

STEVEN MYERS

HERO

1
00:00:08,500 --> 00:00:14,910

[Music]

2
00:00:25,360 --> 00:00:17,180

uh

3
00:00:40,069 --> 00:00:26,630

[Music]

4
00:00:42,869 --> 00:00:40,079

blast off on another episode of

5
00:00:43,990 --> 00:00:42,879

hero that's right my name is ryan the

6
00:00:47,190 --> 00:00:44,000

original outlaw

7
00:00:51,029 --> 00:00:47,200

of the airwaves bringing you another vip

8
00:00:53,270 --> 00:00:51,039

episode recording just south of area 51

9
00:00:55,590 --> 00:00:53,280

at the base of la madre mountain

10
00:00:57,029 --> 00:00:55,600

we're delving into it today guys as if

11
00:01:00,470 --> 00:00:57,039

that's not the norm

12
00:01:02,709 --> 00:01:00,480

bringing you the stanky grassroots

13
00:01:03,910 --> 00:01:02,719

local flavor everyone is striving for

14

00:01:06,710 --> 00:01:03,920

these days but

15

00:01:07,350 --> 00:01:06,720

i'm talking about on a higher scientific

16

00:01:10,310 --> 00:01:07,360

plane

17

00:01:11,350 --> 00:01:10,320

and not only that this is this is above

18

00:01:15,270 --> 00:01:11,360

and beyond

19

00:01:17,749 --> 00:01:15,280

really my pay grade the the manuscript

20

00:01:18,950 --> 00:01:17,759

that we are going to delve into i was

21

00:01:21,670 --> 00:01:18,960

astounded

22

00:01:21,990 --> 00:01:21,680

it is really really cool we're talking

23

00:01:24,830 --> 00:01:22,000

about

24

00:01:26,070 --> 00:01:24,840

lost technologies of the great pyramid

25

00:01:28,789 --> 00:01:26,080

and

26

00:01:31,590 --> 00:01:28,799

really it it's it's amazing uh the

27

00:01:35,030 --> 00:01:31,600

construction work of the great pyramid

28

00:01:37,590 --> 00:01:35,040

the illustrations the dedication that

29

00:01:39,670 --> 00:01:37,600

really went into making this and i'm

30

00:01:42,710 --> 00:01:39,680

talking about this amazing book by

31

00:01:45,670 --> 00:01:42,720

stephen myers and it's not just the book

32

00:01:47,510 --> 00:01:45,680

and uh there's a lot more to it he has

33

00:01:50,469 --> 00:01:47,520

videos that go with it

34

00:01:52,310 --> 00:01:50,479

electronic mechanical you know all kinds

35

00:01:55,910 --> 00:01:52,320

of different formats

36

00:01:56,469 --> 00:01:55,920

and he really you know is as near as i

37

00:01:59,990 --> 00:01:56,479

can tell

38

00:02:00,950 --> 00:02:00,000

is the only one who's really put a lot

39

00:02:04,069 --> 00:02:00,960

into this

40

00:02:04,550 --> 00:02:04,079

and figured something out that maybe all

41

00:02:07,869 --> 00:02:04,560

of us

42

00:02:09,430 --> 00:02:07,879

need to look at definitely check out

43

00:02:12,550 --> 00:02:09,440

thepump.org

44

00:02:13,190 --> 00:02:12,560

and the lost technologies of the great

45

00:02:17,110 --> 00:02:13,200

pyramid

46

00:02:20,390 --> 00:02:17,120

stephen

47

00:02:21,110 --> 00:02:20,400

myers now uh the interesting thing about

48

00:02:24,630 --> 00:02:21,120

this

49

00:02:28,150 --> 00:02:24,640

amazing book is just it's it's mass

50

00:02:30,150 --> 00:02:28,160

it's huge and it it takes roughly

51
00:02:32,229 --> 00:02:30,160
i mean it goes into detail about the

52
00:02:33,190 --> 00:02:32,239
king's chamber vents the queen's chamber

53
00:02:35,750 --> 00:02:33,200
events

54
00:02:36,550 --> 00:02:35,760
descending passages the dead end shafts

55
00:02:39,110 --> 00:02:36,560
how

56
00:02:40,470 --> 00:02:39,120
all of these shafts are used and we're

57
00:02:42,150 --> 00:02:40,480
going to talk about this because there's

58
00:02:44,390 --> 00:02:42,160
so much to discuss

59
00:02:46,550 --> 00:02:44,400
and so many issues to address that it's

60
00:02:48,470 --> 00:02:46,560
difficult to know where to start

61
00:02:50,229 --> 00:02:48,480
while some of the people interested in

62
00:02:51,990 --> 00:02:50,239
knowing how the massive stones of the

63
00:02:52,470 --> 00:02:52,000

great pyramid were moved and set in

64

00:02:55,430 --> 00:02:52,480

place

65

00:02:56,869 --> 00:02:55,440

others want to know where this radical

66

00:02:59,910 --> 00:02:56,879

theory came from

67

00:03:01,270 --> 00:02:59,920

so before we get into that let me get

68

00:03:03,350 --> 00:03:01,280

into this

69

00:03:06,229 --> 00:03:03,360

if you haven't become a patron yet

70

00:03:09,190 --> 00:03:06,239

patrons are kind of who keep me going

71

00:03:11,949 --> 00:03:09,200

without the patrons it cannot continue

72

00:03:13,509 --> 00:03:11,959

so if you're not a patron yet just go to

73

00:03:15,670 --> 00:03:13,519

heroparanormal.com

74

00:03:17,589 --> 00:03:15,680

and hit that first button that pops up

75

00:03:20,309 --> 00:03:17,599

and for the cost of a designer cup

76
00:03:21,750 --> 00:03:20,319
of coffee a month boom you're in you're

77
00:03:23,910 --> 00:03:21,760
in the circle of trust

78
00:03:25,670 --> 00:03:23,920
and you'll get more content than regular

79
00:03:28,070 --> 00:03:25,680
people and

80
00:03:29,750 --> 00:03:28,080
avoid all the pitfalls of trying to

81
00:03:31,110 --> 00:03:29,760
figure out which episode you watched

82
00:03:34,070 --> 00:03:31,120
which you didn't everything gets

83
00:03:35,270 --> 00:03:34,080
shot to your email immediately so that's

84
00:03:37,670 --> 00:03:35,280
kind of cool

85
00:03:39,270 --> 00:03:37,680
without further ado let's get to it

86
00:03:42,949 --> 00:03:39,280
stephen myers

87
00:03:47,589 --> 00:03:42,959
lost technologies of the great pyramid

88
00:03:51,750 --> 00:03:47,599

welcome to the hero podcast

89

00:03:54,949 --> 00:03:51,760

hello hi mr steven myers i can't be more

90

00:03:58,070 --> 00:03:54,959

excited to talk to you how have you been

91

00:04:01,429 --> 00:03:58,080

i'm very good i've been busy

92

00:04:04,550 --> 00:04:01,439

been doing some talk shows and i'm

93

00:04:06,949 --> 00:04:04,560

happy to be uh talking with you well

94

00:04:08,149 --> 00:04:06,959

i i can't be happier to talk to you your

95

00:04:11,110 --> 00:04:08,159

book series

96

00:04:11,990 --> 00:04:11,120

your website and the video series

97

00:04:15,990 --> 00:04:12,000

explaining

98

00:04:19,430 --> 00:04:16,000

everything is wow and i i wanted to

99

00:04:22,069 --> 00:04:19,440

kind of attack uh some some of the stuff

100

00:04:23,030 --> 00:04:22,079

in your book the lost technologies

101
00:04:24,790 --> 00:04:23,040
because

102
00:04:27,110 --> 00:04:24,800
i think there's so much truth in this

103
00:04:29,030 --> 00:04:27,120
book and i loved how you jokingly

104
00:04:30,390 --> 00:04:29,040
you you just kind of the writing is

105
00:04:32,950 --> 00:04:30,400
amazing but you

106
00:04:33,749 --> 00:04:32,960
you kind of go about it in a very joking

107
00:04:36,870 --> 00:04:33,759
fashion

108
00:04:40,310 --> 00:04:36,880
which i think is unique

109
00:04:41,110 --> 00:04:40,320
well i appreciate that i don't know

110
00:04:43,909 --> 00:04:41,120
where to start

111
00:04:45,830 --> 00:04:43,919
we can talk about anything okay i don't

112
00:04:47,030 --> 00:04:45,840
know where to start i was blown away by

113
00:04:48,870 --> 00:04:47,040

the

114

00:04:50,150 --> 00:04:48,880

symbol that looks like a chevy i don't

115

00:04:54,550 --> 00:04:50,160

either vehicle

116

00:04:57,749 --> 00:04:54,560

you know yeah there's there's so much

117

00:04:59,990 --> 00:04:57,759

uh i wanted to get into what else uh

118

00:05:00,950 --> 00:05:00,000

tom and the arrowheads where sh let me

119

00:05:04,070 --> 00:05:00,960

start here

120

00:05:07,110 --> 00:05:04,080

something i ask a lot of my guests

121

00:05:08,310 --> 00:05:07,120

so listeners get to know them is who is

122

00:05:10,629 --> 00:05:08,320

stephen myers

123

00:05:13,270 --> 00:05:10,639

and how did you get involved with this

124

00:05:17,430 --> 00:05:15,820

well i am stephen myers

125

00:05:20,150 --> 00:05:17,440

[Laughter]

