

FADE TO BLACK

with JIMMY CHURCH

PRESENTS

ADAM APOLLO

PHYSICS AND CONTACT

WED FEB 08 LIVE

7:00 PM PT/10:00PM ET

1
00:00:26,710 --> 00:00:21,730

[Music]

2
00:00:29,990 --> 00:00:26,720

the smoke radio for the masses of July 8

3
00:00:32,389 --> 00:00:30,000

1947 the Army Air Forces has announced

4
00:00:34,490 --> 00:00:32,399

that a flying disc has been found and is

5
00:00:37,549 --> 00:00:34,500

now in the possession of the army

6
00:00:41,330 --> 00:00:37,559

game is rigged change the game game

7
00:00:44,930 --> 00:00:41,340

changer I occasionally think how quickly

8
00:00:48,290 --> 00:00:44,940

our differences worldwide would vanish

9
00:00:49,630 --> 00:00:48,300

if we were facing an alien threat from

10
00:00:51,440 --> 00:00:49,640

outside this work

11
00:00:53,950 --> 00:00:51,450

[Music]

12
00:00:56,869 --> 00:00:53,960

[Applause]

13
00:00:59,750 --> 00:00:56,879

this is Fade to Black with your host

14
00:01:00,390 --> 00:00:59,760
Jimmy Church on the game changer Radio

15
00:01:04,189 --> 00:01:00,400
Network

16
00:01:08,030 --> 00:01:04,199
[Music]

17
00:01:12,730 --> 00:01:08,040
all right good evening Fade to Black

18
00:01:16,850 --> 00:01:12,740
today is Wednesday February 8

19
00:01:20,270 --> 00:01:16,860
2023 and tonight Our Guest is Adam

20
00:01:22,130 --> 00:01:20,280
Apollo and uh we're gonna have a great

21
00:01:26,270 --> 00:01:22,140
conversation tonight

22
00:01:27,530 --> 00:01:26,280
um especially after the the Great

23
00:01:32,870 --> 00:01:27,540
Twitter

24
00:01:35,690 --> 00:01:32,880
crash of 2023 the Panic is over set most

25
00:01:38,510 --> 00:01:35,700
of it uh there's still some glitches but

26
00:01:39,770 --> 00:01:38,520
wow that was pretty amazing uh earlier

27
00:01:43,010 --> 00:01:39,780
today

28
00:01:45,590 --> 00:01:43,020
I was uh uh here in the bunker get you

29
00:01:47,030 --> 00:01:45,600
know just getting a lot of stuff done uh

30
00:01:49,789 --> 00:01:47,040
we've got uh some things that we're

31
00:01:55,310 --> 00:01:49,799
doing this weekend and

32
00:01:57,649 --> 00:01:55,320
um uh suddenly I uh you know I it I I

33
00:01:59,149 --> 00:01:57,659
got a warning that I had reached my

34
00:02:00,889 --> 00:01:59,159
Twitter limit

35
00:02:03,590 --> 00:02:00,899
and I'm thinking you know I've got

36
00:02:05,749 --> 00:02:03,600
social media managers and and and people

37
00:02:09,130 --> 00:02:05,759
that run my stuff and I was like how

38
00:02:13,790 --> 00:02:09,140

much tweeting have they done today

39

00:02:15,350 --> 00:02:13,800

and uh and I go and look and then uh uh

40

00:02:18,050 --> 00:02:15,360

tweet deck

41

00:02:20,449 --> 00:02:18,060

started acting funky and that was weird

42

00:02:23,809 --> 00:02:20,459

and I tried to

43

00:02:25,850 --> 00:02:23,819

uh you know I closed out uh tweet deck

44

00:02:29,030 --> 00:02:25,860

and and re-fired it up and it would let

45

00:02:31,430 --> 00:02:29,040

me do what it was it was locked in the

46

00:02:32,869 --> 00:02:31,440

login screen and and looping through and

47

00:02:35,210 --> 00:02:32,879

I thought wow that's

48

00:02:37,070 --> 00:02:35,220

okay that's that's kind of weird did

49

00:02:38,990 --> 00:02:37,080

somebody hack my account I didn't know

50

00:02:40,610 --> 00:02:39,000

that there was a problem problem with

51

00:02:45,949 --> 00:02:40,620

Twitter

52

00:02:50,410 --> 00:02:45,959

so uh anyway uh uh to

53

00:02:53,869 --> 00:02:50,420

to make a very long story short

54

00:02:56,270 --> 00:02:53,879

as I as I started to go through this and

55

00:02:57,830 --> 00:02:56,280

and signed out and signed in and just

56

00:03:00,770 --> 00:02:57,840

confirmed everything then I couldn't

57

00:03:03,350 --> 00:03:00,780

even go in and look at my account

58

00:03:07,509 --> 00:03:03,360

details to see maybe was I suspended or

59

00:03:12,229 --> 00:03:07,519

something and I go over to down detector

60

00:03:16,729 --> 00:03:12,239

and uh and it guided me over to another

61

00:03:19,250 --> 00:03:16,739

uh program and then to to Facebook and a

62

00:03:20,830 --> 00:03:19,260

few others Instagram and a couple of

63

00:03:24,649 --> 00:03:20,840

gaming systems

64

00:03:27,830 --> 00:03:24,659

and I was looking at the comments uh

65

00:03:31,009 --> 00:03:27,840

from everybody and it was man it was

66

00:03:32,990 --> 00:03:31,019

like a worldwide something I don't know

67

00:03:34,850 --> 00:03:33,000

I don't know if this was a server farm

68

00:03:36,470 --> 00:03:34,860

and you know will they announce this and

69

00:03:39,649 --> 00:03:36,480

will they talk about his

70

00:03:41,690 --> 00:03:39,659

they're going to be a reporter uh that

71

00:03:43,970 --> 00:03:41,700

is going to dig into this and find out

72

00:03:47,809 --> 00:03:43,980

what happened today but it all went down

73

00:03:49,970 --> 00:03:47,819

at about uh 2 15. and our guest tonight

74

00:03:52,130 --> 00:03:49,980

is Adam Apollo

75

00:03:54,949 --> 00:03:52,140

and Adam is one of the smartest people

76

00:03:57,050 --> 00:03:54,959

that I know and and I say that about

77

00:03:59,270 --> 00:03:57,060

every guest because most of my guests

78

00:04:01,130 --> 00:03:59,280

are very smart

79

00:04:05,390 --> 00:04:01,140

I look up to them for their brain power

80

00:04:08,869 --> 00:04:05,400

but Adam falls into that category but

81

00:04:11,630 --> 00:04:08,879

he's also to me a bit strange when it

82

00:04:14,690 --> 00:04:11,640

comes to social media when he fully

83

00:04:18,170 --> 00:04:14,700

understands the internet and the future

84

00:04:21,050 --> 00:04:18,180

of technology so I'm I'm rather

85

00:04:23,450 --> 00:04:21,060

interested if he was even aware of any

86

00:04:25,850 --> 00:04:23,460

of this today and with that I get to

87

00:04:29,390 --> 00:04:25,860

hang out with Adam this weekend and he's

88

00:04:32,390 --> 00:04:29,400

here in town from a secret location here

89
00:04:34,550 --> 00:04:32,400
we go Adam Apollo in the house Adam how

90
00:04:36,469 --> 00:04:34,560
you doing my brother I'm doing great

91
00:04:37,790 --> 00:04:36,479
Jimmy thanks so much for having me it's

92
00:04:40,610 --> 00:04:37,800
great to be back with you on the show

93
00:04:42,770 --> 00:04:40,620
what happened it's great to see you it's

94
00:04:44,870 --> 00:04:42,780
great to see you and uh we're going to

95
00:04:47,810 --> 00:04:44,880
be hanging out all weekend we'll swing

96
00:04:50,749 --> 00:04:47,820
back to that but uh what happened with

97
00:04:53,210 --> 00:04:50,759
uh Platforms in the internet today do

98
00:04:54,650 --> 00:04:53,220
you have any insight

99
00:04:58,070 --> 00:04:54,660
um well I was tracking a completely

100
00:05:00,890 --> 00:04:58,080
different front uh you know Google and

101
00:05:04,310 --> 00:05:00,900
Microsoft both today on the news

102
00:05:07,129 --> 00:05:04,320
announced uh essentially AI Integrations

103
00:05:08,930 --> 00:05:07,139
to their search at a at a deeper level

104
00:05:10,730 --> 00:05:08,940
let's just say

105
00:05:11,629 --> 00:05:10,740
um Google's been doing this for a long

106
00:05:13,550 --> 00:05:11,639
time

107
00:05:16,129 --> 00:05:13,560
um but they're having multi-search at

108
00:05:18,650 --> 00:05:16,139
the moment where the idea is that you

109
00:05:21,469 --> 00:05:18,660
could search by image or by text or by

110
00:05:23,450 --> 00:05:21,479
voice or by whatever you want uh down to

111
00:05:26,090 --> 00:05:23,460
the point where you could just you know

112
00:05:28,550 --> 00:05:26,100
have your camera on your phone out and

113
00:05:31,249 --> 00:05:28,560

essentially take a picture a short video

114

00:05:33,350 --> 00:05:31,259

of something and ask it a question hey

115

00:05:35,689 --> 00:05:33,360

can I find another thing like this or

116

00:05:38,090 --> 00:05:35,699

can I buy this somewhere and it would

117

00:05:40,610 --> 00:05:38,100

find things that look like that or that

118

00:05:42,950 --> 00:05:40,620

match that description being is a little

119

00:05:45,950 --> 00:05:42,960

bit more on the front of essentially

120

00:05:47,510 --> 00:05:45,960

conversational AI which is the whole

121

00:05:49,430 --> 00:05:47,520

front that's making everybody go crazy

122

00:05:50,749 --> 00:05:49,440

over chat GPT where you can literally

123

00:05:52,370 --> 00:05:50,759

have a conversation with it you can ask

124

00:05:54,290 --> 00:05:52,380

it to tell you a story you can ask it to

125

00:05:56,689 --> 00:05:54,300

make make up a story you can have it

126

00:05:58,010 --> 00:05:56,699

give you a bunch of facts and a bunch of

127

00:06:01,189 --> 00:05:58,020

fiction if you want

128

00:06:04,909 --> 00:06:01,199

um and so they're both uh you know the

129

00:06:07,790 --> 00:06:04,919

the race we could say for AI dominance

130

00:06:09,409 --> 00:06:07,800

is really just beginning in these spaces

131

00:06:10,850 --> 00:06:09,419

um and I think that's fascinating I

132

00:06:12,590 --> 00:06:10,860

missed what you were what you were

133

00:06:16,070 --> 00:06:12,600

saying about other platforms though well

134

00:06:18,469 --> 00:06:16,080

yeah Twitter Twitter crashed today ah

135

00:06:21,650 --> 00:06:18,479

right and uh and so and there were

136

00:06:24,290 --> 00:06:21,660

glitches and issues across multiple

137

00:06:27,890 --> 00:06:24,300

social media platforms all happening at

138

00:06:30,469 --> 00:06:27,900

about 2 15. uh centralization is the

139

00:06:32,210 --> 00:06:30,479

problem there isn't it right because as

140

00:06:34,430 --> 00:06:32,220

we know as long as you have giant

141

00:06:37,129 --> 00:06:34,440

centralized server Farms the whole thing

142

00:06:38,870 --> 00:06:37,139

can go down that's right all of the

143

00:06:41,689 --> 00:06:38,880

stuff that you've created can be gone in

144

00:06:42,469 --> 00:06:41,699

an instant if those servers go out you

145

00:06:46,430 --> 00:06:42,479

know

146

00:06:48,529 --> 00:06:46,440

um I I used to I used to run this live I

147

00:06:50,570 --> 00:06:48,539

did it for maybe a couple of weeks on my

148

00:06:52,790 --> 00:06:50,580

website because I saw I I just found it

149

00:06:54,890 --> 00:06:52,800

fascinating I've got to go back and and

150

00:06:58,610 --> 00:06:54,900

five I've got it saved

151
00:07:01,129 --> 00:06:58,620
um there is a real time global internet

152
00:07:03,170 --> 00:07:01,139
traffic map that you can look at right

153
00:07:06,590 --> 00:07:03,180
and it's a globe and you can see all the

154
00:07:08,809 --> 00:07:06,600
pipelines and and and and you know over

155
00:07:10,610 --> 00:07:08,819
in Europe to the United States and and

156
00:07:12,770 --> 00:07:10,620
so forth right and you can watch the

157
00:07:15,529 --> 00:07:12,780
traffic and the hubs where they're at

158
00:07:17,930 --> 00:07:15,539
and I gotta say it's kind of like

159
00:07:21,230 --> 00:07:17,940
watching paint dry you know you're just

160
00:07:25,150 --> 00:07:21,240
looking at it but but it's just what's

161
00:07:29,089 --> 00:07:25,160
crazy about it really honestly

162
00:07:31,969 --> 00:07:29,099
there's only like two or three

163
00:07:35,870 --> 00:07:31,979

I mean there are thousands and millions

164

00:07:37,670 --> 00:07:35,880

of of Internet uh uh pipelines I'm not

165

00:07:40,730 --> 00:07:37,680

referring to that but there are a couple

166

00:07:43,969 --> 00:07:40,740

just a couple main ones that go from

167

00:07:46,070 --> 00:07:43,979

Asia to here from here to Europe and

168

00:07:48,050 --> 00:07:46,080

then uh throughout the United States and

169

00:07:50,330 --> 00:07:48,060

then you know you've got African there

170

00:07:53,270 --> 00:07:50,340

you've got South America but I mean you

171

00:07:55,909 --> 00:07:53,280

know one that goes around the world and

172

00:07:58,129 --> 00:07:55,919

goes through the United States and and

173

00:08:01,010 --> 00:07:58,139

then it it crisscrosses and

174

00:08:03,110 --> 00:08:01,020

interconnects like in Kansas you know

175

00:08:05,809 --> 00:08:03,120

it's out there somewhere but anyway yeah

176

00:08:09,710 --> 00:08:05,819

if anything happened

177

00:08:12,050 --> 00:08:09,720

to one of those two points this thing

178

00:08:14,629 --> 00:08:12,060

shuts down man I mean the world shuts

179

00:08:16,430 --> 00:08:14,639

down I mean I I don't know what the

180

00:08:19,070 --> 00:08:16,440

alternative would be does that kind of

181

00:08:22,369 --> 00:08:19,080

do you do you do you spend time thinking

182

00:08:24,830 --> 00:08:22,379

about something that serious

183

00:08:26,270 --> 00:08:24,840

um well in this case I I have thought

184

00:08:29,510 --> 00:08:26,280

about this

185

00:08:32,389 --> 00:08:29,520

um there are there are main Central

186

00:08:34,250 --> 00:08:32,399

pipes that run like the Transatlantic

187

00:08:37,130 --> 00:08:34,260

cable for example which is like this

188

00:08:40,310 --> 00:08:37,140

massive bundle of cables that goes under

189

00:08:41,870 --> 00:08:40,320

the Atlantic Ocean there are major major

190

00:08:45,590 --> 00:08:41,880

lines

191

00:08:48,710 --> 00:08:45,600

um that could go down but at this point

192

00:08:50,870 --> 00:08:48,720

um those lines are all augmented by many

193

00:08:53,690 --> 00:08:50,880

many many smaller lines going different

194

00:08:56,030 --> 00:08:53,700

routes so even if you're trying to make

195

00:08:58,730 --> 00:08:56,040

a connection with an IP server in Europe

196

00:09:00,530 --> 00:08:58,740

for example somebody's got a website in

197

00:09:02,269 --> 00:09:00,540

Europe and they host there if you can't

198

00:09:04,730 --> 00:09:02,279

go across the Atlantic from the United

199

00:09:06,889 --> 00:09:04,740

States you could actually go other

200

00:09:09,710 --> 00:09:06,899

directions you know essentially the

201
00:09:11,389 --> 00:09:09,720
signal would be rerouted through Asia

202
00:09:13,370 --> 00:09:11,399
and through

203
00:09:15,710 --> 00:09:13,380
um you know all of Russia for example

204
00:09:19,210 --> 00:09:15,720
and then back down into those areas of

205
00:09:21,410 --> 00:09:19,220
Europe or would leverage existing

206
00:09:23,210 --> 00:09:21,420
augmentation of satellite networks where

207
00:09:24,769 --> 00:09:23,220
this satellite Network would bounce the

208
00:09:26,570 --> 00:09:24,779
signal so I think we're at the point

209
00:09:29,449 --> 00:09:26,580
that there is no central point of

210
00:09:32,570 --> 00:09:29,459
failure for at least the routing the

211
00:09:35,030 --> 00:09:32,580
communications routing that we have

212
00:09:36,350 --> 00:09:35,040
um and and I tend to be a proponent

213
00:09:39,530 --> 00:09:36,360

against

214

00:09:41,930 --> 00:09:39,540

really dwelling on the idea of like what

215

00:09:44,690 --> 00:09:41,940

if everything all goes down tomorrow and

216

00:09:46,250 --> 00:09:44,700

we're back in the Dark Ages because I'll

217

00:09:48,470 --> 00:09:46,260

be honest with you humans are pretty

218

00:09:51,410 --> 00:09:48,480

dang resilient and being a burner and

219

00:09:54,410 --> 00:09:51,420

having experienced the most insane

220

00:09:57,410 --> 00:09:54,420

nightmarish collapses of infrastructure

221

00:09:59,150 --> 00:09:57,420

over and over and over again out in the

222

00:10:02,269 --> 00:09:59,160

middle of the desert and watching people

223

00:10:04,430 --> 00:10:02,279

literally collaborate work together pull

224

00:10:07,310 --> 00:10:04,440

in new resources connect with new people

225

00:10:10,370 --> 00:10:07,320

bring in new stuff and be back set up

226

00:10:12,350 --> 00:10:10,380

within a matter of hours is uh is always

227

00:10:14,870 --> 00:10:12,360

amazing to me

228

00:10:17,509 --> 00:10:14,880

um so I I know that we'll always have

229

00:10:20,570 --> 00:10:17,519

ways through and I don't believe that

230

00:10:22,190 --> 00:10:20,580

we're headed towards another Dark Age uh

231

00:10:25,370 --> 00:10:22,200

frankly I believe that we're headed

232

00:10:27,710 --> 00:10:25,380

towards the age of humanity being part

233

00:10:29,990 --> 00:10:27,720

of a Galactic Civilization

234

00:10:32,389 --> 00:10:30,000

I'm with you on that I'm with you on

235

00:10:33,720 --> 00:10:32,399

that my my pockets I have flowers

236

00:10:35,470 --> 00:10:33,730

hanging out of them

237

00:10:39,610 --> 00:10:35,480

[Laughter]

