00:00:30,370 --> 00:00:20,400
[Music]

2
00:00:33,950 --> 00:00:30,380
thank you

3
00:00:39,670 --> 00:00:36,709
good afternoon Fade to Black breaking

4
00:00:42,650 --> 00:00:39,680
news for this Monday March 27

5
00:00:47,470 --> 00:00:42,660
2023. this is all of the news that you

6
00:00:47,480 --> 00:00:52,930
River Moon coffee on this day in history

7
00:00:58,250 --> 00:00:54,490
1973

8
00:01:01,310 --> 00:00:58,260
Marlin Brando declines the Academy Award

9
00:01:04,250 --> 00:01:01,320
for best actor for his career Reviving

10
00:01:07,730 --> 00:01:04,260
performance in The Godfather the actress

11
00:01:10,429 --> 00:01:07,740
and activist assassin littlefeather

12
00:01:13,250 --> 00:01:10,439
attended the ceremony in Brando's Place

13
00:01:15,830 --> 00:01:13,260

stating that the actor was very

14

00:01:18,469 --> 00:01:15,840

regretfully could not accept the award

15

00:01:22,670 --> 00:01:18,479

as he was protesting Hollywood's

16

00:01:24,550 --> 00:01:22,680

portrayal of Native Americans in film on

17

00:01:27,170 --> 00:01:24,560

this day in

18

00:01:28,730 --> 00:01:27,180

1973. here's your fader fact today

19

00:01:31,730 --> 00:01:28,740

genocide

20

00:01:35,510 --> 00:01:31,740

fully vetted

21

00:01:36,830 --> 00:01:35,520

there is enough chlorine in your body to

22

00:01:39,289 --> 00:01:36,840

disinfect

23

00:01:42,770 --> 00:01:39,299

five swimming pools

24

00:01:47,330 --> 00:01:42,780

that's right our bodies chlorine levels

25

00:01:49,429 --> 00:01:47,340

are always parallel to our levels of

26

00:01:51,109 --> 00:01:49,439

sodium

27

00:01:53,210 --> 00:01:51,119

and that

28

00:01:55,910 --> 00:01:53,220

is your fader fact here's your breaking

29

00:01:58,370 --> 00:01:55,920

news lots of news today

30

00:02:01,249 --> 00:01:58,380

tonight yes tonight

31

00:02:04,910 --> 00:02:01,259

a planetary parade made up of mercury

32

00:02:08,270 --> 00:02:04,920

Jupiter Venus Mars and Uranus will march

33

00:02:12,589 --> 00:02:08,280

across the sky right below the moon at

34

00:02:15,050 --> 00:02:12,599

Sunset just face Westward that's all you

35

00:02:18,350 --> 00:02:15,060

got to do and you can check it out also

36

00:02:21,070 --> 00:02:18,360

every year amateur astronomers are

37

00:02:24,470 --> 00:02:21,080

participating in the Messier Marathon

38

00:02:27,290 --> 00:02:24,480

originally conceived by the late comet

39

00:02:29,510 --> 00:02:27,300

hunter Don Michaels it takes place

40

00:02:32,390 --> 00:02:29,520

around the time of the new moon and

41

00:02:36,770 --> 00:02:32,400

within a week or so the vernal equinox

42

00:02:40,010 --> 00:02:36,780

it is during this time that all 110 of

43

00:02:42,050 --> 00:02:40,020

the various deep Sky objects cataloged

44

00:02:45,710 --> 00:02:42,060

by the French astronomer Charles Messier

45

00:02:47,630 --> 00:02:45,720

come into view those with telescopes and

46

00:02:50,809 --> 00:02:47,640

a good knowledge of the sky will stay up

47

00:02:53,809 --> 00:02:50,819

From Dusk Till Dawn looking for and

48

00:02:56,630 --> 00:02:53,819

logging as many as messier objects as

49

00:02:59,570 --> 00:02:56,640

they can sometimes they even organize

50

00:03:02,210 --> 00:02:59,580

marathons such as the recent

51
00:03:04,430 --> 00:03:02,220
International Star party in Flagstaff

