George Mallory was discovered on Mount

10
00:01:05,990 --> 00:01:03,359
Everest some 75 years after he and

11
00:01:08,510 --> 00:01:06,000
Andrew Irvine disappeared while

12
00:01:13,730 --> 00:01:08,520
attempting to become the first people to

13
00:01:15,850 --> 00:01:13,740

Summit the peak on this day in 1999

14

00:01:20,630 --> 00:01:15,860

here's your fader fact

15

00:01:22,969 --> 00:01:20,640

Iran that's right the country Iran

16

00:01:26,810 --> 00:01:22,979

carries out more gender change

17

00:01:29,590 --> 00:01:26,820

operations than any other country in the

18

00:01:32,030 --> 00:01:29,600

world according to official statistics

19

00:01:33,490 --> 00:01:32,040

Iran has somewhere between fifteen

20

00:01:36,350 --> 00:01:33,500

thousand and twenty thousand

21

00:01:39,230 --> 00:01:36,360

transsexuals although unofficial

22

00:01:42,050 --> 00:01:39,240

statistics place that number at around

23

00:01:46,550 --> 00:01:42,060

150

24

00:01:49,609 --> 00:01:46,560

000. and that is your fader fact

25

00:01:53,749 --> 00:01:49,619

let's get to the breaking news the Great

26

00:01:57,590 --> 00:01:53,759

Atlantic Star gasum belt of 5 000 mile

27

00:02:00,710 --> 00:01:57,600

wide seaweed bloom stretching from West

28

00:02:04,130 --> 00:02:00,720

Africa to the Gulf of Mexico has started

29

00:02:06,109 --> 00:02:04,140

to wash up in Florida photos show piles

30

00:02:08,510 --> 00:02:06,119

of the algae starting to accumulate on

31

00:02:11,449 --> 00:02:08,520

beaches in Fort Lauderdale and videos

32

00:02:14,690 --> 00:02:11,459

show it piling up in Marinas and lagoons

33

00:02:17,150 --> 00:02:14,700

off of the Florida Keys unfortunately

34

00:02:20,210 --> 00:02:17,160

the worst of the beaching Is Yet To Come

35

00:02:26,570 --> 00:02:20,220

and researchers predict the peak of the

36

00:02:28,970 --> 00:02:26,580

2023 season will come in June 5

37

00:02:33,350 --> 00:02:28,980

000 miles wide

38

00:02:35,690 --> 00:02:33,360

The Godfather of A.I is issuing a

39

00:02:36,729 --> 00:02:35,700

warning about the technology he helped

40

00:02:39,710 --> 00:02:36,739

to create

41

00:02:42,170 --> 00:02:39,720

Jeffrey Hinton a Trailblazer an

42

00:02:44,330 --> 00:02:42,180

artificial intelligence has joined the

43

00:02:46,790 --> 00:02:44,340

growing list of experts sharing their

44

00:02:49,430 --> 00:02:46,800

concerns about the rapid advancement of

45

00:02:51,830 --> 00:02:49,440

artificial intelligence the renowned

46

00:02:54,770 --> 00:02:51,840

computer scientist recently left his job

47

00:02:57,410 --> 00:02:54,780

at Google to speak openly about his

48

00:03:01,309 --> 00:02:57,420

worries about the technology and where

49

00:03:03,050 --> 00:03:01,319

he sees it going Hinton is worried that

50

00:03:06,470 --> 00:03:03,060

the future versions of the technology

51
00:03:09,589 --> 00:03:06,480
pose a real threat to humanity

52
00:03:11,990 --> 00:03:09,599
he tweeted earlier today that he felt

53
00:03:14,990 --> 00:03:12,000
Google had acted responsibly in its

54
00:03:17,809 --> 00:03:15,000
development of AI but that he had to

55
00:03:19,729 --> 00:03:17,819
leave the company to speak out an open

56
00:03:21,530 --> 00:03:19,739
letter from the association for the

57
00:03:24,470 --> 00:03:21,540
advancement of artificial intelligence

58
00:03:27,410 --> 00:03:24,480
which was signed by 19 current and

59
00:03:29,509 --> 00:03:27,420
former leaders of academic Society was

60
00:03:34,070 --> 00:03:29,519
released last month warning the public

61
00:03:37,509 --> 00:03:34,080
of the risk around AI Hinton along with

62
00:03:42,289 --> 00:03:37,519
Scientists Yoshua bengio and Jan lacun

63
00:03:44,809 --> 00:03:42,299

won the touring award in 2019 known as

64

00:03:49,670 --> 00:03:44,819

The Tech Industries version of the Nobel

65

00:03:51,910 --> 00:03:49,680

Prize for their advancements in AI I

66

00:03:53,990 --> 00:03:51,920

will keep you posted

67

00:03:55,610 --> 00:03:54,000

Russia's departure from the

68

00:03:59,149 --> 00:03:55,620

International Space Station program

69

00:04:01,369 --> 00:03:59,159

isn't so imminent after all last year

