weirdness in colorado of all places

and today on the podcast we are

19

00:01:09,270 --> 00:01:06,159

discussing

20

00:01:12,310 --> 00:01:09,280

colorado bigfoot with mark parra

21

00:01:15,190 --> 00:01:12,320

president of colorado sasquatch research

22

00:01:16,950 --> 00:01:15,200

and long time bigfoot researcher he is

23

00:01:19,990 --> 00:01:16,960

going to run us through

24

00:01:22,950 --> 00:01:20,000

well the ins and outs of one of the

25

00:01:23,990 --> 00:01:22,960

squatchiest states in the lower 48. but

26

00:01:27,350 --> 00:01:24,000

before that

27

00:01:29,830 --> 00:01:27,360

i'm pitching hero heroparanormal.com and

28

00:01:31,190 --> 00:01:29,840

hero paranormal on patreon there i'm

29

00:01:33,749 --> 00:01:31,200

done doing it's

30

00:01:34,390 --> 00:01:33,759

hey mark how you doing good how's it

31

00:01:40,469 --> 00:01:34,400

going

32

00:01:41,510 --> 00:01:40,479

pretty excited to talk to you today and

33

00:01:44,950 --> 00:01:41,520

i know that there's

34

00:01:46,550 --> 00:01:44,960

a lot you can tell us um i i really want

35

00:01:48,550 --> 00:01:46,560

to know

36

00:01:49,670 --> 00:01:48,560

just for listeners how you first got

37

00:01:51,910 --> 00:01:49,680

interested

38

00:01:53,190 --> 00:01:51,920

in this fascinating subject and what's

39

00:01:55,030 --> 00:01:53,200

kept your attention

40

00:01:56,950 --> 00:01:55,040

on the subject matter after all these

41

00:02:00,149 --> 00:01:56,960

years

42

00:02:03,749 --> 00:02:03,350

i worked around uh unfortunately type

43

00:02:20,710 --> 00:02:03,759

work

44

00:02:23,830 --> 00:02:22,550

oh no you're you're like you're cutting

45

00:02:28,229 --> 00:02:23,840

in and out pretty bad

46

00:02:30,869 --> 00:02:28,239

let me um oh okay

47

00:02:31,990 --> 00:02:30,879

let me see is that better yeah that's a

48

00:02:35,190 --> 00:02:32,000

lot better

49

00:02:36,869 --> 00:02:35,200

okay so anyways doing that type of work

50

00:02:38,229 --> 00:02:36,879

uh over a number of years you know i

51
00:02:39,990 --> 00:02:38,239
worked graveyard shifts started

52
00:02:41,430 --> 00:02:40,000
listening to coast coast dam all the

53
00:02:43,910 --> 00:02:41,440
time yeah i was just like addicted to

54
00:02:46,229 --> 00:02:43,920
coast coast listening yard bell

55
00:02:47,990 --> 00:02:46,239
and the subject you know of course came

56
00:02:49,430 --> 00:02:48,000
up with bigfoot where he has guests on

57
00:02:51,509 --> 00:02:49,440
talking about bigfoot

58
00:02:53,110 --> 00:02:51,519
and you know i'm sitting there thinking

59
00:02:54,869 --> 00:02:53,120
to myself

60
00:02:56,949 --> 00:02:54,879
i live in colorado i live in the rocky

61
00:02:58,550 --> 00:02:56,959
mountains so

62
00:02:59,990 --> 00:02:58,560
you know i i started getting into the

63
00:03:02,390 --> 00:03:00,000

subject deeper and deeper

64

00:03:04,550 --> 00:03:02,400

uh i started watching a couple of

65

00:03:08,070 --> 00:03:04,560

personalities on youtube there

66

00:03:10,309 --> 00:03:08,080

um mitchell wade camera giant bigfoot

67

00:03:14,470 --> 00:03:10,319

this was back in 2010 by the way

68

00:03:16,229 --> 00:03:14,480

so there wasn't a whole lot of um

69

00:03:18,390 --> 00:03:16,239

documentation there there were research

70

00:03:20,550 --> 00:03:18,400

groups in colorado but there weren't

71

00:03:22,550 --> 00:03:20,560

anybody like timber giant or mitchell

72

00:03:24,309 --> 00:03:22,560

wade or any of the guys doing video

73

00:03:26,949 --> 00:03:24,319

where you would you know go on before

74

00:03:28,470 --> 00:03:26,959

video camera and i basically just

75

00:03:28,710 --> 00:03:28,480

thought to myself you know i can do that

76

00:03:32,070 --> 00:03:28,720

i

77

00:03:33,670 --> 00:03:32,080

through the road

78

00:03:35,589 --> 00:03:33,680

learned as much as i could about the

79

00:03:37,430 --> 00:03:35,599

subject um

80

00:03:38,710 --> 00:03:37,440

and then as far as deciding where i

81

00:03:41,430 --> 00:03:38,720

wanted to go

82

00:03:42,550 --> 00:03:41,440

uh i started you know looking at bfro uh

83

00:03:44,869 --> 00:03:42,560

reported

84

00:03:46,390 --> 00:03:44,879

reports and just started checking some

85

00:03:48,949 --> 00:03:46,400

areas out um

86

00:03:51,430 --> 00:03:48,959

bought me a little ds our little digital

87

00:03:53,830 --> 00:03:51,440

camera back in 2010 and

88

00:03:54,550 --> 00:03:53,840

chose one particular uh state park that

89

00:03:56,229 --> 00:03:54,560

i had

90

00:03:58,070 --> 00:03:56,239

you know visited earlier that i knew

91

00:04:01,509 --> 00:03:58,080

about it had a lot of

92

00:04:03,990 --> 00:04:01,519

you know crazy rock formations and caves

93

00:04:04,869 --> 00:04:04,000

basically it's a set of canyons it runs

94

00:04:07,190 --> 00:04:04,879

along

95

00:04:08,710 --> 00:04:07,200

what's known as the palmer divide here

96

00:04:10,470 --> 00:04:08,720

in colorado and it's just

97

00:04:11,990 --> 00:04:10,480

a set of canyons that opened up in the

98

00:04:14,390 --> 00:04:12,000

ground um

99

00:04:15,830 --> 00:04:14,400

i knew that there was caves and the

100

00:04:18,390 --> 00:04:15,840

canyons were forested

101
00:04:19,670 --> 00:04:18,400
so it was you know really good pick i

102
00:04:22,230 --> 00:04:19,680
thought plus it had

103
00:04:23,590 --> 00:04:22,240
previous sighting reports um and other

104
00:04:25,749 --> 00:04:23,600
paranormal type

105
00:04:28,070 --> 00:04:25,759
you know reports at the county level

106
00:04:31,189 --> 00:04:28,080
that i was i was able to dig up

107
00:04:33,909 --> 00:04:31,199
um within a month of me

108
00:04:35,590 --> 00:04:33,919
going around going through these

109
00:04:38,550 --> 00:04:35,600
processes looking for prints

110
00:04:39,189 --> 00:04:38,560
pre-break structures you know everything

111
00:04:41,350 --> 00:04:39,199
that

112
00:04:43,270 --> 00:04:41,360
it's basically in the textbook of doing

113
00:04:44,629 --> 00:04:43,280

video research to determine if they're

114

00:04:46,629 --> 00:04:44,639

in an area

115

00:04:47,670 --> 00:04:46,639

and i started finding it right away

116

00:04:50,070 --> 00:04:47,680

right away

117

00:04:51,670 --> 00:04:50,080

i was like blown away i was like this is

118

00:04:53,350 --> 00:04:51,680

this is getting too easy you know how

119

00:04:56,150 --> 00:04:53,360

could i just find everything

120

00:04:57,030 --> 00:04:56,160

that everyone else finds out here uh

121

00:04:58,629 --> 00:04:57,040

after about a

122

00:05:00,310 --> 00:04:58,639

month of spending time learning the

123

00:05:03,909 --> 00:05:00,320

topography of this state

124

00:05:04,950 --> 00:05:03,919

park that they're in um spending a lot

125

00:05:07,510 --> 00:05:04,960

of time just sitting

126

00:05:09,590 --> 00:05:07,520

listening learning the force i had my

127

00:05:12,469 --> 00:05:09,600

first encounter in 2010.

