

FADE TO BLACK

with JIMMY CHURCH

PRESENTS

MARK FIORENTINO

BOOK: 'MASTER OF REALITY'

WED APRIL 05 LIVE

700-900PM PT

1
00:00:10,679 --> 00:00:14,460
foreign

2
00:00:14,470 --> 00:00:31,870
[Music]

3
00:00:36,709 --> 00:00:34,549
Air Forces has announced that a flying

4
00:00:42,310 --> 00:00:36,719
disc has been found and is now in the

5
00:00:49,670 --> 00:00:46,069
I occasionally think how quickly hard

6
00:00:52,130 --> 00:00:49,680
difference is worldwide would vanish if

7
00:00:53,480 --> 00:00:52,140
we were facing an alien threat from

8
00:00:55,280 --> 00:00:53,490
outside this work

9
00:00:55,470 --> 00:00:55,290
[Music]

10
00:00:57,790 --> 00:00:55,480
[Applause]

00:01:00,770 --> 00:00:57,800
[Music]

12
00:01:03,590 --> 00:01:00,780
this is Fade to Black with your host

13
00:01:04,240 --> 00:01:03,600

Jimmy Church on the game changer Radio

14

00:01:08,350 --> 00:01:04,250

Network

15

00:01:11,690 --> 00:01:08,360

[Music]

16

00:01:15,109 --> 00:01:11,700

good evening Fade to Black

17

00:01:18,370 --> 00:01:15,119

how you doing today's Wednesday April

18

00:01:22,969 --> 00:01:18,380

5th 2023 I'm Jimmy church and tonight

19

00:01:24,770 --> 00:01:22,979

Our Guest is Mark fiorentino and his

20

00:01:26,630 --> 00:01:24,780

book master of reality we're going to be

21

00:01:28,870 --> 00:01:26,640

talking about all of that tonight it's

22

00:01:32,090 --> 00:01:28,880

going to be science physics little

23

00:01:34,270 --> 00:01:32,100

spirituality little Consciousness all of

24

00:01:35,870 --> 00:01:34,280

my favorite things

25

00:01:38,510 --> 00:01:35,880

Maybe

26
00:01:41,630 --> 00:01:38,520
even some Stargates yeah we're gonna get

27
00:01:43,870 --> 00:01:41,640
into all of that tonight he's a

28
00:01:45,850 --> 00:01:43,880
self-taught metaphysician a

29
00:01:48,350 --> 00:01:45,860
metaphysician

30
00:01:50,149 --> 00:01:48,360
who has worked in the field of the

31
00:01:52,190 --> 00:01:50,159
high-tech industry worked as an

32
00:01:54,889 --> 00:01:52,200
electronic technician at Harris

33
00:01:56,690 --> 00:01:54,899
government systems worked on a killer

34
00:02:00,410 --> 00:01:56,700
satellite missile guidance system and

35
00:02:03,350 --> 00:02:00,420
then at IBM as a computer programmer

36
00:02:07,550 --> 00:02:03,360
after that well

37
00:02:10,550 --> 00:02:07,560
it's been nearly a lifetime of research

38
00:02:14,690 --> 00:02:10,560

into Albert Einstein the unified field

39

00:02:16,729 --> 00:02:14,700

Theory and how to

40

00:02:19,610 --> 00:02:16,739

how to figure out and think outside the

41

00:02:21,170 --> 00:02:19,620

box of not only our universe but

42

00:02:24,830 --> 00:02:21,180

everything else when it comes to

43

00:02:28,309 --> 00:02:24,840

creation and maybe even moving around

44

00:02:31,190 --> 00:02:28,319

this big place and his websites are

45

00:02:34,430 --> 00:02:31,200

linked below they are also throughout

46

00:02:35,809 --> 00:02:34,440

social media and over on our website and

47

00:02:38,809 --> 00:02:35,819

I would like to welcome for the first

48

00:02:40,970 --> 00:02:38,819

time to fade to black Mark fiorentino

49

00:02:43,369 --> 00:02:40,980

Mark good evening young man how you

50

00:02:45,589 --> 00:02:43,379

doing fine thank you how you doing Jimmy

51
00:02:48,350 --> 00:02:45,599
it's uh great to finally have you here

52
00:02:51,470 --> 00:02:48,360
man yeah it's going to be fun yeah it's

53
00:02:54,350 --> 00:02:51,480
gonna be great and uh now before we get

54
00:02:56,809 --> 00:02:54,360
started you get the First Time guest

55
00:02:58,550 --> 00:02:56,819
disclaimer so let's get that out of the

56
00:03:00,290 --> 00:02:58,560
way Mark it's just you and I sitting on

57
00:03:02,210 --> 00:03:00,300
my couch having a conversation as

58
00:03:04,130 --> 00:03:02,220
friends and where that conversation

59
00:03:06,290 --> 00:03:04,140
starts it starts where it ends it ends

60
00:03:09,589 --> 00:03:06,300
but we're gonna end his friends there

61
00:03:11,390 --> 00:03:09,599
you go you excited excellent yes I am

62
00:03:14,630 --> 00:03:11,400
yeah and

63
00:03:16,850 --> 00:03:14,640

um the um the idea is that we're going

64

00:03:19,970 --> 00:03:16,860

going to be talking about tonight

65

00:03:24,350 --> 00:03:19,980

um I I do my best I'm going to make this

66

00:03:27,229 --> 00:03:24,360

very short I do my best to to have these

67

00:03:30,470 --> 00:03:27,239

conversations uh for not only the

68

00:03:34,550 --> 00:03:30,480

audience but for the world this is the

69

00:03:38,390 --> 00:03:34,560

stuff that I have been chasing and you

70

00:03:40,729 --> 00:03:38,400

know my life of research uh into UFOs

71

00:03:43,430 --> 00:03:40,739

and Consciousness and Bigfoot life after

72

00:03:45,110 --> 00:03:43,440

death multiple Dimensions whatever it

73

00:03:47,990 --> 00:03:45,120

may be

74

00:03:51,890 --> 00:03:48,000

um has always come from a different

75

00:03:55,850 --> 00:03:51,900

place my personal place and then it has

76

00:03:59,210 --> 00:03:55,860

constantly led me back to science and

77

00:04:01,430 --> 00:03:59,220

that's what I need and I think that the

78

00:04:03,949 --> 00:04:01,440

world needs that too as well so we can

79

00:04:07,550 --> 00:04:03,959

get the confirmations of this but

80

00:04:09,649 --> 00:04:07,560

science has been fighting it right it's

81

00:04:11,690 --> 00:04:09,659

been fighting it there's a line in the

82

00:04:14,630 --> 00:04:11,700

sand that is drawn

83

00:04:16,310 --> 00:04:14,640

um but uh it's getting closer and closer

84

00:04:19,670 --> 00:04:16,320

and we're going to meet in the middle

85

00:04:22,670 --> 00:04:19,680

here eventually uh fairly soon now when

86

00:04:25,730 --> 00:04:22,680

I say something like that

87

00:04:29,110 --> 00:04:25,740

um do you feel the same way that uh the

88

00:04:32,930 --> 00:04:29,120

physicist of the world traditionally

89

00:04:35,870 --> 00:04:32,940

over the last hundred years are fighting

90

00:04:37,249 --> 00:04:35,880

that move closer to Consciousness and

91

00:04:41,390 --> 00:04:37,259

spirituality

92

00:04:43,670 --> 00:04:41,400

yeah uh it's a it's a tragic occurrence

93

00:04:45,590 --> 00:04:43,680

that scientists can be blinded by their

94

00:04:48,830 --> 00:04:45,600

own presuppositions

95

00:04:50,890 --> 00:04:48,840

and that's kind of what we have going on

96

00:04:53,870 --> 00:04:50,900

here they have their own

97

00:04:55,969 --> 00:04:53,880

preconceived ideas based on what they

98

00:04:57,770 --> 00:04:55,979

were trained in in college and their

99

00:05:00,950 --> 00:04:57,780

philosophy and everything

100

00:05:03,290 --> 00:05:00,960

that is very locked in and conservative

101
00:05:05,330 --> 00:05:03,300
I would actually call it kind of old

102
00:05:14,030 --> 00:05:05,340
school

103
00:05:15,890 --> 00:05:14,040
anti-religion and anti-spiritualism not

104
00:05:18,409 --> 00:05:15,900
all the scientists but

105
00:05:21,110 --> 00:05:18,419
the mainstream guys the big guys they

106
00:05:25,550 --> 00:05:21,120
don't want to go out on a limb no they

107
00:05:27,610 --> 00:05:25,560
don't and and here's and here's the I'm

108
00:05:31,790 --> 00:05:27,620
going to use the word conundrum right

109
00:05:34,070 --> 00:05:31,800
it's almost a paradox in in that for

110
00:05:36,610 --> 00:05:34,080
thousands of years

111
00:05:40,430 --> 00:05:36,620
scientists were philosophers right

112
00:05:43,490 --> 00:05:40,440
scientists and religious scientists were

113
00:05:46,790 --> 00:05:43,500

full religious philosophers right and

114

00:05:49,870 --> 00:05:46,800

and that all the way up to Isaac Newton

115

00:05:53,810 --> 00:05:49,880

Isaac Newton dipped his toes into

116

00:05:57,050 --> 00:05:53,820

everything and and then the last uh yeah

117

00:05:59,450 --> 00:05:57,060

yeah in the last 200 years

118

00:06:01,010 --> 00:05:59,460

um everything is just separated uh

119

00:06:02,689 --> 00:06:01,020

itself why do you why do you think that

120

00:06:04,790 --> 00:06:02,699

separation happened

121

00:06:07,129 --> 00:06:04,800

yeah I've given that a lot of thought

122

00:06:10,129 --> 00:06:07,139

and you know I'm constantly asking

123

00:06:12,650 --> 00:06:10,139

myself how did this come about where

124

00:06:15,650 --> 00:06:12,660

because Einstein really wasn't that way

125

00:06:17,950 --> 00:06:15,660

I mean he believed in a God he believed

126
00:06:20,810 --> 00:06:17,960
in a non-personal God but

127
00:06:23,210 --> 00:06:20,820
nonetheless he definitely thought there

128
00:06:27,350 --> 00:06:23,220
was a God and and a lot of the other

129
00:06:31,010 --> 00:06:27,360
physicists in his time the 1890s 1900s

130
00:06:34,150 --> 00:06:31,020
early 1900s were on board but when

131
00:06:36,830 --> 00:06:34,160
quantum mechanics came in

132
00:06:39,529 --> 00:06:36,840
determinism and all these other kinds of

133
00:06:41,390 --> 00:06:39,539
things like that all started to go out

134
00:06:45,529 --> 00:06:41,400
and the more

135
00:06:47,749 --> 00:06:45,539
that got in in in popularity the more

136
00:06:51,590 --> 00:06:47,759
they got disconnected where science has

137
00:06:53,390 --> 00:06:51,600
nothing to do with um with God religion

138
00:07:03,350 --> 00:06:53,400

and

139

00:07:06,830 --> 00:07:03,360

because I used the idea of intelligent

140

00:07:08,870 --> 00:07:06,840

design to build my theory and and it

141

00:07:11,629 --> 00:07:08,880

helped me understand things that are

142

00:07:15,469 --> 00:07:11,639

mysterious to physicists like the

143

00:07:17,570 --> 00:07:15,479

neutron Decay when it's isolated that's

144

00:07:20,089 --> 00:07:17,580

a complete mystery to them they got all

145

00:07:22,430 --> 00:07:20,099

kinds of little technical explanations

146

00:07:25,430 --> 00:07:22,440

they might put forth but you know

147

00:07:28,189 --> 00:07:25,440

there's a reason for new con a neutron

148

00:07:31,610 --> 00:07:28,199

Decay when it's isolated out in outer

149

00:07:34,490 --> 00:07:31,620

space and and and knowing that it led me

150

00:07:38,510 --> 00:07:34,500

to a whole cosmology Theory

151
00:07:40,550 --> 00:07:38,520
and it's important if you want to get to

152
00:07:43,670 --> 00:07:40,560
the unified field there if you want to

153
00:07:46,010 --> 00:07:43,680
have the theory of everything you have

154
00:07:49,010 --> 00:07:46,020
to have the right model

155
00:07:50,570 --> 00:07:49,020
if you don't have the right model it's

156
00:07:52,730 --> 00:07:50,580
hopeless

157
00:07:55,129 --> 00:07:52,740
and and if they're going to use the

158
00:07:57,770 --> 00:07:55,139
quantum mechanics model and the Godless

159
00:08:00,710 --> 00:07:57,780
model and there's no Creator model

160
00:08:03,710 --> 00:08:00,720
they're not in the right model and and

161
00:08:06,469 --> 00:08:03,720
they have no hope they can't build a

162
00:08:10,550 --> 00:08:06,479
Universe on probabilities alone

163
00:08:13,129 --> 00:08:10,560

it can't tell you how things work

164

00:08:15,890 --> 00:08:13,139
and and with a creator

165

00:08:17,450 --> 00:08:15,900
and I'm not just going from like a

166

00:08:21,770 --> 00:08:17,460
belief here

167

00:08:26,029 --> 00:08:21,780
I know for sure so I'm trying to pass

168

00:08:28,189 --> 00:08:26,039
knowledge not just a belief from

169

00:08:30,770 --> 00:08:28,199
personal experience that's how

170

00:08:33,529 --> 00:08:30,780
scientists get their information from

171

00:08:36,889 --> 00:08:33,539
personal experiences in the lab running

172

00:08:38,810 --> 00:08:36,899
test equipment when it goes down to it

173

00:08:41,449 --> 00:08:38,820
it's all about experience and what

174

00:08:44,029 --> 00:08:41,459
you've had and what you've learned that

175

00:08:45,829 --> 00:08:44,039
becomes knowledge and that's what we're

176

00:08:48,769 --> 00:08:45,839

going to be about tonight trying to

177

00:08:51,710 --> 00:08:48,779

drill down to the very foundations of

178

00:08:54,710 --> 00:08:51,720

reality and get an explanation that

179

00:08:56,509 --> 00:08:54,720

actually makes sense

180

00:08:59,030 --> 00:08:56,519

the um

181

00:09:01,430 --> 00:08:59,040

science

182

00:09:02,410 --> 00:09:01,440

I want your reaction to what I'm about

183

00:09:07,190 --> 00:09:02,420

to say

184

00:09:10,250 --> 00:09:07,200

science has always been a series of

185

00:09:12,889 --> 00:09:10,260

Corrections and you build on that right

186

00:09:15,769 --> 00:09:12,899

so if you come up with something

187

00:09:17,269 --> 00:09:15,779

probably sometime in the future maybe

188

00:09:19,970 --> 00:09:17,279

during your lifetime you're going to be

189

00:09:21,889 --> 00:09:19,980

proven wrong it's going to take that

190

00:09:23,990 --> 00:09:21,899

right it's going to correct it and then

191

00:09:28,670 --> 00:09:24,000

we learn and we build on it and build on

192

00:09:31,790 --> 00:09:28,680

it and those original ideas come from

193

00:09:33,650 --> 00:09:31,800

thinking outside of the box you think

194

00:09:36,350 --> 00:09:33,660

outside of the box and you get creative

195

00:09:38,329 --> 00:09:36,360

and you lay something out however you

196

00:09:41,290 --> 00:09:38,339

want to prove it in the lab with numbers

197

00:09:43,670 --> 00:09:41,300

with with algorithm whatever it may be

198

00:09:45,650 --> 00:09:43,680

you go and pursue that and then somebody

199

00:09:47,150 --> 00:09:45,660

else takes a hold of it and it's a

200

00:09:50,150 --> 00:09:47,160

generational thing

201
00:09:53,449 --> 00:09:50,160
today nobody wants to think outside the

202
00:09:56,650 --> 00:09:53,459
box everybody wants to stay inside of

203
00:09:59,449 --> 00:09:56,660
the box and I don't understand why

204
00:10:01,670 --> 00:09:59,459
shouldn't we all be creative thinkers

205
00:10:02,810 --> 00:10:01,680
when it comes to science

206
00:10:03,829 --> 00:10:02,820
well

207
00:10:07,070 --> 00:10:03,839
um

208
00:10:09,829 --> 00:10:07,080
they they don't want to attack the

209
00:10:12,670 --> 00:10:09,839
status quo it's

210
00:10:15,530 --> 00:10:12,680
uh in my book I cover

211
00:10:18,889 --> 00:10:15,540
some instances that you're describing

212
00:10:21,350 --> 00:10:18,899
very like the speed of light uh very few

213
00:10:23,990 --> 00:10:21,360

people know that the speed of light is

214

00:10:26,810 --> 00:10:24,000

really not constant and that they want

215

00:10:30,230 --> 00:10:26,820

to adhere to that and scientists in the

216

00:10:32,570 --> 00:10:30,240

past have pushed for making the speed of

217

00:10:34,910 --> 00:10:32,580

light a constant and declaring a number

218

00:10:37,370 --> 00:10:34,920

and they finally did Raymond Burge said

219

00:10:39,889 --> 00:10:37,380

I declared a number I've been asked to

220

00:10:42,829 --> 00:10:39,899

do this by the other scientists we can't

221

00:10:44,750 --> 00:10:42,839

tolerate what we're having right now and

222

00:10:48,350 --> 00:10:44,760

they were out of the box at that time

223

00:10:50,090 --> 00:10:48,360

because back in the 20s 30s and 40s they

224

00:10:53,389 --> 00:10:50,100

were measuring the speed of light over

225

00:10:55,250 --> 00:10:53,399

and over and each time it was over over

226
00:10:56,930 --> 00:10:55,260
time over the years it was getting

227
00:10:59,630 --> 00:10:56,940
slower

228
00:11:04,069 --> 00:10:59,640
that doesn't fit their model they didn't

229
00:11:06,710 --> 00:11:04,079
like that so they made Raymond Burge say

230
00:11:09,009 --> 00:11:06,720
hey I'm declaring the speed of light

231
00:11:10,990 --> 00:11:09,019
this number

232
00:11:14,750 --> 00:11:11,000
299

233
00:11:17,210 --> 00:11:14,760
792-458 meters per second that's it and

234
00:11:19,970 --> 00:11:17,220
from now on when you measure the speed

235
00:11:22,130 --> 00:11:19,980
of light you start with that number and

236
00:11:24,050 --> 00:11:22,140
if you have to tweak the equipment make

237
00:11:25,970 --> 00:11:24,060
the little path shorter between the

238
00:11:28,370 --> 00:11:25,980

mirrors that's what you're going to do

239

00:11:31,430 --> 00:11:28,380

and that's what they did and now the

240

00:11:33,410 --> 00:11:31,440

problem went away now there's no problem

241

00:11:35,389 --> 00:11:33,420

with all the scientists they can't seem

242

00:11:37,430 --> 00:11:35,399

to even though they use the same meter

243

00:11:41,329 --> 00:11:37,440

the exact same meter the exact same

244

00:11:44,569 --> 00:11:41,339

length the same equipment it was slowing

245

00:11:47,750 --> 00:11:44,579

down over time and this really was

246

00:11:49,130 --> 00:11:47,760

messing with everybody but now in 70s

247

00:11:51,829 --> 00:11:49,140

80s 90s

248

00:11:54,170 --> 00:11:51,839

they just set the equipment

249

00:11:56,569 --> 00:11:54,180

to that number and then they start their

250

00:11:59,150 --> 00:11:56,579

testing so they don't really measure the

251
00:12:01,850 --> 00:11:59,160
speed of light anymore they got around

252
00:12:04,670 --> 00:12:01,860
the problem by just declaring it a

253
00:12:09,110 --> 00:12:04,680
number and stopped measuring it yeah

254
00:12:12,610 --> 00:12:09,120
that's right and so all of the math

255
00:12:15,410 --> 00:12:12,620
would work right

256
00:12:18,530 --> 00:12:15,420
so that's it they they physically

257
00:12:21,530 --> 00:12:18,540
physics is loaded with ad hoc parameters

258
00:12:23,389 --> 00:12:21,540
especially quantum mechanics and it

259
00:12:26,329 --> 00:12:23,399
started all the way back with Newton in

260
00:12:28,790 --> 00:12:26,339
the gravitational constant

261
00:12:30,530 --> 00:12:28,800
he picked a number now now there was

262
00:12:31,970 --> 00:12:30,540
some science involved with his choice

263
00:12:33,769 --> 00:12:31,980

because they were making measurements

264

00:12:36,110 --> 00:12:33,779

and they had a high measurement and a

265

00:12:38,210 --> 00:12:36,120

low measurement for and and he says I'll

266

00:12:40,790 --> 00:12:38,220

take the number in the middle and that

267

00:12:43,970 --> 00:12:40,800

made the equations turn out right

268

00:12:46,970 --> 00:12:43,980

they do that a lot they still do it

269

00:12:50,629 --> 00:12:46,980

today in quantum mechanics once things

270

00:12:52,550 --> 00:12:50,639

show up in the measurement system that

271

00:12:54,530 --> 00:12:52,560

they weren't expecting then they got to

272

00:12:58,250 --> 00:12:54,540

tweak the equations to get that answer

273

00:13:02,269 --> 00:12:58,260

to make that match up the the unified

274

00:13:04,610 --> 00:13:02,279

field Theory uh you know

275

00:13:07,069 --> 00:13:04,620

everybody goes back and looks at

276

00:13:09,170 --> 00:13:07,079

Einstein's beautiful number right equals

277

00:13:13,069 --> 00:13:09,180

Mt squared right and that nice equation

278

00:13:15,290 --> 00:13:13,079

plugs and we all know it right and the

279

00:13:16,970 --> 00:13:15,300

goal and of course Einstein never got

280

00:13:21,370 --> 00:13:16,980

there he tried

281

00:13:29,690 --> 00:13:26,629

an equation a set of symbols that would

282

00:13:32,930 --> 00:13:29,700

tie everything together do you think

283

00:13:35,269 --> 00:13:32,940

that uh that it is possible to

284

00:13:38,629 --> 00:13:35,279

eventually get there and something that

285

00:13:41,269 --> 00:13:38,639

would be agreed upon by by all sides

286

00:13:42,769 --> 00:13:41,279

I've already gotten there it's on

287

00:13:46,310 --> 00:13:42,779

Research gate

288

00:13:49,069 --> 00:13:46,320

have a unified field Theory first of all

289

00:13:50,750 --> 00:13:49,079

I'm gonna I'm gonna start to speak about

290

00:13:53,629 --> 00:13:50,760

gravity but I'm going to speak about

291

00:13:55,850 --> 00:13:53,639

also gravity 2.

