[Music]

2
00:00:36,910 --> 00:00:32,910

thank you

3
00:00:43,090 --> 00:00:39,830

good afternoon Fade to Black breaking

4
00:00:47,630 --> 00:00:43,100

news for this Monday May 15

5
00:00:49,850 --> 00:00:47,640

2023 this is all of the news that you

6
00:00:52,670 --> 00:00:49,860

need I'm Jimmy Church let's get straight

7
00:00:55,790 --> 00:00:52,680

to it lots to do today

8
00:00:59,650 --> 00:00:55,800

on this day in history 1940

9
00:01:03,709 --> 00:00:59,660

in San Bernardino California Brothers

10
00:01:06,830 --> 00:01:03,719

Maurice Mack and Richard McDonald opened

11
00:01:07,789 --> 00:01:06,840

a drive-in restaurant that became you

12
00:01:09,250 --> 00:01:07,799

guessed it

13
00:01:13,550 --> 00:01:09,260

McDonald's

14

00:01:15,469 --> 00:01:13,560

on this day in 1940 here's your fader

15

00:01:18,350 --> 00:01:15,479

facts on a site

16

00:01:21,170 --> 00:01:18,360

airplane food sucks

17

00:01:25,730 --> 00:01:21,180

because our sense of smell and taste

18

00:01:27,350 --> 00:01:25,740

decreased by 50 percent during flights

19

00:01:29,330 --> 00:01:27,360

and that

20

00:01:31,670 --> 00:01:29,340

is your fader fact let's get to the

21

00:01:33,590 --> 00:01:31,680

breaking news

22

00:01:34,850 --> 00:01:33,600

this is some of the craziest breaking

23

00:01:36,469 --> 00:01:34,860

news I can

24

00:01:40,190 --> 00:01:36,479

I can bring

25

00:01:41,270 --> 00:01:40,200

because your next car might be missing a

26
00:01:45,770 --> 00:01:41,280
button

27
00:01:49,069 --> 00:01:45,780
the one to switch between am and FM

28
00:01:52,069 --> 00:01:49,079
radio car manufacturers are increasingly

29
00:01:54,789 --> 00:01:52,079
opting to eliminate AM radio in their

30
00:01:58,490 --> 00:01:54,799
new vehicles that's BMW

31
00:02:00,950 --> 00:01:58,500
Mazda Volvo Volkswagen and Tesla among

32
00:02:03,710 --> 00:02:00,960
others have either already removed or

33
00:02:08,089 --> 00:02:03,720
planned to remove AM radio from at least

34
00:02:11,830 --> 00:02:08,099
some electric models Ford is going even

35
00:02:14,270 --> 00:02:11,840
further reports the the

36
00:02:20,449 --> 00:02:14,280
reports out of Detroit

37
00:02:23,930 --> 00:02:20,459
Ford is ditching am in all new cars gas

38
00:02:29,210 --> 00:02:23,940

or electric there are rumors though that

39

00:02:33,050 --> 00:02:29,220

Chevrolet is bringing back CD players

40

00:02:35,990 --> 00:02:33,060

a new study led by physicists Sasha Kemp

41

00:02:38,690 --> 00:02:36,000

at CU Boulder has delivered the

42

00:02:41,690 --> 00:02:38,700

strongest evidence yet that Saturn's

43

00:02:43,610 --> 00:02:41,700

rings are remarkably young potentially

44

00:02:46,790 --> 00:02:43,620

answering a question that is boggled

45

00:02:49,790 --> 00:02:46,800

scientists for well over a century the

46

00:02:52,970 --> 00:02:49,800

research published this past May 12th in

47

00:02:56,350 --> 00:02:52,980

the journal science advances pegs the

48

00:02:59,509 --> 00:02:56,360

age of Saturn's rings at no more than

49

00:03:02,570 --> 00:02:59,519

400 million years old that makes the

50

00:03:07,309 --> 00:03:02,580

Rings much younger than Saturn itself

51
00:03:10,009 --> 00:03:07,319
which is about 4.5 billion years old the

52
00:03:13,250 --> 00:03:10,019
planet's rings in other words our new

53
00:03:16,309 --> 00:03:13,260
phenomena forming and potentially even

54
00:03:19,970 --> 00:03:16,319
disappearing in what amounts to a blink

55
00:03:22,309 --> 00:03:19,980
of an eye in Cosmic terms absolutely

56
00:03:24,550 --> 00:03:22,319
incredible now

57
00:03:27,949 --> 00:03:24,560
two two

58
00:03:30,830 --> 00:03:27,959
litters of endangered red wolf puppies

59
00:03:33,530 --> 00:03:30,840
have been born in a zoo in North

60
00:03:35,570 --> 00:03:33,540
Carolina the North Carolina Zoo shared

61
00:03:37,430 --> 00:03:35,580
pictures and videos of the newborns on

62
00:03:40,490 --> 00:03:37,440
Facebook and Instagram and a post on May

63
00:03:44,330 --> 00:03:40,500

9th the first litter born to parents

64

00:03:47,630 --> 00:03:44,340

Marsh and Rhone has three pups and the

65

00:03:52,070 --> 00:03:47,640

second litter born to Denali in May has

66

00:03:53,690 --> 00:03:52,080

six for a total of nine and the pictures

67

00:03:56,390 --> 00:03:53,700

are amazing

68

00:03:59,630 --> 00:03:56,400

an international team of researchers

69

00:04:03,009 --> 00:03:59,640

found the oldest known human Footprints

70

00:04:05,990 --> 00:04:03,019

from Germany at the Shawna gin

71

00:04:07,970 --> 00:04:06,000

Paleolithic site complex in lower Saxony

72

00:04:10,910 --> 00:04:07,980

