

FADE TO BLACK

with JIMMY CHURCH

PRESENTS

RYAN GRAVES

NAVY PILOTS, UAPs, and REALITY

TUE JAN 17 **LIVE**

7:00 PM PT/10:00PM ET

1
00:00:38,229 --> 00:00:33,250

[Music]

2
00:00:41,510 --> 00:00:38,239

the smoke radio for the masses of July 8

3
00:00:43,910 --> 00:00:41,520

1947 the Army Air Forces has announced

4
00:00:46,549 --> 00:00:43,920

that a flying disc has been found and is

5
00:00:51,110 --> 00:00:46,559

now in the possession of the army

6
00:00:53,869 --> 00:00:51,120

rigs change the game game changer I

7
00:00:57,470 --> 00:00:53,879

occasionally think how quickly hard

8
00:00:59,930 --> 00:00:57,480

difference is worldwide would vanish if

9
00:01:03,060 --> 00:00:59,940

we were facing an alien threat from

10
00:01:03,210 --> 00:01:03,070

outside this work

11
00:01:05,590 --> 00:01:03,220

[Applause]

12
00:01:08,510 --> 00:01:05,600

[Music]

13
00:01:11,330 --> 00:01:08,520

this is Fade to Black with your host

14
00:01:11,990 --> 00:01:11,340
Jimmy Church on the game changer Radio

15
00:01:15,649 --> 00:01:12,000
Network

16
00:01:18,289 --> 00:01:15,659
[Music]