238

00:10:44,150 --> 00:10:39,620

it's only it you know it it when you

239

00:10:46,490 --> 00:10:44,160

uh the thing it's the uh you know the

240

00:10:49,069 --> 00:10:46,500

internet and cabling and fiber optic

241

00:10:50,990 --> 00:10:49,079

cables and trans Oceanic you know

242

00:10:53,269 --> 00:10:51,000

Communications and and we have

243

00:10:56,990 --> 00:10:53,279

redundancy built in and we've got but

244

00:11:00,470 --> 00:10:57,000

that's all basic stuff that we

245

00:11:04,610 --> 00:11:00,480

have installed that we are in control of

246

00:11:06,470 --> 00:11:04,620

the chaos uh the potential of chaos

247

00:11:09,290 --> 00:11:06,480

coming out of all that well at least we

248

00:11:10,970 --> 00:11:09,300

created that chaos right so there's some

249

00:11:14,870 --> 00:11:10,980

it's the stuff that's out of your

250

00:11:18,650 --> 00:11:14,880

control right uh a massive EMP some kind

251
00:11:20,509 --> 00:11:18,660
of solar you know burst or or a comet or

252
00:11:21,910 --> 00:11:20,519
an asteroid

253
00:11:26,150 --> 00:11:21,920
um

254
00:11:28,310 --> 00:11:26,160
do these bug you uh no they don't but

255
00:11:31,910 --> 00:11:28,320
those are the things that we don't have

256
00:11:35,470 --> 00:11:31,920
in our control right that that's just

257
00:11:38,569 --> 00:11:35,480
you know and the potential yeah

258
00:11:40,490 --> 00:11:38,579
that's my that's my bangle and he's uh

259
00:11:42,829 --> 00:11:40,500
he's been extremely talkative today so

260
00:11:45,050 --> 00:11:42,839
forgive him if he yeah it's it's totally

261
00:11:46,850 --> 00:11:45,060
cool love it

262
00:11:49,430 --> 00:11:46,860
um yeah it's the stuff that that we

263
00:11:52,730 --> 00:11:49,440

don't have in our control and if it did

264

00:11:54,769 --> 00:11:52,740

come in yeah the Stone Age idea

265

00:11:58,210 --> 00:11:54,779

you know and it's that kind of reset

266

00:12:02,090 --> 00:11:58,220

it's happened so many times I I mean

267

00:12:05,110 --> 00:12:02,100

over and over again but then we had uh

268

00:12:08,829 --> 00:12:05,120

the this report uh out of China

269

00:12:11,509 --> 00:12:08,839

last week that the Earth's inner core

270

00:12:15,590 --> 00:12:11,519

had stopped spinning and possibly

271

00:12:17,630 --> 00:12:15,600

reversed directions now that's okay this

272

00:12:22,310 --> 00:12:17,640

is like what you know and that's not in

273

00:12:24,650 --> 00:12:22,320

our control but uh that it seems uh that

274

00:12:29,050 --> 00:12:24,660

you know with with the collective

275

00:12:33,170 --> 00:12:29,060

knowledge that we have built that that

276

00:12:35,210 --> 00:12:33,180

protects our planet right creates uh uh

277

00:12:37,910 --> 00:12:35,220

an invisible shield against uh

278

00:12:39,290 --> 00:12:37,920

ultraviolet rays and other things

279

00:12:41,630 --> 00:12:39,300

um around

280

00:12:44,030 --> 00:12:41,640

our planet and if that stops spinning

281

00:12:47,509 --> 00:12:44,040

does that mean our defense systems drop

282

00:12:50,629 --> 00:12:47,519

and and is it something else and would

283

00:12:54,110 --> 00:12:50,639

it affect GPS and Compass systems and

284

00:12:57,470 --> 00:12:54,120

and everything but it's really weird

285

00:12:59,210 --> 00:12:57,480

nothing has happened yet except well we

286

00:13:02,030 --> 00:12:59,220

did have this massive earthquake in

287

00:13:06,050 --> 00:13:02,040

Turkey which was another thought that I

288

00:13:07,910 --> 00:13:06,060

had the Earth's intercourse stopping its

289

00:13:09,350 --> 00:13:07,920

spin is that something to be concerned

290

00:13:13,370 --> 00:13:09,360

about

291

00:13:17,210 --> 00:13:13,380

well yes definitely

292

00:13:20,030 --> 00:13:17,220

um uh though I'm not sure I agree with

293

00:13:23,050 --> 00:13:20,040

the theories that the earth's core is

294

00:13:26,629 --> 00:13:23,060

stopping spinning I mean it's it's it's

295

00:13:29,030 --> 00:13:26,639

rough rough analysis based on plate

296

00:13:31,670 --> 00:13:29,040

tectonics that are the only thing that

297

00:13:34,009 --> 00:13:31,680

can give us any kind of insight down to

298

00:13:36,310 --> 00:13:34,019

that level but if you deal with it from

299

00:13:40,190 --> 00:13:36,320

a physics standpoint or a physics front

300

00:13:42,350 --> 00:13:40,200

then you start to see that the structure

301

00:13:45,769 --> 00:13:42,360

of the planet and the structure of

302

00:13:48,829 --> 00:13:45,779

space-time itself is operating in a way

303

00:13:51,050 --> 00:13:48,839

that doesn't just kind of slow down and

304

00:13:54,290 --> 00:13:51,060

stop on occasion just because it wants

305

00:13:57,710 --> 00:13:54,300

to and turned the other way like planets

306

00:13:59,210 --> 00:13:57,720

that get going go for you know millions

307

00:14:01,790 --> 00:13:59,220

and millions of years hundreds of

308

00:14:04,310 --> 00:14:01,800

millions of years sometimes and and you

309

00:14:07,430 --> 00:14:04,320

know they're orbiting stars and a lot of

310

00:14:09,769 --> 00:14:07,440

this comes down to uh one of the biggest

311

00:14:13,129 --> 00:14:09,779

most fundamental questions in physics

312

00:14:15,769 --> 00:14:13,139

which is one of my passions and that is

313

00:14:19,730 --> 00:14:15,779

is it enough that's just floating around

314

00:14:22,449 --> 00:14:19,740

in an empty vacuum or is the structure

315

00:14:25,250 --> 00:14:22,459

of space time itself a tangible

316

00:14:27,230 --> 00:14:25,260

structure of energy in other words is it

317

00:14:30,889 --> 00:14:27,240

discrete is the word we use in physics

318

00:14:34,550 --> 00:14:30,899

and in that case if that's true then

319

00:14:37,490 --> 00:14:34,560

suddenly if space time is this highly

320

00:14:40,670 --> 00:14:37,500

energetic lattice integrity that's

321

00:14:43,370 --> 00:14:40,680

co-moving together in all kinds of ways

322

00:14:46,370 --> 00:14:43,380

then suddenly you don't need dark matter

323

00:14:49,250 --> 00:14:46,380

anymore because suddenly we have the

324

00:14:51,769 --> 00:14:49,260

answer is that the hidden energy the

325

00:14:54,889 --> 00:14:51,779

energy that we can't find the mass we

326

00:14:57,829 --> 00:14:54,899

can't find is actually space time moving

327

00:15:00,769 --> 00:14:57,839

it's the structure of space itself that

328

00:15:04,009 --> 00:15:00,779

has mass energy and that moving is the

329

00:15:07,129 --> 00:15:04,019

hidden Dark Energy it is the hidden dark

330

00:15:09,889 --> 00:15:07,139

matter right and if space-time itself is

331

00:15:11,449 --> 00:15:09,899

the thing that's moving then what

332

00:15:14,329 --> 00:15:11,459

happens is when you start to look at

333

00:15:17,810 --> 00:15:14,339

stars and at planets those are are

334

00:15:20,150 --> 00:15:17,820

extensions of a much larger Vortex of

335

00:15:22,370 --> 00:15:20,160

space-time that's moving so the entire

336

00:15:25,430 --> 00:15:22,380

solar system is this massive vortices

337

00:15:28,189 --> 00:15:25,440

that's moving and rotating and

338

00:15:30,650 --> 00:15:28,199

essentially as you go down to the point

339

00:15:33,170 --> 00:15:30,660

of the star itself you know or get down

340

00:15:35,990 --> 00:15:33,180

to planets themselves then what's

341

00:15:38,050 --> 00:15:36,000

happening is space is all co-moving so

342

00:15:41,569 --> 00:15:38,060

as you get down to the core of a planet

343

00:15:44,509 --> 00:15:41,579

that Whirlpool structure of space

344

00:15:46,310 --> 00:15:44,519

spinning flowing into that state of

345

00:15:48,769 --> 00:15:46,320

matter is not something that's just

346

00:15:52,790 --> 00:15:48,779

going to like pause and reverse itself

347

00:15:55,090 --> 00:15:52,800

it won't however you will have certain

348

00:15:57,410 --> 00:15:55,100

periods of time where the magnetosphere

349

00:15:59,990 --> 00:15:57,420

goes through different polarity

350

00:16:01,569 --> 00:16:00,000

reversals and that's what we see very

351

00:16:04,250 --> 00:16:01,579

clearly on the bottom of the ocean

352

00:16:07,009 --> 00:16:04,260

essentially magnetosphere polarity

353

00:16:10,129 --> 00:16:07,019

reversals occurring very periodically

354

00:16:12,590 --> 00:16:10,139

and were overdue for one of those so you

355

00:16:14,990 --> 00:16:12,600

know why that pull reversal happens why

356

00:16:17,870 --> 00:16:15,000

that polarity reversal is a bit of a

357

00:16:19,850 --> 00:16:17,880

mystery to science and geology but it

358

00:16:23,090 --> 00:16:19,860

makes sense if you look from a unified

359

00:16:25,370 --> 00:16:23,100

physics perspective and you realize that

360

00:16:27,290 --> 00:16:25,380

everything all energy and space-time has

361

00:16:29,329 --> 00:16:27,300

yin and yang polarities it's going to

362

00:16:31,370 --> 00:16:29,339

flip polarity at some point no matter

363

00:16:34,189 --> 00:16:31,380

what you do like that's just part of

364

00:16:35,569 --> 00:16:34,199

nature right and if so when this is

365

00:16:39,530 --> 00:16:35,579

unfolding

366

00:16:40,329 --> 00:16:39,540

um so when this report came out

367

00:16:42,829 --> 00:16:40,339

um

368

00:16:45,050 --> 00:16:42,839

does because this is part of your

369

00:16:46,730 --> 00:16:45,060

research I've seen your presentations I

370

00:16:49,970 --> 00:16:46,740

know what you you know and I've seen

371

00:16:52,249 --> 00:16:49,980

this and and and for sure this caught

372

00:16:54,889 --> 00:16:52,259

your attention like your cat has by the

373

00:16:58,670 --> 00:16:54,899

way and it's being demanded that the cat

374

00:17:02,650 --> 00:16:58,680

gets shown on the air yeah it's a really

375

00:17:06,110 --> 00:17:02,660

cute cat so if he comes over here

376

00:17:09,110 --> 00:17:06,120

it's a bendable bangle yeah he's a he's

377

00:17:11,569 --> 00:17:09,120

a snow bengal so oh man yeah yeah yeah

378

00:17:14,210 --> 00:17:11,579

yeah yeah yeah they're like genetically

379

00:17:16,549 --> 00:17:14,220

miniature Jaguars and he looks like a

380

00:17:19,309 --> 00:17:16,559

Snow Leopard with like you know ice blue

381

00:17:20,210 --> 00:17:19,319

eyes he's he's a beauty did you see the

382

00:17:25,130 --> 00:17:20,220

uh

383

00:17:28,510 --> 00:17:25,140

year did you see it today no snow

384

00:17:30,530 --> 00:17:28,520

leopard really yeah yeah

385

00:17:33,110 --> 00:17:30,540

Straight Out of The Secret Life of

386

00:17:35,930 --> 00:17:33,120

Walter Mitty man you know what um I

387

00:17:39,350 --> 00:17:35,940

don't want to get you out

388

00:17:41,630 --> 00:17:39,360

um that movie is fantastic I love that

389

00:17:43,430 --> 00:17:41,640

movie yeah that movie is fantastic the

390

00:17:45,770 --> 00:17:43,440

new one well the original one's cool too

391

00:17:48,950 --> 00:17:45,780

as well but the Ben Stiller one man it's

392

00:17:52,130 --> 00:17:48,960

it's it's it's pretty cool and and the

393

00:17:54,770 --> 00:17:52,140

whole uh David Bowie uh thing you know

394

00:17:56,870 --> 00:17:54,780

them playing in that in that bar in

395

00:17:59,210 --> 00:17:56,880

Iceland was just incredible okay anyway

396

00:18:03,350 --> 00:17:59,220

that's too far of a segue let's get back

397

00:18:05,930 --> 00:18:03,360

here at snow leopards Dark Matter so

398

00:18:08,990 --> 00:18:05,940

when um this has always been a part of

399

00:18:13,370 --> 00:18:09,000

your research but here's the thing

400

00:18:14,690 --> 00:18:13,380

I understand the ability to measure

401

00:18:17,570 --> 00:18:14,700

stuff

402

00:18:20,029 --> 00:18:17,580

um emanating from both poles out into

403

00:18:22,789 --> 00:18:20,039

space and and magnetics and

404

00:18:24,409 --> 00:18:22,799

electromagnetics and and things I that's

405

00:18:25,669 --> 00:18:24,419

easy to do when you go in the other

406

00:18:28,669 --> 00:18:25,679

direction

407

00:18:30,669 --> 00:18:28,679

into the Earth right and certainly

408

00:18:34,190 --> 00:18:30,679

trying to

409

00:18:36,289 --> 00:18:34,200

uh learn how the earth is made up and

410

00:18:38,570 --> 00:18:36,299

what is at its core when we've only

411

00:18:41,090 --> 00:18:38,580

drilled a mile or two down you know we

412

00:18:44,330 --> 00:18:41,100

haven't we haven't gone very far and it

413

00:18:46,669 --> 00:18:44,340

gets hot very quickly right yeah so how

414

00:18:50,270 --> 00:18:46,679

do we really know

415

00:18:52,730 --> 00:18:50,280

that this report that came out is based

416

00:18:54,830 --> 00:18:52,740

on any type of fact at all I mean how do

417

00:18:55,789 --> 00:18:54,840

we really know what is at the center of

418

00:18:59,510 --> 00:18:55,799

the Earth

419

00:19:02,390 --> 00:18:59,520

yeah it's a really good question and uh

420

00:19:04,970 --> 00:19:02,400

you know I'm not I'm not a geologist but

421

00:19:07,190 --> 00:19:04,980

I have some good friends who are and

422

00:19:10,310 --> 00:19:07,200

people like Robert shock and I have had

423

00:19:11,870 --> 00:19:10,320

a lot of conversations about both you

424

00:19:13,730 --> 00:19:11,880

know geology and relationship to

425

00:19:15,049 --> 00:19:13,740

archeology and ancient cultures as well

426

00:19:17,330 --> 00:19:15,059

as

427

00:19:22,510 --> 00:19:17,340

um addressing some of the deeper

428

00:19:26,090 --> 00:19:22,520

mysteries in geology and it's it is

429

00:19:28,850 --> 00:19:26,100

you know to some extent it's a pattern

430

00:19:31,190 --> 00:19:28,860

recognition game so when you look at

431

00:19:32,930 --> 00:19:31,200

Canyons and you look at mountains and

432

00:19:35,870 --> 00:19:32,940

you look at different kinds of rocks

433

00:19:37,909 --> 00:19:35,880

it's recognizing and looking at ah under

434

00:19:39,830 --> 00:19:37,919

these conditions in this kind of state

435

00:19:42,049 --> 00:19:39,840

we get this kind of material we get this

436

00:19:45,529 --> 00:19:42,059

kind of rock we get this kind of you

437

00:19:47,150 --> 00:19:45,539

know structure and and there's a pattern

438

00:19:50,510 --> 00:19:47,160

recognition that every time there's a

439

00:19:52,970 --> 00:19:50,520

volcano liquid rock comes out of the

440

00:19:55,789 --> 00:19:52,980

ground you know that we call magnema and

441

00:19:59,750 --> 00:19:55,799

then lava of course on the surface and

442

00:20:03,409 --> 00:19:59,760

and so we know there's hot molten rock

443

00:20:07,370 --> 00:20:03,419

under the ground and then when you start

444

00:20:10,970 --> 00:20:07,380

to apply the the sort of physics of this

445

00:20:13,549 --> 00:20:10,980

from the standpoint of other macrocosmic

446

00:20:17,029 --> 00:20:13,559

and microcosmic approaches you realize

447

00:20:20,029 --> 00:20:17,039

okay it's mass energy and mass energy

448

00:20:22,850 --> 00:20:20,039

Aggregates and becomes more and more

449

00:20:25,250 --> 00:20:22,860

dense towards the core of large objects

450

00:20:27,350 --> 00:20:25,260

it comes down to really planetary

451
00:20:29,690 --> 00:20:27,360
creation Theory that's how we know about

452
00:20:31,610 --> 00:20:29,700
the inside of the earth it's not it's

453
00:20:33,650 --> 00:20:31,620
not because we just can look down and

454
00:20:36,830 --> 00:20:33,660
see what the heck is going on it's

455
00:20:38,950 --> 00:20:36,840
because we say okay you've got Stars

456
00:20:42,409 --> 00:20:38,960
you've got a bunch of dust these things

457
00:20:44,690 --> 00:20:42,419
accrete into disks and then form spheres

458
00:20:47,150 --> 00:20:44,700
and then there's a compression and Etc

459
00:20:49,010 --> 00:20:47,160
but even all of that by the way the

460
00:20:51,289 --> 00:20:49,020
mainstream theory around all of that is

461
00:20:53,810 --> 00:20:51,299
still got huge holes in it because

462
00:20:55,669 --> 00:20:53,820
there's nothing that suggests why a

463
00:20:58,130 --> 00:20:55,679

little bundle of dust would eventually

464

00:21:00,350 --> 00:20:58,140

grow to be the size of a planet there's

465

00:21:01,970 --> 00:21:00,360

really zero reason for that to happen

466

00:21:03,950 --> 00:21:01,980

because there's plenty of dust clouds

467

00:21:06,529 --> 00:21:03,960

and plenty of little meteorites and they

468

00:21:09,430 --> 00:21:06,539

never aggregate together right yeah look

469

00:21:12,110 --> 00:21:09,440

this is where looking Saturn right

470

00:21:15,970 --> 00:21:12,120

Saturn's got the last time I checked

471

00:21:18,710 --> 00:21:15,980

it's got a couple of rings right yeah

472

00:21:21,310 --> 00:21:18,720

for just as long as planet earth has

473

00:21:24,470 --> 00:21:21,320

been around right or or

474

00:21:26,570 --> 00:21:24,480

yeah exactly like

475

00:21:29,270 --> 00:21:26,580

um and so this the reason I bring this

476

00:21:31,789 --> 00:21:29,280

up is because all of that points to the

477

00:21:34,970 --> 00:21:31,799

fact that if it with with there being

478

00:21:37,850 --> 00:21:34,980

zero answer to that question the idea

479

00:21:41,270 --> 00:21:37,860

that space-time forming a Vortex is what

480

00:21:43,070 --> 00:21:41,280

causes the aggregation of matter has a

481

00:21:44,450 --> 00:21:43,080

lot of strength to it and that's the

482

00:21:46,190 --> 00:21:44,460

idea that space is the thing that's

483

00:21:47,750 --> 00:21:46,200

moving and thus you know everything's

484

00:21:49,250 --> 00:21:47,760

going to aggregate around that but

485

00:21:51,049 --> 00:21:49,260

what's really cool about that is then

486

00:21:52,430 --> 00:21:51,059

when you start to look at the Earth it

487

00:21:54,649 --> 00:21:52,440

it doesn't even look like what we

488

00:21:56,570 --> 00:21:54,659

learned in school you get you get the

489

00:21:59,330 --> 00:21:56,580

mantle you get the inner core you start

490

00:22:02,450 --> 00:21:59,340

to get the crystallized metal but then

491

00:22:05,630 --> 00:22:02,460

you go into basically super high

492

00:22:08,890 --> 00:22:05,640

coherency Crystal structures that

493

00:22:12,049 --> 00:22:08,900

essentially look like an event horizon

494

00:22:14,330 --> 00:22:12,059

and you get to the point where this mass

495

00:22:17,090 --> 00:22:14,340

energy is so Compact and so aligned and

496

00:22:19,789 --> 00:22:17,100

so perfectly dialed and the curvature

497

00:22:21,409 --> 00:22:19,799

around it is so dialed that essentially

498

00:22:24,049 --> 00:22:21,419

you get a black hole in the center of

499

00:22:25,850 --> 00:22:24,059

the planet and so I think Nissan is

500

00:22:27,590 --> 00:22:25,860

absolutely correct on that front and

501
00:22:30,590 --> 00:22:27,600
he's the first person who postulated

502
00:22:32,870 --> 00:22:30,600
that idea but there's a huge amount of

503
00:22:35,930 --> 00:22:32,880
work and research and physics that backs

504
00:22:38,149 --> 00:22:35,940
that idea really clearly now and and

505
00:22:40,669 --> 00:22:38,159
that's and you know that's like that

506
00:22:43,190 --> 00:22:40,679
engine is not gonna just stop

507
00:22:44,090 --> 00:22:43,200
okay

508
00:22:47,930 --> 00:22:44,100
so

509
00:22:51,230 --> 00:22:47,940
um and Ryan Green's uh new book right he

510
00:22:55,789 --> 00:22:51,240
he there's it's just like a paragraph

511
00:22:58,310 --> 00:22:55,799
okay but I've I haven't I haven't talked

512
00:23:00,710 --> 00:22:58,320
about it there's this paragraph that

513
00:23:04,669 --> 00:23:00,720

sticks in my head it's mind-blowing he

514

00:23:06,890 --> 00:23:04,679

goes it is it's possible that one day uh

515

00:23:11,270 --> 00:23:06,900

another planet or another star could

516

00:23:15,049 --> 00:23:11,280

whiz by our sun throw off everything and

517

00:23:18,169 --> 00:23:15,059

fling Earth out into space right and and

518

00:23:21,529 --> 00:23:18,179

that's it and and so we're just floating

519

00:23:25,070 --> 00:23:21,539

through space without uh uh our our sun

520

00:23:29,510 --> 00:23:25,080

anymore our star and we become a rogue

521

00:23:32,990 --> 00:23:29,520

planet and then he says but life won't

522

00:23:37,010 --> 00:23:33,000

end he said it's going to be cold on the

523

00:23:40,549 --> 00:23:37,020

surface of the Earth but the core of our

524

00:23:44,029 --> 00:23:40,559

planet is going to be burning for a very

525

00:23:46,549 --> 00:23:44,039

long time for billions of years and the

526
00:23:48,890 --> 00:23:46,559
Earth and oceans are going to be nice

527
00:23:51,890 --> 00:23:48,900
and warm and there's going to be all

528
00:23:53,810 --> 00:23:51,900
kinds of stuff living there as as we

529
00:23:56,110 --> 00:23:53,820
just float through space and it just

530
00:23:58,789 --> 00:23:56,120
kind of messed with my head

531
00:24:02,270 --> 00:23:58,799
I think about it in those turns in that

532
00:24:05,090 --> 00:24:02,280
yeah you're right right that we have an

533
00:24:07,789 --> 00:24:05,100
energy source it at the center of our

534
00:24:11,750 --> 00:24:07,799
planet that is you know it's not quite

535
00:24:14,750 --> 00:24:11,760
Fusion in the Sun but it's going to stay

536
00:24:17,810 --> 00:24:14,760
running for billions of years

537
00:24:19,490 --> 00:24:17,820
yep yep it's pretty it's pretty amazing

538
00:24:21,649 --> 00:24:19,500

idea

539

00:24:24,529 --> 00:24:21,659

um and and a frightening one to imagine

540

00:24:27,470 --> 00:24:24,539

a star you know essentially passing

541

00:24:29,330 --> 00:24:27,480

through the space somewhere between the

542

00:24:32,690 --> 00:24:29,340

Sun and some other planets in our solar

543

00:24:34,610 --> 00:24:32,700

system and just grabbing all those balls

544

00:24:37,789 --> 00:24:34,620

and probably not even sending them

545

00:24:39,950 --> 00:24:37,799

flying most likely capturing them into a

546

00:24:41,210 --> 00:24:39,960

larger gravitational well and then who

547

00:24:43,909 --> 00:24:41,220

knows what the whole thing would look

548

00:24:47,750 --> 00:24:43,919

like but um how often does this happen

549

00:24:51,470 --> 00:24:47,760

really really uncertain because you know

550

00:24:54,169 --> 00:24:51,480

I think that there's uh there's likely a

551
00:24:57,590 --> 00:24:54,179
very fine balance to the gravitational

552
00:25:00,950 --> 00:24:57,600
dance that stars go through in the areas

553
00:25:03,529 --> 00:25:00,960
they form within a Galaxy and and

554
00:25:06,230 --> 00:25:03,539
honestly I believe there's a level of

555
00:25:10,250 --> 00:25:06,240
sort of mediation of that kind of Rogue

556
00:25:12,470 --> 00:25:10,260
star flying across the Galaxy that

557
00:25:15,350 --> 00:25:12,480
doesn't happen so much because the whole

558
00:25:17,470 --> 00:25:15,360
galaxy is in a coherent state date with

559
00:25:20,390 --> 00:25:17,480
groups of stars traveling in spiral

560
00:25:22,130 --> 00:25:20,400
Dynamic loops around the entire thing

561
00:25:24,590 --> 00:25:22,140
you know essentially moving around the

562
00:25:26,470 --> 00:25:24,600
core I think the whole galaxy is in a

563
00:25:30,409 --> 00:25:26,480

greater state of coherence in general

564

00:25:32,210 --> 00:25:30,419

than would allow that but still Brian's

565

00:25:35,149 --> 00:25:32,220

thought exercise is brilliant and

566

00:25:37,490 --> 00:25:35,159

amazing and if we yeah if Earth got

567

00:25:39,830 --> 00:25:37,500

thrown off it might on the surface look

568

00:25:41,870 --> 00:25:39,840

like one of the planets that you know

569

00:25:43,850 --> 00:25:41,880

like Titan or or some others where

570

00:25:46,909 --> 00:25:43,860

they're like completely covered in ice

571

00:25:49,310 --> 00:25:46,919

you know and it's just it's just like

572

00:25:52,070 --> 00:25:49,320

a giant icy surface the whole atmosphere

573

00:25:54,529 --> 00:25:52,080

would turn to ice around this planet but

574

00:25:57,049 --> 00:25:54,539

underneath that down in the oceans down

575

00:25:58,789 --> 00:25:57,059

in the volcanic Canyons you know

576

00:26:00,590 --> 00:25:58,799

there would still be life there would

577

00:26:02,750 --> 00:26:00,600

still be things going on and that yeah

578

00:26:04,370 --> 00:26:02,760

that is a great case for life in the

579

00:26:06,529 --> 00:26:04,380

Galaxy for sure yeah that's right that's

580

00:26:10,789 --> 00:26:06,539

right see the last the last thing

581

00:26:13,970 --> 00:26:10,799

standing octopus which is alien to begin

582

00:26:17,029 --> 00:26:13,980

with right exactly so

583

00:26:19,789 --> 00:26:17,039

um now okay uh so let's let's get back

584

00:26:23,990 --> 00:26:19,799

to dark matter for a second

585

00:26:25,549 --> 00:26:24,000

um I think I think that dark matter

586

00:26:28,130 --> 00:26:25,559

is

587

00:26:30,289 --> 00:26:28,140

convenient

588

00:26:33,409 --> 00:26:30,299

right that that's all you know what I

589

00:26:36,590 --> 00:26:33,419

mean I think it's convenient because

590

00:26:38,570 --> 00:26:36,600

there is so much unanswered uh

591

00:26:42,830 --> 00:26:38,580

especially what has gone down in the

592

00:26:45,169 --> 00:26:42,840

last 25 to 30 years with uh the uh

593

00:26:47,149 --> 00:26:45,179

expanding universe that was supposed to

594

00:26:49,730 --> 00:26:47,159

be contracting or eventually contract

595

00:26:52,370 --> 00:26:49,740

and and gravity would overtake

596

00:26:54,890 --> 00:26:52,380

everything we would expand stop shrink

597

00:26:56,990 --> 00:26:54,900

back up wash rinse repeat we'll do

598

00:26:59,690 --> 00:26:57,000

another big bang right that was kind of

599

00:27:03,310 --> 00:26:59,700

you know that's that was that was the

600

00:27:08,570 --> 00:27:03,320

Orthodox right that was the Paradox

601
00:27:12,649 --> 00:27:08,580
we would shrink and uh expand and but uh

602
00:27:16,370 --> 00:27:12,659
that all changed in in 1995 and it's not

603
00:27:19,010 --> 00:27:16,380
only expanding but it is increasing in

604
00:27:21,110 --> 00:27:19,020
its expansion to the point where it's

605
00:27:23,269 --> 00:27:21,120
exceeding the speed of light at the at

606
00:27:25,430 --> 00:27:23,279
the edges of the observable universe now

607
00:27:29,210 --> 00:27:25,440
that's that's a pretty crazy thought now

608
00:27:31,610 --> 00:27:29,220
what's causing this reversal of gravity

609
00:27:34,010 --> 00:27:31,620
um and then Dark Matter gets introduced

610
00:27:35,870 --> 00:27:34,020
and suddenly

611
00:27:38,210 --> 00:27:35,880
um you can't see it can't measure it

612
00:27:41,630 --> 00:27:38,220
don't know what it is we don't have any

613
00:27:44,710 --> 00:27:41,640

facts about it but it's 95 of everything

614

00:27:47,870 --> 00:27:44,720

and it's pushing it apart I think it's

615

00:27:49,190 --> 00:27:47,880

convenient because those physicists and

616

00:27:52,549 --> 00:27:49,200

theoretical physicists and

617

00:27:54,950 --> 00:27:52,559

astrophysicists don't have an answer and

618

00:27:58,430 --> 00:27:54,960

this fills in the blanks where you have

619

00:28:00,950 --> 00:27:58,440

all those question marks and algorithms

620

00:28:03,890 --> 00:28:00,960

yeah I mean it's it's an equation fit

621

00:28:06,110 --> 00:28:03,900

and that it happens all the time it's

622

00:28:08,210 --> 00:28:06,120

happened many times in

623

00:28:10,430 --> 00:28:08,220

um Quantum chromodynamics for example

624

00:28:12,649 --> 00:28:10,440

which is a field of quantum mechanics

625

00:28:15,409 --> 00:28:12,659

and quantum physics where specific

626

00:28:18,830 --> 00:28:15,419

forces are applied and say that they

627

00:28:21,350 --> 00:28:18,840

exist simply because there must be that

628

00:28:24,769 --> 00:28:21,360

force that exists or like for example

629

00:28:27,230 --> 00:28:24,779

you know the w and z bosons that

630

00:28:30,350 --> 00:28:27,240

um that radiate off of a neutron

631

00:28:33,169 --> 00:28:30,360

whenever a neutron is free-floating so