292

00:13:58,850 --> 00:13:55,860

and that means that if I speak about

293

00:14:02,170 --> 00:13:58,860

gravity 2 a new type of gravity then

294

00:14:04,670 --> 00:14:02,180

we're going to get into anti-gravity and

295

00:14:07,250 --> 00:14:04,680

just for the folks that are listening

296

00:14:09,530 --> 00:14:07,260

out there that might belong to the to

297

00:14:11,509 --> 00:14:09,540

that group The cabal whatever they are

298

00:14:13,310 --> 00:14:11,519

look if you want me to stop talking

299

00:14:15,470 --> 00:14:13,320

about this just

300

00:14:17,810 --> 00:14:15,480

come to the house we'll have a visit and

301
00:14:20,329 --> 00:14:17,820
we'll talk about it but until I hear

302
00:14:24,710 --> 00:14:20,339
that I'm going to pass this information

303
00:14:27,350 --> 00:14:24,720
on yeah you go you go you go so at this

304
00:14:34,210 --> 00:14:31,670
there is an equation that I have and it

305
00:14:37,610 --> 00:14:34,220
comes from Newton's error

306
00:14:41,269 --> 00:14:37,620
moment of inertia equation and I use

307
00:14:42,769 --> 00:14:41,279
that to predict the mass of the proton

308
00:14:46,009 --> 00:14:42,779
in a neutron

309
00:14:47,870 --> 00:14:46,019
and I discover see this is beautiful

310
00:14:50,210 --> 00:14:47,880
because I discovered what's going on

311
00:14:52,090 --> 00:14:50,220
inside of the proton and the neutron and

312
00:14:54,050 --> 00:14:52,100
I'm going to show you

313
00:14:56,530 --> 00:14:54,060

exactly

314

00:14:59,449 --> 00:14:56,540

what's going on

315

00:15:01,910 --> 00:14:59,459

that is what is happening the three

316

00:15:03,949 --> 00:15:01,920

quarks are moving in this pattern inside

317

00:15:06,710 --> 00:15:03,959

the neutron in the proton

318

00:15:09,769 --> 00:15:06,720

and how did I figure that out well

319

00:15:12,009 --> 00:15:09,779

um I look for the signature of God and

320

00:15:15,230 --> 00:15:12,019

this is what I call the signature of God

321

00:15:19,790 --> 00:15:15,240

and I went through a process

322

00:15:22,069 --> 00:15:19,800

uh assuming that there was a creator

323

00:15:25,189 --> 00:15:22,079

and the Creator was going to sign the

324

00:15:28,430 --> 00:15:25,199

universe and then I decided Well you

325

00:15:30,949 --> 00:15:28,440

know we signed our Arc maybe he signed

326

00:15:33,470 --> 00:15:30,959

it somewhere that's the signature the

327

00:15:36,889 --> 00:15:33,480

thing I just showed you that's how mass

328

00:15:38,389 --> 00:15:36,899

is created now I linked this through

329

00:15:40,910 --> 00:15:38,399

people

330

00:15:44,150 --> 00:15:40,920

thinking that you know I

331

00:15:47,030 --> 00:15:44,160

this is a dynamical geometry and so I

332

00:15:49,310 --> 00:15:47,040

went looking through ndes for somebody

333

00:15:51,590 --> 00:15:49,320

to see this I said look if he wants us

334

00:15:53,329 --> 00:15:51,600

to know about it he'll send a message to

335

00:15:55,910 --> 00:15:53,339

somebody if you want to know how

336

00:15:58,430 --> 00:15:55,920

something works go to the creator of

337

00:16:00,889 --> 00:15:58,440

that something and ask them that's what

338

00:16:02,750 --> 00:16:00,899

I used to do at IBM I was more of a

339

00:16:05,810 --> 00:16:02,760

troubleshooter really than a programmer

340

00:16:08,329 --> 00:16:05,820

I got to fix that on the sheet I I

341

00:16:10,670 --> 00:16:08,339

really did a lot I did a lot of

342

00:16:13,430 --> 00:16:10,680

programming but to solve problems

343

00:16:15,110 --> 00:16:13,440

basically and as a troubleshooter

344

00:16:17,090 --> 00:16:15,120

whenever I wanted to know how something

345

00:16:19,250 --> 00:16:17,100

worked I went to the creator of that

346

00:16:22,129 --> 00:16:19,260

electronic circuit board or that program

347

00:16:24,790 --> 00:16:22,139

and I drilled them on how does this work

348

00:16:27,530 --> 00:16:24,800

exactly we have this problem on the line

349

00:16:30,769 --> 00:16:27,540

and that always helped me solve the

350

00:16:34,009 --> 00:16:30,779

problem and in this case uh the the task

351

00:16:36,710 --> 00:16:34,019

was Einstein was looking for the the

352

00:16:39,170 --> 00:16:36,720

dynamical geometry he was trying to

353

00:16:40,730 --> 00:16:39,180

build matter out of convolutions which

354

00:16:44,090 --> 00:16:40,740

means twists

355

00:16:46,550 --> 00:16:44,100

um in space and I says I'll go I'll look

356

00:16:49,610 --> 00:16:46,560

oh you know I read I started reading nde

357

00:16:52,129 --> 00:16:49,620

near-death experiences and and there's

358

00:16:53,889 --> 00:16:52,139

plenty of them out there that tell tell

359

00:16:57,590 --> 00:16:53,899

us clearly

360

00:17:00,050 --> 00:16:57,600

God says to them I created this universe

361

00:17:03,410 --> 00:17:00,060

all this three-dimensional world is

362

00:17:06,230 --> 00:17:03,420

within God within his mind you might say

363

00:17:08,449 --> 00:17:06,240

there are there is nothing outside of

364

00:17:11,390 --> 00:17:08,459

God everything within this physical

365

00:17:14,390 --> 00:17:11,400

Universe has to correspond to laws and

366

00:17:17,090 --> 00:17:14,400

God set those laws they are immutable as

367

00:17:19,189 --> 00:17:17,100

God is immutable none of this what we

368

00:17:21,650 --> 00:17:19,199

experience is an accident it's

369

00:17:24,350 --> 00:17:21,660

intentioned by God and I bring that up a

370

00:17:28,490 --> 00:17:24,360

lot in my book oh power of attention

371

00:17:31,570 --> 00:17:28,500

Okay so uh and for clarification

372

00:17:34,909 --> 00:17:31,580

are we talking about

373

00:17:40,190 --> 00:17:34,919

the biblical God or are we just talking

374

00:17:44,270 --> 00:17:40,200

about an intelligent uh mind at the

375

00:17:46,669 --> 00:17:44,280

beginning of everything and in every is

376

00:17:48,610 --> 00:17:46,679

that's what we're referring to here not

377

00:17:52,730 --> 00:17:48,620

not the biblical

378

00:17:54,130 --> 00:17:52,740

yeah yeah well it's all the same thing

379

00:17:56,870 --> 00:17:54,140

really because

380

00:17:59,630 --> 00:17:56,880

I'll give you an example why I'm saying

381

00:18:03,250 --> 00:17:59,640

that the universal God is what the

382

00:18:05,750 --> 00:18:03,260

aliens know is what some of us know sure

383

00:18:08,390 --> 00:18:05,760

but there was a case where three people

384

00:18:12,950 --> 00:18:08,400

die this is a true case one of the many

385

00:18:17,870 --> 00:18:16,669

um a Muslim and a Hindu were struck by

386

00:18:20,270 --> 00:18:17,880

lightning

387

00:18:22,010 --> 00:18:20,280

they died they all went up and threw the

388

00:18:24,230 --> 00:18:22,020

tunnel together when they got there and

389

00:18:26,870 --> 00:18:24,240

they stood before God as each one looked

390

00:18:29,570 --> 00:18:26,880

at God they saw a different version

391

00:18:32,210 --> 00:18:29,580

the Hindu saw the Hindu Krishna or

392

00:18:36,289 --> 00:18:32,220

whatever they have the Muslim The Well

393

00:18:37,909 --> 00:18:36,299

of Souls the Christ for the Catholic and

394

00:18:39,350 --> 00:18:37,919

they were looking back and forth at each

395

00:18:42,049 --> 00:18:39,360

other and they could see that the other

396

00:18:45,890 --> 00:18:42,059

guy was seeing a different version so

397

00:18:47,990 --> 00:18:45,900

the bottom line of all this is It's a

398

00:18:51,590 --> 00:18:48,000

universal being and you know we're

399

00:18:55,430 --> 00:18:51,600

thinking you know just Christian just

400

00:18:57,730 --> 00:18:55,440

he doesn't even care so I could I could

401
00:19:01,190 --> 00:18:57,740
see Elvis

402
00:19:05,210 --> 00:19:01,200
yeah I suppose so if you really believed

403
00:19:07,070 --> 00:19:05,220
Elvis was a God I do I do I mean he

404
00:19:10,130 --> 00:19:07,080
could appear to you that way it's that's

405
00:19:12,590 --> 00:19:10,140
that's not the thing it's more like

406
00:19:15,830 --> 00:19:12,600
you're saying it kind of is a universal

407
00:19:17,870 --> 00:19:15,840
being he's been here

408
00:19:20,690 --> 00:19:17,880
Eternal he's been here for

409
00:19:23,090 --> 00:19:20,700
a Time longer than we can imagine and

410
00:19:27,350 --> 00:19:23,100
we'll be here longer

411
00:19:29,690 --> 00:19:27,360
as long as as there is time and and over

412
00:19:33,110 --> 00:19:29,700
there there isn't really time that's the

413
00:19:35,570 --> 00:19:33,120

another weird thing it's all at once uh

414

00:19:38,990 --> 00:19:35,580

it's it's a strange thing it's hard to

415

00:19:41,630 --> 00:19:39,000

describe but it makes sense in a way

416

00:19:43,490 --> 00:19:41,640

because I think when you get to the

417

00:19:46,370 --> 00:19:43,500

other side

418

00:19:49,310 --> 00:19:46,380

um everything is really Consciousness a

419

00:19:50,630 --> 00:19:49,320

pure Consciousness there may not be a

420

00:19:53,390 --> 00:19:50,640

substance

421

00:19:55,490 --> 00:19:53,400

I'm not entirely sure about that yet I

422

00:19:58,310 --> 00:19:55,500

keep investigating and looking for that

423

00:20:01,549 --> 00:19:58,320

they're just describe it as a higher

424

00:20:04,430 --> 00:20:01,559

frequency a higher energy but what that

425

00:20:07,909 --> 00:20:04,440

energy is made up of I I'm not sure yet

426

00:20:09,890 --> 00:20:07,919

but it's almost like nothing at all but

427

00:20:13,010 --> 00:20:09,900

pure Consciousness that's what I'm

428

00:20:15,350 --> 00:20:13,020

getting the feel for right now but here

429

00:20:18,650 --> 00:20:15,360

here's a different story

430

00:20:21,770 --> 00:20:18,660

this is where consciousness

431

00:20:24,289 --> 00:20:21,780

breathes into the universe life

432

00:20:27,409 --> 00:20:24,299

through the power of intention

433

00:20:30,169 --> 00:20:27,419

and when that happens a whole new a

434

00:20:33,049 --> 00:20:30,179

whole new universe is created and God is

435

00:20:35,390 --> 00:20:33,059

apparently creating these things all the

436

00:20:38,650 --> 00:20:35,400

time so now now we have to deal with

437

00:20:42,650 --> 00:20:38,660

multiple universes multiple different

438

00:20:44,150 --> 00:20:42,660

dimensions time segments it's a lot

439

00:20:46,490 --> 00:20:44,160

bigger picture

440

00:20:49,130 --> 00:20:46,500

then our physicists have been telling us

441

00:20:50,590 --> 00:20:49,140

about and our religious people have been

442

00:20:54,890 --> 00:20:50,600

telling us about

443

00:20:57,770 --> 00:20:54,900

it's a grander scheme it's immense it's

444

00:21:00,409 --> 00:20:57,780

we're just a little fraction of a

445

00:21:03,650 --> 00:21:00,419

fraction of a fraction of reality

446

00:21:06,650 --> 00:21:03,660

there's a whole lot more out there but

447

00:21:10,310 --> 00:21:06,660

we're here in this stage acting out our

448

00:21:12,650 --> 00:21:10,320

lives to acquire experiences so that we

449

00:21:15,890 --> 00:21:12,660

can bring these things these most

450

00:21:18,350 --> 00:21:15,900

valuable precious thing experience back

451
00:21:20,750 --> 00:21:18,360
to the father

452
00:21:23,810 --> 00:21:20,760
um Can Can we Circle back to determinism

453
00:21:28,430 --> 00:21:23,820
for a second I don't want to let that go

454
00:21:32,149 --> 00:21:28,440
um the the idea Okay so

455
00:21:34,909 --> 00:21:32,159
this is where I have a problem keeping

456
00:21:39,230 --> 00:21:34,919
my brain straight

457
00:21:41,990 --> 00:21:39,240
Free Will where right now I feel like

458
00:21:44,450 --> 00:21:42,000
interrupting the show and having a sip

459
00:21:52,070 --> 00:21:46,610
all right and and so that's free will

460
00:21:54,830 --> 00:21:52,080
right right right okay and that appears

461
00:21:59,690 --> 00:21:54,840
to be a spur of the moment decision

462
00:22:03,830 --> 00:21:59,700
but determinism says that and I'm going

463
00:22:07,549 --> 00:22:03,840

to give a very abbreviated uh version of

464

00:22:09,529 --> 00:22:07,559

it that math is math particles are

465

00:22:11,890 --> 00:22:09,539

particles everything is going to happen

466

00:22:15,350 --> 00:22:11,900

the way it's going to happen

467

00:22:17,330 --> 00:22:15,360

and the fact that I did this

468

00:22:20,750 --> 00:22:17,340

the universe knew I was going to do that

469

00:22:24,590 --> 00:22:20,760

and it's just math uh doing its thing

470

00:22:29,570 --> 00:22:24,600

and and particles doing their thing and

471

00:22:33,549 --> 00:22:29,580

uh what I am saying to you now is part

472

00:22:36,350 --> 00:22:33,559

of that and that there is no Free Will

473

00:22:38,570 --> 00:22:36,360

and but I believe that there is Free

474

00:22:42,169 --> 00:22:38,580

Will and then I turn around and I look

475

00:22:44,930 --> 00:22:42,179

at the the beauty of the way particles

476
00:22:48,250 --> 00:22:44,940
have come together and us being on this

477
00:22:51,110 --> 00:22:48,260
planet that may be

478
00:22:54,169 --> 00:22:51,120
determinism is a real thing and it

479
00:22:58,549 --> 00:22:54,179
messes with my head I feel that I have

480
00:23:01,610 --> 00:22:58,559
free will but maybe I don't could could

481
00:23:03,590 --> 00:23:01,620
we have both can both exist yes it's

482
00:23:06,289 --> 00:23:03,600
exactly right we have both

483
00:23:09,110 --> 00:23:06,299
uh let's let's put it this way there's a

484
00:23:11,990 --> 00:23:09,120
few ways I can describe it everyone

485
00:23:16,070 --> 00:23:12,000
everyone on Earth comes to this planet

486
00:23:18,830 --> 00:23:16,080
with a plan your life plan so there's a

487
00:23:23,090 --> 00:23:18,840
sort of a predestination there your

488
00:23:26,750 --> 00:23:23,100

Delta a hand of cards and your skills

489

00:23:28,789 --> 00:23:26,760

your your abilities your your talents

490

00:23:30,710 --> 00:23:28,799

and you've got to make the best of that

491

00:23:35,090 --> 00:23:30,720

hand you're dealt

492

00:23:37,789 --> 00:23:35,100

and and you do you you've chosen who

493

00:23:40,010 --> 00:23:37,799

your parents are are what time you're

494

00:23:43,149 --> 00:23:40,020

going to be born in all that

495

00:23:46,789 --> 00:23:43,159

and then it's you up to us to remember

496

00:23:49,669 --> 00:23:46,799

our life plan and execute that plan

497

00:23:52,190 --> 00:23:49,679

the problem here on Earth is it's once

498

00:23:55,549 --> 00:23:52,200

you get into this Avatar it affects your

499

00:23:58,669 --> 00:23:55,559

thinking and a lot of times the plan

500

00:24:00,409 --> 00:23:58,679

falls apart and you need a reminder or

501
00:24:03,169 --> 00:24:00,419
something hopefully along the way the

502
00:24:06,289 --> 00:24:03,179
life that gets you back on course but

503
00:24:08,630 --> 00:24:06,299
it's like this the determinism part like

504
00:24:11,149 --> 00:24:08,640
a quarterback you get in the Huddle you

505
00:24:12,649 --> 00:24:11,159
call the play you know people got in

506
00:24:13,789 --> 00:24:12,659
their minds what they're all going to do

507
00:24:14,930 --> 00:24:13,799
they're going to run down the field

508
00:24:17,750 --> 00:24:14,940
they're going to block they're going to

509
00:24:19,789 --> 00:24:17,760
do this so you execute the play and

510
00:24:21,710 --> 00:24:19,799
sometimes it goes according to plan and

511
00:24:24,049 --> 00:24:21,720
sometimes not

512
00:24:26,750 --> 00:24:24,059
that's the free will

513
00:24:28,549 --> 00:24:26,760

and they work together that's the

514

00:24:31,490 --> 00:24:28,559

challenge in this scheme

515

00:24:33,529 --> 00:24:31,500

and that's what makes it interesting and

516

00:24:36,830 --> 00:24:33,539

that's what gives us difficulty and

517

00:24:40,130 --> 00:24:36,840

challenge which is all part of the the

518

00:24:43,190 --> 00:24:40,140

school that we're we're at here so

519

00:24:46,610 --> 00:24:43,200

that's to me how this whole thing works

520

00:24:49,730 --> 00:24:46,620

with yes there is a free will and yes

521

00:24:52,130 --> 00:24:49,740

there is a destiny but you've got to

522

00:24:55,190 --> 00:24:52,140

make it happen you got to breathe that

523

00:24:58,070 --> 00:24:55,200

into your life and make it a willful

524

00:25:01,070 --> 00:24:58,080

choice and and do the best you can

525

00:25:03,409 --> 00:25:01,080

everybody's got to do that and and

526

00:25:06,529 --> 00:25:03,419

that's the struggle that is life

527

00:25:09,169 --> 00:25:06,539

well what about it if we if we stay on

528

00:25:11,810 --> 00:25:09,179

on this track and it is tracking really

529

00:25:14,390 --> 00:25:11,820

well because it's been determined that

530

00:25:17,570 --> 00:25:14,400

it's going to track well is

531

00:25:19,570 --> 00:25:17,580

um uh entropy because

532

00:25:24,830 --> 00:25:19,580

entropy

533

00:25:27,289 --> 00:25:24,840

I mean to me always seems inevitable

534

00:25:28,730 --> 00:25:27,299

right you move into a house the house is

535

00:25:32,649 --> 00:25:28,740

clean when you move out of the house

536

00:25:34,970 --> 00:25:32,659

it's a disaster mess right it it it

537

00:25:37,070 --> 00:25:34,980

eventually everything is going to come

538

00:25:39,649 --> 00:25:37,080

unglued

539

00:25:42,110 --> 00:25:39,659

um it is entropy something that

540

00:25:44,930 --> 00:25:42,120

ultimately can be controlled and we

541

00:25:46,549 --> 00:25:44,940

don't have to go with that deterministic

542

00:25:47,990 --> 00:25:46,559

mindset

543

00:25:52,250 --> 00:25:48,000

well

544

00:25:53,210 --> 00:25:52,260

I look at it at a global no Universal

545

00:25:56,090 --> 00:25:53,220

scale

546

00:25:57,769 --> 00:25:56,100

and and in reality it's working

547

00:26:00,289 --> 00:25:57,779

backwards now

548

00:26:04,130 --> 00:26:00,299

everything's collapsing back into black

549

00:26:08,029 --> 00:26:04,140

holes the entropy is not growing it's

550

00:26:11,149 --> 00:26:08,039

declining wow and it doesn't matter what

551
00:26:12,710 --> 00:26:11,159
we do other than the one invention I

552
00:26:15,409 --> 00:26:12,720
propose in the book The Stellar

553
00:26:19,370 --> 00:26:15,419
converter right to reverse

554
00:26:22,430 --> 00:26:19,380
the uh the collapse of and reverse black

555
00:26:25,789 --> 00:26:22,440
holes that would reintroduce entropy

556
00:26:28,450 --> 00:26:25,799
into the universe but right now as I've

557
00:26:31,990 --> 00:26:28,460
seen it from my studies in research

558
00:26:35,810 --> 00:26:32,000
we're already in the collapse phase

559
00:26:38,149 --> 00:26:35,820
well into the collapse phase our galaxy

560
00:26:41,149 --> 00:26:38,159
and a bunch of other galaxies in the

561
00:26:44,510 --> 00:26:41,159
local group are all heading toward the

562
00:26:47,870 --> 00:26:44,520
great attractor a supermassive black

563
00:26:50,330 --> 00:26:47,880

hole and that's being pulled even by a

564

00:26:53,930 --> 00:26:50,340

larger one all predicted in my cosmology

565

00:26:55,970 --> 00:26:53,940

Theory as as what's happening and that

566

00:26:58,549 --> 00:26:55,980

makes sense according to why the speed

567

00:27:00,649 --> 00:26:58,559

of light is slowing down because we're

568

00:27:04,190 --> 00:27:00,659

being pulled to a gravitational large

569

00:27:07,130 --> 00:27:04,200

gravitational object at about 1.3

570

00:27:08,810 --> 00:27:07,140

million miles an hour and so it makes

571

00:27:11,330 --> 00:27:08,820

sense that the speed of light will be

572

00:27:13,190 --> 00:27:11,340

slowing down because we all know in

573

00:27:14,450 --> 00:27:13,200

physicists whether they want to admit it

574

00:27:16,669 --> 00:27:14,460

or not

575

00:27:20,330 --> 00:27:16,679

that when a light beam enters a

576

00:27:22,490 --> 00:27:20,340

gravitational field it slows down so

577

00:27:23,750 --> 00:27:22,500

everything is making sense about what

578

00:27:26,810 --> 00:27:23,760

I'm saying

579

00:27:29,450 --> 00:27:26,820

everything fits into place light is

580

00:27:32,450 --> 00:27:29,460

slowing down over time it will continue

581

00:27:34,789 --> 00:27:32,460

it's a countdown timer and when it goes

582

00:27:38,090 --> 00:27:34,799

to zero we'll be at crossing the Event

583

00:27:44,769 --> 00:27:38,100

Horizon of the great attractor in about

584

00:27:51,830 --> 00:27:47,630

not yet but but we need to make a we

585

00:27:53,750 --> 00:27:51,840

need to get a plan in order so well

586

00:27:56,930 --> 00:27:53,760

that's why I introduced the Stellar

587

00:27:59,210 --> 00:27:56,940

converter as an idea to undo it but it

588

00:28:01,909 --> 00:27:59,220

would take a massive effort

589

00:28:03,769 --> 00:28:01,919

many planets together to build the

590

00:28:06,169 --> 00:28:03,779

device and

591

00:28:07,909 --> 00:28:06,179

and maybe they have because we've seen

592

00:28:13,029 --> 00:28:07,919

something out at the edge of the

593

00:28:19,370 --> 00:28:17,570

quasars yes and the quasars in my

594

00:28:22,789 --> 00:28:19,380

standard converter what you do is you

595

00:28:24,950 --> 00:28:22,799

build the anti-gravity device that the

596

00:28:27,289 --> 00:28:24,960

same device that they use to fly across

597

00:28:31,250 --> 00:28:27,299

the universe and ridiculously little

598

