

FADE TO BLACK

with JIMMY CHURCH

PRESENTS

DENNIS STONE

AMERICA'S STONEHENGE

THUR JUNE 22 2023 **LIVE**

700-900PM PT

1
00:00:27,370 --> 00:00:18,290

[Music]

2
00:00:30,710 --> 00:00:27,380

the smoke radio for the masses of July 8

3
00:00:33,110 --> 00:00:30,720

1947 the Army Air Forces has announced

4
00:00:35,270 --> 00:00:33,120

that a flying disc has been found and is

5
00:00:38,209 --> 00:00:35,280

now in the possession of the army

6
00:00:41,990 --> 00:00:38,219

game is real change the game game

7
00:00:45,650 --> 00:00:42,000

changer I occasionally think how quickly

8
00:00:49,010 --> 00:00:45,660

our differences worldwide would vanish

9
00:00:50,350 --> 00:00:49,020

if we were facing an alien threat from

10
00:00:52,190 --> 00:00:50,360

outside this work

11
00:00:52,350 --> 00:00:52,200

[Music]

12
00:00:54,770 --> 00:00:52,360

[Applause]

13
00:00:57,590 --> 00:00:54,780

[Music]

14

00:01:00,410 --> 00:00:57,600

this is Fade to Black with your host

15

00:01:01,120 --> 00:01:00,420

Jimmy Church on the game changer Radio

16

00:01:05,410 --> 00:01:01,130

Network

17

00:01:08,750 --> 00:01:05,420

[Music]

