50

00:03:31,379 --> 00:03:26,799

51
00:03:35,250 --> 00:03:31,389

55
00:03:45,780 --> 00:03:44,170
forward to this and wanted Greg on he's

56
00:03:49,650 --> 00:03:45,790
wanted to be on this show for so long

57
00:03:52,110 --> 00:03:49,660
he's just so busy and schedules and and

58
00:03:55,170 --> 00:03:52,120
everything else but finally tonight Greg

59
00:04:00,960 --> 00:03:55,180
is joining us and this is our first time

60
00:04:03,899 --> 00:04:00,970
guest week on fade to black and I can't

61
00:04:07,619 --> 00:04:03,909
believe it tonight is Greg's first time

62
00:04:08,400 --> 00:04:07,629
on this show and I don't know how that

63
00:04:11,190 --> 00:04:08,410

happened

64

00:04:13,110 --> 00:04:11,200

but it does and it did so Greg is

65

00:04:16,380 --> 00:04:13,120

welcome for the first time to fade to

96

00:05:32,940 --> 00:05:29,620

black Gregg Braden Gregg that's I got I

97

00:05:34,560 --> 00:05:32,950

ran out of air good evening hey good

98

00:05:36,420 --> 00:05:34,570

evening Jimmy it's great to hear your

99

00:05:39,210 --> 00:05:36,430

voice I am so thrilled to be with you

100

00:05:40,350 --> 00:05:39,220

and our live listening audience tonight

101
00:05:42,330 --> 00:05:40,360
thank you for that great introduction

102
00:05:44,490 --> 00:05:42,340
yes and the great music but Lee it led

103
00:05:47,190 --> 00:05:44,500
to degrees in ER doc yeah thank you for

104
00:05:49,050 --> 00:05:47,200
that and and I really appreciate it and

105
00:05:51,240 --> 00:05:49,060
you know what before we get things

106
00:05:53,970 --> 00:05:51,250
started Gregg this is our first time

107
00:05:56,730 --> 00:05:53,980
guest week and I don't know why you are

108
00:05:58,860 --> 00:05:56,740
in that category but it's taken us this

109
00:06:00,540 --> 00:05:58,870
long to finally get you the show but

110
00:06:02,340 --> 00:06:00,550
you're here tonight and you're also

111
00:06:05,790 --> 00:06:02,350
going to get the first-time guests

112
00:06:07,890 --> 00:06:05,800
disclaimer which is this Gregg it's just

113
00:06:10,140 --> 00:06:07,900

you and I sitting on my couch having a

114

00:06:11,970 --> 00:06:10,150

conversation as friends and where the

115

00:06:13,680 --> 00:06:11,980

conversation starts it starts where it

116

00:06:16,980 --> 00:06:13,690

ends it ends but we're gonna end his

117

00:06:19,140 --> 00:06:16,990

friends there you go you ready I'm

118

00:06:20,730 --> 00:06:19,150

totally ready I we've never done this

119

00:06:22,370 --> 00:06:20,740

but I think we're just busy people I

120

00:06:25,940 --> 00:06:22,380

mean you know we've got

121

00:06:28,250 --> 00:06:25,950

very full lives and I'm gonna follow

122

00:06:30,380 --> 00:06:28,260

your lead and wherever we go tonight I'm

123

00:06:35,480 --> 00:06:30,390

happy to go there yeah and I actually

124

00:06:38,390 --> 00:06:35,490

want to start here years ago I had the

125

00:06:42,050 --> 00:06:38,400

opportunity to introduce you at a

126
00:06:44,390 --> 00:06:42,060
conference up in San Francisco and I

127
00:06:48,620 --> 00:06:44,400
went out and I've been following you for

128
00:06:51,830 --> 00:06:48,630
years but after introducing you instead

129
00:06:54,800 --> 00:06:51,840
of staying backstage and just doing my

130
00:06:58,610 --> 00:06:54,810
thing I actually went out and sat with

131
00:07:02,570 --> 00:06:58,620
the audience and and and joined you

132
00:07:04,220 --> 00:07:02,580
right and I went through your enthusiasm

133
00:07:08,000 --> 00:07:04,230
is one thing and the way that you

134
00:07:11,600 --> 00:07:08,010
interact with the audience is great but

135
00:07:16,100 --> 00:07:11,610
what blew my mind was sitting and

136
00:07:19,340 --> 00:07:16,110
watching your presentation of the sites

137
00:07:22,150 --> 00:07:19,350
and the research and the locations that

138
00:07:25,640 --> 00:07:22,160

you've traveled around the world for

139

00:07:29,150 --> 00:07:25,650

forever and I thought to myself sitting

140

00:07:30,650 --> 00:07:29,160

there Gregg is a doer there's two kinds

141

00:07:33,500 --> 00:07:30,660

of people in this world right there's

142

00:07:36,260 --> 00:07:33,510

those that talk and those that actually

143

00:07:39,950 --> 00:07:36,270

go out and do these things and they're

144

00:07:40,340 --> 00:07:39,960

fascinated with it what came first for

145

00:07:42,440 --> 00:07:40,350

you

146

00:07:46,070 --> 00:07:42,450

was it the spiritual side of things or

147

00:07:48,200 --> 00:07:46,080

was it chasing the science mmm well

148

00:07:49,700 --> 00:07:48,210

first thank you.thank I remember that

149

00:07:51,590 --> 00:07:49,710

introduction I know precisely what

150

00:07:53,600 --> 00:07:51,600

conference that was for and I did not

151
00:07:54,650 --> 00:07:53,610
know that you were in my audience so so

152
00:07:57,740 --> 00:07:54,660
thank you for being part of that

153
00:07:59,780 --> 00:07:57,750
audience you know this is probably the

154
00:08:01,400 --> 00:07:59,790
hardest thing for a scientist to talk

155
00:08:02,870 --> 00:08:01,410
about as their own lives it's easier to

156
00:08:06,050 --> 00:08:02,880
talk about the discoveries and the

157
00:08:08,690 --> 00:08:06,060
research so because this is our first

158
00:08:11,780 --> 00:08:08,700
time and we're on your couch in in your

159
00:08:15,520 --> 00:08:11,790
living room I'll just share with you I I

160
00:08:18,710 --> 00:08:15,530
come from a a very dysfunctional family

161
00:08:20,810 --> 00:08:18,720
abusive alcoholic family I was born and

162
00:08:23,180 --> 00:08:20,820
raised in a rural area of northern

163
00:08:25,670 --> 00:08:23,190

Missouri in this Midwest of this big

164

00:08:28,160 --> 00:08:25,680

beautiful country of ours and at an

165

00:08:33,290 --> 00:08:28,170

early age I mean I was looking for

166

00:08:35,840 --> 00:08:33,300

refuge from my my conditions and I found

167

00:08:38,120 --> 00:08:35,850

refuge refuge in two places

168

00:08:42,050 --> 00:08:38,130

this is in the 1960s so it was obviously

169

00:08:44,390 --> 00:08:42,060

in the music at the time and in the

170

00:08:46,460 --> 00:08:44,400

science of the time the 60s it was I

171

00:08:48,830 --> 00:08:46,470

really happened in time and you know in

172

00:08:50,960 --> 00:08:48,840

terms of science we had manned space

173

00:08:53,900 --> 00:08:50,970

missions that were happening and and

174

00:08:56,690 --> 00:08:53,910

satellites and you know science was

175

00:08:59,000 --> 00:08:56,700

really honored and really respected you

176
00:09:01,520 --> 00:08:59,010
know that in a way that you don't see so

177
00:09:06,020 --> 00:09:01,530
much today at least in mainstream so

178
00:09:11,600 --> 00:09:06,030
those two areas of interest quickly

179
00:09:14,450 --> 00:09:11,610
became my sources of refuge and I I left

180
00:09:16,250 --> 00:09:14,460
home at the age of 14 I was a musician I

181
00:09:18,140 --> 00:09:16,260
started playing guitar at 8 left home at

182
00:09:20,500 --> 00:09:18,150
14 moved in with a rock-and-roll band

183
00:09:24,070 --> 00:09:20,510
everybody was in their 20s and 30s and

184
00:09:26,450 --> 00:09:24,080
and I went to my first rock concert

185
00:09:30,560 --> 00:09:26,460
during that time and it was Jefferson

186
00:09:31,820 --> 00:09:30,570
Airplane man for our listeners he might

187
00:09:33,710 --> 00:09:31,830
listen I'll tell you exactly where it

188
00:09:34,820 --> 00:09:33,720

was it was Memorial Hall in Kansas City

189

00:09:37,820 --> 00:09:34,830

Kansas Wow

190

00:09:40,510 --> 00:09:37,830

and I saw this band move the souls of

191

00:09:44,180 --> 00:09:40,520

30,000 people in that relatively small

192

00:09:46,910 --> 00:09:44,190

arena and and that was important to me

193

00:09:49,760 --> 00:09:46,920

and not long after that I had the

194

00:09:51,820 --> 00:09:49,770

opportunity to go to the Royals Stadium

195

00:09:54,290 --> 00:09:51,830

Kansas City Royals Stadium at that time

196

00:09:57,620 --> 00:09:54,300

well as Kansas the Athletics at that

197

00:09:59,840 --> 00:09:57,630

time and I saw a man speak he wasn't

198

00:10:02,450 --> 00:09:59,850

with a band he just spoke his name is

199

00:10:06,020 --> 00:10:02,460

Billy Graham and it wasn't so much about

200

00:10:09,950 --> 00:10:06,030

his message for me but what I saw was he

201
00:10:11,960 --> 00:10:09,960
moved the souls of 70,000 people and the

202
00:10:14,390 --> 00:10:11,970
difference between that concert and

203
00:10:15,980 --> 00:10:14,400
where I saw at Billy Graham was this at

204
00:10:18,650 --> 00:10:15,990
the end of the concert people left and

205
00:10:21,710 --> 00:10:18,660
everybody was good but they they needed

206
00:10:23,690 --> 00:10:21,720
something more to give them the feeling

207
00:10:25,100 --> 00:10:23,700
that they had during the concert they

208
00:10:26,570 --> 00:10:25,110
need to go out and buy the album you

209
00:10:29,930 --> 00:10:26,580
know at that time there was 8-track

210
00:10:32,180 --> 00:10:29,940
tapes and and and they needed that when

211
00:10:34,520 --> 00:10:32,190
I left that Billy Graham show those

212
00:10:37,130 --> 00:10:34,530
people didn't need anything because the

213
00:10:39,530 --> 00:10:37,140

words that he had spoken changed

214

00:10:41,540 --> 00:10:39,540

something inside of them and they began

215

00:10:45,620 --> 00:10:41,550

to look at themselves in their world

216

00:10:47,360 --> 00:10:45,630

differently and I knew at that moment I

217

00:10:49,730 --> 00:10:47,370

said I wasn't sure what I would do but I

218

00:10:51,620 --> 00:10:49,740

think we get one shot yeah

219

00:10:54,080 --> 00:10:51,630

contributing to this world to make it a

220

00:10:55,550 --> 00:10:54,090

better place and I knew that I would

221

00:10:58,370 --> 00:10:55,560

need to do it through through music or

222

00:11:00,470 --> 00:10:58,380

through science and I knew that words

223

00:11:03,110 --> 00:11:00,480

would become a very powerful part of

224

00:11:04,970 --> 00:11:03,120

that so that is a little a little

225

00:11:08,030 --> 00:11:04,980

background and I became a scientist I'm

226

00:11:09,770 --> 00:11:08,040

a degree geologist with strong

227

00:11:13,370 --> 00:11:09,780

background in geophysics molecular

228

00:11:16,400 --> 00:11:13,380

biology life sciences computer science

229

00:11:18,320 --> 00:11:16,410

and and those Sciences Jimmy have given

230

00:11:20,780 --> 00:11:18,330

me the opportunity to stay abreast with

231

00:11:23,210 --> 00:11:20,790

the new discoveries that are published

232

00:11:26,090 --> 00:11:23,220

in these really obscure journals and

233

00:11:28,790 --> 00:11:26,100

very few people get to see in pretty

234

00:11:31,250 --> 00:11:28,800

technical language but to stay abreast

235

00:11:34,610 --> 00:11:31,260

with the discoveries that have the

236

00:11:36,410 --> 00:11:34,620

potential to change our lives to make

237

00:11:38,330 --> 00:11:36,420

this world such a better place and to

238

00:11:40,790 --> 00:11:38,340

help us to become the best version of

239

00:11:43,280 --> 00:11:40,800

ourselves on the one hand and on the

240

00:11:46,730 --> 00:11:43,290

other hand early in my life as as you

241

00:11:48,110 --> 00:11:46,740

mentioned I was drawn there's a whole

242

00:11:51,980 --> 00:11:48,120

story about how it happened but I was

243

00:11:55,730 --> 00:11:51,990

drawn to leave America and began a

244

00:11:57,830 --> 00:11:55,740

search that started in Egypt 1986 that

245

00:11:59,570 --> 00:11:57,840

led me into Peru and 89 during a

246

00:12:02,240 --> 00:11:59,580

revolution I was part of a revolution

247

00:12:06,620 --> 00:12:02,250

down there that eventually led me into

248

00:12:08,150 --> 00:12:06,630

Tibet and Nepal and India India and all

249

00:12:10,670 --> 00:12:08,160

through the American desert Southwest

250

00:12:12,860 --> 00:12:10,680

and Australia and what I began to

251
00:12:15,380 --> 00:12:12,870
understand him is that those who have

252
00:12:17,510 --> 00:12:15,390
come before us I've been here a long

253
00:12:20,210 --> 00:12:17,520
time were 5,000 years of recorded human

254
00:12:21,500 --> 00:12:20,220
history they didn't know science but

255
00:12:25,520 --> 00:12:21,510
they understood us in our relationship

256
00:12:28,660 --> 00:12:25,530
to the world and what I began to find is

257
00:12:31,880 --> 00:12:28,670
that ultimately what we call

258
00:12:32,810 --> 00:12:31,890
spirituality is just that it's it's I'm

259
00:12:35,750 --> 00:12:32,820
going to make a distinction between

260
00:12:37,880 --> 00:12:35,760
religion and spirituality spirituality

261
00:12:40,220 --> 00:12:37,890
is the understanding of the human

262
00:12:42,800 --> 00:12:40,230
relationship that we have with ourselves

263
00:12:45,410 --> 00:12:42,810

with our own bodies with other people

264

00:12:48,290 --> 00:12:45,420

with the earth with our past and with

265

00:12:50,330 --> 00:12:48,300

our future the religions came along

266

00:12:52,400 --> 00:12:50,340

later and wrapped the rules in the dogma

267

00:12:55,010 --> 00:12:52,410

around those very very basic

268

00:12:56,420 --> 00:12:55,020

understandings right so so I decided to

269

00:12:58,010 --> 00:12:56,430

cut through the religion forget the

270

00:12:59,810 --> 00:12:58,020

religion go right to the core what did

271

00:13:02,450 --> 00:12:59,820

these people know that we've either

272

00:13:03,860 --> 00:13:02,460

forgotten or what did they know that

273

00:13:06,350 --> 00:13:03,870

our own science is only beginning to

274

00:13:08,600 --> 00:13:06,360

understand and what I found is that the

275

00:13:12,410 --> 00:13:08,610

language of science is the contemporary

276

00:13:14,450 --> 00:13:12,420

language for the mystical that was

277

00:13:16,490 --> 00:13:14,460

described in so many of these and still

278

00:13:20,540 --> 00:13:16,500

is in some of these ancient indigenous

279

00:13:22,730 --> 00:13:20,550

traditions am I feeling my one shot in

280

00:13:25,310 --> 00:13:22,740

my lifetime to contribute make this

281

00:13:26,810 --> 00:13:25,320

world a better place and and for me to

282

00:13:29,570 --> 00:13:26,820

become the best person I can be

283

00:13:32,840 --> 00:13:29,580

is to cross those traditional boundaries

284

00:13:34,400 --> 00:13:32,850

that have separated science the the

285

00:13:37,010 --> 00:13:34,410

sciences you know geology and chemistry

286

00:13:38,480 --> 00:13:37,020

and biology and physics we put them in

287

00:13:40,040 --> 00:13:38,490

boxes but nature doesn't know anything

288

00:13:43,340 --> 00:13:40,050

about those boxes that's not the way the

289

00:13:46,580 --> 00:13:43,350

world works and the sciences that have

290

00:13:49,040 --> 00:13:46,590

largely discounted the wisdom of our

291

00:13:51,230 --> 00:13:49,050

ancestors to cross the traditional

292

00:13:55,430 --> 00:13:51,240

boundaries and marry these two great

293

00:13:57,860 --> 00:13:55,440

ways of knowing into a form of wisdom

294

00:14:00,320 --> 00:13:57,870

that gives us the evolutionary edge so

295

00:14:02,150 --> 00:14:00,330

that we succeed in this great transition

296

00:14:06,140 --> 00:14:02,160

that's sweeping the earth right now

297

00:14:08,150 --> 00:14:06,150

where past cycles of civilization appear

298

00:14:09,680 --> 00:14:08,160

to have failed so I know there's a lot

299

00:14:12,950 --> 00:14:09,690

in there we can unpack that as we go

300

00:14:17,150 --> 00:14:12,960

through the evening but but for me it

301
00:14:20,150 --> 00:14:17,160
was less of a quantum leap it wasn't

302
00:14:23,690 --> 00:14:20,160
like a big AHA it was more of a logical

303
00:14:25,910 --> 00:14:23,700
progression as I began to follow and the

304
00:14:28,130 --> 00:14:25,920
science and I understood what the

305
00:14:31,040 --> 00:14:28,140
science was saying at the same time I

306
00:14:33,260 --> 00:14:31,050
was studying and experiencing these

307
00:14:34,790 --> 00:14:33,270
ancient indigenous traditions and I said

308
00:14:37,580 --> 00:14:34,800
you know they're saying the same thing

309
00:14:39,200 --> 00:14:37,590
in a very different language and they're

310
00:14:40,940 --> 00:14:39,210
talking about things that we're only

311
00:14:43,070 --> 00:14:40,950
beginning to understand in the 20th

312
00:14:44,990 --> 00:14:43,080
century how did they know this stuff and

313
00:14:48,740 --> 00:14:45,000

what is it that we can learn from them

314

00:14:50,180 --> 00:14:48,750

today well each book I got tell you Jim

315

00:14:52,820 --> 00:14:50,190

it's funny I was doing a radio program

316

00:14:54,740 --> 00:14:52,830

not long ago it's what I call one of the

317

00:14:57,500 --> 00:14:54,750

hostile interviews you know we get those

318

00:14:58,760 --> 00:14:57,510

every once in a while right and and the

319

00:15:01,100 --> 00:14:58,770

interviewer came out and there were he

320

00:15:02,510 --> 00:15:01,110

didn't read a bio or any kind of a

321

00:15:04,070 --> 00:15:02,520

greeting or welcome you know it wasn't

322

00:15:06,080 --> 00:15:04,080

like hi Greg welcome to the program

323

00:15:08,720 --> 00:15:06,090

first thing he said to me when he came

324

00:15:11,150 --> 00:15:08,730

on he said he said Braden why can't you

325

00:15:13,160 --> 00:15:11,160

stick with one topic like everybody else

326

00:15:15,470 --> 00:15:13,170

he said man you are all over the map he

327

00:15:16,160 --> 00:15:15,480

said you talking about genetics or the

328

00:15:17,990 --> 00:15:16,170

magnetic

329

00:15:20,240 --> 00:15:18,000

of the earth or cycles of time or

330

00:15:22,700 --> 00:15:20,250

ancient civilization he said he said for

331

00:15:24,350 --> 00:15:22,710

God's sake just stick with one topic and

332

00:15:26,780 --> 00:15:24,360

I you know I was taking a little back I

333

00:15:29,330 --> 00:15:26,790

wasn't prepared for that and I I thought

334

00:15:30,740 --> 00:15:29,340

about and I said you know I do cover a

335

00:15:33,260 --> 00:15:30,750

lot of topics I said that if you look

336

00:15:36,440 --> 00:15:33,270

closely every book I've ever written and

337

00:15:40,130 --> 00:15:36,450

each topic that you've just mentioned

338

00:15:42,110 --> 00:15:40,140

they represent one facet of the human

339

00:15:44,900 --> 00:15:42,120

experience of our experience in this

340

00:15:46,940 --> 00:15:44,910

lifetime so in a very real sense I have

341

00:15:49,400 --> 00:15:46,950

stayed with one topic it just happens to

342

00:15:50,660 --> 00:15:49,410

be a big topic and he said okay let's go

343

00:15:51,070 --> 00:15:50,670

the station break and I never heard from

344

00:15:53,930 --> 00:15:51,080

him again

345

00:15:57,700 --> 00:15:53,940

[Laughter]

