

# FADE **TO** BLACK

with **JIMMY CHURCH**  
**PRESENTS**

# BREAKING NEWS

Thur Apr 06, 2023 **LIVE**

1  
00:00:31,150 --> 00:00:21,180

[Music]

2  
00:00:35,889 --> 00:00:31,160

thank you

3  
00:00:43,750 --> 00:00:39,590

welcome Fade to Black breaking news for

4  
00:00:46,790 --> 00:00:43,760

this Thursday April 6th a 2023 this is

5  
00:00:49,190 --> 00:00:46,800

all of the news that you need I'm Jimmy

6  
00:00:53,170 --> 00:00:49,200

Church let's get straight to it that's

7  
00:00:54,830 --> 00:00:53,180

right on this day in history

8  
00:00:57,830 --> 00:00:54,840

1968.

9  
00:01:00,229 --> 00:00:57,840

Stanley Kubrick's 2001 A Space out of

10  
00:01:03,650 --> 00:01:00,239

the sea debuts in theaters

11  
00:01:05,690 --> 00:01:03,660

today it is regarded not only as one of

12  
00:01:09,830 --> 00:01:05,700

the greatest works in science fiction

13  
00:01:15,410 --> 00:01:09,840

but as one of the defining films of the

14

00:01:17,390 --> 00:01:15,420

20th century on this day in 1968.

