PRESENTS

BREAKING NEWS

Thur Mar 23, 2023 **LIVE**

1
00:00:32,730 --> 00:00:22,760

[Music]

2
00:00:36,110 --> 00:00:32,740

thank you

3
00:00:42,130 --> 00:00:38,990

good afternoon Fade to Black breaking

4
00:00:45,410 --> 00:00:42,140

news for this Thursday March 23 2023

5
00:00:52,150 --> 00:00:45,420

this is all of the news that you need I

6
00:00:52,160 --> 00:00:57,410

on this day in history

7
00:01:01,729 --> 00:00:59,569

in an address to the nation president

8
00:01:04,729 --> 00:01:01,739

Ronald Reagan proposes a new

9
00:01:09,530 --> 00:01:04,739

anti-missile technology the Strategic

10
00:01:14,870 --> 00:01:09,540

Defense Initiative also known as

11
00:01:17,530 --> 00:01:14,880

Star Wars on this day in 1983 that's

12
00:01:20,929 --> 00:01:17,540

pretty incredible 40 years ago

13
00:01:23,630 --> 00:01:20,939

1983. here's your fader facts

14

00:01:25,730 --> 00:01:23,640

genocide

15

00:01:28,249 --> 00:01:25,740

Yoda

16

00:01:30,649 --> 00:01:28,259

Mrs Piggy

17

00:01:34,070 --> 00:01:30,659

and Cookie Monster

18

00:01:35,990 --> 00:01:34,080

we're all voiced by the same person

19

00:01:37,730 --> 00:01:36,000

Frank Oz

20

00:01:40,490 --> 00:01:37,740

that's right

21

00:01:42,350 --> 00:01:40,500

Star Wars The Muppet Show and Sesame

22

00:01:45,289 --> 00:01:42,360

Street

23

00:01:48,310 --> 00:01:45,299

are all connected all right let's get to

24

00:01:51,170 --> 00:01:48,320

your breaking news here we go I always

25

00:01:53,090 --> 00:01:51,180

seem to start off with a rest in peace

26
00:01:56,030 --> 00:01:53,100
at the beginning of the breaking news

27
00:01:58,010 --> 00:01:56,040
and today is no exception

28
00:02:00,950 --> 00:01:58,020
rest in peace

29
00:02:04,249 --> 00:02:00,960
Camaro

30
00:02:07,249 --> 00:02:04,259
General Motors announced yesterday that

31
00:02:10,010 --> 00:02:07,259
it is ending production of the Chevy

32
00:02:11,229 --> 00:02:10,020
Camaro leaving the Ford Mustang as the

33
00:02:13,729 --> 00:02:11,239
last

34
00:02:17,330 --> 00:02:13,739
gasoline-powered American performance

35
00:02:20,270 --> 00:02:17,340
coupe the current and last Model is the

36
00:02:22,190 --> 00:02:20,280
sixth version of the Camaro it is built

37
00:02:24,890 --> 00:02:22,200
at the Lansing Grand River assembly

38
00:02:29,930 --> 00:02:24,900

plant in Michigan which will stop

39

00:02:32,030 --> 00:02:29,940

building it in January of 2024. the new

40

00:02:35,630 --> 00:02:32,040

Mustang which will go on sale next

41

00:02:38,330 --> 00:02:35,640

summer will be purely gasoline powered

42

00:02:41,570 --> 00:02:38,340

not electric or hybrid this will Mark

43

00:02:43,550 --> 00:02:41,580

the seventh generation and the 58th

44

00:02:44,449 --> 00:02:43,560

continuous year of production for the

45

00:02:48,130 --> 00:02:44,459

Mustang

46

00:02:51,229 --> 00:02:48,140

rest in peace Camaro

47

00:02:54,710 --> 00:02:51,239

unreal all right let's get straight to

48

00:02:57,170 --> 00:02:54,720

it huge news today NASA's James Webb

49

00:03:00,550 --> 00:02:57,180

Space Telescope has proven just how

50

00:03:03,770 --> 00:03:00,560

powerful it is with its latest Discovery

51
00:03:06,009 --> 00:03:03,780
Sandstorm swirling on a planet 40 light

52
00:03:07,570 --> 00:03:06,019
years from Earth or about

53
00:03:11,330 --> 00:03:07,580
235

54
00:03:14,149 --> 00:03:11,340
trillion miles away one of Webb's

55
00:03:16,490 --> 00:03:14,159
greatest Powers is its ability to