128

00:05:13,990 --> 00:05:12,479

uh it was a february morning uh it

129

00:05:16,950 --> 00:05:14,000

snowed the previous night

130

00:05:17,590 --> 00:05:16,960

but it was sunny and i had decided to go

131

00:05:19,510 --> 00:05:17,600

out

132

00:05:21,189 --> 00:05:19,520

and there was absolutely nobody in the

133

00:05:21,830 --> 00:05:21,199

dirt parking lot i mean the place was

134

00:05:24,629 --> 00:05:21,840

ghost down

135

00:05:25,909 --> 00:05:24,639

probably because of the snow and the mud

136

00:05:27,189 --> 00:05:25,919

but i wanted to see if i could pick up

137

00:05:30,790 --> 00:05:27,199

some friends

138

00:05:33,029 --> 00:05:30,800

so um started heading down the ravine

139

00:05:34,710 --> 00:05:33,039

and within five minutes of me you know

140

00:05:36,950 --> 00:05:34,720

coming down the path and into this

141

00:05:40,070 --> 00:05:36,960

ravine

142

00:05:42,070 --> 00:05:40,080

i there was a big black shadow maybe

143

00:05:43,749 --> 00:05:42,080

30 yards ahead of me and it looked like

144

00:05:45,270 --> 00:05:43,759

it was like sitting behind a tree but it

145

00:05:46,629 --> 00:05:45,280

was sitting on a boulder

146

00:05:48,629 --> 00:05:46,639

and i said you know that looks like a

147

00:05:49,590 --> 00:05:48,639

giant monkey this can't be happening

148

00:05:52,150 --> 00:05:49,600

right

149

00:05:53,189 --> 00:05:52,160

and whatever it was was huge and i could

150

00:05:55,350 --> 00:05:53,199

see the shoulder

151
00:05:56,950 --> 00:05:55,360
you know and the black fur sticking out

152
00:05:59,110 --> 00:05:56,960
so first i was like it looks like a

153
00:06:02,390 --> 00:05:59,120
monkey squatting on a rock

154
00:06:04,150 --> 00:06:02,400
and then off to my left

155
00:06:06,469 --> 00:06:04,160
uh i heard something moving in the

156
00:06:07,990 --> 00:06:06,479
bushes some snap um points as it was

157
00:06:11,189 --> 00:06:08,000
moving i look over

158
00:06:11,430 --> 00:06:11,199
and there's this a secondary one kicking

159
00:06:14,710 --> 00:06:11,440
up

160
00:06:17,029 --> 00:06:14,720
just looking at this goofy look on its

161
00:06:20,950 --> 00:06:17,039
face and i could see his eyes

162
00:06:22,150 --> 00:06:20,960
and i basically was not prepared for

163
00:06:24,710 --> 00:06:22,160

that to happen

164

00:06:26,150 --> 00:06:24,720

so soon you know i mean there's a lot of

165

00:06:27,430 --> 00:06:26,160

people out there who've spent a half a

166

00:06:28,870 --> 00:06:27,440

lifetime looking

167

00:06:31,990 --> 00:06:28,880

really haven't ever had the encounter

168

00:06:34,550 --> 00:06:32,000

they wanted so i really was in shock i

169

00:06:35,670 --> 00:06:34,560

could not believe this was happening so

170

00:06:37,670 --> 00:06:35,680

early

171

00:06:39,670 --> 00:06:37,680

you know i'm not a pro i was pretty

172

00:06:42,469 --> 00:06:39,680

green at that time

173

00:06:44,710 --> 00:06:42,479

but i basically panicked uh lifted

174

00:06:46,550 --> 00:06:44,720

lifted up my little camera

175

00:06:48,550 --> 00:06:46,560

just started snapping off pictures as

176

00:06:51,749 --> 00:06:48,560

fast as i could and then took off that

177

00:06:54,070 --> 00:06:51,759

my key got out of there um so you know

178

00:06:55,510 --> 00:06:54,080

my first encounter in my first setting

179

00:06:58,629 --> 00:06:55,520

even though i

180

00:06:59,270 --> 00:06:58,639

was there looking to maybe openly see

181

00:07:01,909 --> 00:06:59,280

one

182

00:07:02,710 --> 00:07:01,919

i did not expect that to happen i was

183

00:07:05,749 --> 00:07:02,720

scared to death

184

00:07:07,430 --> 00:07:05,759

the things were so big and

185

00:07:09,909 --> 00:07:07,440

the one that was picking up at me it was

186

00:07:13,189 --> 00:07:09,919

so ugly

187

00:07:16,309 --> 00:07:13,199

it really scared the hell out of me

188

00:07:19,029 --> 00:07:16,319

man and you know it's it might just have

189

00:07:19,670 --> 00:07:19,039

to do with where you're at i mean the

190

00:07:21,749 --> 00:07:19,680

wash

191

00:07:24,150 --> 00:07:21,759

let's see the there's all kinds of

192

00:07:26,309 --> 00:07:24,160

examples i mean estes park has bigfoot

193

00:07:28,469 --> 00:07:26,319

days there's seven colorado counties

194

00:07:31,909 --> 00:07:28,479

with the most bigfoot sightings

195

00:07:35,189 --> 00:07:31,919

and it seems like a lot of these

196

00:07:36,070 --> 00:07:35,199

areas are just the i mean the sightings

197

00:07:39,189 --> 00:07:36,080

per

198

00:07:41,909 --> 00:07:39,199

capita are quite high in colorado

199

00:07:42,950 --> 00:07:41,919

well yeah uh they have been in the last

200

00:07:44,869 --> 00:07:42,960

couple of years

201
00:07:47,110 --> 00:07:44,879
um you know and it's like you know it's

202
00:07:49,430 --> 00:07:47,120
like i talk about my book again

203
00:07:51,589 --> 00:07:49,440
this shouldn't have been this easy so

204
00:07:52,869 --> 00:07:51,599
after i spent you know i started my own

205
00:07:55,110 --> 00:07:52,879
youtube channel

206
00:07:56,629 --> 00:07:55,120
and i i kind of grew into the bigfoot

207
00:07:58,150 --> 00:07:56,639
community and i was going to use this

208
00:08:00,550 --> 00:07:58,160
group i knew they were there and i

209
00:08:02,309 --> 00:08:00,560
wanted to try and get them

210
00:08:03,909 --> 00:08:02,319
anything i could do you know if uh get

211
00:08:04,550 --> 00:08:03,919
closer to them i wanted to get them on

212
00:08:07,110 --> 00:08:04,560
video

213
00:08:08,710 --> 00:08:07,120

so i spent you know over the next at

214

00:08:11,110 --> 00:08:08,720

least eight or nine years

215

00:08:13,350 --> 00:08:11,120

hundreds of dollars on corn and apples

216

00:08:14,390 --> 00:08:13,360

and trying different experiments that i

217

00:08:17,510 --> 00:08:14,400

can get dna

218

00:08:20,629 --> 00:08:17,520

from them and looking for hair and just

219

00:08:23,350 --> 00:08:20,639

going through the process

220

00:08:25,990 --> 00:08:23,360

you know recording videos i think i was

221

00:08:27,589 --> 00:08:26,000

the first in colorado

222

00:08:29,189 --> 00:08:27,599

to actually do you know what timber

223

00:08:30,550 --> 00:08:29,199

giant and everybody used to do was the

224

00:08:32,550 --> 00:08:30,560

walk-and-talk thing

225

00:08:35,269 --> 00:08:32,560

um so i was actually the first that

226

00:08:38,389 --> 00:08:35,279

started doing that way back in 2010

227

00:08:40,790 --> 00:08:38,399

and i got a lot of uh movement

228

00:08:42,469 --> 00:08:40,800

on the camera behind me and around me um

229

00:08:44,310 --> 00:08:42,479

you know one of the things that

230

00:08:45,750 --> 00:08:44,320

was similar with like with scott

231

00:08:47,430 --> 00:08:45,760

carpenter as an example

232

00:08:50,070 --> 00:08:47,440

so i started realizing you know that i'm

233

00:08:53,750 --> 00:08:50,080

getting if they're around you they

234

00:08:55,670 --> 00:08:53,760

just completely surround you and um

235

00:08:56,870 --> 00:08:55,680

that was one of the things i experienced

236

00:08:59,910 --> 00:08:56,880

out there is i would always get

237

00:09:03,350 --> 00:09:01,509

you know if i tried anything there was

238

00:09:06,070 --> 00:09:03,360

not going to be a reactive escape

239

00:09:07,829 --> 00:09:06,080

so anyways i you know i spent all that

240

00:09:09,110 --> 00:09:07,839

time doing all those videos kind of

241

00:09:12,230 --> 00:09:09,120

befriend these things

242

00:09:13,670 --> 00:09:12,240

and i learned a lot and i had a lot of

243

00:09:17,030 --> 00:09:13,680

great experiences

244

00:09:19,430 --> 00:09:17,040

and then um

245

00:09:21,190 --> 00:09:19,440

jackson died off for a couple years i

246

00:09:22,870 --> 00:09:21,200

didn't i thought maybe they had died

247

00:09:24,389 --> 00:09:22,880

maybe gone away or whatever wasn't

248

00:09:25,829 --> 00:09:24,399

picking up prince at all the place just

249

00:09:29,350 --> 00:09:25,839

went dead

250

00:09:29,990 --> 00:09:29,360

um then it popped back up about a year

251
00:09:31,750 --> 00:09:30,000
later and

252
00:09:33,829 --> 00:09:31,760
it started showing up again i started

253
00:09:37,269 --> 00:09:33,839
finding friends again and stuff

254
00:09:40,790 --> 00:09:37,279
and then in 2016 uh susan crone

255
00:09:43,030 --> 00:09:40,800
um she's my girlfriend we uh

256
00:09:45,990 --> 00:09:43,040
hooked up and she became part of the

257
00:09:49,430 --> 00:09:46,000
research organization and started doing

258
00:09:50,710 --> 00:09:49,440
expeditions into other areas outside of

259
00:09:52,630 --> 00:09:50,720
this park

260
00:09:55,030 --> 00:09:52,640
all over colorado we've covered

261
00:09:56,710 --> 00:09:55,040
thousands of miles

262
00:09:59,590 --> 00:09:56,720
along the eastern front range of the

263
00:10:00,230 --> 00:09:59,600

rockies what we would do is we would hit

264

00:10:02,870 --> 00:10:00,240

areas

265

00:10:03,990 --> 00:10:02,880

that have reports uh as an example like

266

00:10:05,509 --> 00:10:04,000

the deckard's area

267

00:10:07,350 --> 00:10:05,519

a lot of reports that come out of the

268

00:10:08,389 --> 00:10:07,360

south platte river area known as

269

00:10:10,949 --> 00:10:08,399

decker's

270

00:10:11,829 --> 00:10:10,959

started hitting it documenting

271

00:10:14,069 --> 00:10:11,839

structures

272

00:10:15,670 --> 00:10:14,079

prints things that we would find moved

273

00:10:18,630 --> 00:10:15,680

to a different area

274

00:10:19,350 --> 00:10:18,640

same process same process sometimes it

275

00:10:22,790 --> 00:10:19,360

would be

276

00:10:25,670 --> 00:10:22,800

large structure fields funny really

277

00:10:27,670 --> 00:10:25,680

incredible stuff type of stuff um you

278

00:10:29,829 --> 00:10:27,680

know that you see in western colorado by

279

00:10:32,230 --> 00:10:29,839

another colorado researcher

280

00:10:33,670 --> 00:10:32,240

and then other times it was more subtle

281

00:10:37,030 --> 00:10:33,680

um

282

00:10:39,509 --> 00:10:37,040

we enhanced our tracking skills by doing

283

00:10:40,710 --> 00:10:39,519

that being able to look at different

284

00:10:43,110 --> 00:10:40,720

staff

285

00:10:44,630 --> 00:10:43,120

just going into an area whether it was

286

00:10:46,310 --> 00:10:44,640

in bayley colorado

287

00:10:48,069 --> 00:10:46,320

pine colorado any of these mountain

288

00:10:49,110 --> 00:10:48,079

towns that run along the front range

289

00:10:51,910 --> 00:10:49,120

that have had

290

00:10:52,389 --> 00:10:51,920

fighting reports and just choose areas

291

00:10:54,949 --> 00:10:52,399

you know

292

00:10:55,910 --> 00:10:54,959

even if it was a trail head would run up

293

00:10:59,670 --> 00:10:55,920

somewhere we would

294

00:11:02,710 --> 00:10:59,680

hit it break trail explore off trail

295

00:11:06,150 --> 00:11:02,720

document where we find sign

296

00:11:07,269 --> 00:11:06,160

and uh then start putting all the pieces

297

00:11:09,430 --> 00:11:07,279

together you know

298

00:11:11,670 --> 00:11:09,440

what what's similar are these structures

299

00:11:15,030 --> 00:11:11,680

some of the symbology looks like

300

00:11:17,829 --> 00:11:15,040

the same symbology 50 miles away

301
00:11:19,430 --> 00:11:17,839
which just blew us away and uh at that

302
00:11:21,430 --> 00:11:19,440
point you know you start

303
00:11:22,470 --> 00:11:21,440
realizing these aren't boy scouts doing

304
00:11:26,069 --> 00:11:22,480
the symbology

305
00:11:28,870 --> 00:11:26,079
uh these aren't artists that it is

306
00:11:31,590 --> 00:11:28,880
they this really is a tribal type

307
00:11:35,030 --> 00:11:31,600
situation going on in eastern colorado

308
00:11:38,150 --> 00:11:35,040
um because we were able to locate

309
00:11:39,750 --> 00:11:38,160
so many different areas um over the past

310
00:11:43,430 --> 00:11:39,760
couple years

311
00:11:44,870 --> 00:11:43,440
where there is bigfoot activity um

312
00:11:46,710 --> 00:11:44,880
if this goes in right because the

313
00:11:48,389 --> 00:11:46,720

population you can't even begin to

314

00:11:49,670 --> 00:11:48,399

speculate right now but it has been

315

00:11:52,949 --> 00:11:49,680

hundreds

316

00:11:53,750 --> 00:11:52,959

in in the thought like i said the sign

317

00:11:57,350 --> 00:11:53,760

is similar

318

00:11:59,670 --> 00:11:57,360

spread out over 50 miles to get another

319

00:12:02,150 --> 00:11:59,680

national forest or state park area the

320

00:12:05,430 --> 00:12:02,160

sign would show up it'd be similar

321

00:12:07,350 --> 00:12:05,440

you know so we're like wow this has to

322

00:12:10,870 --> 00:12:07,360

be like one either gigantic

323

00:12:14,629 --> 00:12:10,880

network or it's pretty typical

324

00:12:15,590 --> 00:12:14,639

of behavior so it's been really uh a fun

325

00:12:18,230 --> 00:12:15,600

12 years

326

00:12:18,870 --> 00:12:18,240

um we kind of backed off a little bit

327

00:12:21,269 --> 00:12:18,880

this year

328

00:12:22,470 --> 00:12:21,279

close locked down on doing the videos

329

00:12:24,389 --> 00:12:22,480

and

330

00:12:25,910 --> 00:12:24,399

so forth uh because you know i'm going

331

00:12:29,030 --> 00:12:25,920

the process of writing a book

332

00:12:31,350 --> 00:12:29,040

uh the book came about because

333

00:12:32,230 --> 00:12:31,360

of his 12 years but that doesn't mean

334

00:12:34,069 --> 00:12:32,240

it's over

335

00:12:38,389 --> 00:12:34,079

we're still going to be getting the

336

00:12:41,590 --> 00:12:38,399

field and learning as much as we can

337

00:12:43,430 --> 00:12:41,600

stuff mark and a lot of

338

00:12:45,190 --> 00:12:43,440

i i relate with a lot of what you said

339

00:12:46,629 --> 00:12:45,200
from just researching the little bit

340

00:12:49,350 --> 00:12:46,639
that you know

341

00:12:51,110 --> 00:12:49,360
in your area you mentioned the tri that

342

00:12:53,030 --> 00:12:51,120
they seem to be in tribes and i think

343

00:12:54,550 --> 00:12:53,040
that's really interesting because a lot

344

00:12:56,629 --> 00:12:54,560
of people are reporting

345

00:12:58,389 --> 00:12:56,639
family type behavior have you witnessed

346

00:13:00,629 --> 00:12:58,399
that on your own or seen that type of

347

00:13:04,150 --> 00:13:00,639
behavior through your research

348

00:13:07,509 --> 00:13:04,160
sure in tracking um you know i used

349

00:13:10,069 --> 00:13:07,519
i use tactical man trapping uh is is

350

00:13:11,430 --> 00:13:10,079
my pre-set for any investigation to go

351
00:13:12,629 --> 00:13:11,440
on and that's where i start i'm not

352
00:13:15,110 --> 00:13:12,639
tracking an animal

353
00:13:16,310 --> 00:13:15,120
i come at it using a tactical mantra i

354
00:13:19,750 --> 00:13:16,320
feel like i'm tracking

355
00:13:22,550 --> 00:13:19,760
either enemy soldiers or fugitives

356
00:13:23,829 --> 00:13:22,560
in that respect and that's because of

357
00:13:25,269 --> 00:13:23,839
the psychology

358
00:13:26,710 --> 00:13:25,279
they're not animals and so they're not

359
00:13:28,069 --> 00:13:26,720
going to be predictable they are going

360
00:13:30,230 --> 00:13:28,079
to set

361
00:13:31,269 --> 00:13:30,240
you know trapped basically it's not like

362
00:13:33,430 --> 00:13:31,279
they can think here

363
00:13:35,269 --> 00:13:33,440

it's a set up sometimes if you find

364

