00:00:19,590 --> 00:00:16,230

this hope radio for the masses Atlanta

3  
00:00:21,480 --> 00:00:19,600

between July 8 1947 your honor

4  
00:00:23,490 --> 00:00:21,490

for three-person ops on applying this

5  
00:00:26,010 --> 00:00:23,500

has been found and is now in the

6  
00:00:30,300 --> 00:00:26,020

possession of the RA the game is rigged

7  
00:00:33,119 --> 00:00:30,310

changed the game changer I occasionally

8  
00:00:36,840 --> 00:00:33,129

think how quickly our differences

9  
00:00:42,350 --> 00:00:36,850

worldwide would vanish if we were facing

10  
00:00:47,569 --> 00:00:44,840

[Applause]

11  
00:00:50,540 --> 00:00:47,579

this is fade to black with your host

12  
00:00:53,900 --> 00:00:50,550

Jimmy Church on the game changer radio

13  
00:00:57,599 --> 00:00:53,910

network and K GRA

14

00:01:02,720 --> 00:00:59,250

I need your help to get to the year

15

00:01:08,590 --> 00:01:06,430

[Music]

16

00:01:11,530 --> 00:01:08,600

you are listening to fade to black with

17

00:01:15,200 --> 00:01:11,540

Jimmy judge on the game changing Network

18

00:01:21,920 --> 00:01:15,210

[Music]

19

00:01:21,930 --> 00:01:28,480

just spoke radio for stop

20

00:01:28,490 --> 00:01:32,890

masses

21

00:01:39,960 --> 00:01:35,280

[Music]

