professionals undertake such an

22

00:01:49,940 --> 00:01:46,590

investigation so it was definitely a

23

00:01:53,300 --> 00:01:49,950

everything going on in the mighty you in

38

00:02:37,069 --> 00:02:32,549

a basin dug right welcome to the hero

39

00:02:41,509 --> 00:02:37,079

paranormal podcast hey Doug how you

40

00:02:44,119 --> 00:02:41,519

doing I'm just I think this will be kind

41

00:02:45,860 --> 00:02:44,129

of cool to talk to somebody that was you

42

00:02:48,319 --> 00:02:45,870

know lucky enough to be in the area like

43

00:03:16,219 --> 00:02:48,329

a week before all that craziness took

44

00:03:19,119 --> 00:03:16,229

place just to kind of give people a

45

00:03:24,649 --> 00:03:19,129

little bit of history of what happened

46

00:03:28,099 --> 00:03:24,659

the RV at the space Wolf Research Center

47

00:03:31,009 --> 00:03:28,109

basically basically got vaporized by

48

00:03:33,259 --> 00:03:31,019

lightning the weekend after you and your

49

00:03:37,729 --> 00:03:33,269

crew went up there and spent a weekend

50

00:03:52,129 --> 00:03:37,739

there and you've encountered quite a bit

51  
00:03:54,890 --> 00:03:52,139  
of high energy correct brandon was kind

52  
00:04:06,710 --> 00:03:54,900  
enough to just shoot me an image of the

53  
00:04:23,600 --> 00:04:06,720  
actual bolt like you said it looked it

54  
00:04:24,410 --> 00:04:23,610  
was pretty big and that is the weirdest

55  
00:04:26,750 --> 00:04:24,420  
thing is the

56  
00:04:30,200 --> 00:04:26,760  
mathematical odds of something taking

57  
00:04:33,140 --> 00:04:30,210  
place now the high-energy part there's

58  
00:04:34,940 --> 00:04:33,150  
been a lot of high energy in the area

59  
00:04:38,840 --> 00:04:34,950  
recently where people are seeing you

60  
00:04:49,330 --> 00:04:38,850  
know things like ball lightning and did

61  
00:04:55,870 --> 00:04:51,370  
[Music]

