HERO

paranormal

1  
00:00:10,380 --> 00:00:14,910  
[Music]

2  
00:00:14,920 --> 00:00:28,390  
um

3  
00:00:28,400 --> 00:00:37,389  
machine

4  
00:00:44,150 --> 00:00:40,389  
blast off on another

5  
00:00:46,950 --> 00:00:44,160  
vip episode of hero paranormal

6  
00:00:47,750 --> 00:00:46,960  
broadcasting from the base at la madre

7  
00:00:51,830 --> 00:00:47,760  
mountain

8  
00:00:54,630 --> 00:00:51,840  
just south of area 51 my name is ryan

9  
00:00:55,910 --> 00:00:54,640  
the original outlaw of the airwaves

10  
00:01:00,470 --> 00:00:55,920  
bringing you

11  
00:01:03,750 --> 00:01:00,480  
an absolutely epic episode tonight

12  
00:01:07,350 --> 00:01:03,760  
my guest known for

13  
00:01:11,190 --> 00:01:07,360

hidden legend of the lost temple ancient

14

00:01:14,390 --> 00:01:11,200

egypt uncovered and expedition unknown

15

00:01:17,670 --> 00:01:14,400

he runs hidden inca tours

16

00:01:20,710 --> 00:01:17,680

if you don't know who he is yet brian

17

00:01:23,510 --> 00:01:20,720

forrester is a renowned author

18

00:01:24,230 --> 00:01:23,520

of some of the most respected books in

19

00:01:27,270 --> 00:01:24,240

the field

20

00:01:28,550 --> 00:01:27,280

and is more akin to a real-life

21

00:01:31,749 --> 00:01:28,560

superhero

22

00:01:35,190 --> 00:01:31,759

the likes of indiana jones in my opinion

23

00:01:38,550 --> 00:01:35,200

no kidding among his literary feats

24

00:01:42,149 --> 00:01:38,560

aftershock elongated skulls

25

00:01:44,789 --> 00:01:42,159

lost ancient technology of egypt and

26  
00:01:46,069 --> 00:01:44,799  
more books than you can shake a stick at

27  
00:01:48,469 --> 00:01:46,079  
more

28  
00:01:49,350 --> 00:01:48,479  
like a real-life indiana jones of

29  
00:01:52,389 --> 00:01:49,360  
scientific

30  
00:01:55,270 --> 00:01:52,399  
evidence now supporting the idea that

31  
00:01:55,670 --> 00:01:55,280  
our planet was devastated by a cataclysm

32  
00:01:59,429 --> 00:01:55,680  
and

33  
00:02:02,630 --> 00:01:59,439  
places like egypt peru bolivia

34  
00:02:05,990 --> 00:02:02,640  
and lebanon may have just had

35  
00:02:09,749 --> 00:02:06,000  
dynastic tribes of sorts move in

36  
00:02:14,070 --> 00:02:09,759  
to these structures much like

37  
00:02:18,550 --> 00:02:14,080  
any culture would the real-life

38  
00:02:22,229 --> 00:02:18,560

hero of lost ancient technology

39

00:02:23,190 --> 00:02:22,239

elongated skulls and megaliths of the

40

00:02:26,470 --> 00:02:23,200

gods

41

00:02:29,350 --> 00:02:26,480

joins us from peru

42

00:02:31,030 --> 00:02:29,360

i am so excited to talk to you today i i

43

00:02:33,589 --> 00:02:31,040

am i've been

44

00:02:34,949 --> 00:02:33,599

i have been like hoping to talk to you

45

00:02:37,190 --> 00:02:34,959

for a long time

46

00:02:37,990 --> 00:02:37,200

and it's you're in one of the most lucky

47

00:02:40,309 --> 00:02:38,000

countries

48

00:02:41,670 --> 00:02:40,319

overall to study the things you study

49

00:02:44,710 --> 00:02:41,680

which firstly

50

00:02:47,509 --> 00:02:44,720

i just have to say thank you for

51  
00:02:48,550 --> 00:02:47,519  
your research work and contributions

52  
00:02:51,509 --> 00:02:48,560  
brian

53  
00:02:52,309 --> 00:02:51,519  
you are among the leading minds forging

54  
00:02:55,110 --> 00:02:52,319  
a path

55  
00:02:55,990 --> 00:02:55,120  
of truth about an ancient history whose

56  
00:02:58,550 --> 00:02:56,000  
remnants are

57  
00:03:01,030 --> 00:02:58,560  
just too big and too many to

58  
00:03:04,229 --> 00:03:01,040  
successfully hide manipulate and control

59  
00:03:06,309 --> 00:03:04,239  
at least the narrative forever how

60  
00:03:09,750 --> 00:03:06,319  
did you get started on this path of

61  
00:03:13,910 --> 00:03:11,350  
well i've had a fascination since

62  
00:03:15,750 --> 00:03:13,920  
childhood of enigmatic sites

63  
00:03:17,670 --> 00:03:15,760

grew up with national geographic

64

00:03:20,949 --> 00:03:17,680

magazines so

65

00:03:21,910 --> 00:03:20,959

ancient egypt was um of key interest to

66

00:03:24,630 --> 00:03:21,920

me the

67

00:03:25,589 --> 00:03:24,640

enigma of the sphinx and the pyramids

68

00:03:28,869 --> 00:03:25,599

and things like that

69

00:03:29,990 --> 00:03:28,879

so um when i started to to be able to

70

00:03:32,390 --> 00:03:30,000

travel on my own

71

00:03:33,030 --> 00:03:32,400

which was when i was 16 i went to

72

00:03:35,509 --> 00:03:33,040

england

73

00:03:36,309 --> 00:03:35,519

and uh was able to go to stonehenge

74

00:03:38,869 --> 00:03:36,319

before they put

75

00:03:40,309 --> 00:03:38,879

even a fence around it so that was uh

76  
00:03:41,509 --> 00:03:40,319  
that was quite mind-boggling because

77  
00:03:43,589 --> 00:03:41,519  
growing up in canada

78  
00:03:45,350 --> 00:03:43,599  
there's of course there's nothing like

79  
00:03:47,509 --> 00:03:45,360  
that

80  
00:03:48,789 --> 00:03:47,519  
and so through the years i've been to

81  
00:03:51,030 --> 00:03:48,799  
about 100 countries

82  
00:03:53,030 --> 00:03:51,040  
uh focusing on the megalithic and

83  
00:03:56,710 --> 00:03:53,040  
elongated skull stuff for the last

84  
00:03:57,589 --> 00:03:56,720  
probably 16. so i've been very fortunate

85  
00:03:59,910 --> 00:03:57,599  
to be able

86  
00:04:02,710 --> 00:03:59,920  
being able to see almost everything you

87  
00:04:06,470 --> 00:04:02,720  
know on on my so-called bartlett list

88  
00:04:06,789 --> 00:04:06,480

already that's amazing and that brings

89

00:04:09,589 --> 00:04:06,799

up

90

00:04:11,270 --> 00:04:09,599

all the sites that you've been to uh

91

00:04:14,869 --> 00:04:11,280

you've been to peru balu

92

00:04:17,670 --> 00:04:14,879

i believe bolivia lebanon egypt

93

00:04:19,830 --> 00:04:17,680

areas of interest i have more questions

94

00:04:22,950 --> 00:04:19,840

than answers when it comes to this

95

00:04:23,510 --> 00:04:22,960

but um being right there boots on the

96

00:04:26,710 --> 00:04:23,520

ground

97

00:04:28,710 --> 00:04:26,720

in peru in near cusco which i

98

00:04:30,310 --> 00:04:28,720

consider one of the most sacred places

99

00:04:32,310 --> 00:04:30,320

on the planet

100

00:04:33,510 --> 00:04:32,320

what is it like being there and talking

101

00:04:35,189 --> 00:04:33,520

to the locals and getting

102

00:04:39,189 --> 00:04:35,199

insight that others may have just

103

00:04:43,430 --> 00:04:41,030

well that's really the important point

104

00:04:45,830 --> 00:04:43,440

because of course um

105

00:04:48,710 --> 00:04:45,840

you know you the best thing to do is to

106

00:04:50,150 --> 00:04:48,720

hire a local guide which i did the first

107

00:04:52,950 --> 00:04:50,160

day of the first trip that i was in

108

00:04:55,270 --> 00:04:52,960

cusco and he showed me

109

00:04:56,870 --> 00:04:55,280

inca constructions and then i saw he

110

00:04:59,189 --> 00:04:56,880

took me to some of the megalithic stuff

111

00:05:01,270 --> 00:04:59,199

and i i could not believe

112

00:05:03,510 --> 00:05:01,280

that they were actually real uh the

113

00:05:05,110 --> 00:05:03,520

stark contrast between

114

00:05:07,430 --> 00:05:05,120

what you would expect a bronze age

115

00:05:09,430 --> 00:05:07,440

culture like the inca

116

00:05:11,749 --> 00:05:09,440

would be capable of as compared to the

117

00:05:14,550 --> 00:05:11,759

megalithic interlocking blocks it's like

118

00:05:15,990 --> 00:05:14,560

night and day so he wasn't able to

119

00:05:19,029 --> 00:05:16,000

explain

120

00:05:20,870 --> 00:05:19,039

uh much about the megalithic stuff at

121

00:05:22,390 --> 00:05:20,880

all he insisted that the eco built

122

00:05:25,510 --> 00:05:22,400

everything and automatically i

123

00:05:26,150 --> 00:05:25,520

i just said that's totally impossible so

124

00:05:30,310 --> 00:05:26,160

that's when

125

00:05:32,550 --> 00:05:30,320

about um

126

00:05:34,469 --> 00:05:32,560

i don't know if it's covered up history

127

00:05:37,590 --> 00:05:34,479

or if it's just been

128

00:05:39,029 --> 00:05:37,600

largely ignored by academics because

129

00:05:40,950 --> 00:05:39,039

most academics

130

00:05:42,629 --> 00:05:40,960

don't have any hands-on experience with

131

00:05:44,469 --> 00:05:42,639

working with stone so

132

00:05:45,990 --> 00:05:44,479

of course they're going to say well the

133

00:05:49,270 --> 00:05:46,000

inca had to have done this work

134

00:05:51,029 --> 00:05:49,280

whereas any anybody with any kind of a

135

00:05:53,670 --> 00:05:51,039

practical mind would say no that's

136

00:05:55,110 --> 00:05:53,680

totally impossible and i i think i think

137

00:05:57,590 --> 00:05:55,120

it's good that you mentioned that it's

138

00:06:00,150 --> 00:05:57,600

good not to call it covered up because

139

00:06:03,189 --> 00:06:00,160

i mean any culture would probably you

140

00:06:06,230 --> 00:06:03,199

come across a megalithic site and

141

00:06:07,510 --> 00:06:06,240

let's suppose that the previous builder

142

00:06:10,790 --> 00:06:07,520

is just no longer

143

00:06:13,430 --> 00:06:10,800

around and uh why wouldn't you you know

144

00:06:14,870 --> 00:06:13,440

incorporate it into your existence and

145

00:06:17,510 --> 00:06:14,880

over time

146

00:06:18,150 --> 00:06:17,520

this would just be assumed to be part of

147

00:06:19,670 --> 00:06:18,160

your

148

00:06:21,510 --> 00:06:19,680

history and i think that's what's

149

00:06:23,670 --> 00:06:21,520

happened is it's it's more of an unknown

150

00:06:25,270 --> 00:06:23,680

history right than covered up

151  
00:06:27,430 --> 00:06:25,280  
of course in egypt they've been trying

152  
00:06:30,790 --> 00:06:27,440  
to to cover up um all of the

153  
00:06:32,710 --> 00:06:30,800  
anomalous stuff that's there uh

154  
00:06:34,390 --> 00:06:32,720  
misdating how old certain things are

155  
00:06:36,230 --> 00:06:34,400  
just because it fits their paradigm or

156  
00:06:38,950 --> 00:06:36,240  
their narrative

157  
00:06:39,430 --> 00:06:38,960  
uh in peru there isn't as much of that

158  
00:06:40,950 --> 00:06:39,440  
but the

159  
00:06:43,430 --> 00:06:40,960  
you know the peruvian ancient sites are

160  
00:06:46,550 --> 00:06:43,440  
not explored as extensively as those in

161  
00:06:48,790 --> 00:06:46,560  
egypt so i think yeah i think it's more

162  
00:06:50,870 --> 00:06:48,800  
a sense of omission rather than a

163  
00:06:54,469 --> 00:06:50,880

deliberate kind of

164

00:06:56,309 --> 00:06:54,479

way to uh dissuade

165

00:06:57,510 --> 00:06:56,319

the public from looking at these

166

00:07:00,390 --> 00:06:57,520

enigmatic

167

00:07:01,589 --> 00:07:00,400

places that cannot be explained by

168

00:07:04,070 --> 00:07:01,599

academia

169

00:07:05,830 --> 00:07:04,080

and brian i wanted to ask you about some

170

00:07:09,110 --> 00:07:05,840

of the artifacts that you

171

00:07:12,070 --> 00:07:09,120

found and some of the ancient

172

00:07:13,510 --> 00:07:12,080

possible technology or scientific

173

00:07:16,950 --> 00:07:13,520

remnants that may

174

00:07:19,909 --> 00:07:16,960

point towards ancient technologies i i

175

00:07:21,589 --> 00:07:19,919

i believe that you found a disc and your

176

00:07:22,390 --> 00:07:21,599

youtube videos by the way are just

177

00:07:25,510 --> 00:07:22,400

fascinating

178

00:07:29,189 --> 00:07:25,520

a disc i believe is a that may have been

179

00:07:30,230 --> 00:07:29,199

incorporated in possibly some machinery

180

00:07:31,909 --> 00:07:30,240

of sorts and

181

00:07:33,589 --> 00:07:31,919

and this isn't it there's there's so

182

00:07:35,029 --> 00:07:33,599

much more that's pointing in the

183

00:07:38,230 --> 00:07:35,039

direction of

184

00:07:39,029 --> 00:07:38,240

ancient technology oh definitely

185

00:07:42,230 --> 00:07:39,039

especially

186

00:07:45,990 --> 00:07:42,240

it's so it's so obvious in

187

00:07:46,629 --> 00:07:46,000

egypt because the um we can clearly at

188

00:07:50,230 --> 00:07:46,639

this point

189

00:07:51,990 --> 00:07:50,240

clearly uh state that the

190

00:07:53,510 --> 00:07:52,000

uh pharonic people the dynastic

191

00:07:57,270 --> 00:07:53,520

egyptians were able

192

00:07:58,869 --> 00:07:57,280

to work in sandstone and limestone

193

00:08:01,830 --> 00:07:58,879

because they're relatively

194

00:08:02,790 --> 00:08:01,840

soft materials even with hardened bronze

195

00:08:04,950 --> 00:08:02,800

tools

196

00:08:06,150 --> 00:08:04,960

but there's no way they were able to

197

00:08:08,629 --> 00:08:06,160

finally shape

198

00:08:09,589 --> 00:08:08,639

the hard stones like granite and and

199

00:08:13,430 --> 00:08:09,599

bath salt

200

00:08:14,070 --> 00:08:13,440

we also see a lot of evidence in each of

201  
00:08:16,390 --> 00:08:14,080  
the

202  
00:08:17,990 --> 00:08:16,400  
tool marks like drill holes and saw

203  
00:08:21,909 --> 00:08:18,000  
marks and things like that

204  
00:08:25,589 --> 00:08:21,919  
left over that clearly indicated

205  
00:08:28,629 --> 00:08:25,599  
that very advanced machining technology

206  
00:08:31,510 --> 00:08:28,639  
had to be responsible for that work and

207  
00:08:33,509 --> 00:08:31,520  
that advanced machining technology it

208  
00:08:34,230 --> 00:08:33,519  
kind of blurs the line of science

209  
00:08:37,430 --> 00:08:34,240  
fiction and

210  
00:08:39,110 --> 00:08:37,440  
fact because these machines

211  
00:08:41,190 --> 00:08:39,120  
when you when you when you see what

212  
00:08:43,909 --> 00:08:41,200  
they've created

213  
00:08:46,470 --> 00:08:43,919

uh which unfortunately i haven't and

214

00:08:48,150 --> 00:08:46,480

when i do it will definitely be with you

215

00:08:50,310 --> 00:08:48,160

you you begin to question everything is

216

00:08:52,310 --> 00:08:50,320

what i'm told yeah that's for sure

217

00:08:54,550 --> 00:08:52,320

and i think the important thing that we

218

00:08:57,030 --> 00:08:54,560

do now is um

219

00:08:57,670 --> 00:08:57,040

in the early days we would start our

220

00:08:59,750 --> 00:08:57,680

tours

221

00:09:01,430 --> 00:08:59,760

on the giza plateau so you see all the

222

00:09:03,509 --> 00:09:01,440

profound stuff

223

00:09:04,470 --> 00:09:03,519

and the giza plateau is much bigger than

224

00:09:07,590 --> 00:09:04,480

what most people

225

00:09:08,470 --> 00:09:07,600

think it extends out to sites like

226  
00:09:11,070 --> 00:09:08,480  
sakara

227  
00:09:12,550 --> 00:09:11,080  
and abu rawash and abu seer

228  
00:09:16,470 --> 00:09:12,560  
[Music]

