

# FADE TO BLACK

with JIMMY CHURCH

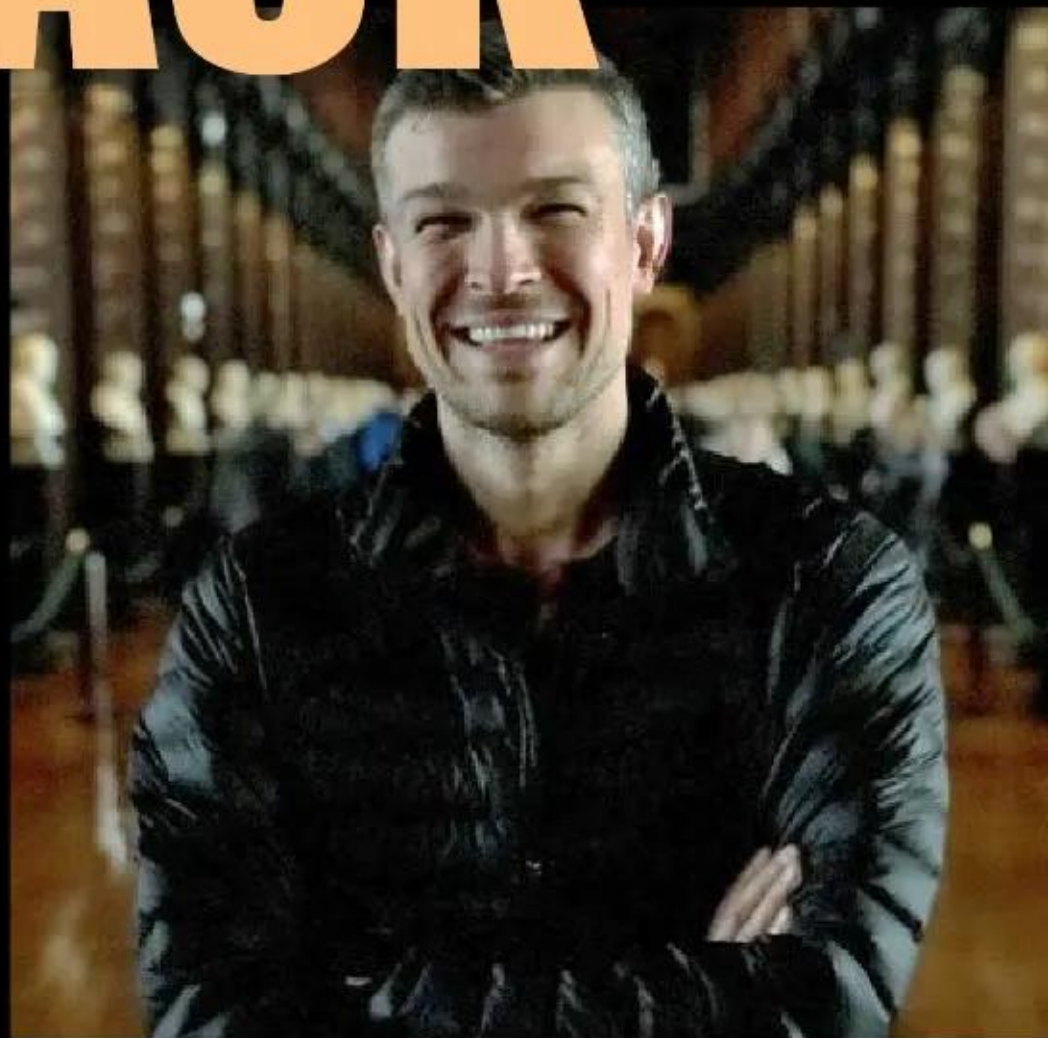

**PRESENTS**

**PAT SPAIN**

**CRYPTOZOOLOGIST**

**TUE JUNE 06 2023 LIVE**

**700-900PM PT**

1  
00:00:41,650 --> 00:00:36,670

[Music]

2  
00:00:44,990 --> 00:00:41,660

the smoke radio for the masses of July 8

3  
00:00:47,330 --> 00:00:45,000

1947 the Army Air Forces has announced

4  
00:00:49,430 --> 00:00:47,340

that a flying disc has been found and is

5  
00:00:52,549 --> 00:00:49,440

now in the possession of the army

6  
00:00:56,630 --> 00:00:52,559

game is rigged change the game game

7  
00:00:59,869 --> 00:00:56,640

changer I occasionally think how quickly

8  
00:01:03,229 --> 00:00:59,879

our difference is worldwide would vanish

9  
00:01:04,509 --> 00:01:03,239

if we were facing an alien threat from

10  
00:01:06,420 --> 00:01:04,519

outside this work

11  
00:01:06,600 --> 00:01:06,430

[Music]

12  
00:01:09,230 --> 00:01:06,610

[Applause]

13  
00:01:11,870 --> 00:01:09,240

[Music]

14

00:01:14,750 --> 00:01:11,880

this is Fade to Black with your host

15

00:01:15,370 --> 00:01:14,760

Jimmy Church on the game changer Radio

16

00:01:17,050 --> 00:01:15,380

Network

17

00:01:19,210 --> 00:01:17,060

[Music]

18

00:01:22,130 --> 00:01:19,220

foreign

19

00:01:24,789 --> 00:01:22,140

welcome Fade to Black today is Tuesday

20

00:01:28,249 --> 00:01:24,799

June 6th

21

00:01:31,910 --> 00:01:28,259

2023. I'm Yours Jimmy church and tonight

22

00:01:33,950 --> 00:01:31,920

are you ready wildlife biologist Pat

23

00:01:35,050 --> 00:01:33,960

Spain is with us tonight but tonight

24

00:01:38,210 --> 00:01:35,060

we're going to be talking about

25

00:01:40,609 --> 00:01:38,220

cryptozoology and all of the other crazy

26

00:01:43,450 --> 00:01:40,619

stuff he has done in his life we're

27

00:01:46,249 --> 00:01:43,460

going to cover all of that and we know

28

00:01:49,010 --> 00:01:46,259

uh cryptozoology you know it's one of

29

00:01:52,130 --> 00:01:49,020

the those things that we cover a lot on

30

00:01:54,889 --> 00:01:52,140

uh the show he's also a biotech expert

31

00:01:56,749 --> 00:01:54,899

of course he's got all of his TV shows

32

00:01:59,630 --> 00:01:56,759

he's been speaking around the world he's

33

00:02:03,590 --> 00:01:59,640

a cancer survivor and he has that

34

00:02:05,990 --> 00:02:03,600

passion for adventure uh the one

35

00:02:09,350 --> 00:02:06,000

constant in his life though is a passion

36

00:02:11,570 --> 00:02:09,360

for adventure it's education and it is

37

00:02:14,089 --> 00:02:11,580

entertainment we'll be doing all of that

38

00:02:16,910 --> 00:02:14,099

tonight he served as keynote speaker at

39

00:02:18,910 --> 00:02:16,920

the Royal geographical Society in London

40

00:02:22,130 --> 00:02:18,920

he spoke at Nasa multiple International

41

00:02:24,949 --> 00:02:22,140

universities his latest Adventure TV

42

00:02:28,190 --> 00:02:24,959

series Legend Hunter is on the Travel

43

00:02:32,270 --> 00:02:28,200

Channel uh it aired back in 2019 with

44

00:02:34,369 --> 00:02:32,280

about 10 million viewers per week and I

45

00:02:35,990 --> 00:02:34,379

cannot wait to get this show started

46

00:02:38,809 --> 00:02:36,000

tonight now

47

00:02:40,550 --> 00:02:38,819

um everything for Pat and his full bio

48

00:02:42,410 --> 00:02:40,560

and everything of course over on our

49

00:02:44,930 --> 00:02:42,420

website got links and everything in

50

00:02:47,150 --> 00:02:44,940

social media and and you can go and

51  
00:02:48,770 --> 00:02:47,160  
check all of that out and I just want to

52  
00:02:51,710 --> 00:02:48,780  
get straight to it I'm very excited

53  
00:02:55,729 --> 00:02:51,720  
tonight we have Pat Pat stain with Pat

54  
00:02:58,490 --> 00:02:55,739  
Spain I almost said Pat smear I almost I

55  
00:03:00,050 --> 00:02:58,500  
almost did and that's your fault and you

56  
00:03:03,710 --> 00:03:00,060  
know what I'll take it

57  
00:03:06,710 --> 00:03:03,720  
[Laughter]