22

00:01:43,320 --> 00:01:39,970

today's Tuesday January 14th 2020 14

23

00:01:43,760 --> 00:01:43,330

days into the new year only 352 days

24

00:01:52,160 --> 00:01:43,770

left

25

00:01:57,890 --> 00:01:56,060

we are live from a bunker a bunker that

26  
00:02:01,490 --> 00:01:57,900  
is somewhere in the middle of beautiful

27  
00:02:03,080 --> 00:02:01,500  
downtown Burbank California and I would

28  
00:02:06,320 --> 00:02:03,090  
like to welcome everybody listening all

29  
00:02:11,120 --> 00:02:06,330  
around the world all across the United

30  
00:02:14,180 --> 00:02:11,130  
States hither and thither to and fro

31  
00:02:16,690 --> 00:02:14,190  
back and forth up and down east and west

32  
00:02:20,570 --> 00:02:16,700  
north and south far and near

33  
00:02:23,000 --> 00:02:20,580  
this is fade to black for kjc are the

34  
00:02:26,660 --> 00:02:23,010  
game changer network and kg re the

35  
00:02:30,220 --> 00:02:26,670  
planets our Merrill semi church

36  
00:02:36,470 --> 00:02:30,230  
what is cracking everybody how you doing

37  
00:02:47,839 --> 00:02:41,210  
I mean you see what's going on right you

38  
00:02:52,849 --> 00:02:49,880

now if you're wondering what everybody

39

00:02:54,349 --> 00:02:52,859

is looking at you got to go to Jim

40

00:02:56,629 --> 00:02:54,359

eaters ready to go calm you got to

41

00:02:58,670 --> 00:02:56,639

become a member you got to become an

42

00:03:00,199 --> 00:02:58,680

official fate or not and when you do

43

00:03:02,690 --> 00:03:00,209

that to get the bunker cam

44

00:03:07,160 --> 00:03:02,700

that's right become a game changer you

45

00:03:13,369 --> 00:03:07,170

get the bunker cam and you can see my

46

00:03:19,309 --> 00:03:13,379

Eddie Van Halen shoes how cool I mean

47

00:03:21,979 --> 00:03:19,319

seriously right I got the matching shirt

48

00:03:27,770 --> 00:03:21,989

too I was gonna wear tonight Reid is

49

00:03:29,539 --> 00:03:27,780

like you know that's a bit much so you

50

00:03:30,020 --> 00:03:29,549

know I'm not even allowed to wear it in

51  
00:03:35,720 --> 00:03:30,030  
public

52  
00:03:36,349 --> 00:03:35,730  
I can I can wear it to bed so there you

53  
00:03:41,689 --> 00:03:36,359  
go

54  
00:03:46,159 --> 00:03:41,699  
at that those are the official Eddie Van

55  
00:03:47,720 --> 00:03:46,169  
Halen shoes how cool is that and just so

56  
00:04:01,149 --> 00:03:47,730  
everybody can see it but you got to get

57  
00:04:06,439 --> 00:04:05,240  
they make me so happy they make me so

58  
00:04:09,589 --> 00:04:06,449  
happy

59  
00:04:16,159 --> 00:04:09,599  
they're so cool I mean those those those

60  
00:04:17,749 --> 00:04:16,169  
are over the top those are all Kevin

61  
00:04:18,140 --> 00:04:17,759  
you're the best man thank you for doing

62  
00:04:25,070 --> 00:04:18,150  
that

63  
00:04:28,540 --> 00:04:25,080

right we got a busy show tonight Scott

64

00:04:31,279 --> 00:04:28,550

Wolter is here host of America on earth

65

00:04:34,180 --> 00:04:31,289

not only one of our favorite guests here

66

00:04:37,670 --> 00:04:34,190

but a serious pillar of knowledge and

67

00:04:39,800 --> 00:04:37,680

and somebody that will never stop

68

00:04:42,740 --> 00:04:39,810

rolling that rock uphill for us for this

69

00:04:45,439 --> 00:04:42,750

community for the world and lots of

70

00:04:48,200 --> 00:04:45,449

stuff you know Scott always guarantees

71

00:04:50,450 --> 00:04:48,210

the big reveal all right there's

72

00:04:51,560 --> 00:04:50,460

something that is going to burst out

73

00:04:54,469 --> 00:04:51,570

here on fade to black

74

00:04:57,320 --> 00:04:54,479

well tonight we're gonna discuss our

75

00:05:00,290 --> 00:04:57,330

hidden in loss history and all of his

76  
00:05:01,460 --> 00:05:00,300  
latest research and possibly stuff that

77  
00:05:05,000 --> 00:05:01,470  
is going to be revealed

78  
00:05:06,440 --> 00:05:05,010  
20:20 scott is of course the host of

79  
00:05:08,210 --> 00:05:06,450  
America under oath and has been

80  
00:05:11,300 --> 00:05:08,220  
president of the American petrographic

81  
00:05:13,100 --> 00:05:11,310  
services since 1990 Scott is responsible

82  
00:05:15,560 --> 00:05:13,110  
for the independent petrographic

83  
00:05:18,620 --> 00:05:15,570  
analysis testing laboratory where the

84  
00:05:21,590 --> 00:05:18,630  
Kensington Runestone was brought for

85  
00:05:23,780 --> 00:05:21,600  
investigation back in the year 2000 he

86  
00:05:26,690 --> 00:05:23,790  
has been the principal pet ah Brett I

87  
00:05:31,130 --> 00:05:26,700  
did it again Scott Scott I did it again

88  
00:05:35,000 --> 00:05:31,140

I did it again the principal pat pat try

89

00:05:36,590 --> 00:05:35,010

grow but say it but topographer

90

00:05:38,450 --> 00:05:36,600

petographers

91

00:05:40,910 --> 00:05:38,460

you made that word up it's a made-up

92

00:05:42,230 --> 00:05:40,920

word in more than 5,000 investigations

93

00:05:44,960 --> 00:05:42,240

throughout the United States Canada and

94

00:05:46,670 --> 00:05:44,970

Puerto Rico including the evaluation of

95

00:05:48,500 --> 00:05:46,680

fire damage concrete at the Pentagon

96

00:05:52,250 --> 00:05:48,510

following the attacks of September 11

97

00:05:55,130 --> 00:05:52,260

2001 his websites are the hooked XCOM

98

00:05:57,680 --> 00:05:55,140

and Scott Wolter answers dot blogspot

99

00:06:00,500 --> 00:05:57,690

and the links are over at Jimmy Church

100

00:06:02,270 --> 00:06:00,510

radio welcome back Scott how are you I'm

101  
00:06:05,870 --> 00:06:02,280  
doing great Jimmy it's always good to

102  
00:06:07,370 --> 00:06:05,880  
sit down and chat with you and I think

103  
00:06:09,409 --> 00:06:07,380  
we're gonna have a good time as we

104  
00:06:12,710 --> 00:06:09,419  
always do tonight yeah we do

105  
00:06:15,980 --> 00:06:12,720  
and our next event is coming up February

106  
00:06:17,960 --> 00:06:15,990  
7th through the 10th 2020 right here in

107  
00:06:19,969 --> 00:06:17,970  
Los Angeles at the LAX Hilton and of

108  
00:06:23,630 --> 00:06:19,979  
course I'm talking about the conscious

109  
00:06:25,340 --> 00:06:23,640  
life Expo and your your your going west

110  
00:06:27,230 --> 00:06:25,350  
young man you're going to come out and

111  
00:06:31,360 --> 00:06:27,240  
join us it's going to be a great event

112  
00:06:34,580 --> 00:06:31,370  
and on Friday night for the keynote

113  
00:06:36,350 --> 00:06:34,590

event on Friday our ancient secrets

114

00:06:39,280 --> 00:06:36,360

panel you're going to be one of the

115

00:06:42,190 --> 00:06:39,290

featured panelists and get ready man

116

00:06:44,659 --> 00:06:42,200

Hollywood is waiting for Scott Wolter

117

00:06:46,580 --> 00:06:44,669

well Scott Wolter is going to be ready

118

00:06:48,500 --> 00:06:46,590

and to be honest with you I'm really

119

00:06:51,260 --> 00:06:48,510

excited about this I know there's going

120

00:06:53,540 --> 00:06:51,270

to be a lot of really great people there

121

00:06:55,850 --> 00:06:53,550

it's going to be fun and we're gonna

122

00:06:58,340 --> 00:06:55,860

drop some bombs some historical bombs

123

00:07:00,710 --> 00:06:58,350

with the new research that we're working

124

00:07:03,020 --> 00:07:00,720

on and I have to tell you it seems like

125

00:07:06,080 --> 00:07:03,030

the last couple years things have been

126

00:07:09,860 --> 00:07:06,090

coming fast and furious and almost a

127

00:07:11,540 --> 00:07:09,870

breakneck pace but it's just amazing

128

00:07:14,420 --> 00:07:11,550

stuff and it just keeps getting better

129

00:07:16,190 --> 00:07:14,430

but the bottom line is is that this

130

00:07:18,740 --> 00:07:16,200

dori that we have been working on about

131

00:07:22,820 --> 00:07:18,750

pre-columbian templars coming to america

132

00:07:25,130 --> 00:07:22,830

first centuries prior to Chris who did

133

00:07:26,840 --> 00:07:25,140

not did not set foot on the continent

134

00:07:29,750 --> 00:07:26,850

but they were coming here for centuries

135

00:07:32,510 --> 00:07:29,760

and eventually they handed off the

136

00:07:35,480 --> 00:07:32,520

obligation to our founding fathers who

137

00:07:37,940 --> 00:07:35,490

we don't know everything that we thought

138

00:07:39,670 --> 00:07:37,950

we did about those guys either but they

139

00:07:42,620 --> 00:07:39,680

handed the obligation on to them and

140

00:07:45,380 --> 00:07:42,630

they finished the job and we're living

141

00:07:47,030 --> 00:07:45,390

in it right here well before we get

142

00:07:50,390 --> 00:07:47,040

started we've got so much to talk about

143

00:07:52,580 --> 00:07:50,400

tonight but I don't want to let this get

144

00:07:57,380 --> 00:07:52,590

away from me what happened to your

145

00:07:59,810 --> 00:07:57,390

Vikings what happened Wow I know really

146

00:08:01,940 --> 00:07:59,820

heard I know it doesn't it does not man

147

00:08:05,600 --> 00:08:01,950

you guys had a great season but but what

148

00:08:07,430 --> 00:08:05,610

happened well we did and you know I'm a

149

00:08:09,860 --> 00:08:07,440

season ticket holder so I'm at every

150

00:08:13,280 --> 00:08:09,870

home game and you know I've been a

151  
00:08:14,840 --> 00:08:13,290  
long-suffering viking fan and believe it

152  
00:08:17,180 --> 00:08:14,850  
or not for those that are old enough to

153  
00:08:18,860 --> 00:08:17,190  
remember a good friend of mine is Bud

154  
00:08:21,470 --> 00:08:18,870  
Grant I was just over at his house a

155  
00:08:23,660 --> 00:08:21,480  
couple of days ago and I've talked with

156  
00:08:25,280 --> 00:08:23,670  
him about the Vikings over the years and

157  
00:08:28,550 --> 00:08:25,290  
of course you know it's been an exercise

158  
00:08:30,380 --> 00:08:28,560  
and frustration so we kind of expect

159  
00:08:32,900 --> 00:08:30,390  
them to break our hearts although one of

160  
00:08:35,720 --> 00:08:32,910  
these years but this year Jim to be

161  
00:08:38,260 --> 00:08:35,730  
honest with you one of the things that

162  
00:08:40,940 --> 00:08:38,270  
we just don't have is a reliable

163  
00:08:43,190 --> 00:08:40,950

offensive line we've got great receivers

164

00:08:45,020 --> 00:08:43,200

we've got a fabulous running back and

165

00:08:47,300 --> 00:08:45,030

you know a lot of people want to pick on

166

00:08:51,800 --> 00:08:47,310

Kurt cousins but he's a very accurate

167

00:08:53,420 --> 00:08:51,810

passer when he has time and you know

168

00:08:55,130 --> 00:08:53,430

that quite frankly was one of the

169

00:08:56,990 --> 00:08:55,140

biggest issues we have I mean I don't

170

00:08:59,690 --> 00:08:57,000

care how great you are Tom Brady

171

00:09:01,880 --> 00:08:59,700

mahomes any of the great quarterbacks if

172

00:09:02,900 --> 00:09:01,890

you don't give him time you know they're

173

00:09:04,940 --> 00:09:02,910

not going to they're not going to do

174

00:09:07,100 --> 00:09:04,950

anything so I think we need to work on

175

00:09:10,520 --> 00:09:07,110

our offensive line we need to work on

176

00:09:12,740 --> 00:09:10,530

our secondary you know we had some

177

00:09:14,690 --> 00:09:12,750

really bright moments but we're just not

178

00:09:18,260 --> 00:09:14,700

good enough San Francisco is a great

179

00:09:20,390 --> 00:09:18,270

team I think Kansas City is going to be

180

00:09:22,850 --> 00:09:20,400

in the Superbowl with the Giants or with

181

00:09:24,950 --> 00:09:22,860

the 49ers I think the Niners will

182

00:09:27,180 --> 00:09:24,960

probably win it it's hard for me to say

183

00:09:29,730 --> 00:09:27,190

but I think they will agree

184

00:09:32,010 --> 00:09:29,740

they look pretty solid I mean you know

185

00:09:35,160 --> 00:09:32,020

what I have to tell you I think Green

186

00:09:37,440 --> 00:09:35,170

Bay was the most fraudulent 13 and 3

187

00:09:39,690 --> 00:09:37,450

team I've ever seen

188

00:09:41,880 --> 00:09:39,700

look they're good don't get me wrong and

189

00:09:43,830 --> 00:09:41,890

Rodgers is an amazing quarterback but I

190

00:09:48,330 --> 00:09:43,840

think they'll get slaughtered by the

191

00:09:50,970 --> 00:09:48,340

49ers yeah it's not - you know because I

192

00:09:53,220 --> 00:09:50,980

used to do a sports show and and and I

193

00:09:56,910 --> 00:09:53,230

don't do that anymore but it was a

194

00:10:00,900 --> 00:09:56,920

pretty interesting weekend of playoffs

195

00:10:05,550 --> 00:10:00,910

and I watched all four games yeah I

196

00:10:08,310 --> 00:10:05,560

watched all four and the way I look you

197

00:10:12,120 --> 00:10:08,320

don't get there you don't get there if

198

00:10:16,350 --> 00:10:12,130

you don't have a good team it's a the

199

00:10:19,350 --> 00:10:16,360

NFL is absolutely rough but I thought I

200

00:10:20,790 --> 00:10:19,360

really thought I was watching I honestly

201  
00:10:23,340 --> 00:10:20,800  
thought that the Seahawks were going to

202  
00:10:25,530 --> 00:10:23,350  
pull that one out you know what they

203  
00:10:27,750 --> 00:10:25,540  
shouldn't have punted that last ball

204  
00:10:29,040 --> 00:10:27,760  
they had fourth down and you got to go

205  
00:10:31,380 --> 00:10:29,050  
for it man they only had like two

206  
00:10:33,780 --> 00:10:31,390  
minutes something like that there's no

207  
00:10:35,430 --> 00:10:33,790  
question Rogers the ball you're probably

208  
00:10:38,070 --> 00:10:35,440  
not gonna get it back no take your

209  
00:10:41,820 --> 00:10:38,080  
chances I thought that was a dum-dum

210  
00:10:44,820 --> 00:10:41,830  
call it was Carol we need to move on but

211  
00:10:48,930 --> 00:10:44,830  
I'll say this they will say just let me

212  
00:10:51,600 --> 00:10:48,940  
say this you don't punt it away that's

213  
00:10:53,730 --> 00:10:51,610

it the season is on the line that's it

214

00:10:56,280 --> 00:10:53,740

it's over if you don't if you don't make

215

00:10:59,630 --> 00:10:56,290

it you don't make it but you tried so

216

00:11:03,660 --> 00:10:59,640

there you go and I wanted to say this

217

00:11:07,230 --> 00:11:03,670

before we move on some of my fondest

218

00:11:09,540 --> 00:11:07,240

memories of all of the NFL Fran

219

00:11:12,390 --> 00:11:09,550

Tarkenton that's it okay let's move on

220

00:11:14,160 --> 00:11:12,400

okay all right talked about Fran the

221

00:11:16,500 --> 00:11:14,170

other day bud told me a really good

222

00:11:19,620 --> 00:11:16,510

story about about him but I can't tell

223

00:11:22,380 --> 00:11:19,630

you because we're moving on okay let's

224

00:11:28,110 --> 00:11:22,390

move on that's so much to talk about but

225

00:11:32,820 --> 00:11:28,120

this when it comes to Scott Wolter does

226

00:11:37,050 --> 00:11:32,830

the research come to you and then you go

227

00:11:40,530 --> 00:11:37,060

or are you out there seeking the

228

00:11:43,260 --> 00:11:40,540

research and follow it what what happens

229

00:11:45,270 --> 00:11:43,270

how does it work in your world well

230

00:11:48,630 --> 00:11:45,280

that's a really great question and the

231

00:11:50,490 --> 00:11:48,640

answer is both sometimes well I'll give

232

00:11:53,310 --> 00:11:50,500

you an example just a couple of weeks

233

00:11:58,380 --> 00:11:53,320

ago somebody called me with something

234

00:12:00,030 --> 00:11:58,390

that was fantastic and I don't want to

235

00:12:02,910 --> 00:12:00,040

go into the details about this because

236

00:12:06,840 --> 00:12:02,920

it it is related to the Templar research

237

00:12:10,290 --> 00:12:06,850

but it's also related to other research

238

00:12:12,300 --> 00:12:10,300

I will tell you this it's it's related

239

00:12:15,540 --> 00:12:12,310

to the Knights of the Golden Circle

240

00:12:17,730 --> 00:12:15,550

and anyway I got a call from a guy and

241

00:12:20,730 --> 00:12:17,740

his story was so compelling and his

242

00:12:23,850 --> 00:12:20,740

photographs were so interesting to me

243

00:12:26,460 --> 00:12:23,860

that collectively he was able to talk me

244

00:12:29,880 --> 00:12:26,470

into jumping into my car and driving

245

00:12:31,740 --> 00:12:29,890

nine hours and meeting up with him and

246

00:12:34,950 --> 00:12:31,750

spending a day and a half with him and

247

00:12:36,840 --> 00:12:34,960

it was amazing that's all I'm going to

248

00:12:39,390 --> 00:12:36,850

say and that story is still developing

249

00:12:42,510 --> 00:12:39,400

and I can't say much more than that

250

00:12:44,730 --> 00:12:42,520

right now but it could be one of the

251  
00:12:46,800 --> 00:12:44,740  
biggest things I've ever worked on if it

252  
00:12:48,630 --> 00:12:46,810  
pans out and and and that's all I can

253  
00:12:51,560 --> 00:12:48,640  
say about that but then there's other

254  
00:12:55,380 --> 00:12:51,570  
times when I'm doing research that is

255  
00:12:57,690 --> 00:12:55,390  
connected to whatever and I just compel

256  
00:13:00,300 --> 00:12:57,700  
myself and say look because of this this

257  
00:13:01,920 --> 00:13:00,310  
and this I gotta go the best example I

258  
00:13:04,290 --> 00:13:01,930  
can give you it was when I was initially

259  
00:13:06,780 --> 00:13:04,300  
working on the Kensington Runestone I

260  
00:13:09,030 --> 00:13:06,790  
did my geological work I produced my

261  
00:13:12,000 --> 00:13:09,040  
findings I got criticized and attacked

262  
00:13:14,520 --> 00:13:12,010  
then I figured out that the first state

263  
00:13:16,860 --> 00:13:14,530

geologist of Minnesota Newton Winchell

264

00:13:20,130 --> 00:13:16,870

had also done the same study that I did

265

00:13:22,110 --> 00:13:20,140

or actually I did the same study that he

266

00:13:25,290 --> 00:13:22,120

did and we both came to the same

267

00:13:28,050 --> 00:13:25,300

conclusion he did is 90 years before me

268

00:13:30,390 --> 00:13:28,060

I knew at that point that the stone was

269

00:13:33,000 --> 00:13:30,400

real and therefore everything in that

270

00:13:35,100 --> 00:13:33,010

inscription had to be real and that

271

00:13:38,880 --> 00:13:35,110

somebody carved it they came from

272

00:13:41,670 --> 00:13:38,890

someplace for some reason and based on

273

00:13:44,610 --> 00:13:41,680

all of that logic as I used to say as I

274

00:13:47,340 --> 00:13:44,620

like to say I decided that I had to go

275

00:13:49,380 --> 00:13:47,350

over to Sweden to investigate the ruins

276

00:13:52,290 --> 00:13:49,390

to dial up the grammar and all of that

277

00:13:54,360 --> 00:13:52,300

I went five times Jim over an over a

278

00:13:57,230 --> 00:13:54,370

period of two and a half years

279

00:14:00,389 --> 00:13:57,240

and all I can say is it was a

280

00:14:02,850 --> 00:14:00,399

revelation not only did I find the stuff

281

00:14:05,309 --> 00:14:02,860

that I was looking for but I find stuff

282

00:14:07,530 --> 00:14:05,319

that I never expected and what what

283

00:14:10,590 --> 00:14:07,540

really is the lesson of that getting

284

00:14:12,210 --> 00:14:10,600

back to your original question is you

285

00:14:15,030 --> 00:14:12,220

don't find things by sitting around

286

00:14:17,610 --> 00:14:15,040

talking about it right if you develop a

287

00:14:20,819 --> 00:14:17,620

theory and you need to get information

288

00:14:24,150 --> 00:14:20,829

you got to go and I find that when I do

289

00:14:27,720 --> 00:14:24,160

go I usually find something even greater

290

00:14:30,269 --> 00:14:27,730

than I was hoping for and so it's both

291

00:14:33,420 --> 00:14:30,279

so it's a series it's a series of

292

00:14:36,299 --> 00:14:33,430

breadcrumbs right yeah and they

293

00:14:39,840 --> 00:14:36,309

constantly lay themselves out and one

294

00:14:43,819 --> 00:14:39,850

would suggest that this is your life's

295

00:14:47,189 --> 00:14:43,829

Mis mission the universe knows this and

296

00:14:51,509 --> 00:14:47,199

the synchronicities are laid out for you

297

00:14:54,239 --> 00:14:51,519

because of what you are working on you

298

00:14:57,389 --> 00:14:54,249

know what you're saying is more

299

00:14:59,699 --> 00:14:57,399

prophetic than you realize and I come to

300

00:15:01,829 --> 00:14:59,709

that realization and I gotta tell you

301  
00:15:04,290 --> 00:15:01,839  
I'm a science guy right hard evidence

302  
00:15:07,290 --> 00:15:04,300  
facts you know logic everything has to

303  
00:15:09,720 --> 00:15:07,300  
fit blah blah all that stuff but as I've

304  
00:15:12,480 --> 00:15:09,730  
gotten older and as I've really delved

305  
00:15:14,069 --> 00:15:12,490  
into this arena more and more I've come

306  
00:15:17,129 --> 00:15:14,079  
to learn that there are certain things

307  
00:15:21,389 --> 00:15:17,139  
that are going on that don't necessarily

308  
00:15:25,829 --> 00:15:21,399  
follow the laws of logic and scientific

309  
00:15:28,860 --> 00:15:25,839  
method there's this intuitive spiritual

310  
00:15:30,960 --> 00:15:28,870  
aspect to this stuff that to be quite

311  
00:15:33,239 --> 00:15:30,970  
frank with you I have never explored in

312  
00:15:36,660 --> 00:15:33,249  
my life prior to this but I had been

313  
00:15:38,669 --> 00:15:36,670

forced to and at first it was really

314

00:15:40,799 --> 00:15:38,679

uncomfortable for me because it was so

315

00:15:44,519 --> 00:15:40,809

foreign but I'm getting more comfortable

316

00:15:48,660 --> 00:15:44,529

with it now and I gotta say I I think

317

00:15:51,869 --> 00:15:48,670

it's helping and if it is why would I

318

00:15:58,199 --> 00:15:51,879

not why would I not be open to it when

319

00:16:01,249 --> 00:15:58,209

we talk about the the history of of this

320

00:16:04,410 --> 00:16:01,259

continent and that that includes Canada

321

00:16:07,049 --> 00:16:04,420

you know the the United States and

322

00:16:07,770 --> 00:16:07,059

Central and South America this entire

323

00:16:10,920 --> 00:16:07,780

hemisphere

324

00:16:12,840 --> 00:16:10,930

when we talked about that it languished

325

00:16:15,780 --> 00:16:12,850

out there forever you know you have the

326

00:16:18,050 --> 00:16:15,790

Bering Strait and you have you know the

327

00:16:21,750 --> 00:16:18,060

the the ancient civilizations that

328

00:16:25,530 --> 00:16:21,760

started to populate here but by and

329

00:16:28,500 --> 00:16:25,540

large for the civilizations and cultures

330

00:16:30,600 --> 00:16:28,510

that were deep into the Mediterranean or

331

00:16:33,900 --> 00:16:30,610

Spain and Portugal and the United

332

00:16:36,900 --> 00:16:33,910

Kingdom this was the big mystery right

333

00:16:39,150 --> 00:16:36,910

this is what was over that horizon and

334

00:16:42,660 --> 00:16:39,160

I'm talking about the Year 1000 right

335

00:16:45,600 --> 00:16:42,670

what what is over the oceans but lately

336

00:16:50,850 --> 00:16:45,610

there's been a lot of chatter about the

337

00:16:53,250 --> 00:16:50,860

Azores and the possibility of not only

338

00:16:57,300 --> 00:16:53,260

pre-columbian but pre-everything and

339

00:17:01,620 --> 00:16:57,310

possibly Roman visitation to the Azores

340

00:17:03,450 --> 00:17:01,630

when that type of ship historically

341

00:17:06,059 --> 00:17:03,460

speaking didn't exist

342

00:17:09,030 --> 00:17:06,069

what do you think about that and are you

343

00:17:11,760 --> 00:17:09,040

interested maybe visit the islands and

344

00:17:13,949 --> 00:17:11,770

see what's going on well I'd be

345

00:17:16,980 --> 00:17:13,959

interested in visiting any Islands that

346

00:17:20,040 --> 00:17:16,990

have potential history to be uncovered I

347

00:17:21,540 --> 00:17:20,050

mean absolutely and you know the I think