346

00:16:02,260 --> 00:15:57,710

so if you look at the hit the breadth of

347

00:16:04,520 --> 00:16:02,270

the work that I've offered to date and

348

00:16:07,130 --> 00:16:04,530

I'm not finished there's a lot more

349

00:16:11,410 --> 00:16:07,140

coming that's precisely what I've done

350

00:16:14,450 --> 00:16:11,420

and I've explored one facet of our

351

00:16:17,510 --> 00:16:14,460

experience in depth in each of those

352

00:16:18,890 --> 00:16:17,520

books and those are the books that that

353

00:16:21,440 --> 00:16:18,900

you mentioned at the beginning of the

354

00:16:23,600 --> 00:16:21,450

program that are out there now I wanted

355

00:16:26,180 --> 00:16:23,610

to ask you about when you when you're

356

00:16:29,180 --> 00:16:26,190

going through the education side of

357

00:16:31,430 --> 00:16:29,190

things and you're dealing with the

358

00:16:35,540 --> 00:16:31,440

possibility of professors and

359

00:16:38,510 --> 00:16:35,550

instructors that are closed-minded as

360

00:16:40,190 --> 00:16:38,520

especially to things that are outside of

361

00:16:43,540 --> 00:16:40,200

the box they want to stick to the rules

362

00:16:47,060 --> 00:16:43,550

which is fine but was there a moment

363

00:16:49,670 --> 00:16:47,070

where you were you know looking at both

364

00:16:51,710 --> 00:16:49,680

sides of the the coin here where you

365

00:16:54,650 --> 00:16:51,720

went okay hold on wait a minute

366

00:16:57,050 --> 00:16:54,660

this needs to stop I don't really trust

367

00:17:00,770 --> 00:16:57,060

what I'm being taught here there's

368

00:17:03,710 --> 00:17:00,780

something else going on absolutely and

369

00:17:05,120 --> 00:17:03,720

you know what you're describing not only

370

00:17:06,710 --> 00:17:05,130

has happened to me it's half of the many

371

00:17:08,689 --> 00:17:06,720

of my friends and colleagues dr. bruce

372

00:17:12,050 --> 00:17:08,699

lipton evolutionary biologist was

373

00:17:13,850 --> 00:17:12,060

writing medical students and and he was

374

00:17:16,310 --> 00:17:13,860

not allowed to share with his students

375

00:17:18,189 --> 00:17:16,320

the results of the experiments and the

376

00:17:19,960 --> 00:17:18,199

research that he was required to perform

377

00:17:23,290 --> 00:17:19,970

Joe Dispenza

378

00:17:26,120 --> 00:17:23,300

healthcare practitioner chiropractor

379

00:17:27,500 --> 00:17:26,130

began to understand that the human body

380

00:17:30,020 --> 00:17:27,510

there's so much more to the human body

381

00:17:32,120 --> 00:17:30,030

then he'd been led to

382

00:17:34,310 --> 00:17:32,130

believe and and the three of us are

383

00:17:37,010 --> 00:17:34,320

friends and colleagues we work together

384

00:17:38,960 --> 00:17:37,020

frequently now but independently before

385

00:17:41,230 --> 00:17:38,970

we knew one another we all made the same

386

00:17:44,240 --> 00:17:41,240

choice to leave our respective

387

00:17:45,650 --> 00:17:44,250

professions we could have stayed I could

388

00:17:47,840 --> 00:17:45,660

have stayed in the corporations as

389

00:17:49,700 --> 00:17:47,850

scientist I had a very good career my my

390

00:17:51,740 --> 00:17:49,710

last career is with Cisco Systems I was

391

00:17:52,640 --> 00:17:51,750

a first tech office manager in Palo Alto

392

00:17:54,800 --> 00:17:52,650

California

393

00:17:57,110 --> 00:17:54,810

Bruce was teaching at Stanford you know

394

00:17:59,930 --> 00:17:57,120

Joe had his own practice we could have

395

00:18:02,720 --> 00:17:59,940

stayed in those careers written white

396

00:18:06,260 --> 00:18:02,730

papers about our discoveries that would

397

00:18:07,820 --> 00:18:06,270

be buried in academia we all made the

398

00:18:09,230 --> 00:18:07,830

choice and others have as well these I'm

399

00:18:11,420 --> 00:18:09,240

just giving three examples not I'm

400

00:18:14,900 --> 00:18:11,430

looking for those men I'm just sharing

401
00:18:16,700 --> 00:18:14,910
that we've had common experiences each

402
00:18:19,400 --> 00:18:16,710
of us in our own way made the choice to

403
00:18:21,830 --> 00:18:19,410
leave those respective professions to

404
00:18:24,320 --> 00:18:21,840
take the discoveries peer-reviewed

405
00:18:26,270 --> 00:18:24,330
science these aren't our hypotheses

406
00:18:28,820 --> 00:18:26,280
necessarily or our theories this is rock

407
00:18:31,250 --> 00:18:28,830
solid science that simply is not being

408
00:18:33,140 --> 00:18:31,260
shared in the mainstream classrooms

409
00:18:36,200 --> 00:18:33,150
textbooks it's not being shared even in

410
00:18:39,340 --> 00:18:36,210
mainstream documentaries and take this

411
00:18:41,240 --> 00:18:39,350
information directly to the people

412
00:18:45,050 --> 00:18:41,250
because that's how you bring about

413
00:18:47,000 --> 00:18:45,060

change and to be honest the the speed of

414

00:18:48,710 --> 00:18:47,010

the change that we're seeing in the

415

00:18:51,470 --> 00:18:48,720

world today we really don't have the

416

00:18:53,690 --> 00:18:51,480

time to take a peer-reviewed paper and

417

00:18:55,100 --> 00:18:53,700

run it through six or eight years of a

418

00:18:57,860 --> 00:18:55,110

peer-reviewed cycle and have it

419

00:18:59,270 --> 00:18:57,870

published in some obscure journal so you

420

00:19:00,890 --> 00:18:59,280

know we can still do that and you know

421

00:19:05,660 --> 00:19:00,900

we write and we contribute where we can

422

00:19:07,730 --> 00:19:05,670

but I did recognize pretty early on that

423

00:19:13,100 --> 00:19:07,740

what we're being taught in mainstream

424

00:19:17,960 --> 00:19:13,110

science is a subset of a much deeper a

425

00:19:20,630 --> 00:19:17,970

much more all-embracing science that has

426
00:19:22,490 --> 00:19:20,640
the potential to free humankind from the

427
00:19:25,040 --> 00:19:22,500
bonds and the shackles of the suffering

428
00:19:27,590 --> 00:19:25,050
that had been the hallmark for 5,000

429
00:19:31,280 --> 00:19:27,600
years of human history including war I

430
00:19:32,990 --> 00:19:31,290
believe that we have the ability to to

431
00:19:35,920 --> 00:19:33,000
raise the standard of living for people

432
00:19:39,500 --> 00:19:35,930
in the world that in a way that makes

433
00:19:42,800 --> 00:19:39,510
scarcity of resources obsolete because

434
00:19:43,730 --> 00:19:42,810
of the abundance of the resources

435
00:19:44,960 --> 00:19:43,740
available to us

436
00:19:48,049 --> 00:19:44,970
when it comes to these advanced

437
00:19:50,630 --> 00:19:48,059
technologies we see evidence of it in

438
00:19:53,360 --> 00:19:50,640

ancient traditions and the new sciences

439

00:19:56,240 --> 00:19:53,370

is leading us to these understandings in

440

00:19:57,830 --> 00:19:56,250

the world around us Jimmy but where I'm

441

00:20:00,919 --> 00:19:57,840

really focused right now is the world

442

00:20:03,470 --> 00:20:00,929

within us because what I've also come to

443

00:20:06,410 --> 00:20:03,480

understand is the more we know the

444

00:20:09,140 --> 00:20:06,420

better we understand ourselves the less

445

00:20:12,350 --> 00:20:09,150

we fear one another unless we fear

446

00:20:15,680 --> 00:20:12,360

change in the world and the human body

447

00:20:18,500 --> 00:20:15,690

our origin our potential the

448

00:20:20,090 --> 00:20:18,510

extraordinary capacities that we have

449

00:20:23,150 --> 00:20:20,100

are simply not shared in the mainstream

450

00:20:25,549 --> 00:20:23,160

and these are the things that I'm really

451
00:20:27,650 --> 00:20:25,559
passionate about talking about right now

452
00:20:30,410 --> 00:20:27,660
for reasons that I know that we'll get

453
00:20:32,750 --> 00:20:30,420
into technology is actually infringing

454
00:20:35,150 --> 00:20:32,760
upon our very humanists right now we're

455
00:20:36,890 --> 00:20:35,160
on the verge of giving our humaneness

456
00:20:39,530 --> 00:20:36,900
away before we even know what it means

457
00:20:40,130 --> 00:20:39,540
to be fully human so when we when we

458
00:20:42,410 --> 00:20:40,140
marry

459
00:20:48,140 --> 00:20:42,420
all of these things together we're on

460
00:20:51,830 --> 00:20:48,150
this the the horizon of this just the

461
00:20:54,230 --> 00:20:51,840
threshold of the unleashing of powerful

462
00:20:56,720 --> 00:20:54,240
internal and external technology that

463
00:20:58,220 --> 00:20:56,730

changes everything when it comes to the

464

00:21:01,460 --> 00:20:58,230

way we think of ourselves and the way we

465

00:21:03,410 --> 00:21:01,470

solve our problems do you find that the

466

00:21:06,100 --> 00:21:03,420

way that science and I'm talking about

467

00:21:10,850 --> 00:21:06,110

physics and quantum physics and and

468

00:21:14,540 --> 00:21:10,860

cosmology biology science is moving at

469

00:21:19,010 --> 00:21:14,550

such a rapid clip right now and it is

470

00:21:21,440 --> 00:21:19,020

forcing them into areas of consciousness

471

00:21:23,870 --> 00:21:21,450

and spirituality that they're not going

472

00:21:26,450 --> 00:21:23,880

to be able to avoid that they are

473

00:21:29,120 --> 00:21:26,460

they're going to continue to overlap and

474

00:21:30,950 --> 00:21:29,130

we will have those answers about what

475

00:21:33,890 --> 00:21:30,960

makes us us and the soul and

476
00:21:36,350 --> 00:21:33,900
consciousness two things are happening

477
00:21:39,320 --> 00:21:36,360
simultaneously on the one hand science

478
00:21:43,040 --> 00:21:39,330
largely has been hijacked in the modern

479
00:21:45,530 --> 00:21:43,050
world in the Western world by competing

480
00:21:49,360 --> 00:21:45,540
interests so corporate interests have

481
00:21:52,340 --> 00:21:49,370
hijacked science to cherry-pick data and

482
00:21:54,409 --> 00:21:52,350
use that cherry-pick science to support

483
00:21:56,150 --> 00:21:54,419
corporate goals the same thing has

484
00:21:57,230 --> 00:21:56,160
happened with politics the same thing

485
00:21:58,850 --> 00:21:57,240
has happened with religion

486
00:22:02,420 --> 00:21:58,860
and same thing has happened with

487
00:22:04,940 --> 00:22:02,430
academia so science can only serve us

488
00:22:08,540 --> 00:22:04,950

Jimmy if we keep it honest and science

489

00:22:11,360 --> 00:22:08,550

is designed to be constantly updated as

490

00:22:13,610 --> 00:22:11,370

new discoveries come to light and what

491

00:22:15,890 --> 00:22:13,620

we find right now is we're living in a

492

00:22:18,440 --> 00:22:15,900

world where the academics want static

493

00:22:21,020 --> 00:22:18,450

science there's a story there's a battle

494

00:22:22,430 --> 00:22:21,030

there's a battle unfolding in our world

495

00:22:25,280 --> 00:22:22,440

that's happening is playing out before

496

00:22:26,870 --> 00:22:25,290

your eyes and my eyes and in the eyes of

497

00:22:29,240 --> 00:22:26,880

the Western world there's a battle

498

00:22:32,180 --> 00:22:29,250

playing out to maintain what's called

499

00:22:35,510 --> 00:22:32,190

the standard model and that is the story

500

00:22:39,320 --> 00:22:35,520

of how the universe began and how humans

501
00:22:41,780 --> 00:22:39,330
began in what our potential is really

502
00:22:44,000 --> 00:22:41,790
all about and there is an old way of

503
00:22:47,360 --> 00:22:44,010
thinking that's a very limiting way of

504
00:22:49,700 --> 00:22:47,370
thinking and that limited thinking is a

505
00:22:51,830 --> 00:22:49,710
static model the new discoveries that

506
00:22:54,440 --> 00:22:51,840
you're talking about are upsetting that

507
00:22:56,210 --> 00:22:54,450
model so we've asked science to tell us

508
00:22:59,090 --> 00:22:56,220
who we are and science is giving us

509
00:23:01,400 --> 00:22:59,100
answers and many scientists don't like

510
00:23:03,110 --> 00:23:01,410
the answers and so one of the places

511
00:23:07,910 --> 00:23:03,120
that I'm really seeing this is it when

512
00:23:09,740 --> 00:23:07,920
it comes to to evolution and where the

513
00:23:12,950 --> 00:23:09,750

conversation gets really sticky my

514

00:23:14,720 --> 00:23:12,960

friends who are college professors well

515

00:23:19,610 --> 00:23:14,730

they're my friends until we have this

516

00:23:22,190 --> 00:23:19,620

conversation because because the new

517

00:23:24,290 --> 00:23:22,200

discoveries are overturning a hundred

518

00:23:27,410 --> 00:23:24,300

and fifty years of thinking when it

519

00:23:30,230 --> 00:23:27,420

comes to us where we came from how we

520

00:23:31,430 --> 00:23:30,240

originated what our potential is and I

521

00:23:32,930 --> 00:23:31,440

know we'll get into this as we go

522

00:23:34,550 --> 00:23:32,940

through our evening but the new

523

00:23:37,310 --> 00:23:34,560

discoveries this is the point the new

524

00:23:40,640 --> 00:23:37,320

discoveries no longer support the old

525

00:23:42,140 --> 00:23:40,650

story so I asked my my colleagues you

526

00:23:44,930 --> 00:23:42,150

know my professor friends I said why

527

00:23:47,810 --> 00:23:44,940

can't you share these new discoveries

528

00:23:50,540 --> 00:23:47,820

with with your students and they tell me

529

00:23:53,420 --> 00:23:50,550

three things first they say great if if

530

00:23:56,750 --> 00:23:53,430

I share the new discoveries they say it

531

00:23:58,820 --> 00:23:56,760

will invalidate my 40-year career of

532

00:24:01,640 --> 00:23:58,830

what I've been teaching my students and

533

00:24:04,520 --> 00:24:01,650

I said no no no I said science is

534

00:24:06,830 --> 00:24:04,530

designed to be updated it would show

535

00:24:09,500 --> 00:24:06,840

your students how relevant science

536

00:24:10,940 --> 00:24:09,510

continues to be in their lives and then

537

00:24:13,519 --> 00:24:10,950

he said well he says think

538

00:24:15,169 --> 00:24:13,529

how much money that would cost you know

539

00:24:17,359 --> 00:24:15,179

to change all the textbooks and I said

540

00:24:19,430 --> 00:24:17,369

man you're a dinosaur your your students

541

00:24:21,529 --> 00:24:19,440

there they're learning online I said you

542

00:24:23,269 --> 00:24:21,539

change it on the server him and it's

543

00:24:24,919 --> 00:24:23,279

changed everywhere and he said well I'd

544

00:24:26,629 --> 00:24:24,929

have to change all my class notes he

545

00:24:28,609 --> 00:24:26,639

said I've got 40 years of class notes

546

00:24:30,080 --> 00:24:28,619

and and I'd have to change all this and

547

00:24:32,419 --> 00:24:30,090

I said that's what they're paying you

548

00:24:34,489 --> 00:24:32,429

for you know and so here here's what I'm

549

00:24:39,560 --> 00:24:34,499

hearing my professor friends are saying

550

00:24:42,499 --> 00:24:39,570

the new science is so revolutionary I'm

551
00:24:44,359 --> 00:24:42,509
gonna let the new professors the new

552
00:24:46,639 --> 00:24:44,369
guard I'm gonna leave it to them to

553
00:24:48,049 --> 00:24:46,649
figure out how to teach this I'm going

554
00:24:50,419 --> 00:24:48,059
to stick with the old story until I

555
00:24:53,509 --> 00:24:50,429
retire in a couple of years I'm not even

556
00:24:55,039 --> 00:24:53,519
going to tackle this this revolution

557
00:24:56,810 --> 00:24:55,049
that the new science is bringing on will

558
00:24:59,180 --> 00:24:56,820
let the new young professors you know

559
00:25:00,979 --> 00:24:59,190
take care of that so this is what's

560
00:25:04,759 --> 00:25:00,989
happening we're actually teaching our

561
00:25:07,099 --> 00:25:04,769
young people obsolete science based upon

562
00:25:09,049 --> 00:25:07,109
false assumptions and we're asking them

563
00:25:11,239 --> 00:25:09,059

to solve the problems that we've left in

564

00:25:14,060 --> 00:25:11,249

the world based upon information that we

565

00:25:16,669 --> 00:25:14,070

know isn't is not true so that's that is

566

00:25:20,690 --> 00:25:16,679

where we are today and it's changing and

567

00:25:22,669 --> 00:25:20,700

the change is happening slowly and as we

568

00:25:24,919 --> 00:25:22,679

travel the world myself and some of my

569

00:25:26,960 --> 00:25:24,929

colleagues that I've spoken with I'll

570

00:25:29,479 --> 00:25:26,970

just be very honest when we leave the

571

00:25:32,299 --> 00:25:29,489

borders of this big beautiful country

572

00:25:34,039 --> 00:25:32,309

that I love so much we leave the safety

573

00:25:37,220 --> 00:25:34,049

and the borders of America there's an

574

00:25:41,269 --> 00:25:37,230

openness beyond America that is so much

575

00:25:44,989 --> 00:25:41,279

greater to receive and accept and apply

576

00:25:47,629 --> 00:25:44,999

this information America is is open but

577

00:25:50,499 --> 00:25:47,639

they're not nearly as open as as we see

578

00:25:54,950 --> 00:25:50,509

people in Europe South America Australia

579

00:25:57,560 --> 00:25:54,960

Middle East it's just amazing this this

580

00:26:00,979 --> 00:25:57,570

revolution in thought that is sweeping

581

00:26:02,690 --> 00:26:00,989

the earth so fast Jimmy and and a lot of

582

00:26:04,549 --> 00:26:02,700

people just don't realize how fast it's

583

00:26:06,919 --> 00:26:04,559

actually happening yeah I couldn't agree

584

00:26:09,379 --> 00:26:06,929

with you more and on so many different

585

00:26:11,960 --> 00:26:09,389

points here and we'll we'll come back

586

00:26:14,749 --> 00:26:11,970

after the break but I want to circle

587

00:26:18,289 --> 00:26:14,759

back to your comment about you know tech

588

00:26:21,919 --> 00:26:18,299

starting to replace our evolution right

589

00:26:23,839 --> 00:26:21,929

our own growth and I saw this a couple

590

00:26:24,730 --> 00:26:23,849

of years ago and it's like burned into

591

00:26:27,700 --> 00:26:24,740

my

592

00:26:30,460 --> 00:26:27,710

Gregg I saw this picture it's in a

593

00:26:33,310 --> 00:26:30,470

museum it's in an art museum and in the

594

00:26:36,310 --> 00:26:33,320

background you see this ginormous like

595

00:26:38,860 --> 00:26:36,320

10 foot by 10 foot classic Renaissance

596

00:26:42,880 --> 00:26:38,870

painting beautiful right just gorgeous

597

00:26:45,940 --> 00:26:42,890

in front of it is a couch with five

598

00:26:47,170 --> 00:26:45,950

little girls sitting there staring at

599

00:26:50,340 --> 00:26:47,180

their cell phones

600

00:26:53,049 --> 00:26:50,350

[Laughter]

601
00:26:56,049 --> 00:26:53,059
you know and I just it was astonishing

602
00:26:58,510 --> 00:26:56,059
to me it was very prophetic but you know

603
00:27:00,279 --> 00:26:58,520
it goes beyond that so we can begin this

604
00:27:03,490 --> 00:27:00,289
conversation now we can pick it up on

605
00:27:06,490 --> 00:27:03,500
the other side of the short shirt there

606
00:27:08,769 --> 00:27:06,500
there's technology it's happening so

607
00:27:13,210 --> 00:27:08,779
quickly that technology is being

608
00:27:15,779 --> 00:27:13,220
introduced to replace human biology and

609
00:27:19,690 --> 00:27:15,789
I'm talking about even replaced neurons

610
00:27:21,159 --> 00:27:19,700
so quickly and I'll give an example of

611
00:27:25,240 --> 00:27:21,169
this in here in just a moment but the

612
00:27:28,210 --> 00:27:25,250
key is when we replace our biology with

613
00:27:31,539 --> 00:27:28,220

wires and circuits that biology begins

614

00:27:34,600 --> 00:27:31,549

to atrophy within our bodies and and

615

00:27:37,090 --> 00:27:34,610

when it happens in one generation you

616

00:27:39,610 --> 00:27:37,100

know it can be fun to accept these new

617

00:27:42,100 --> 00:27:39,620

technologies but pretty soon just like

618

00:27:45,220 --> 00:27:42,110

there was a generation where cell phones

619

00:27:46,539 --> 00:27:45,230

was an option now you know we we hardly

620

00:27:47,919 --> 00:27:46,549

know anyone that doesn't have a cell

621

00:27:49,570 --> 00:27:47,929

phone it's a way of life and there's an

622

00:27:52,779 --> 00:27:49,580

entire generation of young people that

623

00:27:54,490 --> 00:27:52,789

only know communication through through

624

00:27:57,789 --> 00:27:54,500

digital communication through their

625

00:28:00,669 --> 00:27:57,799

handheld device a couple years ago Elon

626

00:28:02,409 --> 00:28:00,679

Musk I think all of our listeners know

627

00:28:04,690 --> 00:28:02,419

know who he is here a developer of

628

00:28:07,149 --> 00:28:04,700

PayPal and Tesla and SpaceX and a

629

00:28:10,210 --> 00:28:07,159

brilliant man visionary

630

00:28:12,510 --> 00:28:10,220

innovator wealthy has got a big vision

631

00:28:14,919 --> 00:28:12,520

and he's pushing the boundaries of

632

00:28:17,409 --> 00:28:14,929

technology and I'm not saying this right

633

00:28:22,200 --> 00:28:17,419

wrong good or bad and I'm saying that it

634

00:28:25,419 --> 00:28:22,210

is opening our eyes to the morality of

635

00:28:27,450 --> 00:28:25,429

the role that we want technology to play

636

00:28:30,610 --> 00:28:27,460

in our lives so here's a perfect example

637

00:28:31,649 --> 00:28:30,620

he just a company public called

638

00:28:35,289 --> 00:28:31,659

mirrorlink

639

00:28:37,029 --> 00:28:35,299

this was happened last year but they

640

00:28:37,900 --> 00:28:37,039

actually made the news mid-year this

641

00:28:40,810 --> 00:28:37,910

year

642

00:28:43,210 --> 00:28:40,820

and it's the first interface actually

643

00:28:46,260 --> 00:28:43,220

implanted it's a chip implanted into the

644

00:28:49,720 --> 00:28:46,270

human brain so neurons are actually

645

00:28:52,320 --> 00:28:49,730

linked into ports on this chip in the

646

00:28:55,290 --> 00:28:52,330

human brain to link the human brain

647

00:28:58,930 --> 00:28:55,300

directly to the hard drive of a computer

648

00:29:00,400 --> 00:28:58,940

with wireless technology so you know

649

00:29:02,410 --> 00:29:00,410

young people when they hear that they

650

00:29:03,580 --> 00:29:02,420

say oh you know sweet man I can play my

651
00:29:06,070 --> 00:29:03,590
games right

652
00:29:10,500 --> 00:29:06,080
you know without using any wires here's

653
00:29:13,060 --> 00:29:10,510
deal we are such technologically

654
00:29:15,880 --> 00:29:13,070
biologically sophisticated beings we

655
00:29:17,980 --> 00:29:15,890
have neurons that already perform that

656
00:29:21,010 --> 00:29:17,990
function that we are not even told about

657
00:29:24,040 --> 00:29:21,020
and we don't even use and what the the

658
00:29:28,120 --> 00:29:24,050
science is showing is from other other

659
00:29:30,760 --> 00:29:28,130
technologies is when humans begin to

660
00:29:34,780 --> 00:29:30,770
rely on something other than their own

661
00:29:36,670 --> 00:29:34,790
biology to perform even reproduction

662
00:29:39,820 --> 00:29:36,680
this is actually something that's

663
00:29:42,190 --> 00:29:39,830

happening in some parts of Asia where

664

00:29:44,530 --> 00:29:42,200

the human reproduction is being replaced

665

00:29:46,510 --> 00:29:44,540

by other forms of reproduction and what

666

00:29:47,830 --> 00:29:46,520

they're finding is the fertility rates

667

00:29:50,550 --> 00:29:47,840

have dropped the sperm counts have

668

00:29:53,740 --> 00:29:50,560

dropped the the number of mortalities

669

00:29:56,470 --> 00:29:53,750

now exceeds the number of live births

670

00:29:59,260 --> 00:29:56,480

and they're attributing this to to the

671

00:30:03,100 --> 00:29:59,270

role the technology's playing in our

672

00:30:06,010 --> 00:30:03,110

lives we begin to replace human neurons

673

00:30:07,450 --> 00:30:06,020

with chips one generation it's kind of a

674

00:30:10,480 --> 00:30:07,460

cool thing to do but pretty soon that's

675

00:30:12,940 --> 00:30:10,490

all we know and we begin to lose that

676
00:30:14,350 --> 00:30:12,950
aspect of our humanists and again I'm

677
00:30:17,440 --> 00:30:14,360
not saying it's right or wrong or good

678
00:30:19,600 --> 00:30:17,450
or bad but at least know who we are know

679
00:30:21,400 --> 00:30:19,610
what that potential is before we make

680
00:30:24,580 --> 00:30:21,410
the choice to give it away yeah it only

681
00:30:27,040 --> 00:30:24,590
takes one generation that's it yeah it's

682
00:30:28,960 --> 00:30:27,050
altered immediately let's take our break

683
00:30:30,790 --> 00:30:28,970
right here Greg our guest tonight is

684
00:30:32,950 --> 00:30:30,800
Gregg Braden this is fade to black

685
00:30:35,920 --> 00:30:32,960
I'm your host Jimmy Church I'm the game

686
00:30:38,650 --> 00:30:35,930
changer networking kgr a the planet you

687
00:30:41,230 --> 00:30:38,660
can follow me on twitter at JDO you can

688
00:30:43,540 --> 00:30:41,240

follow Greg on Twitter at Gregg Braden

689

00:30:46,420 --> 00:30:43,550

Greg with two g's and the links are

690

00:30:48,220 --> 00:30:46,430

right up in Twitter in our feed we'll be

691

00:30:49,140 --> 00:30:48,230

right back after this short break stay

692

00:31:04,530 --> 00:30:49,150

with us

693

00:31:04,540 --> 00:31:08,590

[Music]