62  
00:04:59,360 --> 00:04:55,880  
color was all those things I'm sure

63  
00:06:11,780 --> 00:04:59,370

they're just I mean you've got a pretty

64

00:06:14,180 --> 00:06:11,790

good look at it and the zigzagging that

65

00:06:33,250 --> 00:06:14,190

is just very telling

66

00:06:40,150 --> 00:06:36,730

that reminded me of like Harry Potter's

67

00:06:44,140 --> 00:06:40,160

Hospital visionary make the spell go

68

00:06:50,440 --> 00:06:44,150

wrong stavros rip it off and trim the

69

00:06:56,440 --> 00:06:50,450

tail like a chaser of light like a

70

00:06:58,390 --> 00:06:56,450

tracer like yes yes I've written as that

71

00:07:00,910 --> 00:06:58,400

it's so hard to describe it's it's very

72

00:07:13,510 --> 00:07:00,920

it's just raw energy is what it looks

73

00:07:15,490 --> 00:07:13,520

like it's very wild looking now the

74

00:07:17,620 --> 00:07:15,500

energy in the area apparently from

75

00:07:19,240 --> 00:07:17,630

reports is still really high I know

76

00:07:22,480 --> 00:07:19,250

there's some people investigating stuff

77

00:07:25,450 --> 00:07:22,490

right now and there's been like you said

78

00:07:30,670 --> 00:07:25,460

lights odd sounds things of that nature

79

00:07:32,680 --> 00:07:30,680

you guys were very lucky enough I guess

80

00:07:35,890 --> 00:07:32,690

it's not really luck very prepared and

81

00:07:38,800 --> 00:07:35,900

and to go into that a little bit the

82

00:07:40,750 --> 00:07:38,810

group that Doug went out with the Robert

83

00:07:44,560 --> 00:07:40,760

we are talking about is Robert Crider

84

00:07:47,860 --> 00:07:44,570

and that's quite an iteration and this

85

00:07:50,860 --> 00:07:47,870

crew is very professional they they have

86

00:07:56,050 --> 00:07:50,870

policies and procedures they they are

87

00:07:57,580 --> 00:07:56,060

always armed for the most part not not

88

00:08:00,700 --> 00:07:57,590

to necessarily use it

89

00:08:04,630 --> 00:08:00,710

they are mostly I believe all veterans

90

00:08:06,280 --> 00:08:04,640

and yeah there were trackers on board

91

00:08:08,290 --> 00:08:06,290

can you go a little bit into the cream

92

00:09:23,730 --> 00:08:08,300

just so I mean this was not just a bunch

93

00:09:32,470 --> 00:09:27,430

and you know the Four Corners area has

94

00:09:36,059 --> 00:09:32,480

its has its fair share of magic if you

95

00:10:11,230 --> 00:09:36,069

want to call it that cultural and

96

00:10:13,960 --> 00:10:11,240

classified government that's right

97

00:10:15,639 --> 00:10:13,970

that's right it's somewhere it's last

98

00:10:18,550 --> 00:10:15,649

it's it's hiding in plain sight if

99

00:10:20,050 --> 00:10:18,560

that's the case an interesting part

100

00:10:25,420 --> 00:10:20,060

I believe you mentioned the Navajo

101  
00:10:27,049 --> 00:10:25,430  
tracker is they and yourselves did the

102  
00:10:30,619 --> 00:10:27,059  
right moves and came across

103  
00:10:32,659 --> 00:10:30,629  
some some things I believe one of them

104  
00:10:36,019 --> 00:10:32,669  
one of the trackers names with junebug

105  
00:10:38,659 --> 00:10:36,029  
and you guys came across something that

106  
00:10:51,110 --> 00:10:38,669  
I wanted to touch base on which seem to

107  
00:11:03,969 --> 00:11:00,410  
[Music]

108  
00:11:09,589 --> 00:11:06,349  
well I'll tell you why I kind of wanted

109  
00:11:13,239 --> 00:11:09,599  
to go in this direction is Robert told

110  
00:11:16,789 --> 00:11:13,249  
me about this and I was skeptical and

111  
00:11:21,349 --> 00:11:16,799  
when I recently went up I made it a

112  
00:11:24,789 --> 00:11:21,359  
point to kind of post up and get up and

113  
00:11:27,859 --> 00:11:24,799

be there and in an area where I can view

114

00:11:31,099 --> 00:11:27,869

everything at a time when I thought this

115

00:11:33,259 --> 00:11:31,109

might be taking place and and I'll tell

116

00:11:36,439 --> 00:11:33,269

you what Doug I saw what I what I don't

117

00:11:41,449 --> 00:11:36,449

know what I saw but I can tell you what

118

00:11:44,359 --> 00:11:41,459

I didn't see and it wasn't I don't

119

00:11:46,749 --> 00:11:44,369

believe it was people with any kind of

120

00:11:49,939 --> 00:11:46,759

regular clothing on I'll say that

121

00:11:54,069 --> 00:11:49,949

because it was early in the morning it

122

00:11:59,569 --> 00:11:54,079

was around 3:30 something in the morning

123

00:12:01,639 --> 00:11:59,579

and it seemed to me like a father and a

124

00:12:04,129 --> 00:12:01,649

son is what it seemed to me like a

125

00:12:07,309 --> 00:12:04,139

father and a younger son and the father

126

00:12:10,399 --> 00:12:07,319

was kind of kind of making noises like

127

00:12:13,309 --> 00:12:10,409

um an almost sounded like language it

128

00:12:15,829 --> 00:12:13,319

really did but I was warm enough away I

129

00:12:17,269 --> 00:12:15,839

couldn't make it out and you know I even

130

00:12:19,549 --> 00:12:17,279

thought could this be my neighbors and

131

00:12:21,409 --> 00:12:19,559

then I'm like nah man there's no way you

132

00:12:40,220 --> 00:12:21,419

know this is so far out here they're

133

00:12:40,230 --> 00:13:01,160

[Applause]