58  
00:03:10,130 --> 00:03:06,720  
oh man you know seriously Pat Smith one

59  
00:03:12,710 --> 00:03:10,140  
of the greatest names in all of music

60  
00:03:14,990 --> 00:03:12,720  
was of hat smear I just absolutely yeah

61  
00:03:17,570 --> 00:03:15,000  
no question about it welcome to the show

62  
00:03:19,729 --> 00:03:17,580  
Pat and um before we get started you get

63  
00:03:22,070 --> 00:03:19,739

the First Time guest disclaimer so let's

64

00:03:23,690 --> 00:03:22,080

get that out of the way which is Pat

65

00:03:25,550 --> 00:03:23,700

it's just you and I tonight sitting on

66

00:03:27,229 --> 00:03:25,560

my couch having a conversation as

67

00:03:29,449 --> 00:03:27,239

friends and where it starts it starts

68

00:03:31,729 --> 00:03:29,459

and ends and ends but we're gonna end

69

00:03:33,110 --> 00:03:31,739

his friends there you go except you have

70

00:03:39,589 --> 00:03:33,120

to click

71

00:03:42,289 --> 00:03:39,599

no I was kidding see I got you I got it

72

00:03:44,149 --> 00:03:42,299

it's been a long day sorry I got patch

73

00:03:46,430 --> 00:03:44,159

man I got Pat's face

74

00:03:49,990 --> 00:03:46,440

um here is

75

00:03:53,149 --> 00:03:50,000

um where I'm gonna start and now I know

76  
00:03:54,949 --> 00:03:53,159  
that uh in a strange way this seems like

77  
00:03:57,830 --> 00:03:54,959  
it's out of your wheelhouse

78  
00:04:01,610 --> 00:03:57,840  
I connect the dots to everything all

79  
00:04:06,589 --> 00:04:01,620  
right so let's start here

80  
00:04:09,110 --> 00:04:06,599  
the news over the last 24 hours that is

81  
00:04:11,390 --> 00:04:09,120  
breaking around the world on all the

82  
00:04:12,369 --> 00:04:11,400  
media Outlets everywhere that you can

83  
00:04:15,009 --> 00:04:12,379  
see

84  
00:04:17,330 --> 00:04:15,019  
is that we have a government

85  
00:04:18,890 --> 00:04:17,340  
whistleblower Insider from the

86  
00:04:21,830 --> 00:04:18,900  
intelligence community

87  
00:04:24,950 --> 00:04:21,840  
that it has now announced that the

88  
00:04:28,070 --> 00:04:24,960

United States has flying saucers and

89

00:04:30,770 --> 00:04:28,080

alien bodies now I just watched a few

90

00:04:35,450 --> 00:04:30,780

minutes ago before Showtime it's right

91

00:04:38,570 --> 00:04:35,460

there the mainstream on on Fox News

92

00:04:40,629 --> 00:04:38,580

um and this is this is a big you know

93

00:04:43,670 --> 00:04:40,639

this is a big story

94

00:04:47,450 --> 00:04:43,680

alien bodies

95

00:04:49,610 --> 00:04:47,460

what would you do you know you're you're

96

00:04:51,730 --> 00:04:49,620

you're you're a marine biologist and

97

00:04:54,409 --> 00:04:51,740

this is what you do the animal kingdom

98

00:04:57,770 --> 00:04:54,419

cryptozoology you're in search of this

99

00:04:59,689 --> 00:04:57,780

kind of stuff what would you do if if

100

00:05:01,850 --> 00:04:59,699

you had the opportunity

101  
00:05:05,090 --> 00:05:01,860  
uh would you would you check that out

102  
00:05:06,409 --> 00:05:05,100  
and 100 yeah oh yeah yeah I'd be

103  
00:05:08,150 --> 00:05:06,419  
fascinated by it I mean I think the

104  
00:05:11,390 --> 00:05:08,160  
whole world would be fascinated by it

105  
00:05:13,790 --> 00:05:11,400  
it's uh you know it would change so much

106  
00:05:16,670 --> 00:05:13,800  
of what we know about

107  
00:05:18,050 --> 00:05:16,680  
um our history about the the you know so

108  
00:05:19,850 --> 00:05:18,060  
much that we could learn from them we

109  
00:05:22,189 --> 00:05:19,860  
could learn you know how Evolution has

110  
00:05:24,230 --> 00:05:22,199  
worked on wherever wherever they're from

111  
00:05:26,330 --> 00:05:24,240  
we could learn you know what other

112  
00:05:27,890 --> 00:05:26,340  
intelligent life is like you know does

113  
00:05:29,870 --> 00:05:27,900

there there's the competing theories

114

00:05:31,310 --> 00:05:29,880

does intelligent life always mean that

115

00:05:33,350 --> 00:05:31,320

you're going to be violent or does it

116

00:05:35,510 --> 00:05:33,360

eventually lead to a peaceful

117

00:05:37,129 --> 00:05:35,520

um group you know we we could find the

118

00:05:41,029 --> 00:05:37,139

answer to that you know in one way or

119

00:05:43,670 --> 00:05:41,039

another be it good for us or not and and

120

00:05:45,010 --> 00:05:43,680

now it would would

121

00:05:48,350 --> 00:05:45,020

um

122

00:05:51,590 --> 00:05:48,360

I need your answer on this because I

123

00:05:53,930 --> 00:05:51,600

think this is a question uh once we

124

00:05:56,390 --> 00:05:53,940

cross that Rubicon right we're not alone

125

00:06:00,230 --> 00:05:56,400

and they're they're visiting this planet

126

00:06:02,810 --> 00:06:00,240

right and I I think we're we're not only

127

00:06:04,550 --> 00:06:02,820

closer to it than ever before but the

128

00:06:06,529 --> 00:06:04,560

universe is a big place and there's got

129

00:06:07,730 --> 00:06:06,539

to be a lot of Life out there right okay

130

00:06:11,870 --> 00:06:07,740

but

131

00:06:14,749 --> 00:06:11,880

at what point uh do we classify

132

00:06:17,090 --> 00:06:14,759

something as alien or just another

133

00:06:20,570 --> 00:06:17,100

species I mean because kind of

134

00:06:23,050 --> 00:06:20,580

technically we're aliens too you know

135

00:06:26,150 --> 00:06:23,060

you understand where I'm going

136

00:06:28,129 --> 00:06:26,160

so I mean the theory of panspermia there

137

00:06:30,230 --> 00:06:28,139

thinking about you know like was was did

138

00:06:32,330 --> 00:06:30,240

all life on Earth come about from from a

139

00:06:33,969 --> 00:06:32,340

media or from some kind of and I think

140

00:06:37,129 --> 00:06:33,979

that

141

00:06:38,629 --> 00:06:37,139

maybe maybe but where where do we

142

00:06:41,029 --> 00:06:38,639

classify it I think that we classified

143

00:06:42,950 --> 00:06:41,039

as something that has evolved

144

00:06:45,230 --> 00:06:42,960

um outside of Earth anything that has

145

00:06:47,629 --> 00:06:45,240

evolved outside of Earth you know we

146

00:06:50,270 --> 00:06:47,639

would classify as alien

147

00:06:52,490 --> 00:06:50,280

um but yeah I mean anything any life

148

00:06:54,890 --> 00:06:52,500

that we discover that has evolved

149

00:06:57,050 --> 00:06:54,900

outside of Earth's atmosphere

150

00:06:59,570 --> 00:06:57,060

um would be fascinating to study I mean

151

00:07:01,730 --> 00:06:59,580

there's theoretically water on Titan

152

00:07:03,770 --> 00:07:01,740

right so if there's water on Titan then

153

00:07:05,450 --> 00:07:03,780

there's almost certainly life there so

154

00:07:07,309 --> 00:07:05,460

you know there's a supposed to be a

155

00:07:10,189 --> 00:07:07,319

frozen surface layer but then underneath

156

00:07:11,809 --> 00:07:10,199

that there's liquid water

157

00:07:14,090 --> 00:07:11,819

um I mean

158

00:07:15,409 --> 00:07:14,100

probably not intelligent life but it

159

00:07:18,350 --> 00:07:15,419

would be something that would be amazing

160

00:07:20,990 --> 00:07:18,360

to see and amazing to study and uh yes

161

00:07:23,469 --> 00:07:21,000

you know Decades of research yeah yeah

162

00:07:26,749 --> 00:07:23,479

you know

163

00:07:29,150 --> 00:07:26,759

octopus octopi oh yeah pretty

164

00:07:30,670 --> 00:07:29,160

intelligent very smart absolutely yeah

165

00:07:32,809 --> 00:07:30,680

you know you know what I mean so

166

00:07:35,930 --> 00:07:32,819

cephalopods I mean squid squid can be

167

00:07:37,790 --> 00:07:35,940

taught us to a maze uh mazes octopus can

168

00:07:41,029 --> 00:07:37,800

um problem solve they can you know get

169

00:07:43,430 --> 00:07:41,039

food for such a short-lived animal to be

170

00:07:44,990 --> 00:07:43,440

as intelligent as they are it's really

171

00:07:47,749 --> 00:07:45,000

strange and it's really unusual and they

172

00:07:50,570 --> 00:07:47,759

think that that's actually a um

173

00:07:53,150 --> 00:07:50,580

it's a side effect of their huge eyes

174

00:07:55,370 --> 00:07:53,160

they think that they developed a larger

175

00:07:58,689 --> 00:07:55,380

brain because they needed such big eyes

176

00:08:01,430 --> 00:07:58,699

and um they can now think you

177

00:08:03,770 --> 00:08:01,440

well for me I'd say that's a true

178

00:08:05,870 --> 00:08:03,780

statement but humans humans have still

179

00:08:09,890 --> 00:08:05,880

probably got them beats I was watching

180

00:08:12,409 --> 00:08:09,900

this documentary uh uh years ago and

181

00:08:15,469 --> 00:08:12,419

this octopus is living in this tank

182

00:08:16,430 --> 00:08:15,479

um a bunch of them right and and figured

183

00:08:23,629 --> 00:08:16,440

out

184

00:08:25,670 --> 00:08:23,639

and grab stuff oh yeah oh definitely

185

00:08:27,830 --> 00:08:25,680

they've shown that a few times yeah yeah

186

00:08:29,570 --> 00:08:27,840

yeah yeah I mean you know the snack food

187

00:08:32,750 --> 00:08:29,580

whatever I don't know if it's sardines

188

00:08:36,649 --> 00:08:32,760

or you know whatever but but you know

189

00:08:40,250 --> 00:08:36,659

and and was doing it when the biologist

190

00:08:42,610 --> 00:08:40,260

in the room weren't looking yeah okay

191

00:08:46,430 --> 00:08:42,620

they're very smart yeah

192

00:08:47,990 --> 00:08:46,440

the new um Twilight Zone the new reboot

193

00:08:50,509 --> 00:08:48,000

of The Twilight Zone they did an episode

194

00:08:52,730 --> 00:08:50,519

with Tim Armstrong from rancid where he

195

00:08:55,009 --> 00:08:52,740

plays a marine biologist and uh they're

196

00:08:56,570 --> 00:08:55,019

studying super intelligent octopus that

197

00:08:58,370 --> 00:08:56,580

want to kill all the crew and everything

198

00:09:00,230 --> 00:08:58,380

I won't spoil it but it's well worth

199

00:09:02,509 --> 00:09:00,240

watching right I'm gonna go check that

200

00:09:05,829 --> 00:09:02,519

out I'm gonna go check that out

201

00:09:08,630 --> 00:09:05,839

um can we um uh okay

202

00:09:11,150 --> 00:09:08,640

let's stay here for just a a second

203

00:09:12,470 --> 00:09:11,160

further uh because now we're also going

204

00:09:16,130 --> 00:09:12,480

to tie in

205

00:09:17,870 --> 00:09:16,140

um music to all of this too as well but

206

00:09:19,190 --> 00:09:17,880

um it's all connected my friend right

207

00:09:22,570 --> 00:09:19,200

yeah

208

00:09:26,810 --> 00:09:22,580

um what would you expect

209

00:09:30,290 --> 00:09:26,820

if you uh you know you're performing an

210

00:09:32,269 --> 00:09:30,300

autopsy you you've got this species in

211

00:09:36,110 --> 00:09:32,279

in front of you

212

00:09:38,650 --> 00:09:36,120

um and let's say let's stay in a safe

213

00:09:42,949 --> 00:09:38,660

Zone here are the parameters right head

214

00:09:45,650 --> 00:09:42,959

stereo eyes stereo ears nose mouth two

215

00:09:49,009 --> 00:09:45,660

arms two legs I don't know how many

216

00:09:51,530 --> 00:09:49,019

fingers right but a basic thing right

217

00:09:53,389 --> 00:09:51,540

humanoid right humanoid

218

00:09:56,030 --> 00:09:53,399

all right see I could have just said all

219

00:09:58,250 --> 00:09:56,040

of that and just said humanoid thank you

220

00:10:01,009 --> 00:09:58,260

thank you for that Pat but okay and and

221

00:10:04,070 --> 00:10:01,019

now you got scalpel and you've got your

222

00:10:05,090 --> 00:10:04,080

Dremel all right whatever whatever you

223

00:10:09,350 --> 00:10:05,100

got

224

00:10:11,690 --> 00:10:09,360

um what what would you expect to see on

225

00:10:14,690 --> 00:10:11,700

the inside me on the floor passing out

226

00:10:17,449 --> 00:10:14,700

right right right so my wife took gross

227

00:10:19,550 --> 00:10:17,459

anatomy and she dissected cadavers and

228

00:10:21,050 --> 00:10:19,560

she she's done that stuff and uh I've

229

00:10:24,170 --> 00:10:21,060

more power to her I think it's

230

00:10:26,389 --> 00:10:24,180

absolutely amazing um I I never have I

231

00:10:28,250 --> 00:10:26,399

think that I would be uh I would be in a

232

00:10:32,030 --> 00:10:28,260

little bit over my head I have dissected

233

00:10:33,290 --> 00:10:32,040

many many sea creatures and uh lots of

234

00:10:34,850 --> 00:10:33,300

other you know vertebrates and

235

00:10:37,550 --> 00:10:34,860

invertebrates but I think once we get

236

00:10:42,050 --> 00:10:37,560

into anything humanoid I uh I'm out of

237

00:10:46,130 --> 00:10:42,060

my death yeah but would would you expect

238

00:10:50,210 --> 00:10:46,140

um a similar Anatomy on the inside as as

239

00:10:53,050 --> 00:10:50,220

as us organs you know in a similar

240

00:10:56,509 --> 00:10:53,060

layout lungs liver

241

00:10:58,670 --> 00:10:56,519

the the great thing about Evolution and

242

00:11:00,290 --> 00:10:58,680

the possibility of life outside of Earth

243

00:11:03,650 --> 00:11:00,300

is that the sky's the limit there's

244

00:11:05,750 --> 00:11:03,660

there there is no expectation

245

00:11:07,730 --> 00:11:05,760

um yeah I mean based on the the outer

246

00:11:10,190 --> 00:11:07,740

based on the morphology you know of of

247

00:11:12,050 --> 00:11:10,200

humanoid shape you would think that

248

00:11:14,269 --> 00:11:12,060

there would probably be things that

249

00:11:15,949 --> 00:11:14,279

would correlate and correspond but could

250

00:11:19,069 --> 00:11:15,959

that might their brain be in the center

251  
00:11:22,550 --> 00:11:19,079  
of their body sure absolutely you know

252  
00:11:24,710 --> 00:11:22,560  
might there be a different way to get to

253  
00:11:26,810 --> 00:11:24,720  
to breathe a different way to uh to

254  
00:11:28,550 --> 00:11:26,820  
respire yeah definitely you know we we

255  
00:11:30,050 --> 00:11:28,560  
have lungs but there's there's not just

256  
00:11:31,550 --> 00:11:30,060  
one solution you know we can look on

257  
00:11:33,769 --> 00:11:31,560  
Earth and we can find all kinds of

258  
00:11:36,170 --> 00:11:33,779  
different life forms and different ways

259  
00:11:38,290 --> 00:11:36,180  
that animals have overcome

260  
00:11:40,970 --> 00:11:38,300  
um survival you know we have

261  
00:11:43,009 --> 00:11:40,980  
chemosynthetic worms that live in the

262  
00:11:45,769 --> 00:11:43,019  
deepest part of the ocean that you know

263  
00:11:49,130 --> 00:11:45,779

bear almost no resemblance to anything

264

00:11:50,930 --> 00:11:49,140

else we have hagfish that um you know

265

00:11:53,449 --> 00:11:50,940

live live in the ocean that we can find

266

00:11:55,730 --> 00:11:53,459

that are not closely related to really

267

00:11:57,650 --> 00:11:55,740

anything I mean sort of to the Lamprey

268

00:11:59,389 --> 00:11:57,660

but um but that's about it I mean we

269

00:12:01,370 --> 00:11:59,399

have such a diversity of life on Earth

270

00:12:02,930 --> 00:12:01,380

that it's hard to predict what you're

271

00:12:06,710 --> 00:12:02,940

going to see when you start to cut

272

00:12:09,110 --> 00:12:06,720

something open that yeah I mean uh I

273

00:12:12,350 --> 00:12:09,120

would expect there to be parallels that

274

00:12:14,630 --> 00:12:12,360

we could draw to human anatomy but not a

275

00:12:16,490 --> 00:12:14,640

direct Coral or nothing's direct at all

276

00:12:18,530 --> 00:12:16,500

like I wouldn't expect to see kidneys

277

00:12:20,389 --> 00:12:18,540

but I'd expect to see something that

278

00:12:22,550 --> 00:12:20,399

does the same type of function of

279

00:12:24,470 --> 00:12:22,560

removing waste as kidneys I wouldn't

280

00:12:26,210 --> 00:12:24,480

expect to see a single four-chamber

281

00:12:29,630 --> 00:12:26,220

heart but I would expect to see

282

00:12:32,509 --> 00:12:29,640

something that aids in circulation

283

00:12:35,870 --> 00:12:32,519

um and and you bring up Titan right and

284

00:12:37,730 --> 00:12:35,880

and Europa for instance is another

285

00:12:39,009 --> 00:12:37,740

really good example of this yeah I think

286

00:12:42,009 --> 00:12:39,019

that's probably what I was thinking of

287

00:12:47,389 --> 00:12:42,019

well Titan two though yeah

288

00:12:50,329 --> 00:12:47,399

and there are reasons uh for our

289

00:12:53,090 --> 00:12:50,339

suspicious of of being a great candidate

290

00:12:57,350 --> 00:12:53,100

for for supporting life now very cold

291

00:13:00,769 --> 00:12:57,360

covered in ice far from the Sun but the

292

00:13:02,990 --> 00:13:00,779

the pull and the gravity of Jupiter and

293

00:13:07,610 --> 00:13:03,000

in some cases Saturn

294

00:13:10,490 --> 00:13:07,620

um causes the interior to always be in

295

00:13:13,490 --> 00:13:10,500

motion and that there would be heat on

296

00:13:16,610 --> 00:13:13,500

the inside underneath and and it's not

297

00:13:19,550 --> 00:13:16,620

going to be a solid uh mass of ice that

298

00:13:22,610 --> 00:13:19,560

there is and okay so that okay all right

299

00:13:25,430 --> 00:13:22,620

all right but and here's the butt uh

300

00:13:27,949 --> 00:13:25,440

there's not going to be much oxygen

301  
00:13:32,290 --> 00:13:27,959  
there there's not going to be any light

302  
00:13:35,210 --> 00:13:32,300  
for energy creation right or absorption

303  
00:13:37,370 --> 00:13:35,220  
but we have the exact same things going

304  
00:13:38,810 --> 00:13:37,380  
on here on this planet absolutely yeah I

305  
00:13:40,550 --> 00:13:38,820  
go down to the deepest trenches and

306  
00:13:43,009 --> 00:13:40,560  
you've got you know you've got the same

307  
00:13:45,710 --> 00:13:43,019  
thing yeah we have two worms that are

308  
00:13:48,530 --> 00:13:45,720  
living with you know their their base uh

309  
00:13:50,449 --> 00:13:48,540  
something like 500 degrees warmer than

310  
00:13:52,910 --> 00:13:50,459  
the top of them I mean a 500 degree

311  
00:13:55,190 --> 00:13:52,920  
temperature difference just in this one

312  
00:13:57,170 --> 00:13:55,200  
organism and it can survive in that we

313  
00:14:00,829 --> 00:13:57,180

have them living in sulfuric acid yeah

314

00:14:03,829 --> 00:14:00,839

sulfuric acid and high high pH extremes

315

00:14:07,069 --> 00:14:03,839

you know and and you know sulfur and

316

00:14:09,470 --> 00:14:07,079

everything else and and they Thrive yeah

317

00:14:11,090 --> 00:14:09,480

yeah an entire ecosystem driving down

318

00:14:12,769 --> 00:14:11,100

there so sure yeah I mean like like they

319

00:14:16,430 --> 00:14:12,779

say in Jurassic Park life will find a

320

00:14:18,350 --> 00:14:16,440

way it always does doesn't it

321

00:14:21,230 --> 00:14:18,360

um and that's that's another uh

322

00:14:25,310 --> 00:14:21,240

fascinating thing uh let's go there for

323

00:14:28,790 --> 00:14:25,320

a second after after we have some type

324

00:14:31,970 --> 00:14:28,800

of disaster situation yeah volcano goes

325

00:14:34,670 --> 00:14:31,980

off a wildfire comes through earthquake

326

00:14:38,389 --> 00:14:34,680

title whatever it is right and

327

00:14:42,170 --> 00:14:38,399

everything is wiped out until spring all

328

00:14:45,050 --> 00:14:42,180

right right yeah it's just like boom

329

00:14:46,910 --> 00:14:45,060

everything just just you can't stop life

330

00:14:49,370 --> 00:14:46,920

can you no we think you know we think of

331

00:14:51,769 --> 00:14:49,380

it as a world-ending event and there's

332

00:14:53,689 --> 00:14:51,779

there's a human there's an ending of

333

00:14:56,329 --> 00:14:53,699

humans but it doesn't it doesn't end the

334

00:14:58,430 --> 00:14:56,339

world and it doesn't stop life from you

335

00:15:01,069 --> 00:14:58,440

know continually evolving and changing I

336

00:15:02,990 --> 00:15:01,079

mean we we've this this uh

337

00:15:05,269 --> 00:15:03,000

planet has gone through multiple mass

338

00:15:07,850 --> 00:15:05,279

extinctions where we've lost you know up

339

00:15:10,310 --> 00:15:07,860

to 90 percent or more of all life on

340

00:15:12,290 --> 00:15:10,320

Earth and still come back from it a

341

00:15:15,670 --> 00:15:12,300

couple thousand years later we have 10

342

00:15:18,110 --> 00:15:15,680

000 new species yeah absolutely new new

343

00:15:19,490 --> 00:15:18,120

that's completely different completely

344

00:15:20,930 --> 00:15:19,500

unique and different I mean you look at

345

00:15:22,610 --> 00:15:20,940

you look at what the um what what

346

00:15:24,889 --> 00:15:22,620

animals look like back in the Cambrian

347

00:15:26,750 --> 00:15:24,899

explosion and back in the you know even

348

00:15:28,730 --> 00:15:26,760

before that and totally different

349

00:15:31,490 --> 00:15:28,740

totally alien looking life something

350

00:15:34,310 --> 00:15:31,500

that that we would never picture as any

351  
00:15:36,410 --> 00:15:34,320  
recognized species but you know that's

352  
00:15:38,230 --> 00:15:36,420  
something survived and something you

353  
00:15:42,170 --> 00:15:38,240  
know continued to change

354  
00:15:44,710 --> 00:15:42,180  
65 million years ago if we

355  
00:15:47,150 --> 00:15:44,720  
um that would be a good time travel

356  
00:15:48,949 --> 00:15:47,160  
experiment you know going back to see

357  
00:15:52,910 --> 00:15:48,959  
how the pyramids were built that's one

358  
00:15:57,110 --> 00:15:52,920  
thing jump back to 65 million years ago

359  
00:16:00,769 --> 00:15:57,120  
um and and see the dinosaurs and then

360  
00:16:03,230 --> 00:16:00,779  
the of course the asteroid impact and

361  
00:16:06,230 --> 00:16:03,240  
what environmentally would happen to

362  
00:16:07,970 --> 00:16:06,240  
this planet because it was

363  
00:16:10,670 --> 00:16:07,980

um it wasn't just killing off the

364

00:16:12,610 --> 00:16:10,680

dinosaurs it was the atmosphere what was

365

00:16:16,069 --> 00:16:12,620

the atmosphere what we were breathing

366

00:16:18,650 --> 00:16:16,079

I'm not so sure that humans uh could

367

00:16:21,290 --> 00:16:18,660

have breathed the air no no no the

368

00:16:23,990 --> 00:16:21,300

oceans turned to acid I mean it was yeah

369

00:16:26,210 --> 00:16:24,000

yeah the amount of Ash uh it turned the

370

00:16:28,730 --> 00:16:26,220

oceans to acid and yeah the air was

371

00:16:31,210 --> 00:16:28,740

unbreathable for for most vertebrate

372

00:16:35,150 --> 00:16:31,220

life and then it allowed

373

00:16:37,430 --> 00:16:35,160

everything cleared out and we had a

374

00:16:40,129 --> 00:16:37,440

different atmosphere than we had when

375

00:16:42,470 --> 00:16:40,139

the dinosaurs were here yeah you open up

376

00:16:45,050 --> 00:16:42,480

new niches and something goes in to fill

377

00:16:46,790 --> 00:16:45,060

them absolutely yeah it's crazy isn't it

378

00:16:49,430 --> 00:16:46,800

it's just yeah I love it I mean that's

379

00:16:51,350 --> 00:16:49,440

what evolutionary biology is is my one

380

00:16:53,810 --> 00:16:51,360

of my favorite things in the world for

381

00:16:55,970 --> 00:16:53,820

exactly that reason it's uh it's amazing

382

00:16:58,310 --> 00:16:55,980

how it finds you know life life will

383

00:16:59,870 --> 00:16:58,320

find a little well a little foothold and

384

00:17:02,030 --> 00:16:59,880

that's all that it needs to you know

385

00:17:05,030 --> 00:17:02,040

completely Blossom and change no it's

386

00:17:08,150 --> 00:17:05,040

gonna be totally different okay so now

387

00:17:09,970 --> 00:17:08,160

let's talk punk music so so here's the

388

00:17:13,449 --> 00:17:09,980

deal

389

00:17:18,949 --> 00:17:14,990

how

390

00:17:21,470 --> 00:17:18,959

did humans modern Homo sapiens tape and

391

00:17:23,630 --> 00:17:21,480

you and I get here

392

00:17:24,949 --> 00:17:23,640

because if we go back in the fossil

393

00:17:28,189 --> 00:17:24,959

record

394

00:17:29,930 --> 00:17:28,199

um and and 200 000 years ago hundred

395

00:17:32,810 --> 00:17:29,940

fifty thousand two hundred thousand we

396

00:17:37,669 --> 00:17:32,820

can't even really get to 210 000 years

397

00:17:41,330 --> 00:17:37,679

right 200 000 years is a blip in time

398

00:17:45,230 --> 00:17:41,340

but that's where you and I appeared and

399

00:17:47,750 --> 00:17:45,240

allowed for punk music to evolve it's

400

00:17:50,450 --> 00:17:47,760

true did you see the new so just this

401  
00:17:52,250 --> 00:17:50,460  
week they had a new um they published

402  
00:17:55,070 --> 00:17:52,260  
this find out of uh

403  
00:17:57,230 --> 00:17:55,080  
oh boy I forget the cave in uh in South

404  
00:17:59,990 --> 00:17:57,240  
Africa but they they've now shown that

405  
00:18:02,930 --> 00:18:00,000  
this is up to 300 000 years ago the um

406  
00:18:05,510 --> 00:18:02,940  
the hominid culture there uh did

407  
00:18:08,950 --> 00:18:05,520  
purposeful burials and Cave markings

408  
00:18:11,870 --> 00:18:08,960  
okay markings up to 300 000 years ago

409  
00:18:13,789 --> 00:18:11,880  
100 000 years before we knew that any of

410  
00:18:16,610 --> 00:18:13,799  
that was happening and it was not Homo

411  
00:18:18,470 --> 00:18:16,620  
sapiens it was uh right right right and

412  
00:18:20,630 --> 00:18:18,480  
the sovians I forget I forget the the

413  
00:18:23,690 --> 00:18:20,640

actual species but yeah it's amazing

414

00:18:25,730 --> 00:18:23,700

yeah and uh we're finding out more and

415

00:18:28,010 --> 00:18:25,740

more about us but let's go okay but

416

00:18:31,090 --> 00:18:28,020

let's stay and they evolved into Joey

417

00:18:36,230 --> 00:18:31,100

and Johnny and Marky and CJ

418

00:18:38,390 --> 00:18:36,240

how how is it that 200 000 years ago

419

00:18:41,090 --> 00:18:38,400

we just appeared

420

00:18:45,049 --> 00:18:41,100

you know I don't think we did well but

421

00:18:47,810 --> 00:18:45,059

there's no Evolution if you go with

422

00:18:50,510 --> 00:18:47,820

um uh I'm not an anthropologist I play

423

00:18:52,850 --> 00:18:50,520

one on TV okay but I'm pretty effective

424

00:18:56,049 --> 00:18:52,860

at it but

425

00:19:00,529 --> 00:18:56,059

um if we go with Darwin's and other

426

00:19:04,130 --> 00:19:00,539

accepted uh ideas with anthropology and

427

00:19:07,010 --> 00:19:04,140

and evolution then there would have been

428

00:19:10,130 --> 00:19:07,020

millions and if that tens of millions of

429

00:19:12,590 --> 00:19:10,140

years of us to develop

430

00:19:16,490 --> 00:19:12,600

are our beautiful faces and our physique

431

00:19:21,490 --> 00:19:16,500

no hair right and and just things

432

00:19:24,529 --> 00:19:21,500

um but we just appeared overnight and

433

00:19:27,230 --> 00:19:24,539

not necessarily there's you know a Gould

434

00:19:30,350 --> 00:19:27,240

gold has punctuated equilibrium is his

435

00:19:33,350 --> 00:19:30,360

uh kind of he tweaked Darwin's uh you

436

00:19:34,490 --> 00:19:33,360

know concept Darwin and and Wallace's

437

00:19:36,169 --> 00:19:34,500

concept

438

00:19:38,870 --> 00:19:36,179

um to go with a punctuated equilibrium

439

00:19:41,150 --> 00:19:38,880

where there's there's more Peaks and

440

00:19:43,190 --> 00:19:41,160

valleys so there there's there it would

441

00:19:44,990 --> 00:19:43,200

be likely to see something change that

442

00:19:46,370 --> 00:19:45,000

seems a little bit more drastic and then

443

00:19:48,470 --> 00:19:46,380

a little bit gradual and then drastic

444

00:19:51,289 --> 00:19:48,480

and then gradual and there's a lot of

445

00:19:53,930 --> 00:19:51,299

species that show that as well where um

446

00:19:55,430 --> 00:19:53,940

you know there's gaps in the fossil

447

00:19:58,789 --> 00:19:55,440

record for sure

448

00:20:01,010 --> 00:19:58,799

um but we we can go back pretty you know

449

00:20:03,770 --> 00:20:01,020

and and we can pretty well see from tree

450

00:20:06,830 --> 00:20:03,780

true all the way to modern humans

451  
00:20:09,770 --> 00:20:06,840  
without too many gaps and being able to

452  
00:20:10,549 --> 00:20:09,780  
see how this happened

453  
00:20:13,510 --> 00:20:10,559  
um

454  
00:20:16,789 --> 00:20:13,520  
it's all guesswork though well

455  
00:20:19,490 --> 00:20:16,799  
it's all guess okay I love this

456  
00:20:21,529 --> 00:20:19,500  
conversation because this is

457  
00:20:24,470 --> 00:20:21,539  
um and punctuated equilibrium and gold

458  
00:20:29,289 --> 00:20:24,480  
and and when he came along with that

459  
00:20:34,970 --> 00:20:32,570  
right right it was and now we're kind of

460  
00:20:36,529 --> 00:20:34,980  
going man he he he might have actually

461  
00:20:39,590 --> 00:20:36,539  
had this right

462  
00:20:41,090 --> 00:20:39,600  
so if if we stay with that let's go back

463  
00:20:44,990 --> 00:20:41,100

to humans again

464

00:20:46,070 --> 00:20:45,000

we suddenly showed up with 46 chromosome

465

00:20:49,610 --> 00:20:46,080

pairs

466

00:20:51,110 --> 00:20:49,620

and with it's not like I don't know

467

00:20:53,870 --> 00:20:51,120

because I mean we don't know you can't

468

00:20:56,510 --> 00:20:53,880

we you can't get DNA from that long ago

469

00:20:59,150 --> 00:20:56,520

and be able to tell uh what what you

470

00:21:01,789 --> 00:20:59,160

know we we don't know the the the DNA of

471

00:21:05,150 --> 00:21:01,799

our oldest ancestors that's that's my

472

00:21:10,190 --> 00:21:07,370

slow and gradual process to get there

473

00:21:13,490 --> 00:21:10,200

like we can see you know denisovians um

474

00:21:15,650 --> 00:21:13,500

you can see the the change from the

475

00:21:18,470 --> 00:21:15,660

fossils before to to the fossils after

476

00:21:20,570 --> 00:21:18,480

and you can see you know neanderthals

477

00:21:22,669 --> 00:21:20,580

um we can see that Evolution we can see

478

00:21:25,610 --> 00:21:22,679

the the gradual change from there yes

479

00:21:28,130 --> 00:21:25,620

there may be some you know jumps but

480

00:21:30,649 --> 00:21:28,140

they're not as drastic as it's not you

481

00:21:32,990 --> 00:21:30,659

know a chimp one day and uh and a human

482

00:21:35,090 --> 00:21:33,000

the next there there is a lot of stages

483

00:21:37,610 --> 00:21:35,100

in between and we do have a pretty good

484

00:21:39,350 --> 00:21:37,620

fossil record for human evolution okay

485

00:21:42,230 --> 00:21:39,360

so

486

00:21:45,950 --> 00:21:42,240

um this is I disagree and this is why I

487

00:21:49,370 --> 00:21:45,960

disagree okay we'll see Lucy is pretty

488

00:21:52,250 --> 00:21:49,380

cool that was a fantastic Discovery

489

00:21:53,810 --> 00:21:52,260

absolutely unbelievable

490

00:21:59,510 --> 00:21:53,820

but it was three and a half million

491

00:22:01,850 --> 00:21:59,520

years ago and to go from Lucy to us

492

00:22:04,370 --> 00:22:01,860

in in that short of a period of time

493

00:22:06,710 --> 00:22:04,380

doesn't fit that that's not an

494

00:22:09,830 --> 00:22:06,720

evolutionary process and when you look

495

00:22:12,230 --> 00:22:09,840

at a neanderthal and you look at

496

00:22:14,149 --> 00:22:12,240

Cro-Magnon and you look at us that's two

497

00:22:19,130 --> 00:22:14,159

different there is an evolutionary

498

00:22:22,909 --> 00:22:19,140

process there we just appeared so what I

499

00:22:27,649 --> 00:22:22,919

am suggesting is that maybe we had

500

00:22:30,950 --> 00:22:27,659

maybe an extraterrestrial DNA snip snip

501  
00:22:35,570 --> 00:22:30,960  
um that that might have created us took

502  
00:22:38,570 --> 00:22:35,580  
us from 48 pairs right to 246.