56
00:03:19,790 --> 00:03:16,500
decipher what is going on on alien

57
00:03:22,250 --> 00:03:19,800
atmospheres from its vantage point in

58
00:03:24,890 --> 00:03:22,260
space Webb can peer at a distant world

59
00:03:26,750 --> 00:03:24,900
and analyze the entire infrared spectrum

60
00:03:28,610 --> 00:03:26,760
of Starlight passing through the

61
00:03:31,070 --> 00:03:28,620
planet's atmosphere

62
00:03:33,830 --> 00:03:31,080
different Spectra of light correspond to

63
00:03:36,649 --> 00:03:33,840

different elements of course so Webb can

64
00:03:39,789 --> 00:03:36,659
show astronomers exactly which gases and

65
00:03:44,509 --> 00:03:39,799
Vapors are in Another World's atmosphere

66
00:03:48,649 --> 00:03:44,519
in this case clouds on the planet VHF a

67
00:03:51,470 --> 00:03:48,659
one two five six B are comprised of very

68
00:03:55,910 --> 00:03:51,480
small silicate particles

69
00:03:59,930 --> 00:03:55,920
Webb also detected water methane carbon

70
00:04:01,970 --> 00:03:59,940
monoxide and carbon dioxide which is the

71
00:04:05,410 --> 00:04:01,980
largest number of molecules ever

72
00:04:08,809 --> 00:04:05,420
identified all at once on a planet

73
00:04:12,910 --> 00:04:08,819
outside of our solar system

74
00:04:16,210 --> 00:04:12,920
and that's a very very big deal

75
00:04:19,370 --> 00:04:16,220
relativity space that new company

76

00:04:22,129 --> 00:04:19,380

launched the world's first 3D printed

77

00:04:23,870 --> 00:04:22,139

rocket towards space yesterday vaulting

78

00:04:27,430 --> 00:04:23,880

it into the upper reaches of the

79

00:04:31,850 --> 00:04:27,440

atmosphere but it failed to reach orbit

80

00:04:33,590 --> 00:04:31,860

Tehran won uh 110 foot tall vehicle

81

00:04:35,930 --> 00:04:33,600

designed to haul lightweight satellites

82

00:04:37,550 --> 00:04:35,940

into space lifted off from Cape

83

00:04:39,650 --> 00:04:37,560

Canaveral space four station on

84

00:04:43,490 --> 00:04:39,660

Florida's eastern coast at just before

85

00:04:45,710 --> 00:04:43,500

11 30 p.m eastern time the rocket

86

00:04:48,890 --> 00:04:45,720

powered by super chilled methane and

87

00:04:51,950 --> 00:04:48,900

oxygen burned a bright blue green

88

00:04:54,710 --> 00:04:51,960

against the night sky after the first

89

00:04:56,629 --> 00:04:54,720

stage of the rocket expended its fuel it

90

00:05:00,050 --> 00:04:56,639

detached from the Rocket's upper stage

91

00:05:03,469 --> 00:05:00,060

but the second stage engine appeared to

92

00:05:06,050 --> 00:05:03,479

ignite only briefly leaving the rocket

93

00:05:08,870 --> 00:05:06,060

without enough power to reach orbit

94

00:05:10,189 --> 00:05:08,880

still a big deal though and the payload

95

00:05:14,330 --> 00:05:10,199

on this one

96

00:05:16,850 --> 00:05:14,340

was a 3D printed lump of metal

97

00:05:19,730 --> 00:05:16,860

to simulate a satellite so there was no

98

00:05:23,510 --> 00:05:19,740

satellite on board of this particular

99

00:05:26,210 --> 00:05:23,520

launch and the next launch has not been

100

00:05:28,610 --> 00:05:26,220

announced yet but I'll keep you posted

101

00:05:32,029 --> 00:05:28,620

it's pretty exciting technology just

102

00:05:34,150 --> 00:05:32,039

like this scientists in Australia have

103

00:05:38,150 --> 00:05:34,160

Unearthed

104

00:05:40,790 --> 00:05:38,160

3.48 billion year old rock fragments

105

00:05:43,730 --> 00:05:40,800

that may be the earliest evidence of a

