

# FADE TO BLACK

with **JIMMY CHURCH**  
**PRESENTS**

# BREAKING NEWS

Thur June 15, 2023 **LIVE**

1  
00:00:37,090 --> 00:00:35,709

[Music]

2  
00:00:42,610 --> 00:00:37,100

thank you

3  
00:00:52,790 --> 00:00:47,709

all right Fade to Black breaking news

4  
00:00:56,510 --> 00:00:52,800

oh man here we go this is faded black

5  
00:00:58,970 --> 00:00:56,520

breaking news for Thursday June 15 2023

6  
00:01:02,389 --> 00:00:58,980

this is all of the news that you need

7  
00:01:05,450 --> 00:01:02,399

I'm Yours Jimmy church I was just over

8  
00:01:10,370 --> 00:01:05,460

on Christina Gomez's page waiting to

9  
00:01:13,609 --> 00:01:10,380

start her show it's 111 11 11 right now

10  
00:01:16,789 --> 00:01:13,619

um and I'm like aren't we starting

11  
00:01:19,670 --> 00:01:16,799

I I got it backwards

12  
00:01:21,910 --> 00:01:19,680

yeah but let's get to the news on this

13  
00:01:24,710 --> 00:01:21,920

day in history

14

00:01:28,310 --> 00:01:24,720

1846 the United States and Great Britain

15

00:01:31,429 --> 00:01:28,320

signed the Oregon treaty establishing

16

00:01:36,770 --> 00:01:31,439

the border between Canada and the United

17

00:01:41,149 --> 00:01:36,780

States at Latitude 49 degrees north why

18

00:01:46,090 --> 00:01:41,159

not 50 I don't know they chose 49. on

19

00:01:48,609 --> 00:01:46,100

this day in 1846 here's your fader fact

20

00:01:53,630 --> 00:01:48,619

on Broadway

21

00:01:55,630 --> 00:01:53,640

meetings between 63rd and 76th streets

22

00:01:59,389 --> 00:01:55,640

in Manhattan

23

00:02:04,850 --> 00:01:59,399

biologists discovered a new species of

24

00:02:08,109 --> 00:02:04,860

ant and they've named it the Manhattan

25

00:02:13,610 --> 00:02:08,119

that's right there's a Manhattan

26

00:02:14,710 --> 00:02:13,620

specific ant and that is your fader fact

27

00:02:17,869 --> 00:02:14,720

okay

28

00:02:20,690 --> 00:02:17,879

lots of breaking news today it's all

29

00:02:24,350 --> 00:02:20,700

nuts here we go

30

00:02:26,690 --> 00:02:24,360

several U.S agencies have been hacked

31

00:02:28,729 --> 00:02:26,700

through a program designed to easily

32

00:02:31,250 --> 00:02:28,739

upload files the United States

33

00:02:34,490 --> 00:02:31,260

government cyber Watchdog announced

34

00:02:36,710 --> 00:02:34,500

today the cyber security infrastructure

35

00:02:39,290 --> 00:02:36,720

and Security Agency is still

36

00:02:41,330 --> 00:02:39,300

investigating the scope of the hacks it

37

00:02:43,850 --> 00:02:41,340

wasn't immediately clear if the hackers

38

00:02:47,630 --> 00:02:43,860

had succeeded in stealing sensitive

39

00:02:50,869 --> 00:02:47,640

files or disrupting government systems

40

00:02:54,949 --> 00:02:50,879

they exploited a vulnerability in a

41

00:02:58,369 --> 00:02:54,959

program called move it a popular tool

42

00:03:00,350 --> 00:02:58,379

for quickly transferring files

43

00:03:02,869 --> 00:03:00,360

I thought that was a song from

44

00:03:07,130 --> 00:03:02,879

Madagascar

45

00:03:09,290 --> 00:03:07,140

the start of Beyonce's World Tour in

46

00:03:11,869 --> 00:03:09,300

Sweden last month

47

00:03:14,809 --> 00:03:11,879

sparked such a frenzy of demand for

48

00:03:17,330 --> 00:03:14,819

hotels and restaurant meals that it has

49

00:03:19,009 --> 00:03:17,340

shown up in the country's economic

50

00:03:21,589 --> 00:03:19,019

statistics

51  
00:03:27,350 --> 00:03:21,599  
Sweden reported higher than expected

52  
00:03:29,449 --> 00:03:27,360  
inflation of 9.7 percent in May Rising

53  
00:03:32,830 --> 00:03:29,459  
prices for hotels and restaurants were

54  
00:03:36,470 --> 00:03:32,840  
behind the surprise yeppers that's right

55  
00:03:40,809 --> 00:03:36,480  
Beyonce is blamed for the inflation

56  
00:03:44,270 --> 00:03:40,819  
surprise in Sweden

57  
00:03:47,990 --> 00:03:44,280  
Expedition 69 flight Engineers Woody

58  
00:03:51,729 --> 00:03:48,000  
