00:00:41,690 --> 00:00:38,130

thank you

3
00:00:48,610 --> 00:00:44,569

good afternoon Fade to Black breaking

4
00:00:52,910 --> 00:00:48,620

news for this Monday February 27

5
00:00:54,410 --> 00:00:52,920

2023 this is all of the news that you

6
00:00:56,810 --> 00:00:54,420

need I'm Jimmy Church

7
00:00:58,990 --> 00:00:56,820

on this day in history it's going

8
00:01:00,729 --> 00:00:59,000

straight to it otd

9
00:01:05,270 --> 00:01:00,739

1980

10
00:01:10,310 --> 00:01:05,280

Gloria gainer I Will Survive wins the

11
00:01:13,670 --> 00:01:10,320

first and last Grammy awarded for best

12
00:01:15,770 --> 00:01:13,680

Disco recording the best Disco recording

13
00:01:18,410 --> 00:01:15,780

category was eliminated from The

14

00:01:21,289 --> 00:01:18,420

Following Year's Awards

15

00:01:22,190 --> 00:01:21,299

on this day in history here's your fader

16

00:01:26,749 --> 00:01:22,200

fact

17

00:01:29,210 --> 00:01:26,759

the name of a group of lemurs is

18

00:01:32,210 --> 00:01:29,220

a conspiracy

19

00:01:35,330 --> 00:01:32,220

seriously this is because they work

20

00:01:38,749 --> 00:01:35,340

together in their social groups to

21

00:01:42,950 --> 00:01:38,759

outsmart their prey

22

00:01:45,350 --> 00:01:42,960

that's right that's your fader fact

23

00:01:47,649 --> 00:01:45,360

it makes sense doesn't it

24

00:01:51,190 --> 00:01:47,659

all right let's get to the breaking news

25

00:01:53,210 --> 00:01:51,200

NASA is warning Us of three

26
00:01:56,330 --> 00:01:53,220
skyscraper-sized asteroids headed

27
00:01:58,550 --> 00:01:56,340
towards Earth this week the trio of

28
00:02:01,249 --> 00:01:58,560
enormous asteroids including two

29
00:02:03,889 --> 00:02:01,259
potentially hazardous ones those are

30
00:02:07,510 --> 00:02:03,899
called phas by the way will cross

31
00:02:12,410 --> 00:02:07,520
Earth's orbit around the sun tonight

32
00:02:14,570 --> 00:02:12,420
Monday asteroid 2012 dk-31 will pass by

33
00:02:16,630 --> 00:02:14,580
at a distance of about three million

34
00:02:20,449 --> 00:02:16,640
miles and measures

35
00:02:25,729 --> 00:02:20,459
450 feet across or about the size of a

36
00:02:28,369 --> 00:02:25,739
40-story building tomorrow Tuesday a

37
00:02:31,369 --> 00:02:28,379
second skyscraper size asteroid also

38
00:02:34,130 --> 00:02:31,379

measuring around 450 feet across will

39

00:02:38,930 --> 00:02:34,140

drive by at a distance of about 2.2

40

00:02:41,750 --> 00:02:38,940

million miles it's called 2006 be 55 and

41

00:02:45,589 --> 00:02:41,760

it crosses Earth's orbit every four or

42

00:02:48,830 --> 00:02:45,599

five years and then finally this Friday

43

00:02:51,530 --> 00:02:48,840

an asteroid measuring roughly 250 feet

44

00:02:56,290 --> 00:02:51,540

across will fly by at a distance of 3.3

45

00:02:59,390 --> 00:02:56,300

million miles The Rock named 2021 qw

46

00:03:00,949 --> 00:02:59,400

isn't quite wide enough to qualify as an

47

00:03:03,530 --> 00:03:00,959

earth killer but

48

00:03:06,350 --> 00:03:03,540

still makes it relatively close approach

49

00:03:10,550 --> 00:03:06,360

every few years so there you go big

50

00:03:13,309 --> 00:03:10,560

asteroid week here on planet Earth a new

51
00:03:16,970 --> 00:03:13,319
Russian soyuz craft has arrived and

52
