

# FADE **TO** BLACK

with **JIMMY CHURCH**  
**PRESENTS**

# BREAKING NEWS

Mon Mar 06, 2023 **LIVE**

1  
00:00:25,020 --> 00:00:12,880  
foreign

2  
00:00:25,030 --> 00:00:38,389  
[Music]

3  
00:00:45,790 --> 00:00:40,910  
good afternoon Fade to Black breaking

4  
00:00:49,130 --> 00:00:45,800  
news for this Monday March 6 2023

5  
00:00:50,810 --> 00:00:49,140  
this is all of the news that you need

6  
00:00:52,790 --> 00:00:50,820  
I'm Yours chimney Church

7  
00:00:56,150 --> 00:00:52,800  
let's get straight to it oh I went down

8  
00:00:58,189 --> 00:00:56,160  
to San Diego to watch uh the Eagles on

9  
00:01:01,310 --> 00:00:58,199  
Friday night had a great time it was

10  
00:01:04,850 --> 00:01:01,320  
amazing and the weather was perfect and

11  
00:01:08,510 --> 00:01:04,860  
then I got back last night and I drove

12  
00:01:11,330 --> 00:01:08,520  
straight back into winter it's really

13  
00:01:14,330 --> 00:01:11,340

cold here in the Mojave Desert let's get

14

00:01:16,310 --> 00:01:14,340

straight to it on oh by the way

15

00:01:21,770 --> 00:01:16,320

no glasses

16

00:01:25,390 --> 00:01:21,780

yeah on this day in history 2001.