229  
00:09:18,070 --> 00:09:16,480  
and so you see lots of examples of

230  
00:09:19,750 --> 00:09:18,080  
of these machine marks in those

231  
00:09:22,550 --> 00:09:19,760  
locations so what we do now

232  
00:09:23,350 --> 00:09:22,560  
is we fly to immediately from cairo to

233  
00:09:25,910 --> 00:09:23,360  
southern

234  
00:09:27,110 --> 00:09:25,920  
egypt and then work our way north

235  
00:09:28,710 --> 00:09:27,120  
because in southern egypt that's where

236  
00:09:31,190 --> 00:09:28,720  
you see most of the

237  
00:09:32,230 --> 00:09:31,200  
the truly dynastic works in sandstone

238  
00:09:34,550 --> 00:09:32,240

and limestone

239

00:09:35,269 --> 00:09:34,560

you know very beautifully made but

240

00:09:38,710 --> 00:09:35,279

always

241

00:09:40,790 --> 00:09:38,720

lots of uh of pieces put together like

242

00:09:41,910 --> 00:09:40,800

the columns are always multiple sections

243

00:09:45,590 --> 00:09:41,920

but then when you get up

244

00:09:47,829 --> 00:09:45,600

into the area of the giza plateau um

245

00:09:50,150 --> 00:09:47,839

that's where most of the megalithic

246

00:09:51,910 --> 00:09:50,160

stuff is located there

247

00:09:53,269 --> 00:09:51,920

such as the tunnel systems under the

248

00:09:55,990 --> 00:09:53,279

giza plateau

249

00:09:56,870 --> 00:09:56,000

uh the giant box is located in the

250

00:10:00,310 --> 00:09:56,880

serapim

251  
00:10:02,870 --> 00:10:00,320  
at saqqara the osiris shaft which has

252  
00:10:04,710 --> 00:10:02,880  
been open to the public

253  
00:10:05,910 --> 00:10:04,720  
now you can go underneath the step

254  
00:10:07,910 --> 00:10:05,920  
pyramid

255  
00:10:09,590 --> 00:10:07,920  
at saqqara where you can see that there

256  
00:10:11,670 --> 00:10:09,600  
was a massive underground

257  
00:10:12,790 --> 00:10:11,680  
construction that preceded the building

258  
00:10:15,269 --> 00:10:12,800  
of the of

259  
00:10:16,949 --> 00:10:15,279  
that step pyramid and on and on it goes

260  
00:10:19,990 --> 00:10:16,959  
the wonderful thing is that the

261  
00:10:22,630 --> 00:10:20,000  
ministry of culture uh

262  
00:10:24,310 --> 00:10:22,640  
in uh egypt is actually opening up more

263  
00:10:26,150 --> 00:10:24,320

of these enigmatic sites for us to

264

00:10:27,750 --> 00:10:26,160

explore whereas in

265

00:10:29,829 --> 00:10:27,760

other countries like peru they're

266

00:10:32,630 --> 00:10:29,839

tending to rope things off that are

267

00:10:33,430 --> 00:10:32,640

enigmatic or of interest to those

268

00:10:36,069 --> 00:10:33,440

seeking

269

00:10:37,350 --> 00:10:36,079

evidence of ancient lost high technology

270

00:10:41,350 --> 00:10:37,360

such great news

271

00:10:43,269 --> 00:10:41,360

and your tours are a lot better well in

272

00:10:45,509 --> 00:10:43,279

my opinion tours than anything else you

273

00:10:48,310 --> 00:10:45,519

can get just because of the

274

00:10:48,790 --> 00:10:48,320

depth and the angles that you look at

275

00:10:52,069 --> 00:10:48,800

this

276

00:10:53,910 --> 00:10:52,079

information and i wanted to ask you

277

00:10:55,110 --> 00:10:53,920

a little bit about you mentioned it

278

00:10:57,990 --> 00:10:55,120

quickly

279

00:10:58,630 --> 00:10:58,000

about the shaft the i believe the osiris

280

00:11:01,750 --> 00:10:58,640

shaft

281

00:11:04,630 --> 00:11:01,760

and just exactly how fascinating

282

00:11:06,069 --> 00:11:04,640

and how deep it goes and it you know for

283

00:11:07,590 --> 00:11:06,079

our listeners so they can kind of put

284

00:11:09,430 --> 00:11:07,600

the wrap their minds around

285

00:11:11,269 --> 00:11:09,440

some of the tech that might have been

286

00:11:14,470 --> 00:11:11,279

needed to make this happen

287

00:11:15,590 --> 00:11:14,480

yeah well the foolish thing that is that

288

00:11:19,910 --> 00:11:15,600

they call it

289

00:11:22,389 --> 00:11:19,920

never

290

00:11:23,750 --> 00:11:22,399

try to talk about how it was made

291

00:11:25,670 --> 00:11:23,760

because the whole thing is in the

292

00:11:29,829 --> 00:11:25,680

bedrock underground

293

00:11:31,590 --> 00:11:29,839

so to enter the cyber shaft

294

00:11:33,750 --> 00:11:31,600

you have to go down the causeway from

295

00:11:34,230 --> 00:11:33,760

the great pyramids and then they open a

296

00:11:37,350 --> 00:11:34,240

gate

297

00:11:37,750 --> 00:11:37,360

on the side of the causeway and then you

298

00:11:41,509 --> 00:11:37,760

walk

299

00:11:43,509 --> 00:11:41,519

into this short tunnel

300

00:11:46,150 --> 00:11:43,519

and then look down and there's a room

301  
00:11:49,750 --> 00:11:46,160  
that's approximately

302  
00:11:50,150 --> 00:11:49,760  
30 feet wide and a hundred maybe 150

303  
00:11:54,310 --> 00:11:50,160  
feet

304  
00:11:58,150 --> 00:11:54,320  
long so you go down a ladder

305  
00:12:00,550 --> 00:11:58,160  
about 30 feet to that level um

306  
00:12:03,750 --> 00:12:00,560  
it's just like an open area but you can

307  
00:12:07,190 --> 00:12:03,760  
see the machine marks on the walls

308  
00:12:09,509 --> 00:12:07,200  
um then you walk forward and look down

309  
00:12:11,110 --> 00:12:09,519  
to the next level which is about another

310  
00:12:13,990 --> 00:12:11,120  
100 feet underground

311  
00:12:15,430 --> 00:12:14,000  
so you climb down there and uh there are

312  
00:12:18,150 --> 00:12:15,440  
six niches

313  
00:12:19,990 --> 00:12:18,160

big enough to contain very large

314

00:12:21,269 --> 00:12:20,000

so-called sarcophagi they're only two

315

00:12:24,069 --> 00:12:21,279

remaining

316

00:12:26,150 --> 00:12:24,079

and uh both are broken very badly i'm

317

00:12:28,710 --> 00:12:26,160

not sure if that's from tomb robbing

318

00:12:29,269 --> 00:12:28,720

or from some kind of male function that

319

00:12:32,150 --> 00:12:29,279

happened

320

00:12:33,430 --> 00:12:32,160

in ancient times and then you look down

321

00:12:35,750 --> 00:12:33,440

to the third level

322

00:12:37,430 --> 00:12:35,760

and that goes down another 60 feet into

323

00:12:40,470 --> 00:12:37,440

a pool of water

324

00:12:43,430 --> 00:12:40,480

and there's another giant box probably

325

00:12:45,590 --> 00:12:43,440

60 to 80 tons that's located with the

326

00:12:48,470 --> 00:12:45,600

lid still on under water

327

00:12:50,389 --> 00:12:48,480

and there is talk that uh there are side

328

00:12:53,670 --> 00:12:50,399

tunnels that have been blocked

329

00:12:57,110 --> 00:12:53,680

that uh connect with the tunnel system

330

00:12:58,870 --> 00:12:57,120

for example underneath the um the sphinx

331

00:13:01,030 --> 00:12:58,880

which has been proven through

332

00:13:02,550 --> 00:13:01,040

videos that have been taken so it's a

333

00:13:05,910 --> 00:13:02,560

it's a very enigmatic

334

00:13:07,550 --> 00:13:05,920

uh thing the amount of material that

335

00:13:09,509 --> 00:13:07,560

would have had to have been removed is

336

00:13:10,870 --> 00:13:09,519

astronomical so

337

00:13:13,350 --> 00:13:10,880

the idea that it was some kind of

338

00:13:15,030 --> 00:13:13,360

symbolic tomb doesn't mean anything it

339

00:13:16,550 --> 00:13:15,040

looks to me like it was some very

340

00:13:19,670 --> 00:13:16,560

pragmatic

341

00:13:22,550 --> 00:13:19,680

um energetic

342

00:13:23,910 --> 00:13:22,560

system part of the whole tunnel and

343

00:13:27,269 --> 00:13:23,920

shaft systems that

344

00:13:29,990 --> 00:13:27,279

literally riddles the giza plateau and

345

00:13:31,590 --> 00:13:30,000

the interesting thing is you you i'm

346

00:13:33,269 --> 00:13:31,600

going to touch on a couple points you

347

00:13:35,750 --> 00:13:33,279

happen to mention

348

00:13:37,190 --> 00:13:35,760

the tunnels under the sphinx which is

349

00:13:40,069 --> 00:13:37,200

kind of a no-no

350

00:13:41,269 --> 00:13:40,079

and it's something that i first became

351

00:13:43,110 --> 00:13:41,279

aware of

352

00:13:44,949 --> 00:13:43,120

believe it or not during a remote

353

00:13:48,069 --> 00:13:44,959

viewing course

354

00:13:51,430 --> 00:13:48,079

and uh we anyway

355

00:13:53,030 --> 00:13:51,440

that's a whole other story but the

356

00:13:54,629 --> 00:13:53,040

the fact that this has actually been

357

00:13:57,990 --> 00:13:54,639

proven at this point

358

00:14:00,790 --> 00:13:58,000

and that the tunnels are there

359

00:14:01,990 --> 00:14:00,800

is is pretty significant especially when

360

00:14:04,710 --> 00:14:02,000

you look at the sphinx

361

00:14:06,949 --> 00:14:04,720

it looks so out of place with the with

362

00:14:09,829 --> 00:14:06,959

with the rest of the environment

363

00:14:11,030 --> 00:14:09,839

it's pretty wild and i wanted to also

364

00:14:14,949 --> 00:14:11,040

ask you

365

00:14:17,829 --> 00:14:14,959

um these machines these uh

366

00:14:18,470 --> 00:14:17,839

the these machines if you were to guess

367

00:14:20,710 --> 00:14:18,480

what they

368

00:14:23,430 --> 00:14:20,720

i know this is a big question but

369

00:14:25,590 --> 00:14:23,440

guessing what they may have been

370

00:14:26,710 --> 00:14:25,600

is is it impossible or do you have any

371

00:14:29,990 --> 00:14:26,720

ideas or

372

00:14:33,189 --> 00:14:30,000

uh have you come across any remnants

373

00:14:35,509 --> 00:14:33,199

or shadows of that give you ideas of

374

00:14:36,629 --> 00:14:35,519

possibly what kind of machinery may have

375

00:14:40,230 --> 00:14:36,639

been used

376

00:14:44,230 --> 00:14:40,240

uh there are lots of drill holes which

377

00:14:46,310 --> 00:14:44,240

are in the granite rock especially

378

00:14:48,230 --> 00:14:46,320

at sites like abu seer they're probably

379

00:14:49,750 --> 00:14:48,240

50 to 100 of them they're different

380

00:14:53,350 --> 00:14:49,760

shapes and sizes

381

00:14:57,189 --> 00:14:53,360

but perfectly round and then

382

00:14:59,750 --> 00:14:57,199

straight saws and even circular saws

383

00:15:00,790 --> 00:14:59,760

at atmosphere there's evidence of a

384

00:15:03,750 --> 00:15:00,800

circular saw

385

00:15:06,069 --> 00:15:03,760

approximately 20 feet in diameter and

386

00:15:08,150 --> 00:15:06,079

about 3/16 of an inch thick and we don't

387

00:15:10,150 --> 00:15:08,160

have any material

388

00:15:11,430 --> 00:15:10,160

that i know of that you could make a saw

389

00:15:14,629 --> 00:15:11,440

blade that thin

390

00:15:18,870 --> 00:15:14,639

and that big so there's definitely that

391

00:15:21,670 --> 00:15:18,880

um and then these very interesting

392

00:15:22,389 --> 00:15:21,680

almost claw marks near the second

393

00:15:25,430 --> 00:15:22,399

pyramid in

394

00:15:27,670 --> 00:15:25,440

in the walls they had to cut down

395

00:15:29,829 --> 00:15:27,680

and level that area of the plateau in

396

00:15:32,870 --> 00:15:29,839

order to build the second pyramid

397

00:15:34,949 --> 00:15:32,880

and um and so you see these machining

398

00:15:35,829 --> 00:15:34,959

marks in the walls there it's almost

399

00:15:38,949 --> 00:15:35,839

like

400

00:15:42,310 --> 00:15:38,959

but they're

401  
00:15:44,069 --> 00:15:42,320  
in a definite pattern so it's not like

402  
00:15:46,550 --> 00:15:44,079  
hand chisels were used because any

403  
00:15:47,910 --> 00:15:46,560  
sculptor would be

404  
00:15:49,670 --> 00:15:47,920  
cutting in different directions

405  
00:15:51,350 --> 00:15:49,680  
different angles in order to achieve

406  
00:15:53,509 --> 00:15:51,360  
removal of material so this was

407  
00:15:56,470 --> 00:15:53,519  
definitely a coordinated

408  
00:15:57,189 --> 00:15:56,480  
machine of some kind it's amazing that

409  
00:15:59,590 --> 00:15:57,199  
these

410  
00:16:02,150 --> 00:15:59,600  
marks are still there after such an

411  
00:16:04,790 --> 00:16:02,160  
incredibly long time so we see lots of

412  
00:16:07,269 --> 00:16:04,800  
evidence of machine marks also some of

413  
00:16:10,230 --> 00:16:07,279

the products that were produced you were

414

00:16:11,430 --> 00:16:10,240

mentioning the disc and that was found

415

00:16:14,949 --> 00:16:11,440

under the

416

00:16:18,389 --> 00:16:14,959

uh step pyramid of sakara along with

417

00:16:21,269 --> 00:16:18,399

about 35 000 turned hard stone

418

00:16:23,350 --> 00:16:21,279

bowls in place and those could only have

419

00:16:26,150 --> 00:16:23,360

been made on some kind

420

00:16:26,470 --> 00:16:26,160

of very efficient lathe and when you see

421

00:16:36,230 --> 00:16:26,480

the

422

00:16:38,870 --> 00:16:36,240

pre-dynastic

423

00:16:41,030 --> 00:16:38,880

so that's kind of uh they do make little

424

00:16:43,350 --> 00:16:41,040

slips like that once in a while

425

00:16:45,269 --> 00:16:43,360

um or actually they use the term archaic

426

00:16:47,509 --> 00:16:45,279

meaning pre-dynastic and these

427

00:16:49,030 --> 00:16:47,519

you know these had to have been done on

428

00:16:51,670 --> 00:16:49,040

uh lays that were

429

00:16:52,550 --> 00:16:51,680

powered by motors obviously wasn't done

430

00:16:58,230 --> 00:16:52,560