17
00:01:20,149 --> 00:01:18,299
all right welcome Fade to Black I'm your

18
00:01:22,390 --> 00:01:20,159
host Jimmy church today is Tuesday

19
00:01:26,270 --> 00:01:22,400
January 17

20
00:01:29,390 --> 00:01:26,280
2023 and tonight on Fade to Black

21
00:01:34,550 --> 00:01:29,400
x x I'm gonna say x x Navy pilot

22
00:01:36,109 --> 00:01:34,560
Lieutenant Ryan Graves is with us and he

23
00:01:40,789 --> 00:01:36,119
is a former Lieutenant of the United

24
00:01:42,350 --> 00:01:40,799
States Navy F-18 f a 18 F pilot he

25
00:01:44,030 --> 00:01:42,360
served for a decade including two

26

00:01:46,609 --> 00:01:44,040

deployments in operation enduring

27

00:01:48,710 --> 00:01:46,619

freedom and operation inherent resolve

28

00:01:50,569 --> 00:01:48,720

he was one of the first active duty

29

00:01:52,969 --> 00:01:50,579

Pilots to come forward publicly about

30

00:01:56,749 --> 00:01:52,979

regular sightings of unidentified aerial

31

00:01:59,569 --> 00:01:56,759

phenomena today UFOs uh known today as

32

00:02:01,850 --> 00:01:59,579

uaps and has been featured in 60 minutes

33

00:02:04,190 --> 00:02:01,860

the History Channel The New York Times

34

00:02:05,990 --> 00:02:04,200

and now Fade to Black and I would like

35

00:02:09,469 --> 00:02:06,000

to welcome for the first time to fade to

36

00:02:11,630 --> 00:02:09,479

black lieutenant Ryan Graves Ryan good

37

00:02:13,010 --> 00:02:11,640

evening young man how you doing I'm

38

00:02:16,010 --> 00:02:13,020

doing well Jimmy thanks for having me

39

00:02:18,050 --> 00:02:16,020

here it's a it man it was it was long

40

00:02:20,690 --> 00:02:18,060

road but but we got it we made it happen

41

00:02:23,089 --> 00:02:20,700

and welcome to the show and and here's

42

00:02:26,210 --> 00:02:23,099

here's the deal you get the First Time

43

00:02:27,830 --> 00:02:26,220

guest disclaimer a tradition that's been

44

00:02:29,210 --> 00:02:27,840

going on around here for 10 years so

45

00:02:31,850 --> 00:02:29,220

let's get that out of the way which is

46

00:02:33,650 --> 00:02:31,860

Ryan it's just you and I sitting on my

47

00:02:35,390 --> 00:02:33,660

couch having a conversation as friends

48

00:02:37,250 --> 00:02:35,400

and where the conversation starts and

49

00:02:39,530 --> 00:02:37,260

starts where it ends it ends but we're

50

00:02:42,710 --> 00:02:39,540

gonna end as friends there you go all

51
00:02:45,470 --> 00:02:42,720
right painless right very good yeah the

52
00:02:48,530 --> 00:02:45,480
next time yeah yeah the next time you're

53
00:02:50,990 --> 00:02:48,540
on you you you won't get it and uh so

54
00:02:52,729 --> 00:02:51,000
that's out of the way I have forgotten

55
00:02:55,130 --> 00:02:52,739
that a couple of times over the years

56
00:02:58,790 --> 00:02:55,140
and I watch you know the chat room and

57
00:03:01,610 --> 00:02:58,800
the email light up dude and so I've had

58
00:03:03,410 --> 00:03:01,620
to go back after the break and and uh

59
00:03:05,750 --> 00:03:03,420
and and get that in but welcome to the

60
00:03:08,509 --> 00:03:05,760
show and

61
00:03:10,790 --> 00:03:08,519
um we've got a lot to discuss uh tonight

62
00:03:13,729 --> 00:03:10,800
and

63
00:03:15,649 --> 00:03:13,739

um I I kind of want to revisit the past

64

00:03:18,410 --> 00:03:15,659

a little bit for those that have not

65

00:03:19,670 --> 00:03:18,420

heard from you directly and of course uh

66

00:03:20,990 --> 00:03:19,680

this is the first time that you've been

67

00:03:23,270 --> 00:03:21,000

on the show it's the first time that you

68

00:03:27,229 --> 00:03:23,280

and I have had the opportunity to talk

69

00:03:30,770 --> 00:03:27,239

so I want to revisit 2014 13 if we can

70

00:03:32,449 --> 00:03:30,780

sure and uh uh we'll we'll do that

71

00:03:33,830 --> 00:03:32,459

because that's you know that's going to

72

00:03:36,770 --> 00:03:33,840

be the foundation for the conversation

73

00:03:40,130 --> 00:03:36,780

tonight but I actually want to move

74

00:03:42,410 --> 00:03:40,140

before that if we can

75

00:03:44,330 --> 00:03:42,420

um you've got an engineering degree

76

00:03:46,309 --> 00:03:44,340

right you've got an engineering

77

00:03:48,470 --> 00:03:46,319

background oh I I wanted to do you still

78

00:03:51,289 --> 00:03:48,480

fly

79

00:03:52,670 --> 00:03:51,299

um no not really right at the moment uh

80

00:03:54,170 --> 00:03:52,680

I just don't really live in a place

81

00:03:56,930 --> 00:03:54,180

where there's anything

82

00:03:59,750 --> 00:03:56,940

um that fun to rent frankly right

83

00:04:01,009 --> 00:03:59,760

fair enough fair enough so you've got an

84

00:04:03,410 --> 00:04:01,019

engineering degree engineering

85

00:04:06,649 --> 00:04:03,420

background that's you know that's where

86

00:04:09,289 --> 00:04:06,659

your mind was uh eventually you went in

87

00:04:10,789 --> 00:04:09,299

uh to the Navy and became a pilot but

88

00:04:14,270 --> 00:04:10,799

before that let's talk about when you

89
00:04:17,990 --> 00:04:14,280
were a kid did you know what the UFO was

90
00:04:19,490 --> 00:04:18,000
did you have any interest in aliens or

91
00:04:21,770 --> 00:04:19,500
life in the universe or anything like

92
00:04:24,830 --> 00:04:22,490
um

93
00:04:25,850 --> 00:04:24,840
well I think I would split those out a

94
00:04:29,090 --> 00:04:25,860
little bit

95
00:04:32,810 --> 00:04:29,100
um I I don't think I had as a child

96
00:04:34,969 --> 00:04:32,820
really like uh a interest or education

97
00:04:37,370 --> 00:04:34,979
and what I would call like UFO culture

98
00:04:40,189 --> 00:04:37,380
maybe right

99
00:04:42,530 --> 00:04:40,199
um so that that was uh not something I

100
00:04:44,629 --> 00:04:42,540
was overly familiar with but I was

101
00:04:46,969 --> 00:04:44,639
generally a very curious child about the

102
00:04:49,189 --> 00:04:46,979
universe you know in general to include

103
00:04:51,890 --> 00:04:49,199
whether there was life kind of out there

104
00:04:53,990 --> 00:04:51,900
you know aliens and you know just

105
00:04:55,909 --> 00:04:54,000
generally science fiction as well as I

106
00:04:58,189 --> 00:04:55,919
started to grow up more and more but um

107
00:05:03,350 --> 00:04:58,199
yeah so I was generally very curious

108
00:05:05,689 --> 00:05:03,360
the the transition of uh you know an

109
00:05:09,290 --> 00:05:05,699
engineering degree they seem a little

110
00:05:12,170 --> 00:05:09,300
awkward to some to go from that uh to a

111
00:05:14,689 --> 00:05:12,180
pilot so that's another question did you

112
00:05:17,090 --> 00:05:14,699
did you always have you know all all all

113
00:05:20,030 --> 00:05:17,100

young men want to grow up to be a Navy

114

00:05:22,189 --> 00:05:20,040

pilot let's be very clear right but but

115

00:05:25,189 --> 00:05:22,199

did you see that coming and and why that

116

00:05:28,189 --> 00:05:25,199

decision yeah you know I I served with a

117

00:05:31,129 --> 00:05:28,199

lot of men and women that did grow up

118

00:05:34,310 --> 00:05:31,139

wanting to have a career as a fighter

119

00:05:36,110 --> 00:05:34,320

pilot or any type of aviator

120

00:05:38,990 --> 00:05:36,120

um I frankly just wasn't one of those

121

00:05:41,870 --> 00:05:39,000

people uh I didn't have exposure to

122

00:05:43,790 --> 00:05:41,880

Aviation as a child

123

00:05:46,790 --> 00:05:43,800

um you know even really live near an

124

00:05:48,890 --> 00:05:46,800

airport knowing my family flew uh no one

125

00:05:50,870 --> 00:05:48,900

in my family other than my father for a

126

00:05:53,570 --> 00:05:50,880

very brief period of time way back when

127

00:05:54,350 --> 00:05:53,580

uh who was in the National Guard

128

00:05:56,390 --> 00:05:54,360

um

129

00:05:59,810 --> 00:05:56,400

you know in my immediate vicinity really

130

00:06:01,670 --> 00:05:59,820

served in any of the recent conflicts so

131

00:06:03,590 --> 00:06:01,680

um for me it was It was kind of outside

132

00:06:06,710 --> 00:06:03,600

the scope

133

00:06:08,090 --> 00:06:06,720

um but what kind of transitioned me into

134

00:06:11,689 --> 00:06:08,100

it was

135

00:06:14,330 --> 00:06:11,699

um my my first internship where I did an

136

00:06:16,969 --> 00:06:14,340

engineering internship and I realized

137

00:06:20,330 --> 00:06:16,979

just how dull the specific field I was

138

00:06:22,490 --> 00:06:20,340

going in was going to be and I didn't

139

00:06:24,110 --> 00:06:22,500

think that was really where I wanted to

140

00:06:25,370 --> 00:06:24,120

go because I knew I like I said I was

141

00:06:27,890 --> 00:06:25,380

very curious and passionate about

142

00:06:29,990 --> 00:06:27,900

technology and and the science in

143

00:06:32,090 --> 00:06:30,000

general but I didn't necessarily know

144

00:06:34,189 --> 00:06:32,100

how I wanted to apply that I didn't know

145

00:06:37,309 --> 00:06:34,199

if that was doing research somewhere or

146

00:06:39,350 --> 00:06:37,319

perhaps using Advanced tools uh in some

147

00:06:42,350 --> 00:06:39,360

fashion or perhaps exploring in some way

148

00:06:44,150 --> 00:06:42,360

but the challenge I chose after I was

149

00:06:46,670 --> 00:06:44,160

exposed with that that the whole life

150

00:06:48,710 --> 00:06:46,680

perhaps would have been was to do the

151
00:06:50,629 --> 00:06:48,720
opposite which what I selected was to

152
00:06:52,969 --> 00:06:50,639
fly fighter aircraft and at least

153
00:06:54,950 --> 00:06:52,979
challenge myself in that way and there

154
00:06:57,050 --> 00:06:54,960
are all types you know you have perhaps

155
00:06:58,450 --> 00:06:57,060
history majors and Engineers that go

156
00:07:01,450 --> 00:06:58,460
into flying

157
00:07:04,309 --> 00:07:01,460
some folks you know going with Masters

158
00:07:06,290 --> 00:07:04,319
what you see a lot of times are pilots

159
00:07:08,090 --> 00:07:06,300
with engineering degrees a lot of times

160
00:07:11,150 --> 00:07:08,100
like to Target test pilot school and

161
00:07:13,909 --> 00:07:11,160
eventually NASA as well yeah you know my

162
00:07:16,029 --> 00:07:13,919
best friend uh Steve Murillo I don't

163
00:07:20,089 --> 00:07:16,039

know if you know Steve but a great guy

164

00:07:24,010 --> 00:07:20,099

and same thing he went uh to the Naval

165

00:07:26,689 --> 00:07:24,020

Academy uh didn't see that as his future

166

00:07:29,029 --> 00:07:26,699

uh graduated from the Naval Academy

167

00:07:31,730 --> 00:07:29,039

Marine Corps fighter pilot you know just

168

00:07:33,830 --> 00:07:31,740

like that and uh one of the most

169

00:07:37,610 --> 00:07:33,840

grounded cool people that I've ever met

170

00:07:41,529 --> 00:07:37,620

and now he's a real estate guy right but

171

00:07:44,570 --> 00:07:41,539

this this small period in his life and

172

00:07:46,670 --> 00:07:44,580

uh the one question that I have to ask

173

00:07:49,129 --> 00:07:46,680

this is guy to guy

174

00:07:53,510 --> 00:07:49,139

flying in F-18 coolest gig in the world

175

00:07:56,029 --> 00:07:53,520

coolest Rush pretty cool yeah I mean any

176

00:07:58,129 --> 00:07:56,039

any fighter jet like that I mean that's

177

00:07:59,990 --> 00:07:58,139

that is really why I not necessarily

178

00:08:00,650 --> 00:08:00,000

cool but just

179

00:08:02,089 --> 00:08:00,660

um

180

00:08:03,770 --> 00:08:02,099

let me describe it this way there's

181

00:08:07,189 --> 00:08:03,780

really two aspects to it there's the

182

00:08:09,230 --> 00:08:07,199

flying part of it which is what 99.9 of

183

00:08:11,870 --> 00:08:09,240

people think it is it's sitting around

184

00:08:13,370 --> 00:08:11,880

and making the jet go where you want uh

185

00:08:14,629 --> 00:08:13,380

and it's quite the dance and it's and

186

00:08:16,070 --> 00:08:14,639

it's fun

187

00:08:18,650 --> 00:08:16,080

um and then there's the other side of it

188

00:08:21,230 --> 00:08:18,660

which is this massive weapon system that

189

00:08:23,330 --> 00:08:21,240

you're operating and the tactics and the

190

00:08:24,830 --> 00:08:23,340

the skill set and the knowledge and the

191

00:08:27,170 --> 00:08:24,840

training that requires to do that is

192

00:08:29,089 --> 00:08:27,180

another whole battle that really is

193

00:08:31,610 --> 00:08:29,099

something I didn't appreciate you know

194

00:08:32,690 --> 00:08:31,620

before because it was impossible to do

195

00:08:34,670 --> 00:08:32,700

so

196

00:08:37,370 --> 00:08:34,680

um no one really can and that's an

197

00:08:38,750 --> 00:08:37,380

entirely different type of a dance and

198

00:08:40,969 --> 00:08:38,760

people always like to ask me if I miss

199

00:08:42,649 --> 00:08:40,979

it right and I do miss the flying part I

200

00:08:46,190 --> 00:08:42,659

don't necessarily miss that that ladder

201
00:08:48,470 --> 00:08:46,200
part um it's um quite the challenge you

202
00:08:50,389 --> 00:08:48,480
can't play chess continuously no you

203
00:08:51,889 --> 00:08:50,399
can't you can't and psychologically you

204
00:08:55,730 --> 00:08:51,899
know that's that's just got to

205
00:09:00,350 --> 00:08:55,740
eventually take its toll for for sure

206
00:09:02,269 --> 00:09:00,360
um now the the other part to this though

207
00:09:03,430 --> 00:09:02,279
um what when you have that kind of skill

208
00:09:07,070 --> 00:09:03,440
set

209
00:09:09,530 --> 00:09:07,080
you are rational

210
00:09:12,170 --> 00:09:09,540
right you have to think rationally all

211
00:09:14,570 --> 00:09:12,180
the time and and with clear head and

212
00:09:19,130 --> 00:09:14,580
everything hopefully makes sense to you

213
00:09:22,670 --> 00:09:19,140

you you have to fly the plane you can't

214

00:09:25,430 --> 00:09:22,680

make any errors uh you know an error

215

00:09:28,490 --> 00:09:25,440

could be a really bad thing so you if

216

00:09:30,769 --> 00:09:28,500

any distraction is there uh you know

217

00:09:34,250 --> 00:09:30,779

there's consequences and so you are

218

00:09:37,490 --> 00:09:34,260

mentally are you know so focused and you

219

00:09:40,430 --> 00:09:37,500

have to be so rational all the time when

220

00:09:43,310 --> 00:09:40,440

you get pulled out of that box like what

221

00:09:44,930 --> 00:09:43,320

happened in 2014 does that throw off

222

00:09:46,310 --> 00:09:44,940

your sense of reality when you think

223

00:09:48,410 --> 00:09:46,320

that you've got it together and you're

224

00:09:50,630 --> 00:09:48,420

grounded

225

00:09:52,070 --> 00:09:50,640

um not necessarily because the way that

226

00:09:53,810 --> 00:09:52,080

we

227

00:09:56,150 --> 00:09:53,820

kind of came to terms of what was

228

00:09:57,829 --> 00:09:56,160

happening at least I did was that it

229

00:09:59,210 --> 00:09:57,839

wasn't an instantaneous change in our

230

00:10:01,670 --> 00:09:59,220

perspective we just were seeing things

231

00:10:04,310 --> 00:10:01,680

we couldn't necessarily explain but we

232

00:10:06,470 --> 00:10:04,320

had rationales for it and you know that

233

00:10:09,110 --> 00:10:06,480

over time you know

234

00:10:10,610 --> 00:10:09,120

um many of them went away

235

00:10:12,470 --> 00:10:10,620

um and you know we were left still

236

00:10:13,610 --> 00:10:12,480

asking questions

237

00:10:14,930 --> 00:10:13,620

um

238

00:10:17,750 --> 00:10:14,940

I'm not sure if that answers your

239

00:10:20,269 --> 00:10:17,760

question no it does it it does so it

240

00:10:24,170 --> 00:10:20,279

didn't throw you out of focus no and you

241

00:10:26,150 --> 00:10:24,180

know the way I would describe it is

242

00:10:27,710 --> 00:10:26,160

um we have to it's it's all about

243

00:10:29,449 --> 00:10:27,720

priorities right once we're in there our

244

00:10:31,610 --> 00:10:29,459

priorities are priorities they do not

245

00:10:33,230 --> 00:10:31,620

change uh right like our fuel is always

246

00:10:36,650 --> 00:10:33,240

going to be our priority until we land

247

00:10:38,090 --> 00:10:36,660

on things of that nature and so uh and

248

00:10:39,530 --> 00:10:38,100

our training as well so when we see

249

00:10:41,210 --> 00:10:39,540

objects out there

250

00:10:43,070 --> 00:10:41,220

um we occasionally we might have the

251
00:10:45,650 --> 00:10:43,080
opportunity to investigate in some

252
00:10:47,150 --> 00:10:45,660
manner but much of the time we're seeing

253
00:10:49,069 --> 00:10:47,160
these things over such a massive area

254
00:10:51,590 --> 00:10:49,079
that you know it's not practical to be

255
00:10:53,569 --> 00:10:51,600
going and uh necessarily investigating

256
00:10:55,490 --> 00:10:53,579
anyone at any given time and so you just

257
00:10:56,990 --> 00:10:55,500
put it into the safety bucket you might

258
00:10:58,430 --> 00:10:57,000
see it in that working area you're going

259
00:11:00,290 --> 00:10:58,440
to go into and you just say I'll use the

260
00:11:02,630 --> 00:11:00,300
other working area right and so now

261
00:11:04,250 --> 00:11:02,640
you're 50 miles away and it's not

262
00:11:05,870 --> 00:11:04,260
necessarily that it's an immediate

263
00:11:07,790 --> 00:11:05,880

safety threat that we have to go

264

00:11:10,130 --> 00:11:07,800

investigate and then rationalize with

265

00:11:11,810 --> 00:11:10,140

ourselves when we land it's just you

266

00:11:14,329 --> 00:11:11,820

know an annoyance that builds up over

267

00:11:16,130 --> 00:11:14,339

time and of course as it became aim you

268

00:11:18,590 --> 00:11:16,140

know over time over the period of time

269

00:11:20,329 --> 00:11:18,600

while this is happening it became the

270

00:11:22,370 --> 00:11:20,339

data started coming in right all right

271

00:11:23,810 --> 00:11:22,380

we flew by it and it you know we

272

00:11:25,009 --> 00:11:23,820

couldn't see it or we could see it and

273

00:11:26,690 --> 00:11:25,019

it looked like this and that's very

274

00:11:28,910 --> 00:11:26,700

strange or now they're you know they're

275

00:11:30,829 --> 00:11:28,920

over here and so it really wasn't that

276

00:11:32,870 --> 00:11:30,839

like you know come to Jesus moment where

277

00:11:35,170 --> 00:11:32,880

we had to like rethink ourselves there

278

00:11:38,210 --> 00:11:35,180

it wasn't quite that sudden

279

00:11:40,130 --> 00:11:38,220

the uh and let's get to that let's get

280

00:11:41,750 --> 00:11:40,140

to that first day

281

00:11:46,090 --> 00:11:41,760

um well actually before we get to the

282

00:11:48,889 --> 00:11:46,100

first day right you you have a

283

00:11:50,630 --> 00:11:48,899

gotten used to and acclimated you know

284

00:11:52,190 --> 00:11:50,640

to Flying this aircraft and the

285

00:11:55,910 --> 00:11:52,200

procedures going through that it's the

286

00:11:57,710 --> 00:11:55,920

military operation everything is is so

287

00:11:59,449 --> 00:11:57,720

mechanized and well oiled you've got

288

00:12:01,670 --> 00:11:59,459

your team around you and the ground crew

289

00:12:04,190 --> 00:12:01,680

and mechanics and right it's everything

290

00:12:05,990 --> 00:12:04,200

is routine and hopefully everything is

291

00:12:09,590 --> 00:12:06,000

always running smoothly

292

00:12:10,910 --> 00:12:09,600

that's the goal that's the goal and then

293

00:12:12,949 --> 00:12:10,920

one day

294

00:12:17,389 --> 00:12:12,959

something is different

295

00:12:20,990 --> 00:12:17,399

right and and when you first had your

296

00:12:22,910 --> 00:12:21,000

your first sensor you know go off what

297

00:12:26,329 --> 00:12:22,920

went through your mind

298

00:12:30,290 --> 00:12:26,339

so at first when we first had these on

299

00:12:34,610 --> 00:12:32,150

there was some expectation that perhaps

300

00:12:39,470 --> 00:12:34,620

we would see more because our our radar

301
00:12:41,449 --> 00:12:39,480
is um uh better uh so we had a APG 73

302
00:12:43,730 --> 00:12:41,459
radar that we were not seeing these

303
00:12:45,710 --> 00:12:43,740
objects with and we did eventually

304
00:12:47,810 --> 00:12:45,720
upgrade our radar and we were able to

305
00:12:49,310 --> 00:12:47,820
see the objects out there we went to

306
00:12:50,509 --> 00:12:49,320
with expectation that perhaps we could

307
00:12:53,150 --> 00:12:50,519
see more stuff but that's kind of like

308
00:12:55,129 --> 00:12:53,160
at range and way off but now suddenly

309
00:12:57,110 --> 00:12:55,139
see things that were in the area almost

310
00:12:58,550 --> 00:12:57,120
as if the Fidelity of the sensor was

311
00:13:00,769 --> 00:12:58,560
better and now we're picking things up

312
00:13:02,210 --> 00:13:00,779
it was disconcerting because we didn't

313
00:13:03,769 --> 00:13:02,220

even know if they were necessarily even

314

00:13:06,889 --> 00:13:03,779

real objects or if they're physical

315

00:13:08,389 --> 00:13:06,899

objects we had to

316

00:13:10,690 --> 00:13:08,399

um well at the time we were considering

317

00:13:14,210 --> 00:13:10,700

that perhaps they were false tracks

318

00:13:16,910 --> 00:13:14,220

because the radar is now upgraded and

319

00:13:19,850 --> 00:13:16,920

it's it's just good right it's much

320

00:13:21,829 --> 00:13:19,860

better and that could be just the case

321

00:13:23,329 --> 00:13:21,839

that this was there all the time with

322

00:13:25,550 --> 00:13:23,339

the old radar now you've got the new

323

00:13:28,430 --> 00:13:25,560

stuff and it's picking it up that's one

324

00:13:29,810 --> 00:13:28,440

potential option yep yep and I mean that

325

00:13:31,490 --> 00:13:29,820

is that's not the conclusion we

326

00:13:34,970 --> 00:13:31,500

necessarily had moment but that's where

327

00:13:38,210 --> 00:13:34,980

obviously we've we've got to today

328

00:13:40,430 --> 00:13:38,220

and uh okay so to that moment

329

00:13:44,150 --> 00:13:40,440

what happened

330

00:13:47,569 --> 00:13:44,160

um and and again in this area

331

00:13:48,889 --> 00:13:47,579

um we have uh okay let me let me reframe

332

00:13:52,090 --> 00:13:48,899

this a little bit because I think

333

00:13:55,550 --> 00:13:52,100

there's some confusion uh over the years

334

00:13:59,210 --> 00:13:55,560

uh since you have come forward where you

335

00:14:01,610 --> 00:13:59,220

guys are training out on the East Coast

336

00:14:04,190 --> 00:14:01,620

um how far off of the coast number one

337

00:14:07,610 --> 00:14:04,200

and number two how much of this is

338

00:14:10,430 --> 00:14:07,620

restricted airspace or can just like any

339

00:14:13,310 --> 00:14:10,440

Private Pilot wing it through on an

340

00:14:16,009 --> 00:14:13,320

ultralight right is is this is this an

341

00:14:19,610 --> 00:14:16,019

area that is only set for military

342

00:14:21,230 --> 00:14:19,620

exercises so the answer to your first

343

00:14:23,389 --> 00:14:21,240

question is they start 10 miles off the

344

00:14:26,509 --> 00:14:23,399

coast roughly and they go off to about

345

00:14:29,810 --> 00:14:26,519

probably 250 miles but they're broken up

346

00:14:32,629 --> 00:14:29,820

into like maybe you know 50 by 50 blocks

347

00:14:34,730 --> 00:14:32,639

something like that in nature okay 50

348

00:14:37,009 --> 00:14:34,740

miles by 50 miles or 80 miles by 80

349

00:14:38,629 --> 00:14:37,019

miles and we could claim multiple of

350

00:14:41,389 --> 00:14:38,639

those blocks

351

00:14:43,370 --> 00:14:41,399

or a single one of them

352

00:14:45,610 --> 00:14:43,380

um I'm sorry what was the second part of

353

00:14:49,370 --> 00:14:45,620

the question

354

00:14:50,810 --> 00:14:49,380

how how much of this is restricted so

355

00:14:52,370 --> 00:14:50,820

yeah so the the

356

00:14:54,350 --> 00:14:52,380

um unfortunately the answer is that

357

00:14:56,990 --> 00:14:54,360

there there are two answers to that and

358

00:14:59,569 --> 00:14:57,000

they're diametrically opposed

359

00:15:01,730 --> 00:14:59,579

um one of them is that if you're just

360

00:15:06,110 --> 00:15:01,740

normal traffic that takes off within the

361

00:15:08,210 --> 00:15:06,120

United States and your U.S traffic

362

00:15:10,790 --> 00:15:08,220

um technically the areas are warning

363

00:15:13,490 --> 00:15:10,800

areas they're not restricted areas

364

00:15:15,230 --> 00:15:13,500

and that means that yes a Cessna or

365

00:15:18,290 --> 00:15:15,240

something else can technically fly into

366

00:15:21,110 --> 00:15:18,300

the area however it will immediately get

367

00:15:23,449 --> 00:15:21,120

called out if there's traffic in there

368

00:15:24,769 --> 00:15:23,459

um the controls will alert the f-18s and

369

00:15:26,569 --> 00:15:24,779

they'll call the traffic out to let them

370

00:15:29,210 --> 00:15:26,579

know there's active traffic working in

371

00:15:31,009 --> 00:15:29,220

there and then we'll see around them

372

00:15:33,230 --> 00:15:31,019

um that doesn't happen very much because

373

00:15:35,569 --> 00:15:33,240

everyone knows that that area is off

374

00:15:37,910 --> 00:15:35,579

limits more or less we might have like

375

00:15:40,329 --> 00:15:37,920

some fishing boats down like uh fishing

376

00:15:43,009 --> 00:15:40,339

planes like spotting planes down at like

377

00:15:44,090 --> 00:15:43,019

3000 or 2 000 feet or something like

378

00:15:48,410 --> 00:15:44,100

that

379

00:15:50,449 --> 00:15:48,420

20 mile but you know the area goes out

380

00:15:53,930 --> 00:15:50,459

250 miles

381

00:15:56,389 --> 00:15:53,940

and that's uh that's a that's a pretty

382

00:15:58,550 --> 00:15:56,399

that's a pretty good distance and the

383

00:16:01,009 --> 00:15:58,560

reason why I I just suggest that we

384

00:16:03,889 --> 00:16:01,019

won't spend uh any time on this now but

385

00:16:07,129 --> 00:16:03,899

if it's any kind of battery powered or

386

00:16:10,610 --> 00:16:07,139

you know any kind of drone-ish kind of

387

00:16:11,870 --> 00:16:10,620

thing it's not going out that far you

388

00:16:13,129 --> 00:16:11,880

know if it was something that was

389

00:16:14,990 --> 00:16:13,139

spending any time out there it would

390

00:16:17,509 --> 00:16:15,000

have to launch from out there so right

391

00:16:19,189 --> 00:16:17,519

exactly exactly so let me answer the

392

00:16:21,350 --> 00:16:19,199

second part of the question the

393

00:16:22,910 --> 00:16:21,360

diametrically opposed part so in that

394

00:16:25,490 --> 00:16:22,920

sense those areas are not restricted

395

00:16:29,050 --> 00:16:25,500

right now if you are international

396

00:16:32,389 --> 00:16:29,060

traffic or non-us traffic and you are

397

00:16:34,550 --> 00:16:32,399

Crossing into these areas there's

398

00:16:37,129 --> 00:16:34,560

another line that kind of intersects

399

00:16:39,769 --> 00:16:37,139

here uh that runs north to south and

400

00:16:41,990 --> 00:16:39,779

that's our air uh defense identification

401
00:16:45,710 --> 00:16:42,000
zone or eight is if you're International

402
00:16:47,509 --> 00:16:45,720
traffic you enter that eight is uh that

403
00:16:48,829 --> 00:16:47,519
is essentially restricted air phase you

404
00:16:50,629 --> 00:16:48,839
cannot

405
00:16:53,389 --> 00:16:50,639
um essentially enter into the U.S

406
00:16:55,069 --> 00:16:53,399
through that so in that sense if your

407
00:16:57,290 --> 00:16:55,079
unknown traffic more or less than it is

408
00:16:59,870 --> 00:16:57,300
restricted airspace as you uh cross that

409
00:17:01,610 --> 00:16:59,880
threshold I have flown in a private

410
00:17:05,510 --> 00:17:01,620
aircraft with a friend of mine's a pilot

411
00:17:07,669 --> 00:17:05,520
and we flew into restricted airspace and

412
00:17:10,429 --> 00:17:07,679
uh we had to land at an airport that was

413
00:17:12,470 --> 00:17:10,439

on the other side of the restricted air

414

00:17:14,750 --> 00:17:12,480

airspace and you probably know the area