00:28:33,710 --> 00:28:31,260

amounts of time very high speeds well if

599

00:28:36,850 --> 00:28:33,720

anti-gravity comes in contact in any

600

00:28:39,649 --> 00:28:36,860

gravity field comes in contact with

601
00:28:42,950 --> 00:28:39,659
neutronium which is what I believe is

602
00:28:46,070 --> 00:28:42,960
the core of all black holes along with

603
00:28:49,549 --> 00:28:46,080
neutron stars are made of this substance

604
00:28:51,289 --> 00:28:49,559
when that field touches the neutronium

605
00:28:54,470 --> 00:28:51,299
field the gravitational field that's

606
00:28:57,830 --> 00:28:54,480
holding neutronium down is released and

607
00:29:01,310 --> 00:28:57,840
jets will appear if you put these

608
00:29:03,950 --> 00:29:01,320
concentric rings of magnetic High

609
00:29:06,289 --> 00:29:03,960
magnetic fields touching at the poles

610
00:29:09,769 --> 00:29:06,299
you'll get light shooting way the heck

611
00:29:11,870 --> 00:29:09,779
out of it a tremendous velocity until it

612
00:29:14,870 --> 00:29:11,880
escapes the magnetic field then it slows

613
00:29:17,269 --> 00:29:14,880

down the speed of light uh Neutron beam

614

00:29:20,570 --> 00:29:17,279

basically that will immediately convert

615

00:29:21,649 --> 00:29:20,580

to hydrogen within 15 minutes

616

00:29:23,990 --> 00:29:21,659

um

617

00:29:26,090 --> 00:29:24,000

maybe that's

618

00:29:29,029 --> 00:29:26,100

some entities out there already

619

00:29:31,190 --> 00:29:29,039

executing that plan the only other way

620

00:29:34,430 --> 00:29:31,200

that can happen naturally is there's an

621

00:29:38,389 --> 00:29:34,440

accretion disk around it that's loaded

622

00:29:40,490 --> 00:29:38,399

with a lot of free ions electrons I mean

623

00:29:42,830 --> 00:29:40,500

big numbers because you've got to make

624

00:29:45,110 --> 00:29:42,840

them the magnet that's incredibly

625

00:29:47,450 --> 00:29:45,120

powerful to do this and how do they know

626
00:29:48,889 --> 00:29:47,460
it's this is happening with a magnetic

627
00:29:51,169 --> 00:29:48,899
field because when they look at it with

628
00:29:52,549 --> 00:29:51,179
the telescopes they see the light is

629
00:29:54,769 --> 00:29:52,559
polarized

630
00:29:58,490 --> 00:29:54,779
clear evidence that what I'm saying is

631
00:30:01,450 --> 00:29:58,500
true the magnetic field neutralizes the

632
00:30:04,010 --> 00:30:01,460
gravitational field

633
00:30:07,610 --> 00:30:04,020
it's not mine right right right right

634
00:30:08,870 --> 00:30:07,620
right and and and and let's stay right

635
00:30:11,330 --> 00:30:08,880
there let's take it right there for a

636
00:30:16,190 --> 00:30:11,340
second we've

637
00:30:19,789 --> 00:30:16,200
um uh Einstein always believed he ended

638
00:30:21,649 --> 00:30:19,799

up correcting himself but he always

639

00:30:24,409 --> 00:30:21,659

believed

640

00:30:28,490 --> 00:30:24,419

um that until Edwin Hubble you know took

641

00:30:31,070 --> 00:30:28,500

him up uh to Mountain Wilson that the

642

00:30:32,649 --> 00:30:31,080

Universe was static right right and and

643

00:30:34,370 --> 00:30:32,659

unchanging

644

00:30:38,690 --> 00:30:34,380

and

645

00:30:41,810 --> 00:30:38,700

um we now know well yes that is it is

646

00:30:44,450 --> 00:30:41,820

expanding and and Edwin Hubble first

647

00:30:47,330 --> 00:30:44,460

presented that in 1922 he finally wrote

648

00:30:50,029 --> 00:30:47,340

the paper in 1928 you know it took him a

649

00:30:52,370 --> 00:30:50,039

few years to get that published but um

650

00:30:55,490 --> 00:30:52,380

that the Universe was indeed moving and

651
00:30:57,950 --> 00:30:55,500
expanding and once Einstein witnessed

652
00:31:00,289 --> 00:30:57,960
that he backed up and said okay nothing

653
00:31:03,610 --> 00:31:00,299
is static uh I thought that everything

654
00:31:07,490 --> 00:31:03,620
was still but it's not well now we know

655
00:31:13,130 --> 00:31:07,500
uh from 1995 to 1998 that it's not only

656
00:31:15,710 --> 00:31:13,140
expanding but it is it is expanding at

657
00:31:20,450 --> 00:31:15,720
the speed of light at the at the outside

658
00:31:22,730 --> 00:31:20,460
of the galaxies are accelerating yes way

659
00:31:24,470 --> 00:31:22,740
out there okay what but but that's not

660
00:31:25,850 --> 00:31:24,480
my question though but that's not my

661
00:31:30,889 --> 00:31:25,860
question

662
00:31:32,630 --> 00:31:30,899
um but in in knowing that that uh the

663
00:31:35,330 --> 00:31:32,640

outside of the fringes of everything

664

00:31:38,570 --> 00:31:35,340

because it's it's expanding at a faster

665

00:31:41,450 --> 00:31:38,580

rate as it moves out that it is

666

00:31:45,250 --> 00:31:41,460

exceeding the speed of light but speed

667

00:31:48,529 --> 00:31:45,260

of light in that relative area

668

00:31:51,169 --> 00:31:48,539

is still the speed of light it's not

669

00:31:52,669 --> 00:31:51,179

moving faster right as I double the

670

00:31:56,630 --> 00:31:52,679

speed

671

00:31:59,450 --> 00:31:56,640

um and and so in a strange way it

672

00:32:02,389 --> 00:31:59,460

contradicts Einstein's uh theories

673

00:32:06,529 --> 00:32:02,399

number one about the speed of light and

674

00:32:11,149 --> 00:32:06,539

two is it possible to go faster than the

675

00:32:15,070 --> 00:32:13,190

um I'm going to start off with the

676

00:32:18,950 --> 00:32:15,080

galaxies out there I want to explain

677

00:32:20,810 --> 00:32:18,960

their misinterpretation it's you've got

678

00:32:23,510 --> 00:32:20,820

it all right in what you said but that

679

00:32:24,769 --> 00:32:23,520

all of that is wrong according to my

680

00:32:26,389 --> 00:32:24,779

theory

681

00:32:29,570 --> 00:32:26,399

all right

682

00:32:32,090 --> 00:32:29,580

yeah Hubble came up with the idea he got

683

00:32:34,669 --> 00:32:32,100

it really excited he says you know I

684

00:32:36,470 --> 00:32:34,679

think the further out you go the faster

685

00:32:39,590 --> 00:32:36,480

they're going to be going away from us

686

00:32:43,370 --> 00:32:39,600

so we kind of cherry-picked

687

00:32:47,029 --> 00:32:43,380

uh the galaxies and stuff that to match

688

00:32:48,830 --> 00:32:47,039

his formula that he came up with uh you

689

00:32:50,930 --> 00:32:48,840

know I may get arguments there but I

690

00:32:54,110 --> 00:32:50,940

think he kind of did because you know

691

00:32:56,570 --> 00:32:54,120

what if you look at our local group none

692

00:32:58,789 --> 00:32:56,580

of those uh galaxies are moving away

693

00:33:01,070 --> 00:32:58,799

from us how come those didn't wind up in

694

00:33:04,250 --> 00:33:01,080

his formulation how come you can't

695

00:33:06,649 --> 00:33:04,260

explain that Hubble that all the local

696

00:33:10,070 --> 00:33:06,659

group were all coming together a

697

00:33:11,930 --> 00:33:10,080

complete reversal of what you just said

698

00:33:13,549 --> 00:33:11,940

so there's something wrong with this

699

00:33:15,649 --> 00:33:13,559

theory that another part of that theory

700

00:33:17,870 --> 00:33:15,659

is wrong he makes the whole universe

701
00:33:20,330 --> 00:33:17,880
we're the center of the whole universe

702
00:33:22,970 --> 00:33:20,340
we're right back to the whole you know

703
00:33:26,210 --> 00:33:22,980
Old Testament thing again are we really

704
00:33:28,549 --> 00:33:26,220
the center of the universe Hubble

705
00:33:30,049 --> 00:33:28,559
I don't think so that's the odds of that

706
00:33:31,130 --> 00:33:30,059
are very low

707
00:33:33,409 --> 00:33:31,140
so

708
00:33:35,389 --> 00:33:33,419
and then the guys later on picked up on

709
00:33:38,210 --> 00:33:35,399
it they did some more measurements not

710
00:33:41,750 --> 00:33:38,220
only did they you know kind of match

711
00:33:43,370 --> 00:33:41,760
the Hubble formula thing but they saw

712
00:33:45,110 --> 00:33:43,380
that further out you're going they're

713
00:33:48,110 --> 00:33:45,120

kind of accelerating they're really

714

00:33:50,690 --> 00:33:48,120

moving even faster what's causing the

715

00:33:52,549 --> 00:33:50,700

acceleration so they had to invent

716

00:33:54,350 --> 00:33:52,559

something called Dark Energy that's

717

00:33:56,889 --> 00:33:54,360

right

718

00:34:01,009 --> 00:33:56,899

that's the only never been proven to be

719

00:34:04,190 --> 00:34:01,019

exist I say they had to they had to

720

00:34:07,549 --> 00:34:04,200

stick something in there to make the

721

00:34:10,310 --> 00:34:07,559

math work otherwise we've got a complete

722

00:34:12,770 --> 00:34:10,320

unknown the dark energy becomes a cosmo

723

00:34:18,950 --> 00:34:12,780

you know represented by the cosmological

724

00:34:22,730 --> 00:34:18,960

constant yep uh so but that's all

725

00:34:25,369 --> 00:34:22,740

a big terrible misunderstanding because

726

00:34:27,409 --> 00:34:25,379

the accelerations if they look Beyond

727

00:34:29,810 --> 00:34:27,419

and there's some astronomers that have

728

00:34:32,389 --> 00:34:29,820

done that they looked and saw that

729

00:34:34,909 --> 00:34:32,399

there's whole groups walls of galaxies

730

00:34:37,609 --> 00:34:34,919

moving in certain directions other ones

731

00:34:40,250 --> 00:34:37,619

moving in another Direction and when

732

00:34:42,050 --> 00:34:40,260

they and they looked out they would find

733

00:34:44,450 --> 00:34:42,060

that there's something they're moving

734

00:34:47,290 --> 00:34:44,460

toward like we're moving toward our

735

00:34:49,849 --> 00:34:47,300

great attractor there's other great site

736

00:34:51,649 --> 00:34:49,859

titan-sized black holes

737

00:34:54,109 --> 00:34:51,659

and that's what's causing the

738

00:34:55,849 --> 00:34:54,119

acceleration you know what if you drop

739

00:34:57,349 --> 00:34:55,859

out of an airplane and you follow the

740

00:34:59,089 --> 00:34:57,359

ground you know what you do you

741

00:35:02,450 --> 00:34:59,099

accelerate all the way to the ground and

742

00:35:05,390 --> 00:35:02,460

what causes that gravity so what's

743

00:35:08,690 --> 00:35:05,400

causing the acceleration so those uh

744

00:35:11,270 --> 00:35:08,700

galaxies out there gravity they're being

745

00:35:14,870 --> 00:35:11,280

pulled toward other titan-sized black

746

00:35:16,730 --> 00:35:14,880

holes this universe isn't expanding it's

747

00:35:18,650 --> 00:35:16,740

collapsing all right so I've covered

748

00:35:23,329 --> 00:35:18,660

that now what did you want to go back to

749

00:35:26,390 --> 00:35:23,339

yeah yeah well everybody ignores because

750

00:35:30,710 --> 00:35:26,400

I talk to a lot of a lot of scientists

751

00:35:33,650 --> 00:35:30,720

uh in this area and I get I I I piss

752

00:35:36,710 --> 00:35:33,660

people off because it's all right all

753

00:35:39,170 --> 00:35:36,720

right the obvious questions the the

754

00:35:42,349 --> 00:35:39,180

statement they want to make is a

755

00:35:44,690 --> 00:35:42,359

generalized piece of Dogma because it

756

00:35:47,089 --> 00:35:44,700

gets repeated over and over again and

757

00:35:51,109 --> 00:35:47,099

and turned into some scientific truth or

758

00:35:53,810 --> 00:35:51,119

fact and that is all galaxies are

759

00:35:56,329 --> 00:35:53,820

expanding away from each other right

760

00:35:59,870 --> 00:35:56,339

okay now wait a minute okay so you're

761

00:36:01,910 --> 00:35:59,880

saying at the Big Bang at the start of

762

00:36:03,710 --> 00:36:01,920

everything that it's all flashing out

763

00:36:06,170 --> 00:36:03,720

from a central point I can wrap my head

764

00:36:08,270 --> 00:36:06,180

around that I can figure that out but

765

00:36:11,690 --> 00:36:08,280

everything what they are trying to

766

00:36:13,849 --> 00:36:11,700

explain is that everything is moving

767

00:36:16,849 --> 00:36:13,859

away from each other well the last time

768

00:36:20,089 --> 00:36:16,859

I checked you're also telling me that

769

00:36:23,510 --> 00:36:20,099

Andromeda is eventually going to collide

770

00:36:27,470 --> 00:36:23,520

with the Milky Way I thought you just

771

00:36:30,230 --> 00:36:27,480

said everything is expanding away from

772

00:36:31,250 --> 00:36:30,240

each other right you have it both ways

773

00:36:34,069 --> 00:36:31,260

can you

774

00:36:37,250 --> 00:36:34,079

I agree with everything you just said I

775

00:36:39,109 --> 00:36:37,260

mean I said the same thing uh you're

776

00:36:40,790 --> 00:36:39,119

contradicting yourselves and you don't

777

00:36:42,710 --> 00:36:40,800

even want you're just kind of like let's

778

00:36:46,609 --> 00:36:42,720

skip over that let's not talk about it

779

00:36:49,490 --> 00:36:46,619

you know now you you got a theory that

780

00:36:52,210 --> 00:36:49,500

makes no sense which means you let's

781

00:36:57,290 --> 00:36:52,220

move on from that part

782

00:37:00,650 --> 00:36:57,300

yeah but see the thing is this is what

783

00:37:03,230 --> 00:37:00,660

um uh theories are based on today this

784

00:37:05,750 --> 00:37:03,240

is when everybody wants to have a

785

00:37:09,470 --> 00:37:05,760

conversation about not only the theory a

786

00:37:12,170 --> 00:37:09,480

unified theory but the general idea of

787

00:37:14,569 --> 00:37:12,180

the status of the universe well they

788

00:37:17,870 --> 00:37:14,579

they are giving conflicting statements

789

00:37:19,790 --> 00:37:17,880

and this planet is is smarter than they

790

00:37:22,730 --> 00:37:19,800

think I'm not the smartest guy in the

791

00:37:25,190 --> 00:37:22,740

room but I can certainly think about

792

00:37:26,810 --> 00:37:25,200

this you're saying two things you're

793

00:37:30,109 --> 00:37:26,820

talking out of both sides of your mouth

794

00:37:32,210 --> 00:37:30,119

it doesn't make any sense

795

00:37:34,370 --> 00:37:32,220

I've had these conversations with

796

00:37:37,069 --> 00:37:34,380

physicists and then they respond by

797

00:37:39,650 --> 00:37:37,079

saying words you're using these words

798

00:37:41,210 --> 00:37:39,660

you know uh you can't escape with the

799

00:37:43,790 --> 00:37:41,220

words yeah yeah they're frustrating

800

00:37:46,609 --> 00:37:43,800

aren't they yeah that's what that's what

801
00:37:51,550 --> 00:37:46,619
US ordinary people use thoughts ideas

802
00:37:54,950 --> 00:37:51,560
Concepts that don't agree with

803
00:37:55,790 --> 00:37:54,960
you're kind of broken down

804
00:37:59,390 --> 00:37:55,800
um

805
00:38:02,510 --> 00:37:59,400
badly conceived you know physicists are

806
00:38:05,390 --> 00:38:02,520
really bad at trying to understand

807
00:38:08,329 --> 00:38:05,400
things they can't see

808
00:38:10,849 --> 00:38:08,339
they almost always seems to me and I

809
00:38:13,490 --> 00:38:10,859
love physicists I love scientists I know

810
00:38:15,770 --> 00:38:13,500
I'm being hard on them but we got to get

811
00:38:17,810 --> 00:38:15,780
it right we have to evolve we have to

812
00:38:20,450 --> 00:38:17,820
grow and in order to do that we have to

813
00:38:25,069 --> 00:38:20,460

have knowledge the real knowledge not

814

00:38:28,430 --> 00:38:25,079

this you know this false narrative on on

815

00:38:30,589 --> 00:38:28,440

so many levels here in science uh we've

816

00:38:33,950 --> 00:38:30,599

got to understand things truly

817

00:38:36,589 --> 00:38:33,960

understand things and uh there's so many

818

00:38:39,290 --> 00:38:36,599

I found so many breaks in the history of

819

00:38:41,690 --> 00:38:39,300

physics the Michelson Morley experiment

820

00:38:44,510 --> 00:38:41,700

is a big problem that was completely

821

00:38:48,710 --> 00:38:44,520

misunderstood the abandonment of The

822

00:38:52,550 --> 00:38:48,720

Ether a catastrophe in physics unlike

823

00:38:54,710 --> 00:38:52,560

anything I've ever seen since uh that

824

00:38:55,670 --> 00:38:54,720

has to be fixed

825

00:38:58,970 --> 00:38:55,680

um

826

00:39:01,010 --> 00:38:58,980

it just goes on and on and and them

827

00:39:03,730 --> 00:39:01,020

thinking that the universe is expanding

828

00:39:06,349 --> 00:39:03,740

on a on a small set of measurements

829

00:39:07,810 --> 00:39:06,359

throwing out data that doesn't fit the

830

00:39:11,990 --> 00:39:07,820

model

831

00:39:14,450 --> 00:39:12,000

well but but the the galaxies are

832

00:39:16,430 --> 00:39:14,460

definitely moving I mean that that is

833

00:39:19,190 --> 00:39:16,440

yeah they're moving yeah yeah they are

834

00:39:21,109 --> 00:39:19,200

they are definitely moving and uh

835

00:39:24,349 --> 00:39:21,119

they're moving towards us and they're

836

00:39:27,530 --> 00:39:24,359

moving away from us yeah yeah

837

00:39:30,050 --> 00:39:27,540

um okay so let's let's go back to you

838

00:39:32,390 --> 00:39:30,060

brought up anti-gravity earlier I'm

839

00:39:35,170 --> 00:39:32,400

gonna ask you a direct question and then

840

00:39:37,630 --> 00:39:35,180

uh let's get deeper into this

841

00:39:42,950 --> 00:39:37,640

do we have

842

00:39:45,470 --> 00:39:42,960

anti-gravity technology in use today

843

00:39:48,710 --> 00:39:45,480

okay you want knowledge I'm going to

844

00:39:50,450 --> 00:39:48,720

give you Knowledge from my experience

845

00:39:51,470 --> 00:39:50,460

oh can you answer the question first

846

00:39:53,450 --> 00:39:51,480

though

847

00:39:56,270 --> 00:39:53,460

do we have yeah that's what I'm gonna do

848

00:39:58,609 --> 00:39:56,280

okay answer that question with their

849

00:40:01,790 --> 00:39:58,619

knowledge with actual eyewitness

850

00:40:03,790 --> 00:40:01,800

accounts okay perfect perfect so yeah

851
00:40:05,870 --> 00:40:03,800
they're awesome

852
00:40:07,370 --> 00:40:05,880
there are companies and maybe the

853
00:40:09,410 --> 00:40:07,380
military and so forth the universities

854
00:40:11,210 --> 00:40:09,420
what have you yes and I'm gonna back

855
00:40:14,210 --> 00:40:11,220
that up I just you know I could say yeah

856
00:40:17,930 --> 00:40:14,220
anybody could say yes okay yes I love it

857
00:40:19,730 --> 00:40:17,940
and and here's how I know for sure I was

858
00:40:21,829 --> 00:40:19,740
you know when the book come out I've

859
00:40:25,790 --> 00:40:21,839
been on a lot of shows occasionally

860
00:40:28,849 --> 00:40:25,800
people who see my shows or eyewitnesses

861
00:40:31,609 --> 00:40:28,859
uh this fellow came to me who wants to

862
00:40:34,609 --> 00:40:31,619
remain anonymous he and his friend saw

863
00:40:38,150 --> 00:40:34,619

something in the 70s out in the desert

864

00:40:42,230 --> 00:40:38,160

they got close to this UFO they got

865

00:40:48,890 --> 00:40:45,290

they could read the markings on the UFO

866

00:40:50,950 --> 00:40:48,900

and he and his friends said it said U.S

867

00:40:53,750 --> 00:40:50,960

Air Force experimental

868

00:40:56,150 --> 00:40:53,760

and then they backed off it made this

869

00:40:58,910 --> 00:40:56,160

rolling sound he said it sounded like a

870

00:41:01,849 --> 00:40:58,920

bowling ball rolling around and then it

871

00:41:04,609 --> 00:41:01,859

took off and shot off into the air so

872

00:41:07,490 --> 00:41:04,619

now I have a i and this guy sent me

873

00:41:09,050 --> 00:41:07,500

papers proving that who he was and where

874

00:41:11,450 --> 00:41:09,060

he worked

875

00:41:13,250 --> 00:41:11,460

should try to make sure that I I

876

00:41:15,950 --> 00:41:13,260

believed him and I do believe him you

877

00:41:19,670 --> 00:41:15,960

know he's very honest person he wants no

878

00:41:22,430 --> 00:41:19,680

money he's not trying to get anything he

879

00:41:25,370 --> 00:41:22,440

just has a story that proves beyond the

880

00:41:27,290 --> 00:41:25,380

shadow of a doubt that we have this

881

00:41:31,390 --> 00:41:27,300

technology we've been reverse

882

00:41:38,690 --> 00:41:35,210

the I live in Palmdale

883

00:41:40,550 --> 00:41:38,700

okay and uh and when I say that to those

884

00:41:43,490 --> 00:41:40,560

in the know they always perk up you know

885

00:41:47,450 --> 00:41:43,500

really yeah uh Lockheed Skunk Works is

886

00:41:49,190 --> 00:41:47,460

just a mile away from my home and all of

887

00:41:52,630 --> 00:41:49,200

the research that everybody knows about

888

00:41:56,569 --> 00:41:52,640

goes on out there okay so

889

00:41:59,390 --> 00:41:56,579

I had an experience just like you

890

00:42:02,210 --> 00:41:59,400

um I'm coming out of Best Buy and you

891

00:42:05,510 --> 00:42:02,220

know the the store and I'm going up to

892

00:42:09,290 --> 00:42:05,520

my Jeep and this guy comes up from

893

00:42:12,950 --> 00:42:09,300

behind me and he goes Fade to Black and

894

00:42:16,910 --> 00:42:12,960

I spun around he goes you do live here I

895

00:42:18,530 --> 00:42:16,920

said I do and uh he goes hey man uh I

896

00:42:21,170 --> 00:42:18,540

love the show but I got to tell you

897

00:42:23,569 --> 00:42:21,180

something I said what's that he said man

898

00:42:26,750 --> 00:42:23,579

in the in the 90s

899

00:42:29,690 --> 00:42:26,760

I grew up here and we would stand out on

900

00:42:30,740 --> 00:42:29,700

the playground and watch these black

901
00:42:31,910 --> 00:42:30,750
hexagons

902
00:42:33,770 --> 00:42:31,920
[Music]