00:13:37,430 --> 00:13:35,279

pranks crazy it's a setup and they're

365

00:13:40,870 --> 00:13:37,440

probably watching you at that point

366

00:13:44,629 --> 00:13:40,880

but um you know to get back on that

367

00:13:45,509 --> 00:13:44,639

the the tracking is is really what opens

368

00:13:48,710 --> 00:13:45,519

the door

369

00:13:51,189 --> 00:13:48,720

90 of the times i mean i really don't

370

00:13:53,110 --> 00:13:51,199

refine the structures and so forth but

371

00:13:53,590 --> 00:13:53,120

books sometimes they can be ambiguous

372

00:13:57,829 --> 00:13:53,600

and

373

00:14:01,030 --> 00:13:57,839

the thing here in colorado

374

00:14:02,069 --> 00:14:01,040

is you have a lot of archaeology um use

375

00:14:06,150 --> 00:14:02,079

indians

376

00:14:09,910 --> 00:14:06,160

lived up in the high rocky mountains and

377

00:14:11,430 --> 00:14:09,920

they some of their their tribal

378

00:14:14,069 --> 00:14:11,440

they would have up to ten thousand

379

00:14:16,069 --> 00:14:14,079

people you know in a single community

380

00:14:17,269 --> 00:14:16,079

so that's a lot of racks different

381

00:14:19,750 --> 00:14:17,279

drawing needs that

382

00:14:21,670 --> 00:14:19,760

you use there's lots of that is some of

383

00:14:23,350 --> 00:14:21,680

it has still stands in this weather the

384

00:14:26,870 --> 00:14:23,360

best design

385

00:14:29,750 --> 00:14:26,880

but of course you can tell by

386

00:14:30,389 --> 00:14:29,760

how fresh it is and prints of course and

387

00:14:34,470 --> 00:14:30,399

poops

388

00:14:37,750 --> 00:14:34,480

yeah you know animal bones lying around

389

00:14:40,949 --> 00:14:37,760

um but uh you i'm sorry you were asking

390

00:14:46,629 --> 00:14:43,430

yeah it kind of seems like uh oh the

391

00:14:48,629 --> 00:14:46,639

tribal the tribal symbology

392

00:14:50,389 --> 00:14:48,639

okay so when i when i originally started

393

00:14:51,350 --> 00:14:50,399

working in these canyons out here on the

394

00:14:53,670 --> 00:14:51,360

palmer dubai

395

00:14:55,509 --> 00:14:53,680

the symbology was like wow these were

396

00:14:58,389 --> 00:14:55,519

like bows and arrows

397

00:14:59,030 --> 00:14:58,399

x's it's very native american technology

398

00:15:01,110 --> 00:14:59,040

where you have an

399

00:15:03,590 --> 00:15:01,120

x and a foe and i'm like well that's

400

00:15:07,110 --> 00:15:03,600

very representative of a bow and arrow

401
00:15:09,829 --> 00:15:07,120
and then you would have a um just

402
00:15:12,150 --> 00:15:09,839
incredible break i should this is either

403
00:15:13,110 --> 00:15:12,160
some artist doing this or it's bigfoot

404
00:15:16,310 --> 00:15:13,120
so

405
00:15:17,590 --> 00:15:16,320
the confirmation came much later as we

406
00:15:22,470 --> 00:15:17,600
moved

407
00:15:29,189 --> 00:15:26,389
near a very big big reservoir

408
00:15:30,870 --> 00:15:29,199
the watershed reservoir the denver water

409
00:15:32,710 --> 00:15:30,880
runs it runs down

410
00:15:34,550 --> 00:15:32,720
supplies the water into called the

411
00:15:37,189 --> 00:15:34,560
eastern colorado here

412
00:15:37,749 --> 00:15:37,199
and we started buying the exact same

413
00:15:40,310 --> 00:15:37,759

stuff

414

00:15:42,310 --> 00:15:40,320

and i said look at this this matches the

415

00:15:43,189 --> 00:15:42,320

exact same stuff i've been documenting

416

00:15:46,230 --> 00:15:43,199

in the first place

417

00:15:48,389 --> 00:15:46,240

12 years i said it was confirmation at

418

00:15:50,150 --> 00:15:48,399

that point that yeah there is a

419

00:15:51,910 --> 00:15:50,160

there's a tribal mindset in the way that

420

00:15:55,030 --> 00:15:51,920

they leave branches

421

00:15:57,269 --> 00:15:55,040

um we have found some

422

00:15:58,790 --> 00:15:57,279

really incredible stuff last two years

423

00:16:01,670 --> 00:15:58,800

along the platte river

424

00:16:02,870 --> 00:16:01,680

we were coming back hiking down from

425

00:16:05,829 --> 00:16:02,880

that reservoir

426
00:16:08,230 --> 00:16:05,839
along the south by river and something

427
00:16:10,710 --> 00:16:08,240
caught our eye up on a cliff

428
00:16:11,590 --> 00:16:10,720
he stopped and it looked like a big

429
00:16:13,430 --> 00:16:11,600
giant patty

430
00:16:15,509 --> 00:16:13,440
a gorilla sitting on the cliff

431
00:16:18,870 --> 00:16:15,519
overlooking the river

432
00:16:20,470 --> 00:16:18,880
so wow this this is crazy this

433
00:16:21,910 --> 00:16:20,480
set us off that we were going to have to

434
00:16:22,710 --> 00:16:21,920
get to the other side of the river the

435
00:16:25,670 --> 00:16:22,720
following week

436
00:16:27,590 --> 00:16:25,680
and go up there and find out what that

437
00:16:30,150 --> 00:16:27,600
was we tried yelling at it

438
00:16:32,389 --> 00:16:30,160

uh it's a really loud river but we could

439

00:16:34,069 --> 00:16:32,399

see it sitting there and it was totally

440

00:16:35,910 --> 00:16:34,079

inky black and it wasn't

441

00:16:38,310 --> 00:16:35,920

there and it didn't look like patty it

442

00:16:39,670 --> 00:16:38,320

looked like it had air up to the face

443

00:16:41,590 --> 00:16:39,680

and it was just sitting there

444

00:16:44,790 --> 00:16:41,600

overlooking the river

445

00:16:46,069 --> 00:16:44,800

and so next week you know we climbed up

446

00:16:48,470 --> 00:16:46,079

there i climbed up there and

447

00:16:50,550 --> 00:16:48,480

this is what i could find and got to

448

00:16:51,430 --> 00:16:50,560

where it was it wasn't a cave it wasn't

449

00:16:53,910 --> 00:16:51,440

just a dark

450

00:16:56,389 --> 00:16:53,920

area shaded area on the rock but there

451
00:16:58,710 --> 00:16:56,399
was nothing that well there was a

452
00:17:00,069 --> 00:16:58,720
little stack of rocks you know looked

453
00:17:02,230 --> 00:17:00,079
like uh they were flatter

454
00:17:03,829 --> 00:17:02,240
clutter up like handbags kind of like

455
00:17:05,429 --> 00:17:03,839
pancakes and they were just stacked to

456
00:17:06,949 --> 00:17:05,439
spread for them

457
00:17:08,870 --> 00:17:06,959
you know first thing i said is wow wow

458
00:17:10,870 --> 00:17:08,880
okay i thought

459
00:17:12,150 --> 00:17:10,880
and we're right where the this big boat

460
00:17:15,189 --> 00:17:12,160
where we have the pictures

461
00:17:16,949 --> 00:17:15,199
that we took of him the city right he's

462
00:17:20,230 --> 00:17:16,959
staring it looks like he's staring

463
00:17:22,870 --> 00:17:20,240

down at the river but there is a

464

00:17:24,710 --> 00:17:22,880

juniper tree in front of him where the

465

00:17:27,350 --> 00:17:24,720

city like to kind of block him

466

00:17:30,310 --> 00:17:27,360

no one could see him when he got up

467

00:17:34,470 --> 00:17:30,320

there this juniper tree has been twisted

468

00:17:37,750 --> 00:17:34,480

so there's like a circle like a

469

00:17:40,070 --> 00:17:37,760

a hole like a dream capture it looks

470

00:17:43,510 --> 00:17:40,080

like a dream tactic

471

00:17:45,430 --> 00:17:43,520

and when i saw that i said

472

00:17:47,350 --> 00:17:45,440

is he a meditator is he sitting up on

473

00:17:48,150 --> 00:17:47,360

this cliff meditating is that what he's

474

00:17:51,350 --> 00:17:48,160

doing

475

00:17:52,710 --> 00:17:51,360

because it's very you have snack rocks

476

00:17:54,950 --> 00:17:52,720

you have

477

00:17:56,950 --> 00:17:54,960

this tree twisted to make a hole kind of

478

00:18:01,430 --> 00:17:56,960

like looking through a hole

479

00:18:04,870 --> 00:18:01,440

oh excuse me for one second you bet

480

00:18:05,990 --> 00:18:04,880

so um the uh

481

00:18:07,270 --> 00:18:06,000

the whole thing with the tribal

482

00:18:08,070 --> 00:18:07,280

symbology is something that i've

483

00:18:10,070 --> 00:18:08,080

detailed

484

00:18:13,750 --> 00:18:10,080

um over the years and that's going to be

485

00:18:15,909 --> 00:18:13,760

part of my my focus and my focus is

486

00:18:17,270 --> 00:18:15,919

they are they are living in like clans

487

00:18:19,510 --> 00:18:17,280

or tribes

488

00:18:21,510 --> 00:18:19,520

uh and you know i've talked to a lot of

489

00:18:22,710 --> 00:18:21,520

people in colorado this year in the past

490

00:18:25,110 --> 00:18:22,720

couple of years

491

00:18:26,630 --> 00:18:25,120

from different areas and they all say

492

00:18:29,350 --> 00:18:26,640

the same thing these things are

493

00:18:30,950 --> 00:18:29,360

everywhere up here whether it's going on

494

00:18:33,350 --> 00:18:30,960

in bailey

495

00:18:34,950 --> 00:18:33,360

uh you know or pine or everywhere

496

00:18:36,230 --> 00:18:34,960

anything you talk to you about this but

497

00:18:38,870 --> 00:18:36,240

they're so they're everywhere

498

00:18:40,630 --> 00:18:38,880

maybe you get all kind of wounds and

499

00:18:43,270 --> 00:18:40,640

these kind of that's crazy and

500

00:18:44,630 --> 00:18:43,280

everything itself i'm not really sure on

501
00:18:47,510 --> 00:18:44,640
population

502
00:18:48,870 --> 00:18:47,520
but it's got to be huge along the uh the

503
00:18:52,310 --> 00:18:48,880
front range

504
00:18:54,390 --> 00:18:52,320
where we work yeah it seems

505
00:18:56,230 --> 00:18:54,400
this isn't one of those things where

506
00:18:57,430 --> 00:18:56,240
we're not having the type of experiences

507
00:18:59,029 --> 00:18:57,440
we don't go

508
00:19:00,789 --> 00:18:59,039
um we're putting you know centered

509
00:19:02,549 --> 00:19:00,799
people we're not sitting down and

510
00:19:04,950 --> 00:19:02,559
breaking graduation

511
00:19:06,070 --> 00:19:04,960
um we get flipped in and pooping where

512
00:19:08,950 --> 00:19:06,080
we can hear the roots

513
00:19:09,350 --> 00:19:08,960

or the vocalizations we've had rocks

514

00:19:12,789 --> 00:19:09,360

thrown

515

00:19:15,430 --> 00:19:12,799

at us uh in the decker's area but

516

00:19:17,510 --> 00:19:15,440

they don't you know they are very shy

517

00:19:19,430 --> 00:19:17,520

and

518

00:19:20,789 --> 00:19:19,440

they'll have to sit along the rivers in

519

00:19:23,669 --> 00:19:20,799

the summer because of this

520

00:19:24,710 --> 00:19:23,679

and what we've learned is that the

521

00:19:26,789 --> 00:19:24,720

closer the

522

00:19:29,430 --> 00:19:26,799

you know the harder we push at them down

523

00:19:31,350 --> 00:19:29,440

the river they move down the river

524

00:19:32,630 --> 00:19:31,360

so they're always like 50 to 50 yards

525

00:19:34,630 --> 00:19:32,640

ahead ahead of us

526

00:19:36,150 --> 00:19:34,640

and that's where we're at we're

527

00:19:38,390 --> 00:19:36,160

struggling to get i will

528

00:19:40,789 --> 00:19:38,400

i started this to get them on video and

529

00:19:44,310 --> 00:19:40,799

so that has been always my goal

530

00:19:45,190 --> 00:19:44,320

the rest of it the dna uh those are from

531

00:19:47,669 --> 00:19:45,200

my betters

532

00:19:49,190 --> 00:19:47,679

all of that stuff my goal was always

533

00:19:51,430 --> 00:19:49,200

just to try and get

534

00:19:53,270 --> 00:19:51,440

the perfect video you know patterson

535

00:19:56,150 --> 00:19:53,280

quality if i can

536

00:19:56,950 --> 00:19:56,160

and i've gotten close a couple times but

537

00:19:58,470 --> 00:19:56,960

you know

538

00:20:00,710 --> 00:19:58,480

it just doesn't it doesn't happen in the

539

00:20:03,909 --> 00:20:00,720

real world like that

540

00:20:06,390 --> 00:20:03,919

i wish it did right and i i

541

00:20:06,950 --> 00:20:06,400

i'm glad you brought up the patterson

542

00:20:13,830 --> 00:20:06,960

film

543

00:20:15,590 --> 00:20:13,840

it sure looks real to me what what's

544

00:20:17,750 --> 00:20:15,600

your personal opinion of the film

545

00:20:19,430 --> 00:20:17,760

and what attributes do you like or don't

546

00:20:21,830 --> 00:20:19,440

like about it

547

00:20:23,110 --> 00:20:21,840

okay what i've experienced in colorado

548

00:20:26,630 --> 00:20:23,120

is a little bit

549

00:20:34,470 --> 00:20:30,789

they they live in they like to live

550

00:20:36,630 --> 00:20:34,480

in high granite cliff areas um

551
00:20:37,909 --> 00:20:36,640
so they're very good at climbing these

552
00:20:41,029 --> 00:20:37,919
areas

553
00:20:41,830 --> 00:20:41,039
um or there's caves and also what we

554
00:20:44,310 --> 00:20:41,840
call pits

555
00:20:45,990 --> 00:20:44,320
we have found pit caves where it's just

556
00:20:49,430 --> 00:20:46,000
a hole in the ground

557
00:20:50,390 --> 00:20:49,440
clean and it's been excavated out and

558
00:20:52,630 --> 00:20:50,400
then they put a big

559
00:20:53,990 --> 00:20:52,640
rock in front of it and so we just found

560
00:20:56,870 --> 00:20:54,000
where the rock is

561
00:20:57,190 --> 00:20:56,880
you've been moved aside from the hole

562
00:20:59,430 --> 00:20:57,200
and

563
00:21:00,549 --> 00:20:59,440

no human is doing that because that's

564

00:21:03,909 --> 00:21:00,559

not

565

00:21:06,950 --> 00:21:03,919

conducive to our survival if they

566

00:21:08,870 --> 00:21:06,960

you don't if humans don't build a

567

00:21:09,909 --> 00:21:08,880

structure and sleep outside by the fire

568

00:21:12,149 --> 00:21:09,919

they don't go

569

00:21:13,750 --> 00:21:12,159

hide themselves in a tune the only thing

570

00:21:16,870 --> 00:21:13,760

to be doing that

571

00:21:18,789 --> 00:21:16,880

in the rockies is in these high cliff

572

00:21:21,350 --> 00:21:18,799

areas with sasquatch

573

00:21:22,070 --> 00:21:21,360

and we you know that's the thing we've

574

00:21:23,590 --> 00:21:22,080

seen them

575

00:21:25,430 --> 00:21:23,600

up on the cliff they like to put

576
00:21:26,230 --> 00:21:25,440
themselves in a position where they can

577
00:21:29,270 --> 00:21:26,240
overlook

578
00:21:31,590 --> 00:21:29,280
a river as an example

579
00:21:33,270 --> 00:21:31,600
and you know they the sasquatch here

580
00:21:36,950 --> 00:21:33,280
they're very predictable

581
00:21:38,789 --> 00:21:36,960
as far as using human resources um

582
00:21:41,110 --> 00:21:38,799
beyond a win one day actually let's go

583
00:21:43,430 --> 00:21:41,120
up to mount savannah there's an example

584
00:21:45,990 --> 00:21:43,440
it's one of the fish factories

585
00:21:47,430 --> 00:21:46,000
and they produce they farm raise all the

586
00:21:49,190 --> 00:21:47,440
award-winning

587
00:21:51,430 --> 00:21:49,200
trout that they put into the flat river

588
00:21:53,029 --> 00:21:51,440

and you know people come from

589

00:21:54,549 --> 00:21:53,039

all over the world to fish the flat

590

00:21:56,149 --> 00:21:54,559

river because

591

00:21:57,990 --> 00:21:56,159

you know those are fish that have been

592

00:21:58,390 --> 00:21:58,000

bred to be put in there their award with

593

00:22:04,950 --> 00:21:58,400

big

594

00:22:07,830 --> 00:22:04,960

used that natural reset so

595

00:22:08,710 --> 00:22:07,840

uh you know we like to hang along rivers

596

00:22:11,830 --> 00:22:08,720

um

597

00:22:15,029 --> 00:22:11,840

that's where we get rocks thrown at us

598

00:22:18,310 --> 00:22:15,039

vocalizations coming from above us

599

00:22:19,350 --> 00:22:18,320

on the hillside once we move into those

600

00:22:21,590 --> 00:22:19,360

tree lines

601
00:22:23,510 --> 00:22:21,600
go up the hill when we start finding the

602
00:22:25,110 --> 00:22:23,520
evidence

603
