

FADE **TO** BLACK

with **JIMMY CHURCH**
PRESENTS

BREAKING NEWS

Wed Jan 11, 2023 **LIVE**

1
00:00:44,569 --> 00:00:30,890

[Music]

2
00:00:49,750 --> 00:00:46,850

welcome this is Fade to Black breaking

3
00:00:52,369 --> 00:00:49,760

news for Wednesday January 11

4
00:00:56,869 --> 00:00:52,379

2023 I'm Jimmy Church

5
00:01:00,889 --> 00:00:56,879

this is all of the news that you need on

6
00:01:02,930 --> 00:01:00,899

this day in history in 1935 in the first

7
00:01:06,230 --> 00:01:02,940

flight of its kind Amelia Earhart

8
00:01:09,230 --> 00:01:06,240

departs Honolulu Hawaii on a solo flight

9
00:01:11,929 --> 00:01:09,240

to North America Hawaii offered a ten

10
00:01:14,630 --> 00:01:11,939

thousand dollar award to whoever

11
00:01:17,090 --> 00:01:14,640

accomplished the flight first and the

12
00:01:20,330 --> 00:01:17,100

next day she safely landed at Oakland

13
00:01:24,469 --> 00:01:20,340

Airport in Oakland California on this

14

00:01:26,690 --> 00:01:24,479

day in 1935. two years after her

15

00:01:28,910 --> 00:01:26,700

Hawaiian California flight she attempted

16

00:01:31,749 --> 00:01:28,920

to fly around the world but her plane

17

00:01:35,990 --> 00:01:31,759

was lost on July 2nd

18

00:01:37,069 --> 00:01:36,000

1937. here's your fader fact today

19

00:01:39,109 --> 00:01:37,079

Uganda

20

00:01:42,050 --> 00:01:39,119

that's right

21

00:01:45,350 --> 00:01:42,060

Uganda has a population of 20 million

22

00:01:50,990 --> 00:01:45,360

people and around 48 percent

23

00:01:52,670 --> 00:01:51,000

10 million is under the age of 15.

