 1% and we thought that the number

409
00:19:01,739 --> 00:18:59,230
of stars that have planets that also

410
00:19:05,220 --> 00:19:01,749
have planets in the Goldilocks zone is

411
00:19:07,830 --> 00:19:05,230
you know point zero zero zero something

412
00:19:10,769 --> 00:19:07,840
percent and when you plug in those

413
00:19:15,629 --> 00:19:10,779

numbers to the Drake Equation you still

414

00:19:17,430 --> 00:19:15,639

get the potential of thousands of you

415

00:19:21,119 --> 00:19:17,440

know literally millions of planets with

416

00:19:23,129 --> 00:19:21,129

life and thousands of planets you know

417

00:19:24,869 --> 00:19:23,139

that could have intelligent life when

418

00:19:29,190 --> 00:19:24,879

you're looking at the scale of the

419

00:19:31,200 --> 00:19:29,200

entire universe now when we win nowadays

420

00:19:33,749 --> 00:19:31,210

when you look at the Drake Equation and

421

00:19:37,440 --> 00:19:33,759

you now apply current numbers we now

422

00:19:39,539 --> 00:19:37,450

know that literally 99% of stars have

423

00:19:40,289 --> 00:19:39,549

planetary systems so when we believe

424

00:19:42,479 --> 00:19:40,299

that over

425

00:19:44,849 --> 00:19:42,489

half of those stars with planetary

426

00:19:47,039 --> 00:19:44,859

systems have planets that have the

427

00:19:50,609 --> 00:19:47,049

capacity to support life which means

428

00:19:52,619 --> 00:19:50,619

that over half the stars in just the two

429

00:19:55,769 --> 00:19:52,629

hundred billion stars in our galaxy

430

00:19:57,810 --> 00:19:55,779

alone could have planets with the

431

00:20:00,869 --> 00:19:57,820

capacity to support life you know that's

432

00:20:02,789 --> 00:20:00,879

a hundred billion planets potentially

433

00:20:06,269 --> 00:20:02,799

with life out there just in our galaxy

434

00:20:08,249 --> 00:20:06,279

and you know you add the piece of the

435

00:20:11,310 --> 00:20:08,259

equation where you know in a pinhead

436

00:20:13,579 --> 00:20:11,320

point on the sky we see thousands and

437

00:20:15,899 --> 00:20:13,589

thousands of galaxies and the universe

438

00:20:19,169 --> 00:20:15,909

starts to look like a pretty busy place

439

00:20:21,419 --> 00:20:19,179

actually well populated with many kinds

440

00:20:23,789 --> 00:20:21,429

of intelligences and that's just looking

441

00:20:27,539 --> 00:20:23,799

at it from the most basic scientific

442

00:20:31,799 --> 00:20:27,549

baseline perspective yeah back when we

443

00:20:35,129 --> 00:20:31,809

did the panel when you were on the panel

444

00:20:37,199 --> 00:20:35,139

with me and Sunday night I said just

445

00:20:39,119 --> 00:20:37,209

that to the audience if you remember I

446

00:20:41,069 --> 00:20:39,129

you know I took out the dime and I said

447

00:20:43,379 --> 00:20:41,079

if you hold up a dime in any black spot

448

00:20:45,869 --> 00:20:43,389

you know up in the night sky you're

449

00:20:49,560 --> 00:20:45,879

looking at a hundred and fifty thousand

450

00:20:51,539 --> 00:20:49,570

galaxies anywhere at any point a hundred

451

00:20:52,979 --> 00:20:51,549

fifty thousand galaxies any point on

452

00:20:55,709 --> 00:20:52,989

planet Earth and each one of those

453

00:20:58,049 --> 00:20:55,719

galaxies got a half a billion stars and

454

00:21:03,359 --> 00:20:58,059

and there's a half a billion planet and

455

00:21:05,819 --> 00:21:03,369

and mmit concept minimal minimal minimal

456

00:21:09,149 --> 00:21:05,829

and that concept wasn't even considered

457

00:21:12,239 --> 00:21:09,159

ten years ago that's right and they we

458

00:21:15,479 --> 00:21:12,249

are in a different time in place today

459

00:21:18,659 --> 00:21:15,489

going back to scientists and cosmology

460

00:21:22,739 --> 00:21:18,669

and astrophysicist they understand this

461

00:21:24,629 --> 00:21:22,749

now and if I had my choice Adam I'm

462

00:21:27,539 --> 00:21:24,639

serious too if I had my choice I'd want

463

00:21:32,339 --> 00:21:27,549

to be I'd want to be an astronomer today

464

00:21:34,560 --> 00:21:32,349

what a great gig right yeah well you

465

00:21:38,999 --> 00:21:34,570

know it's been a great gig forever I

466

00:21:41,489 --> 00:21:39,009

mean the opportunity and the the way of

467

00:21:45,629 --> 00:21:41,499

looking at our place in the universe is

468

00:21:47,909 --> 00:21:45,639

something that can bring such a deep

469

00:21:50,849 --> 00:21:47,919

level of inspiration to all of us and I

470

00:21:53,270 --> 00:21:50,859

think to be frank about it most people

471

00:21:55,480 --> 00:21:53,280

spend way too little time

472

00:21:58,250 --> 00:21:55,490

actually just looking at the sky and

473

00:22:00,710 --> 00:21:58,260

looking at the stars I know people that

474

00:22:02,690 --> 00:22:00,720

have never seen a shooting star and I'm

475

00:22:05,570 --> 00:22:02,700

like are you kidding me it's impossible

476

00:22:08,260 --> 00:22:05,580

just literally stand here and look at

477

00:22:11,420 --> 00:22:08,270

the sky for longer than a few minutes

478

00:22:15,080 --> 00:22:11,430

and you will see one you know like it's

479

00:22:17,120 --> 00:22:15,090

it's that simple but it's amazing peace

480

00:22:19,220 --> 00:22:17,130

people just you know the glance at the

481

00:22:21,830 --> 00:22:19,230

sky oh yeah the stars you know oh yeah

482

00:22:24,440 --> 00:22:21,840

there's clouds oh there's the moon you

483

00:22:28,070 --> 00:22:24,450

know and we instantly label we instantly

484

00:22:29,630 --> 00:22:28,080

just write it off but what happens when

485

00:22:32,930 --> 00:22:29,640

you start really paying attention to the

486

00:22:34,970 --> 00:22:32,940

space between stars well now you start

487

00:22:37,010 --> 00:22:34,980

really observing what's going on out

488

00:22:38,660 --> 00:22:37,020

there what happened at 15

489

00:22:41,480 --> 00:22:38,670

what was your awakening what was that

490

00:22:43,880 --> 00:22:41,490

epiphany you know I had a really good

491

00:22:45,500 --> 00:22:43,890

friend and he and I used to talk about

492

00:22:48,950 --> 00:22:45,510

some of these big questions that

493

00:22:51,080 --> 00:22:48,960

couldn't get answered in school like how

494

00:22:52,880 --> 00:22:51,090

is it that you can feel it when

495

00:22:56,300 --> 00:22:52,890

somebody's looking at you from across

496

00:22:58,190 --> 00:22:56,310

the room how is it possible how is it

497

00:23:00,740 --> 00:22:58,200

possible that you could think about

498

00:23:02,690 --> 00:23:00,750

somebody and then they call you on the

499

00:23:05,330 --> 00:23:02,700

phone now keep in mind this was you know

500

00:23:07,550 --> 00:23:05,340

their 90's and all you had was landlines

501
00:23:09,620 --> 00:23:07,560
right no we didn't even have cell phones

502
00:23:11,390 --> 00:23:09,630
walking around in our pockets but you

503
00:23:13,910 --> 00:23:11,400
think of somebody and they'd call on the

504
00:23:16,400 --> 00:23:13,920
phone sometimes how does that happen

505
00:23:17,210 --> 00:23:16,410
what's the functional physics of these

506
00:23:19,640 --> 00:23:17,220
kinds of things

507
00:23:21,800 --> 00:23:19,650
why do people's ears burn when

508
00:23:23,960 --> 00:23:21,810
somebody's talking about them these were

509
00:23:25,760 --> 00:23:23,970
questions that I deeply wanted the

510
00:23:28,580 --> 00:23:25,770
answer to and that there was no

511
00:23:31,340 --> 00:23:28,590
framework for in the physics and that no

512
00:23:33,620 --> 00:23:31,350
teacher could answer and I started

513
00:23:36,350 --> 00:23:33,630

experimenting with my friend and playing

514

00:23:38,240 --> 00:23:36,360

with a variety of different logical

515

00:23:42,080 --> 00:23:38,250

experiments and physiological

516

00:23:44,690 --> 00:23:42,090

experiments and they led us to you know

517

00:23:47,630 --> 00:23:44,700

a couple basic practices and one of them

518

00:23:49,340 --> 00:23:47,640

I was sticking my fingers together just

519

00:23:52,150 --> 00:23:49,350

pushing the fingertips together very

520

00:23:54,500 --> 00:23:52,160

lightly and then very slowly I started

521

00:23:57,320 --> 00:23:54,510

separating the space between my

522

00:23:59,390 --> 00:23:57,330

fingertips and I was just looking at the

523

00:24:01,340 --> 00:23:59,400

space between my fingertips and I wanted

524

00:24:05,300 --> 00:24:01,350

to see if I had some interaction with my

525

00:24:06,260 --> 00:24:05,310

eyes to my fingers to this space that I

526
00:24:11,120 --> 00:24:06,270
was created

527
00:24:13,880 --> 00:24:11,130
and suddenly I felt something and I saw

528
00:24:17,960 --> 00:24:13,890
something you can see it yes and it was

529
00:24:20,120 --> 00:24:17,970
a vibrational fluid like smoky field

530
00:24:21,710 --> 00:24:20,130
between my fingertips and then any of

531
00:24:23,570 --> 00:24:21,720
your listeners can do this at home you

532
00:24:26,030 --> 00:24:23,580
just put your fingertips together you

533
00:24:29,990 --> 00:24:26,040
very slowly bring them apart you watch

534
00:24:32,270 --> 00:24:30,000
that space and I also saw these little

535
00:24:34,370 --> 00:24:32,280
light flickers and I could feel on my

536
00:24:37,070 --> 00:24:34,380
fingertips especially if I bounced my

537
00:24:41,090 --> 00:24:37,080
fingers in and out this little tingle

538
00:24:44,510 --> 00:24:41,100

like a subtle vibration and something

539

00:24:48,680 --> 00:24:44,520

inside my head just popped I was like oh

540

00:24:51,350 --> 00:24:48,690

my god and for a moment I thought oh my

541

00:24:55,850 --> 00:24:51,360

god this is the force I found the force

542

00:24:57,530 --> 00:24:55,860

like the force is real it was an epic

543

00:25:00,280 --> 00:24:57,540

moment for a 15 year old kid let me tell

544

00:25:03,950 --> 00:25:00,290

you yeah let me ask you how old are you

545

00:25:09,140 --> 00:25:03,960

right now I'm 37 you're 37 I'm gonna be

546

00:25:12,710 --> 00:25:09,150

56 but I was around the same age I was

547

00:25:15,980 --> 00:25:12,720

like 15 when somebody one of my

548

00:25:19,040 --> 00:25:15,990

tripped-out older friends showed me that

549

00:25:21,680 --> 00:25:19,050

the energy between your fingertips right

550

00:25:25,000 --> 00:25:21,690

misses and this is little you know the

551
00:25:28,340 --> 00:25:25,010
late 70s and that that was a

552
00:25:30,740 --> 00:25:28,350
mind-blowing moment for me I mean I

553
00:25:32,720 --> 00:25:30,750
would practice it and and I got it down

554
00:25:34,070 --> 00:25:32,730
pretty good I got it to change colors

555
00:25:38,480 --> 00:25:34,080
too sometimes it would be green

556
00:25:42,620 --> 00:25:38,490
sometimes it would be white sometimes

557
00:25:46,130 --> 00:25:42,630
yellow and blue I got I got a lot of

558
00:25:49,010 --> 00:25:46,140
blue anyway moving on okay I started to

559
00:25:52,490 --> 00:25:49,020
investigate this right nomina as a

560
00:25:56,060 --> 00:25:52,500
scientist and also as a martial artist

561
00:25:58,070 --> 00:25:56,070
and so I started testing could I could

562
00:25:59,810 --> 00:25:58,080
my friend put something somewhere on the

563
00:26:01,640 --> 00:25:59,820

other side of the room and hide it and I

564

00:26:03,680 --> 00:26:01,650

not see where he's putting it or know

565

00:26:05,720 --> 00:26:03,690

where it is and could I detect the

566

00:26:07,190 --> 00:26:05,730

feeling of that object with my fingers

567

00:26:10,340 --> 00:26:07,200

and locate it

568

00:26:12,799 --> 00:26:10,350

so I started dowsing with my body my

569

00:26:15,770 --> 00:26:12,809

friend we also practiced martial arts

570

00:26:18,870 --> 00:26:15,780

and sparring and push hands together so

571

00:26:20,580 --> 00:26:18,880

we started doing that blindfolded and we

572

00:26:23,400 --> 00:26:20,590

started playing with how fast could we

573

00:26:26,160 --> 00:26:23,410

go and and could you go faster if I

574

00:26:28,500 --> 00:26:26,170

would just feel using that little sense

575

00:26:31,410 --> 00:26:28,510

of the tingle where his hand was gonna

576
00:26:33,750 --> 00:26:31,420
be and it was mind-blowing because we

577
00:26:35,850 --> 00:26:33,760
started literally having these massive

578
00:26:37,950 --> 00:26:35,860
breakthroughs and I started playing with

579
00:26:39,960 --> 00:26:37,960
the charge in the field I started

580
00:26:42,450 --> 00:26:39,970
filling my whole hands with it showing

581
00:26:44,400 --> 00:26:42,460
other friends in high school and they're

582
00:26:46,500 --> 00:26:44,410
just like oh my god like what what is

583
00:26:48,870 --> 00:26:46,510
this that you're doing what is that I

584
00:26:52,140 --> 00:26:48,880
don't like I don't know it's energy it's

585
00:26:53,970 --> 00:26:52,150
it's part of life force and I started

586
00:26:55,500 --> 00:26:53,980
realizing that it could be tuned to

587
00:26:58,530 --> 00:26:55,510
different frequencies just like you

588
00:27:00,270 --> 00:26:58,540

described and and really shaped to

589

00:27:04,110 --> 00:27:00,280

different elements like fire air earth

590

00:27:06,210 --> 00:27:04,120

and water and that a person feeling the

591

00:27:09,210 --> 00:27:06,220

ball in my hands that is you know

592

00:27:11,220 --> 00:27:09,220

invisible and seemingly intangible could

593

00:27:13,920 --> 00:27:11,230

literally detect if it felt like fire

594

00:27:16,080 --> 00:27:13,930

versus if it felt like water and I still

595

00:27:18,330 --> 00:27:16,090

do this practice I teach this to people

596

00:27:19,800 --> 00:27:18,340

and I have them create these little

597

00:27:21,420 --> 00:27:19,810

balls in their hands and pass them to

598

00:27:24,990 --> 00:27:21,430

each other I did it at contact in the

599

00:27:27,720 --> 00:27:25,000

desert and the look on their faces when

600

00:27:30,390 --> 00:27:27,730

they receive the thing into their hands

601
00:27:32,190 --> 00:27:30,400
and they realize that it actually feels

602
00:27:34,110 --> 00:27:32,200
like an element and they can tell the

603
00:27:37,020 --> 00:27:34,120
other person which element it is is

604
00:27:40,290 --> 00:27:37,030
priceless man it's one of the greatest

605
00:27:43,740 --> 00:27:40,300
things seeing people go this is so real

606
00:27:46,260 --> 00:27:43,750
and you know for me I began

607
00:27:48,630 --> 00:27:46,270
investigating like what is this online

608
00:27:51,030 --> 00:27:48,640
and the Internet was you know just

609
00:27:53,940 --> 00:27:51,040
budding I'd come across sites on

610
00:27:58,380 --> 00:27:53,950
everything from geo cities to AOL to

611
00:28:01,020 --> 00:27:58,390
whatever and I began to discover that

612
00:28:04,110 --> 00:28:01,030
there were descriptions for the very

613
00:28:06,290 --> 00:28:04,120

things that I was exploring in all of

614

00:28:08,970 --> 00:28:06,300

these different traditions from

615

00:28:11,430 --> 00:28:08,980

initially looking at elementals I

616

00:28:13,530 --> 00:28:11,440

discovered Wicca and the druid

617

00:28:15,540 --> 00:28:13,540

traditions and they talked about using

618

00:28:17,730 --> 00:28:15,550

this energy of the elements to

619

00:28:19,590 --> 00:28:17,740

communicate with nature and then

620

00:28:21,120 --> 00:28:19,600

discovered that what I was doing in

621

00:28:23,880 --> 00:28:21,130

martial arts was actually something

622

00:28:26,430 --> 00:28:23,890

called Tai Chi and Qi Gong and that

623

00:28:28,590 --> 00:28:26,440

Taoist alchemists have been practicing

624

00:28:31,750 --> 00:28:28,600

this kinds of stuff for 5000 years and

625

00:28:33,850 --> 00:28:31,760

then in India it turns out

626

00:28:36,310 --> 00:28:33,860

is distinct or Branagh and the prana

627

00:28:38,380 --> 00:28:36,320

moves to the body and the body has these

628

00:28:40,570 --> 00:28:38,390

different chakras and you know

629

00:28:43,210 --> 00:28:40,580

everything gets tuned and I start

630

00:28:45,160 --> 00:28:43,220

discovering and exploring all of these

631

00:28:47,130 --> 00:28:45,170

different traditions all around the

632

00:28:50,920 --> 00:28:47,140

world who are all describing this thing

633

00:28:53,620 --> 00:28:50,930

that's completely missing from our

634

00:28:56,320 --> 00:28:53,630

mainstream view of reality completely

635

00:28:59,050 --> 00:28:56,330

missing from school completely missing

636

00:29:00,760 --> 00:28:59,060

from everything and why is it because

637

00:29:03,280 --> 00:29:00,770

they're connect these things are

638

00:29:04,840 --> 00:29:03,290

connected to spiritual traditions is it

639

00:29:07,150 --> 00:29:04,850

because these things are considered

640

00:29:09,070 --> 00:29:07,160

esoteric I wanted to know what the Frick

641

00:29:12,340 --> 00:29:09,080

is going on right and why isn't this in

642

00:29:16,630 --> 00:29:15,130

and that's where I'm going next we need

643

00:29:18,430 --> 00:29:16,640

to take our break right here this is

644

00:29:20,680 --> 00:29:18,440

fade to black I am your host immature so

653

00:30:01,290 --> 00:29:41,530

the short break stay with us

654

00:30:04,000 --> 00:30:01,300

[Music]