903
00:42:37,190 --> 00:42:33,780
fly around

904
00:42:43,329 --> 00:42:37,200
and I said oh oh of what right he goes

905
00:42:46,250 --> 00:42:43,339
like a stop sign but flat black silent

906
00:42:50,329 --> 00:42:46,260
how big were they and it goes from here

907
00:42:52,970 --> 00:42:50,339
to Best Buy which was like 70 feet okay

908
00:42:55,190 --> 00:42:52,980
and he said it was every day and he said

909
00:42:56,990 --> 00:42:55,200
then they just stopped he said but for

910
00:42:59,089 --> 00:42:57,000
like 10 years they were testifying these

911
00:43:03,410 --> 00:42:59,099
things right here and the Skies over

912
00:43:06,650 --> 00:43:03,420
Palmdale now that says to me a couple of

913
00:43:11,870 --> 00:43:06,660

things but the the one thing that really

914

00:43:15,170 --> 00:43:11,880

sticks out is silent right so there must

915

00:43:16,849 --> 00:43:15,180

have been some kind of antique bravidic

916

00:43:18,770 --> 00:43:16,859

propulsion system

917

00:43:21,470 --> 00:43:18,780

and that's what I deduce from that

918

00:43:23,150 --> 00:43:21,480

statement it's as incredible as it's a

919

00:43:25,849 --> 00:43:23,160

fantastic sighting and I want to know

920

00:43:28,270 --> 00:43:25,859

you know all the other stuff but you

921

00:43:30,829 --> 00:43:28,280

know that sticks out to me yeah yeah

922

00:43:32,750 --> 00:43:30,839

there's loads of stories like that God

923

00:43:34,010 --> 00:43:32,760

knows how many of them are out there all

924

00:43:36,470 --> 00:43:34,020

around the world

925

00:43:38,510 --> 00:43:36,480

uh who knows which you know these UFOs

926

00:43:41,270 --> 00:43:38,520

we're seeing are ours

927

00:43:44,210 --> 00:43:41,280

now a substantial amount I suspect are

928

00:43:46,609 --> 00:43:44,220

ours now and then who knows how you know

929

00:43:48,849 --> 00:43:46,619

for thousands of years we've been

930

00:43:53,089 --> 00:43:48,859

getting visited here on Earth

931

00:43:55,630 --> 00:43:53,099

uh so there is a certain amount that we

932

00:43:57,829 --> 00:43:55,640

know is somewhere from somewhere else

933

00:44:00,829 --> 00:43:57,839

and somebody somewhere in the government

934

00:44:02,690 --> 00:44:00,839

must have a a catalog or a listing and

935

00:44:04,910 --> 00:44:02,700

this shape one is these guys in this

936

00:44:07,430 --> 00:44:04,920

shape one is those guys and this is us

937

00:44:10,730 --> 00:44:07,440

we built the Triangular and I saw a

938

00:44:13,550 --> 00:44:10,740

triangular one over my house at night it

939

00:44:16,250 --> 00:44:13,560

was monstrously large

940

00:44:18,470 --> 00:44:16,260

and it wasn't even flying like you would

941

00:44:20,450 --> 00:44:18,480

think with the front of the tip of it it

942

00:44:23,150 --> 00:44:20,460

was going sideways

943

00:44:25,550 --> 00:44:23,160

that this the one the side the wing side

944

00:44:27,490 --> 00:44:25,560

and was going across the sky like that

945

00:44:31,010 --> 00:44:27,500

and it was

946

00:44:35,930 --> 00:44:33,050

hundreds and hundreds and hundreds of

947

00:44:37,970 --> 00:44:35,940

yards across it was very large I got

948

00:44:40,010 --> 00:44:37,980

very excited and I was screaming for my

949

00:44:42,710 --> 00:44:40,020

wife to come out for some reason she

950

00:44:44,750 --> 00:44:42,720

couldn't hear me uh I wish I had a

951
00:44:49,790 --> 00:44:44,760
camera because I've never seen anything

952
00:44:50,569 --> 00:44:49,800
like it since but well what what how

953
00:44:55,730 --> 00:44:50,579
um

954
00:44:59,030 --> 00:44:55,740
how how is anti-gravity created

955
00:45:01,670 --> 00:44:59,040
I mean there's it's got to be simple and

956
00:45:04,790 --> 00:45:01,680
but does it take energy or is it like

957
00:45:07,730 --> 00:45:04,800
using magnets you know where there's no

958
00:45:10,069 --> 00:45:07,740
energy input how how does it happen

959
00:45:13,849 --> 00:45:10,079
well I'm working on that paper right now

960
00:45:15,589 --> 00:45:13,859
and once again if you're the cabal or

961
00:45:17,210 --> 00:45:15,599
you're the Men in Black you're listening

962
00:45:19,130 --> 00:45:17,220
if you just want me to stop talking

963
00:45:21,950 --> 00:45:19,140

about it just come to my house we'll

964

00:45:25,550 --> 00:45:21,960

have a coffee you know safety is first

965

00:45:28,010 --> 00:45:25,560

here uh and I'll stop but I'm working on

966

00:45:30,410 --> 00:45:28,020

this because it's fun and

967

00:45:31,910 --> 00:45:30,420

mainly because I believe it's my life

968

00:45:33,829 --> 00:45:31,920

mission to do this is to bring

969

00:45:34,970 --> 00:45:33,839

anti-gravity into this world so now I'm

970

00:45:38,329 --> 00:45:34,980

going to tell you

971

00:45:40,910 --> 00:45:38,339

there's two ways electric graffiti the

972

00:45:45,650 --> 00:45:40,920

way that Thomas Townsend Brown did it

973

00:45:47,170 --> 00:45:45,660

and of the magnetic Magneto gravity I

974

00:45:49,730 --> 00:45:47,180

will tell you of the two the

975

00:45:52,329 --> 00:45:49,740

magnetogravidic is a lot harder to do

976
00:45:55,309 --> 00:45:52,339
because you need a massive power supply

977
00:45:57,589 --> 00:45:55,319
you need huge amounts of current going

978
00:46:01,010 --> 00:45:57,599
through superconducting wire

979
00:46:03,050 --> 00:46:01,020
to make them feel strong enough and it

980
00:46:05,210 --> 00:46:03,060
has to be a dipole field of course

981
00:46:07,370 --> 00:46:05,220
that's what you get with the magnet your

982
00:46:10,250 --> 00:46:07,380
dipole feel when it's strong enough

983
00:46:12,589 --> 00:46:10,260
there's enough energy stored in that

984
00:46:17,089 --> 00:46:12,599
field that

985
00:46:21,109 --> 00:46:17,099
can induce a gravitational pull from one

986
00:46:23,450 --> 00:46:21,119
pole and a anti-gravity field from the

987
00:46:27,230 --> 00:46:23,460
other pole that's how the emitter is

988
00:46:32,990 --> 00:46:27,240

built now for the electrogridic it's the

989

00:46:36,290 --> 00:46:33,000

same deal and um if you go back through

990

00:46:39,109 --> 00:46:36,300

Thomas Townsend Brown's work you'll find

991

00:46:41,270 --> 00:46:39,119

that he claimed that if the anode is on

992

00:46:43,069 --> 00:46:41,280

top and the cathode

993

00:46:46,130 --> 00:46:43,079

is on the bottom and what I'm talking

994

00:46:48,410 --> 00:46:46,140

about condensers or another word for

995

00:46:51,770 --> 00:46:48,420

that is capacitors things that hold

996

00:46:54,170 --> 00:46:51,780

charge electric charge if you have it

997

00:46:57,349 --> 00:46:54,180

like in that configuration it has

998

00:47:00,890 --> 00:46:57,359

thrusts upward but if you reverse it it

999

00:47:04,370 --> 00:47:00,900

goes down and has like extra mass

1000

00:47:08,150 --> 00:47:04,380

so that's one piece of evidence that

1001

00:47:11,950 --> 00:47:08,160

says that a dipole magnetic or

1002

00:47:15,410 --> 00:47:11,960

electrostatic field creates on one end

1003

00:47:19,730 --> 00:47:15,420

our gravitational pull and on the other

1004

00:47:24,530 --> 00:47:19,740

end a gravitational push so you get the

1005

00:47:27,109 --> 00:47:24,540

cause of motion now does that only apply

1006

00:47:30,410 --> 00:47:27,119

a near Mass

1007

00:47:32,569 --> 00:47:30,420

you know okay so like the Earth right

1008

00:47:34,849 --> 00:47:32,579

okay so you have mass we have gravity

1009

00:47:36,530 --> 00:47:34,859

that's sucking Us in but you know in

1010

00:47:39,250 --> 00:47:36,540

that direction

1011

00:47:43,390 --> 00:47:39,260

um but would that work with

1012

00:47:46,970 --> 00:47:43,400

electrogravitic work in space yes yes

1013

00:47:48,670 --> 00:47:46,980

because there exists now you have to go

1014

00:47:52,430 --> 00:47:48,680

to my theory and you say well there's

1015

00:47:53,630 --> 00:47:52,440

space is a thing it's a quasi-elastic

1016

00:47:56,270 --> 00:47:53,640

solid

1017

00:47:59,569 --> 00:47:56,280

so what is that that's the ether that's

1018

00:48:02,030 --> 00:47:59,579

what Lorenz said was that the ether

1019

00:48:04,370 --> 00:48:02,040

Einstein used to believe all the way up

1020

00:48:06,829 --> 00:48:04,380

until the Michelson Morley experiment

1021

00:48:08,210 --> 00:48:06,839

but even in the end he still kind of

1022

00:48:11,510 --> 00:48:08,220

believed in an ether because these

1023

00:48:15,109 --> 00:48:11,520

equations were always based on an ether

1024

00:48:16,910 --> 00:48:15,119

model so this stuff will work anywhere

1025

00:48:18,050 --> 00:48:16,920

in the universe because there is a

1026

00:48:22,069 --> 00:48:18,060

medium

1027

00:48:24,710 --> 00:48:22,079

which causes stress tensors when you

1028

00:48:27,349 --> 00:48:24,720

apply a magnetic field or an

1029

00:48:30,589 --> 00:48:27,359

electrostatic field it affects or

1030

00:48:34,309 --> 00:48:30,599

stretches space in certain ways that

1031

00:48:37,849 --> 00:48:34,319

give you uh the field shape a geometric

1032

00:48:39,950 --> 00:48:37,859

shape that structure causes motion and

1033

00:48:42,589 --> 00:48:39,960

we we already know that like for

1034

00:48:44,809 --> 00:48:42,599

instance the photon structure affects

1035

00:48:47,890 --> 00:48:44,819

its motion they've done experiments to

1036

00:48:52,069 --> 00:48:47,900

determine that so the structure of space

1037

00:48:55,069 --> 00:48:52,079

as determined by fields of force which

1038

00:48:58,250 --> 00:48:55,079

are nothing more than twists clockwise

1039

00:49:00,530 --> 00:48:58,260

counterclockwise stretching and

1040

00:49:04,190 --> 00:49:00,540

Contracting Contracting is gravity

1041

00:49:07,130 --> 00:49:04,200

stretching is anti-gravity the magnetic

1042

00:49:09,530 --> 00:49:07,140

field is a rotation of space and when

1043

00:49:11,390 --> 00:49:09,540

space rotates in and out of the poles of

1044

00:49:14,089 --> 00:49:11,400

the magnet you know from the North Pole

1045

00:49:16,069 --> 00:49:14,099

it's coming out and the arrows of force

1046

00:49:19,069 --> 00:49:16,079

are going into the South Pole that's a

1047

00:49:22,910 --> 00:49:19,079

rotation and that causes reach the

1048

00:49:25,970 --> 00:49:22,920

stretch and the pulling or the the

1049

00:49:27,589 --> 00:49:25,980

on one end where it's going away from

1050

00:49:29,510 --> 00:49:27,599

the magnet that's going to be the

1051
00:49:32,030 --> 00:49:29,520
anti-gravity end on the other end where

1052
00:49:34,370 --> 00:49:32,040
it's going toward the magnet the lines

1053
00:49:37,190 --> 00:49:34,380
of force that's the gravitational to

1054
00:49:38,530 --> 00:49:37,200
what I call gravity two it's a

1055
00:49:40,490 --> 00:49:38,540
non-inertial

1056
00:49:44,089 --> 00:49:40,500
non-contractive gravity

1057
00:49:46,010 --> 00:49:44,099
and you need that kind in order to build

1058
00:49:49,790 --> 00:49:46,020
an albuqueri Drive

1059
00:49:51,349 --> 00:49:49,800
so that you can have a pull forward so

1060
00:49:52,609 --> 00:49:51,359
the front of your ship is going to have

1061
00:49:55,849 --> 00:49:52,619
the pulling

1062
00:49:57,710 --> 00:49:55,859
uh field the gravitational to feel I

1063
00:49:59,990 --> 00:49:57,720

call it and on the back of the ship

1064

00:50:02,270 --> 00:50:00,000

you're going to have the pushing so both

1065

00:50:05,990 --> 00:50:02,280

parts are pushing you you have a

1066

00:50:07,910 --> 00:50:06,000

velocity which means a a motion in a

1067

00:50:10,250 --> 00:50:07,920

Direction that's what you need to go

1068

00:50:11,990 --> 00:50:10,260

through outer space and it don't you

1069

00:50:15,349 --> 00:50:12,000

don't have to have anything to do with

1070

00:50:18,050 --> 00:50:15,359

Earth gravity Sun gravity this is

1071

00:50:20,270 --> 00:50:18,060

completely independent your emotion is

1072

00:50:24,370 --> 00:50:20,280

independent of all other frames of

1073

00:50:27,890 --> 00:50:24,380

motion reference it's just like light

1074

00:50:30,770 --> 00:50:27,900

it's just the same thing it's the cause

1075

00:50:32,630 --> 00:50:30,780

of particle motion and that's what's

1076
00:50:34,069 --> 00:50:32,640
going to come out in my paper I'm going

1077
00:50:35,870 --> 00:50:34,079
to reveal

1078
00:50:38,450 --> 00:50:35,880
how

1079
00:50:40,550 --> 00:50:38,460
gravity 2 Works anti-gravity works

1080
00:50:42,770 --> 00:50:40,560
because I've been able to compute the

1081
00:50:44,930 --> 00:50:42,780
amount of energy stored in a

1082
00:50:48,530 --> 00:50:44,940
gravitational field and in electrostatic

1083
00:50:49,190 --> 00:50:48,540
field and with that computation then I

1084
00:50:52,309 --> 00:50:49,200
can

1085
00:50:56,089 --> 00:50:52,319
predict exactly the amount of energy

1086
00:50:58,549 --> 00:50:56,099
required to actually see the effect

1087
00:51:02,089 --> 00:50:58,559
so that people can build the experiment

1088
00:51:05,210 --> 00:51:02,099

to prove this once and for all it's time

1089

00:51:08,690 --> 00:51:05,220

for people this world to take action and

1090

00:51:11,569 --> 00:51:08,700

I'm I'm doing all on my part that I can

1091

00:51:13,490 --> 00:51:11,579

do but at some point somebody's going to

1092

00:51:14,870 --> 00:51:13,500

have to get out there and build yeah

1093

00:51:18,410 --> 00:51:14,880

somebody's got to build same thing with

1094

00:51:21,410 --> 00:51:18,420

how how could be Airy Drive well his

1095

00:51:25,609 --> 00:51:21,420

Drive okay so let's stay on this for a

1096

00:51:29,210 --> 00:51:25,619

second the his drive this is how he it

1097

00:51:30,890 --> 00:51:29,220

was his work around and I loved it uh to

1098

00:51:32,990 --> 00:51:30,900

exceeding the speed of light because

1099

00:51:37,010 --> 00:51:33,000

you're not actually the ship isn't

1100

00:51:40,910 --> 00:51:37,020

actually moving you're taking Mass space

1101
00:51:43,549 --> 00:51:40,920
in front of the of you removing it

1102
00:51:48,470 --> 00:51:43,559
putting it behind you and then closing

1103
00:51:51,170 --> 00:51:48,480
up the Gap right so uh I didn't see it

1104
00:51:53,089 --> 00:51:51,180
that way I saw it more of like a

1105
00:51:56,390 --> 00:51:53,099
conveyor belt maybe

1106
00:51:58,790 --> 00:51:56,400
um well it's the same no that works for

1107
00:52:00,589 --> 00:51:58,800
me too yeah but but here's the thing

1108
00:52:02,950 --> 00:52:00,599
well I'm not even sure if that's a good

1109
00:52:05,750 --> 00:52:02,960
way to describe it

1110
00:52:08,990 --> 00:52:05,760
but but here's the thing

1111
00:52:11,870 --> 00:52:09,000
um you know to to to to going back to

1112
00:52:13,849 --> 00:52:11,880
like maybe thinking of of maybe folding

1113
00:52:16,069 --> 00:52:13,859

space or you know bringing two points

1114

00:52:17,410 --> 00:52:16,079

together where you're you're you're

1115

00:52:20,210 --> 00:52:17,420

you're you're you're

1116

00:52:22,910 --> 00:52:20,220

traveling that distance without

1117

00:52:25,370 --> 00:52:22,920

traveling you're taking one step right

1118

00:52:27,170 --> 00:52:25,380

the ship doesn't really move you're

1119

00:52:30,430 --> 00:52:27,180

taking something out and putting behind

1120

00:52:32,510 --> 00:52:30,440

it and he said it's it it it it

1121

00:52:35,329 --> 00:52:32,520

theoretically it'll work but it would

1122

00:52:38,569 --> 00:52:35,339

take that the energy of of the universe

1123

00:52:41,450 --> 00:52:38,579

uh to make this because he wants the

1124

00:52:43,870 --> 00:52:41,460

fold space he want he's using gravity

1125

00:52:48,230 --> 00:52:43,880

one okay

1126

00:52:52,370 --> 00:52:48,240

yeah so actually it's right here in my

1127

00:52:55,849 --> 00:52:52,380

notes uh uh the uh the the lethal side

1128

00:52:58,670 --> 00:52:55,859

of this but in your instance

1129

00:52:59,930 --> 00:52:58,680

um with gravity and front and gravity

1130

00:53:04,730 --> 00:52:59,940

and back

1131

00:53:08,510 --> 00:53:04,740

is is this moving in a in a line in a

1132

00:53:11,950 --> 00:53:08,520

linear or is the ship traveling or is it

1133

00:53:16,069 --> 00:53:11,960

operating more of the Alba

1134

00:53:22,210 --> 00:53:20,089

it is I use the thing called the slip

1135

00:53:29,990 --> 00:53:22,220

wave

1136

00:53:33,049 --> 00:53:30,000

of the albuqueri drive it's it's the

1137

00:53:34,970 --> 00:53:33,059

corrected version It's a copy of how

1138

00:53:38,990 --> 00:53:34,980

particles move

1139

00:53:41,270 --> 00:53:39,000

uh the photon you know ask a physicist

1140

00:53:43,970 --> 00:53:41,280

how a photon moves and you get all kinds

1141

00:53:46,010 --> 00:53:43,980

of answers and usually you'll start

1142

00:53:49,670 --> 00:53:46,020

kicking the dirt and looking down and

1143

00:53:51,290 --> 00:53:49,680

you know it you know Einstein tried to

1144

00:53:52,730 --> 00:53:51,300

figure it out because if you want to

1145

00:53:54,710 --> 00:53:52,740

have the unified field Theory you have

1146

00:53:58,569 --> 00:53:54,720

to know that because all the particles

1147

00:54:02,470 --> 00:53:58,579

in the universe are moving on their own

1148

00:54:05,930 --> 00:54:02,480

independent quickly and yeah and and

1149

00:54:10,370 --> 00:54:05,940

apparently forever an infinite energy

1150

00:54:12,950 --> 00:54:10,380

source well there what's happening is

1151

00:54:15,349 --> 00:54:12,960

in the slip wave

1152

00:54:18,349 --> 00:54:15,359

the abaciri drive because he's using

1153

00:54:22,609 --> 00:54:18,359

gravity one the the kind of inertial

1154

00:54:24,589 --> 00:54:22,619

gravity it's contractive gravity uh it's

1155

00:54:27,109 --> 00:54:24,599

subject to all of the Lorenz

1156

00:54:28,849 --> 00:54:27,119

transformation problems in other words

1157

00:54:31,370 --> 00:54:28,859

the front of the ship

1158

00:54:32,089 --> 00:54:31,380

if you even could generate this huge

1159

00:54:35,329 --> 00:54:32,099

mass

1160

00:54:37,250 --> 00:54:35,339

uh for this gravitational field the

1161

00:54:40,309 --> 00:54:37,260

front of the ship would compress as you

1162

00:54:42,829 --> 00:54:40,319

went to the speed of light

1163

00:54:44,809 --> 00:54:42,839

um your mass would increase even more

1164

00:54:48,530 --> 00:54:44,819

your inertial resistance would increase

1165

00:54:50,450 --> 00:54:48,540

to an extraordinary number requiring all

1166

00:54:53,030 --> 00:54:50,460

of the energy in the universe just to

1167

00:54:56,690 --> 00:54:53,040

get you to the speed of light that that

1168

00:54:58,490 --> 00:54:56,700

drive will not work and if it did the

1169

00:55:01,309 --> 00:54:58,500

front of the ship would drop into a

1170

00:55:03,170 --> 00:55:01,319

black hole and everybody'd be killed you

1171

00:55:05,930 --> 00:55:03,180

have to use gravity too which is

1172

00:55:09,770 --> 00:55:05,940

non-inertial non-contractive

1173

00:55:12,109 --> 00:55:09,780

the entire bubble the slip wave is

1174

00:55:13,309 --> 00:55:12,119

space that's pulled apart

1175

00:55:15,770 --> 00:55:13,319

look

1176

00:55:18,710 --> 00:55:15,780

okay that's tricky this is tricky so

1177

00:55:21,109 --> 00:55:18,720

hang in there with me I got you this is

1178

00:55:23,030 --> 00:55:21,119

good this is very tricky but very

1179

00:55:24,470 --> 00:55:23,040

important distance equals rate times

1180

00:55:26,809 --> 00:55:24,480

time

1181

00:55:29,150 --> 00:55:26,819

now your average physicist is going to

1182

00:55:31,430 --> 00:55:29,160

say um well space is really an empty

1183

00:55:32,630 --> 00:55:31,440

void it's not made of nothing

1184

00:55:35,630 --> 00:55:32,640

wrong

1185

00:55:39,250 --> 00:55:35,640

and how can I prove that well there's

1186

00:55:41,210 --> 00:55:39,260

lots of evidence first of all space has

1187

00:55:43,370 --> 00:55:41,220

properties of permittivity and

1188

00:55:45,650 --> 00:55:43,380

permeability how can something that

1189

00:55:49,970 --> 00:55:45,660

doesn't exist have physical measurable

1190

00:55:53,270 --> 00:55:49,980

properties two space has photons moving

1191

00:55:56,329 --> 00:55:53,280

through it photons are transverse waves

1192

00:55:59,270 --> 00:55:56,339

why is that important transverse waves

1193

00:56:01,730 --> 00:55:59,280

are what is a wave going up and down and

1194

00:56:05,390 --> 00:56:01,740

a wave going this like that uh

1195

00:56:08,809 --> 00:56:05,400

transverse waves commonly and most most

1196

00:56:11,349 --> 00:56:08,819

almost always occur in solids more

1197

00:56:15,230 --> 00:56:11,359

evidence is space is a thing because

1198

00:56:17,870 --> 00:56:15,240

photons take time to Traverse between

1199

00:56:19,549 --> 00:56:17,880

here and the sun if space were made of

1200

00:56:21,950 --> 00:56:19,559

nothing distance equals rate times time

1201
00:56:25,190 --> 00:56:21,960
do the calculation and space were equal

1202
00:56:26,990 --> 00:56:25,200
to nothing it would take zero time for

1203
00:56:28,849 --> 00:56:27,000
light to get here and we never see that

1204
00:56:32,030 --> 00:56:28,859
happen ever

1205
00:56:34,730 --> 00:56:32,040
which is what exactly where Einstein

1206
00:56:37,849 --> 00:56:34,740
said he said he said in his speech ether

1207
00:56:42,309 --> 00:56:37,859
in general relativity at the very end uh

1208
00:56:46,609 --> 00:56:42,319
if space wasn't an ether therefore there

1209
00:56:48,710 --> 00:56:46,619
would be no space-time intervals in the

1210
00:56:49,730 --> 00:56:48,720
physical sense he's saying the same

1211
00:56:52,190 --> 00:56:49,740
thing

1212
00:56:54,470 --> 00:56:52,200
that's exactly what I'm saying there

1213
00:56:56,450 --> 00:56:54,480

would be no interval no time interval

1214

00:56:59,390 --> 00:56:56,460

because it would take zero time for

1215

00:57:02,990 --> 00:56:59,400

anything to happen and we never see that

1216

00:57:07,030 --> 00:57:03,000

well and he also proved and and I loved

1217

00:57:11,210 --> 00:57:07,040

how uh he came about this without

1218

00:57:14,390 --> 00:57:11,220

seeing it he proved that the lens effect

1219

00:57:17,450 --> 00:57:14,400

right he's just showed that light can

1220

00:57:19,970 --> 00:57:17,460

move around the star and that's why we

1221

00:57:24,349 --> 00:57:19,980

see it you know it took the eclipse of

1222

00:57:25,910 --> 00:57:24,359

1933 or whatever it was to uh uh when

1223

00:57:27,950 --> 00:57:25,920

when the sun was photographed and then

1224

00:57:30,370 --> 00:57:27,960

we photographed Stars Behind the Sun

1225

00:57:35,510 --> 00:57:30,380

that weren't supposed to be there well

1226

00:57:39,890 --> 00:57:35,520

and and so in doing that not only uh is

1227

00:57:43,609 --> 00:57:39,900

there time and space-time and that time

1228

00:57:46,130 --> 00:57:43,619

shifts uh around Mass with gravity right

1229

00:57:48,890 --> 00:57:46,140

and we understand that now

1230

00:57:51,230 --> 00:57:48,900

um it's become second grade education

1231

00:57:54,650 --> 00:57:51,240

today it's so accepted but it's the same

1232

00:57:58,069 --> 00:57:54,660

thing with light so light has to change

1233

00:58:03,109 --> 00:57:58,079

its speed it can't be a constant it just

1234

00:58:06,829 --> 00:58:03,119

can't if if space is what's uh Einstein

1235

00:58:16,150 --> 00:58:06,839

always did the uh the the rubber sheet

1236

00:58:22,130 --> 00:58:19,010

yeah yeah it gives you a visual look

1237

00:58:24,410 --> 00:58:22,140

because what is happening

1238

00:58:27,710 --> 00:58:24,420

how lordy

1239

00:58:30,589 --> 00:58:27,720

what is really really happening is it's

1240

00:58:33,349 --> 00:58:30,599

all about contraction of space that's

1241

00:58:35,630 --> 00:58:33,359

that's what my theory really gravity is

1242

00:58:38,150 --> 00:58:35,640

caused by The Accelerated motion of

1243

00:58:40,010 --> 00:58:38,160

fundamental unbalanced charges when

1244

00:58:42,230 --> 00:58:40,020

charges move in this way they cause

1245

00:58:44,750 --> 00:58:42,240

space in and around the particle to

1246

00:58:45,430 --> 00:58:44,760

contract that's what my paper talks

1247

00:58:49,010 --> 00:58:45,440

about

1248

00:58:50,450 --> 00:58:49,020

Einstein was working on the same idea he

1249

00:58:53,329 --> 00:58:50,460

got the idea

1250

00:58:55,190 --> 00:58:53,339

from Aaron Fest in the Aaron Fest

1251
00:58:57,710 --> 00:58:55,200
Paradox I don't know if you're familiar

1252
00:59:00,710 --> 00:58:57,720
with that I know excellent

1253
00:59:02,809 --> 00:59:00,720
well in that Paradox you know there's a

1254
00:59:04,430 --> 00:59:02,819
spinning disc and it's Contracting the

1255
00:59:05,630 --> 00:59:04,440
little rods around the edges are

1256
00:59:08,390 --> 00:59:05,640
Contracting

1257
00:59:11,329 --> 00:59:08,400
that's physically really happening it's

1258
00:59:15,049 --> 00:59:11,339
not just an abstract idea

1259
00:59:17,630 --> 00:59:15,059
and that contraction at that area so the

1260
00:59:19,910 --> 00:59:17,640
thing that I showed you this

1261
00:59:22,609 --> 00:59:19,920
is not only doing this that's

1262
00:59:24,349 --> 00:59:22,619
accelerated motion see that anything

1263
00:59:27,289 --> 00:59:24,359

that's moving in the curve light that's

1264

00:59:29,390 --> 00:59:27,299

accelerated motion not only is it are

1265

00:59:31,010 --> 00:59:29,400

the three quarks doing that

1266

00:59:33,589 --> 00:59:31,020

but it's rolling

1267

00:59:36,950 --> 00:59:33,599

and it's spinning the end result is a

1268

00:59:39,890 --> 00:59:36,960

perfectly rapidly processing rotating

1269

00:59:42,410 --> 00:59:39,900

sphere and so you will get

1270

00:59:45,109 --> 00:59:42,420

the gravitational field perfectly no

1271

00:59:48,829 --> 00:59:45,119

poles just like we see in Mother Nature

1272

00:59:50,870 --> 00:59:48,839

all around each and every atom it's by

1273

00:59:53,870 --> 00:59:50,880

virtue of those moving charges

1274

00:59:56,150 --> 00:59:53,880

accelerating through space using the air

1275

00:59:59,650 --> 00:59:56,160

infest paradox

1276

01:00:03,109 --> 00:59:59,660

concept model which then I

1277

01:00:06,289 --> 01:00:03,119

mathematically computed in my paper

1278

01:00:09,530 --> 01:00:06,299

and I was able to get the masses of both

1279

01:00:11,870 --> 01:00:09,540

the neutron and the proton perfectly and

1280

01:00:15,049 --> 01:00:11,880

that's all that needed to happen no

1281

01:00:18,470 --> 01:00:15,059

other particles no graviton particles no

1282

01:00:20,930 --> 01:00:18,480

interacting with anything but space it's

1283

01:00:22,970 --> 01:00:20,940

never really been about a particle the

1284

01:00:24,349 --> 01:00:22,980

particle interaction like quantum

1285

01:00:28,010 --> 01:00:24,359

mechanics says

1286

01:00:31,069 --> 01:00:28,020

that's secondary the real action the

1287

01:00:34,010 --> 01:00:31,079

real magic happens between particles and

1288

01:00:36,829 --> 01:00:34,020

space a motion from particles through

1289

01:00:38,569 --> 01:00:36,839

space we need to take a break uh right

1290

01:00:40,609 --> 01:00:38,579

here so let's let's get this in a moment

1291

01:00:41,750 --> 01:00:40,619

we come back and we're going to continue

1292

01:00:44,510 --> 01:00:41,760

this

1293

01:00:46,670 --> 01:00:44,520

I'm going to stay right there and we

1294

01:00:49,849 --> 01:00:46,680

can't have this discussion at this point

1295

01:00:51,890 --> 01:00:49,859

without talking about entanglement and

1296

01:00:55,010 --> 01:00:51,900

we will do all of that and much more

1297

01:00:59,750 --> 01:00:55,020

Mark fiorentino is our guest tonight the

1298

01:01:04,250 --> 01:01:02,030

this is Jimmy Church of Fade to Black

1299

01:01:06,530 --> 01:01:04,260

please visit all of our sponsors we're

1300

01:01:08,210 --> 01:01:06,540

taking a quick break here all of the

1301

01:01:10,609 --> 01:01:08,220

links are below

1302

01:01:12,950 --> 01:01:10,619

and we'll be right back

1303

01:01:16,370 --> 01:01:12,960

this is Jimmy church and I want to

1304

01:01:18,650 --> 01:01:16,380

introduce you to lifewaves x39 Stem Cell

1305

01:01:21,890 --> 01:01:18,660

Activation batch which has totally

1306

01:01:24,789 --> 01:01:21,900

transformed my health my sleep brain and

1307

01:01:27,289 --> 01:01:24,799

my eyes I no longer need reading glasses

1308

01:01:30,890 --> 01:01:27,299

x39 is a true breakthrough in

1309

01:01:33,289 --> 01:01:30,900

regenerative science using light x-39's

1310

01:01:35,450 --> 01:01:33,299

patented age reversal Technologies

1311

01:01:37,130 --> 01:01:35,460

clinically proven to Signal the

1312

01:01:39,470 --> 01:01:37,140

activation of younger stem cells

1313

01:01:42,710 --> 01:01:39,480

accelerating the body's natural healing

1314

01:01:44,990 --> 01:01:42,720

process x39 promotes restoration and

1315

01:01:47,450 --> 01:01:45,000

Rejuvenation bringing the life-changing

1316

01:01:49,730 --> 01:01:47,460

benefits that I've experienced by

1317

01:01:52,849 --> 01:01:49,740

naturally elevating a master signaling

1318

01:01:55,609 --> 01:01:52,859

peptide in the body x-39 boost Vitality

1319

01:01:58,430 --> 01:01:55,619

health and wellness and resets 4 000

1320

01:02:01,130 --> 01:01:58,440

genes to a younger healthier State it's

1321

01:02:04,930 --> 01:02:01,140

one patch once a day and you can turn

1322

01:02:08,329 --> 01:02:04,940

back time with x-39 just go to

1323

01:02:12,410 --> 01:02:08,339

healingworksnow.com that's works with an

1324

01:02:14,569 --> 01:02:12,420

X healing works now com hey everybody

1325

01:02:16,849 --> 01:02:14,579

it's Billy Carson also known as

1326

01:02:18,650 --> 01:02:16,859

Forbidden Knowledge I want to talk to

1327

01:02:22,309 --> 01:02:18,660

you about a very special event coming up

1328

01:02:24,289 --> 01:02:22,319

July 30th 2023 The Forbidden conscious

1329

01:02:25,910 --> 01:02:24,299

Awards we're going to honor people who

1330

01:02:28,250 --> 01:02:25,920

have been contributing to the conscious

1331

01:02:29,690 --> 01:02:28,260

Community for decades people that you

1332

01:02:31,130 --> 01:02:29,700

know and love that have helped you get

1333

01:02:33,109 --> 01:02:31,140

to higher levels of thought and

1334

01:02:35,270 --> 01:02:33,119

Consciousness and awareness it's going

1335

01:02:36,589 --> 01:02:35,280

to be alive in-person event but since

1336

01:02:38,089 --> 01:02:36,599

we're going to sell out very fast you

1337

01:02:40,190 --> 01:02:38,099

want to make sure you're there in person

1338

01:02:41,950 --> 01:02:40,200

and guess what you can help vote for the

1339

01:02:44,030 --> 01:02:41,960

winners voting is available on

1340

01:02:45,650 --> 01:02:44,040

forbiddenknowledge.com and the

1341

01:02:48,770 --> 01:02:45,660

categories are going to be social media

1342

01:02:50,650 --> 01:02:48,780

influencer podcast slash radio host TV

1343

01:02:52,370 --> 01:02:50,660

host actor director producer

1344

01:02:53,870 --> 01:02:52,380

entrepreneurs health and wellness

1345

01:02:56,270 --> 01:02:53,880

philanthropists authors field

1346

01:02:58,069 --> 01:02:56,280

researchers archaeologists space anomaly

1347

01:03:00,890 --> 01:02:58,079

hunters and of course a Lifetime

1348

01:03:02,809 --> 01:03:00,900

Achievement Award I'll be your keynote

1349

01:03:04,730 --> 01:03:02,819

speaker that night at The Forbidden

1350

01:03:07,069 --> 01:03:04,740

conscious Awards we have celebrity

1351
01:03:08,630 --> 01:03:07,079
guests performing we'll have a halftime

1352
01:03:10,190 --> 01:03:08,640
show where we're actually going to

1353
01:03:12,950 --> 01:03:10,200
perform music for you and don't forget

1354
01:03:14,930 --> 01:03:12,960
about the pre-event mixer where if you

1355
01:03:16,849 --> 01:03:14,940
buy a box seat you'll be in the VIP

1356
01:03:19,490 --> 01:03:16,859
section and you also have private access

1357
01:03:22,670 --> 01:03:19,500
to a big-ip mixer with celebrity guests

1358
01:03:24,410 --> 01:03:22,680
shake hands great bread Network and then

1359
01:03:26,270 --> 01:03:24,420
walk the red carpet with us and take

1360
01:03:27,530 --> 01:03:26,280
amazing photos it's going to be a night

1361
01:03:29,750 --> 01:03:27,540
to remember you don't want to forget

1362
01:03:31,370 --> 01:03:29,760
this make sure you hurry up and get your

1363
01:03:33,890 --> 01:03:31,380

tickets because you're selling out very

1364

01:03:35,620 --> 01:03:33,900

fast I want to see you there forbidden

1365

01:03:39,370 --> 01:03:35,630

conscious Wars 2023

1366

01:03:43,430 --> 01:03:39,380

[Music]