134

00:13:15,060 --> 00:13:03,600

that's what it feels like tunnels yeah

135

00:13:17,910 --> 00:13:15,070

like it has been manicured I I was

136

00:13:20,760 --> 00:13:17,920

doubtful and now I've thought more and

137

00:13:23,910 --> 00:13:20,770

more about that and I don't know what I

138

00:13:26,310 --> 00:13:23,920

saw but it was definitely odd behavior

139

00:13:29,220 --> 00:13:26,320

for a hominid because it was definitely

140

00:13:30,750 --> 00:13:29,230

people like human-like and then I

141

00:13:32,250 --> 00:13:30,760

thought you know they didn't have

142

00:13:34,110 --> 00:13:32,260

anything in their hands so they weren't

143

00:13:35,190 --> 00:13:34,120

armed cuz I immediately thought oh it's

144

00:13:36,630 --> 00:13:35,200

probably just the neighbors maybe

145

00:13:40,050 --> 00:13:36,640

they're poaching you know you think the

146

00:13:42,690 --> 00:13:40,060

worst or maybe it's a yeah security or

147

00:13:44,610 --> 00:13:42,700

somebody armed or no guns no weapons of

148

00:14:12,960 --> 00:13:44,620

any kind but I couldn't make out any

149

00:14:15,780 --> 00:14:12,970

clothing sounds very similar kind of a

150

00:14:17,160 --> 00:14:15,790

you know like come and then that could I

151

00:14:19,440 --> 00:14:17,170

could hear the younger one or what I

152

00:14:20,790 --> 00:14:19,450

thought it was just perception but what

153

00:14:46,970 --> 00:14:20,800

I thought might have been a younger one

154

00:15:17,030 --> 00:15:13,280

I agree I agree

155

00:15:20,030 --> 00:15:17,040

and the route that I saw them take had

156

00:15:22,460 --> 00:15:20,040

no rhyme or reason for human to take

157

00:15:24,230 --> 00:15:22,470

that route you could kind of you could

158

00:15:26,900 --> 00:15:24,240

see the shadows through the you know at

159

00:15:29,720 --> 00:15:26,910

that time of day there night it's really

160

00:15:31,610 --> 00:15:29,730

more nearly you're barely getting a

161

00:15:34,160 --> 00:15:31,620

little bit of ambient light from the Sun

162

00:15:36,620 --> 00:15:34,170

that's not even peaking over you know so

163

00:15:38,600 --> 00:15:36,630

it was tough but they were close enough

164

00:15:43,610 --> 00:15:38,610

to give you an idea I do know where the

165

00:15:47,720 --> 00:15:43,620

old outhouse is out there did you get

166

00:15:53,030 --> 00:15:47,730

dissolve no okay well they were pretty

167

00:15:58,610 --> 00:15:53,040

darn close it was but you know you

168

00:16:25,309 --> 00:15:58,620

should yell out my instinct kicked in

169

00:16:27,050 --> 00:16:25,319

and I thought now that's right and

170

00:16:30,490 --> 00:16:27,060

you're absolutely right it's just a

171

00:16:34,370 --> 00:16:30,500

checkerboard of tribal and private and

172

00:16:36,829 --> 00:16:34,380

very hard to whoever they were when they

173

00:16:38,540 --> 00:16:36,839

were just jumped look with reckless

174

00:16:41,569 --> 00:16:38,550

abandon trespassing with reckless

175

00:16:43,600 --> 00:16:41,579

abandon over everybody and yeah and

176

00:16:46,400 --> 00:16:43,610

quickly they were covering ground

177

00:16:48,230 --> 00:16:46,410

super-quick was the other thing that I

178

00:16:51,170 --> 00:16:48,240

thought was strange because I saw them

179

00:16:55,400 --> 00:16:51,180

coming kind of from the homestead to the

180

00:16:58,100 --> 00:16:55,410

east in the distance and but in the

181

00:16:59,600 --> 00:16:58,110

trees about that distance and so that's

182

00:17:02,810 --> 00:16:59,610

pretty far and they were up

183

00:17:04,880 --> 00:17:02,820

on me in no time and they were past me

184

00:17:06,470 --> 00:17:04,890

in no time and I just thought wow that

185

00:17:34,850 --> 00:17:06,480

was really quick why was the dad telling

186

00:17:37,010 --> 00:17:34,860

the kid to come on that's a good way to

187

00:18:14,710 --> 00:17:37,020

do it I like that you have the flight

188

00:18:20,150 --> 00:18:17,180

great technology and that's what I love

189

00:18:21,830 --> 00:18:20,160

about you guys is you always you have

190

00:18:24,470 --> 00:18:21,840

the best technology but you also try to

191

00:18:51,370 --> 00:18:24,480

do the rational thing first and look for

192

00:18:58,940 --> 00:18:55,870

absolutely absolutely a question about

193

00:19:01,520 --> 00:18:58,950

just what you felt when you found out

194

00:19:03,730 --> 00:19:01,530

that you know the place that you'd been

195

00:19:33,330 --> 00:19:03,740

and stayed the weekend before got

196

00:19:39,620 --> 00:19:36,100

[Music]