18

00:01:11,109 --> 00:01:08,760

good evening everyone it's Fade to Black

19

00:01:16,070 --> 00:01:11,119

how you doing today's Thursday

20

00:01:19,730 --> 00:01:16,080

June 22nd 2023 and tonight very excited

21

00:01:23,270 --> 00:01:19,740

back with this is Dennis Stone of

22

00:01:25,070 --> 00:01:23,280

America's Stonehenge uh which we will be

23

00:01:27,850 --> 00:01:25,080

discussing tonight we're going to talk

24

00:01:31,010 --> 00:01:27,860

about uh the study the research theories

25

00:01:33,289 --> 00:01:31,020

the astronomical alignment all of the

26

00:01:35,690 --> 00:01:33,299

archaeological work uh that has been

27

00:01:38,030 --> 00:01:35,700

done uh over at the site for the last 85

28

00:01:41,090 --> 00:01:38,040

years he is president of America

29

00:01:44,330 --> 00:01:41,100

Stonehenge graduated from Daniel Webster

30

00:01:46,609 --> 00:01:44,340

College in 1977 with a degree in

31

00:01:49,149 --> 00:01:46,619

aviation management it's a full-time

32

00:01:52,789 --> 00:01:49,159

airline pilot before his retirement in

33

00:01:55,670 --> 00:01:52,799

2016. America's Stonehenge was open to

34

00:01:58,370 --> 00:01:55,680

the public in 1958 by his father Robert

35

00:02:00,469 --> 00:01:58,380

Stone and he has been involved with

36

00:02:02,270 --> 00:02:00,479

America's Stonehenge for most of his

37

00:02:05,990 --> 00:02:02,280

life we have talked to him about this

38

00:02:08,809 --> 00:02:06,000

before it's a fascinating subject now

39

00:02:11,150 --> 00:02:08,819

since retiring he's found several

40

00:02:13,010 --> 00:02:11,160

Serpentine walls and spirit Windows

41

00:02:15,830 --> 00:02:13,020

throughout the site among other new

42

00:02:18,170 --> 00:02:15,840

discoveries and we will be discussing

43

00:02:20,449 --> 00:02:18,180

all of that tonight and I have some

44

00:02:22,970 --> 00:02:20,459

images we will be sharing with everybody

45

00:02:24,530 --> 00:02:22,980

and I just want to welcome back to fade

46

00:02:26,770 --> 00:02:24,540

to black the one and only Dennis Stone

47

00:02:29,330 --> 00:02:26,780

there he is Dennis how you doing my man

48

00:02:31,250 --> 00:02:29,340

well thank you Jimmy for having me on uh

49

00:02:34,270 --> 00:02:31,260

it's so nice to see you again doing

50

00:02:38,510 --> 00:02:34,280

pretty well tonight thank you and and

51
00:02:43,509 --> 00:02:38,520
it's a first for Fade to Black uh Dennis

52
00:02:47,390 --> 00:02:43,519
is coming to us from uh his cell phone

53
00:02:49,850 --> 00:02:47,400
so uh yeah let's uh let's do this and

54
00:02:53,390 --> 00:02:49,860
I'm very excited

55
00:02:55,309 --> 00:02:53,400
um uh this I actually uh want to start

56
00:02:59,030 --> 00:02:55,319
here uh Dennis

57
00:03:01,910 --> 00:02:59,040
and although a basic question

58
00:03:04,369 --> 00:03:01,920
um it is uh something that just needs to

59
00:03:06,949 --> 00:03:04,379
be addressed and answered

60
00:03:09,530 --> 00:03:06,959
um I think and you and I have a lot of

61
00:03:12,229 --> 00:03:09,540
mutual friends uh who will be talking

62
00:03:14,270 --> 00:03:12,239
about some of them tonight for sure

63
00:03:17,930 --> 00:03:14,280

um that consider America's Stonehenge

64

00:03:21,290 --> 00:03:17,940

one of the most important uh sites not

65

00:03:23,030 --> 00:03:21,300

only in North America but maybe the

66

00:03:26,390 --> 00:03:23,040

world

67

00:03:29,210 --> 00:03:26,400

um how important is this site and why

68

00:03:31,910 --> 00:03:29,220

isn't it on the front page like the Giza

69

00:03:35,030 --> 00:03:31,920

Pyramids now we have the same questions

70

00:03:36,710 --> 00:03:35,040

we've had those for many many decades

71

00:03:38,570 --> 00:03:36,720

um there is probably a reluctance among

72

00:03:41,210 --> 00:03:38,580

mainstream you know to accept new

73

00:03:43,190 --> 00:03:41,220

theories they have a paradigm you know a

74

00:03:45,470 --> 00:03:43,200

certain models certain patterns that

75

00:03:48,110 --> 00:03:45,480

they they allow or believe in you know

76

00:03:49,670 --> 00:03:48,120

so but we do think it's a very important

77

00:03:52,309 --> 00:03:49,680

site in fact it could change the

78

00:03:54,229 --> 00:03:52,319

pre-history of uh perhaps United States

79

00:03:55,610 --> 00:03:54,239

North America you know

80

00:03:58,970 --> 00:03:55,620

um we think it's one of the oldest

81

00:04:01,970 --> 00:03:58,980

man-made Stone ruins in North America

82

00:04:04,430 --> 00:04:01,980

um but it's only one of about 800 uh

83

00:04:06,770 --> 00:04:04,440

sites located from about Ontario and

84

00:04:08,449 --> 00:04:06,780

Quebec all the way down to Virginia we

85

00:04:10,789 --> 00:04:08,459

keep finding more and more of these

86

00:04:13,130 --> 00:04:10,799

similar sites however always is the

87

00:04:15,949 --> 00:04:13,140

biggest complex in a given area about

88

00:04:18,650 --> 00:04:15,959

106 acres and it seems to be compressed

89

00:04:20,689 --> 00:04:18,660

with all these Stone features uh my dad

90

00:04:23,390 --> 00:04:20,699

got involved with it back in the 50s and

91

00:04:26,270 --> 00:04:23,400

he had the same frustration we have

92

00:04:28,670 --> 00:04:26,280

going on today you know again uh people

93

00:04:30,950 --> 00:04:28,680

not really wanting to accept it some

94

00:04:32,749 --> 00:04:30,960

people calling it a hoax a fake a fraud

95

00:04:34,670 --> 00:04:32,759

uh not willing to believe that they're

96

00:04:35,629 --> 00:04:34,680

ancient stone Builders basically in the

97

00:04:37,730 --> 00:04:35,639

Northeast

98

00:04:39,409 --> 00:04:37,740

they're not supposed to be we're not

99

00:04:41,629 --> 00:04:39,419

supposed to be here according to school

100

00:04:43,129 --> 00:04:41,639

books and textbooks and maybe the

101
00:04:45,409 --> 00:04:43,139
mainstream archaeological Community

102
00:04:47,210 --> 00:04:45,419
although there are some in the community

103
00:04:50,270 --> 00:04:47,220
that are starting to open their eyes a

104
00:04:52,070 --> 00:04:50,280
little bit but I think our site perhaps

105
00:04:54,530 --> 00:04:52,080
is one of the more important sites in

106
00:04:56,689 --> 00:04:54,540
North America and uh we should have more

107
00:04:58,189 --> 00:04:56,699
work to do to prove it

108
00:05:01,010 --> 00:04:58,199
um the work has been going on I think

109
00:05:04,129 --> 00:05:01,020
you mentioned 85 years and this is

110
00:05:05,930 --> 00:05:04,139
actually our anniversary day uh my dad

111
00:05:08,210 --> 00:05:05,940
opened it to the public for the first

112
00:05:10,550 --> 00:05:08,220
time as you mentioned in 1958 and it was

113
00:05:13,550 --> 00:05:10,560

a summer solstice coincidentally so

114

00:05:15,590 --> 00:05:13,560

yesterday we had our our big event all

115

00:05:18,050 --> 00:05:15,600

day event with a sunrise sunset we had a

116

00:05:20,030 --> 00:05:18,060

ceremony we had a drumming Circle and we

117

00:05:21,530 --> 00:05:20,040

had I think between 300 and 400 people

118

00:05:23,450 --> 00:05:21,540

show up yesterday so it was a nice

119

00:05:25,430 --> 00:05:23,460

turnout and the weather was perfect for

120

00:05:28,129 --> 00:05:25,440

it we've had as many as a thousand

121

00:05:29,689 --> 00:05:28,139

people turned out uh in you know in the

122

00:05:32,450 --> 00:05:29,699

past you know so yesterday was actually

123

00:05:34,969 --> 00:05:32,460

a pretty nice turnout though and uh so

124

00:05:36,770 --> 00:05:34,979

we have a big anniversary this year uh

125

00:05:38,450 --> 00:05:36,780

in two years we'll have about the 70th

126
00:05:41,330 --> 00:05:38,460
Anniversary that my dad ever heard about

127
00:05:42,830 --> 00:05:41,340
this place back in 1955 it was a radio

128
00:05:44,689 --> 00:05:42,840
show and he was just listening on a

129
00:05:46,730 --> 00:05:44,699
Friday night one of the biggest stations

130
00:05:48,770 --> 00:05:46,740
in New England and uh the show was

131
00:05:51,230 --> 00:05:48,780
called Yankee Yarns and the talk show

132
00:05:52,670 --> 00:05:51,240
host was Alton Hall blackington uh

133
00:05:54,590 --> 00:05:52,680
Native of Maine but I guess he went to

134
00:05:57,050 --> 00:05:54,600
Boston to be on the show it was

135
00:05:58,909 --> 00:05:57,060
syndicated all over New England too and

136
00:06:00,469 --> 00:05:58,919
my dad just was listened to a show like

137
00:06:02,689 --> 00:06:00,479
we're doing right now except for talking

138
00:06:04,430 --> 00:06:02,699

on it and uh as your listeners are doing

139

00:06:06,050 --> 00:06:04,440

and uh he had never heard of this he

140

00:06:08,810 --> 00:06:06,060

lived about seven miles from this site

141

00:06:10,310 --> 00:06:08,820

never heard of it and a whole evening uh

142

00:06:11,810 --> 00:06:10,320

you know it started at 7 30 in the

143

00:06:14,029 --> 00:06:11,820

evening it went probably for an hour an

144

00:06:16,550 --> 00:06:14,039

hour and a half uh and he was blown away

145

00:06:18,830 --> 00:06:16,560

by the topic it fascinated him you know

146

00:06:21,850 --> 00:06:18,840

so so we have a couple anniversaries

147

00:06:24,290 --> 00:06:21,860

going on right now and uh and then uh

148

00:06:26,150 --> 00:06:24,300

next year will also be the anniversary

149

00:06:27,290 --> 00:06:26,160

of my dad's group he started a

150

00:06:30,110 --> 00:06:27,300

non-profit group called New England

151

00:06:32,270 --> 00:06:30,120

Antiquities research Association that

152

00:06:33,830 --> 00:06:32,280

group uh will have its 60th anniversary

153

00:06:37,010 --> 00:06:33,840

next year so we got a little things

154

00:06:40,870 --> 00:06:37,020

going on right now with that too and he

155

00:06:43,850 --> 00:06:40,880

just like what and and jump in the car

156

00:06:45,469 --> 00:06:43,860

and and and drive over to check it out

157

00:06:47,390 --> 00:06:45,479

to find something that was in his

158

00:06:49,189 --> 00:06:47,400

backyard and he never knew it something

159

00:06:51,110 --> 00:06:49,199

is

160

00:06:53,450 --> 00:06:51,120

well that's almost what happened he

161

00:06:54,830 --> 00:06:53,460

actually uh a few days later at a barber

162

00:06:56,990 --> 00:06:54,840

shop in the town of Dairy New Hampshire

163

00:06:58,730 --> 00:06:57,000

where I grew up and again about seven

164

00:07:00,950 --> 00:06:58,740

miles from here he was in a barber shop

165

00:07:02,689 --> 00:07:00,960

just waiting to have his hair cut uh the

166

00:07:04,490 --> 00:07:02,699

barber's name is Warren Haywood used to

167

00:07:06,290 --> 00:07:04,500

race uh horses at the uh famous

168

00:07:07,969 --> 00:07:06,300

Rockingham race track which ran for

169

00:07:10,010 --> 00:07:07,979

about 100 years and recently it closed

170

00:07:11,450 --> 00:07:10,020

unfortunately but he's looking at a

171

00:07:12,710 --> 00:07:11,460

magazine while he's waiting and he

172

00:07:14,390 --> 00:07:12,720

picked it up he's thumbing through it

173

00:07:18,110 --> 00:07:14,400

and all of a sudden he's looking at

174

00:07:20,029 --> 00:07:18,120

these pictures of these ruins in a with

175

00:07:21,230 --> 00:07:20,039

of the site he cuts on the radio he

176
00:07:22,730 --> 00:07:21,240
couldn't see what it looked like when he

177
00:07:24,950 --> 00:07:22,740
looked at these photographs so the title

178
00:07:27,650 --> 00:07:24,960
of the article the location of the site

179
00:07:29,930 --> 00:07:27,660
he was like wow this is amazing so he

180
00:07:31,670 --> 00:07:29,940
said to the barber hey uh can I keep

181
00:07:34,249 --> 00:07:31,680
this magazine and the barber goes well

182
00:07:36,650 --> 00:07:34,259
how old is that because it's 1952. it's

183
00:07:37,969 --> 00:07:36,660
been sitting here for three years uh and

184
00:07:40,010 --> 00:07:37,979
that's a nice coincidence because

185
00:07:41,390 --> 00:07:40,020
perhaps you know you and I may not be

186
00:07:43,850 --> 00:07:41,400
speaking tonight because I think that's

187
00:07:46,790 --> 00:07:43,860
what clinched it uh that weekend at my

188
00:07:49,490 --> 00:07:46,800

aunt and uncle's house my mom sister and

189

00:07:51,350 --> 00:07:49,500

her husband uh had about 10 people over

190

00:07:53,210 --> 00:07:51,360

and it was a Saturday night kind of a

191

00:07:55,850 --> 00:07:53,220

custom the family did they played cards

192

00:07:57,710 --> 00:07:55,860

you know had some beers and so forth and

193

00:07:59,210 --> 00:07:57,720

with the 10 people playing cards at some

194

00:08:01,189 --> 00:07:59,220

point they stopped my dad passed a

195

00:08:03,050 --> 00:08:01,199

magazine around the magazine was called

196

00:08:04,909 --> 00:08:03,060

New Hampshire profile magazine it's no

197

00:08:07,370 --> 00:08:04,919

longer in print but it ran for many many

198

00:08:08,809 --> 00:08:07,380

decades uh they looked at it different

199

00:08:10,550 --> 00:08:08,819

people looked at it you know friends

200

00:08:12,950 --> 00:08:10,560

nobody recognized it either and they

201
00:08:15,469 --> 00:08:12,960
lived you know right the same area until

202
00:08:17,990 --> 00:08:15,479
I got to my aunt and uncle uh and then

203
00:08:19,730 --> 00:08:18,000
it was Kay and Earth dicey

204
00:08:21,469 --> 00:08:19,740
um and they looked at it for a few

205
00:08:23,390 --> 00:08:21,479
seconds scare Daddy go wait a minute we

206
00:08:24,950 --> 00:08:23,400
used to go there in the 1930s in our

207
00:08:27,350 --> 00:08:24,960
bicycles while we were dating they would

208
00:08:29,510 --> 00:08:27,360
pedal down about seven or eight miles uh

209
00:08:32,209 --> 00:08:29,520
they go up this old dirt road to the top

210
00:08:34,850 --> 00:08:32,219
of the hill bring a picnic lunch and so

211
00:08:36,350 --> 00:08:34,860
in the 30s 1930s are up there and of

212
00:08:38,570 --> 00:08:36,360
course it was not open to the public so

213
00:08:41,089 --> 00:08:38,580

I guess it was kind of unofficial maybe

214

00:08:43,250 --> 00:08:41,099

trespassing perhaps but a lot of people

215

00:08:44,930 --> 00:08:43,260

did that back then and you know unless

216

00:08:47,269 --> 00:08:44,940

people vandalized you know it was okay

217

00:08:48,949 --> 00:08:47,279

you know vandalized or whatever people

218

00:08:50,810 --> 00:08:48,959

didn't pay too much attention to that

219

00:08:52,790 --> 00:08:50,820

but but my dad was so excited he goes

220

00:08:55,610 --> 00:08:52,800

hey can you find the place and of course

221

00:08:57,530 --> 00:08:55,620

he said well it's been 20 years there's

222

00:09:01,130 --> 00:08:57,540

no road signs it's not open to the

223

00:09:03,350 --> 00:09:01,140

public no Google Maps so that's Sunday

224

00:09:05,210 --> 00:09:03,360

the four of them uh they left me behind

225

00:09:07,009 --> 00:09:05,220

I was 18 months old I guess I stayed

226
00:09:08,870 --> 00:09:07,019
with the grandparents so they ran around

227
00:09:11,389 --> 00:09:08,880
North Salem trying to find this place

228
00:09:12,769 --> 00:09:11,399
until they saw an old dirt road that

229
00:09:15,050 --> 00:09:12,779
they recognized or at least they thought

230
00:09:16,430 --> 00:09:15,060
they did talk the car next to it and

231
00:09:19,190 --> 00:09:16,440
they walked about half a mile up this

232
00:09:21,710 --> 00:09:19,200
big hill through the woods and all of a

233
00:09:25,009 --> 00:09:21,720
sudden they spotted the site and uh it

234
00:09:27,230 --> 00:09:25,019
had a big kind of a barbed wire in a

235
00:09:28,910 --> 00:09:27,240
chain link well barbed wire on top of

236
00:09:30,769 --> 00:09:28,920
the big chain link fence a six foot tall

237
00:09:33,470 --> 00:09:30,779
fence with two feet of Bob wire on it

238
00:09:35,690 --> 00:09:33,480

and my dad had to climb under it and the

239

00:09:37,610 --> 00:09:35,700

rest of them didn't go in and it it

240

00:09:39,590 --> 00:09:37,620

surrounds about one acre of the site and

241

00:09:41,870 --> 00:09:39,600

the barbed wire fence was put up in the

242

00:09:43,250 --> 00:09:41,880

1930s So my aunt and uncle might have

243

00:09:44,449 --> 00:09:43,260

been there just before that was put up

244

00:09:46,730 --> 00:09:44,459

but it was put up with the first

245

00:09:48,829 --> 00:09:46,740

researcher to protect the site so my dad

246

00:09:50,090 --> 00:09:48,839

climbed under it he got lost for quite a

247

00:09:52,009 --> 00:09:50,100

while wow and they stood outside

248

00:09:54,290 --> 00:09:52,019

wondering what he was doing and he

249

00:09:56,090 --> 00:09:54,300

finally emerged he was just beside

250

00:09:58,850 --> 00:09:56,100

himself so thrilled about the society

251
00:09:59,930 --> 00:09:58,860
you know it was just amazing to him you

252
00:10:02,389 --> 00:09:59,940
know and again he had never seen

253
00:10:04,610 --> 00:10:02,399
anything like that and he said like to

254
00:10:06,410 --> 00:10:04,620
uh get involved with the research maybe

255
00:10:08,389 --> 00:10:06,420
study it

256
00:10:10,550 --> 00:10:08,399
um and maybe open it to the public and

257
00:10:12,829 --> 00:10:10,560
because my mom's response was something

258
00:10:14,690 --> 00:10:12,839
about you got rocks in your head and

259
00:10:16,190 --> 00:10:14,700
that's because you know I had a sister

260
00:10:19,250 --> 00:10:16,200
on the way they had just built the house

261
00:10:21,470 --> 00:10:19,260
he was an ATT uh Bell Labs engineer and

262
00:10:23,389 --> 00:10:21,480
he just started that job two years prior

263
00:10:25,009 --> 00:10:23,399

that he had a lot going on and I think

264

00:10:26,509 --> 00:10:25,019

the last thing my mom wanted to do is

265

00:10:27,290 --> 00:10:26,519

get involved with something else like

266

00:10:29,389 --> 00:10:27,300

that

267

00:10:32,329 --> 00:10:29,399

and then over the next few years my dad

268

00:10:34,790 --> 00:10:32,339

met the owner worked out the business

269

00:10:37,130 --> 00:10:34,800

Arrangement and he leased the property

270

00:10:40,190 --> 00:10:37,140

20 acres and then he opened it up again

271

00:10:42,050 --> 00:10:40,200

on the summer solstice of 1958 and the

272

00:10:43,310 --> 00:10:42,060

name at the time I didn't know this

273

00:10:45,350 --> 00:10:43,320

until a couple years ago I always

274

00:10:46,730 --> 00:10:45,360

thought it was mystery Hill caves it was

275

00:10:47,990 --> 00:10:46,740

actually called The Stone ruins of New

276

00:10:50,930 --> 00:10:48,000

Hampshire that was the official name of

277

00:10:52,910 --> 00:10:50,940

it and during the winter of 58 59 they

278

00:10:55,790 --> 00:10:52,920

uh went back and they changed the name

279

00:10:57,590 --> 00:10:55,800

to Mr Hill caves so it was the stone

280

00:11:01,190 --> 00:10:57,600

runes or New Hampshire after that doing

281

00:11:03,829 --> 00:11:01,200

business as uh Mr Bill caves and by 60

282

00:11:06,050 --> 00:11:03,839

1963 they changed the name to mystery

283

00:11:07,069 --> 00:11:06,060

Hill uh the word caves confused people

284

00:11:09,110 --> 00:11:07,079

they thought they're going to go see

285

00:11:10,730 --> 00:11:09,120

some natural caves in the rock you know

286

00:11:12,889 --> 00:11:10,740

and these are actually man-made Chambers

287

00:11:14,509 --> 00:11:12,899

and I believe the magazine that's

288

00:11:16,970 --> 00:11:14,519

probably still there something about the

289

00:11:20,210 --> 00:11:16,980

uh the American cave Association or

290

00:11:22,430 --> 00:11:20,220

something had a cave uh magazine they

291

00:11:25,069 --> 00:11:22,440

put out and they listed us which was

292

00:11:26,750 --> 00:11:25,079

nice and then in 63 they they listed us

293

00:11:28,670 --> 00:11:26,760

as man-made caves I guess so they

294

00:11:31,850 --> 00:11:28,680

changed the they changed it a little bit

295

00:11:33,889 --> 00:11:31,860

to avoid some confusion so that's how my

296

00:11:36,350 --> 00:11:33,899

dad got involved with it man it's been

297

00:11:39,170 --> 00:11:36,360

in our family now you know uh 65 years

298

00:11:42,110 --> 00:11:39,180

and I have a son who's kind of involved

299

00:11:44,210 --> 00:11:42,120

with it uh he is an engineer at Raytheon

300

00:11:46,610 --> 00:11:44,220

uh and he has a daughter our

301
00:11:49,490 --> 00:11:46,620
granddaughter uh and she's the fourth

302
00:11:51,530 --> 00:11:49,500
generation she's gonna be three on um in

303
00:11:53,329 --> 00:11:51,540
September so she's growing up very

304
00:11:55,490 --> 00:11:53,339
quickly but she's there about four days

305
00:12:00,769 --> 00:11:55,500
a week with us working she's the boss

306
00:12:01,550 --> 00:12:00,779
now no how does I can only imagine

307
00:12:08,210 --> 00:12:01,560
um

308
00:12:09,829 --> 00:12:08,220
so you're five seven eight years old you

309
00:12:12,230 --> 00:12:09,839
and your brothers and your friends you

310
00:12:15,829 --> 00:12:12,240
go off in your adventures and walk or

311
00:12:18,530 --> 00:12:15,839
ride your Schwinn stingrays around all

312
00:12:20,389 --> 00:12:18,540
day long and and go and find stuff well

313
00:12:23,090 --> 00:12:20,399

I gotta tell you I never had America's

314

00:12:26,509 --> 00:12:23,100

Stonehenge uh to to play around in

315

00:12:29,810 --> 00:12:26,519

growing up that just must have been the

316

00:12:33,170 --> 00:12:29,820

most fascinating cool thing ever as as a

317

00:12:37,009 --> 00:12:33,180

boy take me through that I mean talk

318

00:12:39,050 --> 00:12:37,019

about Adventure City right yeah I mean

319

00:12:41,509 --> 00:12:39,060

we all love the little Indiana Jones and

320

00:12:43,850 --> 00:12:41,519

Adventure uh ex you know it's a mystery

321

00:12:45,650 --> 00:12:43,860

too and everybody loves a mystery

322

00:12:49,430 --> 00:12:45,660

um and my Recollections are actually

323

00:12:51,889 --> 00:12:49,440

being there when in 1959 uh we drove up

324

00:12:55,009 --> 00:12:51,899

to the top of the hill my dad's um he

325

00:12:58,310 --> 00:12:55,019

had a Renault and uh she actually is 58

326

00:13:01,009 --> 00:12:58,320

and uh probably had been there in 55 as

327

00:13:02,690 --> 00:13:01,019

a baby but that's where we opened it and

328

00:13:04,250 --> 00:13:02,700

I remember that recollection I guess I

329

00:13:07,790 --> 00:13:04,260

was old enough that four direct remember

330

00:13:10,069 --> 00:13:07,800

that and in 1959 uh the Saturday evening

331

00:13:12,470 --> 00:13:10,079

posted a big thing in the town of Salem

332

00:13:13,970 --> 00:13:12,480

and it was mystery Hill week at the

333

00:13:15,710 --> 00:13:13,980

racetrack they had a horse running for

334

00:13:16,970 --> 00:13:15,720

us and everything he had a big manner so

335

00:13:18,710 --> 00:13:16,980

that kind of stuff was exciting but

336

00:13:20,690 --> 00:13:18,720

seeing the stone structures walking into

337

00:13:22,129 --> 00:13:20,700

the cave seeing all the all the

338

00:13:24,170 --> 00:13:22,139

different features of the site was

339

00:13:28,610 --> 00:13:24,180

exciting I brought my friends there from

340

00:13:30,290 --> 00:13:28,620

dairy as kids and um and then kind of

341

00:13:32,810 --> 00:13:30,300

growing up I did work around there too

342

00:13:35,210 --> 00:13:32,820

we were you know cleaning up picking up

343

00:13:38,810 --> 00:13:35,220

putting bumper stickers on cars starting

344

00:13:40,610 --> 00:13:38,820

in 1968 with my cousin and his parents

345

00:13:43,129 --> 00:13:40,620

are the ones that you know showed my dad

346

00:13:44,810 --> 00:13:43,139

the site and uh it was just a lot of fun

347

00:13:47,030 --> 00:13:44,820

you know and again a lot of mystery in

348

00:13:49,310 --> 00:13:47,040

my recollection of our vacations however

349

00:13:52,610 --> 00:13:49,320

going through the 60s into the probably

350

00:13:54,530 --> 00:13:52,620

early 70s uh were you know not a trip to

351

00:13:56,210 --> 00:13:54,540

like an amusement park or maybe a beach

352

00:13:57,949 --> 00:13:56,220

or Florida it was to go see some of

353

00:13:59,569 --> 00:13:57,959

these ruins elsewhere you know that was

354

00:14:01,490 --> 00:13:59,579

and as a kid you know you want to

355

00:14:03,710 --> 00:14:01,500

probably go to Disneyland or something

356

00:14:05,449 --> 00:14:03,720

but as I get older I started to really

357

00:14:07,190 --> 00:14:05,459

appreciate it you know and seeing these

358

00:14:09,230 --> 00:14:07,200

different structures around the around

359

00:14:11,930 --> 00:14:09,240

the countryside they started being I

360

00:14:13,670 --> 00:14:11,940

guess they more important to me uh the

361

00:14:16,129 --> 00:14:13,680

meaning of them the mystery of them what

362

00:14:19,850 --> 00:14:16,139

they could represent you know so we

363

00:14:21,829 --> 00:14:19,860

always had a lot of fun and by 72 uh I

364

00:14:24,290 --> 00:14:21,839

was uh let's see I was eight 18 years

365

00:14:28,069 --> 00:14:24,300

old and just graduating from high school

366

00:14:29,629 --> 00:14:28,079

and we actually uh we actually watched

367

00:14:31,550 --> 00:14:29,639

the Planet of the Apes on the

368

00:14:33,769 --> 00:14:31,560

sacrificial table with a black and white

369

00:14:35,329 --> 00:14:33,779

TV we had electricity up there back in

370

00:14:37,910 --> 00:14:35,339

those days so we can illuminate some of

371

00:14:39,350 --> 00:14:37,920

the chambers and a whole bunch of us all

372

00:14:41,329 --> 00:14:39,360

the guides you know and some friends

373

00:14:43,310 --> 00:14:41,339

came along too probably about seven or

374

00:14:44,810 --> 00:14:43,320

eight of us we actually went up there we

375

00:14:46,970 --> 00:14:44,820

sat around the table and watched the

376

00:14:49,129 --> 00:14:46,980

Planet of the Apes and then that evening

377

00:14:52,189 --> 00:14:49,139

we stayed overnight inside the Oracle

378

00:14:53,569 --> 00:14:52,199

chamber we had cots and sleeping bags so

379

00:14:55,850 --> 00:14:53,579

that's one of the ones I remember from

380

00:14:57,530 --> 00:14:55,860

51 years ago so much fun you know he did

381

00:15:00,650 --> 00:14:57,540

that kind of stuff his teenagers too you

382

00:15:03,350 --> 00:15:00,660

know and uh but I became a guide in 1970

383

00:15:04,490 --> 00:15:03,360

so starting in 70 I was a guy just

384

00:15:07,009 --> 00:15:04,500

before that I was putting bumper

385

00:15:08,269 --> 00:15:07,019

stickers on and and then um then I got

386

00:15:10,370 --> 00:15:08,279

into my flying career but I always

387

00:15:12,110 --> 00:15:10,380

worked on my days off pretty much at the

388

00:15:14,949 --> 00:15:12,120

Museum you know I never really left it

389

00:15:18,310 --> 00:15:14,959

all those for all these years you know

390

00:15:24,590 --> 00:15:18,320

the uh help me understand

391

00:15:27,889 --> 00:15:24,600

uh the chain of custody of of the site

392

00:15:30,889 --> 00:15:27,899

um you mentioned it was leased

393

00:15:33,410 --> 00:15:30,899

um and I mean what it was it on private

394

00:15:35,810 --> 00:15:33,420

property and if it was leased was at

395

00:15:39,650 --> 00:15:35,820

least from the state or was at least

396

00:15:42,110 --> 00:15:39,660

from an owner uh I uh I I just want to

397

00:15:44,689 --> 00:15:42,120

understand it you know who owns it now

398

00:15:47,329 --> 00:15:44,699

too as well yeah right

399

00:15:50,329 --> 00:15:47,339

um we do own it um the property

400

00:15:52,370 --> 00:15:50,339

um we do have the records going back to

401
00:15:53,689 --> 00:15:52,380
uh when it was part of Haverhill

402
00:15:55,790 --> 00:15:53,699
Massachusetts it was called the

403
00:15:59,389 --> 00:15:55,800
Haverhill Peak and the Haverhill

404
00:16:01,189 --> 00:15:59,399
Proprietors had controlled this area and

405
00:16:02,990 --> 00:16:01,199
there's actually names of two Native

406
00:16:04,790 --> 00:16:03,000
Americans in the history of Salem which

407
00:16:06,590 --> 00:16:04,800
was written in 1907 and I have three

408
00:16:08,509 --> 00:16:06,600
copies of really thick books and our

409
00:16:11,569 --> 00:16:08,519
site's mentioned in that it was written

410
00:16:13,009 --> 00:16:11,579
by a gentleman named um Edgar Gilbert he

411
00:16:14,389 --> 00:16:13,019
was a friend of Robert Frost and they

412
00:16:16,370 --> 00:16:14,399
used to work together in the Mills down

413
00:16:18,290 --> 00:16:16,380

in Lawrence Massachusetts about 15 miles

414

00:16:20,329 --> 00:16:18,300

south of here in fact my grandfather had

415

00:16:22,610 --> 00:16:20,339

Robert Frost for a high school teacher

416

00:16:25,550 --> 00:16:22,620

too but uh Edgar Gilbert finished a book

417

00:16:27,530 --> 00:16:25,560

in 1907 and he describes a site back

418

00:16:29,569 --> 00:16:27,540

then as a wonderful but strange Place

419

00:16:31,250 --> 00:16:29,579

among the soft Pines and the rough

420

00:16:33,949 --> 00:16:31,260

Boulders where strange tails may be

421

00:16:35,750 --> 00:16:33,959

woven so as part of the behavioral Peak

422

00:16:37,490 --> 00:16:35,760

they purchased it from two Native

423

00:16:39,170 --> 00:16:37,500

Americans it talks how many shillings

424

00:16:41,810 --> 00:16:39,180

and how many pennies they paid for it

425

00:16:44,870 --> 00:16:41,820

actually that was recorded

426

00:16:48,009 --> 00:16:44,880

um now the first owner was actually a

427

00:16:51,050 --> 00:16:48,019

gentleman named Seth Patty and in 1734

428

00:16:52,610 --> 00:16:51,060

he purchased a piece of the hill we

429

00:16:55,189 --> 00:16:52,620

don't think it contained the main site

430

00:16:56,629 --> 00:16:55,199

where most of the ruins are located but

431

00:16:59,810 --> 00:16:56,639

a piece of the Hill

432

00:17:01,370 --> 00:16:59,820

by 1741 New Hampshire and mass although

433

00:17:03,650 --> 00:17:01,380

New Hampshire really didn't become a

434

00:17:05,270 --> 00:17:03,660

state until 1788 it was still this

435

00:17:07,970 --> 00:17:05,280

territory here in New Hampshire I guess

436

00:17:09,949 --> 00:17:07,980

and they settled the boundary on the

437

00:17:11,569 --> 00:17:09,959

Southeast corner of New Hampshire at

438

00:17:14,110 --> 00:17:11,579

that moment we were no longer part of

439

00:17:16,909 --> 00:17:14,120

Massachusetts we are now New Hampshire

440

00:17:18,890 --> 00:17:16,919

and there's no no longer part of

441

00:17:20,030 --> 00:17:18,900

Haverhill it was now called the Salem

442

00:17:22,970 --> 00:17:20,040

District

443

00:17:25,189 --> 00:17:22,980

and three years later in 1744 that same

444

00:17:27,829 --> 00:17:25,199

Seth Patty bought more of the Hill

445

00:17:30,169 --> 00:17:27,839

including the main site and he comes

446

00:17:31,909 --> 00:17:30,179

from a family of shoemakers his great

447

00:17:35,150 --> 00:17:31,919

grandfather Peter came from England to

448

00:17:37,430 --> 00:17:35,160

Virginia came up to Salem Mass uh he had

449

00:17:39,409 --> 00:17:37,440

a son named Richard who he left behind

450

00:17:41,810 --> 00:17:39,419

in Virginia and his wife and it became

451

00:17:43,370 --> 00:17:41,820

kind of a little controversial he didn't

452

00:17:46,070 --> 00:17:43,380

leave him in a ban him he just came up

453

00:17:48,470 --> 00:17:46,080

here to for work uh he kept sending for

454

00:17:51,169 --> 00:17:48,480

his wife and his his first son and he

455

00:17:52,730 --> 00:17:51,179

and she didn't never came back

456

00:17:54,470 --> 00:17:52,740

um he married again and he had some

457

00:17:55,970 --> 00:17:54,480

other children also and Richard shows up

458

00:17:57,710 --> 00:17:55,980

one day and it was usually the oldest

459

00:17:58,970 --> 00:17:57,720

child that got the inheritance so I'm

460

00:18:01,909 --> 00:17:58,980

not sure what type of problem that

461

00:18:04,669 --> 00:18:01,919

created but Richard uh was a Shoemaker

462

00:18:06,710 --> 00:18:04,679

also uh then it was Seth I mentioned and

463

00:18:09,169 --> 00:18:06,720

then Seth Jr

464

00:18:10,490 --> 00:18:09,179

um it was probably Seth Jr and there was

465

00:18:11,930 --> 00:18:10,500

another gentleman in there to forget the

466

00:18:14,090 --> 00:18:11,940

gentleman's name another relative that

467

00:18:15,950 --> 00:18:14,100

had the property for a brief time but

468

00:18:17,930 --> 00:18:15,960

then Seth Jr ended up with it we think

469

00:18:22,310 --> 00:18:17,940

he built the wooden house on the main

470

00:18:24,590 --> 00:18:22,320

site and again he was a Shoemaker and he

471

00:18:28,549 --> 00:18:24,600

went to the Revolutionary War that he

472

00:18:30,350 --> 00:18:28,559

got hurt he died in 1788 and Jonathan

473

00:18:33,230 --> 00:18:30,360

his son who everybody thinks built our

474

00:18:36,590 --> 00:18:33,240

site his name is Jonathan Patty uh was

475

00:18:38,090 --> 00:18:36,600

just a very young boy at the time so the

476

00:18:39,830 --> 00:18:38,100

mother ended up marrying like a second

477

00:18:41,870 --> 00:18:39,840

cousin named uh forget the first name

478

00:18:44,330 --> 00:18:41,880

his name was Corliss and she became a

479

00:18:46,070 --> 00:18:44,340

Corless I believe she moved away from

480

00:18:48,049 --> 00:18:46,080

this house to his farm

481

00:18:51,250 --> 00:18:48,059

and what happened to the house for a few

482

00:18:54,110 --> 00:18:51,260

years we don't know but by 1801

483

00:18:56,690 --> 00:18:54,120

Jonathan's mom Betsy gave the land to

484

00:18:59,390 --> 00:18:56,700

him in the home in a quick claim so he

485

00:19:02,029 --> 00:18:59,400

moved there with his family uh in 1802.

