

FADE **TO** BLACK

with **JIMMY CHURCH**
PRESENTS

BREAKING NEWS

Tue Mar 07, 2023 **LIVE**

1
00:00:35,950 --> 00:00:25,980

[Music]

2
00:00:39,410 --> 00:00:35,960

thank you

3
00:00:45,369 --> 00:00:42,110

good afternoon Fade to Black breaking

4
00:00:49,790 --> 00:00:45,379

news for this Tuesday March 7

5
00:00:54,069 --> 00:00:49,800

2023 I'm Jimmy church this is all of the

6
00:00:58,790 --> 00:00:54,079

news that you need let's start with otd

7
00:01:00,790 --> 00:00:58,800

on this day in history 1876

8
00:01:04,390 --> 00:01:00,800

a big one

9
00:01:07,969 --> 00:01:04,400

29 year old Alexander Graham Bell

10
00:01:09,530 --> 00:01:07,979

receives a patent for his revolutionary

11
00:01:12,310 --> 00:01:09,540

new invention

12
00:01:17,090 --> 00:01:12,320

the telephone

13
00:01:19,910 --> 00:01:17,100

29 years old 1876. that's nuts let's get

14

00:01:21,530 --> 00:01:19,920

to your fader fact today

15

00:01:25,030 --> 00:01:21,540

fact

16

00:01:29,270 --> 00:01:25,040

over the course of an average lifetime

17

00:01:31,670 --> 00:01:29,280

most people will spend an entire year

18

00:01:33,590 --> 00:01:31,680

sitting on the toilet

19

00:01:36,530 --> 00:01:33,600

U.S citizens

20

00:01:38,210 --> 00:01:36,540

probably two or three

21

00:01:40,310 --> 00:01:38,220

that

22

00:01:42,109 --> 00:01:40,320

is your fader fact let's get to the

23

00:01:44,690 --> 00:01:42,119

breaking news lots of breaking news

24

00:01:46,929 --> 00:01:44,700

today that I get to do

25

00:01:50,389 --> 00:01:46,939

without my glasses

26
00:01:55,130 --> 00:01:50,399
breaking news recovered UFO technology

27
00:01:57,889 --> 00:01:55,140
quote maybe being reverse engineered

28
00:01:59,929 --> 00:01:57,899
right now but we don't understand how it

29
00:02:02,830 --> 00:01:59,939
functions according to a U.S

30
00:02:06,289 --> 00:02:02,840
representative that's right Tennessee

31
00:02:09,889 --> 00:02:06,299
Congressman Tim burchett told Newsweek

32
00:02:12,530 --> 00:02:09,899
that he believed and I'm quoting here we

33
00:02:15,949 --> 00:02:12,540
have recovered a craft at some point and

34
00:02:18,110 --> 00:02:15,959
possible beings I think that a lot of

35
00:02:22,250 --> 00:02:18,120
what's being reversed engineered right

36
00:02:23,330 --> 00:02:22,260
now but we just don't understand it end

37
00:02:26,390 --> 00:02:23,340
quote

38
00:02:29,330 --> 00:02:26,400

then we have Louisiana Senator John

39

00:02:32,510 --> 00:02:29,340

Kennedy said following a classified

40

00:02:35,390 --> 00:02:32,520

briefing on the objects last month it

41

00:02:39,050 --> 00:02:35,400

was and I quote clear to me this is not

42

00:02:41,650 --> 00:02:39,060

a recent phenomenon lock your doors

43

00:02:44,509 --> 00:02:41,660

tonight end quote that was two reporters

44

00:02:46,970 --> 00:02:44,519

now this has come not just from

45

00:02:50,330 --> 00:02:46,980

political spheres but also from director

46

00:02:53,570 --> 00:02:50,340

Stephen Spielberg who's suggested to

47

00:02:56,270 --> 00:02:53,580

Stephen Colbert last week that and I

48

00:02:58,910 --> 00:02:56,280

quote it's mathematically impossible

49

00:03:02,390 --> 00:02:58,920

that we are the only intelligent species

50

00:03:06,410 --> 00:03:02,400

in the cosmos I think that what has been

51
00:03:07,610 --> 00:03:06,420
coming out recently is fascinating end

52
00:03:10,610 --> 00:03:07,620
quote

53
00:03:13,250 --> 00:03:10,620
and then we have this Dr Sean

54
00:03:16,070 --> 00:03:13,260
Kirkpatrick the head of the pentagon's

55
00:03:18,290 --> 00:03:16,080
UFO investigative unit they all domain

56
00:03:21,130 --> 00:03:18,300
anomaly resolution office otherwise

57