197

00:19:41,510 --> 00:19:39,630

yeah there were parts it hard to believe

198

00:19:45,950 --> 00:19:41,520

you know some of the ground there is

199

00:19:49,580 --> 00:19:45,960

somewhat sandy and some of that sand had

200

00:19:51,650 --> 00:19:49,590

been turned into silica into literally

201  
00:19:56,540 --> 00:19:51,660  
it had been turned to glass like there

202  
00:20:32,720 --> 00:19:56,550  
were sheets of glass where the had done

203  
00:20:34,610 --> 00:20:32,730  
some kind of chemical reaction very

204  
00:20:36,200 --> 00:20:34,620  
interesting I think that would be the

205  
00:20:38,780 --> 00:20:36,210  
right thing to do yeah

206  
00:20:42,790 --> 00:20:38,790  
it's it's very we really blessed that

207  
00:20:45,380 --> 00:20:42,800  
nobody was nearby other you know than

208  
00:21:07,650 --> 00:20:45,390  
caretakers close by which we're very

209  
00:21:17,020 --> 00:21:13,419  
and a lot of the phenomena could this is

210  
00:21:19,960 --> 00:21:17,030  
a theory be interactive with some of

211  
00:21:58,419 --> 00:21:19,970  
that raw energy that is you can feel it

212  
00:22:02,549 --> 00:21:58,429  
really in the air and I've heard that

213  
00:22:06,100 --> 00:22:02,559

from people before that say oh you know

214

00:22:08,020 --> 00:22:06,110

it's just like everywhere else because

215

00:22:10,270 --> 00:22:08,030

you can see these everywhere and I agree

216

00:22:12,430 --> 00:22:10,280

that these can be seen everywhere but

217

00:22:16,299 --> 00:22:12,440

like you said like you said sometimes

218

00:23:11,000 --> 00:22:16,309

the the voracity and just the amount is

219

00:23:21,600 --> 00:23:18,270

and finally at the bottom but you know

220

00:23:24,150 --> 00:23:21,610

dug that area that over there where you

221

00:23:26,640 --> 00:23:24,160

you've you've worked over there is in my

222

00:23:28,620 --> 00:23:26,650

in in my opinion all of that they're all

223

00:23:32,760 --> 00:23:28,630

a Windy Ridge going towards might'n is

224

00:23:36,920 --> 00:23:32,770

one of the most under you know

225

00:23:40,230 --> 00:23:36,930

researched and most active locations and

226

00:23:42,240 --> 00:23:40,240

there's a possibility that that big old

227

00:23:43,980 --> 00:23:42,250

train system it's looking like a hundred

228

00:23:46,620 --> 00:23:43,990

percent but I don't know at least it was

229

00:23:49,290 --> 00:23:46,630

before kovat nineteen showed up but they

230

00:23:52,440 --> 00:23:49,300

were going to plug a train system line

231

00:23:55,880 --> 00:23:52,450

right through the basin going pretty

232

00:24:06,560 --> 00:23:55,890

close to there and going pretty cold

233

00:24:13,860 --> 00:24:10,140

right so we may have a limited time to

234

00:25:14,220 --> 00:24:13,870

even be able to research they haven't

235

00:25:21,330 --> 00:25:14,230

already in their energy for bankruptcy

236

00:25:27,490 --> 00:25:24,399

those were really big projects we're

237

00:25:30,130 --> 00:25:27,500

talking about lots and just so many jobs

238

00:25:32,470 --> 00:25:30,140

it's unfathomable when I heard that the

239

00:25:34,149 --> 00:25:32,480

railroad is going through my initial

240

00:25:36,669 --> 00:25:34,159

reaction was like what about all the

241

00:25:39,940 --> 00:25:36,679

truckers cuz I mean most of the people I

242

00:26:21,490 --> 00:25:39,950

know are truckers in the area if they

243

00:26:24,880 --> 00:26:21,500

don't work in the field it's fascinating

244

00:26:26,919 --> 00:26:24,890

the area there it is and it's big that

245

00:26:30,639 --> 00:26:26,929

that Windy Ridge and all of that to the

246

00:26:34,380 --> 00:26:30,649

south between might'n and the area we're

247

00:26:37,840 --> 00:26:34,390

discussing is really big something a

248

00:26:41,980 --> 00:26:37,850

question I had for you is something I

249

00:26:44,799 --> 00:26:41,990

saw in that area more or less was and

250

00:26:46,899 --> 00:26:44,809

they've been seen by gosh just about

251  
00:26:50,919 --> 00:26:46,909  
everybody it seems not I was one of the

252  
00:26:52,600 --> 00:26:50,929  
late seers I saw it back in the I saw it

253  
00:26:54,220 --> 00:26:52,610  
back in the early 2000s but I hadn't

254  
00:26:56,649 --> 00:26:54,230  
seen it since and it's these these

255  
00:26:59,769 --> 00:26:56,659  
pillars of light many explained that

256  
00:27:01,899 --> 00:26:59,779  
this can be explained off by natural gas

257  
00:27:03,940 --> 00:27:01,909  
being burnt off which it is on these

258  
00:27:55,400 --> 00:27:03,950  
rigs can you give us a little bit into

259  
00:27:55,410 --> 00:28:03,420  
[Music]