00:03:19,850 --> 00:03:16,980
docked at the ISS to replace its leaky

53
00:03:23,210 --> 00:03:19,860
one ready to take astronauts back to

54
00:03:25,610 --> 00:03:23,220
Earth as and act as a replacement for

55
00:03:28,369 --> 00:03:25,620
another soyuz that sprung a leak last

56
00:03:32,110 --> 00:03:28,379
year the three affected crew members

57
00:03:36,530 --> 00:03:32,120
NASA's Frank Rubio and Ross Cosmos

58
00:03:38,770 --> 00:03:36,540
saturdayve and Dimitri petalen will now

59
00:03:42,710 --> 00:03:38,780
travel back home in this replacement

60
00:03:46,789 --> 00:03:42,720
spacecraft later in the year the ms-23

61
00:03:49,729 --> 00:03:46,799
soyuz arrived at the station at 7 58 p.m

62
00:03:53,030 --> 00:03:49,739
eastern time on Saturday and it also

63
00:03:58,490 --> 00:03:53,040

carried 940 pounds of supplies to the

64

00:04:00,890 --> 00:03:58,500

ISS as for the Leaky ms-22 soyuz that

65

00:04:03,470 --> 00:04:00,900

will be returned to Earth without an

66

00:04:05,110 --> 00:04:03,480

anyone on board

67

00:04:08,509 --> 00:04:05,120

now

68

00:04:10,390 --> 00:04:08,519

DNA from four American Presidents will

69

00:04:13,369 --> 00:04:10,400

launch into deep space

70

00:04:16,670 --> 00:04:13,379

presidents Washington Eisenhower Kennedy

71

00:04:18,289 --> 00:04:16,680

and Reagan will join the cast and crew

72

00:04:21,129 --> 00:04:18,299

from Star Trek

73

00:04:24,170 --> 00:04:21,139

the texas-based space burial company

74

00:04:26,870 --> 00:04:24,180

celestis will honor the presidents along

75

00:04:30,590 --> 00:04:26,880

with several deceased Star Trek Legends

76

00:04:33,950 --> 00:04:30,600

and science fiction Superstars Nichelle

77

00:04:36,230 --> 00:04:33,960

Nichols DeForest Kelly Star Trek Creator

78

00:04:40,310 --> 00:04:36,240

Gene Roddenberry Star Trek engineer

79

00:04:42,170 --> 00:04:40,320

James Scottie Doohan and 2001 A Space

80

00:04:46,310 --> 00:04:42,180

Odyssey and Close Encounters of the

81

00:04:50,150 --> 00:04:46,320

Third Kind VFX Master Douglas Trumbull

82

00:04:53,090 --> 00:04:50,160

all headed to deep space it hasn't

83

00:04:56,210 --> 00:04:53,100

existed since the beginning of time and

84

00:04:59,150 --> 00:04:56,220

this is where I need your attention

85

00:05:00,830 --> 00:04:59,160

that's right hasn't existed since the

86

00:05:01,790 --> 00:05:00,840

beginning of time what am I talking

87

00:05:05,270 --> 00:05:01,800

about

88

00:05:10,249 --> 00:05:05,280

but now scientists have managed to

89

00:05:16,670 --> 00:05:13,430

listen this substance is believed to be

90

00:05:20,210 --> 00:05:16,680

the smallest hottest and densest state

91

00:05:22,430 --> 00:05:20,220

of our universe and the Very soup that

92

00:05:25,550 --> 00:05:22,440

allowed the universe to grow and expand

93

00:05:29,210 --> 00:05:25,560

into what we know it as today

94

00:05:32,390 --> 00:05:29,220

these particles the researchers say are

95

00:05:34,850 --> 00:05:32,400

called gluons and as such the

96

00:05:37,850 --> 00:05:34,860

plasma-like fluid that help create our

97

00:05:40,850 --> 00:05:37,860

universe the Quark soup that they have

98

00:05:44,810 --> 00:05:40,860

recreated here is more formally called

99

00:05:48,290 --> 00:05:44,820

Quark gluon plasma and it has been found

100