126

00:05:21,029 --> 00:05:20,160

i i'm a person that has a very technical

127

00:05:24,629 --> 00:05:21,039

background

128

00:05:25,749 --> 00:05:24,639

a degree in electronics that type of

129

00:05:28,070 --> 00:05:25,759

thing

130

00:05:30,710 --> 00:05:28,080

uh amateur radio and operator collect

131

00:05:34,310 --> 00:05:30,720

antique gasoline engines

132

00:05:35,670 --> 00:05:34,320

and uh more not not very interesting

133

00:05:37,990 --> 00:05:35,680

politics but

134

00:05:39,670 --> 00:05:38,000

technology yes you know kind of a

135

00:05:42,390 --> 00:05:39,680

computer not

136

00:05:44,870 --> 00:05:42,400

and that type of thing but i also like

137

00:05:46,150 --> 00:05:44,880

history so if a person likes technology

138

00:05:48,790 --> 00:05:46,160

and history

139

00:05:50,390 --> 00:05:48,800

probably they'll uh at least consider

140

00:05:54,390 --> 00:05:50,400

the great pyramid so

141

00:05:57,830 --> 00:05:54,400

uh that's that's how i got into it

142

00:05:58,710 --> 00:05:57,840

so neat it is so neat and i wanted to

143

00:06:01,749 --> 00:05:58,720

get into

144

00:06:02,790 --> 00:06:01,759

a little bit of your book and i mean

145

00:06:06,230 --> 00:06:02,800

what a massive

146

00:06:08,390 --> 00:06:06,240

undertaking and how much information is

147

00:06:09,350 --> 00:06:08,400

in that book there's so much information

148

00:06:13,430 --> 00:06:09,360

in there

149

00:06:16,870 --> 00:06:13,440

and uh how how going a little bit into

150

00:06:19,990 --> 00:06:16,880

your non-profit as well

151

00:06:23,189 --> 00:06:20,000

well yes uh my interest because

152

00:06:25,590 --> 00:06:23,199

i'm interested in technology is not

153

00:06:27,909 --> 00:06:25,600

uh you know the who built the great

154

00:06:31,430 --> 00:06:27,919

pyramid or what language they spoke or

155

00:06:33,830 --> 00:06:31,440

what gods they worshipped but

156

00:06:35,670 --> 00:06:33,840

oh man oh we may have lost you there for

157

00:06:36,629 --> 00:06:35,680

a second i think i hear you coming back

158

00:06:39,590 --> 00:06:36,639

on

159

00:06:40,230 --> 00:06:39,600

hello hello yep there you are into a big

160

00:06:43,350 --> 00:06:40,240

pile

161

00:06:46,629 --> 00:06:43,360

and why they would do such a thing so uh

162

00:06:48,790 --> 00:06:46,639

and then ultimately that interest became

163

00:06:51,990 --> 00:06:48,800

a passion and a life quest

164

00:06:53,830 --> 00:06:52,000

and i've started a 501c3 nonprofit

165

00:06:57,029 --> 00:06:53,840

foundation

166

00:07:00,070 --> 00:06:57,039

whose website is at thepump.org

167

00:07:01,430 --> 00:07:00,080

and uh it's about redeveloping the

168

00:07:04,870 --> 00:07:01,440

ancient high

169

00:07:08,150 --> 00:07:04,880

is a great pyramid to help our modern

170

00:07:10,230 --> 00:07:08,160

but very troubled times

171

00:07:11,589 --> 00:07:10,240

fascinating stuff and if i'm not

172

00:07:15,589 --> 00:07:11,599

mistaken you

173

00:07:17,430 --> 00:07:15,599

have a 50 000 scholarship for someone

174

00:07:18,710 --> 00:07:17,440

just kind of sitting there if they can

175

00:07:21,909 --> 00:07:18,720

just show that it works

176

00:07:25,830 --> 00:07:21,919

correct well the scholarship

177

00:07:29,270 --> 00:07:25,840

actually is quite specific

178

00:07:32,230 --> 00:07:29,280

it is to uh make a

179

00:07:33,990 --> 00:07:32,240

casing stone that the great pyramid uh

180

00:07:36,790 --> 00:07:34,000

used to be covered in

181

00:07:37,990 --> 00:07:36,800

in the manner that egyptologists say it

182

00:07:41,110 --> 00:07:38,000

was done

183

00:07:44,710 --> 00:07:41,120

and that scholarship

184

00:07:49,350 --> 00:07:44,720

requires that they quarry and make a

185

00:07:50,950 --> 00:07:49,360

casing stone uh like egyptologists say

186

00:07:52,710 --> 00:07:50,960

you know all their books even in the

187

00:07:56,070 --> 00:07:52,720

21st century

188

00:07:57,189 --> 00:07:56,080

say that they used hand tools working

189

00:07:59,909 --> 00:07:57,199

people

190

00:08:02,390 --> 00:07:59,919

and peasants made that made these casing

191

00:08:04,309 --> 00:08:02,400

stones all day long yet egyptology has

192

00:08:09,430 --> 00:08:04,319

never made one

193

00:08:12,950 --> 00:08:09,440

so uh we are uh trying to compel

194

00:08:15,110 --> 00:08:12,960

absolutely for somebody or motivate them

195

00:08:16,309 --> 00:08:15,120

to engage in the scientific method and

196

00:08:18,230 --> 00:08:16,319

make

197

00:08:20,469 --> 00:08:18,240

a chasing stone in other words to

198

00:08:22,390 --> 00:08:20,479

perform a demonstration

199

00:08:24,550 --> 00:08:22,400

that would validate the story that

200

00:08:26,150 --> 00:08:24,560

egyptology has come up with but they

201
00:08:29,909 --> 00:08:26,160
they don't provide a demonstration

202
00:08:32,230 --> 00:08:29,919
so that's that's the the uh

203
00:08:34,949 --> 00:08:32,240
scholarship so if somebody had a few

204
00:08:37,589 --> 00:08:34,959
bronze chisels

205
00:08:39,430 --> 00:08:37,599
and maybe some doriat pounders they can

206
00:08:41,670 --> 00:08:39,440
make a casing stone

207
00:08:43,269 --> 00:08:41,680
and get fifty thousand dollars but no

208
00:08:45,670 --> 00:08:43,279
one has uh

209
00:08:47,829 --> 00:08:45,680
no one has seemed to uh done that no no

210
00:08:48,630 --> 00:08:47,839
great pyramid casing stones have been

211
00:08:51,430 --> 00:08:48,640
made

212
00:08:54,150 --> 00:08:51,440
in an authentic manner uh the way

213
00:08:57,190 --> 00:08:54,160

egyptologists say they were made

214

00:08:58,630 --> 00:08:57,200

in the last thousand years so that seems

215

00:09:01,670 --> 00:08:58,640

fairly easy

216

00:09:04,710 --> 00:09:01,680

because of the uh downturn in the

217

00:09:07,829 --> 00:09:04,720

economy we lost our funding for that

218

00:09:09,910 --> 00:09:07,839

but we still have that website that that

219

00:09:13,030 --> 00:09:09,920

page is still on our website

220

00:09:15,430 --> 00:09:13,040

because uh to uh

221

00:09:16,230 --> 00:09:15,440

as a teaching tool so we're seeking

222

00:09:19,590 --> 00:09:16,240

funding

223

00:09:21,590 --> 00:09:19,600

for that uh that scholarship but uh

224

00:09:23,350 --> 00:09:21,600

but we had that we had funding for quite

225

00:09:25,190 --> 00:09:23,360

a while like six or seven years and no

226

00:09:27,990 --> 00:09:25,200

one ever took us up on

227

00:09:29,190 --> 00:09:28,000

on actually doing what egyptologists say

228

00:09:32,630 --> 00:09:29,200

was done

229

00:09:35,269 --> 00:09:32,640

uh all day long and

230

00:09:35,670 --> 00:09:35,279

that is something that i wanted to bring

231

00:09:38,150 --> 00:09:35,680

up

232

00:09:39,030 --> 00:09:38,160

is that might be a good place you walk

233

00:09:41,910 --> 00:09:39,040

the walk

234

00:09:42,710 --> 00:09:41,920

and talk the talk in contrast i think

235

00:09:45,030 --> 00:09:42,720

most

236

00:09:47,030 --> 00:09:45,040

egyptologists are interested in studying

237

00:09:48,070 --> 00:09:47,040

and interested in studying only you're

238

00:09:50,630 --> 00:09:48,080

interested in more

239

00:09:52,470 --> 00:09:50,640

the doing aspect once the studying is

240

00:09:55,430 --> 00:09:52,480

done

241

00:09:58,070 --> 00:09:55,440

i i am i am interested in that i would

242

00:09:59,350 --> 00:09:58,080

put it this way egyptology is the only

243

00:10:01,590 --> 00:09:59,360

science

244

00:10:02,389 --> 00:10:01,600

that does not engage in the scientific

245

00:10:06,310 --> 00:10:02,399

method

246

00:10:09,590 --> 00:10:06,320

egyptology has never moved a full-size

247

00:10:11,590 --> 00:10:09,600

largest stone of the great pyramid one

248

00:10:13,910 --> 00:10:11,600

inch although they say oh yeah working

249

00:10:16,710 --> 00:10:13,920

people can move them all day long

250

00:10:18,389 --> 00:10:16,720

and egyptologists have never made like i

251

00:10:20,310 --> 00:10:18,399

said a casing stone

252

00:10:22,790 --> 00:10:20,320

the way they say it was done in all

253

00:10:26,470 --> 00:10:22,800

their little drawings and their books

254

00:10:29,430 --> 00:10:26,480

so i think egyptology is a science

255

00:10:30,630 --> 00:10:29,440

that is actually in crisis right now

256

00:10:34,069 --> 00:10:30,640

because

257

00:10:35,350 --> 00:10:34,079

they have chosen not to engage in a

258

00:10:38,790 --> 00:10:35,360

scientific method

259

00:10:41,990 --> 00:10:38,800

and uh so

260

00:10:42,790 --> 00:10:42,000

i've i have a youtube channel that has a

261

00:10:47,430 --> 00:10:42,800

video

262

00:10:50,949 --> 00:10:47,440

of uh titled is egyptology

263

00:10:52,630 --> 00:10:50,959

a pseudoscience and uh again it's in

264

00:10:55,829 --> 00:10:52,640

crisis i don't know anyone

265

00:10:56,949 --> 00:10:55,839

that's past the eighth grade that has

266

00:11:00,790 --> 00:10:56,959

looked into it

267

00:11:02,949 --> 00:11:00,800

that thinks this extremely large scale

268

00:11:04,550 --> 00:11:02,959

precision stone cutting was accomplished

269

00:11:07,590 --> 00:11:04,560

using wad tools

270

00:11:10,470 --> 00:11:07,600

so but egyptologists uh

271

00:11:11,350 --> 00:11:10,480

still teach that in college uh here in

272

00:11:15,030 --> 00:11:11,360

the here and now

273

00:11:16,870 --> 00:11:15,040

so it's odd yeah other other researchers

274

00:11:20,310 --> 00:11:16,880

like christopher dunn

275

00:11:23,590 --> 00:11:20,320

uh one of his themes is that uh

276

00:11:26,870 --> 00:11:23,600

egyptology cannot demonstrate

277

00:11:30,069 --> 00:11:26,880

the methods that they say it was done

278

00:11:32,389 --> 00:11:30,079

it's it's very strange and it's a good

279

00:11:34,069 --> 00:11:32,399

segue if it's okay i'd like to read a

280

00:11:36,470 --> 00:11:34,079

portion of your book this is from about

281

00:11:39,750 --> 00:11:36,480

a third or a fourth of the way in

282

00:11:40,630 --> 00:11:39,760

and it basically says egyptology has

283

00:11:43,030 --> 00:11:40,640

degraded

284

00:11:44,870 --> 00:11:43,040

into a bizarre mystery religion headed

285

00:11:47,990 --> 00:11:44,880

by an elitist priesthood

286

00:11:50,550 --> 00:11:48,000

glorifying an ancient golden ancient

287

00:11:51,430 --> 00:11:50,560

golden objects and ritually reciting the

288

00:11:54,470 --> 00:11:51,440

tenets of

289

00:11:56,870 --> 00:11:54,480

ramp dogma on the basis of technology

290

00:11:58,870 --> 00:11:56,880

required to build the great pyramid

291

00:12:00,790 --> 00:11:58,880

and what was available to the ancient

292

00:12:02,870 --> 00:12:00,800

egyptians the context of the great

293

00:12:05,110 --> 00:12:02,880

pyramid has not been established by

294

00:12:09,110 --> 00:12:05,120

demonstration much like you're saying

295

00:12:14,310 --> 00:12:12,230

yes that's called unanimity of expert

296

00:12:17,910 --> 00:12:14,320

opinion

297

00:12:18,150 --> 00:12:17,920

and in in the realm of science unanimity

298

00:12:21,670 --> 00:12:18,160

of

299

00:12:23,750 --> 00:12:21,680

expert opinion doesn't validate anything

300

00:12:25,110 --> 00:12:23,760

so if if a bunch of people are all

301
00:12:27,990 --> 00:12:25,120
taught the same thing

302
00:12:28,230 --> 00:12:28,000
and i'll repeat what they all say that's

303
00:12:31,269 --> 00:12:28,240
an

304
00:12:34,470 --> 00:12:31,279
echo chamber that's not a validation of

305
00:12:37,590 --> 00:12:34,480
an interpretation of evidence

306
00:12:39,990 --> 00:12:37,600
so uh there were other sciences

307
00:12:41,509 --> 00:12:40,000
like phrenology you know about the bumps

308
00:12:42,790 --> 00:12:41,519
on people's heads and how that

309
00:12:44,550 --> 00:12:42,800
correlates

310
00:12:45,829 --> 00:12:44,560
to character traits taught in

311
00:12:49,829 --> 00:12:45,839
universities

312
00:12:52,790 --> 00:12:49,839
all phrenologists believe the same thing

313
00:12:55,110 --> 00:12:52,800

and but that didn't validate what they

314

00:12:58,949 --> 00:12:55,120

said even though it was a big

315

00:12:59,829 --> 00:12:58,959

uh i hate to use this term a big circle

316