1367

01:03:45,049 --> 01:03:43,440

April 7th through the 14th 2023 I'll be

1368

01:03:47,990 --> 01:03:45,059

hosting and presenting on the hidden

1369

01:03:50,630 --> 01:03:48,000

secrets seminar at Sea cruise from Los

1370

01:03:52,970 --> 01:03:50,640

Angeles to the Mexican Riviera I'm the

1371

01:03:55,549 --> 01:03:52,980

Navigator of the Seas that's right up

1372

01:03:57,230 --> 01:03:55,559

top a giant water slide you've got to

1373

01:03:59,150 --> 01:03:57,240

check out the Navigator of the Seas it's

1374

01:04:01,490 --> 01:03:59,160

amazing we've got Scott Walter Adam

1375

01:04:04,370 --> 01:04:01,500

Apollo Nick Pope Brad Olson Vivian

1376

01:04:06,710 --> 01:04:04,380

chauve Jason shirka Robert Grant Reuben

1377

01:04:09,049 --> 01:04:06,720

Langdon and another 12 amazing speakers

1378

01:04:10,450 --> 01:04:09,059

and presenters it's all simple to do

1379

01:04:12,890 --> 01:04:10,460

just visit

1380

01:04:16,609 --> 01:04:12,900

divinetravels.com forward slash hidden

1381

01:04:19,010 --> 01:04:16,619

secrets 2023 you know you want to go on

1382

01:04:22,250 --> 01:04:19,020

a cruise with me

1383

01:04:25,069 --> 01:04:22,260

River Moon coffee makers of the Fade to

1384

01:04:26,950 --> 01:04:25,079

Black blend truly the best coffee on

1385

01:04:29,210 --> 01:04:26,960

planet Earth just visit

1386

01:04:31,069 --> 01:04:29,220

rivermoonwellness.com or or their Amazon

1387

01:04:32,510 --> 01:04:31,079

store if it's all simple to do you can

1388

01:04:34,549 --> 01:04:32,520

check out the Fade to Black blend the

1389

01:04:37,250 --> 01:04:34,559

game changer Blend or any of their black

1390

01:04:40,970 --> 01:04:37,260

moon wellness products it's the only

1391

01:04:46,609 --> 01:04:40,980

coffee I drink it is the best and it's

1392

01:04:46,619 --> 01:04:50,510

River Moon coffee

1393

01:04:50,520 --> 01:04:54,430

um

1394

01:05:00,650 --> 01:04:58,849

that was determined that sip of coffee

1395

01:05:03,530 --> 01:05:00,660

right there our guest tonight Mark

1396

01:05:05,390 --> 01:05:03,540

fiorentino and we're discussing physics

1397

01:05:09,589 --> 01:05:05,400

science a little spirituality some

1398

01:05:11,270 --> 01:05:09,599

Consciousness thrown in uh faster than

1399

01:05:13,309 --> 01:05:11,280

light

1400

01:05:15,109 --> 01:05:13,319

um the expansion of the universe all of

1401

01:05:18,289 --> 01:05:15,119

that tonight and a fantastic

1402

01:05:23,089 --> 01:05:18,299

conversation and uh welcome back Mark

1403

01:05:25,250 --> 01:05:23,099

and I wanted to uh uh attend two or

1404

01:05:26,930 --> 01:05:25,260

three thoughts need to to come out and

1405

01:05:30,829 --> 01:05:26,940

get discussed and I have the feeling

1406

01:05:32,930 --> 01:05:30,839

we're gonna run uh past uh the show uh

1407

01:05:35,030 --> 01:05:32,940

stop time tonight and so I'm just

1408

01:05:37,490 --> 01:05:35,040

warning you now we'll we'll do a few

1409

01:05:40,250 --> 01:05:37,500

extra minutes if we don't get it all in

1410

01:05:42,770 --> 01:05:40,260

um if we have

1411

01:05:45,109 --> 01:05:42,780

um yeah you know space is empty but yet

1412

01:05:46,849 --> 01:05:45,119

something is pushing and and moving

1413

01:05:48,589 --> 01:05:46,859

things around

1414

01:05:51,349 --> 01:05:48,599

um we have the creation of dark matter

1415

01:05:54,770 --> 01:05:51,359

which now you know these estimates that

1416

01:05:56,109 --> 01:05:54,780

we have we have uh uh matter we have

1417

01:05:59,930 --> 01:05:56,119

anti-matter

1418

01:06:01,730 --> 01:05:59,940

again stuff we can't see and and dark

1419

01:06:04,309 --> 01:06:01,740

matter it's called dark matter because

1420

01:06:06,109 --> 01:06:04,319

it doesn't emit light and therefore we

1421

01:06:08,450 --> 01:06:06,119

can't see it but we think that it's

1422

01:06:11,270 --> 01:06:08,460

there and and that's must be what's

1423

01:06:14,690 --> 01:06:11,280

going on but if they get their way then

1424

01:06:16,730 --> 01:06:14,700

space is not empty if dark matter is

1425

01:06:20,030 --> 01:06:16,740

real it's pushing stuff around then it's

1426

01:06:23,089 --> 01:06:20,040

not empty again it's a paradoxical

1427

01:06:25,910 --> 01:06:23,099

statement it doesn't it doesn't fit what

1428

01:06:30,289 --> 01:06:25,920

they have been saying there's that issue

1429

01:06:33,049 --> 01:06:30,299

the second issue is entanglement because

1430

01:06:36,770 --> 01:06:33,059

if nothing exceeds the speed of light

1431

01:06:40,069 --> 01:06:36,780

but yet a particle here on Earth can

1432

01:06:43,010 --> 01:06:40,079

affect a particle in Zeta reticuli at

1433

01:06:44,809 --> 01:06:43,020

the exact same time that's not faster

1434

01:06:46,970 --> 01:06:44,819

than the speed of light that's faster

1435

01:06:49,490 --> 01:06:46,980

than the speed of now

1436

01:06:50,690 --> 01:06:49,500

and that that contradicts itself too

1437

01:06:55,309 --> 01:06:50,700

doesn't it

1438

01:06:57,710 --> 01:06:55,319

yeah I've given epr a lot of thought and

1439

01:07:00,309 --> 01:06:57,720

I think it's a misinterpretation of

1440

01:07:03,890 --> 01:07:00,319

what's actually happening I think

1441

01:07:06,230 --> 01:07:03,900

Einstein's explanation about

1442

01:07:09,230 --> 01:07:06,240

when the create the two particles are

1443

01:07:12,170 --> 01:07:09,240

created they have all their settings and

1444

01:07:13,849 --> 01:07:12,180

so forth as they go apart you know one's

1445

01:07:16,010 --> 01:07:13,859

polarized this way one other one's

1446

01:07:16,609 --> 01:07:16,020

polarized this way

1447

01:07:19,370 --> 01:07:16,619

um

1448

01:07:22,549 --> 01:07:19,380

I think that interpretation is correct

1449

01:07:25,069 --> 01:07:22,559

even though the math of quantum

1450

01:07:28,910 --> 01:07:25,079

mechanics can predict

1451

01:07:31,849 --> 01:07:28,920

to a higher accuracy the the

1452

01:07:34,309 --> 01:07:31,859

probabilities of a matching which has

1453

01:07:36,589 --> 01:07:34,319

convinced the the quantum mechanics

1454

01:07:39,049 --> 01:07:36,599

people to think there's some sort of

1455

01:07:40,150 --> 01:07:39,059

spooky action added distance it implies

1456

01:07:43,190 --> 01:07:40,160

that

1457

01:07:45,109 --> 01:07:43,200

but nothing really can travel faster

1458

01:07:46,910 --> 01:07:45,119

than the speed of light unless they were

1459

01:07:49,450 --> 01:07:46,920

and I tried models where they're

1460

01:07:52,730 --> 01:07:49,460

interconnected by an Ever stretching

1461

01:07:54,770 --> 01:07:52,740

piece of space that when you do that

1462

01:07:57,049 --> 01:07:54,780

would allow the speed of light to be

1463

01:07:59,569 --> 01:07:57,059

faster and communicate back and forth

1464

01:08:03,950 --> 01:07:59,579

but and there's ways that you could test

1465

01:08:07,430 --> 01:08:03,960

for that but I I just I I don't think

1466

01:08:10,130 --> 01:08:07,440

that they've interpreted it right and um

1467

01:08:11,770 --> 01:08:10,140

well and they and they okay so here's

1468

01:08:16,910 --> 01:08:11,780

the general statement

1469

01:08:18,709 --> 01:08:16,920

that you can change

1470

01:08:23,150 --> 01:08:18,719

you can change a particle with

1471

01:08:26,169 --> 01:08:23,160

observation right and now so what they

1472

01:08:30,110 --> 01:08:26,179

are said literally you look at something

1473

01:08:32,870 --> 01:08:30,120

and you can change it change it spin for

1474

01:08:35,090 --> 01:08:32,880

instance right okay and then and so

1475

01:08:39,410 --> 01:08:35,100

something like that occurs and the

1476

01:08:43,010 --> 01:08:39,420

entangled particle at that exact time uh

1477

01:08:47,530 --> 01:08:43,020

will also alter its Spin and spin

1478

01:08:51,769 --> 01:08:47,540

Direction and we're almost talking about

1479

01:08:56,689 --> 01:08:51,779

telepathy or we're talking about you

1480

01:09:01,550 --> 01:08:56,699

know some serious woo but they say that

1481

01:09:04,070 --> 01:09:01,560

the math the equations support this

1482

01:09:06,289 --> 01:09:04,080

is do you do you believe that to be true

1483

01:09:10,249 --> 01:09:06,299

that if You observe something you can

1484

01:09:14,689 --> 01:09:10,259

you can change it I would really

1485

01:09:16,970 --> 01:09:14,699

well of course that's true I mean you

1486

01:09:20,209 --> 01:09:16,980

can't observe something

1487

01:09:21,169 --> 01:09:20,219

without affecting it at the very small

1488

01:09:23,870 --> 01:09:21,179

level

1489

01:09:25,729 --> 01:09:23,880

and I'm talking about just particles

1490

01:09:27,289 --> 01:09:25,739

right now because you got to bounce

1491

01:09:30,169 --> 01:09:27,299

something off of them

1492

01:09:31,729 --> 01:09:30,179

so you physically affect them so if I go

1493

01:09:34,490 --> 01:09:31,739

on and look at something I'm using

1494

01:09:36,470 --> 01:09:34,500

photons or whatever I gotta bounce off

1495

01:09:38,570 --> 01:09:36,480

of them and then it comes back and it's

1496

01:09:40,729 --> 01:09:38,580

picked up by a sensor or something you

1497

01:09:43,490 --> 01:09:40,739

affect its motion you affect its span

1498

01:09:46,370 --> 01:09:43,500

you affect its direction

1499

01:09:48,349 --> 01:09:46,380

so there's nothing magical about that

1500

01:09:50,930 --> 01:09:48,359

it's the measurement problem it's been

1501

01:09:54,169 --> 01:09:50,940

around for forever

1502

01:09:57,290 --> 01:09:54,179

so yeah okay but what I don't believe

1503

01:10:00,410 --> 01:09:57,300

it's it's magical it's you know

1504

01:10:02,390 --> 01:10:00,420

Consciousness doing it it's it's

1505

01:10:03,910 --> 01:10:02,400

something like that or it's some sort of

1506

01:10:06,709 --> 01:10:03,920

unseen

1507

01:10:08,810 --> 01:10:06,719

ununderstandable Force at work of the

1508

01:10:11,570 --> 01:10:08,820

the force of probability or something

1509

01:10:13,370 --> 01:10:11,580

that's causing the changes it's causing

1510

01:10:16,130 --> 01:10:13,380

these changes because you physically

1511

01:10:17,350 --> 01:10:16,140

affect it same with the double slit

1512

01:10:20,689 --> 01:10:17,360

experiment

1513

01:10:21,709 --> 01:10:20,699

the epr all these

1514

01:10:24,649 --> 01:10:21,719

um

1515

01:10:27,290 --> 01:10:24,659

when you make a measurement you affect

1516

01:10:30,830 --> 01:10:27,300

that thing that you're measuring and all

1517

01:10:34,970 --> 01:10:30,840

I'm thinking the epr is is that they

1518

01:10:39,830 --> 01:10:34,980

have opposite polarities or whatever and

1519

01:10:41,510 --> 01:10:39,840

it's just occurring at a higher

1520

01:10:44,810 --> 01:10:41,520

rate of

1521

01:10:47,510 --> 01:10:44,820

frequency or correspondence that that

1522

01:10:50,930 --> 01:10:47,520

the quantum mechanics predicts over

1523

01:10:54,290 --> 01:10:50,940

normal statistics it's just a slight

1524

01:10:56,330 --> 01:10:54,300

little difference in numbers really it's

1525

01:10:58,669 --> 01:10:56,340

a little bit higher than they expect or

1526

01:11:00,950 --> 01:10:58,679

whatever but what I would really need to

1527

01:11:02,870 --> 01:11:00,960

do to dig into that problem and crack it

1528

01:11:05,450 --> 01:11:02,880

once and for all is to talk with some

1529

01:11:08,930 --> 01:11:05,460

physicists who are real experts in that

1530

01:11:10,910 --> 01:11:08,940

and go back and forth like we're kind of

1531

01:11:13,729 --> 01:11:10,920

doing right now but at a much deeper

1532

01:11:15,410 --> 01:11:13,739

level and argue this thing down to to

1533

01:11:16,810 --> 01:11:15,420

where they either they can convince me

1534

01:11:19,850 --> 01:11:16,820

there's some sort of

1535

01:11:22,850 --> 01:11:19,860

Quantum magic at work because it's what

1536

01:11:25,490 --> 01:11:22,860

it boils down to well okay and and

1537

01:11:28,689 --> 01:11:25,500

here's and here's the argument that'll

1538

01:11:32,149 --> 01:11:28,699

come back it sounds like science fiction

1539

01:11:35,350 --> 01:11:32,159

but qubits and quantum computers are

1540

01:11:40,310 --> 01:11:35,360

real and that and and

1541

01:11:43,189 --> 01:11:40,320

to to say with a straight face right to

1542

01:11:46,010 --> 01:11:43,199

go well a qubit you know okay so you got

1543

01:11:48,470 --> 01:11:46,020

one and you then then he got both and

1544

01:11:50,930 --> 01:11:48,480

it's interacting with a particle and a

1545

01:11:53,570 --> 01:11:50,940

that it's entangled with in a in a

1546

01:11:55,490 --> 01:11:53,580

parallel Dimension that is over here and

1547

01:11:57,590 --> 01:11:55,500

there's infinite amounts of that we

1548

01:11:59,810 --> 01:11:57,600

really don't know how that happens but

1549

01:12:02,810 --> 01:11:59,820

it is and we are able to use that and

1550

01:12:06,229 --> 01:12:02,820

compute with it it's like what what are

1551
01:12:10,729 --> 01:12:06,239
you really trying to say here and and

1552
01:12:14,570 --> 01:12:10,739
and that is it as crazy as that

1553
01:12:16,189 --> 01:12:14,580
statement is this is the basics of

1554
01:12:18,430 --> 01:12:16,199
quantum computing

1555
01:12:22,910 --> 01:12:18,440
yeah well

1556
01:12:27,770 --> 01:12:22,920
there's ways to interpret that many ways

1557
01:12:30,229 --> 01:12:27,780
to interpret this this phenomena and I I

1558
01:12:33,890 --> 01:12:30,239
just personally think

1559
01:12:36,110 --> 01:12:33,900
that when you create the entangled pair

1560
01:12:38,630 --> 01:12:36,120
you set up all the conditions for both

1561
01:12:39,770 --> 01:12:38,640
and it appears that when you measure

1562
01:12:44,630 --> 01:12:39,780
here

1563
01:12:46,550 --> 01:12:44,640

but you're expecting it whatever you

1564

01:12:48,169 --> 01:12:46,560

measure here you're expecting it to be

1565

01:12:51,830 --> 01:12:48,179

like the audit

1566

01:12:53,510 --> 01:12:51,840

uh phase polarity or spin which is

1567

01:12:55,310 --> 01:12:53,520

typical on the other one you're

1568

01:12:58,310 --> 01:12:55,320

expecting that because you just measured

1569

01:13:01,310 --> 01:12:58,320

it here and when you get that match it

1570

01:13:04,070 --> 01:13:01,320

appears as if this looking here at it

1571

01:13:07,250 --> 01:13:04,080

affected it here right but if you assume

1572

01:13:10,310 --> 01:13:07,260

it already had that because of the way

1573

01:13:12,709 --> 01:13:10,320

they were created if you don't mess with

1574

01:13:16,130 --> 01:13:12,719

it in its flight it'll keep that

1575

01:13:19,750 --> 01:13:16,140

property and and can give you the same

1576

01:13:26,950 --> 01:13:24,470

this is quantum phenomena is real when

1577

01:13:30,169 --> 01:13:26,960

it's really not it's just standard

1578

01:13:33,590 --> 01:13:30,179

mechanics that's been misinterpreted

1579

01:13:35,990 --> 01:13:33,600

because of this little difference in the

1580

01:13:38,750 --> 01:13:36,000

com Computing style which takes into

1581

01:13:41,630 --> 01:13:38,760

account the wave properties

1582

01:13:44,030 --> 01:13:41,640

of particles better than standard

1583

01:13:45,890 --> 01:13:44,040

statistical analysis of that same

1584

01:13:48,350 --> 01:13:45,900

information sure sure I love this

1585

01:13:50,930 --> 01:13:48,360

conversation and here's the other

1586

01:13:53,330 --> 01:13:50,940

problem with it

1587

01:13:58,130 --> 01:13:53,340

if you have

1588

01:14:00,110 --> 01:13:58,140

an entangled pair and the the statements

1589

01:14:01,610 --> 01:14:00,120

from physicists are it doesn't matter

1590

01:14:04,070 --> 01:14:01,620

the distance it could be on the other

1591

01:14:05,990 --> 01:14:04,080

side of the universe okay well you know

1592

01:14:09,110 --> 01:14:06,000

what I I don't know about you but 80

1593

01:14:12,590 --> 01:14:09,120

billion light years is a long friggin

1594

01:14:14,810 --> 01:14:12,600

chunk of distance right okay so an

1595

01:14:17,450 --> 01:14:14,820

entangled pair let's let's cut that

1596

01:14:18,550 --> 01:14:17,460

distance in half let's say 40 billion

1597

01:14:22,250 --> 01:14:18,560

light years

1598

01:14:26,570 --> 01:14:22,260

there is no way there's no way on the

1599

01:14:29,510 --> 01:14:26,580

other end to confirm this the change in

1600

01:14:31,910 --> 01:14:29,520

state of the particle because the

1601
01:14:34,130 --> 01:14:31,920
communication back to here is going to

1602
01:14:36,709 --> 01:14:34,140
happen at the speed of light so we're

1603
01:14:39,350 --> 01:14:36,719
not going to hear from the scientists on

1604
01:14:42,169 --> 01:14:39,360
the other end yeah it changed we're not

1605
01:14:47,330 --> 01:14:42,179
going to hear that for how many years

1606
01:14:49,310 --> 01:14:47,340
40 billion yeah right yeah so that that

1607
01:14:52,130 --> 01:14:49,320
part of it doesn't make any sense you

1608
01:14:55,669 --> 01:14:52,140
can't look and see right you can't look

1609
01:14:58,189 --> 01:14:55,679
that fast well if one thing that's for

1610
01:14:59,870 --> 01:14:58,199
sure with quantum mechanics it's if you

1611
01:15:02,810 --> 01:14:59,880
think you understand it you really don't

1612
01:15:05,810 --> 01:15:02,820
because most of the time it just doesn't

1613
01:15:08,330 --> 01:15:05,820

make sense and that to me is a sign

1614

01:15:10,010 --> 01:15:08,340

there's something wrong with it there's

1615

01:15:12,050 --> 01:15:10,020

something you know like Einstein said

1616

01:15:13,910 --> 01:15:12,060

it's incomplete there's something wrong

1617

01:15:17,330 --> 01:15:13,920

we don't understand

1618

01:15:21,290 --> 01:15:17,340

and once we understand it it's all going

1619

01:15:23,450 --> 01:15:21,300

to make sense and I just don't get all

1620

01:15:25,850 --> 01:15:23,460

excited about epr

1621

01:15:28,669 --> 01:15:25,860

because I think it's just a misinterpret

1622

01:15:31,610 --> 01:15:28,679

and misinterpretation of what's actually

1623

01:15:35,090 --> 01:15:31,620

happening well I I love the way that

1624

01:15:38,169 --> 01:15:35,100

physicists because I don't understand uh

1625

01:15:41,149 --> 01:15:38,179

uh symbols and algorithms okay I don't

1626

01:15:44,450 --> 01:15:41,159

and you know some crazy white board or

1627

01:15:46,669 --> 01:15:44,460

some presentation and and you know and

1628

01:15:49,070 --> 01:15:46,679

uh PowerPoint and and seeing the stuff

1629

01:15:51,290 --> 01:15:49,080

get get worked out I don't understand it

1630

01:15:54,830 --> 01:15:51,300

but physicists

1631

01:15:57,130 --> 01:15:54,840

their job is to explain to us what the

1632

01:16:00,790 --> 01:15:57,140

equations mean so we understand it right

1633

01:16:03,770 --> 01:16:00,800

and to go over and over and over again

1634

