have returning guest mark parra world

11
00:01:01,430 --> 00:00:59,039

renowned bigfoot researcher president of

12
00:01:03,590 --> 00:01:01,440

colorado sasquatch research

13
00:01:06,149 --> 00:01:03,600

and mark is consistently in the field

14

00:01:08,149 --> 00:01:06,159

doing what he does best with frequency

15

00:01:10,390 --> 00:01:08,159

consistently finding habitats and

16

00:01:12,469 --> 00:01:10,400

structures created by the region's most

17

00:01:15,510 --> 00:01:12,479

elusive inhabitants

18

00:01:16,910 --> 00:01:15,520

sasquatch the legendary mythological and

19

00:01:19,429 --> 00:01:16,920

controversial

20

00:01:21,190 --> 00:01:19,439

cryptozoological creature

21

00:01:23,109 --> 00:01:21,200

which is reportedly

22

00:01:25,830 --> 00:01:23,119

cited thousands of times a year in the

23

00:01:28,310 --> 00:01:25,840

united states alone let alone the world

24

00:01:30,310 --> 00:01:28,320

over time mark has gathered images and a

25

00:01:31,830 --> 00:01:30,320

remarkable knowledge of the stomping

26

00:01:34,149 --> 00:01:31,840

grounds of the creature which is

27

00:01:37,030 --> 00:01:34,159

purported by many to inhabit the forests

28

00:01:39,350 --> 00:01:37,040

of north america the ape-like creature

29

00:01:41,190 --> 00:01:39,360

with human-like traits which seems to

30

00:01:43,510 --> 00:01:41,200

defy explanations

31

00:01:45,590 --> 00:01:43,520

mark's methodologies have provided

32

00:01:47,749 --> 00:01:45,600

consistent tell-tale signs of the

33

00:01:50,710 --> 00:01:47,759

creature's existence throughout the

34

00:01:52,630 --> 00:01:50,720

years and he has incorporated flexible

35

00:01:55,270 --> 00:01:52,640

research methods to provide valid

36

00:01:57,109 --> 00:01:55,280

documentations of his findings

37

00:01:59,030 --> 00:01:57,119

i couldn't be more excited to discuss

38

00:02:01,670 --> 00:01:59,040

the physical evidence and analysis of

39

00:02:02,789 --> 00:02:01,680

the secluded places this sasquatch may

40

00:02:03,910 --> 00:02:02,799

call home

41

00:02:07,350 --> 00:02:03,920

mark

42

00:02:09,270 --> 00:02:07,360

welcome to the hero paranormal podcast

43

00:02:12,229 --> 00:02:09,280

thanks for having me appreciate it

44

00:02:14,150 --> 00:02:12,239

absolutely mark gosh i'm so excited to

45

00:02:16,790 --> 00:02:14,160

talk to you again it seems like

46

00:02:19,750 --> 00:02:16,800

bigfoot has really kind of blown up on

47

00:02:21,750 --> 00:02:19,760

the scene there's been a lot of new

48

00:02:24,229 --> 00:02:21,760

new developments in the field

49

00:02:26,710 --> 00:02:24,239

and with that being said mark what

50

00:02:28,710 --> 00:02:26,720

sparked or started your fiery journey of

51
00:02:30,550 --> 00:02:28,720
tracking and documenting the most

52
00:02:32,070 --> 00:02:30,560
elusive ape-like creature in north

53
00:02:33,910 --> 00:02:32,080
america

54
00:02:35,910 --> 00:02:33,920
um well i used to work a lot of

55
00:02:38,150 --> 00:02:35,920
graveyard shifts

56
00:02:40,070 --> 00:02:38,160
i needed something new in my life so i

57
00:02:41,030 --> 00:02:40,080
was listening to coast to coast am a lot

58
00:02:43,110 --> 00:02:41,040
and

59
00:02:46,229 --> 00:02:43,120
this was back in 2010

60
00:02:47,750 --> 00:02:46,239
so i decided i want to be uh

61
00:02:49,190 --> 00:02:47,760
get involved in that and go looking

62
00:02:51,430 --> 00:02:49,200
since you know i live in colorado in the

63
00:02:53,190 --> 00:02:51,440

rocky mountains and

64

00:02:54,070 --> 00:02:53,200

i love the back country

65

00:02:56,229 --> 00:02:54,080

um

66

00:02:59,030 --> 00:02:56,239

i own a lot of four wheel drive jeeps

67

00:03:00,949 --> 00:02:59,040

and so forth so over the years so i

68

00:03:02,790 --> 00:03:00,959

i know the colorado back country and how

69

00:03:03,830 --> 00:03:02,800

to get to some secluded places but it

70

00:03:06,309 --> 00:03:03,840

never really

71

00:03:08,309 --> 00:03:06,319

occurred to me that uh you know

72

00:03:11,110 --> 00:03:08,319

the bigfoot was out there i just it just

73

00:03:12,949 --> 00:03:11,120

wasn't in my in my mind and because i've

74

00:03:15,350 --> 00:03:12,959

been listening to coast to coast am on a

75

00:03:18,630 --> 00:03:15,360

lot of these shows um i just decided i

76
00:03:22,470 --> 00:03:18,640
was gonna go looking bottom line and so

77
00:03:24,390 --> 00:03:22,480
basically i basically did

78
00:03:27,750 --> 00:03:24,400
just the basic investigative work of

79
00:03:29,110 --> 00:03:27,760
looking for bigfoot reports online

80
00:03:31,910 --> 00:03:29,120
subsequently

81
00:03:33,509 --> 00:03:31,920
everything that's out there on the bfro

82
00:03:35,190 --> 00:03:33,519
uh basically

83
00:03:36,789 --> 00:03:35,200
it was a little bit too far for me to

84
00:03:38,390 --> 00:03:36,799
drive into the mountains

85
00:03:40,070 --> 00:03:38,400
if i was going to be involved in this i

86
00:03:42,789 --> 00:03:40,080
didn't want to have to travel two three

87
00:03:44,309 --> 00:03:42,799
hours to into the mountains to get to a

88
00:03:46,869 --> 00:03:44,319

location to

89

00:03:49,110 --> 00:03:46,879

try and see if i could see or or get a

90

00:03:51,589 --> 00:03:49,120

uh a bigfoot on video

91

00:03:54,710 --> 00:03:51,599

so basically it started as just

92

00:03:57,670 --> 00:03:54,720

something fun i wanted to be involved in

93

00:04:00,309 --> 00:03:57,680

uh and then i had my first sighting in

94

00:04:03,670 --> 00:04:00,319

2010 february of 2010 in a small state

95

00:04:05,830 --> 00:04:03,680

park outside of castle rock colorado

96

00:04:07,990 --> 00:04:05,840

and from that point on

97

00:04:09,910 --> 00:04:08,000

it consumed my life for

98

00:04:11,670 --> 00:04:09,920

some 12 years now

99

00:04:24,550 --> 00:04:11,680

and

100

00:04:26,070 --> 00:04:24,560

locations across the eastern front range

101
00:04:27,189 --> 00:04:26,080
of the rockies known as the palmer

102
00:04:29,749 --> 00:04:27,199
divide

103
00:04:33,110 --> 00:04:29,759
and we located several

104
00:04:35,430 --> 00:04:33,120
locations that had enough evidence on

105
00:04:37,270 --> 00:04:35,440
the ground evidence for us to

106
00:04:39,670 --> 00:04:37,280
you know start opening up different

107
00:04:41,749 --> 00:04:39,680
investigations in different places and

108
00:04:43,590 --> 00:04:41,759
visit each of those locations at

109
00:04:44,870 --> 00:04:43,600
different times

110
00:04:46,950 --> 00:04:44,880
to try and determine when they're the

111
00:04:50,710 --> 00:04:46,960
hottest so that we can start doing more

112
00:04:56,629 --> 00:04:53,670
that state park in 2010 some kind of

113
00:04:58,870 --> 00:04:56,639

weird news just came out today

114

00:05:00,310 --> 00:04:58,880

that kind of surprised me

115

00:05:01,590 --> 00:05:00,320

currently

116

00:05:03,749 --> 00:05:01,600

the uh

117

00:05:06,629 --> 00:05:03,759

the county douglas county colorado is

118

00:05:08,629 --> 00:05:06,639

going to start doing more archaeological

119

00:05:11,990 --> 00:05:08,639

digs inside some of the rock shelters