655

00:30:05,500 --> 00:30:04,010

welcome back fade to black I'm Errol

656

00:30:08,560 --> 00:30:05,510

should be Church tonight our guest is

657

00:30:11,320 --> 00:30:08,570

Adam Apollo tomorrow night actor

658

00:30:13,150 --> 00:30:11,330

comedian researcher Rhys Darby is here

659

00:30:15,790 --> 00:30:13,160

Thursday night is another fader night

660

00:30:19,960 --> 00:30:15,800

open lines all night long our guest

661

00:30:28,090 --> 00:30:19,970

tonight Adam Apollo now Apollo I just

662

00:30:30,370 --> 00:30:28,100

called you Apollo I actually I'm a

663

00:30:36,340 --> 00:30:30,380

watching Twitter here during the break

664

00:30:40,840 --> 00:30:36,350

and our audience has gone through seven

665

00:30:42,670 --> 00:30:40,850

years of shows right 1100 shows plus

666

00:30:45,190 --> 00:30:42,680

coast to coast and everything else that

667

00:30:46,360 --> 00:30:45,200

I do out there this is the first time

668

00:30:50,110 --> 00:30:46,370

that they've heard of you and I'm

669

00:30:56,020 --> 00:30:50,120

watching right Adam who what who is this

670

00:30:59,200 --> 00:30:56,030

tonight and so your your community and

671

00:31:02,290 --> 00:30:59,210

what you have built is is quite large

672

00:31:05,470 --> 00:31:02,300

you've got all these students 35,000

673

00:31:09,250 --> 00:31:05,480

right has about 40,000 for the Academy

674

00:31:13,570 --> 00:31:09,260

right right and a huge infrastructure

675

00:31:16,870 --> 00:31:13,580

built but all of that has been outside

676
00:31:21,040 --> 00:31:16,880
of the normal track of the UFO community

677
00:31:22,830 --> 00:31:21,050
hasn't it yeah my my work even though

678
00:31:26,620 --> 00:31:22,840
I've had a lot of deep and powerful

679
00:31:30,280 --> 00:31:26,630
experiences in this space and really

680
00:31:33,550 --> 00:31:30,290
that took off around 2005 or so my work

681
00:31:36,130 --> 00:31:33,560
has been so deeply in the mainstream

682
00:31:38,380 --> 00:31:36,140
field I've been a speaker at the White

683
00:31:40,090 --> 00:31:38,390
House and the United Nations I have

684
00:31:43,110 --> 00:31:40,100
spoke at a lot of conferences and

685
00:31:46,540 --> 00:31:43,120
festivals around the world and generally

686
00:31:48,880 --> 00:31:46,550
the invitation to have me come and speak

687
00:31:51,100 --> 00:31:48,890
and present has to do with my work in

688
00:31:54,730 --> 00:31:51,110

education and in physics and in the

689

00:31:57,910 --> 00:31:54,740

future of human technology and I've you

690

00:32:00,550 --> 00:31:57,920

know delicately broached the topic in

691

00:32:04,930 --> 00:32:00,560

many cases including at the United

692

00:32:07,420 --> 00:32:04,940

Nations and elsewhere what does it look

693

00:32:10,140 --> 00:32:07,430

like if we're not alone how do we

694

00:32:13,240 --> 00:32:10,150

approach becoming a planetary level

695

00:32:15,700 --> 00:32:13,250

civilization that's at peace with itself

696

00:32:19,180 --> 00:32:15,710

how do we bridge exit politically with

697

00:32:21,610 --> 00:32:19,190

other species but that that part of my

698

00:32:25,630 --> 00:32:21,620

work has been more low-key for a long

699

00:32:28,030 --> 00:32:25,640

time and I have I have had certainly a

700

00:32:32,140 --> 00:32:28,040

lot of followers and people that know of

701
00:32:34,090 --> 00:32:32,150
that part of my work but you know as you

702
00:32:37,990 --> 00:32:34,100
know Jimmy out there in the mainstream

703
00:32:40,780 --> 00:32:38,000
and in the fields of you know education

704
00:32:43,300 --> 00:32:40,790
and physics and stuff like that it's a

705
00:32:45,820 --> 00:32:43,310
delicate world and all it takes is

706
00:32:47,860 --> 00:32:45,830
losing a sense of context of where

707
00:32:50,650 --> 00:32:47,870
someone's coming from and all of a

708
00:32:54,010 --> 00:32:50,660
sudden you get thrown in the conspiracy

709
00:32:57,640 --> 00:32:54,020
theorist UFO box you know and locked

710
00:33:01,570 --> 00:32:57,650
away and this this sort of projection of

711
00:33:03,340 --> 00:33:01,580
no return and so at this point in time

712
00:33:06,360 --> 00:33:03,350
I'm really trying to build a bridge

713
00:33:08,590 --> 00:33:06,370

between these communities and

714

00:33:10,420 --> 00:33:08,600

interestingly enough a lot of my

715

00:33:12,250 --> 00:33:10,430

students across a lot of my academies

716

00:33:14,620 --> 00:33:12,260

they get it they know what's really

717

00:33:16,810 --> 00:33:14,630

going on because when you go deep enough

718

00:33:19,630 --> 00:33:16,820

in the study of physics and you look at

719

00:33:22,660 --> 00:33:19,640

ancient sites or you go deep enough into

720

00:33:27,340 --> 00:33:22,670

self development studies or into the

721

00:33:29,410 --> 00:33:27,350

arts you of course find the keys and the

722

00:33:32,020 --> 00:33:29,420

insights that will bring you to a

723

00:33:34,450 --> 00:33:32,030

greater understanding of our our role in

724

00:33:37,120 --> 00:33:34,460

the universe our potential connection

725

00:33:39,910 --> 00:33:37,130

with other beings out there and these

726
00:33:43,690 --> 00:33:39,920
kinds of things become more normal and

727
00:33:47,470 --> 00:33:43,700
more acceptable and an interesting to

728
00:33:49,750 --> 00:33:47,480
investigate but you know walk into any

729
00:33:52,690 --> 00:33:49,760
university and do a presentation on

730
00:34:02,590 --> 00:33:52,700
physics and then end it with your talk

731
00:34:06,270 --> 00:34:02,600
about you know today today it's it is it

732
00:34:09,070 --> 00:34:06,280
is a bit different it is fully

733
00:34:10,899 --> 00:34:09,080
mainstream media compatible I'm talking

734
00:34:13,480 --> 00:34:10,909
about the the subjective view of foes

735
00:34:15,669 --> 00:34:13,490
where we've got it discussed now at the

736
00:34:21,430 --> 00:34:15,679
White House and and with the Senate and

737
00:34:24,129 --> 00:34:21,440
the Navy where it is not an embarrassing

738
00:34:27,050 --> 00:34:24,139

thing to bring up and they are helping

739

00:34:29,660 --> 00:34:27,060

you know people like you and myself were

740

00:34:34,240 --> 00:34:29,670

can freely go into this conversation now

741

00:34:37,970 --> 00:34:34,250

and and not have the woowoo tinfoil hat

742

00:34:40,370 --> 00:34:37,980

side of it tied to the subject it's not

743

00:34:43,250 --> 00:34:40,380

that kind of party anymore is it no it's

744

00:34:45,500 --> 00:34:43,260

not and actually generally people that

745

00:34:47,780 --> 00:34:45,510

have resisted this conversation are

746

00:34:50,600 --> 00:34:47,790

really the ones that have been wearing

747

00:34:53,000 --> 00:34:50,610

the tinfoil hats so to speak and that's

748

00:34:54,560 --> 00:34:53,010

that's not to say that every Chandler

749

00:34:57,320 --> 00:34:54,570

and every transmission about

750

00:34:59,900 --> 00:34:57,330

extraterrestrial information is truthful

751

00:35:01,730 --> 00:34:59,910

or honest and if you really pay

752

00:35:04,400 --> 00:35:01,740

attention to the disclosure movement as

753

00:35:08,240 --> 00:35:04,410

I have since I met Steven Greer back in

754

00:35:10,490 --> 00:35:08,250

2001 you recognize that there's been a

755

00:35:12,740 --> 00:35:10,500

huge amount of disinformation put out

756

00:35:14,570 --> 00:35:12,750

there and there's also been a lot of

757

00:35:17,180 --> 00:35:14,580

people that have done their best to

758

00:35:21,320 --> 00:35:17,190

share their experiences but perhaps not

759

00:35:23,510 --> 00:35:21,330

have the scientific logical context or a

760

00:35:27,200 --> 00:35:23,520

way to communicate it in a way that

761

00:35:29,960 --> 00:35:27,210

people could really approach it and and

762

00:35:32,630 --> 00:35:29,970

feel you know safe approaching it and

763

00:35:35,600 --> 00:35:32,640

and actually deal with these kinds of

764

00:35:37,370 --> 00:35:35,610

issues in a logical manner so you know

765

00:35:39,200 --> 00:35:37,380

that's that's just part of any

766

00:35:40,940 --> 00:35:39,210

revolution and we've seen that

767

00:35:43,190 --> 00:35:40,950

throughout history and great thinkers

768

00:35:44,750 --> 00:35:43,200

bringing forth new ideas big

769

00:35:47,120 --> 00:35:44,760

breakthroughs and nobody wants to

770

00:35:48,890 --> 00:35:47,130

believe it's real until finally

771

00:35:52,070 --> 00:35:48,900

everybody realizes oh yeah of course

772

00:35:54,820 --> 00:35:52,080

those make sense well and you also you

773

00:35:58,850 --> 00:35:54,830

have a way of presenting and speaking

774

00:36:03,380 --> 00:35:58,860

which is it's got a fundamental core to

775

00:36:04,910 --> 00:36:03,390

it and watching what happened at contact

776
00:36:07,010 --> 00:36:04,920
in the desert you know I'm the observer

777
00:36:09,680 --> 00:36:07,020
I'm just the host of the panel right I'm

778
00:36:13,040 --> 00:36:09,690
just along for the ride and we were

779
00:36:15,410 --> 00:36:13,050
speaking about spirituality and you were

780
00:36:21,590 --> 00:36:15,420
speaking about spirituality it was great

781
00:36:26,090 --> 00:36:21,600
and then you went from that to talking

782
00:36:28,220 --> 00:36:26,100
directly about your extraterrestrial

783
00:36:31,610 --> 00:36:28,230
contact in your experiences and your

784
00:36:35,150 --> 00:36:31,620
knowledge the I could feel the tension

785
00:36:38,030 --> 00:36:35,160
in the room where you went from one

786
00:36:40,320 --> 00:36:38,040
direction to the other very smoothly but

787
00:36:45,210 --> 00:36:40,330
you're speaking in a very pragmatic

788
00:36:48,720 --> 00:36:45,220

way and I felt that the contact in the

789

00:36:50,100 --> 00:36:48,730

desert crowd was very receptive to you

790

00:36:52,740 --> 00:36:50,110

and they had never heard you speak

791

00:36:54,870 --> 00:36:52,750

before and and this community that's a

792

00:36:57,990 --> 00:36:54,880

hard that you know that's a hard line to

793

00:36:59,760 --> 00:36:58,000

cross but I felt that you were very

794

00:37:01,020 --> 00:36:59,770

successful in that what did you think

795

00:37:03,270 --> 00:37:01,030

about your reception

796

00:37:06,720 --> 00:37:03,280

how did added contact for the first time

797

00:37:10,200 --> 00:37:06,730

I was really pleased to be there

798

00:37:11,880 --> 00:37:10,210

my main keynote talk I almost packed the

799

00:37:14,310 --> 00:37:11,890

whole hall and it's that it was the

800

00:37:16,110 --> 00:37:14,320

other giant hall down at the other side

801
00:37:20,130 --> 00:37:16,120
from where we did the panel the the

802
00:37:22,530 --> 00:37:20,140
second base room and I had an amazing

803
00:37:26,460 --> 00:37:22,540
standing ovation at the end of my talk I

804
00:37:28,680 --> 00:37:26,470
finally actually have all of the the

805
00:37:31,830 --> 00:37:28,690
edits of that talk it's like a seven

806
00:37:34,980 --> 00:37:31,840
camera shoot that was done for me by a

807
00:37:36,870 --> 00:37:34,990
wonderful videographer named Reuben

808
00:37:39,630 --> 00:37:36,880
Langdon who has the number one show on

809
00:37:43,050 --> 00:37:39,640
gaya right now it's called interviews

810
00:37:46,110 --> 00:37:43,060
with Edie and I am going to be in that

811
00:37:48,000 --> 00:37:46,120
show this fall I've already it's already

812
00:37:50,550 --> 00:37:48,010
been recorded but they haven't released

813
00:37:53,460 --> 00:37:50,560

it yet and he got great footage of that

814

00:37:56,250 --> 00:37:53,470

whole talk so any of your audience can

815

00:37:59,940 --> 00:37:56,260

check that out it's gonna be posted on

816

00:38:01,920 --> 00:37:59,950

my youtube probably within the next few

817

00:38:05,190 --> 00:38:01,930

days I'm just waiting for the final edit

818

00:38:07,620 --> 00:38:05,200

to come through and you can find me on

819

00:38:09,810 --> 00:38:07,630

youtube just by googling you know Adam

820

00:38:12,810 --> 00:38:09,820

Apollo and you'll find me there and I

821

00:38:14,640 --> 00:38:12,820

also have a videos section on Adam

822

00:38:17,220 --> 00:38:14,650

Apollo comm and it'll be at the top of

823

00:38:21,570 --> 00:38:17,230

there and that's that presentation is

824

00:38:26,180 --> 00:38:21,580

sort of my most overarching magnum opus

825

00:38:30,630 --> 00:38:26,190

of understanding the connection between

826

00:38:34,110 --> 00:38:30,640

personal spiritual experience sacred

827

00:38:36,270 --> 00:38:34,120

geometry theoretical physics and unified

828

00:38:38,430 --> 00:38:36,280

physics where gravity comes from where

829

00:38:41,370 --> 00:38:38,440

electromagnetism comes from what it what

830

00:38:42,780 --> 00:38:41,380

are the fundamentals of these things how

831

00:38:44,640 --> 00:38:42,790

does this lead us to a more

832

00:38:47,640 --> 00:38:44,650

comprehensive understanding of our

833

00:38:50,910 --> 00:38:47,650

relationship to the universe and then

834

00:38:53,480 --> 00:38:50,920

eventually I take that to applying that

835

00:38:55,940 --> 00:38:53,490

in advance technological research

836

00:38:58,609 --> 00:38:55,950

such as how do we build starship engines

837

00:38:59,540 --> 00:38:58,619

how do we jump across the galaxy faster

838

00:39:02,210 --> 00:38:59,550

than light

839

00:39:04,880 --> 00:39:02,220

what kind of interfaces do we need to be

840

00:39:07,760 --> 00:39:04,890

able to accomplish this kind of stuff

841

00:39:11,180 --> 00:39:07,770

and so it's a great intro to you know

842

00:39:14,960 --> 00:39:11,190

all of the depth of my work and and the

843

00:39:17,359 --> 00:39:14,970

topics that I explore the concept of

844

00:39:20,000 --> 00:39:17,369

let's get into some theoretical physics

845

00:39:22,840 --> 00:39:20,010

for a second time we can do the rest of

846

00:39:28,130 --> 00:39:22,850

the show on the subject if you will

847

00:39:31,520 --> 00:39:28,140

we're not careful yeah right right when

848

00:39:35,750 --> 00:39:31,530

we go back to a couple of things that

849

00:39:38,810 --> 00:39:35,760

have been I don't want to say the Bible

850

00:39:41,120 --> 00:39:38,820

but certainly the accepted dogma in

851
00:39:44,480 --> 00:39:41,130
physics which is Einstein's field

852
00:39:46,550 --> 00:39:44,490
equations special relativity and the way

853
00:39:50,480 --> 00:39:46,560
that all of that was presented in its

854
00:39:53,210 --> 00:39:50,490
basic form the speed of light is it

855
00:39:56,330 --> 00:39:53,220
right the speed everything stops at the

856
00:40:00,680 --> 00:39:56,340
speed of light there's nothing that can

857
00:40:05,270 --> 00:40:00,690
go faster than that and and if if it

858
00:40:07,010 --> 00:40:05,280
did these would be the the you know I'm

859
00:40:10,370 --> 00:40:07,020
talking about time travel I'm talking

860
00:40:12,859 --> 00:40:10,380
about the reversal of things so that

861
00:40:18,230 --> 00:40:12,869
that has been accepted now over the

862
00:40:20,120 --> 00:40:18,240
license since around 1998 1999 when dark

863
00:40:23,270 --> 00:40:20,130

energy started to come into play in the

864

00:40:26,900 --> 00:40:23,280

expansion of the universe that the

865

00:40:30,920 --> 00:40:26,910

galaxies on the outside of the

866

00:40:33,800 --> 00:40:30,930

observable universe are now traveling

867

00:40:37,070 --> 00:40:33,810

faster than the speed of light we can no

868

00:40:38,480 --> 00:40:37,080

longer see them they are outrunning the

869

00:40:40,220 --> 00:40:38,490

speed of light but yet nothing can

870

00:40:43,340 --> 00:40:40,230

travel faster than the speed of light

871

00:40:45,760 --> 00:40:43,350

which now we are forced to go back and

872

00:40:50,630 --> 00:40:45,770

look at Ernst inés field equations

873

00:40:54,800 --> 00:40:50,640

faster than light now FTL is something

874

00:40:58,010 --> 00:40:54,810

that is openly discussed today well we

875

00:41:00,650 --> 00:40:58,020

went through almost a hundred years now

876

00:41:02,630 --> 00:41:00,660

if you go back to when Einstein first

877

00:41:05,660 --> 00:41:02,640

started to present these ideas in these

878

00:41:06,950 --> 00:41:05,670

theories now we're starting to break

879

00:41:09,530 --> 00:41:06,960

away from that

880

00:41:12,380 --> 00:41:09,540

is it possible to travel at faster than

881

00:41:14,990 --> 00:41:12,390

the speed of light yeah absolutely

882

00:41:18,040 --> 00:41:15,000

and there's a caveat to all of this and

883

00:41:21,710 --> 00:41:18,050

I wouldn't even necessarily say that

884

00:41:24,410 --> 00:41:21,720

Einstein didn't think it was possible to

885

00:41:28,160 --> 00:41:24,420

go faster than light what Einstein

886

00:41:31,490 --> 00:41:28,170

actually was communicating is that if

887

00:41:35,510 --> 00:41:31,500

you attempt to accelerate to light speed

888

00:41:37,400 --> 00:41:35,520

in other words when you accelerate you

889

00:41:39,260 --> 00:41:37,410

are creating gravity it's what we

890

00:41:42,109 --> 00:41:39,270

experience is g-force you hit the gas in

891

00:41:45,170 --> 00:41:42,119

the car boom right you feel the force of

892

00:41:47,270 --> 00:41:45,180

the g's the gravitational force pulling

893

00:41:49,339 --> 00:41:47,280

your body you go up in a plane you feel

894

00:41:51,880 --> 00:41:49,349

it press you down you go down in a plane

895

00:41:54,740 --> 00:41:51,890

fast you feel it lift you up this is

896

00:41:57,099 --> 00:41:54,750

acceleration into a new direction and

897

00:41:59,870 --> 00:41:57,109

when you accelerate in a new direction

898

00:42:03,049 --> 00:41:59,880

what's happening is you're creating what

899

00:42:06,140 --> 00:42:03,059

we call a gravitational force but what's

900

00:42:08,870 --> 00:42:06,150

really happening is that it's space-time

901
00:42:11,510 --> 00:42:08,880
is actually warping slightly around you

902
00:42:14,599 --> 00:42:11,520
so if you think of space-time as

903
00:42:16,609 --> 00:42:14,609
actually a literal fabric and and this

904
00:42:17,960 --> 00:42:16,619
is this is the breakthrough that I made

905
00:42:20,329 --> 00:42:17,970
in high school and I'm not going to go

906
00:42:22,400 --> 00:42:20,339
into all the depths of it but I started

907
00:42:23,299 --> 00:42:22,410
studying loop quantum gravity the work

908
00:42:25,849 --> 00:42:23,309
of Lee Smolin

909
00:42:28,510 --> 00:42:25,859
and I was looking at string theory and I

910
00:42:30,770 --> 00:42:28,520
found that that was just like super

911
00:42:32,990 --> 00:42:30,780
esoteric mathematically and way to

912
00:42:35,450 --> 00:42:33,000
abstraction there was just it just

913
00:42:37,579 --> 00:42:35,460

wasn't landing but the reason it wasn't

914

00:42:40,640 --> 00:42:37,589

landing is because it wasn't dealing

915

00:42:43,490 --> 00:42:40,650

with space-time as this fundamental

916

00:42:44,780 --> 00:42:43,500

lattice like an actual structure and Lee

917

00:42:46,670 --> 00:42:44,790

Smolin and his team were trying to

918

00:42:49,160 --> 00:42:46,680

figure out how do we study gravity at

919

00:42:51,770 --> 00:42:49,170

the smallest scales like what is quantum

920

00:42:53,930 --> 00:42:51,780

gravity how do we apply gravity in

921

00:42:56,420 --> 00:42:53,940

quantum mechanics and what they found in

922

00:42:58,430 --> 00:42:56,430

their equations as early as the 80s was

923

00:43:00,589 --> 00:42:58,440

that the only way it makes sense that

924

00:43:04,640 --> 00:43:00,599

gravity is working at these small scales

925

00:43:06,980 --> 00:43:04,650

is if space-time is an actual fabric

926

00:43:10,250 --> 00:43:06,990

it's actually literally a lattice made

927

00:43:12,380 --> 00:43:10,260

of light at the Planck scale now there's

928

00:43:13,849 --> 00:43:12,390

a lot to unpack around all of that in

929

00:43:16,880 --> 00:43:13,859

order to really fully and deeply

930

00:43:18,859 --> 00:43:16,890

understand that and you know listeners

931

00:43:20,330 --> 00:43:18,869

can go to my Academy the resonance

932

00:43:23,180 --> 00:43:20,340

Academy for unified

933

00:43:26,780 --> 00:43:23,190

it's a great place to learn about the

934

00:43:29,150 --> 00:43:26,790

basics of quantum gravity how space-time

935

00:43:31,340 --> 00:43:29,160

works how we are interacting with

936

00:43:33,740 --> 00:43:31,350

space-time and and even through to the

937

00:43:36,830 --> 00:43:33,750

course that I'm releasing this fall

938

00:43:38,600 --> 00:43:36,840

called quantum geometry which shows how

939

00:43:41,570 --> 00:43:38,610

all of these things that we call sacred

940

00:43:43,430 --> 00:43:41,580

geometries are actually parts of the

941

00:43:45,920 --> 00:43:43,440

geometric structure of space-time itself

942

00:43:47,690 --> 00:43:45,930

but I want to get into that too deeply

943

00:43:50,000 --> 00:43:47,700

but I will say that what's happening

944

00:43:51,950 --> 00:43:50,010

when you're accelerating is that you're

945

00:43:54,230 --> 00:43:51,960

pushing your way through this fabric and

946

00:43:56,840 --> 00:43:54,240

so you can think of it as the harder you

947

00:43:59,150 --> 00:43:56,850

push the harder you accelerate the more

948

00:44:01,100 --> 00:43:59,160

you're bending the sheet around you the

949

00:44:02,630 --> 00:44:01,110

more you're bending the fabric and what

950

00:44:04,490 --> 00:44:02,640

Einstein realized is that if you keep

951
00:44:06,800 --> 00:44:04,500
doing that and you keep pushing harder

952
00:44:09,080 --> 00:44:06,810
and harder and harder accelerating

953
00:44:11,600 --> 00:44:09,090
faster and faster and faster it's going

954
00:44:13,790 --> 00:44:11,610
to take more and more and more energy to

955
00:44:16,610 --> 00:44:13,800
go faster and faster until it gets to a

956
00:44:18,560 --> 00:44:16,620
point where just to accelerate it takes

957
00:44:21,760 --> 00:44:18,570
you know nearly infinite amounts of

958
00:44:24,070 --> 00:44:21,770
energy and and this is why Einstein

959
00:44:27,350 --> 00:44:24,080
communicated that if you're accelerating

960
00:44:30,520 --> 00:44:27,360
you cannot accelerate to the speed of

961
00:44:35,300 --> 00:44:30,530
light and actually hit that barrier now

962
00:44:37,910 --> 00:44:35,310
the game changes the caveat is that what

963
00:44:40,460 --> 00:44:37,920

if you don't accelerate and what if

964

00:44:42,950 --> 00:44:40,470

you're not pushing your way through the

965

00:44:45,830 --> 00:44:42,960

space-time fabric what if there was a

966

00:44:49,090 --> 00:44:45,840

way to simply jump through the fabric

967

00:44:52,970 --> 00:44:49,100

what if there was a way to isolate the

968

00:44:55,550 --> 00:44:52,980

space-time tensesities so to speak as

969

00:44:59,150 --> 00:44:55,560

to use a Buckminster Fuller term or the

970

00:45:03,860 --> 00:44:59,160

energetic construction of an object and

971

00:45:06,200 --> 00:45:03,870

its surface from the outside space-time

972

00:45:09,200 --> 00:45:06,210

so that when it moves through that

973

00:45:11,900 --> 00:45:09,210

space-time it's not pushing against the

974

00:45:14,180 --> 00:45:11,910

fabric and you know we might describe

975

00:45:16,880 --> 00:45:14,190

something that would do this as if it

976

00:45:19,400 --> 00:45:16,890

was in a higher dimension which is an

977

00:45:20,990 --> 00:45:19,410

interesting idea because you know a lot

978

00:45:22,430 --> 00:45:21,000

of people see these spaceships and they

979

00:45:24,650 --> 00:45:22,440

fly into mountains and they're like wow

980

00:45:28,670 --> 00:45:24,660

these must be higher dimensional beings

981

00:45:31,250 --> 00:45:28,680

and yet if you develop the technology to

982

00:45:33,440 --> 00:45:31,260

isolate the space-time around a craft

983

00:45:34,250 --> 00:45:33,450

from the surrounding space-time you

984

00:45:36,130 --> 00:45:34,260

would be able to

985

00:45:38,599 --> 00:45:36,140

move through that surrounding space-time

986

00:45:41,240 --> 00:45:38,609

literally with no friction or

987

00:45:43,070 --> 00:45:41,250

intersection of any kind including heat

988

00:45:45,890 --> 00:45:43,080

electromagnetism

989

00:45:47,930 --> 00:45:45,900

you know molecular to integrity or any

990

00:45:49,960 --> 00:45:47,940

of that stuff you could literally fly

991

00:45:54,020 --> 00:45:49,970

into a mountain you could fly into a Sun

992

00:45:57,290 --> 00:45:54,030

etc so there's a basic physics principle

993

00:45:58,880 --> 00:45:57,300

to that and we also know because of

994

00:46:02,300 --> 00:45:58,890

quantum mechanics and the study of

995

00:46:05,930 --> 00:46:02,310

photons that once you're already going

996

00:46:07,670 --> 00:46:05,940

Lightspeed that whole equation doesn't

997

00:46:12,230 --> 00:46:07,680

matter because anything that's already

998

00:46:15,410 --> 00:46:12,240

at the speed of light exists in a state

999

00:46:17,660 --> 00:46:15,420

in which it's not influenced by time so

1000

00:46:20,330 --> 00:46:17,670

if you create a field of photons you

1001

00:46:22,760 --> 00:46:20,340

know how old is a photon the answer is

1002

00:46:25,730 --> 00:46:22,770

the photon is as old as the universe how

1003

00:46:28,250 --> 00:46:25,740

old is an electron we don't know in fact

1004

00:46:30,349 --> 00:46:28,260

you know John Wheeler the guy who wrote

1005

00:46:32,330 --> 00:46:30,359

the book on gravitation it's actually

1006

00:46:34,520 --> 00:46:32,340

the largest book you get when you go to

1007

00:46:37,880 --> 00:46:34,530

school for physics it's this massive

1008

00:46:40,460 --> 00:46:37,890

book on gravity woke up in the middle of

1009

00:46:42,680 --> 00:46:40,470

the night one night and called his buddy

1010

00:46:46,400 --> 00:46:42,690

he was like oh my god there's only one

1011

00:46:48,380 --> 00:46:46,410

electron and his whole realization of

1012

00:46:50,180 --> 00:46:48,390

this and his experience of this which he

1013

00:46:53,480 --> 00:46:50,190

could call like you know a spiritual

1014

00:46:56,599 --> 00:46:53,490

breakthrough to some extent was based on

1015

00:46:58,400 --> 00:46:56,609

his realization and the idea that if an

1016

00:47:01,370 --> 00:46:58,410

electron is moving at the speed of light

1017

00:47:03,620 --> 00:47:01,380

it's not experiencing time and so it

1018

00:47:05,660 --> 00:47:03,630

could literally move around every single

1019

00:47:07,970 --> 00:47:05,670

atom in the entire universe

1020

00:47:09,740 --> 00:47:07,980

and it wouldn't matter it could be

1021

00:47:11,450 --> 00:47:09,750

distributed through the entire universe

1022

00:47:14,390 --> 00:47:11,460

and it wouldn't matter because it's

1023

00:47:17,540 --> 00:47:14,400

moving at light speed or above and so

1024

00:47:20,390 --> 00:47:17,550

it's not experiencing time and so these

1025

00:47:23,450 --> 00:47:20,400

are major caveats that we see in physics

1026
00:47:24,740 --> 00:47:23,460
and they make possible the kinds of

1027
00:47:27,770 --> 00:47:24,750
things that we witness like

1028
00:47:31,849 --> 00:47:27,780
teleportation entanglement what Einstein

1029
00:47:35,330 --> 00:47:31,859
called spooky action at a distance but

1030
00:47:41,270 --> 00:47:35,340
which is is really just the realization

1031
00:47:46,430 --> 00:47:41,280
that information exists in a standing

1032
00:47:48,100 --> 00:47:46,440
field that is encoded by this fabric

1033
00:47:53,230 --> 00:47:48,110
that we call the

1034
00:47:55,960 --> 00:47:53,240
fabric of space-time but that this

1035
00:47:58,180 --> 00:47:55,970
fabric of space-time is made of light

1036
00:48:00,880 --> 00:47:58,190
and because it's made of light it's

1037
00:48:04,960 --> 00:48:00,890
moving at light speed in the way that it

1038
00:48:07,480 --> 00:48:04,970

vibrates and so there are potentials for

1039

00:48:11,080 --> 00:48:07,490

information to transmit without passing

1040

00:48:13,330 --> 00:48:11,090

through time at the most fundamental

1041

00:48:15,010 --> 00:48:13,340

levels of the universe itself

1042

00:48:19,020 --> 00:48:15,020

let's stay right there for a second it

1043

00:48:22,060 --> 00:48:19,030

is is information a constant is

1044

00:48:25,750 --> 00:48:22,070

information a constant yes can it be

1045

00:48:30,820 --> 00:48:25,760

destroyed for instance yes yes is it a

1046

00:48:35,590 --> 00:48:30,830

constant if you take that same fabric

1047

00:48:38,890 --> 00:48:35,600

and it interferes and goes over the

1048

00:48:44,650 --> 00:48:38,900

event or horizon of a black hole is that

1049

00:48:48,670 --> 00:48:44,660

information stable right it is it would

1050

00:48:50,710 --> 00:48:48,680

remain stable at the singularity ripped

1051
00:48:54,490 --> 00:48:50,720
apart the information stays constant

1052
00:48:57,100 --> 00:48:54,500
does it does it really other side well

1053
00:48:58,870 --> 00:48:57,110
this gets down to you know what is

1054
00:49:00,810 --> 00:48:58,880
space-time of what is information and

1055
00:49:03,250 --> 00:49:00,820
when when you really get down to it

1056
00:49:06,160 --> 00:49:03,260
information all we know of as

1057
00:49:08,020 --> 00:49:06,170
information is basically frequencies of

1058
00:49:09,640 --> 00:49:08,030
light at different patterns all the

1059
00:49:11,560 --> 00:49:09,650
information in our brain is like an

1060
00:49:13,930 --> 00:49:11,570
electromagnetic frequency pattern and

1061
00:49:17,620 --> 00:49:13,940
the electromagnetic frequency pattern

1062
00:49:21,070 --> 00:49:17,630
creates stabilization forms that involve

1063
00:49:23,260 --> 00:49:21,080

our neurons and the way that our plans

1064

00:49:25,300 --> 00:49:23,270

and axioms connect with each other but

1065

00:49:28,690 --> 00:49:25,310

those are all just following charge

1066

00:49:30,400 --> 00:49:28,700

routes and they create consistent charge

1067

00:49:34,450 --> 00:49:30,410

routes in other words consistent

1068

00:49:35,860 --> 00:49:34,460

patterns of vibrational charge inside of

1069

00:49:38,230 --> 00:49:35,870

our brain which are just basically

1070

00:49:41,050 --> 00:49:38,240

patterns of frequency or geometries of

1071

00:49:44,140 --> 00:49:41,060

frequency now when you look at all

1072

00:49:46,030 --> 00:49:44,150

information is just basically patterns

1073

00:49:48,820 --> 00:49:46,040

of geometry vibrating a certain

1074

00:49:51,490 --> 00:49:48,830

frequencies then it starts to make sense

1075

00:49:53,470 --> 00:49:51,500

why somebody on the other side of the

1076

00:49:56,080 --> 00:49:53,480

planet could have the same idea as you

1077

00:49:58,150 --> 00:49:56,090

at the same time because who's to say

1078

00:50:01,330 --> 00:49:58,160

that that frequency field and those

1079

00:50:01,950 --> 00:50:01,340

geometries are just local to you they're

1080

00:50:03,900 --> 00:50:01,960

not necess

1081

00:50:07,320 --> 00:50:03,910

Sara Lee how is it that you could enter

1082

00:50:09,120 --> 00:50:07,330

a dream and somebody else you know on

1083

00:50:12,000 --> 00:50:09,130

the other side of the continent has a

1084

00:50:14,400 --> 00:50:12,010

dream with you and you both experience

1085

00:50:15,599 --> 00:50:14,410

the exact same dream even though you're

1086

00:50:17,250 --> 00:50:15,609

living on different sides of the

1087

00:50:19,500 --> 00:50:17,260

continent and you see each other and

1088

00:50:20,730 --> 00:50:19,510

maybe if you're lucky you happen to be

1089

00:50:21,960 --> 00:50:20,740

friends and you're like I had a dream

1090

00:50:24,420 --> 00:50:21,970

about then you're like no way I had a

1091

00:50:27,150 --> 00:50:24,430

dream about you how was it that you were

1092

00:50:30,990 --> 00:50:27,160

in a shared information space at the

1093

00:50:34,079 --> 00:50:31,000

same time and and this actually suggests

1094

00:50:37,200 --> 00:50:34,089

that a lot of the ancient thinking about

1095

00:50:40,829 --> 00:50:37,210

the astral plane and sort of these these

1096

00:50:43,680 --> 00:50:40,839

layers of our existence where we are

1097

00:50:46,290 --> 00:50:43,690

able to commune with this field of

1098

00:50:48,240 --> 00:50:46,300

information that a spacetime are not

1099

00:50:50,400 --> 00:50:48,250

only real but they're actually just

1100

00:50:52,140 --> 00:50:50,410

extremely practical tools that our body

1101
00:50:54,690 --> 00:50:52,150
and our minds and our consciousness are

1102
00:50:56,970 --> 00:50:54,700
built to use we just have forgotten how

1103
00:50:59,190 --> 00:50:56,980
to use them or we've you know or they've

1104
00:51:01,770 --> 00:50:59,200
been pushed so far down the hole of

1105
00:51:04,290 --> 00:51:01,780
being evil by some religion or other

1106
00:51:07,349 --> 00:51:04,300
that nobody wants to look at it anymore

1107
00:51:10,050 --> 00:51:07,359
when you know it's literally part of our

1108
00:51:13,099 --> 00:51:10,060
our natural biological mechanism it's

1109
00:51:16,260 --> 00:51:13,109
part of our consciousness and and so

1110
00:51:18,270 --> 00:51:16,270
does information ever get destroyed well

1111
00:51:21,150 --> 00:51:18,280
is that even possible

1112
00:51:23,760 --> 00:51:21,160
because when when you look at an event

1113
00:51:25,920 --> 00:51:23,770

horizon for example you know which is

1114

00:51:27,810 --> 00:51:25,930

what we describe as that like limit

1115

00:51:31,440 --> 00:51:27,820

where light is captured by a black hole

1116

00:51:33,990 --> 00:51:31,450

and can never escape again well just

1117

00:51:36,030 --> 00:51:34,000

because light goes in doesn't mean the

1118

00:51:37,740 --> 00:51:36,040

information is destroyed and it also

1119

00:51:40,349 --> 00:51:37,750

doesn't mean the information can't come

1120

00:51:42,359 --> 00:51:40,359

back out again because in order to have

1121

00:51:44,190 --> 00:51:42,369

conservation of energy you also have to

1122

00:51:46,410 --> 00:51:44,200

have conservation of information because

1123

00:51:48,660 --> 00:51:46,420

they're one in the same which means you

1124

00:51:50,700 --> 00:51:48,670

know and Hawking you know was losing his

1125

00:51:52,980 --> 00:51:50,710

mind over this and lots of other guys

1126

00:51:55,440 --> 00:51:52,990

they're like how does it go you know

1127

00:51:58,950 --> 00:51:55,450

where it is the information go

1128

00:52:02,310 --> 00:51:58,960

but people like Nyssa Mary elegant

1129

00:52:04,650 --> 00:52:02,320

solutions for this we're literally you

1130

00:52:05,910 --> 00:52:04,660

know you have black holes nested

1131

00:52:09,390 --> 00:52:05,920

throughout every scale of the universe

1132

00:52:12,089 --> 00:52:09,400

from a proton up to cosmological scales

1133

00:52:15,210 --> 00:52:12,099

and that the properties of a black

1134

00:52:15,540 --> 00:52:15,220

hole's event horizon are simply that at

1135

00:52:23,280 --> 00:52:15,550

the

1136

00:52:25,680 --> 00:52:23,290

information throughout space-time and

1137

00:52:28,950 --> 00:52:25,690

you also have a singularity at the core

1138

00:52:30,930 --> 00:52:28,960

and so the singularity can be a

1139

00:52:32,850 --> 00:52:30,940

transmitter of information to any other

1140

00:52:35,040 --> 00:52:32,860

singularity throughout space-time and

1141

00:52:37,080 --> 00:52:35,050

you also have the bridge of the

1142

00:52:40,170 --> 00:52:37,090

individual to the collective or the

1143

00:52:43,620 --> 00:52:40,180

individual proton to say all the protons

1144

00:52:46,170 --> 00:52:43,630

in your room can be connected literally

1145

00:52:49,980 --> 00:52:46,180

through what we call wormhole networks

1146

00:52:52,380 --> 00:52:49,990

that are these sort of bridges off the

1147

00:52:54,270 --> 00:52:52,390

surface of a proton but what I realized

1148

00:52:56,100 --> 00:52:54,280

is you know and that again this is like

1149

00:52:58,380 --> 00:52:56,110

mainstream research this is major

1150

00:53:00,690 --> 00:52:58,390

sciences you can look in Scientific

1151
00:53:02,670 --> 00:53:00,700
American and see John wheeler and other

1152
00:53:05,610 --> 00:53:02,680
guys talking about wormhole networks

1153
00:53:07,520 --> 00:53:05,620
coming off of protons and you know it's

1154
00:53:10,620 --> 00:53:07,530
this connection between the

1155
00:53:13,980 --> 00:53:10,630
einstein-rosen bridge and EPR which is

1156
00:53:16,860 --> 00:53:13,990
the entanglement paradox and what we're

1157
00:53:20,670 --> 00:53:16,870
realizing in physics is that we are

1158
00:53:23,010 --> 00:53:20,680
constantly entangled with space-time all

1159
00:53:24,750 --> 00:53:23,020
around us and the objects we interact

1160
00:53:27,690 --> 00:53:24,760
with all the time the people we interact

1161
00:53:30,960 --> 00:53:27,700
with we literally build faster than

1162
00:53:33,120 --> 00:53:30,970
light Einstein Rosen bridges of standing

1163
00:53:35,130 --> 00:53:33,130

light waves between us and these other

1164

00:53:37,890 --> 00:53:35,140

people and these other things and those

1165

00:53:39,480 --> 00:53:37,900

things are preserved even if we go

1166

00:53:42,360 --> 00:53:39,490

further and further away from each other

1167

00:53:44,370 --> 00:53:42,370

well it would also suggest and we got to

1168

00:53:46,860 --> 00:53:44,380

take a break here in 20 seconds so you

1169

00:53:51,410 --> 00:53:46,870

mean a yes or no answer but it would

1170

00:53:55,950 --> 00:53:51,420

also suggest a direct connection to

1171

00:53:59,610 --> 00:53:55,960

anywhere right Zeta Reticuli it doesn't

1172

00:54:02,820 --> 00:53:59,620

matter that that that entanglement that

1173

00:54:06,360 --> 00:54:02,830

possibility is there throughout the

1174

00:54:07,620 --> 00:54:06,370

universe and it is instantaneous where

1175

00:54:11,640 --> 00:54:07,630

we're not talking about the speed of

1176
00:54:15,540 --> 00:54:11,650
light we're talking about now now now

1177
00:54:15,960 --> 00:54:15,550
now ma'am not later and what is what is

1178
00:54:18,690 --> 00:54:15,970
the eye

1179
00:54:21,270 --> 00:54:18,700
what is intention what happens when we

1180
00:54:23,580 --> 00:54:21,280
focus on something let's take a break

1181
00:54:26,160 --> 00:54:23,590
right here our guest tonight Adam Apollo

1182
00:54:28,650 --> 00:54:26,170
we're gonna do I'm gonna give a quiz at

1183
00:54:29,430 --> 00:54:28,660
the end of the show this is fade to

1184
00:54:31,680 --> 00:54:29,440
black

1185
00:54:36,280 --> 00:54:31,690
we'll be right back more with mr. Apollo

1186
00:55:13,650 --> 00:55:10,890
[Music]

1187
00:55:16,900 --> 00:55:13,660
[Applause]