00:22:26,950 --> 00:22:25,120
the structures in the brinks and so

604
00:22:28,870 --> 00:22:26,960
forth and

605
00:22:31,110 --> 00:22:28,880
um you know we've been able to make a

606
00:22:31,990 --> 00:22:31,120
lot of headway in doing things like

607
00:22:36,310 --> 00:22:32,000
understanding

608
00:22:38,470 --> 00:22:36,320
diet the wild diet is an example um

609
00:22:39,510 --> 00:22:38,480
i kind of learned over the years they

610
00:22:42,789 --> 00:22:39,520
avoid deer

611
00:22:44,310 --> 00:22:42,799
the old deer in colorado they they have

612
00:22:45,830 --> 00:22:44,320
other things like elk and

613
00:22:47,990 --> 00:22:45,840

mountain goats and so forth that are

614

00:22:50,470 --> 00:22:48,000

cleaner but a lot of deer

615

00:22:51,990 --> 00:22:50,480

you notice that they'll rip the head off

616

00:22:53,510 --> 00:22:52,000

and drink all the blood out of the

617

00:22:55,430 --> 00:22:53,520

animal but they won't eat the meat and

618

00:22:56,870 --> 00:22:55,440

that's why because it had parasites and

619

00:23:01,669 --> 00:22:56,880

they moved

620

00:23:04,149 --> 00:23:01,679

you've learned a lot about diet colorado

621

00:23:05,669 --> 00:23:04,159

yeah and the most of the last things

622

00:23:07,350 --> 00:23:05,679

that we learned is this is why i make a

623

00:23:10,710 --> 00:23:07,360

point in my book

624

00:23:14,149 --> 00:23:10,720

to colorado because i can't

625

00:23:15,830 --> 00:23:14,159

i can't um complement or

626

00:23:17,830 --> 00:23:15,840

even comment on other people's

627

00:23:18,870 --> 00:23:17,840

experiences like let's say in southern

628

00:23:21,270 --> 00:23:18,880

states

629

00:23:22,870 --> 00:23:21,280

because everything is different the fawn

630

00:23:25,190 --> 00:23:22,880

is different the plants are different

631

00:23:27,190 --> 00:23:25,200

the diet will be different and therefore

632

00:23:29,830 --> 00:23:27,200

the whole psychology and the behavior of

633

00:23:31,750 --> 00:23:29,840

the creatures

634

00:23:33,830 --> 00:23:31,760

you know so our the whole premise is you

635

00:23:35,909 --> 00:23:33,840

know colorado we've grown

636

00:23:37,669 --> 00:23:35,919

you've got to stay focused on colorado

637

00:23:41,590 --> 00:23:37,679

but you know

638

00:23:45,430 --> 00:23:43,029

because what happens is you know a lot

639

00:23:47,350 --> 00:23:45,440

of people these days

640

00:23:50,230 --> 00:23:47,360

you've seen comments on posts and so

641

00:23:51,750 --> 00:23:50,240

forth where the arms are too short or

642

00:23:54,070 --> 00:23:51,760

then it doesn't have a sad little

643

00:23:57,269 --> 00:23:54,080

correct well in that case if that's not

644

00:23:59,350 --> 00:23:57,279

that's um that's not the case there's

645

00:24:01,510 --> 00:23:59,360

multiple variations of sasquatch just

646

00:24:04,549 --> 00:24:01,520

like there are races of people

647

00:24:08,310 --> 00:24:04,559

and it all has to do with genetic

648

00:24:10,710 --> 00:24:08,320

yeah and the it sounds like the

649

00:24:12,149 --> 00:24:10,720

the tribal i think the tribal like you

650

00:24:13,350 --> 00:24:12,159

said it's neat that you're going after

651
00:24:15,110 --> 00:24:13,360
it more like

652
00:24:17,190 --> 00:24:15,120
hunting a man than you would be hunting

653
00:24:18,470 --> 00:24:17,200
an animal and the tribal thing makes

654
00:24:21,830 --> 00:24:18,480
sense and

655
00:24:23,750 --> 00:24:21,840
it it definitely goes along with

656
00:24:26,390 --> 00:24:23,760
everything that i've seen

657
00:24:27,430 --> 00:24:26,400
and researching and you know the

658
00:24:30,870 --> 00:24:27,440
interesting thing

659
00:24:31,990 --> 00:24:30,880
is uh the the sentinel there's a lot of

660
00:24:35,029 --> 00:24:32,000
people who have started

661
00:24:36,710 --> 00:24:35,039
to argue this whole sentinel idea where

662
00:24:38,789 --> 00:24:36,720
you may see something but it might be

663
00:24:40,870 --> 00:24:38,799

the the a decoy or

664

00:24:41,990 --> 00:24:40,880

or a sentinel who's looking out for the

665

00:24:44,390 --> 00:24:42,000

others who may be

666

00:24:45,110 --> 00:24:44,400

further away what are your opinions on

667

00:24:47,110 --> 00:24:45,120

the whole

668

00:24:49,350 --> 00:24:47,120

you know the sentinel or the lookout is

669

00:24:53,269 --> 00:24:49,360

is that something you've encountered

670

00:24:55,190 --> 00:24:53,279

yes um now

671

00:24:56,549 --> 00:24:55,200

most of our encounters because we've

672

00:24:58,310 --> 00:24:56,559

been doing video

673

00:24:59,669 --> 00:24:58,320

all the time we were working in the

674

00:25:01,990 --> 00:24:59,679

early morning hours

675

00:25:03,990 --> 00:25:02,000

in the day more so than nights i can't

676

00:25:05,750 --> 00:25:04,000

afford thermals and all that

677

00:25:07,510 --> 00:25:05,760

stuff but we're going to do the best

678

00:25:10,549 --> 00:25:07,520

that we could working in the day

679

00:25:12,470 --> 00:25:10,559

um the sentinels are present

680

00:25:13,590 --> 00:25:12,480

a lot of the areas that we have covered

681

00:25:17,669 --> 00:25:13,600

in colorado

682

00:25:20,870 --> 00:25:17,679

have uh say hauntings

683

00:25:23,909 --> 00:25:20,880

um or they have a uh

684

00:25:26,549 --> 00:25:23,919

a cultural and a background form

685

00:25:27,350 --> 00:25:26,559

a historical background we find a lot of

686

00:25:29,350 --> 00:25:27,360

areas

687

00:25:31,510 --> 00:25:29,360

where there's indian graves there are

688

00:25:33,590 --> 00:25:31,520

graveyards there are

689

00:25:35,190 --> 00:25:33,600

particular state parks that have are

690

00:25:37,750 --> 00:25:35,200

haunted where people have been

691

00:25:38,230 --> 00:25:37,760

forced to the ground we've seen shadows

692

00:25:41,269 --> 00:25:38,240

that

693

00:25:43,430 --> 00:25:41,279

reported bigfoot strange light

694

00:25:44,630 --> 00:25:43,440

the whole the orb thing the whole thing

695

00:25:47,269 --> 00:25:44,640

is intertwined

696

00:25:48,710 --> 00:25:47,279

in these particular areas where you have

697

00:25:51,669 --> 00:25:48,720

historical content

698

00:25:53,590 --> 00:25:51,679

um you know as an example the flat river

699

00:25:55,990 --> 00:25:53,600

has a really ugly history a lot of

700

00:25:56,950 --> 00:25:56,000

a lot of men died there and goldwest

701
00:25:58,870 --> 00:25:56,960
times

702
00:26:00,630 --> 00:25:58,880
trying to ambush those trains on their

703
00:26:01,510 --> 00:26:00,640
way to the denver mint from the gold

704
00:26:04,630 --> 00:26:01,520
mines

705
00:26:05,909 --> 00:26:04,640
and uh and a lot of people just died

706
00:26:07,510 --> 00:26:05,919
right there in the sun and

707
00:26:09,750 --> 00:26:07,520
somebody maybe had found them and put

708
00:26:12,549 --> 00:26:09,760
them in a gallon grave but so

709
00:26:12,870 --> 00:26:12,559
there's a lot of haunted uh areas like

710
00:26:16,470 --> 00:26:12,880
that

711
00:26:19,830 --> 00:26:16,480
bigfoot does

712
00:26:22,310 --> 00:26:19,840
for whatever reason put themselves

713
00:26:22,870 --> 00:26:22,320

in those areas now there's a number of

714

00:26:26,310 --> 00:26:22,880

reasons

715

00:26:28,549 --> 00:26:26,320

for that um you know a lot of people

716

00:26:31,830 --> 00:26:28,559

that are on the paranormal

717

00:26:33,750 --> 00:26:31,840

camp basically they uh will immediately

718

00:26:34,630 --> 00:26:33,760

assume that the bigfoot is interacting

719

00:26:37,430 --> 00:26:34,640

by the run

720

00:26:39,430 --> 00:26:37,440

and has some kind of power related to

721

00:26:41,669 --> 00:26:39,440

this one in actuality

722

00:26:43,830 --> 00:26:41,679

they might just be attracted to the

723

00:26:44,710 --> 00:26:43,840

spirit activity if there's ghost

724

00:26:47,909 --> 00:26:44,720

activity

725

00:26:51,190 --> 00:26:47,919

that may be something that they're just

726

00:26:54,950 --> 00:26:51,200

attracted to as far as like tribalism

727

00:27:01,750 --> 00:26:58,710

about all tribal

728

00:27:03,029 --> 00:27:01,760

uh things that we know for science and

729

00:27:06,070 --> 00:27:03,039

homonym

730

00:27:08,470 --> 00:27:06,080

um was of is

731

00:27:09,350 --> 00:27:08,480

so the most important thing to whether

732

00:27:13,029 --> 00:27:09,360

it be

733

00:27:16,070 --> 00:27:13,039

neighbors or the olympian or ancestors

734

00:27:18,149 --> 00:27:16,080

those are the people that

735

00:27:19,110 --> 00:27:18,159

came before us that can be carrying all

736

00:27:24,070 --> 00:27:19,120

their dna

737

00:27:27,190 --> 00:27:24,080

and you know so a lot of those

738

00:27:28,389 --> 00:27:27,200

tribal uh very ancient pagan religions

739

00:27:30,870 --> 00:27:28,399

were based around

740

00:27:32,389 --> 00:27:30,880

ancestors and the spirits that they work

741

00:27:34,789 --> 00:27:32,399

with there are

742

00:27:35,590 --> 00:27:34,799

where is their great grandparents

743

00:27:37,990 --> 00:27:35,600

themselves

744

00:27:39,830 --> 00:27:38,000

and so you know i use a lot of

745

00:27:41,909 --> 00:27:39,840

anthropology templates

746

00:27:43,750 --> 00:27:41,919

looking at that you know it's like want

747

00:27:45,510 --> 00:27:43,760

to find like an explorer going into the

748

00:27:46,470 --> 00:27:45,520

jungles of borneo for the first time

749

00:27:48,230 --> 00:27:46,480

right

750

00:27:49,909 --> 00:27:48,240

all those identifiers are going to be

751

00:27:51,750 --> 00:27:49,919

there if you run across

752

00:27:53,510 --> 00:27:51,760

people that have really just lived in

753

00:27:53,990 --> 00:27:53,520

the jungle and never really seen other

754

00:27:57,389 --> 00:27:54,000

people

755

00:27:59,830 --> 00:27:57,399

you're going to have all of that tribal

756

00:28:01,269 --> 00:27:59,840

symbology everything is going to be

757

00:28:03,669 --> 00:28:01,279

their language

758

00:28:05,669 --> 00:28:03,679

and it shouldn't be any different for a

759

00:28:08,789 --> 00:28:05,679

living comedy

760

00:28:12,549 --> 00:28:08,799

that's supposedly and i do believe it is

761

00:28:16,389 --> 00:28:12,559

half human so

762

00:28:18,230 --> 00:28:16,399

you take into all you know anthropology

763

00:28:21,430 --> 00:28:18,240

whether it's the neanderthal

764

00:28:23,350 --> 00:28:21,440

um any of the hominin species homo

765

00:28:26,710 --> 00:28:23,360

ancestor heidelberg dennis

766

00:28:38,230 --> 00:28:28,470

sense about them some were more

767

00:28:42,710 --> 00:28:40,149

yeah the interesting thing is from that

768

00:28:45,430 --> 00:28:42,720

tribal mentality i mean and they they

769

00:28:47,830 --> 00:28:45,440

they do seem like they work as a group

770

00:28:49,590 --> 00:28:47,840

and i it also it appears

771

00:28:51,029 --> 00:28:49,600

i'm glad you mentioned the lights in the

772

00:28:53,750 --> 00:28:51,039

sky the uh

773

00:28:54,710 --> 00:28:53,760

strange almost paranormal activity

774

00:28:57,990 --> 00:28:54,720

because

775

00:28:59,750 --> 00:28:58,000

there there is a couple of camps you

776

00:29:00,870 --> 00:28:59,760

know those who believe that these things

777

00:29:03,669 --> 00:29:00,880

work hand in hand

778

00:29:05,430 --> 00:29:03,679

and are more open-minded to the idea and

779

00:29:07,430 --> 00:29:05,440

those who are just more nuts and bolts i

780

00:29:09,430 --> 00:29:07,440

mean both sides are needed but

781

00:29:11,190 --> 00:29:09,440

i've taught i've talked to a lot of

782

00:29:13,909 --> 00:29:11,200

people who have seen

783

00:29:16,070 --> 00:29:13,919

multiple things on the same outing which

784

00:29:18,470 --> 00:29:16,080

did not make sense and so i i'm really

785

00:29:20,950 --> 00:29:18,480

glad that you you brought that up

786

00:29:23,110 --> 00:29:20,960

sure um we started capturing when

787

00:29:25,269 --> 00:29:23,120

something joined in 2015

788

00:29:26,870 --> 00:29:25,279

i was still at that tactical man

789

00:29:28,710 --> 00:29:26,880

tracking i'm a backbone

790

00:29:30,070 --> 00:29:28,720

type of guy and that's how i'm running

791

00:29:33,909 --> 00:29:30,080

this like

792

00:29:35,990 --> 00:29:33,919

susan brought in a different energy i

793

00:29:39,110 --> 00:29:36,000

guess which changed the whole dynamic

794

00:29:40,230 --> 00:29:39,120

and changed my paradigm susan when she

795

00:29:42,389 --> 00:29:40,240

came in

796

00:29:45,669 --> 00:29:42,399

uh she said you know originally how she

797

00:29:47,510 --> 00:29:45,679

had found things on youtube and she had

798

00:29:48,870 --> 00:29:47,520

visited that state park and said you

799

00:29:49,269 --> 00:29:48,880

know i've been out there and i've never

800

00:29:52,389 --> 00:29:49,279

really

801
00:29:54,470 --> 00:29:52,399
sensed or seen anything so you know we

802
00:29:56,470 --> 00:29:54,480
just went out and had some drinks and

803
00:29:57,990 --> 00:29:56,480
and get it off and pretty soon i was

804
00:30:01,269 --> 00:29:58,000
telling her where to go

805
00:30:05,350 --> 00:30:04,789
exactly what to do um in each of those

806
00:30:07,909 --> 00:30:05,360
places

807
00:30:09,350 --> 00:30:07,919
so you know we weren't spending a whole

808
00:30:09,669 --> 00:30:09,360
lot of time together because we had just

809
00:30:12,630 --> 00:30:09,679
met

810
00:30:14,630 --> 00:30:12,640
but she went out on her own into the

811
00:30:17,510 --> 00:30:14,640
areas that i've been working

812
00:30:23,350 --> 00:30:17,520
you know for eight nine years and right

813
00:30:26,549 --> 00:30:23,360

off the bat he started getting fixers

814

00:30:28,630 --> 00:30:26,559

then she had an encounter with a couple

815

00:30:30,549 --> 00:30:28,640

different paranormal type things she

816

00:30:33,350 --> 00:30:30,559

started capturing

817

00:30:34,149 --> 00:30:33,360

paranormal activity in there and some of

818

00:30:35,669 --> 00:30:34,159

these creatures

819

00:30:37,350 --> 00:30:35,679

had nothing to do with big but they

820

00:30:38,870 --> 00:30:37,360

looked really weird and i said all right

821

00:30:42,710 --> 00:30:38,880

something else is going on

822

00:30:44,710 --> 00:30:42,720

here so that's when i started looking at

823

00:30:46,310 --> 00:30:44,720

going deeper trying to figure out if

824

00:30:48,389 --> 00:30:46,320

there were underground caverns

825

00:30:49,830 --> 00:30:48,399

geology work that had been done there

826

00:30:51,110 --> 00:30:49,840

went through the whole lot trying to

827

00:30:54,310 --> 00:30:51,120

figure out

828

00:30:56,950 --> 00:30:54,320

why this place is

829

00:30:58,149 --> 00:30:56,960

uh has this energy you know giving up

830

00:31:02,870 --> 00:30:58,159

this type of energy

831

00:31:06,389 --> 00:31:02,880

um and you know it turns out it wasn't

832

00:31:09,110 --> 00:31:06,399

it revealed the oldest known human

833

00:31:09,750 --> 00:31:09,120

artifacts of a human habitation in a

834

00:31:12,870 --> 00:31:09,760

city

835

00:31:14,789 --> 00:31:12,880

in colorado ever by the university of

836

00:31:18,389 --> 00:31:14,799

denver archaeology

837

00:31:22,470 --> 00:31:18,399

and i had no idea so the so the energy

838

00:31:24,630 --> 00:31:22,480

of this place i feel drawn

839

00:31:26,389 --> 00:31:24,640

um as soon as we started having

840

00:31:29,430 --> 00:31:26,399

[Music]