00:13:02,389 --> 00:12:59,839

jerk

317

00:13:03,269 --> 00:13:02,399

of understanding you know what and just

318

00:13:06,949 --> 00:13:03,279

recently

319

00:13:08,790 --> 00:13:06,959

uh you know 50 60 years ago phrenology

320

00:13:11,110 --> 00:13:08,800

was taught in universities maybe a

321

00:13:14,310 --> 00:13:11,120

little longer than 50 years ago

322

00:13:16,470 --> 00:13:14,320

time goes by but that science

323

00:13:18,470 --> 00:13:16,480

has ceased to exist because it couldn't

324

00:13:19,350 --> 00:13:18,480

withstand the rigors of the scientific

325

00:13:22,790 --> 00:13:19,360

method

326

00:13:26,470 --> 00:13:22,800

egyptology is headed

327

00:13:29,829 --> 00:13:26,480

on the same path yes

328

00:13:31,110 --> 00:13:29,839

yes it is and i wanted to make a

329

00:13:33,350 --> 00:13:31,120

distinction that

330

00:13:35,430 --> 00:13:33,360

you actually walk the walk and you've

331

00:13:38,470 --> 00:13:35,440

gone to egypt you've done

332

00:13:40,470 --> 00:13:38,480

the footwork and

333

00:13:41,990 --> 00:13:40,480

i i want to just cut to the chase and

334

00:13:42,470 --> 00:13:42,000

kind of tell listeners what this is

335

00:13:45,509 --> 00:13:42,480

about

336

00:13:47,590 --> 00:13:45,519

but it's it's basically a water pump

337

00:13:49,990 --> 00:13:47,600

and can we how do we get into that is

338

00:13:51,189 --> 00:13:50,000

that mr myers is that just the way to do

339

00:13:56,710 --> 00:13:51,199

it

340

00:13:57,590 --> 00:13:56,720

that the great pyramid actually helped

341

00:14:00,230 --> 00:13:57,600

people

342

00:14:02,310 --> 00:14:00,240

in the real world that it wasn't uh

343

00:14:03,750 --> 00:14:02,320

built for religion it wasn't built for

344

00:14:06,949 --> 00:14:03,760

symbolology

345

00:14:09,750 --> 00:14:06,959

it wasn't built to point to something

346

00:14:11,110 --> 00:14:09,760

it wasn't built to tell us that they

347

00:14:14,310 --> 00:14:11,120

knew pie

348

00:14:17,590 --> 00:14:14,320

you know all of those reasons

349

00:14:21,189 --> 00:14:17,600

to move six million tons of stone

350

00:14:24,790 --> 00:14:21,199

are really small returns on investment

351

00:14:26,550 --> 00:14:24,800

than uh what i consider to be a very

352

00:14:29,509 --> 00:14:26,560

large return on investment that the

353

00:14:32,150 --> 00:14:29,519

great pyramid was infrastructure

354

00:14:34,230 --> 00:14:32,160

for the civilization that built it it

355

00:14:37,509 --> 00:14:34,240

was created to

356

00:14:39,189 --> 00:14:37,519

provide prosperity for the people that

357

00:14:41,750 --> 00:14:39,199

built it

358

00:14:43,189 --> 00:14:41,760

which is like their kids could eat every

359

00:14:45,990 --> 00:14:43,199

day that type of thing

360

00:14:46,790 --> 00:14:46,000

it turned the desert into a garden and

361

00:14:50,389 --> 00:14:46,800

it also

362

00:14:53,350 --> 00:14:50,399

transformed toil into leisure

363

00:14:54,150 --> 00:14:53,360

so it did all of that by being uh a

364

00:14:57,269 --> 00:14:54,160

water pump

365

00:14:59,350 --> 00:14:57,279

so uh that's what that's what we contend

366

00:15:01,829 --> 00:14:59,360

that the great pyramid was built using

367

00:15:06,230 --> 00:15:01,839

water locks and barges

368

00:15:09,189 --> 00:15:06,240

and it was built to be a massive

369

00:15:11,990 --> 00:15:09,199

infrastructure that provided prosperity

370

00:15:13,990 --> 00:15:12,000

for the people that built it

371

00:15:15,350 --> 00:15:14,000

and you know that just makes sense it

372

00:15:17,750 --> 00:15:15,360

seems like you know a

373

00:15:19,269 --> 00:15:17,760

thousand different paths to happiness

374

00:15:23,750 --> 00:15:19,279

with a water pump of that

375

00:15:26,629 --> 00:15:23,760

size and some of these other

376

00:15:28,870 --> 00:15:26,639

explanations really don't explain the

377

00:15:30,470 --> 00:15:28,880

toil there's no reward on the other side

378

00:15:33,670 --> 00:15:30,480

of that

379

00:15:35,749 --> 00:15:33,680

that's true uh i think that

380

00:15:37,269 --> 00:15:35,759

the builders of the great pyramid were

381

00:15:40,949 --> 00:15:37,279

geniuses

382

00:15:44,150 --> 00:15:40,959

okay that's that's a presupposition

383

00:15:47,670 --> 00:15:44,160

but imagine in the here and now

384

00:15:48,310 --> 00:15:47,680

we could build a big giant pyramid or

385

00:15:51,269 --> 00:15:48,320

something

386

00:15:52,150 --> 00:15:51,279

a big structure that symbolically tells

387

00:15:56,629 --> 00:15:52,160

people

388

00:15:59,269 --> 00:15:56,639

10 000 years from now that we knew pie

389

00:15:59,829 --> 00:15:59,279

or that would symbolically point to

390

00:16:02,389 --> 00:15:59,839

something

391

00:16:04,629 --> 00:16:02,399

we can do that as a civilization but the

392

00:16:09,430 --> 00:16:04,639

reason why we don't do that

393

00:16:11,749 --> 00:16:09,440

is because to do that would be stupid

394

00:16:13,430 --> 00:16:11,759

it wouldn't help it wouldn't be

395

00:16:16,550 --> 00:16:13,440

justified

396

00:16:21,590 --> 00:16:16,560

there would you know it would be insane

397

00:16:24,550 --> 00:16:21,600

to do that to spend 50 billion dollars

398

00:16:24,870 --> 00:16:24,560

to have something point to something so

399

00:16:30,150 --> 00:16:24,880

no

400

00:16:31,590 --> 00:16:30,160

those interpretations of the direct

401
00:16:34,949 --> 00:16:31,600
physical evidence don't

402
00:16:37,990 --> 00:16:34,959
uh ring true to a lot of people but

403
00:16:40,550 --> 00:16:38,000
in the here and now we

404
00:16:42,389 --> 00:16:40,560
built uh let's say the grand coulee dam

405
00:16:43,509 --> 00:16:42,399
it was the largest structure in the

406
00:16:46,790 --> 00:16:43,519
world

407
00:16:47,749 --> 00:16:46,800
up in washington state on the columbia

408
00:16:51,350 --> 00:16:47,759
river

409
00:16:53,670 --> 00:16:51,360
and it uh makes electricity

410
00:16:54,389 --> 00:16:53,680
but it also pumps water it irrigates

411
00:16:56,389 --> 00:16:54,399
about

412
00:16:58,710 --> 00:16:56,399
a million and a half acres it's a

413
00:17:02,829 --> 00:16:58,720

self-powered water pump

414

00:17:04,150 --> 00:17:02,839

so that made sense to do that and the

415

00:17:06,390 --> 00:17:04,160

electricity

416

00:17:07,350 --> 00:17:06,400

uh all it is is electrons going through

417

00:17:10,549 --> 00:17:07,360

a wire

418

00:17:12,230 --> 00:17:10,559

but it is uh many paths to prosperity

419

00:17:15,669 --> 00:17:12,240

you know we use these phones

420

00:17:17,990 --> 00:17:15,679

computers lights power industry with

421

00:17:20,069 --> 00:17:18,000

with that electricity so yeah so the

422

00:17:23,110 --> 00:17:20,079

great pyramid was

423

00:17:25,510 --> 00:17:23,120

similar in that it

424

00:17:27,590 --> 00:17:25,520

was infrastructure to provide prosperity

425

00:17:31,430 --> 00:17:27,600

huge return on investment so that's

426

00:17:32,150 --> 00:17:31,440

uh a cornerstone of the focus of my

427

00:17:34,549 --> 00:17:32,160

research

428

00:17:35,909 --> 00:17:34,559

that the great pyramid actually helped

429

00:17:37,909 --> 00:17:35,919

people

430

00:17:39,350 --> 00:17:37,919

and i don't want to jump around but you

431

00:17:41,990 --> 00:17:39,360

mentioned cornerstone

432

00:17:43,190 --> 00:17:42,000

and you've gone to such great lengths as

433

00:17:45,590 --> 00:17:43,200

to explain

434

00:17:46,470 --> 00:17:45,600

why the corners were built the way they

435

00:17:49,110 --> 00:17:46,480

were

436

00:17:51,510 --> 00:17:49,120

and i just want to go into a bit more

437

00:17:52,789 --> 00:17:51,520

about the context and how

438

00:17:54,950 --> 00:17:52,799

much like everything you're saying the

439

00:17:57,029 --> 00:17:54,960

context must be in the context

440

00:17:58,310 --> 00:17:57,039

with within the physical evidence that

441

00:17:59,909 --> 00:17:58,320

we're dealing with

442

00:18:02,150 --> 00:17:59,919

and the physical evidence we're dealing

443

00:18:04,870 --> 00:18:02,160

with does not lend credence to

444

00:18:05,430 --> 00:18:04,880

what most egyptologists are claiming

445

00:18:11,830 --> 00:18:05,440

which

446

00:18:16,070 --> 00:18:13,750

it is uh we could spend the whole hour

447

00:18:18,150 --> 00:18:16,080

talking about egyptologists uh the

448

00:18:19,990 --> 00:18:18,160

the difference between an egyptologist

449

00:18:21,990 --> 00:18:20,000

and a tomb robber

450

00:18:25,029 --> 00:18:22,000

is an egyptologist has a college

451

00:18:28,070 --> 00:18:25,039

education and a tomb robber don't

452

00:18:31,110 --> 00:18:28,080

so uh egyptology's genesis

453

00:18:34,150 --> 00:18:31,120

is from brawling tombs and

454

00:18:36,549 --> 00:18:34,160

uh stealing artifacts if you will so

455

00:18:38,310 --> 00:18:36,559

uh you know they come up they they

456

00:18:41,510 --> 00:18:38,320

encounter the great pyramid

457

00:18:44,950 --> 00:18:41,520

and their mindset uh tells them

458

00:18:45,909 --> 00:18:44,960

oh evidently that's a that's a great big

459

00:18:49,270 --> 00:18:45,919

tomb

460

00:18:51,669 --> 00:18:49,280

that we could steal stuff out of but

461

00:18:53,190 --> 00:18:51,679

people a long time ago stole all the

462

00:18:54,950 --> 00:18:53,200

good stuff out of it

463

00:18:56,230 --> 00:18:54,960

and becomes all the treasure and the

464

00:18:58,150 --> 00:18:56,240

bombing's gone

465

00:19:01,430 --> 00:18:58,160

that proves that it's determined i mean

466

00:19:04,630 --> 00:19:01,440

yeah anthropology has some reasons

467

00:19:07,110 --> 00:19:04,640

and uh so it's yeah

468

00:19:08,710 --> 00:19:07,120

it really it's it does it's a science

469

00:19:12,789 --> 00:19:08,720

that uh is a struggle

470

00:19:15,270 --> 00:19:12,799

and our foundation has a welder

471

00:19:17,669 --> 00:19:15,280

such helping us in our facility he's

472

00:19:18,470 --> 00:19:17,679

much more viable than an egyptologist or

473

00:19:20,950 --> 00:19:18,480

other would be

474

00:19:22,150 --> 00:19:20,960

because this guy that can well he can

475

00:19:25,510 --> 00:19:22,160

actually do something

476

00:19:28,549 --> 00:19:25,520

as opposed to anthropologists

477

00:19:30,470 --> 00:19:28,559

that's right and i don't want to like

478

00:19:31,270 --> 00:19:30,480

keep going down the egyptologist route

479

00:19:34,310 --> 00:19:31,280

as well

480

00:19:36,950 --> 00:19:34,320

but most agree that an alternate

481

00:19:39,190 --> 00:19:36,960

research has kind of proven that the i

482

00:19:42,230 --> 00:19:39,200

guess it would be called

483

00:19:44,950 --> 00:19:42,240

the causeway or the causeway ramp

484

00:19:45,909 --> 00:19:44,960

an elevate that would be used to elevate

485

00:19:47,990 --> 00:19:45,919

stones

486

00:19:50,390 --> 00:19:48,000

and there's really no explanation for

487

00:19:53,350 --> 00:19:50,400

the causeway ramp in most other theories

488

00:19:55,190 --> 00:19:53,360

is that true

489

00:19:56,390 --> 00:19:55,200

well i can't speak for other other

490

00:19:59,029 --> 00:19:56,400

people's theories

491

00:20:01,270 --> 00:19:59,039

um i think that there was there there is

492

00:20:01,669 --> 00:20:01,280

a causeway from the great pyramid going

493

00:20:05,669 --> 00:20:01,679

down

494

00:20:05,990 --> 00:20:05,679

to the uh their youth denial used to be

495

00:20:09,590 --> 00:20:06,000

much

496

00:20:11,590 --> 00:20:09,600

closer in ancient times but uh

497

00:20:14,149 --> 00:20:11,600

there is a causeway we think the barges

498

00:20:17,669 --> 00:20:14,159

were moved down that causeway

499

00:20:19,029 --> 00:20:17,679

and uh it's indicated the specifics in

500

00:20:21,270 --> 00:20:19,039

our video series

501
00:20:22,549 --> 00:20:21,280
on our website that people can watch for

502
00:20:24,870 --> 00:20:22,559
free

503
00:20:26,789 --> 00:20:24,880
to find out it's very visual with a lot

504
00:20:30,070 --> 00:20:26,799
of

505
00:20:33,510 --> 00:20:30,080
computer generated animations but uh

506
00:20:35,510 --> 00:20:33,520
yeah they we give a functional purpose

507
00:20:39,110 --> 00:20:35,520
