[Music]

00:00:25,830 --> 00:00:22,360
[Applause]

3
00:02:24,150 --> 00:00:25,840
[Music]

4
00:02:27,589 --> 00:02:24,160
three words advanced aerial threat

5
00:02:30,070 --> 00:02:27,599
who in the cia nsa dia

6
00:02:32,150 --> 00:02:30,080
tells at least the united states of

7
00:02:34,470 --> 00:02:32,160
america that we're not alone in this

8
00:02:37,430 --> 00:02:34,480
universe we have never been alone in

9
00:02:39,430 --> 00:02:37,440
this universe

10
00:02:41,350 --> 00:02:39,440
the u.s government really has kept that

11
00:02:43,589 --> 00:02:41,360
secret not only from the american people

12
00:02:45,990 --> 00:02:43,599
which is bad enough but even kept it

13
00:02:48,229 --> 00:02:46,000

from itself

14

00:02:50,309 --> 00:02:48,239
the ufo community has been portrayed as

15

00:02:51,750 --> 00:02:50,319
conspiracy theorists and tin foil hats

16

00:02:54,550 --> 00:02:51,760
and we're crazy

17

00:02:57,190 --> 00:02:54,560
and the government is now admitting that

18

00:02:58,309 --> 00:02:57,200
uh ufos are real and disclosure is here

19

00:03:00,149 --> 00:02:58,319
suddenly

20

00:03:02,390 --> 00:03:00,159
they're our friend

21

00:03:06,710 --> 00:03:02,400
no america's defense establishment is

22

00:03:08,550 --> 00:03:06,720
finally admitting some of what it knows

23

00:03:10,710 --> 00:03:08,560
this could have been a chance to say

24

00:03:12,790 --> 00:03:10,720
we're going to collaborate with the

25

00:03:15,350 --> 00:03:12,800
representatives of the people in what is

26
00:03:18,550 --> 00:03:15,360
supposed to be a government of by and

27
00:03:20,070 --> 00:03:18,560
for the people if what they tell you is

28
00:03:23,270 --> 00:03:20,080
the truth

29
00:03:25,589 --> 00:03:23,280
there is no need to withhold it from

30
00:03:28,390 --> 00:03:25,599
public

31
00:03:30,630 --> 00:03:28,400
we've entered a quantum age making a

32
00:03:33,110 --> 00:03:30,640
leap not only in technology but also in

33
00:03:35,030 --> 00:03:33,120
consciousness companies are now creating

34
00:03:36,789 --> 00:03:35,040
non-sentient replacement humans they

35
00:03:38,470 --> 00:03:36,799
look just like you and i

36
00:03:40,949 --> 00:03:38,480
they're intended for customer service

37
00:03:42,390 --> 00:03:40,959
and things such as that but these neons

38
00:03:45,509 --> 00:03:42,400

as they're called could be more

39

00:03:49,110 --> 00:03:47,430

we're dealing with a fight there are

40

00:03:52,949 --> 00:03:49,120

forces behind the scenes that doesn't

41

00:03:55,589 --> 00:03:52,959

want any of this information to come out

42

00:03:59,110 --> 00:03:55,599

there's still a lot of truth that has

43

00:04:02,949 --> 00:04:00,869

it was one of those quote-unquote men in

44

00:04:05,190 --> 00:04:02,959

black but i i realize it's probably

45

00:04:06,070 --> 00:04:05,200

better now to be known as men in white

46

00:04:08,390 --> 00:04:06,080

bringing

47

00:04:10,630 --> 00:04:08,400

truth to the topic

48

00:04:17,680 --> 00:04:10,640

the problem with the truth is the truth

49

00:04:29,749 --> 00:04:20,550

[Music]