694

00:31:13,120 --> 00:31:11,289

all right welcome back may the block I

695

00:31:15,759 --> 00:31:13,130

am your host Jimmy church tonight gregg

696

00:31:17,889 --> 00:31:15,769

braden is with us want to remind

697

00:31:20,110 --> 00:31:17,899

everybody the scheduling changes this

698

00:31:22,749 --> 00:31:20,120

week tomorrow night is Fator night open

699

00:31:24,789 --> 00:31:22,759

lines Wednesday night Lin pick nits and

700

00:31:27,789 --> 00:31:24,799

Clyde prints are here and then Thursday

701
00:31:30,240 --> 00:31:27,799
night live from India deep Prasad

702
00:31:32,799 --> 00:31:30,250
tonight it's Gregg Braden and and Gregg

703
00:31:35,259 --> 00:31:32,809
we were discussing right before the

704
00:31:38,590 --> 00:31:35,269
break about replacing our own biology

705
00:31:42,039 --> 00:31:38,600
with technology there are aspects to it

706
00:31:44,139 --> 00:31:42,049
that I'm sort of okay with like say for

707
00:31:46,480 --> 00:31:44,149
instance music I don't think guitar is

708
00:31:49,060 --> 00:31:46,490
ever gonna go away but we've got a lot

709
00:31:52,690 --> 00:31:49,070
of electronic drums out there there's

710
00:31:54,730 --> 00:31:52,700
that part or digital painting and the

711
00:31:56,850 --> 00:31:54,740
creation of digital art I don't think

712
00:32:00,789 --> 00:31:56,860
paintbrushes are going to get replaced

713
00:32:03,909 --> 00:32:00,799

and when you look at real fine art you

714

00:32:06,820 --> 00:32:03,919

can appreciate and feel the human

715

00:32:09,639 --> 00:32:06,830

element in it when brushes are used but

716

00:32:12,940 --> 00:32:09,649

then there's the other part where if we

717

00:32:16,450 --> 00:32:12,950

start to depend on technology to think

718

00:32:19,480 --> 00:32:16,460

for us with smart devices smart

719

00:32:22,480 --> 00:32:19,490

everything smart cars well things are

720

00:32:25,389 --> 00:32:22,490

gonna change our brains will not be

721

00:32:27,610 --> 00:32:25,399

responding the same way as they did a

722

00:32:30,490 --> 00:32:27,620

couple of generations ago right oh

723

00:32:32,080 --> 00:32:30,500

absolutely I was just gonna clarify that

724

00:32:34,419 --> 00:32:32,090

when we came on this side of the hour

725

00:32:36,879 --> 00:32:34,429

you know the technology is never good or

726

00:32:39,700 --> 00:32:36,889

bad it's how it's applied and what

727

00:32:41,889 --> 00:32:39,710

typically happens in science is that the

728

00:32:44,919 --> 00:32:41,899

technology is developed first and then

729

00:32:47,499 --> 00:32:44,929

we have to catch up we have to backtrack

730

00:32:50,680 --> 00:32:47,509

and say you know how do we use this and

731

00:32:53,259 --> 00:32:50,690

do we have the right to use this I I've

732

00:32:55,899 --> 00:32:53,269

been the scientific community for most

733

00:32:58,840 --> 00:32:55,909

of my adult life and one of the things

734

00:33:00,909 --> 00:32:58,850

the ongoing battle that you will always

735

00:33:03,850 --> 00:33:00,919

hear between scientists at the water

736

00:33:05,409 --> 00:33:03,860

cooler over the coffee machine or you

737

00:33:07,330 --> 00:33:05,419

know in the bar after work or in the

738

00:33:10,360 --> 00:33:07,340

laboratory it's the same one there

739

00:33:14,740 --> 00:33:10,370

there's one school of thinking one camp

740

00:33:17,259 --> 00:33:14,750

that says because we have developed this

741

00:33:20,529 --> 00:33:17,269

technology because we've done it it

742

00:33:22,360 --> 00:33:20,539

gives us the right to apply this in our

743

00:33:23,770 --> 00:33:22,370

lives if we were never meant to

744

00:33:26,020 --> 00:33:23,780

but we never would have developed it

745

00:33:29,230 --> 00:33:26,030

that's one way of thinking another way

746

00:33:30,910 --> 00:33:29,240

of thinking is just because we can does

747

00:33:33,940 --> 00:33:30,920

not necessarily mean that we should

748

00:33:35,710 --> 00:33:33,950

apply this in our lives it's like you

749

00:33:37,840 --> 00:33:35,720

know you might have a Ferrari I was just

750

00:33:40,270 --> 00:33:37,850

with a friend in Zurich Switzerland has

751

00:33:42,820 --> 00:33:40,280

got a Maserati and the speedometer

752

00:33:45,100 --> 00:33:42,830

clocks it much higher then you know they

753

00:33:46,780 --> 00:33:45,110

really want you to drive on the freeway

754

00:33:48,250 --> 00:33:46,790

so just because you can doesn't

755

00:33:50,200 --> 00:33:48,260

necessarily mean that you that you

756

00:33:54,030 --> 00:33:50,210

should so I'm gonna give you a perfect

757

00:33:58,330 --> 00:33:54,040

example of this up until a few years ago

758

00:34:00,970 --> 00:33:58,340

the idea of gene editing was pretty much

759

00:34:04,450 --> 00:34:00,980

science fiction you know on any kind of

760

00:34:05,860 --> 00:34:04,460

a large scale a few years ago technology

761

00:34:07,600 --> 00:34:05,870

was developed and I'm sure you've got a

762

00:34:09,040 --> 00:34:07,610

very sophisticated audience here and I'm

763

00:34:11,940 --> 00:34:09,050

sure they're familiar with it's called

764

00:34:15,220 --> 00:34:11,950

CRISPR mmm-hmm so just the way that we

765

00:34:18,040 --> 00:34:15,230

edit words with a word editor on the

766

00:34:22,210 --> 00:34:18,050

computer you can bring up a strand of

767

00:34:24,760 --> 00:34:22,220

DNA and delete and add in splice genes

768

00:34:26,290 --> 00:34:24,770

with an editor the same way so we've had

769

00:34:28,180 --> 00:34:26,300

this for a while you know scientists

770

00:34:30,280 --> 00:34:28,190

been using it with worms and flies and

771

00:34:31,020 --> 00:34:30,290

you know certain kinds of crops and

772

00:34:34,889 --> 00:34:31,030

things like that

773

00:34:37,090 --> 00:34:34,899

last year 2018 all of a sudden

774

00:34:39,970 --> 00:34:37,100

completely unexpected a Chinese

775

00:34:43,060 --> 00:34:39,980

scientist announced that the first set

776

00:34:45,310 --> 00:34:43,070

of twins had been born as the result of

777

00:34:47,139 --> 00:34:45,320

gene editing and the scientific

778

00:34:48,580 --> 00:34:47,149

community came down on him like a ton of

779

00:34:51,280 --> 00:34:48,590

bricks and they said wait a minute

780

00:34:53,710 --> 00:34:51,290

you know we never agreed that we were

781

00:34:55,690 --> 00:34:53,720

going to use this you know for real we

782

00:34:57,970 --> 00:34:55,700

were talking about developing it and

783

00:35:00,550 --> 00:34:57,980

what the potential is you know and he

784

00:35:01,930 --> 00:35:00,560

was of the thinking hey you know if we

785

00:35:05,200 --> 00:35:01,940

if we weren't meant to use it we

786

00:35:06,520 --> 00:35:05,210

wouldn't have it so now the science has

787

00:35:11,080 --> 00:35:06,530

to catch up and there's a huge

788

00:35:13,480 --> 00:35:11,090

scientific debate over how we edit the

789

00:35:15,880 --> 00:35:13,490

DNA of unborn children who is it that

790

00:35:18,760 --> 00:35:15,890

makes the choice of what's a desirable

791

00:35:22,210 --> 00:35:18,770

trait and what's not and how did they

792

00:35:24,070 --> 00:35:22,220

filter that through their history of you

793

00:35:26,740 --> 00:35:24,080

know their experience and and you know

794

00:35:29,560 --> 00:35:26,750

do we do we make all children have the

795

00:35:31,510 --> 00:35:29,570

same intelligence I - or you know

796

00:35:33,250 --> 00:35:31,520

intelligence quotient or do they all

797

00:35:35,530 --> 00:35:33,260

have the same color of hair or what's an

798

00:35:35,660 --> 00:35:35,540

undesirable color of hair that we want

799

00:35:38,000 --> 00:35:35,670

to

800

00:35:40,039 --> 00:35:38,010

take out and this is science is really

801
00:35:42,950 --> 00:35:40,049
struggling with this right now and this

802
00:35:46,160 --> 00:35:42,960
is an example of where the technology

803
00:35:49,940 --> 00:35:46,170
has advanced before the morality do we

804
00:35:54,589 --> 00:35:49,950
have to write do we have to have a DNA

805
00:35:57,349 --> 00:35:54,599
police write like DNA courts well this

806
00:35:59,569 --> 00:35:57,359
is where this is where the next part of

807
00:36:02,089 --> 00:35:59,579
our conversation comes in my personal

808
00:36:03,980 --> 00:36:02,099
feeling and I'll be very clear with with

809
00:36:07,010 --> 00:36:03,990
you sitting here on your couch and the

810
00:36:08,809 --> 00:36:07,020
buzzer that might be listening I I'll

811
00:36:11,299 --> 00:36:08,819
separate the peer-reviewed science from

812
00:36:15,339 --> 00:36:11,309
my personal feeling the research that

813
00:36:18,349 --> 00:36:15,349

I've done the the science that I've seen

814

00:36:21,049 --> 00:36:18,359

in this you know over 60 years of my

815

00:36:23,390 --> 00:36:21,059

life now there are some things I really

816

00:36:26,089 --> 00:36:23,400

think are that we shouldn't be messing

817

00:36:29,020 --> 00:36:26,099

with because of the way they were

818

00:36:33,079 --> 00:36:29,030

created and human DNA is part of that

819

00:36:35,000 --> 00:36:33,089

one of the the paradigm shattering

820

00:36:38,059 --> 00:36:35,010

discoveries I mean this is just blowing

821

00:36:40,339 --> 00:36:38,069

the doors it's it's like an earthquake

822

00:36:43,130 --> 00:36:40,349

shaking the foundations of the life

823

00:36:46,099 --> 00:36:43,140

sciences and biology is that evolution

824

00:36:48,650 --> 00:36:46,109

as we have been led to understand it is

825

00:36:49,940 --> 00:36:48,660

not our story and I want to be really

826

00:36:53,089 --> 00:36:49,950

clear about what I'm saying here I'm a

827

00:36:54,829 --> 00:36:53,099

geologist and I've seen evidence of

828

00:36:56,539 --> 00:36:54,839

evolution in the fossil evolutions of

829

00:37:00,710 --> 00:36:56,549

fact I've seen it in the fossil record

830

00:37:03,470 --> 00:37:00,720

for many plants many insects many many

831

00:37:06,440 --> 00:37:03,480

forms of life the story of evolution

832

00:37:09,620 --> 00:37:06,450

breaks down when it comes to humans and

833

00:37:12,260 --> 00:37:09,630

this is really really causing a lot of

834

00:37:14,450 --> 00:37:12,270

problems the theory of evolution is in

835

00:37:16,400 --> 00:37:14,460

trouble right now so I'm going to give

836

00:37:19,130 --> 00:37:16,410

you two two different ways of looking at

837

00:37:21,920 --> 00:37:19,140

one is the physical evidence supporting

838

00:37:23,569 --> 00:37:21,930

evolution has never existed if you look

839

00:37:26,900 --> 00:37:23,579

at one of those evolutionary family

840

00:37:28,789 --> 00:37:26,910

trees you see on you know the PBS or the

841

00:37:32,210 --> 00:37:28,799

Nova special we're in the Smithsonian

842

00:37:33,620 --> 00:37:32,220

magazine you know you see us a skull of

843

00:37:34,700 --> 00:37:33,630

a modern human at the top and then you

844

00:37:37,099 --> 00:37:34,710

see all the branches of this tree

845

00:37:40,700 --> 00:37:37,109

connecting it to all these other forms

846

00:37:42,980 --> 00:37:40,710

of life and if you look closely those

847

00:37:46,099 --> 00:37:42,990

branches typically are either broken

848

00:37:49,130 --> 00:37:46,109

lines or the legend that tells you that

849

00:37:51,560 --> 00:37:49,140

they are what are called inferred

850

00:37:54,650 --> 00:37:51,570

or speculative for relationships they

851
00:37:57,040 --> 00:37:54,660
are believed to exist although no

852
00:37:59,630 --> 00:37:57,050
physical evidence has ever been found

853
00:38:01,910 --> 00:37:59,640
linking us to those other forms of life

854
00:38:05,180 --> 00:38:01,920
physical evidence now that theory was

855
00:38:07,520 --> 00:38:05,190
proposed in 1859 and from the time it

856
00:38:09,980 --> 00:38:07,530
was proposed a lot of scientists had a

857
00:38:11,960 --> 00:38:09,990
problem with a theory so we've known

858
00:38:13,370 --> 00:38:11,970
this and if that is all there was I

859
00:38:15,470 --> 00:38:13,380
probably wouldn't even be having this

860
00:38:17,570 --> 00:38:15,480
conversation with you but the new

861
00:38:19,190 --> 00:38:17,580
discoveries now that are changing

862
00:38:21,130 --> 00:38:19,200
everything go beyond the physical

863
00:38:23,540 --> 00:38:21,140

evidence Jimmy now we're looking at DNA

864

00:38:25,370 --> 00:38:23,550

so I think some of our listeners

865

00:38:27,710 --> 00:38:25,380

probably remember there was a movie

866

00:38:30,290 --> 00:38:27,720

Jurassic Park the first Jurassic Park

867

00:38:33,010 --> 00:38:30,300

came out a few years ago where it was

868

00:38:36,080 --> 00:38:33,020

science fiction at the time where DNA

869

00:38:39,440 --> 00:38:36,090

was extracted from the fossilized

870

00:38:42,950 --> 00:38:39,450

remains of ancient forms of life and in

871

00:38:45,020 --> 00:38:42,960

the movie that DNA was was reconstituted

872

00:38:46,250 --> 00:38:45,030

it was brought back to life well to the

873

00:38:48,710 --> 00:38:46,260

best of my knowledge we haven't gone

874

00:38:51,830 --> 00:38:48,720

quite that far but what we are able to

875

00:38:54,380 --> 00:38:51,840

do now is we have we I say we the

876

00:38:56,840 --> 00:38:54,390

scientific community we have the ability

877

00:38:58,850 --> 00:38:56,850

to extract the DNA from fossilized

878

00:39:01,760 --> 00:38:58,860

remains of ancient forms of life

879

00:39:04,820 --> 00:39:01,770

including the forms of life that were

880

00:39:08,030 --> 00:39:04,830

once believes to be our ancestors that

881

00:39:09,680 --> 00:39:08,040

we had descended from so now we're that

882

00:39:13,100 --> 00:39:09,690

comes usually it comes from the bone

883

00:39:16,430 --> 00:39:13,110

marrow and a lot of times the ribs of

884

00:39:18,380 --> 00:39:16,440

those those primitive beings are where

885

00:39:21,170 --> 00:39:18,390

you find the best preserved bone marrow

886

00:39:23,450 --> 00:39:21,180

so now we're able to build a genome of

887

00:39:25,700 --> 00:39:23,460

those ancient forms of life and compare

888

00:39:27,830 --> 00:39:25,710

it to modern DNA today and this is the

889

00:39:30,320 --> 00:39:27,840

kicker this is what's blowing the doors

890

00:39:33,590 --> 00:39:30,330

off of of the ideas of evolution is

891

00:39:35,240 --> 00:39:33,600

there's not enough DNA overlap to

892

00:39:37,430 --> 00:39:35,250

suggest that we have descended from

893

00:39:39,320 --> 00:39:37,440

those forms of life for example we did

894

00:39:43,490 --> 00:39:39,330

not descend from Neanderthal we now know

895

00:39:45,920 --> 00:39:43,500

that we there's not enough common DNA to

896

00:39:48,410 --> 00:39:45,930

show that we descended from them we we

897

00:39:50,630 --> 00:39:48,420

shared the earth with them and we

898

00:39:53,740 --> 00:39:50,640

probably interbred with them and that's

899

00:39:57,260 --> 00:39:53,750

why some people do you know if you go to

900

00:39:59,270 --> 00:39:57,270

23andme or ancestry.com and they have

901
00:40:02,510 --> 00:39:59,280
your DNA analyzed you might find if you

902
00:40:04,400 --> 00:40:02,520
have some some Neanderthal DNA because

903
00:40:06,110 --> 00:40:04,410
there was in her breeding but we shared

904
00:40:08,810 --> 00:40:06,120
the years with them we did not descend

905
00:40:10,940 --> 00:40:08,820
from them so this is this is one of the

906
00:40:13,010 --> 00:40:10,950
discoveries we did not descend from

907
00:40:15,920 --> 00:40:13,020
those forms of life but but here's where

908
00:40:18,650 --> 00:40:15,930
it gets really interesting we showed up

909
00:40:21,650 --> 00:40:18,660
we as anatomically modern humans this is

910
00:40:24,200 --> 00:40:21,660
what we're called AMH is the acronym in

911
00:40:26,720 --> 00:40:24,210
the scientific jargon anatomically

912
00:40:29,930 --> 00:40:26,730
modern humans we appeared on earth about

913
00:40:31,400 --> 00:40:29,940

200,000 years ago and scientists agree

914

00:40:35,390 --> 00:40:31,410

with that there's no controversy there

915

00:40:38,420 --> 00:40:35,400

the problem is how we got to be where we

916

00:40:41,360 --> 00:40:38,430

are there is no evolutionary path

917

00:40:45,440 --> 00:40:41,370

leading to our emergence we showed up

918

00:40:48,290 --> 00:40:45,450

jimmy fully with a brain 50% larger than

919

00:40:51,380 --> 00:40:48,300

our nearest primate relatives with this

920

00:40:53,840 --> 00:40:51,390

this advanced neural network in our

921

00:40:56,360 --> 00:40:53,850

heart and in our brain and in our bodies

922

00:40:58,370 --> 00:40:56,370

with the same body proportions we have

923

00:41:00,590 --> 00:40:58,380

today with the same capacities the same

924

00:41:02,570 --> 00:41:00,600

capabilities we have today and what the

925

00:41:05,150 --> 00:41:02,580

DNA is showing is we showed up and we

926
00:41:07,490 --> 00:41:05,160
have not changed since we appeared that

927
00:41:11,330 --> 00:41:07,500
is a problem for Darwin's idea of

928
00:41:14,600 --> 00:41:11,340
evolution when we start looking at the

929
00:41:18,410 --> 00:41:14,610
specific chromosomes that give us our

930
00:41:20,990 --> 00:41:18,420
uniqueness as humans this is where it

931
00:41:25,160 --> 00:41:21,000
just goes right off the charts because

932
00:41:28,340 --> 00:41:25,170
we're looking at mutations in the human

933
00:41:31,070 --> 00:41:28,350
genome that could not have happened

934
00:41:33,650 --> 00:41:31,080
through evolutionary processes and and

935
00:41:35,720 --> 00:41:33,660
the scientists say that in the technical

936
00:41:37,400 --> 00:41:35,730
pin of national for the proceedings for

937
00:41:40,190 --> 00:41:37,410
National Academy of Sciences for example

938
00:41:42,770 --> 00:41:40,200

on the volume genetics talking about

939

00:41:45,890 --> 00:41:42,780

human chromosome number two chromosome

940

00:41:48,820 --> 00:41:45,900

two gives us our larger brain it gives

941

00:41:52,340 --> 00:41:48,830

us our capacities for empathy sympathy

942

00:41:54,650 --> 00:41:52,350

emotion self regulation compassion all

943

00:41:57,380 --> 00:41:54,660

those things that make us human that

944

00:42:00,560 --> 00:41:57,390

chromosome is a result of a fusion Jimmy

945

00:42:02,750 --> 00:42:00,570

it's a fusion of two pre-existing

946

00:42:06,340 --> 00:42:02,760

chromosomes that after the fusion

947

00:42:09,700 --> 00:42:06,350

happened the DNA was tweaked genes were

948

00:42:12,560 --> 00:42:09,710

removed genes were added and all of this

949

00:42:14,210 --> 00:42:12,570

didn't make any sense to us until we saw

950

00:42:16,340 --> 00:42:14,220

the CRISPR technology within the last

951
00:42:19,220 --> 00:42:16,350
few years it looks like

952
00:42:21,740 --> 00:42:19,230
crisper type event except it happened

953
00:42:24,320 --> 00:42:21,750
over 200,000 years ago and in others

954
00:42:25,820 --> 00:42:24,330
chromosome 7 you can allowed this you're

955
00:42:28,310 --> 00:42:25,830
a musician I didn't know this I'm a

956
00:42:33,020 --> 00:42:28,320
musician so as a musician have you ever

957
00:42:35,600 --> 00:42:33,030
wondered why chimpanzees that share 98%

958
00:42:36,740 --> 00:42:35,610
of our DNA can't sing you ever wondered

959
00:42:38,810 --> 00:42:36,750
what you're never going to see a

960
00:42:42,650 --> 00:42:38,820
chimpanzee sing stairway to heaven right

961
00:42:45,110 --> 00:42:42,660
and and the answer the answer why that

962
00:42:49,250 --> 00:42:45,120
cannot happen is because there is a

963
00:42:52,460 --> 00:42:49,260

mutation in human chromosome 7 that had

964

00:42:55,220 --> 00:42:52,470

not occurred previously for 75 million

965

00:42:57,590 --> 00:42:55,230

years and all of a sudden this mutation

966

00:43:00,980 --> 00:42:57,600

happened and it happened exactly at the

967

00:43:04,400 --> 00:43:00,990

same time that 200,000 year mark and you

968

00:43:06,860 --> 00:43:04,410

see this time and time again so so we

969

00:43:09,320 --> 00:43:06,870

can go on and on with this let me jump

970

00:43:11,390 --> 00:43:09,330

in though Greg what are what are we

971

00:43:15,290 --> 00:43:11,400

suggesting here I'll give you a

972

00:43:19,270 --> 00:43:15,300

suggestion this is my suggestion that

973

00:43:23,990 --> 00:43:19,280

that quite possibly we were placed here

974

00:43:27,560 --> 00:43:24,000

you know that that that we just appeared

975

00:43:29,990 --> 00:43:27,570

here how that happened I don't know I

976

00:43:32,720 --> 00:43:30,000

don't know if it's offworld if it's

977

00:43:35,750 --> 00:43:32,730

somebody visited here and did did some

978

00:43:38,180 --> 00:43:35,760

CRISPR work 200,000 years ago but I can

979

00:43:42,620 --> 00:43:38,190

tell you what it wasn't it wasn't a

980

00:43:45,890 --> 00:43:42,630

lightning strike that magically altered

981

00:43:48,620 --> 00:43:45,900

our DNA cook the soup in the ocean right

982

00:43:50,480 --> 00:43:48,630

it wasn't wasn't the lightning exactly

983

00:43:52,610 --> 00:43:50,490

well tell me what you're saying this is

984

00:43:56,090 --> 00:43:52,620

