

ALIENS AND ICE

1
00:00:39,560 --> 00:00:08,550

[Music]

2
00:00:43,639 --> 00:00:39,570

well today guys we have quite the treat

3
00:00:43,850 --> 00:00:43,649

we have Brad Olson a personal friend of

4
00:00:46,729 --> 00:00:43,860

mine

5
00:00:49,670 --> 00:00:46,739

ekam he's one of those guys you can't

6
00:00:53,990 --> 00:00:49,680

really meet without becoming his friend

7
00:00:56,119 --> 00:00:54,000

he's just as as real as an individual as

8
00:00:58,549 --> 00:00:56,129

you'll you'll tend to find he's been

9
00:01:02,119 --> 00:00:58,559

involved with a ton of projects it's

10
00:01:04,219 --> 00:01:02,129

like so long to list I I met him on a

11
00:01:05,539 --> 00:01:04,229

project out of New Mexico that I don't

12
00:01:09,020 --> 00:01:05,549

even know if we can talk about it never

13
00:01:12,230 --> 00:01:09,030

made the news or the TV or anything so I

14

00:01:16,550 --> 00:01:12,240

don't think we can but he's involved

15

00:01:20,240 --> 00:01:16,560

with he's got his own publishing company

16

00:01:22,490 --> 00:01:20,250

he has started an amazing cultural Fair

17

00:01:26,570 --> 00:01:22,500

called the how weird Street Fair that

18

00:01:30,590 --> 00:01:26,580

has a huge following where he's at he in

19

00:01:33,530 --> 00:01:30,600

California he's also very involved

20

00:01:38,060 --> 00:01:33,540

you've most likely seen him on all kinds

21

00:01:40,490 --> 00:01:38,070

of UFO stations channels series ancient

22

00:01:42,980 --> 00:01:40,500

aliens you name it he's on all of that

23

00:01:46,359 --> 00:01:42,990

he's got a history as a travel writer

24

00:01:48,819 --> 00:01:46,369

he's got some amazing books on

25

00:01:54,289 --> 00:01:48,829

everything you can imagine whether it's

26

00:01:58,399 --> 00:01:54,299

travel to UFOs to esoteric issues we

27

00:02:00,740 --> 00:01:58,409

have in our culture and it's a pleasure

28

00:02:03,530 --> 00:02:00,750

and an honor to you know even have him

29

00:02:06,800 --> 00:02:03,540

come on because he's just so out of my

30

00:02:08,770 --> 00:02:06,810

league in so many ways he's he's the you

31

00:02:12,410 --> 00:02:08,780

know the type of person that

32

00:02:13,940 --> 00:02:12,420

you want doing these duties and being

33

00:02:18,890 --> 00:02:13,950

involved with this nature of business

34

00:02:21,410 --> 00:02:18,900

and performing these things because he's

35

00:02:23,630 --> 00:02:21,420

he's very comfortable doing it he's good

36

00:02:25,220 --> 00:02:23,640

at what he does and he's just an

37

00:02:29,510 --> 00:02:25,230

all-around good guy so with no further

38

00:02:33,560 --> 00:02:29,520

ado I welcome Brett hey Brad how you

39

00:02:35,570 --> 00:02:33,570

doing hey Ron I'm doing great thanks for

40

00:02:37,670 --> 00:02:35,580

having me on your show looking forward

41

00:02:39,080 --> 00:02:37,680

to talking with you oh it's great to

42

00:02:41,870 --> 00:02:39,090

have you on there's so much to talk

43

00:02:43,730 --> 00:02:41,880

about I'm super excited you've placed

44

00:02:47,180 --> 00:02:43,740

yourself in some pretty uncomfortable

45

00:02:48,620 --> 00:02:47,190

situations lately to get like right in

46

00:02:50,240 --> 00:02:48,630

the belly of the beast and try to get

47

00:02:56,120 --> 00:02:50,250

some answers to things that so many of

48

00:02:57,590 --> 00:02:56,130

us are interested in and you I'll just

49

00:03:00,170 --> 00:02:57,600

cut to the chase you recently went to

50

00:03:03,980 --> 00:03:00,180

Antarctica well what can you tell us

51
00:03:06,350 --> 00:03:03,990
about that it was really an incredible

52
00:03:10,190 --> 00:03:06,360
experience the place have wanted to go

53
00:03:10,970 --> 00:03:10,200
for a long time and really designed my

54
00:03:13,850 --> 00:03:10,980
four-month

55
00:03:17,540 --> 00:03:13,860
South America trip around getting down

56
00:03:19,550 --> 00:03:17,550
to whoosh wyah Argentina and finding a

57
00:03:21,800 --> 00:03:19,560
boat to get on to go down there and we

58
00:03:25,160 --> 00:03:21,810
couldn't have found a better boat I was

59
00:03:28,310 --> 00:03:25,170
with my girlfriend Emily infinity and we

60
00:03:31,400 --> 00:03:28,320
were able to gain passage on a 74 foot

61
00:03:34,970 --> 00:03:31,410
sailboat that went down there the whole

62
00:03:37,160 --> 00:03:34,980
excursion was 26 days but we caught some

63
00:03:43,430 --> 00:03:37,170

pretty rough weather on the way down

64

00:03:47,930 --> 00:03:43,440

which made us seasick for three days I

65

00:03:49,759 --> 00:03:47,940

lost about 25 pounds and the journey

66

00:03:52,670 --> 00:03:49,769

down there let's just say the barrier of

67

00:03:55,460 --> 00:03:52,680

entry was pretty extreme but once we got

68

00:03:58,100 --> 00:03:55,470

there it was fairly calm waters for the

69

00:04:00,590 --> 00:03:58,110

rest of the trip until we had to go back

70

00:04:03,500 --> 00:04:00,600

on the Drake coming back but on the

71

00:04:06,590 --> 00:04:03,510

return trip we took our Dramamine on

72

00:04:08,090 --> 00:04:06,600

time and had already kind of gotten used

73

00:04:09,860 --> 00:04:08,100

to being on the boat so we didn't get

74

00:04:11,770 --> 00:04:09,870

seasick on the way back but the way

75

00:04:16,880 --> 00:04:11,780

there was brutal

76

00:04:19,610 --> 00:04:16,890

holy cow 26 days and seasick for three

77

00:04:21,979 --> 00:04:19,620

days it's it's a lot it's a lot to go

78

00:04:24,559 --> 00:04:21,989

through to get

79

00:04:28,700 --> 00:04:24,569

mean the place is so remote it's just so

80

00:04:31,520 --> 00:04:28,710

out there and it's it's perfectly

81

00:04:34,400 --> 00:04:31,530

explained in you know a lot of these

82

00:04:36,890 --> 00:04:34,410

older texts that I'm sure you're aware

83

00:04:39,020 --> 00:04:36,900

of I kind of explained in your

84

00:04:43,730 --> 00:04:39,030

introduction how vast your knowledge is

85

00:04:46,550 --> 00:04:43,740

of not only travel but you know the

86

00:04:51,230 --> 00:04:46,560

esoteric and also the you know the UFO

87

00:04:55,760 --> 00:04:51,240

phenomena and it in your opinion is is

88

00:04:58,460 --> 00:04:55,770

it just is it and I also saw that you

89

00:05:02,570 --> 00:04:58,470

have some plans to go back I was so

90

00:05:04,490 --> 00:05:02,580

intrigued like that's so cool yeah so as

91

00:05:06,550 --> 00:05:04,500

soon as I got back a flurry of

92

00:05:12,290 --> 00:05:06,560

interviews coast-to-coast

93

00:05:14,779 --> 00:05:12,300

Jimmy Church Ground Zero guy at TV I was

94

00:05:18,620 --> 00:05:14,789

just back to back to back the first two

95

00:05:22,820 --> 00:05:18,630

weeks I got back and a producer in

96

00:05:26,450 --> 00:05:22,830

Hollywood contacted me after I was gone

97

00:05:29,029 --> 00:05:26,460

stayed to black and said wow you're very

98

00:05:32,230 --> 00:05:29,039

articulate you've got a this knowledge

99

00:05:35,390 --> 00:05:32,240

of Antarctica we're very interested in

100

00:05:39,950 --> 00:05:35,400

going down there with a film crew having

101
00:05:43,420 --> 00:05:39,960
you narrate or host it and since I had

102
00:05:46,610 --> 00:05:43,430
been speaking to some logistic teams

103
00:05:50,540 --> 00:05:46,620
groups that do specialized trips to

104
00:05:54,370 --> 00:05:50,550
Antarctica they said hey take the mantle

105
00:05:57,469 --> 00:05:54,380
lead it give us a budget estimate and

106
00:05:59,540 --> 00:05:57,479
we'll see if we can do it and he's

107
00:06:02,870 --> 00:05:59,550
gotten some other people in Hollywood

108
00:06:04,939 --> 00:06:02,880
behind it I kind of don't like really

109
00:06:09,110 --> 00:06:04,949
announcing anything until we're sure

110
00:06:11,749 --> 00:06:09,120
it's going to happen but right now it

111
00:06:15,320 --> 00:06:11,759
looks pretty good and in August when I'm

112
00:06:21,640 --> 00:06:15,330
heading out to Colorado to see my family

113
00:06:24,439 --> 00:06:21,650

on going to book some time make a

114

00:06:28,100 --> 00:06:24,449

arrangements to meet with this logistics

115

00:06:30,649 --> 00:06:28,110

group and go through it all and get some

116

00:06:33,620 --> 00:06:30,659

kind of rudimentary budgets that I could

117

00:06:35,899 --> 00:06:33,630

present to these people and it's a

118

00:06:37,010 --> 00:06:35,909

possibility I'm not saying it's a slam

119

00:06:39,469 --> 00:06:37,020

dunk but

120

00:06:41,719 --> 00:06:39,479

we have some interest and maybe I'll be

121

00:06:43,820 --> 00:06:41,729

going back next season seasons are very

122

00:06:47,239 --> 00:06:43,830

short it's only about three months that

123

00:06:50,209 --> 00:06:47,249

you want to go there usually end in

124

00:06:51,739 --> 00:06:50,219

November till early March and then it

125

00:06:55,429 --> 00:06:51,749

gets real cold like right now they're

126

00:06:55,999 --> 00:06:55,439

just still 24 hours of darkness at the

127

00:06:59,169 --> 00:06:56,009

South Pole

128

00:07:02,239 --> 00:06:59,179

for four months and many other places

129

00:07:05,600 --> 00:07:02,249

very cold and very dark and very windy

130

00:07:08,089 --> 00:07:05,610

and dry antarctica is a desert continent

131

00:07:10,939 --> 00:07:08,099

it's the driest continent even though

132

00:07:16,339 --> 00:07:10,949