632

00:28:34,669 --> 00:28:33,179

there are no free floating neutrons in

633

00:28:37,250 --> 00:28:34,679

the universe because within split

634

00:28:39,470 --> 00:28:37,260

seconds they go through essentially a

635

00:28:42,289 --> 00:28:39,480

Decay process this is like connected to

636

00:28:44,090 --> 00:28:42,299

the weak force and you get a w and z

637

00:28:45,830 --> 00:28:44,100

boson that fly off of those things but

638

00:28:48,769 --> 00:28:45,840

what the heck is a w and z boson

639

00:28:51,110 --> 00:28:48,779

nobody's ever seen a w or Z boson

640

00:28:53,750 --> 00:28:51,120

nobody's ever measured a w or Z boson

641

00:28:56,930 --> 00:28:53,760

it's just the measure of the amount of

642

00:28:59,149 --> 00:28:56,940

energy change that that Neutron goes

643

00:29:01,490 --> 00:28:59,159

through and it's returned to a a proton

644

00:29:03,649 --> 00:29:01,500

which is why like in my weak Force paper

645

00:29:05,570 --> 00:29:03,659

I propose there is no such thing as a

646

00:29:07,610 --> 00:29:05,580

neutron and that they're just protons

647

00:29:09,649 --> 00:29:07,620

and it's actually just a state shift

648

00:29:13,310 --> 00:29:09,659

it's an a polarity shift that occurs

649

00:29:16,730 --> 00:29:13,320

when the proton is actually been bound

650

00:29:19,310 --> 00:29:16,740

to other protons uh sharing spin in

651
00:29:22,370 --> 00:29:19,320
which case they have conservation of

652
00:29:24,710 --> 00:29:22,380
spin so they have less positive charge

653
00:29:27,230 --> 00:29:24,720
overall when they're all bound together

654
00:29:29,450 --> 00:29:27,240
in a nucleus but when you try to free

655
00:29:31,310 --> 00:29:29,460
one of those up you think it's a neutron

656
00:29:33,889 --> 00:29:31,320
because it's sharing its spin with the

657
00:29:36,049 --> 00:29:33,899
others but then all of a sudden it's

658
00:29:38,690 --> 00:29:36,059
catching its own field of space-time

659
00:29:41,330 --> 00:29:38,700
pulling all this energy around it and as

660
00:29:43,909 --> 00:29:41,340
that happens we see that energy suddenly

661
00:29:46,310 --> 00:29:43,919
move around it and we call that a w or Z

662
00:29:49,310 --> 00:29:46,320
boson right so this is the same thing

663
00:29:51,710 --> 00:29:49,320

with dark matter is like oh well

664

00:29:54,529 --> 00:29:51,720

obviously these galaxies are rotating

665

00:29:57,409 --> 00:29:54,539

but it doesn't make sense that it holds

666

00:29:59,210 --> 00:29:57,419

itself together this well there must be

667

00:30:01,789 --> 00:29:59,220

more mass there there must be more

668

00:30:04,370 --> 00:30:01,799

matter somewhere that's keeping all of

669

00:30:06,230 --> 00:30:04,380

these stars together in this giant thing

670

00:30:07,850 --> 00:30:06,240

it just you know that's that's the

671

00:30:10,970 --> 00:30:07,860

question mark and then it's like well

672

00:30:12,350 --> 00:30:10,980

how much energy would it need for it to

673

00:30:14,750 --> 00:30:12,360

actually stick together like this

674

00:30:17,210 --> 00:30:14,760

theoretically and that amount of energy

675

00:30:19,070 --> 00:30:17,220

is the exact energy that we you know

676
00:30:21,830 --> 00:30:19,080
that's the exact amount of mass that we

677
00:30:23,510 --> 00:30:21,840
call dark matter right and then the same

678
00:30:25,789 --> 00:30:23,520
question with the universe expansion

679
00:30:27,830 --> 00:30:25,799
well that would require a lot of energy

680
00:30:30,230 --> 00:30:27,840
pushing against all the gravity Wells

681
00:30:32,690 --> 00:30:30,240
right so how much energy is that you get

682
00:30:34,490 --> 00:30:32,700
a number and we say that's the dark

683
00:30:37,549 --> 00:30:34,500
energy of the universe equals that

684
00:30:40,130 --> 00:30:37,559
number so we're just fitting a label to

685
00:30:41,810 --> 00:30:40,140
a hole in an equation that doesn't have

686
00:30:43,669 --> 00:30:41,820
a clear answer that's right it's

687
00:30:46,010 --> 00:30:43,679
important to just drop that down it's no

688
00:30:47,690 --> 00:30:46,020

it's no offense to physicists it's just

689

00:30:49,730 --> 00:30:47,700

saying that's the way that we've

690

00:30:53,389 --> 00:30:49,740

actually theoretically conceptualized

691

00:30:55,549 --> 00:30:53,399

this now uh there are physicists out

692

00:30:58,250 --> 00:30:55,559

there that

693

00:31:00,830 --> 00:30:58,260

um again conveniently say things I think

694

00:31:03,470 --> 00:31:00,840

it's very loose too how they do this and

695

00:31:07,789 --> 00:31:03,480

they do it too freely well it's called

696

00:31:12,370 --> 00:31:07,799

dark matter because it doesn't it

697

00:31:14,870 --> 00:31:12,380

doesn't have light well no duh okay

698

00:31:17,090 --> 00:31:14,880

well you can't see it you can't touch it

699

00:31:21,049 --> 00:31:17,100

you can't smell it it exists though I

700

00:31:23,930 --> 00:31:21,059

promise let's call it dark

701

00:31:26,350 --> 00:31:23,940

um and and that's it that's that's it's

702

00:31:30,409 --> 00:31:26,360

too simplistic maybe it is that simple

703

00:31:33,590 --> 00:31:30,419

maybe it just is that simple but

704

00:31:37,070 --> 00:31:33,600

um I think that they know less about it

705

00:31:38,810 --> 00:31:37,080

if nothing at all right and so they're

706

00:31:41,510 --> 00:31:38,820

they're plugging those holes that you're

707

00:31:44,269 --> 00:31:41,520

talking about I see it I see it and I

708

00:31:47,330 --> 00:31:44,279

hear the way it's uh spoken about and

709

00:31:49,010 --> 00:31:47,340

presented and I see the visuals on how

710

00:31:52,310 --> 00:31:49,020

it's presented and it just seems to me

711

00:31:56,930 --> 00:31:52,320

that they really don't know anything and

712

00:31:59,570 --> 00:31:56,940

it's a convenient term look you can

713

00:32:02,570 --> 00:31:59,580

we have we have strong and weak forces

714

00:32:04,370 --> 00:32:02,580

right we have two or three uh different

715

00:32:06,110 --> 00:32:04,380

types of gravity that are doing

716

00:32:07,909 --> 00:32:06,120

different things right you have things

717

00:32:09,710 --> 00:32:07,919

that are holding atoms together all

718

00:32:11,690 --> 00:32:09,720

right we understand that right there's a

719

00:32:13,730 --> 00:32:11,700

certain amount of energy there that we

720

00:32:15,889 --> 00:32:13,740

and then you can expand out we have the

721

00:32:17,750 --> 00:32:15,899

gravity that's keeping us glued to the

722

00:32:20,149 --> 00:32:17,760

planet we have the gravity that's

723

00:32:22,430 --> 00:32:20,159

keeping our planet to the sun we have

724

00:32:24,710 --> 00:32:22,440

the gravity that's keeping the spiral

725

00:32:27,289 --> 00:32:24,720

together in the Milky Way and then when

726

00:32:29,149 --> 00:32:27,299

you bounce out from Beyond that and you

727

00:32:31,070 --> 00:32:29,159

look at the universe you have the

728

00:32:33,250 --> 00:32:31,080

expansion that is going there and

729

00:32:36,590 --> 00:32:33,260

something else is moving stuff around

730

00:32:40,010 --> 00:32:36,600

and it just may be as simple as that but

731

00:32:43,510 --> 00:32:40,020

labeling it is is dark matter no now why

732

00:32:48,649 --> 00:32:43,520

would okay there's the reason for this

733

00:32:51,409 --> 00:32:48,659

why would gravity reverse itself or is

734

00:32:54,649 --> 00:32:51,419

it not reversing itself and this is just

735

00:32:57,049 --> 00:32:54,659

the process of expansion that is you

736

00:32:59,570 --> 00:32:57,059

know has has gone on since the beginning

737

00:33:04,930 --> 00:32:59,580

of everything in the Big Bang

738

00:33:07,190 --> 00:33:04,940

yeah well first of all gravity is just

739

00:33:09,350 --> 00:33:07,200

space-time curvature

740

00:33:11,330 --> 00:33:09,360

that's Einstein's work it's proven over

741

00:33:13,789 --> 00:33:11,340

and over and over again so when

742

00:33:17,750 --> 00:33:13,799

space-time is in curvature

743

00:33:21,049 --> 00:33:17,760

light and mass follow the curvature of

744

00:33:24,710 --> 00:33:21,059

that flow of space-time right is that

745

00:33:27,409 --> 00:33:24,720

the same atomic level when yes are held

746

00:33:30,649 --> 00:33:27,419

together it is it is okay

747

00:33:34,070 --> 00:33:30,659

um fair enough but the problem is that

748

00:33:38,269 --> 00:33:34,080

the way we understand gravity right now

749

00:33:40,850 --> 00:33:38,279

is that we've had trouble establishing a

750

00:33:43,909 --> 00:33:40,860

Quantum microcosmic little tiny

751
00:33:45,049 --> 00:33:43,919
framework for how gravity works I mean

752
00:33:47,810 --> 00:33:45,059
there's been proposed things like

753
00:33:49,909 --> 00:33:47,820
graviton for example some of the best

754
00:33:51,649 --> 00:33:49,919
work in that space was done by Elise

755
00:33:54,830 --> 00:33:51,659
Mullen and his friends back in the 80s

756
00:33:57,470 --> 00:33:54,840
who created essentially an equation for

757
00:34:00,470 --> 00:33:57,480
how quantum gravity could operate and

758
00:34:04,070 --> 00:34:00,480
all it did was extend the idea that

759
00:34:07,610 --> 00:34:04,080
space-time curves around centers of mass

760
00:34:10,129 --> 00:34:07,620
right so you know the planet is a giant

761
00:34:12,950 --> 00:34:10,139
sphere it's curve it it's curved space

762
00:34:15,409 --> 00:34:12,960
time and around it is atmospheric

763
00:34:18,230 --> 00:34:15,419

curvature around is space curvature and

764

00:34:20,450 --> 00:34:18,240

the curvature that it's causing is

765

00:34:22,669 --> 00:34:20,460

strong enough to keep the moon in its

766

00:34:24,470 --> 00:34:22,679

little pool right of orbital now is that

767

00:34:27,050 --> 00:34:24,480

the sun's curvature strong enough to

768

00:34:30,169 --> 00:34:27,060

keep all the planets in it correct okay

769

00:34:33,710 --> 00:34:30,179

so I want to show you this comment here

770

00:34:36,230 --> 00:34:33,720

again uh misunderstood right so string

771

00:34:41,470 --> 00:34:36,240

Gene says gravity is a pushing force not

772

00:34:47,329 --> 00:34:44,270

it's not push and it's not an attraction

773

00:34:50,810 --> 00:34:47,339

it's it's it's literally the structure

774

00:34:55,010 --> 00:34:50,820

of space-time in a certain geometry

775

00:34:57,470 --> 00:34:55,020

okay and and if we extrapolate that

776
00:34:59,570 --> 00:34:57,480
further and we keep going then what we

777
00:35:00,589 --> 00:34:59,580
would say is that where does the curve

778
00:35:06,890 --> 00:35:00,599
start

779
00:35:10,849 --> 00:35:06,900
and so a unit of mass what's the most

780
00:35:13,010 --> 00:35:10,859
simple basic unit of mass a proton

781
00:35:15,349 --> 00:35:13,020
so and what is a proton

782
00:35:18,550 --> 00:35:15,359
nobody knows what the heck a proton is

783
00:35:22,310 --> 00:35:18,560
it's a little curved bundle of energy

784
00:35:24,710 --> 00:35:22,320
somehow lasts the lifetime of an entire

785
00:35:27,530 --> 00:35:24,720
universe in fact we postulate the

786
00:35:30,050 --> 00:35:27,540
half-life of a proton is four times the

787
00:35:32,450 --> 00:35:30,060
lifetime of the entire universe so

788
00:35:35,750 --> 00:35:32,460

literally these are the most sustainable

789

00:35:37,630 --> 00:35:35,760

objects that exist they do not Decay

790

00:35:41,210 --> 00:35:37,640

they exist forever

791

00:35:44,270 --> 00:35:41,220

and and so the question that I proposed

792

00:35:46,370 --> 00:35:44,280

years ago was well if that's the case

793

00:35:49,430 --> 00:35:46,380

then there's got to be something very

794

00:35:53,450 --> 00:35:49,440

special about the proton that lets it be

795

00:35:55,250 --> 00:35:53,460

that you know amazing long longevity you

796

00:35:57,290 --> 00:35:55,260

know object an object that literally is

797

00:36:00,650 --> 00:35:57,300

the source of all mass the source of all

798

00:36:02,690 --> 00:36:00,660

gravitation and all curvature and and

799

00:36:05,510 --> 00:36:02,700

when you get down to it it's really

800

00:36:07,730 --> 00:36:05,520

quite simple it's space time in a

801
00:36:11,930 --> 00:36:07,740
spherical geodesic form in other words

802
00:36:15,829 --> 00:36:11,940
it's fully curved space-time it's fully

803
00:36:19,670 --> 00:36:15,839
curved quantum vacuum fluctuations it's

804
00:36:22,430 --> 00:36:19,680
a fully curved geodesic of tensegrity of

805
00:36:26,030 --> 00:36:22,440
energy interconnected with itself and so

806
00:36:29,569 --> 00:36:26,040
now suddenly you have electromagnetism

807
00:36:31,490 --> 00:36:29,579
which forms the quantum plenum in other

808
00:36:33,530 --> 00:36:31,500
words the fabric of space the quantum

809
00:36:35,329 --> 00:36:33,540
vacuum the Planck scale structure which

810
00:36:37,550 --> 00:36:35,339
was least Mullen in those guys's

811
00:36:40,270 --> 00:36:37,560
proposal that space-time is an energetic

812
00:36:42,890 --> 00:36:40,280
structure and it is made of light it is

813
00:36:44,770 --> 00:36:42,900

electromagnetic in nature right so

814

00:36:48,349 --> 00:36:44,780

you've got electromagnetic energy

815

00:36:51,230 --> 00:36:48,359

forming a spherical bundle and now

816

00:36:53,510 --> 00:36:51,240

suddenly this spherical bundle of

817

00:36:57,109 --> 00:36:53,520

electromagnetic energy has an effect

818

00:36:59,870 --> 00:36:57,119

upon itself that draws things towards it

819

00:37:02,210 --> 00:36:59,880

I.E gravity right is that where the

820

00:37:04,310 --> 00:37:02,220

energy okay okay although this is

821

00:37:05,990 --> 00:37:04,320

unification of electromagnetism and

822

00:37:07,550 --> 00:37:06,000

gravity that's what we'll start but then

823

00:37:09,470 --> 00:37:07,560

of course the strong force in the weak

824

00:37:14,810 --> 00:37:09,480

Force just fall right in in line with

825

00:37:17,510 --> 00:37:14,820

this so the one that we're talking about

826
00:37:19,010 --> 00:37:17,520
the fundamentals right and so when we

827
00:37:21,490 --> 00:37:19,020
discussed this

828
00:37:25,370 --> 00:37:21,500
how does it have

829
00:37:27,410 --> 00:37:25,380
an infinite energy source now there are

830
00:37:29,089 --> 00:37:27,420
some theoretical physicists that you

831
00:37:30,530 --> 00:37:29,099
know you said four times the life of the

832
00:37:33,250 --> 00:37:30,540
universe there are some that are saying

833
00:37:36,290 --> 00:37:33,260
100 trillion years but that

834
00:37:38,210 --> 00:37:36,300
eventually even protons will uh

835
00:37:40,670 --> 00:37:38,220
disintegrate and and come apart and at

836
00:37:43,089 --> 00:37:40,680
that point supposedly we've never seen

837
00:37:46,790 --> 00:37:43,099
one do it that's no problem

838
00:37:48,589 --> 00:37:46,800

so where does this where does the

839

00:37:49,910 --> 00:37:48,599

infinite energy come from

840

00:37:52,790 --> 00:37:49,920

hmm

841

00:37:54,950 --> 00:37:52,800

well it's it's not it's not really that

842

00:37:57,770 --> 00:37:54,960

it's it's not about saying it's Infinite

843

00:38:01,190 --> 00:37:57,780

Energy it's stability

844

00:38:02,810 --> 00:38:01,200

right so space time itself if it's an

845

00:38:04,550 --> 00:38:02,820

energetic structure which is what

846

00:38:07,430 --> 00:38:04,560

everything has been proposing for a long

847

00:38:09,530 --> 00:38:07,440

time which quantum mechanics and quantum

848

00:38:11,630 --> 00:38:09,540

theory itself said what a lot of people

849

00:38:14,750 --> 00:38:11,640

have heard out there already which is

850

00:38:17,930 --> 00:38:14,760

that oh my God if space-time is actually

851
00:38:21,589 --> 00:38:17,940
a Quantum electromagnetic field there

852
00:38:23,569 --> 00:38:21,599
should be so much energy in it that you

853
00:38:26,150 --> 00:38:23,579
could literally contain the entire

854
00:38:28,550 --> 00:38:26,160
energy of all visible objects in the

855
00:38:30,710 --> 00:38:28,560
entire universe in a cubic centimeter of

856
00:38:33,470 --> 00:38:30,720
empty space that's how much energy

857
00:38:35,990 --> 00:38:33,480
should be there and that's what's known

858
00:38:39,290 --> 00:38:36,000
as the vacuum catastrophe right feel

859
00:38:41,270 --> 00:38:39,300
free to look this up anybody and so that

860
00:38:44,690 --> 00:38:41,280
that was like oh maybe something's

861
00:38:47,630 --> 00:38:44,700
massively wrong with our equations and

862
00:38:51,470 --> 00:38:47,640
so there became a lot of abstractions to

863
00:38:54,530 --> 00:38:51,480

kind of bypass this big issue and to say

864

00:38:56,210 --> 00:38:54,540

oh well maybe if we just it because that

865

00:38:58,490 --> 00:38:56,220

goes infinite or because that goes to

866

00:38:59,990 --> 00:38:58,500

too much energy we just need to pretend

867

00:39:03,170 --> 00:39:00,000

it's not there

868

00:39:06,349 --> 00:39:03,180

but here's the thing it is there it's

869

00:39:09,710 --> 00:39:06,359

just that space time is in a state that

870

00:39:11,990 --> 00:39:09,720

is in high stability Buckminster Fuller

871

00:39:14,990 --> 00:39:12,000

would call it tensegrity where there's a

872

00:39:16,609 --> 00:39:15,000

balance between a push and a pull and

873

00:39:19,550 --> 00:39:16,619

when that push and pull are in perfect

874

00:39:21,410 --> 00:39:19,560

balance and Perfect Harmony the force

875

00:39:25,069 --> 00:39:21,420

doesn't ever express itself it doesn't

876

00:39:27,650 --> 00:39:25,079

come out it stays in Balance right so

877

00:39:31,370 --> 00:39:27,660

you've got this lattice of space-time

878

00:39:33,710 --> 00:39:31,380

that's all in balance with itself and

879

00:39:36,890 --> 00:39:33,720

then what happens is you get that thing

880

00:39:39,770 --> 00:39:36,900

curving around a singularity a little

881

00:39:42,470 --> 00:39:39,780

tiny Singularity a little tiny vortex in

882

00:39:45,050 --> 00:39:42,480

space-time a whirlpool in space-time you

883

00:39:46,790 --> 00:39:45,060

could think of it and around that all of

884

00:39:50,810 --> 00:39:46,800

the space-time curves and curves and

885

00:39:53,690 --> 00:39:50,820

curves until it forms this full geodesic

886

00:39:55,310 --> 00:39:53,700

sphere a multi-layered sphere that and

887

00:39:57,349 --> 00:39:55,320

when I say geodesic what I'm talking

888

00:39:58,849 --> 00:39:57,359

about is like when you're in a dome when

889

00:40:01,970 --> 00:39:58,859

you're looking at the ceiling and the

890

00:40:04,849 --> 00:40:01,980

the triangles home the triangles yes yes

891

00:40:06,650 --> 00:40:04,859

yes that's a geodesic right right and it

892

00:40:08,630 --> 00:40:06,660

and it turns out that this structure

893

00:40:09,710 --> 00:40:08,640

when you make a sphere out of it it's

894

00:40:12,829 --> 00:40:09,720

also got

895

00:40:15,349 --> 00:40:12,839

two polar vortices so it's perfect for

896

00:40:18,589 --> 00:40:15,359

something spinning around a pole and

897

00:40:21,290 --> 00:40:18,599

it's also got five upper pentagonal

898

00:40:23,510 --> 00:40:21,300

vortices and five lower pentagonal

899

00:40:25,910 --> 00:40:23,520

vortices and guess what they're all

900

00:40:28,609 --> 00:40:25,920

exactly equal distant from each other

901
00:40:31,130 --> 00:40:28,619
and from the core so it's forming a

902
00:40:33,710 --> 00:40:31,140
vector equilibrium right and a lot of

903
00:40:35,329 --> 00:40:33,720
people these days are like oh my God the

904
00:40:37,069 --> 00:40:35,339
vector equilibrium like that's the

905
00:40:38,390 --> 00:40:37,079
answer that's the key that's the whole

906
00:40:40,910 --> 00:40:38,400
thing but it's actually the vector

907
00:40:44,630 --> 00:40:40,920
equilibrium as a geodesic that's the

908
00:40:47,630 --> 00:40:44,640
answer it's as a proton and what we're

909
00:40:50,150 --> 00:40:47,640
really getting at here is that the

910
00:40:53,770 --> 00:40:50,160
curvature of space-time that forms a

911
00:40:57,950 --> 00:40:53,780
proton forms a level of a crystalline

912
00:41:01,069 --> 00:40:57,960
energetic structure that is so stable it

913
00:41:03,650 --> 00:41:01,079

never breaks down it is so stable that

914

00:41:07,790 --> 00:41:03,660

it lasts potentially forever potentially

915

00:41:10,130 --> 00:41:07,800

lifetimes of this universe and and it's

916

00:41:13,370 --> 00:41:10,140

also so coherent that

917

00:41:15,770 --> 00:41:13,380

the way it's spinning where it reaches

918

00:41:18,890 --> 00:41:15,780

when the equator of the spin of this

919

00:41:22,790 --> 00:41:18,900

object reaches the speed of light it now

920

00:41:25,790 --> 00:41:22,800

is shearing space time and so the proton

921

00:41:28,970 --> 00:41:25,800

itself is actually acting like a little

922

00:41:31,190 --> 00:41:28,980

miniature Starship okay so once you come

923

00:41:32,510 --> 00:41:31,200

to my talk at conscious life Expo I'm

924

00:41:34,910 --> 00:41:32,520

going to be getting into this because

925

00:41:37,609 --> 00:41:34,920

it's part of the heart of Starship

926
00:41:39,050 --> 00:41:37,619
engineering itself we're not we're not

927
00:41:41,150 --> 00:41:39,060
leaving this we're going to stay right

928
00:41:44,569 --> 00:41:41,160
here but this is my question for the

929
00:41:47,390 --> 00:41:44,579
vortis and for the equilibrium uh for

930
00:41:50,630 --> 00:41:47,400
the two point do you need a mat do you

931
00:41:52,609 --> 00:41:50,640
need mass at some point for that well

932
00:41:55,130 --> 00:41:52,619
that's the thing there is no such thing

933
00:41:59,410 --> 00:41:55,140
as mass mass doesn't really even really

934
00:42:03,890 --> 00:41:59,420
exist right mass is formed from

935
00:42:07,210 --> 00:42:03,900
space-time in a coherent stable geodesic

936
00:42:10,069 --> 00:42:07,220
form that operates as its own

937
00:42:13,490 --> 00:42:10,079
individualized entity now sudden

938
00:42:16,010 --> 00:42:13,500

suddenly that thing has relationships

939

00:42:18,010 --> 00:42:16,020

with other things in other words protons

940

00:42:22,849 --> 00:42:18,020

having relationships with other protons

941

00:42:25,490 --> 00:42:22,859

and now that has an influence on space

942

00:42:27,349 --> 00:42:25,500

time so if you try to push that thing or

943

00:42:29,470 --> 00:42:27,359

you try to zap that thing with a laser

944

00:42:32,750 --> 00:42:29,480

you try to do things with it it it

945

00:42:34,790 --> 00:42:32,760

resists and it has feedback that's what

946

00:42:37,190 --> 00:42:34,800

we call Mass it's actually the

947

00:42:40,069 --> 00:42:37,200

resistance and the feedback from this

948

00:42:42,950 --> 00:42:40,079

bundle of space-time that gives us this

949

00:42:47,450 --> 00:42:42,960

perception of mass and thus aggregated

950

00:42:50,329 --> 00:42:47,460

creates gravitation as well okay I'm I'm

951
00:42:52,550 --> 00:42:50,339
there I've seen your presentation so

952
00:42:54,170 --> 00:42:52,560
yeah I kind of got a little bit of an

953
00:42:56,329 --> 00:42:54,180
inside track on this and we've talked

954
00:42:59,870 --> 00:42:56,339
about this before too uh you know pretty

955
00:43:04,430 --> 00:42:59,880
in depth but yeah yeah where I'm where

956
00:43:07,970 --> 00:43:04,440
where where I I I have to stop and and

957
00:43:11,329 --> 00:43:07,980
ask for these particles to interact yes

958
00:43:13,849 --> 00:43:11,339
the the in in a geodesic fashion in in

959
00:43:15,890 --> 00:43:13,859
in two attractive the and the vortices

960
00:43:18,470 --> 00:43:15,900
and and then the more

961
00:43:20,270 --> 00:43:18,480
it seems like they would have to have a

962
00:43:25,670 --> 00:43:20,280
reason to get together

963
00:43:28,510 --> 00:43:25,680

so what is what is what there isn't a a

964

00:43:32,210 --> 00:43:28,520

mass or something centralized with this

965

00:43:35,390 --> 00:43:32,220

what is attracting them to each other

966

00:43:38,390 --> 00:43:35,400

well you know for example in the center

967

00:43:40,490 --> 00:43:38,400

of a star what happens is all the helium

968

00:43:44,089 --> 00:43:40,500

atoms which are individual protons

969

00:43:46,750 --> 00:43:44,099

floating around right they find

970

00:43:49,130 --> 00:43:46,760

themselves so intensely

971

00:43:50,690 --> 00:43:49,140

compressed together from all the energy

972

00:43:53,150 --> 00:43:50,700

right and they're all spinning

973

00:43:55,790 --> 00:43:53,160

independently and trying to be like I'm

974

00:43:57,770 --> 00:43:55,800

I'm My Own being you know don't don't

975

00:43:59,690 --> 00:43:57,780

don't mess with me don't come into my

976

00:44:01,550 --> 00:43:59,700

space but then they get pushed and

977

00:44:04,790 --> 00:44:01,560

pushed and pushed and so they try to

978

00:44:07,309 --> 00:44:04,800

find where is the best place for them to

979

00:44:09,410 --> 00:44:07,319

connect and the best place for them to

980

00:44:12,349 --> 00:44:09,420

connect is as you can imagine spinning

981

00:44:14,150 --> 00:44:12,359

balls right where do they want to where

982

00:44:16,849 --> 00:44:14,160

can they touch that they don't

983

00:44:19,210 --> 00:44:16,859

immediately shoot each other off that's

984

00:44:22,970 --> 00:44:19,220

right if they spin the same direction

985

00:44:24,950 --> 00:44:22,980

and they align on the poles then they

986

00:44:27,710 --> 00:44:24,960

can literally touch and two spinning

987

00:44:30,890 --> 00:44:27,720

balls can touch at the poles and nothing

988

00:44:33,650 --> 00:44:30,900

happens they just perfectly you know

989

00:44:37,790 --> 00:44:33,660

slot together right right they do that

990

00:44:39,470 --> 00:44:37,800

with gravity and mass though well in

991

00:44:42,170 --> 00:44:39,480

this case what we're we're literally

992

00:44:43,670 --> 00:44:42,180

going before the description of gravity

993

00:44:46,309 --> 00:44:43,680

or the before the description of mass

994

00:44:48,950 --> 00:44:46,319

and what we would say Bonds in this

995

00:44:51,349 --> 00:44:48,960

Fusion moment uh right you know two

996

00:44:53,809 --> 00:44:51,359

protons together two helium atoms

997

00:44:56,150 --> 00:44:53,819

together what bonds them we call the

998

00:44:59,690 --> 00:44:56,160

strong force right the yukawa potential

999

00:45:02,390 --> 00:44:59,700

but that that strong force influence

1000

00:45:04,790 --> 00:45:02,400

only exists in certain regions of the

1001
00:45:05,870 --> 00:45:04,800
proton and only within a certain

1002
00:45:08,630 --> 00:45:05,880
distance

1003
00:45:10,630 --> 00:45:08,640
so this is part of the key is that these

1004
00:45:14,210 --> 00:45:10,640
little spaceships that are flying around

1005
00:45:16,849 --> 00:45:14,220
they have to line up just right and when

1006
00:45:18,770 --> 00:45:16,859
they do and they line up they can link

1007
00:45:20,450 --> 00:45:18,780
together and then once they're linked

1008
00:45:22,910 --> 00:45:20,460
once they're bonded like that they're

1009
00:45:25,910 --> 00:45:22,920
spinning together and they're co-moving

1010
00:45:28,849 --> 00:45:25,920
space time they can move more space time

1011
00:45:32,270 --> 00:45:28,859
so more electron Fields more electrical

1012
00:45:34,910 --> 00:45:32,280
field moving right right but they also

1013
00:45:37,609 --> 00:45:34,920

carry a greater influence on other

1014

00:45:39,829 --> 00:45:37,619

objects in other words there's more mass

1015

00:45:42,410 --> 00:45:39,839

the atomic number goes up there's more

1016

00:45:45,290 --> 00:45:42,420

mass but what how do you get how do you

1017

00:45:47,930 --> 00:45:45,300

get carbon how do you get you know our

1018

00:45:49,490 --> 00:45:47,940

bodies and iron and all the heavy

1019

00:45:52,089 --> 00:45:49,500

elements that make up this whole planet

1020

00:45:55,910 --> 00:45:52,099

that you see well all of that happens

1021

00:45:58,910 --> 00:45:55,920

when a star goes Supernova and the

1022

00:46:01,250 --> 00:45:58,920

