

FADE **TO** BLACK

with **JIMMY CHURCH**
PRESENTS

BREAKING NEWS

Wed Mar 01, 2023 **LIVE**

1
00:00:32,149 --> 00:00:22,170

[Music]

2
00:00:35,569 --> 00:00:32,159

thank you

3
00:00:41,209 --> 00:00:38,090

afternoon Fade to Black breaking news

4
00:00:45,830 --> 00:00:41,219

for this Wednesday March 1st 2023 this

5
00:00:49,369 --> 00:00:45,840

is all of the news that you need all

6
00:00:51,470 --> 00:00:49,379

right I announced earlier today uh this

7
00:00:54,470 --> 00:00:51,480

is Jimmy church I announced earlier

8
00:00:56,750 --> 00:00:54,480

today on social media and you can see

9
00:00:59,750 --> 00:00:56,760

that I'm not wearing glasses and I

10
00:01:02,810 --> 00:00:59,760

haven't been uh wearing glasses for

11
00:01:05,450 --> 00:01:02,820

almost a week now five days and it's

12
00:01:10,990 --> 00:01:05,460

pretty extraordinary

13
00:01:14,330 --> 00:01:11,000

I I can see and when I jumped into

14

00:01:16,550 --> 00:01:14,340

wearing glasses you know the vain part

15

00:01:19,030 --> 00:01:16,560

of me I didn't want to do it I but but I

16

00:01:22,429 --> 00:01:19,040

couldn't see anymore and I couldn't read

17

00:01:25,490 --> 00:01:22,439

and my monitors are right out in front

18

00:01:27,950 --> 00:01:25,500

of me and they were just a blurred mess

19

00:01:29,330 --> 00:01:27,960

um yeah so I started testing a product a

20

00:01:31,850 --> 00:01:29,340

couple of weeks ago I'm not going to

21

00:01:34,070 --> 00:01:31,860

mention anything yet but

22

00:01:35,330 --> 00:01:34,080

um and suddenly five days ago I I could

23

00:01:40,730 --> 00:01:35,340

see

24

00:01:42,770 --> 00:01:40,740

and everything is in focus in front of

25

00:01:44,510 --> 00:01:42,780

me so I wanted to start off today

26

00:01:46,969 --> 00:01:44,520

because yes you can see that I'm not

27

00:01:49,010 --> 00:01:46,979

wearing glasses and that's the elephant

28

00:01:51,469 --> 00:01:49,020

in the room and I'm gonna talk about it

29

00:01:54,230 --> 00:01:51,479

that's what's going on it's amazing all

30

00:01:57,109 --> 00:01:54,240

right so with that let's get straight to

31

00:02:00,170 --> 00:01:57,119

it see I can't see myself I've got notes

32

00:02:01,910 --> 00:02:00,180

and and a teleprompter in front of me so

33

00:02:05,450 --> 00:02:01,920

I can't see myself but let me tell you

34

00:02:07,670 --> 00:02:05,460

something I'm sure I'm smiling okay so

35

00:02:12,890 --> 00:02:07,680

let's get straight to it on this day in

36

00:02:15,830 --> 00:02:12,900

history 1966 Venera 3 a Soviet space

37

00:02:18,710 --> 00:02:15,840

probe launched from a Kazakhstan crashes

38

00:02:20,630 --> 00:02:18,720

into the planet Venus although Venera 3

39

00:02:23,330 --> 00:02:20,640

failed in its mission to measure the

40

00:02:26,630 --> 00:02:23,340

Venetian atmosphere it was the first

41

00:02:29,270 --> 00:02:26,640

spacecraft to reach the surface of

42

00:02:34,309 --> 00:02:29,280

another planet even though it crash

43

00:02:36,589 --> 00:02:34,319

landed that's right on this day in 1966

44

00:02:40,089 --> 00:02:36,599

here's your fader fact today