by

431

00:16:59,749 --> 00:16:58,240

a bull walking around in circles or

432

00:17:00,629 --> 00:16:59,759

something like that so there's tons of

433

00:17:02,629 --> 00:17:00,639

evidence of that

434

00:17:04,309 --> 00:17:02,639

in peru it's even more mysterious

435

00:17:07,669 --> 00:17:04,319

because you don't see

436

00:17:11,669 --> 00:17:07,679

uh machine marks almost at all

437

00:17:15,189 --> 00:17:11,679

it's peru's even more mysterious than uh

438

00:17:19,189 --> 00:17:17,909

it's interesting you say that peru has a

439

00:17:21,669 --> 00:17:19,199

rich history

440

00:17:24,069 --> 00:17:21,679

that is you know you start getting into

441

00:17:27,669 --> 00:17:24,079

it and the connections with

442

00:17:31,110 --> 00:17:27,679

uh widacocha and

443

00:17:34,230 --> 00:17:31,120

the other similar entities and deities

444

00:17:36,950 --> 00:17:34,240

found along the quote-unquote path but

445

00:17:38,150 --> 00:17:36,960

um jumping to kind of that realm a

446

00:17:40,150 --> 00:17:38,160

little bit

447

00:17:41,669 --> 00:17:40,160

yeah could you wait a moment i have to

448

00:17:43,190 --> 00:17:41,679

close the window someone's got a leaf

449

00:17:45,990 --> 00:17:43,200

blower outside

450

00:17:47,590 --> 00:17:46,000

yeah no problem okay sorry about that

451  
00:17:48,789 --> 00:17:47,600  
ryan you were asking about the elongated

452  
00:17:51,270 --> 00:17:48,799  
skulls

453  
00:17:52,630 --> 00:17:51,280  
yeah it's such a fascinating subject

454  
00:17:55,350 --> 00:17:52,640  
that seems to have been

455  
00:17:57,350 --> 00:17:55,360  
kind of uh explained away in the past

456  
00:17:59,909 --> 00:17:57,360  
with the binding of skulls

457  
00:18:01,430 --> 00:17:59,919  
and this practice but you've uncovered a

458  
00:18:04,470 --> 00:18:01,440  
whole lot more than

459  
00:18:06,710 --> 00:18:04,480  
just that yeah definitely well um

460  
00:18:08,230 --> 00:18:06,720  
if you look up any academic paper

461  
00:18:11,270 --> 00:18:08,240  
related to

462  
00:18:13,750 --> 00:18:11,280  
cranial deformation or elongated skulls

463  
00:18:15,110 --> 00:18:13,760

they always say that it was the result

464

00:18:19,270 --> 00:18:15,120

of of head binding or

465

00:18:21,110 --> 00:18:19,280

cranial deformation of infants um

466

00:18:23,350 --> 00:18:21,120

and that's the case in most ancient

467

00:18:25,750 --> 00:18:23,360

cultures that you find where you

468

00:18:27,110 --> 00:18:25,760

like where you find cranial deformation

469

00:18:29,350 --> 00:18:27,120

but in the case of

470

00:18:30,470 --> 00:18:29,360

the paracas culture here on the coast of

471

00:18:33,590 --> 00:18:30,480

peru

472

00:18:34,070 --> 00:18:33,600

and to some degree up in cusco too you

473

00:18:37,270 --> 00:18:34,080

see

474

00:18:38,230 --> 00:18:37,280

very distinguishing features which can't

475

00:18:41,110 --> 00:18:38,240

be explained

476  
00:18:41,990 --> 00:18:41,120  
by cranial deformation the major one

477  
00:18:44,710 --> 00:18:42,000  
being

478  
00:18:47,669 --> 00:18:44,720  
that the cranial volume is in some cases

479  
00:18:50,710 --> 00:18:47,679  
30 percent larger than a normal brain

480  
00:18:53,190 --> 00:18:50,720  
uh the head shape is far

481  
00:18:55,750 --> 00:18:53,200  
too complex in terms of compound

482  
00:18:57,590 --> 00:18:55,760  
curvature to be explained away by

483  
00:19:00,789 --> 00:18:57,600  
binding the head

484  
00:19:03,909 --> 00:19:00,799  
the eye sockets are larger the jaw

485  
00:19:05,110 --> 00:19:03,919  
is much more robust than a normal human

486  
00:19:06,789 --> 00:19:05,120  
being

487  
00:19:08,549 --> 00:19:06,799  
there are two holes in the back of the

488  
00:19:10,310 --> 00:19:08,559

skull which appear to be

489

00:19:12,230 --> 00:19:10,320

like very small holes that appear to be

490

00:19:15,430 --> 00:19:12,240

for blood and nerve flow

491

00:19:17,990 --> 00:19:15,440

and also the sagittal suture which is

492

00:19:18,870 --> 00:19:18,000

one of the two main suture lines on any

493

00:19:22,950 --> 00:19:18,880

human skull

494

00:19:26,390 --> 00:19:22,960

is completely missing so all of those

495

00:19:28,549 --> 00:19:26,400

aspects make uh make these ones on the

496

00:19:32,230 --> 00:19:28,559

coast of peru very

497

00:19:33,430 --> 00:19:32,240

um very different and we've done dna

498

00:19:35,510 --> 00:19:33,440

testing

499

00:19:36,630 --> 00:19:35,520

showing that these people were

500

00:19:39,590 --> 00:19:36,640

originally not

501  
00:19:40,789 --> 00:19:39,600  
native american but migrated somehow

502  
00:19:43,909 --> 00:19:40,799  
from the area of

503  
00:19:45,350 --> 00:19:43,919  
eurasia like the black sea area it's

504  
00:19:46,789 --> 00:19:45,360  
pretty amazing that some of the

505  
00:19:49,750 --> 00:19:46,799  
distances

506  
00:19:50,710 --> 00:19:49,760  
gosh it seems like on a lot of these

507  
00:19:53,510 --> 00:19:50,720  
megalithic

508  
00:19:54,549 --> 00:19:53,520  
structure structures i apologize the

509  
00:19:56,390 --> 00:19:54,559  
distances

510  
00:19:58,230 --> 00:19:56,400  
that it takes to get the materials

511  
00:20:01,669 --> 00:19:58,240  
required seems to be

512  
00:20:08,870 --> 00:20:05,350  
oh very much so uh in peru not

513  
00:20:11,909 --> 00:20:08,880

like in peru not as much uh

514

00:20:14,470 --> 00:20:11,919

most of ancient cusco is is made of uh

515

00:20:15,669 --> 00:20:14,480

basalt or basalt and it comes from a

516

00:20:18,870 --> 00:20:15,679

quarry

517

00:20:20,710 --> 00:20:18,880

which is 45 miles from the city of

518

00:20:22,470 --> 00:20:20,720

so that's uh you know that's quite a

519

00:20:24,070 --> 00:20:22,480

distance to move multi-ton blocks when

520

00:20:26,789 --> 00:20:24,080

you don't have any

521

00:20:28,630 --> 00:20:26,799

beasts of burden or people who would be

522

00:20:32,149 --> 00:20:28,640

strong enough to be able to carry

523

00:20:33,029 --> 00:20:32,159

um no evidence of any kind of carts or

524

00:20:36,149 --> 00:20:33,039

anything like that

525

00:20:39,350 --> 00:20:36,159

having been made and then in in egypt

526

00:20:42,470 --> 00:20:39,360

and uh lebanon it's

527

00:20:46,230 --> 00:20:42,480

even more bizarre so the

528

00:20:48,470 --> 00:20:46,240

the main granite quarry is at aswan

529

00:20:49,510 --> 00:20:48,480

which is in the very south like almost

530

00:20:52,230 --> 00:20:49,520

at the border

531

00:20:54,070 --> 00:20:52,240

very south of egypt and the granite was

532

00:20:57,590 --> 00:20:54,080

moved up to

533

00:20:59,190 --> 00:20:57,600

the giza plateau to be incorporated into

534

00:21:00,789 --> 00:20:59,200

the internal structure of the great

535

00:21:02,310 --> 00:21:00,799

pyramid so that's a distance of

536

00:21:05,750 --> 00:21:02,320

something like

537

00:21:07,350 --> 00:21:05,760

400 to 500 miles uh

538

00:21:09,430 --> 00:21:07,360

no evidence that they were able to build

539

00:21:11,909 --> 00:21:09,440

giant rafts to

540

00:21:13,830 --> 00:21:11,919

to carry them and then when you get to

541

00:21:16,470 --> 00:21:13,840

another site called tanis which is in

542

00:21:20,230 --> 00:21:16,480

the Nile delta in very northern

543

00:21:24,789 --> 00:21:20,240

Egypt that's moving a distance of six

544

00:21:28,149 --> 00:21:24,799

600 to 700 uh miles so you're talking

545

00:21:31,430 --> 00:21:28,159

some objects like obelisk that weighed

546

00:21:34,630 --> 00:21:31,440

in the nature of 200 to 300 tons uh

547

00:21:35,190 --> 00:21:34,640

and not close to the Nile uh and then

548

00:21:37,990 --> 00:21:35,200

when you're

549

00:21:40,390 --> 00:21:38,000

at uh in Lebanon there are at the site

550

00:21:41,990 --> 00:21:40,400

of Balbec there are about 300 broken

551  
00:21:45,029 --> 00:21:42,000  
columns of granite

552  
00:21:46,870 --> 00:21:45,039  
which again likely came from uh

553  
00:21:48,630 --> 00:21:46,880  
the as1 quarry so that's moving a

554  
00:21:52,149 --> 00:21:48,640  
distance of

555  
00:21:55,909 --> 00:21:52,159  
about a thousand miles so

556  
00:21:56,310 --> 00:21:55,919  
that's you know that's a long distance

557  
00:22:00,310 --> 00:21:56,320  
to

558  
00:22:02,789 --> 00:22:00,320  
reasonings

559  
00:22:03,669 --> 00:22:02,799  
behind it seems to be that it didn't

560  
00:22:06,310 --> 00:22:03,679  
matter

561  
00:22:07,029 --> 00:22:06,320  
where the quarry was that quality of

562  
00:22:09,110 --> 00:22:07,039  
material

563  
00:22:11,190 --> 00:22:09,120

is what was required for the job so they

564

00:22:11,990 --> 00:22:11,200

would go whatever distance they needed

565

00:22:14,870 --> 00:22:12,000

in order to move

566

00:22:15,350 --> 00:22:14,880

it the question is how did they move it

567

00:22:18,390 --> 00:22:15,360

and

568

00:22:19,029 --> 00:22:18,400

a lot of the current explanations uh

569

00:22:21,669 --> 00:22:19,039

just don't

570

00:22:24,390 --> 00:22:21,679

cut it i mean i i've heard a lot of the

571

00:22:27,990 --> 00:22:24,400

current explanations of you know these

572

00:22:29,590 --> 00:22:28,000

workers we're using bronze chisels in

573

00:22:31,830 --> 00:22:29,600

some of these locations and

574

00:22:33,909 --> 00:22:31,840

we know those aren't very efficient and

575

00:22:36,070 --> 00:22:33,919

some of the explanations have been

576

00:22:38,070 --> 00:22:36,080

inadequate i think on both those fronts

577

00:22:41,430 --> 00:22:38,080

i think that the more realistic

578

00:22:44,789 --> 00:22:41,440

explanations uh are obvious

579

00:22:47,270 --> 00:22:44,799

yeah definitely um you

580

00:22:48,789 --> 00:22:47,280

of course the unfinished obelisk they

581

00:22:52,230 --> 00:22:48,799

show you a little film

582

00:22:54,230 --> 00:22:52,240

at aswan where the unfinished obelisk is

583

00:22:55,909 --> 00:22:54,240

which would have weighed 1200 tons if it

584

00:22:57,190 --> 00:22:55,919

had ever been completed so they played

585

00:22:59,270 --> 00:22:57,200

this little

586

00:23:00,390 --> 00:22:59,280

rather corny video before you're allowed

587

00:23:03,590 --> 00:23:00,400

to go to the quarry

588

00:23:07,350 --> 00:23:03,600

and they physically show

589

00:23:09,510 --> 00:23:07,360

people with stone uh stone ball hammers

590

00:23:11,909 --> 00:23:09,520

pounding away at the obelisk in order to

591

00:23:14,390 --> 00:23:11,919

be able to shape it but the stone

592

00:23:16,390 --> 00:23:14,400

that the hammers are made of is more or

593

00:23:17,909 --> 00:23:16,400

less the same hardness as the obelisk

594

00:23:20,870 --> 00:23:17,919

itself so that's

595

00:23:22,070 --> 00:23:20,880

hardly a an efficient way to to do

596

00:23:24,149 --> 00:23:22,080

things and

597

00:23:25,430 --> 00:23:24,159

since they have these stone ball hammers

598

00:23:27,350 --> 00:23:25,440

lying around

599

00:23:28,630 --> 00:23:27,360

you're actually allowed to pick them up

600

00:23:31,430 --> 00:23:28,640

and

601  
00:23:33,830 --> 00:23:31,440  
attempt to uh remove some of the granite

602  
00:23:36,549 --> 00:23:33,840  
material by pounding away yourself and

603  
00:23:37,590 --> 00:23:36,559  
your hands get very tired within about a

604  
00:23:39,430 --> 00:23:37,600  
minute

605  
00:23:40,950 --> 00:23:39,440  
so the idea that this was done eight

606  
00:23:43,590 --> 00:23:40,960  
hours a day

607  
00:23:45,269 --> 00:23:43,600  
by a bunch of workers drinking beer is

608  
00:23:48,470 --> 00:23:45,279  
completely illogical

609  
00:23:51,750 --> 00:23:48,480  
we also see these very fascinating

610  
00:23:55,350 --> 00:23:51,760  
scoop marks which are about two feet in

611  
00:23:57,990 --> 00:23:55,360  
uh in diameter all the same profile

612  
00:23:58,710 --> 00:23:58,000  
all the same shape and that appears to

613  
00:24:01,990 --> 00:23:58,720

be the

614

00:24:04,310 --> 00:24:02,000

ancient technology that was utilized

615

00:24:06,310 --> 00:24:04,320

originally to shape the um

616

00:24:08,390 --> 00:24:06,320

shape the obelisk the reason why it was

617

00:24:11,510 --> 00:24:08,400

never finished appears to be

618

00:24:13,190 --> 00:24:11,520

that a giant crack was discovered in the

619

00:24:15,669 --> 00:24:13,200

obelisk as they were working

620

00:24:16,830 --> 00:24:15,679

on it and uh they simply abandoned the

621

00:24:19,669 --> 00:24:16,840

project

622

00:24:22,870 --> 00:24:19,679

fascinating and the

623

00:24:24,070 --> 00:24:22,880

the reality is near you you have some of

624

00:24:27,669 --> 00:24:24,080

the most amazing

625

00:24:30,630 --> 00:24:27,679

megalithic structures one is um

626  
00:24:33,590 --> 00:24:30,640  
the i believe it's called the saxa uma

627  
00:24:38,470 --> 00:24:35,669  
could we go into that a little bit

628  
00:24:41,669 --> 00:24:38,480  
because i was fascinated just

629  
00:24:43,940 --> 00:24:41,679  
how how that came about and where

630  
00:24:45,750 --> 00:24:43,950  
how it sits everything about it

631  
00:24:48,870 --> 00:24:45,760  
[Music]

