all of that tonight on the show

56
00:03:54,960 --> 00:03:50,670
the book is an amazing read and

57
00:03:56,610 --> 00:03:54,970
especially it's done in two parts he

58
00:03:59,400 --> 00:03:56,620
wrote the first half of the book and

59
00:04:03,150 --> 00:03:59,410
then Gregory L little did the second

60
00:04:07,050 --> 00:04:03,160
half and it's it's an incredible read

61
00:04:10,229 --> 00:04:07,060

atlantis in the caribbean in 2008 andrea

00:05:27,140 --> 00:05:24,570

and his colleague nigel skinner simpson

89

00:05:30,140 --> 00:05:27,150

discovered a previously unrecorded cave

90

00:05:32,690 --> 00:05:30,150

complex b and beneath the pyramids of

91

00:05:35,450 --> 00:05:32,700

giza still one of the more harrowing

92

00:05:38,540 --> 00:05:35,460

videos i have ever watched in my life

93

00:05:39,980 --> 00:05:38,550

his website is of course mu collins

94

00:05:41,780 --> 00:05:39,990

comma i would like to welcome back to

95

00:05:45,530 --> 00:05:41,790

fade to black Andrew Collins Andrew good

96

00:05:49,880 --> 00:05:45,540

morning good morning tha may it do you

97

00:05:54,890 --> 00:05:49,890

ever do you ever feel claustrophobic and

98

00:05:58,130 --> 00:05:54,900

go back and watch that video yes I do

99

00:06:00,440 --> 00:05:58,140

watch it I mean I mean in some ways I

100

00:06:02,150 --> 00:06:00,450

can't believe I that we were doing it

101
00:06:04,970 --> 00:06:02,160
and B that we weren't wearing protective

102
00:06:07,400 --> 00:06:04,980
clothing for most of it I mean it looks

103
00:06:10,910 --> 00:06:07,410
like we just wandered in there but yeah

104
00:06:13,160 --> 00:06:10,920
I actually took a lot of planning and we

105
00:06:15,890 --> 00:06:13,170
would like to have continued to work but

106
00:06:18,520 --> 00:06:15,900
I mean we got in four times and explored

107
00:06:21,830 --> 00:06:18,530
as far as we possibly could safely

108
00:06:24,470 --> 00:06:21,840
without carbon dioxide poisoning or

109
00:06:27,050 --> 00:06:24,480
whatever and just had to leave it there

110
00:06:30,200 --> 00:06:27,060
and course it was rediscovered the

111
00:06:31,400 --> 00:06:30,210
following year by Zahi Hawass himself of

112
00:06:33,560 --> 00:06:31,410
course

113
00:06:36,710 --> 00:06:33,570

the whole thing was on television on a

114

00:06:40,160 --> 00:06:36,720

reality show called chasing mummies that

115

00:06:42,320 --> 00:06:40,170

followed around sahi Hawass and you know

116

00:06:44,900 --> 00:06:42,330

there's a whole episode where he goes

117

00:06:46,910 --> 00:06:44,910

inside the caves and says this is the

118

00:06:49,460 --> 00:06:46,920

greatest adventurer he's had that geezer

119

00:06:52,220 --> 00:06:49,470

ever basically you know and this is

120

00:06:54,710 --> 00:06:52,230

after he denied that they that the caves

121

00:06:57,050 --> 00:06:54,720

actually existed when we'd found them he

122

00:06:59,840 --> 00:06:57,060

actually put this online all we

123

00:07:02,600 --> 00:06:59,850

discovered is I a tomb that everybody

124

00:07:05,360 --> 00:07:02,610

knew about but you know that was that

125

00:07:08,210 --> 00:07:05,370

proved that he had no knowledge

126
00:07:10,250 --> 00:07:08,220
whatsoever of these caves and even after

127
00:07:13,760 --> 00:07:10,260
we'd found them refused to believe that

128
00:07:17,060 --> 00:07:13,770
they actually existed the the video I

129
00:07:19,370 --> 00:07:17,070
remember the first time I've watched it

130
00:07:23,180 --> 00:07:19,380
so many times it's a tremendous

131
00:07:25,640 --> 00:07:23,190
achievement that you guys did but I had

132
00:07:28,580 --> 00:07:25,650
to watch it in spurts I couldn't watch

133
00:07:31,870 --> 00:07:28,590
it straight through the claustrophobic

134
00:07:34,700 --> 00:07:31,880
atmosphere of what you guys were doing

135
00:07:39,020 --> 00:07:34,710
and you don't know what lies in front of

136
00:07:41,780 --> 00:07:39,030
you which is crazy to me and it's just

137
00:07:42,920 --> 00:07:41,790
an incredible incredible video and an

138
00:07:45,470 --> 00:07:42,930

incredible discovery

139

00:07:46,220 --> 00:07:45,480

well you guys first we'll move on

140

00:07:48,380 --> 00:07:46,230

quickly

141

00:07:51,950 --> 00:07:48,390

but you and I have talked about this so

142

00:07:54,140 --> 00:07:51,960

many times but I remember when you guys

143

00:07:57,170 --> 00:07:54,150

were first in the tomb tomb of the birds

144

00:07:59,120 --> 00:07:57,180

or whatever it was cool yeah and you

145

00:08:01,790 --> 00:07:59,130

flash your flat and you see that little

146

00:08:05,540 --> 00:08:01,800

you know that little opening in the back

147

00:08:09,920 --> 00:08:05,550

yeah and the last thing that would be on

148

00:08:13,340 --> 00:08:09,930

my mind is crawling through that the

149

00:08:15,470 --> 00:08:13,350

last thing that and you guys actually

150

00:08:18,860 --> 00:08:15,480

did not knowing what was on the other

151

00:08:21,410 --> 00:08:18,870

side and it was just an incredible

152

00:08:23,600 --> 00:08:21,420

achievement seriously I mean in some

153

00:08:25,550 --> 00:08:23,610

ways you know I looked through the whole

154

00:08:29,390 --> 00:08:25,560

oh my god that looks incredibly

155

00:08:31,640 --> 00:08:29,400

dangerous and of course it was but I

156

00:08:33,529 --> 00:08:31,650

mean that's what I'm in it for I mean

157

00:08:36,620 --> 00:08:33,539

you know I suppose we've all seen

158

00:08:38,570 --> 00:08:36,630

Indiana Jones films in our lives and you

159

00:08:42,320 --> 00:08:38,580

know and know what people like that you

160

00:08:44,990 --> 00:08:42,330

know as fictitious as as he is you know

161

00:08:45,170 --> 00:08:45,000

what they have to do and you have to do

162

00:08:51,110 --> 00:08:45,180

it

163

00:08:52,940 --> 00:08:51,120

and I also remember thinking that of you

164

00:08:55,700 --> 00:08:52,950

know the discovery of Tutankhamun's tomb

165

00:08:57,530 --> 00:08:55,710

by Howard Carter and lookin Alvin you

166

00:08:59,750 --> 00:08:57,540

know and then piercing that little hull

167

00:09:02,090 --> 00:08:59,760

you know through the door and you know

168

00:09:03,920 --> 00:09:02,100

and canal van to you know say you know

169

00:09:05,420 --> 00:09:03,930

what what what what is it what have you

170

00:09:07,280 --> 00:09:05,430

found and he turns around and says

171

00:09:09,920 --> 00:09:07,290

wonderful things you know and I

172

00:09:14,030 --> 00:09:09,930

deliberately put your words to that

173

00:09:17,540 --> 00:09:14,040

effect to the Edgar Cayce foundation who

174

00:09:19,070 --> 00:09:17,550

were partly responsible for funding the

175

00:09:20,840 --> 00:09:19,080

investigation of the case

176

00:09:23,540 --> 00:09:20,850

you know I deliberately worded the whole

177

00:09:25,820 --> 00:09:23,550

thing you know the you know wonderful

178

00:09:27,829 --> 00:09:25,830

things type thing because it was a

179

00:09:29,889 --> 00:09:27,839

wonderful things moment for me and I

180

00:09:32,210 --> 00:09:29,899

don't think there'll be anything as

181

00:09:33,680 --> 00:09:32,220

equal to that I mean obviously different

182

00:09:35,630 --> 00:09:33,690

things I mean I'm you know I'm new

183

00:09:38,120 --> 00:09:35,640

research of course all the time but I'm

184

00:09:40,220 --> 00:09:38,130

unlikely to get something like that

185

00:09:43,160 --> 00:09:40,230

happening again I would say yeah it's uh

186

00:09:45,079 --> 00:09:43,170

that's a singular that's a singular

187

00:09:48,440 --> 00:09:45,089

achievement no there's no question about

188

00:09:51,050 --> 00:09:48,450

it and if anybody is wondering what

189

00:09:53,180 --> 00:09:51,060

Andrew and I are talking about it just

190

00:09:55,970 --> 00:09:53,190

you can google it and head over to

191

00:10:00,290 --> 00:09:55,980

youtube and and check out the series of

192

00:10:01,790 --> 00:10:00,300

videos of Andrew and his team crawling

193

00:10:04,790 --> 00:10:01,800

through that hole and what they found

194

00:10:08,300 --> 00:10:04,800

and it was that was actually over that

195

00:10:10,160 --> 00:10:08,310

was that was average that was a year

196

00:10:13,160 --> 00:10:10,170

right you started one year and finished

197

00:10:15,760 --> 00:10:13,170

the second yeah yeah I mean we first

198

00:10:18,530 --> 00:10:15,770

went in the tomb of birds in 2007

199

00:10:20,240 --> 00:10:18,540

because we I mean you know by the way we

200

00:10:22,280 --> 00:10:20,250

didn't just fall into this over this was

201
00:10:25,460 --> 00:10:22,290
the end of about a five year research

202
00:10:27,710 --> 00:10:25,470
project right I mean myself and Nigel

203
00:10:29,930 --> 00:10:27,720
Skinner Simpson had worked out that

204
00:10:32,300 --> 00:10:29,940
somewhere in that vicinity was the

205
00:10:34,610 --> 00:10:32,310
entrance to a cave complex that

206
00:10:38,900 --> 00:10:34,620
everybody had overlooked and was not

207
00:10:41,930 --> 00:10:38,910
mentioned in any orthodox book on the

208
00:10:44,389 --> 00:10:41,940
Giza Plateau and certainly was not

209
00:10:46,460 --> 00:10:44,399
included in any you know academic Pike

210
00:10:50,949 --> 00:10:46,470
or anything so we knew that when we

211
00:10:56,870 --> 00:10:50,959
uncovered a diary account from a British

212
00:10:58,400 --> 00:10:56,880
consul guy for Egypt from 18 not 18 19

213
00:10:59,150 --> 00:10:58,410

that talks about going in these case

214

00:11:02,660 --> 00:10:59,160
within it

215

00:11:04,249 --> 00:11:02,670
alien explorer that you know the

216

00:11:06,680 --> 00:11:04,259
whatever it was that they were in

217

00:11:09,319 --> 00:11:06,690
certainly wasn't recorded and we had to

218

00:11:11,360 --> 00:11:09,329
try and track down where that was

219

00:11:13,340 --> 00:11:11,370
yeah because clearly it once existed and

220

00:11:15,199 --> 00:11:13,350
the chances are the entrance was still

221

00:11:17,389 --> 00:11:15,209
there somewhere but had just been lost

222

00:11:20,389 --> 00:11:17,399
you know that's why I always say Regis

223

00:11:22,160 --> 00:11:20,399
we rediscovered because quite clearly it

224

00:11:25,160 --> 00:11:22,170
had been found at the beginning in the

225

00:11:28,280 --> 00:11:25,170
19th century you know plus the chances

226

00:11:29,809 --> 00:11:28,290

are you know others had discovered it at

227

00:11:33,319 --> 00:11:29,819

a much earlier time probably even as

228

00:11:34,970 --> 00:11:33,329

early as Roman times and had got in

229

00:11:36,829 --> 00:11:34,980

there and done whatever they'd done in

230

00:11:38,449 --> 00:11:36,839

there but you know it'd have been

231

00:11:41,210 --> 00:11:38,459

completely overlooked it's almost like

232

00:11:43,939 --> 00:11:41,220

it would be it was like a blind spot it

233

00:11:46,069 --> 00:11:43,949

was in the northwest corner of the Giza

234

00:11:48,290 --> 00:11:46,079

Plateau which obviously by its sheer

235

00:11:52,400 --> 00:11:48,300

nature means that it's raised up you

236

00:11:54,019 --> 00:11:52,410

know and like a platform and the one of

237

00:11:56,240 --> 00:11:54,029

the reasons why nobody had discovered it

238

00:12:00,189 --> 00:11:56,250

in the past is because it was directly

239

00:12:03,379 --> 00:12:00,199

below a presidential building the old

240

00:12:05,629 --> 00:12:03,389

Egyptian President Mubarak would

241

00:12:07,999 --> 00:12:05,639

actually helicopter in to a building in

242

00:12:11,329 --> 00:12:08,009

that locality which was very clearly

243

00:12:13,879 --> 00:12:11,339

very heavily guarded and had been until

244

00:12:16,699 --> 00:12:13,889

about four or five years before we

245

00:12:18,290 --> 00:12:16,709

discovered it and he stopped going there

246

00:12:22,150 --> 00:12:18,300

in a course obviously eventually stopped

247

00:12:25,639 --> 00:12:22,160

being president but it then became a

248

00:12:28,670 --> 00:12:25,649

house for engineers working locally in

249

00:12:31,129 --> 00:12:28,680

the area of the Giza Plateau when we

250

00:12:32,360 --> 00:12:31,139

actually discovered it but it was one of

251
00:12:34,340 --> 00:12:32,370
these things people say well how did you

252
00:12:36,559 --> 00:12:34,350
get over there we said well all we did

253
00:12:39,620 --> 00:12:36,569
was just get a tourist pass that's all

254
00:12:41,990 --> 00:12:39,630
but we were very clever because you were

255
00:12:44,960 --> 00:12:42,000
you know usually anyone getting anywhere

256
00:12:48,740 --> 00:12:44,970
near that part of the plateau would be

257
00:12:52,370 --> 00:12:48,750
turned away by guards by security place

258
00:12:56,059 --> 00:12:52,380
whatever but what I know is that if we

259
00:12:58,160 --> 00:12:56,069
came onto the plateau from the back and

260
00:13:02,389 --> 00:12:58,170
there was a back door into the plateau

261
00:13:04,280 --> 00:13:02,399
on camels and just went straight over

262
00:13:07,030 --> 00:13:04,290
there having already got our past as

263
00:13:09,799 --> 00:13:07,040

part of a camel ride we could get there

264

00:13:11,689 --> 00:13:09,809

and we wouldn't be stopped or it'd be

265

00:13:12,050 --> 00:13:11,699

very unlikely that would be stopped with

266

00:13:15,050 --> 00:13:12,060

all

267

00:13:18,050 --> 00:13:15,060

our equipment so that's what we did we

268

00:13:20,300 --> 00:13:18,060

went over there we got there there was a

269

00:13:22,730 --> 00:13:20,310

local Guardian there what I mean by that

270

00:13:24,470 --> 00:13:22,740

is somebody who lives in the vicinity

271

00:13:26,150 --> 00:13:24,480

and looks after any tombs in a

272

00:13:29,300 --> 00:13:26,160

particular area I mean he was a really

273

00:13:31,280 --> 00:13:29,310

old guy he said he'd never been in this

274

00:13:32,600 --> 00:13:31,290

he knew about the caves but he'd never

275

00:13:34,520 --> 00:13:32,610

been in there

276

00:13:36,410 --> 00:13:34,530

and he said that in the whole of his

277

00:13:38,900 --> 00:13:36,420

time he knew nobody that had actually

278

00:13:41,810 --> 00:13:38,910

been in the cave he said one guy in the

279

00:13:44,540 --> 00:13:41,820

1980s an Egyptian Egyptologist had

280

00:13:46,190 --> 00:13:44,550

looked in them but I decided against

281

00:13:47,600 --> 00:13:46,200

exploring them and that was the one

282

00:13:51,530 --> 00:13:47,610

person now this is the guy that would

283

00:13:53,000 --> 00:13:51,540

know if anybody had been in there and as

284

00:13:55,690 --> 00:13:53,010

I said the sheer fact that something

285

00:13:58,430 --> 00:13:55,700

like Zahi Hawass who'd been in charge of

286

00:14:00,470 --> 00:13:58,440

excavations on the plateau for many

287

00:14:02,300 --> 00:14:00,480

years didn't know about it tells you

288

00:14:05,080 --> 00:14:02,310

that this was something new something

289

00:14:09,560 --> 00:14:05,090

that had truly not been explored before

290

00:14:12,200 --> 00:14:09,570

before we move on how many times I know

291

00:14:16,070 --> 00:14:12,210

this is pretty well documented but how

292

00:14:19,940 --> 00:14:16,080

many times did you walk through the tomb

293

00:14:22,670 --> 00:14:19,950

of the birds because it was the last day

294

00:14:26,810 --> 00:14:22,680

you guys were done but when he made the

295

00:14:28,490 --> 00:14:26,820

discovery you guys yeah I mean what's

296

00:14:30,740 --> 00:14:28,500

the case of being done I mean you know

297

00:14:33,110 --> 00:14:30,750

we gave up one year and just said well

298

00:14:35,930 --> 00:14:33,120

look we can't find anything bearing in

299

00:14:37,280 --> 00:14:35,940

mind that these tombs are completely in

300

00:14:38,270 --> 00:14:37,290

darkness yeah I think this is this

301
00:14:40,340 --> 00:14:38,280
should be pointed out there's no

302
00:14:42,500 --> 00:14:40,350
lighting in them so you know there's

303
00:14:44,240 --> 00:14:42,510
nothing that shows you everything you

304
00:14:45,650 --> 00:14:44,250
need to see you know in an easily

305
00:14:49,790 --> 00:14:45,660
available

306
00:14:53,510 --> 00:14:49,800
you know electric light so we could be

307
00:14:57,620 --> 00:14:53,520
excuse for for missing a very small hull

308
00:15:01,700 --> 00:14:57,630
at the back of that the tomb in one of

309
00:15:05,000 --> 00:15:01,710
the the corridors and we you know but

310
00:15:07,220 --> 00:15:05,010
the information came back that that it

311
00:15:09,680 --> 00:15:07,230
was somewhere in that area and then we

312
00:15:11,540 --> 00:15:09,690
even found a map and the map had to be

313
00:15:16,970 --> 00:15:11,550

interpreted because it was all done

314

00:15:19,760 --> 00:15:16,980
through letters A to Z and Ilb BC so

315

00:15:23,780 --> 00:15:19,770
euros little covered and it talked about

316

00:15:25,910 --> 00:15:23,790
we found another reference to caves

317

00:15:29,540 --> 00:15:25,920
being in an area which a cover of what

318

00:15:31,100 --> 00:15:29,550
now shhh or something like that and the

319

00:15:32,900 --> 00:15:31,110
way that the whole thing was written it

320

00:15:36,860 --> 00:15:32,910
was done at the beginning of the 19th

321

00:15:39,560 --> 00:15:36,870
century was so poorly represented as far

322

00:15:43,009 --> 00:15:39,570
as as the way that we would do a map to

323

00:15:46,430 --> 00:15:43,019
Diane and you know wasn't an act an

324

00:15:50,480 --> 00:15:46,440
accurate survey it was just a sketch yes

325

00:15:52,340 --> 00:15:50,490
it was yeah yeah and because of that you

326

00:15:56,629 --> 00:15:52,350

know it had to be attempted so Nigel

327

00:15:58,490 --> 00:15:56,639

went through every single site on the

328

00:16:00,710 --> 00:15:58,500

whole of the plateau mentioned in the

329

00:16:02,900 --> 00:16:00,720

diary accounts ticking at them off

330

00:16:05,329 --> 00:16:02,910

against the letters until there was just

331

00:16:07,370 --> 00:16:05,339

one site that was missing and it was

332

00:16:10,730 --> 00:16:07,380

these caves and we had you know one

333

00:16:13,670 --> 00:16:10,740

double set of letters left marked and it

334

00:16:15,259 --> 00:16:13,680

almost was perfectly coinciding with

335

00:16:18,350 --> 00:16:15,269

what we'd already started to call the

336

00:16:19,819 --> 00:16:18,360

tomb of the bird so yeah we knew that we

337

00:16:22,490 --> 00:16:19,829

must be in the right area and that's why

338

00:16:25,040 --> 00:16:22,500

we went back because we thought well it

339

00:16:26,240 --> 00:16:25,050

can only be this cave I'm een you know

340

00:16:30,710 --> 00:16:26,250

there was a there was there was another

341

00:16:32,660 --> 00:16:30,720

tiny couple of of tombs nearby all of

342

00:16:36,410 --> 00:16:32,670

which by the way were unrecorded I mean

343

00:16:37,939 --> 00:16:36,420

they were not in any books the only the

344

00:16:41,780 --> 00:16:37,949

only reference to the tomb of the birds

345

00:16:46,759 --> 00:16:41,790

was from a guy called Howard advice back

346

00:16:49,490 --> 00:16:46,769

in about 1839 where it said that he and

347

00:16:51,889 --> 00:16:49,500

his British engineer friend John pairing

348

00:16:57,050 --> 00:16:51,899

had actually been inside the tomb not

349

00:16:59,389 --> 00:16:57,060

the caves and had found the that the

350

00:17:01,069 --> 00:16:59,399

bodies the mummies of birds of large

351

00:17:02,389 --> 00:17:01,079

birds in there which is obviously the

352

00:17:05,990 --> 00:17:02,399

reason why it's called the tomb of the

353

00:17:08,120 --> 00:17:06,000

birds to die and what this told us is

354

00:17:10,760 --> 00:17:08,130

that clearly these this tomb was

355

00:17:12,980 --> 00:17:10,770

associated with a cult to do with the

356

00:17:14,960 --> 00:17:12,990

particular god or goddess most obviously

357

00:17:18,919 --> 00:17:14,970

a god that was connected with birds

358

00:17:23,990 --> 00:17:18,929

probably the god Thoth for Thoth who's

359

00:17:28,159 --> 00:17:24,000

associated with the Ibis as a bird a

360

00:17:31,789 --> 00:17:28,169

totem but perhaps the god

361

00:17:34,580 --> 00:17:31,799

Sokar now he is the very ancient god of

362

00:17:38,030 --> 00:17:34,590

the dead who was connected with the gate

363

00:17:39,470 --> 00:17:38,040

a necropolis and his symbol was the hulk

364

00:17:41,750 --> 00:17:39,480

of falcon

365

00:17:44,120 --> 00:17:41,760