45

00:02:44,509 --> 00:02:40,099

are you ready this is vetted

46

00:02:45,589 --> 00:02:44,519

humans are the only animals on planet

47

00:02:48,350 --> 00:02:45,599

Earth

48

00:02:51,589 --> 00:02:48,360

with chins

49

00:02:55,610 --> 00:02:51,599

that's right chimpanzees gorillas Homo

50

00:02:57,610 --> 00:02:55,620

erectus Neanderthal all of our closest

51
00:02:59,990 --> 00:02:57,620
genetic cousins

52
00:03:03,830 --> 00:03:00,000
lack chins

53
00:03:06,170 --> 00:03:03,840
only modern humans have them

54
00:03:08,449 --> 00:03:06,180
and we don't know why

55
00:03:10,790 --> 00:03:08,459
some say it's because it makes men more

56
00:03:14,930 --> 00:03:10,800
handsome

57
00:03:19,990 --> 00:03:14,940
that's a theory breaking news

58
00:03:21,610 --> 00:03:20,000
the U.S Air Force has grounded 207 KC RC

59
00:03:26,330 --> 00:03:21,620
and

60
00:03:29,410 --> 00:03:26,340
wc-135 jets because their tails might

61
00:03:33,290 --> 00:03:29,420
fall off seriously

62
00:03:37,729 --> 00:03:33,300
specifically the five inch pins that

63
00:03:39,729 --> 00:03:37,739

hold the tail on are defective the

64

00:03:42,890 --> 00:03:39,739

offending items are apparently

65

00:03:46,009 --> 00:03:42,900

non-conforming vertical pins two of

66

00:03:48,410 --> 00:03:46,019

these five inch pins are used to Bear 90

67

00:03:52,430 --> 00:03:48,420

percent of the load fixing the vertical

68

00:03:55,789 --> 00:03:52,440

stabilizer the tail fin on the c-135

69

00:03:58,009 --> 00:03:55,799

family of aircraft the failure of just

70

00:04:00,710 --> 00:03:58,019

one pin would compromise its load

71

00:04:05,449 --> 00:04:00,720

bearing capacity causing the entire

72

00:04:07,670 --> 00:04:05,459

vertical stabilizer to quote depart the

73

00:04:11,270 --> 00:04:07,680

aircraft and quote all of that according

74

00:04:14,350 --> 00:04:11,280

to an Air Force memo the memo states

75

00:04:18,110 --> 00:04:14,360

that metallurgical analysis of two

76
00:04:21,650 --> 00:04:18,120
non-conformal pins supplied by Blue Dog

77
00:04:24,730 --> 00:04:21,660
Industries found flaws including quote

78
00:04:28,370 --> 00:04:24,740
incorrect material undersized Dimensions

79
00:04:31,310 --> 00:04:28,380
insufficient plating and lack of shot

80
00:04:33,110 --> 00:04:31,320
peening end quote

81
00:04:35,409 --> 00:04:33,120
their tails

82
00:04:38,110 --> 00:04:35,419
will fall off

83
00:04:41,090 --> 00:04:38,120
residents of Lincoln County Tennessee

84
00:04:44,270 --> 00:04:41,100
are becoming more and more upset with

85
00:04:46,790 --> 00:04:44,280
the Jack Daniels distillery due to

86
00:04:48,610 --> 00:04:46,800
ethanol emissions in the air which they

87
00:04:50,890 --> 00:04:48,620
believe to be causing

88
00:04:54,230 --> 00:04:50,900

whiskey fungus

89

00:04:57,290 --> 00:04:54,240

or black fungus

90

00:04:59,629 --> 00:04:57,300

this all began back in 2018 when Jack

91

00:05:02,330 --> 00:04:59,639

Daniels started building six of new

92

00:05:04,909 --> 00:05:02,340

Barrel houses in the area with plans to

93

00:05:08,629 --> 00:05:04,919

build another 14.