00:03:24,949 --> 00:03:21,140
known as arrow and Harvard

58
00:03:27,309 --> 00:03:24,959
astrophysicist Avi Loeb claiming a new

59
00:03:30,770 --> 00:03:27,319
research paper that alien quote

60
00:03:34,009 --> 00:03:30,780
motherships could be flying through our

61
00:03:37,550 --> 00:03:34,019
solar system in the paper published on

62
00:03:40,130 --> 00:03:37,560
March 1st Kirkpatrick and Loeb wrote and

63
00:03:43,009 --> 00:03:40,140

I'm quoting again an artificial

64

00:03:45,949 --> 00:03:43,019

Interstellar object could potentially be

65

00:03:48,410 --> 00:03:45,959

a parent craft that releases many small

66

00:03:51,229 --> 00:03:48,420

probes during its close passage to Earth

67

00:03:54,589 --> 00:03:51,239

and operational construct not too

68

00:03:58,070 --> 00:03:54,599

dissimilar from NASA missions end quote

69

00:04:00,949 --> 00:03:58,080

they wrote that current Sky scanning

70

00:04:03,530 --> 00:04:00,959

telescopes such as the James Webb Space

71

00:04:07,190 --> 00:04:03,540

Telescope would miss such small objects

72

00:04:09,589 --> 00:04:07,200

whereas our deep space Radars and space

73

00:04:13,910 --> 00:04:09,599

fence could pick up a meter-long

74

00:04:16,670 --> 00:04:13,920

incoming UFOs up to 36 000 kilometers in

75

00:04:20,150 --> 00:04:16,680

the air and we therefore should keep an

76

00:04:23,150 --> 00:04:20,160

eye out for them end quote I'm quoting

77

00:04:25,969 --> 00:04:23,160

again such objects could also become

78

00:04:29,030 --> 00:04:25,979

optically detectable as they get close

79

00:04:31,310 --> 00:04:29,040

to Earth especially if they create a

80

00:04:35,150 --> 00:04:31,320

fireball as a result of their friction

81

00:04:38,270 --> 00:04:35,160

with air end quote Loeb says that his

82

00:04:40,490 --> 00:04:38,280

team at Harvard where not he now serves

83

00:04:43,730 --> 00:04:40,500

as director of The Institute for Theory

84

00:04:46,249 --> 00:04:43,740

and computation is currently using large

85

00:04:48,830 --> 00:04:46,259

campus telescopes to scan the skies for

86

00:04:51,170 --> 00:04:48,840

such probes or other UFOs and are

87

00:04:54,530 --> 00:04:51,180

planning to set up a second telescope in

88

00:04:56,270 --> 00:04:54,540

the coming months as part of his Galileo

89

00:04:59,689 --> 00:04:56,280

project

90

00:05:01,909 --> 00:04:59,699

wow and I've got more space news

91

00:05:04,550 --> 00:05:01,919

that NASA spacecraft that I was

92

00:05:08,090 --> 00:05:04,560

reporting on last week is back to normal

93

00:05:10,430 --> 00:05:08,100

after weeks of troubles in space NASA's

94

00:05:13,730 --> 00:05:10,440

Interstellar boundary Explorer otherwise

95

00:05:16,850 --> 00:05:13,740

known as Ixion allowed controllers to

96

00:05:18,350 --> 00:05:16,860

reset the computer on March 2nd NASA

97

00:05:21,110 --> 00:05:18,360

officials announced everything yesterday

98

00:05:23,990 --> 00:05:21,120

ending three weeks of issues and trying

99

00:05:27,770 --> 00:05:24,000

to reach the spacecraft the mission team

100

00:05:29,930 --> 00:05:27,780

did a fire code reset or external reset

101
00:05:32,230 --> 00:05:29,940
of the spacecraft allowing NASA to

102
00:05:35,330 --> 00:05:32,240
regain control of the unresponsive craft

103
00:05:38,450 --> 00:05:35,340
a full two days before lbex was

104
00:05:41,810 --> 00:05:38,460
scheduled to do an autonomous reset and

105
00:05:45,830 --> 00:05:41,820
power cycle over the weekend the craft

106
00:05:47,870 --> 00:05:45,840
has spent 15 years in space continuing

107
00:05:53,090 --> 00:05:47,880
work more than a decade past when its

108
00:05:55,370 --> 00:05:53,100
Prime mission ended back in 2011.

