4  
00:00:52,880 --> 00:00:48,480

always say that but this time I really

5  
00:00:56,779 --> 00:00:52,890

mean it a really epic show coming up one

7  
00:01:05,030 --> 00:01:01,340

has worked as a private contractor for

39

00:02:29,070 --> 00:02:26,650

and Stargate remote viewers Paul Smith

46

00:02:47,160 --> 00:02:44,500

and Lynn Buchanan as she now works out

47

00:02:50,910 --> 00:02:47,170

of mind wise consulting at Boulder City

48

00:02:54,630 --> 00:02:50,920

Nevada and she specializes in research

49

00:02:56,130 --> 00:02:54,640

training and instruction definitely read

50

00:02:59,040 --> 00:02:56,140

her books they are by far some of the

51  
00:03:01,650 --> 00:02:59,050  
most intriguing intellectually I think

52  
00:03:04,170 --> 00:03:01,660  
intriguing books at least to me

53  
00:03:06,840 --> 00:03:04,180  
amazing amazing books I haven't read one

54  
00:03:08,880 --> 00:03:06,850  
that I wasn't just blown away by so

55  
00:03:11,280 --> 00:03:08,890  
let's please support angela thompson

56  
00:03:14,760 --> 00:03:11,290  
smith and without any further ado let's

57  
00:03:16,560 --> 00:03:14,770  
get down to it uh hold up just about

58  
00:03:18,479 --> 00:03:16,570  
forgot one of the most important things

59  
00:03:21,449 --> 00:03:18,489  
that if i don't mention it we may not

60  
00:03:22,860 --> 00:03:21,459  
exist which that is donations if you

61  
00:03:24,750 --> 00:03:22,870  
guys want to donate to the hero

62  
00:03:27,330 --> 00:03:24,760  
paranormal podcast even if it's a buck

63  
00:03:30,930 --> 00:03:27,340

ten bucks whatever you can do it a

64

00:03:33,570 --> 00:03:30,940

one-time way which is going to hero

65

00:03:35,460 --> 00:03:33,580

paranormal pod beam comm you just sign

66

00:03:38,070 --> 00:03:35,470

up for the recurring it just says like a

67

00:03:39,210 --> 00:03:38,080

dollar or whatever per month and let's

68

00:03:41,070 --> 00:03:39,220

say you just want to donate at all you

69

00:03:43,110 --> 00:03:41,080

just do a dollar and then afterwards you

70

00:03:44,850 --> 00:03:43,120

just go to manage account and hit stop

71

00:03:47,759 --> 00:03:44,860

recurring payment and you're done you

72

00:03:49,380 --> 00:03:47,769

did at one time and that's how easy it

73

00:03:51,600 --> 00:03:49,390

is we could just use all the funding we

74

00:03:55,020 --> 00:03:51,610

could get because we are funding all

75

00:03:57,360 --> 00:03:55,030

kinds of stuff it takes cash to do these

76

00:03:58,420 --> 00:03:57,370

podcasts unfortunately in time which is

77

00:04:01,990 --> 00:03:58,430

also money

78

00:04:04,600 --> 00:04:02,000

and we are doing research which is like

79

00:04:06,520 --> 00:04:04,610

very real we're involved with space wolf

80

00:04:09,190 --> 00:04:06,530

research which is costing an arm and a

81

00:04:11,050 --> 00:04:09,200

leg but we're getting way more than an

82

00:04:11,920 --> 00:04:11,060

arm L legs worth of evidence so it's

83

00:04:14,080 --> 00:04:11,930

totally worth it

84

00:04:15,850 --> 00:04:14,090

anyway hop over to hero paranormal comm

85

00:04:17,439 --> 00:04:15,860

there's a donate button there's also a

86

00:04:19,659 --> 00:04:17,449

subscribe button it's really the same

87

00:04:22,030 --> 00:04:19,669

button you tap it you give whatever you

88

00:04:23,860 --> 00:04:22,040

want you can be recurring \$1 a month or

89

00:04:26,140 --> 00:04:23,870

you can just give \$1 one one third ten

90

00:04:31,510 --> 00:04:26,150

bucks one time or whatever you want it's

91

00:04:33,779 --> 00:04:31,520

also if you are patron you get special

92

00:04:36,460 --> 00:04:33,789

content there are some patron only

93

00:04:40,300 --> 00:04:36,470

podcasts which are very very in my

94

00:04:42,010 --> 00:04:40,310

opinion the best and speaking of the

95

00:04:44,290 --> 00:04:42,020

best let's get down to the podcast we're

96

00:04:46,450 --> 00:04:44,300

having tonight and that is one of the

97

00:04:49,150 --> 00:04:46,460

favorite people I have that I have met

98

00:04:53,260 --> 00:04:49,160

in my existence here on this planet and

99

00:04:55,719 --> 00:04:53,270

that's Angela Thompson Smith PhD she

100

00:04:58,719 --> 00:04:55,729

started out in social work she is a hero

101  
00:05:02,170 --> 00:04:58,729  
of the people she was a nurse she is a

102  
00:05:04,150 --> 00:05:02,180  
hero of health she's a researcher like

103  
00:05:04,870 --> 00:05:04,160  
none other she's given so much back to

104  
00:05:08,170 --> 00:05:04,880  
the community

105  
00:05:13,480 --> 00:05:08,180  
and anyway let's just get to it Angela

106  
00:05:16,120 --> 00:05:13,490  
Thompson Smith PhD Angela not bad not

107  
00:05:18,700 --> 00:05:16,130  
bad thanks so much for taking some time

108  
00:05:23,710 --> 00:05:18,710  
out of your day and and talking with us

109  
00:05:26,830 --> 00:05:23,720  
oh you're welcome that's great I'm I'm

110  
00:05:28,990 --> 00:05:26,840  
very excited about well I wanted to talk

111  
00:05:31,200 --> 00:05:29,000  
about some past projects and some future

112  
00:05:35,080 --> 00:05:31,210  
projects that you have among those

113  
00:05:36,790 --> 00:05:35,090

tactical remote-viewing and what you

114

00:05:40,120 --> 00:05:36,800

could tell us what you could tell us

115

00:05:43,779 --> 00:05:40,130

about what's going on and yeah I'm

116

00:05:48,310 --> 00:05:43,789

always I'm always doing something yeah

117

00:05:49,960 --> 00:05:48,320

we'll be the latest book out of course

118

00:05:53,350 --> 00:05:49,970

as you mentioned is tactical remote

119

00:05:56,560 --> 00:05:53,360

viewing that was an account of working

120

00:05:59,320 --> 00:05:56,570

with a New York business client for nine

121

00:06:01,120 --> 00:05:59,330

years and all the work that not all the

122

00:06:04,420 --> 00:06:01,130

workers I couldn't post some of it

123

00:06:06,219 --> 00:06:04,430

because it was proprietary but some of

124

00:06:08,920 --> 00:06:06,229

the more interesting cases that we

125

00:06:11,709 --> 00:06:08,930

worked on and I helped him sell his

126  
00:06:15,879 --> 00:06:11,719  
business during the last recession 2000

127  
00:06:19,299 --> 00:06:15,889  
9 and the fact that we actually alerted

128  
00:06:23,409 --> 00:06:19,309  
him as remote viewers to the coming

129  
00:06:28,019 --> 00:06:23,419  
recession which he didn't believe at the

130  
00:06:30,999 --> 00:06:28,029  
time but he did as it went on it's

131  
00:06:35,139 --> 00:06:31,009  
that's interesting because a lot of the

132  
00:06:39,549 --> 00:06:35,149  
private sector it seems is more open to

133  
00:06:41,409 --> 00:06:39,559  
if not engaged in remote viewing in some

134  
00:06:43,389 --> 00:06:41,419  
way shape or form at some level having

135  
00:06:46,799 --> 00:06:43,399  
remote viewers on deck I've heard of a

136  
00:06:49,389 --> 00:06:46,809  
few corporations but there's also

137  
00:06:51,489 --> 00:06:49,399  
government projects it sounds like in

138  
00:06:56,439 --> 00:06:51,499

the past that have also done this isn't

139

00:07:01,659 --> 00:06:56,449

this correct Angela um they they've been

140

00:07:03,850 --> 00:07:01,669

very cautious the business and there are

141

00:07:07,839 --> 00:07:03,860

more businesses now employing remote

142

00:07:10,600 --> 00:07:07,849

viewers either as freelance consultants

143

00:07:13,809 --> 00:07:10,610

or on the long term basis like I work

144

00:07:16,269 --> 00:07:13,819

with my client government and he tends

145

00:07:19,149 --> 00:07:16,279

to come in when is an emergency for

146

00:07:22,299 --> 00:07:19,159

example in the after 9/11 I was tasked

147

00:07:26,679 --> 00:07:22,309

by somebody who called himself Navy

148

00:07:29,649 --> 00:07:26,689

Frank and I never knew who he was but

149

00:07:34,600 --> 00:07:29,659

and all the feedback I got was that was

150

00:07:40,119 --> 00:07:34,610

helpful but it's not good so that's

151

00:07:43,809 --> 00:07:40,129

great it's it's it's it's just so your

152

00:07:45,879 --> 00:07:43,819

your knowledge and everything of remote

153

00:07:48,790 --> 00:07:45,889

viewing is so vast I have so many

154

00:07:50,949 --> 00:07:48,800

questions I want to hop on another one

155

00:07:54,669 --> 00:07:50,959

of your books that is one of my

156

00:07:56,439 --> 00:07:54,679

favorites is one that I believe Ingo

157

00:08:00,040 --> 00:07:56,449

Swann actually wrote the foreword remote

158

00:08:02,589 --> 00:08:00,050

perceptions right and I am currently

159

00:08:05,709 --> 00:08:02,599

just three publishing it it was out of

160

00:08:08,649 --> 00:08:05,719

publication for many years and I'm just

161

00:08:11,469 --> 00:08:08,659

republishing it is the Kindle version is

162

00:08:14,139 --> 00:08:11,479

up on Amazon and I should have the

163

00:08:17,649 --> 00:08:14,149

renewed paperback version app sometimes

164

00:08:19,719 --> 00:08:17,659

sweet oh great great yeah that is that

165

00:08:21,459 --> 00:08:19,729

yeah it's such a it's such a neat it's

166

00:08:23,860 --> 00:08:21,469

such a neat book I think the targets are

167

00:08:27,879 --> 00:08:23,870

great and

168

00:08:30,550 --> 00:08:27,889

I I really that I think from it's kind

169

00:08:32,050 --> 00:08:30,560

of controversial but an experimental and

170

00:08:34,180 --> 00:08:32,060

I think that's what's so neat about you

171

00:08:36,670 --> 00:08:34,190

is that you have been involved in a lot

