

FADE **TO** BLACK

with **JIMMY CHURCH**
PRESENTS

BREAKING NEWS

Wed Mar 22, 2023 **LIVE**

1
00:00:32,359 --> 00:00:22,390

[Music]

2
00:00:36,110 --> 00:00:32,369

thank you

3
00:00:43,569 --> 00:00:39,770

all right Fade to Black breaking news

4
00:00:46,790 --> 00:00:43,579

for this Wednesday March 22nd

5
00:00:49,069 --> 00:00:46,800

2023. this is all of the news that you

6
00:00:52,069 --> 00:00:49,079

need I'm Jimmy Church let's get straight

7
00:00:55,130 --> 00:00:52,079

to it on this day in history

8
00:01:01,970 --> 00:00:58,189

President Franklin Delano Roosevelt

9
00:01:04,070 --> 00:01:01,980

signs the beer and wine Revenue Act the

10
00:01:08,090 --> 00:01:04,080

beer and wine Revenue Act was followed

11
00:01:12,010 --> 00:01:08,100

in December 1933 by the passage of the

12
00:01:15,950 --> 00:01:12,020

21st Amendment which officially ended

13
00:01:19,250 --> 00:01:15,960

prohibition that's right on this day in

14

00:01:21,890 --> 00:01:19,260

1933 let's get to your fader fact

15

00:01:23,810 --> 00:01:21,900

it's for genocide

16

00:01:27,429 --> 00:01:23,820

fader fact

17

00:01:30,950 --> 00:01:27,439

the average American breast size

18

00:01:32,570 --> 00:01:30,960

increased in the last 20 years

19

00:01:36,590 --> 00:01:32,580

that's right all of this according to a

20

00:01:39,590 --> 00:01:36,600

new study of 60 000 participants the

21

00:01:45,789 --> 00:01:39,600

average American bra size has increased

22

00:01:49,670 --> 00:01:45,799

from 34 B to 34 double d That's about

23

00:01:52,550 --> 00:01:49,680

three full cup sizes up okay so there

24

00:01:56,090 --> 00:01:53,990

that

25

00:01:57,289 --> 00:01:56,100

is your fader fact

26

00:01:58,609 --> 00:01:57,299

let's get to the breaking news

27

00:02:01,810 --> 00:01:58,619

California

28

00:02:04,910 --> 00:02:01,820

is in the middle of another powerful

29

00:02:07,330 --> 00:02:04,920

atmospheric River storm this week it is

30

00:02:10,010 --> 00:02:07,340

raining right now as I speak to you

31

00:02:12,890 --> 00:02:10,020

continuing the onslaught of major

32

00:02:16,729 --> 00:02:12,900

weather Whiplash after a years-long

33

00:02:18,830 --> 00:02:16,739

historic Mega drought many welcome this

34

00:02:20,930 --> 00:02:18,840

Winter's heavy rain and snow since it

35

00:02:23,030 --> 00:02:20,940

was so desperately needed to replenish

36

00:02:24,949 --> 00:02:23,040

the state's severely drained reservoirs

37

00:02:28,610 --> 00:02:24,959

and depleted groundwater

38

00:02:31,550 --> 00:02:28,620

but the storms just keep coming

39

00:02:34,790 --> 00:02:31,560

that's right California is now facing

40

00:02:37,970 --> 00:02:34,800

its 12th significant atmospheric River

41

00:02:41,270 --> 00:02:37,980

since the parade of strong storms began

42

00:02:45,770 --> 00:02:41,280

back in December we are now at the end

43

00:02:48,470 --> 00:02:45,780

of March the actual count is 29 by the

44

00:02:51,890 --> 00:02:48,480

way but the media says 12 so the number

45

00:02:54,170 --> 00:02:51,900

is 12. this week's storm will rapidly

46

00:02:57,470 --> 00:02:54,180

strengthen and could become a bomb

47

00:03:00,110 --> 00:02:57,480

Cyclone a storm that rapidly intensifies

48

00:03:03,350 --> 00:03:00,120

at a rate of at least 24 millibars of

49

00:03:06,770 --> 00:03:03,360

pressure in 24 hours the latest storm