415

00:17:18,110 --> 00:17:14,760

of Point Magoo right off of the West

416

00:17:22,370 --> 00:17:18,120

Coast and uh the amount of chatter

417

00:17:24,049 --> 00:17:22,380

between us and that base right uh now we

418

00:17:26,809 --> 00:17:24,059

we got our clearance and everything but

419

00:17:28,730 --> 00:17:26,819

they knew that we were there oh yeah and

420

00:17:30,770 --> 00:17:28,740

uh there was a there was like it was it

421

00:17:33,110 --> 00:17:30,780

was fun it was interesting but yeah it

422

00:17:35,870 --> 00:17:33,120

was it's restricted airspace over over a

423

00:17:37,730 --> 00:17:35,880

navy base yeah so it's an actual term

424

00:17:40,070 --> 00:17:37,740

restricted is like a technical term for

425

00:17:42,049 --> 00:17:40,080

a type of air space under the U.S

426

00:17:44,090 --> 00:17:42,059

umbrella and you do not penetrate

427

00:17:45,770 --> 00:17:44,100

restricted airspace I mean even at a jet

428

00:17:47,270 --> 00:17:45,780

we have to schedule it call ahead and

429

00:17:49,610 --> 00:17:47,280

it's usually for good reasons it's right

430

00:17:52,610 --> 00:17:49,620

over our release for a bombing drop or

431

00:17:56,810 --> 00:17:52,620

something like that sure sure sure

432

00:18:00,350 --> 00:17:56,820

um okay so now uh radar picks it up

433

00:18:02,750 --> 00:18:00,360

first right and what's the what's the

434

00:18:04,549 --> 00:18:02,760

processes after

435

00:18:07,450 --> 00:18:04,559

um is everything automated right if

436

00:18:10,430 --> 00:18:07,460

radar picks it up does the whole plane

437

00:18:13,130 --> 00:18:10,440

you know all of its sensors focus

438

00:18:16,130 --> 00:18:13,140

cameras whatever uh focus on that uh

439

00:18:19,549 --> 00:18:16,140

particular Target exactly yep

440

00:18:21,529 --> 00:18:19,559

and so what we were seeing was that

441

00:18:22,909 --> 00:18:21,539

um it was on a radar and

442

00:18:25,130 --> 00:18:22,919

if we would you know just kind of lock

443

00:18:27,289 --> 00:18:25,140

them up in the radar so we're kind of

444

00:18:29,870 --> 00:18:27,299

selecting it right and then as people

445

00:18:32,150 --> 00:18:29,880

happen to get close enough to them uh

446

00:18:34,970 --> 00:18:32,160

the other sensors which are slew to that

447

00:18:36,529 --> 00:18:34,980

radar are then picking up the object uh

448

00:18:39,230 --> 00:18:36,539

and some of these sensors were kind of

449

00:18:40,610 --> 00:18:39,240

visual sensors or IR sensors and so

450

00:18:42,770 --> 00:18:40,620

that's when we were seeing our energy

451
00:18:45,289 --> 00:18:42,780
come from that location like you know

452
00:18:47,510 --> 00:18:45,299
the precise location uh not the general

453
00:18:49,130 --> 00:18:47,520
location but the precise location and so

454
00:18:50,270 --> 00:18:49,140
we're seeing something there where the

455
00:18:51,350 --> 00:18:50,280
radar says there should be something

456
00:18:53,510 --> 00:18:51,360
there

457
00:18:55,970 --> 00:18:53,520
okay now this is a physical object most

458
00:18:58,250 --> 00:18:55,980
likely but now what was that you guys

459
00:19:00,650 --> 00:18:58,260
are talking to each other right what are

460
00:19:01,850 --> 00:19:00,660
you saying at this point we're just kind

461
00:19:03,890 --> 00:19:01,860
of like what the [h__\h] are these things

462
00:19:06,230 --> 00:19:03,900
you know like it's just very crude like

463
00:19:08,210 --> 00:19:06,240

you know in court you know and the jokes

464

00:19:11,510 --> 00:19:08,220

eventually start coming up about you

465

00:19:13,430 --> 00:19:11,520

know UFOs and blah blah blah but at this

466

00:19:15,710 --> 00:19:13,440

point it's more of just

467

00:19:16,850 --> 00:19:15,720

um kind of confusion really still of

468

00:19:18,770 --> 00:19:16,860

what we're seeing we're just we're

469

00:19:20,210 --> 00:19:18,780

realizing this is now like a safety

470

00:19:22,669 --> 00:19:20,220

threat we have to like truly respect

471

00:19:26,930 --> 00:19:22,679

these things like we can't just like

472

00:19:28,730 --> 00:19:26,940

pretend their radar uh false tracks or

473

00:19:30,350 --> 00:19:28,740

something like that we had to make the

474

00:19:31,730 --> 00:19:30,360

assumptions that they're solid so that's

475

00:19:33,950 --> 00:19:31,740

kind of like the mental state we're at

476
00:19:36,730 --> 00:19:33,960
once we pick them up on the camera the

477
00:19:40,370 --> 00:19:36,740
IR camera who's closest

478
00:19:43,669 --> 00:19:40,380
oh oh actually let's back up how many uh

479
00:19:45,350 --> 00:19:43,679
uh uh FAA teams are out there at this

480
00:19:47,750 --> 00:19:45,360
point so right now I'm talking about

481
00:19:50,390 --> 00:19:47,760
like a general amount of people seeing

482
00:19:51,650 --> 00:19:50,400
this over a period of several months all

483
00:19:53,270 --> 00:19:51,660
right so like people are seeing these

484
00:19:55,850 --> 00:19:53,280
all the time on their Radars and they're

485
00:19:59,810 --> 00:19:55,860
just either they're far enough away that

486
00:20:01,310 --> 00:19:59,820
they you know don't bother anyone or you

487
00:20:03,289 --> 00:20:01,320
know they got happen to see it on their

488
00:20:05,630 --> 00:20:03,299

flear and that's that but they're going

489

00:20:08,390 --> 00:20:05,640

about their mission and and you know

490

00:20:09,770 --> 00:20:08,400

that's the end of it but eventually uh I

491

00:20:11,510 --> 00:20:09,780

mean people were trying to essentially

492

00:20:13,610 --> 00:20:11,520

like fly up and see them at this point

493

00:20:15,289 --> 00:20:13,620

as well but no one had actually been

494

00:20:17,990 --> 00:20:15,299

able to see one yet which was strange

495

00:20:20,690 --> 00:20:18,000

myself included we were trying to fly up

496

00:20:23,029 --> 00:20:20,700

to them and uh we see it on the radar

497

00:20:24,950 --> 00:20:23,039

and again our radar is linked to our our

498

00:20:27,590 --> 00:20:24,960

camera which is showing us the IR energy

499

00:20:29,570 --> 00:20:27,600

and all that information is linked to

500

00:20:31,490 --> 00:20:29,580

the real world and is shown in my helmet

501
00:20:32,270 --> 00:20:31,500
and so

502
00:20:34,250 --> 00:20:32,280
um

503
00:20:36,230 --> 00:20:34,260
there's like a little box in my eyesight

504
00:20:38,150 --> 00:20:36,240
that's tracked on my eyes and my head it

505
00:20:40,430 --> 00:20:38,160
shows me where to look to see the object

506
00:20:43,010 --> 00:20:40,440
as I come to this merge about 500 feet

507
00:20:44,750 --> 00:20:43,020
away from it and I can see it on my

508
00:20:46,190 --> 00:20:44,760
camera and I can see it on the radar you

509
00:20:47,930 --> 00:20:46,200
can see in my helmet like where I should

510
00:20:50,630 --> 00:20:47,940
be looking and I'm looking there and you

511
00:20:52,310 --> 00:20:50,640
know we don't we don't see anything and

512
00:20:53,450 --> 00:20:52,320
that you know was strange and then of

513
00:20:55,789 --> 00:20:53,460

course it's still there on the radar

514

00:20:56,570 --> 00:20:55,799

still there on the flear

515

00:20:59,090 --> 00:20:56,580

um

516

00:21:00,770 --> 00:20:59,100

and that will you know that's that

517

00:21:02,930 --> 00:21:00,780

um and so what do we what do we make of

518

00:21:04,669 --> 00:21:02,940

that yeah right right was there motion

519

00:21:08,390 --> 00:21:04,679

at that point when you when you're

520

00:21:10,370 --> 00:21:08,400

looking uh at this specific uh moment

521

00:21:13,310 --> 00:21:10,380

when you're looking through the Box on

522

00:21:16,310 --> 00:21:13,320

your and you're looking out in the area

523

00:21:18,770 --> 00:21:16,320

where it should be was it was it moving

524

00:21:20,210 --> 00:21:18,780

or was it stationary what was your uh

525

00:21:22,669 --> 00:21:20,220

well it depends some of them were

526

00:21:25,130 --> 00:21:22,679

stationary some of them were moving

527

00:21:26,450 --> 00:21:25,140

um typically when I was trying to if I

528

00:21:28,669 --> 00:21:26,460

tried to intercept one they were

529

00:21:30,230 --> 00:21:28,679

stationary I never tried to intercept a

530

00:21:33,470 --> 00:21:30,240

movie one

531

00:21:35,330 --> 00:21:33,480

um and did they move a little bit like

532

00:21:37,370 --> 00:21:35,340

at the actual merge it's tough It's

533

00:21:39,770 --> 00:21:37,380

really tough to say I can't look out

534

00:21:41,990 --> 00:21:39,780

necessarily tell I might be able to get

535

00:21:44,210 --> 00:21:42,000

some closure speed but that could be my

536

00:21:46,070 --> 00:21:44,220

aircraft moving like changing that

537

00:21:47,570 --> 00:21:46,080

velocity and not him so it's really

538

00:21:49,070 --> 00:21:47,580

something I have to look at the tapes to

539

00:21:50,630 --> 00:21:49,080

really give you an answer for I don't

540

00:21:53,570 --> 00:21:50,640

have that memory

541

00:21:56,630 --> 00:21:53,580

and uh not to revisit something that

542

00:21:59,169 --> 00:21:56,640

you've answered a million times but uh I

543

00:22:03,169 --> 00:21:59,179

I get the chance to ask this

544

00:22:05,149 --> 00:22:03,179

never have you ever seen one of these

545

00:22:07,430 --> 00:22:05,159

with your own eyes no

546

00:22:10,250 --> 00:22:07,440

and why do you think that why I find

547

00:22:11,690 --> 00:22:10,260

that part so fascinating right like I

548

00:22:14,750 --> 00:22:11,700

said we were trying to see them we see

549

00:22:16,490 --> 00:22:14,760

them on our radar and I I don't know

550

00:22:18,590 --> 00:22:16,500

what was special about the particular

551
00:22:20,450 --> 00:22:18,600
cases where the people saw them I have

552
00:22:22,310 --> 00:22:20,460
some thoughts but I don't you know I

553
00:22:23,930 --> 00:22:22,320
have no data on that so like the first

554
00:22:26,149 --> 00:22:23,940
time we actually saw them with our eyes

555
00:22:28,669 --> 00:22:26,159
someone in my Squadron

556
00:22:31,310 --> 00:22:28,679
um they the the object was right at that

557
00:22:33,830 --> 00:22:31,320
entry point of the working area so

558
00:22:36,169 --> 00:22:33,840
that's at a very specific altitude at a

559
00:22:37,789 --> 00:22:36,179
GPS location and the so when you enter

560
00:22:39,289 --> 00:22:37,799
the area at that you know 10 miles

561
00:22:41,510 --> 00:22:39,299
offshore you're doing it at a specific

562
00:22:43,549 --> 00:22:41,520
location and all the traffic is leaving

563
00:22:46,070 --> 00:22:43,559

leaves about a thousand feet lower and

564

00:22:47,810 --> 00:22:46,080

that's just how it goes and they

565

00:22:49,730 --> 00:22:47,820

flew out there and we were respecting

566

00:22:50,810 --> 00:22:49,740

these objects at this time because we

567

00:22:54,230 --> 00:22:50,820

were seeing on the flear and everything

568

00:22:56,330 --> 00:22:54,240

else and he flew out there and um one of

569

00:22:57,950 --> 00:22:56,340

these objects went down his wing

570

00:23:00,130 --> 00:22:57,960

essentially there's two aircraft flying

571

00:23:04,010 --> 00:23:00,140

like this this is the lead aircraft

572

00:23:06,230 --> 00:23:04,020

object went right in between them

573

00:23:07,549 --> 00:23:06,240

um and I say it went in between them I

574

00:23:09,770 --> 00:23:07,559

don't think it was probably moving it

575

00:23:11,630 --> 00:23:09,780

was probably stationary at that point uh

576

00:23:12,890 --> 00:23:11,640

but the Jets of course were moving and

577

00:23:14,930 --> 00:23:12,900

so it appeared from their perspective

578

00:23:16,909 --> 00:23:14,940

one between them but

579

00:23:18,789 --> 00:23:16,919

um how did they describe it what what

580

00:23:22,370 --> 00:23:18,799

did they see

581

00:23:26,090 --> 00:23:22,380

was this a pilot that has come forward

582

00:23:27,710 --> 00:23:26,100

uh it's a pilot who has testified uh to

583

00:23:29,210 --> 00:23:27,720

the Senate armed service committee and

584

00:23:32,390 --> 00:23:29,220

Senate Select Committee of intelligence

585

00:23:36,409 --> 00:23:32,400

just like I have uh back in the 2017

586

00:23:39,110 --> 00:23:36,419

time frame uh and they also uh spoke to

587

00:23:40,730 --> 00:23:39,120

New York Times as a non-public Source

588

00:23:42,590 --> 00:23:40,740

right

589

00:23:47,210 --> 00:23:42,600

um when my New York Times article came

590

00:23:48,710 --> 00:23:47,220

out in 2019 among others okay so but we

591

00:23:51,230 --> 00:23:48,720

don't know who this is that's fine right

592

00:23:55,250 --> 00:23:51,240

but how did they describe what they saw

593

00:23:57,770 --> 00:23:55,260

uh they described a a black or dark gray

594

00:23:59,810 --> 00:23:57,780

Cube and it was what they described as

595

00:24:01,730 --> 00:23:59,820

inside a clear sphere is the word they

596

00:24:02,870 --> 00:24:01,740

used I sometimes described it as

597

00:24:04,549 --> 00:24:02,880

translucent because I really don't know

598

00:24:06,409 --> 00:24:04,559

what a clear sphere would look like if

599

00:24:07,970 --> 00:24:06,419

it was perfectly clear all right so I

600

00:24:09,649 --> 00:24:07,980

have to assume it's somehow translucent

601
00:24:11,029 --> 00:24:09,659
since he would be able to see through it

602
00:24:13,010 --> 00:24:11,039
but could still tell there's a sphere

603
00:24:14,990 --> 00:24:13,020
there and from what he was able to tell

604
00:24:16,610 --> 00:24:15,000
it looked like the the apexes or the

605
00:24:18,230 --> 00:24:16,620
points of the cube were kind of like on

606
00:24:20,330 --> 00:24:18,240
the inside of that sphere right so it's

607
00:24:21,950 --> 00:24:20,340
just kind of like fit in there not like

608
00:24:23,330 --> 00:24:21,960
it was like a little cube in a big

609
00:24:25,070 --> 00:24:23,340
sphere it was just you know perfectly

610
00:24:26,750 --> 00:24:25,080
fit in in a way

611
00:24:28,549 --> 00:24:26,760
um and that you know that was it there

612
00:24:31,070 --> 00:24:28,559
was no necessarily propulsion or like

613
00:24:33,950 --> 00:24:31,080

propellers or

614

00:24:36,770 --> 00:24:33,960

um now now as a trained as a trained

615

00:24:39,289 --> 00:24:36,780

pilot and this is no joke I know my

616

00:24:41,029 --> 00:24:39,299

aircraft right I live next to Lockheed

617

00:24:42,890 --> 00:24:41,039

Skunk Works for instance I see the crazy

618

00:24:44,090 --> 00:24:42,900

stuff every single day right as you can

619

00:24:46,850 --> 00:24:44,100

imagine

620

00:24:49,310 --> 00:24:46,860

um I know my planes you

621

00:24:51,230 --> 00:24:49,320

are paid to know your planes right in

622

00:24:53,090 --> 00:24:51,240

your aircraft and when you hear

623

00:24:56,270 --> 00:24:53,100

something like this what goes through

624

00:24:58,690 --> 00:24:56,280

your mind I mean you have to take uh

625

00:25:02,450 --> 00:24:58,700

your co-pilot or you know your your your

626

00:25:03,529 --> 00:25:02,460

teammate as at his word what goes

627

00:25:04,850 --> 00:25:03,539

through your mind when you hear that

628

00:25:06,890 --> 00:25:04,860

kind of description

629

00:25:09,710 --> 00:25:06,900

yeah so

630

00:25:11,149 --> 00:25:09,720

I was um I I had no I had no reason to

631

00:25:11,930 --> 00:25:11,159

doubt what he said

632

00:25:15,830 --> 00:25:11,940

um

633

00:25:17,690 --> 00:25:15,840

he you know he's a as a greatest pilot

634

00:25:19,730 --> 00:25:17,700

as any other uh I've had the honor to

635

00:25:21,950 --> 00:25:19,740

serve with and so

636

00:25:23,450 --> 00:25:21,960

it wasn't just what he said it was

637

00:25:24,950 --> 00:25:23,460

because we could still rationalize in

638

00:25:26,750 --> 00:25:24,960

some sense right like we could still

639

00:25:28,669 --> 00:25:26,760

rationalize perhaps some clever device

640

00:25:30,110 --> 00:25:28,679

that looks like that

641

00:25:32,630 --> 00:25:30,120

um and so again we weren't jumping

642

00:25:33,950 --> 00:25:32,640

necessarily to some crazy conclusion at

643

00:25:35,750 --> 00:25:33,960

this point

644

00:25:38,750 --> 00:25:35,760

um

645

00:25:41,149 --> 00:25:38,760

but you know the way he said it was just

646

00:25:43,250 --> 00:25:41,159

like it was just everyone was just very

647

00:25:44,510 --> 00:25:43,260

pissed that this was now a massive

648

00:25:46,730 --> 00:25:44,520

safety issue that we had to deal with

649

00:25:48,830 --> 00:25:46,740

because and I don't remember this for a

650

00:25:50,510 --> 00:25:48,840

fact but this kind of goes back to your

651
00:25:51,289 --> 00:25:50,520
previous point about

652
00:25:53,330 --> 00:25:51,299
um

653
00:25:55,190 --> 00:25:53,340
you know why why are we seeing them now

654
00:25:56,690 --> 00:25:55,200
and and why couldn't we see them with

655
00:25:58,490 --> 00:25:56,700
our eyes but

656
00:26:00,409 --> 00:25:58,500
um I I don't think their radar was

657
00:26:01,610 --> 00:26:00,419
working that day when they went out

658
00:26:02,930 --> 00:26:01,620
there because

659
00:26:04,669 --> 00:26:02,940
I don't think he would have flown

660
00:26:05,870 --> 00:26:04,679
through the object on the he would have

661
00:26:07,490 --> 00:26:05,880
flown through the track file on the

662
00:26:10,850 --> 00:26:07,500
radar because we were respecting them as

663
00:26:12,590 --> 00:26:10,860

objects at this point and so he also

664

00:26:14,690 --> 00:26:12,600

returned immediately after that because

665

00:26:16,549 --> 00:26:14,700

he didn't feel comfortable executing the

666

00:26:18,710 --> 00:26:16,559

rest of the flight not knowing if there

667

00:26:20,990 --> 00:26:18,720

was objects around him my supposition is

668

00:26:22,549 --> 00:26:21,000

that the radar wasn't working and

669

00:26:24,710 --> 00:26:22,559

perhaps the object didn't know the Jets

670

00:26:26,330 --> 00:26:24,720

were there either in a sense if they

671

00:26:28,850 --> 00:26:26,340

weren't receiving energy from the jet

672

00:26:30,950 --> 00:26:28,860

then perhaps you know for a reason

673

00:26:32,690 --> 00:26:30,960

it surprised you know the jet surprised

674

00:26:35,510 --> 00:26:32,700

it perhaps I don't know it's just a fun

675

00:26:38,210 --> 00:26:35,520

Theory I have okay now you use you've

676

00:26:41,210 --> 00:26:38,220

now said we didn't arrive at a a crazy

677

00:26:43,370 --> 00:26:41,220

conclusion yet your words right you said

678

00:26:44,930 --> 00:26:43,380

that like three times uh yeah so I just

679

00:26:46,310 --> 00:26:44,940

kind of walking us where we were in our

680

00:26:48,049 --> 00:26:46,320

mental state right we didn't again it

681

00:26:49,490 --> 00:26:48,059

wasn't like okay now UFOs it was just

682

00:26:52,310 --> 00:26:49,500

very much like all right this is some

683

00:26:55,010 --> 00:26:52,320

must be some crazy balloon drone thing

684

00:26:56,930 --> 00:26:55,020

that is some test program thing that

685

00:27:00,169 --> 00:26:56,940

perhaps people

686

00:27:02,510 --> 00:27:00,179

um have have for whatever crazy reason

687

00:27:04,250 --> 00:27:02,520

decided to temporarily test in our

688

00:27:07,010 --> 00:27:04,260

working errors or got blown off course

689

00:27:09,830 --> 00:27:07,020

or who knows what well even that is a

690

00:27:11,750 --> 00:27:09,840

crazy conclusion isn't it it's getting

691

00:27:13,730 --> 00:27:11,760

there right like we're we're starting to

692

00:27:15,769 --> 00:27:13,740

like you know we're crossing the the

693

00:27:17,990 --> 00:27:15,779

low-hanging fruit off the list here and

694

00:27:19,250 --> 00:27:18,000

that's where we're getting to right uh

695

00:27:20,690 --> 00:27:19,260

because that doesn't really make sense

696

00:27:22,669 --> 00:27:20,700

when you when you start to think about

697

00:27:24,370 --> 00:27:22,679

it and I will explain it more but that's

698

00:27:27,529 --> 00:27:24,380

just where we were you know in reality

699

00:27:30,769 --> 00:27:27,539

did you ever get to the crazy conclusion

700

00:27:33,169 --> 00:27:30,779

Point not really because we left

701
00:27:36,289 --> 00:27:33,179
uh we left and went on deployment and

702
00:27:39,230 --> 00:27:36,299
then when we kind of really got to the

703
00:27:42,830 --> 00:27:39,240
point where I would say we were at that

704
00:27:43,669 --> 00:27:42,840
point it was when we saw the gimbal

705
00:27:45,590 --> 00:27:43,679
um

706
00:27:48,049 --> 00:27:45,600
and that's just kind of when we stopped

707
00:27:49,990 --> 00:27:48,059
talking about it

708
00:27:53,210 --> 00:27:50,000
why yeah

709
00:27:55,970 --> 00:27:53,220
we were very Loosely told to

710
00:27:58,370 --> 00:27:55,980
um just generally speaking uh and then

711
00:28:01,430 --> 00:27:58,380
it was hey we're we're literally getting

712
00:28:04,070 --> 00:28:01,440
ready for war right now so you know we

713
00:28:06,350 --> 00:28:04,080

we it's very easy to keep us focused on

714

00:28:08,029 --> 00:28:06,360

what what we're doing because it's very

715

00:28:08,930 --> 00:28:08,039

dangerous and are there even that

716

00:28:11,269 --> 00:28:08,940

training

717

00:28:13,250 --> 00:28:11,279

the set that we're on is typically more

718

00:28:14,750 --> 00:28:13,260

dangerous than the actual combat

719

00:28:16,250 --> 00:28:14,760

deployments we go on right so we're

720

00:28:17,750 --> 00:28:16,260

doing all our tactics we're flying day

721

00:28:20,510 --> 00:28:17,760

and night we're stressing ourselves out

722

00:28:22,010 --> 00:28:20,520

to get ready for combat so we weren't

723

00:28:23,510 --> 00:28:22,020

even in a mental state really this is

724

00:28:26,210 --> 00:28:23,520

the most stressful times of our careers

725

00:28:28,190 --> 00:28:26,220

of our lives and um you don't need

726

00:28:30,890 --> 00:28:28,200

Little Green Men yeah that's the last

727

00:28:32,149 --> 00:28:30,900

thing we needed but we we it wasn't it

728

00:28:34,130 --> 00:28:32,159

wasn't about

729

00:28:35,750 --> 00:28:34,140

you know we maybe had the right to make

730

00:28:37,430 --> 00:28:35,760

a conclusion like that or start thinking

731

00:28:39,950 --> 00:28:37,440

in that general direction but we were

732

00:28:40,730 --> 00:28:39,960

just in no mental state to start you

733

00:28:43,490 --> 00:28:40,740

know

734

00:28:46,130 --> 00:28:43,500

going down trains trains a thought like

735

00:28:50,330 --> 00:28:46,140

that yeah yeah black cubes and

736

00:28:52,850 --> 00:28:50,340

translucent balls of energy is uh that's

737

00:28:54,529 --> 00:28:52,860

that that's getting to Crazy Town uh for

738

00:28:56,690 --> 00:28:54,539

anybody it and and when you have an

739

00:28:59,330 --> 00:28:56,700

engineering degree in background that's

740

00:29:01,130 --> 00:28:59,340

defying physics and and who has this

741

00:29:03,409 --> 00:29:01,140

kind of technology and now you're

742

00:29:05,810 --> 00:29:03,419

clouding your thought for sure

743

00:29:07,789 --> 00:29:05,820

it's hard to what what's interesting is

744

00:29:09,890 --> 00:29:07,799

that you know a lot of times we look

745

00:29:12,769 --> 00:29:09,900

very zoomed in on this problem and we

746

00:29:14,750 --> 00:29:12,779

try to look for the answers

747

00:29:17,090 --> 00:29:14,760

um right we try to get that picture all

748

00:29:19,610 --> 00:29:17,100

zoomed in and you know we blow it up and

749

00:29:21,289 --> 00:29:19,620

X Y and Z but I think there's a lot more

750

00:29:23,149 --> 00:29:21,299

valuable data in a sense if we zoom out

751
00:29:25,789 --> 00:29:23,159
uh especially what we're seeing on the

752
00:29:28,669 --> 00:29:25,799
East Coast we can zoom out and see

753
00:29:30,590 --> 00:29:28,679
um what's happening outside of that

754
00:29:32,389 --> 00:29:30,600
frame right so I just described a single

755
00:29:34,909 --> 00:29:32,399
frame essentially a cube and a sphere

756
00:29:36,649 --> 00:29:34,919
and we can we can't draw too many

757
00:29:39,049 --> 00:29:36,659
conclusions and we could also

758
00:29:41,750 --> 00:29:39,059
rationalize it pretty easy as a balloon

759
00:29:44,450 --> 00:29:41,760
or perhaps some interesting drone test

760
00:29:47,510 --> 00:29:44,460
but when you zoom out of time and you

761
00:29:48,909 --> 00:29:47,520
zoom out a little bit uh of a scale and

762
00:29:51,769 --> 00:29:48,919
you say okay

763
00:29:54,289 --> 00:29:51,779

how often is this happening and how many

764

00:29:56,149 --> 00:29:54,299

of these objects are there and what are

765

00:29:58,789 --> 00:29:56,159

their flight characteristics and

766

00:30:01,310 --> 00:29:58,799

profiles over the course of a day or or

767

00:30:03,590 --> 00:30:01,320

longer that they're out there and how do

768

00:30:05,570 --> 00:30:03,600

we then reconcile that information with

769

00:30:09,590 --> 00:30:05,580

what we know of normal flight mechanics

770

00:30:12,169 --> 00:30:09,600

of drones of uh energy uh storage and

771

00:30:14,389 --> 00:30:12,179

density and weight and all those things

772

00:30:16,010 --> 00:30:14,399

that also make you say okay wait this

773

00:30:18,230 --> 00:30:16,020

probably isn't a drone when you actually

774

00:30:19,909 --> 00:30:18,240

start thinking about it and also why

775

00:30:22,130 --> 00:30:19,919

would it be testing stuff in

776

00:30:24,830 --> 00:30:22,140

international waters in the busiest

777

00:30:29,149 --> 00:30:24,840

airspace on the Eastern Seaboard yeah

778

00:30:32,269 --> 00:30:29,159

certainly and uh the the comments that

779

00:30:33,889 --> 00:30:32,279

have been in the media that you know uh

780

00:30:36,649 --> 00:30:33,899

and have heard many times and some of

781

00:30:38,330 --> 00:30:36,659

them have come from you too as well

782

00:30:41,210 --> 00:30:38,340

um have have stunned a lot of people

783

00:30:44,269 --> 00:30:41,220

including myself which is you know how

784

00:30:49,370 --> 00:30:44,279

often did you see these every day how

785

00:30:53,510 --> 00:30:49,380

many Lots where in our air right and and

786

00:30:55,190 --> 00:30:53,520

and this this has taken uh people uh by

787

00:30:58,070 --> 00:30:55,200

surprise

788

00:31:01,850 --> 00:30:58,080

um and when you look back at it now

789

00:31:03,710 --> 00:31:01,860

was it indeed like every day that you

790

00:31:05,750 --> 00:31:03,720

got in your FAA team from that point

791

00:31:09,409 --> 00:31:05,760

forward you were going out with this new

792

00:31:11,149 --> 00:31:09,419

radar system and you were you and and

793

00:31:15,169 --> 00:31:11,159

your co-pilots and your Pilots

794

00:31:18,409 --> 00:31:15,179

everything uh we're seeing these things

795

00:31:20,930 --> 00:31:18,419

we had a way of somewhat categorizing

796

00:31:23,570 --> 00:31:20,940

these objects on the radar using what we

797

00:31:25,970 --> 00:31:23,580

call the target aspect indicator and

798

00:31:28,370 --> 00:31:25,980

I'll answer a question I promise uh but

799

00:31:30,350 --> 00:31:28,380

this target aspect indicator it's very

800

00:31:32,210 --> 00:31:30,360

smooth and essentially you know if this

801
00:31:34,190 --> 00:31:32,220
is what we see on the radar like a ball

802
00:31:35,510 --> 00:31:34,200
then there's kind of like a tail and it

803
00:31:37,669 --> 00:31:35,520
points where the aircraft is going

804
00:31:39,830 --> 00:31:37,679
essentially right so if a jet turns you

805
00:31:42,710 --> 00:31:39,840
see a turn these objects look different

806
00:31:45,710 --> 00:31:42,720
they they their target aspect indicator

807
00:31:48,289 --> 00:31:45,720
would kind of jump around as if

808
00:31:50,450 --> 00:31:48,299
um it just either wasn't tracking the in

809
00:31:52,370 --> 00:31:50,460
between or I don't know why but it was

810
00:31:54,049 --> 00:31:52,380