632  
00:24:52,149 --> 00:24:48,880  
sure well uh of course the academics

633  
00:24:55,350 --> 00:24:52,159  
explained that away is being having

634  
00:24:58,390 --> 00:24:55,360  
100 been constructed by the inca but

635  
00:24:59,029 --> 00:24:58,400  
uh the most prominent feature there is a

636  
00:25:02,310 --> 00:24:59,039  
zigzag

637  
00:25:03,190 --> 00:25:02,320  
wall that stretches for at least 500

638  
00:25:05,110 --> 00:25:03,200

feet

639

00:25:06,470 --> 00:25:05,120

it could be the largest megalithic wall

640

00:25:09,350 --> 00:25:06,480

in the world

641

00:25:11,430 --> 00:25:09,360

and some of this it's got three levels

642

00:25:11,909 --> 00:25:11,440

uh the largest stones are at the bottom

643

00:25:14,669 --> 00:25:11,919

level

644

00:25:16,789 --> 00:25:14,679

and some of the stones there weigh up to

645

00:25:18,950 --> 00:25:16,799

125 tons

646

00:25:19,909 --> 00:25:18,960

and the quarry is a minimum of three

647

00:25:23,430 --> 00:25:19,919

miles away

648

00:25:24,950 --> 00:25:23,440

over a series of mountains so

649

00:25:26,870 --> 00:25:24,960

the idea that the anchor were cutting

650

00:25:29,909 --> 00:25:26,880

these giant blocks out and moving them

651  
00:25:33,510 --> 00:25:29,919  
and fitting fitting them together

652  
00:25:36,710 --> 00:25:33,520  
seamlessly without mortar is clearly

653  
00:25:38,149 --> 00:25:36,720  
impossible so that the spanish

654  
00:25:41,669 --> 00:25:38,159  
chronicles write about

655  
00:25:43,909 --> 00:25:41,679  
the idea that the uh the inca built

656  
00:25:45,510 --> 00:25:43,919  
more likely that they built at saksay

657  
00:25:48,630 --> 00:25:45,520  
woman because there's

658  
00:25:49,110 --> 00:25:48,640  
a lot of the i'd say probably 70 percent

659  
00:25:51,190 --> 00:25:49,120  
of saks

660  
00:25:52,390 --> 00:25:51,200  
woman which is or saksa uma which is a

661  
00:25:55,430 --> 00:25:52,400  
huge site

662  
00:25:55,990 --> 00:25:55,440  
uh was done by the inca but that's using

663  
00:25:59,110 --> 00:25:56,000

smaller

664

00:26:02,310 --> 00:25:59,120

rougher stones with clay mortar as a

665

00:26:05,510 --> 00:26:02,320

as an adhesive um and that

666

00:26:09,190 --> 00:26:05,520

completely contrasts with these giant

667

00:26:12,070 --> 00:26:09,200

megalithic inter interlocking blocks

668

00:26:12,870 --> 00:26:12,080

uh so it's one of the most breathtaking

669

00:26:16,230 --> 00:26:12,880

sights

670

00:26:17,750 --> 00:26:16,240

um on the planet of any place of

671

00:26:20,950 --> 00:26:17,760

antiquity

672

00:26:24,470 --> 00:26:20,960

it really is and it's magical it has

673

00:26:28,549 --> 00:26:24,480

uh so so many characteristics that seem

674

00:26:31,510 --> 00:26:28,559

unlikely but to be made by those who

675

00:26:32,149 --> 00:26:31,520

are there now but then again we find the

676  
00:26:35,350 --> 00:26:32,159  
same

677  
00:26:36,070 --> 00:26:35,360  
similarities as you mentioned briefly in

678  
00:26:39,510 --> 00:26:36,080  
egypt

679  
00:26:42,710 --> 00:26:39,520  
and other places and you know

680  
00:26:45,269 --> 00:26:42,720  
i can see how easy this has

681  
00:26:46,149 --> 00:26:45,279  
been to fulfill when when there's not a

682  
00:26:48,149 --> 00:26:46,159  
whole lot of

683  
00:26:49,190 --> 00:26:48,159  
effort to uncover some of the deeper

684  
00:26:51,510 --> 00:26:49,200  
mysteries

685  
00:26:52,230 --> 00:26:51,520  
i heard that there may be more than 80

686  
00:26:56,230 --> 00:26:52,240  
percent

687  
00:27:03,110 --> 00:26:59,909  
yeah that's true and even uh even

688  
00:27:04,950 --> 00:27:03,120

who was the ex-uh head of

689

00:27:07,029 --> 00:27:04,960

the supreme council of antiquities

690

00:27:09,669 --> 00:27:07,039

supposedly stated that at least

691

00:27:10,549 --> 00:27:09,679

85 percent of ancient egypt is yet to be

692

00:27:12,950 --> 00:27:10,559

rediscovered

693

00:27:13,830 --> 00:27:12,960

most people think that that means that

694

00:27:16,470 --> 00:27:13,840

they have to dig

695

00:27:17,669 --> 00:27:16,480

into the sand but what it really means

696

00:27:20,950 --> 00:27:17,679

is that

697

00:27:24,070 --> 00:27:20,960

most of ancient egypt pre-dynastic egypt

698

00:27:25,350 --> 00:27:24,080

is was constructed underground in the

699

00:27:28,710 --> 00:27:25,360

bedrock itself

700

00:27:31,269 --> 00:27:28,720

so i've been fortunate to be able to go

701  
00:27:32,789 --> 00:27:31,279  
four stories under the giza plateau

702  
00:27:35,269 --> 00:27:32,799  
aside from the

703  
00:27:36,310 --> 00:27:35,279  
osiris shaft but another location i was

704  
00:27:38,470 --> 00:27:36,320  
taken to

705  
00:27:40,549 --> 00:27:38,480  
and the system keeps going down it's

706  
00:27:42,470 --> 00:27:40,559  
just we were running out of time

707  
00:27:44,389 --> 00:27:42,480  
uh when i had a private tour with yusuf

708  
00:27:45,350 --> 00:27:44,399  
aoian and he said you want to keep going

709  
00:27:46,789 --> 00:27:45,360  
and i said

710  
00:27:48,870 --> 00:27:46,799  
i think we're going to be kicked out

711  
00:27:51,190 --> 00:27:48,880  
pretty soon but

712  
00:27:53,510 --> 00:27:51,200  
yeah that's definitely the case

713  
00:27:54,389 --> 00:27:53,520

supposedly there are tunnel systems as

714

00:27:58,070 --> 00:27:54,399

well

715

00:28:01,510 --> 00:27:58,080

that connects um the giza plateau with

716

00:28:03,269 --> 00:28:01,520

karnak which is at least 200 miles away

717

00:28:04,789 --> 00:28:03,279

uh i don't have personal evidence of

718

00:28:07,510 --> 00:28:04,799

that but i have been

719

00:28:09,190 --> 00:28:07,520

in underground tunnel systems in the

720

00:28:10,389 --> 00:28:09,200

valley of the kings in the valley of the

721

00:28:13,750 --> 00:28:10,399

queens

722

00:28:16,230 --> 00:28:13,760

uh that's in central egypt and uh

723

00:28:18,310 --> 00:28:16,240

the the guide we had there or the man

724

00:28:20,310 --> 00:28:18,320

who was in control of the keys because

725

00:28:21,269 --> 00:28:20,320

it's completely off off limits to the

726

00:28:22,789 --> 00:28:21,279

public but

727

00:28:26,310 --> 00:28:22,799

if you have a bit of influence you're

728

00:28:29,669 --> 00:28:26,320

allowed to uh to go to sites that um

729

00:28:30,549 --> 00:28:29,679

are supposedly forbidden he said that uh

730

00:28:32,950 --> 00:28:30,559

the tunnels

731

00:28:33,750 --> 00:28:32,960

connect the valley of the kings with the

732

00:28:36,310 --> 00:28:33,760

valley of the

733

00:28:38,630 --> 00:28:36,320

of of the queens which nobody else ever

734

00:28:40,470 --> 00:28:38,640

writes about but i think that's uh

735

00:28:43,029 --> 00:28:40,480

that makes a lot of sense that even all

736

00:28:44,149 --> 00:28:43,039

of the massive tomb shafts that are

737

00:28:45,830 --> 00:28:44,159

located

738

00:28:47,269 --> 00:28:45,840

in the valley of the kings and valleys

739

00:28:49,750 --> 00:28:47,279

the queens were

740

00:28:51,190 --> 00:28:49,760

not made by the dynastic people they

741

00:28:53,990 --> 00:28:51,200

were discovered by them

742

00:28:55,110 --> 00:28:54,000

and simply utilized as places to bury

743

00:28:57,990 --> 00:28:55,120

their dead

744

00:28:58,470 --> 00:28:58,000

i'm glad you mentioned that because it

745

00:29:01,750 --> 00:28:58,480

seems

746

00:29:04,950 --> 00:29:01,760

like uh that

747

00:29:07,990 --> 00:29:04,960

the dynastic peoples often times

748

00:29:10,789 --> 00:29:08,000

tried to replicate this and they did

749

00:29:12,070 --> 00:29:10,799

an okay job but not not not to the

750

00:29:13,750 --> 00:29:12,080

extent that they actually

751  
00:29:16,630 --> 00:29:13,760  
replicated it it was more reverse

752  
00:29:18,389 --> 00:29:16,640  
engineering it and i also think that the

753  
00:29:19,190 --> 00:29:18,399  
i'm glad you brought up the burials

754  
00:29:21,430 --> 00:29:19,200  
because

755  
00:29:23,430 --> 00:29:21,440  
burials are so often used as an

756  
00:29:25,269 --> 00:29:23,440  
explanation to the pyramids and other

757  
00:29:25,990 --> 00:29:25,279  
things and they have absolutely nothing

758  
00:29:29,350 --> 00:29:26,000  
to do with that

759  
00:29:32,710 --> 00:29:29,360  
could we go into that a little bit brian

760  
00:29:35,590 --> 00:29:32,720  
oh sure well of course uh

761  
00:29:37,350 --> 00:29:35,600  
thankfully now the um the idea that the

762  
00:29:39,510 --> 00:29:37,360  
great pyramids were

763  
00:29:41,990 --> 00:29:39,520

were tombs were like were built on

764

00:29:45,269 --> 00:29:42,000

purpose by the dynastic people as

765

00:29:47,590 --> 00:29:45,279

tombs for the royalty uh that whole

766

00:29:52,310 --> 00:29:47,600

concept is losing favor

767

00:29:54,789 --> 00:29:52,320

uh to those who have eyes to see

768

00:29:57,510 --> 00:29:54,799

as i said there are lots of tunnels and

769

00:30:00,230 --> 00:29:57,520

shafts around the gisa plateau areas

770

00:30:02,789 --> 00:30:00,240

lots of uh of chambers that have machine

771

00:30:04,470 --> 00:30:02,799

marks in the walls and things

772

00:30:07,269 --> 00:30:04,480

and when the dynastic people first

773

00:30:07,669 --> 00:30:07,279

arrived in that area some 5 000 years

774

00:30:11,269 --> 00:30:07,679

ago

775

00:30:13,750 --> 00:30:11,279

if you if you found all of these

776

00:30:14,389 --> 00:30:13,760

chambers you would of course utilize

777

00:30:15,990 --> 00:30:14,399

them

778

00:30:17,430 --> 00:30:16,000

to bury your dead because that means

779

00:30:18,950 --> 00:30:17,440