01:16:05,090 --> 01:16:03,780

these these principles explained in this

1635

01:16:09,770 --> 01:16:05,100

way

1636

01:16:13,310 --> 01:16:09,780

science fiction and I think it's more

1637

01:16:17,149 --> 01:16:13,320

woo than you know telekinesis for

1638

01:16:19,130 --> 01:16:17,159

example it's uh it's way out there

1639

01:16:22,010 --> 01:16:19,140

um but I do want to Circle back really

1640

01:16:24,709 --> 01:16:22,020

quick we need to spend some time

1641

01:16:26,570 --> 01:16:24,719

um on this slip drive because with all

1642

01:16:30,290 --> 01:16:26,580

this conversation that we've had now

1643

01:16:34,610 --> 01:16:30,300

about gravity and anti-gravity

1644

01:16:39,530 --> 01:16:34,620

um the slip Drive needs to be built how

1645

01:16:42,649 --> 01:16:39,540

do you see that and the the lethal side

1646

01:16:46,970 --> 01:16:42,659

of it which I told you we would come

1647

01:16:49,850 --> 01:16:46,980

back to that that amount of energy in a

1648

01:16:52,070 --> 01:16:49,860

gravitational field

1649

01:16:54,590 --> 01:16:52,080

um you know we're all afraid of X-ray

1650

01:16:56,510 --> 01:16:54,600

machines and we're all afraid of you

1651
01:16:58,310 --> 01:16:56,520
know some kind of electromagnetic

1652
01:17:01,010 --> 01:16:58,320
interference

1653
01:17:03,350 --> 01:17:01,020
um is it is it dangerous is it something

1654
01:17:05,030 --> 01:17:03,360
that that can be used in the presence of

1655
01:17:07,250 --> 01:17:05,040
humans

1656
01:17:08,750 --> 01:17:07,260
um and and it and if it could how do we

1657
01:17:12,290 --> 01:17:08,760
build these things

1658
01:17:15,649 --> 01:17:12,300
yeah we need to go over the slip wave

1659
01:17:18,110 --> 01:17:15,659
Theory just so you understand when you

1660
01:17:21,010 --> 01:17:18,120
create the slipway what you do basically

1661
01:17:24,890 --> 01:17:21,020
very basically is you pull space apart

1662
01:17:27,950 --> 01:17:24,900
the less space is there you're going to

1663
01:17:31,310 --> 01:17:27,960

affect the the two properties of space

1664

01:17:33,290 --> 01:17:31,320

permittivity and permeability so when

1665

01:17:35,630 --> 01:17:33,300

you have contracted space according to

1666

01:17:39,850 --> 01:17:35,640

my theory permeability and permeability

1667

01:17:43,130 --> 01:17:39,860

increase light slows down

1668

01:17:45,350 --> 01:17:43,140

this is known math here this is

1669

01:17:47,810 --> 01:17:45,360

discovered by James Clerk Maxwell C

1670

01:17:50,450 --> 01:17:47,820

equals 1 over the square root of

1671

01:17:53,750 --> 01:17:50,460

permittivity times permeability C being

1672

01:17:56,030 --> 01:17:53,760

the speed of light so if we affect these

1673

01:17:58,790 --> 01:17:56,040

two things these two properties of space

1674

01:18:02,209 --> 01:17:58,800

by using a magnetic field or an

1675

01:18:04,910 --> 01:18:02,219

electrogrammatic field you know and we

1676

01:18:07,130 --> 01:18:04,920

pull space apart and which is what

1677

01:18:08,709 --> 01:18:07,140

happens when you rotate space or you

1678

01:18:12,290 --> 01:18:08,719

twist space

1679

01:18:14,209 --> 01:18:12,300

both cause a stretching phenomena and

1680

01:18:16,910 --> 01:18:14,219

that's what you want to do when you do

1681

01:18:19,970 --> 01:18:16,920

that space thins out permittivity and

1682

01:18:22,669 --> 01:18:19,980

permeability will drop and and that's

1683

01:18:24,950 --> 01:18:22,679

good news well what happened to the

1684

01:18:27,790 --> 01:18:24,960

physical though

1685

01:18:32,090 --> 01:18:27,800

you're inside of this bubble the space

1686

01:18:34,729 --> 01:18:32,100

the field the the the gravity or the

1687

01:18:35,930 --> 01:18:34,739

anti-gravity that is generated using

1688

01:18:39,110 --> 01:18:35,940

this technique

1689

01:18:41,149 --> 01:18:39,120

both are pulling space apart doesn't

1690

01:18:43,790 --> 01:18:41,159

pull your atoms in your body or the

1691

01:18:45,490 --> 01:18:43,800

atoms in the spaceship apart they remain

1692

01:18:50,209 --> 01:18:45,500

essentially right where they're at

1693

01:18:52,610 --> 01:18:50,219

they're just now massless or weightless

1694

01:18:54,350 --> 01:18:52,620

which is what you need a photon can go

1695

01:18:58,209 --> 01:18:54,360

at the maximum speed because it's

1696

01:19:01,850 --> 01:18:58,219

massless right that's no accident

1697

01:19:04,669 --> 01:19:01,860

and and what you do is you thin out

1698

01:19:08,090 --> 01:19:04,679

space so that instead of being in a

1699

01:19:10,910 --> 01:19:08,100

space that has a lot of permittivity and

1700

01:19:12,950 --> 01:19:10,920

permeability which affect how the

1701

01:19:14,870 --> 01:19:12,960

electrostatic field and the magnetic

1702

01:19:17,209 --> 01:19:14,880

field all particles are made of those

1703

01:19:20,930 --> 01:19:17,219

two the magnetic field and the

1704

01:19:24,290 --> 01:19:20,940

electrostatic field together uh glide

1705

01:19:26,870 --> 01:19:24,300

through space so if you pull space apart

1706

01:19:28,250 --> 01:19:26,880

it's almost nothing there it's like that

1707

01:19:30,649 --> 01:19:28,260

whole thing is moving through

1708

01:19:32,209 --> 01:19:30,659

nothingness which means it can move very

1709

01:19:34,430 --> 01:19:32,219

fast now

1710

01:19:37,130 --> 01:19:34,440

and so that's very important with the

1711

01:19:40,790 --> 01:19:37,140

slip wave model you're in your own realm

1712

01:19:42,290 --> 01:19:40,800

just like Bob Lazar said inside of that

1713

01:19:45,110 --> 01:19:42,300

ship you're just kind of floating around

1714

01:19:47,209 --> 01:19:45,120

you could be going 10 000 miles an hour

1715

01:19:48,830 --> 01:19:47,219

and this you're floating in the ship you

1716

01:19:50,810 --> 01:19:48,840

have no if you have no window you

1717

01:19:54,169 --> 01:19:50,820

wouldn't even know you would feel no

1718

01:19:56,450 --> 01:19:54,179

inertia and that's important you have to

1719

01:19:57,910 --> 01:19:56,460

render all the mass of your ship your

1720

01:19:59,830 --> 01:19:57,920

body everything

1721

01:20:03,890 --> 01:19:59,840

inertialists

1722

01:20:06,229 --> 01:20:03,900

it starts even when it starts moving you

1723

01:20:08,990 --> 01:20:06,239

don't have inertia you feel nothing

1724

01:20:11,470 --> 01:20:09,000

really so it's not like a car

1725

01:20:14,870 --> 01:20:11,480

accelerating or right right

1726

01:20:17,270 --> 01:20:14,880

if you did and then and they've been

1727

01:20:20,030 --> 01:20:17,280

known to do this at 10 000 miles an hour

1728

01:20:23,450 --> 01:20:20,040

to do a right turn the beings in there

1729

01:20:26,630 --> 01:20:23,460

would be crushed your bones would crush

1730

01:20:29,750 --> 01:20:26,640

yeah you would be jelly yeah um and and

1731

01:20:31,669 --> 01:20:29,760

that doesn't happen and it it needs not

1732

01:20:33,410 --> 01:20:31,679

to happen if you're going to be able to

1733

01:20:35,630 --> 01:20:33,420

move at these speed especially when you

1734

01:20:37,490 --> 01:20:35,640

approach the speed of light you have to

1735

01:20:40,729 --> 01:20:37,500

cancel out all of the Lorenz

1736

01:20:42,890 --> 01:20:40,739

Transformations I I time dilations

1737

01:20:44,930 --> 01:20:42,900

canceled out actually time moves a

1738

01:20:46,310 --> 01:20:44,940

little faster when you're in the slip

1739

01:20:49,250 --> 01:20:46,320

wave

1740

01:20:54,229 --> 01:20:49,260

um attraction of length it doesn't slow

1741

01:20:55,970 --> 01:20:54,239

down time goes faster so why would age

1742

01:20:58,910 --> 01:20:55,980

faster

1743

01:21:01,790 --> 01:20:58,920

oh it's it's minuscule oh it's minuscule

1744

01:21:04,250 --> 01:21:01,800

okay but it's not freezing it's not it's

1745

01:21:06,770 --> 01:21:04,260

as if you're not moving at all if you

1746

01:21:09,770 --> 01:21:06,780

were to go out and space Lorenz could

1747

01:21:14,390 --> 01:21:09,780

tell you about this go out and and move

1748

01:21:16,310 --> 01:21:14,400

not move relative to space at all if you

1749

01:21:18,410 --> 01:21:16,320

could cancel all your emotions we got

1750

01:21:20,630 --> 01:21:18,420

all these motions we're in the earth

1751

01:21:23,510 --> 01:21:20,640

going around the sun the sun going

1752

01:21:26,630 --> 01:21:23,520

around the Galaxy the galaxy moving if

1753

01:21:28,790 --> 01:21:26,640

you were to cancel all those out your

1754

01:21:34,209 --> 01:21:28,800

clock would be going faster than anybody

1755

01:21:40,189 --> 01:21:37,250

what happens here in the slip wave is

1756

01:21:41,930 --> 01:21:40,199

the same it's equivalent to that so now

1757

01:21:44,750 --> 01:21:41,940

your clock is suddenly you know you're

1758

01:21:49,070 --> 01:21:44,760

in like what I call absolute time

1759

01:21:52,370 --> 01:21:49,080

uh this time it's like if it takes you

1760

01:21:55,070 --> 01:21:52,380

let's say going to Proxima Centauri 4.2

1761

01:21:57,410 --> 01:21:55,080

light years if it takes you at light

1762

01:21:59,090 --> 01:21:57,420

speed 4.2 light years to get there if

1763

01:22:01,669 --> 01:21:59,100

you're in the slip wave you get there in

1764

01:22:03,350 --> 01:22:01,679

15 minutes let's say you go 50 000 times

1765

01:22:05,930 --> 01:22:03,360

the speed of light

1766

01:22:07,970 --> 01:22:05,940

it takes you just 15 minutes you look at

1767

01:22:09,709 --> 01:22:07,980

your clock it's 15 minutes of people on

1768

01:22:11,570 --> 01:22:09,719

earth look at their clock it's 15

1769

01:22:14,510 --> 01:22:11,580

minutes another 15 minutes you're back

1770

01:22:18,189 --> 01:22:14,520

it's only 30 minutes for everybody so I

1771

01:22:21,770 --> 01:22:18,199

could order a pizza in Alpha Centauri

1772

01:22:25,130 --> 01:22:21,780

get it straight it would be faster than

1773

01:22:29,169 --> 01:22:25,140

Domino's yeah so

1774

01:22:32,810 --> 01:22:29,179

um okay let me understand this

1775

01:22:35,390 --> 01:22:32,820

the slip wave ship is sitting in front

1776

01:22:37,010 --> 01:22:35,400

of me it could be in orbit outside of

1777

01:22:38,570 --> 01:22:37,020

Earth or it could be in our atmosphere

1778

01:22:40,669 --> 01:22:38,580

it doesn't matter but it's sitting in

1779

01:22:43,070 --> 01:22:40,679

front of me and it takes off is it a

1780

01:22:44,630 --> 01:22:43,080

gradual increase in speed or does it

1781

01:22:48,590 --> 01:22:44,640

disappear

1782

01:22:51,410 --> 01:22:48,600

it's pretty much instantaneous it would

1783

01:22:53,990 --> 01:22:51,420

disappear right yeah if you yeah cranked

1784

01:22:57,290 --> 01:22:54,000

it if you didn't do any gradual power up

1785

01:23:00,890 --> 01:22:57,300

if you just is as fast as the current

1786

01:23:04,729 --> 01:23:00,900

can move through a wire which is pretty

1787

01:23:06,410 --> 01:23:04,739

fast I think right um it's very nearly

1788

01:23:08,750 --> 01:23:06,420

instantaneous

1789

01:23:11,750 --> 01:23:08,760

well the current Through the Wire is

1790

01:23:14,870 --> 01:23:11,760

speed of light right yeah there's people

1791

01:23:18,530 --> 01:23:14,880

that argue about that yeah yeah whatever

1792

01:23:21,770 --> 01:23:18,540

whatever but it's fast the ship would

1793

01:23:25,370 --> 01:23:21,780

disappear you wouldn't see it move

1794

01:23:28,669 --> 01:23:25,380

no I I but you know you you don't have

1795

01:23:30,350 --> 01:23:28,679

to accelerate that fast you can modulate

1796

01:23:32,810 --> 01:23:30,360

the waveform

1797

01:23:33,350 --> 01:23:32,820

so instead of doing that

1798

01:23:36,110 --> 01:23:33,360

um

1799

01:23:38,330 --> 01:23:36,120

I think that they must use this

1800

01:23:41,750 --> 01:23:38,340

modulation technology

1801
01:23:45,350 --> 01:23:41,760
because I've seen it ships light up the

1802
01:23:50,090 --> 01:23:45,360
the elongated the tubular type the cigar

1803
01:23:51,850 --> 01:23:50,100
shape I've seen in certain camera views

1804
01:23:56,330 --> 01:23:51,860
there's a

1805
01:23:58,370 --> 01:23:56,340
it's a sliding motion which is like

1806
01:24:01,010 --> 01:23:58,380
rolling a boat through the water you

1807
01:24:03,050 --> 01:24:01,020
know when you move the wave the magnetic

1808
01:24:04,910 --> 01:24:03,060
wave or the electrostatic wave you go

1809
01:24:07,430 --> 01:24:04,920
like this it's Newton's Laws you know

1810
01:24:10,010 --> 01:24:07,440
move this way moving that way right

1811
01:24:13,669 --> 01:24:10,020
right and and um

1812
01:24:15,770 --> 01:24:13,679
and they and and crop circles

1813
01:24:17,830 --> 01:24:15,780

you know you see the grass laying down

1814

01:24:20,030 --> 01:24:17,840

either clockwise or counterclockwise

1815

01:24:22,970 --> 01:24:20,040

obviously they're moving the field

1816

01:24:25,850 --> 01:24:22,980

whether probably magnetic crop circle

1817

01:24:29,030 --> 01:24:25,860

ones are probably magnetic and they're

1818

01:24:31,070 --> 01:24:29,040

moving the field around in a rotation to

1819

01:24:34,850 --> 01:24:31,080

keep the ship level

1820

01:24:37,610 --> 01:24:34,860

it might be unstable if you just had the

1821

01:24:41,990 --> 01:24:37,620

current on hard on all the magnets all

1822

01:24:43,850 --> 01:24:42,000

at once it'd be hard to keep it from

1823

01:24:45,709 --> 01:24:43,860

floating

1824

01:24:47,630 --> 01:24:45,719

um because hard on is going to make it

1825

01:24:48,950 --> 01:24:47,640

you know shoot up so you got to turn it

1826

01:24:52,310 --> 01:24:48,960

on and off on and off I don't know

1827

01:24:55,790 --> 01:24:52,320

sweeping around gives it a nice stable

1828

01:24:57,950 --> 01:24:55,800

kind of a uh platform which is what you

1829

01:24:59,930 --> 01:24:57,960

want when you're hovering so I would

1830

01:25:04,310 --> 01:24:59,940

fully expect that there's modes of

1831

01:25:08,530 --> 01:25:04,320

operation that are used so that you know

1832

01:25:12,649 --> 01:25:08,540

the the emitters are not all the time on

1833

01:25:16,490 --> 01:25:12,659

unless you're in deep space then they

1834

01:25:18,649 --> 01:25:16,500

must never drop the field once you get

1835

01:25:21,649 --> 01:25:18,659

anywhere close to the speed of light or

1836

01:25:23,630 --> 01:25:21,659

Beyond if you drop the field when you're

1837

01:25:26,630 --> 01:25:23,640

moving beyond the speed of light

1838

01:25:29,450 --> 01:25:26,640

you're dead there's no talking to Scotty

1839

01:25:32,930 --> 01:25:29,460

there's no going for help there's no

1840

01:25:36,890 --> 01:25:32,940

adjusting this anything it's over you're

1841

01:25:38,870 --> 01:25:36,900

a black hole hurtling at speed of light

1842

01:25:42,290 --> 01:25:38,880

towards whatever

1843

01:25:45,649 --> 01:25:42,300

are just below and then just then stop

1844

01:25:49,189 --> 01:25:45,659

it's no there's no you'll slow down

1845

01:25:51,890 --> 01:25:49,199

you'll feel an instant before you die

1846

01:25:54,770 --> 01:25:51,900

you might notice inertia just kicked in

1847

01:25:58,070 --> 01:25:54,780

and now you're at the speed of light and

1848

01:26:01,010 --> 01:25:58,080

your ship flattens to collapses to a

1849

01:26:03,250 --> 01:26:01,020

flat pancake you're you're pulled back

1850

01:26:08,410 --> 01:26:03,260

you can't move everything is crushed

1851

01:26:11,390 --> 01:26:08,420

Mass goes up to near Infinity right

1852

01:26:14,570 --> 01:26:11,400

how did we survive

1853

01:26:16,910 --> 01:26:14,580

you don't do that you what what I would

1854

01:26:20,810 --> 01:26:16,920

recommend if I'm building a ship triple

1855

01:26:22,850 --> 01:26:20,820

redundancy for the for the emitters if

1856

01:26:25,189 --> 01:26:22,860

one you have to have circuitry in there

1857

01:26:27,649 --> 01:26:25,199

that's looking at the current flow

1858

01:26:29,870 --> 01:26:27,659

looking at all the the things they can

1859

01:26:32,570 --> 01:26:29,880

look at and saying oh there's about to

1860

01:26:35,270 --> 01:26:32,580

be a problem here the current's gonna

1861

01:26:38,629 --> 01:26:35,280

there's it's overheating whatever

1862

01:26:41,149 --> 01:26:38,639

switch on the second one bring it up to

1863

01:26:43,550 --> 01:26:41,159

the same power so if the other one gives

1864

01:26:46,490 --> 01:26:43,560

out you have the second coil the second

1865

01:26:49,129 --> 01:26:46,500

emitter going on

1866

01:26:52,550 --> 01:26:49,139

just to prevent that and you have to

1867

01:26:55,129 --> 01:26:52,560

then come out of the warp speed using

1868

01:26:57,649 --> 01:26:55,139

the fields which you would have to kind

1869

01:27:00,110 --> 01:26:57,659

of like reverse so that you know you

1870

01:27:03,350 --> 01:27:00,120

slow down or your stop or whatever so

1871

01:27:06,410 --> 01:27:03,360

that you're safe you have to not be

1872

01:27:08,149 --> 01:27:06,420

moving relative to space at more than

1873

01:27:10,970 --> 01:27:08,159

you know the speed of light or anything

1874

01:27:12,229 --> 01:27:10,980

it's very lethal very dangerous stuff

1875

01:27:14,330 --> 01:27:12,239

you got to know what you're doing you

1876

01:27:16,550 --> 01:27:14,340

can't be fooling around here you know

1877

01:27:18,590 --> 01:27:16,560

this is not building rockets and hoping

1878

01:27:21,229 --> 01:27:18,600

that you know they have enough thrust

1879

01:27:24,110 --> 01:27:21,239

you know well we'll just uh give it a

1880

01:27:25,850 --> 01:27:24,120

few more seconds if it's not right yeah

1881

01:27:28,910 --> 01:27:25,860

somebody's got somebody's got to be

1882

01:27:31,370 --> 01:27:28,920

Chuck Yeager right yeah nobody's going

1883

01:27:34,430 --> 01:27:31,380

to do it for have you seen

1884

01:27:37,669 --> 01:27:34,440

uh the new TV show and it's amazing have

1885

01:27:41,330 --> 01:27:37,679

you seen the new TV show hello tomorrow

1886

01:27:42,890 --> 01:27:41,340

okay it's on Apple TV so go ahead I'll

1887

01:27:45,470 --> 01:27:42,900

give you the permission I think I have

1888

01:27:47,689 --> 01:27:45,480

Apple TV yeah to take out your pencil

1889

01:27:49,850 --> 01:27:47,699

take out your pen write it down hello

1890

01:27:52,310 --> 01:27:49,860

tomorrow and

1891

01:27:58,729 --> 01:27:52,320

um it's a great it's Science Fiction

1892

01:28:00,470 --> 01:27:58,739

it's a TV series and now the the design

1893

01:28:02,750 --> 01:28:00,480

of the show you have to see it to

1894

01:28:04,149 --> 01:28:02,760

understand what I'm talking about but

1895

01:28:06,010 --> 01:28:04,159

picture

1896

01:28:14,629 --> 01:28:06,020

1955

1897

01:28:20,050 --> 01:28:14,639

era I love that error so that's the

1898

01:28:29,330 --> 01:28:25,610

1955 Lincoln car right the Chrome the

1899

01:28:31,750 --> 01:28:29,340