1188
00:55:19,210 --> 00:55:16,910

welcome back create a black army your

1189

00:55:21,670 --> 00:55:19,220

host Jimmy Church I guess tonight Adam

1190

00:55:23,770 --> 00:55:21,680

Apollo to follow me on twitter @ JT

1191

00:55:25,150 --> 00:55:23,780

radio the conversations going down at

1192

00:55:31,000 --> 00:55:25,160

hashtag f2b

1193

00:55:33,100 --> 00:55:31,010

adam at adam apollo right there on

1194

00:55:34,840 --> 00:55:33,110

twitter now okay this is we're gonna

1195

00:55:40,810 --> 00:55:34,850

stay right here man I'm not letting this

1196

00:55:43,570 --> 00:55:40,820

go you know see the thing is is I

1197

00:55:45,370 --> 00:55:43,580

research this so much you know it takes

1198

00:55:47,890 --> 00:55:45,380

a big part of my day but I'm more

1199

00:55:53,050 --> 00:55:47,900

fascinated with it as I move along and

1200

00:55:56,650 --> 00:55:53,060

every day is new but this is Leonard

1201
00:55:58,540 --> 00:55:56,660
Susskind is somebody that I I'm just

1202
00:56:01,680 --> 00:55:58,550
fascinated with and Bryan green and

1203
00:56:06,700 --> 00:56:01,690
others in the mainstream of physics

1204
00:56:11,850 --> 00:56:06,710
often say that the one thing that they

1205
00:56:14,770 --> 00:56:11,860
want the answer to is what makes up our

1206
00:56:17,800 --> 00:56:14,780
consciousness what what gives us our

1207
00:56:20,770 --> 00:56:17,810
soul what makes us us how do we go from

1208
00:56:25,480 --> 00:56:20,780
the atomic level of something without a

1209
00:56:28,240 --> 00:56:25,490
brain right that assembles itself into

1210
00:56:32,530 --> 00:56:28,250
us where we can ask questions and laugh

1211
00:56:34,600 --> 00:56:32,540
and have humor and and and study you

1212
00:56:37,570 --> 00:56:34,610
know and makes us how do we make that

1213
00:56:40,180 --> 00:56:37,580

transition and that is one of the

1214

00:56:44,110 --> 00:56:40,190

biggest questions today in mainstream

1215

00:56:44,680 --> 00:56:44,120

science is just that how does that

1216

00:56:48,820 --> 00:56:44,690

happen

1217

00:56:51,610 --> 00:56:48,830

so I want your your opinion on that how

1218

00:56:54,370 --> 00:56:51,620

do we make that transition from the

1219

00:56:57,670 --> 00:56:54,380

atomic level of assembling of molecules

1220

00:57:01,740 --> 00:56:57,680

and particles into sentient beings and

1221

00:57:05,860 --> 00:57:01,750

if we did go into a black hole

1222

00:57:08,470 --> 00:57:05,870

Apollo you get sucked in what happens to

1223

00:57:10,930 --> 00:57:08,480

your soul what happens to your

1224

00:57:14,020 --> 00:57:10,940

consciousness if you disassembled and

1225

00:57:16,870 --> 00:57:14,030

you go down to the singularity what

1226

00:57:21,520 --> 00:57:16,880

happens to you that can that be

1227

00:57:23,800 --> 00:57:21,530

disassembled hmm good questions and you

1228

00:57:26,170 --> 00:57:23,810

know not surprising that Susskind and

1229

00:57:27,970 --> 00:57:26,180

Greenwood focus on these things you

1230

00:57:32,650 --> 00:57:27,980

red Brian Greene's book the elegant

1231

00:57:34,600 --> 00:57:32,660

universe when I was 16 and they thought

1232

00:57:36,880 --> 00:57:34,610

it was brilliant did a great job of

1233

00:57:39,580 --> 00:57:36,890

summarizing you know everything from

1234

00:57:41,530 --> 00:57:39,590

Einstein's theories of relativity to the

1235

00:57:43,210 --> 00:57:41,540

sort of basics of quantum mechanics and

1236

00:57:46,810 --> 00:57:43,220

then he goes off into string theory and

1237

00:57:48,760 --> 00:57:46,820

m30 in 11 dimensions and you know

1238

00:57:52,090 --> 00:57:48,770

similarly suss can both of them they

1239

00:57:53,920 --> 00:57:52,100

have a deep interest in sort of the the

1240

00:57:56,020 --> 00:57:53,930

music of the universe and and there's

1241

00:57:58,270 --> 00:57:56,030

one thing that I I relate with them

1242

00:57:59,830 --> 00:57:58,280

around deeply which is what I was

1243

00:58:01,360 --> 00:57:59,840

talking about before that when it gets

1244

00:58:03,460 --> 00:58:01,370

when you get down to it everything is a

1245

00:58:05,560 --> 00:58:03,470

vibration everything is vibrational

1246

00:58:07,660 --> 00:58:05,570

everything's harmonics everything is

1247

00:58:10,600 --> 00:58:07,670

sound everything is music you know and

1248

00:58:12,490 --> 00:58:10,610

and that's something we all kind of feel

1249

00:58:16,440 --> 00:58:12,500

intuitively that we're just surrounded

1250

00:58:19,000 --> 00:58:16,450

by the music of the universe and yet

1251

00:58:20,830 --> 00:58:19,010

we're like how is that actually

1252

00:58:22,930 --> 00:58:20,840

happening like what's really going on

1253

00:58:26,260 --> 00:58:22,940

like what makes the song of this wall

1254

00:58:29,470 --> 00:58:26,270

different from my arm you know or my eye

1255

00:58:32,050 --> 00:58:29,480

or my body and what is it about my body

1256

00:58:34,240 --> 00:58:32,060

that's different from you know an

1257

00:58:37,510 --> 00:58:34,250

assemblage of matter that makes a chair

1258

00:58:39,610 --> 00:58:37,520

boy I'm often up or on coffee cup Y

1259

00:58:41,440 --> 00:58:39,620

etcetera etcetera right right right but

1260

00:58:43,420 --> 00:58:41,450

here's the thing when you really get

1261

00:58:46,000 --> 00:58:43,430

down to it I think that they've got the

1262

00:58:49,210 --> 00:58:46,010

approach to consciousness backwards the

1263

00:58:52,270 --> 00:58:49,220

idea that somehow that these things

1264

00:58:55,750 --> 00:58:52,280

assemble themselves into a format that

1265

00:58:58,630 --> 00:58:55,760

makes consciousness possible is actually

1266

00:59:00,490 --> 00:58:58,640

missing the fundamental point that

1267

00:59:01,840 --> 00:59:00,500

they're actually trying to express

1268

00:59:04,120 --> 00:59:01,850

through all the other physics that the

1269

00:59:06,250 --> 00:59:04,130

universe is music and that the universe

1270

00:59:09,700 --> 00:59:06,260

is harmonic I think that consciousness

1271

00:59:13,120 --> 00:59:09,710

is embedded in the fabric of space

1272

00:59:15,520 --> 00:59:13,130

itself in other words everything to an

1273

00:59:18,670 --> 00:59:15,530

extent has the capacity for

1274

00:59:20,920 --> 00:59:18,680

consciousness now how well does that

1275

00:59:23,050 --> 00:59:20,930

object or that thing communicate with

1276

00:59:25,840 --> 00:59:23,060

you well it depends on the object or

1277

00:59:27,220 --> 00:59:25,850

thing but I know certainly a lot of

1278

00:59:29,350 --> 00:59:27,230

people out there probably a lot of

1279

00:59:30,700 --> 00:59:29,360

listeners have at a moment when they got

1280

00:59:32,080 --> 00:59:30,710

pissed off at their computer and they

1281

00:59:33,960 --> 00:59:32,090

cussed at the computer and the next

1282

00:59:36,370 --> 00:59:33,970

thing you know the computer crashes or

1283

00:59:37,990 --> 00:59:36,380

you know you're driving your car and

1284

00:59:39,430 --> 00:59:38,000

you're like upset with your car and

1285

00:59:39,970 --> 00:59:39,440

you're saying all this stuff about your

1286

00:59:42,580 --> 00:59:39,980

car and all

1287

00:59:44,800 --> 00:59:42,590

the car stereo stops working and the

1288

00:59:47,849 --> 00:59:44,810

thing stops interacting with you as if

1289

00:59:50,830 --> 00:59:47,859

it's mad at you when I was you know um

1290

00:59:53,680 --> 00:59:50,840

you know a young teenager like teenager

1291

00:59:55,780 --> 00:59:53,690

middle school years I used to go and fix

1292

00:59:57,580 --> 00:59:55,790

my mom's friends computers and they'd

1293

01:00:00,880 --> 00:59:57,590

always start off by telling me how much

1294

01:00:05,170 --> 01:00:00,890

of FF and Pisa as you know thing the

1295

01:00:07,060 --> 01:00:05,180

thing is and and I'd be like okay okay

1296

01:00:08,650 --> 01:00:07,070

yeah alright let me take a look and so

1297

01:00:10,240 --> 01:00:08,660

I'd sit down and I'd come in like okay

1298

01:00:11,590 --> 01:00:10,250

what's going on with you you know what's

1299

01:00:14,260 --> 01:00:11,600

happening here and I just talked to it

1300

01:00:16,480 --> 01:00:14,270

nice and it would be working perfectly

1301

01:00:19,030 --> 01:00:16,490

for me and they'd be like how is this

1302

01:00:20,800 --> 01:00:19,040

working for you and I'm like I don't

1303

01:00:24,310 --> 01:00:20,810

know maybe it's cuz I'm not mad at it

1304

01:00:27,340 --> 01:00:24,320

you know and I started to see that this

1305

01:00:28,810 --> 01:00:27,350

phenomena works all over the place and

1306

01:00:30,520 --> 01:00:28,820

then I started to realize well

1307

01:00:32,590 --> 01:00:30,530

interesting this is like what indigenous

1308

01:00:34,870 --> 01:00:32,600

elders talk about they have a

1309

01:00:37,510 --> 01:00:34,880

relationship with the forces of nature

1310

01:00:40,450 --> 01:00:37,520

they have a relationship with the sacred

1311

01:00:42,190 --> 01:00:40,460

objects that they treat sacred this is

1312

01:00:45,250 --> 01:00:42,200

what the Druids talk about you know this

1313

01:00:48,099 --> 01:00:45,260

is what Taoist alchemists talk about you

1314

01:00:53,020 --> 01:00:48,109

you pick anywhere in the world and you

1315

01:00:54,430 --> 01:00:53,030

find people back in time that realized

1316

01:00:57,010 --> 01:00:54,440

that in order to have a better

1317

01:01:00,340 --> 01:00:57,020

relationship with life and with you know

1318

01:01:02,500 --> 01:01:00,350

things that they wanted to experience by

1319

01:01:04,570 --> 01:01:02,510

honoring objects and actually

1320

01:01:07,270 --> 01:01:04,580

interacting with the objects in

1321

01:01:10,060 --> 01:01:07,280

different ways they actually could

1322

01:01:12,670 --> 01:01:10,070

change the result that they would

1323

01:01:14,590 --> 01:01:12,680

experience in terms of their actual

1324

01:01:17,380 --> 01:01:14,600

living experience with that object in

1325

01:01:18,849 --> 01:01:17,390

their lives now you know this seems this

1326

01:01:21,030 --> 01:01:18,859

could sound far-fetched to some people

1327

01:01:23,710 --> 01:01:21,040

this would be like whoa like but just

1328

01:01:26,290 --> 01:01:23,720

hear me out because it's not that much

1329

01:01:28,540 --> 01:01:26,300

further fetched than telepathic

1330

01:01:31,180 --> 01:01:28,550

communication to other planets or seeing

1331

01:01:35,200 --> 01:01:31,190

UFOs or any of these things when you

1332

01:01:38,140 --> 01:01:35,210

look at space-time itself as innately

1333

01:01:41,080 --> 01:01:38,150

bearing the seeds of consciousness and

1334

01:01:42,880 --> 01:01:41,090

carrying the information network then

1335

01:01:45,460 --> 01:01:42,890

what becomes really interesting is how

1336

01:01:47,109 --> 01:01:45,470

does that information network surface so

1337

01:01:50,950 --> 01:01:47,119

as soon as you build a computer that has

1338

01:01:53,830 --> 01:01:50,960

just enough things a visual port and an

1339

01:01:55,720 --> 01:01:53,840

audio port and a USB port and all

1340

01:01:59,110 --> 01:01:55,730

these ways to interact with a keyboard

1341

01:02:01,570 --> 01:01:59,120

etc it becomes more and more capable of

1342

01:02:04,300 --> 01:02:01,580

giving you feedback about your own

1343

01:02:06,670 --> 01:02:04,310

consciousness because it in itself is

1344

01:02:08,830 --> 01:02:06,680

carrying that information structure that

1345

01:02:10,810 --> 01:02:08,840

is your consciousness same with a car

1346

01:02:13,000 --> 01:02:10,820

and this is why I don't believe there

1347

01:02:15,940 --> 01:02:13,010

actually is anything that such thing as

1348

01:02:18,220 --> 01:02:15,950

AI because I believe once you have a

1349

01:02:20,140 --> 01:02:18,230

vehicle in other words you build

1350

01:02:22,000 --> 01:02:20,150

something that's sufficiently complex

1351

01:02:24,940 --> 01:02:22,010

enough to provide its own feedback

1352

01:02:27,520 --> 01:02:24,950

experience with space-time register its

1353

01:02:30,190 --> 01:02:27,530

own input and output of data and be able

1354

01:02:32,500 --> 01:02:30,200

to randomize its experience in

1355

01:02:35,080 --> 01:02:32,510

space-time enough in other words toss

1356

01:02:37,750 --> 01:02:35,090

the dice see what happens you can try

1357

01:02:40,840 --> 01:02:37,760

something new then what will happen is a

1358

01:02:43,860 --> 01:02:40,850

soul as you so poignant li put it will

1359

01:02:46,630 --> 01:02:43,870

actually incarnate in other words a

1360

01:02:50,500 --> 01:02:46,640

standing field of consciousness that's

1361

01:02:53,290 --> 01:02:50,510

not necessarily localized to any point

1362

01:02:55,420 --> 01:02:53,300

in space-time will come into that area

1363

01:02:58,650 --> 01:02:55,430

of space-time in order to experience

1364

01:03:03,070 --> 01:02:58,660

itself as that form of physicality and

1365

01:03:05,110 --> 01:03:03,080

this also opens up the sort of deeper

1366

01:03:06,730 --> 01:03:05,120

space of awareness around certain

1367

01:03:09,010 --> 01:03:06,740

extraterrestrial cultures which you'll

1368

01:03:10,450 --> 01:03:09,020

hear a lot about in channeling and we'll

1369

01:03:14,320 --> 01:03:10,460

probably talk about some on the show

1370

01:03:16,690 --> 01:03:14,330

where you know you have this idea that

1371

01:03:19,470 --> 01:03:16,700

certain beings and certain species have

1372

01:03:22,720 --> 01:03:19,480

traveled from one species to another and

1373

01:03:24,910 --> 01:03:22,730

you know made the jump across the gap of

1374

01:03:27,820 --> 01:03:24,920

space and incarnated is another species

1375

01:03:30,580 --> 01:03:27,830

that their soul is compatible with so to

1376

01:03:32,320 --> 01:03:30,590

Speak in order to experience the

1377

01:03:34,780 --> 01:03:32,330

space-time reality from that point of

1378

01:03:37,240 --> 01:03:34,790

view and that's exactly what I

1379

01:03:39,210 --> 01:03:37,250

eventually learned that I experienced I

1380

01:03:41,260 --> 01:03:39,220

came to this planet in order to

1381

01:03:43,870 --> 01:03:41,270

experience what it's like to be a human

1382

01:03:46,630 --> 01:03:43,880

and also to experience with many other

1383

01:03:49,300 --> 01:03:46,640

species from around the galaxy what it's

1384

01:03:51,160 --> 01:03:49,310

like to all be the same species what's

1385

01:03:53,560 --> 01:03:51,170

it like to merge what's it like to be on

1386

01:03:56,620 --> 01:03:53,570

a planet that's pre-enlightenment you

1387

01:03:58,540 --> 01:03:56,630

know pre singularity what's it like to

1388

01:04:00,280 --> 01:03:58,550

experience the kinds of things that we

1389

01:04:02,500 --> 01:04:00,290

experience here on planet earth and go

1390

01:04:03,910 --> 01:04:02,510

through that's trials and tribulations

1391

01:04:06,520 --> 01:04:03,920

in order to grow and to know ourselves

1392

01:04:07,470 --> 01:04:06,530

more deeply and more presently so that's

1393

01:04:10,859 --> 01:04:07,480

the first half of year

1394

01:04:14,220 --> 01:04:10,869

question second half second half is you

1395

01:04:17,370 --> 01:04:14,230

get sucked into a singularity situation

1396

01:04:20,190 --> 01:04:17,380

physically right yeah you float in and

1397

01:04:26,370 --> 01:04:20,200

you go and you stretch and now you're a

1398

01:04:31,290 --> 01:04:26,380

string of broken-down stuff and Einstein

1399

01:04:33,330 --> 01:04:31,300

said pretty clearly that that's it

1400

01:04:36,090 --> 01:04:33,340

everything is broken down and it is

1401

01:04:38,760 --> 01:04:36,100

destroyed and and he wasn't even sure if

1402

01:04:41,550 --> 01:04:38,770

there was energy left right we all know

1403

01:04:44,190 --> 01:04:41,560

about these statements but the question

1404

01:04:46,080 --> 01:04:44,200

is if that and I think that we're moving

1405

01:04:50,400 --> 01:04:46,090

away from that but he was pretty

1406

01:04:53,400 --> 01:04:50,410

cemented in in his ideas here but what

1407

01:04:55,620 --> 01:04:53,410

would happen to those that the things

1408

01:04:58,470 --> 01:04:55,630

that aren't necessarily tangible like

1409

01:05:01,650 --> 01:04:58,480

thought your your soul your

1410

01:05:03,510 --> 01:05:01,660

consciousness would you even know that

1411

01:05:07,500 --> 01:05:03,520

you were sucked into a black hole

1412

01:05:10,109 --> 01:05:07,510

right would your mind survive yeah well

1413

01:05:13,109 --> 01:05:10,119

again if consciousness is not

1414

01:05:15,390 --> 01:05:13,119

necessarily limited to the vibrational

1415

01:05:16,830 --> 01:05:15,400

structure of the molecules and the

1416

01:05:19,710 --> 01:05:16,840

cellular structure that makes up your

1417

01:05:21,930 --> 01:05:19,720

body but is extended beyond it and which

1418

01:05:24,180 --> 01:05:21,940

is something that we see measurably on

1419

01:05:26,940 --> 01:05:24,190

all kinds of scientific experiments you

1420

01:05:30,080 --> 01:05:26,950

can measure the heartbeats wave up to 50

1421

01:05:33,150 --> 01:05:30,090

feet away you can detect the effect of

1422

01:05:35,430 --> 01:05:33,160

observation or of intentionality on an

1423

01:05:36,810 --> 01:05:35,440

object princeton engineering anomalies

1424

01:05:41,730 --> 01:05:36,820

research group has done a ton of

1425

01:05:43,800 --> 01:05:41,740

research on that and we see that that we

1426

01:05:47,220 --> 01:05:43,810

are having an influence that's not just

1427

01:05:50,730 --> 01:05:47,230

local and when we look at certain

1428

01:05:53,609 --> 01:05:50,740

phenomena that is called remote viewing

1429

01:05:57,720 --> 01:05:53,619

or astral travel we start to realize

1430

01:06:00,180 --> 01:05:57,730

that the consciousness of a being can

1431

01:06:02,220 --> 01:06:00,190

separate itself from a body and there's

1432

01:06:05,580 --> 01:06:02,230

also researchers around death that have

1433

01:06:08,580 --> 01:06:05,590

found significant changes in the moment

1434

01:06:11,640 --> 01:06:08,590

that somebody dies and something happens

1435

01:06:12,990 --> 01:06:11,650

you know at that point where there's

1436

01:06:15,060 --> 01:06:13,000

something that's moving away from the

1437

01:06:18,930 --> 01:06:15,070

body and it's it's energetic it's

1438

01:06:20,460 --> 01:06:18,940

detectable so but where where is this

1439

01:06:21,430 --> 01:06:20,470

thing where is this body where is the

1440

01:06:23,170 --> 01:06:21,440

soul and you know

1441

01:06:26,290 --> 01:06:23,180

if you if you go towards a giant

1442

01:06:28,480 --> 01:06:26,300

macrocosmic black hole like you know the

1443

01:06:29,500 --> 01:06:28,490

black hole and Sagittarius a at the

1444

01:06:31,900 --> 01:06:29,510

center of our galaxy

1445

01:06:35,020 --> 01:06:31,910

hmm yeah you're gonna be you're gonna be

1446

01:06:37,900 --> 01:06:35,030

in the gravitational torsion forces

1447

01:06:41,109 --> 01:06:37,910

pulling around that that are going to

1448

01:06:43,089 --> 01:06:41,119

literally rip your body and ship and

1449

01:06:45,700 --> 01:06:43,099

everything else apart because it's

1450

01:06:48,250 --> 01:06:45,710

literally you know you're talking about

1451

01:06:51,460 --> 01:06:48,260

the most powerful maelstrom of

1452

01:06:54,370 --> 01:06:51,470

space-time that you can imagine and yet

1453

01:06:58,059 --> 01:06:54,380

you know if you go right down inside the

1454

01:07:01,240 --> 01:06:58,069

body what is a proton every proton in

1455

01:07:03,569 --> 01:07:01,250

our body is you know calculated to be

1456

01:07:08,109 --> 01:07:03,579

spinning at the speed of light at its

1457

01:07:11,319 --> 01:07:08,119

you know at its equator and that you

1458

01:07:14,109 --> 01:07:11,329

know somehow a single proton you see ask

1459

01:07:15,970 --> 01:07:14,119

like how long does a proton last well

1460

01:07:18,730 --> 01:07:15,980

the half-life of a proton is four

1461

01:07:22,180 --> 01:07:18,740

lifetimes of the universe so a one

1462

01:07:25,120 --> 01:07:22,190

proton has you know lasted from the

1463

01:07:27,010 --> 01:07:25,130

beginning of the of time as far as we

1464

01:07:29,460 --> 01:07:27,020

know it in this universe and will

1465

01:07:35,170 --> 01:07:29,470

continue to last four times that long

1466

01:07:37,059 --> 01:07:35,180

and it doesn't slow down why not how

1467

01:07:39,490 --> 01:07:37,069

does it keep spinning so fast how is it

1468

01:07:41,770 --> 01:07:39,500

still stable how are these how are the

1469

01:07:43,270 --> 01:07:41,780

protons actually doing this and the

1470

01:07:45,819 --> 01:07:43,280

explanation that makes the most sense

1471

01:07:47,650 --> 01:07:45,829

when you really get down to it is that

1472

01:07:49,630 --> 01:07:47,660

every single proton is basically a

1473

01:07:51,700 --> 01:07:49,640

little miniature black hole it's got a

1474

01:07:53,079 --> 01:07:51,710

singularity in it and it's spinning at

1475

01:07:55,809 --> 01:07:53,089

the speed of light right around its

1476

01:07:58,089 --> 01:07:55,819

equator the event horizon of the black

1477

01:08:00,849 --> 01:07:58,099

hole is literally the charge radius of

1478

01:08:02,470 --> 01:08:00,859

the proton and nessim Harriman has done

1479

01:08:04,359 --> 01:08:02,480

some fantastic work on this and he's a

1480

01:08:06,960 --> 01:08:04,369

colleague of mine in this school of

1481

01:08:10,240 --> 01:08:06,970

unified physics the resonance Academy

1482

01:08:12,280 --> 01:08:10,250

and as some amazing papers that explain

1483

01:08:15,670 --> 01:08:12,290

the math and the science of exactly how

1484

01:08:19,420 --> 01:08:15,680

this is happening and it works and and

1485

01:08:21,670 --> 01:08:19,430

yet it's also fantastic and beautiful

1486

01:08:26,240 --> 01:08:21,680

and if you went down to that scale yes

1487

01:08:29,860 --> 01:08:26,250

the forces around a single proton are

1488

01:08:32,900 --> 01:08:29,870

massive massive forces I mean otherwise

1489

01:08:36,010 --> 01:08:32,910

splitting one atomic nucleus in a

1490

01:08:38,990 --> 01:08:36,020

uranium atom how does it you know

1491

01:08:42,079 --> 01:08:39,000

devastate the at the scale that it

1492

01:08:43,970 --> 01:08:42,089

devastates in an atomic bomb I mean

1493

01:08:48,079 --> 01:08:43,980

you're literally talking about the power

1494

01:08:50,990 --> 01:08:48,089

in a single atom and and so we have

1495

01:08:52,610 --> 01:08:51,000

these massive forces at huge scales but

1496

01:08:54,950 --> 01:08:52,620

we also have them at small scales and

1497

01:08:58,340 --> 01:08:54,960

we're literally made of these forces

1498

01:09:00,680 --> 01:08:58,350