so it's possibility this could have been

366

00:17:45,940 --> 00:17:44,130

a sight of his eye fortunately there's

367

00:17:48,470 --> 00:17:45,950

no way of knowing because those bird

368

00:17:52,100 --> 00:17:48,480

mummies yeah we're not preserved through

369

00:17:54,260 --> 00:17:52,110

to modern times so we can't say but yeah

370

00:17:56,780 --> 00:17:54,270

this again told us something special was

371

00:17:59,000 --> 00:17:56,790

going on in that tome and that you know

372

00:18:01,070 --> 00:17:59,010

it could well be that the fact that

373

00:18:04,549 --> 00:18:01,080

somewhere there is an entrance into a

374

00:18:07,130 --> 00:18:04,559

cave system as a symbol of the Egyptian

375

00:18:09,440 --> 00:18:07,140

underworld known as the do act you know

376

00:18:11,390 --> 00:18:09,450

that it became a connected with the cult

377

00:18:13,820 --> 00:18:11,400

of the dead a cult of a particular God

378

00:18:15,650 --> 00:18:13,830

or whatever and I think we would

379

00:18:17,620 --> 00:18:15,660

probably obviously proof correct in that

380

00:18:20,750 --> 00:18:17,630

case that's the reason why it was

381

00:18:22,909 --> 00:18:20,760

associated with with this you know this

382

00:18:26,780 --> 00:18:22,919

God associated with a bird you know

383

00:18:29,390 --> 00:18:26,790

because it was this the whole Kai's were

384

00:18:31,580 --> 00:18:29,400

a physical representation of the

385

00:18:34,610 --> 00:18:31,590

Egyptian underworld known as the do act

386

00:18:39,980 --> 00:18:34,620

they are you know what it looks do wat

387

00:18:43,760 --> 00:18:39,990

ish for sure yeah it is it's creepy I

388

00:18:47,900 --> 00:18:43,770

mean yes it's an incredible video yeah

389

00:18:51,250 --> 00:18:47,910

so just out of interest so if any of

390

00:18:53,600 --> 00:18:51,260

your listeners want to go for this go to

391

00:18:55,909 --> 00:18:53,610

youtube and just put my name Andrew

392

00:18:58,549 --> 00:18:55,919

Collins or just put the Lost caves of

393

00:19:00,830 --> 00:18:58,559

Giza The Lost caves of Giza and that

394

00:19:03,020 --> 00:19:00,840

brings you up the video which was put

395

00:19:06,650 --> 00:19:03,030

together by Greg little who is the

396

00:19:10,130 --> 00:19:06,660

co-author of my current book Genesis and

397

00:19:14,330 --> 00:19:10,140

origins which come fully brings us on to

398

00:19:18,500 --> 00:19:14,340

that book and I'm pulling it up now I

399

00:19:20,810 --> 00:19:18,510

will get yeah here it is right here I

400

00:19:23,630 --> 00:19:20,820

will I'll get this up during the break

401
00:19:25,669 --> 00:19:23,640
and everybody needs to go and watch this

402
00:19:28,730 --> 00:19:25,679
it's a pretty incredible video proteger

403
00:19:29,960 --> 00:19:28,740
yeah it's very well done as well I mean

404
00:19:33,200 --> 00:19:29,970
it's done an incredible job

405
00:19:35,150 --> 00:19:33,210
he got recreations reconstructions all

406
00:19:37,640 --> 00:19:35,160
sorts of stuff in there it's brilliantly

407
00:19:38,630 --> 00:19:37,650
put together video and it's it's free

408
00:19:43,310 --> 00:19:38,640
you just watch it

409
00:19:46,340 --> 00:19:43,320
say the title of your new book the

410
00:19:50,630 --> 00:19:46,350
discipline origins and we've already had

411
00:19:53,570 --> 00:19:50,640
a conversation on this about whether it

412
00:19:56,210 --> 00:19:53,580
should be Dennis oven or Denisovans

413
00:19:58,580 --> 00:19:56,220

and the answer is Denis oven because the

414

00:20:01,960 --> 00:19:58,590

people that came up with this name who

415

00:20:07,580 --> 00:20:01,970

were members of the Max Planck Institute

416

00:20:10,970 --> 00:20:07,590

of Physical Anthropology at Leipzig in

417

00:20:12,710 --> 00:20:10,980

Germany you know did this was that I may

418

00:20:15,500 --> 00:20:12,720

come up with this was the pronunciation

419

00:20:19,460 --> 00:20:15,510

Denis oven and it's after the Denis of a

420

00:20:20,930 --> 00:20:19,470

cave which is where we learn about the

421

00:20:22,730 --> 00:20:20,940

people were going to be talking about

422

00:20:24,920 --> 00:20:22,740

and that's the Denisovans for the first

423

00:20:26,570 --> 00:20:24,930

time you know it becomes what's known as

424

00:20:28,460 --> 00:20:26,580

their type sight you know the place

425

00:20:30,530 --> 00:20:28,470

where there where there remains a first

426
00:20:33,740 --> 00:20:30,540
found that you know evidence of their

427
00:20:37,040 --> 00:20:33,750
culture this is first excavated and

428
00:20:38,600 --> 00:20:37,050
identified so you know and and the

429
00:20:42,920 --> 00:20:38,610
reason why it's called Denis of a cave

430
00:20:45,560 --> 00:20:42,930
is because in the 18th century there was

431
00:20:48,520 --> 00:20:45,570
I a monk or a hermit who actually lived

432
00:20:52,370 --> 00:20:48,530
in the Chi and his name was Dennis ah

433
00:20:54,320 --> 00:20:52,380
sorry Dennis ah and you know you have to

434
00:20:55,520 --> 00:20:54,330
remember the we're in Russia here so

435
00:20:57,980 --> 00:20:55,530
everything's pronounced slightly

436
00:21:00,230 --> 00:20:57,990
different to how we might do in in the

437
00:21:01,700 --> 00:21:00,240
West you know it's not gayness you know

438
00:21:03,800 --> 00:21:01,710

like I might say in England you know

439

00:21:07,460 --> 00:21:03,810

Lorraine it's you know

440

00:21:09,380 --> 00:21:07,470

denisa and you know and I've also

441

00:21:11,570 --> 00:21:09,390

verified that with with some of my

442

00:21:14,150 --> 00:21:11,580

Eastern European friends I've said look

443

00:21:17,510 --> 00:21:14,160

you know if you see this this night you

444

00:21:19,610 --> 00:21:17,520

know did you know did it dallisa how is

445

00:21:22,730 --> 00:21:19,620

it pronounced and you know they say the

446

00:21:24,500 --> 00:21:22,740

same so it is Denisovans not Denisovans

447

00:21:27,710 --> 00:21:24,510

i suppose to some people it's going to

448

00:21:30,640 --> 00:21:27,720

be tomato and tomato isn't it but okay I

449

00:21:33,950 --> 00:21:30,650

mean it's it's pretty it's definitely

450

00:21:36,140 --> 00:21:33,960

pronounced Dennis of it so now and and

451
00:21:40,790 --> 00:21:36,150
you mentioned you know that this is

452
00:21:42,740 --> 00:21:40,800
Russia specifically Siberia and as we

453
00:21:45,800 --> 00:21:42,750
get into this discussion tonight there

454
00:21:48,290 --> 00:21:45,810
is a lot to talk about here obviously in

455
00:21:50,540 --> 00:21:48,300
the title where we've got hybrid humans

456
00:21:53,810 --> 00:21:50,550
and Gobekli tapping the genesis of

457
00:21:56,960 --> 00:21:53,820
giants in ancient America there's a lot

458
00:22:00,650 --> 00:21:56,970
to go over but there is and it's an

459
00:22:03,830 --> 00:22:00,660
incredible read and I've now started my

460
00:22:06,530 --> 00:22:03,840
second pass through the book it's

461
00:22:07,310 --> 00:22:06,540
absolutely well written you do the first

462
00:22:10,880 --> 00:22:07,320
half of the book

463
00:22:13,220 --> 00:22:10,890

Gregory little does the second half

464

00:22:18,140 --> 00:22:13,230

great illustrations and it's laid out

465

00:22:20,420 --> 00:22:18,150

well but there was one and we got to get

466

00:22:22,400 --> 00:22:20,430

into who they are and worth that's

467

00:22:26,150 --> 00:22:22,410

that's very very important that there

468

00:22:27,920 --> 00:22:26,160

was one fact that has pointed out in

469

00:22:30,560 --> 00:22:27,930

this book and I had to go back and do

470

00:22:35,330 --> 00:22:30,570

some research I didn't realize this that

471

00:22:42,710 --> 00:22:35,340

there is some mitochondria DNA evidence

472

00:22:48,020 --> 00:22:42,720

of the of the Denisovan interaction all

473

00:22:50,660 --> 00:22:48,030

the way up to 15,000 BC and right that's

474

00:22:54,500 --> 00:22:50,670

pretty incredible when we think about

475

00:22:57,560 --> 00:22:54,510

you know Neanderthal or whether we're

476

00:23:01,450 --> 00:22:57,570

reaching back to you know 35 40 50

477

00:23:06,410 --> 00:23:01,460

thousand years ago and cro-magnon but

478

00:23:09,140 --> 00:23:06,420

were were they around to 15,000 BC am i

479

00:23:12,050 --> 00:23:09,150

understanding correctly I mean you know

480

00:23:14,390 --> 00:23:12,060

I mean obviously we haven't got a window

481

00:23:17,210 --> 00:23:14,400

into fifteen thousand years ago to give

482

00:23:22,460 --> 00:23:17,220

us the exact answer but the evidence of

483

00:23:24,320 --> 00:23:22,470

this comes from genetics you see I mean

484

00:23:26,510 --> 00:23:24,330

let's just go into the story I mean

485

00:23:30,350 --> 00:23:26,520

before 2010 we didn't even know anything

486

00:23:32,480 --> 00:23:30,360

about the Denisovans but in in that year

487

00:23:35,410 --> 00:23:32,490

I piece a finger bone that had been

488

00:23:38,420 --> 00:23:35,420

found two years early inside that kind

489

00:23:41,450 --> 00:23:38,430

inside an Occupational level that was

490

00:23:43,940 --> 00:23:41,460

full of cultural artifacts going back to

491

00:23:48,410 --> 00:23:43,950

about forty to fifty thousand years ago

492

00:23:50,750 --> 00:23:48,420

when they sequenced the genome of this

493

00:23:54,830 --> 00:23:50,760

little finger bone they found that it

494

00:23:58,010 --> 00:23:54,840

belonged to a type of of human that was

495

00:23:59,390 --> 00:23:58,020

not Neanderthal and was not an atomic or

496

00:24:03,710 --> 00:23:59,400

modern humans in other words Homo

497

00:24:05,600 --> 00:24:03,720

sapiens it was brand-new and yeah I mean

498

00:24:08,450 --> 00:24:05,610

this stunned them because I mean

499

00:24:11,000 --> 00:24:08,460

obviously we knew about the Neanderthals

500

00:24:14,030 --> 00:24:11,010

back in the 19th century and you know

501
00:24:17,120 --> 00:24:14,040
we've got you know at least a dozen to

502
00:24:20,570 --> 00:24:17,130
20 full skeletons plus hundreds of other

503
00:24:24,260 --> 00:24:20,580
bones and sky

504
00:24:28,040 --> 00:24:24,270
and whatever of them and obviously we've

505
00:24:30,530 --> 00:24:28,050
got the you know that the the anatomical

506
00:24:33,800 --> 00:24:30,540
remains of ourselves going back you know

507
00:24:35,900 --> 00:24:33,810
two hundred thousand years ago but we

508
00:24:39,170 --> 00:24:35,910
certainly have not seen these people

509
00:24:41,300 --> 00:24:39,180
before so they gain the name Dennis

510
00:24:42,790 --> 00:24:41,310
Verne from the people that did the the

511
00:24:47,510 --> 00:24:42,800
sequencing which was the Max Planck

512
00:24:49,910 --> 00:24:47,520
Institute in Germany and we started to

513
00:24:53,540 --> 00:24:49,920

look at who they were their culture

514

00:24:55,040 --> 00:24:53,550

their achievements based on all of the

515

00:24:57,680 --> 00:24:55,050

artifacts that were found and we'll talk

516

00:25:01,010 --> 00:24:57,690

about those but what also became very

517

00:25:04,060 --> 00:25:01,020

apparent very quickly was that there was

518

00:25:08,960 --> 00:25:04,070

a number of modern human populations

519

00:25:15,020 --> 00:25:08,970

that had a percentage of Denisovan DNA

520

00:25:17,960 --> 00:25:15,030

and this DNA word was both mitochondrial

521

00:25:20,090 --> 00:25:17,970

in and mitochondrial DNA is the DNA of

522

00:25:23,000 --> 00:25:20,100

the bacteria in our bodies it's

523

00:25:26,750 --> 00:25:23,010

essential and it's like the workers on

524

00:25:28,670 --> 00:25:26,760

behalf of the cells but it is bacteria

525

00:25:30,080 --> 00:25:28,680

it's it's in it was introduced at some

526
00:25:32,750 --> 00:25:30,090
point you know that the so called

527
00:25:37,190 --> 00:25:32,760
mitochondrial Eve was supposedly the

528
00:25:38,660 --> 00:25:37,200
first person that had all of this and it

529
00:25:42,040 --> 00:25:38,670
was then passed on through the female

530
00:25:45,200 --> 00:25:42,050
line down to the modern day but because

531
00:25:49,250 --> 00:25:45,210
mitochondrial DNA mutates at a fairly

532
00:25:52,580 --> 00:25:49,260
regular right each different mutation

533
00:25:56,500 --> 00:25:52,590
has its own designation you know would

534
00:26:00,800 --> 00:25:56,510
it be my capra group I be CD or whatever

535
00:26:03,860 --> 00:26:00,810
we we can somehow recognize this and

536
00:26:05,780 --> 00:26:03,870
start piecing the jigsaw together and

537
00:26:08,150 --> 00:26:05,790
create like a family tree based on it

538
00:26:11,080 --> 00:26:08,160

that's what mitochondrial DNA is about

539

00:26:16,010 --> 00:26:11,090

but there's also obviously nuclear DNA

540

00:26:20,510 --> 00:26:16,020

and the nuclear D&I relates specifically

541

00:26:22,970 --> 00:26:20,520

to what builds us you know what creates

542

00:26:26,090 --> 00:26:22,980

our figures creates our eyes creates our

543

00:26:29,150 --> 00:26:26,100

toes creates our brains makes us think

544

00:26:30,830 --> 00:26:29,160

makes us work and makes us who we are

545

00:26:32,450 --> 00:26:30,840

and of course obviously that also

546

00:26:33,820 --> 00:26:32,460

mutates but in a slightly different

547

00:26:37,840 --> 00:26:33,830

manner

548

00:26:40,720 --> 00:26:37,850

what we can say is that the genes that

549

00:26:42,369 --> 00:26:40,730

make up the genome you know I found

550

00:26:44,440 --> 00:26:42,379

again and again within humans obviously

551
00:26:47,680 --> 00:26:44,450
because you know the same ones make

552
00:26:51,850 --> 00:26:47,690
fingers in everybody but when you start

553
00:26:54,039 --> 00:26:51,860
finding genes that are not part of our

554
00:26:56,200 --> 00:26:54,049
own genome you've gotta say where do

555
00:26:58,180 --> 00:26:56,210
they come from well in a lot of cases we

556
00:27:01,029 --> 00:26:58,190
don't know but what we do know now is

557
00:27:03,460 --> 00:27:01,039
that some of them came from the

558
00:27:05,950 --> 00:27:03,470
Denisovans just in the same way that

559
00:27:09,220 --> 00:27:05,960
some of them came from the Neanderthals

560
00:27:11,830 --> 00:27:09,230
a lot of people in the Western world in

561
00:27:15,639 --> 00:27:11,840
fact also the eastern world as well

562
00:27:19,629 --> 00:27:15,649
certainly in Eurasia have Neanderthal

563
00:27:22,779 --> 00:27:19,639

DNA anything up to 2 to 3 percent but a

564

00:27:25,960 --> 00:27:22,789

lot of people in eastern Asia southern

565

00:27:29,320 --> 00:27:25,970

Asia Southeast Asia places like Papua

566

00:27:32,590 --> 00:27:29,330

New Guinea and Australia have Denisovan

567

00:27:35,919 --> 00:27:32,600

DNA in anything up to a percentage of

568

00:27:43,479 --> 00:27:35,929

around five to six five to six percent

569

00:27:45,820 --> 00:27:43,489

some as some as high as 17% no not as

570

00:27:48,999 --> 00:27:45,830

far as I'm aware I mean these are

571

00:27:50,739 --> 00:27:49,009

averages obviously right so you know in

572

00:27:56,470 --> 00:27:50,749

other words say for instance it said

573

00:27:58,899 --> 00:27:56,480

that you know 3% is has been found in a

574

00:28:01,119 --> 00:27:58,909

particular population what that means is

575

00:28:04,119 --> 00:28:01,129

that some people could have none but

576

00:28:06,369 --> 00:28:04,129

some people could have six that's the

577

00:28:08,799 --> 00:28:06,379

way it works so that's the average of

578

00:28:12,310 --> 00:28:08,809

what you can find and that's averaged

579

00:28:14,320 --> 00:28:12,320

over an entire population that's why it

580

00:28:18,700 --> 00:28:14,330

works but having said that it generally

581

00:28:21,220 --> 00:28:18,710

does keep around a certain percentage

582

00:28:23,529 --> 00:28:21,230

which sometimes it going up sometimes it

583

00:28:25,509 --> 00:28:23,539

going down slightly I mean this is the

584

00:28:28,690 --> 00:28:25,519

case for instance with various Native

585

00:28:31,239 --> 00:28:28,700

American tribes they have a potential of

586

00:28:35,009 --> 00:28:31,249

anything up to 3%

587

00:28:37,799 --> 00:28:35,019

Denisov and DLI for instance the egde if

588

00:28:40,659 --> 00:28:37,809

you were in the Great Lakes region

589

00:28:43,029 --> 00:28:40,669

they've got quite a percentage but that

590

00:28:46,180 --> 00:28:43,039

doesn't mean if you pinned down a jib

591

00:28:47,620 --> 00:28:46,190

worth today and extract his DNA that

592

00:28:49,270 --> 00:28:47,630

he's gonna have 3%

593

00:28:51,400 --> 00:28:49,280

the potential of anything up to that

594

00:28:53,730 --> 00:28:51,410

that's what's been found but generally

595

00:28:57,700 --> 00:28:53,740

it's actually a lot lower than that but

596

00:28:59,550 --> 00:28:57,710

going back to the 15,000 years ago what

597

00:29:03,040 --> 00:28:59,560

they found is that there are certain

598

00:29:05,710 --> 00:29:03,050

populations particularly in Papua New

599

00:29:10,450 --> 00:29:05,720

Guinea and the Philippines and with a

600

00:29:14,410 --> 00:29:10,460

with some also in Java in Indonesia that

601
00:29:17,770 --> 00:29:14,420
have a type of Denisovan DNA that looks

602
00:29:20,350 --> 00:29:17,780
no now I have no idea how that works I

603
00:29:22,300 --> 00:29:20,360
mean I'm not a geneticist I can only

604
00:29:25,330 --> 00:29:22,310
report yeah because my background is

605
00:29:28,570 --> 00:29:25,340
journalism but you know that when they

606
00:29:32,610 --> 00:29:28,580
look at it they say the type of DNA here

607
00:29:36,730 --> 00:29:32,620
looks younger than what we expected for

608
00:29:39,790 --> 00:29:36,740
the Denisovans in other areas and we

609
00:29:42,400 --> 00:29:39,800
suspect therefore that it must have been

610
00:29:45,100 --> 00:29:42,410
part of what they call an intra gresham

611
00:29:49,780 --> 00:29:45,110
that means you know interbreeding at a

612
00:29:53,890 --> 00:29:49,790
much later date as late as 15,000 years

613
00:29:56,200 --> 00:29:53,900

ago so what they're saying is that it is

614

00:29:59,740 --> 00:29:56,210

possible that there were Denisovans

615

00:30:02,170 --> 00:29:59,750

hanging around through and tell 15,000

616

00:30:06,160 --> 00:30:02,180

years ago but on the other hand they

617

00:30:09,280 --> 00:30:06,170

could have been Denisovan hybrids in

618

00:30:12,550 --> 00:30:09,290

other words human stroke Denisovan

619

00:30:14,650 --> 00:30:12,560

hybrids which were very strongly

620

00:30:17,710 --> 00:30:14,660

Denisovan in other words so strong that

621

00:30:20,830 --> 00:30:17,720

they passed on strong dreams at that

622

00:30:23,470 --> 00:30:20,840

time so we don't know but it is possible

623

00:30:25,840 --> 00:30:23,480

yes that something is events hang around

624

00:30:27,730 --> 00:30:25,850

until 15,000 years ago and as you say

625

00:30:30,790 --> 00:30:27,740

it's fairly modern you know I mean it's

626

00:30:33,120 --> 00:30:30,800

the end of the last ice age which

627

00:30:38,650 --> 00:30:33,130

technically it was about 13,000 BC

628

00:30:40,810 --> 00:30:38,660

15,000 years ago and you know just

629

00:30:42,310 --> 00:30:40,820

before the the big Cataclysm which we

630

00:30:45,190 --> 00:30:42,320

now know took place the so-called

631

00:30:48,760 --> 00:30:45,200

Younger Dryas impact event which

632

00:30:51,040 --> 00:30:48,770

occurred in 10,000 sorry

633

00:30:52,750 --> 00:30:51,050

eleven thousand six hundred years ago so

634

00:30:55,240 --> 00:30:52,760

you know just shortly after that time

635

00:30:56,770 --> 00:30:55,250

really well let me jump in let me jump

636

00:30:58,900 --> 00:30:56,780

in right there we need to take our break

637

00:31:01,030 --> 00:30:58,910

and we're just gonna pick up or we're

638

00:31:03,070 --> 00:31:01,040

leaving off right here

639

00:31:05,140 --> 00:31:03,080

this is fade to black iron Merrill's to

640

00:31:08,770 --> 00:31:05,150

me church it's an incredible part of our

641

00:31:11,080 --> 00:31:08,780

history and it's so well done in Andrews

642

00:31:12,670 --> 00:31:11,090

new book we're gonna discuss all of it

643

00:31:14,530 --> 00:31:12,680

tonight this is fade to black I'm your

644

00:31:17,710 --> 00:31:14,540

host Jimmy church on the GameChanger

645

00:31:19,540 --> 00:31:17,720

network and kg are a the planet stay

646

00:31:34,930 --> 00:31:19,550

with us we'll be right back

647

00:31:41,410 --> 00:31:39,160

[Music]

