

1

00:00:00,000 --> 00:00:06,620

The only thing that was weird that did happen, and I only sort of experienced it second hand,

2

00:00:06,620 --> 00:00:08,320

was with my friend Lewis.

3

00:00:08,320 --> 00:00:15,560

Jenny, another intern, and I were just watching TV, and the telephone rang.

4

00:00:15,560 --> 00:00:19,820

It was for Morgan, and we just saw Morgan go walk right by us into her room.

5

00:00:19,820 --> 00:00:23,600

He had seen me upstairs in my ball gown.

6

00:00:23,600 --> 00:00:29,220

We have to wear ball gowns when we do some of our reenactments and go into my bedroom.

7

00:00:29,220 --> 00:00:32,820

She wasn't in there, so I asked Jenny if she saw where Morgan went.

8

00:00:32,820 --> 00:00:35,580

She said, no, I just saw her go into her room.

9

00:00:35,580 --> 00:00:39,620

I came home about an hour later, and that's what I witnessed, and was very strange, because

10

00:00:39,620 --> 00:00:41,420

he looked at me and said, where'd you go?

11

00:00:41,420 --> 00:00:42,980

I said, I went to Warwick.

12

00:00:42,980 --> 00:00:43,980

What?

13

00:00:43,980 --> 00:00:44,980

Well, when did you leave?

14

00:00:44,980 --> 00:00:46,980

I said, we went after work.

15

00:00:46,980 --> 00:00:47,980

Oh.

16

00:00:47,980 --> 00:00:49,100

I said, you weren't here at all tonight.

17

00:00:49,100 --> 00:00:50,100

You didn't walk by in your ball gown?

18

00:00:50,100 --> 00:00:53,820

I said, no, I've been gone since after work.

19

00:00:53,820 --> 00:01:01,020

And then about that time, Jenny and I both had this sort of eye connection where we

20

00:01:01,020 --> 00:01:02,020

saw something.

21

00:01:02,020 --> 00:01:05,220

I thought that was very strange, and I give great credence to Lewis.

22

00:01:05,220 --> 00:01:06,220

He's not the type of person.

23

00:01:06,220 --> 00:01:07,220

He's not a storyteller.

24

00:01:07,220 --> 00:01:11,620

We know that we saw someone go into the room.

25

00:01:11,620 --> 00:01:16,900

It wasn't really until Lewis had his experience that I thought, okay, that's kind of weird.

26

00:01:16,900 --> 00:01:21,380

I wouldn't have believed it if I had been there by myself, except that somebody else

27

00:01:21,380 --> 00:01:28,380

saw the same thing and came to the same conclusion that I did, that something was there.

28

00:01:51,380 --> 00:01:58,380

I should have put my foot on the other end.

29

00:01:58,380 --> 00:02:01,380

I didn't even sit in there.

30

00:02:01,380 --> 00:02:04,380

It's not even a full-sized coffin.

31

00:02:04,380 --> 00:02:08,380

So obvious that someone in the coffin didn't fall for it.

32

00:02:08,380 --> 00:02:12,100

Andy's pop out of the coffin was pretty good, but the setup was horrible.

33

00:02:12,100 --> 00:02:14,500

How are you the worst I've seen?

34

00:02:14,500 --> 00:02:15,500

Ever.

35

00:02:15,500 --> 00:02:18,500

In the history of Joe's.

36

00:02:19,500 --> 00:02:23,500

Let's work our way up top.

37

00:02:23,500 --> 00:02:26,500

Go to the stairwell and climb up that.

38

00:02:26,500 --> 00:02:28,500

Don't fall.

39

00:02:28,500 --> 00:02:29,500

No, I got it.

40

00:02:29,500 --> 00:02:32,500

Light your head.

41

00:02:32,500 --> 00:02:39,500

Where we're walking right now is where the apparition has been spotted previously.

42

00:02:39,500 --> 00:02:44,500

So this is one of the centers of activity, one of the main centers, with these doors having

43

00:02:44,500 --> 00:02:47,500

been reported to have opened and closed on their own.

44

00:02:47,500 --> 00:02:54,500

If there is any presence here, any entity that wishes to speak to us, if you have any

45

00:02:54,500 --> 00:02:59,500

message, anything to say to us, anything you want to be heard, we will hear you.

46

00:02:59,500 --> 00:03:00,500

We will listen.

47

00:03:00,500 --> 00:03:02,500

Speak to us now.

48

00:03:02,500 --> 00:03:11,500

If you are in distress, if you have any message you wish to relate to us, please speak to us now.

49

00:03:11,500 --> 00:03:16,500

I'm getting between 0.1 and 0.6 throughout this area here.

50

00:03:16,500 --> 00:03:17,500

Not too significant yet.

51

00:03:17,500 --> 00:03:18,500

No.

52

00:03:18,500 --> 00:03:21,500

So we've got about a 0.4 base reading.

53

00:03:21,500 --> 00:03:24,500

This room is physically cooler by a couple degrees.

54

00:03:24,500 --> 00:03:26,500

I noticed that as soon as I walked in.

55

00:03:26,500 --> 00:03:31,500

So there's kind of an ambient temperature here that's consistent through the room.