all of this according to a statement

73

00:04:14,030 --> 00:04:10,920

released by the University of tube

74

00:04:18,770 --> 00:04:14,040

engine the fossilized hominin Footprints

75

00:04:21,170 --> 00:04:18,780

date back some 300 000 years two of the

76

00:04:23,450 --> 00:04:21,180

three prints appear to belong to Young

77

00:04:27,110 --> 00:04:23,460

individuals you know the university

78

00:04:29,450 --> 00:04:27,120

archaeologist Jordy sarangeli said that

79

00:04:32,749 --> 00:04:29,460

around the hominid Footprints the team

80

00:04:36,230 --> 00:04:32,759

identified tracks belonging to an

81

00:04:39,010 --> 00:04:36,240

extinct elephant species and one track

82

00:04:42,670 --> 00:04:39,020

from a rhinoceros

83

00:04:46,129 --> 00:04:42,680

three hundred thousand years old

84

00:04:49,150 --> 00:04:46,139

a professor said a new record for the

85

00:04:52,310 --> 00:04:49,160

longest time living underwater without

86

00:04:54,530 --> 00:04:52,320

depressurization in an experiment that

87

00:04:57,370 --> 00:04:54,540

combines medical and ocean research

88

00:04:59,990 --> 00:04:57,380

along with educational Outreach

89

00:05:02,990 --> 00:05:00,000

biomedical engineering Professor Joseph

90

00:05:06,350 --> 00:05:03,000

deturi broke the record this weekend

91

00:05:09,469 --> 00:05:06,360

after living at the bottom of a 30-foot

92

00:05:13,430 --> 00:05:09,479

deep Lagoon in a 100 square foot habitat

93

00:05:16,909 --> 00:05:13,440

located at Jules undersea Lodge in Key

94

00:05:19,990 --> 00:05:16,919

Largo the isolated and extreme confined

95

00:05:23,450 --> 00:05:20,000

Lodge does not use submarine technology

96

00:05:25,909 --> 00:05:23,460

which adjusts for increased underwater

97

00:05:28,730 --> 00:05:25,919

pressure and while we're on the subject

98

00:05:31,550 --> 00:05:28,740

of living underwater by the way Proteus

99

00:05:34,070 --> 00:05:31,560

ocean group co-founded by Fabian

100

00:05:37,070 --> 00:05:34,080

Cousteau grandson of the late ocean

101
00:05:39,350 --> 00:05:37,080
exploration Pioneer Jacques Cousteau is

102
00:05:42,050 --> 00:05:39,360
developing an underwater space station

103
00:05:44,689 --> 00:05:42,060
of the ocean the group plans to build

104
00:05:49,390 --> 00:05:44,699
the station nearly 60 feet deep in the

105
00:05:55,310 --> 00:05:53,150
NASA's James Webb Space Telescope has

106
00:05:58,070 --> 00:05:55,320
observed a distant planet outside of our

107
00:06:00,830 --> 00:05:58,080
solar system with a mirror atmosphere

108
00:06:03,890 --> 00:06:00,840
and unlike anything they have seen

109
00:06:06,830 --> 00:06:03,900
before to reveal what is likely a highly

110
00:06:10,189 --> 00:06:06,840
reflective world with the steamy

111
00:06:13,129 --> 00:06:10,199
atmosphere it's the closest look yet at

112
00:06:16,010 --> 00:06:13,139
the Mysterious World a mini Neptune that

113
00:06:19,629 --> 00:06:16,020

was largely impenetrable to previous

114

00:06:24,710 --> 00:06:19,639

observations and while the planet called

115

00:06:28,990 --> 00:06:24,720

GJ 1214b is too hot to Harbor liquid

116

00:06:32,689 --> 00:06:29,000

water oceans water is vaporized and form

117

00:06:36,409 --> 00:06:32,699

what is the major part of its atmosphere

118

00:06:39,230 --> 00:06:36,419

but it is much cooler than expected

119

00:06:41,749 --> 00:06:39,240

that's because it's unusually shiny

120

00:06:43,790 --> 00:06:41,759

atmosphere reflects most of the light

121

00:06:46,749 --> 00:06:43,800

from its parent star rather than

122

00:06:49,309 --> 00:06:46,759

absorbing it and growing hotter

123

00:06:50,510 --> 00:06:49,319

incredible now I'm going to leave you

124

00:06:54,230 --> 00:06:50,520

with this

125

00:06:56,930 --> 00:06:54,240

the United Arab Emirates is targeting

126

00:06:59,749 --> 00:06:56,940

seven different space rocks with its

127

00:07:02,809 --> 00:06:59,759

mission to the main asteroid belt the

128

00:07:05,270 --> 00:07:02,819

mission which was announced back in 2021

129

00:07:08,270 --> 00:07:05,280

but now it's set to be presented next

130

00:07:11,570 --> 00:07:08,280

month at the asteroids comets meteors

131

00:07:13,909 --> 00:07:11,580

conference in Arizona to reveal the

132

00:07:16,670 --> 00:07:13,919

specific targets for the mission the

133

00:07:19,790 --> 00:07:16,680

mission will launch in 2028 and visit

134

00:07:22,610 --> 00:07:19,800

seven main belt asteroids including six

135

00:07:25,330 --> 00:07:22,620

high-speed flyby Encounters in route to

136

00:07:27,010 --> 00:07:25,340

a rendezvous with the asteroid

00:07:30,529 --> 00:07:27,020
