welcome Fade to Black breaking news for

4
00:00:47,569 --> 00:00:45,600

day in history

8
00:00:58,910 --> 00:00:56,219
1944 legendary band leader Glenn Miller

9
00:01:01,810 --> 00:00:58,920
disappears over the English Channel the

10
00:01:05,050 --> 00:01:01,820
wreckage of his plane was never found

11
00:01:09,410 --> 00:01:05,060

remains missing in action here's your

13
00:01:16,730 --> 00:01:12,600

fader fact today fader fact during World

14

00:01:20,149 --> 00:01:16,740

War II pilots in North Africa would wrap

15

00:01:22,249 --> 00:01:20,159

Coca-Cola bottles in wet towels and then

16

00:01:24,050 --> 00:01:22,259

attach them to the wings of their

17

00:01:28,010 --> 00:01:24,060

aircraft before takeoff

18

00:01:30,469 --> 00:01:28,020

so there would be ice cold when they

19

00:01:32,749 --> 00:01:30,479

landed and that

20

00:01:34,370 --> 00:01:32,759

russian-built soyuz spacecraft docked

84

00:04:49,370 --> 00:04:45,300

right now at the International Space

85

00:04:50,810 --> 00:04:49,380

Station has damaged the crew capsule all

86

00:04:54,350 --> 00:04:50,820

of this announced by Russia's space

87

00:04:56,409 --> 00:04:54,360

00:05:04,249 --> 00:05:02,580

ms-22 spacecraft currently docked at the

91

00:05:07,310 --> 00:05:04,259

International Space Station

92

00:05:10,490 --> 00:05:07,320

was detected while Expedition 68

93

00:05:12,409 --> 00:05:10,500

cosmonauts were preparing a spacewalk

94

00:05:15,110 --> 00:05:12,419

outside of the ISS

95

00:05:16,909 --> 00:05:15,120

the Eva was called off after they were

96

00:05:20,210 --> 00:05:16,919

in their spacesuits and beginning to

97

00:05:22,670 --> 00:05:20,220

depressurize in the airlock cameras on

98

00:05:24,950 --> 00:05:22,680

the outside of the space station showed

99

00:05:27,290 --> 00:05:24,960

a steady stream of Frozen coolant

100

00:05:30,170 --> 00:05:27,300

shooting into space from the soyuz

101
00:05:33,230 --> 00:05:30,180
capsule as the cosmonauts returned to

102
00:05:34,610 --> 00:05:33,240
the main body of the station

103
00:05:36,170 --> 00:05:34,620
wow

104
00:05:40,430 --> 00:05:36,180
today

105
00:05:42,790 --> 00:05:40,440
in the journal Nature astronomy a crew

106
00:05:46,370 --> 00:05:42,800
of exoplanet Hunters announced that

107
00:05:50,590 --> 00:05:46,380
using NASA's Hubble and retired Spitzer

108
00:05:54,650 --> 00:05:50,600
space telescopes have identified two

109
00:05:55,550 --> 00:05:54,660
exoplanets that are immersed in blankets

110
00:05:57,230 --> 00:05:55,560
of

111
00:06:03,469 --> 00:05:57,240
water

112
00:06:07,730 --> 00:06:03,479
Kepler 138c and kepler-138 D are about

113
00:06:09,529 --> 00:06:07,740

218 light years away and orbit a dim Red

114

00:06:11,930 --> 00:06:09,539

Dwarf star

115

00:06:15,230 --> 00:06:11,940

this is the first time that we have

116

00:06:17,629 --> 00:06:15,240

confidently identified any exoplanets

117

00:06:19,790 --> 00:06:17,639

as water worlds

118

00:06:23,029 --> 00:06:19,800

incredible

119

00:06:25,670 --> 00:06:23,039

China's new space station has officially

120

00:06:28,309 --> 00:06:25,680

opened for business in an increasingly

121

00:06:31,189 --> 00:06:28,319

competitive era of space activity

122

00:06:35,150 --> 00:06:31,199

on November 29th a couple of weeks ago

123

00:06:38,469 --> 00:06:35,160

2022 the shenzhou 15 Mission launched

124

00:06:41,090 --> 00:06:38,479

from China's Gobi Desert carrying three

125

00:06:44,450 --> 00:06:41,100

taikonots the Chinese word for

126
00:06:46,309 --> 00:06:44,460
astronauts six hours later they reached

127
00:06:49,610 --> 00:06:46,319
their destination China's recently

128
00:06:53,510 --> 00:06:49,620
completed space station called Tian gong

129
00:06:56,510 --> 00:06:53,520
which means Heavenly Palace in Mandarin

130
00:06:59,029 --> 00:06:56,520
the three taikonots replaced the

131
00:07:01,610 --> 00:06:59,039
existing crew that helped wrap up the

132
00:07:04,070 --> 00:07:01,620
construction of the space station with

133
00:07:07,249 --> 00:07:04,080
this successful Mission China has just

134
00:07:11,029 --> 00:07:07,259
become the third Nation to operate a

135
00:07:14,330 --> 00:07:11,039
permanent space station now unlike the

136
00:07:19,189 --> 00:07:14,340
International Space Station Tian gong is

137
00:07:21,890 --> 00:07:19,199
entirely built and run by China the

138
00:07:25,070 --> 00:07:21,900

China space station is slated to stay in

139

00:07:29,029 --> 00:07:25,080

orbit for the next 15 years with plans

140

00:07:32,930 --> 00:07:29,039

to send two six-month crude missions and

141

00:07:35,270 --> 00:07:32,940

two cargo missions to it annually

142

00:07:37,969 --> 00:07:35,280

and that's it that's your Fade to Black