fins right it's there except there's no

1900

01:28:35,090 --> 01:28:31,760

tires

1901

01:28:37,669 --> 01:28:35,100

they're floating and and so that's the

1902

01:28:40,189 --> 01:28:37,679

hello tomorrow part right and they're

1903

01:28:42,649 --> 01:28:40,199

building uh cities on the moon and they

1904

01:28:46,430 --> 01:28:42,659

have the but but it's all this Buck

1905

01:28:47,750 --> 01:28:46,440

Rogers uh Vision it's really cool but

1906

01:28:52,790 --> 01:28:47,760

anyway

1907

01:28:55,729 --> 01:28:52,800

it's these anti-grav cars now that you

1908

01:29:00,229 --> 01:28:55,739

the steering wheel it's all there the

1909

01:29:03,470 --> 01:29:00,239

radio the stick shift but no wheels

1910

01:29:07,629 --> 01:29:03,480

could the slip Drive

1911

01:29:10,850 --> 01:29:07,639

be retrofitted into our world

1912

01:29:13,010 --> 01:29:10,860

that's like the hello tomorrow flying

1913

01:29:14,870 --> 01:29:13,020

car that's what I talk about in a book

1914

01:29:17,030 --> 01:29:14,880

just what you just said I call it the

1915

01:29:17,709 --> 01:29:17,040

supercar

1916

01:29:21,169 --> 01:29:17,719

um

1917

01:29:24,050 --> 01:29:21,179

I want that I think everybody wants that

1918

01:29:27,830 --> 01:29:24,060

and and it would change the world in so

1919

01:29:29,689 --> 01:29:27,840

many positive ways a super ambulance uh

1920

01:29:31,930 --> 01:29:29,699

you know it takes an ambulance to get to

1921

01:29:35,570 --> 01:29:31,940

my house maybe five minutes or something

1922

01:29:38,390 --> 01:29:35,580

well I could cut that down to like less

1923

01:29:40,070 --> 01:29:38,400

than 15 20 seconds because all it's got

1924

01:29:41,090 --> 01:29:40,080

to do is once you're in it go straight

1925

01:29:42,470 --> 01:29:41,100

up

1926

01:29:44,930 --> 01:29:42,480

point

1927

01:29:47,390 --> 01:29:44,940

you know a thousand miles an hour for

1928

01:29:48,169 --> 01:29:47,400

one quarter of a second and then come

1929

01:29:50,750 --> 01:29:48,179

down

1930

01:29:54,470 --> 01:29:50,760

and and you're there so the Supercar

1931

01:29:56,570 --> 01:29:54,480

what you're describing is something I

1932

01:29:59,629 --> 01:29:56,580

want to bring into this world I want to

1933

01:30:01,610 --> 01:29:59,639

be able for our children at least to be

1934

01:30:04,250 --> 01:30:01,620

able to have those cars I mean I've

1935

01:30:08,770 --> 01:30:04,260

always had this fantasy of getting in my

1936

01:30:13,669 --> 01:30:08,780

super car and having breakfast in France

1937

01:30:16,610 --> 01:30:13,679

lunch in Rome and then be back home for

1938

01:30:19,729 --> 01:30:16,620

for a nice nap in the middle of the

1939

01:30:23,930 --> 01:30:19,739

afternoon which is very doable or taking

1940

01:30:26,270 --> 01:30:23,940

a my wife on a trip to Tahiti and

1941

01:30:28,550 --> 01:30:26,280

instead of having to fly on a plane for

1942

01:30:32,209 --> 01:30:28,560

two days I get there in 10 minutes

1943

01:30:32,990 --> 01:30:32,219

because my car can go 30 000 miles an

1944

01:30:35,629 --> 01:30:33,000

hour

1945

01:30:38,390 --> 01:30:35,639

and it's not going to take any time at

1946

01:30:42,830 --> 01:30:38,400

all you know we're just getting up to

1947

01:30:45,770 --> 01:30:42,840

speed now with with GPS and the cars

1948

01:30:48,110 --> 01:30:45,780

that drive themselves well we just bolt

1949

01:30:50,810 --> 01:30:48,120

that technology in upgraded some because

1950

01:30:53,510 --> 01:30:50,820

you need to have better radar and and

1951

01:30:57,169 --> 01:30:53,520

better processing system in a Global

1952

01:30:59,030 --> 01:30:57,179

Network of awareness of where all the

1953

01:31:00,649 --> 01:30:59,040

other supercars are and where they're

1954

01:31:02,810 --> 01:31:00,659

going

1955

01:31:05,990 --> 01:31:02,820

um so that it can just have the same

1956

01:31:09,649 --> 01:31:06,000

speed limits you know you still he he

1957

01:31:12,410 --> 01:31:09,659

still can't go over 80 miles an hour in

1958

01:31:15,530 --> 01:31:12,420

Montana well you locally you could keep

1959

01:31:17,510 --> 01:31:15,540

speed limits right right yeah keep speed

1960

01:31:19,850 --> 01:31:17,520

limits but you wouldn't need a road you

1961

01:31:21,770 --> 01:31:19,860

you know you could have levels you can

1962

01:31:24,110 --> 01:31:21,780

have like 10 levels you know no more

1963

01:31:26,090 --> 01:31:24,120

traffic jams right right and I love that

1964

01:31:29,870 --> 01:31:26,100

I love that we've been promised that for

1965

01:31:33,050 --> 01:31:29,880

so many years I thought for sure in 1970

1966

01:31:35,990 --> 01:31:33,060

right I was I was seven years old in

1967

01:31:39,470 --> 01:31:36,000

1970 you and I are the same age so you

1968

01:31:43,310 --> 01:31:39,480

were 70 and 7 years old in 1970. what

1969

01:31:46,790 --> 01:31:43,320

were we promised and I I was completely

1970

01:31:49,070 --> 01:31:46,800

convinced by the year 2000 that you and

1971

01:31:52,010 --> 01:31:49,080

I were going to be at the Holiday Inn

1972

01:31:55,129 --> 01:31:52,020

Satellite Hotel orbiting the Earth right

1973

01:31:58,610 --> 01:31:55,139

yeah you know I I thought that the

1974

01:32:00,770 --> 01:31:58,620

Jetsons was that was a guarantee well

1975

01:32:03,169 --> 01:32:00,780

the Supercar can you can do all you can

1976

01:32:05,990 --> 01:32:03,179

go to the moon no problem go to Mars 15

1977

01:32:07,910 --> 01:32:06,000

minutes it's and I suspect they're

1978

01:32:09,649 --> 01:32:07,920

already doing this because I I just see

1979

01:32:12,649 --> 01:32:09,659

some little funny things going on on

1980

01:32:14,030 --> 01:32:12,659

Mars like how did those Rovers keep

1981

01:32:16,490 --> 01:32:14,040

getting cleaned

1982

01:32:19,790 --> 01:32:16,500

you know you see a picture it's got all

1983

01:32:22,250 --> 01:32:19,800

this Mars dust on it then a few months

1984

01:32:23,590 --> 01:32:22,260

later it's perfectly clean again who

1985

01:32:25,970 --> 01:32:23,600

cleaned that

1986

01:32:29,830 --> 01:32:25,980

they have dusters that come out it's a

1987

01:32:32,090 --> 01:32:29,840

robot arm yeah oh do they no I'm kidding

1988

01:32:33,950 --> 01:32:32,100

I said maybe they have some sort of

1989

01:32:36,770 --> 01:32:33,960

cleaning system I don't know about it I

1990

01:32:39,770 --> 01:32:36,780

I should work they keep breaking but

1991

01:32:42,229 --> 01:32:39,780

then miraculously they're fixed again I

1992

01:32:45,050 --> 01:32:42,239

should work for NASA how do we clean

1993

01:32:47,570 --> 01:32:45,060

them dude computer dusters you get them

1994

01:32:50,030 --> 01:32:47,580

and get them at at Fry's

1995

01:32:53,149 --> 01:32:50,040

you get to get a six-pack yeah I love

1996

01:32:56,950 --> 01:32:53,159

those things I do too I live on them

1997

01:33:01,010 --> 01:32:56,960

um uh but okay all of this sounds great

1998

01:33:03,229 --> 01:33:01,020

but where's the power coming from and

1999

01:33:06,050 --> 01:33:03,239

what kind of power supply

2000

01:33:08,330 --> 01:33:06,060

it that that's the part that needs to

2001
01:33:09,770 --> 01:33:08,340
get worked out now what what's your

2002
01:33:12,050 --> 01:33:09,780
solution

2003
01:33:14,209 --> 01:33:12,060
well if you're doing the magnetic one

2004
01:33:17,090 --> 01:33:14,219
that takes immense current it's probably

2005
01:33:19,729 --> 01:33:17,100
megawatts that's you got and that's got

2006
01:33:21,229 --> 01:33:19,739
to be fitting into something the size of

2007
01:33:24,649 --> 01:33:21,239
a basketball

2008
01:33:27,530 --> 01:33:24,659
uh so right right right well Stephen

2009
01:33:29,390 --> 01:33:27,540
Greer is he supposedly is in contact

2010
01:33:33,169 --> 01:33:29,400
with some people who've got Zero Point

2011
01:33:35,930 --> 01:33:33,179
Energy kind of things look I know of a

2012
01:33:40,629 --> 01:33:35,940
person who used to work at a power

2013
01:33:43,729 --> 01:33:40,639

company who will remain nameless

2014

01:33:46,729 --> 01:33:43,739

who told me they worked in the patents

2015

01:33:49,010 --> 01:33:46,739

department and they said we have patents

2016

01:33:53,750 --> 01:33:49,020

that change the world free energy

2017

01:33:58,790 --> 01:33:56,990

we buy them and we sit on them

2018

01:34:01,490 --> 01:33:58,800

so they're already out there Stephen

2019

01:34:05,510 --> 01:34:01,500

Greer he says he knows some people solid

2020

01:34:08,270 --> 01:34:05,520

state designs so that that I think is

2021

01:34:10,790 --> 01:34:08,280

probably already done and I I'm I want

2022

01:34:12,290 --> 01:34:10,800

to work on some I have some ideas I'll I

2023

01:34:15,350 --> 01:34:12,300

have my own little lab in the garage

2024

01:34:17,750 --> 01:34:15,360

I'll try and see what I can do there

2025

01:34:19,669 --> 01:34:17,760

um but for the electric gravitic model I

2026

01:34:22,790 --> 01:34:19,679

don't think you need anywhere near the

2027

01:34:24,590 --> 01:34:22,800

power you need for a magnetic so that's

2028

01:34:28,370 --> 01:34:24,600

going to be the way to go

2029

01:34:31,189 --> 01:34:28,380

the Thomas Townsend Brown method and I

2030

01:34:33,709 --> 01:34:31,199

think that's very doable with ordinary

2031

01:34:37,610 --> 01:34:33,719

technologies that we like batteries

2032

01:34:40,610 --> 01:34:37,620

batteries lithium batteries or or maybe

2033

01:34:44,870 --> 01:34:40,620

the the I saw some designs for a very

2034

01:34:48,410 --> 01:34:44,880

small Nuclear Power Systems uh

2035

01:34:51,070 --> 01:34:48,420

I I think yeah he had working models

2036

01:34:54,470 --> 01:34:51,080

supposedly and I'm sure he didn't have

2037

01:34:57,649 --> 01:34:54,480

massive power supplies for this stuff

2038

01:35:01,129 --> 01:34:57,659

so I'm thinking that's not a it's not as

2039

01:35:04,250 --> 01:35:01,139

nearly as a I will know when I work out

2040

01:35:06,410 --> 01:35:04,260

the calculations which I'm putting into

2041

01:35:09,649 --> 01:35:06,420

a spreadsheet now I'll know how much

2042

01:35:13,070 --> 01:35:09,659

energy and I I will be able to very

2043

01:35:15,410 --> 01:35:13,080

precisely say this is how much energy

2044

01:35:18,410 --> 01:35:15,420

you need to do that so I I'm thinking

2045

01:35:20,350 --> 01:35:18,420

it's going to be a lot lot less than a

2046

01:35:23,090 --> 01:35:20,360

Magneto

2047

01:35:26,570 --> 01:35:23,100

Vortex drive or something of that nature

2048

01:35:29,510 --> 01:35:26,580

right and and and in picturing all of

2049

01:35:33,530 --> 01:35:29,520

this uh especially with uh the slip

2050

01:35:37,370 --> 01:35:33,540

drive but coming up with uh the visuals

2051

01:35:40,850 --> 01:35:37,380

in in my head I almost see something

2052

01:35:44,050 --> 01:35:40,860

that could be stationary I don't want to

2053

01:35:45,610 --> 01:35:44,060

use the word Stargate but I just did

2054

01:35:50,510 --> 01:35:45,620

where

2055

01:35:53,689 --> 01:35:50,520

yeah I love the movie for sure and the

2056

01:35:55,729 --> 01:35:53,699

TV series uh Stargate Universe was the

2057

01:35:56,990 --> 01:35:55,739

best one and it was just two seasons and

2058

01:36:01,189 --> 01:35:57,000

I can't believe they did do a third

2059

01:36:04,990 --> 01:36:01,199

season but anyway the um the idea behind

2060

01:36:08,750 --> 01:36:05,000

this and and even the alcubieri drive

2061

01:36:12,530 --> 01:36:08,760

where you're taking a step in right and

2062

01:36:15,110 --> 01:36:12,540

and is this is it the creation of a

2063

01:36:16,610 --> 01:36:15,120

wormhole or we've or are we folding

2064

01:36:19,010 --> 01:36:16,620

space

2065

01:36:21,350 --> 01:36:19,020

um was this something that the Ancients

2066

01:36:23,270 --> 01:36:21,360

knew about or maybe witnessed and I'm

2067

01:36:25,189 --> 01:36:23,280

just talking about these principles that

2068

01:36:27,709 --> 01:36:25,199

have been there

2069

01:36:30,709 --> 01:36:27,719

um uh for thousands of years these ideas

2070

01:36:31,910 --> 01:36:30,719

have have been uh right there in front

2071

01:36:34,310 --> 01:36:31,920

of us

2072

01:36:35,810 --> 01:36:34,320

um could the slip drive and your

2073

01:36:38,810 --> 01:36:35,820

technology that you're talking about

2074

01:36:42,770 --> 01:36:38,820

right now represents the same thing

2075

01:36:46,330 --> 01:36:42,780

I think a version of it can be used but

2076

01:36:50,510 --> 01:36:46,340

I wrote a chapter on Stargates

2077

01:36:52,390 --> 01:36:50,520

and how I think they would be built very

2078

01:36:55,910 --> 01:36:52,400

high level

2079

01:37:00,590 --> 01:36:55,920

the first thing you what you really want

2080

01:37:02,810 --> 01:37:00,600

to do is open a portal a Gateway and and

2081

01:37:06,410 --> 01:37:02,820

not um

2082

01:37:09,290 --> 01:37:06,420

there's no motion really involved in in

2083

01:37:12,050 --> 01:37:09,300

it other than you walk through or you

2084

01:37:14,750 --> 01:37:12,060

pass through it so how you do this is

2085

01:37:18,169 --> 01:37:14,760

you buy a space again

2086

01:37:19,910 --> 01:37:18,179

and and the the first thing I knew when

2087

01:37:21,530 --> 01:37:19,920

I started writing that chapter I said

2088

01:37:23,090 --> 01:37:21,540

something's going to have to go faster

2089

01:37:24,950 --> 01:37:23,100

in the speed of light

2090

01:37:31,790 --> 01:37:24,960

so

2091

01:37:33,830 --> 01:37:31,800

told me that the other side wants me to

2092

01:37:35,209 --> 01:37:33,840

write a chapter on stargazing I says

2093

01:37:38,450 --> 01:37:35,219

well you know I really don't know that

2094

01:37:39,950 --> 01:37:38,460

much but okay I'm gonna need some help

2095

01:37:42,709 --> 01:37:39,960

because I

2096

01:37:45,229 --> 01:37:42,719

I only have a very vague idea how that

2097

01:37:46,189 --> 01:37:45,239

might work well he says we already have

2098

01:37:49,070 --> 01:37:46,199

them

2099

01:37:51,830 --> 01:37:49,080

first of all according to the psychic

2100

01:37:55,430 --> 01:37:51,840

her name is Tamara Richardson

2101
01:37:59,090 --> 01:37:55,440
and a very good psychic by the way and

2102
01:38:00,229 --> 01:37:59,100
uh amazing psychic and I says well can

2103
01:38:01,610 --> 01:38:00,239
you give me any

2104
01:38:05,930 --> 01:38:01,620
Clues

2105
01:38:07,970 --> 01:38:05,940
he says yeah they use fractal lenses

2106
01:38:10,129 --> 01:38:07,980
since I never heard of that

2107
01:38:12,830 --> 01:38:10,139
sorry I went home and I started writing

2108
01:38:14,330 --> 01:38:12,840
this this is all I know is I need

2109
01:38:16,070 --> 01:38:14,340
something that's going to move light

2110
01:38:18,410 --> 01:38:16,080
faster

2111
01:38:21,470 --> 01:38:18,420
than the speed of light why why would I

2112
01:38:23,390 --> 01:38:21,480
say that because I know the space is

2113
01:38:25,570 --> 01:38:23,400

going to have to be tuned it's going to

2114

01:38:28,729 --> 01:38:25,580

have to vibrate and

2115

01:38:30,649 --> 01:38:28,739

Incredibly high frequencies in order to

2116

01:38:33,350 --> 01:38:30,659

open the portal up

2117

01:38:35,209 --> 01:38:33,360

so you gotta hit space or you know

2118

01:38:38,629 --> 01:38:35,219

framework like they show on the show

2119

01:38:42,590 --> 01:38:38,639

coming out of there using lasers

2120

01:38:45,590 --> 01:38:42,600

and and so forth high-powered lasers you

2121

01:38:47,709 --> 01:38:45,600

shoot it into the fractal lens which I

2122

01:38:50,450 --> 01:38:47,719

found actually exists

2123

01:38:53,209 --> 01:38:50,460

and I never even heard it I just huh

2124

01:38:56,629 --> 01:38:53,219

what a lucky guess this lady is not

2125

01:38:58,970 --> 01:38:56,639

really a physicist and they're saying so

2126

01:39:02,030 --> 01:38:58,980

I look up fractal lenses and it turns

2127

01:39:03,890 --> 01:39:02,040

out I find them on researchgate and I'm

2128

01:39:05,930 --> 01:39:03,900

reading about them and they're made of

2129

01:39:07,910 --> 01:39:05,940

metal materials I bet you you know what

2130

01:39:11,030 --> 01:39:07,920

meta material I do

2131

01:39:13,370 --> 01:39:11,040

now let's see what they do do you know

2132

01:39:16,070 --> 01:39:13,380

what they do precisely here that would

2133

01:39:18,770 --> 01:39:16,080

make light go faster

2134

01:39:21,590 --> 01:39:18,780

uh what the The Meta materials or the

2135

01:39:23,930 --> 01:39:21,600

fractal lenses the fractal lenses which

2136

01:39:28,490 --> 01:39:23,940

are made of the meta materials right are

2137

01:39:31,129 --> 01:39:28,500

designed in a certain way to reduce

2138

01:39:32,090 --> 01:39:31,139

permittivity and permeability back to

2139

01:39:34,550 --> 01:39:32,100

them again

2140

01:39:37,070 --> 01:39:34,560

inside of the material

2141

01:39:38,810 --> 01:39:37,080

according to that equation I gave you C

2142

01:39:41,030 --> 01:39:38,820

equals 1 over the square root of

2143

01:39:44,149 --> 01:39:41,040

permittivity time permanent if I reduce

2144

01:39:47,090 --> 01:39:44,159

that number and and with with this type

2145

01:39:48,350 --> 01:39:47,100

of metamaterial it actually makes

2146

01:39:50,570 --> 01:39:48,360

negative

2147

01:39:52,669 --> 01:39:50,580

it refracts or bends the light in the

2148

01:39:53,390 --> 01:39:52,679

opposite direction

2149

01:39:56,149 --> 01:39:53,400

um

2150

01:39:58,490 --> 01:39:56,159

uh so that okay you can make the

2151
01:40:01,310 --> 01:39:58,500
material slightly negative so that you

2152
01:40:03,590 --> 01:40:01,320
cancel out the actual permittivity and

2153
01:40:05,689 --> 01:40:03,600
permeability in the free space that's

2154
01:40:07,070 --> 01:40:05,699
going through the material now you're at

2155
01:40:10,070 --> 01:40:07,080
zero

2156
01:40:12,350 --> 01:40:10,080
if you tune it right so now they're

2157
01:40:14,030 --> 01:40:12,360
claiming that they shine a light beam

2158
01:40:16,570 --> 01:40:14,040
through it and it goes infinitely fast

2159
01:40:18,709 --> 01:40:16,580
that's their claim

2160
01:40:20,870 --> 01:40:18,719
and I'm not going to argue with it

2161
01:40:22,669 --> 01:40:20,880
because it makes sense if you actually

2162
01:40:23,930 --> 01:40:22,679
have done that so what we should expect

2163
01:40:25,550 --> 01:40:23,940

to see

2164

01:40:28,370 --> 01:40:25,560

so

2165

01:40:30,770 --> 01:40:28,380

but that's the material that's used in

2166

01:40:34,250 --> 01:40:30,780

the Stargate so you can Shine the Light

2167

01:40:37,669 --> 01:40:34,260

Beam through it maybe they do sound as

2168

01:40:43,100 --> 01:40:37,679

well with um so you get a vibration you

2169

01:40:47,930 --> 01:40:44,570

[Music]