50

00:04:35,830 --> 00:04:33,189

just amazing welcome everybody i'm your

51

00:04:39,110 --> 00:04:35,840

host jimmy church and

52

00:04:42,469 --> 00:04:39,120

happy holidays this is a very special

53

00:04:45,670 --> 00:04:42,479

live stream tonight uh presentation

54

00:04:50,629 --> 00:04:45,680

for the film the observers

55

00:04:52,150 --> 00:04:50,639

and this also is streaming tonight uh to

56

00:04:54,790 --> 00:04:52,160

our community

57

00:04:57,270 --> 00:04:54,800

on a very special day this is december

58

00:04:59,270 --> 00:04:57,280

17th and

59

00:05:03,990 --> 00:04:59,280

if we all go back and think about the

60

00:05:06,230 --> 00:05:04,000

changes that started december 17 2017

61

00:05:10,550 --> 00:05:06,240

and where we are today

62

00:05:11,590 --> 00:05:10,560

uh huge strides huge steps forward

63

00:05:14,469 --> 00:05:11,600

and

64

00:05:15,830 --> 00:05:14,479

i think we all recognize how special

65

00:05:17,590 --> 00:05:15,840

today is

66

00:05:19,350 --> 00:05:17,600

but it's also

67

00:05:22,310 --> 00:05:19,360

one of the catalysts

68

00:05:24,749 --> 00:05:22,320

for the making of the observers

69

00:05:27,670 --> 00:05:24,759

and the the

70

00:05:30,150 --> 00:05:27,680

overarching discussion with the

71

00:05:32,469 --> 00:05:30,160

observers out there in the community uh

72

00:05:33,830 --> 00:05:32,479

that centers around the film is where

73

00:05:36,629 --> 00:05:33,840

are we today

74

00:05:37,510 --> 00:05:36,639

uh what is disclosure uh what is being

75

00:05:40,310 --> 00:05:37,520

done

76

00:05:43,590 --> 00:05:40,320

how do we keep our foot on the gas

77

00:05:44,870 --> 00:05:43,600

how do we get science and technology

78

00:05:46,790 --> 00:05:44,880

in

79

00:05:48,710 --> 00:05:46,800

the other parts of the emotional

80

00:05:51,909 --> 00:05:48,720

discussion and the consciousness

81

00:05:53,510 --> 00:05:51,919

discussion of what is happening today in

82

00:05:56,790 --> 00:05:53,520

our world when it comes to the question

83

00:06:00,390 --> 00:05:56,800

of et contact etcs

84

00:06:03,510 --> 00:06:00,400

uh life in the universe and what may be

85

00:06:07,350 --> 00:06:03,520

visiting us here right now

86

00:06:08,550 --> 00:06:07,360

so as your host tonight i get to be an

87

00:06:11,590 --> 00:06:08,560

observer

88

00:06:13,749 --> 00:06:11,600

i am going to bring in three not only

89

00:06:16,790 --> 00:06:13,759

close friends but three of the brightest

90

00:06:18,710 --> 00:06:16,800

people in this community and then i get

91

00:06:20,790 --> 00:06:18,720

to back out

92

00:06:22,710 --> 00:06:20,800

and observe and listen to their

93

00:06:25,749 --> 00:06:22,720

conversation it's going to be an open

94

00:06:27,909 --> 00:06:25,759

frank and comprehensive conversation

95

00:06:29,110 --> 00:06:27,919

with our guest today first i would like

96

00:06:33,029 --> 00:06:29,120

to bring on

97

00:06:36,790 --> 00:06:33,039

professor avi loeb of harvard university

98

00:06:39,670 --> 00:06:36,800

and let's bring in avi first

99

00:06:44,150 --> 00:06:41,029

and i'm going to really enjoy this

104
00:06:52,870 --> 00:06:52,080
conversation tonight

105
00:06:54,950 --> 00:06:52,880
and

106
00:06:57,670 --> 00:06:54,960
uh avi's coming to us live from the east

107
00:07:00,710 --> 00:06:57,680

108
00:07:04,150 --> 00:07:00,720
tonight we have william henry

109
00:07:06,230 --> 00:07:04,160
william come on in live from the uk

110
00:07:08,629 --> 00:07:06,240
a man all about uh

111
00:07:10,870 --> 00:07:08,639
all about town and certainly

112
00:07:12,870 --> 00:07:10,880
internationally metropolitan you just

113
00:07:15,830 --> 00:07:12,880

got back from egypt you came back you

114

00:07:18,469 --> 00:07:15,840

said hello i had you and avi on fade to

115

00:07:21,029 --> 00:07:18,479

black back to back two nights in a row

116

00:07:22,790 --> 00:07:21,039

and you were at home in nashville now

117

00:07:24,469 --> 00:07:22,800

you're over in the uk

118

00:07:27,589 --> 00:07:24,479

and uh and then

119

00:07:31,350 --> 00:07:27,599

uh just north of me here in california

120

00:07:34,390 --> 00:07:31,360

we have chris issa up in oregon chris

121

00:07:36,070 --> 00:07:34,400

come on in and i want to introduce uh

122

00:07:40,469 --> 00:07:36,080

everybody to chris

123

00:07:42,550 --> 00:07:40,479

um the look the feel the vibe

124

00:07:45,510 --> 00:07:42,560

of the observers

125

00:07:48,550 --> 00:07:45,520

rested on chris's shoulders

126
00:07:50,950 --> 00:07:48,560
um editor production i would i'm going

127
00:07:52,309 --> 00:07:50,960
to say this we were under an extreme

128
00:07:55,110 --> 00:07:52,319
deadline

129
00:07:56,710 --> 00:07:55,120
uh to to make the world premiere and get

130
00:07:57,749 --> 00:07:56,720
the film out there it's been a huge

131
00:07:59,510 --> 00:07:57,759
success

132
00:08:02,309 --> 00:07:59,520
but all of that pressure

133
00:08:04,230 --> 00:08:02,319
was on you chris

134
00:08:06,629 --> 00:08:04,240
you did a great job the film is

135
00:08:08,150 --> 00:08:06,639
phenomenal and i want everybody in the

136
00:08:09,909 --> 00:08:08,160
audience they see your name in the film

137
00:08:12,629 --> 00:08:09,919
they see the credits but now they see

138
00:08:15,510 --> 00:08:12,639

the face and and the man behind so much

139

00:08:17,430 --> 00:08:15,520

hard work uh and so i want to thank you

140

00:08:18,790 --> 00:08:17,440

on behalf of the observers and and the

141

00:08:21,749 --> 00:08:18,800

team but also

142

00:08:23,670 --> 00:08:21,759

uh our audience today uh extend that to

143

00:08:25,589 --> 00:08:23,680

you chris thank you so much

144

00:08:26,390 --> 00:08:25,599

with that everybody i'm your host jimmy

145

00:08:29,909 --> 00:08:26,400

church

146

00:08:34,230 --> 00:08:29,919

i get to observe an amazing conversation

147

00:08:37,909 --> 00:08:35,990

all right thanks jimmy we appreciate it

148

00:08:40,550 --> 00:08:37,919

hello everybody thanks for uh giving us

149

00:08:42,310 --> 00:08:40,560

your attention today on this friday and

150

00:08:43,350 --> 00:08:42,320

thank you william thank you avi thanks

151

00:08:45,990 --> 00:08:43,360

for joining me here for this

152

00:08:47,990 --> 00:08:46,000

conversation i'm pretty excited to have

153

00:08:50,790 --> 00:08:48,000

the three of us get into some juicy

154

00:08:53,190 --> 00:08:50,800

material and uh just wanted to open up

155

00:08:55,269 --> 00:08:53,200

the floor and you know with anything i'd

156

00:08:58,389 --> 00:08:55,279

like to kind of start as sort of the the

157

00:09:00,550 --> 00:08:58,399

beginning right the origin point um and

158

00:09:02,949 --> 00:09:00,560

i wanted to to pose a question to the

159

00:09:05,110 --> 00:09:02,959

both of you and maybe obvi we can start

160

00:09:06,550 --> 00:09:05,120

with you um but i wanted to i was

161

00:09:08,230 --> 00:09:06,560

wondering you know

162

00:09:10,630 --> 00:09:08,240

the course that you're on right now the

163

00:09:12,710 --> 00:09:10,640

trajectory that you are on right now

164

00:09:14,870 --> 00:09:12,720

what happened sort of early in your life

165

00:09:17,030 --> 00:09:14,880

you know was there any moment any

166

00:09:20,150 --> 00:09:17,040

experience you know anything that took

167

00:09:21,990 --> 00:09:20,160

place early in your years that kind of

168

00:09:23,829 --> 00:09:22,000

set your course you know anything that

169

00:09:24,790 --> 00:09:23,839

had happened maybe anything comes to

170

00:09:26,550 --> 00:09:24,800

mind

171

00:09:29,190 --> 00:09:26,560

well the two things that

172

00:09:32,630 --> 00:09:29,200

reflect the way i behave right now are

173

00:09:35,750 --> 00:09:32,640

that uh i was born on a farm and it was

174

00:09:37,990 --> 00:09:35,760

very connected to nature more so than

175

00:09:40,389 --> 00:09:38,000

to social events and you know these

176

00:09:43,430 --> 00:09:40,399

these were the events that city

177

00:09:46,389 --> 00:09:43,440

boys and girls went to and i was pretty

178

00:09:49,190 --> 00:09:46,399

much with nature and um

179

00:09:51,030 --> 00:09:49,200

i'm still thinking about the space as an

180

00:09:52,949 --> 00:09:51,040

extension of that because

181

00:09:54,550 --> 00:09:52,959

it's it's that vast

182

00:09:56,630 --> 00:09:54,560

uh

183

00:09:58,470 --> 00:09:56,640

region that that surrounds us the

184

00:10:00,949 --> 00:09:58,480

biggest environment that was not

185

00:10:02,710 --> 00:10:00,959

contaminated yet by humans and

186

00:10:05,350 --> 00:10:02,720

it's really fascinating to figure out

187

00:10:06,870 --> 00:10:05,360

what's going on uh in the big

188

00:10:08,389 --> 00:10:06,880

scheme of things and

189

00:10:10,069 --> 00:10:08,399

the second

190

00:10:11,750 --> 00:10:10,079

thing that shaped my

191

00:10:15,430 --> 00:10:11,760

way of

192

00:10:17,190 --> 00:10:15,440

my career so to speak is that

193

00:10:18,550 --> 00:10:17,200

i was interested in the big questions so

194

00:10:20,389 --> 00:10:18,560

at a young age i was interested in

195

00:10:22,790 --> 00:10:20,399

philosophy i used to read philosophy

196

00:10:25,269 --> 00:10:22,800

books but then circumstances brought me

197

00:10:25,910 --> 00:10:25,279

into physics and astrophysics eventually

198

00:10:27,269 --> 00:10:25,920

and

199

00:10:30,230 --> 00:10:27,279

the one thing i remember from my

200

00:10:31,590 --> 00:10:30,240

childhood is being in

201
00:10:34,310 --> 00:10:31,600
dinners and

202
00:10:36,310 --> 00:10:34,320
asking a difficult questions and

203
00:10:38,230 --> 00:10:36,320
the adults in the room would pretend

204
00:10:40,310 --> 00:10:38,240
that they know the answer and that was

205
00:10:42,870 --> 00:10:40,320
obvious to me that they had no clue and

206
00:10:45,030 --> 00:10:42,880
they just wanted to portray an image

207
00:10:46,790 --> 00:10:45,040
where they know something and uh that

208
00:10:49,110 --> 00:10:46,800
was a good situation the the worst

209
00:10:50,230 --> 00:10:49,120
situation was when they would dismiss

210
00:10:52,230 --> 00:10:50,240
the question

211
00:10:54,550 --> 00:10:52,240
and um you know then i became a

212
00:10:56,550 --> 00:10:54,560
scientist and i thought that by doing so

213
00:10:58,230 --> 00:10:56,560

i will be surrounded by like-minded

214

00:11:00,550 --> 00:10:58,240

people that are extending their

215

00:11:02,949 --> 00:11:00,560

childhood curiosity and are willing to

216

00:11:05,190 --> 00:11:02,959

ask questions take risks and not

217

00:11:07,750 --> 00:11:05,200

pretending that they know the answer in

218

00:11:10,069 --> 00:11:07,760

advance and unfortunately with respect

219

00:11:12,069 --> 00:11:10,079

to the question we'll discuss today

220

00:11:13,110 --> 00:11:12,079

i have exactly the same feeling of

221

00:11:15,190 --> 00:11:13,120

people

222

00:11:17,110 --> 00:11:15,200

pretending to know the answer in advance

223

00:11:19,670 --> 00:11:17,120

dismissing the questions simply because

224

00:11:22,550 --> 00:11:19,680

they are ignorant about the answer and

225

00:11:24,790 --> 00:11:22,560

and you know um there is a tendency i

226

00:11:26,870 --> 00:11:24,800

actually wrote an essay just today about

227

00:11:29,990 --> 00:11:26,880

it

228

00:11:31,910 --> 00:11:30,000

you know there is the world of ideas the

229

00:11:34,150 --> 00:11:31,920

uh all the possible realities the

230

00:11:36,790 --> 00:11:34,160

virtual realities and you know we

231

00:11:38,870 --> 00:11:36,800

usually select ideas that flatter our

232

00:11:42,150 --> 00:11:38,880

ego like we are at the center of the

233

00:11:45,190 --> 00:11:42,160

universe uh we are the smartest kid on

234

00:11:47,990 --> 00:11:45,200

the block all of these things are ideas

235

00:11:50,150 --> 00:11:48,000

that we love because they flatter you

236

00:11:52,389 --> 00:11:50,160

know they boost our ego we feel good

237

00:11:54,629 --> 00:11:52,399

about it they give us pleasure

238

00:11:55,430 --> 00:11:54,639

and that's exactly what the

239

00:11:57,590 --> 00:11:55,440

you know

240

00:11:59,910 --> 00:11:57,600

facebook is advocating putting goggles

241

00:12:01,350 --> 00:11:59,920

on your eyes so that you would see a

242

00:12:03,509 --> 00:12:01,360

reality that

243

00:12:07,030 --> 00:12:03,519

gives you pleasure but it's not the

244

00:12:08,790 --> 00:12:07,040

reality that we all share and uh

245

00:12:10,710 --> 00:12:08,800

very often what we find by looking

246

00:12:13,350 --> 00:12:10,720

around is that we are not at the center

247

00:12:15,590 --> 00:12:13,360

of the universe that we are not perhaps

248

00:12:17,910 --> 00:12:15,600

the smartest kid on the block and it

249

00:12:20,710 --> 00:12:17,920

takes time for people to get used to the

250

00:12:22,790 --> 00:12:20,720

reality that we all share

251

00:12:24,470 --> 00:12:22,800

yeah incredible yeah thanks for for

252

00:12:25,509 --> 00:12:24,480

sharing that and those little slices of

253

00:12:27,590 --> 00:12:25,519

your life

254

00:12:29,670 --> 00:12:27,600

really great to know that you were sort

255

00:12:32,230 --> 00:12:29,680

of an earth child of sorts right on the

256

00:12:33,990 --> 00:12:32,240

farm put your feet in the dirt your

257

00:12:35,590 --> 00:12:34,000

hands on the grass

258

00:12:38,389 --> 00:12:35,600

i think that's unfortunately something

259

00:12:40,790 --> 00:12:38,399

that's missing a lot in today's youth

260

00:12:42,710 --> 00:12:40,800

and the upbringing of a lot of kids and

261

00:12:45,190 --> 00:12:42,720

uh something i thought and think that

262

00:12:47,750 --> 00:12:45,200

it's incredibly valuable i think to to

263

00:12:50,230 --> 00:12:47,760

have sort of this um uh you know i think

264

00:12:52,470 --> 00:12:50,240

the earth helps to take care of us too

265

00:12:55,110 --> 00:12:52,480

and uh and kind of sets the course for

266

00:12:56,629 --> 00:12:55,120

our lives and and for me it was the the

267

00:12:59,350 --> 00:12:56,639

chance that i had to put my feet on the

268

00:13:01,910 --> 00:12:59,360

grass and and follow the trees up into

269

00:13:04,870 --> 00:13:01,920

the sky to look at the stars that that

270

00:13:06,870 --> 00:13:04,880

uh gave me my natural curiosity into the

271

00:13:09,269 --> 00:13:06,880

beyond right and and what's what's out

272

00:13:11,590 --> 00:13:09,279

there and um you know i guess on on that

273

00:13:13,910 --> 00:13:11,600

note uh william i'm very interested to

274

00:13:15,509 --> 00:13:13,920

hear sort of uh pieces from your life

275

00:13:17,509 --> 00:13:15,519

you know what took place for you or in

276

00:13:19,269 --> 00:13:17,519

the early years that the early years

277

00:13:20,870 --> 00:13:19,279

that kind of set your course

278

00:13:22,550 --> 00:13:20,880

right well thank you chris and thank you

279

00:13:25,110 --> 00:13:22,560

avi it's a pleasure to be with you both

280

00:13:27,430 --> 00:13:25,120

this evening i grew up in uh in detroit

281

00:13:30,470 --> 00:13:27,440

i was highly influenced by my father who

282

00:13:32,949 --> 00:13:30,480

was a kind of a maverick lawyer uh

283

00:13:34,230 --> 00:13:32,959

entrepreneurial type or i should say he

284

00:13:36,949 --> 00:13:34,240

really he hung out with a lot of

285

00:13:38,790 --> 00:13:36,959

maverick people he he worked at home

286

00:13:42,389 --> 00:13:38,800

and so i was always serving coffee to