50

00:03:11,030 --> 00:03:06,780

covers the San Francisco Bay Area all

51
00:03:12,589 --> 00:03:11,040
the way down here to Southern California

52
00:03:15,050 --> 00:03:12,599
all right

53
00:03:18,710 --> 00:03:15,060
where would you go

54
00:03:21,589 --> 00:03:18,720
after using a toothbrush to Stage a

55
00:03:24,350 --> 00:03:21,599
daring escape from prison

56
00:03:28,970 --> 00:03:24,360
what would you do well for two Virginia

57
00:03:31,850 --> 00:03:28,980
criminals the answer was IHOP the

58
00:03:34,670 --> 00:03:31,860
International House of Pancakes

59
00:03:38,089 --> 00:03:34,680
and that cost them their freedom inmates

60
00:03:40,369 --> 00:03:38,099
John Garza and Arley Nemo used A

61
00:03:43,009 --> 00:03:40,379
Primitive made tools fashioned from a

62
00:03:45,589 --> 00:03:43,019
toothbrush and a metal object to dig a

63
00:03:47,809 --> 00:03:45,599

hole through a wall in a jail in Newport

64

00:03:51,170 --> 00:03:47,819

News Virginia all of this according to

65

00:03:54,170 --> 00:03:51,180

the Newport News Sheriff's Office the

66

00:03:57,050 --> 00:03:54,180

pair then climbed to multiple walls and

67

00:03:59,210 --> 00:03:57,060

escaped but their freedom didn't last

68

00:04:02,630 --> 00:03:59,220

too long because the very next morning

69

00:04:06,710 --> 00:04:02,640

they were caught in an lhop in Hampton

70

00:04:09,890 --> 00:04:06,720

Virginia where they were eating a Rudy

71

00:04:12,710 --> 00:04:09,900

Tootie fresh and fruity

72

00:04:16,610 --> 00:04:12,720

some things you just can't make up uh

73

00:04:21,770 --> 00:04:16,620

trilobites a group of instinct Marine

74

00:04:23,270 --> 00:04:21,780

arthropods had a hidden third eye and

75

00:04:26,150 --> 00:04:23,280

sometimes even a fourth or fifth

76
00:04:27,890 --> 00:04:26,160
according to Bridget as shaneman at The

77
00:04:30,070 --> 00:04:27,900
Institute of zoology at the University

78
00:04:31,969 --> 00:04:30,080
of cologne in Germany

79
00:04:34,310 --> 00:04:31,979
paleontologists knew that these

80
00:04:37,129 --> 00:04:34,320
hard-shelled prehistoric sea creatures

81
00:04:38,930 --> 00:04:37,139
had a pair of regular compound eyes

82
00:04:42,010 --> 00:04:38,940
which they used to see during the

83
00:04:45,950 --> 00:04:42,020
Paleozoic Era about

84
00:04:49,370 --> 00:04:45,960
541 million years ago but Bridget and

85
00:04:52,670 --> 00:04:49,380
her team recently discovered a median

86
00:04:55,850 --> 00:04:52,680
eye located in the middle of the long

87
00:04:59,689 --> 00:04:55,860
dead creature's foreheads a common

88
00:05:03,770 --> 00:04:59,699

characteristic in anthropods today

89

00:05:05,810 --> 00:05:03,780

there you go trilobites had a third eye

90

00:05:08,570 --> 00:05:05,820

all right check this out my favorite

91

00:05:11,450 --> 00:05:08,580

museum in the world

92

00:05:12,350 --> 00:05:11,460

the Metropolitan Museum of Art in New

93

00:05:16,189 --> 00:05:12,360

York

94

00:05:18,409 --> 00:05:16,199

has more than 1 000 objects in its

95

00:05:20,390 --> 00:05:18,419

collection that have ties to people

96

00:05:22,310 --> 00:05:20,400

involved in crimes related to the

97

00:05:24,830 --> 00:05:22,320

Antiquities trade according to a new

98

00:05:27,409 --> 00:05:24,840

report by the international Consortium

99

00:05:30,170 --> 00:05:27,419

of investigative journalists sparking