648

00:31:43,390 --> 00:31:41,420

all right welcome back fade to black I'm

649

00:31:46,570 --> 00:31:43,400

real shimmy Church tonight our guest

650

00:31:49,750 --> 00:31:46,580

Andrew Collins we're talking about his

651
00:31:51,910 --> 00:31:49,760
new book Denis oven origins it's

652
00:31:54,310 --> 00:31:51,920
incredible hybrid humans gobekli tepe

653
00:31:58,090 --> 00:31:54,320
and the genesis of giants of ancient

654
00:32:01,090 --> 00:31:58,100
america there is a lot in this book it

655
00:32:03,520 --> 00:32:01,100
is illustrated great color section in

656
00:32:06,940 --> 00:32:03,530
the middle by the way really well done

657
00:32:10,420 --> 00:32:06,950
and it's very comprehensive Andrew and

658
00:32:14,410 --> 00:32:10,430
for me this is the kind of stuff that I

659
00:32:16,510 --> 00:32:14,420
enjoy and it's a tremendous read we left

660
00:32:20,620 --> 00:32:16,520
off right before the break talking about

661
00:32:23,590 --> 00:32:20,630
the Younger Dryas and the one thing that

662
00:32:26,200 --> 00:32:23,600
this book I get the feeling of and this

663
00:32:29,410 --> 00:32:26,210

is because we're gonna get into the

664

00:32:33,010 --> 00:32:29,420

Younger Dryas now where we left off is

665

00:32:35,740 --> 00:32:33,020

that I've always felt that looking at

666

00:32:38,730 --> 00:32:35,750

gobekli tepe and I know I'm saying it

667

00:32:41,140 --> 00:32:38,740

wrong I don't say it is as well as you

668

00:32:43,870 --> 00:32:41,150

looking at gobekli tepe and you know

669

00:32:45,990 --> 00:32:43,880

that we have discussed it so much on the

670

00:32:50,290 --> 00:32:46,000

show it's such a big push of what we do

671

00:32:54,190 --> 00:32:50,300

I had always felt that the construction

672

00:32:56,770 --> 00:32:54,200

of Gobekli Tepe came from the north the

673

00:32:58,540 --> 00:32:56,780

the possibility of everything coming

674

00:33:01,720 --> 00:32:58,550

from the south and Out of Africa and

675

00:33:04,960 --> 00:33:01,730

going north it okay that that's nice but

676

00:33:08,200 --> 00:33:04,970

I felt like it came from the north and

677

00:33:11,320 --> 00:33:08,210

possibly out of Siberia is this where

678

00:33:13,810 --> 00:33:11,330

the book is this the foundation of what

679

00:33:17,470 --> 00:33:13,820

you're trying to present yeah I mean

680

00:33:19,650 --> 00:33:17,480

your intuition is 100% accurate and it's

681

00:33:22,390 --> 00:33:19,660

interested that you should feel that way

682

00:33:25,380 --> 00:33:22,400

you know it's almost like you know when

683

00:33:28,210 --> 00:33:25,390

people look at it they get a sense of

684

00:33:29,950 --> 00:33:28,220

origins and you know exactly what is

685

00:33:32,530 --> 00:33:29,960

going on there you know something deep

686

00:33:34,600 --> 00:33:32,540

inside something ancestral that tells us

687

00:33:37,030 --> 00:33:34,610

where this came from so let's talk about

688

00:33:38,680 --> 00:33:37,040

gobekli tepe by the way I think he was

689

00:33:41,890 --> 00:33:38,690

you were saying it pretty accurately

690

00:33:45,630 --> 00:33:41,900

actually now this is a place which

691

00:33:48,220 --> 00:33:45,640

obviously I mean I first went to in 2004

692

00:33:49,870 --> 00:33:48,230

and at that time there was nobody there

693

00:33:52,909 --> 00:33:49,880

in fact there was no there wasn't even a

694

00:33:58,440 --> 00:33:52,919

round a proper road to it

695

00:33:59,310 --> 00:33:58,450

and I I was there for this big cultural

696

00:34:01,259 --> 00:33:59,320

festival

697

00:34:03,359 --> 00:34:01,269

place called aya back arch is the

698

00:34:06,329 --> 00:34:03,369

administrative center of Southeast

699

00:34:08,069 --> 00:34:06,339

Turkey and you know I said as part of

700

00:34:11,279 --> 00:34:08,079

the deal you know could I see some of

701
00:34:13,619 --> 00:34:11,289
these sites I've written about you know

702
00:34:15,329 --> 00:34:13,629
like you know these these are the sort

703
00:34:17,099 --> 00:34:15,339
of Neolithic places I've been talking

704
00:34:21,990 --> 00:34:17,109
about in books like from the ashes of

705
00:34:24,839 --> 00:34:22,000
angels gods of Eden and others and I

706
00:34:26,789 --> 00:34:24,849
said yeah sure you know just just get

707
00:34:28,200 --> 00:34:26,799
you know what will give you a car give

708
00:34:30,599 --> 00:34:28,210
you a driver will give you an

709
00:34:32,909 --> 00:34:30,609
interpreter brilliant so we went to see

710
00:34:35,760 --> 00:34:32,919
all these great sites including of

711
00:34:37,440 --> 00:34:35,770
course Quebec liter play and I mean that

712
00:34:39,809 --> 00:34:37,450
we could see where it was I knew it was

713
00:34:42,389 --> 00:34:39,819

marked by this lone tree on on the top

714

00:34:45,359 --> 00:34:42,399

of a hill we just couldn't get to it so

715

00:34:46,950 --> 00:34:45,369

we had we drove through fields to get

716

00:34:48,930 --> 00:34:46,960

there and eventually the car just

717

00:34:51,869 --> 00:34:48,940

couldn't go any further and I just

718

00:34:53,490 --> 00:34:51,879

walked down valleys and up up hills to

719

00:34:56,490 --> 00:34:53,500

get there there was no one there I was

720

00:34:58,380 --> 00:34:56,500

with my ex-wife obviously our you know

721

00:35:00,420 --> 00:34:58,390

driver and interpreter came with us and

722

00:35:02,609 --> 00:35:00,430

the only people that came across was the

723

00:35:05,760 --> 00:35:02,619

local farmer and his son who came across

724

00:35:09,829 --> 00:35:05,770

to shake our hands and say hi that was

725

00:35:12,750 --> 00:35:09,839

it you know and and and also most of the

726

00:35:14,819 --> 00:35:12,760

the important stones that we now know

727

00:35:16,799 --> 00:35:14,829

about like the vulture stone hadn't even

728

00:35:18,630 --> 00:35:16,809

been uncovered at this time I mean you

729

00:35:20,430 --> 00:35:18,640

know you could see the heads of them but

730

00:35:22,349 --> 00:35:20,440

they didn't know what was actually on

731

00:35:26,640 --> 00:35:22,359

their stems all the beautiful carvings

732

00:35:29,870 --> 00:35:26,650

so I wrote about that in a book called

733

00:35:35,849 --> 00:35:29,880

the Cygnus mystery which came out in

734

00:35:39,380 --> 00:35:35,859

2016 sorry 2006 and I did a lot of work

735

00:35:42,779 --> 00:35:39,390

on Quebec attempt I suggested that the

736

00:35:45,150 --> 00:35:42,789

that's the different stone enclosures

737

00:35:47,400 --> 00:35:45,160

their axis was orientated towards the

738

00:35:49,650 --> 00:35:47,410

north towards the stars of the

739

00:35:52,650 --> 00:35:49,660

constellation of Cygnus the celestial

740

00:35:55,200 --> 00:35:52,660

bird this being a soul bird in many

741

00:35:58,440 --> 00:35:55,210

different cultures of the of the

742

00:36:00,920 --> 00:35:58,450

Northern Hemisphere and I felt that you

743

00:36:05,670 --> 00:36:00,930

know there was some kind of soul journey

744

00:36:06,690 --> 00:36:05,680

involved using the symbol of the vulture

745

00:36:08,730 --> 00:36:06,700

which was the

746

00:36:12,390 --> 00:36:08,740

ultimate symbol of death and rebirth in

747

00:36:15,510 --> 00:36:12,400

the neolithic period and that you know

748

00:36:17,579 --> 00:36:15,520

they believed in some kind of sky world

749

00:36:19,710 --> 00:36:17,589

entered through the constellation of

750

00:36:23,400 --> 00:36:19,720

Cygnus and that's what I wrote in the

751
00:36:28,109 --> 00:36:23,410
Cygnus mystery and then years later they

752
00:36:29,490 --> 00:36:28,119
find this beautiful stone stone 43 Cup

753
00:36:31,560 --> 00:36:29,500
which we now know as a vulture style

754
00:36:34,620 --> 00:36:31,570
which is which is almost like this sky

755
00:36:37,560 --> 00:36:34,630
map of different creatures that are

756
00:36:39,569 --> 00:36:37,570
quite clearly representing the night sky

757
00:36:42,750 --> 00:36:39,579
and I think that virtually every

758
00:36:44,190 --> 00:36:42,760
researcher who looks at that stone has

759
00:36:45,599 --> 00:36:44,200
come to that conclusion they haven't

760
00:36:47,400 --> 00:36:45,609
necessarily always come to the

761
00:36:49,710 --> 00:36:47,410
conclusion about what stars or

762
00:36:53,880 --> 00:36:49,720
constellations are being represented but

763
00:36:55,829 --> 00:36:53,890

I mean for instance one of the one of

764

00:36:59,370 --> 00:36:55,839

the the the the animals on their

765

00:37:03,660 --> 00:36:59,380

creatures is a scorpion mm-hmm which as

766

00:37:06,920 --> 00:37:03,670

early as I think 2008 I RKO astronomer

767

00:37:08,520 --> 00:37:06,930

astronomer by the name of one Belmonte

768

00:37:10,980 --> 00:37:08,530

suggested was the earliest

769

00:37:13,470 --> 00:37:10,990

representation of the constellation of

770

00:37:16,710 --> 00:37:13,480

Scorpius which we know was later

771

00:37:19,230 --> 00:37:16,720

identified by Mesopotamian cultures like

772

00:37:23,240 --> 00:37:19,240

the Sumerians and the Akkadians and the

773

00:37:26,010 --> 00:37:23,250

Babylonians as a scorpion so you know he

774

00:37:29,190 --> 00:37:26,020

proposed that so that was the beginning

775

00:37:31,470 --> 00:37:29,200

really to say right well if there's a

776

00:37:33,300 --> 00:37:31,480

scorpion on there what is the the

777

00:37:37,740 --> 00:37:33,310

vulture represent well it was somebody

778

00:37:40,400 --> 00:37:37,750

else actually an armenian academic who

779

00:37:43,470 --> 00:37:40,410

came back and said that vulture is a

780

00:37:46,280 --> 00:37:43,480

representation of Cygnus as the main

781

00:37:48,720 --> 00:37:46,290

feature on the whole of this stone

782

00:37:52,559 --> 00:37:48,730

because that's the way sickness looked

783

00:37:53,640 --> 00:37:52,569

back in about 9500 BC you know it had

784

00:37:55,950 --> 00:37:53,650

like this too strange

785

00:37:57,660 --> 00:37:55,960

w shaped wings is this creature and you

786

00:38:01,470 --> 00:37:57,670

could put all the stars within it

787

00:38:02,670 --> 00:38:01,480

perfectly and what's interesting is the

788

00:38:05,690 --> 00:38:02,680

reason why these armenians were

789

00:38:08,670 --> 00:38:05,700

interested in this is because in armenia

790

00:38:11,640 --> 00:38:08,680

the constellation of Cygnus is not a

791

00:38:13,920 --> 00:38:11,650

swan it's a it's a vulture and it's also

792

00:38:18,630 --> 00:38:13,930

a vulture in the Near East it's also a

793

00:38:19,470 --> 00:38:18,640

vulture in Greece as well as it is as a

794

00:38:21,810 --> 00:38:19,480

swan

795

00:38:25,410 --> 00:38:21,820

and so that's how they were able to

796

00:38:27,720 --> 00:38:25,420

identify it so easily and of course this

797

00:38:30,990 --> 00:38:27,730

came together perfectly with what had

798

00:38:33,750 --> 00:38:31,000

already suggested to do with the the

799

00:38:36,120 --> 00:38:33,760

astronomy of Gobekli Tepe that the stone

800

00:38:39,690 --> 00:38:36,130

enclosures were orientated towards the

801
00:38:42,210 --> 00:38:39,700
north towards this point on the horizon

802
00:38:46,200 --> 00:38:42,220
where the brightest star Cygnus would

803
00:38:50,070 --> 00:38:46,210
set each night but anyway coming back to

804
00:38:52,500 --> 00:38:50,080
the the origins of these ideas well in

805
00:38:55,290 --> 00:38:52,510
the book about the temple genesis of the

806
00:38:58,340 --> 00:38:55,300
gods which came out in 2014

807
00:39:01,530 --> 00:38:58,350
I obviously furthered these ideas and

808
00:39:04,740 --> 00:39:01,540
what I tried to show was that there was

809
00:39:07,170 --> 00:39:04,750
considerable evidence to demonstrate

810
00:39:08,820 --> 00:39:07,180
that the people that had constructed

811
00:39:13,200 --> 00:39:08,830
about except I must have come from the

812
00:39:17,220 --> 00:39:13,210
north probably via the Caucasus region

813
00:39:19,950 --> 00:39:17,230

which is the mountain range between the

814

00:39:22,440 --> 00:39:19,960

Black Sea towards the West and the

815

00:39:24,990 --> 00:39:22,450

Caspian Sea towards the east and that

816

00:39:28,260 --> 00:39:25,000

they come from probably beyond that on

817

00:39:29,099 --> 00:39:28,270

the Russian steppe somewhere now that's

818

00:39:31,620 --> 00:39:29,109

what I said

819

00:39:35,070 --> 00:39:31,630

now I pinpointed a particular culture

820

00:39:39,060 --> 00:39:35,080

known as the Swede Aryans and they

821

00:39:42,230 --> 00:39:39,070

ranged in their territories from the

822

00:39:46,109 --> 00:39:42,240

Ural Mountains in the East to the

823

00:39:48,450 --> 00:39:46,119

Carpathian Mountains of the West now the

824

00:39:53,030 --> 00:39:48,460

Carpathians obviously is in the region

825

00:39:56,270 --> 00:39:53,040

of places like Romania Hungary Poland

826
00:39:59,520 --> 00:39:56,280
etc etc and ice as far as they went and

827
00:40:02,640 --> 00:39:59,530
what I showed is that the stone tools

828
00:40:03,060 --> 00:40:02,650
that were being discovered at gobekli

829
00:40:05,670 --> 00:40:03,070
tepe

830
00:40:09,720 --> 00:40:05,680
matched almost exactly those of the

831
00:40:12,720 --> 00:40:09,730
swede aryan peoples but I that time this

832
00:40:14,400 --> 00:40:12,730
was like a great discovery for me and I

833
00:40:16,800 --> 00:40:14,410
put this in the book but now I know a

834
00:40:20,630 --> 00:40:16,810
hell of a lot more about it and what we

835
00:40:24,410 --> 00:40:20,640
can say is that the style of stone talks

836
00:40:27,720 --> 00:40:24,420
particularly what they call micro blades

837
00:40:30,150 --> 00:40:27,730
and blade technology and the way that

838
00:40:33,210 --> 00:40:30,160

the certain types of these blades are

839

00:40:35,880 --> 00:40:33,220

manufactured using a process known as

840

00:40:39,270 --> 00:40:35,890

like king is something that is very

841

00:40:43,370 --> 00:40:39,280

easily traced it's like a paper trail if

842

00:40:47,490 --> 00:40:43,380

you like that begins in the area of

843

00:40:51,690 --> 00:40:47,500

Siberia passes through the area of the

844

00:40:54,150 --> 00:40:51,700

orals and then very gradually pushes its

845

00:40:57,420 --> 00:40:54,160

way westwards and then eventually

846

00:41:00,920 --> 00:40:57,430

southwest woods down through the

847

00:41:07,080 --> 00:41:00,930

Caucasus into the area of Gobekli Tepe

848

00:41:09,240 --> 00:41:07,090

about 9600 BC so we can safely say that

849

00:41:10,740 --> 00:41:09,250

there is a very good chance that the

850

00:41:13,140 --> 00:41:10,750

people that constructing about the type

851
00:41:15,960 --> 00:41:13,150
I certainly their ancestors at least

852
00:41:18,320 --> 00:41:15,970
came from as far east as the oil

853
00:41:21,630 --> 00:41:18,330
mountains or even beyond there in

854
00:41:23,460 --> 00:41:21,640
Siberia and this is very important and

855
00:41:24,930 --> 00:41:23,470
it's this is again although something

856
00:41:27,270 --> 00:41:24,940
that I've written about now and in my

857
00:41:29,339 --> 00:41:27,280
books others are also beginning to talk

858
00:41:32,370 --> 00:41:29,349
about it for instance

859
00:41:35,070 --> 00:41:32,380
well being a let me let me jump in

860
00:41:36,750 --> 00:41:35,080
really quick because you mentioned

861
00:41:41,460 --> 00:41:36,760
something I don't want this to get away

862
00:41:47,190 --> 00:41:41,470
from us you brought up Armenia and there

863
00:41:50,940 --> 00:41:47,200

is just because gobekli tepe is in

864

00:41:55,290 --> 00:41:50,950

modern-day turkey Turkey these are

865

00:41:59,720 --> 00:41:55,300

boundaries that are modern Turkey is 600

866

00:42:02,940 --> 00:41:59,730

years old before turkey all of this area

867

00:42:07,260 --> 00:42:02,950

from the Mediterranean all the way east

868

00:42:10,890 --> 00:42:07,270

was the Armenian highlands going back

869

00:42:15,210 --> 00:42:10,900

through millennia this is a very very

870

00:42:18,240 --> 00:42:15,220

ancient culture and right and I think

871

00:42:21,000 --> 00:42:18,250

that that influence there from Armenia

872

00:42:24,120 --> 00:42:21,010

going from Armenia west into modern-day

873

00:42:26,790 --> 00:42:24,130

Turkey where gobekli tepe is there is a

874

00:42:28,440 --> 00:42:26,800

connection yeah absolutely and I think

875

00:42:31,230 --> 00:42:28,450

this is really important to point out

876

00:42:34,470 --> 00:42:31,240

you know so in other words the fact that

877

00:42:37,589 --> 00:42:34,480

the Armenians are identifying a vulture

878

00:42:40,620 --> 00:42:37,599

a sickness on that stone has a relevance

879

00:42:42,780 --> 00:42:40,630

here because this used to be Armenia you

880

00:42:45,660 --> 00:42:42,790

know where you know Cygnus is still a

881

00:42:46,890 --> 00:42:45,670

vulture to this die so that that's a

882

00:42:49,200 --> 00:42:46,900

very very important point

883

00:42:52,050 --> 00:42:49,210

they are and yeah I mean up there are

884

00:42:54,840 --> 00:42:52,060

millions in the area of Quebec tepuy and

885

00:42:56,700 --> 00:42:54,850

it's nearby city of Chandler fir right

886

00:42:58,470 --> 00:42:56,710

the way through and tell that the First

887

00:43:01,560 --> 00:42:58,480

World War when of course obviously there

888

00:43:03,570 --> 00:43:01,570

was the terrible jazz Armenian Genocide

889

00:43:06,120 --> 00:43:03,580

was still not recognized by certain

890

00:43:10,260 --> 00:43:06,130

countries to this day which is a

891

00:43:11,940 --> 00:43:10,270

terrible travesty of justice and you

892

00:43:15,660 --> 00:43:11,950

know they were either wiped out

893

00:43:17,810 --> 00:43:15,670

completely by the Turks or those that

894

00:43:22,650 --> 00:43:17,820

you know we're fortunate enough to flee

895

00:43:26,670 --> 00:43:22,660

made it back into into Armenia or what

896

00:43:28,650 --> 00:43:26,680

is to take our Armenia and that's it

897

00:43:31,050 --> 00:43:28,660

obviously they're after that territories

898

00:43:33,450 --> 00:43:31,060

which were already obviously Anatolia

899

00:43:35,130 --> 00:43:33,460

but it still had you know a lot of

900

00:43:37,650 --> 00:43:35,140

Armenians living there but at the time

901
00:43:40,590 --> 00:43:37,660
the First World War you know now there

902
00:43:43,680 --> 00:43:40,600
was this this literal ethnic cleansing

903
00:43:45,300 --> 00:43:43,690
you know meant that the only people that

904
00:43:47,010 --> 00:43:45,310
were left there were the Kurds and of

905
00:43:50,390 --> 00:43:47,020
course they're getting a massive hard

906
00:43:55,110 --> 00:43:50,400
time to die but that's a different story

907
00:43:58,140 --> 00:43:55,120
but so so coming back to what I was

908
00:44:01,230 --> 00:43:58,150
saying about the origins of Gobekli Tepe

909
00:44:03,990 --> 00:44:01,240
I think we can safely say to die that

910
00:44:05,760 --> 00:44:04,000
whoever it was that constructed it did

911
00:44:07,560 --> 00:44:05,770
come from the north they probably were

912
00:44:09,450 --> 00:44:07,570
linked with the squidy Aryans who I call

913
00:44:12,120 --> 00:44:09,460

a carrier culture they were they were

914

00:44:15,540 --> 00:44:12,130

carrying these traditions you know from

915

00:44:19,800 --> 00:44:15,550

the least through to the West but even

916

00:44:21,900 --> 00:44:19,810

then what we're looking at is a wave of

917

00:44:24,390 --> 00:44:21,910

activity to do with stone tool

918

00:44:27,030 --> 00:44:24,400

technology and other types of technology

919

00:44:32,090 --> 00:44:27,040

and culture and cosmology that had been

920

00:44:35,480 --> 00:44:32,100

pulsing out of Siberia since at least

921

00:44:39,410 --> 00:44:35,490

45,000 years ago and that had inspired

922

00:44:43,020 --> 00:44:39,420

various other earlier cultures in Europe

923

00:44:46,020 --> 00:44:43,030

most obviously the solutrean s-- the

924

00:44:49,940 --> 00:44:46,030

solutrean are a people that we associate

925

00:44:53,630 --> 00:44:49,950

with Southwest Europe created the most

926

00:44:56,940 --> 00:44:53,640

beautiful stone tools and stone points

927

00:45:01,170 --> 00:44:56,950

anywhere in the world basically between

928

00:45:04,590 --> 00:45:01,180

about 20 and 15 thousand BC

929

00:45:07,050 --> 00:45:04,600

and created so many technical

930

00:45:09,180 --> 00:45:07,060

innovations which they've been deprived

931

00:45:11,040 --> 00:45:09,190

of for reasons we may or may not get

932

00:45:12,950 --> 00:45:11,050

into including the fact that they

933

00:45:15,870 --> 00:45:12,960

created the earliest standing stones

934

00:45:20,190 --> 00:45:15,880

anywhere in the world you know and they

935

00:45:23,010 --> 00:45:20,200

did beautiful carved stone reliefs in a

936

00:45:26,340 --> 00:45:23,020

similar manner to what we find at Quebec

937

00:45:28,530 --> 00:45:26,350

eat a pie even though there's no

938

00:45:32,280 --> 00:45:28,540

absolute direct link between the two

939

00:45:33,990 --> 00:45:32,290

what we can say is that all of the ideas

940

00:45:37,290 --> 00:45:34,000

that end up going to Quebec eat a pie

941

00:45:39,990 --> 00:45:37,300

and inspiring the solutrean of Western

942

00:45:42,420 --> 00:45:40,000

Europe come from a common source and

943

00:45:44,490 --> 00:45:42,430

that common source is going to be found

944

00:45:45,260 --> 00:45:44,500

somewhere in the area of the mountains

945

00:45:49,790 --> 00:45:45,270

and beyond

946

00:45:52,830 --> 00:45:49,800

into Siberia and even beyond that into

947

00:45:55,260 --> 00:45:52,840

Mongolia which is immediately to the

948

00:45:58,740 --> 00:45:55,270

south of Siberia which is somewhere

949

00:46:00,750 --> 00:45:58,750

that's on the radar of archaeologists

950

00:46:05,070 --> 00:46:00,760

today as being one of the main areas

951
00:46:08,730 --> 00:46:05,080
where our own ancestors first came in

952
00:46:11,220 --> 00:46:08,740
contact with the Denisovans and what I

953
00:46:15,090 --> 00:46:11,230
am saying in this book what Greg and I

954
00:46:19,410 --> 00:46:15,100
are obviously saying is that the

955
00:46:24,680 --> 00:46:19,420
Denisovans handed our ancestors on a

956
00:46:27,450 --> 00:46:24,690
plight the rudiments of civilization

957
00:46:29,640 --> 00:46:27,460
technologies advancements in different

958
00:46:32,280 --> 00:46:29,650
areas so I think that maybe we should

959
00:46:36,060 --> 00:46:32,290
start looking at what's actually been

960
00:46:39,660 --> 00:46:36,070
found in this cave in Siberia as an

961
00:46:43,410 --> 00:46:39,670
example of how advanced the Denisovans

962
00:46:46,590 --> 00:46:43,420
were for instance you know if you

963
00:46:50,070 --> 00:46:46,600

haven't already looked it up have a look

964

00:46:52,830 --> 00:46:50,080

at the dennis event bracelet just put it

965

00:46:56,150 --> 00:46:52,840

into the Google search have a look at it

966

00:46:58,620 --> 00:46:56,160

now it's these fragments of eye

967

00:47:02,040 --> 00:46:58,630

beautiful what we'd probably call today

968

00:47:05,940 --> 00:47:02,050

arm bang bangle but you know they call

969

00:47:10,310 --> 00:47:05,950

it a bracelet which is made of a green

970

00:47:13,440 --> 00:47:10,320

stone called clarity light which has

971

00:47:14,130 --> 00:47:13,450

which is green through a particular

972

00:47:17,519 --> 00:47:14,140

mineral called

973

00:47:18,900 --> 00:47:17,529

chlorite and it's it's a beautiful thing

974

00:47:22,670 --> 00:47:18,910

I mean it's beautifully polished

975

00:47:25,380 --> 00:47:22,680

beautifully finished and it has a hole

976
00:47:28,920 --> 00:47:25,390
penetrated through it which when it was

977
00:47:31,980 --> 00:47:28,930
examined under the microscope showed a

978
00:47:35,670 --> 00:47:31,990
feed rate of the drill so fast that it

979
00:47:39,170 --> 00:47:35,680
was comparable to a modern-day drill now

980
00:47:41,130 --> 00:47:39,180
this doesn't mean that these guys had

981
00:47:43,829 --> 00:47:41,140
electric drills or anything like that

982
00:47:47,039 --> 00:47:43,839
but what it does tell us is that they

983
00:47:49,950 --> 00:47:47,049
were innovative enough to create high

984
00:47:52,460 --> 00:47:49,960
speed drills that they were spinning

985
00:47:55,259 --> 00:47:52,470
very fast and it could create house

986
00:47:58,440 --> 00:47:55,269
incredibly fast but in addition to this

987
00:48:00,930 --> 00:47:58,450
we know that they created the earliest

988
00:48:03,240 --> 00:48:00,940

musical instruments in the form of the

989

00:48:08,220 --> 00:48:03,250

discovery of fragments of either a bone

990

00:48:12,089 --> 00:48:08,230

or a float in the Denisova lyre the term

991

00:48:15,559 --> 00:48:12,099

that the Dennis were cave they also

992

00:48:18,059 --> 00:48:15,569

created the earliest bone needles which

993

00:48:24,049 --> 00:48:18,069

almost certainly were used to create

994

00:48:27,240 --> 00:48:24,059

tailored clothing the DNA and bones of a

995

00:48:30,390 --> 00:48:27,250

particular type of hoax that roamed

996

00:48:32,970 --> 00:48:30,400

Siberia and Mongolia at the time had

997

00:48:35,849 --> 00:48:32,980

been found in the cave suggesting to

998

00:48:39,900 --> 00:48:35,859

some that the nestlings may have even

999

00:48:43,109 --> 00:48:39,910

ridden hoaxes and beyond that they were

1000

00:48:45,150 --> 00:48:43,119

using oka as pencils so what were they

1001

00:48:48,120 --> 00:48:45,160

doing was was this body paint was it

1002

00:48:51,210 --> 00:48:48,130

kvar or could they have been creating

1003

00:48:53,759 --> 00:48:51,220

glyphs you know and possibly even you

1004

00:48:56,249 --> 00:48:53,769

know the sort of symbols that we

1005

00:49:00,269 --> 00:48:56,259

eventually end up seeing the places like

1006

00:49:03,839 --> 00:49:00,279

Tibet Lee tepuy and beyond that is this

1007

00:49:06,329 --> 00:49:03,849

total technology they originally had a

1008

00:49:10,499 --> 00:49:06,339

stone tectonic astone technology which

1009

00:49:12,809 --> 00:49:10,509

was similar to the Neanderthals which is

1010

00:49:17,819 --> 00:49:12,819

known as mysterion that as a particular

1011

00:49:21,710 --> 00:49:17,829

style but they swapped over to create a

1012

00:49:26,039 --> 00:49:21,720

new style type of blade technology about

1013

00:49:27,960 --> 00:49:26,049

50,000 years ago which then is inherited

1014

00:49:29,880 --> 00:49:27,970

by our own ancestor

1015

00:49:31,680 --> 00:49:29,890

there's and what the archaeologists are

1016

00:49:35,430 --> 00:49:31,690

saying is that that particular type of

1017

00:49:38,609 --> 00:49:35,440

stone technology probably was gifted to

1018

00:49:41,339 --> 00:49:38,619

us in Mongolia northern Mongolia south

1019

00:49:46,650 --> 00:49:41,349

of the huge Inland Sea known as Lake

1020

00:49:48,240 --> 00:49:46,660

Baikal around 45,000 years ago and you

1021

00:49:49,800 --> 00:49:48,250

know this is new this is this is

1022

00:49:52,589 --> 00:49:49,810

something that's only come out in the

1023

00:49:54,839 --> 00:49:52,599

last few months but I put it in my last

1024

00:49:57,930 --> 00:49:54,849

book the Cygnus key which came out in

1025

00:50:00,480 --> 00:49:57,940

2018 I'd worked this out that very

1026

00:50:03,030 --> 00:50:00,490

clearly Mongolia was the place of

1027

00:50:05,790 --> 00:50:03,040

contact for all of this and that's so

1028

00:50:08,730 --> 00:50:05,800

important because books that talk about

1029

00:50:11,430 --> 00:50:08,740

this this stone talk technology state

1030

00:50:14,720 --> 00:50:11,440

very specifically that its point of

1031

00:50:18,240 --> 00:50:14,730

origin is Mongolia northern Mongolia

1032

00:50:19,800 --> 00:50:18,250

around this time so if all of this is

1033

00:50:24,060 --> 00:50:19,810

correct and we can put all the pieces

1034

00:50:26,520 --> 00:50:24,070

together here we can show for certain

1035

00:50:28,349 --> 00:50:26,530

that the Denisovans gave us this

1036

00:50:31,530 --> 00:50:28,359

particular type of stone tool technology

1037

00:50:35,370 --> 00:50:31,540

which by the way can't be just done by

1038

00:50:39,660 --> 00:50:35,380

anybody it has to be taught from teacher

1039

00:50:43,290 --> 00:50:39,670

to pupil because it's so complex in

1040

00:50:45,300 --> 00:50:43,300

style and that's how we can you know we

1041

00:50:47,609 --> 00:50:45,310

can we can work out where it comes from

1042

00:50:49,200 --> 00:50:47,619

because we can see where it was and

1043

00:50:51,960 --> 00:50:49,210

where it reached and we can see the

1044

00:50:55,770 --> 00:50:51,970

paper trail all the way through to where

1045

00:50:58,829 --> 00:50:55,780

it ends up which is gobekli tepe so the

1046

00:51:03,000 --> 00:50:58,839

style of influence what's going on there

1047

00:51:04,890 --> 00:51:03,010

the cosmology all of it almost certainly

1048

00:51:07,230 --> 00:51:04,900

comes from the north and comes from as

1049

00:51:11,190 --> 00:51:07,240

far east as siberia which is exactly

1050

00:51:13,950 --> 00:51:11,200

what your intuition suggested the dating

1051
00:51:15,420 --> 00:51:13,960
and if anybody is wondering about the

1052
00:51:18,210 --> 00:51:15,430
significance of what andrew is

1053
00:51:21,420 --> 00:51:18,220
suggesting here the dating on this

1054
00:51:24,349 --> 00:51:21,430
bracelet right now is about forty

1055
00:51:27,750 --> 00:51:24,359
thousand years old

1056
00:51:30,210 --> 00:51:27,760
yeah well it's actually it's probably

1057
00:51:33,030 --> 00:51:30,220
it's probably more likely 45 to 50 I

1058
00:51:35,190 --> 00:51:33,040
mean and that's conservative estimates

1059
00:51:37,109 --> 00:51:35,200
at this time but there was there are

1060
00:51:40,020 --> 00:51:37,119
early reports about two or three years

1061
00:51:42,430 --> 00:51:40,030
ago that it could it could be as much as

1062
00:51:45,609 --> 00:51:42,440
60 to 70 thousand years

1063
00:51:48,760 --> 00:51:45,619

that's just extraordinary but I think

1064

00:51:50,859 --> 00:51:48,770

that you know they were sort of pulled

1065

00:51:52,990 --> 00:51:50,869

in and said look you can't say that you

1066

00:51:55,000 --> 00:51:53,000

know just say 45 to 50 for the time

1067

00:51:59,109 --> 00:51:55,010

being and we'll worry about in the

1068

00:52:01,349 --> 00:51:59,119

earlier dates a later time but I think

1069

00:52:06,450 --> 00:52:01,359

we can definitely say it's 45 to 50 now

1070

00:52:09,310 --> 00:52:06,460

here's the thing there are some Western

1071

00:52:11,020 --> 00:52:09,320

anthropologists and archaeologists that

1072

00:52:12,570 --> 00:52:11,030

are still saying oh well it might be

1073

00:52:15,490 --> 00:52:12,580

that you know this is so sophisticated

1074

00:52:18,790 --> 00:52:15,500

that it must have been done by our own

1075

00:52:20,530 --> 00:52:18,800

ancestors our own anatomical modern

1076

00:52:24,160 --> 00:52:20,540

human ancestors they're the only ones

1077

00:52:25,900 --> 00:52:24,170

that could do stuff like this but the

1078

00:52:28,420 --> 00:52:25,910

Russian archaeologists that are working

1079

00:52:30,370 --> 00:52:28,430

out there now saying why are you saying

1080

00:52:33,130 --> 00:52:30,380

this because we haven't got any evidence

1081

00:52:36,780 --> 00:52:33,140

that modern humans were in Siberia at

1082

00:52:39,339 --> 00:52:36,790

this time you know yes they were in

1083

00:52:43,300 --> 00:52:39,349

sorry of this area of the oasis in

1084

00:52:46,930 --> 00:52:43,310

southern Siberia I mean we have one body

1085

00:52:49,230 --> 00:52:46,940

or one yeah remains that were found in

1086

00:52:53,950 --> 00:52:49,240

Western Siberia that do date to about

1087

00:52:55,780 --> 00:52:53,960

45,000 years ago but all of these

1088

00:52:58,750 --> 00:52:55,790

artifacts almost certainly had already

1089

00:53:00,609 --> 00:52:58,760

been created by that time so the ration

1090

00:53:03,760 --> 00:53:00,619

archaeologists saying no there Dennis

1091

00:53:06,250 --> 00:53:03,770

oven so I'm Western archaeologists say

1092

00:53:09,010 --> 00:53:06,260

no they're still you know they're still

1093

00:53:11,589 --> 00:53:09,020

done by acid and this actually follows a

1094

00:53:13,930 --> 00:53:11,599

trend which goes back probably to

1095

00:53:16,690 --> 00:53:13,940

Victorian times where there's this

1096

00:53:19,240 --> 00:53:16,700

attitude that you know the people living

1097

00:53:22,990 --> 00:53:19,250

in Europe you know with the first to do

1098

00:53:26,050 --> 00:53:23,000

everything and and the you know it was

1099

00:53:28,660 --> 00:53:26,060

our ancestors and that people like the

1100

00:53:29,950 --> 00:53:28,670

Neanderthals and and now the Denisovans

1101

00:53:32,859 --> 00:53:29,960

they couldn't be doing this sort of

1102

00:53:35,349 --> 00:53:32,869

stuff but this is this is just rubbish

1103

00:53:40,020 --> 00:53:35,359

and we we need to start thinking outside

1104

00:53:43,780 --> 00:53:40,030

the box here and to credit these these

1105

00:53:45,490 --> 00:53:43,790

distant cousins of ours of actually of

1106

00:53:47,829 --> 00:53:45,500

having given us the rudiments of

1107

00:53:52,240 --> 00:53:47,839

civilization because I think this is the

1108

00:53:55,579 --> 00:53:52,250

key because if we think of where

1109

00:53:58,009 --> 00:53:55,589

civilization comes from if we accept

1110

00:54:01,039 --> 00:53:58,019

what archaeologists they say they say

1111

00:54:04,910 --> 00:54:01,049

it's just a slow process of what they

1112

00:54:08,450 --> 00:54:04,920

call independent in invention that takes

1113

00:54:10,609 --> 00:54:08,460

place all over the place you know let's

1114

00:54:12,650 --> 00:54:10,619

like let's say late needles bone needles

1115

00:54:14,900 --> 00:54:12,660

the oldest bone needle that we have now

1116

00:54:16,309 --> 00:54:14,910

comes from that the nest of a cave and

1117

00:54:18,890 --> 00:54:16,319

it was a most certainly created by

1118

00:54:22,009 --> 00:54:18,900

Denisovans but what the archaeologists

1119

00:54:24,380 --> 00:54:22,019

say is that people invent needles all

1120

00:54:25,370 --> 00:54:24,390

over the place they suddenly come up

1121

00:54:28,239 --> 00:54:25,380

with this idea

1122

00:54:30,380 --> 00:54:28,249

oh let's invent the needle today and

1123

00:54:32,809 --> 00:54:30,390

that there's there's no connection

1124

00:54:35,359 --> 00:54:32,819

between let's say the presence of

1125

00:54:38,269 --> 00:54:35,369

needles in Siberia and the presence in

1126
00:54:41,779 --> 00:54:38,279
needles in Southwest Europe by the

1127
00:54:44,209 --> 00:54:41,789
solutrean for instance around 20,000 BC

1128
00:54:47,239 --> 00:54:44,219
or by the so called gravettian peoples

1129
00:54:49,400 --> 00:54:47,249
of northern Russia about 30,000 BC

1130
00:54:51,200 --> 00:54:49,410
there's no link between any of these

1131
00:54:54,319 --> 00:54:51,210
they all invented them independently

1132
00:54:57,880 --> 00:54:54,329
this is crap this is just it's just it

1133
00:55:01,039 --> 00:54:57,890
is just crap it's because you can follow

1134
00:55:03,079 --> 00:55:01,049
the course of the bone needle from out

1135
00:55:06,620 --> 00:55:03,089
of siberia going westwards into

1136
00:55:08,930 --> 00:55:06,630
southwest europe eastwards into places

1137
00:55:12,039 --> 00:55:08,940
like China or North East woods into the

1138
00:55:16,849 --> 00:55:12,049

Russian Far East it's like a pulse of

1139

00:55:19,549 --> 00:55:16,859

activity a pulse of cultural activity

1140

00:55:22,249 --> 00:55:19,559

that you know that there has its point

1141

00:55:25,989 --> 00:55:22,259

of foundation in the area of Siberia and

1142

00:55:29,329 --> 00:55:25,999

Mongolia this is just one example and

1143

00:55:31,489 --> 00:55:29,339

you know this tells us that you know

1144

00:55:33,380 --> 00:55:31,499

you're looking for it's not necessarily

1145

00:55:36,739 --> 00:55:33,390

people that are moving although it could

1146

00:55:38,420 --> 00:55:36,749

be but it's certainly somebody you know

1147

00:55:40,430 --> 00:55:38,430

seeing a needle and saying ah I want

1148

00:55:43,009 --> 00:55:40,440

some of those how did you make that oh

1149

00:55:46,009 --> 00:55:43,019

well I can teach you and it being passed

1150

00:55:48,410 --> 00:55:46,019

on in this manner as a case of everybody

1151
00:55:51,979 --> 00:55:48,420
suddenly having a you know a Eureka

1152
00:55:54,469 --> 00:55:51,989
moment everywhere it said oh oh I know

1153
00:55:59,269 --> 00:55:54,479
that we need to so what could we think

1154
00:56:01,519 --> 00:55:59,279
so maybe it goes in a needle and when we

1155
00:56:04,729 --> 00:56:01,529
come back after the break Andrew it goes

1156
00:56:06,289 --> 00:56:04,739
so much deeper than that and I couldn't

1157
00:56:08,050 --> 00:56:06,299
agree with you more but when we come

1158
00:56:12,130 --> 00:56:08,060
back we're gonna talk about we

1159
00:56:13,780 --> 00:56:12,140
let's talk about wheat yeah this is fade

1160
00:56:15,610 --> 00:56:13,790
to black I'm your host Jimmy Church our

1161
00:56:17,350 --> 00:56:15,620
guest tonight Andrew Collins we got to

1162
00:56:20,710 --> 00:56:17,360
get back to Younger Dryas as well

1163
00:56:24,130 --> 00:56:20,720

there's a reason for everything stay

1164

00:56:24,140 --> 00:57:02,160

[Music]