287

00:13:45,509 --> 00:13:42,399

these mostly phds one guy was trying to

288

00:13:47,750 --> 00:13:45,519

mine gold from seawater uh my father's

289

00:13:50,389 --> 00:13:47,760

best friend who i called my uncle was

290

00:13:51,829 --> 00:13:50,399

gibson guitars master luthier they were

291

00:13:52,870 --> 00:13:51,839

trying to build the world's perfect

292

00:13:54,389 --> 00:13:52,880

guitar

293

00:13:56,230 --> 00:13:54,399

and it just seemed like our household

294

00:13:59,750 --> 00:13:56,240

was always filled with these people with

295

00:14:02,870 --> 00:13:59,760

these amazing ideas where anything was

296

00:14:05,670 --> 00:14:02,880

possible and i kind of got the the buzz

297

00:14:08,550 --> 00:14:05,680

from that of uh wanting to open up

298

00:14:11,350 --> 00:14:08,560

consciousness in a way and and explore

299

00:14:13,670 --> 00:14:11,360

and and push limits really and

300

00:14:15,829 --> 00:14:13,680

then when i got into college i was going

301
00:14:18,310 --> 00:14:15,839
to follow my father's path he'd bought a

302
00:14:20,310 --> 00:14:18,320
record label we moved to nashville and i

303
00:14:22,150 --> 00:14:20,320
was going to be an entertainment lawyer

304
00:14:24,629 --> 00:14:22,160
and i ended up at a small southern

305
00:14:26,470 --> 00:14:24,639
baptist college that offered an

306
00:14:28,389 --> 00:14:26,480
entertainment music business program

307
00:14:30,710 --> 00:14:28,399
that would get you ready to go work on

308
00:14:32,470 --> 00:14:30,720
music grow in nashville

309
00:14:34,629 --> 00:14:32,480
and the catch was you had to take bible

310
00:14:36,790 --> 00:14:34,639
study classes and i knew nothing about

311
00:14:38,629 --> 00:14:36,800
the bible i like to say that in our home

312
00:14:41,829 --> 00:14:38,639
the four apostles were whale and willy

313
00:14:43,430 --> 00:14:41,839

chris and johnny and

314

00:14:45,350 --> 00:14:43,440

i get into this

315

00:14:47,910 --> 00:14:45,360

university area where now it's all of a

316

00:14:50,069 --> 00:14:47,920

sudden about the bible and i'm compelled

317

00:14:51,670 --> 00:14:50,079

to start looking into that and i it was

318

00:14:54,069 --> 00:14:51,680

then that i learned about the the

319

00:14:56,629 --> 00:14:54,079

parallel or mystical side of

320

00:14:59,430 --> 00:14:56,639

christianity and that was so alluring to

321

00:15:01,750 --> 00:14:59,440

me that the this this question of what

322

00:15:03,990 --> 00:15:01,760

what was the origins of christianity and

323

00:15:05,910 --> 00:15:04,000

who were these angels and and why

324

00:15:07,509 --> 00:15:05,920

doesn't the uh the traditional church

325

00:15:09,910 --> 00:15:07,519

want us to know too much about the

326

00:15:12,550 --> 00:15:09,920

mystical side of of jesus and the

327

00:15:14,389 --> 00:15:12,560

connection that he that he had to to the

328

00:15:16,069 --> 00:15:14,399

higher worlds i mean in the book of

329

00:15:18,310 --> 00:15:16,079

hebrews jesus says i'm from above and

330

00:15:20,230 --> 00:15:18,320

you are from below and that the world we

331

00:15:22,870 --> 00:15:20,240

live in is the shadow of the real world

332

00:15:25,269 --> 00:15:22,880

well what's the real world uh those

333

00:15:27,990 --> 00:15:25,279

became really important questions to me

334

00:15:29,910 --> 00:15:28,000

as a as a young man in my early 20s and

335

00:15:31,829 --> 00:15:29,920

and still

336

00:15:33,910 --> 00:15:31,839

really are the power pack that drive me

337

00:15:35,110 --> 00:15:33,920

today and and ultimately that is the

338

00:15:37,670 --> 00:15:35,120

question and i think that we're all

339

00:15:39,590 --> 00:15:37,680

trying to answer as observers is where

340

00:15:41,990 --> 00:15:39,600

did we come from and and what are we

341

00:15:45,030 --> 00:15:42,000

doing here and ultimately when it's our

342

00:15:46,310 --> 00:15:45,040

time to transcend this this life where

343

00:15:48,710 --> 00:15:46,320

do we go

344

00:15:50,790 --> 00:15:48,720

and how are we going to get there and so

345

00:15:52,870 --> 00:15:50,800

those are the questions that i think

346

00:15:55,430 --> 00:15:52,880

started out early on and they evolved

347

00:15:57,110 --> 00:15:55,440

and i'm still working on them

348

00:15:59,110 --> 00:15:57,120

oh great yeah thanks and thanks for that

349

00:16:01,110 --> 00:15:59,120

um seems like we're all sort of uh

350

00:16:03,509 --> 00:16:01,120

bonded you know on this

351

00:16:06,069 --> 00:16:03,519

existential pursuit you know for the

352

00:16:08,310 --> 00:16:06,079

depth of our experience here in reality

353

00:16:09,189 --> 00:16:08,320

and uh what is really going on here

354

00:16:11,189 --> 00:16:09,199

right

355

00:16:14,150 --> 00:16:11,199

that seems to be somewhat of a long

356

00:16:15,430 --> 00:16:14,160

tunnel to crawl through and and

357

00:16:17,030 --> 00:16:15,440

you know a lot of different ways that we

358

00:16:18,949 --> 00:16:17,040

can perceive that so

359

00:16:20,150 --> 00:16:18,959

uh good to be in in good company here

360

00:16:21,910 --> 00:16:20,160

and you actually said some things in

361

00:16:23,110 --> 00:16:21,920

there william that i was really hoping

362

00:16:25,030 --> 00:16:23,120

that we would touch upon in this

363

00:16:26,870 --> 00:16:25,040

conversation and and uh that's

364

00:16:29,350 --> 00:16:26,880

specifically when you were talking about

365

00:16:31,829 --> 00:16:29,360

sort of the uh the mystical connections

366

00:16:33,829 --> 00:16:31,839

you know behind not just christianity

367

00:16:35,350 --> 00:16:33,839

but um but you know sort of like all

368

00:16:37,350 --> 00:16:35,360

religions and

369

00:16:39,030 --> 00:16:37,360

and uh what i'm really interested in i i

370

00:16:41,030 --> 00:16:39,040

would love to hear sort of the both of

371

00:16:42,790 --> 00:16:41,040

you both of your perspectives about this

372

00:16:45,430 --> 00:16:42,800

but um

373

00:16:47,350 --> 00:16:45,440

what sort of impact does

374

00:16:49,269 --> 00:16:47,360

you know do this field this does this

375

00:16:51,910 --> 00:16:49,279

field of study with extraterrestrials

376

00:16:54,629 --> 00:16:51,920

and and uh the ancient world and uh

377

00:16:56,710 --> 00:16:54,639

specifically et contact you know what

378

00:16:58,710 --> 00:16:56,720

implications does that have you know and

379

00:17:00,949 --> 00:16:58,720

would that have on

380

00:17:02,949 --> 00:17:00,959

the religions of today on

381

00:17:04,949 --> 00:17:02,959

spirituality in general you know what

382

00:17:07,909 --> 00:17:04,959

would that do what ripple effect you

383

00:17:09,829 --> 00:17:07,919

know would that moment you know have on

384

00:17:11,990 --> 00:17:09,839

us and yeah go ahead very interesting

385

00:17:14,390 --> 00:17:12,000

that you asked that because a couple of

386

00:17:17,350 --> 00:17:14,400

months ago i received the an email from

387

00:17:19,029 --> 00:17:17,360

a rabbi uh in ann arbor michigan who

388

00:17:21,029 --> 00:17:19,039

said that

389

00:17:22,949 --> 00:17:21,039

he just gave a sermon for the jewish

390

00:17:25,429 --> 00:17:22,959

high holidays about my book

391

00:17:27,350 --> 00:17:25,439

extraterrestrial and then i realized

392

00:17:30,710 --> 00:17:27,360

well maybe there is a spiritual

393

00:17:33,750 --> 00:17:30,720

connection there and uh just a month ago

394

00:17:36,630 --> 00:17:33,760

i attended the forum in the washington

395

00:17:40,070 --> 00:17:36,640

national cathedral together i i spoke

396

00:17:41,270 --> 00:17:40,080

with two um reverends on my panel and

397

00:17:43,750 --> 00:17:41,280

then

398

00:17:46,150 --> 00:17:43,760

it was really interesting because

399

00:17:48,789 --> 00:17:46,160

i realized that there is a connection

400

00:17:51,430 --> 00:17:48,799

between spirituality and exploration of

401
00:17:53,990 --> 00:17:51,440
space trying to figure out if there are

402
00:17:56,710 --> 00:17:54,000
extraterrestrial civilizations and

403
00:17:58,830 --> 00:17:56,720
another person on on that panel was jeff

404
00:18:02,470 --> 00:17:58,840
bezos and he was talking about space

405
00:18:04,310 --> 00:18:02,480
tourism but i thought to myself you know

406
00:18:06,549 --> 00:18:04,320
if we ever want to leave the solar

407
00:18:08,950 --> 00:18:06,559
system there is no business plan for

408
00:18:11,350 --> 00:18:08,960
that the only reason we would do that is

409
00:18:13,110 --> 00:18:11,360
as a result of spirituality appreciating

410
00:18:15,830 --> 00:18:13,120
something bigger than us

411
00:18:18,310 --> 00:18:15,840
and the the other thing that i noticed

412
00:18:21,510 --> 00:18:18,320
is um you know when we

413
00:18:23,510 --> 00:18:21,520

discuss our scientific advances

414

00:18:26,310 --> 00:18:23,520

we are almost at the point where we can

415

00:18:28,710 --> 00:18:26,320

create synthetic life in the laboratory

416

00:18:30,789 --> 00:18:28,720

and in the distant future we might be

417

00:18:32,950 --> 00:18:30,799

able to unify quantum mechanics and

418

00:18:34,470 --> 00:18:32,960

gravity and perhaps even create a

419

00:18:37,510 --> 00:18:34,480

universe a baby universe in the

420

00:18:40,470 --> 00:18:37,520

laboratory and so my point was that an

421

00:18:42,870 --> 00:18:40,480

advanced scientific civilization

422

00:18:45,830 --> 00:18:42,880

is a good approximation to what

423

00:18:46,789 --> 00:18:45,840

traditional religious scripts uh called

424

00:18:47,590 --> 00:18:46,799

god

425

00:18:49,750 --> 00:18:47,600

uh

426

00:18:51,590 --> 00:18:49,760

so such a civilization may be able to do

427

00:18:52,470 --> 00:18:51,600

things that look like magic

428

00:18:55,270 --> 00:18:52,480

that

429

00:18:56,390 --> 00:18:55,280

we previously assigned to a divine

430

00:18:59,110 --> 00:18:56,400

entity and

431

00:19:01,350 --> 00:18:59,120

and therefore you know if we look around

432

00:19:02,310 --> 00:19:01,360

and and search for a smarter kid on our

433

00:19:05,110 --> 00:19:02,320

block

434

00:19:07,909 --> 00:19:05,120

uh we could learn a lot from that kid

435

00:19:11,590 --> 00:19:07,919

and moreover uh we can look at that kid

436

00:19:13,350 --> 00:19:11,600

then with admiration in some sense

437

00:19:15,110 --> 00:19:13,360

william i would love to hear your

438

00:19:16,710 --> 00:19:15,120

perspective on this and you know in

439

00:19:18,390 --> 00:19:16,720

terms of what you think the implications

440

00:19:20,390 --> 00:19:18,400

would be and then perhaps you can go

441

00:19:22,470 --> 00:19:20,400

into some of the clues you know maybe

442

00:19:23,990 --> 00:19:22,480

maybe religions of today you know have

443

00:19:25,990 --> 00:19:24,000

some sort of breadcrumbs that they've

444

00:19:28,549 --> 00:19:26,000

left that uh that they're already

445

00:19:30,390 --> 00:19:28,559

alluding to perhaps an extraterrestrial

446

00:19:31,669 --> 00:19:30,400

contact of some sort maybe you can speak

447

00:19:33,669 --> 00:19:31,679

to those things

448

00:19:35,830 --> 00:19:33,679

yeah right it's

449

00:19:38,710 --> 00:19:35,840

it's so important for us to not

450

00:19:39,750 --> 00:19:38,720

want to dismiss or throw out the holy

451
00:19:41,909 --> 00:19:39,760
books

452
00:19:44,070 --> 00:19:41,919
be it any of the world's religions

453
00:19:46,470 --> 00:19:44,080
especially the the three primary books

454
00:19:48,549 --> 00:19:46,480
the abrahamic religions because they are

455
00:19:50,710 --> 00:19:48,559
loaded with references to

456
00:19:52,310 --> 00:19:50,720
extraterrestrial contact when we're

457
00:19:53,990 --> 00:19:52,320
talking about angels when we're talking

458
00:19:55,669 --> 00:19:54,000
about creator beings when we're talking

459
00:19:58,630 --> 00:19:55,679
about being made in the image of these

460
00:20:00,789 --> 00:19:58,640
beings the the data is there what has

461
00:20:04,230 --> 00:20:00,799
been lacking is either the willingness

462
00:20:06,950 --> 00:20:04,240
the the desire to to see the the truth

463
00:20:09,110 --> 00:20:06,960

of this connection or simply the the

464

00:20:10,549 --> 00:20:09,120

ability to do so but now we're being

465

00:20:12,950 --> 00:20:10,559

challenged by

466

00:20:14,710 --> 00:20:12,960

uh presences that are on this planet and

467

00:20:17,669 --> 00:20:14,720

we're looking back at these texts and

468

00:20:19,430 --> 00:20:17,679

realizing that they they are not just

469

00:20:21,750 --> 00:20:19,440

sacred texts spiritual text there are

470

00:20:23,990 --> 00:20:21,760

also history books that tell us about

471

00:20:27,270 --> 00:20:24,000

these early interactions that are that

472

00:20:31,190 --> 00:20:27,280

are ongoing this is an unfolding

473

00:20:33,270 --> 00:20:31,200

scenario um i can give one example that

474

00:20:35,830 --> 00:20:33,280

i'm really excited to

475

00:20:38,230 --> 00:20:35,840

to share with avi is that

476

00:20:40,149 --> 00:20:38,240

i one of my specialties is the ancient

477

00:20:43,830 --> 00:20:40,159

egyptian religion and their their

478

00:20:46,950 --> 00:20:43,840

creation concepts and in 2016 i wrote an

479

00:20:49,590 --> 00:20:46,960

article called ancient alien astro

480

00:20:51,669 --> 00:20:49,600

chicks and astro chickens in the ancient

481

00:20:53,350 --> 00:20:51,679

egyptian island of the egg

482

00:20:55,270 --> 00:20:53,360

and what this was the premise was is

483

00:20:56,870 --> 00:20:55,280

that the original egyptian creation

484

00:20:58,950 --> 00:20:56,880

texts describe

485

00:21:01,270 --> 00:20:58,960

a bird-like being that essentially lays

486

00:21:04,710 --> 00:21:01,280

a an egg out of which all of creation

487

00:21:06,549 --> 00:21:04,720

emerges on earth and when i was

488

00:21:09,830 --> 00:21:06,559

taking another look at this creation

489

00:21:10,870 --> 00:21:09,840

text in the context of a von neumann

490

00:21:13,430 --> 00:21:10,880

probe

491

00:21:15,350 --> 00:21:13,440

an astro chicken all of a sudden

492

00:21:17,350 --> 00:21:15,360

a whole new layer of understanding

493

00:21:19,830 --> 00:21:17,360

opened up because this creation text is

494

00:21:23,029 --> 00:21:19,840

describing exactly a von neumann probe

495

00:21:25,909 --> 00:21:23,039

scenario and then of course 2017 a

496

00:21:27,909 --> 00:21:25,919

muammua makes its presence known and

497

00:21:29,909 --> 00:21:27,919

then i wrote another article called

498

00:21:31,270 --> 00:21:29,919

umuamua in the ancient egyptian astro

499

00:21:32,950 --> 00:21:31,280

chickens and everybody thought i was

500

00:21:34,470 --> 00:21:32,960

talking about some new band i was

501
00:21:37,510 --> 00:21:34,480
forming or something they wanted to know

502
00:21:39,669 --> 00:21:37,520
well who's a muamua and it's like here's

503
00:21:42,710 --> 00:21:39,679
there's this ancient story that's now

504
00:21:45,190 --> 00:21:42,720
coming to life with a visitor from the

505
00:21:46,470 --> 00:21:45,200
stars that potentially could could be a

506
00:21:49,270 --> 00:21:46,480
von neumann probe and i don't know if

507
00:21:52,070 --> 00:21:49,280
bobby subscribes to that idea or not but

508
00:21:53,909 --> 00:21:52,080
that is one way in that we can talk

509
00:21:57,350 --> 00:21:53,919
about that the connection between

510
00:21:59,830 --> 00:21:57,360
current events and ancient occurrences

511
00:22:01,909 --> 00:21:59,840