jerky even though the object was moving

811
00:31:56,389 --> 00:31:54,059
in the general direction that was being

812
00:31:58,070 --> 00:31:56,399
indicated it wasn't like going backwards

813
00:32:00,950 --> 00:31:58,080

it was still moving in that direction

814

00:32:02,570 --> 00:32:00,960

and so we could kind of identify these

815

00:32:04,970 --> 00:32:02,580

objects on our radar at least I could

816

00:32:06,830 --> 00:32:04,980

again we weren't doing like a big study

817

00:32:09,110 --> 00:32:06,840

we weren't talking about this a lot you

818

00:32:11,889 --> 00:32:09,120

know uh we weren't going around and

819

00:32:15,110 --> 00:32:11,899

uh cataloging on a day-by-day basis but

820

00:32:16,850 --> 00:32:15,120

I mean probably 99 of the flights that

821

00:32:18,590 --> 00:32:16,860

we go on out there we would see these

822

00:32:20,149 --> 00:32:18,600

objects somewhere within our radar scope

823

00:32:21,409 --> 00:32:20,159

on the course of mission at least one or

824

00:32:23,870 --> 00:32:21,419

two that had the the radar

825

00:32:26,630 --> 00:32:23,880

characteristics that does not mean we go

826

00:32:28,789 --> 00:32:26,640

and either idea on the floor or visually

827

00:32:30,470 --> 00:32:28,799

to say we're seeing them on those but

828

00:32:32,870 --> 00:32:30,480

though they would be out there we cover

829

00:32:35,029 --> 00:32:32,880

a lot of airspace with our sensor

830

00:32:37,370 --> 00:32:35,039

systems and I'm not going to use any

831

00:32:39,769 --> 00:32:37,380

numbers to quantify it but

832

00:32:42,289 --> 00:32:39,779

um it's a pretty uh wide uh birth of

833

00:32:43,850 --> 00:32:42,299

area that we get to look at and so

834

00:32:45,289 --> 00:32:43,860

um it may not be as surprising as you

835

00:32:46,789 --> 00:32:45,299

may think that we would see these

836

00:32:48,710 --> 00:32:46,799

objects regularly out there we'd always

837

00:32:50,210 --> 00:32:48,720

see them over the water they're always

838

00:32:52,430 --> 00:32:50,220

over the water would never be over the

839

00:32:55,789 --> 00:32:52,440

land someone over the bay like there's a

840

00:32:57,590 --> 00:32:55,799

lot of like um kind of Inland water

841

00:32:59,510 --> 00:32:57,600

um I don't want to call it that but

842

00:33:02,870 --> 00:32:59,520

there's barrier islands and so there's

843

00:33:05,389 --> 00:33:02,880

kind of an Intercoast there I would I

844

00:33:07,370 --> 00:33:05,399

would occasionally see them over there

845

00:33:10,010 --> 00:33:07,380

um and to this point right

846

00:33:12,350 --> 00:33:10,020

um we I perhaps think we might have seen

847

00:33:14,990 --> 00:33:12,360

some in the Middle East but we were

848

00:33:17,149 --> 00:33:15,000

never able to confirm them I did see

849

00:33:19,850 --> 00:33:17,159

um Target aspect indications that were

850

00:33:21,710 --> 00:33:19,860

similar over there but it's so busy over

851
00:33:23,630 --> 00:33:21,720
there and the airspace is so congested

852
00:33:25,669 --> 00:33:23,640
and we're so so busy that there was

853
00:33:27,830 --> 00:33:25,679
there was never a consideration to try

854
00:33:31,130 --> 00:33:27,840
to confirm that even if you're able to

855
00:33:35,690 --> 00:33:31,140
uh dude can we talk some basic Logistics

856
00:33:37,570 --> 00:33:35,700
here just uh uh for for information

857
00:33:41,090 --> 00:33:37,580
um uh

858
00:33:44,029 --> 00:33:41,100
air speeds when we go back and we listen

859
00:33:46,070 --> 00:33:44,039
to as you have you know David fravor and

860
00:33:51,710 --> 00:33:46,080
and Alec Dietrich

861
00:33:54,850 --> 00:33:51,720
um uh the uh the performances you know

862
00:33:58,630 --> 00:33:54,860
80 000 feet to sea level in a second

863
00:34:01,789 --> 00:33:58,640

uh Dave fraver you know just it was gone

864

00:34:04,009 --> 00:34:01,799

and and some of these descriptions of

865

00:34:06,649 --> 00:34:04,019

the Tic Tac just don't don't make any

866

00:34:09,710 --> 00:34:06,659

sense in the world of uh physics as we

867

00:34:11,990 --> 00:34:09,720

understand them today did you experience

868

00:34:13,430 --> 00:34:12,000

anything like that that was just out of

869

00:34:15,530 --> 00:34:13,440

the norm

870

00:34:19,010 --> 00:34:15,540

uh I never

871

00:34:21,230 --> 00:34:19,020

um saw anything that uh darted on the

872

00:34:23,770 --> 00:34:21,240

radar I would see them typically at 0.6

873

00:34:26,930 --> 00:34:23,780

to 0.8 Mach uh which is somewhere around

874

00:34:28,909 --> 00:34:26,940

240 maybe 330 knots somewhere in there

875

00:34:30,470 --> 00:34:28,919

depending on altitude

876

00:34:33,109 --> 00:34:30,480

um

877

00:34:35,889 --> 00:34:33,119

you would see things on the radar that

878

00:34:37,849 --> 00:34:35,899

would be strange but I hesitate to like

879

00:34:40,849 --> 00:34:37,859

necessarily attribute that to the

880

00:34:42,710 --> 00:34:40,859

reality of the situation all right uh

881

00:34:44,750 --> 00:34:42,720

because I don't necessarily know if that

882

00:34:46,010 --> 00:34:44,760

sensor system is calibrated properly to

883

00:34:48,050 --> 00:34:46,020

be able to feed me that type of

884

00:34:50,210 --> 00:34:48,060

information they're not necessarily

885

00:34:52,430 --> 00:34:50,220

designed to show me perhaps Hypersonic

886

00:34:54,109 --> 00:34:52,440

things that are moving at various speeds

887

00:34:57,349 --> 00:34:54,119

maybe that looks like a skip or maybe

888

00:34:59,270 --> 00:34:57,359

that's just bad sensor data so I

889

00:35:01,190 --> 00:34:59,280

generally hesitate to say that however

890

00:35:06,470 --> 00:35:01,200

there are a lot of interesting stories

891

00:35:13,690 --> 00:35:08,570

oh we lost you

892

00:35:22,010 --> 00:35:17,650

see this is this is the man right here

893

00:35:23,930 --> 00:35:22,020

let's see if we get Ryan back and uh

894

00:35:25,790 --> 00:35:23,940

Ryan stay with me I don't know if you

895

00:35:27,230 --> 00:35:25,800

can hear me Ryan

896

00:35:29,390 --> 00:35:27,240

um let's go

897

00:35:36,609 --> 00:35:29,400

I'm gonna send if you can hear me I'm

898

00:35:46,130 --> 00:35:41,630

just when things were getting great

899

00:35:53,450 --> 00:35:50,210

I am trying to see if we still have Ryan

900

00:35:58,069 --> 00:35:53,460

here connected

901
00:35:59,089 --> 00:35:58,079
okay uh uh okay he's gone gone

902
00:36:02,390 --> 00:35:59,099
um

903
00:36:04,790 --> 00:36:02,400
he's out and coming back so what is

904
00:36:07,490 --> 00:36:04,800
interesting here uh just a quick recap

905
00:36:09,050 --> 00:36:07,500
as I as I wait for uh Ryan to come back

906
00:36:12,410 --> 00:36:09,060
to us

907
00:36:14,109 --> 00:36:12,420
um having this happen on a daily basis

908
00:36:16,970 --> 00:36:14,119
on the East Coast

909
00:36:19,430 --> 00:36:16,980
uh uh picked up by so many different

910
00:36:22,490 --> 00:36:19,440
aircraft is uh

911
00:36:24,349 --> 00:36:22,500
uh interesting in of itself but they

912
00:36:26,690 --> 00:36:24,359
have an upgraded radar system that has

913
00:36:31,069 --> 00:36:26,700

been installed uh it's much more

914

00:36:32,930 --> 00:36:31,079

sensitive and then when the radar is

915

00:36:35,750 --> 00:36:32,940

picking up on something

916

00:36:38,810 --> 00:36:35,760

all of the other sensors uh and that's

917

00:36:41,690 --> 00:36:38,820

uh the camera systems the FLIR uh the

918

00:36:43,790 --> 00:36:41,700

infrared okay uh yeah that would see

919

00:36:46,670 --> 00:36:43,800

that you know I'm not a conspiracy guy

920

00:36:48,710 --> 00:36:46,680

Ron that was the man right there that

921

00:36:51,710 --> 00:36:48,720

was the man I can't shut that I might

922

00:36:53,270 --> 00:36:51,720

you know my computer reboot oh is that

923

00:36:55,069 --> 00:36:53,280

what it was see that's the man that's

924

00:36:57,230 --> 00:36:55,079

that's the man right there you know

925

00:36:58,970 --> 00:36:57,240

better randomly reboot I have no idea

926

00:37:01,329 --> 00:36:58,980

why and then I boot up and said it

927

00:37:04,250 --> 00:37:01,339

rebooted because of an error okay

928

00:37:07,310 --> 00:37:04,260

interesting okay so uh and next question

929

00:37:10,190 --> 00:37:07,320

in line I was just doing a recap of uh

930

00:37:12,170 --> 00:37:10,200

uh how the systems work

931

00:37:13,849 --> 00:37:12,180

um the next uh when you're talking about

932

00:37:17,390 --> 00:37:13,859

AirSpeed okay some of these are

933

00:37:19,609 --> 00:37:17,400

stationary some are actually moving uh

934

00:37:21,829 --> 00:37:19,619

altitudes what what were you typically

935

00:37:22,849 --> 00:37:21,839

seeing there and were there I'm laughing

936

00:37:26,109 --> 00:37:22,859

because I'm seeing some of these

937

00:37:31,730 --> 00:37:29,270

I Men in Black come and get me yeah yeah

938

00:37:34,730 --> 00:37:31,740

exactly exactly all right

939

00:37:36,589 --> 00:37:34,740

um it's all like fun it's all we're just

940

00:37:39,410 --> 00:37:36,599

having fun where else where I'm sorry

941

00:37:41,569 --> 00:37:39,420

where were we um yeah we're 0.6.8 mock I

942

00:37:43,970 --> 00:37:41,579

occasionally see them like 1.1 and 1.2

943

00:37:45,470 --> 00:37:43,980

Mach uh typically that'd be when they

944

00:37:47,990 --> 00:37:45,480

just be like buzzing East or something

945

00:37:49,310 --> 00:37:48,000

of that nature like her out into the

946

00:37:51,710 --> 00:37:49,320

ocean

947

00:37:54,589 --> 00:37:51,720

um we'd see them kind of Meandering

948

00:37:55,550 --> 00:37:54,599

vertically as well and so they would

949

00:37:56,750 --> 00:37:55,560

never just

950

00:37:58,730 --> 00:37:56,760

um they would rarely just kind of like

951
00:38:01,030 --> 00:37:58,740
be darting in a very straight line a lot

952
00:38:03,410 --> 00:38:01,040
of time they kind of be appear to be

953
00:38:06,050 --> 00:38:03,420
Meandering in a direction uh both

954
00:38:07,910 --> 00:38:06,060
vertically and also horizontally right

955
00:38:08,930 --> 00:38:07,920
so if you think like a GPS you go look

956
00:38:11,270 --> 00:38:08,940
in the sky and you see like that

957
00:38:13,430 --> 00:38:11,280
perfectly straight Cloud right like you

958
00:38:14,750 --> 00:38:13,440
can tell something's on autopilot you

959
00:38:16,010 --> 00:38:14,760
know you see enough of it but when you

960
00:38:17,810 --> 00:38:16,020
you can kind of tell when something

961
00:38:19,609 --> 00:38:17,820
seems almost more organic or if it's

962
00:38:21,230 --> 00:38:19,619
being flown manually and things of that

963
00:38:24,290 --> 00:38:21,240

nature and this kind of seemed Messier

964

00:38:26,150 --> 00:38:24,300

in the sense that it was um kind of more

965

00:38:28,069 --> 00:38:26,160

organic in a sense and it would kind of

966

00:38:31,069 --> 00:38:28,079

meander vertically both

967

00:38:33,829 --> 00:38:31,079

um down and up and horizontally you know

968

00:38:35,750 --> 00:38:33,839

Against the Wind with the wind and so it

969

00:38:37,849 --> 00:38:35,760

was it it seemed like the wind was just

970

00:38:39,410 --> 00:38:37,859

not a factor you know it didn't seem

971

00:38:42,050 --> 00:38:39,420

like it was like had to fight the win

972

00:38:43,609 --> 00:38:42,060

really it just seems like it had to um

973

00:38:45,829 --> 00:38:43,619

it just seemed like it was there right

974

00:38:48,470 --> 00:38:45,839

like and we've seen some reports of that

975

00:38:51,650 --> 00:38:48,480

as we um

976
00:38:54,650 --> 00:38:51,660
um get more and more of these these um

977
00:38:55,270 --> 00:38:54,660
range Fowler reports that are being

978
00:39:01,670 --> 00:38:55,280
um

979
00:39:02,870 --> 00:39:01,680
one they're talking about the object

980
00:39:04,490 --> 00:39:02,880
being

981
00:39:06,410 --> 00:39:04,500
um in the middle of a thunderstorm

982
00:39:09,109 --> 00:39:06,420
essentially and like super strong winds

983
00:39:10,370 --> 00:39:09,119
and just perfectly stationary uh and

984
00:39:12,410 --> 00:39:10,380
he's got it on his camera and everything

985
00:39:13,910 --> 00:39:12,420
else and he's like fighting to stay in

986
00:39:15,470 --> 00:39:13,920
the area and I know what that means I've

987
00:39:17,270 --> 00:39:15,480
been there too and when he says fighting

988
00:39:18,950 --> 00:39:17,280

to me in in the air you have 100 knot

989

00:39:22,069 --> 00:39:18,960

winds every time you turn it's pushing

990

00:39:23,810 --> 00:39:22,079

you like miles down you know it's like

991

00:39:25,490 --> 00:39:23,820

skidding and you know just have an

992

00:39:27,109 --> 00:39:25,500

object that's just perfectly stationary

993

00:39:29,930 --> 00:39:27,119

out there you you just wouldn't expect

994

00:39:32,150 --> 00:39:29,940

that yeah not affected by it at all yeah

995

00:39:33,770 --> 00:39:32,160

yeah it doesn't make any sense

996

00:39:36,410 --> 00:39:33,780

um and what about okay so we have

997

00:39:39,829 --> 00:39:36,420

Meandering right and and something uh

998

00:39:42,770 --> 00:39:39,839

under drunken manual control if you will

999

00:39:44,750 --> 00:39:42,780

and not necessarily on autopilot or

1000

00:39:47,450 --> 00:39:44,760

following a GPS track right that would

1001
00:39:49,730 --> 00:39:47,460
make sense and going from point to point

1002
00:39:54,290 --> 00:39:49,740
um what about something more organized

1003
00:39:56,870 --> 00:39:54,300
was there uh repeatability was there was

1004
00:39:59,150 --> 00:39:56,880
were these following a pattern at times

1005
00:40:01,609 --> 00:39:59,160
I'll say there was a pattern that they

1006
00:40:04,310 --> 00:40:01,619
seemed to be clustered in our working

1007
00:40:06,230 --> 00:40:04,320
areas right so they weren't necessarily

1008
00:40:08,690 --> 00:40:06,240
they weren't respecting the boundaries

1009
00:40:10,370 --> 00:40:08,700
of the working area both the the outer

1010
00:40:12,650 --> 00:40:10,380
boundaries and also the internal

1011
00:40:14,750 --> 00:40:12,660
boundaries that we use to subdivide and

1012
00:40:16,970 --> 00:40:14,760
so they'd Meander across those those sub

1013
00:40:19,010 --> 00:40:16,980

boundaries which is like a kind of

1014

00:40:20,450 --> 00:40:19,020

internal faux pile like hey you know we

1015

00:40:22,130 --> 00:40:20,460

might switch things but you should be

1016

00:40:25,010 --> 00:40:22,140

calling up but still strange to see

1017

00:40:26,510 --> 00:40:25,020

things switching between but like go

1018

00:40:28,250 --> 00:40:26,520

outside the area is kind of like a

1019

00:40:30,770 --> 00:40:28,260

violation bust especially at certain

1020

00:40:33,290 --> 00:40:30,780

altitudes you would be in violation of

1021

00:40:35,270 --> 00:40:33,300

fa procedures to be going outside of

1022

00:40:36,890 --> 00:40:35,280

those areas in class A airspace

1023

00:40:38,690 --> 00:40:36,900

essentially

1024

00:40:40,609 --> 00:40:38,700

um and so they would not respect those

1025

00:40:42,710 --> 00:40:40,619

boundaries as well and you know it's

1026

00:40:45,890 --> 00:40:42,720

interesting to note that the northern

1027

00:40:48,589 --> 00:40:45,900

boundary of that area is a major traffic

1028

00:40:49,910 --> 00:40:48,599

light International traffic lane uh that

1029

00:40:52,550 --> 00:40:49,920

is specifically designed to Route

1030

00:40:54,109 --> 00:40:52,560

traffic into the U.S and void the areas

1031

00:40:56,450 --> 00:40:54,119

and just to the north of that that

1032

00:40:58,430 --> 00:40:56,460

channel is the essentially the Air Force

1033

00:41:00,170 --> 00:40:58,440

equivalent of our working areas so

1034

00:41:01,790 --> 00:41:00,180

there's this tight band and guess what

1035

00:41:03,950 --> 00:41:01,800

those objects are going over there as

1036

00:41:06,230 --> 00:41:03,960

well so when we talk about this being

1037

00:41:08,089 --> 00:41:06,240

not just the military safety risk but a

1038

00:41:09,410 --> 00:41:08,099

commercial one this is you know just one

1039

00:41:10,130 --> 00:41:09,420

very well

1040

00:41:13,790 --> 00:41:10,140

um

1041

00:41:15,410 --> 00:41:13,800

you know explained example well you have

1042

00:41:17,210 --> 00:41:15,420

and here's the other thing we you know

1043

00:41:19,370 --> 00:41:17,220

and I understand the military I'm a

1044

00:41:23,329 --> 00:41:19,380

military brat okay well not really my

1045

00:41:25,430 --> 00:41:23,339

dad was in the Army Band so but that's

1046

00:41:27,470 --> 00:41:25,440

it you're in yeah no I did I did my

1047

00:41:30,530 --> 00:41:27,480

world tour right I did that I did that

1048

00:41:34,430 --> 00:41:30,540

move every three years my my whole life

1049

00:41:37,250 --> 00:41:34,440

um but uh and I understand uh the threat

1050

00:41:39,950 --> 00:41:37,260

to our military and I I grew up on on

1051

00:41:42,410 --> 00:41:39,960

basis and I I get that I certainly

1052

00:41:43,790 --> 00:41:42,420

respect it but up and down the East

1053

00:41:45,650 --> 00:41:43,800

Coast where you have you know you have

1054

00:41:49,370 --> 00:41:45,660

JFK and you have dollars and you have

1055

00:41:51,290 --> 00:41:49,380

Miami and Boston and all these other

1056

00:41:54,670 --> 00:41:51,300

airports with the international traffic

1057

00:41:57,890 --> 00:41:54,680

coming out the amount of commercial

1058

00:42:00,349 --> 00:41:57,900

flights it it it's a crazy amount of

1059

00:42:02,750 --> 00:42:00,359

traffic uh going through all of the

1060

00:42:05,329 --> 00:42:02,760

stuff that you are seeing

1061

00:42:06,950 --> 00:42:05,339

yeah absolutely and it's every day right

1062

00:42:09,109 --> 00:42:06,960

there's a ton of traffic over there and

1063

00:42:10,550 --> 00:42:09,119

yes it's a big sky and

1064

00:42:12,589 --> 00:42:10,560

um that's kind of a saying in the Navy

1065

00:42:14,930 --> 00:42:12,599

or I don't know I mean just an aviation

1066

00:42:18,109 --> 00:42:14,940

it's kind of a joke a little aircraft

1067

00:42:19,430 --> 00:42:18,119

Big Sky it's kind of a way of saying

1068

00:42:21,290 --> 00:42:19,440

um you know hey

1069

00:42:24,530 --> 00:42:21,300

kind of like a good luck you'll be fine

1070

00:42:26,270 --> 00:42:24,540

with midairs type situation but the

1071

00:42:27,829 --> 00:42:26,280

reality is is that

1072

00:42:29,930 --> 00:42:27,839

um these these these things can have

1073

00:42:32,030 --> 00:42:29,940

serious consequences and we've seen this

1074

00:42:34,550 --> 00:42:32,040

we've seen the reporting grow on this

1075

00:42:36,650 --> 00:42:34,560

we've seen you know 500 plus reports at

1076

00:42:39,589 --> 00:42:36,660

this point so you can see just how

1077

00:42:42,710 --> 00:42:39,599

common it is on a numbers basis

1078

00:42:46,970 --> 00:42:42,720

um yeah can I can I ask you this are you

1079

00:42:49,430 --> 00:42:46,980

still in communication uh with with navy

1080

00:42:51,190 --> 00:42:49,440

Pilots today that are that are active

1081

00:42:54,770 --> 00:42:51,200

duty yeah

1082

00:42:56,510 --> 00:42:54,780

and uh is this still going on on the

1083

00:42:59,630 --> 00:42:56,520

East Coast with the same frequency that

1084

00:43:00,950 --> 00:42:59,640

you uh were experiencing

1085

00:43:03,109 --> 00:43:00,960

um

1086

00:43:04,849 --> 00:43:03,119

I didn't I'm still touching I don't keep

1087

00:43:06,530 --> 00:43:04,859

a necessarily a regular tab on a lot of

1088

00:43:07,910 --> 00:43:06,540

films uh most of my contacts right now

1089

00:43:10,250 --> 00:43:07,920

are actually deployed Believe It or Not

1090

00:43:12,589 --> 00:43:10,260

uh but generally speaking yes it is

1091

00:43:14,930 --> 00:43:12,599

still occurring yeah I mean the reports

1092

00:43:16,910 --> 00:43:14,940

the reports that we just received uh are

1093

00:43:19,670 --> 00:43:16,920

I mean that were just foiled are from

1094

00:43:22,490 --> 00:43:19,680

recent times and the UAP or not the the

1095

00:43:24,290 --> 00:43:22,500

odni report that just came out

1096

00:43:25,849 --> 00:43:24,300

um I think it was

1097

00:43:28,010 --> 00:43:25,859

um I forget the timeline but it was

1098

00:43:29,930 --> 00:43:28,020

sometime in the past maybe 24 months or

1099

00:43:31,490 --> 00:43:29,940

18 months or so that the majority of the

1100

00:43:33,109 --> 00:43:31,500

new cases have been gathered up and

1101
00:43:35,630 --> 00:43:33,119
that's through new reporting through the

1102
00:43:37,190 --> 00:43:35,640
Navy and the Air Force and I I susp I

1103
00:43:40,490 --> 00:43:37,200
mean we only train in so many places

1104
00:43:42,050 --> 00:43:40,500
right so call it 150 of those reports

1105
00:43:44,030 --> 00:43:42,060
split across three or four Naval

1106
00:43:45,770 --> 00:43:44,040
training facilities how many of those

1107
00:43:48,230 --> 00:43:45,780
are off the east coast you know you

1108
00:43:50,270 --> 00:43:48,240
could call it 40 of them or so yeah it's

1109
00:43:52,309 --> 00:43:50,280
a numbers game uh that's a numbers game

1110
00:43:53,870 --> 00:43:52,319
but like yeah so I mean we have we can

1111
00:43:55,670 --> 00:43:53,880
quantify this now right it's not like a

1112
00:43:57,170 --> 00:43:55,680
mystery like we have we have our second

1113
00:44:00,050 --> 00:43:57,180

round of data we're seeing the numbers

1114

00:44:01,670 --> 00:44:00,060

grow because we're reporting more so you

1115

00:44:04,010 --> 00:44:01,680

know it's it's happening it's still

1116

00:44:07,309 --> 00:44:04,020

there and the government is actively uh

1117

00:44:10,370 --> 00:44:07,319

cataloging data on as we speak now now

1118

00:44:12,470 --> 00:44:10,380

oh one more comment too sure sure I I

1119

00:44:15,170 --> 00:44:12,480

don't I I don't really talk to my Navy

1120

00:44:16,790 --> 00:44:15,180

folks about this that much uh out of

1121

00:44:18,650 --> 00:44:16,800

respect because this is now an official

1122

00:44:21,829 --> 00:44:18,660

program and this is a classified program

1123

00:44:24,470 --> 00:44:21,839

right how do you know the question that

1124

00:44:26,569 --> 00:44:24,480

I was about to ask yeah oh yeah I don't

1125

00:44:28,309 --> 00:44:26,579

know so I I don't I don't to your point

1126

00:44:30,890 --> 00:44:28,319

I don't really like Pokemon this if

1127

00:44:31,970 --> 00:44:30,900

someone has a interesting story that

1128

00:44:34,370 --> 00:44:31,980

they want to tell me that's not

1129

00:44:36,589 --> 00:44:34,380

classified cool but I wouldn't I

1130

00:44:38,290 --> 00:44:36,599

wouldn't try to poke around that bear

1131

00:44:42,530 --> 00:44:38,300

the

1132

00:44:44,390 --> 00:44:42,540

uh this is I want your opinion here uh

1133

00:44:46,849 --> 00:44:44,400

okay all right I know that you're a

1134

00:44:49,430 --> 00:44:46,859

black and white data driven engineer

1135

00:44:52,150 --> 00:44:49,440

that's where your brain is I get that

1136

00:44:57,050 --> 00:44:52,160

but sometimes opinions matter okay

1137

00:44:59,630 --> 00:44:57,060

uh the majority of the reporting the

1138

00:45:01,609 --> 00:44:59,640

majority of things that we are hearing

1139

00:45:03,430 --> 00:45:01,619

about and have heard about

1140

00:45:07,670 --> 00:45:03,440

come from the Navy

1141

00:45:10,609 --> 00:45:07,680

and it seems uh disproportionate in in

1142

00:45:13,490 --> 00:45:10,619

that direction we have the United States

1143

00:45:16,069 --> 00:45:13,500

Air Force right and it's their job to

1144

00:45:17,390 --> 00:45:16,079

fly the skies too as well you know

1145

00:45:19,190 --> 00:45:17,400

either the Marines do their thing the

1146

00:45:20,809 --> 00:45:19,200

Army does their thing and Coast Guard's

1147

00:45:24,650 --> 00:45:20,819

got their their helicopters and stuff

1148

00:45:28,130 --> 00:45:24,660

and I get I get that but there has been

1149

00:45:30,470 --> 00:45:28,140

a general lack of attention from the

1150

00:45:33,950 --> 00:45:30,480

United States Air Force why do you think

1151
00:45:38,690 --> 00:45:33,960
that is and why is the Navy apparently

1152
00:45:43,730 --> 00:45:40,670
um I'll say this is that I don't know

1153
00:45:46,490 --> 00:45:43,740
like but I think there is a I think it

1154
00:45:48,230 --> 00:45:46,500
is I think it is um

1155
00:45:50,390 --> 00:45:48,240
intentional

1156
00:45:53,690 --> 00:45:50,400
and I don't think it's I I think it's

1157
00:45:55,790 --> 00:45:53,700
for I think relatively important reasons

1158
00:45:58,690 --> 00:45:55,800
I don't think that there's necessarily

1159
00:46:01,430 --> 00:45:58,700
snubbing their nose at this out of

1160
00:46:03,170 --> 00:46:01,440
stigma or anything of that nature I

1161
00:46:05,050 --> 00:46:03,180
think is probably a bit more involved

1162
00:46:07,550 --> 00:46:05,060
and I don't necessarily know the details

1163
00:46:08,809 --> 00:46:07,560

uh but I'll say that's my general

1164

00:46:12,650 --> 00:46:08,819

opinion

1165

00:46:16,130 --> 00:46:12,660

yeah and is it also

1166

00:46:21,170 --> 00:46:16,140

um you know taking this one step further

1167

00:46:25,010 --> 00:46:21,180

um is it that uh the Air Force

1168

00:46:28,250 --> 00:46:25,020

has been collecting data they I don't

1169

00:46:30,650 --> 00:46:28,260

know this as a fact right uh I'm from

1170

00:46:32,690 --> 00:46:30,660

the outside in but the Air Force must

1171

00:46:35,329 --> 00:46:32,700

have some pretty sophisticated uh

1172

00:46:39,290 --> 00:46:35,339

sensors and and radar installed on their

1173

00:46:41,390 --> 00:46:39,300

planes and and also at at air bases

1174

00:46:43,309 --> 00:46:41,400

around the world we should have the very

1175

00:46:45,530 --> 00:46:43,319

very best of the best of the best I'm

1176
00:46:47,809 --> 00:46:45,540
not saying it's better than the Navy but

1177
00:46:49,490 --> 00:46:47,819
it's got to be equivalent so they have

1178
00:46:50,710 --> 00:46:49,500
the ability to pick up the same

1179
00:46:52,849 --> 00:46:50,720
information

1180
00:46:56,450 --> 00:46:52,859
and or better

1181
00:46:58,309 --> 00:46:56,460
but yet in this odni report again I'm

1182
00:46:59,870 --> 00:46:58,319
just taking a guess but I would assume

1183
00:47:01,970 --> 00:46:59,880
that most of that information is from

1184
00:47:04,670 --> 00:47:01,980
the United States Navy and it's not

1185
00:47:08,210 --> 00:47:04,680
coming from the Air Force

1186
00:47:10,730 --> 00:47:08,220
uh I expect that at an operational level

1187
00:47:12,710 --> 00:47:10,740
like at my level where we were seeing

1188
00:47:16,010 --> 00:47:12,720

things that they're seeing the same

1189

00:47:16,609 --> 00:47:16,020

things right I just think that there is

1190

00:47:18,530 --> 00:47:16,619

um

1191

00:47:21,890 --> 00:47:18,540

like you said there must be some process

1192

00:47:24,349 --> 00:47:21,900

that's that's stopping that uh data from

1193

00:47:26,270 --> 00:47:24,359

from continuing forward I don't know

1194

00:47:28,370 --> 00:47:26,280

what it is and like I said I'm sure

1195

00:47:31,250 --> 00:47:28,380

it's much more complicated than I would

1196

00:47:33,589 --> 00:47:31,260

have you know be privy to know I don't

1197

00:47:35,990 --> 00:47:33,599

think it is like I said just a nose snub

1198

00:47:37,250 --> 00:47:36,000

I think it is you know I think they are

1199

00:47:39,589 --> 00:47:37,260

really Holding Out for some particular

1200

00:47:41,870 --> 00:47:39,599

reason yeah they I think you know since

1201

00:47:43,910 --> 00:47:41,880

the closing of against his opinion but

1202

00:47:46,190 --> 00:47:43,920

since uh the closing of Project Blue

1203

00:47:49,069 --> 00:47:46,200

Book in 69 when they said nothing to see

1204

00:47:50,990 --> 00:47:49,079

here right 1969.