94

00:05:11,570 --> 00:05:08,639

the fungus and ethanol in the air come

95

00:05:14,450 --> 00:05:11,580

from what's known as the Angels share

96

00:05:16,909 --> 00:05:14,460

which is when whiskey evaporates into

97

00:05:20,390 --> 00:05:16,919

the air and can linger in the air for up

98

00:05:22,670 --> 00:05:20,400

to a mile away residents began noticing

99

00:05:26,090 --> 00:05:22,680

the mold around town even talking about

100

00:05:28,430 --> 00:05:26,100

how the county had stopped cleaning road

101
00:05:31,249 --> 00:05:28,440
signs and instead began replacing them

102
00:05:34,670 --> 00:05:31,259
when they became so overcome with the

103
00:05:37,129 --> 00:05:34,680
fungus that they couldn't be read in

104
00:05:38,689 --> 00:05:37,139
December a public hearing was held on

105
00:05:40,790 --> 00:05:38,699
the issue where residents of the Town

106
00:05:43,850 --> 00:05:40,800
fought for a filtration system to be

107
00:05:46,670 --> 00:05:43,860
implemented at The Distillery Patrick

108
00:05:49,430 --> 00:05:46,680
long a homeowner who lives near the six

109
00:05:51,590 --> 00:05:49,440
barrel houses told the independent that

110
00:05:54,890 --> 00:05:51,600
the issue had caused him to spend about

111
00:05:58,070 --> 00:05:54,900
ten thousand dollars annually on power

112
00:06:01,270 --> 00:05:58,080
washing his home to remove the fungus

113
00:06:04,850 --> 00:06:01,280

now a spokesman for Jack Daniels said

114

00:06:06,890 --> 00:06:04,860

that and I quote while we can't come

115

00:06:09,110 --> 00:06:06,900

comment on the specifics of pending

116

00:06:11,330 --> 00:06:09,120

litigation I can tell you that Jack

117

00:06:13,550 --> 00:06:11,340

Daniels complies with all local state

118

00:06:16,070 --> 00:06:13,560

and federal regulations regarding the

119

00:06:19,070 --> 00:06:16,080

design construction and permitting of

120

00:06:20,629 --> 00:06:19,080

our Barrel houses we are dedicated to

121

00:06:23,210 --> 00:06:20,639

protecting the environment and the

122

00:06:27,110 --> 00:06:23,220

safety and health of our employees and

123

00:06:30,249 --> 00:06:27,120

neighbors end quote black

124

00:06:34,070 --> 00:06:32,689

seven sheep

125

00:06:37,670 --> 00:06:34,080

seven

126
00:06:41,029 --> 00:06:37,680
some with tags on their ears and a red

127
00:06:43,730 --> 00:06:41,039
spot on their wool coats marks used to

128
00:06:44,770 --> 00:06:43,740
signify when animals are going to

129
00:06:49,909 --> 00:06:44,780
slaughter

130
00:06:51,650 --> 00:06:49,919
Patterson New Jersey all of this

131
00:06:54,350 --> 00:06:51,660
happening on Monday

132
00:06:57,050 --> 00:06:54,360
Patterson Animal Control decided that

133
00:06:58,790 --> 00:06:57,060
the brave sheep would not return to the

134
00:07:01,430 --> 00:06:58,800
slaughterhouse and instead contacted

135
00:07:03,890 --> 00:07:01,440
Skylands animal sanctuary and rescue in

136
00:07:07,189 --> 00:07:03,900
Sussex County for assistance the

137
00:07:09,950 --> 00:07:07,199
facility agreed they said they'll take

138
00:07:13,730 --> 00:07:09,960

the fluffy animals in and care for them

139

00:07:18,950 --> 00:07:13,740

for the rest of their lives in a barn of

140

00:07:20,529 --> 00:07:18,960

their own on a 600 acre Sanctuary life

141

00:07:23,450 --> 00:07:20,539

is good

142

00:07:26,150 --> 00:07:23,460

NASA has announced that it has picked a