120

00:05:14,870 --> 00:05:12,000

and caves in the park so

121

00:05:16,550 --> 00:05:14,880

that's kind of interesting news

122

00:05:18,070 --> 00:05:16,560

i don't know if it has anything to do

123

00:05:19,909 --> 00:05:18,080

with the work i've been doing for 12

124

00:05:21,270 --> 00:05:19,919

years and everything but it's kind of

125

00:05:22,629 --> 00:05:21,280

strange since they're gonna

126

00:05:24,790 --> 00:05:22,639

archaeologists are going to start

127

00:05:28,070 --> 00:05:24,800

digging uh in the in the caves in there

128

00:05:31,110 --> 00:05:28,080

again for artifacts

129

00:05:33,430 --> 00:05:31,120

that's very interesting and yeah you

130

00:05:35,749 --> 00:05:33,440

mentioned something called gifting can

131

00:05:37,270 --> 00:05:35,759

we go into a little bit of that for our

132

00:05:39,350 --> 00:05:37,280

listeners so they understand kind of

133

00:05:41,909 --> 00:05:39,360

what that's about

134

00:05:44,629 --> 00:05:41,919

sure uh back in 2010 after i had my

135

00:05:46,469 --> 00:05:44,639

first encounter part of my initial

136

00:05:47,270 --> 00:05:46,479

way of that i was going to investigate

137

00:05:49,749 --> 00:05:47,280

this

138

00:05:51,909 --> 00:05:49,759

was what everybody else was doing out

139

00:05:54,150 --> 00:05:51,919

there in the research community in the

140

00:05:55,990 --> 00:05:54,160

field research community was gifting

141

00:05:58,230 --> 00:05:56,000

some people had their own methods and so

142

00:06:01,350 --> 00:05:58,240

forth um i

143

00:06:03,510 --> 00:06:01,360

have a native american friend

144

00:06:04,830 --> 00:06:03,520

that was friends with our dear friend

145

00:06:07,909 --> 00:06:04,840

the late j.c

146

00:06:10,309 --> 00:06:07,919

johnson um and he had turned me onto the

147

00:06:12,629 --> 00:06:10,319

fact that they really really really love

148

00:06:13,590 --> 00:06:12,639

corn and sweet corn if you can get it

149

00:06:15,990 --> 00:06:13,600

so

150

00:06:21,350 --> 00:06:16,000

that's where i started um i started

151
00:06:23,510 --> 00:06:21,360
really focusing on the collection of dna

152
00:06:25,189 --> 00:06:23,520
not right away in 2010 this was much

153
00:06:29,189 --> 00:06:25,199
later the

154
00:06:30,150 --> 00:06:29,199
dna study the ketchum dna study was just

155
00:06:32,070 --> 00:06:30,160
ending

156
00:06:32,870 --> 00:06:32,080
i believe that the report hadn't been

157
00:06:35,510 --> 00:06:32,880
out

158
00:06:37,749 --> 00:06:35,520
so my samples didn't get in there but

159
00:06:39,430 --> 00:06:37,759
what i had i had talked to her about you

160
00:06:42,790 --> 00:06:39,440
know what i was using

161
00:06:45,670 --> 00:06:42,800
and that was corn uh i was taking a you

162
00:06:48,309 --> 00:06:45,680
know like a white sack with a piece of

163
00:06:49,830 --> 00:06:48,319

rope and putting like 12 pieces of corn

164

00:06:50,710 --> 00:06:49,840

i would just go to walmart and buy you

165

00:06:54,150 --> 00:06:50,720

know

166

00:06:56,870 --> 00:06:54,160

a dozen or more corn take it with me

167

00:06:59,670 --> 00:06:56,880

i had one particular cave uh that i had

168

00:07:01,189 --> 00:06:59,680

discovered over the years that was going

169

00:07:04,710 --> 00:07:01,199

to become that gifting location there

170

00:07:07,270 --> 00:07:04,720

was tp structures and prints and

171

00:07:09,510 --> 00:07:07,280

i had captured some things on video back

172

00:07:13,029 --> 00:07:09,520

in this particular area

173

00:07:16,790 --> 00:07:13,039

um this cave was really hot i had seen

174

00:07:19,270 --> 00:07:16,800

large rocks moved in front of holes uh

175

00:07:21,909 --> 00:07:19,280

into like tombs they're like tomb caves

176

00:07:23,749 --> 00:07:21,919

or pits they can move a big rock in

177

00:07:25,350 --> 00:07:23,759

front of it and you'd never know

178

00:07:27,589 --> 00:07:25,360

anything was in there

179

00:07:29,670 --> 00:07:27,599

anyway so forth so one of these caves i

180

00:07:32,469 --> 00:07:29,680

used to tuck it way back you know kind

181

00:07:34,309 --> 00:07:32,479

of high in a little crevice in a hole

182

00:07:37,189 --> 00:07:34,319

uh that white sack

183

00:07:39,350 --> 00:07:37,199

and i would come back and sometimes the

184

00:07:40,710 --> 00:07:39,360

entire sack would just be gone and there

185

00:07:42,390 --> 00:07:40,720

would be nothing

186

00:07:44,950 --> 00:07:42,400

and then uh

187

00:07:47,430 --> 00:07:44,960

another time i had corn where it looks

188

00:07:49,430 --> 00:07:47,440

like they had taken the sack but it eat

189

00:07:51,430 --> 00:07:49,440

some on site maybe

190

00:07:53,670 --> 00:07:51,440

five or six of the corn cobs and they

191

00:07:57,189 --> 00:07:53,680

were just stripped dry

192

00:08:00,390 --> 00:07:57,199

and they were down on the ground and um

193

00:08:02,390 --> 00:08:00,400

you know so i collected that um and

194

00:08:03,670 --> 00:08:02,400

tried to not contaminate it the best i

195

00:08:05,350 --> 00:08:03,680

could

196

00:08:06,790 --> 00:08:05,360

and you know mel the kitchen they told

197

00:08:08,869 --> 00:08:06,800

me at that time that that was an

198

00:08:11,749 --> 00:08:08,879

excellent idea because those corn cobs

199

00:08:13,909 --> 00:08:11,759

will actually hold the saliva in there

200

00:08:14,790 --> 00:08:13,919

through any weather conditions freezing

201

00:08:17,110 --> 00:08:14,800

cold

202

00:08:19,350 --> 00:08:17,120

hot heat that those corn crops will

203

00:08:20,629 --> 00:08:19,360

really absorb that saliva and that dna

204

00:08:23,430 --> 00:08:20,639

in them so

205

00:08:25,670 --> 00:08:23,440

but i never did uh get to submit those

206

00:08:28,710 --> 00:08:25,680

samples into the study because like i

207

00:08:31,749 --> 00:08:28,720

said i kind of got into it late as that

208

00:08:34,550 --> 00:08:31,759

was occurring jc had kept me informed on

209

00:08:37,110 --> 00:08:34,560

his samples uh that he had submitted and

210

00:08:39,670 --> 00:08:37,120

so forth but he was already in the whole

211

00:08:41,990 --> 00:08:39,680

process of the uh of submitting the

212

00:08:45,190 --> 00:08:42,000

samples and support long before i had

213

00:08:47,350 --> 00:08:45,200

started to choose to start gifting it

214

00:08:49,110 --> 00:08:47,360

my whole thing from the beginning is

215

00:08:50,710 --> 00:08:49,120

always i wanted to get one of these on

216

00:08:53,509 --> 00:08:50,720

video

217

00:08:55,110 --> 00:08:53,519

you know if i could um and that was

218

00:08:57,030 --> 00:08:55,120

enough for me

219

00:08:58,310 --> 00:08:57,040

but you there's kind of a learning curve

220

00:08:59,910 --> 00:08:58,320

you know that goes with when you're

221

00:09:01,590 --> 00:08:59,920

going to become a field researcher

222

00:09:04,150 --> 00:09:01,600

you're going to be experimenting with

223

00:09:05,829 --> 00:09:04,160

all of that type dna collection looking

224

00:09:07,190 --> 00:09:05,839

for hair

225

00:09:09,750 --> 00:09:07,200

things that