172

00:08:39,370 --> 00:08:36,680

of controversial and experimental

173

00:08:44,410 --> 00:08:39,380

projects I don't want to speak for you

174

00:08:48,790 --> 00:08:44,420

but I could you give us a little bit of

175

00:08:51,790 --> 00:08:48,800

insight into some of those wealthy the

176

00:08:53,680 --> 00:08:51,800

longest one was at the para lab at

177

00:08:56,620 --> 00:08:53,690

Princeton University the Princeton

178

00:08:59,190 --> 00:08:56,630

engineering anomalies research lab that

179

00:09:02,440 --> 00:08:59,200

was studying remote perception and

180

00:09:05,680 --> 00:09:02,450

human-computer interaction from a an

181

00:09:06,819 --> 00:09:05,690

intuitive psychic basis they were there

182

00:09:10,510 --> 00:09:06,829

for 30 years

183

00:09:13,660 --> 00:09:10,520

and very few people knew about it the

184

00:09:17,230 --> 00:09:13,670

public was becoming more aware of the

185

00:09:18,730 --> 00:09:17,240

the team and the work there Robert

186

00:09:20,920 --> 00:09:18,740

Johnson Spencer Robert John who was

187

00:09:23,110 --> 00:09:20,930

professor of aerospace studies was the

188

00:09:27,340 --> 00:09:23,120

lead and bread had done was the office

189

00:09:30,990 --> 00:09:27,350

manager and said I worked there for five

190

00:09:33,579 --> 00:09:31,000

years and participated in many of the

191

00:09:35,199 --> 00:09:33,589

experiments and that has all been

192

00:09:39,730 --> 00:09:35,209

written up it's out there if you go to

193

00:09:42,940 --> 00:09:39,740

pare Inc EE AR I NC you should be able

194

00:09:45,730 --> 00:09:42,950

to find some of their reprints so that

195

00:09:49,060 --> 00:09:45,740

was the the major research that I took

196

00:09:51,430 --> 00:09:49,070

part in and there's always I never know

197

00:09:55,240 --> 00:09:51,440

what's coming across my debt I've done

198

00:09:58,780 --> 00:09:55,250

work for a physics lab I've done work

199

00:10:03,430 --> 00:09:58,790

for a NASA manager not officially for

200

00:10:06,400 --> 00:10:03,440

NASA but one of the managers so projects

201  
00:10:08,370 --> 00:10:06,410  
like that come across my desk and I'm

202  
00:10:16,660 --> 00:10:08,380  
always happy to participate

203  
00:10:18,460 --> 00:10:16,670  
mmm that is neat the the program wanted

204  
00:10:20,260 --> 00:10:18,470  
to it first of all if it's okay I'd like

205  
00:10:22,630 --> 00:10:20,270  
to read something out of your remote

206  
00:10:27,040 --> 00:10:22,640  
perceptions book that I thought was

207  
00:10:29,860 --> 00:10:27,050  
pretty interesting and if speculation

208  
00:10:31,990 --> 00:10:29,870  
that the CIA utilized RV information

209  
00:10:34,210 --> 00:10:32,000  
comes from an article by Douglas Waller

210  
00:10:34,920 --> 00:10:34,220  
in the Time magazine dated December 11th

211  
00:10:37,050 --> 00:10:34,930  
1990

212  
00:10:39,480 --> 00:10:37,060  
five Waller wrote that the Defense

213  
00:10:41,280 --> 00:10:39,490

Intelligence Agency recruits psychics

214

00:10:43,950 --> 00:10:41,290

who were creating accurate pictures of

215

00:10:47,070 --> 00:10:43,960

Soviet submarine construction hidden

216

00:10:48,870 --> 00:10:47,080

from us by satellites and a 1993

217

00:10:51,570 --> 00:10:48,880

Pentagon representative said

218

00:10:53,370 --> 00:10:51,580

psychics had correctly drawn 20 tunnels

219

00:10:56,639 --> 00:10:53,380

being built in North Korea and near the

220

00:11:00,269 --> 00:10:56,649

Demilitarized Zone and I think we run

221

00:11:03,630 --> 00:11:00,279

into this a lot there's been quite a few

222

00:11:05,519 --> 00:11:03,640

cases that at least I I'm not quite

223

00:11:06,720 --> 00:11:05,529

normal I like to do a lot of research

224

00:11:09,750 --> 00:11:06,730

when it comes to these things and

225

00:11:11,790 --> 00:11:09,760

there's quite a few cases Angela that

226

00:11:17,340 --> 00:11:11,800

you know where the government has

227

00:11:19,019 --> 00:11:17,350

utilized you know remote viewers to even

228

00:11:21,420 --> 00:11:19,029

if they have a plan to just kind of

229

00:11:22,680 --> 00:11:21,430

fine-tune certain portions of that plan

230

00:11:27,199 --> 00:11:22,690

isn't that correct

231

00:11:33,480 --> 00:11:30,480

they try and go for people who have a

232

00:11:34,920 --> 00:11:33,490

track record there are many I mean there

233

00:11:37,170 --> 00:11:34,930

are thousands of people now who have

234

00:11:40,380 --> 00:11:37,180

been trained in remote viewing many of

235

00:11:42,870 --> 00:11:40,390

them just to the basic level people like

236

00:11:45,780 --> 00:11:42,880

myself have gone on into operational

237

00:11:47,610 --> 00:11:45,790

work which has been my new forward

238

00:11:51,530 --> 00:11:47,620

thrust

239

00:11:54,079 --> 00:11:51,540

tend to get tasks from time to time

240

00:11:56,510 --> 00:11:54,089

unfortunately some of the more sensitive

241

00:12:00,090 --> 00:11:56,520

projects if I sign non-disclosure

242

00:12:04,110 --> 00:12:00,100

there's or contracts I'm not allowed to

243

00:12:08,160 --> 00:12:04,120

talk about them so I but I try and put

244

00:12:12,590 --> 00:12:08,170

as many projects as I can into my books

245

00:12:15,810 --> 00:12:12,600

and my books fear ste R contains

246

00:12:19,530 --> 00:12:15,820

projects for the last 30 years of remote

247

00:12:24,780 --> 00:12:19,540

viewing that I participated in that is

248

00:12:26,579 --> 00:12:24,790

great and that the just a reminder to

249

00:12:30,090 --> 00:12:26,589

our audience like the quality and the

250

00:12:32,480 --> 00:12:30,100

different I love the different types of

251

00:12:37,290 --> 00:12:32,490

books that you have there's another book

252

00:12:38,699 --> 00:12:37,300

Columbia quest which yeah yeah could you

253

00:12:42,960 --> 00:12:38,709

tell our listeners a little bit about

254

00:12:45,870 --> 00:12:42,970

that you know in my 20s when I was a lot

255

00:12:48,630 --> 00:12:45,880

younger I volunteered with a British

256

00:12:51,900 --> 00:12:48,640

organization to go down to Columbia

257

00:12:54,930 --> 00:12:51,910

America and I worked at an orphanage as

258

00:12:59,100 --> 00:12:54,940

a nurse social worker and but I didn't

259

00:13:01,560 --> 00:12:59,110

just do today I know hands-on day-to-day

260

00:13:04,920 --> 00:13:01,570

stuff the missionaries there would send

261

00:13:07,460 --> 00:13:04,930

me off or by bus up to Bogota because we

262

00:13:10,200 --> 00:13:07,470

were only in the foothills of the Andes

263

00:13:12,830 --> 00:13:10,210

and in baggage hoddan I get another bus

264

00:13:16,200 --> 00:13:12,840

out to the boondocks happen to the Andes

265

00:13:19,110 --> 00:13:16,210

to go pick up and collect birth

266

00:13:22,770 --> 00:13:19,120

certificates and other information about

267

00:13:24,570 --> 00:13:22,780

the children for adoptive parents so I

268

00:13:26,790 --> 00:13:24,580

never knew where I was going to be sent

269

00:13:29,100 --> 00:13:26,800

I never knew I had to find out which

270

00:13:31,050 --> 00:13:29,110

buses to take so I had lots of

271

00:13:35,310 --> 00:13:31,060

adventures while I was over the wells

272

00:13:37,320 --> 00:13:35,320

down there and finally found all my

273

00:13:40,530 --> 00:13:37,330

journals and letters home that my

274

00:13:43,080 --> 00:13:40,540

parents packed and then I got a disc of

275

00:13:46,620 --> 00:13:43,090

photos of one of the orphans who gone

276

00:13:49,560 --> 00:13:46,630

back to the orphanage and this spurred

277

00:13:52,350 --> 00:13:49,570

me to write about my adventures down

278

00:13:58,860 --> 00:13:52,360

there know that that's basically the

279

00:14:00,570 --> 00:13:58,870

book yes that is so neat and bringing me

280

00:14:03,810 --> 00:14:00,580

back to like just the amount and

281

00:14:07,080 --> 00:14:03,820

quantity of your work I recently had

282

00:14:09,000 --> 00:14:07,090

some really intriguing you know just a

283

00:14:12,900 --> 00:14:09,010

snippet of intriguing information sent

284

00:14:15,090 --> 00:14:12,910

to me by someone and I posted it and I

285

00:14:16,610 --> 00:14:15,100

immediately like when you said hey this

286

00:14:20,580 --> 00:14:16,620

is me I'm like oh well of course it is

287

00:14:23,720 --> 00:14:20,590

and it was so well written and it had to

288

00:14:26,520 --> 00:14:23,730

do with an animal mutilation studies and

289

00:14:28,500 --> 00:14:26,530

it was just so well written you know and

290

00:14:29,310 --> 00:14:28,510

that's what's so nice is like an

291

00:14:30,660 --> 00:14:29,320

open-minded

292

00:14:36,470 --> 00:14:30,670

like when it comes to your research

293

00:14:38,940 --> 00:14:36,480

which is you know good the absolutely

294

00:14:42,330 --> 00:14:38,950

the other thing I wanted to ask you

295

00:14:46,730 --> 00:14:42,340

about was if you could tell our audience

296

00:14:52,830 --> 00:14:46,740

I believe you're still do you still do

297

00:14:55,380 --> 00:14:52,840

classes and offer training I do I try

298

00:14:57,810 --> 00:14:55,390

and offer a one class a month a third

299

00:15:00,870 --> 00:14:57,820

weekend of each month and it's in

300

00:15:02,070 --> 00:15:00,880

applications remote viewing so I don't

301  
00:15:04,260 --> 00:15:02,080  
teach

302  
00:15:06,210 --> 00:15:04,270  
actually remote viewing except that

303  
