

FADE **TO** BLACK

with **JIMMY CHURCH**
PRESENTS

BREAKING NEWS

Mon Mar 13, 2023 **LIVE**

1
00:00:25,160 --> 00:00:13,020
foreign

2
00:00:25,170 --> 00:00:40,150
[Music]

3
00:00:46,729 --> 00:00:43,430
welcome good afternoon it is Monday

4
00:00:48,229 --> 00:00:46,739
March 13 2023 this is Fade to Black

5
00:00:51,049 --> 00:00:48,239
breaking news

6
00:00:53,810 --> 00:00:51,059
all of the news that you need I'm your

7
00:00:58,330 --> 00:00:53,820
host Jimmy Church let's get straight to

8
00:01:06,590 --> 00:01:03,950
1965. Eric Clapton leaves The Yardbirds

9
00:01:08,390 --> 00:01:06,600
and then he recommended Jimmy Page

10
00:01:12,350 --> 00:01:08,400
who declined

11
00:01:15,590 --> 00:01:12,360
but he recommended Jeff Beck who

12
00:01:17,330 --> 00:01:15,600
accepted he joined the band later Paige

13
00:01:20,210 --> 00:01:17,340

would join back with the two guitar

14

00:01:23,030 --> 00:01:20,220

attack that lasted just two years and

15

00:01:26,510 --> 00:01:23,040

then Paige of course formed Zeppelin and

16

00:01:28,670 --> 00:01:26,520

Beck the Jeff Beck Group and Clapton

17

00:01:33,350 --> 00:01:28,680

well he was just clapping

18

00:01:36,469 --> 00:01:33,360

on this day in 1965 let's get to your

19

00:01:39,230 --> 00:01:36,479

fader fact fully vetted I checked it out

20

00:01:40,910 --> 00:01:39,240

actually today

21

00:01:44,630 --> 00:01:40,920

here it is

22

00:01:48,490 --> 00:01:44,640

when Lady Gaga went to New York

23

00:01:52,130 --> 00:01:48,500

University NYU a group of students

24

00:01:54,289 --> 00:01:52,140

started a Facebook group about how she

25

00:01:59,149 --> 00:01:54,299

would never be famous

26
00:02:03,830 --> 00:01:59,159
yeah it was called Stephanie germanotta

27
00:02:08,270 --> 00:02:03,840
you will never be famous yeah it had 12

28
00:02:10,190 --> 00:02:08,280
members and that is your fader fact

29
00:02:12,010 --> 00:02:10,200
let's get into the breaking news it all

30
00:02:13,550 --> 00:02:12,020
went down on Friday

31
00:02:17,150 --> 00:02:13,560
yep

32
00:02:19,550 --> 00:02:17,160
Silicon Valley Bank the go-to bank for

33
00:02:21,110 --> 00:02:19,560
U.S tech startups and this is big news

34
00:02:24,350 --> 00:02:21,120
for this community

35
00:02:27,070 --> 00:02:24,360
face facing a sudden Bank Run in capital

36
00:02:30,050 --> 00:02:27,080
crisis collapsed on Friday morning

37
00:02:32,809 --> 00:02:30,060
leaving its high-powered customers and

38
00:02:34,610 --> 00:02:32,819

investors in limbo it was taken over by

39

00:02:38,089 --> 00:02:34,620

federal regulators

40

00:02:42,890 --> 00:02:38,099

it was the largest bank failure of a U.S

41

00:02:46,369 --> 00:02:42,900

Bank since Washington Mutual in 2008.