486

00:19:04,610 --> 00:19:02,039

and again he was a Shoemaker but he also

487

00:19:07,430 --> 00:19:04,620

was a road surveyor for for the town of

488

00:19:08,930 --> 00:19:07,440

Salem he took uh he was a tax collector

489

00:19:12,049 --> 00:19:08,940

for three years I'm sure everybody was

490

00:19:15,409 --> 00:19:12,059

happy to see him coming down the road

491

00:19:17,330 --> 00:19:15,419

um but he also later on uh became

492

00:19:20,390 --> 00:19:17,340

involved with the underground Railway

493

00:19:22,909 --> 00:19:20,400

but the just prior to that he was a uh

494

00:19:26,090 --> 00:19:22,919

took in the town poppers from 1831 to

495

00:19:27,770 --> 00:19:26,100

1836. he had as many as 11 people that

496

00:19:29,210 --> 00:19:27,780

he took care of and he was paid he put a

497

00:19:30,950 --> 00:19:29,220

bid in with the town he actually had the

498

00:19:32,690 --> 00:19:30,960

book written in 1837 the whole

499

00:19:34,610 --> 00:19:32,700

handwritten book it talks about the

500

00:19:37,490 --> 00:19:34,620

different people that put bids in and

501
00:19:40,190 --> 00:19:37,500
who awarded you know the care of these

502
00:19:41,930 --> 00:19:40,200
Town poppers to take care of them and

503
00:19:44,690 --> 00:19:41,940
Patty one year made something like 360

504
00:19:46,370 --> 00:19:44,700
dollars which probably in you know 1831

505
00:19:48,830 --> 00:19:46,380
or two or three was a lot of money you

506
00:19:51,110 --> 00:19:48,840
know back in those days he did have two

507
00:19:53,330 --> 00:19:51,120
sons one of his sons was named Jonathan

508
00:19:56,270 --> 00:19:53,340
he died in Boston for some reason at

509
00:19:58,850 --> 00:19:56,280
going on 18 years old and he had a son

510
00:20:00,310 --> 00:19:58,860
named Seth that survived and grew into

511
00:20:04,789 --> 00:20:00,320
adulthood

512
00:20:07,789 --> 00:20:04,799
uh when Jonathan uh passed away uh in

513
00:20:10,090 --> 00:20:07,799

1849 his wife of course had the house

514

00:20:13,430 --> 00:20:10,100

and everything but eventually the will

515

00:20:15,409 --> 00:20:13,440

was lost so the house went to Seth his

516

00:20:17,690 --> 00:20:15,419

son it was actually meant to go to

517

00:20:19,310 --> 00:20:17,700

George the grandson for some reason so

518

00:20:22,270 --> 00:20:19,320

we have a pretty good you know

519

00:20:24,650 --> 00:20:22,280

chronology going way back to the about

520

00:20:26,630 --> 00:20:24,660

1672 I think it was something like that

521

00:20:28,789 --> 00:20:26,640

when the Haverhill Peak bought the land

522

00:20:30,950 --> 00:20:28,799

from the Native Americans uh going

523

00:20:32,630 --> 00:20:30,960

through the Paddy era but it's Jonathan

524

00:20:35,029 --> 00:20:32,640

everybody likes to say well Jonathan was

525

00:20:37,610 --> 00:20:35,039

crazy eccentric he was a bootlegger bank

526

00:20:39,890 --> 00:20:37,620

robber mail robber hiding from the feds

527

00:20:42,890 --> 00:20:39,900

but those are all you know those are all

528

00:20:45,590 --> 00:20:42,900

the just tails you know they're not

529

00:20:48,650 --> 00:20:45,600

based on Legend they're actually myths

530

00:20:50,690 --> 00:20:48,660

you know it I you could never admit you

531

00:20:52,310 --> 00:20:50,700

could never not find the hill it stands

532

00:20:54,169 --> 00:20:52,320

out like a sore thumb in one of the

533

00:20:57,110 --> 00:20:54,179

roads went right by the Paddy's house

534

00:20:59,090 --> 00:20:57,120

called the Boston Post Road he couldn't

535

00:21:00,770 --> 00:20:59,100

be hiding from too many people you know

536

00:21:02,930 --> 00:21:00,780

you would see the house you see the

537

00:21:05,270 --> 00:21:02,940

ruins on the hill

538

00:21:07,250 --> 00:21:05,280

um during that time of the paddish

539

00:21:10,909 --> 00:21:07,260

however maybe about a third of the site

540

00:21:12,110 --> 00:21:10,919

unfortunately was taken away uh there

541

00:21:13,730 --> 00:21:12,120

were Quarrymen that would actually take

542

00:21:16,850 --> 00:21:13,740

the stones away they use it for local

543

00:21:18,650 --> 00:21:16,860

building projects uh they came according

544

00:21:20,990 --> 00:21:18,660

to one history book three years in a row

545

00:21:21,890 --> 00:21:21,000

to a cat load after cat load of rock off

546

00:21:23,930 --> 00:21:21,900

the hill

547

00:21:26,029 --> 00:21:23,940

and it happens to so many sites around

548

00:21:27,710 --> 00:21:26,039

the world you visit you know I mean even

549

00:21:30,049 --> 00:21:27,720

the pyramids in Egypt are missing their

550

00:21:32,029 --> 00:21:30,059

Limestone caps but it I've been into a

551
00:21:33,049 --> 00:21:32,039
number of sites in in Ireland and stuff

552
00:21:34,970 --> 00:21:33,059
it's like what happened to that

553
00:21:36,590 --> 00:21:34,980
structure it's only partly there oh they

554
00:21:37,970 --> 00:21:36,600
removed some of it to build roads you

555
00:21:41,690 --> 00:21:37,980
know and we were just visiting some of

556
00:21:43,250 --> 00:21:41,700
the Mounds uh in Ohio uh on our vacation

557
00:21:44,690 --> 00:21:43,260
and I've been wanting to get there for

558
00:21:46,789 --> 00:21:44,700
years some of the Mounds are completely

559
00:21:48,770 --> 00:21:46,799
rebuilt today they were plowed under and

560
00:21:50,870 --> 00:21:48,780
you go to some of them it's like you see

561
00:21:53,930 --> 00:21:50,880
it most of it's gone today because it's

562
00:21:55,909 --> 00:21:53,940
been plowed under by agriculture

563
00:21:57,230 --> 00:21:55,919

um and then they have restored a few of

564

00:21:58,370 --> 00:21:57,240

the Mounds you know and I didn't realize

565

00:22:01,310 --> 00:21:58,380

to the extent that they did that

566

00:22:03,230 --> 00:22:01,320

magnificent Earthworks but our site

567

00:22:05,210 --> 00:22:03,240

suffered that too you know people took

568

00:22:07,010 --> 00:22:05,220

Stones away

569

00:22:09,049 --> 00:22:07,020

um so that was during the Patty area

570

00:22:13,149 --> 00:22:09,059

they're probably either Jonathan or her

571

00:22:21,010 --> 00:22:15,830

Dennis let me jump in for a second sure

572

00:22:24,649 --> 00:22:21,020

was there a chat uh was everybody aware

573

00:22:26,950 --> 00:22:24,659

of the stone Arrangements uh throughout

574

00:22:30,770 --> 00:22:26,960

the history of owning the site

575

00:22:33,649 --> 00:22:30,780

you know did it exist like it does today

576

00:22:36,770 --> 00:22:33,659

the outside walls covering um

577

00:22:39,590 --> 00:22:36,780

oh the walls basically cover the entire

578

00:22:41,029 --> 00:22:39,600

Hill uh it was a main site that suffered

579

00:22:42,890 --> 00:22:41,039

most of the damage you can see the

580

00:22:44,510 --> 00:22:42,900

modern drill marks uh they used a

581

00:22:46,789 --> 00:22:44,520

plug-in feather they use a star drill

582

00:22:47,930 --> 00:22:46,799

which started around 1780 that

583

00:22:50,330 --> 00:22:47,940

technology

584

00:22:52,190 --> 00:22:50,340

so that's where a lot of damage was done

585

00:22:54,950 --> 00:22:52,200

but the outside walls

586

00:22:56,930 --> 00:22:54,960

except for where trees fell on them and

587

00:22:59,450 --> 00:22:56,940

other you know just earthquake damage

588

00:23:03,049 --> 00:22:59,460

and time you know the walls are still

589

00:23:06,230 --> 00:23:03,059

there today and they contain standing

590

00:23:07,909 --> 00:23:06,240

Stones we call monoliths they contain uh

591

00:23:10,370 --> 00:23:07,919

some of the other features we'll get

592

00:23:11,990 --> 00:23:10,380

into uh they cover the entire Hill and

593

00:23:14,270 --> 00:23:12,000

we you brought up the word uh serpent

594

00:23:17,090 --> 00:23:14,280

walls a little while ago uh they're all

595

00:23:18,890 --> 00:23:17,100

over the hill we have 14 of them uh

596

00:23:20,870 --> 00:23:18,900

Windows these are windows built into the

597

00:23:23,990 --> 00:23:20,880

stone walls we think we have 22 of them

598

00:23:25,850 --> 00:23:24,000

today my dad died in 09 and he didn't

599

00:23:27,890 --> 00:23:25,860

know anything about these but when he

600

00:23:29,210 --> 00:23:27,900

first came to our site he looked at

601
00:23:31,190 --> 00:23:29,220
those walls and they were kind of deep

602
00:23:33,710 --> 00:23:31,200
into the woods and when Goodwin the

603
00:23:35,390 --> 00:23:33,720
first archaeologist visited in 1936 we

604
00:23:38,450 --> 00:23:35,400
can talk about Goodwin

605
00:23:39,950 --> 00:23:38,460
um and if you know and he uh he knew the

606
00:23:41,810 --> 00:23:39,960
walls were out there too and he made

607
00:23:43,909 --> 00:23:41,820
comments because he wrote four books

608
00:23:46,370 --> 00:23:43,919
about these walls looking a little

609
00:23:49,250 --> 00:23:46,380
peculiar Farmers walls are usually

610
00:23:51,049 --> 00:23:49,260
fairly linear with some exceptions a lot

611
00:23:54,710 --> 00:23:51,059
of field stones and they used it for

612
00:23:56,330 --> 00:23:54,720
boundaries fences uh as well as uh just

613
00:23:57,830 --> 00:23:56,340

clearing up the land getting rid of the

614

00:24:00,350 --> 00:23:57,840

Rocks you know sometimes they served all

615

00:24:02,990 --> 00:24:00,360

three purposes in New England the wall

616

00:24:06,049 --> 00:24:03,000

beginning building begins in the 1700s

617

00:24:08,690 --> 00:24:06,059

which before they use a lot of uh wooden

618

00:24:10,430 --> 00:24:08,700

fences I guess but so in the 1700s while

619

00:24:13,730 --> 00:24:10,440

building begins and today we have about

620

00:24:15,590 --> 00:24:13,740

240 000 miles of historic walls across

621

00:24:16,909 --> 00:24:15,600

New England they say it's the most walls

622

00:24:18,230 --> 00:24:16,919

of anywhere on Earth I've been to

623

00:24:20,090 --> 00:24:18,240

Ireland and I'm like I think Ireland

624

00:24:22,370 --> 00:24:20,100

probably had you know they're everywhere

625

00:24:24,289 --> 00:24:22,380

but New England is the uh has the record

626
00:24:26,570 --> 00:24:24,299
I guess you could go to the Moon Without

627
00:24:28,490 --> 00:24:26,580
Walls and just beyond that but those are

628
00:24:30,770 --> 00:24:28,500
historic walls and we know about those

629
00:24:34,250 --> 00:24:30,780
but these walls have a whole different

630
00:24:35,690 --> 00:24:34,260
flavor they turn they twist they Bend uh

631
00:24:38,690 --> 00:24:35,700
and now that we found the serpentine

632
00:24:40,669 --> 00:24:38,700
features that's a whole different thing

633
00:24:42,230 --> 00:24:40,679
um and I started finding those in 2016

634
00:24:45,409 --> 00:24:42,240
the year I retired from the from

635
00:24:47,149 --> 00:24:45,419
American uh I was a captain there and uh

636
00:24:48,470 --> 00:24:47,159
I certainly didn't get bored you know I

637
00:24:51,110 --> 00:24:48,480
thought I might because I love flying I

638
00:24:52,549 --> 00:24:51,120

did it for 42 years but I uh starting to

639

00:24:54,770 --> 00:24:52,559

find these walls it looked a little bit

640

00:24:57,649 --> 00:24:54,780

like serpents with a head body and tail

641

00:24:59,149 --> 00:24:57,659

in the spring of 2016. about a couple of

642

00:25:00,490 --> 00:24:59,159

them then I had Scott Walters you may

643

00:25:03,409 --> 00:25:00,500

have heard of Scott

644

00:25:05,510 --> 00:25:03,419

and he was he was up with Allen Butler

645

00:25:08,450 --> 00:25:05,520

from England their wives uh nice

646

00:25:10,250 --> 00:25:08,460

Entourage that probably made perhaps of

647

00:25:12,649 --> 00:25:10,260

2016. I said I'm going to show you guys

648

00:25:14,690 --> 00:25:12,659

something and they walked around I gave

649

00:25:16,010 --> 00:25:14,700

a little VIP tour and Scott had been

650

00:25:17,810 --> 00:25:16,020

there many times and I said look what

651

00:25:20,390 --> 00:25:17,820

I'm finding here this thing seems to

652

00:25:22,130 --> 00:25:20,400

have a head a body and a tail I think

653

00:25:23,330 --> 00:25:22,140

it's Serpentine but I have no frame of

654

00:25:25,190 --> 00:25:23,340

reference I've never heard of a

655

00:25:26,570 --> 00:25:25,200

serpentine wall I was familiar with the

656

00:25:28,010 --> 00:25:26,580

serpent modern Ohio which we just

657

00:25:30,590 --> 00:25:28,020

visited I've you know I heard about that

658

00:25:32,269 --> 00:25:30,600

years ago but I said these and when they

659

00:25:33,230 --> 00:25:32,279

looked at them uh like Alan Butler and

660

00:25:35,510 --> 00:25:33,240

his wife and everything they're standing

661

00:25:37,190 --> 00:25:35,520

there going like wow I think there's

662

00:25:39,890 --> 00:25:37,200

something going here with these walls

663

00:25:43,370 --> 00:25:39,900

they do like Serpentine and shape

664

00:25:45,289 --> 00:25:43,380

so they're all over the hilltop uh but

665

00:25:47,630 --> 00:25:45,299

most of the damage again was on the main

666

00:25:49,310 --> 00:25:47,640

site fortunately they didn't go out and

667

00:25:50,990 --> 00:25:49,320

tear the walls apart they might have

668

00:25:52,190 --> 00:25:51,000

broke through a few taking rocks out of

669

00:25:54,470 --> 00:25:52,200

there you know knocking the wall down

670

00:25:56,149 --> 00:25:54,480

here and there but uh fortunately the

671

00:25:57,769 --> 00:25:56,159

woods kind of protected a lot of that

672

00:25:59,510 --> 00:25:57,779

those features they were just hidden out

673

00:26:01,789 --> 00:25:59,520

in the woods

674

00:26:03,409 --> 00:26:01,799

um but I was going to mention to Patty

675

00:26:05,330 --> 00:26:03,419

when Patty was there he actually sold

676

00:26:07,190 --> 00:26:05,340

off the Rocks he was a tax collector

677

00:26:08,810 --> 00:26:07,200

there was a quarry text he knew that if

678

00:26:10,669 --> 00:26:08,820

he sold the rocks it recorded by an

679

00:26:12,230 --> 00:26:10,679

ancient culture they wouldn't tax him on

680

00:26:13,850 --> 00:26:12,240

it so there's a little he made a little

681

00:26:16,330 --> 00:26:13,860

bit more money doing that too you know

682

00:26:20,450 --> 00:26:16,340

from what we understand from the records

683

00:26:23,390 --> 00:26:20,460

yes Scott and I Scott Walter and I uh

684

00:26:24,669 --> 00:26:23,400

were uh on a cruise to Mexico a couple

685

00:26:27,890 --> 00:26:24,679

of months ago

686

00:26:31,850 --> 00:26:27,900

and we were sitting

687

00:26:34,970 --> 00:26:31,860

um on the balcony of my stateroom one

688

00:26:36,409 --> 00:26:34,980

night and it was right in the middle of

689

00:26:38,930 --> 00:26:36,419

the Pacific Ocean

690

00:26:42,890 --> 00:26:38,940

and uh and we were sitting there talking

691

00:26:44,750 --> 00:26:42,900

and he he brought you up and America's

692

00:26:46,990 --> 00:26:44,760

Stonehenge and you know Scott I gotta

693

00:26:49,430 --> 00:26:47,000

tell you Jimmy I gotta tell you America

694

00:26:51,409 --> 00:26:49,440

I gotta tell you man that's the site

695

00:26:54,289 --> 00:26:51,419

that's the place that's that's where

696

00:26:56,450 --> 00:26:54,299

it's happening and and Scott and I uh

697

00:27:00,350 --> 00:26:56,460

spent quite a bit of time uh talking

698

00:27:02,570 --> 00:27:00,360

about America Stonehenge now I am I'm

699

00:27:05,870 --> 00:27:02,580

gonna pop up a picture

700

00:27:08,930 --> 00:27:05,880

uh we've got we've got a few but so

701
00:27:11,330 --> 00:27:08,940
everybody can start to understand uh not

702
00:27:12,710 --> 00:27:11,340
only how cool the site is but how

703
00:27:14,570 --> 00:27:12,720
important it is and what we're talking

704
00:27:17,149 --> 00:27:14,580
about so

705
00:27:20,810 --> 00:27:17,159
um here's this first image that you sent

706
00:27:23,029 --> 00:27:20,820
me and uh what are we looking at here

707
00:27:25,610 --> 00:27:23,039
hey Jimmy that's kind of the center of

708
00:27:28,130 --> 00:27:25,620
the main site that's within the chain

709
00:27:29,870 --> 00:27:28,140
link fence the one acre area and you're

710
00:27:31,130 --> 00:27:29,880
looking at the plaza here what we call a

711
00:27:33,830 --> 00:27:31,140
plaza area you actually have both the

712
00:27:35,390 --> 00:27:33,840
plaza area and we have a Courtyard area

713
00:27:37,130 --> 00:27:35,400

and we have a number of Chambers

714

00:27:39,529 --> 00:27:37,140

including the one you're looking at and

715

00:27:41,330 --> 00:27:39,539

you can see the structure has uh roof

716

00:27:42,590 --> 00:27:41,340

slabs made out of stone not wood you

717

00:27:44,149 --> 00:27:42,600

know that's a little different than what

718

00:27:46,010 --> 00:27:44,159

our farmers are doing they build uh

719

00:27:48,169 --> 00:27:46,020

Stone foundations and then they would

720

00:27:50,510 --> 00:27:48,179

put Carriage House or a house on top or

721

00:27:52,549 --> 00:27:50,520

a bond on top or maybe a town meeting

722

00:27:54,890 --> 00:27:52,559

house on top they weren't afraid to move

723

00:27:55,669 --> 00:27:54,900

Stones that's for sure but they usually

724

00:27:57,950 --> 00:27:55,679

used

725

00:27:59,750 --> 00:27:57,960

um uh you know wooden roofs or wooden

726

00:28:01,669 --> 00:27:59,760

structures on top and this has a stone

727

00:28:02,750 --> 00:28:01,679

structure much like what I've seen in

728

00:28:05,210 --> 00:28:02,760

different parts of the world

729

00:28:08,990 --> 00:28:05,220

particularly in Europe but that chamber

730

00:28:13,010 --> 00:28:09,000

runs true East and West the it runs uh

731

00:28:15,289 --> 00:28:13,020

about about 30 feet in length and what

732

00:28:17,090 --> 00:28:15,299

it reminds me of even back in the 70s we

733

00:28:18,890 --> 00:28:17,100

got a Time Life book about make a list

734

00:28:21,289 --> 00:28:18,900

of Europe it was a wonderful book back

735

00:28:23,750 --> 00:28:21,299

then and it really opened up my eyes to

736

00:28:25,330 --> 00:28:23,760

similar structures over in Europe that

737

00:28:28,549 --> 00:28:25,340

we had on our site now it's back around

738

00:28:31,310 --> 00:28:28,559

1976 and in Europe they call them Galley

739

00:28:34,130 --> 00:28:31,320

or Gallery Grays I've been to France and

740

00:28:36,529 --> 00:28:34,140

sarconic and right in that area Karnak

741

00:28:39,350 --> 00:28:36,539

there's Chambers but there's also this

742

00:28:41,750 --> 00:28:39,360

structure and I photographed it uh back

743

00:28:43,789 --> 00:28:41,760

in the 80s I got to get back there and

744

00:28:45,289 --> 00:28:43,799

it looks like our structure I found out

745

00:28:46,669 --> 00:28:45,299

afterwards there are similar ones in

746

00:28:48,830 --> 00:28:46,679

Ireland and when I went my dad to

747

00:28:50,810 --> 00:28:48,840

Ireland we didn't visit that part of

748

00:28:53,149 --> 00:28:50,820

Island we spent the about a week there

749

00:28:55,070 --> 00:28:53,159

there's 2 000 I think megalithic sites

750

00:28:57,350 --> 00:28:55,080

in Ireland they're in the Northwestern

751
00:29:00,830 --> 00:28:57,360
part of Ireland and again they have a

752
00:29:02,630 --> 00:29:00,840
very similar orientation length and uh

753
00:29:05,810 --> 00:29:02,640
size if you will there was just tombs

754
00:29:07,970 --> 00:29:05,820
over there but they're also in Holland

755
00:29:09,769 --> 00:29:07,980
and they call them the Giants bed in

756
00:29:11,810 --> 00:29:09,779
fact our celebration yes today the woman

757
00:29:13,250 --> 00:29:11,820
is from Holland and I talked to her

758
00:29:15,110 --> 00:29:13,260
about the Giant's bed she's been doing

759
00:29:17,870 --> 00:29:15,120
our celebration for 31 years and she

760
00:29:19,370 --> 00:29:17,880
goes back there often and I said and how

761
00:29:21,350 --> 00:29:19,380
do they pronounce that she goes hood and

762
00:29:23,210 --> 00:29:21,360
didn't it's a Giant's bed it's a Dutch

763
00:29:25,610 --> 00:29:23,220

word I guess I always mispronounce it

764

00:29:28,010 --> 00:29:25,620

but uh one of our friends Scott knows

765

00:29:29,930 --> 00:29:28,020

him too I was over there doing one of uh

766

00:29:31,250 --> 00:29:29,940

a new book he was doing research and I

767

00:29:32,630 --> 00:29:31,260

was on messenger with him I said where

768

00:29:33,830 --> 00:29:32,640

are you he goes I'm over in Holland I

769

00:29:35,630 --> 00:29:33,840

said what are you doing there you guys

770

00:29:37,549 --> 00:29:35,640

are doing research for my next book and

771

00:29:39,289 --> 00:29:37,559

I said well are you at one of the sites

772

00:29:40,970 --> 00:29:39,299

he goes yeah I'm at one of the Giants

773

00:29:42,529 --> 00:29:40,980

beds and I said can you tell me the

774

00:29:44,630 --> 00:29:42,539

orientation of that and again it was

775

00:29:47,269 --> 00:29:44,640

true East and West so that structure

776

00:29:49,250 --> 00:29:47,279

there uh is the middle of it if you look

777

00:29:51,409 --> 00:29:49,260

just to the right of that big vertical

778

00:29:53,149 --> 00:29:51,419

slab those are called orthostats those

779

00:29:55,130 --> 00:29:53,159

big slabs in their end you can see three

780

00:29:56,269 --> 00:29:55,140

of them one on the left the one in the

781

00:29:59,090 --> 00:29:56,279

middle and then the one on the right

782

00:30:01,190 --> 00:29:59,100

these are multi-ton slabs and we find

783

00:30:03,110 --> 00:30:01,200

these in the stone walls themselves

784

00:30:05,090 --> 00:30:03,120

surrounding the main site yeah that's

785

00:30:08,029 --> 00:30:05,100

great you could see that

786

00:30:09,590 --> 00:30:08,039

and um in the middle of that that was

787

00:30:11,149 --> 00:30:09,600

some damage by the aquarium and I think

788

00:30:13,909 --> 00:30:11,159

the quarryman removed part of that and

789

00:30:15,470 --> 00:30:13,919

during the 1930s by a Mr Goodwin the

790

00:30:17,510 --> 00:30:15,480

first researcher they actually did some

791

00:30:19,730 --> 00:30:17,520

restoration work fortunately we have

792

00:30:21,409 --> 00:30:19,740

photographs in 1900 we have four

793

00:30:24,350 --> 00:30:21,419

photographs of different parts of the

794

00:30:27,470 --> 00:30:24,360

site different views uh from 1920 that's

795

00:30:29,330 --> 00:30:27,480

16 years before Goodwin came and in 1935

796

00:30:31,430 --> 00:30:29,340

the Haverhill Gazette did a story with

797

00:30:33,350 --> 00:30:31,440

Reverend Ward showing the whole site in

798

00:30:36,590 --> 00:30:33,360

the background and other pitches because

799

00:30:38,210 --> 00:30:36,600

often we get to complaint or argument

800

00:30:40,850 --> 00:30:38,220

well we don't know what Mr Goodwin did

801
00:30:43,909 --> 00:30:40,860
back in the 19th well we do in his right

802
00:30:46,370 --> 00:30:43,919
hand man Malcolm Pearson uh was a

803
00:30:48,590 --> 00:30:46,380
professional photographer and Malcolm

804
00:30:50,029 --> 00:30:48,600
actually his family owned a getting to

805
00:30:51,889 --> 00:30:50,039
be a famous chamber in Upton

806
00:30:54,049 --> 00:30:51,899
Massachusetts Scott's been there it's

807
00:30:56,389 --> 00:30:54,059
called the Upton chamber his 100 years

808
00:30:57,889 --> 00:30:56,399
ago when Malcolm was about 16 his family

809
00:30:59,810 --> 00:30:57,899
bought the property and the guy goes hey

810
00:31:02,149 --> 00:30:59,820
there's a seller Outback or a root

811
00:31:04,130 --> 00:31:02,159
cellar and because young Malcolm just

812
00:31:05,630 --> 00:31:04,140
like you mentioning a kid was so excited

813
00:31:07,549 --> 00:31:05,640

about that he went out there and saw it

814

00:31:10,250 --> 00:31:07,559

it looks like a giant organic Stone

815

00:31:11,870 --> 00:31:10,260

igloo and it has a core build ceiling

816

00:31:14,690 --> 00:31:11,880

like I've seen at Newgrange in Ireland

817

00:31:16,490 --> 00:31:14,700

and it is facing the Pleiades and I

818

00:31:18,649 --> 00:31:16,500

believe it's aligned with the Equinox I

819

00:31:20,630 --> 00:31:18,659

got to double check that but it's an

820

00:31:24,110 --> 00:31:20,640

amazing structure

821

00:31:27,649 --> 00:31:24,120

um so you know well here's let me ask

822

00:31:31,130 --> 00:31:27,659

you this Dennis because uh we've got a

823

00:31:35,630 --> 00:31:31,140

lot more images here to go through but

824

00:31:39,470 --> 00:31:35,640

um the ages of of these sites in Ireland

825

00:31:44,389 --> 00:31:39,480

and and Scotland and we're talking you

826

00:31:47,870 --> 00:31:44,399

know very old stuff that way predates uh

827

00:31:51,710 --> 00:31:47,880

uh when Columbus got here in North

828

00:31:54,110 --> 00:31:51,720

America or or when anybody else arrived

829

00:31:57,409 --> 00:31:54,120

for the Ken Kensington ruins Stone and

830

00:32:01,669 --> 00:31:57,419

Scott will tell you all of this this is

831

00:32:04,490 --> 00:32:01,679

those sites uh in in some cases uh

832

00:32:08,149 --> 00:32:04,500

especially in Ireland are five six seven

833

00:32:12,649 --> 00:32:08,159

eight thousand years old and when we're

834

00:32:14,810 --> 00:32:12,659

talking about something similar here

835

00:32:16,850 --> 00:32:14,820

um and carbon dating and we'll talk

836

00:32:18,830 --> 00:32:16,860

about this image what are we talking

837

00:32:21,889 --> 00:32:18,840

about and what does Scott say about this

838

00:32:24,649 --> 00:32:21,899

age-wise about this Construction

839

00:32:26,630 --> 00:32:24,659

I think Scott's on board with the uh

840

00:32:28,549 --> 00:32:26,640

between three and four thousand-year-old

841

00:32:32,630 --> 00:32:28,559

date from the uh 12 carbon Dennings we

842

00:32:34,070 --> 00:32:32,640

took starting in 1966 through 1995. uh

843

00:32:35,930 --> 00:32:34,080

he was also looking at the inscriptions

844

00:32:38,149 --> 00:32:35,940

too you know that Barry fell looked at

845

00:32:40,250 --> 00:32:38,159

during the 1970s Barry fell died in

846

00:32:41,690 --> 00:32:40,260

1994.

