happy pie day

9
00:01:05,210 --> 00:01:03,120
let's get to the on this day in history

10
00:01:09,289 --> 00:01:05,220
otd 1958

11
00:01:12,850 --> 00:01:09,299
the first gold record was awarded to

12
00:01:16,670 --> 00:01:12,860
Perry Como for catch a falling star

13
00:01:22,929 --> 00:01:16,680

Elvis Presley has the most gold records

14

00:01:26,690 --> 00:01:22,939

with 101 Queen has the most gold albums

15

00:01:29,870 --> 00:01:26,700

and Rush is the only band to have three

16

00:01:32,149 --> 00:01:29,880

platinum or gold albums in a row but

17

00:01:36,289 --> 00:01:32,159

never nominated for the Rock and Roll

18

00:01:38,590 --> 00:01:36,299

Hall of Fame on this day in 1958 let's

19

00:01:41,510 --> 00:01:38,600

get to the fader fact

20

00:01:44,630 --> 00:01:41,520

every year

21

00:01:46,249 --> 00:01:44,640

I I actually vetted this today I went

22

00:01:48,469 --> 00:01:46,259

through and checked all of this are you

23

00:01:52,690 --> 00:01:48,479

ready every year

24

00:01:56,469 --> 00:01:52,700

Canada eats more macaroni and cheese

25

00:02:01,910 --> 00:01:56,479

than any other place on Earth

26

00:02:03,710 --> 00:02:01,920

Belgium eats the most french fries

27

00:02:08,330 --> 00:02:03,720

in Germany

28

00:02:10,190 --> 00:02:08,340

eats the most bread and that is your

29

00:02:12,350 --> 00:02:10,200

fader fact let's get to the breaking

30

00:02:15,949 --> 00:02:12,360

news lots of breaking news today a

31

00:02:18,170 --> 00:02:15,959

Russian fighter a jet has collided with

32

00:02:21,050 --> 00:02:18,180

the U.S Reaper drone forcing it down

33

00:02:23,510 --> 00:02:21,060

into the Black Sea in what U.S forces

34

00:02:26,510 --> 00:02:23,520

called an unsafe and unprofessional

35

00:02:29,750 --> 00:02:26,520

intercept the Collision happened just

36

00:02:32,930 --> 00:02:29,760

after 7 A.M this morning when two

37

00:02:35,930 --> 00:02:32,940

Russian su-27 fighter jets flew up to

38

00:02:39,770 --> 00:02:35,940

the MQ-9 Reaper drone over international

39

00:02:42,430 --> 00:02:39,780

waters just west of Crimea

40

00:02:47,449 --> 00:02:42,440

several times before the Collision the

41

00:02:50,330 --> 00:02:47,459

su-27s dumped Fuel and flew in front of

42

00:02:52,369 --> 00:02:50,340

the MQ-9 and then one of the Russian

43

00:02:55,130 --> 00:02:52,379

Fighters struck the drone's propeller

44

00:03:00,170 --> 00:02:55,140

causing U.S forces to have to bring down

45

00:03:02,270 --> 00:03:00,180

the MQ-9 down in international waters

46

00:03:06,190 --> 00:03:02,280

it's not the end of this story

47

00:03:09,890 --> 00:03:06,200

I will keep you posted an entire

48

00:03:11,869 --> 00:03:09,900

T-rex dinosaur skeleton is to be

49

00:03:12,770 --> 00:03:11,879

auctioned into Europe for the first time

50

00:03:16,250 --> 00:03:12,780

ever

51
00:03:17,770 --> 00:03:16,260
the 67 million year old Tyrannosaurus

52
00:03:21,410 --> 00:03:17,780
Rex named

53
00:03:26,470 --> 00:03:21,420
trx293 Trinity is estimated to fetch

54
00:03:30,290 --> 00:03:26,480
between 5.5 and 8.7 million dollars

55
00:03:33,410 --> 00:03:30,300
zurich-based Kohler auctions say it is

56
00:03:36,170 --> 00:03:33,420
only the third time worldwide of full

57
00:03:39,470 --> 00:03:36,180