226

00:09:10,949 --> 00:09:09,760

in the long run

227

00:09:12,949 --> 00:09:10,959

i feel

228

00:09:14,389 --> 00:09:12,959

aren't really going to matter and people

229

00:09:17,350 --> 00:09:14,399

are going to disagree with me on that i

230

00:09:20,310 --> 00:09:17,360

think we've kind of jumped beyond

231

00:09:22,949 --> 00:09:20,320

dna in gifting

232

00:09:25,829 --> 00:09:22,959

because the focus now

233

00:09:28,310 --> 00:09:25,839

in anthropology is the bones

234

00:09:30,550 --> 00:09:28,320

and i know that's why douglas county has

235

00:09:32,630 --> 00:09:30,560

chosen to go back into my you know one

236

00:09:35,670 --> 00:09:32,640

of our research years my main research

237

00:09:37,350 --> 00:09:35,680

area and uh start doing archaeological

238

00:09:39,509 --> 00:09:37,360

digs again

239

00:09:42,870 --> 00:09:39,519

and i knew that was going to happen

240

00:09:44,949 --> 00:09:42,880

because the teams that the british

241

00:09:47,269 --> 00:09:44,959

american russian scientists that worked

242

00:09:49,110 --> 00:09:47,279

on the denisova project now have opened

243

00:09:52,070 --> 00:09:49,120

a secondary cave they're working in

244

00:09:54,310 --> 00:09:52,080

alaska looking to see if they can pick

245

00:09:56,230 --> 00:09:54,320

up the trail of hominins coming across

246

00:09:57,110 --> 00:09:56,240

the strait and so forth

247

00:09:58,710 --> 00:09:57,120

so

248

00:10:00,630 --> 00:09:58,720

yeah that's kind of where that's kind of

249

00:10:03,350 --> 00:10:00,640

where i'm right now i have

250

00:10:06,150 --> 00:10:03,360

i have at least six locations where

251
00:10:09,750 --> 00:10:06,160
susan and i have located graves they're

252
00:10:11,590 --> 00:10:09,760
shallow mounds basically sometimes logs

253
00:10:12,949 --> 00:10:11,600
and debris have been mixed in with rocks

254
00:10:14,870 --> 00:10:12,959
but you can clearly see that they're

255
00:10:17,430 --> 00:10:14,880
mounds

256
00:10:21,030 --> 00:10:17,440
one of these in particular

257
00:10:23,110 --> 00:10:21,040
has like a wild grass that grows over it

258
00:10:25,430 --> 00:10:23,120
and it's in the shape if you were to

259
00:10:27,350 --> 00:10:25,440
bury a ten foot big foot that's what the

260
00:10:28,389 --> 00:10:27,360
shape of this particular grave looks

261
00:10:31,350 --> 00:10:28,399
like

262
00:10:33,269 --> 00:10:31,360
but because of laws and other things we

263
00:10:35,670 --> 00:10:33,279

really have to keep that secret if we're

264

00:10:38,230 --> 00:10:35,680

going to choose to

265

00:10:41,030 --> 00:10:38,240

dig one of these up because um

266

00:10:42,949 --> 00:10:41,040

you know you could get big trouble

267

00:10:44,870 --> 00:10:42,959

for doing that in colorado big big

268

00:10:47,350 --> 00:10:44,880

trouble

269

00:10:50,230 --> 00:10:47,360

and i'm glad um and you are very

270

00:10:52,150 --> 00:10:50,240

respectful of the quote-unquote stomping

271

00:10:54,630 --> 00:10:52,160

grounds of the creature and i'm glad you

272

00:10:57,590 --> 00:10:54,640

mentioned jc johnson because

273

00:10:59,829 --> 00:10:57,600

what a fascinating individual and i mean

274

00:11:02,230 --> 00:10:59,839

it's close to a real life india indiana

275

00:11:05,269 --> 00:11:02,240

jones i've ever come across and i kind

276

00:11:08,310 --> 00:11:05,279

of see him as a lot of the true blue

277

00:11:10,150 --> 00:11:08,320

uh bigfoot researchers kind of were

278

00:11:12,150 --> 00:11:10,160

involved with or connected with that

279

00:11:14,389 --> 00:11:12,160

camp pretty amazing stuff and i'm glad

280

00:11:17,110 --> 00:11:14,399

you mentioned him

281

00:11:19,190 --> 00:11:17,120

people often hunt and sometimes see

282

00:11:21,750 --> 00:11:19,200

bigfoot when looking

283

00:11:24,069 --> 00:11:21,760

and is there a correlation between the

284

00:11:25,990 --> 00:11:24,079

two or are there tricks of the trade in

285

00:11:27,350 --> 00:11:26,000

your opinion which offer more likelihood

286

00:11:29,430 --> 00:11:27,360

to see the creature for those who

287

00:11:31,750 --> 00:11:29,440

haven't gone out

288

00:11:34,230 --> 00:11:31,760

okay one of the biggest things that was

289

00:11:35,509 --> 00:11:34,240

the most revealing piece of data that we

290

00:11:38,150 --> 00:11:35,519

found

291

00:11:40,230 --> 00:11:38,160

in colorado is

292

00:11:42,949 --> 00:11:40,240

is that sasquatch sightings appear to

293

00:11:45,190 --> 00:11:42,959

happen in areas where the youth indians

294

00:11:47,269 --> 00:11:45,200

had settlements um

295

00:11:49,509 --> 00:11:47,279

in the way the youths were the youths

296

00:11:51,990 --> 00:11:49,519

didn't have a central pueblo

297

00:11:54,550 --> 00:11:52,000

location with kivas and so forth like

298

00:11:56,790 --> 00:11:54,560

that you were pretty much a nomadic

299

00:12:00,389 --> 00:11:56,800

native american tribe and they they

300

00:12:01,670 --> 00:12:00,399

followed the elk herds and the mountain

301
00:12:04,470 --> 00:12:01,680
goat herds

302
00:12:06,790 --> 00:12:04,480
inside colorado pronghorn sheep mountain

303
00:12:08,790 --> 00:12:06,800
sheep so forth and they stuck close to

304
00:12:10,870 --> 00:12:08,800
them because

305
00:12:12,230 --> 00:12:10,880
there's two reasons um

306
00:12:13,910 --> 00:12:12,240
the elk

307
00:12:15,110 --> 00:12:13,920
have different migrational routes in

308
00:12:17,190 --> 00:12:15,120
colorado

309
00:12:19,430 --> 00:12:17,200
and when the native americans

310
00:12:21,350 --> 00:12:19,440
would always stick with you know within

311
00:12:23,990 --> 00:12:21,360
a couple miles or so forth of these

312
00:12:25,990 --> 00:12:24,000
migrating elk moving with the elk

313
00:12:28,629 --> 00:12:26,000

because the elk

314

00:12:31,590 --> 00:12:28,639

for one provided all the skins the meat

315

00:12:34,389 --> 00:12:31,600

and so forth to feed the tribes

316

00:12:37,430 --> 00:12:34,399

but also because in colorado

317

00:12:39,030 --> 00:12:37,440

we have the elk like to migrate through

318

00:12:41,990 --> 00:12:39,040

we have a lot of areas known as

319

00:12:44,710 --> 00:12:42,000

flatlands that aren't up in the high

320

00:12:48,790 --> 00:12:44,720

rocky mountains but in these flat lands

321

00:12:51,350 --> 00:12:48,800

you have groupings of large amounts of

322

00:12:53,350 --> 00:12:51,360

pine trees the same type of what we call

323

00:12:54,949 --> 00:12:53,360

foothills pines which are all the

324

00:12:56,230 --> 00:12:54,959

different species of pine trees that are

325

00:12:58,470 --> 00:12:56,240

in the mountains

326

00:13:01,430 --> 00:12:58,480

these are down on the eastern plains

327

00:13:02,710 --> 00:13:01,440

so the elk come down off the foothills

328

00:13:06,150 --> 00:13:02,720

um

329

00:13:09,269 --> 00:13:06,160

into certain areas

330

00:13:10,710 --> 00:13:09,279

just east almost not quite to i-25 a

331

00:13:11,829 --> 00:13:10,720

little beyond it

332

00:13:14,069 --> 00:13:11,839

and

333

00:13:15,990 --> 00:13:14,079

the sasquatch we've you know keep track