1165

00:57:07,320 --> 00:57:05,290

welcome back fade to black our very

1166

00:57:09,940 --> 00:57:07,330

special guests tonight Andrew Collins

1167

00:57:12,070 --> 00:57:09,950

talking about his new book is just

1168

00:57:14,620 --> 00:57:12,080

release Dennis haven't origins

1169

00:57:16,960 --> 00:57:14,630

it's an incredible read I highly

1170

00:57:19,240 --> 00:57:16,970

recommend it and the links are over at

1171

00:57:22,570 --> 00:57:19,250

Jimmy Church radio.com you go and click

1172

00:57:25,690 --> 00:57:22,580

and Andrew the reason why going back to

1173

00:57:27,970 --> 00:57:25,700

our discussion the reason why these

1174

00:57:30,220 --> 00:57:27,980

discoveries are so important they keep

1175

00:57:33,540 --> 00:57:30,230

pointing back to one place everything

1176
00:57:38,500 --> 00:57:33,550
keeps pointing back to these origins and

1177
00:57:41,770 --> 00:57:38,510
before you know Orthodox academia is

1178
00:57:45,550 --> 00:57:41,780
always going to say we're not giving

1179
00:57:48,660 --> 00:57:45,560
Stone Age man enough credit here and

1180
00:57:52,900 --> 00:57:48,670
that's the part that just it just it

1181
00:57:54,910 --> 00:57:52,910
inflames me that there was some high

1182
00:57:58,060 --> 00:57:54,920
technology things that were taught from

1183
00:58:00,940 --> 00:57:58,070
somebody that was handed down things

1184
00:58:03,430 --> 00:58:00,950
just don't appear out of of nowhere and

1185
00:58:07,000 --> 00:58:03,440
one of those things that you point out

1186
00:58:10,780 --> 00:58:07,010
in the book and I have often said when

1187
00:58:12,790 --> 00:58:10,790
we look at humanity and we look at our

1188
00:58:15,850 --> 00:58:12,800

progression one of the most important

1189

00:58:19,750 --> 00:58:15,860

steps was the domestication of wheat

1190

00:58:23,080 --> 00:58:19,760

that that right there allowed so many

1191

00:58:25,810 --> 00:58:23,090

things to happen you know to change from

1192

00:58:28,510 --> 00:58:25,820

being hunter-gatherers to to farmers and

1193

00:58:32,740 --> 00:58:28,520

you could concentrate on other things

1194

00:58:35,980 --> 00:58:32,750

like math and learning and and and and

1195

00:58:38,680 --> 00:58:35,990

and government and organizations and

1196

00:58:41,110 --> 00:58:38,690

you're not worried about hunting and

1197

00:58:43,060 --> 00:58:41,120

gathering every single day and that was

1198

00:58:46,090 --> 00:58:43,070

one of the big changes that happened and

1199

00:58:49,270 --> 00:58:46,100

the domestication of wheat can be traced

1200

00:58:51,660 --> 00:58:49,280

back apparently to like within a hundred

1201
00:58:54,940 --> 00:58:51,670
miles of Gobekli Tepe is that right

1202
00:58:59,290 --> 00:58:54,950
where's even close it's actually about 1

1203
00:59:04,350 --> 00:58:59,300
think just from these I think 55 miles

1204
00:59:08,320 --> 00:59:04,360
actually yeah the something like 55

1205
00:59:12,690 --> 00:59:08,330
modern strains of wheat can be traced

1206
00:59:15,490 --> 00:59:12,700
back to a wild variety of wheat that

1207
00:59:18,460 --> 00:59:15,500
still grows to this day

1208
00:59:21,550 --> 00:59:18,470
at the base of an extinct volcano within

1209
00:59:24,580 --> 00:59:21,560
sight of Quebec Mateparae and what this

1210
00:59:27,609 --> 00:59:24,590
very clearly tells us is that this is

1211
00:59:31,599 --> 00:59:27,619
where the beginning of agriculture

1212
00:59:36,900 --> 00:59:31,609
started and that it was something that

1213
00:59:39,280 --> 00:59:36,910

was created to try and feed the

1214

00:59:42,070 --> 00:59:39,290

communities that had built up as an

1215

00:59:45,040 --> 00:59:42,080

infrastructure around places like Quebec

1216

00:59:47,200 --> 00:59:45,050

Enterprise because I mean Quebec liter

1217

00:59:50,470 --> 00:59:47,210

pay as we know is somewhere that's you

1218

00:59:52,180 --> 00:59:50,480

know what 20 30 different stone

1219

00:59:54,070 --> 00:59:52,190

enclosures we don't know how many of

1220

00:59:55,810 --> 00:59:54,080

them were in use in any one time because

1221

00:59:58,660 --> 00:59:55,820

they were being built and closed there

1222

01:00:00,460 --> 00:59:58,670

and built closed down but there's no

1223

01:00:02,650 --> 01:00:00,470

question that many hundreds if not

1224

01:00:06,280 --> 01:00:02,660

thousands of people would have been

1225

01:00:08,740 --> 01:00:06,290

living in the area just around it to

1226

01:00:13,089 --> 01:00:08,750

service Quebec except I either stone

1227

01:00:16,000 --> 01:00:13,099

carvers you know people were Eamon you

1228

01:00:19,000 --> 01:00:16,010

know people you know priests shamans

1229

01:00:21,579 --> 01:00:19,010

their families whatever else was going

1230

01:00:23,650 --> 01:00:21,589

on plus you know the the you know that

1231

01:00:25,630 --> 01:00:23,660

the the overseas of Overseers of what

1232

01:00:27,910 --> 01:00:25,640

we're going on and this this would have

1233

01:00:29,650 --> 01:00:27,920

taken a lot of people a lot of time and

1234

01:00:32,680 --> 01:00:29,660

there was obviously a very structured

1235

01:00:36,280 --> 01:00:32,690

society here and to start off with

1236

01:00:39,190 --> 01:00:36,290

everybody was hunter-gatherers which is

1237

01:00:40,780 --> 01:00:39,200

a fact I mean you know and people say oh

1238

01:00:42,160 --> 01:00:40,790

they couldn't have been under gorillas

1239

01:00:43,870 --> 01:00:42,170

they must have been more sophisticated

1240

01:00:45,280 --> 01:00:43,880

than this but they weren't I mean they

1241

01:00:48,520 --> 01:00:45,290

were hunter-gatherers and they were

1242

01:00:53,410 --> 01:00:48,530

brought together by somebody or some

1243

01:00:57,329 --> 01:00:53,420

group to work together in this communal

1244

01:01:00,760 --> 01:00:57,339

thing to create these stone enclosures

1245

01:01:02,829 --> 01:01:00,770

9600 BC and you have to start asking

1246

01:01:05,020 --> 01:01:02,839

yourself why would why would they do

1247

01:01:07,300 --> 01:01:05,030

that I mean you know remember

1248

01:01:10,089 --> 01:01:07,310

hunter-gatherer all they've got to do is

1249

01:01:12,040 --> 01:01:10,099

provide for their family and perhaps you

1250

01:01:14,170 --> 01:01:12,050

know a wider social group you know

1251
01:01:16,300 --> 01:01:14,180
they're you know that they were involved

1252
01:01:18,400 --> 01:01:16,310
with that's it they could do their own

1253
01:01:22,420 --> 01:01:18,410
thing I mean so why would they all

1254
01:01:24,430 --> 01:01:22,430
suddenly gather together and create the

1255
01:01:28,060 --> 01:01:24,440
first so-called monumental architecture

1256
01:01:29,390 --> 01:01:28,070
in human history and the answer and

1257
01:01:30,680 --> 01:01:29,400
we've said this before

1258
01:01:35,230 --> 01:01:30,690
and what we'll talk about it a little

1259
01:01:40,070 --> 01:01:35,240
bit again is the time frame it's because

1260
01:01:43,070 --> 01:01:40,080
9600 BC corresponds to the end of a 1200

1261
01:01:46,430 --> 01:01:43,080
year mini ice age known as the Younger

1262
01:01:49,190 --> 01:01:46,440
Dryas which had been triggered at the

1263
01:01:51,920 --> 01:01:49,200

beginning of it by a series of comet

1264

01:01:54,680 --> 01:01:51,930

impacts and cataclysms which had

1265

01:01:57,560 --> 01:01:54,690

devastated the world and had continued

1266

01:02:00,440 --> 01:01:57,570

on on and off for hundreds of years

1267

01:02:03,500 --> 01:02:00,450

afterwards and it may even be that the

1268

01:02:06,020 --> 01:02:03,510

end of the Younger Dryas occurred so

1269

01:02:08,440 --> 01:02:06,030

quickly that it must have involved

1270

01:02:12,110 --> 01:02:08,450

another cosmic event of some kind

1271

01:02:15,560 --> 01:02:12,120

exactly what we don't know and this

1272

01:02:18,560 --> 01:02:15,570

would have so traumatized the world at

1273

01:02:20,150 --> 01:02:18,570

this time that people would have

1274

01:02:21,800 --> 01:02:20,160

gathered together and said look how can

1275

01:02:26,810 --> 01:02:21,810

we stop this sort of stuff happening

1276

01:02:29,960 --> 01:02:26,820

again a phobia a true phobia mean it

1277

01:02:34,280 --> 01:02:29,970

it's what you know Barbara Hank Lao you

1278

01:02:36,830 --> 01:02:34,290

know a great visionary writer described

1279

01:02:40,990 --> 01:02:36,840

as catastrophe Opia you know in other

1280

01:02:43,340 --> 01:02:41,000

words the fear of another catastrophe or

1281

01:02:46,160 --> 01:02:43,350

Cataclysm taking place and it would have

1282

01:02:48,560 --> 01:02:46,170

been this psychological problem that

1283

01:02:50,660 --> 01:02:48,570

everybody had and would have to be dealt

1284

01:02:53,150 --> 01:02:50,670

with and if you can have then imagine

1285

01:02:55,820 --> 01:02:53,160

that coming into the midst of these

1286

01:02:58,340 --> 01:02:55,830

people were you know these Swit Aryans

1287

01:03:00,650 --> 01:02:58,350

or whoever it was that came to Quebec in

1288

01:03:03,350 --> 01:03:00,660

the area of Quebec attend said look we

1289

01:03:05,840 --> 01:03:03,360

can sort this out but you've got to work

1290

01:03:07,670 --> 01:03:05,850

with us on this one and what we want you

1291

01:03:09,890 --> 01:03:07,680

to do is to create these stone

1292

01:03:12,440 --> 01:03:09,900

enclosures will tell you what to do

1293

01:03:14,420 --> 01:03:12,450

we'll tell you how to orientate them and

1294

01:03:18,260 --> 01:03:14,430

what's going to go on there but what we

1295

01:03:21,610 --> 01:03:18,270

will do on your behalf is to go into the

1296

01:03:24,890 --> 01:03:21,620

sky world and deal with the supernatural

1297

01:03:27,350 --> 01:03:24,900

creatures which were usually canines or

1298

01:03:31,460 --> 01:03:27,360

wolves or foxes or coyotes or whatever

1299

01:03:35,870 --> 01:03:31,470

that were seen as responsible for all of

1300

01:03:38,600 --> 01:03:35,880

the mischief that brings about chaos and

1301

01:03:39,200 --> 01:03:38,610

catastrophe in the world we will deal

1302

01:03:40,640 --> 01:03:39,210

with them

1303

01:03:43,130 --> 01:03:40,650

we will appease them we'll make

1304

01:03:45,310 --> 01:03:43,140

offerings to them we'll try and

1305

01:03:50,120 --> 01:03:45,320

them from doing what they they're doing

1306

01:03:50,840 --> 01:03:50,130

and every time I new comment appears in

1307

01:03:53,870 --> 01:03:50,850

the sky

1308

01:03:56,420 --> 01:03:53,880

and this is it this is what was going on

1309

01:03:58,250 --> 01:03:56,430

back except I'm certain of it and that's

1310

01:04:02,360 --> 01:03:58,260

the reason why you'll find that on

1311

01:04:05,660 --> 01:04:02,370

certain of the stones is comet imagery

1312

01:04:09,410 --> 01:04:05,670

there are reliefs showing comets there I

1313

01:04:12,230 --> 01:04:09,420

have studied I have studied every column

1314

01:04:15,080 --> 01:04:12,240

and looked at everything and when you

1315

01:04:19,490 --> 01:04:15,090

did this reveal in the book of one of

1316

01:04:24,260 --> 01:04:19,500

the belts with a comet on the front yeah

1317

01:04:25,820 --> 01:04:24,270

I I see nothing but a comment now yeah I

1318

01:04:29,690 --> 01:04:25,830

didn't see that before

1319

01:04:31,970 --> 01:04:29,700

I thought it was artistic yeah no it's a

1320

01:04:35,150 --> 01:04:31,980

comet it's a three-tailed comments I

1321

01:04:37,100 --> 01:04:35,160

mean a lot of comets are three child you

1322

01:04:39,140 --> 01:04:37,110

know including Halley's Comet for

1323

01:04:42,020 --> 01:04:39,150

instance couldn't be seen with three

1324

01:04:43,880 --> 01:04:42,030

towers occasionally but whether it you

1325

01:04:45,470 --> 01:04:43,890

know which particular comet it shows I

1326

01:04:47,600 --> 01:04:45,480

don't know I don't think it was the one

1327

01:04:51,490 --> 01:04:47,610

that actually calls the Cataclysm I

1328

01:04:54,110 --> 01:04:51,500

think it was probably a short-period

1329

01:04:55,790 --> 01:04:54,120

comet like Halley's Comet that would be

1330

01:04:58,850 --> 01:04:55,800

seen in the skies on a fairly regular

1331

01:05:02,270 --> 01:04:58,860

basis and I suspect that one of the

1332

01:05:04,940 --> 01:05:02,280

things that the these incoming people's

1333

01:05:07,580 --> 01:05:04,950

to the Erika Boeck itself I convinced

1334

01:05:10,100 --> 01:05:07,590

the locals to get involved in this huge

1335

01:05:12,980 --> 01:05:10,110

building project was the fact that they

1336

01:05:15,950 --> 01:05:12,990

showed that they could predict the

1337

01:05:18,830 --> 01:05:15,960

appearance of comets you know short term

1338

01:05:21,110 --> 01:05:18,840

ones so in other words you know they

1339

01:05:22,880 --> 01:05:21,120

could say look next year there's going

1340

01:05:24,620 --> 01:05:22,890

to be a big comet appearing in the sky

1341

01:05:27,590 --> 01:05:24,630

the people would have thought that was

1342

01:05:30,260 --> 01:05:27,600

magic you know and then bang on cue

1343

01:05:32,990 --> 01:05:30,270

there's a comet in the sky people say oh

1344

01:05:37,070 --> 01:05:33,000

my god you know these people do have

1345

01:05:39,710 --> 01:05:37,080

some kind of psychic link with the comet

1346

01:05:41,930 --> 01:05:39,720

world and can you know and can can can

1347

01:05:43,610 --> 01:05:41,940

predict when these stuffs are coming and

1348

01:05:46,370 --> 01:05:43,620

I think that it's stuff like this that

1349

01:05:49,610 --> 01:05:46,380

would have convinced the people to come

1350

01:05:52,520 --> 01:05:49,620

and bold on on such promet comet I sorry

1351
01:05:56,780 --> 01:05:52,530
on such projects and that the reason why

1352
01:05:57,440 --> 01:05:56,790
you have this massive eighteen and a

1353
01:06:01,280 --> 01:05:57,450
half

1354
01:06:02,870 --> 01:06:01,290
tall monolith well in fact two but one

1355
01:06:05,900 --> 01:06:02,880
in particular with this this comic

1356
01:06:07,670 --> 01:06:05,910
design at the center of the oldest and

1357
01:06:10,730 --> 01:06:07,680
most sophisticated enclosure at

1358
01:06:12,200 --> 01:06:10,740
correctly tempo which is enclosure D the

1359
01:06:14,539 --> 01:06:12,210
reason why you've got this this

1360
01:06:17,329 --> 01:06:14,549
anthropomorphic character there with

1361
01:06:20,780 --> 01:06:17,339
this t-shaped head is that what he

1362
01:06:22,460 --> 01:06:20,790
represents is one of these comic shamans

1363
01:06:27,049 --> 01:06:22,470

in other words or certainly the memory

1364

01:06:29,690 --> 01:06:27,059

of somebody who was able to hold back

1365

01:06:32,260 --> 01:06:29,700

the forces that were destroying the

1366

01:06:35,809 --> 01:06:32,270

world during the Younger Dryas impact

1367

01:06:37,789 --> 01:06:35,819

event in other words it symbolized you

1368

01:06:39,230 --> 01:06:37,799

know those that had saved the world he

1369

01:06:43,609 --> 01:06:39,240

was quite literally a savior of the

1370

01:06:46,220 --> 01:06:43,619

world literally and that that's the

1371

01:06:48,829 --> 01:06:46,230

reason why he's represented there with

1372

01:06:50,420 --> 01:06:48,839

this belt and where the belt buckle is

1373

01:06:53,660 --> 01:06:50,430

and that's what it is it's a belt buckle

1374

01:06:56,000 --> 01:06:53,670

is this comic design that's his symbol

1375

01:06:58,640 --> 01:06:56,010

because that's what he does he's a comic

1376

01:07:01,730 --> 01:06:58,650

shaman and that the shamans that would

1377

01:07:04,700 --> 01:07:01,740

continue this tradition in the closures

1378

01:07:06,770 --> 01:07:04,710

of Gobekli Tepe would do exactly the

1379

01:07:09,500 --> 01:07:06,780

same every time a comic came into the

1380

01:07:11,660 --> 01:07:09,510

sky they would go into an altered state

1381

01:07:14,210 --> 01:07:11,670

of consciousness they would project

1382

01:07:17,720 --> 01:07:14,220

their minds their astral bodies into the

1383

01:07:19,490 --> 01:07:17,730

sky world which they would enter via the

1384

01:07:21,319 --> 01:07:19,500

constellation of cygnus that seems to be

1385

01:07:24,530 --> 01:07:21,329

like that The Guardian to the entrance

1386

01:07:26,569 --> 01:07:24,540

at skyward and I show very clearly that

1387

01:07:29,329 --> 01:07:26,579

this is a map that you know that the

1388

01:07:32,120 --> 01:07:29,339

Phillip pillar 43 the so-called vulture

1389

01:07:35,180 --> 01:07:32,130

stone is a map of the sky world shows

1390

01:07:37,730 --> 01:07:35,190

that cosmic journey that the shaman and

1391

01:07:39,620 --> 01:07:37,740

you know in any other you know soul

1392

01:07:42,049 --> 01:07:39,630

going into that the sky would would Tyco

1393

01:07:44,030 --> 01:07:42,059

and they would deal with it on behalf of

1394

01:07:45,740 --> 01:07:44,040

the communities they would then come out

1395

01:07:47,780 --> 01:07:45,750

there altered state of consciousness and

1396

01:07:49,609 --> 01:07:47,790

say right it's all sorted there's not

1397

01:07:51,260 --> 01:07:49,619

going to be a catastrophe this week you

1398

01:07:53,690 --> 01:07:51,270

know you can all go back to your homes

1399

01:07:55,760 --> 01:07:53,700

and everything will be safe and these

1400

01:07:58,370 --> 01:07:55,770

type of rituals we're going on around

1401

01:08:00,049 --> 01:07:58,380

the world certainly through until the

1402

01:08:02,539 --> 01:08:00,059

last few hundred years I mean for

1403

01:08:06,140 --> 01:08:02,549

instance you know I record in this book

1404

01:08:08,809 --> 01:08:06,150

as I've recorded in past books I account

1405

01:08:09,500 --> 01:08:08,819

of just such a rich or taking place in

1406

01:08:11,420 --> 01:08:09,510

Mexico

1407

01:08:14,000 --> 01:08:11,430

at the time

1408

01:08:17,360 --> 01:08:14,010

of your first contact I think it's a

1409

01:08:19,430 --> 01:08:17,370

Jesuit priest is going through a mix

1410

01:08:22,519 --> 01:08:19,440

accan village and there's comment in the

1411

01:08:27,229 --> 01:08:22,529

sky everybody's flapping and the priests

1412

01:08:30,410 --> 01:08:27,239

come out dressed in animal garments

1413

01:08:32,329 --> 01:08:30,420

particularly that of a fox pelt this is

1414

01:08:37,390 --> 01:08:32,339

and this is this is crucial because

1415

01:08:40,640 --> 01:08:37,400

beneath that that symbol of the comet on

1416

01:08:43,880 --> 01:08:40,650

pillar 18 this huge great monolith at

1417

01:08:48,800 --> 01:08:43,890

Quebec attempt a hanging beneath that is

1418

01:08:53,809 --> 01:08:48,810

a fox pelt relief and foxes are one of

1419

01:08:56,840 --> 01:08:53,819

the symbols of comets Fox tails are the

1420

01:08:58,820 --> 01:08:56,850

tail of the Comets right the way through

1421

01:09:02,120 --> 01:08:58,830

to the present day even in British

1422

01:09:04,579 --> 01:09:02,130

heraldry in my own country the fox tail

1423

01:09:06,410 --> 01:09:04,589

is a symbol of a comet and they have

1424

01:09:08,059 --> 01:09:06,420

their own Fox there's a fox on one of

1425

01:09:11,780 --> 01:09:08,069