109
00:05:58,249 --> 00:05:55,380
well Florida beaches

110
00:06:01,029 --> 00:05:58,259
are filling up with dead fish and

111
00:06:04,909 --> 00:06:01,039
Coastal air is burning people's eyes

112
00:06:09,170 --> 00:06:04,919
noses and throats and it's all because

113
00:06:11,450 --> 00:06:09,180

of a tiny organism red tide a problem

114

00:06:14,689 --> 00:06:11,460

that has sporadically plagued Florida's

115

00:06:19,129 --> 00:06:14,699

Gulf Coast water for years well it's

116

00:06:22,309 --> 00:06:19,139

back red tide is a toxic algae it's a

117

00:06:25,129 --> 00:06:22,319

toxic algae bloom that originates dozens

118

00:06:28,010 --> 00:06:25,139

of Miles offshore where there are high

119

00:06:31,070 --> 00:06:28,020

amounts of the algae known as carinea

120

00:06:32,170 --> 00:06:31,080

brevis on Friday the Florida Fish and

121

00:06:35,210 --> 00:06:32,180

Wildlife

122

00:06:38,390 --> 00:06:35,220

Conservation Commission issued a status

123

00:06:41,510 --> 00:06:38,400

update for red tide conditions saying

124

00:06:45,230 --> 00:06:41,520

that the organism was found in 115

125

00:06:48,350 --> 00:06:45,240

samples along the state's West Coast

126
00:06:52,550 --> 00:06:48,360
if those toxins by the way are ingested

127
00:06:56,210 --> 00:06:52,560
by land animals like your pets eating

128
00:06:58,550 --> 00:06:56,220
dead fish right they are can also

129
00:07:00,710 --> 00:06:58,560
contain a serious and cause serious

130
00:07:04,309 --> 00:07:00,720
illness and death all of this according

131
00:07:08,270 --> 00:07:04,319
to Florida's Department of Health

132
00:07:10,969 --> 00:07:08,280
all right Tober loan

133
00:07:13,490 --> 00:07:10,979
I love Toblerone by the way

134
00:07:16,070 --> 00:07:13,500
I do those little pyramids break them

135
00:07:19,070 --> 00:07:16,080
apart right well Toblerone chocolate

136
00:07:22,490 --> 00:07:19,080
packaging will no longer feature

137
00:07:26,689 --> 00:07:22,500
Switzerland's iconic Matterhorn Mountain

138
00:07:29,570 --> 00:07:26,699

as its U.S owner Mandela's moves

139

00:07:32,450 --> 00:07:29,580

production to Slovakia later this year

140

00:07:35,589 --> 00:07:32,460

the company will also remove a reference

141

00:07:38,390 --> 00:07:35,599

to Tober loan being Swiss chocolate

142

00:07:39,589 --> 00:07:38,400

instead of declaring it they're just

143

00:07:42,650 --> 00:07:39,599

gonna say

144

00:07:47,029 --> 00:07:42,660

it was established in Switzerland in

145

00:07:50,629 --> 00:07:47,039

1908. it's due to Swiss legislation uh

146

00:07:52,129 --> 00:07:50,639

in four since 2017 which requires any

147

00:07:55,430 --> 00:07:52,139

product using

148