24

00:01:54,889 --> 00:01:52,680

and that

25

00:01:57,350 --> 00:01:54,899

is your fader fact

26

00:01:58,730 --> 00:01:57,360

let's get to the breaking news a very

27

00:02:01,850 --> 00:01:58,740

sad day

28

00:02:02,990 --> 00:02:01,860

and this is some of the stuff that you

29

00:02:05,149 --> 00:02:03,000

have to do

30

00:02:07,249 --> 00:02:05,159

when you're doing live breaking news

31

00:02:09,830 --> 00:02:07,259

that's because Jeff Beck

32

00:02:13,309 --> 00:02:09,840

guitar God and two-time Rock and Roll

33

00:02:16,790 --> 00:02:13,319

Hall of Fame inductee has died at the

34

00:02:19,430 --> 00:02:16,800

age of 78. his family confirmed his

35

00:02:22,250 --> 00:02:19,440

departing of this Earth yesterday or

36

00:02:25,550 --> 00:02:22,260

today after his final Journey to the

37

00:02:27,470 --> 00:02:25,560

Stars which was yesterday

38

00:02:29,930 --> 00:02:27,480

and I'm quoting from the family on

39

00:02:31,790 --> 00:02:29,940

behalf of the family it is with deep and

40

00:02:34,190 --> 00:02:31,800

profound sadness that we share the news

41

00:02:37,130 --> 00:02:34,200

of Jeff Beck's passing

42

00:02:39,710 --> 00:02:37,140

after suddenly Contracting bacterial

43

00:02:42,650 --> 00:02:39,720

meningitis he peacefully passed away

44

00:02:45,970 --> 00:02:42,660

yesterday his family asked for privacy

45

00:02:48,589 --> 00:02:45,980

while they process this tremendous loss

46

00:02:52,190 --> 00:02:48,599

I'm heartbroken

47

00:02:54,290 --> 00:02:52,200

I'm crushed and I think everybody knows

48

00:02:56,750 --> 00:02:54,300

uh that his influence on the world or

49

00:03:00,710 --> 00:02:56,760

myself personally cannot be measured

50

00:03:06,050 --> 00:03:00,720

and rest in peace Mr Beck

51
00:03:12,350 --> 00:03:06,060
all right moving on other breaking news

52
00:03:14,990 --> 00:03:12,360
crushing day the star Gaia 17 BPP began

53
00:03:19,309 --> 00:03:15,000
brightening again after a seven year

54
00:03:23,030 --> 00:03:19,319
Eclipse by a strange companion star Drew

55
00:03:26,270 --> 00:03:23,040
to a close showing that it exists in a

56
00:03:28,729 --> 00:03:26,280
rare binary system astronomers made the

57
00:03:31,309 --> 00:03:28,739
discovery as they searched data from the

58
00:03:36,649 --> 00:03:31,319
Gaia survey for unusual and Oddball

59
00:03:38,690 --> 00:03:36,659
Stars they found that Gaia 17b PPP had

60
00:03:40,190 --> 00:03:38,700
gradually brightened over a two and a

61
00:03:43,009 --> 00:03:40,200
half year period with a follow-up

62
00:03:46,309 --> 00:03:43,019
investigations revealing it had been

63
00:03:50,030 --> 00:03:46,319

dimmed for seven years as a result of

64

00:03:53,509 --> 00:03:50,040

being obscured by its companion

65

00:03:55,970 --> 00:03:53,519

there you go check this out billionaire

66

00:04:00,649 --> 00:03:55,980

Larry Ellison

67

00:04:02,930 --> 00:04:00,659

was pulled over for speeding on his own

68

00:04:05,809 --> 00:04:02,940

Hawaiian island

69

00:04:07,850 --> 00:04:05,819

that's right billionaire Tech Mogul

70

00:04:09,890 --> 00:04:07,860

Larry Ellison admitted to Breaking the

71

00:04:14,869 --> 00:04:09,900

Law after being pulled over by a traffic

72

00:04:17,509 --> 00:04:14,879

cop on his island of Lanai for speeding

73

00:04:19,849 --> 00:04:17,519

and running a stop sign according to

74

00:04:23,030 --> 00:04:19,859

body cam footage released this week and

75

00:04:25,730 --> 00:04:23,040

actually it was leaked

76

00:04:29,150 --> 00:04:25,740

Allison the Oracle co-founder and

77

00:04:33,590 --> 00:04:29,160

world's sixth richest man with a net

78

00:04:35,930 --> 00:04:33,600

worth of about 108 billion dollars was

79

00:04:38,170 --> 00:04:35,940

driving his orange Corvette last October

80

00:04:40,969 --> 00:04:38,180

when a traffic officer pulled him over

81

00:04:44,330 --> 00:04:40,979

the officer from the Maui police

82

00:04:47,330 --> 00:04:44,340

department which patrols Lanai issued

83

00:04:49,689 --> 00:04:47,340

Ellison a citation

84

00:04:52,550 --> 00:04:49,699

on his own Island

85

00:04:55,550 --> 00:04:52,560

China's first space station is now

86

00:04:58,370 --> 00:04:55,560

complete in Earth orbit and has a new

87

00:05:01,490 --> 00:04:58,380

set of coins to prove it

88

00:05:05,090 --> 00:05:01,500

The People's Bank of China on Monday

89

00:05:06,950 --> 00:05:05,100

January 9th issued gold and silver coins

90

00:05:10,189 --> 00:05:06,960

in celebration of the completion of the

91

00:05:12,469 --> 00:05:10,199

nation's Tian gong space station the

92

00:05:13,909 --> 00:05:12,479

orbital complex was finished last year

93

00:05:17,090 --> 00:05:13,919

with the addition of two science

94

00:05:20,749 --> 00:05:17,100

Laboratories to an earlier launched core

95

00:05:23,570 --> 00:05:20,759

module the three gram gold coin has the

96

00:05:25,969 --> 00:05:23,580

t-shaped Tian gong on its reverse the

97

00:05:28,850 --> 00:05:25,979

one ounce silver coin depicts two

98

00:05:32,330 --> 00:05:28,860

taikinots working outside of the space

99

00:05:36,409 --> 00:05:32,340

station and both coins reverse displays

100

00:05:39,170 --> 00:05:36,419

the CMS logo China space station all of