for the causeway

508
00:20:42,310 --> 00:20:39,120
while other people just say well uh

509
00:20:44,149 --> 00:20:42,320
it's uh religious or something like that

510
00:20:48,390 --> 00:20:44,159
there's also very huge

511
00:20:50,950 --> 00:20:48,400
two boats to sunburgers they're called

512
00:20:52,630 --> 00:20:50,960
that were entombed right next to the

513
00:20:56,630 --> 00:20:52,640

great pyramid

514

00:20:58,870 --> 00:20:56,640

and egyptologists say well oh

515

00:21:00,710 --> 00:20:58,880

those must have been used to carry the

516

00:21:03,190 --> 00:21:00,720

pharaoh's mummy

517

00:21:03,909 --> 00:21:03,200

to the great pyramid or something like

518

00:21:07,430 --> 00:21:03,919

that

519

00:21:10,870 --> 00:21:07,440

functional purpose for those

520

00:21:13,029 --> 00:21:10,880

large barges that they could disassemble

521

00:21:14,789 --> 00:21:13,039

huge ships that you could take apart if

522

00:21:18,950 --> 00:21:14,799

you will and we think that

523

00:21:22,549 --> 00:21:18,960

that those were used as floating cranes

524

00:21:24,230 --> 00:21:22,559

if you will so so there's a lot of but

525

00:21:25,669 --> 00:21:24,240

we all have the same direct physical

526

00:21:27,029 --> 00:21:25,679

evidence

527

00:21:30,950 --> 00:21:27,039

but there's certainly different

528

00:21:34,230 --> 00:21:30,960

interpretations of that same evidence

529

00:21:36,070 --> 00:21:34,240

yes there is and you know it's funny you

530

00:21:37,830 --> 00:21:36,080

mention the ships because that's what i

531

00:21:39,830 --> 00:21:37,840

was taught that's what everyone was

532

00:21:43,990 --> 00:21:39,840

taught is that these ships were an over

533

00:21:45,669 --> 00:21:44,000

glorified excess of wealth and how

534

00:21:47,190 --> 00:21:45,679

they can carry that wealth into the

535

00:21:49,750 --> 00:21:47,200

afterlife and it makes

536

00:21:51,270 --> 00:21:49,760

no virtual sense like you're saying in

537

00:21:54,470 --> 00:21:51,280

context this makes no

538

00:21:57,029 --> 00:21:54,480

virtual sense as physical evidence and

539

00:21:58,549 --> 00:21:57,039

um i wanted to bring up the story of tom

540

00:21:59,990 --> 00:21:58,559

and the arrowheads without giving too

541

00:22:02,470 --> 00:22:00,000

much away is that something you could

542

00:22:06,149 --> 00:22:02,480

tell our listeners about

543

00:22:10,310 --> 00:22:06,159

yes it's uh about issues

544

00:22:13,990 --> 00:22:10,320

with uh demonstrations

545

00:22:17,350 --> 00:22:14,000

that to to justify somebody's

546

00:22:21,430 --> 00:22:17,360

um interpretation of evidence

547

00:22:23,510 --> 00:22:21,440

of a neighbor kid he's grown up now

548

00:22:25,669 --> 00:22:23,520

but he came over with an arrowhead i've

549

00:22:27,029 --> 00:22:25,679

i've got quite a shop a workshop with a

550

00:22:30,230 --> 00:22:27,039

metal lathe and

551
00:22:32,789 --> 00:22:30,240
i do a whole bunch of stuff

552
00:22:35,110 --> 00:22:32,799
so he came over and he said hey here's

553
00:22:38,549 --> 00:22:35,120
this arrowhead how is it made

554
00:22:40,710 --> 00:22:38,559
and the kit's really sharp so i i

555
00:22:44,789 --> 00:22:40,720
grabbed a piece of soapstone

556
00:22:46,149 --> 00:22:44,799
which is stone and i got my pocketknife

557
00:22:49,350 --> 00:22:46,159
out and i carved

558
00:22:52,310 --> 00:22:49,360
an arrowhead out of soapstone and

559
00:22:54,230 --> 00:22:52,320
i told him i said here you go i've

560
00:22:56,710 --> 00:22:54,240
demonstrated how it's made

561
00:22:58,789 --> 00:22:56,720
but the kid he was really smart and i

562
00:23:00,789 --> 00:22:58,799
was able to draw this out of him

563
00:23:03,190 --> 00:23:00,799

he says well it sort of looks like an

564

00:23:05,669 --> 00:23:03,200

arrowhead but it's kind of different

565

00:23:08,549 --> 00:23:05,679

than this one that i have the one that i

566

00:23:11,350 --> 00:23:08,559

have is really sharp and the

567

00:23:13,590 --> 00:23:11,360

soapstone one wasn't and then he kind of

568

00:23:16,070 --> 00:23:13,600

messed with it and broke the soapstone

569

00:23:20,149 --> 00:23:16,080

and we'll head in half and he said

570

00:23:23,110 --> 00:23:20,159

well your demonstration you know is

571

00:23:24,470 --> 00:23:23,120

ended up being different than than the

572

00:23:28,149 --> 00:23:24,480

original piece

573

00:23:31,029 --> 00:23:28,159

and and he was very dissatisfied and i i

574

00:23:31,669 --> 00:23:31,039

commended the young guy for for not just

575

00:23:38,310 --> 00:23:31,679

believing

576

00:23:40,149 --> 00:23:38,320

this half-hearted demonstration

577

00:23:42,870 --> 00:23:40,159

so it's always kind of fun and that

578

00:23:45,909 --> 00:23:42,880

relates to some of the demonstrations

579

00:23:48,990 --> 00:23:45,919

that technology has come up with yeah

580

00:23:50,470 --> 00:23:49,000

we've all seen the shows on tv the

581

00:23:54,870 --> 00:23:50,480

documentaries

582

00:23:57,190 --> 00:23:54,880

they move a one ton stone a few inches

583

00:23:58,470 --> 00:23:57,200

and say that's how 70 ton stones were

584

00:24:01,110 --> 00:23:58,480

moved

585

00:24:02,390 --> 00:24:01,120

okay that's what they've come up with

586

00:24:05,669 --> 00:24:02,400

well i can move

587

00:24:09,110 --> 00:24:05,679

a full car i could pick a full-size car

588

00:24:11,990 --> 00:24:09,120

up over my head

589

00:24:13,430 --> 00:24:12,000

but and i could provide demonstration to

590

00:24:16,070 --> 00:24:13,440

justify

591

00:24:17,990 --> 00:24:16,080

that statement by picking up a hot

592

00:24:21,750 --> 00:24:18,000

wheels car

593

00:24:25,350 --> 00:24:21,760

sure but my demonstration is flawed

594

00:24:27,269 --> 00:24:25,360

because of an issue of scale just as my

595

00:24:29,990 --> 00:24:27,279

demonstration with the arrowhead was

596

00:24:33,350 --> 00:24:30,000

flawed because the results

597

00:24:36,470 --> 00:24:33,360

weren't the same as the original so

598

00:24:38,230 --> 00:24:36,480

uh that's some of the sucking and

599

00:24:40,990 --> 00:24:38,240

driving

600

00:24:43,350 --> 00:24:41,000

that and the bait and switch that

601
00:24:46,710 --> 00:24:43,360
egyptology does

602
00:24:49,750 --> 00:24:46,720
to try and demonstrate things that are

603
00:24:53,110 --> 00:24:49,760
literally impossible so again

604
00:24:57,510 --> 00:24:53,120
egyptology is in crisis

605
00:25:01,510 --> 00:24:57,520
right now and uh as a stagnated

606
00:25:04,470 --> 00:25:01,520
mystery religion if you will any and

607
00:25:07,430 --> 00:25:04,480
the future will not look will not look

608
00:25:10,230 --> 00:25:07,440
kindly on egyptology

609
00:25:12,390 --> 00:25:10,240
no i think you're right and i wanted to

610
00:25:15,669 --> 00:25:12,400
bring up something i thought was so

611
00:25:15,990 --> 00:25:15,679
interesting which was the findings of

612
00:25:18,230 --> 00:25:16,000
the

613
00:25:19,190 --> 00:25:18,240

independent researcher and hungarian

614

00:25:22,070 --> 00:25:19,200

surveyor

615

00:25:23,430 --> 00:25:22,080

istvan soros author of the book pyramids

616

00:25:26,710 --> 00:25:23,440

on the water

617

00:25:29,830 --> 00:25:26,720

floor that's fascinating that

618

00:25:32,630 --> 00:25:29,840

locks were found between the

619

00:25:33,269 --> 00:25:32,640

i mean absolutely wild between the great

620

00:25:38,149 --> 00:25:33,279

pyramid

621

00:25:42,149 --> 00:25:39,909

well it tells us that the original

622

00:25:45,430 --> 00:25:42,159

builders were geniuses

623

00:25:48,789 --> 00:25:45,440

and that the original builders moved

624

00:25:51,110 --> 00:25:48,799

their heaviest objects which are these

625

00:25:52,070 --> 00:25:51,120

big stones of the great pyramid let's

626

00:25:54,630 --> 00:25:52,080

say

627

00:25:55,269 --> 00:25:54,640

they move those in the same manner that

628

00:25:58,390 --> 00:25:55,279

we move

629

00:26:01,110 --> 00:25:58,400

our heaviest objects in the 21st century

630

00:26:03,909 --> 00:26:01,120

the system of choice that we use the

631

00:26:07,110 --> 00:26:03,919

high technology we use is water logs

632

00:26:09,350 --> 00:26:07,120

they just expanded the panama canal

633

00:26:10,710 --> 00:26:09,360

with larger water logs you know they

634

00:26:14,310 --> 00:26:10,720

didn't use

635

00:26:17,430 --> 00:26:14,320

a magic wand or humming

636

00:26:20,789 --> 00:26:17,440

or worshiping crystals or

637

00:26:23,909 --> 00:26:20,799

anything like that or dragging ships up

638

00:26:24,789 --> 00:26:23,919

up a big ramp they used water locks so

639

00:26:28,310 --> 00:26:24,799

water locks

640

00:26:31,269 --> 00:26:28,320

are a efficient 21st century

641

00:26:32,070 --> 00:26:31,279

technology of choice that was used we

642

00:26:34,470 --> 00:26:32,080

think

643

00:26:35,909 --> 00:26:34,480

to build the great pyramid and that book

644

00:26:39,590 --> 00:26:35,919

that you mentioned

645

00:26:42,630 --> 00:26:39,600

is uh really interesting

646

00:26:43,029 --> 00:26:42,640

yes and the mason well the mason it's

647

00:26:46,549 --> 00:26:43,039

just

648

00:26:50,230 --> 00:26:46,559

much

649

00:26:53,590 --> 00:26:50,240

evidence

650

00:26:56,310 --> 00:26:53,600

providing foundation to your findings

651
00:27:00,630 --> 00:26:56,320
in my opinion that it's it's hard for me

652
00:27:04,830 --> 00:27:03,830
well they sure can yeah they absolutely

653
00:27:07,830 --> 00:27:04,840
can

654
00:27:10,950 --> 00:27:07,840
um the pill down skull

655
00:27:12,310 --> 00:27:10,960
was discovered and the the experts the

656
00:27:14,149 --> 00:27:12,320
anthropologist said oh

657
00:27:15,909 --> 00:27:14,159
there it is that's the missing link it's

658
00:27:16,549 --> 00:27:15,919
right there we can point to it we can

659
00:27:18,789 --> 00:27:16,559
see it

660
00:27:20,710 --> 00:27:18,799
it's the missing link and it was

661
00:27:25,350 --> 00:27:20,720
acknowledged to be fact

662
00:27:28,070 --> 00:27:25,360
for about 40 years and the reason why

663
00:27:30,070 --> 00:27:28,080

is because that's how long it took those

664

00:27:33,269 --> 00:27:30,080

anthropologists that wrote their

665

00:27:35,510 --> 00:27:33,279

doctoral thesis on the pill down skull

666

00:27:36,870 --> 00:27:35,520

it took about 40 years for those guys to

667

00:27:40,630 --> 00:27:36,880

die off

668

00:27:43,110 --> 00:27:40,640

the next generation of anthropologists

669

00:27:44,870 --> 00:27:43,120

said oh yeah the pelt down skull we can

670

00:27:48,710 --> 00:27:44,880

see the file marks on it

671

00:27:51,350 --> 00:27:48,720

and it's it's fake uh the new

672

00:27:52,470 --> 00:27:51,360

generation of anthropologists they knew

673

00:27:54,149 --> 00:27:52,480

it was fake

674

00:27:57,190 --> 00:27:54,159

but neither generation of

675

00:28:01,590 --> 00:27:57,200

anthropologists changed their minds

676

00:28:05,110 --> 00:28:01,600

so the best uh i've heard it said that

677

00:28:07,470 --> 00:28:05,120

science advances funeral by funeral

678

00:28:09,029 --> 00:28:07,480

so what we need is for these uh

679

00:28:12,789 --> 00:28:09,039

egyptologists

680

00:28:16,230 --> 00:28:12,799

and other people to die off and

681

00:28:19,350 --> 00:28:16,240

let new people come to four if you will

682

00:28:22,389 --> 00:28:19,360

and uh it's it's uh it's a struggle

683

00:28:25,430 --> 00:28:22,399

and it's a battle

684

00:28:27,669 --> 00:28:25,440

uh the revolution that we are in of

685

00:28:30,950 --> 00:28:27,679

ideas and concepts about

686

00:28:34,389 --> 00:28:30,960

uh ancient mankind's past

687

00:28:35,510 --> 00:28:34,399

so correct and so true and you see i see

688

00:28:42,389 --> 00:28:35,520

these

689

00:28:44,950 --> 00:28:42,399

pyramids and they make perfect sense

690

00:28:46,630 --> 00:28:44,960

and you look at for example dubai where

691

00:28:48,149 --> 00:28:46,640

they're making these formations

692

00:28:50,149 --> 00:28:48,159

where there's extreme wealth because

693

00:28:52,630 --> 00:28:50,159

it's fun and it's easy

694

00:28:53,190 --> 00:28:52,640

and it makes perfect sense and it just