is recorded in these sacred texts

512
00:22:05,350 --> 00:22:01,919
yeah just to comment on your reference

513
00:22:06,549 --> 00:22:05,360

to uh for neumann probes um i i'm of the

514

00:22:08,470 --> 00:22:06,559

opinion that

515

00:22:11,510 --> 00:22:08,480

we as biological creatures were not

516

00:22:13,350 --> 00:22:11,520

designed you know to uh live in space i

517

00:22:15,909 --> 00:22:13,360

mean we uh

518

00:22:17,909 --> 00:22:15,919

be here on this rock but uh on the other

519

00:22:19,590 --> 00:22:17,919

hand we are creating for example

520

00:22:22,070 --> 00:22:19,600

artificial intelligence systems that

521

00:22:24,870 --> 00:22:22,080

drive cars right now and in the future

522

00:22:27,190 --> 00:22:24,880

we could send them to space i call these

523

00:22:28,950 --> 00:22:27,200

ai astronauts they will be autonomous

524

00:22:31,110 --> 00:22:28,960

they will be able to think

525

00:22:33,430 --> 00:22:31,120

perhaps even better than humans because

526

00:22:34,710 --> 00:22:33,440

they will be able to process a lot of

527

00:22:36,549 --> 00:22:34,720

data and

528

00:22:39,350 --> 00:22:36,559

if we are able to imagine that in a

529

00:22:41,510 --> 00:22:39,360

decade or two a civilization that

530

00:22:44,710 --> 00:22:41,520

predated us by a billion years because

531

00:22:47,430 --> 00:22:44,720

most of the stars are billions of years

532

00:22:49,750 --> 00:22:47,440

older than the the sun and then you know

533

00:22:51,270 --> 00:22:49,760

we know that the half of the sun-like

534

00:22:53,909 --> 00:22:51,280

stars have a planet the size of the

535

00:22:55,350 --> 00:22:53,919

earth roughly at the same separation so

536

00:22:57,190 --> 00:22:55,360

it's quite likely that there was

537

00:22:59,669 --> 00:22:57,200

something

538

00:23:01,669 --> 00:22:59,679

like us or even more advanced than us a

539

00:23:04,950 --> 00:23:01,679

billion years ago that could have

540

00:23:08,230 --> 00:23:04,960

created ai astronauts and if they they

541

00:23:10,710 --> 00:23:08,240

are equipped with 3d printers they could

542

00:23:13,029 --> 00:23:10,720

repair themselves and

543

00:23:15,029 --> 00:23:13,039

create more of the same and you can

544

00:23:17,990 --> 00:23:15,039

imagine the entire galaxy being full of

545

00:23:20,630 --> 00:23:18,000

those things and as you say

546

00:23:22,950 --> 00:23:20,640

the question is what's the plan and what

547

00:23:25,350 --> 00:23:22,960

is the blueprint that they were designed

548

00:23:27,669 --> 00:23:25,360

to fulfill and um

549

00:23:30,390 --> 00:23:27,679

uh of course that could give us a whole

550

00:23:31,669 --> 00:23:30,400

different meaning to our life as as you

551
00:23:34,149 --> 00:23:31,679

point out and

552
00:23:36,630 --> 00:23:34,159

and once again we are connecting to

553
00:23:39,510 --> 00:23:36,640

spirituality i think and

554
00:23:42,789 --> 00:23:39,520

it's only those people that prefer to

555
00:23:45,110 --> 00:23:42,799

look down you know that do not look up

556
00:23:47,029 --> 00:23:45,120

uh those are the ones that

557
00:23:49,430 --> 00:23:47,039

would dismiss any discussion on these

558
00:23:51,510 --> 00:23:49,440

topics and to me it's not very different

559
00:23:53,830 --> 00:23:51,520

from the dinosaurs you know that 66

560
00:23:56,149 --> 00:23:53,840

million years ago used to eat grass and

561
00:23:58,230 --> 00:23:56,159

ignore the sky and they thought they are

562
00:23:59,510 --> 00:23:58,240

dominant they were very arrogant they

563
00:24:01,350 --> 00:23:59,520

are dominant relative to their

564

00:24:02,789 --> 00:24:01,360

environment and then a rock the size of

565

00:24:05,269 --> 00:24:02,799

manhattan island

566

00:24:07,909 --> 00:24:05,279

uh hit the ground and tarnish their ego

567

00:24:11,510 --> 00:24:07,919

trip and the point the the lesson from

568

00:24:15,190 --> 00:24:13,350

on that note avi you know you you

569

00:24:16,870 --> 00:24:15,200

reminded me of a thought i had sort of

570

00:24:18,470 --> 00:24:16,880

in my my you know some of my earlier

571

00:24:20,630 --> 00:24:18,480

years you know when i was looking at

572

00:24:21,990 --> 00:24:20,640

evolution and looking at various animals

573

00:24:24,870 --> 00:24:22,000

and where they are in the state of

574

00:24:27,350 --> 00:24:24,880

evolution and looking at ourselves and

575

00:24:30,310 --> 00:24:27,360

and specifically our vertebrae our

576

00:24:32,390 --> 00:24:30,320

spines right and with thinking about the

577

00:24:35,190 --> 00:24:32,400

evolution and how maybe perhaps

578

00:24:38,070 --> 00:24:35,200

the sky itself sort of facilitated the

579

00:24:41,350 --> 00:24:38,080

evolution like in in in the pursuit of

580

00:24:43,269 --> 00:24:41,360

looking up at the sky we actually uh our

581

00:24:46,070 --> 00:24:43,279

vertebrae actually like you know rose

582

00:24:48,710 --> 00:24:46,080

and and it facilitated perhaps you know

583

00:24:51,269 --> 00:24:48,720

in evolution so maybe the skies in the

584

00:24:54,630 --> 00:24:51,279

stars and and that wonder you know

585

00:24:57,590 --> 00:24:54,640

actually moved us forward you know

586

00:24:59,909 --> 00:24:57,600

in this context i'll mention in anecdote

587

00:25:02,230 --> 00:24:59,919

a month ago there was a person on the

588

00:25:03,830 --> 00:25:02,240

street in front of my house and my wife

589

00:25:05,669 --> 00:25:03,840

called me and said that

590

00:25:07,669 --> 00:25:05,679

uh you know you should check out who

591

00:25:10,549 --> 00:25:07,679

this person is maybe you know he's

592

00:25:12,310 --> 00:25:10,559

following you or because of your book or

593

00:25:14,549 --> 00:25:12,320

at any event i went out and asked him

594

00:25:16,710 --> 00:25:14,559

who you who is he and

595

00:25:19,510 --> 00:25:16,720

and he said that he used to live in our

596

00:25:21,990 --> 00:25:19,520

house 50 years ago as a kid and then i

597

00:25:23,029 --> 00:25:22,000

showed him the backyard and he said

598

00:25:25,909 --> 00:25:23,039

you know

599

00:25:27,269 --> 00:25:25,919

50 years ago my father buried a cat

600

00:25:29,750 --> 00:25:27,279

named tiger

601
00:25:31,750 --> 00:25:29,760
uh in the back in in the backyard and i

602
00:25:34,789 --> 00:25:31,760
said well i know this name because i saw

603
00:25:37,990 --> 00:25:34,799
a little tombstone in the backyard that

604
00:25:39,830 --> 00:25:38,000
says tiger and i showed it to him

605
00:25:41,590 --> 00:25:39,840
of course i was relieved because i was

606
00:25:43,669 --> 00:25:41,600
worried that something bigger is buried

607
00:25:46,230 --> 00:25:43,679
under this tombstone i didn't realize

608
00:25:50,230 --> 00:25:46,240
it's a cat but my point is

609
00:25:51,750 --> 00:25:50,240
that if you meet if you welcome guests

610
00:25:54,950 --> 00:25:51,760
there is a chance they will tell you

611
00:25:57,909 --> 00:25:54,960
something new about the space that you

612
00:26:00,310 --> 00:25:57,919
co-habit that both of you share

613
00:26:02,630 --> 00:26:00,320

uh and i think it's an important lesson

614

00:26:04,230 --> 00:26:02,640

about extra terrestrial guests because

615

00:26:05,669 --> 00:26:04,240

they may know much more about our

616

00:26:08,070 --> 00:26:05,679

environment they've been around for

617

00:26:11,590 --> 00:26:08,080

longer they might tell us where there is

618

00:26:13,350 --> 00:26:11,600

a tombstone with the name tiger on

619

00:26:15,350 --> 00:26:13,360

gosh you know that prompts a question

620

00:26:17,430 --> 00:26:15,360

inside me i'd love to sort of uh put

621

00:26:19,350 --> 00:26:17,440

this out to the both of you in in that

622

00:26:21,110 --> 00:26:19,360

moment right in inviting the guests

623

00:26:23,350 --> 00:26:21,120

right and listening to what they have to

624

00:26:25,590 --> 00:26:23,360

say and what i picture is of course you

625

00:26:27,590 --> 00:26:25,600

know perhaps our friends from the skies

626
00:26:29,510 --> 00:26:27,600
you know engaging in conversation with

627
00:26:31,110 --> 00:26:29,520
us and just wondering you know is there

628
00:26:33,269 --> 00:26:31,120
are there any theories and like how do

629
00:26:35,269 --> 00:26:33,279
you how do either of you perceive that

630
00:26:37,750 --> 00:26:35,279
that that to take place do you think

631
00:26:39,909 --> 00:26:37,760
it's lips moving do you think it's going

632
00:26:42,789 --> 00:26:39,919
to be perhaps words coming into our

633
00:26:43,590 --> 00:26:42,799
minds or a feeling or

634
00:26:45,430 --> 00:26:43,600
written

635
00:26:46,390 --> 00:26:45,440
what do you think either of you i'm

636
00:26:48,630 --> 00:26:46,400
curious

637
00:26:49,710 --> 00:26:48,640
well what's hap what's happening today

638
00:26:52,870 --> 00:26:49,720

is we have

639

00:26:55,669 --> 00:26:52,880

a global ai brain a new layer of our

640

00:26:58,630 --> 00:26:55,679

neocortex is being added and you have to

641

00:27:01,190 --> 00:26:58,640

factor that in i mean 200 000 years ago

642

00:27:04,470 --> 00:27:01,200

our neocortex is activated nobody knows

643

00:27:07,269 --> 00:27:04,480

exactly how or why uh it's a mystery to

644

00:27:10,149 --> 00:27:07,279

neuroscience but now we're adding a new

645

00:27:12,149 --> 00:27:10,159

layer to our neocortex with neural link

646

00:27:13,830 --> 00:27:12,159

and other ai technologies that may or

647

00:27:16,390 --> 00:27:13,840

may not be a good thing but the fact is

648

00:27:18,230 --> 00:27:16,400

is that why is it that at this moment in

649

00:27:20,549 --> 00:27:18,240

time in our evolution we're all being

650

00:27:22,789 --> 00:27:20,559

synced together is it possible that

651

00:27:26,070 --> 00:27:22,799

there is an extraterrestrial influence

652

00:27:27,350 --> 00:27:26,080

that is uniting us in one global brain i

653

00:27:29,029 --> 00:27:27,360

mean if you're an extraterrestrial

654

00:27:31,190 --> 00:27:29,039

civilization you're not going to want to

655

00:27:32,470 --> 00:27:31,200

negotiate with 185 individual

656

00:27:36,070 --> 00:27:32,480

governments you're going to want to deal

657

00:27:38,070 --> 00:27:36,080

with a monolithic government a single

658

00:27:41,110 --> 00:27:38,080

global entity and and that's what's

659

00:27:44,789 --> 00:27:41,120

being created right now good bad or ugly

660

00:27:46,470 --> 00:27:44,799

and perhaps that that is uh part of this

661

00:27:49,350 --> 00:27:46,480

disclosure i'm sure it's part of the

662

00:27:50,950 --> 00:27:49,360

disclosure but perhaps it's it's a an

663

00:27:52,870 --> 00:27:50,960

extraterrestrial influence maybe

664

00:27:57,029 --> 00:27:52,880

artificial intelligence really is an

665

00:28:00,549 --> 00:27:58,230

what i would

666

00:28:02,710 --> 00:28:00,559

add is you know in in cosmology in the

667

00:28:05,669 --> 00:28:02,720

study of the universe we measure time in

668

00:28:08,870 --> 00:28:05,679

billions of years okay so

669

00:28:11,110 --> 00:28:08,880

if we if we meet uh another

670

00:28:13,110 --> 00:28:11,120

traces of another civilization you know

671

00:28:15,350 --> 00:28:13,120

they are probably a billion years more

672

00:28:17,029 --> 00:28:15,360

advanced than we are okay so that's a

673

00:28:20,710 --> 00:28:17,039

huge amount of time just think how much

674

00:28:22,789 --> 00:28:20,720

we accomplished in a century uh and

675

00:28:25,029 --> 00:28:22,799

therefore i have a little hope that

676

00:28:28,070 --> 00:28:25,039

we'll figure out immediately what the

677

00:28:30,470 --> 00:28:28,080

intent is what the context is what what

678

00:28:31,350 --> 00:28:30,480

is this equipment that we're seeing uh

679

00:28:32,389 --> 00:28:31,360

and

680

00:28:33,830 --> 00:28:32,399

i think it's

681

00:28:35,830 --> 00:28:33,840

it's much more likely that we will

682

00:28:37,430 --> 00:28:35,840

behave just like a caveman finding a

683

00:28:39,190 --> 00:28:37,440

cell phone

684

00:28:41,269 --> 00:28:39,200

the caveman would say it's a rock of a

685

00:28:44,070 --> 00:28:41,279

type that i've never seen before

686

00:28:45,750 --> 00:28:44,080

and that's enough you know to to

687

00:28:47,590 --> 00:28:45,760

validate the fact that it's something

688

00:28:49,750 --> 00:28:47,600

unusual because the caveman can press a

689

00:28:51,750 --> 00:28:49,760

button see that it records his voice

690

00:28:54,389 --> 00:28:51,760

press another button records his image

691

00:28:56,950 --> 00:28:54,399

it will be clear that it's not a rock uh

692

00:28:59,269 --> 00:28:56,960

and we can tell that it's not an

693

00:29:01,350 --> 00:28:59,279

asteroid a comet it's something else

694

00:29:03,029 --> 00:29:01,360

it's not a natural phenomena it will

695

00:29:05,590 --> 00:29:03,039

take of course

696

00:29:07,830 --> 00:29:05,600

enough um you know

697

00:29:09,909 --> 00:29:07,840

some of our best instruments to figure

698

00:29:11,269 --> 00:29:09,919

this out but eventually it will be clear

699

00:29:13,190 --> 00:29:11,279

that it's not something we've seen

700

00:29:14,870 --> 00:29:13,200

before and it's not something familiar

701
00:29:17,430 --> 00:29:14,880
and then there would be this big

702
00:29:19,510 --> 00:29:17,440
challenge of figuring out the intent

703
00:29:23,190 --> 00:29:19,520
and you know we don't want to be

704
00:29:26,389 --> 00:29:23,200
like the citizens of troy that

705
00:29:28,149 --> 00:29:26,399
accepted the trojan horse as a gift we

706
00:29:30,630 --> 00:29:28,159
want to figure out what the intent is

707
00:29:32,710 --> 00:29:30,640
and for that we might employ our own ai

708
00:29:33,669 --> 00:29:32,720
systems to figure out their ai systems

709
00:29:35,669 --> 00:29:33,679
because

710
00:29:38,070 --> 00:29:35,679
it's just like relying on kids to figure

711
00:29:39,750 --> 00:29:38,080
out content that we see on the internet

712
00:29:42,230 --> 00:29:39,760
that we can because simply because

713
00:29:44,070 --> 00:29:42,240

they're more computer savvy uh i'm not

714

00:29:45,750 --> 00:29:44,080

optimistic we'll figure it out very

715

00:29:47,990 --> 00:29:45,760

quickly i mean and then there will be an

716

00:29:51,590 --> 00:29:48,000

issue of protocol you know what to do

717

00:29:53,269 --> 00:29:51,600

how whether to engage how to respond

718

00:29:55,669 --> 00:29:53,279

and i'm always worried that you know if

719

00:29:56,950 --> 00:29:55,679

you establish a committee irrespective

720

00:29:59,510 --> 00:29:56,960

of how

721

00:30:01,350 --> 00:29:59,520

um you know what politicians say what

722

00:30:03,830 --> 00:30:01,360

most people say there would be always

723

00:30:04,789 --> 00:30:03,840

someone from the sidelines that might do

724

00:30:06,230 --> 00:30:04,799

something

725

00:30:07,750 --> 00:30:06,240

different and

726

00:30:09,510 --> 00:30:07,760

you know there is

727

00:30:12,389 --> 00:30:09,520

an issue of how

728

00:30:13,750 --> 00:30:12,399

uh to control the response of humanity

729

00:30:15,669 --> 00:30:13,760

to such a thing

730

00:30:17,750 --> 00:30:15,679

you know on on that note i'm curious avi

731

00:30:18,950 --> 00:30:17,760

you know what in your person with your

732

00:30:21,110 --> 00:30:18,960

line of work with what you're doing with

733

00:30:23,350 --> 00:30:21,120

your project you know how important is

734

00:30:25,669 --> 00:30:23,360

it to be an observer you know why is it

735

00:30:27,669 --> 00:30:25,679

important yeah it's the most important

