11
00:01:15,230 --> 00:01:12,119

the passimant astronomical clock in

12
00:01:18,429 --> 00:01:15,240

Versailles has shown the correct date

13
00:01:24,050 --> 00:01:18,439

time moon phase and planetary alignment

14

00:01:24,850 --> 00:01:24,060

since 1750 and will continue until the

15

00:01:30,469 --> 00:01:24,860

19

00:01:44,749 --> 00:01:40,500

a little programming note

20

00:01:48,830 --> 00:01:44,759

first nine years during the show

23

00:02:00,710 --> 00:01:56,119

that's because on Monday December 19th

24

00:02:03,109 --> 00:02:00,720

will be the beginning of our 10th year

25

00:02:05,209 --> 00:02:03,119

of Fade to Black

26

00:02:08,570 --> 00:02:05,219

pretty incredible I'm humbled by that

27

00:02:10,070 --> 00:02:08,580

it's absolutely incredible let's get to

28

00:02:14,030 --> 00:02:10,080

the breaking news

29

00:02:15,410 --> 00:02:14,040

tonight this is this is amazing this is

30

00:02:16,790 --> 00:02:15,420

great so listen

31

00:02:19,610 --> 00:02:16,800

tonight

32

00:02:23,750 --> 00:02:19,620

Mars at opposition

33

00:02:26,330 --> 00:02:23,760

will meet up with the full moon the moon

34

00:02:29,270 --> 00:02:26,340

will turn full as Mars arrives at

35

00:02:32,390 --> 00:02:29,280

opposition to the sun resulting in a

36

00:02:36,650 --> 00:02:32,400

perfect alignment in space of the sun

37

00:02:40,610 --> 00:02:36,660

earth moon and Mars

38

00:02:43,910 --> 00:02:40,620

the moon will turn full at 11 08 p.m

39

00:02:46,150 --> 00:02:43,920

eastern time followed by Mars arriving

40

00:02:50,750 --> 00:02:46,160

at opposition to the sun

41

00:02:52,850 --> 00:02:50,760

87 minutes later it's going down tonight

42

00:02:54,949 --> 00:02:52,860

December 7th

43

00:02:58,850 --> 00:02:54,959

okay here we go

44

00:03:00,350 --> 00:02:58,860

this uh it's pretty upsetting

45

00:03:02,630 --> 00:03:00,360

but it's true

46

00:03:05,030 --> 00:03:02,640

International Travelers have been

47

00:03:09,610 --> 00:03:05,040

flocking to the popular resort island of

48

00:03:12,050 --> 00:03:09,620

Bali as the covet pandemic is subsiding

49

00:03:15,229 --> 00:03:12,060

prompting hopes that Indonesia's

50

00:03:19,490 --> 00:03:15,239

battered tourism industry is on the road

51
00:03:20,470 --> 00:03:19,500
to recovery but not so fast because this

52
00:03:23,390 --> 00:03:20,480
week

53
00:03:27,130 --> 00:03:23,400
controversial new laws were passed in

54
00:03:32,509 --> 00:03:27,140
Parliament that ban get this

55
00:03:34,790 --> 00:03:32,519
cohabitation and sex outside of marriage

56
00:03:39,410 --> 00:03:34,800
the laws will apply to not just

57
00:03:42,470 --> 00:03:39,420
residents but also to foreign expats and

58
00:03:44,330 --> 00:03:42,480
tourists in the country

59
00:03:46,670 --> 00:03:44,340
now although the changes are not

60
00:03:48,289 --> 00:03:46,680
expected to kick in for the next uh

61
00:03:50,930 --> 00:03:48,299
three years

62
00:03:53,690 --> 00:03:50,940
the new criminal code will make sure

63
00:03:56,589 --> 00:03:53,700

that foreigners stop visiting

64

00:04:01,070 --> 00:03:56,599

and hurt the country's Global reputation

65

00:04:05,089 --> 00:04:01,080

that's a guarantee that's insane

66

00:04:08,570 --> 00:04:05,099

this news broke yesterday a 1300 year

67

00:04:10,190 --> 00:04:08,580

old gold and gemstone necklace found on

68

00:04:13,910 --> 00:04:10,200

the site of a new Housing Development