1205

00:47:53,870 --> 00:47:51,000

um that that's been their attitude ever

1206

00:47:55,309 --> 00:47:53,880

since right so that it has been closed

1207

00:47:56,930 --> 00:47:55,319

off and they're they're in that comfort

1208

00:47:58,910 --> 00:47:56,940

zone and and that's where they're going

1209

00:48:00,650 --> 00:47:58,920

to stay until yeah the Navy wants to

1210

00:48:02,030 --> 00:48:00,660

jump on that grenade for them perhaps

1211

00:48:04,790 --> 00:48:02,040

they're more than willing to let them do

1212

00:48:06,290 --> 00:48:04,800

it right exactly exactly exactly I mean

1213

00:48:07,730 --> 00:48:06,300

they can't have two two people leading

1214

00:48:08,990 --> 00:48:07,740

the charge on it so perhaps they're just

1215

00:48:10,970 --> 00:48:09,000

sitting back and letting the Navy

1216

00:48:14,809 --> 00:48:10,980

continue doing what they're doing

1217

00:48:18,470 --> 00:48:14,819

there was um oh oh oh oh this is just

1218

00:48:21,950 --> 00:48:18,480

between you and I right what was it like

1219

00:48:24,170 --> 00:48:21,960

you you come back after training and you

1220

00:48:27,950 --> 00:48:24,180

guys hang out you guys talk right right

1221

00:48:29,569 --> 00:48:27,960

ciao whatever watching TV I'm not

1222

00:48:30,950 --> 00:48:29,579

talking about the debrief all right I'm

1223

00:48:32,930 --> 00:48:30,960

not talking about that and sitting down

1224

00:48:35,089 --> 00:48:32,940

and talking uh with your commanding

1225

00:48:36,470 --> 00:48:35,099

officers I'm talking about you and your

1226

00:48:39,109 --> 00:48:36,480

your friends

1227

00:48:41,150 --> 00:48:39,119

were you guys talking about this and and

1228

00:48:43,670 --> 00:48:41,160

if you were what was that what was that

1229

00:48:46,250 --> 00:48:43,680

conversation like

1230

00:48:47,690 --> 00:48:46,260

we were so like we there's kind of like

1231

00:48:49,370 --> 00:48:47,700

this

1232

00:48:51,470 --> 00:48:49,380

social hierarchy in a sense in a

1233

00:48:53,450 --> 00:48:51,480

squadron and there's the the Joppa which

1234

00:48:55,490 --> 00:48:53,460

is the junior officers and then there's

1235

00:48:57,710 --> 00:48:55,500

kind of your middle management 04s and

1236

00:48:59,450 --> 00:48:57,720

then your commanding officer o5 right

1237

00:49:01,370 --> 00:48:59,460

and so

1238

00:49:03,109 --> 00:49:01,380

um there's a there's a room that's kind

1239

00:49:04,490 --> 00:49:03,119

of like the jopa room where it's just

1240

00:49:06,349 --> 00:49:04,500

kind of all the lieutenants and stuff

1241

00:49:09,890 --> 00:49:06,359

and that's where we would be you know

1242

00:49:12,230 --> 00:49:09,900

doing our our more uh open conversations

1243

00:49:13,790 --> 00:49:12,240

and whatnot and shooting the [h__\h]