503  
00:22:42,529 --> 00:22:38,580  
um which which to me there's a lot of

504  
00:22:45,649 --> 00:22:42,539  
information in those those pairs

505  
00:22:48,529 --> 00:22:45,659  
um if that was removed from us

506  
00:22:52,070 --> 00:22:48,539  
and and when you look at other primates

507  
00:22:54,789 --> 00:22:52,080  
that are sitting at 48 why aren't they

508  
00:22:58,490 --> 00:22:54,799  
inventing a new version of the internet

509  
00:23:01,310 --> 00:22:58,500  
why why do you understand where we just

510  
00:23:04,610 --> 00:23:01,320  
come along and and dominate so quickly

511  
00:23:07,010 --> 00:23:04,620  
and it appears that uh to me from the

512  
00:23:10,190 --> 00:23:07,020  
outside looking in that we were just

513  
00:23:11,990 --> 00:23:10,200

dropped off maybe it was a meteorite I I

514

00:23:14,270 --> 00:23:12,000

can't explain I would say rats are more

515

00:23:15,070 --> 00:23:14,280

successful than humans at dominating the

516

00:23:18,409 --> 00:23:15,080

world

517

00:23:21,110 --> 00:23:18,419

so I mean insects you know the weevils

518

00:23:23,990 --> 00:23:21,120

there's uh what is it 120 thousands or

519

00:23:25,430 --> 00:23:24,000

60 000 species of weevils so I mean we

520

00:23:27,230 --> 00:23:25,440

do like to give ourselves a lot of

521

00:23:28,669 --> 00:23:27,240

credit and say that we have uh you know

522

00:23:31,010 --> 00:23:28,679

we we have taken over the earth I think

523

00:23:33,470 --> 00:23:31,020

that we're very destructive towards here

524

00:23:35,330 --> 00:23:33,480

but and there are certainly a huge

525

00:23:37,250 --> 00:23:35,340

number of humans and we are great at

526

00:23:39,770 --> 00:23:37,260

adapting our environment to us which

527

00:23:42,529 --> 00:23:39,780

allows us to go into a lot of different

528

00:23:44,870 --> 00:23:42,539

um environments which you know there's a

529

00:23:47,270 --> 00:23:44,880

number of species that can't but um

530

00:23:50,510 --> 00:23:47,280

there's a lot of worldwide species that

531

00:23:52,909 --> 00:23:50,520

have managed to take over uh better than

532

00:23:54,470 --> 00:23:52,919

we have we just uh and as far as

533

00:23:56,090 --> 00:23:54,480

intelligence goes I mean you were

534

00:23:57,470 --> 00:23:56,100

talking about it earlier there are

535

00:23:58,430 --> 00:23:57,480

different ways to measure intelligence

536

00:24:00,770 --> 00:23:58,440

different ways to think about

537

00:24:02,450 --> 00:24:00,780

intelligence um you know are we more

538

00:24:04,490 --> 00:24:02,460

intelligent than an octopus because

539

00:24:07,669 --> 00:24:04,500

we've designed the internet

540

00:24:09,830 --> 00:24:07,679

um most people would say yes but uh but

541

00:24:12,470 --> 00:24:09,840

the octopuses are less likely to destroy

542

00:24:15,169 --> 00:24:12,480

their entire species as well so there's

543

00:24:17,330 --> 00:24:15,179

that argument also yeah if if you gave

544

00:24:19,190 --> 00:24:17,340

octopus fire

545

00:24:21,409 --> 00:24:19,200

right that's all you need that's all you

546

00:24:23,990 --> 00:24:21,419

need that's all you need if it wouldn't

547

00:24:26,289 --> 00:24:24,000

do great underwater

548

00:24:28,130 --> 00:24:26,299

that's what's held them back

549

00:24:30,350 --> 00:24:28,140

tell them about

550

00:24:32,750 --> 00:24:30,360

them back if you gave octopus fire it'd

551  
00:24:36,470 --> 00:24:32,760  
be over it would be the movie arrival

552  
00:24:38,330 --> 00:24:36,480  
right it's true there was a there was a

553  
00:24:40,510 --> 00:24:38,340  
great series on Discovery Channel a few

554  
00:24:42,649 --> 00:24:40,520  
years ago that was um you know it was

555  
00:24:44,810 --> 00:24:42,659  
projecting into the future and what

556  
00:24:46,970 --> 00:24:44,820  
could you know after humans and they did

557  
00:24:50,029 --> 00:24:46,980  
have um cephalopods taking over and

558  
00:24:51,409 --> 00:24:50,039  
becoming you know a a human-like species

559  
00:24:53,149 --> 00:24:51,419  
they have them swinging through the

560  
00:24:55,669 --> 00:24:53,159  
trees and you know different tribes

561  
00:24:58,669 --> 00:24:55,679  
fighting each other and yeah it's I mean

562  
00:25:02,090 --> 00:24:58,679  
there's the potential watching uh I I go

563  
00:25:04,549 --> 00:25:02,100

back arrival even though it's a it's a

564

00:25:08,210 --> 00:25:04,559

newer movie I think it's an instant

565

00:25:10,070 --> 00:25:08,220

classic and I I watch it all the time I

566

00:25:12,049 --> 00:25:10,080

think there's some kind of message there

567

00:25:13,310 --> 00:25:12,059

and I'm still trying to figure it out

568

00:25:15,250 --> 00:25:13,320

but

569

00:25:18,049 --> 00:25:15,260

aliens versus

570

00:25:21,110 --> 00:25:18,059

and and when they

571

00:25:23,090 --> 00:25:21,120

that first scene

572

00:25:25,190 --> 00:25:23,100

um when she walks up to the glass and

573

00:25:31,149 --> 00:25:25,200

they come out of the the the smoke right

574

00:25:38,169 --> 00:25:35,029

I knew it I knew it I knew it I knew it

575

00:25:42,350 --> 00:25:38,179

I knew it and there's I think that's uh

576

00:25:43,990 --> 00:25:42,360

uh when when uh the press release pad

577

00:25:47,510 --> 00:25:44,000

came out it was about five years ago

578

00:25:49,190 --> 00:25:47,520

where these uh biologists uh from around

579

00:25:51,169 --> 00:25:49,200

the world got together and said you know

580

00:25:52,370 --> 00:25:51,179

all of our species can kind of make

581

00:25:53,870 --> 00:25:52,380

sense of

582

00:25:56,890 --> 00:25:53,880

pretty much

583

00:26:03,130 --> 00:25:56,900

except for octopus octopus doesn't fit

584

00:26:05,690 --> 00:26:03,140

octopus maybe E.T octopus may have been

585

00:26:07,549 --> 00:26:05,700

dropped off here it's the one species

586

00:26:10,850 --> 00:26:07,559

that doesn't fit do you agree with that

587

00:26:12,169 --> 00:26:10,860

yeah well I mean I we do have a pretty

588

00:26:14,330 --> 00:26:12,179

good evolutionary path for for

589

00:26:15,470 --> 00:26:14,340

cephalopods as well there's uh there's a

590

00:26:17,570 --> 00:26:15,480

great book

591

00:26:20,810 --> 00:26:17,580

um this woman wrote I think it's called

592

00:26:22,549 --> 00:26:20,820

squid Empire and uh it that's the entire

593

00:26:24,649 --> 00:26:22,559

book is about the evolution of squid and

594

00:26:26,750 --> 00:26:24,659

octopus and it is really fascinating

595

00:26:28,610 --> 00:26:26,760

they started with shells um you know

596

00:26:31,430 --> 00:26:28,620

Nautilus is one of the most ancient

597

00:26:33,890 --> 00:26:31,440

forms of them um so we do have that but

598

00:26:36,590 --> 00:26:33,900

they are very very strange they are

599

00:26:39,289 --> 00:26:36,600

really surreal and the the

600

00:26:41,570 --> 00:26:39,299

um ability to change their shape and to

601  
00:26:43,789 --> 00:26:41,580  
change their color you know at a in a

602  
00:26:46,549 --> 00:26:43,799  
millisecond is uh is pretty impressive

603  
00:26:48,610 --> 00:26:46,559  
and they are very smart World Bigfoot

604  
00:26:52,330 --> 00:26:48,620  
radios in the house tonight

605  
00:26:54,789 --> 00:26:52,340  
aliens in Galaxy quests we're also

606  
00:27:00,110 --> 00:26:54,799  
octopi yeah

607  
00:27:04,549 --> 00:27:00,120  
oh man yeah and and for us to

608  
00:27:06,169 --> 00:27:04,559  
um uh to evolve into uh what we are

609  
00:27:11,149 --> 00:27:06,179  
today

610  
00:27:15,049 --> 00:27:11,159  
um which I think is uh I I either we

611  
00:27:16,430 --> 00:27:15,059  
accept Academia that it was all just a

612  
00:27:18,890 --> 00:27:16,440  
an accident

613  
00:27:23,029 --> 00:27:18,900

or that there might be something more

614

00:27:24,190 --> 00:27:23,039

Grand right well I mean and I I I think

615

00:27:27,110 --> 00:27:24,200

I think

616

00:27:29,570 --> 00:27:27,120

I'm going to say on the safe side of

617

00:27:33,529 --> 00:27:29,580

history on this one I think in the

618

00:27:36,769 --> 00:27:33,539

future we're gonna find out that we had

619

00:27:40,850 --> 00:27:36,779

help from from out there I I think

620

00:27:44,149 --> 00:27:40,860

that's a much easier explanation than

621

00:27:47,330 --> 00:27:44,159

lightning hitting a DNA strand on a

622

00:27:51,169 --> 00:27:47,340

chunk of crystal in a lake bed in South

623

00:27:54,470 --> 00:27:51,179

Africa I'm not I'm not I'm not buying

624

00:27:56,649 --> 00:27:54,480

into that uh I I think that uh we had

625

00:27:59,810 --> 00:27:56,659

some help and I'm okay I'm okay

626

00:28:02,870 --> 00:27:59,820

panspermia is a really fascinating area

627

00:28:05,870 --> 00:28:02,880

of study and uh but I I do tend to go

628

00:28:08,409 --> 00:28:05,880

with a very classic evolutionary biology

629

00:28:10,850 --> 00:28:08,419

um we named my son is uh Wallace Charles

630

00:28:12,370 --> 00:28:10,860

after uh Charles Darwin and Alfred

631

00:28:14,870 --> 00:28:12,380

Russell Wallace

632

00:28:17,269 --> 00:28:14,880

and Charles Fort Charles Fort Charles

633

00:28:19,310 --> 00:28:17,279

Darwin Alfred Russell Wallace uh Charles

634

00:28:23,330 --> 00:28:19,320

Ford there's a good one that was a good

635

00:28:26,690 --> 00:28:23,340

one my great great uncle yes you know

636

00:28:28,549 --> 00:28:26,700

um did you it's great great right so

637

00:28:30,230 --> 00:28:28,559

yeah it's beyond that it's my my

638

00:28:32,269 --> 00:28:30,240

grandmother's great uncle so whatever

639

00:28:35,149 --> 00:28:32,279

that would make great great great I

640

00:28:37,850 --> 00:28:35,159

think but man you got some good DNA man

641

00:28:40,549 --> 00:28:37,860

you got some good DNA I hope do you find

642

00:28:43,490 --> 00:28:40,559

yourself thinking outside of the box is

643

00:28:45,649 --> 00:28:43,500

it into your DNA yeah absolutely I mean

644

00:28:47,149 --> 00:28:45,659

I I've that that's that's been my entire

645

00:28:49,430 --> 00:28:47,159

life since I was a little kid I was I

646

00:28:51,409 --> 00:28:49,440

was the weird little kid as I think no

647

00:28:53,149 --> 00:28:51,419

one would be surprised to hear

648

00:28:55,549 --> 00:28:53,159

um and you know fascinated by all

649

00:28:56,750 --> 00:28:55,559

wildlife and the crazier and creepier

650

00:28:57,710 --> 00:28:56,760

the better

651

00:28:59,810 --> 00:28:57,720

um so that's what got me into

652

00:29:02,330 --> 00:28:59,820

cryptozoology really was looking at you

653

00:29:04,789 --> 00:29:02,340

know the deep sea creatures and bats and

654

00:29:07,010 --> 00:29:04,799

snakes and lizards and kind of creepy

655

00:29:08,450 --> 00:29:07,020

crawlies spiders all that and my

656

00:29:09,710 --> 00:29:08,460

grandmother used to say when I was

657

00:29:11,570 --> 00:29:09,720

growing up oh you're just like your

658

00:29:13,730 --> 00:29:11,580

uncle Charlie and I had no idea who

659

00:29:15,529 --> 00:29:13,740

uncle Charlie was when I was growing up

660

00:29:17,750 --> 00:29:15,539

I didn't know

661

00:29:19,370 --> 00:29:17,760

do you read the books oh yeah absolutely

662

00:29:22,070 --> 00:29:19,380

I've got them all right here yeah I've

663

00:29:24,950 --> 00:29:22,080

got I've got signed by him actually

664

00:29:25,970 --> 00:29:24,960

okay for the audience

665

00:29:28,010 --> 00:29:25,980

um

666

00:29:29,289 --> 00:29:28,020

they may not know what we're talking

667

00:29:33,350 --> 00:29:29,299

about

668

00:29:37,190 --> 00:29:33,360

the book of the Damned oh yeah they know

669

00:29:40,250 --> 00:29:37,200

40 in times right they know that

670

00:29:42,830 --> 00:29:40,260

but they don't know what we're talking

671

00:29:47,510 --> 00:29:42,840

about here so let's think about uh tell

672

00:29:51,769 --> 00:29:47,520

us about Charles and uh and and and why

673

00:29:53,510 --> 00:29:51,779

40 in now is is part of Pop Culture sure

674

00:29:56,990 --> 00:29:53,520

absolutely so Charles Ford is the The

675

00:29:58,970 --> 00:29:57,000

Godfather of the Paranormal

676

00:30:01,669 --> 00:29:58,980

um you know the the prophet the the

677

00:30:03,649 --> 00:30:01,679

prophet Charles Fort so he was

678

00:30:06,230 --> 00:30:03,659

um kind of the first person to give

679

00:30:08,210 --> 00:30:06,240

Credence to some of the stranger things

680

00:30:10,610 --> 00:30:08,220

that people had been reporting he did

681

00:30:12,830 --> 00:30:10,620

most of his research from libraries but

682

00:30:14,510 --> 00:30:12,840

he did do some World Travel and some uh

683

00:30:16,610 --> 00:30:14,520

some travel to investigate on his own

684

00:30:18,110 --> 00:30:16,620

but most of it was just looking at these

685

00:30:20,389 --> 00:30:18,120

stories and trying to come up with a

686

00:30:22,549 --> 00:30:20,399

rational explanation for something that

687

00:30:25,310 --> 00:30:22,559

science seemed to just write off and in

688

00:30:26,389 --> 00:30:25,320

some cases he was absolutely correct um

689

00:30:29,330 --> 00:30:26,399

you know people have been telling

690

00:30:30,769 --> 00:30:29,340

stories of ball lightning for centuries

691

00:30:32,090 --> 00:30:30,779

and no one took it seriously they

692

00:30:34,010 --> 00:30:32,100

thought that these were ghost stories

693

00:30:36,289 --> 00:30:34,020

this is just um but you know it is a

694

00:30:38,690 --> 00:30:36,299

true phenomena that really happens

695

00:30:40,190 --> 00:30:38,700

um reigning fish raining fish raining

696

00:30:42,230 --> 00:30:40,200

frogs these were the things Charles Fort

697

00:30:44,149 --> 00:30:42,240

was the first to really document these

698

00:30:46,070 --> 00:30:44,159

and to collect stories from around the

699

00:30:48,350 --> 00:30:46,080

world and say no this is a real

700

00:30:50,990 --> 00:30:48,360

phenomena that's happening let's try to

701

00:30:53,450 --> 00:30:51,000

theorize how and why

702

00:30:55,549 --> 00:30:53,460

um so taking not quite a scientific

703

00:30:57,350 --> 00:30:55,559

approach to it but at least documenting

704

00:30:59,090 --> 00:30:57,360

it and giving credence to this and and

705

00:31:01,010 --> 00:30:59,100

putting this out there and saying Why

706

00:31:03,169 --> 00:31:01,020

will why is science writing this off

707

00:31:04,250 --> 00:31:03,179

science collectively why are they

708

00:31:06,590 --> 00:31:04,260

writing this off without even

709

00:31:08,570 --> 00:31:06,600

investigating and that's kind of where I

710

00:31:10,430 --> 00:31:08,580

take that from Charles Ford as well is

711

00:31:12,470 --> 00:31:10,440

you know why write something off without

712

00:31:14,750 --> 00:31:12,480

even looking into it how can we say that

713

00:31:17,450 --> 00:31:14,760

this is impossible without even you know

714

00:31:19,630 --> 00:31:17,460

looking into what if it's not real then

715

00:31:22,430 --> 00:31:19,640

what could this be mistaken for

716

00:31:25,190 --> 00:31:22,440

yeah that's right and he invented the

717

00:31:27,470 --> 00:31:25,200

term uh teleportation that was Charles

718

00:31:30,049 --> 00:31:27,480

Ford that was Charles Fort and so it's

719

00:31:34,070 --> 00:31:30,059

in your D a man I think it's it's one of

720

00:31:37,669 --> 00:31:34,080

the coolest things like ever I mean I I

721

00:31:40,010 --> 00:31:37,679

I don't know if I wanted if I had a

722

00:31:43,669 --> 00:31:40,020

choice of who I would want as my great

723

00:31:46,490 --> 00:31:43,679

great uncle but uh Charles Fort would be

724

00:31:48,409 --> 00:31:46,500

high on that list my man no it really is

725

00:31:50,090 --> 00:31:48,419

very cool I was I was really excited and

726

00:31:51,289 --> 00:31:50,100

I didn't find out until after I had read

727

00:31:53,330 --> 00:31:51,299

his books

728

00:31:55,370 --> 00:31:53,340

so I was reading them and my grandmother

729

00:31:57,409 --> 00:31:55,380

who said had told me I was like my uncle

730

00:31:58,730 --> 00:31:57,419

Charlie she saw me reading the book of

731

00:32:00,289 --> 00:31:58,740

the Damned and said that's your uncle

732

00:32:03,169 --> 00:32:00,299

Charlie what are you talking about

733

00:32:04,610 --> 00:32:03,179

that's that's Charles Fort I said ah so

734

00:32:06,289 --> 00:32:04,620

and then she brought out all the books

735

00:32:08,870 --> 00:32:06,299

and some other paraphernalia and some

736

00:32:11,930 --> 00:32:08,880

family photos tin types and things of

737

00:32:13,970 --> 00:32:11,940

his and oh I had absolutely no idea now

738

00:32:15,830 --> 00:32:13,980

you brought it panspermia a couple of

739

00:32:19,010 --> 00:32:15,840

times and

740

00:32:21,889 --> 00:32:19,020

um it is a subject that I address

741

00:32:25,909 --> 00:32:21,899

constantly

742

00:32:27,889 --> 00:32:25,919

and so let me just explain something

743

00:32:30,590 --> 00:32:27,899

you're my guess I don't want to take up

744

00:32:32,830 --> 00:32:30,600

your time here but just so you

745

00:32:34,730 --> 00:32:32,840

understand where my mind is coming from

746

00:32:38,649 --> 00:32:34,740

I know

747

00:32:41,450 --> 00:32:38,659

I've seen things we are being visited by

748

00:32:44,389 --> 00:32:41,460

friends from outer space I know this

749

00:32:46,669 --> 00:32:44,399

this this is a fact for me all right I'm

750

00:32:50,090 --> 00:32:46,679

chasing this down but um I also

751

00:32:53,049 --> 00:32:50,100

fascinated with science and the more

752

00:32:55,669 --> 00:32:53,059

that I try to find out this information

753

00:32:58,370 --> 00:32:55,679

it keeps pulling me over to science and

754

00:33:04,730 --> 00:32:58,380

pulling me over to science and one of

755

00:33:11,630 --> 00:33:08,990

is amino acids an RNA and amino acids

756

00:33:15,590 --> 00:33:11,640

and basic sugars

757

00:33:17,630 --> 00:33:15,600

um and RNA which we can't happen our DNA

758

00:33:20,389 --> 00:33:17,640

does not happen unless RNA tells it

759

00:33:21,230 --> 00:33:20,399

what's what what to do it's it's that

760

00:33:24,350 --> 00:33:21,240

simple

761

00:33:30,110 --> 00:33:24,360

and this stuff

762

00:33:33,950 --> 00:33:30,120

is arriving on our planet on space rocks

763

00:33:36,649 --> 00:33:33,960

and it's like wait a minute here

764

00:33:38,330 --> 00:33:36,659

that's exactly when we go back and we

765

00:33:40,970 --> 00:33:38,340

start we're talking about panspermia

766

00:33:43,970 --> 00:33:40,980

it's one thing to have it as a theory

767

00:33:46,850 --> 00:33:43,980

and it's another thing to prove it as

768

00:33:51,049 --> 00:33:46,860

fact which we have and our second trip

769

00:33:53,330 --> 00:33:51,059

uh from bennu uh an asteroid is going to

770

00:33:55,430 --> 00:33:53,340

be here in September

771

00:33:57,889 --> 00:33:55,440

um everything that we have studied that

772

00:34:01,730 --> 00:33:57,899

has fallen on this planet looking for

773

00:34:05,210 --> 00:34:01,740

this stuff it's there which means DNA

774

00:34:08,570 --> 00:34:05,220

RNA these basic things in life

775

00:34:12,230 --> 00:34:08,580

not only survive the vacuum of space but

776

00:34:15,050 --> 00:34:12,240

it's everywhere which means DNA must be

777

00:34:17,149 --> 00:34:15,060

Universal and that's that's where I'm

778

00:34:19,430 --> 00:34:17,159

coming from with all of this I don't

779

00:34:21,109 --> 00:34:19,440

think uh life is an accident I think it

780

00:34:23,990 --> 00:34:21,119

exists everywhere

781

00:34:26,210 --> 00:34:24,000

so I with the with what's been found on

782

00:34:28,129 --> 00:34:26,220

meteorites I have read

783

00:34:29,690 --> 00:34:28,139

a few different reports and a few

784

00:34:32,210 --> 00:34:29,700

different things on on

785

00:34:34,609 --> 00:34:32,220

is it contamination since it's entered

786

00:34:36,290 --> 00:34:34,619

Earth's atmosphere or was it there

787

00:34:39,169 --> 00:34:36,300

previously and I don't think that

788

00:34:41,829 --> 00:34:39,179

anyone's definitively shown one answer

789

00:34:46,490 --> 00:34:41,839

or the other except

790

00:34:50,990 --> 00:34:46,500

Japan's recent uh delivery three months

791

00:34:53,570 --> 00:34:51,000

ago of uh from an asteroid that had all

792

00:34:57,230 --> 00:34:53,580

of the basic sugars and amino acids

793

00:34:58,790 --> 00:34:57,240

intact from an asteroid in space that's

794

00:35:01,310 --> 00:34:58,800

amazing I haven't I haven't read that

795

00:35:05,570 --> 00:35:01,320

I'll have to look that up okay all right

796

00:35:07,190 --> 00:35:05,580

okay all right so uh bennu which is the

797

00:35:10,430 --> 00:35:07,200

second asteroid

798

00:35:14,030 --> 00:35:10,440

um uh uh that was a United States

799

00:35:16,730 --> 00:35:14,040

international uh trip uh to this giant

800

00:35:18,349 --> 00:35:16,740

asteroid we've collected samples off of

801  
00:35:20,930 --> 00:35:18,359  
that and those samples are going to be

802  
00:35:24,410 --> 00:35:20,940  
here in January

803  
00:35:28,069 --> 00:35:24,420  
um it if it's a repeat of what was just

804  
00:35:29,390 --> 00:35:28,079  
discovered three three months ago then I

805  
00:35:33,470 --> 00:35:29,400  
don't think that there's any question

806  
00:35:35,569 --> 00:35:33,480  
about what may be happening that RNA the

807  
00:35:38,569 --> 00:35:35,579  
basic you know it's still those basic

808  
00:35:41,810 --> 00:35:38,579  
sugars right it's it's it's all you

809  
00:35:43,849 --> 00:35:41,820  
really need to jump start anything on a

810  
00:35:46,550 --> 00:35:43,859  
planet that's got an atmosphere that

811  
00:35:49,970 --> 00:35:46,560  
that can accept it and it's a crazy

812  
00:35:53,450 --> 00:35:49,980  
thought that it's just it's not kind of

813  
00:35:55,790 --> 00:35:53,460

it's it's everywhere there was a there

814

00:35:58,550 --> 00:35:55,800

was a study um a few years ago where

815

00:36:00,710 --> 00:35:58,560

they they tried to recreate what the um

816

00:36:01,970 --> 00:36:00,720

what the Earth would the CR the um

817

00:36:03,050 --> 00:36:01,980

conditions that the Earth would have

818

00:36:04,790 --> 00:36:03,060

been in

819

00:36:08,810 --> 00:36:04,800

um you know shortly after it cooled

820

00:36:11,030 --> 00:36:08,820

enough to have liquid on the surface and

821

00:36:14,089 --> 00:36:11,040

um they they didn't let it go for you

822

00:36:16,010 --> 00:36:14,099

know millions of years but in the in in

823

00:36:17,930 --> 00:36:16,020

the process and I forget if it was

824

00:36:19,670 --> 00:36:17,940

completely on a computer if they

825

00:36:21,829 --> 00:36:19,680

actually did this in the lab I'm not I'm

826

00:36:25,190 --> 00:36:21,839

not completely remembering but they did

827

00:36:27,890 --> 00:36:25,200

show where amino acids could come from

828

00:36:30,230 --> 00:36:27,900

the the Ooze from the sludge and where

829

00:36:32,990 --> 00:36:30,240

this you know it had the potential to be

830

00:36:36,410 --> 00:36:33,000

building up to create you know

831

00:36:41,630 --> 00:36:36,420

um self-replicating on RNA or DNA

832

00:36:44,089 --> 00:36:41,640

yeah and uh which is uh again what what

833

00:36:46,609 --> 00:36:44,099

I always like to do

834

00:36:51,349 --> 00:36:46,619

um is how long

835

00:36:52,609 --> 00:36:51,359

right so Earth you know you said three

836

00:36:54,050 --> 00:36:52,619

and a half billion years I don't think

837

00:36:55,970 --> 00:36:54,060

it was quite that I think I thought it

838

00:36:58,370 --> 00:36:55,980

was 11. I think it's actually no that's

839

00:37:01,490 --> 00:36:58,380

the universe is 11. I think Earth is uh

840

00:37:04,870 --> 00:37:01,500

yeah oh man I'm out of my depth yeah

841

00:37:07,329 --> 00:37:04,880

that's okay Universe the universe is

842

00:37:11,990 --> 00:37:07,339

13.8 there we go

843

00:37:14,569 --> 00:37:12,000

our solar system is 5 billion years old

844

00:37:16,190 --> 00:37:14,579

Earth and our sun are about the same age

845

00:37:19,490 --> 00:37:16,200

right now at about four and a half

846

00:37:21,950 --> 00:37:19,500

billion years once the Earth cooled and

847

00:37:24,770 --> 00:37:21,960

we got rid of the lava because that's

848

00:37:27,290 --> 00:37:24,780

all we that's all it was you know we're

849

00:37:29,990 --> 00:37:27,300

bombarded by comets and ice and water

850

00:37:30,829 --> 00:37:30,000

and things and and the change and so

851  
00:37:34,490 --> 00:37:30,839  
about

852  
00:37:36,589 --> 00:37:34,500  
two and a half two billion years ago

853  
00:37:40,010 --> 00:37:36,599  
um the the Earth cooled and we had a

854  
00:37:44,030 --> 00:37:40,020  
situation here where uh life could start

855  
00:37:46,250 --> 00:37:44,040  
to get a foothold but I don't I don't to

856  
00:37:47,710 --> 00:37:46,260  
me I don't think two billion years is

857  
00:37:51,910 --> 00:37:47,720  
long enough

858  
00:37:54,370 --> 00:37:51,920  
for me uh to go from accidental

859  
00:37:58,670 --> 00:37:54,380  
chemistries right and particle

860  
00:38:02,870 --> 00:37:58,680  
combinations into Black Flag playing in

861  
00:38:04,430 --> 00:38:02,880  
Long Beach arena I I I I I don't is

862  
00:38:08,890 --> 00:38:04,440  
something transcendental about Black

863  
00:38:13,849 --> 00:38:12,109

oh man but you know what I mean and and

864

00:38:16,670 --> 00:38:13,859

how

865

00:38:19,310 --> 00:38:16,680

um if we look at uh I'm gonna stay on

866

00:38:22,790 --> 00:38:19,320

the oceans for a second but if if you if

867

00:38:24,829 --> 00:38:22,800

we take a look at 1900 right that's a

868

00:38:27,530 --> 00:38:24,839

hundred years ago one lifetime ago right

869

00:38:30,730 --> 00:38:27,540

yeah it's 125 years ago

870

00:38:32,329 --> 00:38:30,740

but in 60 years

871

00:38:37,150 --> 00:38:32,339

60.