52
00:03:08,990 --> 00:03:04,440
Arizona

53
00:03:11,570 --> 00:03:09,000
five planets tonight at Sunset go

54
00:03:14,449 --> 00:03:11,580
outside and look West it's absolutely

55
00:03:17,449 --> 00:03:14,459
amazing all right

56
00:03:20,030 --> 00:03:17,459
now I've been talking about Trappist one

57
00:03:23,030 --> 00:03:20,040
quite a bit and now

58
00:03:25,970 --> 00:03:23,040
new measurements by the James Webb Space

59
00:03:30,410 --> 00:03:25,980
Telescope found that a rocky exoplanet

60
00:03:34,790 --> 00:03:30,420
orbiting trappist-1 most likely has no

61
00:03:37,309 --> 00:03:34,800
atmosphere but don't despair no there

62
00:03:39,830 --> 00:03:37,319
are six more Earth-like exoplanets in

63
00:03:42,229 --> 00:03:39,840

the trappist-1 star system and now that

64

00:03:44,570 --> 00:03:42,239

the web has proven its ability to study

65

00:03:47,330 --> 00:03:44,580

them we can hope for some more exciting

66

00:03:49,670 --> 00:03:47,340

news in the not so distant future if you

67

00:03:52,729 --> 00:03:49,680

know what I mean astronomers use the

68

00:03:55,789 --> 00:03:52,739

James Webb Space telescopes mid infrared

69

00:03:57,949 --> 00:03:55,799

instrument otherwise known as Mary to

70

00:04:01,729 --> 00:03:57,959

measure the temperature of the planet a

71

00:04:03,890 --> 00:04:01,739

Trappist 1B out of the seven planets

72

00:04:06,830 --> 00:04:03,900

that make up Trappist one this planet

73

00:04:11,750 --> 00:04:06,840

orbits the closest to the parent star

74

00:04:14,270 --> 00:04:11,760

and is about 1.4 times as large as Earth

75

00:04:17,090 --> 00:04:14,280

Planet number four Planet number D

76

00:04:20,569 --> 00:04:17,100

that's where the magic is and I will

77

00:04:21,770 --> 00:04:20,579

keep you posted now tardigrades are

78

00:04:25,330 --> 00:04:21,780

buddies

79

00:04:28,189 --> 00:04:25,340

right tardigrades those darling nearly

80

00:04:30,830 --> 00:04:28,199

microscopic Critters that are really

81

00:04:34,189 --> 00:04:30,840

cute and have eight legs they're nearly

82

00:04:36,469 --> 00:04:34,199

indestructible they carry proteins that

83

00:04:39,430 --> 00:04:36,479

could keep critical drugs and Medical

84

00:04:42,890 --> 00:04:39,440

Treatments stable without Refrigeration

85

00:04:45,770 --> 00:04:42,900

now scientists stay in a new study that

86

00:04:49,189 --> 00:04:45,780

was published last Monday in the journal

87

00:04:52,490 --> 00:04:49,199

scientific reports they tested this idea

88

00:04:55,070 --> 00:04:52,500

with human blood clotting factor eight a

89

00:04:58,189 --> 00:04:55,080

protein used to treat an inherited

90

00:05:02,409 --> 00:04:58,199

bleeding disorder called hemophilia a

91

00:05:05,689 --> 00:05:02,419

now many factor eight products require

92

00:05:07,310 --> 00:05:05,699

refrigeration and those that don't can

93

00:05:09,590 --> 00:05:07,320

typically be kept at room temperature

94

00:05:12,430 --> 00:05:09,600

only for a limited amount of time and

95

00:05:15,350 --> 00:05:12,440

within a narrow temperature range

96

00:05:18,370 --> 00:05:15,360

tardigrades can withstand temperatures

97

00:05:23,150 --> 00:05:18,380

as low as minus

98

00:05:24,710 --> 00:05:23,160

328 degrees Fahrenheit and is hot as

99

00:05:27,050 --> 00:05:24,720

300.