1244

00:49:15,710 --> 00:49:13,800

um and that's when we would you know

1245

00:49:17,390 --> 00:49:15,720

just wonder what the [h__\h] was going on

1246

00:49:20,089 --> 00:49:17,400

no one no one wanted to really draw

1247

00:49:22,069 --> 00:49:20,099

conclusions uh but there were plenty of

1248

00:49:24,349 --> 00:49:22,079

jokes because that's you know what we do

1249

00:49:27,170 --> 00:49:24,359

in in a Fighter Squadron

1250

00:49:29,270 --> 00:49:27,180

um but there was um there was yeah there

1251

00:49:30,829 --> 00:49:29,280

was no real like I would say like deep

1252

00:49:32,870 --> 00:49:30,839

philosophical thought on what it could

1253

00:49:34,730 --> 00:49:32,880

be it was it was more of just you know

1254

00:49:36,530 --> 00:49:34,740

an uncomfortable topic that there were

1255

00:49:38,630 --> 00:49:36,540

some cracks of jokes and

1256

00:49:40,910 --> 00:49:38,640

and also they'll yeah we have to brief

1257

00:49:42,890 --> 00:49:40,920

about it because they're out there and

1258

00:49:45,170 --> 00:49:42,900

we don't want to hit them so it was very

1259

00:49:46,910 --> 00:49:45,180

pragmatic at the end of the day but you

1260

00:49:49,430 --> 00:49:46,920

know like most things in a fire Squadron

1261

00:49:52,370 --> 00:49:49,440

we we treat the uncertainty with humor

1262

00:49:55,430 --> 00:49:52,380

yeah so you you must have gotten some of

1263

00:49:57,349 --> 00:49:55,440

that right oh okay here comes Graves I

1264

00:49:58,970 --> 00:49:57,359

said no it wasn't me I was not even like

1265

00:50:00,829 --> 00:49:58,980

really like associated with it right

1266

00:50:02,210 --> 00:50:00,839

like it was all it was all of us that

1267

00:50:04,130 --> 00:50:02,220

were seeing it and it was the whole

1268

00:50:06,230 --> 00:50:04,140

Squadron and then other squadrons that

1269

00:50:08,089 --> 00:50:06,240

had it so right now

1270

00:50:09,349 --> 00:50:08,099

um I was I was not particular in fact I

1271

00:50:10,670 --> 00:50:09,359

was probably less involved because I

1272

00:50:12,710 --> 00:50:10,680

didn't even really see it with my eyes

1273

00:50:14,390 --> 00:50:12,720

you know other people were seeing them

1274

00:50:17,270 --> 00:50:14,400

first and you know or having bigger

1275

00:50:18,770 --> 00:50:17,280

issues with this so now uh before we

1276

00:50:20,450 --> 00:50:18,780

we're gonna take a break in about five

1277

00:50:23,329 --> 00:50:20,460

minutes when we come back we'll talk

1278

00:50:27,349 --> 00:50:23,339

about uh the odni report

1279

00:50:31,490 --> 00:50:27,359

um I would certainly say that uh and I

1280

00:50:34,309 --> 00:50:31,500

watched uh with uh with great curiosity

1281

00:50:36,829 --> 00:50:34,319

uh this is 60 Minutes episode

1282

00:50:39,430 --> 00:50:36,839

um and there has been a gen General

1283

00:50:43,730 --> 00:50:39,440

openness with the media

1284

00:50:46,210 --> 00:50:43,740

were you surprised that you were going

1285

00:50:51,049 --> 00:50:46,220

to go from the Navy

1286

00:50:55,190 --> 00:50:51,059

into this world of of you know

1287

00:50:57,829 --> 00:50:55,200

not only the word UFO right or UAP but

1288

00:50:59,690 --> 00:50:57,839

also what comes along with that with the

1289

00:51:03,109 --> 00:50:59,700

Department of Defense or the NSA of the

1290

00:51:05,569 --> 00:51:03,119

CIA or or this community or the UFO

1291

00:51:09,589 --> 00:51:05,579

Community it's a whole different ball

1292

00:51:11,510 --> 00:51:09,599

game isn't it yeah I'd uh I had zero

1293

00:51:12,530 --> 00:51:11,520

expectations that my life was going to

1294

00:51:15,410 --> 00:51:12,540

take this turn

1295

00:51:17,809 --> 00:51:15,420

uh I I I I didn't know what I was

1296

00:51:19,609 --> 00:51:17,819

getting myself into but uh I'm happy I I

1297

00:51:21,349 --> 00:51:19,619

happy I did I mean I stand by what I did

1298

00:51:22,670 --> 00:51:21,359

and I would have done it I would do it

1299

00:51:25,010 --> 00:51:22,680

again

1300

00:51:26,390 --> 00:51:25,020

um I think that you know we don't

1301
00:51:28,190 --> 00:51:26,400
necessarily know those conversations

1302
00:51:30,410 --> 00:51:28,200
gonna end I don't know where it's

1303
00:51:33,589 --> 00:51:30,420
necessarily going to end uh but even

1304
00:51:36,770 --> 00:51:33,599
with call it a an oversized risk of of

1305
00:51:38,809 --> 00:51:36,780
failure or just embarrassment or you

1306
00:51:40,730 --> 00:51:38,819
know career suicide or whatever you want

1307
00:51:42,349 --> 00:51:40,740
to call it I think it's too important of

1308
00:51:45,109 --> 00:51:42,359
a conversation there's too much

1309
00:51:47,510 --> 00:51:45,119
opportunity risk to ignore something

1310
00:51:48,950 --> 00:51:47,520
like this and whether it's because we're

1311
00:51:50,569 --> 00:51:48,960
going to find out we're not alone or

1312
00:51:53,030 --> 00:51:50,579
whether we find out we're being spied on

1313
00:51:56,930 --> 00:51:53,040

or by a foreign Nation it's interesting

1314

00:51:59,089 --> 00:51:56,940

either way now a little esoteric it says

1315

00:52:01,190 --> 00:51:59,099

going a little bit outside but I am

1316

00:52:05,630 --> 00:52:01,200

interested in this

1317

00:52:07,190 --> 00:52:05,640

um did you ever have a point of what you

1318

00:52:10,309 --> 00:52:07,200

thought may have been

1319

00:52:12,170 --> 00:52:10,319

a contact through consciousness

1320

00:52:14,690 --> 00:52:12,180

you know like maybe the two were out

1321

00:52:17,390 --> 00:52:14,700

there just making you know hanging out

1322

00:52:19,569 --> 00:52:17,400

with friends and and and you knew that

1323

00:52:22,309 --> 00:52:19,579

they were there there wasn't anything

1324

00:52:24,109 --> 00:52:22,319

adversarial it's like walking through

1325

00:52:26,150 --> 00:52:24,119

the woods and you've got squirrels off

1326

00:52:30,349 --> 00:52:26,160

in the distance did you ever have like

1327

00:52:32,690 --> 00:52:30,359

that a conscious connection no

1328

00:52:35,930 --> 00:52:32,700

um no I can't say I did

1329

00:52:37,670 --> 00:52:35,940

and the dying is such a incredible act

1330

00:52:39,589 --> 00:52:37,680

and I didn't appreciate at the time but

1331

00:52:42,290 --> 00:52:39,599

while we're out there it's just such

1332

00:52:45,589 --> 00:52:42,300

intense focus and we use a word that we

1333

00:52:48,170 --> 00:52:45,599

call a scan and the scan is literally us

1334

00:52:50,150 --> 00:52:48,180

moving our Focus From the different

1335

00:52:52,430 --> 00:52:50,160

areas and our different tools inside of

1336

00:52:54,950 --> 00:52:52,440

our Jet by the by the millisecond in

1337

00:52:57,950 --> 00:52:54,960

some cases to gather data and and air

1338

00:53:00,230 --> 00:52:57,960

speeds and radar system all that stuff

1339

00:53:03,589 --> 00:53:00,240

and it's in a sense a very meditative

1340

00:53:05,690 --> 00:53:03,599

process and we're so very focused that I

1341

00:53:06,290 --> 00:53:05,700

would almost think it would be

1342

00:53:08,329 --> 00:53:06,300

um

1343

00:53:11,030 --> 00:53:08,339

easy to identify like an intrusive

1344

00:53:14,030 --> 00:53:11,040

thought like that in some sense right

1345

00:53:18,549 --> 00:53:14,040

um but I I can't I can't claim I did

1346

00:53:23,990 --> 00:53:20,890

how you doing today

1347

00:53:26,870 --> 00:53:24,000

well I mean I you know we do also have

1348

00:53:29,030 --> 00:53:26,880

like seven radios in the Jet right and

1349

00:53:30,710 --> 00:53:29,040

not the I mean we've got ICS I can hear

1350

00:53:33,190 --> 00:53:30,720

my guy in the back seat farting

1351

00:53:35,390 --> 00:53:33,200

sometimes so I mean

1352

00:53:38,690 --> 00:53:35,400

who knows it might be getting some mixed

1353

00:53:42,109 --> 00:53:38,700

signals yeah yeah yeah absolutely

1354

00:53:43,670 --> 00:53:42,119

um now the the movement that we have

1355

00:53:48,230 --> 00:53:43,680

we're going to come back and talk about

1356

00:53:51,049 --> 00:53:48,240

the odni but uh with the openness that

1357

00:53:54,290 --> 00:53:51,059

seems to be going on

1358

00:53:57,950 --> 00:53:54,300

um you have met with uh our elected

1359

00:54:01,250 --> 00:53:57,960

officials uh in on on Capitol Hill

1360

00:54:03,710 --> 00:54:01,260

are they asking questions from the

1361

00:54:06,910 --> 00:54:03,720

mindset of they don't know anything

1362

00:54:09,290 --> 00:54:06,920

about this right they don't and and and

1363

00:54:14,450 --> 00:54:09,300

this has been going on for a while do

1364

00:54:16,309 --> 00:54:14,460

they seem surprised right and that they

1365

00:54:17,990 --> 00:54:16,319

need these answers or are they coming at

1366

00:54:20,390 --> 00:54:18,000

it from another area

1367

00:54:22,790 --> 00:54:20,400

they've seen the data right

1368

00:54:24,829 --> 00:54:22,800

um it's it's not that far away I mean

1369

00:54:26,870 --> 00:54:24,839

it's it's there right it's on the

1370

00:54:28,970 --> 00:54:26,880

supernet we've gathered the data even if

1371

00:54:31,190 --> 00:54:28,980

it just want to say throw away the past

1372

00:54:33,049 --> 00:54:31,200

you know number of decades and just look

1373

00:54:35,809 --> 00:54:33,059

at what we've gathered over the past you

1374

00:54:37,430 --> 00:54:35,819

know three to four years with the new

1375

00:54:41,210 --> 00:54:37,440

reporting things there's enough just

1376
00:54:43,250 --> 00:54:41,220
right there to make them sure of their

1377
00:54:45,349 --> 00:54:43,260
um convictions and we're seeing that

1378
00:54:47,329 --> 00:54:45,359
right they are they're not ashamed to

1379
00:54:49,970 --> 00:54:47,339
delve into this topic and answer

1380
00:54:52,849 --> 00:54:49,980
questions about it uh they sound as

1381
00:54:54,650 --> 00:54:52,859
curious as I am right uh because they've

1382
00:54:56,270 --> 00:54:54,660
they've had the opportunity to receive

1383
00:54:57,950 --> 00:54:56,280
this information

1384
00:55:00,589 --> 00:54:57,960
have they

1385
00:55:02,210 --> 00:55:00,599
um uh and this isn't classified you can

1386
00:55:05,809 --> 00:55:02,220
you can answer this I feel pretty

1387
00:55:08,450 --> 00:55:05,819
comfortable do they use words like UFOs

1388
00:55:13,069 --> 00:55:08,460

do they use words like extraterrestrial

1389

00:55:16,490 --> 00:55:13,079

uh when when trying to find answers are

1390

00:55:18,589 --> 00:55:16,500

is their mind questioning that right are

1391

00:55:21,890 --> 00:55:18,599

they trying to get answers from

1392

00:55:25,130 --> 00:55:21,900

from out there too as well or is it a

1393

00:55:27,589 --> 00:55:25,140

purely an adversarial possible Chinese

1394

00:55:30,049 --> 00:55:27,599

Russian threat no they're very specific

1395

00:55:33,349 --> 00:55:30,059

in the language that has been used to

1396

00:55:36,770 --> 00:55:33,359

create the Aero office and even with the

1397

00:55:38,870 --> 00:55:36,780

passing of the 2023 ndaa National

1398

00:55:41,510 --> 00:55:38,880

Defense authorization act they very

1399

00:55:43,670 --> 00:55:41,520

explicitly have done their due diligence

1400

00:55:46,190 --> 00:55:43,680

in homework and writing that legislation

1401
00:55:48,589 --> 00:55:46,200
to ensure that the target of

1402
00:55:51,230 --> 00:55:48,599
Investigation is the unknown

1403
00:55:53,630 --> 00:55:51,240
it is the unknown and the the

1404
00:55:55,670 --> 00:55:53,640
adversarial aspect and those things if

1405
00:55:57,410 --> 00:55:55,680
if and or when because I expect they

1406
00:55:59,930 --> 00:55:57,420
probably will be part of this in some

1407
00:56:02,210 --> 00:55:59,940
nature they will get of course filtered

1408
00:56:04,490 --> 00:56:02,220
out to the appropriate channels

1409
00:56:06,950 --> 00:56:04,500
um we just saw recently in a uh

1410
00:56:10,250 --> 00:56:06,960
PowerPoint presentation from Dr Sean

1411
00:56:12,349 --> 00:56:10,260
Kirkpatrick the director of uh doj's

1412
00:56:14,450 --> 00:56:12,359
Aero office that he gave to the National

1413
00:56:15,230 --> 00:56:14,460

Transportation board

1414

00:56:17,990 --> 00:56:15,240
um

1415

00:56:20,089 --> 00:56:18,000
and inside that presentation

1416

00:56:23,150 --> 00:56:20,099
um they make it pretty clear they make

1417

00:56:25,609 --> 00:56:23,160
it very clear that you know this is

1418

00:56:27,349 --> 00:56:25,619
identified as an ongoing Aviation safety

1419

00:56:29,930 --> 00:56:27,359
risk that they now need to integrate

1420

00:56:32,690 --> 00:56:29,940
into our essentially our our policy and

1421

00:56:34,849 --> 00:56:32,700
our and our procedural framework for

1422

00:56:38,089 --> 00:56:34,859
Aviation safety both on the military and

1423

00:56:40,010 --> 00:56:38,099
the commercial side and so

1424

00:56:42,170 --> 00:56:40,020
so yeah I don't know does that answer

1425

00:56:43,490 --> 00:56:42,180
your question well it it it it it it

1426

00:56:45,650 --> 00:56:43,500

does

1427

00:56:47,270 --> 00:56:45,660

um they have to be I'm talking about

1428

00:56:51,109 --> 00:56:47,280

elected officials

1429

00:56:52,970 --> 00:56:51,119

um uh just as curious as as anybody else

1430

00:56:54,829 --> 00:56:52,980

I mean they've grown up oh yeah about

1431

00:56:57,710 --> 00:56:54,839

the specific yeah let me let me address

1432

00:57:00,049 --> 00:56:57,720

the point on the particular uh terms

1433

00:57:02,450 --> 00:57:00,059

um and so yeah and so he's approaching

1434

00:57:04,370 --> 00:57:02,460

that as and he's been targeted by

1435

00:57:07,490 --> 00:57:04,380

Congress to the legislation specifically

1436

00:57:10,069 --> 00:57:07,500

to look into what we call this anomalous

1437

00:57:11,630 --> 00:57:10,079

side of things right uh and so to get

1438

00:57:14,150 --> 00:57:11,640

back to that we've seen the name

1439

00:57:16,490 --> 00:57:14,160

actually update from aerial to Aerospace

1440

00:57:17,690 --> 00:57:16,500

to you know to now anomalous objects

1441

00:57:19,670 --> 00:57:17,700

right we're trying to get rid of the

1442

00:57:22,670 --> 00:57:19,680

domain nonsense so that we can't have

1443

00:57:25,790 --> 00:57:22,680

perhaps the air force uh say well you

1444

00:57:27,950 --> 00:57:25,800

know it's actually uh us a trans medium

1445

00:57:30,349 --> 00:57:27,960

object not an air object and so that's

1446

00:57:31,970 --> 00:57:30,359

no longer you know we're no longer to

1447

00:57:33,829 --> 00:57:31,980

comply with your data requests right

1448

00:57:35,690 --> 00:57:33,839

they're trying to get past all that

1449

00:57:38,089 --> 00:57:35,700

because we are again they are ready to

1450

00:57:40,190 --> 00:57:38,099

focus on the anomalous and you know

1451
00:57:41,750 --> 00:57:40,200
whether words like you described are

1452
00:57:43,790 --> 00:57:41,760
being used

1453
00:57:45,650 --> 00:57:43,800
um extraterrestrial alien I mean we we

1454
00:57:47,930 --> 00:57:45,660
hear those words but I think it's in

1455
00:57:49,970 --> 00:57:47,940
everyone's best interest uh to be

1456
00:57:52,490 --> 00:57:49,980
agnostic and what that anomalous thing

1457
00:57:53,630 --> 00:57:52,500
could be and it most likely won't be one

1458
00:57:56,809 --> 00:57:53,640
thing

1459
00:57:59,750 --> 00:57:56,819
um I I recommend that just due to fear

1460
00:58:02,630 --> 00:57:59,760
of anthropomization of of the topic and

1461
00:58:04,430 --> 00:58:02,640
thinking that um you know drawing false

1462
00:58:06,230 --> 00:58:04,440
conclusions are going down false trains

1463
00:58:08,710 --> 00:58:06,240

before or trains of thought before we

1464

00:58:11,210 --> 00:58:08,720

have the proper data to do so yeah

1465

00:58:13,549 --> 00:58:11,220

absolutely you know what scare what

1466

00:58:16,930 --> 00:58:13,559

would scare the crap out of me is if it

1467

00:58:19,790 --> 00:58:16,940

was Chinese that's a scary thought right

1468

00:58:22,069 --> 00:58:19,800

I'd rather have it be alien I mean

1469

00:58:24,410 --> 00:58:22,079

that's that's a safer Zone to be playing

1470

00:58:27,170 --> 00:58:24,420

in than to have some kind of crazy

1471

00:58:28,849 --> 00:58:27,180

technology like this in the hands of uh

1472

00:58:31,430 --> 00:58:28,859

somebody that doesn't have our best

1473

00:58:33,589 --> 00:58:31,440

interest in play absolutely or I'd say

1474

00:58:35,690 --> 00:58:33,599

say it's I mean I I bet it's all of the

1475

00:58:37,609 --> 00:58:35,700

above right if if we are if we are

1476

00:58:39,589 --> 00:58:37,619

regularly observing things out there

1477

00:58:41,329 --> 00:58:39,599

that would be the perfect cover for Ford

1478

00:58:44,089 --> 00:58:41,339

Nation and then come in and try to mimic

1479

00:58:46,309 --> 00:58:44,099

that right and to to use that cover in

1480

00:58:49,069 --> 00:58:46,319

order to sit there and Inspire our

1481

00:58:51,109 --> 00:58:49,079

technology and our tactics

1482

00:58:53,329 --> 00:58:51,119

um let's take our break uh stay right

1483

00:58:54,950 --> 00:58:53,339

there Ryan uh we'll take a quick break

1484

00:58:57,109 --> 00:58:54,960

this is Fade to Black I guess tonight

1485

00:59:01,789 --> 00:58:57,119

Ryan Graves he's finally with us for the

1486

00:59:03,530 --> 00:59:01,799

first time and I'll be right back

1487

00:59:05,870 --> 00:59:03,540

this is Jimmy Church of Fade to Black

1488

00:59:08,089 --> 00:59:05,880

please visit all of our sponsors we're

1489

00:59:09,890 --> 00:59:08,099

taking a quick break here all of the

1490

00:59:12,950 --> 00:59:09,900

links are below

1491

00:59:15,230 --> 00:59:12,960

and we'll be right back

1492

00:59:16,210 --> 00:59:15,240

check out Billy Carson's Forbidden

1493

00:59:18,309 --> 00:59:16,220

Knowledge

1494

00:59:20,329 --> 00:59:18,319

forbiddenknowledge.com or

1495

00:59:24,230 --> 00:59:20,339

forbiddenknowledge.tv where you can get

1496

00:59:26,750 --> 00:59:24,240

access to over 6 000 videos movies TV

1497

00:59:28,730 --> 00:59:26,760

series exclusive documentaries like the

1498

00:59:30,250 --> 00:59:28,740

Black Knight satellite you can do it all

1499

00:59:33,650 --> 00:59:30,260

for just

1500

00:59:36,109 --> 00:59:33,660

7.77 per month or seventy seven dollars

1501
00:59:38,210 --> 00:59:36,119
per year after the three-day trial which

1502
00:59:40,970 --> 00:59:38,220
is also totally free to check out it's

1503
00:59:42,849 --> 00:59:40,980
all simple to do Billy Carson is the

1504
00:59:45,190 --> 00:59:42,859
best it's simple

1505
00:59:47,510 --> 00:59:45,200
forbiddenknowledge.com or

1506
00:59:51,470 --> 00:59:47,520
forbiddenknowledge.tv that's the number

1507
00:59:55,849 --> 00:59:53,450
I will be hosting an M seeing the

1508
00:59:58,430 --> 00:59:55,859
conscious life Expo this February 10th

1509
01:00:01,370 --> 00:59:58,440
through the 13th at The Lax Hilton right

1510
01:00:03,470 --> 01:00:01,380
here in Los Angeles California 200

1511
01:00:05,569 --> 01:00:03,480
speakers including Linda Moulton Howe

1512
01:00:08,030 --> 01:00:05,579
Bashar Deborah King George Nori Daniel

1513
01:00:11,450 --> 01:00:08,040

Sheehan Scott Walter Sean Stone and

1514

01:00:15,289 --> 01:00:11,460

David Wolfe over 200 vendors special

1515

01:00:18,049 --> 01:00:15,299

events this is the biggest event of its

1516

01:00:20,030 --> 01:00:18,059

kind on planet Earth you've got to come

1517

01:00:22,730 --> 01:00:20,040

and hang out with all of us tickets and

1518

01:00:24,470 --> 01:00:22,740

info at consciouslifeexpo.com the links

1519

01:00:27,710 --> 01:00:24,480

are below

1520

01:00:30,829 --> 01:00:27,720

on Saturday April 1st that's right April

1521

01:00:33,049 --> 01:00:30,839

Fool's Day 2023 I will be hosting the

1522

01:00:36,530 --> 01:00:33,059

peripod festival at the Hyatt Regency

1523

01:00:38,990 --> 01:00:36,540

right here in Valencia California it's a

1524

01:00:42,049 --> 01:00:39,000

live one-day podcast Awards it's a film

1525

01:00:44,089 --> 01:00:42,059

festival it's a full-on media event

1526

01:00:45,950 --> 01:00:44,099

we're going to have Sky watching it's

1527

01:00:48,770 --> 01:00:45,960

going to be a Lifetime Achievement Award

1528

01:00:50,750 --> 01:00:48,780

presented to Linda Moulton Howe right

1529

01:00:52,789 --> 01:00:50,760

now you can submit your podcast to your

1530

01:00:55,549 --> 01:00:52,799

film your TV series any of your

1531

01:00:57,470 --> 01:00:55,559

paranormal media for consideration you

1532

01:01:00,670 --> 01:00:57,480

can do all of that on the links below

1533

01:01:02,569 --> 01:01:00,680

for info and tickets go to

1534

01:01:05,650 --> 01:01:02,579

parapodfilmfest.com that's

1535

01:01:11,329 --> 01:01:09,710

April 7th through the 14th 2023 I'll be

1536

01:01:14,270 --> 01:01:11,339

hosting and presenting on the hidden

1537

01:01:16,910 --> 01:01:14,280

secrets seminar at Sea cruise from Los

1538

01:01:19,250 --> 01:01:16,920

Angeles to the Mexican Riviera I'm the

1539

01:01:21,890 --> 01:01:19,260

Navigator of the Seas that's right up

1540

01:01:23,510 --> 01:01:21,900

top a giant water slide you've got to

1541

01:01:25,430 --> 01:01:23,520

check out the Navigator of the Seas it's

1542

01:01:27,829 --> 01:01:25,440

amazing we've got Scott Walter Adam

1543

01:01:30,710 --> 01:01:27,839

Apollo Nick Pope Brad Olson Vivian

1544

01:01:32,990 --> 01:01:30,720

Chauvet Jason sherka Robert Grant Reuben

1545

01:01:35,329 --> 01:01:33,000

Langdon and another 12 amazing speakers

1546

01:01:36,789 --> 01:01:35,339

and presenters it's all simple to do

1547

01:01:39,230 --> 01:01:36,799

just visit

1548

01:01:42,890 --> 01:01:39,240

divinetravels.com forward slash hidden

1549

01:01:45,170 --> 01:01:42,900

secrets 2023 you know you want to go on

1550

01:01:48,589 --> 01:01:45,180

a cruise with me

1551
01:01:51,410 --> 01:01:48,599
River Moon coffee makers of the Fade to

1552
01:01:53,230 --> 01:01:51,420
Black blend truly the best coffee on

1553
01:01:55,490 --> 01:01:53,240
planet Earth just visit

1554
01:01:57,349 --> 01:01:55,500
rivermoonwellness.com or their Amazon

1555
01:01:58,789 --> 01:01:57,359
store if it's all simple to do you can

1556
01:02:00,890 --> 01:01:58,799
check out the Fade to Black blend the

1557
01:02:03,530 --> 01:02:00,900
game changer Blend or any of their black

1558
01:02:07,250 --> 01:02:03,540
moon wellness products it's the only

1559
01:02:13,370 --> 01:02:07,260
coffee I drink it is the best and it's

1560
01:02:19,130 --> 01:02:15,890
all right welcome back I'm your host

1561
01:02:20,690 --> 01:02:19,140
Timmy church is it's uh an amazing

1562
01:02:25,010 --> 01:02:20,700
conversation we've got going on tonight

1563
01:02:28,549 --> 01:02:25,020

with Ryan Graves and uh I'm waiting uh

1564

01:02:31,309 --> 01:02:28,559

for Ryan uh to to come back and join us

1565

01:02:34,970 --> 01:02:31,319

here uh he's he's probably getting

1566

01:02:37,190 --> 01:02:34,980

coffee and uh he's on he's on the east

1567

01:02:39,710 --> 01:02:37,200

coast and what we're going to be talking

1568

01:02:43,569 --> 01:02:39,720

about next is uh two things we're going

1569

01:02:47,510 --> 01:02:43,579

to be talking about the ndaa uh for

1570

01:02:50,809 --> 01:02:47,520

2023. Ryan welcome back welcome back

1571

01:02:52,609 --> 01:02:50,819

um and of course the odni report now

1572

01:02:53,329 --> 01:02:52,619

Ryan there is

1573

01:02:55,309 --> 01:02:53,339

um

1574

01:02:57,829 --> 01:02:55,319

uh two points that that I want to make

1575

01:03:00,710 --> 01:02:57,839

here I'll do it very briefly that

1576

01:03:03,349 --> 01:03:00,720

historically speaking with the last uh

1577

01:03:06,049 --> 01:03:03,359

report that came out in August of last

1578

01:03:09,109 --> 01:03:06,059

year we got or now wait a minute is it

1579

01:03:12,109 --> 01:03:09,119

two years ago now or uh uh 2020 yeah

1580

01:03:14,150 --> 01:03:12,119

we're in 2023 right okay so we kind of

1581

01:03:18,650 --> 01:03:14,160

skipped uh a little bit there but anyway

1582

01:03:20,809 --> 01:03:18,660

the first report again focused uh sort

1583

01:03:23,690 --> 01:03:20,819

of and we're taking guesses here but

1584

01:03:27,109 --> 01:03:23,700

like from the Nimitz forward you know a

1585

01:03:29,470 --> 01:03:27,119

a modern historical context

1586

01:03:33,410 --> 01:03:29,480

um and in this report

1587

01:03:36,049 --> 01:03:33,420

uh you know focused on what has been

1588

01:03:38,690 --> 01:03:36,059

reported since the last report okay what

1589

01:03:41,450 --> 01:03:38,700

we're going to come back to that but I

1590

01:03:44,390 --> 01:03:41,460

now I want to talk about the ndaa

1591

01:03:46,309 --> 01:03:44,400

because there's a point in the ndaa

1592

01:03:48,530 --> 01:03:46,319

that's written into law that nobody else

1593

01:03:52,670 --> 01:03:48,540

is talking about I am

1594

01:03:56,289 --> 01:03:52,680

and that is uh written into law there is

1595

01:04:00,530 --> 01:03:56,299

a mandate that the dod and the odni

1596

01:04:03,549 --> 01:04:00,540

investigate all military reports going

1597

01:04:08,809 --> 01:04:03,559

back to January 1st

1598

01:04:10,089 --> 01:04:08,819

1945. that report by law is due in June

1599

01:04:15,950 --> 01:04:10,099

of

1600

01:04:18,049 --> 01:04:15,960

been there about these last two reports

1601
01:04:20,390 --> 01:04:18,059
being a modern historical military

1602
01:04:22,609 --> 01:04:20,400
perspective right

1603
01:04:27,530 --> 01:04:22,619
um and not looking at other historical

1604
01:04:31,309 --> 01:04:27,540
events uh in the past now that is is is

1605
01:04:33,829 --> 01:04:31,319
law how important is it that the OD and

1606
01:04:37,069 --> 01:04:33,839
I go back and and the Department of

1607
01:04:40,849 --> 01:04:37,079
Defense and and revisit their own

1608
01:04:44,569 --> 01:04:40,859
reporting on on UFOs well back then it

1609
01:04:46,549 --> 01:04:44,579
was UFOs from January 1st 1945

1610
01:04:48,170 --> 01:04:46,559
I mean it's incredibly important right

1611
01:04:49,549 --> 01:04:48,180
and I think it's

1612
01:04:51,109 --> 01:04:49,559
um I mean I think people have been

1613
01:04:53,329 --> 01:04:51,119

asking for this long before I've been

1614

01:04:54,710 --> 01:04:53,339

involved in this topic

1615

01:04:57,109 --> 01:04:54,720

um I think

1616

01:05:00,410 --> 01:04:58,789

I think it's I think it's a really

1617

01:05:02,870 --> 01:05:00,420

powerful statement

1618

01:05:04,849 --> 01:05:02,880

by Congress and by the people that uh

1619

01:05:07,130 --> 01:05:04,859

helped write this legislation to show

1620

01:05:09,109 --> 01:05:07,140

that they are serious about uh working

1621

01:05:11,690 --> 01:05:09,119

through this not just looking at it from

1622

01:05:14,349 --> 01:05:11,700

now but going through and uncovering the

1623

01:05:19,789 --> 01:05:14,359

skeletons to figure out what's going on

1624

01:05:22,670 --> 01:05:19,799

if we go back uh historically uh well it

1625

01:05:25,549 --> 01:05:22,680

uh it it's it's 40 years now it doesn't

1626

01:05:29,930 --> 01:05:25,559

it seems like yesterday but the Air

1627

01:05:31,789 --> 01:05:29,940

Force has their own case uh heavily

1628

01:05:35,630 --> 01:05:31,799

documented and I'm talking about

1629

01:05:40,069 --> 01:05:35,640

rendelshim in in the United Kingdom and

1630

01:05:43,190 --> 01:05:40,079

in 1980 right New Year's 1980 and those

1631

01:05:45,530 --> 01:05:43,200

Witnesses and and that paperwork is here

1632

01:05:48,470 --> 01:05:45,540

this that's a even though it's 40 years

1633

01:05:52,190 --> 01:05:48,480

old now you know time flies but it's a

1634

01:05:54,230 --> 01:05:52,200

modern case that the odni and the

1635

01:05:56,690 --> 01:05:54,240

Department of Defense can go back and

1636

01:06:00,650 --> 01:05:56,700

look at and those witnesses can be

1637

01:06:03,410 --> 01:06:00,660

brought forward should they hear from uh

1638

01:06:05,809 --> 01:06:03,420

one of their own cases uh an Air Force

1639

01:06:08,089 --> 01:06:05,819

case albeit in from the United Kingdom

1640

01:06:10,010 --> 01:06:08,099

but should those Witnesses come forward

1641

01:06:12,109 --> 01:06:10,020

and and speak about this

1642

01:06:16,010 --> 01:06:12,119

I well yeah I would I would encourage

1643

01:06:18,829 --> 01:06:16,020

them to and I think this um legislation

1644

01:06:21,230 --> 01:06:18,839

um enables them to do so

1645

01:06:23,809 --> 01:06:21,240

um it does provide a lot of protections