100

00:05:33,790 --> 00:05:30,180

heightened scrutiny of the largest and

101
00:05:36,010 --> 00:05:33,800
most visited Museum in the United States

102
00:05:39,770 --> 00:05:36,020
at least

103
00:05:42,770 --> 00:05:39,780
1109 pieces in the Mets collection were

104
00:05:44,810 --> 00:05:42,780
previously owned by individuals who have

105
00:05:48,650 --> 00:05:44,820
been indicted or convicted of crimes

106
00:05:51,770 --> 00:05:48,660
including looting and trafficking one

107
00:05:55,550 --> 00:05:51,780
example and it's beautiful is Celestial

108
00:05:58,370 --> 00:05:55,560
dancer devada an 11th century Indian

109
00:06:02,090 --> 00:05:58,380
statue linked to the convicted Antiquity

110
00:06:05,150 --> 00:06:02,100
Smuggler sabash Kapoor who was last year

111
00:06:09,950 --> 00:06:05,160
sentenced to 10 years in prison they

112
00:06:11,930 --> 00:06:09,960
have another 84 objects from subash

113
00:06:14,270 --> 00:06:11,940

there you go

114

00:06:16,909 --> 00:06:14,280

in a scientific first

115

00:06:19,670 --> 00:06:16,919

a team led by physicists at the

116

00:06:23,689 --> 00:06:19,680

University of California Irvine has

117

00:06:25,129 --> 00:06:23,699

detected neutrinos created by a particle

118

00:06:27,770 --> 00:06:25,139

Collider

119

00:06:29,830 --> 00:06:27,780

here we go the discovery promises to

120

00:06:31,909 --> 00:06:29,840

deepen scientists understanding of

121

00:06:35,270 --> 00:06:31,919

sub-atomic particles which were first

122

00:06:38,150 --> 00:06:35,280

spotted in 1956 and display a key role

123

00:06:40,249 --> 00:06:38,160

in the process that makes stars in the

124

00:06:43,610 --> 00:06:40,259

latest result from the forward search

125

00:06:46,309 --> 00:06:43,620

experiment or otherwise known as phaser

126

00:06:48,469 --> 00:06:46,319

a particle detector designed and built

127

00:06:51,950 --> 00:06:48,479

by International group of physicists and

128

00:06:53,990 --> 00:06:51,960

it is installed at CERN the European

129

00:06:57,350 --> 00:06:54,000

Council for nuclear research in Geneva

130

00:06:59,930 --> 00:06:57,360

Switzerland there phaser detected

131

00:07:03,650 --> 00:06:59,940

particles produced by cern's Large

132

00:07:06,770 --> 00:07:03,660

Hadron Collider Brian Peterson a

133

00:07:09,170 --> 00:07:06,780

particle physicist at CERN announced the

134

00:07:13,309 --> 00:07:09,180

results this past Sunday on behalf of

135

00:07:15,770 --> 00:07:13,319

phaser at the 57th recontris de morion

136

00:07:19,189 --> 00:07:15,780

Electro week interactions and unified

137

00:07:23,029 --> 00:07:19,199

theories conference in Italy

138

00:07:24,710 --> 00:07:23,039

all right now Ludwig

139

00:07:27,589 --> 00:07:24,720

yeah

140

00:07:31,029 --> 00:07:27,599

Ludwig van Beethoven

141

00:07:35,450 --> 00:07:31,039

died on March 27

142

00:07:38,210 --> 00:07:35,460

1827. it was his wish that his ailments

143

00:07:41,390 --> 00:07:38,220

be studied and shared so then I'm

144

00:07:43,629 --> 00:07:41,400

quoting Ludwig quote as far as possible

145

00:07:47,390 --> 00:07:43,639

and at least the world will be

146

00:07:49,930 --> 00:07:47,400

reconciled to me after my death end

147

00:07:52,129 --> 00:07:49,940

quote that was from Ludwig now

148

00:07:53,930 --> 00:07:52,139

researchers have taken steps to

149

00:07:57,290 --> 00:07:53,940