348

00:17:24,929 --> 00:17:21,550

what's what's happening here and it's

349

00:17:28,860 --> 00:17:24,939

coming at a rapid pace is we're finding

350

00:17:30,900 --> 00:17:28,870

more evidence and more information that

351

00:17:33,840 --> 00:17:30,910

is consistent with what we've been

352

00:17:36,510 --> 00:17:33,850

saying for a long time but many cultures

353

00:17:38,760 --> 00:17:36,520

from all around the continent we're

354

00:17:42,240 --> 00:17:38,770

exploring much further than we ever

355

00:17:43,860 --> 00:17:42,250

thought they did and I'm not at all

356

00:17:46,800 --> 00:17:43,870

obviously I'm not at all surprised by

357

00:17:49,110 --> 00:17:46,810

that and I think that it's it's silly

358

00:17:52,070 --> 00:17:49,120

for people to try to put constraints on

359

00:17:54,780 --> 00:17:52,080

on people and on human cultures because

360

00:17:56,250 --> 00:17:54,790

you know just when you I mean it doesn't

361

00:17:57,750 --> 00:17:56,260

this happen all the time just when you

362

00:17:59,850 --> 00:17:57,760

think a team is down and they have no

363

00:18:02,220 --> 00:17:59,860

chance they rise up and they beat you

364

00:18:04,080 --> 00:18:02,230

and when you put down people and you say

365

00:18:05,910 --> 00:18:04,090

they can't do something that just

366

00:18:08,990 --> 00:18:05,920

motivates them to do it and exceed

367

00:18:11,730 --> 00:18:09,000

beyond what you thought they could do so

368

00:18:13,650 --> 00:18:11,740

I'm not surprised by any of this at all

369

00:18:16,190 --> 00:18:13,660

I would love to go and document as much

370

00:18:19,690 --> 00:18:16,200

as I can but to say that I was surprised

371

00:18:24,430 --> 00:18:19,700

I'm really not the

372

00:18:28,600 --> 00:18:24,440

the other part of of this which is not

373

00:18:31,020 --> 00:18:28,610

aliens but the other big a which attends

374

00:18:34,930 --> 00:18:31,030

to surface in this type of research is

375

00:18:36,910 --> 00:18:34,940

Atlantis and but when we're looking at

376

00:18:39,850 --> 00:18:36,920

like the Azores are the possibility it's

377

00:18:41,380 --> 00:18:39,860

called Atlantis for a reason and outside

378

00:18:44,200 --> 00:18:41,390

of the Straits of Gibraltar

379

00:18:46,000 --> 00:18:44,210

according to Plato that something could

380

00:18:48,400 --> 00:18:46,010

have been out there the sea levels and

381

00:18:52,360 --> 00:18:48,410

everything have changed over the years

382

00:18:54,190 --> 00:18:52,370

but there is that part of it but it's

383

00:18:58,080 --> 00:18:54,200

one thing to talk about the hook decks

384

00:19:01,450 --> 00:18:58,090

if you're on the fringe side of history

385

00:19:03,760 --> 00:19:01,460

but you start to get in to atlantis and

386

00:19:05,530 --> 00:19:03,770

dropping the big a that's when the

387

00:19:09,250 --> 00:19:05,540

controversies really start to surface

388

00:19:10,540 --> 00:19:09,260

are you willing to go there well yes the

389

00:19:13,210 --> 00:19:10,550

answer is hell yes

390

00:19:15,400 --> 00:19:13,220

I mean first off you know let's let's

391

00:19:17,710 --> 00:19:15,410

take a step back and and you know what

392

00:19:19,960 --> 00:19:17,720

is it Lantis right well some people

393

00:19:22,420 --> 00:19:19,970

think it's a place I don't think it's a

394

00:19:25,180 --> 00:19:22,430

place I think it's a culture a highly

395

00:19:27,790 --> 00:19:25,190

intelligent culture that existed before

396

00:19:29,620 --> 00:19:27,800

the so-called flood well what is the

397

00:19:34,930 --> 00:19:29,630

flood that we're talking about the flood

398

00:19:37,180 --> 00:19:34,940

is a worldwide universal story that all

399

00:19:41,410 --> 00:19:37,190

cultures have going back thousands of

400

00:19:43,000 --> 00:19:41,420

years that quite simply is just the the

401

00:19:46,180 --> 00:19:43,010

melting of the continental ice sheets

402

00:19:48,940 --> 00:19:46,190

that we know happen geologically my god

403

00:19:51,820 --> 00:19:48,950

a study glacial quaternary geology and

404

00:19:54,550 --> 00:19:51,830

college I know all about this happened

405

00:19:57,810 --> 00:19:54,560

you know 10 to 15 thousand years ago and

406

00:20:01,150 --> 00:19:57,820

we also know that something catastrophic

407

00:20:04,870 --> 00:20:01,160

happened some major worldwide event

408

00:20:07,120 --> 00:20:04,880

happened during about 12 5-12 thousand

409

00:20:09,580 --> 00:20:07,130

five hundred years ago that has been now

410

00:20:11,380 --> 00:20:09,590

called the Younger Dryas period now

411

00:20:13,540 --> 00:20:11,390

there's a couple of competing theories

412

00:20:18,190 --> 00:20:13,550

about what that catastrophic event might

413

00:20:21,910 --> 00:20:18,200

meant people like graham hancock adhere

414

00:20:24,210 --> 00:20:21,920

to the a large meteorite or comet impact

415

00:20:26,830 --> 00:20:24,220

that hit the northern hemisphere and

416

00:20:29,380 --> 00:20:26,840

triggered the massive disintegration of

417

00:20:31,330 --> 00:20:29,390

the of the ice sheets people like Robert

418

00:20:33,520 --> 00:20:31,340

Schoch was a geologist who I highly

419

00:20:36,400 --> 00:20:33,530

respect and I respect Graham too is

420

00:20:40,720 --> 00:20:36,410

well but he thinks there were massive

421

00:20:42,720 --> 00:20:40,730

solar flares that caused you know

422

00:20:45,640 --> 00:20:42,730

lightning strikes on the earth that

423

00:20:47,980 --> 00:20:45,650

produced vitrified glass all around the

424

00:20:50,680 --> 00:20:47,990

world at the same time and that would

425

00:20:52,870 --> 00:20:50,690

have triggered this massive ice sheet

426  
00:20:55,090 --> 00:20:52,880  
and I think they've had some competing

427  
00:20:56,710 --> 00:20:55,100  
theories but the other thing I said to

428  
00:20:59,980 --> 00:20:56,720  
both of them is why can't both be true

429  
00:21:01,720 --> 00:20:59,990  
and Rand Randall Carlson has also done a

430  
00:21:04,810 --> 00:21:01,730  
lot of really good work he's a brilliant

431  
00:21:07,420 --> 00:21:04,820  
guy but the point is something happened

432  
00:21:09,850 --> 00:21:07,430  
it caused the ice sheets to melt this

433  
00:21:12,070 --> 00:21:09,860  
trigger to rise a rapid rise in sea

434  
00:21:14,380 --> 00:21:12,080  
level of up to three to four hundred

435  
00:21:16,600 --> 00:21:14,390  
feet and if you stop and think about it

436  
00:21:18,550 --> 00:21:16,610  
computer models raising sea level three

437  
00:21:21,400 --> 00:21:18,560  
to four hundred feet it's going to

438  
00:21:23,470 --> 00:21:21,410

displace you know cultures all around

439

00:21:25,570 --> 00:21:23,480

the world because most people in ancient

440

00:21:27,580 --> 00:21:25,580

times would live on the coastlines

441

00:21:29,080 --> 00:21:27,590

because that's where the food is and you

442

00:21:31,780 --> 00:21:29,090

could imagine every one of those

443

00:21:34,450 --> 00:21:31,790

cultures is going to document this event

444

00:21:36,640 --> 00:21:34,460

in a and and I I think what we're

445

00:21:40,750 --> 00:21:36,650

talking about is this mythological flood

446

00:21:44,080 --> 00:21:40,760

story that they all experienced but it

447

00:21:47,530 --> 00:21:44,090

makes perfect sense to me and so who was

448

00:21:50,470 --> 00:21:47,540

displaced well I think it was this this

449

00:21:53,440 --> 00:21:50,480

culture that was interacting globally a

450

00:21:55,330 --> 00:21:53,450

lot more than anybody realized to the

451  
00:21:58,540 --> 00:21:55,340  
point where they were really a worldwide

452  
00:22:02,080 --> 00:21:58,550  
highly advanced culture that we have now

453  
00:22:05,770 --> 00:22:02,090  
labeled as the Atlanteans I think that's

454  
00:22:06,790 --> 00:22:05,780  
a really good working hypothesis for

455  
00:22:08,830 --> 00:22:06,800  
this whole thing

456  
00:22:11,050 --> 00:22:08,840  
I think it's probably true when it's all

457  
00:22:13,900 --> 00:22:11,060  
said and done I'll bet you a beer that's

458  
00:22:15,760 --> 00:22:13,910  
what happens when you stand I cannot

459  
00:22:19,480 --> 00:22:15,770  
help but do this and I do it every

460  
00:22:21,910 --> 00:22:19,490  
single time I'm at the beach right and I

461  
00:22:24,730 --> 00:22:21,920  
look out it doesn't matter the Atlantic

462  
00:22:29,230 --> 00:22:24,740  
the Pacific Ocean and and I'll look out

463  
00:22:32,260 --> 00:22:29,240

and stand on the beach and imagine four

464

00:22:35,050 --> 00:22:32,270

hundred five hundred feet of water above

465

00:22:37,870 --> 00:22:35,060

where you are standing and then turn

466

00:22:42,750 --> 00:22:37,880

around and look into land and think

467

00:22:46,130 --> 00:22:42,760

about what is going to be covered just

468

00:22:49,910 --> 00:22:46,140

about with the naked eye right and

469

00:22:52,670 --> 00:22:49,920

thing yes you know so now Jim do this

470

00:22:56,840 --> 00:22:52,680

you're standing at that same spot right

471

00:22:59,240 --> 00:22:56,850

and imagine sea level dropping yes Rita

472

00:23:01,700 --> 00:22:59,250

400 feet what would you see that it's

473

00:23:03,620 --> 00:23:01,710

now water that would be exposed when

474

00:23:07,640 --> 00:23:03,630

that water recedes you know what you

475

00:23:10,430 --> 00:23:07,650

would see about hundreds of thousands of

476

00:23:12,050 --> 00:23:10,440

ancient cultural sites that's what you

477

00:23:14,390 --> 00:23:12,060

would see there's no question about it

478

00:23:17,240 --> 00:23:14,400

there's some question about it and with

479

00:23:20,120 --> 00:23:17,250

with technology the way it is today and

480

00:23:24,140 --> 00:23:20,130

I'm talking about sonar and the ability

481

00:23:26,600 --> 00:23:24,150

to map underneath the the surface of the

482

00:23:27,950 --> 00:23:26,610

ocean and you can go into Google Earth

483

00:23:30,410 --> 00:23:27,960

and see they've you know they've been

484

00:23:32,900 --> 00:23:30,420

laying this out for for quite a while

485

00:23:35,540 --> 00:23:32,910

it's not that accurate but you can see

486

00:23:38,840 --> 00:23:35,550

things but with the technology that we

487

00:23:41,540 --> 00:23:38,850

have today you would think that this

488

00:23:44,540 --> 00:23:41,550

would be in a higher res detail and

489

00:23:47,660 --> 00:23:44,550

we'll get to that point but that is all

490

00:23:49,520 --> 00:23:47,670

of the indian ocean floor all of the

491

00:23:52,160 --> 00:23:49,530

pacific ocean all of the atlantic ocean

492

00:23:55,490 --> 00:23:52,170

the art there and go and see what's

493

00:23:58,970 --> 00:23:55,500

there which also includes the desert

494

00:24:02,420 --> 00:23:58,980

sands of northern Africa I can only

495

00:24:04,850 --> 00:24:02,430

imagine what is underneath all of that

496

00:24:09,050 --> 00:24:04,860

sand because the sand wasn't there not

497

00:24:10,970 --> 00:24:09,060

that long ago you know it was think

498

00:24:13,310 --> 00:24:10,980

about the Mediterranean Sea if you

499

00:24:16,250 --> 00:24:13,320

lowered sea level three to four hundred

500

00:24:18,680 --> 00:24:16,260

feet imagine what's it what's in there

501  
00:24:21,460 --> 00:24:18,690  
you've had cultures that's probably been

502  
00:24:23,960 --> 00:24:21,470  
one of the hot beds of human activity

503  
00:24:26,480 --> 00:24:23,970  
you know for thousands of years in the

504  
00:24:29,720 --> 00:24:26,490  
world what is under those waters can you

505  
00:24:32,450 --> 00:24:29,730  
imagine and and that's why this is for

506  
00:24:35,390 --> 00:24:32,460  
me one of the most exciting times to not

507  
00:24:37,640 --> 00:24:35,400  
only have a the ability to host a show

508  
00:24:39,140 --> 00:24:37,650  
like this but to have researchers out

509  
00:24:42,530 --> 00:24:39,150  
there like yourself like Graham like

510  
00:24:48,800 --> 00:24:42,540  
Randall and and Robert Schoch a you know

511  
00:24:50,720 --> 00:24:48,810  
going out there you know Robert well to

512  
00:24:53,090 --> 00:24:50,730  
have researchers out there tipping

513  
00:24:55,670 --> 00:24:53,100

things over and seeing what's underneath

514

00:24:57,039 --> 00:24:55,680

because we have the ability now to find

515

00:24:59,440 --> 00:24:57,049

these things out

516

00:25:01,930 --> 00:24:59,450

and just like we were just talking about

517

00:25:05,499 --> 00:25:01,940

things that are really old gobekli tepe

518

00:25:08,889 --> 00:25:05,509

right there right several thousand years

519

00:25:15,009 --> 00:25:08,899

yeah seven thousand years before Giza

520

00:25:16,180 --> 00:25:15,019

and now a few dozen miles away from

521

00:25:20,259 --> 00:25:16,190

gobekli tepe

522

00:25:24,039 --> 00:25:20,269

there's Bonn cuckoo Terra which is older

523

00:25:27,159 --> 00:25:24,049

than gobekli tepe when gobekli tepe

524

00:25:29,619 --> 00:25:27,169

wasn't supposed to exist right and and

525

00:25:31,419 --> 00:25:29,629

we're finding out more and more every

526

00:25:34,749 --> 00:25:31,429

single day I think this is truly the

527

00:25:38,919 --> 00:25:34,759

most exciting time in in history's lost

528

00:25:40,659 --> 00:25:38,929

history well I say the same thing all

529

00:25:42,190 --> 00:25:40,669

the time you know a lot of people look

530

00:25:44,320 --> 00:25:42,200

back and say oh well all the cool things

531

00:25:47,229 --> 00:25:44,330

have been discovered there's nothing

532

00:25:49,330 --> 00:25:47,239

left to discover bs this is the most

533

00:25:52,180 --> 00:25:49,340

exciting time to be alive there's so

534

00:25:54,940 --> 00:25:52,190

much being uncovered in in part as you

535

00:25:56,470 --> 00:25:54,950

said to new technology and you know I

536

00:25:59,349 --> 00:25:56,480

wanted to make a point about the new

537

00:26:02,049 --> 00:25:59,359

technology - I think we all have heard

538

00:26:03,519 --> 00:26:02,059

and realized that you know the military

539

00:26:05,409 --> 00:26:03,529

stuff that we see today

540

00:26:08,830 --> 00:26:05,419

you know today that that that were

541

00:26:11,169 --> 00:26:08,840

knowledgeable about is is actually old

542

00:26:13,930 --> 00:26:11,179

technology I mean the stuff that we're

543

00:26:19,349 --> 00:26:13,940

seeing today actually was new technology

544

00:26:21,999 --> 00:26:19,359

in the military in 15-20 years ago so

545

00:26:23,349 --> 00:26:22,009

what's what what are they using now that

546

00:26:26,470 --> 00:26:23,359

we're not going to hear about for

547

00:26:28,690 --> 00:26:26,480

another 10 - 15 20 years right and

548

00:26:31,479 --> 00:26:28,700

thinking about the technologies looking

549

00:26:33,070 --> 00:26:31,489

under the ocean Google Earth and how

550

00:26:35,139 --> 00:26:33,080

it's you know it's pretty damn good

551  
00:26:37,810 --> 00:26:35,149  
right now but imagine the technology

552  
00:26:40,359 --> 00:26:37,820  
that does exist right now that we just

553  
00:26:44,529 --> 00:26:40,369  
don't have access to yet what about

554  
00:26:47,159 --> 00:26:44,539  
Antarctica oh my god you know what just

555  
00:26:50,200 --> 00:26:47,169  
last night I had somebody send me a pole

556  
00:26:52,509 --> 00:26:50,210  
it was a satellite photograph and he

557  
00:26:54,310 --> 00:26:52,519  
said look the the the ice caps are

558  
00:26:57,159 --> 00:26:54,320  
melting away and here's the face of an

559  
00:26:59,169 --> 00:26:57,169  
alien and I looked at it and sure as

560  
00:27:01,659 --> 00:26:59,179  
hell it looked just like an alien face

561  
00:27:04,389 --> 00:27:01,669  
and then I zoomed in and zoomed in on

562  
00:27:07,570 --> 00:27:04,399  
detail and actually what it was is the

563  
00:27:08,860 --> 00:27:07,580

way that the snow had you know piled up

564

00:27:10,659 --> 00:27:08,870

in the mountains there

565

00:27:13,240 --> 00:27:10,669

I mean it was very convincing looking

566

00:27:16,120 --> 00:27:13,250

face but it wasn't the bedrock it wasn't

567

00:27:19,169 --> 00:27:16,130

the melting melting snow it actually was

568

00:27:22,149 --> 00:27:19,179

the snow but you know that being said

569

00:27:24,190 --> 00:27:22,159

not just in in Antarctica but what about

570

00:27:26,680 --> 00:27:24,200

Greenland I mean there's all kinds of

571

00:27:29,680 --> 00:27:26,690

things being exposed Mineral wise

572

00:27:31,360 --> 00:27:29,690

there's some meteorite impacts that have

573

00:27:33,820 --> 00:27:31,370

been exposed since the ice has been

574

00:27:35,350 --> 00:27:33,830

melting away in Greenland I mean can you

575

00:27:37,600 --> 00:27:35,360

imagine what they're going to find down

576

00:27:40,330 --> 00:27:37,610

in Antarctica if you know global warming

577

00:27:43,419 --> 00:27:40,340

continues the way it is and assuming we

578

00:27:46,570 --> 00:27:43,429

survive it there's going to be all kinds

579

00:27:48,370 --> 00:27:46,580

of things found is it possible we're

580

00:27:49,120 --> 00:27:48,380

going to be headed towards a break here

581

00:27:53,139 --> 00:27:49,130

in three minutes

582

00:27:56,860 --> 00:27:53,149

is it possible with the plate shifts and

583

00:28:00,269 --> 00:27:56,870

the Continental shifting the plate

584

00:28:03,029 --> 00:28:00,279

tectonics is that possible that

585

00:28:06,970 --> 00:28:03,039

Antarctica was in a different place that

586

00:28:10,060 --> 00:28:06,980

maybe that could even be Atlantis that

587

00:28:12,820 --> 00:28:10,070

that it moved to where it was from a

588

00:28:17,049 --> 00:28:12,830

more tropical area like you know where

589

00:28:20,830 --> 00:28:17,059

Australia sits today right well I guess

590

00:28:23,560 --> 00:28:20,840

you will dancer excuse me I'm getting

591

00:28:24,760 --> 00:28:23,570

over a cold so if I start you know HACC

592

00:28:27,970 --> 00:28:24,770

and that's what it is

593

00:28:32,260 --> 00:28:27,980

well first off do the continents shift

594

00:28:34,750 --> 00:28:32,270

due to plate tectonics well the answer

595

00:28:37,779 --> 00:28:34,760

is absolutely the problem with that is

596

00:28:40,260 --> 00:28:37,789

that it takes a long time and you know

597

00:28:43,060 --> 00:28:40,270

if you believe in the current models of

598

00:28:46,080 --> 00:28:43,070

you know evolution and the development

599

00:28:48,430 --> 00:28:46,090

of plants and animals and humans when

600

00:28:51,190 --> 00:28:48,440

Antarctica was connected to the other

601  
00:28:53,560 --> 00:28:51,200  
continents humans hadn't evolved yet we

602  
00:28:55,029 --> 00:28:53,570  
we didn't exist yet now that's going

603  
00:28:57,430 --> 00:28:55,039  
with the current science as we

604  
00:28:59,320 --> 00:28:57,440  
understand it I happen to adhere to that

605  
00:29:01,510 --> 00:28:59,330  
I don't know if anything's going to

606  
00:29:03,940 --> 00:29:01,520  
change that but I'm not going to you

607  
00:29:06,010 --> 00:29:03,950  
know I'm not going to put my anchor down

608  
00:29:08,380 --> 00:29:06,020  
and stone with that idea because you

609  
00:29:10,750 --> 00:29:08,390  
never know new new science may reveal

610  
00:29:13,480 --> 00:29:10,760  
something else but based on what we know

611  
00:29:14,889 --> 00:29:13,490  
now that really doesn't make sense but

612  
00:29:16,930 --> 00:29:14,899  
that doesn't mean that there couldn't

613  
00:29:19,389 --> 00:29:16,940

have been people living there in the

614

00:29:21,730 --> 00:29:19,399

past it just seems to me that there were

615

00:29:23,109 --> 00:29:21,740

other places on the continent and if

616

00:29:25,960 --> 00:29:23,119

these Atlantis

617

00:29:27,909 --> 00:29:25,970

if you will were as intelligent as we

618

00:29:29,889 --> 00:29:27,919

think they probably would have found

619

00:29:32,769 --> 00:29:29,899

some his somewhere a little more

620

00:29:33,129 --> 00:29:32,779

habitable to to hang out you know what I

621

00:29:37,479 --> 00:29:33,139

mean

622

00:29:39,759 --> 00:29:37,489

well if the if the the melt continues

623

00:29:43,899 --> 00:29:39,769

like it is and we know that they have

624

00:29:46,149 --> 00:29:43,909

found signs of a tropical growth in

625

00:29:47,950 --> 00:29:46,159

Antarctica there's plenty of leaves on

626  
00:29:51,669 --> 00:29:47,960  
trees and things that have been found on

627  
00:29:54,820 --> 00:29:51,679  
there but if they found evidence of like

628  
00:29:57,879 --> 00:29:54,830  
a campfire if they found evidence of a

629  
00:30:00,639 --> 00:29:57,889  
gobekli tepe down there would they

630  
00:30:03,580 --> 00:30:00,649  
release that would they speak about that

631  
00:30:05,259 --> 00:30:03,590  
an ancient civilization that predated

632  
00:30:09,099 --> 00:30:05,269  
everything or would they keep that

633  
00:30:11,409 --> 00:30:09,109  
hidden well the the the correct answer

634  
00:30:13,539 --> 00:30:11,419  
is ethically they should absolutely

635  
00:30:16,139 --> 00:30:13,549  
release it but that doesn't mean that

636  
00:30:18,820 --> 00:30:16,149  
they will right I mean the whole idea of

637  
00:30:22,389 --> 00:30:18,830  
extraterrestrials and in aliens and all

638  
00:30:24,609 --> 00:30:22,399

of that is something that now they're

639

00:30:26,739 --> 00:30:24,619

starting to talk about and if they are

640

00:30:28,899 --> 00:30:26,749

starting to talk about it now that means

641

00:30:31,629 --> 00:30:28,909

they've known for a long time and let's

642

00:30:33,340 --> 00:30:31,639

just assume that that is true and I

643

00:30:35,649 --> 00:30:33,350

think the preponderance of evidence is

644

00:30:38,440 --> 00:30:35,659

starting to go in that direction why did

645

00:30:40,509 --> 00:30:38,450

they keep it from us for so long so you

646

00:30:42,369 --> 00:30:40,519

you have to really go down that road and

647

00:30:44,169 --> 00:30:42,379

say what would be the reason what it was

648

00:30:46,690 --> 00:30:44,179

you know to protect people from

649

00:30:48,789 --> 00:30:46,700

themselves that we would all panic and

650

00:30:51,279 --> 00:30:48,799

there'd be anarchy in the streets well

651  
00:30:54,789 --> 00:30:51,289  
you know what I what I believe is that

652  
00:30:57,220 --> 00:30:54,799  
when there's bad news about something no

653  
00:31:00,489 --> 00:30:57,230  
matter how bad it is I mean you know

654  
00:31:02,049 --> 00:31:00,499  
people react strongly and emotionally

655  
00:31:05,259 --> 00:31:02,059  
and it's difficult depending on what

656  
00:31:07,389 --> 00:31:05,269  
that news is but after a while you know

657  
00:31:09,389 --> 00:31:07,399  
you pull up your bootstraps you suck it

658  
00:31:13,060 --> 00:31:09,399  
up and you have to keep moving right and

659  
00:31:15,669 --> 00:31:13,070  
I think people would might be shocked at

660  
00:31:18,129 --> 00:31:15,679  
first but they would settle in pretty

661  
00:31:19,389 --> 00:31:18,139  
quick and get on with life so I don't

662  
00:31:22,299 --> 00:31:19,399  
think they have to protect us from

663  
00:31:24,879 --> 00:31:22,309

anything just give us the truth and let

664

00:31:27,190 --> 00:31:24,889

us handle it that's but that doesn't

665

00:31:30,970 --> 00:31:27,200

mean that they will our guest tonight is

666

00:31:33,039 --> 00:31:30,980

Scott Wolter America on Earth I am your

667

00:31:35,180 --> 00:31:33,049

host Jimmy Church we'll be right back

668

00:31:38,900 --> 00:31:35,190

after this short break on the game

669

00:31:46,440 --> 00:31:38,910

changer Network and K GRA the planet he

670

00:31:50,780 --> 00:31:50,470

[Music]

671

00:32:06,100 --> 00:31:50,790

[Applause]