the pillars of Gobekli Tepe

1426

01:09:15,890 --> 01:09:11,790

well this fox is on many of them in fact

1427

01:09:18,289 --> 01:09:15,900

the most common animal remains that are

1428

01:09:21,769 --> 01:09:18,299

found inside the enclosure that

1429

01:09:25,070 --> 01:09:21,779

competitor by our Fox bones and this has

1430

01:09:27,260 --> 01:09:25,080

prompted the the main archaeologists

1431

01:09:30,200 --> 01:09:27,270

involved particularly Klaus Schmidt

1432

01:09:32,630 --> 01:09:30,210

who's no longer with us and another guy

1433

01:09:35,870 --> 01:09:32,640

called URIs Peters who's an expert on

1434

01:09:38,890 --> 01:09:35,880

animal bones was working at the site to

1435

01:09:41,479 --> 01:09:38,900

conclude that some kind of cult

1436

01:09:42,709 --> 01:09:41,489

associated with the Fox was going on at

1437

01:09:44,870 --> 01:09:42,719

Quebec itself and I think that's

1438

01:09:48,169 --> 01:09:44,880

absolutely correct and that one of the

1439

01:09:51,050 --> 01:09:48,179

symbols that was connected and

1440

01:09:52,939 --> 01:09:51,060

associated with comets and their

1441

01:09:56,450 --> 01:09:52,949

appearance in the skies and cataclysms

1442

01:09:58,189 --> 01:09:56,460

was the Fox it was a trickster just in

1443

01:10:01,820 --> 01:09:58,199

the same way that in the United States

1444

01:10:05,270 --> 01:10:01,830

the wolf or particularly the coyote is a

1445

01:10:08,090 --> 01:10:05,280

trickster and those tricksters could

1446

01:10:10,040 --> 01:10:08,100

cause mischief and that mischief could

1447

01:10:12,380 --> 01:10:10,050

end up with the distraction of the world

1448

01:10:14,900 --> 01:10:12,390

you know if you if it was not kept in

1449

01:10:17,959 --> 01:10:14,910

check and I think that it's a similar

1450

01:10:22,419 --> 01:10:17,969

thing and I mean the most obvious canine

1451

01:10:24,680 --> 01:10:22,429

or like and based trickster that in

1452

01:10:29,000 --> 01:10:24,690

Europe for instance

1453

01:10:31,580 --> 01:10:29,010

is the wolf Fenris offend RIA who is the

1454

01:10:33,350 --> 01:10:31,590

the massive giant wolf that nearly

1455

01:10:37,550 --> 01:10:33,360

brings about the destruction of the

1456

01:10:41,660 --> 01:10:37,560

world in Ragnarok this is a story of the

1457

01:10:44,450 --> 01:10:41,670

memory of the Younger Dryas event and

1458

01:10:46,550 --> 01:10:44,460

the fear that this is going to happen

1459

01:10:49,250 --> 01:10:46,560

again that Ragnarok is going to happen

1460

01:10:51,040 --> 01:10:49,260

at some point in the future this was the

1461

01:10:54,220 --> 01:10:51,050

belief amongst the peoples of

1462

01:10:57,140 --> 01:10:54,230

Scandinavia the so-called Norse myths

1463

01:10:59,360 --> 01:10:57,150

but there but as I show in in an earlier

1464

01:11:03,080 --> 01:10:59,370

book there these traditions to do with

1465

01:11:06,020 --> 01:11:03,090

the canine or a wolf being connected

1466

01:11:08,840 --> 01:11:06,030

with with with cosmic destruction is

1467

01:11:11,390 --> 01:11:08,850

something that's widespread not just in

1468

01:11:13,520 --> 01:11:11,400

Scandinavia but across Europe in Russia

1469

01:11:17,900 --> 01:11:13,530

and in other parts of the world going

1470

01:11:20,689 --> 01:11:17,910

right the way across to China so you

1471

01:11:23,120 --> 01:11:20,699

know these are all ideas which which are

1472

01:11:25,070 --> 01:11:23,130

associated with the with the period just

1473

01:11:28,250 --> 01:11:25,080

before the construction of Quebec neater

1474

01:11:30,709 --> 01:11:28,260

pay and give us a motivation for why it

1475

01:11:33,050 --> 01:11:30,719

was constructed again these were ideas

1476

01:11:36,380 --> 01:11:33,060

originally put in Quebec except by

1477

01:11:38,780 --> 01:11:36,390

Genesis for God's in 2014 and a number

1478

01:11:41,540 --> 01:11:38,790

of other key researchers some of them

1479

01:11:44,689 --> 01:11:41,550

academics have taken this and run with

1480

01:11:47,720 --> 01:11:44,699

it now and you'll find this in other

1481

01:11:49,160 --> 01:11:47,730

people's books now and I think that it's

1482

01:11:51,320 --> 01:11:49,170

it's we're on the right track I think

1483

01:11:54,110 --> 01:11:51,330

this is exactly what was going on

1484

01:11:55,430 --> 01:11:54,120

because 9600 BC when the earliest

1485

01:11:58,310 --> 01:11:55,440

enclosures of Quebec its empire

1486

01:12:03,650 --> 01:11:58,320

constructed this is the tail end of that

1487

01:12:06,770 --> 01:12:03,660

time they're very very decade that this

1488

01:12:09,950 --> 01:12:06,780

younger dryas have Ain ends it's also

1489

01:12:12,620 --> 01:12:09,960

the date that Plato gives us for the

1490

01:12:15,350 --> 01:12:12,630

destruction of Atlantis and I think this

1491

01:12:18,709 --> 01:12:15,360

is crucial as well because Plato was

1492

01:12:21,050 --> 01:12:18,719

very clearly aware that in the past

1493

01:12:22,340 --> 01:12:21,060

there had been a massive catastrophe he

1494

01:12:25,130 --> 01:12:22,350

obviously didn't know it was anything to

1495

01:12:27,830 --> 01:12:25,140

do with with comets he just says it was

1496

01:12:32,930 --> 01:12:27,840

earthquakes and floods had brought about

1497

01:12:35,840 --> 01:12:32,940

the destruction of Atlantis and I think

1498

01:12:38,600 --> 01:12:35,850

that you know somehow this information

1499

01:12:40,750 --> 01:12:38,610

had come to him whether it came from

1500

01:12:45,320 --> 01:12:40,760

traditions in Egypt or somewhere else

1501

01:12:47,149 --> 01:12:45,330

that he was able to to to put a story

1502

01:12:50,510 --> 01:12:47,159

together which we know as the Atlantis

1503

01:12:52,609 --> 01:12:50,520

story today about this huge great

1504

01:12:55,010 --> 01:12:52,619

Cataclysm that destroyed the world in

1505

01:12:59,510 --> 01:12:55,020

the past he got it right and he got the

1506

01:13:02,060 --> 01:12:59,520

timeframe correct and so many academics

1507

01:13:04,520 --> 01:13:02,070

have looked at that Plato story said he

1508

01:13:05,750 --> 01:13:04,530

couldn't have been talking about 9600 BC

1509

01:13:07,609 --> 01:13:05,760

he must have been talking about

1510

01:13:11,479 --> 01:13:07,619

something that went on in the

1511

01:13:13,520 --> 01:13:11,489

Mediterranean let's say 1600 BC you know

1512

01:13:17,629 --> 01:13:13,530

let's let's change everything and

1513

01:13:19,580 --> 01:13:17,639

suggest that it was perhaps I a volcano

1514

01:13:23,720 --> 01:13:19,590

yeah you know the Santorini you know a

1515

01:13:26,780 --> 01:13:23,730

theory eruption that devastated yeah

1516

01:13:29,570 --> 01:13:26,790

yeah Egypt and the eastern Mediterranean

1517

01:13:31,970 --> 01:13:29,580

and Crete whatever that's obviously what

1518

01:13:32,959 --> 01:13:31,980

Plato was talking about he couldn't

1519

01:13:34,790 --> 01:13:32,969

possibly have been talking about

1520

01:13:39,680 --> 01:13:34,800

anything any earlier but we now know

1521

01:13:44,000 --> 01:13:39,690

that that is rubbish that he was on to

1522

01:13:46,580 --> 01:13:44,010

the Younger Dryas event and I think this

1523

01:13:50,450 --> 01:13:46,590

is really important for people to you

1524

01:13:53,260 --> 01:13:50,460

know to take hold of and keep that we

1525

01:13:58,129 --> 01:13:53,270

now know that this incredible

1526

01:14:02,000 --> 01:13:58,139

catastrophe wiped out all of the

1527

01:14:03,620 --> 01:14:02,010

progress of humanity that had been going

1528

01:14:04,729 --> 01:14:03,630

on up to this time and I think it's one

1529

01:14:07,250 --> 01:14:04,739

of the reasons why we don't know

1530

01:14:09,410 --> 01:14:07,260

anything about the Denisovans to die and

1531

01:14:11,270 --> 01:14:09,420

their impact it's because we forgot

1532

01:14:13,640 --> 01:14:11,280

everything I mean you know as Graham

1533

01:14:18,470 --> 01:14:13,650

Hancock keeps going on about you know we

1534

01:14:20,660 --> 01:14:18,480

are you know a population in amnesia

1535

01:14:22,550 --> 01:14:20,670

you know we forgotten what went on in

1536

01:14:26,419 --> 01:14:22,560

the past and I think this is absolutely

1537

01:14:30,770 --> 01:14:26,429

correct why is it where we have just

1538

01:14:34,399 --> 01:14:30,780

about all of the evidence to show those

1539

01:14:38,120 --> 01:14:34,409

skeptics out there that there was an

1540

01:14:38,629 --> 01:14:38,130

organization that this wasn't just a you

1541

01:14:43,669 --> 01:14:38,639

know

1542

01:14:45,379 --> 01:14:43,679

seeds every single day and and trying to

1543

01:14:47,479 --> 01:14:45,389

feed their families with that there was

1544

01:14:50,600 --> 01:14:47,489

a general organization here there was a

1545

01:14:51,729 --> 01:14:50,610

hierarchy there was religion presented

1546

01:14:58,850 --> 01:14:51,739

there was

1547

01:15:01,819 --> 01:14:58,860

engineering to quarry and to move these

1548

01:15:04,430 --> 01:15:01,829

stones takes a technology that Stone Age

1549

01:15:07,009 --> 01:15:04,440

man didn't possess that all of this

1550

01:15:11,120 --> 01:15:07,019

would represent an organization of a

1551

01:15:14,240 --> 01:15:11,130

community maybe even a town right built

1552

01:15:19,339 --> 01:15:14,250

around gobekli tepe and that this is

1553

01:15:22,609 --> 01:15:19,349

something that didn't happen at 3000 BC

1554

01:15:25,850 --> 01:15:22,619

in Mesopotamia that this happened 7,000

1555

01:15:30,040 --> 01:15:25,860

years prior the start to the north yeah

1556

01:15:35,319 --> 01:15:30,050

exactly and this is new I mean remember

1557

01:15:39,379 --> 01:15:35,329

up until relatively recently the idea of

1558

01:15:43,879 --> 01:15:39,389

the so-called Neolithic Revolution was

1559

01:15:45,939 --> 01:15:43,889

that the agriculture came first along

1560

01:15:52,089 --> 01:15:45,949

with animal husbandry

1561

01:15:54,919 --> 01:15:52,099

and this brought about as more settled

1562

01:15:56,899 --> 01:15:54,929

lifestyle where people would sort of

1563

01:15:58,850 --> 01:15:56,909

like stop and instead of roaming around

1564

01:16:04,129 --> 01:15:58,860

all the time they would start creating

1565

01:16:07,580 --> 01:16:04,139

these urban centers and then once this

1566

01:16:10,310 --> 01:16:07,590

life settled out they started to think

1567

01:16:12,859 --> 01:16:10,320

about you know life the universe and

1568

01:16:18,560 --> 01:16:12,869

everything and they start creating the

1569

01:16:21,350 --> 01:16:18,570

first temples and these necessitate like

1570

01:16:23,479 --> 01:16:21,360

an infrastructure and you have the first

1571

01:16:27,020 --> 01:16:23,489

towns the first cities rising up like

1572

01:16:29,660 --> 01:16:27,030

Jericho for instance but we now know

1573

01:16:33,740 --> 01:16:29,670

that that's that crap we now know that

1574

01:16:36,200 --> 01:16:33,750

the the cult buildings the places of

1575

01:16:39,560 --> 01:16:36,210

ritual and ceremony like about the top I

1576

01:16:42,620 --> 01:16:39,570

came first you know in other words the

1577

01:16:46,100 --> 01:16:42,630

the hunter-gatherers were all brought

1578

01:16:48,439 --> 01:16:46,110

together by I would say some kind of

1579

01:16:50,000 --> 01:16:48,449

ruling elite and I think it was a ruling

1580

01:16:52,819 --> 01:16:50,010

league that was coming in from the north

1581

01:16:54,500 --> 01:16:52,829

and it brought everybody together in

1582

01:16:57,890 --> 01:16:54,510

these projects now as I said I think

1583

01:17:01,850 --> 01:16:57,900

that they did this not through any kind

1584

01:17:03,169 --> 01:17:01,860

of military style control and think I

1585

01:17:05,370 --> 01:17:03,179

don't think it was about that it was a

1586

01:17:07,560 --> 01:17:05,380

case of necessity to

1587

01:17:10,410 --> 01:17:07,570

prevent the world from being destroyed

1588

01:17:12,120 --> 01:17:10,420

ever again there were no weapon since

1589

01:17:14,310 --> 01:17:12,130

the people to get involved in this

1590

01:17:16,439 --> 01:17:14,320

massive building project

1591

01:17:18,570 --> 01:17:16,449

yeah there were no weapons or anything

1592

01:17:21,899 --> 01:17:18,580

like that found around gobekli tepe

1593

01:17:24,750 --> 01:17:21,909

right no no I mean you know yeah certain

1594

01:17:26,160 --> 01:17:24,760

arrowheads but I mean if you go to

1595

01:17:29,720 --> 01:17:26,170

Quebec to tell me when I first went

1596

01:17:33,810 --> 01:17:29,730

there in 2004 as you walk to alter site

1597

01:17:38,550 --> 01:17:33,820

you start seeing Flynn you know tools

1598

01:17:40,950 --> 01:17:38,560

and Flint points around and you know to

1599

01:17:43,740 --> 01:17:40,960

start off with it's just one or two the

1600

01:17:46,080 --> 01:17:43,750

closer you get to Quebec it's a pie the

1601

01:17:48,479 --> 01:17:46,090

whole ground is covered with them I mean

1602

01:17:50,189 --> 01:17:48,489

you're dealing you're talking about tens

1603

01:17:54,120 --> 01:17:50,199

of thousands if not hundreds of

1604

01:17:57,660 --> 01:17:54,130

thousands of Flint's and some obsidian

1605

01:17:59,340 --> 01:17:57,670

stalks and yeah I mean what were the

1606

01:18:01,740 --> 01:17:59,350

people so wasteful they were just

1607

01:18:04,260 --> 01:18:01,750

chucking them down all the time well

1608

01:18:05,729 --> 01:18:04,270

maybe but I think that there's something

1609

01:18:08,070 --> 01:18:05,739

more going on here I think a lot of

1610

01:18:10,950 --> 01:18:08,080

these are offerings people were coming

1611

01:18:14,010 --> 01:18:10,960

to gobekli tepe perhaps at certain times

1612

01:18:16,140 --> 01:18:14,020

of the year and making offerings and

1613

01:18:18,180 --> 01:18:16,150

they were leaving their objects they

1614

01:18:20,040 --> 01:18:18,190

probably even weren't going up to the

1615

01:18:23,040 --> 01:18:20,050

actual site but they were like coming

1616

01:18:24,990 --> 01:18:23,050

within reach of it you know maybe just

1617

01:18:26,310 --> 01:18:25,000

doing their rituals or making their

1618

01:18:29,010 --> 01:18:26,320

offerings or doing their thing and

1619

01:18:30,540 --> 01:18:29,020

leaving these and I think that this is

1620

01:18:32,010 --> 01:18:30,550

exactly what was going on that's why

1621

01:18:34,709 --> 01:18:32,020

there are tens of thousands if not

1622

01:18:39,180 --> 01:18:34,719

hundreds of thousands of stone tools in

1623

01:18:40,860 --> 01:18:39,190

the vicinity but but yeah I mean people

1624

01:18:42,479 --> 01:18:40,870

were being brought together I mean that

1625

01:18:44,879 --> 01:18:42,489

and you talk about the towns around

1626

01:18:47,700 --> 01:18:44,889

gobekli tepe it wasn't a town like we

1627

01:18:51,330 --> 01:18:47,710

think about it it was a series of what

1628

01:18:54,240 --> 01:18:51,340

we know as occupational mounds these

1629

01:18:55,919 --> 01:18:54,250

were the circled the whole area around

1630

01:18:59,459 --> 01:18:55,929

Quebec examples some of which we know

1631

01:19:02,610 --> 01:18:59,469

most of which have not been excavated

1632

01:19:05,939 --> 01:19:02,620

even to this day they're still there so

1633

01:19:08,550 --> 01:19:05,949

wait an excavation now and this is where

1634

01:19:11,149 --> 01:19:08,560

the people lived and they would have

1635

01:19:14,010 --> 01:19:11,159

been taken what they needed to do or

1636

01:19:15,510 --> 01:19:14,020

what they needed to have to survive for

1637

01:19:18,930 --> 01:19:15,520

a few days they'd have gone up to Quebec

1638

01:19:19,830 --> 01:19:18,940

to eat a pie which is quite a climb

1639

01:19:21,780 --> 01:19:19,840

this would have probably a bit a couple

1640

01:19:23,790 --> 01:19:21,790

of miles two or three miles maybe five

1641

01:19:25,560 --> 01:19:23,800

miles they would gone up there and they

1642

01:19:27,180 --> 01:19:25,570

would have stayed up there done their

1643

01:19:29,490 --> 01:19:27,190

thing and then come back down to their

1644

01:19:31,200 --> 01:19:29,500

families and then go back up there again

1645

01:19:32,580 --> 01:19:31,210

that there seems to be what's happened

1646

01:19:36,330 --> 01:19:32,590

because there's no evidence of Gobekli

1647

01:19:38,760 --> 01:19:36,340

Tepe of anybody living up there they met

1648

01:19:42,330 --> 01:19:38,770

I mean only recently did they find any

1649

01:19:44,220 --> 01:19:42,340

evidence of fire and you think that they

1650

01:19:46,170 --> 01:19:44,230

you know need to keep warm occasionally

1651

01:19:48,810 --> 01:19:46,180

particularly as it's there it's just

1652

01:19:51,600 --> 01:19:48,820

after the end of the last ice age

1653

01:19:53,310 --> 01:19:51,610

so yeah they were going up to Quebec

1654

01:19:58,290 --> 01:19:53,320

meet up by doing their thing doing their

1655

01:20:00,270 --> 01:19:58,300

rituals ceremonies in the ceremony yeah

1656

01:20:02,550 --> 01:20:00,280

let me let me jump in before we hit this

1657

01:20:07,260 --> 01:20:02,560

break we've got about 90 seconds the

1658

01:20:11,040 --> 01:20:07,270

ceremonies weren't religious as we look

1659

01:20:14,670 --> 01:20:11,050

at religion today they were ceremonies

1660

01:20:18,840 --> 01:20:14,680

that were more astronomical right and in

1661

01:20:20,550 --> 01:20:18,850

space and a comet related yeah yeah I

1662

01:20:24,180 --> 01:20:20,560

mean they were they were out of

1663

01:20:26,430 --> 01:20:24,190

necessity but I do believe that what

1664

01:20:29,330 --> 01:20:26,440

this did was to create the earliest

1665

01:20:31,700 --> 01:20:29,340

priesthoods they began about attempt a

1666

01:20:35,370 --> 01:20:31,710

comet Sharman's

1667

01:20:38,070 --> 01:20:35,380

yeah comment shamans I I think I want to

1668

01:20:42,240 --> 01:20:38,080

make some comment belt buckles

1669

01:20:44,520 --> 01:20:42,250

I think that's next what's up comet that

1670

01:20:47,430 --> 01:20:44,530

would be pretty good I've gone back and

1671

01:20:49,320 --> 01:20:47,440

looked I've shown everybody we have

1672

01:20:52,530 --> 01:20:49,330

talked about this belt buckle so many

1673

01:20:55,170 --> 01:20:52,540

times on this show and now what I you

1674

01:20:57,480 --> 01:20:55,180

know I just looked at in the past it's

1675

01:21:00,260 --> 01:20:57,490

just a conventional belt buckle but it

1676

01:21:02,760 --> 01:21:00,270

is clearly a three-tailed comet

1677

01:21:04,500 --> 01:21:02,770

extraordinary alright we've got lots to

1678

01:21:07,140 --> 01:21:04,510

talk about let's take our break when we

1679

01:21:07,890 --> 01:21:07,150

come back we're gonna talk about what is

1680

01:21:11,700 --> 01:21:07,900

going on

1681

01:21:13,200 --> 01:21:11,710

echo Beckley Tepe right now and and then

1682

01:21:16,290 --> 01:21:13,210

we're gonna talk about some other stuff

1683

01:21:16,980 --> 01:21:16,300

and and head down to head up over to

1684

01:21:20,790 --> 01:21:16,990

Israel

1685

01:21:35,790 --> 01:21:34,339

[Music]