69

00:04:15,410 --> 00:04:13,920

marks the grave of a powerful woman who

70

00:04:17,409 --> 00:04:15,420

may have been an early Christian

71

00:04:19,189 --> 00:04:17,419

religious leader in Britain

72

00:04:21,289 --> 00:04:19,199

archaeologist our archaeologist

73

00:04:24,770 --> 00:04:21,299

announced yesterday

74

00:04:27,590 --> 00:04:24,780

the necklace uncovered with other items

75

00:04:29,629 --> 00:04:27,600

near Northampton in central England is

76

00:04:33,110 --> 00:04:29,639

part of the most significant early

77

00:04:34,550 --> 00:04:33,120

medieval burial of a woman ever found in

78

00:04:37,909 --> 00:04:34,560

the United Kingdom

79

00:04:41,150 --> 00:04:37,919

the long buried Trove will shed light on

80

00:04:45,170 --> 00:04:41,160

life in 7th Century England a time when

81

00:04:48,409 --> 00:04:45,180

Christianity was battling with paganism

82

00:04:49,850 --> 00:04:48,419

it's called the harpole Treasure named

83

00:04:52,370 --> 00:04:49,860

for the village where it was found about

84

00:04:54,590 --> 00:04:52,380

60 miles Northwest of London it was

85

00:04:56,830 --> 00:04:54,600

Unearthed in April by archaeologists

86

00:05:00,530 --> 00:04:56,840

working with a property developer

87

00:05:02,150 --> 00:05:00,540

vistery group on a neighborhood of new

88

00:05:05,770 --> 00:05:02,160

houses you should see the images

89

00:05:08,749 --> 00:05:05,780

absolutely incredible now

90

00:05:10,189 --> 00:05:08,759

more than 3

91

00:05:12,530 --> 00:05:10,199

000 years

92

00:05:15,409 --> 00:05:12,540

before the Titanic sunk in the North

93

00:05:17,390 --> 00:05:15,419

Atlantic Ocean another famous ship

94

00:05:20,150 --> 00:05:17,400

wrecked in the Mediterranean Sea off of

95

00:05:21,730 --> 00:05:20,160

the Eastern shores of uluburun in

96

00:05:25,790 --> 00:05:21,740

present-day turkey

97

00:05:28,730 --> 00:05:25,800

carrying tons of rare metal

98

00:05:30,950 --> 00:05:28,740

now a team of scientists including

99

00:05:33,010 --> 00:05:30,960

Michael frechetti professor of

100

00:05:36,230 --> 00:05:33,020

archeology and arts and scientists

101
00:05:37,010 --> 00:05:36,240
Sciences at Washington University in St

102
00:05:40,070 --> 00:05:37,020
Louis

103
00:05:41,650 --> 00:05:40,080
have uncovered a surprising finding

104
00:05:45,409 --> 00:05:41,660
that

105
00:05:48,950 --> 00:05:45,419
Uzbekistan all the way over in Central

106
00:05:51,830 --> 00:05:48,960
Asia produced and supplied roughly

107
00:05:55,010 --> 00:05:51,840
one-third of the ten found aboard the

108
00:05:57,770 --> 00:05:55,020
ship tin that was in route to markets

109
00:05:59,810 --> 00:05:57,780
around the Mediterranean to be used for

110
00:06:01,370 --> 00:05:59,820
making bronze

111
00:06:04,670 --> 00:06:01,380
and that's like

112
00:06:07,850 --> 00:06:04,680
a thousand two thousand miles away

113
00:06:10,510 --> 00:06:07,860

it's a long established trade routes

114

00:06:13,850 --> 00:06:10,520

like that for rare metals

115

00:06:15,350 --> 00:06:13,860

three thousand years ago now I normally

116

00:06:17,450 --> 00:06:15,360

don't comment during

117

00:06:20,330 --> 00:06:17,460

the new segment

118

00:06:22,309 --> 00:06:20,340

but I saw a Dirk Pitt movie the other

119

00:06:25,010 --> 00:06:22,319

night I found it never saw it before

120

00:06:27,469 --> 00:06:25,020

called Raise the Titanic

121

00:06:30,110 --> 00:06:27,479