that you didn't have to actually make

780

00:30:22,230 --> 00:30:18,960

the chambers yourself so there are

781

00:30:23,190 --> 00:30:22,240

thousands of these located in the giza

782

00:30:25,029 --> 00:30:23,200

plateau

783

00:30:26,470 --> 00:30:25,039

and surrounding area that were

784

00:30:30,070 --> 00:30:26,480

definitely used

785

00:30:32,149 --> 00:30:30,080

as places of bailly

786

00:30:33,909 --> 00:30:32,159

but they weren't made by the dynastic

787

00:30:35,990 --> 00:30:33,919

people for that purpose

788

00:30:38,549 --> 00:30:36,000

they simply utilized what they found in

789

00:30:42,630 --> 00:30:38,559

place and why not there's so

790

00:30:45,350 --> 00:30:42,640

so many so much of it and so um

791

00:30:47,110 --> 00:30:45,360

it it's it's so reverent it's obviously

792

00:30:49,110 --> 00:30:47,120

you know being a dynastic people they

793

00:30:51,190 --> 00:30:49,120

would think that this was

794

00:30:52,310 --> 00:30:51,200

important because it's ancient or older

795

00:30:55,190 --> 00:30:52,320

than themselves

796

00:30:56,950 --> 00:30:55,200

and therefore has reverence and it all

797

00:30:58,710 --> 00:30:56,960

makes sense it's really

798

00:31:01,269 --> 00:30:58,720

pretty amazing how this is played out

799

00:31:02,389 --> 00:31:01,279

but i wanted to touch on something a

800

00:31:06,149 --> 00:31:02,399

little odd

801  
00:31:06,789 --> 00:31:06,159  
and that is the well the just the boots

802  
00:31:10,070 --> 00:31:06,799  
on the ground

803  
00:31:12,950 --> 00:31:10,080  
stories of locals

804  
00:31:15,269 --> 00:31:12,960  
etc and some of the cultural

805  
00:31:15,669 --> 00:31:15,279  
explanations that don't see the light of

806  
00:31:18,950 --> 00:31:15,679  
day

807  
00:31:22,230 --> 00:31:18,960  
as often as they should of course

808  
00:31:24,389 --> 00:31:22,240  
the more that you are able to visit a lo

809  
00:31:25,830 --> 00:31:24,399  
an ancient location like this the more

810  
00:31:29,509 --> 00:31:25,840  
you're able to

811  
00:31:32,389 --> 00:31:29,519  
come in contact with local experts

812  
00:31:34,549 --> 00:31:32,399  
some of whom are the ones who are the

813  
00:31:36,230 --> 00:31:34,559

so-called keepers of the keys because at

814

00:31:39,509 --> 00:31:36,240

each ancient site

815

00:31:42,149 --> 00:31:39,519

you'll have in general one older man

816

00:31:43,830 --> 00:31:42,159

who is in charge of the entire location

817

00:31:44,950 --> 00:31:43,840

and he is literally the holder of the

818

00:31:47,509 --> 00:31:44,960

keys

819

00:31:48,710 --> 00:31:47,519

so doors that are locked can sometimes

820

00:31:52,310 --> 00:31:48,720

be unlocked

821

00:31:55,509 --> 00:31:52,320

um if if they like you and and

822

00:31:57,509 --> 00:31:55,519

you know if you give them a donation

823

00:31:58,549 --> 00:31:57,519

uh which is something of course egypt is

824

00:32:00,870 --> 00:31:58,559

desperate for now

825

00:32:02,870 --> 00:32:00,880

due to the lack of tourism which is

826

00:32:03,909 --> 00:32:02,880

finally starting to come back though so

827

00:32:07,269 --> 00:32:03,919

i've had

828

00:32:09,830 --> 00:32:07,279

uh the great fortune to be able to

829

00:32:12,549 --> 00:32:09,840

get access to locations that are

830

00:32:15,110 --> 00:32:12,559

technically forbidden

831

00:32:16,630 --> 00:32:15,120

due to local influence of the the

832

00:32:20,230 --> 00:32:16,640

keepers of the sites

833

00:32:23,830 --> 00:32:20,240

amazing amazing and i i wanted to

834

00:32:25,990 --> 00:32:23,840

talk about that because uh people often

835

00:32:28,149 --> 00:32:26,000

look back in history and they they

836

00:32:30,950 --> 00:32:28,159

disregard things like oh aleister

837

00:32:32,710 --> 00:32:30,960

crowley got access to the pyramid

838

00:32:34,789 --> 00:32:32,720

saying that could have never happened

839

00:32:36,310 --> 00:32:34,799

when in reality it was probably easier

840

00:32:40,950 --> 00:32:36,320

then than it is now

841

00:32:44,070 --> 00:32:40,960

and um it seems like these locations

842

00:32:47,190 --> 00:32:44,080

are becoming well you

843

00:32:47,750 --> 00:32:47,200

you have a very unique view of them

844

00:32:50,549 --> 00:32:47,760

because you

845

00:32:51,430 --> 00:32:50,559

are able to get past the veil that most

846

00:32:55,590 --> 00:32:51,440

aren't

847

00:32:58,149 --> 00:32:55,600

and it as far as your own theories

848

00:32:59,669 --> 00:32:58,159

and this is i know so hard because it's

849

00:33:02,870 --> 00:32:59,679

impossible to know

850

00:33:07,110 --> 00:33:02,880

but your own theories as to who these

851  
00:33:11,110 --> 00:33:07,120  
amazing creators may have been

852  
00:33:13,590 --> 00:33:11,120  
in some of these areas if not the same

853  
00:33:14,549 --> 00:33:13,600  
well that of course is is the biggest

854  
00:33:15,909 --> 00:33:14,559  
question that's

855  
00:33:17,830 --> 00:33:15,919  
that's the question the number one

856  
00:33:21,830 --> 00:33:17,840  
question that people want answered

857  
00:33:22,470 --> 00:33:21,840  
and um we don't really have any solid

858  
00:33:25,909 --> 00:33:22,480  
evidence

859  
00:33:28,230 --> 00:33:25,919  
of a human culture in the past that was

860  
00:33:30,149 --> 00:33:28,240  
technologically as advanced or more

861  
00:33:32,970 --> 00:33:30,159  
advanced than we are except what people

862  
00:33:34,149 --> 00:33:32,980  
refer to as the atlanteans

863  
00:33:38,070 --> 00:33:34,159

[Music]

864

00:33:39,830 --> 00:33:38,080

so it's it would be either that because

865

00:33:42,870 --> 00:33:39,840

we we haven't found any

866

00:33:47,190 --> 00:33:42,880

as far as i know any tombs of these

867

00:33:48,789 --> 00:33:47,200

extremely ancient people so i think the

868

00:33:52,070 --> 00:33:48,799

it's either an ancient human

869

00:33:55,269 --> 00:33:52,080

civilization or it's an off-world

870

00:33:57,830 --> 00:33:55,279

civilization that came and built and

871

00:33:59,110 --> 00:33:57,840

left and i honestly i'm starting to

872

00:34:02,710 --> 00:33:59,120

think more and more that it

873

00:34:04,710 --> 00:34:02,720

it was the latter rather than the former

874

00:34:07,110 --> 00:34:04,720

so of course a lot of the audience won't

875

00:34:09,030 --> 00:34:07,120

like that some will but um

876

00:34:10,389 --> 00:34:09,040

i don't see any other possible

877

00:34:12,869 --> 00:34:10,399

explanation

878

00:34:14,470 --> 00:34:12,879

it's really it's really starting the

879

00:34:16,869 --> 00:34:14,480

options

880

00:34:19,349 --> 00:34:16,879

minimize as you go back in time and a

881

00:34:23,030 --> 00:34:19,359

lot of these locations are carbon dating

882

00:34:26,310 --> 00:34:23,040

longer than the human time period

883

00:34:27,909 --> 00:34:26,320

how is science taking that and are they

884

00:34:30,629 --> 00:34:27,919

are they are they taking it with a grain

885

00:34:34,230 --> 00:34:30,639

of salt or ignoring it completely

886

00:34:36,869 --> 00:34:34,240

um basically i'm basically i'm being

887

00:34:37,829 --> 00:34:36,879

ignored by academia but the great thing

888

00:34:40,389 --> 00:34:37,839

um

889

00:34:42,230 --> 00:34:40,399

is that when we do these these tours we

890

00:34:45,430 --> 00:34:42,240

tend to get people

891

00:34:47,909 --> 00:34:45,440

a rather high level of intelligence and

892

00:34:49,669 --> 00:34:47,919

education so we always get someone who's

893

00:34:52,629 --> 00:34:49,679

a geologist

894

00:34:53,990 --> 00:34:52,639

uh on a tour we always get at least one

895

00:34:57,349 --> 00:34:54,000

engineer

896

00:34:59,270 --> 00:34:57,359

and so i refer to them uh

897

00:35:00,829 --> 00:34:59,280

you know on location how do you think

898

00:35:03,670 --> 00:35:00,839

this was done

899

00:35:04,390 --> 00:35:03,680

uh and so they're the ones that i've

900

00:35:07,270 --> 00:35:04,400

gotten all the

901  
00:35:07,670 --> 00:35:07,280  
all the answers from we haven't had one

902  
00:35:11,109 --> 00:35:07,680  
guest

903  
00:35:13,190 --> 00:35:11,119  
so far in peru or bolivia or

904  
00:35:14,390 --> 00:35:13,200  
egypt or easter island or any of these

905  
00:35:16,630 --> 00:35:14,400  
other locations

906  
00:35:18,790 --> 00:35:16,640  
that believes the standard story they

907  
00:35:21,030 --> 00:35:18,800  
all have their eyes

908  
00:35:22,710 --> 00:35:21,040  
wide you know suddenly wide open when

909  
00:35:25,750 --> 00:35:22,720  
they're actually on location

910  
00:35:26,390 --> 00:35:25,760  
and uh it's from the engineers that we

911  
00:35:29,990 --> 00:35:26,400  
get the

912  
00:35:31,349 --> 00:35:30,000  
the information of how they believe some

913  
00:35:33,670 --> 00:35:31,359

of these things could have been done

914

00:35:35,589 --> 00:35:33,680

and the geology geologists of of course

915

00:35:38,390 --> 00:35:35,599

invaluable at being able to figure out

916

00:35:41,109 --> 00:35:38,400

where the quarries are located

917

00:35:44,470 --> 00:35:41,119

and um so that's where most of my

918

00:35:46,390 --> 00:35:44,480

education has come from

919

00:35:47,589 --> 00:35:46,400

so amazing and could you tell our

920

00:35:49,430 --> 00:35:47,599

listeners where

921

00:35:51,190 --> 00:35:49,440

they could find these tours if they

922

00:35:53,190 --> 00:35:51,200

wanted to go on one before we go on to

923

00:35:58,230 --> 00:35:53,200

the next question

924

00:36:00,790 --> 00:35:58,240

sure it's [www.hiddanincatours.com](http://www.hiddanincatours.com)