the very point the evidence does not

985

00:43:58,370 --> 00:43:56,100

support the story and the point is we

986

00:44:01,160 --> 00:43:58,380

don't have the answer because we're

987

00:44:03,140 --> 00:44:01,170

forcing our young people to follow a

988

00:44:04,700 --> 00:44:03,150

story that the evidence doesn't support

989

00:44:07,450 --> 00:44:04,710

even though we know it's no longer true

990

00:44:11,350 --> 00:44:07,460

there there's a huge difference between

991

00:44:14,270 --> 00:44:11,360

forcing all of the existing data into a

992

00:44:18,800 --> 00:44:14,280

predetermined story sure to support that

993

00:44:20,720 --> 00:44:18,810

story and following the evidence to

994

00:44:25,130 --> 00:44:20,730

whatever story it's going to lead that

995

00:44:28,070 --> 00:44:25,140

lead us to and and my feeling is as we

996

00:44:30,470 --> 00:44:28,080

follow the evidence to wherever it leads

997

00:44:34,400 --> 00:44:30,480

we're writing a new human so

998

00:44:36,620 --> 00:44:34,410

it's going to to free us in so many ways

999

00:44:38,120 --> 00:44:36,630

from the shackles of these these

1000

00:44:42,080 --> 00:44:38,130

limiting beliefs that we've had in the

1001
00:44:45,140 --> 00:44:42,090
past but the point is we we we can't get

1002
00:44:48,770 --> 00:44:45,150
there scientifically until we free our

1003
00:44:51,350 --> 00:44:48,780
scientists from the bonds of these

1004
00:44:53,450 --> 00:44:51,360
pre-existing ideas that are being

1005
00:44:55,730 --> 00:44:53,460
imposed upon them through the system

1006
00:44:57,470 --> 00:44:55,740
through the university system and in the

1007
00:44:59,630 --> 00:44:57,480
academics and I'm not saying through

1008
00:45:02,300 --> 00:44:59,640
Darwin's ideas out we've got smart young

1009
00:45:03,860 --> 00:45:02,310
people in these schools give them all of

1010
00:45:06,860 --> 00:45:03,870
the data give them all of the evidence

1011
00:45:08,930 --> 00:45:06,870
show them Darb Darwin's ideas show them

1012
00:45:10,790 --> 00:45:08,940
the new discoveries so that they've got

1013
00:45:14,810 --> 00:45:10,800

everything they need to go after this

1014

00:45:17,870 --> 00:45:14,820

answer and and tell us in a way that is

1015

00:45:20,480 --> 00:45:17,880

accepted in a language is not based in

1016

00:45:22,250 --> 00:45:20,490

religion and the language of science who

1017

00:45:24,130 --> 00:45:22,260

we are and where we've come from and

1018

00:45:26,180 --> 00:45:24,140

when we begin to understand those things

1019

00:45:27,980 --> 00:45:26,190

then we begin to look at one another

1020

00:45:30,110 --> 00:45:27,990

very differently and we begin to look at

1021

00:45:31,640 --> 00:45:30,120

our relationship to the world very

1022

00:45:34,780 --> 00:45:31,650

differently and I think that's where

1023

00:45:37,730 --> 00:45:34,790

peace begins and that's where a

1024

00:45:41,450 --> 00:45:37,740

compassionate sharing world really

1025

00:45:43,310 --> 00:45:41,460

begins so the the the new discoveries I

1026
00:45:45,290 --> 00:45:43,320
mean these what I'm saying to you this

1027
00:45:46,730 --> 00:45:45,300
is peer-reviewed science you know write

1028
00:45:48,170 --> 00:45:46,740
about my books I'll talk it about the

1029
00:45:51,650 --> 00:45:48,180
conscious life x-bow I'll show great

1030
00:45:54,500 --> 00:45:51,660
pictures of you know how these things

1031
00:45:57,830 --> 00:45:54,510
happened they that the mutations

1032
00:46:00,200 --> 00:45:57,840
happened all at the same period of time

1033
00:46:03,220 --> 00:46:00,210
that two hundred thousand year mark so

1034
00:46:06,380 --> 00:46:03,230
as a scientist what I have to say is

1035
00:46:09,020 --> 00:46:06,390
that when I'm asked what caused those

1036
00:46:11,780 --> 00:46:09,030
mutations I have to say it appears there

1037
00:46:13,700 --> 00:46:11,790
is some form of intervention now what

1038
00:46:17,000 --> 00:46:13,710

that intervention is I don't know as a

1039

00:46:19,550 --> 00:46:17,010

scientist but here's what I also know as

1040

00:46:21,860 --> 00:46:19,560

I have spent so much of my adult life

1041

00:46:24,650 --> 00:46:21,870

with indigenous traditions and ancient

1042

00:46:26,330 --> 00:46:24,660

texts I've not studied every tradition

1043

00:46:28,370 --> 00:46:26,340

Jimmy but every one that I have studied

1044

00:46:30,470 --> 00:46:28,380

is different as they are from one

1045

00:46:32,170 --> 00:46:30,480

another there's a common theme and that

1046

00:46:34,940 --> 00:46:32,180

common theme is that we are the product

1047

00:46:36,910 --> 00:46:34,950

of an intelligent intervention and that

1048

00:46:40,790 --> 00:46:36,920

we are related to something so much more

1049

00:46:42,710 --> 00:46:40,800

than the limited way that we've been led

1050

00:46:44,210 --> 00:46:42,720

to think of ourselves in the world we're

1051
00:46:46,760 --> 00:46:44,220
part of a much greater community

1052
00:46:48,770 --> 00:46:46,770
we we have this extraordinary potential

1053
00:46:51,500 --> 00:46:48,780
and it's for that reason I'm going to

1054
00:46:55,849 --> 00:46:51,510
tie this back it's for that reason until

1055
00:46:57,920 --> 00:46:55,859
we embrace the deep truth of what that

1056
00:47:01,790 --> 00:46:57,930
science is showing us I don't think we

1057
00:47:04,580 --> 00:47:01,800
want to be tweaking the DNA and that we

1058
00:47:06,410 --> 00:47:04,590
appeared with 200,000 years ago another

1059
00:47:09,349 --> 00:47:06,420
way of saying it is the DNA that we were

1060
00:47:12,230 --> 00:47:09,359
given this extraordinary potential you

1061
00:47:15,349 --> 00:47:12,240
know in evolutionary biology a lot of

1062
00:47:18,020 --> 00:47:15,359
people don't know this Charles Darwin is

1063
00:47:19,580 --> 00:47:18,030

noted often as the author but he had a

1064

00:47:23,170 --> 00:47:19,590

co-author of the theories name was

1065

00:47:25,370 --> 00:47:23,180

Alfred Wallace and one of the tenants of

1066

00:47:29,750 --> 00:47:25,380

evolutionary biology is that nature

1067

00:47:32,210 --> 00:47:29,760

never over endowed a species with more

1068

00:47:34,609 --> 00:47:32,220

than it needs in the moment of its

1069

00:47:38,089 --> 00:47:34,619

existence that's right so in other words

1070

00:47:40,849 --> 00:47:38,099

it's it's only when circumstances

1071

00:47:42,500 --> 00:47:40,859

present us with a need to develop new

1072

00:47:44,480 --> 00:47:42,510

abilities and new capabilities new ways

1073

00:47:46,640 --> 00:47:44,490

of seeing or hearing or tasting or

1074

00:47:48,800 --> 00:47:46,650

assimilating food or whatever it is that

1075

00:47:52,250 --> 00:47:48,810

we develop those and and this is the

1076

00:47:54,050 --> 00:47:52,260

problem we appeared over and out we are

1077

00:47:56,540 --> 00:47:54,060

an over endowed species I know some

1078

00:47:58,700 --> 00:47:56,550

people love to hear that and you can you

1079

00:48:01,579 --> 00:47:58,710

can take that in a lot of places but we

1080

00:48:04,270 --> 00:48:01,589

are an over endowed species because we

1081

00:48:07,250 --> 00:48:04,280

appeared 200,000 years ago within

1082

00:48:08,750 --> 00:48:07,260

internal technology light-years beyond

1083

00:48:11,839 --> 00:48:08,760

what we needed for our everyday

1084

00:48:13,520 --> 00:48:11,849

existence already intact it did not

1085

00:48:15,800 --> 00:48:13,530

develop slowly gradually over a long

1086

00:48:17,089 --> 00:48:15,810

period of time that is a problem for

1087

00:48:18,920 --> 00:48:17,099

evolutionary biology

1088

00:48:24,079 --> 00:48:18,930

now can I play devil's advocate for a

1089

00:48:26,720 --> 00:48:24,089

second yeah I'm your guy I'm I'm one of

1090

00:48:29,270 --> 00:48:26,730

your fellow educator sitting across the

1091

00:48:32,140 --> 00:48:29,280

table let you say this and I leaned

1092

00:48:34,550 --> 00:48:32,150

forward and I say what do you mean

1093

00:48:37,880 --> 00:48:34,560

intelligent intervention what are you

1094

00:48:40,150 --> 00:48:37,890

really trying to say here I'm not I want

1095

00:48:42,980 --> 00:48:40,160

you to be clear you know what I mean I

1096

00:48:46,430 --> 00:48:42,990

and that's that was what I would say to

1097

00:48:48,620 --> 00:48:46,440

that - that educator I would say you

1098

00:48:50,240 --> 00:48:48,630

just hit the nail on the head I don't

1099

00:48:54,050 --> 00:48:50,250

know and neither do you

1100

00:48:56,170 --> 00:48:54,060

educator and we don't know as a society

1101
00:48:58,050 --> 00:48:56,180
because we've not allowed ourselves to

1102
00:49:00,300 --> 00:48:58,060
answer this question

1103
00:49:01,080 --> 00:49:00,310
to the fullest extent we're running the

1104
00:49:04,160 --> 00:49:01,090
other way

1105
00:49:06,660 --> 00:49:04,170
discounting the evidence when I say

1106
00:49:09,360 --> 00:49:06,670
intelligent intervention our own

1107
00:49:11,430 --> 00:49:09,370
scientist peer-reviewed science there is

1108
00:49:13,760 --> 00:49:11,440
a an organization of proceedings

1109
00:49:16,770 --> 00:49:13,770
National Academy of Sciences this is a

1110
00:49:18,630 --> 00:49:16,780
peer-reviewed publication when they

1111
00:49:20,700 --> 00:49:18,640
began writing about human chromosome 2

1112
00:49:23,970 --> 00:49:20,710
they were the first that said this

1113
00:49:26,490 --> 00:49:23,980

fusion and the tweaking that happened

1114

00:49:28,650 --> 00:49:26,500

after the fusion occurred that gives us

1115

00:49:31,830 --> 00:49:28,660

our uniqueness could not be the product

1116

00:49:34,530 --> 00:49:31,840

of evolutionary processes something

1117

00:49:38,820 --> 00:49:34,540

happened that that evolution cannot

1118

00:49:40,800 --> 00:49:38,830

explain so this is where another there's

1119

00:49:42,570 --> 00:49:40,810

two ways of thinking of this I have

1120

00:49:44,360 --> 00:49:42,580

colleagues that say we've got to answer

1121

00:49:47,010 --> 00:49:44,370

the question we have to know who we are

1122

00:49:49,200 --> 00:49:47,020

before we know what our potential is and

1123

00:49:53,670 --> 00:49:49,210

I'm taking the other path Jimmy on what

1124

00:49:56,910 --> 00:49:53,680

I'm saying is let's develop the fullest

1125

00:49:59,730 --> 00:49:56,920

extent of our extraordinary potential

1126

00:50:03,000 --> 00:49:59,740

these extraordinary capabilities that we

1127

00:50:05,430 --> 00:50:03,010

all have of super super cognition super

1128

00:50:08,040 --> 00:50:05,440

perception super immune response super

1129

00:50:10,890 --> 00:50:08,050

longevity the ability to access deep

1130

00:50:13,290 --> 00:50:10,900

states of intuition on demand to heal

1131

00:50:15,120 --> 00:50:13,300

our bodies quickly than sciences has

1132

00:50:16,650 --> 00:50:15,130

been led to believe and we do all this

1133

00:50:19,850 --> 00:50:16,660

I've read about my books doing our

1134

00:50:23,720 --> 00:50:19,860

workshops so that my colleagues by

1135

00:50:27,150 --> 00:50:23,730

embracing the deep truth of who we are I

1136

00:50:30,570 --> 00:50:27,160

think that will lead us to understand

1137

00:50:32,340 --> 00:50:30,580

our relationship to who or whatever it

1138

00:50:33,660 --> 00:50:32,350

is that is responsible for us being here

1139

00:50:35,280 --> 00:50:33,670

it's a very very different way of

1140

00:50:38,220 --> 00:50:35,290

thinking yeah and I want to continue

1141

00:50:43,680 --> 00:50:38,230

this after the break but I want to ask

1142

00:50:47,250 --> 00:50:43,690

you this before the break did the did

1143

00:50:49,410 --> 00:50:47,260

the technology movement that happened at

1144

00:50:54,780 --> 00:50:49,420

an extraordinarily fast rate back in

1145

00:50:57,450 --> 00:50:54,790

1995 until today it is completely out of

1146

00:51:01,890 --> 00:50:57,460

our control now it's too much too fast

1147

00:51:04,350 --> 00:51:01,900

and it is causing changes on this planet

1148

00:51:07,440 --> 00:51:04,360

with consciousness with the the

1149

00:51:10,830 --> 00:51:07,450

infighting the divisive nests the

1150

00:51:15,150 --> 00:51:10,840

complexity of things was it too much to

1151
00:51:17,790 --> 00:51:15,160
fast for us to handle in my opinion I

1152
00:51:19,590 --> 00:51:17,800
don't think so and and the reason I say

1153
00:51:22,440 --> 00:51:19,600
that relates to something that we have

1154
00:51:25,620 --> 00:51:22,450
not yet talked about tonight but as a

1155
00:51:29,280 --> 00:51:25,630
scientist I'm a systems thinker and I'm

1156
00:51:32,700 --> 00:51:29,290
also process oriented and when I look at

1157
00:51:36,240 --> 00:51:32,710
systems I look at the history of our

1158
00:51:40,320 --> 00:51:36,250
planet in terms of systems in cycles and

1159
00:51:44,190 --> 00:51:40,330
I look at the history of life and human

1160
00:51:46,650 --> 00:51:44,200
civilization and human emergence in

1161
00:51:48,390 --> 00:51:46,660
terms of cycles and when you step back

1162
00:51:50,880 --> 00:51:48,400
and you look at the big picture Jimmy

1163
00:51:51,990 --> 00:51:50,890

what you find it's a very different

1164

00:51:53,730 --> 00:51:52,000

story than what we've been led to

1165

00:51:56,730 --> 00:51:53,740

believe when when I was in school back

1166

00:51:59,700 --> 00:51:56,740

in the 50s 60s early 70s you know I was

1167

00:52:01,770 --> 00:51:59,710

taught that civilization began in a

1168

00:52:05,100 --> 00:52:01,780

primitive state and it was a linear

1169

00:52:08,340 --> 00:52:05,110

growth up to this pinnacle that we find

1170

00:52:10,680 --> 00:52:08,350

today the problem is the archaeology

1171

00:52:13,200 --> 00:52:10,690

doesn't support that linear model with

1172

00:52:15,960 --> 00:52:13,210

the archaeology says is that we are the

1173

00:52:18,450 --> 00:52:15,970

product of cycles of civilization and

1174

00:52:20,520 --> 00:52:18,460

those cycles are largely driven by

1175

00:52:24,210 --> 00:52:20,530

cosmic cycles that affect everything

1176

00:52:27,450 --> 00:52:24,220

from climate to sea levels to

1177

00:52:29,790 --> 00:52:27,460

consciousness so when I look at what has

1178

00:52:31,520 --> 00:52:29,800

happened within the context of those

1179

00:52:34,890 --> 00:52:31,530

cycles what I say is we are right on

1180

00:52:39,000 --> 00:52:34,900

it's it's an evolutionary acceleration

1181

00:52:42,300 --> 00:52:39,010

and the technology had to happen quickly

1182

00:52:45,000 --> 00:52:42,310

to push us to understand our

1183

00:52:47,100 --> 00:52:45,010

relationship to that technology within

1184

00:52:48,750 --> 00:52:47,110

where we are in the cycle so I know

1185

00:52:50,100 --> 00:52:48,760

that's that's a lot to unpack and when

1186

00:52:51,390 --> 00:52:50,110

we come back from you know from our

1187

00:52:54,240 --> 00:52:51,400

break we can talk about that in more

1188

00:52:56,760 --> 00:52:54,250

detail how do we how do we slow it down

1189

00:52:58,800 --> 00:52:56,770

though that's the thing so we can fully

1190

00:53:00,630 --> 00:52:58,810

understand how it's affecting us is

1191

00:53:04,110 --> 00:53:00,640

there a way to pump the brakes and and

1192

00:53:06,300 --> 00:53:04,120

take a breath in terms of the technology

1193

00:53:07,740 --> 00:53:06,310

yes I don't think so

1194

00:53:10,560 --> 00:53:07,750

it's kind of like the genies out of the

1195

00:53:12,300 --> 00:53:10,570

bottle right what has happened is the

1196

00:53:14,640 --> 00:53:12,310

traditional boundaries between the

1197

00:53:16,410 --> 00:53:14,650

sciences are collapsing so the

1198

00:53:18,660 --> 00:53:16,420

discoveries in physics are now being

1199

00:53:21,060 --> 00:53:18,670

applied to biology and the discoveries

1200

00:53:23,340 --> 00:53:21,070

in chemistry are now being applied to

1201
00:53:23,610 --> 00:53:23,350
physiology and neurology and there are

1202
00:53:26,580 --> 00:53:23,620
new

1203
00:53:28,230 --> 00:53:26,590
Sciences like neuro cardiology that are

1204
00:53:30,890 --> 00:53:28,240
linking the heart in the brain in ways

1205
00:53:34,050 --> 00:53:30,900
that we never did in the past so I think

1206
00:53:36,930 --> 00:53:34,060
the the the breakdown of the boundaries

1207
00:53:41,670 --> 00:53:36,940
between the technologies is leading us

1208
00:53:44,880 --> 00:53:41,680
to a wisdom that is greater than in its

1209
00:53:46,320 --> 00:53:44,890
in its totality then what we have done

1210
00:53:48,780 --> 00:53:46,330
with the compartmentalized

1211
00:53:50,190 --> 00:53:48,790
wisdom of the past I'm just a quick

1212
00:53:52,590 --> 00:53:50,200
example that's the best way to describe

1213
00:53:56,100 --> 00:53:52,600

this when I was a geologist back in the

1214

00:53:58,110 --> 00:53:56,110

70s I was studying geophysics in the

1215

00:54:00,150 --> 00:53:58,120

magnetic fields of the earth it was

1216

00:54:02,520 --> 00:54:00,160

obvious that the magnetic fields of the

1217

00:54:04,200 --> 00:54:02,530

earth are changing very quickly and my

1218

00:54:06,900 --> 00:54:04,210

question was what does that mean to us

1219

00:54:08,610 --> 00:54:06,910

to to biological beings and my

1220

00:54:09,750 --> 00:54:08,620

colleagues they looked at me and they

1221

00:54:12,540 --> 00:54:09,760

said you know don't ask me I'm a

1222

00:54:14,040 --> 00:54:12,550

geologist go ask a biologist so I'd

1223

00:54:15,810 --> 00:54:14,050

asked my biology friends and they'd say

1224

00:54:16,890 --> 00:54:15,820

hey don't ask me I deal with cells I

1225

00:54:19,140 --> 00:54:16,900

don't know anything about magnetic

1226

00:54:22,830 --> 00:54:19,150

fields and that's a perfect example of

1227

00:54:24,690 --> 00:54:22,840

where the compartmentalized science was

1228

00:54:26,910 --> 00:54:24,700

not serving us and now we know that

1229

00:54:28,500 --> 00:54:26,920

every cell in our body is influenced by

1230

00:54:32,070 --> 00:54:28,510

the shift of the magnetic fields of the

1231

00:54:34,890 --> 00:54:32,080

planet high magnetic fields we are more

1232

00:54:36,510 --> 00:54:34,900

cooperative less aggressive and more

1233

00:54:38,160 --> 00:54:36,520

peaceful more willing to solve our

1234

00:54:40,220 --> 00:54:38,170

problems working together low magnetic

1235

00:54:42,390 --> 00:54:40,230

fields we become much more aggressive

1236

00:54:45,570 --> 00:54:42,400

and that's important when you look at

1237

00:54:47,580 --> 00:54:45,580

the cycles of where Earth is and how the

1238

00:54:49,700 --> 00:54:47,590

magnetic fields are part of those cycles

1239

00:54:54,960 --> 00:54:49,710

do you think that we've got one minute

1240

00:54:57,390 --> 00:54:54,970

is this something that it was suggesting

1241

00:55:00,240 --> 00:54:57,400

the Egyptians is this something that the

1242

00:55:03,420 --> 00:55:00,250

ancients were cognizant of that that

1243

00:55:06,870 --> 00:55:03,430

they fully understood this relationship

1244

00:55:09,510 --> 00:55:06,880

between us and the planet what I found

1245

00:55:13,290 --> 00:55:09,520

is that those who've come before us the

1246

00:55:14,040 --> 00:55:13,300

the ancient Mayans Toltec Olmec the

1247

00:55:15,540 --> 00:55:14,050

Egyptians

1248

00:55:19,050 --> 00:55:15,550

I've spent a lot of time with the

1249

00:55:21,120 --> 00:55:19,060

Tibetans modern-day Tibetans studying

1250

00:55:24,900 --> 00:55:21,130

ancient texts Jimmy they did not

1251
00:55:27,720 --> 00:55:24,910
separate science from spirituality from

1252
00:55:30,510 --> 00:55:27,730
art and think about that if you don't

1253
00:55:32,310 --> 00:55:30,520
separate those when you see something

1254
00:55:33,900 --> 00:55:32,320
that's beautiful that moves you inside

1255
00:55:35,670 --> 00:55:33,910
you have a feeling you're changing the

1256
00:55:36,810 --> 00:55:35,680
chemistry in your body based on that

1257
00:55:40,230 --> 00:55:36,820
feeling

1258
00:55:42,360 --> 00:55:40,240
and that becomes a science and when you

1259
00:55:44,790 --> 00:55:42,370
begin to merge science and spirituality

1260
00:55:46,500 --> 00:55:44,800
in art you begin to think of your world

1261
00:55:48,540 --> 00:55:46,510
in yourself and your relationship to

1262
00:55:50,700 --> 00:55:48,550
other people very differently and I

1263
00:55:52,380 --> 00:55:50,710

think with the breakdown in the

1264

00:55:54,630 --> 00:55:52,390

traditional boundaries of the sciences

1265

00:55:56,790 --> 00:55:54,640

we're moving in that direction let's

1266

00:55:57,240 --> 00:55:56,800

take our break right here this is fade

1267

00:55:58,650 --> 00:55:57,250

to black

1268

00:56:00,030 --> 00:55:58,660

I'm your host Jimmy Church our guest

1269

00:56:01,980 --> 00:56:00,040

tonight Gregg Braden fascinating

1270

00:56:03,690 --> 00:56:01,990

conversation we're gonna pick up while

1271

00:56:05,480 --> 00:56:03,700

we're leaving off right now fade to

1272

00:56:09,120 --> 00:56:05,490

black I'm the game changer network and

1273

00:56:13,140 --> 00:56:09,130

kg are a the planet stay with us we'll

1274

[Music]