695

00:28:57,029 --> 00:28:53,200

kind of

696

00:28:59,750 --> 00:28:57,039

they look so similar uh has there been

697

00:29:00,070 --> 00:28:59,760

i kind of want to go more into soros's

698

00:29:03,510 --> 00:29:00,080

the

699

00:29:06,310 --> 00:29:03,520

more information on that that was not

700

00:29:10,870 --> 00:29:09,510

about his book yes yeah about his

701
00:29:13,990 --> 00:29:10,880
findings and his book

702
00:29:16,149 --> 00:29:14,000
and the proof that there were

703
00:29:17,830 --> 00:29:16,159
floating stones that book you're talking

704
00:29:21,110 --> 00:29:17,840
about that's the one

705
00:29:23,750 --> 00:29:21,120
correct uh

706
00:29:24,870 --> 00:29:23,760
he had a lot of evidence certainly i

707
00:29:27,750 --> 00:29:24,880
don't agree with

708
00:29:29,990 --> 00:29:27,760
everything that he says he talked about

709
00:29:31,190 --> 00:29:30,000
a mechanical pump associated with the

710
00:29:34,310 --> 00:29:31,200
sphinx

711
00:29:35,590 --> 00:29:34,320
i don't particularly agree with that

712
00:29:36,870 --> 00:29:35,600
which is fine

713
00:29:39,350 --> 00:29:36,880

we don't all have to agree with

714

00:29:43,269 --> 00:29:39,360

everything but he did a brilliant job

715

00:29:49,190 --> 00:29:46,310

physical evidence certainly for

716

00:29:51,110 --> 00:29:49,200

water on the giza plateau and

717

00:29:52,630 --> 00:29:51,120

surrounding areas so yeah i would

718

00:29:56,070 --> 00:29:52,640

suggest

719

00:29:58,389 --> 00:29:56,080

people read that book and uh

720

00:29:59,669 --> 00:29:58,399

find out the uh the same information

721

00:30:02,870 --> 00:29:59,679

that you're familiar with

722

00:30:04,870 --> 00:30:02,880

so how's that

723

00:30:06,870 --> 00:30:04,880

i think it's it's exactly right because

724

00:30:07,510 --> 00:30:06,880

the demonstrations in the book are hard

725

00:30:10,149 --> 00:30:07,520

to beat

726

00:30:11,269 --> 00:30:10,159

i mean it's everything is laid out in

727

00:30:15,029 --> 00:30:11,279

such a

728

00:30:15,430 --> 00:30:15,039

very fit and easy clean accessible way

729

00:30:19,029 --> 00:30:15,440

that

730

00:30:21,029 --> 00:30:19,039

question every time a question pops up

731

00:30:22,630 --> 00:30:21,039

it's answered in my opinion quite

732

00:30:26,310 --> 00:30:22,640

quickly

733

00:30:29,590 --> 00:30:26,320

in his book oh no no no yeah no and

734

00:30:31,909 --> 00:30:29,600

and well and also i wanted to get into

735

00:30:33,830 --> 00:30:31,919

the with the first three levels and this

736

00:30:36,230 --> 00:30:33,840

is sounds crazy but

737

00:30:37,909 --> 00:30:36,240

i think that's all this is all locks and

738

00:30:40,950 --> 00:30:37,919

i don't want to give too much away

739

00:30:42,870 --> 00:30:40,960

about the book but it makes sense i'm

740

00:30:44,149 --> 00:30:42,880

from costa rica and the panama canal

741

00:30:46,870 --> 00:30:44,159

isn't far from there

742

00:30:47,430 --> 00:30:46,880

so maybe just because i've seen that in

743

00:30:49,990 --> 00:30:47,440

person

744

00:30:51,510 --> 00:30:50,000

and it seems so easy it just it doesn't

745

00:30:55,190 --> 00:30:51,520

matter how much it weighs

746

00:30:56,310 --> 00:30:55,200

you can move it um can we go into that a

747

00:30:59,990 --> 00:30:56,320

little bit just

748

00:31:03,990 --> 00:31:00,000

how how this flotation system might work

749

00:31:06,149 --> 00:31:04,000

well certainly the great pyramid

750

00:31:08,230 --> 00:31:06,159

we think was built level by level

751
00:31:09,750 --> 00:31:08,240
including the casing stones that were on

752
00:31:12,710 --> 00:31:09,760
the outside

753
00:31:13,350 --> 00:31:12,720
so when the great pyramid was assembled

754
00:31:16,830 --> 00:31:13,360
they

755
00:31:18,870 --> 00:31:16,840
uh the first stones this is very

756
00:31:21,830 --> 00:31:18,880
abbreviated explanation but the first

757
00:31:25,110 --> 00:31:21,840
stone set in place was the first level

758
00:31:26,549 --> 00:31:25,120
of casing stones those are the finely

759
00:31:28,950 --> 00:31:26,559
cut stones

760
00:31:29,669 --> 00:31:28,960
and they're cemented together bonded

761
00:31:32,549 --> 00:31:29,679
together

762
00:31:33,430 --> 00:31:32,559
water tight with a very strong bonding

763
00:31:36,710 --> 00:31:33,440

agent

764

00:31:38,789 --> 00:31:36,720

so those stones make up a square

765

00:31:40,630 --> 00:31:38,799

wall if you will about four and a half

766

00:31:43,990 --> 00:31:40,640

feet deep

767

00:31:45,350 --> 00:31:44,000

the original builders fill that square

768

00:31:48,950 --> 00:31:45,360

wall with water

769

00:31:51,350 --> 00:31:48,960

so you had a square pond on the great

770

00:31:53,990 --> 00:31:51,360

pyramid construction site

771

00:31:55,669 --> 00:31:54,000

that's that's all you had well they also

772

00:31:58,630 --> 00:31:55,679

built water locks

773

00:32:00,870 --> 00:31:58,640

from the catch basin in the Nile all the

774

00:32:05,029 --> 00:32:00,880

way up to

775

00:32:05,509 --> 00:32:05,039

the uh that pond and those water locks

776

00:32:07,909 --> 00:32:05,519

could

777

00:32:08,789 --> 00:32:07,919

if you will communicate with the pond

778

00:32:10,870 --> 00:32:08,799

they would

779

00:32:12,710 --> 00:32:10,880

there was a way to get from the water

780

00:32:14,470 --> 00:32:12,720

locks into the pond

781

00:32:16,070 --> 00:32:14,480

you know like a short canal or whatever

782

00:32:19,029 --> 00:32:16,080

however you want to call it

783

00:32:20,070 --> 00:32:19,039

so anyway uh the next step of the

784

00:32:22,470 --> 00:32:20,080

construction

785

00:32:23,909 --> 00:32:22,480

was they brought the interior stones for

786

00:32:28,149 --> 00:32:23,919

the first level

787

00:32:30,470 --> 00:32:28,159

of the water locks effortlessly

788

00:32:31,669 --> 00:32:30,480

uh you know no strong back muscles were

789

00:32:33,990 --> 00:32:31,679

required

790

00:32:36,470 --> 00:32:34,000

those stones were on barges so those

791

00:32:40,470 --> 00:32:36,480

interior stones for the first level

792

00:32:43,509 --> 00:32:40,480

went up the water locks and they had a

793

00:32:46,710 --> 00:32:43,519

means usually i think they use

794

00:32:47,990 --> 00:32:46,720

those floating barges if you will the

795

00:32:51,509 --> 00:32:48,000

sun barges

796

00:32:55,029 --> 00:32:51,519

as a type of floating crane they

797

00:32:58,789 --> 00:32:55,039

lifted the stone off of the barge

798

00:32:59,350 --> 00:32:58,799

and into the pond so when that pond was

799

00:33:01,990 --> 00:32:59,360

filled

800

00:33:02,950 --> 00:33:02,000

up with stones that came up the water

801
00:33:05,029 --> 00:33:02,960
locks

802
00:33:06,070 --> 00:33:05,039
the first level of the great pyramid was

803
00:33:08,630 --> 00:33:06,080
completed

804
00:33:10,310 --> 00:33:08,640
then they put on the second level of

805
00:33:13,269 --> 00:33:10,320
casing stones

806
00:33:14,230 --> 00:33:13,279
so you had another wall on top of the

807
00:33:17,830 --> 00:33:14,240
first wall

808
00:33:19,029 --> 00:33:17,840
if you will and they added additional

809
00:33:22,710 --> 00:33:19,039
water

810
00:33:25,590 --> 00:33:22,720
into that enclosure which filled

811
00:33:26,389 --> 00:33:25,600
the uh pond up to the second level if

812
00:33:29,669 --> 00:33:26,399
you will

813
00:33:31,509 --> 00:33:29,679

and also added water locks up the side

814

00:33:35,669 --> 00:33:31,519

of the great pyramid

815

00:33:38,870 --> 00:33:35,679

to connect to that pond and then they

816

00:33:41,110 --> 00:33:38,880

lifted the removed stones from the catch

817

00:33:41,909 --> 00:33:41,120

basin in the Nile on barges all the way

818

00:33:45,750 --> 00:33:41,919

up

819

00:33:48,950 --> 00:33:45,760

lock on the

820

00:33:51,990 --> 00:33:48,960

incorporated into the casing stones

821

00:33:52,710 --> 00:33:52,000

and then they filled in that second pond

822

00:33:55,350 --> 00:33:52,720

if you will

823

00:33:57,110 --> 00:33:55,360

with stones interior stones and the

824

00:33:58,310 --> 00:33:57,120

second level of the great pyramid was

825

00:34:02,630 --> 00:33:58,320

completed

826

00:34:06,149 --> 00:34:02,640

and that process was systematic

827

00:34:09,030 --> 00:34:06,159

and uh efficient and fast

828

00:34:10,230 --> 00:34:09,040

and that's how they assembled the great

829

00:34:13,430 --> 00:34:10,240

pyramid

830

00:34:15,589 --> 00:34:13,440

with uh with ease if you will yeah

831

00:34:18,230 --> 00:34:15,599

no broken backs i i like how you

832

00:34:19,109 --> 00:34:18,240

mentioned no broken backs no crazy slave

833

00:34:21,349 --> 00:34:19,119

labor

834

00:34:22,629 --> 00:34:21,359

and yeah people were working but these

835

00:34:24,629 --> 00:34:22,639

workers

836

00:34:25,669 --> 00:34:24,639

were most likely working they were

837

00:34:27,589 --> 00:34:25,679

skilled

838

00:34:28,710 --> 00:34:27,599

sailors in a way and i wanted to get

839

00:34:32,310 --> 00:34:28,720

into uh

840

00:34:35,510 --> 00:34:32,320

not so much the stone masonry but also

841

00:34:37,669 --> 00:34:35,520

from your your perspective and a lot of

842

00:34:38,950 --> 00:34:37,679

i thought it was genius all of the

843

00:34:42,550 --> 00:34:38,960

woodwork involved

844

00:34:44,869 --> 00:34:42,560

in the little the the the rafts

845

00:34:46,470 --> 00:34:44,879

and the ramps and uh the things in

846

00:34:48,230 --> 00:34:46,480

between the masonry

847

00:34:50,389 --> 00:34:48,240

and how i think that's kind of where the

848

00:34:53,669 --> 00:34:50,399

magic happened

849

00:34:57,030 --> 00:34:53,679

are true i true uh herodotus said

850

00:34:59,270 --> 00:34:57,040

that he was told by the priests

851
00:35:00,950 --> 00:34:59,280
that the great pyramid was built using

852
00:35:04,230 --> 00:35:00,960
short wooden planks

853
00:35:07,349 --> 00:35:04,240
and uh the doors on water locks

854
00:35:07,990 --> 00:35:07,359
in the panama canal and up in the erie

855
00:35:10,950 --> 00:35:08,000
canal

856
00:35:12,870 --> 00:35:10,960
in the united states the water locked

857
00:35:13,589 --> 00:35:12,880
doors were made out of short wooden

858
00:35:15,750 --> 00:35:13,599
planks

859
00:35:17,349 --> 00:35:15,760
so just as you're fascinated with that

860
00:35:20,950 --> 00:35:17,359
aspect of it

861
00:35:25,349 --> 00:35:20,960
probably that became a myth

862
00:35:28,710 --> 00:35:25,359
that the priests who were tour guides

863
00:35:30,550 --> 00:35:28,720

uh were told and it became that story

864

00:35:30,950 --> 00:35:30,560

about the short wooden planks so yeah

865

00:35:33,990 --> 00:35:30,960

it's

866

00:35:37,190 --> 00:35:34,000

uh you know a few uh barges

867

00:35:40,870 --> 00:35:37,200

that were reused doors on

868

00:35:43,829 --> 00:35:40,880

pivots that type of thing stones that

869

00:35:47,190 --> 00:35:43,839

are cemented together

870

00:35:49,270 --> 00:35:47,200

and a supply of water and they were able

871

00:35:52,390 --> 00:35:49,280

to build the great pyramid

872

00:35:55,030 --> 00:35:52,400

yeah i'm a fly fishing guide by uh

873

00:35:56,950 --> 00:35:55,040

trade so and a boatman at that so we

874

00:35:57,990 --> 00:35:56,960

would rode boats down a river so i can

875

00:36:00,310 --> 00:35:58,000

imagine that the guys

876

00:36:01,670 --> 00:36:00,320

at the oars or whoever was doing this

877

00:36:04,069 --> 00:36:01,680

these tradesmen

878

00:36:04,950 --> 00:36:04,079

must have been at the top of their game

879

00:36:08,710 --> 00:36:04,960

and

880

00:36:11,589 --> 00:36:08,720

the construction

881

00:36:11,990 --> 00:36:11,599

just continues it seems like in my

882

00:36:13,829 --> 00:36:12,000

opinion

883

00:36:15,670 --> 00:36:13,839

it just gets easier after the first

884

00:36:16,870 --> 00:36:15,680

three i mean after after you get the

885

00:36:19,190 --> 00:36:16,880

base level done

886

00:36:20,710 --> 00:36:19,200

the rest is i don't want to describe it

887

00:36:22,790 --> 00:36:20,720

because it's so easy

888

00:36:24,310 --> 00:36:22,800

but it just gets super simple at that

889

00:36:26,310 --> 00:36:24,320