260  
00:28:36,910 --> 00:28:33,030  
in the and the reason I bring that up is

261  
00:28:39,280 --> 00:28:36,920  
it has been suggested that many people

262  
00:28:42,100 --> 00:28:39,290  
who claim to see this or misidentifying

263  
00:28:44,410 --> 00:28:42,110

this with that with the flares and the

264

00:28:46,570 --> 00:28:44,420

burn off but I wanted to clarify that

265

00:28:49,150 --> 00:28:46,580

there's actually two things going on

266

00:28:50,830 --> 00:28:49,160

there really are these these burn off

267

00:28:54,040 --> 00:28:50,840

C's flares and then there's something

268

00:28:56,470 --> 00:28:54,050

different as well that is is a whole

269

00:28:59,740 --> 00:28:56,480

other thing that has been caught on some

270

00:29:03,310 --> 00:28:59,750

footage almost looks more like a I don't

271

00:29:21,490 --> 00:29:03,320

want to say maser or laser or beam of

272

00:29:25,480 --> 00:29:21,500

some sort right yeah Dave Rosenfeld has

273

00:29:27,250 --> 00:29:25,490

captured a couple times and and he's

274

00:29:29,040 --> 00:29:27,260

gotten really crisp and clear so there

275

00:29:31,390 --> 00:29:29,050

are different things taking place

276

00:29:33,810 --> 00:29:31,400

another question I wanted to ask you and

277

00:29:36,250 --> 00:29:33,820

you you're not the nice thing Doug is

278

00:29:38,800 --> 00:29:36,260

having you out there checking stuff out

279

00:29:40,000 --> 00:29:38,810

is you obviously won't miss identify

280

00:29:40,840 --> 00:29:40,010

something like that because you're so

281

00:29:42,100 --> 00:29:40,850

familiar with

282

00:29:44,710 --> 00:29:42,110

so it's really kind of nice to have

283

00:29:47,260 --> 00:29:44,720

somebody that knows their stuff and not

284

00:29:48,580 --> 00:29:47,270

get not get confused with you know

285

00:31:17,940 --> 00:29:48,590

seeing something and thinking it's

286

00:31:20,560 --> 00:31:17,950

something else yeah they may be able to

287

00:31:23,170 --> 00:31:20,570

interact and once that interaction or

288

00:31:26,140 --> 00:31:23,180

bridge is gapped and there's that

289

00:31:28,120 --> 00:31:26,150

connection they are aware it seems like

290

00:31:30,430 --> 00:31:28,130

more maybe more aware they are more

291

00:31:31,780 --> 00:31:30,440

aware of us the same way we possibly are

292

00:31:34,180 --> 00:31:31,790

more aware of them and I hate to even

293

00:32:28,929 --> 00:31:34,190

call them them but I'm more more aware

294

00:32:36,999 --> 00:32:33,189

and that is where the science is headed

295

00:32:39,939 --> 00:32:37,009

that there is in fact these these these

296

00:32:43,329 --> 00:32:39,949

bridges that are made these tethers that

297

00:32:45,489 --> 00:32:43,339

seems to be that as you mentioned this

298

00:32:47,409 --> 00:32:45,499

there's somewhat of a genetic capability

299

00:32:49,809 --> 00:32:47,419

if you start doing it I don't know if

300

00:32:51,939 --> 00:32:49,819

there's a learning curve or if it's

301  
00:32:54,069 --> 00:32:51,949  
actually predisposed the science is

302  
00:32:55,779 --> 00:32:54,079  
still probably decades away from that

303  
00:32:57,219 --> 00:32:55,789  
but it's closing in I'll tell you it's

304  
00:32:58,749 --> 00:32:57,229  
really interesting where everything is

305  
00:33:01,479 --> 00:32:58,759  
going as far as you ApS

306  
00:33:04,209 --> 00:33:01,489  
and disclosure and I wanted to ask you

307  
00:33:05,709 --> 00:33:04,219  
what other oh my goodness I'm glad you

308  
00:33:08,259 --> 00:33:05,719  
went into the Douglas pass stuff

309  
00:33:09,639 --> 00:33:08,269  
what other sightings have you had in

310  
00:33:48,890 --> 00:33:09,649  
your neck of the woods that have just

311  
00:33:48,900 --> 00:35:25,160  
[Music]

312  
00:35:40,740 --> 00:35:36,860  
you know knots of birds crashed and

313  
00:35:43,530 --> 00:35:40,750

spawn out there she said around open

314

00:35:46,770 --> 00:35:43,540

light came out and she says she talks

315

00:35:51,330 --> 00:35:46,780

are very tall silver and hit the craft

316

00:35:55,050 --> 00:35:51,340

and down the ramp and off into the area

317

00:35:59,220 --> 00:35:55,060

and then came back and closed up and

318

00:36:00,960 --> 00:35:59,230

took off which I didn't see at all and I

319

00:36:03,870 --> 00:36:00,970

was looking in the same direction so

320

00:36:07,260 --> 00:36:03,880

what we think happened is for some odd

321

00:36:12,600 --> 00:36:07,270

reason they allowed my daughter to see

322

00:36:12,610 --> 00:36:22,160

[Music]