15

00:01:20,090 --> 00:01:17,400

fader facts

16

00:01:24,429 --> 00:01:20,100

I'm supposed to say this one is for bill

17

00:01:26,810 --> 00:01:24,439

today Bill Bill and John fitter fact

18

00:01:29,050 --> 00:01:26,820

Back to the Future

19

00:01:32,929 --> 00:01:29,060

was almost called

20

00:01:35,030 --> 00:01:32,939

spaceman from Pluto

21

00:01:38,510 --> 00:01:35,040

yeah

22

00:01:40,370 --> 00:01:38,520

I'm gonna leave that one

23

00:01:41,510 --> 00:01:40,380

right there let's get to the breaking

24

00:01:44,569 --> 00:01:41,520

news

25

00:01:47,569 --> 00:01:44,579

the James Webb Space Telescope has

26

00:01:52,370 --> 00:01:47,579

become only the third telescope to ever

27

00:01:55,010 --> 00:01:52,380

image the seventh planet's faint rings I

28

00:01:59,710 --> 00:01:55,020

posted the images over on social media

29

00:02:03,889 --> 00:01:59,720

they are amazing in a 12 minute exposure

30

00:02:06,469 --> 00:02:03,899

that image taken in February of 2023 is

31

00:02:09,529 --> 00:02:06,479

now available it's possible to see the

32

00:02:13,010 --> 00:02:09,539

gas giants planets Rings bright features

33

00:02:16,550 --> 00:02:13,020

in the planet's atmosphere and many of

34

00:02:20,570 --> 00:02:16,560

its moons it's an incredible image only

35

00:02:24,110 --> 00:02:20,580

NASA's Voyager 2 spacecraft in 1986 and

36

00:02:26,949 --> 00:02:24,120

the Keck observatory in 2004 have ever

37

00:02:29,750 --> 00:02:26,959

been able to image the rings of Uranus

38

00:02:32,770 --> 00:02:29,760

Voyager 2's visit gave Humanity it's

39

00:02:38,050 --> 00:02:32,780

only close-up images of Uranus and

40

00:02:41,390 --> 00:02:38,060

discovered its 10 new moons again

41

00:02:44,330 --> 00:02:41,400

incredible go and check them out

42

00:02:47,930 --> 00:02:44,340

this is a crazy story out of Texas a

43

00:02:52,670 --> 00:02:47,940

massive sinkhole in Texas grew to be 1

44

00:02:55,729 --> 00:02:52,680

000 feet wide and 400 feet deep over the

45

00:02:58,790 --> 00:02:55,739

weekend despite being stable for years

46

00:03:02,089 --> 00:02:58,800

the rim of the sinkhole in daisetta

47

00:03:05,030 --> 00:03:02,099

Southeastern Texas began crumbling once

48

00:03:07,070 --> 00:03:05,040

again on Sunday residents said it

49

00:03:09,530 --> 00:03:07,080

sounded like gunshots were coming from

50

00:03:12,250 --> 00:03:09,540

the ground after going to bed they woke

51

00:03:16,009 --> 00:03:12,260

up to find it had gained another

52

00:03:19,369 --> 00:03:16,019

150 feet in circumference in both with

53

00:03:22,070 --> 00:03:19,379

and depth the hole first began growing

54

00:03:25,369 --> 00:03:22,080

15 years ago starting at around 20 feet

55

00:03:28,610 --> 00:03:25,379

but soon expanded to be 900 feet across

56

00:03:33,350 --> 00:03:28,620

and 200 feet deep it is swallowing homes

57

00:03:35,990 --> 00:03:33,360

cars gas tanks it's insane experts

58

00:03:40,009 --> 00:03:36,000

believe the hole has been caused by the

59

00:03:43,729 --> 00:03:40,019

erosion of a large salt Dome that the

60

00:03:46,270 --> 00:03:43,739

town itself did is built on top of it's

61

00:03:50,030 --> 00:03:46,280

incredible can you imagine that

62

00:03:52,850 --> 00:03:50,040

huge well last month

63

00:03:56,750 --> 00:03:52,860

last month had more tornadoes in the

64

00:04:00,770 --> 00:03:56,760

United States than any other march on

65

00:04:02,869 --> 00:04:00,780

record and since March 31st more than 80

66

00:04:04,430 --> 00:04:02,879

tornadoes have been reported killing at

67

00:04:08,630 --> 00:04:04,440

least 30 people across the United States

68

00:04:10,429 --> 00:04:08,640

all of that in less than a week it's the

69

00:04:12,830 --> 00:04:10,439

second year in a row the country has

70

00:04:15,710 --> 00:04:12,840

endured a record number of tornadoes in

71

00:04:17,509 --> 00:04:15,720

March solidifying a trend toward more

72

00:04:20,330 --> 00:04:17,519

severe weather earlier in the year and

73

00:04:23,390 --> 00:04:20,340

raising questions among scientists who

74

00:04:28,270 --> 00:04:23,400

the historically seen such weather Peaks

75

00:04:31,629 --> 00:04:28,280

from April to early June more than 80

76

00:04:33,950 --> 00:04:31,639

tornadoes in a week

77

00:04:37,090 --> 00:04:33,960

scientists have spent five years

78

00:04:41,450 --> 00:04:37,100

classifying the size mass and population

79

00:04:44,090 --> 00:04:41,460

of all living organisms and at the end

80

00:04:46,490 --> 00:04:44,100

they made a surprising discovery that

81

00:04:48,409 --> 00:04:46,500

the tiniest of the tiny and the largest

82

00:04:51,650 --> 00:04:48,419

of the living

83

00:04:55,010 --> 00:04:51,660

are what makes up everything

84

00:04:56,810 --> 00:04:55,020

the team led by biologists from Rutgers

85

00:04:59,810 --> 00:04:56,820

University and I know what you're saying

86

00:05:01,610 --> 00:04:59,820