1686

01:21:37,229 --> 01:21:35,800

welcome back

1687

01:21:39,299 --> 01:21:37,239

fade to black I'm real Jimmy Church

1688

01:21:42,299 --> 01:21:39,309

extraordinary conversations tonight with

1689

01:21:44,669 --> 01:21:42,309

Andrew Collins dimness of in origins

1690

01:21:48,029 --> 01:21:44,679

hybrid humans gobekli tepe and the

1691

01:21:49,680 --> 01:21:48,039

genesis of giants of ancient america is

1692

01:21:53,430 --> 01:21:49,690

the new book i'm holding it up for the

1693

01:21:56,489 --> 01:21:53,440

cameras right here and andrew we're

1694

01:21:58,229 --> 01:21:56,499

going to be going to gobekli tepe in a

1695

01:22:00,540 --> 01:21:58,239

2020 we're shooting a documentary

1696

01:22:04,370 --> 01:22:00,550

starting in armenia and we're gonna head

1697

01:22:08,750 --> 01:22:04,380

west and and and over in gobekli tepe

1698

01:22:11,339 --> 01:22:08,760

what can I expect what can we expect

1699

01:22:14,729 --> 01:22:11,349

well just go twice

1700

01:22:16,739 --> 01:22:14,739

don't go once because I mean the first

1701

01:22:19,500 --> 01:22:16,749

day you'll go there you'll just be so

1702

01:22:21,660 --> 01:22:19,510

overwhelmed with what you're seeing that

1703

01:22:23,640 --> 01:22:21,670

you just won't take it in you know you

1704

01:22:26,250 --> 01:22:23,650

have to go back on a second day and I

1705

01:22:28,859 --> 01:22:26,260

would also suggest doing it you know

1706

01:22:32,129 --> 01:22:28,869

toward sunset yeah just be the last

1707

01:22:35,790 --> 01:22:32,139

people there and just just sit and look

1708

01:22:38,819 --> 01:22:35,800

and think that's all you need to because

1709

01:22:42,239 --> 01:22:38,829

you know you look at it and it's it's

1710

01:22:45,359 --> 01:22:42,249

like something out of this world it's so

1711

01:22:47,549 --> 01:22:45,369

out of context with let's say you know

1712

01:22:50,250 --> 01:22:47,559

the Middle East the Near East Egypt

1713

01:22:52,979 --> 01:22:50,260

because with that it has a certain

1714

01:22:56,520 --> 01:22:52,989

symbolism which is recognizable

1715

01:22:58,919 --> 01:22:56,530

repeatable and we all know only even if

1716

01:23:00,839 --> 01:22:58,929

you find let's say the precursors of it

1717

01:23:02,850 --> 01:23:00,849

it still looks sort of similar you know

1718

01:23:05,910 --> 01:23:02,860

like a tradition hieroglyphs the

1719

01:23:08,009 --> 01:23:05,920

proto-hive is still at the site but with

1720

01:23:10,469 --> 01:23:08,019

about liter pie it's like you're looking

1721

01:23:11,279 --> 01:23:10,479

at something which is from a different

1722

01:23:13,950 --> 01:23:11,289

continent

1723

01:23:15,629 --> 01:23:13,960

when I first looked at it the relief are

1724

01:23:17,969 --> 01:23:15,639

the carvings look like there was

1725

01:23:19,259 --> 01:23:17,979

something from mr. America or South

1726

01:23:22,560 --> 01:23:19,269

America

1727

01:23:25,770 --> 01:23:22,570

that's how different house and it gives

1728

01:23:28,049 --> 01:23:25,780

you a weird vibe as well because you

1729

01:23:30,000 --> 01:23:28,059

know you know that Mesopotamian and

1730

01:23:32,100 --> 01:23:30,010

South American cultures used sacrifice

1731

01:23:34,080 --> 01:23:32,110

and you look at this new wonder if

1732

01:23:37,410 --> 01:23:34,090

something heavy was going on here as

1733

01:23:39,330 --> 01:23:37,420

well but today no evidence of sacrifice

1734

01:23:42,060 --> 01:23:39,340

has been found at Quebec its FA which I

1735

01:23:44,219 --> 01:23:42,070

which I like I like that I mean you know

1736

01:23:46,320 --> 01:23:44,229

in certain other areas of the Near East

1737

01:23:48,540 --> 01:23:46,330

yeah but not about it apart

1738

01:23:50,970 --> 01:23:48,550

you know whatever was going on there was

1739

01:23:54,150 --> 01:23:50,980

something much more important I think

1740

01:23:57,990 --> 01:23:54,160

something that was much more a necessity

1741

01:24:00,240 --> 01:23:58,000

for them to do and that's what you see

1742

01:24:02,010 --> 01:24:00,250

when you get there use the sense that

1743

01:24:05,520 --> 01:24:02,020

you're looking at something that is

1744

01:24:09,570 --> 01:24:05,530

entirely out of context for the Near

1745

01:24:13,560 --> 01:24:09,580

East the the knowledge that is acquired

1746

01:24:17,810 --> 01:24:13,570

there or are they allowing free research

1747

01:24:21,930 --> 01:24:17,820

if freedom of research I should say no

1748

01:24:24,630 --> 01:24:21,940

because I probably am the first person

1749

01:24:28,130 --> 01:24:24,640

to be banned from Quebec except by now

1750

01:24:31,560 --> 01:24:28,140

wouldn't matter would it be from hurt

1751

01:24:36,870 --> 01:24:31,570

and yeah this is true and this has all

1752

01:24:40,080 --> 01:24:36,880

come about over the last year myself and

1753

01:24:43,770 --> 01:24:40,090

I tour group went there yeah I think in

1754

01:24:45,900 --> 01:24:43,780

in the fall last year and we were just

1755

01:24:47,790 --> 01:24:45,910

hounded and thrown outside I mean we

1756

01:24:50,520 --> 01:24:47,800

were doing anything other than you know

1757

01:24:52,760 --> 01:24:50,530

being tourists and I was obviously

1758

01:24:56,880 --> 01:24:52,770

answering a few questions of people and

1759

01:24:58,710 --> 01:24:56,890

the British archaeologist who's in

1760

01:25:01,800 --> 01:24:58,720

charge there a guy by the name of Lee

1761

01:25:04,830 --> 01:25:01,810

Claire dr. Lee Claire was basically or

1762

01:25:07,710 --> 01:25:04,840

constraining his security men to just

1763

01:25:11,100 --> 01:25:07,720

hound us and get rid of us and you know

1764

01:25:12,810 --> 01:25:11,110

I went up to approach you know to to

1765

01:25:14,100 --> 01:25:12,820

talk to him and shake his hand I mean

1766

01:25:17,040 --> 01:25:14,110

I'd actually corresponding with him

1767

01:25:18,540 --> 01:25:17,050

previously to this and he just repelled

1768

01:25:20,400 --> 01:25:18,550

backwards and wouldn't even shake my

1769

01:25:23,000 --> 01:25:20,410

hand and just says you know we don't

1770

01:25:27,240 --> 01:25:23,010

want your lies and pseudoscience here

1771

01:25:31,920 --> 01:25:27,250

and but I was told to leave now and not

1772

01:25:34,710 --> 01:25:31,930

return twice and also I learned that my

1773

01:25:36,780 --> 01:25:34,720

name was on a blacklist for gobekli tepe

1774

01:25:40,700 --> 01:25:36,790

and other sites that basically if I

1775

01:25:44,730 --> 01:25:40,710

turned up I was not to be admitted and

1776

01:25:46,140 --> 01:25:44,740

that was it really I mean why you know

1777

01:25:48,690 --> 01:25:46,150

because that's the question and the

1778

01:25:51,510 --> 01:25:48,700

question is because I dared to talk

1779

01:25:54,240 --> 01:25:51,520

about about the tepuy gobekli tepe is in

1780

01:25:58,440 --> 01:25:54,250

a country which is incredibly

1781

01:26:00,159 --> 01:25:58,450

politically sensitive because not only

1782

01:26:03,429 --> 01:26:00,169

obviously

1783

01:26:06,549 --> 01:26:03,439

have you got the crackdowns on any

1784

01:26:11,009 --> 01:26:06,559

culture religion or identity that's not

1785

01:26:17,409 --> 01:26:11,019

that of Orthodox you know Islamic Turk

1786

01:26:20,259 --> 01:26:17,419

in Turkey but you you have an incredible

1787

01:26:23,199 --> 01:26:20,269

sensitivity about what's going on at

1788

01:26:26,020 --> 01:26:23,209

Quebec eat a pie because the fact that

1789

01:26:29,109 --> 01:26:26,030

it's being promoted as the first temple

1790

01:26:31,929 --> 01:26:29,119

in the world I mean a term I saw most

1791

01:26:34,959 --> 01:26:31,939

certainly used myself here and there is

1792

01:26:38,290 --> 01:26:34,969

a very sensitive issue because obviously

1793

01:26:40,419 --> 01:26:38,300

in an Islamic country the first temple

1794

01:26:43,540 --> 01:26:40,429

in the world is Mecca and can only be

1795

01:26:45,639 --> 01:26:43,550

Mecca it can't be anywhere else you know

1796

01:26:48,939 --> 01:26:45,649

that's what the Quran says that's what

1797

01:26:51,189 --> 01:26:48,949

the teachings of Islam sigh so it cannot

1798

01:26:56,520 --> 01:26:51,199

be gobekli tepe which is clearly much

1799

01:27:00,879 --> 01:26:56,530

older than Mecca so there has been I

1800

01:27:04,569 --> 01:27:00,889

write word a push to try and show that

1801
01:27:07,209 --> 01:27:04,579
Gobekli Tepe is not religious in any way

1802
01:27:09,479 --> 01:27:07,219
and it's in fact domestic buildings that

1803
01:27:12,790 --> 01:27:09,489
just happen to have nice relief on them

1804
01:27:15,069 --> 01:27:12,800
because that is more suitable and that

1805
01:27:16,929 --> 01:27:15,079
if you know that the only way that any

1806
01:27:19,719 --> 01:27:16,939
kind of religion that has gone on there

1807
01:27:21,459 --> 01:27:19,729
has to be interpreted through the Quran

1808
01:27:23,979 --> 01:27:21,469
and the only way that you can do that is

1809
01:27:27,909 --> 01:27:23,989
to suggest that it is the house of

1810
01:27:31,799 --> 01:27:27,919
terror terror was the father of Abraham

1811
01:27:35,290 --> 01:27:31,809
Abraham was born and lived according to

1812
01:27:37,389 --> 01:27:35,300
Islamic and Kurdish tradition in the

1813
01:27:42,189 --> 01:27:37,399

area of Tibet eat a pie in the local

1814

01:27:45,209 --> 01:27:42,199

city of Chandler fir and that tira his

1815

01:27:50,109 --> 01:27:45,219

father had idols

1816

01:27:51,909 --> 01:27:50,119

and the Abraham came along and didn't

1817

01:27:55,270 --> 01:27:51,919

like this obviously as he was you know

1818

01:27:57,520 --> 01:27:55,280

obviously monotheistic so he decided to

1819

01:27:59,709 --> 01:27:57,530

smash up all the idols but leave the

1820

01:28:02,620 --> 01:27:59,719

biggest of the idols and then tell

1821

01:28:04,600 --> 01:28:02,630

people that the big Idol had come alive

1822

01:28:07,120 --> 01:28:04,610

you know and smashed all the other ones

1823

01:28:08,919 --> 01:28:07,130

this is this is what your gods do

1824

01:28:11,409 --> 01:28:08,929

therefore yeah they're obviously bad

1825

01:28:13,810 --> 01:28:11,419

this is what yeah we're told in in

1826

01:28:17,260 --> 01:28:13,820

Islamic and in in in other two

1827

01:28:19,540 --> 01:28:17,270

as well from that region and there has

1828

01:28:22,180 --> 01:28:19,550

been an attempt to try and connect the

1829

01:28:24,160 --> 01:28:22,190

house of Terror with gobekli tepe so

1830

01:28:27,100 --> 01:28:24,170

it's very political it's very religious

1831

01:28:28,300 --> 01:28:27,110

very sensitive so that you know the

1832

01:28:31,720 --> 01:28:28,310

likes of myself

1833

01:28:32,140 --> 01:28:31,730

writing a best-selling book on gobekli

1834

01:28:36,220 --> 01:28:32,150

tepe

1835

01:28:38,830 --> 01:28:36,230

is not seen very kindly and that my book

1836

01:28:42,370 --> 01:28:38,840

has been a best-seller in in Turkey I

1837

01:28:44,950 --> 01:28:42,380

mean in in Turkish language edition yes

1838

01:28:48,790 --> 01:28:44,960

it's on sale or certainly was until

1839

01:28:51,700 --> 01:28:48,800

recently in virtually every major

1840

01:28:52,870 --> 01:28:51,710

bookshop particularly those obviously

1841

01:28:56,589 --> 01:28:52,880

that will have sections on ancient

1842

01:28:59,260 --> 01:28:56,599

history but beyond this I'm now banned

1843

01:29:02,109 --> 01:28:59,270

from Turkey and the reason why I'm

1844

01:29:03,550 --> 01:29:02,119

banned from Turkey or I'll say Bank what

1845

01:29:06,700 --> 01:29:03,560

I mean by that is if I turned up I'd be

1846

01:29:09,879 --> 01:29:06,710

immediately arrested is that I wrote a

1847

01:29:12,609 --> 01:29:09,889

book in 1996 called from the ashes of

1848

01:29:17,140 --> 01:29:12,619

angels again it's been a best-seller it

1849

01:29:19,030 --> 01:29:17,150

was in Times bestseller list and back

1850

01:29:22,109 --> 01:29:19,040

then ourselves a little younger a little

1851

01:29:25,649 --> 01:29:22,119

bit more naive and I included a lot of

1852

01:29:30,339 --> 01:29:25,659

material in there about Kurdish identity

1853

01:29:34,030 --> 01:29:30,349

religion and culture and I dedicated the

1854

01:29:36,010 --> 01:29:34,040

book to Kurdish people very bad move I

1855

01:29:38,020 --> 01:29:36,020

mean at the time you think this is this

1856

01:29:40,629 --> 01:29:38,030

is a great thing to do you know stick it

1857

01:29:42,040 --> 01:29:40,639

to the man and rest of it but you don't

1858

01:29:44,229 --> 01:29:42,050

realize these things are gonna come back

1859

01:29:47,140 --> 01:29:44,239

and bite you many many years later in

1860

01:29:51,280 --> 01:29:47,150

fact decades later because what happened

1861

01:29:53,589 --> 01:29:51,290

was the vert fairly recently my book in

1862

01:29:56,589 --> 01:29:53,599

it Kurdish language so in it Turkish

1863

01:29:59,970 --> 01:29:56,599

language edition was given to a prisoner

1864

01:30:03,669 --> 01:29:59,980

in a jail quite clearly occurred him

1865

01:30:05,319 --> 01:30:03,679

incarcerated and the jailer

1866

01:30:08,020 --> 01:30:05,329

took it away from and said what is this

1867

01:30:10,810 --> 01:30:08,030

and it was presented to the local

1868

01:30:14,609 --> 01:30:10,820

authorities it went to cult it was

1869

01:30:18,640 --> 01:30:14,619

deemed that this book promoted Kurdish

1870

01:30:21,609 --> 01:30:18,650

you know identity and thus must be

1871

01:30:24,310 --> 01:30:21,619

banned and all copies destroyed in the

1872

01:30:26,140 --> 01:30:24,320

country and that's what's happened so

1873

01:30:27,700 --> 01:30:26,150

that you know obviously I've we've been

1874

01:30:30,310 --> 01:30:27,710

following this very closely

1875

01:30:32,440 --> 01:30:30,320

and it has been advised that if I went

1876
01:30:35,380 --> 01:30:32,450
to Turkey there's a good chance I would

1877
01:30:38,260 --> 01:30:35,390
be arrested so clearly I would not be

1878
01:30:41,140 --> 01:30:38,270
going back to go back to Taipei anytime

1879
01:30:42,490 --> 01:30:41,150
soon so good luck in 2020 but just

1880
01:30:44,920 --> 01:30:42,500
remember me when up when you're there

1881
01:30:47,050 --> 01:30:44,930
I'm gonna wear a Andrew Collins t-shirt

1882
01:30:53,620 --> 01:30:47,060
and take some pictures see this is the

1883
01:30:57,940 --> 01:30:53,630
thing Andrew I have had this fear this

1884
01:31:00,280 --> 01:30:57,950
Pandora's Box that because of these

1885
01:31:03,720 --> 01:31:00,290
exciting discoveries right now that are

1886
01:31:05,880 --> 01:31:03,730
going down in modern-day Turkey that the

1887
01:31:09,690 --> 01:31:05,890
Turkish universities and the

1888
01:31:14,560 --> 01:31:09,700

archaeologists there are going to

1889

01:31:19,750 --> 01:31:14,570

present this as as Turkish discoveries

1890

01:31:22,450 --> 01:31:19,760

from Turkish ancestry when anybody that

1891

01:31:24,880 --> 01:31:22,460

understands history knows that Turkey is

1892

01:31:27,100 --> 01:31:24,890

600 years old and prior to that it was

1893

01:31:28,960 --> 01:31:27,110

the Armenian Highlands that's the end of

1894

01:31:32,260 --> 01:31:28,970

the story it was the Armenian Highlands

1895

01:31:35,350 --> 01:31:32,270

for 6,000 years right this isn't

1896

01:31:38,020 --> 01:31:35,360

something modern but as these

1897

01:31:40,210 --> 01:31:38,030

discoveries you know even going you know

1898

01:31:43,810 --> 01:31:40,220

like if a man right that suddenly this

1899

01:31:45,880 --> 01:31:43,820

is a Turkish sculpture that that all of

1900

01:31:49,990 --> 01:31:45,890

these discoveries in southern Turkey

1901
01:31:54,130 --> 01:31:50,000
right now are of the Turkish people and

1902
01:31:56,230 --> 01:31:54,140
and that's probably ultimately like you

1903
01:31:59,800 --> 01:31:56,240
are just presenting is what's gonna

1904
01:32:02,620 --> 01:31:59,810
happen with gobekli tepe well I mean

1905
01:32:04,360 --> 01:32:02,630
obviously you know what's going on in

1906
01:32:06,610 --> 01:32:04,370
northern Syria with the Kurds at the

1907
01:32:08,920 --> 01:32:06,620
moment is just basically ethnic

1908
01:32:12,280 --> 01:32:08,930
cleansing again you know thousands of

1909
01:32:16,270 --> 01:32:12,290
people being killed virtually on a daily

1910
01:32:17,920 --> 01:32:16,280
basis by by Turkish Armed Forces you

1911
01:32:22,450 --> 01:32:17,930
know trying to clear the area completely

1912
01:32:25,630 --> 01:32:22,460
off of any Kurdish ethnicity that's

1913
01:32:28,290 --> 01:32:25,640

obviously very sad and and I seriously

1914

01:32:31,030 --> 01:32:28,300

angers me because you know I mean I've

1915

01:32:32,710 --> 01:32:31,040

had a lot of contact with Kurdish people

1916

01:32:35,680 --> 01:32:32,720

and they're brilliant brilliant great

1917

01:32:37,240 --> 01:32:35,690

people and you know that they they have

1918

01:32:38,530 --> 01:32:37,250

their own culture identity and religion

1919

01:32:41,470 --> 01:32:38,540

I mean they've got three different

1920

01:32:45,280 --> 01:32:41,480

religions yes i d-- ism

1921

01:32:47,470 --> 01:32:45,290

garrison and Olivos and and these these

1922

01:32:49,660 --> 01:32:47,480

people believe in angels they believe in

1923

01:32:51,700 --> 01:32:49,670

all sorts of interesting mysticism I

1924

01:32:54,190 --> 01:32:51,710

write they see what I write about it

1925

01:32:56,290 --> 01:32:54,200

from the ashes of angels I mean big and

1926

01:32:58,600 --> 01:32:56,300

it was I so fascinated me that all of

1927

01:33:01,420 --> 01:32:58,610

these ideas which almost certainly

1928

01:33:03,220 --> 01:33:01,430

derive from the Neolithic Age are still

1929

01:33:07,060 --> 01:33:03,230

around to die and these people are still

1930

01:33:09,760 --> 01:33:07,070

you know connecting with the angels and

1931

01:33:13,120 --> 01:33:09,770

the Watchers and everything that clearly

1932

01:33:15,460 --> 01:33:13,130

related to the foundations of

1933

01:33:16,900 --> 01:33:15,470

civilization in that region and I

1934

01:33:19,810 --> 01:33:16,910

remembered him things like the Book of

1935

01:33:21,010 --> 01:33:19,820

Enoch and whatever and all of this has

1936

01:33:23,950 --> 01:33:21,020

been wiped out

1937

01:33:27,310 --> 01:33:23,960

I mean literally because you know it's

1938

01:33:31,000 --> 01:33:27,320

it's seen as unorthodox to Islamic

1939

01:33:32,200 --> 01:33:31,010

religion and this is you know a very sad

1940

01:33:34,810 --> 01:33:32,210

state of affairs

1941

01:33:38,140 --> 01:33:34,820

I mean Pratt we probably don't want to

1942

01:33:40,630 --> 01:33:38,150

go down this road to too far because you

1943

01:33:43,900 --> 01:33:40,640

know it's not really the brief of the

1944

01:33:45,820 --> 01:33:43,910

program but it pisses me off to be

1945

01:33:48,130 --> 01:33:45,830

honest quite clearly and I wish I could

1946

01:33:50,620 --> 01:33:48,140

do something about it you know we did a

1947

01:33:53,620 --> 01:33:50,630

conference recently you know we did a

1948

01:33:56,620 --> 01:33:53,630

whole charity thing you know for the

1949

01:33:58,270 --> 01:33:56,630

women of the use IDs for their charity

1950

01:34:00,910 --> 01:33:58,280

and that's the best that we can really

1951

01:34:03,400 --> 01:34:00,920

do at this time because you know you

1952

01:34:06,480 --> 01:34:03,410

can't stop the might of the of the

1953

01:34:09,340 --> 01:34:06,490

Turkish army destroying an entire

1954

01:34:11,830 --> 01:34:09,350

culture you know which is exactly what

1955

01:34:13,600 --> 01:34:11,840

it's doing at the moment but you know

1956

01:34:15,340 --> 01:34:13,610

and right in the midst of this is Quebec

1957

01:34:18,190 --> 01:34:15,350

eat a pie I mean that whole area is

1958

01:34:21,960 --> 01:34:18,200

Kurdish people still speak Kurdish to

1959

01:34:26,470 --> 01:34:21,970

this died in the area of shandler fur

1960

01:34:29,160 --> 01:34:26,480

and it's it's it's so sensitive the fact

1961

01:34:32,860 --> 01:34:29,170

that Quebec it's epic is in this area

1962

01:34:36,100 --> 01:34:32,870

now you know the other thing is that the

1963

01:34:37,960 --> 01:34:36,110

Turkish tourism are promoting Quebec it

1964

01:34:39,850 --> 01:34:37,970

ever come to Quebec the tip I see the

1965

01:34:43,810 --> 01:34:39,860

oldest you know whatever they're calling

1966

01:34:48,220 --> 01:34:43,820

it in the world and yet this is an area

1967

01:34:50,560 --> 01:34:48,230

that if you look on every government

1968

01:34:52,300 --> 01:34:50,570

advisory website will still tell you

1969

01:34:55,330 --> 01:34:52,310

don't go to this area because there's

1970

01:34:57,520 --> 01:34:55,340

problems there isn't by the way

1971

01:34:59,560 --> 01:34:57,530

mean you know you go to they love you

1972

01:35:01,600 --> 01:34:59,570

and if you go to to the area of sham

1973

01:35:05,709 --> 01:35:01,610

loafer the people are great I've never

1974

01:35:08,020 --> 01:35:05,719

had any problems but quite clearly it is

1975

01:35:09,459 --> 01:35:08,030

somewhere that like a tinderbox just

1976

01:35:12,129 --> 01:35:09,469

waited to go off and I think there is a

1977

01:35:14,229 --> 01:35:12,139

lot of people that actually fear that

1978

01:35:15,879 --> 01:35:14,239

Gobekli tap I will be destroyed at some

1979

01:35:22,689 --> 01:35:15,889

point in the future because of what it

1980

01:35:24,129 --> 01:35:22,699

symbolizes I did see last year some

1981

01:35:26,979 --> 01:35:24,139

photographs that came out of Gobekli

1982

01:35:29,649 --> 01:35:26,989

Tepe of them pouring concrete and and

1983

01:35:34,180 --> 01:35:29,659

and covering some of the areas and and

1984

01:35:36,550 --> 01:35:34,190

destroying some of the architects and

1985

01:35:38,770 --> 01:35:36,560

architectural archaeological areas there

1986

01:35:42,280 --> 01:35:38,780

why would they why would they pour

1987

01:35:45,339 --> 01:35:42,290

concrete in every section every square

1988

01:35:48,250 --> 01:35:45,349

inch of Gobekli Tepe be undisturbed

1989

01:35:50,950 --> 01:35:48,260

they're seeing under it right I mean

1990

01:35:53,200 --> 01:35:50,960

going on four acres yeah I mean just out

1991

01:35:54,790 --> 01:35:53,210

of interest this was this was a bit of a

1992

01:35:56,800 --> 01:35:54,800

mountain out of a molehill to be honest

1993

01:36:00,070 --> 01:35:56,810

I mean it was only on an approach route

1994

01:36:02,649 --> 01:36:00,080

to it I mean it wasn't actually on the

1995

01:36:05,080 --> 01:36:02,659

main occupational Mound so you know that

1996

01:36:08,530 --> 01:36:05,090

was totally over overplayed that story

1997

01:36:10,089 --> 01:36:08,540

but the fact is that they are creating

1998

01:36:12,250 --> 01:36:10,099

Quebec attempt a is almost like the

1999

01:36:14,649 --> 01:36:12,260

Turkish Stonehenge I mean if you go to

2000

01:36:17,080 --> 01:36:14,659

Stonehenge in England you know you go to

2001

01:36:19,680 --> 01:36:17,090

the Visitor Center which is about you

2002

01:36:22,930 --> 01:36:19,690

know a mile and a half away from the

2003

01:36:24,189 --> 01:36:22,940

site now you park your cars there you go

2004

01:36:26,500 --> 01:36:24,199

through the visitor centers and the

2005

01:36:29,530 --> 01:36:26,510

shops and you get on a a coach that

2006

01:36:31,359 --> 01:36:29,540

takes you to the actual site of

2007

01:36:33,399 --> 01:36:31,369

Stonehenge which is fine it's like one

2008

01:36:36,220 --> 01:36:33,409

with that they're doing the same thing

2009

01:36:38,589 --> 01:36:36,230

at Quebec eat a pie exactly the same

2010

01:36:42,040 --> 01:36:38,599

thing you know they're modeling it on

2011

01:36:45,490 --> 01:36:42,050

Stonehenge and again nothing wrong with

2012

01:36:48,700 --> 01:36:45,500

that at all but they are creating it as

2013

01:36:53,680 --> 01:36:48,710

this this symbol of something which they

2014

01:36:55,750 --> 01:36:53,690

are trying to advocate and push as the

2015

01:36:58,720 --> 01:36:55,760

place in Turkey that you should come to

2016

01:37:01,780 --> 01:36:58,730

but the fact of the matter is very few

2017

01:37:04,450 --> 01:37:01,790

Westerners do go to that area because

2018

01:37:07,479 --> 01:37:04,460

they do still fear that there are

2019

01:37:08,740 --> 01:37:07,489

problems there and that you know bad

2020

01:37:11,080 --> 01:37:08,750

things can happen

2021

01:37:14,590 --> 01:37:11,090

it's just simple fact I mean I know this

2022

01:37:16,960 --> 01:37:14,600

because I put on to us to go there

2023

01:37:19,930 --> 01:37:16,970

clearly I won't be going there on those

2024

01:37:22,590 --> 01:37:19,940

tours in the future but you know I'm

2025

01:37:26,860 --> 01:37:22,600

still involved with those two died and

2026

01:37:29,980 --> 01:37:26,870

you know there is no problems but there

2027

01:37:32,740 --> 01:37:29,990

is this this deal this fear particularly

2028

01:37:35,500 --> 01:37:32,750

at the moment with with all the problems

2029

01:37:37,240 --> 01:37:35,510

that's going on in northern Syria and

2030

01:37:39,820 --> 01:37:37,250

the Kurds you know being ethnically

2031

01:37:41,650 --> 01:37:39,830

cleansed which is just miles away from

2032

01:37:45,220 --> 01:37:41,660

about the tepuy I mean you know you

2033

01:37:47,260 --> 01:37:45,230

could walk to the border of Syria from

2034

01:37:52,060 --> 01:37:47,270

Quebec elite Empire if you really wanted

2035

01:37:55,300 --> 01:37:52,070

to so you know he can't get away from

2036

01:37:57,730 --> 01:37:55,310

the fact that it's discovery the fact

2037

01:38:00,400 --> 01:37:57,740

that I mean there was even a Quebec

2038

01:38:02,500 --> 01:38:00,410

e-type a fashion show in Istanbul

2039

01:38:06,280 --> 01:38:02,510

recently which I highlighted on my

2040

01:38:08,620 --> 01:38:06,290

Facebook page the same week that you

2041

01:38:11,170 --> 01:38:08,630

know that that all of the tanks roll

2042

01:38:13,330 --> 01:38:11,180

over into from from Turkey into northern

2043

01:38:15,820 --> 01:38:13,340

Syria and are just wiping out the Kurds

2044

01:38:18,280 --> 01:38:15,830

whose ancestors almost certainly were

2045

01:38:19,570 --> 01:38:18,290

involved with the creation of Gobekli

2046

01:38:22,330 --> 01:38:19,580

Tepe

2047

01:38:24,940 --> 01:38:22,340

again this is denied by the Turks but I

2048

01:38:28,110 --> 01:38:24,950

mean as I share in the latest book that

2049

01:38:32,950 --> 01:38:28,120

the Kurdish language has similarities

2050

01:38:35,230 --> 01:38:32,960

with certain or alik languages that very

2051

01:38:37,180 --> 01:38:35,240