17

00:01:28,490 --> 00:01:25,400

the death spiral of Napster begins

18

00:01:30,950 --> 00:01:28,500

District Court Judge Marilyn Patel

19

00:01:34,249 --> 00:01:30,960

issued a preliminary injunction ordering

20

00:01:38,030 --> 00:01:34,259

Napster to remove copyrighted material

21

00:01:41,270 --> 00:01:38,040

on the Napster Network Napster totally

22

00:01:44,390 --> 00:01:41,280

shut down its service just three months

23

00:01:46,609 --> 00:01:44,400

later on this day in history that was a

24

00:01:48,109 --> 00:01:46,619

big one wasn't it let's get to the fader

25

00:01:51,950 --> 00:01:48,119

fact

26  
00:01:54,889 --> 00:01:51,960  
there are more than 200 languages that

27  
00:01:59,090 --> 00:01:54,899  
have been invented for books television

28  
00:02:02,270 --> 00:01:59,100  
or movies on the other side every two

29  
00:02:05,330 --> 00:02:02,280  
weeks another language or dialect goes

30  
00:02:08,690 --> 00:02:05,340  
extinct there is a language in Nigeria

31  
00:02:12,830 --> 00:02:08,700  
that is currently only spoken by four

32  
00:02:14,750 --> 00:02:12,840  
living individuals and that

33  
00:02:17,710 --> 00:02:14,760  
is your favorite fact let's get to the

34  
00:02:20,690 --> 00:02:17,720  
breaking news huge news day today

35  
00:02:23,750 --> 00:02:20,700  
archaeologists unearth us sphinx-like

36  
00:02:25,570 --> 00:02:23,760  
statue and the remains of a shrine in an

37  
00:02:28,330 --> 00:02:25,580  
ancient temple in southern Egypt

38  
00:02:30,949 --> 00:02:28,340

Antiquities authorities announced today

39

00:02:33,170 --> 00:02:30,959

the artifacts were found in the temple

40

00:02:37,430 --> 00:02:33,180

of dandera one of my favorites

41

00:02:39,890 --> 00:02:37,440

in the Kina Province 280 miles south of

42

00:02:41,350 --> 00:02:39,900

Cairo the Antiquities Ministry announced

43

00:02:44,930 --> 00:02:41,360

today in a statement

44

00:02:48,470 --> 00:02:44,940

archaeologists believe the Sphinx may be

45

00:02:51,470 --> 00:02:48,480

of the Roman Emperor Claudius who

46

00:02:56,210 --> 00:02:51,480

extended Rome's rule into North Africa

47

00:02:59,690 --> 00:02:56,220

between 41 and 54 A.D you should see the

48

00:03:01,309 --> 00:02:59,700

images it just thinks with a Claudius

49

00:03:04,210 --> 00:03:01,319

face

50

00:03:07,610 --> 00:03:04,220

according to the European Space Agency

51  
00:03:10,309 --> 00:03:07,620  
the Moon is getting its own official

52  
00:03:11,930 --> 00:03:10,319  
time zone to make it easier for

53  
00:03:13,610 --> 00:03:11,940  
astronauts and scientists from around

54  
00:03:16,570 --> 00:03:13,620  
the world to work together during

55  
00:03:19,610 --> 00:03:16,580  
upcoming missions to the lunar surface

56  
00:03:22,610 --> 00:03:19,620  
as dozens of missions will be operating

57  
00:03:24,290 --> 00:03:22,620  
on and around the moon and needing to

58  
00:03:26,930 --> 00:03:24,300  
communicate together and fix their

59  
00:03:30,550 --> 00:03:26,940  
positions independently from Earth this

60  
00:03:33,890 --> 00:03:30,560  
new era does require its own time

61  
00:03:35,809 --> 00:03:33,900  
setting up a specific Moon time zone is

62  
00:03:38,509 --> 00:03:35,819  
not the only thing that organizations

63  
00:03:41,809 --> 00:03:38,519

have to work out though they are also

64

00:03:44,030 --> 00:03:41,819

working on a whole lunanet

65

00:03:46,789 --> 00:03:44,040

an architecture that covers

66

00:03:49,070 --> 00:03:46,799

communicating and navigation services on

67

00:03:51,470 --> 00:03:49,080

the moon it is a set of protocol

68

00:03:53,570 --> 00:03:51,480

standards and requirements that are

69

00:03:56,390 --> 00:03:53,580

being worked out and agreed upon so that

70

00:03:59,809 --> 00:03:56,400

there won't be any confusion or Line

71

00:04:04,130 --> 00:03:59,819

crossing when it comes to working on or

72

00:04:07,070 --> 00:04:04,140

exploring the moon I'll keep you updated

73

00:04:10,070 --> 00:04:07,080

a study by an international team headed

74

00:04:13,369 --> 00:04:10,080

