

FADE **TO** BLACK

with **JIMMY CHURCH**
PRESENTS

BREAKING NEWS

Mon Apr 17, 2023 **LIVE**

1
00:00:25,620 --> 00:00:13,480
foreign

2
00:00:25,630 --> 00:00:39,470
[Music]

3
00:00:44,030 --> 00:00:42,410
good afternoon everyone this is faded

4
00:00:47,990 --> 00:00:44,040
black breaking news for this Monday

5
00:00:51,110 --> 00:00:48,000
April 17 2023 I'm Yours Jimmy Church

6
00:00:56,090 --> 00:00:51,120
this is all of the news that you need

7
00:00:59,029 --> 00:00:56,100
yes I'm back after one week on a ship

8
00:01:01,569 --> 00:00:59,039
yeah I took a cruise to Mexico as you

9
00:01:05,210 --> 00:01:01,579
can see I blew out my voice

10
00:01:09,050 --> 00:01:05,220
yeah but it's all good I'm here with you

11
00:01:11,630 --> 00:01:09,060
let's get straight to it on this day in

12
00:01:15,830 --> 00:01:11,640
history 1970.

13
00:01:18,109 --> 00:01:15,840

with the world watching Apollo 13 a U.S

14

00:01:20,410 --> 00:01:18,119

lunar spacecraft that suffered a severe

15

00:01:24,830 --> 00:01:20,420

malfunction on its Journey To The Moon

16

00:01:28,070 --> 00:01:24,840

safely returns to Earth on this day in

17

00:01:31,310 --> 00:01:28,080

1970. here's your fader fact

18

00:01:32,330 --> 00:01:31,320

are you ready Jonathan here's your fader

19

00:01:33,670 --> 00:01:32,340

fact

20

00:01:38,210 --> 00:01:33,680

10

21

00:01:41,749 --> 00:01:38,220

of all of the photos ever taken

22

00:01:45,109 --> 00:01:41,759

came from the last three years

23

00:01:46,910 --> 00:01:45,119

wow that's crazy and that

24

00:01:50,090 --> 00:01:46,920

is your fader fact I don't think that's

25

00:01:52,010 --> 00:01:50,100

gonna change it's just gonna increase

26

00:01:53,990 --> 00:01:52,020

that's nuts let's get to the breaking

27

00:01:56,810 --> 00:01:54,000

news

28

00:01:59,090 --> 00:01:56,820

the United States Senate committee on

29

00:02:01,249 --> 00:01:59,100

armed services will be conducting an

30

00:02:03,710 --> 00:02:01,259

open hearing on unidentified aerial

31

00:02:07,210 --> 00:02:03,720

phenomena or unidentified flying objects

32

00:02:10,790 --> 00:02:07,220

otherwise known as UFOs this Wednesday

33

00:02:12,530 --> 00:02:10,800

April 19th the hearing has been

34

00:02:14,449 --> 00:02:12,540

scheduled to address the growing

35

00:02:17,809 --> 00:02:14,459

concerns surrounding the allegedly

36

00:02:20,210 --> 00:02:17,819

growing UAP incidents the lawmakers are

37

00:02:23,210 --> 00:02:20,220

also expected to ask for increased

38

00:02:26,990 --> 00:02:23,220

transparency and funding for

39

00:02:29,210 --> 00:02:27,000

investigation into UAP sightings Sean

40

00:02:31,250 --> 00:02:29,220

Kirkpatrick head of the all domain

41

00:02:34,250 --> 00:02:31,260

anomaly resolution office otherwise

42

00:02:36,229 --> 00:02:34,260

known as Arrow will also be speaking at

43

00:02:38,890 --> 00:02:36,239

the hearing which will be conducted by

44

00:02:43,369 --> 00:02:38,900

emerging threats and capabilities

45

00:02:45,530 --> 00:02:43,379

subcommittee in May 2022 Ronald Moultrie

46

00:02:47,930 --> 00:02:45,540

and Scott Bray two top officials of the

47

00:02:49,509 --> 00:02:47,940

Pentagon appeared before the U.S House

48

00:02:52,790 --> 00:02:49,519

of Representatives

49

00:02:55,309 --> 00:02:52,800

intelligence subcommittee at that

50

00:02:57,890 --> 00:02:55,319