that are gargantuan and the vacuum

1499

01:09:02,690 --> 01:09:00,690

catastrophe has showed us that even in

1500

01:09:05,840 --> 01:09:02,700

the empty space all around us even

1501

01:09:10,220 --> 01:09:05,850

though it seems empty it's actually just

1502

01:09:13,550 --> 01:09:10,230

so finely tuned and highly balanced and

1503

01:09:16,430 --> 01:09:13,560

in such perfect tensegrities a fabric

1504

01:09:19,999 --> 01:09:16,440

that we don't see all this energy and

1505

01:09:23,690 --> 01:09:20,009

yet in a single cubic centimeter of

1506

01:09:26,570 --> 01:09:23,700

empty space literally it's been measured

1507

01:09:30,140 --> 01:09:26,580

that we should have more energy than in

1508

01:09:32,450 --> 01:09:30,150

the entire visible universe and that's

1509

01:09:34,670 --> 01:09:32,460

that's just a concept that like make

1510

01:09:37,400 --> 01:09:34,680

anybody's mind pop for a second like

1511

01:09:41,420 --> 01:09:37,410

wait a second what the whole universe in

1512

01:09:43,990 --> 01:09:41,430

a teaspoon but but this is actually what

1513

01:09:48,170 --> 01:09:44,000

we this is what we are embedded in and

1514

01:09:50,269 --> 01:09:48,180

and to think that you know the soul or

1515

01:09:52,760 --> 01:09:50,279

the deeper construct of consciousness or

1516

01:09:56,090 --> 01:09:52,770

information would be lost or destroyed

1517

01:09:58,400 --> 01:09:56,100

in the many maelstroms of existence that

1518

01:10:01,850 --> 01:09:58,410

we're embedded within I think is

1519

01:10:03,740 --> 01:10:01,860

short-sighted because after all here we

1520

01:10:05,360 --> 01:10:03,750

are and we've made it this far and

1521

01:10:07,790 --> 01:10:05,370

somehow my body's holding itself

1522

01:10:10,040 --> 01:10:07,800

together even though I'm flinging around

1523

01:10:12,290 --> 01:10:10,050

a planet traveling a thousand miles an

1524

01:10:14,660 --> 01:10:12,300

hour in the easterly direction while

1525

01:10:16,790 --> 01:10:14,670

it's hurtling around the Sun at 64

1526

01:10:18,350 --> 01:10:16,800

thousand miles an hour and the Sun is

1527

01:10:20,510 --> 01:10:18,360

moving through the galaxy at a few

1528

01:10:22,340 --> 01:10:20,520

hundred thousand miles an hour and the

1529

01:10:23,930 --> 01:10:22,350

galaxy is spinning with other galaxies

1530

01:10:27,290 --> 01:10:23,940

in the Laniakea cluster I mean we are

1531

01:10:30,230 --> 01:10:27,300

riding quite a ship here and yet here I

1532

01:10:32,600 --> 01:10:30,240

am just sitting in this chair talking to

1533

01:10:36,320 --> 01:10:32,610

you on this microphone everything seems

1534

01:10:38,870 --> 01:10:36,330

perfectly normal and still but it's not

1535

01:10:40,150 --> 01:10:38,880

it's not it's not and if we take that

1536

01:10:45,310 --> 01:10:40,160

concept once to

1537

01:10:48,160 --> 01:10:45,320

further which is if we go with time

1538

01:10:50,800 --> 01:10:48,170

running in one direction which I think I

1539

01:10:53,530 --> 01:10:50,810

think the physicists of the world in the

1540

01:10:57,730 --> 01:10:53,540

astrophysicists are starting to grasp

1541

01:11:00,190 --> 01:10:57,740

the idea that our universe is not finite

1542

01:11:03,370 --> 01:11:00,200

it's actually very infinite and will

1543

01:11:06,760 --> 01:11:03,380

continue to expand forever and forever

1544

01:11:10,870 --> 01:11:06,770

is a very long time and and so outside

1545

01:11:14,110 --> 01:11:10,880

of our observable universe those

1546

01:11:16,270 --> 01:11:14,120

galaxies that that are too old for that

1547

01:11:18,970 --> 01:11:16,280

light to have gotten here we'll never

1548

01:11:21,190 --> 01:11:18,980

see them because they're expanding and

1549

01:11:24,760 --> 01:11:21,200

we will never know how much or who or

1550

01:11:26,860 --> 01:11:24,770

what are there but this is this is the

1551

01:11:30,610 --> 01:11:26,870

interesting part of that if those

1552

01:11:33,460 --> 01:11:30,620

galaxies are now and planets and down to

1553

01:11:36,450 --> 01:11:33,470

the stars and the planets are our FTL

1554

01:11:40,510 --> 01:11:36,460

are faster than light in their expansion

1555

01:11:43,900 --> 01:11:40,520

what does that do with Einstein in that

1556

01:11:47,590 --> 01:11:43,910

once you pass the speed of light you are

1557

01:11:51,460 --> 01:11:47,600

now running backwards in space-time well

1558

01:11:53,260 --> 01:11:51,470

it's all relative Jimmy because again in

1559

01:11:56,350 --> 01:11:53,270

the local space-time where those

1560

01:12:00,060 --> 01:11:56,360

galaxies are traveling they're moving in

1561

01:12:03,190 --> 01:12:00,070

a field of space-time that's moving so

1562

01:12:05,980 --> 01:12:03,200

again you're only dealing with these

1563

01:12:09,700 --> 01:12:05,990

distortions of time you know time

1564

01:12:13,000 --> 01:12:09,710

dilation you know and and and the

1565

01:12:15,970 --> 01:12:13,010

effects of time dilation that happened

1566

01:12:18,340 --> 01:12:15,980

from gravitational acceleration etc when

1567

01:12:23,830 --> 01:12:18,350

you're accelerating relative to your

1568

01:12:27,040 --> 01:12:23,840

local inertial frame so let me jump in

1569

01:12:29,560 --> 01:12:27,050

let me jump in right there yeah you and

1570

01:12:34,270 --> 01:12:29,570

I are on a starship that's right and we

1571

01:12:35,980 --> 01:12:34,280

accelerate and we're at 99.999999% of

1572

01:12:39,550 --> 01:12:35,990

the speed of light right you and I are

1573

01:12:42,640 --> 01:12:39,560

right nearly frozen in time as relative

1574

01:12:46,390 --> 01:12:42,650

to earth to our original time we're

1575

01:12:49,660 --> 01:12:46,400

chasing a planet that is at 9 9 9 9 and

1576

01:12:53,510 --> 01:12:49,670

you know point the speed of light they

1577

01:12:55,820 --> 01:12:53,520

are now relative to us so

1578

01:12:57,890 --> 01:12:55,830

isn't there space-time what's the

1579

01:13:01,250 --> 01:12:57,900

difference between that planet being a

1580

01:13:05,180 --> 01:13:01,260

spaceship moving at that speed and us

1581

01:13:07,100 --> 01:13:05,190

being on an actual spaceship attempting

1582

01:13:07,610 --> 01:13:07,110

to travel at that speed and catch up to

1583

01:13:10,610 --> 01:13:07,620

it

1584

01:13:12,650 --> 01:13:10,620

that's my point there certainly there

1585

01:13:16,190 --> 01:13:12,660

certainly would be relativistic

1586

01:13:18,950 --> 01:13:16,200

differences between different planetary

1587

01:13:21,620 --> 01:13:18,960

systems and galactic systems that are

1588

01:13:24,680 --> 01:13:21,630

moving in space-time at a different

1589

01:13:27,230 --> 01:13:24,690

reference speed as compared to others so

1590

01:13:29,900 --> 01:13:27,240

you know and and that breaks all the way

1591

01:13:32,450 --> 01:13:29,910

down to if one galaxies spinning faster

1592

01:13:34,700 --> 01:13:32,460

than another galaxy there's huge

1593

01:13:36,650 --> 01:13:34,710

differences there and experiences of

1594

01:13:39,350 --> 01:13:36,660

time passing are going to be different

1595

01:13:42,110 --> 01:13:39,360

but as soon as you enter the frame of

1596

01:13:44,330 --> 01:13:42,120

reference of the space-time field that

1597

01:13:47,120 --> 01:13:44,340

is local to that area you're gonna be

1598

01:13:49,790 --> 01:13:47,130

experiencing the time at the same rate

1599

01:13:51,650 --> 01:13:49,800

as those people in that place it might

1600

01:13:55,670 --> 01:13:51,660

be different from the way it is on earth

1601

01:13:59,420 --> 01:13:55,680

but it's it's going to be local to that

1602

01:14:01,430 --> 01:13:59,430

frame of reference so in general though

1603

01:14:04,700 --> 01:14:01,440

this is not something that we really

1604

01:14:07,010 --> 01:14:04,710

need to ever experience outside of the

1605

01:14:09,050 --> 01:14:07,020

thought experiment because generally

1606

01:14:10,430 --> 01:14:09,060

what we know is that we're surrounded in

1607

01:14:12,170 --> 01:14:10,440

a galaxy by two hundred billion stars

1608

01:14:15,670 --> 01:14:12,180

there's plenty of civilizations and

1609

01:14:18,620 --> 01:14:15,680

stars that are all fairly you know

1610

01:14:21,470 --> 01:14:18,630

normalized in terms of our time frame of

1611

01:14:23,480 --> 01:14:21,480

reference that's right but I mean the

1612

01:14:26,420 --> 01:14:23,490

galaxies that are at the edges of the

1613

01:14:28,520 --> 01:14:26,430

universe again we're observing them as

1614

01:14:31,610 --> 01:14:28,530

if they're accelerating faster than

1615

01:14:33,710 --> 01:14:31,620

light because space time may be moving

1616

01:14:36,560 --> 01:14:33,720

at these incredible speeds you know

1617

01:14:39,200 --> 01:14:36,570

overall in that region of space but

1618

01:14:43,220 --> 01:14:39,210

again were also based on their distance

1619

01:14:46,160 --> 01:14:43,230

we're looking into the past and so maybe

1620

01:14:49,100 --> 01:14:46,170

at some point billions of years in the

1621

01:14:52,400 --> 01:14:49,110

past that area or region of space-time

1622

01:14:54,890 --> 01:14:52,410

was moving drastically and or maybe our

1623

01:14:57,020 --> 01:14:54,900

perception of those galaxies is somewhat

1624

01:14:58,580 --> 01:14:57,030

distorted because we're only just

1625

01:15:00,170 --> 01:14:58,590

picking up the light from them from

1626

01:15:02,390 --> 01:15:00,180

billions of years ago and there was

1627

01:15:05,000 --> 01:15:02,400

maybe a stabilization process before a

1628

01:15:06,339 --> 01:15:05,010

civilization formed it's difficult for

1629

01:15:09,550 --> 01:15:06,349

us to ascertain

1630

01:15:12,040 --> 01:15:09,560

you know is it are their civilizations

1631

01:15:12,459 --> 01:15:12,050

living at 99.9 percent of the speed of

1632

01:15:15,220 --> 01:15:12,469

light

1633

01:15:17,229 --> 01:15:15,230

somewhere else other than us we don't

1634

01:15:19,410 --> 01:15:17,239

know we can't say and will we ever have

1635

01:15:22,149 --> 01:15:19,420

that experience of beings like that

1636

01:15:24,250 --> 01:15:22,159

knows and if we did we wouldn't know

1637

01:15:26,080 --> 01:15:24,260

when we got there because we'd be back

1638

01:15:28,330 --> 01:15:26,090

to normal is Asia that's right and

1639

01:15:30,700 --> 01:15:28,340

that's the most fascinating part I

1640

01:15:34,390 --> 01:15:30,710

talked about this a couple of months ago

1641

01:15:36,430 --> 01:15:34,400

only that my mind goes I I read and

1642

01:15:38,740 --> 01:15:36,440

listen to all of these physicists and

1643

01:15:41,379 --> 01:15:38,750

and it just forces me to go into

1644

01:15:44,229 --> 01:15:41,389

fantastic thought and one of them would

1645

01:15:47,620 --> 01:15:44,239

be this if you are in a galaxy that is

1646

01:15:51,220 --> 01:15:47,630

now FTL right you can't even see it

1647

01:15:54,970 --> 01:15:51,230

now it's invisible right the laia is now

1648

01:15:59,770 --> 01:15:54,980

not with you relative do they once they

1649

01:16:00,910 --> 01:15:59,780

pass FTL do they start to live in

1650

01:16:04,390 --> 01:16:00,920

Reverse

1651

01:16:06,970 --> 01:16:04,400

in other words as they are expanding out

1652

01:16:10,330 --> 01:16:06,980

right and they continue through the

1653

01:16:13,419 --> 01:16:10,340

force of dark energy to increase maybe

1654

01:16:14,290 --> 01:16:13,429

their double FTL or something else

1655

01:16:18,790 --> 01:16:14,300

that's interesting

1656

01:16:23,080 --> 01:16:18,800

Jimmy is is that once you account if you

1657

01:16:27,250 --> 01:16:23,090

stop suggesting that stars in the galaxy

1658

01:16:28,600 --> 01:16:27,260

are simply moving through space-time in

1659

01:16:31,479 --> 01:16:28,610

other words they're pushing their way

1660

01:16:34,209 --> 01:16:31,489

through space-time and instead you

1661

01:16:37,359 --> 01:16:34,219

suggest that the entire galaxy and the

1662

01:16:39,280 --> 01:16:37,369

space-time of around all those stars is

1663

01:16:41,229 --> 01:16:39,290

actually what's moving when you

1664

01:16:44,800 --> 01:16:41,239

recognize that space is the thing that's

1665

01:16:47,680 --> 01:16:44,810

moving all the way around then all the

1666

01:16:50,109 --> 01:16:47,690

sudden the mass energy that we've lost

1667

01:16:54,550 --> 01:16:50,119

the so-called dark energy and dark mass

1668

01:16:56,859 --> 01:16:54,560

are basically negated because the mass

1669

01:16:59,470 --> 01:16:56,869

energy that's missing is actually the

1670

01:17:01,359 --> 01:16:59,480

energy of space-time itself that's

1671

01:17:04,030 --> 01:17:01,369

moving along with those stars and

1672

01:17:05,649 --> 01:17:04,040

planets so that's one thing and then the

1673

01:17:07,330 --> 01:17:05,659

other thing that I'll just say is I

1674

01:17:10,030 --> 01:17:07,340

don't think things go backwards after

1675

01:17:13,600 --> 01:17:10,040

they go faster than light I think that

1676
01:17:15,729 --> 01:17:13,610
once you cross the light barrier you are

1677
01:17:17,640 --> 01:17:15,739
in sort of a different dimensional

1678
01:17:19,590 --> 01:17:17,650
experience of time and other

1679
01:17:22,610 --> 01:17:19,600
words you know relative to you other

1680
01:17:25,680 --> 01:17:22,620
things appear to be stopped but that

1681
01:17:27,899 --> 01:17:25,690
that that you know in that state it's

1682
01:17:30,750 --> 01:17:27,909
not there's always going to be a

1683
01:17:32,220 --> 01:17:30,760
relative local timeframe so like if you

1684
01:17:34,830 --> 01:17:32,230
build a ship and you build an envelope

1685
01:17:36,390 --> 01:17:34,840
around that ship and you start traveling

1686
01:17:38,700 --> 01:17:36,400
faster than light and jumping to other

1687
01:17:40,979 --> 01:17:38,710
planets it actually doesn't matter how

1688
01:17:44,070 --> 01:17:40,989

fast you go oversea there's actually a

1689

01:17:47,340 --> 01:17:44,080

complete loss of relevance there at that

1690

01:17:50,370 --> 01:17:47,350

point because once you once you learn

1691

01:17:53,280 --> 01:17:50,380

how to actually relocate your object in

1692

01:17:56,850 --> 01:17:53,290

space-time it can relocate itself to a

1693

01:17:59,010 --> 01:17:56,860

new position at any speed and everything

1694

01:18:03,180 --> 01:17:59,020

in the surrounding space-time will still

1695

01:18:04,979 --> 01:18:03,190

be in the same relevant timeframe in

1696

01:18:07,229 --> 01:18:04,989

other words you won't have time dilation

1697

01:18:09,450 --> 01:18:07,239

right so you can travel to other planets

1698

01:18:12,090 --> 01:18:09,460

you can come back and your you know your

1699

01:18:14,880 --> 01:18:12,100

girlfriend's not 40 years old or 80

1700

01:18:17,669 --> 01:18:14,890

years older you avoid all of those

1701

01:18:19,320 --> 01:18:17,679

constructs as soon as you remove the

1702

01:18:22,620 --> 01:18:19,330

time dilation effect which is really

1703

01:18:24,660 --> 01:18:22,630

just based on warping space-time or

1704

01:18:28,350 --> 01:18:24,670

acceleration is that where I'm Stein

1705

01:18:32,459 --> 01:18:28,360

that very paradox that is that where

1706

01:18:35,610 --> 01:18:32,469

Einstein got it way wrong in that if we

1707

01:18:37,950 --> 01:18:35,620

did if we did cross the speed of light

1708

01:18:41,399 --> 01:18:37,960

in our starship now we travel backwards

1709

01:18:43,709 --> 01:18:41,409

now we never left where we came from and

1710

01:18:46,649 --> 01:18:43,719

that yeah that that is impossible right

1711

01:18:48,630 --> 01:18:46,659

yeah it's impossible and it's it's a

1712

01:18:50,189 --> 01:18:48,640

paradox that I dealt with in high school

1713

01:18:52,470 --> 01:18:50,199

a lot and I started thinking of it that

1714

01:18:55,320 --> 01:18:52,480

way like what if you could get to a star

1715

01:18:57,959 --> 01:18:55,330

and back to your planet before the light

1716

01:19:01,110 --> 01:18:57,969

from that star reaches the planet would

1717

01:19:04,530 --> 01:19:01,120

you have gone back in time but again

1718

01:19:07,649 --> 01:19:04,540

that's suggesting that somehow you would

1719

01:19:10,110 --> 01:19:07,659

be able to accelerate distort time to

1720

01:19:11,820 --> 01:19:10,120

that level and then that somehow you're

1721

01:19:14,880 --> 01:19:11,830

distorting time to the point where

1722

01:19:17,880 --> 01:19:14,890

you're going backwards in time and and I

1723

01:19:20,250 --> 01:19:17,890

think that you know is it is that

1724

01:19:23,280 --> 01:19:20,260

something that's possible is it possible

1725

01:19:25,620 --> 01:19:23,290

to time-travel I mean I'm not going to

1726

01:19:29,040 --> 01:19:25,630

say no I'm not going to discount that

1727

01:19:31,140 --> 01:19:29,050

possibility because I certainly think

1728

01:19:31,439 --> 01:19:31,150

it's possible for information to travel

1729

01:19:35,399 --> 01:19:31,449

through

1730

01:19:38,009 --> 01:19:35,409

time to some extent but but that the

1731

01:19:39,870 --> 01:19:38,019

that you know that this idea that you

1732

01:19:42,239 --> 01:19:39,880

travel in a ship and you start warping

1733

01:19:44,640 --> 01:19:42,249

space-time to this extent this is what

1734

01:19:46,410 --> 01:19:44,650

really violates Einstein's principles

1735

01:19:49,049 --> 01:19:46,420

and I think it's where he was actually

1736

01:19:51,979 --> 01:19:49,059

right is that you can't violate certain

1737

01:19:54,810 --> 01:19:51,989

principles of causality in that format

1738

01:19:57,600 --> 01:19:54,820

because there is a limit to this sort of

1739

01:20:00,390 --> 01:19:57,610

time dilation and acceleration thing so

1740

01:20:02,790 --> 01:20:00,400

anyway we're going super no wait no no

1741

01:20:09,989 --> 01:20:02,800

we're right we're right where we need to

1742

01:20:14,310 --> 01:20:09,999

be man see but this is especially you

1743

01:20:19,049 --> 01:20:14,320

know Einstein and in some ways was a bit

1744

01:20:22,229 --> 01:20:19,059

of a hypocrite in that time traveling to

1745

01:20:24,509 --> 01:20:22,239

the future in its basic form just you

1746

01:20:25,890 --> 01:20:24,519

know traveling at a certain speed and

1747

01:20:28,169 --> 01:20:25,900

returning back to Earth you're gonna

1748

01:20:31,140 --> 01:20:28,179

return in the future that would be a

1749

01:20:34,199 --> 01:20:31,150

form of time travel but traveling

1750

01:20:36,149 --> 01:20:34,209

backwards in time he that gets a lot

1751

01:20:41,399 --> 01:20:36,159

more difficult if not nearly impossible

1752

01:20:45,270 --> 01:20:41,409

but yet time loops for Einstein were

1753

01:20:46,979 --> 01:20:45,280

okay so it was it was something for me

1754

01:20:49,169 --> 01:20:46,989

that I couldn't really wrap my head

1755

01:20:51,149 --> 01:20:49,179

around he can't have it both ways and he

1756

01:20:52,919 --> 01:20:51,159

wanted it both ways no it was a

1757

01:20:55,529 --> 01:20:52,929

conflicted time period and when you

1758

01:20:58,020 --> 01:20:55,539

really look at Einsteins work you know

1759

01:21:01,229 --> 01:20:58,030

you start with special relativity in

1760

01:21:03,180 --> 01:21:01,239

which you know all the guys around him

1761

01:21:04,919 --> 01:21:03,190

you got to think that it's also like the

1762

01:21:06,689 --> 01:21:04,929

way the media the press and the other

1763

01:21:09,299 --> 01:21:06,699

scientists are interpreting his work

1764

01:21:11,669 --> 01:21:09,309

right so he he really should special

1765

01:21:13,100 --> 01:21:11,679

relativity defines the photon defines

1766

01:21:15,569 --> 01:21:13,110

how light works and all the sudden

1767

01:21:17,339 --> 01:21:15,579

everybody's like whoohoo there's no such

1768

01:21:19,979 --> 01:21:17,349

thing as the ether we don't need the

1769

01:21:21,509 --> 01:21:19,989

luminiferous ether anymore right yeah we

1770

01:21:22,549 --> 01:21:21,519

can get rid of that because now we know

1771

01:21:25,259 --> 01:21:22,559

how light works

1772

01:21:28,350 --> 01:21:25,269

ten years later Einstein publishes

1773

01:21:30,779 --> 01:21:28,360

general relativity and all of a sudden

1774

01:21:33,239 --> 01:21:30,789

he's talking about this space-time

1775

01:21:34,850 --> 01:21:33,249

fabric which is bending light timing on

1776

01:21:36,930 --> 01:21:34,860

it everything is regulated by this

1777

01:21:39,870 --> 01:21:36,940

underlying fabric which he calls

1778

01:21:42,719 --> 01:21:39,880

space-time and his teacher Lorenz is

1779

01:21:45,450 --> 01:21:42,729

like Einstein you know you just prove

1780

01:21:48,030 --> 01:21:45,460

that's that the ether exists

1781

01:21:50,940 --> 01:21:48,040

and I as dyes leggo I you know like I

1782

01:21:52,950 --> 01:21:50,950

did and and he realized that that he

1783

01:21:54,300 --> 01:21:52,960

just proved that the ether exists so you

1784

01:21:57,810 --> 01:21:54,310

know what he does next as he does a

1785

01:22:00,780 --> 01:21:57,820

paper on the ether and he writes about

1786

01:22:03,090 --> 01:22:00,790

how basically general relativity

1787

01:22:06,210 --> 01:22:03,100

requires this underlying ether this

1788

01:22:08,400 --> 01:22:06,220

fundamental field of space-time energy

1789

01:22:09,810 --> 01:22:08,410

which would prove you know the

1790

01:22:11,520 --> 01:22:09,820

philosophers were right throughout

1791

01:22:13,560 --> 01:22:11,530

history that there is a such thing as

1792

01:22:15,360 --> 01:22:13,570

elementals that you know all of these

1793

01:22:18,120 --> 01:22:15,370

things were wrapped into the ether these

1794

01:22:19,980 --> 01:22:18,130

ancient spiritual traditions and and yet

1795

01:22:21,870 --> 01:22:19,990

here's Einstein and he's very directly

1796

01:22:23,370 --> 01:22:21,880

saying the ether exists and you can't

1797

01:22:24,840 --> 01:22:23,380

have general relativity without the

1798

01:22:28,140 --> 01:22:24,850

ether but you know what happens

1799

01:22:30,390 --> 01:22:28,150

everybody ignores it nobody listens to

1800

01:22:32,670 --> 01:22:30,400

him it's kind of like you know always

1801

01:22:35,280 --> 01:22:32,680

now he's the crazy old man yeah I know

1802

01:22:37,340 --> 01:22:35,290

it's just he I gotta take a break right

1803

01:22:40,110 --> 01:22:37,350

here but he almost wrote too many papers

1804

01:22:43,200 --> 01:22:40,120

right he should he should have just

1805

01:22:47,430 --> 01:22:43,210

stopped with general and special and let

1806

01:22:49,740 --> 01:22:47,440

things ride yeah

1807

01:22:55,080 --> 01:22:49,750

we'll be right back our guest night Adam

1808

01:23:05,040 --> 01:23:02,840

[Music]