it's covered in most of the continent

133

00:07:20,629 --> 00:07:16,349

and two miles of ice it's just very dry

134

00:07:22,040 --> 00:07:20,639

because of static electricity and most

135

00:07:24,799 --> 00:07:22,050

of the place to do not get much

136

00:07:27,920 --> 00:07:24,809

precipitation so that's just a testament

137

00:07:30,649 --> 00:07:27,930

to how old the ice is to be that thick

138

00:07:35,449 --> 00:07:30,659

and deep and it barely ever snows or

139

00:07:39,739 --> 00:07:35,459

rains in certain parts where it's warmer

140

00:07:42,589 --> 00:07:39,749

in the summer so so many little little

141

00:07:45,290 --> 00:07:42,599

antidotal things I discovered on this

142

00:07:47,359 --> 00:07:45,300

trip that I put in my presentation I

143

00:07:49,999 --> 00:07:47,369

give a talk called the hidden anomalies

144

00:07:52,639 --> 00:07:50,009

of Antarctica at conferences including

145

00:07:55,730 --> 00:07:52,649

contact in the desert and a half a dozen

146

00:07:59,389 --> 00:07:55,740

others this year so it's cool to be able

147

00:08:01,939 --> 00:07:59,399

to be one of the only few researchers in

148

00:08:06,469 --> 00:08:01,949

this field who's been down there a lot

149

00:08:08,869 --> 00:08:06,479

of people talk about Antarctica but as

150

00:08:10,249 --> 00:08:08,879

far as I'm a confident speaker circuit

151

00:08:12,350 --> 00:08:10,259

I'm the only one that's actually been

152

00:08:16,219 --> 00:08:12,360

there so it certainly gives me a

153

00:08:21,109 --> 00:08:16,229

different perspective and way to kind of

154

00:08:23,179 --> 00:08:21,119

sift through facts from fiction and just

155

00:08:25,639 --> 00:08:23,189

let people know that I did my very best

156

00:08:29,989 --> 00:08:25,649

to talk to everybody I could about some

157

00:08:33,100 --> 00:08:29,999

of these larger anomalies we've heard of

158

00:08:37,899 --> 00:08:33,110

such as massive craft in the ice

159

00:08:40,839 --> 00:08:37,909

antediluvian civilizations lost cities

160

00:08:44,120 --> 00:08:40,849

pyramids sticking up through the ice

161

00:08:47,750 --> 00:08:44,130

alien bases new world order bases all

162

00:08:48,660 --> 00:08:47,760

this stuff and unfortunately I could not

163

00:08:52,020 --> 00:08:48,670

get any calm

164

00:08:53,940 --> 00:08:52,030

formation it could be that people didn't

165

00:08:57,060 --> 00:08:53,950

want to tell me but I kind of got the

166

00:09:00,240 --> 00:08:57,070

feeling that all the research people I

167

00:09:02,130 --> 00:09:00,250

spoke to is the six research stations on

168

00:09:05,220 --> 00:09:02,140

the strip they just didn't know they're

169

00:09:11,540 --> 00:09:05,230

pretty young and seasonal workers or

170

00:09:14,580 --> 00:09:11,550

some of the chiefs of the stations they

171

00:09:18,210 --> 00:09:14,590

they didn't say they knew anything about

172

00:09:22,170 --> 00:09:18,220

it so that's not to say it doesn't exist

173

00:09:23,940 --> 00:09:22,180

it's just that what could have been

174

00:09:26,340 --> 00:09:23,950

something that would have been really

175

00:09:27,930 --> 00:09:26,350

obvious I mean if excursions have been

176

00:09:32,130 --> 00:09:27,940

going to this craft that's supposed to

177

00:09:33,510 --> 00:09:32,140

be three miles long since 1975 I would

178

00:09:35,940 --> 00:09:33,520

have thought somebody might have had

179

00:09:39,170 --> 00:09:35,950

some knowledge of it but actually they

180

00:09:42,930 --> 00:09:39,180

didn't the best I got was there was a

181

00:09:46,050 --> 00:09:42,940

group on the argentinean station called

182

00:09:50,400 --> 00:09:46,060

Brown base and they had heard some of

183

00:09:53,220 --> 00:09:50,410

their through inter base banter that

184

00:09:56,010 --> 00:09:53,230

there was a big UFO sighting late last

185

00:09:58,980 --> 00:09:56,020

year at another one of the Argentinian

186

00:10:02,040 --> 00:09:58,990

bases called Belgrano - and they were

187

00:10:03,930 --> 00:10:02,050

reluctant to tell us we kind of had to

188

00:10:06,530 --> 00:10:03,940

wait and twist the arm of the one guy

189

00:10:11,340 --> 00:10:06,540

who did tell us his story but they saw

190

00:10:15,630 --> 00:10:11,350

disks and some orbs and we're basically

191

00:10:19,290 --> 00:10:15,640

told not to talk about it but people

192

00:10:20,610 --> 00:10:19,300

within the system of all the sister

193

00:10:23,640 --> 00:10:20,620

bases of Argentina

194

00:10:26,430 --> 00:10:23,650

word got around and we got it out of the

195

00:10:28,140 --> 00:10:26,440

guy and now I'm telling you so that was

196

00:10:30,690 --> 00:10:28,150

the best we got plus absolute

197

00:10:34,320 --> 00:10:30,700

confirmation that there is a no-fly zone

198

00:10:36,150 --> 00:10:34,330

over and part of the South Pole and

199

00:10:39,900 --> 00:10:36,160

that's really interesting that's always

200

00:10:44,100 --> 00:10:39,910

been the rumored entrance to a massive

201
00:10:48,600 --> 00:10:44,110
hole in the ice mm-hmm that could be an

202
00:10:51,330 --> 00:10:48,610
alien base could be also superseded with

203
00:10:53,160 --> 00:10:51,340
this new world order base we hear of all

204
00:10:55,800 --> 00:10:53,170
the way back to the time of the Nazis

205
00:10:57,990 --> 00:10:55,810
and the schwaben land knew about it

206
00:11:00,660 --> 00:10:58,000
Admiral Byrd said he flew a plane into

207
00:11:01,940 --> 00:11:00,670
it it was so massive he could even turn

208
00:11:05,070 --> 00:11:01,950
around and come back

209
00:11:07,260 --> 00:11:05,080
now he was kind of a fanciful talker but

210
00:11:10,620 --> 00:11:07,270
he was still an admiral in the Navy and

211
00:11:14,280 --> 00:11:10,630
usually these kind of people don't spin

212
00:11:15,930 --> 00:11:14,290
tails like this too often so we just

213
00:11:18,450 --> 00:11:15,940

kind of have to take it with a grain of

214

00:11:22,500 --> 00:11:18,460

salt but the fact that there is a

215

00:11:26,310 --> 00:11:22,510

massive no-fly zone over the South Pole

216

00:11:28,380 --> 00:11:26,320

region is kind of curious because when I

217

00:11:30,740 --> 00:11:28,390

brought this up with George Noory when

218

00:11:35,090 --> 00:11:30,750

we were on the set from beyond belief

219

00:11:38,490 --> 00:11:35,100

says why do they need a no-fly zone

220

00:11:40,440 --> 00:11:38,500

nobody ever goes there mm-hmm why do

221

00:11:43,170 --> 00:11:40,450

they have to prevent planes from flying

222

00:11:45,120 --> 00:11:43,180

in and he's right there are no flights

223

00:11:49,080 --> 00:11:45,130

going in South Pole on a regular basis

224

00:11:51,720 --> 00:11:49,090

so something mysterious is going on

225

00:11:56,190 --> 00:11:51,730

there and that would be the object of

226

00:11:59,070 --> 00:11:56,200

our trip next season if we were able to

227

00:12:01,380 --> 00:11:59,080

get this funding and go down with a film

228

00:12:04,740 --> 00:12:01,390

crew and supposedly the South Pole

229

00:12:06,840 --> 00:12:04,750

station is run through the NSA and might

230

00:12:09,240 --> 00:12:06,850

be able to see if we can get some

231

00:12:12,450 --> 00:12:09,250

confirmation that people from the NSA

232

00:12:15,210 --> 00:12:12,460

are down there perfect that would be

233

00:12:19,380 --> 00:12:15,220

perfect and it is shrouded like you said

234

00:12:24,690 --> 00:12:19,390

Brad in so much mystery because I've had

235

00:12:28,020 --> 00:12:24,700

it's a whole other like the intricacies

236

00:12:30,030 --> 00:12:28,030

of getting down there and the

237

00:12:31,980 --> 00:12:30,040

achievement that you performed

238

00:12:34,140 --> 00:12:31,990

it's no joke I've had friends that

239

00:12:36,480 --> 00:12:34,150

worked at the rumored McMurdo base and

240

00:12:38,100 --> 00:12:36,490

you know they've talked about like you

241

00:12:39,390 --> 00:12:38,110

know be careful when you drink down

242

00:12:41,850 --> 00:12:39,400

there you don't want to get too far from

243

00:12:43,680 --> 00:12:41,860

the main buildings like even if you're

244

00:12:45,930 --> 00:12:43,690

just taking a leak because you might not

245

00:12:50,730 --> 00:12:45,940

make it back it gets that cold that

246

00:12:52,710 --> 00:12:50,740

quick and there's it's the logistics for

247

00:12:56,220 --> 00:12:52,720

getting down there not it's it's not an

248

00:12:58,230 --> 00:12:56,230

easy territory to navigate so I think

249

00:13:03,410 --> 00:12:58,240

it's amazing that you got the results

250

00:13:06,570 --> 00:13:03,420

you did and I mean there's a lot of real

251
00:13:08,520 --> 00:13:06,580
backing to this I you know you mentioned

252
00:13:12,300 --> 00:13:08,530
Admiral Byrd and he's no joke I mean

253
00:13:15,440 --> 00:13:12,310
there was 11 expeditions he got a Medal

254
00:13:17,780 --> 00:13:15,450
of Honor he was a there's

255
00:13:21,370 --> 00:13:17,790
there there's so much hidden in plain

256
00:13:24,350 --> 00:13:21,380
sight that I think we're missing here

257
00:13:28,730 --> 00:13:24,360
yeah absolutely and if you considered

258
00:13:32,600 --> 00:13:28,740
that the NSA was originally formed to

259
00:13:36,110 --> 00:13:32,610
work with all the et sightings with the

260
00:13:39,620 --> 00:13:36,120