847

00:32:43,430 --> 00:32:41,700

um and he looked at inscriptions from

848

00:32:44,990 --> 00:32:43,440

our site all the way down to South

849

00:32:47,930 --> 00:32:45,000

America all the way out to the West

850

00:32:50,210 --> 00:32:47,940

Coast and at our site he looked at some

851

00:32:54,070 --> 00:32:50,220

of the stone inscriptions were found

852

00:32:56,930 --> 00:32:54,080

back in the 60s you know uh 67 and 69

853

00:32:58,909 --> 00:32:56,940

and before Barry fell ever came along to

854

00:33:00,710 --> 00:32:58,919

our site and they were on display as

855

00:33:03,289 --> 00:33:00,720

unknown markings in our Visitor Center

856

00:33:04,250 --> 00:33:03,299

and he identified one of them took it

857

00:33:06,169 --> 00:33:04,260

back to his house in Arlington

858

00:33:09,049 --> 00:33:06,179

Massachusetts and again he worked at

859

00:33:11,750 --> 00:33:09,059

Harvard University uh he identified it

860

00:33:13,909 --> 00:33:11,760

as Iberian Punic or

861

00:33:16,190 --> 00:33:13,919

um Phoenician from Spain and Portugal

862

00:33:17,630 --> 00:33:16,200

the Iberian Peninsula and I think the

863

00:33:21,470 --> 00:33:17,640

date on that he put back something

864

00:33:24,110 --> 00:33:21,480

around 800 BC on that and uh we had

865

00:33:26,990 --> 00:33:24,120

another stone that was found uh that he

866

00:33:29,750 --> 00:33:27,000

identified as Celtic om or ogum I used

867

00:33:32,570 --> 00:33:29,760

to say ogum but I guess it's Orum uh and

868

00:33:34,430 --> 00:33:32,580

again about the same time period and the

869

00:33:37,370 --> 00:33:34,440

third Stone he identified as Libyan

870

00:33:38,630 --> 00:33:37,380

script uh and what he said is that all

871

00:33:41,090 --> 00:33:38,640

of these people were in Spain and

872

00:33:42,889 --> 00:33:41,100

Portugal it was a Melting Pot uh where

873

00:33:44,870 --> 00:33:42,899

Columbus stepped off I guess from

874

00:33:46,730 --> 00:33:44,880

caddies or it looks like cat is but it's

875

00:33:48,350 --> 00:33:46,740

caddy I guess Spain which used to be

876

00:33:50,570 --> 00:33:48,360

called Gage in the southwest part of

877

00:33:52,370 --> 00:33:50,580

Spain and I bet the speed I must have

878

00:33:54,470 --> 00:33:52,380

gone by it but it was back in the 50

879

00:33:56,810 --> 00:33:54,480

years ago this year I was in Spain got

880

00:33:59,269 --> 00:33:56,820

to get back there but they uh he said

881

00:34:00,350 --> 00:33:59,279

that sometime around 800 BC on some of

882

00:34:02,810 --> 00:34:00,360

the inscriptions and of course they

883

00:34:04,730 --> 00:34:02,820

found others all the way down to Brazil

884

00:34:08,089 --> 00:34:04,740

um and I was out to the West Coast and

885

00:34:11,149 --> 00:34:08,099

Scott was uh at our site uh many times

886

00:34:13,070 --> 00:34:11,159

but in 2012 he did his episode on us and

887

00:34:15,109 --> 00:34:13,080

he talks about that on his episode about

888

00:34:17,629 --> 00:34:15,119

America's Stone Age a one-hour you know

889

00:34:19,369 --> 00:34:17,639

show and he gets into the Iberian Punic

890

00:34:20,869 --> 00:34:19,379

and mostly the Iberian putic he doesn't

891

00:34:22,730 --> 00:34:20,879

get too much in the Celtic I think or

892

00:34:24,649 --> 00:34:22,740

the Libyan but they're all from that

893

00:34:26,210 --> 00:34:24,659

Iberian Peninsula and Barry fell thought

894

00:34:28,250 --> 00:34:26,220

that was a stepping stone and these

895

00:34:30,349 --> 00:34:28,260

people came over across well before

896

00:34:32,149 --> 00:34:30,359

Columbus before the Vikings came across

897

00:34:35,089 --> 00:34:32,159

the North Atlantic into the new world

898

00:34:38,030 --> 00:34:35,099

you know about a thousand years ago

899

00:34:39,710 --> 00:34:38,040

um so that we have found mockings on the

900

00:34:41,750 --> 00:34:39,720

site and there's other mockings too like

901
00:34:43,430 --> 00:34:41,760
a deer carving there's an arrow carving

902
00:34:44,690 --> 00:34:43,440
and there's a few other carvings that

903
00:34:47,389 --> 00:34:44,700
have been found over the years some of

904
00:34:49,129 --> 00:34:47,399
them are located about 500 feet for more

905
00:34:51,649 --> 00:34:49,139
this Photograph was taken to the west

906
00:34:54,230 --> 00:34:51,659
and there's a glacial Cliff shelter we

907
00:34:57,050 --> 00:34:54,240
found Pottery there in the 1950 58

908
00:35:00,170 --> 00:34:57,060
excavation and the stylistic dating on

909
00:35:01,790 --> 00:35:00,180
it was about 2 000 to 2500 year old it

910
00:35:04,130 --> 00:35:01,800
was Native American pottery in that case

911
00:35:05,690 --> 00:35:04,140
but a couple researchers in the 60s

912
00:35:08,390 --> 00:35:05,700
found Pottery on the main site actually

913
00:35:10,790 --> 00:35:08,400

in the 50s and 60s and they said it

914

00:35:12,650 --> 00:35:10,800

looked like Western uh European courted

915

00:35:14,690 --> 00:35:12,660

pottery and we have that too that should

916

00:35:17,210 --> 00:35:14,700

be really I looked at maybe dated you

917

00:35:19,010 --> 00:35:17,220

know uh they have a thing called thermal

918

00:35:22,190 --> 00:35:19,020

luminescence however

919

00:35:23,630 --> 00:35:22,200

I believe if you don't take the object

920

00:35:25,010 --> 00:35:23,640

out of the ground and protect it right

921

00:35:27,490 --> 00:35:25,020

away send it to a laboratory and

922

00:35:30,290 --> 00:35:27,500

remember we found it like 65 years ago

923

00:35:32,030 --> 00:35:30,300

uh that that particular dating method

924

00:35:33,230 --> 00:35:32,040

won't work you know

925

00:35:34,670 --> 00:35:33,240

um maybe something in the future could

926

00:35:37,190 --> 00:35:34,680

date this Pottery it looks like Western

927

00:35:38,990 --> 00:35:37,200

European Pottery according to uh a

928

00:35:41,510 --> 00:35:39,000

couple of different archaeologists so

929

00:35:43,849 --> 00:35:41,520

now how are they I mean what's your idea

930

00:35:48,170 --> 00:35:43,859

oh somebody just posted I got a post

931

00:35:50,990 --> 00:35:48,180

check this out Aang says best for ever

932

00:35:53,470 --> 00:35:51,000

when you're a kid that's where you hang

933

00:35:57,349 --> 00:35:53,480

right there man

934

00:35:59,750 --> 00:35:57,359

but these stones and especially in this

935

00:36:03,349 --> 00:35:59,760

image these These are these are

936

00:36:05,329 --> 00:36:03,359

ginormous these are Big they're heavy

937

00:36:07,550 --> 00:36:05,339

um are they Granite number one number

938

00:36:10,310 --> 00:36:07,560

two what's how do you think they were

939

00:36:13,490 --> 00:36:10,320

moving these things around and number

940

00:36:16,069 --> 00:36:13,500

three uh what's above ground here is

941

00:36:19,010 --> 00:36:16,079

amazing but you can see that there are

942

00:36:21,410 --> 00:36:19,020

Foundation Stones everywhere too as well

943

00:36:22,970 --> 00:36:21,420

how are they moving these Stones around

944

00:36:25,010 --> 00:36:22,980

back then

945

00:36:27,410 --> 00:36:25,020

right yeah they're they're definitely

946

00:36:30,410 --> 00:36:27,420

weren't afraid of work you know they uh

947

00:36:32,150 --> 00:36:30,420

we had a gentleman joined us in 78 he

948

00:36:34,609 --> 00:36:32,160

passed away just as I was finding the

949

00:36:36,530 --> 00:36:34,619

serpentine walls in 16 and unfortunately

950

00:36:38,930 --> 00:36:36,540

he passed away from cancer and he was

951
00:36:40,790 --> 00:36:38,940
such a a resource and a really nice

952
00:36:43,730 --> 00:36:40,800
gentleman he played the bagpipes at a

953
00:36:46,130 --> 00:36:43,740
recording studio he left Connecticut uh

954
00:36:47,630 --> 00:36:46,140
in 72 I think went to England where for

955
00:36:49,370 --> 00:36:47,640
what is today called British Heritage

956
00:36:51,109 --> 00:36:49,380
back then it might have been ancient

957
00:36:53,450 --> 00:36:51,119
sites or whatever the organization was

958
00:36:55,190 --> 00:36:53,460
called he worked in Scotland he worked

959
00:36:58,490 --> 00:36:55,200
in England and he worked in megalithic

960
00:37:00,170 --> 00:36:58,500
sites in medieval he became well he was

961
00:37:01,609 --> 00:37:00,180
became an archaeologist and certified in

962
00:37:04,849 --> 00:37:01,619
that but he had a doctors in historical

963
00:37:07,069 --> 00:37:04,859

anthropology a doctors in Theology and

964

00:37:09,710 --> 00:37:07,079

he was a I think a 30-second Scott would

965

00:37:11,270 --> 00:37:09,720

know I think it was a Scottish rites I

966

00:37:13,370 --> 00:37:11,280

think he used to go to Scotland pretty

967

00:37:14,810 --> 00:37:13,380

much up to the time he passed away uh he

968

00:37:16,790 --> 00:37:14,820

had Scott a lot of Scott he played the

969

00:37:18,589 --> 00:37:16,800

bagpipes and everything but anyway he uh

970

00:37:21,890 --> 00:37:18,599

worked underway the stones were quarried

971

00:37:23,630 --> 00:37:21,900

off the hill starting in 78 uh how they

972

00:37:26,510 --> 00:37:23,640

were shaped or dressed how they were

973

00:37:28,730 --> 00:37:26,520

transported so he really got into that

974

00:37:30,589 --> 00:37:28,740

whole thing for that decades at our site

975

00:37:33,109 --> 00:37:30,599

mostly but he worked at another sites in

976

00:37:34,430 --> 00:37:33,119

the Northeast also and uh one of the

977

00:37:35,810 --> 00:37:34,440

things you mentioned before he died he

978

00:37:38,150 --> 00:37:35,820

says I think what we have across the

979

00:37:40,550 --> 00:37:38,160

Northeast is an ancient stone building

980

00:37:42,710 --> 00:37:40,560

or lithic culture that's not being you

981

00:37:45,050 --> 00:37:42,720

know acknowledged recognized and in some

982

00:37:47,089 --> 00:37:45,060

cases just kind of either forgotten or

983

00:37:48,410 --> 00:37:47,099

ridiculed by mainstream you know because

984

00:37:51,230 --> 00:37:48,420

these cites it there you can actually

985

00:37:53,270 --> 00:37:51,240

visit them uh I'm really fascinated by

986

00:37:55,130 --> 00:37:53,280

UFOs I've seen a couple but I can't

987

00:37:56,930 --> 00:37:55,140

bring one to you right now and show you

988

00:38:00,589 --> 00:37:56,940

it but I can show you these sites you

989

00:38:03,589 --> 00:38:00,599

know but he thinks simple Machinery uh

990

00:38:06,050 --> 00:38:03,599

was Used Log rollers log levers inclined

991

00:38:08,390 --> 00:38:06,060

planes of Earth but

992

00:38:11,210 --> 00:38:08,400

um The Hilltop today has a forest on it

993

00:38:14,170 --> 00:38:11,220

and soil we have been studying through

994

00:38:17,569 --> 00:38:14,180

shovel test pits or stps starting in

995

00:38:19,430 --> 00:38:17,579

1991 and our archaeologists who work

996

00:38:20,810 --> 00:38:19,440

with our David Stuart Smith she was a

997

00:38:22,730 --> 00:38:20,820

president of the New Hampshire

998

00:38:25,550 --> 00:38:22,740

archaeological Society she joined us in

999

00:38:27,349 --> 00:38:25,560

1989 and she did a three-year project on

1000

00:38:30,770 --> 00:38:27,359

the astronomical alignment we call the

1001
00:38:32,630 --> 00:38:30,780
north north stone monolith she actually

1002
00:38:34,430 --> 00:38:32,640
excavated in front of that found a fire

1003
00:38:35,930 --> 00:38:34,440
pit and it took three years to do this

1004
00:38:37,550 --> 00:38:35,940
she did it very slowly she had some

1005
00:38:39,530 --> 00:38:37,560
assistance from her organization plus

1006
00:38:42,650 --> 00:38:39,540
her own and she found a fire pit and

1007
00:38:44,329 --> 00:38:42,660
dated to uh about 700 A.D it was above

1008
00:38:46,310 --> 00:38:44,339
the base of the stone adjacent to this

1009
00:38:47,510 --> 00:38:46,320
this monolith so people saying all these

1010
00:38:50,030 --> 00:38:47,520
stones are all set up by the Paddy

1011
00:38:52,190 --> 00:38:50,040
family well that was standing there 1300

1012
00:38:54,410 --> 00:38:52,200
years ago when somebody used that stone

1013
00:38:56,690 --> 00:38:54,420

as a backstop for a fire we don't say

1014

00:38:58,910 --> 00:38:56,700

they built that I'll put that stone up

1015

00:39:01,970 --> 00:38:58,920

but somebody may have repurposed it or

1016

00:39:04,190 --> 00:39:01,980

reused a site later in time so we have a

1017

00:39:05,329 --> 00:39:04,200

date of about 1300 years at stoneman

1018

00:39:07,190 --> 00:39:05,339

Stadium we think it's been standing

1019

00:39:11,210 --> 00:39:07,200

there probably 4 000 years from the

1020

00:39:13,609 --> 00:39:11,220

astronomical data but these big slabs it

1021

00:39:16,790 --> 00:39:13,619

is granite it has quartz it is quartzite

1022

00:39:18,829 --> 00:39:16,800

it has feldspar Lagers in it and even

1023

00:39:20,690 --> 00:39:18,839

quartz crystals and that has been found

1024

00:39:23,290 --> 00:39:20,700

on the site the quartz crystals in a

1025

00:39:26,990 --> 00:39:23,300

well actually my dad found him in 1963

1026
00:39:29,089 --> 00:39:27,000
but it's about 163 pounds per cubic foot

1027
00:39:31,069 --> 00:39:29,099
so we can give you estimates of the

1028
00:39:33,050 --> 00:39:31,079
weight of the stone so the biggest roof

1029
00:39:35,569 --> 00:39:33,060
slab is not the one you're looking at

1030
00:39:37,250 --> 00:39:35,579
right there it's uh actually to the

1031
00:39:38,690 --> 00:39:37,260
right and it's past the East-West

1032
00:39:40,190 --> 00:39:38,700
chamber the East-West Chambers to the

1033
00:39:43,310 --> 00:39:40,200
right of that photograph you were just

1034
00:39:45,710 --> 00:39:43,320
looking at it weighs about 28 000 pounds

1035
00:39:47,210 --> 00:39:45,720
so you're correct yeah I mean how did

1036
00:39:50,329 --> 00:39:47,220
they move them I still wonder how even

1037
00:39:52,849 --> 00:39:50,339
with log rollers log levers moving these

1038
00:39:54,530 --> 00:39:52,859

multi-ton stones and not killing

1039

00:40:00,490 --> 00:39:54,540

yourself too you know it's so dangerous

1040

00:40:06,950 --> 00:40:04,329

this image that we have up on the screen

1041

00:40:08,569 --> 00:40:06,960

what are we looking at here

1042

00:40:10,250 --> 00:40:08,579

that chamber there is pretty much

1043

00:40:11,630 --> 00:40:10,260

original I don't think there's been any

1044

00:40:13,370 --> 00:40:11,640

restoration that's been cleaned out

1045

00:40:16,190 --> 00:40:13,380

there's debris in it you know a good one

1046

00:40:18,650 --> 00:40:16,200

came along in 1937 and bought the

1047

00:40:21,410 --> 00:40:18,660

property to research it and clean it and

1048

00:40:23,329 --> 00:40:21,420

restore it it's called The V Hut V is in

1049

00:40:24,349 --> 00:40:23,339

Victor the V Hut because it's shaped

1050

00:40:26,450 --> 00:40:24,359

like a V

1051

00:40:28,550 --> 00:40:26,460

it's the only structure on the site

1052

00:40:30,349 --> 00:40:28,560

that's facing Southwest it's kind of

1053

00:40:33,170 --> 00:40:30,359

facing the winter solstice Sunset

1054

00:40:34,190 --> 00:40:33,180

alignment uh when my dad and I were in

1055

00:40:36,050 --> 00:40:34,200

Ireland

1056

00:40:37,609 --> 00:40:36,060

um we went to see a lot of these sites

1057

00:40:40,550 --> 00:40:37,619

as I mentioned and one of them was the

1058

00:40:42,710 --> 00:40:40,560

wedge tombs of Ireland then the wedge

1059

00:40:44,990 --> 00:40:42,720

tombs uh are kind of shaped like a wedge

1060

00:40:47,390 --> 00:40:45,000

sometimes they have a flat back wall a

1061

00:40:49,550 --> 00:40:47,400

mini wall in the back but generally the

1062

00:40:51,770 --> 00:40:49,560

kind of v-shaped and had that same kind

1063

00:40:55,609 --> 00:40:51,780

of stone work on top that roof they

1064

00:40:57,710 --> 00:40:55,619

always face Southwest so uh is it a

1065

00:40:59,810 --> 00:40:57,720

coincidence perhaps I don't think so

1066

00:41:01,190 --> 00:40:59,820

when you find Sev I know there's other

1067

00:41:03,650 --> 00:41:01,200

structures too on the site we can talk

1068

00:41:05,210 --> 00:41:03,660

about but the size the shape and the

1069

00:41:06,770 --> 00:41:05,220

orientation of this structure the

1070

00:41:09,349 --> 00:41:06,780

East-West chamber and a couple others

1071

00:41:10,910 --> 00:41:09,359

are the same here as on the other side

1072

00:41:13,130 --> 00:41:10,920

of the ocean you know it's like how many

1073

00:41:15,170 --> 00:41:13,140

coincidences can you have and by the way

1074

00:41:16,670 --> 00:41:15,180

they're not only in like honey meet

1075

00:41:18,230 --> 00:41:16,680

Ireland has them in other places in

1076

00:41:20,270 --> 00:41:18,240

Ireland have these wedge teams and they

1077

00:41:22,010 --> 00:41:20,280

were used to burials on the right side

1078

00:41:24,230 --> 00:41:22,020

you see some slabs when you look at some

1079

00:41:26,329 --> 00:41:24,240

of the pitches and what we visited in

1080

00:41:28,550 --> 00:41:26,339

Ireland there's slabs on the side too

1081

00:41:31,310 --> 00:41:28,560

over there it's like are those blocking

1082

00:41:33,170 --> 00:41:31,320

Stones do they put a deceased person in

1083

00:41:36,890 --> 00:41:33,180

there and then you know block it for a

1084

00:41:39,609 --> 00:41:36,900

time you know I don't know but huge

1085

00:41:43,910 --> 00:41:39,619

those are they are yeah I mean imagine

1086

00:41:46,490 --> 00:41:43,920

and actually in Spain I have some 3D uh

1087

00:41:48,470 --> 00:41:46,500

images of ones in Spain the problem with

1088

00:41:50,089 --> 00:41:48,480

the ones from Spain they were 3D they

1089

00:41:52,670 --> 00:41:50,099

didn't give orientation on a true north

1090

00:41:55,130 --> 00:41:52,680

and they did not give you a size but

1091

00:41:56,870 --> 00:41:55,140

they look just like that too including a

1092

00:41:58,790 --> 00:41:56,880

little Basin and the same side that our

1093

00:42:00,710 --> 00:41:58,800

patients cut into the Bedrock and a

1094

00:42:02,690 --> 00:42:00,720

little notch on the roof it's like is

1095

00:42:03,829 --> 00:42:02,700

that more coincidences I you know it's

1096

00:42:05,510 --> 00:42:03,839

hard to believe really it's all

1097

00:42:08,030 --> 00:42:05,520

coincidental you know but archaeologists

1098

00:42:10,190 --> 00:42:08,040

love the word coincidence but that is

1099

00:42:14,170 --> 00:42:10,200

one of the first Windows they found it's

1100

00:42:21,410 --> 00:42:18,890

how big is that main Stone in width

1101

00:42:25,010 --> 00:42:21,420

it's probably I should say a weed

1102

00:42:27,290 --> 00:42:25,020

whacking today uh we weed whack a lot of

1103

00:42:29,089 --> 00:42:27,300

the hills really a lot of work but I had

1104

00:42:31,069 --> 00:42:29,099

the weed whack it to really open it up

1105

00:42:33,230 --> 00:42:31,079

I'm doing some VIP tours you know

1106

00:42:35,690 --> 00:42:33,240

specially arranged tours and that I took

1107

00:42:37,870 --> 00:42:35,700

Scott on his tour last uh Halloween uh

1108

00:42:41,210 --> 00:42:37,880

with Haley and we walked down there and

1109

00:42:44,390 --> 00:42:41,220

that was found probably around spring of

1110

00:42:46,370 --> 00:42:44,400

2016. that Stone's probably about almost

1111

00:42:48,589 --> 00:42:46,380

four feet across it's a little bit

1112

00:42:50,810 --> 00:42:48,599

shorter than that and it has that

1113

00:42:52,730 --> 00:42:50,820

beautiful opening well on the left side

1114

00:42:53,990 --> 00:42:52,740

out of the frame and I got to get enough

1115

00:42:55,490 --> 00:42:54,000

I got to get some better pictures of

1116

00:42:57,170 --> 00:42:55,500

this there's two more windows on the

1117

00:42:59,089 --> 00:42:57,180

left side and there's another window on

1118

00:43:01,370 --> 00:42:59,099

the right side out of the frame

1119

00:43:02,870 --> 00:43:01,380

out of the frame on the right side just

1120

00:43:04,309 --> 00:43:02,880

before that other window there's a

1121

00:43:06,589 --> 00:43:04,319

vertical Stone standing in the dirt

1122

00:43:08,270 --> 00:43:06,599

leaning against the wall and my

1123

00:43:10,490 --> 00:43:08,280

assistant archaeologist

1124

00:43:11,930 --> 00:43:10,500

um his name is Pete was looking at that

1125

00:43:13,609 --> 00:43:11,940

he was just astonished by these things

1126

00:43:15,770 --> 00:43:13,619

because again these things are just

1127

00:43:17,630 --> 00:43:15,780

revealing themselves to us after 60

1128

00:43:19,550 --> 00:43:17,640

something years we're just finding these

1129

00:43:21,650 --> 00:43:19,560

things now and they they're right we

1130

00:43:23,329 --> 00:43:21,660

should have seen them years ago uh my

1131

00:43:25,309 --> 00:43:23,339

dad just he just went out and looked at

1132

00:43:27,530 --> 00:43:25,319

these walls all the time including a Dr

1133

00:43:30,770 --> 00:43:27,540

Winkler an ocular astronomer from Penn

1134

00:43:32,930 --> 00:43:30,780

State from 987 to 2001 when he suddenly

1135

00:43:34,490 --> 00:43:32,940

passed away from a heart attack he was

1136

00:43:36,290 --> 00:43:34,500

just amazed by the site and got himself

1137

00:43:38,270 --> 00:43:36,300

into it towards the end of his career at

1138

00:43:40,609 --> 00:43:38,280

Penn State they would go around for

1139

00:43:42,109 --> 00:43:40,619

hours while I was flying and then my dad

1140

00:43:43,970 --> 00:43:42,119

would tell me in the evening back at the

1141

00:43:45,890 --> 00:43:43,980

hotel he called me or call him and I

1142

00:43:47,750 --> 00:43:45,900

said uh what are you guys up to he goes

1143

00:43:49,010 --> 00:43:47,760

well uh Louis Winkler came up today and

1144

00:43:51,290 --> 00:43:49,020

we've been riding around looking at the

1145

00:43:53,329 --> 00:43:51,300

walls but they never saw the serpentine

1146

00:43:55,910 --> 00:43:53,339

patent and they never saw the windows

1147

00:43:58,430 --> 00:43:55,920

you know they can hide in front of your

1148

00:43:59,750 --> 00:43:58,440

eyes and this one here I mean a dog can

1149

00:44:01,309 --> 00:43:59,760

run through that thing and know like I

1150

00:44:02,450 --> 00:44:01,319

have a Nova Scotia Duck trolling trees

1151
00:44:04,550 --> 00:44:02,460
you'd probably hop right through there

1152
00:44:06,890 --> 00:44:04,560
but what I was going to mention the

1153
00:44:09,170 --> 00:44:06,900
right side of that uh you can't see is a

1154
00:44:11,210 --> 00:44:09,180
standing Stone it's a small one in my my

1155
00:44:13,430 --> 00:44:11,220
assistant said can we take that stone

1156
00:44:15,109 --> 00:44:13,440
move it put it in we don't like to touch

1157
00:44:17,089 --> 00:44:15,119
anything in our site archaeologically

1158
00:44:19,370 --> 00:44:17,099
but this is kind of like an experiment

1159
00:44:21,290 --> 00:44:19,380
and we had to put it back after in the

1160
00:44:23,329 --> 00:44:21,300
right position it's still there today we

1161
00:44:25,790 --> 00:44:23,339
took it and put it inside and it's it

1162
00:44:27,230 --> 00:44:25,800
fits perfectly and we found some of

1163
00:44:29,210 --> 00:44:27,240

these other windows seem to have the

1164

00:44:31,370 --> 00:44:29,220

same thing they're shattered like a

1165

00:44:33,530 --> 00:44:31,380

stone shutter and that thing fits

1166

00:44:35,270 --> 00:44:33,540

perfectly in there and it's the next one

1167

00:44:37,010 --> 00:44:35,280

I think on the left has a stone that

1168

00:44:39,290 --> 00:44:37,020

fell in front of it I think it's a stone

1169

00:44:40,910 --> 00:44:39,300

shutter I haven't moved it I I hate to

1170

00:44:44,150 --> 00:44:40,920

move anything there but we might do that

1171

00:44:46,730 --> 00:44:44,160

just to see again but there's 20 22 of

1172

00:44:47,329 --> 00:44:46,740

those windows all over the hill

1173

00:44:49,849 --> 00:44:47,339

um

1174

00:44:51,230 --> 00:44:49,859

I will say that uh they're not just at

1175

00:44:52,670 --> 00:44:51,240

our site they're at other sites too

1176
00:44:54,290 --> 00:44:52,680
they're finding them and the Berkshires

1177
00:44:57,589 --> 00:44:54,300
in Mass

1178
00:44:59,210 --> 00:44:57,599
um Jim Vieira uh knows of the serpent

1179
00:45:00,170 --> 00:44:59,220
walls out near his neck of the woods I

1180
00:45:01,250 --> 00:45:00,180
don't know if you know Jamie's been on

1181
00:45:02,990 --> 00:45:01,260
History Channel

1182
00:45:05,690 --> 00:45:03,000
username remember one of my dad's

1183
00:45:07,309 --> 00:45:05,700
members of my dad's group he had his own

1184
00:45:09,710 --> 00:45:07,319
TV show in history you know with his

1185
00:45:11,770 --> 00:45:09,720
brother but uh in some of the serpentine

1186
00:45:14,870 --> 00:45:11,780
walls and this is a serpentine wall

1187
00:45:16,849 --> 00:45:14,880
there's Windows uh they're in

1188
00:45:19,670 --> 00:45:16,859

Connecticut too they're in uh North

1189

00:45:22,609 --> 00:45:19,680

Stonington Connecticut

1190

00:45:25,010 --> 00:45:22,619

um people call these Soul holes they

1191

00:45:26,329 --> 00:45:25,020

call them Spirit Windows right my friend

1192

00:45:29,089 --> 00:45:26,339

from England

1193

00:45:30,470 --> 00:45:29,099

um Maria Wheatley uh her dad came to us

1194

00:45:32,270 --> 00:45:30,480

40 years ago and she's trying to get

1195

00:45:34,130 --> 00:45:32,280

over here she goes to Sedona she goes

1196

00:45:36,710 --> 00:45:34,140

all LA and stuff she's going to visit us

1197

00:45:38,930 --> 00:45:36,720

and I did a couple podcasts she goes we

1198

00:45:40,670 --> 00:45:38,940

have those in dot more England and she

1199

00:45:42,349 --> 00:45:40,680

sent me a picture it's it's like ours

1200

00:45:44,089 --> 00:45:42,359

and they call them Soul holes it's where

1201
00:45:45,410 --> 00:45:44,099
the spirit can flow through that's what

1202
00:45:47,630 --> 00:45:45,420
the belief is today we don't know for

1203
00:45:50,750 --> 00:45:47,640
sure you know let's uh let's go to this

1204
00:45:54,050 --> 00:45:50,760
next year this that's insane

1205
00:45:58,250 --> 00:45:55,730
yeah that's the biggest chamber on the

1206
00:46:00,470 --> 00:45:58,260
site you're looking true self uh it's

1207
00:46:02,210 --> 00:46:00,480
got kind of a long axis uh it's next to

1208
00:46:03,650 --> 00:46:02,220
the sacrificial table which is not in

1209
00:46:05,270 --> 00:46:03,660
the frame obviously but you're inside

1210
00:46:07,670 --> 00:46:05,280
this chamber and it's got you know huge

1211
00:46:10,430 --> 00:46:07,680
stones for the roof slabs it runs almost

1212
00:46:12,650 --> 00:46:10,440
30 feet from the entrance to behind

1213
00:46:15,109 --> 00:46:12,660

where I'm standing in this photograph

1214

00:46:16,849 --> 00:46:15,119

uh it actually has an Avenue to the left

1215

00:46:19,250 --> 00:46:16,859

inside of the site an Avenue goes down

1216

00:46:21,170 --> 00:46:19,260

to about 20 feet if you should strip the

1217

00:46:23,450 --> 00:46:21,180

roof off of this and you look down at it

1218

00:46:26,030 --> 00:46:23,460

it would look like the letter y is in

1219

00:46:28,550 --> 00:46:26,040

Yankee it has that shape to it it has

1220

00:46:31,790 --> 00:46:28,560

five closets it has one window actually

1221

00:46:33,890 --> 00:46:31,800

two windows it has a deer carving an

1222

00:46:36,109 --> 00:46:33,900

arrow carving it has two underground

1223

00:46:38,210 --> 00:46:36,119

drains one of them running 45 feet these

1224

00:46:40,250 --> 00:46:38,220

drains are storm drains engineered into

1225

00:46:42,950 --> 00:46:40,260

building a site by the original Builders

1226

00:46:44,390 --> 00:46:42,960

there's about 12 of them and I know

1227

00:46:45,950 --> 00:46:44,400

Scott thought they were pretty cool you

1228

00:46:47,030 --> 00:46:45,960

know on everybody else's research come

1229

00:46:49,309 --> 00:46:47,040

up and they take note of that because

1230

00:46:51,109 --> 00:46:49,319

the site was not thrown together it was

1231

00:46:52,790 --> 00:46:51,119

thought out I think and the reason they

1232

00:46:54,829 --> 00:46:52,800

didn't just keep the Bedrock dry without

1233

00:46:56,569 --> 00:46:54,839

soil and vegetation the Bedrock collects

1234

00:46:59,210 --> 00:46:56,579

water it doesn't really seep into it has

1235

00:47:00,710 --> 00:46:59,220

to evaporate pretty much they engineered

1236

00:47:02,510 --> 00:47:00,720

a whole set of storm drains throughout

1237

00:47:03,829 --> 00:47:02,520

the entire site and this chamber has two

1238

00:47:06,589 --> 00:47:03,839

of those storm drains and they still

1239

00:47:08,690 --> 00:47:06,599

work today uh it has a speaking tube a

1240

00:47:10,309 --> 00:47:08,700

horizontal tube that goes through it

1241

00:47:11,930 --> 00:47:10,319

would be in this picture on the upper

1242

00:47:13,130 --> 00:47:11,940

right it's kind of out of sight but it's

1243

00:47:15,829 --> 00:47:13,140

a six foot two

1244

00:47:18,170 --> 00:47:15,839

and when Mr Goodwin came in 36 bought

1245

00:47:19,910 --> 00:47:18,180

the site in 37 they didn't see the

1246

00:47:22,609 --> 00:47:19,920

speaking tube it had two plugs of stone

1247

00:47:24,530 --> 00:47:22,619

in it and they built a bunk house just

1248

00:47:25,970 --> 00:47:24,540

outside the fence where people could

1249

00:47:28,190 --> 00:47:25,980

stay overnight they were working on the

1250

00:47:31,010 --> 00:47:28,200

site doing research and you know

1251
00:47:32,329 --> 00:47:31,020
excavation and repairs a young man named

1252
00:47:34,370 --> 00:47:32,339
Paul I'm still trying to get his last

1253
00:47:36,230 --> 00:47:34,380
name this would have been around 1937.