1275

00:56:54,920 --> 00:56:53,420

welcome back fade to black coming to

1276
00:56:57,260 --> 00:56:54,930
church I guess tonight gregg braden and

1277
00:56:59,150 --> 00:56:57,270
you can follow me on twitter @ JT radio

1278
00:57:01,910 --> 00:56:59,160
the conversations going down

1279
00:57:03,800 --> 00:57:01,920
hashtag f2v in the sandbox we're gonna

1280
00:57:06,230 --> 00:57:03,810
go through a few thousand tweets tonight

1281
00:57:08,680 --> 00:57:06,240
during the show get Greg involved to add

1282
00:57:12,110 --> 00:57:08,690
Gregg Braden right there on Twitter

1283
00:57:13,520 --> 00:57:12,120
Gregg going back to let's circle back

1284
00:57:16,280 --> 00:57:13,530
for a second oh by the way I was just

1285
00:57:19,430 --> 00:57:16,290
listening to the commercial for the

1286
00:57:21,800 --> 00:57:19,440
conscious life Expo and that ancient

1287
00:57:23,060 --> 00:57:21,810
secrets panel I might have an empty seat

1288
00:57:26,750 --> 00:57:23,070

if they're going to be there Friday

1289

00:57:28,160 --> 00:57:26,760

night I have to talk to my my office I

1290

00:57:29,810 --> 00:57:28,170

was make a promise they can't keep but I

1291

00:57:37,700 --> 00:57:29,820

heard that as well and I thought it was

1292

00:57:41,450 --> 00:57:37,710

very intriguing going back to this

1293

00:57:44,210 --> 00:57:41,460

crisper situation and the fusing of

1294

00:57:48,920 --> 00:57:44,220

chromosome 2 I has always intrigued me

1295

00:57:51,920 --> 00:57:48,930

and and 7 as well if we go back 200,000

1296

00:57:57,200 --> 00:57:51,930

years what have we you know if it wasn't

1297

00:57:59,870 --> 00:57:57,210

nature that did this some type of high

1298

00:58:01,910 --> 00:57:59,880

technology was involved whether it was a

1299

00:58:04,570 --> 00:58:01,920

past civilization here on the planet

1300

00:58:10,100 --> 00:58:04,580

which I could I could totally embrace or

1301
00:58:12,290 --> 00:58:10,110
a drive by of some kind of civilization

1302
00:58:13,070 --> 00:58:12,300
that came by and saw us and did a

1303
00:58:17,180 --> 00:58:13,080
snip-snip

1304
00:58:19,360 --> 00:58:17,190
but if it wasn't done by nature we are

1305
00:58:21,740 --> 00:58:19,370
opening up the door to some pretty

1306
00:58:25,070 --> 00:58:21,750
fantastical theories here of which I'm

1307
00:58:27,410 --> 00:58:25,080
open to any of them but for us to just

1308
00:58:29,000 --> 00:58:27,420
appear here or 200,000 years ago that

1309
00:58:32,030 --> 00:58:29,010
that doesn't make sense there's got to

1310
00:58:33,350 --> 00:58:32,040
be something logical well you know it it

1311
00:58:36,680 --> 00:58:33,360
depends on who you talk to because

1312
00:58:38,300 --> 00:58:36,690
everybody has a story when you look at

1313
00:58:41,930 --> 00:58:38,310

the ancient traditions the ancient

1314

00:58:43,490 --> 00:58:41,940

Sumerians they had a story the 1990s I

1315

00:58:45,620 --> 00:58:43,500

had the opportunity to tour with

1316

00:58:48,050 --> 00:58:45,630

zecharia sitchin when when he was still

1317

00:58:50,270 --> 00:58:48,060

in this world and his work his

1318

00:58:53,420 --> 00:58:50,280

interpretation the translations and

1319

00:58:55,610 --> 00:58:53,430

interpretations the Sumerian texts told

1320

00:58:59,840 --> 00:58:55,620

the story that he interpreted as as

1321

00:59:01,610 --> 00:58:59,850

genetic manipulation and that was you

1322

00:59:04,160 --> 00:59:01,620

know his perspective when you go to the

1323

00:59:06,470 --> 00:59:04,170

ancient Egyptians they have their story

1324

00:59:09,080 --> 00:59:06,480

that we are we're not from here that

1325

00:59:10,370 --> 00:59:09,090

we're deeply related to the star system

1326

00:59:12,410 --> 00:59:10,380

Sirius

1327

00:59:14,300 --> 00:59:12,420

there's a whole story around that you

1328

00:59:17,660 --> 00:59:14,310

know you go to the aboriginals and and

1329

00:59:22,370 --> 00:59:17,670

you look at their 60,000 plus your

1330

00:59:25,580 --> 00:59:22,380

continuous lineage of history and story

1331

00:59:27,650 --> 00:59:25,590

and their their DNA lineage and they

1332

00:59:33,080 --> 00:59:27,660

their creation story says that we are

1333

00:59:34,730 --> 00:59:33,090

the product of of we are related to

1334

00:59:36,560 --> 00:59:34,740

other worlds and the we are the product

1335

00:59:38,750 --> 00:59:36,570

of those otherworldly relationships

1336

00:59:40,640 --> 00:59:38,760

Hindu traditions say the same thing and

1337

00:59:42,020 --> 00:59:40,650

you know ultimately what I find

1338

00:59:44,600 --> 00:59:42,030

interesting Jim even the Christian

1339

00:59:47,450 --> 00:59:44,610

traditions I think most of our listeners

1340

00:59:49,220 --> 00:59:47,460

know that the the modern Bible is the

1341

00:59:52,670 --> 00:59:49,230

product of a series of edits that

1342

00:59:55,070 --> 00:59:52,680

happened around the 4th century and we

1343

00:59:57,770 --> 00:59:55,080

know that those edits occurred because

1344

01:00:00,350 --> 00:59:57,780

in the mid 20th century we found the

1345

01:00:02,600 --> 01:00:00,360

oldest records of the unedited text we

1346

01:00:04,640 --> 01:00:02,610

found the the Dead Sea Scrolls were the

1347

01:00:08,150 --> 01:00:04,650

oldest records of the Old Testament in

1348

01:00:10,970 --> 01:00:08,160

the Torah and the the naga hamadi

1349

01:00:13,480 --> 01:00:10,980

library in egypt was the oldest records

1350

01:00:15,620 --> 01:00:13,490

of the New Testament and we found

1351
01:00:17,450 --> 01:00:15,630
biblical books that had never been seen

1352
01:00:20,590 --> 01:00:17,460
because they were edited in that fourth

1353
01:00:23,030 --> 01:00:20,600
century panel the the Council of Nicaea

1354
01:00:24,650 --> 01:00:23,040
you know during the time of the emperor

1355
01:00:28,130 --> 01:00:24,660
constantine i talked about that some of

1356
01:00:29,630 --> 01:00:28,140
my books when you look at those and when

1357
01:00:32,000 --> 01:00:29,640
you look at the indigenous traditions

1358
01:00:34,700 --> 01:00:32,010
all of them say that we are the product

1359
01:00:37,400 --> 01:00:34,710
of an intervention and what's

1360
01:00:40,820 --> 01:00:37,410
interesting is they all say that they

1361
01:00:43,430 --> 01:00:40,830
are responsible for us being here they

1362
01:00:45,410 --> 01:00:43,440
it's always multiple beings whether it's

1363
01:00:48,410 --> 01:00:45,420

a low hem in the Christian traditions

1364

01:00:51,200 --> 01:00:48,420

which is a plural or in the Mayan

1365

01:00:54,140 --> 01:00:51,210

traditions whether it's the the multiple

1366

01:00:56,330 --> 01:00:54,150

beings that that went through multiple

1367

01:00:59,180 --> 01:00:56,340

iterations and tried different materials

1368

01:01:02,090 --> 01:00:59,190

to create us that the first the first

1369

01:01:03,800 --> 01:01:02,100

humans were not able to sustain the

1370

01:01:06,010 --> 01:01:03,810

power of the soul and in the physical

1371

01:01:08,360 --> 01:01:06,020

body they had to find the right formula

1372

01:01:10,400 --> 01:01:08,370

and they tried different materials I

1373

01:01:12,410 --> 01:01:10,410

mean these are common themes that you

1374

01:01:15,920 --> 01:01:12,420

see run through these ancient traditions

1375

01:01:18,289 --> 01:01:15,930

is it science absolutely not but when

1376

01:01:21,349 --> 01:01:18,299

you find a common theme

1377

01:01:23,779 --> 01:01:21,359

that runs across so many traditions

1378

01:01:26,510 --> 01:01:23,789

covering so such vast periods of time

1379

01:01:28,730 --> 01:01:26,520

it's kind of like the flood story you

1380

01:01:30,740 --> 01:01:28,740

know every every ancient tradition

1381

01:01:33,609 --> 01:01:30,750

shared the flood story from their unique

1382

01:01:35,870 --> 01:01:33,619

perspective so they all vary from

1383

01:01:37,609 --> 01:01:35,880

community to community but the bottom

1384

01:01:39,230 --> 01:01:37,619

line was they all experienced the flood

1385

01:01:41,059 --> 01:01:39,240

and as a geologist I can tell you the

1386

01:01:45,140 --> 01:01:41,069

flood actually happened we we have the

1387

01:01:47,240 --> 01:01:45,150

geologic evidence of that flood so so

1388

01:01:48,950 --> 01:01:47,250

the idea of an intervention I'm the

1389

01:01:53,150 --> 01:01:48,960

first to Sage and I've got my personal

1390

01:01:55,430 --> 01:01:53,160

feelings about what has happened but as

1391

01:01:57,559 --> 01:01:55,440

a scientist I have to say I don't know

1392

01:02:00,950 --> 01:01:57,569

and that's to me that's the whole point

1393

01:02:04,160 --> 01:02:00,960

we won't know until we unleash the inlet

1394

01:02:06,380 --> 01:02:04,170

and the technology and the passion of

1395

01:02:08,690 --> 01:02:06,390

these young people that are dedicating

1396

01:02:11,510 --> 01:02:08,700

their lives now to science to answer the

1397

01:02:13,250 --> 01:02:11,520

questions until we free them to follow

1398

01:02:17,240 --> 01:02:13,260

the evidence to where it leads rather

1399

01:02:21,130 --> 01:02:17,250

than than forcing them to to preserve

1400

01:02:23,960 --> 01:02:21,140

this this story that protects

1401
01:02:26,420 --> 01:02:23,970
corporations protects religion protects

1402
01:02:29,029 --> 01:02:26,430
academics but it's not our story so I

1403
01:02:30,019 --> 01:02:29,039
think we've reached a point in our

1404
01:02:32,539 --> 01:02:30,029
evolution

1405
01:02:34,279 --> 01:02:32,549
we're globalizing a planet eight billion

1406
01:02:37,700 --> 01:02:34,289
people learning how to live together and

1407
01:02:39,260 --> 01:02:37,710
we were forcing together men and women

1408
01:02:40,940 --> 01:02:39,270
and we think differently and were

1409
01:02:42,589 --> 01:02:40,950
forcing other religions that think

1410
01:02:45,440 --> 01:02:42,599
differently and we're crossing

1411
01:02:46,940 --> 01:02:45,450
traditional borders of oceans and

1412
01:02:50,089 --> 01:02:46,950
mountains in ways that we never did

1413
01:02:53,029 --> 01:02:50,099

before were globalized society and we're

1414

01:02:55,670 --> 01:02:53,039

asking ourselves to accommodate this

1415

01:02:58,700 --> 01:02:55,680

globalization through a thinking based

1416

01:03:01,160 --> 01:02:58,710

in separation through Darwin's ideas of

1417

01:03:06,049 --> 01:03:01,170

competition and conflict and scarcity

1418

01:03:08,210 --> 01:03:06,059

and and as we is we allow the science to

1419

01:03:10,460 --> 01:03:08,220

reveal these truths and as we embrace

1420

01:03:11,930 --> 01:03:10,470

what the science is telling us the

1421

01:03:14,480 --> 01:03:11,940

science is telling us nature's based

1422

01:03:16,519 --> 01:03:14,490

upon cooperation not competition that's

1423

01:03:18,140 --> 01:03:16,529

important that was a message I shared

1424

01:03:20,299 --> 01:03:18,150

the United Nations with Bruce Lipton

1425

01:03:21,890 --> 01:03:20,309

when we spoke there the science is

1426

01:03:25,690 --> 01:03:21,900

telling us we're not the product of an

1427

01:03:28,400 --> 01:03:25,700

accident a fluke you know some random

1428

01:03:30,859 --> 01:03:28,410

mutations in biology and that's

1429

01:03:31,610 --> 01:03:30,869

important because the value of life

1430

01:03:34,820 --> 01:03:31,620

Jimmy

1431

01:03:37,490 --> 01:03:34,830

been cheapened by the thinking that we

1432

01:03:39,490 --> 01:03:37,500

are the product of some accident and and

1433

01:03:42,590 --> 01:03:39,500

that's all it is and when we begin to

1434

01:03:46,370 --> 01:03:42,600

understand that there's some intelligent

1435

01:03:48,110 --> 01:03:46,380

intervention that appears to underlie

1436

01:03:49,850 --> 01:03:48,120

our existence we begin to think about

1437

01:03:51,200 --> 01:03:49,860

ourselves differently and it doesn't

1438

01:03:54,620 --> 01:03:51,210

have to be about religion it's just

1439

01:03:58,010 --> 01:03:54,630

about the respect for the potential that

1440

01:03:59,570 --> 01:03:58,020

we come to this earth with I'm going to

1441

01:04:03,020 --> 01:03:59,580

share a quick story yeah absolutely

1442

01:04:04,310 --> 01:04:03,030

absolutely over the break you gave me a

1443

01:04:06,890 --> 01:04:04,320

few minutes to reflect on the

1444

01:04:08,540 --> 01:04:06,900

conversation we had before the break you

1445

01:04:10,670 --> 01:04:08,550

asked me if I thought the technology

1446

01:04:14,150 --> 01:04:10,680

happened too quickly you know beginning

1447

01:04:15,770 --> 01:04:14,160

in 95 and moving forward and it's it's a

1448

01:04:18,200 --> 01:04:15,780

it's a good question it's a big question

1449

01:04:19,790 --> 01:04:18,210

and I hesitated because I knew we were

1450

01:04:22,670 --> 01:04:19,800

running up to a break and that's why I

1451

01:04:25,910 --> 01:04:22,680

didn't share this story a few years ago

1452

01:04:26,810 --> 01:04:25,920

I was hiking in a remote area in the

1453

01:04:29,090 --> 01:04:26,820

Four Corners area

1454

01:04:33,050 --> 01:04:29,100

it's an archaeological site as known as

1455

01:04:35,030 --> 01:04:33,060

Chaco Canyon New Mexico and I met a

1456

01:04:38,360 --> 01:04:35,040

native man that was hiking there at the

1457

01:04:40,820 --> 01:04:38,370

same time and for a lot of reasons

1458

01:04:43,250 --> 01:04:40,830

rather than passing by one another we

1459

01:04:45,650 --> 01:04:43,260

struck up a conversation and he began to

1460

01:04:47,480 --> 01:04:45,660

tell me a story and I think his story

1461

01:04:50,420 --> 01:04:47,490

has direct relevance on what we're

1462

01:04:53,150 --> 01:04:50,430

talking about here he he said Greg a

1463

01:04:55,370 --> 01:04:53,160

long time ago he said the people of the

1464

01:04:56,900 --> 01:04:55,380

earth lived very differently than they

1465

01:04:59,480 --> 01:04:56,910

do today they were close to the earth

1466

01:05:01,190 --> 01:04:59,490

and they remembered who they were he

1467

01:05:03,830 --> 01:05:01,200

said that then something happened and

1468

01:05:05,600 --> 01:05:03,840

nobody knows exactly what that something

1469

01:05:08,570 --> 01:05:05,610

was he said but the people of the earth

1470

01:05:10,550 --> 01:05:08,580

began to forget who they are their

1471

01:05:14,030 --> 01:05:10,560

relationship to the earth and to the

1472

01:05:16,970 --> 01:05:14,040

cosmos and to themselves and they so

1473

01:05:18,470 --> 01:05:16,980

longed for that connection even though

1474

01:05:19,310 --> 01:05:18,480

they didn't know what it was they felt

1475

01:05:21,350 --> 01:05:19,320

empty inside

1476

01:05:23,960 --> 01:05:21,360

he said they so longed for that

1477

01:05:28,070 --> 01:05:23,970

connection that they began to build

1478

01:05:31,670 --> 01:05:28,080

outside of their bodies the machines

1479

01:05:33,680 --> 01:05:31,680

that actually mimic the potential the

1480

01:05:35,750 --> 01:05:33,690

capabilities that they have inside of

1481

01:05:37,970 --> 01:05:35,760

their bodies and he said we live in that

1482

01:05:39,920 --> 01:05:37,980

world today he said we live in the world

1483

01:05:43,730 --> 01:05:39,930

we're building the machine to the

1484

01:05:44,380 --> 01:05:43,740

devices that reflect what we already do

1485

01:05:46,809 --> 01:05:44,390

in the

1486

01:05:50,170 --> 01:05:46,819

cells of our body and he said will

1487

01:05:52,660 --> 01:05:50,180

continue to clutter our world with more

1488

01:05:55,660 --> 01:05:52,670

and more technology and our lives will

1489

01:05:58,990 --> 01:05:55,670

become more and more cluttered until we

1490

01:06:01,839 --> 01:05:59,000

realize that what we are building is us

1491

01:06:04,089 --> 01:06:01,849

and then we'll let that technology go in

1492

01:06:05,950 --> 01:06:04,099

the outer world because we will become

1493

01:06:11,140 --> 01:06:05,960

more sophisticated technologically

1494

01:06:13,870 --> 01:06:11,150

inside is he referencing a form of

1495

01:06:15,430 --> 01:06:13,880

entropy you know that we've gotten I

1496

01:06:17,920 --> 01:06:15,440

think I think it could be you know I

1497

01:06:19,990 --> 01:06:17,930

worked during the 80s during the Cold

1498

01:06:21,809 --> 01:06:20,000

War years I worked in the defense

1499

01:06:25,660 --> 01:06:21,819

industry and and the aerospace industry

1500

01:06:27,700 --> 01:06:25,670

as a software developer projects - one

1501

01:06:30,730 --> 01:06:27,710

of them was called SDI Star Wars Defense

1502

01:06:32,769 --> 01:06:30,740

Initiative and I've seen tremendously

1503

01:06:35,799 --> 01:06:32,779

sophisticated technology as the reason

1504

01:06:37,660 --> 01:06:35,809

I'm sharing this and if sophisticated

1505

01:06:40,390 --> 01:06:37,670

this Jimmy I've never seen anything

1506

01:06:42,759 --> 01:06:40,400

built outside of us that we don't

1507

01:06:44,710 --> 01:06:42,769

already do from within you know every

1508

01:06:46,079 --> 01:06:44,720

cell in our body is essentially an

1509

01:06:48,910 --> 01:06:46,089

electrical circuit and we've got

1510

01:06:51,400 --> 01:06:48,920

capacitors we've got resistors we

1511

01:06:54,670 --> 01:06:51,410

receive photons of light we emit photons

1512

01:06:56,289 --> 01:06:54,680

of light we store information we

1513

01:06:58,329 --> 01:06:56,299

retrieve information we release

1514

01:07:00,670 --> 01:06:58,339

information and the internet that we're

1515

01:07:03,069 --> 01:07:00,680

building reflects the way that we share

1516

01:07:04,539 --> 01:07:03,079

information on a quantum level and the

1517

01:07:06,999 --> 01:07:04,549

computers that we've built and the way

1518

01:07:08,710 --> 01:07:07,009

we store information and computers is

1519

01:07:12,160 --> 01:07:08,720

reflecting the way information stored in

1520

01:07:13,900 --> 01:07:12,170

ourselves so when I I recognize that and

1521

01:07:16,480 --> 01:07:13,910

I think back to what my native friends

1522

01:07:17,920 --> 01:07:16,490

said to me and then your question you

1523

01:07:21,039 --> 01:07:17,930

asked Greg do you think it happened too

1524

01:07:25,900 --> 01:07:21,049

fast I there there's a school of thought

1525

01:07:29,829 --> 01:07:25,910

Jimmy that our creations the things that

1526

01:07:33,279 --> 01:07:29,839

we create our music our film our video

1527

01:07:35,740 --> 01:07:33,289

our books our sculpture our art are more

1528

01:07:39,420 --> 01:07:35,750

than diversions that the things that we

1529

01:07:42,460 --> 01:07:39,430

create around us our consciousness

1530

01:07:45,700 --> 01:07:42,470

informing us of what we need to know

1531

01:07:49,089 --> 01:07:45,710

about ourselves in a certain period of

1532

01:07:51,789 --> 01:07:49,099

time and from that perspective when we

1533

01:07:53,950 --> 01:07:51,799

look at this this explosion of

1534

01:07:58,060 --> 01:07:53,960

Technology I can't help but think maybe

1535

01:07:59,650 --> 01:07:58,070

this is us asking ourselves to remember

1536

01:08:03,490 --> 01:07:59,660

who we are and this extraordinary

1537

01:08:06,220 --> 01:08:03,500

potential that we have so that we don't

1538

01:08:07,510 --> 01:08:06,230

destroy ourselves in the absence of the

1539

01:08:11,310 --> 01:08:07,520

knowledge that we embrace this

1540

01:08:13,630 --> 01:08:11,320

technology and and learn what it means

1541

01:08:16,450 --> 01:08:13,640

again I said this earlier the better we

1542

01:08:18,610 --> 01:08:16,460

know ourselves the less we fear and when

1543

01:08:23,200 --> 01:08:18,620

we're not afraid of the unknown that's

1544

01:08:24,789 --> 01:08:23,210

when we can freely we can freely love we

1545

01:08:30,250 --> 01:08:24,799

can love the planet we can love one

1546

01:08:31,660 --> 01:08:30,260

another we have the passion to make the

1547

01:08:35,470 --> 01:08:31,670

world a better place rather than

1548

01:08:37,750 --> 01:08:35,480

fighting for survival and and trying to

1549

01:08:40,059 --> 01:08:37,760

have enough because we believe we live

1550

01:08:41,559 --> 01:08:40,069

in this world of scarcity so I think all

1551

01:08:43,500 --> 01:08:41,569

this you know it's a big conversation

1552

01:08:47,020 --> 01:08:43,510

and I think it all plays out together

1553

01:08:50,800 --> 01:08:47,030

but you know it's interesting if if we

1554

01:08:53,110 --> 01:08:50,810

think about our creations as something

1555

01:08:54,789 --> 01:08:53,120

more than just diversions if we say if

1556

01:08:57,250 --> 01:08:54,799

we say ok I bring every movie that's

1557

01:08:58,809 --> 01:08:57,260

made and the music that's out there and

1558

01:09:01,170 --> 01:08:58,819

I'm still a musician and I'm fascinated

1559

01:09:03,940 --> 01:09:01,180

by what's happening with music today and

1560

01:09:07,870 --> 01:09:03,950

the art and the music and in the books

1561

01:09:09,579 --> 01:09:07,880

if all of those things are us asking

1562

01:09:12,550 --> 01:09:09,589

ourselves to remember something about

1563

01:09:15,460 --> 01:09:12,560

ourselves what would those some things

1564

01:09:18,030 --> 01:09:15,470

be and although all the creations are

1565

01:09:20,230 --> 01:09:18,040

different if you look at the themes you

1566

01:09:21,670 --> 01:09:20,240

movies seem to come out and fiends

1567

01:09:24,660 --> 01:09:21,680

remember the matrix the very first

1568

01:09:27,789 --> 01:09:24,670

matrix came out was hugely and

1569

01:09:30,190 --> 01:09:27,799

unexpectedly successful and it was

1570

01:09:32,770 --> 01:09:30,200

telling us that there's a world that we

1571

01:09:34,420 --> 01:09:32,780

can't see but it influences the world

1572

01:09:36,940 --> 01:09:34,430

that we can see and that we're a part of

1573

01:09:39,010 --> 01:09:36,950

that world and in movies like Inception

1574

01:09:41,890 --> 01:09:39,020

and how our dreams are part of that an

1575

01:09:45,070 --> 01:09:41,900

avatar our relationship to nature there

1576
01:09:46,690 --> 01:09:45,080
were hugely successful movies and and

1577
01:09:49,809 --> 01:09:46,700
they're all telling us that there's

1578
01:09:52,030 --> 01:09:49,819
something more to our existence that is

1579
01:09:53,980 --> 01:09:52,040
available to us if if we're open and

1580
01:09:56,590 --> 01:09:53,990
willing to accept what those those some

1581
01:09:58,270 --> 01:09:56,600
things are and I think I think there's a

1582
01:10:00,189 --> 01:09:58,280
beautiful symmetry in everything that's

1583
01:10:01,930 --> 01:10:00,199
playing out right and and

1584
01:10:04,870 --> 01:10:01,940
I couldn't agree with you more there's a

1585
01:10:07,419 --> 01:10:04,880
reason why all of that resonated with

1586
01:10:09,250 --> 01:10:07,429
everybody worldwide as quickly as it did

1587
01:10:13,209 --> 01:10:09,260
because we're all seeking these these

1588
01:10:17,560 --> 01:10:13,219

answers and I wanted to jump back to the

1589

01:10:21,850 --> 01:10:17,570

DNA question in the DNA police if if the

1590

01:10:24,070 --> 01:10:21,860

altering of of chromosomes and merging I

1591

01:10:28,360 --> 01:10:24,080

should say above two in the altering of

1592

01:10:31,750 --> 01:10:28,370

seven if that happened that's one thing

1593

01:10:33,870 --> 01:10:31,760

and and we are who we are today but

1594

01:10:38,560 --> 01:10:33,880

going back and using CRISPR technology

1595

01:10:42,970 --> 01:10:38,570

not to increase our IQ or choose eye

1596

01:10:46,650 --> 01:10:42,980

color right and and you know design our

1597

01:10:51,100 --> 01:10:46,660

children but to go back and remove

1598

01:10:53,680 --> 01:10:51,110

diseases and cancers and and you know

1599

01:10:58,209 --> 01:10:53,690

muscular dystrophy or or whatever and

1600

01:11:02,500 --> 01:10:58,219

remove those from our DNA sequences is

1601
01:11:04,660 --> 01:11:02,510
that okay this is this is where we began

1602
01:11:06,310 --> 01:11:04,670
the last hour yeah I think the

1603
01:11:10,000 --> 01:11:06,320
technology is never right wrong good or

1604
01:11:11,770 --> 01:11:10,010
bad I just spoke with with a student in

1605
01:11:14,110 --> 01:11:11,780
Dubai this morning and we had this

1606
01:11:15,850 --> 01:11:14,120
conversation you know the splitting the

1607
01:11:18,250 --> 01:11:15,860
atom I live in northern New Mexico just

1608
01:11:20,800 --> 01:11:18,260
down the road from Los Alamos where with

1609
01:11:23,740 --> 01:11:20,810
you know the Manhattan Project occurred

1610
01:11:25,689 --> 01:11:23,750
and I'm fascinated by this because the

1611
01:11:27,729 --> 01:11:25,699
the technology was developed it could

1612
01:11:29,410 --> 01:11:27,739
have gone so many different ways Jimmy

1613
01:11:31,979 --> 01:11:29,420

but if it was developed during the time

1614

01:11:35,979 --> 01:11:31,989

of war so of course it was applied for a

1615

01:11:37,900 --> 01:11:35,989

wartime application I think there are a

1616

01:11:39,910 --> 01:11:37,910

lot of good things that can come from

1617

01:11:42,070 --> 01:11:39,920

CRISPR technology and even the chips

1618

01:11:45,189 --> 01:11:42,080

that we were talking about earlier Elon

1619

01:11:47,919 --> 01:11:45,199

Musk chips you know if if you are a

1620

01:11:51,189 --> 01:11:47,929

young man or young woman on the

1621

01:11:53,229 --> 01:11:51,199

battlefield in Afghanistan and you are

1622

01:11:55,959 --> 01:11:53,239

in a vehicle it's been hit by an AED and

1623

01:11:57,729 --> 01:11:55,969

you're you are now disabled and all of a

1624

01:12:00,520 --> 01:11:57,739

sudden you have the ability to use your

1625

01:12:03,520 --> 01:12:00,530

arms and legs again because of this

1626
01:12:06,430 --> 01:12:03,530
technology what what greater gift could

1627
01:12:08,340 --> 01:12:06,440
there be right and and I have no problem

1628
01:12:11,439 --> 01:12:08,350
with I was all to use it recreationally

1629
01:12:13,150 --> 01:12:11,449
we're we're kids just say man I want

1630
01:12:14,610 --> 01:12:13,160
that chip and playing my brains you know

1631
01:12:17,649 --> 01:12:14,620
so I can play video

1632
01:12:20,860 --> 01:12:17,659
without having to you know wire up to my

1633
01:12:22,780 --> 01:12:20,870
computer it sounds like fun at first

1634
01:12:24,970 --> 01:12:22,790
what our young people are not being

1635
01:12:29,380 --> 01:12:24,980
taught is that there's something so

1636
01:12:32,590 --> 01:12:29,390
unique so rare and so precious about the

1637
01:12:35,380 --> 01:12:32,600
soft technology the technologically

1638
01:12:38,350 --> 01:12:35,390

advanced highly sophisticated biology

1639

01:12:41,320 --> 01:12:38,360

that is their bodies they're not taught

1640

01:12:45,669 --> 01:12:41,330

that and when we begin to replace that

1641

01:12:47,860 --> 01:12:45,679

with machines with chips and we do it on

1642

01:12:51,280 --> 01:12:47,870

a large scale basis on a generational

1643

01:12:52,689 --> 01:12:51,290

basis pretty soon if you look again look

1644