70

00:04:04,130 --> 00:04:01,379

shortly after Russia invaded Ukraine

71

00:04:06,110 --> 00:04:04,140

Russian space officials said that the

72

00:04:10,250 --> 00:04:06,120

nation would lead the ISS partnership

73

00:04:14,089 --> 00:04:10,260

somewhere after 2024. so we could focus

74

00:04:17,689 --> 00:04:14,099

on building its own Outpost in in lunar

75

00:04:20,090 --> 00:04:17,699

orbit uh in Earth orbit Russia confirmed

76

00:04:22,870 --> 00:04:20,100

yesterday that it will support continued

77

00:04:26,749 --> 00:04:22,880

station operations through

78

00:04:30,350 --> 00:04:26,759

2028. other major ISS Partners the space

79

00:04:33,290 --> 00:04:30,360

agencies of Europe Canada and Japan have

80

00:04:36,050 --> 00:04:33,300

signed on through 2030 joining NASA and

81

00:04:40,210 --> 00:04:36,060

committing to the ISS through the

82

00:04:44,390 --> 00:04:40,220

envisioned and of its operational life

83

00:04:47,990 --> 00:04:44,400

Mars appears to have had liquid water on

84

00:04:51,170 --> 00:04:48,000

its surface as recently as four hundred

85

00:04:54,050 --> 00:04:51,180

thousand years ago possibly starting a

86

00:04:56,749 --> 00:04:54,060

snow that melted and helped turn sand

87

00:05:01,010 --> 00:04:56,759

dunes into solid cracked crust according

88

00:05:04,670 --> 00:05:01,020

to images taken by China's zurong Rover

89

00:05:07,370 --> 00:05:04,680

now is Young Guang Clin the Chinese

90

00:05:10,189 --> 00:05:07,380

Academy of Sciences in Beijing and his

91

00:05:12,770 --> 00:05:10,199

colleagues have found cracks crust and

92

00:05:16,129 --> 00:05:12,780

clumps of particles on top of sand dunes

93

00:05:18,830 --> 00:05:16,139

in the Martian plain of Utopia planitia

94

00:05:21,830 --> 00:05:18,840

that can only be explained by liquid

95

00:05:25,610 --> 00:05:21,840

water from between 400

96

00:05:28,010 --> 00:05:25,620

000 and 1.4 million years ago the

97

00:05:30,170 --> 00:05:28,020

presence of certain salts in the sand

98

00:05:32,629 --> 00:05:30,180

led the team to believe that water

99

00:05:35,390 --> 00:05:32,639

originally fell onto the sand dunes in

100

00:05:37,730 --> 00:05:35,400

the form of snow or Frost which later

101
00:05:40,850 --> 00:05:37,740
melted and mixed with the sand to form

102
00:05:43,430 --> 00:05:40,860
hydrated minerals these minerals then

103
00:05:46,430 --> 00:05:43,440
clumped together and once evaporated

104
00:05:49,629 --> 00:05:46,440
were cemented in place and formed the

105
00:05:52,310 --> 00:05:49,639
cracked crust seen by the Rover's camera

106
00:05:56,710 --> 00:05:52,320
very exciting news

107
00:06:01,189 --> 00:05:56,720
now I'm going to leave you with this

108
00:06:04,490 --> 00:06:01,199
a Texas state agency is being criticized

109
00:06:07,189 --> 00:06:04,500
for implementing a transphobic policy

110
00:06:10,330 --> 00:06:07,199
after a dress code instructed employees

111
00:06:14,689 --> 00:06:10,340
to dress according to their quote

112
00:06:17,150 --> 00:06:14,699
biological gender end quote the policy

113
00:06:20,629 --> 00:06:17,160

from Texas agriculture commissioner Sid

114

00:06:23,749 --> 00:06:20,639

Miller published today said violations

115

00:06:26,990 --> 00:06:23,759

could result in discipline ending in

116

00:06:29,870 --> 00:06:27,000

termination Miller said his office had

117

00:06:32,809 --> 00:06:29,880

complaints about gender issues that led

118

00:06:36,350 --> 00:06:32,819

to that specific part of the policy

119

00:06:39,830 --> 00:06:36,360

Miller said and I quote

120

00:06:43,189 --> 00:06:39,840

when a man comes dressed in drag or vice

121

00:06:45,590 --> 00:06:43,199

versa it's very disruptive it's not

122

00:06:47,689 --> 00:06:45,600

professional and we want you to come in

123

00:06:50,029 --> 00:06:47,699

looking like you're professional and

124

00:06:53,809 --> 00:06:50,039

representing end quote

125

00:06:57,469 --> 00:06:53,819

well the question I have is what happens

126

00:06:59,390 --> 00:06:57,479

to the hair bands currently on tour in

127

00:07:02,230 --> 00:06:59,400

Texas

128

00:07:04,730 --> 00:07:02,240