1254
00:47:38,390 --> 00:47:36,240
he realized that there was a loose Stone

1255
00:47:39,710 --> 00:47:38,400
and he moved it he went back I guess to

1256
00:47:41,329 --> 00:47:39,720
the bunk house got a knife a kitchen

1257
00:47:43,490 --> 00:47:41,339
knife and he wiggled it in between the

1258
00:47:47,450 --> 00:47:43,500
stones and the stone came out and he saw

1259
00:47:49,250 --> 00:47:47,460
this six foot tube horizontally and

1260
00:47:52,010 --> 00:47:49,260
um the next year they cleaned outside

1261
00:47:54,349 --> 00:47:52,020
the sacrificial table which was buried

1262
00:47:56,390 --> 00:47:54,359
up to its bottom with about two and a

1263
00:47:58,069 --> 00:47:56,400

half to three feet of dirt they thought

1264

00:47:59,510 --> 00:47:58,079

the table was sitting on the ground and

1265

00:48:01,490 --> 00:47:59,520

when they dug down they found it was

1266

00:48:06,290 --> 00:48:01,500

sitting on four legs Stone legs you know

1267

00:48:10,670 --> 00:48:08,270

how tall is that door

1268

00:48:12,170 --> 00:48:10,680

uh you uh you know Scott Walters six

1269

00:48:14,329 --> 00:48:12,180

foot he could walk in there you know

1270

00:48:16,790 --> 00:48:14,339

Scott's like six two or whatever it's

1271

00:48:19,250 --> 00:48:16,800

probably six and a half I think that

1272

00:48:20,690 --> 00:48:19,260

that door six and a half feet tall I

1273

00:48:22,550 --> 00:48:20,700

would say roughly that yeah I should get

1274

00:48:24,130 --> 00:48:22,560

the measuring sticking but when Scott

1275

00:48:27,530 --> 00:48:24,140

walks in there and he's pretty tall or

1276

00:48:28,910 --> 00:48:27,540

uh he's a good boy you know Brad Olson I

1277

00:48:30,650 --> 00:48:28,920

I think he might have to touch his head

1278

00:48:32,450 --> 00:48:30,660

a little bit but uh Brad's been to our

1279

00:48:34,849 --> 00:48:32,460

side a few times but I would say

1280

00:48:36,230 --> 00:48:34,859

somewhere around six it depends because

1281

00:48:37,550 --> 00:48:36,240

the bedrock's a little uneven so

1282

00:48:40,190 --> 00:48:37,560

wherever you measure it might be like

1283

00:48:42,530 --> 00:48:40,200

six in one place where I'm standing the

1284

00:48:44,329 --> 00:48:42,540

Bedrock actually goes up so I'm standing

1285

00:48:46,609 --> 00:48:44,339

there and I think it's almost touching

1286

00:48:48,470 --> 00:48:46,619

my head I'm like five eight you know so

1287

00:48:50,450 --> 00:48:48,480

it kind of varies a little bit but the

1288

00:48:53,690 --> 00:48:50,460

entrance is the highest yeah

1289

00:48:55,790 --> 00:48:53,700

but Brad Olson is seven foot I thought

1290

00:48:57,349 --> 00:48:55,800

so yeah he comes into a visitor center

1291

00:48:58,930 --> 00:48:57,359

ducking his head at the entrance he's

1292

00:49:03,530 --> 00:48:58,940

been there a couple times

1293

00:49:08,089 --> 00:49:03,540

he's one tall drink of water yeah I

1294

00:49:09,109 --> 00:49:08,099

didn't I didn't realize that it was that

1295

00:49:12,470 --> 00:49:09,119

big

1296

00:49:15,230 --> 00:49:12,480

yeah and Scott Scott's a tall guy yeah

1297

00:49:17,809 --> 00:49:15,240

and so yeah Scott can walk through that

1298

00:49:20,150 --> 00:49:17,819

doorway without ducking I think yeah

1299

00:49:21,770 --> 00:49:20,160

yeah I'm pretty sure that Scotty had no

1300

00:49:23,630 --> 00:49:21,780

problem and it might be just above his

1301
00:49:25,069 --> 00:49:23,640
head you know you get it to Brad Olson

1302
00:49:27,349 --> 00:49:25,079
he probably have to duck a little

1303
00:49:29,089 --> 00:49:27,359
bit you know or maybe a basketball

1304
00:49:31,010 --> 00:49:29,099
player but

1305
00:49:33,170 --> 00:49:31,020
um it's vertical stacking of stones in

1306
00:49:35,390 --> 00:49:33,180
there but that little wing to the east

1307
00:49:37,130 --> 00:49:35,400
is actually corbelled the actual ceiling

1308
00:49:39,290 --> 00:49:37,140
actually tilts in like an inverted

1309
00:49:40,790 --> 00:49:39,300
staircase so they use core building on

1310
00:49:43,190 --> 00:49:40,800
our site which seems to be an old world

1311
00:49:44,690 --> 00:49:43,200
or perhaps even they used it down in

1312
00:49:47,030 --> 00:49:44,700
Mexico I think and probably I haven't

1313
00:49:49,430 --> 00:49:47,040

been to South America but it's like an

1314

00:49:51,650 --> 00:49:49,440

inverted staircase it's not a true Arch

1315

00:49:54,050 --> 00:49:51,660

but it does kind of bridge the sailing

1316

00:49:55,970 --> 00:49:54,060

almost like a vaulted ceiling or maybe a

1317

00:49:57,290 --> 00:49:55,980

cathedral or something but that is

1318

00:49:59,270 --> 00:49:57,300

different than what you're looking at it

1319

00:50:02,530 --> 00:49:59,280

has a whole different flavor on that on

1320

00:50:11,150 --> 00:50:05,470

speaking to him

1321

00:50:12,470 --> 00:50:11,160

oh my God okay yep so that I should get

1322

00:50:14,150 --> 00:50:12,480

a little bit better picture so you can

1323

00:50:15,950 --> 00:50:14,160

look through and you'll be looking under

1324

00:50:18,170 --> 00:50:15,960

the table about six feet on the other

1325

00:50:20,690 --> 00:50:18,180

side of that hole and again that they

1326
00:50:22,550 --> 00:50:20,700
got there at 37 uh 38 the next year and

1327
00:50:25,130 --> 00:50:22,560
they cleaned under the table pulled out

1328
00:50:26,450 --> 00:50:25,140
a stone plug there's the whole tube the

1329
00:50:28,790 --> 00:50:26,460
interesting thing is why would anybody

1330
00:50:30,710 --> 00:50:28,800
plug that up you know uh it's like maybe

1331
00:50:32,870 --> 00:50:30,720
winterizing your Camp if you're leaving

1332
00:50:34,849 --> 00:50:32,880
it you know or something like that the

1333
00:50:37,309 --> 00:50:34,859
storm drains by the way had plugs in

1334
00:50:39,530 --> 00:50:37,319
them too that they found it's like they

1335
00:50:41,750 --> 00:50:39,540
actually put plugs in this place

1336
00:50:44,170 --> 00:50:41,760
including that tube for some reason

1337
00:50:48,049 --> 00:50:44,180
whoever they were you know

1338
00:50:49,309 --> 00:50:48,059

blocking Spirits it could be you know it

1339

00:50:51,950 --> 00:50:49,319

might have been you know I mean I think

1340

00:50:53,870 --> 00:50:51,960

it is a spiritual place by the way below

1341

00:50:56,329 --> 00:50:53,880

that I think Brad could fit in there

1342

00:50:57,470 --> 00:50:56,339

that is a entrance you can't quite see

1343

00:50:59,630 --> 00:50:57,480

it but that's the entrance to an

1344

00:51:01,730 --> 00:50:59,640

eight-foot bit what we call a bed you

1345

00:51:02,990 --> 00:51:01,740

could actually almost anybody pretty

1346

00:51:04,849 --> 00:51:03,000

much could climb right in there and

1347

00:51:06,230 --> 00:51:04,859

there's a window in there at this end of

1348

00:51:07,190 --> 00:51:06,240

it you're laying in there you look

1349

00:51:09,710 --> 00:51:07,200

through the window you can see the

1350

00:51:11,870 --> 00:51:09,720

entire uh structure you can see the East

1351
00:51:14,510 --> 00:51:11,880
Wing you can see around all around you

1352
00:51:16,609 --> 00:51:14,520
so people called it the Abbott's bed Mr

1353
00:51:18,049 --> 00:51:16,619
Goodwin called it that back in the 1930s

1354
00:51:19,790 --> 00:51:18,059
she thought the Irish monks were the

1355
00:51:21,770 --> 00:51:19,800
Builders of the site so he had the

1356
00:51:24,049 --> 00:51:21,780
abbots you know this was their their

1357
00:51:26,329 --> 00:51:24,059
place that they were um you know um

1358
00:51:28,309 --> 00:51:26,339
teaching Christianity and you know to

1359
00:51:30,829 --> 00:51:28,319
Native Americans according to his theory

1360
00:51:34,069 --> 00:51:30,839
and this was the main site and he knew

1361
00:51:36,470 --> 00:51:34,079
of about 15 other sites around the

1362
00:51:38,270 --> 00:51:36,480
Northeast compared to the 800 we have

1363
00:51:39,710 --> 00:51:38,280

today but he thought this was the

1364

00:51:41,390 --> 00:51:39,720

Abbott's house you know this is a place

1365

00:51:42,829 --> 00:51:41,400

where he would stay and there is a

1366

00:51:46,250 --> 00:51:42,839

chimney flew on the other side of this

1367

00:51:48,770 --> 00:51:46,260

structure and he heated it up to about

1368

00:51:50,569 --> 00:51:48,780

80 degrees uh back in the 30s as an

1369

00:51:52,010 --> 00:51:50,579

experiment has two Stone movers they had

1370

00:51:53,990 --> 00:51:52,020

a stone that slid over the top to

1371

00:51:55,970 --> 00:51:54,000

conceal it I don't think it's a living

1372

00:51:58,730 --> 00:51:55,980

place unless it was a place where Shaman

1373

00:52:00,230 --> 00:51:58,740

or somebody spent a couple days there I

1374

00:52:02,569 --> 00:52:00,240

just don't see it as a home like The

1375

00:52:05,750 --> 00:52:02,579

Flintstones but I think during

1376

00:52:08,210 --> 00:52:05,760

ceremonies Solstice equinoxes maybe

1377

00:52:10,010 --> 00:52:08,220

somebody died maybe a marriage maybe a

1378

00:52:12,349 --> 00:52:10,020

birth people might come to this

1379

00:52:14,390 --> 00:52:12,359

particular site as a pilgrimage and then

1380

00:52:16,730 --> 00:52:14,400

you'd have your priest or Shaman and

1381

00:52:18,530 --> 00:52:16,740

these structures taking care of them but

1382

00:52:19,849 --> 00:52:18,540

that's speaking to we think the voice of

1383

00:52:21,950 --> 00:52:19,859

you yell through there comes out under

1384

00:52:23,569 --> 00:52:21,960

the table it almost like The Wizard of

1385

00:52:25,790 --> 00:52:23,579

Oz you know you're standing outside on

1386

00:52:27,890 --> 00:52:25,800

this platform about five feet above the

1387

00:52:29,870 --> 00:52:27,900

table looking down at it and you hear

1388

00:52:32,569 --> 00:52:29,880

this voice during some sort of ceremony

1389

00:52:34,130 --> 00:52:32,579

taking place you know uh that might be

1390

00:52:35,690 --> 00:52:34,140

the reason they blocked it up if anybody

1391

00:52:37,370 --> 00:52:35,700

ever snuck in it it would never see the

1392

00:52:40,130 --> 00:52:37,380

speaking tube they kept it concealed for

1393

00:52:43,130 --> 00:52:40,140

that you know uh well maybe you say when

1394

00:52:46,549 --> 00:52:43,140

you say Irish or you know anybody you

1395

00:52:48,589 --> 00:52:46,559

know European descent and you know the

1396

00:52:52,010 --> 00:52:48,599

pilgrimage and Plymouth and

1397

00:52:56,030 --> 00:52:52,020

Massachusetts no this is obviously

1398

00:52:58,910 --> 00:52:56,040

predating all of that by a long time you

1399

00:53:01,790 --> 00:52:58,920

can tell by looking at it that this is

1400

00:53:05,809 --> 00:53:01,800

really really old it's not hundreds of

1401

00:53:08,870 --> 00:53:05,819

years old no this is this is old stuff

1402

00:53:11,690 --> 00:53:08,880

and the evidence seems to just suggest

1403

00:53:13,790 --> 00:53:11,700

that uh and we do know now the Native

1404

00:53:15,170 --> 00:53:13,800

Americans are in um New Hampshire and

1405

00:53:17,690 --> 00:53:15,180

it's kind of a surprise because they get

1406

00:53:19,490 --> 00:53:17,700

the New Hampshire oncological societies

1407

00:53:21,470 --> 00:53:19,500

Publications and again our archaeologist

1408

00:53:23,930 --> 00:53:21,480

was a president of that and she's

1409

00:53:25,130 --> 00:53:23,940

retired now from us and she still

1410

00:53:26,569 --> 00:53:25,140

participates with that but she really

1411

00:53:28,609 --> 00:53:26,579

can't do the physical labor she was

1412

00:53:30,710 --> 00:53:28,619

doing you know she's in her 80s but New

1413

00:53:33,410 --> 00:53:30,720

Hampshire has no evidence of 13 000 year

1414

00:53:35,630 --> 00:53:33,420

old paleo Indian uh over in Keene New

1415

00:53:36,950 --> 00:53:35,640

Hampshire on the Connecticut River so

1416

00:53:39,650 --> 00:53:36,960

that would be the first thing you could

1417

00:53:41,270 --> 00:53:39,660

look at and if that doesn't fit maybe it

1418

00:53:43,490 --> 00:53:41,280

was old world visitors especially with

1419

00:53:45,349 --> 00:53:43,500

some of the uh the uh I'm not an

1420

00:53:46,910 --> 00:53:45,359

architect but the size the shape the

1421

00:53:48,109 --> 00:53:46,920

orientation certain architectural

1422

00:53:49,910 --> 00:53:48,119

features

1423

00:53:51,530 --> 00:53:49,920

but another thing we're looking at is a

1424

00:53:54,470 --> 00:53:51,540

standard unit of measure

1425

00:53:57,290 --> 00:53:54,480

so Goodwin's right-hand man back in 37

1426
00:53:59,089 --> 00:53:57,300
was Roscoe Whitney from an MIT graduate

1427
00:54:01,430 --> 00:53:59,099
he was an engineer he was from

1428
00:54:04,190 --> 00:54:01,440
Leominster Mass about 50 miles west of

1429
00:54:05,990 --> 00:54:04,200
here and he worked on the site he did

1430
00:54:07,910 --> 00:54:06,000
beautiful artwork I'm not at work he did

1431
00:54:09,470 --> 00:54:07,920
beautiful diagrams he had a plane table

1432
00:54:11,870 --> 00:54:09,480
we have pictures of him standing there

1433
00:54:14,089 --> 00:54:11,880
with his pith helmet on and he was doing

1434
00:54:20,569 --> 00:54:14,099
cross sections of the site the main site

1435
00:54:22,130 --> 00:54:20,579
uh profile and um uh also uh he was

1436
00:54:24,349 --> 00:54:22,140
actually doing sections of the site and

1437
00:54:26,690 --> 00:54:24,359
labeled the chambers you know everything

1438
00:54:27,710 --> 00:54:26,700

was done so nicely but what he said is I

1439

00:54:30,290 --> 00:54:27,720

don't know who

1440

00:54:32,150 --> 00:54:30,300

whoever built this didn't know or given

1441

00:54:34,670 --> 00:54:32,160

to him about linear measurements because

1442

00:54:36,170 --> 00:54:34,680

I looked at the size the shape or the

1443

00:54:37,609 --> 00:54:36,180

size the length and the depth of these

1444

00:54:39,650 --> 00:54:37,619

structures I measured them very

1445

00:54:41,569 --> 00:54:39,660

carefully and they don't conform to

1446

00:54:43,250 --> 00:54:41,579

Imperial measurements like inches feet

1447

00:54:44,809 --> 00:54:43,260

yards which you think the Paddy family

1448

00:54:46,430 --> 00:54:44,819

if they built it probably would have

1449

00:54:48,349 --> 00:54:46,440

used you know if he didn't know any

1450

00:54:51,410 --> 00:54:48,359

other measuring system that the site

1451

00:54:54,230 --> 00:54:51,420

conformed to and um back in the 70s I

1452

00:54:55,790 --> 00:54:54,240

built the diorama in 77 I don't know if

1453

00:54:59,089 --> 00:54:55,800

we have a picture of that I built it in

1454

00:55:00,890 --> 00:54:59,099

college and it has about uh 20 acres 15

1455

00:55:03,770 --> 00:55:00,900

Acres of the where all the astronomical

1456

00:55:05,329 --> 00:55:03,780

alignments are and the main site and I

1457

00:55:07,250 --> 00:55:05,339

had to go measure a few things up there

1458

00:55:09,530 --> 00:55:07,260

we were already aware of the megalithic

1459

00:55:10,309 --> 00:55:09,540

god found over in Europe by Dr Alexander

1460

00:55:13,309 --> 00:55:10,319

Tom

1461

00:55:14,870 --> 00:55:13,319

and it seemed like at the time that

1462

00:55:17,150 --> 00:55:14,880

seemed to fit pretty good but it was

1463

00:55:19,730 --> 00:55:17,160

preliminary it wasn't conclusive and we

1464

00:55:21,290 --> 00:55:19,740

were not professionals uh we have done

1465

00:55:22,970 --> 00:55:21,300

more of that recently in the last couple

1466

00:55:25,849 --> 00:55:22,980

years we went up and started using the

1467

00:55:27,589 --> 00:55:25,859

megalithic I just to see if it fit it

1468

00:55:29,630 --> 00:55:27,599

does seem to fit and my son's an

1469

00:55:32,210 --> 00:55:29,640

engineer too he measures things in our

1470

00:55:34,010 --> 00:55:32,220

assistant archaeologist he's a with the

1471

00:55:35,990 --> 00:55:34,020

University of Boulder he went to school

1472

00:55:37,970 --> 00:55:36,000

in College New Hampshire and it became a

1473

00:55:39,589 --> 00:55:37,980

basically a stone Mason he does that out

1474

00:55:41,990 --> 00:55:39,599

for a living measuring things he helped

1475

00:55:44,990 --> 00:55:42,000

me with some of the measurements and it

1476
00:55:48,349 --> 00:55:45,000
seems to conform to the megalithic yard

1477
00:55:50,569 --> 00:55:48,359
yeah there is a doctor clock from BYU

1478
00:55:52,790 --> 00:55:50,579
and he's been doing studies in South

1479
00:55:55,309 --> 00:55:52,800
America Mexico and in the southern

1480
00:55:57,829 --> 00:55:55,319
Mounds like Watson break and poverty

1481
00:55:59,270 --> 00:55:57,839
point and a friend of mine Mark Eddie

1482
00:56:00,290 --> 00:55:59,280
from West Virginia he's really big on

1483
00:56:01,730 --> 00:56:00,300
all this you may have heard you might

1484
00:56:03,410 --> 00:56:01,740
have I think Mike got made my first show

1485
00:56:06,890 --> 00:56:03,420
with you as a matter of fact he sent me

1486
00:56:09,410 --> 00:56:06,900
all this information and Dr Clark it's

1487
00:56:10,730 --> 00:56:09,420
really well written but 83 centimeters

1488
00:56:12,890 --> 00:56:10,740

is one of the measurements there was

1489

00:56:15,650 --> 00:56:12,900

another two so I converted it into

1490

00:56:18,290 --> 00:56:15,660

inches it is a megalithic yard and I'm

1491

00:56:21,190 --> 00:56:18,300

like wow so I think more has to be paid

1492

00:56:24,109 --> 00:56:21,200

attention to that possibility too so a

1493

00:56:27,589 --> 00:56:24,119

32.64 inches is also a thing called the

1494

00:56:30,049 --> 00:56:27,599

Spanish Vera that's 32.68 is very very

1495

00:56:32,089 --> 00:56:30,059

close to that and as it when the India

1496

00:56:33,890 --> 00:56:32,099

called I think was called The Royal the

1497

00:56:37,309 --> 00:56:33,900

Royal it was like a royal yacht or

1498

00:56:38,930 --> 00:56:37,319

whatever it's just under 33 inches but

1499

00:56:42,049 --> 00:56:38,940

this measurement when you do the cable

1500

00:56:44,450 --> 00:56:42,059

the groove on the table the chambers

1501
00:56:47,030 --> 00:56:44,460
it works and my son goes you know what I

1502
00:56:48,890 --> 00:56:47,040
think uh Roscoe was right because we

1503
00:56:50,270 --> 00:56:48,900
tried to look at whatever inches and all

1504
00:56:52,190 --> 00:56:50,280
because it just doesn't made up you

1505
00:56:55,549 --> 00:56:52,200
might find the length of the Oracle

1506
00:56:57,770 --> 00:56:55,559
chamber is like 27.5 feet you know it

1507
00:57:01,069 --> 00:56:57,780
just doesn't come out with anything you

1508
00:57:03,950 --> 00:57:01,079
know like a whole number or some portion

1509
00:57:06,049 --> 00:57:03,960
so um the standard unit measurement it

1510
00:57:08,390 --> 00:57:06,059
seems to be at our site the thing in at

1511
00:57:10,010 --> 00:57:08,400
other sites uh in the Northeast too they

1512
00:57:11,990 --> 00:57:10,020
have to do more work with that I think

1513
00:57:12,950 --> 00:57:12,000

but it's it's interesting you know at

1514

00:57:15,470 --> 00:57:12,960

this point

1515

00:57:17,450 --> 00:57:15,480

what does the and we'll talk about we're

1516

00:57:20,089 --> 00:57:17,460

going to take a break here in a minute

1517

00:57:23,750 --> 00:57:20,099

um uh and we'll talk more about this

1518

00:57:27,770 --> 00:57:23,760

when we come back but what what does the

1519

00:57:29,690 --> 00:57:27,780

local indigenous cultures uh say about

1520

00:57:32,329 --> 00:57:29,700

this site

1521

00:57:34,010 --> 00:57:32,339

well uh one of them came up for the

1522

00:57:35,809 --> 00:57:34,020

holsophiles three years ago with David

1523

00:57:38,930 --> 00:57:35,819

Schrader and Scott Walters was a guest

1524

00:57:40,609 --> 00:57:38,940

on that and uh his name is David Daryl

1525

00:57:42,530 --> 00:57:40,619

Jameson and he's been to our site a

1526
00:57:43,970 --> 00:57:42,540
couple times and I got to talk to him

1527
00:57:46,250 --> 00:57:43,980
during the filming three years ago just

1528
00:57:48,530 --> 00:57:46,260
about three years ago he did that and he

1529
00:57:51,170 --> 00:57:48,540
spent uh afternoon and evening with us

1530
00:57:53,270 --> 00:57:51,180
he said his one of his first visits he

1531
00:57:54,829 --> 00:57:53,280
was with uh kind of a group I'm not sure

1532
00:57:57,230 --> 00:57:54,839
I think it was uh David Brody and a

1533
00:57:59,809 --> 00:57:57,240
couple other people and he got about on

1534
00:58:02,750 --> 00:57:59,819
the site and he fell ill he had a bad

1535
00:58:04,309 --> 00:58:02,760
reaction to the site and it kind of

1536
00:58:06,650 --> 00:58:04,319
scared him he had to make his way back

1537
00:58:07,910 --> 00:58:06,660
to the uh bill this Visitor Center and

1538
00:58:09,230 --> 00:58:07,920

then eventually made him his way back

1539

00:58:10,970 --> 00:58:09,240

and then he felt better

1540

00:58:12,770 --> 00:58:10,980

so when they filmed him for the Holter

1541

00:58:14,809 --> 00:58:12,780

files he would not go on the site they

1542

00:58:16,849 --> 00:58:14,819

filmed them uh halfway between the what

1543

00:58:20,089 --> 00:58:16,859

we call the watch house which is a

1544

00:58:23,329 --> 00:58:20,099

satellite chamber and the visitor center

1545

00:58:25,430 --> 00:58:23,339

um he has he told me uh about 25 orkney

1546

00:58:28,430 --> 00:58:25,440

Island blood and he thinks he's related

1547

00:58:31,549 --> 00:58:28,440

to the Sinclair Expedition Sir Henry uh

1548

00:58:34,549 --> 00:58:31,559

Sir James Gunn so his name is Jamison he

1549

00:58:36,410 --> 00:58:34,559

says Jamison so it goes James and then

1550

00:58:38,510 --> 00:58:36,420

the son of James and he believes that

1551
00:58:40,549 --> 00:58:38,520
blood comes down with Sir Henry

1552
00:58:43,250 --> 00:58:40,559
Sinclair's expedition to the new world

1553
00:58:44,870 --> 00:58:43,260
and the other part of his blood was of

1554
00:58:46,910 --> 00:58:44,880
course Native American he goes that part

1555
00:58:49,190 --> 00:58:46,920
of that really disturbs me about this

1556
00:58:51,109 --> 00:58:49,200
site he goes it's a beautiful sight but

1557
00:58:53,270 --> 00:58:51,119
I have this reaction to it he goes it's

1558
00:58:54,829 --> 00:58:53,280
not my people and then we had Paulo

1559
00:58:58,069 --> 00:58:54,839
Underwood she wasn't a local though she

1560
00:58:59,809 --> 00:58:58,079
was Iroquois she was a consultant out in

1561
00:59:01,190 --> 00:58:59,819
California and she came to our place a

1562
00:59:04,190 --> 00:59:01,200
couple times she wrote The Walking

1563
00:59:06,230 --> 00:59:04,200

people and the walking people was

1564

00:59:09,289 --> 00:59:06,240

um her family's history going back 10

1565

00:59:11,030 --> 00:59:09,299

000 years and in that she said that her

1566

00:59:13,130 --> 00:59:11,040

dad helped teacher at two different ways

1567

00:59:15,530 --> 00:59:13,140

to keep the story proper and straight

1568

00:59:17,930 --> 00:59:15,540

and accurate there are some sort of

1569

00:59:20,690 --> 00:59:17,940

strange stone structures in her her

1570

00:59:22,490 --> 00:59:20,700

history her all history and according to

1571

00:59:24,230 --> 00:59:22,500

that it wasn't her people that built

1572

00:59:26,329 --> 00:59:24,240

these stone structures it was somebody

1573

00:59:28,549 --> 00:59:26,339

else so the book's interesting she has

1574

00:59:30,470 --> 00:59:28,559

passed away since then

1575

00:59:32,270 --> 00:59:30,480

um and I she looked probably in the

1576

00:59:33,650 --> 00:59:32,280

Great Lakes New York area and there are

1577

00:59:35,390 --> 00:59:33,660

stone structures out there and that

1578

00:59:37,069 --> 00:59:35,400

might be what her oral tradition is

1579

00:59:39,410 --> 00:59:37,079

talking about and they may be related to

1580

00:59:42,829 --> 00:59:39,420

our site but in our area we had the

1581

00:59:45,230 --> 00:59:42,839

Penacook and a Pawtucket and the

1582

00:59:47,870 --> 00:59:45,240

Pentucket Native Americans in on either

1583

00:59:49,789 --> 00:59:47,880

side of our site uh a mile and the other

1584

00:59:51,349 --> 00:59:49,799

one's about a mile and a half uh two

1585

00:59:53,390 --> 00:59:51,359

Native American Trails one is the

1586

00:59:54,890 --> 00:59:53,400

Pentucket one is the Pawtucket and the

1587

00:59:56,809 --> 00:59:54,900

spigot river that goes right by the

1588

00:59:58,670 --> 00:59:56,819

glacial Cliff shelter probably was a

1589

01:00:00,770 --> 00:59:58,680

highway used by Native Americans too and

1590

01:00:03,230 --> 01:00:00,780

then we have the uh pottery from them in

1591

01:00:05,270 --> 01:00:03,240

the glacial Cliff shelter in our parking

1592

01:00:07,910 --> 01:00:05,280

lot back about 30 years ago our

1593

01:00:10,730 --> 01:00:07,920

archaeologist Pat what I mentioned she

1594

01:00:12,710 --> 01:00:10,740

found a 30-foot diameter Wigwam it was

1595

01:00:15,349 --> 01:00:12,720

all the post holes where the pulse one

1596

01:00:17,870 --> 01:00:15,359

stood and three common datings from

1597

01:00:20,150 --> 01:00:17,880

three charcoal samples dated 2 000 years

1598

01:00:22,370 --> 01:00:20,160

old 1700 and I think the other one was

1599

01:00:24,289 --> 01:00:22,380

like 1600 and that puts it back to the

1600

01:00:25,970 --> 01:00:24,299

same time period as Pottery found a half

1601
01:00:29,210 --> 01:00:25,980
a mile away in the glacier Cliff shelter

1602
01:00:31,250 --> 01:00:29,220
so the thought is they used to Wigwam uh

1603
01:00:32,990 --> 01:00:31,260
for winter time and they used the

1604
01:00:34,910 --> 01:00:33,000
glacial Cliff shelter because it's on

1605
01:00:37,010 --> 01:00:34,920
the West Side the northwesterly breezes

1606
01:00:39,109 --> 01:00:37,020
come in over the spigot River and keep

1607
01:00:41,750 --> 01:00:39,119
the shelter cool so we have a Native

1608
01:00:44,270 --> 01:00:41,760
American presence on our Hill but

1609
01:00:47,270 --> 01:00:44,280
unfortunately because of diseases I

1610
01:00:49,370 --> 01:00:47,280
think Hepatitis B smallpox uh about 90

1611
01:00:50,930 --> 01:00:49,380
of the Native Americans in this in New

1612
01:00:53,089 --> 01:00:50,940
England and in other words and even down

1613
01:00:55,549 --> 01:00:53,099

in South America uh you know they died

1614

01:00:56,990 --> 01:00:55,559

out so we lost a lot of oral history I

1615

01:00:59,270 --> 01:00:57,000

think you know a lot of that's missing

1616

01:01:00,829 --> 01:00:59,280

so we could fit some pieces of that but

1617

01:01:02,870 --> 01:01:00,839

your question is wonderful you know we

1618

01:01:05,349 --> 01:01:02,880

have a few Native Americans including a

1619

01:01:07,730 --> 01:01:05,359

Wampanoag she's from the Plymouth Mass

1620

01:01:09,650 --> 01:01:07,740

she came to our site a couple times and

1621

01:01:11,150 --> 01:01:09,660

she was fascinated by it but she says my

1622

01:01:13,190 --> 01:01:11,160

oral tradition talks about the Vikings

1623

01:01:15,770 --> 01:01:13,200

going to Cape Cod because they found an

1624

01:01:17,750 --> 01:01:15,780

ax head out Cape Cod that was Viking but

1625

01:01:18,950 --> 01:01:17,760

it was somewhat like well did the Native

1626

01:01:20,569 --> 01:01:18,960

Americans trade it down from

1627

01:01:22,609 --> 01:01:20,579

Newfoundland or whatever or were the

1628

01:01:24,710 --> 01:01:22,619

Vikings actually here but one of the

1629

01:01:27,049 --> 01:01:24,720

sagas actually talks about an elbow land

1630

01:01:29,390 --> 01:01:27,059

sounds like Cape Cod she was pretty sure

1631

01:01:30,950 --> 01:01:29,400

that Vikings made it to there but our

1632

01:01:32,150 --> 01:01:30,960

site she didn't have any specifics other

1633

01:01:34,250 --> 01:01:32,160

than she thought it was a very

1634

01:01:35,990 --> 01:01:34,260

fascinating site you know I didn't could

1635

01:01:38,510 --> 01:01:36,000

get too much more out of it

1636

01:01:41,630 --> 01:01:38,520

if we're if we're dealing with something

1637

01:01:45,230 --> 01:01:41,640

that is uh possibly you know thousands

1638

01:01:46,730 --> 01:01:45,240

of years old which it appears to me when

1639

01:01:48,829 --> 01:01:46,740

we come back we've got some other stuff

1640

01:01:50,270 --> 01:01:48,839

we're going to discuss but who could

1641

01:01:54,710 --> 01:01:50,280

have built it

1642

01:01:57,470 --> 01:01:54,720

I mean uh did North American indigenous

1643

01:01:59,690 --> 01:01:57,480

tribes have knowledge of levers and

1644

01:02:02,990 --> 01:01:59,700

pulleys and ropes

1645

01:02:04,910 --> 01:02:03,000

it it and and Coring Stones so we have

1646

01:02:07,250 --> 01:02:04,920

Chaco Canyon and we have other things

1647

01:02:09,829 --> 01:02:07,260

but the dating on that it doesn't go

1648

01:02:11,089 --> 01:02:09,839

back that far and it's it's a bit

1649

01:02:13,730 --> 01:02:11,099

different

1650

01:02:17,589 --> 01:02:13,740

uh who could have built this

1651
01:02:22,609 --> 01:02:17,599
are we talking about a European uh uh

1652
01:02:24,910 --> 01:02:22,619
occupation of of America even before

1653
01:02:28,490 --> 01:02:24,920
Scott Walters best guess

1654
01:02:30,530 --> 01:02:28,500
I mean that's a great question and uh I

1655
01:02:34,370 --> 01:02:30,540
hope that evidence and new technologies

1656
01:02:36,829 --> 01:02:34,380
uh uh open up more information to us so

1657
01:02:38,390 --> 01:02:36,839
we have a better idea but certainly they

1658
01:02:39,770 --> 01:02:38,400
did in Western Europe there were 50 000

1659
01:02:42,470 --> 01:02:39,780
megalithic sites they go right into

1660
01:02:44,569 --> 01:02:42,480
Russia Euro Mountain website 3 500

1661
01:02:46,250 --> 01:02:44,579
Chambers and one of the first ones that

1662
01:02:47,870 --> 01:02:46,260
comes up on that website looks like one

1663
01:02:49,309 --> 01:02:47,880

of the structures about five miles away

1664

01:02:51,349 --> 01:02:49,319

in Windham New Hampshire and I show

1665

01:02:53,030 --> 01:02:51,359

people they look identical over in

1666

01:02:54,890 --> 01:02:53,040

Russia they accept them as ancient over

1667

01:02:56,690 --> 01:02:54,900

here oh some Farmers must build them

1668

01:02:58,130 --> 01:02:56,700

right um and then the next picture comes

1669

01:02:59,870 --> 01:02:58,140

up looks like the inside of our Oracle

1670

01:03:01,370 --> 01:02:59,880

chamber I have it on my PowerPoint and I

1671

01:03:02,750 --> 01:03:01,380

pull it up I have to okay that's the

1672

01:03:05,450 --> 01:03:02,760

Oracle chamber that's the structure in

1673

01:03:07,609 --> 01:03:05,460

Russia they go into China India we've

1674

01:03:09,170 --> 01:03:07,619

had people from India visiting and I uh

1675

01:03:11,349 --> 01:03:09,180

I've been told they know about their

1676

01:03:14,450 --> 01:03:11,359

history but the megalithic maybe

1677

01:03:16,970 --> 01:03:14,460

Neolithic time period they work Fighters

1678

01:03:19,490 --> 01:03:16,980

into that they they pull up the website

1679

01:03:20,690 --> 01:03:19,500

at our place and they're heading back to

1680

01:03:22,490 --> 01:03:20,700

India at some point and they were like

1681

01:03:23,809 --> 01:03:22,500

oh my God they didn't even know they had

1682

01:03:25,670 --> 01:03:23,819

the megalithic sites there and they

1683

01:03:27,710 --> 01:03:25,680

actually have a very nice website the

1684

01:03:29,210 --> 01:03:27,720

last I heard they're in New Zealand and

1685

01:03:31,250 --> 01:03:29,220

they're in Australia but they're in

1686

01:03:32,690 --> 01:03:31,260

South America too so your question is

1687

01:03:34,010 --> 01:03:32,700

wonderful but they kind of not only

1688

01:03:35,690 --> 01:03:34,020

Western Europe but they're in many many

1689

01:03:37,250 --> 01:03:35,700

parts of the world I say they're on six

1690

01:03:39,470 --> 01:03:37,260

continents out of seven continents

1691

01:03:41,569 --> 01:03:39,480

megalithic sites and they keep popping

1692

01:03:42,890 --> 01:03:41,579

up you know all right let's take our

1693

01:03:44,930 --> 01:03:42,900

break right here our guest tonight

store it's all simple to do you can

1787

01:07:33,890 --> 01:07:31,859

check out the Fade to Black blend the

1788

01:07:36,589 --> 01:07:33,900

game changer Blend or any of their black

1789

01:07:40,309 --> 01:07:36,599

moon wellness products it's the only

1790

01:07:45,770 --> 01:07:40,319

coffee I drink it is the best and it's

1791

01:07:51,250 --> 01:07:48,049

all right Welcome Back Fade to Black

1792

01:07:53,770 --> 01:07:51,260

tonight Dennis Stone is with us

1793

01:07:56,870 --> 01:07:53,780

America's Stonehenge

1794

01:08:00,710 --> 01:07:56,880

fascinating fascinating absolutely

1795

01:08:02,390 --> 01:08:00,720

fascinating and uh uh I had a long

1796

01:08:05,289 --> 01:08:02,400

conversation with Scott Walter about

1797

01:08:09,710 --> 01:08:05,299

America Stonehenge uh not too long ago

1798

01:08:12,589 --> 01:08:09,720

and every time I see it uh Dennis I it's

1799

01:08:16,130 --> 01:08:12,599

just it's one of the most impressive uh

1800

01:08:18,410 --> 01:08:16,140

sites just just anywhere and it's right

1801

01:08:21,769 --> 01:08:18,420

here in the United States

1802

01:08:25,070 --> 01:08:21,779

um and this next image uh Dennis that

1803

01:08:28,490 --> 01:08:25,080

I'm gonna pull up is uh what is called

1804

01:08:33,169 --> 01:08:28,500

the sacrificial table uh controversial

1805

01:08:38,030 --> 01:08:33,179

uh for for good reason uh let me pull it

1806

01:08:40,669 --> 01:08:38,040

up here and you had said earlier that uh

1807

01:08:42,769 --> 01:08:40,679

originally this was all filled in with

1808

01:08:45,410 --> 01:08:42,779

dirt so they thought that this Stone was

1809

01:08:47,930 --> 01:08:45,420

lying flat on the ground right that is

1810

01:08:51,530 --> 01:08:47,940

correct yeah in fact we have photographs

1811

01:08:54,410 --> 01:08:51,540

again going back to 1900 uh 1920s and it

1812

01:08:57,470 --> 01:08:54,420

shows dirt right up to the bottom of the

1813

01:08:58,849 --> 01:08:57,480

slab the legs were concealed or hidden

1814

01:09:01,789 --> 01:08:58,859

by the dirt

1815

01:09:04,610 --> 01:09:01,799

um that dirt I think in 1938 to second

1816

01:09:06,410 --> 01:09:04,620

year they actually got down excavated

1817

01:09:08,090 --> 01:09:06,420

that and then they found the four legs

1818

01:09:10,729 --> 01:09:08,100