1646

01:06:24,470 --> 01:06:23,819

for people that do have

1647

01:06:26,150 --> 01:06:24,480

um

1648

01:06:29,450 --> 01:06:26,160

knowledge of

1649

01:06:32,089 --> 01:06:29,460

um illegal uh programs or programs that

1650

01:06:34,789 --> 01:06:32,099

have not conformed to proper reporting

1651
01:06:36,710 --> 01:06:34,799
mechanisms uh things of that nature and

1652
01:06:37,789 --> 01:06:36,720
so I think that will we're going to find

1653
01:06:40,069 --> 01:06:37,799
out

1654
01:06:41,569 --> 01:06:40,079
um they enter that question maybe not

1655
01:06:42,370 --> 01:06:41,579
whether they should but whether they

1656
01:06:44,270 --> 01:06:42,380
will

1657
01:06:45,950 --> 01:06:44,280
sometime in the near future at least

1658
01:06:48,230 --> 01:06:45,960
that's what this legislation will enable

1659
01:06:50,690 --> 01:06:48,240
and from what I've you know heard

1660
01:06:52,670 --> 01:06:50,700
through the chatter that's already begun

1661
01:06:54,470 --> 01:06:52,680
that process is already gone and there

1662
01:06:56,329 --> 01:06:54,480
have been individuals that have come

1663
01:06:59,809 --> 01:06:56,339

forward to communicate

1664

01:07:02,450 --> 01:06:59,819

um with through those proper channels to

1665

01:07:07,190 --> 01:07:02,460

tell what they have to tell were you

1666

01:07:10,190 --> 01:07:07,200

surprised at the the language uh from uh

1667

01:07:13,730 --> 01:07:10,200

representative uh Burchette

1668

01:07:16,549 --> 01:07:13,740

um he's upset right we've been lied to I

1669

01:07:18,289 --> 01:07:16,559

don't trust the government and uh we

1670

01:07:20,930 --> 01:07:18,299

we've got to get that we've got to find

1671

01:07:23,569 --> 01:07:20,940

out what uh the Department of Defense

1672

01:07:25,309 --> 01:07:23,579

knows we we need to get to the bottom of

1673

01:07:27,770 --> 01:07:25,319

this are you surprised to have an

1674

01:07:29,630 --> 01:07:27,780

elected official to step forward and and

1675

01:07:31,910 --> 01:07:29,640

put everything on the table like he has

1676

01:07:33,770 --> 01:07:31,920

if you asked me that a few years ago I

1677

01:07:35,690 --> 01:07:33,780

would say yes but frankly we've seen a

1678

01:07:37,789 --> 01:07:35,700

lot of electorate elected officials do

1679

01:07:40,250 --> 01:07:37,799

that he's been more you know a bit vocal

1680

01:07:42,109 --> 01:07:40,260

on it uh in one way but you know there's

1681

01:07:44,329 --> 01:07:42,119

been other ways that politicians have

1682

01:07:46,730 --> 01:07:44,339

kind of you know communicated on this

1683

01:07:49,190 --> 01:07:46,740

topic and you know that that's some very

1684

01:07:51,650 --> 01:07:49,200

senior uh members within this in our

1685

01:07:53,630 --> 01:07:51,660

service committee and and and Senate

1686

01:07:55,730 --> 01:07:53,640

Select Community on intelligence uh

1687

01:07:59,270 --> 01:07:55,740

putting you know putting these things in

1688

01:08:01,490 --> 01:07:59,280

motion uh and ensuring that um the dod

1689

01:08:05,029 --> 01:08:01,500

and the other entities that maybe in

1690

01:08:07,609 --> 01:08:05,039

involves our our under you know are

1691

01:08:09,289 --> 01:08:07,619

being pursued so that we can put this to

1692

01:08:11,569 --> 01:08:09,299

rest one way or another

1693

01:08:13,430 --> 01:08:11,579

are they uh I'm talking about Capitol

1694

01:08:15,470 --> 01:08:13,440

Hill are they in communication with you

1695

01:08:17,329 --> 01:08:15,480

do you have open lines of communication

1696

01:08:19,430 --> 01:08:17,339

are they reaching out

1697

01:08:21,050 --> 01:08:19,440

I wouldn't describe it in that

1698

01:08:23,749 --> 01:08:21,060

necessarily manner I mean I've reached

1699

01:08:25,010 --> 01:08:23,759

out to them and I've I've especially I

1700

01:08:26,990 --> 01:08:25,020

would say over the past year I've

1701

01:08:28,249 --> 01:08:27,000

reached out a lot maybe a year and a

1702

01:08:30,590 --> 01:08:28,259

half

1703

01:08:33,289 --> 01:08:30,600

um and that you know that goes you know

1704

01:08:34,309 --> 01:08:33,299

for a lot of people related to this

1705

01:08:37,070 --> 01:08:34,319

topic

1706

01:08:39,229 --> 01:08:37,080

um you know I've been communicating uh

1707

01:08:42,590 --> 01:08:39,239

to NASA on this topic and communicating

1708

01:08:43,910 --> 01:08:42,600

uh on the hill and I I they're listening

1709

01:08:46,130 --> 01:08:43,920

but I don't they're not necessarily

1710

01:08:47,390 --> 01:08:46,140

seeking me out for for my advice at this

1711

01:08:49,910 --> 01:08:47,400

point

1712

01:08:52,010 --> 01:08:49,920

um I know that uh uh you know because of

1713

01:08:53,930 --> 01:08:52,020

your engineering background

1714

01:08:56,870 --> 01:08:53,940

um and your interest in science and

1715

01:09:00,590 --> 01:08:56,880

engineering when you have somebody like

1716

01:09:02,930 --> 01:09:00,600

Avi Loeb you know from Harvard uh also

1717

01:09:06,289 --> 01:09:02,940

you know break ranks uh wrote an

1718

01:09:07,910 --> 01:09:06,299

Incredible Book uh extraterrestrial and

1719

01:09:10,130 --> 01:09:07,920

he's been a guest on the show many times

1720

01:09:12,470 --> 01:09:10,140

and I've had dinner with them right I've

1721

01:09:15,890 --> 01:09:12,480

sat and just listen and when you're

1722

01:09:18,410 --> 01:09:15,900

around somebody that intelligent that uh

1723

01:09:20,329 --> 01:09:18,420

can speak in another their language that

1724

01:09:21,590 --> 01:09:20,339

you and I know very little about if you

1725

01:09:26,749 --> 01:09:21,600

know what I mean

1726

01:09:29,809 --> 01:09:26,759

but he is absolutely convinced that the

1727

01:09:33,349 --> 01:09:29,819

possibility is real and that we need to

1728

01:09:36,590 --> 01:09:33,359

apply the science here we need to to to

1729

01:09:40,010 --> 01:09:36,600

get focused and that seems to be where

1730

01:09:43,669 --> 01:09:40,020

we are today when you look at the odni

1731

01:09:45,769 --> 01:09:43,679

report and the the conversation from the

1732

01:09:47,749 --> 01:09:45,779

military is we don't know what's going

1733

01:09:49,849 --> 01:09:47,759

on but we've got to look at the data

1734

01:09:53,329 --> 01:09:49,859

we've got to start applying the science

1735

01:09:55,910 --> 01:09:53,339

do we need that cooperation from from

1736

01:09:57,590 --> 01:09:55,920

universities and from scientists and

1737

01:09:59,150 --> 01:09:57,600

from the Department of Defense and all

1738

01:10:00,709 --> 01:09:59,160

get on the same page to try to figure

1739

01:10:03,410 --> 01:10:00,719

out what's going on

1740

01:10:06,650 --> 01:10:03,420

I think generally yes I think we're

1741

01:10:08,689 --> 01:10:06,660

we're seeing that form up in in a lot of

1742

01:10:10,790 --> 01:10:08,699

ways and you know I've seen the term

1743

01:10:13,189 --> 01:10:10,800

whole of government approach I've seen

1744

01:10:15,350 --> 01:10:13,199

emerging National effort I've seen those

1745

01:10:16,970 --> 01:10:15,360

terms be be thrown around because that's

1746

01:10:19,729 --> 01:10:16,980

that's essentially what we are seeing

1747

01:10:20,450 --> 01:10:19,739

and we're seeing that essentially

1748

01:10:23,149 --> 01:10:20,460

um

1749

01:10:26,570 --> 01:10:23,159

being headquartered within the dod now

1750

01:10:28,790 --> 01:10:26,580

but the the era office has has fingers

1751

01:10:30,890 --> 01:10:28,800

out and is is able to coordinate with

1752

01:10:32,689 --> 01:10:30,900

other uh government agencies and things

1753

01:10:35,390 --> 01:10:32,699

of that nature to bring in the proper

1754

01:10:37,970 --> 01:10:35,400

resources that they need in order to

1755

01:10:39,830 --> 01:10:37,980

continue this conversation uh but I

1756

01:10:42,350 --> 01:10:39,840

don't think that necessarily means that

1757

01:10:43,930 --> 01:10:42,360

we have to necessarily depend on the

1758

01:10:45,830 --> 01:10:43,940

government to lead that conversation

1759

01:10:47,990 --> 01:10:45,840

we're at a point where the

1760

01:10:50,810 --> 01:10:48,000

democratization of technology is such

1761

01:10:54,110 --> 01:10:50,820

that I think it is possible for us to

1762

01:10:56,510 --> 01:10:54,120

achieve our own data sets it is possible

1763

01:10:59,149 --> 01:10:56,520

for organizations outside of the

1764

01:11:01,070 --> 01:10:59,159

government to move the conversation and

1765

01:11:02,810 --> 01:11:01,080

afford and I think of course the

1766

01:11:05,209 --> 01:11:02,820

government can probably throw jet fuel

1767

01:11:06,649 --> 01:11:05,219

on that due to the the data sets and the

1768

01:11:09,229 --> 01:11:06,659

sensor systems that they have available

1769

01:11:10,729 --> 01:11:09,239

but of course that's not always going to

1770

01:11:12,410 --> 01:11:10,739

be what they can do due to national

1771

01:11:14,689 --> 01:11:12,420

security reasons and things of that

1772

01:11:16,850 --> 01:11:14,699

nature and sometimes it's just simply

1773

01:11:18,890 --> 01:11:16,860

not the thing that's being observed or

1774

01:11:20,990 --> 01:11:18,900

the conclusion that you would draw from

1775

01:11:22,790 --> 01:11:21,000

seeing it but rather the fact that you

1776

01:11:23,990 --> 01:11:22,800

can even see it or the the fact that

1777

01:11:25,970 --> 01:11:24,000

you're seeing it at a certain location

1778

01:11:28,010 --> 01:11:25,980

right just makes it so that you just

1779

01:11:29,570 --> 01:11:28,020

can't declassify the information even if

1780

01:11:31,010 --> 01:11:29,580

you want to just because it does have

1781

01:11:32,870 --> 01:11:31,020

real world political you know

1782

01:11:36,830 --> 01:11:32,880

International

1783

01:11:37,729 --> 01:11:36,840

um uh geopolitical consequences

1784

01:11:39,709 --> 01:11:37,739

um

1785

01:11:41,750 --> 01:11:39,719

and uh

1786

01:11:44,510 --> 01:11:41,760

but but let me just say let me add this

1787

01:11:46,790 --> 01:11:44,520

but so so how do we do that right like

1788

01:11:49,010 --> 01:11:46,800

we understand what sensors could be

1789

01:11:50,930 --> 01:11:49,020

available to understand these right we

1790

01:11:53,149 --> 01:11:50,940

we are we we understand we can see them

1791

01:11:55,550 --> 01:11:53,159

with an apg-79 radar right that tells us

1792

01:11:56,930 --> 01:11:55,560

something and we can continue to build

1793

01:12:01,010 --> 01:11:56,940

on that

1794

01:12:02,630 --> 01:12:01,020

um what I I'm at the so I leave an

1795

01:12:04,790 --> 01:12:02,640

organization at the American Institute

1796

01:12:07,370 --> 01:12:04,800

of Aeronautics and astronautics uh

1797

01:12:09,110 --> 01:12:07,380

called the the unidentified anomalous uh

1798

01:12:10,550 --> 01:12:09,120

phenomenon integration Outreach

1799

01:12:14,350 --> 01:12:10,560

committee and it's a permanent committee

1800

01:12:16,850 --> 01:12:14,360

within the aiaa or called AIA

1801
01:12:18,770 --> 01:12:16,860
it's a permanent committee within that

1802
01:12:21,169 --> 01:12:18,780
Professional Organization that's made up

1803
01:12:23,030 --> 01:12:21,179
of aerospace engineers and aeronautical

1804
01:12:25,010 --> 01:12:23,040
engineers and

1805
01:12:27,709 --> 01:12:25,020
um physicists and everything across the

1806
01:12:29,510 --> 01:12:27,719
spectrum that essentially creates and

1807
01:12:31,430 --> 01:12:29,520
builds objects in the air and space

1808
01:12:34,189 --> 01:12:31,440
which includes a large portion of our

1809
01:12:35,930 --> 01:12:34,199
defense base and within that

1810
01:12:37,729 --> 01:12:35,940
organization that's one of the efforts

1811
01:12:39,649 --> 01:12:37,739
that we're undertaking is we're putting

1812
01:12:41,990 --> 01:12:39,659
together documentation that describe

1813
01:12:44,090 --> 01:12:42,000

bribes the detection the

1814

01:12:45,590 --> 01:12:44,100

characterization the valuation of these

1815

01:12:47,510 --> 01:12:45,600

objects using different sensing

1816

01:12:49,070 --> 01:12:47,520

phenomenologies and frequencies and

1817

01:12:51,470 --> 01:12:49,080

methodologies and that different

1818

01:12:52,850 --> 01:12:51,480

locations and things of that nature and

1819

01:12:54,790 --> 01:12:52,860

that'll be a document that we'll be

1820

01:12:57,410 --> 01:12:54,800

putting out to the entire Aerospace

1821

01:13:00,050 --> 01:12:57,420

industry that will be reviewed and

1822

01:13:02,090 --> 01:13:00,060

updated yearly so that we can then build

1823

01:13:03,830 --> 01:13:02,100

technology and expand our data sets

1824

01:13:06,470 --> 01:13:03,840

right we can do the science and we can

1825

01:13:08,570 --> 01:13:06,480

gather more data and Advance the topic

1826

01:13:12,590 --> 01:13:08,580

would it surprise you or the other

1827

01:13:15,590 --> 01:13:12,600

members of the aiaa AI double A

1828

01:13:16,910 --> 01:13:15,600

that some of these conclusions will come

1829

01:13:19,070 --> 01:13:16,920

to

1830

01:13:21,830 --> 01:13:19,080

it it's coming from out there it's not

1831

01:13:26,390 --> 01:13:21,840

from Earth this is extraterrestrial we

1832

01:13:28,729 --> 01:13:26,400

are being visited would you be surprised

1833

01:13:31,189 --> 01:13:28,739

I think it's it's almost hard not to be

1834

01:13:32,810 --> 01:13:31,199

surprised even if you were 100 expecting

1835

01:13:34,790 --> 01:13:32,820

it in some sense but yeah I mean I I

1836

01:13:36,350 --> 01:13:34,800

would say I'm not surprised we were very

1837

01:13:37,850 --> 01:13:36,360

open to that possibility but we're

1838

01:13:39,649 --> 01:13:37,860

approaching it very neutrally and

1839

01:13:43,250 --> 01:13:39,659

scientifically focused and so we're not

1840

01:13:44,870 --> 01:13:43,260

you know we're not the necessarily you

1841

01:13:46,370 --> 01:13:44,880

know driving towards any one conclusion

1842

01:13:47,810 --> 01:13:46,380

in any sense we're just trying to follow

1843

01:13:50,990 --> 01:13:47,820

the data

1844

01:13:53,750 --> 01:13:51,000

and uh

1845

01:13:56,510 --> 01:13:53,760

I'm so with you on that

1846

01:14:00,050 --> 01:13:56,520

um I had uh the the show wasn't about me

1847

01:14:02,330 --> 01:14:00,060

it's about you but um I was sitting

1848

01:14:04,370 --> 01:14:02,340

with uh Steve Murillo the pilot that I

1849

01:14:07,130 --> 01:14:04,380

was uh telling you about earlier but

1850

01:14:09,830 --> 01:14:07,140

sitting next to each other and we see I

1851

01:14:12,290 --> 01:14:09,840

see 14 miles away behind this mountain

1852

01:14:14,270 --> 01:14:12,300

this object comes out and it's ginormous

1853

01:14:16,729 --> 01:14:14,280

I've got binoculars and I'm looking at

1854

01:14:20,030 --> 01:14:16,739

Birds I didn't you know when you least

1855

01:14:23,689 --> 01:14:20,040

expect it right okay and uh this thing

1856

01:14:26,209 --> 01:14:23,699

uh was was uh spinning it was like a

1857

01:14:28,370 --> 01:14:26,219

beer can it's probably 400 feet tall

1858

01:14:30,350 --> 01:14:28,380

it's 14 miles away it comes out behind

1859

01:14:32,930 --> 01:14:30,360

this mountain it's like this spinning

1860

01:14:35,810 --> 01:14:32,940

across the sky we all see it

1861

01:14:38,450 --> 01:14:35,820

and uh lasted for about 10 seconds

1862

01:14:42,290 --> 01:14:38,460

middle of the day right this wasn't

1863

01:14:44,570 --> 01:14:42,300

sensor data it's my eyeballs right and I

1864

01:14:47,570 --> 01:14:44,580

see I'm just completely confused and the

1865

01:14:50,630 --> 01:14:47,580

excitement and everybody's screaming and

1866

01:14:51,590 --> 01:14:50,640

uh trying to get video and and Camp the

1867

01:14:54,410 --> 01:14:51,600

point is

1868

01:14:56,689 --> 01:14:54,420

10 seconds later as I you know and I go

1869

01:14:59,689 --> 01:14:56,699

back to the Steve sitting next to me

1870

01:15:01,390 --> 01:14:59,699

says and it's on video it phased out

1871

01:15:03,470 --> 01:15:01,400

it's gone

1872

01:15:06,169 --> 01:15:03,480

and I'm thinking about wait wait wait

1873

01:15:08,030 --> 01:15:06,179

wait it was here right in the middle of

1874

01:15:11,810 --> 01:15:08,040

the blue sky right

1875

01:15:13,430 --> 01:15:11,820

gone I didn't see it disappear I almost

1876

01:15:15,470 --> 01:15:13,440

wish I would have seen it disappear

1877

01:15:18,229 --> 01:15:15,480

instead of appear that would have been

1878

01:15:20,810 --> 01:15:18,239

more fascinating to me but I haven't

1879

01:15:23,510 --> 01:15:20,820

come to any conclusions on that you know

1880

01:15:25,850 --> 01:15:23,520

what what do I draw from that what do I

1881

01:15:27,470 --> 01:15:25,860

draw us or them well

1882

01:15:29,450 --> 01:15:27,480

doesn't look like anything I've ever

1883

01:15:31,310 --> 01:15:29,460

seen before but I can't come to a

1884

01:15:32,870 --> 01:15:31,320

conclusion and I saw this in the middle

1885

01:15:35,149 --> 01:15:32,880

of the day it was like the Holy Grail

1886

01:15:38,090 --> 01:15:35,159

sighting but I still don't know what I

1887

01:15:41,270 --> 01:15:38,100

saw yeah yeah it's that's what makes it

1888

01:15:43,669 --> 01:15:41,280

so difficult I mean it just this weird

1889

01:15:45,950 --> 01:15:43,679

black hole of context in a sense you

1890

01:15:47,870 --> 01:15:45,960

know that makes it so difficult your

1891

01:15:49,729 --> 01:15:47,880

brain almost you know I imagine searches

1892

01:15:51,590 --> 01:15:49,739

to try to recognize something that

1893

01:15:53,570 --> 01:15:51,600

you're familiar with and and to

1894

01:15:55,790 --> 01:15:53,580

contextualize it in your environment and

1895

01:15:58,630 --> 01:15:55,800

when you can't find that

1896

01:16:03,169 --> 01:15:58,640

um there would be be very unsettling

1897

01:16:07,430 --> 01:16:03,179

the uh uh the odni report combined with

1898

01:16:11,870 --> 01:16:07,440

the ndaa uh has a lot of very specific

1899

01:16:14,810 --> 01:16:11,880

language in there and uh we have uh

1900

01:16:17,810 --> 01:16:14,820

trans medium very crazy word to suddenly

1901

01:16:21,110 --> 01:16:17,820

be thrown out there UAP in general is is

1902

01:16:24,890 --> 01:16:21,120

is just an unusual thing to be

1903

01:16:28,370 --> 01:16:24,900

um in placed into budgets right yeah

1904

01:16:30,410 --> 01:16:28,380

um uh but but the other part is uh the

1905

01:16:32,870 --> 01:16:30,420

the protection the so-called

1906

01:16:34,689 --> 01:16:32,880

whistleblower protection but also the

1907

01:16:38,450 --> 01:16:34,699

mention of health effects

1908

01:16:41,630 --> 01:16:38,460

and when we have that in the ndaa it

1909

01:16:45,830 --> 01:16:41,640

seems to me and this is the question do

1910

01:16:49,430 --> 01:16:45,840

they have evidence of of of service men

1911

01:16:52,070 --> 01:16:49,440

and women being affected health-wise by

1912

01:16:54,770 --> 01:16:52,080

uaps therefore the language needs to be

1913

01:16:57,410 --> 01:16:54,780

in there because of what has been going

1914

01:17:01,430 --> 01:16:57,420

on in the past why do you think that was

1915

01:17:03,410 --> 01:17:01,440

so specific in the ndaa I think that's a

1916

01:17:05,870 --> 01:17:03,420

I think that's a very reasonable uh

1917

01:17:07,610 --> 01:17:05,880

conclusion that you're drawing Jimmy

1918

01:17:09,649 --> 01:17:07,620

um you know I would I would I would

1919

01:17:11,450 --> 01:17:09,659

encourage people to you know listen to

1920

01:17:13,550 --> 01:17:11,460

Gary Nolan's statements on that I

1921

01:17:15,890 --> 01:17:13,560

imagine that um the work that he was

1922

01:17:18,530 --> 01:17:15,900

involved in that area

1923

01:17:21,470 --> 01:17:18,540

um probably uh had a hand in in that

1924

01:17:24,290 --> 01:17:21,480

legislation yeah yeah he was on the show

1925

01:17:27,290 --> 01:17:24,300

a couple of weeks ago

1926

01:17:29,689 --> 01:17:27,300

um very fascinating uh Insight on all of

1927

01:17:32,030 --> 01:17:29,699

this and the other part is the

1928

01:17:35,270 --> 01:17:32,040

transmedium aspect

1929

01:17:38,270 --> 01:17:35,280

um which would again suggest to me

1930

01:17:40,910 --> 01:17:38,280

that they have seen when I say they

1931

01:17:44,270 --> 01:17:40,920

right they have the data collection

1932

01:17:48,290 --> 01:17:44,280

there of of stuff coming in and out of

1933

01:17:51,050 --> 01:17:48,300

the water and uh that I I know that you

1934

01:17:53,390 --> 01:17:51,060

didn't necessarily see this but it's

1935

01:17:56,570 --> 01:17:53,400

written into the legislation which says

1936

01:17:59,510 --> 01:17:56,580

that this has been going on uh with

1937

01:18:02,030 --> 01:17:59,520

military reporting in the past

1938

01:18:04,370 --> 01:18:02,040

yeah you know from the F-18 we're not

1939

01:18:06,850 --> 01:18:04,380

well equipped to make that assessment if

1940

01:18:10,490 --> 01:18:06,860

something is traversing into the water

1941

01:18:12,770 --> 01:18:10,500

as an object on our radar gets close to

1942

01:18:15,890 --> 01:18:12,780

the surface of the water that becomes

1943

01:18:18,410 --> 01:18:15,900

more difficult for a radar to maintain

1944

01:18:20,149 --> 01:18:18,420

um and so you could see it just fall out

1945

01:18:22,669 --> 01:18:20,159

you know just disappear you know does

1946

01:18:23,510 --> 01:18:22,679

that mean it went into the water

1947

01:18:25,250 --> 01:18:23,520

um you know

1948

01:18:27,350 --> 01:18:25,260

we just don't have the systems to really

1949

01:18:29,750 --> 01:18:27,360

provide that that layer of context

1950

01:18:31,310 --> 01:18:29,760

around around that now the only way we'd

1951

01:18:33,050 --> 01:18:31,320

really be able to tell is if we were in

1952

01:18:35,090 --> 01:18:33,060

like a Dave fraver situation where he

1953

01:18:38,090 --> 01:18:35,100

was so close he could visually see it

1954

01:18:40,850 --> 01:18:38,100

and it was maneuvering real time and you

1955

01:18:43,490 --> 01:18:40,860

saw that happen but again we operate

1956

01:18:47,930 --> 01:18:43,500

under such vast air spaces and distances

1957

01:18:48,590 --> 01:18:47,940

from you know 30 000 feet down that it's

1958

01:18:50,630 --> 01:18:48,600

um

1959

01:18:51,830 --> 01:18:50,640

it would be a pretty rare scenario to

1960

01:18:53,270 --> 01:18:51,840

see something like that but then again

1961

01:18:55,189 --> 01:18:53,280

then you have the you know the video

1962

01:18:56,930 --> 01:18:55,199

like the Gimbal and the go fast and you

1963

01:18:58,729 --> 01:18:56,940

know you could you could imagine a

1964

01:19:00,910 --> 01:18:58,739

scenario where you could might catch

1965

01:19:03,709 --> 01:19:00,920

something if the conditions are right

1966

01:19:05,570 --> 01:19:03,719

uh but they have like ships right and

1967

01:19:07,130 --> 01:19:05,580

then right but here's where okay so

1968

01:19:10,370 --> 01:19:07,140

here's where probably the real answer

1969

01:19:12,649 --> 01:19:10,380

lies which is okay there's other and I

1970

01:19:15,530 --> 01:19:12,659

can't get down this too much but a lot

1971

01:19:17,209 --> 01:19:15,540

of a lot of in the in the air uh our

1972

01:19:19,550 --> 01:19:17,219

sensors get linked through a data link

1973

01:19:21,410 --> 01:19:19,560

right and so what you'd want to do is

1974

01:19:23,209 --> 01:19:21,420

have sensors that you know look below

1975

01:19:24,830 --> 01:19:23,219

the water and elsewhere and if all that

1976

01:19:26,689 --> 01:19:24,840

information is in the same data link

1977

01:19:29,630 --> 01:19:26,699

then you'd have one combined picture of

1978

01:19:31,610 --> 01:19:29,640

where those things were a submarine

1979

01:19:33,530 --> 01:19:31,620

would would help well you'd need you

1980

01:19:35,750 --> 01:19:33,540

need sensors uh complete sensor grid

1981

01:19:38,209 --> 01:19:35,760

essentially right right right yeah right

1982

01:19:39,830 --> 01:19:38,219

right right right which I'm not saying

1983

01:19:41,930 --> 01:19:39,840

we don't have I'm just saying I don't we

1984

01:19:43,630 --> 01:19:41,940

can you know it's not detailed initially

1985

01:19:49,010 --> 01:19:43,640

go into

1986

01:19:53,950 --> 01:19:49,020

the uh the comments from the New York

1987

01:19:58,490 --> 01:19:53,960

Times uh going back to 2017 2018 2019

1988

01:20:01,490 --> 01:19:58,500

2020 uh there was uh another excellent

1989

01:20:03,709 --> 01:20:01,500

report from uh uh article from Ralph uh

1990

01:20:06,110 --> 01:20:03,719

Blumenthal and Leslie Kane who's going

1991

01:20:10,130 --> 01:20:06,120

to be joining us next week

1992

01:20:11,810 --> 01:20:10,140

um and in that article buried down at

1993

01:20:13,010 --> 01:20:11,820

the bottom and I know that you've seen

1994

01:20:15,110 --> 01:20:13,020

it and you probably know where I'm going

1995

01:20:18,350 --> 01:20:15,120

but down at the bottom there's a comment

1996

01:20:22,669 --> 01:20:18,360

there a quote attributed uh to uh Dr

1997

01:20:26,750 --> 01:20:22,679

Eric Davis where he says uh he briefed

1998

01:20:30,110 --> 01:20:26,760

uh the Senate uh in a classified setting

1999

01:20:33,770 --> 01:20:30,120

that we are in possession of a craft

2000

01:20:37,070 --> 01:20:33,780

right and not made of this Earth full

2001

01:20:40,130 --> 01:20:37,080

stop right that's the quote and what

2002

01:20:42,410 --> 01:20:40,140

what do we what do we do with that the

2003

01:20:44,090 --> 01:20:42,420

New York Times is vetting their sources

2004

01:20:46,070 --> 01:20:44,100

right they're not going to put something

2005

01:20:49,130 --> 01:20:46,080

like that in print unless they're pretty

2006

01:20:50,510 --> 01:20:49,140

confident that this was real and was

2007

01:20:52,850 --> 01:20:50,520

actually said

2008

01:20:55,250 --> 01:20:52,860

do you think that we are actually in

2009

01:20:58,010 --> 01:20:55,260

possession of of a craft not of this

2010

01:21:00,410 --> 01:20:58,020

Earth and and we're backwards

2011

01:21:03,890 --> 01:21:00,420

engineering it if we take Eric Davis at

2012

01:21:05,390 --> 01:21:03,900

his word if we take Eric Davis has word

2013

01:21:08,390 --> 01:21:05,400

um then we would have to make that

2014

01:21:10,130 --> 01:21:08,400

assumption uh I think you know even

2015

01:21:11,990 --> 01:21:10,140

outside of that if we look where we are

2016

01:21:14,270 --> 01:21:12,000

with the amount of effort and

2017

01:21:16,610 --> 01:21:14,280

legislation that's been put into in the

2018

01:21:18,470 --> 01:21:16,620

specific language in that legislation I

2019

01:21:20,630 --> 01:21:18,480

think it becomes clear that you know

2020

01:21:22,130 --> 01:21:20,640

that type of briefing seems like it

2021

01:21:24,470 --> 01:21:22,140

could be the impetus for something like

2022

01:21:26,570 --> 01:21:24,480

this like this type of legislation so

2023

01:21:28,790 --> 01:21:26,580

yeah that seems like a very logical

2024

01:21:30,110 --> 01:21:28,800

clean conclusion about what happened and

2025

01:21:33,410 --> 01:21:30,120

where we are today

2026

01:21:35,570 --> 01:21:33,420

the um uh and and staying on this for a

2027

01:21:37,910 --> 01:21:35,580

second and I know that you have looked

2028

01:21:40,669 --> 01:21:37,920

into all of this I just want uh your

2029

01:21:43,669 --> 01:21:40,679

your input when we look at stuff like

2030

01:21:46,070 --> 01:21:43,679

that where Eric is referring to a

2031

01:21:49,250 --> 01:21:46,080

special assets Access program that is

2032

01:21:50,750 --> 01:21:49,260

outside of you know once it's gone that

2033

01:21:54,229 --> 01:21:50,760

money and everything else that's it

2034

01:21:56,870 --> 01:21:54,239

that's private uh corporation uh no foia

2035

01:21:59,689 --> 01:21:56,880

right no Freedom of Information Act no

2036

01:22:02,209 --> 01:21:59,699

document numbers nothing like that and

2037

01:22:05,090 --> 01:22:02,219

this is also out of sight of of Congress

2038

01:22:08,450 --> 01:22:05,100

and and those that are uh writing the

2039

01:22:11,290 --> 01:22:08,460

checks is is that if that is indeed

2040

01:22:14,030 --> 01:22:11,300

going on taking Eric Davis at his word

2041

01:22:15,770 --> 01:22:14,040

then those on Capitol Hill are asking

2042

01:22:18,890 --> 01:22:15,780

questions about things that they have

2043

01:22:20,810 --> 01:22:18,900

absolutely no idea about programs that

2044