hearing they said that reports of UFOs

51
00:03:00,710 --> 00:02:57,900
are frequent and have been on the rise

52
00:03:03,770 --> 00:03:00,720
for more than a decade they also added

53
00:03:07,250 --> 00:03:03,780
that U.S officials were unable to

54
00:03:10,130 --> 00:03:07,260
explain some of these sightings it's all

55
00:03:14,330 --> 00:03:10,140
going down this Wednesday I will also be

56
00:03:16,729 --> 00:03:14,340
doing a live stream of the hearing with

57
00:03:19,610 --> 00:03:16,739
all of you joining in in the chat and

58
00:03:21,949 --> 00:03:19,620
asking questions and I may have a

59
00:03:25,009 --> 00:03:21,959
special guest or two so I will broadcast

60
00:03:28,610 --> 00:03:25,019
live on Wednesday

61
00:03:30,350 --> 00:03:28,620
all right after months of anticipation

62
00:03:33,410 --> 00:03:30,360
in just three days after getting

63
00:03:35,570 --> 00:03:33,420

government launch approval SpaceX was

64

00:03:38,350 --> 00:03:35,580

forced to call off the maiden flight of

65

00:03:41,570 --> 00:03:38,360

its gargantuan Starship rocket today

66

00:03:45,350 --> 00:03:41,580

when a frozen valve caused problems

67

00:03:47,630 --> 00:03:45,360

pressurizing the boosters first stage

68

00:03:49,729 --> 00:03:47,640

Tai needed to resolve the valve issue

69

00:03:52,130 --> 00:03:49,739

and replenish a supplies of liquid

70

00:03:54,350 --> 00:03:52,140

oxygen and methane propellants at the

71

00:03:57,470 --> 00:03:54,360

company's Boca Chica Texas flight test

72

00:04:02,089 --> 00:03:57,480

facility star base will delay another

73

00:04:04,970 --> 00:04:02,099

launch attempt at least for 48 hours and

74

00:04:08,690 --> 00:04:04,980

so instead of launching the world's most

75

00:04:13,509 --> 00:04:08,700

powerful rocket SpaceX Engineers use the

76
00:04:15,969 --> 00:04:13,519
countdown as a quote wet dress rehearsal

77
00:04:19,550 --> 00:04:15,979
there you go

78
00:04:21,890 --> 00:04:19,560
scientists have stitched together the

79
00:04:24,170 --> 00:04:21,900
most high resolution map yet of

80
00:04:26,990 --> 00:04:24,180
underlying geology beneath the earth's

81
00:04:30,469 --> 00:04:27,000
southern hemisphere revealing something

82
00:04:34,670 --> 00:04:30,479
previously undiscovered an ancient ocean

83
00:04:37,070 --> 00:04:34,680
floor that may wrap around the core this

84
00:04:39,110 --> 00:04:37,080
thin but dense layer sits around 1800

85
00:04:42,170 --> 00:04:39,120
miles below the surface where the molten

86
00:04:45,710 --> 00:04:42,180
metallic outer core meets the rocky

87
00:04:49,610 --> 00:04:45,720
mantle above it this is the core mantle

88
00:04:52,730 --> 00:04:49,620

boundary otherwise known as the CMB

89

00:04:54,770 --> 00:04:52,740

the research has been published in

90

00:04:58,310 --> 00:04:54,780

science advances

91

00:05:01,310 --> 00:04:58,320

well ocean surface temperatures have hit

92

00:05:03,890 --> 00:05:01,320

an all-time high this month breaking

93

00:05:07,790 --> 00:05:03,900

every records and satellite measurements

94

00:05:09,610 --> 00:05:07,800

began in the 1980s temperatures reached

95

00:05:12,409 --> 00:05:09,620

a global average of

96

00:05:15,530 --> 00:05:12,419

69.98 Fahrenheit in the first days of

97

00:05:18,469 --> 00:05:15,540

April the previous record of 69.9

98

00:05:21,170 --> 00:05:18,479

Fahrenheit was set in March of 2016.