925

00:36:03,510 --> 00:36:00,800

and that's where all of my information

926

00:36:06,150 --> 00:36:03,520

is the the tours represent about five

927

00:36:07,109 --> 00:36:06,160

percent of the website it's all mainly

928

00:36:10,230 --> 00:36:07,119

free information

929

00:36:13,190 --> 00:36:10,240

links to my i think i'm up to 1 600

930

00:36:15,670 --> 00:36:13,200

youtube videos now and

931

00:36:18,390 --> 00:36:15,680

articles and books and all sorts of

932

00:36:24,230 --> 00:36:21,270

and your youtube channel is one that

933

00:36:26,870 --> 00:36:24,240

everybody should definitely subscribe to

934

00:36:27,270 --> 00:36:26,880

great information there and you really

935

00:36:29,430 --> 00:36:27,280

take

936

00:36:30,470 --> 00:36:29,440

the viewer there interestingly it's

937

00:36:32,470 --> 00:36:30,480

funny you mentioned that

938

00:36:34,150 --> 00:36:32,480

academia has kind of you know they're

939

00:36:34,870 --> 00:36:34,160

they are difficult to deal with because

940

00:36:37,430 --> 00:36:34,880

i i

941

00:36:37,990 --> 00:36:37,440

did read some of your papers um i

942

00:36:39,589 --> 00:36:38,000

believe

943

00:36:41,270 --> 00:36:39,599

on some of the academic sites and

944

00:36:44,710 --> 00:36:41,280

they're they're fascinating

945

00:36:47,829 --> 00:36:44,720

which kind of brings me back uh brian to

946

00:36:51,670 --> 00:36:47,839

the possibility of oft i'm sorry

947

00:36:55,589 --> 00:36:51,680

off world uh i guess

948

00:36:58,710 --> 00:36:55,599

off world creators or builders

949

00:37:01,349 --> 00:36:58,720

what remnants or what theories or what

950

00:37:02,630 --> 00:37:01,359

cultural tidbits of information have you

951  
00:37:07,270 --> 00:37:02,640  
heard that have lent

952  
00:37:10,069 --> 00:37:07,280  
credence to that well it goes back again

953  
00:37:12,710 --> 00:37:10,079  
more or less to the to the tool marks um

954  
00:37:16,150 --> 00:37:12,720  
we've had engineers look at

955  
00:37:19,670 --> 00:37:16,160  
at some of these drill holes um

956  
00:37:23,430 --> 00:37:19,680  
that you find in egypt and

957  
00:37:25,030 --> 00:37:23,440  
there's uh machinist who's also an

958  
00:37:25,670 --> 00:37:25,040  
engineer called christopher dunn who

959  
00:37:28,870 --> 00:37:25,680  
wrote

960  
00:37:29,190 --> 00:37:28,880  
a book called the giza power plant and

961  
00:37:36,550 --> 00:37:29,200  
he

962  
00:37:38,630 --> 00:37:36,560  
that you find

963  
00:37:40,870 --> 00:37:38,640

and his statement is that whatever

964

00:37:44,550 --> 00:37:40,880

technology existed

965

00:37:46,390 --> 00:37:44,560

was 500 times more efficient than what

966

00:37:47,829 --> 00:37:46,400

we have in the modern day so the

967

00:37:50,950 --> 00:37:47,839

penetration

968

00:37:52,069 --> 00:37:50,960

or what he calls the feed rate into the

969

00:37:54,790 --> 00:37:52,079

granite stone

970

00:37:56,790 --> 00:37:54,800

was about 500 times more efficient than

971

00:37:59,589 --> 00:37:56,800

the diamond technology that we have

972

00:38:06,230 --> 00:38:02,829

it's unfathomable and um i

973

00:38:07,829 --> 00:38:06,240

it's one of these rabbit holes that the

974

00:38:09,910 --> 00:38:07,839

further you look into it

975

00:38:11,349 --> 00:38:09,920

it really you know the more info you

976

00:38:14,790 --> 00:38:11,359

have the more rea

977

00:38:17,910 --> 00:38:14,800

real the surreal becomes

978

00:38:20,230 --> 00:38:17,920

uh could we discuss a location that gets

979

00:38:22,069 --> 00:38:20,240

overlooked but is starting to get a lot

980

00:38:25,510 --> 00:38:22,079

of attraction which is

981

00:38:28,550 --> 00:38:25,520

obegli tepe in turkey

982

00:38:32,150 --> 00:38:28,560

sure yeah i've actually i went there

983

00:38:35,349 --> 00:38:32,160

about a year and three months ago

984

00:38:35,670 --> 00:38:35,359

for the first time and it's uh turkey is

985

00:38:38,790 --> 00:38:35,680

a

986

00:38:42,069 --> 00:38:38,800

so much

987

00:38:43,990 --> 00:38:42,079

ancient stuff located there including

988

00:38:45,270 --> 00:38:44,000

evidence again of lost ancient high

989

00:38:48,310 --> 00:38:45,280

technology

990

00:38:49,030 --> 00:38:48,320

uh go back to tepe has been dated as

991

00:38:54,069 --> 00:38:49,040

being

992

00:38:57,190 --> 00:38:54,079

any known civilization

993

00:38:59,190 --> 00:38:57,200

so at least 12 000 years old

994

00:39:01,750 --> 00:38:59,200

and that was a great surprise to the

995

00:39:04,150 --> 00:39:01,760

academics who of course automatically

996

00:39:05,109 --> 00:39:04,160

uh refuted the initial findings but then

997

00:39:07,589 --> 00:39:05,119

when more

998

00:39:09,190 --> 00:39:07,599

carbon testing was or radiocarbon

999

00:39:11,750 --> 00:39:09,200

testing was done

1000

00:39:13,750 --> 00:39:11,760

it became irrefutable that beckley tepi

1001  
00:39:16,390 --> 00:39:13,760  
is at least that old

1002  
00:39:18,390 --> 00:39:16,400  
we don't see evidence of ancient high

1003  
00:39:21,190 --> 00:39:18,400  
technology there but

1004  
00:39:23,349 --> 00:39:21,200  
there are these huge t-shaped fillers

1005  
00:39:25,109 --> 00:39:23,359  
that were erected

1006  
00:39:27,990 --> 00:39:25,119  
and it had to have been done by a very

1007  
00:39:29,829 --> 00:39:28,000  
coordinated society of some kind

1008  
00:39:31,910 --> 00:39:29,839  
when you go to the little museum that's

1009  
00:39:33,670 --> 00:39:31,920  
located there they insist that

1010  
00:39:35,030 --> 00:39:33,680  
that it was done you know once again the

1011  
00:39:36,950 --> 00:39:35,040  
academics say

1012  
00:39:38,390 --> 00:39:36,960  
that these were hunter gatherers who did

1013  
00:39:40,790 --> 00:39:38,400

the work but there's no way that's

1014

00:39:43,109 --> 00:39:40,800

possible because it's um

1015

00:39:45,430 --> 00:39:43,119

it's um it's a massive site they've only

1016

00:39:48,550 --> 00:39:45,440

uncovered about 1 30th

1017

00:39:50,069 --> 00:39:48,560

of its uh of its total size so far and

1018

00:39:52,150 --> 00:39:50,079

for some reason

1019

00:39:53,510 --> 00:39:52,160

they've stopped doing much in the way of

1020

00:39:55,589 --> 00:39:53,520

excavation so

1021

00:39:57,270 --> 00:39:55,599

in that case they may be trying to cover

1022

00:40:00,950 --> 00:39:57,280

up the fact that it

1023

00:40:02,870 --> 00:40:00,960

is so vast uh the area that has been

1024

00:40:04,069 --> 00:40:02,880

uncovered was done by klaus schmidt who

1025

00:40:05,990 --> 00:40:04,079

was a german

1026  
00:40:08,150 --> 00:40:06,000  
archaeologist who died a couple of years

1027  
00:40:10,550 --> 00:40:08,160  
ago and um

1028  
00:40:12,550 --> 00:40:10,560  
you know this giant circle with these

1029  
00:40:15,589 --> 00:40:12,560  
t-shaped pillars inside

1030  
00:40:16,470 --> 00:40:15,599  
that was supposedly deliberately buried

1031  
00:40:25,589 --> 00:40:16,480  
on purpose

1032  
00:40:29,109 --> 00:40:25,599  
profound and intriguing

1033  
00:40:33,270 --> 00:40:29,119  
a question i wanted to ask you brian is

1034  
00:40:36,950 --> 00:40:33,280  
well with all of these hints

1035  
00:40:38,710 --> 00:40:36,960  
and the radio carbon testing

1036  
00:40:40,390 --> 00:40:38,720  
you know we are supposed to be five

1037  
00:40:42,470 --> 00:40:40,400  
thousand six thousand years old

1038  
00:40:44,390 --> 00:40:42,480

as humanity yet we're getting twelve

1039

00:40:47,109 --> 00:40:44,400

thousand year old readings

1040

00:40:48,630 --> 00:40:47,119

are there any ties that you have found

1041

00:40:50,550 --> 00:40:48,640

to atlantis

1042

00:40:52,470 --> 00:40:50,560

and for that and for those who don't

1043

00:40:55,109 --> 00:40:52,480

believe it's amazing how many

1044

00:40:55,910 --> 00:40:55,119

people in high positions of power in our

1045

00:40:58,710 --> 00:40:55,920

country

1046

00:41:00,630 --> 00:40:58,720

are big believers in this and i believe

1047

00:41:01,670 --> 00:41:00,640

there was a researcher i wanted to also

1048

00:41:03,829 --> 00:41:01,680

ask you

1049

00:41:05,829 --> 00:41:03,839

that tried that found something similar

1050

00:41:07,510 --> 00:41:05,839

to that and it reminded me of this large

1051

00:41:10,390 --> 00:41:07,520

circle that got buried but

1052

00:41:11,349 --> 00:41:10,400

i want to say um it was under water but

1053

00:41:14,710 --> 00:41:11,359

it just looked like

1054

00:41:16,870 --> 00:41:14,720

i don't know if if i might be i might

1055

00:41:18,630 --> 00:41:16,880

i should have the name location where he

1056

00:41:20,870 --> 00:41:18,640

tried to find this

1057

00:41:22,470 --> 00:41:20,880

but um getting back to atlantis has

1058

00:41:26,230 --> 00:41:22,480

there been any ties that you've found

1059

00:41:31,430 --> 00:41:29,430

sorry what theory uh the theory of

1060

00:41:32,069 --> 00:41:31,440

atlantis which kind of just keeps

1061

00:41:35,190 --> 00:41:32,079

popping

1062

00:41:37,270 --> 00:41:35,200

up it seems whether you know i the more

1063

00:41:38,710 --> 00:41:37,280

it pops up the more i put it out of my

1064

00:41:41,430 --> 00:41:38,720

mind and it seems like

1065

00:41:41,910 --> 00:41:41,440

it just keeps coming back um have you

1066

00:41:43,829 --> 00:41:41,920

found

1067

00:41:46,550 --> 00:41:43,839

anything that would like lend any

1068

00:41:49,589 --> 00:41:46,560

credence to that

1069

00:41:51,510 --> 00:41:49,599

uh to some i guess to some degree

1070

00:41:53,829 --> 00:41:51,520

uh there's no evidence that there was a

1071

00:41:55,510 --> 00:41:53,839

continent in the middle of the atlantic

1072

00:41:57,910 --> 00:41:55,520

that sunk because i've asked a number of

1073

00:41:59,510 --> 00:41:57,920

geologists about that and they said no

1074

00:42:02,790 --> 00:41:59,520

that's not possible

1075

00:42:04,710 --> 00:42:02,800

they say i'm villains can sink uh

1076

00:42:06,230 --> 00:42:04,720

but where the evidence points to is that

1077

00:42:07,829 --> 00:42:06,240

uh during what's called the younger

1078

00:42:10,470 --> 00:42:07,839

driest period which was

1079

00:42:11,829 --> 00:42:10,480

like 13 000 to 12 000 years ago

1080

00:42:16,150 --> 00:42:11,839

approximately

1081

00:42:18,630 --> 00:42:16,160

the world's oceans rose by 350 to 400

1082

00:42:21,109 --> 00:42:18,640

feet within a thousand years and mainly

1083

00:42:24,390 --> 00:42:21,119

in two big pulses so

1084

00:42:26,710 --> 00:42:24,400

rather than a continent thinking it's

1085

00:42:28,630 --> 00:42:26,720

more likely that the the oceans of the

1086

00:42:32,069 --> 00:42:28,640

world rose and that would have

1087

00:42:34,870 --> 00:42:32,079

buried ancient locations under water so

1088

00:42:36,390 --> 00:42:34,880

of course the bimini road that's located

1089

00:42:40,870 --> 00:42:36,400

around the bahamas is

1090

00:42:44,550 --> 00:42:42,630

some say in the middle of the

1091

00:42:46,069 --> 00:42:44,560

mediterranean there are cities

1092

00:42:48,470 --> 00:42:46,079

that are under water at this point that

1093

00:42:51,510 --> 00:42:48,480

you're not allowed to dive at

1094

00:42:53,349 --> 00:42:51,520

um others have said antarctica could

1095

00:42:56,150 --> 00:42:53,359

have been the location

1096

00:42:56,550 --> 00:42:56,160

and that uh the the uh the tilt of the

1097

00:43:00,309 --> 00:42:56,560

earth

1098

00:43:02,790 --> 00:43:00,319

shifted some 13 000 to 12 000 years ago

1099

00:43:04,470 --> 00:43:02,800

moving what would have been uh a

1100

00:43:06,550 --> 00:43:04,480

temperate area event

1101  
00:43:08,790 --> 00:43:06,560  
of antarctica down to where it is now

1102  
00:43:11,670 --> 00:43:08,800  
where it's at the very bottom of the

1103  
00:43:12,309 --> 00:43:11,680  
of the planet so there's also been a lot

1104  
00:43:15,589 --> 00:43:12,319  
of um

1105  
00:43:18,150 --> 00:43:15,599  
scientific and governmental

1106  
00:43:19,750 --> 00:43:18,160  
visitations to it uh antarctica in

1107  