00:15:09,240 --> 00:15:06,220  
controlled remotely and protocol but I

304  
00:15:11,910 --> 00:15:09,250  
bring new people and other trained

305  
00:15:14,190 --> 00:15:11,920  
people up to speed with the protocols

306  
00:15:16,320 --> 00:15:14,200  
over two days so that they have a

307  
00:15:18,810 --> 00:15:16,330  
working knowledge of what they're

308  
00:15:22,560 --> 00:15:18,820  
supposed to be doing and you yourself

309  
00:15:27,300 --> 00:15:22,570  
Ryan took Artemis so you know the third

310  
00:15:30,450 --> 00:15:27,310  
day we I picked an actual target for

311  
00:15:35,640 --> 00:15:30,460  
example we looked at the fire this last

312  
00:15:37,950 --> 00:15:35,650  
class we looked at the fire at in France

313  
00:15:40,230 --> 00:15:37,960

you know the big Cathedral and Notre

314

00:15:44,190 --> 00:15:40,240

Dame and looking to see if it was a

315

00:15:46,740 --> 00:15:44,200

natural fire or was actually terrorist

316

00:15:49,560 --> 00:15:46,750

related and the students do three

317

00:15:52,910 --> 00:15:49,570

sessions and finally arriving at a team

318

00:15:56,040 --> 00:15:52,920

at a conclusion and we concluded it was

319

00:15:58,830 --> 00:15:56,050

accidental it was a fuse box so we're

320

00:16:01,290 --> 00:15:58,840

waiting now on feedback for that but yes

321

00:16:05,370 --> 00:16:01,300

I I teach here in Boulder City Nevada

322

00:16:07,490 --> 00:16:05,380

and you can always contact me to see of

323

00:16:11,670 --> 00:16:07,500

their places

324

00:16:15,420 --> 00:16:11,680

absolutely that is great the other thing

325

00:16:17,280 --> 00:16:15,430

I wanted to ask you is you recently did

326

00:16:21,300 --> 00:16:17,290

I believe a class with Paul Smith is

327

00:16:25,470 --> 00:16:21,310

that correct yeah I just thought that my

328

00:16:30,180 --> 00:16:25,480

trainer major Paul Smith all s H Smith

329

00:16:33,420 --> 00:16:30,190

was up in Cedar City Nevada he was one

330

00:16:36,690 --> 00:16:33,430

of the original military Stargate remote

331

00:16:38,310 --> 00:16:36,700

viewers for nine years and I thought

332

00:16:42,240 --> 00:16:38,320

very privileged to have been trained by

333

00:16:45,180 --> 00:16:42,250

him in remote viewing and every now and

334

00:16:47,880 --> 00:16:45,190

again he asked me to go up when he needs

335

00:16:50,310 --> 00:16:47,890

assistance so I just spent the last week

336

00:16:53,370 --> 00:16:50,320

assisting him with one of his basic

337

00:16:58,260 --> 00:16:53,380

classes and it's in it's like mental

338

00:17:00,600 --> 00:16:58,270

bootcamp classes my classes are tame

339

00:17:03,630 --> 00:17:00,610

compared to his because you write essays

340

00:17:08,760 --> 00:17:03,640

you have to do homework long hours

341

00:17:11,970 --> 00:17:08,770

actually all day just working and it was

342

00:17:15,110 --> 00:17:11,980

tremendous I benefit from it because I

343

00:17:19,760 --> 00:17:15,120

get a little bit of course correct

344

00:17:22,789 --> 00:17:19,770

and I love being up in Cedar City so I

345

00:17:24,470 --> 00:17:22,799

just got back last night that's great

346

00:17:30,710 --> 00:17:24,480

Paul is a great guy

347

00:17:34,010 --> 00:17:30,720

dad is neat long and getting to there's

348

00:17:36,649 --> 00:17:34,020

there's it looks like some future I I

349

00:17:40,190 --> 00:17:36,659

don't know how much I can say or not but

350

00:17:46,610 --> 00:17:40,200

I believe there's some future possible

351  
00:17:50,240 --> 00:17:46,620  
television here yeah yeah I was invited

352  
00:17:53,120 --> 00:17:50,250  
out to LA a couple of months ago by the

353  
00:17:56,180 --> 00:17:53,130  
History Channel Prometheus Productions

354  
00:17:58,940 --> 00:17:56,190  
was doing some filming for them for a

355  
00:18:02,870 --> 00:17:58,950  
new it's a new series that's being

356  
00:18:05,450 --> 00:18:02,880  
hosted by William Shatner and it's

357  
00:18:08,330 --> 00:18:05,460  
called the unexplained mysteries of the

358  
00:18:12,529 --> 00:18:08,340  
mind and I think mine is the seventh

359  
00:18:16,810 --> 00:18:12,539  
segment it's going to be aired this on

360  
00:18:19,639 --> 00:18:16,820  
this coming Friday the 30th and it's

361  
00:18:21,590 --> 00:18:19,649  
it's mainly about my work the work of

362  
00:18:23,120 --> 00:18:21,600  
some other remote viewers the Nevada

363  
00:18:27,470 --> 00:18:23,130

remote viewing group that I work with

364

00:18:31,430 --> 00:18:27,480

and mainly about the DJ murder mystery

365

00:18:36,200 --> 00:18:31,440

case that we worked on so that's going

366

00:18:38,470 --> 00:18:36,210

to be on on Friday evening the 30th on

367

00:18:43,010 --> 00:18:38,480

the hit on the History Channel

368

00:18:48,139 --> 00:18:43,020

that is exciting very exciting I'm

369

00:18:51,380 --> 00:18:48,149

nervous oh gosh it's I can't wait I

370

00:18:52,940 --> 00:18:51,390

can't wait to see it yeah no I'm sure

371

00:18:56,149 --> 00:18:52,950

they're going to do a wonderful job with

372

00:18:58,850 --> 00:18:56,159

it but I'm I still get nervous until

373

00:18:59,930 --> 00:18:58,860

it's actually aired absolutely

374

00:19:05,269 --> 00:18:59,940

absolutely

375

00:19:10,460 --> 00:19:05,279

the another interesting thing that I

376

00:19:12,380 --> 00:19:10,470

wanted to ask you about was the if I if

377

00:19:13,880 --> 00:19:12,390

it's okay if I read the animal

378

00:19:21,019 --> 00:19:13,890

mutilation study that I previously

379

00:19:25,039 --> 00:19:21,029

mentioned oh yeah okay yep that's the

380

00:19:26,659 --> 00:19:25,049

one in the fall of 1992 when we visited

381

00:19:28,430 --> 00:19:26,669

the Nevada Test Site someone in the

382

00:19:30,200 --> 00:19:28,440

group asked a question about what

383

00:19:33,020 --> 00:19:30,210

their cattle had been ranched at the

384

00:19:34,460 --> 00:19:33,030

test site during the nuclear tests we

385

00:19:36,230 --> 00:19:34,470

were told that there had been cattle at

386

00:19:38,300 --> 00:19:36,240

the test site in various parts of the

387

00:19:41,120 --> 00:19:38,310

animal were removed when they died

388

00:19:42,680 --> 00:19:41,130

the rest was barbecued we were told that

389

00:19:45,050 --> 00:19:42,690

there were no longer test cattle at the

390

00:19:47,180 --> 00:19:45,060

test site however multiple unusual

391

00:19:49,670 --> 00:19:47,190

cattle deaths called cattle mutilations

392

00:19:51,980 --> 00:19:49,680

had been occurring all over the country

393

00:19:52,700 --> 00:19:51,990

including the counties surrounding the

394

00:19:54,740 --> 00:19:52,710

test site

395

00:19:57,170 --> 00:19:54,750

it seemed that many of these unusual

396

00:20:00,560 --> 00:19:57,180

cattle deaths had occurred near military

397

00:20:03,080 --> 00:20:00,570

and government installations and you go

398

00:20:05,090 --> 00:20:03,090

on to mention a little bit where we go

399

00:20:07,240 --> 00:20:05,100

into some other things but I found that

400

00:20:11,870 --> 00:20:07,250

very interesting that there is a

401  
00:20:15,470 --> 00:20:11,880  
possible connection there yeah that was

402  
00:20:18,620 --> 00:20:15,480  
what I discovered I wrote about that in

403  
00:20:21,320 --> 00:20:18,630  
another an older book called diary of an

404  
00:20:24,290 --> 00:20:21,330  
abduction that's still available a

405  
00:20:26,990 --> 00:20:24,300  
second you know used copies on Amazon's

406  
00:20:27,530 --> 00:20:27,000  
I want I'm going to rewrite it this

407  
00:20:33,620 --> 00:20:27,540  
summer

408  
00:20:35,810 --> 00:20:33,630  
before but this was a tour that I did

409  
00:20:38,300 --> 00:20:35,820  
the trip that I did when I first started

410  
00:20:40,700 --> 00:20:38,310  
working and I came to Las Vegas I was

411  
00:20:44,810 --> 00:20:40,710  
working with Robert Bigelow and I got

412  
00:20:47,740 --> 00:20:44,820  
included in a group of university folks

413  
00:20:51,260 --> 00:20:47,750

that were going up to the test site and

414

00:20:55,370 --> 00:20:51,270

it was eye-opening it was fantastic we

415

00:20:56,450 --> 00:20:55,380

were shown locations that weren't open

416

00:20:59,150 --> 00:20:56,460

to the general public

417

00:21:03,890 --> 00:20:59,160

we saw the pee tunnel it were way up the

418

00:21:05,840 --> 00:21:03,900

north of the test site just an amazing

419

00:21:08,840 --> 00:21:05,850

experience and I I took the opportunity

420

00:21:13,400 --> 00:21:08,850

to ask questions while I was there as I

421

00:21:16,430 --> 00:21:13,410

am I kind of nosy tip it and I wrote out

422

00:21:19,130 --> 00:21:16,440

a lot of I did it in internal form

423

00:21:21,170 --> 00:21:19,140

because I write my journals about

424

00:21:26,810 --> 00:21:21,180

interesting stuff and they end up

425

00:21:28,760 --> 00:21:26,820

usually in my book that's Fanta I like I

426

00:21:30,710 --> 00:21:28,770

like that and I'm glad I'm very glad

427

00:21:32,990 --> 00:21:30,720

that you mentioned Robert Bigelow in

428

00:21:35,480 --> 00:21:33,000

fact because that brings me to the next

429

00:21:37,460 --> 00:21:35,490

little snippet of writing having to do

430

00:21:41,390 --> 00:21:37,470

with the same at animal mutilation study

431

00:21:42,109 --> 00:21:41,400

and it goes on to say Robert Bigelow was

432

00:21:43,759 --> 00:21:42,119

adamant that

433

00:21:46,009 --> 00:21:43,769

the cattle mutilations were solely the