334

00:13:18,949 --> 00:13:16,000

and we know what they do they follow the

335

00:13:21,430 --> 00:13:18,959

elk um because it is about resources

336

00:13:23,430 --> 00:13:21,440

they do like to stick

337

00:13:25,670 --> 00:13:23,440

and i have to say this you know my

338

00:13:27,910 --> 00:13:25,680

research is focused on the eastern front

339

00:13:29,590 --> 00:13:27,920

range of the rockies it's what we do i

340

00:13:31,350 --> 00:13:29,600

don't i can't speak for what other

341

00:13:32,310 --> 00:13:31,360

people experience in other parts of the

342

00:13:37,509 --> 00:13:32,320

state

343

00:13:39,269 --> 00:13:37,519

apply because of diet and topography and

344

00:13:40,949 --> 00:13:39,279

everything else in order for the

345

00:13:42,150 --> 00:13:40,959

creatures to survive out here in

346

00:13:43,670 --> 00:13:42,160

colorado

347

00:13:44,790 --> 00:13:43,680

so everything had to be based around

348

00:13:48,550 --> 00:13:44,800

that

349

00:13:50,069 --> 00:13:48,560

about resources

350

00:13:52,389 --> 00:13:50,079

um

351

00:13:54,710 --> 00:13:52,399

it's kind of a disturbing

352

00:13:56,230 --> 00:13:54,720

fact that that me and susan have

353

00:13:58,710 --> 00:13:56,240

discovered that

354

00:14:01,590 --> 00:13:58,720

in the different places um

355

00:14:03,430 --> 00:14:01,600

these creatures do not build structures

356

00:14:05,750 --> 00:14:03,440

to communicate with us

357

00:14:08,230 --> 00:14:05,760

they don't they have a completely

358

00:14:11,670 --> 00:14:08,240

different world going on

359

00:14:14,069 --> 00:14:11,680

they build the x's and the arches and

360

00:14:15,590 --> 00:14:14,079

the other tribal type symbology to ward

361

00:14:17,110 --> 00:14:15,600

off inner loopers

362

00:14:19,750 --> 00:14:17,120

because it is about a fight for

363

00:14:22,069 --> 00:14:19,760

resources and so if you have

364

00:14:23,910 --> 00:14:22,079

a group of sasquatch in one area that

365

00:14:26,710 --> 00:14:23,920

have been there for a while

366

00:14:29,189 --> 00:14:26,720

um and there's enough habitat to support

367

00:14:30,870 --> 00:14:29,199

maybe two and maybe a child

368

00:14:33,189 --> 00:14:30,880

because you know they don't want to burn

369

00:14:36,389 --> 00:14:33,199

out an area these creatures are the

370

00:14:37,990 --> 00:14:36,399

world's greatest conservationists so

371

00:14:39,910 --> 00:14:38,000

they'll take care of the area and just

372

00:14:42,069 --> 00:14:39,920

won't burn it out eat all the small game

373

00:14:44,470 --> 00:14:42,079

and so forth in fact in some areas we

374

00:14:45,910 --> 00:14:44,480

found they do work with beavers close to

375

00:14:47,590 --> 00:14:45,920

beaver dams

376

00:14:49,829 --> 00:14:47,600

but so anyways

377

00:14:51,670 --> 00:14:49,839

i believe these things build those

378

00:14:53,670 --> 00:14:51,680

structures and the x symbols and

379

00:14:55,990 --> 00:14:53,680

symbology to

380

00:14:57,509 --> 00:14:56,000

for interlopers to come in and try and

381

00:14:58,949 --> 00:14:57,519

kick them out

382

00:15:01,829 --> 00:14:58,959

and i believe they've killed each other

383

00:15:04,710 --> 00:15:01,839

i think that these sympathies bigfoot um

384

00:15:08,310 --> 00:15:06,790

you know attack each other

385

00:15:11,269 --> 00:15:08,320

yeah

386

00:15:13,590 --> 00:15:11,279

and i think that as far as a concert

387

00:15:15,910 --> 00:15:13,600

conservation perspective i agree 100

388

00:15:18,550 --> 00:15:15,920

percent just on my limited

389

00:15:20,069 --> 00:15:18,560

knowledge and you know i like what uh i

390

00:15:21,829 --> 00:15:20,079

believe it's matt moneymaker says we

391

00:15:25,430 --> 00:15:21,839

have a lot to learn

392

00:15:28,069 --> 00:15:25,440

uh from from the sasquatch there is a

393

00:15:31,590 --> 00:15:28,079

significant debate in the bigfoot

394

00:15:33,990 --> 00:15:31,600

community about what exactly bigfoot is

395

00:15:35,990 --> 00:15:34,000

in your best approximation of your

396

00:15:37,990 --> 00:15:36,000

countless years of research what is a

397

00:15:39,350 --> 00:15:38,000

valid description of the creature in

398

00:15:41,030 --> 00:15:39,360

your opinion

399

00:15:43,990 --> 00:15:41,040

wild hominin

400

00:15:47,189 --> 00:15:44,000

it somehow had survived it i'm pretty

401
00:15:50,230 --> 00:15:47,199
much in melba ketchum's camp um on most

402
00:15:52,710 --> 00:15:50,240
of it uh other than the opinions maybe

403
00:15:54,550 --> 00:15:52,720
the personal opinions um

404
00:15:56,790 --> 00:15:54,560
what i've seen in colorado

405
00:15:59,590 --> 00:15:56,800
lives in caves they live in like i said

406
00:16:01,829 --> 00:15:59,600
tombs pits and so forth this also

407
00:16:03,509 --> 00:16:01,839
protects them from forest fires which is

408
00:16:04,629 --> 00:16:03,519
one of the reasons i was able to figure

409
00:16:06,470 --> 00:16:04,639
that out that that's what they were

410
00:16:08,550 --> 00:16:06,480
doing when there's a forest fire they

411
00:16:10,470 --> 00:16:08,560
can in tune themselves in a in a small

412
00:16:11,910 --> 00:16:10,480
cave and basically pull a rock and put

413
00:16:13,350 --> 00:16:11,920

other debris in front of it and they're

414

00:16:15,990 --> 00:16:13,360

they're fine

415

00:16:17,430 --> 00:16:16,000

until the fire passes um and that's how

416

00:16:19,670 --> 00:16:17,440

we discovered what they were doing is

417

00:16:21,590 --> 00:16:19,680

they were living underground so you know

418

00:16:23,509 --> 00:16:21,600

in my opinion these things from what i

419

00:16:25,590 --> 00:16:23,519

have witnessed they have the brow ridge

420

00:16:27,910 --> 00:16:25,600

they have the big eyes for singing the

421

00:16:30,069 --> 00:16:27,920

dark um

422

00:16:33,110 --> 00:16:30,079

there's no way they could hide from us

423

00:16:35,110 --> 00:16:33,120

as long as they have their one

424

00:16:37,910 --> 00:16:35,120

main thing is the wiring of their brain

425

00:16:40,629 --> 00:16:37,920

to see in the infrared spectrum and they

426

00:16:43,509 --> 00:16:40,639

they dog us at every corner based on

427

00:16:45,189 --> 00:16:43,519

that simple fact because their entire

428

00:16:46,870 --> 00:16:45,199

brain wave activity is going to be

429

00:16:48,629 --> 00:16:46,880

different than us there

430

00:16:52,150 --> 00:16:48,639

they may have our intelligence but

431

00:16:53,670 --> 00:16:52,160

basically in order for them to

432

00:16:56,150 --> 00:16:53,680

to really get away

433

00:16:57,829 --> 00:16:56,160

to hide um

434

00:16:59,990 --> 00:16:57,839

i mean they're using some basics you

435

00:17:01,430 --> 00:17:00,000

know if you if you were a wild man if

436

00:17:03,829 --> 00:17:01,440

you see that's part of building a

437

00:17:06,069 --> 00:17:03,839

profile in in my investigations is when

438

00:17:09,590 --> 00:17:06,079

we go into an area i immediately start

439

00:17:11,909 --> 00:17:09,600

building a uh a tracker's profile on on

440