01:12:56,790 --> 01:12:52,699

at what the science fiction is telling

1645

01:13:01,229 --> 01:12:56,800

us we are we always see these films of

1646

01:13:04,540 --> 01:13:01,239

future races that have lost or given up

1647

01:13:07,660 --> 01:13:04,550

some aspect of their humaneness that

1648

01:13:09,880 --> 01:13:07,670

they long for again coming back in time

1649

01:13:12,760 --> 01:13:09,890

you know in some of the movies or coming

1650

01:13:14,530 --> 01:13:12,770

from another planet they're they're much

1651

01:13:16,630 --> 01:13:14,540

more advanced than we are but they lost

1652

01:13:19,390 --> 01:13:16,640

the ability for emotion for example or

1653

01:13:21,880 --> 01:13:19,400

they lost the ability to to conceive a

1654

01:13:24,640 --> 01:13:21,890

new life inside of a body it's all done

1655

01:13:28,450 --> 01:13:24,650

outside the body so I'm I'm saying I

1656

01:13:30,250 --> 01:13:28,460

think we need to know what it is that

1657

01:13:33,610 --> 01:13:30,260

we're giving away before we give away

1658

01:13:35,350 --> 01:13:33,620

our humaneness we need to embrace what

1659

01:13:38,290 --> 01:13:35,360

it fully means to be human

1660

01:13:39,760 --> 01:13:38,300

and then we have a choice we're no what

1661

01:13:43,300 --> 01:13:39,770

we're giving away if we choose to give

1662

01:13:45,270 --> 01:13:43,310

it away rather than just allowing these

1663

01:13:47,709 --> 01:13:45,280

things to become a part of our lives

1664

01:13:49,540 --> 01:13:47,719

without really even knowing what what

1665

01:13:54,250 --> 01:13:49,550

they mean why do we have that type of

1666

01:13:57,880 --> 01:13:54,260

amnesia why is it that we absolutely are

1667

01:13:59,860 --> 01:13:57,890

so quick to forget what we have learned

1668

01:14:03,939 --> 01:13:59,870

from the past and we can do it in a

1669

01:14:05,709 --> 01:14:03,949

matter of weeks it seems I think a lot

1670

01:14:08,380 --> 01:14:05,719

of it is it goes back to what we call

1671

01:14:10,120 --> 01:14:08,390

our story there is a battle for our

1672

01:14:12,850 --> 01:14:10,130

story there's a battle for our thoughts

1673

01:14:15,040 --> 01:14:12,860

it's playing out in in the media I think

1674

01:14:16,330 --> 01:14:15,050

we all know that but it goes deeper than

1675

01:14:19,149 --> 01:14:16,340

that there's a battle for our very

1676

01:14:23,080 --> 01:14:19,159

humanist and most people don't have the

1677

01:14:24,399 --> 01:14:23,090

time to even embrace the fact that this

1678

01:14:25,899 --> 01:14:24,409

battle is playing out they don't have

1679

01:14:27,620 --> 01:14:25,909

the time to research it and it's not

1680

01:14:30,260 --> 01:14:27,630

being carried in the mainstream

1681

01:14:32,600 --> 01:14:30,270

right well you're really seeing this I

1682

01:14:34,220 --> 01:14:32,610

gave an example earlier in Japan for

1683

01:14:36,620 --> 01:14:34,230

example Japan has always kind of pushed

1684

01:14:39,350 --> 01:14:36,630

the edge with technology and sexuality

1685

01:14:42,410 --> 01:14:39,360

and things like that young couples are

1686

01:14:45,410 --> 01:14:42,420

opting for AI babies artificially

1687

01:14:47,149 --> 01:14:45,420

intelligent robotic babies in place of

1688

01:14:52,160 --> 01:14:47,159

the real babies and they're opting for

1689

01:14:56,120 --> 01:14:52,170

digital relationships rather than you

1690

01:14:58,490 --> 01:14:56,130

know body to body human relationships as

1691

01:15:00,379 --> 01:14:58,500

a practical matter it's just easier for

1692

01:15:02,270 --> 01:15:00,389

them to do that they have a strong work

1693

01:15:04,129 --> 01:15:02,280

ethic they're very busy they don't have

1694

01:15:07,370 --> 01:15:04,139

time for these things but the

1695

01:15:09,050 --> 01:15:07,380

correlations along with them embracing

1696

01:15:10,669 --> 01:15:09,060

these technologies they're one of the

1697

01:15:14,030 --> 01:15:10,679

countries where the birth rate the

1698

01:15:16,939 --> 01:15:14,040

sterility rate of men is increasing the

1699

01:15:19,430 --> 01:15:16,949

infertility of women is increasing the

1700

01:15:21,500 --> 01:15:19,440

birth rate is declining and they're now

1701

01:15:23,270 --> 01:15:21,510

the mortality rate is greater than the

1702

01:15:25,550 --> 01:15:23,280

birth rate so they're losing population

1703

01:15:26,990 --> 01:15:25,560

and now they're all of a sudden they're

1704

01:15:28,790 --> 01:15:27,000

playing catch-up they're saying wow you

1705

01:15:31,430 --> 01:15:28,800

know how did this happen and why didn't

1706

01:15:33,290 --> 01:15:31,440

we why didn't we see this but I think

1707

01:15:35,149 --> 01:15:33,300

it's you know there's there's a human

1708

01:15:38,360 --> 01:15:35,159

tenant that says use it or lose it and

1709

01:15:40,640 --> 01:15:38,370

if we're not using right this biological

1710

01:15:43,250 --> 01:15:40,650

technology begins to atrophy and once

1711

01:15:44,840 --> 01:15:43,260

it's gone it's gone and I think that's

1712

01:15:47,510 --> 01:15:44,850

something that we need to be aware of

1713

01:15:49,669 --> 01:15:47,520

I'm not saying it's wrong I'm saying we

1714

01:15:51,709 --> 01:15:49,679

need to be aware of what we're giving

1715

01:15:53,570 --> 01:15:51,719

away before we give it away yeah they

1716

01:15:56,689 --> 01:15:53,580

didn't understand you're absolutely

1717

01:15:58,399 --> 01:15:56,699

right Japan didn't understand I get the

1718

01:16:01,189 --> 01:15:58,409

way that they embrace technology I

1719

01:16:03,970 --> 01:16:01,199

totally understand that but they are now

1720

01:16:06,410 --> 01:16:03,980

looking at the real numbers that a

1721

01:16:10,910 --> 01:16:06,420

generation from now they're not going to

1722

01:16:13,939 --> 01:16:10,920

have workers you know well I will talk

1723

01:16:17,570 --> 01:16:13,949

about this at the export and I've got

1724

01:16:19,430 --> 01:16:17,580

the the graphs are very very graphic I

1725

01:16:23,060 --> 01:16:19,440

mean you can't argue with the graphs

1726

01:16:25,340 --> 01:16:23,070

when you see the the steep drop in birth

1727

01:16:28,430 --> 01:16:25,350

rate and how it compares the mortality

1728

01:16:29,899 --> 01:16:28,440

rate and how that compares with the rise

1729

01:16:32,330 --> 01:16:29,909

of the technology and the way the

1730

01:16:36,050 --> 01:16:32,340

technology is being used I think it's

1731

01:16:38,479 --> 01:16:36,060

it's like the canary in the coal mine so

1732

01:16:41,209 --> 01:16:38,489

you know these are all examples the

1733

01:16:43,640 --> 01:16:41,219

technology it's not good or bad

1734

01:16:46,130 --> 01:16:43,650

it's how its applied and we are now how

1735

01:16:48,080 --> 01:16:46,140

can we make those decisions until we

1736

01:16:50,720 --> 01:16:48,090

know who we are and that's the whole

1737

01:16:52,550 --> 01:16:50,730

point and the whole point science is

1738

01:16:54,890 --> 01:16:52,560

trying to tell us they're giving us the

1739

01:16:56,600 --> 01:16:54,900

answers we said science tell us who we

1740

01:16:58,910 --> 01:16:56,610

are where do we come from how do we get

1741

01:17:01,280 --> 01:16:58,920

here what is what is our potential do we

1742

01:17:04,520 --> 01:17:01,290

have the potential can everybody be a

1743

01:17:07,160 --> 01:17:04,530

Jason Bourne for example with instant

1744

01:17:09,920 --> 01:17:07,170

Total Recall and super cognition and the

1745

01:17:12,080 --> 01:17:09,930

answers is pretty much yes there are

1746

01:17:14,900 --> 01:17:12,090

techniques we teach in our programs I'll

1747

01:17:16,790 --> 01:17:14,910

actually do some of the expo and the

1748

01:17:17,680 --> 01:17:16,800

intelligence services use the same

1749

01:17:22,189 --> 01:17:17,690

techniques

1750

01:17:23,990 --> 01:17:22,199

it's about accessing this biology the

1751

01:17:26,479 --> 01:17:24,000

the neurons in the heart in the brain

1752

01:17:29,000 --> 01:17:26,489

and harmonizing them through what's

1753

01:17:32,209 --> 01:17:29,010

called coherence and being able to apply

1754

01:17:34,250 --> 01:17:32,219

that coherence in our lives and in very

1755

01:17:38,209 --> 01:17:34,260

unique ways as well as the longevity

1756

01:17:42,290 --> 01:17:38,219

enzymes that that give us the ability to

1757

01:17:44,479 --> 01:17:42,300

to not just not just heal our bodies but

1758

01:17:46,880 --> 01:17:44,489

to actually reverse the biological

1759

01:17:48,530 --> 01:17:46,890

markers of Aging now chronologically

1760

01:17:51,709 --> 01:17:48,540

will always be a year older than we were

1761

01:17:54,229 --> 01:17:51,719

a year ago but biologically it is not

1762

01:17:56,270 --> 01:17:54,239

only possible it's people do it all the

1763

01:17:59,360 --> 01:17:56,280

time well you're an example of that I

1764

01:18:01,850 --> 01:17:59,370

mean look how you look right now is you

1765

01:18:03,860 --> 01:18:01,860

if most people don't know Greg is

1766

01:18:06,080 --> 01:18:03,870

actually a hundred and seventy-eight

1767

01:18:07,700 --> 01:18:06,090

years old well you can't see me right

1768

01:18:09,260 --> 01:18:07,710

now so you know the first thing I looked

1769

01:18:11,229 --> 01:18:09,270

at for this interview I said is this a

1770

01:18:14,270 --> 01:18:11,239

video interview

1771

01:18:17,810 --> 01:18:14,280

hey I wanted to ask you let me tell you

1772

01:18:20,390 --> 01:18:17,820

I apply in my life what I have learned

1773

01:18:22,490 --> 01:18:20,400

and I spend a lot of time with monks and

1774

01:18:25,520 --> 01:18:22,500

nuns and the monasteries of Tibet in the

1775

01:18:27,470 --> 01:18:25,530

90s the early 2000s in general routine

1776

01:18:28,880 --> 01:18:27,480

ly we met people there are a hundred and

1777

01:18:32,270 --> 01:18:28,890

fifteen hundred twenty twenty-five years

1778

01:18:34,040 --> 01:18:32,280

old I saw their papers it's not out of

1779

01:18:36,560 --> 01:18:34,050

the ordinary and you would never know

1780

01:18:38,090 --> 01:18:36,570

they looked about half their age their

1781

01:18:40,100 --> 01:18:38,100

skin colour was good their eyes are

1782

01:18:42,020 --> 01:18:40,110

sharp their memory is sharp right I've

1783

01:18:44,090 --> 01:18:42,030

been with indigenous traditions in South

1784

01:18:45,680 --> 01:18:44,100

America they don't have Alzheimer's

1785

01:18:47,090 --> 01:18:45,690

because they're older they don't have

1786

01:18:49,939 --> 01:18:47,100

breast cancer they don't have prostate

1787

01:18:52,400 --> 01:18:49,949

cancer it's not about the aging our

1788

01:18:55,190 --> 01:18:52,410

bodies are designed to heal and

1789

01:18:57,500 --> 01:18:55,200

regenerate long beyond the set

1790

01:19:00,290 --> 01:18:57,510

100 years that we typically expect today

1791

01:19:03,650 --> 01:19:00,300

it's not about the aging it's about how

1792

01:19:05,750 --> 01:19:03,660

we live as we attain those ages now

1793

01:19:07,250 --> 01:19:05,760

we're we're gonna head toward well let

1794

01:19:09,320 --> 01:19:07,260

me jump in because we're gonna head

1795

01:19:11,000 --> 01:19:09,330

towards a break right here and we'll

1796

01:19:13,400 --> 01:19:11,010

pick up or we're leaving off but I have

1797

01:19:17,630 --> 01:19:13,410

this question for you

1798

01:19:22,760 --> 01:19:17,640

I need your quick response strat Les

1799

01:19:24,640 --> 01:19:22,770

Paul or Martin black strap Jimi Hendrix

1800

01:19:26,810 --> 01:19:24,650

signature model with a reverse headstock

1801

01:19:28,550 --> 01:19:26,820

okay I'm gonna hold this up to the

1802

01:19:34,520 --> 01:19:28,560

camera right here there's the question

1803

01:19:38,090 --> 01:19:34,530

and I circled strat Greg and I Before we

1804

01:19:41,560 --> 01:19:38,100

jump into I have one two three four five

1805

01:19:44,810 --> 01:19:41,570

six seven eight nine ten

1806

01:19:47,690 --> 01:19:44,820

stratocasters hanging next to me on the

1807

01:19:49,460 --> 01:19:47,700

wall here we when we finish this program

1808

01:19:51,470 --> 01:19:49,470

I'm gonna hear the strat in my in my

1809

01:19:53,840 --> 01:19:51,480

home studio tonight that's my that's my

1810

01:19:55,430 --> 01:19:53,850

next my next gig before I go to bed

1811

tonight so are you and I love the way

1812

01:19:59,330 --> 01:19:56,940

you think that's what I'm talking about

1813

01:20:01,610 --> 01:19:59,340

Greg right we are taking our break right

1814

01:20:03,530 --> 01:20:01,620

here this is fade to black somebody just

1815

01:20:06,260 --> 01:20:03,540

posted up Jimmy's gonna get guitar in

1816

01:20:09,620 --> 01:20:06,270

somehow on this show he's a professional

1817

01:20:11,450 --> 01:20:09,630

Greg we'll be right back this is fade to

1818

01:20:14,310 --> 01:20:11,460

black on the game changer network and

1819

01:20:26,819 --> 01:20:14,320

kgr a the planet stay with us

1820

01:20:31,750 --> 01:20:29,219

welcome back fade to black

1821

01:20:35,979 --> 01:20:31,760

gregg braden our guest tonight an

1822

01:20:37,959 --> 01:20:35,989

amazing conversation very happy with

1823

01:20:41,109 --> 01:20:37,969

this conversation tonight we've got some

1824

01:20:43,029 --> 01:20:41,119

guitars in and Gregg check and check out

1825

01:20:47,080 --> 01:20:43,039

your Twitter feed I posted a picture for

1826

01:20:49,089 --> 01:20:47,090

you I just want to ask does this night

1827

01:20:52,419 --> 01:20:49,099

seem like it's going as fast for you

1828

01:20:53,979 --> 01:20:52,429

this blazed by and and I can't believe

1829

01:20:58,929 --> 01:20:53,989

it I can't believe it

1830

01:21:02,919 --> 01:20:58,939

and going back to where we left off

1831

01:21:05,799 --> 01:21:02,929

which is this with technology which I

1832

01:21:08,290 --> 01:21:05,809

embrace right I've got GPS in all of my

1833

01:21:10,839 --> 01:21:08,300

cars and I've got the self I sit in a

1834

01:21:13,389 --> 01:21:10,849

beautiful studio full of technology and

1835

01:21:15,099 --> 01:21:13,399

and I get that I understand it you and I

1836

01:21:20,349 --> 01:21:15,109

are talking right now because of

1837

01:21:24,989 --> 01:21:20,359

Technology but with things like GPS or

1838

01:21:28,060 --> 01:21:24,999

phone books and in a contact list are we

1839

01:21:29,770 --> 01:21:28,070

losing the ability to remember things

1840

01:21:33,459 --> 01:21:29,780

you know like phone numbers or

1841

01:21:36,609 --> 01:21:33,469

directions does it force our brains into

1842

01:21:38,379 --> 01:21:36,619

becoming complacent and lazy I think

1843

01:21:39,790 --> 01:21:38,389

it's how we how we'll use them you know

1844

01:21:43,919 --> 01:21:39,800

I I just ranted this this afternoon

1845

01:21:47,080 --> 01:21:43,929

somebody my office manager was asking me

1846

01:21:50,259 --> 01:21:47,090

some questions there we go revolved

1847

01:21:52,569 --> 01:21:50,269

around numbers and it's easy to you know

1848

01:21:53,439 --> 01:21:52,579

pull out a calculator and putting to

1849

01:21:56,439 --> 01:21:53,449

punch some buttons

1850

01:21:58,419 --> 01:21:56,449

I personally make it a discipline to

1851
01:22:02,139 --> 01:21:58,429
pull out a piece of paper and and do the

1852
01:22:03,509 --> 01:22:02,149
math so that's just a personal personal

1853
01:22:05,979 --> 01:22:03,519
thing for me but what I know

1854
01:22:07,959 --> 01:22:05,989
understanding what I know about neurons

1855
01:22:09,879 --> 01:22:07,969
and the way neurons work in the heart as

1856
01:22:11,349 --> 01:22:09,889
well as the brain and I know your

1857
01:22:15,369 --> 01:22:11,359
listeners have heard this actually on

1858
01:22:18,909 --> 01:22:15,379
before is neurons that that fire

1859
01:22:23,109 --> 01:22:18,919
together wire together so when we begin

1860
01:22:25,869 --> 01:22:23,119
to to not use those connections they do

1861
01:22:27,279 --> 01:22:25,879
begin to atrophy the chemicals that hold

1862
01:22:29,169 --> 01:22:27,289
those connections in place begin to

1863
01:22:32,500 --> 01:22:29,179

atrophy because because we no longer use

1864

01:22:35,919 --> 01:22:32,510

them so I embrace technology as well I

1865

01:22:39,730 --> 01:22:35,929

think it makes no sense for us to fight

1866

01:22:43,180 --> 01:22:39,740

the technology we are like children

1867

01:22:45,670 --> 01:22:43,190

in a civilization where the technology

1868

01:22:48,640 --> 01:22:45,680

was open the doors we've unlocked the

1869

01:22:51,280 --> 01:22:48,650

secrets to the some of the greatest

1870

01:22:54,010 --> 01:22:51,290

mysteries of creation in nature and

1871

01:22:57,100 --> 01:22:54,020

we've done it Jimmy without answering

1872

01:22:59,020 --> 01:22:57,110

the most significant question about

1873

01:23:01,060 --> 01:22:59,030

ourselves so you mean think about what

1874

01:23:04,300 --> 01:23:01,070

we've done you know we've we split the

1875

01:23:08,440 --> 01:23:04,310

atom we understand how to edit and and

1876

01:23:11,020 --> 01:23:08,450

you know DNA we've put put people on the

1877

01:23:14,620 --> 01:23:11,030

moon we're now bouncing signals off the

1878

01:23:17,290 --> 01:23:14,630

edge of the universe on the one hand and

1879

01:23:19,870 --> 01:23:17,300

the other hand Jimmy we scientifically

1880

01:23:22,000 --> 01:23:19,880

may be not spiritually it's

1881

01:23:23,230 --> 01:23:22,010

scientifically we have yet to answer the

1882

01:23:26,740 --> 01:23:23,240

most fundamental question of our

1883

01:23:29,950 --> 01:23:26,750

existence who are we and until we answer

1884

01:23:34,560 --> 01:23:29,960

that question who are we what do we use

1885

01:23:37,780 --> 01:23:34,570

as the yardstick by which we measure our

1886

01:23:40,170 --> 01:23:37,790

technology and we measure our worth in

1887

01:23:43,120 --> 01:23:40,180

terms of how the technology is applied

1888

01:23:45,700 --> 01:23:43,130

one of the you know this is one of the

1889

01:23:48,220 --> 01:23:45,710

few programs that I can have this

1890

01:23:50,650 --> 01:23:48,230

conversation with you and with our our

1891

01:23:52,030 --> 01:23:50,660

listeners are hundreds of thousands of

1892

01:23:54,270 --> 01:23:52,040

listeners who are now in your living

1893

01:23:57,970 --> 01:23:54,280

room all around your couch right right

1894

01:24:00,610 --> 01:23:57,980

if you have a lot of friends in the in

1895

01:24:02,830 --> 01:24:00,620

the UFO movement phenomenon movement

1896

01:24:07,210 --> 01:24:02,840

who've become very specialized in the

1897

01:24:08,530 --> 01:24:07,220

abductee phenomenon and I know you have

1898

01:24:12,150 --> 01:24:08,540

a lot of guests to talk about that as

1899

01:24:14,430 --> 01:24:12,160

well and one of the these are

1900

01:24:16,990 --> 01:24:14,440

professionals these are professional

1901

01:24:21,190 --> 01:24:17,000

therapists professional psych psych

1902

01:24:22,030 --> 01:24:21,200

psych ologist psychiatrists as well as

1903

01:24:25,090 --> 01:24:22,040

biologists

1904

01:24:28,120 --> 01:24:25,100

who are helping people to come to terms

1905

01:24:30,520 --> 01:24:28,130

with the experience that they've had in

1906

01:24:32,500 --> 01:24:30,530

what it means to them and to help them

1907

01:24:34,960 --> 01:24:32,510

do that they interview these people and

1908

01:24:37,480 --> 01:24:34,970

they have found common themes across the

1909

01:24:39,790 --> 01:24:37,490

interviews and they've shared some of

1910

01:24:41,800 --> 01:24:39,800

those themes with me I don't talk about

1911

01:24:44,590 --> 01:24:41,810

a lot typically from a public stage

1912

01:24:46,480 --> 01:24:44,600

because it typically doesn't tie into

1913

01:24:49,300 --> 01:24:46,490

you know whatever I've been invited to

1914

01:24:52,660 --> 01:24:49,310

speaking about but it is a phenomenon one

1915

01:24:53,320 --> 01:24:52,670

of the common themes Jimmy that comes up

1916

01:24:57,910 --> 01:24:53,330

in the abduction

1917

01:25:03,210 --> 01:24:57,920

and phenomenon is that the the beings

1918

01:25:06,370 --> 01:25:03,220

who have abducted these people when they

1919

01:25:08,560 --> 01:25:06,380

embark upon a conversation whether it's

1920

01:25:11,470 --> 01:25:08,570

telepathic a lot of times it is

1921

01:25:15,040 --> 01:25:11,480

telepathic or whether it's a verbal

1922

01:25:16,990 --> 01:25:15,050

conversation what they convey to the

1923

01:25:19,390 --> 01:25:17,000

abductees is just what we're talking

1924

01:25:21,430 --> 01:25:19,400

about tonight that they are the product

1925

01:25:24,820 --> 01:25:21,440

of an advanced technologically advanced

1926

01:25:29,290 --> 01:25:24,830

civilization who made a choice at some

1927

01:25:31,900 --> 01:25:29,300

point in their past to adopt technology

1928

01:25:34,330 --> 01:25:31,910

before they understood what it was that

1929

01:25:37,660 --> 01:25:34,340

they were giving away and that they lost

1930

01:25:40,840 --> 01:25:37,670

so much of their uniqueness to the

1931

01:25:43,000 --> 01:25:40,850

machines they longed to have that back

1932

01:25:45,370 --> 01:25:43,010

and they're interested in the abductees

1933

01:25:46,930 --> 01:25:45,380

for that reason they're interested in

1934

01:25:49,420 --> 01:25:46,940

the DNA they're interested in the

1935

01:25:51,600 --> 01:25:49,430

neurons and in the way for these

1936

01:25:54,790 --> 01:25:51,610

particular people for whatever reason

1937

01:25:57,550 --> 01:25:54,800

the way that they have these people use

1938

01:26:00,250 --> 01:25:57,560

their biology in their lives maybe they

1939

01:26:03,310 --> 01:26:00,260

are you know compassionate healthcare

1940

01:26:05,740 --> 01:26:03,320

workers or maybe they are hospice you

1941

01:26:08,980 --> 01:26:05,750

know workers or whatever it is so I

1942

01:26:13,300 --> 01:26:08,990

think that it's interesting that

1943

01:26:16,780 --> 01:26:13,310

although each case is unique the among

1944

01:26:19,360 --> 01:26:16,790

the common themes is the theme of an

1945

01:26:23,080 --> 01:26:19,370

advanced technologically advanced

1946

01:26:26,350 --> 01:26:23,090

society that has moved forward with

1947

01:26:29,260 --> 01:26:26,360

their technology in a way that has led

1948

01:26:30,820 --> 01:26:29,270

them from the depths of their uniqueness

1949

01:26:33,640 --> 01:26:30,830

and they want that back

1950

01:26:34,500 --> 01:26:33,650

so I think there's something that we can

1951

01:26:39,850 --> 01:26:34,510

learn from that

1952

01:26:43,930 --> 01:26:39,860

is there another aspect to all of this

1953

01:26:47,350 --> 01:26:43,940

when we're looking at the changes here

1954

01:26:50,560 --> 01:26:47,360

do we have to as a planet as a

1955

01:26:53,470 --> 01:26:50,570

civilization do we have to go to the

1956

01:26:55,840 --> 01:26:53,480

edge do we have to go and stare into the

1957

01:26:59,260 --> 01:26:55,850

darkness and get the crap scared out of

1958

01:27:01,750 --> 01:26:59,270

us to to realize that we're heading in

1959

01:27:04,930 --> 01:27:01,760

the wrong direction and that there is

1960

01:27:06,140 --> 01:27:04,940

another way about this is that what we

1961

01:27:08,629 --> 01:27:06,150

have to do

1962

01:27:10,939 --> 01:27:08,639

you know this is a really I I have this

1963

01:27:13,820 --> 01:27:10,949

conversation frequently with with my

1964

01:27:16,370 --> 01:27:13,830

biology friends and with my philosophy

1965

01:27:20,270 --> 01:27:16,380

friends and there's there's a very

1966

01:27:24,290 --> 01:27:20,280

interesting a very interesting thing

1967

01:27:26,870 --> 01:27:24,300

about us humans in that we seem to to

1968

01:27:29,270 --> 01:27:26,880

experience what we don't want before we

1969

01:27:34,640 --> 01:27:29,280

know we don't want it right and that's

1970

01:27:37,609 --> 01:27:34,650

very different from setting a course to

1971

01:27:40,700 --> 01:27:37,619

a vision of what we do want and working

1972

01:27:43,010 --> 01:27:40,710

toward that vision so we had to have not

1973

01:27:44,689 --> 01:27:43,020

one but but two great Holocaust on the

1974

01:27:45,890 --> 01:27:44,699

planet and and we say we're not going to

1975

01:27:47,330 --> 01:27:45,900

do that we had to have a couple of world

1976

01:27:49,490 --> 01:27:47,340

wars and we say we don't want that

1977

01:27:51,560 --> 01:27:49,500

anymore well we could have said let's

1978

01:27:55,310 --> 01:27:51,570

just live in a planet apiece but we

1979

01:27:58,240 --> 01:27:55,320

didn't do that so my experience and this

1980

01:28:02,089 --> 01:27:58,250

goes back to a conversation that we just

1981

01:28:04,040 --> 01:28:02,099

barely scratched the surface of two

1982

01:28:08,330 --> 01:28:04,050

breaks ago it was in the the second

1983

01:28:11,780 --> 01:28:08,340

second segment what the archeology

1984

01:28:13,760 --> 01:28:11,790

clearly shows you know one of the

1985

01:28:17,180 --> 01:28:13,770

benefits that's coming from global

1986

01:28:21,649 --> 01:28:17,190

warming is it is melting ice in places

1987

01:28:25,070 --> 01:28:21,659

that have that have seen only ice in you

1988

01:28:28,160 --> 01:28:25,080

know in recent memory and when that ice

1989

01:28:30,649 --> 01:28:28,170

melts it begins to expose archaeological

1990

01:28:33,620 --> 01:28:30,659

sites and and the earth penetrating

1991

01:28:36,140 --> 01:28:33,630

radar is exposing archaeological sites

1992

01:28:39,589 --> 01:28:36,150

and we're beginning to have a very

1993

01:28:41,870 --> 01:28:39,599

different picture of human civilization

1994

01:28:44,149 --> 01:28:41,880

so when I was in school again back in

1995

01:28:46,939 --> 01:28:44,159

the 50s 60s or early 70s I was taught

1996

01:28:48,919 --> 01:28:46,949

and many of your listeners were taught

1997

01:28:51,439 --> 01:28:48,929

the same thing and and their children

1998

01:28:53,240 --> 01:28:51,449

today in grandchildren are still being

1999

01:28:55,850 --> 01:28:53,250

taught that civilization began about

2000

01:28:58,910 --> 01:28:55,860

5000 years ago right around the time of

2001
01:29:00,770 --> 01:28:58,920
ancient Sumeria and then Egypt came

2002
01:29:03,080 --> 01:29:00,780
along and then the things like you know

2003
01:29:04,790 --> 01:29:03,090
Rome and Greece and the Incan

2004
01:29:07,910 --> 01:29:04,800
civilization and Mayans that you know

2005
01:29:09,310 --> 01:29:07,920
those all came along later and we were

2006
01:29:12,890 --> 01:29:09,320
taught that's the history of the world

2007
01:29:15,290 --> 01:29:12,900
so that that civilization began about

2008
01:29:18,890 --> 01:29:15,300
5,000 maybe 5,500 years before a

2009
01:29:20,300 --> 01:29:18,900
president BP before present now what the

2010
01:29:24,320 --> 01:29:20,310
archeologist

2011
01:29:26,090 --> 01:29:24,330
is there are archaeological sites I take