434

00:21:47,929 --> 00:21:46,019

result of extraterrestrial interference

435

00:21:50,389 --> 00:21:47,939

with the cattle he would not envisage

436

00:21:52,609 --> 00:21:50,399

any other explanation I preferred to

437

00:21:55,039 --> 00:21:52,619

keep an open mind his argument was that

438

00:21:57,229 --> 00:21:55,049

we had no technology that could account

439

00:22:00,229 --> 00:21:57,239

for the cauterize cuts and open wounds

440

00:22:02,089 --> 00:22:00,239

on these animals or if we did could it

441

00:22:04,789 --> 00:22:02,099

would be too heavy to carry out into the

442

00:22:07,159 --> 00:22:04,799

field since then I have seen devices in

443

00:22:09,859 --> 00:22:07,169

engineering magazines regarding portable

444

00:22:12,019 --> 00:22:09,869

medical technologies for example philips

445

00:22:15,109 --> 00:22:12,029

laboratories located at Kirkland Air

446

00:22:18,769 --> 00:22:15,119

Force Base in New Mexico had developed a

447

00:22:20,509 --> 00:22:18,779

device called the med pen and it goes on

448

00:22:22,909 --> 00:22:20,519

- like an agricultural website and how

449

00:22:25,069 --> 00:22:22,919

it's described but it's fascinating that

450

00:22:30,099 --> 00:22:25,079

some of these things that we considered

451  
00:22:35,209 --> 00:22:30,109  
science fiction in not that long ago are

452  
00:22:38,149 --> 00:22:35,219  
possible now and it's you know that it's

453  
00:22:42,709 --> 00:22:38,159  
getting more difficult I I believe that

454  
00:22:45,739 --> 00:22:42,719  
there is very real phenomena taking

455  
00:22:48,859 --> 00:22:45,749  
place and you know in our skies etc on

456  
00:22:51,969 --> 00:22:48,869  
the ground and however it is becoming

457  
00:22:59,809 --> 00:22:51,979  
more and more difficult to discern that

458  
00:23:02,299 --> 00:22:59,819  
from actual technology yeah yeah yes I

459  
00:23:04,549 --> 00:23:02,309  
would like to keep an open mind on the

460  
00:23:08,479 --> 00:23:04,559  
sources of things and when you think

461  
00:23:12,319 --> 00:23:08,489  
that I wrote that back in 2001 imagine

462  
00:23:13,839 --> 00:23:12,329  
what has been a advance since then it's

463  
00:23:19,009 --> 00:23:13,849

just mind-blowing

464

00:23:21,589 --> 00:23:19,019

absolutely yeah yeah so fast I was also

465

00:23:24,559 --> 00:23:21,599

I was also sent out by Robert Bigelow to

466

00:23:27,769 --> 00:23:24,569

spike Alabama because they were having a

467

00:23:32,829 --> 00:23:27,779

huge amount of cattle mutilations taking

468

00:23:37,729 --> 00:23:32,839

place this was like around 90 to 93 and

469

00:23:40,339 --> 00:23:37,739

I spoke to I went and interviewed a

470

00:23:41,719 --> 00:23:40,349

whole bunch of people because Bigelow

471

00:23:45,049 --> 00:23:41,729

was interested in you know what was

472

00:23:48,829 --> 00:23:45,059

going on here and wrote up a report for

473

00:23:53,509 --> 00:23:48,839

him but I found a lot of similarities in

474

00:23:55,520 --> 00:23:53,519

the sights that mutilations were taking

475

00:23:57,890 --> 00:23:55,530

place you know

476  
00:24:00,110 --> 00:23:57,900  
sometimes you know more often near a

477  
00:24:03,740 --> 00:24:00,120  
military installation although they're

478  
00:24:09,620 --> 00:24:03,750  
all over the place the location the

479  
00:24:13,130 --> 00:24:09,630  
ground surface that no chalky and Flint

480  
00:24:16,600 --> 00:24:13,140  
and so there were lots of correlations

481  
00:24:21,770 --> 00:24:16,610  
and all that in Diary of an abduction

482  
00:24:23,600 --> 00:24:21,780  
well we need a particular project and I

483  
00:24:33,170 --> 00:24:23,610  
hope it's okay if I ask you about it

484  
00:24:36,620 --> 00:24:33,180  
it's has to do with a female pilot are

485  
00:24:39,590 --> 00:24:36,630  
you free to discuss that one Angela the

486  
00:24:46,760 --> 00:24:39,600  
female pilot I'm not sure and give me a

487  
00:24:54,400 --> 00:24:46,770  
little bit more yes see there was a it

488  
00:24:57,880 --> 00:24:54,410

was around wartime and she let's see I

489

00:25:00,110 --> 00:24:57,890

don't know I I believe there was some

490

00:25:01,690 --> 00:25:00,120

something and I could be wrong that it

491

00:25:04,970 --> 00:25:01,700

came out on the History Channel

492

00:25:10,910 --> 00:25:04,980

something that validated a previous

493

00:25:18,440 --> 00:25:10,920

remote view that you had tasked yourself

494

00:25:20,270 --> 00:25:18,450

to do but I don't know I need to go back

495

00:25:22,940 --> 00:25:20,280

and remind myself that there's so many

496

00:25:27,230 --> 00:25:22,950

cases right right but I was fascinated

497

00:25:31,580 --> 00:25:27,240

with your validation yes there is there

498

00:25:33,980 --> 00:25:31,590

may be a product yes yes yeah oh it's of

499

00:25:35,990 --> 00:25:33,990

course and I can I talk a little bit

500

00:25:38,060 --> 00:25:36,000

about that absolutely they are that's

501  
00:25:40,040 --> 00:25:38,070  
exactly that's my daughter that's my

502  
00:25:42,530 --> 00:25:40,050  
daughter's name so I you can talk about

503  
00:25:44,300 --> 00:25:42,540  
it very hard yeah it's a very

504  
00:25:44,810 --> 00:25:44,310  
interesting case it's a very interesting

505  
00:25:48,080 --> 00:25:44,820  
case

506  
00:25:50,020 --> 00:25:48,090  
yeah well I was tasked by on two

507  
00:25:53,810 --> 00:25:50,030  
different occasions by two different

508  
00:25:56,900 --> 00:25:53,820  
professionals on what happened to Amelia

509  
00:26:00,080 --> 00:25:56,910  
where did she end up and what about her

510  
00:26:06,770 --> 00:26:00,090  
copilot Fred Noonan and their plane the

511  
00:26:09,390 --> 00:26:06,780  
Electra big mystery there and the first

512  
00:26:12,720 --> 00:26:09,400  
remote viewing I did I saw them

513  
00:26:14,190 --> 00:26:12,730

landing on an atoll and because not

514

00:26:19,049 --> 00:26:14,200

because they ran out of fuel but they

515

00:26:22,020 --> 00:26:19,059

needed a better communication point for

516

00:26:25,770 --> 00:26:22,030

their radio and and then they were

517

00:26:29,130 --> 00:26:25,780

picked up by the Japanese and taken by a

518

00:26:32,580 --> 00:26:29,140

small boat out to a larger belt and then

519

00:26:35,610 --> 00:26:32,590

taken to another larger Island where

520

00:26:38,120 --> 00:26:35,620

they were in prison and at the time I

521

00:26:41,480 --> 00:26:38,130

was told no that's complete nonsense

522

00:26:44,640 --> 00:26:41,490

that's not true it can't be true

523

00:26:47,640 --> 00:26:44,650

so it was put on hold for a while and

524

00:26:50,510 --> 00:26:47,650

then when I was tasked again I gave I

525

00:26:53,610 --> 00:26:50,520

found the same information and I gave

526

00:26:55,650 --> 00:26:53,620

another group that I worked with the

527

00:26:59,120 --> 00:26:55,660

Nevada remote viewing group the same

528

00:27:03,299 --> 00:26:59,130

project and they found similar and more

529

00:27:06,450 --> 00:27:03,309

information which I presented it one of

530

00:27:09,060 --> 00:27:06,460

our r.v conferences and again people

531

00:27:12,270 --> 00:27:09,070

were saying no that can't be can't be

532

00:27:15,750 --> 00:27:12,280

true because the even though the

533

00:27:18,630 --> 00:27:15,760

Japanese were in the area it was thought

534

00:27:22,230 --> 00:27:18,640

that her plane Amelia's plane had gone

535

00:27:27,210 --> 00:27:22,240

down and sunk and Amelia and thread had

536

00:27:30,930 --> 00:27:27,220

done so recently in a History Channel

537

00:27:33,630 --> 00:27:30,940

documentary a group went out they first

538

00:27:36,150 --> 00:27:33,640

of all they went to the archives the

539

00:27:40,320 --> 00:27:36,160

National Archives in Washington DC and

540

00:27:43,290 --> 00:27:40,330

found documentation that amelia was a

541

00:27:45,270 --> 00:27:43,300

prisoner she was a prisoner on Saipan

542

00:27:48,870 --> 00:27:45,280

Island she was a prisoner of the

543

00:27:52,350 --> 00:27:48,880

Japanese and they're actually still

544

00:27:55,049 --> 00:27:52,360

looking for the or remains of the claim

545

00:27:59,460 --> 00:27:55,059

and they thought was that she had died

546

00:28:02,580 --> 00:27:59,470

there on Saipan so and there was so much

547

00:28:04,980 --> 00:28:02,590

in the documentary that validated all of

548

00:28:09,750 --> 00:28:04,990

our remote viewing data that it was very

549

00:28:14,760 --> 00:28:09,760

gratifying mm-hmm I I think that's such

550

00:28:16,290 --> 00:28:14,770

an amazing case just such an amazing was

551

00:28:18,570 --> 00:28:16,300

telling you that you were wrong you

552

00:28:20,049 --> 00:28:18,580

stuck to your guns and ended up being

553

00:28:25,359 --> 00:28:20,059

right and

554

00:28:28,719 --> 00:28:25,369

yeah really meat yes I don't mind being

555

00:28:31,629 --> 00:28:28,729

right if I'm wrong I'm wrong but I felt

556

00:28:36,700 --> 00:28:31,639

strongly about the data and just kept it

557

00:28:37,359 --> 00:28:36,710

you know until we got feedback it's

558

00:28:39,580 --> 00:28:37,369

fascinating

559

00:28:43,209 --> 00:28:39,590

I've wanted to also ask you Angela about

560

00:28:47,619 --> 00:28:43,219

a couple of kind of more mainstream I

561

00:28:51,159 --> 00:28:47,629

guess topics kind of sort of having to

562

00:28:54,009 --> 00:28:51,169

do with more fringe like topics such as

563