736

00:30:28,549 --> 00:30:27,679

uh so the point is

737

00:30:29,990 --> 00:30:28,559

um

738

00:30:32,470 --> 00:30:30,000

you know the one thing i learned over

739

00:30:35,110 --> 00:30:32,480

the past few decades as an astronomer is

740

00:30:37,830 --> 00:30:35,120

a sense of modesty because very often

741

00:30:40,710 --> 00:30:37,840

you know we

742

00:30:43,510 --> 00:30:40,720

live in a virtual reality we we prefer

743

00:30:45,269 --> 00:30:43,520

to believe in ideas that flatter us

744

00:30:47,110 --> 00:30:45,279

and the

745

00:30:49,029 --> 00:30:47,120

the only way to correct that is by

746

00:30:51,110 --> 00:30:49,039

collecting data and realizing you know

747

00:30:52,630 --> 00:30:51,120

that we are wrong it's a learning

748

00:30:54,149 --> 00:30:52,640

experience unless you are willing to

749

00:30:56,789 --> 00:30:54,159

accept the possibility that you're wrong

750

00:30:58,789 --> 00:30:56,799

by collecting more data you will have

751

00:31:00,470 --> 00:30:58,799

never learned that

752

00:31:01,909 --> 00:31:00,480

anything new and you know there are

753

00:31:02,710 --> 00:31:01,919

people saying

754

00:31:05,750 --> 00:31:02,720

uh

755

00:31:07,669 --> 00:31:05,760

you know this subject is

756

00:31:09,990 --> 00:31:07,679

considering extraterrestrials is an

757

00:31:12,310 --> 00:31:10,000

extraordinary claim therefore we need

758

00:31:14,389 --> 00:31:12,320

extraordinary evidence to engage in it

759

00:31:17,669 --> 00:31:14,399

and i say the evidence will not come to

760

00:31:20,149 --> 00:31:17,679

you uh it's you know er enrique fermi 70

761

00:31:21,190 --> 00:31:20,159

years ago said where is everybody and

762

00:31:23,509 --> 00:31:21,200

that's very

763

00:31:25,830 --> 00:31:23,519

presumptuous instead he should have said

764

00:31:28,230 --> 00:31:25,840

how can we allocate a billion dollars to

765

00:31:30,470 --> 00:31:28,240

search for these things because if you

766

00:31:32,470 --> 00:31:30,480

just sit at home and say nobody nobody

767

00:31:34,710 --> 00:31:32,480

is knocking on my door therefore i don't

768

00:31:36,870 --> 00:31:34,720

have neighbors that's not a very smart

769

00:31:38,470 --> 00:31:36,880

move what you need to do is look through

770

00:31:41,190 --> 00:31:38,480

the window and

771

00:31:43,110 --> 00:31:41,200

better better still use a telescope when

772

00:31:45,669 --> 00:31:43,120

you look through the window and then my

773

00:31:46,630 --> 00:31:45,679

point is observations are really crucial

774

00:31:49,430 --> 00:31:46,640

because

775

00:31:50,230 --> 00:31:49,440

then you have a way of finding out that

776
00:31:52,310 --> 00:31:50,240
your

777
00:31:54,230 --> 00:31:52,320
preconceptions were wrong and that's

778
00:31:56,470 --> 00:31:54,240
exactly what galileo said to the

779
00:31:58,470 --> 00:31:56,480
philosophers four centuries ago he said

780
00:32:00,870 --> 00:31:58,480
look through my telescope and they said

781
00:32:03,430 --> 00:32:00,880
no we know that the sun moves around the

782
00:32:06,870 --> 00:32:03,440
earth and and guess what suppose they

783
00:32:08,950 --> 00:32:06,880
wanted to send to launch a rocket to uh

784
00:32:11,110 --> 00:32:08,960
one of the celestial bodies that they

785
00:32:12,630 --> 00:32:11,120
they saw uh it would go the wrong way

786
00:32:14,470 --> 00:32:12,640
because they had the wrong ideas about

787
00:32:17,190 --> 00:32:14,480
the motion of these bodies relative to

788
00:32:18,870 --> 00:32:17,200

the earth and the point is reality is

789

00:32:21,269 --> 00:32:18,880

whatever it is you know we can stay

790

00:32:23,990 --> 00:32:21,279

ignorant we can ignore the reality we

791

00:32:27,029 --> 00:32:24,000

can put galileo in house arrest today he

792

00:32:28,630 --> 00:32:27,039

would have been canceled on social media

793

00:32:30,549 --> 00:32:28,640

you know but that's irrelevant how many

794

00:32:32,310 --> 00:32:30,559

likes you get on twitter is completely

795

00:32:35,350 --> 00:32:32,320

irrelevant reality is whatever it is and

796

00:32:38,230 --> 00:32:35,360

we have to figure it out so if we do not

797

00:32:40,470 --> 00:32:38,240

engage in the search for equipment from

798

00:32:42,470 --> 00:32:40,480

extraterrestrial civilizations you know

799

00:32:44,710 --> 00:32:42,480

that will not remove them it will just

800

00:32:46,549 --> 00:32:44,720

maintain our ignorance

801
00:32:48,470 --> 00:32:46,559
gosh ah so on that note so we're going

802
00:32:50,549 --> 00:32:48,480
to go into a break in just a few in just

803
00:32:52,389 --> 00:32:50,559
a few moments but i wanted william you

804
00:32:54,789 --> 00:32:52,399
know on this note right of of

805
00:32:56,070 --> 00:32:54,799
technologies and and and going out and

806
00:32:58,549 --> 00:32:56,080
seeking them right they're not going to

807
00:33:01,509 --> 00:32:58,559
come to you uh clearly right you just

808
00:33:03,029 --> 00:33:01,519
came back from egypt um i you know have

809
00:33:04,870 --> 00:33:03,039
you been in pursuit of these

810
00:33:07,269 --> 00:33:04,880
technologies have you found anything you

811
00:33:09,669 --> 00:33:07,279
know um what can you say about that and

812
00:33:11,029 --> 00:33:09,679
in your own experience of seeking out

813
00:33:13,590 --> 00:33:11,039

technologies

814

00:33:15,350 --> 00:33:13,600

well the ancient egyptian religious

815

00:33:17,590 --> 00:33:15,360

philosophy was based on human

816

00:33:20,070 --> 00:33:17,600

transformation they believed in

817

00:33:22,310 --> 00:33:20,080

that they a science of tones lights and

818

00:33:24,870 --> 00:33:22,320

plants that could transmute our body

819

00:33:26,630 --> 00:33:24,880

into a non-molecular light body that's

820

00:33:28,549 --> 00:33:26,640

how they traveled the stars they weren't

821

00:33:30,070 --> 00:33:28,559

interested in building generation

822

00:33:32,310 --> 00:33:30,080

starships or anything like that they

823

00:33:33,909 --> 00:33:32,320

viewed our body as the starship you talk

824

00:33:35,669 --> 00:33:33,919

about our vertebrae the spinal cord

825

00:33:37,350 --> 00:33:35,679

that's the stairway to heaven to the

826

00:33:40,470 --> 00:33:37,360

ancient egyptians so they had a very

827

00:33:43,110 --> 00:33:40,480

precise uh medicine as as well as a

828

00:33:45,269 --> 00:33:43,120

spirituality combined together to

829

00:33:46,789 --> 00:33:45,279

transmute the body into light there are

830

00:33:47,990 --> 00:33:46,799

two ways to travel the stars you're

831

00:33:50,470 --> 00:33:48,000

either going to go out in the stars as

832

00:33:52,149 --> 00:33:50,480

robots as an ai being or you're going to

833

00:33:54,389 --> 00:33:52,159

go as a light being and the the light

834

00:33:56,630 --> 00:33:54,399

being that that's my specialties looking

835

00:33:58,230 --> 00:33:56,640

at that and cross-culturally how all of

836

00:33:59,669 --> 00:33:58,240

these religious traditions tell us that

837

00:34:01,830 --> 00:33:59,679

we all come from different star

838

00:34:04,630 --> 00:34:01,840

civilizations and we will return to the

839

00:34:06,789 --> 00:34:04,640

stars once we learn how to activate the

840

00:34:09,190 --> 00:34:06,799

body's latent capability to transmute

841

00:34:11,270 --> 00:34:09,200

itself into a body of light

842

00:34:13,589 --> 00:34:11,280

beam or project itself to another star

843

00:34:15,909 --> 00:34:13,599

system then phase back into a physical

844

00:34:17,430 --> 00:34:15,919

flesh and blood form if we choose that's

845

00:34:19,510 --> 00:34:17,440

something i would love to talk with jeff

846

00:34:21,669 --> 00:34:19,520

bezos about in fact because he and elon

847

00:34:24,470 --> 00:34:21,679

musk they're talking about transmuting

848

00:34:26,470 --> 00:34:24,480

us into ai or trans human beings in

849

00:34:29,430 --> 00:34:26,480

order excuse me in order to migrate into

850

00:34:31,990 --> 00:34:29,440

space but but to me that that may not be

851
00:34:33,909 --> 00:34:32,000
the the ultimate way to go that we have

852
00:34:37,109 --> 00:34:33,919
to combine our spirituality and our

853
00:34:38,950 --> 00:34:37,119
natural ability our organic ability of

854
00:34:41,909 --> 00:34:38,960
ascension as it's called in all of these

855
00:34:44,550 --> 00:34:41,919
traditions to to transmute the body into

856
00:34:46,230 --> 00:34:44,560
a higher frequency form and travel the

857
00:34:47,669 --> 00:34:46,240
stars

858
00:34:48,470 --> 00:34:47,679
that's that's great you know i think

859
00:34:52,629 --> 00:34:48,480
that

860
00:34:54,629 --> 00:34:52,639
there uh

861
00:34:56,550 --> 00:34:54,639
perhaps there's some lost abilities like

862
00:34:58,470 --> 00:34:56,560
you said maybe there's some

863
00:35:01,430 --> 00:34:58,480

latent things that that uh that are

864

00:35:03,670 --> 00:35:01,440

waiting to wake up and um it makes me

865

00:35:05,829 --> 00:35:03,680

think about if that's possible if that's

866

00:35:07,750 --> 00:35:05,839

true uh what took place in history to

867

00:35:10,069 --> 00:35:07,760

create that sort of amnesia you know

868

00:35:11,430 --> 00:35:10,079

what what uh yeah and right chris we're

869

00:35:12,950 --> 00:35:11,440

not going to kick in the warp drive till

870

00:35:14,470 --> 00:35:12,960

we kick in the spiritual drive that's

871

00:35:15,750 --> 00:35:14,480

the thing and that's the amnesia we have

872

00:35:18,150 --> 00:35:15,760

forgotten

873

00:35:20,710 --> 00:35:18,160

all about what is actually unfolded

874

00:35:22,550 --> 00:35:20,720

within our body already our body is that

875

00:35:24,950 --> 00:35:22,560

vehicle that we're seeking that will get

876

00:35:27,030 --> 00:35:24,960

us into the stars we just have to to

877

00:35:28,630 --> 00:35:27,040

seek that out and this is a message that

878

00:35:30,710 --> 00:35:28,640

runs through christianity it runs

879

00:35:33,190 --> 00:35:30,720

through certainly the buddhist tradition

880

00:35:35,190 --> 00:35:33,200

especially uh their their light body

881

00:35:36,710 --> 00:35:35,200

rainbow light body traditions they all

882

00:35:38,470 --> 00:35:36,720

speak of this and there are examples

883

00:35:41,030 --> 00:35:38,480

even in modern times of humans who have

884

00:35:44,150 --> 00:35:41,040

activated or transmuted the body into

885

00:35:46,150 --> 00:35:44,160

its light being form

886

00:35:47,430 --> 00:35:46,160

thanks for those perspectives william uh

887

00:35:49,589 --> 00:35:47,440

in just a moment i'm actually going to

888

00:35:51,750 --> 00:35:49,599

take us into break so everyone just hang

889

00:35:54,630 --> 00:35:51,760

tight we'll be back in about three four

890

00:35:56,550 --> 00:35:54,640

minutes and uh i'm gonna play an excerpt

891

00:35:58,630 --> 00:35:56,560

from a very special round table

892

00:35:59,910 --> 00:35:58,640

discussion that we had with the cast of

893

00:36:01,829 --> 00:35:59,920

the observers

894

00:36:04,150 --> 00:36:01,839

so stay tuned we'll be back in just a

895

00:36:05,829 --> 00:36:04,160

few moments and uh thanks guys for this

896

00:36:14,630 --> 00:36:05,839

conversation it's been great

897

00:36:18,550 --> 00:36:16,230

we have to look at biological evidence

898

00:36:20,310 --> 00:36:18,560

too the activation of the neocortex what

899

00:36:22,470 --> 00:36:20,320

makes us all human

900

00:36:24,069 --> 00:36:22,480

science says it's unnatural i don't know

901
00:36:26,710 --> 00:36:24,079
how it happened they say oh could be

902
00:36:28,390 --> 00:36:26,720
cosmic rays group sex psychedelics

903
00:36:30,550 --> 00:36:28,400
everything but what it probably was

904
00:36:31,990 --> 00:36:30,560
which is extraterrestrials i mean you go

905
00:36:34,390 --> 00:36:32,000
back into the egyptian record for

906
00:36:35,190 --> 00:36:34,400
example you've got a god called

907
00:36:39,589 --> 00:36:35,200
from

908
00:36:41,349 --> 00:36:39,599
he fashioned the bodies of men you look

909
00:36:43,270 --> 00:36:41,359
to his hieroglyph guess what there's a

910
00:36:44,630 --> 00:36:43,280
double helix in his hieroglyph

911
00:36:46,550 --> 00:36:44,640
egyptologists say well he couldn't

912
00:36:48,470 --> 00:36:46,560
possibly have known about dna then then

913
00:36:49,990 --> 00:36:48,480

why is a double helix in his hieroglyph

914

00:36:52,829 --> 00:36:50,000

and why is he the god that fashioned the

915

00:36:55,430 --> 00:36:52,839

human body what yes

916

00:36:58,230 --> 00:36:55,440

yeah that's a great story william

917

00:37:00,150 --> 00:36:58,240

because again this is you can see the

918

00:37:02,150 --> 00:37:00,160

hieroglyph it's there and the double

919

00:37:03,990 --> 00:37:02,160

helix is there and it's the double helix

920

00:37:07,109 --> 00:37:04,000

doesn't repeat in other hieroglyphics we

921

00:37:09,510 --> 00:37:07,119

didn't discover it until what 1952 53

922

00:37:11,670 --> 00:37:09,520

right when watson and crick discovered

923

00:37:13,589 --> 00:37:11,680

it it changed everything and now we know

924

00:37:14,710 --> 00:37:13,599

you know what's okay so what makes us

925

00:37:17,510 --> 00:37:14,720

who we are

926

00:37:20,550 --> 00:37:17,520

physicists and the hard scientists want

927

00:37:22,790 --> 00:37:20,560

to avoid the discussion of consciousness

928

00:37:25,990 --> 00:37:22,800

they don't want to go there no it's it's

929

00:37:27,190 --> 00:37:26,000

chemistry it's it's not it's nothing

930

00:37:29,829 --> 00:37:27,200

right

931

00:37:33,270 --> 00:37:29,839

watson and crick crick

932

00:37:36,150 --> 00:37:33,280

dreamed dna yeah that came in a

933

00:37:37,910 --> 00:37:36,160

subconscious state and then the design

934

00:37:39,270 --> 00:37:37,920

yeah but they don't want to go there

935

00:37:42,230 --> 00:37:39,280

it's like wait a minute it was

936

00:37:43,510 --> 00:37:42,240

discovered in an altered state right and

937

00:37:45,430 --> 00:37:43,520

dreamt about it and then he comes up

938

00:37:47,030 --> 00:37:45,440

with a theory of directed panspermia

939

00:37:49,030 --> 00:37:47,040

saying that this did not happen by

940

00:37:51,510 --> 00:37:49,040

accident this isn't something this was

941

00:37:54,069 --> 00:37:51,520

intentional where's this coming from

942

00:37:56,310 --> 00:37:54,079

tesla was the same way tesla

943

00:37:57,670 --> 00:37:56,320

all the dream statements right tesla

944

00:37:59,670 --> 00:37:57,680

would uh from

945

00:38:02,310 --> 00:37:59,680

the time he was a little boy

946

00:38:03,670 --> 00:38:02,320

would have these white flashes

947

00:38:05,430 --> 00:38:03,680

appear to

948

00:38:07,190 --> 00:38:05,440

uh and i think for a while like he he

949

00:38:09,589 --> 00:38:07,200

almost couldn't distinguish is this the

950

00:38:10,950 --> 00:38:09,599

actual reality or what is this right but

951
00:38:12,710 --> 00:38:10,960
he um he

952
00:38:14,069 --> 00:38:12,720
occasionally would say

953
00:38:15,589 --> 00:38:14,079
that

954
00:38:17,589 --> 00:38:15,599
he would get these flashes of

955
00:38:19,510 --> 00:38:17,599
inspiration but but these ideas would

956
00:38:22,390 --> 00:38:19,520
come to him he would say

957
00:38:25,190 --> 00:38:22,400
like radio yeah that was his idea

958
00:38:30,120 --> 00:38:25,200
alternating current was his idea um but

959
00:38:49,990 --> 00:38:37,270
[Music]

960
00:38:50,000 --> 00:38:53,540
so

961
00:39:32,230 --> 00:39:12,540
[Music]