point and

890

00:36:27,349 --> 00:36:26,320

uh i wanted to ask you about your video

891

00:36:30,390 --> 00:36:27,359

series just

892

00:36:31,990 --> 00:36:30,400

how cool that is where let's get that

893

00:36:34,550 --> 00:36:32,000

out so listeners can find

894

00:36:36,310 --> 00:36:34,560

where to find your information and then

895

00:36:39,670 --> 00:36:36,320

uh i wanted to ask you a bit about the

896

00:36:44,310 --> 00:36:42,589

well the information about my books and

897

00:36:46,790 --> 00:36:44,320

documentaries

898

00:36:47,829 --> 00:36:46,800

and the video series that we're uh

899

00:36:51,589 --> 00:36:47,839

referring to

900

00:36:52,310 --> 00:36:51,599

are all located at uh our foundation's

901
00:36:55,750 --> 00:36:52,320
website

902
00:36:56,630 --> 00:36:55,760
at the pub.org and you can find out

903
00:37:00,069 --> 00:36:56,640
about the

904
00:37:03,589 --> 00:37:00,079
scholarship that we had we also had a

905
00:37:06,230 --> 00:37:03,599
um a

906
00:37:07,430 --> 00:37:06,240
tour planned for egypt but that was

907
00:37:09,270 --> 00:37:07,440
cancelled

908
00:37:11,109 --> 00:37:09,280
because of covid so we have to

909
00:37:12,870 --> 00:37:11,119
reschedule a lap but you can see our

910
00:37:15,510 --> 00:37:12,880
itinerary

911
00:37:17,109 --> 00:37:15,520
and that type of thing and of course uh

912
00:37:21,270 --> 00:37:17,119
links to

913
00:37:24,390 --> 00:37:21,280

my books and uh

914

00:37:27,670 --> 00:37:24,400

documentaries at thebomb.org but uh

915

00:37:30,790 --> 00:37:27,680

yeah when the great pyramid

916

00:37:33,430 --> 00:37:30,800

during construction it would appear

917

00:37:34,550 --> 00:37:33,440

that the farther up you got the faster

918

00:37:38,230 --> 00:37:34,560

it would go

919

00:37:41,430 --> 00:37:38,240

because the amount of material was

920

00:37:44,710 --> 00:37:41,440

less each level so the first

921

00:37:47,910 --> 00:37:44,720

several levels would go fairly

922

00:37:51,349 --> 00:37:47,920

slowly in terms of raising vertically

923

00:37:52,630 --> 00:37:51,359

but once you get up into the the pyramid

924

00:37:54,870 --> 00:37:52,640

level by level

925

00:37:56,870 --> 00:37:54,880

it it would be if you were watching the

926
00:37:58,630 --> 00:37:56,880
process it would appear oh wow they're

927
00:38:00,790 --> 00:37:58,640
going higher and higher

928
00:38:03,430 --> 00:38:00,800
quicker and quicker so yeah it's a it's

929
00:38:06,470 --> 00:38:03,440
a fascinating explanation

930
00:38:08,470 --> 00:38:06,480
and uh people especially people like you

931
00:38:12,390 --> 00:38:08,480
that have actually read the books

932
00:38:14,630 --> 00:38:12,400
um often use the word compelling

933
00:38:16,150 --> 00:38:14,640
yes so it's it's been an exciting

934
00:38:19,270 --> 00:38:16,160
experience

935
00:38:21,670 --> 00:38:19,280
writing these books and uh i've

936
00:38:24,230 --> 00:38:21,680
certainly got a lot of blow back but

937
00:38:26,950 --> 00:38:24,240
i've also got a lot of people that

938
00:38:28,870 --> 00:38:26,960

embrace the direction of research that

939

00:38:30,630 --> 00:38:28,880

we're following

940

00:38:33,190 --> 00:38:30,640

and i wanted to ask you about that

941

00:38:35,430 --> 00:38:33,200

blowback however in my opinion

942

00:38:36,710 --> 00:38:35,440

using water locks and ponds and things

943

00:38:39,670 --> 00:38:36,720

to move this

944

00:38:41,190 --> 00:38:39,680

heavy these heavy payloads on barges is

945

00:38:43,990 --> 00:38:41,200

very consistent with the

946

00:38:46,230 --> 00:38:44,000

physical evidence and i love how you

947

00:38:49,349 --> 00:38:46,240

just come back to that the rationality

948

00:38:52,390 --> 00:38:49,359

is really just so obvious and

949

00:38:53,190 --> 00:38:52,400

the misconceptions are just that and i

950

00:38:55,030 --> 00:38:53,200

wanted to get

951
00:38:56,470 --> 00:38:55,040
into a little bit of the construction

952
00:38:59,589 --> 00:38:56,480
and really the biggest

953
00:39:02,230 --> 00:38:59,599
thing which is the casing stones and

954
00:39:04,470 --> 00:39:02,240
it keeps coming up because those those

955
00:39:07,109 --> 00:39:04,480
casing stones being set in place

956
00:39:07,589 --> 00:39:07,119
once you had that down the rest of the

957
00:39:09,990 --> 00:39:07,599
plan

958
00:39:12,230 --> 00:39:10,000
it i i want i want to just kind of get

959
00:39:17,270 --> 00:39:12,240
into how important the casing stones are

960
00:39:22,630 --> 00:39:20,390
they are asking me yeah yes

961
00:39:24,950 --> 00:39:22,640
for the uh for the construction they're

962
00:39:28,390 --> 00:39:24,960
water tight if you will

963
00:39:31,589 --> 00:39:28,400

and uh impact help impound

964

00:39:35,430 --> 00:39:31,599

water um for

965

00:39:38,150 --> 00:39:35,440

the the process and uh you know again

966

00:39:39,190 --> 00:39:38,160

level by level but uh they they are more

967

00:39:42,310 --> 00:39:39,200

of a

968

00:39:44,069 --> 00:39:42,320

signal than they're not like a dam or

969

00:39:46,710 --> 00:39:44,079

anything like that

970

00:39:49,349 --> 00:39:46,720

they are as uh so you know the greek

971

00:39:52,870 --> 00:39:49,359

pyramid wasn't built

972

00:39:54,550 --> 00:39:52,880

and then uh these casing stones put on

973

00:39:57,109 --> 00:39:54,560

like a layer of plywood

974

00:39:57,750 --> 00:39:57,119

or or anything or roofing if you will

975

00:40:00,790 --> 00:39:57,760

but they're an

976
00:40:02,470 --> 00:40:00,800
integral part of the construction

977
00:40:04,230 --> 00:40:02,480
of the great pyramid they're they're

978
00:40:06,710 --> 00:40:04,240
intertwined

979
00:40:08,630 --> 00:40:06,720
uh if you will the uh some of the

980
00:40:12,470 --> 00:40:08,640
imperial stones

981
00:40:14,710 --> 00:40:12,480
are set on top of the back if you will

982
00:40:16,550 --> 00:40:14,720
of the casing stone so it's all an

983
00:40:19,670 --> 00:40:16,560
integrated unit

984
00:40:22,790 --> 00:40:19,680
it's not a it's not just like a a

985
00:40:25,990 --> 00:40:22,800
dam if you will so but but yeah

986
00:40:29,670 --> 00:40:26,000
the casing stones uh are very

987
00:40:32,230 --> 00:40:29,680
uh are very important it's one aspect

988
00:40:32,790 --> 00:40:32,240

that indicates there's a profound link

989

00:40:36,150 --> 00:40:32,800

between

990

00:40:39,589 --> 00:40:36,160

water and the great pyramid

991

00:40:40,069 --> 00:40:39,599

yes and uh the i i like that you

992

00:40:41,910 --> 00:40:40,079

mentioned

993

00:40:43,589 --> 00:40:41,920

it's not just like a dam because

994

00:40:45,109 --> 00:40:43,599

obviously the building was different and

995

00:40:48,710 --> 00:40:45,119

the hydrostatic pressure

996

00:40:50,150 --> 00:40:48,720

is different and yeah um it's a solid

997

00:40:53,190 --> 00:40:50,160

structure that was used

998

00:40:55,030 --> 00:40:53,200

probably for you know i don't know is

999

00:40:57,990 --> 00:40:55,040

there any is there any anti

1000

00:40:59,990 --> 00:40:58,000

idea how long it was functionable or

1001

00:41:03,990 --> 00:41:00,000

functional for

1002

00:41:06,870 --> 00:41:04,000

i don't know that uh but it wasn't

1003

00:41:09,430 --> 00:41:06,880

built and then they had a change of

1004

00:41:12,630 --> 00:41:09,440

plans like egyptologists have just

1005

00:41:14,790 --> 00:41:12,640

come up with that story it was designed

1006

00:41:15,589 --> 00:41:14,800

and built by geniuses but how long it

1007

00:41:17,589 --> 00:41:15,599

operated

1008

00:41:19,510 --> 00:41:17,599

i don't know i think that it

1009

00:41:22,790 --> 00:41:19,520

malfunctioned

1010

00:41:26,550 --> 00:41:22,800

in the king's chamber and uh

1011

00:41:30,390 --> 00:41:26,560

ultimately damaged the uh king's chamber

1012

00:41:32,870 --> 00:41:30,400

and made the water pump inoperable

1013

00:41:34,710 --> 00:41:32,880

which i talked about in the book so but

1014

00:41:38,309 --> 00:41:34,720

yeah it uh

1015

00:41:40,230 --> 00:41:38,319

it is a fascinating uh unusual water

1016

00:41:42,230 --> 00:41:40,240

pumping technology we're trying to

1017

00:41:44,550 --> 00:41:42,240

redevelop that

1018

00:41:46,630 --> 00:41:44,560

and not not everyone wouldn't need a big

1019

00:41:47,150 --> 00:41:46,640

pyramid in their backyard but we would

1020

00:41:51,349 --> 00:41:47,160

use

1021

00:41:54,790 --> 00:41:51,359

polypropylene containers and pvc pipes

1022

00:41:55,750 --> 00:41:54,800

and custom fabrication and that type of

1023

00:41:57,910 --> 00:41:55,760

thing that's

1024

00:41:58,870 --> 00:41:57,920

why we have a facility we're still

1025

00:42:01,270 --> 00:41:58,880

looking to

1026
00:42:02,150 --> 00:42:01,280
acquire a 3d printer if someone wants to

1027
00:42:05,510 --> 00:42:02,160
donate that

1028
00:42:07,750 --> 00:42:05,520
or a plasma cutter or even a

1029
00:42:09,190 --> 00:42:07,760
air compressor to power the plasma

1030
00:42:11,190 --> 00:42:09,200
cutter you know they need

1031
00:42:12,870 --> 00:42:11,200
air compressors so we have a facility

1032
00:42:15,990 --> 00:42:12,880
that we're looking for

1033
00:42:18,870 --> 00:42:16,000
both materials and tooling

1034
00:42:19,829 --> 00:42:18,880
for our non-profit so i hope people go

1035
00:42:23,510 --> 00:42:19,839
to our website

1036
00:42:25,430 --> 00:42:23,520
find out our goals our activities

1037
00:42:26,630 --> 00:42:25,440
and that type of thing and contact me

1038
00:42:32,630 --> 00:42:26,640

through our website but

1039

00:42:37,109 --> 00:42:35,430

and that's that's exactly correct i

1040

00:42:38,550 --> 00:42:37,119

think there's many ways to skin a cat

1041

00:42:39,990 --> 00:42:38,560

and the more people that are involved

1042

00:42:42,829 --> 00:42:40,000

and get this message

1043

00:42:44,069 --> 00:42:42,839

uh the more evidence there is of other

1044

00:42:46,390 --> 00:42:44,079

alternative uh

1045

00:42:48,630 --> 00:42:46,400

history and i wanted to get into the

1046

00:42:50,790 --> 00:42:48,640

detractors which you mentioned a bit of

1047

00:42:51,990 --> 00:42:50,800

of your theory of construction and and

1048

00:42:53,990 --> 00:42:52,000

how they've come at you

1049

00:42:55,910 --> 00:42:54,000

and and what what kind of noticeable

1050

00:42:59,190 --> 00:42:55,920

attempts they've made to

1051
00:43:01,990 --> 00:42:59,200
sweep this under the rug oh well

1052
00:43:02,950 --> 00:43:02,000
uh the idea the hydrostatic pressure is

1053
00:43:05,270 --> 00:43:02,960
difficult

1054
00:43:06,950 --> 00:43:05,280
for a lot of people to get their head

1055
00:43:08,950 --> 00:43:06,960
around

1056
00:43:10,470 --> 00:43:08,960
they say well it's a dam that's five

1057
00:43:15,349 --> 00:43:10,480
feet thick

1058
00:43:19,030 --> 00:43:15,359
or seven or so that's over 400 feet tall

1059
00:43:22,309 --> 00:43:19,040
it can't work that's what they say but

1060
00:43:25,510 --> 00:43:22,319
they use these very large stones

1061
00:43:28,710 --> 00:43:25,520
an extremely strong bonding agent

1062
00:43:32,309 --> 00:43:28,720
that is stronger than the stone itself

1063
00:43:34,870 --> 00:43:32,319

itself and then they also intertwine

1064

00:43:35,670 --> 00:43:34,880

all of these things it's all an integral

1065

00:43:37,510 --> 00:43:35,680

unit so

1066

00:43:38,950 --> 00:43:37,520

but a lot of people that's one thing

1067

00:43:40,069 --> 00:43:38,960

they can't get their head around they

1068

00:43:43,270 --> 00:43:40,079

say

1069

00:43:46,950 --> 00:43:43,280

they just can't do it but another thing

1070

00:43:51,670 --> 00:43:46,960

that i have had difficulty with is

1071

00:43:53,430 --> 00:43:51,680

people kind of just hear about this

1072

00:43:56,150 --> 00:43:53,440

and then they they come up with their

1073

00:43:59,270 --> 00:43:56,160

own preconceived notion

1074

00:44:03,030 --> 00:43:59,280

through ignorance and then they

1075

00:44:06,230 --> 00:44:03,040

uh what what's the word

1076

00:44:07,990 --> 00:44:06,240

they debunk

1077

00:44:10,309 --> 00:44:08,000

the preconceived notion that they've

1078

00:44:11,750 --> 00:44:10,319

come up with that has nothing to do with