323

00:36:29,010 --> 00:36:26,190

it's it's unfathomable really but it's

324

00:36:32,160 --> 00:36:29,020

true in my opinion that the observer

325

00:36:34,650 --> 00:36:32,170

this is a really amazing and intricate

326

00:36:37,680 --> 00:36:34,660

dance that we're seeing between whatever

327

00:36:41,280 --> 00:36:37,690

it is performing and the observer and it

328

00:36:44,430 --> 00:36:41,290

appears that the communication is

329

00:36:48,240 --> 00:36:44,440

something that we can't single out or we

330

00:36:50,270 --> 00:36:48,250

don't understand the interesting thing

331

00:36:52,920 --> 00:36:50,280

is that some of these areas are

332

00:36:54,930 --> 00:36:52,930

consistent and I'm glad that you brought

333

00:36:56,730 --> 00:36:54,940

up Erika leekes because she's keyed in

334

00:37:00,300 --> 00:36:56,740

on some of these consistent areas

335

00:37:04,320 --> 00:37:00,310

whether it be Norway or northeastern

336

00:37:06,390 --> 00:37:04,330

Utah and that that's that's great I

337

00:37:08,310 --> 00:37:06,400

think I think that you know the more

338

00:37:11,190 --> 00:37:08,320

people that are working towards a common

339

00:37:13,380 --> 00:37:11,200

goal the affiliation will lead to

340

00:37:33,540 --> 00:37:13,390

exponential gain in the field and we're

341

00:37:36,210 --> 00:37:33,550

starting to see that I'm really

342

00:37:38,520 --> 00:37:36,220

fascinated Doug and wanted to ask you

343

00:37:40,530 --> 00:37:38,530

some questions about the treasure

344

00:37:45,060 --> 00:37:40,540

hunting aspect of all this and the

345

00:37:47,280 --> 00:37:45,070

recent find near near near the area were

346

00:37:49,890 --> 00:37:47,290

discussing there was a recent treasure

347

00:37:51,390 --> 00:37:49,900

find kind of planted but what got you

348

00:38:22,830 --> 00:37:51,400

into the treasure hunting and how did

349

00:38:22,840 --> 00:39:40,790

[Music]