143

00:07:29,270 --> 00:07:26,160

long time solar scientists who heads its

144

00:07:31,730 --> 00:07:29,280

Helio glyphics Division heliophysics

145

00:07:34,430 --> 00:07:31,740

division to become the U.S space

146

00:07:37,670 --> 00:07:34,440

agency's science chief

147

00:07:40,370 --> 00:07:37,680

Nicola Fox former top scientist on The

148

00:07:43,070 --> 00:07:40,380

Parker solar probe Mission studying the

149

00:07:45,409 --> 00:07:43,080

sun was named NASA's associate

150

00:07:48,589 --> 00:07:45,419

administrator for the agency's science

151

00:07:50,809 --> 00:07:48,599

Mission directorate a memo to agency

152

00:07:54,770 --> 00:07:50,819

employees from NASA Chief Bill Nelson

153

00:07:58,670 --> 00:07:54,780

announced her appointment and that is

154

00:08:00,890 --> 00:07:58,680

huge news the new science Chief NASA is

155

00:08:04,490 --> 00:08:00,900

still in the news though NASA is

156

00:08:06,710 --> 00:08:04,500

scrambling to fix glitches affecting its

157

00:08:09,710 --> 00:08:06,720

Interstellar boundary Explorer otherwise

158

00:08:13,930 --> 00:08:09,720

known as the Ixion and surface water

159

00:08:17,809 --> 00:08:13,940

ocean topography the SWAT SWOT missions

160

00:08:20,689 --> 00:08:17,819

launched in 2008 the Ixion spacecraft

161

00:08:23,570 --> 00:08:20,699

orbits the earth looking onward to

162

00:08:26,390 --> 00:08:23,580

detect energetic neutral atoms and study

163

00:08:28,790 --> 00:08:26,400

how solar wind interacts with matter and

164

00:08:31,730 --> 00:08:28,800

radiation at the farthest reaches of the

165

00:08:33,649 --> 00:08:31,740

solar system NASA has reset its flight

166

00:08:36,469 --> 00:08:33,659

computer many times over its 15 year

167

00:08:38,930 --> 00:08:36,479

life but Mission Control has failed to

168

00:08:42,110 --> 00:08:38,940

regain Communications after its latest

169

00:08:45,110 --> 00:08:42,120

attempt the system entered a contingency

170

00:08:47,449 --> 00:08:45,120

mode on February 18th and although the

171

00:08:50,269 --> 00:08:47,459

spacecraft's flight software seems to be

172

00:08:52,009 --> 00:08:50,279

operational additional software commands

173

00:08:55,490 --> 00:08:52,019

sent by Mission Control have been

174

00:08:57,590 --> 00:08:55,500

ignored meanwhile

175

00:09:00,230 --> 00:08:57,600

NASA Engineers are also trying to figure

176

00:09:04,490 --> 00:09:00,240

out what's wrong with their SWOT

177

00:09:06,829 --> 00:09:04,500

satellite SWOT jointly developed with

178

00:09:09,650 --> 00:09:06,839

France the Canadian space agency and the

179

00:09:12,650 --> 00:09:09,660

UK space agency the surface water

180

00:09:15,050 --> 00:09:12,660

mapping spacecraft was launched back in

181

00:09:17,810 --> 00:09:15,060

December of 2022. it's just a few months

182

00:09:19,610 --> 00:09:17,820

ago one of its instruments was knocked

183

00:09:21,710 --> 00:09:19,620

offline before the satellite had

184

00:09:25,310 --> 00:09:21,720

officially begun collecting scientific

185

00:09:28,070 --> 00:09:25,320

data the k-band radar used to measure

186

00:09:29,750 --> 00:09:28,080

water surface Heights was turned on in

187

00:09:31,990 --> 00:09:29,760

mid-January before one of its

188

00:09:35,630 --> 00:09:32,000

high-powered amplifier subsystems

189

00:09:37,550 --> 00:09:35,640

randomly shut down space agencies are