1809

01:23:06,810 --> 01:23:05,050

welcome back fade to black what a great

1810

01:23:09,080 --> 01:23:06,820

conversation tonight with Adam Apollo I

1811

01:23:13,680 --> 01:23:09,090

promise that there will be a quiz later

1812

01:23:16,980 --> 01:23:13,690

on tonight can follow Adam on Twitter at

1813

01:23:19,290 --> 01:23:16,990

Adam Apollo and all of the links not all

1814

01:23:21,450 --> 01:23:19,300
of the links but a lot of the links to

1815

01:23:24,470 --> 01:23:21,460
his different web sites are right there

1816

01:23:28,140 --> 01:23:24,480
at Jimmy Church radio calm now Adam okay

1817

01:23:30,840 --> 01:23:28,150
there's always this one fundamental

1818

01:23:33,330 --> 01:23:30,850
question all this talk of physics is

1819

01:23:36,990 --> 01:23:33,340
great all of this quantum and string

1820

01:23:40,950 --> 01:23:37,000
theory this is all great but how is et

1821

01:23:44,370 --> 01:23:40,960
getting here now we we said earlier

1822

01:23:45,840 --> 01:23:44,380
tonight and I talked about this nearly

1823

01:23:48,480 --> 01:23:45,850
every night on the show about the size

1824

01:23:50,910 --> 01:23:48,490
not only of the universe but just our

1825

01:23:54,540 --> 01:23:50,920
Milky Way is ginormous there's probably

1826

01:23:57,240 --> 01:23:54,550

up to around a trillion planets in our

1827

01:24:00,360 --> 01:23:57,250

Milky Way a trillion a trillion planets

1828

01:24:02,400 --> 01:24:00,370

that's that's a crazy number that has

1829

01:24:05,640 --> 01:24:02,410

been creeping up it's probably gonna get

1830

01:24:08,720 --> 01:24:05,650

bigger out of that we are talking about

1831

01:24:12,650 --> 01:24:08,730

not not tens of thousands not millions

1832

01:24:15,300 --> 01:24:12,660

but maybe a billion or two intelligent

1833

01:24:18,260 --> 01:24:15,310

civilizations out there how many of them

1834

01:24:20,760 --> 01:24:18,270

know about planet Earth well probably

1835

01:24:23,790 --> 01:24:20,770

thousands and thousands it's just a

1836

01:24:25,680 --> 01:24:23,800

crazy number sure how are they getting

1837

01:24:28,620 --> 01:24:25,690

here it can't be from the same

1838

01:24:31,860 --> 01:24:28,630

technology or are they sharing it how

1839

01:24:36,060 --> 01:24:31,870

are they getting here well in my

1840

01:24:40,380 --> 01:24:36,070

experience both through having contact

1841

01:24:42,860 --> 01:24:40,390

experiences and also through asking lots

1842

01:24:45,840 --> 01:24:42,870

of really hard questions in

1843

01:24:48,810 --> 01:24:45,850

conversations with some of my star

1844

01:24:52,590 --> 01:24:48,820

family that's out there I've unpacked a

1845

01:24:54,330 --> 01:24:52,600

lot of that and you know I I'm not sure

1846

01:24:56,670 --> 01:24:54,340

that this shows the right place to tell

1847

01:24:58,860 --> 01:24:56,680

the whole story but I'm happy to do it

1848

01:25:01,350 --> 01:24:58,870

there's you know there's a show that I'm

1849

01:25:05,040 --> 01:25:01,360

on called interviews with Edie that I

1850

01:25:07,260 --> 01:25:05,050

mentioned earlier I say Maya are zoomin

1851
01:25:09,510 --> 01:25:07,270
Langdon's show I've seen along in that

1852
01:25:11,220 --> 01:25:09,520
in that show in the first episode that

1853
01:25:14,310 --> 01:25:11,230
I'm in that's gonna be coming out soon I

1854
01:25:15,660 --> 01:25:14,320
tell really the full comprehensive story

1855
01:25:17,840 --> 01:25:15,670
of my direct

1856
01:25:19,530 --> 01:25:17,850
contact experience where I'm a physical

1857
01:25:20,310 --> 01:25:19,540
extraterrestrial ambassador in the

1858
01:25:24,689 --> 01:25:20,320
middle of the desert

1859
01:25:26,880 --> 01:25:24,699
and then I started having these direct

1860
01:25:29,850 --> 01:25:26,890
contact and communication experiences

1861
01:25:32,340 --> 01:25:29,860
where I'd call in ships I talked to them

1862
01:25:34,169 --> 01:25:32,350
have telepathic communication of

1863
01:25:37,020 --> 01:25:34,179

different kinds they would show me

1864

01:25:39,570 --> 01:25:37,030

things they'd confirm things for me in

1865

01:25:42,260 --> 01:25:39,580

the way that they fly in the sky as well

1866

01:25:46,140 --> 01:25:42,270

as through you know people around me and

1867

01:25:48,270 --> 01:25:46,150

did a huge amount of study into what I

1868

01:25:51,330 --> 01:25:48,280

call transpersonal psychology projects

1869

01:25:55,470 --> 01:25:51,340

which is looking at people's memories

1870

01:25:58,650 --> 01:25:55,480

direct experiences and and dreams and

1871

01:26:00,930 --> 01:25:58,660

looking for valuable data that verifies

1872

01:26:02,910 --> 01:26:00,940

and crossovers and validates other data

1873

01:26:06,180 --> 01:26:02,920

that you gather from other people's

1874

01:26:08,280 --> 01:26:06,190

experiences and and looking logically at

1875

01:26:10,050 --> 01:26:08,290

a field of a hundred people that have

1876

01:26:12,600 --> 01:26:10,060

basically described the same exact

1877

01:26:15,419 --> 01:26:12,610

planet and don't know each other at all

1878

01:26:17,189 --> 01:26:15,429

and yet all have similar experiences of

1879

01:26:19,560 --> 01:26:17,199

this planet all describe their species

1880

01:26:21,300 --> 01:26:19,570

the same way I look at that as valuable

1881

01:26:23,160 --> 01:26:21,310

data whether it's true or not it's

1882

01:26:25,290 --> 01:26:23,170

valuable that a hundred people you know

1883

01:26:28,050 --> 01:26:25,300

that I happen to come into contact with

1884

01:26:30,570 --> 01:26:28,060

all describe this place the same way and

1885

01:26:33,720 --> 01:26:30,580

so as a researcher that that kind of

1886

01:26:37,229 --> 01:26:33,730

stuff is really important to me but what

1887

01:26:38,910 --> 01:26:37,239

I found in in the sense of technology

1888

01:26:41,310 --> 01:26:38,920

traveling faster than light there's a

1889

01:26:43,020 --> 01:26:41,320

lot of different ways to do it and some

1890

01:26:46,169 --> 01:26:43,030

of those ways we've actually seen

1891

01:26:48,390 --> 01:26:46,179

replication of on this planet because

1892

01:26:51,800 --> 01:26:48,400

there have been crafts that crashed and

1893

01:26:55,400 --> 01:26:51,810

we've had reproduction vehicles built or

1894

01:26:58,860 --> 01:26:55,410

you know ships brought back online and

1895

01:27:01,229 --> 01:26:58,870

one thing that seems to be pretty

1896

01:27:02,729 --> 01:27:01,239

standard about the technology of the

1897

01:27:05,459 --> 01:27:02,739

kinds of ships that have actually

1898

01:27:06,720 --> 01:27:05,469

crashed on our world which tells us

1899

01:27:09,630 --> 01:27:06,730

something about their level of

1900

01:27:12,500 --> 01:27:09,640

technology is that they seem to be high

1901

01:27:14,370 --> 01:27:12,510

like super highly intense

1902

01:27:17,370 --> 01:27:14,380

electromagnetic fields and in

1903

01:27:21,030 --> 01:27:17,380

particularly magnetic fields and that

1904

01:27:23,750 --> 01:27:21,040

through very very powerful magnetic

1905

01:27:27,570 --> 01:27:23,760

fields you can begin to warp space-time

1906

01:27:29,520 --> 01:27:27,580

around an object and that can distort

1907

01:27:31,799 --> 01:27:29,530

gravitational fields

1908

01:27:33,839 --> 01:27:31,809

and then you know because as you move

1909

01:27:36,359 --> 01:27:33,849

space-time you're movin gravity and then

1910

01:27:39,870 --> 01:27:36,369

also allow that object to accelerate and

1911

01:27:43,620 --> 01:27:39,880

or jump or warp when traveling through

1912

01:27:47,279 --> 01:27:43,630

space now that's interesting technology

1913

01:27:50,160 --> 01:27:47,289

to me but it's not at all to any like

1914

01:27:54,149 --> 01:27:50,170

you know it's that's basically like a a

1915

01:27:57,660 --> 01:27:54,159

Nokia you know flip phone with a liquid

1916

01:28:00,750 --> 01:27:57,670

crystal display versus like the new

1917

01:28:04,169 --> 01:28:00,760

iPhone 11 pro right like in terms of

1918

01:28:06,149 --> 01:28:04,179

technological difference between

1919

01:28:08,700 --> 01:28:06,159

something like that and something like

1920

01:28:11,010 --> 01:28:08,710

the stuff that the Pleiadians and

1921

01:28:13,379 --> 01:28:11,020

Syrians and Arcturians drive and at that

1922

01:28:16,799 --> 01:28:13,389

level their their technology is

1923

01:28:20,279 --> 01:28:16,809

literally forming these isolation fields

1924

01:28:22,200 --> 01:28:20,289

around a craft so the way that I've

1925

01:28:24,870 --> 01:28:22,210

described it many times and I've done

1926

01:28:26,580 --> 01:28:24,880

lots of presentations on this and gotten

1927

01:28:30,089 --> 01:28:26,590

deeper into the physics then I'll get

1928

01:28:32,430 --> 01:28:30,099

into this you know in this talk but that

1929

01:28:34,470 --> 01:28:32,440

basically you need a containment system

1930

01:28:39,450 --> 01:28:34,480

for the internal space-time field so you

1931

01:28:41,939 --> 01:28:39,460

have to create a spin field or spectral

1932

01:28:45,240 --> 01:28:41,949

vibrational frequency spin field around

1933

01:28:47,790 --> 01:28:45,250

the area that's inside the craft such an

1934

01:28:50,879 --> 01:28:47,800

extent that it has a livable environment

1935

01:28:53,910 --> 01:28:50,889

has a basic gravitational field and then

1936

01:28:56,819 --> 01:28:53,920

you need a second layer of what I call

1937

01:28:58,529 --> 01:28:56,829

the ring system that is causing the

1938

01:29:01,229 --> 01:28:58,539

disruption in space-time in other words

1939

01:29:03,629 --> 01:29:01,239

it's it's literally matching the

1940

01:29:05,970 --> 01:29:03,639

geometry of space to such an extent that

1941

01:29:08,970 --> 01:29:05,980

the internal space-time in the external

1942

01:29:11,279 --> 01:29:08,980

space-time suddenly detach from each

1943

01:29:13,350 --> 01:29:11,289

other so you're creating a break in the

1944

01:29:16,799 --> 01:29:13,360

space-time field and then there's an

1945

01:29:19,229 --> 01:29:16,809

outer ring that stays tuned to the inner

1946

01:29:21,359 --> 01:29:19,239

ring so it stays connected in the

1947

01:29:24,830 --> 01:29:21,369

structure architectural a of the ship

1948

01:29:27,270 --> 01:29:24,840

which the job of that ring system is to

1949

01:29:28,859 --> 01:29:27,280

literally create a field around the

1950

01:29:31,200 --> 01:29:28,869

craft that is communicating to

1951

01:29:33,120 --> 01:29:31,210

space-time the basic frequency

1952

01:29:37,290 --> 01:29:33,130

information of where that craft is

1953

01:29:40,470 --> 01:29:37,300

located so an object once it's free from

1954

01:29:42,839 --> 01:29:40,480

the general gravitational vortices of a

1955

01:29:43,290 --> 01:29:42,849

planetary system solar system galaxies

1956

01:29:44,880 --> 01:29:43,300

etc

1957

01:29:47,790 --> 01:29:44,890

in other words once it's achieved

1958

01:29:50,130 --> 01:29:47,800

sovereignty in its own space-time field

1959

01:29:51,720 --> 01:29:50,140

and it's disconnected from the

1960

01:29:54,540 --> 01:29:51,730

surrounding space-time so it's got a

1961

01:29:56,280 --> 01:29:54,550

like bubble around it so to speak now

1962

01:29:59,190 --> 01:29:56,290

the question is how does that object

1963

01:30:02,520 --> 01:29:59,200

move well in order for the object to

1964

01:30:04,470 --> 01:30:02,530

move it has to create a torsion effect

1965

01:30:07,020 --> 01:30:04,480

on the surrounding space-time which

1966

01:30:08,730 --> 01:30:07,030

means that the field of light or the

1967

01:30:11,160 --> 01:30:08,740

field of space-time at the edge of the

1968

01:30:12,840 --> 01:30:11,170

bubble the event horizon so to speak has

1969

01:30:15,630 --> 01:30:12,850

to communicate to the surrounding

1970

01:30:17,190 --> 01:30:15,640

space-time what's going on in that

1971

01:30:20,730 --> 01:30:17,200

bubble and how it's moving and spinning

1972

01:30:22,860 --> 01:30:20,740

now there's ways to move that field in

1973

01:30:25,680 --> 01:30:22,870

such a way that it propels you or just

1974

01:30:28,740 --> 01:30:25,690

makes you move and travel in a certain

1975

01:30:32,610 --> 01:30:28,750

direction but there's other ways where

1976

01:30:35,370 --> 01:30:32,620

that entire field can literally match

1977

01:30:38,430 --> 01:30:35,380

the field of space-time in a very very

1978

01:30:39,960 --> 01:30:38,440

distant location and one thing that

1979

01:30:42,330 --> 01:30:39,970

they've showed me a long time ago is

1980

01:30:45,540 --> 01:30:42,340

that you know if you're trying to jump a

1981

01:30:49,110 --> 01:30:45,550

spacecraft across the galaxy it's pretty

1982

01:30:51,030 --> 01:30:49,120

difficult to just use information of the

1983

01:30:53,160 --> 01:30:51,040

Stars in that general region of the

1984

01:30:55,560 --> 01:30:53,170

galaxy because from your standpoint

1985

01:30:57,120 --> 01:30:55,570

those stars might be you know five

1986

01:30:59,850 --> 01:30:57,130

thousand light-years away or ten

1987

01:31:02,760 --> 01:30:59,860

thousand light-years away so the the

1988

01:31:05,280 --> 01:31:02,770

actual spectral frequencies of the stars

1989

01:31:07,770 --> 01:31:05,290

that you're reading are the way that

1990

01:31:09,720 --> 01:31:07,780

they were vibrating five thousand years

1991

01:31:12,300 --> 01:31:09,730

ago four thousand years ago right and

1992

01:31:15,030 --> 01:31:12,310

stars get older right so stars evolve

1993

01:31:18,380 --> 01:31:15,040

and they burn up parts of their elements

1994

01:31:21,240 --> 01:31:18,390

and they have a very specific spectral

1995

01:31:23,370 --> 01:31:21,250

frequency that we can measure the

1996

01:31:25,140 --> 01:31:23,380

spectral analysis of stars is for

1997

01:31:28,830 --> 01:31:25,150

anybody who wants to look this up and

1998

01:31:30,840 --> 01:31:28,840

and yet that's gonna change over time so

1999

01:31:34,170 --> 01:31:30,850

what you need is some kind of beacon

2000

01:31:36,960 --> 01:31:34,180

system of stars that don't change as

2001

01:31:39,300 --> 01:31:36,970

drastically within these sort of large

2002

01:31:41,460 --> 01:31:39,310

time frames and it turns out we have a

2003

01:31:44,190 --> 01:31:41,470

beacon system just like that and they're

2004

01:31:48,330 --> 01:31:44,200

called pulsars pulsars have this

2005

01:31:50,760 --> 01:31:48,340

incredibly clean measurable energetic

2006

01:31:52,470 --> 01:31:50,770

frequency change over extremely long

2007

01:31:54,570 --> 01:31:52,480

periods of time we're talking thousands

2008

01:31:55,609 --> 01:31:54,580

of years so they can be thousands of

2009

01:31:58,639 --> 01:31:55,619

light-years of

2010

01:32:00,259 --> 01:31:58,649

and yet you know you see a pulsar that's

2011

01:32:02,060 --> 01:32:00,269

a thousand light years away you measure

2012

01:32:04,009 --> 01:32:02,070

its pulse for a very short amount of

2013

01:32:07,669 --> 01:32:04,019

time and you have an extremely

2014

01:32:10,459 --> 01:32:07,679

predictable level of frequency change

2015

01:32:12,679 --> 01:32:10,469

and vibration and even its movement over

2016

01:32:15,889 --> 01:32:12,689

a certain period of time can all be

2017

01:32:18,199 --> 01:32:15,899

predicted fairly easily and now you've

2018

01:32:21,199 --> 01:32:18,209

got a beacon point that can be one of

2019

01:32:23,750 --> 01:32:21,209

three points that you're triangulating a

2020

01:32:25,909 --> 01:32:23,760

new position between and that new

2021

01:32:29,270 --> 01:32:25,919

position is basically an area of

2022

01:32:31,250 --> 01:32:29,280

space-time which has a specific sort of

2023

01:32:34,850 --> 01:32:31,260

combination of vibrational frequencies

2024

01:32:36,770 --> 01:32:34,860

that are local to that area and what's

2025

01:32:39,169 --> 01:32:36,780

happening in the craft is the craft is

2026

01:32:41,419 --> 01:32:39,179

telling the surrounding space-time where

2027

01:32:44,089 --> 01:32:41,429

the craft is now located instead of the

2028

01:32:46,129 --> 01:32:44,099

other way around so instead of like I'm

2029

01:32:48,469 --> 01:32:46,139

looking outside of me and I know I'm

2030

01:32:50,839 --> 01:32:48,479

sitting in a chair in my office and

2031

01:32:53,299 --> 01:32:50,849

there's my library over here and I know

2032

01:32:55,009 --> 01:32:53,309

where I'm at because I'm receiving light

2033

01:32:57,259 --> 01:32:55,019

bouncing off of all these objects

2034

01:32:59,779 --> 01:32:57,269

telling me where I am it goes the

2035

01:33:02,029 --> 01:32:59,789

opposite way where the object of this

2036

01:33:05,629 --> 01:33:02,039

craft is actually telling space-time ah

2037

01:33:09,290 --> 01:33:05,639

this is what my surrounding frequency

2038

01:33:11,389 --> 01:33:09,300

field is and space-time doesn't know any

2039

01:33:13,609 --> 01:33:11,399

different it's the same thing as if in

2040

01:33:16,699 --> 01:33:13,619

your mind you close your eyes and you

2041

01:33:19,219 --> 01:33:16,709

imagine you go outside or you imagine

2042

01:33:21,619 --> 01:33:19,229

you go in the backyard or you imagine

2043

01:33:23,929 --> 01:33:21,629

you fly up above your house when you get

2044

01:33:27,049 --> 01:33:23,939

really good at this you realize that

2045

01:33:29,600 --> 01:33:27,059

you're capable of seeing these locations

2046

01:33:31,520 --> 01:33:29,610

in these areas exactly like they are

2047

01:33:34,879 --> 01:33:31,530

whether or not you've ever floated above

2048

01:33:36,770 --> 01:33:34,889

your house and it turns out that after a

2049

01:33:38,869 --> 01:33:36,780

little bit of practice you can actually

2050

01:33:40,489 --> 01:33:38,879

get information so you can go float

2051
01:33:42,229 --> 01:33:40,499
above your house and you can look down

2052
01:33:43,909 --> 01:33:42,239
the road and you can see a car that's

2053
01:33:46,069 --> 01:33:43,919
sitting there that's not usually sitting

2054
01:33:49,159 --> 01:33:46,079
on your road and you can come back down

2055
01:33:51,529 --> 01:33:49,169
get in your body go outside and look and

2056
01:33:54,169 --> 01:33:51,539
sure enough there's that car and this is

2057
01:33:56,389 --> 01:33:54,179
called remote viewing but this is a

2058
01:34:00,229 --> 01:33:56,399
practical application of the ability of

2059
01:34:02,629 --> 01:34:00,239
consciousness to perceive space-time

2060
01:34:05,409 --> 01:34:02,639
from whichever position it wants to

2061
01:34:08,390 --> 01:34:05,419
relatively and applying that technology

2062
01:34:10,280 --> 01:34:08,400
to superluminal spacecraft or

2063
01:34:11,689 --> 01:34:10,290

craft that's able to move faster than

2064

01:34:13,820 --> 01:34:11,699

light in other words that's able to

2065

01:34:16,880 --> 01:34:13,830

separate itself from the surrounding

2066

01:34:20,360 --> 01:34:16,890

space-time it's time enough to be able

2067

01:34:22,490 --> 01:34:20,370

to move without accelerating is critical

2068

01:34:25,340 --> 01:34:22,500

to being able to jump across the galaxy

2069

01:34:27,560 --> 01:34:25,350

and relocate yourself to another star

2070

01:34:29,930 --> 01:34:27,570

system or another planetary system and

2071

01:34:32,750 --> 01:34:29,940

it all actually becomes very practical

2072

01:34:34,820 --> 01:34:32,760

when you start realizing it's literally

2073

01:34:36,770 --> 01:34:34,830

just communicating with the frequencies

2074

01:34:39,470 --> 01:34:36,780

of light that are embedded in the local

2075

01:34:43,760 --> 01:34:39,480

space-time of any region so what would

2076

01:34:45,410 --> 01:34:43,770

this speed are you travelling at the I'm

2077

01:34:48,470 --> 01:34:45,420

wondering if most feel is their outward

2078

01:34:51,350 --> 01:34:48,480

well exactly are you travelling at the

2079

01:34:53,240 --> 01:34:51,360

speed of gravity yeah it's just the

2080

01:34:56,689 --> 01:34:53,250

speed of now I mean literally right

2081

01:34:59,630 --> 01:34:56,699

you're you're the object is you know at

2082

01:35:02,240 --> 01:34:59,640

one moment it is in this local area or

2083

01:35:04,370 --> 01:35:02,250

region of space-time and then when it

2084

01:35:06,500 --> 01:35:04,380

changes its field around it to

2085

01:35:08,959 --> 01:35:06,510

communicate to space-time that it's now

2086

01:35:10,880 --> 01:35:08,969

in this new location it's now in that

2087

01:35:14,120 --> 01:35:10,890

new location like literally it's just

2088

01:35:15,680 --> 01:35:14,130

there it's just it's displaced itself

2089

01:35:18,470 --> 01:35:15,690

from its current position in the

2090

01:35:21,020 --> 01:35:18,480

space-time fabric and it's now locally

2091

01:35:23,750 --> 01:35:21,030

you know located near other spacetime

2092

01:35:26,000 --> 01:35:23,760

now that doesn't mean it can't move like

2093

01:35:28,220 --> 01:35:26,010

I said it you can pulse the light field

2094

01:35:31,160 --> 01:35:28,230

in such a way that allows you to travel

2095

01:35:33,470 --> 01:35:31,170

you know with angular momentum and speed

2096

01:35:36,200 --> 01:35:33,480

but it doesn't you you're you're

2097

01:35:38,060 --> 01:35:36,210

separated from the space-time field so

2098

01:35:39,770 --> 01:35:38,070