Excel politics of interacting with ETS

261
00:13:41,600 --> 00:13:39,630
and even protecting the secret it would

262
00:13:45,440 --> 00:13:41,610
make perfect sense that they would have

263
00:13:48,770 --> 00:13:45,450

a very vested interest in this massive

264

00:13:52,060 --> 00:13:48,780

opening near the South Pole only a few

265

00:13:56,420 --> 00:13:52,070

miles away one of Linda Moulton Howes

266

00:13:59,030 --> 00:13:56,430

whistleblowers named Brian s who I've

267

00:14:01,550 --> 00:13:59,040

listened to his interview with Linda a

268

00:14:04,190 --> 00:14:01,560

few times and his information really

269

00:14:06,860 --> 00:14:04,200

checks out he's been there he knows the

270

00:14:09,680 --> 00:14:06,870

terrain and he knows distances and he

271

00:14:11,800 --> 00:14:09,690

was a pilot out of McMurdo and he said

272

00:14:15,530 --> 00:14:11,810

at at one time they were going from

273

00:14:18,830 --> 00:14:15,540

amundsen-scott South Pole Station to the

274

00:14:21,650 --> 00:14:18,840

Australian Davis station where they were

275

00:14:24,170 --> 00:14:21,660

routed to go around the no-fly zone but

276

00:14:26,150 --> 00:14:24,180

it would have taken a fair bit amount of

277

00:14:29,450 --> 00:14:26,160

time to do that and it was for an

278

00:14:32,360 --> 00:14:29,460

emergency evacuation he says they flew

279

00:14:35,600 --> 00:14:32,370

over it and saw it and it was just

280

00:14:38,090 --> 00:14:35,610

incredible what's more there were tracks

281

00:14:42,020 --> 00:14:38,100

coming out of almond s'en Scott that

282

00:14:45,890 --> 00:14:42,030

went to it and down into it staircases a

283

00:14:49,120 --> 00:14:45,900

road system along part of the ice just

284

00:14:53,990 --> 00:14:49,130

incredible information that he gathered

285

00:14:56,330 --> 00:14:54,000

regarding this this entrance into Inner

286

00:14:58,790 --> 00:14:56,340

Earth I'm not sure maybe just below the

287

00:15:02,900 --> 00:14:58,800

ice where the South Pole is they are two

288

00:15:06,200 --> 00:15:02,910

miles up above the continental landmass

289

00:15:09,170 --> 00:15:06,210

of East Antarctica and there are massive

290

00:15:11,480 --> 00:15:09,180

caves under the Antarctic ice here's

291

00:15:14,330 --> 00:15:11,490

another thing Ryan and ARCA is the most

292

00:15:18,530 --> 00:15:14,340

volcanically active continent in the

293

00:15:20,690 --> 00:15:18,540

world there are 91 volcanoes and some of

294

00:15:23,840 --> 00:15:20,700

those are erupting under the ice

295

00:15:27,320 --> 00:15:23,850

creating these massive caverns naturally

296

00:15:29,000 --> 00:15:27,330

so think about it if you wanted to hide

297

00:15:33,050 --> 00:15:29,010

away either

298

00:15:35,540 --> 00:15:33,060

the Nazis after World War two with their

299

00:15:38,150 --> 00:15:35,550

high-tech devices new schwaben land or

300

00:15:41,540 --> 00:15:38,160

if you are an ET species here on earth

301
00:15:45,800 --> 00:15:41,550
for many many years what better place

302
00:15:47,689 --> 00:15:45,810
than some of these massive caverns does

303
00:15:50,660 --> 00:15:47,699
that have been created under the ice

304
00:15:54,050 --> 00:15:50,670
plus of course we know the Germans

305
00:15:56,509 --> 00:15:54,060
themselves were master underground base

306
00:15:59,420 --> 00:15:56,519
builders right through rock and of

307
00:16:02,769 --> 00:15:59,430
course ice is much softer to bore into

308
00:16:07,730 --> 00:16:02,779
so it's quite possible there are several

309
00:16:10,639 --> 00:16:07,740
human or et made bases in Antarctica

310
00:16:12,980 --> 00:16:10,649
that also connect to some of these

311
00:16:15,829 --> 00:16:12,990
larger caverns and that's what Corey

312
00:16:19,790 --> 00:16:15,839
Goode said he witnessed when he had the

313
00:16:22,189 --> 00:16:19,800

ability to go down there and go to one

314

00:16:24,800 --> 00:16:22,199

of these under ice bases he said it was

315

00:16:28,360 --> 00:16:24,810

a natural cavern but there are parts of

316

00:16:32,720 --> 00:16:28,370

it that were cleared out for other

317

00:16:35,449 --> 00:16:32,730

artificial means to extend the base you

318

00:16:38,660 --> 00:16:35,459

you know it really is it's like a

319

00:16:40,699 --> 00:16:38,670

real-life x-files that that I I heard

320

00:16:44,090 --> 00:16:40,709

that interview with Linda Moulton Howe

321

00:16:47,840 --> 00:16:44,100

and talk about amazing for these former

322

00:16:51,980 --> 00:16:47,850

military who you know allegedly see

323

00:16:54,110 --> 00:16:51,990

these openings that are mysterious

324

00:16:59,930 --> 00:16:54,120

openings that could be anything but have

325

00:17:02,210 --> 00:16:59,940

been documented historically is it is so

326

00:17:06,520 --> 00:17:02,220

mysterious and fascinating Antarctica is

327

00:17:10,280 --> 00:17:06,530

and it's it's one of those places that

328

00:17:14,059 --> 00:17:10,290

just getting there is so difficult it's

329

00:17:17,299 --> 00:17:14,069

like so difficult and having the

330

00:17:20,120 --> 00:17:17,309

resources you almost have to have a well

331

00:17:23,059 --> 00:17:20,130

you have to you have to have all kinds

332

00:17:26,569 --> 00:17:23,069

of things in place because it's it's

333

00:17:28,960 --> 00:17:26,579

just not the average individual just

334

00:17:32,210 --> 00:17:28,970

can't go and it's not like checking out

335

00:17:35,150 --> 00:17:32,220

you know I'm gonna drive by area 51 for

336

00:17:37,909 --> 00:17:35,160

example it's it's a lot more difficult

337

00:17:40,430 --> 00:17:37,919

than that yes there definitely is a

338

00:17:41,450 --> 00:17:40,440

barrier of entry that is as you

339

00:17:44,690 --> 00:17:41,460

mentioned it is

340

00:17:47,419 --> 00:17:44,700

that's it to go there it is only a

341

00:17:49,970 --> 00:17:47,429

certain period of time ninety to a

342

00:17:52,310 --> 00:17:49,980

hundred days is the weather even going

343

00:17:54,590 --> 00:17:52,320

to cooperate but I'll tell you we got

344

00:17:57,500 --> 00:17:54,600

down there in our sailboat and we did

345

00:18:00,289 --> 00:17:57,510

have to stamp out of Argentina even

346

00:18:03,289 --> 00:18:00,299

though we were in Argentina for 26 days

347

00:18:05,419 --> 00:18:03,299

we're in no-man's land meaning we

348

00:18:08,480 --> 00:18:05,429

stamped out of a country but did not get

349

00:18:10,940 --> 00:18:08,490

stamped in to Antarctica now the

350

00:18:14,299 --> 00:18:10,950

Argentinian Navy knew we are going down

351

00:18:16,600 --> 00:18:14,309

there we had to submit a plan of some

352

00:18:18,680 --> 00:18:16,610

basic areas that we were going to visit

353

00:18:21,440 --> 00:18:18,690

but basically when we were down there

354

00:18:24,169 --> 00:18:21,450

Ryan I was quite surprised that we could

355

00:18:27,380 --> 00:18:24,179

just jump on the dinghy from the boat

356

00:18:32,360 --> 00:18:27,390

and pretty much go ashore wherever we

357

00:18:34,700 --> 00:18:32,370

wanted the the second-in-command he was

358

00:18:38,029 --> 00:18:34,710

a young guy only 29 years old a bit of a

359

00:18:40,159 --> 00:18:38,039

risk-taker and if we wanted to go up

360

00:18:43,220 --> 00:18:40,169

close to see whales he'd take us out

361

00:18:46,039 --> 00:18:43,230

there Emily really wanted to climb on an

362

00:18:48,710 --> 00:18:46,049

iceberg and pulled up on an iceberg on

363

00:18:53,149 --> 00:18:48,720

two occasions and got to climb around on

364

00:18:56,450 --> 00:18:53,159

him so the notion that it's very

365

00:18:58,399 --> 00:18:56,460

restricted in lockdown is not true at

366

00:19:01,190 --> 00:18:58,409

least in the part of the Palmer

367

00:19:04,130 --> 00:19:01,200

Peninsula that we went to there's just

368

00:19:06,049 --> 00:19:04,140

no one down there to enforce it now

369

00:19:08,690 --> 00:19:06,059

maybe the region we were in is not

370

00:19:11,120 --> 00:19:08,700

sensitive of any high tech things I

371

00:19:13,970 --> 00:19:11,130

would think if we got close they would

372

00:19:16,010 --> 00:19:13,980

have to some of these bases they would

373

00:19:19,779 --> 00:19:16,020

have alarm systems much like they have

374

00:19:22,399 --> 00:19:19,789

around area 51 or the Nellis base and

375

00:19:25,970 --> 00:19:22,409

they would get tipped off that people

376

00:19:28,779 --> 00:19:25,980
were coming in but since it's the

377

00:19:30,620 --> 00:19:28,789
distances are just so vast and

378

00:19:32,240 --> 00:19:30,630
Antarctica is the fifth largest

379

00:19:35,240 --> 00:19:32,250
continent in the world

380

00:19:37,880 --> 00:19:35,250
it's bigger than Europe it's twice the

381

00:19:41,029 --> 00:19:37,890
size of Australia it's close to the size

382

00:19:44,630 --> 00:19:41,039
of the lower 48 and Canada combined so

383

00:19:47,769 --> 00:19:44,640
it is just a huge continent and to go to

384

00:19:51,230 --> 00:19:47,779
some of these far-flung destinations

385

00:19:52,820 --> 00:19:51,240
then it gets really expensive so what

386

00:19:54,950 --> 00:19:52,830
we're looking at just to go to the South

387

00:19:57,500 --> 00:19:54,960
Pole with a film crew and

388

00:20:00,620 --> 00:19:57,510

possibly Linda Moulton Howe and dr.