99

00:05:25,850 --> 00:05:21,180

both are more than a degree higher than

100

00:05:28,390 --> 00:05:25,860

the global average between 1982 and 2011

101
00:05:31,430 --> 00:05:28,400
which runs around

102
00:05:32,990 --> 00:05:31,440
68.72 Fahrenheit in early spring

103
00:05:35,930 --> 00:05:33,000
according to the data from the

104
00:05:38,810 --> 00:05:35,940
University of Maine climate reanalyzer

105
00:05:41,290 --> 00:05:38,820
the new record is the result of the

106
00:05:44,810 --> 00:05:41,300
buildup of heat from climate change now

107
00:05:47,330 --> 00:05:44,820
unsuppressed by La Nina and natural

108
00:05:49,730 --> 00:05:47,340
ocean cycle of cold surface temperatures

109
00:05:53,090 --> 00:05:49,740
in the Eastern Pacific that have been

110
00:05:54,170 --> 00:05:53,100
ongoing for three years but ended in

111
00:05:55,909 --> 00:05:54,180
March

112
00:05:59,710 --> 00:05:55,919
wow

113
00:06:01,270 --> 00:05:59,720

check this out an ancient stone

114

00:06:04,310 --> 00:06:01,280

scoreboard

115

00:06:06,830 --> 00:06:04,320

likely used in a soccer-like ball game

116

00:06:09,950 --> 00:06:06,840

was discovered at an archaeological site

117

00:06:13,070 --> 00:06:09,960

in Mexico last week found at the Mayan

118

00:06:15,290 --> 00:06:13,080

cheats and eats a site researchers and

119

00:06:18,110 --> 00:06:15,300

archaeologists said the circular Stone's

120

00:06:20,629 --> 00:06:18,120

diameter was just over 12 inches and it

121

00:06:22,070 --> 00:06:20,639

weighs about 88 pounds according to a

122

00:06:25,249 --> 00:06:22,080

statement from Mexico's National

123

00:06:27,950 --> 00:06:25,259

Institute of anthropology in history on

124

00:06:30,790 --> 00:06:27,960

Twitter the stone which is believed to

125

00:06:34,850 --> 00:06:30,800

be a kind of scoreboard dates between

126
00:06:35,689 --> 00:06:34,860
800 and 900 A.D and it's incredible by

127
00:06:37,490 --> 00:06:35,699
the way

128
00:06:38,990 --> 00:06:37,500
all right I'm going to leave you with

129
00:06:41,990 --> 00:06:39,000
this

130
00:06:45,050 --> 00:06:42,000
and it is truly incredible

131
00:06:47,330 --> 00:06:45,060
if you look closely at the photo that

132
00:06:48,950 --> 00:06:47,340
accompanies NASA's press release last

133
00:06:51,529 --> 00:06:48,960
week about the new director of The

134
00:06:53,749 --> 00:06:51,539
Goddard space flight center you'll see

135
00:06:55,370 --> 00:06:53,759
something pretty interesting pretty

136
00:06:58,790 --> 00:06:55,380
curious

137
00:07:01,850 --> 00:06:58,800
that she's taking her oath not on the

138
00:07:02,749 --> 00:07:01,860

Bible or any other conventional holy

139

00:07:07,550 --> 00:07:02,759

book

140

00:07:11,749 --> 00:07:07,560

put on a copy of Carl Sagan's 1994 pale

141

00:07:14,090 --> 00:07:11,759

blue dot indeed as NASA watches Keith

142

00:07:17,090 --> 00:07:14,100

cowling spotted following Dr McKenzie

143

00:07:20,150 --> 00:07:17,100

listrips is swearing in last Friday

144

00:07:22,490 --> 00:07:20,160

the woman uh the first woman ever to

145

00:07:25,129 --> 00:07:22,500

lead the Maryland Space Center marked

146

00:07:30,170 --> 00:07:25,139

the occasion with a nod to that other

147

00:07:32,930 --> 00:07:30,180

star Enthusiast the late Carl Sagan and

148

00:07:34,670 --> 00:07:32,940

it's pretty cool that's it that's all of

149

00:07:37,210 --> 00:07:34,680

your Fade to Black breaking news that

150

00:07:40,370 --> 00:07:37,220

you need for this Monday April 17

151

00:07:43,790 --> 00:07:40,380

2023 I'm Jimmy Church Fade to Black

152

00:07:45,409 --> 00:07:43,800

breaking news is produced by Renee

153

00:07:46,970 --> 00:07:45,419

Newman