clearly come from as far away as the

2052

01:38:41,560 --> 01:38:37,190

Ural Mountains and almost certainly

2053

01:38:44,890 --> 01:38:41,570

beyond into Western Siberia this has

2054

01:38:47,200 --> 01:38:44,900

been noted by various scholars which

2055

01:38:49,210 --> 01:38:47,210

means that you know what we say about

2056

01:38:50,650 --> 01:38:49,220

the builders of Quebec except by coming

2057

01:38:52,780 --> 01:38:50,660

in from the north and being connected

2058

01:38:55,510 --> 01:38:52,790

with the Kurds is almost certainly

2059

01:38:58,770 --> 01:38:55,520

correct yes of course the Armenians as

2060

01:39:01,600 --> 01:38:58,780

well the Armenian culture identity

2061

01:39:03,520 --> 01:39:01,610

religion also has a lot of similarities

2062

01:39:06,160 --> 01:39:03,530

with what's going on in the area of

2063

01:39:09,880 --> 01:39:06,170

Gobekli Tepe so they obviously are

2064

01:39:12,460 --> 01:39:09,890

another strain of culture that have

2065

01:39:13,270 --> 01:39:12,470

contributed to what what went on there

2066

01:39:16,150 --> 01:39:13,280

in the past

2067

01:39:17,430 --> 01:39:16,160

how many gobekli tepe z-- are there yet

2068

01:39:19,870 --> 01:39:17,440

to be discovered

2069

01:39:22,450 --> 01:39:19,880

well Quebec it separates the biggest

2070

01:39:24,850 --> 01:39:22,460

there's no question about that

2071

01:39:27,120 --> 01:39:24,860

but you have karahan Taipei which I

2072

01:39:30,430 --> 01:39:27,130

describe as you know the sister of

2073

01:39:35,620 --> 01:39:30,440

Gobekli Tepe that's about another 25

2074

01:39:37,859 --> 01:39:35,630

miles to the east of of Chandler from

2075

01:39:41,260 --> 01:39:37,869

Quebec it's a pain that's being

2076

01:39:44,620 --> 01:39:41,270

excavated now for the first time by a

2077

01:39:47,049 --> 01:39:44,630

team from Istanbul University up to this

2078

01:39:48,729 --> 01:39:47,059

time they're not done much at all there

2079

01:39:50,890 --> 01:39:48,739

they've done a few test pits over that

2080

01:39:53,470 --> 01:39:50,900

was all so that's something that will

2081

01:39:56,169 --> 01:39:53,480

also open up in the future I've written

2082

01:39:59,049 --> 01:39:56,179

about that in various of my books but

2083

01:40:01,270 --> 01:39:59,059

they keep finding little mini gobekli

2084

01:40:04,029 --> 01:40:01,280

tepe all over the region in fact that

2085

01:40:07,379 --> 01:40:04,039

they're now up to about I think about 15

2086

01:40:10,799 --> 01:40:07,389

of them and all of these are more simple

2087

01:40:13,899 --> 01:40:10,809

cult structures like an individual

2088

01:40:18,250 --> 01:40:13,909

enclosure from Quebec attempt I isolated

2089

01:40:20,500 --> 01:40:18,260

with a few t-shaped pillars a few

2090

01:40:22,479 --> 01:40:20,510

similar carvings and statues to what you

2091

01:40:26,229 --> 01:40:22,489

find about the type I but most of these

2092

01:40:28,120 --> 01:40:26,239

are date to the tail end of the Quebec

2093

01:40:33,459 --> 01:40:28,130

attempt a period so I'm going to say

2094

01:40:34,990 --> 01:40:33,469

about 8,000 to 8,500 BC one recently

2095

01:40:39,220 --> 01:40:35,000

they found they reckon goes back to

2096

01:40:41,200 --> 01:40:39,230

9,000 300 BC but that's you know

2097

01:40:43,870 --> 01:40:41,210

isolating most of them go to the end of

2098

01:40:46,649 --> 01:40:43,880

this period and that's it I mean after

2099

01:40:49,779 --> 01:40:46,659

that time they stopped building

2100

01:40:51,939 --> 01:40:49,789

enclosures with t-shaped stones after

2101
01:40:54,279 --> 01:40:51,949
that they couldn't be bothered to carve

2102
01:40:56,589 --> 01:40:54,289
any further so they actually just had

2103
01:40:59,080 --> 01:40:56,599
what we'd call megaliths you know just

2104
01:41:01,899 --> 01:40:59,090
you know just rough stones that they

2105
01:41:03,430 --> 01:41:01,909
would build you know in enclosures and

2106
01:41:06,490 --> 01:41:03,440
whatever and this of course is the

2107
01:41:10,000 --> 01:41:06,500
beginning of the megalithic culture that

2108
01:41:12,220 --> 01:41:10,010
eventually ends up pulsing as a wave

2109
01:41:14,049 --> 01:41:12,230
throughout Europe and obviously into

2110
01:41:16,450 --> 01:41:14,059
other parts of the world and finally

2111
01:41:20,140 --> 01:41:16,460
ends up in places like Britain with the

2112
01:41:24,060 --> 01:41:20,150
creation of structures like you know

2113
01:41:26,709 --> 01:41:24,070

Stonehenge and I pray these other

2114

01:41:32,220 --> 01:41:26,719

locations that are being looked at right

2115

01:41:35,380 --> 01:41:32,230

now is there the same comet symbology

2116

01:41:39,130 --> 01:41:35,390

the vulture symbology scorpy

2117

01:41:41,560 --> 01:41:39,140

Fox's not really no because that they're

2118

01:41:44,170 --> 01:41:41,570

so late on in the day you see I think

2119

01:41:47,980 --> 01:41:44,180

what happened is that there was a lot of

2120

01:41:51,700 --> 01:41:47,990

motivation for getting it right from

2121

01:41:54,700 --> 01:41:51,710

about 9600 through to about I'm going to

2122

01:41:57,550 --> 01:41:54,710

say about 8500 but I think after this

2123

01:42:00,120 --> 01:41:57,560

time once there was no more cataclysms

2124

01:42:02,410 --> 01:42:00,130

taking place people decided that they

2125

01:42:05,130 --> 01:42:02,420

would just go through the motions for a

2126

01:42:07,360 --> 01:42:05,140

while but they build much smaller

2127

01:42:09,460 --> 01:42:07,370

enclosures I mean in fact some of them

2128

01:42:13,000 --> 01:42:09,470

are sort of no bigger than the size of a

2129

01:42:15,400 --> 01:42:13,010

family bathroom or jacuzzi with little

2130

01:42:18,850 --> 01:42:15,410

benches with tiny little stones probably

2131

01:42:20,680 --> 01:42:18,860

about 4 or 5 feet tall and it's like

2132

01:42:22,390 --> 01:42:20,690

that it's like like they've lost

2133

01:42:25,480 --> 01:42:22,400

interest in doing it but they're just

2134

01:42:29,110 --> 01:42:25,490

doing it because they have to and then

2135

01:42:30,910 --> 01:42:29,120

you get to about 8000 BC some expand

2136

01:42:33,040 --> 01:42:30,920

they said look we can't be bothered to

2137

01:42:34,990 --> 01:42:33,050

do this anymore let's just let's just go

2138

01:42:38,200 --> 01:42:35,000

off and do our own thing now and that's

2139

01:42:40,120 --> 01:42:38,210

the beginning of the Neolithic

2140

01:42:43,540 --> 01:42:40,130

Revolution that takes place in other

2141

01:42:46,120 --> 01:42:43,550

areas of Turkey and Southwest Turkey for

2142

01:42:48,160 --> 01:42:46,130

instance and beyond that into Bulgaria

2143

01:42:50,740 --> 01:42:48,170

and Eastern Europe and obviously in

2144

01:42:54,460 --> 01:42:50,750

other parts of the Eurasian continent as

2145

01:42:56,500 --> 01:42:54,470

well and by that time they had different

2146

01:42:58,990 --> 01:42:56,510

interests because they've now got

2147

01:43:02,740 --> 01:42:59,000

agriculture they're now much more

2148

01:43:04,750 --> 01:43:02,750

dependent upon the Sun and the fact that

2149

01:43:08,020 --> 01:43:04,760

the Sun ripened in the crops and

2150

01:43:09,490 --> 01:43:08,030

returning each year so what you find is

2151
01:43:12,490 --> 01:43:09,500
that the enclosures are no longer

2152
01:43:14,770 --> 01:43:12,500
orientated towards the stars like Cygnus

2153
01:43:17,530 --> 01:43:14,780
or some might say you know Orion or

2154
01:43:22,120 --> 01:43:17,540
whatever but are now being focused

2155
01:43:25,720 --> 01:43:22,130
purely on the Sun and at the time of the

2156
01:43:28,650 --> 01:43:25,730
equinoxes from the solstices because

2157
01:43:32,010 --> 01:43:28,660
that's now their main focus of attention

2158
01:43:35,350 --> 01:43:32,020
for their religious or ceremonial

2159
01:43:38,020 --> 01:43:35,360
activity so they've lost that original

2160
01:43:41,200 --> 01:43:38,030
impetus of wanting to go to the sky

2161
01:43:43,270 --> 01:43:41,210
world through certain gateways that

2162
01:43:45,540 --> 01:43:43,280
would lead them into this that the sky

2163
01:43:48,409 --> 01:43:45,550

you know Cygnus or Ryan or whatever

2164

01:43:51,409 --> 01:43:48,419

they've now focused

2165

01:43:54,049 --> 01:43:51,419

primarily on the Sun and orientating

2166

01:43:56,000 --> 01:43:54,059

their structures towards that because

2167

01:43:58,279 --> 01:43:56,010

that's that's what they that was the

2168

01:44:00,290 --> 01:43:58,289

important thing to them now when we come

2169

01:44:03,169 --> 01:44:00,300

back after the break we're gonna talk

2170

01:44:05,120 --> 01:44:03,179

about Israel but before we get there one

2171

01:44:11,239 --> 01:44:05,130

last question about gobekli tepe

2172

01:44:12,979 --> 01:44:11,249

is why bury it well it was well because

2173

01:44:15,919 --> 01:44:12,989

they decommissioning that's what they're

2174

01:44:18,859 --> 01:44:15,929

doing you know that there are there have

2175

01:44:21,799 --> 01:44:18,869

been ideas put out there that Quebec

2176
01:44:23,509 --> 01:44:21,809
DTaP I was hurriedly buried at the end

2177
01:44:25,879 --> 01:44:23,519
of its life you know possibly because

2178
01:44:27,560 --> 01:44:25,889
another catastrophe was about to take

2179
01:44:30,560 --> 01:44:27,570
place there's no evidence of that

2180
01:44:31,969 --> 01:44:30,570
whatsoever absolutely none basically

2181
01:44:35,359 --> 01:44:31,979
what they were doing is they were

2182
01:44:38,989 --> 01:44:35,369
creating a layer cake of activity they

2183
01:44:40,819 --> 01:44:38,999
would build one enclosure let's say 100

2184
01:44:43,580 --> 01:44:40,829
years later or however long it was

2185
01:44:45,889 --> 01:44:43,590
though they would take away what stones

2186
01:44:49,310 --> 01:44:45,899
they needed smash a few of the ones that

2187
01:44:50,929 --> 01:44:49,320
remained I just cover it over like they

2188
01:44:55,219 --> 01:44:50,939

were killing it they were killing the

2189

01:44:57,080 --> 01:44:55,229

site probably be to stop spirit

2190

01:44:58,669 --> 01:44:57,090

influences coming through then they'd

2191

01:45:00,949 --> 01:44:58,679

build another one either on top of it on

2192

01:45:03,589 --> 01:45:00,959

the side of it and they gradually create

2193

01:45:06,589 --> 01:45:03,599

what we call go back it's a pie which is

2194

01:45:08,929 --> 01:45:06,599

this artificial mound and at the end of

2195

01:45:10,939 --> 01:45:08,939

it any remaining enclosures were just

2196

01:45:12,169 --> 01:45:10,949

covered over the people just walked away

2197

01:45:16,909 --> 01:45:12,179

that's what happened

2198

01:45:19,639 --> 01:45:16,919

well when when I hear this idea or what

2199

01:45:22,699 --> 01:45:19,649

freaks me out is that there may be

2200

01:45:26,509 --> 01:45:22,709

something underneath gobekli tepe that

2201
01:45:29,209 --> 01:45:26,519
is much older thousands of years older

2202
01:45:32,379 --> 01:45:29,219
then that's going to be pretty hard to

2203
01:45:35,509 --> 01:45:32,389
explain away it's one thing to develop

2204
01:45:38,479 --> 01:45:35,519
theories on and what we know about now

2205
01:45:41,209 --> 01:45:38,489
but if this is a layer cake and I've

2206
01:45:42,709 --> 01:45:41,219
heard this suggested many time then

2207
01:45:47,060 --> 01:45:42,719
we're dealing with something that is

2208
01:45:50,569 --> 01:45:47,070
quite possibly thousands of years older

2209
01:45:53,060 --> 01:45:50,579
and we are getting seriously into the

2210
01:45:56,750 --> 01:45:53,070
middle of the last ice age and the other

2211
01:45:59,389 --> 01:45:56,760
idea is that maybe maybe they were

2212
01:46:01,330 --> 01:45:59,399
preserving it for us because they

2213
01:46:05,050 --> 01:46:01,340

certainly

2214

01:46:08,590 --> 01:46:05,060

left it in the state that it was in at

2215

01:46:11,000 --> 01:46:08,600

9600 BC right there's there's so many

2216

01:46:12,890 --> 01:46:11,010

you know avenues you could take from

2217

01:46:15,050 --> 01:46:12,900

just what you've just said there I mean

2218

01:46:17,150 --> 01:46:15,060

I mean I've had conversations with

2219

01:46:20,480 --> 01:46:17,160

people like Graham Hancock on this and

2220

01:46:23,000 --> 01:46:20,490

you know his belief is that it was you

2221

01:46:25,760 --> 01:46:23,010

know covered over and preserved for us

2222

01:46:28,940 --> 01:46:25,770

to find mm-hmm quite literally and that

2223

01:46:30,770 --> 01:46:28,950

we would interpret symbolism we'd

2224

01:46:32,870 --> 01:46:30,780

realize that the symbolism related to

2225

01:46:35,270 --> 01:46:32,880

comets and impacts and we this would be

2226

01:46:39,200 --> 01:46:35,280

like a a warning and early warning for

2227

01:46:41,990 --> 01:46:39,210

us to look into this and watch out in

2228

01:46:44,300 --> 01:46:42,000

the skies right now if that's the case I

2229

01:46:47,600 --> 01:46:44,310

is this something that was consciously

2230

01:46:50,300 --> 01:46:47,610

done by the builders or was it an

2231

01:46:52,520 --> 01:46:50,310

intuitive thing I'd say it was more

2232

01:46:57,530 --> 01:46:52,530

intuitive than consciously done if that

2233

01:47:00,620 --> 01:46:57,540

were the case but as far as as as

2234

01:47:03,020 --> 01:47:00,630

whether that was real or not it brings

2235

01:47:04,880 --> 01:47:03,030

in the idea of entanglement the idea of

2236

01:47:07,370 --> 01:47:04,890

quantum entanglement the fact that

2237

01:47:11,000 --> 01:47:07,380

what's going on at Quebec the tepuy is

2238

01:47:12,560 --> 01:47:11,010

still going on to die because of the

2239

01:47:14,900 --> 01:47:12,570

concept of quantum entanglement

2240

01:47:15,920 --> 01:47:14,910

particles interlinked across space and

2241

01:47:19,220 --> 01:47:15,930

time

2242

01:47:20,900 --> 01:47:19,230

you know every particle all particles

2243

01:47:23,330 --> 01:47:20,910

you know those in my brain those in your

2244

01:47:26,000 --> 01:47:23,340

brains those in my future self's brain

2245

01:47:27,950 --> 01:47:26,010

those in my right you know me in the

2246

01:47:31,960 --> 01:47:27,960

past brain we're all interlinked we're

2247

01:47:35,620 --> 01:47:31,970

all a part of one huge network or matrix

2248

01:47:38,570 --> 01:47:35,630

that's all taking place at the same time

2249

01:47:41,300 --> 01:47:38,580

yeah I think that there is something to

2250

01:47:42,980 --> 01:47:41,310

that but whether the people at Quebec

2251

01:47:46,130 --> 01:47:42,990

Lee today we're doing that on purpose or

2252

01:47:47,390 --> 01:47:46,140

not I'm not sure maybe they did think

2253

01:47:49,490 --> 01:47:47,400

yeah we should leave some of these

2254

01:47:51,680 --> 01:47:49,500

stones for what's coming in the future I

2255

01:47:53,750 --> 01:47:51,690

don't know but certainly that's not a

2256

01:47:56,090 --> 01:47:53,760

part of archaeology and history

2257

01:48:00,680 --> 01:47:56,100

what's more important obviously is is

2258

01:48:03,200 --> 01:48:00,690

the legacy that the imagery tells us and

2259

01:48:05,120 --> 01:48:03,210

what else is going on there now I don't

2260

01:48:08,330 --> 01:48:05,130

personally believe that you're going to

2261

01:48:10,130 --> 01:48:08,340

find stuff going on there that thousands

2262

01:48:13,340 --> 01:48:10,140

of years earlier this was the idea that

2263

01:48:14,209 --> 01:48:13,350

Klaus Schmidt the German archaeologist

2264

01:48:16,220 --> 01:48:14,219

who on

2265

01:48:18,830 --> 01:48:16,230

at the site for the first time did

2266

01:48:21,500 --> 01:48:18,840

believe because there was a reason that

2267

01:48:23,270 --> 01:48:21,510

he believed that because well he said

2268

01:48:25,220 --> 01:48:23,280

was that the people that were here

2269

01:48:27,709 --> 01:48:25,230

couldn't possibly have just started

2270

01:48:30,670 --> 01:48:27,719

carving all this incredible stuff

2271

01:48:34,160 --> 01:48:30,680

without thousands of years of

2272

01:48:35,959 --> 01:48:34,170

experimentation and development leading

2273

01:48:38,330 --> 01:48:35,969

up to this that's the reason why he

2274

01:48:39,979 --> 01:48:38,340

suggested this and obviously certain of

2275

01:48:42,890 --> 01:48:39,989

my colleagues have run with this and

2276

01:48:46,040 --> 01:48:42,900

said yeah obviously we will find stuff

2277

01:48:49,100 --> 01:48:46,050

that thousands of years earlier but I

2278

01:48:51,560 --> 01:48:49,110

think that that earlier stuff is in

2279

01:48:53,930 --> 01:48:51,570

other sites I I would I can tell you

2280

01:48:57,260 --> 01:48:53,940

where it was almost certainly it was to

2281

01:49:00,020 --> 01:48:57,270

the north northwest of Gobekli Tepe in

2282

01:49:06,520 --> 01:49:00,030

the area of the huge mountain called

2283

01:49:08,959 --> 01:49:06,530

Nimrod are in the adder diam diam on

2284

01:49:11,750 --> 01:49:08,969

province which is just to the north of

2285

01:49:14,390 --> 01:49:11,760

Sandler for province because stuff goes

2286

01:49:19,040 --> 01:49:14,400

back there to about you know thirteen

2287

01:49:21,110 --> 01:49:19,050

fifteen thousand BC and I think that the

2288

01:49:23,600 --> 01:49:21,120

the people of Quebec eat a pie sore

2289

01:49:26,420 --> 01:49:23,610

there are media ancestors as having come

2290

01:49:29,540 --> 01:49:26,430

from that area and those people came

2291

01:49:32,120 --> 01:49:29,550

from the north in other words those that

2292

01:49:34,100 --> 01:49:32,130

built Gobekli Tepe I don't think would

2293

01:49:36,320 --> 01:49:34,110

do well not all of them at least we're

2294

01:49:37,760 --> 01:49:36,330

directly coming from you know the

2295

01:49:41,120 --> 01:49:37,770

Russian steppe I think that they were

2296

01:49:43,520 --> 01:49:41,130

doing it in stages and that the

2297

01:49:46,550 --> 01:49:43,530

immediate precursor to Quebec attempt a

2298

01:49:48,950 --> 01:49:46,560

were coming in from another location

2299

01:49:50,900 --> 01:49:48,960

now also we've got to remember that not

2300

01:49:52,870 --> 01:49:50,910

that far away from Quebec except I are

2301

01:49:56,660 --> 01:49:52,880

all these underground cities in

2302

01:49:58,189 --> 01:49:56,670

Cappadocia which I've investigated you

2303

01:50:01,220 --> 01:49:58,199

know since my book from the ashes of

2304

01:50:02,959 --> 01:50:01,230

angel so you know I was out there and I

2305

01:50:05,360 --> 01:50:02,969

found evidence that they go back to

2306

01:50:07,610 --> 01:50:05,370

paralytic times in other words at the

2307

01:50:09,290 --> 01:50:07,620

end of the last ice age so there's a

2308

01:50:11,540 --> 01:50:09,300

good chance that some of the people that

2309

01:50:15,229 --> 01:50:11,550

that went on to influence Quebec attempt

2310

01:50:18,500 --> 01:50:15,239

I heard earlier being involved with the

2311

01:50:20,959 --> 01:50:18,510

construction of the the first phases of

2312

01:50:23,540 --> 01:50:20,969

those underground cities I think that

2313

01:50:25,490 --> 01:50:23,550

that's also quite possible as well so

2314

01:50:27,290 --> 01:50:25,500

you know it's not as easy just to say

2315

01:50:28,010 --> 01:50:27,300

that there were people turned up at

2316

01:50:29,930 --> 01:50:28,020

Quebec

2317

01:50:33,020 --> 01:50:29,940

and said look gather around everybody

2318

01:50:35,030 --> 01:50:33,030

let's let's make the stone enclosures it

2319

01:50:37,160 --> 01:50:35,040

doesn't happen like that I mean this is

2320

01:50:39,770 --> 01:50:37,170

clearly something that's gone on over a

2321

01:50:42,710 --> 01:50:39,780

number of generations that's ended up

2322

01:50:45,860 --> 01:50:42,720

with what we see there but what I do

2323

01:50:48,650 --> 01:50:45,870

know what I do feel is that the

2324

01:50:49,970 --> 01:50:48,660

technology involved with it did come in

2325

01:50:51,770 --> 01:50:49,980

from the north

2326

01:50:54,710 --> 01:50:51,780

not just Armenia and not just the

2327

01:50:58,220 --> 01:50:54,720

Caucasus but beyond it onto the Russian

2328

01:51:00,710 --> 01:50:58,230

steppe and then much further eastwards

2329

01:51:03,320 --> 01:51:00,720

into the Urals where we're beginning to

2330

01:51:06,800 --> 01:51:03,330

find evidence of coat structures there

2331

01:51:09,260 --> 01:51:06,810

with similarities to go back to PI let's

2332

01:51:11,420 --> 01:51:09,270

take our last break right here when we

2333

01:51:14,930 --> 01:51:11,430

come back we're gonna we're gonna head

2334

01:51:16,730 --> 01:51:14,940

west southwest down into Israel this is

2335

01:51:21,140 --> 01:51:16,740

fade to black our guest tonight Andrew

2336

01:51:23,840 --> 01:51:21,150

Collins Vanessa van origins is the book

2337

01:51:26,600 --> 01:51:23,850

it's an incredible read and once again

2338

01:51:29,180 --> 01:51:26,610

the links are over at Jimmy Turks radio

2339

01:51:43,130 --> 01:51:29,190

com I'll be right back after this short

2340

01:51:51,560 --> 01:51:45,900

welcome back pain to black an amazing

2341

01:51:58,590 --> 01:51:56,130

incredible conversation and now we're

2342

01:52:03,150 --> 01:51:58,600

gonna switch gears a little bit and and

2343

01:52:06,320 --> 01:52:03,160

jump over to the Kesem cave which is a

2344

01:52:10,860 --> 01:52:06,330

lower Paleolithic archaeological site

2345

01:52:13,470 --> 01:52:10,870

just east of Tel Aviv and Andrew what's

2346

01:52:15,360 --> 01:52:13,480

going on there well if this was

2347

01:52:17,760 --> 01:52:15,370

something that was on my radar you know

2348

01:52:19,140 --> 01:52:17,770

a few years ago because I was beginning

2349

01:52:21,960 --> 01:52:19,150

to realize that something really

2350

01:52:25,170 --> 01:52:21,970

important was going on there or had been

2351
01:52:31,050 --> 01:52:25,180
as early as 400 hundred thousand years

2352
01:52:33,990 --> 01:52:31,060
ago but it was brought back into my you

2353
01:52:36,540 --> 01:52:34,000
know my focus of attention just a couple

2354
01:52:39,870 --> 01:52:36,550
of months ago when it was revealed that

2355
01:52:41,910 --> 01:52:39,880
the earliest evidence of shamanism in

2356
01:52:46,260 --> 01:52:41,920
the world has just been found there in

2357
01:52:47,910 --> 01:52:46,270
the form of this Swann wing bong now

2358
01:52:49,800 --> 01:52:47,920
swans have been something that has been

2359
01:52:52,220 --> 01:52:49,810
very close to my heart since write in

2360
01:52:54,780 --> 01:52:52,230
the book the Cygnus mystery since in

2361
01:52:56,820 --> 01:52:54,790
2006 because obviously that's the main

2362
01:52:59,970 --> 01:52:56,830
symbol of all these stars in the sky

2363
01:53:03,270 --> 01:52:59,980

that we now see in terms of a cosmic

2364

01:53:04,830 --> 01:53:03,280

bird identified as a swan obviously in

2365

01:53:08,850 --> 01:53:04,840

other parts of the world as out as other

2366

01:53:10,950 --> 01:53:08,860

birds and here is evidence of of you

2367

01:53:12,690 --> 01:53:10,960

know Swan shamanism going on four

2368

01:53:14,760 --> 01:53:12,700

hundred thousand years ago you think

2369

01:53:18,540 --> 01:53:14,770

what the hell is going on here right so

2370

01:53:20,190 --> 01:53:18,550

I started to look into it further and at

2371

01:53:22,410 --> 01:53:20,200

the very end of what's known as the

2372

01:53:24,690 --> 01:53:22,420

lower pleistocene I'd at the beginning of

2373

01:53:28,880 --> 01:53:24,700

the the middle Paleolithic when it's a

2374

01:53:31,470 --> 01:53:28,890

sort of transformation in the style of

2375

01:53:34,740 --> 01:53:31,480

technology particularly to do with stone

2376
01:53:36,900 --> 01:53:34,750
coming into the Neolithic Age base not

2377
01:53:39,360 --> 01:53:36,910
nearly thicker than the Anderton I is

2378
01:53:43,380 --> 01:53:39,370
that there were incredible innovations

2379
01:53:45,810 --> 01:53:43,390
going on in this cave including a type

2380
01:53:48,360 --> 01:53:45,820
of static technology that doesn't

2381
01:53:50,070 --> 01:53:48,370
reappear until the time of the

2382
01:53:53,670 --> 01:53:50,080
Denisovans in the darkness of a cave

2383
01:53:56,459 --> 01:53:53,680
this blade tool technology plus they

2384
01:54:01,689 --> 01:54:00,729
though they were recycling stone in a

2385
01:54:04,689 --> 01:54:01,699
way which had never been done before

2386
01:54:08,140 --> 01:54:04,699
they created the first canned food in

2387
01:54:10,270 --> 01:54:08,150
the form of of fallow deer bones with

2388
01:54:12,459 --> 01:54:10,280

the marrow in which they would wrap up

2389

01:54:14,410 --> 01:54:12,469

and keep for periods of time you have

2390

01:54:15,669 --> 01:54:14,420

several weeks probably a few months so

2391

01:54:19,260 --> 01:54:15,679

they could just break it out when they

2392

01:54:22,299 --> 01:54:19,270

wanted the first canned food they also

2393

01:54:25,680 --> 01:54:22,309

created the first fire house you know

2394

01:54:30,520 --> 01:54:25,690

cut into the ground and they were using

2395

01:54:33,819 --> 01:54:30,530

what amounts to you know polyhedrons and

2396

01:54:35,020 --> 01:54:33,829

steroids steroids that look like sort of

2397

01:54:37,780 --> 01:54:35,030

Stone Age

2398

01:54:43,620 --> 01:54:37,790

you know crystal balls basically made of

2399

01:54:45,930 --> 01:54:43,630

Flint and also of hard limestone and the

2400

01:54:49,839 --> 01:54:45,940

archaeologists at working on this site

2401

01:54:53,129 --> 01:54:49,849

believed that these people were into

2402

01:54:55,510 --> 01:54:53,139

what we'd now see as cosmology and other

2403

01:54:57,850 --> 01:54:55,520

innovations through shamanism and

2404

01:55:00,160 --> 01:54:57,860

altered states of consciousness and I'm

2405

01:55:02,080 --> 01:55:00,170

reading all this thinking who the hell

2406

01:55:06,370 --> 01:55:02,090

were these people and I mean what what's

2407

01:55:09,459 --> 01:55:06,380

so unique and and then I read that they

2408

01:55:11,890 --> 01:55:09,469

found human teeth in this cave going

2409

01:55:14,200 --> 01:55:11,900

back 400 thousand years that are very

2410

01:55:18,609 --> 01:55:14,210

similar to our own now bearing in mind

2411

01:55:21,490 --> 01:55:18,619

that up until recently it was believed

2412

01:55:24,280 --> 01:55:21,500

that the earliest human beings you know

2413

01:55:28,510 --> 01:55:24,290

our own ancestors Homo sapiens only go

2414

01:55:32,410 --> 01:55:28,520

back to 2,000 years ago and they noticed

2415

01:55:34,540 --> 01:55:32,420

at the farthest yeah but these guys were

2416

01:55:36,040 --> 01:55:34,550

doing all this stuff in this case four

2417

01:55:38,680 --> 01:55:36,050

hundred thousand years ago so who the