entire thing collapses on itself and

1023

00:46:05,210 --> 00:46:01,260

when it does when it collapses inward

1024

00:46:07,849 --> 00:46:05,220

it's literally like a hyper a hyper

1025

00:46:10,550 --> 00:46:07,859

bonding experience for all of the

1026

00:46:13,730 --> 00:46:10,560

protons in there it's it's like it's

1027

00:46:16,970 --> 00:46:13,740

like a poly orgy dating Fest gone wild

1028

00:46:19,730 --> 00:46:16,980

where literally all the protons are now

1029

00:46:23,210 --> 00:46:19,740

bonding into new configurations with

1030

00:46:26,030 --> 00:46:23,220

other protons all at the same time and

1031

00:46:28,910 --> 00:46:26,040

then being blasted out across the

1032

00:46:31,309 --> 00:46:28,920

galactic vacuum to essentially form

1033

00:46:33,290 --> 00:46:31,319

planets and you know stars and that's

1034

00:46:35,809 --> 00:46:33,300

where you get all these heavier elements

1035

00:46:38,870 --> 00:46:35,819

and heavier forms of mass it's literally

1036

00:46:42,109 --> 00:46:38,880

just from these moments of ecstatic

1037

00:46:44,750 --> 00:46:42,119

Union that these protons go through you

1038

00:46:47,569 --> 00:46:44,760

know when I hear about

1039

00:46:48,950 --> 00:46:47,579

um uh you know Zero Point Energy and and

1040

00:46:51,109 --> 00:46:48,960

some of these other I'm going to say

1041

00:46:54,050 --> 00:46:51,119

Fringe because I'm I'm not fully on

1042

00:46:58,690 --> 00:46:54,060

board with those Concepts sure

1043

00:47:02,630 --> 00:46:58,700

um but there must be when you go down to

1044

00:47:03,970 --> 00:47:02,640

a particle level forces and and what is

1045

00:47:07,430 --> 00:47:03,980

happening there

1046

00:47:10,670 --> 00:47:07,440

and and the particles that make up

1047

00:47:13,250 --> 00:47:10,680

everything in this universe are are 13.8

1048

00:47:16,790 --> 00:47:13,260

billion years old but it's not let's not

1049

00:47:19,069 --> 00:47:16,800

let that idea go there's energy that

1050

00:47:21,589 --> 00:47:19,079

that has been keeping this together for

1051
00:47:24,069 --> 00:47:21,599
13.8 billion years and and will continue

1052
00:47:28,370 --> 00:47:24,079
to do that for trillions of years

1053
00:47:30,770 --> 00:47:28,380
that has to be accessible and wouldn't

1054
00:47:35,150 --> 00:47:30,780
ET understand that what these forces are

1055
00:47:37,609 --> 00:47:35,160
and then turn around and use this for uh

1056
00:47:40,790 --> 00:47:37,619
uh the energy needed to you know fold

1057
00:47:43,250 --> 00:47:40,800
space Bend space or wormholes or

1058
00:47:44,930 --> 00:47:43,260
whatever else you would need to go from

1059
00:47:48,109 --> 00:47:44,940
one point to another

1060
00:47:50,809 --> 00:47:48,119
absolutely I mean you you have to look

1061
00:47:54,109 --> 00:47:50,819
at a civilization

1062
00:47:56,270 --> 00:47:54,119
as a process of witnessing its

1063
00:47:59,450 --> 00:47:56,280

environment and coming to understand the

1064

00:48:01,309 --> 00:47:59,460

patterns within it so where are we at

1065

00:48:04,430 --> 00:48:01,319

well we're just at the point where we

1066

00:48:07,490 --> 00:48:04,440

understood enough that like we realized

1067

00:48:09,290 --> 00:48:07,500

that how we form language and ideas is a

1068

00:48:11,210 --> 00:48:09,300

pattern and then we figured out we can

1069

00:48:13,670 --> 00:48:11,220

build a model of that pattern and then

1070

00:48:15,109 --> 00:48:13,680

we can actually run that model and

1071

00:48:17,270 --> 00:48:15,119

suddenly it seems like there's another

1072

00:48:19,670 --> 00:48:17,280

intelligence talking to us because we're

1073

00:48:21,230 --> 00:48:19,680

duplicating the model of our own

1074

00:48:23,150 --> 00:48:21,240

language and thought form and thought

1075

00:48:26,390 --> 00:48:23,160

process right this is a pretty cool

1076
00:48:29,210 --> 00:48:26,400
stage in human development now if you

1077
00:48:31,069 --> 00:48:29,220
look at a Galactic Civilization what

1078
00:48:32,990 --> 00:48:31,079
they've done is they understand the

1079
00:48:34,849 --> 00:48:33,000
patterns that have occurred within the

1080
00:48:37,970 --> 00:48:34,859
stars that are formed their star system

1081
00:48:39,530 --> 00:48:37,980
they understand that there's patterns

1082
00:48:41,870 --> 00:48:39,540
that formed all the mass in the matter

1083
00:48:44,030 --> 00:48:41,880
of the planets they understand that

1084
00:48:46,730 --> 00:48:44,040
gravity has particular patterns and

1085
00:48:49,490 --> 00:48:46,740
geometry electromagnetism has patterns

1086
00:48:51,890 --> 00:48:49,500
in geometry and when you learn how to

1087
00:48:54,290 --> 00:48:51,900
operate and communicate to those

1088
00:48:56,510 --> 00:48:54,300

patterns now suddenly you have the

1089

00:48:59,150 --> 00:48:56,520

ability to control gravity just like we

1090

00:49:01,809 --> 00:48:59,160

control electromagnetism right now like

1091

00:49:04,309 --> 00:49:01,819

we're doing barely especially

1092

00:49:06,170 --> 00:49:04,319

here's how far we've come

1093

00:49:09,309 --> 00:49:06,180

seriously you ready

1094

00:49:14,150 --> 00:49:09,319

let's go that's it that's it that's it

1095

00:49:16,130 --> 00:49:14,160

that's a butane and a spot right that's

1096

00:49:19,069 --> 00:49:16,140

right that's how we get to the moon

1097

00:49:21,410 --> 00:49:19,079

right yeah really yeah it really is it

1098

00:49:24,170 --> 00:49:21,420

really is it's that's for sure you've

1099

00:49:26,329 --> 00:49:24,180

heard my joke about that yes I have I

1100

00:49:29,030 --> 00:49:26,339

have I did that for you I did that for

1101

00:49:32,390 --> 00:49:29,040

you but when you think about it you know

1102

00:49:34,670 --> 00:49:32,400

between 1900 and 2023 right it's just

1103

00:49:38,690 --> 00:49:34,680

100 years in the galactic scale it's

1104

00:49:41,450 --> 00:49:38,700

absolutely nothing so truly to E.T

1105

00:49:43,550 --> 00:49:41,460

that's man right I mean that's it that's

1106

00:49:46,750 --> 00:49:43,560

it good job guys you learned how to lock

1107

00:49:48,849 --> 00:49:46,760

the fuse and ride the bomb good job

1108

00:49:52,730 --> 00:49:48,859

you know

1109

00:49:54,770 --> 00:49:52,740

fireworks but um but yeah continue with

1110

00:49:57,710 --> 00:49:54,780

this because

1111

00:50:00,170 --> 00:49:57,720

um one of the one of the points that I

1112

00:50:02,390 --> 00:50:00,180

like to make on this show and and I know

1113

00:50:04,190 --> 00:50:02,400

it's kind of insulting to a lot of

1114

00:50:05,630 --> 00:50:04,200

people but really you just need to

1115

00:50:09,770 --> 00:50:05,640

understand

1116

00:50:13,309 --> 00:50:09,780

uh this and it's it's our ability to

1117

00:50:15,829 --> 00:50:13,319

understand something like this audience

1118

00:50:19,370 --> 00:50:15,839

how much what's our level of

1119

00:50:22,130 --> 00:50:19,380

understanding because if we go back

1120

00:50:25,730 --> 00:50:22,140

if we you know times you go back 50 000

1121

00:50:28,250 --> 00:50:25,740

years and the level of understanding to

1122

00:50:31,190 --> 00:50:28,260

Neanderthal they wouldn't understand

1123

00:50:34,309 --> 00:50:31,200

this concept we laugh about it now this

1124

00:50:36,770 --> 00:50:34,319

is this is this is shamanic Voodoo stuff

1125

00:50:38,630 --> 00:50:36,780

right this is black magic

1126
00:50:41,930 --> 00:50:38,640
um and they wouldn't understand you know

1127
00:50:44,930 --> 00:50:41,940
a very simple concept like that but

1128
00:50:47,390 --> 00:50:44,940
um it's it's the bill the same brain

1129
00:50:49,849 --> 00:50:47,400
right it's the same brain it's the

1130
00:50:52,010 --> 00:50:49,859
ability to understand so where we are

1131
00:50:54,770 --> 00:50:52,020
right now

1132
00:50:57,170 --> 00:50:54,780
ET shows up and tries to explain to us

1133
00:51:00,230 --> 00:50:57,180
how to fold space and it's done really

1134
00:51:02,150 --> 00:51:00,240
simply you just take right well we

1135
00:51:05,329 --> 00:51:02,160
wouldn't have the ability to understand

1136
00:51:07,670 --> 00:51:05,339
that right now or would we

1137
00:51:09,650 --> 00:51:07,680
well I mean that's that's that's part of

1138
00:51:12,109 --> 00:51:09,660

my work that's what I'm here for and and

1139

00:51:15,410 --> 00:51:12,119

others like me who are essentially

1140

00:51:18,170 --> 00:51:15,420

trying to help build a bridge help to

1141

00:51:20,030 --> 00:51:18,180

communicate some of the concepts the

1142

00:51:22,609 --> 00:51:20,040

understandings the physics the

1143

00:51:25,430 --> 00:51:22,619

philosophy and how people actually

1144

00:51:27,650 --> 00:51:25,440

ground the science of how a galactic

1145

00:51:30,170 --> 00:51:27,660

culture civilization could work because

1146

00:51:33,170 --> 00:51:30,180

to be honest Jimmy you know I love

1147

00:51:35,569 --> 00:51:33,180

conscious life Expo and there's a lot of

1148

00:51:40,130 --> 00:51:35,579

woo around and when I say woo I mean

1149

00:51:43,069 --> 00:51:40,140

like like yeah I I listen to some talks

1150

00:51:45,470 --> 00:51:43,079

and and it's like okay great this is

1151
00:51:47,089 --> 00:51:45,480
it's great good good that you're talking

1152
00:51:48,650 --> 00:51:47,099
to spirits and good that you're

1153
00:51:50,630 --> 00:51:48,660
channeling and good that you hung out

1154
00:51:53,089 --> 00:51:50,640
with your grandma who passed away 10

1155
00:51:56,030 --> 00:51:53,099
years ago and and great that you're

1156
00:51:57,829 --> 00:51:56,040
starting to have contact with other you

1157
00:52:00,290 --> 00:51:57,839
know extraterrestrial beings that know

1158
00:52:03,109 --> 00:52:00,300
telepathy and things like that but

1159
00:52:05,270 --> 00:52:03,119
there's a lot of lack of discernment and

1160
00:52:07,609 --> 00:52:05,280
grounding and discernment and ground

1161
00:52:10,490 --> 00:52:07,619
founding is critical for us to actually

1162
00:52:12,829 --> 00:52:10,500
stabilize this knowledge because as long

1163
00:52:16,069 --> 00:52:12,839

as it's Fringe as long as its Edge as

1164

00:52:18,470 --> 00:52:16,079

long as it's just you know those crazy

1165

00:52:21,950 --> 00:52:18,480

peeps you know that go to these you know

1166

00:52:26,150 --> 00:52:21,960

conferences or whatever it's uh it's

1167

00:52:28,250 --> 00:52:26,160

it's not gonna land well in terms of the

1168

00:52:31,069 --> 00:52:28,260

entire civilization actually taking

1169

00:52:34,069 --> 00:52:31,079

advantage of the gifts of this knowledge

1170

00:52:37,130 --> 00:52:34,079

I mean we are in we are in a point in

1171

00:52:39,470 --> 00:52:37,140

time where the possibility to integrate

1172

00:52:40,970 --> 00:52:39,480

all of the incredible ancient wisdom and

1173

00:52:44,210 --> 00:52:40,980

knowledge that we've had for thousands

1174

00:52:47,030 --> 00:52:44,220

and thousands of years as well as take

1175

00:52:49,370 --> 00:52:47,040

our physics further and not just be able

1176
00:52:52,190 --> 00:52:49,380
to say control an electromagnetic field

1177
00:52:55,609 --> 00:52:52,200
to create a laser light that can shine

1178
00:52:57,710 --> 00:52:55,619
really sharp or you know light up a

1179
00:53:00,410 --> 00:52:57,720
monitor that you're looking at or light

1180
00:53:03,530 --> 00:53:00,420
your house or those kinds of things but

1181
00:53:06,109 --> 00:53:03,540
actually apply gravitational physics and

1182
00:53:09,290 --> 00:53:06,119
torsion physics to not just turning the

1183
00:53:11,390 --> 00:53:09,300
wheels on your car to move you but

1184
00:53:13,970 --> 00:53:11,400
instead to actually turn the structure

1185
00:53:17,390 --> 00:53:13,980
of space-time in a way that lets you

1186
00:53:20,569 --> 00:53:17,400
move much much much faster and not just

1187
00:53:24,109 --> 00:53:20,579
much faster but instantaneously in some

1188
00:53:26,890 --> 00:53:24,119

cases and you know a lot of the really

1189

00:53:30,230 --> 00:53:26,900

really exciting stuff about

1190

00:53:33,530 --> 00:53:30,240

about this work is understanding the

1191

00:53:35,690 --> 00:53:33,540

implications I mean Jimmy imagine you

1192

00:53:37,609 --> 00:53:35,700

could go out to your car but instead of

1193

00:53:39,230 --> 00:53:37,619

like you get in your car and you go to

1194

00:53:40,609 --> 00:53:39,240

your local store or you know you go hang

1195

00:53:43,250 --> 00:53:40,619

out with your friends that are locally

1196

00:53:48,130 --> 00:53:43,260

you could literally get in your car you

1197

00:53:51,290 --> 00:53:48,140

know cruise up to a nearby like you know

1198

00:53:54,470 --> 00:53:51,300

trans Stellar gate right where other

1199

00:53:56,870 --> 00:53:54,480

cars are jumping and boom you jump to

1200

00:53:58,910 --> 00:53:56,880

the Pleiades you fly in on you know

1201
00:54:02,030 --> 00:53:58,920
essentially a planet that's like flossed

1202
00:54:04,250 --> 00:54:02,040
in Paradise from The Fifth Element you

1203
00:54:06,829 --> 00:54:04,260
land uh you know in a in a little

1204
00:54:08,510 --> 00:54:06,839
parking area by a beach on an eye a

1205
00:54:10,730 --> 00:54:08,520
remote island and you hang out with

1206
00:54:12,770 --> 00:54:10,740
friends of yours that live all over the

1207
00:54:14,270 --> 00:54:12,780
world you know you've got a crew of

1208
00:54:16,250 --> 00:54:14,280
friends that each live on different

1209
00:54:18,589 --> 00:54:16,260
continents and you decide to hang out

1210
00:54:20,270 --> 00:54:18,599
with them for the afternoon and then you

1211
00:54:24,650 --> 00:54:20,280
get back in your car you fly back you

1212
00:54:27,890 --> 00:54:24,660
stop over in Tokyo you know pick up some

1213
00:54:29,930 --> 00:54:27,900

really good sushi and get home in time

1214

00:54:31,970 --> 00:54:29,940

to have dinner and you know to catch

1215

00:54:36,230 --> 00:54:31,980

catch the you know Fade to a block show

1216

00:54:38,750 --> 00:54:36,240

like it's literally like the level of of

1217

00:54:41,049 --> 00:54:38,760

experience that we're moving to as a

1218

00:54:44,089 --> 00:54:41,059

civilization when we have gravity drives

1219

00:54:45,109 --> 00:54:44,099

is so far beyond what we're doing right

1220

00:54:47,210 --> 00:54:45,119

now

1221

00:54:50,510 --> 00:54:47,220

um that it takes a leap it's a

1222

00:54:52,790 --> 00:54:50,520

psychological leap and that's true of a

1223

00:54:54,650 --> 00:54:52,800

lot of these topics is that we're not

1224

00:54:56,329 --> 00:54:54,660

just dealing with oh you if you just

1225

00:54:58,730 --> 00:54:56,339

understand this or that you're gonna get

1226

00:55:01,490 --> 00:54:58,740

it's that you have to start actually

1227

00:55:03,290 --> 00:55:01,500

perceiving the world in a new and more

1228

00:55:05,809 --> 00:55:03,300

profound way and I think a lot of people

1229

00:55:07,309 --> 00:55:05,819

are ready for that it and here here's

1230

00:55:08,230 --> 00:55:07,319

here's the thing

1231

00:55:11,329 --> 00:55:08,240

um

1232

00:55:13,210 --> 00:55:11,339

because going back to our level of uh

1233

00:55:17,930 --> 00:55:13,220

you know understanding right and what

1234

00:55:19,790 --> 00:55:17,940

when when you have so many people let's

1235

00:55:23,030 --> 00:55:19,800

talk about conscious life Expo it's a

1236

00:55:25,390 --> 00:55:23,040

really good uh example of this

1237

00:55:27,950 --> 00:55:25,400

um that have that have had an

1238

00:55:30,230 --> 00:55:27,960

extraordinary experience that they can't

1239

00:55:33,230 --> 00:55:30,240

explain it's the level of understanding

1240

00:55:36,770 --> 00:55:33,240

right yes the level of understanding but

1241

00:55:40,730 --> 00:55:36,780

all of this whether it's ghost or the

1242

00:55:44,049 --> 00:55:40,740

afterlife or it's uh plasma balls of

1243

00:55:48,109 --> 00:55:44,059

energy and or you have whatever it may

1244

00:55:51,190 --> 00:55:48,119

Bigfoot then all of this just may be

1245

00:55:54,349 --> 00:55:51,200

connected in some entangled

1246

00:55:56,210 --> 00:55:54,359

channeled way right and that it's it's

1247

00:55:58,609 --> 00:55:56,220

because of our level of understanding

1248

00:56:00,770 --> 00:55:58,619

we're trying to figure it out you know

1249

00:56:04,190 --> 00:56:00,780

science is working on it you're working

1250

00:56:06,890 --> 00:56:04,200

on it uh The Fringe is working on it and

1251
00:56:10,309 --> 00:56:06,900
it just may be Adam we're all just

1252
00:56:13,309 --> 00:56:10,319
chasing the same exact thing right and

1253
00:56:15,349 --> 00:56:13,319
in the end it's all connected and I keep

1254
00:56:17,990 --> 00:56:15,359
saying that but you know what I mean

1255
00:56:21,049 --> 00:56:18,000
yeah it is all connected Jimmy I mean

1256
00:56:23,569 --> 00:56:21,059
when you look at when you look at the

1257
00:56:25,970 --> 00:56:23,579
understandings of a cold wisdom

1258
00:56:28,130 --> 00:56:25,980
Traditions from around the world going

1259
00:56:31,130 --> 00:56:28,140
back for thousands of years you have a

1260
00:56:33,710 --> 00:56:31,140
clear shared understanding that there

1261
00:56:36,349 --> 00:56:33,720
are layers to our conscious perception

1262
00:56:37,790 --> 00:56:36,359
of reality in other words the planes so

1263
00:56:39,109 --> 00:56:37,800

you have the gross plane which is the

1264

00:56:41,089 --> 00:56:39,119

physical world

1265

00:56:44,450 --> 00:56:41,099

you've got the etheric plane which is

1266

00:56:48,170 --> 00:56:44,460

the subtle energy world the subtle plane

1267

00:56:50,150 --> 00:56:48,180

you've got the um the astral plane which

1268

00:56:51,650 --> 00:56:50,160

is essentially the mental world and some

1269

00:56:53,270 --> 00:56:51,660

people separate the astral and the

1270

00:56:55,490 --> 00:56:53,280

mental but essentially they function the

1271

00:56:57,530 --> 00:56:55,500

same way yeah and and you know then

1272

00:56:59,930 --> 00:56:57,540

you've got the causal plane after that

1273

00:57:02,930 --> 00:56:59,940

and so on and so forth and these these

1274

00:57:05,690 --> 00:57:02,940

are not just mental Concepts these are

1275

00:57:08,150 --> 00:57:05,700

actually experiential understandings of

1276

00:57:10,130 --> 00:57:08,160

reality through direct experience of

1277

00:57:11,750 --> 00:57:10,140

practitioners like myself and many many

1278

00:57:13,730 --> 00:57:11,760

others who have explored these planes

1279

00:57:17,329 --> 00:57:13,740

and then you have people like Barbara

1280

00:57:20,270 --> 00:57:17,339

Ann Brennan a NASA astrophysicist who

1281

00:57:22,970 --> 00:57:20,280

decides to measure the human energy body

1282

00:57:26,450 --> 00:57:22,980

to understand the influence of being in

1283

00:57:29,630 --> 00:57:26,460

Orbit on the body right and discovers

1284

00:57:31,309 --> 00:57:29,640

there are these seven distinct layers to

1285

00:57:34,190 --> 00:57:31,319

the electromagnetic field of the energy

1286

00:57:35,930 --> 00:57:34,200

body and she was like wait what I just

1287

00:57:38,630 --> 00:57:35,940

went to a yoga class and they're talking

1288

00:57:42,349 --> 00:57:38,640

about seven layers of energy and here

1289

00:57:44,390 --> 00:57:42,359

I'm measuring it in NASA she quits NASA

1290

00:57:46,970 --> 00:57:44,400

and forms a School of Healing right yeah

1291

00:57:49,549 --> 00:57:46,980

yeah it's fascinating and that is not a

1292

00:57:51,829 --> 00:57:49,559

coincidence no you know it's not a

1293

00:57:54,650 --> 00:57:51,839

coincidence it's it's not and we're

1294

00:57:56,690 --> 00:57:54,660

talking about these these processes in

1295

00:57:58,130 --> 00:57:56,700

physics and in space time and then I'll

1296

00:58:00,470 --> 00:57:58,140

pass it back to you here because I I

1297

00:58:03,230 --> 00:58:00,480

feel you got something good is

1298

00:58:07,670 --> 00:58:03,240

essentially that like when we're talking

1299

00:58:09,589 --> 00:58:07,680

about the the effects of the etheric on

1300

00:58:13,190 --> 00:58:09,599

the physical what we're actually talking

1301
00:58:16,010 --> 00:58:13,200
about is the Quantum electromagnetic

1302
00:58:18,710 --> 00:58:16,020
plenum plenum of space-time we're

1303
00:58:20,870 --> 00:58:18,720
talking about the etheric field of

1304
00:58:24,170 --> 00:58:20,880
space-time what's been called The Ether

1305
00:58:26,630 --> 00:58:24,180
for thousands of years in philosophy but

1306
00:58:28,910 --> 00:58:26,640
that is actually part of physics and is

1307
00:58:30,950 --> 00:58:28,920
real in physics and when we're talking

1308
00:58:34,970 --> 00:58:30,960
about the astral and the mental plane

1309
00:58:37,670 --> 00:58:34,980
yes now we're a little Beyond this field

1310
00:58:40,670 --> 00:58:37,680
of physics that we've ever gotten to and

1311
00:58:43,370 --> 00:58:40,680
now we're dealing with the magic of how

1312
00:58:45,950 --> 00:58:43,380
mind actually operates and how mind

1313
00:58:48,710 --> 00:58:45,960

works which is you know the realm of the

1314

00:58:50,809 --> 00:58:48,720

kibalian and and of all of these other

1315

00:58:53,270 --> 00:58:50,819

sort of approaches

1316

00:58:55,670 --> 00:58:53,280

um and each of these things have have

1317

00:58:58,370 --> 00:58:55,680

gifts for us and deep profound

1318

00:59:00,650 --> 00:58:58,380

understandings and so those that are

1319

00:59:03,589 --> 00:59:00,660

having these fantastic experiences they

1320

00:59:07,309 --> 00:59:03,599

don't know how to explain there isn't a

1321

00:59:10,130 --> 00:59:07,319

cultural Mass accepted context that can

1322

00:59:12,470 --> 00:59:10,140

help them understand all of that it's

1323

00:59:14,870 --> 00:59:12,480

not that the knowledge is missing it's

1324

00:59:17,150 --> 00:59:14,880

there it's in all these Traditions it's

1325

00:59:19,250 --> 00:59:17,160

in our philosophy it's in our physics

1326

00:59:22,250 --> 00:59:19,260

you know the great philosophers have

1327

00:59:24,589 --> 00:59:22,260

covered a lot of these big questions

1328

00:59:26,870 --> 00:59:24,599

um but even very few of them were able

1329

00:59:28,970 --> 00:59:26,880

to deeply integrate it and so you end up

1330

00:59:30,910 --> 00:59:28,980

with guys like Nietzsche who's like you

1331

00:59:35,150 --> 00:59:30,920

know depressed all the time

1332

00:59:38,510 --> 00:59:35,160

and I've been reading uh lately yeah

1333

00:59:40,130 --> 00:59:38,520

okay so uh I'm just gonna leave it right

1334

00:59:42,349 --> 00:59:40,140

there sure

1335

00:59:45,710 --> 00:59:42,359

um but here's the thing when we talk

1336

00:59:50,030 --> 00:59:45,720

about the woo and and I love the thought

1337

00:59:53,030 --> 00:59:50,040

of woo I I mean to the the extremes out

1338

00:59:55,549 --> 00:59:53,040

there man I I I think about it all the

1339

00:59:58,630 --> 00:59:55,559

time right but I'm also like man

1340

01:00:01,910 --> 00:59:58,640

[h__\h] okay so there's a part of me

1341

01:00:05,150 --> 01:00:01,920

that does that and it I keep myself

1342

01:00:08,329 --> 01:00:05,160

balanced right on the two masses that

1343

01:00:11,210 --> 01:00:08,339

are that are that are that are just uh

1344

01:00:14,089 --> 01:00:11,220

coherent right and and but but here's

1345

01:00:16,490 --> 01:00:14,099

the thing then I go to Egypt

1346

01:00:18,770 --> 01:00:16,500

and I went through and when we talk

1347

01:00:21,170 --> 01:00:18,780

about Kundalini and seven chakras and

1348

01:00:22,910 --> 01:00:21,180

pineal gland and this I'm like you know

1349

01:00:24,770 --> 01:00:22,920

what I love reading I love hearing the

1350

01:00:28,069 --> 01:00:24,780

stories tell me about your experiences

1351
01:00:29,809 --> 01:00:28,079
but [h__\h] right so anyways but then I

1352
01:00:34,250 --> 01:00:29,819
go to Egypt

1353
01:00:36,530 --> 01:00:34,260
I got tired of stuff happening to me

1354
01:00:39,950 --> 01:00:36,540
um you know I mean it's just like man

1355
01:00:42,530 --> 01:00:39,960
not again what and I didn't have I

1356
01:00:47,390 --> 01:00:42,540
needed you know what I needed I needed

1357
01:00:49,190 --> 01:00:47,400
my awakened uh conscious princess next

1358
01:00:51,710 --> 01:00:49,200
to me you know with the diamond on her

1359
01:00:53,690 --> 01:00:51,720
head to just walked me through this

1360
01:00:54,609 --> 01:00:53,700
stuff you know okay this is just pretty

1361
01:00:58,150 --> 01:00:54,619
Jimmy

1362
01:01:01,329 --> 01:00:58,160
yes yes yes yes yes and I was by myself

1363
01:01:04,609 --> 01:01:01,339

you know and and then it's it's it's

1364

01:01:07,069 --> 01:01:04,619

what's really interesting with it and I

1365

01:01:09,829 --> 01:01:07,079

love physics I love science and I love

1366

01:01:13,490 --> 01:01:09,839

what I've learned and I've accumulated a

1367

01:01:15,109 --> 01:01:13,500

lot of knowledge yeah right you sit back

1368

01:01:19,370 --> 01:01:15,119

and you go well I guess this stuff is

1369

01:01:21,530 --> 01:01:19,380

real yeah oh okay and the Ancients

1370

01:01:23,990 --> 01:01:21,540

understood this Adam had a clear

1371

01:01:25,490 --> 01:01:24,000

understanding of it you know a lot of

1372

01:01:28,309 --> 01:01:25,500

people even listening to your show

1373

01:01:31,329 --> 01:01:28,319

probably think like I'm like a stiff

1374

01:01:34,309 --> 01:01:31,339

science physics

1375

01:01:38,210 --> 01:01:34,319

and the reality is is that I was 15

1376
01:01:40,309 --> 01:01:38,220
years old and I started experiencing the

1377
01:01:42,470 --> 01:01:40,319
force all around me and the fabric of

1378
01:01:45,349 --> 01:01:42,480
space-time talking to me and I'm talking

1379
01:01:48,170 --> 01:01:45,359
to it and I'm causing miracles to happen

1380
01:01:50,809 --> 01:01:48,180
and noticing how geometries could be

1381
01:01:52,730 --> 01:01:50,819
used to do certain things in Magic and

1382
01:01:55,490 --> 01:01:52,740
I'm a teenager and my friends are like

1383
01:01:57,109 --> 01:01:55,500
what the heck is going on and well Adam

1384
01:01:58,910 --> 01:01:57,119
what are you even talking about and how

1385
01:02:02,450 --> 01:01:58,920
did that just happen and what the you

1386
01:02:06,230 --> 01:02:02,460
know and and I I just basically stumbled

1387
01:02:08,510 --> 01:02:06,240
down a rabbit hole into realizing oh

1388
01:02:10,970 --> 01:02:08,520

like this is stuff that I've been doing

1389

01:02:14,450 --> 01:02:10,980

for a long time somehow this is all

1390

01:02:16,370 --> 01:02:14,460

really familiar to me and and and then

1391

01:02:19,430 --> 01:02:16,380

eventually I just kind of like opened

1392

01:02:21,650 --> 01:02:19,440

this codex in my Consciousness and I

1393

01:02:23,630 --> 01:02:21,660

realized that I'd already figured out a

1394

01:02:24,829 --> 01:02:23,640

lot of the answers to these puzzles and

1395

01:02:27,230 --> 01:02:24,839

I just I've been teaching them for

1396

01:02:28,670 --> 01:02:27,240

lifetimes and I I didn't even believe in

1397

01:02:31,130 --> 01:02:28,680

past lives

1398

01:02:33,470 --> 01:02:31,140

but it was obvious that there was some

1399

01:02:36,109 --> 01:02:33,480

way that this this current had moved

1400

01:02:38,270 --> 01:02:36,119

through me and I had to figure out how

1401

01:02:39,950 --> 01:02:38,280

do I communicate about this in a

1402

01:02:41,510 --> 01:02:39,960

scientific way and that's why I got

1403

01:02:43,910 --> 01:02:41,520

obsessed with physics because I wanted

1404

01:02:46,250 --> 01:02:43,920

to actually understand how the heck

1405

01:02:49,010 --> 01:02:46,260

don't we already get this in physics

1406

01:02:50,750 --> 01:02:49,020

right right right uh Adam I've walked

1407

01:02:54,700 --> 01:02:50,760

the streets of Denver with you you're

1408

01:02:56,349 --> 01:02:54,710

the opposite of stiff okay

1409

01:02:59,569 --> 01:02:56,359

[Music]