190

00:09:40,070 --> 00:09:37,560

working together to figure out how to

191

00:09:42,170 --> 00:09:40,080

get it back up and running

192

00:09:46,070 --> 00:09:42,180

now I know you've seen the images and

193

00:09:48,170 --> 00:09:46,080

they are incredible but a powerful solar

194

00:09:51,710 --> 00:09:48,180

storm that swept across the Earth on

195

00:09:53,930 --> 00:09:51,720

Monday forced SpaceX to delay a starlink

196

00:09:56,750 --> 00:09:53,940

launch from Florida and temporarily

197

00:10:00,050 --> 00:09:56,760

disrupted operations of several Canadian

198

00:10:03,290 --> 00:10:00,060

Oil Rigs as GPS signals were too

199

00:10:05,269 --> 00:10:03,300

inaccurate SpaceX eventually launched

200

00:10:07,490 --> 00:10:05,279

those satellites the first batch of 21

201
00:10:10,430 --> 00:10:07,500
second generation starlink internet

202
00:10:12,949 --> 00:10:10,440
spacecraft they did that at 6 13 PM

203
00:10:16,009 --> 00:10:12,959
eastern time on Monday after the storm

204
00:10:17,930 --> 00:10:16,019
had passed it was classified by the U.S

205
00:10:21,730 --> 00:10:17,940
National Oceanic and Atmospheric

206
00:10:23,930 --> 00:10:21,740
Administration as a strong G3 storm

207
00:10:26,810 --> 00:10:23,940
liftoff occurred about four and a half

208
00:10:29,509 --> 00:10:26,820
hours later and since we're talking

209
00:10:33,230 --> 00:10:29,519
about starlink by the way

210
00:10:35,650 --> 00:10:33,240
the European Union is going to launch

211
00:10:38,630 --> 00:10:35,660
its own satellite Communications

212
00:10:40,370 --> 00:10:38,640
constellation the European Parliament

213
00:10:42,470 --> 00:10:40,380

adopted the proposal for the

214

00:10:44,269 --> 00:10:42,480

infrastructure for resilience

215

00:10:47,569 --> 00:10:44,279

interconnection and security by

216

00:10:50,329 --> 00:10:47,579

satellites otherwise known as Iris that

217

00:10:52,370 --> 00:10:50,339

constellation on February 14th

218

00:10:55,910 --> 00:10:52,380

Valentine's Day

219

00:10:59,889 --> 00:10:55,920

the nearly unanimous decision was backed

220

00:11:02,150 --> 00:10:59,899

by 603 votes with just six against

221

00:11:04,550 --> 00:11:02,160

approval of the project follows the

222

00:11:06,350 --> 00:11:04,560

high-profile role of SpaceX's Starlink

223

00:11:09,110 --> 00:11:06,360

communication satellites and aiding the

224

00:11:10,850 --> 00:11:09,120

defense of Ukraine and with the Russian

225

00:11:14,110 --> 00:11:10,860

invasion highlighting the need for

226

00:11:17,170 --> 00:11:14,120

secure Sovereign European capabilities

227

00:11:19,069 --> 00:11:17,180

Iris will see the building of

228

00:11:22,090 --> 00:11:19,079

multi-orderable connectivity

229

00:11:24,949 --> 00:11:22,100

infrastructure with the launch of

230

00:11:28,509 --> 00:11:24,959

170 satellites into low earth orbit

231

00:11:31,490 --> 00:11:28,519

between 2025 and

232

00:11:32,870 --> 00:11:31,500

2027. so there you go there's your Fade

233

00:11:37,190 --> 00:11:32,880

to Black breaking news for this

234

00:11:41,150 --> 00:11:37,200

Wednesday March 1st 2023 all of the news

235

00:11:43,250 --> 00:11:41,160

that you need and yes I can see

236

00:11:46,130 --> 00:11:43,260

faded black breaking news is produced by

237

00:11:51,630 --> 00:11:46,140

Renee Newman I'm Jimmy Church

238

00:11:51,640 --> 00:12:03,530

[Music]