872

00:38:42,349 --> 00:38:37,160

60 years we went from horse and Buggies

873

00:38:44,390 --> 00:38:42,359

and gas lamps in 1900 right oil lamps

874

00:38:50,150 --> 00:38:44,400

yeah

875

00:38:53,630 --> 00:38:50,160

technological advances are are shocking

876

00:38:57,410 --> 00:38:53,640

and staggering crazy to think about yes

877

00:39:01,910 --> 00:38:57,420

you you could have been born in 1890

878

00:39:03,829 --> 00:39:01,920

right you kept born in 1890 and and then

879

00:39:06,589 --> 00:39:03,839

went to Woodstock

880

00:39:09,050 --> 00:39:06,599

and what you would have seen in in your

881

00:39:10,550 --> 00:39:09,060

lifetime that's remarkable to me I mean

882

00:39:12,170 --> 00:39:10,560

that's just crazy yeah and the

883

00:39:14,470 --> 00:39:12,180

technological changes they say that you

884

00:39:18,290 --> 00:39:14,480

know if you were born in the

885

00:39:20,150 --> 00:39:18,300

1600s or the 1700s it probably wouldn't

886

00:39:23,650 --> 00:39:20,160

have been that different than if you

887

00:39:27,410 --> 00:39:23,660

were born in the early to mid 1800s even

888

00:39:29,630 --> 00:39:27,420

1500s to mid 1800s not massively

889

00:39:31,370 --> 00:39:29,640

different you would still recognize the

890

00:39:33,410 --> 00:39:31,380

essential technology that people were

891

00:39:35,210 --> 00:39:33,420

using yes there were huge advances There

892

00:39:37,730 --> 00:39:35,220

Was You Know indoor plumbing and other

893

00:39:40,250 --> 00:39:37,740

things that were massive advances but

894

00:39:41,349 --> 00:39:40,260

still essentially the same whereas if

895

00:39:44,870 --> 00:39:41,359

you go

896

00:39:46,609 --> 00:39:44,880

1950 to today

897

00:39:50,270 --> 00:39:46,619

two different worlds two different

898

00:39:53,990 --> 00:39:50,280

worlds two completely different worlds

899

00:39:57,170 --> 00:39:54,000

um now one of the things

900

00:39:58,210 --> 00:39:57,180

um that is being talked about in the UFO

901  
00:40:01,310 --> 00:39:58,220  
community

902  
00:40:06,550 --> 00:40:01,320  
and the Department of Defense and

903  
00:40:09,130 --> 00:40:06,560  
Congress and arrow and right uh the CIA

904  
00:40:14,450 --> 00:40:09,140  
is that

905  
00:40:18,370 --> 00:40:14,460  
some of not all but some of what we may

906  
00:40:21,050 --> 00:40:18,380  
have normally attributed as a UFO

907  
00:40:25,210 --> 00:40:21,060  
unidentified flying object something

908  
00:40:29,990 --> 00:40:25,220  
from outer space may actually be Usos

909  
00:40:32,750 --> 00:40:30,000  
and uh their Origins are from our oceans

910  
00:40:34,849 --> 00:40:32,760  
and we just haven't discovered them yet

911  
00:40:37,069 --> 00:40:34,859  
you've done you spent a lot of time

912  
00:40:38,569 --> 00:40:37,079  
under the water we're joking about that

913  
00:40:40,849 --> 00:40:38,579

earlier

914

00:40:43,490 --> 00:40:40,859

um would that the ocean's a big place

915

00:40:45,230 --> 00:40:43,500

would it surprise you if if E.T was

916

00:40:48,050 --> 00:40:45,240

hiding from us

917

00:40:50,510 --> 00:40:48,060

um in in the vastness of the Atlantic or

918

00:40:53,329 --> 00:40:50,520

the Pacific the the deepest parts of the

919

00:40:56,030 --> 00:40:53,339

ocean are the most unexplored regions of

920

00:40:57,829 --> 00:40:56,040

our world so there could be a a lot

921

00:40:58,730 --> 00:40:57,839

hiding down there that we're not aware

922

00:41:00,710 --> 00:40:58,740

of

923

00:41:02,750 --> 00:41:00,720

um I would be surprised to find an

924

00:41:04,730 --> 00:41:02,760

intelligent Society

925

00:41:06,650 --> 00:41:04,740

um you know a human-like intelligence

926  
00:41:08,569 --> 00:41:06,660  
Society down there just because I think

927  
00:41:10,069 --> 00:41:08,579  
that we would have had contact

928  
00:41:13,250 --> 00:41:10,079  
um I don't that it would be something

929  
00:41:15,230 --> 00:41:13,260  
that could stay hidden for too long

930  
00:41:17,690 --> 00:41:15,240  
um because just like we have gone down

931  
00:41:18,589 --> 00:41:17,700  
there they would be coming up here as

932  
00:41:20,510 --> 00:41:18,599  
well

933  
00:41:22,310 --> 00:41:20,520  
um should they evolve like that and I

934  
00:41:24,890 --> 00:41:22,320  
think that you know the a few sightings

935  
00:41:28,010 --> 00:41:24,900  
here and there wouldn't really

936  
00:41:29,990 --> 00:41:28,020  
be enough for for me

937  
00:41:31,490 --> 00:41:30,000  
um at this point to say that there is an

938  
00:41:33,530 --> 00:41:31,500

intelligent Society living in the

939

00:41:35,630 --> 00:41:33,540

deepest parts of the ocean

940

00:41:37,730 --> 00:41:35,640

um but finding unknown creatures down

941

00:41:39,530 --> 00:41:37,740

there finding large unknown creatures I

942

00:41:41,990 --> 00:41:39,540

think is a given there are definitely

943

00:41:44,329 --> 00:41:42,000

big things living under the ocean that

944

00:41:46,490 --> 00:41:44,339

we have not found yet probably other

945

00:41:52,370 --> 00:41:46,500

types of squid right right right right

946

00:41:55,550 --> 00:41:52,380

right right but why why why allude

947

00:41:57,290 --> 00:41:55,560

to this if you're if if you're the

948

00:41:59,290 --> 00:41:57,300

government or you're the Department of

949

00:42:02,329 --> 00:41:59,300

Defense or you're the United States Navy

950

00:42:05,270 --> 00:42:02,339

and you start making these suggestions

951  
00:42:07,430 --> 00:42:05,280  
that well maybe maybe they're from here

952  
00:42:10,910 --> 00:42:07,440  
it's like well wait a minute

953  
00:42:14,690 --> 00:42:10,920  
um what what is it that you know

954  
00:42:16,790 --> 00:42:14,700  
um and it seems that uh you you know I

955  
00:42:20,329 --> 00:42:16,800  
know this is out of your wheelhouse but

956  
00:42:23,569 --> 00:42:20,339  
it seems that they have zeroed in on a

957  
00:42:28,250 --> 00:42:23,579  
specific location where there is ingress

958  
00:42:30,950 --> 00:42:28,260  
and and egressing of of objects in in

959  
00:42:35,150 --> 00:42:30,960  
the Atlantic Ocean that they they have

960  
00:42:37,790 --> 00:42:35,160  
seen this uh happened and occur

961  
00:42:40,310 --> 00:42:37,800  
um that's the part that I find really

962  
00:42:41,930 --> 00:42:40,320  
really fascinating that if you were

963  
00:42:44,450 --> 00:42:41,940

going to hide from if you were going to

964

00:42:47,510 --> 00:42:44,460

visit this planet right and you need to

965

00:42:49,490 --> 00:42:47,520

hide from us because they know now that

966

00:42:53,569 --> 00:42:49,500

we have the ability to shoot them down

967

00:42:57,050 --> 00:42:53,579

and we will all right it's a fact

968

00:43:00,109 --> 00:42:57,060

um uh wouldn't you if you were ET

969

00:43:02,150 --> 00:43:00,119

wouldn't wouldn't you hide where you

970

00:43:03,650 --> 00:43:02,160

could and the ocean seemed like a good

971

00:43:06,829 --> 00:43:03,660

place to hide

972

00:43:09,109 --> 00:43:06,839

it's exactly right right

973

00:43:10,970 --> 00:43:09,119

yeah if you've got the technology to for

974

00:43:13,670 --> 00:43:10,980

Interstellar travel then you know I'm

975

00:43:16,730 --> 00:43:13,680

the technology to go under the water is

976  
00:43:18,170 --> 00:43:16,740  
probably a little bit easier well um you

977  
00:43:20,390 --> 00:43:18,180  
did one thing

978  
00:43:21,410 --> 00:43:20,400  
um I'm gonna uh ask you about this I

979  
00:43:28,250 --> 00:43:21,420  
have a

980  
00:43:29,750 --> 00:43:28,260  
I have been facing my fears with that

981  
00:43:33,530 --> 00:43:29,760  
I've done I've done a couple of things

982  
00:43:35,530 --> 00:43:33,540  
lately that I swore I would never do

983  
00:43:37,970 --> 00:43:35,540  
um now going

984  
00:43:40,670 --> 00:43:37,980  
spelunking and I don't know if that's in

985  
00:43:41,870 --> 00:43:40,680  
my future yet but I'm getting close

986  
00:43:45,050 --> 00:43:41,880  
um but

987  
00:43:47,990 --> 00:43:45,060  
um so uh for one of my TV shows on

988  
00:43:51,970 --> 00:43:48,000

History Channel we uh we get this

989

00:43:54,190 --> 00:43:51,980

research ship we head out to the Pacific

990

00:43:56,450 --> 00:43:54,200

one of the

991

00:44:00,050 --> 00:43:56,460

suggestions and this happened to me

992

00:44:03,530 --> 00:44:00,060

twice was okay so we're gonna get a

993

00:44:05,510 --> 00:44:03,540

small submersible you know two three

994

00:44:08,770 --> 00:44:05,520

person submersible and we're gonna send

995

00:44:13,130 --> 00:44:08,780

you down we're gonna I was like what

996

00:44:14,630 --> 00:44:13,140

what's your idea and and well you know

997

00:44:16,010 --> 00:44:14,640

it's we're you know you're not going to

998

00:44:18,170 --> 00:44:16,020

go that far you know it's going to be

999

00:44:20,510 --> 00:44:18,180

about 500 feet maybe a thousand feet

1000

00:44:24,170 --> 00:44:20,520

depends on this who's going to be on

1001  
00:44:28,069 --> 00:44:24,180  
this well you and a camera guy and the

1002  
00:44:31,010 --> 00:44:28,079  
uh no no yeah no no no no no no no no

1003  
00:44:34,490 --> 00:44:31,020  
no I'm changing I'm changing we're into

1004  
00:44:36,470 --> 00:44:34,500  
rewrite on this script right now but

1005  
00:44:39,010 --> 00:44:36,480  
you've done that coolest thing I ever

1006  
00:44:42,109 --> 00:44:39,020  
did in my life absolutely

1007  
00:44:45,109 --> 00:44:42,119  
walk me through that and and can you

1008  
00:44:47,690 --> 00:44:45,119  
ease obviously you don't have issues

1009  
00:44:50,270 --> 00:44:47,700  
with claustrophobia or do you no no no

1010  
00:44:52,069 --> 00:44:50,280  
no no it was uh I was so

1011  
00:44:54,290 --> 00:44:52,079  
I was like a little kid in a candy shop

1012  
00:44:56,809 --> 00:44:54,300  
I was way too excited to be scared or

1013  
00:44:59,030 --> 00:44:56,819

nervous or have any if you're other than

1014

00:45:00,770 --> 00:44:59,040

just pure joy I mean as a marine

1015

00:45:02,630 --> 00:45:00,780

biologist it was the the thing that I'd

1016

00:45:04,790 --> 00:45:02,640

wanted to do my entire life is to go

1017

00:45:06,230 --> 00:45:04,800

explore the depths and to have the

1018

00:45:08,870 --> 00:45:06,240

chance to go down in the three-person

1019

00:45:12,470 --> 00:45:08,880

sub a thousand feet under water it was

1020

00:45:13,069 --> 00:45:12,480

it was wild so they the I

1021

00:45:15,650 --> 00:45:13,079

um

1022

00:45:18,290 --> 00:45:15,660

I convinced the production company to to

1023

00:45:21,770 --> 00:45:18,300

do it because it was really expensive

1024

00:45:23,390 --> 00:45:21,780

um to do this and um you know after kind

1025

00:45:24,829 --> 00:45:23,400

of begging and pleading and making my

1026  
00:45:26,569 --> 00:45:24,839  
case you know I'll eat nothing but Power

1027  
00:45:28,010 --> 00:45:26,579  
Bars I'll sleep in the worst hotels I'll

1028  
00:45:30,530 --> 00:45:28,020  
sleep in the back of the car I'll drive

1029  
00:45:32,030 --> 00:45:30,540  
us so you know finally convince them to

1030  
00:45:34,010 --> 00:45:32,040  
do this and we see the sub and it was

1031  
00:45:36,410 --> 00:45:34,020  
going to be me and our um and the

1032  
00:45:38,990 --> 00:45:36,420  
director and we had to lay on these cots

1033  
00:45:40,190 --> 00:45:39,000  
so you can't even stand up or sit sit up

1034  
00:45:42,109 --> 00:45:40,200  
straight you know we're just laying on

1035  
00:45:44,270 --> 00:45:42,119  
these cots facing forward with our heads

1036  
00:45:46,790 --> 00:45:44,280  
you know looking out into this into the

1037  
00:45:49,069 --> 00:45:46,800  
ocean and then the pilot sits kind of

1038  
00:45:50,809 --> 00:45:49,079

where our knees are so our legs are

1039

00:45:52,250 --> 00:45:50,819

extending past him and he's sitting

1040

00:45:55,250 --> 00:45:52,260

there with the little controls like this

1041

00:45:57,710 --> 00:45:55,260

like driving the thing and

1042

00:45:59,510 --> 00:45:57,720

um it was just unreal it was better than

1043

00:46:02,450 --> 00:45:59,520

I ever imagined we were down there for a

1044

00:46:03,770 --> 00:46:02,460

few hours and I got to see lion's mane

1045

00:46:05,450 --> 00:46:03,780

jellyfish I got to see a couple

1046

00:46:07,730 --> 00:46:05,460

different species of squid I got to see

1047

00:46:09,410 --> 00:46:07,740

squat lobsters and a whole bunch of

1048

00:46:11,990 --> 00:46:09,420

different worms and

1049

00:46:14,270 --> 00:46:12,000

just things that I had been fascinated

1050

00:46:17,210 --> 00:46:14,280

with since I was a little kid and um

1051

00:46:19,550 --> 00:46:17,220

yeah I was not it was the it's it's

1052

00:46:21,470 --> 00:46:19,560

Darkness like you've never experienced

1053

00:46:23,630 --> 00:46:21,480

right I've been camping in the middle of

1054

00:46:26,150 --> 00:46:23,640

the Gobi desert and this is Darkness

1055

00:46:28,970 --> 00:46:26,160

like I've never ever seen before there's

1056

00:46:30,829 --> 00:46:28,980

there's no just a complete and total

1057

00:46:32,710 --> 00:46:30,839

absence of light and that's only a

1058

00:46:36,109 --> 00:46:32,720

thousand feet down

1059

00:46:39,950 --> 00:46:36,119

how do you how do you is there like

1060

00:46:41,750 --> 00:46:39,960

Xanax involved I mean how I think they

1061

00:46:43,670 --> 00:46:41,760

would have wanted me to be on something

1062

00:46:46,150 --> 00:46:43,680

because I was so excited I was rambling

1063

00:46:48,530 --> 00:46:46,160

and basically unable to speak I was

1064

00:46:50,870 --> 00:46:48,540

unable to speak coherently I was so

1065

00:46:53,390 --> 00:46:50,880

excited but after a couple hours we're

1066

00:46:55,910 --> 00:46:53,400

we're sitting we're laying there and so

1067

00:46:57,470 --> 00:46:55,920

my producers this guy Ben who has been

1068

00:46:59,390 --> 00:46:57,480

everywhere and done everything I mean

1069

00:47:02,030 --> 00:46:59,400

you can't you you can't find a guy who

1070

00:47:04,910 --> 00:47:02,040

has better stories than uh than Ben he's

1071

00:47:07,130 --> 00:47:04,920

been locked up in uh in an Afghan prison

1072

00:47:09,410 --> 00:47:07,140

for breaking into a former Russian uh

1073

00:47:13,670 --> 00:47:09,420

chemical weapons facility with this guy

1074

00:47:17,870 --> 00:47:15,770

and phases him nothing um everything

1075

00:47:19,130 --> 00:47:17,880

just rolls off his back and when we're

1076  
00:47:20,510 --> 00:47:19,140  
down there for about two hours she just

1077  
00:47:23,650 --> 00:47:20,520  
poked me in the arm and I looked over

1078  
00:47:27,829 --> 00:47:23,660  
and he goes Pat this is cool

1079  
00:47:30,650 --> 00:47:27,839  
wow then I know it's Unique what is I'm

1080  
00:47:33,470 --> 00:47:30,660  
getting anxiety just thinking about that

1081  
00:47:34,490 --> 00:47:33,480  
okay so I was watching a movie the other

1082  
00:47:38,990 --> 00:47:34,500  
day

1083  
00:47:42,710 --> 00:47:39,000  
and uh uh it doesn't matter some horror

1084  
00:47:45,349 --> 00:47:42,720  
film Egypt Ghost Inside of these tunnels

1085  
00:47:48,290 --> 00:47:45,359  
and you know they're going through and

1086  
00:47:50,530 --> 00:47:48,300  
and and so one and and he goes okay so

1087  
00:47:52,970 --> 00:47:50,540  
now you gotta crawl through that cave

1088  
00:47:54,410 --> 00:47:52,980

and uh you got to do it on your belly

1089

00:47:56,809 --> 00:47:54,420

with your flashlight and I'm watching I

1090

00:47:58,250 --> 00:47:56,819

was like nope I ain't that's it I'm the

1091

00:47:59,990 --> 00:47:58,260

channel

1092

00:48:04,250 --> 00:48:00,000

I can't deal I

1093

00:48:07,250 --> 00:48:04,260

I can't and listening to this right now

1094

00:48:10,609 --> 00:48:07,260

um I I get anxious uh thinking about it

1095

00:48:12,770 --> 00:48:10,619

what's the Escape Plan oh there is none

1096

00:48:14,329 --> 00:48:12,780

there is none no you're dead yeah if

1097

00:48:15,950 --> 00:48:14,339

something goes wrong you're dead and

1098

00:48:17,210 --> 00:48:15,960

that's um but you're not thinking of

1099

00:48:18,410 --> 00:48:17,220

that in the moment I mean you can say

1100

00:48:20,329 --> 00:48:18,420

that about so many different things you

1101

00:48:21,530 --> 00:48:20,339

get on a plane if something goes wrong

1102

00:48:23,630 --> 00:48:21,540

you're dead

1103

00:48:26,750 --> 00:48:23,640

um driving into Boston if something goes

1104

00:48:28,550 --> 00:48:26,760

wrong your dad is we kind of accept this

1105

00:48:30,530 --> 00:48:28,560

level of risk um I'm with you on the

1106

00:48:32,690 --> 00:48:30,540

caving aspect of it I've done a very

1107

00:48:34,790 --> 00:48:32,700

very little bit of caving but once it

1108

00:48:36,290 --> 00:48:34,800

gets to the point where you have to suck

1109

00:48:38,030 --> 00:48:36,300

in and move your chest to the side in

1110

00:48:40,130 --> 00:48:38,040

order to fit through a crevice I don't

1111

00:48:43,130 --> 00:48:40,140

too many things can go wrong there are

1112

00:48:45,410 --> 00:48:43,140

too many things that I I I'm very very

1113

00:48:47,089 --> 00:48:45,420

clumsy and if it's going to be one of

1114

00:48:49,250 --> 00:48:47,099

those things where I move wrong and then

1115

00:48:50,870 --> 00:48:49,260

I have a you know the um what's the

1116

00:48:52,490 --> 00:48:50,880

James Franco movie we actually cut off

1117

00:48:54,770 --> 00:48:52,500

his arm I don't want to be in that

1118

00:48:56,809 --> 00:48:54,780

situation right

1119

00:48:58,910 --> 00:48:56,819

I have a buddy of mine he has a TV show

1120

00:49:02,930 --> 00:48:58,920

called cities of the underworld right oh

1121

00:49:05,630 --> 00:49:02,940

yeah and uh and there was so uh we're

1122

00:49:08,089 --> 00:49:05,640

hanging out anyway so I'm watching you

1123

00:49:10,609 --> 00:49:08,099

know his next episode and I am not

1124

00:49:13,430 --> 00:49:10,619

making this up so he goes

1125

00:49:14,750 --> 00:49:13,440

and he flashes his flashlight and it was

1126

00:49:16,370 --> 00:49:14,760

a crack

1127

00:49:20,030 --> 00:49:16,380

I'm going to say it was about this tall

1128

00:49:24,109 --> 00:49:20,040

but it was flat and wide like 100 yards

1129

00:49:26,990 --> 00:49:24,119

wide and really deep and you know this

1130

00:49:29,690 --> 00:49:27,000

crack in the this rock and he's gonna

1131

00:49:32,510 --> 00:49:29,700

get squeezed into there and then get to

1132

00:49:36,230 --> 00:49:32,520

the other side and it's like 50 yeah you

1133

00:49:40,670 --> 00:49:36,240

can't even see yeah and and he's flat on

1134

00:49:43,250 --> 00:49:40,680

I I don't I don't know how his uh uh

1135

00:49:46,849 --> 00:49:43,260

cameraman or whatever I had to turn it

1136

00:49:49,970 --> 00:49:46,859

off yeah and he's he's on his his back

1137

00:49:52,010 --> 00:49:49,980

is touching the ceiling and he's

1138

00:49:54,230 --> 00:49:52,020

squeezing through I just can't you would

1139

00:49:56,210 --> 00:49:54,240

be okay with that no no I would not

1140

00:49:58,190 --> 00:49:56,220

that's where I would draw I I would not

1141

00:50:01,010 --> 00:49:58,200

be able so it's where it's something

1142

00:50:03,109 --> 00:50:01,020

where if I mess up

1143

00:50:05,210 --> 00:50:03,119

it will cause mine or someone else's

1144

00:50:07,309 --> 00:50:05,220

death I have a big problem with it going

1145

00:50:09,109 --> 00:50:07,319

down in the sub I have no control over

1146

00:50:11,510 --> 00:50:09,119

that I have every faith in this pilot

1147

00:50:13,550 --> 00:50:11,520

he's done it a whole bunch of times I'm

1148

00:50:14,690 --> 00:50:13,560

fine with that I will say though after a

1149

00:50:17,329 --> 00:50:14,700

couple hours

1150

00:50:19,970 --> 00:50:17,339

um we're we're laying there and all of a

1151  
00:50:22,010 --> 00:50:19,980  
sudden I felt water dripping on my legs

1152  
00:50:23,870 --> 00:50:22,020  
and Ben felt it at the same time because

1153  
00:50:25,849 --> 00:50:23,880  
we both looked at each other like you we

1154  
00:50:27,050 --> 00:50:25,859  
were in you know absolutely enthralled

1155  
00:50:29,990 --> 00:50:27,060  
just loving this and then we get this

1156  
00:50:31,910 --> 00:50:30,000  
moment of kind of Terror and um that did

1157  
00:50:33,589 --> 00:50:31,920  
really freak me out but the pilot knew

1158  
00:50:35,510 --> 00:50:33,599  
what it was it was just and he he let us

1159  
00:50:37,309 --> 00:50:35,520  
freak out for a second and he said ah

1160  
00:50:39,890 --> 00:50:37,319  
it's just condensation it's going up to

1161  
00:50:42,710 --> 00:50:39,900  
the top it's dripping down on you but

1162  
00:50:45,109 --> 00:50:42,720  
how long does it take us to surface yeah

1163  
00:50:47,630 --> 00:50:45,119

that was he said oh I I just need to

1164

00:50:50,750 --> 00:50:47,640

plug in I'm sorry I just realized my

1165

00:50:52,730 --> 00:50:50,760

plug somehow fell out there we go

1166

00:50:54,829 --> 00:50:52,740

so the pilot said

1167

00:50:56,270 --> 00:50:54,839

um you know he goes what's that like

1168

00:50:58,130 --> 00:50:56,280

just to kind of freak us out and he goes

1169

00:50:59,690 --> 00:50:58,140

I'm just joking because if this thing

1170

00:51:01,970 --> 00:50:59,700

could sprung a leak you'd be dead before

1171

00:51:06,829 --> 00:51:01,980

he even knew it

1172

00:51:09,589 --> 00:51:06,839

what is um it's one thing uh to go a

1173

00:51:11,690 --> 00:51:09,599

thousand feet you know in a in a

1174

00:51:13,849 --> 00:51:11,700

three-man submersible

1175

00:51:15,530 --> 00:51:13,859

um and and then it's a whole nother

1176  
00:51:19,010 --> 00:51:15,540  
thing altogether to have something like

1177  
00:51:23,089 --> 00:51:19,020  
Loch Ness you know Lake Champlain and

1178  
00:51:24,950 --> 00:51:23,099  
and and these these ideas Bigfoot too

1179  
00:51:26,390 --> 00:51:24,960  
you know we can throw that right in

1180  
00:51:34,670 --> 00:51:26,400  
there

1181  
00:51:36,950 --> 00:51:34,680  
surviving in in Loch Ness and and

1182  
00:51:39,049 --> 00:51:36,960  
remaining undiscovered do you do you

1183  
00:51:40,790 --> 00:51:39,059  
believe in the Loch Ness monster no I've

1184  
00:51:42,650 --> 00:51:40,800  
been to Loch Ness and it's gorgeous and

1185  
00:51:44,450 --> 00:51:42,660  
I would strongly encourage everybody to

1186  
00:51:46,190 --> 00:51:44,460  
go and get some of the best

1187  
00:51:48,950 --> 00:51:46,200  
um you know Scotch that you've ever had

1188  
00:51:50,750 --> 00:51:48,960

in your life Insider and some amazing

1189

00:51:52,370 --> 00:51:50,760

food and it's it's an absolutely

1190

00:51:54,950 --> 00:51:52,380

beautiful place but no I don't think

1191

00:51:58,130 --> 00:51:54,960

there's anything in there uh bigger than

1192

00:52:00,650 --> 00:51:58,140

salmon and maybe the uh salmon eels and

1193

00:52:01,790 --> 00:52:00,660

uh maybe the occasional seal

1194

00:52:03,349 --> 00:52:01,800

um but but

1195

00:52:04,790 --> 00:52:03,359

I mean I think that that's where we can

1196

00:52:06,890 --> 00:52:04,800

get most of the sightings so the Loch

1197

00:52:08,690 --> 00:52:06,900

Ness um the interesting one of the

1198

00:52:10,910 --> 00:52:08,700

really interesting things are how the

1199

00:52:13,549 --> 00:52:10,920

stories have changed over the years and

1200

00:52:15,349 --> 00:52:13,559

how a lot of the historical sightings of

1201  
00:52:17,809 --> 00:52:15,359  
the Loch Ness monster

1202  
00:52:19,309 --> 00:52:17,819  
um if we read them we would never

1203  
00:52:20,930 --> 00:52:19,319  
recognize it as the same thing that

1204  
00:52:22,309 --> 00:52:20,940  
people picture as the Loch Ness monster

1205  
00:52:24,829 --> 00:52:22,319  
you know some of them happen miles

1206  
00:52:27,470 --> 00:52:24,839  
Inland and they're described as you know

1207  
00:52:30,049 --> 00:52:27,480  
being like a lion or being like a deer

1208  
00:52:31,609 --> 00:52:30,059  
or you know and it's nothing like the

1209  
00:52:33,650 --> 00:52:31,619  
classic kind of image but people still

1210  
00:52:35,030 --> 00:52:33,660  
attribute them to the Loch Ness monster

1211  
00:52:36,770 --> 00:52:35,040  
because they happened in the general

1212  
00:52:40,309 --> 00:52:36,780  
vicinity

1213  
00:52:41,870 --> 00:52:40,319

um of Loch Ness so I think that they're

1214

00:52:43,549 --> 00:52:41,880

they're great stories and it's an

1215

00:52:45,829 --> 00:52:43,559

amazing place to be but no I think

1216

00:52:48,470 --> 00:52:45,839

unfortunately um the the final pin in

1217

00:52:50,270 --> 00:52:48,480

that coffin for me is the uh the Edna

1218

00:52:52,549 --> 00:52:50,280

research that they did a couple years

1219

00:52:54,589 --> 00:52:52,559

ago when they showed um you know lots

1220

00:52:57,170 --> 00:52:54,599

and lots of el DNA so some of the

1221

00:52:58,910 --> 00:52:57,180

sightings are probably larger eels that

1222

00:53:00,410 --> 00:52:58,920

people are seeing or a group of eels we

1223

00:53:02,450 --> 00:53:00,420

know that eels will sometimes get

1224

00:53:04,790 --> 00:53:02,460

together into these huge groups that can

1225

00:53:08,089 --> 00:53:04,800

look like one undulating you know animal

1226

00:53:10,910 --> 00:53:08,099

itself so a lot more eel DNA than anyone

1227

00:53:13,510 --> 00:53:10,920

expected and some um some salmon and

1228

00:53:17,450 --> 00:53:13,520

salmon relatives but nothing unexplained

1229

00:53:19,970 --> 00:53:17,460

the other day I did a show on uh mega

1230

00:53:23,030 --> 00:53:19,980

sharks oh yeah yeah Megalodon and yeah

1231

00:53:28,490 --> 00:53:23,040

well a little bit about Megalodon but

1232

00:53:30,829 --> 00:53:28,500

mainly about uh giant sharks and

1233

00:53:33,230 --> 00:53:30,839

um I don't know if Megalodon has

1234

00:53:37,970 --> 00:53:33,240

survived it's possible I I don't know

1235

00:53:41,270 --> 00:53:37,980

but but one thing is for sure and there

1236

00:53:45,470 --> 00:53:41,280

have been measurements of bite marks out

1237

00:53:49,309 --> 00:53:45,480

of whales uh from giant sharks that are

1238

00:53:50,870 --> 00:53:49,319

four foot which uh and there's three

1239

00:53:53,870 --> 00:53:50,880

different locations around the world

1240

00:53:56,450 --> 00:53:53,880

where these bite marks have happened and

1241

00:54:02,390 --> 00:53:56,460

the estimates on these sharks are you

1242

00:54:05,150 --> 00:54:02,400

know up to 40 42 46 feet in length

1243

00:54:09,650 --> 00:54:05,160

um and that those are

1244

00:54:11,390 --> 00:54:09,660

um a giant of uh an exception

1245

00:54:13,609 --> 00:54:11,400

um just like we have tall humans right

1246

00:54:15,710 --> 00:54:13,619

that are nine feet tall

1247

00:54:17,510 --> 00:54:15,720

um and those are the exceptions and not

1248

00:54:20,750 --> 00:54:17,520

the rules but

1249

00:54:25,309 --> 00:54:20,760

um it's certainly uh shows us that we

1250

00:54:28,790 --> 00:54:25,319

have sharks out there that that are you

1251  
00:54:31,010 --> 00:54:28,800  
know up to 40 feet with a four foot bite

1252  
00:54:33,710 --> 00:54:31,020  
radius I mean that's crazy isn't it it

1253  
00:54:35,270 --> 00:54:33,720  
is yeah so I mean I hate to I hate to be

1254  
00:54:36,890 --> 00:54:35,280  
the you know the wet blanket on anything

1255  
00:54:39,410 --> 00:54:36,900  
and I'm sure that there are larger

1256  
00:54:41,630 --> 00:54:39,420  
sharks than we've seen absolutely but

1257  
00:54:43,910 --> 00:54:41,640  
bite marks are one of those um really

1258  
00:54:46,309 --> 00:54:43,920  
difficult indicators to really draw

1259  
00:54:48,410 --> 00:54:46,319  
great conclusions from because it's hard

1260  
00:54:50,089 --> 00:54:48,420  
to know what angle it came in at and

1261  
00:54:51,710 --> 00:54:50,099  
it's hard to know if the animal grew

1262  
00:54:53,510 --> 00:54:51,720  
after the bite or if something else

1263  
00:54:55,069 --> 00:54:53,520

stretched the skin or did that so the

1264

00:54:57,650 --> 00:54:55,079

estimates are are that they are

1265

00:54:59,750 --> 00:54:57,660

estimates based on those bites but I'm

1266

00:55:01,069 --> 00:54:59,760

sure that there are very large sharks

1267

00:55:02,510 --> 00:55:01,079

out there bigger than what we've seen

1268

00:55:05,089 --> 00:55:02,520

there's no way that we have seen the

1269

00:55:07,430 --> 00:55:05,099

largest great white yeah that is in the

1270

00:55:10,549 --> 00:55:07,440

oceans you know what uh you know what my

1271

00:55:13,309 --> 00:55:10,559

bite mark argument is though

1272

00:55:15,770 --> 00:55:13,319

um uh you know about growing

1273

00:55:17,809 --> 00:55:15,780

um I got bit by a German shepherd on my

1274

00:55:20,630 --> 00:55:17,819

left knee when I was five years old six

1275

00:55:23,270 --> 00:55:20,640

years old tore my leg up man and these

1276

00:55:26,870 --> 00:55:23,280

two teeth marks right are still right

1277

00:55:28,549 --> 00:55:26,880

there right those haven't grown

1278

00:55:30,290 --> 00:55:28,559

and I had the opposite I had the

1279

00:55:32,089 --> 00:55:30,300

opposite I got bitten by a dog when I

1280

00:55:34,490 --> 00:55:32,099

was younger on my leg too and now it

1281

00:55:35,930 --> 00:55:34,500

looks like it was you know a Cujo that

1282

00:55:36,849 --> 00:55:35,940

attacked me and really it was a skipper

1283

00:55:39,049 --> 00:55:36,859

key

1284

00:55:41,569 --> 00:55:39,059

you know you know the little black uh

1285

00:55:43,130 --> 00:55:41,579

fox dogs little schipper key yeah really

1286

00:55:44,870 --> 00:55:43,140

really yeah I think it depends on the

1287

00:55:46,849 --> 00:55:44,880

bite depends on the individual depends

1288

00:55:48,530 --> 00:55:46,859

on the the angle that it came in at and

1289

00:55:51,589 --> 00:55:48,540

what you know how many layers it got

1290

00:55:53,809 --> 00:55:51,599

through and all that so yeah yeah no I'm

1291

00:55:56,270 --> 00:55:53,819

not talking about bite marks in the skin

1292

00:56:00,290 --> 00:55:56,280

I'm talking about chunks of chunks out

1293

00:56:02,870 --> 00:56:00,300

of them yeah yeah yeah so you can see

1294

00:56:06,950 --> 00:56:02,880

the other bite marks that are smaller

1295

00:56:08,450 --> 00:56:06,960

right and then anyway my point being

1296

00:56:11,569 --> 00:56:08,460

though

1297

00:56:14,750 --> 00:56:11,579

um that there are some ginormous things

1298

00:56:17,990 --> 00:56:14,760

that are swimming around this ocean and

1299

00:56:21,109 --> 00:56:18,000

when we look at the ID and the science

1300

00:56:22,790 --> 00:56:21,119

behind cryptozoology we have we have to

1301

00:56:24,829 --> 00:56:22,800

keep an open mind with this we

1302

00:56:27,530 --> 00:56:24,839

absolutely everything is so unexplored

1303

00:56:31,609 --> 00:56:27,540

look at mega mouth sharks so megamouth

1304

00:56:33,650 --> 00:56:31,619

sharks were only found in the 70s and I

1305

00:56:35,569 --> 00:56:33,660

believe we've only found a dozen of them

1306

00:56:38,990 --> 00:56:35,579

and it's it's one of the largest species

1307

00:56:40,910 --> 00:56:39,000

of uh of fish in the ocean I mean once

1308

00:56:43,549 --> 00:56:40,920

right sorry

1309

00:56:45,410 --> 00:56:43,559

filmed once yeah yeah I mean it's

1310

00:56:48,410 --> 00:56:45,420

absolutely remarkable and think about

1311

00:56:50,390 --> 00:56:48,420

oarfish I mean oarfish you people say up

1312

00:56:52,970 --> 00:56:50,400

to 60 feet long people say up to 40 feet

1313

00:56:55,490 --> 00:56:52,980

long you know either way it's a giant

1314

00:56:58,130 --> 00:56:55,500

animal I was able to do an MRI scan on

1315

00:57:00,790 --> 00:56:58,140

on an oarfish but um this is something

1316

00:57:04,609 --> 00:57:00,800

that up until

1317

00:57:07,190 --> 00:57:04,619

2017 something 16 17. um no one had

1318

00:57:09,109 --> 00:57:07,200

filmed one in uh in it you know in its

1319

00:57:10,790 --> 00:57:09,119

natural habitat before and now you know

1320

00:57:13,670 --> 00:57:10,800

we've had less than five that have ever

1321

00:57:16,130 --> 00:57:13,680

been filmed and these are you know they

1322

00:57:17,870 --> 00:57:16,140

theoretically live all over the world in

1323

00:57:19,490 --> 00:57:17,880

the just the open ocean

1324

00:57:20,870 --> 00:57:19,500

I mean we know we know very little about

1325

00:57:23,930 --> 00:57:20,880

the deep sea but we know very little

1326  
00:57:25,910 --> 00:57:23,940  
about the um just the open ocean as well

1327  
00:57:27,770 --> 00:57:25,920  
our guest tonight is Pat Spain Pat we're

1328  
00:57:30,049 --> 00:57:27,780  
going to take a quick break right here

1329  
00:57:32,750 --> 00:57:30,059  
we'll be right back tonight we're

1330  
00:57:34,849 --> 00:57:32,760  
talking about cryptozoology we come back

1331  
00:57:36,589 --> 00:57:34,859  
I'm going Bigfoot

1332  
00:57:40,250 --> 00:57:36,599  
Bigfoot with past pain we'll be right

1333  
00:57:44,510 --> 00:57:42,290  
this is Jimmy Church of Fade to Black

1334  
00:57:46,790 --> 00:57:44,520  
please visit all of our sponsors we're

1335  
00:57:48,470 --> 00:57:46,800  
taking a quick break here all of the

1336  
00:57:50,710 --> 00:57:48,480  
links are below

1337  
00:57:55,190 --> 00:57:50,720  
and we'll be right back

1338  
00:57:57,710 --> 00:57:55,200

join us November 10th 11th and 12th 2023

1339

00:58:00,410 --> 00:57:57,720

as disclosure Fest foundation and Fade

1340

00:58:02,930 --> 00:58:00,420

to Black radio presents Stairway To the

1341

00:58:05,390 --> 00:58:02,940

Stars a human Origins Science and

1342

00:58:08,450 --> 00:58:05,400

Technology Expo live at the Luxor Hotel

1343

00:58:10,730 --> 00:58:08,460

and Casino and the Las Vegas Strip with

1344

00:58:12,710 --> 00:58:10,740

live talks lectures and workshops by

1345

00:58:14,809 --> 00:58:12,720

World Acclaim researchers and authors

1346

00:58:17,390 --> 00:58:14,819

this is Jimmy Church by the way and I'll

1347

00:58:19,670 --> 00:58:17,400

be your host all weekend long featuring

1348

00:58:21,829 --> 00:58:19,680

topics like human Origins ancient

1349

00:58:24,770 --> 00:58:21,839

Technologies indigenous teachings

1350

00:58:27,109 --> 00:58:24,780

workshops a mass meditation yoga and

1351  
00:58:29,870 --> 00:58:27,119  
sound healing music and so much more

1352  
00:58:32,690 --> 00:58:29,880  
don't miss our intimate sky watch and

1353  
00:58:35,569 --> 00:58:32,700  
meteor shower over the infamous Area 51

1354  
00:58:37,309 --> 00:58:35,579  
airspace in Rachel Nevada with special

1355  
00:58:39,650 --> 00:58:37,319  
surprise celebrity host guiding us

1356  
00:58:43,549 --> 00:58:39,660  
through the night also introducing our

1357  
00:58:45,770 --> 00:58:43,559  
disclosure Fest VR Starship area with

1358  
00:58:48,470 --> 00:58:45,780  
dozens of rides you've gotta check it

1359  
00:58:50,030 --> 00:58:48,480  
out this event will sell out for more

1360  
00:58:54,049 --> 00:58:50,040  
information and tickets Please visit

1361  
00:58:58,789 --> 00:58:54,059  
disclosure surefest.org the secret is

1362  
00:59:01,309 --> 00:58:58,799  
out life waves x39 is the reason why I

1363  
00:59:03,410 --> 00:59:01,319

have got my vision back this is Jimmy

1364

00:59:05,890 --> 00:59:03,420

Church of Fade to Black and you need to

1365

00:59:08,589 --> 00:59:05,900

go straight to Healing

1366

00:59:12,829 --> 00:59:08,599

worksnow.com that's

1367

00:59:15,589 --> 00:59:12,839

healingworksnow.com works with an X all

1368

00:59:19,490 --> 00:59:15,599

of the information that you need is on

1369

00:59:22,730 --> 00:59:19,500

that portal find out why I look great I

1370

00:59:26,569 --> 00:59:22,740

feel great I'm thinking clearly I sleep

1371

00:59:29,630 --> 00:59:26,579

I dream life is good all of it you've

1372

00:59:31,849 --> 00:59:29,640

got to check out lifewaves x39 and all

1373

00:59:34,270 --> 00:59:31,859

of their other products it's all simple

1374

00:59:36,910 --> 00:59:34,280

to do go to

1375

00:59:41,270 --> 00:59:36,920

healingworksnow.com that's

1376  
00:59:43,849 --> 00:59:41,280  
healingworksnow.com works with an X

1377  
00:59:46,190 --> 00:59:43,859  
hey everybody it's Billy Carson also

1378  
00:59:47,690 --> 00:59:46,200  
known as Forbidden Knowledge I want to

1379  
00:59:51,349 --> 00:59:47,700  
talk to you about a very special event

1380  
00:59:53,450 --> 00:59:51,359  
coming up July 30th 2023 The Forbidden

1381  
00:59:55,069 --> 00:59:53,460  
conscious Awards we're going to honor

1382  
00:59:57,410 --> 00:59:55,079  
people who have been contributing to the

1383  
00:59:58,910 --> 00:59:57,420  
conscious Community for decades people

1384  
01:00:00,710 --> 00:59:58,920  
that you know and love that have helped

1385  
01:00:02,690 --> 01:00:00,720  
you get to higher levels of thought and

1386  
01:00:04,970 --> 01:00:02,700  
Consciousness and awareness it's going

1387  
01:00:06,349 --> 01:00:04,980  
to be alive in-person event but seats

1388  
01:00:08,089 --> 01:00:06,359

are going to sell out very fast you want

1389

01:00:09,710 --> 01:00:08,099

to make sure you're there in person and

1390

01:00:11,530 --> 01:00:09,720

guess what you can help vote for the

1391

01:00:13,549 --> 01:00:11,540

winners voting is available on

1392

01:00:15,170 --> 01:00:13,559

forbiddenknowledge.com and the

1393

01:00:18,349 --> 01:00:15,180

categories are going to be social media

1394

01:00:20,170 --> 01:00:18,359

influencer podcast slash radio host TV

1395

01:00:21,950 --> 01:00:20,180

host actor director producer

1396

01:00:23,390 --> 01:00:21,960

entrepreneurs health and wellness

1397

01:00:25,849 --> 01:00:23,400

philanthropists authors field

1398

01:00:27,650 --> 01:00:25,859

researchers archaeologists space anomaly

1399

01:00:30,470 --> 01:00:27,660

hunters and of course a Lifetime

1400

01:00:32,390 --> 01:00:30,480

Achievement Award I'll be your key note

1401

01:00:34,309 --> 01:00:32,400

speaker that night at The Forbidden

1402

01:00:36,650 --> 01:00:34,319

conscious Awards we have celebrity

1403

01:00:38,210 --> 01:00:36,660

guests performing we'll have a halftime

1404

01:00:39,829 --> 01:00:38,220

show where we're actually going to

1405

01:00:42,530 --> 01:00:39,839

perform music for you and don't forget

1406

01:00:44,510 --> 01:00:42,540

about the pre-event mixer where if you

1407

01:00:46,430 --> 01:00:44,520

buy a box seat you'll be in the VIP

1408

01:00:48,650 --> 01:00:46,440

section and you also have private access

1409

01:00:51,349 --> 01:00:48,660

to a Big Apple mixer with celebrity

1410

01:00:53,809 --> 01:00:51,359

guests shake hands break bread Network

1411

01:00:55,730 --> 01:00:53,819

and then walk the red carpet with us and

1412

01:00:56,990 --> 01:00:55,740

take amazing photos it's going to be a

1413

01:00:58,910 --> 01:00:57,000

night to remember you don't want to

1414

01:01:00,470 --> 01:00:58,920

forget this make sure you hurry up and

1415

01:01:02,410 --> 01:01:00,480

get your tickets because you're selling

1416

01:01:05,190 --> 01:01:02,420

out very fast I want to see you there

1417

01:01:08,809 --> 01:01:05,200

forbidden conscious Awards 2023

1418

01:01:12,230 --> 01:01:08,819

[Music]