389

00:20:02,780 --> 00:20:00,630

Saleh who where I was on a panel with a

390

00:20:05,030 --> 00:20:02,790

contact in the desert with an Antarctica

391

00:20:09,020 --> 00:20:05,040

discussion both of them would love to go

392

00:20:11,990 --> 00:20:09,030

so I think the three of us exploring

393

00:20:13,520 --> 00:20:12,000

these locations with a film crew well

394

00:20:15,770 --> 00:20:13,530

the budget would be close to a million

395

00:20:18,440 --> 00:20:15,780

dollars so it's not something I want to

396

00:20:20,330 --> 00:20:18,450

front but if we can get someone else to

397

00:20:23,510 --> 00:20:20,340

do it we could really come away with

398

00:20:25,520 --> 00:20:23,520

some incredible footage and maybe some

399

00:20:29,180 --> 00:20:25,530

answers to some of these mysteries that

400

00:20:31,280 --> 00:20:29,190

surround Antarctica this this this

401
00:20:34,520 --> 00:20:31,290
mystery around it I mean the conception

402
00:20:38,540 --> 00:20:34,530
of this entire there I mean really that

403
00:20:41,690 --> 00:20:38,550
opening to me is the kind of the Holy

404
00:20:44,810 --> 00:20:41,700
Grail to it at least from you know

405
00:20:46,670 --> 00:20:44,820
Hollow Earth perspective er or if you're

406
00:20:48,620 --> 00:20:46,680
looking at something that maybe is being

407
00:20:51,470 --> 00:20:48,630
hidden from us or the fact that there is

408
00:20:54,410 --> 00:20:51,480
a no-fly zone like you said which that

409
00:20:55,820 --> 00:20:54,420
just that concept can propose that maybe

410
00:20:58,490 --> 00:20:55,830
there is something that's entirely

411
00:21:04,400 --> 00:20:58,500
hiding something that contains a

412
00:21:06,590 --> 00:21:04,410
substantial interior space yeah for sure

413
00:21:10,880 --> 00:21:06,600

I think that is one of the biggest

414

00:21:13,790 --> 00:21:10,890

takeaways from the trip that that there

415

00:21:16,040 --> 00:21:13,800

are restricted areas in Antarctica now

416

00:21:21,860 --> 00:21:16,050

according to the Antarctica treaty which

417

00:21:25,660 --> 00:21:21,870

was ratified 1962 the whole continent is

418

00:21:29,060 --> 00:21:25,670

basically a world biosphere it became

419

00:21:33,710 --> 00:21:29,070

accessible to all for science

420

00:21:36,770 --> 00:21:33,720

they made drilling or harvesting of

421

00:21:41,120 --> 00:21:36,780

national resources illegal so everything

422

00:21:44,480 --> 00:21:41,130

basically below the 60 latitude parallel

423

00:21:47,660 --> 00:21:44,490

is protected in the Antarctica treaty

424

00:21:50,660 --> 00:21:47,670

and it's also specifically stated that

425

00:21:53,660 --> 00:21:50,670

no military operations are allowed to

426
00:21:57,800 --> 00:21:53,670
perform down there and this goes back to

427
00:22:01,910 --> 00:21:57,810
the nuclear testing that the u.s. was

428
00:22:04,700 --> 00:22:01,920
doing in the late 1950s under project

429
00:22:06,680 --> 00:22:04,710
Argos where they were doing if you were

430
00:22:08,200 --> 00:22:06,690
to read the Wikipedia page they were in

431
00:22:09,960 --> 00:22:08,210
the southern ocean

432
00:22:13,629 --> 00:22:09,970
but they were just testing these

433
00:22:15,489 --> 00:22:13,639
explosions at high altitude well if you

434
00:22:17,919 --> 00:22:15,499
look at the map where they went they

435
00:22:20,560 --> 00:22:17,929
were close enough to actually have a

436
00:22:23,529 --> 00:22:20,570
couple nukes into the niche Schwaben

437
00:22:27,249 --> 00:22:23,539
land area of Antarctica where the

438
00:22:31,840 --> 00:22:27,259

rumored point 211 or New Berlin Base is

439

00:22:34,779 --> 00:22:31,850

located and it was precipitated on these

440

00:22:37,629 --> 00:22:34,789

military operations that the Antarctica

441

00:22:41,009 --> 00:22:37,639

treaty was born and then the u.s. went

442

00:22:44,799 --> 00:22:41,019

along with it so the alternative view is

443

00:22:49,720 --> 00:22:44,809

after Admiral Byrd was thwarted in

444

00:22:53,009 --> 00:22:49,730

operation Highjump 1946-1947 and left

445

00:22:57,580 --> 00:22:53,019

two months into his six-month expedition

446

00:23:00,700 --> 00:22:57,590

that the US was soundly defeated but

447

00:23:02,759 --> 00:23:00,710

knew about this base and it wasn't until

448

00:23:07,989 --> 00:23:02,769

about ten years later were they able to

449

00:23:10,720 --> 00:23:07,999

drop a nuclear bomb and end it so in the

450

00:23:13,299 --> 00:23:10,730

particular area where this point 211 was

451
00:23:16,389 --> 00:23:13,309
other reports I've heard is that it's

452
00:23:19,269 --> 00:23:16,399
all shot up that they're some kind of

453
00:23:22,539 --> 00:23:19,279
battle their aerial bombardment and it

454
00:23:25,210 --> 00:23:22,549
is deserted boy would not be a cool

455
00:23:29,820 --> 00:23:25,220
place to go down and explore it into

456
00:23:32,560 --> 00:23:29,830
some of the reinforced concrete German

457
00:23:34,419 --> 00:23:32,570
underground bunkers and stuff that's

458
00:23:36,820 --> 00:23:34,429
definitely on my wish list and I were

459
00:23:38,590 --> 00:23:36,830
able to pick some places I'd like to

460
00:23:43,149 --> 00:23:38,600
check out and I do know where it's

461
00:23:45,930 --> 00:23:43,159
located according to many authors who've

462
00:23:48,580 --> 00:23:45,940
studied where point 211 is and I was

463
00:23:51,759 --> 00:23:48,590

interviewed with ancient aliens about it

464

00:23:53,680 --> 00:23:51,769

a couple years ago - with dr. Michael

465

00:23:57,820 --> 00:23:53,690

Saleh that's the first time I met him

466

00:23:59,830 --> 00:23:57,830

and it's just incredible what kind of

467

00:24:03,039 --> 00:23:59,840

technology could have been taken out of

468

00:24:04,749 --> 00:24:03,049

Germany and brought down here and it's

469

00:24:08,259 --> 00:24:04,759

quite possible that those were in the

470

00:24:11,230 --> 00:24:08,269

craft that confronted the Armada under

471

00:24:15,220 --> 00:24:11,240

Admiral Byrd and some one of the ships

472

00:24:17,889 --> 00:24:15,230

just a show of force the anti-aircraft

473

00:24:20,830 --> 00:24:17,899

guns from the boats couldn't do anything

474

00:24:21,110 --> 00:24:20,840

against these craft and they came up out

475

00:24:25,340 --> 00:24:21,120

of

476
00:24:28,430 --> 00:24:25,350
water and confronted the Armada sliced

477
00:24:31,040 --> 00:24:28,440
one of them in half with a high-powered

478
00:24:33,470 --> 00:24:31,050
laser and then just flew off

479
00:24:35,600 --> 00:24:33,480
so when admiral byrd was i tail in and

480
00:24:38,510 --> 00:24:35,610
out of there he gave an interview in

481
00:24:41,960 --> 00:24:38,520
chile and said we're confronted with an

482
00:24:45,350 --> 00:24:41,970
enemy that has the capacity to fly pole

483
00:24:47,660 --> 00:24:45,360
to pole at incredible speeds well

484
00:24:49,580 --> 00:24:47,670
there's three things i just said there

485
00:24:52,070 --> 00:24:49,590
that we still don't have the technology

486
00:24:52,430 --> 00:24:52,080
for crafts that can come out of the

487
00:24:56,540 --> 00:24:52,440
water

488
00:24:58,790 --> 00:24:56,550

lasers that can slice a steel ship in

489

00:25:03,380 --> 00:24:58,800

half and fly pull the pole at incredible

490

00:25:06,440 --> 00:25:03,390

speeds and this is over 70 years ago

491

00:25:10,220 --> 00:25:06,450

when this occur so we're talking about

492

00:25:13,880 --> 00:25:10,230

some kind of technology that is so far

493

00:25:17,690 --> 00:25:13,890

advanced and for this to go for hard man

494

00:25:20,000 --> 00:25:17,700

72 years ago that we're still playing

495

00:25:22,130 --> 00:25:20,010

catch-up in the real world to try to

496

00:25:24,710 --> 00:25:22,140

understand technology has come along and

497

00:25:26,870 --> 00:25:24,720

of course there is laser technology that

498

00:25:30,380 --> 00:25:26,880

can use be used as beam weapons much

499

00:25:33,020 --> 00:25:30,390

like along the lines of nikola tesla but

500

00:25:35,750 --> 00:25:33,030

to slice a ship in half i've not heard

501
00:25:39,220 --> 00:25:35,760
of anything being announced that there's

502
00:25:43,400 --> 00:25:39,230
anything that strong no again we're

503
00:25:46,060 --> 00:25:43,410
we've got two narratives here one that

504
00:25:51,410 --> 00:25:46,070
admiral byrd just called off the

505
00:25:55,280 --> 00:25:51,420
operation Highjump and left if you're

506
00:25:57,890 --> 00:25:55,290
read the Wikipedia page on it just they

507
00:26:00,020 --> 00:25:57,900
we get out of there and then the other

508
00:26:02,840 --> 00:26:00,030
narrative that they were not confronted

509
00:26:04,750 --> 00:26:02,850
with this enemy now it's possible that

510
00:26:08,000 --> 00:26:04,760
this enemy could have also been a

511
00:26:12,950 --> 00:26:08,010
malevolent et race that was aligned with

512
00:26:15,049 --> 00:26:12,960
the Nazis some say Draco reptilians who

513
00:26:18,340 --> 00:26:15,059

also have a base in Antarctica - and

514

00:26:20,890 --> 00:26:18,350

were known to have been working with

515

00:26:24,440 --> 00:26:20,900

some of the projects of the Third Reich

516

00:26:29,000 --> 00:26:24,450

especially their anti-gravity crafts and

517

00:26:32,650 --> 00:26:29,010

so forth but nonetheless Admiral Byrd

518

00:26:34,600 --> 00:26:32,660

was quite spooked when he was leaving

519

00:26:36,430 --> 00:26:34,610

Antarctica and

520

00:26:40,900 --> 00:26:36,440

gave this interview to a Chilean

521

00:26:42,549 --> 00:26:40,910

newspaper saying that basically we could

522

00:26:42,970 --> 00:26:42,559

we couldn't we couldn't do anything to

523

00:26:45,580 --> 00:26:42,980

him

524

00:26:47,799 --> 00:26:45,590

we had to get out of there but you know

525

00:26:51,520 --> 00:26:47,809

the US military doesn't like lose battle

526

00:26:53,860 --> 00:26:51,530

so they knew about the location of this

527

00:26:56,560 --> 00:26:53,870

base and and it's my belief that that's

528

00:26:59,169 --> 00:26:56,570

what project Argos was all about and I

529

00:27:03,600 --> 00:26:59,179

should point out in conclusion here Ryan

530

00:27:06,419 --> 00:27:03,610

met both the atomic tests of Argos and

531

00:27:09,310 --> 00:27:06,429

operation Highjump are both still

532

00:27:12,400 --> 00:27:09,320

classified you can't even do a Freedom

533

00:27:14,080 --> 00:27:12,410

of Information request to get

534

00:27:18,669 --> 00:27:14,090

information about both of those

535

00:27:22,930 --> 00:27:18,679

operations Wow I would have thought high