00:43:20,630 --> 00:43:19,760  
recent years far more than you would

1108  
00:43:23,190 --> 00:43:20,640  
think

1109  
00:43:24,630 --> 00:43:23,200  
would be normal including people from

1110  
00:43:26,150 --> 00:43:24,640  
the vatican

1111  
00:43:28,150 --> 00:43:26,160  
people from different high officials

1112  
00:43:31,270 --> 00:43:28,160  
from different governments so i think

1113  
00:43:33,430 --> 00:43:31,280

antarctica could be a location that

1114

00:43:34,950 --> 00:43:33,440

uh is hiding a lot of ancient

1115

00:43:38,069 --> 00:43:34,960

information

1116

00:43:40,150 --> 00:43:38,079

that we're not allowed much access to at

1117

00:43:43,109 --> 00:43:40,160

this point

1118

00:43:43,829 --> 00:43:43,119

and this ancient information is of high

1119

00:43:46,069 --> 00:43:43,839

value

1120

00:43:47,750 --> 00:43:46,079

because like you said it's high level

1121

00:43:49,829 --> 00:43:47,760

people that are going there

1122

00:43:51,990 --> 00:43:49,839

and it's hard to bring up antarctica

1123

00:43:55,510 --> 00:43:52,000

brian and not bring up the idea

1124

00:43:56,630 --> 00:43:55,520

of the hollow earth uh has any hollow

1125

00:43:59,510 --> 00:43:56,640

earth

1126

00:44:03,270 --> 00:43:59,520

information come about in locating some

1127

00:44:05,510 --> 00:44:03,280

of these lost ancient technologies

1128

00:44:07,670 --> 00:44:05,520

uh nothing i know of i don't really go

1129

00:44:08,069 --> 00:44:07,680

into that too much it is i guess of

1130

00:44:11,109 --> 00:44:08,079

course

1131

00:44:12,870 --> 00:44:11,119

plausible but um lots of

1132

00:44:14,870 --> 00:44:12,880

evidence of underground cities

1133

00:44:16,150 --> 00:44:14,880

especially going back to turkey again

1134

00:44:19,430 --> 00:44:16,160

there are

1135

00:44:22,150 --> 00:44:19,440

between 200 and 400

1136

00:44:22,870 --> 00:44:22,160

uh complexes which were built on purpose

1137

00:44:25,670 --> 00:44:22,880

underground

1138

00:44:27,910 --> 00:44:25,680

the most famous being uh the site called

1139

00:44:30,630 --> 00:44:27,920

dairy cuyu which goes down

1140

00:44:32,309 --> 00:44:30,640

supposedly 20 stories underground into

1141

00:44:35,510 --> 00:44:32,319

the bedrock and the

1142

00:44:38,069 --> 00:44:35,520

the general public are allowed down

1143

00:44:39,510 --> 00:44:38,079

the first 10 stories and it's it's a

1144

00:44:42,870 --> 00:44:39,520

vast system

1145

00:44:45,349 --> 00:44:42,880

of tunnels that supposedly uh in

1146

00:44:46,950 --> 00:44:45,359

was inhabited by 20 000 people with

1147

00:44:50,470 --> 00:44:46,960

their livestock and

1148

00:44:52,470 --> 00:44:50,480

i find that hard to believe but um

1149

00:44:54,309 --> 00:44:52,480

there are these huge air shafts that

1150

00:44:55,829 --> 00:44:54,319

were made on purpose to go down

1151

00:44:57,510 --> 00:44:55,839

so that there would be proper air

1152

00:45:00,309 --> 00:44:57,520

circulation for it

1153

00:45:01,990 --> 00:45:00,319

um they date the site of being two

1154

00:45:05,430 --> 00:45:02,000

thousand years old but i

1155

00:45:07,750 --> 00:45:05,440

again think that it's it's far far

1156

00:45:10,150 --> 00:45:07,760

older than that and was rediscovered by

1157

00:45:13,349 --> 00:45:10,160

local people and utilized there was also

1158

00:45:14,950 --> 00:45:13,359

evidence of tunnels several miles long

1159

00:45:16,069 --> 00:45:14,960

that connect these cities with one

1160

00:45:20,230 --> 00:45:16,079

another

1161

00:45:23,190 --> 00:45:20,240

um so turkey has a lot of

1162

00:45:24,630 --> 00:45:23,200

very amazing ancient places that uh not

1163

00:45:27,430 --> 00:45:24,640

enough people go to

1164

00:45:28,710 --> 00:45:27,440

uh of course most people go to egypt

1165

00:45:32,069 --> 00:45:28,720

number one

1166

00:45:33,910 --> 00:45:32,079

probably peru number two and turkey

1167

00:45:36,710 --> 00:45:33,920

should definitely be on the list of the

1168

00:45:38,710 --> 00:45:36,720

top 10 ancient mysterious countries to

1169

00:45:40,550 --> 00:45:38,720

visit there's so much there

1170

00:45:41,829 --> 00:45:40,560

uh it's a pretty big country but it's

1171

00:45:43,589 --> 00:45:41,839

just you know the

1172

00:45:45,670 --> 00:45:43,599

evidence is just all over the place

1173

00:45:49,030 --> 00:45:45,680

there's also another location

1174

00:45:51,750 --> 00:45:49,040

called hatusha in turkey

1175

00:45:52,470 --> 00:45:51,760

and it uh it shows very strong evidence

1176

00:45:56,390 --> 00:45:52,480

again

1177

00:45:59,750 --> 00:45:56,400

of reoccupation by the hittites but

1178

00:46:00,150 --> 00:45:59,760

i found lots of saw marks as hattucha

1179

00:46:02,790 --> 00:46:00,160

which

1180

00:46:03,510 --> 00:46:02,800

could not have been done with hand tools

1181

00:46:05,190 --> 00:46:03,520

so

1182

00:46:07,589 --> 00:46:05,200

it's another location that shows clear

1183

00:46:11,670 --> 00:46:07,599

signs of lost ancient high technology

1184

00:46:13,270 --> 00:46:11,680

wow and a location that i'm

1185

00:46:14,710 --> 00:46:13,280

turkey is definitely on my bucket list

1186

00:46:16,390 --> 00:46:14,720

but a location i definitely wanted to

1187

00:46:18,390 --> 00:46:16,400

check out was petra

1188

00:46:20,790 --> 00:46:18,400

and i know that you have visited that

1189

00:46:22,309 --> 00:46:20,800

and have some theories on that as well

1190

00:46:24,230 --> 00:46:22,319

could you tell us a little more about

1191

00:46:27,589 --> 00:46:24,240

petra

1192

00:46:31,030 --> 00:46:27,599

fascinating place

1193

00:46:31,670 --> 00:46:31,040

uh in jordan it's much bigger than most

1194

00:46:33,829 --> 00:46:31,680

people

1195

00:46:35,670 --> 00:46:33,839

imagine because they're acquainted most

1196

00:46:37,030 --> 00:46:35,680

people are acquiring it with the little

1197

00:46:39,589 --> 00:46:37,040

scene from

1198

00:46:41,990 --> 00:46:39,599

indiana jones where he visits uh the one

1199

00:46:45,990 --> 00:46:42,000

structure called the treasury

1200

00:46:47,109 --> 00:46:46,000

but uh to get to petra you have to walk

1201  
00:46:49,829 --> 00:46:47,119  
through this

1202  
00:46:50,790 --> 00:46:49,839  
uh cavern which is called the sikh and

1203  
00:46:53,910 --> 00:46:50,800  
it's

1204  
00:46:55,109 --> 00:46:53,920  
about a mile long so when we were

1205  
00:46:56,150 --> 00:46:55,119  
halfway through

1206  
00:46:58,470 --> 00:46:56,160  
i thought it would be a couple of

1207  
00:46:59,430 --> 00:46:58,480  
hundred yards but it's uh it's a mile

1208  
00:47:01,430 --> 00:46:59,440  
and when we're

1209  
00:47:02,870 --> 00:47:01,440  
we're about halfway through i asked our

1210  
00:47:05,190 --> 00:47:02,880  
local guide how long

1211  
00:47:06,150 --> 00:47:05,200  
is this and he said it's about a mile

1212  
00:47:10,390 --> 00:47:06,160  
long

1213  
00:47:13,109 --> 00:47:10,400

one end to the other and he said about

1214

00:47:15,589 --> 00:47:13,119

seven miles or 12 kilometers

1215

00:47:17,510 --> 00:47:15,599

so fortunately we were able to walk all

1216

00:47:19,190 --> 00:47:17,520

the way to the very end of petra and

1217

00:47:22,390 --> 00:47:19,200

it's absolutely

1218

00:47:25,109 --> 00:47:22,400

huge the the treasury represents

1219

00:47:27,190 --> 00:47:25,119

maybe two percent of of of petrol we see

1220

00:47:30,870 --> 00:47:27,200

lots of machine marks

1221

00:47:34,230 --> 00:47:30,880

uh on the walls evidence of uh

1222

00:47:37,430 --> 00:47:34,240

the blackening and almost melting

1223

00:47:37,990 --> 00:47:37,440

of the stone surfaces vertical stone

1224

00:47:39,589 --> 00:47:38,000

surfaces

1225

00:47:41,270 --> 00:47:39,599

and always on the western side of the

1226

00:47:42,309 --> 00:47:41,280

structure so it looks like petrol was

1227

00:47:46,150 --> 00:47:42,319

hit by

1228

00:47:48,950 --> 00:47:46,160

a massive cataclysm in the very distant

1229

00:47:50,390 --> 00:47:48,960

past was abandoned and then was

1230

00:47:52,470 --> 00:47:50,400

reoccupied

1231

00:47:53,910 --> 00:47:52,480

uh by what are called the nabatean

1232

00:47:55,990 --> 00:47:53,920

culture and uh

1233

00:47:57,030 --> 00:47:56,000

they were there approximately 2 000

1234

00:47:58,870 --> 00:47:57,040

years ago

1235

00:48:00,549 --> 00:47:58,880

and that's what our guide kept hammering

1236

00:48:02,950 --> 00:48:00,559

into my head that the navy

1237

00:48:04,069 --> 00:48:02,960

instant built had built the entire

1238

00:48:06,150 --> 00:48:04,079

complex but

1239

00:48:08,230 --> 00:48:06,160

i said that's clearly impossible there

1240

00:48:10,790 --> 00:48:08,240

are some chambers there

1241

00:48:12,309 --> 00:48:10,800

uh two at the treasury and one at

1242

00:48:14,870 --> 00:48:12,319

another location

1243

00:48:16,710 --> 00:48:14,880

relatively close by but we're hewn out

1244

00:48:20,549 --> 00:48:16,720

of the solid bedrock

1245

00:48:23,270 --> 00:48:20,559

and they're around 300 000 cubic feet in

1246

00:48:30,230 --> 00:48:27,510

wow and this is fascinating this heating

1247

00:48:31,829 --> 00:48:30,240

uh on the particular side i believe the

1248

00:48:36,950 --> 00:48:31,839

west side this has been found

1249

00:48:38,950 --> 00:48:36,960

in other areas as well is that incorrect

1250

00:48:41,030 --> 00:48:38,960

yeah that's true you find that at places

1251

00:48:44,630 --> 00:48:41,040

like karnak in egypt

1252

00:48:46,390 --> 00:48:44,640

where you see that the um this

1253

00:48:48,630 --> 00:48:46,400

some of the granitic stone has suddenly

1254

00:48:49,750 --> 00:48:48,640

expanded and again our archaeologist

1255

00:48:52,549 --> 00:48:49,760

susan

1256

00:48:53,750 --> 00:48:52,559

uh states emphatically that that would

1257

00:48:56,710 --> 00:48:53,760

have been a very

1258

00:48:58,630 --> 00:48:56,720

intense burst of high heat there's also

1259

00:48:59,510 --> 00:48:58,640

the location in the Nile delta called

1260

00:49:02,549 --> 00:48:59,520

tannis which

1261

00:49:04,470 --> 00:49:02,559

literally looks like there was a massive

1262

00:49:05,990 --> 00:49:04,480

heat explosion there because all of the

1263

00:49:07,910 --> 00:49:06,000

big megalithic

1264

00:49:09,109 --> 00:49:07,920

structures are broken into several

1265

00:49:13,750 --> 00:49:09,119

pieces

1266

00:49:16,069 --> 00:49:13,760

um and as you walk around the surface of

1267

00:49:17,270 --> 00:49:16,079

of tennis it's like walking on the moon

1268

00:49:22,150 --> 00:49:17,280

it's it's not

1269

00:49:24,950 --> 00:49:22,160

um it's more like dust than it is soil

1270

00:49:26,870 --> 00:49:24,960

um also to get to tennis you have to

1271

00:49:29,829 --> 00:49:26,880

drive through the Nile delta

1272

00:49:31,109 --> 00:49:29,839

which is a very intense area of

1273

00:49:33,910 --> 00:49:31,119

agriculture

1274

00:49:35,589 --> 00:49:33,920

but tennis itself is a hill that is

1275

00:49:38,630 --> 00:49:35,599

almost totally devoid of

1276

00:49:40,870 --> 00:49:38,640

any uh vegetation whatsoever

1277

00:49:43,109 --> 00:49:40,880

so it's a very mysterious place also

1278

00:49:46,230 --> 00:49:43,119

we've seen

1279

00:49:47,270 --> 00:49:46,240

evidence of vitrification or flash

1280

00:49:51,030 --> 00:49:47,280

heating at

1281

00:49:54,230 --> 00:49:51,040

uh sites in the highlands of peru

1282

00:49:55,589 --> 00:49:54,240

uh there's one place called vilcaswaman

1283

00:49:58,710 --> 00:49:55,599

that has a wall

1284

00:49:59,829 --> 00:49:58,720

that again i believe faces west and its

1285

00:50:03,109 --> 00:49:59,839

surface is

1286

00:50:06,470 --> 00:50:03,119

melted wow

1287

00:50:09,750 --> 00:50:06,480

unbelievable yeah that that is just

1288

00:50:13,990 --> 00:50:09,760

it's it's hard to to see that

1289

00:50:20,710 --> 00:50:17,510

understand how important it might be

1290

00:50:23,829 --> 00:50:20,720

brian where can our listeners

1291

00:50:26,390 --> 00:50:23,839