00:28:56,320 --> 00:28:54,019

the social and political impact of like

564

00:28:57,609 --> 00:28:56,330

the to the stars Academy and and the

565

00:29:00,310 --> 00:28:57,619

work that they're doing and what you

566

00:29:03,940 --> 00:29:00,320

what what you know and about that or

567

00:29:06,099 --> 00:29:03,950

what you think about that well I know as

568

00:29:08,829 --> 00:29:06,109

much as the average person except I know

569

00:29:13,979 --> 00:29:08,839

some of the folks who are in it such as

570

00:29:16,810 --> 00:29:13,989

alpha dog and I've been following along

571

00:29:20,969 --> 00:29:16,820

hoping you know that this is and having

572

00:29:23,879 --> 00:29:20,979

high expectations of the of the project

573

00:29:27,789 --> 00:29:23,889

how cut off was one of the main

574

00:29:29,200 --> 00:29:27,799

characters in this new venture I've

575

00:29:31,419 --> 00:29:29,210

known him since

576

00:29:35,409 --> 00:29:31,429

Princeton days when I was working there

577

00:29:37,959 --> 00:29:35,419

which was in the late 1980s and I

578

00:29:42,129 --> 00:29:37,969

consider him one of the most trustworthy

579

00:29:43,409 --> 00:29:42,139

and honest people that I've ever come

580

00:29:46,089 --> 00:29:43,419

across

581

00:29:48,700 --> 00:29:46,099

he still he's in his eighties now he's

582

00:29:52,659 --> 00:29:48,710

still working full time in fact we had a

583

00:29:54,879 --> 00:29:52,669

video podcast with em when I was up in

584

00:29:58,299 --> 00:29:54,889

Sidious Cedar City he always talks to

585

00:30:01,529 --> 00:29:58,309

the students over Skype and so it was

586

00:30:04,269 --> 00:30:01,539

really nice to be in touch with him so I

587

00:30:07,389 --> 00:30:04,279

don't know many of the other characters

588

00:30:10,749 --> 00:30:07,399

that are involved but because how is

589

00:30:17,289 --> 00:30:10,759

involved I I feel that gives it some

590

00:30:18,039 --> 00:30:17,299

validation mm-hmm yeah that I can I can

591

00:30:23,849 --> 00:30:18,049

agree with you there

592

00:30:26,829 --> 00:30:23,859

no no question that he is he is no joke

593

00:30:29,019 --> 00:30:26,839

another topic that I wanted to ask you

594

00:30:30,969 --> 00:30:29,029

about is kind of close to home not

595

00:30:33,300 --> 00:30:30,979

really it's kind of our backyard I guess

596

00:30:35,190 --> 00:30:33,310

Angela the yeah

597

00:30:38,190 --> 00:30:35,200

Lincoln County here is planning an

598

00:30:42,030 --> 00:30:38,200

emergency declaration about this storm

599

00:30:45,330 --> 00:30:42,040

area 51 event and I just want to get

600

00:30:46,980 --> 00:30:45,340

your opinion of this wild event and I

601  
00:30:51,390 --> 00:30:46,990  
just can't believe how much steam it's

602  
00:30:54,870 --> 00:30:51,400  
gathered I know I've been following it

603  
00:30:57,300 --> 00:30:54,880  
and how it just started off as a joke

604  
00:30:59,550 --> 00:30:57,310  
actually a young young man making a joke

605  
00:31:04,890 --> 00:30:59,560  
on one of these groups and it gained

606  
00:31:09,840 --> 00:31:04,900  
momentum and I am hoping they'll turn it

607  
00:31:12,090 --> 00:31:09,850  
into a positive effort and I think there

608  
00:31:15,060 --> 00:31:12,100  
will be a lot of people going up there I

609  
00:31:16,460 --> 00:31:15,070  
hope they don't try and storm area 51

610  
00:31:22,700 --> 00:31:16,470  
because they're going to be some

611  
00:31:27,900 --> 00:31:22,710  
injuries I don't you know they are well

612  
00:31:31,220 --> 00:31:27,910  
well protected and as evidenced by the

613  
00:31:35,250 --> 00:31:31,230

signposts that are out there and the

614

00:31:38,670 --> 00:31:35,260

security but I think it draws attention

615

00:31:41,000 --> 00:31:38,680

to the point that there is so much

616

00:31:45,330 --> 00:31:41,010

secrecy and perhaps a lot of unnecessary

617

00:31:49,860 --> 00:31:45,340

secrecy and there could be a greater

618

00:31:52,050 --> 00:31:49,870

amount of disclosure and then efforts

619

00:31:54,540 --> 00:31:52,060

like this wouldn't be necessary because

620

00:31:57,600 --> 00:31:54,550

it would be I know not everything has to

621

00:32:00,600 --> 00:31:57,610

be disclosed but it's time I think that

622

00:32:04,230 --> 00:32:00,610

there's what there is a more measured

623

00:32:06,960 --> 00:32:04,240

disclosure to the public so that people

624

00:32:12,570 --> 00:32:06,970

don't know they have to storm area 51 to

625

00:32:17,630 --> 00:32:12,580

get information that's right and you're

626

00:32:22,740 --> 00:32:17,640

you're absolutely right I think Jeremy

627

00:32:25,650 --> 00:32:22,750

Korbel is actually doing some important

628

00:32:27,990 --> 00:32:25,660

and pretty timely stuff involving this

629

00:32:31,740 --> 00:32:28,000

storm area 51 movement and he's

630

00:32:36,780 --> 00:32:31,750

basically trying to on the lowdown he's

631

00:32:42,360 --> 00:32:36,790

just trying to steer them clear of any

632

00:32:45,290 --> 00:32:42,370

sort of that happening and he's I think

633

00:32:47,210 --> 00:32:45,300

doing a very very noble thing and

634

00:32:50,869 --> 00:32:47,220

turning it into

635

00:32:55,229 --> 00:32:50,879

kind of a get-together more off-site

636

00:32:58,710 --> 00:32:55,239

where he's going to have bob lazar and

637

00:33:02,340 --> 00:32:58,720

show his area 51 in flying saucers movie

638

00:33:06,149 --> 00:33:02,350

and yeah I you know that I see that as

639

00:33:09,539 --> 00:33:06,159

more positive and I think kudos to him

640

00:33:10,919 --> 00:33:09,549

for that yes I've heard that that

641

00:33:14,479 --> 00:33:10,929

they're going to make it into almost

642

00:33:18,840 --> 00:33:14,489

like a Woodstock kind of event right

643

00:33:22,799 --> 00:33:18,850

yeah yeah because I hope yes no yes

644

00:33:24,629 --> 00:33:22,809

please go ahead I'm what I'm hoping and

645

00:33:26,669 --> 00:33:24,639

what I hope they plan during that

646

00:33:29,399 --> 00:33:26,679

weekend is that they shut all the

647

00:33:32,279 --> 00:33:29,409

programs down at area 51 send all the

648

00:33:36,539 --> 00:33:32,289

personnel home double up on security and

649

00:33:38,909 --> 00:33:36,549

right out the storm in it yeah it's

650

00:33:41,840 --> 00:33:38,919

gonna cost a lot of taxpayer money

651  
00:33:45,659 --> 00:33:41,850  
unfortunately yeah yeah unfortunately

652  
00:33:48,269 --> 00:33:45,669  
but things like this happen and you have

653  
00:33:53,310 --> 00:33:48,279  
to deal with them in the most positive

654  
00:33:55,499 --> 00:33:53,320  
way possible that's the truth it's it's

655  
00:33:57,659 --> 00:33:55,509  
very neat i think george knapp is also

656  
00:34:02,039 --> 00:33:57,669  
going to be there and if i'm not

657  
00:34:05,999 --> 00:34:02,049  
mistaken and okay yeah yeah very

658  
00:34:07,950 --> 00:34:06,009  
positive and memorable event as long as

659  
00:34:09,629 --> 00:34:07,960  
some foolhardy people don't get hurt

660  
00:34:14,220 --> 00:34:09,639  
that's what I'm worried about

661  
00:34:19,230 --> 00:34:14,230  
yep exactly I guess another thing I

662  
00:34:22,879 --> 00:34:19,240  
wanted to ask you about is is there the

663  
00:34:25,730 --> 00:34:22,889

the unexplained is is it going to be a

664

00:34:28,440 --> 00:34:25,740

you said Friday it's coming up Friday

665

00:34:32,280 --> 00:34:28,450

yeah it's airing Friday what was the

666

00:34:34,799 --> 00:34:32,290

channel again History Channel just

667

00:34:38,879 --> 00:34:34,809

recalled the unexplained mysteries of

668

00:34:43,829 --> 00:34:38,889

the nine mysteries of the mind that is

669

00:34:46,409 --> 00:34:43,839

great I wanted to ask you you this is I

670

00:34:48,000 --> 00:34:46,419

this is more personal stuff than saw he

671

00:34:51,359 --> 00:34:48,010

wrote not okay with it I completely

672

00:34:53,879 --> 00:34:51,369

understand but you are someone who knew

673

00:34:59,660 --> 00:34:53,889

Ingo Swann in a way that most people

674

00:35:00,870 --> 00:34:59,670

will never have the opportunity and yeah

675

00:35:03,180 --> 00:35:00,880

what could

676  
00:35:08,749 --> 00:35:03,190  
you tell us about you know ingo because

677  
00:35:12,990 --> 00:35:08,759  
it's just he's such a legendary figure

678  
00:35:14,940 --> 00:35:13,000  
yeah yeah um he's termed the father's

679  
00:35:17,660 --> 00:35:14,950  
remote-viewing but actually he didn't

680  
00:35:20,880 --> 00:35:17,670  
like that title he's passed away now

681  
00:35:24,779 --> 00:35:20,890  
that he read just when I asked him one

682  
00:35:26,460 --> 00:35:24,789  
time he said no I was just the right

683  
00:35:31,710 --> 00:35:26,470  
person in the right place at the right

684  
00:35:35,029 --> 00:35:31,720  
time and I got to know him because when

685  
00:35:37,769 --> 00:35:35,039  
I was writing remote perceptions I

686  
00:35:40,440 --> 00:35:37,779  
thought hey you know he's in Manhattan

687  
00:35:43,589 --> 00:35:40,450  
I'm in New Jersey I wonder if he would

688  
00:35:46,740 --> 00:35:43,599

write the foreword for my book so I sent

689

00:35:49,410 --> 00:35:46,750

him a preview and which he read and he

690

00:35:51,329 --> 00:35:49,420

liked and he said yeah sure why don't

691

00:35:54,349 --> 00:35:51,339

you come up to Manhattan where I dinner

692

00:35:56,309 --> 00:35:54,359

and we can talk about the book and

693