536

00:27:26,010 --> 00:27:22,940

jump for sure would be no open that is

537

00:27:29,620 --> 00:27:26,020

and Argos I mean just knowing the the

538

00:27:33,340 --> 00:27:29,630

location of point you know 2:11 Brad

539

00:27:36,100 --> 00:27:33,350

that you know is so so much and I think

540

00:27:37,780 --> 00:27:36,110

what you're saying about like what they

541

00:27:39,789 --> 00:27:37,790

encountered whatever you want to call it

542

00:27:42,580 --> 00:27:39,799

and I don't think you know what we're

543

00:27:44,680 --> 00:27:42,590

encountering even today I mean is

544

00:27:48,250 --> 00:27:44,690

similar to the Foo Fighters

545

00:27:50,409 --> 00:27:48,260

but what Admiral Byrd was describing I

546

00:27:54,789 --> 00:27:50,419

mean leaving saying that they could fly

547

00:27:57,460 --> 00:27:54,799

pole to pole that's that's jumping you

548

00:27:59,470 --> 00:27:57,470

know jumping that's not even that's

549

00:28:00,789 --> 00:27:59,480

possibly he's possibly describing

550

00:28:04,980 --> 00:28:00,799

something faster than the light speed

551
00:28:08,320 --> 00:28:04,990
there oh yeah yep

552
00:28:10,270 --> 00:28:08,330
certainly no plane that we've ever heard

553
00:28:13,659 --> 00:28:10,280
of could fly pole to pole at incredible

554
00:28:16,980 --> 00:28:13,669
speeds without refueling so yeah we're

555
00:28:24,400 --> 00:28:16,990
talking about some kind of anti-gravity

556
00:28:27,960 --> 00:28:24,410
free energy perhaps powered machine that

557
00:28:32,460 --> 00:28:27,970
they were confronted with in January

558
00:28:36,370 --> 00:28:32,470
1947 that's a really interesting year

559
00:28:39,220 --> 00:28:36,380
1947 you have first starting out the

560
00:28:41,919 --> 00:28:39,230
year with operation and high jump then

561
00:28:44,620 --> 00:28:41,929
you have Kenneth Arnold with the first

562
00:28:47,409 --> 00:28:44,630
widely disseminated UFO sighting in

563
00:28:49,510 --> 00:28:47,419

Washington in the summer of 47 and then

564

00:28:52,440 --> 00:28:49,520

of course

565

00:28:55,390 --> 00:28:52,450

just a few weeks later the Roswell crash

566

00:29:00,910 --> 00:28:55,400

but you also have the formation of the

567

00:29:03,160 --> 00:29:00,920

CIA and Nazi scientists coming over here

568

00:29:05,830 --> 00:29:03,170

through Project Paperclip

569

00:29:08,890 --> 00:29:05,840

and starting NASA it's a very

570

00:29:10,450 --> 00:29:08,900

interesting year to profile all the

571

00:29:13,030 --> 00:29:10,460

paranormal that was happening right

572

00:29:15,460 --> 00:29:13,040

around that time and the secret

573

00:29:18,720 --> 00:29:15,470

government and how they were working in

574

00:29:22,780 --> 00:29:18,730

conjunction to keep all of this a secret

575

00:29:27,610 --> 00:29:22,790

mm-hmm and there is a lot of secrecy

576
00:29:31,030 --> 00:29:27,620
around I mean so much of this the I've

577
00:29:33,940 --> 00:29:31,040
heard rumors that that area that is a

578
00:29:37,150 --> 00:29:33,950
no-fly zone you can see what appears to

579
00:29:39,160 --> 00:29:37,160
be light coming out of I guess what can

580
00:29:41,470 --> 00:29:39,170
only be described as an opening and a

581
00:29:45,790 --> 00:29:41,480
lot a lot of these are comprised of you

582
00:29:48,730 --> 00:29:45,800
know personnel 'he's personal accounts

583
00:29:52,420 --> 00:29:48,740
which you know aren't proof but it's

584
00:29:55,750 --> 00:29:52,430
it's you know operation Highjump alone

585
00:29:58,990 --> 00:29:55,760
the secrecy around that and they

586
00:30:02,230 --> 00:29:59,000
basically you know birds secret research

587
00:30:05,260 --> 00:30:02,240
base there the little america i think

588
00:30:07,510 --> 00:30:05,270

they called it in its cover up during i

589

00:30:12,220 --> 00:30:07,520

mean yeah he had so much going on and

590

00:30:14,260 --> 00:30:12,230

this team was so huge and it really when

591

00:30:16,450 --> 00:30:14,270

you think about it they were either

592

00:30:19,710 --> 00:30:16,460

after something they knew was there

593

00:30:22,750 --> 00:30:19,720

because there was such an expenditure or

594

00:30:26,020 --> 00:30:22,760

they were banking on something they had

595

00:30:30,280 --> 00:30:26,030

some Intel that I I don't think other

596

00:30:32,560 --> 00:30:30,290

people had know and it was set up as a

597

00:30:35,920 --> 00:30:32,570

military excursion even though the cover

598

00:30:38,410 --> 00:30:35,930

story is operation Highjump was a

599

00:30:41,040 --> 00:30:38,420

research expedition well why do you need

600

00:30:45,100 --> 00:30:41,050

an aircraft carrier submarines

601
00:30:49,920 --> 00:30:45,110
destroyers bomber planes fighter planes

602
00:30:53,770 --> 00:30:49,930
and basically a whole military set up

603
00:30:56,620 --> 00:30:53,780
where they were prepared to do a land

604
00:30:58,690 --> 00:30:56,630
invasion it just doesn't make any sense

605
00:31:01,450 --> 00:30:58,700
that this was just a research trip and

606
00:31:02,409 --> 00:31:01,460
then as you mentioned why is it still

607
00:31:05,019 --> 00:31:02,419
classified of

608
00:31:08,859 --> 00:31:05,029
it's just a research mission that could

609
00:31:12,820 --> 00:31:08,869
be easily disseminated by now over 70

610
00:31:15,869 --> 00:31:12,830
years later same with the Argos nuclear

611
00:31:20,009 --> 00:31:15,879
testing why is this one of the few

612
00:31:23,109 --> 00:31:20,019
nuclear testing experiments that still

613
00:31:25,359 --> 00:31:23,119

so classified what what is it about it

614

00:31:29,529 --> 00:31:25,369

that can't be told to the public and

615

00:31:31,989 --> 00:31:29,539

once again it all ties into this new

616

00:31:36,039 --> 00:31:31,999

Schwaben land area of Antarctica which

617

00:31:38,789 --> 00:31:36,049

is directly below South Africa and now

618

00:31:42,159 --> 00:31:38,799

it's called Queen Maud land on most maps

619

00:31:44,799 --> 00:31:42,169

but some of your listeners want to try

620

00:31:46,570 --> 00:31:44,809

to locate it on a map directly below the

621

00:31:48,940 --> 00:31:46,580

South Africa which is interesting

622

00:31:52,119 --> 00:31:48,950

because South Africa was a fascist

623

00:31:54,489 --> 00:31:52,129

country for many many years - including

624

00:31:58,570 --> 00:31:54,499

during the 1930s and 40s under apartheid

625

00:32:02,950 --> 00:31:58,580

and would have been a supply depot for

626

00:32:07,450 --> 00:32:02,960

ships or u-boats going down to

627

00:32:10,090 --> 00:32:07,460

Antarctica to resupply 0.2 11 or New

628

00:32:12,940 --> 00:32:10,100

Berlin base is another name for it then

629

00:32:16,080 --> 00:32:12,950

that was basically told to us from

630

00:32:19,869 --> 00:32:16,090

Admiral Dolan's who took over after

631

00:32:23,580 --> 00:32:19,879

Hitler's supposed suicide in the bunker

632

00:32:26,560 --> 00:32:23,590

and the waning days of World War two

633

00:32:29,279 --> 00:32:26,570

Admiral Dolan's who was the head of the

634

00:32:32,499 --> 00:32:29,289

Navy which is basically the u-boat fleet

635

00:32:36,639 --> 00:32:32,509

had said that we have created an

636

00:32:40,269 --> 00:32:36,649

impregnable fortress for the Fuhrer in a

637

00:32:43,389 --> 00:32:40,279

land of the ice and he also said in

638

00:32:48,489 --> 00:32:43,399

another comment that the German Navy has

639

00:32:51,310 --> 00:32:48,499

found all the hiding places for in the

640

00:32:54,009 --> 00:32:51,320

case that the Fuhrer has to be evacuated

641

00:32:56,460 --> 00:32:54,019

to work on his final plans so they were

642

00:33:00,580 --> 00:32:56,470

already working on contingency plans in

643

00:33:05,769 --> 00:33:00,590

1943 for the collapse of the Third Reich

644

00:33:10,720 --> 00:33:05,779

and to Shepherd out all the wealth from

645

00:33:13,299 --> 00:33:10,730

Germany including priceless artefacts

646

00:33:14,259 --> 00:33:13,309

including art pieces that have never

647

00:33:15,670 --> 00:33:14,269

been recovered

648

00:33:18,190 --> 00:33:15,680

many tons

649

00:33:22,060 --> 00:33:18,200

of gold bullion don't know where it went

650

00:33:23,830 --> 00:33:22,070

as well as the capital from many of the

651
00:33:26,500 --> 00:33:23,840
German corporations that were

652
00:33:29,490 --> 00:33:26,510
redistributed so there's this whole

653
00:33:32,820 --> 00:33:29,500
concept that after World War two

654
00:33:35,710 --> 00:33:32,830
there was actually a third power and

655
00:33:38,710 --> 00:33:35,720
this is what the Fourth Reich was that

656
00:33:42,570 --> 00:33:38,720
the Third Reich never did surrender only

657
00:33:46,090 --> 00:33:42,580
Admiral Dolan's surrendered the German

658
00:33:51,600 --> 00:33:46,100
fighting forces the air force ground

659
00:33:55,080 --> 00:33:51,610
forces in the Navy on VE Day but the SS

660
00:33:57,610 --> 00:33:55,090
never surrendered neither did this

661
00:33:59,950 --> 00:33:57,620
political component called the Third

662
00:34:01,750 --> 00:33:59,960
Reich so that's very interesting and

663
00:34:07,360 --> 00:34:01,760

when I was in South America ride another

664

00:34:10,420 --> 00:34:07,370

one of my research objectives was to

665

00:34:14,110 --> 00:34:10,430

follow in the path of some of these

666

00:34:18,160 --> 00:34:14,120

escaped notorious war criminals

667

00:34:21,250 --> 00:34:18,170

including Hitler himself and I gave my

668

00:34:23,170 --> 00:34:21,260

two talks the other one is called the

669

00:34:25,320 --> 00:34:23,180

mysteries of South America along with

670

00:34:28,450 --> 00:34:25,330

the hidden anomalies of Antarctica at

671

00:34:31,000 --> 00:34:28,460

ions in Petaluma that's the center that

672

00:34:35,800 --> 00:34:31,010

edgar mitchell six man to walk on the

673

00:34:37,210 --> 00:34:35,810

moon started and Stephen Bassett was did

674

00:34:40,270 --> 00:34:37,220

my intro and then we did a Q&A

675

00:34:42,340 --> 00:34:40,280

afterwards and he told me about this new

676
00:34:45,520 --> 00:34:42,350
History Channel show called hunting

677
00:34:47,620 --> 00:34:45,530
Hitler and I've now watched the first

678
00:34:49,420 --> 00:34:47,630
season it's just incredible and it went

679
00:34:53,980 --> 00:34:49,430
to many of the places I went to as well

680
00:34:56,890 --> 00:34:53,990
such as San Carlos de Bariloche and the

681
00:35:00,790 --> 00:34:56,900
Eaton Hotel in la falda Gulzar in

682
00:35:03,490 --> 00:35:00,800
Argentina and in both places Hitler had

683
00:35:06,750 --> 00:35:03,500