hoberg and Steve Bowen of NASA began a

59  
00:03:56,149 --> 00:03:51,739  
spacewalk today at 8 42 a.m Eastern Time

60  
00:04:00,649 --> 00:03:56,159  
to install erosa the International Space

61  
00:04:02,869 --> 00:04:00,659  
Station roll out a solar array to

62  
00:04:05,630 --> 00:04:02,879  
augment power generation for the 1B

63  
00:04:09,949 --> 00:04:05,640

power channel on the station's starboard

64

00:04:13,729 --> 00:04:09,959

truss structure hoberg he's called ev1

65

00:04:18,289 --> 00:04:13,739

is wearing a suit with red stripes and

66

00:04:21,170 --> 00:04:18,299

Bowen called ev2 is in an unmarked suit

67

00:04:24,590 --> 00:04:21,180

coverage of the space wall continues on

68

00:04:27,650 --> 00:04:24,600

NASA Television the NASA app and the

69

00:04:31,090 --> 00:04:27,660

agency's website it's pretty cool

70

00:04:35,150 --> 00:04:31,100

now continuing with space

71

00:04:37,490 --> 00:04:35,160

Canadian astronaut Chris Hadfield

72

00:04:41,990 --> 00:04:37,500

said earlier this week that he's been

73

00:04:45,830 --> 00:04:42,000

working with King Charles of the UK on a

74

00:04:48,170 --> 00:04:45,840

space sustainability plan dubbed the

75

00:04:52,490 --> 00:04:48,180

Astra Carta by the way this day in

76

00:04:55,550 --> 00:04:52,500

history Magna Carta was signed the

77

00:04:58,189 --> 00:04:55,560

astercarta will explore how humans can

78

00:05:00,230 --> 00:04:58,199

use space and settle on the moon in a

79

00:05:03,890 --> 00:05:00,240

different way than they have settled

80

00:05:06,770 --> 00:05:03,900

right here on Earth Hadfield has been

81

00:05:09,950 --> 00:05:06,780

working on the initiative since last

82

00:05:12,409 --> 00:05:09,960

summer when the British monarch who has

83

00:05:16,189 --> 00:05:12,419

long been outspoken on environmental

84

00:05:18,350 --> 00:05:16,199

issues reached out to him for help they

85

00:05:25,430 --> 00:05:18,360

plan to release a version of the

86

00:05:32,210 --> 00:05:28,189

one of the most active volcanoes in the

87

00:05:33,670 --> 00:05:32,220

world began erupting yesterday after a

88

00:05:36,230 --> 00:05:33,680

three-month pause

89

00:05:39,350 --> 00:05:36,240

displaying spectacular Fountains of

90

00:05:41,090 --> 00:05:39,360

glowing lava that's a at a pretty much a

91

00:05:43,510 --> 00:05:41,100

safe distance from people and structures

92

00:05:46,730 --> 00:05:43,520

in a national park on the big island

93

00:05:50,510 --> 00:05:46,740

according to the U.S geological surveys

94

00:05:53,689 --> 00:05:50,520

Hawaiian volcano Observatory a glow was

95

00:05:56,510 --> 00:05:53,699

detected in webcam images from Kilauea

96

00:06:00,050 --> 00:05:56,520

Summit early in the morning indicating

97

00:06:02,150 --> 00:06:00,060

that an eruption was occurring within

98

00:06:05,350 --> 00:06:02,160

the summit called Dara

99

00:06:09,469 --> 00:06:05,360

we got to remember that back in 2018

100

00:06:13,090 --> 00:06:09,479

the Kilauea eruption then destroyed more

101  
00:06:17,090 --> 00:06:13,100  
than 700 homes

102  
00:06:20,469 --> 00:06:17,100  
icy Moon and salatus has everything

103  
00:06:22,969 --> 00:06:20,479  
needed for alien life to exist

104  
00:06:27,290 --> 00:06:22,979  
scientists have just reported all of

105  
00:06:30,350 --> 00:06:27,300  
this that the six key elements now have

106  
00:06:33,490 --> 00:06:30,360  
been found researchers at their free

107  
00:06:37,730 --> 00:06:33,500  
University of Berlin found phosphorus

108  
00:06:41,930 --> 00:06:37,740  
the rarest of the six in the first time

109  
00:06:44,870 --> 00:06:41,940  
it has been seen uh besides here on

110  
00:06:47,450 --> 00:06:44,880  
Earth the findings now lead scientists

111  
00:06:52,070 --> 00:06:47,460  
to study Jupiter's fourth Moon Europa

112  
00:06:55,850 --> 00:06:52,080  
and Saturn's largest moon Titan for both

113  
00:06:58,570 --> 00:06:55,860