00:35:58,349 --> 00:35:56,319

because he wanted to meet me in person

694

00:36:02,730 --> 00:35:58,359

to make sure I wasn't some crazy person

695

00:36:05,999 --> 00:36:02,740

tonight and which I did and after that

696

00:36:09,299 --> 00:36:06,009

we had a friend an on-and-off friendship

697

00:36:11,700 --> 00:36:09,309

that if I was in New Jersey or Manhattan

698

00:36:14,339 --> 00:36:11,710

I could call him up and say hey and go

699

00:36:17,130 --> 00:36:14,349

can I come over and visit you'd say sure

700

00:36:21,180 --> 00:36:17,140

one over he lived in the Bowery at the

701  
00:36:25,079 --> 00:36:21,190  
time in Manhattan and I would go over

702  
00:36:26,910 --> 00:36:25,089  
and he would pull out Tom picture target

703  
00:36:28,980 --> 00:36:26,920  
sessions as he had done with that

704  
00:36:31,799 --> 00:36:28,990  
student some of the military guys

705  
00:36:36,180 --> 00:36:31,809  
nothing classified he'd pull out his

706  
00:36:40,380 --> 00:36:36,190  
books his theories his sketches models

707  
00:36:44,099 --> 00:36:40,390  
and he would say I thought I I thought

708  
00:36:47,970 --> 00:36:44,109  
you might like to see this yeah so I had

709  
00:36:50,160 --> 00:36:47,980  
almost an unofficial not a training as

710  
00:36:52,319 --> 00:36:50,170  
such but definitely an introduction to

711  
00:36:57,359 --> 00:36:52,329  
remote viewing even before I did my

712  
00:37:03,329 --> 00:36:57,369  
training with both men wow that is such

713  
00:37:06,120 --> 00:37:03,339

a neat experience - yeah and he was a

714

00:37:10,140 --> 00:37:06,130

bit bit of a curmudgeon mm-hmm you know

715

00:37:13,589 --> 00:37:10,150

didn't suffer fools gladly but I got on

716

00:37:14,339 --> 00:37:13,599

really well with them that is just so

717

00:37:17,759 --> 00:37:14,349

neat

718

00:37:18,329 --> 00:37:17,769

I wanted to ask you also about all of

719

00:37:21,809 --> 00:37:18,339

this

720

00:37:26,249 --> 00:37:21,819

I guess alien disclosure in the media

721

00:37:30,299 --> 00:37:26,259

that we see lately everything from you

722

00:37:33,660 --> 00:37:30,309

know a tip the to the starts Academy to

723

00:37:35,969 --> 00:37:33,670

just in general our television stations

724

00:37:38,880 --> 00:37:35,979

and you know the History Channel the

725

00:37:43,559 --> 00:37:38,890

ancient aliens the it seems every

726  
00:37:46,289 --> 00:37:43,569  
channel has at least one and what what

727  
00:37:49,079 --> 00:37:46,299  
are your thoughts on this is alien

728  
00:37:52,650 --> 00:37:49,089  
disclosure eminent or is this something

729  
00:37:55,650 --> 00:37:52,660  
else we're seeing what two things

730  
00:37:57,779 --> 00:37:55,660  
actually one is that out of all of that

731  
00:38:01,039 --> 00:37:57,789  
material there are always nuggets of

732  
00:38:04,620 --> 00:38:01,049  
truth and you just have to be

733  
00:38:07,829 --> 00:38:04,630  
discriminating and sift it through the

734  
00:38:10,439 --> 00:38:07,839  
reality hopper and see what falls out

735  
00:38:15,979 --> 00:38:10,449  
because there is a lot of fluff as well

736  
00:38:19,469 --> 00:38:15,989  
that goes on and a lot of not actually

737  
00:38:22,170 --> 00:38:19,479  
made up but as I'm sure a lot of people

738  
00:38:25,620 --> 00:38:22,180

really believe what they're saying but

739

00:38:28,039 --> 00:38:25,630

it's not always 100% accurate but

740

00:38:30,299 --> 00:38:28,049

there's nuggets of truth in there and

741

00:38:34,349 --> 00:38:30,309

what I like to do is to gather up the

742

00:38:35,059 --> 00:38:34,359

nuggets of truth and she see what passes

743

00:38:38,309 --> 00:38:35,069

the test

744

00:38:41,189 --> 00:38:38,319

now my co-author I wrote another book

745

00:38:45,420 --> 00:38:41,199

for voices from the cosmos and my toe

746

00:38:48,059 --> 00:38:45,430

officer C B Scott Jones he's been in

747

00:38:50,549 --> 00:38:48,069

this field for he's in his nineties now

748

00:38:53,039 --> 00:38:50,559

so he was in this field for about fifty

749

00:38:58,229 --> 00:38:53,049

or sixty years behind the scenes he's

750

00:39:00,839 --> 00:38:58,239

not a well-known name that he said we

751

00:39:03,410 --> 00:39:00,849

don't need disclosure because disclosure

752

00:39:07,170 --> 00:39:03,420

has already happened what we need now is

753

00:39:10,650 --> 00:39:07,180

confirmation of disclosure so I thought

754

00:39:15,199 --> 00:39:10,660

that was an intriguing concept that is

755

00:39:21,479 --> 00:39:15,209

that's a very neat way to think of it

756

00:39:28,380 --> 00:39:21,489

yeah I also wanted to ask you about this

757

00:39:31,140 --> 00:39:28,390

I was fascinated and not not to give

758

00:39:33,599 --> 00:39:31,150

give out secrets about your courses or

759

00:39:36,929 --> 00:39:33,609

anything of that nature but I was

760

00:39:39,719 --> 00:39:36,939

fascinated at how accurate sometimes if

761

00:39:44,729 --> 00:39:39,729

you can just empty your mind some of

762

00:39:46,769 --> 00:39:44,739

this repetitive this tasking can what

763

00:39:51,539 --> 00:39:46,779

can take place when when you do it

764

00:39:57,059 --> 00:39:51,549

correctly and I remember that there were

765

00:39:57,809 --> 00:39:57,069

some targets that I didn't believe for a

766

00:40:04,469 --> 00:39:57,819

minute

767

00:40:11,189 --> 00:40:04,479

I could actually you know hone in on

768

00:40:17,069 --> 00:40:11,199

that and and I since since then I wish I

769

00:40:19,439 --> 00:40:17,079

wouldn't have doubted and of the targets

770

00:40:21,299 --> 00:40:19,449

that you've been tasked which can you

771

00:40:29,189 --> 00:40:21,309

speak of that you would say were the

772

00:40:32,339 --> 00:40:29,199

most rewarding or fascinating the major

773

00:40:34,819 --> 00:40:32,349

one was the one I'm going to be talking

774

00:40:40,650 --> 00:40:34,829

about the History Channel which was the

775

00:40:43,469 --> 00:40:40,660

Denver DJ murder case and I was tasked

776

00:40:48,120 --> 00:40:43,479

by a colleague who hadn't heard from a

777

00:40:50,459 --> 00:40:48,130

friend of his for over a month so I did

778

00:40:52,499 --> 00:40:50,469

my remote viewing just from a coordinate

779

00:40:56,099 --> 00:40:52,509

I didn't know it was his friend at first

780

00:40:58,469 --> 00:40:56,109

the only thing I got was like a serial

781

00:41:01,979 --> 00:40:58,479

number it's a case number it's called a

782

00:41:04,589 --> 00:41:01,989

coordinate and series of letters and

783

00:41:08,729 --> 00:41:04,599

numbers that is the address of the

784

00:41:12,509 --> 00:41:08,739

target which I sat down and did a remote

785

00:41:15,299 --> 00:41:12,519

viewing session God information sent it

786

00:41:16,829 --> 00:41:15,309

off to my colleague and he wrote back

787

00:41:19,469 --> 00:41:16,839

and said no this is a friend of mine

788

00:41:21,269 --> 00:41:19,479

he's missing for a month he can't

789

00:41:23,989 --> 00:41:21,279

possibly be in the water he can't

790

00:41:28,620 --> 00:41:23,999

possibly be dead

791

00:41:31,439 --> 00:41:28,630

etc etc so I said well look let me talk

792

00:41:33,620 --> 00:41:31,449

a few more of the Nevada remote viewing

793

00:41:36,390 --> 00:41:33,630

group that you have to remote viewers

794

00:41:38,309 --> 00:41:36,400

and see what they come back with and

795

00:41:40,620 --> 00:41:38,319

they came back with corroborating

796

00:41:43,980 --> 00:41:40,630

evidence that in

797

00:41:49,080 --> 00:41:43,990

there has been a murder and a lot of

798

00:41:52,170 --> 00:41:49,090

additional information when my colleague

799

00:41:54,390 --> 00:41:52,180

was out in LA they saw on TV about a

800

00:42:00,330 --> 00:41:54,400

body being dredged up off of Catalina

801  
00:42:02,700 --> 00:42:00,340  
Island and he said that's what the

802  
00:42:05,000 --> 00:42:02,710  
remote viewers have told us that must

803  
00:42:09,260 --> 00:42:05,010  
being I'm not going to mention names but

804  
00:42:13,560 --> 00:42:09,270  
that's my colleague and he called the

805  
00:42:16,350 --> 00:42:13,570  
the Lake coroner's office they suspected

806  
00:42:18,300 --> 00:42:16,360  
him at first but he got some people to

807  
00:42:21,540 --> 00:42:18,310  
vouch for him that he wasn't the

808  
00:42:26,670 --> 00:42:21,550  
murderer and then he was able to give

809  
00:42:29,940 --> 00:42:26,680  
them the identity of the Denver DJ which

810  
00:42:32,370 --> 00:42:29,950  
was you know very fortunate at the way

811  
00:42:36,840 --> 00:42:32,380  
see he would have been a John Doe for

812  
00:42:40,020 --> 00:42:36,850  
for a long time we were also tasked on

813  
00:42:43,380 --> 00:42:40,030

the murderer to give a profile of a

814

00:42:47,880 --> 00:42:43,390

remote wound profile of his after he was

815

00:42:51,780 --> 00:42:47,890

and then when the they felt that he had

816

00:42:54,540 --> 00:42:51,790

disappeared I was tasked with how to go

817

00:42:59,310 --> 00:42:54,550

and look at where where did he go

818

00:43:01,740 --> 00:42:59,320

so I saw a landmass that resembled I was

819

00:43:06,690 --> 00:43:01,750

told for toda Island which was where

820

00:43:09,180 --> 00:43:06,700

this murderer had offshore banking he

821

00:43:11,810 --> 00:43:09,190

was eventually caught partly through

822

00:43:15,360 --> 00:43:11,820

what we had said partly through just

823

00:43:18,030 --> 00:43:15,370