841

00:31:31,190 --> 00:31:29,440

all of these encounters um we

842

00:31:32,870 --> 00:31:31,200

encountered a thing up there that we did

843

00:31:33,669 --> 00:31:32,880

an investigation on speaking out by

844

00:31:37,190 --> 00:31:33,679

herself and

845

00:31:39,269 --> 00:31:37,200

they're gone they're dust and she saw

846

00:31:39,990 --> 00:31:39,279

this huge black shadow moving behind the

847

00:31:41,509 --> 00:31:40,000

holder

848

00:31:43,029 --> 00:31:41,519

and she couldn't really make it out

849

00:31:43,750 --> 00:31:43,039

because you just took a picture with her

850

00:31:46,870 --> 00:31:43,760

phone

851
00:31:47,190 --> 00:31:46,880
and when you got it home and looked at

852
00:31:50,149 --> 00:31:47,200
it

853
00:31:50,870 --> 00:31:50,159
you had several other people um jason

854
00:31:53,909 --> 00:31:50,880
johnson

855
00:31:56,549 --> 00:31:53,919
uh science some people from crypto four

856
00:31:59,990 --> 00:31:56,559
corners uh did some work on it

857
00:32:03,029 --> 00:32:00,000
and what we saw was a gigantic

858
00:32:05,990 --> 00:32:03,039
10 foot looks like a bigfoot

859
00:32:07,830 --> 00:32:06,000
wearing some kind of necklace um just

860
00:32:10,710 --> 00:32:07,840
standing there smiling at it

861
00:32:11,990 --> 00:32:10,720
he had to lighten it up and so forth and

862
00:32:14,870 --> 00:32:12,000
that became one of our

863
00:32:16,230 --> 00:32:14,880

or her greatest picture up until that

864

00:32:19,269 --> 00:32:16,240

point like i said

865

00:32:23,350 --> 00:32:19,279

i hadn't really experienced that

866

00:32:25,669 --> 00:32:23,360

before so her coming into the area

867

00:32:27,110 --> 00:32:25,679

um kind of changed the whole energy kind

868

00:32:29,750 --> 00:32:27,120

of made me a believer

869

00:32:31,509 --> 00:32:29,760

that you know something else going on

870

00:32:34,630 --> 00:32:31,519

that i needed more

871

00:32:36,310 --> 00:32:34,640

so uh because susan is

872

00:32:38,310 --> 00:32:36,320

involved in the metaphysical community

873

00:32:40,149 --> 00:32:38,320

she has a lot of other women friends and

874

00:32:42,470 --> 00:32:40,159

so forth that are

875

00:32:43,830 --> 00:32:42,480

psychic that three readings like reading

876
00:32:47,190 --> 00:32:43,840
for people

877
00:32:48,310 --> 00:32:47,200
and so we took the pictures to fur and

878
00:32:50,789 --> 00:32:48,320
they said you know

879
00:32:52,549 --> 00:32:50,799
what can you believe and channel this

880
00:32:55,750 --> 00:32:52,559
thing and find out

881
00:32:55,990 --> 00:32:55,760
so he started working with it and right

882
00:32:59,590 --> 00:32:56,000
off

883
00:33:01,669 --> 00:32:59,600
the bat she started telling him um

884
00:33:03,669 --> 00:33:01,679
now keep in mind i'm still an unbeliever

885
00:33:05,669 --> 00:33:03,679
at this point right i'm kind of like the

886
00:33:08,230 --> 00:33:05,679
susan handles the paranormal side and

887
00:33:10,149 --> 00:33:08,240
i'm the facts on the ground kind of guy

888
00:33:11,669 --> 00:33:10,159

i'm the guy that casts the prince and so

889

00:33:14,870 --> 00:33:11,679

forth uh

890

00:33:18,070 --> 00:33:14,880

so anyways during this psychic session

891

00:33:20,470 --> 00:33:18,080

um supposedly this lady

892

00:33:21,350 --> 00:33:20,480

channeling uh this picture this thing

893

00:33:25,669 --> 00:33:21,360

calls himself

894

00:33:26,549 --> 00:33:25,679

mocked um and he started telling us that

895

00:33:29,669 --> 00:33:26,559

his job

896

00:33:31,110 --> 00:33:29,679

is to watch over the hairy ones that's

897

00:33:34,870 --> 00:33:31,120

what he called

898

00:33:38,149 --> 00:33:34,880

john walked over them and

899

00:33:39,830 --> 00:33:38,159

um he says i exist in this world but i

900

00:33:42,630 --> 00:33:39,840

don't

901
00:33:43,590 --> 00:33:42,640
but he isn't a bigfoot and that's the

902
00:33:46,389 --> 00:33:43,600
point of the matter

903
00:33:47,830 --> 00:33:46,399
he kept alluding to the point that his

904
00:33:51,190 --> 00:33:47,840
job is to do that

905
00:33:54,630 --> 00:33:51,200
but he is not what they are

906
00:33:55,269 --> 00:33:54,640
so this is all blowing my mind going

907
00:33:57,750 --> 00:33:55,279
through this

908
00:33:59,830 --> 00:33:57,760
right um but i'm writing it all down and

909
00:34:02,950 --> 00:33:59,840
taking it all in and

910
00:34:05,110 --> 00:34:02,960
he told us that the reason he was there

911
00:34:05,990 --> 00:34:05,120
is he's watching over this younger soft

912
00:34:07,430 --> 00:34:06,000
squat

913
00:34:09,990 --> 00:34:07,440

uh probably the one i had been

914

00:34:13,829 --> 00:34:10,000

interacting with for a number of years

915

00:34:16,470 --> 00:34:13,839

and uh his siblings had died

916

00:34:16,869 --> 00:34:16,480

in the parents that died they got sick

917

00:34:19,589 --> 00:34:16,879

with

918

00:34:21,829 --> 00:34:19,599

plague which goes wrong in eastern

919

00:34:25,109 --> 00:34:21,839

colorado bubonic plague

920

00:34:27,270 --> 00:34:25,119

and they all died and he was very sad

921

00:34:28,149 --> 00:34:27,280

um you know he did just stay in this

922

00:34:29,589 --> 00:34:28,159

cave all been

923

00:34:31,829 --> 00:34:29,599

sleeping he didn't want to come out he

924

00:34:35,109 --> 00:34:31,839

didn't want to live anymore

925

00:34:38,149 --> 00:34:35,119

um and that mott is sent

926
00:34:40,470 --> 00:34:38,159
by his plan of an elder

927
00:34:42,389 --> 00:34:40,480
grandmother i guess he's very worried

928
00:34:44,950 --> 00:34:42,399
about this young softball

929
00:34:47,750 --> 00:34:44,960
because they're trying to find some they

930
00:34:50,230 --> 00:34:47,760
need something happening

931
00:34:51,270 --> 00:34:50,240
so then she gave us an olympic

932
00:34:56,069 --> 00:34:51,280
coordinate

933
00:34:58,790 --> 00:34:56,079
um in an area that

934
00:34:59,990 --> 00:34:58,800
there's supposedly a deep underground

935
00:35:02,310 --> 00:35:00,000
cavern

936
00:35:04,550 --> 00:35:02,320
where when the sasquatch get old or

937
00:35:06,069 --> 00:35:04,560
they're ill they make this journey to

938
00:35:08,950 --> 00:35:06,079

this place where they can

939

00:35:11,349 --> 00:35:08,960

be with their elders due to the old the

940

00:35:13,349 --> 00:35:11,359

old timers till they die

941

00:35:15,109 --> 00:35:13,359

and this is where all the bones is just

942

00:35:17,829 --> 00:35:15,119

for the bones if we were to find them to

943

00:35:20,950 --> 00:35:17,839

find them but it could be anywhere over

944

00:35:22,230 --> 00:35:20,960

thousands of back country miles in that

945

00:35:24,950 --> 00:35:22,240

rampart range area which

946

00:35:27,190 --> 00:35:24,960

is just caves everywhere so it could be

947

00:35:28,710 --> 00:35:27,200

absolutely anywhere

948

00:35:31,190 --> 00:35:28,720

that's a little bit more interesting

949

00:35:33,109 --> 00:35:31,200

thing uh you know they kind of changed

950

00:35:36,390 --> 00:35:33,119

my paradigms

951
00:35:38,630 --> 00:35:36,400
on the paranormal but at the same time i

952
00:35:40,550 --> 00:35:38,640
have to stay grounded so i do not

953
00:35:45,109 --> 00:35:40,560
believe mark doesn't believe

954
00:35:47,270 --> 00:35:45,119
that there is an alien uh connection nor

955
00:35:48,950 --> 00:35:47,280
they can open portal i don't believe

956
00:35:49,990 --> 00:35:48,960
they can be portals nothing they just

957
00:35:52,230 --> 00:35:50,000
don't

958
00:35:53,990 --> 00:35:52,240
i think they are living harmonies and

959
00:35:56,069 --> 00:35:54,000
they have ale protected by an infestable

960
00:35:59,589 --> 00:35:56,079
spirit

961
00:36:01,750 --> 00:35:59,599
i know it sounds very indian sure

962
00:36:02,950 --> 00:36:01,760
yeah you know basically to me that's

963
00:36:08,470 --> 00:36:02,960

what they are

964

00:36:13,270 --> 00:36:11,190

and that goes along with a lot of tales

965

00:36:15,910 --> 00:36:13,280

of the sasquatch or when to go

966

00:36:18,550 --> 00:36:15,920

and i mean the the the sightings and

967

00:36:19,750 --> 00:36:18,560

accounts worldwide i mean from zimbabwe

968

00:36:22,470 --> 00:36:19,760

the agaway the

969

00:36:24,069 --> 00:36:22,480

mongolia they have the alma sumatra has

970

00:36:27,589 --> 00:36:24,079

a rangpendik

971

00:36:30,230 --> 00:36:27,599

skunk ape in the you know southern us

972

00:36:31,750 --> 00:36:30,240

they're everywhere you always thought if

973

00:36:33,109 --> 00:36:31,760

we're going to make this work and we're

974

00:36:35,990 --> 00:36:33,119

going to answer that question

975

00:36:37,829 --> 00:36:36,000

about the worldwide drama then

976
00:36:38,710 --> 00:36:37,839
archaeology has to be playing a

977
00:36:40,870 --> 00:36:38,720
partnership because

978
00:36:42,069 --> 00:36:40,880
otherwise science just gets thrown to

979
00:36:43,829 --> 00:36:42,079
its wayside

980
00:36:45,430 --> 00:36:43,839
this is truly the case and they're in

981
00:36:45,990 --> 00:36:45,440
they're basically in south africa and

982
00:36:49,030 --> 00:36:46,000
others like

983
00:36:50,710 --> 00:36:49,040
this this means that hominins survive

984
00:36:52,790 --> 00:36:50,720
in different locations around the world

985
00:36:54,390 --> 00:36:52,800
and there's different variations

986
00:36:55,829 --> 00:36:54,400
but the only way this issue is going to

987
00:36:58,069 --> 00:36:55,839
work is they would have had to go

988
00:36:59,750 --> 00:36:58,079

underground considering natural

989

00:37:02,150 --> 00:36:59,760

disasters climate change

990

00:37:03,990 --> 00:37:02,160

wars every in order to make this plague

991

00:37:07,190 --> 00:37:04,000

they would have had to go

992

00:37:10,870 --> 00:37:07,200

into underground caverns and then

993

00:37:14,550 --> 00:37:14,150

to hunt um that's the only way because

994

00:37:18,310 --> 00:37:14,560

this

995

00:37:20,710 --> 00:37:18,320

i feel

996

00:37:22,630 --> 00:37:20,720

that you've had some moroccan things

997

00:37:23,430 --> 00:37:22,640

some mothers did in colorado because you

998

00:37:25,829 --> 00:37:23,440

have the

999

00:37:27,270 --> 00:37:25,839

high amount of caves and underground

1000

00:37:30,470 --> 00:37:27,280

caverns

1001
00:37:32,069 --> 00:37:30,480
along the front range anyways

1002
00:37:33,829 --> 00:37:32,079
and i tell you that's that's what

1003
00:37:35,750 --> 00:37:33,839
happened you know the

1004
00:37:37,510 --> 00:37:35,760
the big one that i saw she looked like a

1005
00:37:39,430 --> 00:37:37,520
big on my first side and she looked like

1006
00:37:41,190 --> 00:37:39,440
a big big family her face would

1007
00:37:42,630 --> 00:37:41,200
look like she had her hair pulled back

1008
00:37:44,390 --> 00:37:42,640
that's another issue

1009
00:37:46,150 --> 00:37:44,400
like the woman pulls her hair back like

1010
00:37:49,109 --> 00:37:46,160
it was tied back

1011
00:37:50,550 --> 00:37:49,119
and she had the that hominin almost

1012
00:37:54,150 --> 00:37:50,560
enabled facebook

1013
00:37:55,270 --> 00:37:54,160

but the eyes were pretty big and i said

1014

00:37:57,109 --> 00:37:55,280

you know i thought to myself

1015

00:37:58,550 --> 00:37:57,119

those eyes look at the size of those

1016

00:38:00,390 --> 00:37:58,560

eyes that's

1017

00:38:02,069 --> 00:38:00,400

that's what the neanderthals and that

1018

00:38:04,390 --> 00:38:02,079

was because they needed to

1019

00:38:05,109 --> 00:38:04,400

bring in as much light in the dark to

1020

00:38:07,750 --> 00:38:05,119

see

1021

00:38:08,710 --> 00:38:07,760

especially being underground in a cage

1022

00:38:12,150 --> 00:38:08,720

or something

1023

00:38:12,950 --> 00:38:12,160

this is huge eyes it can just bring in

1024

00:38:15,750 --> 00:38:12,960

the light

1025

00:38:18,870 --> 00:38:15,760

which is another thing that freaked me

1026

00:38:21,670 --> 00:38:18,880

out when i saw that

1027

00:38:23,670 --> 00:38:21,680

yeah and they are they seem to have this

1028

00:38:25,750 --> 00:38:23,680

night vision that you're talking about

1029

00:38:26,870 --> 00:38:25,760

and you know with with sightings in all

1030

00:38:28,870 --> 00:38:26,880

these places and

1031

00:38:30,150 --> 00:38:28,880

it seems like there's different sizes of

1032

00:38:33,270 --> 00:38:30,160

them uh

1033

00:38:35,190 --> 00:38:33,280

and and in different parts of the world

1034

00:38:37,430 --> 00:38:35,200

it seems like they should be there in

1035

00:38:38,150 --> 00:38:37,440

the genetic chain i mean it's a big jump

1036

00:38:40,470 --> 00:38:38,160

from

1037

00:38:41,910 --> 00:38:40,480

like the orangutan to us or to the chimp

1038

00:38:43,430 --> 00:38:41,920

from the chimpanzee to us

1039

00:38:44,550 --> 00:38:43,440

it really does seem like they're the

1040

00:38:46,470 --> 00:38:44,560

missing link and they should be

1041

00:38:50,230 --> 00:38:46,480

somewhere in the chain of uh

1042

00:38:53,270 --> 00:38:50,240

real species well

1043

00:38:55,589 --> 00:38:53,280

you know that's a that's a huge

1044

00:38:57,349 --> 00:38:55,599

long discussion right there on on who's

1045

00:38:59,910 --> 00:38:57,359

preventing it

1046

00:39:00,790 --> 00:38:59,920

because there are powers that don't want

1047

00:39:03,270 --> 00:39:00,800

it out

1048

00:39:04,550 --> 00:39:03,280

there for a lot of reasons you know even

1049

00:39:07,829 --> 00:39:04,560

if you were to

1050

00:39:11,190 --> 00:39:07,839

have been chatted by park rangers

1051

00:39:14,230 --> 00:39:11,200

uh or you know convincing

1052

00:39:17,030 --> 00:39:14,240

wildlife people and so forth

1053

00:39:17,589 --> 00:39:17,040

you know that as far as you the harder

1054

00:39:24,230 --> 00:39:17,599

that you

1055

00:39:27,430 --> 00:39:25,990

somebody doesn't want that they don't

1056

00:39:30,150 --> 00:39:27,440

want them to

1057

00:39:32,069 --> 00:39:30,160

because you know i had a guy when i

1058

00:39:34,710 --> 00:39:32,079

worked forabela's collins and park

1059

00:39:37,190 --> 00:39:34,720

ranger and he didn't tell me

1060

00:39:38,310 --> 00:39:37,200

he'd made the comments that if the

1061

00:39:41,349 --> 00:39:38,320

government truly

1062

00:39:45,109 --> 00:39:41,359

was protecting and doesn't want

1063

00:39:48,230 --> 00:39:45,119

them exposed because of too far

1064

00:39:51,030 --> 00:39:48,240

they've gone to evolve too far into

1065

00:39:51,910 --> 00:39:51,040

the animal kingdom to be able to attack

1066

00:39:55,510 --> 00:39:51,920

there

1067

00:39:59,270 --> 00:39:57,670

and that's pretty much true they you

1068

00:40:02,150 --> 00:39:59,280

know they

1069

00:40:04,870 --> 00:40:02,160

they talk someone used to say they left

1070

00:40:06,710 --> 00:40:04,880

they weren't left and we weren't right

1071

00:40:09,349 --> 00:40:06,720

so that's why they don't use fire but

1072

00:40:11,589 --> 00:40:09,359

they have our intelligence

1073

00:40:12,390 --> 00:40:11,599

and at least enough to hide from us to

1074

00:40:17,910 --> 00:40:12,400

hide from

1075

00:40:21,750 --> 00:40:20,150

and do you think how would the world

1076

00:40:25,030 --> 00:40:21,760

change or how would the public

1077

00:40:27,270 --> 00:40:25,040

take it if it was proven true

1078

00:40:29,829 --> 00:40:27,280

and these these things haven't have

1079

00:40:32,150 --> 00:40:29,839

evolved these have evolved much past us

1080

00:40:33,670 --> 00:40:32,160

how how would a i i could see how there

1081

00:40:35,510 --> 00:40:33,680

would be sort of an uproar

1082

00:40:37,670 --> 00:40:35,520

you know if something like this was made

1083

00:40:41,109 --> 00:40:37,680

public that these really did exist

1084

00:40:45,589 --> 00:40:41,119

how do you think the public would react

1085

00:40:48,309 --> 00:40:45,599

well let me give you an example

1086

00:40:50,230 --> 00:40:48,319

i have one particular grave we just had

1087

00:40:52,870 --> 00:40:50,240

our eye on for a number of years now

1088

00:40:54,470 --> 00:40:52,880

in one of our high flooding areas in in

1089

00:40:56,950 --> 00:40:54,480

our best area

1090

00:40:57,990 --> 00:40:56,960

this thing measures about 10 feet in

1091

00:41:01,109 --> 00:40:58,000

length

1092

00:41:03,190 --> 00:41:01,119

and um

1093

00:41:04,150 --> 00:41:03,200

width and height and stuff you know it's

1094

00:41:07,109 --> 00:41:04,160

it's huge

1095

00:41:09,589 --> 00:41:07,119

it's in the shape of a bigfoot it looks

1096

00:41:11,990 --> 00:41:09,599

like a bigfoot was very they're

1097

00:41:12,870 --> 00:41:12,000

maybe this is one of the ones that died

1098

00:41:15,270 --> 00:41:12,880

problem is

1099

00:41:16,630 --> 00:41:15,280

and it's got logs and wood rocks going

1100

00:41:18,630 --> 00:41:16,640

and mixed in the dirt and stuff

1101

00:41:20,230 --> 00:41:18,640

you can clearly see that it's a very

1102

00:41:29,190 --> 00:41:20,240

large something that's buried in

1103

00:41:35,750 --> 00:41:33,270

but they could lock me up because if

1104

00:41:36,710 --> 00:41:35,760

you have kind of law and you have it's

1105

00:41:40,550 --> 00:41:36,720

clm law

1106

00:41:42,230 --> 00:41:40,560

you have to take it so you'll find a way

1107

00:41:44,710 --> 00:41:42,240

there's nothing really that i can do

1108

00:41:47,030 --> 00:41:44,720

about that right now

1109

00:41:48,710 --> 00:41:47,040

just sit on the gps but nowhere it's not

1110

00:41:51,750 --> 00:41:48,720

because if i

1111

00:41:54,870 --> 00:41:51,760

if i dig it up i'd be in big trouble

1112

00:41:57,510 --> 00:41:54,880

you know they

1113

00:41:59,670 --> 00:41:57,520

the the problem right now is that i

1114

00:42:01,430 --> 00:41:59,680

found when i went to

1115

00:42:03,270 --> 00:42:01,440

the university of denver archaeology

1116

00:42:05,910 --> 00:42:03,280

department

1117

00:42:07,910 --> 00:42:05,920

looking for caverns and any information

1118

00:42:10,630 --> 00:42:07,920

that could come on that park

1119

00:42:11,910 --> 00:42:10,640

there's nobody there they couldn't even

1120

00:42:16,150 --> 00:42:11,920

find anybody to help

1121

00:42:18,150 --> 00:42:16,160

just a ghost and they

1122

00:42:19,670 --> 00:42:18,160

one person i did find to help me at the

1123

00:42:21,510 --> 00:42:19,680

university there

1124

00:42:23,109 --> 00:42:21,520

uh you know pointing me to the library

1125

00:42:26,230 --> 00:42:23,119

of course but

1126

00:42:28,390 --> 00:42:26,240

basically said yeah nobody takes the

1127

00:42:29,750 --> 00:42:28,400

classes anymore they don't make any

1128

00:42:31,270 --> 00:42:29,760

money in arctic archeology

1129

00:42:32,390 --> 00:42:31,280

all the students go over to theology

1130

00:42:33,990 --> 00:42:32,400

because they can go to work for oil

1131

00:42:36,470 --> 00:42:34,000

companies you know after they

1132

00:42:37,910 --> 00:42:36,480

graduate because nobody makes money

1133

00:42:38,390 --> 00:42:37,920

going and looking for bones anymore

1134

00:42:39,829 --> 00:42:38,400

because

1135

00:42:41,510 --> 00:42:39,839

we have very few students in the

1136

00:42:45,109 --> 00:42:41,520

archaeology department

1137

00:42:46,950 --> 00:42:45,119

which told me that that's probably a

1138

00:42:49,349 --> 00:42:46,960

nationwide issue

1139

00:42:50,630 --> 00:42:49,359

and it's not you don't make any money

1140

00:42:52,790 --> 00:42:50,640

doing it you have to apply for

1141

00:42:55,109 --> 00:42:52,800

government grants 50 bid

1142

00:42:56,069 --> 00:42:55,119

you have to get permits if there was

1143

00:42:58,390 --> 00:42:56,079

ever an indian

1144

00:43:04,230 --> 00:42:58,400

even living on it but they documented

1145

00:43:07,990 --> 00:43:05,430

[Music]