2012
01:29:30,250 --> 01:29:26,100
groups into a place of northern Peru

2013
01:29:34,010 --> 01:29:30,260

that is called chorale CA RAL chorale

2014

01:29:36,890 --> 01:29:34,020

collapsed when we're told that that

2015

01:29:38,930 --> 01:29:36,900

civilization began it collapsed about

2016

01:29:41,210 --> 01:29:38,940

fifty five hundred years ago it was the

2017

01:29:43,720 --> 01:29:41,220

most technologically advanced

2018

01:29:45,650 --> 01:29:43,730

civilization and is the oldest

2019

01:29:47,360 --> 01:29:45,660

technologically advanced civilization in

2020

01:29:49,400 --> 01:29:47,370

all of the Americas that's older than

2021

01:29:52,400 --> 01:29:49,410

the Inca than the old Olmec than the

2022

01:29:53,900 --> 01:29:52,410

Toltec the new Maya then the Aztec the

2023

01:29:56,180 --> 01:29:53,910

history books are having to be rewritten

2024

01:29:58,370 --> 01:29:56,190

now to accommodate this discovery of

2025

01:30:00,920 --> 01:29:58,380

coral and then you go back from there

2026
01:30:04,880 --> 01:30:00,930
you know you talk about gobekli tepe and

2027
01:30:06,910 --> 01:30:04,890
one of the great mysteries and we've got

2028
01:30:09,500 --> 01:30:06,920
the new information as a geologist

2029
01:30:11,150 --> 01:30:09,510
looking at the Giza Plateau you know we

2030
01:30:13,640 --> 01:30:11,160
know this is what's called floovio

2031
01:30:15,410 --> 01:30:13,650
erosion on the Sphinx and on the

2032
01:30:17,660 --> 01:30:15,420
pyramids fast moving water over long

2033
01:30:20,390 --> 01:30:17,670
periods of time that hasn't happened

2034
01:30:22,280 --> 01:30:20,400
since the ice melted during the Ice Age

2035
01:30:24,470 --> 01:30:22,290
and that was right around 10,000 years

2036
01:30:27,830 --> 01:30:24,480
ago and we're looking at places like the

2037
01:30:29,840 --> 01:30:27,840
Gulf of Khambhat in India a city three

2038
01:30:33,260 --> 01:30:29,850

miles long five miles wide under a

2039

01:30:35,510 --> 01:30:33,270

hundred and twenty five feet of water we

2040

01:30:37,610 --> 01:30:35,520

either have to say that the city was

2041

01:30:38,930 --> 01:30:37,620

built underwater which doesn't doesn't

2042

01:30:41,900 --> 01:30:38,940

make a lot of sense probably is not

2043

01:30:43,430 --> 01:30:41,910

likely or that it was submerged after it

2044

01:30:45,350 --> 01:30:43,440

was built and that didn't happen until

2045

01:30:48,850 --> 01:30:45,360

after when the ice melted and the sea

2046

01:30:51,110 --> 01:30:48,860

levels rose and we're looking at cities

2047

01:30:54,380 --> 01:30:51,120

that are being discovered that were

2048

01:30:56,510 --> 01:30:54,390

thought to be fairytales Gulf of

2049

01:31:02,000 --> 01:30:56,520

Khambhat is one it's in the Mahabharata

2050

01:31:05,710 --> 01:31:02,010

and the evidence of of atomic war in you

2051
01:31:09,110 --> 01:31:05,720
know in places that were finding glazed

2052
01:31:11,240 --> 01:31:09,120
sand across the desert and radioactive

2053
01:31:13,880 --> 01:31:11,250
skeletons and huge craters it can only

2054
01:31:17,090 --> 01:31:13,890
be seen from the sky and they correlate

2055
01:31:19,790 --> 01:31:17,100
with what the Hindu traditions tell us

2056
01:31:21,110 --> 01:31:19,800
was a great battle that happened that

2057
01:31:23,000 --> 01:31:21,120
has always been believes to be

2058
01:31:24,890 --> 01:31:23,010
make-believe a fairy tale so when you

2059
01:31:27,950 --> 01:31:24,900
put all these together now we're looking

2060
01:31:30,980 --> 01:31:27,960
at technologically advanced societies

2061
01:31:32,810 --> 01:31:30,990
twice as old is what we were taught

2062
01:31:33,440 --> 01:31:32,820
they've gone back over ten thousand

2063
01:31:38,030 --> 01:31:33,450

years and go back

2064

01:31:40,670 --> 01:31:38,040

happy now is over 13,000 years and and

2065

01:31:42,440 --> 01:31:40,680

now that we're looking beyond earth

2066

01:31:45,080 --> 01:31:42,450

we're looking at the archeology on the

2067

01:31:47,390 --> 01:31:45,090

lunar surface and beyond those sites are

2068

01:31:48,710 --> 01:31:47,400

now being dated around fifty thousand

2069

01:31:52,040 --> 01:31:48,720

years before present

2070

01:31:55,520 --> 01:31:52,050

so rather than this linear model it

2071

01:31:58,870 --> 01:31:55,530

appears that civilization is cyclic that

2072

01:32:01,850 --> 01:31:58,880

we reach a certain level of complexity

2073

01:32:05,000 --> 01:32:01,860

this is unsustainable and that

2074

01:32:08,270 --> 01:32:05,010

civilization collapses possibly due to

2075

01:32:11,300 --> 01:32:08,280

war and begins again we have to ask

2076

01:32:14,570 --> 01:32:11,310

ourselves are we following that pattern

2077

01:32:18,140 --> 01:32:14,580

are reliving that cycle right now and if

2078

01:32:21,320 --> 01:32:18,150

we are do we have the wisdom to choose

2079

01:32:23,690 --> 01:32:21,330

wisely so that we don't fall into the

2080

01:32:25,160 --> 01:32:23,700

same path as those civilizations that

2081

01:32:27,530 --> 01:32:25,170

have failed in the past and I I

2082

01:32:29,060 --> 01:32:27,540

personally believe that we this

2083

01:32:29,800 --> 01:32:29,070

generation we're answering that question

2084

01:32:31,940 --> 01:32:29,810

right now

2085

01:32:33,740 --> 01:32:31,950

well I may not know that we're answering

2086

01:32:35,990 --> 01:32:33,750

it but we're answering it in technology

2087

01:32:40,030 --> 01:32:36,000

is a big part of it and you know and

2088

01:32:42,110 --> 01:32:40,040

this is what I find interesting because

2089

01:32:44,810 --> 01:32:42,120

anthropologists and archaeologists even

2090

01:32:48,860 --> 01:32:44,820

geologists had all said the same thing

2091

01:32:51,080 --> 01:32:48,870

when John Anthony West and and Robert

2092

01:32:55,280 --> 01:32:51,090

Schoch you know did the documentary and

2093

01:32:59,240 --> 01:32:55,290

and and they said look just give us some

2094

01:33:02,180 --> 01:32:59,250

evidence of something before 3,000 BC

2095

01:33:04,940 --> 01:33:02,190

and we have a conversation here but

2096

01:33:07,940 --> 01:33:04,950

until then we're right and you're wrong

2097

01:33:12,050 --> 01:33:07,950

since then you know you have called

2098

01:33:14,150 --> 01:33:12,060

you have the caves outside of tel aviv

2099

01:33:17,420 --> 01:33:14,160

you have gobekli tepe

2100

01:33:20,930 --> 01:33:17,430

and other sites around the planet that

2101

01:33:23,330 --> 01:33:20,940

clearly suggests the opposite of what

2102

01:33:26,320 --> 01:33:23,340

we've been taught but they still choose

2103

01:33:29,630 --> 01:33:26,330

to ignore it when is that stranglehold

2104

01:33:31,790 --> 01:33:29,640

gonna end well we mentioned in the last

2105

01:33:33,410 --> 01:33:31,800

hour there's a battle unfolding in our

2106

01:33:35,390 --> 01:33:33,420

lives to maintain what's called the

2107

01:33:38,180 --> 01:33:35,400

standard model right and that's that

2108

01:33:40,820 --> 01:33:38,190

standard model begins with the beginning

2109

01:33:43,490 --> 01:33:40,830

with the origins of the cosmos the Big

2110

01:33:46,370 --> 01:33:43,500

Bang Theory when and how that happened

2111

01:33:46,910 --> 01:33:46,380

it begins with human origins who are

2112

01:33:49,160 --> 01:33:46,920

reword

2113

01:33:51,410 --> 01:33:49,170

we come from are we the product of

2114

01:33:54,350 --> 01:33:51,420

random mutations an accident and a fluke

2115

01:33:56,540 --> 01:33:54,360

of biology or is there some some sort of

2116

01:33:58,490 --> 01:33:56,550

intervention and some level of

2117

01:34:02,209 --> 01:33:58,500

intentionality sure you're lying our

2118

01:34:04,310 --> 01:34:02,219

existence and civilization does it go

2119

01:34:06,380 --> 01:34:04,320

back further than we've been led to

2120

01:34:08,150 --> 01:34:06,390

believe you know one of the really

2121

01:34:11,810 --> 01:34:08,160

interesting happened things that has

2122

01:34:14,300 --> 01:34:11,820

happened and I was during the Cold War

2123

01:34:16,280 --> 01:34:14,310

years I didn't work in the aerospace

2124

01:34:18,169 --> 01:34:16,290

industry and then because it was wartime

2125

01:34:20,950 --> 01:34:18,179

I was drafted in the defense industry

2126
01:34:24,470 --> 01:34:20,960
that's where they needed the the

2127
01:34:27,350 --> 01:34:24,480
expertise and it was a really bizarre

2128
01:34:29,390 --> 01:34:27,360
time it was such a weird time Jimi when

2129
01:34:33,050 --> 01:34:29,400
the two former superpowers were poised

2130
01:34:36,500 --> 01:34:33,060
you know to do the unthinkable and and I

2131
01:34:38,510 --> 01:34:36,510
remember it was emotionally going into

2132
01:34:41,300 --> 01:34:38,520
the the secret vaults where we worked

2133
01:34:43,970 --> 01:34:41,310
every day and creating the software and

2134
01:34:48,830 --> 01:34:43,980
and working with Star Wars and things

2135
01:34:53,209 --> 01:34:48,840
like that my player was that somehow we

2136
01:34:55,550 --> 01:34:53,219
were all working so that the horror of

2137
01:34:57,620 --> 01:34:55,560
wars that we had seen in the past would

2138
01:35:01,610 --> 01:34:57,630

never happen again and that the

2139

01:35:03,890 --> 01:35:01,620

technology would give us a way to work

2140

01:35:06,229 --> 01:35:03,900

together so that we would never see

2141

01:35:09,350 --> 01:35:06,239

those wars again well it was it was

2142

01:35:11,930 --> 01:35:09,360

during that time that the former Soviet

2143

01:35:13,189 --> 01:35:11,940

Union and well the former America

2144

01:35:15,410 --> 01:35:13,199

because it was a different country then

2145

01:35:18,950 --> 01:35:15,420

they had the agreements that they would

2146

01:35:20,689 --> 01:35:18,960

never share what was found when those

2147

01:35:22,130 --> 01:35:20,699

countries went onto the lunar surface

2148

01:35:24,200 --> 01:35:22,140

they were the only two countries that

2149

01:35:27,770 --> 01:35:24,210

had the money in the technology to to go

2150

01:35:31,370 --> 01:35:27,780

to the lunar surface and they've honored

2151
01:35:33,140 --> 01:35:31,380
that agreement and we now have those two

2152
01:35:34,790 --> 01:35:33,150
countries or two Broke America is

2153
01:35:37,610 --> 01:35:34,800
they're not going anytime soon

2154
01:35:39,650 --> 01:35:37,620
Russia's not go anytime soon but there

2155
01:35:41,720 --> 01:35:39,660
are countries that are that are not part

2156
01:35:44,479 --> 01:35:41,730
of that agreement China for example and

2157
01:35:47,600 --> 01:35:44,489
China has said that when they land on

2158
01:35:49,880 --> 01:35:47,610
the lunar surface they are going to beam

2159
01:35:51,590 --> 01:35:49,890
back to the earth live whatever it is

2160
01:35:55,310 --> 01:35:51,600
they find there they were not part of

2161
01:35:56,750 --> 01:35:55,320
that original agreement my sense and I

2162
01:35:59,150 --> 01:35:56,760
know you've had guests on they've talked

2163
01:35:59,729 --> 01:35:59,160

about this and you know George has and

2164

01:36:02,310 --> 01:35:59,739

you know for

2165

01:36:03,899 --> 01:36:02,320

years mm-hmm my sense is when we see

2166

01:36:06,779 --> 01:36:03,909

those archeological remnants you know

2167

01:36:10,410 --> 01:36:06,789

we're looking for microbes as signs of

2168

01:36:14,520 --> 01:36:10,420

life on the lunar surface right next to

2169

01:36:16,410 --> 01:36:14,530

two archeological remnants that are now

2170

01:36:20,910 --> 01:36:16,420

estimated be fifty thousand years old

2171

01:36:22,709 --> 01:36:20,920

and when we find those remnants people

2172

01:36:25,859 --> 01:36:22,719

are going to automatically think oh you

2173

01:36:29,669 --> 01:36:25,869

know it must be ETS UFOs which are very

2174

01:36:33,209 --> 01:36:29,679

possible I think it's very possible they

2175

01:36:36,270 --> 01:36:33,219

could be however based on what I now

2176
01:36:38,279 --> 01:36:36,280
understand about cycles of human

2177
01:36:41,100 --> 01:36:38,289
consciousness and civilization in

2178
01:36:43,259 --> 01:36:41,110
history I think we're going to find that

2179
01:36:46,049 --> 01:36:43,269
those are not remnants from an alien

2180
01:36:48,629 --> 01:36:46,059
civilization I think they're us from

2181
01:36:50,279 --> 01:36:48,639
another time in our history when we

2182
01:36:53,729 --> 01:36:50,289
achieve great and beautiful things

2183
01:36:56,430 --> 01:36:53,739
because we worked together before we

2184
01:37:00,239 --> 01:36:56,440
went to war and if we did that in the

2185
01:37:01,830 --> 01:37:00,249
past just as our world is coming so

2186
01:37:04,229 --> 01:37:01,840
close you know there's a push for war

2187
01:37:06,739 --> 01:37:04,239
you can feel it there is an element that

2188
01:37:08,939 --> 01:37:06,749

wants war and there's a lot of our

2189

01:37:11,939 --> 01:37:08,949

global community that doesn't want the

2190

01:37:16,140 --> 01:37:11,949

war happening right now can you imagine

2191

01:37:18,089 --> 01:37:16,150

what would happen if we beam back from

2192

01:37:21,000 --> 01:37:18,099

the lunar surface evidence of something

2193

01:37:24,419 --> 01:37:21,010

that we created it's sometime in our

2194

01:37:26,759 --> 01:37:24,429

past and we said if we were able to do

2195

01:37:28,950 --> 01:37:26,769

this together ten thousand years ago

2196

01:37:31,620 --> 01:37:28,960

what could we accomplish if we work

2197

01:37:34,529 --> 01:37:31,630

together now and it has the potential I

2198

01:37:36,419 --> 01:37:34,539

believe to be the most unifying right

2199

01:37:39,689 --> 01:37:36,429

experience for the people on the earth

2200

01:37:42,239 --> 01:37:39,699

just at the time Jimmy when our world is

2201
01:37:43,500 --> 01:37:42,249
becoming so polarized something that

2202
01:37:46,350 --> 01:37:43,510
could bring us together in such a

2203
01:37:51,439 --> 01:37:46,360
powerful way something to give us hope

2204
01:37:55,169 --> 01:37:51,449
something does evident right right I

2205
01:37:59,609 --> 01:37:55,179
couldn't agree with you more and one of

2206
01:38:01,649 --> 01:37:59,619
the the plays on this is that you know

2207
01:38:04,319 --> 01:38:01,659
are we alone in the universe right and

2208
01:38:06,569 --> 01:38:04,329
answering that question well okay that's

2209
01:38:09,390 --> 01:38:06,579
fundamental and we've been to you know

2210
01:38:11,890 --> 01:38:09,400
contemplating that you know for for

2211
01:38:16,560 --> 01:38:11,900
millennia but

2212
01:38:20,560 --> 01:38:16,570
if we find out that there is a reason to

2213
01:38:25,510 --> 01:38:20,570

clean up this planet to live to exist

2214

01:38:28,330 --> 01:38:25,520

because we have a reason to make friends

2215

01:38:32,260 --> 01:38:28,340

out there in the universe it would be

2216

01:38:34,990 --> 01:38:32,270

the opposite of if we found if they

2217

01:38:37,450 --> 01:38:35,000

wanted to project on us Greg that we are

2218

01:38:39,340 --> 01:38:37,460

alone in the universe then you know what

2219

01:38:42,340 --> 01:38:39,350

that does of this planet it's like let's

2220

01:38:45,189 --> 01:38:42,350

burn this sucker down there there's no

2221

01:38:47,290 --> 01:38:45,199

way we bring every human for themselves

2222

01:38:49,419 --> 01:38:47,300

maybe country for itself that's survival

2223

01:38:51,939 --> 01:38:49,429

with the strongest that's right that's

2224

01:38:54,550 --> 01:38:51,949

right and this is where and this is

2225

01:38:57,520 --> 01:38:54,560

exactly the precisely the point where

2226
01:39:00,340 --> 01:38:57,530
best science of the 21st century is now

2227
01:39:03,130 --> 01:39:00,350
overturned that fundamental tenant in

2228
01:39:06,030 --> 01:39:03,140
peer-reviewed journals are now telling

2229
01:39:08,530 --> 01:39:06,040
us nature's fundamental rule is not

2230
01:39:10,689 --> 01:39:08,540
competition it's not survival of the

2231
01:39:12,850 --> 01:39:10,699
strongest by the way those were Darwin's

2232
01:39:15,459 --> 01:39:12,860
actual words I researched them in his

2233
01:39:17,770 --> 01:39:15,469
manuscript he called it survival of the

2234
01:39:20,050 --> 01:39:17,780
strongest later is interpreted as

2235
01:39:22,270 --> 01:39:20,060
survival of the fittest his words were

2236
01:39:24,280 --> 01:39:22,280
survival of the strongest and what we

2237
01:39:27,240 --> 01:39:24,290
now know is that nature's fundamental

2238
01:39:30,160 --> 01:39:27,250

rule is cooperation and the more

2239

01:39:31,660 --> 01:39:30,170

conflict in the more competition that

2240

01:39:34,030 --> 01:39:31,670

you see I mean I'm not denying that's

2241

01:39:36,070 --> 01:39:34,040

there obviously it's there but the more

2242

01:39:38,530 --> 01:39:36,080

of that conflict we see that tells us

2243

01:39:41,979 --> 01:39:38,540

how far we've strayed from this

2244

01:39:43,689 --> 01:39:41,989

fundamental truth of of the way nature

2245

01:39:46,300 --> 01:39:43,699

operates and that was part of the

2246

01:39:47,979 --> 01:39:46,310

message bruce lipton and i were invited

2247

01:39:51,310 --> 01:39:47,989

to speak at the United Nations a couple

2248

01:39:53,830 --> 01:39:51,320

of years ago as a team me as a an earth

2249

01:39:55,930 --> 01:39:53,840

scientist and he is a life scientist and

2250

01:39:58,570 --> 01:39:55,940

this was part of the message that we

2251

01:40:01,419 --> 01:39:58,580

shared is that nature is based on this

2252

01:40:04,959 --> 01:40:01,429

fundamental rule of cooperation do we

2253

01:40:07,180 --> 01:40:04,969

think that we're so different from the

2254

01:40:09,580 --> 01:40:07,190

natural rules and the natural laws and

2255

01:40:11,649 --> 01:40:09,590

rhythms of this planet that we don't

2256

01:40:13,750 --> 01:40:11,659

need to follow that and if we're serious

2257

01:40:15,760 --> 01:40:13,760

about solving the problems and that that

2258

01:40:19,390 --> 01:40:15,770

is supposedly what the United Nations is

2259

01:40:20,830 --> 01:40:19,400

all about then it behooves us to follow

2260

01:40:23,800 --> 01:40:20,840

this this fundamental rule of

2261

01:40:25,630 --> 01:40:23,810

cooperation rather than then conflict

2262

01:40:27,250 --> 01:40:25,640

and competition so

2263

01:40:29,080 --> 01:40:27,260

this is where it all comes back to where

2264

01:40:31,420 --> 01:40:29,090

we began this conversation Jimmy the

2265

01:40:33,310 --> 01:40:31,430

better we know ourselves the better

2266

01:40:35,680 --> 01:40:33,320

equipped we are to deal with whatever

2267

01:40:39,520 --> 01:40:35,690

Life brings to our doorstep and the last

2268

01:40:41,440 --> 01:40:39,530

we fear the unknown we we are what are

2269

01:40:44,830 --> 01:40:41,450

called self referencing beings so we

2270

01:40:46,240 --> 01:40:44,840

tend to hinge our sense of well-being on

2271

01:40:48,280 --> 01:40:46,250

what's happened in the world out there

2272

01:40:49,630 --> 01:40:48,290

so you know you come home from work and

2273

01:40:50,980 --> 01:40:49,640

you know you see a bunch of impeachment

2274

01:40:52,540 --> 01:40:50,990

hearings and the government looks like

2275

01:40:54,880 --> 01:40:52,550

it's dysfunctional and the markets are

2276

01:40:56,500 --> 01:40:54,890

crazy and you know war is breaking out

2277

01:40:59,350 --> 01:40:56,510

all over and and you try to have dinner

2278

01:41:01,150 --> 01:40:59,360

with your family and you know it can be

2279

01:41:04,450 --> 01:41:01,160

a pretty rocky road and you come home

2280

01:41:07,660 --> 01:41:04,460

and you know all the things are just the

2281

01:41:11,710 --> 01:41:07,670

opposite and it influences the way that

2282

01:41:15,490 --> 01:41:11,720

we feel about ourselves because we hinge

2283

01:41:18,280 --> 01:41:15,500

our sense of well-being on the external

2284

01:41:20,980 --> 01:41:18,290

world as we embrace these new

2285

01:41:22,210 --> 01:41:20,990

discoveries what we find out is it

2286

01:41:23,950 --> 01:41:22,220

doesn't change what happened in the

2287

01:41:26,380 --> 01:41:23,960

world necessarily but it changes the way

2288

01:41:28,840 --> 01:41:26,390

we feel about what happens in the world

2289

01:41:32,650 --> 01:41:28,850

and when we begin to write the new human

2290

01:41:35,530 --> 01:41:32,660

story that is where we open the doors to

2291

01:41:37,600 --> 01:41:35,540

new ways of thinking and new ways of

2292

01:41:41,140 --> 01:41:37,610

working together in cooperation there's

2293

01:41:44,980 --> 01:41:41,150

a big part of that so I think it is

2294

01:41:46,150 --> 01:41:44,990

worth our time and worth the energy that

2295

01:41:48,790 --> 01:41:46,160

it takes to answer this fundamental

2296

01:41:50,740 --> 01:41:48,800

question who are we because it's going

2297

01:41:52,900 --> 01:41:50,750

to change the kind of energy that drives

2298

01:41:54,400 --> 01:41:52,910

this planet it brings you know

2299

01:41:56,560 --> 01:41:54,410

electricity to our homes it's going to

2300

01:41:58,180 --> 01:41:56,570

change the way we grow our food good to

2301

01:42:00,190 --> 01:41:58,190

change the way we heal our bodies and

2302

01:42:05,430 --> 01:42:00,200

ultimately it's going to change the way

2303

01:42:12,310 --> 01:42:10,000

before we wrap up I want your thought on

2304

01:42:15,760 --> 01:42:12,320

this really quick and you're more than

2305

01:42:17,040 --> 01:42:15,770

welcome to hang out for some overtime if

2306

01:42:22,030 --> 01:42:17,050

you want to continue the conversation

2307

01:42:26,200 --> 01:42:22,040

but it's this why is it that it's it's

2308

01:42:33,370 --> 01:42:26,210

so hard to do the right thing right it's

2309

01:42:36,460 --> 01:42:33,380

it's easier to be bad well the question

2310

01:42:39,339 --> 01:42:36,470

is it's the environment that we find

2311

01:42:41,589 --> 01:42:39,349

ourselves in we

2312

01:42:44,500 --> 01:42:41,599

have been everything that's that's

2313

01:42:47,080 --> 01:42:44,510

happening in the world is only happening

2314

01:42:50,859 --> 01:42:47,090

because of the way we've been taught to

2315

01:42:53,349 --> 01:42:50,869

think so all the atrocities you know of

2316

01:42:56,949 --> 01:42:53,359

the wars and what was happening with

2317

01:43:00,009 --> 01:42:56,959

Isis and you know that the conflicts

2318

01:43:01,779 --> 01:43:00,019

that we see and the revolutions and all

2319

01:43:04,149 --> 01:43:01,789

the bad and all the good things they're

2320

01:43:06,729 --> 01:43:04,159

the product of a way of thinking we are

2321

01:43:11,319 --> 01:43:06,739

conditioned to to think about ourselves

2322

01:43:13,029 --> 01:43:11,329

as random mutations the value of life

2323

01:43:14,739 --> 01:43:13,039

our young people it's easy for them to

2324

01:43:16,689 --> 01:43:14,749

take their own lives it's easy for them

2325

01:43:19,379 --> 01:43:16,699

to take the lives of someone else it's

2326

01:43:22,419 --> 01:43:19,389

easy for them to disrespect their bodies

2327

01:43:25,629 --> 01:43:22,429

I asked a group of young people one of

2328

01:43:27,250 --> 01:43:25,639

my programs recently what how they felt

2329

01:43:29,469 --> 01:43:27,260

how optimistic they were about their

2330

01:43:31,149 --> 01:43:29,479

future and every one of them told me

2331

01:43:32,739 --> 01:43:31,159

that the I won't use their exact

2332

01:43:35,709 --> 01:43:32,749

language but what I'll say is they said

2333

01:43:39,129 --> 01:43:35,719

the world is so messed up we are only

2334

01:43:41,259 --> 01:43:39,139

thinking about today and we're not

2335

01:43:42,549 --> 01:43:41,269

thinking about what's gonna happen ten

2336

01:43:44,020 --> 01:43:42,559

years from now our twenty years well we

2337

01:43:46,000 --> 01:43:44,030

don't think we have a future we don't

2338

01:43:48,099 --> 01:43:46,010

think that world is even gonna exist

2339

01:43:51,219 --> 01:43:48,109

it's the way we've been taught to think

2340

01:43:52,989 --> 01:43:51,229

so as we begin to change the way we

2341

01:43:55,000 --> 01:43:52,999

think all the things you're saying I

2342

01:43:57,639 --> 01:43:55,010

believe change this is where science

2343

01:44:00,969 --> 01:43:57,649

comes in science is a language that's

2344

01:44:02,889 --> 01:44:00,979

trusted and it's respected and it's it's

2345

01:44:05,049 --> 01:44:02,899

more of a neutral language than the

2346

01:44:09,219 --> 01:44:05,059

language of spirituality religion or

2347

01:44:11,949 --> 01:44:09,229

politics so I think the ideas are

2348

01:44:13,479 --> 01:44:11,959

accepted more readily when they are

2349

01:44:16,389 --> 01:44:13,489

conveyed through the language of science

2350

01:44:19,929 --> 01:44:16,399

and science is revealing some very very

2351

01:44:21,250 --> 01:44:19,939

powerful very deep truths about our

2352

01:44:23,139 --> 01:44:21,260

extraordinary potential and what

2353

01:44:25,479 --> 01:44:23,149

extraordinary beings we really are and

2354

01:44:28,389 --> 01:44:25,489

what an extraordinary planet we live on

2355

01:44:29,859 --> 01:44:28,399

in our relationship to that planet that

2356

01:44:30,369 --> 01:44:29,869

brings us back to where we started two

2357

01:44:32,169 --> 01:44:30,379

hours ago

2358

01:44:36,099 --> 01:44:32,179

yeah I know I know and I'm not ready to

2359

01:44:39,159 --> 01:44:36,109

end this conversation I kind of can't

2360

01:44:42,609 --> 01:44:39,169

can I talk you into another twenty

2361

01:44:44,919 --> 01:44:42,619

minutes uh I could do twenty minutes I'm

2362

01:44:46,899 --> 01:44:44,929

actually I've got another seriously I

2363

01:44:48,689 --> 01:44:46,909

have another interview coming in to top

2364

01:44:52,779 --> 01:44:48,699

the next hour

2365

01:44:55,629 --> 01:44:52,789

okay it's up to you I've got I've got

2366

01:44:58,750 --> 01:44:55,639

notes here and I just don't want ok

2367

01:45:01,509 --> 01:44:58,760

let's take a break right here I'll take

2368

01:45:05,199 --> 01:45:01,519

the break early and and I'm gonna I'm

2369

01:45:06,849 --> 01:45:05,209

I'm gonna hold you captive so I'm going

2370

01:45:09,849 --> 01:45:06,859

to text my next interview and tell them

2371

01:45:10,599 --> 01:45:09,859

I'm going to ten minutes to the top of

2372

01:45:16,509 --> 01:45:10,609

the hour okay

2373

01:45:18,159 --> 01:45:16,519

yeah and tell them who it is take a

2374

01:45:19,809 --> 01:45:18,169

quick break right here our guest tonight

2375

01:45:22,239 --> 01:45:19,819

Gregg Braden we're going straight into

2376

01:45:24,159 --> 01:45:22,249

some overtime Thank You Gregg for doing

2377

01:45:25,869 --> 01:45:24,169

that I'll take the break early this is

2378

01:45:29,369 --> 01:45:25,879

2382

01:45:38,859 --> 01:45:36,379

at gregg braden on twitter we've got

2383

01:45:43,790 --> 01:45:38,869

everything up in our feed we'll be right

2384

01:45:43,800 --> 01:45:51,440

[Music]