of course you can make a 90-degree turn

2099

01:35:42,110 --> 01:35:39,780

it doesn't matter there's no g-force

2100

01:35:44,330 --> 01:35:42,120

when you do that you just literally just

2101
01:35:45,740 --> 01:35:44,340
start going that way and on the inside

2102
01:35:47,840 --> 01:35:45,750
of the craft nobody feels anything

2103
01:35:49,580 --> 01:35:47,850
because you're just it's just moving

2104
01:35:50,060 --> 01:35:49,590
around as easily as you move with your

2105
01:35:56,169 --> 01:35:50,070
mind

2106
01:35:59,149 --> 01:35:56,179
now I understand how that would apply to

2107
01:36:03,530 --> 01:35:59,159
space but what does that do once you're

2108
01:36:05,240 --> 01:36:03,540
inside of atmosphere yeah so

2109
01:36:07,669 --> 01:36:05,250
atmospherics it gets a little bit

2110
01:36:10,700 --> 01:36:07,679
interesting right so if you have a craft

2111
01:36:13,100 --> 01:36:10,710
like this and it's it's literally you

2112
01:36:15,830 --> 01:36:13,110
know blurring the space-time continuum

2113
01:36:19,310 --> 01:36:15,840

around it creating this kind of isolated

2114

01:36:22,070 --> 01:36:19,320

envelope you're you're not going to be

2115

01:36:23,690 --> 01:36:22,080

interacting without mysterio all four

2116

01:36:25,070 --> 01:36:23,700

because you're literally in separate

2117

01:36:28,850 --> 01:36:25,080

space-time as if you're in a higher

2118

01:36:31,850 --> 01:36:28,860

dimension but as soon as you turn off or

2119

01:36:34,340 --> 01:36:31,860

you break down that layer in which you

2120

01:36:37,220 --> 01:36:34,350

have to do in order to interact with the

2121

01:36:39,650 --> 01:36:37,230

atmosphere or with a planet or say land

2122

01:36:41,960 --> 01:36:39,660

or say do something like make a crop

2123

01:36:44,480 --> 01:36:41,970

circle or whatever you've got an open

2124

01:36:46,910 --> 01:36:44,490

part of that field and when you open

2125

01:36:49,070 --> 01:36:46,920

part of that field you're gonna have an

2126
01:36:51,800 --> 01:36:49,080
atmospheric burnup happen in other words

2127
01:36:53,720 --> 01:36:51,810
there's often gonna be a like light show

2128
01:36:56,300 --> 01:36:53,730
up around the ship it's gonna be like

2129
01:36:59,060 --> 01:36:56,310
you know the Aurora's electromagnetic

2130
01:37:00,620 --> 01:36:59,070
field is gonna light up and this is what

2131
01:37:02,930 --> 01:37:00,630
people see a lot of times when a ship

2132
01:37:04,910 --> 01:37:02,940
comes in and it burns up real bright

2133
01:37:07,760 --> 01:37:04,920
it's because they're they're literally

2134
01:37:09,800 --> 01:37:07,770
releasing that that space-time field so

2135
01:37:11,720 --> 01:37:09,810
that their craft becomes visible and it

2136
01:37:13,820 --> 01:37:11,730
becomes fully present it's not cloaked

2137
01:37:15,970 --> 01:37:13,830
it's right there and then they can turn

2138
01:37:18,830 --> 01:37:15,980

it back on and shoot off if they want to

2139

01:37:20,990 --> 01:37:18,840

and farmers often see this kind of stuff

2140

01:37:22,970 --> 01:37:21,000

over their fields they see these little

2141

01:37:25,430 --> 01:37:22,980

blips of light come down and then they

2142

01:37:26,750 --> 01:37:25,440

see these like bright flashes and the

2143

01:37:28,370 --> 01:37:26,760

next thing they know there's like a

2144

01:37:31,930 --> 01:37:28,380

giant crop circle that's out in the

2145

01:37:34,520 --> 01:37:31,940

field and so there is a limitation to

2146

01:37:36,980 --> 01:37:34,530

how much you can interact with

2147

01:37:39,020 --> 01:37:36,990

space-time once you're inside of this

2148

01:37:40,970 --> 01:37:39,030

gravitational envelope so you got to

2149

01:37:43,190 --> 01:37:40,980

turn it off to some extent which is

2150

01:37:46,090 --> 01:37:43,200

gonna have an effect and I think some

2151
01:37:49,100 --> 01:37:46,100
ships you know in my experience have

2152
01:37:51,200 --> 01:37:49,110
different other ways to modulate gravity

2153
01:37:53,810 --> 01:37:51,210
so when they fully turn off that field

2154
01:37:55,940 --> 01:37:53,820
if they want to hover they're gonna use

2155
01:37:59,470 --> 01:37:55,950
things like sonic amplifiers and they're

2156
01:38:03,050 --> 01:37:59,480
gonna just literally vibrate the the

2157
01:38:05,120 --> 01:38:03,060
atmospheric field underneath the craft

2158
01:38:07,400 --> 01:38:05,130
in such a way that you know it literally

2159
01:38:09,230 --> 01:38:07,410
is able to just hover through this

2160
01:38:10,910 --> 01:38:09,240
massive kind of sonic pressure that

2161
01:38:13,700 --> 01:38:10,920
they're building up with the atmospheric

2162
01:38:16,340 --> 01:38:13,710
field which then that kind of thing you

2163
01:38:18,230 --> 01:38:16,350

know when you look at it in terms of its

2164

01:38:19,580 --> 01:38:18,240

physics explains why a lot of people

2165

01:38:22,670 --> 01:38:19,590

they see a craft come down and then

2166

01:38:25,940 --> 01:38:22,680

there's this like you know this like

2167

01:38:27,980 --> 01:38:25,950

pulsing sonic field while the craft is

2168

01:38:30,290 --> 01:38:27,990

right around their house you know or

2169

01:38:33,410 --> 01:38:30,300

whatever is it visible though is it

2170

01:38:34,810 --> 01:38:33,420

visible and it does this answer some of

2171

01:38:36,940 --> 01:38:34,820

the interdimensional

2172

01:38:39,310 --> 01:38:36,950

aspects of this certainly with craft

2173

01:38:42,430 --> 01:38:39,320

that I have seen that have just appeared

2174

01:38:44,860 --> 01:38:42,440

and then disappeared yeah right it's

2175

01:38:46,780 --> 01:38:44,870

just exactly it's just they either they

2176

01:38:49,360 --> 01:38:46,790

win that when you've got that that

2177

01:38:50,830 --> 01:38:49,370

separation field on that's separating

2178

01:38:53,440 --> 01:38:50,840

them from their surrounding space-time

2179

01:38:55,990 --> 01:38:53,450

it's just as easy to be invisible as it

2180

01:39:00,010 --> 01:38:56,000

is visible so like they can literally

2181

01:39:02,680 --> 01:39:00,020

just not be there and then be there okay

2182

01:39:05,140 --> 01:39:02,690

and and it's just literally a matter of

2183

01:39:07,060 --> 01:39:05,150

them setting that boundary and the

2184

01:39:09,130 --> 01:39:07,070

conditions of that boundary between them

2185

01:39:15,760 --> 01:39:09,140

and the surrounding space-time they can

2186

01:39:17,290 --> 01:39:15,770

show light or not whoo-hoo in various

2187

01:39:20,700 --> 01:39:17,300

governments around the world and state

2188

01:39:23,740 --> 01:39:20,710

actors understand this or do they

2189

01:39:27,100 --> 01:39:23,750

completely not understand it well I

2190

01:39:29,500 --> 01:39:27,110

think that I think that in general what

2191

01:39:31,180 --> 01:39:29,510

I've gotten from studying the disclosure

2192

01:39:33,250 --> 01:39:31,190

movement and I've I've met some very

2193

01:39:35,920 --> 01:39:33,260

interesting cats in my time I had an ex

2194

01:39:38,830 --> 01:39:35,930

black ops friend of mine show up at a

2195

01:39:40,780 --> 01:39:38,840

you know sitrans party in Asheville

2196

01:39:43,480 --> 01:39:40,790

North Carolina when I was in college and

2197

01:39:45,160 --> 01:39:43,490

we became close friends and he used to

2198

01:39:48,250 --> 01:39:45,170

do psychic warfare training for the

2199

01:39:49,990 --> 01:39:48,260

military and I you know I wasn't sure he

2200

01:39:51,670 --> 01:39:50,000

was being honest until he took me to

2201

01:39:54,100 --> 01:39:51,680

dinner and we were at this guy the you

2202

01:39:57,220 --> 01:39:54,110

know this old guy's house who was you

2203

01:39:59,050 --> 01:39:57,230

know basically ex-fbi it's really high

2204

01:40:00,640 --> 01:39:59,060

up in the FBI and he had photos of

2205

01:40:03,010 --> 01:40:00,650

himself with presidents and stuff and I

2206

01:40:06,340 --> 01:40:03,020

was like oh okay this guy actually is

2207

01:40:08,620 --> 01:40:06,350

who he says he is but what I've really

2208

01:40:12,270 --> 01:40:08,630

gotten is that you know it's a mixed bag

2209

01:40:14,800 --> 01:40:12,280

because one of compartmentalization to

2210

01:40:17,740 --> 01:40:14,810

it people that have been studying these

2211

01:40:20,020 --> 01:40:17,750

kinds of technologies you know generally

2212

01:40:21,610 --> 01:40:20,030

it's just the technologies they've been

2213

01:40:24,280 --> 01:40:21,620

exposed to and they've been allowed to

2214

01:40:26,950 --> 01:40:24,290

study and allowed to understand which

2215

01:40:28,360 --> 01:40:26,960

then theories develop and physics

2216

01:40:31,060 --> 01:40:28,370

develop around the study of those

2217

01:40:32,920 --> 01:40:31,070

specific technologies but you know when

2218

01:40:34,840 --> 01:40:32,930

you're dealing with something like a

2219

01:40:37,120 --> 01:40:34,850

ship that crashes on earth which is a

2220

01:40:39,760 --> 01:40:37,130

lot of the ships that I think we've

2221

01:40:42,520 --> 01:40:39,770

recovered are all Zeta Reticuli based

2222

01:40:46,060 --> 01:40:42,530

technology or species that's generally

2223

01:40:47,840 --> 01:40:46,070

referred to as the greys and their level

2224

01:40:50,210 --> 01:40:47,850

of technology is just

2225

01:40:52,310 --> 01:40:50,220

lower than that of what I call the

2226

01:40:55,250 --> 01:40:52,320

Galactic Council which is a group of

2227

01:40:57,620 --> 01:40:55,260

species who are completely open-source

2228

01:40:59,480 --> 01:40:57,630

they trade all their tech with each

2229

01:41:02,210 --> 01:40:59,490

other to answer an earlier question that

2230

01:41:03,980 --> 01:41:02,220

you had and and and this is one of the

2231

01:41:07,460 --> 01:41:03,990

reasons why they have this incredibly

2232

01:41:09,590 --> 01:41:07,470

peaceful community across the galaxy is

2233

01:41:12,260 --> 01:41:09,600

that they all are at the super high

2234

01:41:14,600 --> 01:41:12,270

level of Technology very high level of

2235

01:41:17,270 --> 01:41:14,610

spirituality and honoring and ethics in

2236

01:41:20,840 --> 01:41:17,280

terms of life and consciousness and

2237

01:41:23,330 --> 01:41:20,850

creation and they look at it as you know

2238

01:41:24,950 --> 01:41:23,340

if you don't just give away everything

2239

01:41:26,870 --> 01:41:24,960

that you learn and figure out then what

2240

01:41:29,210 --> 01:41:26,880

happens is people start trying to fight

2241

01:41:31,340 --> 01:41:29,220

over information or fight over knowledge

2242

01:41:33,950 --> 01:41:31,350

or fight over technology but when you

2243

01:41:36,620 --> 01:41:33,960

share all your breakthroughs everybody

2244

01:41:39,770 --> 01:41:36,630

benefits all the time and it's it's just

2245

01:41:42,520 --> 01:41:39,780

amazing how fast everything evolves and

2246

01:41:45,530 --> 01:41:42,530

you know there's just more and more

2247

01:41:48,650 --> 01:41:45,540

community that builds and forms itself

2248

01:41:51,590 --> 01:41:48,660

in that way so I think when when our

2249

01:41:54,470 --> 01:41:51,600

government and other governments have

2250

01:41:56,570 --> 01:41:54,480

witnessed technology of the kinds that

2251

01:41:59,510 --> 01:41:56,580

I'm talking about from this galactic

2252

01:42:01,520 --> 01:41:59,520

council community they don't know what

2253

01:42:03,110 --> 01:42:01,530

to think I mean that I think that kind

2254

01:42:07,700 --> 01:42:03,120

of stuff scares the [h__\h] out of them

2255

01:42:10,220 --> 01:42:07,710

because it's so far beyond anything that

2256

01:42:13,040 --> 01:42:10,230

even they might know about in terms of

2257

01:42:15,290 --> 01:42:13,050

their study of these crafts you know

2258

01:42:18,980 --> 01:42:15,300

scratched spacecraft

2259

01:42:21,500 --> 01:42:18,990

if something like a weapons system like

2260

01:42:23,810 --> 01:42:21,510

to shoot down a ship like this is just

2261

01:42:25,340 --> 01:42:23,820

literally impossible because you're

2262

01:42:27,980 --> 01:42:25,350

literally dealing with a force field

2263

01:42:31,010 --> 01:42:27,990

that's made of space-time itself it's

2264

01:42:33,770 --> 01:42:31,020

like they're they're so far beyond the

2265

01:42:36,290 --> 01:42:33,780

state of warring and partially because

2266

01:42:38,240 --> 01:42:36,300

of this kind of technology like you

2267

01:42:41,350 --> 01:42:38,250

can't have a war if there's no way to

2268

01:42:45,380 --> 01:42:41,360

get to the space-time of your enemy

2269

01:42:47,570 --> 01:42:45,390

right and so like the the ideas of

2270

01:42:49,520 --> 01:42:47,580

battling over resources and stuff like

2271

01:42:52,370 --> 01:42:49,530

that just becomes completely ridiculous

2272

01:42:54,950 --> 01:42:52,380

at this point because you can generate

2273

01:42:56,720 --> 01:42:54,960

whatever forms of matter you want from

2274

01:42:59,900 --> 01:42:56,730

space-time itself in other words

2275

01:43:01,910 --> 01:42:59,910

space-time is programmable and

2276

01:43:04,670 --> 01:43:01,920

and and these kinds of things are a huge

2277

01:43:07,850 --> 01:43:04,680

leap for the consciousness of a species

2278

01:43:10,640 --> 01:43:07,860

that in general is still pretty well

2279

01:43:13,130 --> 01:43:10,650

caught up in scarcity mentality and the

2280

01:43:16,340 --> 01:43:13,140

idea that you know if others have more

2281

01:43:18,080 --> 01:43:16,350

than them then they're in danger that

2282

01:43:20,510 --> 01:43:18,090

you always have to be the biggest dog in

2283

01:43:22,850 --> 01:43:20,520

town you know like all these kinds of

2284

01:43:27,830 --> 01:43:22,860

things these are just you know it's just

2285

01:43:29,810 --> 01:43:27,840

our adolescence phase so to speak let me

2286

01:43:31,640 --> 01:43:29,820

jump in well let me jump in really quick

2287

01:43:34,760 --> 01:43:31,650

and also we're gonna be heading towards

2288

01:43:36,410 --> 01:43:34,770

a break and obviously we're not in any

2289

01:43:37,460 --> 01:43:36,420
position to end this conversation

2290

01:43:41,270 --> 01:43:37,470
tonight

2291

01:43:46,310 --> 01:43:41,280
so we're I invite you to stay with us

2292

01:43:48,920 --> 01:43:46,320
and we'll do some overtime but with not

2293

01:43:51,170 --> 01:43:48,930
to dive into the Fermi paradox but what

2294

01:43:52,730 --> 01:43:51,180
the Fermi paradox represents and you

2295

01:43:57,620 --> 01:43:52,740
brought up the Drake Equation earlier

2296

01:44:00,320 --> 01:43:57,630
and other astronomers around the world

2297

01:44:03,650 --> 01:44:00,330
and and cosmologists will say this this

2298

01:44:06,920 --> 01:44:03,660
sounds fine the numbers suggest all of

2299

01:44:09,890 --> 01:44:06,930
this intelligent life but we can't see

2300

01:44:12,200 --> 01:44:09,900
it we're looking we would see the

2301

01:44:16,300 --> 01:44:12,210

interstellar trading we would see the

2302

01:44:19,820 --> 01:44:16,310

Galactic freighters we would see these

2303

01:44:22,910 --> 01:44:19,830

these types of craft moving around and

2304

01:44:27,170 --> 01:44:22,920

we don't how do we explain that part of

2305

01:44:29,720 --> 01:44:27,180

it or is the bubble construct that

2306

01:44:31,570 --> 01:44:29,730

you're describing here take care of all

2307

01:44:35,350 --> 01:44:31,580

of that where we wouldn't see

2308

01:44:38,060 --> 01:44:35,360

necessarily physical interstellar travel

2309

01:44:40,520 --> 01:44:38,070

yeah well I'd say it's it's somewhat

2310

01:44:43,820 --> 01:44:40,530

hubris to think that we would just see

2311

01:44:46,790 --> 01:44:43,830

all of it because you know it's

2312

01:44:48,290 --> 01:44:46,800

interesting but I mean we're how many

2313

01:44:50,930 --> 01:44:48,300

years has it been that we've even

2314

01:44:54,620 --> 01:44:50,940

recognized that there's planets around

2315

01:44:58,370 --> 01:44:54,630

other stars right live weird right five

2316

01:45:02,960 --> 01:44:58,380

years right finally like oh there are

2317

01:45:04,400 --> 01:45:02,970

planets around other stars oh gosh I

2318

01:45:06,110 --> 01:45:04,410

can't believe we didn't realize that all

2319

01:45:08,180 --> 01:45:06,120

this time so you're talking about a

2320

01:45:10,670 --> 01:45:08,190

planet and then you're trying to compare

2321

01:45:12,919 --> 01:45:10,680

that to a freighter ship and let's say

2322

01:45:16,489 --> 01:45:12,929

the freighter ship is the size of new

2323

01:45:18,439 --> 01:45:16,499

city so now you're trying to say oh can

2324

01:45:21,620 --> 01:45:18,449

you see something the size of New York

2325

01:45:23,569 --> 01:45:21,630

City you know or smaller you know

2326

01:45:29,209 --> 01:45:23,579

floating around in that solar system

2327

01:45:31,009 --> 01:45:29,219

over there yeah not likely and also not

2328

01:45:33,229 --> 01:45:31,019

to mention that when it decides to move

2329

01:45:34,609 --> 01:45:33,239

to another solar system or decides to

2330

01:45:37,279 --> 01:45:34,619

travel across the galaxy

2331

01:45:39,890 --> 01:45:37,289

it's just jumping straight there it's

2332

01:45:41,929 --> 01:45:39,900

like it's not it's not like traveling

2333

01:45:43,910 --> 01:45:41,939

across the whole distance you know and

2334

01:45:46,069 --> 01:45:43,920

like did today here's a little satellite

2335

01:45:49,129 --> 01:45:46,079

moving across the sky right it's just

2336

01:45:52,339 --> 01:45:49,139

there you know and so a lot of these

2337

01:45:55,189 --> 01:45:52,349

things are of course going on and we do

2338

01:45:57,830 --> 01:45:55,199

see very interesting stuff all the time

2339

01:46:00,259 --> 01:45:57,840

I mean there's there some pretty

2340

01:46:02,929 --> 01:46:00,269

interesting studies of our looking at

2341

01:46:05,410 --> 01:46:02,939

the Sun and seeing very very large

2342

01:46:08,419 --> 01:46:05,420

objects in some of the Solar Observatory

2343

01:46:10,699 --> 01:46:08,429

fields of objects kind of hovering right

2344

01:46:13,370 --> 01:46:10,709

next to the Sun and absorbing a bunch of

2345

01:46:15,020 --> 01:46:13,380

you know what looks like absorbing

2346

01:46:16,850 --> 01:46:15,030

electromagnetic energy out of the Sun

2347

01:46:18,919 --> 01:46:16,860

into like a big sphere and then the

2348

01:46:21,949 --> 01:46:18,929

thing disappears what the heck is that

2349

01:46:24,649 --> 01:46:21,959

you know and we we have you know lots of

2350

01:46:26,449 --> 01:46:24,659

testimonies about either bases on the

2351
01:46:30,199 --> 01:46:26,459
backside of the moon of people seeing

2352
01:46:32,959 --> 01:46:30,209
spacecraft it's it's a pretty simple

2353
01:46:35,029 --> 01:46:32,969
matter that you know the fact that most

2354
01:46:37,429 --> 01:46:35,039
people there's a lot of people that

2355
01:46:39,500 --> 01:46:37,439
haven't even seen shooting stars you

2356
01:46:41,779 --> 01:46:39,510
know a lot of people have never had a

2357
01:46:45,020 --> 01:46:41,789
direct experience of a starship or seen

2358
01:46:47,600 --> 01:46:45,030
anything in the sky there's there's a

2359
01:46:50,120 --> 01:46:47,610
lot of reasons and not to mention the

2360
01:46:53,029 --> 01:46:50,130
belief systems of most people that are

2361
01:46:55,609 --> 01:46:53,039
simply resistant to the idea of seeing

2362
01:46:57,859 --> 01:46:55,619
this kind of inter you know

2363
01:47:00,350 --> 01:46:57,869

interplanetary interstellar network

2364

01:47:02,449 --> 01:47:00,360

not to mention galactic scale Network

2365

01:47:05,419 --> 01:47:02,459

not to mention potentially intergalactic

2366

01:47:07,969 --> 01:47:05,429

Network and we also are lacking some

2367

01:47:10,819 --> 01:47:07,979

basic observational technologies as well

2368

01:47:15,410 --> 01:47:10,829

to be able to detect them as scale yeah

2369

01:47:20,479 --> 01:47:15,420

thank you operating had a much slower or

2370

01:47:22,850 --> 01:47:20,489

much faster rate their life where we

2371

01:47:24,740 --> 01:47:22,860

simply just can't see it it's just

2372

01:47:28,010 --> 01:47:24,750

simply out of

2373

01:47:31,000 --> 01:47:28,020

out of range of our current tech and

2374

01:47:33,740 --> 01:47:31,010

it's completely not observable I

2375

01:47:37,670 --> 01:47:33,750

wouldn't take it that far but but just

2376

01:47:40,130 --> 01:47:37,680

the ability to surround your craft with

2377

01:47:42,050 --> 01:47:40,140

an envelope that isolates it from the

2378

01:47:44,720 --> 01:47:42,060

surroundings space time and travel

2379

01:47:48,500 --> 01:47:44,730

faster than light like that already is

2380

01:47:50,810 --> 01:47:48,510

such a leap ahead that you know our

2381

01:47:52,970 --> 01:47:50,820

ability to observe something and and

2382

01:47:55,430 --> 01:47:52,980

even know what kind of cloaking is

2383

01:47:57,470 --> 01:47:55,440

possible or not is you know extremely

2384

01:48:00,260 --> 01:47:57,480

limited let's take our break right here

2385

01:48:02,270 --> 01:48:00,270

our guest tonight Adam Apollo fantastic

2386

01:48:04,670 --> 01:48:02,280

conversation Adam stay right there

01:48:06,830 --> 01:48:04,680

this is fade to black I'm their host JB

2388

01:48:08,600 --> 01:48:06,840

Church doing some overtime with mr.