962
00:39:36,230 --> 00:39:34,069
oh i'm muted thanks

963
00:39:37,910 --> 00:39:36,240

welcome guys we're back um

964

00:39:39,670 --> 00:39:37,920

hope you enjoyed that little excerpt we

965

00:39:41,910 --> 00:39:39,680

had from this amazing roundtable

966

00:39:43,910 --> 00:39:41,920

discussion that was two and a half hours

967

00:39:47,030 --> 00:39:43,920

long and just jam-packed with all sorts

968

00:39:49,349 --> 00:39:47,040

of amazing uh topics and concepts and i

969

00:39:52,150 --> 00:39:49,359

was really fruitful experience there

970

00:39:53,349 --> 00:39:52,160

um but i wanted to jump back in and just

971

00:39:56,150 --> 00:39:53,359

to kind of

972

00:39:58,230 --> 00:39:56,160

roll with where we sort of left off in

973

00:40:00,390 --> 00:39:58,240

terms of the the ancient technologies

974

00:40:03,430 --> 00:40:00,400

right that are here that perhaps

975

00:40:05,670 --> 00:40:03,440

facilitated our evolution and and um

976

00:40:07,190 --> 00:40:05,680

just really curious uh avi just to just

977

00:40:09,829 --> 00:40:07,200

to kind of perhaps have your

978

00:40:11,829 --> 00:40:09,839

perspectives you know maybe specific to

979

00:40:14,150 --> 00:40:11,839

sort of the ancient egyptians and

980

00:40:16,950 --> 00:40:14,160

perhaps any other ancient culture uh do

981

00:40:18,950 --> 00:40:16,960

you feel that they were tapping into um

982

00:40:21,829 --> 00:40:18,960

this world of you know extraterrestrial

983

00:40:25,990 --> 00:40:21,839

contact or how were they observers and

984

00:40:28,950 --> 00:40:26,950

oh

985

00:40:31,270 --> 00:40:28,960

one second

986

00:40:32,150 --> 00:40:31,280

um sorry you cannot hear me i hear you

987

00:40:33,510 --> 00:40:32,160

now

988

00:40:34,309 --> 00:40:33,520

okay sorry

989

00:40:36,710 --> 00:40:34,319

um

990

00:40:39,510 --> 00:40:36,720

i i don't have any special insight i'm

991

00:40:41,990 --> 00:40:39,520

not a historian and i do believe that

992

00:40:44,470 --> 00:40:42,000

you know unfortunately we uh don't have

993

00:40:47,510 --> 00:40:44,480

all the information we need in order to

994

00:40:48,390 --> 00:40:47,520

answer your question but um i i'm a much

995

00:40:49,270 --> 00:40:48,400

more

996

00:40:49,990 --> 00:40:49,280

uh

997

00:40:55,190 --> 00:40:50,000

of

998

00:40:57,270 --> 00:40:55,200

farm boy a child that maintains his

999

00:41:00,309 --> 00:40:57,280

curiosity and the way i want to resolve

1000

00:41:04,470 --> 00:41:00,319

these issues is by you know

1001
00:41:06,309 --> 00:41:04,480
getting new data using telescopes and um

1002
00:41:08,870 --> 00:41:06,319
i think you know if there is something

1003
00:41:11,109 --> 00:41:08,880
out there we will figure it out we so

1004
00:41:13,190 --> 00:41:11,119
let's instead of worry about

1005
00:41:15,990 --> 00:41:13,200
what other people may have seen in the

1006
00:41:18,230 --> 00:41:16,000
past and not recorded in a way that is

1007
00:41:19,670 --> 00:41:18,240
beyond the reasonable doubt instead

1008
00:41:21,510 --> 00:41:19,680
let's get

1009
00:41:23,190 --> 00:41:21,520
evidence that is beyond the reasonable

1010
00:41:25,510 --> 00:41:23,200
doubt and then of course we can go back

1011
00:41:29,750 --> 00:41:25,520
in time and say okay here is what we

1012
00:41:32,470 --> 00:41:29,760
know now and was it already reflected in

1013
00:41:34,550 --> 00:41:32,480

testimonials or

1014

00:41:36,950 --> 00:41:34,560

other relics that were left from other

1015

00:41:39,349 --> 00:41:36,960

cultures that predated us here on earth

1016

00:41:40,230 --> 00:41:39,359

and it's quite possible um

1017

00:41:41,910 --> 00:41:40,240

now

1018

00:41:46,150 --> 00:41:41,920

you have to understand that recorded

1019

00:41:49,910 --> 00:41:46,160

human history uh is only at most 10 000

1020

00:41:52,630 --> 00:41:49,920

years old and that is one millionth of

1021

00:41:53,670 --> 00:41:52,640

the age of the earth so uh just think

1022

00:41:55,589 --> 00:41:53,680

about it

1023

00:41:57,589 --> 00:41:55,599

when enrico fermi asks where is

1024

00:42:00,150 --> 00:41:57,599

everybody he's basically asking where is

1025

00:42:02,470 --> 00:42:00,160

everybody right now right here in los

1026

00:42:04,870 --> 00:42:02,480

alamos and why would

1027

00:42:07,670 --> 00:42:04,880

he see the evidence in front of him at

1028

00:42:09,910 --> 00:42:07,680

the same moment uh you know that there

1029

00:42:13,109 --> 00:42:09,920

could have been a lot of visits in the

1030

00:42:15,349 --> 00:42:13,119

past uh through scattered throughout the

1031

00:42:17,990 --> 00:42:15,359

history of the earth and

1032

00:42:20,150 --> 00:42:18,000

of course you know now we have a fishing

1033

00:42:22,550 --> 00:42:20,160

net we have our telescopes that are just

1034

00:42:25,349 --> 00:42:22,560

like a fishing expedition where we can

1035

00:42:27,990 --> 00:42:25,359

try and catch some fish in the days of

1036

00:42:30,230 --> 00:42:28,000

fermi he didn't even have a

1037

00:42:32,230 --> 00:42:30,240

fishing net he was just asking where

1038

00:42:35,109 --> 00:42:32,240

where are all the fish but without the

1039

00:42:36,630 --> 00:42:35,119

ability to catch them and

1040

00:42:38,870 --> 00:42:36,640

you know there is this tale about the

1041

00:42:41,589 --> 00:42:38,880

fishermen that they went to see and came

1042

00:42:43,910 --> 00:42:41,599

back and said i realize i discovered the

1043

00:42:46,550 --> 00:42:43,920

new law of nature all fish are bigger

1044

00:42:48,230 --> 00:42:46,560

than two inches and then someone asked

1045

00:42:50,470 --> 00:42:48,240

him what's the size of the horse in your

1046

00:42:52,150 --> 00:42:50,480

fishing net and he said two inches

1047

00:42:54,790 --> 00:42:52,160

so obviously in order to catch something

1048

00:42:56,630 --> 00:42:54,800

you need the a net that is

1049

00:42:57,829 --> 00:42:56,640

sufficiently dense

1050

00:42:59,910 --> 00:42:57,839

and um

1051
00:43:01,510 --> 00:42:59,920
right now we have a telescope systems

1052
00:43:03,270 --> 00:43:01,520
that can tell us and

1053
00:43:05,109 --> 00:43:03,280
the first object we discovered from

1054
00:43:06,710 --> 00:43:05,119
outside the solar system

1055
00:43:09,510 --> 00:43:06,720
uh was

1056
00:43:11,829 --> 00:43:09,520
in 2017 and it didn't look like any of

1057
00:43:13,670 --> 00:43:11,839
the rocks we have seen before and my

1058
00:43:15,430 --> 00:43:13,680
colleagues still push back on the

1059
00:43:17,589 --> 00:43:15,440
possibility that it might be artificial

1060
00:43:19,190 --> 00:43:17,599
in origin by saying well maybe it's a

1061
00:43:21,589 --> 00:43:19,200
rock of a type that we've never seen

1062
00:43:24,550 --> 00:43:21,599
before a hydrogen iceberg a nitrogen

1063
00:43:26,550 --> 00:43:24,560

iceberg a cloud of dust particles and i

1064

00:43:28,309 --> 00:43:26,560

say well if it's something we've never

1065

00:43:30,069 --> 00:43:28,319

seen before we better live on the table

1066

00:43:32,870 --> 00:43:30,079

the possibility that it's uh

1067

00:43:34,550 --> 00:43:32,880

extraterrestrial technology and then the

1068

00:43:36,630 --> 00:43:34,560

way to find out is

1069

00:43:38,150 --> 00:43:36,640

by getting a high resolution image of

1070

00:43:40,630 --> 00:43:38,160

the next one

1071

00:43:42,150 --> 00:43:40,640

that looks as weird as

1072

00:43:45,030 --> 00:43:42,160

because they say a picture is worth a

1073

00:43:47,190 --> 00:43:45,040

thousand words in my case it's worth 66

1074

00:43:49,349 --> 00:43:47,200

000 words the number of words in my book

1075

00:43:50,550 --> 00:43:49,359

extraterrestrial

1076

00:43:52,550 --> 00:43:50,560

all right you know on that note i'm

1077

00:43:55,109 --> 00:43:52,560

really curious sir do you you know would

1078

00:43:57,510 --> 00:43:55,119

there be any surprise on your end if uh

1079

00:43:59,510 --> 00:43:57,520

if it turns out that ancient tech was is

1080

00:44:00,309 --> 00:43:59,520

discovered here on earth

1081

00:44:03,030 --> 00:44:00,319

oh

1082

00:44:04,860 --> 00:44:03,040

uh i would not be surprised i just want

1083

00:44:08,710 --> 00:44:04,870

to press some buttons

1084

00:44:10,790 --> 00:44:08,720

[Laughter]