I think it's better than James Cameron's

122

00:06:34,510 --> 00:06:30,120

Titanic go and check it out Raise the

123

00:06:38,870 --> 00:06:34,520

Titanic Dirk pit Clive Cussler all right

124

00:06:39,710 --> 00:06:38,880

it went down the big cat public safety

125

00:06:43,189 --> 00:06:39,720

act

126

00:06:45,590 --> 00:06:43,199

a bill to restrict private ownership of

127

00:06:47,749 --> 00:06:45,600

big cats like tigers it was made famous

128

00:06:51,650 --> 00:06:47,759

by the Tiger King Netflix series by the

129

00:06:54,309 --> 00:06:51,660

way passed by unanimous consent in the

130

00:06:57,830 --> 00:06:54,319

Senate and will now head to President

131

00:06:59,930 --> 00:06:57,840

Biden's desk Biden is expected to sign

132

00:07:04,309 --> 00:06:59,940

the bill having released a statement of

133

00:07:08,230 --> 00:07:04,319

support for the bill back in July

134

00:07:10,730 --> 00:07:08,240

there you go had to happen

135

00:07:14,330 --> 00:07:10,740

ah a core

136

00:07:18,050 --> 00:07:14,340

of Ice Age sediment from northern

137

00:07:20,089 --> 00:07:18,060

Greenland has yielded the world's oldest

138

00:07:23,150 --> 00:07:20,099

sequences of

139

00:07:29,390 --> 00:07:26,150

the 2 million year old DNA samples

140

00:07:32,629 --> 00:07:29,400

revealed the now largely lifeless polar

141

00:07:35,270 --> 00:07:32,639

region was once home to Rich plant and

142

00:07:38,770 --> 00:07:35,280

animal life including elephant-like

143

00:07:43,689 --> 00:07:38,780

mammals known as mastodons reindeer

144

00:07:46,490 --> 00:07:43,699

rabbits hares Lemmings geese birch trees

145

00:07:49,969 --> 00:07:46,500

poplars all of this according to new

146

00:07:53,450 --> 00:07:49,979

research published today in the journal

147

00:07:56,570 --> 00:07:53,460

Nature the oldest DNA

148

00:07:58,909 --> 00:07:56,580

two million years old well it went down

149

00:08:02,150 --> 00:07:58,919

it finally it had to happen San

150

00:08:05,210 --> 00:08:02,160

Francisco lawmakers voted to ban police

151
00:08:08,210 --> 00:08:05,220
robots from using deadly force all this

152
00:08:11,450 --> 00:08:08,220
went down yesterday reversing course one

153
00:08:13,550 --> 00:08:11,460
week after I announced that officials

154
00:08:17,089 --> 00:08:13,560
had approved the practice

155
00:08:20,089 --> 00:08:17,099
of shooting at humans it sparked

156
00:08:22,730 --> 00:08:20,099
National outrage the city's Board of

157
00:08:24,850 --> 00:08:22,740
Supervisors supervisors voted to

158
00:08:27,830 --> 00:08:24,860
explicitly prohibit

159
00:08:31,369 --> 00:08:27,840
right the San Francisco Police

160
00:08:35,930 --> 00:08:31,379
Department from using the 17 robots that

161
00:08:40,130 --> 00:08:35,940
they have in its Arsenal to kill people

162
00:08:42,529 --> 00:08:40,140
the board however also sent the issue

163
00:08:44,870 --> 00:08:42,539

back to a committee for further review I

164

00:08:48,410 --> 00:08:44,880

can't believe it which means it could

165

00:08:52,090 --> 00:08:48,420

later decide to allow lethal Force

166

00:08:57,949 --> 00:08:52,100

in some circumstances

167

00:09:01,370 --> 00:08:57,959

RoboCop Terminator for real and as if

168

Pentagon which is already a buyer of

186
00:09:51,829 --> 00:09:49,620
spacex's launches and has shown

187
00:09:53,449 --> 00:09:51,839
significant interest in the capabilities

188
00:09:55,730 --> 00:09:53,459