you can see two of the legs right there

1819

01:09:14,030 --> 01:09:10,739

there's two more and then the very end

1820

01:09:17,269 --> 01:09:14,040

of the uh slab is actually resting on

1821

01:09:19,070 --> 01:09:17,279

the Oracle chamber outside walls kind of

1822

01:09:20,689 --> 01:09:19,080

a facade and on the left side of the

1823

01:09:22,910 --> 01:09:20,699

table you can see one of those orthostat

1824

01:09:24,470 --> 01:09:22,920

stones we have those and you see them in

1825

01:09:26,090 --> 01:09:24,480

European sites you know and probably

1826

01:09:28,370 --> 01:09:26,100

other megalithic sites around the world

1827

01:09:30,650 --> 01:09:28,380

I've seen those too on the right side of

1828

01:09:32,990 --> 01:09:30,660

the tables an upright monolith and

1829

01:09:35,030 --> 01:09:33,000

there's a similar one to the left of the

1830

01:09:37,729 --> 01:09:35,040

table and so people call them Sentinels

1831

01:09:38,870 --> 01:09:37,739

uh one of them kind of has a wider shape

1832

01:09:41,090 --> 01:09:38,880

and the other one has just a little bit

1833

01:09:43,430 --> 01:09:41,100

skinnier and I know I've been to ABRA in

1834

01:09:46,070 --> 01:09:43,440

England and West Kennett Avenue they had

1835

01:09:47,450 --> 01:09:46,080

some monoliths and the suggestion was as

1836

01:09:49,970 --> 01:09:47,460

we don't know for sure because we can't

1837

01:09:51,530 --> 01:09:49,980

tell to the talk to the builders but the

1838

01:09:53,570 --> 01:09:51,540

wider hip ones might represent female

1839

01:09:55,250 --> 01:09:53,580

and a little bit taller than ones might

1840

01:09:57,890 --> 01:09:55,260

represent male it's just one of these

1841

01:09:59,870 --> 01:09:57,900

things you may never know uh but those

1842

01:10:02,030 --> 01:09:59,880

are big slabs and again that's multi-ton

1843

01:10:05,570 --> 01:10:02,040

slabs a table

1844

01:10:07,610 --> 01:10:05,580

um is about almost nine feet by six but

1845

01:10:10,430 --> 01:10:07,620

again nothing's in Imperial measurements

1846

01:10:12,770 --> 01:10:10,440

but it weighs about four and a half tons

1847

01:10:14,390 --> 01:10:12,780

you know nine thousand pounds and you

1848

01:10:16,250 --> 01:10:14,400

can see it's bell shaped it's kind of

1849

01:10:19,070 --> 01:10:16,260

bell-shaped with a left bottom of it

1850

01:10:21,350 --> 01:10:19,080

looks like the piece of stone uh either

1851

01:10:23,689 --> 01:10:21,360

broke off when they were building this

1852

01:10:25,970 --> 01:10:23,699

site or you know it's always like that

1853

01:10:27,709 --> 01:10:25,980

perhaps but the groove on the table you

1854

01:10:29,630 --> 01:10:27,719

can see too it's a very kind of a wide

1855

01:10:31,669 --> 01:10:29,640

Groove it's almost four inches by about

1856

01:10:33,770 --> 01:10:31,679

an inch and a half deep

1857

01:10:36,890 --> 01:10:33,780

um we thought that was a rectangular

1858

01:10:38,750 --> 01:10:36,900

shape roof it's in books by Goodwin and

1859

01:10:40,910 --> 01:10:38,760

all the other authors since then oh yeah

1860

01:10:43,970 --> 01:10:40,920

the rectangular groove on the table

1861

01:10:45,890 --> 01:10:43,980

I get up and measure that in 2016 and I

1862

01:10:47,149 --> 01:10:45,900

found that the bottom and I measured it

1863

01:10:50,330 --> 01:10:47,159

from the center of the groove to the

1864

01:10:53,030 --> 01:10:50,340

center is nine inches wider than the top

1865

01:10:54,910 --> 01:10:53,040

of the groove it's actually a trapezoid

1866

01:10:57,290 --> 01:10:54,920

um and by the way uh megalithic

1867

01:11:01,250 --> 01:10:57,300

measurements the groove at the bottom is

1868

01:11:03,169 --> 01:11:01,260

1.5 megalithic yards at the top 1.25 the

1869

01:11:05,270 --> 01:11:03,179

width of the table although Again part

1870

01:11:07,370 --> 01:11:05,280

of it's broken but the widest point is

1871

01:11:09,470 --> 01:11:07,380

just above the break on the left uh the

1872

01:11:13,070 --> 01:11:09,480

widest point is right there and that is

1873

01:11:14,390 --> 01:11:13,080

2.5 megalithic yards and near the top of

1874

01:11:16,370 --> 01:11:14,400

the table is actually another little

1875

01:11:18,410 --> 01:11:16,380

straight area and that's two megalithic

1876

01:11:20,570 --> 01:11:18,420

damage it could be Oak coincidental but

1877

01:11:22,490 --> 01:11:20,580

we put that out there we measured from

1878

01:11:24,110 --> 01:11:22,500

the Bedrock to the top of the table and

1879

01:11:27,350 --> 01:11:24,120

it comes out to like 33 and a half

1880

01:11:30,169 --> 01:11:27,360

inches uh and that's a megalithic yard

1881

01:11:32,450 --> 01:11:30,179

well finding a trapezoid shape in the

1882

01:11:35,149 --> 01:11:32,460

plan U of the floor plans of the

1883

01:11:37,790 --> 01:11:35,159

structures now uh we never knew that but

1884

01:11:40,790 --> 01:11:37,800

we've been using handheld lidar this

1885

01:11:42,470 --> 01:11:40,800

handheld lidar um is being used by a

1886

01:11:46,070 --> 01:11:42,480

gentleman from Connecticut he contacted

1887

01:11:48,530 --> 01:11:46,080

me in this early spring of 2020 called

1888

01:11:50,450 --> 01:11:48,540

me up and said I'd like to uh ask you if

1889

01:11:52,010 --> 01:11:50,460

we could come up with a lidar and he's a

1890

01:11:53,209 --> 01:11:52,020

landscape architect with a master's

1891

01:11:55,490 --> 01:11:53,219

degree he's been doing that for 30 years

1892

01:11:58,550 --> 01:11:55,500

but he bought the slider fifty thousand

1893

01:12:01,189 --> 01:11:58,560

dollar unit and I said sure come on up

1894

01:12:05,030 --> 01:12:01,199

so he came up a few times he mapped 15

1895

01:12:07,250 --> 01:12:05,040

Acres he bought the uh the uh device

1896

01:12:09,770 --> 01:12:07,260

from Florida but he bought the software

1897

01:12:11,630 --> 01:12:09,780

from a company in Montreal and he also

1898

01:12:13,910 --> 01:12:11,640

bought a kind of a super computer it

1899

01:12:15,830 --> 01:12:13,920

took up 600 hours to process the data

1900

01:12:17,570 --> 01:12:15,840

for just the 15 Acres

1901

01:12:20,450 --> 01:12:17,580

and when you look at it you can see down

1902

01:12:22,090 --> 01:12:20,460

to a centimeter and we're using that I

1903

01:12:24,350 --> 01:12:22,100

think we'll be able to use that for

1904

01:12:28,310 --> 01:12:24,360

identifying if the site was using

1905

01:12:31,250 --> 01:12:28,320

megalithic yards you know uh but also it

1906

01:12:33,050 --> 01:12:31,260

reveals that the trapezoid shape is in

1907

01:12:34,669 --> 01:12:33,060

the uh different chambers one of them's

1908

01:12:38,149 --> 01:12:34,679

called the chamber in ruins it has about

1909

01:12:39,290 --> 01:12:38,159

a 7 000 pound roof slab fallen into it

1910

01:12:40,729 --> 01:12:39,300

it's always been there we don't know if

1911

01:12:43,070 --> 01:12:40,739

the patties knocked it down or an

1912

01:12:45,530 --> 01:12:43,080

earthquake knocked that in but he's able

1913

01:12:47,510 --> 01:12:45,540

to um get the Imaging and you look at it

1914

01:12:49,669 --> 01:12:47,520

and we went back and measured it it's a

1915

01:12:51,110 --> 01:12:49,679

trapezoid floor plan another chamber

1916

01:12:52,250 --> 01:12:51,120

called The Paddy chamber they weren't

1917

01:12:53,990 --> 01:12:52,260

they didn't build it but it's in the

1918

01:12:56,450 --> 01:12:54,000

area where their wooden house was it's

1919

01:12:58,370 --> 01:12:56,460

trapezoid and it went over to an area to

1920

01:13:00,709 --> 01:12:58,380

the left of the table out of the frame

1921

01:13:02,810 --> 01:13:00,719

it's like a little alcove it has two

1922

01:13:05,510 --> 01:13:02,820

little niches and when you look down at

1923

01:13:08,090 --> 01:13:05,520

it it has these walls either you can see

1924

01:13:10,189 --> 01:13:08,100

the trapezoid shape so we're finding

1925

01:13:12,950 --> 01:13:10,199

rather than 90 degree corners or finding

1926

01:13:14,689 --> 01:13:12,960

a trapezoid shape uh that's used in a

1927

01:13:16,610 --> 01:13:14,699

lot of sites in different parts of the

1928

01:13:18,050 --> 01:13:16,620

world and I read in England and I've

1929

01:13:20,330 --> 01:13:18,060

been there a few times but some of the

1930

01:13:21,649 --> 01:13:20,340

chambers have a trapezoid floor plan so

1931

01:13:23,750 --> 01:13:21,659

we've got to look at that a little bit

1932

01:13:26,930 --> 01:13:23,760

more you know but it doesn't seem to be

1933

01:13:28,430 --> 01:13:26,940

historical or The Paddy family

1934

01:13:30,350 --> 01:13:28,440

um I don't think they would have built a

1935

01:13:31,729 --> 01:13:30,360

courtyard with a house set that's a

1936

01:13:33,950 --> 01:13:31,739

trapezoided shape the house is

1937

01:13:35,270 --> 01:13:33,960

rectangular and that house today we

1938

01:13:38,209 --> 01:13:35,280

think is sitting down at the bottom of

1939

01:13:39,830 --> 01:13:38,219

our Hill 1907 book there's a picture of

1940

01:13:41,570 --> 01:13:39,840

it with a Paddy family standing in front

1941

01:13:43,910 --> 01:13:41,580

of it in the 1890s

1942

01:13:46,030 --> 01:13:43,920

there was a fire in the house in 1855

1943

01:13:48,830 --> 01:13:46,040

after the paddies kind of left the house

1944

01:13:50,750 --> 01:13:48,840

uh it was damaged it was a thought that

1945

01:13:53,390 --> 01:13:50,760

the whole house was consumed by fire the

1946

01:13:55,970 --> 01:13:53,400

archaeologists in the 50s and 60s never

1947

01:13:57,770 --> 01:13:55,980

found enough remains to show that the

1948

01:13:59,870 --> 01:13:57,780

house was consumed there so the thought

1949

01:14:02,030 --> 01:13:59,880

is it was damaged they took this house

1950

01:14:04,490 --> 01:14:02,040

down the street down that same road my

1951

01:14:06,050 --> 01:14:04,500

dad walked up in 1955 and it comes out

1952

01:14:08,810 --> 01:14:06,060

right in front of the house today it's

1953

01:14:10,970 --> 01:14:08,820

still standing and it's sitting where a

1954

01:14:12,770 --> 01:14:10,980

cabin called the Dow Tavern was but that

1955

01:14:14,209 --> 01:14:12,780

was consumed by actually burnt that

1956

01:14:15,649 --> 01:14:14,219

burnt down that's in the history of

1957

01:14:18,350 --> 01:14:15,659

Salem this house is put on the old

1958

01:14:20,390 --> 01:14:18,360

Foundation but the house is rectangular

1959

01:14:21,770 --> 01:14:20,400

but it actually can sit on this

1960

01:14:23,090 --> 01:14:21,780

trapezoid because of the you know the

1961

01:14:25,490 --> 01:14:23,100

width of the walls are pretty thick

1962

01:14:27,290 --> 01:14:25,500

there but that courtyard is not

1963

01:14:29,450 --> 01:14:27,300

rectangular like we always thought

1964

01:14:31,729 --> 01:14:29,460

neither is the groove on the table so

1965

01:14:33,169 --> 01:14:31,739

that is pretty new my dad never knew

1966

01:14:34,729 --> 01:14:33,179

about that and that's uh just in the

1967

01:14:36,410 --> 01:14:34,739

last three years we found the trapezoid

1968

01:14:37,790 --> 01:14:36,420

trick I think we got to do again we

1969

01:14:39,950 --> 01:14:37,800

always have to do more work and do more

1970

01:14:43,130 --> 01:14:39,960

research to confirm this stuff that

1971

01:14:44,890 --> 01:14:43,140

trapezoid doesn't make any sense now

1972

01:14:47,050 --> 01:14:44,900

okay

1973

01:14:49,090 --> 01:14:47,060

sacrificial table

1974

01:14:53,689 --> 01:14:49,100

that

1975

01:14:57,370 --> 01:14:53,699

obviously it looks like

1976

01:15:01,370 --> 01:14:57,380

um it's like a Corners table man right

1977

01:15:03,290 --> 01:15:01,380

are those are those grooves for to drain

1978

01:15:07,070 --> 01:15:03,300

blood

1979

01:15:08,990 --> 01:15:07,080

yeah so that's possible you're right it

1980

01:15:10,030 --> 01:15:09,000

does come to mind

1981

01:15:13,910 --> 01:15:10,040

um

1982

01:15:14,689 --> 01:15:13,920

what else would it be used for right I

1983

01:15:17,030 --> 01:15:14,699

actually

1984

01:15:20,689 --> 01:15:17,040

um you're right Jimmy you know and the

1985

01:15:22,010 --> 01:15:20,699

word you know embalming table or perhaps

1986

01:15:25,310 --> 01:15:22,020

sacrificial

1987

01:15:27,050 --> 01:15:25,320

uh it could be a birthing table and my

1988

01:15:29,330 --> 01:15:27,060

friend that's a friend of Scots she did

1989

01:15:31,130 --> 01:15:29,340

some research on that Haley uh about the

1990

01:15:34,250 --> 01:15:31,140

amount of fluid that would come out you

1991

01:15:36,530 --> 01:15:34,260

know during the birth but it might be I

1992

01:15:38,290 --> 01:15:36,540

mean we don't really know I will say

1993

01:15:41,270 --> 01:15:38,300

there is a um

1994

01:15:44,630 --> 01:15:41,280

uh an experiment well actually there's

1995

01:15:48,470 --> 01:15:44,640

uh you can extract material from like an

1996

01:15:50,330 --> 01:15:48,480

arrowhead or a spear point or stone ax

1997

01:15:52,130 --> 01:15:50,340

if it has a micro Fisher you can extract

1998

01:15:54,649 --> 01:15:52,140

the material it's called protein

1999

01:15:56,270 --> 01:15:54,659

analysis and you can go back 10 000

2000

01:15:58,550 --> 01:15:56,280

years and if you get the material out

2001

01:16:00,649 --> 01:15:58,560

and get it dated and also you can also

2002

01:16:02,930 --> 01:16:00,659

do the DNA on it determine if it's human

2003

01:16:04,790 --> 01:16:02,940

or what type of animal so it's been

2004

01:16:07,370 --> 01:16:04,800

suggested that the table because it has

2005

01:16:09,050 --> 01:16:07,380

it is like Scott Walters he he has all

2006

01:16:10,490 --> 01:16:09,060

these he's a geologist he gets into all

2007

01:16:12,410 --> 01:16:10,500

the geology and he knows the table is

2008

01:16:14,450 --> 01:16:12,420

foliated it comes up with layers there's

2009

01:16:16,669 --> 01:16:14,460

a lot of cracks on it and that's causing

2010

01:16:18,770 --> 01:16:16,679

some damage to it but if there was blood

2011

01:16:20,090 --> 01:16:18,780

on the table or some other fluid it may

2012

01:16:21,590 --> 01:16:20,100

have seeped into these cracks and

2013

01:16:24,229 --> 01:16:21,600

because the question is which crack do

2014

01:16:26,209 --> 01:16:24,239

you look for or but I talked to uh

2015

01:16:28,370 --> 01:16:26,219

another archaeologist a friend of ours

2016

01:16:29,870 --> 01:16:28,380

that just retired and she was you know

2017

01:16:31,550 --> 01:16:29,880

open-minded enough to come up and visit

2018

01:16:33,410 --> 01:16:31,560

and I mentioned that she goes the

2019

01:16:35,750 --> 01:16:33,420

problem is your table has been exposed

2020

01:16:39,350 --> 01:16:35,760

to the elements to the Sun to the wind

2021

01:16:41,090 --> 01:16:39,360

for so long that may not work if it was

2022

01:16:42,890 --> 01:16:41,100

covered over with Earth and you just

2023

01:16:44,990 --> 01:16:42,900

uncovered it we might be able to get it

2024

01:16:47,209 --> 01:16:45,000

so I that's how she kind of left it you

2025

01:16:48,649 --> 01:16:47,219

know but maybe some new technology you

2026

01:16:50,209 --> 01:16:48,659

know we can get in there and maybe maybe

2027

01:16:51,050 --> 01:16:50,219

we'll find something you know in the

2028

01:16:56,229 --> 01:16:51,060

future

2029

01:17:00,110 --> 01:16:56,239

it doesn't look like it was a fun place

2030

01:17:01,070 --> 01:17:00,120

oh it is yeah no I mean the the this

2031

01:17:02,709 --> 01:17:01,080

table

2032

01:17:07,550 --> 01:17:02,719

there

2033

01:17:09,950 --> 01:17:07,560

that just you know and I don't know I've

2034

01:17:12,410 --> 01:17:09,960

been looking at the chat right a butcher

2035

01:17:15,290 --> 01:17:12,420

block table maybe you know animals and

2036

01:17:17,270 --> 01:17:15,300

okay makes sense you know in the The

2037

01:17:21,410 --> 01:17:17,280

Groove the groove is there for blood

2038

01:17:24,649 --> 01:17:21,420

it's draining it's draining blood and

2039

01:17:31,070 --> 01:17:24,659

liquids no there's no question about it

2040

01:17:34,729 --> 01:17:31,080

the the question is what was the carcass

2041

01:17:38,689 --> 01:17:34,739

was it human or was it animals was it

2042

01:17:41,030 --> 01:17:38,699

sacrificial was it part of the ceremony

2043

01:17:43,610 --> 01:17:41,040

um the shape of it the trapezoid shape I

2044

01:17:45,229 --> 01:17:43,620

think is significant I do agree with you

2045

01:17:48,050 --> 01:17:45,239

by the way I think that corner was

2046

01:17:50,810 --> 01:17:48,060

chipped off you're not going to make

2047

01:17:54,290 --> 01:17:50,820

something like this this big and and and

2048

01:17:57,410 --> 01:17:54,300

and and and perfect uh with the chipped

2049

01:17:59,990 --> 01:17:57,420

corner on it I I think that that was you

2050

01:18:02,330 --> 01:18:00,000

know broke off over the years

2051

01:18:05,570 --> 01:18:02,340

um but it it's huge and it was done with

2052

01:18:06,890 --> 01:18:05,580

a purpose does it Lean by the way or is

2053

01:18:11,090 --> 01:18:06,900

it level

2054

01:18:13,850 --> 01:18:11,100

well yeah uh even back in the 30s you

2055

01:18:16,070 --> 01:18:13,860

know uh put water you watch it rain you

2056

01:18:18,290 --> 01:18:16,080

know even when I was a kid the rain will

2057

01:18:19,729 --> 01:18:18,300

go out and it comes towards you and

2058

01:18:21,470 --> 01:18:19,739

there's a little runnel that might be a

2059

01:18:23,390 --> 01:18:21,480

little hard to see it's kind of above

2060

01:18:25,550 --> 01:18:23,400

the right front leg there's a little

2061

01:18:27,229 --> 01:18:25,560

runnel that actually comes off and if

2062

01:18:29,510 --> 01:18:27,239

you look down by the front right leg you

2063

01:18:30,890 --> 01:18:29,520

can see a little line of white paint and

2064

01:18:32,870 --> 01:18:30,900

you can't see the whole thing but it's

2065

01:18:35,090 --> 01:18:32,880

actually a cutout in the Bedrock kind of

2066

01:18:36,590 --> 01:18:35,100

triangular shape and it's where either a

2067

01:18:38,750 --> 01:18:36,600

vase could sit or they could actually

2068

01:18:41,810 --> 01:18:38,760

collect the fluid in that little cutout

2069

01:18:43,729 --> 01:18:41,820

in the Bedrock yeah you know I mean I

2070

01:18:45,229 --> 01:18:43,739

know you're very you know auditable and

2071

01:18:47,390 --> 01:18:45,239

travel and I've been to a lot of places

2072

01:18:49,010 --> 01:18:47,400

and this site to me I sometimes you

2073

01:18:50,870 --> 01:18:49,020

think okay could the patients have done

2074

01:18:52,070 --> 01:18:50,880

this you know a visit more fruit you

2075

01:18:54,350 --> 01:18:52,080

know down to earth kind of thing

2076

01:18:57,350 --> 01:18:54,360

something historical but the more you

2077

01:19:00,110 --> 01:18:57,360

see this the site and all the details

2078

01:19:03,050 --> 01:19:00,120

and all all the work that went into this

2079

01:19:04,550 --> 01:19:03,060

but the similarities to his sights that

2080

01:19:06,830 --> 01:19:04,560

are ceremonial whether it's in Mexico

2081

01:19:09,169 --> 01:19:06,840

what people did in ceremonial sites

2082

01:19:11,330 --> 01:19:09,179

overseas or even in the mound builders

2083

01:19:13,790 --> 01:19:11,340

this site to me looks ceremonial it's on

2084

01:19:15,890 --> 01:19:13,800

a hill and that Groove is very large if

2085

01:19:18,649 --> 01:19:15,900

it was a live Stone I could pick it up a

2086

01:19:20,930 --> 01:19:18,659

live stone for making soap uh maybe a

2087

01:19:23,510 --> 01:19:20,940

yard 40 inches wide an inch thick or so

2088

01:19:26,510 --> 01:19:23,520

and I've seen them at museums and it has

2089

01:19:29,090 --> 01:19:26,520

a very very shallow round a perfectly

2090

01:19:30,709 --> 01:19:29,100

round circle that the barrel sat on with

2091

01:19:32,330 --> 01:19:30,719

the ashes and they collect that mix it

2092

01:19:34,370 --> 01:19:32,340

with animal facts they make their you

2093

01:19:36,350 --> 01:19:34,380

know the soap so one critic from

2094

01:19:39,410 --> 01:19:36,360

Connecticut he's been on TV quite a few

2095

01:19:41,390 --> 01:19:39,420

times oh I think it's a side uh either a

2096

01:19:42,890 --> 01:19:41,400

cider press or it's a lifestyle why

2097

01:19:45,110 --> 01:19:42,900

Stones this thing weighs nine thousand

2098

01:19:47,390 --> 01:19:45,120

pounds if it's a cider pressure you

2099

01:19:49,430 --> 01:19:47,400

can't get you can't get an animal down

2100

01:19:51,649 --> 01:19:49,440

there there's a wall where I'm standing

2101

01:19:53,930 --> 01:19:51,659

uh there's a big standing Stone on the

2102

01:19:55,790 --> 01:19:53,940

left that you can't see in the frame and

2103

01:19:57,950 --> 01:19:55,800

on the right that is where the entrance

2104

01:20:00,229 --> 01:19:57,960

to the Oracle chamber but it's a very

2105

01:20:02,570 --> 01:20:00,239

narrow gap between that vertical Stone

2106

01:20:04,970 --> 01:20:02,580

on the right and the wall and that will

2107

01:20:07,490 --> 01:20:04,980

take how do you take and bring in your

2108

01:20:09,229 --> 01:20:07,500

uh apples to be crushed you can't get a

2109

01:20:11,450 --> 01:20:09,239

horse in there so my friend at Scott's

2110

01:20:13,130 --> 01:20:11,460

friend she was a rodeo into Rodeo kind

2111

01:20:14,990 --> 01:20:13,140

of a rodeo star and I've asked her can

2112

01:20:16,130 --> 01:20:15,000

you get a horse in there she goes no I

2113

01:20:17,930 --> 01:20:16,140

wouldn't bring my horse and it's too

2114

01:20:19,310 --> 01:20:17,940

tight I mean it's possible but I

2115

01:20:20,990 --> 01:20:19,320

wouldn't have a wagon behind it there's

2116

01:20:24,110 --> 01:20:21,000

no possible way so why would you create

2117

01:20:26,810 --> 01:20:24,120

this thing for a for the local uh cider

2118

01:20:28,790 --> 01:20:26,820

press you know a Cider Mill or the Ivory

2119

01:20:30,649 --> 01:20:28,800

soap Factory I have no idea you know but

2120

01:20:35,689 --> 01:20:30,659

that's what they say it's like that's

2121

01:20:39,410 --> 01:20:35,699

ridiculous you know so cider press no no

2122

01:20:42,709 --> 01:20:39,420

no that looks ceremonial uh it it does

2123

01:20:45,890 --> 01:20:42,719

there was something going on there and

2124

01:20:48,530 --> 01:20:45,900

uh if this was in Europe this would be

2125

01:20:52,550 --> 01:20:48,540

like straight Pagan you know they would

2126

01:20:54,590 --> 01:20:52,560

be going there with this this uh it that

2127

01:20:56,570 --> 01:20:54,600

is fascinating I mean there's no

2128

01:20:59,689 --> 01:20:56,580

question that there's

2129

01:21:02,410 --> 01:20:59,699

uh that's a that's a drain for blood

2130

01:21:08,030 --> 01:21:02,420

I just don't know what

2131

01:21:10,850 --> 01:21:08,040

whose blood right right exactly wow that

2132

01:21:13,189 --> 01:21:10,860

is just absolutely mind-blowing and

2133

01:21:14,870 --> 01:21:13,199

Jimmy right below that table is where

2134

01:21:16,370 --> 01:21:14,880

that speaking tube comes out and where

2135

01:21:17,689 --> 01:21:16,380

you're standing you can see a wall at

2136

01:21:19,669 --> 01:21:17,699

the bottom of the frame and that's where

2137

01:21:21,649 --> 01:21:19,679

I'm standing and you can't see this

2138

01:21:23,450 --> 01:21:21,659

speaking tube you know it's it's hidden

2139

01:21:25,310 --> 01:21:23,460

under the table and you have somebody

2140

01:21:26,630 --> 01:21:25,320

that can really broadcast their voice

2141

01:21:28,669 --> 01:21:26,640

you've had a few of them that work for

2142

01:21:30,110 --> 01:21:28,679

us it's called the big mouse but they

2143

01:21:32,390 --> 01:21:30,120

really could project their voice and

2144

01:21:34,370 --> 01:21:32,400

when I can do it too but you know it

2145

01:21:36,229 --> 01:21:34,380

comes out under the table and it it does

2146

01:21:39,350 --> 01:21:36,239

sound great Scott Walters referred to it

2147

01:21:42,350 --> 01:21:39,360

as acoustical archeology you know

2148

01:21:43,729 --> 01:21:42,360

um and I will say that recently uh four

2149

01:21:45,649 --> 01:21:43,739

years ago when you're looking at the

2150

01:21:47,870 --> 01:21:45,659

tube as it comes out underneath the

2151
01:21:50,870 --> 01:21:47,880
table there was some damage to it it's

2152
01:21:52,669 --> 01:21:50,880
actually flared like a trumpet like a

2153
01:21:54,530 --> 01:21:52,679
clarinet or some other you know

2154
01:21:55,970 --> 01:21:54,540
instrument where it's actually flared

2155
01:21:57,709 --> 01:21:55,980
out so that the sound actually is

2156
01:21:59,330 --> 01:21:57,719
Amplified I think and that's the way

2157
01:22:01,189 --> 01:21:59,340
they designed that and that's where that

2158
01:22:03,530 --> 01:22:01,199
stone plug was sitting originally you

2159
01:22:06,770 --> 01:22:03,540
know on both sides wait wait Dennis

2160
01:22:08,990 --> 01:22:06,780
Dennis you're saying the six foot

2161
01:22:13,970 --> 01:22:09,000
speaking tube that we saw the picture of

2162
01:22:18,590 --> 01:22:13,980
earlier yeah is originates in the room

2163
01:22:20,930 --> 01:22:18,600

behind this the the table Yeah opening

2164

01:22:23,750 --> 01:22:20,940

to the speaking tube is underneath the

2165

01:22:27,110 --> 01:22:23,760

head of the sacrificial table that's

2166

01:22:33,530 --> 01:22:27,120

correct dude it's a ceremony

2167

01:22:38,590 --> 01:22:36,350

there was a shaman priest in the back

2168

01:22:40,570 --> 01:22:38,600

going

2169

01:22:43,430 --> 01:22:40,580

right

2170

01:22:45,830 --> 01:22:43,440

that's that's what was going on

2171

01:22:48,110 --> 01:22:45,840

you know JD I went to malter uh with the

2172

01:22:50,030 --> 01:22:48,120

family back in 97 we stayed at the new

2173

01:22:52,729 --> 01:22:50,040

Dolmen Hotel and we got to see some of

2174

01:22:54,890 --> 01:22:52,739

the Magnificent sites there and some of

2175

01:22:56,870 --> 01:22:54,900

the big Stones had these holes and I

2176
01:22:58,669 --> 01:22:56,880
asked the guide uh one of two sites that

2177
01:22:59,870 --> 01:22:58,679
God said I talked to him about our site

2178
01:23:01,490 --> 01:22:59,880
a little bit and they were fascinated

2179
01:23:03,649 --> 01:23:01,500
but I said what are those holes for

2180
01:23:05,870 --> 01:23:03,659
maybe the hole was you know a half a

2181
01:23:07,970 --> 01:23:05,880
foot to a foot in diameter he goes those

2182
01:23:10,790 --> 01:23:07,980
are speaking those are actually for um

2183
01:23:13,610 --> 01:23:10,800
on Oracle to speak through right and I

2184
01:23:16,610 --> 01:23:13,620
said I think we contend at our site yeah

2185
01:23:19,810 --> 01:23:16,620
yeah yeah yeah yeah yeah yeah I did I

2186
01:23:22,910 --> 01:23:19,820
don't think this is rocket science here

2187
01:23:25,729 --> 01:23:22,920
where where your mind is going I think

2188
01:23:28,010 --> 01:23:25,739

you're pretty close somebody just posted

2189

01:23:31,970 --> 01:23:28,020

check this out uh this is from Lavera

2190

01:23:35,750 --> 01:23:31,980

levera says she says well Human

2191

01:23:41,930 --> 01:23:35,760

Sacrifice is looking more probable yeah

2192

01:23:44,570 --> 01:23:41,940

and yeah wow wow okay now

2193

01:23:47,270 --> 01:23:44,580

um let's swing this around around to

2194

01:23:52,189 --> 01:23:47,280

something uh very very and well it's all

2195

01:23:54,649 --> 01:23:52,199

interesting but uh uh is the

2196

01:23:56,750 --> 01:23:54,659

astronomical alignment so I'm going to

2197

01:24:00,110 --> 01:23:56,760

pull this image up

2198

01:24:03,830 --> 01:24:00,120

um and it's numbered I'll show this to

2199

01:24:05,270 --> 01:24:03,840

everybody there's one right there's two

2200

01:24:06,189 --> 01:24:05,280

three

2201

01:24:11,510 --> 01:24:06,199

four

2202

01:24:14,750 --> 01:24:11,520

five six uh there's a nine uh we're

2203

01:24:18,470 --> 01:24:16,910

um I can't see the screen too well on my

2204

01:24:21,110 --> 01:24:18,480

tiny little cell phone but they should

2205

01:24:23,510 --> 01:24:21,120

be there offhand I can't think of it

2206

01:24:25,370 --> 01:24:23,520

there's eight eight is down in the

2207

01:24:29,870 --> 01:24:25,380

corner

2208

01:24:32,090 --> 01:24:29,880

um I I don't see seven here

2209

01:24:33,530 --> 01:24:32,100

seven yeah I don't have the key in front

2210

01:24:35,630 --> 01:24:33,540

of me we actually have a key that goes

2211

01:24:36,890 --> 01:24:35,640

with it I don't think it's in the frame

2212

01:24:38,870 --> 01:24:36,900

of the picture

2213

01:24:41,030 --> 01:24:38,880

uh so everything has an identification

2214

01:24:43,310 --> 01:24:41,040

with a little explanation on the key

2215

01:24:46,070 --> 01:24:43,320

which is again below the frame I think

2216

01:24:49,130 --> 01:24:46,080

on the left side it's out of sight

2217

01:24:52,490 --> 01:24:49,140

um yeah not this is the entire image

2218

01:24:54,590 --> 01:24:52,500

right here yeah yeah unfortunately the

2219

01:24:58,370 --> 01:24:54,600

uh yeah it's out of the frame because we

2220

01:25:00,470 --> 01:24:58,380

have a uh a small uh poster if you will

2221

01:25:02,270 --> 01:25:00,480

it's probably a foot by six inches and

2222

01:25:03,830 --> 01:25:02,280

has all the key on it you know of each

2223

01:25:06,350 --> 01:25:03,840

of those those are just different

2224

01:25:08,209 --> 01:25:06,360

features we think there are 57

2225

01:25:09,649 --> 01:25:08,219

alignments for the sun moon and stars

2226

01:25:14,990 --> 01:25:09,659

today

2227

01:25:20,450 --> 01:25:17,630

I think that's the main site and that's

2228

01:25:22,550 --> 01:25:20,460

where the chain link fence is and that's

2229

01:25:24,770 --> 01:25:22,560

where the concentration of structures

2230

01:25:27,229 --> 01:25:24,780

are located and that's where Mr Goodwin

2231

01:25:30,050 --> 01:25:27,239

and his crew did most of their you know

2232

01:25:31,370 --> 01:25:30,060

uh cleaning excavation but not all they

2233

01:25:33,050 --> 01:25:31,380

actually worked in another structure

2234

01:25:34,790 --> 01:25:33,060

we'll get to that in a little bit it's a

2235

01:25:36,470 --> 01:25:34,800

satellite chamber about 300 feet from

2236

01:25:38,570 --> 01:25:36,480

there and they worked on a couple other

2237

01:25:40,430 --> 01:25:38,580

things like the lower well and other but

2238

01:25:41,930 --> 01:25:40,440

that is where most of the structures are

2239

01:25:44,450 --> 01:25:41,940

that's what the table is the Oracle

2240

01:25:46,189 --> 01:25:44,460

chamber uh that's where the V Hut the

2241

01:25:48,550 --> 01:25:46,199

East-West chamber and other structures

2242

01:25:53,689 --> 01:25:48,560

are located there too

2243

01:25:54,890 --> 01:25:53,699

Let's uh number two which is the center

2244

01:25:57,350 --> 01:25:54,900

yeah

2245

01:25:59,629 --> 01:25:57,360

and that's where two Stone kinds were

2246

01:26:02,030 --> 01:25:59,639

located uh that are in Mr Goodwin's

2247

01:26:04,910 --> 01:26:02,040

first photographs and it Roscoe Whitney

2248

01:26:06,350 --> 01:26:04,920

actually diagrammed them and Goodwin in

2249

01:26:07,910 --> 01:26:06,360

his book talks about him thinking they

2250

01:26:09,290 --> 01:26:07,920

were connected to the Oracle chamber

2251
01:26:10,970 --> 01:26:09,300
they would never were he thought that

2252
01:26:12,890 --> 01:26:10,980
they were actually on the North End of

2253
01:26:14,629 --> 01:26:12,900
the Oracle chamber there's a wall but he

2254
01:26:16,669 --> 01:26:14,639
thought well maybe the wall you can

2255
01:26:19,129 --> 01:26:16,679
remove the stones like maybe an Indiana

2256
01:26:19,970 --> 01:26:19,139
Jones kind of thing or whatever move

2257
01:26:22,729 --> 01:26:19,980
them out of the way and you could

2258
01:26:24,470 --> 01:26:22,739
continue right into these two kinds but

2259
01:26:26,149 --> 01:26:24,480
they're actually they were separate

2260
01:26:28,850 --> 01:26:26,159
structures there's actually one of those

2261
01:26:30,229 --> 01:26:28,860
underground drains between them and he

2262
01:26:31,610 --> 01:26:30,239
didn't know what to make of them but

2263
01:26:34,189 --> 01:26:31,620

what he did do is use them for

2264

01:26:37,010 --> 01:26:34,199

restoration of the ramp pot of the ramp

2265

01:26:39,350 --> 01:26:37,020

on the North side which is overlooking

2266

01:26:40,790 --> 01:26:39,360

the sacrificial table pot of the ramps

2267

01:26:42,530 --> 01:26:40,800

original and then on the North side he

2268

01:26:44,390 --> 01:26:42,540

actually because we have pictures of the

2269

01:26:46,610 --> 01:26:44,400

uh tripod with a hand winch and he's

2270

01:26:48,050 --> 01:26:46,620

lifting up the Rocks uh he should have

2271

01:26:49,850 --> 01:26:48,060

never really destroyed those today

2272

01:26:53,689 --> 01:26:49,860

archaeologists would just leave it alone

2273

01:26:55,729 --> 01:26:53,699

but we're talking 1937 1938 so 40 years

2274

01:26:57,950 --> 01:26:55,739

later we started surveying alignments

2275

01:26:59,570 --> 01:26:57,960

using a professional survey team Beverly

2276

01:27:01,729 --> 01:26:59,580

Pearson Associates out of Dairy New

2277

01:27:03,649 --> 01:27:01,739

Hampshire and that was 50 years ago this

2278

01:27:04,910 --> 01:27:03,659

year and they began surveying the

2279

01:27:07,070 --> 01:27:04,920

alignments and some of the walls and

2280

01:27:08,750 --> 01:27:07,080

that's only about 15 Acres of the 110

2281

01:27:10,550 --> 01:27:08,760

acres of walls you're looking at so it's

2282

01:27:13,250 --> 01:27:10,560

a much bigger complex than you're

2283

01:27:16,189 --> 01:27:13,260

looking at but they completed that by

2284

01:27:18,290 --> 01:27:16,199

1977 and what we found out is the center

2285

01:27:19,729 --> 01:27:18,300

comes to those two kinds actually all

2286

01:27:21,169 --> 01:27:19,739

the alignments have come to two points

2287

01:27:22,970 --> 01:27:21,179

and it was where the cons were located

2288

01:27:24,830 --> 01:27:22,980

so a good one basically destroyed the

2289

01:27:26,689 --> 01:27:24,840

astronomical Center if you will there's

2290

01:27:29,750 --> 01:27:26,699

a wooden platform set up there today we

2291

01:27:32,090 --> 01:27:29,760

built that around 1975.