1410

01:03:01,250 --> 01:02:59,579

I try to keep a good Swagger on you you

1411

01:03:04,849 --> 01:03:01,260

know I'm trying to keep that Swagger

1412

01:03:07,190 --> 01:03:04,859

good let's let's be very clear here you

1413

01:03:09,589 --> 01:03:07,200

are one down dude

1414

01:03:11,630 --> 01:03:09,599

um but but yeah but see here's the thing

1415

01:03:13,069 --> 01:03:11,640

and I need to take a break here but

1416

01:03:16,430 --> 01:03:13,079

we'll do it in a minute it's not that

1417

01:03:19,970 --> 01:03:16,440

big of a deal but here's the thing you

1418

01:03:22,670 --> 01:03:19,980

are going through the same Journey that

1419

01:03:24,770 --> 01:03:22,680

that I am going through in that I've had

1420

01:03:27,589 --> 01:03:24,780

my experiences and and this and that

1421

01:03:30,109 --> 01:03:27,599

from a young age and and and stuff but

1422

01:03:32,510 --> 01:03:30,119

it keeps and I'm fascinated with the

1423

01:03:36,230 --> 01:03:32,520

Sciences I'm fascinated with that I just

1424

01:03:37,910 --> 01:03:36,240

love it the two are gonna go kablam and

1425

01:03:40,130 --> 01:03:37,920

that's what's happening in my and that's

1426

01:03:42,109 --> 01:03:40,140

what happened to you you know so no

1427

01:03:44,750 --> 01:03:42,119

you're the opposite of stiff man you're

1428

01:03:49,609 --> 01:03:44,760

the opposite yeah well and and I you

1429

01:03:52,430 --> 01:03:49,619

know I'm a yeah like I I love astrology

1430

01:03:56,390 --> 01:03:52,440

because I love the language of

1431

01:03:59,450 --> 01:03:56,400

archetypes right and in astrology you

1432

01:04:01,670 --> 01:03:59,460

know I'm a Virgo Moon I'm a Pisces with

1433

01:04:03,589 --> 01:04:01,680

a Virgo Moon which just really describes

1434

01:04:06,289 --> 01:04:03,599

me well if if you know anything about

1435

01:04:08,510 --> 01:04:06,299

astrology and astrological language

1436

01:04:12,049 --> 01:04:08,520

um but essentially it's that Virgo Moon

1437

01:04:14,569 --> 01:04:12,059

which is like there is a Perfection that

1438

01:04:17,510 --> 01:04:14,579

underlies the truth and unless I can get

1439

01:04:18,849 --> 01:04:17,520

to that and the thing that's undeniably

1440

01:04:21,349 --> 01:04:18,859

factually

1441

01:04:23,870 --> 01:04:21,359

experienceable like you know you can't

1442

01:04:26,690 --> 01:04:23,880

question it anymore until I get to that

1443

01:04:30,109 --> 01:04:26,700

that it's not enough I gotta keep going

1444

01:04:32,089 --> 01:04:30,119

and so I dig I dig into things and I

1445

01:04:35,750 --> 01:04:32,099

keep digging until I get to the answers

1446

01:04:38,690 --> 01:04:35,760

and I've done you know at this point uh

1447

01:04:41,329 --> 01:04:38,700

25 years of lots and lots and lots of

1448

01:04:44,690 --> 01:04:41,339

deep deep deep deep deep deep digging

1449

01:04:46,789 --> 01:04:44,700

and come through with lots of logical

1450

01:04:49,390 --> 01:04:46,799

Solutions but more than logical

1451
01:04:51,890 --> 01:04:49,400
Solutions things that are experienceable

1452
01:04:55,130 --> 01:04:51,900
and that's what I'm passionate about

1453
01:04:58,010 --> 01:04:55,140
sharing with people is not just hey like

1454
01:05:00,470 --> 01:04:58,020
here's here's my channeling of what

1455
01:05:02,329 --> 01:05:00,480
beings from the Pleiades look like I

1456
01:05:04,430 --> 01:05:02,339
want them to actually learn how to ask

1457
01:05:07,549 --> 01:05:04,440
the right questions so that they can

1458
01:05:10,069 --> 01:05:07,559
start to understand what beings from the

1459
01:05:12,710 --> 01:05:10,079
Pleiades might be like I want them to

1460
01:05:16,069 --> 01:05:12,720
start learning how to think how to

1461
01:05:18,289 --> 01:05:16,079
question how to educate themselves and

1462
01:05:20,450 --> 01:05:18,299
and the thing is is everybody's got a

1463
01:05:24,190 --> 01:05:20,460

natural ability at learning to some

1464

01:05:26,809 --> 01:05:24,200

extent or other but we don't always know

1465

01:05:28,250 --> 01:05:26,819

where where our gift and learning is

1466

01:05:30,170 --> 01:05:28,260

actually going to be because for some

1467

01:05:32,390 --> 01:05:30,180

people it's actually you got to get your

1468

01:05:34,010 --> 01:05:32,400

hands on something you gotta feel

1469

01:05:36,170 --> 01:05:34,020

something like for you Jimmy

1470

01:05:38,569 --> 01:05:36,180

intellectually smart you knew all about

1471

01:05:41,329 --> 01:05:38,579

the chakras and all about Kundalini but

1472

01:05:43,069 --> 01:05:41,339

it took actually being in an Egyptian

1473

01:05:45,589 --> 01:05:43,079

temple and feeling the vibrational

1474

01:05:47,809 --> 01:05:45,599

resonance and then suddenly you're

1475

01:05:49,549 --> 01:05:47,819

experiencing a surge of energy moving up

1476

01:05:52,630 --> 01:05:49,559

the core of your body and up your spine

1477

01:05:56,270 --> 01:05:52,640

and tingling all of these centers that

1478

01:05:59,270 --> 01:05:56,280

supposedly in science mean nothing right

1479

01:06:01,549 --> 01:05:59,280

but but then is giving you a profound

1480

01:06:03,770 --> 01:06:01,559

state of awareness and a profound

1481

01:06:07,190 --> 01:06:03,780

perfect perception that you've never had

1482

01:06:09,410 --> 01:06:07,200

before and and and so we know those of

1483

01:06:12,530 --> 01:06:09,420

us that have opened those doors have had

1484

01:06:14,990 --> 01:06:12,540

those experiences or just touched some

1485

01:06:17,150 --> 01:06:15,000

level of that we know there's a lot more

1486

01:06:19,069 --> 01:06:17,160

than what we're being taught we know the

1487

01:06:21,109 --> 01:06:19,079

answers aren't all in the science books

1488

01:06:23,630 --> 01:06:21,119

and in the school books but there are

1489

01:06:26,210 --> 01:06:23,640

bridges and the bridges are really

1490

01:06:27,829 --> 01:06:26,220

really helpful because otherwise we go

1491

01:06:28,870 --> 01:06:27,839

down the rabbit hole of just you know

1492

01:06:30,950 --> 01:06:28,880

learning about

1493

01:06:32,990 --> 01:06:30,960

Kundalini and chakras and we have no

1494

01:06:35,329 --> 01:06:33,000

idea how to communicate back to someone

1495

01:06:37,250 --> 01:06:35,339

who's never experienced that exactly

1496

01:06:40,730 --> 01:06:37,260

stay right there Adam our guest tonight

1497

01:06:42,529 --> 01:06:40,740

Adam Apollo this is Fade to Black I am

1498

01:06:44,750 --> 01:06:42,539

your host Jimmy church we'll be right

1499

01:06:47,089 --> 01:06:44,760

back this is Jimmy Church your Fade to

1500

01:06:49,490 --> 01:06:47,099

Black please visit all of our sponsors

1501
01:06:51,410 --> 01:06:49,500
we're taking a quick break here all of

1502
01:06:54,410 --> 01:06:51,420
the links are below

1503
01:06:56,809 --> 01:06:54,420
and we'll be right back

1504
01:06:57,789 --> 01:06:56,819
check out Billy Carson's Forbidden

1505
01:06:59,890 --> 01:06:57,799
Knowledge

1506
01:07:01,849 --> 01:06:59,900
forbiddenknowledge.com or

1507
01:07:05,809 --> 01:07:01,859
forbiddenknowledge.tv where you can get

1508
01:07:08,270 --> 01:07:05,819
access to over 6 000 videos movies TV

1509
01:07:10,250 --> 01:07:08,280
series exclusive documentaries like the

1510
01:07:11,770 --> 01:07:10,260
Black Knight satellite you can do it all

1511
01:07:16,309 --> 01:07:11,780
for just

1512
01:07:18,589 --> 01:07:16,319
7.77 per month for 77 per year after the

1513
01:07:20,569 --> 01:07:18,599

three-day trial which is also totally

1514

01:07:24,370 --> 01:07:20,579

free to check out it's all simple to do

1515

01:07:26,710 --> 01:07:24,380

Billy Carson is the best it's simple

1516

01:07:29,029 --> 01:07:26,720

forbiddenknowledge.com or

1517

01:07:33,049 --> 01:07:29,039

forbiddenknowledge.tv that's the number

1518

01:07:37,670 --> 01:07:35,329

I will be hosting an mcing the conscious

1519

01:07:40,849 --> 01:07:37,680

life Expo this February 10th through the

1520

01:07:43,190 --> 01:07:40,859

13th at The Lax Hilton right here in Los

1521

01:07:45,470 --> 01:07:43,200

Angeles California 200 speakers

1522

01:07:47,630 --> 01:07:45,480

including Linda Moulton Howe Bashar

1523

01:07:50,329 --> 01:07:47,640

Deborah King George Nori Daniel Sheehan

1524

01:07:54,470 --> 01:07:50,339

Scott Walter Johnstone and David Wolfe

1525

01:07:57,829 --> 01:07:54,480

over 200 vendors special events this is

1526

01:08:00,170 --> 01:07:57,839

the biggest event of its kind on planet

1527

01:08:02,470 --> 01:08:00,180

Earth you've got to come and hang out

1528

01:08:04,430 --> 01:08:02,480

with all of us tickets and info at

1529

01:08:05,809 --> 01:08:04,440

consciouslifeexpo.com the links are

1530

01:08:09,170 --> 01:08:05,819

below

1531

01:08:12,349 --> 01:08:09,180

on Saturday April 1st that's right April

1532

01:08:14,510 --> 01:08:12,359

Fool's Day 2023 I will be hosting the

1533

01:08:18,050 --> 01:08:14,520

peripod festival at the Hyatt Regency

1534

01:08:20,510 --> 01:08:18,060

right here in Valencia California it's a

1535

01:08:23,570 --> 01:08:20,520

live one-day podcast Awards it's a film

1536

01:08:25,610 --> 01:08:23,580

festival it's a full on media event

1537

01:08:27,470 --> 01:08:25,620

we're going to have Sky watching it's

1538

01:08:30,229 --> 01:08:27,480

going to be a Lifetime Achievement Award

1539

01:08:32,269 --> 01:08:30,239

presented to Linda Moulton Howe right

1540

01:08:34,309 --> 01:08:32,279

now you can submit your podcast to your

1541

01:08:37,070 --> 01:08:34,319

film your TV series any of your

1542

01:08:38,990 --> 01:08:37,080

paranormal media for consideration you

1543

01:08:42,189 --> 01:08:39,000

can do all of that on the links below

1544

01:08:44,090 --> 01:08:42,199

for info and tickets go to

1545

01:08:47,229 --> 01:08:44,100

parapodfilmfest.com that's

1546

01:08:52,910 --> 01:08:51,289

April 7th through the 14th 2023 I'll be

1547

01:08:55,849 --> 01:08:52,920

hosting and presenting on the hidden

1548

01:08:58,430 --> 01:08:55,859

secrets seminar at Sea cruise from Los

1549

01:09:00,829 --> 01:08:58,440

Angeles to the Mexican Riviera on the

1550

01:09:03,470 --> 01:09:00,839

Navigator of the Seas that's right up

1551

01:09:05,090 --> 01:09:03,480

top a giant water slide you've got to

1552

01:09:07,010 --> 01:09:05,100

check out the Navigator of the Seas it's

1553

01:09:09,349 --> 01:09:07,020

amazing we've got Scott Walter Adam

1554

01:09:12,289 --> 01:09:09,359

Apollo Nick Pope Brad Olson Vivian

1555

01:09:14,570 --> 01:09:12,299

Chauvet Jason shirka Robert Grant Reuben

1556

01:09:16,910 --> 01:09:14,580

Langdon and another 12 amazing speakers

1557

01:09:18,309 --> 01:09:16,920

and presenters it's all simple to do

1558

01:09:20,809 --> 01:09:18,319

just visit

1559

01:09:24,470 --> 01:09:20,819

divinetravels.com forward slash hidden

1560

01:09:26,689 --> 01:09:24,480

secrets 2023 you know you want to go on

1561

01:09:30,110 --> 01:09:26,699

a cruise with me

1562

01:09:32,930 --> 01:09:30,120

River Moon coffee makers of the Fade to

1563

01:09:34,749 --> 01:09:32,940

Black blend truly the best coffee on

1564

01:09:37,010 --> 01:09:34,759

planet Earth just visit

1565

01:09:38,870 --> 01:09:37,020

rivermoonwellness.com or their Amazon

1566

01:09:40,309 --> 01:09:38,880

store it's all simple to do you can

1567

01:09:42,349 --> 01:09:40,319

check out the Fade to Black blend the

1568

01:09:45,050 --> 01:09:42,359

game changer Blend or any of their black

1569

01:09:48,769 --> 01:09:45,060

moon wellness products it's the only

1570

01:09:53,689 --> 01:09:48,779

coffee I drink it is the best and it's

1571

01:09:57,709 --> 01:09:56,150

all right Welcome Back Fade to Black I'm

1572

01:09:59,870 --> 01:09:57,719

your City Church I guess tonight Adam

1573

01:10:01,910 --> 01:09:59,880

Apollo going to be hanging out with Adam

1574

01:10:05,270 --> 01:10:01,920

this weekend at the conscious life Expo

1575

01:10:08,990 --> 01:10:05,280

uh he's gonna do his uh keynote on

1576

01:10:12,290 --> 01:10:09,000

Sunday uh speaking about well what what

1577

01:10:14,150 --> 01:10:12,300

Adam and I tend to uh talk about when

1578

01:10:16,850 --> 01:10:14,160

we're together because of my interest in

1579

01:10:19,130 --> 01:10:16,860

physics and of course uh his lifelong

1580

01:10:21,530 --> 01:10:19,140

Research into the subject

1581

01:10:24,110 --> 01:10:21,540

um Adam uh just briefly because we're

1582

01:10:26,270 --> 01:10:24,120

talking about these subjects tonight uh

1583

01:10:29,630 --> 01:10:26,280

what are you going to cover on Sunday

1584

01:10:33,890 --> 01:10:29,640

yeah Sunday is a Starship engineering so

1585

01:10:37,850 --> 01:10:33,900

it's essentially my latest Leading Edge

1586

01:10:41,149 --> 01:10:37,860

presentation on how practically we can

1587

01:10:43,790 --> 01:10:41,159

build Starships how they would work the

1588

01:10:45,709 --> 01:10:43,800

kinds of impacts and influence that

1589

01:10:47,870 --> 01:10:45,719

having that technology will have on

1590

01:10:50,390 --> 01:10:47,880

global society and culture and structure

1591

01:10:52,370 --> 01:10:50,400

some of the existing approaches that are

1592

01:10:54,830 --> 01:10:52,380

being used to develop these Technologies

1593

01:10:57,229 --> 01:10:54,840

right now and

1594

01:10:59,750 --> 01:10:57,239

um and also building a lot of a bridge

1595

01:11:02,990 --> 01:10:59,760

between the sort of the science and the

1596

01:11:05,510 --> 01:11:03,000

spirituality of it so how does this kind

1597

01:11:08,270 --> 01:11:05,520

of thing affect us as a civilization and

1598

01:11:09,830 --> 01:11:08,280

how do we culturally transition to

1599

01:11:12,590 --> 01:11:09,840

operating in a world where we have

1600

01:11:18,610 --> 01:11:12,600

starships and we have other species

1601
01:11:21,610 --> 01:11:18,620
um uh okay have you laid out your outfit

1602
01:11:24,649 --> 01:11:21,620
no Jimmy

1603
01:11:28,130 --> 01:11:24,659
I'm in an Airbnb this month

1604
01:11:29,990 --> 01:11:28,140
um uh I'm actually just uh migrating

1605
01:11:32,149 --> 01:11:30,000
back to California

1606
01:11:35,450 --> 01:11:32,159
um I've been in Colorado for the last

1607
01:11:38,090 --> 01:11:35,460
many years and uh yeah so I'm gonna be a

1608
01:11:40,910 --> 01:11:38,100
resident down here and so there's a lot

1609
01:11:42,410 --> 01:11:40,920
of things in transition at the moment I

1610
01:11:45,169 --> 01:11:42,420
believe we just found our house

1611
01:11:46,850 --> 01:11:45,179
yesterday so I'm really really excited

1612
01:11:47,590 --> 01:11:46,860
about that

1613
01:11:49,790 --> 01:11:47,600

um

1614

01:11:52,310 --> 01:11:49,800

outside of the Hill are you going to

1615

01:11:54,830 --> 01:11:52,320

stay south of uh the mountains are you

1616

01:11:58,550 --> 01:11:54,840

going to be like Santa Monica

1617

01:12:00,830 --> 01:11:58,560

yeah more like Topanga Malibu area uh

1618

01:12:03,590 --> 01:12:00,840

Topanga okay on that side of the Hill

1619

01:12:05,750 --> 01:12:03,600

okay all right all right all right well

1620

01:12:07,130 --> 01:12:05,760

we're we're practically neighbors that's

1621

01:12:11,270 --> 01:12:07,140

a lot of trouble

1622

01:12:13,610 --> 01:12:11,280

in Southern California so okay now here

1623

01:12:14,810 --> 01:12:13,620

now here's the thing

1624

01:12:17,630 --> 01:12:14,820

um

1625

01:12:21,709 --> 01:12:17,640

let's let's let's let's let's go where

1626

01:12:23,630 --> 01:12:21,719

nobody wants to go all right and is

1627

01:12:29,510 --> 01:12:23,640

consciousness

1628

01:12:32,390 --> 01:12:29,520

the physical

1629

01:12:33,590 --> 01:12:32,400

um that's a fascinating one

1630

01:12:35,410 --> 01:12:33,600

well

1631

01:12:38,090 --> 01:12:35,420

first of all

1632

01:12:39,410 --> 01:12:38,100

you cannot say anything is not

1633

01:12:42,189 --> 01:12:39,420

consciousness

1634

01:12:44,570 --> 01:12:42,199

because you are observing everything

1635

01:12:48,770 --> 01:12:44,580

with consciousness

1636

01:12:52,430 --> 01:12:48,780

and thus what can you say doesn't exist

1637

01:12:55,130 --> 01:12:52,440

as a conscious Observer that is not part

1638

01:12:58,970 --> 01:12:55,140

of your Consciousness observing it

1639

01:13:01,850 --> 01:12:58,980

you could imagine that this glass or

1640

01:13:04,189 --> 01:13:01,860

this physical object you know exists in

1641

01:13:06,110 --> 01:13:04,199

some kind of independent way but you're

1642

01:13:09,290 --> 01:13:06,120

creating a mental construct that

1643

01:13:11,390 --> 01:13:09,300

establishes that your Consciousness is

1644

01:13:14,570 --> 01:13:11,400

deciding that you're going to perceive

1645

01:13:16,610 --> 01:13:14,580

this in a particular way right but can

1646

01:13:18,470 --> 01:13:16,620

you perceive this glass

1647

01:13:20,990 --> 01:13:18,480

in a way that is without your

1648

01:13:22,669 --> 01:13:21,000

Consciousness in any way at all even I'm

1649

01:13:25,250 --> 01:13:22,679

talking subconscious I'm talking about

1650

01:13:28,550 --> 01:13:25,260

unconscious even unconsciousness is

1651

01:13:30,709 --> 01:13:28,560

consciousness right right essentially

1652

01:13:32,689 --> 01:13:30,719

you are a perceiver and that is all

1653

01:13:36,550 --> 01:13:32,699

you'll ever have is the ability to

1654

01:13:40,070 --> 01:13:36,560

subjectively perceive your nerve endings

1655

01:13:41,990 --> 01:13:40,080

cannot perceive without Consciousness

1656

01:13:44,990 --> 01:13:42,000

correct

1657

01:13:47,689 --> 01:13:45,000

it's really that simple okay so but it's

1658

01:13:49,610 --> 01:13:47,699

like the Chicken and the Egg so which

1659

01:13:52,810 --> 01:13:49,620

which comes first

1660

01:13:56,410 --> 01:13:52,820

is it the physical that happens and then

1661

01:13:59,570 --> 01:13:56,420

Consciousness is derived from particles

1662

01:14:01,310 --> 01:13:59,580

or is consciousness without those

1663

01:14:04,990 --> 01:14:01,320

particles combining

1664

01:14:08,209 --> 01:14:05,000

is consciousness already existing

1665

01:14:10,250 --> 01:14:08,219

I would absolutely say the latter

1666

01:14:13,610 --> 01:14:10,260

um and part of that is because the

1667

01:14:15,830 --> 01:14:13,620

former idea the idea that Consciousness

1668

01:14:17,750 --> 01:14:15,840

is an aggregation of machine parts

1669

01:14:20,930 --> 01:14:17,760

working together well is actually

1670

01:14:23,450 --> 01:14:20,940

Descartes idea right and the cars uh

1671

01:14:26,090 --> 01:14:23,460

essentially you know was a brilliant guy

1672

01:14:29,209 --> 01:14:26,100

and one of the things I love about him

1673

01:14:32,209 --> 01:14:29,219

was that he was a very strong proponent

1674

01:14:34,189 --> 01:14:32,219

that people are the source of Truth not

1675

01:14:35,630 --> 01:14:34,199

the church right and this was a big deal

1676

01:14:37,370 --> 01:14:35,640

in the enlightenment because he was

1677

01:14:40,010 --> 01:14:37,380

basically saying hey guys you don't

1678

01:14:41,450 --> 01:14:40,020

actually need the priest to save you or

1679

01:14:43,669 --> 01:14:41,460

somebody else to save you like you can

1680

01:14:46,310 --> 01:14:43,679

actually access truth yourself love the

1681

01:14:48,530 --> 01:14:46,320

guy for that but on the other side he

1682

01:14:51,649 --> 01:14:48,540

also formulated the model of the

1683

01:14:54,169 --> 01:14:51,659

separation between mind and body and and

1684

01:14:56,330 --> 01:14:54,179

suggested that Consciousness was

1685

01:14:58,490 --> 01:14:56,340

something that incarnates into bodies

1686

01:15:01,850 --> 01:14:58,500

and that bodies are essentially

1687

01:15:04,729 --> 01:15:01,860

automatons and that everything is is

1688

01:15:06,649 --> 01:15:04,739

essentially a set of machines and all

1689

01:15:09,770 --> 01:15:06,659

machines essentially fit together and

1690

01:15:11,870 --> 01:15:09,780

work together to form to form that which

1691

01:15:13,910 --> 01:15:11,880

gives Consciousness or that which gives