00:17:13,750 --> 00:17:11,919

what i'm going after so i start thinking

441

00:17:15,669 --> 00:17:13,760

about you know getting it into its head

442

00:17:16,789 --> 00:17:15,679

where's the water where's the food why

443

00:17:20,710 --> 00:17:16,799

is it here

444

00:17:23,270 --> 00:17:20,720

and so forth um and it's really it at

445

00:17:25,350 --> 00:17:23,280

times it seems like it's really easy

446

00:17:27,669 --> 00:17:25,360

uh because you start picking up sign you

447

00:17:30,390 --> 00:17:27,679

may get whooped at it's getting a little

448

00:17:32,870 --> 00:17:30,400

closer as you push at them

449

00:17:35,350 --> 00:17:32,880

we've had rocks thrown at us and i'm the

450

00:17:36,950 --> 00:17:35,360

type of guy that's who's gonna tell you

451

00:17:38,630 --> 00:17:36,960

i ran up the hill

452

00:17:40,310 --> 00:17:38,640

i made a little prep to make sure she

453

00:17:42,390 --> 00:17:40,320

was safe and everything served we had a

454

00:17:43,590 --> 00:17:42,400

rock throwing us on the play river and i

455

00:17:46,630 --> 00:17:43,600

took off

456

00:17:48,230 --> 00:17:46,640

off up the hill uh for about a quarter

457

00:17:50,710 --> 00:17:48,240

of a mile to see who threw a rock and

458

00:17:52,470 --> 00:17:50,720

used down the prince right away wow he

459

00:17:55,029 --> 00:17:52,480

was in full retreat

460

00:17:57,510 --> 00:17:55,039

and then in that set of videos everybody

461

00:18:00,150 --> 00:17:57,520

saw i found some really cool caves a

462

00:18:02,549 --> 00:18:00,160

very very hidden cave back there that no

463

00:18:03,750 --> 00:18:02,559

one would know if if i hadn't gone up

464

00:18:05,750 --> 00:18:03,760

there

465

00:18:07,190 --> 00:18:05,760

and that took on a series of videos up

466

00:18:09,430 --> 00:18:07,200

there i had

467

00:18:11,190 --> 00:18:09,440

some experiences up there but

468

00:18:13,110 --> 00:18:11,200

they are very

469

00:18:15,110 --> 00:18:13,120

prominent i mean i don't know how else

470

00:18:18,070 --> 00:18:15,120

to put it if you want to say

471

00:18:21,510 --> 00:18:18,080

homo antes or hydo virginis

472

00:18:23,909 --> 00:18:21,520

uh homo erectus any of those

473

00:18:26,070 --> 00:18:23,919

hominin species that we've all studied

474

00:18:27,750 --> 00:18:26,080

up on if you have studied up on them you

475

00:18:29,510 --> 00:18:27,760

know people some people just don't they

476

00:18:32,070 --> 00:18:29,520

just make up stories

477

00:18:34,310 --> 00:18:32,080

um of what they are

478

00:18:36,870 --> 00:18:34,320

they are the hominins they have the brow

479

00:18:39,430 --> 00:18:36,880

ridge to see in the dark they utilize

480

00:18:41,669 --> 00:18:39,440

caves uh that type of height capability

481

00:18:43,430 --> 00:18:41,679

they follow the wild game

482

00:18:45,029 --> 00:18:43,440

and as my buddy robert kreider has

483

00:18:47,190 --> 00:18:45,039

pointed out time and time again a big

484

00:18:49,029 --> 00:18:47,200

part of what we do on forensic ground

485

00:18:50,789 --> 00:18:49,039

research is poop

486

00:18:52,310 --> 00:18:50,799

and that's how we determine what they're

487

00:18:53,510 --> 00:18:52,320

eating um

488

00:18:55,029 --> 00:18:53,520

the the

489

00:18:56,630 --> 00:18:55,039

the poop uh

490

00:18:57,909 --> 00:18:56,640

saying that there is a

491

00:18:59,990 --> 00:18:57,919

a wild

492

00:19:01,750 --> 00:19:00,000

or wild

493

00:19:03,990 --> 00:19:01,760

hominin and that's what i call them as a

494

00:19:05,029 --> 00:19:04,000

holonym because i'm thinking

495

00:19:07,669 --> 00:19:05,039

my

496

00:19:09,909 --> 00:19:07,679

sight it's not that it's linear

497

00:19:12,470 --> 00:19:09,919

um i do have an open mind to everything

498

00:19:14,870 --> 00:19:12,480

but the basic profile of what everybody

499

00:19:16,470 --> 00:19:14,880

has been dealing with out there is a

500

00:19:18,390 --> 00:19:16,480

hominin

501
00:19:19,590 --> 00:19:18,400
yes and that's basically it's just a

502
00:19:22,630 --> 00:19:19,600
version

503
00:19:23,750 --> 00:19:22,640
uh like i know that melva did the dna

504
00:19:26,710 --> 00:19:23,760
and so forth is that there's not

505
00:19:28,870 --> 00:19:26,720
neanderthal and so forth there but

506
00:19:30,950 --> 00:19:28,880
as we've been learning

507
00:19:31,669 --> 00:19:30,960
there's so many hominin species that are

508
00:19:34,150 --> 00:19:31,679
being

509
00:19:35,590 --> 00:19:34,160
unearthed now whether it's dragon man in

510
00:19:38,310 --> 00:19:35,600
china

511
00:19:41,029 --> 00:19:38,320
what's going on in alaska a trail has

512
00:19:42,950 --> 00:19:41,039
been started in denisova

513
00:19:45,110 --> 00:19:42,960

things that they didn't see these last

514

00:19:47,750 --> 00:19:45,120

couple years that the science didn't

515

00:19:50,470 --> 00:19:47,760

know about they found neanderthal bones

516

00:19:52,230 --> 00:19:50,480

in indonesia and just a few years ago

517

00:19:53,590 --> 00:19:52,240

that was unheard of no one thought they

518

00:19:54,470 --> 00:19:53,600

made it that far

519

00:19:57,430 --> 00:19:54,480

so

520

00:20:01,110 --> 00:19:57,440

clearly hominins were moving with the

521

00:20:03,270 --> 00:20:01,120

sub siberian populations as the

522

00:20:05,590 --> 00:20:03,280

ice melted in north america the natural

523

00:20:07,270 --> 00:20:05,600

disaster ceased they were able to come

524

00:20:09,350 --> 00:20:07,280

across the bering strait with those

525

00:20:11,350 --> 00:20:09,360

native american populations because a

526

00:20:13,029 --> 00:20:11,360

lot of people don't understand that's

527

00:20:15,750 --> 00:20:13,039

what came down

528

00:20:17,990 --> 00:20:15,760

out of siberia and those

529

00:20:20,870 --> 00:20:18,000

whether it be the inuit and so forth

530

00:20:23,669 --> 00:20:20,880

moved those native american populations

531

00:20:25,510 --> 00:20:23,679

came out of canada also south into the

532

00:20:27,350 --> 00:20:25,520

continental united states

533

00:20:28,149 --> 00:20:27,360

so the timeline

534

00:20:31,029 --> 00:20:28,159

that

535

00:20:33,270 --> 00:20:31,039

was given in the ketchum study for when

536

00:20:36,070 --> 00:20:33,280

this thing came about was just about in

537

00:20:38,070 --> 00:20:36,080

that in that timeline when the

538

00:20:41,350 --> 00:20:38,080

native migrations came through was which

539

00:20:42,710 --> 00:20:41,360

was about 15 000 20 000 years ago

540

00:20:44,070 --> 00:20:42,720

so i've always kind of stuck with the

541

00:20:46,630 --> 00:20:44,080

hominin theory

542

00:20:49,350 --> 00:20:46,640

i have i'm not denying the paranormal

543

00:20:50,230 --> 00:20:49,360

stuff because we've experienced it

544

00:20:53,190 --> 00:20:50,240

but

545

00:20:55,190 --> 00:20:53,200

as far as the living breathing thing

546

00:20:59,430 --> 00:20:55,200

that we have encountered and seen it's

547

00:21:00,870 --> 00:20:59,440

very similar to patty very similar

548

00:21:03,190 --> 00:21:00,880

you know i don't know about so much as