2170

01:40:51,229 --> 01:40:47,940

that's okay uh so this is this is where

2171

01:40:53,990 --> 01:40:51,239

I get to ask the doofus question but if

2172

01:40:58,189 --> 01:40:54,000

we step into the light

2173

01:41:02,030 --> 01:40:58,199

what happens to us you will not see any

2174

01:41:03,709 --> 01:41:02,040

light because remember the light going

2175

01:41:06,709 --> 01:41:03,719

through the meta material is

2176
01:41:09,470 --> 01:41:06,719
accelerating Way Beyond this its normal

2177
01:41:11,950 --> 01:41:09,480
speed which is going to have an effect

2178
01:41:17,149 --> 01:41:11,960
of compressing the frequency

2179
01:41:18,770 --> 01:41:17,159
well beyond a bit of frequency okay

2180
01:41:21,530 --> 01:41:18,780
um this is where I'm going to jump in

2181
01:41:23,209 --> 01:41:21,540
and say that sounds like it would affect

2182
01:41:27,410 --> 01:41:23,219
time

2183
01:41:29,629 --> 01:41:27,420
but I don't know about space it can be

2184
01:41:33,310 --> 01:41:29,639
used either way you can make time

2185
01:41:36,770 --> 01:41:33,320
portals the time dimensional portals

2186
01:41:38,629 --> 01:41:36,780
distance portals uh if you know the

2187
01:41:40,970 --> 01:41:38,639
physics of how to tune and how that's

2188
01:41:42,530 --> 01:41:40,980

going to affect space which I have no

2189

01:41:45,890 --> 01:41:42,540

idea

2190

01:41:49,910 --> 01:41:45,900

well Einstein wrote about this okay so

2191

01:41:52,490 --> 01:41:49,920

if we if we consider uh that I'm gonna

2192

01:41:54,530 --> 01:41:52,500

go there the Einstein Rosen Bridge okay

2193

01:41:59,870 --> 01:41:54,540

I'm just gonna go there

2194

01:42:03,070 --> 01:41:59,880

um and he it was let's let's just go

2195

01:42:06,109 --> 01:42:03,080

with the math because he didn't actually

2196

01:42:08,990 --> 01:42:06,119

use the word Stargates or wormholes okay

2197

01:42:12,290 --> 01:42:09,000

that came later uh it was the it was

2198

01:42:16,669 --> 01:42:12,300

extrapolated uh from from the math and

2199

01:42:19,850 --> 01:42:16,679

and it was there but that being said

2200

01:42:22,970 --> 01:42:19,860

um they could exist in nature

2201
01:42:25,550 --> 01:42:22,980
or maybe they could be created as well

2202
01:42:27,830 --> 01:42:25,560
right so now we've got got a little bit

2203
01:42:28,970 --> 01:42:27,840
of a dilemma here because the creation

2204
01:42:30,890 --> 01:42:28,980
of it

2205
01:42:32,750 --> 01:42:30,900
we're talking about a huge amount of

2206
01:42:35,090 --> 01:42:32,760
energy to create something big enough

2207
01:42:38,629 --> 01:42:35,100
for a human to pass through let alone

2208
01:42:40,430 --> 01:42:38,639
just a particle right to pass through so

2209
01:42:43,850 --> 01:42:40,440
that's a huge amount of energy but if

2210
01:42:45,890 --> 01:42:43,860
they exist in nature we just need a

2211
01:42:49,970 --> 01:42:45,900
Thomas guide right we need to times

2212
01:42:53,629 --> 01:42:49,980
where are they okay you've you've taken

2213
01:42:56,090 --> 01:42:53,639

a turn a little bit but it's it's it

2214

01:42:59,090 --> 01:42:56,100

definitely is relatable here it makes

2215

01:43:00,649 --> 01:42:59,100

sense what you're saying yes you can you

2216

01:43:03,169 --> 01:43:00,659

know the first

2217

01:43:06,590 --> 01:43:03,179

Stargate you know with the first one was

2218

01:43:10,370 --> 01:43:06,600

and it does have to do with Einstein

2219

01:43:12,590 --> 01:43:10,380

was the Philadelphia Experiment okay and

2220

01:43:16,669 --> 01:43:12,600

in that experiment they used magnetic

2221

01:43:18,770 --> 01:43:16,679

resonant fields and that was biasing

2222

01:43:23,450 --> 01:43:18,780

space that was affecting space and that

2223

01:43:29,510 --> 01:43:25,850

for cold that's okay

2224

01:43:31,790 --> 01:43:29,520

got a drink gotta drink I do this every

2225

01:43:35,090 --> 01:43:31,800

single night Mark there's a reason why

2226

01:43:39,649 --> 01:43:35,100

this is sitting right next to me yeah so

2227

01:43:41,169 --> 01:43:39,659

that was the first instance of a out of

2228

01:43:44,270 --> 01:43:41,179

control

2229

01:43:46,669 --> 01:43:44,280

dimensional portal that was created in

2230

01:43:50,930 --> 01:43:46,679

the Philadelphia Experiment and then the

2231

01:43:53,270 --> 01:43:50,940

Montauk project was a refinement of that

2232

01:43:56,270 --> 01:43:53,280

using the same kind of magnetic resonant

2233

01:43:58,129 --> 01:43:56,280

technology and there's instances and in

2234

01:44:00,590 --> 01:43:58,139

my book I even talk about one it's a

2235

01:44:02,750 --> 01:44:00,600

very famous case where this this man was

2236

01:44:05,990 --> 01:44:02,760

standing in a field

2237

01:44:08,810 --> 01:44:06,000

and some people were watching him this

2238

01:44:10,669 --> 01:44:08,820

is way back in the 1920s or 30s or

2239

01:44:12,950 --> 01:44:10,679

somewhere in there and he's waving and

2240

01:44:14,209 --> 01:44:12,960

all of a sudden he vanishes and the

2241

01:44:18,290 --> 01:44:14,219

people run up

2242

01:44:19,910 --> 01:44:18,300

to see what happened to him and uh they

2243

01:44:22,850 --> 01:44:19,920

can't find him they can hear his voice

2244

01:44:24,950 --> 01:44:22,860

sort of calling out but he's not there

2245

01:44:27,050 --> 01:44:24,960

anymore and they searched for days and

2246

01:44:29,030 --> 01:44:27,060

they didn't find him that was a magnetic

2247

01:44:31,669 --> 01:44:29,040

resonant field caused by some sort of

2248

01:44:34,669 --> 01:44:31,679

magnetic storm or whatever that probably

2249

01:44:37,310 --> 01:44:34,679

caused him to drop to another or move to

2250

01:44:39,350 --> 01:44:37,320

another dimension so there are

2251

01:44:41,810 --> 01:44:39,360

claims of that that there's these

2252

01:44:44,629 --> 01:44:41,820

portals all over the world in different

2253

01:44:47,570 --> 01:44:44,639

areas and this is how they're formed

2254

01:44:53,030 --> 01:44:47,580

it's again with the magnetic field of

2255

01:44:56,149 --> 01:44:53,040

some sort resonating and you get a

2256

01:44:59,330 --> 01:44:56,159

an opening a portal so that that's how

2257

01:45:01,129 --> 01:44:59,340

that technology is best used so if you

2258

01:45:03,109 --> 01:45:01,139

want to teleport somewhere or whatever

2259

01:45:05,149 --> 01:45:03,119

you don't do it like they do on Star

2260

01:45:06,830 --> 01:45:05,159

Trek they're taking apart all your atoms

2261

01:45:10,850 --> 01:45:06,840

and put them back together in a

2262

01:45:13,129 --> 01:45:10,860

facsimile no no you open

2263

01:45:16,129 --> 01:45:13,139

a portal you step through and then

2264

01:45:18,410 --> 01:45:16,139

you're in the other place maybe you have

2265

01:45:21,169 --> 01:45:18,420

to have another one at the other side or

2266

01:45:24,649 --> 01:45:21,179

maybe not I don't know yeah teleporting

2267

01:45:26,629 --> 01:45:24,659

teleporting in its uh you know the Star

2268

01:45:30,350 --> 01:45:26,639

Trek version of it I would never do it

2269

01:45:32,870 --> 01:45:30,360

no every particle in your body is going

2270

01:45:35,109 --> 01:45:32,880

to be reassembled on the other end and

2271

01:45:38,689 --> 01:45:35,119

this is the idea

2272

01:45:40,430 --> 01:45:38,699

what happens to the original youth you

2273

01:45:43,669 --> 01:45:40,440

know that's the other thing you know so

2274

01:45:46,310 --> 01:45:43,679

you have to do do you off the old you

2275

01:45:49,850 --> 01:45:46,320

you have a near-death experience I would

2276

01:45:52,250 --> 01:45:49,860

imagine yeah I just don't want to be but

2277

01:45:56,209 --> 01:45:52,260

but you're right about that so you know

2278

01:45:58,010 --> 01:45:56,219

stepping through but how do you mark how

2279

01:46:00,590 --> 01:45:58,020

do you point it in the direction that

2280

01:46:02,570 --> 01:46:00,600

you want to go to that's the stuff I

2281

01:46:04,729 --> 01:46:02,580

don't know that's the that's where you

2282

01:46:07,189 --> 01:46:04,739

do the experiments and you see well I

2283

01:46:09,470 --> 01:46:07,199

use this intensity I use these

2284

01:46:11,930 --> 01:46:09,480

frequencies and when I use this

2285

01:46:12,890 --> 01:46:11,940

intensity these frequencies this amount

2286

01:46:16,310 --> 01:46:12,900

of power

2287

01:46:18,530 --> 01:46:16,320

this happened and so you try that and

2288

01:46:20,870 --> 01:46:18,540

then you modulate something then you

2289

01:46:23,870 --> 01:46:20,880

change something and you try again and

2290

01:46:26,629 --> 01:46:23,880

then you start to write down when I did

2291

01:46:28,910 --> 01:46:26,639

this that happened when I did that this

2292

01:46:31,550 --> 01:46:28,920

happened then you have some then you can

2293

01:46:34,070 --> 01:46:31,560

make a formula from that or whatever but

2294

01:46:35,090 --> 01:46:34,080

that's how you would figure out the

2295

01:46:38,030 --> 01:46:35,100

tuning

2296

01:46:40,189 --> 01:46:38,040

to get different times different spaces

2297

01:46:43,729 --> 01:46:40,199

different dimensions

2298

01:46:45,649 --> 01:46:43,739

you know that's my best guess and here's

2299

01:46:49,070 --> 01:46:45,659

here's the thing

2300

01:46:53,510 --> 01:46:49,080

you know 200 years ago

2301
01:46:56,030 --> 01:46:53,520
and you want to tell somebody uh that uh

2302
01:46:58,189 --> 01:46:56,040
you have the capability of of putting

2303
01:47:00,950 --> 01:46:58,199
something in this oven and turning it on

2304
01:47:03,169 --> 01:47:00,960
and it's going to heat frozen food in 30

2305
01:47:05,629 --> 01:47:03,179
seconds into a meal

2306
01:47:07,729 --> 01:47:05,639
um you know that's that's that's sorcery

2307
01:47:10,990 --> 01:47:07,739
right that'll get you burned at the

2308
01:47:13,669 --> 01:47:11,000
stake yeah and and that sort but today

2309
01:47:16,490 --> 01:47:13,679
the concepts of you know the internet

2310
01:47:19,070 --> 01:47:16,500
and smartphones and and nuclear

2311
01:47:20,990 --> 01:47:19,080
technology and and and radios and

2312
01:47:24,169 --> 01:47:21,000
television and and smart watches

2313
01:47:27,070 --> 01:47:24,179

whatever it's it's every so we have the

2314

01:47:28,910 --> 01:47:27,080

capacity to understand a certain level

2315

01:47:31,149 --> 01:47:28,920

E.T

2316

01:47:34,490 --> 01:47:31,159

travels

2317

01:47:37,850 --> 01:47:34,500

efficiently because it's easy

2318

01:47:41,930 --> 01:47:37,860

they you know Crossing dimensions and

2319

01:47:45,530 --> 01:47:41,940

Crossing uh the universe is simple for

2320

01:47:48,950 --> 01:47:45,540

them it's an easy thing to do right and

2321

01:47:52,010 --> 01:47:48,960

that's exactly where we are at today uh

2322

01:47:54,470 --> 01:47:52,020

you know crossing the vastness of space

2323

01:47:56,870 --> 01:47:54,480

to get here well why would they do if

2324

01:47:58,669 --> 01:47:56,880

they do it because it's easy right and

2325

01:48:00,770 --> 01:47:58,679

these Concepts that you are presenting

2326

01:48:04,370 --> 01:48:00,780

to us right now with the slip drive and

2327

01:48:06,709 --> 01:48:04,380

and so forth that once our capacity of

2328

01:48:09,709 --> 01:48:06,719

understanding and getting that done this

2329

01:48:13,189 --> 01:48:09,719

stuff will become easy for us too right

2330

01:48:15,470 --> 01:48:13,199

yeah yeah sure well and you have to

2331

01:48:18,290 --> 01:48:15,480

remember with aliens we're we're just a

2332

01:48:19,910 --> 01:48:18,300

level one Consciousness very limited

2333

01:48:22,729 --> 01:48:19,920

psychic abilities

2334

01:48:25,070 --> 01:48:22,739

uh on on the more advanced the millions

2335

01:48:27,590 --> 01:48:25,080

of years more advanced they're not using

2336

01:48:32,090 --> 01:48:27,600

the entry-level technology that I'm

2337

01:48:33,950 --> 01:48:32,100

talking about here this is the the entry

2338

01:48:35,629 --> 01:48:33,960

level right right yeah the stone

2339

01:48:38,689 --> 01:48:35,639

throwers and the spear chucker

2340

01:48:41,930 --> 01:48:38,699

technology right that is used when they

2341

01:48:44,570 --> 01:48:41,940

were millions of years ago uh now they

2342

01:48:47,209 --> 01:48:44,580

they there's rumors going around that

2343

01:48:50,390 --> 01:48:47,219

they just have mental abilities that can

2344

01:48:52,430 --> 01:48:50,400

open portals they can travel through

2345

01:48:54,709 --> 01:48:52,440

solid matter

2346

01:48:57,410 --> 01:48:54,719

um they can you know do all you know

2347

01:48:59,689 --> 01:48:57,420

they power their ship with their mental

2348

01:49:01,790 --> 01:48:59,699

capabilities and stuff that is so far

2349

01:49:04,550 --> 01:49:01,800

beyond anything that I know and I can

2350

01:49:06,530 --> 01:49:04,560

conceive of and and will will ever be

2351

01:49:09,109 --> 01:49:06,540

able to we won't be able to build that

2352

01:49:11,209 --> 01:49:09,119

kind of ship because it requires

2353

01:49:14,209 --> 01:49:11,219

something we just can't do

2354

01:49:17,149 --> 01:49:14,219

we don't understand yeah

2355

01:49:19,550 --> 01:49:17,159

but someday when we go to other planets

2356

01:49:23,030 --> 01:49:19,560

and we evolve and we get wiser and and

2357

01:49:25,490 --> 01:49:23,040

smarter and that that'll be us too but

2358

01:49:28,310 --> 01:49:25,500

for right now I'm offering the

2359

01:49:31,010 --> 01:49:28,320

entry-level designs that can be used to

2360

01:49:33,590 --> 01:49:31,020

to start the ball roll the Star Trek

2361

01:49:36,770 --> 01:49:33,600

kind of thing here you know go out and

2362

01:49:38,810 --> 01:49:36,780

see you know uh that's that's where we

2363

01:49:43,070 --> 01:49:38,820

got to start at because that's where we

2364

01:49:45,890 --> 01:49:43,080

are we're at consciously where we need

2365

01:49:48,350 --> 01:49:45,900

this technology we need to know how to

2366

01:49:52,570 --> 01:49:48,360

build it and utilize it and

2367

01:50:00,830 --> 01:49:57,590

the reports about uh the Tic Tac you

2368

01:50:04,430 --> 01:50:00,840

know going from uh the edge of space to

2369

01:50:07,970 --> 01:50:04,440

to sea level you know 80 90 000 feet of

2370

01:50:10,510 --> 01:50:07,980

altitude which is the edge of space uh

2371

01:50:14,450 --> 01:50:10,520

to sea level in a fraction of a second

2372

01:50:17,109 --> 01:50:14,460

without uh disturbing the atmosphere

2373

01:50:21,850 --> 01:50:17,119

right that should have when it stopped

2374

01:50:25,010 --> 01:50:21,860

uh created uh tsunamis

2375

01:50:26,810 --> 01:50:25,020

I'm not kidding right right there should

2376
01:50:29,149 --> 01:50:26,820
have been impact into the atmosphere

2377
01:50:31,010 --> 01:50:29,159
Sonic things

2378
01:50:34,010 --> 01:50:31,020
um in all directions we're talking about

2379
01:50:35,810 --> 01:50:34,020
a huge amount of energy and force

2380
01:50:37,490 --> 01:50:35,820
um and inertia that is all happening at

2381
01:50:40,129 --> 01:50:37,500
the same time and you stop something

2382
01:50:41,050 --> 01:50:40,139
like that that's crazy but none of that

2383
01:50:46,370 --> 01:50:41,060
happened

2384
01:50:48,109 --> 01:50:46,380
and so when we hear uh these reports uh

2385
01:50:51,229 --> 01:50:48,119
about this and some of the data that

2386
01:50:53,570 --> 01:50:51,239
came in and of course the the the

2387
01:50:56,570 --> 01:50:53,580
testimony from many of the crew members

2388
01:50:57,770 --> 01:50:56,580

of the Nimitz battle group uh Carrier

2389

01:51:00,709 --> 01:50:57,780

Group

2390

01:51:04,310 --> 01:51:00,719

um when you hear this do you think that

2391

01:51:07,189 --> 01:51:04,320

the Tic Tac was something from out there

2392

01:51:08,990 --> 01:51:07,199

and not our own technology or do you

2393

01:51:11,090 --> 01:51:09,000

think it's something that we possess

2394

01:51:13,430 --> 01:51:11,100

that that is

2395

01:51:16,010 --> 01:51:13,440

uh

2396

01:51:18,590 --> 01:51:16,020

a reasonable kind of assumption that

2397

01:51:21,050 --> 01:51:18,600

well it's inter-dimensional or something

2398

01:51:24,830 --> 01:51:21,060

but it's not that complicated in most

2399

01:51:27,550 --> 01:51:24,840

cases what I think is happening this

2400

01:51:31,310 --> 01:51:27,560

goes back to using the slip wave again

2401

01:51:33,709 --> 01:51:31,320

the magnetic field or the electrostatic

2402

01:51:35,870 --> 01:51:33,719

field that's emitted is emitting that

2403

01:51:39,709 --> 01:51:35,880

gravity anti-gravity field

2404

01:51:43,629 --> 01:51:39,719

there's a movement of space which is

2405

01:51:47,930 --> 01:51:43,639

causing the a cavitation you might say

2406

01:51:50,209 --> 01:51:47,940

around the ship air wise

2407

01:51:51,770 --> 01:51:50,219

so this field you know if you do it

2408

01:51:53,629 --> 01:51:51,780

right and there's ways to do it where

2409

01:51:55,669 --> 01:51:53,639

you're pushing out on both ends if you

2410

01:51:59,450 --> 01:51:55,679

want to get a little tricky so you

2411

01:52:01,550 --> 01:51:59,460

create a void atmospherically

2412

01:52:03,290 --> 01:52:01,560

so now you can move through the air

2413

01:52:05,629 --> 01:52:03,300

because they don't make Sonic booms

2414

01:52:07,490 --> 01:52:05,639

that's pretty tricky when you're moving

2415

01:52:10,910 --> 01:52:07,500

10 000 miles an hour you don't make a

2416

01:52:13,310 --> 01:52:10,920

sonic boom you're barely moving the air

2417

01:52:18,530 --> 01:52:13,320

so what's moving through is like a kind

2418

01:52:21,290 --> 01:52:18,540

of like a a cavity a a zone of where

2419

01:52:23,570 --> 01:52:21,300

there isn't any pressure see what makes

2420

01:52:26,470 --> 01:52:23,580

the sonic boom you're moving through the

2421

01:52:29,930 --> 01:52:26,480

air and you the way the air is being

2422

01:52:32,030 --> 01:52:29,940

compressed and going around and and it

2423

01:52:34,070 --> 01:52:32,040

makes the boom sound there's no

2424

01:52:37,370 --> 01:52:34,080

compression because you're going through

2425

01:52:40,609 --> 01:52:37,380

there's a like a a vacuum almost

2426
01:52:43,310 --> 01:52:40,619
around the edge of the ship and it has

2427
01:52:46,729 --> 01:52:43,320
to be this way otherwise you wouldn't

2428
01:52:48,470 --> 01:52:46,739
you would get this problem this is all

2429
01:52:51,050 --> 01:52:48,480
part of the benefit of the slip wave

2430
01:52:54,050 --> 01:52:51,060
technology it does everything you need

2431
01:52:55,850 --> 01:52:54,060
just so happens to everything you need

2432
01:52:58,669 --> 01:52:55,860
so that you can

2433
01:53:01,790 --> 01:52:58,679
fly at those incredible speeds

2434
01:53:04,370 --> 01:53:01,800
make right turns not make a sonic boom

2435
01:53:07,790 --> 01:53:04,380
go underwater hey

2436
01:53:09,530 --> 01:53:07,800
I've talked to people who have been who

2437
01:53:11,510 --> 01:53:09,540
claim to have been abducted or been

2438
01:53:13,790 --> 01:53:11,520

going on spaceships for years and they

2439

01:53:16,609 --> 01:53:13,800

make very credible one lady from

2440

01:53:19,729 --> 01:53:16,619

Australia Susie Hansen I think her name

2441

01:53:22,910 --> 01:53:19,739

is very credible person she says hey

2442

01:53:25,550 --> 01:53:22,920

they can go right through the Earth

2443

01:53:28,189 --> 01:53:25,560

if they could go through a solid rock

2444

01:53:29,990 --> 01:53:28,199

you know that many miles do you think

2445

01:53:32,090 --> 01:53:30,000

these are going to have any sort of

2446

01:53:36,169 --> 01:53:32,100

problem of going through the air or the

2447

01:53:39,709 --> 01:53:36,179

water I don't think so they may be able

2448

01:53:41,689 --> 01:53:39,719

to literally control the atoms and stuff

2449

01:53:44,450 --> 01:53:41,699

around the ship

2450

01:53:48,850 --> 01:53:44,460

and get it to them to move out of the

2451

01:53:52,250 --> 01:53:48,860

way there's multiple methods

2452

01:53:54,770 --> 01:53:52,260

neutrinos pass through the Earth yeah so

2453

01:53:58,370 --> 01:53:56,689

um okay so but you didn't answer the

2454

01:53:59,990 --> 01:53:58,380

question you should run through you

2455

01:54:03,229 --> 01:54:00,000

should run for political office because

2456

01:54:06,950 --> 01:54:03,239

you dance what could I dance around let

2457

01:54:09,229 --> 01:54:06,960

me guess is it e t

2458

01:54:11,870 --> 01:54:09,239

is it ET visiting us you think the Tic

2459

01:54:14,390 --> 01:54:11,880

Tac was was from out there

2460

01:54:16,189 --> 01:54:14,400

oh I'm sorry I misinter I thought you

2461

01:54:17,450 --> 01:54:16,199

were just trying to know yeah I thought

2462

01:54:20,510 --> 01:54:17,460

you were trying to figure out how they

2463

01:54:21,790 --> 01:54:20,520

don't make sound and everything uh the

2464

01:54:25,010 --> 01:54:21,800

Tic Tac

2465

01:54:26,330 --> 01:54:25,020

my when I first saw my guess was it's

2466

01:54:29,810 --> 01:54:26,340

ours

2467

01:54:33,590 --> 01:54:29,820

and I think just a guess

2468

01:54:35,570 --> 01:54:33,600

that uh speculation here that that they

2469

01:54:40,070 --> 01:54:35,580

were testing their new

2470

01:54:43,250 --> 01:54:40,080

Radars and and the reaction of Standard

2471

01:54:45,109 --> 01:54:43,260

air you know pilots and such to their

2472

01:54:49,609 --> 01:54:45,119

their presence and seeing how they would

2473

01:54:51,709 --> 01:54:49,619

react and seeing uh what you know what

2474

01:54:54,169 --> 01:54:51,719

they could do against them or you know

2475

01:54:56,510 --> 01:54:54,179

how they can maneuver around them just

2476

01:54:58,729 --> 01:54:56,520

all the reactions just testing because

2477

01:55:01,189 --> 01:54:58,739

it's just like any other group battle

2478

01:55:02,990 --> 01:55:01,199

group the Russians or whatever instead

2479

01:55:05,930 --> 01:55:03,000

of threatening the Russians they could

2480

01:55:07,910 --> 01:55:05,940

do it to our unknowing people and we

2481

01:55:11,570 --> 01:55:07,920

test out their new radar see if they're

2482

01:55:14,270 --> 01:55:11,580

picked up and we test out uh and one

2483

01:55:16,790 --> 01:55:14,280

point the Tic Tac knew where the jet was

2484

01:55:19,729 --> 01:55:16,800

going before the Jet got there man I

2485

01:55:23,590 --> 01:55:19,739

knew the Gap Point yeah yeah maybe it

2486

01:55:28,850 --> 01:55:26,930

that's just my speculative I guess it

2487

01:55:31,270 --> 01:55:28,860

might have been entangled telepathy

2488

01:55:34,310 --> 01:55:31,280

though yeah

2489

01:55:37,870 --> 01:55:34,320

mark thank you so much and where can

2490

01:55:43,189 --> 01:55:37,880

everybody get a hold of you I'm at

2491

01:55:45,950 --> 01:55:43,199

www.super hyphen relativity.com or I'm

2492

01:55:47,689 --> 01:55:45,960

on Facebook uh you can you know I leave

2493

01:55:50,810 --> 01:55:47,699

little messages there every once in a

2494

01:55:53,090 --> 01:55:50,820

while but mainly my my website and my

2495

01:55:54,950 --> 01:55:53,100

YouTube please go to my YouTube I put

2496

01:55:57,890 --> 01:55:54,960

some of these shows up there or if

2497

01:55:59,090 --> 01:55:57,900

you're you allow me I'll put this one up

2498

01:56:03,350 --> 01:55:59,100

there

2499

01:56:04,910 --> 01:56:03,360

um and uh any message

2500

01:56:08,149 --> 01:56:04,920

I'll throw it again

2501
01:56:10,310 --> 01:56:08,159
any messages that I have I put up there

2502
01:56:13,970 --> 01:56:10,320
so please you know feel free to join my

2503
01:56:15,649 --> 01:56:13,980
YouTube page and help that grow and

2504
01:56:18,590 --> 01:56:15,659
um that's that's basically everything

2505
01:56:21,709 --> 01:56:18,600
that I have is on the front page of my

2506
01:56:24,470 --> 01:56:21,719
uh website though yeah okay we've got

2507
01:56:26,209 --> 01:56:24,480
the the links below and they're over on

2508
01:56:28,850 --> 01:56:26,219
our website too as well we've got them

2509
01:56:30,470 --> 01:56:28,860
uh up there throughout social media I

2510
01:56:33,770 --> 01:56:30,480
look forward to our next conversation my

2511
01:56:35,930 --> 01:56:33,780
friend this was just excellent and uh

2512
01:56:38,689 --> 01:56:35,940
man big shout out to uh Michelle I want

2513
01:56:41,450 --> 01:56:38,699

to thank Michelle she's amazing and uh

2514

01:56:44,330 --> 01:56:41,460

and uh thank you so much Mark I I can't

2515

01:56:46,970 --> 01:56:44,340

wait next time you're on we we didn't

2516

01:56:49,370 --> 01:56:46,980

talk about Consciousness tonight yeah we

2517

01:56:51,649 --> 01:56:49,380

didn't talk about uh who that Creator

2518

01:56:53,750 --> 01:56:51,659

may be and how it gets done there's much

2519

01:56:56,450 --> 01:56:53,760

to talk about there to talk about I

2520

01:56:58,729 --> 01:56:56,460

would love that yeah yeah just call her

2521

01:57:01,250 --> 01:56:58,739

up and make another one for whenever you

2522

01:57:04,189 --> 01:57:01,260

want you're the best mark thank you so

2523

01:57:07,550 --> 01:57:04,199

much my friend be safe out there and you

2524

01:57:09,709 --> 01:57:07,560

know in the in the unified World you've

2525

01:57:12,050 --> 01:57:09,719

got to keep ruffling those feathers okay

2526

01:57:13,129 --> 01:57:12,060

so keep it up thank you so much my

2527

01:57:16,129 --> 01:57:13,139

friend

2528

01:57:17,209 --> 01:57:16,139

perfect night perfect night and with

2529

01:57:19,129 --> 01:57:17,219

that I'm going to get out of here

2530

01:57:21,410 --> 01:57:19,139

tomorrow night uh Michael Feely is going

2531

01:57:23,770 --> 01:57:21,420

to be with us and I'll keep everybody

2532