1079

00:44:14,630 --> 00:44:11,760

my research

1080

00:44:17,430 --> 00:44:14,640

then they think that it's invalid so we

1081

00:44:21,109 --> 00:44:17,440

i have a lot of trouble with that

1082

00:44:24,870 --> 00:44:21,119

and then i have trouble with uh

1083

00:44:26,950 --> 00:44:24,880

what i call non-book reading researchers

1084

00:44:29,589 --> 00:44:26,960

and i will be honest with you you're the

1085

00:44:32,790 --> 00:44:29,599

first host that i've had

1086

00:44:33,430 --> 00:44:32,800

i've done 150 radio interviews and only

1087

00:44:36,790 --> 00:44:33,440

about

1088

00:44:39,910 --> 00:44:36,800

10 of them have actually read my books

1089

00:44:42,710 --> 00:44:39,920

so a lot of people uh

1090

00:44:44,069 --> 00:44:42,720

are critical of my research from a

1091

00:44:46,630 --> 00:44:44,079

position of ignorance

1092

00:44:50,309 --> 00:44:46,640

i've had difficulty with that a lot of

1093

00:44:52,550 --> 00:44:50,319

lazy researchers out there and

1094

00:44:54,630 --> 00:44:52,560

uh that you know don't read a book you

1095

00:44:55,030 --> 00:44:54,640

know that's that's the revolution we're

1096

00:44:58,790 --> 00:44:55,040

in

1097

00:45:01,829 --> 00:44:58,800

streets

1098

00:45:04,550 --> 00:45:01,839

so so true that's a lot of the blowback

1099

00:45:07,829 --> 00:45:04,560

i get and also i get the blowback of

1100

00:45:10,150 --> 00:45:07,839

uh egyptologists are experts

1101
00:45:11,589 --> 00:45:10,160
and let's find out what the experts say

1102
00:45:17,190 --> 00:45:11,599
and and that's what's true

1103
00:45:23,510 --> 00:45:20,630
science is one of the biggest inhibitors

1104
00:45:24,230 --> 00:45:23,520
to the advancement of science they used

1105
00:45:27,510 --> 00:45:24,240
to uh

1106
00:45:29,589 --> 00:45:27,520
there's a meme on facebook they used to

1107
00:45:31,750 --> 00:45:29,599
spray kids with ddt

1108
00:45:33,829 --> 00:45:31,760
you know he had your child and it yeah

1109
00:45:35,430 --> 00:45:33,839
frame with ddt well the reason why they

1110
00:45:37,430 --> 00:45:35,440
don't do that now

1111
00:45:38,790 --> 00:45:37,440
is somebody questioned this settled

1112
00:45:40,550 --> 00:45:38,800
science

1113
00:45:41,990 --> 00:45:40,560

and they used to believe the bumps on

1114

00:45:45,829 --> 00:45:42,000

people's heads

1115

00:45:46,390 --> 00:45:45,839

had personality traits associated with

1116

00:45:49,510 --> 00:45:46,400

them

1117

00:45:52,309 --> 00:45:49,520

and that was a very racist idea

1118

00:45:53,589 --> 00:45:52,319

of phrenology well they taught it in

1119

00:45:55,910 --> 00:45:53,599

universities

1120

00:45:56,870 --> 00:45:55,920

but people have questioned settled

1121

00:45:59,430 --> 00:45:56,880

science

1122

00:45:59,990 --> 00:45:59,440

and that isn't accepted anymore so

1123

00:46:02,870 --> 00:46:00,000

there's a lot

1124

00:46:04,790 --> 00:46:02,880

of lazy people that say oh you're going

1125

00:46:07,510 --> 00:46:04,800

against egyptologists well if you could

1126

00:46:12,150 --> 00:46:07,520

get an egyptologist to agree with you

1127

00:46:16,790 --> 00:46:14,950

yeah so and then of course the other uh

1128

00:46:20,309 --> 00:46:16,800

explanation that's popular

1129

00:46:22,950 --> 00:46:20,319

in uh modern times

1130

00:46:25,109 --> 00:46:22,960

is the idea that the great pyramid was

1131

00:46:25,750 --> 00:46:25,119

symbolic or points to something or

1132

00:46:29,030 --> 00:46:25,760

whatever

1133

00:46:32,710 --> 00:46:29,040

so people would rather be into those

1134

00:46:35,750 --> 00:46:32,720

correlations than figure out you know

1135

00:46:37,910 --> 00:46:35,760

uh figure out the whole aspect

1136

00:46:40,470 --> 00:46:37,920

of my research and and people now

1137

00:46:42,150 --> 00:46:40,480

believe it or not are not as technical

1138

00:46:43,589 --> 00:46:42,160

as they think they are they think they

1139

00:46:45,270 --> 00:46:43,599

can install an

1140

00:46:47,589 --> 00:46:45,280

app on their phone and there are some

1141

00:46:50,309 --> 00:46:47,599

technological

1142

00:46:53,270 --> 00:46:50,319

geniuses but most people i know uh have

1143

00:46:56,230 --> 00:46:53,280

difficulty opening the hood of their car

1144

00:46:58,069 --> 00:46:56,240

or identifying their components in there

1145

00:46:59,990 --> 00:46:58,079

so

1146

00:47:01,589 --> 00:47:00,000

this research is very technical if you

1147

00:47:05,430 --> 00:47:01,599

will you know

1148

00:47:08,710 --> 00:47:05,440

as complicated to explain as a v8 engine

1149

00:47:13,190 --> 00:47:08,720

but that complexity doesn't

1150

00:47:16,630 --> 00:47:13,200

detract from uh its validity so uh but

1151

00:47:19,190 --> 00:47:16,640

uh but then there's people like you

1152

00:47:21,510 --> 00:47:19,200

that actually uh read the books and wow

1153

00:47:24,549 --> 00:47:21,520

that's that's interesting and

1154

00:47:25,349 --> 00:47:24,559

compelling and people that are working

1155

00:47:28,549 --> 00:47:25,359

shipyards

1156

00:47:31,190 --> 00:47:28,559

or work on the railroad or car mechanics

1157

00:47:32,870 --> 00:47:31,200

people that actually do stuff

1158

00:47:35,589 --> 00:47:32,880

or people that have seen the panama

1159

00:47:39,750 --> 00:47:35,599

canal say wow this is interesting

1160

00:47:42,390 --> 00:47:39,760

and so so that's that's the two

1161

00:47:43,190 --> 00:47:42,400

types of people i encounter the the

1162

00:47:46,950 --> 00:47:43,200

blowback

1163

00:47:49,589 --> 00:47:46,960

type of people and uh

1164

00:47:52,069 --> 00:47:49,599

you know the people that actually uh

1165

00:47:55,190 --> 00:47:52,079

conduct their own research

1166

00:47:55,750 --> 00:47:55,200

yeah and you know it's not that it's

1167

00:47:58,309 --> 00:47:55,760

that

1168

00:48:00,470 --> 00:47:58,319

it to me it's a no-brainer but i only

1169

00:48:00,870 --> 00:48:00,480

say that because we're talking about 70

1170

00:48:06,710 --> 00:48:00,880

ton

1171

00:48:09,990 --> 00:48:06,720

successive construction

1172

00:48:11,829 --> 00:48:10,000

phase is very well explained

1173

00:48:13,589 --> 00:48:11,839

and for people that like the way like

1174

00:48:14,470 --> 00:48:13,599

you said systematically the way things

1175

00:48:18,069 --> 00:48:14,480

work

1176

00:48:21,190 --> 00:48:18,079

this is it in my opinion it is

1177

00:48:22,390 --> 00:48:21,200

basically it and i don't think oh sorry

1178

00:48:24,390 --> 00:48:22,400

go ahead

1179

00:48:26,710 --> 00:48:24,400

you're very kind to say that i get a lot

1180

00:48:29,750 --> 00:48:26,720

of blow back i get people say

1181

00:48:31,589 --> 00:48:29,760

well what's simpler a series of water

1182

00:48:34,309 --> 00:48:31,599

locks they had to make

1183

00:48:35,910 --> 00:48:34,319

or a ramp and i would say well a wrap i

1184

00:48:39,030 --> 00:48:35,920

guess is simpler

1185

00:48:41,829 --> 00:48:39,040

well if you go with occam's razor

1186

00:48:43,349 --> 00:48:41,839

then that means the simplest idea is

1187

00:48:46,069 --> 00:48:43,359

right

1188

00:48:47,349 --> 00:48:46,079

and we don't need the water locks so

1189

00:48:51,910 --> 00:48:47,359

they're done

1190

00:48:55,510 --> 00:48:51,920

the 1830s

1191

00:48:58,630 --> 00:48:55,520

people said well we know about ramps

1192

00:49:00,150 --> 00:48:58,640

and we know about water locks what's

1193

00:49:03,349 --> 00:49:00,160

what what are we going to do and then

1194

00:49:06,950 --> 00:49:03,359

they ended up building the uh erin canal

1195

00:49:09,430 --> 00:49:06,960

which was the most expensive uh

1196

00:49:11,190 --> 00:49:09,440

publix works projects in the new world

1197

00:49:13,430 --> 00:49:11,200

so uh

1198

00:49:16,390 --> 00:49:13,440

why why didn't they just use a ramp they

1199

00:49:18,470 --> 00:49:16,400

should have used occam's razor well

1200

00:49:19,430 --> 00:49:18,480

you know you get what i'm trying to

1201

00:49:23,270 --> 00:49:19,440

trying to get at

1202

00:49:25,750 --> 00:49:23,280

oh yes oh yes and i i think sometimes

1203

00:49:26,630 --> 00:49:25,760

yeah i think there was no massive i mean

1204

00:49:28,630 --> 00:49:26,640

that massive

1205

00:49:31,270 --> 00:49:28,640

ramp those same people that believe in

1206

00:49:34,069 --> 00:49:31,280

the massive ramp believe that it was

1207

00:49:35,910 --> 00:49:34,079

most wretched slave labor where i

1208

00:49:37,430 --> 00:49:35,920

guarantee you there weren't bathroom

1209

00:49:40,069 --> 00:49:37,440

blake breaks and this

1210

00:49:41,750 --> 00:49:40,079

this muddy ramp was nothing more than

1211

00:49:44,150 --> 00:49:41,760

human stained

1212

00:49:44,870 --> 00:49:44,160

horrible i mean just a procession of

1213

00:49:48,390 --> 00:49:44,880

death

1214

00:49:52,950 --> 00:49:48,400

that seems unlikely compared to these

1215

00:49:54,870 --> 00:49:52,960

these other very obvious in my opinion

1216

00:49:56,309 --> 00:49:54,880

it's really structural and

1217

00:50:00,069 --> 00:49:56,319

engineering-based

1218

00:50:01,990 --> 00:50:00,079

uh perspectives i appreciate that yeah

1219

00:50:03,990 --> 00:50:02,000

the great pyramid isn't is an

1220

00:50:07,030 --> 00:50:04,000

engineering project

1221

00:50:08,470 --> 00:50:07,040

and you can certainly look at it in that

1222

00:50:10,950 --> 00:50:08,480

regard you don't have to

1223

00:50:13,270 --> 00:50:10,960

even know what language they spoke or

1224

00:50:17,030 --> 00:50:13,280

what gods they worshipped

1225

00:50:19,910 --> 00:50:17,040

and it is a kind of a purifying

1226

00:50:20,630 --> 00:50:19,920

way to look at the great pyramid to

1227

00:50:23,510 --> 00:50:20,640

study

1228

00:50:23,910 --> 00:50:23,520

how it was built because you can peel

1229

00:50:26,790 --> 00:50:23,920

off

1230

00:50:29,030 --> 00:50:26,800

all those layers you know that all the

1231

00:50:31,030 --> 00:50:29,040

cultural layers even when it was built

1232

00:50:32,790 --> 00:50:31,040

or who built it you can just look at it

1233

00:50:36,390 --> 00:50:32,800

in a technical

1234

00:50:39,910 --> 00:50:36,400

uh aspect and and

1235

00:50:41,190 --> 00:50:39,920

you can get rid of a lot of those

1236

00:50:44,069 --> 00:50:41,200

misconceptions that

1237

00:50:45,190 --> 00:50:44,079

cocoon the great pyramid because it's

1238

00:50:48,230 --> 00:50:45,200

been researched with

1239

00:50:50,470 --> 00:50:48,240

a lot of poor research techniques so uh

1240

00:50:51,829 --> 00:50:50,480

the orion correlation theory it doesn't

1241

00:50:54,790 --> 00:50:51,839

even

1242

00:50:55,270 --> 00:50:54,800

consider how the great pyramid was built

1243

00:50:58,710 --> 00:50:55,280

so

1244

00:51:00,230 --> 00:50:58,720

uh you know that's i think a flaw

1245

00:51:03,109 --> 00:51:00,240

you know they understand all these

1246

00:51:05,109 --> 00:51:03,119

esoteric correlations but howard stone

1247

00:51:07,349 --> 00:51:05,119

moved from one place to another that

1248

00:51:10,549 --> 00:51:07,359

can't even address it

1249

00:51:12,150 --> 00:51:10,559

uh so it's interesting yeah so it is

1250

00:51:15,430 --> 00:51:12,160

it's an engineering marvel

1251
00:51:17,829 --> 00:51:15,440
uh you know you just like the uh notre

1252
00:51:19,349 --> 00:51:17,839
dame it's an engineering marvel

1253
00:51:20,950 --> 00:51:19,359
it doesn't matter what it says in the

1254
00:51:21,430 --> 00:51:20,960
bible if you want to know how it was

1255
00:51:24,710 --> 00:51:21,440
built

1256
00:51:26,549 --> 00:51:24,720
you know that's correct uh

1257
00:51:27,750 --> 00:51:26,559
what language they spoke you know the

1258
00:51:29,430 --> 00:51:27,760
people that built it so

1259
00:51:31,750 --> 00:51:29,440
if you want to know how it was built so

1260
00:51:34,790 --> 00:51:31,760
it's uh it's a way to

1261
00:51:38,390 --> 00:51:34,800
to get get loose

1262
00:51:39,109 --> 00:51:38,400
from all of these preconceived notions

1263
00:51:42,069 --> 00:51:39,119

you know people

1264

00:51:43,030 --> 00:51:42,079

say oh well how it was built well this

1265

00:51:45,430 --> 00:51:43,040