106

00:05:46,790 --> 00:05:43,740

meteorite crashing into Earth the

107

00:05:49,249 --> 00:05:46,800

fragments known as sphere rules

108

00:05:51,830 --> 00:05:49,259

sphericals

109

00:05:54,110 --> 00:05:51,840

may have formed when the meteor slammed

110

00:05:56,930 --> 00:05:54,120

into the ground spraying melted rock up

111

00:05:59,150 --> 00:05:56,940

into the air this melted rock then

112

00:06:02,749 --> 00:05:59,160

cooled and hardened into little tiny

113

00:06:06,529 --> 00:06:02,759

Pinhead sized beads that become buried

114

00:06:08,870 --> 00:06:06,539

over the eons now researchers presented

115

00:06:10,969 --> 00:06:08,880

this Discovery at the 54th lunar

116

00:06:14,029 --> 00:06:10,979

planetary science conference in Texas

117

00:06:16,850 --> 00:06:14,039

last week in a submarine of their

118

00:06:20,450 --> 00:06:16,860

results the scientists concluded that

119

00:06:22,370 --> 00:06:20,460

the spherules which they drilled up from

120

00:06:25,370 --> 00:06:22,380

a group of volcanic and sedimentary

121

00:06:27,650 --> 00:06:25,380

rocks called the dresser formation of

122

00:06:30,590 --> 00:06:27,660

the pill Bara Creighton in Western

123

00:06:33,590 --> 00:06:30,600

Australia are the oldest evidence of a

124

00:06:37,010 --> 00:06:33,600

potential Cosmic impact in the geologic

125

00:06:38,830 --> 00:06:37,020

record of Earth that's a very big deal

126
00:06:42,770 --> 00:06:38,840
too as well now

127
00:06:49,610 --> 00:06:44,529
here you go

128
00:06:51,650 --> 00:06:49,620
Panera Bread franchises in Missouri are

129
00:06:56,210 --> 00:06:51,660
letting their customers know they can

130
00:06:58,490 --> 00:06:56,220
throw their Palm into a kiosk to pay for

131
00:07:01,850 --> 00:06:58,500
their meal that's right using Amazon's

132
00:07:05,210 --> 00:07:01,860
palm reading payment technology

133
00:07:07,670 --> 00:07:05,220
yesterday Panera Bread announced it was

134
00:07:10,550 --> 00:07:07,680
deploying the Amazon one Palm payment

135
00:07:12,529 --> 00:07:10,560
system to two of its shops in the

136
00:07:14,990 --> 00:07:12,539
company's hometown of Saint Louis

137
00:07:17,749 --> 00:07:15,000
Missouri the company said it plans to

138
00:07:20,089 --> 00:07:17,759

add even more of its restaurant uh add

139

00:07:22,909 --> 00:07:20,099

added to more of its restaurants in the

140

00:07:26,570 --> 00:07:22,919

coming months first time Amazon won

141

00:07:29,390 --> 00:07:26,580

users can pre-enroll online or sign up

142

00:07:30,490 --> 00:07:29,400

while placing their order and their

143

00:07:32,809 --> 00:07:30,500

palms

144

00:07:35,809 --> 00:07:32,819

customers have to link their Panera

145

00:07:38,089 --> 00:07:35,819

account to their Amazon one profile in

146

00:07:42,050 --> 00:07:38,099

order to make use of the biometric

147

00:07:45,350 --> 00:07:42,060

scanners and Amazon says it's keeping

148

00:07:46,969 --> 00:07:45,360

customers biometric data secure and

149

00:07:49,610 --> 00:07:46,979

encrypted

150

00:07:51,350 --> 00:07:49,620

what could go wrong

151

00:07:56,990 --> 00:07:51,360

probably nothing

152

00:08:03,230 --> 00:07:59,689

today I'm going to leave you with this

153

00:08:08,570 --> 00:08:03,240

the Rio Bravo Brewing Company of New

154

00:08:11,930 --> 00:08:08,580

Mexico is launching a new pale ale now I

155

00:08:14,089 --> 00:08:11,940

don't normally announce a new beer all

156