101
00:05:40,730 --> 00:05:39,180
that in Chinese and of course its

102
00:05:44,510 --> 00:05:40,740
denomination

103
00:05:49,010 --> 00:05:44,520
the Curiosity Rover has discovered opal

104
00:05:51,710 --> 00:05:49,020
gems in the Gale crater on Mars and

105
00:05:53,770 --> 00:05:51,720
water-rich Opals May one day provide a

106
00:05:57,350 --> 00:05:53,780
source of water on the Martian surface

107
00:05:59,930 --> 00:05:57,360
because opal is predominantly composed

108
00:06:01,969 --> 00:05:59,940
of water and silica this shows that

109
00:06:05,090 --> 00:06:01,979
there was once enough water there to be

110
00:06:07,790 --> 00:06:05,100
habitable the opal currently on Mars may

111
00:06:10,790 --> 00:06:07,800
one day be harvested for water stored

112
00:06:14,050 --> 00:06:10,800
inside offering a source of water for

113
00:06:18,129 --> 00:06:14,060

any crude missions to the red planet

114

00:06:20,930 --> 00:06:18,139

certainly huge news

115

00:06:22,850 --> 00:06:20,940

Russia's space agency will launch an

116

00:06:26,090 --> 00:06:22,860

empty soyuz capsule to the International

117

00:06:28,249 --> 00:06:26,100

Space Station next month to replace a

118

00:06:31,490 --> 00:06:28,259

damaged spacecraft that is unsafe to

119

00:06:33,890 --> 00:06:31,500

return its crew of three back to Earth

120

00:06:38,749 --> 00:06:33,900

all of this announced by Russian and

121

00:06:41,450 --> 00:06:38,759

NASA space officials today the new ms-23

122

00:06:44,870 --> 00:06:41,460

soyuz spacecraft will launch on February

123

00:06:46,090 --> 00:06:44,880

20th from Kazakhstan to replace the

124

00:06:49,670 --> 00:06:46,100

broken size

125

00:06:52,189 --> 00:06:49,680

ms-22 capsule on the station which

126
00:06:55,390 --> 00:06:52,199
suffered a coolant leak on December 14th

127
00:06:59,330 --> 00:06:55,400
after being struck by a micrometeoroid

128
00:07:02,270 --> 00:06:59,340
the damaged ms-22 will return to Earth

129
00:07:04,909 --> 00:07:02,280
packed with gear and science experiments

130
00:07:08,290 --> 00:07:04,919
instead of a human crew several weeks

131
00:07:12,350 --> 00:07:08,300
after the replacement soyuz ms-23

132
00:07:16,010 --> 00:07:12,360
arrives at the station by the way they

133
00:07:20,210 --> 00:07:16,020
are not calling this a rescue mission

134
00:07:23,150 --> 00:07:20,220
there you go Oscar Meyer is recruiting

135
00:07:26,089 --> 00:07:23,160
for the next Wienermobile driver giving

136
00:07:27,529 --> 00:07:26,099
fans the opportunity to snag the once in

137
00:07:30,170 --> 00:07:27,539
a lifetime job

138
00:07:32,450 --> 00:07:30,180

fans can apply for the coveted one-year

139

00:07:35,450 --> 00:07:32,460

full-time gig behind the wheel of the

140

00:07:38,210 --> 00:07:35,460

iconic Wienermobile through January 31st

141

00:07:40,670 --> 00:07:38,220

of this month recent college graduates

142

00:07:44,450 --> 00:07:40,680

are urged to apply for the opportunity

143

00:07:45,890 --> 00:07:44,460

to become a member of the 36th hot

144

00:07:48,050 --> 00:07:45,900

dogger class

145

00:07:50,689 --> 00:07:48,060

by the end of their service each hot

146

00:07:53,689 --> 00:07:50,699

dogger has an average of 20 000 miles

147

00:07:56,290 --> 00:07:53,699

and 20 States under their belt all you

148

00:07:58,550 --> 00:07:56,300

got to do is visit

149

00:08:02,950 --> 00:07:58,560

careers.crafthines.com for more

150

00:08:06,430 --> 00:08:02,960

information and to apply for the job

151
00:08:09,650 --> 00:08:06,440
astronomers have found a second

152
00:08:12,529 --> 00:08:09,660
earth-sized planet in an alien solar

153
00:08:15,550 --> 00:08:12,539
system where both worlds discovered

154
00:08:18,290 --> 00:08:15,560
their orbit the same star

155
00:08:21,290 --> 00:08:18,300
NASA's transiting exoplanet survey

156
00:08:25,010 --> 00:08:21,300
satellite otherwise known as Tess has

157
00:08:26,990 --> 00:08:25,020
discovered 285 confirmed exoplanets and

158
00:08:29,930 --> 00:08:27,000
6 000 candidates

159
00:08:35,029 --> 00:08:29,940
of the most intriguing of the confirmed

160
00:08:39,469 --> 00:08:35,039
planets is toi 700d by the way t-o-i

161
00:08:43,850 --> 00:08:39,479
stands for Tess object of Interest

162
00:08:46,550 --> 00:08:43,860
so toi 700d which is about the size of

163
00:08:49,850 --> 00:08:46,560

Earth and located in its star's

164

00:08:51,949 --> 00:08:49,860

habitable zone and now scientists have

165

00:08:54,590 --> 00:08:51,959

determined that the planet has a

166

00:08:59,329 --> 00:08:54,600

neighbor and a neighbor that is just as

167

00:09:02,690 --> 00:08:59,339

tantalizing the star system toi 700 is

168

00:09:07,490 --> 00:09:02,700

only about 100 light years away from

169

00:09:09,050 --> 00:09:07,500

Earth it is in our neighborhood well

170

00:09:11,389 --> 00:09:09,060

that's it that's all of your Fade to

171

00:09:15,769 --> 00:09:11,399

Black breaking news that you need for

172

00:09:19,550 --> 00:09:15,779

this Wednesday January 11 2023 I'm Jimmy

173

00:09:21,470 --> 00:09:19,560

church and breaking news is produced by

174

00:09:25,910 --> 00:09:21,480

Renee Newman

175

00:09:29,130 --> 00:09:25,920

and with that I'm going to say go back