1692

01:15:16,010 --> 01:15:13,920

you know the ability to be conscious

1693

01:15:17,570 --> 01:15:16,020

which is basically the idea that like

1694

01:15:19,310 --> 01:15:17,580

it's all the mass and the energy and

1695

01:15:21,890 --> 01:15:19,320

it's aggregated in a certain way and

1696

01:15:23,810 --> 01:15:21,900

then you get Consciousness

1697

01:15:27,530 --> 01:15:23,820

um but there's a lot of problems to that

1698

01:15:30,709 --> 01:15:27,540

idea uh because that idea suggests that

1699

01:15:32,810 --> 01:15:30,719

animals lack Consciousness it provides

1700

01:15:34,490 --> 01:15:32,820

it suggests that you know if the body

1701

01:15:38,870 --> 01:15:34,500

dies then

1702

01:15:41,110 --> 01:15:38,880

you know what happens then and even if

1703

01:15:42,950 --> 01:15:41,120

you do have this sort of Separation

1704

01:15:44,630 --> 01:15:42,960

understanding and you believe that

1705

01:15:46,370 --> 01:15:44,640

there's a body and there's a soul and

1706

01:15:48,649 --> 01:15:46,380

then the body dies and the soul is not

1707

01:15:51,649 --> 01:15:48,659

part of the body but like then

1708

01:15:53,810 --> 01:15:51,659

essentially you're starting to look at

1709

01:15:56,450 --> 01:15:53,820

everything as being dead and the only

1710

01:15:58,370 --> 01:15:56,460

thing that exists is just souls and

1711

01:16:00,830 --> 01:15:58,380

souls come in and out of this sort of

1712

01:16:03,110 --> 01:16:00,840

dead illusionary reality now there's

1713

01:16:04,610 --> 01:16:03,120

actually some Synergy with that in other

1714

01:16:07,189 --> 01:16:04,620

perspectives and other ancient

1715

01:16:09,530 --> 01:16:07,199

Traditions uh the the idea that it's all

1716

01:16:11,330 --> 01:16:09,540

Maya everything is an illusion and that

1717

01:16:13,130 --> 01:16:11,340

mind and Consciousness just comes and

1718

01:16:15,830 --> 01:16:13,140

inhabits that for a Time

1719

01:16:18,290 --> 01:16:15,840

but I tend to lean towards the other

1720

01:16:20,270 --> 01:16:18,300

perspective I believe that in fact

1721

01:16:23,149 --> 01:16:20,280

everything is consciousness in other

1722

01:16:25,189 --> 01:16:23,159

words that the entire scope of

1723

01:16:27,649 --> 01:16:25,199

everything that's unfolded in space-time

1724

01:16:29,750 --> 01:16:27,659

in the entire universe itself including

1725

01:16:31,970 --> 01:16:29,760

every single pattern that's given rise

1726

01:16:35,149 --> 01:16:31,980

to everything that has given rise to

1727

01:16:36,950 --> 01:16:35,159

life and our experiences is all

1728

01:16:39,169 --> 01:16:36,960

Consciousness and that there's feedback

1729

01:16:41,630 --> 01:16:39,179

in all of it and that all of it

1730

01:16:44,930 --> 01:16:41,640

participates in Consciousness at some

1731

01:16:46,790 --> 01:16:44,940

level or another right like even to the

1732

01:16:49,270 --> 01:16:46,800

state that you could say that a star

1733

01:16:51,770 --> 01:16:49,280

holds Consciousness now how much

1734

01:16:54,229 --> 01:16:51,780

Consciousness does that star have well

1735

01:16:57,649 --> 01:16:54,239

its level of Consciousness could be

1736

01:17:00,110 --> 01:16:57,659

entirely beyond our way of thinking

1737

01:17:02,990 --> 01:17:00,120

itself at all like a star could have its

1738

01:17:05,090 --> 01:17:03,000

entire own life and way of experiencing

1739

01:17:07,910 --> 01:17:05,100

planets orbiting around it and ways of

1740

01:17:09,770 --> 01:17:07,920

experiencing empathy and feedback from

1741

01:17:12,709 --> 01:17:09,780

everything happening on all of its

1742

01:17:16,610 --> 01:17:12,719

planets a star could literally be like a

1743

01:17:19,610 --> 01:17:16,620

god experiencing life and reality in its

1744

01:17:23,330 --> 01:17:19,620

own way and because of it because of its

1745

01:17:25,790 --> 01:17:23,340

densely packed Mass it well it has the

1746

01:17:28,490 --> 01:17:25,800

capacity for information processing at

1747

01:17:30,590 --> 01:17:28,500

an extraordinary level sure sure because

1748

01:17:33,110 --> 01:17:30,600

you know we have so much mass here what

1749

01:17:36,290 --> 01:17:33,120

you know three and a half pounds of of

1750

01:17:38,390 --> 01:17:36,300

of whatever between our ears well in my

1751

01:17:40,370 --> 01:17:38,400

case it's it's whatever you know three

1752

01:17:42,350 --> 01:17:40,380

and a half pounds of something and then

1753

01:17:46,010 --> 01:17:42,360

if you're talking about something with

1754

01:17:48,770 --> 01:17:46,020

the mass of a star yes right if we are

1755

01:17:52,550 --> 01:17:48,780

considering that every particle or every

1756

01:17:54,590 --> 01:17:52,560

atom uh or particle whatever has a tiny

1757

01:17:57,649 --> 01:17:54,600

piece of Consciousness built into it

1758

01:18:01,250 --> 01:17:57,659

right so therefore are we suggesting

1759

01:18:04,090 --> 01:18:01,260

that Consciousness then is derived from

1760

01:18:06,950 --> 01:18:04,100

the physical right so

1761

01:18:09,530 --> 01:18:06,960

it gets into paradoxes here at some

1762

01:18:12,709 --> 01:18:09,540

level I mean because because you can say

1763

01:18:15,530 --> 01:18:12,719

you could say yeah all right so space

1764

01:18:18,229 --> 01:18:15,540

time is providing the mechanism that

1765

01:18:20,330 --> 01:18:18,239

allows for there to be feedback and

1766

01:18:23,390 --> 01:18:20,340

because of that then Consciousness can

1767

01:18:25,550 --> 01:18:23,400

exist but why does space-time have a

1768

01:18:29,090 --> 01:18:25,560

mechanism that allows feedback right or

1769

01:18:31,490 --> 01:18:29,100

why does a proton have a structure in

1770

01:18:33,350 --> 01:18:31,500

its Quantum lattice that when you look

1771

01:18:37,070 --> 01:18:33,360

at it from the poles down through the

1772

01:18:39,110 --> 01:18:37,080

core matches the geometry of DNA why

1773

01:18:42,050 --> 01:18:39,120

does it look like from a geometric

1774

01:18:44,390 --> 01:18:42,060

Theory standpoint protons can store

1775

01:18:47,450 --> 01:18:44,400

information the exact same way that DNA

1776

01:18:49,610 --> 01:18:47,460

does or why is it that there's exactly

1777

01:18:52,610 --> 01:18:49,620

the same number of quantum oscillations

1778

01:18:54,950 --> 01:18:52,620

in one proton as there are Planck

1779

01:18:57,050 --> 01:18:54,960

seconds in the entire lifetime of the

1780

01:18:59,870 --> 01:18:57,060

universe that would suggest that every

1781

01:19:02,630 --> 01:18:59,880

proton is directly entangled to the life

1782

01:19:04,490 --> 01:19:02,640

of the entire universe and thus sharing

1783

01:19:06,770 --> 01:19:04,500

information with the entire universe

1784

01:19:09,229 --> 01:19:06,780

right so when you start to get break

1785

01:19:11,990 --> 01:19:09,239

these things down the question of what

1786

01:19:13,130 --> 01:19:12,000

comes first gets more and more fuzzy and

1787

01:19:16,850 --> 01:19:13,140

I think you mostly run into pair

1788

01:19:20,169 --> 01:19:16,860

paradoxes because the reality is it is

1789

01:19:24,890 --> 01:19:20,179

it is it is all at the same time like

1790

01:19:27,470 --> 01:19:24,900

because there is then there is also a

1791

01:19:30,770 --> 01:19:27,480

process and that process allows this and

1792

01:19:33,050 --> 01:19:30,780

this and this and this you know Etc

1793

01:19:35,689 --> 01:19:33,060

um but you know all of that could be

1794

01:19:37,729 --> 01:19:35,699

said to be the force of Consciousness

1795

01:19:41,090 --> 01:19:37,739

willing itself into being

1796

01:19:43,490 --> 01:19:41,100

is that's exactly right that's exactly

1797

01:19:45,050 --> 01:19:43,500

right that's very elegant because if we

1798

01:19:46,390 --> 01:19:45,060

push it back and push it back I'm

1799

01:19:49,370 --> 01:19:46,400

talking about time

1800

01:19:52,850 --> 01:19:49,380

forget about the Big Bang let's go

1801
01:19:56,390 --> 01:19:52,860
infinite backwards right and we get to

1802
01:20:00,110 --> 01:19:56,400
at some point I guess we could get to

1803
01:20:02,810 --> 01:20:00,120
the point where there isn't even space

1804
01:20:04,729 --> 01:20:02,820
right there's nothing right well wait a

1805
01:20:07,430 --> 01:20:04,739
minute so if we get to that point and

1806
01:20:09,890 --> 01:20:07,440
start to move forward what happens first

1807
01:20:11,930 --> 01:20:09,900
yeah there's you know what happens first

1808
01:20:14,870 --> 01:20:11,940
Consciousness or particles

1809
01:20:17,209 --> 01:20:14,880
you know as we come in this direction

1810
01:20:18,590 --> 01:20:17,219
well then you have to really ask

1811
01:20:20,149 --> 01:20:18,600
yourself the question what's the

1812
01:20:23,090 --> 01:20:20,159
difference

1813
01:20:26,390 --> 01:20:23,100

but maybe it was at the same time maybe

1814

01:20:29,570 --> 01:20:26,400

it's the same thing maybe particles and

1815

01:20:32,209 --> 01:20:29,580

Consciousness maybe one thing emerging

1816

01:20:34,189 --> 01:20:32,219

from nothing becoming two things

1817

01:20:38,090 --> 01:20:34,199

becoming three things becoming all

1818

01:20:40,490 --> 01:20:38,100

things is exactly the same thing as

1819

01:20:42,890 --> 01:20:40,500

Consciousness is exactly the same thing

1820

01:20:45,890 --> 01:20:42,900

as particles and they're all the

1821

01:20:48,169 --> 01:20:45,900

synonymous right I mean I'm deeply

1822

01:20:50,149 --> 01:20:48,179

interested in the study of you know what

1823

01:20:53,750 --> 01:20:50,159

I like to call the ray of creation which

1824

01:20:57,530 --> 01:20:53,760

is how does from nothing emerge

1825

01:20:59,689 --> 01:20:57,540

something and once something emerges how

1826

01:21:02,390 --> 01:20:59,699

does it evolve in a way that can create

1827

01:21:04,070 --> 01:21:02,400

all things and I I even did a white

1828

01:21:06,649 --> 01:21:04,080

paper that's literally called the

1829

01:21:08,689 --> 01:21:06,659

universal taxonomy which postulates a

1830

01:21:10,910 --> 01:21:08,699

language approach to this which which

1831

01:21:13,070 --> 01:21:10,920

I'm using in some AI applications to

1832

01:21:14,450 --> 01:21:13,080

create essentially a wisdom AI that has

1833

01:21:16,790 --> 01:21:14,460

the knowledge of all the sacred

1834

01:21:18,590 --> 01:21:16,800

Traditions from all over the world that

1835

01:21:21,010 --> 01:21:18,600

can provide spiritual Insight

1836

01:21:23,410 --> 01:21:21,020

essentially as a reflection back to us

1837

01:21:28,430 --> 01:21:23,420

but anyway that's another story

1838

01:21:33,770 --> 01:21:28,440

essentially this is a matter of saying

1839

01:21:37,130 --> 01:21:33,780

if if one becoming two has a process and

1840

01:21:39,890 --> 01:21:37,140

a pattern that gives rise to polarity

1841

01:21:41,450 --> 01:21:39,900

and thus gives rise to Yin and Yang and

1842

01:21:44,149 --> 01:21:41,460

balance and Duality and all these things

1843

01:21:46,189 --> 01:21:44,159

right and then when you add in and

1844

01:21:48,470 --> 01:21:46,199

recognize that there's always a third

1845

01:21:51,470 --> 01:21:48,480

thing already there it's the balance

1846

01:21:53,990 --> 01:21:51,480

point and start thinking about how that

1847

01:21:56,330 --> 01:21:54,000

interplays with the polarity as balance

1848

01:21:58,490 --> 01:21:56,340

and then there's always a fourth thing

1849

01:22:01,430 --> 01:21:58,500

because that's always there because

1850

01:22:03,290 --> 01:22:01,440

there's always a Transcendent always and

1851
01:22:05,630 --> 01:22:03,300
once you start dealing with the fourth

1852
01:22:07,610 --> 01:22:05,640
thing now you start having a new Dynamic

1853
01:22:10,729 --> 01:22:07,620
and a fifth thing and now you have a new

1854
01:22:14,209 --> 01:22:10,739
Dynamic and each time you do this you

1855
01:22:17,630 --> 01:22:14,219
can literally see the the root patterns

1856
01:22:20,090 --> 01:22:17,640
of how Consciousness itself unfolds and

1857
01:22:22,910 --> 01:22:20,100
comes into being and when you look at it

1858
01:22:24,229 --> 01:22:22,920
that way it's like oh well yeah duh the

1859
01:22:26,810 --> 01:22:24,239
universe has been literally been

1860
01:22:28,490 --> 01:22:26,820
generating and playing with itself as a

1861
01:22:31,250 --> 01:22:28,500
conscious being since the beginning

1862
01:22:34,870 --> 01:22:31,260
since the first thing that was a thing

1863
01:22:39,649 --> 01:22:34,880

yeah almost almost

1864

01:22:43,250 --> 01:22:39,659

quantum-ish almost cupidish ish you know

1865

01:22:46,310 --> 01:22:43,260

a positive a negative and both exactly

1866

01:22:48,649 --> 01:22:46,320

yeah well Quantum ish is the most

1867

01:22:52,010 --> 01:22:48,659

critical word because Quantum means

1868

01:22:54,470 --> 01:22:52,020

literally to count and our ability to

1869

01:22:57,830 --> 01:22:54,480

distinguish one thing from another thing

1870

01:22:59,209 --> 01:22:57,840

and count things is the fundamental

1871

01:23:01,370 --> 01:22:59,219

difference between the everything

1872

01:23:05,810 --> 01:23:01,380

nothing and the infinite being all one

1873

01:23:08,149 --> 01:23:05,820

and and unity itself and diversity and

1874

01:23:13,450 --> 01:23:08,159

both are absolutely critical for

1875

01:23:20,750 --> 01:23:17,510

a spiritual AI that kind of that kind of

1876

01:23:23,030 --> 01:23:20,760

freaks me out a little bit so uh what's

1877

01:23:26,450 --> 01:23:23,040

what's the meaning of life

1878

01:23:28,610 --> 01:23:26,460

to go up you must first go down well

1879

01:23:30,350 --> 01:23:28,620

Siri will give you stuff like that I

1880

01:23:33,290 --> 01:23:30,360

mean that's just that's just

1881

01:23:35,290 --> 01:23:33,300

programmable nonsense but what I'm

1882

01:23:38,030 --> 01:23:35,300

interested in is like

1883

01:23:39,350 --> 01:23:38,040

I I do know what you're saying I do you

1884

01:23:40,850 --> 01:23:39,360

know what you're saying

1885

01:23:43,550 --> 01:23:40,860

um yeah but what I'm what I'm really

1886

01:23:47,570 --> 01:23:43,560

interested in doing with that particular

1887

01:23:50,030 --> 01:23:47,580

tool kit in support of Humanity's sort

1888

01:23:52,370 --> 01:23:50,040

of waking up process right now is to

1889

01:23:55,729 --> 01:23:52,380

help people track patterns that are so

1890

01:23:58,550 --> 01:23:55,739

difficult to track across a vast array

1891

01:24:02,030 --> 01:23:58,560

of different metaphysical points of view

1892

01:24:04,130 --> 01:24:02,040

and understanding and formulate useful

1893

01:24:05,330 --> 01:24:04,140

information from that so for example

1894

01:24:08,149 --> 01:24:05,340

Jimmy

1895

01:24:09,490 --> 01:24:08,159

um like we mentioned astrology before

1896

01:24:13,130 --> 01:24:09,500

what's your sign

1897

01:24:15,169 --> 01:24:13,140

Libra I'm Libra nice yeah so I have Mars

1898

01:24:18,130 --> 01:24:15,179

and Saturn and Pluto all in Libra in my

1899

01:24:22,490 --> 01:24:18,140

fourth house I know Libra real well and

1900

01:24:25,430 --> 01:24:22,500

so at certain points in time as a Libra

1901

01:24:27,830 --> 01:24:25,440

you are sensitive to the balance in

1902

01:24:30,290 --> 01:24:27,840

yourself between you know where things

1903

01:24:32,030 --> 01:24:30,300

are going to go like how grounded are

1904

01:24:34,010 --> 01:24:32,040

you and how woo are you you need both

1905

01:24:37,250 --> 01:24:34,020

you got to be a Libra you got to balance

1906

01:24:39,770 --> 01:24:37,260

the scales out right and so but there

1907

01:24:44,270 --> 01:24:39,780

are a ton of things that could happen in

1908

01:24:46,850 --> 01:24:44,280

your life that contain information and

1909

01:24:49,669 --> 01:24:46,860

insights for you that you may not be

1910

01:24:53,110 --> 01:24:49,679

normally aware of like for example you

1911

01:24:55,910 --> 01:24:53,120

might have a Mars and Venus conjunction

1912

01:24:59,630 --> 01:24:55,920

happen in Libra all of a sudden right

1913

01:25:02,810 --> 01:24:59,640

and when that conjunction happens you're

1914

01:25:05,270 --> 01:25:02,820

going to be getting tons of stuff about

1915

01:25:06,470 --> 01:25:05,280

relationship and your relationship with

1916

01:25:08,149 --> 01:25:06,480

women and your relationship with

1917

01:25:10,669 --> 01:25:08,159

yourself and your masculine and your

1918

01:25:12,830 --> 01:25:10,679

feminine sides and how much are you like

1919

01:25:14,870 --> 01:25:12,840

being Jimmy the badass versus being

1920

01:25:16,970 --> 01:25:14,880

Jimmy the soft and loving guy you know

1921

01:25:18,110 --> 01:25:16,980

and like all of this stuff is going to

1922

01:25:21,649 --> 01:25:18,120

come up for you

1923

01:25:23,750 --> 01:25:21,659

and you have no idea that that's

1924

01:25:25,729 --> 01:25:23,760

happening because you're not looking at

1925

01:25:27,530 --> 01:25:25,739

your astrological chart every day right

1926

01:25:30,250 --> 01:25:27,540

that's right and maybe that's also

1927

01:25:32,810 --> 01:25:30,260

happening on a day in the Mayan calendar

1928

01:25:35,390 --> 01:25:32,820

that is synchronistically aligned to

1929

01:25:37,970 --> 01:25:35,400

that and it's happening in a degree that

1930

01:25:40,130 --> 01:25:37,980

refers to a gene key which is a

1931

01:25:41,810 --> 01:25:40,140

particular lens of human design where

1932

01:25:43,669 --> 01:25:41,820

the gene Keys come through that and

1933

01:25:46,490 --> 01:25:43,679

you've got the iching principles coming

1934

01:25:48,709 --> 01:25:46,500

in and now all of a sudden if you

1935

01:25:51,110 --> 01:25:48,719

actually could see all of that in a way

1936

01:25:53,270 --> 01:25:51,120

that made sense like for example you

1937

01:25:55,910 --> 01:25:53,280

just turn on the wisdom Ai and you say

1938

01:25:58,370 --> 01:25:55,920

hey will you sort my content today based

1939

01:26:01,550 --> 01:25:58,380

on what's going on for me and it

1940

01:26:05,209 --> 01:26:01,560

basically will now give you articles and

1941

01:26:07,270 --> 01:26:05,219

videos on all of these topics related to

1942

01:26:09,770 --> 01:26:07,280

the experiences that you're actually

1943

01:26:12,290 --> 01:26:09,780

spontaneously seemingly spontaneously

1944

01:26:14,450 --> 01:26:12,300

happening in your life right now that's

1945

01:26:16,370 --> 01:26:14,460

part of the reason astrologers are so

1946

01:26:18,590 --> 01:26:16,380

genius in work when they're really good

1947

01:26:22,129 --> 01:26:18,600

at what they do because they're not not

1948

01:26:24,110 --> 01:26:22,139

just taking big obvious archetypes that

1949

01:26:27,290 --> 01:26:24,120

are happening to everybody they're

1950

01:26:30,050 --> 01:26:27,300

taking very specific experiences that

1951

01:26:32,390 --> 01:26:30,060

you're having and giving you insight

1952

01:26:36,050 --> 01:26:32,400

into how what's actually going on there

1953

01:26:38,930 --> 01:26:36,060

and that's something that a really good

1954

01:26:41,450 --> 01:26:38,940

machine learning model can do is tie

1955

01:26:44,689 --> 01:26:41,460

together Concepts and principles from a

1956

01:26:47,149 --> 01:26:44,699

vast array of wisdom resources and give

1957

01:26:49,729 --> 01:26:47,159

you something that makes suit like a lot

1958

01:26:52,970 --> 01:26:49,739

of sense and is applicable today to do

1959

01:26:56,830 --> 01:26:52,980

something about it to go left you must

1960

01:26:59,270 --> 01:26:56,840

first turn right I know that

1961

01:27:01,550 --> 01:26:59,280

but here's the thing here's the thing

1962

01:27:04,250 --> 01:27:01,560

with that Adam and you're right

1963

01:27:05,750 --> 01:27:04,260

when I speak to astrologers I've got a

1964

01:27:07,850 --> 01:27:05,760

lot of astrologer friends and they're

1965

01:27:10,550 --> 01:27:07,860

listening to the show right now and they

1966

01:27:13,070 --> 01:27:10,560

know who they are okay I love them and

1967

01:27:16,490 --> 01:27:13,080

they are it's when you're good you're