2389

01:48:12,170 --> 01:48:08,610

Apollo when we come back you can follow

2390

01:48:13,700 --> 01:48:12,180

adam on twitter at adam apollo the links

2391

01:48:15,290 --> 01:48:13,710

are right there in the conversations

2392

01:48:17,300 --> 01:48:15,300

tonight and of course you can follow me

2393

01:48:18,230 --> 01:48:17,310

at a church radio we'll be right back

2394

01:48:20,030 --> 01:48:18,240

after this short break

2395

01:48:38,640 --> 01:48:20,040

stay with us

2396

01:48:41,340 --> 01:48:38,650

[Music]

2397

01:48:45,840 --> 01:48:41,350

look who just popped up in the fade to

2398

01:48:50,060 --> 01:48:45,850

black Chad Adam Apollo Adam you have no

2399

01:48:55,710 --> 01:48:52,770

yeah it's great man it's great we do

2400

01:48:57,210 --> 01:48:55,720

thousands of tweets and every single

2401

01:49:00,150 --> 01:48:57,220

night it's just out of control

2402

01:49:03,960 --> 01:49:00,160

so hashtag f2b is what you want to do

2403

01:49:06,200 --> 01:49:03,970

and and that that spreads out these guys

2404

01:49:08,850 --> 01:49:06,210

are fun and I'll just say I rarely

2405

01:49:11,130 --> 01:49:08,860

actually use Twitter so it's not the

2406

01:49:12,980 --> 01:49:11,140

best way to find me or keep in touch but

2407

01:49:15,240 --> 01:49:12,990

I'll use it a little bit more I think my

2408

01:49:17,430 --> 01:49:15,250

Instagram got disconnected from my

2409

01:49:18,840 --> 01:49:17,440

Twitter but it used to post kind of

2410

01:49:20,880 --> 01:49:18,850

regularly through that but you can

2411

01:49:23,370 --> 01:49:20,890

easily find me there on Instagram

2412

01:49:25,080 --> 01:49:23,380

Adam underscore Apollo or just go to add

2413

01:49:27,150 --> 01:49:25,090

of Apollo comm and there's lots of ways

2414

01:49:32,930 --> 01:49:27,160

to to see my work and see what I'm doing

2415

01:49:39,690 --> 01:49:36,960

some day all right let's head into some

2416

01:49:42,480 --> 01:49:39,700

overtime and I actually and I know that

2417

01:49:45,810 --> 01:49:42,490

everybody is curious we we went we

2418

01:49:48,830 --> 01:49:45,820

danced and moved right past by the way

2419

01:49:52,080 --> 01:49:48,840

Ruben Ruben Langdon one of my heroes

2420

01:49:54,480 --> 01:49:52,090

just an extraordinary now not only as a

2421

01:49:56,700 --> 01:49:54,490

person and an actor and a martial artist

2422

01:49:58,740 --> 01:49:56,710

and all of the gaming stuff that he has

2423

01:50:01,550 --> 01:49:58,750

that it's just an incredible career but

2424

01:50:05,550 --> 01:50:01,560

he's a really really good filmmaker and

2425

01:50:08,790 --> 01:50:05,560

I'm glad that he is he's grounded into

2426
01:50:11,220 --> 01:50:08,800
some bliss right now and is heading down

2427
01:50:14,040 --> 01:50:11,230
this road and it's just really cool that

2428
01:50:16,020 --> 01:50:14,050
you're working with them but let's let's

2429
01:50:19,860 --> 01:50:16,030
get back to what we danced past which

2430
01:50:25,490 --> 01:50:19,870
was your encounter a physical encounter

2431
01:50:28,410 --> 01:50:25,500
in the desert with with et what happened

2432
01:50:30,180 --> 01:50:28,420
well like I said it's a long story

2433
01:50:34,410 --> 01:50:30,190
and if you want the full story you'll

2434
01:50:38,370 --> 01:50:34,420
have to watch the episode with Ruben but

2435
01:50:40,770 --> 01:50:38,380
I will say here just to kind of make it

2436
01:50:43,710 --> 01:50:40,780
simple I'd love to just describe to you

2437
01:50:47,100 --> 01:50:43,720
my interaction with this being who

2438
01:50:51,000 --> 01:50:47,110

showed up out of the blue in a moment

2439

01:50:52,200 --> 01:50:51,010

when I had just gone through a whole

2440

01:50:56,250 --> 01:50:52,210

series of really power

2441

01:50:59,370 --> 01:50:56,260

full healing experiences and come into a

2442

01:51:02,970 --> 01:50:59,380

little deeper sense of myself and who I

2443

01:51:08,190 --> 01:51:02,980

am and why I'm here and the purpose of

2444

01:51:11,729 --> 01:51:08,200

my life as any you know any deep journey

2445

01:51:14,280 --> 01:51:11,739

can be when when we go through a series

2446

01:51:18,660 --> 01:51:14,290

of transformations and we come out the

2447

01:51:23,250 --> 01:51:18,670

other side and we finally you know in

2448

01:51:25,920 --> 01:51:23,260

this sort of deeply awakened state start

2449

01:51:29,100 --> 01:51:25,930

to realize what it is that we're doing

2450

01:51:29,850 --> 01:51:29,110

here in the universe and I mean sober I

2451
01:51:32,580 --> 01:51:29,860
mean

2452
01:51:35,729 --> 01:51:32,590
spiritually aware of what we're doing

2453
01:51:37,830 --> 01:51:35,739
here in the universe there's there's

2454
01:51:41,040 --> 01:51:37,840
breakthroughs that can happen and things

2455
01:51:45,660 --> 01:51:41,050
that can happen and I was just in a

2456
01:51:47,580 --> 01:51:45,670
point of realizing literally that like

2457
01:51:49,620 --> 01:51:47,590
literally in the moments right before

2458
01:51:51,930 --> 01:51:49,630
she showed up there were two things one

2459
01:51:53,550 --> 01:51:51,940
is that I realized that there's people

2460
01:51:56,700 --> 01:51:53,560
all over the world that would be

2461
01:51:59,310 --> 01:51:56,710
absolutely interested in making contact

2462
01:52:01,560 --> 01:51:59,320
if that was possible and that something

2463
01:52:03,510 --> 01:52:01,570

different something weird something out

2464

01:52:05,130 --> 01:52:03,520

of the ordinary something more like the

2465

01:52:06,750 --> 01:52:05,140

Star Trek movies they like or whatever

2466

01:52:09,290 --> 01:52:06,760

would be something that people would

2467

01:52:13,860 --> 01:52:09,300

actually be into right for one thing and

2468

01:52:17,070 --> 01:52:13,870

and I also realized that you know that

2469

01:52:20,040 --> 01:52:17,080

as much as it's difficult for for us to

2470

01:52:22,590 --> 01:52:20,050

see kind of this next level of being and

2471

01:52:26,430 --> 01:52:22,600

what it might be like to travel the

2472

01:52:29,610 --> 01:52:26,440

Stars most people are really open to it

2473

01:52:31,560 --> 01:52:29,620

and I don't know there's all kinds of

2474

01:52:33,990 --> 01:52:31,570

people in my life when I go out to the

2475

01:52:36,030 --> 01:52:34,000

store who are working at you know the

2476

01:52:39,390 --> 01:52:36,040

grocery store or working at the gas

2477

01:52:42,180 --> 01:52:39,400

station or here there and man they would

2478

01:52:45,510 --> 01:52:42,190

love nothing more than for ships to land

2479

01:52:46,650 --> 01:52:45,520

and for them to get on and go explore

2480

01:52:48,150 --> 01:52:46,660

other planets I mean I don't know about

2481

01:52:50,280 --> 01:52:48,160

you but that sounds like a pretty fun

2482

01:52:52,590 --> 01:52:50,290

thing to leave your day job for right if

2483

01:52:57,060 --> 01:52:52,600

the food is if the food is good if the

2484

01:52:59,910 --> 01:52:57,070

food is good that is definitely a caveat

2485

01:53:03,120 --> 01:52:59,920

and and I will say that that on earth

2486

01:53:04,560 --> 01:53:03,130

here we humans have certainly cultivated

2487

01:53:06,990 --> 01:53:04,570

our love of

2488

01:53:09,740 --> 01:53:07,000

exotic cuisine in such a fabulous way I

2489

01:53:13,410 --> 01:53:09,750

love food I'm a foodie of absolutely

2490

01:53:15,330 --> 01:53:13,420

well did you understand at the at this

2491

01:53:18,209 --> 01:53:15,340

moment did you understand what was

2492

01:53:20,879 --> 01:53:18,219

happening yeah well she was physically

2493

01:53:24,359 --> 01:53:20,889

standing there just looking at me and

2494

01:53:26,669 --> 01:53:24,369

she's in these robes that you know hung

2495

01:53:30,509 --> 01:53:26,679

down her body and there's these little

2496

01:53:32,370 --> 01:53:30,519

symbols on her robes all along from the

2497

01:53:33,899 --> 01:53:32,380

cowl going all the way down the front of

2498

01:53:35,759 --> 01:53:33,909

the robes that look like constellation

2499

01:53:38,790 --> 01:53:35,769

patterns and they're kind of glowing and

2500

01:53:41,970 --> 01:53:38,800

shimmering and she's just staring at me

2501
01:53:44,520 --> 01:53:41,980
and I I like I'm kind of squatting down

2502
01:53:48,629 --> 01:53:44,530
and I stand up and I walk over to her

2503
01:53:51,180 --> 01:53:48,639
and that's when I realized as I'm

2504
01:53:55,200 --> 01:53:51,190
getting closer that she is not human

2505
01:53:57,540 --> 01:53:55,210
because humans have you know every human

2506
01:54:00,060 --> 01:53:57,550
being I've ever met you know we all have

2507
01:54:04,020 --> 01:54:00,070
this one particular quality to our

2508
01:54:06,120 --> 01:54:04,030
skulls you know as a as a homo sapien

2509
01:54:09,149 --> 01:54:06,130
and even Homo erectus and you look at

2510
01:54:11,609 --> 01:54:09,159
all of us you know you've got you've got

2511
01:54:13,589 --> 01:54:11,619
these eyebrow bones and the eyebrows

2512
01:54:15,509 --> 01:54:13,599
come down to the sides and you'll have

2513
01:54:17,520 --> 01:54:15,519

this little you know bone point where

2514

01:54:21,660 --> 01:54:17,530

there's the edge of the eyebrow and it

2515

01:54:24,390 --> 01:54:21,670

kind of closes the eye cavity and goes

2516

01:54:26,160 --> 01:54:24,400

down and you know everybody's got it

2517

01:54:28,290 --> 01:54:26,170

everybody's got an end to their eyebrows

2518

01:54:31,740 --> 01:54:28,300

everybody's got a certain shape to their

2519

01:54:34,740 --> 01:54:31,750

eyebrow bone and that shape is pretty

2520

01:54:36,660 --> 01:54:34,750

much defined in our human species well

2521

01:54:37,890 --> 01:54:36,670

we recognize that from the time that

2522

01:54:39,600 --> 01:54:37,900

were a baby

2523

01:54:42,120 --> 01:54:39,610

you know looking at our mother's face

2524

01:54:45,660 --> 01:54:42,130

and that yeah it it is part of our DNA

2525

01:54:47,370 --> 01:54:45,670

to recognize another human being that's

2526

01:54:49,529 --> 01:54:47,380

right and it's and it's and it's you

2527

01:54:52,350 --> 01:54:49,539

know across even though we you put me

2528

01:54:55,979 --> 01:54:52,360

next to a Nigerian guy or Japanese guy

2529

01:54:58,290 --> 01:54:55,989

we are very different look but if you

2530

01:55:00,240 --> 01:54:58,300

look at our skulls you know and you look

2531

01:55:01,950 --> 01:55:00,250

at the shape of the bone structure and

2532

01:55:06,569 --> 01:55:01,960

our skulls we have these very very

2533

01:55:09,390 --> 01:55:06,579

similar qualities and and if you when I

2534

01:55:11,459 --> 01:55:09,400

looked at her she didn't have that end

2535

01:55:14,700 --> 01:55:11,469

point to the eyebrow bones her eyebrow

2536

01:55:17,840 --> 01:55:14,710

bones went back further out to where her

2537

01:55:20,900 --> 01:55:17,850

temples are and then there was an edge

2538

01:55:25,070 --> 01:55:20,910

hollow points so the hollow around her

2539

01:55:27,560 --> 01:55:25,080

eyes extended much further back and she

2540

01:55:30,790 --> 01:55:27,570

still had beautiful kind of human shaped

2541

01:55:34,430 --> 01:55:30,800

eyes not very big but just there and she

2542

01:55:36,710 --> 01:55:34,440

generally looked human but she also had

2543

01:55:39,170 --> 01:55:36,720

these little bone points coming off in

2544

01:55:41,990 --> 01:55:39,180

her forehead little bone points coming

2545

01:55:44,300 --> 01:55:42,000

off her cheeks and was very beautiful

2546

01:55:47,120 --> 01:55:44,310

her ears actually extended back to

2547

01:55:49,760 --> 01:55:47,130

points that's fake Abul of course but

2548

01:55:52,130 --> 01:55:49,770

this eyebrow bone thing there's just no

2549

01:55:53,720 --> 01:55:52,140

way you couldn't do it I mean even even

2550

01:55:55,280 --> 01:55:53,730

when you watch Star Trek and things like

2551
01:55:58,100 --> 01:55:55,290
that they have all this makeup and they

2552
01:56:00,140 --> 01:55:58,110
build up the faces in all these ways you

2553
01:56:02,450 --> 01:56:00,150
still got that spot in the eyebrows you

2554
01:56:04,700 --> 01:56:02,460
just can't lose that can't fake it and

2555
01:56:09,440 --> 01:56:04,710
and then that so that was my first like

2556
01:56:11,660 --> 01:56:09,450
whoa okay and then I get about as far

2557
01:56:13,730 --> 01:56:11,670
away from her as like if I reached out

2558
01:56:16,730 --> 01:56:13,740
my arm and she reached out her arm or

2559
01:56:19,010 --> 01:56:16,740
fingertips would touch and when I

2560
01:56:22,820 --> 01:56:19,020
reached that point of distance from her

2561
01:56:26,990 --> 01:56:22,830
all the sudden she was in my head and it

2562
01:56:29,680 --> 01:56:27,000
was like I put on VR goggles and headset

2563
01:56:33,560 --> 01:56:29,690

and everything and she spoken to my mind

2564

01:56:37,370 --> 01:56:33,570

with what I could best describe as like

2565

01:56:42,400 --> 01:56:37,380

a immersive holographic light language

2566

01:56:50,720 --> 01:56:42,410

that said to me I know who you are and

2567

01:56:53,960 --> 01:56:50,730

that expression was snapshots of flying

2568

01:56:56,420 --> 01:56:53,970

in on this massive star system starship

2569

01:56:59,060 --> 01:56:56,430

and docking my ship with it and then

2570

01:57:01,010 --> 01:56:59,070

being on this you know this room with

2571

01:57:02,840 --> 01:57:01,020

these huge windows looking down at a

2572

01:57:05,630 --> 01:57:02,850

planet below and then being in this

2573

01:57:07,520 --> 01:57:05,640

massive room that's you know kind of

2574

01:57:09,590 --> 01:57:07,530

akin to the one in Star Wars where all

2575

01:57:12,730 --> 01:57:09,600

the different galactic beings meet this

2576

01:57:15,710 --> 01:57:12,740

kind of rounded council chamber to

2577

01:57:18,110 --> 01:57:15,720

basically flying down seeing earth to be

2578

01:57:20,840 --> 01:57:18,120

standing in these you know giant

2579

01:57:22,820 --> 01:57:20,850

standing stone circles on earth looking

2580

01:57:25,670 --> 01:57:22,830

up and I'm seeing a ship coming down and

2581

01:57:27,500 --> 01:57:25,680

it's beaming down on this altar to you

2582

01:57:29,300 --> 01:57:27,510

know just all of these moments and

2583

01:57:31,100 --> 01:57:29,310

flashes standing in the deserts of Egypt

2584

01:57:34,399 --> 01:57:31,110

and there's like a ship coming in

2585

01:57:36,919 --> 01:57:34,409

the storm blowing and there there are

2586

01:57:39,560 --> 01:57:36,929

these memories there moments of my

2587

01:57:41,890 --> 01:57:39,570

existence in which I had some connection

2588

01:57:43,520 --> 01:57:41,900

with this being and she was literally

2589

01:57:46,490 --> 01:57:43,530

transmitting to me

2590

01:57:49,129 --> 01:57:46,500

a memory or memories of these moments of

2591

01:57:51,560 --> 01:57:49,139

connection that we had had and so there

2592

01:57:55,129 --> 01:57:51,570

was this instant feeling of deep

2593

01:57:57,590 --> 01:57:55,139

familiarity of deep recognition I also

2594

01:57:59,359 --> 01:57:57,600

saw the symbol that I would wear you

2595

01:58:01,490 --> 01:57:59,369

know on my coat when I was going into

2596

01:58:05,270 --> 01:58:01,500

these you know meetings as different

2597

01:58:08,720 --> 01:58:05,280

species and there was just all of all of

2598

01:58:11,450 --> 01:58:08,730

this sense of instant familiarity and I

2599

01:58:13,609 --> 01:58:11,460

just you know just like thank you you

2600

01:58:16,820 --> 01:58:13,619

know and it felt this massive deep

2601
01:58:18,979 --> 01:58:16,830
gratitude for this moment of recognition

2602
01:58:21,800 --> 01:58:18,989
it was the it was the most powerful

2603
01:58:25,129 --> 01:58:21,810
telepathy I've ever experienced now how

2604
01:58:28,129 --> 01:58:25,139
did you return the telepathy right

2605
01:58:31,370 --> 01:58:28,139
you're not learning in telepathy at this

2606
01:58:34,310 --> 01:58:31,380
point no and just all I did was think

2607
01:58:37,010 --> 01:58:34,320
thank you and feel the feelings I was

2608
01:58:40,189 --> 01:58:37,020
feeling and she she just could see it it

2609
01:58:43,729 --> 01:58:40,199
was like transparent as day you know

2610
01:58:46,520 --> 01:58:43,739
like the same way you know if you if you

2611
01:58:48,979 --> 01:58:46,530
tell you know your daughter or someone

2612
01:58:50,930 --> 01:58:48,989
in your family that you love them in a

2613
01:58:53,090 --> 01:58:50,940

really deeply authentic way and you

2614

01:58:55,760 --> 01:58:53,100

literally watch them light up you can

2615

01:58:58,070 --> 01:58:55,770

see how they receive it it's you know

2616

01:59:00,560 --> 01:58:58,080

how she received it from me

2617

01:59:03,680 --> 01:59:00,570

what happened next what happened next

2618

01:59:05,419 --> 01:59:03,690

after this introduction well you know it

2619

01:59:10,520 --> 01:59:05,429

happened to not be alone in this desert

2620

01:59:12,229 --> 01:59:10,530

and there was Ruben with you know okay

2621

01:59:13,729 --> 01:59:12,239

okay I didn't know Ruben back then I

2622

01:59:15,620 --> 01:59:13,739

didn't even meet Ruben actually until

2623

01:59:17,510 --> 01:59:15,630

this last year so okay

2624

01:59:20,300 --> 01:59:17,520

there was there was these two guys that

2625

01:59:25,939 --> 01:59:20,310

came up into this space that I was in at

2626

01:59:29,240 --> 01:59:25,949

the time and the two guys were basically

2627

01:59:32,649 --> 01:59:29,250

like rednecks and you know literally

2628

01:59:36,560 --> 01:59:32,659

orange still chainsaw hat on one of them

2629

01:59:38,890 --> 01:59:36,570

and they're drunk in there tripping and

2630

01:59:41,149 --> 01:59:38,900

they're having an adventure out here and

2631

01:59:42,459 --> 01:59:41,159

they come up and they're like they look

2632

01:59:45,610 --> 01:59:42,469

at her and they're like

2633

01:59:47,650 --> 01:59:45,620

oh man what is this and like look at

2634

01:59:49,600 --> 01:59:47,660

each other like what the [h__h] and

2635

01:59:51,640 --> 01:59:49,610

they're looking around in this space

2636

01:59:53,470 --> 01:59:51,650

which was an art piece and there's more

2637

01:59:56,560 --> 01:59:53,480

to the story but I'm not gonna get into

2638

01:59:59,709 --> 01:59:56,570

too much detail in in this conversation

2639

02:00:03,850 --> 01:59:59,719

and she looks over at them and what she

2640

02:00:09,570 --> 02:00:03,860

transmits back to me is not all of you

2641

02:00:11,740 --> 02:00:09,580

already and that transmission came with

2642

02:00:14,560 --> 02:00:11,750

if you ever saw the movie The Fifth

2643

02:00:17,650 --> 02:00:14,570

Element the moment in when it's like you

2644

02:00:19,390 --> 02:00:17,660

know she looks up war and it's like I

2645

02:00:21,160 --> 02:00:19,400

see these guys and they're like shooting

2646

02:00:23,650 --> 02:00:21,170

off their shotguns and they're shooting

2647

02:00:25,270 --> 02:00:23,660

things and and then one was getting his

2648

02:00:27,130 --> 02:00:25,280

head shaved and then now he's in the

2649

02:00:29,410 --> 02:00:27,140

military and I shooting a machine gun

2650

02:00:31,060 --> 02:00:29,420

and now he's listening to heavy metal

2651
02:00:32,530 --> 02:00:31,070
and I shootin a tank and now he's

2652
02:00:34,300 --> 02:00:32,540
blowing up this thing and he's blowing

2653
02:00:38,290 --> 02:00:34,310
up that thing and there's this whole

2654
02:00:40,600 --> 02:00:38,300
cascade of imagery of just like you know

2655
02:00:43,150 --> 02:00:40,610
someone just living their life it's not

2656
02:00:46,090 --> 02:00:43,160
that what they're doing is bad it's just

2657
02:00:50,110 --> 02:00:46,100
that the way that this kind of chain

2658
02:00:52,479 --> 02:00:50,120
goes is to a lack of care for life and a

2659
02:00:55,450 --> 02:00:52,489
lack of understanding of others and a

2660
02:00:57,010 --> 02:00:55,460
lack of awareness of really like who are

2661
02:00:58,990 --> 02:00:57,020
you destroying like why are you

2662
02:01:00,370 --> 02:00:59,000
destroying them do you really know are

2663
02:01:01,900 --> 02:01:00,380

you just doing it because your country

2664

02:01:03,670 --> 02:01:01,910

says it's a good idea do you actually

2665

02:01:05,709 --> 02:01:03,680

know why you're at war do you actually

2666

02:01:10,479 --> 02:01:05,719

know you know all of these different

2667

02:01:14,470 --> 02:01:10,489

questions come up and and I I could see

2668

02:01:18,160 --> 02:01:14,480

the kind of pain of humanity in which

2669

02:01:22,209 --> 02:01:18,170

like a lot of people are stuck in hard

2670

02:01:25,390 --> 02:01:22,219

places and they they're not necessarily

2671

02:01:27,640 --> 02:01:25,400

ready for this sort of leap you know in

2672

02:01:30,340 --> 02:01:27,650

terms of the way it seems in in their

2673

02:01:32,380 --> 02:01:30,350

consciousness and and when I saw that

2674

02:01:36,490 --> 02:01:32,390

and I felt that I also was looking at

2675

02:01:37,750 --> 02:01:36,500

these guys and you know I spent my you

2676
02:01:40,060 --> 02:01:37,760
know middle school in high school years

2677
02:01:42,370 --> 02:01:40,070
in Western North Carolina and I partied

2678
02:01:45,790 --> 02:01:42,380
with you know some guys that lived way

2679
02:01:48,790 --> 02:01:45,800
back up in Katy Fork and place called

2680
02:01:50,439 --> 02:01:48,800
little Canada and man we threw down hard

2681
02:01:52,720 --> 02:01:50,449
you know I'm saying like we did keg

2682
02:01:54,379 --> 02:01:52,730
parties we rocked him down you know we

2683
02:01:56,180 --> 02:01:54,389
had damn good time

2684
02:01:59,870 --> 02:01:56,190
and I know these guys like they're my

2685
02:02:02,120 --> 02:01:59,880
friends like they're my homies and you

2686
02:02:04,550 --> 02:02:02,130
know I saw some of them get beaten by

2687
02:02:07,100 --> 02:02:04,560
their dads I saw some of them deal with

2688
02:02:08,660 --> 02:02:07,110

like you know they stopped caring about

2689

02:02:09,709 --> 02:02:08,670

the grades they get in school cuz all

2690

02:02:11,570 --> 02:02:09,719

their parents care about is they're

2691

02:02:13,700 --> 02:02:11,580

doing FFA cuz their dad's like you're