are also icy phosphorus was discovered

114

00:07:00,850 --> 00:06:58,580

from studying data from the Cassini

115

00:07:05,350 --> 00:07:00,860

highgen Space Program

116

00:07:09,469 --> 00:07:05,360

probe which studied Saturn from 2004 to

117

00:07:13,430 --> 00:07:09,479

2017. the project was coordinated in an

118

00:07:17,210 --> 00:07:13,440

effort with NASA Esa and the Italian

119

00:07:21,550 --> 00:07:17,220

space agency the other required elements

120

00:07:25,610 --> 00:07:21,560

are of course carbon hydrogen nitrogen

121

00:07:27,290 --> 00:07:25,620

oxygen and sulfur we've now got number

122

00:07:30,890 --> 00:07:27,300

six

123

00:07:34,309 --> 00:07:30,900

four new Nazca geoglyphs have been

124

00:07:36,710 --> 00:07:34,319

identified in Peru through the use of

125

00:07:40,070 --> 00:07:36,720

artificial intelligence by a team of

126

00:07:43,490 --> 00:07:40,080

researchers led by masato Sakai of

127

00:07:46,129 --> 00:07:43,500

Yamagata University over a period of

128

00:07:49,189 --> 00:07:46,139

five years the team members manually

129

00:07:51,830 --> 00:07:49,199

identify geoglyphs in aerial photographs

130

00:07:56,270 --> 00:07:51,840

of the Nazca plateau and collaborated

131

00:07:59,390 --> 00:07:56,280

with IBM to combine AI in the search for

132

00:08:03,110 --> 00:07:59,400

geoglyphs in a process estimated to be

133

00:08:06,350 --> 00:08:03,120

21 times faster than looking for them

134

00:08:09,409 --> 00:08:06,360

with the naked eye the four newly found

135

00:08:14,089 --> 00:08:09,419

geoglyphs include a human figure holding

136

00:08:19,129 --> 00:08:14,099

a club a wide-mouthed whale a pair of

137

00:08:22,670 --> 00:08:19,139

legs measuring 255 feet long and a

138

00:08:24,650 --> 00:08:22,680

skeletal image of a bird their findings

139

00:08:27,230 --> 00:08:24,660

are now published in the Journal of

140

00:08:30,290 --> 00:08:27,240

archaeological science

141

00:08:31,070 --> 00:08:30,300

and finally I'm going to leave you with

142

00:08:35,510 --> 00:08:31,080

this

143

00:08:36,670 --> 00:08:35,520

probably the freakiest news in human

144

00:08:39,350 --> 00:08:36,680

history

145

00:08:42,589 --> 00:08:39,360

a team of researchers in the United

146

00:08:45,190 --> 00:08:42,599

States and United Kingdom say they have

147

00:08:49,490 --> 00:08:45,200

created the world's first

148

00:08:51,470 --> 00:08:49,500

synthetic human embryo

149

00:08:54,410 --> 00:08:51,480

that's right

150

00:08:57,410 --> 00:08:54,420

the first is synthetic human-like

151  
00:08:58,310 --> 00:08:57,420  
structures from stem cells bypassing the

152  
00:09:03,050 --> 00:08:58,320  
need

153  
00:09:05,389 --> 00:09:03,060  
for eggs and sperm these embryo-like

154  
00:09:08,030 --> 00:09:05,399  
structures are the very earliest stages

155  
00:09:11,570 --> 00:09:08,040  
of human development they don't have a

156  
00:09:13,790 --> 00:09:11,580  
beating heart or brain but scientists

157  
00:09:16,610 --> 00:09:13,800  
say they could one day help Advance the

158  
00:09:19,490 --> 00:09:16,620  
understanding of genetic diseases or

159  
00:09:23,329 --> 00:09:19,500  
their causes of miscarriages

160  
00:09:26,329 --> 00:09:23,339  
the researchers of course are raising

161  
00:09:28,070 --> 00:09:26,339  
critical legal and ethical questions and

162  
00:09:31,130 --> 00:09:28,080  
many countries including the United

163  
00:09:34,850 --> 00:09:31,140

States don't have laws governing the

164

00:09:37,509 --> 00:09:34,860

creation or treatment of synthetic

165

00:09:40,670 --> 00:09:37,519

embryos

166

00:09:42,829 --> 00:09:40,680

and that is not

167

00:09:45,850 --> 00:09:42,839

That's How The Faded block breaking news

168

00:09:49,250 --> 00:09:45,860

that you need for this Thursday June 15

169

00:09:51,650 --> 00:09:49,260

2023 faded black breaking news is

170

00:09:57,850 --> 00:09:51,660

produced by Renee Newman I'm Jimmy