a refuge so they had set up a whole

684
00:35:09,580 --> 00:35:06,760
network for him and his other escaped

685
00:35:13,060 --> 00:35:09,590
high-ranking Nazis to take on new

686
00:35:15,310 --> 00:35:13,070
identities to go into the underground to

687
00:35:19,480 --> 00:35:15,320
live off this third power more of an

688
00:35:23,710 --> 00:35:19,490

intelligence network than standing army

689

00:35:25,720 --> 00:35:23,720

and with general Reinhard Galen who

690

00:35:28,840 --> 00:35:25,730

should have been at the Nuremberg trials

691

00:35:31,480 --> 00:35:28,850

on war crimes he was brought over here

692

00:35:34,090 --> 00:35:31,490

because he had the whole infrastructure

693

00:35:36,310 --> 00:35:34,100

set up for spying on the Soviets for the

694

00:35:40,150 --> 00:35:36,320

Nazis he was brought over here under

695

00:35:43,180 --> 00:35:40,160

Operation Paperclip helps the CIA do you

696

00:35:45,130 --> 00:35:43,190

have one of the top Nazi spies now

697

00:35:48,310 --> 00:35:45,140

working with the CIA you got Wernher von

698

00:35:50,470 --> 00:35:48,320

Braun and Hermann Oberth starting Nassau

699

00:35:54,190 --> 00:35:50,480

and you've got this whole network down

700

00:35:57,760 --> 00:35:54,200

there buying up huge tracts of land in

701
00:36:00,670 --> 00:35:57,770
chile and argentina secret underground

702
00:36:04,240 --> 00:36:00,680
bases in south america and antarctica

703
00:36:06,220 --> 00:36:04,250
and then all their high-tech toys not

704
00:36:10,060 --> 00:36:06,230
being captured by the Allies or the

705
00:36:10,840 --> 00:36:10,070
soviets just disappearing the honey boot

706
00:36:16,120 --> 00:36:10,850
craft

707
00:36:18,450 --> 00:36:16,130
they were making Ryan it's quite

708
00:36:22,950 --> 00:36:18,460
possible that the first man on the moon

709
00:36:26,200 --> 00:36:22,960
was a Nazi astronaut in the 1930s or 40s

710
00:36:29,500 --> 00:36:26,210
they were already going out there with

711
00:36:31,650 --> 00:36:29,510
some of these high-tech crafts that they

712
00:36:33,660 --> 00:36:31,660
had developed including anti-gravity

713
00:36:37,870 --> 00:36:33,670

zero-point energy

714

00:36:39,790 --> 00:36:37,880

major breakthroughs happens in Germany

715

00:36:42,550 --> 00:36:39,800

between the two wars and then were

716

00:36:45,100 --> 00:36:42,560

developed into some of these high craft

717

00:36:47,230 --> 00:36:45,110

high-technology crafts that went missing

718

00:36:52,660 --> 00:36:47,240

at the end of the war too fortunately

719

00:36:54,910 --> 00:36:52,670

some documents and videos not direct

720

00:36:57,460 --> 00:36:54,920

eyewitnesses they were either killed or

721

00:37:00,010 --> 00:36:57,470

disappeared all the scientists that were

722

00:37:02,770 --> 00:37:00,020

working on these projects because the

723

00:37:05,680 --> 00:37:02,780

Germans were very very keen on these

724

00:37:08,560 --> 00:37:05,690

high-tech weapons in fact till the very

725

00:37:11,170 --> 00:37:08,570

end of the war they thought these wonder

726

00:37:13,390 --> 00:37:11,180

weapons would save Nazi Germany and

727

00:37:15,790 --> 00:37:13,400

turned the tide and in fact if the war

728

00:37:19,000 --> 00:37:15,800

had gone on for just another six months

729

00:37:20,980 --> 00:37:19,010

or so quite possible they could have

730

00:37:22,960 --> 00:37:20,990

delivered a nuclear bomb with a

731

00:37:24,730 --> 00:37:22,970

long-range plane they had flying out of

732

00:37:27,100 --> 00:37:24,740

Norway and dropped it on New York City

733

00:37:30,010 --> 00:37:27,110

they were very very close if not had

734

00:37:33,940 --> 00:37:30,020

already succeeded in detonating the

735

00:37:36,190 --> 00:37:33,950

first human nuclear bomb so it's really

736

00:37:38,640 --> 00:37:36,200

interesting how this all ties in to

737

00:37:41,950 --> 00:37:38,650

South America the Fourth Reich in

738

00:37:42,670 --> 00:37:41,960

Antarctica and it still is a great

739

00:37:47,500 --> 00:37:42,680

mystery

740

00:37:53,380 --> 00:37:47,510

today it is and it's it's I'm so

741

00:37:57,880 --> 00:37:53,390

fascinated by that the fact that you

742

00:38:01,660 --> 00:37:57,890

know the air force the ground forces and

743

00:38:05,680 --> 00:38:01,670

the Navy were like you said hand it over

744

00:38:09,540 --> 00:38:05,690

but all the secret components remained

745

00:38:15,010 --> 00:38:09,550

in the higher levels of that machine

746

00:38:17,020 --> 00:38:15,020

were left to prosper and Menards and

747

00:38:20,590 --> 00:38:17,030

tina it's almost kind of tongue-in-cheek

748

00:38:24,070 --> 00:38:20,600

because it seems that there's just such

749

00:38:29,020 --> 00:38:24,080

an open knowledge there in the area that

750

00:38:31,360 --> 00:38:29,030

they are present and established and

751

00:38:36,340 --> 00:38:31,370

have been there for quite some time

752

00:38:40,030 --> 00:38:36,350

harmoniously and the fact that it's kind

753

00:38:43,330 --> 00:38:40,040

of denied by many governments is another

754

00:38:47,320 --> 00:38:43,340

I don't know and that when you combine

755

00:38:50,740 --> 00:38:47,330

that with with a lot of this project

756

00:38:53,410 --> 00:38:50,750

paperclip stuff and you know basically

757

00:38:56,740 --> 00:38:53,420

the formation of NASA and the OSS and

758

00:38:59,830 --> 00:38:56,750

the CIA it's like we were just in search

759

00:39:05,650 --> 00:38:59,840

of wisdom and knowledge and anything

760

00:39:08,580 --> 00:39:05,660

that was shiny we incorporated yeah it's

761

00:39:12,610 --> 00:39:08,590

truly remarkable how much we don't know

762

00:39:16,390 --> 00:39:12,620

even about the real history of world war

763

00:39:20,500 --> 00:39:16,400

2 and what might be the ramification to

764

00:39:23,350 --> 00:39:20,510

this modern day even the creation of the

765

00:39:25,740 --> 00:39:23,360

secret space program that there's there

766

00:39:28,930 --> 00:39:25,750

was a German secret space program and

767

00:39:31,390 --> 00:39:28,940

penny Bradley is a speaker that I met at

768

00:39:34,000 --> 00:39:31,400

a few conferences she came out of that

769

00:39:37,360 --> 00:39:34,010

and I know a couple other super soldiers

770

00:39:41,230 --> 00:39:37,370

like Randy Cramer James rank and others

771

00:39:43,900 --> 00:39:41,240

who have direct knowledge of being in

772

00:39:46,890 --> 00:39:43,910

our secret space program under solar

773

00:39:50,520 --> 00:39:46,900

warden so there are different agendas

774

00:39:53,860 --> 00:39:50,530

different alliances with et groups and

775

00:39:56,870 --> 00:39:53,870

different reasons for doing what they do

776

00:39:58,460 --> 00:39:56,880

in this modern age as well as

777

00:40:01,519 --> 00:39:58,470

whole concept of a breakaway

778

00:40:04,400 --> 00:40:01,529

civilization that there are humans even

779

00:40:07,400 --> 00:40:04,410

second generation who have been born off

780

00:40:10,579 --> 00:40:07,410

planet both in the basis of the Moon and

781

00:40:13,460 --> 00:40:10,589

Mars as well as some of these once again

782

00:40:16,069 --> 00:40:13,470

described as cigar-shaped crap and this

783

00:40:19,069 --> 00:40:16,079

is what gary mckinnon found when he

784

00:40:21,559 --> 00:40:19,079

hacked into the Johnson Space Center in

785

00:40:24,410 --> 00:40:21,569

year 2000 was arrested the next year

786

00:40:27,710 --> 00:40:24,420

what he saw was a giant cigar shaped

787

00:40:29,509 --> 00:40:27,720

craft so we have that technology too we

788

00:40:33,710 --> 00:40:29,519

have craft like that including disk

789

00:40:36,230 --> 00:40:33,720

craft and people that come out of the

790

00:40:38,029 --> 00:40:36,240

Navy that work in the submarine program

791

00:40:39,710 --> 00:40:38,039

this was told to me by David Hatcher

792

00:40:43,339 --> 00:40:39,720

Childress one of the stars of ancient

793

00:40:45,079 --> 00:40:43,349

aliens that he has talked to some people

794

00:40:48,049 --> 00:40:45,089

in the Navy in the submarining

795

00:40:49,789 --> 00:40:48,059

department that then are recruited into

796

00:40:52,759 --> 00:40:49,799

the secret space program what they're

797

00:40:55,670 --> 00:40:52,769

looking for people men who have no

798

00:40:59,630 --> 00:40:55,680

families no kids no wife and they prefer

799

00:41:01,569 --> 00:40:59,640

men who are orphans or basically have

800

00:41:02,749 --> 00:41:01,579

little contact with their biological

801
00:41:07,670 --> 00:41:02,759

family

802
00:41:12,799 --> 00:41:07,680

and recruit them to be in these same

803
00:41:15,920 --> 00:41:12,809

kind of environment pressurized tanks

804
00:41:18,920 --> 00:41:15,930

like a submarine would be same sort of

805
00:41:21,200 --> 00:41:18,930

training that you would need to work on

806
00:41:23,740 --> 00:41:21,210

some of these crafts in our secret space

807
00:41:27,170 --> 00:41:23,750

program so it's very interesting that

808
00:41:29,569 --> 00:41:27,180

you you have what could be humans living

809
00:41:31,609 --> 00:41:29,579

off planet in this breakaway

810
00:41:32,839 --> 00:41:31,619

civilization yet at the same time right

811
00:41:39,349 --> 00:41:32,849

here on earth Ryan

812
00:41:41,509 --> 00:41:39,359

we still have uncontacted tribes in the

813
00:41:44,630 --> 00:41:41,519

Amazon basin and some of the valleys

814

00:41:47,180 --> 00:41:44,640

that pop on you Guinea where humans same

815

00:41:49,339 --> 00:41:47,190

human race is living in the Stone Age

816

00:41:51,559 --> 00:41:49,349

and then you have humans that are in

817

00:41:53,539 --> 00:41:51,569

this breakaway civilization so it's an

818

00:41:55,130 --> 00:41:53,549

incredible time right now on planet

819

00:41:57,620 --> 00:41:55,140

Earth this great awakening that's

820

00:41:59,480 --> 00:41:57,630

happening I know you see it as much as I

821

00:42:02,809 --> 00:41:59,490

do that people are starting to wake up

822

00:42:06,769 --> 00:42:02,819

and understand the sheer amount of

823

00:42:10,460 --> 00:42:06,779

manipulation and disinformation and and

824

00:42:11,140 --> 00:42:10,470

frankly lies that we've been fed for so

825

00:42:15,109 --> 00:42:11,150

long

826

00:42:17,270 --> 00:42:15,119

regarding our history and technology and

827

00:42:19,550 --> 00:42:17,280

so much more that could really have a

828

00:42:22,160 --> 00:42:19,560

great impact in our lives if all this

829

00:42:24,890 --> 00:42:22,170

information were to be freed up and