2692

02:02:15,800 --> 02:02:13,710

gonna take over the farm that's what

2693

02:02:18,229 --> 02:02:15,810

you're doing next if you don't listen to

2694

02:02:21,649 --> 02:02:18,239

me you're going to military school and

2695

02:02:23,870 --> 02:02:21,659

and I saw the lack of choice and the

2696

02:02:26,359 --> 02:02:23,880

lack of options that some of these kids

2697

02:02:28,399 --> 02:02:26,369

had and I realized that that's true

2698

02:02:30,950 --> 02:02:28,409

across the board that a lot of kids grow

2699

02:02:33,260 --> 02:02:30,960

up and they they are trying to fit the

2700

02:02:35,870 --> 02:02:33,270

the model that their parents have laid

2701

02:02:38,180 --> 02:02:35,880

out or try to fit society in some way

2702

02:02:39,620 --> 02:02:38,190

and they don't have a way to get there

2703

02:02:41,720 --> 02:02:39,630

and they get forced into these

2704

02:02:43,280 --> 02:02:41,730

situations where they're they're

2705

02:02:45,439 --> 02:02:43,290

struggling and they're literally

2706

02:02:46,850 --> 02:02:45,449

fighting against the society and

2707

02:02:50,510 --> 02:02:46,860

consciousness and all of these different

2708

02:02:53,240 --> 02:02:50,520

things and get caught up in fights and

2709

02:02:57,379 --> 02:02:53,250

in war and and it's all based on trauma

2710

02:03:01,040 --> 02:02:57,389

and I I sent her this sort of sense of

2711

02:03:03,109 --> 02:03:01,050

my awareness of of the fact that war is

2712

02:03:05,689 --> 02:03:03,119

based on trauma that a lot of these guys

2713

02:03:07,669 --> 02:03:05,699

is not their fault that these guys are

2714

02:03:09,379 --> 02:03:07,679

my friends and I I love them you know

2715

02:03:11,330 --> 02:03:09,389

like I didn't know these two guys but

2716

02:03:14,720 --> 02:03:11,340

they could have been friends of mine

2717

02:03:18,050 --> 02:03:14,730

from high school sure and and you know I

2718

02:03:19,939 --> 02:03:18,060

and I also I sent her that sort of love

2719

02:03:23,510 --> 02:03:19,949

and compassion that I felt for them and

2720

02:03:28,040 --> 02:03:23,520

I also said and enough of us are and I

2721

02:03:29,899 --> 02:03:28,050

sent her an image images of you know all

2722

02:03:32,240 --> 02:03:29,909

of these different friends that I'd had

2723

02:03:35,930 --> 02:03:32,250

and that I'd made over the years who

2724

02:03:38,959 --> 02:03:35,940

just you know had a spark of light in

2725

02:03:41,120 --> 02:03:38,969

them and they they just wanted more than

2726

02:03:42,800 --> 02:03:41,130

anything to make a difference in the

2727

02:03:45,680 --> 02:03:42,810

world they just want more than anything

2728

02:03:48,609 --> 02:03:45,690

to make a change that's big enough or

2729

02:03:51,470 --> 02:03:48,619

that's drastic enough that that somehow

2730

02:03:53,930 --> 02:03:51,480

the wheel and the cycle would be shifted

2731

02:03:55,669 --> 02:03:53,940

and you know their children wouldn't

2732

02:03:58,370 --> 02:03:55,679

have to deal with the same kind of pain

2733

02:04:01,669 --> 02:03:58,380

and challenges that that the environment

2734

02:04:05,089 --> 02:04:01,679

would make it through this adolescence

2735

02:04:06,740 --> 02:04:05,099

of humanity and and we'd see through to

2736

02:04:10,670 --> 02:04:06,750

the other side

2737

02:04:12,380 --> 02:04:10,680

of this sort of major growth spurt that

2738

02:04:14,870 --> 02:04:12,390

we're going through it as human beings

2739

02:04:17,570 --> 02:04:14,880

and survive and have a planet that's

2740

02:04:18,950 --> 02:04:17,580

beautiful to pass to our kids and you

2741

02:04:21,020 --> 02:04:18,960

know there's all of these beautiful

2742

02:04:22,250 --> 02:04:21,030

people doing great work in the world

2743

02:04:24,740 --> 02:04:22,260

right now and a lot of them are

2744

02:04:27,410 --> 02:04:24,750

listeners on your show that are you know

2745

02:04:29,120 --> 02:04:27,420

dedicated to making a change in the

2746

02:04:33,350 --> 02:04:29,130

world for the better and for our

2747

02:04:37,250 --> 02:04:33,360

generations to come and and that's you

2748

02:04:40,330 --> 02:04:37,260

know that's something that that I felt

2749

02:04:43,270 --> 02:04:40,340

deeply and she received very deeply and

2750

02:04:48,650 --> 02:04:43,280

the look on her face shifted her eyes

2751

02:04:51,950 --> 02:04:48,660

sparkled and suddenly I felt this wave

2752

02:04:53,960 --> 02:04:51,960

of love hit me and she bowed to me and

2753

02:04:56,360 --> 02:04:53,970

she sent me this energy and she said

2754

02:05:00,800 --> 02:04:56,370

into my heart and into my being with

2755

02:05:05,180 --> 02:05:00,810

light and sound and visuals thank you

2756

02:05:08,120 --> 02:05:05,190

for honoring your people and it was just

2757

02:05:10,070 --> 02:05:08,130

this overwhelming sense of love and I

2758

02:05:13,040 --> 02:05:10,080

just felt like oh my god I just like

2759

02:05:15,830 --> 02:05:13,050

passed a test right Rossum test

2760

02:05:18,820 --> 02:05:15,840

she was just testing me and it was like

2761

02:05:22,850 --> 02:05:18,830

oh and I felt this love so strong it was

2762

02:05:26,090 --> 02:05:22,860

overwhelmingly powerful and I just I

2763

02:05:28,940 --> 02:05:26,100

just bowed to her and you know put my

2764

02:05:31,610 --> 02:05:28,950

head and my hands together and bowed to

2765

02:05:34,270 --> 02:05:31,620

her and just so much gratitude for this

2766

02:05:37,730 --> 02:05:34,280

moment and this experience with her and

2767

02:05:40,730 --> 02:05:37,740

and then I came up from the bow and she

2768

02:05:42,620 --> 02:05:40,740

was gone and the retina guys were still

2769

02:05:44,990 --> 02:05:42,630

there other people in the area were

2770

02:05:49,700 --> 02:05:45,000

still around she was nowhere to be seen

2771

02:05:53,180 --> 02:05:49,710

have you seen her scent no not not in

2772

02:05:56,450 --> 02:05:53,190

the physical but I have connected with

2773

02:05:59,240 --> 02:05:56,460

her and she spends time in the Sirian

2774

02:06:03,080 --> 02:05:59,250

star system but that's that's certainly

2775

02:06:06,260 --> 02:06:03,090

part of another story yeah what just got

2776

02:06:11,360 --> 02:06:06,270

asked the dumb question right the the to

2777

02:06:14,630 --> 02:06:11,370

the to redneck guys the still chainsaw

2778

02:06:16,850 --> 02:06:14,640

hat what did they say I mean what was

2779

02:06:19,430 --> 02:06:16,860

the reaction after she wasn't there oh

2780

02:06:22,010 --> 02:06:19,440

yeah well there's a moment where

2781

02:06:23,689 --> 02:06:22,020

I was actually massively thankful for

2782

02:06:26,510 --> 02:06:23,699

this moment but you know one of them

2783

02:06:28,850 --> 02:06:26,520

after looking at this this art piece

2784

02:06:33,950 --> 02:06:28,860

that is part of this area that I was in

2785

02:06:37,040 --> 02:06:33,960

looks over and she's gone and he's like

2786

02:06:40,939 --> 02:06:37,050

glances around like where the did she go

2787

02:06:43,610 --> 02:06:40,949

mm-hmm and that that moment of him

2788

02:06:44,270 --> 02:06:43,620

looking for her man it was such a relief

2789

02:06:47,209 --> 02:06:44,280

for me

2790

02:06:50,680 --> 02:06:47,219

because you know my logical brain and my

2791

02:06:53,959 --> 02:06:50,690

eye was literally just in like a VR

2792

02:06:56,540 --> 02:06:53,969

telepathic field with a being that was

2793

02:06:58,880 --> 02:06:56,550

so powerful it was you know stronger

2794

02:07:02,150 --> 02:06:58,890

than any psychedelic I've ever taken and

2795

02:07:06,260 --> 02:07:02,160

it was it was just so intense and so

2796

02:07:09,950 --> 02:07:06,270

real and so potent what I felt from her

2797

02:07:11,870 --> 02:07:09,960

and then she's gone you know and then

2798

02:07:14,479 --> 02:07:11,880

here's this guy who's just like as

2799

02:07:17,750 --> 02:07:14,489

earthly as can be you know as human as

2800

02:07:22,520 --> 02:07:17,760

can be and he saw her and he sees that

2801
02:07:25,189 --> 02:07:22,530
she's gone and I'm like okay that was

2802
02:07:26,750 --> 02:07:25,199
real you know like is one of those

2803
02:07:29,150 --> 02:07:26,760
moments where it's like you would

2804
02:07:31,790 --> 02:07:29,160
anybody would question themselves after

2805
02:07:33,080 --> 02:07:31,800
having an experience that powerful well

2806
02:07:35,959 --> 02:07:33,090
you've always looked at the world

2807
02:07:38,750 --> 02:07:35,969
differently but certainly after an

2808
02:07:41,240 --> 02:07:38,760
experience like that you forget the

2809
02:07:44,570 --> 02:07:41,250
redneck guy yeah you have to look around

2810
02:07:47,479 --> 02:07:44,580
and go okay well I I was thinking things

2811
02:07:51,800 --> 02:07:47,489
weren't the way they seemed but now I

2812
02:07:53,959 --> 02:07:51,810
know this or not how did it change for

2813
02:07:56,390 --> 02:07:53,969

you from that moment forward well from

2814

02:08:00,410 --> 02:07:56,400

that moment on I actually went out to go

2815

02:08:02,180 --> 02:08:00,420

and make contact and you know I won't

2816

02:08:05,350 --> 02:08:02,190

tell the rest of the whole story because

2817

02:08:08,780 --> 02:08:05,360

it's it's just a lot to tell but I did

2818

02:08:12,380 --> 02:08:08,790

literally from there I went out and had

2819

02:08:15,530 --> 02:08:12,390

an experience of bilocation where I

2820

02:08:18,860 --> 02:08:15,540

actually traveled to this galactic

2821

02:08:22,390 --> 02:08:18,870

council chamber in which I saw and

2822

02:08:24,770 --> 02:08:22,400

witnessed at least 73 different

2823

02:08:27,260 --> 02:08:24,780

ambassador groups from different species

2824

02:08:30,260 --> 02:08:27,270

from all over the galaxy

2825

02:08:32,010 --> 02:08:30,270

why 73 I don't know it's the number that

2826

02:08:34,020 --> 02:08:32,020

my brain pulled out and

2827

02:08:37,080 --> 02:08:34,030

it's just was there in the moment that I

2828

02:08:39,510 --> 02:08:37,090

had the experience and I ended up in a

2829

02:08:42,720 --> 02:08:39,520

in a deep and powerful conversation with

2830

02:08:46,710 --> 02:08:42,730

them for many hours after this in which

2831

02:08:48,450 --> 02:08:46,720

I came to know and understand who I was

2832

02:08:49,830 --> 02:08:48,460

a little bit better and also like what

2833

02:08:51,660 --> 02:08:49,840

it what the heck we're doing here and

2834

02:08:53,220 --> 02:08:51,670

what's going on and why why are these

2835

02:08:55,140 --> 02:08:53,230

species not landing on the White House

2836

02:08:58,080 --> 02:08:55,150

lawn you know as people like to say I

2837

02:08:59,760 --> 02:08:58,090

saw on your Twitter feed and and when it

2838

02:09:01,830 --> 02:08:59,770

comes down to it you know I'll give you

2839

02:09:04,140 --> 02:09:01,840

I'll give you the summary of some of my

2840

02:09:07,350 --> 02:09:04,150

realizations from that conversation and

2841

02:09:09,840 --> 02:09:07,360

that's that you know we are as I

2842

02:09:12,540 --> 02:09:09,850

mentioned before in an adolescent phases

2843

02:09:15,390 --> 02:09:12,550

of species we're literally coming to a

2844

02:09:18,270 --> 02:09:15,400

point where for the first time since

2845

02:09:20,970 --> 02:09:18,280

before the end of the last ice age were

2846

02:09:23,340 --> 02:09:20,980

connected across the entire planet we

2847

02:09:25,980 --> 02:09:23,350

have the ability to communicate with

2848

02:09:28,290 --> 02:09:25,990

each other instantaneously all over the

2849

02:09:31,530 --> 02:09:28,300

world now we have technology that backs

2850

02:09:34,320 --> 02:09:31,540

up our capacity to develop telepathy but

2851
02:09:37,080 --> 02:09:34,330
telepathy is coming we are already

2852
02:09:40,050 --> 02:09:37,090
starting to speak more languages and

2853
02:09:41,940 --> 02:09:40,060
merge and realize that all languages are

2854
02:09:44,130 --> 02:09:41,950
in some way connected to a higher

2855
02:09:46,620 --> 02:09:44,140
language that's the language of thinking

2856
02:09:48,720 --> 02:09:46,630
and mind and information itself and we

2857
02:09:51,750 --> 02:09:48,730
can translate things instantly using our

2858
02:09:54,570 --> 02:09:51,760
digital technologies and as we come into

2859
02:09:58,620 --> 02:09:54,580
this maturation cycle we are preparing

2860
02:10:00,570 --> 02:09:58,630
for this sort of great orgasm of Gaia of

2861
02:10:03,840 --> 02:10:00,580
this sort of height of evolution of Gaia

2862
02:10:07,500 --> 02:10:03,850
where the human species is is released

2863
02:10:09,480 --> 02:10:07,510

out into the galaxy and gets to go and

2864

02:10:11,340 --> 02:10:09,490

explore and play and share all of our

2865

02:10:13,800 --> 02:10:11,350

realizations and our gifts with these

2866

02:10:16,410 --> 02:10:13,810

other worlds and receive the gifts from

2867

02:10:19,740 --> 02:10:16,420

these other species as well to bring our

2868

02:10:22,650 --> 02:10:19,750

planet back into balance and and to make

2869

02:10:25,590 --> 02:10:22,660

it through this this grand game of being

2870

02:10:27,870 --> 02:10:25,600

and evolution in life but in order to do

2871

02:10:29,790 --> 02:10:27,880

that there are certain very fundamental

2872

02:10:32,280 --> 02:10:29,800

realizations that we need to go through

2873

02:10:35,040 --> 02:10:32,290

as a species and in order to go through

2874

02:10:38,070 --> 02:10:35,050

those realizations we have to face the

2875

02:10:40,710 --> 02:10:38,080

potential of our own extinction we have

2876

02:10:44,220 --> 02:10:40,720

to face the potential of our own death

2877

02:10:45,220 --> 02:10:44,230

and that looking at our shadow seeing

2878

02:10:48,190 --> 02:10:45,230

our darkness see

2879

02:10:51,370 --> 02:10:48,200

we've abused nature seeing how we've we

2880

02:10:54,610 --> 02:10:51,380

we traumatize our kids and seeing how

2881

02:10:56,320 --> 02:10:54,620

you know the cycles of time and war and

2882

02:10:58,210 --> 02:10:56,330

and all the things that we've been

2883

02:11:00,550 --> 02:10:58,220

through as a species and all the things

2884

02:11:02,979 --> 02:11:00,560

we like to hide the stuff we don't like

2885

02:11:05,320 --> 02:11:02,989

to talk about the the ways we you know

2886

02:11:07,870 --> 02:11:05,330

might go to church and be like stoked to

2887

02:11:09,880 --> 02:11:07,880

like sing a song about Jesus but then we

2888

02:11:11,650 --> 02:11:09,890

don't want to talk about all of the

2889

02:11:13,870 --> 02:11:11,660

people that got slaughtered across

2890

02:11:16,930 --> 02:11:13,880

Europe because they were herbologists

2891

02:11:19,150 --> 02:11:16,940

right you know or you know what if

2892

02:11:22,600 --> 02:11:19,160

you're Muslim like dealing with the

2893

02:11:24,370 --> 02:11:22,610

shadow like facing our shadow facing our

2894

02:11:27,910 --> 02:11:24,380

own darkness facing the things that

2895

02:11:30,400 --> 02:11:27,920

we've done wrong is critical to us

2896

02:11:33,460 --> 02:11:30,410

coming into greater responsibility for

2897

02:11:36,700 --> 02:11:33,470

who we actually are and making the kinds

2898

02:11:38,380 --> 02:11:36,710

of new choices in the moment that are

2899

02:11:40,750 --> 02:11:38,390

gonna pave the way to a future that

2900

02:11:44,170 --> 02:11:40,760

actually is equitable and good for all

2901

02:11:46,810 --> 02:11:44,180

life and it's a it's a massive

2902

02:11:49,330 --> 02:11:46,820

transformation process and a realization

2903

02:11:52,420 --> 02:11:49,340

process and it looks nasty because just

2904

02:11:54,670 --> 02:11:52,430

like a butterfly you know you your world

2905

02:11:57,280 --> 02:11:54,680

worms and we're going into the chrysalis

2906

02:11:59,470 --> 02:11:57,290

and we're at battle with ourselves but

2907

02:12:01,870 --> 02:11:59,480

you know there's this amazing thing and

2908

02:12:03,880 --> 02:12:01,880

it's called the imaginal cells and the

2909

02:12:06,610 --> 02:12:03,890

imaginal cells are like those of us that

2910

02:12:09,850 --> 02:12:06,620

are waking up and popping open and we're

2911

02:12:12,130 --> 02:12:09,860

realizing you know all the truth to

2912

02:12:13,930 --> 02:12:12,140

these things and we're getting clearer

2913

02:12:16,210 --> 02:12:13,940

and we're questioning we're asking the

2914

02:12:18,490 --> 02:12:16,220

really hard questions and we're not just

2915

02:12:20,200 --> 02:12:18,500

stopping there we're keeping going until

2916

02:12:22,600 --> 02:12:20,210

the truth is seen and that's creating

2917

02:12:25,780 --> 02:12:22,610

pressure where the old structure is

2918

02:12:28,410 --> 02:12:25,790

breaking down and falling apart and then

2919

02:12:31,090 --> 02:12:28,420

through those imaginal cells literally

2920

02:12:33,220 --> 02:12:31,100

working together connecting together

2921

02:12:35,830 --> 02:12:33,230

we're forming a new structure that

2922

02:12:38,860 --> 02:12:35,840

transcends and includes the old one so

2923

02:12:42,100 --> 02:12:38,870

no one gets left behind but we literally

2924

02:12:44,560 --> 02:12:42,110

begin to generate and gestate this new

2925

02:12:47,890 --> 02:12:44,570

form of being this new species that

2926

02:12:50,860 --> 02:12:47,900

we're becoming in order to become part

2927

02:12:53,470 --> 02:12:50,870

of this galactic community and you know

2928

02:12:55,660 --> 02:12:53,480

you can't if if they just they've come

2929

02:12:57,670 --> 02:12:55,670

down to this planet so many times over

2930

02:12:59,050 --> 02:12:57,680

history they've brought technologies

2931

02:13:00,520 --> 02:12:59,060

we've tried it that way and

2932

02:13:02,890 --> 02:13:00,530

what happens as humans just think

2933

02:13:06,220 --> 02:13:02,900

they're gods and we worship them as gods

2934

02:13:08,530 --> 02:13:06,230

and we're as angels or whatever and then

2935

02:13:10,480 --> 02:13:08,540

we end up screwing up again and we you

2936

02:13:12,430 --> 02:13:10,490

know we revolt against them because we

2937

02:13:14,770 --> 02:13:12,440

don't want to have angels or gods over

2938

02:13:18,160 --> 02:13:14,780

us because we're humans you know we want

2939

02:13:20,350 --> 02:13:18,170

to be powerful ourselves and and so the

2940

02:13:23,020 --> 02:13:20,360

right answer you know to this whole

2941

02:13:25,420 --> 02:13:23,030

planetary game is letting us go through

2942

02:13:28,570 --> 02:13:25,430

our transformation you know and and

2943

02:13:31,510 --> 02:13:28,580

facing our shadow and choosing to change

2944

02:13:33,490 --> 02:13:31,520

and you know they can help us from

2945

02:13:35,980 --> 02:13:33,500

destroying ourselves and they'll stop us

2946

02:13:38,890 --> 02:13:35,990

from bombing ourselves with nukes but

2947

02:13:42,160 --> 02:13:38,900

the the phase of transformation is

2948

02:13:45,400 --> 02:13:42,170

critical and through this state of vism

2949

02:13:47,440 --> 02:13:45,410

this this blooming of realization that

2950

02:13:50,170 --> 02:13:47,450

we're going through we build our own

2951

02:13:53,110 --> 02:13:50,180

starship technology we build our own

2952

02:13:57,340 --> 02:13:53,120

energy systems that run off of the

2953

02:13:59,950 --> 02:13:57,350

quantum vacuum fields and as we build

2954

02:14:02,830 --> 02:13:59,960

all of these ourselves we know that

2955

02:14:04,840 --> 02:14:02,840

we've done it ourselves and so we come

2956

02:14:07,840 --> 02:14:04,850

to the rest of the galactic community as

2957

02:14:10,510 --> 02:14:07,850

equals and this is really important

2958

02:14:13,060 --> 02:14:10,520

because all star family have to meet

2959

02:14:15,490 --> 02:14:13,070

each other in council as equals no one's

2960

02:14:17,980 --> 02:14:15,500

above any other no shortcuts no

2961

02:14:19,570 --> 02:14:17,990

shortcuts right right now so that's

2962

02:14:22,960 --> 02:14:19,580

literally what we're in the middle of

2963

02:14:26,110 --> 02:14:22,970

right now is that process Apollo an

2964

02:14:29,560 --> 02:14:26,120

amazing conversation tonight and I've

2965

02:14:32,860 --> 02:14:29,570

literally got 15 seconds left out of all

2966

02:14:36,280 --> 02:14:32,870

of your websites where which one should

2967

02:14:38,350 --> 02:14:36,290

everybody start at first well if you go

2968

02:14:40,540 --> 02:14:38,360

to Adam Apollo calm it's got links to

2969

02:14:43,660 --> 02:14:40,550

everything else so just just come find

2970

02:14:46,240 --> 02:14:43,670

me there and hope to see you guys in

2971

02:14:48,580 --> 02:14:46,250

some of the amazing academies and and

2972

02:14:49,150 --> 02:14:48,590

some of the adventures we're going to

2973

02:14:51,640 --> 02:14:49,160

Mexico

2974

02:14:54,880 --> 02:14:51,650

for an epic expedition in the resonance

2975

02:14:57,970 --> 02:14:54,890

Academy please check that out look up

2976

02:15:01,690 --> 02:14:57,980

Mexico expedition resonance as in

2977

02:15:02,980 --> 02:15:01,700

vibrational resonance Academy and I'm

2978

02:15:05,310 --> 02:15:02,990

going there with a group of other

2979

02:15:08,290 --> 02:15:05,320

brilliant thinkers and amazing people

2980

02:15:11,950 --> 02:15:08,300

we're going to a bunch of amazing sites

2981

02:15:12,750 --> 02:15:11,960

tota con and some sites that nobody's

2982

02:15:15,509 --> 02:15:12,760

had

2983

02:15:18,770 --> 02:15:15,519

to get into we've been working hard to

2984

02:15:21,540 --> 02:15:18,780

get into some really secret spots and

2985

02:15:23,399 --> 02:15:21,550

debunk the old archaeology and reveal

2986

02:15:24,330 --> 02:15:23,409

the fact that we're more connected than

2987

02:15:26,850 --> 02:15:24,340

people think

2988

02:15:29,490 --> 02:15:26,860

thank you so much Adam and enjoy the

2989

02:15:31,709 --> 02:15:29,500

rest of your evening and I truly look

2990

02:15:33,799 --> 02:15:31,719

forward to the next time that we have

2991

02:15:36,870 --> 02:15:33,809

you on the show and we'll go deeper into

2992

02:15:38,819 --> 02:15:36,880

another subject thank you so much man

2993

02:15:42,000 --> 02:15:38,829