1419

01:01:15,049 --> 01:01:12,240

River Moon coffee makers of the Fade to

1420

01:01:16,870 --> 01:01:15,059

Black blend truly the best coffee on

1421

01:01:19,130 --> 01:01:16,880

planet Earth just visit

1422

01:01:20,990 --> 01:01:19,140

rivermoonwellness.com or or their Amazon

1423

01:01:22,430 --> 01:01:21,000

store it's all simple to do you can

1424

01:01:24,470 --> 01:01:22,440

check out the Fade to Black blend the

1425

01:01:27,170 --> 01:01:24,480

game changer Blend or any of their black

1426

01:01:30,890 --> 01:01:27,180

moon wellness products it's the only

1427

01:01:36,170 --> 01:01:30,900

coffee I drink it is the best and it's

1428

01:01:41,030 --> 01:01:38,390

all right Welcome Back Fade to Black I'm

1429

01:01:43,970 --> 01:01:41,040

your assuming church tonight Pats I I

1430

01:01:46,510 --> 01:01:43,980

almost did it again I almost did it

1431

01:01:52,069 --> 01:01:46,520

again it's all right

1432

01:01:55,990 --> 01:01:52,079

okay uh Pat Spain's with us uh Pat Uh

1433

01:02:00,109 --> 01:01:56,000

yeah he sees the guitars and he goes

1434

01:02:02,450 --> 01:02:00,119

by the way Pat every guest that I have

1435

01:02:03,950 --> 01:02:02,460

on the show they look at the guitars you

1436

01:02:06,410 --> 01:02:03,960

know you know the first thing they say

1437

01:02:09,770 --> 01:02:06,420

what's that I was in abandoned high

1438

01:02:12,230 --> 01:02:09,780

school well oh yeah I was in abandoned

1439

01:02:14,510 --> 01:02:12,240

high school and and Pam was in a punk

1440

01:02:16,569 --> 01:02:14,520

band played Ace I was yeah Basin

1441

01:02:18,289 --> 01:02:16,579

screaming

1442

01:02:20,870 --> 01:02:18,299

okay

1443

01:02:22,549 --> 01:02:20,880

um before we move on uh to Bigfoot and

1444

01:02:27,650 --> 01:02:22,559

cryptozoology

1445

01:02:30,890 --> 01:02:27,660

um who is I'm I'm going to uh I'm I'm

1446

01:02:33,849 --> 01:02:30,900

gonna have mine ready to go who is the

1447

01:02:36,950 --> 01:02:33,859

greatest Punk bass player of all time

1448

01:02:39,890 --> 01:02:36,960

Matt Freeman Matt Freeman from rancid no

1449

01:02:42,829 --> 01:02:39,900

doubt really oh yeah oh yeah you listen

1450

01:02:44,510 --> 01:02:42,839

to Maxwell murder there's no one no one

1451

01:02:47,150 --> 01:02:44,520

I don't think anyone could hold a candle

1452

01:02:48,109 --> 01:02:47,160

to him okay

1453

01:02:51,109 --> 01:02:48,119

um

1454

01:02:56,150 --> 01:02:51,119

uh uh

1455

01:03:00,170 --> 01:02:56,160

I'm I'm gonna go with uh man oh God it's

1456

01:03:02,450 --> 01:03:00,180

it's it's it's it's it's a tough one

1457

01:03:04,370 --> 01:03:02,460

um I'm gonna go with hold on hold on for

1458

01:03:09,049 --> 01:03:04,380

a second no I just had a second thought

1459

01:03:10,089 --> 01:03:09,059

I just had a second thought here

1460

01:03:15,049 --> 01:03:10,099

um

1461

01:03:17,809 --> 01:03:15,059

I just had a second thought and I am

1462

01:03:21,829 --> 01:03:17,819

going to

1463

01:03:26,870 --> 01:03:21,839

uh uh just just stay with me yeah no

1464

01:03:26,880 --> 01:03:31,190

I'm gonna go with

1465

01:03:31,200 --> 01:03:36,289

man I can see ah

1466

01:03:41,289 --> 01:03:39,309

okay this is

1467

01:03:45,589 --> 01:03:41,299

for

1468

01:03:46,309 --> 01:03:45,599

aesthetic reasons all right Mike Dern oh

1469

01:03:53,089 --> 01:03:46,319

yeah

1470

01:03:56,030 --> 01:03:53,099

when he hikes up one foot on the monitor

1471

01:03:59,990 --> 01:03:56,040

oh yeah you know what I mean he looks he

1472

01:04:02,470 --> 01:04:00,000

he he is the the image of the punk basis

1473

01:04:05,569 --> 01:04:02,480

for sure absolutely oh yeah

1474

01:04:08,690 --> 01:04:05,579

of it yeah he's player for Green Day

1475

01:04:10,490 --> 01:04:08,700

yeah and uh everybody and so I was gonna

1476

01:04:14,150 --> 01:04:10,500

go in a couple of directions but I went

1477

01:04:15,530 --> 01:04:14,160

he just popped in my head and uh throw

1478

01:04:17,329 --> 01:04:15,540

the descendants out there and I think

1479

01:04:20,630 --> 01:04:17,339

they're amazing they're great uh but

1480

01:04:22,849 --> 01:04:20,640

yeah Matt Freeman he is wow yeah yeah

1481

01:04:24,950 --> 01:04:22,859

and I that you're right about that

1482

01:04:29,030 --> 01:04:24,960

though man Ransom was such a good band

1483

01:04:30,890 --> 01:04:29,040

it is new album just came out this week

1484

01:04:33,589 --> 01:04:30,900

yes that's right that's right that's

1485

01:04:35,390 --> 01:04:33,599

right yeah wow that's wild

1486

01:04:40,190 --> 01:04:35,400

um to

1487

01:04:43,309 --> 01:04:40,200

um the the world okay this is how uh

1488

01:04:46,789 --> 01:04:43,319

fascinating it is about connecting the

1489

01:04:51,170 --> 01:04:46,799

dots when you have somebody like Tom

1490

01:04:54,890 --> 01:04:51,180

Delong and Blink 182 oh yeah okay and

1491

01:04:58,430 --> 01:04:54,900

the success of all of that and then for

1492

01:05:00,289 --> 01:04:58,440

him to walk away from blink into the

1493

01:05:04,549 --> 01:05:00,299

world of UFOs

1494

01:05:08,750 --> 01:05:04,559

and jump in feet first right where I

1495

01:05:12,230 --> 01:05:08,760

think that musicians in General and in

1496

01:05:13,549 --> 01:05:12,240

this case Punk musicians but but uh well

1497

01:05:16,430 --> 01:05:13,559

you can call him more like commercial

1498

01:05:18,530 --> 01:05:16,440

Punk but anyway I mean they they you

1499

01:05:20,150 --> 01:05:18,540

know they were schooled by Pennywise and

1500

01:05:22,730 --> 01:05:20,160

I came up through the ranks with no

1501  
01:05:24,289 --> 01:05:22,740  
effects there yeah yeah I won't I won't

1502  
01:05:27,289 --> 01:05:24,299  
hold anything against blink I think they

1503  
01:05:30,109 --> 01:05:27,299  
did a great job you know what every song

1504  
01:05:34,010 --> 01:05:30,119  
that they ever did was a toe Tapper yeah

1505  
01:05:37,490 --> 01:05:34,020  
absolutely agree yeah yeah to write

1506  
01:05:39,710 --> 01:05:37,500  
courses that you know that's a it's a

1507  
01:05:41,809 --> 01:05:39,720  
tough thing man and it's a whole other

1508  
01:05:42,910 --> 01:05:41,819  
thing to write stuff that the whole

1509  
01:05:45,829 --> 01:05:42,920  
world

1510  
01:05:49,130 --> 01:05:45,839  
understands absolutely that's what blink

1511  
01:05:51,890 --> 01:05:49,140  
did but uh musicians have an open mind

1512  
01:05:56,569 --> 01:05:51,900  
when it comes to this stuff and and

1513  
01:05:58,609 --> 01:05:56,579

there's an attraction there uh uh

1514

01:06:00,230 --> 01:05:58,619

um you have to be able to get into the

1515

01:06:03,710 --> 01:06:00,240

zone and that's where consciousness

1516

01:06:06,530 --> 01:06:03,720

comes in meditation comes in I think E.T

1517

01:06:08,870 --> 01:06:06,540

and then cryptozoology and ghosts and

1518

01:06:11,329 --> 01:06:08,880

life after death I think musicians

1519

01:06:13,309 --> 01:06:11,339

understand this uh better than most

1520

01:06:15,770 --> 01:06:13,319

don't you yeah you you've been on tour

1521

01:06:18,109 --> 01:06:15,780

you see weird stuff when you're on tour

1522

01:06:19,730 --> 01:06:18,119

you see things that most people don't

1523

01:06:21,710 --> 01:06:19,740

see you experience things that most

1524

01:06:24,109 --> 01:06:21,720

people don't see when you're up on stage

1525

01:06:26,569 --> 01:06:24,119

it's an experience it's something you

1526

01:06:27,829 --> 01:06:26,579

know to you're interacting with a huge

1527

01:06:29,390 --> 01:06:27,839

crowd with a huge group of people

1528

01:06:31,430 --> 01:06:29,400

there's it's not the same as having a

1529

01:06:33,049 --> 01:06:31,440

one-on-one conversation or even being in

1530

01:06:34,430 --> 01:06:33,059

a group and having a large conversation

1531

01:06:37,370 --> 01:06:34,440

it's a completely different thing and

1532

01:06:39,349 --> 01:06:37,380

you do experience a different aspect of

1533

01:06:41,809 --> 01:06:39,359

humanity than I think most people get

1534

01:06:45,109 --> 01:06:41,819

the chance to so I think part of that

1535

01:06:46,910 --> 01:06:45,119

does open your mind to other things to

1536

01:06:49,670 --> 01:06:46,920

other things that people haven't a lot

1537

01:06:51,410 --> 01:06:49,680

of people haven't experienced when you

1538

01:06:53,930 --> 01:06:51,420

um when you enter into the

1539

01:06:56,870 --> 01:06:53,940

classification of cryptozoologists and

1540

01:06:59,990 --> 01:06:56,880

then you have the the educated crowd out

1541

01:07:02,630 --> 01:07:00,000

there too as well that will now say ah

1542

01:07:05,630 --> 01:07:02,640

he's Fringe yeah man I can't take that

1543

01:07:07,430 --> 01:07:05,640

guy serious now right right

1544

01:07:10,309 --> 01:07:07,440

um what's your definition of a

1545

01:07:13,430 --> 01:07:10,319

cryptozoologist yeah so I don't think it

1546

01:07:15,069 --> 01:07:13,440

really differs very much from biology I

1547

01:07:17,510 --> 01:07:15,079

mean all biologists are a

1548

01:07:19,309 --> 01:07:17,520

cryptozoologists I think I think Darren

1549

01:07:21,770 --> 01:07:19,319

Nash really puts it best

1550

01:07:24,049 --> 01:07:21,780

um where he says cryptozoology is a mix

1551

01:07:26,270 --> 01:07:24,059

of biology and anthropology

1552

01:07:28,910 --> 01:07:26,280

and I think that that's the perfect way

1553

01:07:30,950 --> 01:07:28,920

to say it is that um cryptozoology is

1554

01:07:32,510 --> 01:07:30,960

biology but there's there's a little bit

1555

01:07:34,730 --> 01:07:32,520

of cultural anthropology and a little

1556

01:07:38,029 --> 01:07:34,740

bit of Mythology and a little bit of

1557

01:07:41,029 --> 01:07:38,039

um looking into different uh belief

1558

01:07:42,950 --> 01:07:41,039

systems as well kind of thrown into the

1559

01:07:45,950 --> 01:07:42,960

the biological mix but at the end of the

1560

01:07:47,210 --> 01:07:45,960

day it just is biology I mean when we're

1561

01:07:49,970 --> 01:07:47,220

talking about undiscovered creatures

1562

01:07:53,450 --> 01:07:49,980

sure sure and then uh but you're gonna

1563

01:07:54,589 --> 01:07:53,460

have some biologists uh uh look at you

1564

01:07:57,109 --> 01:07:54,599

and go

1565

01:07:59,270 --> 01:07:57,119

you're just looking for chupacabra

1566

01:08:01,250 --> 01:07:59,280

yeah but yeah I mean there there's

1567

01:08:02,630 --> 01:08:01,260

always the naysayers there's always the

1568

01:08:04,490 --> 01:08:02,640

people in everything that you know they

1569

01:08:06,529 --> 01:08:04,500

they want everything to be neat and tidy

1570

01:08:10,190 --> 01:08:06,539

in the world isn't Earth isn't neat and

1571

01:08:13,190 --> 01:08:10,200

tidy when I was uh 11 12 something like

1572

01:08:15,950 --> 01:08:13,200

that I found a a cottonmouth snake about

1573

01:08:17,990 --> 01:08:15,960

200 miles north of their accepted range

1574

01:08:19,729 --> 01:08:18,000

and nobody believed me no one thought

1575

01:08:21,950 --> 01:08:19,739

and I brought it to a herpetologist and

1576

01:08:24,110 --> 01:08:21,960

showed it to me he went oh you got one

1577

01:08:25,430 --> 01:08:24,120

that's a water moccasin right there and

1578

01:08:28,490 --> 01:08:25,440

then they accuse me of bringing it up

1579

01:08:30,650 --> 01:08:28,500

from New York City of course so so I

1580

01:08:32,510 --> 01:08:30,660

mean the animals don't fit into the neat

1581

01:08:33,289 --> 01:08:32,520

and tidy boxes that we want them to fit

1582

01:08:40,070 --> 01:08:33,299

in

1583

01:08:41,450 --> 01:08:40,080

know it all or that we found it all or

1584

01:08:43,490 --> 01:08:41,460

that something isn't going to come up

1585

01:08:46,370 --> 01:08:43,500

and completely blow up our understanding

1586

01:08:48,650 --> 01:08:46,380

of uh of what we thought we knew about

1587

01:08:50,110 --> 01:08:48,660

these animals well what so what are you

1588

01:08:54,410 --> 01:08:50,120

in search of

1589

01:08:56,630 --> 01:08:54,420

uh in in regards to cryptozoology oh

1590

01:08:59,090 --> 01:08:56,640

yeah I mean you've got to have a list

1591

01:09:00,769 --> 01:08:59,100

you've got to have a whole list yeah so

1592

01:09:03,410 --> 01:09:00,779

I did a show on the National Geographic

1593

01:09:04,849 --> 01:09:03,420

Channel called Beast Hunter and um I

1594

01:09:07,010 --> 01:09:04,859

worked with the production company icon

1595

01:09:10,010 --> 01:09:07,020

films who I I love they were the best

1596

01:09:11,689 --> 01:09:10,020

production company in the world and uh I

1597

01:09:13,370 --> 01:09:11,699

gave them my list these are the things

1598

01:09:16,249 --> 01:09:13,380

that I'm the most interested in that we

1599

01:09:19,189 --> 01:09:16,259

kind of took that and paired it down to

1600

01:09:21,110 --> 01:09:19,199

uh 10 that were you know the ones that

1601  
01:09:22,669 --> 01:09:21,120  
would be the most aesthetically pleasing

1602  
01:09:23,809 --> 01:09:22,679  
for the audience and the ones that would

1603  
01:09:25,910 --> 01:09:23,819  
be the most interesting and then

1604  
01:09:27,890 --> 01:09:25,920  
presented that to Nat Geo and they

1605  
01:09:29,329 --> 01:09:27,900  
picked the five of those that they were

1606  
01:09:31,789 --> 01:09:29,339  
the most interested in to get the five

1607  
01:09:34,490 --> 01:09:31,799  
episodes of Beast Hunter but oh yeah on

1608  
01:09:37,130 --> 01:09:34,500  
my list I mean some of them are are less

1609  
01:09:39,410 --> 01:09:37,140  
exciting I think to um mainstream like I

1610  
01:09:42,289 --> 01:09:39,420  
would love to go looking for thylacines

1611  
01:09:44,510 --> 01:09:42,299  
you know just a Tasmanian tiger that uh

1612  
01:09:47,450 --> 01:09:44,520  
that we know were there um you know

1613  
01:09:48,709 --> 01:09:47,460

accepted up until the 1920s but

1614

01:09:50,990 --> 01:09:48,719

um you know I think that there's still

1615

01:09:52,490 --> 01:09:51,000

some remnant uh population of them

1616

01:09:55,010 --> 01:09:52,500

around I think there's enough pretty

1617

01:09:57,050 --> 01:09:55,020

good sightings and evidence

1618

01:09:58,910 --> 01:09:57,060

um and now with Edna technology I think

1619

01:10:01,610 --> 01:09:58,920

we'd have a good chance of finding them

1620

01:10:04,370 --> 01:10:01,620

um a ring pin deck the the hair the

1621

01:10:06,470 --> 01:10:04,380

little Bigfoot of Sumatra I think was

1622

01:10:08,090 --> 01:10:06,480

either there very very recently or

1623

01:10:09,470 --> 01:10:08,100

there's still a good chance that they

1624

01:10:11,209 --> 01:10:09,480

are

1625

01:10:12,709 --> 01:10:11,219

um I think that Lauren Coleman gets it

1626

01:10:14,810 --> 01:10:12,719

right when he says that a ring pin deck

1627

01:10:18,050 --> 01:10:14,820

is probably two distinct species one

1628

01:10:19,790 --> 01:10:18,060

more gibbon-like and one more hominid

1629

01:10:21,530 --> 01:10:19,800

um and the gibbon-like one I think is

1630

01:10:24,350 --> 01:10:21,540

the one that we're more likely to to

1631

01:10:26,090 --> 01:10:24,360

come across but yeah I think if they're

1632

01:10:29,090 --> 01:10:26,100

not still there then they were very very

1633

01:10:30,950 --> 01:10:29,100

recently and um Dr Mike morewood who's

1634

01:10:34,729 --> 01:10:30,960

the the gentleman that first described

1635

01:10:36,290 --> 01:10:34,739

homo floresiensis he told me as much

1636

01:10:38,510 --> 01:10:36,300

that he believed that they were there

1637

01:10:42,229 --> 01:10:38,520

until that floresiensis was there until

1638

01:10:45,590 --> 01:10:42,239

at least the 1920s which is mind-blowing

1639

01:10:46,850 --> 01:10:45,600

so on one of the islands of Indonesia

1640

01:10:48,950 --> 01:10:46,860

um I think we'd still have a pretty good

1641

01:10:51,890 --> 01:10:48,960

chance at those uh anything in the deep

1642

01:10:53,209 --> 01:10:51,900

ocean you know new species of squid uh

1643

01:10:55,010 --> 01:10:53,219

fascinate me I keep on coming back to

1644

01:10:57,649 --> 01:10:55,020

squib that's my that's that's the real

1645

01:10:59,209 --> 01:10:57,659

passion um ever since I was little and I

1646

01:11:01,070 --> 01:10:59,219

think that we could find something yeah

1647

01:11:03,709 --> 01:11:01,080

yeah you know I don't think you know

1648

01:11:06,590 --> 01:11:03,719

Sailors love to tell their stories right

1649

01:11:09,649 --> 01:11:06,600

and so I I'm not so sure if mermaids are

1650

01:11:12,229 --> 01:11:09,659

real maybe maybe it's a possibility but

1651

01:11:15,229 --> 01:11:12,239

uh these stories of giant squids

1652

01:11:17,209 --> 01:11:15,239

swallowing ships and you know and and

1653

01:11:21,050 --> 01:11:17,219

these tales of the ocean over the years

1654

01:11:23,390 --> 01:11:21,060

I think they're that far-fetched no no I

1655

01:11:25,850 --> 01:11:23,400

mean we we've found giant squid and

1656

01:11:27,470 --> 01:11:25,860

colossal squid and uh there are

1657

01:11:28,669 --> 01:11:27,480

certainly other ones left to be

1658

01:11:31,370 --> 01:11:28,679

discovered

1659

01:11:32,630 --> 01:11:31,380

and we're talking big oh yeah yeah I

1660

01:11:35,390 --> 01:11:32,640

mean we're talking more than 40 feet

1661

01:11:39,530 --> 01:11:35,400

yeah yeah we're talking big

1662

01:11:42,950 --> 01:11:39,540

um the uh uh the news I I didn't I

1663

01:11:47,390 --> 01:11:42,960

didn't know this until uh a few years

1664

01:11:50,870 --> 01:11:47,400

ago it's a mind-blowing fact that uh the

1665

01:11:53,270 --> 01:11:50,880

woolly mammoth existed up until four or

1666

01:11:55,250 --> 01:11:53,280

five thousand years ago and uh has been

1667

01:11:56,689 --> 01:11:55,260

found on different islands in in

1668

01:11:59,689 --> 01:11:56,699

Northern Canada

1669

01:12:03,830 --> 01:11:59,699

that's that's that's crazy town that's

1670

01:12:08,450 --> 01:12:03,840

that's it doesn't fit and it survived

1671

01:12:11,110 --> 01:12:08,460

whatever went down uh uh the last ice

1672

01:12:14,149 --> 01:12:11,120

age you know 12 000 years ago and before

1673

01:12:16,310 --> 01:12:14,159

that actually you know was was living

1674

01:12:19,070 --> 01:12:16,320

and walking living breathing creature

1675

01:12:20,689 --> 01:12:19,080

just 5 000 short years ago yeah I mean

1676

01:12:22,310 --> 01:12:20,699

they think that woolly mammoths might be

1677

01:12:24,290 --> 01:12:22,320

one of the first

1678

01:12:26,270 --> 01:12:24,300

um species that was wiped out by humans

1679

01:12:29,649 --> 01:12:26,280

by modern day humans

1680

01:12:31,970 --> 01:12:29,659

it's crazy oh yeah yeah I mean Australia

1681

01:12:33,229 --> 01:12:31,980

Megalania was probably wiped out by

1682

01:12:35,810 --> 01:12:33,239

humans

1683

01:12:37,850 --> 01:12:35,820

um there's there's some other you know a

1684

01:12:39,890 --> 01:12:37,860

lot of the large fauna um that we think

1685

01:12:41,810 --> 01:12:39,900

of I think giant ground sloths there's

1686

01:12:44,090 --> 01:12:41,820

still a pretty good chance I think that

1687

01:12:45,590 --> 01:12:44,100

there's still some down in Brazil

1688

01:12:49,490 --> 01:12:45,600

now

1689

01:12:52,370 --> 01:12:49,500

um I love talking about UFOs and it

1690

01:12:55,010 --> 01:12:52,380

certainly it's dominating uh ET contact

1691

01:12:57,770 --> 01:12:55,020

is dominating the media these days and

1692

01:13:01,370 --> 01:12:57,780

and I I never thought we would be at

1693

01:13:05,149 --> 01:13:01,380

this point but as big as the UFO

1694

01:13:07,430 --> 01:13:05,159

community may seem to me right and and

1695

01:13:09,590 --> 01:13:07,440

I'm a voice of that community and I like

1696

01:13:10,729 --> 01:13:09,600

my position in that Community all of

1697

01:13:14,390 --> 01:13:10,739

that is great

1698

01:13:16,790 --> 01:13:14,400

but it's small compared to the Bigfoot

1699

01:13:20,830 --> 01:13:16,800

Community absolutely Bigfoot Community

1700

01:13:23,990 --> 01:13:20,840

is giant well ginormous

1701

01:13:27,590 --> 01:13:24,000

but but it's really true isn't it I mean

1702

01:13:31,910 --> 01:13:27,600

Bigfoot is a whole other situation uh

1703

01:13:35,510 --> 01:13:31,920

than ET and UFOs when it comes to uh the

1704

01:13:38,510 --> 01:13:35,520

search of and experiences with and

1705

01:13:40,790 --> 01:13:38,520

sightings of yeah I mean Cliff brackman

1706

01:13:43,610 --> 01:13:40,800

is a friend he's an amazing guy from uh

1707

01:13:45,770 --> 01:13:43,620

from Finding Bigfoot and I think that

1708

01:13:47,630 --> 01:13:45,780

show did a huge amount to popularize it

1709

01:13:50,390 --> 01:13:47,640

and to to get people out there but I

1710

01:13:53,870 --> 01:13:50,400

think also it's just um it's something

1711

01:13:57,169 --> 01:13:53,880

about it's almost representative of a uh

1712

01:13:58,910 --> 01:13:57,179

of a still Wild America and you know the

1713

01:14:00,890 --> 01:13:58,920

the chance to get out there and to find

1714

01:14:02,689 --> 01:14:00,900

something to find something new and to

1715

01:14:05,270 --> 01:14:02,699

still discover something that's uh

1716

01:14:07,370 --> 01:14:05,280

that's that big and that impressive in a

1717

01:14:09,110 --> 01:14:07,380

country that we think of as so developed

1718

01:14:11,450 --> 01:14:09,120

which it really isn't I mean when you go

1719

01:14:14,030 --> 01:14:11,460

out west you go out to Montana and you

1720

01:14:15,770 --> 01:14:14,040

know Wyoming and way up in you know

1721

01:14:17,390 --> 01:14:15,780

Idaho and uh

1722

01:14:19,669 --> 01:14:17,400

kind of all over the Pacific Northwest

1723

01:14:21,950 --> 01:14:19,679

there's still a lot of very very wild

1724

01:14:23,510 --> 01:14:21,960

places left in this country that you

1725

01:14:27,290 --> 01:14:23,520

know on the East Coast we don't often

1726

01:14:29,810 --> 01:14:27,300

think about no we don't and until you

1727

01:14:32,149 --> 01:14:29,820

experience the Pacific Northwest

1728

01:14:33,410 --> 01:14:32,159

because you can look at you can drive in

1729

01:14:35,510 --> 01:14:33,420

your car

1730

01:14:36,950 --> 01:14:35,520

fly in a plane and look out the window

1731

01:14:40,910 --> 01:14:36,960

and go

1732

01:14:46,550 --> 01:14:40,920

no human has ever walked there ever yeah

1733

01:14:49,130 --> 01:14:46,560

did ever I mean yeah it is large uh

1734

01:14:52,070 --> 01:14:49,140

forested I spent a lot of time in

1735

01:14:56,870 --> 01:14:52,080

Northern California in the Redwoods

1736

01:14:59,990 --> 01:14:56,880

um it is crazy remote and wild

1737

01:15:02,810 --> 01:15:00,000

um humans have no dominance that no

1738

01:15:05,810 --> 01:15:02,820

that's mother nature for sure

1739

01:15:08,149 --> 01:15:05,820

um what's uh what do you think where

1740

01:15:10,610 --> 01:15:08,159

where are you on the fence with Bigfoot

1741

01:15:13,370 --> 01:15:10,620

exactly as you said on the fence

1742

01:15:14,510 --> 01:15:13,380

um I I am on the fence so I think I have

1743

01:15:17,030 --> 01:15:14,520

a huge amount of respect for Jeff

1744

01:15:18,890 --> 01:15:17,040

Meldrum and uh for for some of the other

1745

01:15:21,890 --> 01:15:18,900

researchers that describe the you know

1746

01:15:23,930 --> 01:15:21,900

the foot patterns and the the some of

1747

01:15:25,970 --> 01:15:23,940

the some of the um

1748

01:15:27,649 --> 01:15:25,980

marks that have been found you know the

1749

01:15:30,649 --> 01:15:27,659

ridge lines and everything and you can

1750

01:15:33,709 --> 01:15:30,659

see the the prints on the toes

1751

01:15:35,030 --> 01:15:33,719

um I'm sorry the dermal ridges on the

1752

01:15:36,470 --> 01:15:35,040

feet

1753

01:15:38,810 --> 01:15:36,480

um

1754

01:15:40,070 --> 01:15:38,820

yeah and then I just look at the Patty

1755

01:15:42,169 --> 01:15:40,080

footage I mean I look at the Patterson

1756

01:15:44,209 --> 01:15:42,179

gimlin footage and I still go back to

1757

01:15:47,390 --> 01:15:44,219

that and I cannot explain that it