general people you know looking for him

824

00:43:21,540 --> 00:43:18,040

and finding him and he was sentenced

825

00:43:26,490 --> 00:43:21,550

he's now in prison and for many many

826

00:43:30,240 --> 00:43:26,500

years so that would for me was one of

827

00:43:32,780 --> 00:43:30,250

the clearest straightforward data after

828

00:43:36,120 --> 00:43:32,790

data after data that was correct and

829

00:43:39,330 --> 00:43:36,130

they actually helped solve the murder

830

00:43:43,140 --> 00:43:39,340

case and when it I just add this at the

831

00:43:46,350 --> 00:43:43,150

end the last [h\_\_h] son actually wrote

832

00:43:50,340 --> 00:43:46,360

out the case and came in interviewed me

833

00:43:53,960 --> 00:43:50,350

and then they got two of the LA

834

00:43:56,329 --> 00:43:53,970

Sheriff's to write little blurb

835

00:44:00,069 --> 00:43:56,339

they interviewed them about how remote

836

00:44:08,680 --> 00:44:05,960

amazing and yeah with remote viewing

837

00:44:11,420 --> 00:44:08,690

this happens occasionally that's a

838

00:44:13,420 --> 00:44:11,430

oftentimes you know this this this

839

00:44:15,559 --> 00:44:13,430

happens often times in in like

840

00:44:18,410 --> 00:44:15,569

missing-persons cases and things of that

841

00:44:20,059 --> 00:44:18,420

nature and then in other cases you know

842

00:44:22,250 --> 00:44:20,069

remote viewers will come up with things

843

00:44:26,000 --> 00:44:22,260

that sound outlandish like underground

844

00:44:28,160 --> 00:44:26,010

bases and people laugh and when you look

845

00:44:30,890 --> 00:44:28,170

into some of these things that you know

846

00:44:32,089 --> 00:44:30,900

some of these targets and just so our

847

00:44:34,849 --> 00:44:32,099

listeners understand some of these

848

00:44:39,650 --> 00:44:34,859

targets are very difficult targets

849

00:44:41,180 --> 00:44:39,660

because they're well they're they could

850

00:44:44,870 --> 00:44:41,190

even be protected by other remote

851  
00:44:49,059 --> 00:44:44,880  
viewers if if someone were to go that

852  
00:44:51,260 --> 00:44:49,069  
far and you know among those have you

853  
00:44:55,190 --> 00:44:51,270  
were there any targets that you ever

854  
00:44:59,450 --> 00:44:55,200  
found very difficult to access and or um

855  
00:45:02,089 --> 00:44:59,460  
I found that not usually um but there

856  
00:45:05,150 --> 00:45:02,099  
were a couple of cases a standout one of

857  
00:45:08,960 --> 00:45:05,160  
them was the as I mentioned I was passed

858  
00:45:12,410 --> 00:45:08,970  
after 9/11 by Navy friend and when I was

859  
00:45:15,230 --> 00:45:12,420  
doing that session there was the strong

860  
00:45:17,270 --> 00:45:15,240  
possibility that either other remote

861  
00:45:21,250 --> 00:45:17,280  
viewers or other people knowledgeable

862  
00:45:24,380 --> 00:45:21,260  
about the ability were perhaps

863  
00:45:27,050 --> 00:45:24,390

monitoring and because I was doing these

864

00:45:29,240 --> 00:45:27,060

solo and as I was going through my

865

00:45:32,750 --> 00:45:29,250

session I just think we heard a male

866

00:45:37,250 --> 00:45:32,760

voice say [h\_\_\h] which is a derogatory

867

00:45:38,900 --> 00:45:37,260

term for a feeble-minded person but I I

868

00:45:41,630 --> 00:45:38,910

wrote it down and I just said to the

869

00:45:44,750 --> 00:45:41,640

side and then it was a further down in

870

00:45:47,870 --> 00:45:44,760

the session there were other derogatory

871

00:45:51,200 --> 00:45:47,880

terms that came through now those aren't

872

00:45:54,260 --> 00:45:51,210

the kind of date of words that I

873

00:45:58,010 --> 00:45:54,270

normally use but and but they definitely

874

00:46:01,160 --> 00:45:58,020

came through in the session and they

875

00:46:03,859 --> 00:46:01,170

intruded so I assumed that there was

876  
00:46:05,569 --> 00:46:03,869  
some other as I was accessing what we

877  
00:46:07,620 --> 00:46:05,579  
call the signal line there were

878  
00:46:14,640 --> 00:46:07,630  
intrusions

879  
00:46:17,970 --> 00:46:14,650  
mm-hmm and those that that is so

880  
00:46:19,380 --> 00:46:17,980  
interesting because those are for some

881  
00:46:22,590 --> 00:46:19,390  
listeners that aren't aware those are

882  
00:46:25,680 --> 00:46:22,600  
those are sometimes protection systems

883  
00:46:27,900 --> 00:46:25,690  
or for restricted areas or for you know

884  
00:46:28,920 --> 00:46:27,910  
at least in theory I've heard people

885  
00:46:30,870 --> 00:46:28,930  
speak of

886  
00:46:34,050 --> 00:46:30,880  
oh it's difficult to Remote View for

887  
00:46:37,700 --> 00:46:34,060  
example the White House or area 51 or

888  
00:46:42,060 --> 00:46:37,710

things that make sense like that and

889

00:46:44,400 --> 00:46:42,070

yeah so it's it's sometimes I think it's

890

00:46:49,320 --> 00:46:44,410

possible but I think anything can be

891

00:46:51,240 --> 00:46:49,330

remote viewed by a remote viewer with a

892

00:46:54,540 --> 00:46:51,250

good natural ability who's been well

893

00:46:58,580 --> 00:46:54,550

trained and practiced that they find it

894

00:47:02,670 --> 00:46:58,590

easier to get access to those locations

895

00:47:09,690 --> 00:47:02,680

mm-hmm and I wanted to ask you a little

896

00:47:12,540 --> 00:47:09,700

bit about the if you know and we a thing

897

00:47:14,610 --> 00:47:12,550

of kind of interest lately among some

898

00:47:19,550 --> 00:47:14,620

people in the remote viewing community

899

00:47:24,630 --> 00:47:19,560

is how much the Soviets and then now

900

00:47:27,060 --> 00:47:24,640

those who are remote viewing for other

901  
00:47:28,920 --> 00:47:27,070  
purposes and that it's it's taken a lot

902  
00:47:32,400 --> 00:47:28,930  
more seriously in other parts of the

903  
00:47:34,800 --> 00:47:32,410  
world for whatever reason than it is in

904  
00:47:36,390 --> 00:47:34,810  
the United States do you know any

905  
00:47:40,730 --> 00:47:36,400  
information about that or why it might

906  
00:47:47,240 --> 00:47:43,680  
absolutely in Russia right from the very

907  
00:47:50,340 --> 00:47:47,250  
beginning even though the Americans

908  
00:47:55,530 --> 00:47:50,350  
American authorities were very skeptical

909  
00:47:58,050 --> 00:47:55,540  
about remote viewing the Russians have

910  
00:48:02,610 --> 00:47:58,060  
treated it all along as a very viable

911  
00:48:06,030 --> 00:48:02,620  
skill a very useful skill to train in

912  
00:48:09,120 --> 00:48:06,040  
and develop and in fact I was very

913  
00:48:12,450 --> 00:48:09,130

fortunate to go I went over to Moscow at

914

00:48:14,370 --> 00:48:12,460

the turret you know around the 1990s for

915

00:48:16,500 --> 00:48:14,380

a conference and then I met a lot of

916

00:48:19,920 --> 00:48:16,510

thing people who were in the remote

917

00:48:20,730 --> 00:48:19,930

viewing field over there most of for two

918

00:48:23,550 --> 00:48:20,740

weeks

919

00:48:28,770 --> 00:48:23,560

and I've written about it it's all in my

920

00:48:31,080 --> 00:48:28,780

book that yeah it was it's the it's the

921

00:48:35,700 --> 00:48:31,090

attitude towards the topic that's

922

00:48:38,280 --> 00:48:35,710

different whereas here in the state is

923

00:48:42,990 --> 00:48:38,290

still considered a pseudoscience it's

924

00:48:45,810 --> 00:48:43,000

considered a you know a suspect science

925

00:48:48,020 --> 00:48:45,820

is not scientific at all well as it's

926

00:48:50,180 --> 00:48:48,030

had 14 years of research and development

927

00:48:53,609 --> 00:48:50,190

from Stanford Research Institute

928

00:48:56,250 --> 00:48:53,619

Princeton University a military worked

929

00:48:58,530 --> 00:48:56,260

with it for twenty years and you can't

930

00:49:03,180 --> 00:48:58,540

call something to a pseudoscience that

931

00:49:06,240 --> 00:49:03,190

has that pedigree correct and other

932

00:49:09,960 --> 00:49:06,250

countries I'm in there uh-huh sorry oh

933

00:49:12,990 --> 00:49:09,970

no please go ahead Americans are now

934

00:49:15,150 --> 00:49:13,000

training Russian there are Russians

935

00:49:17,760 --> 00:49:15,160

coming over young folk who wants to

936

00:49:19,920 --> 00:49:17,770

learn remote viewing and Paul Smith and

937

00:49:22,170 --> 00:49:19,930

other trainers are now training Russians

938

00:49:23,510 --> 00:49:22,180

which is interested that's very

939

00:49:30,420 --> 00:49:23,520

interesting

940

00:49:34,050 --> 00:49:30,430

Wow it's it's neat how yeah it adds to

941

00:49:37,950 --> 00:49:34,060

the validity of it's it's something I

942

00:49:40,380 --> 00:49:37,960

believe in I interacted up close in

943

00:49:43,500 --> 00:49:40,390

person will personally thanks to you and

944

00:49:49,370 --> 00:49:43,510

and it affected me very deeply and and

945

00:49:54,000 --> 00:49:49,380

just the ability of one's mind really

946

00:49:56,940 --> 00:49:54,010

yeah yeah well you saw firsthand how it

947

00:50:02,099 --> 00:49:56,950

worked we you came into a weekend class

948

00:50:04,050 --> 00:50:02,109

and required with a small team and it's

949

00:50:09,090 --> 00:50:04,060

all for yourself and prove to yourself

950

00:50:13,320 --> 00:50:09,100

that mm-hmm

951  
00:50:14,880 --> 00:50:13,330  
it is and it's I almost want to say

952  
00:50:16,560 --> 00:50:14,890  
whether you believe it or not but it's

953  
00:50:19,800 --> 00:50:16,570  