672

00:32:11,950 --> 00:32:09,039

welcome back fade to black I'm heroes to

673

00:32:14,289 --> 00:32:11,960

the church if you ever miss the live

674

00:32:17,769 --> 00:32:14,299

show can't be here

675

00:32:20,350 --> 00:32:17,779

the next best thing get the podcast it's

676

00:32:22,930 --> 00:32:20,360

just two dollars per month it's updated

677

00:32:25,779 --> 00:32:22,940

every single night immediately after the

678

00:32:28,389 --> 00:32:25,789

live show we have over eleven hundred

679

00:32:30,700 --> 00:32:28,399

and sixty broadcasts right there in the

680

00:32:32,409 --> 00:32:30,710

archives for just two dollars a month go

681

00:32:36,430 --> 00:32:32,419

to Jimmy Church radio comm click on that

682

00:32:40,480 --> 00:32:36,440

podcast banner and now Scott's let's

683

00:32:44,409 --> 00:32:40,490

talk about a big reveal and and this is

684

00:32:48,460 --> 00:32:44,419

the thing when you tell me and and you

685

00:32:51,100 --> 00:32:48,470

did when you say Jimmy Jimmy tonight

686

00:32:53,049 --> 00:32:51,110

tonight I'm gonna fly a mission tonight

687

00:32:56,409 --> 00:32:53,059

I'm gonna drop a bomb it's it tonight

688

00:32:58,149 --> 00:32:56,419

and and I'm always excited about that so

689

00:33:00,100 --> 00:32:58,159

let's start there I can't wait to ask

690

00:33:03,549 --> 00:33:00,110

the questions but what are you working

691

00:33:07,480 --> 00:33:03,559

on right now well actually I'm working

692

00:33:11,620 --> 00:33:07,490

on a number of things but the thing that

693

00:33:15,370 --> 00:33:11,630

has really come to the forefront is the

694

00:33:18,060 --> 00:33:15,380

Cremona document and it's you know this

695

00:33:21,759 --> 00:33:18,070

is a copy

696

00:33:25,980 --> 00:33:21,769

probably a copy of a copy of a 12th

697

00:33:28,269 --> 00:33:25,990

century document that tells the story of

698

00:33:31,659 --> 00:33:28,279

treasure that was found by Knights

699

00:33:33,700 --> 00:33:31,669

Templar this the legendary story that

700

00:33:34,930 --> 00:33:33,710

we've all heard about of the Templars

701  
00:33:38,169 --> 00:33:34,940  
going under the Temple Mount in

702  
00:33:38,620 --> 00:33:38,179  
Jerusalem and finding of a fantastic

703  
00:33:41,649 --> 00:33:38,630  
treasure

704  
00:33:44,259 --> 00:33:41,659  
well this document chronicles that

705  
00:33:47,080 --> 00:33:44,269  
discovery and part of what they

706  
00:33:50,590 --> 00:33:47,090  
discovered were Word documents from the

707  
00:33:53,289 --> 00:33:50,600  
first century that talked about other

708  
00:33:55,960 --> 00:33:53,299  
documents from the first century that

709  
00:33:59,019 --> 00:33:55,970  
were sitting in a place called the land

710  
00:34:02,259 --> 00:33:59,029  
of on Theora which was North America in

711  
00:34:04,810 --> 00:34:02,269  
the first century so we're talking about

712  
00:34:07,539 --> 00:34:04,820  
in 1100 these documents were found that

713  
00:34:09,730 --> 00:34:07,549

at that time were a thousand years old

714

00:34:14,680 --> 00:34:09,740

talking about additional documents taken

715

00:34:16,599 --> 00:34:14,690

to be hidden over here now the second

716

00:34:19,310 --> 00:34:16,609

part of the Cremona document which is a

717

00:34:22,400 --> 00:34:19,320

come which is a compilation of Doc

718

00:34:24,860 --> 00:34:22,410

it's not just one document and the

719

00:34:28,520 --> 00:34:24,870

second document is about six decades

720

00:34:30,440 --> 00:34:28,530

older this chronicles a trip led by a

721

00:34:35,360 --> 00:34:30,450

Templar Knight by the name of Ralph to

722

00:34:38,480 --> 00:34:35,370

subtly who traveled to Denmark to get a

723

00:34:41,450 --> 00:34:38,490

woman named all tomara who was in the

724

00:34:45,620 --> 00:34:41,460

the Danish Kings Court who was a Knights

725

00:34:47,690 --> 00:34:45,630

Templar and disorderly had one of his

726

00:34:50,420 --> 00:34:47,700

Templar knights was required to marry

727

00:34:53,630 --> 00:34:50,430

her before she was allowed to leave and

728

00:34:56,450 --> 00:34:53,640

then she led them to North America to

729

00:34:58,370 --> 00:34:56,460

the temple of the goddess where these

730

00:35:00,680 --> 00:34:58,380

documents were hidden it was to Sutter

731

00:35:03,530 --> 00:35:00,690

Lee's mission to recover those first

732

00:35:06,110 --> 00:35:03,540

century documents hidden over here now

733

00:35:08,540 --> 00:35:06,120

the place where they were hidden was in

734

00:35:12,680 --> 00:35:08,550

what we now call the Catskill Mountains

735

00:35:15,350 --> 00:35:12,690

and he did recover some of those

736

00:35:17,390 --> 00:35:15,360

documents not all of them then he

737

00:35:20,150 --> 00:35:17,400

traveled south to the northern end of

738

00:35:22,580 --> 00:35:20,160

what is now Long Island winter Dover

739

00:35:26,810 --> 00:35:22,590

built a boat over the winter and then

740

00:35:28,220 --> 00:35:26,820

sailed back to Europe in 1180 this trip

741

00:35:30,770 --> 00:35:28,230

took three years total

742

00:35:32,660 --> 00:35:30,780

and then he reported to the Grand Master

743

00:35:36,500 --> 00:35:32,670

of the Knights Templar at that time his

744

00:35:39,320 --> 00:35:36,510

name was odin and he recorded his

745

00:35:42,410 --> 00:35:39,330

deposition was taken it was recorded and

746

00:35:44,330 --> 00:35:42,420

that is what the Cremona document is or

747

00:35:47,290 --> 00:35:44,340

at least those are the two main parts

748

00:35:51,710 --> 00:35:47,300

now other parts of the document include

749

00:35:54,770 --> 00:35:51,720

the documents that he recovered one of

750

00:35:59,750 --> 00:35:54,780

those documents was the marriage

751  
00:36:04,190 --> 00:35:59,760  
document of yeshua ben yosef Jesus son

752  
00:36:07,880 --> 00:36:04,200  
of Joseph to Miriam of has mo Nia or

753  
00:36:10,610 --> 00:36:07,890  
Mary Magdalene that document was so

754  
00:36:13,430 --> 00:36:10,620  
important and so dangerous that it had

755  
00:36:16,010 --> 00:36:13,440  
to be hidden over here but he recovered

756  
00:36:18,170 --> 00:36:16,020  
that so we know all that stuff and I

757  
00:36:20,450 --> 00:36:18,180  
wrote about that in my book now the

758  
00:36:22,760 --> 00:36:20,460  
other thing that you saw in the book if

759  
00:36:27,260 --> 00:36:22,770  
you if you get it you will see that the

760  
00:36:30,230 --> 00:36:27,270  
Cremona document also includes maps one

761  
00:36:32,660 --> 00:36:30,240  
of those maps which is a very strange

762  
00:36:35,329 --> 00:36:32,670  
map of Nova Scotia and the

763  
00:36:38,240 --> 00:36:35,339

surrounding area at the mouth of the st.