1758

01:15:49,790 --> 01:15:47,400

doesn't it just doesn't feel like a

1759

01:15:51,790 --> 01:15:49,800

person in a suit to me it does feel like

1760

01:15:54,709 --> 01:15:51,800

you are looking at an unknown creature

1761

01:15:58,370 --> 01:15:54,719

and uh or an undescribed

1762

01:16:01,149 --> 01:15:58,380

um creature so I would not write it off

1763

01:16:03,890 --> 01:16:01,159

I think every year that goes by without

1764

01:16:06,950 --> 01:16:03,900

stronger evidence it makes it harder and

1765

01:16:09,110 --> 01:16:06,960

harder to say definitively that there is

1766

01:16:11,450 --> 01:16:09,120

uh that there is a creature Behind These

1767

01:16:13,070 --> 01:16:11,460

but was there at some point

1768

01:16:16,370 --> 01:16:13,080

um I'd have an easier time saying that

1769

01:16:17,990 --> 01:16:16,380

there was than there is but I'm still on

1770

01:16:21,470 --> 01:16:18,000

the fence with it I haven't seen I

1771

01:16:23,149 --> 01:16:21,480

haven't seen definitive evidence

1772

01:16:26,330 --> 01:16:23,159

um you know I've seen a lot of DNA

1773

01:16:28,610 --> 01:16:26,340

samples that come back as unknown or

1774

01:16:30,530 --> 01:16:28,620

contaminated but nothing really that

1775

01:16:31,970 --> 01:16:30,540

comes back and points to you know all of

1776

01:16:34,250 --> 01:16:31,980

these are coming back as the same

1777

01:16:39,290 --> 01:16:34,260

unknown or this is all coming back as

1778

01:16:43,850 --> 01:16:39,300

you know a on identified creature so I

1779

01:16:47,510 --> 01:16:43,860

if the UFO Community had a piece of

1780

01:16:50,149 --> 01:16:47,520

footage that was as definitive as the

1781

01:16:51,229 --> 01:16:50,159

Patterson gimlin film it would be case

1782

01:16:52,370 --> 01:16:51,239

close

1783

01:16:55,490 --> 01:16:52,380

done

1784

01:16:57,709 --> 01:16:55,500

and but yet and you just said it

1785

01:17:00,290 --> 01:16:57,719

yourself right you watch the Patterson

1786

01:17:03,050 --> 01:17:00,300

gimlin film but you're still on the

1787

01:17:06,110 --> 01:17:03,060

fence it doesn't

1788

01:17:09,470 --> 01:17:06,120

because I I think it's because I'm the

1789

01:17:12,229 --> 01:17:09,480

same as you Pat I'm the exact I have

1790

01:17:14,870 --> 01:17:12,239

said the exact same words that you have

1791

01:17:17,570 --> 01:17:14,880

just spoken and it sounds hypocritical

1792

01:17:19,310 --> 01:17:17,580

it sounds paradoxical

1793

01:17:21,709 --> 01:17:19,320

um we're not listening to our own

1794

01:17:24,350 --> 01:17:21,719

statements when we say these things but

1795

01:17:25,310 --> 01:17:24,360

yet we say them the footage isn't

1796

01:17:28,970 --> 01:17:25,320

perfect

1797

01:17:31,430 --> 01:17:28,980

and it leaves a lot of questions in your

1798

01:17:33,169 --> 01:17:31,440

mind and those there are logical answers

1799

01:17:35,330 --> 01:17:33,179

to those questions and I've heard those

1800

01:17:37,550 --> 01:17:35,340

answers you know it's why why do we only

1801  
01:17:39,729 --> 01:17:37,560  
have these few seconds why does it cut

1802  
01:17:42,229 --> 01:17:39,739  
away just when it walks off frame why

1803  
01:17:44,030 --> 01:17:42,239  
and you're left with these questions and

1804  
01:17:46,970 --> 01:17:44,040  
it's you know the person who filmed it

1805  
01:17:49,610 --> 01:17:46,980  
was was afraid the person who filmed it

1806  
01:17:51,050 --> 01:17:49,620  
was on you know a a an old handheld

1807  
01:17:52,490 --> 01:17:51,060  
camera that you know this this kind of

1808  
01:17:54,950 --> 01:17:52,500  
shakiness they didn't have that much

1809  
01:17:56,870 --> 01:17:54,960  
film left uh there are all answers to

1810  
01:18:00,110 --> 01:17:56,880  
these questions but it still leaves

1811  
01:18:02,450 --> 01:18:00,120  
something to be desired like it's not I

1812  
01:18:04,430 --> 01:18:02,460  
am because it's not a body it's a damn

1813  
01:18:06,709 --> 01:18:04,440

good piece of footage it is it is it's

1814

01:18:09,709 --> 01:18:06,719

the best that we've got absolutely it's

1815

01:18:11,810 --> 01:18:09,719

crazy and okay you know what okay let me

1816

01:18:14,930 --> 01:18:11,820

ask you this let me tell you what does

1817

01:18:18,649 --> 01:18:14,940

it for me in the film all right the

1818

01:18:21,110 --> 01:18:18,659

boobs yeah yeah why why would someone

1819

01:18:25,250 --> 01:18:21,120

who was putting in a hoax have added

1820

01:18:30,050 --> 01:18:25,260

that not only at added perfect right

1821

01:18:33,350 --> 01:18:30,060

right I mean it's the movement it's the

1822

01:18:37,490 --> 01:18:33,360

um and and there is Lance back every

1823

01:18:39,830 --> 01:18:37,500

aspect of it every part of it is it it

1824

01:18:41,450 --> 01:18:39,840

just it it doesn't seem like a person in

1825

01:18:43,370 --> 01:18:41,460

a suit that's all that it is and it's

1826

01:18:45,830 --> 01:18:43,380

it's harder it's it's very hard to

1827

01:18:49,450 --> 01:18:45,840

quantify beyond that yeah and and and

1828

01:18:52,850 --> 01:18:49,460

the muscles reacting right

1829

01:18:56,870 --> 01:18:52,860

when you go and you look at the exact

1830

01:18:59,630 --> 01:18:56,880

same uh time frame

1831

01:19:01,669 --> 01:18:59,640

and you look and and see what was the

1832

01:19:04,790 --> 01:19:01,679

best that Hollywood had absolutely

1833

01:19:08,689 --> 01:19:04,800

Planet of the Apes and the Kubrick right

1834

01:19:11,510 --> 01:19:08,699

2001 and Stanley who is an absolute

1835

01:19:13,970 --> 01:19:11,520

perfectionist we understand that about

1836

01:19:15,770 --> 01:19:13,980

him and he shot the greatest films that

1837

01:19:18,290 --> 01:19:15,780

were ever made

1838

01:19:21,470 --> 01:19:18,300

um still couldn't get it right and you

1839

01:19:22,910 --> 01:19:21,480

watch that section of of 2001 A Space

1840

01:19:24,770 --> 01:19:22,920

Odyssey and you go wow okay it's cool

1841

01:19:28,790 --> 01:19:24,780

but it's still people in Monkey suits

1842

01:19:31,030 --> 01:19:28,800

right yeah for sure but that's not and

1843

01:19:34,550 --> 01:19:31,040

then you have the Patterson gimlin film

1844

01:19:37,189 --> 01:19:34,560

and and they want to attribute that to a

1845

01:19:39,050 --> 01:19:37,199

couple of you know cowboys on Horseback

1846

01:19:40,729 --> 01:19:39,060

that were able to pull that off it

1847

01:19:42,229 --> 01:19:40,739

doesn't make any sense no it doesn't to

1848

01:19:45,770 --> 01:19:42,239

me either

1849

01:19:50,689 --> 01:19:45,780

it doesn't uh how would okay

1850

01:19:53,570 --> 01:19:50,699

how Would Bigfoot uh are they that smart

1851

01:19:56,030 --> 01:19:53,580

now let's okay you're on the fence

1852

01:19:57,950 --> 01:19:56,040

okay I'm not on the same fence as you

1853

01:20:04,130 --> 01:19:57,960

I'm on the fence

1854

01:20:07,970 --> 01:20:04,140

that is avoiding human

1855

01:20:10,430 --> 01:20:07,980

just just a species avoiding humans and

1856

01:20:12,709 --> 01:20:10,440

something that's interdimensional and

1857

01:20:15,110 --> 01:20:12,719

walking through portals and vortexes and

1858

01:20:17,810 --> 01:20:15,120

visiting us that's what I'm on the fence

1859

01:20:20,450 --> 01:20:17,820

in between when you say that you're on

1860

01:20:23,030 --> 01:20:20,460

the fence what are you in between I'm in

1861

01:20:27,050 --> 01:20:23,040

between it being a an actual animal and

1862

01:20:29,330 --> 01:20:27,060

being a uh you know a passed down myth

1863

01:20:31,070 --> 01:20:29,340

and story and something that that's very

1864

01:20:33,890 --> 01:20:31,080

important to different cultures and to

1865

01:20:36,709 --> 01:20:33,900

indigenous groups and something that has

1866

01:20:38,390 --> 01:20:36,719

a lot of historical significance but is

1867

01:20:40,850 --> 01:20:38,400

not a real Flesh and Blood creature like

1868

01:20:43,430 --> 01:20:40,860

like a Thunderbird a Thunderbird is an

1869

01:20:46,490 --> 01:20:43,440

incredibly important animal to certain

1870

01:20:49,550 --> 01:20:46,500

groups of of people but there is no

1871

01:20:51,110 --> 01:20:49,560

evidence belief Etc even those groups

1872

01:20:53,030 --> 01:20:51,120

would say that this is a spirit animal

1873

01:20:54,050 --> 01:20:53,040

it is not a real Flesh and Blood

1874

01:20:56,030 --> 01:20:54,060

creature

1875

01:21:00,229 --> 01:20:56,040

have you seen a Bigfoot print yourself

1876

01:21:04,070 --> 01:21:00,239

yeah okay so have I and

1877

01:21:06,050 --> 01:21:04,080

um and before I saw the Bigfoot print

1878

01:21:08,870 --> 01:21:06,060

I wasn't a believer

1879

01:21:11,450 --> 01:21:08,880

okay I wasn't even even after the

1880

01:21:14,149 --> 01:21:11,460

Patterson gimlin film and doing the

1881

01:21:15,370 --> 01:21:14,159

thousands of shows and everything I was

1882

01:21:18,050 --> 01:21:15,380

like

1883

01:21:20,990 --> 01:21:18,060

and then I saw my first Bigfoot print

1884

01:21:22,970 --> 01:21:21,000

and I've never seen one in the wild I've

1885

01:21:24,350 --> 01:21:22,980

seen them like at conferences and I've

1886

01:21:26,570 --> 01:21:24,360

seen the cast and things like that no

1887

01:21:29,030 --> 01:21:26,580

I've never I've never found one I saw

1888

01:21:30,890 --> 01:21:29,040

one in the wild that's amazing well I

1889

01:21:33,709 --> 01:21:30,900

didn't make the discovery some kids did

1890

01:21:36,830 --> 01:21:33,719

uh we were with a group and and they

1891

01:21:38,450 --> 01:21:36,840

came up to me and said hey Jimmy um you

1892

01:21:40,610 --> 01:21:38,460

want to see a big footprint I was like

1893

01:21:43,310 --> 01:21:40,620

man kid don't bother me man

1894

01:21:46,669 --> 01:21:43,320

go over there no I don't want to go see

1895

01:21:50,330 --> 01:21:46,679

no Bigfoot print you know to me you're

1896

01:21:52,090 --> 01:21:50,340

trying over there no no I'm busy man

1897

01:21:55,850 --> 01:21:52,100

right

1898

01:21:57,830 --> 01:21:55,860

and and I walked over and looked down

1899

01:22:01,430 --> 01:21:57,840

dude

1900

01:22:04,250 --> 01:22:01,440

this deep in the ground yeah in in the

1901

01:22:06,649 --> 01:22:04,260

grass and I'm looking at it I put my

1902

01:22:10,310 --> 01:22:06,659

foot up next to it now I'm I'm six foot

1903

01:22:13,070 --> 01:22:10,320

200 pounds 200 plus I'm not making a

1904

01:22:15,290 --> 01:22:13,080

dent in this grass right right I'm

1905

01:22:17,870 --> 01:22:15,300

looking down at this fresh print and

1906

01:22:20,570 --> 01:22:17,880

it's this deep is that that deep where

1907

01:22:23,590 --> 01:22:20,580

where uh this is in Washington uh right

1908

01:22:26,930 --> 01:22:23,600

right off the Columbia River yeah yeah

1909

01:22:29,450 --> 01:22:26,940

and uh wow and we ended up finding four

1910

01:22:33,590 --> 01:22:29,460

in an arch

1911

01:22:37,990 --> 01:22:33,600

um and now this is where okay so this is

1912

01:22:44,149 --> 01:22:38,000

where I go interdimensional on you

1913

01:22:47,450 --> 01:22:44,159

there were no prints before or after

1914

01:22:49,729 --> 01:22:47,460

right we we searched in this field right

1915

01:22:51,290 --> 01:22:49,739

now we found the four and then we're

1916

01:22:53,870 --> 01:22:51,300

just kind of curving left right left

1917

01:22:57,229 --> 01:22:53,880

right right and they did they were like

1918

01:23:00,290 --> 01:22:57,239

six feet apart by the way and I'm gonna

1919

01:23:03,050 --> 01:23:00,300

wow I'm gonna guess and say

1920

01:23:06,410 --> 01:23:03,060

what's that a foot and a half I think

1921

01:23:09,169 --> 01:23:06,420

they were quite two feet long

1922

01:23:11,450 --> 01:23:09,179

um I'll show you pictures later

1923

01:23:14,110 --> 01:23:11,460

um but but anyway

1924

01:23:18,590 --> 01:23:14,120

it looked like dude just dropped off

1925

01:23:21,590 --> 01:23:18,600

right it's like like appeared and then

1926

01:23:24,169 --> 01:23:21,600

took a couple of steps and then vanished

1927

01:23:26,030 --> 01:23:24,179

yeah that doesn't make any sense and

1928

01:23:27,189 --> 01:23:26,040

that's where I go man is is there

1929

01:23:32,450 --> 01:23:27,199

something

1930

01:23:35,630 --> 01:23:32,460

interdimensional am I really going into

1931

01:23:39,169 --> 01:23:35,640

the Zone but that's what that's what the

1932

01:23:42,649 --> 01:23:39,179

evidence kind of shows me here is is

1933

01:23:45,050 --> 01:23:42,659

that is that visiting Crazy Town no no

1934

01:23:47,270 --> 01:23:45,060

no I mean so I I have I have seen other

1935

01:23:49,250 --> 01:23:47,280

animals have that as well I mean it

1936

01:23:51,350 --> 01:23:49,260

depends on the Topography of the land it

1937

01:23:52,970 --> 01:23:51,360

depends on uh you know the way that they

1938

01:23:54,770 --> 01:23:52,980

were moving it depends on the the

1939

01:23:56,630 --> 01:23:54,780

footfalls you know how heavy they were

1940

01:23:59,209 --> 01:23:56,640

how light they were how wet the ground

1941

01:24:00,169 --> 01:23:59,219

was and that can change from one step to

1942

01:24:02,209 --> 01:24:00,179

the next

1943

01:24:05,149 --> 01:24:02,219

so I I mean I I wouldn't think that that

1944

01:24:07,070 --> 01:24:05,159

would I would not go towards that

1945

01:24:08,630 --> 01:24:07,080

direction just based on only finding a

1946

01:24:13,270 --> 01:24:08,640

few prints in one spot

1947

01:24:17,689 --> 01:24:15,950

Chewbacca from from Star Wars yeah yeah

1948

01:24:19,970 --> 01:24:17,699

absolutely yeah

1949

01:24:22,970 --> 01:24:19,980

she's supposed to be a great guy that's

1950

01:24:26,810 --> 01:24:22,980

supposed to be a great guy and uh yeah I

1951

01:24:30,110 --> 01:24:26,820

I can't figure that part out where

1952

01:24:32,630 --> 01:24:30,120

um so there's the the community is so

1953

01:24:34,490 --> 01:24:32,640

big and

1954

01:24:36,709 --> 01:24:34,500

um and and talking to these different

1955

01:24:39,050 --> 01:24:36,719

Bigfoot researchers and Witnesses and

1956

01:24:41,870 --> 01:24:39,060

friends of mine oh yeah and have told

1957

01:24:44,510 --> 01:24:41,880

their stories I mean I mean have nothing

1958

01:24:46,550 --> 01:24:44,520

to do with this community but it seems

1959

01:24:48,050 --> 01:24:46,560

like everybody's got a Bigfoot story and

1960

01:24:51,770 --> 01:24:48,060

they have seen something out of the wild

1961

01:24:54,590 --> 01:24:51,780

that they can't explain and I I I I

1962

01:24:57,590 --> 01:24:54,600

don't know uh this is something I'm

1963

01:25:00,350 --> 01:24:57,600

trying to figure out so I think there's

1964

01:25:01,910 --> 01:25:00,360

when there is such a large community I

1965

01:25:04,189 --> 01:25:01,920

think you are more likely to get some

1966

01:25:07,070 --> 01:25:04,199

mistaken identity so there are some

1967

01:25:08,750 --> 01:25:07,080

people who see a Grizzly or see you know

1968

01:25:09,950 --> 01:25:08,760

something else I mean people see house

1969

01:25:12,290 --> 01:25:09,960

cats and think that they're mountain

1970

01:25:13,669 --> 01:25:12,300

lions this happens a lot it's very well

1971

01:25:15,530 --> 01:25:13,679

documented

1972

01:25:16,610 --> 01:25:15,540

um people who aren't used to seeing

1973

01:25:22,550 --> 01:25:16,620

animals

1974

01:25:24,050 --> 01:25:22,560

your mind jumps to other conclusions

1975

01:25:25,790 --> 01:25:24,060

um but all there needs to be is one real

1976

01:25:28,850 --> 01:25:25,800

sighting there needs to be one real one

1977

01:25:30,350 --> 01:25:28,860

and there's enough people who have a lot

1978

01:25:33,709 --> 01:25:30,360

of experience with Wildlife you know

1979

01:25:36,350 --> 01:25:33,719

between hunters and uh biologists and

1980

01:25:38,270 --> 01:25:36,360

field researchers and Bigfoot

1981

01:25:39,950 --> 01:25:38,280

researchers who know all of the other

1982

01:25:43,490 --> 01:25:39,960

animals in the area

1983

01:25:45,050 --> 01:25:43,500

um who have seen something that that's

1984

01:25:47,450 --> 01:25:45,060

that's why I'm on the fence that's why

1985

01:25:49,550 --> 01:25:47,460

you know it's it's hard

1986

01:25:51,830 --> 01:25:49,560

it's hard to say why we don't have

1987

01:25:54,050 --> 01:25:51,840

better evidence right now but it's also

1988

01:25:55,189 --> 01:25:54,060

just as hard to say well what are people

1989

01:25:59,350 --> 01:25:55,199

seeing

1990

01:26:02,390 --> 01:25:59,360

that well I can bring up the panda

1991

01:26:04,910 --> 01:26:02,400

right oh yeah I mean in any any any of

1992

01:26:07,250 --> 01:26:04,920

the forested areas that we describe it a

1993

01:26:09,709 --> 01:26:07,260

body is not going to last very long

1994

01:26:11,090 --> 01:26:09,719

um like we you know you don't find dead

1995

01:26:12,970 --> 01:26:11,100

gorillas I've been in the Central

1996

01:26:16,070 --> 01:26:12,980

African Republic the Congo and the car

1997

01:26:17,510 --> 01:26:16,080

you don't find dead primates

1998

01:26:20,149 --> 01:26:17,520

um you know they're they're the bones

1999

01:26:22,310 --> 01:26:20,159

are gone very very shortly after they

2000

01:26:23,270 --> 01:26:22,320

die so it's not even that type of

2001

01:26:26,090 --> 01:26:23,280

evidence

2002

01:26:28,550 --> 01:26:26,100

um it's very difficult to get a photo of

2003

01:26:30,050 --> 01:26:28,560

an animal in the wild um unless you know

2004

01:26:31,490 --> 01:26:30,060

exactly what you're targeting and where

2005

01:26:34,370 --> 01:26:31,500

it's going to be you know Nat Geo

2006

01:26:36,169 --> 01:26:34,380

photographers spend days to get one

2007

01:26:38,689 --> 01:26:36,179

photo of a bird

2008

01:26:41,689 --> 01:26:38,699

no goes to this area and is exactly what

2009

01:26:43,729 --> 01:26:41,699

they want to see so I I mean it's not

2010

01:26:45,530 --> 01:26:43,739

yeah that's that's why it's still still

2011

01:26:46,629 --> 01:26:45,540

on the fence I think

2012

01:26:50,689 --> 01:26:46,639

um

2013

01:26:52,870 --> 01:26:50,699

it's there's such a big creature

2014

01:26:56,209 --> 01:26:52,880

and

2015

01:26:56,990 --> 01:26:56,219

spotted so frequently

2016

01:26:59,450 --> 01:26:57,000

um

2017

01:27:04,750 --> 01:26:59,460

I would think that we would

2018

01:27:08,330 --> 01:27:04,760

have better evidence right now at least

2019

01:27:10,430 --> 01:27:08,340

droppings and hair and other things that

2020

01:27:12,709 --> 01:27:10,440

we could definitively point to one

2021

01:27:14,149 --> 01:27:12,719

unidentified species and say yes you

2022

01:27:16,550 --> 01:27:14,159

know even though we haven't seen it this

2023

01:27:18,169 --> 01:27:16,560

is all from the same species and the

2024

01:27:19,490 --> 01:27:18,179

fact that we don't have that just makes

2025

01:27:22,070 --> 01:27:19,500

me think

2026

01:27:24,110 --> 01:27:22,080

you know why why don't we have that and

2027

01:27:25,970 --> 01:27:24,120

then it's the classic you know absence

2028

01:27:29,470 --> 01:27:25,980

of evidence is not evidence of absence

2029

01:27:35,149 --> 01:27:32,750

so it wouldn't surprise you it would not

2030

01:27:38,330 --> 01:27:35,159

it would not surprise we just could be

2031

01:27:42,649 --> 01:27:38,340

very excited yeah yeah

2032

01:27:45,050 --> 01:27:42,659

um what about the connection

2033

01:27:47,810 --> 01:27:45,060

um and again only because you're a punk

2034

01:27:51,590 --> 01:27:47,820

bass player you can appreciate this but

2035

01:27:54,229 --> 01:27:51,600

what about the connection it seems uh

2036

01:27:59,090 --> 01:27:54,239

that we hear

2037

01:28:03,110 --> 01:27:59,100

a lot about a UFO sighting and a Bigfoot

2038

01:28:05,450 --> 01:28:03,120

sighting happening at the same time two

2039

01:28:08,090 --> 01:28:05,460

different groups of people one is seeing

2040

01:28:12,590 --> 01:28:08,100

uh you know lights in the sky the same

2041

01:28:15,169 --> 01:28:12,600

night we've got a a Bigfoot report from

2042

01:28:16,669 --> 01:28:15,179

another group of people and it's

2043

01:28:19,250 --> 01:28:16,679

suddenly now the Bigfoot Community

2044

01:28:22,149 --> 01:28:19,260

doesn't want to join the UFO Community

2045

01:28:25,070 --> 01:28:22,159

that's very true that's very true

2046

01:28:27,890 --> 01:28:25,080

new new new

2047

01:28:31,010 --> 01:28:27,900

um the UFO Community is okay with it but

2048

01:28:33,290 --> 01:28:31,020

but the Bigfoot Community they want to

2049

01:28:36,770 --> 01:28:33,300

stay they want to stay unconnected here

2050

01:28:39,169 --> 01:28:36,780

but but it appears that there may be a

2051

01:28:41,689 --> 01:28:39,179

connection why do you think that we're

2052

01:28:43,610 --> 01:28:41,699

hearing uh these reports going on at the

2053

01:28:45,830 --> 01:28:43,620

same time so I wonder if it could be um

2054

01:28:49,250 --> 01:28:45,840

could be something to do with location I

2055

01:28:51,350 --> 01:28:49,260

mean you're in too fairly isolated

2056

01:28:54,229 --> 01:28:51,360

um you know locations where you can get

2057

01:28:56,209 --> 01:28:54,239

a really great view of the sky and where

2058

01:28:58,010 --> 01:28:56,219

it's going to be a really wild space so

2059

01:28:59,330 --> 01:28:58,020

you're more likely to see you know some

2060

01:29:02,209 --> 01:28:59,340

kind of large creature that's in the

2061

01:29:04,430 --> 01:29:02,219

wilderness they just happen to be in the

2062

01:29:07,610 --> 01:29:04,440

same type of location

2063

01:29:11,030 --> 01:29:07,620

um and people are out looking for both

2064

01:29:14,689 --> 01:29:11,040

things at the same at the same place now

2065

01:29:17,810 --> 01:29:14,699

World Bigfoot radio DNA yeah yeah can we

2066

01:29:21,530 --> 01:29:17,820

address this uh a little bit here

2067

01:29:23,870 --> 01:29:21,540

and so uh everything it's a very very

2068

01:29:26,030 --> 01:29:23,880

contentious topic and I'm hesitant to

2069

01:29:28,850 --> 01:29:26,040

really weigh in

2070

01:29:32,570 --> 01:29:28,860

um I I think that everything that I have

2071

01:29:35,570 --> 01:29:32,580

read on it is that the um the DNA has

2072

01:29:39,350 --> 01:29:35,580

always been inconclusive and it's been

2073

01:29:42,709 --> 01:29:39,360

unable to tie to one distinct species

2074

01:29:45,050 --> 01:29:42,719

that we do get back like it's similar to

2075

01:29:47,030 --> 01:29:45,060

there has been a few findings where

2076  
01:29:49,610 --> 01:29:47,040  
they've said okay we've found some DNA

2077  
01:29:51,890 --> 01:29:49,620  
that's similar to a human but it's not

2078  
01:29:53,930 --> 01:29:51,900  
human and then when another researcher

2079  
01:29:55,669 --> 01:29:53,940  
looks at the same sample they go nah

2080  
01:29:57,530 --> 01:29:55,679  
it's not or another researcher looks at

2081  
01:30:00,709 --> 01:29:57,540  
and goes yeah it's just human

2082  
01:30:03,290 --> 01:30:00,719  
so I think that um there has been some

2083  
01:30:05,810 --> 01:30:03,300  
contamination issues with some of the

2084  
01:30:07,370 --> 01:30:05,820  
samples and the Ketchum study in

2085  
01:30:09,530 --> 01:30:07,380  
particular I know

2086  
01:30:11,390 --> 01:30:09,540  
um has been contentious let's say

2087  
01:30:14,330 --> 01:30:11,400  
there's not there's not Universal

2088  
01:30:16,970 --> 01:30:14,340

acceptance of uh it's not a

2089

01:30:20,209 --> 01:30:16,980

peer-reviewed universal accepted well

2090

01:30:24,950 --> 01:30:23,510

um I'd have to do you I I don't know if

2091

01:30:28,430 --> 01:30:24,960

you're running for a political office

2092

01:30:30,290 --> 01:30:28,440

but you should be because I'd have to I

2093

01:30:33,229 --> 01:30:30,300

would honestly have to dig into it more

2094

01:30:36,709 --> 01:30:33,239

before I be that was a dance man that

2095

01:30:39,169 --> 01:30:36,719

was a dance so I I will say the um the

2096

01:30:41,390 --> 01:30:39,179

one the the yeti samples I think are

2097

01:30:44,270 --> 01:30:41,400