dinosaur skeleton of exceptional quality

58
00:03:41,330 --> 00:03:39,480
will go under the hammer described as

59
00:03:44,570 --> 00:03:41,340
one of the most spectacular T-Rex

60
00:03:48,110 --> 00:03:44,580
skeletons in existence Trinity has a

61
00:03:50,449 --> 00:03:48,120
length of 38 feet and a height of almost

62
00:03:53,390 --> 00:03:50,459
13 feet

63
00:03:58,690 --> 00:03:53,400

yeah it's pretty incredible I

64

00:04:02,869 --> 00:03:58,700

I I I if I had the gosh I'd buy it

65

00:04:05,750 --> 00:04:02,879

Lorenzo reuter a metal detectorist in

66

00:04:07,729 --> 00:04:05,760

the Netherlands has discovered dazzling

67

00:04:10,190 --> 00:04:07,739

gold and silver Treasures that were

68

00:04:13,630 --> 00:04:10,200

buried in a medieval swamp twelve

69

00:04:17,150 --> 00:04:13,640

hundred years ago possibly during a war

70

00:04:20,390 --> 00:04:17,160

The Horde includes four large golden

71

00:04:24,290 --> 00:04:20,400

pendants and they are beautiful two

72

00:04:28,490 --> 00:04:24,300

strips of gold leaf also beautiful and

73

00:04:31,070 --> 00:04:28,500

39 silver coins Lorenzo stumbled upon

74

00:04:33,469 --> 00:04:31,080

the treasure in 2021 while searching

75

00:04:36,230 --> 00:04:33,479

with his metal detector in the small

76
00:04:39,770 --> 00:04:36,240
northern city of hogwood I'm not making

77
00:04:42,050 --> 00:04:39,780
that up in West Friesland regioned and

78
00:04:45,110 --> 00:04:42,060
now archaeologists at the Dutch national

79
00:04:47,710 --> 00:04:45,120
museum of Antiquities have dated the

80
00:04:51,350 --> 00:04:47,720
treasure back to the Middle Ages

81
00:04:54,469 --> 00:04:51,360
absolutely incredible stunning images

82
00:04:56,150 --> 00:04:54,479
the second stage of a Chinese rocket

83
00:04:58,610 --> 00:04:56,160
that delivered a trio of military

84
00:05:02,409 --> 00:04:58,620
surveillance satellites in June to

85
00:05:06,350 --> 00:05:02,419
disintegrated Over Texas last Wednesday

86
00:05:10,070 --> 00:05:06,360
March 8th the four ton component of the

87
00:05:13,730 --> 00:05:10,080
Chang Jiang 2D Long March rocket punched

88
00:05:15,590 --> 00:05:13,740

through the atmosphere Over Texas at 17

89

00:05:18,409 --> 00:05:15,600

000 miles per hour and then

90

00:05:21,110 --> 00:05:18,419

disintegrated military officials have

91

00:05:24,110 --> 00:05:21,120

yet to find any debris from the rocket

92

00:05:26,810 --> 00:05:24,120

stage now according to NORAD satellite

93

00:05:28,969 --> 00:05:26,820

tracking data the stage was a piece of

94

00:05:31,370 --> 00:05:28,979

the Long March in low earth orbit before

95

00:05:35,210 --> 00:05:31,380

it made its unscheduled descent over

96

00:05:38,990 --> 00:05:35,220

West Texas near marathon before heading

97

00:05:40,070 --> 00:05:39,000

on a Northeast track between Abilene and

98

00:05:42,710 --> 00:05:40,080

Austin

99

00:05:45,290 --> 00:05:42,720

if you want to go find some long march

100

00:05:47,689 --> 00:05:45,300

debris now know where to go they

101
00:05:50,210 --> 00:05:47,699
estimate the debris field to be hundreds

102
00:05:52,090 --> 00:05:50,220
of miles long but nobody has recovered

103
00:05:55,610 --> 00:05:52,100
anything yet

104
00:05:59,150 --> 00:05:55,620
also NASA all in the news today because