00:07:58,689 --> 00:07:55,440

swissness to advertise a product or

149

00:08:00,969 --> 00:07:58,699

service to meet a set of origin criteria

150

00:08:03,309 --> 00:08:00,979

milk-based products must be made

151
00:08:05,809 --> 00:08:03,319
exclusively in the country

152
00:08:08,390 --> 00:08:05,819
lawmakers say it's a way to protect the

153
00:08:12,950 --> 00:08:08,400
prestige associated with Swiss made

154
00:08:16,210 --> 00:08:12,960
products marks of swissness can include

155
00:08:19,309 --> 00:08:16,220
the flag references to cities such as

156
00:08:21,350 --> 00:08:19,319
Geneva or in this case that famed

157
00:08:25,029 --> 00:08:21,360
mountain in the Alps known for its

158
00:08:29,270 --> 00:08:25,039
really cool pyramid shape that's right

159
00:08:30,650 --> 00:08:29,280
October loan it's still gonna taste

160
00:08:32,810 --> 00:08:30,660
Swiss

161
00:08:34,909 --> 00:08:32,820
it's gonna have it

162
00:08:39,190 --> 00:08:34,919
swissness

163
00:08:40,930 --> 00:08:39,200

and finally I'll leave you with this

164

00:08:45,410 --> 00:08:40,940

Utah

165

00:08:48,530 --> 00:08:45,420

wants you to eat frogs

166

00:08:52,730 --> 00:08:48,540

that's right the Utah Department of

167

00:08:55,490 --> 00:08:52,740

Natural Resources is asking residents to

168

00:08:58,910 --> 00:08:55,500

eat bullfrogs

169

00:09:01,490 --> 00:08:58,920

the DNR is promoting bullfrog catching

170

00:09:04,250 --> 00:09:01,500

to help contain the amphibians which

171

00:09:05,829 --> 00:09:04,260

have taken over Utah's ponds and marshes

172

00:09:10,070 --> 00:09:05,839

you see

173

00:09:12,230 --> 00:09:10,080

bullfrogs are invasive in Utah and are

174

00:09:16,150 --> 00:09:12,240

out competing other species like the

175

00:09:18,230 --> 00:09:16,160

endangered Boreal toad yes

176
00:09:22,070 --> 00:09:18,240
bullfrogs eat

177
00:09:27,710 --> 00:09:25,310
three species to be exact

178
00:09:29,930 --> 00:09:27,720
three species of native frogs that are

179
00:09:31,190 --> 00:09:29,940
threatened or struggling to repopulate

180
00:09:37,250 --> 00:09:31,200
in Utah

181
00:09:40,670 --> 00:09:37,260
so online Utah the state has provided

182
00:09:42,590 --> 00:09:40,680
you a detailed recipe for breaded frog

183
00:09:45,769 --> 00:09:42,600
legs

184
00:09:48,889 --> 00:09:45,779
on their website they say

185
00:09:51,590 --> 00:09:48,899
they taste like chicken but slightly

186
00:09:58,310 --> 00:09:53,750
and that's your Fade to Black breaking

187
00:10:01,970 --> 00:09:58,320
news for this Tuesday March 7th 2023

188
00:10:03,530 --> 00:10:01,980

this is indeed all of the news that you

189

00:10:06,350 --> 00:10:03,540

need Fade to Black breaking news is