more compelling so there there was the

2098

01:30:46,850 --> 01:30:44,280

study uh just a few years ago where they

2099

01:30:49,250 --> 01:30:46,860

found the yeti hairs that were that were

2100

01:30:50,810 --> 01:30:49,260

tied back to uh polar bear

2101  
01:30:52,250 --> 01:30:50,820  
and they actually said that this is a

2102  
01:30:54,709 --> 01:30:52,260  
species of polar bear that they thought

2103  
01:30:57,709 --> 01:30:54,719  
had gone extinct um something like 10

2104  
01:31:01,729 --> 01:30:57,719  
000 years ago and then the same samples

2105  
01:31:04,669 --> 01:31:01,739  
were retested and it was found to be

2106  
01:31:06,590 --> 01:31:04,679  
um at least very very closely related to

2107  
01:31:10,370 --> 01:31:06,600  
a Nepalese bear

2108  
01:31:13,490 --> 01:31:10,380  
and I think that those are the chain of

2109  
01:31:15,530 --> 01:31:13,500  
custody was better on those and they are

2110  
01:31:18,950 --> 01:31:15,540  
more compelling to me to say that you

2111  
01:31:20,930 --> 01:31:18,960  
know could the yeti be a species of bear

2112  
01:31:22,910 --> 01:31:20,940  
um I think it could I think that a lot

2113  
01:31:25,669 --> 01:31:22,920

of the sightings could tie that to a

2114

01:31:27,350 --> 01:31:25,679

species of bear that's either

2115

01:31:29,330 --> 01:31:27,360

you know something that that we

2116

01:31:33,770 --> 01:31:29,340

previously thought went extinct or a new

2117

01:31:34,370 --> 01:31:33,780

species of bear why is it that

2118

01:31:38,990 --> 01:31:34,380

um

2119

01:31:42,169 --> 01:31:39,000

uh something can take off as quick as it

2120

01:31:45,050 --> 01:31:42,179

does like for instance chupacabra right

2121

01:31:49,310 --> 01:31:45,060

you brought up Thunderbirds I was alive

2122

01:31:52,129 --> 01:31:49,320

I think I'm older than you I'm 43. okay

2123

01:31:54,530 --> 01:31:52,139

I'm 60. so all right you don't look it I

2124

01:31:57,890 --> 01:31:54,540

would not have guessed that I

2125

01:32:00,709 --> 01:31:57,900

I lived the Thunderbird era yeah okay I

2126  
01:32:04,729 --> 01:32:00,719  
was in Indiana when the the photographs

2127  
01:32:06,530 --> 01:32:04,739  
and the the films and the the sightings

2128  
01:32:09,110 --> 01:32:06,540  
were taking place and it was on the news

2129  
01:32:11,990 --> 01:32:09,120  
it was on the newspaper and and suddenly

2130  
01:32:13,790 --> 01:32:12,000  
me and my buddies are out in corn fields

2131  
01:32:17,390 --> 01:32:13,800  
you know looking for the Thunderbird

2132  
01:32:19,370 --> 01:32:17,400  
yeah um I I lived through that and and

2133  
01:32:21,709 --> 01:32:19,380  
very compelling

2134  
01:32:24,129 --> 01:32:21,719  
um and it it just took off man it went

2135  
01:32:28,189 --> 01:32:24,139  
viral in its own way

2136  
01:32:32,570 --> 01:32:28,199  
chupacabra did the exact same thing

2137  
01:32:36,110 --> 01:32:32,580  
um now is is that cryptozoology or is

2138  
01:32:39,050 --> 01:32:36,120

that Fringe folklore you know urban

2139

01:32:40,790 --> 01:32:39,060

legend yeah so chupacabra is is one of

2140

01:32:42,470 --> 01:32:40,800

the one of the rare cases when we can

2141

01:32:44,330 --> 01:32:42,480

point back to the origin of the story

2142

01:32:46,430 --> 01:32:44,340

when we can find that this you know this

2143

01:32:49,550 --> 01:32:46,440

this is folklore it is something that

2144

01:32:50,930 --> 01:32:49,560

was definitively invented and uh and

2145

01:32:52,910 --> 01:32:50,940

made up

2146

01:32:54,890 --> 01:32:52,920

um you know as a as a kind of Campfire

2147

01:32:57,169 --> 01:32:54,900

Story which which is great and and I

2148

01:32:59,810 --> 01:32:57,179

think chupacabra is is very interesting

2149

01:33:01,689 --> 01:32:59,820

for that and it's a great story

2150

01:33:05,209 --> 01:33:01,699

um and I think it takes off because

2151

01:33:07,250 --> 01:33:05,219

people tie it then to other events so

2152

01:33:08,689 --> 01:33:07,260

like the the cows you know the cows

2153

01:33:09,830 --> 01:33:08,699

being found with with their blood

2154

01:33:11,930 --> 01:33:09,840

drained

2155

01:33:13,669 --> 01:33:11,940

um people can then take that and they've

2156

01:33:14,930 --> 01:33:13,679

heard that they've heard the chupacabra

2157

01:33:16,430 --> 01:33:14,940

they can tie it together and it's

2158

01:33:19,070 --> 01:33:16,440

something that's fun to talk about and

2159

01:33:22,550 --> 01:33:19,080

something that's fun to uh to speculate

2160

01:33:23,770 --> 01:33:22,560

on so and and that happens a lot when

2161

01:33:25,910 --> 01:33:23,780

we're talking about

2162

01:33:27,950 --> 01:33:25,920

different different Legends and

2163

01:33:29,750 --> 01:33:27,960

different stories that um just kind of

2164

01:33:32,450 --> 01:33:29,760

tap into something Primal in our

2165

01:33:35,390 --> 01:33:32,460

Consciousness you know every culture has

2166

01:33:37,669 --> 01:33:35,400

story of Harry hominids from uh you know

2167

01:33:40,970 --> 01:33:37,679

from the yaoi in Australia to the yarin

2168

01:33:43,189 --> 01:33:40,980

in China to the Rock Apes in Vietnam to

2169

01:33:45,169 --> 01:33:43,199

you know we can go through all these and

2170

01:33:48,709 --> 01:33:45,179

there's something Primal you know some

2171

01:33:50,870 --> 01:33:48,719

kind of tribal memory in us to remember

2172

01:33:53,689 --> 01:33:50,880

a time when there were multiple species

2173

01:33:55,970 --> 01:33:53,699

of hominid uh living together you know

2174

01:33:58,550 --> 01:33:55,980

upwards of six to eight different

2175

01:34:01,250 --> 01:33:58,560

species of humans living together and

2176

01:34:02,990 --> 01:34:01,260

coexisting at some points in history

2177

01:34:06,410 --> 01:34:03,000

um sometimes more recently than we'd

2178

01:34:10,310 --> 01:34:06,420

like to think is is it it's uh not

2179

01:34:13,070 --> 01:34:10,320

chupacabra but Bigfoot specifically

2180

01:34:18,070 --> 01:34:13,080

um where you have everything from you

2181

01:34:23,209 --> 01:34:18,080

know snowmen in in yeah in the Himalayas

2182

01:34:26,930 --> 01:34:23,219

uh to skunk a you know in Florida right

2183

01:34:30,590 --> 01:34:26,940

where that this is this is transoceanic

2184

01:34:34,070 --> 01:34:30,600

this is every culture uh having the same

2185

01:34:35,750 --> 01:34:34,080

sighting way before we had uh telephones

2186

01:34:37,910 --> 01:34:35,760

yes

2187

01:34:40,490 --> 01:34:37,920

um so there there certainly seems to be

2188

01:34:43,189 --> 01:34:40,500

something going on and I I don't think

2189

01:34:44,570 --> 01:34:43,199

it's necessarily again you know I'm

2190

01:34:47,810 --> 01:34:44,580

somebody that's supposed to be on the

2191

01:34:50,990 --> 01:34:47,820

fence but I'm talking myself into this

2192

01:34:52,510 --> 01:34:51,000

constantly right where there this this

2193

01:34:57,530 --> 01:34:52,520

can't be

2194

01:35:00,050 --> 01:34:57,540

uh memory contamination in our DNA this

2195

01:35:03,410 --> 01:35:00,060

can't be just like dreams of a distant

2196

01:35:08,270 --> 01:35:03,420

past this can't be Deja Vu this is all

2197

01:35:10,310 --> 01:35:08,280

very sent uh up up to this very day that

2198

01:35:11,990 --> 01:35:10,320

these sightings are happening and we and

2199

01:35:14,510 --> 01:35:12,000

we can't seem to figure it out I don't

2200

01:35:17,090 --> 01:35:14,520

think it's deep-rooted psychosis I I

2201

01:35:19,729 --> 01:35:17,100

don't no no I don't think it's psychosis

2202

01:35:23,689 --> 01:35:19,739

um but I mean I think that there is

2203

01:35:26,390 --> 01:35:23,699

a a cultural archetype of the the Harry

2204

01:35:29,090 --> 01:35:26,400

hominid that um that has been persistent

2205

01:35:30,410 --> 01:35:29,100

throughout all of human history all of

2206

01:35:32,149 --> 01:35:30,420

recorded history you know you can go all

2207

01:35:34,850 --> 01:35:32,159

the way back to uh

2208

01:35:37,010 --> 01:35:34,860

uh Grendel

2209

01:35:39,110 --> 01:35:37,020

you know back in the the earliest

2210

01:35:41,270 --> 01:35:39,120

stories that we know of um you know

2211

01:35:44,149 --> 01:35:41,280

there there is this cultural archetype

2212

01:35:46,610 --> 01:35:44,159

of the the hairy human the wild man the

2213

01:35:48,709 --> 01:35:46,620

you know this still existing and there's

2214

01:35:52,430 --> 01:35:48,719

so many different reasons for this

2215

01:35:54,229 --> 01:35:52,440

everything from Hermits to uh to actual

2216

01:35:55,810 --> 01:35:54,239

Apes to

2217

01:35:58,970 --> 01:35:55,820

um you know just

2218

01:36:01,970 --> 01:35:58,980

cultural memories of a time when this

2219

01:36:04,490 --> 01:36:01,980

really was there except okay now now

2220

01:36:07,669 --> 01:36:04,500

this is where I give you my accept

2221

01:36:10,790 --> 01:36:07,679

so I got this got this friend golfing

2222

01:36:13,810 --> 01:36:10,800

buddy okay golf yeah I used to play golf

2223

01:36:17,090 --> 01:36:13,820

okay so we're out playing golf one day

2224

01:36:20,149 --> 01:36:17,100

and this is many many years ago 30 years

2225

01:36:22,490 --> 01:36:20,159

ago 25 years ago playing golf and he

2226

01:36:24,890 --> 01:36:22,500

tell I don't know how this happened but

2227

01:36:27,530 --> 01:36:24,900

he tells me this story

2228

01:36:30,110 --> 01:36:27,540

it's a golfer he says man when I was a

2229

01:36:33,649 --> 01:36:30,120

kid uh we'd spend the Summers on our

2230

01:36:35,209 --> 01:36:33,659

Ranch up in Montana and uh my parents

2231

01:36:36,950 --> 01:36:35,219

had Ten Thousand Acres and there was

2232

01:36:38,169 --> 01:36:36,960

this Creek that ran through the the

2233

01:36:41,149 --> 01:36:38,179

ranch

2234

01:36:44,209 --> 01:36:41,159

and uh every morning I would get my

2235

01:36:47,450 --> 01:36:44,219

fishing rod and go down and fish he says

2236

01:36:49,850 --> 01:36:47,460

I'm 12 years old 13 years old and I'm

2237

01:36:52,790 --> 01:36:49,860

down fishing in the creek

2238

01:36:56,450 --> 01:36:52,800

and he said behind us is a hill this

2239

01:36:58,970 --> 01:36:56,460  
embankment and and I'm fishing

2240

01:37:01,490 --> 01:36:58,980  
and this rock

2241

01:37:03,770 --> 01:37:01,500  
lands next to me

2242

01:37:05,930 --> 01:37:03,780  
I was like wow

2243

01:37:10,450 --> 01:37:05,940  
he thought it rolled down the hill on

2244

01:37:17,570 --> 01:37:14,870  
and he he moves up the river

2245

01:37:20,750 --> 01:37:17,580  
to avoid the Falling Rocks from the

2246

01:37:22,430 --> 01:37:20,760  
embankment behind him he thinks loose

2247

01:37:23,870 --> 01:37:22,440  
rocks are rolling down the hill he

2248

01:37:26,390 --> 01:37:23,880  
doesn't want to get hit by one of these

2249

01:37:28,010 --> 01:37:26,400  
bowling ball-sized rocks that are

2250

01:37:31,669 --> 01:37:28,020  
landing next to him

2251

01:37:34,430 --> 01:37:31,679

he's now up the creek literally he's

2252

01:37:38,149 --> 01:37:34,440

fishing and then another

2253

01:37:42,350 --> 01:37:38,159

boom bowling ball site is thrown at him

2254

01:37:45,950 --> 01:37:42,360

he turns around and looks and he said he

2255

01:37:49,189 --> 01:37:45,960

sees from behind the hill shoulders up

2256

01:37:52,669 --> 01:37:49,199

Bigfoot looking at him

2257

01:37:55,010 --> 01:37:52,679

yeah he runs up the hill

2258

01:37:57,410 --> 01:37:55,020

to get to Bigfoot it gets up to the top

2259

01:38:00,229 --> 01:37:57,420

of the hill and down at the end of the

2260

01:38:01,430 --> 01:38:00,239

tree line Bigfoot is dashing into the

2261

01:38:04,910 --> 01:38:01,440

trees

2262

01:38:06,470 --> 01:38:04,920

now that's not

2263

01:38:09,950 --> 01:38:06,480

a hermit

2264

01:38:12,649 --> 01:38:09,960

no Upstate New York no that's not a

2265

01:38:15,050 --> 01:38:12,659

grizzly bear that's not you know it's

2266

01:38:17,149 --> 01:38:15,060

not and and this is just him telling me

2267

01:38:19,189 --> 01:38:17,159

a story

2268

01:38:23,450 --> 01:38:19,199

um and I believe it to be true I believe

2269

01:38:26,090 --> 01:38:23,460

it it happened exactly like he says it

2270

01:38:28,669 --> 01:38:26,100

happened and this is one of millions of

2271

01:38:31,610 --> 01:38:28,679

stories that we have like this yeah from

2272

01:38:33,709 --> 01:38:31,620

very reliable people and from people who

2273

01:38:35,750 --> 01:38:33,719

are hesitant to tell the stories because

2274

01:38:37,850 --> 01:38:35,760

they uh they they don't want you know

2275

01:38:40,669 --> 01:38:37,860

they don't want to get pegged with the

2276

01:38:42,470 --> 01:38:40,679

the you know moniker of this is the this

2277

01:38:45,229 --> 01:38:42,480

is the Bigfoot Guy this is the Bigfoot

2278

01:38:46,970 --> 01:38:45,239

girl yeah no I I've heard I've heard

2279

01:38:49,610 --> 01:38:46,980

similar ones from people that I trust

2280

01:38:51,470 --> 01:38:49,620

and that I I recognize and

2281

01:38:52,970 --> 01:38:51,480

it's it's really hard to say I mean I

2282

01:38:55,370 --> 01:38:52,980

would I would not say that the person is

2283

01:38:57,649 --> 01:38:55,380

a liar I would not say that they're um

2284

01:39:00,290 --> 01:38:57,659

that they're you know making this up but

2285

01:39:01,729 --> 01:39:00,300

I'm also not not ready to jump in and

2286

01:39:03,370 --> 01:39:01,739

say that I believe that there is an

2287

01:39:06,530 --> 01:39:03,380

eight foot tall

2288

01:39:08,450 --> 01:39:06,540

human-like you know Harry hominid in uh

2289

01:39:10,790 --> 01:39:08,460

in North America I just haven't haven't

2290

01:39:14,390 --> 01:39:10,800

seen enough yet so

2291

01:39:17,510 --> 01:39:14,400

you're fishing and you get hit by a

2292

01:39:19,129 --> 01:39:17,520

bowling ball and you turn around and you

2293

01:39:20,689 --> 01:39:19,139

see

2294

01:39:23,750 --> 01:39:20,699

that

2295

01:39:29,290 --> 01:39:23,760

I believe does your story change at 100

2296

01:39:35,330 --> 01:39:32,990

and and but but now you're the crazy

2297

01:39:36,830 --> 01:39:35,340

dude yeah I'm all right with that if I

2298

01:39:38,149 --> 01:39:36,840

if I can back it up and I've seen it

2299

01:39:42,290 --> 01:39:38,159

myself am I right with being the crazy

2300

01:39:45,050 --> 01:39:42,300

dude I heard in Brazil what I believe to

2301

01:39:46,430 --> 01:39:45,060

be a giant ground sloth

2302

01:39:48,110 --> 01:39:46,440

I heard it

2303

01:39:49,790 --> 01:39:48,120

I can't I can't give any other

2304

01:39:51,350 --> 01:39:49,800

explanation for what other animal it

2305

01:39:53,390 --> 01:39:51,360

might have been or for for what it could

2306

01:39:56,450 --> 01:39:53,400

it sounded like a sloth call but much

2307

01:39:58,669 --> 01:39:56,460

deeper and sounded exactly like someone

2308

01:40:00,649 --> 01:39:58,679

who had researched giant ground sloths

2309

01:40:03,890 --> 01:40:00,659

described that their their call would

2310

01:40:07,189 --> 01:40:03,900

have sounded like and I heard it what's

2311

01:40:10,430 --> 01:40:07,199

what's a giant ground sloth uh like a

2312

01:40:13,310 --> 01:40:10,440

six to eight foot tall uh sloth on the

2313

01:40:14,209 --> 01:40:13,320

ground that um you know incredibly thick

2314

01:40:16,430 --> 01:40:14,219

skin

2315

01:40:17,810 --> 01:40:16,440

um dermal uh what's it called like

2316

01:40:20,030 --> 01:40:17,820

patches that that would be almost

2317

01:40:21,649 --> 01:40:20,040

impenetrable even with a knife or with

2318

01:40:22,930 --> 01:40:21,659

most bullets

2319

01:40:25,550 --> 01:40:22,940

um

2320

01:40:27,890 --> 01:40:25,560

essentially essentially bulletproof yeah

2321

01:40:31,010 --> 01:40:27,900

uh ground sloth I mean what we know

2322

01:40:32,629 --> 01:40:31,020

lived in the The Plea scene

2323

01:40:34,070 --> 01:40:32,639

um you know most most people say that

2324

01:40:35,629 --> 01:40:34,080

they went extinct about ten thousand

2325

01:40:37,729 --> 01:40:35,639

years ago we know that some ground

2326

01:40:40,550 --> 01:40:37,739

sloths survived like on the island of

2327

01:40:43,669 --> 01:40:40,560

Hispaniola up until about 900 years ago

2328

01:40:45,290 --> 01:40:43,679

but um I do believe that there's it's

2329

01:40:47,330 --> 01:40:45,300

very possible that there's a Remnant

2330

01:40:51,830 --> 01:40:47,340

population in certain parts of Brazil

2331

01:40:53,270 --> 01:40:51,840

now is the is it a relative of the

2332

01:40:56,570 --> 01:40:53,280

normal sloth

2333

01:40:58,129 --> 01:40:56,580

yes okay now

2334

01:41:00,410 --> 01:40:58,139

um I'm gonna sound like I know what I'm

2335

01:41:01,729 --> 01:41:00,420

talking about but let's lay some facts

2336

01:41:03,229 --> 01:41:01,739

out here when we're talking about the

2337

01:41:05,689 --> 01:41:03,239

sloth

2338

01:41:09,590 --> 01:41:05,699

um slowest metabolism of anything known

2339

01:41:11,930 --> 01:41:09,600

right there up there for sure in the

2340

01:41:17,510 --> 01:41:11,940

known universe right

2341

01:41:21,050 --> 01:41:17,520

um sleeps like 23 and a half hours a day

2342

01:41:23,030 --> 01:41:21,060

uh almost I worked on a slots I I filmed

2343

01:41:24,709 --> 01:41:23,040

on a Sloth Sanctuary in Costa Rica for a

2344

01:41:26,629 --> 01:41:24,719

while they are they're my favorite land

2345

01:41:28,370 --> 01:41:26,639

animals so you know you're like Jimmy

2346

01:41:29,750 --> 01:41:28,380

man you're spitting out the big facts

2347

01:41:33,010 --> 01:41:29,760

here

2348

01:41:36,890 --> 01:41:33,020

um um the slowest I mean

2349

01:41:41,030 --> 01:41:36,900

everything I I would think that in the

2350

01:41:42,950 --> 01:41:41,040

sloths world that they even see in slow

2351  
01:41:45,229 --> 01:41:42,960  
motion

2352  
01:41:47,750 --> 01:41:45,239  
they're pretty amazing animals they're

2353  
01:41:49,729 --> 01:41:47,760  
pretty amazing animals and they yet they

2354  
01:41:52,149 --> 01:41:49,739  
survive right

2355  
01:41:55,189 --> 01:41:52,159  
right literally

2356  
01:41:58,490 --> 01:41:55,199  
like this yeah I always say if you get

2357  
01:42:01,990 --> 01:41:58,500  
bitten by a sloth it's your fault yeah

2358  
01:42:06,709 --> 01:42:02,000  
how is it possible

2359  
01:42:09,770 --> 01:42:06,719  
that a giant ground sloth cannot be

2360  
01:42:12,350 --> 01:42:09,780  
discovered when it doesn't even move a

2361  
01:42:14,330 --> 01:42:12,360  
different diet different um different uh

2362  
01:42:18,050 --> 01:42:14,340  
survival strategy these would be much

2363  
01:42:20,629 --> 01:42:18,060

faster but I think so so it's not like

2364

01:42:22,370 --> 01:42:20,639

it's not no no they're not they're not

2365

01:42:24,169 --> 01:42:22,380

like the I mean they're related to you

2366

01:42:27,590 --> 01:42:24,179

know in the same way that uh a giant

2367

01:42:28,850 --> 01:42:27,600

anteater is related to uh a sloth you

2368

01:42:30,350 --> 01:42:28,860

know these are these would be more

2369

01:42:32,689 --> 01:42:30,360

closely related they would have the same

2370

01:42:35,990 --> 01:42:32,699

kind of claws on the on the feet and on

2371

01:42:38,510 --> 01:42:36,000

the hands but um yeah I mean within the

2372

01:42:41,209 --> 01:42:38,520

same oh God same family

2373

01:42:42,350 --> 01:42:41,219

so giant sloth do they have opposing

2374

01:42:44,990 --> 01:42:42,360

thumbs

2375

01:42:47,290 --> 01:42:45,000

I don't believe so okay all right

2376

01:42:50,030 --> 01:42:47,300

because I'll say maybe it's Bigfoot

2377

01:42:52,669 --> 01:42:50,040

I have heard that I've heard people say

2378

01:42:56,990 --> 01:42:52,679

that I've heard the same thing actually

2379

01:42:59,870 --> 01:42:57,000

um uh but for it to survive and not be

2380

01:43:03,649 --> 01:42:59,880

discovered uh we go down to Brazil all

2381

01:43:06,229 --> 01:43:03,659

the time uh on a daily basis and we

2382

01:43:07,629 --> 01:43:06,239

discover new species it's a job for most

2383

01:43:10,609 --> 01:43:07,639

people

2384

01:43:13,850 --> 01:43:10,619

that's exactly what they do right yeah

2385

01:43:16,250 --> 01:43:13,860

so I so um the areas where this is

2386

01:43:19,390 --> 01:43:16,260

spotted are regions where there are

2387

01:43:22,550 --> 01:43:19,400

uncontacted tribes there are still um

2388

01:43:24,649 --> 01:43:22,560

tribes um individuals indigenous people

2389

01:43:26,090 --> 01:43:24,659

who have no contact with the outside

2390

01:43:28,189 --> 01:43:26,100

world

2391

01:43:29,990 --> 01:43:28,199

um and that they are protected by the

2392

01:43:32,090 --> 01:43:30,000

government where if you wanted to go in

2393

01:43:34,550 --> 01:43:32,100

there you have to get special permission

2394

01:43:36,709 --> 01:43:34,560

um so I was able I had to go through you

2395

01:43:38,930 --> 01:43:36,719

know medical exams and and uh you know

2396

01:43:41,689 --> 01:43:38,940

go through background checks in order to

2397

01:43:44,030 --> 01:43:41,699

see not the uncontacted tribes but the

2398

01:43:46,550 --> 01:43:44,040

you know I forget what the next level of

2399

01:43:47,629 --> 01:43:46,560

it's called the lightly contacted tribes

2400

01:43:49,790 --> 01:43:47,639

um you know and there's still a

2401

01:43:52,609 --> 01:43:49,800

protection to go in there and that this

2402

01:43:55,129 --> 01:43:52,619

is even further beyond that and their

2403

01:43:56,330 --> 01:43:55,139

culture there's a story that has been in

2404

01:43:58,490 --> 01:43:56,340

existence

2405

01:44:01,070 --> 01:43:58,500

since you know the the cultures have

2406

01:44:04,970 --> 01:44:01,080

existed that um what they call the

2407

01:44:07,550 --> 01:44:04,980

mapping guari is uh is this animal that

2408

01:44:09,770 --> 01:44:07,560

is other it is not

2409

01:44:12,410 --> 01:44:09,780

it is different than any other creature

2410

01:44:14,149 --> 01:44:12,420

it can't be eaten it can't

2411

01:44:17,090 --> 01:44:14,159

um you know it can't interact with you

2412

01:44:19,189 --> 01:44:17,100

in any way and it's almost like revering

2413

01:44:22,370 --> 01:44:19,199

this creature to the point where if it

2414

01:44:24,649 --> 01:44:22,380

is seen or heard so if you hear the

2415

01:44:28,070 --> 01:44:24,659

animals call or if you happen to see it

2416

01:44:30,590 --> 01:44:28,080

your entire tribe has to leave that area

2417

01:44:34,370 --> 01:44:30,600

of the forest and move you know miles

2418

01:44:37,430 --> 01:44:34,380

away and never go back there wow so if

2419

01:44:39,470 --> 01:44:37,440

you are an uncontacted tribe and Loosely

2420

01:44:41,750 --> 01:44:39,480

contacted tribes that have government

2421

01:44:44,030 --> 01:44:41,760

protection and have always had this

2422

01:44:47,270 --> 01:44:44,040

protection where no westerners are able

2423

01:44:49,550 --> 01:44:47,280

to go into these areas and you are

2424

01:44:52,129 --> 01:44:49,560

leaving these areas wherever you hear or

2425

01:44:54,050 --> 01:44:52,139

see one of these creatures and in the

2426

01:44:57,109 --> 01:44:54,060

rest of the world these animals were

2427

01:44:58,910 --> 01:44:57,119

hunted to Extinction you're now creating

2428

01:45:11,090 --> 01:44:58,920

a

2429

01:45:13,430 --> 01:45:11,100

um

2430

01:45:15,410 --> 01:45:13,440

I'm saving the best for last

2431

01:45:19,370 --> 01:45:15,420

is there an area on this planet where

2432

01:45:20,290 --> 01:45:19,380

dinosaurs have survived so wait wait

2433

01:45:23,390 --> 01:45:20,300

wait

2434

01:45:25,729 --> 01:45:23,400

no no no no that's not my question okay

2435

01:45:28,070 --> 01:45:25,739

is there an area on this planet where

2436

01:45:32,090 --> 01:45:28,080

dinosaurs have survived number one and

2437

01:45:34,850 --> 01:45:32,100

number two what about dragons

2438

01:45:37,030 --> 01:45:34,860

so the first one is every bird that we

2439

01:45:39,530 --> 01:45:37,040

see is a dinosaur

2440

01:45:41,090 --> 01:45:39,540

so yes dinosaurs have absolutely