almost better if you don't believe it

954  
00:50:22,109 --> 00:50:19,810  
because yeah chances are your mind could

955  
00:50:24,780 --> 00:50:22,119  
be clearer and more empty without any of

956  
00:50:29,010 --> 00:50:24,790  
that you know yeah messing up the signal

957  
00:50:30,870 --> 00:50:29,020  
line well I I know that you've got a lot

958  
00:50:33,270 --> 00:50:30,880  
going on Angela I really wanted to thank

959  
00:50:34,330 --> 00:50:33,280  
you for coming on and and speaking with

960  
00:50:36,100 --> 00:50:34,340  
us about

961  
00:50:38,220 --> 00:50:36,110  
you know these things that are just so

962  
00:50:40,870 --> 00:50:38,230  
fascinating and how intriguing and

963  
00:50:43,150 --> 00:50:40,880

in-depth you're you're involved can you

964

00:50:45,550 --> 00:50:43,160

tell us more about any upcoming projects

965

00:50:48,690 --> 00:50:45,560

where people can purchase your books

966

00:50:51,880 --> 00:50:48,700

things of that nature

967

00:50:54,760 --> 00:50:51,890

yeah where you can purchase my books on

968

00:50:59,370 --> 00:50:54,770

Amazon under Angela Thompson Smith

969

00:51:02,830 --> 00:50:59,380

Thompson with Abby and I am gradually

970

00:51:05,350 --> 00:51:02,840

republishing all my books because my

971

00:51:08,040 --> 00:51:05,360

publisher kind of dropped the ball back

972

00:51:11,050 --> 00:51:08,050

in spring and I had to learn all the

973

00:51:14,200 --> 00:51:11,060

software programs to get everything back

974

00:51:16,390 --> 00:51:14,210

up again which I'm almost done so though

975

00:51:17,950 --> 00:51:16,400

everything is up now with new covers and

976  
00:51:22,840 --> 00:51:17,960  
some actually some have new information

977  
00:51:26,530 --> 00:51:22,850  
in them projects I'm going to be down in

978  
00:51:30,670 --> 00:51:26,540  
Laughlin in November for poor O'Hara or

979  
00:51:35,170 --> 00:51:30,680  
the Harrises conference UFO and remote

980  
00:51:38,830 --> 00:51:35,180  
viewing conference I don't know very bad

981  
00:51:41,970 --> 00:51:38,840  
it's on it's online you go to Paula

982  
00:51:44,440 --> 00:51:41,980  
Harrison not lost in UFO conference I

983  
00:51:47,110 --> 00:51:44,450  
don't have the information offhand right

984  
00:51:48,940 --> 00:51:47,120  
now but it's time I'm going to be there

985  
00:51:49,510 --> 00:51:48,950  
and I think reference card is going to

986  
00:51:53,080 --> 00:51:49,520  
be there

987  
00:51:57,360 --> 00:51:53,090  
Russ remote viewing I'm going to be

988  
00:52:03,010 --> 00:51:57,370

talking giving a talk on remote viewing

989

00:52:05,680 --> 00:52:03,020

the military and Industry so I think it

990

00:52:08,140 --> 00:52:05,690

will I've got a lot of material so it's

991

00:52:10,510 --> 00:52:08,150

the show so that sort of the next big

992

00:52:12,520 --> 00:52:10,520

conference coming up in November at the

993

00:52:15,610 --> 00:52:12,530

beginning of their benefit that's when I

994

00:52:17,440 --> 00:52:15,620

definitely will not miss well thank you

995

00:52:19,570 --> 00:52:17,450

996

00:52:22,510 --> 00:52:19,580

all you do it's rigorous how much you

1004  
00:52:44,080 --> 00:52:42,140  
put into this area and it's a

1005  
00:52:45,940 --> 00:52:44,090  
challenging area so thank you so much

1006  
00:52:46,910 --> 00:52:45,950

1013  
00:53:04,670 --> 00:53:02,700

what on this planet as many years as

1014

00:53:08,720 --> 00:53:04,680

I've been here which isn't that many you

1015

00:53:12,440 --> 00:53:08,730

know it's 44 I guess it's a lucky number

1016

00:53:16,700 --> 00:53:12,450

but it's you know hard to come across

1017

00:53:19,789 --> 00:53:16,710

people of that quality caliber and just

1018

00:53:22,549 --> 00:53:19,799

genu genuine good people

1019

00:53:26,870 --> 00:53:22,559

Angela Thompson Smith is one of the

1020

00:53:28,849 --> 00:53:26,880

kindest most amazing Souls I've come

1021

00:53:31,160 --> 00:53:28,859

across and I know I'm not the only one

1022

00:53:33,859 --> 00:53:31,170

that says that she is something special

1023

00:53:37,130 --> 00:53:33,869

and she's something special to a lot of

1024

00:53:40,339 --> 00:53:37,140

organizations a lot of individuals and

1025

00:53:42,319 --> 00:53:40,349

historically she has given back to every

1026  
00:53:44,510 --> 00:53:42,329  
community and institution that she's

1027  
00:53:44,960 --> 00:53:44,520  
been a part of and so please support her

1028  
00:53:48,559 --> 00:53:44,970

1029

into remote viewing you realize that the

1042

00:54:26,829 --> 00:54:23,069

minds eye is a lot more powerful vehicle

1043

00:54:29,839 --> 00:54:26,839

than generally accepted by science and

1044

00:54:32,569 --> 00:54:29,849

content that you can download and with

1064

00:55:18,460 --> 00:55:16,430

pod beam you can like hop on a plane

1065

00:55:21,700 --> 00:55:18,470

it's there boom just like iTunes which

1066

00:55:23,349 --> 00:55:21,710

we're getting on soon and just do the

1067

00:55:25,599 --> 00:55:23,359

same at Harrow paranormal comm go to

1068

00:55:28,329 --> 00:55:25,609

space wolf research comm and see where

1069

00:55:32,560 --> 00:55:28,339

we are doing our research just there

1070

00:55:35,230 --> 00:55:32,570

right next to a hotspot unlike any other

1071

00:55:38,170 --> 00:55:35,240

hotspot which if people haven't heard

1072

00:55:40,120 --> 00:55:38,180

about it they will soon enough support

1073

00:55:42,130 --> 00:55:40,130

us in any way shape or form that you can

1074

00:55:44,349 --> 00:55:42,140

and maybe get some cool swag in the

1075

00:55:46,300 --> 00:55:44,359

meantime and you can wear it sport it

1076  
00:55:47,890 --> 00:55:46,310  
and you know what be the coolest guy on

1077  
00:55:50,230 --> 00:55:47,900  
the block because you're into something

1078  
00:55:54,099 --> 00:55:50,240  
other people just have not opened up to

1079  
00:55:56,710 --> 00:55:54,109  
yet and speaking of that on our next

1080  
00:56:00,339 --> 00:55:56,720  
hero paranormal podcast we are going to

1081  
00:56:01,990 --> 00:56:00,349  
hopefully have there's no hopefully it's

1082  
00:56:04,480 --> 00:56:02,000  
happening we're gonna have the most

1083  
00:56:06,790 --> 00:56:04,490  
amazing researcher that I know of who is

1084  
00:56:10,329 --> 00:56:06,800  
the first of the first on property at

1085  
00:56:12,700 --> 00:56:10,339  
the old Sherman ranch the property

1086  
00:56:19,930 --> 00:56:12,710  
adjacent to our own space wolf research

1087  
00:56:21,310 --> 00:56:19,940  
only yards away and by yards yeah

1088  
00:56:24,099 --> 00:56:21,320

there's a few and that's a good thing

1089

00:56:26,470 --> 00:56:24,109

because the area in between is more or

1090

00:56:28,180 --> 00:56:26,480

less the area where all things have

1091

00:56:30,480 --> 00:56:28,190

retreated to or come out of that have

1092

00:56:33,130 --> 00:56:30,490

been considered either dangerous

1093

00:56:36,220 --> 00:56:33,140

paranormal abnormal or from a

1094

00:56:41,440 --> 00:56:36,230

cryptozoological sense something to be

1095

00:56:43,970 --> 00:56:41,450

ascertained and reported so lights in

1096

00:56:45,570 --> 00:56:43,980

the sky everywhere bridges everywhere

1097

00:56:47,740 --> 00:56:45,580

[Music]

1098

00:56:49,870 --> 00:56:47,750

there's so much anyway

1099

00:56:52,030 --> 00:56:49,880

to get back on topic that's where we're

1100

00:56:54,700 --> 00:56:52,040

doing the podcast we're gonna have mr.

1101  
00:56:56,740 --> 00:56:54,710  
Ryan Layton first researcher in the area

1102  
00:56:59,050 --> 00:56:56,750  
to spend time overnight talking to Terry

1103  
00:57:00,940 --> 00:56:59,060  
Sherman having a barbecue pop in a

1104  
00:57:01,660 --> 00:57:00,950  
couple of brewskis checking out the

1105  
00:57:03,819 --> 00:57:01,670  
property and go

1106  
00:57:07,630 --> 00:57:03,829  
on the magical mystery tour we're going

1107  
00:57:10,059 --> 00:57:07,640  
to have him and more right on site just

1108  
00:57:13,480 --> 00:57:10,069  
in the middle of the night when you'd

1109  
00:57:17,230 --> 00:57:13,490  
expect it to be right in skin-walker

1110  
00:57:20,589 --> 00:57:17,240  
slash shape-shifter territory and what I

1111  
00:57:22,530 --> 00:57:20,599  
mean by that is magical Native American

1112  
00:57:24,400 --> 00:57:22,540  
witches or lower thereof and

1113  
00:57:26,470 --> 00:57:24,410

shapeshifters whatever you want to call

1114

00:57:28,809 --> 00:57:26,480

them beings of the night entities that

1115

00:57:31,420 --> 00:57:28,819

we are studying things that seem to be

1116

00:57:32,770 --> 00:57:31,430

able to do things that regular creatures

1117

00:57:34,150 --> 00:57:32,780

would not be able to do we're getting

1118

00:57:35,589 --> 00:57:34,160

lights in the sky we're getting all

1119

00:57:37,500 --> 00:57:35,599

kinds of stuff we're getting carcasses

1120

00:57:40,270 --> 00:57:37,510

piling up like there's no tomorrow and

1121

00:57:41,859 --> 00:57:40,280

we are having to pay for that research

1122

00:57:43,930 --> 00:57:41,869

to get these things checked out so

1123

00:57:45,940 --> 00:57:43,940

anyway hit us up donate whatever pick up

1124

00:57:48,160 --> 00:57:45,950

a t-shirt and until next time keep your

1125

00:57:57,590 --> 00:57:48,170

eyes to the skies feet on the ground but

1126

00:57:57,600 --> 00:58:11,240

[Music]

1127

00:58:24,750 --> 00:58:16,640

blast off blast off color blast off in