partially honor that request by

150

00:07:59,390 --> 00:07:57,300

analyzing Beethoven's DNA all of this

151
00:08:02,629 --> 00:07:59,400
from preserved locks of his hair and

152
00:08:04,790 --> 00:08:02,639
sequencing the composer's genome all of

153
00:08:06,589 --> 00:08:04,800
this for the first time a study

154
00:08:09,110 --> 00:08:06,599
detailing the findings published

155
00:08:12,890 --> 00:08:09,120
yesterday Wednesday in the journal

156
00:08:15,110 --> 00:08:12,900
current biology the five hair samples

157
00:08:19,249 --> 00:08:15,120
help scientists discover insights about

158
00:08:21,890 --> 00:08:19,259
family history chronic health and uh

159
00:08:25,369 --> 00:08:21,900
what might have actually contributed to

160
00:08:27,650 --> 00:08:25,379
his death at the age of 56. so what did

161
00:08:30,409 --> 00:08:27,660
they find out well

162
00:08:35,029 --> 00:08:30,419
they found evidence of an infection

163
00:08:37,990 --> 00:08:35,039

of hepatitis B they also found celiac

164

00:08:42,350 --> 00:08:38,000

disease and autoimmune condition

165

00:08:44,029 --> 00:08:42,360

lactose intolerance and irritable bowel

166

00:08:46,070 --> 00:08:44,039

syndrome

167

00:08:48,530 --> 00:08:46,080

that's right they should have just left

168

00:08:50,810 --> 00:08:48,540

things alone the hair that had excessive

169

00:08:55,310 --> 00:08:50,820

lead discovered years ago as it turns

170

00:08:58,670 --> 00:08:55,320

out didn't belong to him it wasn't his

171

00:09:02,389 --> 00:08:58,680

DNA so he didn't die from lead poisoning

172

00:09:06,829 --> 00:09:02,399

he just drank too much milk

173

00:09:10,850 --> 00:09:06,839

all right a 90 year old tortoise native

174

00:09:12,350 --> 00:09:10,860

to Madagascar the oldest animal at the

175

00:09:15,050 --> 00:09:12,360

Houston Zoo

176

00:09:17,389 --> 00:09:15,060

is now a first-time dad I'm going to

177

00:09:20,509 --> 00:09:17,399

leave you with this Mr Pickles

178

00:09:24,410 --> 00:09:20,519

moved to the Texas facility 36 years ago

179

00:09:28,310 --> 00:09:24,420

and partnered up with Mrs pickles 27

180

00:09:30,949 --> 00:09:28,320

years ago and uh now here's the deal the

181

00:09:34,389 --> 00:09:30,959

couple remained childless until recently

182

00:09:36,889 --> 00:09:34,399

when a worker noticed Mrs Pickle's eggs

183

00:09:41,269 --> 00:09:36,899

and quickly took them to the zoo's

184

00:09:43,670 --> 00:09:41,279

reptile and amphibian House Houston soil

185

00:09:45,410 --> 00:09:43,680

as it turns out is unsuitable for

186

00:09:47,050 --> 00:09:45,420

tortoise eggs so they had to remove them

187

00:09:51,110 --> 00:09:47,060

but now

188

00:09:55,509 --> 00:09:51,120

three eggs from the pickles pear have

189

00:09:59,269 --> 00:09:55,519

hatched the new tortoises named Dill

190

00:10:00,769 --> 00:09:59,279

gherkin and jalapeno will stay at the

191

00:10:03,530 --> 00:10:00,779

building until they are big enough to

192

00:10:07,610 --> 00:10:03,540

safely join their parents

193

00:10:09,410 --> 00:10:07,620

and that is amazing yeah

194

00:10:10,910 --> 00:10:09,420

and that's all the faded black breaking

195

00:10:15,170 --> 00:10:10,920

news that you need for this Wednesday

196

00:10:17,509 --> 00:10:15,180

March 22nd 2023 Theta black breaking

197

00:10:23,940 --> 00:10:17,519

news is produced by Renee Newman I'm