549

00:21:05,430 --> 00:21:03,200

far as the gate and the way it walks and

550

00:21:07,510 --> 00:21:05,440

so forth kind of goofy

551
00:21:09,590 --> 00:21:07,520
we haven't seen that but we've seen them

552
00:21:10,870 --> 00:21:09,600
in full retreat especially along the

553
00:21:14,950 --> 00:21:10,880
river

554
00:21:17,590 --> 00:21:14,960
whatever was making the food they move

555
00:21:19,110 --> 00:21:17,600
they move then they can cross the river

556
00:21:20,950 --> 00:21:19,120
and so forth

557
00:21:22,710 --> 00:21:20,960
so it's not like we just catch up to

558
00:21:25,029 --> 00:21:22,720
them like we just see them every time we

559
00:21:28,149 --> 00:21:25,039
go out or so forth there's little subtle

560
00:21:31,830 --> 00:21:28,159
things that you pick up on uh mainly

561
00:21:33,990 --> 00:21:31,840
audibles whoops um in that type breaking

562
00:21:35,430 --> 00:21:34,000
branches you know they're in your area

563
00:21:36,630 --> 00:21:35,440

sometimes they'll throw a rock it

564

00:21:39,909 --> 00:21:36,640

doesn't mean you're going to see them

565

00:21:41,830 --> 00:21:39,919

every time or or hear them

566

00:21:43,350 --> 00:21:41,840

so but i think they're hominins there's

567

00:21:45,590 --> 00:21:43,360

no question about that

568

00:21:47,510 --> 00:21:45,600

as far as all the others

569

00:21:50,549 --> 00:21:47,520

you know the stuff that let people label

570

00:21:51,750 --> 00:21:50,559

on them i'm not there yet i'm not uh

571

00:21:54,230 --> 00:21:51,760

even though i've exp i've been

572

00:21:56,789 --> 00:21:54,240

experiencing the paranormal since i was

573

00:22:00,149 --> 00:21:56,799

a sheriff's deputy in colorado because a

574

00:22:01,270 --> 00:22:00,159

thing that new deputies have to do is we

575

00:22:03,110 --> 00:22:01,280

have to go

576

00:22:04,710 --> 00:22:03,120

and work in the hospital sometimes we

577

00:22:07,750 --> 00:22:04,720

have to transport prisoners to the

578

00:22:10,710 --> 00:22:07,760

hospitals uh to have surgery or or if

579

00:22:12,549 --> 00:22:10,720

they're ill around sometimes they die

580

00:22:14,549 --> 00:22:12,559

so i worked at some of the biggest

581

00:22:16,630 --> 00:22:14,559

hospitals in colorado and i've had my

582

00:22:18,230 --> 00:22:16,640

fair share of ghosts and voices that

583

00:22:19,990 --> 00:22:18,240

just come out of thin air in the

584

00:22:21,590 --> 00:22:20,000

hospital so

585

00:22:24,390 --> 00:22:21,600

i was well accustomed to dealing with

586

00:22:28,149 --> 00:22:24,400

the paranormal before i got into this so

587

00:22:30,149 --> 00:22:28,159

i have a broad broad uh uh horizon

588

00:22:31,190 --> 00:22:30,159

mindset on all of that i mean i have an

589

00:22:33,590 --> 00:22:31,200

open mind

590

00:22:35,430 --> 00:22:33,600

but in the end what me and susan have

591

00:22:37,270 --> 00:22:35,440

seen in all the evidence points is that

592

00:22:38,830 --> 00:22:37,280

what i've been tracking is real it's

593

00:22:41,830 --> 00:22:38,840

living based on the

594

00:22:43,990 --> 00:22:41,840

poop in other things like that

595

00:22:46,789 --> 00:22:44,000

they do get sick

596

00:22:48,070 --> 00:22:46,799

also the food the diet

597

00:22:50,230 --> 00:22:48,080

i mean

598

00:22:52,870 --> 00:22:50,240

we find these little teepees a lot of

599

00:22:54,710 --> 00:22:52,880

people attributed these to juveniles

600

00:22:56,549 --> 00:22:54,720

doing it where you find a little tv just

601
00:22:59,190 --> 00:22:56,559
you know about five feet high or so

602
00:23:00,870 --> 00:22:59,200
maybe two feet high against a tree and

603
00:23:02,390 --> 00:23:00,880
it has other structures around it so

604
00:23:05,110 --> 00:23:02,400
people believe that has

605
00:23:06,710 --> 00:23:05,120
it is soft squatch and it is but a lot

606
00:23:09,270 --> 00:23:06,720
of times people don't take that apart

607
00:23:11,029 --> 00:23:09,280
and look at it that's basically those

608
00:23:13,270 --> 00:23:11,039
are food caches

609
00:23:15,270 --> 00:23:13,280
bigfoot doesn't need to mark a trail

610
00:23:17,029 --> 00:23:15,280
it's been

611
00:23:18,789 --> 00:23:17,039
you know going through up and down night

612
00:23:19,830 --> 00:23:18,799
after night night after night year after

613
00:23:21,430 --> 00:23:19,840

year

614

00:23:23,510 --> 00:23:21,440

it knows where it's going it doesn't

615

00:23:25,750 --> 00:23:23,520

need to mark trails so what they're

616

00:23:28,710 --> 00:23:25,760

doing is they're caching food inside

617

00:23:31,190 --> 00:23:28,720

these little cache points

618

00:23:34,549 --> 00:23:31,200

robert greiter had pointed out same

619

00:23:37,190 --> 00:23:34,559

thing that they stash food in rocks

620

00:23:39,669 --> 00:23:37,200

stacks and against crevices rock

621

00:23:42,149 --> 00:23:39,679

shelters and so forth

622

00:23:44,549 --> 00:23:42,159

berries nuts leaves small game

623

00:23:45,750 --> 00:23:44,559

things like that and we have found that

624

00:23:48,149 --> 00:23:45,760

so

625

00:23:49,669 --> 00:23:48,159

the paranormal sasquatch is not doing

626
00:23:51,110 --> 00:23:49,679
that

627
00:23:52,710 --> 00:23:51,120
and there's just no way around all the

628
00:23:54,310 --> 00:23:52,720
data that we have

629
00:23:55,510 --> 00:23:54,320
shows that there's whatever we're

630
00:23:58,789 --> 00:23:55,520
tracking

631
00:24:00,390 --> 00:23:58,799
with 16-inch prints is doing that so

632
00:24:01,990 --> 00:24:00,400
there is a real living

633
00:24:02,830 --> 00:24:02,000
side to these

634
00:24:05,909 --> 00:24:02,840
no

635
00:24:08,390 --> 00:24:05,919
question definitely and i'm glad you

636
00:24:10,950 --> 00:24:08,400
brought up robert kreider because he is

637
00:24:12,230 --> 00:24:10,960
someone who in my experience is very

638
00:24:14,549 --> 00:24:12,240

valid and

639

00:24:17,350 --> 00:24:14,559

you know it does seem as if these

640

00:24:19,510 --> 00:24:17,360

creatures really like the waterways i'm

641

00:24:21,510 --> 00:24:19,520

glad you brought up the paranormal topic

642

00:24:22,950 --> 00:24:21,520

of bigfoot and

643

00:24:24,630 --> 00:24:22,960

you know a lot of people merge that with

644

00:24:26,470 --> 00:24:24,640

shapeshifters wendigos and other

645

00:24:28,630 --> 00:24:26,480

mythical creatures and it sometimes

646

00:24:29,750 --> 00:24:28,640

spills over into the bigfoot arena of

647

00:24:32,710 --> 00:24:29,760

research

648

00:24:34,549 --> 00:24:32,720

have you had any paranormal experiences

649

00:24:36,230 --> 00:24:34,559

with dimensional entities when out in

650

00:24:37,990 --> 00:24:36,240

the field and if not do you think that

651
00:24:40,310 --> 00:24:38,000
they should be grouped in to the same

652
00:24:42,950 --> 00:24:40,320
field of study

653
00:24:45,590 --> 00:24:42,960
yes we have uh susan when she joined me

654
00:24:48,149 --> 00:24:45,600
in 2016 had an encounter with a being

655
00:24:49,669 --> 00:24:48,159
that it was following her it was getting

656
00:24:50,789 --> 00:24:49,679
dark she was making her way to the