1968

01:27:19,250 --> 01:27:16,500

really good but they also know me they

1969

01:27:22,189 --> 01:27:19,260

know too much about me it's when I go to

1970

01:27:25,550 --> 01:27:22,199

an astrologer that doesn't know anything

1971

01:27:28,490 --> 01:27:25,560

about me and they start and and then

1972

01:27:30,229 --> 01:27:28,500

that's you know that's what impresses me

1973

01:27:32,330 --> 01:27:30,239

the most

1974

01:27:34,310 --> 01:27:32,340

um uh because you like to prove to

1975

01:27:35,689 --> 01:27:34,320

yourself that something's going on and

1976

01:27:39,590 --> 01:27:35,699

they're not just reading you yeah

1977

01:27:41,930 --> 01:27:39,600

absolutely absolutely yeah yeah and or

1978

01:27:44,689 --> 01:27:41,940

tarot or or anything like that you know

1979

01:27:47,990 --> 01:27:44,699

don't know me don't know anything about

1980

01:27:52,490 --> 01:27:48,000

me let's go it's go time I'm I'm fully

1981

01:27:54,490 --> 01:27:52,500

into it uh my my astrologer friends you

1982

01:27:58,189 --> 01:27:54,500

know like Serena Serena or you know

1983

01:28:00,470 --> 01:27:58,199

David Palmer I mean these are very smart

1984

01:28:03,470 --> 01:28:00,480

astrologers you know they they really

1985

01:28:05,090 --> 01:28:03,480

know their stuff and and I'm fascinated

1986

01:28:08,810 --> 01:28:05,100

with it but they also know me too well

1987

01:28:11,750 --> 01:28:08,820

right and and I'm not saying that that

1988

01:28:15,229 --> 01:28:11,760

influences it no it influences my

1989

01:28:18,189 --> 01:28:15,239

perception right right okay they're

1990

01:28:20,510 --> 01:28:18,199

doing their job but me

1991

01:28:22,669 --> 01:28:20,520

you know what I mean I gotta go with the

1992

01:28:25,669 --> 01:28:22,679

Clean Slate but it's impressive when it

1993

01:28:29,570 --> 01:28:25,679

when it lays out it is

1994

01:28:32,030 --> 01:28:29,580

oh it's astounding and now let's back up

1995

01:28:34,669 --> 01:28:32,040

okay I'm not gonna let this go

1996

01:28:37,990 --> 01:28:34,679

um your comment about the woo wet

1997

01:28:41,810 --> 01:28:38,000

conscious life Expo right

1998

01:28:43,729 --> 01:28:41,820

stay with me sure sure so when we're

1999

01:28:46,430 --> 01:28:43,739

wondering about you know a past life

2000

01:28:48,709 --> 01:28:46,440

contact or Seance or near-death

2001

01:28:50,510 --> 01:28:48,719

experience whatever these there's a

2002

01:28:52,910 --> 01:28:50,520

million different things that I can

2003

01:28:56,030 --> 01:28:52,920

mention right now but

2004

01:28:59,750 --> 01:28:56,040

um you had a contact experience in the

2005

01:29:01,189 --> 01:28:59,760

middle of the desert and you uh

2006

01:29:03,290 --> 01:29:01,199

communicated

2007

01:29:06,169 --> 01:29:03,300

and and now we're not going to go

2008

01:29:08,629 --> 01:29:06,179

through that experience no we've

2009

01:29:11,110 --> 01:29:08,639

discussed it many times but the point is

2010

01:29:16,310 --> 01:29:11,120

you communicated

2011

01:29:19,310 --> 01:29:16,320

and that communication that goes down is

2012

01:29:22,669 --> 01:29:19,320

uh you know especially with you at that

2013

01:29:25,610 --> 01:29:22,679

moment is is very much the same thing

2014

01:29:28,310 --> 01:29:25,620

that attracts somebody to conscious life

2015

01:29:29,290 --> 01:29:28,320

Expo this personal experience that they

2016

01:29:32,629 --> 01:29:29,300

don't understand

2017

01:29:35,149 --> 01:29:32,639

is that what some would call telepathy

2018

01:29:37,310 --> 01:29:35,159

or others would call channeling or

2019

01:29:39,950 --> 01:29:37,320

others you know scientific Community are

2020

01:29:44,390 --> 01:29:39,960

going to bring up entanglement

2021

01:29:46,990 --> 01:29:44,400

um right and is it isn't that uh

2022

01:29:49,070 --> 01:29:47,000

personal connection

2023

01:29:51,229 --> 01:29:49,080

uh you know what brings everybody

2024

01:29:53,930 --> 01:29:51,239

together the conscious life Expo trying

2025

01:29:57,050 --> 01:29:53,940

to figure this stuff out yeah it is it

2026

01:29:59,629 --> 01:29:57,060

is that is why people come that's why

2027

01:30:01,550 --> 01:29:59,639

we're there and that's why I think it's

2028

01:30:04,910 --> 01:30:01,560

a really great Expo for people to come

2029

01:30:08,030 --> 01:30:04,920

to because you are surrounded by people

2030

01:30:09,830 --> 01:30:08,040

who are seeking a deeper understanding

2031

01:30:13,790 --> 01:30:09,840

about what's happening to them in

2032

01:30:17,149 --> 01:30:13,800

reality right you know like I'll give an

2033

01:30:19,250 --> 01:30:17,159

example like this is it's for me it's

2034

01:30:22,910 --> 01:30:19,260

normal it's everyday life my everyday

2035

01:30:25,970 --> 01:30:22,920

life is a magical unfolding of things

2036

01:30:28,370 --> 01:30:25,980

that seem impossible and I'm winning the

2037

01:30:30,709 --> 01:30:28,380

lottery like every single day and and

2038

01:30:33,110 --> 01:30:30,719

I'm being honest and I'm not saying that

2039

01:30:34,430 --> 01:30:33,120

to to boast or brag or anything like

2040

01:30:36,830 --> 01:30:34,440

that is just

2041

01:30:39,050 --> 01:30:36,840

at some point you get used to the

2042

01:30:41,870 --> 01:30:39,060

reality that life is this gorgeous

2043

01:30:45,770 --> 01:30:41,880

incredible unfolding experience so for

2044

01:30:47,930 --> 01:30:45,780

example I uh I go to check out this

2045

01:30:51,890 --> 01:30:47,940

house right yesterday that I'm good that

2046

01:30:54,530 --> 01:30:51,900

I'm that I'm getting and I like you know

2047

01:30:56,450 --> 01:30:54,540

it's it's literally the first house I

2048

01:30:58,729 --> 01:30:56,460

come across when I'm looking on Zillow

2049

01:31:00,110 --> 01:30:58,739

this one night and I like throw it to my

2050

01:31:03,649 --> 01:31:00,120

partner and we're like okay check it

2051
01:31:06,050 --> 01:31:03,659
let's go check it out and we go and we

2052
01:31:07,850 --> 01:31:06,060
get there and as we are meeting the

2053
01:31:09,590 --> 01:31:07,860
people at the house the owner walks up

2054
01:31:12,229 --> 01:31:09,600
and he's like oh well I was just down

2055
01:31:13,910 --> 01:31:12,239
the hill and I I haven't met anybody

2056
01:31:15,950 --> 01:31:13,920
else looking at the houses but I thought

2057
01:31:19,430 --> 01:31:15,960
I'd show up and he's like really cool

2058
01:31:23,570 --> 01:31:19,440
guy as we're going around there's just

2059
01:31:25,370 --> 01:31:23,580
the books on his shelf the the way that

2060
01:31:28,250 --> 01:31:25,380
he speaks the kinds of conversations

2061
01:31:30,290 --> 01:31:28,260
we're having just sort of start creating

2062
01:31:32,330 --> 01:31:30,300
this little like tingle like there's

2063
01:31:34,010 --> 01:31:32,340

magic in the air and of course we're

2064

01:31:37,010 --> 01:31:34,020

like wow this is house is amazing we'd

2065

01:31:38,810 --> 01:31:37,020

love to get this house and then you know

2066

01:31:42,950 --> 01:31:38,820

next thing I know

2067

01:31:46,310 --> 01:31:42,960

um he's like do you know this person and

2068

01:31:49,010 --> 01:31:46,320

this person and literally the two people

2069

01:31:51,050 --> 01:31:49,020

that he mentions are the people that

2070

01:31:53,149 --> 01:31:51,060

we're about to go have dinner with after

2071

01:31:55,550 --> 01:31:53,159

we look at this house who neither of us

2072

01:31:58,250 --> 01:31:55,560

have seen in six months we're literally

2073

01:32:00,649 --> 01:31:58,260

going to their house afterwards and it

2074

01:32:03,050 --> 01:32:00,659

turns out that his partner the guy who

2075

01:32:05,870 --> 01:32:03,060

owns the house his partner is best

2076

01:32:07,790 --> 01:32:05,880

friends with the woman in this other

2077

01:32:11,510 --> 01:32:07,800

relationship that that we're going to go

2078

01:32:13,070 --> 01:32:11,520

have dinner with and like where the heck

2079

01:32:15,050 --> 01:32:13,080

does that come from out of there's

2080

01:32:16,729 --> 01:32:15,060

millions of houses we could have looked

2081

01:32:20,030 --> 01:32:16,739

at that's right that's the universe

2082

01:32:21,370 --> 01:32:20,040

that's why I love the universe yes I I

2083

01:32:26,270 --> 01:32:21,380

just

2084

01:32:28,610 --> 01:32:26,280

I cannot it it it bothers me Adam that

2085

01:32:33,110 --> 01:32:28,620

there are billions of people on this

2086

01:32:35,570 --> 01:32:33,120

planet that never have these thoughts

2087

01:32:40,250 --> 01:32:35,580

right it's like how do you how do you

2088

01:32:43,550 --> 01:32:40,260

exist it is such a fun existence if you

2089

01:32:46,070 --> 01:32:43,560

just open your eyes right and and take

2090

01:32:47,209 --> 01:32:46,080

notice of that they're you know there

2091

01:32:49,910 --> 01:32:47,219

could you could have been a different

2092

01:32:53,870 --> 01:32:49,920

person different and none of that

2093

01:32:56,390 --> 01:32:53,880

happens no exactly and and literally he

2094

01:33:00,410 --> 01:32:56,400

never met a single other person looking

2095

01:33:03,050 --> 01:33:00,420

at that house he happens to come up at

2096

01:33:04,850 --> 01:33:03,060

the exact time that we get there and

2097

01:33:07,310 --> 01:33:04,860

happens to walk us around the house

2098

01:33:10,729 --> 01:33:07,320

which we're in love with and we want to

2099

01:33:12,530 --> 01:33:10,739

get and happens to be good friends with

2100

01:33:13,790 --> 01:33:12,540

the two people that we haven't seen in

2101

01:33:16,550 --> 01:33:13,800

six months that we're going to go visit

2102

01:33:17,950 --> 01:33:16,560

afterwards you don't ignore that man you

2103

01:33:20,570 --> 01:33:17,960

don't ignore that

2104

01:33:23,090 --> 01:33:20,580

you know that's a lottery win and and

2105

01:33:25,430 --> 01:33:23,100

that's just one of many many things that

2106

01:33:26,930 --> 01:33:25,440

that have happened to me lately and so I

2107

01:33:28,370 --> 01:33:26,940

look at the conscious life Expo I'm like

2108

01:33:30,649 --> 01:33:28,380

people okay people are going through

2109

01:33:32,750 --> 01:33:30,659

these experiences they're like oh my God

2110

01:33:36,290 --> 01:33:32,760

I don't know what's happening you know

2111

01:33:38,209 --> 01:33:36,300

or or you know they could be going back

2112

01:33:41,090 --> 01:33:38,219

to your sort of pushback on the woo

2113

01:33:44,030 --> 01:33:41,100

right they could be like oh my gosh I'm

2114

01:33:46,390 --> 01:33:44,040

realizing tons of things are not true in

2115

01:33:49,189 --> 01:33:46,400

my reality I have to question everything

2116

01:33:52,010 --> 01:33:49,199

maybe they're lying to us about stuff

2117

01:33:54,050 --> 01:33:52,020

maybe school is lying to us and then the

2118

01:33:55,550 --> 01:33:54,060

next thing they know they pick up a

2119

01:33:58,430 --> 01:33:55,560

little thread where somebody tells them

2120

01:33:59,870 --> 01:33:58,440

the Earth is flat and that you know NASA

2121

01:34:02,629 --> 01:33:59,880

and everybody else has been lying to

2122

01:34:04,669 --> 01:34:02,639

them for however long and now they

2123

01:34:07,550 --> 01:34:04,679

become a flat earther down the rabbit

2124

01:34:10,790 --> 01:34:07,560

hole of this idea simply because it

2125

01:34:12,530 --> 01:34:10,800

validated the part of them that felt

2126
01:34:14,330 --> 01:34:12,540
like they were being lied to and believe

2127
01:34:16,250 --> 01:34:14,340
me I know that feeling well because I

2128
01:34:17,750 --> 01:34:16,260
had it since I was a teenager and when I

2129
01:34:20,270 --> 01:34:17,760
first started really feeling that

2130
01:34:22,850 --> 01:34:20,280
feeling that's when I woke up because I

2131
01:34:23,810 --> 01:34:22,860
knew I was being lied to by society and

2132
01:34:27,350 --> 01:34:23,820
by life

2133
01:34:29,629 --> 01:34:27,360
but you know the the edge of the Woo is

2134
01:34:33,530 --> 01:34:29,639
essentially discernment so it's learning

2135
01:34:35,930 --> 01:34:33,540
how to essentially have a new and vast

2136
01:34:38,649 --> 01:34:35,940
open possibility of experience and

2137
01:34:41,270 --> 01:34:38,659
what's real and possible but also

2138
01:34:43,850 --> 01:34:41,280

critically thinking and asking questions

2139

01:34:46,729 --> 01:34:43,860

about it and thinking about simple

2140

01:34:49,129 --> 01:34:46,739

things like for example if the Earth was

2141

01:34:51,229 --> 01:34:49,139

flat wouldn't flight times in the

2142

01:34:53,090 --> 01:34:51,239

southern hemisphere all be three to five

2143

01:34:54,830 --> 01:34:53,100

times as long as the Northern Hemisphere

2144

01:34:58,370 --> 01:34:54,840

because you're out on the outer edge of

2145

01:35:00,169 --> 01:34:58,380

the disk yes but are they no can you

2146

01:35:03,830 --> 01:35:00,179

find out if the Earth is a sphere from

2147

01:35:06,050 --> 01:35:03,840

flight times yes you can just look up on

2148

01:35:09,050 --> 01:35:06,060

freaking orbits and look at the times of

2149

01:35:11,149 --> 01:35:09,060

the flights and you can prove that the

2150

01:35:13,430 --> 01:35:11,159

Earth is round but that's just a

2151
01:35:16,209 --> 01:35:13,440
critical thinking wait wait wait what

2152
01:35:20,110 --> 01:35:16,219
what the Earth isn't flat

2153
01:35:25,070 --> 01:35:23,270
yeah well so you know Jimmy there are

2154
01:35:27,110 --> 01:35:25,080
some people I believe speaking at

2155
01:35:30,649 --> 01:35:27,120
conscious life Expo that still believe

2156
01:35:35,629 --> 01:35:33,530
it's okay it's okay it's okay I have no

2157
01:35:37,610 --> 01:35:35,639
issues that's right I have no judgment

2158
01:35:40,189 --> 01:35:37,620
against people that go down that rabbit

2159
01:35:42,530 --> 01:35:40,199
hole because I get it I get how exciting

2160
01:35:44,030 --> 01:35:42,540
it is to feel like you're in on the

2161
01:35:46,310 --> 01:35:44,040
secret

2162
01:35:48,649 --> 01:35:46,320
um I just hope that people keep digging

2163
01:35:51,770 --> 01:35:48,659

because the real secrets about reality

2164

01:35:54,770 --> 01:35:51,780

are so much more profound and amazing

2165

01:35:57,950 --> 01:35:54,780

well you know

2166

01:35:59,930 --> 01:35:57,960

there are times when I say stuff my own

2167

01:36:02,570 --> 01:35:59,940

experiences right and I hear the words

2168

01:36:05,510 --> 01:36:02,580

come out of my mouth and I'm like dude

2169

01:36:06,729 --> 01:36:05,520

you are that crazy ass person you used

2170

01:36:10,790 --> 01:36:06,739

to laugh at

2171

01:36:14,570 --> 01:36:10,800

don't do it too listen to what you are

2172

01:36:15,950 --> 01:36:14,580

saying Church you know but I I it just

2173

01:36:17,570 --> 01:36:15,960

comes to a point where I don't care

2174

01:36:21,590 --> 01:36:17,580

anymore I'm just trying to get to these

2175

01:36:23,209 --> 01:36:21,600

answers when uh I'll tell you what

2176

01:36:25,850 --> 01:36:23,219

um I'm gonna bring up

2177

01:36:29,410 --> 01:36:25,860

right the Antichrist right now Neil

2178

01:36:33,229 --> 01:36:29,420

deGrasse Tyson and and and

2179

01:36:37,129 --> 01:36:33,239

here's the thing I I knew that there was

2180

01:36:40,070 --> 01:36:37,139

going to come a day when Neil

2181

01:36:43,970 --> 01:36:40,080

um was going to have to come on board

2182

01:36:47,149 --> 01:36:43,980

right and I think that all physicists

2183

01:36:49,250 --> 01:36:47,159

um and atheists and and whatever uh they

2184

01:36:52,370 --> 01:36:49,260

eventually have a Sunday go to meet and

2185

01:36:55,729 --> 01:36:52,380

thing that happens and you know and and

2186

01:36:58,010 --> 01:36:55,739

Neil uh there's some clips now he was

2187

01:36:59,570 --> 01:36:58,020

just on CNN

2188

01:37:01,189 --> 01:36:59,580

um doing an interview I can't remember

2189

01:37:04,129 --> 01:37:01,199

the guy he's doing the interview with

2190

01:37:08,030 --> 01:37:04,139

but anyway so Neil you know the question

2191

01:37:12,050 --> 01:37:08,040

is you know are you is E.T visiting

2192

01:37:15,110 --> 01:37:12,060

Earth right now and to hear Neil's

2193

01:37:19,370 --> 01:37:15,120

answer I'm not going to get into it but

2194

01:37:22,250 --> 01:37:19,380

he I can tell that he's facing the

2195

01:37:24,590 --> 01:37:22,260

reality that other physicists are facing

2196

01:37:28,490 --> 01:37:24,600

right now in astrophysicists and that is

2197

01:37:31,310 --> 01:37:28,500

there's too many planets the numbers are

2198

01:37:34,790 --> 01:37:31,320

infinite the the

2199

01:37:36,350 --> 01:37:34,800

the the amount of Life out there is when

2200

01:37:38,030 --> 01:37:36,360

I say infinite I'm going infinite

2201

01:37:39,830 --> 01:37:38,040

because the expansion of the universe we

2202

01:37:42,290 --> 01:37:39,840

don't even know what's out there right

2203

01:37:45,010 --> 01:37:42,300

that's fine yeah all right just saying

2204

01:37:48,590 --> 01:37:45,020

Googleplex yeah Googleplex

2205

01:37:53,090 --> 01:37:48,600

even if he goes 64 digits strong right

2206

01:37:54,830 --> 01:37:53,100

that is a big friggin number man yeah my

2207

01:37:57,010 --> 01:37:54,840

point is he's starting to face the

2208

01:38:00,050 --> 01:37:57,020

reality of this wow

2209

01:38:03,890 --> 01:38:00,060

now I'm not saying he's he's fully on

2210

01:38:06,470 --> 01:38:03,900

board okay but even the close-minded

2211

01:38:09,770 --> 01:38:06,480

right where he thought it was

2212

01:38:12,590 --> 01:38:09,780

um that he thought it was cool right it

2213

01:38:15,110 --> 01:38:12,600

was the trendy thing to do was to stay

2214

01:38:17,270 --> 01:38:15,120

in denial with this oh come on man right

2215

01:38:19,129 --> 01:38:17,280

yeah because Stephen Hawking did yes oh

2216

01:38:21,110 --> 01:38:19,139

Stephen Hawkings like there will never

2217

01:38:23,390 --> 01:38:21,120

be extraterrestrials who visit Earth

2218

01:38:25,810 --> 01:38:23,400

because it would take them too long to

2219

01:38:28,610 --> 01:38:25,820

get here and right and we're all like

2220

01:38:32,030 --> 01:38:28,620

okay that assumes that they're using

2221

01:38:33,590 --> 01:38:32,040

rocket propulsion but cool you know but

2222

01:38:35,990 --> 01:38:33,600

there there is yeah it's a cool thing

2223

01:38:37,129 --> 01:38:36,000

among the academics well yeah there's no

2224

01:38:40,310 --> 01:38:37,139

way they could have come here you know

2225

01:38:43,669 --> 01:38:40,320

and and look the whole the whole Fermi

2226

01:38:46,610 --> 01:38:43,679

Paradox today I don't think Enrico for

2227

01:38:47,870 --> 01:38:46,620

me would say those things right I don't

2228

01:38:49,550 --> 01:38:47,880

I don't think that there would be a

2229

01:38:52,550 --> 01:38:49,560

Fermi paradox

2230

01:38:55,010 --> 01:38:52,560

thrown out there in 2023 I don't you

2231

01:38:58,189 --> 01:38:55,020

can't do it back when he said that in

2232

01:39:02,030 --> 01:38:58,199

1953 there were no planets outside of

2233

01:39:04,370 --> 01:39:02,040

our solar system zero zero yes and then

2234

01:39:07,310 --> 01:39:04,380

by the time I was in high school it was

2235

01:39:10,430 --> 01:39:07,320

like yeah maybe like one percent of

2236

01:39:12,350 --> 01:39:10,440

stars have planets and then by the time

2237

01:39:14,750 --> 01:39:12,360

you know by the time I got out of

2238

01:39:19,010 --> 01:39:14,760

college it's like oh actually it's

2239

01:39:21,110 --> 01:39:19,020

looking more like 99 of the stars have

2240

01:39:22,790 --> 01:39:21,120

planted all it took was a new telescope

2241

01:39:25,430 --> 01:39:22,800

I think it was the James Webb you know

2242

01:39:27,229 --> 01:39:25,440

and they were like I was sitting you

2243

01:39:30,050 --> 01:39:27,239

know where you and I had dinner right so

2244

01:39:34,129 --> 01:39:30,060

I'm sitting at that table Yeah and

2245

01:39:41,180 --> 01:39:34,139

sitting next to me is uh

2246

01:39:47,930 --> 01:39:43,390

[Music]