get your books support your research

1292

00:50:26,870 --> 00:50:26,400

and keep up with your amazing efforts

1293

00:50:28,470 --> 00:50:26,880

and

1294

00:50:30,069 --> 00:50:28,480

what do you have going on in the future

1295

00:50:31,270 --> 00:50:30,079

i know you have a lot probably too much

1296

00:50:34,069 --> 00:50:31,280

to mention but just some of the

1297

00:50:39,829 --> 00:50:37,349

okay well all of my books are in ebook

1298

00:50:41,750 --> 00:50:39,839

and paperback format and they're at

1299

00:50:45,109 --> 00:50:41,760

amazon

1300

00:50:49,510 --> 00:50:45,119

also on my website which again is www

1301

00:50:51,829 --> 00:50:49,520

dot hidden inca tours dot com

1302

00:50:53,510 --> 00:50:51,839

and uh you can get them there as well uh

1303

00:50:57,750 --> 00:50:53,520

but only an ebook

1304

00:50:59,430 --> 00:50:57,760

format and in terms

1305

00:51:01,190 --> 00:50:59,440

again thankfully you mentioned my

1306

00:51:02,950 --> 00:51:01,200

youtube channel which

1307

00:51:04,630 --> 00:51:02,960

lately i've been adding to almost a

1308

00:51:07,270 --> 00:51:04,640

video a day because i

1309

00:51:08,630 --> 00:51:07,280

haven't been able to move around very

1310

00:51:11,670 --> 00:51:08,640

much but uh

1311

00:51:13,990 --> 00:51:11,680

um as i stated to you privately peru

1312

00:51:15,349 --> 00:51:14,000

is one of the best countries in the

1313

00:51:18,069 --> 00:51:15,359

world to live in

1314

00:51:18,950 --> 00:51:18,079

at the moment because the the cases of

1315

00:51:25,270 --> 00:51:18,960

this

1316

00:51:27,109 --> 00:51:25,280

globally are dissipating very quickly

1317

00:51:29,109 --> 00:51:27,119

the international airport

1318

00:51:30,150 --> 00:51:29,119

airport has reopened all the airports in

1319

00:51:31,829 --> 00:51:30,160

peru are open

1320

00:51:33,990 --> 00:51:31,839

all the highways are open all the

1321

00:51:36,150 --> 00:51:34,000

ancient sites are open

1322

00:51:37,950 --> 00:51:36,160

uh tourists are beginning to come back

1323

00:51:41,030 --> 00:51:37,960

which is good but uh

1324

00:51:43,670 --> 00:51:41,040

2021 will be a very good year

1325

00:51:45,589 --> 00:51:43,680

uh for people i'm sure a lot of people

1326  
00:51:46,390 --> 00:51:45,599  
are sick and tired of spending so much

1327  
00:51:49,829 --> 00:51:46,400  
time at home

1328  
00:51:51,990 --> 00:51:49,839  
so 2021 will be a great opportunity for

1329  
00:51:55,589 --> 00:51:52,000  
people to start traveling again

1330  
00:51:58,309 --> 00:51:55,599  
and uh our major things coming up are

1331  
00:52:00,549 --> 00:51:58,319  
in march we're going back to egypt for a

1332  
00:52:04,230 --> 00:52:00,559  
14-day tour

1333  
00:52:07,750 --> 00:52:04,240  
then in july and august and november

1334  
00:52:09,030 --> 00:52:07,760  
we have major tours of peru and bolivia

1335  
00:52:11,589 --> 00:52:09,040  
showing off the

1336  
00:52:13,270 --> 00:52:11,599  
megalithic sites the inca sites the

1337  
00:52:16,630 --> 00:52:13,280  
elongated skulls

1338  
00:52:18,230 --> 00:52:16,640

and other enigmas the june tour

1339

00:52:20,630 --> 00:52:18,240

thankfully is already sold out but

1340

00:52:25,030 --> 00:52:20,640

there's quite a bit of space left for

1341

00:52:27,349 --> 00:52:25,040

august and november and between now

1342

00:52:28,230 --> 00:52:27,359

and march i'm going to start venturing

1343

00:52:31,349 --> 00:52:28,240

out

1344

00:52:31,990 --> 00:52:31,359

in the local area uh where i'm at we've

1345

00:52:34,870 --> 00:52:32,000

already started

1346

00:52:36,309 --> 00:52:34,880

to do that to a small extent to go back

1347

00:52:38,309 --> 00:52:36,319

to some of the ancient sites that we've

1348

00:52:42,309 --> 00:52:38,319

been visiting over the years and uh

1349

00:52:45,750 --> 00:52:42,319

make new videos in those locations

1350

00:52:48,230 --> 00:52:45,760

fascinating so fascinating so much stuff

1351  
00:52:49,670 --> 00:52:48,240  
it's so fascinating and i'm glad i asked

1352  
00:52:52,549 --> 00:52:49,680  
ahead of time because i knew it was a

1353  
00:52:53,430 --> 00:52:52,559  
lot and a question brian that i have to

1354  
00:52:55,790 --> 00:52:53,440  
ask you

1355  
00:52:56,950 --> 00:52:55,800  
that fascinates me so much is the

1356  
00:52:59,190 --> 00:52:56,960  
hieroglyphics

1357  
00:53:00,150 --> 00:52:59,200  
at some of these sites and the

1358  
00:53:03,190 --> 00:53:00,160  
depictions

1359  
00:53:05,430 --> 00:53:03,200  
of other worldly or quote-unquote

1360  
00:53:07,030 --> 00:53:05,440  
future technology like planes

1361  
00:53:09,430 --> 00:53:07,040  
helicopters

1362  
00:53:10,470 --> 00:53:09,440  
um what do you think of this and you

1363  
00:53:15,589 --> 00:53:10,480

found i believe

1364

00:53:17,349 --> 00:53:15,599

some um pretty amazing uh discoveries

1365

00:53:19,109 --> 00:53:17,359

yeah i'm not someone who i don't read

1366

00:53:20,470 --> 00:53:19,119

hieroglyphics we always have an expert

1367

00:53:25,270 --> 00:53:20,480

with us who

1368

00:53:27,510 --> 00:53:25,280

is a master at that but um

1369

00:53:29,510 --> 00:53:27,520

yeah there's a site called abby abidose

1370

00:53:31,510 --> 00:53:29,520

which is very famous because it does

1371

00:53:34,870 --> 00:53:31,520

seem to show a depiction

1372

00:53:36,309 --> 00:53:34,880

of a tank possibly a helicopter possibly

1373

00:53:38,069 --> 00:53:36,319

a submarine which of course the

1374

00:53:41,270 --> 00:53:38,079

academics say

1375

00:53:42,390 --> 00:53:41,280

aren't bad at all but every time i look

1376

00:53:43,030 --> 00:53:42,400

at them that's what i you know that's

1377

00:53:45,750 --> 00:53:43,040

what i see

1378

00:53:47,510 --> 00:53:45,760

i don't think that necessarily a very

1379

00:53:49,430 --> 00:53:47,520

advanced civilization

1380

00:53:51,750 --> 00:53:49,440

would have the same kind of technology

1381

00:53:54,390 --> 00:53:51,760

technology that we have but um

1382

00:53:56,630 --> 00:53:54,400

that is evidence but probably the most

1383

00:53:58,230 --> 00:53:56,640

intriguing thing is that i was

1384

00:54:00,309 --> 00:53:58,240

uh i was taught that the whole

1385

00:54:03,190 --> 00:54:00,319

hieroglyphic system

1386

00:54:04,870 --> 00:54:03,200

was developed in the first dynasty of uh

1387

00:54:06,710 --> 00:54:04,880

dynastic egypt which should be

1388

00:54:07,910 --> 00:54:06,720

he seems impossible because there's no

1389

00:54:09,349 --> 00:54:07,920

precursor to it

1390

00:54:11,190 --> 00:54:09,359

and then all of a sudden you have this

1391

00:54:14,470 --> 00:54:11,200

incredibly complex

1392

00:54:17,510 --> 00:54:14,480

uh picture language so we see at some of

1393

00:54:20,630 --> 00:54:17,520

the ancient locations again at um

1394

00:54:23,109 --> 00:54:20,640

at tennis and at carnek

1395

00:54:24,870 --> 00:54:23,119

and other locations that there are very

1396

00:54:26,630 --> 00:54:24,880

deeply carved

1397

00:54:29,510 --> 00:54:26,640

hieroglyphs that appear to have been

1398

00:54:32,069 --> 00:54:29,520

done by machining technology not by hand

1399

00:54:35,510 --> 00:54:32,079

tools because there's a big difference

1400

00:54:37,430 --> 00:54:35,520

between um the sort of thin

1401

00:54:39,190 --> 00:54:37,440

uh shallow carving that most

1402

00:54:41,349 --> 00:54:39,200

hieroglyphics are

1403

00:54:42,789 --> 00:54:41,359

and usually in softer stone like

1404

00:54:45,270 --> 00:54:42,799

sandstone and limestone

1405

00:54:46,950 --> 00:54:45,280

and then these much deeper ones that can

1406

00:54:49,109 --> 00:54:46,960

penetrate the stone

1407

00:54:50,950 --> 00:54:49,119

by half an inch or an inch when you put

1408

00:54:53,750 --> 00:54:50,960

your finger inside them

1409

00:54:54,230 --> 00:54:53,760

the curvature and the the flow of your

1410

00:54:57,510 --> 00:54:54,240

finger

1411

00:54:59,750 --> 00:54:57,520

in that groove indicates the use of very

1412

00:55:00,710 --> 00:54:59,760

advanced high technology so i think that

1413

00:55:02,630 --> 00:55:00,720

the

1414

00:55:03,829 --> 00:55:02,640  
ancient hieroglyphic system was

1415

00:55:06,789 --> 00:55:03,839  
discovered

1416

00:55:07,589 --> 00:55:06,799  
by the dynastic people about 5 000 years

1417

00:55:11,829 --> 00:55:07,599  
ago

1418

00:55:15,030 --> 00:55:11,839  
uh reinterpreted and utilized by them

1419

00:55:18,309 --> 00:55:15,040  
wow wow it's just

1420

00:55:21,030 --> 00:55:18,319  
phenomenal that that this is

1421

00:55:21,990 --> 00:55:21,040  
um i it's been a matter of time but this

1422

00:55:24,069 --> 00:55:22,000  
is actually coming

1423

00:55:25,589 --> 00:55:24,079  
to the forefront and i think some of the

1424

00:55:27,829 --> 00:55:25,599  
narratives that are

1425

00:55:28,710 --> 00:55:27,839  
not not that they're badly intentioned

1426

00:55:31,430 --> 00:55:28,720

but

1427

00:55:32,950 --> 00:55:31,440

they uh were pre-sorted and kind of

1428

00:55:35,190 --> 00:55:32,960

there to begin with

1429

00:55:36,710 --> 00:55:35,200

um our are seeing the light of day uh

1430

00:55:38,549 --> 00:55:36,720

your research brian

1431

00:55:40,069 --> 00:55:38,559

thank you for your research your work

1432

00:55:41,990 --> 00:55:40,079

your contributions

1433

00:55:43,910 --> 00:55:42,000

um you're among the leading minds

1434

00:55:46,230 --> 00:55:43,920

forging a path of truth about

1435

00:55:47,829 --> 00:55:46,240

this ancient history and i'm just so

1436

00:55:48,950 --> 00:55:47,839

thankful that you came on the podcast to

1437

00:55:51,829 --> 00:55:48,960

talk about it

1438

00:55:54,230 --> 00:55:51,839

i hope to talk to you again soon and uh

1439

00:55:55,990 --> 00:55:54,240

thank you so much

1440

00:55:57,829 --> 00:55:56,000

sure ryan why don't you contact me in

1441

00:55:59,910 --> 00:55:57,839

six months and we or you know every six

1442

00:56:01,670 --> 00:55:59,920

months we can have a chat and

1443

00:56:03,990 --> 00:56:01,680

i'll tell you the latest that i've

1444

00:56:05,589 --> 00:56:04,000

learned i would love that

1445

00:56:07,190 --> 00:56:05,599

i i would absolutely love that that

1446

00:56:10,950 --> 00:56:07,200

would be great and uh

1447

00:56:14,069 --> 00:56:10,960

yeah you got a deal thanks so much brian

1448

00:56:16,309 --> 00:56:14,079

my pleasure thank you ryan fascinating

1449

00:56:17,349 --> 00:56:16,319

fascinating stuff that brian is

1450

00:56:19,270 --> 00:56:17,359

uncovering

1451  
00:56:20,549 --> 00:56:19,280  
definitely one of the leading minds

1452  
00:56:22,309 --> 00:56:20,559  
prepared to

1453  
00:56:24,230 --> 00:56:22,319  
bring that to the public and he's doing

1454  
00:56:25,910 --> 00:56:24,240  
a great job through his youtube channel

1455  
00:56:29,030 --> 00:56:25,920  
please subscribe

1456  
00:56:30,069 --> 00:56:29,040  
also you can count on me going on one of

1457  
00:56:32,549 --> 00:56:30,079  
those tours

1458  
00:56:34,630 --> 00:56:32,559  
and i recommend you do too because the

1459  
00:56:38,309 --> 00:56:34,640  
minds like brian that can see past

1460  
00:56:39,670 --> 00:56:38,319  
this thin veil of well it's convenience

1461  
00:56:41,829 --> 00:56:39,680  
really

1462  
00:56:42,950 --> 00:56:41,839  
why question the narrative a lot of

1463  
00:56:45,670 --> 00:56:42,960

people think that

1464

00:56:47,829 --> 00:56:45,680

well this is important information uh

1465

00:56:51,030 --> 00:56:47,839

the pyramids are important

1466

00:56:54,309 --> 00:56:51,040

these other ancient historic

1467

00:56:55,030 --> 00:56:54,319

sites are important and people like

1468

00:56:56,789 --> 00:56:55,040

brian

1469

00:56:58,710 --> 00:56:56,799

realize how important they are and

1470

00:56:59,270 --> 00:56:58,720

they've invested a lot of time and

1471

00:57:03,750 --> 00:56:59,280

energy

1472

00:57:06,470 --> 00:57:03,760

researching it mostly for our behalf

1473

00:57:08,950 --> 00:57:06,480

another thing for your behalf is the