1146

00:43:08,790 --> 00:43:08,000

i know i have places where i know

1147

00:43:11,030 --> 00:43:08,800

something can

1148

00:43:13,510 --> 00:43:11,040

maybe be there but i can't that's what

1149

00:43:15,670 --> 00:43:13,520

we did right now

1150

00:43:16,870 --> 00:43:15,680

absolutely and there's a lot of legends

1151

00:43:19,510 --> 00:43:16,880

i like uh

1152

00:43:20,069 --> 00:43:19,520

the ancestral spirit things that you

1153

00:43:22,390 --> 00:43:20,079

mentioned

1154

00:43:24,150 --> 00:43:22,400

there's a lot of legends of that that

1155

00:43:26,390 --> 00:43:24,160

are similar it said

1156

00:43:27,829 --> 00:43:26,400

many say that bigfoot and dogs don't get

1157

00:43:29,109 --> 00:43:27,839

along that goes with both of those

1158

00:43:30,790 --> 00:43:29,119

legends with the

1159

00:43:32,870 --> 00:43:30,800

sasquatch and the windigo have you had

1160

00:43:36,390 --> 00:43:32,880

any examples or experiences with

1161

00:43:40,069 --> 00:43:36,400

animals that go along those lines

1162

00:43:42,150 --> 00:43:40,079

sure it's my um if you mean like sea

1163

00:43:42,630 --> 00:43:42,160

animals missing farm animals that's all

1164

00:43:46,309 --> 00:43:42,640

part of

1165

00:43:47,670 --> 00:43:46,319

my investigation is that what we mean

1166

00:43:49,990 --> 00:43:47,680

like that where they're taking

1167

00:43:51,190 --> 00:43:50,000

uh animals right you hear about it all

1168

00:43:53,670 --> 00:43:51,200

the times chickens

1169

00:43:55,349 --> 00:43:53,680

ducks pigs other livestock have you come

1170

00:43:58,150 --> 00:43:55,359

across that as well

1171

00:43:59,670 --> 00:43:58,160

oh yeah sure the the original first

1172

00:44:01,349 --> 00:43:59,680

place i keep talking about where

1173

00:44:03,589 --> 00:44:01,359

all of this began for me in that state

1174

00:44:04,790 --> 00:44:03,599

park it sits down on eastern colorado

1175

00:44:07,349 --> 00:44:04,800

and there's some farms

1176
00:44:09,430 --> 00:44:07,359
branches around there and so forth one

1177
00:44:11,910 --> 00:44:09,440
of the first reports i ran across was a

1178
00:44:14,309 --> 00:44:11,920
massive coyote kill back in the 80s

1179
00:44:16,309 --> 00:44:14,319
um in the area and it encompassed almost

1180
00:44:18,150 --> 00:44:16,319
into another county

1181
00:44:19,750 --> 00:44:18,160
and somebody had just gone through and

1182
00:44:21,430 --> 00:44:19,760
just slaughtered coyotes and they didn't

1183
00:44:23,270 --> 00:44:21,440
do it with a gun they ripped the hats

1184
00:44:24,630 --> 00:44:23,280
off and just slaughter them they report

1185
00:44:27,670 --> 00:44:24,640
them to people

1186
00:44:28,790 --> 00:44:27,680
so anybody anybody who knows anything i

1187
00:44:31,349 --> 00:44:28,800
knew it was a bigfoot

1188
00:44:32,309 --> 00:44:31,359

so at that time in douglas town here in

1189

00:44:34,630 --> 00:44:32,319

colorado

1190

00:44:36,150 --> 00:44:34,640

it should kind of reflect at that time

1191

00:44:37,430 --> 00:44:36,160

you didn't know the call there was

1192

00:44:39,430 --> 00:44:37,440

really no

1193

00:44:41,190 --> 00:44:39,440

input organizations really that he could

1194

00:44:41,990 --> 00:44:41,200

locate in colorado at that time so he

1195

00:44:44,630 --> 00:44:42,000

called

1196

00:44:46,790 --> 00:44:44,640

oregon bigfoot researchers organizations

1197

00:44:50,390 --> 00:44:46,800

i don't know oregon and they came out

1198

00:44:52,390 --> 00:44:50,400

and just you know did a basic cfr report

1199

00:44:54,309 --> 00:44:52,400

looked around a little bit and did the

1200

00:44:56,870 --> 00:44:54,319

report on it but but then every occurs

1201

00:44:59,910 --> 00:44:56,880

like every 10 to 12 years or so

1202

00:45:01,510 --> 00:44:59,920

um they do that they go through and it

1203

00:45:02,790 --> 00:45:01,520

could be because the coyotes are getting

1204

00:45:04,550 --> 00:45:02,800

too overpopulated

1205

00:45:07,030 --> 00:45:04,560

and it's affecting them so they just go

1206

00:45:10,550 --> 00:45:07,040

through and kill them all

1207

00:45:13,589 --> 00:45:10,560

but in the same uh genre

1208

00:45:13,990 --> 00:45:13,599

or in the same area susan when she came

1209

00:45:16,630 --> 00:45:14,000

on

1210

00:45:19,349 --> 00:45:16,640

uh susan worked at the veterinary

1211

00:45:21,670 --> 00:45:19,359

hospital in the little neighboring town

1212

00:45:23,670 --> 00:45:21,680

the service of all friends and supports

1213

00:45:26,870 --> 00:45:23,680

around this game

1214

00:45:29,589 --> 00:45:26,880

and if you know anything that came

1215

00:45:29,990 --> 00:45:29,599

in that was unusual she would be the

1216

00:45:33,030 --> 00:45:30,000

first

1217

00:45:35,510 --> 00:45:33,040

spirit um so

1218

00:45:36,309 --> 00:45:35,520

a guy or a woman brought in a very large

1219

00:45:40,150 --> 00:45:36,319

dog

1220

00:45:43,109 --> 00:45:40,160

primates he couldn't walk

1221

00:45:44,150 --> 00:45:43,119

uh so they got dogged in there and susan

1222

00:45:47,270 --> 00:45:44,160

asked the

1223

00:45:49,589 --> 00:45:47,280

uh you know the lady what happened and

1224

00:45:50,309 --> 00:45:49,599

he said the dogs it was at night you

1225

00:45:53,510 --> 00:45:50,319

know the dog

1226
00:45:56,309 --> 00:45:53,520
took off to the edge of the property um

1227
00:45:57,030 --> 00:45:56,319
after something and they were barking

1228
00:45:59,750 --> 00:45:57,040
over there

1229
00:46:02,150 --> 00:45:59,760
and then he took the one dollar back

1230
00:46:05,270 --> 00:46:02,160
that they have over someone were calling

1231
00:46:07,270 --> 00:46:05,280
the other dog didn't and they said

1232
00:46:08,950 --> 00:46:07,280
it was a fair and they started they said

1233
00:46:11,349 --> 00:46:08,960
they started hearing towels

1234
00:46:11,990 --> 00:46:11,359
up in the canyon because then you

1235
00:46:13,430 --> 00:46:12,000
started getting

1236
00:46:15,430 --> 00:46:13,440
weird how it's good you just thought it

1237
00:46:17,510 --> 00:46:15,440
was a bear we thought we saw a black

1238
00:46:20,309 --> 00:46:17,520

saddle or something he'd grab

1239

00:46:21,349 --> 00:46:20,319

so he's a pretty big dunk he'd find it

1240

00:46:25,589 --> 00:46:21,359

there

1241

00:46:27,829 --> 00:46:25,599

so about an hour or so later he's gone

1242

00:46:29,109 --> 00:46:27,839

back and he was driving his rear high

1243

00:46:32,550 --> 00:46:29,119

leg you can walk

1244

00:46:35,030 --> 00:46:32,560

um so after that second hour

1245

00:46:35,589 --> 00:46:35,040

there was no signs of animal scratches

1246

00:46:37,430 --> 00:46:35,599

fight

1247

00:46:38,790 --> 00:46:37,440

anything like that that the bear would

1248

00:46:42,309 --> 00:46:38,800

do you know there

1249

00:46:45,589 --> 00:46:42,319

is a claw it's going to leave something

1250

00:46:48,470 --> 00:46:45,599

uh nothing um so

1251

00:46:50,309 --> 00:46:48,480

the veterinarian uh the vet said it

1252

00:46:53,109 --> 00:46:50,319

appears that

1253

00:46:54,470 --> 00:46:53,119

somebody squeezed him a little too tight

1254

00:46:57,430 --> 00:46:54,480

he's going to recover

1255

00:46:58,950 --> 00:46:57,440

he's going to but he didn't break his

1256

00:47:00,309 --> 00:46:58,960

back he goes but he

1257

00:47:02,309 --> 00:47:00,319

appears that something picked him up and

1258

00:47:05,030 --> 00:47:02,319

squeaked and keeps fight

1259

00:47:06,950 --> 00:47:05,040

at that point me and susan knew exactly

1260

00:47:10,150 --> 00:47:06,960

who was responsible for that

1261

00:47:11,750 --> 00:47:10,160

and um and so

1262

00:47:13,190 --> 00:47:11,760

that was one way of confirmation of

1263

00:47:15,109 --> 00:47:13,200

knowing that you still had a guy that's

1264

00:47:16,309 --> 00:47:15,119

still alive in that area

1265

00:47:18,150 --> 00:47:16,319

he's probably one of the little

1266

00:47:21,030 --> 00:47:18,160

juveniles um

1267

00:47:22,309 --> 00:47:21,040

that i've caught on video a couple times

1268

00:47:25,270 --> 00:47:22,319

and he's grown

1269

00:47:28,870 --> 00:47:25,280

and he's causing a little bit of trouble

1270

00:47:31,589 --> 00:47:28,880

around there with some of the ranchers

1271

00:47:33,270 --> 00:47:31,599

i'm okay with because it lets me know

1272

00:47:36,150 --> 00:47:33,280

you know when i'm looking for data

1273

00:47:37,589 --> 00:47:36,160

all the time that something happened out

1274

00:47:39,190 --> 00:47:37,599

there cool that's great i mean

1275

00:47:42,630 --> 00:47:39,200

somebody's still alive and

1276

00:47:45,750 --> 00:47:42,640

you're taking it out wow

1277

00:47:46,470 --> 00:47:45,760

and and the other one didn't come back

1278

00:47:49,910 --> 00:47:46,480

you hear this

1279

00:47:51,990 --> 00:47:49,920

all the time it it's pretty obvious that

1280

00:47:53,190 --> 00:47:52,000

these things have the power to do

1281

00:47:55,349 --> 00:47:53,200

whatever they want

1282

00:47:57,349 --> 00:47:55,359

have you ever come across any areas or

1283

00:48:00,309 --> 00:47:57,359

sites where you've seen

1284

00:48:00,710 --> 00:48:00,319

tools or remnants of archaeological type

1285

00:48:05,030 --> 00:48:00,720

things

1286

00:48:06,790 --> 00:48:05,040

ever come across tools or artifacts

1287

00:48:08,630 --> 00:48:06,800

oh yes in fact i have a whole chapter

1288

00:48:10,630 --> 00:48:08,640

going on with this um

1289

00:48:12,870 --> 00:48:10,640

some of the structural areas that you

1290

00:48:15,750 --> 00:48:12,880

need in this town

1291

00:48:17,910 --> 00:48:15,760

we find hand at he's particularly good

1292

00:48:18,950 --> 00:48:17,920

at finding these things because he has a

1293

00:48:21,190 --> 00:48:18,960

bigger study

1294

00:48:21,990 --> 00:48:21,200

background in the natural policy than i

1295

00:48:23,349 --> 00:48:22,000

do um

1296

00:48:25,349 --> 00:48:23,359

you know i was just the guy who carried

1297

00:48:28,790 --> 00:48:25,359

a gun for a long time

1298

00:48:31,030 --> 00:48:28,800

guys uh she has a richer background

1299

00:48:31,829 --> 00:48:31,040

he's always looking for southwestern

1300

00:48:34,950 --> 00:48:31,839

most used

1301

00:48:35,589 --> 00:48:34,960

um the aztecs when we're out in the

1302

00:48:38,870 --> 00:48:35,599

rockies

1303

00:48:39,670 --> 00:48:38,880

other types of events fine points and

1304

00:48:41,990 --> 00:48:39,680

arrowheads

1305

00:48:43,430 --> 00:48:42,000

and how the hell did you find that you

1306

00:48:45,190 --> 00:48:43,440

know i mean you just got an eye like a

1307

00:48:54,950 --> 00:48:45,200

heart for this stuff

1308

00:48:58,950 --> 00:48:57,270

a number of things like that um i

1309

00:49:02,230 --> 00:48:58,960

remember you know

1310

00:49:03,670 --> 00:49:02,240

it's a giant in his big red video you're

1311

00:49:05,510 --> 00:49:03,680

a breaking news

1312

00:49:06,870 --> 00:49:05,520

you know it's something we have out here

1313

00:49:09,030 --> 00:49:06,880

and there's struggles

1314

00:49:10,309 --> 00:49:09,040

and coins and it actually and they grow

1315

00:49:12,630 --> 00:49:10,319

everywhere

1316

00:49:14,549 --> 00:49:12,640

um we have found where they gather cells

1317

00:49:16,710 --> 00:49:14,559

and use these hand

1318

00:49:18,230 --> 00:49:16,720

to break open you know different various

1319

00:49:21,589 --> 00:49:18,240

nuts and so forth

1320

00:49:23,270 --> 00:49:21,599

um and also it appears that they use

1321

00:49:24,309 --> 00:49:23,280

them to break branches

1322

00:49:27,190 --> 00:49:24,319

like when they're building these

1323

00:49:29,589 --> 00:49:27,200

structures instead of using a human hat

1324

00:49:31,109 --> 00:49:29,599

you're using a big rock that's sharpened

1325

00:49:33,910 --> 00:49:31,119

on one side like

1326

00:49:35,750 --> 00:49:33,920

like to make splints and i'm like oh you

1327

00:49:37,510 --> 00:49:35,760

know why would a human be them would you

1328

00:49:39,190 --> 00:49:37,520

area acted if they're going to put this

1329

00:49:42,069 --> 00:49:39,200

thing together

1330

00:49:42,710 --> 00:49:42,079

um so it's we do find those we save a

1331

00:49:45,910 --> 00:49:42,720

lot of them

1332

00:49:49,589 --> 00:49:45,920

uh just as mementos you know but

1333

00:49:52,390 --> 00:49:49,599

you can clearly tell when a uh

1334

00:49:53,270 --> 00:49:52,400

then a hand axe has been shipped to give

1335

00:49:54,630 --> 00:49:53,280

it a sharp edge

1336

00:49:56,309 --> 00:49:54,640

kind of like making a flint in the

1337

00:49:57,270 --> 00:49:56,319

arrowhead you can see the tits where

1338

00:50:00,230 --> 00:49:57,280

it's been done

1339

00:50:01,349 --> 00:50:00,240

now whether those were done by a

1340

00:50:04,790 --> 00:50:01,359