by Freiburg archaeologist Dr Ralph

75

00:04:16,129 --> 00:04:13,379

Gonzalez's Ralph Gonzalez from The

76

00:04:19,250 --> 00:04:16,139

Faculty of humanities has shown that

77

00:04:24,469 --> 00:04:19,260

steel tools were already in use in

78

00:04:27,350 --> 00:04:24,479

Europe around 2 900 years ago using

79

00:04:30,170 --> 00:04:27,360

geochemical analysis the researchers

80

00:04:33,350 --> 00:04:30,180

were able to prove that Stone's Deli on

81

00:04:38,030 --> 00:04:33,360

the Iberian Peninsula that could only

82

00:04:40,310 --> 00:04:38,040

have been done using tempered steel this

83

00:04:43,430 --> 00:04:40,320

was backed up by analysis of an iron

84

00:04:45,350 --> 00:04:43,440

chisel from the same period and region

85

00:04:49,010 --> 00:04:45,360

that showed that the necessary carbon

86

00:04:51,530 --> 00:04:49,020

content to be proper steel the result

87

00:04:54,590 --> 00:04:51,540

was also confirmed experimentally by

88

00:04:57,710 --> 00:04:54,600

undertaking trials with chisels made of

89

00:05:00,469 --> 00:04:57,720

various materials only the Chisel made

90

00:05:03,950 --> 00:05:00,479

of tempered steel was suitably capable

91

00:05:06,590 --> 00:05:03,960

of Engraving the stone until recently it

92

00:05:10,370 --> 00:05:06,600

was was assumed that it was not possible

93

00:05:13,730 --> 00:05:10,380

to produce suitably Quality Steel in the

94

00:05:16,850 --> 00:05:13,740

early Iron Age and certainly not in the

95

00:05:20,090 --> 00:05:16,860

final Bronze Age and that it only came

96

00:05:21,830 --> 00:05:20,100

to be widespread in Europe under the

97

00:05:24,110 --> 00:05:21,840

Roman Empire

98

00:05:25,990 --> 00:05:24,120

that's really big news

99

00:05:30,230 --> 00:05:26,000

check this out

100

00:05:32,810 --> 00:05:30,240

Gili a china-based electric vehicle

101  
00:05:35,330 --> 00:05:32,820  
maker just announced that it would

102  
00:05:37,550 --> 00:05:35,340  
launch its satellite constellation to

103  
00:05:40,550 --> 00:05:37,560  
support a new range of cars it

104  
00:05:44,090 --> 00:05:40,560  
manufactures the vehicles will receive

105  
00:05:47,930 --> 00:05:44,100  
intelligent driving assistance directly

106  
00:05:50,990 --> 00:05:47,940  
from orbit Gili established established

107  
00:05:53,990 --> 00:05:51,000  
its space focused arm it's called gee

108  
00:05:55,850 --> 00:05:54,000  
space in 2018 to build a satellite

109  
00:05:59,870 --> 00:05:55,860  
Network providing autonomous driving

110  
00:06:01,670 --> 00:05:59,880  
Solutions a 2022 the company had

111  
00:06:05,390 --> 00:06:01,680  
finished a satellite building Factory

112  
00:06:08,749 --> 00:06:05,400  
and put nine satellites in orbit key

113  
00:06:13,010 --> 00:06:08,759

space will put 72 satellites into orbit

114

00:06:14,749 --> 00:06:13,020

by 2025 which will be the Project's

115

00:06:18,650 --> 00:06:14,759

first phase

116

00:06:21,610 --> 00:06:18,660

now staying on topic of self-driving

117

00:06:25,730 --> 00:06:21,620

cars last Thursday

118

00:06:28,730 --> 00:06:25,740

AAA released the results of its annual

119

00:06:32,330 --> 00:06:28,740

automated vehicle survey finding that

120

00:06:35,990 --> 00:06:32,340

nearly 70 percent of respondents were

121

00:06:40,129 --> 00:06:36,000

afraid of self-driving cars while less

122

00:06:42,290 --> 00:06:40,139

than 10 percent fully trusted them these

123

00:06:45,050 --> 00:06:42,300

numbers represent a significant shift

124

00:06:46,790 --> 00:06:45,060

from last year's survey results with the

125

00:06:49,610 --> 00:06:46,800

number of respondents fearful of

126  
00:06:54,469 --> 00:06:49,620  
self-driving cars spiking by 13

127  
00:06:57,590 --> 00:06:54,479  
percentage points in 2022 the survey

128  
00:07:00,950 --> 00:06:57,600  
found that 55 percent of respondents

129  
00:07:05,870 --> 00:07:00,960  
were afraid of self-driving cars with 30

130  
00:07:10,969 --> 00:07:05,880  
percent unsure all right 15 said ah they

131  
00:07:14,270 --> 00:07:10,979  
fully trust autonomous vehicles but in

132  