56

00:03:31,500 --> 00:03:32,500

Yeah.

57

00:03:32,500 --> 00:03:35,500

0.1, 0.2, 0.3, 0.2.

58

00:03:35,500 --> 00:03:37,500

Can I see that recorder?

59

00:03:37,500 --> 00:03:38,500

Sure.

60

00:03:38,500 --> 00:03:42,500

Is there any spirits that would like to speak with us today?

61

00:03:42,500 --> 00:03:46,500

What's your name?

62

00:03:46,500 --> 00:03:50,500

And why are you here?

63

00:03:50,500 --> 00:03:52,500

I don't know.

64

00:03:52,500 --> 00:03:54,500

What are you feeling in this relation?

65

00:03:54,500 --> 00:03:58,500

The only thing I feel is that it makes my hair stand on it because it's cool.

66

00:03:58,500 --> 00:04:00,500

It's just really chilly.

67

00:04:00,500 --> 00:04:04,500

But you know, maybe the heating system is not efficient here.

68

00:04:04,500 --> 00:04:07,500

So we'll head into a different room.

69

00:04:09,500 --> 00:04:18,500

What's going on, guys?

70

00:04:18,500 --> 00:04:19,500

Hey, guys.

71

00:04:19,500 --> 00:04:20,500

Hi.

72

00:04:20,500 --> 00:04:22,500

See you, everybody.

73

00:04:22,500 --> 00:04:23,500

How's everybody doing?

74

00:04:23,500 --> 00:04:24,500

Good.

75

00:04:24,500 --> 00:04:29,500

Well, guys, there's definitely something that me and Grant would like to talk to you about.

76

00:04:29,500 --> 00:04:33,500

You all know of the ongoing situations that had been arising with Brian.

77

00:04:34,500 --> 00:04:36,500

Yeah, as you can see, he's not here.

78

00:04:36,500 --> 00:04:38,500

And the question is why?

79

00:04:38,500 --> 00:04:43,500

Well, he decided to leave even though we extended our hand many times, but he declined.

80

00:04:43,500 --> 00:04:46,500

So he left on his own accord.

81

00:04:46,500 --> 00:04:48,500

It took closed door for Brian.

82

00:04:48,500 --> 00:04:53,500

But with Brian gone, I mean, even though we have Dustin, we still need another person in the technical department.

83

00:04:53,500 --> 00:04:58,500

So I don't know if you guys know other investigators or whatever, but definitely look around.

84

00:04:58,500 --> 00:05:03,500

Try to find people that are the best at what they do.

85

00:05:03,500 --> 00:05:08,500

So pretty much put the word out, get us some names, and we'll take it from there.

86

00:05:08,500 --> 00:05:10,500

We'll set up a date if there's some interviews.

87

00:05:10,500 --> 00:05:11,500

OK.

88

00:05:16,500 --> 00:05:17,500

All right, guys.

89

00:05:17,500 --> 00:05:20,500

These are the cameras we use for our DVR system.

90

00:05:20,500 --> 00:05:27,500

You can transmit them wirelessly, but we do hard line now, all hard line, just so you don't get any missed information.

91

00:05:27,500 --> 00:05:29,500

You want to click on the data you can.

92

00:05:29,500 --> 00:05:31,500

Obviously, these cameras are awesome.

93

00:05:31,500 --> 00:05:33,500

You worked with IR cameras before, infrared?

94

00:05:33,500 --> 00:05:35,500

We had one hard lined in the basement.

95

00:05:35,500 --> 00:05:36,500

Yeah.

96

00:05:36,500 --> 00:05:37,500

OK.

97

00:05:37,500 --> 00:05:38,500

You see all the infrared lights there?

98

00:05:38,500 --> 00:05:39,500

Yeah.

99

00:05:39,500 --> 00:05:42,500

It's got its own power supply.

100

00:05:42,500 --> 00:05:46,500

A lot of the smaller ones, you have to have an external power source, but this has its own power source.

101

00:05:46,500 --> 00:05:47,500

It's got it right into the wall.

102

00:05:47,500 --> 00:05:48,500

Sure, again.

103

00:05:48,500 --> 00:05:50,500

And then here's your hard line system.

104

00:05:50,500 --> 00:05:51,500

OK.

105

00:05:51,500 --> 00:05:54,500

So we'll fire some of these up and let you guys see how they're used.

106

00:05:54,500 --> 00:05:55,500

Great.

107

00:05:55,500 --> 00:05:57,500

It has all its axes.

108

00:05:57,500 --> 00:06:00,500

Here's the allen wrench and zip them up.

109

00:06:00,500 --> 00:06:04,500

These cameras, like the older ones we had were real grainy.

110

00:06:04,500 --> 00:06:07,500

And the IR didn't extend very far.

111

00:06:07,500 --> 00:06:09,500

That's probably had in the basement.

112

00:06:09,500 --> 00:06:11,500

Yep, this will light up everything.

113

00:06:11,500 --> 00:06:14,500

I think if I could sit here, it would probably catch that band.

114

00:06:14,500 --> 00:06:15,500

Allow me to.

115

00:06:15,500 --> 00:06:16,500

It's daytime.

116

00:06:16,500 --> 00:06:17,500

These cameras are awesome.