sasquatch or

1341

00:50:07,430 --> 00:50:04,800

if just a community by who knows

1342

00:50:09,270 --> 00:50:07,440

in colorado but we've seen them if it's

1343

00:50:11,270 --> 00:50:09,280

in an area where we're having

1344

00:50:12,950 --> 00:50:11,280

big productivity then obviously they're

1345

00:50:15,510 --> 00:50:12,960

using

1346

00:50:16,710 --> 00:50:15,520

and then like i said we had found the

1347

00:50:19,190 --> 00:50:16,720

rock stack

1348

00:50:20,790 --> 00:50:19,200

up there where that was on that clip and

1349

00:50:21,430 --> 00:50:20,800

those locks that were stacked weren't

1350

00:50:30,150 --> 00:50:21,440

like

1351
00:50:31,349 --> 00:50:30,160
you could get uh that's stuff you could

1352
00:50:33,510 --> 00:50:31,359
really start

1353
00:50:36,069 --> 00:50:33,520
you cut and you make it easy to cut open

1354
00:50:39,270 --> 00:50:38,069
so i'm absolutely sure they're doing

1355
00:50:40,870 --> 00:50:39,280
everything

1356
00:50:43,190 --> 00:50:40,880
that we learned in college or in high

1357
00:50:44,150 --> 00:50:43,200
school about hominin about hominology

1358
00:50:48,390 --> 00:50:44,160
about

1359
00:50:50,870 --> 00:50:48,400
uh neanderthals um homo erectus

1360
00:50:53,030 --> 00:50:50,880
my favorite is omaha but venus and spain

1361
00:50:56,870 --> 00:50:53,040
because they were using axes

1362
00:50:58,549 --> 00:50:56,880
at that time you could have boned in um

1363
00:51:01,510 --> 00:50:58,559

in spain there were where they

1364

00:51:04,630 --> 00:51:01,520

discovered with neanderthal

1365

00:51:05,589 --> 00:51:04,640

with homophobic dentists they found a

1366

00:51:07,109 --> 00:51:05,599

crystallic

1367

00:51:09,589 --> 00:51:07,119

they were using coarse crystal pink

1368

00:51:13,589 --> 00:51:09,599

crystal splinting it and making

1369

00:51:19,990 --> 00:51:17,190

yeah that early comment and

1370

00:51:20,950 --> 00:51:20,000

had ritual and death you know they threw

1371

00:51:22,870 --> 00:51:20,960

them in the pit

1372

00:51:24,790 --> 00:51:22,880

down there and then would throw items

1373

00:51:25,670 --> 00:51:24,800

like that to bury their death with the

1374

00:51:27,109 --> 00:51:25,680

items

1375

00:51:29,030 --> 00:51:27,119

which probably belong to the one that

1376

00:51:30,470 --> 00:51:29,040

died and that's

1377

00:51:32,710 --> 00:51:30,480

that's kind of telling you know how

1378

00:51:34,870 --> 00:51:32,720

common in the world

1379

00:51:36,309 --> 00:51:34,880

and that i don't feel it's any different

1380

00:51:38,950 --> 00:51:36,319

from um

1381

00:51:40,230 --> 00:51:38,960

bigfoot if there is nothing in north

1382

00:51:41,589 --> 00:51:40,240

america they're

1383

00:51:42,950 --> 00:51:41,599

they're disposing of the dead in a

1384

00:51:44,470 --> 00:51:42,960

similar way i don't believe that they're

1385

00:51:50,549 --> 00:51:44,480

eating

1386

00:51:53,109 --> 00:51:50,559

they're dead they'd be any more of a

1387

00:51:53,990 --> 00:51:53,119

yeah there'd be more evidence of that i

1388

00:51:57,190 --> 00:51:54,000

would think

1389

00:51:59,030 --> 00:51:57,200

you know then it seems like

1390

00:52:00,710 --> 00:51:59,040

you know when you do look at some people

1391

00:52:01,430 --> 00:52:00,720

are just going to disbelieve no matter

1392

00:52:03,589 --> 00:52:01,440

what

1393

00:52:04,549 --> 00:52:03,599

but when you look at all of the evidence

1394

00:52:07,589 --> 00:52:04,559

whether it's hair

1395

00:52:10,230 --> 00:52:07,599

foot castings video worldwide reports

1396

00:52:11,190 --> 00:52:10,240

there's you know all kinds of anecdotal

1397

00:52:14,870 --> 00:52:11,200

evidence

1398

00:52:17,990 --> 00:52:14,880

artifacts etc

1399

00:52:20,309 --> 00:52:18,000

there really is something going on

1400

00:52:21,510 --> 00:52:20,319

and and it's hard to kind of put your

1401
00:52:22,150 --> 00:52:21,520
finger on that but i think you're

1402
00:52:25,349 --> 00:52:22,160
getting

1403
00:52:29,430 --> 00:52:25,359
a lot of reliable evidence

1404
00:52:32,710 --> 00:52:29,440
well in his opinion um with that

1405
00:52:34,950 --> 00:52:32,720
like i said i'm pretty much a

1406
00:52:36,390 --> 00:52:34,960
boots on the ground kind of guy i'm when

1407
00:52:38,150 --> 00:52:36,400
i hit the field the first thing i'm

1408
00:52:39,829 --> 00:52:38,160
doing is i'm looking at the ground i'm

1409
00:52:41,910 --> 00:52:39,839
reading the ground for prince

1410
00:52:43,910 --> 00:52:41,920
that's going to be my first time if

1411
00:52:46,069 --> 00:52:43,920
there's a teepee me off in the distance

1412
00:52:47,829 --> 00:52:46,079
i'm going to give that a second

1413
00:52:49,750 --> 00:52:47,839

but now you know i'm not going to give

1414

00:52:51,589 --> 00:52:49,760

it a second i'm not going to bother with

1415

00:52:53,430 --> 00:52:51,599

it until i finish with the prince

1416

00:52:55,349 --> 00:52:53,440

because that's going to be your overall

1417

00:52:59,510 --> 00:52:55,359

active truth

1418

00:53:01,109 --> 00:52:59,520

um mixed with

1419

00:53:03,109 --> 00:53:01,119

if something's moving in a straight line

1420

00:53:05,109 --> 00:53:03,119

and have 15 assists in spring

1421

00:53:07,190 --> 00:53:05,119

and even though this soil is hard in

1422

00:53:08,390 --> 00:53:07,200

colorado it's going to be a software

1423

00:53:11,589 --> 00:53:08,400

it's going to be

1424

00:53:14,150 --> 00:53:11,599

they hit the ground really hard and

1425

00:53:15,430 --> 00:53:14,160

um even in a hard soil in the rocky

1426
00:53:16,549 --> 00:53:15,440
mountains you still get pretty good

1427
00:53:18,390 --> 00:53:16,559
frankie you can see

1428
00:53:19,910 --> 00:53:18,400
bunions and you can see the things that

1429
00:53:22,069 --> 00:53:19,920
women make

1430
00:53:22,950 --> 00:53:22,079
you know that this is true this is

1431
00:53:25,990 --> 00:53:22,960
really true

1432
00:53:26,470 --> 00:53:26,000
and again i'm not the only asia out

1433
00:53:36,630 --> 00:53:26,480
there

1434
00:53:38,790 --> 00:53:36,640
phenomenal or phenomenal and uh

1435
00:53:39,750 --> 00:53:38,800
you know so a lot of us share data over

1436
00:53:41,990 --> 00:53:39,760
the years also

1437
00:53:44,309 --> 00:53:42,000
and we know we've been to each other's

1438
00:53:46,790 --> 00:53:44,319

areas sometimes we've uh

1439

00:53:48,150 --> 00:53:46,800

we've been on outings together and so

1440

00:53:51,030 --> 00:53:48,160

all of that data

1441

00:53:52,150 --> 00:53:51,040

that is colorado is not it's not just me

1442

00:53:53,670 --> 00:53:52,160

it's you know it's the other

1443

00:53:56,710 --> 00:53:53,680

researchers that were in contact with

1444

00:53:59,109 --> 00:53:56,720

you just the communities are hard

1445

00:54:00,950 --> 00:53:59,119

not everybody gets along or agrees but

1446

00:54:04,790 --> 00:54:00,960

you know those are what they do

1447

00:54:07,109 --> 00:54:04,800

they kind of make the best yeah

1448

00:54:08,870 --> 00:54:07,119

and it's really neat you mentioned uh

1449

00:54:12,069 --> 00:54:08,880

the crypto four corners

1450

00:54:14,790 --> 00:54:12,079

that's great organization and it's it's

1451

00:54:16,710 --> 00:54:14,800

wild the places where

1452

00:54:18,470 --> 00:54:16,720

sasquatch bigfoot and some of these

1453

00:54:19,910 --> 00:54:18,480

other strange paranormal events are

1454

00:54:23,430 --> 00:54:19,920

taking place down

1455

00:54:24,390 --> 00:54:23,440

all along the southwest well yeah and

1456

00:54:26,870 --> 00:54:24,400

that is another

1457

00:54:27,589 --> 00:54:26,880

issue look what's going on today you

1458

00:54:29,750 --> 00:54:27,599

guys uh

1459

00:54:31,589 --> 00:54:29,760

smoke is already flowing over here where

1460

00:54:32,390 --> 00:54:31,599

i live in a little from colorado in this

1461

00:54:35,589 --> 00:54:32,400

class

1462

00:54:36,630 --> 00:54:35,599

guys full of smoke coming from oh god

1463

00:54:40,069 --> 00:54:36,640

they're in montana

1464

00:54:41,750 --> 00:54:40,079

idaho arizona california is on fire

1465

00:54:43,349 --> 00:54:41,760

again

1466

00:54:44,789 --> 00:54:43,359

it's going to be another horrible fire

1467

00:54:47,109 --> 00:54:44,799

season hopefully not as

1468

00:54:48,390 --> 00:54:47,119

it was you know a couple years ago but

1469

00:54:52,069 --> 00:54:48,400

these fires have

1470

00:54:55,430 --> 00:54:52,079

i believe have caused a mass migration

1471

00:54:58,150 --> 00:54:55,440

including encroachment and

1472

00:54:59,589 --> 00:54:58,160

something east and they're moving south

1473

00:55:02,150 --> 00:54:59,599

now me and jc we were

1474

00:55:03,030 --> 00:55:02,160

used to talk a lot and i made a lot of

1475

00:55:05,030 --> 00:55:03,040

context

1476
00:55:06,150 --> 00:55:05,040
because i originally grew up in new

1477
00:55:08,549 --> 00:55:06,160
mexico

1478
00:55:10,069 --> 00:55:08,559
so i know a lot of the areas in new

1479
00:55:12,789 --> 00:55:10,079
mexico where

1480
00:55:14,789 --> 00:55:12,799
robert kreider and and ac and then again

1481
00:55:15,190 --> 00:55:14,799
so i i kind of had a kinship with stacy

1482
00:55:17,109 --> 00:55:15,200
and

1483
00:55:18,390 --> 00:55:17,119
i used to talk to him a lot about um you

1484
00:55:19,270 --> 00:55:18,400
know the place that he had been in

1485
00:55:22,789 --> 00:55:19,280
colorado

1486
00:55:24,789 --> 00:55:22,799
great guys um the

1487
00:55:26,470 --> 00:55:24,799
fire's been he agreed with him that

1488
00:55:29,430 --> 00:55:26,480

they're kind of caused

1489

00:55:31,910 --> 00:55:29,440

in up different fighting in the western

1490

00:55:36,309 --> 00:55:31,920

slope of colorado as an example

1491

00:55:39,670 --> 00:55:36,319

in other places where traditionally

1492

00:55:41,589 --> 00:55:39,680

there wasn't a lot of space but

1493

00:55:44,230 --> 00:55:41,599

it appears that they're starting to

1494

00:55:45,990 --> 00:55:44,240

migrate you know when we talk about

1495

00:55:47,270 --> 00:55:46,000

the things that was causing all the

1496

00:55:49,430 --> 00:55:47,280

problems i don't know if you know the

1497

00:55:51,510 --> 00:55:49,440

story down in sally arizona on the naval

1498

00:55:53,270 --> 00:55:51,520

indian reservation

1499

00:55:56,150 --> 00:55:53,280

that was scaring people it was eating

1500

00:55:57,829 --> 00:55:56,160

the crops it was stealing sheep and

1501
00:55:59,910 --> 00:55:57,839
eventually the navajo nation had to call

1502
00:56:00,549 --> 00:55:59,920
in the bed dispose of it because it was

1503
00:56:02,950 --> 00:56:00,559
causing

1504
00:56:04,470 --> 00:56:02,960
public safety issue and i'm not aware if

1505
00:56:07,910 --> 00:56:04,480
you know that story or not

1506
00:56:10,150 --> 00:56:07,920
but the the navajo

1507
00:56:11,750 --> 00:56:10,160
uh rhetoric down there in arizona and

1508
00:56:13,829 --> 00:56:11,760
then so they've had this

1509
00:56:16,789 --> 00:56:13,839
problem in the last couple of years

1510
00:56:17,670 --> 00:56:16,799
where they have bigfoot that wander into

1511
00:56:20,870 --> 00:56:17,680
the area

1512
00:56:24,150 --> 00:56:20,880
and then start feeling deep um

1513
00:56:25,349 --> 00:56:24,160

in the crop they don't have a whole lot

1514

00:56:27,190 --> 00:56:25,359

out there

1515

00:56:28,710 --> 00:56:27,200

rural parts of the reservation so they

1516

00:56:30,630 --> 00:56:28,720

have community farms

1517

00:56:33,030 --> 00:56:30,640

and just for the people that live out

1518

00:56:35,829 --> 00:56:33,040

there and then the ranch has seen the

1519

00:56:36,710 --> 00:56:35,839

wool and sheep it's the cash cow for the

1520

00:56:40,069 --> 00:56:36,720

navajo

1521

00:56:42,950 --> 00:56:40,079

out there and uh

1522

00:56:44,069 --> 00:56:42,960

people and if they put come in and they

1523

00:56:47,510 --> 00:56:44,079

just their up

1524

00:56:49,270 --> 00:56:47,520

and it it infuriates you know look like

1525

00:56:51,670 --> 00:56:49,280

they don't have a very good relationship

1526

00:56:54,309 --> 00:56:51,680

because of that type of behavior

1527

00:56:55,750 --> 00:56:54,319

and so jc spent a lot of time you know

1528

00:56:57,670 --> 00:56:55,760

over the years working with

1529

00:56:59,030 --> 00:56:57,680

uh the native population around the time

1530

00:57:00,390 --> 00:56:59,040

you get them to understand that these

1531

00:57:02,470 --> 00:57:00,400

things aren't doing it on purpose

1532

00:57:04,390 --> 00:57:02,480

it's a survival issue you know it's a

1533

00:57:04,950 --> 00:57:04,400

fight for resources they're not doing it

1534

00:57:08,230 --> 00:57:04,960

because they're

1535

00:57:09,910 --> 00:57:08,240

trying to be mean it would do some

1536

00:57:12,150 --> 00:57:09,920

some pretty rotten things you know i

1537