764

00:36:43,849 --> 00:36:38,250

Lawrence River was used on the oak

765

00:36:45,710 --> 00:36:43,859

island show now we didn't really play it

766

00:36:48,200 --> 00:36:45,720

up too long because the fact of the

767

00:36:50,839 --> 00:36:48,210

matter is Oak Island has nothing to do

768

00:36:53,020 --> 00:36:50,849

with the Cremona document story but it's

769

00:36:55,220 --> 00:36:53,030

a cool map and it's one of the four maps

770

00:36:57,470 --> 00:36:55,230

now one of the things that was really

771

00:36:59,809 --> 00:36:57,480

puzzling for a long time about these

772

00:37:02,030 --> 00:36:59,819

maps and these maps didn't come to my

773

00:37:05,329 --> 00:37:02,040

attention until about five or six years

774

00:37:07,819 --> 00:37:05,339

ago through my good friend Don Rue who

775

00:37:10,160 --> 00:37:07,829

was the guy who was the best friend of a

776

00:37:12,620 --> 00:37:10,170

colleague in an organization that he

777

00:37:17,120 --> 00:37:12,630

worked for who bought the Cremona

778

00:37:21,920 --> 00:37:17,130

document back in 1971 and he vetted it

779

00:37:23,750 --> 00:37:21,930

for several years and convinced himself

780

00:37:26,510 --> 00:37:23,760

by finding one of the shipwrecks and

781

00:37:29,750 --> 00:37:26,520

finding the tomb of Alta Mara that this

782

00:37:32,660 --> 00:37:29,760

story was true and then he was going to

783

00:37:35,240 --> 00:37:32,670

write a book about it and what happened

784

00:37:37,069 --> 00:37:35,250

was he went through the same turmoil

785

00:37:42,140 --> 00:37:37,079

that I'd been through and many other

786

00:37:44,480 --> 00:37:42,150

people who dare to venture into the

787

00:37:48,020 --> 00:37:44,490

world of alternative history according

788

00:37:49,910 --> 00:37:48,030

to the mainstream academia and he became

789

00:37:52,010 --> 00:37:49,920

so frustrated with the way that those

790

00:37:54,620 --> 00:37:52,020

academics treated him as he was just

791

00:37:56,990 --> 00:37:54,630

trying to get information and understand

792

00:37:59,180 --> 00:37:57,000

this document in the history within it

793

00:38:01,460 --> 00:37:59,190

that he said screw it I'm not even going

794

00:38:03,710 --> 00:38:01,470

to write this book so he decided he was

795

00:38:06,470 --> 00:38:03,720

going to write a novel and he was well

796

00:38:09,140 --> 00:38:06,480

into that and then he found out that he

797

00:38:15,770 --> 00:38:09,150

was terminally ill so we sold the

798

00:38:18,140 --> 00:38:15,780

document to the Vatican now this this

799

00:38:20,030 --> 00:38:18,150

story is just amazing because the guy

800

00:38:23,539 --> 00:38:20,040

that he sold it to represented the

801  
00:38:26,240 --> 00:38:23,549  
Vatican was a guy named Archbishop Paul

802  
00:38:28,010 --> 00:38:26,250  
Marcinkus and if people are googling

803  
00:38:31,520 --> 00:38:28,020  
that name right now you're gonna find

804  
00:38:35,450 --> 00:38:31,530  
out that this was the bad guy of the

805  
00:38:37,579 --> 00:38:35,460  
Vatican I mean this was a guy who is it

806  
00:38:41,210 --> 00:38:37,589  
has been accused of killing Pope John

807  
00:38:42,829 --> 00:38:41,220  
Paul the first in 1978 by poisoning him

808  
00:38:44,599 --> 00:38:42,839  
and the reason they think he did it is

809  
00:38:46,400 --> 00:38:44,609  
because he was the only one that had a

810  
00:38:48,680 --> 00:38:46,410  
key to the secret door

811  
00:38:50,720 --> 00:38:48,690  
got into the Pope's chamber sleeping you

812  
00:38:52,789 --> 00:38:50,730  
know his sleeping chamber right anyway

813  
00:38:55,339 --> 00:38:52,799

if you saw The Da Vinci Code

814

00:38:58,309 --> 00:38:55,349

remember the albino monk a really bad

815

00:39:00,740 --> 00:38:58,319

guy yeah in in The Da Vinci Code movie

816

00:39:03,289 --> 00:39:00,750

that character was patterned after Paul

817

00:39:08,779 --> 00:39:03,299

Marcinkus that's who Jackson sold the

818

00:39:12,250 --> 00:39:08,789

document to in 1994 what nobody knew

819

00:39:15,289 --> 00:39:12,260

until recently and Jackson died in 2000

820

00:39:18,140 --> 00:39:15,299

but he left this material to his good

821

00:39:20,359 --> 00:39:18,150

friend Don rue who's now my friend and

822

00:39:23,089 --> 00:39:20,369

I'm working very closely with him I have

823

00:39:25,640 --> 00:39:23,099

for 13 years but what I've discovered

824

00:39:29,180 --> 00:39:25,650

with dined is that there are bits and

825

00:39:32,690 --> 00:39:29,190

pieces of the Cremona document that bill

826  
00:39:35,569 --> 00:39:32,700  
disseminated to his colleagues after he

827  
00:39:39,140 --> 00:39:35,579  
sold the main document to the Vatican

828  
00:39:42,049 --> 00:39:39,150  
and those pieces that he parsed out to

829  
00:39:45,020 --> 00:39:42,059  
his friends were the most important

830  
00:39:47,690 --> 00:39:45,030  
pieces to the whole document the Vatican

831  
00:39:50,299 --> 00:39:47,700  
never got them which is amazing

832  
00:39:53,089 --> 00:39:50,309  
which included the cipher phrase that's

833  
00:39:56,359 --> 00:39:53,099  
mandatory for deciphering the Theban

834  
00:39:58,010 --> 00:39:56,369  
alphabet that is the way the document is

835  
00:40:00,109 --> 00:39:58,020  
written in this coded language that the

836  
00:40:02,059 --> 00:40:00,119  
Templars used it gets a little bit

837  
00:40:04,039 --> 00:40:02,069  
complicated but the point is this and

838  
00:40:06,950 --> 00:40:04,049

I'm all I'm getting to this new

839

00:40:10,430 --> 00:40:06,960

discovery is that over the years that

840

00:40:12,109 --> 00:40:10,440

I've known dad I'm a number of his

841

00:40:13,970 --> 00:40:12,119

colleagues that he worked with in this

842

00:40:17,839 --> 00:40:13,980

agency have passed away

843

00:40:24,049 --> 00:40:17,849

and their estates have left packages for

844

00:40:27,160 --> 00:40:24,059

Don that contain the pages of the komono

845

00:40:33,220 --> 00:40:27,170

document that Jackson left to these guys

846

00:40:38,690 --> 00:40:33,230

now this March of this past March of

847

00:40:40,730 --> 00:40:38,700

1920 1919 2019 a guy by the name of John

848

00:40:44,089 --> 00:40:40,740

Drake one of one of Don's colleagues

849

00:40:47,150 --> 00:40:44,099

passed away John Drake had a walk-in

850

00:40:49,099 --> 00:40:47,160

safe in his house and his family

851  
00:40:51,980 --> 00:40:49,109  
couldn't get into it until August of

852  
00:40:53,539 --> 00:40:51,990  
this year when they finally got into it

853  
00:40:56,960 --> 00:40:53,549  
there was a package in there that was

854  
00:40:59,599 --> 00:40:56,970  
for Don rule Don didn't get that package

855  
00:41:00,140 --> 00:40:59,609  
till October and there was a bunch of

856  
00:41:02,210 --> 00:41:00,150  
stuff

857  
00:41:05,319 --> 00:41:02,220  
including an envelope that was sealed

858  
00:41:09,890 --> 00:41:05,329  
that he didn't open until this December

859  
00:41:12,650 --> 00:41:09,900  
and when he opened it there were two

860  
00:41:14,900 --> 00:41:12,660  
pages from the Cremona document shut up

861  
00:41:17,059 --> 00:41:14,910  
wait a minute we have never seen wait

862  
00:41:17,779 --> 00:41:17,069  
stop stop stop stop stop stop right

863  
00:41:21,470 --> 00:41:17,789

there

864

00:41:24,829 --> 00:41:21,480

pump the brakes when you say two pages

865

00:41:30,740 --> 00:41:24,839

from the Cremona document are we talking

866

00:41:35,510 --> 00:41:30,750

about copies the document was probably

867

00:41:40,190 --> 00:41:35,520

copied by probably a freemason in the 80

868

00:41:42,650 --> 00:41:40,200

around 1860 okay this is typical for old

869

00:41:45,079 --> 00:41:42,660

documents to be copied and recopied

870

00:41:48,170 --> 00:41:45,089

because they degrade over time the

871

00:41:51,079 --> 00:41:48,180

Cistercians who were the monastery of

872

00:41:53,539 --> 00:41:51,089

white monks that the Knights Templar

873

00:41:56,390 --> 00:41:53,549

were members of they were part of the

874

00:41:58,910 --> 00:41:56,400

Cistercian order they had rooms in every

875

00:42:00,680 --> 00:41:58,920

one of their monasteries were monks all

876

00:42:03,529 --> 00:42:00,690

day long all they did was copy

877

00:42:05,870 --> 00:42:03,539

manuscripts sure beautiful illuminated

878

00:42:07,460 --> 00:42:05,880

manuscripts sure and they would update

879

00:42:09,920 --> 00:42:07,470

these and they would make multiple

880

00:42:12,440 --> 00:42:09,930

copies so they would be preserved and

881

00:42:16,609 --> 00:42:12,450

this Cremona document is one of those

882

00:42:19,099 --> 00:42:16,619

secret documents that chronicles Templar

883

00:42:21,950 --> 00:42:19,109

voyages to America that the world has

884

00:42:24,680 --> 00:42:21,960

never seen until now and it's freaking

885

00:42:29,029 --> 00:42:24,690

amazing what's in here okay these two

886

00:42:32,599 --> 00:42:29,039

pages yes we just got okay and ice the

887

00:42:35,299 --> 00:42:32,609

last month deciphering them along with

888

00:42:37,220 --> 00:42:35,309

Don and I think we now have it figured

889

00:42:41,599 --> 00:42:37,230

out okay we're gonna come back to that

890

00:42:43,250 --> 00:42:41,609

in a second the original Cremona

891

00:42:45,380 --> 00:42:43,260

document I know I've asked you this

892

00:42:48,920 --> 00:42:45,390

before but just for clarification for

893

00:42:51,500 --> 00:42:48,930

the for the audience does it exist today

894

00:42:55,490 --> 00:42:51,510

is it it that the Vatican who's got the

895

00:42:56,900 --> 00:42:55,500

original Cremona document I you know to

896

00:42:59,359 --> 00:42:56,910

be quite frank with you I think the

897

00:43:02,680 --> 00:42:59,369

original Cremona document that was

898

00:43:05,900 --> 00:43:02,690

written down in the 12th century is

899

00:43:08,299 --> 00:43:05,910

probably degraded and gone or its

900

00:43:11,930 --> 00:43:08,309

preserved somewhere in a secret archive

901  
00:43:13,549 --> 00:43:11,940  
most likely the Vatican right but the

902  
00:43:14,450 --> 00:43:13,559  
honest answer is I don't know it could

903  
00:43:16,550 --> 00:43:14,460  
be in a monastery

904  
00:43:18,290 --> 00:43:16,560  
someplace we know this copy of the

905  
00:43:22,010 --> 00:43:18,300  
Cremona document that bill Jackson

906  
00:43:24,050 --> 00:43:22,020  
bought in 1971 was in Cremona Italy for

907  
00:43:25,700 --> 00:43:24,060  
a long time in a monastery there that's

908  
00:43:28,070 --> 00:43:25,710  
why we call it the Cremona document

909  
00:43:33,680 --> 00:43:28,080  
right right right okay so let's go back

910  
00:43:36,339 --> 00:43:33,690  
okay so now in December envelope Jackson

911  
00:43:38,990 --> 00:43:36,349  
you guys you open it you've been

912  
00:43:41,900 --> 00:43:39,000  
deciphering it and and translating it

913  
00:43:43,730 --> 00:43:41,910

all right where we at what what have you

914

00:43:46,940 --> 00:43:43,740

found out let me back up for a sec

915

00:43:49,190 --> 00:43:46,950

because how I got the document is almost

916

00:43:50,750 --> 00:43:49,200

as good as what's in the document and

917

00:43:52,450 --> 00:43:50,760

I'm not kidding you because you gotta

918

00:43:55,400 --> 00:43:52,460

remember Don was part of an organization

919

00:43:58,160 --> 00:43:55,410

and when I asked Don to tell people what

920

00:44:00,200 --> 00:43:58,170

he used to do for a living he said I

921

00:44:03,589 --> 00:44:00,210

used to work for an organization that

922

00:44:05,480 --> 00:44:03,599

did things with your tax dollars right

923

00:44:07,760 --> 00:44:05,490

and that's all he would say right but I

924

00:44:10,609 --> 00:44:07,770

will tell you that what what Don did for

925

00:44:14,240 --> 00:44:10,619

a living was the dirty work that we

926

00:44:17,630 --> 00:44:14,250

never hear about and those guys did some

927

00:44:19,400 --> 00:44:17,640

really really good patriotic things that

928

00:44:22,460 --> 00:44:19,410

our government just doesn't tell us

929

00:44:23,839 --> 00:44:22,470

about and and just know this some of the

930

00:44:26,240 --> 00:44:23,849

stuff that our government does I don't

931

00:44:28,130 --> 00:44:26,250

necessarily agree with but a lot of the

932

00:44:30,800 --> 00:44:28,140

stuff that they do is really good stuff

933

00:44:35,359 --> 00:44:30,810

that does protect American in other

934

00:44:37,430 --> 00:44:35,369

countries people's lives and we never

935

00:44:41,210 --> 00:44:37,440

hear about it it's it's the kind of work

936

00:44:42,980 --> 00:44:41,220

that it's not for everybody so that's

937

00:44:45,200 --> 00:44:42,990

the rule that they dwelled in and

938

00:44:47,750 --> 00:44:45,210

because of that world that they dwelled

939

00:44:50,870 --> 00:44:47,760

in that's how Jackson was able to get

940

00:44:52,190 --> 00:44:50,880

access to this document so anyway the

941

00:44:54,320 --> 00:44:52,200

other thing you have to understand is

942

00:44:58,990 --> 00:44:54,330

these guys are really clever at working

943

00:45:02,630 --> 00:44:59,000

with puzzles and codes and lock-picking

944

00:45:06,050 --> 00:45:02,640

you know secret stuff I mean and so what

945

00:45:08,150 --> 00:45:06,060

happened was Don contacted me I took a

946

00:45:09,890 --> 00:45:08,160

trip with my son to the east coast on my

947

00:45:11,870 --> 00:45:09,900

birthday to go to the Newport Tower to

948

00:45:13,730 --> 00:45:11,880

see the illumination and I gave a

949

00:45:16,339 --> 00:45:13,740

lecture that I told people they should

950

00:45:18,320 --> 00:45:16,349

watch before they heard our interview

951  
00:45:20,870 --> 00:45:18,330  
tonight because it sets the table for

952  
00:45:24,410 --> 00:45:20,880  
what we're talking about right now but

953  
00:45:26,000 --> 00:45:24,420  
anyway on that trip Don came out there

954  
00:45:27,770 --> 00:45:26,010  
because I wanted him to be there when I

955  
00:45:27,950 --> 00:45:27,780  
gave this lecture and he was and it was

956  
00:46:28,130 --> 00:45:27,960  
a

957  
00:46:30,530 --> 00:46:28,140  
course my son stood up he's like well

958  
00:46:33,020 --> 00:46:30,540  
and grants an engineer right boy he went

959  
00:46:37,190 --> 00:46:33,030  
right to work and we found the secret

960  
00:46:41,480 --> 00:46:37,200  
pack the secret compartment now a week

961  
00:46:44,510 --> 00:46:41,490  
earlier Don had sent me page two of

962  
00:46:47,359 --> 00:46:44,520  
these two pages and I called him and I

963  
00:46:50,329 --> 00:46:47,369

said worst page one he said you'll get

964

00:46:55,190 --> 00:46:50,339

it well guess what was in that secret

965

00:46:56,990 --> 00:46:55,200

compartment page one and and I've got a

966

00:47:00,190 --> 00:46:57,000

video of us pulling it out it's

967

00:47:03,230 --> 00:47:00,200

fantastic so what are these two pages

968

00:47:04,910 --> 00:47:03,240

these two pages now a member I told you

969

00:47:05,510 --> 00:47:04,920

about the map that they used on Oak

970

00:47:09,800 --> 00:47:05,520

Island

971

00:47:12,470 --> 00:47:09,810

map it's part of the Cremona document

972

00:47:13,760 --> 00:47:12,480

yeah you sent it to me yeah you've seen

973

00:47:16,490 --> 00:47:13,770

it you know what I'm talking about yes

974

00:47:19,640 --> 00:47:16,500

the northern part of the map you will

975

00:47:24,109 --> 00:47:19,650

see six french words they are under the

976  
00:47:26,650 --> 00:47:24,119  
tois Quattro Cinque set one two three

977  
00:47:29,750 --> 00:47:26,660  
four five six and coordinates of

978  
00:47:31,760 --> 00:47:29,760  
latitude and longitude that intersect

979  
00:47:33,710 --> 00:47:31,770  
where these numbers are there's dot sir

980  
00:47:35,390 --> 00:47:33,720  
and it says these numbers the only

981  
00:47:40,460 --> 00:47:35,400  
problem is we don't know what those

982  
00:47:41,780 --> 00:47:40,470  
numbers correlate to these pages and

983  
00:47:43,790 --> 00:47:41,790  
then what it says

984  
00:47:46,670 --> 00:47:43,800  
the top written in cursive writing in

985  
00:47:48,380 --> 00:47:46,680  
the same hand as the guy who drew those

986  
00:47:50,930 --> 00:47:48,390  
maps and if you look in the upper

987  
00:47:53,900 --> 00:47:50,940  
right-hand corner of that map you'll see

988  
00:47:57,080 --> 00:47:53,910

a Sigma of three letters the personal

989

00:47:58,070 --> 00:47:57,090

Sigma of the guy who drew that map see

990

00:48:00,170 --> 00:47:58,080

ly

991

00:48:04,070 --> 00:48:00,180

at the top of these two pages is that

992

00:48:07,130 --> 00:48:04,080

same CL y and that and the heading says

993

00:48:11,620 --> 00:48:07,140

the explanation of the numbers on the

994

00:48:14,240 --> 00:48:11,630

eight maps well we only have four maps

995

00:48:17,390 --> 00:48:14,250

you know what that means there's still

996

00:48:17,870 --> 00:48:17,400

four out there I don't know where they

997

00:48:20,420 --> 00:48:17,880

are

998

00:48:25,130 --> 00:48:20,430

well anyway so now what it does it has

999

00:48:28,550 --> 00:48:25,140

numbers on page 1 1 through 19 and then

1000

00:48:32,170 --> 00:48:28,560

on the second page 20 through 24 then

1001

00:48:34,850 --> 00:48:32,180

there's a gap and then 30 and 31 and

1002

00:48:40,430 --> 00:48:34,860

written in French all of these are

1003

00:48:43,520 --> 00:48:40,440

written in block French are notes with

1004

00:48:47,030 --> 00:48:43,530

each number so those six numbers on the

1005

00:48:48,710 --> 00:48:47,040

nova scotia map I know what they stand

1006

00:48:51,560 --> 00:48:48,720

for I know what happened there

1007

00:48:56,930 --> 00:48:51,570

they're chronicling events that happen

1008

00:48:59,750 --> 00:48:56,940

on to subtly strip okay then on on seven

1009

00:49:02,870 --> 00:48:59,760

and eight we go to a different map

1010

00:49:07,430 --> 00:49:02,880

that's in my book that is the Cape Cod

1011

00:49:12,740 --> 00:49:07,440

map and then we keep going and then we

1012

00:49:15,610 --> 00:49:12,750

hit the southern Connecticut map but

1013

00:49:18,830 --> 00:49:15,620

then we have a series of six entries

1014

00:49:22,340 --> 00:49:18,840

that we don't have maps for those have

1015

00:49:24,490 --> 00:49:22,350

to correlate with the other two or three

1016

00:49:30,080 --> 00:49:24,500

or four other maps that we don't have

1017

00:49:32,740 --> 00:49:30,090

but then the entries 20 21 22 23 they

1018

00:49:37,790 --> 00:49:32,750

correlate with one of the maps that is

1019

00:49:39,560 --> 00:49:37,800

the Narragansett Bay man and then

1020

00:49:41,120 --> 00:49:39,570

there's one more entry and we go back

1021

00:49:43,670 --> 00:49:41,130

and it correlates to one of the other

1022

00:49:47,330 --> 00:49:43,680

maps that we do have but here's what's

1023

00:49:48,980 --> 00:49:47,340

really really important the events that

1024

00:49:51,890 --> 00:49:48,990

take place during the Sutter Lee's

1025

00:49:55,810 --> 00:49:51,900

voyage happened in the late 12th century

1026

00:49:58,520 --> 00:49:55,820

between 11777 eleven

1027

00:50:01,760 --> 00:49:58,530

the problem is throughout the whole

1028

00:50:05,270 --> 00:50:01,770

story that he tells in his deposition he

1029

00:50:07,250 --> 00:50:05,280

never talks about being on in the Cape

1030

00:50:10,790 --> 00:50:07,260

Cod area and he doesn't talk about

1031

00:50:14,210 --> 00:50:10,800

Narragansett Bay so I was confused to be

1032

00:50:17,000 --> 00:50:14,220

a went in for the last six years I have

1033

00:50:19,180 --> 00:50:17,010

assumed that those Maps correlated to

1034

00:50:25,930 --> 00:50:19,190

that journey I just didn't see how they

1035

00:50:28,730 --> 00:50:25,940

fit okay right so it's a disconnect but

1036

00:50:30,770 --> 00:50:28,740

there's an answer to the disconnect and

1037

00:50:33,620 --> 00:50:30,780

you're not going to believe what it is

1038

00:50:35,780 --> 00:50:33,630

and if you're going into commercial this

1039

00:50:38,180 --> 00:50:35,790

would be a good time to do it I want to

1040

00:50:41,450 --> 00:50:38,190

keep people hanging because I'm going to

1041

00:50:48,100 --> 00:50:41,460

tell you this Jim on the back of page

1042

00:50:51,500 --> 00:50:48,110

one there's another map in invisible ink

1043

00:50:55,460 --> 00:50:51,510

okay okay someone we're talking about we

1044

00:51:00,260 --> 00:50:55,470

all love treasure maps right we all love

1045

00:51:02,210 --> 00:51:00,270

them but in in as you're piecing this

1046

00:51:04,940 --> 00:51:02,220

together and you're looking at this what

1047

00:51:11,210 --> 00:51:04,950

do you think ultimately that these maps

1048

00:51:13,280 --> 00:51:11,220

indicate is it merely the mapping of the

1049

00:51:16,460 --> 00:51:13,290

area that they're traveling in and they

1050

00:51:18,980 --> 00:51:16,470

need to navigate and remember where

1051  
00:51:21,380 --> 00:51:18,990  
they're coming and going from or is it

1052  
00:51:23,930 --> 00:51:21,390  
something else more significant the

1053  
00:51:24,760 --> 00:51:23,940  
position of something they the hiding of

1054  
00:51:28,340 --> 00:51:24,770  
something

1055  
00:51:30,350 --> 00:51:28,350  
obviously the treasure all of the above

1056  
00:51:34,700 --> 00:51:30,360  
Jim all of the above

1057  
00:51:39,440 --> 00:51:34,710  
remember the whole story here is about

1058  
00:51:42,470 --> 00:51:39,450  
what they wanted to establish a New

1059  
00:51:45,890 --> 00:51:42,480  
Jerusalem in some cases they call it a

1060  
00:51:48,740 --> 00:51:45,900  
free Templar state a place where they

1061  
00:51:50,720 --> 00:51:48,750  
didn't have to worry about the Monarchs

1062  
00:51:52,580 --> 00:51:50,730  
of Europe and they're in their corrupt

1063  
00:51:54,290 --> 00:51:52,590

ways right they didn't have to worry

1064

00:51:56,600 --> 00:51:54,300

about the Roman Catholic Church and its

1065

00:51:58,120 --> 00:51:56,610

persecution and how the two working

1066

00:52:01,010 --> 00:51:58,130

consort with each other

1067

00:52:03,230 --> 00:52:01,020

legitimizing each other and promoting

1068

00:52:06,320 --> 00:52:03,240

the corruption that each would commit

1069

00:52:08,750 --> 00:52:06,330

against the people and who suffered from

1070

00:52:12,050 --> 00:52:08,760

that persecution for God's sakes

1071

00:52:13,700 --> 00:52:12,060

the the the poster child for persecution

1072

00:52:17,210 --> 00:52:13,710

by the church in the Monarchs of Europe

1073

00:52:19,040 --> 00:52:17,220

or the Knights Templar order they were

1074

00:52:22,100 --> 00:52:19,050

the ones that were the biggest threat to

1075

00:52:23,900 --> 00:52:22,110

them but what they didn't realize and

1076

00:52:27,470 --> 00:52:23,910

what we're now just starting to realize

1077

00:52:32,240 --> 00:52:27,480

is they had a grand plan for hundreds of

1078

00:52:35,330 --> 00:52:32,250

years to establish a new new sanctuary

1079

00:52:37,970 --> 00:52:35,340

over here and so what these records are

1080

00:52:39,800 --> 00:52:37,980

that this Cremona document is and other

1081

00:52:43,010 --> 00:52:39,810

things that we have yet to share with

1082

00:52:45,140 --> 00:52:43,020

you I can't share yet are these are the

1083

00:52:48,410 --> 00:52:45,150

secret documents of that the Templars

1084

00:52:52,160 --> 00:52:48,420

kept and the Cistercians preserve that

1085

00:52:54,200 --> 00:52:52,170

tell of that entire mission and just

1086

00:52:55,760 --> 00:52:54,210

like you said what else is preserved in

1087

00:52:58,490 --> 00:52:55,770

here besides the mapping well of course

1088

00:53:02,050 --> 00:52:58,500

they map the coastlines and the inland

1089

00:53:04,190 --> 00:53:02,060

areas and they got to know this land

1090

00:53:06,320 --> 00:53:04,200

extensively I mean they had to know

1091

00:53:08,540 --> 00:53:06,330

about you know where did where to

1092

00:53:10,760 --> 00:53:08,550

navigate where to go where the resources

1093

00:53:14,270 --> 00:53:10,770

were and more importantly probably than

1094

00:53:16,130 --> 00:53:14,280

anything is the people that were here

1095

00:53:18,710 --> 00:53:16,140

the indigenous people that were here

1096

00:53:22,940 --> 00:53:18,720

that they absolutely interacted with and

1097

00:53:25,610 --> 00:53:22,950

formed a strategic alliance with because

1098

00:53:28,070 --> 00:53:25,620

there's no way that anybody is going to

1099

00:53:29,960 --> 00:53:28,080

operate on this continent without the

1100

00:53:31,820 --> 00:53:29,970

support and the cooperation of the

1101  
00:53:34,790 --> 00:53:31,830  
indigenous people it's just not going to

1102  
00:53:37,250 --> 00:53:34,800  
happen and that is what these records

1103  
00:53:40,640 --> 00:53:37,260  
tell us and it's an amazing story it's

1104  
00:53:43,130 --> 00:53:40,650  
the incredible story it's the real story

1105  
00:53:45,080 --> 00:53:43,140  
about the history of the founding of

1106  
00:53:48,530 --> 00:53:45,090  
this nation and part of what I'm trying

1107  
00:53:52,010 --> 00:53:48,540  
to do here Jim is educate people with

1108  
00:53:54,320 --> 00:53:52,020  
documents science and facts about the

1109  
00:53:57,740 --> 00:53:54,330  
real history of what happened here

1110  
00:53:59,120 --> 00:53:57,750  
and probably now more than ever are the

1111  
00:54:01,670 --> 00:53:59,130  
people of this country need to

1112  
00:54:06,080 --> 00:54:01,680  
understand what the origins of this

1113  
00:54:08,180 --> 00:54:06,090

country truly are and were and so that I

1114

00:54:10,880 --> 00:54:08,190

feel is what this mission is all about

1115

00:54:11,690 --> 00:54:10,890

and I'm having so much damn fun I can't

1116

00:54:13,970 --> 00:54:11,700

stand it

1117

00:54:17,320 --> 00:54:13,980

people actually pay me to do this it's

1118

00:54:20,890 --> 00:54:17,330

amazing well Scott the

1119

00:54:23,730 --> 00:54:20,900

the the only thing that we can come away

1120

00:54:28,930 --> 00:54:23,740

from and you know we're talking about

1121

00:54:33,880 --> 00:54:28,940

1180 right 12th century 1180 yeah that

1122

00:54:37,480 --> 00:54:33,890

the travel across the Atlantic or around

1123

00:54:40,900 --> 00:54:37,490

the world was easy this was something

1124

00:54:44,830 --> 00:54:40,910

that was not a big deal I don't see

1125

00:54:47,860 --> 00:54:44,840

stress here right I see what's going on

1126

00:54:49,750 --> 00:54:47,870

a second on one hand you're right but on

1127

00:54:52,600 --> 00:54:49,760

the other hand you're not make no

1128

00:54:55,120 --> 00:54:52,610

mistake it was dangerous business okay

1129

00:54:58,000 --> 00:54:55,130

and then we see that in these documents

1130

00:55:00,720 --> 00:54:58,010

they lost ships they lost men all the

1131

00:55:04,720 --> 00:55:00,730

time I mean those first three numbers

1132

00:55:07,390 --> 00:55:04,730

one two three on on these comments here

1133

00:55:10,450 --> 00:55:07,400

they talk about a shipwreck to subtly

1134

00:55:13,050 --> 00:55:10,460

lost one of his ships and they had and

1135

00:55:17,440 --> 00:55:13,060

they scuttled it but it didn't deter

1136

00:55:18,310 --> 00:55:17,450

right you know when they were over in

1137

00:55:19,990 --> 00:55:18,320

Scotland

1138

00:55:22,060 --> 00:55:20,000

all right the rover in the United

1139

00:55:23,590 --> 00:55:22,070

Kingdom they're like okay well you know

1140

00:55:26,770 --> 00:55:23,600

what we got it we got to go over to

1141

00:55:29,980 --> 00:55:26,780

America and we're talking about in 1100

1142

00:55:32,980 --> 00:55:29,990

where this was something that they

1143

00:55:35,620 --> 00:55:32,990

jumped on a ship and went and did they

1144

00:55:38,020 --> 00:55:35,630

they weren't concerned about where they

1145

00:55:39,900 --> 00:55:38,030

were going to because they knew where

1146

00:55:44,280 --> 00:55:39,910

they were going to it wasn't absolutely

1147

00:55:46,810 --> 00:55:44,290

100% and that's not and and remember

1148

00:55:48,600 --> 00:55:46,820

they had been doing it for thousands of

1149

00:55:51,070 --> 00:55:48,610

years before that that's right

1150

00:55:53,160 --> 00:55:51,080

suddenly is going over to recover

1151  
00:55:55,420 --> 00:55:53,170  
documents that were brought over here

1152  
00:55:57,220 --> 00:55:55,430  
years earlier that's right had already

1153  
00:55:59,920 --> 00:55:57,230  
done this that's right so this is a

1154  
00:56:02,980 --> 00:55:59,930  
thousand years later that they're making

1155  
00:56:05,740 --> 00:56:02,990  
these trips and again it was not easy it

1156  
00:56:08,620 --> 00:56:05,750  
was dangerous and they lost lives but in

1157  
00:56:10,900 --> 00:56:08,630  
a way the mindset back then was

1158  
00:56:13,030 --> 00:56:10,910  
something you know akin to if you're on

1159  
00:56:14,950 --> 00:56:13,040  
a football team you know and you're

1160  
00:56:17,320 --> 00:56:14,960  
playing you're playing big boy football

1161  
00:56:20,170 --> 00:56:17,330  
or rugby or hockey or anything else I

1162  
00:56:21,940 --> 00:56:20,180  
mean you can go down right you can blow

1163  
00:56:23,140 --> 00:56:21,950

out a knee you can blow out a shoulder

1164

00:56:25,570 --> 00:56:23,150

you can get a concussion

1165

00:56:27,850 --> 00:56:25,580

this is collateral damage as part of the

1166

00:56:29,650 --> 00:56:27,860

game it's I'm not saying it's a good

1167

00:56:30,910 --> 00:56:29,660

thing but it's just it's just part of

1168

00:56:33,640 --> 00:56:30,920

the deal but

1169

00:56:35,559 --> 00:56:33,650

but for them part of the deal was they

1170

00:56:39,279 --> 00:56:35,569

could lose ships they could lose lives

1171

00:56:41,380 --> 00:56:39,289

they could lose everybody but it was it

1172

00:56:43,269 --> 00:56:41,390

was worth it to him and and they

1173

00:56:45,640 --> 00:56:43,279

understood that they realized the

1174

00:56:48,069 --> 00:56:45,650

dangers but they did it anyway and it's

1175

00:56:49,450 --> 00:56:48,079

it's incredible it's just it's something

1176

00:56:52,269 --> 00:56:49,460

that I just don't think people

1177

00:56:55,240 --> 00:56:52,279

comprehend today except for the people

1178

00:56:57,490 --> 00:56:55,250

that serve in our military right because

1179

00:57:00,460 --> 00:56:57,500

one of the things that you know could

1180

00:57:03,640 --> 00:57:00,470

happen when you sign up you might not

1181

00:57:05,259 --> 00:57:03,650

come home yeah sacrifice your limb right

1182

00:57:07,539 --> 00:57:05,269

this is fade to black our guest tonight

1183

00:57:09,309 --> 00:57:07,549

Scott Wolter I'm Merrill Stubing Church

1184

00:57:12,910 --> 00:57:09,319

we'll be right back after this short

1185

00:57:50,229 --> 00:57:47,540

[Music]

1186

00:57:52,670 --> 00:57:50,239

[Applause]