1085

00:44:12,390 --> 00:44:10,800

no buttons required

1086

00:44:13,670 --> 00:44:12,400

most of his consciousness it seems in

1087

00:44:15,430 --> 00:44:13,680

the ancient world when you look in these

1088

00:44:17,510 --> 00:44:15,440

texts i love that yeah a picture is

1089

00:44:19,190 --> 00:44:17,520

worth a thousand words it it reminds me

1090

00:44:23,349 --> 00:44:19,200

that when harold sunny white down there

1091

00:44:24,870 --> 00:44:23,359

gpo or excuse me at uh at houston was is

1092

00:44:27,109 --> 00:44:24,880

working on the eagle works trying to

1093

00:44:29,430 --> 00:44:27,119

come up with concepts for a

1094

00:44:31,349 --> 00:44:29,440

traversable wormhole and a warp craft

1095

00:44:33,349 --> 00:44:31,359

he's creating images of crap that look

1096

00:44:36,069 --> 00:44:33,359

exactly like ezekiel's wheels and

1097

00:44:37,589 --> 00:44:36,079

ancient art how can that be is it

1098

00:44:39,829 --> 00:44:37,599

possible that we're in some kind of a

1099

00:44:41,750 --> 00:44:39,839

loop where as you mentioned earlier we

1100

00:44:44,309 --> 00:44:41,760

we go through periods where we we're

1101
00:44:46,950 --> 00:44:44,319
awakened then we we rise to a certain

1102
00:44:49,589 --> 00:44:46,960
level of civilization then we we lose

1103
00:44:51,589 --> 00:44:49,599
our our civilization and then we go into

1104
00:44:52,870 --> 00:44:51,599
a collective amnesia and perhaps we're

1105
00:44:55,670 --> 00:44:52,880
now in a moment now where we're

1106
00:44:57,510 --> 00:44:55,680
remembering uh some of what happened in

1107
00:44:59,349 --> 00:44:57,520
the in the ancient past and this is why

1108
00:45:02,150 --> 00:44:59,359
this technology is starting to kick in

1109
00:45:04,630 --> 00:45:02,160
now and why so many examples can be made

1110
00:45:06,790 --> 00:45:04,640
of modern technology that have ancient

1111
00:45:10,069 --> 00:45:06,800
correlates on ancient aliens we've got

1112
00:45:12,550 --> 00:45:10,079
16 seasons worth of of episodes 100 a

1113
00:45:14,550 --> 00:45:12,560

couple hundred episodes now of story

1114

00:45:16,550 --> 00:45:14,560

after story from cultures all over the

1115

00:45:18,309 --> 00:45:16,560

world of extraterrestrial contact in the

1116

00:45:20,710 --> 00:45:18,319

ancient world tech examples of

1117

00:45:22,390 --> 00:45:20,720

technology references to technology

1118

00:45:24,550 --> 00:45:22,400

sciences that have had dreams or

1119

00:45:26,150 --> 00:45:24,560

experiences with other worldly or

1120

00:45:28,390 --> 00:45:26,160

extraterrestrial beings that lead to

1121

00:45:31,109 --> 00:45:28,400

important discoveries like francis crick

1122

00:45:34,150 --> 00:45:31,119

and like like mathematicians and others

1123

00:45:36,309 --> 00:45:34,160

so you have to really factor in that

1124

00:45:38,470 --> 00:45:36,319

that perhaps the the buttons will be

1125

00:45:40,309 --> 00:45:38,480

there once we can activate the buttons

1126

00:45:43,349 --> 00:45:40,319

in our own consciousness and i think

1127

00:45:45,109 --> 00:45:43,359

we're very close to to being able to do

1128

00:45:47,510 --> 00:45:45,119

that and perhaps we're right on top of

1129

00:45:49,109 --> 00:45:47,520

the button right now

1130

00:45:52,150 --> 00:45:49,119

i think that's great william yeah you

1131

00:45:53,750 --> 00:45:52,160

know i i was just thinking about um what

1132

00:45:55,190 --> 00:45:53,760

it seems to be is that some of these

1133

00:45:57,750 --> 00:45:55,200

experiences right some of these

1134

00:46:01,109 --> 00:45:57,760

observations um with uh with

1135

00:46:04,470 --> 00:46:01,119

extraterrestrial or um uaps or whatever

1136

00:46:07,109 --> 00:46:04,480

it might be it it seems to be sort of uh

1137

00:46:09,910 --> 00:46:07,119

contingent upon a person's consciousness

1138

00:46:12,390 --> 00:46:09,920

at the time um there seems to be sort of

1139

00:46:15,430 --> 00:46:12,400

uh you know a connection between the

1140

00:46:17,190 --> 00:46:15,440

dimensionality that uh that these crafts

1141

00:46:20,790 --> 00:46:17,200

or these uh beings or whatever where

1142

00:46:22,710 --> 00:46:20,800

they exist and our state of mind or our

1143

00:46:25,190 --> 00:46:22,720

consciousness at the time could

1144

00:46:26,870 --> 00:46:25,200

potentially induce or potentially create

1145

00:46:28,710 --> 00:46:26,880

those opportunities of observation to

1146

00:46:30,309 --> 00:46:28,720

take place right it's like the fermi

1147

00:46:32,390 --> 00:46:30,319

paragraphs mentioned earlier these

1148

00:46:34,390 --> 00:46:32,400

sciences have to have a willingness to

1149

00:46:36,150 --> 00:46:34,400

look for extraterrestrials some are like

1150

00:46:38,470 --> 00:46:36,160

they just dismiss it say forget it that

1151
00:46:40,390 --> 00:46:38,480
never happened well how do you know that

1152
00:46:42,150 --> 00:46:40,400
you have you really ever read any of

1153
00:46:43,910 --> 00:46:42,160
these ancient texts you really read the

1154
00:46:45,670 --> 00:46:43,920
bible have you looked into the

1155
00:46:48,230 --> 00:46:45,680
bhagavad-gita have you read any of the

1156
00:46:50,069 --> 00:46:48,240
tibetan texts about this no and rabbi

1157
00:46:52,630 --> 00:46:50,079
mentioned earlier have you really looked

1158
00:46:55,750 --> 00:46:52,640
into early jewish history and what

1159
00:46:58,230 --> 00:46:55,760
happened in 600 bc when they eliminated

1160
00:47:00,069 --> 00:46:58,240
and in connection with the stars and and

1161
00:47:03,349 --> 00:47:00,079
the in connection with the host of

1162
00:47:05,670 --> 00:47:03,359
heaven was forbidden and why that is

1163
00:47:08,630 --> 00:47:05,680

these are very important questions it's

1164

00:47:11,430 --> 00:47:08,640

just all about as you're saying here the

1165

00:47:13,430 --> 00:47:11,440

the willingness of the participants to

1166

00:47:16,069 --> 00:47:13,440

open up a little bit we

1167

00:47:17,990 --> 00:47:16,079

we're we're so close and we just need

1168

00:47:20,630 --> 00:47:18,000

some of these great minds in our world

1169

00:47:23,670 --> 00:47:20,640

that already have such tremendous

1170

00:47:26,950 --> 00:47:23,680

knowledge in their specific fields to

1171

00:47:29,589 --> 00:47:26,960

take a couple of steps out and get out

1172

00:47:31,589 --> 00:47:29,599

of the box and and recognize that the

1173

00:47:33,349 --> 00:47:31,599

answers are are perhaps already here

1174

00:47:35,670 --> 00:47:33,359

it's just our willingness has to be

1175

00:47:37,990 --> 00:47:35,680

amped up

1176

00:47:40,549 --> 00:47:38,000

go ahead avi you have

1177

00:47:41,670 --> 00:47:40,559

i just wanted to say that um

1178

00:47:42,790 --> 00:47:41,680

you know

1179

00:47:45,270 --> 00:47:42,800

um

1180

00:47:47,910 --> 00:47:45,280

maintaining my childhood curiosity uh

1181

00:47:50,470 --> 00:47:47,920

means that i don't care so much about

1182

00:47:52,790 --> 00:47:50,480

what the adults in the room tell me

1183

00:47:55,829 --> 00:47:52,800

so there could you know there could be

1184

00:47:59,030 --> 00:47:55,839

historical stories uh

1185

00:48:00,870 --> 00:47:59,040

and i would realize uh after exploring

1186

00:48:03,829 --> 00:48:00,880

the world myself you know that's that's

1187

00:48:05,829 --> 00:48:03,839

what kids do you know they they get um

1188

00:48:07,829 --> 00:48:05,839

they put skin in the game they often get

1189

00:48:09,589 --> 00:48:07,839

bruised and because they don't believe

1190

00:48:11,510 --> 00:48:09,599

their dots they want to check it for

1191

00:48:13,430 --> 00:48:11,520

themselves and

1192

00:48:15,430 --> 00:48:13,440

that's exactly what i'm trying to do

1193

00:48:17,829 --> 00:48:15,440

with the galileo project now and you

1194

00:48:21,190 --> 00:48:17,839

know trying to collect the evidence

1195

00:48:23,589 --> 00:48:21,200

and then my point is you know if indeed

1196

00:48:25,109 --> 00:48:23,599

we you know the advantage of doing it

1197

00:48:26,950 --> 00:48:25,119

for the first time with a group of more

1198

00:48:29,270 --> 00:48:26,960

than 100 scientists you know that never

1199

00:48:32,309 --> 00:48:29,280

happened before searching through

1200

00:48:33,829 --> 00:48:32,319

telescopes for evidence uh the advantage

1201
00:48:36,870 --> 00:48:33,839
of that is that we are taking a road

1202
00:48:39,030 --> 00:48:36,880
that was not taken recently and

1203
00:48:41,510 --> 00:48:39,040
you know there is this poem by robert

1204
00:48:44,150 --> 00:48:41,520
frost that the two

1205
00:48:47,030 --> 00:48:44,160
roads diverged in in the woods and he

1206
00:48:48,870 --> 00:48:47,040
took the one not taken and that made all

1207
00:48:51,030 --> 00:48:48,880
the difference for me the biggest

1208
00:48:53,270 --> 00:48:51,040
difference is that if you go in a path

1209
00:48:54,710 --> 00:48:53,280
that nobody else took there might be low

1210
00:48:56,870 --> 00:48:54,720
hanging fruit

1211
00:48:58,870 --> 00:48:56,880
because nobody picked it up you are the

1212
00:49:00,870 --> 00:48:58,880
first to go there so my hope is that

1213
00:49:02,950 --> 00:49:00,880

with these new telescope systems that we

1214

00:49:05,430 --> 00:49:02,960

are building with the galileo project

1215

00:49:08,230 --> 00:49:05,440

we'll find some low-hanging fruit now

1216

00:49:10,790 --> 00:49:08,240

once we pick them up and if we catch

1217

00:49:13,349 --> 00:49:10,800

some fish that are exotic that are not

1218

00:49:15,670 --> 00:49:13,359

from this earth so to speak

1219

00:49:18,230 --> 00:49:15,680

then we can try and look back in time

1220

00:49:20,309 --> 00:49:18,240

and say okay let's look back and see you

1221

00:49:23,270 --> 00:49:20,319

know whether something like that

1222

00:49:25,270 --> 00:49:23,280

appeared already uh but

1223

00:49:27,349 --> 00:49:25,280

you know as i said you know i'm i

1224

00:49:28,230 --> 00:49:27,359

haven't changed much since i was a kid

1225

00:49:30,630 --> 00:49:28,240

and

1226

00:49:33,510 --> 00:49:30,640

i don't want to change i want to figure

1227

00:49:35,510 --> 00:49:33,520

it out myself okay and i don't want to

1228

00:49:37,430 --> 00:49:35,520

believe to stories that other people

1229

00:49:39,750 --> 00:49:37,440

tell me and

1230

00:49:41,589 --> 00:49:39,760

gladly you know the sky most of the sky

1231

00:49:43,910 --> 00:49:41,599

is not classified so the government

1232

00:49:44,870 --> 00:49:43,920

cannot tell us not to look at the sky

1233

00:49:47,270 --> 00:49:44,880

and

1234

00:49:50,470 --> 00:49:47,280

you know if there is anything out there

1235

00:49:55,349 --> 00:49:52,549

you know i find myself really curious uh

1236

00:49:56,630 --> 00:49:55,359

just down to sort of the the brass tacks

1237

00:49:59,030 --> 00:49:56,640

of those telescopes that you're

1238

00:50:00,950 --> 00:49:59,040

referring to um can you talk a little

1239

00:50:03,030 --> 00:50:00,960

bit about like the technology behind it

1240

00:50:05,109 --> 00:50:03,040

you know like what what is so different

1241

00:50:07,030 --> 00:50:05,119

in this paradigm of telescope than what

1242

00:50:09,750 --> 00:50:07,040

we've been using before is it are you

1243

00:50:11,430 --> 00:50:09,760

using optics are you using some sort of

1244

00:50:12,870 --> 00:50:11,440

you know different camera that we

1245

00:50:15,270 --> 00:50:12,880

haven't developed before or maybe you

1246

00:50:17,510 --> 00:50:15,280

can talk a little bit about that yeah so

1247

00:50:19,670 --> 00:50:17,520

um you know one question that i'm asked

1248

00:50:22,230 --> 00:50:19,680

often is astronomers were looking at the

1249

00:50:24,309 --> 00:50:22,240

sky uh through you know telescopes for a

1250

00:50:26,549 --> 00:50:24,319

long time and why haven't they seen

1251

00:50:27,670 --> 00:50:26,559

these unidentified aerial phenomena for

1252

00:50:29,430 --> 00:50:27,680

example or

1253

00:50:31,910 --> 00:50:29,440

objects like

1254

00:50:33,910 --> 00:50:31,920

and the answer is you know dealing with

1255

00:50:36,309 --> 00:50:33,920

unidentified aerial phenomena these are

1256

00:50:38,390 --> 00:50:36,319

objects moving relatively fast across

1257

00:50:40,950 --> 00:50:38,400

the sky and astronomers are looking at

1258

00:50:42,790 --> 00:50:40,960

distance sources and if a bird flies

1259

00:50:44,230 --> 00:50:42,800

above an observatory the astronomers

1260

00:50:46,230 --> 00:50:44,240

ignore it

1261

00:50:48,549 --> 00:50:46,240

if you wanted to monitor the bird and

1262

00:50:50,710 --> 00:50:48,559

say that it's really a bird what you

1263

00:50:53,349 --> 00:50:50,720

need is a tracking system you need to

1264

00:50:54,950 --> 00:50:53,359

look at the entire sky all the time take

1265

00:50:57,030 --> 00:50:54,960

a video of the sky when you see an

1266

00:50:59,349 --> 00:50:57,040

object of interest track it

1267

00:51:00,870 --> 00:50:59,359

and that is that requires organizing

1268

00:51:02,950 --> 00:51:00,880

your instruments in completely different

1269

00:51:06,230 --> 00:51:02,960

way than was done before it also

1270

00:51:07,910 --> 00:51:06,240

requires an ai algorithm

1271

00:51:09,750 --> 00:51:07,920

machine learning algorithm that will

1272

00:51:11,670 --> 00:51:09,760

tell you what this object is and whether

1273

00:51:12,790 --> 00:51:11,680

it's of interest whether it's a bird a

1274

00:51:15,750 --> 00:51:12,800

drone

1275

00:51:18,069 --> 00:51:15,760

uh or a natural phenomena in which case

1276

00:51:20,870 --> 00:51:18,079

i don't care too much about it

1277

00:51:22,390 --> 00:51:20,880

or something else and that kind of a

1278

00:51:25,030 --> 00:51:22,400

project was never done

1279

00:51:26,710 --> 00:51:25,040

now with respect to muammar uh you know

1280

00:51:28,150 --> 00:51:26,720

that was the first object that we saw

1281

00:51:30,710 --> 00:51:28,160

from outside the solar system we were

1282

00:51:33,670 --> 00:51:30,720

not prepared for that and now that we

1283

00:51:35,430 --> 00:51:33,680

know what we might want to look at you

1284

00:51:36,950 --> 00:51:35,440

know the

1285

00:51:39,190 --> 00:51:36,960

goal is to

1286

00:51:41,270 --> 00:51:39,200

date the next momoi it's just like going

1287

00:51:43,670 --> 00:51:41,280

on a date you know you you met someone

1288

00:51:45,910 --> 00:51:43,680

that you are really fascinated by that

1289

00:51:47,589 --> 00:51:45,920

someone left

1290

00:51:51,829 --> 00:51:47,599

the dating scene and now you're trying

1291

00:51:52,630 --> 00:51:51,839

to find another one and um and so

1292

00:51:55,349 --> 00:51:52,640

we

1293

00:51:57,109 --> 00:51:55,359

first need to to identify an object of

1294

00:51:58,390 --> 00:51:57,119

interest and there will be a telescope

1295

00:52:01,910 --> 00:51:58,400

much more powerful than the one that

1296

00:52:04,150 --> 00:52:01,920

discovered the momoi uh

1297

00:52:05,750 --> 00:52:04,160

in chile within a couple of years it's

1298

00:52:08,390 --> 00:52:05,760

called the vera rubin observatory we'll

1299

00:52:09,910 --> 00:52:08,400

have a survey of the sky and we can find

1300

00:52:11,990 --> 00:52:09,920

many more

1301
00:52:14,069 --> 00:52:12,000
objects like omomoa that come from

1302
00:52:16,069 --> 00:52:14,079
interstellar space and look weird and

1303
00:52:19,109 --> 00:52:16,079
and then the idea is to fly a camera

1304
00:52:21,589 --> 00:52:19,119
close to such an object as it passes by

1305
00:52:23,510 --> 00:52:21,599
and take a close-up photograph and

1306
00:52:24,790 --> 00:52:23,520
perhaps even land on it

1307
00:52:26,549 --> 00:52:24,800
and then

1308
00:52:28,230 --> 00:52:26,559
you know so that's the second branch of

1309
00:52:30,790 --> 00:52:28,240
the galileo project the first branch is

1310
00:52:33,750 --> 00:52:30,800
to build telescope systems on the ground

1311
00:52:35,670 --> 00:52:33,760
that would try to study unidentified

1312
00:52:37,349 --> 00:52:35,680
aerial phenomena and you know we're

1313
00:52:39,430 --> 00:52:37,359

building the first telescope system on

1314

00:52:41,589 --> 00:52:39,440