00:07:17,210 --> 00:07:14,280  
2023 the number of people afraid of

133  
00:07:21,170 --> 00:07:17,220  
self-driving and cars jumped to 68

134  
00:07:24,589 --> 00:07:21,180  
percent with 23 percent now unsure and

135  
00:07:25,850 --> 00:07:24,599  
just at nine percent having trust in the

136  
00:07:29,089 --> 00:07:25,860  
technology

137  
00:07:32,689 --> 00:07:29,099  
Elon Musk take note

138  
00:07:35,990 --> 00:07:32,699

in a newly discovered comet has just

139

00:07:39,850 --> 00:07:36,000

appeared and may be as bright as a star

140

00:07:44,210 --> 00:07:39,860

in the night sky by the fall of

141

00:07:48,589 --> 00:07:44,220

2024. check this out the comet known as

142

00:07:51,230 --> 00:07:48,599

C 2023 A3 was first noted by the

143

00:07:54,230 --> 00:07:51,240

asteroid terrestrial impact last alert

144

00:07:56,629 --> 00:07:54,240

system otherwise known as Atlas that

145

00:08:00,110 --> 00:07:56,639

telescope project in South Africa on

146

00:08:03,050 --> 00:08:00,120

February 22nd astronomers at the Purple

147

00:08:05,450 --> 00:08:03,060

Mountain Observatory in China also

148

00:08:08,870 --> 00:08:05,460

discovered the comet independently on

149

00:08:11,629 --> 00:08:08,880

January 9th so both observatories are

150

00:08:13,550 --> 00:08:11,639

cited in the comet's full name Sky

151  
00:08:17,029 --> 00:08:13,560  
Watchers around the world have since

152  
00:08:19,129 --> 00:08:17,039  
observed it in new and old images with

153  
00:08:21,469 --> 00:08:19,139  
the earliest detection found in images

154  
00:08:24,170 --> 00:08:21,479  
taken by a wide field camera on a

155  
00:08:29,089 --> 00:08:24,180  
telescope at Palomar Observatory right

156  
00:08:34,310 --> 00:08:29,099  
here in California on December 12 2022.

157  
00:08:38,930 --> 00:08:34,320  
currently see 2023 A3 is between Saturn

158  
00:08:41,389 --> 00:08:38,940  
and Jupiter it's traveling at 180 610

159  
00:08:47,269 --> 00:08:41,399  
miles per hour and will make its closest

160  
00:08:47,279 --> 00:08:50,750  
don't look up

161  
00:08:55,310 --> 00:08:52,009  
Twitter

162  
00:08:58,670 --> 00:08:55,320  
has appeared to be showing signs of wear

163  
00:09:00,769 --> 00:08:58,680

today with images unable to be posted

164

00:09:03,670 --> 00:09:00,779

and links from the social media service

165

00:09:06,290 --> 00:09:03,680

not connecting to their desired location

166

00:09:08,269 --> 00:09:06,300

a tweet from the platform support

167

00:09:11,350 --> 00:09:08,279

account reported that parts of the

168

00:09:14,930 --> 00:09:11,360

service could be offline just afternoon

169

00:09:17,449 --> 00:09:14,940

Eastern Time Twitter support tweeted and

170

00:09:20,570 --> 00:09:17,459

I quote some parts of Twitter may not be

171

00:09:23,350 --> 00:09:20,580

working as expected right now we made an

172

00:09:26,269 --> 00:09:23,360

internal change that had some unintended

173

00:09:28,250 --> 00:09:26,279

consequences we're working on this now

174

00:09:31,850 --> 00:09:28,260

and we'll share an update when it's

175

00:09:34,370 --> 00:09:31,860

fixed end quote then a little after 1 pm

176

00:09:38,150 --> 00:09:34,380

eastern time today the support account

177

00:09:40,970 --> 00:09:38,160

tweeted things should now be working as

178

00:09:43,310 --> 00:09:40,980

normal thanks for sticking with us end

179

00:09:46,009 --> 00:09:43,320

quote Twitter of course has suffered

180

00:09:49,009 --> 00:09:46,019

multiple outages and issues since Tesla

181

00:09:51,410 --> 00:09:49,019

Inc chief executive Elon Musk acquired

182

00:09:53,870 --> 00:09:51,420

the service in October and laid off

183

00:09:56,389 --> 00:09:53,880

thousands tons of workers

184

00:09:58,430 --> 00:09:56,399

so there you go there's your Fade to

185

00:10:03,230 --> 00:09:58,440

Black breaking news for this Thursday

186

00:10:05,090 --> 00:10:03,240

March 2nd 2023 this is all of the news

187

00:10:07,009 --> 00:10:05,100

that you need

188

00:10:10,670 --> 00:10:07,019

Fade to Black breaking news is produced

189

00:10:15,170 --> 00:10:10,680