1187

00:57:54,229 --> 00:57:52,680

welcome back baby blood I am there

1188

00:57:57,349 --> 00:57:54,239

hosting the church you can become an

1189

00:58:00,019 --> 00:57:57,359

official fader not simple to do just go

1190

00:58:02,479 --> 00:58:00,029

to Jimmy Church radio calm click on the

1191

00:58:04,640 --> 00:58:02,489

membership section you can also gift a

1192

00:58:07,670 --> 00:58:04,650

membership now over at Jimmy Church

1193

00:58:09,469 --> 00:58:07,680

radio comm become a game changer today

1194

00:58:12,019 --> 00:58:09,479

over in our membership section our guest

1195

00:58:14,479 --> 00:58:12,029

tonight Scott Wolter and now Scott right

1196

00:58:16,279 --> 00:58:14,489

before the break you were teasing about

1197

00:58:21,620 --> 00:58:16,289

big reveal number two when it comes to

1198

00:58:25,579 --> 00:58:21,630

these two pages yes yes I did and you

1199

00:58:27,499 --> 00:58:25,589

know I'm just looking at I've got

1200

00:58:29,569 --> 00:58:27,509

printed out copies of a PowerPoint that

1201

00:58:32,420 --> 00:58:29,579

I put together it was the way I studied

1202

00:58:36,519 --> 00:58:32,430

this thing and tried to understand all

1203

00:58:39,499 --> 00:58:36,529

the the comments and and everything but

1204

00:58:41,569 --> 00:58:39,509

then when I got home from my trip you

1205

00:58:43,670 --> 00:58:41,579

know it was like the 23rd or something a

1206

00:58:46,309 --> 00:58:43,680

couple days before Christmas dawn sent

1207

00:58:49,459 --> 00:58:46,319

me an email and he said there's a

1208

00:58:51,920 --> 00:58:49,469

there's a map on the back of page one I

1209

00:58:56,120 --> 00:58:51,930

said what are you talking about and he

1210

00:58:59,150 --> 00:58:56,130

sent me a photograph and sure enough and

1211

00:59:04,069 --> 00:58:59,160

really this map on the back is the key

1212

00:59:06,680 --> 00:59:04,079

is is a huge piece to this puzzle of the

1213

00:59:08,420 --> 00:59:06,690

Cremona document and and I just need to

1214

00:59:11,809 --> 00:59:08,430

back up and tell you that you know there

1215

00:59:15,249 --> 00:59:11,819

are some other things that other pages

1216

00:59:18,609 --> 00:59:15,259

that are part of this document that have

1217

00:59:20,959 --> 00:59:18,619

secret maps on them and I haven't really

1218

00:59:22,579 --> 00:59:20,969

said much about him and I didn't write

1219

00:59:25,400 --> 00:59:22,589

about them too much I wrote about one of

1220

00:59:28,729 --> 00:59:25,410

them in my my latest book because it was

1221

00:59:31,430 --> 00:59:28,739

germane to the story that we tell but

1222

00:59:33,650 --> 00:59:31,440

there's a couple of other letters that

1223

00:59:36,259 --> 00:59:33,660

have secret maps that were that were

1224

00:59:38,689 --> 00:59:36,269

brought out with lemon juice and heat in

1225

00:59:40,999 --> 00:59:38,699

other words if you put lemon juice on

1226  
00:59:42,529 --> 00:59:41,009  
them the the ink that they use reacted

1227  
00:59:44,479 --> 00:59:42,539  
with the lemon juice that would be

1228  
00:59:46,640 --> 00:59:44,489  
brought out and then you would be able

1229  
00:59:48,439 --> 00:59:46,650  
to fixate it and get it to stay for a

1230  
00:59:51,019 --> 00:59:48,449  
while with with like a hairdryer or

1231  
00:59:54,709 --> 00:59:51,029  
something right well unfortunately one

1232  
00:59:56,689 --> 00:59:54,719  
of these maps they were they were they

1233  
00:59:59,150 --> 00:59:56,699  
they did this with now this was back in

1234  
01:00:02,180 --> 00:59:59,160  
the in the in the 70s and they were

1235  
01:00:03,500 --> 01:00:02,190  
taking pictures when their letters would

1236  
01:00:05,660 --> 01:00:03,510  
come out and the line

1237  
01:00:07,910 --> 01:00:05,670  
would come out on this map they took

1238  
01:00:10,670 --> 01:00:07,920

pictures but the problem was they had

1239

01:00:13,150 --> 01:00:10,680

the heater too close and it ignited and

1240

01:00:15,890 --> 01:00:13,160

the thing caught fire and burned out so

1241

01:00:17,600 --> 01:00:15,900

that one's gone but we do have the

1242

01:00:21,050 --> 01:00:17,610

photographs and one of the pictures

1243

01:00:23,750 --> 01:00:21,060

shows it literally on fire I mean it's

1244

01:00:26,210 --> 01:00:23,760

unbelievable and I'm like no but it

1245

01:00:28,460 --> 01:00:26,220

happened like almost 50 years ago you

1246

01:00:32,120 --> 01:00:28,470

know it's back in the early 70s but in

1247

01:00:35,840 --> 01:00:32,130

any case there are other ways of me of

1248

01:00:38,740 --> 01:00:35,850

creating invisible maps if you will and

1249

01:00:41,540 --> 01:00:38,750

the one that is on this particular page

1250

01:00:46,160 --> 01:00:41,550

didn't react to the lemon juice in heat

1251

01:00:49,760 --> 01:00:46,170

but it did react to backlight so Don's

1252

01:00:51,680 --> 01:00:49,770

picture was of the backlight image of

1253

01:00:56,060 --> 01:00:51,690

what was on the backside and what I

1254

01:00:59,390 --> 01:00:56,070

could see was even characters and a map

1255

01:01:01,100 --> 01:00:59,400

of a place and I can't tell you the

1256

01:01:03,140 --> 01:01:01,110

place oh yeah you can

1257

01:01:04,640 --> 01:01:03,150

whereas camp I love you I'm running

1258

01:01:05,660 --> 01:01:04,650

wares and you're really good at getting

1259

01:01:07,640 --> 01:01:05,670

stuff out of me

1260

01:01:10,160 --> 01:01:07,650

but I'm gonna stand firm I got a draw

1261

01:01:11,900 --> 01:01:10,170

the line hammer justice I love you to

1262

01:01:15,220 --> 01:01:11,910

death but I can't do it I know I know

1263

01:01:19,910 --> 01:01:15,230

I'm not asking for Google Earth

1264

01:01:23,390 --> 01:01:19,920  
coordinates so we can swarm the site but

1265

01:01:24,800 --> 01:01:23,400  
where where is it it's it's in North

1266

01:01:27,440 --> 01:01:24,810  
America on the east coast

1267

01:01:34,690 --> 01:01:27,450  
daddy will data will tell you so okay it

1268

01:01:39,350 --> 01:01:34,700  
could be anywhere from Florida to Maine

1269

01:01:41,120 --> 01:01:39,360  
that's that okay okay let's okay but are

1270

01:01:44,080 --> 01:01:41,130  
we talking about the northern East Coast

1271

01:01:46,700 --> 01:01:44,090  
it must be northern it's not southern

1272

01:01:48,860 --> 01:01:46,710  
you're gonna do 20 questions on you're

1273

01:01:52,760 --> 01:01:48,870  
gonna try to nail this down well I may

1274

01:02:00,470 --> 01:01:52,770  
have been born it okay so we know it's

1275

01:02:02,630 --> 01:02:00,480  
in we know it's in the Northeast but let

1276

01:02:04,340 --> 01:02:02,640

me just tell you what it says okay and

1277

01:02:08,210 --> 01:02:04,350

let me tell you what the revelation is

1278

01:02:11,990 --> 01:02:08,220

okay but is it on the coast or is it

1279

01:02:16,970 --> 01:02:12,000

inland well an island isn't on oh it's

1280

01:02:20,000 --> 01:02:16,980

an island in the Northeast okay okay

1281

01:02:24,410 --> 01:02:20,010

you did okay so it's an island but it's

1282

01:02:27,829 --> 01:02:24,420

not Oak Island of course no no no don't

1283

01:02:29,710 --> 01:02:27,839

go there okay anyway no absolutely not

1284

01:02:31,940 --> 01:02:29,720

no we're done talking about that now

1285

01:02:33,920 --> 01:02:31,950

let's talk about the first two lines

1286

01:02:35,349 --> 01:02:33,930

that are written in Stephen script and I

1287

01:02:37,940 --> 01:02:35,359

actually kind of know the Theban

1288

01:02:39,680 --> 01:02:37,950

alphabet pretty good by now and all of

1289

01:02:42,770 --> 01:02:39,690

these are a one-to-one letter

1290

01:02:45,530 --> 01:02:42,780

substitution so I did my best with this

1291

01:02:48,050 --> 01:02:45,540

picture but I was I I couldn't do it as

1292

01:02:51,260 --> 01:02:48,060

well don has the actual document I have

1293

01:02:54,079 --> 01:02:51,270

not seen this backside of the page yet

1294

01:02:56,329 --> 01:02:54,089

I've seen the front page but I did we

1295

01:02:58,940 --> 01:02:56,339

didn't know about the map until after he

1296

01:03:00,319 --> 01:02:58,950

went back home right so I never saw it I

1297

01:03:02,839 --> 01:03:00,329

didn't look at I didn't even think there

1298

01:03:04,460 --> 01:03:02,849

would be something on the backside when

1299

01:03:05,030 --> 01:03:04,470

you look at that we'll make that mistake

1300

01:03:07,220 --> 01:03:05,040

again

1301

01:03:09,260 --> 01:03:07,230

sure and when you look at the map does

1302

01:03:13,010 --> 01:03:09,270

it feel accurate to you

1303

01:03:15,500 --> 01:03:13,020

yep it feels accurate so it's not like

1304

01:03:18,650 --> 01:03:15,510

this map I know exactly where this is so

1305

01:03:20,690 --> 01:03:18,660

it's not like Long Island where it's not

1306

01:03:23,359 --> 01:03:20,700

really an island we're talking about an

1307

01:03:25,849 --> 01:03:23,369

island that is an actual Island Island

1308

01:03:27,770 --> 01:03:25,859

Long Island technically is an island I

1309

01:03:31,819 --> 01:03:27,780

mean technically it is but it's it's a

1310

01:03:35,750 --> 01:03:31,829

huge tract of land no it's not not that

1311

01:03:38,870 --> 01:03:35,760

so it's not Long Island no no no exactly

1312

01:03:41,839 --> 01:03:38,880

so it's got to be another fan having

1313

01:03:44,930 --> 01:03:41,849

said that it doesn't mean it couldn't be

1314

01:03:47,270 --> 01:03:44,940

one of the islands on the northern end

1315

01:03:49,819 --> 01:03:47,280

of longtime bunch of islands up there

1316

01:03:53,300 --> 01:03:49,829

right so we know it's north of Long

1317

01:04:03,829 --> 01:03:53,310

Island then okay yeah we do we do we're

1318

01:04:07,160 --> 01:04:03,839

getting close okay actually do want to

1319

01:04:09,470 --> 01:04:07,170

know what it says okay here we go you

1320

01:04:13,010 --> 01:04:09,480

ready yes so the first two lines say

1321

01:04:14,950 --> 01:04:13,020

this the place where we deposit the

1322

01:04:19,280 --> 01:04:14,960

treasure of the Poor Knights of Christ

1323

01:04:22,010 --> 01:04:19,290

say that again the place where we

1324

01:04:25,490 --> 01:04:22,020

deposit the treasure of the Poor Knights

1325

01:04:29,470 --> 01:04:25,500

of Christ okay now what's interesting

1326

01:04:33,940 --> 01:04:29,480

about this is this is a parent

1327

01:04:36,040 --> 01:04:33,950

what they called themselves they didn't

1328

01:04:37,750 --> 01:04:36,050

call themselves the Templars right now

1329

01:04:40,690 --> 01:04:37,760

in other documents they call themselves

1330

01:04:42,609 --> 01:04:40,700

the Templar II but in this case they

1331

01:04:47,560 --> 01:04:42,619

call them it's almost like a formal name

1332

01:04:50,710 --> 01:04:47,570

poor Knights of Christ that in itself is

1333

01:04:53,380 --> 01:04:50,720

really a big deal

1334

01:04:58,170 --> 01:04:53,390

well okay can we stop there for a second

1335

01:05:05,620 --> 01:04:58,180

yeah there are when we look at that

1336

01:05:07,980 --> 01:05:05,630

style of titling it reminds me of you

1337

01:05:12,510 --> 01:05:07,990

know what was going on in Malta or

1338

01:05:15,040 --> 01:05:12,520

Portugal or in India right different

1339

01:05:16,540 --> 01:05:15,050

branches of the Knights Templar around

1340

01:05:19,210 --> 01:05:16,550

the world is that what we're dealing

1341

01:05:21,220 --> 01:05:19,220

with well I think so I think that's a

1342

01:05:23,920 --> 01:05:21,230

really good point that you make that you

1343

01:05:27,520 --> 01:05:23,930

know depending on where you are you were

1344

01:05:31,510 --> 01:05:27,530

in Europe or in the Mediterranean region

1345

01:05:34,150 --> 01:05:31,520

right you know factions of what are the

1346

01:05:36,340 --> 01:05:34,160

same order called themselves something

1347

01:05:38,200 --> 01:05:36,350

slightly different like in Portugal they

1348

01:05:41,710 --> 01:05:38,210

were the order of Christ that's right

1349

01:05:44,410 --> 01:05:41,720

right right and so so yeah they had

1350

01:05:46,000 --> 01:05:44,420

slightly different ways that you know

1351

01:05:48,580 --> 01:05:46,010

that they would think that they would

1352

01:05:50,440 --> 01:05:48,590

call themselves and I really haven't

1353

01:05:52,090 --> 01:05:50,450

looked into that in any detail now let

1354

01:05:53,890 --> 01:05:52,100

me just back up for just a second so you

1355

01:05:55,720 --> 01:05:53,900

understand because some people are going

1356

01:05:59,320 --> 01:05:55,730

it says the port you know the place for

1357

01:06:03,190 --> 01:05:59,330

the deposits and treasure if the Theban

1358

01:06:05,680 --> 01:06:03,200

translated into french and then it was

1359

01:06:07,890 --> 01:06:05,690

translated into English so this is this

1360

01:06:11,520 --> 01:06:07,900

would be a modern vernacular of the

1361

01:06:16,870 --> 01:06:11,530

French that was probably a you know

1362

01:06:18,310 --> 01:06:16,880

1850s 1860s okay so for the academics

1363

01:06:20,380 --> 01:06:18,320

out there that are that are turning

1364

01:06:24,460 --> 01:06:20,390

their nose up to this no this is one to

1365

01:06:26,710 --> 01:06:24,470

one in English this is into 19th century

1366

01:06:29,710 --> 01:06:26,720

French and then into modern English okay

1367

01:06:32,620 --> 01:06:29,720

so just so everybody understands this is

1368

01:06:35,410 --> 01:06:32,630

what it says after we do all those

1369

01:06:39,490 --> 01:06:35,420

translations makes sense

1370

01:06:43,710 --> 01:06:39,500

it does it does and what okay so where

1371

01:06:48,160 --> 01:06:45,910

there's a night okay

1372

01:06:51,310 --> 01:06:48,170

okay well let's get to that but the

1373

01:06:53,470 --> 01:06:51,320

night's don't get mad at me there's two

1374

01:06:55,270 --> 01:06:53,480

more things that are on this back side

1375

01:06:57,400 --> 01:06:55,280

of secret information

1376

01:07:00,310 --> 01:06:57,410

besides the map I can't tell you about

1377

01:07:02,260 --> 01:07:00,320

there is also some information on the

1378

01:07:04,060 --> 01:07:02,270

bottom that gives us location

1379

01:07:06,760 --> 01:07:04,070

information obviously I can't tell you

1380

01:07:09,010 --> 01:07:06,770

that but there's something else on here

1381

01:07:12,700 --> 01:07:09,020

that is probably the most important

1382

01:07:15,640 --> 01:07:12,710

thing that helps put all of this into

1383

01:07:17,200 --> 01:07:15,650

context finally for me and you'll

1384

01:07:20,109 --> 01:07:17,210

understand what I'm talking about when I

1385

01:07:22,300 --> 01:07:20,119

tell you remember I said we have we know

1386

01:07:26,920 --> 01:07:22,310

we have four Maps apparently of eight

1387

01:07:29,589 --> 01:07:26,930

and we don't have four others two of the

1388

01:07:31,359 --> 01:07:29,599

four maps that we have absolutely and

1389

01:07:34,510 --> 01:07:31,369

the comments that are on these two pages

1390

01:07:37,990 --> 01:07:34,520

are directly related to the voyage of

1391

01:07:40,540 --> 01:07:38,000

Ralph - subtly and what he did here at

1392

01:07:43,660 --> 01:07:40,550

the temple and then you know how he got

1393

01:07:46,150 --> 01:07:43,670

out of here no question about it

1394

01:07:47,770 --> 01:07:46,160

the other two maps don't correlate at

1395

01:07:49,720 --> 01:07:47,780

all with that story he doesn't go

1396

01:07:52,270 --> 01:07:49,730

anywhere near those places he doesn't

1397

01:07:55,270 --> 01:07:52,280

talk about him what the hell are they

1398

01:07:58,329 --> 01:07:55,280

doing here that is that was my question

1399

01:08:01,540 --> 01:07:58,339

so I for a long time I assumed because

1400

01:08:05,260 --> 01:08:01,550

the date on the one map is 1179 that

1401

01:08:07,240 --> 01:08:05,270

those other two maps must correlate with

1402

01:08:10,030 --> 01:08:07,250

the other two right so they all have to

1403

01:08:12,760 --> 01:08:10,040

be from that time period well guess what

1404

01:08:16,720 --> 01:08:12,770

hmm you know what the date is on this

1405

01:08:20,440 --> 01:08:16,730

secret map here do you know how to do

1406

01:08:22,510 --> 01:08:20,450

roman numbers oh yeah okay so you know

1407

01:08:24,519 --> 01:08:22,520

what Jim every time you and I get

1408

01:08:26,380 --> 01:08:24,529

together you're always asking me the

1409

01:08:28,059 --> 01:08:26,390

questions now I'm going to put one to

1410

01:08:30,190 --> 01:08:28,069

you you're going to do the work here for

1411

01:08:33,999 --> 01:08:30,200

us okay okay I'll write this down and

1412

01:08:45,780 --> 01:08:34,009

you tell me the year okay okay ready yep

1413

01:08:53,110 --> 01:08:45,790

M si si si l x.v

1414

01:08:54,459 --> 01:08:53,120

1 1 1 what year is that okay uh let me

1415

01:08:56,200 --> 01:08:54,469

see if I can figure this out

1416

01:09:09,420 --> 01:08:56,210

I'm gonna guess and say

1417

01:09:15,160 --> 01:09:09,430

a 1968 no you're off by 600 years okay

1418

01:09:17,590 --> 01:09:15,170

MC adding MC is 100 right L is 50

1419

01:09:22,660 --> 01:09:17,600

all right Thank You Sen I thought you

1420

01:09:29,410 --> 01:09:22,670

said MC m l x.v you don't know I look MC

1421

01:09:33,220 --> 01:09:29,420

c c LX o MC c l okay sorry about that

1422

01:09:43,740 --> 01:09:33,230

okay hold on for a second so it's m CC c

1423

01:09:48,760 --> 01:09:43,750

LX v 1 1 1 1 1 1 1 okay hmm

1424

01:09:55,050 --> 01:09:48,770

okay I am going to say Dave I said 1 1

1425

01:09:58,750 --> 01:09:55,060

one's got to be 1/8 1368 you got it now

1426

01:10:02,700 --> 01:09:58,760

what does that mean that is not anywhere

1427

01:10:05,979 --> 01:10:02,710

near 11 1779

1428

01:10:10,240 --> 01:10:05,989

that's almost two centuries later right

1429

01:10:15,340 --> 01:10:10,250

but predates Columbus by 50 years it

1430

01:10:18,790 --> 01:10:15,350

does nobody right right but there's more

1431

01:10:21,510 --> 01:10:18,800

that I haven't told you about I have one

1432

01:10:23,800 --> 01:10:21,520

more big reveal here Eddie

1433

01:10:36,880 --> 01:10:23,810

you're getting so much stuff should we

1434

01:10:37,660 --> 01:10:36,890

save this for the next show no ok all

1435

01:10:40,270 --> 01:10:37,670

right here we go

1436

01:10:44,010 --> 01:10:40,280

so let's go back to that Narragansett

1437

01:10:49,209 --> 01:10:44,020

Bay map do you remember the last episode

1438

01:10:52,209 --> 01:10:49,219

that we did this year so and tracking

1439

01:10:54,610 --> 01:10:52,219

the Templars oh that's right yes and we

1440

01:10:58,150 --> 01:10:54,620

went we went up to Newfoundland and we

1441

01:10:59,979 --> 01:10:58,160

found that haystack inscription that had

1442

01:11:02,350 --> 01:10:59,989

the triple barred cross that's right

1443

01:11:05,080 --> 01:11:02,360

then we went Scotland and we found we

1444

01:11:07,180 --> 01:11:05,090

went into Wemyss caves and we found

1445

01:11:10,090 --> 01:11:07,190

another triple barred cross the exact

1446

01:11:12,460 --> 01:11:10,100

same triple barred cross

1447

01:11:15,460 --> 01:11:12,470

and then we went to Newport Rhode Island

1448

01:11:18,670 --> 01:11:15,470

and we found that in hoc Signo Vincas

1449

01:11:19,540 --> 01:11:18,680

dong mm-hmm first time we revealed that

1450

01:11:21,580 --> 01:11:19,550

on television

1451

01:11:24,130 --> 01:11:21,590

that's right at the two-to-one ratio

1452

01:11:26,140 --> 01:11:24,140

right the block the block Latin that

1453

01:11:27,970 --> 01:11:26,150

said in hoc which happens to be that bad

1454

01:11:31,330 --> 01:11:27,980

will cry of the Knights Templar that's

1455

01:11:34,960 --> 01:11:31,340

right okay if you do you have a copy of

1456

01:11:36,520 --> 01:11:34,970

my book handy not here okay well when

1457

01:11:40,900 --> 01:11:36,530

you get home I want you to look at the

1458

01:11:43,060 --> 01:11:40,910

Narragansett Bay map and there's two

1459

01:11:47,340 --> 01:11:43,070

horizontal lines at the southern part of

1460

01:11:52,840 --> 01:11:47,350

the map and on it it says vingt une

1461

01:11:58,330 --> 01:11:52,850

vingt dis vingt wha twenty twenty-one

1462

01:12:01,390 --> 01:11:58,340

twenty-two and twenty-three twenty-two

1463

01:12:04,180 --> 01:12:01,400

comment in the new page that we just got

1464

01:12:06,790 --> 01:12:04,190

says the storm pushes the boat to land

1465

01:12:09,850 --> 01:12:06,800

among many islands this is dangerous

1466

01:12:13,690 --> 01:12:09,860

again this is English translated from

1467

01:12:16,360 --> 01:12:13,700

French okay eighteen 1800s era French

1468

01:12:18,610 --> 01:12:16,370

this is the translation Don and I each

1469

01:12:20,200 --> 01:12:18,620

do their own translations and we pulled

1470

01:12:25,420 --> 01:12:20,210

them together and this is what we got

1471

01:12:27,220 --> 01:12:25,430

okay that's 20 and that's if you look at

1472

01:12:32,290 --> 01:12:27,230

this map there's small islands all

1473

01:12:34,960 --> 01:12:32,300

through Narragansett Bay 21 that point

1474

01:12:40,350 --> 01:12:34,970

right there you'll see it on the map

1475

01:12:46,870 --> 01:12:40,360

it says Shoals here three fathoms

1476

01:12:49,690 --> 01:12:46,880

you know where that dot is exactly where

1477

01:12:53,530 --> 01:12:49,700

on that shore is the in hoc Signo Vincens

1478

01:12:55,990 --> 01:12:53,540

stone really i crap you not I'm telling

1479

01:12:58,120 --> 01:12:56,000

you right now and guess what I went

1480

01:13:00,790 --> 01:12:58,130

online the other day and I looked at the

1481

01:13:03,310 --> 01:13:00,800

isobars up depth right off the coast

1482

01:13:08,190 --> 01:13:03,320

there and you know what the first isobar

1483

01:13:12,160 --> 01:13:08,200

is 17.7 feet you know what that is

1484

01:13:21,250 --> 01:13:12,170

three fathoms what is the closest city

1485

01:13:23,590 --> 01:13:21,260

to that to that shale newport so the

1486

01:13:26,800 --> 01:13:23,600

string of I okay is it gardeners I

1487

01:13:28,120 --> 01:13:26,810

and no it's on them it's on Aqueduct

1488

01:13:33,240 --> 01:13:28,130

islands on the big island

1489

01:13:35,860 --> 01:13:33,250

no I'm talking about the secret map oh I

1490

01:13:38,200 --> 01:13:35,870

can neither confirm nor deny

1491

01:13:42,250 --> 01:13:38,210

so it's you know because you have

1492

01:13:46,240 --> 01:13:42,260

Robin's Island tap once if it's yes tap

1493

01:13:48,730 --> 01:13:46,250

two of us no Robins Robins I landed yeah

1494

01:13:51,550 --> 01:13:48,740

rapid warned with it

1495

01:13:53,860 --> 01:13:51,560

Warner Islands yeah patter Squasher I

1496

01:13:58,050 --> 01:13:53,870

can't give it up Jim like come on I mean

1497

01:14:00,610 --> 01:13:58,060

come on would you give it up man

1498

01:14:02,770 --> 01:14:00,620

this is fun though it's fun

1499

01:14:06,730 --> 01:14:02,780

Ill think it's I think it's garden I

1500

01:14:08,460 --> 01:14:06,740

think it's Gardiner's Island okay so

1501  
01:14:09,640 --> 01:14:08,470  
what about twenty-two and twenty-three

1502  
01:14:12,400 --> 01:14:09,650  
okay

1503  
01:14:15,880 --> 01:14:12,410  
twenty-two and you know twenty-two is a

1504  
01:14:18,820 --> 01:14:15,890  
sacred number okay now no I

1505  
01:14:23,050 --> 01:14:18,830  
it just indulge me for a second if you

1506  
01:14:26,230 --> 01:14:23,060  
will because because twenty-two is such

1507  
01:14:29,260 --> 01:14:26,240  
an important entry and think about it in

1508  
01:14:30,580 --> 01:14:29,270  
context of the date that we just came up

1509  
01:14:33,580 --> 01:14:30,590  
with okay

1510  
01:14:38,170 --> 01:14:33,590  
I will just say this what this is about

1511  
01:14:41,160 --> 01:14:38,180  
where this dot is for twenty-two is

1512  
01:14:44,710 --> 01:14:41,170  
exactly where the Newport tower is okay

1513  
01:14:46,900 --> 01:14:44,720

so when I saw this prior to a few days

1514

01:14:48,610 --> 01:14:46,910

ago when I got this final translation

1515

01:14:51,670 --> 01:14:48,620

when Don and I settled on the

1516

01:14:55,750 --> 01:14:51,680

translation right the problem that I've

1517

01:14:58,750 --> 01:14:55,760

had is that dot being where the Newport

1518

01:15:01,030 --> 01:14:58,760

towers doesn't make any sense in the

1519

01:15:04,690 --> 01:15:01,040

Cremona document because it's the end of

1520

01:15:07,750 --> 01:15:04,700

the 12th century and for 15 years now

1521

01:15:11,880 --> 01:15:07,760

I'd been saying for good reason that the

1522

01:15:15,600 --> 01:15:11,890

tower was probably built around 1400

1523

01:15:18,490 --> 01:15:15,610

this is a problem this map is a problem

1524

01:15:23,710 --> 01:15:18,500

because it because it means I'm wrong by

1525

01:15:27,820 --> 01:15:23,720

over two hundred years but guess what

1526

01:15:30,310 --> 01:15:27,830

what I was wrong well because I assumed

1527

01:15:33,520 --> 01:15:30,320

that this map was contemporaneous with

1528

01:15:37,180 --> 01:15:33,530

the other maps and it's not well okay

1529

01:15:40,450 --> 01:15:37,190

Lee it's related to

1530

01:15:41,950 --> 01:15:40,460

- the 1368 date okay

1531

01:15:43,780 --> 01:15:41,960

now yours where it's going to get really

1532

01:15:45,430 --> 01:15:43,790

fun I'll listen to this okay ready

1533

01:15:47,350 --> 01:15:45,440

well I want to go back to the Newport

1534

01:15:50,020 --> 01:15:47,360

tower we got it I want to go back to

1535

01:15:52,870 --> 01:15:50,030

jail okay okay good what do you want to

1536

01:15:56,560 --> 01:15:52,880

say about the tower go ahead No when you

1537

01:15:59,640 --> 01:15:56,570

say that 22 marks the exact spot of the

1538

01:16:02,890 --> 01:15:59,650

Newport tower now we're going into

1539

01:16:05,050 --> 01:16:02,900

fantastic land fantastical right the

1540

01:16:07,810 --> 01:16:05,060

coincidence beside of this no this is

1541

01:16:10,570 --> 01:16:07,820

like like orgasmatron land right it was

1542

01:16:11,050 --> 01:16:10,580

exactly as it gets and there's nothing

1543

01:16:13,480 --> 01:16:11,060

better

1544

01:16:17,650 --> 01:16:13,490

that's right me I when I read this I was

1545

01:16:21,090 --> 01:16:17,660

almost weeping seriously so just sit

1546

01:16:30,460 --> 01:16:21,100

back and enjoy this because it's so good

1547

01:16:34,330 --> 01:16:30,470

ready yep okay the observatory is built

1548

01:16:37,090 --> 01:16:34,340

here the hut of the day observers is on

1549

01:16:39,550 --> 01:16:37,100

the right and the night observers on the

1550

01:16:42,550 --> 01:16:39,560

left the field of measurements

1551

01:16:44,980 --> 01:16:42,560

surrounded by a stone wall separated

1552

01:16:50,110 --> 01:16:44,990

them from numerous slabs and wooden

1553

01:17:02,050 --> 01:16:50,120

poles Henry remains here to oversee the

1554

01:17:05,320 --> 01:17:02,060

construction man okay so you know what's

1555

01:17:06,940 --> 01:17:05,330

going on right well laying out the

1556

01:17:09,300 --> 01:17:06,950

alignment they're laying out the

1557

01:17:13,840 --> 01:17:09,310

alignment and they're also naming names

1558

01:17:17,830 --> 01:17:13,850

yeah they are and installed H E and RI

1559

01:17:20,680 --> 01:17:17,840

okay now when we get okay so just for

1560

01:17:25,660 --> 01:17:20,690

grins I'm not gonna say it out loud who

1561

01:17:28,240 --> 01:17:25,670

is Henry I don't know here's the place

1562

01:17:31,930 --> 01:17:28,250

there's the reality okay he is in plans

1563

01:17:33,520 --> 01:17:31,940

to be well it does and there's reasons

1564

01:17:35,290 --> 01:17:33,530

why I'm saying that that I really can't

1565

01:17:39,130 --> 01:17:35,300

go into right now because it'll reveal

1566

01:17:42,280 --> 01:17:39,140

too much but it does relate to that 1368

1567

01:17:44,980 --> 01:17:42,290

date which is perfect for Team Sky right

1568

01:17:50,350 --> 01:17:44,990

okay right right I borrowed that line

1569

01:17:55,240 --> 01:17:52,780

Jason Sudeikis on the drug mission and

1570

01:17:59,589 --> 01:17:55,250

he shows up to this well this is a big

1571

01:18:03,520 --> 01:17:59,599

win for Team Brad yes okay that's

1572

01:18:05,140 --> 01:18:03,530

actually a funny scene and some funny

1573

01:18:10,030 --> 01:18:05,150

scent and some funny said anyway the

1574

01:18:13,870 --> 01:18:10,040

point is is that 1368 is perfect for

1575

01:18:17,290 --> 01:18:13,880

another reason the Kensington Runestone

1576

01:18:22,720 --> 01:18:17,300

what's the date on that Jim okay I wait

1577

01:18:26,709 --> 01:18:22,730

a minute now okay the the the critics

1578

01:18:29,169 --> 01:18:26,719

out there at this point when things are

1579

01:18:31,629 --> 01:18:29,179

lining up like they are they are going

1580

01:18:34,060 --> 01:18:31,639

to go all come on Scott now you're

1581

01:18:36,089 --> 01:18:34,070

reaching no I'm not Rican dude the

1582

01:18:39,569 --> 01:18:36,099

data's right here you don't like it I

1583

01:18:41,770 --> 01:18:39,579

don't want to hear anything from them

1584

01:18:44,140 --> 01:18:41,780

unless they have something to contribute

1585

01:18:46,689 --> 01:18:44,150

if you don't like it then shut your

1586

01:18:49,629 --> 01:18:46,699

mouth listen to you guys for 20 years

1587

01:18:51,550 --> 01:18:49,639

you got nothing to offer the data the

1588

01:18:53,439 --> 01:18:51,560

data the results of the results and I'm

1589

01:18:56,140 --> 01:18:53,449

sorry if I'm getting pissed off but I

1590

01:18:58,810 --> 01:18:56,150

dealt with those universe for a long

1591

01:19:00,580 --> 01:18:58,820

time the bottom line is is look you want

1592

01:19:03,189 --> 01:19:00,590

to interpret this a different way you go

1593

01:19:05,379 --> 01:19:03,199

right ahead so the data is the data this

1594

01:19:08,229 --> 01:19:05,389

what I read to you is what it is right a

1595

01:19:09,609 --> 01:19:08,239

map is the map and I'm sorry if you

1596

01:19:12,040 --> 01:19:09,619

don't like it but that's the way it is

1597

01:19:15,189 --> 01:19:12,050

that's right well see this is the thing

1598

01:19:18,250 --> 01:19:15,199

and what is most important here Scott

1599

01:19:21,370 --> 01:19:18,260

when when somebody says give me the

1600

01:19:24,850 --> 01:19:21,380

evidence but whatever and then you you

1601

01:19:27,910 --> 01:19:24,860

have corresponding dates you have things

1602

01:19:30,040 --> 01:19:27,920

that line up you have names you have the

1603

01:19:32,260 --> 01:19:30,050

maps you have the documents you have

1604

01:19:34,899 --> 01:19:32,270

everything that only points and what you

1605

01:19:40,569 --> 01:19:34,909

have physical structures you have the

1606

01:19:42,280 --> 01:19:40,579

the megalithic carvings in stone and I'm

1607

01:19:43,180 --> 01:19:42,290

talking about what's going on the hell

1608

01:19:45,220 --> 01:19:43,190

more do you want

1609

01:19:47,410 --> 01:19:45,230

that's right and then just laid it all

1610

01:19:50,859 --> 01:19:47,420

out there and what's beautiful about

1611

01:19:53,350 --> 01:19:50,869

this is it's all consistent it's all

1612

01:19:56,530 --> 01:19:53,360

tying together now even some of the

1613

01:19:59,020 --> 01:19:56,540

assumptions I made I was proven wrong by

1614

01:20:02,020 --> 01:19:59,030

new information that came in and guess

1615

01:20:03,609 --> 01:20:02,030

what freaking stuff lines up beautifully

1616

01:20:06,159 --> 01:20:03,619

and you know what what do you

1617

01:20:07,779 --> 01:20:06,169

for me and here's the thing that I've

1618

01:20:08,560 --> 01:20:07,789

learned cuz I've done forensics for a

1619

01:20:12,219 --> 01:20:08,570

long time

1620

01:20:14,020 --> 01:20:12,229

that's all I've done every day for 35

1621

01:20:16,169 --> 01:20:14,030

years and you know what Jim I'm pretty

1622

01:20:20,649 --> 01:20:16,179

good at it okay

1623

01:20:24,669 --> 01:20:20,659

everything must line up it has to line

1624

01:20:25,389 --> 01:20:24,679

up if it's true and you know what I'll

1625

01:20:27,250 --> 01:20:25,399

be damned

1626  
01:20:30,009 --> 01:20:27,260  
that's exactly what's happening and it's

1627  
01:20:32,469 --> 01:20:30,019  
beautiful and it's confirming the work

1628  
01:20:35,169 --> 01:20:32,479  
we've done in the back in the past it

1629  
01:20:37,810 --> 01:20:35,179  
look the Runestone is it was a done deal

1630  
01:20:39,909 --> 01:20:37,820  
a long time ago and now it comes into

1631  
01:20:42,819 --> 01:20:39,919  
play and it's important and I'll tell

1632  
01:20:45,669 --> 01:20:42,829  
you why because remember that alignment

1633  
01:20:49,449 --> 01:20:45,679  
that we had in the first documentary we

1634  
01:20:51,699 --> 01:20:49,459  
ever did back in 2009 Holy Grail in

1635  
01:20:54,129 --> 01:20:51,709  
America I had just discovered that

1636  
01:20:57,100 --> 01:20:54,139  
long-range alignment the Newport Tower

1637  
01:20:59,709 --> 01:20:57,110  
mm-hmm did the Kensington Runestone

1638  
01:21:02,560 --> 01:20:59,719

and the question that I asked in my new

1639

01:21:05,139 --> 01:21:02,570

book which came first was the rune stone

1640

01:21:07,629 --> 01:21:05,149

planted and then somehow they got word

1641

01:21:09,850 --> 01:21:07,639

to the Newport tower guys and they made

1642

01:21:11,500 --> 01:21:09,860

the alignment or the the power guys

1643

01:21:13,000 --> 01:21:11,510

built it and then they followed the

1644

01:21:17,159 --> 01:21:13,010

alignment they put the stone where they

1645

01:21:23,469 --> 01:21:17,169

had to I think we now know what happened

1646

01:21:28,089 --> 01:21:23,479

the dates tell us 13 62 13 68 that's

1647

01:21:31,299 --> 01:21:28,099

only six years later six years how long

1648

01:21:33,040 --> 01:21:31,309

would it take for one or two guys who

1649

01:21:35,560 --> 01:21:33,050

plotted the coordinates of where they

1650

01:21:38,339 --> 01:21:35,570

put the Kensington Runestone to travel

1651

01:21:41,290 --> 01:21:38,349

with their native indigenous brothers

1652

01:21:43,029 --> 01:21:41,300

back to the east coast to the settlement

1653

01:21:45,489 --> 01:21:43,039

that they must have known was there and

1654

01:21:48,399 --> 01:21:45,499

said hey guess what we put the land

1655

01:21:51,790 --> 01:21:48,409

claim right here and they incorporated

1656

01:21:55,449 --> 01:21:51,800

those alignments into the tower and boom

1657

01:21:58,869 --> 01:21:55,459

it lines up you can't make it up the

1658

01:22:00,609 --> 01:21:58,879

data all fits it's a done deal baby I'm

1659

01:22:03,159 --> 01:22:00,619

gonna write about it the next book you

1660

01:22:05,589 --> 01:22:03,169

heard it here first on fade to black

1661

01:22:08,439 --> 01:22:05,599

we're not done let's take a break right

1662

01:22:09,919 --> 01:22:08,449

here Scott Wolter that's what I'm

1663

01:22:12,140 --> 01:22:09,929

talking about the passion

1664

01:22:13,700 --> 01:22:12,150

this is fade to black I'm yours Jimmy

1665

01:22:16,520 --> 01:22:13,710

Church follow me on twitter at a church

1666

01:22:19,310 --> 01:22:16,530

radio you can follow Scott at real Scott

1667

01:22:20,630 --> 01:22:19,320

Wolter right there on Twitter we'll be

1668

01:22:32,330 --> 01:22:20,640

right back after this short break

1669

01:22:34,260 --> 01:22:32,340

[Music]