2441

01:45:42,350 --> 01:45:41,100

survived

2442

01:45:44,090 --> 01:45:42,360

um we can see you know you look at an

2443

01:45:47,090 --> 01:45:44,100

ostrich's legs and tell me that that's

2444

01:45:48,590 --> 01:45:47,100

not a dinosaur so theropod dinosaurs

2445

01:45:52,910 --> 01:45:48,600

um did evolve into all of the bird

2446

01:45:55,790 --> 01:45:52,920

species that we see today so uh and the

2447

01:45:59,090 --> 01:45:55,800

um oh there's one in Brazil that still

2448

01:46:01,609 --> 01:45:59,100

has uh The Remnant claws on its wings I

2449

01:46:03,770 --> 01:46:01,619

mean so absolutely

2450

01:46:06,109 --> 01:46:03,780

um those are when we think about the

2451

01:46:07,970 --> 01:46:06,119

dinosaurs how you know an eight-year-old

2452

01:46:10,609 --> 01:46:07,980

would describe a dinosaur you know when

2453

01:46:12,050 --> 01:46:10,619

my daughter is obsessed with Dinosaurs

2454

01:46:13,729 --> 01:46:12,060

my son is really getting obsessed with

2455

01:46:16,129 --> 01:46:13,739

Dinosaurs something that they would

2456

01:46:18,590 --> 01:46:16,139

consider a dinosaur no there's nothing

2457

01:46:21,470 --> 01:46:18,600

that has survived to the to the present

2458

01:46:24,530 --> 01:46:21,480

day um I was in West Africa looking for

2459

01:46:28,129 --> 01:46:24,540

mokele and bembe and um looking down

2460

01:46:30,530 --> 01:46:28,139

there to see you know what this um where

2461

01:46:33,770 --> 01:46:30,540

this story could have come from and I do

2462

01:46:36,890 --> 01:46:33,780

believe that it's you know an important

2463

01:46:39,050 --> 01:46:36,900

um cultural story and I think it's a uh

2464

01:46:41,570 --> 01:46:39,060

it's important to the tribes in the area

2465

01:46:44,209 --> 01:46:41,580

because it is an out it is a culturally

2466

01:46:46,310 --> 01:46:44,219

accepted out from doing certain

2467

01:46:48,410 --> 01:46:46,320

dangerous activities

2468

01:46:51,410 --> 01:46:48,420

um and what I mean by that is if you're

2469

01:46:52,850 --> 01:46:51,420

a fisherman in one of these tribes and

2470

01:46:54,770 --> 01:46:52,860

you don't want to go down to the river

2471

01:46:57,470 --> 01:46:54,780

at night because there are crocodiles

2472

01:46:58,669 --> 01:46:57,480

there then you're looked at as weak but

2473

01:47:00,169 --> 01:46:58,679

if you don't want to go down to the

2474

01:47:02,209 --> 01:47:00,179

river at night because Mo Kelly and

2475

01:47:05,510 --> 01:47:02,219

bembe is there then you're looked at as

2476

01:47:07,790 --> 01:47:05,520

smart so you you have a culturally

2477

01:47:10,430 --> 01:47:07,800

accepted way to get out of doing a very

2478

01:47:12,830 --> 01:47:10,440

dangerous activity God said don't go

2479

01:47:15,709 --> 01:47:12,840

down there exactly exactly so that's

2480

01:47:17,870 --> 01:47:15,719

what I believe Mo Kelly and bembe is um

2481

01:47:19,609 --> 01:47:17,880

and that's really the the last

2482

01:47:21,169 --> 01:47:19,619

well there's a few other places where

2483

01:47:22,850 --> 01:47:21,179

people spot dinosaurs you know the

2484

01:47:26,149 --> 01:47:22,860

roping and things like that but nothing

2485

01:47:28,189 --> 01:47:26,159

that has any sort of

2486

01:47:30,830 --> 01:47:28,199

um any evidence that I found compelling

2487

01:47:32,810 --> 01:47:30,840

other than mokelium bembe so I would say

2488

01:47:34,490 --> 01:47:32,820

that that's no for dinosaurs and for

2489

01:47:35,990 --> 01:47:34,500

Dragons I think it's a much more

2490

01:47:37,850 --> 01:47:36,000

interesting

2491

01:47:40,129 --> 01:47:37,860

story

2492

01:47:42,470 --> 01:47:40,139

um because people say oh well they were

2493

01:47:44,149 --> 01:47:42,480

finding dinosaur bones and then equating

2494

01:47:46,090 --> 01:47:44,159

it to dragons but that doesn't really

2495

01:47:48,350 --> 01:47:46,100

hold water

2496

01:47:51,290 --> 01:47:48,360

dinosaur bones

2497

01:47:53,570 --> 01:47:51,300

is such a recent discovery right that

2498

01:47:55,669 --> 01:47:53,580

it's it's 80 years old it's 100 years

2499

01:47:58,490 --> 01:47:55,679

old 150 years old I mean that's it

2500

01:48:00,290 --> 01:47:58,500

that's it yeah dragons the dragons are

2501  
01:48:02,629 --> 01:48:00,300  
so much more interesting because again

2502  
01:48:05,510 --> 01:48:02,639  
it's one of those stories that is across

2503  
01:48:07,729 --> 01:48:05,520  
cultures across the entire world so a

2504  
01:48:10,430 --> 01:48:07,739  
thousand years we've had depictions of

2505  
01:48:12,890 --> 01:48:10,440  
dragons where did these come from where

2506  
01:48:14,390 --> 01:48:12,900  
what is this based on and um there isn't

2507  
01:48:16,669 --> 01:48:14,400  
a good answer for it it seems to be

2508  
01:48:19,490 --> 01:48:16,679  
another one of those archetypes you know

2509  
01:48:20,649 --> 01:48:19,500  
it's it's the wild man it's the dragon

2510  
01:48:23,570 --> 01:48:20,659  
um

2511  
01:48:25,310 --> 01:48:23,580  
and the sea serpent the Sea The Wild Man

2512  
01:48:28,910 --> 01:48:25,320  
the dragon and the sea serpent no doubt

2513  
01:48:31,550 --> 01:48:28,920

but 5 000 years ago uh you know or

2514

01:48:32,990 --> 01:48:31,560

you've got mind and the Egyptians and

2515

01:48:36,950 --> 01:48:33,000

the Chinese

2516

01:48:40,990 --> 01:48:36,960

um all uh northern Europe right yeah all

2517

01:48:43,790 --> 01:48:41,000

depicting the same thing

2518

01:48:45,649 --> 01:48:43,800

is it it's like the woolly mammoth right

2519

01:48:47,510 --> 01:48:45,659

there's different flavors to it but but

2520

01:48:49,070 --> 01:48:47,520

I mean essentially essentially the same

2521

01:48:51,350 --> 01:48:49,080

creature but there are different there's

2522

01:48:53,030 --> 01:48:51,360

there's cultural flavors to it in each

2523

01:48:54,890 --> 01:48:53,040

one of the regions the same as there are

2524

01:48:57,890 --> 01:48:54,900

for the wild man

2525

01:48:58,629 --> 01:48:57,900

um but it does seem to be an archetype

2526

01:49:00,649 --> 01:48:58,639

um

2527

01:49:02,689 --> 01:49:00,659

are you saying that you don't think

2528

01:49:04,370 --> 01:49:02,699

dragons ever existed

2529

01:49:06,410 --> 01:49:04,380

uh

2530

01:49:10,070 --> 01:49:06,420

I

2531

01:49:12,530 --> 01:49:10,080

answer

2532

01:49:14,270 --> 01:49:12,540

because that's and I think that's the

2533

01:49:17,270 --> 01:49:14,280

that's one of the problems with

2534

01:49:21,890 --> 01:49:17,280

cryptozoology right um what I was saying

2535

01:49:24,590 --> 01:49:21,900

earlier about the yeti being a bear as a

2536

01:49:26,930 --> 01:49:24,600

biologist I would love that and I would

2537

01:49:29,209 --> 01:49:26,940

be fascinated by that if we found a new

2538

01:49:30,950 --> 01:49:29,219

species of bear in Nepal and in in

2539

01:49:33,169 --> 01:49:30,960

Northern India

2540

01:49:35,570 --> 01:49:33,179

um and in the the Himalayas I would

2541

01:49:37,669 --> 01:49:35,580

absolutely want to know everything about

2542

01:49:39,350 --> 01:49:37,679

this and I would want to study it most

2543

01:49:40,669 --> 01:49:39,360

people in the public would go yeah but

2544

01:49:43,129 --> 01:49:40,679

it's not the yeti

2545

01:49:45,229 --> 01:49:43,139

you're like yeah but it is oh but it's

2546

01:49:47,330 --> 01:49:45,239

not because it's not exactly what we

2547

01:49:50,030 --> 01:49:47,340

want the yeti to be and I think dragons

2548

01:49:52,669 --> 01:49:50,040

are the same is there was there a

2549

01:49:56,030 --> 01:49:52,679

creature at some point in history that

2550

01:49:58,970 --> 01:49:56,040

could explain sightings of the dragons

2551  
01:50:02,209 --> 01:49:58,980  
probably but was it a flying reptile

2552  
01:50:05,149 --> 01:50:02,219  
that breathed fire probably not no and

2553  
01:50:07,149 --> 01:50:05,159  
then it was it was it was I'm okay with

2554  
01:50:09,709 --> 01:50:07,159  
that but

2555  
01:50:12,470 --> 01:50:09,719  
biologically it would be

2556  
01:50:14,270 --> 01:50:12,480  
I I have never heard and I've seen I've

2557  
01:50:16,070 --> 01:50:14,280  
seen a lot on it and I've read a lot

2558  
01:50:19,189 --> 01:50:16,080  
about it I've never seen

2559  
01:50:22,790 --> 01:50:19,199  
a biologically sound argument to allow

2560  
01:50:25,669 --> 01:50:22,800  
for those adaptations to existence okay

2561  
01:50:28,310 --> 01:50:25,679  
I'm going to bring up something crazy

2562  
01:50:31,370 --> 01:50:28,320  
have you ever heard of a pterodactyl I'm

2563  
01:50:34,270 --> 01:50:31,380

just saying I'm just saying yeah

2564

01:50:38,870 --> 01:50:34,280

and and and when you think about

2565

01:50:42,470 --> 01:50:38,880

something that terrifying right is it

2566

01:50:45,709 --> 01:50:42,480

possible Right the the Lost Plateau or

2567

01:50:49,550 --> 01:50:45,719

whatever is it possible for something

2568

01:50:52,490 --> 01:50:49,560

like that to have survived on its own

2569

01:50:55,250 --> 01:50:52,500

um in in mountain ranges up until recent

2570

01:50:57,950 --> 01:50:55,260

history were cultures and it's just died

2571

01:51:00,050 --> 01:50:57,960

off because of the the the the the the

2572

01:51:02,810 --> 01:51:00,060

food pyramid and there was nothing left

2573

01:51:05,090 --> 01:51:02,820

for it to eat and and couldn't have sex

2574

01:51:07,250 --> 01:51:05,100

and procreate whatever it is and just

2575

01:51:10,430 --> 01:51:07,260

died off but that cultures were seeing

2576  
01:51:13,129 --> 01:51:10,440  
it around the world and I'd say yeah you

2577  
01:51:16,609 --> 01:51:13,139  
know what yeah yeah I'm I'm okay with it

2578  
01:51:18,410 --> 01:51:16,619  
and I'm I just I'm yeah it's just one of

2579  
01:51:20,689 --> 01:51:18,420  
those like and again it's that

2580  
01:51:23,270 --> 01:51:20,699  
impossible question that was there an

2581  
01:51:26,810 --> 01:51:23,280  
animal that explained the sightings of

2582  
01:51:29,330 --> 01:51:26,820  
dragons possibly but was it what we want

2583  
01:51:32,149 --> 01:51:29,340  
to think of as a dragon it's like a long

2584  
01:51:35,209 --> 01:51:32,159  
snake-like creature with you know short

2585  
01:51:38,570 --> 01:51:35,219  
legs and breathing fire and with a fin

2586  
01:51:41,149 --> 01:51:38,580  
down its back and and biologically I

2587  
01:51:42,970 --> 01:51:41,159  
don't think so guarding a cave full of

2588  
01:51:47,030 --> 01:51:42,980

gold right

2589

01:51:48,890 --> 01:51:47,040

absolutely I want there to be but yeah

2590

01:51:53,689 --> 01:51:48,900

biologically it's harder to make that

2591

01:51:57,649 --> 01:51:53,699

case I I I there's when I look at the

2592

01:52:00,950 --> 01:51:57,659

idea behind dragons and you look at the

2593

01:52:05,570 --> 01:52:00,960

family crest or the the the the

2594

01:52:09,530 --> 01:52:05,580

historical record of this around the

2595

01:52:12,410 --> 01:52:09,540

world right of going back Millennia they

2596

01:52:13,910 --> 01:52:12,420

were seeing something this isn't this

2597

01:52:17,689 --> 01:52:13,920

isn't imagine they didn't have an

2598

01:52:21,530 --> 01:52:17,699

opportunity just to read a a a Tolkien

2599

01:52:23,750 --> 01:52:21,540

book right right right you see yeah no I

2600

01:52:26,090 --> 01:52:23,760

I I do and that's I think that's the

2601  
01:52:27,830 --> 01:52:26,100  
fundamental issue with cryptozoology is

2602  
01:52:31,010 --> 01:52:27,840  
that unless

2603  
01:52:34,189 --> 01:52:31,020  
we find the exact creature that people

2604  
01:52:36,370 --> 01:52:34,199  
want it to be then it isn't that in

2605  
01:52:40,010 --> 01:52:36,380  
their mind so if we were to find

2606  
01:52:44,149 --> 01:52:40,020  
evidence of a creature that lived 10 000

2607  
01:52:47,570 --> 01:52:44,159  
years ago and met one quarter of the

2608  
01:52:50,270 --> 01:52:47,580  
characteristics of a um of a dragon like

2609  
01:52:53,390 --> 01:52:50,280  
so Megalania for instance in Australia

2610  
01:52:55,790 --> 01:52:53,400  
if we found a giant lizard that was as

2611  
01:52:58,370 --> 01:52:55,800  
big as Megalania and lived all over the

2612  
01:53:01,490 --> 01:52:58,380  
world would that would would people go

2613  
01:53:03,830 --> 01:53:01,500

ah dragons they wouldn't they would go

2614

01:53:07,070 --> 01:53:03,840

ah a big lizard cool let's keep looking

2615

01:53:08,149 --> 01:53:07,080

for Dragon right right right hey there's

2616

01:53:13,490 --> 01:53:08,159

a new

2617

01:53:15,649 --> 01:53:13,500

coming out I've heard yeah I'm pretty

2618

01:53:18,109 --> 01:53:15,659

excited about this actually

2619

01:53:20,510 --> 01:53:18,119

and uh and I'm sure that you are and

2620

01:53:23,090 --> 01:53:20,520

when I hear the comparisons

2621

01:53:25,149 --> 01:53:23,100

um I I get bios in as you can imagine

2622

01:53:28,790 --> 01:53:25,159

right and

2623

01:53:32,149 --> 01:53:28,800

they are he is she is considered the

2624

01:53:34,850 --> 01:53:32,159

Indiana Jones of right and I I I see

2625

01:53:37,970 --> 01:53:34,860

this all the time and I never

2626  
01:53:40,550 --> 01:53:37,980  
read that part of a bio when it comes in

2627  
01:53:42,890 --> 01:53:40,560  
I will not I just won't go there yeah

2628  
01:53:46,910 --> 01:53:42,900  
you

2629  
01:53:50,030 --> 01:53:46,920  
slept with laid down with

2630  
01:53:52,850 --> 01:53:50,040  
two hundred thousand snakes I did I did

2631  
01:53:55,609 --> 01:53:52,860  
for for my 31st birthday you know that

2632  
01:53:56,689 --> 01:53:55,619  
is the craziest thing I didn't want to I

2633  
01:53:58,070 --> 01:53:56,699  
didn't want to bring that up at the

2634  
01:54:00,770 --> 01:53:58,080  
beginning of the show I wanted to save

2635  
01:54:03,709 --> 01:54:00,780  
it until now so when somebody says you

2636  
01:54:05,270 --> 01:54:03,719  
know well I'm the Indiana Jones of no

2637  
01:54:07,910 --> 01:54:05,280  
dude

2638  
01:54:10,790 --> 01:54:07,920

it just sounds like the dumbest idea

2639

01:54:12,950 --> 01:54:10,800

like ever yeah so I I had gone through a

2640

01:54:14,930 --> 01:54:12,960

year of hell I was um I was diagnosed

2641

01:54:16,310 --> 01:54:14,940

with stage three colon cancer I spent a

2642

01:54:19,609 --> 01:54:16,320

few months in the hospital

2643

01:54:21,709 --> 01:54:19,619

um I had a 50 chance at surviving and uh

2644

01:54:24,229 --> 01:54:21,719

I pulled through but I I mean it was it

2645

01:54:26,470 --> 01:54:24,239

was brutal it was just an absolutely

2646

01:54:29,330 --> 01:54:26,480

terrible experience as one can imagine

2647

01:54:31,669 --> 01:54:29,340

and then um I started feeling a little

2648

01:54:34,189 --> 01:54:31,679

bit more like myself and myself is is

2649

01:54:38,090 --> 01:54:34,199

weird I'm a weird I'm a strange person

2650

01:54:40,970 --> 01:54:38,100

and I wanted to do so so so Pat you've

2651  
01:54:44,330 --> 01:54:40,980  
just kicked Cancer's ass that you want

2652  
01:54:47,810 --> 01:54:44,340  
to do now well you know yeah that is

2653  
01:54:50,209 --> 01:54:47,820  
literally what happened wow that is so

2654  
01:54:52,189 --> 01:54:50,219  
um you know my my wife who was my

2655  
01:54:54,109 --> 01:54:52,199  
girlfriend at the time was like well you

2656  
01:54:56,930 --> 01:54:54,119  
know what do you want to do what what's

2657  
01:54:58,910 --> 01:54:56,940  
gonna like help you to feel like

2658  
01:55:01,490 --> 01:54:58,920  
yourself again to feel like and I said I

2659  
01:55:03,770 --> 01:55:01,500  
want to show myself that I can still do

2660  
01:55:04,970 --> 01:55:03,780  
this stuff that I can still film and I

2661  
01:55:06,169 --> 01:55:04,980  
can still get out there and I said

2662  
01:55:08,270 --> 01:55:06,179  
there's something that I've always

2663  
01:55:10,729 --> 01:55:08,280

wanted to see I've read about these

2664

01:55:13,250 --> 01:55:10,739

snake pits the um the narcy snake dens

2665

01:55:14,930 --> 01:55:13,260

up in Manitoba Canada and it's the

2666

01:55:16,910 --> 01:55:14,940

largest concentration of snakes on earth

2667

01:55:18,350 --> 01:55:16,920

and I've always wanted to go see them so

2668

01:55:19,550 --> 01:55:18,360

I'm going to contact the Canadian

2669

01:55:21,410 --> 01:55:19,560

government and see if I can get

2670

01:55:23,870 --> 01:55:21,420

permission to go and lay down in this

2671

01:55:25,250 --> 01:55:23,880

pit and she goes cool all right who's

2672

01:55:27,649 --> 01:55:25,260

gonna go with you and I said I know

2673

01:55:29,689 --> 01:55:27,659

exactly who and I called up my buddy Dom

2674

01:55:31,609 --> 01:55:29,699

who is a cameraman and he was with a

2675

01:55:33,649 --> 01:55:31,619

cameraman on a bunch of my stuff and one

2676  
01:55:35,270 --> 01:55:33,659  
of our good friends Jared I said hey Dom

2677  
01:55:38,149 --> 01:55:35,280  
I'm thinking about

2678  
01:55:41,270 --> 01:55:38,159  
Manitoba he go are you going to do the

2679  
01:55:43,750 --> 01:55:41,280  
snake dens I was like yeah she's like

2680  
01:55:47,810 --> 01:55:43,760  
I'm in let's do it

2681  
01:55:50,689 --> 01:55:47,820  
how long how long were you done so we we

2682  
01:55:52,729 --> 01:55:50,699  
drove we drove 34 hours straight up to

2683  
01:55:54,290 --> 01:55:52,739  
Manitoba Canada

2684  
01:55:57,290 --> 01:55:54,300  
um got you know

2685  
01:55:59,030 --> 01:55:57,300  
waited until waited uh you know about 12

2686  
01:56:01,310 --> 01:55:59,040  
hours until the sun came up and that's

2687  
01:56:03,709 --> 01:56:01,320  
when that's when the the pits really

2688  
01:56:05,270 --> 01:56:03,719

really fill up so this is uh the largest

2689

01:56:08,270 --> 01:56:05,280

concentration of snakes on earth they're

2690

01:56:10,430 --> 01:56:08,280

underground and Limestone caves and as

2691

01:56:12,350 --> 01:56:10,440

the sun warms them up for just a few

2692

01:56:13,850 --> 01:56:12,360

days every year you know maybe a week

2693

01:56:16,310 --> 01:56:13,860

every year

2694

01:56:18,169 --> 01:56:16,320

um they all emerge at once out of these

2695

01:56:21,709 --> 01:56:18,179

Den so I went in there when there was

2696

01:56:23,689 --> 01:56:21,719

maybe 50 to 100 snakes and I laid down

2697

01:56:26,750 --> 01:56:23,699

on the Rocks as the sun was coming up

2698

01:56:28,370 --> 01:56:26,760

and then there was 500 and then there

2699

01:56:30,169 --> 01:56:28,380

was a thousand and then there was two

2700

01:56:32,750 --> 01:56:30,179

thousand and then there was ten thousand

2701  
01:56:34,850 --> 01:56:32,760  
and I mean you could reach in up to your

2702  
01:56:38,270 --> 01:56:34,860  
shoulder and just let the snakes just

2703  
01:56:40,430 --> 01:56:38,280  
slide down your arm you could you they

2704  
01:56:42,649 --> 01:56:40,440  
were crawling up my sleeves and my pants

2705  
01:56:45,169 --> 01:56:42,659  
down my shirt just everywhere you can

2706  
01:56:47,810 --> 01:56:45,179  
imagine and just thousands I mean the

2707  
01:56:51,350 --> 01:56:47,820  
200 000 number is a little bit like two

2708  
01:56:53,450 --> 01:56:51,360  
because I've read everything from 75 000

2709  
01:56:55,550 --> 01:56:53,460  
up to four hundred thousand so I just

2710  
01:56:57,890 --> 01:56:55,560  
picked a number in the middle

2711  
01:56:59,270 --> 01:56:57,900  
but um it was a lot of snakes it was

2712  
01:57:01,250 --> 01:56:59,280  
more snakes than I've ever seen in my

2713  
01:57:03,950 --> 01:57:01,260

life and I like snakes a lot would you

2714

01:57:05,510 --> 01:57:03,960

would would you do it again oh in a

2715

01:57:08,330 --> 01:57:05,520

heartbeat absolutely it was it was

2716

01:57:12,169 --> 01:57:08,340

amazing I mean it was just so surreal it

2717

01:57:14,270 --> 01:57:12,179

was lovecraftian in its strangeness and

2718

01:57:16,750 --> 01:57:14,280

um I the three of us actually from

2719

01:57:18,589 --> 01:57:16,760

filming you get so

2720

01:57:20,570 --> 01:57:18,599

desensitized to this that these guys

2721

01:57:22,550 --> 01:57:20,580

were doing the same thing we're like you

2722

01:57:24,050 --> 01:57:22,560

know like Scrooge McDuck with coins but

2723

01:57:28,669 --> 01:57:24,060

we're doing it with snakes as they're

2724

01:57:35,330 --> 01:57:28,679

coming down we smelled so bad that I had

2725

01:57:40,129 --> 01:57:38,930

and the dealer the dealer I mean I just

2726

01:57:42,470 --> 01:57:40,139

sold my car

2727

01:57:45,050 --> 01:57:42,480

yeah did you disclose on the dealership

2728

01:57:46,990 --> 01:57:45,060

so you Taylor gets in the car and he's

2729

01:57:49,790 --> 01:57:47,000

like it's in pretty good shape he goes

2730

01:57:51,830 --> 01:57:49,800

weird smell like I know what you're

2731

01:57:54,109 --> 01:57:51,840

talking about he's like you don't smell

2732

01:57:56,629 --> 01:57:54,119

that he's like very unusual I was like

2733

01:57:57,649 --> 01:57:56,639

no sorry man I'm not a smoker man I

2734

01:58:01,310 --> 01:57:57,659

don't know what you're talking about

2735

01:58:04,609 --> 01:58:01,320

that's just just normal that awesome

2736

01:58:06,470 --> 01:58:04,619

show thank you so much man a great

2737

01:58:09,290 --> 01:58:06,480

conversation I'll look forward to the

2738

01:58:10,970 --> 01:58:09,300

next time uh you joining us here on on

2739

01:58:13,010 --> 01:58:10,980

Fade to Black thing what's the best way

2740

01:58:16,310 --> 01:58:13,020

for everybody to reach out to you uh

2741

01:58:18,770 --> 01:58:16,320

patsbane.com and uh my six books are all

2742

01:58:21,530 --> 01:58:18,780

available on Amazon and any of your

2743

01:58:23,510 --> 01:58:21,540

local bookstores Pat Spain the absolute

2744

01:58:26,570 --> 01:58:23,520

very best my friend go play some bass

2745

01:58:27,910 --> 01:58:26,580

get the band back together thank you so

2746

01:58:30,910 --> 01:58:27,920

much

2747

01:58:34,010 --> 01:58:30,920

great show great show Pat Spain

2748

01:58:37,609 --> 01:58:34,020

everybodypattspain.com all of his books

2749

01:58:42,350 --> 01:58:37,619

are right there and now I want to let uh

2750

01:58:45,770 --> 01:58:42,360

everybody know uh Thursday night uh we

2751  
01:58:47,810 --> 01:58:45,780  
have a very special show John Greenwald

2752  
01:58:50,030 --> 01:58:47,820  
will be joining us so we have

2753  
01:58:52,189 --> 01:58:50,040  
rescheduled our Our Guest that we had

2754  
01:58:54,050 --> 01:58:52,199  
booked for uh Thursday night Thursday

2755  
01:58:55,870 --> 01:58:54,060  
night John Greenwald is going to be here

2756  
01:58:58,149 --> 01:58:55,880  
we're going to be talking all night

2757  
01:59:01,129 --> 01:58:58,159  
about The

2758  
01:59:02,990 --> 01:59:01,139  
Whistleblower crush and what is going on

2759  
01:59:06,229 --> 01:59:03,000  
with that and all of the latest

2760  
01:59:08,930 --> 01:59:06,239  
developments so stay tuned for all of

2761  
01:59:11,990 --> 01:59:08,940  
that tomorrow night I have uh Damien

2762  
01:59:13,550 --> 01:59:12,000  
John Matt with us he's a filmmaker out

2763  
01:59:15,890 --> 01:59:13,560

of Australia and we are going to be

2764

01:59:18,290 --> 01:59:15,900

talking about UFOs uh tomorrow night and

2765

01:59:20,870 --> 01:59:18,300

of course everything else that is going

2766

01:59:23,149 --> 01:59:20,880

on so stay tuned for that that is

2767

01:59:25,370 --> 01:59:23,159

tomorrow night and then Thursday night

2768

01:59:27,410 --> 01:59:25,380

John Greenwald Fade to Black is produced

2769

01:59:30,530 --> 01:59:27,420

by LJ Paul and Renee Newman and Michelle

2770

01:59:32,149 --> 01:59:30,540

fried thank you to Dennis and Kevin what

2771

01:59:34,510 --> 01:59:32,159

Master is Drew the geek music Doug

2772

01:59:36,470 --> 01:59:34,520

Aldridge intro space boy

2773

01:59:38,390 --> 01:59:36,480

spaceboymusic.com Fade to Black is

2774

01:59:40,729 --> 01:59:38,400

produced by kjcr for the game changer

2775

01:59:43,490 --> 01:59:40,739

Network this broadcast is owned and

2776

01:59:45,470 --> 01:59:43,500