you're asking yourself right now what

87

00:05:04,189 --> 00:05:01,620

about us humans

88

00:05:07,189 --> 00:05:04,199

we just didn't factor in

89

00:05:09,530 --> 00:05:07,199

think about this so we have biologists

90

00:05:11,870 --> 00:05:09,540

from Rutgers and the University of

91

00:05:15,050 --> 00:05:11,880

British Columbia they divided life into

92

00:05:18,170 --> 00:05:15,060

36 categories within each group they

93

00:05:21,409 --> 00:05:18,180

identified the biggest the smallest and

94

00:05:22,850 --> 00:05:21,419

most common body size

95

00:05:26,029 --> 00:05:22,860

now

96

00:05:30,230 --> 00:05:26,039

here's your answers forest plants had

97

00:05:32,150 --> 00:05:30,240

the highest biomass and amphibians had

98

00:05:34,430 --> 00:05:32,160

the lowest according to their findings

99

00:05:39,050 --> 00:05:34,440

which were published on March 29th in

100

00:05:41,150 --> 00:05:39,060

the journal p l o s one among the 36

101

00:05:44,150 --> 00:05:41,160

categories which included life forms

102

00:05:48,650 --> 00:05:44,160

such as reptiles and mollusks the most

103

00:05:51,770 --> 00:05:48,660

massive populations belong to plants and

104

00:05:54,290 --> 00:05:51,780

bacteria of these the smallest were

105

00:05:57,610 --> 00:05:54,300

microscopic bacteria while the largest

106

00:06:01,430 --> 00:05:57,620

included vast underground networks of

107

00:06:02,990 --> 00:06:01,440

fungi in tree roots

108

00:06:07,129 --> 00:06:03,000

humans

109

00:06:10,370 --> 00:06:07,139

nah not even close when it comes to

110

00:06:11,210 --> 00:06:10,380

Nature we're just not a factor that's

111

00:06:15,890 --> 00:06:11,220

right

112

00:06:19,070 --> 00:06:15,900

a Virginia man who was so fed up with a

113

00:06:21,830 --> 00:06:19,080

pothole now this is uh the point of the

114

00:06:23,930 --> 00:06:21,840

show uh the point of the news where I go

115

00:06:25,430 --> 00:06:23,940

I'm going to leave you with this

116

00:06:27,529 --> 00:06:25,440

and

117

00:06:30,350 --> 00:06:27,539

this is a good one

118

00:06:31,610 --> 00:06:30,360

a Virginia man who was so fed up with a

119

00:06:38,210 --> 00:06:31,620

pothole

120

00:06:41,029 --> 00:06:38,220

a year that he decided to take matters

121

00:06:44,870 --> 00:06:41,039

into his own hands his name

122

00:06:47,990 --> 00:06:44,880

Josh Anderson and Josh said the pothole

123

00:06:53,150 --> 00:06:48,000

was about a foot deep big enough

124

00:06:57,170 --> 00:06:53,160

to plant a tree in it quoting here so

125

00:07:00,650 --> 00:06:57,180

that's exactly what he did Josh planted

126

00:07:02,990 --> 00:07:00,660

a tree and he had been complaining about

127

00:07:06,830 --> 00:07:03,000

him for over a year he didn't know what

128

00:07:10,610 --> 00:07:06,840

to do right so then he takes a few

129

00:07:14,090 --> 00:07:10,620

pictures he posted them online he posted

130

00:07:16,969 --> 00:07:14,100

them on a community Facebook page where

131

00:07:18,950 --> 00:07:16,979

started to get shared and the likes

132

00:07:20,510 --> 00:07:18,960

started piling up

133

00:07:22,790 --> 00:07:20,520

however

134

00:07:24,589 --> 00:07:22,800

the tree didn't last long before the

135

00:07:28,370 --> 00:07:24,599

city workers removed it they see the

136

00:07:30,890 --> 00:07:28,380

Post online got sent out uprooted the

137

00:07:33,469 --> 00:07:30,900

tree pulled it out and

138

00:07:36,170 --> 00:07:33,479

didn't fill the pothole

139

00:07:37,309 --> 00:07:36,180

no they did not so what did Joshua do

140

00:07:41,510 --> 00:07:37,319

next

141

00:07:46,129 --> 00:07:44,749

and that Tick Tock video really started

142

00:07:48,409 --> 00:07:46,139

to get attention

143

00:07:51,409 --> 00:07:48,419

and then as soon as he made the tick

144

00:07:53,510 --> 00:07:51,419

tock video he decided to put it on the

145

00:07:57,589 --> 00:07:53,520

city's web page

146

00:08:02,210 --> 00:07:57,599

that's right and within 24 hours they

147

00:08:05,170 --> 00:08:02,220

had a crew out filling that pothole Tick

148

00:08:07,969 --> 00:08:05,180

Tock does have some public benefit

149

00:08:12,170 --> 00:08:07,979

that's right but I wonder now if China

150

00:08:13,249 --> 00:08:12,180

has Josh's personal info because he's an

151  
00:08:15,170 --> 00:08:13,259  
activist

152  
00:08:18,770 --> 00:08:15,180  
he's a protester

153  
00:08:20,570 --> 00:08:18,780  
and I love it I'm just saying there you

154  
00:08:22,550 --> 00:08:20,580  
go there's your Fade to Black breaking

155  
00:08:26,570 --> 00:08:22,560  
news it's all of the news that you need

156  
00:08:28,790 --> 00:08:26,580  
for this Thursday April 6 2023 Fade to

157  
00:08:31,309 --> 00:08:28,800  
Black breaking news is produced by Renee

158  
00:08:35,890 --> 00:08:31,319  
Newman I'm Jimmy Church

159  
00:08:35,900 --> 00:08:47,810  
[Music]

160  
00:08:50,490 --> 00:08:49,130  
thank you