830

00:42:27,290 --> 00:42:24,900

slowly it's happening as our saying is

831

00:42:29,300 --> 00:42:27,300

with disclosure we don't have to wait

832

00:42:30,170 --> 00:42:29,310

around for the any government to come

833

00:42:32,329 --> 00:42:30,180

out and say it

834

00:42:33,760 --> 00:42:32,339

disclosure is happening from the ground

835

00:42:37,700 --> 00:42:33,770

up and that's because people are

836

00:42:40,520 --> 00:42:37,710

understanding these concepts and putting

837

00:42:43,430 --> 00:42:40,530

these pieces together getting a much

838

00:42:46,310 --> 00:42:43,440

bigger understanding seeing our place in

839

00:42:48,800 --> 00:42:46,320

the world today as Stone Age humans and

840

00:42:51,589 --> 00:42:48,810

breakaway civilization humans and you

841

00:42:55,250 --> 00:42:51,599

and me somewhere in between but very

842

00:42:57,260 --> 00:42:55,260

curious minds soon start to piece of

843

00:43:00,410 --> 00:42:57,270

stuff together and get the bigger

844

00:43:03,440 --> 00:43:00,420

picture what's really going on it's so

845

00:43:06,109 --> 00:43:03,450

true the intelligence just information

846

00:43:09,349 --> 00:43:06,119

is being treated the same as material

847

00:43:10,970 --> 00:43:09,359

wealth by a select few and I think

848

00:43:12,620 --> 00:43:10,980

that's obvious because you get into

849

00:43:17,690 --> 00:43:12,630

these programs like you're talking about

850

00:43:20,980 --> 00:43:17,700

and these super-soldier programs and the

851

00:43:25,099 --> 00:43:20,990

like and it's it's there's a very real

852

00:43:27,290 --> 00:43:25,109

aspect to those and you know when coming

853

00:43:28,790 --> 00:43:27,300

back to Antarctica when I was when you

854

00:43:31,370 --> 00:43:28,800

talk to people that are boots on the

855

00:43:33,620 --> 00:43:31,380

ground there's a guy a funny story who

856

00:43:35,780 --> 00:43:33,630

was interested in he was wanting to date

857

00:43:37,370 --> 00:43:35,790

my mom and I had the opportunity to talk

858

00:43:39,829 --> 00:43:37,380

to him and he was a scientist down there

859

00:43:42,859 --> 00:43:39,839

and I was asking all the wrong questions

860

00:43:45,650 --> 00:43:42,869

and this guy did not you know he was

861

00:43:47,990 --> 00:43:45,660

like I know it's just there's something

862

00:43:53,359 --> 00:43:48,000

weird we don't know what it is because

863

00:43:55,430 --> 00:43:53,369

even eventually it's accepted that even

864

00:43:57,079 --> 00:43:55,440

you know those who are supposed to be in

865

00:44:01,720 --> 00:43:57,089

the know that realized that there's

866

00:44:05,510 --> 00:44:01,730

stuff happening on higher levels of

867

00:44:07,609 --> 00:44:05,520

governance or power structure that they

868

00:44:10,300 --> 00:44:07,619

they're they're not on that basis of

869

00:44:14,920 --> 00:44:10,310

knowing and they have very high levels

870

00:44:18,589 --> 00:44:14,930

of clearance or knowledge and there's

871

00:44:20,540 --> 00:44:18,599

just the structure of the dynamic of the

872

00:44:22,670 --> 00:44:20,550

structure of the pyramid that we live

873

00:44:25,730 --> 00:44:22,680

under and it just seems like about every

874

00:44:28,040 --> 00:44:25,740

country on this planet is just like that

875

00:44:29,890 --> 00:44:28,050

it's a select few have the information

876

00:44:33,950 --> 00:44:29,900

the power in the material wealth and

877

00:44:36,340 --> 00:44:33,960

it's there's a total difference Brad and

878

00:44:39,170 --> 00:44:36,350

I agree there's every effort being made

879

00:44:44,180 --> 00:44:39,180

for mankind to free themselves from all

880

00:44:47,050 --> 00:44:44,190

these negative are conic disruptors that

881

00:44:51,680 --> 00:44:47,060

are put in place and so appealing and

882

00:44:55,010 --> 00:44:51,690

you know just easy and you know I think

883

00:44:56,480 --> 00:44:55,020

a lot of the masses and civilization is

884

00:45:01,040 --> 00:44:56,490

being manipulated in their own little

885

00:45:04,970 --> 00:45:01,050

way but it's it's coming out the drip is

886

00:45:10,220 --> 00:45:04,980

a lot more constant than I think any of

887

00:45:14,060 --> 00:45:10,230

us could have ever imagined yeah it sure

888

00:45:16,940 --> 00:45:14,070

seems to be like the dike has finally

889

00:45:18,830 --> 00:45:16,950

cracked and the little boy can't put his

890

00:45:22,430 --> 00:45:18,840

finger in the hole anymore and it's just

891

00:45:24,140 --> 00:45:22,440

starting to rush through the cracks and

892

00:45:26,990 --> 00:45:24,150

pretty soon the whole dam is gonna burst

893

00:45:30,860 --> 00:45:27,000

it really feels like we are on the verge

894

00:45:35,330 --> 00:45:30,870

of some very important news regarding

895

00:45:38,810 --> 00:45:35,340

our connection with extraterrestrials

896

00:45:41,780 --> 00:45:38,820

both throughout our history paths but

897

00:45:44,930 --> 00:45:41,790

also what they're doing here today and

898

00:45:47,150 --> 00:45:44,940

what they're watching us to see will

899

00:45:49,310 --> 00:45:47,160

happen and you already see it with the

900

00:45:51,890 --> 00:45:49,320

government doing this soft disclosure

901
00:45:54,170 --> 00:45:51,900
last year it was the Pentagon released a

902
00:45:56,470 --> 00:45:54,180
couple files and even though one of them

903
00:45:59,240 --> 00:45:56,480
the tic-tac video has been debunked

904
00:46:01,460 --> 00:45:59,250
they're at least talking about it and

905
00:46:04,310 --> 00:46:01,470
even though they're still giving us this

906
00:46:06,410 --> 00:46:04,320
information at least a narrative is

907
00:46:10,880 --> 00:46:06,420
being created where we're starting the

908
00:46:14,840 --> 00:46:10,890
year this year with pilots now being

909
00:46:17,870 --> 00:46:14,850
able to disclose that they had extra

910
00:46:22,340 --> 00:46:17,880
stria Lighting's that the pentagon has

911
00:46:25,490 --> 00:46:22,350
admitted that they do research these

912
00:46:28,280 --> 00:46:25,500
sightings and have an interest in it so

913
00:46:31,220 --> 00:46:28,290

it's just slow trickle the drip drip

914

00:46:33,580 --> 00:46:31,230

drip Ryan of little bits that we're

915

00:46:36,440 --> 00:46:33,590

getting from the outside but again

916

00:46:38,930 --> 00:46:36,450

disclosure is already welling up

917

00:46:40,910 --> 00:46:38,940

from the ground level up to the point

918

00:46:44,390 --> 00:46:40,920

where people like you and me absolutely

919

00:46:47,210 --> 00:46:44,400

know factually that it exists so we're

920

00:46:49,400 --> 00:46:47,220

going beyond this little drip drip drip

921

00:46:52,430 --> 00:46:49,410

and we're taking on the big picture

922

00:46:55,089 --> 00:46:52,440

itself and the big picture includes a

923

00:46:57,380 --> 00:46:55,099

lot of other things it also includes

924

00:47:01,280 --> 00:46:57,390

cryptozoology and the skinwalker ranch

925

00:47:03,920 --> 00:47:01,290

which I know your listeners you're

926

00:47:07,069 --> 00:47:03,930

intimately interested in as well as

927

00:47:11,210 --> 00:47:07,079

myself and when you and I met in

928

00:47:14,890 --> 00:47:11,220

Albuquerque filming for the secrets of

929

00:47:19,099 --> 00:47:14,900

the outdoor TV show and Chaco Canyon

930

00:47:23,060 --> 00:47:19,109

having mysterious sightings people

931

00:47:25,550 --> 00:47:23,070

disappearing in national parks the whole

932

00:47:27,500 --> 00:47:25,560

human trafficking side of things and

933

00:47:29,480 --> 00:47:27,510

some of these people going off planet

934

00:47:31,339 --> 00:47:29,490

according to Corey Goode and other

935

00:47:34,430 --> 00:47:31,349

whistleblowers saying that they

936

00:47:36,290 --> 00:47:34,440

witnessed firsthand people who have been

937

00:47:38,870 --> 00:47:36,300

extracted out of the earth just gone

938

00:47:41,000 --> 00:47:38,880

missing you know thousands and thousands

939

00:47:43,520 --> 00:47:41,010

of people every year go missing without

940

00:47:44,930 --> 00:47:43,530

a trace where the actor they go they

941

00:47:47,900 --> 00:47:44,940

don't find their bodies murdered

942

00:47:50,690 --> 00:47:47,910

somewhere they're just gone hmm and so

943

00:47:53,180 --> 00:47:50,700

now we're starting to see that that

944

00:47:56,450 --> 00:47:53,190

there is a trade in human trafficking

945

00:47:58,640 --> 00:47:56,460

off planet even and that's downright

946

00:48:03,050 --> 00:47:58,650

scary and a lot of this stuff is really

947

00:48:05,960 --> 00:48:03,060

frightening to your average person but

948

00:48:09,410 --> 00:48:05,970

it is what it is and I think we have a

949

00:48:11,980 --> 00:48:09,420

duty to really try to articulate what's

950

00:48:16,220 --> 00:48:11,990

going on and help people understand how

951

00:48:21,109 --> 00:48:16,230

deep this really goes absolutely it's

952

00:48:24,260 --> 00:48:21,119

it's we're it's so it's so deep that I

953

00:48:26,420 --> 00:48:24,270

think that you know we see things like

954

00:48:29,420 --> 00:48:26,430

the b-2 bomber that are publicly

955

00:48:32,540 --> 00:48:29,430

displayed over events now and things of

956

00:48:35,690 --> 00:48:32,550

that nature and you know it's still just

957

00:48:39,170 --> 00:48:35,700

mind-boggling to civilians to see this

958

00:48:43,010 --> 00:48:39,180

craft overhead and when you realize when

959

00:48:45,800 --> 00:48:43,020

that came out publicly it was already

960

00:48:48,980 --> 00:48:45,810

old news and

961

00:48:50,900 --> 00:48:48,990

you know just use your imagination think

962

00:48:55,940 --> 00:48:50,910

of the phone you were using then and the

963

00:48:58,820 --> 00:48:55,950

phone you're using now good example and

964

00:49:00,980 --> 00:48:58,830

then of course what been rich said on

965

00:49:04,790 --> 00:49:00,990

his deathbed he was the head of the

966

00:49:06,920 --> 00:49:04,800

Lockheed Martin skunk works he had been

967

00:49:09,620 --> 00:49:06,930

privy to all the secrets of backward in

968

00:49:12,860 --> 00:49:09,630

engineering these crafts and at the very

969

00:49:16,370 --> 00:49:12,870

end of his life he saw that leaving it

970

00:49:18,620 --> 00:49:16,380

in the hands of private corporations was

971

00:49:21,890 --> 00:49:18,630

actually the most dangerous scenario of

972

00:49:24,320 --> 00:49:21,900

all and decided to start saying what he

973

00:49:27,370 --> 00:49:24,330

knew and he would say we already have