350

00:40:11,700 --> 00:40:07,020

you know I was only a mile from the

351

00:40:18,030 --> 00:40:14,250

trail that runs right through here the

352

00:40:22,740 --> 00:40:18,040

northern branch where the Padres are in

353

00:40:25,079 --> 00:40:22,750

North Bimini smash Kalani at 1776 made

354

00:40:27,630 --> 00:40:25,089

that journey trying to find overland

355

00:40:32,220 --> 00:40:27,640

route from South a all the way over to

356

00:40:35,240 --> 00:40:32,230

California which they didn't make it but

357

00:40:40,849 --> 00:40:35,250

we they learned a lot about Utah and

358

00:40:44,430 --> 00:40:40,859

this part of Colorado very trip so I

359

00:40:47,910 --> 00:40:44,440

always looked at it as like I think I

360

00:40:50,609 --> 00:40:47,920

said earlier is the way you're in

361

00:40:54,630 --> 00:40:50,619

Palestine where you want to go for Lane

362

00:40:57,530 --> 00:40:54,640

have that back then then you had to

363

00:41:00,960 --> 00:40:57,540

follow the water because water was life

364

00:41:02,730 --> 00:41:00,970

was rather life it was him that you

365

00:41:05,099 --> 00:41:02,740

would be along the way because there was

366

00:41:06,650 --> 00:41:05,109

no circle too hard to stop off and

367

00:41:11,940 --> 00:41:06,660

you're with you

368

00:41:13,740 --> 00:41:11,950

so they started you know I playing in it

369

00:41:16,260 --> 00:41:13,750

did on the Oregon Trail that would make

370

00:41:18,060 --> 00:41:16,270

a lot of cars over on top of a hill so

371

00:41:21,900 --> 00:41:18,070

they you know there are paths where they

372

00:41:24,510 --> 00:41:21,910

need to be on now is that Ivan finding

373

00:41:28,440 --> 00:41:24,520

is a little more complex

374

00:41:31,020 --> 00:41:28,450

I don't know why I think some of its

375

00:41:34,800 --> 00:41:31,030

symbolic depending on so how the trail

376

00:41:36,930 --> 00:41:34,810

was set I found a lot of these you can

377

00:41:39,480 --> 00:41:36,940

verify that they are actually not

378

00:41:42,180 --> 00:41:39,490

arguing earlier actually inspected by

379

00:41:45,720 --> 00:41:42,190

man because you can put a compass on

380

00:41:47,400 --> 00:41:45,730

them and 8% of the time they're going to

381

00:41:50,700 --> 00:41:47,410

be on cardinal points and that doesn't

382

00:41:53,010 --> 00:41:50,710

happen by accident and then are the

383

00:41:55,410 --> 00:41:53,020

other ones which I think are off the

384

00:41:57,420 --> 00:41:55,420

beaten path to like to me that might

385

00:42:02,790 --> 00:41:57,430

have died on the trail and this very

386

00:42:04,440 --> 00:42:02,800

event those the coordinates when you put

387

00:42:08,190 --> 00:42:04,450

on your compass are going to be a

388

00:42:10,470 --> 00:42:08,200

multiple of 30 and then you can take in

389

00:42:13,640 --> 00:42:10,480

the 9 to 10 degrees of magnetic

390

00:42:16,800 --> 00:42:13,650

declination and you're spot-on so

391

00:42:20,150 --> 00:42:16,810

there's obviously some design behind it

392

00:42:22,570 --> 00:42:20,160

and then when you see the same shapes

393

00:42:25,420 --> 00:42:22,580

used through different state

394

00:42:27,340 --> 00:42:25,430

you know you're onto something so I've

395

00:42:29,560 --> 00:42:27,350

been working that area for a while and I

396

00:42:31,120 --> 00:42:29,570

find the different ones and I could have

397

00:42:33,160 --> 00:42:31,130

bought a map I'm starting to get

398

00:42:36,490 --> 00:42:33,170

overhead look because I want to see if

399

00:42:39,130 --> 00:42:36,500

there's some mathematical equation that

400

00:42:40,570 --> 00:42:39,140

was used when they were laid out and

401  
00:42:45,190 --> 00:42:40,580  
then who know that I might find

402  
00:42:46,180 --> 00:42:45,200  
something because with all thanks to the

403  
00:42:50,800 --> 00:42:46,190  
modern world

404  
00:43:05,680 --> 00:42:50,810  
at Instagram I have found somewhat of a

405  
00:43:07,690 --> 00:43:05,690  
match and in Iran versus Colorado and I

406  
00:43:11,260 --> 00:43:07,700  
didn't tell you where they were you

407  
00:43:13,420 --> 00:43:11,270  
would never difference no I'm not saying

408  
00:43:16,990 --> 00:43:13,430  
that the agent Persians made it to call

409  
00:43:24,610 --> 00:43:17,000  
out oh but somebody is using the same

410  
00:43:30,700 --> 00:43:24,620  
style right learn something now to be

411  
00:43:33,550 --> 00:43:30,710  
found is what I think and it does seem

412  
00:43:50,110 --> 00:43:33,560  
that way like it is a treasure map

413  
00:43:52,030 --> 00:43:50,120

really really walked along and there was

414

00:43:53,140 --> 00:43:52,040

a recent box I don't know if yeah I'm

415

00:43:59,020 --> 00:43:53,150

sure you've heard of this

416

00:44:00,610 --> 00:43:59,030

that's what's yeah yeah can you tell us

417

00:44:32,440 --> 00:44:00,620

a little bit about that I know that you

418

00:45:03,690 --> 00:44:32,450

know way more than I do when I'm going

419

00:45:08,200 --> 00:45:06,010

fascinating and in its in the same

420

00:45:11,200 --> 00:45:08,210

general northeastern kind of area of

421

00:45:13,930 --> 00:45:11,210

it's actually in Colorado but a lot

422

00:45:16,630 --> 00:45:13,940