42

00:02:48,650 --> 00:02:46,379

that's right last Wednesday as VB

43

00:02:52,130 --> 00:02:48,660

announced it had sold a bunch of

44

00:02:55,910 --> 00:02:52,140

Securities at a loss and that it would

45

00:02:59,509 --> 00:02:55,920

also sell 2.25 billion dollars in new

46

00:03:02,630 --> 00:02:59,519

shares to shore up its balance sheet

47

00:03:05,570 --> 00:03:02,640

that triggered a panic among key Venture

48

00:03:07,610 --> 00:03:05,580

Capital firms who reportedly advised

49

00:03:08,630 --> 00:03:07,620

companies to withdraw their money from

50

00:03:13,970 --> 00:03:08,640

the bank

51
00:03:16,369 --> 00:03:13,980
morning and by the afternoon it was

52
00:03:19,430 --> 00:03:16,379
dragging other bank shares down with it

53
00:03:22,490 --> 00:03:19,440
as investors began to a fear of the

54
00:03:27,290 --> 00:03:22,500
repeat of the 2007-2008 financial crisis

55
00:03:30,050 --> 00:03:27,300
by Friday morning trading in svb shares

56
00:03:32,030 --> 00:03:30,060
was halted and it had abandoned efforts

57
00:03:34,490 --> 00:03:32,040
to quickly raise capital or find a buyer

58
00:03:37,250 --> 00:03:34,500
California Regulators intervened

59
00:03:40,070 --> 00:03:37,260
shutting the bank down and placing it in

60
00:03:42,250 --> 00:03:40,080
receivership under the Federal Deposit

61
00:03:46,550 --> 00:03:42,260
Insurance Corporation

62
00:03:49,009 --> 00:03:46,560
HSBC in Britain has scooped up the UK

63
00:03:51,110 --> 00:03:49,019

arm of failed Silicon Valley Bank

64

00:03:53,750 --> 00:03:51,120

securing the future of thousands of

65

00:03:54,770 --> 00:03:53,760

British Tech firms that hold money at

66

00:03:59,570 --> 00:03:54,780

the lender

67

00:04:01,729 --> 00:03:59,580

had a buyer not been found svb UK would

68

00:04:03,589 --> 00:04:01,739

have been placed into insolvency by the

69

00:04:06,550 --> 00:04:03,599

bank of England following the stunning

70

00:04:09,770 --> 00:04:06,560

collapse of svb in the United States

71

00:04:13,009 --> 00:04:09,780

Bank stocks teetered but held on their

72

00:04:15,050 --> 00:04:13,019

gains by mid-afternoon today as Wall

73

00:04:19,069 --> 00:04:15,060

Street considers the U.S government's

74

00:04:22,790 --> 00:04:19,079

plan to keep Banks afloat

75

00:04:29,330 --> 00:04:25,430

all right check this out a little chains

76

00:04:32,150 --> 00:04:29,340

of subject because a raft of brown

77

00:04:36,290 --> 00:04:32,160

colored seaweed in the Atlantic Ocean is

78

00:04:38,930 --> 00:04:36,300

so vast it can be seen from space it

79

00:04:41,090 --> 00:04:38,940

spans roughly 5

80

00:04:43,749 --> 00:04:41,100

000 miles about twice the width of the

81

00:04:46,430 --> 00:04:43,759

United States the thick blanket of

82

00:04:48,909 --> 00:04:46,440

sargassum floats between the Gulf of

83

00:04:52,430 --> 00:04:48,919

Mexico and the shores of West Africa

84

00:04:55,129 --> 00:04:52,440

there it can choke corals wreak havoc on

85

00:04:57,550 --> 00:04:55,139

Coastal ecosystems and diminish water

86

00:05:00,590 --> 00:04:57,560

and air quality as it rots

87

00:05:03,350 --> 00:05:00,600

scientists say this Bloom is one of the

88

00:05:05,990 --> 00:05:03,360

largest on record stoking fears of

89

00:05:09,590 --> 00:05:06,000

seaweed invasions of beaches in the

90

00:05:11,810 --> 00:05:09,600

coming weeks and months last summer the

91

00:05:14,210 --> 00:05:11,820

U.S Virgin Islands declared a state of

92

00:05:17,810 --> 00:05:14,220

emergency after unusually high quality

93

00:05:21,469 --> 00:05:17,820

quantities of sargassum caused water

94

00:05:24,050 --> 00:05:21,479

shortages on Saint Croix other impacts

95

00:05:27,770 --> 00:05:24,060

to human health are coming into Focus as

96

00:05:30,469 --> 00:05:27,780

the seaweed rots it releases hydrogen

97

00:05:34,010 --> 00:05:30,479

sulfide which can cause respiratory

98

00:05:37,129 --> 00:05:34,020

problems for tourists and residents

99

00:05:39,550 --> 00:05:37,139

there you go there's a movie

100

00:05:42,830 --> 00:05:39,560

there's a movie here

101
00:05:45,110 --> 00:05:42,840
researchers now say they have created a

102
00:05:47,450 --> 00:05:45,120
super conducting material that works at

103
00:05:49,670 --> 00:05:47,460
both the temperature and pressure low

104
00:05:52,550 --> 00:05:49,680
enough to actually use it in Practical

105
00:05:54,409 --> 00:05:52,560
situations it reaches a breakthrough

106
00:05:56,930 --> 00:05:54,419
that scientists have been chasing for

107
00:05:58,909 --> 00:05:56,940