the roof of the harvard college

1315

00:52:43,750 --> 00:52:41,599

observatory in the coming months and

1316

00:52:45,990 --> 00:52:43,760

then we'll make copies of it and i

1317

00:52:48,549 --> 00:52:46,000

should say one one last thing that as

1318

00:52:51,670 --> 00:52:48,559

you know the u.s congress decided to

1319

00:52:54,150 --> 00:52:51,680

establish an office in government over

1320

00:52:56,630 --> 00:52:54,160

the past week

1321

00:52:58,630 --> 00:52:56,640

decided that within six months from now

1322

00:53:01,349 --> 00:52:58,640

there will be a new office that will

1323

00:53:03,510 --> 00:53:01,359

basically coordinate the data assembly

1324

00:53:04,870 --> 00:53:03,520

on unidentified aerial phenomena from

1325

00:53:07,190 --> 00:53:04,880

the different sections that did not

1326
00:53:09,829 --> 00:53:07,200
speak to each other within government

1327
00:53:11,750 --> 00:53:09,839
and will study the data more seriously

1328
00:53:13,430 --> 00:53:11,760
even though it's classified we might not

1329
00:53:15,750 --> 00:53:13,440
see much of it but at least the

1330
00:53:16,470 --> 00:53:15,760
government takes it seriously now

1331
00:53:18,150 --> 00:53:16,480
and

1332
00:53:20,230 --> 00:53:18,160
to me that's a very good indication

1333
00:53:22,950 --> 00:53:20,240
because it will remove the stigma and

1334
00:53:24,309 --> 00:53:22,960
the ridicule from this subject if the

1335
00:53:25,670 --> 00:53:24,319
government the most conservative

1336
00:53:28,470 --> 00:53:25,680
organization is dealing with it

1337
00:53:30,390 --> 00:53:28,480
seriously investing funds in studying it

1338
00:53:31,430 --> 00:53:30,400

it means it's a serious matter

1339

00:53:33,190 --> 00:53:31,440

now

1340

00:53:35,990 --> 00:53:33,200

the fact that the scientific community

1341

00:53:37,589 --> 00:53:36,000

is late to the party uh is a little

1342

00:53:40,549 --> 00:53:37,599

worrisome because it means that people

1343

00:53:42,549 --> 00:53:40,559

are held by their prejudice they're less

1344

00:53:44,390 --> 00:53:42,559

open-minded to explore

1345

00:53:45,190 --> 00:53:44,400

uh these objects

1346

00:53:47,670 --> 00:53:45,200

right

1347

00:53:49,829 --> 00:53:47,680

carl sagan was so deeply interested in

1348

00:53:51,910 --> 00:53:49,839

the ancient extraterrestrial connection

1349

00:53:53,910 --> 00:53:51,920

ancient astronaut theory and then he was

1350

00:53:55,670 --> 00:53:53,920

chastised by his narrow-minded

1351

00:53:58,790 --> 00:53:55,680

colleagues he had to abandon it but i

1352

00:54:01,430 --> 00:53:58,800

think sagan had it correct originally

1353

00:54:03,990 --> 00:54:01,440

and it'd be just really incredible to

1354

00:54:06,630 --> 00:54:04,000

see science come back around and take a

1355

00:54:07,990 --> 00:54:06,640

look at carl sagan's original papers and

1356

00:54:11,270 --> 00:54:08,000

what he had to say i think they would

1357

00:54:13,190 --> 00:54:11,280

find it most illuminating

1358

00:54:14,950 --> 00:54:13,200

uh you know just to just to sort of uh

1359

00:54:16,309 --> 00:54:14,960

put this out there all right i'm not

1360

00:54:18,870 --> 00:54:16,319

sure if you've given this any sort of

1361

00:54:20,630 --> 00:54:18,880

consideration avi uh but you know

1362

00:54:22,069 --> 00:54:20,640

there's a lot of people and of course

1363

00:54:25,030 --> 00:54:22,079

you know we sort of have to filter

1364

00:54:26,870 --> 00:54:25,040

through uh the authentic experiences and

1365

00:54:28,710 --> 00:54:26,880

the ones that are not so authentic but

1366

00:54:30,309 --> 00:54:28,720

there seems to be a lot of people out

1367

00:54:33,030 --> 00:54:30,319

there that have

1368

00:54:35,030 --> 00:54:33,040

had very close contact um very very

1369

00:54:36,870 --> 00:54:35,040

close contact sometimes and i'm just

1370

00:54:39,750 --> 00:54:36,880

curious if you've sort of given thought

1371

00:54:41,670 --> 00:54:39,760

to potentially um you know has to cross

1372

00:54:43,670 --> 00:54:41,680

your mind to sort of study these people

1373

00:54:45,829 --> 00:54:43,680

in certain ways you know do they have a

1374

00:54:48,069 --> 00:54:45,839

characteristic about them that maybe

1375

00:54:50,150 --> 00:54:48,079

they share with other abductees that

1376

00:54:51,510 --> 00:54:50,160

that maybe it's a reason why these

1377

00:54:53,589 --> 00:54:51,520

things are happening i didn't know if

1378

00:54:56,470 --> 00:54:53,599

that would that's a consideration as far

1379

00:54:58,789 --> 00:54:56,480

as your concern yeah no um i mean

1380

00:55:01,270 --> 00:54:58,799

we do have a subgroup within the galileo

1381

00:55:03,030 --> 00:55:01,280

team that looks at external data most of

1382

00:55:05,349 --> 00:55:03,040

the data that we will actually analyze

1383

00:55:08,309 --> 00:55:05,359

scientifically will be assembled by

1384

00:55:10,950 --> 00:55:08,319

the instruments that we built because

1385

00:55:14,390 --> 00:55:10,960

you know in physics uh you cannot

1386

00:55:16,309 --> 00:55:14,400

publish a scientific paper unless you're

1387

00:55:18,309 --> 00:55:16,319

using instruments you can't just rely on

1388

00:55:19,750 --> 00:55:18,319

eyewitness testimonies or

1389

00:55:22,390 --> 00:55:19,760

that will not hold water in the

1390

00:55:24,390 --> 00:55:22,400

scientific community and uh when you

1391

00:55:26,870 --> 00:55:24,400

have data collected by instruments then

1392

00:55:29,349 --> 00:55:26,880

anyone can analyze the data and you know

1393

00:55:30,870 --> 00:55:29,359

it will be publicly available open in

1394

00:55:32,950 --> 00:55:30,880

difference from the government-owned

1395

00:55:34,950 --> 00:55:32,960

data which is classified mostly it's

1396

00:55:36,150 --> 00:55:34,960

there is a huge iceberg we see just the

1397

00:55:37,109 --> 00:55:36,160

tip of it

1398

00:55:38,789 --> 00:55:37,119

so

1399

00:55:41,270 --> 00:55:38,799

the the the

1400

00:55:44,390 --> 00:55:41,280

innovation of the galileo project that i

1401
00:55:47,430 --> 00:55:44,400
established about four months ago is

1402
00:55:49,430 --> 00:55:47,440
that it will assemble

1403
00:55:51,349 --> 00:55:49,440
new data that is open to the public

1404
00:55:53,270 --> 00:55:51,359
using instruments that are off the shelf

1405
00:55:55,589 --> 00:55:53,280
nothing would be classified

1406
00:55:58,230 --> 00:55:55,599
and the analysis will be transparent and

1407
00:56:01,589 --> 00:55:58,240
so in a way it's a breath of fresh air

1408
00:56:02,470 --> 00:56:01,599
into this subject which um you know

1409
00:56:04,549 --> 00:56:02,480
was

1410
00:56:06,390 --> 00:56:04,559
speculated about by many people in the

1411
00:56:08,309 --> 00:56:06,400
public because they didn't have access

1412
00:56:09,910 --> 00:56:08,319
to the classified data from the

1413
00:56:12,710 --> 00:56:09,920

government and at the same time the

1414

00:56:13,990 --> 00:56:12,720

scientific community was uh ridiculing

1415

00:56:17,030 --> 00:56:14,000

and and

1416

00:56:18,710 --> 00:56:17,040

not even engaging in the study and what

1417

00:56:20,950 --> 00:56:18,720

we're trying to do is change the

1418

00:56:22,950 --> 00:56:20,960

intellectual landscape around it and

1419

00:56:26,230 --> 00:56:22,960

make it part of the mainstream activity

1420

00:56:29,349 --> 00:56:28,309

uh william not sure if you had any any

1421

00:56:31,589 --> 00:56:29,359

sort of

1422

00:56:32,390 --> 00:56:31,599

further perspective uh you know on that

1423

00:56:35,750 --> 00:56:32,400

uh

1424

00:56:37,670 --> 00:56:35,760

own way

1425

00:56:39,190 --> 00:56:37,680

well it's just tremendously exciting

1426

00:56:42,390 --> 00:56:39,200

what abi's doing with the with the

1427

00:56:44,630 --> 00:56:42,400

galileo project and it's it's i think

1428

00:56:47,270 --> 00:56:44,640

all a matter of kind of divine timing in

1429

00:56:50,150 --> 00:56:47,280

a way there seems to be a almost like a

1430

00:56:52,950 --> 00:56:50,160

metaphysical clock that's that's ticking

1431

00:56:55,030 --> 00:56:52,960

um we're we're in a race against time

1432

00:56:56,630 --> 00:56:55,040

some people believe a.i will will reach

1433

00:56:58,950 --> 00:56:56,640

the singularity sometime in the next

1434

00:57:00,470 --> 00:56:58,960

five years and ai will will turn and

1435

00:57:03,030 --> 00:57:00,480

either treat us like kittens or perhaps

1436

00:57:05,109 --> 00:57:03,040

destroy us all together so there's a lot

1437

00:57:07,109 --> 00:57:05,119

of drama here and uh there should be

1438

00:57:08,950 --> 00:57:07,119

plenty of motivation to solve these

1439

00:57:11,349 --> 00:57:08,960

questions because

1440

00:57:12,710 --> 00:57:11,359

we we are ultimately looking at not just

1441

00:57:15,670 --> 00:57:12,720

discovering

1442

00:57:17,750 --> 00:57:15,680

other civilizations but saving our own

1443

00:57:19,349 --> 00:57:17,760

civilization and i think these two

1444

00:57:22,390 --> 00:57:19,359

currents actually are going to merge

1445

00:57:24,950 --> 00:57:22,400

into one and we're going to be finding

1446

00:57:27,430 --> 00:57:24,960

in my estimation i at least i hope that

1447

00:57:29,109 --> 00:57:27,440

that we will have some some help from

1448

00:57:30,950 --> 00:57:29,119

from these uh

1449

00:57:32,549 --> 00:57:30,960

space brothers space sisters

1450

00:57:35,270 --> 00:57:32,559

extraterrestrials otherworldly

1451

00:57:38,309 --> 00:57:35,280

intelligences that that want to bring us

1452

00:57:39,109 --> 00:57:38,319

online into the the greater cosmos and

1453

00:57:41,109 --> 00:57:39,119

um

1454

00:57:43,829 --> 00:57:41,119

my my great hope and the same time my

1455

00:57:46,150 --> 00:57:43,839

great fear is is that uh we we have

1456

00:57:48,150 --> 00:57:46,160

enough time to be able to do that

1457

00:57:50,150 --> 00:57:48,160

yeah william i just wanted to to add a

1458

00:57:51,750 --> 00:57:50,160

footnote on what you just said because

1459

00:57:52,950 --> 00:57:51,760

it always bothered me you know there are

1460

00:57:54,789 --> 00:57:52,960

these

1461

00:57:57,829 --> 00:57:54,799

books that talk about finding a love

1462

00:57:59,990 --> 00:57:57,839

letter that its time has has passed and

1463

00:58:02,069 --> 00:58:00,000

was never fulfilled and finding it in

1464

00:58:04,309 --> 00:58:02,079

the attic when you come to to buy new

1465

00:58:06,069 --> 00:58:04,319

houses and and i'm

1466

00:58:08,789 --> 00:58:06,079

just worried that if we don't check our

1467

00:58:11,670 --> 00:58:08,799

mailbox you know we will not find that

1468

00:58:14,390 --> 00:58:11,680

package that has uh um

1469

00:58:16,470 --> 00:58:14,400

uh some recipe for

1470

00:58:18,789 --> 00:58:16,480

saving us in some sense be from

1471

00:58:20,829 --> 00:58:18,799

ourselves in particular and it gives me

1472

00:58:22,230 --> 00:58:20,839

chelsea

1473

00:58:24,309 --> 00:58:22,240

yeah wow

1474

00:58:26,309 --> 00:58:24,319

incredible thank you both so much you

1475

00:58:27,910 --> 00:58:26,319

know we've uh sort of reached the the

1476

00:58:30,549 --> 00:58:27,920

end of our hour i think this has been an

1477

00:58:32,789 --> 00:58:30,559

incredibly fruitful conversation amongst

1478

00:59:26,470 --> 00:59:24,480

and that the quest for knowledge is more

1501
00:59:28,950 --> 00:59:26,480

1516

01:00:03,190 --> 01:00:01,680

so now we're going to go over to oren

1517

01:00:05,829 --> 01:00:03,200

where uh

1518

01:00:08,470 --> 01:00:05,839

1524

01:00:36,309 --> 01:00:34,390

[Music]

1525

01:00:38,470 --> 01:00:36,319

a shocking hard-hitting film exposing

1526

01:00:40,950 --> 01:00:38,480

the darkest secrets of the fbi and ciao

1527

01:00:43,349 --> 01:00:40,960

a thousand pieces is a coup being

1528

01:00:46,230 --> 01:00:43,359

carried out

1529

01:00:48,069 --> 01:00:46,240

before our very eyes

1530

01:00:50,230 --> 01:00:48,079

you're allowed to protest millions of

1531

01:00:51,750 --> 01:00:50,240

people on one day in crowds yelling

1532

01:00:53,349 --> 01:00:51,760

screaming but you try to run your

1533

01:00:56,309 --> 01:00:53,359

business you get arrested wall street

1534

01:00:59,190 --> 01:00:56,319

has laundered 100 trillion dollars from

1535

01:01:00,870 --> 01:00:59,200

trafficking in children and drugs the

1536

01:01:02,710 --> 01:01:00,880

agency has dealt drugs throughout this

1537

01:01:04,950 --> 01:01:02,720

country for a long time

1538

01:01:06,870 --> 01:01:04,960

mr secretary is it policy of the u.s

1539

01:01:09,030 --> 01:01:06,880

government to reward companies that

1540

01:01:11,270 --> 01:01:09,040

traffic in women and little girls human

1541

01:01:14,230 --> 01:01:11,280

trafficking has many more victims

1542

01:01:18,549 --> 01:01:14,240

included in the complicity of the cia

1543

01:01:20,150 --> 01:01:18,559

the fbi the justice department

1544

01:01:23,190 --> 01:01:20,160

there's corruption on both sides these

1545

01:01:26,390 --> 01:01:23,200

agencies are facing a time of reckoning

1546

01:01:29,270 --> 01:01:26,400

are we at yet another crossroads

1547

01:01:30,549 --> 01:01:29,280

get ready a thousand pieces

1548

01:01:31,750 --> 01:01:30,559

it was

1549

01:01:33,190 --> 01:01:31,760

so hard

1550

01:01:34,150 --> 01:01:33,200

to come running out of a hell that

1551

01:01:40,150 --> 01:01:34,160

nobody

1552

01:01:47,430 --> 01:01:42,230

my name is kathy o'brien and i'm a

1553

01:01:50,630 --> 01:01:47,440

survivor of mk ultra mind control

1554

01:01:52,710 --> 01:01:50,640

the mk ultra program was to

1555

01:01:56,309 --> 01:01:52,720

ultimately control the minds of the

1556

01:02:02,789 --> 01:01:56,319

population for implementing what adolf

1557

01:02:06,870 --> 01:02:05,589

when girls reached age 30

1558

01:02:09,190 --> 01:02:06,880

they were murdered or they were

1559

01:02:11,270 --> 01:02:09,200

sacrificed

1560

01:02:12,789 --> 01:02:11,280

i was going to be

1561

01:02:16,230 --> 01:02:12,799

killed as well

1562

01:02:17,430 --> 01:02:16,240

i was to go out in a blaze of glory and

1563

01:02:24,630 --> 01:02:17,440

be

1564

01:02:27,670 --> 01:02:26,309

i'm so

1565

01:02:29,270 --> 01:02:27,680

fortunate

1566

01:02:31,829 --> 01:02:29,280

that

1567

01:02:34,309 --> 01:02:31,839

an intelligence insider

1568

01:02:35,829 --> 01:02:34,319

who saw the kind of corruption that was

1569

01:02:38,630 --> 01:02:35,839

going on in the highest levels of

1570

01:02:40,789 --> 01:02:38,640

government decided to take action

1571

01:02:42,630 --> 01:02:40,799

and rescued me

1572

01:02:43,910 --> 01:02:42,640

and saved my life

1573

01:02:45,589 --> 01:02:43,920

so that

1574

01:02:49,160 --> 01:02:45,599

we could begin

1575

01:02:58,710 --> 01:02:49,170

to expose what was being done

1576

01:03:02,390 --> 01:03:00,470

ancient teachings around the world see

1577

01:03:04,630 --> 01:03:02,400

family and community as containers for

1578

01:03:06,230 --> 01:03:04,640

wisdom the stability and connectivity of

1579

01:03:08,870 --> 01:03:06,240

the family is seen as necessary to

1580

01:03:11,109 --> 01:03:08,880

ensure that information travels intact

1581

01:03:13,430 --> 01:03:11,119

from one's ancestors through the stable

1582

01:03:15,270 --> 01:03:13,440

family and into the community where it's

1583

01:03:17,109 --> 01:03:15,280

bundled and prepared to be sent as far

1584

01:03:19,589 --> 01:03:17,119

into the future as possible

1585

01:03:22,230 --> 01:03:19,599

but for decades a quiet war has been

1586

01:03:24,630 --> 01:03:22,240

waged by globalists communists and

1587

01:03:25,829 --> 01:03:24,640

social engineers with a single target in

1588

01:03:28,549 --> 01:03:25,839

their sights

1589

01:03:31,190 --> 01:03:28,559

the traditional family unit can we

1590

01:03:35,589 --> 01:03:31,200

rediscover this ancient ideal of family

1591

01:03:39,750 --> 01:03:38,549

superorganism the family unit coming

1592

01:03:44,710 --> 01:03:39,760

soon

1593

01:03:59,120 --> 01:03:44,720

[Music]

1594

01:04:09,750 --> 01:03:59,130

[Applause]