01:22:22,669 --> 01:22:20,820

are going on it does that seem to be the

2045

01:22:24,890 --> 01:22:22,679

case well that would be that would be

2046

01:22:26,390 --> 01:22:24,900

the error that uh the whistleblowers

2047

01:22:27,530 --> 01:22:26,400

that would be the law that the

2048

01:22:30,050 --> 01:22:27,540

whistleblowers be blowing against

2049

01:22:32,030 --> 01:22:30,060

essentially is that these these uh

2050

01:22:34,790 --> 01:22:32,040

programs that are will be held under

2051

01:22:36,530 --> 01:22:34,800

defense contractors are not legal

2052

01:22:38,030 --> 01:22:36,540

because they are not adhering to the

2053

01:22:40,970 --> 01:22:38,040

proper reporting channels through

2054

01:22:42,830 --> 01:22:40,980

Congress and Senate and so that is the

2055

01:22:47,450 --> 01:22:42,840

whistle that is being blown essentially

2056

01:22:49,910 --> 01:22:47,460

uh and so one one potential uh thought

2057

01:22:51,410 --> 01:22:49,920

is that uh well you enter these programs

2058

01:22:53,510 --> 01:22:51,420

and even though yes they are illegal

2059

01:22:55,130 --> 01:22:53,520

these people are signing ndas and things

2060

01:22:56,990 --> 01:22:55,140

of that nature and so they don't feel

2061

01:22:58,669 --> 01:22:57,000

that they can speak about it still

2062

01:23:00,590 --> 01:22:58,679

there's still fear for their career and

2063

01:23:02,209 --> 01:23:00,600

things of that nature or losing you know

2064

01:23:04,490 --> 01:23:02,219

whatever clearance they have or their

2065

01:23:05,770 --> 01:23:04,500

profession and so these type of

2066

01:23:09,110 --> 01:23:05,780

whistleblower

2067

01:23:11,390 --> 01:23:09,120

laws enable people not only in the

2068

01:23:13,669 --> 01:23:11,400

military DOD but specifically within the

2069

01:23:15,250 --> 01:23:13,679

defense uh world the civilian World

2070

01:23:18,709 --> 01:23:15,260

commercial world

2071

01:23:20,990 --> 01:23:18,719

to break those ndas it specifically

2072

01:23:22,910 --> 01:23:21,000

calls out the ability to to violate

2073

01:23:24,770 --> 01:23:22,920

those ndas in order to report illegal

2074

01:23:26,810 --> 01:23:24,780

programs and there's a secure process

2075

01:23:29,990 --> 01:23:26,820

that's being created that goes all the

2076
01:23:32,689 --> 01:23:30,000
way through to Congress and the Senate

2077
01:23:34,189 --> 01:23:32,699
that elucidates what uh what those

2078
01:23:35,510 --> 01:23:34,199
people are reporting there's a secure

2079
01:23:38,990 --> 01:23:35,520
Channel there to get that information

2080
01:23:40,910 --> 01:23:39,000
forward uh so the these these things are

2081
01:23:43,189 --> 01:23:40,920
still it's not a declassification

2082
01:23:44,810 --> 01:23:43,199
process here it's still it's still a

2083
01:23:47,450 --> 01:23:44,820
secure process it's still these are

2084
01:23:48,770 --> 01:23:47,460
still Secrets uh but it is a process of

2085
01:23:51,410 --> 01:23:48,780
bringing forward those potentially

2086
01:23:53,689 --> 01:23:51,420
illegal programs and if those

2087
01:23:55,850 --> 01:23:53,699
whistleblowers are uh if there's any

2088
01:23:57,770 --> 01:23:55,860

type of Retribution what those laws do

2089

01:24:01,310 --> 01:23:57,780

is they remove the

2090

01:24:03,470 --> 01:24:01,320

um the uh litigation caps for The

2091

01:24:05,090 --> 01:24:03,480

Whistleblower from 300 000 to an

2092

01:24:07,490 --> 01:24:05,100

unlimited amount of money that they

2093

01:24:10,010 --> 01:24:07,500

could sue their employer for uh if they

2094

01:24:11,990 --> 01:24:10,020

were to be fired or something for for

2095

01:24:14,270 --> 01:24:12,000

whistleblowing and there's there's many

2096

01:24:17,050 --> 01:24:14,280

other little nuances in that as well

2097

01:24:21,110 --> 01:24:17,060

would it uh uh

2098

01:24:24,649 --> 01:24:21,120

some things have to be secret have to be

2099

01:24:29,450 --> 01:24:24,659

right I get that I totally understand

2100

01:24:31,729 --> 01:24:29,460

but if if there is an alien craft right

2101

01:24:33,709 --> 01:24:31,739

that is sitting in a hangar you know

2102

01:24:35,270 --> 01:24:33,719

down the street from my house is that

2103

01:24:40,250 --> 01:24:35,280

something that the public should know

2104

01:24:42,050 --> 01:24:40,260

about or should that just be kept secret

2105

01:24:43,729 --> 01:24:42,060

well I think that's too big of a

2106

01:24:46,310 --> 01:24:43,739

question for me because that that I

2107

01:24:49,729 --> 01:24:46,320

think depends on very many factors you

2108

01:24:51,770 --> 01:24:49,739

know geopolitically as well as morally

2109

01:24:53,930 --> 01:24:51,780

um I think generally I heir to the side

2110

01:24:56,870 --> 01:24:53,940

of Truth and transparency on this topic

2111

01:24:58,370 --> 01:24:56,880

but at the end of the day you know we

2112

01:25:00,050 --> 01:24:58,380

have to consider the fact that there's

2113

01:25:02,030 --> 01:25:00,060

people in this world that would very

2114

01:25:04,550 --> 01:25:02,040

much use that type of stuff for for

2115

01:25:07,850 --> 01:25:04,560

negative gain or to her you know the

2116

01:25:11,270 --> 01:25:07,860

Western World and as much as I I support

2117

01:25:13,970 --> 01:25:11,280

the open truth of this topic uh only so

2118

01:25:15,410 --> 01:25:13,980

much that uh we don't uh hurt America in

2119

01:25:18,410 --> 01:25:15,420

the process

2120

01:25:21,110 --> 01:25:18,420

I see I'm I'm a bird you and I this is

2121

01:25:22,970 --> 01:25:21,120

where you and I agree right and I don't

2122

01:25:26,390 --> 01:25:22,980

want to it's like I want to get to the

2123

01:25:27,890 --> 01:25:26,400

answers right I I truly do but at the

2124

01:25:29,810 --> 01:25:27,900

end of the day sometimes I need to sit

2125

01:25:32,149 --> 01:25:29,820

back and go you know maybe just maybe

2126

01:25:35,810 --> 01:25:32,159

maybe we don't need to know right maybe

2127

01:25:38,870 --> 01:25:35,820

we don't need them to know that we know

2128

01:25:40,729 --> 01:25:38,880

and I'm talking about uh you know Russia

2129

01:25:41,590 --> 01:25:40,739

and China

2130

01:25:45,410 --> 01:25:41,600

um

2131

01:25:47,689 --> 01:25:45,420

it's a weird position uh to be in do we

2132

01:25:48,530 --> 01:25:47,699

want these answers yeah I think that we

2133

01:25:53,510 --> 01:25:48,540

do

2134

01:25:57,110 --> 01:25:53,520

know sometimes we might want to just

2135

01:26:00,229 --> 01:25:57,120

think about this uh a little bit more

2136

01:26:03,050 --> 01:26:00,239

thoroughly before uh we we open up that

2137

01:26:04,370 --> 01:26:03,060

door the the other part that I wanted to

2138

01:26:09,550 --> 01:26:04,380

get to before

2139

01:26:13,250 --> 01:26:09,560

um I let you go is there are 171 cases

2140

01:26:17,090 --> 01:26:13,260

that have been reported in the new odni

2141

01:26:20,649 --> 01:26:17,100

uh report that was just released uh with

2142

01:26:22,270 --> 01:26:20,659

some very strange quotes from odna

2143

01:26:24,709 --> 01:26:22,280

strange

2144

01:26:28,490 --> 01:26:24,719

performance characteristics

2145

01:26:31,129 --> 01:26:28,500

and when you see that what is a pilot

2146

01:26:37,010 --> 01:26:31,139

reporting that you would get that type

2147

01:26:41,689 --> 01:26:39,229

so one example would be saying

2148

01:26:45,229 --> 01:26:41,699

stationary and high winds very precisely

2149

01:26:47,530 --> 01:26:45,239

right that could be one example another

2150

01:26:50,510 --> 01:26:47,540

example could be staying Airborne for

2151
01:26:52,310 --> 01:26:50,520
very lengthy periods of time longer than

2152
01:26:53,810 --> 01:26:52,320
we would expect for something of its

2153
01:26:56,570 --> 01:26:53,820
mass or something of that nature or

2154
01:26:58,010 --> 01:26:56,580
normal energy density that could be an

2155
01:27:00,830 --> 01:26:58,020
example

2156
01:27:02,570 --> 01:27:00,840
um of course there's the Rapid or you

2157
01:27:04,430 --> 01:27:02,580
know very quick

2158
01:27:09,649 --> 01:27:04,440
um

2159
01:27:12,169 --> 01:27:09,659
ultimately High velocities as well as

2160
01:27:14,629 --> 01:27:12,179
accelerations uh I imagine that would

2161
01:27:17,209 --> 01:27:14,639
fit those characteristics as well uh you

2162
01:27:19,910 --> 01:27:17,219
could perhaps think of trans medium uh

2163
01:27:22,250 --> 01:27:19,920

behaviors and flight uh characteristics

2164

01:27:24,050 --> 01:27:22,260

as you know

2165

01:27:25,129 --> 01:27:24,060

um advances that we don't necessarily

2166

01:27:26,649 --> 01:27:25,139

have

2167

01:27:29,090 --> 01:27:26,659

um could those all be tied together

2168

01:27:30,470 --> 01:27:29,100

potentially right if it's able to

2169

01:27:32,090 --> 01:27:30,480

seamlessly move things around the

2170

01:27:34,310 --> 01:27:32,100

surface or the skin of the aircraft

2171

01:27:36,110 --> 01:27:34,320

going through the air without friction

2172

01:27:37,970 --> 01:27:36,120

and accelerating quickly could be

2173

01:27:40,129 --> 01:27:37,980

somewhat trivial much like moving

2174

01:27:41,930 --> 01:27:40,139

between you know more dense Water and

2175

01:27:44,149 --> 01:27:41,940

Air to be part of the same mechanism

2176

01:27:46,129 --> 01:27:44,159

perhaps but these all these all could

2177

01:27:49,550 --> 01:27:46,139

perhaps be some of those those

2178

01:27:52,370 --> 01:27:49,560

characteristics why do you think uh Ryan

2179

01:27:57,610 --> 01:27:52,380

that this conversation is is happening

2180

01:28:05,149 --> 01:28:01,910

you and I right you you are a veteran

2181

01:28:08,330 --> 01:28:05,159

Navy pilot on my show right now talking

2182

01:28:11,570 --> 01:28:08,340

about legislation and Capitol Hill right

2183

01:28:13,310 --> 01:28:11,580

about UFOs and uaps and and your

2184

01:28:14,810 --> 01:28:13,320

sightings and other you know

2185

01:28:16,430 --> 01:28:14,820

whistleblower and things coming forward

2186

01:28:19,430 --> 01:28:16,440

and what does the Department of Defense

2187

01:28:22,129 --> 01:28:19,440

know and what is going is it ET this is

2188

01:28:24,830 --> 01:28:22,139

a crazy point in history isn't it why

2189

01:28:27,169 --> 01:28:24,840

why now

2190

01:28:30,410 --> 01:28:27,179

I I think maybe it might just be the

2191

01:28:32,930 --> 01:28:30,420

fact that we can't we can't write it off

2192

01:28:35,750 --> 01:28:32,940

anymore we can't just dismiss the person

2193

01:28:38,270 --> 01:28:35,760

anymore because the tools we have are so

2194

01:28:40,129 --> 01:28:38,280

good and so powerful that we're able to

2195

01:28:42,709 --> 01:28:40,139

validate that and we just can't ignore

2196

01:28:45,370 --> 01:28:42,719

reality frankly I mean I think it might

2197

01:28:48,649 --> 01:28:45,380

just be that simple in a lot of ways

2198

01:28:50,870 --> 01:28:48,659

ignore what reality are we talking E.T

2199

01:28:53,629 --> 01:28:50,880

are we Circle are we going back to Crazy

2200

01:28:54,950 --> 01:28:53,639

conclusion here right well the reality

2201

01:28:56,390 --> 01:28:54,960

is that there are things that are

2202

01:28:58,430 --> 01:28:56,400

anomalous that we don't know what they

2203

01:29:00,590 --> 01:28:58,440

are I mean that is a fact uh and I don't

2204

01:29:02,810 --> 01:29:00,600

it's not a matter of just I think better

2205

01:29:04,790 --> 01:29:02,820

data is going to get us to see the trash

2206

01:29:06,950 --> 01:29:04,800

bag more clearly that's floating in the

2207

01:29:09,709 --> 01:29:06,960

sky we are dealing with things that we

2208

01:29:11,570 --> 01:29:09,719

do have high fidelity resolution and we

2209

01:29:14,810 --> 01:29:11,580

have high uncertainty of what it is as

2210

01:29:17,209 --> 01:29:14,820

well right uh and so that's that's the

2211

01:29:18,310 --> 01:29:17,219

state we're in and we need to resolve

2212

01:29:22,729 --> 01:29:18,320

that

2213

01:29:24,050 --> 01:29:22,739

the what's your definition of disclosure

2214

01:29:26,390 --> 01:29:24,060

hmm

2215

01:29:28,610 --> 01:29:26,400

I think that's probably different for

2216

01:29:31,850 --> 01:29:28,620

each person but it is it is that's why

2217

01:29:33,590 --> 01:29:31,860

I'm asking you yeah my version is is not

2218

01:29:34,550 --> 01:29:33,600

Ryan Grace what's your definition of

2219

01:29:35,209 --> 01:29:34,560

this

2220

01:29:36,770 --> 01:29:35,219

um

2221

01:29:39,290 --> 01:29:36,780

I don't know if I can Define it but

2222

01:29:42,890 --> 01:29:39,300

maybe I can describe it

2223

01:29:46,430 --> 01:29:42,900

um one one perhaps like it could look

2224

01:29:47,410 --> 01:29:46,440

like is an admission of

2225

01:29:49,970 --> 01:29:47,420

um

2226

01:29:51,830 --> 01:29:49,980

uncertainty right

2227

01:29:53,990 --> 01:29:51,840

um I don't think necessarily United

2228

01:29:57,590 --> 01:29:54,000

States perhaps can be

2229

01:29:59,209 --> 01:29:57,600

the one to officially disclose in some

2230

01:30:01,669 --> 01:29:59,219

sense right because

2231

01:30:03,470 --> 01:30:01,679

will the rest of the world take that at

2232

01:30:05,450 --> 01:30:03,480

its complete face value and we'll move

2233

01:30:07,250 --> 01:30:05,460

into this miraculous age where we all

2234

01:30:09,709 --> 01:30:07,260

have the same shared understanding of

2235

01:30:11,390 --> 01:30:09,719

truth for once in humanity probably not

2236

01:30:14,330 --> 01:30:11,400

you know I'll probably put money against

2237

01:30:16,550 --> 01:30:14,340

it right so like is it is is that what

2238

01:30:18,830 --> 01:30:16,560

it looks like or is it really you know

2239

01:30:21,169 --> 01:30:18,840

someone in the International Community

2240

01:30:23,629 --> 01:30:21,179

Stepping Up on the stage and saying hey

2241

01:30:26,750 --> 01:30:23,639

we we as a world need to figure this out

2242

01:30:30,229 --> 01:30:26,760

uh I think it a disclosure looks like a

2243

01:30:31,870 --> 01:30:30,239

global movement to understand this verse

2244

01:30:36,169 --> 01:30:31,880

any one nation

2245

01:30:39,229 --> 01:30:36,179

when I I think in a general sense

2246

01:30:41,590 --> 01:30:39,239

um when we talk about disclosure in in a

2247

01:30:45,350 --> 01:30:41,600

UFO ET context right

2248

01:30:47,149 --> 01:30:45,360

for most disclosure to them is just one

2249

01:30:48,950 --> 01:30:47,159

thing and and everything else falls

2250

01:30:53,570 --> 01:30:48,960

short and that is the President coming

2251

01:30:57,530 --> 01:30:53,580

up going I got uh I gotta tell you

2252

01:31:00,590 --> 01:30:57,540

we're not alone right and uh We've made

2253

01:31:03,890 --> 01:31:00,600

contact and we've made that's disclosure

2254

01:31:05,629 --> 01:31:03,900

everything else falls short uh do you

2255

01:31:07,270 --> 01:31:05,639

think that we're on that that was the

2256

01:31:11,209 --> 01:31:07,280

exact opposite

2257

01:31:13,850 --> 01:31:11,219

it's like hey we're alone we all know no

2258

01:31:16,550 --> 01:31:13,860

not quite but hey we we know there's

2259

01:31:18,590 --> 01:31:16,560

something here but we just don't have

2260

01:31:20,930 --> 01:31:18,600

the answers for you and we know that

2261

01:31:23,090 --> 01:31:20,940

sucks but that's where we're at uh you

2262

01:31:24,770 --> 01:31:23,100

mean and we know that there's something

2263

01:31:26,270 --> 01:31:24,780

coming from up there we just don't know

2264

01:31:28,010 --> 01:31:26,280

what is that what you're saying we don't

2265

01:31:30,110 --> 01:31:28,020

necessarily have the details and part

2266

01:31:31,850 --> 01:31:30,120

maybe the disclosure is less that it's

2267

01:31:33,229 --> 01:31:31,860

there and that the in the more of the

2268

01:31:35,030 --> 01:31:33,239

disclosure the government doesn't have

2269

01:31:37,370 --> 01:31:35,040

all the answers for us about it right

2270

01:31:39,709 --> 01:31:37,380

that's a that's a real possibility and

2271

01:31:42,169 --> 01:31:39,719

we could get that from the James Webb uh

2272

01:31:45,530 --> 01:31:42,179

this year right uh you know some crazy

2273

01:31:48,410 --> 01:31:45,540

confirmation of a biosphere or techno

2274

01:31:49,790 --> 01:31:48,420

signature from some actual planet

2275

01:31:52,310 --> 01:31:49,800

um but do you think that we're moving

2276

01:31:54,950 --> 01:31:52,320

towards that though is is this

2277

01:31:56,209 --> 01:31:54,960

disclosure thing the big D is this

2278

01:31:58,070 --> 01:31:56,219

something that's you know kind of

2279

01:32:00,410 --> 01:31:58,080

tangible at the moment and we're moving

2280

01:32:02,810 --> 01:32:00,420

towards that by the definition I just

2281

01:32:05,930 --> 01:32:02,820

talked about I think we are by the more

2282

01:32:09,350 --> 01:32:05,940

common definition of an event in some

2283

01:32:11,330 --> 01:32:09,360

way I I almost I almost agree trapped

2284

01:32:13,189 --> 01:32:11,340

with Lou Alexander that has occurred I

2285

01:32:15,410 --> 01:32:13,199

mean we've had some of our biggest

2286

01:32:17,930 --> 01:32:15,420

leaders in government past and present

2287

01:32:20,629 --> 01:32:17,940

make very public statements about this

2288

01:32:21,770 --> 01:32:20,639

that are unequivocal that say hey we

2289

01:32:24,950 --> 01:32:21,780

don't know what this is and it's

2290

01:32:26,570 --> 01:32:24,960

happening what more do you want

2291

01:32:29,090 --> 01:32:26,580

um do do you want the president to come

2292

01:32:31,850 --> 01:32:29,100

out from the Oval Office is that is that

2293

01:32:33,709 --> 01:32:31,860

the right move I I don't know I don't

2294

01:32:35,689 --> 01:32:33,719

know if that is but we've had we've had

2295

01:32:38,570 --> 01:32:35,699

as much you know official confirmation

2296

01:32:41,090 --> 01:32:38,580

at least 99 of it as we could perhaps

2297

01:32:43,610 --> 01:32:41,100

ever ask for and in the next several

2298

01:32:46,010 --> 01:32:43,620

years perhaps we will move into you know

2299

01:32:48,189 --> 01:32:46,020

a more uh

2300

01:32:50,330 --> 01:32:48,199

uh expected

2301
01:32:51,890 --> 01:32:50,340
experience of disclosure for some people

2302
01:32:53,750 --> 01:32:51,900
and I I don't know this right I'm just

2303
01:32:55,550 --> 01:32:53,760
saying that we we do seem to be moving

2304
01:32:58,010 --> 01:32:55,560
towards a more organized communication

2305
01:32:59,689 --> 01:32:58,020
around this topic and you know I'm just

2306
01:33:01,669 --> 01:32:59,699
curious as anyone else to see exactly

2307
01:33:03,590 --> 01:33:01,679
what that's going to look like well you

2308
01:33:04,570 --> 01:33:03,600
know when 60 Minutes did their thing and

2309
01:33:11,930 --> 01:33:04,580
that was

2310
01:33:15,110 --> 01:33:11,940
viewed uh program and we know about 60

2311
01:33:17,810 --> 01:33:15,120
Minutes reputation well later on that

2312
01:33:21,050 --> 01:33:17,820
night and I was curious I just kind of

2313
01:33:24,590 --> 01:33:21,060

observed the world didn't burn down

2314

01:33:28,010 --> 01:33:24,600

right we didn't we didn't lose their

2315

01:33:30,890 --> 01:33:28,020

minds uh we didn't lose our minds and

2316

01:33:32,209 --> 01:33:30,900

and I felt I found comfort in that do

2317

01:33:33,770 --> 01:33:32,219

you think that the world could handle

2318

01:33:36,530 --> 01:33:33,780

the truth if if this is where we're

2319

01:33:39,050 --> 01:33:36,540

going I do I really do I think that

2320

01:33:42,590 --> 01:33:39,060

we're on average much more adaptable to

2321

01:33:43,250 --> 01:33:42,600

change uh we have much wider

2322

01:33:47,570 --> 01:33:43,260

um

2323

01:33:49,610 --> 01:33:47,580

now with our ability to kind of

2324

01:33:51,410 --> 01:33:49,620

interface with the wider World via the

2325

01:33:53,750 --> 01:33:51,420

Internet and digital media and things of

2326

01:33:56,870 --> 01:33:53,760

that nature right our minds are more are

2327

01:33:58,669 --> 01:33:56,880

flexible and plastic in a sense for

2328

01:34:00,770 --> 01:33:58,679

adapting a new and different ideas and

2329

01:34:03,110 --> 01:34:00,780

strange ideas and things that maybe make

2330

01:34:05,629 --> 01:34:03,120

us uncomfortable for fun and so I think

2331

01:34:08,450 --> 01:34:05,639

that in a sense we are much more

2332

01:34:10,910 --> 01:34:08,460

um open and ready to experience that

2333

01:34:13,669 --> 01:34:10,920

type of change as as a world

2334

01:34:15,649 --> 01:34:13,679

Ryan um I want to first off I want to

2335

01:34:18,649 --> 01:34:15,659

thank you on behalf of uh the community

2336

01:34:21,950 --> 01:34:18,659

our country the world uh for you coming

2337

01:34:23,750 --> 01:34:21,960

forward and and rolling the dice on this

2338

01:34:26,689 --> 01:34:23,760

I know it's been a difficult Challenge

2339

01:34:29,209 --> 01:34:26,699

and uh the world can be tough sometimes

2340

01:34:31,010 --> 01:34:29,219

especially right now and I want to thank

2341

01:34:33,830 --> 01:34:31,020

you for all of that seriously and thank

2342

01:34:37,070 --> 01:34:33,840

you for the conversation tonight

2343

01:34:40,970 --> 01:34:37,080

um the uh website uncertain Vector

2344

01:34:43,010 --> 01:34:40,980

uh.com is is on our website and

2345

01:34:45,169 --> 01:34:43,020

throughout social media somebody wants

2346

01:34:47,330 --> 01:34:45,179

to reach out contact you or help in any

2347

01:34:49,610 --> 01:34:47,340

way can they do that there

2348

01:34:51,830 --> 01:34:49,620

uh I'll actually recommend the best way

2349

01:34:55,550 --> 01:34:51,840

the best place to probably kind of take

2350

01:34:58,790 --> 01:34:55,560

a look via my new podcast merge Point uh

2351
01:35:02,090 --> 01:34:58,800
on YouTube uh you can find it uh merge

2352
01:35:03,830 --> 01:35:02,100
uh mergepodcast.com you'll find all the

2353
01:35:05,629 --> 01:35:03,840
episodes on there and I'm going to be

2354
01:35:07,310 --> 01:35:05,639
really using that as a home base to have

2355
01:35:09,110 --> 01:35:07,320
this conversation going forward where

2356
01:35:12,050 --> 01:35:09,120
I'll be interviewing pilots and

2357
01:35:13,970 --> 01:35:12,060
scientists like Gary Nolan and others

2358
01:35:15,590 --> 01:35:13,980
um to not necessarily bring objective

2359
01:35:17,330 --> 01:35:15,600
data into the conversation about their

2360
01:35:19,490 --> 01:35:17,340
experiences but just show people just

2361
01:35:21,709 --> 01:35:19,500
how common it is and and why this really

2362
01:35:24,729 --> 01:35:21,719
is an aviation safety threat out there

2363
01:35:27,410 --> 01:35:24,739

yeah um uh now I I I

2364

01:35:28,910 --> 01:35:27,420

okay I'm not ready to let you go one

2365

01:35:31,490 --> 01:35:28,920

last question

2366

01:35:34,310 --> 01:35:31,500

um and then and then and then we're done

2367

01:35:36,669 --> 01:35:34,320

and thank you but can we talk about Paco

2368

01:35:42,709 --> 01:35:36,679

and his website for a second

2369

01:35:45,350 --> 01:35:42,719

briefly uh Paco he his community right

2370

01:35:47,270 --> 01:35:45,360

of of Navy pilots and hanging out and

2371

01:35:50,750 --> 01:35:47,280

they've got their form and and thing

2372

01:35:51,950 --> 01:35:50,760

things that before all of this madness

2373

01:35:54,709 --> 01:35:51,960

happened

2374

01:35:57,350 --> 01:35:54,719

he had Dave fraver you know on the

2375

01:36:00,350 --> 01:35:57,360

website and they were talking about uh

2376

01:36:04,010 --> 01:36:00,360

the Tic Tac uh back then did you see the

2377

01:36:05,689 --> 01:36:04,020

original Paco article from Ben that's

2378

01:36:08,930 --> 01:36:05,699

2016.

2379

01:36:11,689 --> 01:36:08,940

uh I think I I think I did a while ago I

2380

01:36:13,310 --> 01:36:11,699

I think I've we've had we've we've said

2381

01:36:16,250 --> 01:36:13,320

hello to each other just met once or

2382

01:36:17,689 --> 01:36:16,260

twice Paco and I and I think I did look

2383

01:36:19,850 --> 01:36:17,699

that up but I'll be honest I don't

2384

01:36:21,470 --> 01:36:19,860

remember the details at the moment well

2385

01:36:24,350 --> 01:36:21,480

the reason why I'm asking is because

2386

01:36:25,550 --> 01:36:24,360

that's not a website that anybody from

2387

01:36:27,950 --> 01:36:25,560

the public would know anything about

2388

01:36:30,350 --> 01:36:27,960

right that's the pilots hanging out

2389

01:36:32,629 --> 01:36:30,360

doing their Maverick and Iceman thing

2390

01:36:35,510 --> 01:36:32,639

right and and trading stories that's

2391

01:36:38,990 --> 01:36:35,520

that's it it was a great website it is a

2392

01:36:42,169 --> 01:36:39,000

great website but that was a shocker of

2393

01:36:44,090 --> 01:36:42,179

of an article and I often wonder well

2394

01:36:46,070 --> 01:36:44,100

since you didn't read it when it uh was

2395

01:36:48,530 --> 01:36:46,080

first there I did

2396

01:36:51,050 --> 01:36:48,540

um and I reached out to Paco I did man I

2397

01:36:52,430 --> 01:36:51,060

wrote them if you want to come on my

2398

01:36:55,970 --> 01:36:52,440

show

2399

01:36:58,990 --> 01:36:55,980

um but uh uh I'm I'm just wondering if

2400

01:37:03,350 --> 01:36:59,000

he had any idea and certainly with Dave

2401
01:37:06,410 --> 01:37:03,360
what was about to happen because of what

2402
01:37:07,850 --> 01:37:06,420
was revealed there I mean because the

2403
01:37:09,530 --> 01:37:07,860
world is a different place today because

2404
01:37:12,590 --> 01:37:09,540
of that one website

2405
01:37:14,990 --> 01:37:12,600
I I can't imagine they did I don't think

2406
01:37:18,129 --> 01:37:15,000
anyone anyone would have

2407
01:37:20,810 --> 01:37:18,139
uh yeah I'll just answer it that simply

2408
01:37:23,270 --> 01:37:20,820
what a crazy what a crazy world we're in

2409
01:37:25,970 --> 01:37:23,280
again Ryan thank you so much I look

2410
01:37:27,350 --> 01:37:25,980
forward to our next conversation and be

2411
01:37:29,209 --> 01:37:27,360
safe out there my friend thank you so

2412
01:37:30,790 --> 01:37:29,219
much it was a pleasure you're the best

2413
01:37:35,229 --> 01:37:30,800

thank you

2414

01:37:39,709 --> 01:37:35,239

Ryan Graves and uncertain Vector

2415

01:37:42,709 --> 01:37:39,719

um.com is his website and I will get his

2416

01:37:45,490 --> 01:37:42,719

podcast uh in social media for everybody

2417

01:37:48,410 --> 01:37:45,500

to go and check out I'm Yoshimi church

2418

01:37:51,229 --> 01:37:48,420

this is Fade to Black I'm gonna get out

2419

01:37:53,030 --> 01:37:51,239

of here and tomorrow night what do we

2420

01:37:56,149 --> 01:37:53,040

have going on tomorrow night tomorrow

2421

01:37:58,790 --> 01:37:56,159

night is Wednesday oh man I've got

2422

01:38:01,250 --> 01:37:58,800

Stephen Bassett Stephen Bassett is on

2423

01:38:04,250 --> 01:38:01,260

with us tomorrow night everybody and uh

2424

01:38:06,410 --> 01:38:04,260

we've got a lot to talk about uh Stephen

2425

01:38:11,510 --> 01:38:06,420

is on his game when it comes to

2426

01:38:13,610 --> 01:38:11,520

Washington DC the odni and the ndaa for

2427

01:38:15,350 --> 01:38:13,620

2023. so all of that is tomorrow night

2428

01:38:17,030 --> 01:38:15,360

right here on Fade to Black Fade to

2429

01:38:19,610 --> 01:38:17,040

Black is produced by Hilton J Palm Renee

2430

01:38:22,270 --> 01:38:19,620

Dennis and Kevin webmaster is Drew the

2431

01:38:24,830 --> 01:38:22,280

geek music Doug Aldrich intro space boys

2432

01:38:26,629 --> 01:38:24,840

spaceboymusic.com fade to black is

2433

01:38:28,430 --> 01:38:26,639

produced by kjcr for the game changer

2434

01:38:29,890 --> 01:38:28,440

Network and this broadcast is owned and

2435

01:38:32,390 --> 01:38:29,900

copyrighted

2436

01:38:34,250 --> 01:38:32,400

2023 by Fade to Black and The Game

2437

01:38:35,990 --> 01:38:34,260

Changer Network Inc it cannot be

2438

01:38:37,310 --> 01:38:36,000

rebroadcast downloaded copied or used

2439

01:38:38,990 --> 01:38:37,320

anywhere in the known universe without

2440

01:38:40,790 --> 01:38:39,000

written permission from Fade to Black in

2441

01:38:42,290 --> 01:38:40,800

the game change your network I'm Miss

2442

01:38:45,229 --> 01:38:42,300

Jimmy church tomorrow night Stephen

2443

01:38:48,530 --> 01:38:45,239

Bassett Paradigm research group until

2444

01:38:51,630 --> 01:38:48,540

then I want everybody to be safe

2445

01:39:11,280 --> 01:38:51,640

go back Lee tappy