2292

01:27:34,729 --> 01:27:32,100

um and again we have about 57 alignments

2293

01:27:36,770 --> 01:27:34,739

and we sent that data to the Harvard

2294

01:27:41,209 --> 01:27:36,780

Smithsonian Center for astrophysics in

2295

01:27:43,310 --> 01:27:41,219

1978 and in 77 and in 78 we got the

2296

01:27:45,229 --> 01:27:43,320

results back and we have the person that

2297

01:27:46,550 --> 01:27:45,239

did the work on it the analysis I think

2298

01:27:48,169 --> 01:27:46,560

it was somebody named Rosenberg where

2299

01:27:49,430 --> 01:27:48,179

you had the whole report Rosenberg I

2300

01:27:50,990 --> 01:27:49,440

think it was

2301

01:27:53,390 --> 01:27:51,000

um they said that if this was used for

2302

01:27:55,970 --> 01:27:53,400

astronomical purposes the site the

2303

01:27:57,950 --> 01:27:55,980

alignment should work about 8 800 BC

2304

01:28:00,590 --> 01:27:57,960

plus or minus a couple hundred years due

2305

01:28:02,930 --> 01:28:00,600

to the Earth's Tilt is a very slow tilt

2306

01:28:06,950 --> 01:28:02,940

the obligated cycle like a 41 000 year

2307

01:28:09,950 --> 01:28:06,960

cycle so that agreed with a 1971 carbon

2308

01:28:12,229 --> 01:28:09,960

dating of the 12 and 71 we get the 4 000

2309

01:28:14,750 --> 01:28:12,239

year old date on the main site we also

2310

01:28:17,149 --> 01:28:14,760

got two 3 000 year old carbon datings

2311

01:28:19,669 --> 01:28:17,159

too on the main site so they kind of

2312

01:28:22,250 --> 01:28:19,679

agreed with the 1971 date here we are

2313

01:28:26,209 --> 01:28:22,260

seven years later with the astronomical

2314

01:28:29,810 --> 01:28:26,219

date showing that probably around 4 000

2315

01:28:31,729 --> 01:28:29,820

years ago the site was set up

2316

01:28:33,470 --> 01:28:31,739

um and that that was the astronomical

2317

01:28:36,709 --> 01:28:33,480

Center

2318

01:28:39,530 --> 01:28:36,719

um and so that was really big

2319

01:28:41,510 --> 01:28:39,540

information back then and still today so

2320

01:28:44,090 --> 01:28:41,520

you're looking at walls you're looking

2321

01:28:45,350 --> 01:28:44,100

at astronomical alignments and the white

2322

01:28:47,090 --> 01:28:45,360

I don't know if you can see the little

2323

01:28:48,830 --> 01:28:47,100

white painted things those are some of

2324

01:28:51,709 --> 01:28:48,840

the slabs there are 34 of them today

2325

01:28:53,090 --> 01:28:51,719

that are big swabs of stone that have

2326

01:28:55,070 --> 01:28:53,100

been removed from the Bedrock they've

2327

01:28:57,229 --> 01:28:55,080

been propped up and they've been worked

2328

01:28:58,790 --> 01:28:57,239

on uh with a stone Hammer actually

2329

01:29:02,209 --> 01:28:58,800

shaping them and the first one was found

2330

01:29:04,010 --> 01:29:02,219

in 1982 and Dr Gary Hume our state

2331

01:29:06,410 --> 01:29:04,020

archaeologist he was mainstream he

2332

01:29:08,510 --> 01:29:06,420

actually was doing three projects at our

2333

01:29:10,250 --> 01:29:08,520

site starting around 1980 and David

2334

01:29:12,830 --> 01:29:10,260

Stuart Smith you know got friendly with

2335

01:29:14,870 --> 01:29:12,840

him uh said I'd like you to work on the

2336

01:29:16,669 --> 01:29:14,880

way these big Stones were shaped and Dr

2337

01:29:18,709 --> 01:29:16,679

Gary Hume was a lithic specialist he

2338

01:29:21,530 --> 01:29:18,719

knew how Stones were a nap to make

2339

01:29:25,189 --> 01:29:21,540

arrowheads Stone axes Stone hoes use a

2340

01:29:26,930 --> 01:29:25,199

specialist in that area and one of our

2341

01:29:29,450 --> 01:29:26,940

staff members happened to be having a

2342

01:29:30,890 --> 01:29:29,460

picnic lunch her name was Mary and she

2343

01:29:33,110 --> 01:29:30,900

was sitting out in the woods on a stone

2344

01:29:35,090 --> 01:29:33,120

and David had instructed our staff to

2345

01:29:37,250 --> 01:29:35,100

look for stones that may be raised big

2346

01:29:39,410 --> 01:29:37,260

slabs maybe the edge of it serrated like

2347

01:29:41,149 --> 01:29:39,420

dimpled and showing up during her little

2348

01:29:42,830 --> 01:29:41,159

lunch break she actually knows the stone

2349

01:29:44,149 --> 01:29:42,840

was up in the air it seemed to be

2350

01:29:46,010 --> 01:29:44,159

propped up with another Stone it was

2351

01:29:49,010 --> 01:29:46,020

about eight feet long maybe four feet

2352

01:29:50,390 --> 01:29:49,020

wide and uh she looked under it so it

2353

01:29:52,490 --> 01:29:50,400

looked like a propping stone and she

2354

01:29:55,490 --> 01:29:52,500

also knows dipping dippling on the one

2355

01:29:58,070 --> 01:29:55,500

of the edges and so the next year Dr

2356

01:29:59,930 --> 01:29:58,080

David Stuart Smith Dr Gary Hume they did

2357

01:30:01,250 --> 01:29:59,940

an excavation with Dr Gary Hume

2358

01:30:02,570 --> 01:30:01,260

overseeing it they found all the little

2359

01:30:04,010 --> 01:30:02,580

flakes of stone along the edge of it

2360

01:30:05,990 --> 01:30:04,020

where somebody had been shaping that

2361

01:30:06,709 --> 01:30:06,000

stone using a Hammerstone and a throwing

2362

01:30:09,950 --> 01:30:06,719

Stone

2363

01:30:12,290 --> 01:30:09,960

since then we've identified 34 some are

2364

01:30:13,850 --> 01:30:12,300

like you know 10 feet long you know but

2365

01:30:16,669 --> 01:30:13,860

that's one of the biggest ones by by

2366

01:30:18,410 --> 01:30:16,679

feet they look like roof slabs they've

2367

01:30:19,850 --> 01:30:18,420

never been transported to the main site

2368

01:30:22,189 --> 01:30:19,860

and some of them are a thousand feet

2369

01:30:25,430 --> 01:30:22,199

down the hill and there are 34 of them

2370

01:30:26,990 --> 01:30:25,440

on the 106 Acres we started thinking

2371

01:30:28,910 --> 01:30:27,000

recently that we think that these

2372

01:30:31,669 --> 01:30:28,920

Builders we should have thought of it

2373

01:30:34,550 --> 01:30:31,679

before but they had a much greater plan

2374

01:30:37,189 --> 01:30:34,560

for this site and they left 34 big slabs

2375

01:30:39,110 --> 01:30:37,199

uh lying all over the hill and they

2376

01:30:42,229 --> 01:30:39,120

walked away from it and then you wonder

2377

01:30:45,189 --> 01:30:42,239

what happened to these people so maybe a

2378

01:30:50,270 --> 01:30:45,199

grander plan for this place

2379

01:30:52,070 --> 01:30:50,280

the uh okay uh real quick because I've I

2380

01:30:56,510 --> 01:30:52,080

want to go back and ask some questions

2381

01:30:57,950 --> 01:30:56,520

about the images so the the white lines

2382

01:31:01,370 --> 01:30:57,960

here

2383

01:31:04,390 --> 01:31:01,380

um in the diorama this is uh these are

2384

01:31:07,550 --> 01:31:04,400

the stone walls right

2385

01:31:09,470 --> 01:31:07,560

so we have two entrances we have an

2386

01:31:12,649 --> 01:31:09,480

entrance from the north and we have an

2387

01:31:16,370 --> 01:31:12,659

entrance from the south yes are the are

2388

01:31:18,229 --> 01:31:16,380

these stone walls uh original

2389

01:31:19,129 --> 01:31:18,239

um or were they built by The Paddy

2390

01:31:20,990 --> 01:31:19,139

family

2391

01:31:22,790 --> 01:31:21,000

no I don't think the patties built them

2392

01:31:25,790 --> 01:31:22,800

uh they may have made breaks in the

2393

01:31:27,290 --> 01:31:25,800

walls in some cases and the hilltop is

2394

01:31:29,030 --> 01:31:27,300

really not airable

2395

01:31:31,010 --> 01:31:29,040

um the paddies might we know from his

2396

01:31:33,770 --> 01:31:31,020

tax records They had some domesticated

2397

01:31:36,050 --> 01:31:33,780

animals but that's a great question we

2398

01:31:38,450 --> 01:31:36,060

think they're pretty much original uh

2399

01:31:40,189 --> 01:31:38,460

not only that by down by number on the

2400

01:31:42,770 --> 01:31:40,199

bottom right hand corner I can't quite

2401

01:31:44,030 --> 01:31:42,780

see if it's five or four that's the

2402

01:31:47,930 --> 01:31:44,040

watch House

2403

01:31:50,930 --> 01:31:47,940

okay got it and we have OSL optically

2404

01:31:51,950 --> 01:31:50,940

stimulated uh dating of the wall that

2405

01:31:53,090 --> 01:31:51,960

what are the walls you're looking at

2406

01:31:56,149 --> 01:31:53,100

actually goes in front of the watch

2407

01:31:58,550 --> 01:31:56,159

house and they did the dating in 20 20

2408

01:32:00,410 --> 01:31:58,560

we just got the results last fall the

2409

01:32:04,910 --> 01:32:00,420

dirt had accumulated next to that wall

2410

01:32:06,950 --> 01:32:04,920

in the dirt dated to 1400 A.D the wall

2411

01:32:08,930 --> 01:32:06,960

was there before that the whole

2412

01:32:10,370 --> 01:32:08,940

everything up there is built on bedrock

2413

01:32:12,350 --> 01:32:10,380

and the dirt comes from window and

2414

01:32:14,330 --> 01:32:12,360

particles and vegetation Decay it builds

2415

01:32:17,510 --> 01:32:14,340

up very slowly in New England it might

2416

01:32:19,490 --> 01:32:17,520

be 100 to 125 years for an inch of soil

2417

01:32:21,770 --> 01:32:19,500

but some areas on the hilltop you see a

2418

01:32:23,510 --> 01:32:21,780

lot of the gray on my diorama some of

2419

01:32:25,430 --> 01:32:23,520

those areas are bare when Goodwin came

2420

01:32:27,890 --> 01:32:25,440

along you know it just the way the lay

2421

01:32:29,090 --> 01:32:27,900

of the land is it just keeps washing in

2422

01:32:31,910 --> 01:32:29,100

other areas you might have two or three

2423

01:32:34,370 --> 01:32:31,920

feet of dirt you know accumulated but um

2424

01:32:35,930 --> 01:32:34,380

that wall was sitting there in 1400 it

2425

01:32:37,310 --> 01:32:35,940

was before Columbus came over and it may

2426

01:32:39,770 --> 01:32:37,320

have been sitting there for centuries

2427

01:32:41,689 --> 01:32:39,780

upon centuries we think possibly 4 000

2428

01:32:44,090 --> 01:32:41,699

years and that's down by that lower

2429

01:32:47,030 --> 01:32:44,100

right hand corner the Oracle chamber

2430

01:32:52,310 --> 01:32:47,040

roof we took cores from that and the

2431

01:32:54,350 --> 01:32:52,320

core uh we came back around 1550 A.D and

2432

01:32:56,330 --> 01:32:54,360

Dr feathers in the University of

2433

01:32:57,890 --> 01:32:56,340

Washington was conducting this and he

2434

01:33:00,110 --> 01:32:57,900

said well the chamber was there and then

2435

01:33:01,430 --> 01:33:00,120

the dirt came at some point later on

2436

01:33:03,050 --> 01:33:01,440

because you don't build the structure of

2437

01:33:05,649 --> 01:33:03,060

the dirt the dirt comes on top of the

2438

01:33:08,990 --> 01:33:05,659

roof later you know so we have

2439

01:33:11,270 --> 01:33:09,000

pre-colonial pre-patty and uh actually

2440

01:33:13,189 --> 01:33:11,280

pre-columbian dates on a couple of those

2441

01:33:16,010 --> 01:33:13,199

and that's OSL dating that's something

2442

01:33:17,990 --> 01:33:16,020

new we're doing and uh they did 22 sites

2443

01:33:19,490 --> 01:33:18,000

to Virginia that are somewhat similar to

2444

01:33:21,470 --> 01:33:19,500

our site with features you know

2445

01:33:23,930 --> 01:33:21,480

structures and those are coming back

2446

01:33:25,430 --> 01:33:23,940

pre-colonial too so this is science it's

2447

01:33:27,110 --> 01:33:25,440

not like somebody's opinion saying oh I

2448

01:33:28,610 --> 01:33:27,120

think it's old I think it's new I think

2449

01:33:30,530 --> 01:33:28,620

it's maybe not you know anything

2450

01:33:33,250 --> 01:33:30,540

worthwhile looking at you know we've

2451

01:33:38,510 --> 01:33:33,260

heard that before you know

2452

01:33:43,430 --> 01:33:40,790

the anthropologists and the

2453

01:33:47,390 --> 01:33:43,440

archaeologists and the geologists you

2454

01:33:49,610 --> 01:33:47,400

know that have to stick with the the

2455

01:33:52,729 --> 01:33:49,620

Dogma about the history of the United

2456

01:33:57,530 --> 01:33:52,739

States right and as soon as you start to

2457

01:34:01,970 --> 01:33:57,540

get outside of the accepted Norms 400

2458

01:34:05,149 --> 01:34:01,980

years 500 years 800 years 900 years you

2459

01:34:08,830 --> 01:34:05,159

start to talk you know 4 000 years 5 000

2460

01:34:11,390 --> 01:34:08,840

years old they immediately shut down

2461

01:34:12,669 --> 01:34:11,400

it's a very difficult thing to overcome

2462

01:34:15,229 --> 01:34:12,679

isn't it

2463

01:34:18,709 --> 01:34:15,239

you can have all the evidence that you

2464

01:34:20,510 --> 01:34:18,719

want but they will not step outside of

2465

01:34:23,810 --> 01:34:20,520

the box

2466

01:34:25,729 --> 01:34:23,820

I heard uh Mac I think it was Max plant

2467

01:34:27,890 --> 01:34:25,739

Plank I think I sent the name is from

2468

01:34:29,510 --> 01:34:27,900

Germany he said that science advances

2469

01:34:31,990 --> 01:34:29,520

one funeral at a time I think in

2470

01:34:34,209 --> 01:34:32,000

archeology is probably true too

2471

01:34:37,430 --> 01:34:34,219

you know

2472

01:34:39,410 --> 01:34:37,440

it's a difficult thing trying to

2473

01:34:41,390 --> 01:34:39,420

convince even with evidence and I've

2474

01:34:43,070 --> 01:34:41,400

also heard like ah my mind's made up I

2475

01:34:45,229 --> 01:34:43,080

don't want to see any facts we've heard

2476

01:34:47,090 --> 01:34:45,239

that too you know it's like just you

2477

01:34:49,669 --> 01:34:47,100

know be objective being scientific about

2478

01:34:51,169 --> 01:34:49,679

it uh your opinions your are your

2479

01:34:53,390 --> 01:34:51,179

opinions if they're based on data that's

2480

01:34:55,970 --> 01:34:53,400

good but if they're just opinions uh

2481

01:34:58,310 --> 01:34:55,980

built on some ideology or some agenda

2482

01:34:59,990 --> 01:34:58,320

it's like that's not scientific and to

2483

01:35:01,610 --> 01:35:00,000

say nope we don't have any ancient sites

2484

01:35:04,070 --> 01:35:01,620

in the Northeast well that's pretty

2485

01:35:06,050 --> 01:35:04,080

biased you know I mean that's you know

2486

01:35:09,050 --> 01:35:06,060

and you'll never you never convince a

2487

01:35:12,310 --> 01:35:09,060

person like that you know the site down

2488

01:35:14,510 --> 01:35:12,320

in Peru it's called Pumapunku and at

2489

01:35:15,950 --> 01:35:14,520

Pumapunku I'm gonna be there in a couple

2490

01:35:17,330 --> 01:35:15,960

of months and I can't wait I want to go

2491

01:35:20,510 --> 01:35:17,340

yeah

2492

01:35:23,930 --> 01:35:20,520

and so the sun Temple down there the

2493

01:35:25,729 --> 01:35:23,940

orientation for it to point at something

2494

01:35:27,370 --> 01:35:25,739

significant

2495

01:35:33,649 --> 01:35:27,380

um astronomically

2496

01:35:37,970 --> 01:35:33,659

dates that uh that site to 15 000 years

2497

01:35:39,890 --> 01:35:37,980

old right okay all right so you go back

2498

01:35:42,410 --> 01:35:39,900

with the star charts and you use the

2499

01:35:45,709 --> 01:35:42,420

computer and you back things up and you

2500

01:35:48,709 --> 01:35:45,719

line this up correctly the site is 15

2501

01:35:52,310 --> 01:35:48,719

000 years old I was talking to one of

2502

01:35:54,830 --> 01:35:52,320

the leading rock star physicists out

2503

01:35:57,770 --> 01:35:54,840

there I don't want to say his name

2504

01:36:00,649 --> 01:35:57,780

um I've told the story before but anyway

2505

01:36:03,290 --> 01:36:00,659

and I'm telling him about Pumapunku

2506

01:36:07,689 --> 01:36:03,300

Dennis right and he goes how old is it I

2507

01:36:18,110 --> 01:36:14,570

right it was crazy how and I thought

2508

01:36:21,229 --> 01:36:18,120

um uh at least from an academic that

2509

01:36:24,950 --> 01:36:21,239

they would go okay that how how would it

2510

01:36:27,430 --> 01:36:24,960

be dated then that's interesting is no

2511

01:36:31,790 --> 01:36:27,440

that wasn't I didn't get anything

2512

01:36:35,149 --> 01:36:31,800

inquisitive I got shut down yeah I got

2513

01:36:39,050 --> 01:36:35,159

body slammed I got thrown on my back and

2514

01:36:41,450 --> 01:36:39,060

just you know it was it was it was very

2515

01:36:44,450 --> 01:36:41,460

strange to me

2516

01:36:48,590 --> 01:36:44,460

um that somebody especially an academic

2517

01:36:50,570 --> 01:36:48,600

could not have an open mind to the

2518

01:36:53,990 --> 01:36:50,580

possibility of something at least a

2519

01:36:55,370 --> 01:36:54,000

discussion no no they they absolutely

2520

01:36:58,669 --> 01:36:55,380

just don't want to hear it they don't

2521

01:37:00,169 --> 01:36:58,679

exactly yeah exactly

2522

01:37:01,610 --> 01:37:00,179

um yeah we've encountered that because

2523

01:37:04,910 --> 01:37:01,620

we wouldn't encountered that back in the

2524

01:37:07,610 --> 01:37:04,920

1930s uh uh the naval historian Samuel

2525

01:37:09,470 --> 01:37:07,620

Elliott Morrison uh wrote animal of the

2526

01:37:10,970 --> 01:37:09,480

ocean sea and European Discovery America

2527

01:37:13,129 --> 01:37:10,980

and he was actually running in a battle

2528

01:37:15,470 --> 01:37:13,139

with Goodwin about the site he believed

2529

01:37:18,169 --> 01:37:15,480

in basically no explorers before

2530

01:37:20,450 --> 01:37:18,179

Columbus because he thought Columbus

2531

01:37:21,890 --> 01:37:20,460

you know as a later person Goodwin did

2532

01:37:23,390 --> 01:37:21,900

and he thought maybe the site was built

2533

01:37:25,129 --> 01:37:23,400

by the Vikings as they started cleaning

2534

01:37:26,930 --> 01:37:25,139

this is not a viking site it's built out

2535

01:37:29,030 --> 01:37:26,940

of stone Viking Jew side houses he

2536

01:37:31,610 --> 01:37:29,040

thought it was Irish call him but Samuel

2537

01:37:33,169 --> 01:37:31,620

Morrison coined the term nepco no

2538

01:37:34,729 --> 01:37:33,179

explorers before Columbus you know

2539

01:37:36,350 --> 01:37:34,739

that's it you know we're not going to

2540

01:37:37,729 --> 01:37:36,360

say more about it because then they

2541

01:37:39,470 --> 01:37:37,739

found the Vikings were in Canada a

2542

01:37:42,649 --> 01:37:39,480

thousand years you know 500 before

2543

01:37:45,770 --> 01:37:42,659

Columbus so that was a problem for you

2544

01:37:46,689 --> 01:37:45,780

know Mr Morrison you know uh he was

2545

01:37:49,790 --> 01:37:46,699

wrong

2546

01:37:52,970 --> 01:37:49,800

and finally you know I think it's pretty

2547

01:37:56,270 --> 01:37:52,980

I think I think Columbus has been kind

2548

01:37:58,610 --> 01:37:56,280

of erased now yeah yeah and that's we're

2549

01:38:01,010 --> 01:37:58,620

right I wanted to ask you I'm going to

2550

01:38:02,330 --> 01:38:01,020

pull this image up just a quick question

2551

01:38:07,610 --> 01:38:02,340

about

2552

01:38:10,430 --> 01:38:07,620

uh this these edges and specifically uh

2553

01:38:12,590 --> 01:38:10,440

the smooth edge at the foot of I'm

2554

01:38:13,910 --> 01:38:12,600

calling it the foot of the sacrificial

2555

01:38:16,310 --> 01:38:13,920

table

2556

01:38:19,790 --> 01:38:16,320

um how was that cut are there any marks

2557

01:38:21,530 --> 01:38:19,800

or grooves was it chiseled was there are

2558

01:38:23,270 --> 01:38:21,540

there any tooling marks and what does

2559

01:38:25,129 --> 01:38:23,280

Scott Walter have to say

2560

01:38:26,390 --> 01:38:25,139

yeah you know that's something Scott's

2561

01:38:28,129 --> 01:38:26,400

going to have to come back and look at

2562

01:38:29,450 --> 01:38:28,139

that a little closer

2563

01:38:31,729 --> 01:38:29,460

um that's a great point because the

2564

01:38:33,649 --> 01:38:31,739

other parts of the table we show where

2565

01:38:35,510 --> 01:38:33,659

it's been shaped somewhat you know or

2566

01:38:39,050 --> 01:38:35,520

addressed but that's a nice smooth front

2567

01:38:41,330 --> 01:38:39,060

edge that's that stone came from the

2568

01:38:43,910 --> 01:38:41,340

left side of the frame about 40 feet and

2569

01:38:46,250 --> 01:38:43,920

it was found below where the two cons

2570

01:38:49,129 --> 01:38:46,260

were located and when Goodwin's

2571

01:38:51,890 --> 01:38:49,139

destroyed them 80 almost 85 years ago he

2572

01:38:54,590 --> 01:38:51,900

did find the Quarry site in the Bedrock

2573

01:38:56,090 --> 01:38:54,600

and it was shaped like the table and he

2574

01:38:58,189 --> 01:38:56,100

said I think this is where the table

2575

01:38:59,990 --> 01:38:58,199

came from and they transported about 40

2576

01:39:01,790 --> 01:39:00,000

feet but yeah that's a good point you

2577

01:39:03,169 --> 01:39:01,800

know and I Scott's been there I would

2578

01:39:05,090 --> 01:39:03,179

say Scott's been there you know at least

2579

01:39:08,870 --> 01:39:05,100

a dozen times the next time he comes up

2580

01:39:10,790 --> 01:39:08,880

I'll have to pin him down there is a

2581

01:39:12,470 --> 01:39:10,800

joint or earthquake fault line some

2582

01:39:13,610 --> 01:39:12,480

people refer to it as it goes east to

2583

01:39:16,010 --> 01:39:13,620

the West it was in front of the

2584

01:39:18,590 --> 01:39:16,020

East-West chamber it goes across to the

2585

01:39:19,729 --> 01:39:18,600

glacial Thrift shelter it goes east it

2586

01:39:21,649 --> 01:39:19,739

is supposed to be part of the Clinton

2587

01:39:23,810 --> 01:39:21,659

Newbury fault line a lot of these

2588

01:39:26,030 --> 01:39:23,820

ancient sites are based on on yeah I

2589

01:39:28,910 --> 01:39:26,040

think even Machu Picchu are based on our

2590

01:39:31,070 --> 01:39:28,920

faults I've been told that some of the

2591

01:39:33,950 --> 01:39:31,080

stone circles in Wales and I've been to

2592

01:39:35,750 --> 01:39:33,960

Wales there's about 700 of them and they

2593

01:39:38,209 --> 01:39:35,760

go into England of course and they're

2594

01:39:40,390 --> 01:39:38,219

all on or within a mile and a half of a

2595

01:39:43,490 --> 01:39:40,400

fault line but that fault line is a nice

2596

01:39:44,629 --> 01:39:43,500

sheer cut in the in the rock you can

2597

01:39:46,729 --> 01:39:44,639

actually see where the Bedrock actually

2598

01:39:49,010 --> 01:39:46,739

split and actually moved opposite and up

2599

01:39:50,990 --> 01:39:49,020

a little bit but that kind of front of

2600

01:39:53,030 --> 01:39:51,000

the sacrificial table kind of looks like

2601

01:39:55,129 --> 01:39:53,040

that but it's not where the fault line

2602

01:39:57,470 --> 01:39:55,139

is so that's kind of uh strange it's so

2603

01:39:59,030 --> 01:39:57,480

but there is a stone on the right side

2604

01:40:01,010 --> 01:39:59,040

standing and you can see the edge of

2605

01:40:03,110 --> 01:40:01,020

that vertical monolith on the right side

2606

01:40:05,090 --> 01:40:03,120

right and that's pretty straight too so

2607

01:40:06,470 --> 01:40:05,100

that does happen you know about this one

2608

01:40:07,970 --> 01:40:06,480

right yeah you can see the left yeah

2609

01:40:10,370 --> 01:40:07,980

it's pretty straight you know so that's

2610

01:40:11,570 --> 01:40:10,380

going to be looked at I think by Scott

2611

01:40:12,590 --> 01:40:11,580

would be great to come back we got to

2612

01:40:15,250 --> 01:40:12,600

get them back and have them look at that

2613

01:40:18,470 --> 01:40:15,260

yeah yeah I mean

2614

01:40:21,830 --> 01:40:18,480

and what about the grooves in the table

2615

01:40:24,169 --> 01:40:21,840

uh the blood the blood drain

2616

01:40:26,990 --> 01:40:24,179

um are there any tool Marks here how how

2617

01:40:29,629 --> 01:40:27,000

how was this fashioned

2618

01:40:32,209 --> 01:40:29,639

yeah well there's a method called

2619

01:40:33,649 --> 01:40:32,219

pecking I guess and we think that method

2620

01:40:35,870 --> 01:40:33,659

and I I don't know if I can describe it

2621

01:40:36,950 --> 01:40:35,880

it's in a book written by some neural

2622

01:40:38,270 --> 01:40:36,960

members and it was really interesting

2623

01:40:40,370 --> 01:40:38,280

and they were looking at not only the

2624

01:40:41,629 --> 01:40:40,380

groove on the table but the bottom of

2625

01:40:43,850 --> 01:40:41,639

that groove on the table it's maybe

2626

01:40:45,169 --> 01:40:43,860

three or four inches wide at the very

2627

01:40:46,910 --> 01:40:45,179

bottom it's almost where you can set

2628

01:40:49,010 --> 01:40:46,920

your little your little finger in it

2629

01:40:50,450 --> 01:40:49,020

it's like a little smooth Channel at the

2630

01:40:51,890 --> 01:40:50,460

very bottom you have to look at it very

2631

01:40:54,950 --> 01:40:51,900

carefully it may not even show up in

2632

01:40:56,330 --> 01:40:54,960

this image yeah yeah that one right

2633

01:40:58,310 --> 01:40:56,340

there yeah that's one of them and then

2634

01:41:01,370 --> 01:40:58,320

even in the in the upper part of that

2635

01:41:02,830 --> 01:41:01,380

the groove it looks like the same thing

2636

01:41:05,930 --> 01:41:02,840

that we have

2637

01:41:09,050 --> 01:41:05,940

about six different shapes in the

2638

01:41:10,790 --> 01:41:09,060

Bedrock that have the little runnel and

2639

01:41:13,010 --> 01:41:10,800

Barry fell referred to him as libation

2640

01:41:14,689 --> 01:41:13,020

bowls and in Malta I saw similar and I

2641

01:41:16,070 --> 01:41:14,699

get asked a guide there I said what were

2642

01:41:18,830 --> 01:41:16,080

these used for he said they would pour

2643

01:41:20,570 --> 01:41:18,840

perhaps blood or an offering it would go

2644

01:41:22,910 --> 01:41:20,580

into the soil it was for fertilization

2645

01:41:25,790 --> 01:41:22,920

for fertility as an offering I said we

2646

01:41:28,250 --> 01:41:25,800

got one shape like a chicken kinda one

2647

01:41:31,310 --> 01:41:28,260

like a wine bottle we have one ship like

2648

01:41:33,050 --> 01:41:31,320

an apple and one ship like a kidney and

2649

01:41:34,370 --> 01:41:33,060

they all have the little runnels in the

2650

01:41:36,109 --> 01:41:34,380

bottom of the Run also look like the

2651

01:41:38,330 --> 01:41:36,119

bottom of that groove on the table so

2652

01:41:40,310 --> 01:41:38,340

they were doing something similar but it

2653

01:41:41,629 --> 01:41:40,320

was called the pecking method and I I'm

2654

01:41:43,430 --> 01:41:41,639

not sure if they were heating the rock

2655