657
00:24:51,669 --> 00:24:50,799
trailhead

658
00:24:53,190 --> 00:24:51,679
um

659
00:24:55,430 --> 00:24:53,200
and she turned around and got its

660
00:24:57,669 --> 00:24:55,440
picture we did the analysis on that

661
00:25:00,390 --> 00:24:57,679
picture and it looks like a big giant 15

662
00:25:01,830 --> 00:25:00,400
foot tall huge massive bigfoot

663
00:25:04,549 --> 00:25:01,840

smiling at her

664

00:25:06,789 --> 00:25:04,559

wearing a necklace crypto four corners

665

00:25:09,269 --> 00:25:06,799

uh some of their people also did work on

666

00:25:10,470 --> 00:25:09,279

the photograph they looked at it

667

00:25:13,669 --> 00:25:10,480

made sure you know we weren't

668

00:25:15,269 --> 00:25:13,679

photoshopping and pulling any of that

669

00:25:17,269 --> 00:25:15,279

type of stuff

670

00:25:20,310 --> 00:25:17,279

and they did the breakdown and liked

671

00:25:23,830 --> 00:25:21,750

i didn't know what to do with those at

672

00:25:26,070 --> 00:25:23,840

the time

673

00:25:29,350 --> 00:25:26,080

coming from my background

674

00:25:31,350 --> 00:25:29,360

so we consulted some psychic friends uh

675

00:25:33,590 --> 00:25:31,360

of ours here in colorado

676
00:25:34,710 --> 00:25:33,600
um and they helped us through the

677
00:25:37,269 --> 00:25:34,720
process

678
00:25:42,070 --> 00:25:37,279
susan actually is very psychic herself

679
00:25:44,310 --> 00:25:42,080
she has a background and a lot of um

680
00:25:46,470 --> 00:25:44,320
everything from removing viewing to

681
00:25:48,710 --> 00:25:46,480
parapsychology to so forth she's very

682
00:25:51,590 --> 00:25:48,720
educated on on just about all of that

683
00:25:53,750 --> 00:25:51,600
and the paranormal topics so

684
00:25:55,830 --> 00:25:53,760
uh but we always need help we need

685
00:25:57,750 --> 00:25:55,840
second third opinions and so forth so we

686
00:26:00,149 --> 00:25:57,760
took the pictures that we had been

687
00:26:02,789 --> 00:26:00,159
capturing it wasn't just one time i had

688
00:26:05,830 --> 00:26:02,799

caught several strange looking like

689

00:26:06,870 --> 00:26:05,840

demonic bat looking creatures out there

690

00:26:08,830 --> 00:26:06,880

uh

691

00:26:11,430 --> 00:26:08,840

turns out you know it sits on a

692

00:26:13,430 --> 00:26:11,440

graveyard um there is i guess what

693

00:26:15,909 --> 00:26:13,440

people would call a natural portal there

694

00:26:17,029 --> 00:26:15,919

but the native americans would move

695

00:26:19,190 --> 00:26:17,039

through there but they didn't like to

696

00:26:20,789 --> 00:26:19,200

hold up there for too long something was

697

00:26:25,470 --> 00:26:20,799

scaring them out of there

698

00:26:28,149 --> 00:26:25,480

um i believe that there was a pre

699

00:26:30,070 --> 00:26:28,159

pre-pre-apache civilization that existed

700

00:26:31,990 --> 00:26:30,080

in there

701
00:26:32,870 --> 00:26:32,000
because the artifacts seem to suggest

702
00:26:36,470 --> 00:26:32,880
that

703
00:26:39,350 --> 00:26:36,480
university of colorado has done in the

704
00:26:43,669 --> 00:26:39,360
area go back to the archaic period

705
00:26:45,750 --> 00:26:43,679
um we have dinosaur prints out there

706
00:26:48,149 --> 00:26:45,760
now the paranormal one i want to touch

707
00:26:51,430 --> 00:26:48,159
on is there was a thing where the bfr

708
00:26:53,350 --> 00:26:51,440
bfro had released a video from somewhere

709
00:26:55,669 --> 00:26:53,360
that they had got i believe isn't

710
00:26:57,510 --> 00:26:55,679
not sure where it was it's just new

711
00:26:59,510 --> 00:26:57,520
where you see an entity kind of bouncing

712
00:27:02,390 --> 00:26:59,520
around like a monkey off in the distance

713
00:27:05,830 --> 00:27:02,400

but it's it's transparent and it's it

714

00:27:07,669 --> 00:27:05,840

looks like it's on a on a camera a

715

00:27:10,149 --> 00:27:07,679

security camera maybe

716

00:27:12,549 --> 00:27:10,159

and it's bouncing around out there

717

00:27:16,390 --> 00:27:12,559

that is a poltergeist in the in the

718

00:27:18,870 --> 00:27:16,400

paranormal community the people that do

719

00:27:21,350 --> 00:27:18,880

any type of that cleansing psychic

720

00:27:23,350 --> 00:27:21,360

cleansings of homes deal with ghosts

721

00:27:25,190 --> 00:27:23,360

spirits and other type of entities

722

00:27:27,590 --> 00:27:25,200

demons

723

00:27:29,110 --> 00:27:27,600

that is what's known as a poltergeist

724

00:27:31,590 --> 00:27:29,120

and

725

00:27:33,590 --> 00:27:31,600

that is a big that is a big part of the

726
00:27:34,630 --> 00:27:33,600
bigfoot community and the reason why is

727
00:27:36,950 --> 00:27:34,640
this

728
00:27:38,549 --> 00:27:36,960
if you're out in the forest all

729
00:27:42,470 --> 00:27:38,559
especially in let's

730
00:27:44,310 --> 00:27:42,480
colorado it has its old west history

731
00:27:45,830 --> 00:27:44,320
there were gunfights over gold people

732
00:27:47,669 --> 00:27:45,840
just died right there sometimes people

733
00:27:48,950 --> 00:27:47,679
didn't get buried in these gun fights

734
00:27:51,110 --> 00:27:48,960
with

735
00:27:53,990 --> 00:27:51,120
native americans and gold miners the

736
00:27:55,590 --> 00:27:54,000
army um you know colorado has a very

737
00:27:57,190 --> 00:27:55,600
violent beginning

738
00:27:58,870 --> 00:27:57,200

and

739

00:28:00,789 --> 00:27:58,880

so it's haunted ground everywhere we

740

00:28:02,549 --> 00:28:00,799

have ghost towns everywhere and it is

741

00:28:03,669 --> 00:28:02,559

really haunted so

742

00:28:06,230 --> 00:28:03,679

um

743

00:28:08,630 --> 00:28:06,240

a big question about all that is with

744

00:28:10,549 --> 00:28:08,640

bigfoot is do they are they attracted to

745

00:28:12,789 --> 00:28:10,559

that energy

746

00:28:14,630 --> 00:28:12,799

sure bigfoot's going to see the ghosts

747

00:28:16,630 --> 00:28:14,640

the spirits the indian spirits if

748

00:28:18,950 --> 00:28:16,640

they're around especially around indian

749

00:28:21,029 --> 00:28:18,960

graveyards they're gonna enter i do they

750

00:28:23,110 --> 00:28:21,039

interact with it who knows

751
00:28:24,950 --> 00:28:23,120
um

752
00:28:27,590 --> 00:28:24,960
i mean i'm sure they're curious about it

753
00:28:28,389 --> 00:28:27,600
and somehow they interact with it

754
00:28:30,549 --> 00:28:28,399
or

755
00:28:32,470 --> 00:28:30,559
are they that tribal and bigfoot have

756
00:28:35,269 --> 00:28:32,480
their own shamans and so forth they're

757
00:28:37,909 --> 00:28:35,279
medicine people that interact with uh

758
00:28:39,830 --> 00:28:37,919
portals um because the the thing about

759
00:28:42,389 --> 00:28:39,840
the thing with the paranormal is the

760
00:28:44,389 --> 00:28:42,399
ground uh and i'll just come out and say

761
00:28:46,470 --> 00:28:44,399
at the state park that we

762
00:28:47,830 --> 00:28:46,480
work in is called castlewood canyon

763
00:28:50,789 --> 00:28:47,840

state park

764

00:28:53,909 --> 00:28:50,799

and it's set up canyons that were used

765

00:28:56,389 --> 00:28:53,919

by native americans eons ago to bury