pointed to such

1266

00:51:46,790 --> 00:51:45,440

such a star well you don't even have to

1267

00:51:49,430 --> 00:51:46,800

consider that

1268

00:51:50,150 --> 00:51:49,440

just you know how it was built and it's

1269

00:52:00,630 --> 00:51:50,160

a

1270

00:52:03,190 --> 00:52:00,640

built

1271

00:52:04,069 --> 00:52:03,200

and what they use them for i read a book

1272

00:52:06,470 --> 00:52:04,079

about aircraft

1273

00:52:07,510 --> 00:52:06,480

carriers it was about how it was built

1274

00:52:09,829 --> 00:52:07,520

what they're used for

1275

00:52:11,030 --> 00:52:09,839

so that's that's kind of where i'm at on

1276
00:52:14,710 --> 00:52:11,040
a technical level

1277
00:52:18,470 --> 00:52:14,720
it's great made up correlations

1278
00:52:20,790 --> 00:52:18,480
or a two notion yes

1279
00:52:22,470 --> 00:52:20,800
and there's for those that want secrets

1280
00:52:24,790 --> 00:52:22,480
and mystery there's so many secrets and

1281
00:52:27,109 --> 00:52:24,800
mystery in the book you gotta buy it

1282
00:52:28,950 --> 00:52:27,119
uh it goes into how the capstone was

1283
00:52:30,950 --> 00:52:28,960
placed and just imagine

1284
00:52:32,069 --> 00:52:30,960
how this must look to somebody going

1285
00:52:33,829 --> 00:52:32,079
down the Nile

1286
00:52:35,589 --> 00:52:33,839
you know going by seeing this built or

1287
00:52:37,589 --> 00:52:35,599
seeing it completed

1288
00:52:38,870 --> 00:52:37,599

and it was declared i have to read this

1289

00:52:41,430 --> 00:52:38,880

because it's so neat

1290

00:52:42,630 --> 00:52:41,440

it was declared by herod i'm sure i'm

1291

00:52:45,670 --> 00:52:42,640

going to murder this

1292

00:52:47,910 --> 00:52:45,680

word herotidus the priests and

1293

00:52:49,589 --> 00:52:47,920

he recorded that the great pyramid was

1294

00:52:51,270 --> 00:52:49,599

built level by level

1295

00:52:52,630 --> 00:52:51,280

from the bottom up but was most

1296

00:52:55,109 --> 00:52:52,640

assuredly finished

1297

00:52:56,630 --> 00:52:55,119

from the top down and that just kind of

1298

00:52:59,990 --> 00:52:56,640

jives in my opinion with

1299

00:53:03,589 --> 00:53:00,000

everything that the book goes into

1300

00:53:04,150 --> 00:53:03,599

oh wow i uh this is a pleasant surprise

1301
00:53:07,750 --> 00:53:04,160
to have

1302
00:53:10,870 --> 00:53:07,760
uh such a proponent as a host and

1303
00:53:14,230 --> 00:53:10,880
you know that made my day and

1304
00:53:16,710 --> 00:53:14,240
it is you are a researcher

1305
00:53:17,670 --> 00:53:16,720
and i consider you reading my book to be

1306
00:53:20,309 --> 00:53:17,680
peer reviewed

1307
00:53:20,710 --> 00:53:20,319
oh thank you so much and in conclusion

1308
00:53:22,390 --> 00:53:20,720
sir

1309
00:53:25,270 --> 00:53:22,400
i just you know it's just the most

1310
00:53:27,750 --> 00:53:25,280
obvious choice where can our listeners

1311
00:53:28,790 --> 00:53:27,760
what's the easiest place for them to get

1312
00:53:30,390 --> 00:53:28,800
to this truth

1313
00:53:31,829 --> 00:53:30,400

and get to questioning and get some of

1314

00:53:34,069 --> 00:53:31,839

the answers behind this

1315

00:53:34,870 --> 00:53:34,079

brilliant project we've mentioned the

1316

00:53:36,470 --> 00:53:34,880

website

1317

00:53:39,910 --> 00:53:36,480

where can they buy the books is it also

1318

00:53:43,190 --> 00:53:39,920

available at that same website

1319

00:53:44,069 --> 00:53:43,200

yeah the links are available at the that

1320

00:53:46,470 --> 00:53:44,079

same website

1321

00:53:47,910 --> 00:53:46,480

they're sold through amazon of course uh

1322

00:53:51,430 --> 00:53:47,920

the books are available

1323

00:53:54,549 --> 00:53:51,440

in softcover or kindle ebook format

1324

00:53:57,829 --> 00:53:54,559

and my two documentaries uh that

1325

00:54:01,510 --> 00:53:57,839

complement the book the two books are

1326

00:54:03,710 --> 00:54:01,520

also available on uh dvd

1327

00:54:06,950 --> 00:54:03,720

and there are you can get those on

1328

00:54:10,549 --> 00:54:06,960

amazon.com so

1329

00:54:13,910 --> 00:54:10,559

i just ask people to be like you

1330

00:54:16,549 --> 00:54:13,920

and consider the evidence and conduct

1331

00:54:17,910 --> 00:54:16,559

research and find out what it's all

1332

00:54:21,270 --> 00:54:17,920

about before you pass

1333

00:54:25,750 --> 00:54:21,280

judgment and it is uh

1334

00:54:28,790 --> 00:54:25,760

you know it is a very viable alternative

1335

00:54:29,750 --> 00:54:28,800

for an explanation of this ancient

1336

00:54:32,790 --> 00:54:29,760

structure

1337

00:54:35,990 --> 00:54:32,800

made by geniuses that were our ancestors

1338

00:54:39,829 --> 00:54:36,000

and the idea of water pop i think

1339

00:54:43,589 --> 00:54:39,839

is the hugest and biggest

1340

00:54:46,309 --> 00:54:43,599

return on investment for any purpose

1341

00:54:48,470 --> 00:54:46,319

suggested for the great pyramid so again

1342

00:54:50,950 --> 00:54:48,480

visit us at thepump.org

1343

00:54:52,630 --> 00:54:50,960

you can contact me through email from

1344

00:54:54,309 --> 00:54:52,640

that website

1345

00:54:56,069 --> 00:54:54,319

and if you have questions or want to

1346

00:54:58,789 --> 00:54:56,079

know about our activities

1347

00:54:59,750 --> 00:54:58,799

or want to become involved you know

1348

00:55:05,670 --> 00:54:59,760

instead of just

1349

00:55:06,549 --> 00:55:05,680

on facebook or watching sports or

1350

00:55:09,030 --> 00:55:06,559

whatever

1351

00:55:11,510 --> 00:55:09,040

or just taking up air get involved in a

1352

00:55:13,670 --> 00:55:11,520

project not necessarily mine

1353

00:55:16,950 --> 00:55:13,680

but do something you know people watch

1354

00:55:19,270 --> 00:55:16,960

all these movies about superheroes

1355

00:55:20,230 --> 00:55:19,280

be a superhero you know if you're if

1356

00:55:24,390 --> 00:55:20,240

your neighbor

1357

00:55:25,910 --> 00:55:24,400

is uh older go help them by mowing their

1358

00:55:26,950 --> 00:55:25,920

lawn you know that would make you a

1359

00:55:29,990 --> 00:55:26,960

superhero

1360

00:55:33,510 --> 00:55:30,000

yeah paint your neighbor's fence

1361

00:55:36,950 --> 00:55:33,520

or go get involved in it

1362

00:55:38,630 --> 00:55:36,960

in a civic organization but uh

1363

00:55:40,789 --> 00:55:38,640

and or get involved with our

1364

00:55:43,990 --> 00:55:40,799

organization find out what we're about

1365

00:55:47,430 --> 00:55:44,000

pray for us we accept prayer

1366

00:55:50,789 --> 00:55:47,440

and uh spread the word like like uh

1367

00:55:53,670 --> 00:55:50,799

mention us on facebook or social media

1368

00:55:55,829 --> 00:55:53,680

is on our youtube channel and you know

1369

00:55:57,910 --> 00:55:55,839

like a video or anything so there's a

1370

00:56:01,430 --> 00:55:57,920

lot people can do

1371

00:56:03,750 --> 00:56:01,440

to become involved or to

1372

00:56:04,630 --> 00:56:03,760

find out what this is all about and the

1373

00:56:08,069 --> 00:56:04,640

best place

1374

00:56:10,630 --> 00:56:08,079

to start is at thebump.org

1375

00:56:12,390 --> 00:56:10,640

so so neat and for those experienced and

1376

00:56:14,230 --> 00:56:12,400

technically oriented people

1377

00:56:16,150 --> 00:56:14,240

the lost technologies of the great

1378

00:56:18,309 --> 00:56:16,160

pyramid is a great place to start

1379

00:56:20,470 --> 00:56:18,319

there's a second book as well

1380

00:56:22,390 --> 00:56:20,480

and definitely get that too that goes

1381

00:56:24,630 --> 00:56:22,400

into the prosperity pyramid

1382

00:56:26,390 --> 00:56:24,640

and i can't thank you enough for your

1383

00:56:28,150 --> 00:56:26,400

time i know it's very valuable mr

1384

00:56:28,789 --> 00:56:28,160

stephen myers and i hope to have you

1385

00:56:30,710 --> 00:56:28,799

again on

1386

00:56:33,430 --> 00:56:30,720

again hopefully in the future and i hope

1387

00:56:36,549 --> 00:56:33,440

you have a great day thank you sir

1388

00:56:37,349 --> 00:56:36,559

oh thank you i i hope to be on again and

1389

00:56:40,870 --> 00:56:37,359

i really

1390

00:56:42,230 --> 00:56:40,880

enjoyed our conversation

1391

00:56:44,150 --> 00:56:42,240

thanks so much thanks for bringing a

1392

00:56:47,589 --> 00:56:44,160

little truth into a very

1393

00:56:49,190 --> 00:56:47,599

muddled arena and until next time sir

1394

00:56:51,589 --> 00:56:49,200

all the best and keep your eyes to the

1395

00:56:57,030 --> 00:56:51,599

skies

1396

00:57:00,069 --> 00:56:58,390

well there you have it ladies and

1397

00:57:02,870 --> 00:57:00,079

gentlemen stephen

1398

00:57:03,510 --> 00:57:02,880

myers i am going to post links to

1399

00:57:07,750 --> 00:57:03,520

everything

1400

00:57:09,910 --> 00:57:07,760

about this amazing

1401

00:57:12,230 --> 00:57:09,920

in my opinion uh discovery about the

1402

00:57:14,230 --> 00:57:12,240

pyramids that like many things

1403

00:57:16,789 --> 00:57:14,240

historically whenever you have

1404

00:57:19,030 --> 00:57:16,799

lost technologies they are just kind of

1405

00:57:19,990 --> 00:57:19,040

swept under the rug it's a lot easier to

1406

00:57:23,349 --> 00:57:20,000

not

1407

00:57:26,710 --> 00:57:23,359

endure or look at a situation

1408

00:57:29,829 --> 00:57:26,720

and it's it's a sad it's a sad thing but

1409

00:57:30,630 --> 00:57:29,839

we have to be agents of debonding in

1410

00:57:33,589 --> 00:57:30,640

other words

1411

00:57:35,510 --> 00:57:33,599

these lesser-known technologies we need

1412

00:57:36,470 --> 00:57:35,520

to bring them out to the to the public

1413

00:57:38,789 --> 00:57:36,480

knowledge

1414

00:57:39,589 --> 00:57:38,799

and it's been long enough long enough

1415

00:57:42,230 --> 00:57:39,599

that

1416

00:57:44,069 --> 00:57:42,240

science has demonstrated how they can

1417

00:57:45,829 --> 00:57:44,079

sweep these things under the rug by not

1418

00:57:47,349 --> 00:57:45,839

looking at them

1419

00:57:49,190 --> 00:57:47,359

let's just take a look at them nothing

1420

00:57:51,910 --> 00:57:49,200

wrong with taking a look at them

1421

00:57:52,789 --> 00:57:51,920

and uh checking them out for their merit

1422

00:57:55,349 --> 00:57:52,799

because

1423

00:57:56,150 --> 00:57:55,359

if we had to build a massive pyramid in

1424

00:57:57,829 --> 00:57:56,160

the desert

1425

00:57:59,750 --> 00:57:57,839

i'm just talking about where i'm at here

1426

00:58:01,910 --> 00:57:59,760

in las vegas i'll tell you what

1427

00:58:02,789 --> 00:58:01,920

i i think i know who i would hire to

1428

00:58:04,150 --> 00:58:02,799

build it

1429

00:58:06,390 --> 00:58:04,160

and it wouldn't be the guy with the

1430

00:58:09,510 --> 00:58:06,400

blood-stained feces stained

1431

00:58:13,109 --> 00:58:09,520

mud ramp full of slaves pulling

1432

00:58:15,430 --> 00:58:13,119

rocks up to a forsaken death

1433

00:58:17,750 --> 00:58:15,440

for all eternity who who knows how long

1434

00:58:21,190 --> 00:58:17,760

that construction project would take

1435

00:58:24,789 --> 00:58:21,200

or would it be this clean

1436

00:58:27,270 --> 00:58:24,799

mean machine which just brought

1437

00:58:29,589 --> 00:58:27,280

rocks up like it was nobody's business

1438

00:58:31,829 --> 00:58:29,599

with these sweet dudes on the oars

1439

00:58:33,030 --> 00:58:31,839

on these cool little you you need to see

1440

00:58:36,230 --> 00:58:33,040

these little

1441

00:58:39,430 --> 00:58:36,240

barges

1442

00:58:40,230 --> 00:58:39,440

going up these channels definitely check

1443

00:58:42,710 --> 00:58:40,240

it out

1444

00:58:43,589 --> 00:58:42,720

by lost technologies of the great

1445

00:58:46,710 --> 00:58:43,599

pyramid

1446

00:58:48,309 --> 00:58:46,720

by stephen myers until next time keep

1447

00:59:02,829 --> 00:58:48,319

your eyes to the skies feet on the

1448

00:59:09,589 --> 00:59:05,680

around

1449

00:59:15,510 --> 00:59:12,470

come blast off in my time machine third

1450

00:59:18,730 --> 00:59:15,520

eye feeling like a knee vision blast off

1451

00:59:27,860 --> 00:59:18,740

blast off blast

1452

00:59:47,220 --> 00:59:43,020

[Music]