1670

01:22:38,370 --> 01:22:34,270

welcome back fade to black

1671

01:22:40,940 --> 01:22:38,380

I am your host Jimmy Church autumn

1672

01:22:44,100 --> 01:22:40,950

remind everybody June 26 and 27

1673

01:22:46,229 --> 01:22:44,110

2020 we're heading over to Europe we're

1674

01:22:48,540 --> 01:22:46,239

going to Manchester United Kingdom for

1675

01:22:51,450 --> 01:22:48,550

the awakening conference just go to

1676

01:22:54,180 --> 01:22:51,460

awakening UFO calm the links are at

1677

01:22:56,580 --> 01:22:54,190

Jimmy Church radio now Scott we've got

1678

01:23:01,200 --> 01:22:56,590

to over-unders going with you tonight

1679

01:23:03,420 --> 01:23:01,210

and the first one is the I can't tell

1680

01:23:05,310 --> 01:23:03,430

you it's a secret the over-and-under was

1681

01:23:10,110 --> 01:23:05,320

you were gonna say it four times we got

1682

01:23:13,979 --> 01:23:10,120

two three so so and the other over/under

1683

01:23:18,690 --> 01:23:13,989

is Nantucket and the the good money is

1684

01:23:20,729 --> 01:23:18,700

Nantucket Island right now yeah so it's

1685

01:23:33,720 --> 01:23:20,739

not man Tucket okay so we can take

1686

01:23:42,560 --> 01:23:33,730

Nantucket off the list how many islands

1687

01:23:45,360 --> 01:23:42,570

there are in these goes yes and you know

1688

01:23:49,820 --> 01:23:45,370

don't forget their barrier islands down

1689

01:23:51,120 --> 01:23:49,830

in the south and it's anyway so I

1690

01:23:52,890 --> 01:23:51,130

digress

1691

01:23:54,060 --> 01:23:52,900

what do you think about that big reveal

1692

01:23:57,030 --> 01:23:54,070

and what do you think about the

1693

01:23:59,070 --> 01:23:57,040

Kensington okay son I love this

1694

01:23:59,520 --> 01:23:59,080

alignment I love this thesis it makes

1695

01:24:01,500 --> 01:23:59,530

sense

1696

01:24:03,690 --> 01:24:01,510

and there's other reasons why it makes

1697

01:24:04,950 --> 01:24:03,700

sense and I know this is terrible to do

1698

01:24:06,390 --> 01:24:04,960

this to you because I got to get to

1699

01:24:08,729 --> 01:24:06,400

number four might as well just get it

1700

01:24:11,729 --> 01:24:08,739

done now okay all right there are some

1701

01:24:14,640 --> 01:24:11,739

other things there's other information

1702

01:24:19,530 --> 01:24:14,650

we have that we have not revealed and it

1703

01:24:24,860 --> 01:24:19,540

supports this okay do we get to do we

1704

01:24:28,650 --> 01:24:24,870

get to 23 oh good no we did not okay

1705

01:24:31,920 --> 01:24:28,660

23 is not as exciting but there's a dot

1706

01:24:34,160 --> 01:24:31,930

on the west side of aqueduct and it says

1707

01:24:36,900 --> 01:24:34,170

freshwater stream here deep water

1708

01:24:39,990 --> 01:24:36,910

passage in the canal and it turns out

1709

01:24:44,339 --> 01:24:40,000

the isobar depths over on the other side

1710

01:24:46,560 --> 01:24:44,349

of the island are very deep so

1711

01:24:48,600 --> 01:24:46,570

but you know you got to think about it

1712

01:24:50,729 --> 01:24:48,610

in context at that time I mean these

1713

01:24:52,560 --> 01:24:50,739

guys are sailors right this is important

1714

01:24:55,259 --> 01:24:52,570

information sure what they would want to

1715

01:24:57,659 --> 01:24:55,269

know absolutely and you know in context

1716

01:24:59,159 --> 01:24:57,669

when you look at it it makes sense what

1717

01:25:03,509 --> 01:24:59,169

they would be interested in is the

1718

01:25:08,250 --> 01:25:03,519

information that we have on here now the

1719

01:25:11,339 --> 01:25:08,260

as we get to number four and this

1720

01:25:14,969 --> 01:25:11,349

conversation is going to evolve but one

1721

01:25:18,479 --> 01:25:14,979

of the things that has to come into play

1722

01:25:24,239 --> 01:25:18,489

here is what the indigenous cultures

1723

01:25:26,729 --> 01:25:24,249

actually know today and and that that is

1724

01:25:28,409 --> 01:25:26,739

also going to be some of the correlation

1725

01:25:33,569 --> 01:25:28,419

right and some of the some of the

1726

01:25:37,919 --> 01:25:33,579

vetting as you connect the dots and you

1727

01:25:40,859 --> 01:25:37,929

are trying to get the connections and

1728

01:25:43,589 --> 01:25:40,869

verifications the indigenous cultures

1729

01:25:46,049 --> 01:25:43,599

are going to come into play right no

1730

01:25:47,790 --> 01:25:46,059

question about it in fact there is one

1731

01:25:51,959 --> 01:25:47,800

of the thing that I would like to tell

1732

01:25:56,250 --> 01:25:51,969

you about that is that is in that that

1733

01:26:00,060 --> 01:25:56,260

that vein and we add something this past

1734

01:26:02,520 --> 01:26:00,070

weekend okay let's actually actually go

1735

01:26:05,640 --> 01:26:02,530

ahead let's go back let's circle back

1736

01:26:10,250 --> 01:26:05,650

okay let's let's come back to that I

1737

01:26:16,500 --> 01:26:13,020

okay what's number four the the fourth

1738

01:26:18,029 --> 01:26:16,510

reveal oh I thought you meant I was

1739

01:26:22,830 --> 01:26:18,039

going to say I can't tell you about it

1740

01:26:26,009 --> 01:26:22,840

for the fourth talking okay well the the

1741

01:26:27,899 --> 01:26:26,019

fourth revealed well there is one more

1742

01:26:32,339 --> 01:26:27,909

really interesting thing on this nova

1743

01:26:36,359 --> 01:26:32,349

score Narragansett Bay map there is a

1744

01:26:39,089 --> 01:26:36,369

number thirty on here and it's which is

1745

01:26:40,199 --> 01:26:39,099

interesting because where is 24 to 29 I

1746

01:26:42,209 --> 01:26:40,209

have no idea

1747

01:26:44,580 --> 01:26:42,219

it wasn't on either one of those two

1748

01:26:46,379 --> 01:26:44,590

sheets so maybe it's well funded

1749

01:26:49,199 --> 01:26:46,389

somewhere it will show up down the road

1750

01:26:52,439 --> 01:26:49,209

the number 30 says we have finished the

1751  
01:26:56,189 --> 01:26:52,449  
scout the two sides come together at a

1752  
01:26:57,060 --> 01:26:56,199  
treasure field at the treasure field we

1753  
01:27:01,379 --> 01:26:57,070  
traveled to this

1754  
01:27:04,979 --> 01:27:01,389  
Southwest now that point of intersection

1755  
01:27:09,600 --> 01:27:04,989  
where number 30 is is way north of

1756  
01:27:11,760 --> 01:27:09,610  
Narragansett Bay probably another 10

1757  
01:27:16,859 --> 01:27:11,770  
miles 15 miles north of the very

1758  
01:27:19,439 --> 01:27:16,869  
northern end of the of the bay and to

1759  
01:27:21,930 --> 01:27:19,449  
the southwest when you look at the map

1760  
01:27:25,770 --> 01:27:21,940  
there's there's a partial circle drawn

1761  
01:27:28,319 --> 01:27:25,780  
with that intersection at 30 there the

1762  
01:27:30,959 --> 01:27:28,329  
the intersection point but there's a dot

1763  
01:27:33,450 --> 01:27:30,969

on the southwest quadrant of the circle

1764

01:27:37,859 --> 01:27:33,460

with a line that goes to the southwest

1765

01:27:42,180 --> 01:27:37,869

and on that line it says la place luck

1766

01:27:49,040 --> 01:27:42,190

pleasure the place of the treasure and

1767

01:27:53,220 --> 01:27:49,050

there's a dot at a spot so I'm assuming

1768

01:27:57,990 --> 01:27:53,230

that's where they put the treasure now

1769

01:28:04,470 --> 01:27:58,000

what's really really really really

1770

01:28:09,479 --> 01:28:04,480

interesting is that spot today to this

1771

01:28:16,850 --> 01:28:09,489

very day do you know what's there I'm

1772

01:28:24,319 --> 01:28:16,860

looking okay I'll tell you where it is

1773

01:28:27,930 --> 01:28:24,329

Cumberland Google it I'm there okay

1774

01:28:30,830 --> 01:28:27,940

there's a monastery there I just looked

1775

01:28:33,780 --> 01:28:30,840

at a picture of it that's crazy

1776

01:28:40,040 --> 01:28:33,790

Cistercian monastery right right right

1777

01:28:44,790 --> 01:28:40,050

this day to this day what are the odds

1778

01:28:48,300 --> 01:28:44,800

and that also is the place where there

1779

01:28:52,290 --> 01:28:48,310

is a Cumberland ight mine Cumberland

1780

01:28:54,750 --> 01:28:52,300

ight is the state stone of Rhode Island

1781

01:28:56,310 --> 01:28:54,760

and you might remember on another

1782

01:28:58,740 --> 01:28:56,320

episode of our show I don't remember

1783

01:29:00,600 --> 01:28:58,750

what season it was but we were doing

1784

01:29:03,479 --> 01:29:00,610

something on the Newport tower and we

1785

01:29:07,200 --> 01:29:03,489

discovered that there was a large piece

1786

01:29:09,689 --> 01:29:07,210

of Cumberland diape stone in the South

1787

01:29:10,760 --> 01:29:09,699

column of the Newport Tower that stone

1788

01:29:14,480 --> 01:29:10,770

is highly

1789

01:29:18,140 --> 01:29:14,490

magnetic it contains up to 45% magnetite

1790

01:29:18,970 --> 01:29:18,150

a magnet will just thing attach right to

1791

01:29:23,030 --> 01:29:18,980

it

1792

01:29:24,950 --> 01:29:23,040

that is where that spot is that mine

1793

01:29:28,340 --> 01:29:24,960

were they used to mine it and they would

1794

01:29:32,440 --> 01:29:28,350

smelt it for the iron and that's what

1795

01:29:35,540 --> 01:29:32,450

that Cistercian monastery is to this day

1796

01:29:37,070 --> 01:29:35,550

that is not a coincidence my friend I'm

1797

01:29:42,380 --> 01:29:37,080

looking at it here and what's

1798

01:29:45,770 --> 01:29:42,390

interesting also for me is that the

1799

01:29:48,200 --> 01:29:45,780

access not only to Cumberland and

1800

01:29:51,740 --> 01:29:48,210

there's a there's a lake next to the

1801  
01:29:55,610 --> 01:29:51,750  
monastery there but the access inland

1802  
01:30:02,660 --> 01:29:55,620  
through rivers and tributaries that are

1803  
01:30:05,060 --> 01:30:02,670  
right off of the water park it is and

1804  
01:30:08,540 --> 01:30:05,070  
it's a really really good point you're

1805  
01:30:11,390 --> 01:30:08,550  
making because the rivers and the in the

1806  
01:30:13,400 --> 01:30:11,400  
lakes and the bays and the oceans those

1807  
01:30:15,380 --> 01:30:13,410  
were the highways and wrote that these

1808  
01:30:20,660 --> 01:30:15,390  
guys traveled that's a great point yep

1809  
01:30:22,730 --> 01:30:20,670  
yep very interesting so you know no I

1810  
01:30:25,520 --> 01:30:22,740  
don't have any illusion that there's

1811  
01:30:28,400 --> 01:30:25,530  
anything there today because if there's

1812  
01:30:31,070 --> 01:30:28,410  
one thing that the Templars were pretty

1813  
01:30:33,140 --> 01:30:31,080

good about is they were they they and I

1814

01:30:35,920 --> 01:30:33,150

can tell you this absolutely for certain

1815

01:30:38,720 --> 01:30:35,930

they put treasures all over the place

1816

01:30:41,980 --> 01:30:38,730

because we have treasure maps and I have

1817

01:30:46,490 --> 01:30:41,990

not revealed any of those yet but I will

1818

01:30:47,990 --> 01:30:46,500

hopefully on a TV show someday this is

1819

01:30:50,450 --> 01:30:48,000

the content that I want to do on

1820

01:30:53,150 --> 01:30:50,460

television I love doing America on earth

1821

01:30:54,980 --> 01:30:53,160

don't get me wrong but if I had my

1822

01:31:01,340 --> 01:30:54,990

druthers I would do this every episode

1823

01:31:03,800 --> 01:31:01,350

and we would find stuff and we we

1824

01:31:05,600 --> 01:31:03,810

probably at some point would find a

1825

01:31:08,060 --> 01:31:05,610

treasure did they recover them all I

1826

01:31:10,990 --> 01:31:08,070

don't know I know they recovered a lot

1827

01:31:14,450 --> 01:31:11,000

of them they probably recovered this one

1828

01:31:16,850 --> 01:31:14,460

and I'm sure they got most of them but I

1829

01:31:18,980 --> 01:31:16,860

bet with the sheer number that we know

1830

01:31:19,910 --> 01:31:18,990

about that there's got to be one or two

1831

01:31:22,340 --> 01:31:19,920

still out there

1832

01:31:24,230 --> 01:31:22,350

now did you know something Jim you know

1833

01:31:26,930 --> 01:31:24,240

would be just as good what's

1834

01:31:30,200 --> 01:31:26,940

would be an amazing treasure all in

1835

01:31:33,260 --> 01:31:30,210

itself is if we went to one of these

1836

01:31:35,780 --> 01:31:33,270

treasure sites and we found a hole that

1837

01:31:38,000 --> 01:31:35,790

had been filled in well anything like

1838

01:31:40,790 --> 01:31:38,010

that yeah I type I totally agree

1839

01:31:41,630 --> 01:31:40,800

anything like that and let's back up for

1840

01:31:47,900 --> 01:31:41,640

a second

1841

01:31:50,840 --> 01:31:47,910

and the the the record keeping of this

1842

01:31:52,910 --> 01:31:50,850

and the knowledge of these trips has to

1843

01:31:56,810 --> 01:31:52,920

be documented by the Vatican the Vatican

1844

01:32:00,110 --> 01:31:56,820

had to know what was going on between

1845

01:32:04,280 --> 01:32:00,120

and especially at that time period right

1846

01:32:06,560 --> 01:32:04,290

the the I disagree I disagree why I won

1847

01:32:09,740 --> 01:32:06,570

the one group that they did not want to

1848

01:32:12,320 --> 01:32:09,750

know was the Vatican but but that does

1849

01:32:16,460 --> 01:32:12,330

what I'm saying is that the Vatican had

1850

01:32:20,000 --> 01:32:16,470

the knowledge of this stuff not only

1851

01:32:22,580 --> 01:32:20,010

getting to North America and that

1852

01:32:24,920 --> 01:32:22,590

something was spirited away in the first

1853

01:32:27,860 --> 01:32:24,930

century BC something that important

1854

01:32:31,550 --> 01:32:27,870

especially documents relating directly

1855

01:32:36,200 --> 01:32:31,560

back to Jesus and Mary though you know

1856

01:32:38,770 --> 01:32:36,210

what they were aware of it they were

1857

01:32:43,250 --> 01:32:38,780

aware they have the document in this

1858

01:32:46,280 --> 01:32:43,260

according to a letter I received from an

1859

01:32:49,550 --> 01:32:46,290

anonymous source the Vatican had a copy

1860

01:32:51,740 --> 01:32:49,560

of the marriage document in 220 ad in

1861

01:32:54,290 --> 01:32:51,750

the 3rd century they got a copy of it so

1862

01:32:55,790 --> 01:32:54,300

they've known that it was out there but

1863

01:32:58,280 --> 01:32:55,800

there were other copies that were out

1864

01:32:59,900 --> 01:32:58,290

there that they probably went out of

1865

01:33:01,430 --> 01:32:59,910

their way to try to round up but

1866

01:33:04,910 --> 01:33:01,440

apparently this one on Hunter Mountain

1867

01:33:06,890 --> 01:33:04,920

they never got so it was recovered it

1868

01:33:10,340 --> 01:33:06,900

was it was it was taken there in the

1869

01:33:12,560 --> 01:33:10,350

first century who brought him there that

1870

01:33:15,230 --> 01:33:12,570

you know I don't know we don't know that

1871

01:33:16,970 --> 01:33:15,240

story but somehow they got there and

1872

01:33:18,920 --> 01:33:16,980

they were there for a thousand years and

1873

01:33:22,100 --> 01:33:18,930

then they were recovered by the Templars

1874

01:33:25,010 --> 01:33:22,110

and they were hidden again and but but

1875

01:33:27,470 --> 01:33:25,020

the whole time the Vatican was aware of

1876

01:33:29,060 --> 01:33:27,480

the document because they had a copy of

1877

01:33:31,180 --> 01:33:29,070

it but they didn't know that it was over

1878

01:33:33,340 --> 01:33:31,190

here what does

1879

01:33:35,229 --> 01:33:33,350

have you been able to talk to anybody

1880

01:33:39,250 --> 01:33:35,239

directly at the Vatican about the

1881

01:33:41,439 --> 01:33:39,260

Cremona document no I have not I have

1882

01:33:45,630 --> 01:33:41,449

not and you know what they're gonna find

1883

01:33:49,300 --> 01:33:45,640

out and no no bill Jackson's dead and

1884

01:33:51,970 --> 01:33:49,310

the the parts of the die I will tell you

1885

01:33:54,070 --> 01:33:51,980

this the parts of the document that we

1886

01:33:57,459 --> 01:33:54,080

know he pulled out like these two pages

1887

01:33:59,430 --> 01:33:57,469

and like a couple of treasure maps that

1888

01:34:02,560 --> 01:33:59,440

we haven't shown anybody yet

1889

01:34:04,479 --> 01:34:02,570

that was the and and the site that and

1890

01:34:07,930 --> 01:34:04,489

the page that had the cipher phrase you

1891

01:34:10,870 --> 01:34:07,940

need to decode but excuse me the whole

1892

01:34:12,430 --> 01:34:10,880

thing he pulled that stuff out and in

1893

01:34:14,590 --> 01:34:12,440

fact the first time I read the

1894

01:34:17,340 --> 01:34:14,600

translated document that bill Jackson

1895

01:34:20,920 --> 01:34:17,350

wrote he said the first page was missing

1896

01:34:23,470 --> 01:34:20,930

Baroni he had it he wanted people to

1897

01:34:24,729 --> 01:34:23,480

think it was missing because he didn't

1898

01:34:26,890 --> 01:34:24,739

want to give it to the Vatican and

1899

01:34:29,290 --> 01:34:26,900

without that you can't decode it right

1900

01:34:32,410 --> 01:34:29,300

he didn't give him the treasure maps he

1901

01:34:35,320 --> 01:34:32,420

didn't give him these notes that go with

1902

01:34:36,910 --> 01:34:35,330

the maps apparently they got the maps

1903

01:34:38,590 --> 01:34:36,920

they got a lot of other stuff they got a

1904

01:34:41,380 --> 01:34:38,600

list of the stuff that dis suddely

1905

01:34:43,120 --> 01:34:41,390

recovered but did were they able to

1906

01:34:45,910 --> 01:34:43,130

translate it I assume they eventually

1907

01:34:48,160 --> 01:34:45,920

did figure it out but I think what

1908

01:34:50,620 --> 01:34:48,170

Jackson did and this is what Don said

1909

01:34:53,110 --> 01:34:50,630

was that the reason he disseminated

1910

01:34:56,410 --> 01:34:53,120

these key pieces to his guys in the

1911

01:34:59,590 --> 01:34:56,420

agency is if paul Marcinkus in the

1912

01:35:02,430 --> 01:34:59,600

vatican ever came back and said hey dude

1913

01:35:05,080 --> 01:35:02,440

you're missing a few pages here pony up

1914

01:35:08,560 --> 01:35:05,090

he could have said well I don't have him

1915

01:35:10,979 --> 01:35:08,570

here but I know how to get him and oh by

1916

01:35:14,170 --> 01:35:10,989

the way it's going to cost you \$10,000 I

1917

01:35:16,959 --> 01:35:14,180

really like this bill Jackson guy I wish

1918

01:35:20,380 --> 01:35:16,969

I could have known him and in the story

1919

01:35:23,740 --> 01:35:20,390

of his adventure with this in many ways

1920

01:35:26,920 --> 01:35:23,750

parallels my own journey and and how you

1921

01:35:29,290 --> 01:35:26,930

know academia was was and other people

1922

01:35:31,979 --> 01:35:29,300

are just so against this and you know

1923

01:35:34,150 --> 01:35:31,989

they just they attack everything you do

1924

01:35:35,590 --> 01:35:34,160

because for some reason they just don't

1925

01:35:37,810 --> 01:35:35,600

want the truth to come out and for the

1926

01:35:40,000 --> 01:35:37,820

life of me I don't know why now I can

1927

01:35:42,490 --> 01:35:40,010

understand why the the Vatican and the

1928

01:35:45,370 --> 01:35:42,500

church wants to hide this stuff I mean

1929

01:35:48,040 --> 01:35:45,380

they've been lying to us for you know 17

1930

01:35:50,709 --> 01:35:48,050

year since the council and i seea but

1931

01:35:52,270 --> 01:35:50,719

you know some of these other groups that

1932

01:35:55,510 --> 01:35:52,280

are that are attacking people in

1933

01:35:58,540 --> 01:35:55,520

academia they're not on their side what

1934

01:36:00,939 --> 01:35:58,550

is the problem well I think we know it

1935

01:36:02,950 --> 01:36:00,949

some of the problems are but it's gotten

1936

01:36:05,350 --> 01:36:02,960

to the point now where it's like really

1937

01:36:09,040 --> 01:36:05,360

guys do you think anybody is buying your

1938

01:36:11,379 --> 01:36:09,050

BS anymore just stop already and get on

1939

01:36:14,500 --> 01:36:11,389

board you know you got to rewrite your

1940

01:36:19,209 --> 01:36:14,510

papers rewrite them well alright and

1941

01:36:21,370 --> 01:36:19,219

with and with the coastline up and down

1942

01:36:24,129 --> 01:36:21,380

the East Coast and I'm talking about all

1943

01:36:27,399 --> 01:36:24,139

the way to you can go into the Bahamas

1944

01:36:28,990 --> 01:36:27,409

in Puerto Rico but but certainly the

1945

01:36:31,360 --> 01:36:29,000

coastline of the United States from

1946

01:36:37,930 --> 01:36:31,370

Florida all the way up to Maine and

1947

01:36:39,550 --> 01:36:37,940

Beyond is is occupied by cultures that

1948

01:36:42,459 --> 01:36:39,560

have been here for thousands of years

1949

01:36:44,830 --> 01:36:42,469

and they are looking out to see they're

1950

01:36:48,340 --> 01:36:44,840

living on the coast that's that's where

1951

01:36:50,050 --> 01:36:48,350

they live they know everything that is

1952

01:36:54,160 --> 01:36:50,060

happening on those coasts and if

1953

01:36:58,300 --> 01:36:54,170

somebody came bet that's right so if if

1954

01:37:02,229 --> 01:36:58,310

there was the and it appears to be the

1955

01:37:05,860 --> 01:37:02,239

case that if there was action going on

1956

01:37:08,200 --> 01:37:05,870

anywhere they knew about it and they

1957

01:37:11,260 --> 01:37:08,210

possess that knowledge all the way to

1958

01:37:13,510 --> 01:37:11,270

the Kensington Runestone and land grabs

1959

01:37:17,590 --> 01:37:13,520

that are going on a thousand miles to

1960

01:37:20,439 --> 01:37:17,600

the west the the indigenous cultures

1961

01:37:22,959 --> 01:37:20,449

knew and assisted and had to have been

1962

01:37:25,419 --> 01:37:22,969

involved with anything that was going on

1963

01:37:28,240 --> 01:37:25,429

here under percent you're a hundred

1964

01:37:30,280 --> 01:37:28,250

percent right you are and you know what

1965

01:37:33,129 --> 01:37:30,290

that that if I could just interject for

1966

01:37:34,379 --> 01:37:33,139

a sec that brings me to what happened

1967

01:37:37,510 --> 01:37:34,389

this Saturday

1968

01:37:40,360 --> 01:37:37,520

just four days ago we had what we called

1969

01:37:43,830 --> 01:37:40,370

the Kensington Runestone summit and this

1970

01:37:48,010 --> 01:37:43,840

was a Masonic event at the Scottish Rite

1971

01:37:50,979 --> 01:37:48,020

temple in in Minneapolis where I you

1972

01:37:53,110 --> 01:37:50,989

know I took my Scottish Rite degrees and

1973

01:37:55,600 --> 01:37:53,120

I now participate in the Scottish Rite

1974

01:37:58,270 --> 01:37:55,610

degrees for for the new-new candidates

1975

01:37:59,140 --> 01:37:58,280

but we had a summit and there was 30

1976

01:38:00,910 --> 01:37:59,150

guys and more

1977

01:38:07,270 --> 01:38:00,920

to these guys while all of these guys

1978

01:38:10,780 --> 01:38:07,280

are in the leadership positions of the

1979

01:38:14,860 --> 01:38:10,790

York right bodies and they're all

1980

01:38:19,630 --> 01:38:14,870

Knights Templar and we had myself

1981

01:38:21,760 --> 01:38:19,640

we had another brother who actually

1982

01:38:23,979 --> 01:38:21,770

found something that I missed in the

1983

01:38:28,300 --> 01:38:23,989

cryptic code of one of the degrees that

1984

01:38:30,580 --> 01:38:28,310

is part of my new book that details they

1985

01:38:33,760 --> 01:38:30,590

Kensington Runestone inscription numbers

1986

01:38:36,399 --> 01:38:33,770

in the degree but then we also had an

1987

01:38:41,860 --> 01:38:36,409

indigenous brother a guy by the name of

1988

01:38:45,450 --> 01:38:41,870

Taylor Keene who is a Harvard graduate

1989

01:38:48,490 --> 01:38:45,460

with an MBA he's a college professor

1990

01:38:51,640 --> 01:38:48,500

he's a York write and Scottish right

1991

01:38:56,020 --> 01:38:51,650

Mason he's also a Rosicrucian but more

1992

01:39:00,130 --> 01:38:56,030

importantly he's also a Maday win' he is

1993

01:39:03,459 --> 01:39:00,140

part of the Native American secret

1994

01:39:07,030 --> 01:39:03,469

society of them a day they are the ones

1995

01:39:08,560 --> 01:39:07,040

that interacted with the Templars they

1996

01:39:12,070 --> 01:39:08,570

are the ones that shared rituals

1997

01:39:15,820 --> 01:39:12,080

together and brother Taylor was there

1998

01:39:55,010 --> 01:39:15,830

and he gave a lecture about his

1999

01:40:01,810 --> 01:39:58,620

[Music]

2000

01:40:04,149 --> 01:40:01,820

that is why the Templars were so

2001

01:40:06,399 --> 01:40:04,159

successful on this continent that is why

2002

01:40:09,399 --> 01:40:06,409

they were able to do all this stuff that

2003

01:40:11,470 --> 01:40:09,409

I claim that archeologists heads just

2004

01:40:13,029 --> 01:40:11,480

explode because they know nothing about

2005

01:40:18,700 --> 01:40:13,039

it

2006

01:40:22,029 --> 01:40:18,710

into the batter's box let alone the

2007

01:40:23,830 --> 01:40:22,039

first base but now what's happening is

2008

01:40:27,669 --> 01:40:23,840

the indigenous people are starting to

2009

01:40:30,640 --> 01:40:27,679

step up and say it's time to share what

2010

01:40:33,959 --> 01:40:30,650

we know and brother Taylor was the first

2011

01:40:36,609 --> 01:40:33,969

one to come there and everybody was just

2012

01:40:39,189 --> 01:40:36,619

transfixed by what he had to say and

2013

01:40:41,410 --> 01:40:39,199

then I finished it off and I laid out

2014

01:40:43,689 --> 01:40:41,420

some of this stuff I laid out some other

2015

01:40:47,799 --> 01:40:43,699

stuff I can't tell you about yet and I

2016

01:40:51,339 --> 01:40:47,809

told those guys I said guys this is our

2017

01:40:53,529 --> 01:40:51,349

history this is the knowledge that was

2018

01:40:56,319 --> 01:40:53,539

passed on to our founding fathers they

2019

01:40:59,319 --> 01:40:56,329

said nothing about it they just finished

2020

01:41:02,410 --> 01:40:59,329

the job that these Templars started with

2021

01:41:05,399 --> 01:41:02,420

that land claim in 1362 and that's why I

2022

01:41:07,959 --> 01:41:05,409

say now and I'm gonna say in Los Angeles

2023

01:41:13,629 --> 01:41:07,969

that the founding of this country did

2024

01:41:17,140 --> 01:41:13,639

not start in 1776 it started in 1362 and

2025

01:41:19,839 --> 01:41:17,150

now we can add 1368 to that chronologic

2026

01:41:21,850 --> 01:41:19,849

dates but that's what happened and you

2027

01:41:22,270 --> 01:41:21,860

know what you can argue with me all you

2028

01:41:24,279 --> 01:41:22,280

want

2029

01:41:27,430 --> 01:41:24,289

in all those skeptics and all those

2030

01:41:29,890 --> 01:41:27,440

deniers and haters can try to attack

2031

01:41:32,109 --> 01:41:29,900

this good luck trying to attack the

2032

01:41:37,149 --> 01:41:32,119

indigenous people when they speak up and

2033

01:41:42,759 --> 01:41:37,159

say yes it happened is there

2034

01:41:45,729 --> 01:41:42,769

do you anticipate a point where as this

2035

01:41:48,430 --> 01:41:45,739

is discussed in in a public forum

2036

01:41:53,109 --> 01:41:48,440

certainly like we are doing now where

2037

01:41:58,060 --> 01:41:53,119

somebody comes forward from a tribe and

2038

01:42:01,120 --> 01:41:58,070

says hey I was given this this was

2039

01:42:06,040 --> 01:42:01,130

handed down from generation to

2040

01:42:09,939 --> 01:42:06,050

generation and here it is yes that that

2041

01:42:12,220 --> 01:42:09,949

is exactly what we're hoping for and you

2042

01:42:14,259 --> 01:42:12,230

know what Jim it's gonna happen because

2043

01:42:16,689 --> 01:42:14,269

I know that stuff is out there I've been

2044

01:42:18,250 --> 01:42:16,699

told that stuff is out there but you

2045

01:42:20,740 --> 01:42:18,260

have to understand something those

2046

01:42:23,500 --> 01:42:20,750

people within these indigenous societies

2047

01:42:26,080 --> 01:42:23,510

that have been given you know they've

2048

01:42:26,979 --> 01:42:26,090

been entrusted with these artifacts mrs.