105
00:06:01,430 --> 00:05:59,160
NASA is aiming to build a special

106
00:06:03,950 --> 00:06:01,440
spacecraft capable of guiding the

107
00:06:07,610 --> 00:06:03,960
International Space Station to a safe D

108
00:06:11,570 --> 00:06:07,620
orbit position when it is decommissioned

109
00:06:13,490 --> 00:06:11,580
in 2030. details of the plan were laid

110
00:06:18,490 --> 00:06:13,500
out when the White House released its

111
00:06:21,710 --> 00:06:18,500
budget request for NASA for 2024. the

112
00:06:23,230 --> 00:06:21,720
27.2 billion dollar allocation for NASA

113
00:06:25,850 --> 00:06:23,240

includes

114

00:06:30,050 --> 00:06:25,860

180 million dollars to begin the

115

00:06:33,290 --> 00:06:30,060

development of the space tug which is

116

00:06:36,590 --> 00:06:33,300

designed to tow the station safely as it

117

00:06:38,629 --> 00:06:36,600

burns up entering Earth's atmosphere in

118

00:06:40,490 --> 00:06:38,639

just seven years

119

00:06:43,909 --> 00:06:40,500

a space tug

120

00:06:45,110 --> 00:06:43,919

and while we are on the subject of space

121

00:06:47,749 --> 00:06:45,120

junk

122

00:06:49,730 --> 00:06:47,759

the Moon is top of the mind for many

123

00:06:51,050 --> 00:06:49,740

national space programs and private

124

00:06:53,629 --> 00:06:51,060

companies who are planning to send

125

00:06:56,930 --> 00:06:53,639

humans back to the Moon in 2025

126
00:06:59,150 --> 00:06:56,940
so in advance scientists are launching

127
00:07:03,050 --> 00:06:59,160
satellites and other payloads to orbit

128
00:07:04,610 --> 00:07:03,060
the Moon but so far no one has kept

129
00:07:07,969 --> 00:07:04,620
track of just how many artificial

130
00:07:12,050 --> 00:07:07,979
objects are already up there or where

131
00:07:14,809 --> 00:07:12,060
they are at any given time without any

132
00:07:17,330 --> 00:07:14,819
way to track any of the traffic the

133
00:07:21,469 --> 00:07:17,340
orbital space surrounding the moon could

134
00:07:23,749 --> 00:07:21,479
quickly grow crowded so the Air Force

135
00:07:26,629 --> 00:07:23,759
research laboratory space Vehicles

136
00:07:29,570 --> 00:07:26,639
directorate has tasked University of

137
00:07:32,330 --> 00:07:29,580
Arizona's Roberto ferfaro professor of

138
00:07:35,570 --> 00:07:32,340

systems and industrial engineering and

139

00:07:37,490 --> 00:07:35,580

Vishnu ready and associate professor in

140

00:07:39,770 --> 00:07:37,500

the College of Sciences lunar and

141

00:07:41,990 --> 00:07:39,780

planetary Laboratory

142

00:07:45,290 --> 00:07:42,000

and they've tasked them with getting a

143

00:07:48,430 --> 00:07:45,300

handle on this impending lunar traffic

144

00:07:53,029 --> 00:07:48,440

jam awarding them

145

00:07:56,629 --> 00:07:53,039

7.5 million dollars in funding so check

146

00:08:00,110 --> 00:07:56,639

this out according to NASA there are

147

00:08:04,309 --> 00:08:00,120

more than 23 000 catalog objects

148

00:08:08,210 --> 00:08:04,319

orbiting Earth for Faro and ready now

149

00:08:10,909 --> 00:08:08,220

estimate that there are just dozens of

150

00:08:17,570 --> 00:08:10,919

halos orbiting the moon and they got

151
00:08:22,790 --> 00:08:20,689
I'm in the wrong business director Nico

152
00:08:23,890 --> 00:08:22,800