more than a century in making a material

108
00:06:01,790 --> 00:05:58,919
that is able to transmit electricity

109
00:06:05,210 --> 00:06:01,800
without resistance and pass magnetic

110
00:06:07,790 --> 00:06:05,220
fields around the material now its

111
00:06:10,510 --> 00:06:07,800
Discovery could lead to power grids that

112
00:06:13,730 --> 00:06:10,520
are able to seamlessly transmit energy

113
00:06:16,550 --> 00:06:13,740

saving up to 200 million megawatt hours

114

00:06:18,830 --> 00:06:16,560

that is currently lost to resistance

115

00:06:21,529 --> 00:06:18,840

it could also contribute to nuclear

116

00:06:24,529 --> 00:06:21,539

fusion along the way to process that

117

00:06:27,170 --> 00:06:24,539

could create unlimited power other

118

00:06:28,850 --> 00:06:27,180

applications include high-speed hovering

119

00:06:30,650 --> 00:06:28,860

trains and new kinds of medical

120

00:06:32,930 --> 00:06:30,660

equipment all of this from the

121

00:06:35,330 --> 00:06:32,940

researchers but

122

00:06:38,689 --> 00:06:35,340

for transparency

123

00:06:41,689 --> 00:06:38,699

a team led by the same scientist ranga

124

00:06:43,610 --> 00:06:41,699

Diaz previously reported the creation of

125

00:06:46,129 --> 00:06:43,620

two slightly less breakthrough but

126
00:06:48,890 --> 00:06:46,139
similarly superconducting materials and

127
00:06:52,070 --> 00:06:48,900
papers that were published in nature and

128
00:06:54,529 --> 00:06:52,080
physical review letters the nature paper

129
00:06:56,930 --> 00:06:54,539
was eventually retracted by the

130
00:06:59,629 --> 00:06:56,940
journal's editors amid questions over

131
00:07:02,029 --> 00:06:59,639
the scientist's approach

132
00:07:06,370 --> 00:07:02,039
I will keep you posted

133
00:07:09,830 --> 00:07:06,380
all right on March 1st 2023

134
00:07:14,150 --> 00:07:09,840
NASA's Juno spacecraft flew by Jupiter's

135
00:07:16,850 --> 00:07:14,160
moon IO coming to within 51 500

136
00:07:19,749 --> 00:07:16,860
kilometers that's about 32 000 miles of

137
00:07:22,610 --> 00:07:19,759
the innermost and third largest of four

138
00:07:25,129 --> 00:07:22,620

moons the stunning new images provide

139

00:07:28,129 --> 00:07:25,139

the best and closest view of the most

140

00:07:31,189 --> 00:07:28,139

volcanic moon in our Solar System since

141

00:07:34,730 --> 00:07:31,199

the New Horizons Mission flew past IO

142

00:07:38,210 --> 00:07:34,740

and the Jupiter system back in 2006 on

143

00:07:41,749 --> 00:07:38,220

its way to Pluto in its extended Mission

144

00:07:44,629 --> 00:07:41,759

Juno has now orbited Jupiter 49 times

145

00:07:47,809 --> 00:07:44,639

and it's on course to study several of

146

00:07:51,110 --> 00:07:47,819

Jupiter's moons this latest flyby of

147

00:07:54,050 --> 00:07:51,120

Iowa was the third of nine flybys of the

148

00:07:56,770 --> 00:07:54,060

volcanic moon over the next year with

149

00:08:01,189 --> 00:07:56,780

the first coming back in December of

150

00:08:05,089 --> 00:08:01,199

2022 an upcoming flyby check this out

151
00:08:07,809 --> 00:08:05,099
next year on February 3rd 2024 will come

152
00:08:10,029 --> 00:08:07,819
as close as

153
00:08:12,710 --> 00:08:10,039
930 miles

154
00:08:16,370 --> 00:08:12,720
absolutely incredible

155
00:08:17,629 --> 00:08:16,380
all right now I'm Gonna Leave You with

156
00:08:23,330 --> 00:08:17,639
this

157
00:08:25,790 --> 00:08:23,340
last week on March 7th researchers from

158
00:08:27,830 --> 00:08:25,800
the hillong Xiang fishery Research

159
00:08:30,350 --> 00:08:27,840
Institute in China

160
00:08:34,389 --> 00:08:30,360
announced they have been able to create

161
00:08:38,209 --> 00:08:34,399
and breed carp without any

162
00:08:42,889 --> 00:08:40,269
that's right

163
00:08:47,090 --> 00:08:42,899

boneless fish

164

00:08:51,650 --> 00:08:47,100

unlike the United States in China carp

165

00:08:56,030 --> 00:08:53,750

here in the states we just throw them

166

00:08:59,030 --> 00:08:56,040

back in the water it's a tradition

167

00:09:03,110 --> 00:08:59,040

and it's probably going to stay that way

168

00:09:04,910 --> 00:09:03,120

boneless fish yum

169

00:09:07,730 --> 00:09:04,920

that's it that's all your Fade to Black

170

00:09:09,730 --> 00:09:07,740

breaking news that you need for this

171

00:09:12,829 --> 00:09:09,740

Monday March 13

172

00:09:15,230 --> 00:09:12,839

2023 paid to Black breaking news is

173

00:09:16,370 --> 00:09:15,240

produced by Renee Newman I'm Jimmy

174

00:09:21,480 --> 00:09:16,380

Church