00:08:17,629 --> 00:08:14,099

right there's probably dozens every

157

00:08:19,969 --> 00:08:17,639

single day but but Rio Bravo's new ale

158

00:08:24,010 --> 00:08:19,979

recipe is special

159

00:08:26,450 --> 00:08:24,020

because it was created by

160

00:08:30,170 --> 00:08:26,460

artificial intelligence

161

00:08:34,070 --> 00:08:30,180

that's right it's a completely AI

162

00:08:36,589 --> 00:08:34,080

generated recipe unique to Rio Bravo and

163

00:08:40,909 --> 00:08:36,599

the tools that they use

164

00:08:45,230 --> 00:08:40,919

artificial intelligence has also named

165

00:08:45,240 --> 00:08:49,130

algorithm

166

00:08:53,570 --> 00:08:50,930

I wonder if it'll be ready in time for

167

00:08:56,269 --> 00:08:53,580

the 2023 World of Beer cup competition

168

00:08:58,430 --> 00:08:56,279

in Nashville right Nashville Tennessee

169

00:09:01,730 --> 00:08:58,440

think about that for a second now now

170

00:09:04,970 --> 00:09:01,740

how would you feel what if it won

171

00:09:08,630 --> 00:09:04,980

the beer competition you know age old

172

00:09:10,970 --> 00:09:08,640

techniques and recipes and and you know

173

00:09:15,110 --> 00:09:10,980

the process of Brewing

174

00:09:18,250 --> 00:09:15,120

you know the pride the families involved

175

00:09:21,769 --> 00:09:18,260

the history secret recipes

176

00:09:24,590 --> 00:09:21,779

handed down pass through wills and

177

00:09:26,810 --> 00:09:24,600

everything else right and then to find

178

00:09:31,250 --> 00:09:26,820

out

179

00:09:36,530 --> 00:09:31,260

that an AI beer one it's it's like it's

180

00:09:40,449 --> 00:09:36,540

like this so you you know okay

181

00:09:42,829 --> 00:09:40,459

so uh you just bid 10 million dollars

182

00:09:45,410 --> 00:09:42,839

on this painting

183

00:09:48,230 --> 00:09:45,420

how do you feel about it

184

00:09:51,290 --> 00:09:48,240

well well it it it's connected to me

185

00:09:53,810 --> 00:09:51,300

emotionally it's just beautiful and it's

186

00:09:56,930 --> 00:09:53,820

certainly worth worth 10 million dollars

187

00:09:58,670 --> 00:09:56,940

it's it's Priceless to me well what if I

188

00:10:00,889 --> 00:09:58,680

told you that

189

00:10:04,009 --> 00:10:00,899

nobody painted that that that was

190

00:10:06,470 --> 00:10:04,019

created by artificial intelligence

191

00:10:08,750 --> 00:10:06,480

what

192

00:10:10,430 --> 00:10:08,760

somebody with 10 million dollars to blow

193

00:10:12,590 --> 00:10:10,440

on a painting is probably going to say

194

00:10:15,050 --> 00:10:12,600

something like

195

00:10:17,690 --> 00:10:15,060

you know well you know it doesn't matter

196

00:10:20,990 --> 00:10:17,700

right it it doesn't matter it's just

197

00:10:23,449 --> 00:10:21,000

money and it still inspires me it

198

00:10:24,650 --> 00:10:23,459

doesn't change the painting

199

00:10:29,210 --> 00:10:24,660

yeah

200

00:10:31,610 --> 00:10:29,220

spend uh you know twenty dollars on a

201

00:10:33,790 --> 00:10:31,620

six pack of beer and find out later the

202

00:10:37,310 --> 00:10:33,800

recipe was

203

00:10:39,829 --> 00:10:37,320

artificial intelligence all right there

204

00:10:44,329 --> 00:10:39,839

you go there's all the news that you

205

00:10:46,790 --> 00:10:44,339

need for this Thursday March 23 2023

206

00:10:50,449 --> 00:10:46,800

I'm Jimmy Church Fade to Black breaking

207

00:10:54,800 --> 00:10:50,459

news is produced by Renee Newman