2385

01:45:56,550 --> 01:45:54,510

all right welcome back heading into some

2386

01:45:59,400 --> 01:45:56,560

overtime with Gregg Braden saw this

2387

01:46:01,920 --> 01:45:59,410

coming too many things left on the table

2388

01:46:03,540 --> 01:46:01,930

Gregan and I want to thank you and I'm

2389

01:46:06,030 --> 01:46:03,550

watching Twitter and everybody's very

2390

01:46:09,630 --> 01:46:06,040

thankful that you're able to hang on and

2391

01:46:12,090 --> 01:46:09,640

one of the things that I don't want to

2392

01:46:15,300 --> 01:46:12,100

we were talking about right before the

2393

01:46:18,990 --> 01:46:15,310

break which is this the manipulation of

2394

01:46:22,440 --> 01:46:19,000

the media with our consciousness is

2395

01:46:25,430 --> 01:46:22,450

something that it's a mental thing but I

2396

01:46:28,680 --> 01:46:25,440

think it's also physical because I found

2397

01:46:31,680 --> 01:46:28,690

that you brought up Isis right had that

2398

01:46:34,290 --> 01:46:31,690

I watched one too many Isis beheading

2399

01:46:37,800 --> 01:46:34,300

videos on the news where I started to

2400

01:46:41,430 --> 01:46:37,810

physically change like get like ill like

2401

01:46:45,030 --> 01:46:41,440

get sick I stopped I stopped watching

2402

01:46:46,980 --> 01:46:45,040

the news and I did this five or six

2403

01:46:51,690 --> 01:46:46,990

years ago and I'm a better person today

2404

01:46:55,820 --> 01:46:51,700

because of it I read the news I choose

2405

01:47:00,150 --> 01:46:55,830

what I'm going to be fed I don't allow

2406

01:47:03,630 --> 01:47:00,160

to to myself to be manipulated by video

2407

01:47:06,900 --> 01:47:03,640

is this is this something real in that

2408

01:47:10,620 --> 01:47:06,910

we are physically being changed and does

2409

01:47:15,060 --> 01:47:10,630

the man understand this well that's two

2410

01:47:17,130 --> 01:47:15,070

questions we can it's possible to be

2411

01:47:18,930 --> 01:47:17,140

changed and and again this this goes

2412

01:47:20,780 --> 01:47:18,940

back to a very powerful statement began

2413

01:47:24,180 --> 01:47:20,790

with there's a battle that's playing out

2414

01:47:26,790 --> 01:47:24,190

for our thoughts it's a battle for our

2415

01:47:30,960 --> 01:47:26,800

story it's a battle for our humaneness

2416

01:47:34,080 --> 01:47:30,970

those are three very distinct aspects of

2417

01:47:37,320 --> 01:47:34,090

this battle and to the degree that we

2418

01:47:40,560 --> 01:47:37,330

allow media to play the role in our

2419

01:47:43,710 --> 01:47:40,570

lives that has in the past it has the

2420

01:47:47,670 --> 01:47:43,720

potential to change us we we begin to

2421

01:47:51,690 --> 01:47:47,680

think there was a linguist in the early

2422

01:47:56,970 --> 01:47:51,700

20th century that worked with the the

2423

01:47:58,470 --> 01:47:56,980

the Hopi traditions and he discovered he

2424

01:48:01,520 --> 01:47:58,480

was the one that made the discovery that

2425

01:48:04,020 --> 01:48:01,530

the words that we use not only

2426

01:48:07,740 --> 01:48:04,030

determined

2427

01:48:10,529 --> 01:48:07,750

what we think but they determine how

2428

01:48:13,200 --> 01:48:10,539

we're even capable of conceiving our

2429

01:48:17,040 --> 01:48:13,210

world the the words the language that we

2430

01:48:19,169 --> 01:48:17,050

use and that was the what opened the

2431

01:48:21,510 --> 01:48:19,179

door to the understanding that media

2432

01:48:24,029 --> 01:48:21,520

actually can change the chemistry in our

2433

01:48:26,700 --> 01:48:24,039

brain right it happens in a couple of

2434

01:48:27,839 --> 01:48:26,710

different ways when you know I was I was

2435

01:48:29,970 --> 01:48:27,849

a kid growing up in the Midwest

2436

01:48:34,260 --> 01:48:29,980

conservative community northern Missouri

2437

01:48:35,790 --> 01:48:34,270

50s and 60s and men were taught to

2438

01:48:37,439 --> 01:48:35,800

discount your feelings discount your

2439

01:48:40,859 --> 01:48:37,449

emotion so you know it's just just a

2440

01:48:44,669 --> 01:48:40,869

feeling what we now know is the the

2441

01:48:47,160 --> 01:48:44,679

recovered texts excuse me from the

2442

01:48:48,899 --> 01:48:47,170

Nagamani library for example tell us

2443

01:48:51,750 --> 01:48:48,909

that the power of human emotion in the

2444

01:48:54,390 --> 01:48:51,760

heart is actually the power to change

2445

01:48:58,649 --> 01:48:54,400

our physiology to change our bodies when

2446

01:49:01,500 --> 01:48:58,659

we have a feeling about what we see they

2447

01:49:04,500 --> 01:49:01,510

we emit very specific kinds of chemicals

2448

01:49:08,700 --> 01:49:04,510

this is why art is so powerful when you

2449

01:49:11,129 --> 01:49:08,710

see art that that makes you feel good

2450

01:49:13,680 --> 01:49:11,139

your body begins to emit the chemicals

2451

01:49:17,640 --> 01:49:13,690

that reflect that the dopamine and

2452

01:49:20,069 --> 01:49:17,650

serotonin but it also emits what are

2453

01:49:22,049 --> 01:49:20,079

called neuro peptides every emotion

2454

01:49:24,330 --> 01:49:22,059

creates a neuropeptide in our bodies and

2455

01:49:27,390 --> 01:49:24,340

those neuro peptides play a very

2456

01:49:29,819 --> 01:49:27,400

powerful role in in our physiology so

2457

01:49:32,069 --> 01:49:29,829

when young people are watching video

2458

01:49:33,330 --> 01:49:32,079

games all day long it it begins to

2459

01:49:36,510 --> 01:49:33,340

change the way that their brain

2460

01:49:39,270 --> 01:49:36,520

functions and the same with with the

2461

01:49:41,580 --> 01:49:39,280

media I think part of it is conscious a

2462

01:49:42,319 --> 01:49:41,590

conscious manipulation that here's the

2463

01:49:45,870 --> 01:49:42,329

good news

2464

01:49:47,640 --> 01:49:45,880

so few people you know we we live in a

2465

01:49:50,370 --> 01:49:47,650

country at about three what three

2466

01:49:54,060 --> 01:49:50,380

hundred thirty million plus give or take

2467

01:49:57,990 --> 01:49:54,070

in the United States today so few people

2468

01:50:01,049 --> 01:49:58,000

are watching what we call news if you

2469

01:50:03,569 --> 01:50:01,059

know you go through the airports and CNN

2470

01:50:06,479 --> 01:50:03,579

is blaring on every flat screen in every

2471

01:50:08,270 --> 01:50:06,489

restaurant and at the gates at the

2472

01:50:10,589 --> 01:50:08,280

airports and you would you would think

2473

01:50:12,959 --> 01:50:10,599

that everybody in the world is watching

2474

01:50:15,890 --> 01:50:12,969

what you're watching and the reality is

2475

01:50:18,300 --> 01:50:15,900

the ratings the numbers are so low for

2476

01:50:20,460 --> 01:50:18,310

the network

2477

01:50:22,650 --> 01:50:20,470

that relatively few people are actually

2478

01:50:26,190 --> 01:50:22,660

being influenced by what you're talking

2479

01:50:29,670 --> 01:50:26,200

about those that watch may be influenced

2480

01:50:32,010 --> 01:50:29,680

and when I go to live events all over

2481

01:50:34,740 --> 01:50:32,020

all over the world I asked a question I

2482

01:50:37,380 --> 01:50:34,750

said who stopped watching television and

2483

01:50:40,230 --> 01:50:37,390

at least of our audiences the majority

2484

01:50:42,180 --> 01:50:40,240

of people recognize that that news is no

2485

01:50:45,480 --> 01:50:42,190

longer news it's commentary it's

2486

01:50:49,580 --> 01:50:45,490

somebody's idea somebody's spin on an

2487

01:50:53,730 --> 01:50:49,590

event that has happened and I prefer to

2488

01:50:56,370 --> 01:50:53,740

to interpret those events through my own

2489

01:50:58,350 --> 01:50:56,380

lens of perception and I have to work

2490

01:51:01,020 --> 01:50:58,360

really really hard I'll tell you it's

2491

01:51:04,110 --> 01:51:01,030

very difficult to find a solid source of

2492

01:51:07,950 --> 01:51:04,120

objective news and I don't think there

2493

01:51:09,650 --> 01:51:07,960

is one but I find news feeds from other

2494

01:51:12,510 --> 01:51:09,660

countries when I'm out of this country

2495

01:51:15,300 --> 01:51:12,520

I'll give you a perfect example I was in

2496

01:51:18,030 --> 01:51:15,310

Australia over 9/11 I could not even get

2497

01:51:21,710 --> 01:51:18,040

back into my own country it was a very

2498

01:51:26,910 --> 01:51:21,720

strange time and I watched 9/11 unfold

2499

01:51:31,260 --> 01:51:26,920

through the eyes of of Middle Eastern

2500

01:51:34,410 --> 01:51:31,270

and Asian and Australian television Sky

2501
01:51:39,110 --> 01:51:34,420
News was out of the UK some of us were

2502
01:51:41,340 --> 01:51:39,120
out of India and I and I saw a CNN world

2503
01:51:43,410 --> 01:51:41,350
the pictures were the same the

2504
01:51:45,840 --> 01:51:43,420
commentary was so very very different

2505
01:51:49,080 --> 01:51:45,850
and I was amazed at how different the

2506
01:51:51,530 --> 01:51:49,090
commentary could be so I think to answer

2507
01:51:54,360 --> 01:51:51,540
your question it is possible to be

2508
01:51:57,390 --> 01:51:54,370
changed it is possible to be manipulated

2509
01:51:59,340 --> 01:51:57,400
if we allow ourselves to be and I think

2510
01:52:03,060 --> 01:51:59,350
so few people are really plugged into

2511
01:52:06,390 --> 01:52:03,070
that media any longer than I think those

2512
01:52:09,930 --> 01:52:06,400
that are probably in the minority yeah I

2513
01:52:14,850 --> 01:52:09,940

found that when I would go to a

2514

01:52:17,430 --> 01:52:14,860

conference or you know head out that I

2515

01:52:19,500 --> 01:52:17,440

would I would consciously did I would

2516

01:52:22,940 --> 01:52:19,510

make the decision to disconnect in other

2517

01:52:27,030 --> 01:52:22,950

words no internet no cell phones no

2518

01:52:28,360 --> 01:52:27,040

social media no television on in the

2519

01:52:30,670 --> 01:52:28,370

hotel room nothing

2520

01:52:34,960 --> 01:52:30,680

and I would come back and I would I

2521

01:52:38,740 --> 01:52:34,970

would relax I'd come back from those

2522

01:52:42,100 --> 01:52:38,750

escapes and turn out and get connected

2523

01:52:44,200 --> 01:52:42,110

again and find myself physically change

2524

01:52:46,930 --> 01:52:44,210

and I thought okay you know what there

2525

01:52:49,690 --> 01:52:46,940

is actually something going on here and

2526

01:52:52,510 --> 01:52:49,700

and that's what I that's what I had to

2527

01:52:54,850 --> 01:52:52,520

do well sure so here's what's happening

2528

01:52:56,620 --> 01:52:54,860

and it started right after 9/11 and I

2529

01:52:58,210 --> 01:52:56,630

think you probably are very aware of

2530

01:53:01,990 --> 01:52:58,220

that being in the industry that you're

2531

01:53:03,820 --> 01:53:02,000

in it was almost the next day all of a

2532

01:53:06,610 --> 01:53:03,830

sudden the way that we receive our news

2533

01:53:09,820 --> 01:53:06,620

changed the music that was playing in

2534

01:53:11,830 --> 01:53:09,830

the background the visuals right the way

2535

01:53:14,560 --> 01:53:11,840

information was being presented to us it

2536

01:53:17,890 --> 01:53:14,570

changed almost overnight so what has

2537

01:53:19,660 --> 01:53:17,900

happened is that we are if we allow

2538

01:53:23,260 --> 01:53:19,670

ourselves we plugged in to those new

2539

01:53:26,830 --> 01:53:23,270

cycles so we're constantly fed crises

2540

01:53:28,780 --> 01:53:26,840

that have no resolution so what happens

2541

01:53:31,240 --> 01:53:28,790

is we hear things that we cannot

2542

01:53:33,790 --> 01:53:31,250

possibly solve or do anything about the

2543

01:53:37,240 --> 01:53:33,800

threaten us our families our well-being

2544

01:53:39,520 --> 01:53:37,250

our future our economic well-being our

2545

01:53:42,550 --> 01:53:39,530

physical well-being

2546

01:53:45,040 --> 01:53:42,560

that's stress so our bodies are

2547

01:53:45,760 --> 01:53:45,050

responding can respond with a stress

2548

01:53:48,010 --> 01:53:45,770

response

2549

01:53:50,460 --> 01:53:48,020

it's called fight or flight and so those

2550

01:53:53,380 --> 01:53:50,470

are high levels of cortisol adrenaline

2551

01:53:55,570 --> 01:53:53,390

shifting of the brain chemistry to

2552

01:53:57,190 --> 01:53:55,580

accommodate stress which is okay for

2553

01:53:59,350 --> 01:53:57,200

short periods of time but when there's

2554

01:54:02,080 --> 01:53:59,360

no resolution and that goes on day after

2555

01:54:03,310 --> 01:54:02,090

day you know hour after hour and then

2556

01:54:04,810 --> 01:54:03,320

you go to work and your coworkers

2557

01:54:08,260 --> 01:54:04,820

reinforce it because of what they've

2558

01:54:10,090 --> 01:54:08,270

seen that changes our chemistry it

2559

01:54:12,670 --> 01:54:10,100

changes our physiology it changes our

2560

01:54:15,640 --> 01:54:12,680

biology and there are some people that

2561

01:54:17,320 --> 01:54:15,650

are it can be very addictive Jimmy the

2562

01:54:20,800 --> 01:54:17,330

some of those chemicals are very

2563

01:54:24,130 --> 01:54:20,810

addictive and I know people that are

2564

01:54:25,840 --> 01:54:24,140

really caught up in that but you have to

2565

01:54:28,210 --> 01:54:25,850

ask yourself when you finish watching

2566

01:54:30,970 --> 01:54:28,220

one of those programs what you've just

2567

01:54:33,820 --> 01:54:30,980

said Jimmy how do I feel when I finish

2568

01:54:36,280 --> 01:54:33,830

do I feel closer to my family or do I

2569

01:54:39,460 --> 01:54:36,290

feel closer to my neighbors do I feel

2570

01:54:40,720 --> 01:54:39,470

closer to my community am i angry you

2571

01:54:42,550 --> 01:54:40,730

know when you go to bed at night you

2572

01:54:45,880 --> 01:54:42,560

know how those things make you feel and

2573

01:54:47,860 --> 01:54:45,890

and an honor honest answer to those

2574

01:54:49,090 --> 01:54:47,870

questions I think tells us everything

2575

01:54:52,030 --> 01:54:49,100

that we need to know about our

2576
01:54:55,780 --> 01:54:52,040
relationship to those new cycles how do

2577
01:54:57,780 --> 01:54:55,790
you how do you avoid negativity how do

2578
01:55:00,160 --> 01:54:57,790
you keep yourself grounded

2579
01:55:04,990 --> 01:55:00,170
you mean negativity from other people

2580
01:55:08,680 --> 01:55:05,000
yes yes yes you know I I'm really

2581
01:55:10,720 --> 01:55:08,690
blessed in that this is the 36th year

2582
01:55:16,420 --> 01:55:10,730
I've done this work in one form or

2583
01:55:18,220 --> 01:55:16,430
another and I have not been in every

2584
01:55:21,400 --> 01:55:18,230
nation but I've been on every continent

2585
01:55:25,060 --> 01:55:21,410
and I have to tell you it's because of

2586
01:55:26,920 --> 01:55:25,070
that that I'm optimistic the people of

2587
01:55:29,020 --> 01:55:26,930
this world to me the people of the world

2588
01:55:31,420 --> 01:55:29,030

I think are pretty much good people I

2589

01:55:33,010 --> 01:55:31,430

mean there's always exceptions but the

2590

01:55:34,900 --> 01:55:33,020

people aren't having the problems people

2591

01:55:36,730 --> 01:55:34,910

know how to share resources they know

2592

01:55:39,700 --> 01:55:36,740

how to share food and water and and

2593

01:55:41,380 --> 01:55:39,710

energy and and while they may not always

2594

01:55:43,990 --> 01:55:41,390

like one another I think people

2595

01:55:46,570 --> 01:55:44,000

typically love one another and I've seen

2596

01:55:48,100 --> 01:55:46,580

people you know total strangers risk

2597

01:55:49,690 --> 01:55:48,110

their lives for other strangers without

2598

01:55:52,510 --> 01:55:49,700

even given in the second thought it's

2599

01:55:54,040 --> 01:55:52,520

like we're wired to do that so it's not

2600

01:55:56,590 --> 01:55:54,050

the people that are having the problems

2601
01:55:58,450 --> 01:55:56,600
generally it's a handful of individuals

2602
01:56:00,520 --> 01:55:58,460
and positions of power

2603
01:56:02,860 --> 01:56:00,530
that are bumping chests it's not the

2604
01:56:05,080 --> 01:56:02,870
everyday person on the street and the

2605
01:56:09,040 --> 01:56:05,090
everyday person on the street is now

2606
01:56:10,660 --> 01:56:09,050
awakening to the fact that something has

2607
01:56:13,630 --> 01:56:10,670
shifted on the planet something's

2608
01:56:17,350 --> 01:56:13,640
changing in the world and that something

2609
01:56:20,470 --> 01:56:17,360
can no longer be ignored and you're

2610
01:56:22,720 --> 01:56:20,480
seeing that reflected in the the systems

2611
01:56:24,460 --> 01:56:22,730
that are collapsing you know the only

2612
01:56:26,070 --> 01:56:24,470
systems that are breaking down are the

2613
01:56:28,660 --> 01:56:26,080

ones that are unsustainable

2614

01:56:31,450 --> 01:56:28,670

unsustainable economies unsustainable

2615

01:56:34,080 --> 01:56:31,460

ways of producing energy unsustainable

2616

01:56:36,160 --> 01:56:34,090

ways of containing and confining people

2617

01:56:37,360 --> 01:56:36,170

those are the only systems that are

2618

01:56:40,090 --> 01:56:37,370

breaking down there's a lot of other

2619

01:56:43,480 --> 01:56:40,100

systems that are are just fine because

2620

01:56:46,240 --> 01:56:43,490

they are based upon sustainable ways of

2621

01:56:47,920 --> 01:56:46,250

thinking and living what we learn and

2622

01:56:50,350 --> 01:56:47,930

this is the value you know we're

2623

01:56:52,990 --> 01:56:50,360

covering so much ground and in so many

2624

01:56:56,009 --> 01:56:53,000

topics but they're all pieces of the

2625

01:57:00,370 --> 01:56:56,019

same story I mean what we learn from

2626

01:57:03,359 --> 01:57:00,380

from these cycles of the past and and we

2627

01:57:05,589 --> 01:57:03,369

look at how climate has driven

2628

01:57:08,560 --> 01:57:05,599

civilization cycles and we look at how

2629

01:57:10,689 --> 01:57:08,570

war has been a consequence of changing

2630

01:57:12,640 --> 01:57:10,699

climate and in the competition for

2631

01:57:13,620 --> 01:57:12,650

resources you know and we're doing the

2632

01:57:16,390 --> 01:57:13,630

same thing right now

2633

01:57:19,870 --> 01:57:16,400

but what we find when we we look at

2634

01:57:24,160 --> 01:57:19,880

those cycles is that the key to

2635

01:57:26,799 --> 01:57:24,170

successfully navigating the kinds of

2636

01:57:29,379 --> 01:57:26,809

changes that we're seeing is on the

2637

01:57:32,319 --> 01:57:29,389

outside is what we call localized living

2638

01:57:35,169 --> 01:57:32,329

so where we're not dependent on a

2639

01:57:39,000 --> 01:57:35,179

central anything no central forms of

2640

01:57:42,129 --> 01:57:39,010

energy no central forms of you know of

2641

01:57:45,040 --> 01:57:42,139

economy or Commerce localized Commerce

2642

01:57:46,600 --> 01:57:45,050

localized agriculture you know and we're

2643

01:57:47,680 --> 01:57:46,610

doing this farm-to-table is a perfect

2644

01:57:50,140 --> 01:57:47,690

example right

2645

01:57:51,989 --> 01:57:50,150

yeah localized banking where the the

2646

01:57:56,200 --> 01:57:51,999

money stays in your community and and

2647

01:57:57,669 --> 01:57:56,210

now that we know that we're in a cycle

2648

01:57:59,919 --> 01:57:57,679

where the climate is changing I'm a

2649

01:58:03,640 --> 01:57:59,929

geologist I mean I can see this stuff in

2650

01:58:04,569 --> 01:58:03,650

in the in the ice core records and

2651

01:58:06,850 --> 01:58:04,579

that's the whole point

2652

01:58:08,529 --> 01:58:06,860

climate change is a fact it's not

2653

01:58:10,060 --> 01:58:08,539

happening for the reasons that we're

2654

01:58:13,870 --> 01:58:10,070

being led to believe this has been

2655

01:58:16,270 --> 01:58:13,880

politicized but it is happening and we

2656

01:58:19,629 --> 01:58:16,280

have to make a choice are we going to

2657

01:58:23,319 --> 01:58:19,639

adapt to the changes that history that

2658

01:58:24,609 --> 01:58:23,329

the earth shows us happen on a cyclic

2659

01:58:26,859 --> 01:58:24,619

basis they've been happening since

2660

01:58:28,479 --> 01:58:26,869

before humans appeared you could see

2661

01:58:30,279 --> 01:58:28,489

that in the ice core record so we showed

2662

01:58:33,040 --> 01:58:30,289

up 200 thousand years ago we're looking

2663

01:58:35,020 --> 01:58:33,050

at it climate cycles much more extreme

2664

01:58:36,819 --> 01:58:35,030

than what we have right now that go back

2665

01:58:40,600 --> 01:58:36,829

twice that over 400 thousand years

2666

01:58:44,680 --> 01:58:40,610

before present so you know why not adapt

2667

01:58:47,109 --> 01:58:44,690

to these cycles de-centralized so that

2668

01:58:49,359 --> 01:58:47,119

when a big storm that we know is going

2669

01:58:52,540 --> 01:58:49,369

to happen hits the the Northeast for

2670

01:58:54,850 --> 01:58:52,550

example that localized sources of food

2671

01:58:56,410 --> 01:58:54,860

are able to get into the grocery stores

2672

01:58:59,259 --> 01:58:56,420

they're not depending on on trucks

2673

01:59:01,239 --> 01:58:59,269

moving across icy highways and why not

2674

01:59:03,939 --> 01:59:01,249

harden the power grid put those power

2675

01:59:05,830 --> 01:59:03,949

lines underground so yeah the ice storms

2676

01:59:07,450 --> 01:59:05,840

are going to happen every year but

2677

01:59:09,189 --> 01:59:07,460

doesn't mean you have to lose power to

2678

01:59:10,010 --> 01:59:09,199

your hospitals and do your homes and

2679

01:59:12,200 --> 01:59:10,020

take Heat in your

2680

01:59:15,020 --> 01:59:12,210

home and think of all the people that

2681

01:59:16,250 --> 01:59:15,030

would be employed by by hardening that

2682

01:59:17,510 --> 01:59:16,260

power grid think of all the trees that

2683

01:59:19,520 --> 01:59:17,520

you don't have to cut down to make

2684

01:59:21,500 --> 01:59:19,530

telephone poles that are destroyed every

2685

01:59:24,320 --> 01:59:21,510

year I mean it just common sense these

2686

01:59:26,240 --> 01:59:24,330

are just very simple very simple things

2687

01:59:28,160 --> 01:59:26,250

that that makes sense

2688

01:59:30,770 --> 01:59:28,170

when we understand where we are in the

2689

01:59:33,110 --> 01:59:30,780

cycles if we don't understand those

2690

01:59:36,710 --> 01:59:33,120

cycles and my mom was a perfect example

2691

01:59:38,300 --> 01:59:36,720

of this when when she and I we can't

2692

01:59:40,010 --> 01:59:38,310

have these conversations any longer she

2693

01:59:42,890 --> 01:59:40,020

doesn't she doesn't even know who I am

2694

01:59:44,570 --> 01:59:42,900

right now but before that happened to

2695

01:59:47,600 --> 01:59:44,580

her we were able to have these

2696

01:59:48,980 --> 01:59:47,610

conversations and and she felt like the

2697

01:59:52,760 --> 01:59:48,990

world was just falling apart at the

2698

01:59:54,080 --> 01:59:52,770

seams and it's easy to think that if you

2699

01:59:55,700 --> 01:59:54,090

don't step back and look at the big

2700

01:59:58,730 --> 01:59:55,710

picture and see where we are in the

2701

02:00:01,880 --> 01:59:58,740

cycles the cycles are intense in their

2702

02:00:05,000 --> 02:00:01,890

brief and it's it's where we are in the

2703

02:00:07,160 --> 02:00:05,010

cycle that I think determines how the

2704

02:00:09,530 --> 02:00:07,170

options we have and how we respond so

2705

02:00:10,910 --> 02:00:09,540

I'm just giving a couple of examples you

2706

02:00:12,620 --> 02:00:10,920

know when it comes to climate but it

2707

02:00:14,690 --> 02:00:12,630

goes for economy and it goes for

2708

02:00:17,510 --> 02:00:14,700

conflict all of these are following

2709

02:00:19,910 --> 02:00:17,520

rhythms and cycles in nature yeah one of

2710

02:00:22,480 --> 02:00:19,920

the real interesting things that I've

2711

02:00:26,240 --> 02:00:22,490

seen as a scientist is this is the way

2712

02:00:29,330 --> 02:00:26,250

that nature functions nature creates

2713

02:00:32,210 --> 02:00:29,340

systems that become more and more and

2714

02:00:34,460 --> 02:00:32,220

more complex until they are

2715

02:00:37,430 --> 02:00:34,470

unsustainable in their complexity and

2716

02:00:39,500 --> 02:00:37,440

then they collapse but they don't go all

2717

02:00:43,010 --> 02:00:39,510

the way back to zero they collapse to

2718

02:00:46,160 --> 02:00:43,020

give way to a higher order so I'm seeing

2719

02:00:50,270 --> 02:00:46,170

the collapse of unsustainably complex

2720

02:00:52,850 --> 02:00:50,280

systems to give way to a higher order in

2721

02:00:55,820 --> 02:00:52,860

our personal lives and our communities

2722

02:00:58,550 --> 02:00:55,830

and our nations with economies with

2723

02:01:00,530 --> 02:00:58,560

energy but it's all happening and it's

2724

02:01:02,780 --> 02:01:00,540

really compressed period of time Jimmy

2725

02:01:04,940 --> 02:01:02,790

and if if no one tells us that it looks

2726

02:01:06,650 --> 02:01:04,950

really scary but if you know what's

2727

02:01:07,880 --> 02:01:06,660

happening you could see light at the

2728

02:01:11,090 --> 02:01:07,890

other end of the tunnel and then you say

2729

02:01:13,340 --> 02:01:11,100

well what are the let's make the best

2730

02:01:15,050 --> 02:01:13,350

choices possible what what's the best

2731

02:01:17,150 --> 02:01:15,060

decision based on what we know and this

2732

02:01:18,770 --> 02:01:17,160

is where all the science that we're

2733

02:01:21,590 --> 02:01:18,780

talking about tonight and much more this

2734

02:01:23,390 --> 02:01:21,600

is where the science comes in and the

2735

02:01:23,870 --> 02:01:23,400

wisdom of our past because we're not the

2736

02:01:25,850 --> 02:01:23,880

first

2737

02:01:27,379 --> 02:01:25,860

been through these cycles you know what

2738

02:01:27,919 --> 02:01:27,389

can we learn from those who have come

2739

02:01:32,660 --> 02:01:27,929

before us

2740

02:01:33,740 --> 02:01:32,670

I firmly believe and I walk or I say

2741

02:01:35,540 --> 02:01:33,750

this all the time

2742

02:01:38,990 --> 02:01:35,550

that I walk around with flowers hanging

2743

02:01:42,260 --> 02:01:39,000

out of my pockets and and I say that not

2744

02:01:46,100 --> 02:01:42,270

to be naive but I know that we

2745

02:01:48,439 --> 02:01:46,110

eventually are going to mature we're

2746

02:01:52,160 --> 02:01:48,449

gonna grow up and we're gonna figure all

2747

02:01:55,700 --> 02:01:52,170

of this out I don't see the dark side in

2748

02:01:58,520 --> 02:01:55,710

our future I just don't and I totally

2749

02:02:01,010 --> 02:01:58,530

agree with you there's there's a way out

2750

02:02:03,879 --> 02:02:01,020

there is a path forward and I'm excited

2751
02:02:06,410 --> 02:02:03,889
for our children and our grandchildren

2752
02:02:09,050 --> 02:02:06,420
you know and and that's that's the

2753
02:02:11,840 --> 02:02:09,060
position that I will always have I want

2754
02:02:15,890 --> 02:02:11,850
to ask you a really quick before I do

2755
02:02:18,320 --> 02:02:15,900
let you go you do a lot of stuff around

2756
02:02:20,270 --> 02:02:18,330
the world you you lead a lot of tours

2757
02:02:23,330 --> 02:02:20,280
and you're always out there speaking

2758
02:02:26,930 --> 02:02:23,340
where's the best resource for everybody

2759
02:02:28,640 --> 02:02:26,940
to stay informed the best place the

2760
02:02:30,740 --> 02:02:28,650
one-stop shop where you can see

2761
02:02:34,340 --> 02:02:30,750
everything is my website is Gregg Braden

2762
02:02:38,120 --> 02:02:34,350
WW Gregg Braden calm and that's great

2763
02:02:40,370 --> 02:02:38,130

with two G's because because two g's is

2764

02:02:42,379 --> 02:02:40,380

just a Greg and one G is short for

2765

02:02:44,990 --> 02:02:42,389

Gregory and my mom didn't want me to be

2766

02:02:47,540 --> 02:02:45,000

a Gregory so so I'm just a plain old

2767

02:02:50,149 --> 02:02:47,550

Greg you're Gregg Braden calm and it's

2768

02:02:54,200 --> 02:02:50,159

got all of our lives speaking events and

2769

02:02:55,760 --> 02:02:54,210

tours and you know books and things like

2770

02:02:57,979 --> 02:02:55,770

that that's all right there yeah thank

2771

02:02:59,870 --> 02:02:57,989

you so much and and I look forward to

2772

02:03:02,419 --> 02:02:59,880

seeing you once again here in Los

2773

02:03:04,970 --> 02:03:02,429

Angeles and believe it or not it's just

2774

02:03:07,610 --> 02:03:04,980

in ten weeks it's right around the

2775

02:03:09,620 --> 02:03:07,620

corner and first of all I just want to

2776

02:03:11,209 --> 02:03:09,630

thank you Jimmy for the opportunity to

2777

02:03:12,770 --> 02:03:11,219

be on your program I don't know why we

2778

02:03:15,560 --> 02:03:12,780

haven't done this before I'm glad we did

2779

02:03:18,050 --> 02:03:15,570

tonight and it's because of programs

2780

02:03:20,450 --> 02:03:18,060

like yours and resources like this that

2781

02:03:21,890 --> 02:03:20,460

people are discovering that there is

2782

02:03:25,790 --> 02:03:21,900

another way to think about what's

2783

02:03:27,680 --> 02:03:25,800

happening and and that the science and

2784

02:03:29,120 --> 02:03:27,690

history is really on our side and if we

2785

02:03:30,590 --> 02:03:29,130

could step back and look at that big

2786

02:03:33,110 --> 02:03:30,600

picture we did a very very different

2787

02:03:35,360 --> 02:03:33,120

view so I look forward to seeing you at

2788

02:03:36,129 --> 02:03:35,370

conscious life Expo and it's not before

2789

02:03:38,109 --> 02:03:36,139

and

2790

02:03:40,389 --> 02:03:38,119

four door next time absolutely Greg

2791

02:03:41,830 --> 02:03:40,399

2792

quick break what a great conversation

2812
02:04:46,790 --> 02:04:44,250
tonight with gregg braden phone lines

2813
02:04:49,010 --> 02:04:46,800

are lighting up I don't have time to

2814

02:04:53,300 --> 02:04:49,020

take any calls or should I should I take

2815

02:04:56,840 --> 02:04:53,310

a call should I grab a call that size

2816

02:04:58,370 --> 02:04:56,850

wasn't my plan I wanted to ramble all

2817

02:04:59,660 --> 02:04:58,380

right I'm just gonna grab this call hi

2818

02:05:00,170 --> 02:04:59,670

you're live I'm fade to black who's

2819

02:05:03,230 --> 02:05:00,180

calling

2820

02:05:06,110 --> 02:05:03,240

hey Jimmy this is Pat hey Pat how are

2821

02:05:08,780 --> 02:05:06,120

you man pretty good it was good Monday

2822

02:05:11,420 --> 02:05:08,790

man I got the goodie box today I'm so

2823

02:05:16,100 --> 02:05:11,430

appreciative you got a good goody box

2824

02:05:18,860 --> 02:05:16,110

dude oh dude you're telling me and as

2825

02:05:23,270 --> 02:05:18,870

you look at the good stuff there what

2826

02:05:25,760 --> 02:05:23,280

stands out actually the first thing I

2827

02:05:29,390 --> 02:05:25,770

did was open up that bottle of CBD and

2828

02:05:31,670 --> 02:05:29,400

did some of that I've been out for a

2829

02:05:34,220 --> 02:05:31,680

while it was like yes then I went

2830

02:05:36,040 --> 02:05:34,230

straight for the damn coffee yeah right

2831

02:05:38,600 --> 02:05:36,050

on well that's a that's a life-changing

2832

02:05:40,700 --> 02:05:38,610

thing right there let me ask you this

2833

02:05:42,560 --> 02:05:40,710

Pat before I let you go god only got two

2834

02:05:45,470 --> 02:05:42,570

minutes extraordinary conversation

2835

02:05:48,530 --> 02:05:45,480

tonight with Gregg Braden and and for

2836

02:05:50,090 --> 02:05:48,540

you what what's your takeaway what did

2837

02:05:53,870 --> 02:05:50,100

you what did you get out of the show

2838

02:05:55,610 --> 02:05:53,880

tonight there was so much stuff my age

2839

02:05:58,280 --> 02:05:55,620

just kind of floating out there right

2840

02:06:03,530 --> 02:05:58,290

now so I can't pick one thing dude it

2841

02:06:09,140 --> 02:06:03,540

was just so much stuff yeah my my take

2842

02:06:13,760 --> 02:06:09,150

is this is science is where we do need

2843

02:06:17,450 --> 02:06:13,770

to constantly focus we need to

2844

02:06:20,180 --> 02:06:17,460

constantly look at the science and not

2845

02:06:22,220 --> 02:06:20,190

so much these it's about what we were

2846

02:06:25,760 --> 02:06:22,230

taught it's the science that is coming

2847

02:06:28,580 --> 02:06:25,770

out today and what we are learning it is

2848

02:06:30,710 --> 02:06:28,590

happening so fast and and I talked about

2849

02:06:35,180 --> 02:06:30,720

this in my lead-in into the show tonight

2850

02:06:38,420 --> 02:06:35,190

but it's exactly what Greg kept coming

2851

02:06:40,580 --> 02:06:38,430

back to tonight we can ignore the

2852

02:06:43,850 --> 02:06:40,590

science the science is speaking to us

2853

02:06:45,710 --> 02:06:43,860

science has always been about correcting

2854

02:06:47,680 --> 02:06:45,720

correcting correcting correcting

2855

02:06:50,050 --> 02:06:47,690

correcting

2856

02:06:53,470 --> 02:06:50,060

and presenting and that's what science

2857

02:06:56,530 --> 02:06:53,480

is about today science is is trying to

2858

02:06:58,660 --> 02:06:56,540

not correct things and he's absolutely

2859

02:07:00,880 --> 02:06:58,670

right the the what is happening right

2860

02:07:03,100 --> 02:07:00,890

now is something that we can all learn

2861

02:07:05,680 --> 02:07:03,110

from and there's gonna be a breakthrough

2862

02:07:08,170 --> 02:07:05,690

I don't know what it is I don't know if

2863

02:07:10,060 --> 02:07:08,180

it'll warming is gonna cause Antarctica

2864

02:07:12,820 --> 02:07:10,070

to melt and we find out that there's

2865

02:07:15,070 --> 02:07:12,830

some giant city there that is a hundred

2866

02:07:17,680 --> 02:07:15,080

thousand years old I don't know what

2867

02:07:19,510 --> 02:07:17,690

it's going to be but something is going

2868

02:07:23,530 --> 02:07:19,520

to happen and we can't ignore the

2869

02:07:28,420 --> 02:07:23,540

science today Pat hey I got a question

2870

02:07:33,190 --> 02:07:28,430

for you yes at what point did science

2871

02:07:37,330 --> 02:07:33,200

hit the gas pedal that you think I keep

2872

02:07:38,980 --> 02:07:37,340

going back to 1998 when I was a kid you

2873

02:07:40,780 --> 02:07:38,990

know it was so different than what it is

2874

02:07:42,130 --> 02:07:40,790

now it's just like something and I just

2875

02:07:44,440 --> 02:07:42,140

want to know what you think it was it

2876

02:07:46,780 --> 02:07:44,450

made everything just kick off yeah if

2877

02:07:50,110 --> 02:07:46,790

you go back 1998 is such an important

2878

02:07:54,220 --> 02:07:50,120

year for so many different reasons but

2879

02:07:58,390 --> 02:07:54,230

if you go back and you look at 1998 the

2880

02:08:02,020 --> 02:07:58,400

breakthroughs that happened not only in

2881

02:08:06,700 --> 02:08:02,030

cosmology but in physics and in quantum

2882

02:08:10,360 --> 02:08:06,710

physics and and biology and and and the

2883

02:08:13,450 --> 02:08:10,370

medical side 1998 was a crazy year and

2884

02:08:16,270 --> 02:08:13,460

it forced other scientists to step back

2885

02:08:19,540 --> 02:08:16,280

and go wait a minute we've got a lot of

2886

02:08:23,230 --> 02:08:19,550

exploring to do we've now corrected so

2887

02:08:26,380 --> 02:08:23,240

many things from the past in 1998 that

2888

02:08:29,950 --> 02:08:26,390

moving forward it's been breakneck since

2889

02:08:32,530 --> 02:08:29,960

1998 and yeah I think 1998 was the year

2890

02:08:35,170 --> 02:08:32,540

that forced other scientists around the

2891

02:08:39,420 --> 02:08:35,180

world to start to rethink things and you

2892

02:08:42,280 --> 02:08:39,430

can also throw in gobekli tepe as well I

2893

02:08:44,230 --> 02:08:42,290

appreciate that goodies man you do not

2894

02:08:46,840 --> 02:08:44,240

know how much I enjoy everything I've

2895

02:08:49,450 --> 02:08:46,850

got gobekli tepe have a good night man

2896