00:57:13,910 --> 00:57:12,160

mean it's like

1538

00:57:15,349 --> 00:57:13,920

oh timer it took him a while to grow

1539

00:57:17,349 --> 00:57:15,359

this big watermelon and then

1540

00:57:19,510 --> 00:57:17,359

the bigfoot's in there and he's only a

1541

00:57:23,349 --> 00:57:19,520

few bites out of him leaves it on

1542

00:57:27,270 --> 00:57:24,950

you kind of see why they were upset with

1543

00:57:27,829 --> 00:57:27,280

that but what that did is on a bigger

1544

00:57:30,630 --> 00:57:27,839

map

1545

00:57:31,589 --> 00:57:30,640

that me and jc were looking at was the

1546

00:57:35,109 --> 00:57:31,599

migration

1547

00:57:38,470 --> 00:57:35,119

due to encroachment fires and

1548

00:57:38,870 --> 00:57:38,480

um you know i had talked to other people

1549

00:57:41,109 --> 00:57:38,880

over

1550

00:57:42,549 --> 00:57:41,119

the years been involved in this and

1551

00:57:44,870 --> 00:57:42,559

there was an old guy up there in

1552

00:57:46,870 --> 00:57:44,880

washington old red elk

1553

00:57:49,430 --> 00:57:46,880

that i had befriended he used to have

1554

00:57:51,510 --> 00:57:49,440

conversations on the phone with red elk

1555

00:57:53,030 --> 00:57:51,520

yeah and he told me they're on their way

1556

00:57:54,230 --> 00:57:53,040

to mexico you have groups they're on

1557

00:57:55,190 --> 00:57:54,240

their way they want to get across the

1558

00:57:56,950 --> 00:57:55,200

border because they're

1559

00:57:58,230 --> 00:57:56,960

they've heard the rumors of these lush

1560

00:57:59,589 --> 00:57:58,240

jungles out there where there's no

1561

00:58:03,030 --> 00:57:59,599

people

1562

00:58:03,750 --> 00:58:03,040

i said okay if that's true he is one of

1563

00:58:07,829 --> 00:58:03,760

them

1564

00:58:10,950 --> 00:58:07,839

down there it appears they're moving for

1565

00:58:11,589 --> 00:58:10,960

border and we don't know if that's if

1566

00:58:14,630 --> 00:58:11,599

that's just

1567

00:58:15,510 --> 00:58:14,640

wanderlust you know you get a couple

1568

00:58:18,230 --> 00:58:15,520

that are just

1569

00:58:19,190 --> 00:58:18,240

wandering looking for a new home sure

1570

00:58:20,710 --> 00:58:19,200

enough in areas

1571

00:58:23,030 --> 00:58:20,720

they end up in an area where they didn't

1572

00:58:24,789 --> 00:58:23,040

know they were going to end up in

1573

00:58:27,829 --> 00:58:24,799

then they get stuck there and then they

1574

00:58:31,109 --> 00:58:27,839

get in a situation like that where

1575

00:58:33,190 --> 00:58:31,119

normally they're around somebody

1576

00:58:34,230 --> 00:58:33,200

by the point of americans down there and

1577

00:58:37,670 --> 00:58:34,240

so they have to

1578

00:58:40,150 --> 00:58:37,680

start feeling props because

1579

00:58:40,950 --> 00:58:40,160

you know it it's from all true story

1580

00:58:43,349 --> 00:58:40,960

because they

1581

00:58:44,950 --> 00:58:43,359

went through all the the checks and

1582

00:58:46,950 --> 00:58:44,960

balances but the prince they were

1583

00:58:48,630 --> 00:58:46,960

leaving these humongous prints all over

1584

00:58:51,670 --> 00:58:48,640

the place all around while

1585

00:58:53,589 --> 00:58:51,680

they would steal something

1586

00:58:54,870 --> 00:58:53,599

i guess the final straw happened down

1587

00:58:56,789 --> 00:58:54,880

there uh you know

1588

00:58:58,710 --> 00:58:56,799

he scared a little girl that came out

1589

00:59:00,630 --> 00:58:58,720

behind the dumpster behind a restaurant

1590

00:59:02,950 --> 00:59:00,640

scared the little girl around the

1591

00:59:05,109 --> 00:59:02,960

dumpster and

1592

00:59:07,750 --> 00:59:05,119

at that point it turned into a pretty

1593

00:59:09,910 --> 00:59:07,760

bad story

1594

00:59:11,589 --> 00:59:09,920

yeah and uh down there in the four

1595

00:59:13,109 --> 00:59:11,599

corners it seems like some of these

1596

00:59:15,750 --> 00:59:13,119

creatures

1597

00:59:17,750 --> 00:59:15,760

have different snouts while others are

1598

00:59:19,670 --> 00:59:17,760

more shadow creatures or shape shifting

1599

00:59:22,069 --> 00:59:19,680

slash skin walkers

1600

00:59:22,950 --> 00:59:22,079

um did you ever come across any of these

1601
00:59:27,910 --> 00:59:22,960
that

1602
00:59:36,789 --> 00:59:33,750
yes but not

1603
00:59:37,589 --> 00:59:36,799
not like a dog okay i had i had taken a

1604
00:59:38,950 --> 00:59:37,599
number of pictures

1605
00:59:40,150 --> 00:59:38,960
earlier in the years when i started

1606
00:59:42,789 --> 00:59:40,160
sitting and made a lot of my videos

1607
00:59:50,549 --> 00:59:42,799
where i had reached the following

1608
00:59:57,349 --> 00:59:55,589
um so then then you have this

1609
00:59:59,190 --> 00:59:57,359
how can i break this down when i was

1610
01:00:01,670 --> 00:59:59,200
young i grew up in new mexico

1611
01:00:03,589 --> 01:00:01,680
um and i had a lot of native american

1612
01:00:05,670 --> 01:00:03,599
friends growing up uh one

1613
01:00:07,990 --> 01:00:05,680

friend of mine his name was ricky his

1614

01:00:11,829 --> 01:00:08,000

father was an apache medicine

1615

01:00:13,750 --> 01:00:11,839

um going into college

1616

01:00:14,950 --> 01:00:13,760

a lot of that native american studies

1617

01:00:18,069 --> 01:00:14,960

and so forth

1618

01:00:22,470 --> 01:00:18,079

i uh i learned some stuff from

1619

01:00:25,510 --> 01:00:22,480

his grandfather and um i learned about

1620

01:00:27,829 --> 01:00:25,520

how they view how magic works in

1621

01:00:30,470 --> 01:00:27,839

festival magic and so forth things that

1622

01:00:32,950 --> 01:00:30,480

i think that good is doing and

1623

01:00:33,990 --> 01:00:32,960

then told me uh yeah they they have

1624

01:00:39,109 --> 01:00:34,000

their own

1625

01:00:40,470 --> 01:00:39,119

in their back because they have their

1626

01:00:47,670 --> 01:00:40,480

brains are very fast

1627

01:00:51,510 --> 01:00:49,430

and i don't know if they're good or bad

1628

01:00:53,670 --> 01:00:51,520

but typically yes

1629

01:00:56,789 --> 01:00:53,680

when you have a big foot in the area you

1630

01:00:59,990 --> 01:00:56,799

may have some other ghost

1631

01:01:03,030 --> 01:01:00,000

shadow beings now shake shifting

1632

01:01:06,870 --> 01:01:03,040

is a is a whole different thing

1633

01:01:10,150 --> 01:01:06,880

um because it involved to me it involves

1634

01:01:11,589 --> 01:01:10,160

spirit polka guys from my educational

1635

01:01:12,789 --> 01:01:11,599

background from what i know from my

1636

01:01:14,630 --> 01:01:12,799

experiences

1637

01:01:16,230 --> 01:01:14,640

is that it's not this whole

1638

01:01:17,829 --> 01:01:16,240

interdimensional world that

1639

01:01:20,069 --> 01:01:17,839

people are trying to create right now

1640

01:01:23,109 --> 01:01:20,079

where spirit has always been around

1641

01:01:26,549 --> 01:01:23,119

or since our creation peoples and ghosts

1642

01:01:27,030 --> 01:01:26,559

and phantoms and it had experiences with

1643

01:01:29,109 --> 01:01:27,040

dead

1644

01:01:30,390 --> 01:01:29,119

people walking through their homes and

1645

01:01:32,630 --> 01:01:30,400

other things

1646

01:01:34,549 --> 01:01:32,640

the animals also because being you know

1647

01:01:36,870 --> 01:01:34,559

the spirits of animals that have

1648

01:01:38,710 --> 01:01:36,880

passed on so forth and they've gone

1649

01:01:39,910 --> 01:01:38,720

through just shadows that run across

1650

01:01:42,470 --> 01:01:39,920

your living room

1651
01:01:43,750 --> 01:01:42,480
but it's always been around to so in the

1652
01:01:45,190 --> 01:01:43,760
forest

1653
01:01:46,870 --> 01:01:45,200
you would think that would even be more

1654
01:01:48,710 --> 01:01:46,880
accentuated because

1655
01:01:50,390 --> 01:01:48,720
you had people that lived in this forest

1656
01:01:54,309 --> 01:01:50,400
thousands of thousands

1657
01:01:54,319 --> 01:01:58,470
yeah that's so true

1658
01:02:02,069 --> 01:02:00,710
it's the truth it really is the history

1659
01:02:04,710 --> 01:02:02,079
is there it cannot be

1660
01:02:05,109 --> 01:02:04,720
argued and it's so interesting how this

1661
01:02:07,349 --> 01:02:05,119
is

1662
01:02:08,789 --> 01:02:07,359
delving into media and popular culture

1663
01:02:10,710 --> 01:02:08,799

now and everything is becoming very

1664

01:02:11,829 --> 01:02:10,720

bigfoot friendly there's more bigfoot

1665

01:02:14,549 --> 01:02:11,839

shows

1666

01:02:16,470 --> 01:02:14,559

and you know it's just such a mystery

1667

01:02:18,470 --> 01:02:16,480

that i think is finally gaining

1668

01:02:20,230 --> 01:02:18,480

you know the light of day and i just

1669

01:02:21,029 --> 01:02:20,240

wanted to thank you so much for all your

1670

01:02:23,349 --> 01:02:21,039

research

1671

01:02:25,109 --> 01:02:23,359

mark and for coming on and spending time

1672

01:02:27,029 --> 01:02:25,119

explaining things to us

1673

01:02:28,390 --> 01:02:27,039

and uh where can people keep up with

1674

01:02:31,510 --> 01:02:28,400

what you're doing and

1675

01:02:33,349 --> 01:02:31,520

and how things are going okay well first

1676

01:02:34,309 --> 01:02:33,359

of all uh we're almost done with our

1677

01:02:37,190 --> 01:02:34,319

first book

1678

1679

01:02:39,670 --> 01:02:38,000

study

1680

01:02:41,430 --> 01:02:39,680

because we're having technical issues

1681

01:02:44,470 --> 01:02:41,440

with the editor of course

1682

01:02:46,069 --> 01:02:44,480

and other things you know um but it will

1683

01:02:47,029 --> 01:02:46,079

be coming out i'm hoping by the end of

1684

01:02:49,750 --> 01:02:47,039

summer

1685

01:02:51,750 --> 01:02:49,760

um but you know we kind of slow down and

1686

01:02:54,069 --> 01:02:51,760

i'm doing um

1687

01:02:55,750 --> 01:02:54,079

post lockdown hikes this season because

1688

01:02:56,950 --> 01:02:55,760

we want to get this project out of the

1689

01:02:59,750 --> 01:02:56,960

way and done

1690

01:03:00,230 --> 01:02:59,760

uh and we're gonna sing in the field

1691

01:03:02,390 --> 01:03:00,240

again

1692

01:03:03,349 --> 01:03:02,400

but you can find me on facebook or

1693

01:03:09,029 --> 01:03:03,359

colorado

1694

01:03:11,670 --> 01:03:09,039

uh i built a science page on facebook

1695

01:03:13,910 --> 01:03:11,680

that you can find by typing that in

1696

01:03:14,710 --> 01:03:13,920

uh youtube channels we're still uh

1697

01:03:17,829 --> 01:03:14,720

running those

1698

01:03:19,029 --> 01:03:17,839

my original uh youtube channel that i

1699

01:03:21,990 --> 01:03:19,039

originally started

1700

01:03:24,150 --> 01:03:22,000

in this game years ago it's called

1701

01:03:27,190 --> 01:03:24,160

morgan's tim

1702

01:03:30,390 --> 01:03:27,200

uh youtube then

1703

01:03:30,950 --> 01:03:30,400

our secondary channel uh susan's channel

1704

01:03:35,430 --> 01:03:30,960

is called

1705

01:03:37,430 --> 01:03:35,440

csr chrome p-r-o-n-e and

1706

01:03:39,190 --> 01:03:37,440

i'm gonna once i get this book i've been

1707

01:03:41,589 --> 01:03:39,200

published i'm gonna start a website a

1708

01:03:44,390 --> 01:03:41,599

proper website for it

1709

01:03:45,510 --> 01:03:44,400

but i'll just take time because you know

1710

01:03:47,190 --> 01:03:45,520

i'm um

1711

01:03:48,789 --> 01:03:47,200

i'm gonna tell you writing a book the

1712

01:03:49,430 --> 01:03:48,799

hardest thing i've ever done in my life

1713

01:03:50,789 --> 01:03:49,440

and so

1714

01:03:54,470 --> 01:03:50,799

compared to just going out and looking

1715

01:03:58,309 --> 01:03:56,390

well the best best of luck with that you

1716

01:03:59,990 --> 01:03:58,319

know that's great i think i can't wait

1717

01:04:01,349 --> 01:04:00,000

and um best of luck with that can't

1718

01:04:03,750 --> 01:04:01,359

1721

01:04:15,109 --> 01:04:12,390

well there you have it mark parra wow

1722

01:04:16,710 --> 01:04:15,119

talk about research and fascinating

1723

01:04:20,309 --> 01:04:16,720

research into the mystery

1724

01:04:22,870 --> 01:04:20,319

of the hairy man of the mountain yeti

1725

01:04:23,589 --> 01:04:22,880

there's so many names uh big feet little

1726

01:04:26,069 --> 01:04:23,599

feet

1727

01:04:27,670 --> 01:04:26,079

they're reported all over the world the

1728

01:04:30,150 --> 01:04:27,680

more we know about this from

1729

01:04:30,710 --> 01:04:30,160

all angles whether that be nuts and

1730

01:04:33,270 --> 01:04:30,720

bolts

1731

01:04:34,470 --> 01:04:33,280

physical or more ancestral i think it's

1732

01:04:38,150 --> 01:04:34,480

important

1733

01:04:38,789 --> 01:04:38,160

until next time keep your eyes to the

1734

01:04:41,109 --> 01:04:38,799

skies

1735

01:04:58,450 --> 01:04:41,119

feet on the ground but don't forget to

1736

01:04:58,460 --> 01:05:06,150

[Music]

1737