974

00:49:31,070 --> 00:49:27,380

the technology to take e.t home

975

00:49:34,510 --> 00:49:31,080

basically whatever you can imagine we

976

00:49:37,250 --> 00:49:34,520

already have and Ryan's this is in the

977

00:49:40,520 --> 00:49:37,260

1980s you said it can you imagine where

978

00:49:42,980 --> 00:49:40,530

we are now 40 years after been rich see

979

00:49:46,960 --> 00:49:42,990

it is truly a star trek-like

980

00:49:50,960 --> 00:49:46,970

scenario of humans in outer space

981

00:49:53,930 --> 00:49:50,970

teletransportation 3d printers we know

982

00:49:56,210 --> 00:49:53,940

but using it to create food very

983

00:49:59,450 --> 00:49:56,220

nutritious food I mean there's so many

984

00:50:00,680 --> 00:49:59,460

applications with this new technology it

985

00:50:03,620 --> 00:50:00,690

just boggles the mind

986

00:50:06,050 --> 00:50:03,630

it really is I'm interested in some of

987

00:50:08,750 --> 00:50:06,060

this stuff like this beyond me stuff

988

00:50:10,850 --> 00:50:08,760

that is you know just taking the stock

989

00:50:12,680 --> 00:50:10,860

market by storm and it's like you're

990

00:50:14,870 --> 00:50:12,690

saying it's just this plant-based

991

00:50:19,310 --> 00:50:14,880

material they've learned how to grow or

992

00:50:21,170 --> 00:50:19,320

whatever and and we're it seems like the

993

00:50:22,640 --> 00:50:21,180

the little bits that we're getting of

994

00:50:25,210 --> 00:50:22,650

this knowledge are nothing compared to

995

00:50:29,030 --> 00:50:25,220

like you said there's there's a dam of

996

00:50:31,130 --> 00:50:29,040

information behind that that wall that

997

00:50:32,840 --> 00:50:31,140

we can't seem to get that garden that we

998

00:50:36,470 --> 00:50:32,850

can't seem to get to her the masses are

999

00:50:38,300 --> 00:50:36,480

kept from but Brad I can't thank you

1000

00:50:41,480 --> 00:50:38,310

I've done the chapters for my two books

1015

00:51:34,670 --> 00:51:31,380

in the esoteric series called modern

1016

00:51:37,060 --> 00:51:34,680

esoteric and future esoteric and those

1017

00:51:39,770 --> 00:51:37,070

are also available now as audiobooks

1018

00:51:43,880 --> 00:51:39,780

narrated by me when I did my radio show

1019

00:51:46,130 --> 00:51:43,890

I was mainly reading these chapters on

1020

00:51:48,710 --> 00:51:46,140

each show and then recorded them both

1021

00:51:50,839 --> 00:51:48,720

video and audio and put them together as

1022

00:51:54,560 --> 00:51:50,849

an audio book so those are available now

1023

00:51:59,390 --> 00:51:54,570

with your eye and I always enjoy it

1028

00:52:13,460 --> 00:52:11,190

you're such a smart person and following

1029

00:52:15,980 --> 00:52:13,470

up on these leads and you're a curious

1030

00:52:18,109 --> 00:52:15,990

nature like I am and you have some

1031

00:52:20,540 --> 00:52:18,119

really great questions and some other

1032

00:52:23,329 --> 00:52:20,550

observations that you bring to the table

1033

00:52:25,280 --> 00:52:23,339

too so really happy to be here with you

1034

00:52:28,550 --> 00:52:25,290

1039

00:52:43,420 --> 00:52:40,950

going on he's got a quest going on I

1040

00:52:47,510 --> 00:52:43,430

tell you he's always on top of it

1041

00:52:52,099 --> 00:52:47,520

Brad Olson tales from Antarctica

1042

00:52:54,920 --> 00:52:52,109

wherever you can imagine it being the

1043

00:52:57,440 --> 00:52:54,930

secrecy that he's after he will go to

1044

00:52:58,790 --> 00:52:57,450

those lengths to get there and do what

1045

00:53:01,010 --> 00:52:58,800

you can to follow him

1046

00:53:03,530 --> 00:53:01,020

support him purchase his books they're

1047

00:53:06,349 --> 00:53:03,540

fantastic all of his books are awesome

1048

00:53:09,620 --> 00:53:06,359

CCC publishing also has other books that

1049

00:53:12,860 --> 00:53:09,630

are off the hook off the chain good

1050

00:53:15,910 --> 00:53:12,870

the Leo Sagami confessions of an

1051
00:53:21,530 --> 00:53:15,920
Illuminati series amongst many others

1052
00:53:24,950 --> 00:53:21,540
also amazing stuff that brad has has

1053
00:53:27,410 --> 00:53:24,960
written in the past but his new stuff is

1054
00:53:29,840 --> 00:53:27,420
you know what I would probably start

1055
00:53:33,380 --> 00:53:29,850
with and then work your way back because

1056
00:53:35,900 --> 00:53:33,390
the soil that he's prepared with love

1057
00:53:38,420 --> 00:53:35,910
receives it's it's gonna it's going to

1058
00:53:41,330 --> 00:53:38,430
give you a lot of information and a lot

1059
00:53:44,600 --> 00:53:41,340
of knowledge that you know has been to

1060
00:53:48,830 --> 00:53:44,610
me very helpful so Brad one of the

1061
00:53:51,560 --> 00:53:48,840
Masters in this in this genre I'm just

1062
00:53:54,500 --> 00:53:51,570
happy to have him on also guys just try

1063
00:53:57,680 --> 00:53:54,510

to support us anyway you can go to Hiro

1064

00:53:59,870 --> 00:53:57,690

dot pod bean comm if you want to

1065

00:54:01,610 --> 00:53:59,880

can immediately listen to it download it

1068

00:54:07,190 --> 00:54:04,980

take it on the plane with you take it on

1069

00:54:11,120 --> 00:54:07,200

a car whatever you want to do super easy

1070

00:54:12,650 --> 00:54:11,130

fast way to do it on the run and it

1071

00:54:14,390 --> 00:54:12,660

doesn't take as long a load is like

1072

00:54:16,280 --> 00:54:14,400

getting it off of YouTube which usually

1073

00:54:18,890 --> 00:54:16,290

you don't get the information off of

1074

00:54:20,300 --> 00:54:18,900

YouTube as quickly anyway because it

1075

00:54:22,520 --> 00:54:20,310

takes a while to load it up we try to

1076
00:54:27,080 --> 00:54:22,530
drop it as quickly as we can load it so

1077
00:54:29,810 --> 00:54:27,090
hero paranormal pod bean comm download

1078
00:54:32,300 --> 00:54:29,820
the app stop by be a patron as well you

1079
00:54:34,640 --> 00:54:32,310
can subscribe and get patron status to

1080
00:54:37,330 --> 00:54:34,650
our premium content which not everybody

1081
00:54:39,320 --> 00:54:37,340
gets to listen to usually kinda more

1082
00:54:42,710 --> 00:54:39,330
hush-hush

1083
00:54:45,350 --> 00:54:42,720
in flow that that certain forces

1084
00:54:47,600 --> 00:54:45,360
probably wouldn't want the majority of

1085
00:54:49,490 --> 00:54:47,610
people to listen to it we feel that it's

1086
00:54:51,440 --> 00:54:49,500
also a better way to kind of keep those

1087
00:54:53,900 --> 00:54:51,450
forces out who knows maybe the only

1088
00:54:58,340 --> 00:54:53,910

people subscribing are them but I don't

1089

00:55:00,290 --> 00:54:58,350

think so it's it's also a way for other

1090

00:55:05,000 --> 00:55:00,300

people to get in the mix that maybe

1091

00:55:07,760 --> 00:55:05,010

don't want to have things that are a

1092

00:55:09,260 --> 00:55:07,770

little bit less more fringy not not as

1093

00:55:11,120 --> 00:55:09,270

mainstream not that we're when we're

1094

00:55:12,740 --> 00:55:11,130

totally fringe that's what we're about

1095

00:55:15,070 --> 00:55:12,750

the weirder the better that's what we

1096

00:55:17,510 --> 00:55:15,080

want that's what we want to cover so

1097

00:55:19,040 --> 00:55:17,520

anyway you can find protected content

1098

00:55:21,450 --> 00:55:19,050

there I think right now we only have one

1099

00:55:23,520 --> 00:55:21,460

but it is a doozy of barn burner

1100

00:55:25,440 --> 00:55:23,530

and that's why it's there and we're

1101
00:55:26,970 --> 00:55:25,450
gonna have a lot more coming a lot more

1102
00:55:29,849 --> 00:55:26,980
episodes that will be in that protected

1103
00:55:31,260 --> 00:55:29,859
protected content area for patrons only

1104
00:55:33,380 --> 00:55:31,270
we'll have some watered-down versions

1105
00:55:36,359 --> 00:55:33,390
with the same guests on other stuff but

1106
00:55:38,849 --> 00:55:36,369
if you're really in the mix you want to

1107
00:55:41,040 --> 00:55:38,859
have the full view and you also want to

1108
00:55:44,670 --> 00:55:41,050
support us in what's coming out that's a

1109
00:55:46,079 --> 00:55:44,680
way to do it basically I guess you can

1110
00:55:48,690 --> 00:55:46,089
find us on social media

1111
00:55:51,630 --> 00:55:48,700
Kiro paranormal we also have a partner

1112
00:55:55,530 --> 00:55:51,640
research organization called SWR or

1113
00:55:57,420 --> 00:55:55,540

space wolf research in which myself and

1114

00:56:00,359 --> 00:55:57,430

two other individuals are making all

1115

00:56:01,980 --> 00:56:00,369

efforts and to do the best research we

1116

00:56:04,170 --> 00:56:01,990

can possibly bring you from the depths

1117

00:56:06,839 --> 00:56:04,180

of the Uintah Basin of Utah with the

1118

00:56:09,960 --> 00:56:06,849

highest level technology known to man

1119

00:56:12,660 --> 00:56:09,970

right now in UFO data acquisition so

1120

00:56:17,490 --> 00:56:12,670

we're having master come out and put

1121

00:56:20,339 --> 00:56:17,500

that in his his portfolio is pretty

1122

00:56:24,150 --> 00:56:20,349

amazing with what he's created and his

1123

00:56:26,309 --> 00:56:24,160

his UFO di P project which is based out

1124

00:56:28,620 --> 00:56:26,319

of San Luis Valley in Colorado it's

1125

00:56:30,480 --> 00:56:28,630

Chris O'Brien and we're gonna get some

1126

00:56:33,180 --> 00:56:30,490

of these cameras and put them on a

1127

00:56:35,789 --> 00:56:33,190

project that we're working on which I

1128

00:56:37,380 --> 00:56:35,799

mean at this point we're spending tons

1129

00:56:40,589 --> 00:56:37,390

of time money obviously we're buying

1130

00:56:44,190 --> 00:56:40,599

property I mean to literally study this

1131

00:56:48,530 --> 00:56:44,200

is getting crazy that how how we've gone

1132

00:56:52,020 --> 00:56:48,540

it's come full circle you know and we've

1133

00:56:54,809 --> 00:56:52,030

we're in it to bring it to you and and

1134

00:56:56,520 --> 00:56:54,819

this is what we're gonna do so keep an

1135

00:56:59,400 --> 00:56:56,530

eye out thank you so much for listening

1136

00:57:01,230 --> 00:56:59,410

to Brad do what you can to support him

1137

00:57:03,210 --> 00:57:01,240

he's one of the good guys all right take

1138

00:57:06,120 --> 00:57:03,220

care until next time keep your eyes to

1139

00:57:09,680 --> 00:57:06,130

this guy's feet on the ground and keep

1140

00:57:44,810 --> 00:57:09,690

an eye for what's going on around

1141

00:57:50,610 --> 00:57:48,320

[Music]

1142

00:57:52,200 --> 00:57:50,620

just a little bit little kid little kids