close by a very interesting story and a

423

00:45:19,780 --> 00:45:16,640

lot of history of treasure and treasure

424

00:45:21,910 --> 00:45:19,790

hunters and odd phenomenon and I just I

425

00:45:24,070 --> 00:45:21,920

can't thank you enough Doug for coming

426

00:45:26,290 --> 00:45:24,080

on the podcast and sharing your

427

00:45:29,710 --> 00:45:26,300

knowledge your vast knowledge of the

428

00:45:31,660 --> 00:45:29,720

area interesting phenomena the history

429

00:45:34,000 --> 00:45:31,670

involved with the magic behind the

430

00:45:36,340 --> 00:45:34,010

Uintah Basin and I can't wait to have

431

00:45:37,570 --> 00:45:36,350

you back and and hopefully do some

432

00:46:03,660 --> 00:45:37,580

investigating with you that would be

433

00:46:08,530 --> 00:46:06,730

and I hope to talk to you seeing Doug

434

00:46:10,750 --> 00:46:08,540

have a blessed weekend and I'll

435

00:46:13,200 --> 00:46:10,760

hopefully touch base with you as soon as

436

00:46:18,910 --> 00:46:16,390

Wow such a wealth of knowledge the guy

437

00:46:22,110 --> 00:46:18,920

I'm telling you barely scratched the

438

00:46:24,640 --> 00:46:22,120

surface of the knowledge that Doug has

439

00:46:28,810 --> 00:46:24,650

can't thank him enough for coming on the

440

00:46:32,950 --> 00:46:28,820

program Doug came out to visit me one

441

00:46:36,970 --> 00:46:32,960

day and we did a little tour of property

442

00:46:40,030 --> 00:46:36,980

known as space wolf research and we came

443

00:46:43,450 --> 00:46:40,040

across a something strange

444

00:46:45,330 --> 00:46:43,460

we went out very nonchalantly casual

445

00:46:48,120 --> 00:46:45,340

beautiful summer day

446

00:46:50,250 --> 00:46:48,130

we watched some of the waterways

447

00:46:52,980 --> 00:46:50,260

actually no we were in a golf cart we

448

00:46:54,870 --> 00:46:52,990

were golf carting around and we came to

449

00:46:56,460 --> 00:46:54,880

a stop turned around had a nice

450

00:46:59,970 --> 00:46:56,470

conversation went back the same way we

451  
00:47:03,840 --> 00:46:59,980  
came and all within about an hour 45

452  
00:47:07,980 --> 00:47:03,850  
minutes I'd say and there was a deer

453  
00:47:12,240 --> 00:47:07,990  
severed deer leg on our way back to the

454  
00:47:14,850 --> 00:47:12,250  
vehicles so very interesting and healthy

455  
00:47:19,890 --> 00:47:14,860  
respect for the area and the ability to

456  
00:47:23,280 --> 00:47:19,900  
instill fear Doug is veteran he is a

457  
00:47:25,530 --> 00:47:23,290  
treasure hunter he is a man of the

458  
00:47:27,990 --> 00:47:25,540  
people bringing us energy and has worked

459  
00:47:31,560 --> 00:47:28,000  
for many years doing so very

460  
00:47:33,300 --> 00:47:31,570  
knowledgeable educated and I couldn't be

461  
00:47:37,140 --> 00:47:33,310  
more tickled about the guest this

462  
00:47:41,220 --> 00:47:37,150  
weekend I hope to bring more guests like

463  
00:47:44,810 --> 00:47:41,230

Doug as epic as he is we will try to

464

00:47:48,330 --> 00:47:44,820

keep that bar at the level that's at and

465

00:47:50,430 --> 00:47:48,340

and keep bringing the listeners which is

466

00:47:52,260 --> 00:47:50,440

you guys the most interesting stuff that

467

00:47:54,240 --> 00:47:52,270

we are able to find which right now it's

468

00:47:55,950 --> 00:47:54,250

gosh it's just everywhere so I need to

469

00:47:57,300 --> 00:47:55,960

buck up I need to get in to put it in

470

00:47:59,220 --> 00:47:57,310

high gear and start putting out more

471

00:48:01,500 --> 00:47:59,230

content because I'm having a hard time

472

00:48:04,610 --> 00:48:01,510

keeping up with all of these things

473

00:48:08,220 --> 00:48:04,620

going on we have Co vid 19 coronavirus

474

00:48:09,810 --> 00:48:08,230

Epstein gives a get it I been a total

475

00:48:12,030 --> 00:48:09,820

idiot I've noticed that I've said her

476

00:48:15,120 --> 00:48:12,040

name wrong it's Gil Lane Maxwell not

477

00:48:17,780 --> 00:48:15,130

Ghislaine I'm a total you don't learn

478

00:48:20,520 --> 00:48:17,790

how to pronounce things so we have the

479

00:48:23,970 --> 00:48:20,530

Maxwell conspiracy taking place

480

00:48:25,370 --> 00:48:23,980

currently we have the list goes on and

481

00:48:27,630 --> 00:48:25,380

on you ApS

482

00:48:30,780 --> 00:48:27,640

all kinds of neat things in

483

00:48:34,770 --> 00:48:30,790

consciousness the world of ufology is

484

00:48:37,380 --> 00:48:34,780

just exploding with theories and rabid

485

00:48:38,280 --> 00:48:37,390

for answers great minds all working

486

00:48:41,640 --> 00:48:38,290

together in unison

487

00:48:43,740 --> 00:48:41,650

we will continue to try to keep it up

488

00:48:45,840 --> 00:48:43,750

thanks so much for listening if you

489

00:48:50,130 --> 00:48:45,850

haven't yet go to hero paranormal calm

490

00:48:53,310 --> 00:48:50,140

or hero paranormal pod bean calm to

491

00:48:55,080 --> 00:48:53,320

listen to the archives and please

492

00:48:56,940 --> 00:48:55,090

continue to listen to us and we will

493

00:48:58,319 --> 00:48:56,950

continue to bring you the good stuff

494

00:49:11,130 --> 00:48:58,329

until next time keep your eyes to the