2049

01:42:30,850 --> 01:42:26,989

D

2050

01:42:33,880 --> 01:42:30,860

profound stuff they're not just going to

2051

01:42:36,790 --> 01:42:33,890

lay it out to anybody you have got to

2052

01:42:40,240 --> 01:42:36,800

prove yourself worthy before they're

2053

01:42:41,890 --> 01:42:40,250

even going to think about it and one of

2054

01:42:45,430 --> 01:42:41,900

the things I think that would go a long

2055

01:42:48,940 --> 01:42:45,440

way to that and this is what I know

2056

01:42:52,690 --> 01:42:48,950

they're waiting for somebody in

2057

01:42:54,250 --> 01:42:52,700

authority in this country and up in

2058

01:42:58,240 --> 01:42:54,260

Canada but I think they've already done

2059

01:43:00,510 --> 01:42:58,250

it it's our turn now we have got to

2060

01:43:02,740 --> 01:43:00,520

acknowledge the atrocities of the past

2061

01:43:05,860 --> 01:43:02,750

for the way these people were treated

2062

01:43:09,820 --> 01:43:05,870

and somebody needs to sincerely

2063

01:43:13,870 --> 01:43:09,830

apologize and it doesn't mean you got to

2064

01:43:16,140 --> 01:43:13,880

write a check right they just want

2065

01:43:21,100 --> 01:43:16,150

someone to say hey this happened

2066

01:43:22,570 --> 01:43:21,110

we're sorry let's move forward and I

2067

01:43:24,910 --> 01:43:22,580

think it's as simple as that

2068

01:43:27,250 --> 01:43:24,920

and once that happens I think we'll be

2069

01:43:29,620 --> 01:43:27,260

amazed at what they know

2070

01:43:31,000 --> 01:43:29,630

I'm already amazed and I know there's

2071

01:43:31,750 --> 01:43:31,010

more to come but I think that's what

2072

01:43:37,390 --> 01:43:31,760

it'll take

2073

01:43:40,090 --> 01:43:37,400

well I can envision something as as

2074

01:43:42,459 --> 01:43:40,100

simple as this because things were

2075

01:43:45,190 --> 01:43:42,469

traded we're not talking about dollar

2076

01:43:49,390 --> 01:43:45,200

bills obviously back then but things

2077

01:43:52,450 --> 01:43:49,400

were traded and and that's the way the

2078

01:43:55,720 --> 01:43:52,460

things were done there was a very fair

2079

01:43:58,360 --> 01:43:55,730

barter system that was going on and I

2080

01:44:03,100 --> 01:43:58,370

can I can imagine something like it

2081

01:44:05,290 --> 01:44:03,110

could be an exotic sword or something

2082

01:44:07,630 --> 01:44:05,300

like that it could be a sword right but

2083

01:44:09,400 --> 01:44:07,640

it could up it could be clothing it

2084

01:44:14,440 --> 01:44:09,410

could be boots it could be books it

2085

01:44:16,780 --> 01:44:14,450

could be a carpet could be anything that

2086

01:44:21,040 --> 01:44:16,790

was that was you know traded and

2087

01:44:23,170 --> 01:44:21,050

exchanged and and saved you know and and

2088

01:44:25,540 --> 01:44:23,180

handed down from family to family and

2089

01:44:29,709 --> 01:44:25,550

and this is this is the other point that

2090

01:44:31,780 --> 01:44:29,719

I think is is very very significant the

2091

01:44:35,709 --> 01:44:31,790

generations that we're talking about

2092

01:44:38,340 --> 01:44:35,719

here it's not that great of a time it's

2093

01:44:40,540 --> 01:44:38,350

not that extended if you just go with

2094

01:44:45,310 --> 01:44:40,550

100 year increments

2095

01:44:47,910 --> 01:44:45,320

now we're talking about 7/8 hard

2096

01:44:50,650 --> 01:44:47,920

generations ago if you go to

2097

01:44:55,000 --> 01:44:50,660

parent-child generations then we're

2098

01:44:55,480 --> 01:44:55,010

talking about you know 10 12 generations

2099

01:44:59,950 --> 01:44:55,490

ago

2100

01:45:02,260 --> 01:44:59,960

that's not much not it really isn't and

2101

01:45:04,570 --> 01:45:02,270

you know Jim's sort of coming full

2102

01:45:06,340 --> 01:45:04,580

circle with this think you know as far

2103

01:45:09,160 --> 01:45:06,350

as the indigenous people go the ones

2104

01:45:11,140 --> 01:45:09,170

that I've talked to the Templars were

2105

01:45:14,340 --> 01:45:11,150

like well they were just like yesterday

2106

01:45:16,840 --> 01:45:14,350

there were people coming here a long

2107

01:45:18,820 --> 01:45:16,850

time and time and time again going back

2108

01:45:21,160 --> 01:45:18,830

hundreds and thousands of years and they

2109

01:45:23,470 --> 01:45:21,170

know about that the Templars are just

2110

01:45:27,340 --> 01:45:23,480

the last ones to come before the

2111

01:45:30,220 --> 01:45:27,350

colonists came so this is like yesterday

2112

01:45:33,160 --> 01:45:30,230

to them for their story keepers and and

2113

01:45:35,500 --> 01:45:33,170

and the ones that are you know entrusted

2114

01:45:39,480 --> 01:45:35,510

with with you know preserving the

2115

01:45:42,340 --> 01:45:39,490

stories they they know these guys well

2116

01:45:43,750 --> 01:45:42,350

so keep that in mind because there's all

2117

01:45:45,790 --> 01:45:43,760

kinds of people we've talked about this

2118

01:45:50,470 --> 01:45:45,800

before these are the johnny-come-lately

2119

01:45:51,850 --> 01:45:50,480

Zahn you know in in one respect because

2120

01:45:54,040 --> 01:45:51,860

there were many that came before them

2121

01:45:57,610 --> 01:45:54,050

and they know all about them if

2122

01:45:59,950 --> 01:45:57,620

something like that surfaced I mean the

2123

01:46:03,490 --> 01:45:59,960

talk about the Holy Grail right if

2124

01:46:08,650 --> 01:46:03,500

something like that actually surfaced

2125

01:46:14,260 --> 01:46:08,660

right a 12th century sword with that not

2126

01:46:17,010 --> 01:46:14,270

only is is dateable but with a family

2127

01:46:21,430 --> 01:46:17,020

name on it you know something absolutely

2128

01:46:23,770 --> 01:46:21,440

nutty if that surface is what happens

2129

01:46:25,600 --> 01:46:23,780

people say oh well they just de piel de

2130

01:46:27,220 --> 01:46:25,610

that's really didn't have that don't

2131

01:46:30,070 --> 01:46:27,230

they'll find a way to complain right

2132

01:46:31,840 --> 01:46:30,080

it's never enough it's never enough it's

2133

01:46:34,060 --> 01:46:31,850

never enough so you're never going to

2134

01:46:37,240 --> 01:46:34,070

please them and look I gave up trying to

2135

01:46:39,190 --> 01:46:37,250

please academics and skeptics there's

2136

01:46:41,500 --> 01:46:39,200

nothing wrong with somebody asking

2137

01:46:42,700 --> 01:46:41,510

questions but on the other hand you know

2138

01:46:44,800 --> 01:46:42,710

what you have to come up with an

2139

01:46:46,750 --> 01:46:44,810

alternate theory too and you have to

2140

01:46:48,970 --> 01:46:46,760

have evidence to support your theory and

2141

01:46:52,510 --> 01:46:48,980

just saying that it's a hoax is good

2142

01:46:52,710 --> 01:46:52,520

enough anybody can say that right can

2143

01:46:56,190 --> 01:46:52,720

you

2144

01:46:58,410 --> 01:46:56,200

do me a favor is Jan right there yes

2145

01:47:01,020 --> 01:46:58,420

yeah ask Jan if you can stay up late and

2146

01:47:11,310 --> 01:47:01,030

do one more segment of overtime get her

2147

01:47:15,840 --> 01:47:11,320

promised hold on one sec hey Jan how are

2148

01:47:20,490 --> 01:47:15,850

you I'm doing great Jen can I keep your

2149

01:47:23,330 --> 01:47:20,500

husband for one more segment yeah that's

2150

01:47:26,250 --> 01:47:23,340

what I'm talking about see we know who

2151

01:47:27,150 --> 01:47:26,260

who the boss is Jan I just had to go

2152

01:47:31,770 --> 01:47:27,160

straight to the source

2153

01:47:35,310 --> 01:47:31,780

we're going to take a break let's take

2154

01:47:37,040 --> 01:47:35,320

our break right here hey Jan say gobekli

2155

01:47:39,810 --> 01:47:37,050

tepe for me just say it

2156

01:47:42,150 --> 01:47:39,820

Gobekli Tepe that's what I'm talking

2157

01:47:43,020 --> 01:47:42,160

about we'll be right back this is fade

2158

01:47:46,350 --> 01:47:43,030

to black

2159

01:47:48,570 --> 01:47:46,360

we're gonna go into some overtime with

2160

01:47:51,260 --> 01:47:48,580

Scott Wolter on the GameChanger network

2161

01:48:03,580 --> 01:47:51,270

and kg RA the planets stay right there

2162

01:48:09,800 --> 01:48:07,550

welcome back paid the black doing a

2163

01:48:13,610 --> 01:48:09,810

little overtime we got permission from

2164

01:48:15,470 --> 01:48:13,620

Jan with Scott Wolter he's coming out to

2165

01:48:18,680 --> 01:48:15,480

Los Angeles February 7th through the

2166

01:48:20,720 --> 01:48:18,690

10th to the conscious life Expo and very

2167

01:48:26,540 --> 01:48:20,730

excited about that and Scott once again

2168

01:48:30,950 --> 01:48:26,550

I haven't I haven't I haven't introduced

2169

01:48:31,700 --> 01:48:30,960

you at a conference for five years can

2170

01:48:46,070 --> 01:48:31,710

you believe that

2171

01:48:49,580 --> 01:48:46,080

is that right that long right well we

2172

01:48:51,910 --> 01:48:49,590

talk so much and and it's just it's

2173

01:48:56,090 --> 01:48:51,920

amazing how the time blows by and

2174

01:49:01,820 --> 01:48:56,100

jumping in overtime want to can kind of

2175

01:49:04,780 --> 01:49:01,830

hit you with this I am we but myself

2176

01:49:08,000 --> 01:49:04,790

personally and of course yourself is

2177

01:49:13,040 --> 01:49:08,010

that I feel the frustration when it

2178

01:49:16,150 --> 01:49:13,050

comes to academia historians historian

2179

01:49:19,820 --> 01:49:16,160

historical documents history classes

2180

01:49:24,320 --> 01:49:19,830

what is presented out there as as fact

2181

01:49:27,770 --> 01:49:24,330

and it borders on dogma in that you're

2182

01:49:29,720 --> 01:49:27,780

hit with this over and over again that

2183

01:49:31,910 --> 01:49:29,730

you may not believe it but you just

2184

01:49:34,430 --> 01:49:31,920

you're tired of the beat down and you

2185

01:49:39,169 --> 01:49:34,440

accept it as truth and I want to give

2186

01:49:42,919 --> 01:49:39,179

you an example of that I I have held

2187

01:49:47,209 --> 01:49:42,929

back on this for for many years this one

2188

01:49:48,800 --> 01:49:47,219

fact and I stumbled upon it and I look

2189

01:49:50,840 --> 01:49:48,810

and I thought to myself wait a minute

2190

01:49:53,750 --> 01:49:50,850

I've never heard this in all of the

2191

01:49:57,080 --> 01:49:53,760

documentaries that I have seen for

2192

01:49:59,570 --> 01:49:57,090

decades on the great pyramid and on Giza

2193

01:50:01,550 --> 01:49:59,580

and over and over again and great

2194

01:50:03,320 --> 01:50:01,560

researchers out there like John Anthony

2195

01:50:06,620 --> 01:50:03,330

West and Robert Schoch and Robert Bauval

2196

01:50:07,930 --> 01:50:06,630

and Graham Hancock and you know the it

2197

01:50:12,709 --> 01:50:07,940

just goes on and on

2198

01:50:15,560 --> 01:50:12,719

Brian forests or well is is this that

2199

01:50:16,440 --> 01:50:15,570

the Great Pyramid I'm not going to go

2200

01:50:18,180 --> 01:50:16,450

into the long

2201

01:50:19,650 --> 01:50:18,190

version of this I'm gonna present you

2202

01:50:22,650 --> 01:50:19,660

with the short version which is the

2203

01:50:24,390 --> 01:50:22,660

Great Pyramid documented and we have

2204

01:50:26,700 --> 01:50:24,400

been told over and over again was built

2205

01:50:29,340 --> 01:50:26,710

over 20 year period with two and a half

2206

01:50:32,250 --> 01:50:29,350

million limestone blocks blah blah blah

2207

01:50:40,080 --> 01:50:32,260

right over and over again and that it

2208

01:50:44,040 --> 01:50:40,090

was built between 2025 80 BC and 2560 BC

2209

01:50:46,950 --> 01:50:44,050

that 20 year period now as unbelievable

2210

01:50:49,200 --> 01:50:46,960

as that is for us to digest that's

2211

01:50:51,090 --> 01:50:49,210

something that huge and that big was

2212

01:50:53,010 --> 01:50:51,100

built and those blocks were cut and

2213

01:50:56,780 --> 01:50:53,020

placed every two and a half minutes for

2214

01:50:59,760 --> 01:50:56,790

20 years is a crazy thing but we've just

2215

01:51:03,360 --> 01:50:59,770

accepted the beatdown but what they

2216

01:51:06,540 --> 01:51:03,370

don't tell you is that the middle pier

2217

01:51:08,940 --> 01:51:06,550

pyramid there's three there that the

2218

01:51:11,190 --> 01:51:08,950

middle period pyramid which is just as

2219

01:51:14,160 --> 01:51:11,200

big the same two and a half million

2220

01:51:18,390 --> 01:51:14,170

blocks it's four hundred and fifty five

2221

01:51:23,370 --> 01:51:18,400

feet tall was built at the exact same

2222

01:51:27,810 --> 01:51:23,380

time they didn't build one pyramid in 20

2223

01:51:31,980 --> 01:51:27,820

years they built two they don't tell you

2224

01:51:34,230 --> 01:51:31,990

that because they can't do you

2225

01:51:36,540 --> 01:51:34,240

understand what I'm saying of course I

2226

01:51:38,460 --> 01:51:36,550

do it because little what it'll do is

2227

01:51:41,730 --> 01:51:38,470

it'll destroy their own narrative that's

2228

01:51:43,790 --> 01:51:41,740

right it completely breaks it down we

2229

01:51:48,780 --> 01:51:43,800

have a hard enough time digesting and

2230

01:51:52,830 --> 01:51:48,790

believing the 20-year pill that is the

2231

01:51:55,200 --> 01:51:52,840

Great Pyramid but now if it was revealed

2232

01:51:57,660 --> 01:51:55,210

and talked about that there was two

2233

01:52:00,810 --> 01:51:57,670

built at the same time now it's not

2234

01:52:05,090 --> 01:52:00,820

forty thousand workers it's 80 thousand

2235

01:52:08,520 --> 01:52:05,100

and and and when you think about this

2236

01:52:12,000 --> 01:52:08,530

80,000 people committed to building two

2237

01:52:17,490 --> 01:52:12,010

pyramids over 20 years the population of

2238

01:52:21,870 --> 01:52:17,500

Egypt at 25 80 BC was between a half a

2239

01:52:25,200 --> 01:52:21,880

million and 750,000 people in the entire

2240

01:52:29,790 --> 01:52:25,210

country so what that would suggest is

2241

01:52:32,640 --> 01:52:29,800

that of 20% of the entire

2242

01:52:36,510 --> 01:52:32,650

population was tied up for 20 years

2243

01:52:39,270 --> 01:52:36,520

building two pyramids impossible and not

2244

01:52:42,810 --> 01:52:39,280

only is it 20% of the population but it

2245

01:52:50,120 --> 01:52:42,820

would strongly suggest that every adult

2246

01:52:53,490 --> 01:52:50,130

male in the country that was there every

2247

01:52:56,640 --> 01:52:53,500

single one of them and it would destroy

2248

01:52:59,310 --> 01:52:56,650

everything so therefore it's not talked

2249

01:53:03,049 --> 01:52:59,320

about and that's the frustration and

2250

01:53:07,589 --> 01:53:03,059

that's just one example of what our

2251

01:53:10,280 --> 01:53:07,599

thousands of lost history situations

2252

01:53:13,919 --> 01:53:10,290

that they can't talk about they cannot

2253

01:53:16,020 --> 01:53:13,929

and they won't oh and and to say nothing

2254

01:53:17,490 --> 01:53:16,030

of the fact that if you've got I mean

2255

01:53:20,930 --> 01:53:17,500

let's use the example of the Knights

2256

01:53:23,729 --> 01:53:20,940

Templar right for each Templar Knight

2257

01:53:27,149 --> 01:53:23,739

within an order they estimate that they

2258

01:53:30,060 --> 01:53:27,159

had anywhere from 15 to 20 support

2259

01:53:33,089 --> 01:53:30,070

brothers lay brothers that would take

2260

01:53:36,270 --> 01:53:33,099

care of the horses would grow food would

2261

01:53:40,020 --> 01:53:36,280

be involved in you know the daily work

2262

01:53:42,000 --> 01:53:40,030

of up keeping everything that was

2263

01:53:44,520 --> 01:53:42,010

necessary for a knight you know to make

2264

01:53:46,350 --> 01:53:44,530

swords and and and the clothing and the

2265

01:53:49,830 --> 01:53:46,360

chainmail and all this stuff they

2266

01:53:51,569 --> 01:53:49,840

estimated anywhere from 15 to 20 lay

2267

01:53:53,850 --> 01:53:51,579

brothers that would support their

2268

01:53:56,359 --> 01:53:53,860

activities okay so if you've got these

2269

01:54:00,089 --> 01:53:56,369

people building the pyramids in Giza

2270

01:54:02,520 --> 01:54:00,099

they got to eat they got to sleep they

2271

01:54:03,810 --> 01:54:02,530

have to they have to have durable lives

2272

01:54:06,930 --> 01:54:03,820

some of them might have even been

2273

01:54:10,140 --> 01:54:06,940

married and had children and you know it

2274

01:54:12,120 --> 01:54:10,150

would take a village to sometime een a

2275

01:54:15,569 --> 01:54:12,130

village you know just metaphorically but

2276

01:54:17,640 --> 01:54:15,579

I mean in reality it would take how many

2277

01:54:19,640 --> 01:54:17,650

times the number of people that were

2278

01:54:23,220 --> 01:54:19,650

doing the work to support that effort so

2279

01:54:26,459 --> 01:54:23,230

it doesn't make any sense but but all of

2280

01:54:29,100 --> 01:54:26,469

that you know is really thrown out the

2281

01:54:30,990 --> 01:54:29,110

window already because the work of guys

2282

01:54:33,120 --> 01:54:31,000

like Robert Schoch who are pushing back

2283

01:54:36,620 --> 01:54:33,130

the construction of the pyramids and

2284

01:54:38,669 --> 01:54:36,630

certainly the Sphinx which many many

2285

01:54:41,660 --> 01:54:38,679

Egyptologists say is contemporaneous

2286

01:54:43,679 --> 01:54:41,670

with the pyramids back you know to the

2287

01:54:46,169 --> 01:54:43,689

younger driest period

2288

01:54:49,469 --> 01:54:46,179

ten twelve thirteen thousand years ago

2289

01:54:52,169 --> 01:54:49,479

those pyramids aren't twenty whatever BC

2290

01:54:54,899 --> 01:54:52,179

they're two and three times older than

2291

01:54:57,179 --> 01:54:54,909

that so how many people did you have

2292

01:54:59,640 --> 01:54:57,189

back then was it more or was it less

2293

01:55:01,679 --> 01:54:59,650

right oh this whole thing that at this

2294

01:55:04,679 --> 01:55:01,689

point you're trying to make I think is

2295

01:55:07,500 --> 01:55:04,689

even worse than the example you you gave

2296

01:55:09,750 --> 01:55:07,510

it's more impossible to make that

2297

01:55:12,390 --> 01:55:09,760

argument and and sustain it it's just

2298

01:55:18,179 --> 01:55:12,400

it's just not tenable period and the

2299

01:55:21,689 --> 01:55:18,189

only way to start to accept I mean if

2300

01:55:24,000 --> 01:55:21,699

you are going to buy these kinds of

2301  
01:55:25,709 --> 01:55:24,010  
narratives that there was a hundred

2302  
01:55:28,739 --> 01:55:25,719  
thousand people that that built the

2303  
01:55:33,989 --> 01:55:28,749  
pyramids it didn't happen then there had

2304  
01:55:37,770 --> 01:55:33,999  
to have been a culture that was not only

2305  
01:55:40,679 --> 01:55:37,780  
advanced but populated and organized

2306  
01:55:42,899 --> 01:55:40,689  
right where they had agriculture they

2307  
01:55:46,799 --> 01:55:42,909  
had organization they had a government

2308  
01:55:51,299 --> 01:55:46,809  
they probably had a religion and they

2309  
01:55:53,729 --> 01:55:51,309  
were able to do those things that were

2310  
01:55:57,120 --> 01:55:53,739  
needed and I'm talking about the

2311  
01:56:02,819 --> 01:55:57,130  
engineering the quarrying and this is

2312  
01:56:05,989 --> 01:56:02,829  
before the Iron Age right yeah this is

2313  
01:56:09,000 --> 01:56:05,999

without steel this was with allegedly

2314

01:56:10,469 --> 01:56:09,010

without the wheel that they did this

2315

01:56:13,140 --> 01:56:10,479

with stone tools

2316

01:56:14,549 --> 01:56:13,150

maybe copper chisels I don't believe

2317

01:56:16,799 --> 01:56:14,559

they didn't have the wheel I don't

2318

01:56:20,699 --> 01:56:16,809

believe that that is me that's right I

2319

01:56:24,239 --> 01:56:20,709

mean it's there to to do this kind of

2320

01:56:26,339 --> 01:56:24,249

work we need to start to accept things

2321

01:56:29,339 --> 01:56:26,349

that are outside of the box that just

2322

01:56:31,199 --> 01:56:29,349

maybe this other stuff was going on

2323

01:56:33,870 --> 01:56:31,209

and there was another culture there that

2324

01:56:36,299 --> 01:56:33,880

was involved that did this because the

2325

01:56:38,669 --> 01:56:36,309

population and the numbers in the time

2326

01:56:41,790 --> 01:56:38,679

table and the technology that you are

2327

01:56:50,669 --> 01:56:41,800

presenting to us just us and work it

2328

01:56:52,589 --> 01:56:50,679

doesn't work I'm waiting oh I'm sorry I

2329

01:56:56,070 --> 01:56:52,599

said it just doesn't it just doesn't

2330

01:56:59,190 --> 01:56:56,080

work no it doesn't work and

2331

01:57:01,740 --> 01:56:59,200

it'll never work so you know the horse

2332

01:57:04,110 --> 01:57:01,750

is dead get off and and let's try

2333

01:57:05,880 --> 01:57:04,120

something different I mean that's that's

2334

01:57:07,560 --> 01:57:05,890

what I have to say and I maybe it's

2335

01:57:10,230 --> 01:57:07,570

maybe it's a little bit harsh but I'm

2336

01:57:12,210 --> 01:57:10,240

sorry Jim if the data doesn't fit then

2337

01:57:14,280 --> 01:57:12,220

you know you have to you have to try

2338

01:57:17,310 --> 01:57:14,290

something else and that's not the right

2339

01:57:21,150 --> 01:57:17,320

answer and the the other point is

2340

01:57:27,080 --> 01:57:21,160

something that you have been looking at

2341

01:57:31,640 --> 01:57:27,090

and following in your research is a

2342

01:57:35,460 --> 01:57:31,650

transoceanic conversation that's where

2343

01:57:39,600 --> 01:57:35,470

when we look at history and not only

2344

01:57:41,850 --> 01:57:39,610

archaeology but anthropology and and the

2345

01:57:44,220 --> 01:57:41,860

technology and the organization of

2346

01:57:48,050 --> 01:57:44,230

different societies and cultures

2347

01:57:53,190 --> 01:57:48,060

if we go with the Orthodox views on this

2348

01:57:56,460 --> 01:57:53,200

that the transoceanic answers didn't

2349

01:57:58,320 --> 01:57:56,470

happen until much later that everything

2350

01:58:01,740 --> 01:57:58,330

was done by the shoreline in the

2351

01:58:04,290 --> 01:58:01,750

Mediterranean right no no you know some

2352

01:58:11,690 --> 01:58:04,300

Jim in the Cremona document we have a

2353

01:58:14,480 --> 01:58:11,700

page that shows a picture of Amenhotep

2354

01:58:17,630 --> 01:58:14,490

believe it's Amenhotep you might have to

2355

01:58:21,480 --> 01:58:17,640

hold off on that I'll double-check but

2356

01:58:26,670 --> 01:58:21,490

it's it's an obelisk that was in Egypt

2357

01:58:30,210 --> 01:58:26,680

and Luxor and the top of that obelisk

2358

01:58:30,990 --> 01:58:30,220

it shows the pyramidion at the top

2359

01:58:34,290 --> 01:58:31,000

mm-hmm

2360

01:58:37,530 --> 01:58:34,300

was hollow it came off and it was Hollow

2361

01:58:43,650 --> 01:58:37,540

and inside of it were maps of the world

2362

01:58:49,950 --> 01:58:43,660

and this is going back 3,000 BP now that

2363

01:58:52,290 --> 01:58:49,960

particular obelisk was taken down and

2364

01:58:58,170 --> 01:58:52,300

brought to Europe and you know where it

2365

01:59:01,920 --> 01:58:58,180

is now Germany no Rome Paris France

2366

01:59:03,330 --> 01:59:01,930

France and I want to go if you want to

2367

01:59:07,230 --> 01:59:03,340

just Google real quick

2368

01:59:07,709 --> 01:59:07,240

but hold on each pyramid in these Paris

2369

01:59:10,020 --> 01:59:07,719

France

2370

01:59:13,830 --> 01:59:10,030

hold on Scott each one of the cities

2371

01:59:17,000 --> 01:59:13,840

that I just named has like a 200 ton

2372

01:59:19,800 --> 01:59:17,010

obelisk in it that came from Egypt right

2373

01:59:21,800 --> 01:59:19,810

right now we have one in Central Park

2374

01:59:26,040 --> 01:59:21,810

there's one in Central Park which is

2375

01:59:29,430 --> 01:59:26,050

mind-boggling Lee blowing my craziness

2376

01:59:31,590 --> 01:59:29,440

when you see it but is so freakin cool

2377

01:59:36,479 --> 01:59:31,600

we did it we've done two episodes where

2378

01:59:38,729 --> 01:59:36,489

we use that as you know is for scenes

2379

01:59:42,660 --> 01:59:38,739

that we shot in in the in the episode

2380

01:59:46,740 --> 01:59:42,670

but if you if you don't mind Google that

2381

01:59:48,810 --> 01:59:46,750

obelisk in Paris pull up a picture of it

2382

01:59:51,600 --> 01:59:48,820

I looked at it two days ago in a

2383

01:59:57,479 --> 01:59:51,610

documentary and I watched a documentary

2384

02:00:03,709 --> 01:59:57,489

about that obelisk you know the top of

2385

02:00:06,390 --> 02:00:03,719

that obelisk was stolen like 300 BC and

2386

02:00:09,090 --> 02:00:06,400

okay so look at look at the picture what

2387

02:00:18,540 --> 02:00:09,100

is the top I'm looking at it now hang on

2388

02:00:21,870 --> 02:00:18,550

uh different right yes because the top

2389

02:00:24,300 --> 02:00:21,880

is gone now you see in the Cremona

2390

02:00:26,790 --> 02:00:24,310

document it says it was stolen because

2391

02:00:29,729 --> 02:00:26,800

there were maps of the OL of the entire

2392

02:00:33,479 --> 02:00:29,739

world now it's very interesting we're

2393

02:00:35,880 --> 02:00:33,489

inside and that was stolen in 300 BC and

2394

02:00:37,850 --> 02:00:35,890

it just turns out that obelisk today

2395

02:00:40,979 --> 02:00:37,860

doesn't have a top it's got a gold top

2396

02:00:44,790 --> 02:00:40,989

isn't that interesting and this is the

2397

02:00:47,640 --> 02:00:44,800

thing that that that obelisk in in Paris

2398

02:00:49,500 --> 02:00:47,650

when Watson this documentary the other

2399

02:00:51,780 --> 02:00:49,510

day and I'm watching people standing

2400

02:00:55,110 --> 02:00:51,790

next to it walk you don't get the size

2401  
02:00:59,820 --> 02:00:55,120  
of it you don't have a sense of it's

2402  
02:01:03,450 --> 02:00:59,830  
eight stories tall one piece of red

2403  
02:01:04,290 --> 02:01:03,460  
granite that's right now back to my

2404  
02:01:09,510 --> 02:01:04,300  
point

2405  
02:01:13,350 --> 02:01:09,520  
a transoceanic culture had to exist with

2406  
02:01:16,669 --> 02:01:13,360  
boats big enough to put that on it and

2407  
02:01:19,350 --> 02:01:16,679  
not sink

2408  
02:01:22,560 --> 02:01:19,360  
that's all it's it's hard enough to do

2409  
02:01:26,100 --> 02:01:22,570  
today all right that is something that

2410  
02:01:30,569 --> 02:01:26,110  
they cannot break it the ship was big

2411  
02:01:32,609 --> 02:01:30,579  
enough not to flex and now it obviously

2412  
02:01:35,939 --> 02:01:32,619  
made the trip because there it is right

2413  
02:01:39,419 --> 02:01:35,949

that's right that's right it's in it's

2414

02:01:41,100 --> 02:01:39,429

incredible and so you know getting back

2415

02:01:44,699 --> 02:01:41,110

to your whole point about these you know

2416

02:01:46,979 --> 02:01:44,709

this this this academic narrative that

2417

02:01:49,100 --> 02:01:46,989

they want us to try to you know they

2418

02:01:51,779 --> 02:01:49,110

keep shoving down our throats it's like

2419

02:01:53,689 --> 02:01:51,789

where's the pushback I mean it seems to

2420

02:01:56,069 --> 02:01:53,699

me like there's there's there's

2421

02:01:57,899 --> 02:01:56,079

relatively few people that are fighting

2422

02:02:01,439 --> 02:01:57,909

back but I've also talked to people that

2423

02:02:03,330 --> 02:02:01,449

say that that you know that position

2424

02:02:05,939 --> 02:02:03,340

that they've held onto for so long is

2425

02:02:08,219 --> 02:02:05,949

slowly crumbling and it's it isn't

2426

02:02:10,529 --> 02:02:08,229

tenable and it is going to go away and

2427

02:02:14,669 --> 02:02:10,539

and things like these documents that are

2428

02:02:17,370 --> 02:02:14,679

coming out that are proving that that

2429

02:02:20,339 --> 02:02:17,380

it's just silly to hold on to that and

2430

02:02:22,709 --> 02:02:20,349

it's time to let go you know and and and

2431

02:02:26,790 --> 02:02:22,719

I hope it happens in my lifetime because

2432

02:02:31,020 --> 02:02:26,800

it's just it's it's stifles progress it

2433

02:02:35,909 --> 02:02:31,030

it demoralizes people and it's it's just

2434

02:02:40,709 --> 02:02:35,919

it's just wrong we just enough done and

2435

02:02:42,000 --> 02:02:40,719

and so what is it that we need and

2436

02:02:44,520 --> 02:02:42,010

that's what I was talking about with

2437

02:02:47,060 --> 02:02:44,530

your research it's certainly bringing up

2438

02:02:51,750 --> 02:02:47,070

the Paris obelisk is is something that

2439

02:02:54,799 --> 02:02:51,760

can be used as evidence but for you what

2440

02:02:58,350 --> 02:02:54,809

is the best example that these

2441

02:03:02,719 --> 02:02:58,360

transoceanic opportunities were

2442

02:03:06,120 --> 02:03:02,729

happening with regularity and with ease

2443

02:03:08,100 --> 02:03:06,130

well I if you want to go back to what

2444

02:03:10,620 --> 02:03:08,110

was probably some of the earlier stuff I

2445

02:03:12,419 --> 02:03:10,630

would say the copper culture and you

2446

02:03:13,770 --> 02:03:12,429

know I've had arguments with the

2447

02:03:15,689 --> 02:03:13,780

scholars that say well there's no

2448

02:03:17,429 --> 02:03:15,699

evidence that that there were people

2449

02:03:17,790 --> 02:03:17,439

coming here to mine copper and I go

2450

02:03:20,069 --> 02:03:17,800

really

2451

02:03:24,419 --> 02:03:20,079

or what about the tens of thousands of

2452

02:03:26,040 --> 02:03:24,429

of copper mines that we we got holes in

2453

02:03:29,129 --> 02:03:26,050

the ground here in northern Minnesota

2454

02:03:31,590 --> 02:03:29,139

Isle rile in the U P of Michigan

2455

02:03:33,720 --> 02:03:31,600

in other parts of northern Canada that

2456

02:03:35,700 --> 02:03:33,730

can be dated back as far as six to eight

2457

02:03:37,830 --> 02:03:35,710

thousand years ago somebody was digging

2458

02:03:39,450 --> 02:03:37,840

up there and the indigenous people say

2459

02:03:42,600 --> 02:03:39,460

that that wasn't us we didn't do that

2460

02:03:46,080 --> 02:03:42,610

and and remember after the glaciers

2461

02:03:48,000 --> 02:03:46,090

melted back right there was native

2462

02:03:50,970 --> 02:03:48,010

copper just laying on the ground all

2463

02:03:53,430 --> 02:03:50,980

over the place up in our country here in

2464

02:03:55,770 --> 02:03:53,440

the Great Lakes region mm-hmm you know

2465

02:03:58,700 --> 02:03:55,780

and down into Greater Minnesota my god

2466

02:04:01,740 --> 02:03:58,710

I've got an 85 pound piece downstairs

2467

02:04:04,590 --> 02:04:01,750

that I got in a collection of agates

2468

02:04:07,290 --> 02:04:04,600

that I bought from a guy last year this

2469

02:04:09,899 --> 02:04:07,300

is an 85 pound piece of copper that that

2470

02:04:12,780 --> 02:04:09,909

was found down here southwest of the

2471

02:04:15,629 --> 02:04:12,790

Twin Cities in savage Minnesota mountain

2472

02:04:18,149 --> 02:04:15,639

savage in Carver Minnesota right along

2473

02:04:20,070 --> 02:04:18,159

the Minnesota River bottoms and the guy

2474

02:04:22,640 --> 02:04:20,080

I bought these agates from this copper

2475

02:04:25,109 --> 02:04:22,650

piece from worked in the gravel pit and

2476

02:04:26,729 --> 02:04:25,119

he used to sit on the belt and grab

2477

02:04:28,890 --> 02:04:26,739

agates and put them in buckets and

2478

02:04:32,580 --> 02:04:28,900

that's what I bought from him but he

2479

02:04:34,470 --> 02:04:32,590

told me he said this piece of copper he

2480

02:04:37,169 --> 02:04:34,480

said I didn't see it going up the belt

2481

02:04:39,780 --> 02:04:37,179

and it went up and it went down into the

2482

02:04:42,359 --> 02:04:39,790

crusher to crush the stuff down to you

2483

02:04:45,240 --> 02:04:42,369

know the size that they that they wanted

2484

02:04:48,689 --> 02:04:45,250

it down to it seized up the crusher it

2485

02:04:51,060 --> 02:04:48,699

just oh and it shut it down and you can

2486

02:04:53,280 --> 02:04:51,070

see the teeth marks in this piece of

2487

02:04:57,689 --> 02:04:53,290

copper I got it downstairs it's

2488

02:05:00,209 --> 02:04:57,699

incredible so that copper that was that

2489

02:05:02,430 --> 02:05:00,219

the glaciers picked out from the you

2490

02:05:05,340 --> 02:05:02,440

know Isle Royale northern Minnesota

2491

02:05:07,859 --> 02:05:05,350

Upper Peninsula Michigan area following

2492

02:05:10,169 --> 02:05:07,869

the tract of lakes appeared down all the

2493

02:05:12,300 --> 02:05:10,179

way to just a few miles away from where

2494

02:05:14,820 --> 02:05:12,310

I live and I've gone around Minnesota

2495

02:05:17,160 --> 02:05:14,830

and I bought copper pieces from farmers

2496

02:05:19,169 --> 02:05:17,170

for years but that's the biggest one

2497

02:05:22,109 --> 02:05:19,179

I've ever seen and it shut down a

2498

02:05:26,550 --> 02:05:22,119

crusher how about that well okay you

2499

02:05:28,979 --> 02:05:26,560

you're the rock guy okay not Robert

2500

02:05:34,560 --> 02:05:28,989

Plant is the rock guy too as well but

2501  
02:05:37,919 --> 02:05:34,570  
you're the real rock guy how how much

2502  
02:05:41,729 --> 02:05:37,929  
can you deface a piece of red granite

2503  
02:05:42,779 --> 02:05:41,739  
with a copper chisel how much headway do

2504  
02:05:44,669 --> 02:05:42,789  
you make

2505  
02:05:47,910 --> 02:05:44,679  
I don't know man that's going to be a

2506  
02:05:50,339 --> 02:05:47,920  
pecking technique so you're not going to

2507  
02:05:52,620 --> 02:05:50,349  
have well I shouldn't say this maybe

2508  
02:05:55,439 --> 02:05:52,630  
they developed a good technique but it's

2509  
02:05:57,330 --> 02:05:55,449  
going to be hard to make manageable cuts

2510  
02:05:59,640 --> 02:05:57,340  
into that rock and get the kind of

2511  
02:06:01,649 --> 02:05:59,650  
precision in detail that you see right

2512  
02:06:03,569 --> 02:06:01,659  
on these obelisks that's absolutely

2513  
02:06:05,970 --> 02:06:03,579

incredible it almost looks like it's

2514

02:06:08,189 --> 02:06:05,980

mathematically you know you notice how

2515

02:06:11,459 --> 02:06:08,199

you have like the same symbol like let's

2516

02:06:14,700 --> 02:06:11,469

say it's a bird or an ankh or something

2517

02:06:17,250 --> 02:06:14,710

like that they're like perfect and you

2518

02:06:20,609 --> 02:06:17,260

look at another one and it's identical

2519

02:06:23,399 --> 02:06:20,619

it's not close or similar it's the same

2520

02:06:30,180 --> 02:06:23,409

right how the hell they do this I don't

2521

02:06:32,850 --> 02:06:30,190

know any decision and then I was at you

2522

02:06:35,640 --> 02:06:32,860

know the met in New York is it's got one

2523

02:06:39,029 --> 02:06:35,650

of the great Egyptian wings on the

2524

02:06:40,919 --> 02:06:39,039

planet there's you know it's amazing and

2525

02:06:43,229 --> 02:06:40,929

one of the display cases

2526  
02:06:48,509 --> 02:06:43,239  
so we're Rita and I are walking through

2527  
02:06:52,350 --> 02:06:48,519  
and they have this tablet there and it

2528  
02:06:54,750 --> 02:06:52,360  
is carved I'm gonna say it's it's two

2529  
02:06:58,740 --> 02:06:54,760  
and a half feet tall maybe a foot and a

2530  
02:07:01,669 --> 02:06:58,750  
half wide round on the top totally

2531  
02:07:07,700 --> 02:07:01,679  
covered with these beautiful tiny

2532  
02:07:15,419 --> 02:07:11,549  
a diamond cutter and friggin Belgium

2533  
02:07:18,060 --> 02:07:15,429  
right it's just it looks like brand-new

2534  
02:07:19,560 --> 02:07:18,070  
right so Reid and I are standing there

2535  
02:07:23,040 --> 02:07:19,570  
and we're looking at this and it's it's

2536  
02:07:25,589 --> 02:07:23,050  
red granite and there's a little card at

2537  
02:07:31,680 --> 02:07:25,599  
the bottom and it says this was carved

2538  
02:07:34,080 --> 02:07:31,690

in 2400 BC with these tools right okay

2539

02:07:37,350 --> 02:07:34,090

now and right- so you're looking and

2540

02:07:40,919 --> 02:07:37,360

right next to it is this little copper

2541

02:07:43,799 --> 02:07:40,929

looks like a nail right little copper

2542

02:07:46,890 --> 02:07:43,809

nail and another one that looks like a

2543

02:07:49,890 --> 02:07:46,900

scalpel a little copper scalpel like a

2544

02:07:51,890 --> 02:07:49,900

little butter knife those two tools are

2545

02:07:56,600 --> 02:07:51,900

sitting there on top of a

2546

02:07:59,600 --> 02:07:56,610

leather pouch that these tools were kept

2547

02:08:03,229 --> 02:07:59,610

in and you look at those copper tools

2548

02:08:06,439 --> 02:08:03,239

right and you look at this tablet and it

2549

02:08:08,330 --> 02:08:06,449

says that they were found together right

2550

02:08:15,760 --> 02:08:08,340

and you're looking at the tool you're

2551

02:08:22,220 --> 02:08:18,830

there's just no way it's impossible I

2552

02:08:24,740 --> 02:08:22,230

don't even think that those that a it

2553

02:08:25,580 --> 02:08:24,750

would scratch the granite I don't

2554

02:08:28,850 --> 02:08:25,590

believe that

2555

02:08:31,580 --> 02:08:28,860

- wise it wouldn't it wouldn't know you

2556

02:08:32,890 --> 02:08:31,590

know and but but yet it's it's in a

2557

02:08:34,970 --> 02:08:32,900

display case

2558

02:08:38,840 --> 02:08:34,980

thousands of people walk by it every

2559

02:08:42,970 --> 02:08:38,850

single day and that becomes their truth

2560

02:08:48,200 --> 02:08:42,980

it's it's in a museum it's at the Met

2561

02:08:50,570 --> 02:08:48,210

it's been vetted it's I just I just

2562

02:08:54,260 --> 02:08:50,580

don't buy it and as as somebody that

2563

02:08:57,680 --> 02:08:54,270

works with rock when you hear the you

2564

02:09:01,910 --> 02:08:57,690

know because we're talking about not not

2565

02:09:05,180 --> 02:09:01,920

the Iron Age but the Bronze Age right

2566

02:09:08,959 --> 02:09:05,190

where and the Copper Age where copper

2567

02:09:11,209 --> 02:09:08,969

was soft it was soft they the technology

2568

02:09:14,720 --> 02:09:11,219

of getting it to the point where is even

2569

02:09:17,090 --> 02:09:14,730

usable over time didn't come till after

2570

02:09:18,590 --> 02:09:17,100

that and that's what they wanted to mix

2571

02:09:19,160 --> 02:09:18,600

it with something else to give it

2572

02:09:22,450 --> 02:09:19,170

strength

2573

02:09:25,100 --> 02:09:22,460

I mean native copper is very soft I mean

2574

02:09:27,229 --> 02:09:25,110

you can do you can take it you can pound

2575

02:09:31,490 --> 02:09:27,239

it on on something hard and it'll

2576

02:09:33,950 --> 02:09:31,500

flatten I mean it's it's soft and very

2577

02:09:37,340 --> 02:09:33,960

malleable as they say very very

2578

02:09:39,260 --> 02:09:37,350

malleable and the you would have to mix

2579

02:09:41,300 --> 02:09:39,270

it with in the beginning I could be

2580

02:09:43,760 --> 02:09:41,310

wrong here everybody just save the email

2581

02:09:45,649 --> 02:09:43,770

but I think it was like arsenic right

2582

02:09:48,110 --> 02:09:45,659

there was some something that the

2583

02:09:50,630 --> 02:09:48,120

attitude in the beginning and it kind of

2584

02:09:54,050 --> 02:09:50,640

you know change it but later they added

2585

02:09:55,850 --> 02:09:54,060

tin and then you had bronze but that was

2586

02:09:58,760 --> 02:09:55,860

technology that didn't happen for a

2587

02:10:02,030 --> 02:09:58,770

couple of hundred years after the

2588

02:10:04,010 --> 02:10:02,040

alleged dates of yeah bronze bronze age

2589

02:10:05,449 --> 02:10:04,020

went for quite a while that that was a

2590

02:10:08,779 --> 02:10:05,459

harder material

2591

02:10:12,469 --> 02:10:08,789

of course you get zinc and copper to

2592

02:10:14,750 --> 02:10:12,479

make brass and that's not a hell of a

2593

02:10:17,179 --> 02:10:14,760

lot harder but I just don't think that

2594

02:10:19,219 --> 02:10:17,189

that's what they you know what I think

2595

02:10:21,410 --> 02:10:19,229

that they were using diamond because if

2596

02:10:23,000 --> 02:10:21,420

you think about it Africa is where most

2597

02:10:25,699 --> 02:10:23,010

of the diamonds came from back in the

2598

02:10:28,819 --> 02:10:25,709

old world and it's not that well he'll

2599

02:10:30,739 --> 02:10:28,829

eat chips right there right so maybe

2600

02:10:34,669 --> 02:10:30,749

maybe they were using diamond maybe

2601  
02:10:36,620 --> 02:10:34,679  
these tools were used with diamond to

2602  
02:10:39,109 --> 02:10:36,630  
cut the things I mean I don't know how

2603  
02:10:41,270 --> 02:10:39,119  
they did it but I don't buy the copper

2604  
02:10:44,589 --> 02:10:41,280  
either no no way yeah and I have it and

2605  
02:10:47,779 --> 02:10:44,599  
I struggle with a bronze tool I'm

2606  
02:10:50,689 --> 02:10:47,789  
standing at the Met and and route of

2607  
02:10:52,819 --> 02:10:50,699  
time so I'm gonna say thank you but

2608  
02:10:55,339 --> 02:10:52,829  
really quickly standing at the Met they

2609  
02:10:57,620 --> 02:10:55,349  
have a bunch of sarcophagi that are

2610  
02:11:03,500 --> 02:10:57,630  
ginormous right and they had this one

2611  
02:11:07,549 --> 02:11:03,510  
from you know 2400 2300 be old right old

2612  
02:11:10,489 --> 02:11:07,559  
old old dynasty and it's black and it's

2613  
02:11:14,540 --> 02:11:10,499

probably 20 feet long it's probably 8

2614

02:11:16,669 --> 02:11:14,550

feet wide with a lid on the top you know

2615

02:11:20,239 --> 02:11:16,679

it's standing like 6 feet tall as tall

2616

02:11:24,199 --> 02:11:20,249

as I am the lid is a foot thick for 2

2617

02:11:25,910 --> 02:11:24,209

feet thick of black granite and and I go

2618

02:11:27,830 --> 02:11:25,920

and I look on the inside of this thing

2619

02:11:30,439 --> 02:11:27,840

and it's completely covered with

2620

02:11:33,140 --> 02:11:30,449

precision and hieroglyphics yeah and

2621

02:11:41,239 --> 02:11:33,150

yeah and you knock on this thing and

2622

02:11:43,250 --> 02:11:41,249

it's like knocking on the ground how did

2623

02:11:47,569 --> 02:11:43,260

they move in how did they carve it how

2624

02:11:49,699 --> 02:11:47,579

to you know I just I don't understand I

2625

02:11:52,790 --> 02:11:49,709

really don't know what it is Jim here's

2626

02:11:55,310 --> 02:11:52,800

the bottom line I don't think we have a

2627

02:11:57,169 --> 02:11:55,320

clue the bottom line is there is we

2628

02:11:58,850 --> 02:11:57,179

don't have a clue how they did it we

2629

02:12:01,189 --> 02:11:58,860

have not figured it out yet

2630

02:12:03,799 --> 02:12:01,199

it's one of the great mysteries that it

2631

02:12:06,020 --> 02:12:03,809

still has yet to be solved and I think

2632

02:12:08,810 --> 02:12:06,030

that's super cool and you know what it's

2633

02:12:12,109 --> 02:12:08,820

ok we don't have to have all the answers

2634

02:12:13,790 --> 02:12:12,119

right now but you know what I guess the

2635

02:12:15,649 --> 02:12:13,800

problem I have is don't give me this

2636

02:12:18,859 --> 02:12:15,659

sunshine that just doesn't make any

2637

02:12:20,149 --> 02:12:18,869

sense and try to try to you know

2638

02:12:22,339 --> 02:12:20,159

that wouldn't buy me because I'm not

2639

02:12:24,679 --> 02:12:22,349

buying it and I don't buy it and I think

2640

02:12:26,689 --> 02:12:24,689

it's okay to say you don't know I wish

2641

02:12:28,669 --> 02:12:26,699

more people would say that and I get

2642

02:12:30,409 --> 02:12:28,679

people get mad at me sometimes on the

2643

02:12:32,569 --> 02:12:30,419

show when I say when we don't get an

2644

02:12:35,359 --> 02:12:32,579

answer sometimes the answer is you don't

2645

02:12:37,009 --> 02:12:35,369

know and if it is you need to say it and

2646

02:12:40,580 --> 02:12:37,019

this is one of those times

2647

02:12:43,750 --> 02:12:40,590

yeah I can tell you what it's not it's

2648

02:12:47,029 --> 02:12:43,760

not chicken bones and copper chisels

2649

02:12:49,219 --> 02:12:47,039

Scott thank you so much and safe travels

2650

02:12:52,549 --> 02:12:49,229

to the both of you we'll see you in

2651  
02:12:55,489 --> 02:12:52,559  
three short weeks yes I can't wait and

2652  
02:12:57,529 --> 02:12:55,499  
thanks for having me on here and you did

2653  
02:12:59,149 --> 02:12:57,539  
really good but you're not even close on

2654  
02:13:01,369 --> 02:12:59,159  
your guesses but that's okay you're

2655  
02:13:02,929 --> 02:13:01,379  
still a great guy and I love you I'll

2656  
02:13:06,350 --> 02:13:02,939  
get it out of the view with a couple

2657  
02:13:08,629 --> 02:13:06,360  
shots of vodka on February 7th sky ride

2658  
02:13:11,359 --> 02:13:08,639  
I'm a cheap date let's do it thank you

2659  
02:13:15,469 --> 02:13:11,369  
so much my friend all right Jim take