01:41:46,129 --> 01:41:43,440

up and then pecking it with a stone you

2656

01:41:48,709 --> 01:41:46,139

know heat it super maybe cool it down

2657

01:41:51,350 --> 01:41:48,719

with water some people say vinegar and

2658

01:41:52,729 --> 01:41:51,360

it was uh thermal shock to Stone in that

2659

01:41:54,830 --> 01:41:52,739

area and then you could get little

2660

01:41:56,149 --> 01:41:54,840

pieces off it easier I don't know if

2661

01:42:00,770 --> 01:41:56,159

that's how they did that though you know

2662

01:42:03,050 --> 01:42:00,780

so yeah the Sandstone okay all right

2663

01:42:06,470 --> 01:42:03,060

yeah this is granite

2664

01:42:09,709 --> 01:42:06,480

yeah and so you're gonna have to Peck it

2665

01:42:11,950 --> 01:42:09,719

with the stone harder than granite yeah

2666

01:42:14,570 --> 01:42:11,960

okay all right

2667

01:42:17,390 --> 01:42:14,580

it's got to tell you there's there's not

2668

01:42:19,729 --> 01:42:17,400

too many things out there

2669

01:42:22,550 --> 01:42:19,739

um and when you're when you're pushing

2670

01:42:26,030 --> 01:42:22,560

dating back this far

2671

01:42:29,270 --> 01:42:26,040

um you know Bronze Age and and so forth

2672

01:42:31,550 --> 01:42:29,280

I I I don't know if there's been any

2673

01:42:34,910 --> 01:42:31,560

metal tools that were found on the site

2674

01:42:39,709 --> 01:42:34,920

that were ancient but uh or what other

2675

01:42:42,109 --> 01:42:39,719

uh stone tools were used uh for this uh

2676
01:42:44,689 --> 01:42:42,119
you have to dress these Stones you have

2677
01:42:47,750 --> 01:42:44,699
to shape these Stones

2678
01:42:50,090 --> 01:42:47,760
um I'm just very curious that is just

2679
01:42:53,470 --> 01:42:50,100
fascinating to me that okay I'm looking

2680
01:42:55,850 --> 01:42:53,480
at the clock before we run out of time

2681
01:42:58,370 --> 01:42:55,860
one thing we have found Hammer Stones

2682
01:43:00,109 --> 01:42:58,380
rubbing stones stone and stone scrapers

2683
01:43:02,330 --> 01:43:00,119
on the site including in some of the

2684
01:43:04,189 --> 01:43:02,340
carbon dating areas the Stone Age tools

2685
01:43:05,870 --> 01:43:04,199
Goodwin found them we found them in the

2686
01:43:07,609 --> 01:43:05,880
60s and 70s and I just found another

2687
01:43:10,250 --> 01:43:07,619
Hammerstone next to one of these big

2688
01:43:12,830 --> 01:43:10,260

shaped Stones it's in uh we have labeled

2689

01:43:14,750 --> 01:43:12,840

it we have it set aside so stone tools

2690

01:43:18,910 --> 01:43:14,760

yes we have found them on the site

2691

01:43:21,229 --> 01:43:18,920

but not Bronze Age no he's a stone

2692

01:43:23,750 --> 01:43:21,239

so we're taking you know again we're

2693

01:43:26,090 --> 01:43:23,760

pushing the dating back uh you know just

2694

01:43:28,790 --> 01:43:26,100

a long long ways okay what's this is

2695

01:43:31,729 --> 01:43:28,800

this is Beautiful by the way yeah uh

2696

01:43:33,470 --> 01:43:31,739

what day of the year is is this taking

2697

01:43:34,910 --> 01:43:33,480

that is the equinox spring and fall that

2698

01:43:37,550 --> 01:43:34,920

happens to be the Spring Equinox and

2699

01:43:39,490 --> 01:43:37,560

that was this year three months ago uh

2700

01:43:42,169 --> 01:43:39,500

Scott's friend Haley actually came up in

2701

01:43:43,910 --> 01:43:42,179

2019 she had her son Seeker on her phone

2702

01:43:45,709 --> 01:43:43,920

we were talking about that stone in the

2703

01:43:48,050 --> 01:43:45,719

back wall it's been talked about by Hans

2704

01:43:50,209 --> 01:43:48,060

Holzer in 1992 when his book came out

2705

01:43:52,370 --> 01:43:50,219

Barbara had clouded the Ford and talked

2706

01:43:53,810 --> 01:43:52,380

about its quartzite and it's not a

2707

01:43:55,629 --> 01:43:53,820

special because the rest of it's granted

2708

01:43:58,310 --> 01:43:55,639

very very kind of a light colored Stone

2709

01:44:00,050 --> 01:43:58,320

uh and other people have commented about

2710

01:44:01,970 --> 01:44:00,060

that too they said what is that there is

2711

01:44:03,950 --> 01:44:01,980

that something special well the forest

2712

01:44:05,870 --> 01:44:03,960

was always in the way well after Haley

2713

01:44:07,790 --> 01:44:05,880

came up and did some secrets she said I

2714

01:44:09,050 --> 01:44:07,800

he goes it's going to probably Equinox

2715

01:44:10,490 --> 01:44:09,060

and it's gonna be around nine in the

2716

01:44:12,709 --> 01:44:10,500

morning that stone should get eliminated

2717

01:44:14,689 --> 01:44:12,719

the next year after we did a started a

2718

01:44:16,550 --> 01:44:14,699

forestry project it was a two winter

2719

01:44:18,290 --> 01:44:16,560

project with a licensed Forester I said

2720

01:44:20,149 --> 01:44:18,300

you got a clear up that Avenue to our

2721

01:44:22,010 --> 01:44:20,159

neighbor's yard so we could see the sun

2722

01:44:24,229 --> 01:44:22,020

go into that chamber for the first time

2723

01:44:27,470 --> 01:44:24,239

and it wasn't that picture it was a

2724

01:44:28,970 --> 01:44:27,480

different one the uh what we saw was you

2725

01:44:30,490 --> 01:44:28,980

see how the Shadow and light kind of

2726

01:44:33,590 --> 01:44:30,500

framed the bottom

2727

01:44:35,810 --> 01:44:33,600

uh what it was is the light in Shadow

2728

01:44:38,149 --> 01:44:35,820

frame the top of the stone just opposite

2729

01:44:39,590 --> 01:44:38,159

that at eight o'clock in the morning an

2730

01:44:40,850 --> 01:44:39,600

hour from what we're in the eastern part

2731

01:44:43,070 --> 01:44:40,860

of the time zone I said Haley don't

2732

01:44:44,330 --> 01:44:43,080

worry about the Howard it works and it's

2733

01:44:45,890 --> 01:44:44,340

we're in the eastern part of the Eastern

2734

01:44:47,629 --> 01:44:45,900

Time Zone you know Louisville Kentucky

2735

01:44:50,870 --> 01:44:47,639

where you used to go is further hours

2736

01:44:52,850 --> 01:44:50,880

but anyway it does at eight o'clock it

2737

01:44:54,649 --> 01:44:52,860

frames to talk I stood there with a

2738

01:44:56,510 --> 01:44:54,659

woman this year after we most of the

2739

01:44:58,430 --> 01:44:56,520

people had left after seeing the sunrise

2740

01:44:59,870 --> 01:44:58,440

over a fallen eight foot monolith it's a

2741

01:45:02,149 --> 01:44:59,880

different alignment but it's the Equinox

2742

01:45:04,550 --> 01:45:02,159

too and then there's one by the Oracle

2743

01:45:06,709 --> 01:45:04,560

chamber and it actually so we have three

2744

01:45:08,810 --> 01:45:06,719

alignments that morning one around six

2745

01:45:11,870 --> 01:45:08,820

something one about seven something

2746

01:45:13,850 --> 01:45:11,880

about seven and then down here I got

2747

01:45:16,189 --> 01:45:13,860

down here at eight o'clock the last two

2748

01:45:18,229 --> 01:45:16,199

years and now I saw the top of that

2749

01:45:19,729 --> 01:45:18,239

stone frame but I went down there at 7

2750

01:45:20,990 --> 01:45:19,739

30. I'm yapping with a woman we're

2751
01:45:22,490 --> 01:45:21,000
waiting for the eight o'clock event I

2752
01:45:23,750 --> 01:45:22,500
turned around and looked behind me and I

2753
01:45:26,510 --> 01:45:23,760
looked into the chamber and that's what

2754
01:45:28,129 --> 01:45:26,520
I saw the bottom was framed at 7 30 30

2755
01:45:30,890 --> 01:45:28,139
minutes later the top of the stone is

2756
01:45:33,290 --> 01:45:30,900
framed perfectly and then at 8 30 looks

2757
01:45:35,689 --> 01:45:33,300
like a hand it morphs into a hand shape

2758
01:45:38,390 --> 01:45:35,699
with an index finger we think that's

2759
01:45:41,330 --> 01:45:38,400
possibly a fertilization symbol that

2760
01:45:43,250 --> 01:45:41,340
that chamber is a womb and that is an

2761
01:45:45,050 --> 01:45:43,260
egg and the Sun the Rays the

2762
01:45:46,609 --> 01:45:45,060
fertilization kind of like new Grange in

2763
01:45:48,709 --> 01:45:46,619

Ireland which I've been to and also the

2764

01:45:51,169 --> 01:45:48,719

Newport tower that Scott's really big on

2765

01:45:54,709 --> 01:45:51,179

you know with a egg shape be illuminated

2766

01:45:57,169 --> 01:45:54,719

on the winter solstice and the mayday

2767

01:45:59,689 --> 01:45:57,179

and that I think is amazing that is the

2768

01:46:02,270 --> 01:45:59,699

beginning we think of a 2550 foot

2769

01:46:04,970 --> 01:46:02,280

serpent wall it goes all the way around

2770

01:46:07,010 --> 01:46:04,980

the 58 Acres comes back it undulates up

2771

01:46:09,890 --> 01:46:07,020

and down and it looks like it's biting

2772

01:46:12,290 --> 01:46:09,900

its tail and we found that since 2016.

2773

01:46:14,570 --> 01:46:12,300

we think it's uh Bora bora's possibly

2774

01:46:16,310 --> 01:46:14,580

the serpent biting its tail

2775

01:46:17,390 --> 01:46:16,320

man and you can't quite see the whole

2776
01:46:20,209 --> 01:46:17,400
thing because you're just looking at the

2777
01:46:23,510 --> 01:46:20,219
edge of the boulder there this shot is

2778
01:46:27,890 --> 01:46:23,520
incredible I mean it's just it's it's

2779
01:46:30,350 --> 01:46:27,900
just illuminating the the entrance

2780
01:46:33,109 --> 01:46:30,360
and man I can't believe you got to play

2781
01:46:35,030 --> 01:46:33,119
here as a kid and just hang out and that

2782
01:46:37,030 --> 01:46:35,040
was just I'd like to be younger again do

2783
01:46:39,890 --> 01:46:37,040
it all over again

2784
01:46:41,689 --> 01:46:39,900
right right and he probably would have

2785
01:46:44,330 --> 01:46:41,699
done it a little bit differently too as

2786
01:46:46,790 --> 01:46:44,340
well now the

2787
01:46:49,250 --> 01:46:46,800
um uh and new Grange

2788
01:46:52,129 --> 01:46:49,260

you know I I haven't been to Newgrange

2789

01:46:56,450 --> 01:46:52,139

uh bendy Egypt I'm going back to Egypt

2790

01:46:59,149 --> 01:46:56,460

uh here in a few months and uh the

2791

01:47:00,950 --> 01:46:59,159

second time my second trip to Egypt is

2792

01:47:04,310 --> 01:47:00,960

the first one

2793

01:47:06,410 --> 01:47:04,320

you know so special but yeah you just

2794

01:47:09,890 --> 01:47:06,420

learned some and and going back and

2795

01:47:12,290 --> 01:47:09,900

revisiting uh uh Egypt is is going to be

2796

01:47:15,830 --> 01:47:12,300

great too oh yeah absolutely to get my

2797

01:47:17,990 --> 01:47:15,840

head together but it's new Grange that I

2798

01:47:19,910 --> 01:47:18,000

is is on my bucket list and so is

2799

01:47:23,570 --> 01:47:19,920

Pumapunku so I'm gonna get that out of

2800

01:47:27,890 --> 01:47:23,580

the way but Newgrange is freaking old

2801

01:47:30,350 --> 01:47:27,900

and it's perfect and it's beautiful and

2802

01:47:33,169 --> 01:47:30,360

um I'm rather jealous uh that you have

2803

01:47:35,870 --> 01:47:33,179

visited there but it's it's uh

2804

01:47:38,990 --> 01:47:35,880

illumination at different times of the

2805

01:47:43,010 --> 01:47:39,000

year and what it was built for

2806

01:47:47,390 --> 01:47:43,020

um the knowledge of ancient peoples to

2807

01:47:50,149 --> 01:47:47,400

have that down like that is I I I think

2808

01:47:52,850 --> 01:47:50,159

we're way underestimating the knowledge

2809

01:47:54,890 --> 01:47:52,860

of of the Ancients they they understood

2810

01:47:58,750 --> 01:47:54,900

much more than than we give them credit

2811

01:48:01,129 --> 01:47:58,760

for I think so too yeah

2812

01:48:04,010 --> 01:48:01,139

they built that entrance incorrectly

2813

01:48:05,930 --> 01:48:04,020

they have to wait uh six months for the

2814

01:48:07,129 --> 01:48:05,940

next Equinox you know if they and it's a

2815

01:48:08,750 --> 01:48:07,139

shape of that entrance that creates

2816

01:48:11,450 --> 01:48:08,760

creates that you know

2817

01:48:14,390 --> 01:48:11,460

and they would think about your brain

2818

01:48:16,550 --> 01:48:14,400

right exactly yeah they were just a

2819

01:48:19,510 --> 01:48:16,560

little you know what guys

2820

01:48:21,770 --> 01:48:19,520

we got to start over

2821

01:48:23,350 --> 01:48:21,780

you can imagine how the boss would feel

2822

01:48:26,270 --> 01:48:23,360

or whoever you know

2823

01:48:28,609 --> 01:48:26,280

think about that that little hole at the

2824

01:48:31,010 --> 01:48:28,619

end of new range right right Happy

2825

01:48:32,590 --> 01:48:31,020

Feelings yeah

2826

01:48:38,209 --> 01:48:32,600

yeah anyway

2827

01:48:40,669 --> 01:48:38,219

mentioned uh the finger okay and and uh

2828

01:48:42,890 --> 01:48:40,679

everybody is probably wondering what you

2829

01:48:44,109 --> 01:48:42,900

were talking about I've got a picture of

2830

01:48:48,350 --> 01:48:44,119

it here

2831

01:48:50,990 --> 01:48:48,360

and so I am going to circle my mouse

2832

01:48:54,050 --> 01:48:51,000

right here there it is yeah and it's

2833

01:48:56,330 --> 01:48:54,060

it's it's pointing like this right

2834

01:48:58,850 --> 01:48:56,340

that's what it is and it's right here

2835

01:49:03,470 --> 01:48:58,860

finger pointing at the illuminated stone

2836

01:49:05,149 --> 01:49:03,480

at the end uh Equinox Sunrise uh take us

2837

01:49:07,010 --> 01:49:05,159

through this image I think it's a

2838

01:49:09,470 --> 01:49:07,020

fascinating

2839

01:49:10,970 --> 01:49:09,480

right it it kind of morphs into it looks

2840

01:49:13,189 --> 01:49:10,980

like a hand with the index finger

2841

01:49:16,310 --> 01:49:13,199

pointing back and it's almost like it's

2842

01:49:18,109 --> 01:49:16,320

fertilized you know symbolically but

2843

01:49:19,850 --> 01:49:18,119

because we can't talk to the builders

2844

01:49:23,030 --> 01:49:19,860

we'll never know but that only lasts for

2845

01:49:24,830 --> 01:49:23,040

about one minute that's at 8 28 and if

2846

01:49:26,990 --> 01:49:24,840

you blink your eyes like a you know if

2847

01:49:29,149 --> 01:49:27,000

you just turn it away for a minute it

2848

01:49:31,129 --> 01:49:29,159

doesn't quite look like that it's so

2849

01:49:33,590 --> 01:49:31,139

it's an image that's very very quick

2850

01:49:34,850 --> 01:49:33,600

it's so cool and then it changes a

2851

01:49:35,810 --> 01:49:34,860

little bit it's kind of softer it

2852

01:49:37,490 --> 01:49:35,820

doesn't have that really like that

2853

01:49:38,870 --> 01:49:37,500

finger you know it just changed to more

2854

01:49:42,590 --> 01:49:38,880

like a pointer actually like a

2855

01:49:45,350 --> 01:49:42,600

triangular pointer so at 8 28 a.m that's

2856

01:49:47,209 --> 01:49:45,360

what you see and you better not blink or

2857

01:49:48,709 --> 01:49:47,219

be happening with somebody like I do you

2858

01:49:52,189 --> 01:49:48,719

know and turning around and then missing

2859

01:49:53,689 --> 01:49:52,199

it you know so yeah I just found in 2020

2860

01:49:57,350 --> 01:49:53,699

and then we found that one you just

2861

01:49:59,270 --> 01:49:57,360

showed this year three months ago and so

2862

01:50:03,830 --> 01:49:59,280

let's let's back up that's the stone

2863

01:50:06,050 --> 01:50:03,840

here right it goes and 30 minutes later

2864

01:50:07,669 --> 01:50:06,060

the Shadows on top which we don't I

2865

01:50:09,109 --> 01:50:07,679

don't think you have that image and then

2866

01:50:11,629 --> 01:50:09,119

it goes 30 minutes later to the hand

2867

01:50:16,010 --> 01:50:11,639

pointing at the stone so uh one hour

2868

01:50:18,229 --> 01:50:16,020

illumination it appears 7 30 to 8 30 and

2869

01:50:19,970 --> 01:50:18,239

then it starts to go away as the Sun

2870

01:50:22,850 --> 01:50:19,980

keeps Rising higher and higher you know

2871

01:50:24,770 --> 01:50:22,860

but we think that might be symbolic of

2872

01:50:26,510 --> 01:50:24,780

an egg being fertilized by the sunlight

2873

01:50:29,629 --> 01:50:26,520

you know a new Grange the Sun goes to

2874

01:50:31,189 --> 01:50:29,639

the window box 65 feet hits the back uh

2875

01:50:33,890 --> 01:50:31,199

my friend Haley again she thinks it's

2876

01:50:36,830 --> 01:50:33,900

the crucified shape could be cygnus you

2877

01:50:38,750 --> 01:50:36,840

know the swan you know but it also I

2878

01:50:40,669 --> 01:50:38,760

think represents like a uterus according

2879

01:50:42,350 --> 01:50:40,679

to Haley it's got that kind of t-shaped

2880

01:50:43,729 --> 01:50:42,360

a little bit and so if the sunlight's

2881

01:50:45,410 --> 01:50:43,739

going into new grange on the winter

2882

01:50:48,709 --> 01:50:45,420

solstice maybe it's a fertilization

2883

01:50:49,270 --> 01:50:48,719

thing too you know maybe you know maybe

2884

01:50:51,770 --> 01:50:49,280

maybe

2885

01:50:54,169 --> 01:50:51,780

yeah like I was saying earlier about

2886

01:50:56,149 --> 01:50:54,179

Newgrange that little window

2887

01:50:57,470 --> 01:50:56,159

you're off by a little bit you gotta

2888

01:51:00,830 --> 01:50:57,480

start over

2889

01:51:04,330 --> 01:51:00,840

yeah it won't work it won't work it

2890

01:51:10,970 --> 01:51:08,990

what's next I mean this is uh such a

2891

01:51:14,450 --> 01:51:10,980

special sight

2892

01:51:15,970 --> 01:51:14,460

um and and it's right here in the United

2893

01:51:18,850 --> 01:51:15,980

States

2894

01:51:21,530 --> 01:51:18,860

what's next what are you guys working on

2895

01:51:23,270 --> 01:51:21,540

well we have been doing the OSL dating

2896

01:51:25,609 --> 01:51:23,280

like I mentioned we've been doing uh the

2897

01:51:27,229 --> 01:51:25,619

lidar the GPR ground penetration radar

2898

01:51:29,149 --> 01:51:27,239

now those images by the way are going to

2899

01:51:31,189 --> 01:51:29,159

be put together for 3D above and below

2900

01:51:33,050 --> 01:51:31,199

the site uh the two people are working

2901

01:51:36,050 --> 01:51:33,060

together they're friends ones from Mass

2902

01:51:37,370 --> 01:51:36,060

she has her GPR Grand Penitentiary radar

2903

01:51:39,590 --> 01:51:37,380

she's been out of sight already and the

2904

01:51:42,290 --> 01:51:39,600

other one's Elida but we are doing DNA

2905

01:51:45,050 --> 01:51:42,300

on some bones that are found by Goodwin

2906

01:51:47,629 --> 01:51:45,060

uh they were on display in a museum

2907

01:51:50,510 --> 01:51:47,639

forever but in 68 they went to the

2908

01:51:53,330 --> 01:51:50,520

Smithsonian by a school teacher looked

2909

01:51:56,090 --> 01:51:53,340

at by Dr Lucy say hoyan a physical

2910

01:51:58,490 --> 01:51:56,100

Anthropologist three bones kind of two

2911

01:51:59,870 --> 01:51:58,500

long skinny ones one triangular and they

2912

01:52:01,970 --> 01:51:59,880

seem to have markings while the person

2913

01:52:03,830 --> 01:52:01,980

was still alive on them maybe from

2914

01:52:06,290 --> 01:52:03,840

injury we don't know it brings up a lot

2915

01:52:08,390 --> 01:52:06,300

of interesting speculation but she said

2916

01:52:10,669 --> 01:52:08,400

my best guess is that these are human

2917

01:52:12,950 --> 01:52:10,679

and she talked about the density of the

2918

01:52:14,270 --> 01:52:12,960

bone the hotness of the bone but in the

2919

01:52:16,250 --> 01:52:14,280

end she goes I think these are human

2920

01:52:18,830 --> 01:52:16,260

well we couldn't do DNA back then we

2921

01:52:22,689 --> 01:52:18,840

didn't carbon date them so my friend L.A

2922

01:52:27,290 --> 01:52:25,310

he uh he's really involved with our site

2923

01:52:29,689 --> 01:52:27,300

and we can't say too much at the time

2924

01:52:31,790 --> 01:52:29,699

but they have been dnaed up at the

2925

01:52:33,709 --> 01:52:31,800

Thunder Bay he's used a laboratory up

2926

01:52:35,750 --> 01:52:33,719

there uh this year and we get the

2927

01:52:37,010 --> 01:52:35,760

results back recently and I could say

2928

01:52:38,570 --> 01:52:37,020

they weren't animal that was my big

2929

01:52:40,850 --> 01:52:38,580

thing these three bones found in the

2930

01:52:42,709 --> 01:52:40,860

pleasure probably very close to the

2931

01:52:44,870 --> 01:52:42,719

East-West chamber you were looking at in

2932

01:52:46,729 --> 01:52:44,880

that vicinity how did those bones stay

2933

01:52:49,129 --> 01:52:46,739

there all those years but anyway

2934

01:52:52,790 --> 01:52:49,139

they were there and he found them 85

2935

01:52:54,890 --> 01:52:52,800

years ago but uh the DNA they're not

2936

01:52:56,990 --> 01:52:54,900

animal they weren't Asian they weren't

2937

01:52:57,890 --> 01:52:57,000

Native American anywhere in African the

2938

01:52:59,450 --> 01:52:57,900

paddies were involved with the

2939

01:53:02,330 --> 01:52:59,460

underground Railway so any of these

2940

01:53:03,950 --> 01:53:02,340

possibilities you know but I won't say

2941

01:53:05,510 --> 01:53:03,960

where they're from but they're an area

2942

01:53:08,030 --> 01:53:05,520

that we're very interested in the new

2943

01:53:09,770 --> 01:53:08,040

old world uh now we're having them cop

2944

01:53:12,590 --> 01:53:09,780

and dated by the same lab my dad used

2945

01:53:14,450 --> 01:53:12,600

back in the 60s through the 90s and

2946

01:53:17,209 --> 01:53:14,460

they're sending them eventually to

2947

01:53:19,550 --> 01:53:17,219

Tucson uh this week and next should be

2948

01:53:22,070 --> 01:53:19,560

30 days we should hear something in LA

2949

01:53:24,410 --> 01:53:22,080

because she's really kind of helping out

2950

01:53:26,350 --> 01:53:24,420

I want to give him you know yeah yeah

2951

01:53:27,970 --> 01:53:26,360

get him on your show

2952

01:53:34,609 --> 01:53:27,980

yeah

2953

01:53:37,430 --> 01:53:34,619

he's such a great guy he's coming here

2954

01:53:38,930 --> 01:53:37,440

in September uh to visit uh which is

2955

01:53:40,550 --> 01:53:38,940

wonderful you know they could be

2956

01:53:42,350 --> 01:53:40,560

historic bones we just don't know if

2957

01:53:43,790 --> 01:53:42,360

they're ancient then we get really

2958

01:53:45,770 --> 01:53:43,800

something very interesting either way

2959

01:53:47,930 --> 01:53:45,780

it's interesting like why is a body up

2960

01:53:51,290 --> 01:53:47,940

on the site you can't thing in an area

2961

01:53:53,030 --> 01:53:51,300

with almost no soil cover and but it's

2962

01:53:55,370 --> 01:53:53,040

interesting and then that Oracle chain

2963

01:53:57,470 --> 01:53:55,380

that watch house two of the bones that

2964

01:53:58,729 --> 01:53:57,480

Lucy Saint hoyan looked at in 68 she

2965

01:54:00,830 --> 01:53:58,739

said well I think they're bison bison

2966

01:54:02,270 --> 01:54:00,840

they're found inside this structure and

2967

01:54:04,010 --> 01:54:02,280

she showed them to a male colleague and

2968

01:54:06,050 --> 01:54:04,020

he goes yeah the Woodland bison we're up

2969

01:54:09,050 --> 01:54:06,060

in that area I think they should be

2970

01:54:12,050 --> 01:54:09,060

gated you know uh what are they doing

2971

01:54:13,910 --> 01:54:12,060

inside that chamber and also in 58 they

2972

01:54:15,530 --> 01:54:13,920

found a stone pendant and a bone pendant

2973

01:54:16,970 --> 01:54:15,540

both had drill holes they were found in

2974

01:54:19,550 --> 01:54:16,980

that same watch House chamber that

2975

01:54:21,890 --> 01:54:19,560

chamber is just that big boulder is a

2976

01:54:24,109 --> 01:54:21,900

lunar minor stand still alignment it's

2977

01:54:26,450 --> 01:54:24,119

also a February first cross quarter day

2978

01:54:28,490 --> 01:54:26,460

and the first hump in its body the

2979

01:54:30,830 --> 01:54:28,500

serpentine body is a November 1st

2980

01:54:32,990 --> 01:54:30,840

alignment and today it's All Saints Day

2981

01:54:34,490 --> 01:54:33,000

or it's called salmon by the Celts but

2982

01:54:36,169 --> 01:54:34,500

it's also in Mesa Verde so Native

2983

01:54:38,629 --> 01:54:36,179

Americans are doing that too that same

2984

01:54:40,310 --> 01:54:38,639

cross-coordinate thing so that it's just

2985

01:54:41,689 --> 01:54:40,320

a simply amazing structure that watch

2986

01:54:43,490 --> 01:54:41,699

house which we only saw a little piece

2987

01:54:45,770 --> 01:54:43,500

of it with the illumination and that's

2988

01:54:49,850 --> 01:54:45,780

another thing it does

2989

01:54:52,490 --> 01:54:49,860

that carbon dating is going to uh uh

2990

01:54:55,250 --> 01:54:52,500

make some people angry you just assume

2991

01:55:00,830 --> 01:54:57,950

just just thank you for all that you do

2992

01:55:03,410 --> 01:55:00,840

uh the site is historic it's very very

2993

01:55:05,270 --> 01:55:03,420

important and we're all out there

2994

01:55:07,070 --> 01:55:05,280

chasing knowledge and it's because of

2995

01:55:09,410 --> 01:55:07,080

you that we do this I just want to thank

2996

01:55:12,410 --> 01:55:09,420

you again so much for coming back on the

2997

01:55:14,209 --> 01:55:12,420

show with us uh I'll give La a call but

2998

01:55:17,090 --> 01:55:14,219

uh we've got results that are going to

2999

01:55:18,770 --> 01:55:17,100

be coming in and uh I can't wait to hear

3000

01:55:20,270 --> 01:55:18,780

about it

3001

01:55:22,010 --> 01:55:20,280

yeah I would love to be back on your

3002

01:55:23,450 --> 01:55:22,020

show again and I think we'll have some

3003

01:55:25,129 --> 01:55:23,460

more things to show you we've got some

3004

01:55:26,810 --> 01:55:25,139

really other beautiful photographs when

3005

01:55:29,510 --> 01:55:26,820

we have time we'll show you some more of

3006

01:55:31,430 --> 01:55:29,520

the alignments and stuff but the uh the

3007

01:55:33,350 --> 01:55:31,440

latest things look really quite

3008

01:55:35,750 --> 01:55:33,360

interesting we should know them by

3009

01:55:36,830 --> 01:55:35,760

August I think on that on that common

3010

01:55:39,229 --> 01:55:36,840

day

3011

01:55:41,169 --> 01:55:39,239

be safe and be well Dennis thank you

3012

01:55:43,910 --> 01:55:41,179

thank you so much Jimmy

3013

01:55:47,209 --> 01:55:43,920

great show Dennis Stone America

3014

01:55:49,850 --> 01:55:47,219

Stonehenge and uh for everybody it's

3015

01:55:54,609 --> 01:55:49,860

it's uh it's a very very very simple

3016

01:55:58,010 --> 01:55:54,619

thing to do all you have to do is go to

3017

01:56:02,930 --> 01:55:58,020

stonehengeusa.com the links for it are

3018

01:56:06,770 --> 01:56:02,940

below also over on our website and for