2418

01:55:41,410 --> 01:55:38,690

hell were they well I put my head to

2419

01:55:43,959 --> 01:55:41,420

this a few weeks ago and just started to

2420

01:55:46,720 --> 01:55:43,969

draw these sort of like human family

2421

01:55:48,459 --> 01:55:46,730

trees and trying that there we know that

2422

01:55:50,049 --> 01:55:48,469

they're not Homo erectus who were the

2423

01:55:53,080 --> 01:55:50,059

people kicking around up to that point

2424

01:55:56,080 --> 01:55:53,090

and who who created these these

2425

01:55:58,780 --> 01:55:56,090

beautiful stone axes known as the

2426

01:56:00,280 --> 01:55:58,790

chilean axis which you know we're

2427

01:56:03,819 --> 01:56:00,290

absolutely beautiful but they produced

2428

01:56:06,100 --> 01:56:03,829

almost without change for it for a

2429

01:56:08,580 --> 01:56:06,110

million years and suddenly something

2430

01:56:10,820 --> 01:56:08,590

different was going on in Israel and

2431

01:56:14,750 --> 01:56:10,830

then I worked in air

2432

01:56:18,510 --> 01:56:14,760

because the Denisovans who end up in

2433

01:56:20,160 --> 01:56:18,520

Siberia and Mongolia within these

2434

01:56:23,430 --> 01:56:20,170

incredible innovations that we've been

2435

01:56:26,550 --> 01:56:23,440

talking about start their journey moving

2436

01:56:28,879 --> 01:56:26,560

through the the Levant or the Levantine

2437

01:56:33,479 --> 01:56:28,889

corridor that includes what is today

2438

01:56:36,180 --> 01:56:33,489

Israel about 400 to 450 thousand years

2439

01:56:40,320 --> 01:56:36,190

ago and I started to think oh my god

2440

01:56:42,570 --> 01:56:40,330

these that could these possibly be the

2441

01:56:45,030 --> 01:56:42,580

foundation point of the Denisovans

2442

01:56:48,060 --> 01:56:45,040

himself so I started to look into this

2443

01:56:50,280 --> 01:56:48,070

and what's so interesting is that the

2444

01:56:53,370 --> 01:56:50,290

Denisovans that move north and end up in

2445

01:56:57,510 --> 01:56:53,380

the areas of Siberia Mongolia Tibet and

2446

01:57:00,629 --> 01:56:57,520

China are different more evolved than

2447

01:57:03,359 --> 01:57:00,639

the Denisovans that end up going into

2448

01:57:06,959 --> 01:57:03,369

Southeast Asia and Papua New Guinea and

2449

01:57:09,479 --> 01:57:06,969

Australia they're their DNA their genome

2450

01:57:11,160 --> 01:57:09,489

is slightly different it's more advanced

2451

01:57:14,160 --> 01:57:11,170

in the north not so advanced in the

2452

01:57:16,169 --> 01:57:14,170

south well if the people from the that

2453

01:57:20,040 --> 01:57:16,179

end up in in the southern territories

2454

01:57:22,530 --> 01:57:20,050

missed out on the Levant completely

2455

01:57:25,530 --> 01:57:22,540

maybe they missed out on whatever was

2456

01:57:28,979 --> 01:57:25,540

going on in the area of Israel perhaps

2457

01:57:30,479 --> 01:57:28,989

some kind of interbreeding with some you

2458

01:57:32,760 --> 01:57:30,489

know local people that were there maybe

2459

01:57:34,560 --> 01:57:32,770

our own precursors what they call what

2460

01:57:38,310 --> 01:57:34,570

they're called non dispersal modern

2461

01:57:40,399 --> 01:57:38,320

humans and this is what created the

2462

01:57:42,990 --> 01:57:40,409

Denisovans that had all of this

2463

01:57:46,200 --> 01:57:43,000

innovations and what's so interesting is

2464

01:57:48,840 --> 01:57:46,210

in the area of Siberia and Mongolia you

2465

01:57:52,919 --> 01:57:48,850

have what's known as Swan ancestry the

2466

01:57:56,490 --> 01:57:52,929

belief from so many tribes and clans

2467

01:58:00,330 --> 01:57:56,500

that they are descended from a woman who

2468

01:58:03,000 --> 01:58:00,340

was a Swan maiden who came from the sky

2469

01:58:06,629 --> 01:58:03,010

from some kind of you know bird land or

2470

01:58:10,040 --> 01:58:06,639

something that was forced to marry a

2471

01:58:13,740 --> 01:58:10,050

mortal hunter and that their offspring

2472

01:58:16,050 --> 01:58:13,750

was you know it was the foundation point

2473

01:58:17,760 --> 01:58:16,060

of the tribes and clans so in other

2474

01:58:22,530 --> 01:58:17,770

words they saw their descent from this

2475

01:58:23,640 --> 01:58:22,540

jeanna tricks who was I woman who was

2476

01:58:27,450 --> 01:58:23,650

you know

2477

01:58:29,910 --> 01:58:27,460

quite literally a swan and the earliest

2478

01:58:31,890 --> 01:58:29,920

evidence of Swan shamanism outside of

2479

01:58:34,890 --> 01:58:31,900

Israel comes from Siberia from a place

2480

01:58:37,320 --> 01:58:34,900

called Malta near like Bach ow the very

2481

01:58:40,530 --> 01:58:37,330

areas where we now know that the

2482

01:58:43,110 --> 01:58:40,540

Denisovans first make contact with our

2483

01:58:45,270 --> 01:58:43,120

own ancestors and handed on their

2484

01:58:47,729 --> 01:58:45,280

technologies and culture traditions and

2485

01:58:49,709 --> 01:58:47,739

cosmology or most certainly involving

2486

01:58:52,439 --> 01:58:49,719

the Swan this is what I said in my book

2487

01:58:55,050 --> 01:58:52,449

the Cygnus key it said it's being said

2488

01:58:57,149 --> 01:58:55,060

again in the nest of an origins and I'm

2489

01:59:00,689 --> 01:58:57,159

now beginning to realize that all of

2490

01:59:03,360 --> 01:59:00,699

these ideas came from the area of what

2491

01:59:05,459 --> 01:59:03,370

is today Israel as much as 400,000 years

2492

01:59:08,100 --> 01:59:05,469

ago I'm now in touch with the

2493

01:59:12,120 --> 01:59:08,110

archaeologists working on the site I

2494

01:59:14,729 --> 01:59:12,130

hope to visit Israel very soon to go

2495

01:59:17,850 --> 01:59:14,739

over everything with them and what we've

2496

01:59:19,740 --> 01:59:17,860

now got are the genesis points not only

2497

01:59:23,880 --> 01:59:19,750

of the Neolithic at Quebec litter pie

2498

01:59:26,459 --> 01:59:23,890

around 9600 but we also have the genesis

2499

01:59:28,590 --> 01:59:26,469

point of the so-called Upper Paleolithic

2500

01:59:32,280 --> 01:59:28,600

forty five thousand years ago which

2501
01:59:37,200 --> 01:59:32,290
ashes in our own modern human age you

2502
01:59:40,350 --> 01:59:37,210
know places like the Mongolia the Dennis

2503
01:59:43,890 --> 01:59:40,360
of a cave etc but we now have the

2504
01:59:47,010 --> 01:59:43,900
genesis point of the Denisovans four

2505
01:59:49,290 --> 01:59:47,020
hundred thousand years ago in Israel at

2506
01:59:51,660 --> 01:59:49,300
places like the chasm cave that's a

2507
01:59:53,550 --> 01:59:51,670
ridiculous number you know that four

2508
01:59:58,500 --> 01:59:53,560
hundred thousand years it's a ridiculous

2509
02:00:00,600 --> 01:59:58,510
number what what I remember this is I'm

2510
02:00:02,459 --> 02:00:00,610
so glad we're talking about this when I

2511
02:00:05,090 --> 02:00:02,469
first read about the chasm caves

2512
02:00:07,500 --> 02:00:05,100
I remember hearing these crazy

2513
02:00:11,669 --> 02:00:07,510

statements right that was four hundred

2514

02:00:12,930 --> 02:00:11,679

possibly even older occupied you know

2515

02:00:19,439 --> 02:00:12,940

four hundred thousand years ago that

2516

02:00:23,130 --> 02:00:19,449

that high technology such as fire the

2517

02:00:27,840 --> 02:00:23,140

cooking of fire it said they've had a

2518

02:00:30,630 --> 02:00:27,850

hearth the domestication of animals that

2519

02:00:33,629 --> 02:00:30,640

they were cooking yeah they were cooking

2520

02:00:34,790 --> 02:00:33,639

animals and that's just a crazy thought

2521

02:00:37,100 --> 02:00:34,800

no

2522

02:00:41,810 --> 02:00:37,110

my next my next question is though what

2523

02:00:43,880 --> 02:00:41,820

about DNA well the problem is is that

2524

02:00:45,790 --> 02:00:43,890

once you get back to that age it is so

2525

02:00:48,230 --> 02:00:45,800

difficult to get even

2526
02:00:51,650 --> 02:00:48,240
mitochondrial DNA out of any human

2527
02:00:56,750 --> 02:00:51,660
remains so as far as I'm aware none has

2528
02:00:58,820 --> 02:00:56,760
actually been achieved so we don't know

2529
02:01:01,760 --> 02:00:58,830
who they were all we know is that the

2530
02:01:05,360 --> 02:01:01,770
earliest people that were there looked

2531
02:01:08,630 --> 02:01:05,370
similar to us now are you suggesting

2532
02:01:12,290 --> 02:01:08,640
what wait let's let's let's not are we

2533
02:01:16,010 --> 02:01:12,300
suggesting homo sapien sapien yes but

2534
02:01:17,960 --> 02:01:16,020
remember but but that this is before we

2535
02:01:20,390 --> 02:01:17,970
in theory we could exist

2536
02:01:22,670 --> 02:01:20,400
that's row what I'm proposing and I've

2537
02:01:25,250 --> 02:01:22,680
already written two articles about this

2538
02:01:28,220 --> 02:01:25,260

about the chasm cave one of which goes

2539

02:01:32,240 --> 02:01:28,230

into all of these possibilities this is

2540

02:01:34,910 --> 02:01:32,250

on ancient origins website is that what

2541

02:01:37,070 --> 02:01:34,920

I think is going on here is the genesis

2542

02:01:40,370 --> 02:01:37,080

of the Denisovans and I think that you

2543

02:01:44,330 --> 02:01:40,380

probably got some kind of admixture

2544

02:01:46,580 --> 02:01:44,340

between let's say proto Denisovans

2545

02:01:48,380 --> 02:01:46,590

coming out of africa at this time and

2546

02:01:52,580 --> 02:01:48,390

something else that's going on there who

2547

02:01:54,530 --> 02:01:52,590

are probably our own ancestors and I

2548

02:02:01,010 --> 02:01:54,540

think that the two got together

2549

02:02:02,600 --> 02:02:01,020

interbred created this hybrid and they

2550

02:02:04,940 --> 02:02:02,610

were the ones that were creating all of

2551

02:02:06,800 --> 02:02:04,950

this innovation at the very end of the

2552

02:02:09,050 --> 02:02:06,810

lower politically read and the very

2553

02:02:11,600 --> 02:02:09,060

beginning of the so-called middle

2554

02:02:14,570 --> 02:02:11,610

Paleolithic period and that somehow

2555

02:02:15,320 --> 02:02:14,580

there was this spurt of activity very

2556

02:02:18,530 --> 02:02:15,330

quickly

2557

02:02:20,890 --> 02:02:18,540

these are advancements which was enough

2558

02:02:24,590 --> 02:02:20,900

to virtually create a whole population

2559

02:02:27,590 --> 02:02:24,600

that then begins to move through

2560

02:02:31,520 --> 02:02:27,600

Southwest Asia into Central Asia and

2561

02:02:33,260 --> 02:02:31,530

ends up in Siberia of Mongolia and I'm

2562

02:02:36,110 --> 02:02:33,270

going to be writing about this in the

2563

02:02:37,850 --> 02:02:36,120

next book which I almost certainly will

2564

02:02:39,230 --> 02:02:37,860

be working with Gregg again on we're

2565

02:02:41,180 --> 02:02:39,240

going to yeah we will work as a good

2566

02:02:43,790 --> 02:02:41,190

team and I think that you know we can do

2567

02:02:45,500 --> 02:02:43,800

something great here but what I'm going

2568

02:02:47,880 --> 02:02:45,510

to be writing about is not so much just

2569

02:02:51,360 --> 02:02:47,890

the history of this and

2570

02:02:53,660 --> 02:02:51,370

fact that it occurred but why you know I

2571

02:02:58,100 --> 02:02:53,670

mean this is not simply a case of

2572

02:03:00,630 --> 02:02:58,110

genetics or you know environment or food

2573

02:03:03,720 --> 02:03:00,640

these people could have been in touch

2574

02:03:06,930 --> 02:03:03,730

with something and the archaeologists

2575

02:03:10,250 --> 02:03:06,940

himself are open to the ideas of altered

2576

02:03:14,310 --> 02:03:10,260

states of consciousness primitive

2577

02:03:16,920 --> 02:03:14,320

cosmologies and if that's the case then

2578

02:03:19,230 --> 02:03:16,930

is it possible that they believed that

2579

02:03:21,390 --> 02:03:19,240

they were in touch with some kind of

2580

02:03:25,380 --> 02:03:21,400

individualized or collective

2581

02:03:30,390 --> 02:03:25,390

intelligence that was providing them

2582

02:03:34,080 --> 02:03:30,400

with the the inspiration to push forward

2583

02:03:35,840 --> 02:03:34,090

and to create new innovations and if

2584

02:03:40,620 --> 02:03:35,850

that's case is this something that

2585

02:03:44,010 --> 02:03:40,630

kick-starts different stages in human

2586

02:03:47,010 --> 02:03:44,020

evolution beginning a places like chasm

2587

02:03:49,040 --> 02:03:47,020

but also then continuing on places like

2588

02:03:51,240 --> 02:03:49,050

the dennis of a cave in Siberia

2589

02:03:53,820 --> 02:03:51,250

continuing through there to places like

2590

02:03:55,590 --> 02:03:53,830

Quebec to tap a you know and right the

2591

02:03:58,440 --> 02:03:55,600

way through obviously to the foundation

2592

02:04:00,960 --> 02:03:58,450

of monotheistic religions in Israel of

2593

02:04:03,390 --> 02:04:00,970

course in the same area it's right there

2594

02:04:08,160 --> 02:04:03,400

it's just it's right next to Tel Aviv

2595

02:04:10,980 --> 02:04:08,170

and right next to the very oldest holy

2596

02:04:14,100 --> 02:04:10,990

mountains of Israel Mount Gerizim

2597

02:04:16,170 --> 02:04:14,110

and Mount Ebal and I find this

2598

02:04:17,820 --> 02:04:16,180

intriguing and I mean I have to be

2599

02:04:20,490 --> 02:04:17,830

careful to keep it real though obviously

2600

02:04:23,220 --> 02:04:20,500

yeah you have to but there's there's

2601
02:04:27,110 --> 02:04:23,230
there's one other point that really

2602
02:04:29,940 --> 02:04:27,120
needs to be made and it is this

2603
02:04:32,610 --> 02:04:29,950
archaeologists will get really excited

2604
02:04:35,970 --> 02:04:32,620
when they find you know mammoth bones

2605
02:04:37,830 --> 02:04:35,980
with Flint marks on it suggesting you

2606
02:04:42,510 --> 02:04:37,840
know some interaction between early

2607
02:04:44,760 --> 02:04:42,520
humans and in animals at 50,000 years

2608
02:04:47,640 --> 02:04:44,770
ago or 30,000 years ago right and they

2609
02:04:51,270 --> 02:04:47,650
get excited you you rock this back to

2610
02:04:53,880 --> 02:04:51,280
four hundred thousand years ago we're in

2611
02:04:57,450 --> 02:04:53,890
Kesem where they've got the knives and

2612
02:05:01,070 --> 02:04:57,460
blades and and flint and and hammer

2613
02:05:05,270 --> 02:05:01,080

stones and tools and hearths and fire

2614

02:05:07,550 --> 02:05:05,280

and you're missing that the important

2615

02:05:10,130 --> 02:05:07,560

point here is this is the birth of

2616

02:05:13,640 --> 02:05:10,140

shamanism right this is where it all

2617

02:05:16,130 --> 02:05:13,650

begins right right you know and they

2618

02:05:18,650 --> 02:05:16,140

were almost certainly using swan bones

2619

02:05:22,010 --> 02:05:18,660

to connect with with that particular

2620

02:05:25,400 --> 02:05:22,020

bird they possibly would have been

2621

02:05:28,310 --> 02:05:25,410

adorning themselves in garments of swamp

2622

02:05:32,270 --> 02:05:28,320

swamp feathers and they would have been

2623

02:05:34,460 --> 02:05:32,280

taking the form of a swan to project

2624

02:05:36,380 --> 02:05:34,470

their mind to wherever they were going I

2625

02:05:38,380 --> 02:05:36,390

mean obviously it's so difficult to try

2626
02:05:40,850 --> 02:05:38,390
and get into the minds of these people

2627
02:05:41,840 --> 02:05:40,860
400,000 years ago but that's where I

2628
02:05:44,120 --> 02:05:41,850
want to go next

2629
02:05:47,210 --> 02:05:44,130
that's exactly where I want to go when

2630
02:05:50,090 --> 02:05:47,220
we there's something that I've always

2631
02:05:52,580 --> 02:05:50,100
found really interesting and and it's

2632
02:05:56,600 --> 02:05:52,590
this when we're talking about something

2633
02:05:59,080 --> 02:05:56,610
like gobekli tepe right which is is so

2634
02:06:02,690 --> 02:05:59,090
old it's hard to wrap our mind around

2635
02:06:09,920 --> 02:06:02,700
but we're still only talking about 9600

2636
02:06:13,730 --> 02:06:09,930
BC yeah was there a language was there a

2637
02:06:18,010 --> 02:06:13,740
spoken language at 9600 BC and as we

2638
02:06:20,600 --> 02:06:18,020

rock this thing back to not only

2639

02:06:25,370 --> 02:06:20,610

different cultures but when we start

2640

02:06:28,100 --> 02:06:25,380

going back to shamans at 400,000 BC were

2641

02:06:30,080 --> 02:06:28,110

these shamans grunting or do you think

2642

02:06:33,410 --> 02:06:30,090

that there was a language was there a

2643

02:06:34,310 --> 02:06:33,420

spoken language echo Beckley Tepe yes

2644

02:06:38,900 --> 02:06:34,320

there was

2645

02:06:42,530 --> 02:06:38,910

yeah and the chances are that it was or

2646

02:06:44,990 --> 02:06:42,540

take in origin what I mean by that that

2647

02:06:47,120 --> 02:06:45,000

it comes from a series of root languages

2648

02:06:51,170 --> 02:06:47,130

that are all surrounding the area of the

2649

02:06:54,520 --> 02:06:51,180

Altai mountains of southern Siberia and

2650

02:06:58,880 --> 02:06:54,530

Mongolia and those root languages are

2651
02:06:59,530 --> 02:06:58,890
Mongolian Turkic and what's the third

2652
02:07:04,060 --> 02:06:59,540
one

2653
02:07:07,070 --> 02:07:04,070
Tunguska Tonka's Tunguska Turkic and

2654
02:07:08,780 --> 02:07:07,080
Mongolian those are the three languages

2655
02:07:11,750 --> 02:07:08,790
of which there are elements in common

2656
02:07:14,390 --> 02:07:11,760
with them all which they refer to as

2657
02:07:17,330 --> 02:07:14,400
prototype or just or take

2658
02:07:21,290 --> 02:07:17,340
and you have those same elements in the

2659
02:07:23,840 --> 02:07:21,300
earliest language in that same region as

2660
02:07:27,650 --> 02:07:23,850
Gobekli Tepe which is samarium you know

2661
02:07:29,870 --> 02:07:27,660
you can find many academic papers that

2662
02:07:33,380 --> 02:07:29,880
show the similarities between Sumerian

2663
02:07:36,080 --> 02:07:33,390

and ultimately based languages again I

2664

02:07:37,490 --> 02:07:36,090

talked about this in the garden is it

2665

02:07:40,480 --> 02:07:37,500

the current book I certainly talk about

2666

02:07:46,280 --> 02:07:40,490

in Cygnus click a thickness K yeah

2667

02:07:49,100 --> 02:07:46,290

and so this there's no doubt that what

2668

02:07:51,230 --> 02:07:49,110

was being spoken in my opinion in around

2669

02:07:53,270 --> 02:07:51,240

Quebec except I was a language that

2670

02:07:56,720 --> 02:07:53,280

originally came from as far east as

2671

02:08:00,130 --> 02:07:56,730

Siberia clearly you know it had gone

2672

02:08:02,930 --> 02:08:00,140

through many different changes and

2673

02:08:05,390 --> 02:08:02,940

evolved and whatever but that was one of

2674

02:08:08,270 --> 02:08:05,400

the route points of it but going back

2675

02:08:10,160 --> 02:08:08,280

even further did the Denisovans have a

2676

02:08:12,170 --> 02:08:10,170

language yes I think they did I think

2677

02:08:16,160 --> 02:08:12,180

that they probably spoke this'll take

2678

02:08:19,700 --> 02:08:16,170

language and what's so weird is the that

2679

02:08:22,640 --> 02:08:19,710

in the what was the the alien film about

2680

02:08:27,260 --> 02:08:22,650

the origins of the whole thing and the

2681

02:08:29,570 --> 02:08:27,270

engineers previous yeah previous write

2682

02:08:31,790 --> 02:08:29,580

the language what's so interesting is

2683

02:08:34,480 --> 02:08:31,800

that the language that they had the

2684

02:08:36,650 --> 02:08:34,490

engineer speak was all tagged as the

2685

02:08:38,960 --> 02:08:36,660

proto language and they deliberately

2686

02:08:41,180 --> 02:08:38,970

chose that which F I'm very very

2687

02:08:42,440 --> 02:08:41,190

interesting you know that these huge

2688

02:08:44,870 --> 02:08:42,450

figures by the way what we haven't

2689

02:08:49,790 --> 02:08:44,880

mentioned is that there is a very good

2690

02:08:51,560 --> 02:08:49,800

chance that some or indeed many of the

2691

02:08:54,680 --> 02:08:51,570

Denisovans were of incredible size

2692

02:08:57,830 --> 02:08:54,690

perhaps even up to seven to seven and a

2693

02:09:00,320 --> 02:08:57,840

half eight in height and that they were

2694

02:09:02,060 --> 02:09:00,330

probably built like wrestlers of to die

2695

02:09:11,110 --> 02:09:02,070

you know like the largest wrestlers to

2696

02:09:14,050 --> 02:09:11,120

die where does that where do where these

2697

02:09:18,280 --> 02:09:14,060

bones where have they been discovered

2698

02:09:22,310 --> 02:09:18,290

well we only have two sites where

2699

02:09:24,650 --> 02:09:22,320

absolutely confirmed the new seven bones

2700

02:09:28,120 --> 02:09:24,660

have been found one is the thinnest of a

2701

02:09:30,910 --> 02:09:28,130

cave where you have three molars two of

2702

02:09:34,300 --> 02:09:30,920

sure of enormous size have been found

2703

02:09:38,979 --> 02:09:34,310

plus others you know smaller bones and

2704

02:09:41,290 --> 02:09:38,989

eye jawbone that was actually recovered

2705

02:09:46,720 --> 02:09:41,300

as early as 1980 but only recently

2706

02:09:49,570 --> 02:09:46,730

identified the in the Tibetan Plateau a

2707

02:09:51,120 --> 02:09:49,580

cave there in right on the edge of

2708

02:09:54,700 --> 02:09:51,130

Tibetan Plateau in what is today

2709

02:09:56,379 --> 02:09:54,710

northwest China and that's confirmed now

2710

02:09:59,110 --> 02:09:56,389

to be dennis van it's hundred and sixty

2711

02:10:02,890 --> 02:09:59,120

thousand years old but the fact that

2712

02:10:05,200 --> 02:10:02,900

that is confirmed means that other jaw

2713

02:10:08,169 --> 02:10:05,210

bones that we found in other areas like

2714

02:10:11,979 --> 02:10:08,179

for instance one found off the coast of

2715

02:10:16,330 --> 02:10:11,989

Taiwan the so-called pen Penghu jawbone

2716

02:10:18,010 --> 02:10:16,340

is so similar to the tibetan one that

2717

02:10:20,260 --> 02:10:18,020

it's almost certainly Denisovan and and

2718

02:10:23,680 --> 02:10:20,270

then you start making links with with so

2719

02:10:25,570 --> 02:10:23,690

many other items that have been found at

2720

02:10:30,419 --> 02:10:25,580

different sites particularly in eastern

2721

02:10:33,820 --> 02:10:30,429

asia so you know you can begin to to

2722

02:10:35,229 --> 02:10:33,830

create a jigsaw out of all of these and

2723

02:10:39,840 --> 02:10:35,239

say that the incidents were over the

2724

02:10:42,459 --> 02:10:39,850

place but what we can say is that these

2725

02:10:45,700 --> 02:10:42,469

items that we found so far all of them

2726
02:10:48,629 --> 02:10:45,710
are of exceptional size and this is not

2727
02:10:51,610 --> 02:10:48,639
me saying this this is the paleo

2728
02:10:54,280 --> 02:10:51,620
geneticists that have been working with

2729
02:10:57,129 --> 02:10:54,290
these bones and these teeth are coming

2730
02:10:59,169 --> 02:10:57,139
out and saying this you know so the

2731
02:11:01,750 --> 02:10:59,179
chances are that the listeners are going

2732
02:11:04,540 --> 02:11:01,760
to be found to be big big guys no

2733
02:11:07,270 --> 02:11:04,550
question at all they are not gonna be

2734
02:11:09,879 --> 02:11:07,280
you know tiny hobbits like you know the

2735
02:11:12,570 --> 02:11:09,889
that the guys that were found on Flores

2736
02:11:16,149 --> 02:11:12,580
in in the the island of Indonesia

2737
02:11:17,770 --> 02:11:16,159
relatively recently they're going to be

2738
02:11:19,510 --> 02:11:17,780

big they're going to be the Giants of

2739

02:11:22,720 --> 02:11:19,520

legend no question about yeah they're

2740

02:11:24,370 --> 02:11:22,730

not going to be hobbits no but but go

2741

02:11:27,490 --> 02:11:24,380

back to your final question if I may

2742

02:11:30,669 --> 02:11:27,500

about the people of Quezon would they

2743

02:11:33,610 --> 02:11:30,679

have had a language I don't think so no

2744

02:11:35,950 --> 02:11:33,620

I think that there they would have been

2745

02:11:37,990 --> 02:11:35,960

so much more sensitive to the

2746

02:11:40,120 --> 02:11:38,000

environment than we would have been they

2747

02:11:42,160 --> 02:11:40,130

would have had better sight better

2748

02:11:44,229 --> 02:11:42,170

hearing

2749

02:11:46,209 --> 02:11:44,239

their language would have been more

2750

02:11:47,560 --> 02:11:46,219

intuitive in the sense of yeah they

2751
02:11:49,990 --> 02:11:47,570
would have had grants they would have

2752
02:11:51,729 --> 02:11:50,000
made sounds they would have joined

2753
02:11:54,729 --> 02:11:51,739
perhaps in some kind of song or

2754
02:11:56,290 --> 02:11:54,739
something like that but I think their

2755
02:11:57,880 --> 02:11:56,300
communication would have been much more

2756
02:12:00,100 --> 02:11:57,890
intuitive almost to the point of

2757
02:12:01,979 --> 02:12:00,110
telepathic I don't necessarily mean that

2758
02:12:04,630 --> 02:12:01,989
you know from a psychic point of view

2759
02:12:07,600 --> 02:12:04,640
but you know in other words everything

2760
02:12:09,490 --> 02:12:07,610
they do would have been communal in the

2761
02:12:12,970 --> 02:12:09,500
sense that they would have all known and

2762
02:12:16,000 --> 02:12:12,980
understood what was going on what their

2763
02:12:17,650 --> 02:12:16,010

role was in in their society and how

2764

02:12:20,170 --> 02:12:17,660

they came together and how were they

2765

02:12:22,479 --> 02:12:20,180

would have reacted to certain events and

2766

02:12:23,920 --> 02:12:22,489

what was going on around them they

2767

02:12:25,990 --> 02:12:23,930

wouldn't have needed to talk about it I

2768

02:12:29,939 --> 02:12:26,000

think that's what what what we're saying

2769

02:12:32,350 --> 02:12:29,949

here so I don't think that this point

2770

02:12:34,750 --> 02:12:32,360

language is developed in the way that it

2771

02:12:37,510 --> 02:12:34,760

would it would do with the Denisovans a

2772

02:12:40,150 --> 02:12:37,520

much later point and I think that they

2773

02:12:43,390 --> 02:12:40,160

are responsible for the creation of the

2774

02:12:45,880 --> 02:12:43,400

attack language which by the way many

2775

02:12:47,950 --> 02:12:45,890

people see is the root behind what's

2776

02:12:48,790 --> 02:12:47,960

known as the indo-european languages

2777

02:12:52,410 --> 02:12:48,800

which includes

2778

02:12:55,630 --> 02:12:52,420

you know English French German Sanskrit

2779

02:12:58,090 --> 02:12:55,640

Japanese and various other Korean and

2780

02:12:59,709 --> 02:12:58,100

many many many other maybe as much as

2781

02:13:02,680 --> 02:12:59,719

three to four hundred different

2782

02:13:04,780 --> 02:13:02,690

languages spoken not just on the

2783

02:13:08,050 --> 02:13:04,790

Eurasian content but of course are in

2784

02:13:10,439 --> 02:13:08,060

the Americas as well Andrew thank you so

2785