100

00:05:29,990 --> 00:05:27,060

the team used the sugars and proteins

101
00:05:32,510 --> 00:05:30,000
that the tardigrades used to survive and

102
00:05:35,469 --> 00:05:32,520
stored factor eight drugs without

103
00:05:38,870 --> 00:05:35,479
refrigeration and under unfavorable

104
00:05:42,050 --> 00:05:38,880
conditions such as repeated dehydration

105
00:05:46,129 --> 00:05:42,060
and rehydration extreme heat and

106
00:05:48,950 --> 00:05:46,139
long-term dry storage both compounds

107
00:05:50,870 --> 00:05:48,960
worked this approach could potentially

108
00:05:52,450 --> 00:05:50,880
be used for other medicines that

109
00:05:54,710 --> 00:05:52,460
currently require

110
00:05:59,749 --> 00:05:54,720
refrigeration and that is big news

111
00:06:02,090 --> 00:05:59,759
tardigrades given it up all right

112
00:06:05,749 --> 00:06:02,100
Spring Breakers

113
00:06:07,370 --> 00:06:05,759

on the beaches of North Carolina's Outer

114

00:06:10,129 --> 00:06:07,380

Banks

115

00:06:12,350 --> 00:06:10,139

might be joined by a great white shark

116

00:06:15,050 --> 00:06:12,360

named Breton

117

00:06:18,050 --> 00:06:15,060

Breton is one of dozens of sharks being

118

00:06:19,909 --> 00:06:18,060

tracked by o search a non-profit marine

119

00:06:23,629 --> 00:06:19,919

research Group which provides open

120

00:06:27,050 --> 00:06:23,639

source data about shark migration over

121

00:06:29,930 --> 00:06:27,060

the weekend breton's tracker pinged it

122

00:06:32,689 --> 00:06:29,940

near the Obama go sound on North

123

00:06:37,010 --> 00:06:32,699

Carolina's Outer Banks the adult male

124

00:06:40,610 --> 00:06:37,020

shark is about 13 feet long and weighs

125

00:06:43,510 --> 00:06:40,620

about 1500 pounds oh search first

126

00:06:47,450 --> 00:06:43,520

tracked Breton near Nova Scotia in

127

00:06:49,610 --> 00:06:47,460

September of 2020 and they they tagged

128

00:06:51,830 --> 00:06:49,620

him with an electronic tracker which

129

00:06:54,590 --> 00:06:51,840

pings whenever he breaks the water

130

00:06:56,870 --> 00:06:54,600

surface like other great whites in the

131

00:06:59,090 --> 00:06:56,880

Atlantic he seems to be currently making

132

00:07:01,749 --> 00:06:59,100

his yearly migration from the Florida

133

00:07:06,050 --> 00:07:01,759

Keys northward to Canada

134

00:07:08,330 --> 00:07:06,060

and he has company several other great

135

00:07:11,150 --> 00:07:08,340

white sharks being tracked by osurge

136

00:07:12,710 --> 00:07:11,160

have also reached the North Carolina

137

00:07:16,249 --> 00:07:12,720

coast

138

00:07:18,890 --> 00:07:16,259

yeah man I was going to wear my Jaws

139

00:07:22,189 --> 00:07:18,900

shirt today or did no I didn't Back to

140

00:07:24,770 --> 00:07:22,199

the Future should have worn Jaws Elon

141

00:07:27,290 --> 00:07:24,780

Musk and William Shatner clashed on

142

00:07:29,570 --> 00:07:27,300

Twitter over the weekend after Captain

143

00:07:31,969 --> 00:07:29,580

Kirk complained about being forced to

144

00:07:32,990 --> 00:07:31,979

pay to keep his blue check mark on the

145

00:07:36,589 --> 00:07:33,000

platform

146

00:07:39,350 --> 00:07:36,599

Captain Kirk is pissed in a tweet on

147

00:07:41,210 --> 00:07:39,360

Saturday Shatner expressed frustration

148

00:07:42,890 --> 00:07:41,220

when Twitter's plan to remove Blue Chip

149

00:07:45,469 --> 00:07:42,900

marks from the accounts of celebrities

150

00:07:49,010 --> 00:07:45,479

journalists government officials and

151

00:07:52,430 --> 00:07:49,020

other highly profiled individuals who

152

00:07:54,650 --> 00:07:52,440

don't pay eighty four dollars a year or

153

00:07:57,589 --> 00:07:54,660

about eight bucks a month that's right

154

00:07:58,969 --> 00:07:57,599

all for the subscription service Twitter

155

00:08:01,490 --> 00:07:58,979

blue

156

00:08:02,629 --> 00:08:01,500

so Shatner said and I'm quoting here

157

00:08:06,469 --> 00:08:02,639

quote

158

00:08:09,170 --> 00:08:06,479

hey Elon what's this about blue checks

159

00:08:11,029 --> 00:08:09,180

going away unless we pay Twitter

160

00:08:13,189 --> 00:08:11,039

well that was the Tweet then he followed

161

00:08:18,409 --> 00:08:13,199

up with I've been here for 15 years

162

00:08:22,249 --> 00:08:18,419

giving my you know thoughts on on all

163

00:08:23,930 --> 00:08:22,259

things for bup kiss for free and now

164

00:08:27,770 --> 00:08:23,940

you're telling me that I have to pay for

165

00:08:31,909 --> 00:08:27,780

something you gave to me before well

166

00:08:34,250 --> 00:08:31,919

Elon replied that's right came back on

167

00:08:37,490 --> 00:08:34,260

Twitter yesterday with quote it's more

168

00:08:39,529 --> 00:08:37,500

about tweeting everyone equally there

169

00:08:41,690 --> 00:08:39,539

should be a different standard for

170

00:08:43,550 --> 00:08:41,700

celebrities end quote

171

00:08:44,389 --> 00:08:43,560

I don't think Elon thought this one

172

00:08:45,889 --> 00:08:44,399

through

173

00:08:48,410 --> 00:08:45,899

seriously

174

00:08:50,690 --> 00:08:48,420

yeah right still not resolved and it

175

00:08:53,269 --> 00:08:50,700

looks like Twitter that's it and and

176

00:08:55,610 --> 00:08:53,279

they starting April 1st and I don't

177

00:08:57,889 --> 00:08:55,620

think this is an April Fool's joke

178

00:09:00,050 --> 00:08:57,899

that's it everybody that's got a blue

179

00:09:03,050 --> 00:09:00,060

check mark That's not paying for it is

180

00:09:05,329 --> 00:09:03,060

going to lose it

181

00:09:06,850 --> 00:09:05,339

there you go all right and finally I'm

182

00:09:10,370 --> 00:09:06,860

Gonna Leave You with this

183

00:09:11,990 --> 00:09:10,380

Ralphie the French Bulldog who made

184

00:09:13,670 --> 00:09:12,000

headlines after a New York animal

185

00:09:15,590 --> 00:09:13,680

shelter described him as a

186

00:09:19,070 --> 00:09:15,600

fire-breathing demon

187

00:09:22,190 --> 00:09:19,080

and was adopted three times and returned

188

00:09:25,130 --> 00:09:22,200

back to the shelter has finally been

189

00:09:28,790 --> 00:09:25,140

adopted for the fourth time