00:05:51,290 --> 00:05:48,300

in nature since the beginning of time as

101
00:05:53,629 --> 00:05:51,300
far as we know but by using a particle

102
00:05:55,969 --> 00:05:53,639
accelerator located at Brookhaven

103
00:05:59,150 --> 00:05:55,979
National Laboratory in Long Island New

104
00:06:01,790 --> 00:05:59,160
York scientists were able to recreate it

105
00:06:05,870 --> 00:06:01,800
and if this doesn't freak you out it

106
00:06:09,529 --> 00:06:05,880
should the accelerator's 2.4 mile long

107
00:06:15,730 --> 00:06:09,539
ring allows Atomic nuclei to a speed

108
00:06:19,810 --> 00:06:15,740
around at 80 000 times a second roughly

109
00:06:22,249 --> 00:06:19,820
99.995 of the speed of light

110
00:06:24,890 --> 00:06:22,259
researchers using superconducting

111
00:06:26,930 --> 00:06:24,900
magnets to control the atomic nuclei as

112
00:06:29,809 --> 00:06:26,940
they speed around the ring being super

113
00:06:32,330 --> 00:06:29,819

cool to near absolute zero at certain

114

00:06:35,570 --> 00:06:32,340

points before two beams eventually

115

00:06:40,070 --> 00:06:35,580

Collide into each other creating tiny

116

00:06:43,010 --> 00:06:40,080

drops of cork soup now here's the deal

117

00:06:47,150 --> 00:06:43,020

if they blast another big bang into

118

00:06:50,390 --> 00:06:47,160

existence and create another Universe we

119

00:06:52,189 --> 00:06:50,400

won't be here to talk about it

120

00:06:53,990 --> 00:06:52,199

and I won't be part of theta black

121

00:06:57,230 --> 00:06:54,000

breaking news

122

00:06:59,150 --> 00:06:57,240

yeah they're just doing this wondering

123

00:07:02,870 --> 00:06:59,160

what's gonna happen

124

00:07:04,430 --> 00:07:02,880

a big bang in Brookhaven

125

00:07:08,210 --> 00:07:04,440

now I'll leave you with this according

126
00:07:11,330 --> 00:07:08,220
to authorities in Scottsdale Arizona the

127
00:07:13,790 --> 00:07:11,340
driver of a Tesla slammed into a

128
00:07:17,330 --> 00:07:13,800
building east of Scottsdale and Cactus

129
00:07:19,909 --> 00:07:17,340
roads around 8 A.M this past Friday and

130
00:07:21,050 --> 00:07:19,919
the Tesla immediately broke out into

131
00:07:24,890 --> 00:07:21,060
flames

132
00:07:28,490 --> 00:07:24,900
they put the fire out but a few hours

133
00:07:31,070 --> 00:07:28,500
later Crews responded again to an area

134
00:07:35,570 --> 00:07:31,080
about two miles away from where the

135
00:07:37,909 --> 00:07:35,580
Tesla again caught fire while it was

136
00:07:40,670 --> 00:07:37,919
being towed

137
00:07:42,710 --> 00:07:40,680
drivers were asked to find an alternate

138
00:07:44,930 --> 00:07:42,720

route for the next several hours as they

139

00:07:48,129 --> 00:07:44,940

put out the flames and video from the

140

00:07:50,990 --> 00:07:48,139

scene showed the once white vehicle

141

00:07:54,589 --> 00:07:51,000

completely charred

142

00:07:57,529 --> 00:07:54,599

that's right do you own a Tesla

143

00:07:59,350 --> 00:07:57,539

I'm just saying that's your fate to

144

00:08:04,969 --> 00:07:59,360

Black breaking news for this Monday

145

00:08:07,430 --> 00:08:04,979

February 27 2023 this is all of the news

146

00:08:10,189 --> 00:08:07,440

that you need Fade to Black breaking

147

00:08:17,390 --> 00:08:10,199

news is produced by Renee Newman I'm