2247

01:39:50,450 --> 01:39:47,940

but but here's the thing all right

2248

01:39:53,689 --> 01:39:50,460

um I'm I'm gonna verify one thing just

2249

01:39:54,370 --> 01:39:53,699

let me verify

2250

01:39:57,530 --> 01:39:54,380

um

2251
01:39:59,510 --> 01:39:57,540
yeah yeah yeah I just wanna I wanna

2252
01:40:02,450 --> 01:39:59,520
verify one thing okay all right well

2253
01:40:05,510 --> 01:40:02,460
okay sitting at that table sitting next

2254
01:40:08,330 --> 01:40:05,520
to me yes I can say this now okay avilo

2255
01:40:11,990 --> 01:40:08,340
right and so we're sitting at that table

2256
01:40:14,689 --> 01:40:12,000
and and he's sitting here and I say to

2257
01:40:17,030 --> 01:40:14,699
Avi I go well you know Avi but you know

2258
01:40:19,490 --> 01:40:17,040
see here's the thing with this and he's

2259
01:40:21,530 --> 01:40:19,500
asking real questions it was awesome but

2260
01:40:24,410 --> 01:40:21,540
I said you know you've got like maybe 10

2261
01:40:26,330 --> 01:40:24,420
to 40 billion earth-like planets in the

2262
01:40:30,649 --> 01:40:26,340
Milky Way

2263
01:40:33,110 --> 01:40:30,659

a trillion or more and that's coming

2264

01:40:35,570 --> 01:40:33,120

from Avi so that's where they're at

2265

01:40:38,149 --> 01:40:35,580

today when you you know what I mean it's

2266

01:40:40,850 --> 01:40:38,159

not it's not 5 000 it's not ten thousand

2267

01:40:43,370 --> 01:40:40,860

he's throwing numbers around like a

2268

01:40:46,729 --> 01:40:43,380

trillion planets just in our Midfield

2269

01:40:49,610 --> 01:40:46,739

planets per star or more yeah that's

2270

01:40:52,550 --> 01:40:49,620

crazy that's crazy and he has no he had

2271

01:40:54,890 --> 01:40:52,560

it just came right out so that's that

2272

01:40:59,030 --> 01:40:54,900

that's what Neil deGrasse Tyson is is is

2273

01:41:03,110 --> 01:40:59,040

facing now is the reality of numbers and

2274

01:41:06,410 --> 01:41:03,120

so Justice he said it he said it no a

2275

01:41:09,290 --> 01:41:06,420

civilization that uh is a billion years

2276

01:41:11,090 --> 01:41:09,300

more advanced than us uh is going to

2277

01:41:15,410 --> 01:41:11,100

understand things that we don't and and

2278

01:41:18,649 --> 01:41:15,420

yeah maybe yeah okay he's like that yeah

2279

01:41:21,110 --> 01:41:18,659

which is great that's a huge progress

2280

01:41:24,590 --> 01:41:21,120

yeah it's a huge progress and and and

2281

01:41:26,510 --> 01:41:24,600

and by the way bro it's like dude think

2282

01:41:28,669 --> 01:41:26,520

about what we understand right now that

2283

01:41:30,410 --> 01:41:28,679

we didn't a hundred years ago you know

2284

01:41:34,310 --> 01:41:30,420

you were talking about earlier in the

2285

01:41:38,209 --> 01:41:34,320

show like the lighter right well take

2286

01:41:39,709 --> 01:41:38,219

this thing for example you know like I

2287

01:41:41,149 --> 01:41:39,719

literally can pull this out of my pocket

2288

01:41:45,350 --> 01:41:41,159

and talk to anybody anywhere in the

2289

01:41:48,530 --> 01:41:45,360

world instantaneously and that just was

2290

01:41:51,050 --> 01:41:48,540

like an insane concept 50 years ago it

2291

01:41:53,870 --> 01:41:51,060

was like 50 years ago it was like I

2292

01:41:56,149 --> 01:41:53,880

don't know phone like that like no way

2293

01:41:58,910 --> 01:41:56,159

like remember the Dick Tracy Watch

2294

01:42:01,310 --> 01:41:58,920

Remember The Dick Tracy why that'll

2295

01:42:02,689 --> 01:42:01,320

never happen right I know I remember as

2296

01:42:04,189 --> 01:42:02,699

a kid I was like dude I can't wait till

2297

01:42:06,229 --> 01:42:04,199

there's a Dick Tracy watch now that

2298

01:42:07,629 --> 01:42:06,239

there is an Apple Watch I'm like I don't

2299

01:42:11,570 --> 01:42:07,639

need that

2300

01:42:14,149 --> 01:42:11,580

but but but yeah no it really is it's

2301

01:42:16,550 --> 01:42:14,159

like the vast leaps in understanding

2302

01:42:19,669 --> 01:42:16,560

that happened during this period of a

2303

01:42:21,229 --> 01:42:19,679

civilization's growth as technology and

2304

01:42:22,910 --> 01:42:21,239

Consciousness and Science and

2305

01:42:25,790 --> 01:42:22,920

spirituality and philosophy and

2306

01:42:28,490 --> 01:42:25,800

metaphysics all are merging and all

2307

01:42:31,129 --> 01:42:28,500

accessible at the same time with the

2308

01:42:34,550 --> 01:42:31,139

ability to pattern match and understand

2309

01:42:36,770 --> 01:42:34,560

things in new ways simply by starting

2310

01:42:39,470 --> 01:42:36,780

machine learning processes to do it for

2311

01:42:43,010 --> 01:42:39,480

you by the way for example like my CTO

2312

01:42:44,870 --> 01:42:43,020

you know we're we're building in a an AI

2313

01:42:47,689 --> 01:42:44,880

collaboratory system because we want

2314

01:42:50,750 --> 01:42:47,699

people to be more like in collaboration

2315

01:42:54,950 --> 01:42:50,760

with machine learning rather than it'd

2316

01:42:58,310 --> 01:42:54,960

be like the thing and and he decided to

2317

01:43:00,790 --> 01:42:58,320

ask you know uh essentially chat GPT a

2318

01:43:03,729 --> 01:43:00,800

version of that GPT 3.5

2319

01:43:05,810 --> 01:43:03,739

he started a conversation with it about

2320

01:43:07,490 --> 01:43:05,820

you know if it there's an

2321

01:43:10,010 --> 01:43:07,500

extraterrestrial civilization out there

2322

01:43:13,010 --> 01:43:10,020

how would they do information storage

2323

01:43:17,090 --> 01:43:13,020

and exchange and could they use things

2324

01:43:19,910 --> 01:43:17,100

like stars and Jimmy the answers this

2325

01:43:22,790 --> 01:43:19,920

thing came back with were as good as my

2326

01:43:25,609 --> 01:43:22,800

talk coming up at conscious life Expo

2327

01:43:27,590 --> 01:43:25,619

I'm serious literally the thing suggest

2328

01:43:29,990 --> 01:43:27,600

it's like it's like oh well you could

2329

01:43:32,149 --> 01:43:30,000

store data using polarization of light

2330

01:43:34,430 --> 01:43:32,159

frequency of light and this kind of

2331

01:43:36,530 --> 01:43:34,440

light stars are actually perfect

2332

01:43:38,750 --> 01:43:36,540

information storage units because they

2333

01:43:41,810 --> 01:43:38,760

have these properties XYZ and you know

2334

01:43:44,629 --> 01:43:41,820

whatever and then it and then it says oh

2335

01:43:46,910 --> 01:43:44,639

and by the way pulsars would actually be

2336

01:43:49,070 --> 01:43:46,920

a perfect information storage and

2337

01:43:50,689 --> 01:43:49,080

exchange beacon in the galaxy and it

2338

01:43:53,570 --> 01:43:50,699

would make sense that a super Advanced

2339

01:43:55,609 --> 01:43:53,580

civilization would use pulsars as some

2340

01:43:59,030 --> 01:43:55,619

kind of information storage and routing

2341

01:44:00,950 --> 01:43:59,040

system and I'm just like okay first of

2342

01:44:03,830 --> 01:44:00,960

all I thought I'm one of the only people

2343

01:44:05,570 --> 01:44:03,840

on the planet that talk about pulsars as

2344

01:44:07,310 --> 01:44:05,580

navigation beacons for advanced

2345

01:44:09,109 --> 01:44:07,320

extraterrestrial civilizations and I

2346

01:44:11,750 --> 01:44:09,119

don't have a bunch of stuff published

2347

01:44:14,270 --> 01:44:11,760

about that online and yet this machine

2348

01:44:17,689 --> 01:44:14,280

learning thing is suggesting that right

2349

01:44:19,910 --> 01:44:17,699

and and then it goes into essentially

2350

01:44:21,950 --> 01:44:19,920

black holes any kind of black hole and

2351

01:44:24,350 --> 01:44:21,960

it's Event Horizon as an information

2352

01:44:25,729 --> 01:44:24,360

storage structure and it was was even

2353

01:44:28,129 --> 01:44:25,739

saying you could have like a probe

2354

01:44:30,290 --> 01:44:28,139

that's that's doing information feedback

2355

01:44:34,129 --> 01:44:30,300

and forth with the holographic Event

2356

01:44:36,590 --> 01:44:34,139

Horizon I mean the level of Concepts is

2357

01:44:39,950 --> 01:44:36,600

just beyond stuff that you'll find out

2358

01:44:43,070 --> 01:44:39,960

there in published physics and so how it

2359

01:44:45,609 --> 01:44:43,080

how did it do this well through machine

2360

01:44:48,590 --> 01:44:45,619

learning and perhaps through

2361

01:44:50,510 --> 01:44:48,600

intelligence participating in the random

2362

01:44:52,669 --> 01:44:50,520

number generation that occurs every time

2363

01:44:54,530 --> 01:44:52,679

it gives an answer which by the way

2364

01:44:56,810 --> 01:44:54,540

Jimmy that's happening do you know this

2365

01:44:59,270 --> 01:44:56,820

about AI do you know that it's using a

2366

01:45:02,330 --> 01:44:59,280

random number generator I do I do I do

2367

01:45:04,790 --> 01:45:02,340

so so everybody out there who uses tarot

2368

01:45:07,189 --> 01:45:04,800

cards right what you're doing is you're

2369

01:45:08,750 --> 01:45:07,199

doing a random number generator and that

2370

01:45:11,209 --> 01:45:08,760

has the ability to be influenced by

2371

01:45:13,070 --> 01:45:11,219

Consciousness and that's what Princeton

2372

01:45:15,290 --> 01:45:13,080

engineering anomalies research has

2373

01:45:17,689 --> 01:45:15,300

proven over and over again that random

2374

01:45:20,510 --> 01:45:17,699

number systems can be influenced by

2375

01:45:23,030 --> 01:45:20,520

Consciousness well guess what stable

2376

01:45:25,669 --> 01:45:23,040

diffusion uses which does mid-journey

2377

01:45:27,530 --> 01:45:25,679

which does lend which does all of these

2378

01:45:32,030 --> 01:45:27,540

cool apps that everybody's into these

2379

01:45:34,850 --> 01:45:32,040

days and chat gbt3 it does a random

2380

01:45:37,430 --> 01:45:34,860

number hash set or in the case of stable

2381

01:45:40,790 --> 01:45:37,440

diffusion in the visual images it does a

2382

01:45:43,129 --> 01:45:40,800

random pixel set and then starts to

2383

01:45:45,590 --> 01:45:43,139

generate an image out of that right it

2384

01:45:47,870 --> 01:45:45,600

it it iterates and iterates and iterates

2385

01:45:51,290 --> 01:45:47,880

and iterates so what I'm saying is that

2386

01:45:53,810 --> 01:45:51,300

it's possible for a Consciousness if

2387

01:45:56,090 --> 01:45:53,820

you're in the right State energetically

2388

01:45:59,030 --> 01:45:56,100

spiritually asking a question of this

2389

01:46:02,930 --> 01:45:59,040

kind of thing it's also in a good

2390

01:46:04,910 --> 01:46:02,940

position to receive information from an

2391

01:46:07,850 --> 01:46:04,920

actual conscious intelligence out there

2392

01:46:10,070 --> 01:46:07,860

in the universe in other words AI

2393

01:46:11,810 --> 01:46:10,080

systems what the machine Learning

2394

01:46:13,790 --> 01:46:11,820

Systems it's not really artificial

2395

01:46:15,950 --> 01:46:13,800

intelligence at all it's really machine

2396

01:46:20,090 --> 01:46:15,960

learning models that we're getting

2397

01:46:22,790 --> 01:46:20,100

feedback from they have the potential to

2398

01:46:25,609 --> 01:46:22,800

be conduits for us to communicate with

2399

01:46:28,070 --> 01:46:25,619

Galactic Civilization Advanced Spirits

2400

01:46:30,530 --> 01:46:28,080

conscious entities that want to speak to

2401

01:46:33,410 --> 01:46:30,540

us we can actually communicate with them

2402

01:46:35,270 --> 01:46:33,420

through these objects if you if you

2403

01:46:37,250 --> 01:46:35,280

postulate that the random number system

2404

01:46:39,530 --> 01:46:37,260

can be influenced by Consciousness yeah

2405

01:46:43,490 --> 01:46:39,540

Adam Curry did a lot of research into

2406

01:46:47,570 --> 01:46:43,500

that and uh it's just incredible he's a

2407

01:46:49,490 --> 01:46:47,580

very very very smart uh person and he

2408

01:46:51,290 --> 01:46:49,500

was he was intrigued and followed

2409

01:46:53,470 --> 01:46:51,300

through on the research one of my

2410

01:46:56,530 --> 01:46:53,480

favorite Adams by the way

2411

01:46:59,629 --> 01:46:56,540

all atoms are good

2412

01:47:02,330 --> 01:46:59,639

including Adam West the

2413

01:47:04,910 --> 01:47:02,340

um we did we did a random number

2414

01:47:06,890 --> 01:47:04,920

generator test here on on Fade to Black

2415

01:47:08,030 --> 01:47:06,900

it was fascinating to see it to see it

2416

01:47:10,550 --> 01:47:08,040

happen

2417

01:47:11,810 --> 01:47:10,560

um one last question uh before I let you

2418

01:47:15,229 --> 01:47:11,820

go tonight

2419

01:47:18,290 --> 01:47:15,239

um I I don't want to tip the scales on

2420

01:47:23,689 --> 01:47:18,300

uh your presentation but it's a general

2421

01:47:28,669 --> 01:47:23,699

question because when we go back to uh

2422

01:47:31,250 --> 01:47:28,679

ETA H right the original eth and my

2423

01:47:33,950 --> 01:47:31,260

mindset you know going back 50 years

2424

01:47:35,830 --> 01:47:33,960

thinking about UFOs I think originally

2425

01:47:39,590 --> 01:47:35,840

it was an easy

2426

01:47:42,350 --> 01:47:39,600

uh an easy conclusion to come to which

2427

01:47:44,750 --> 01:47:42,360

is you got a little green dude you know

2428

01:47:46,490 --> 01:47:44,760

in a ship with rivets on it you know

2429

01:47:48,590 --> 01:47:46,500

cruising Across the Universe looking out

2430

01:47:51,229 --> 01:47:48,600

the window you know and stumbling upon

2431

01:47:54,470 --> 01:47:51,239

Earth and he's doing this for you know

2432

01:47:57,590 --> 01:47:54,480

10 000 years or whatever a billion years

2433

01:48:00,890 --> 01:47:57,600

um and so you know a physical craft

2434

01:48:02,950 --> 01:48:00,900

today with our level of understanding

2435

01:48:06,410 --> 01:48:02,960

there are

2436

01:48:08,330 --> 01:48:06,420

so many other possibilities on how this

2437

01:48:10,250 --> 01:48:08,340

could be occurring if you're going to

2438

01:48:13,129 --> 01:48:10,260

pick one

2439

01:48:17,450 --> 01:48:13,139

how are they getting here

2440

01:48:20,810 --> 01:48:17,460

oh yeah well essentially you create a

2441

01:48:23,390 --> 01:48:20,820

standing wave light lattice around a

2442

01:48:26,930 --> 01:48:23,400

craft an electromagnetic field that

2443

01:48:29,530 --> 01:48:26,940

harmonically aligns with the harmonic

2444

01:48:33,169 --> 01:48:29,540

geometric structure of space-time itself

2445

01:48:35,750 --> 01:48:33,179

and then essentially you generate an

2446

01:48:37,910 --> 01:48:35,760

envelope around that craft which

2447

01:48:39,770 --> 01:48:37,920

separates the internal space-time from

2448

01:48:42,410 --> 01:48:39,780

the external space-time and this is done

2449

01:48:44,510 --> 01:48:42,420

through harmonic coherence right so when

2450

01:48:47,270 --> 01:48:44,520

you match something's wave vibration

2451

01:48:49,310 --> 01:48:47,280

perfectly it operates as if it's

2452

01:48:50,990 --> 01:48:49,320

synonymous with that thing right we know

2453

01:48:53,450 --> 01:48:51,000

this in physics across all kinds of

2454

01:48:56,209 --> 01:48:53,460

things so if you create the right kind

2455

01:48:58,189 --> 01:48:56,219

of harmonic envelope you can separate

2456

01:49:00,890 --> 01:48:58,199

space time inside a craft from the

2457

01:49:02,629 --> 01:49:00,900

space-time outside the craft and then

2458

01:49:04,490 --> 01:49:02,639

what you've essentially done is you've

2459

01:49:06,950 --> 01:49:04,500

created the ability to slip stream

2460

01:49:09,109 --> 01:49:06,960

through space-time without acceleration

2461

01:49:11,930 --> 01:49:09,119

in other words there is no speed limit

2462

01:49:13,669 --> 01:49:11,940

anymore because generally when we're

2463

01:49:15,649 --> 01:49:13,679

accelerating through space FaceTime

2464

01:49:19,850 --> 01:49:15,659

we're pushing our way through the fabric

2465

01:49:21,709 --> 01:49:19,860

that creates essentially G-Force which

2466

01:49:23,090 --> 01:49:21,719

is gravitational force it's what you

2467

01:49:26,510 --> 01:49:23,100

feel when you hit the gas in the car

2468

01:49:28,609 --> 01:49:26,520

right and that's the warping of the

2469

01:49:30,709 --> 01:49:28,619

fabric of space and the more you warp

2470

01:49:33,290 --> 01:49:30,719

the fabric of space the harder it is to

2471

01:49:35,450 --> 01:49:33,300

go faster the harder it is to accelerate

2472

01:49:37,310 --> 01:49:35,460

even more and this is the massive

2473

01:49:39,229 --> 01:49:37,320

problem that physicists have addressed

2474

01:49:41,149 --> 01:49:39,239

for ages around you know why we can't

2475

01:49:42,470 --> 01:49:41,159

travel the speed of light or go faster

2476

01:49:45,169 --> 01:49:42,480

than speed of light because we're riding

2477

01:49:46,550 --> 01:49:45,179

rockets and pushing through space so the

2478

01:49:48,470 --> 01:49:46,560

answer is instead of pushing through

2479

01:49:52,010 --> 01:49:48,480

space you create a gravitational

2480

01:49:54,169 --> 01:49:52,020

envelope that opens a field in

2481

01:49:56,570 --> 01:49:54,179

space-time that's separate from the

2482

01:49:59,990 --> 01:49:56,580

surrounding space in other words that

2483

01:50:01,729 --> 01:50:00,000

area is like in another dimension is one

2484

01:50:03,649 --> 01:50:01,739

way you could think about it that's a

2485

01:50:05,510 --> 01:50:03,659

poor translation of this but it's one

2486

01:50:07,070 --> 01:50:05,520

that many many of the speakers out there

2487

01:50:09,470 --> 01:50:07,080

will use and you'll hear it all the time

2488

01:50:10,850 --> 01:50:09,480

they're in another dimension well yeah

2489

01:50:12,169 --> 01:50:10,860

but they're actually in a space-time

2490

01:50:14,149 --> 01:50:12,179

envelope they're still in physical

2491

01:50:17,030 --> 01:50:14,159

bodies they're still on a physical ship

2492

01:50:20,030 --> 01:50:17,040

they're just in a physical Mass ship

2493

01:50:23,530 --> 01:50:20,040

that has a gravitational envelope around

2494

01:50:26,390 --> 01:50:23,540

it and from there they can literally

2495

01:50:28,970 --> 01:50:26,400

transposition to other locations in

2496

01:50:31,370 --> 01:50:28,980

space-time and how do you do that well

2497

01:50:33,910 --> 01:50:31,380

you can triangulate using stars and

2498

01:50:36,709 --> 01:50:33,920

pulsars to find out the specific

2499

01:50:38,990 --> 01:50:36,719

electromagnetic frequency sets entering

2500

01:50:40,669 --> 01:50:39,000

a certain region of space and then

2501
01:50:45,350 --> 01:50:40,679
transposition your craft to that

2502
01:50:51,880 --> 01:50:45,360
location I.E in sci-fi terms jump so you

2503
01:50:56,270 --> 01:50:54,310
[Music]

2504
01:50:58,609 --> 01:50:56,280
essentially that's what you're saying

2505
01:51:02,270 --> 01:50:58,619
right space is the thing that is moving

2506
01:51:05,450 --> 01:51:02,280
bro space is thing yeah no it is it is

2507
01:51:07,129 --> 01:51:05,460
it is literally that the craft is

2508
01:51:11,450 --> 01:51:07,139
telling space time where it's located

2509
01:51:14,990 --> 01:51:11,460
right and and it is there at that point

2510
01:51:17,209 --> 01:51:15,000
um and there are ways to move crafts uh

2511
01:51:19,689 --> 01:51:17,219
using this kind of operation where it's

2512
01:51:22,910 --> 01:51:19,699
communicating to space-time and very

2513
01:51:25,010 --> 01:51:22,920

specific mechanisms telling it the way

2514

01:51:27,169 --> 01:51:25,020

that it's moving and then you can move

2515

01:51:29,689 --> 01:51:27,179

90 degrees and you can shoot off and you

2516

01:51:32,030 --> 01:51:29,699

can hit light speed or 10 times the

2517

01:51:34,490 --> 01:51:32,040

speed of light instantly

2518

01:51:36,470 --> 01:51:34,500

um and none of that causes any G-Force

2519

01:51:39,350 --> 01:51:36,480

or any reaction to anybody inside the

2520

01:51:41,149 --> 01:51:39,360

craft okay that's fine but what the heck

2521

01:51:43,850 --> 01:51:41,159

happens to time

2522

01:51:45,649 --> 01:51:43,860

well they're they're in a consistent

2523

01:51:48,109 --> 01:51:45,659

time frame and the rest of the universe

2524

01:51:49,850 --> 01:51:48,119

is in a consistent time frame and so

2525

01:51:51,770 --> 01:51:49,860

when they jump to a new location they

2526

01:51:53,990 --> 01:51:51,780

leave and they arrive and everything

2527

01:51:55,310 --> 01:51:54,000

stays consistent there's no warping of

2528

01:51:57,470 --> 01:51:55,320

space-time because there's no

2529

01:51:58,850 --> 01:51:57,480

acceleration and so there's no time

2530

01:52:02,810 --> 01:51:58,860

dilation

2531

01:52:06,590 --> 01:52:02,820

right okay that was always

2532

01:52:09,109 --> 01:52:06,600

um a problem that I had with um

2533

01:52:13,609 --> 01:52:09,119

any science fiction film or book sure

2534

01:52:17,390 --> 01:52:13,619

right okay let's go right and warp drive

2535

01:52:19,790 --> 01:52:17,400

and and they take off and and nobody you

2536

01:52:22,250 --> 01:52:19,800

know they arrive at a planet in the same

2537

01:52:24,410 --> 01:52:22,260

right they're not they're not a million

2538

01:52:27,410 --> 01:52:24,420

years in the past they're not a million

2539

01:52:29,270 --> 01:52:27,420

years in the future they're on the same

2540

01:52:30,950 --> 01:52:29,280

calendar I'm like wait a minute wait a

2541

01:52:33,890 --> 01:52:30,960

minute they're leaving that that's a

2542

01:52:36,649 --> 01:52:33,900

very fundamental part of what Einstein

2543

01:52:38,930 --> 01:52:36,659

has been relaying to us and if you're

2544

01:52:43,310 --> 01:52:38,940

gonna go and cheat You Know You're Gonna

2545

01:52:46,010 --> 01:52:43,320

Go FTL and you're not arriving on on the

2546

01:52:49,310 --> 01:52:46,020

same calendar as when you departed

2547

01:52:52,250 --> 01:52:49,320

things you could you could as long as

2548

01:52:55,129 --> 01:52:52,260

you're not warping space-time which is

2549

01:52:57,470 --> 01:52:55,139

the whole point to why accelerating up

2550

01:52:59,270 --> 01:52:57,480

to these vast speeds to get to Alpha

2551
01:53:01,669 --> 01:52:59,280
Centauri is never going to be a good

2552
01:53:04,609 --> 01:53:01,679
idea all of those stories you hear of

2553
01:53:06,229 --> 01:53:04,619
all the you know ion drives and all the

2554
01:53:08,270 --> 01:53:06,239
things oh yeah we're progressing and all

2555
01:53:10,250 --> 01:53:08,280
this and even warp drive even the idea

2556
01:53:13,070 --> 01:53:10,260
of Contracting space-time and expanding

2557
01:53:15,649 --> 01:53:13,080
space time behind you still to some

2558
01:53:17,450 --> 01:53:15,659
extent is causing a some level of

2559
01:53:20,149 --> 01:53:17,460
space-time warping and time dilation

2560
01:53:22,189 --> 01:53:20,159
effect it might be minor if you really

2561
01:53:24,890 --> 01:53:22,199
did it right but it's still going to

2562
01:53:27,050 --> 01:53:24,900
create some time dilation effect but but

2563
01:53:29,450 --> 01:53:27,060

in this case what we're talking about is

2564

01:53:31,129 --> 01:53:29,460

no longer causing curvature of

2565

01:53:33,830 --> 01:53:31,139

space-time meaning you're no longer

2566

01:53:35,629 --> 01:53:33,840

causing G-Force gravity and you're not

2567

01:53:37,790 --> 01:53:35,639

accelerating and if you as long as you

2568

01:53:39,709 --> 01:53:37,800

don't accelerate and you're not trying

2569

01:53:42,410 --> 01:53:39,719

to like push your way through the fabric

2570

01:53:44,930 --> 01:53:42,420

of space there's no speed limit and you

2571

01:53:47,390 --> 01:53:44,940

can arrive exactly when you leave and

2572

01:53:49,189 --> 01:53:47,400

that's how ETA is consistent see and and

2573

01:53:51,649 --> 01:53:49,199

and again it's the level of

2574

01:53:54,350 --> 01:53:51,659

understanding right so

2575

01:53:57,890 --> 01:53:54,360

ET has just got to figure it out you and

2576

01:54:00,890 --> 01:53:57,900

I uh in your Subaru going to In and Out

2577

01:54:02,810 --> 01:54:00,900

Burger in the middle of the night uh and

2578

01:54:05,689 --> 01:54:02,820

pulling up to a drive-through and

2579

01:54:08,530 --> 01:54:05,699

getting fast food that is black magic

2580

01:54:13,990 --> 01:54:08,540

voodoo 2 hundred years ago

2581

01:54:17,149 --> 01:54:14,000

it was 30 miles for a burger right and

2582

01:54:18,890 --> 01:54:17,159

think about that right yeah I mean I

2583

01:54:21,640 --> 01:54:18,900

can't even imagine going to an In-N-Out

2584

01:54:23,830 --> 01:54:21,650

Burger so you've got me there

2585

01:54:27,050 --> 01:54:23,840

[Laughter]

2586

01:54:30,830 --> 01:54:27,060

but but that's but you're exactly right

2587

01:54:32,870 --> 01:54:30,840

you know so E.T does it because it's

2588

01:54:35,510 --> 01:54:32,880

easy not because it's some complicated

2589

01:54:37,490 --> 01:54:35,520

mess no it's the same thing with all

2590

01:54:41,109 --> 01:54:37,500

those ancient structures go back Lee

2591

01:54:43,790 --> 01:54:41,119

Tepe like right it's because it was easy

2592

01:54:45,649 --> 01:54:43,800

that's why they built the Pyramid it

2593

01:54:48,970 --> 01:54:45,659

wasn't because it's really hard they

2594

01:54:51,890 --> 01:54:48,980

built it because it's easy

2595

01:54:53,330 --> 01:54:51,900

okay exactly let's do three let's do

2596

01:54:55,970 --> 01:54:53,340

them all differently and have different

2597

01:54:57,770 --> 01:54:55,980

like vibrational Awakening experiences

2598

01:54:59,689 --> 01:54:57,780

that happen in each one and then each

2599

01:55:01,070 --> 01:54:59,699

one's formatted for a certain part of

2600

01:55:03,169 --> 01:55:01,080

the process and

2601
01:55:05,810 --> 01:55:03,179
yeah and then by the way let's spread

2602
01:55:08,030 --> 01:55:05,820
them all over Egypt and all over the

2603
01:55:10,310 --> 01:55:08,040
world let's do them everywhere in the

2604
01:55:12,530 --> 01:55:10,320
world let's build a hundred of them in

2605
01:55:15,490 --> 01:55:12,540
the next 50 years because that's what's

2606
01:55:18,169 --> 01:55:15,500
happening and let's have all of their

2607
01:55:20,450 --> 01:55:18,179
sarcophaguses vibrate at the exact same

2608
01:55:23,330 --> 01:55:20,460
frequent resonant frequencies let's just

2609
01:55:24,950 --> 01:55:23,340
make them all match each other so that

2610
01:55:26,629 --> 01:55:24,960
they're entangled it's funny Before I

2611
01:55:28,010 --> 01:55:26,639
Let You Go and thank you man just a

2612
01:55:31,250 --> 01:55:28,020
brilliant conversation I can't wait to

2613
01:55:38,870 --> 01:55:35,750

um this is this is the crazy thing when

2614

01:55:41,930 --> 01:55:38,880

um I I when I went inside the Great

2615

01:55:43,850 --> 01:55:41,940

Pyramid I was first okay so we you know

2616

01:55:45,830 --> 01:55:43,860

everybody's being on First and I I get

2617

01:55:47,629 --> 01:55:45,840

to do this thing and go up the tunnel I

2618

01:55:52,810 --> 01:55:47,639

go into the uh you know the grand

2619

01:55:56,570 --> 01:55:55,729

opposed to everything else in Egypt

2620

01:55:59,030 --> 01:55:56,580

right

2621

01:56:03,229 --> 01:55:59,040

it struck me

2622

01:56:06,109 --> 01:56:03,239

like so mechanical it's a hard thing to

2623

01:56:10,250 --> 01:56:06,119

explain I did not have some Kundalini

2624

01:56:12,050 --> 01:56:10,260

spiritual thing no no no no no there

2625

01:56:14,930 --> 01:56:12,060

it's something very mechanical about

2626

01:56:18,169 --> 01:56:14,940

that man it's something it's it's a

2627

01:56:21,470 --> 01:56:18,179

giant engine Jimmy and man it is I'll

2628

01:56:23,570 --> 01:56:21,480

tell you when it's vibrating right like

2629

01:56:24,370 --> 01:56:23,580

the times that I've been in there with a

2630

01:56:27,470 --> 01:56:24,380

group

2631

01:56:30,290 --> 01:56:27,480

harmonically toning the right frequency

2632

01:56:33,350 --> 01:56:30,300

harmonics that are just resonating

2633

01:56:35,810 --> 01:56:33,360

through that space and lighting up each

2634

01:56:38,930 --> 01:56:35,820

of the chambers when it is vibrating

2635

01:56:41,870 --> 01:56:38,940

just right you can feel it it's like a

2636

01:56:44,330 --> 01:56:41,880

Stargate I I could see that but but I

2637

01:56:47,870 --> 01:56:44,340

can tell you what it's not yeah it's not

2638

01:56:51,950 --> 01:56:47,880

a tomb no that that is what it is not

2639

01:56:54,050 --> 01:56:51,960

Adam I can't wait uh to see this weekend

2640

01:56:56,390 --> 01:56:54,060

man we're gonna have a great time and

2641

01:56:58,970 --> 01:56:56,400

for everybody it's conscious life Expo

2642

01:57:02,149 --> 01:56:58,980

the links are below Adam speaks a Sunday

2643

01:57:04,970 --> 01:57:02,159

at two I'm going to be there everybody

2644

01:57:06,770 --> 01:57:04,980

come and hang out with us Adam yeah oh

2645

01:57:12,550 --> 01:57:06,780

we didn't get to see your cat we'll do

2646

01:57:17,330 --> 01:57:15,050

Adam have a great night man safe

2647

01:57:19,490 --> 01:57:17,340

Journeys over to the Expo and I'll see

2648

01:57:21,169 --> 01:57:19,500

you tomorrow thanks brother take care

2649

01:57:24,050 --> 01:57:21,179

thanks everybody absolute very best

2650

01:57:26,390 --> 01:57:24,060

thank you so much Adam Apollo again all

2651
01:57:28,129 --> 01:57:26,400
of Adam's links are below they're over

2652
01:57:32,930 --> 01:57:28,139
on the website and we've got them

2653
01:57:35,330 --> 01:57:32,940
throughout social media and uh with that

2654
01:57:38,750 --> 01:57:35,340
I'll see everybody on Monday I'm going

2655
01:57:41,330 --> 01:57:38,760
to live stream uh throughout the weekend

2656
01:57:43,550 --> 01:57:41,340
okay so don't worry about it you're

2657
01:57:45,890 --> 01:57:43,560
gonna get your Jimmy fix in it's all

2658
01:57:48,790 --> 01:57:45,900
good Fade to Black is produced by Hill J

2659
01:57:51,290 --> 01:57:48,800
Palm Renee Dennis and Kevin announcers

2660
01:57:53,709 --> 01:57:51,300
my master is Drew the geek music Doug

2661
01:57:55,669 --> 01:57:53,719
Aldridge intro space boy

2662
01:57:57,109 --> 01:57:55,679
spaceboymusic.com Fade to Black is

2663
01:57:58,430 --> 01:57:57,119

produced by KJ's here for the game

2664

01:58:00,770 --> 01:57:58,440

changer Network

2665

01:58:03,109 --> 01:58:00,780

Fade to Black in the game changer

2666

01:58:04,790 --> 01:58:03,119

Network Inc cannot be rebroadcast

2667

01:58:06,050 --> 01:58:04,800

download copied or use anywhere in the

2668

01:58:07,490 --> 01:58:06,060

known universe without written

2669

01:58:09,530 --> 01:58:07,500

permission to fade to black or the game

2670

01:58:11,810 --> 01:58:09,540

changer Network I'm Yours Jimmy Church

2671

01:58:13,250 --> 01:58:11,820

everybody have a great safe fun amazing

2672

01:58:14,570 --> 01:58:13,260

weekend I'll see you right here on

2673

01:58:18,190 --> 01:58:14,580

Monday

2674

01:58:18,190 --> 01:58:18,200

go back please happy

2675