766

00:28:59,590 --> 00:28:56,399

their dead do ritual and so forth

767

00:29:01,830 --> 00:28:59,600

the area is extremely haunted it sits on

768

00:29:04,149 --> 00:29:01,840

a ley line

769

00:29:06,470 --> 00:29:04,159

everything that it sits on

770

00:29:07,269 --> 00:29:06,480

has to do with what's there

771

00:29:16,789 --> 00:29:07,279

the

772

00:29:19,430 --> 00:29:16,799

county attributed

773

00:29:21,830 --> 00:29:19,440

attributes it to a a gentleman that they

774

00:29:23,430 --> 00:29:21,840

found with his head ripped off in his

775

00:29:24,830 --> 00:29:23,440

arms and his legs underneath the bridge

776

00:29:26,630 --> 00:29:24,840

and i believe it was

777

00:29:29,990 --> 00:29:26,640

uh

778

00:29:32,710 --> 00:29:30,000

my notes it's 1964 i believe

779

00:29:34,070 --> 00:29:32,720

anyways so and that's for the park it

780

00:29:35,669 --> 00:29:34,080

really opened

781

00:29:38,630 --> 00:29:35,679

very rural area

782

00:29:40,470 --> 00:29:38,640

um nobody ever was tried or convicted in

783

00:29:42,549 --> 00:29:40,480

his murder i knew it was that the

784

00:29:44,230 --> 00:29:42,559

bigfoot had moved through the area

785

00:29:45,350 --> 00:29:44,240

in the first place

786

00:29:46,950 --> 00:29:45,360

so

787

00:29:48,470 --> 00:29:46,960

you know we have experienced uh

788

00:29:50,230 --> 00:29:48,480

different stuff and we usually capture

789

00:29:52,230 --> 00:29:50,240

it on camera

790

00:29:53,830 --> 00:29:52,240

well we have had

791

00:29:56,070 --> 00:29:53,840

other paranormal experiences in

792

00:29:58,070 --> 00:29:56,080

different areas but here

793

00:29:59,909 --> 00:29:58,080

i had to come to a determination to

794

00:30:02,950 --> 00:29:59,919

figure out what was showing up on our

795

00:30:04,789 --> 00:30:02,960

camera because we would go out and i was

796

00:30:07,110 --> 00:30:04,799

i've always done what i've always done

797

00:30:09,430 --> 00:30:07,120

the same as like timber giant bigfoot or

798

00:30:11,510 --> 00:30:09,440

other guys that do field research with a

799

00:30:14,789 --> 00:30:11,520

video camera i just go out there turn my

800

00:30:16,789 --> 00:30:14,799

camera on and do a split a segment

801
00:30:18,549 --> 00:30:16,799
and walk around and show you an area if

802
00:30:20,470 --> 00:30:18,559
i find some found something odd i'll

803
00:30:22,310 --> 00:30:20,480
show it on the video and so forth

804
00:30:24,230 --> 00:30:22,320
but a big thing that timber giant

805
00:30:25,830 --> 00:30:24,240
bigfoot started was people started

806
00:30:27,669 --> 00:30:25,840
saying you got stuff moving on around

807
00:30:28,950 --> 00:30:27,679
you behind you and to the sides of you

808
00:30:30,070 --> 00:30:28,960
and your peripheral that you're not

809
00:30:32,310 --> 00:30:30,080
noticing

810
00:30:34,070 --> 00:30:32,320
so we started doing that and looking

811
00:30:35,510 --> 00:30:34,080
slowing our videos down and looking at

812
00:30:39,510 --> 00:30:35,520
that

813
00:30:42,789 --> 00:30:39,520

lesson

814

00:30:44,789 --> 00:30:42,799

uh in cameras i had to learn

815

00:30:47,350 --> 00:30:44,799

the inner workings modern digital

816

00:30:49,510 --> 00:30:47,360

cameras and to understand what was

817

00:30:52,389 --> 00:30:49,520

exactly going on because there is a lot

818

00:30:53,750 --> 00:30:52,399

of huxtree with that

819

00:30:55,830 --> 00:30:53,760

and there's a lot of times i had to

820

00:30:57,509 --> 00:30:55,840

debunk myself

821

00:31:00,070 --> 00:30:57,519

things that i originally maybe had

822

00:31:02,070 --> 00:31:00,080

thought early on

823

00:31:04,230 --> 00:31:02,080

were related to the big fat activity i

824

00:31:06,630 --> 00:31:04,240

was investigating weren't they were

825

00:31:09,430 --> 00:31:06,640

created by the camera and panning

826

00:31:11,269 --> 00:31:09,440

effects and so forth

827

00:31:12,870 --> 00:31:11,279

because cameras are pretty sophisticated

828

00:31:15,750 --> 00:31:12,880

and they have us

829

00:31:17,430 --> 00:31:15,760

back in 2010 when all of this began the

830

00:31:19,590 --> 00:31:17,440

cameras that had come out at that time

831

00:31:21,830 --> 00:31:19,600

weren't very good they were running a

832

00:31:24,149 --> 00:31:21,840

little cmos sensor inside of them with a

833

00:31:26,149 --> 00:31:24,159

facial recognition chip i mean if you

834

00:31:29,430 --> 00:31:26,159

panned around too quick and they were

835

00:31:30,789 --> 00:31:29,440

only pushing 720p in 2010

836

00:31:32,950 --> 00:31:30,799

sometimes you know if you paid good

837

00:31:34,789 --> 00:31:32,960

money you got a 1080p

838

00:31:37,830 --> 00:31:34,799

uh but after video gets compressed and

839

00:31:39,990 --> 00:31:37,840

so forth it kicked it back down to 720p

840

00:31:43,029 --> 00:31:40,000

so panning around and so forth created

841

00:31:45,029 --> 00:31:43,039

smoky phantoms and so forth and so it

842

00:31:47,350 --> 00:31:45,039

became a process once i learned that i

843

00:31:49,190 --> 00:31:47,360

could decipher what actually was real

844

00:31:50,149 --> 00:31:49,200

and going on and what wasn't that helped

845

00:31:52,149 --> 00:31:50,159

a lot

846

00:31:55,430 --> 00:31:52,159

because i was starting to kind of fall

847

00:31:57,190 --> 00:31:55,440

into the drain of the blob squatch

848

00:31:59,590 --> 00:31:57,200

what happens is once you get caught in

849

00:32:00,389 --> 00:31:59,600

that it's very hard to get out of that

850

00:32:02,630 --> 00:32:00,399

so

851

00:32:05,190 --> 00:32:02,640

in order for me to do that i had to go

852

00:32:06,789 --> 00:32:05,200

back to the beginning and focus on the

853

00:32:09,669 --> 00:32:06,799

forensics

854

00:32:10,630 --> 00:32:09,679

of basic tactical man tracking

855

00:32:12,070 --> 00:32:10,640

and

856

00:32:13,990 --> 00:32:12,080

that was that

857

00:32:14,710 --> 00:32:14,000

yeah

858

00:32:16,789 --> 00:32:14,720

the

859

00:32:19,350 --> 00:32:16,799

mark before i'm glad you mentioned some

860

00:32:21,590 --> 00:32:19,360

things um before the show i sent you a

861

00:32:23,669 --> 00:32:21,600

couple of links to some new photos and

862

00:32:25,350 --> 00:32:23,679

videos being analyzed by the community

863

00:32:27,509 --> 00:32:25,360

and your opinion means a lot to me and

864

00:32:30,470 --> 00:32:27,519

others in your approximation there's

865

00:32:32,070 --> 00:32:30,480

been a lot of new stuff coming out and

866

00:32:34,389 --> 00:32:32,080

what you mentioned about the guy getting

867

00:32:36,389 --> 00:32:34,399

his head ripped off reminded me of a

868

00:32:38,549 --> 00:32:36,399

very odd story

869

00:32:41,750 --> 00:32:38,559

um you may have heard of i believe it

870

00:32:43,190 --> 00:32:41,760

was marijuana farmers uh up in the north

871

00:32:45,590 --> 00:32:43,200

east who

872

00:32:47,509 --> 00:32:45,600

encountered kind of a similar scenario

873

00:32:50,630 --> 00:32:47,519

and they called law enforcement which is

874

00:32:53,350 --> 00:32:50,640

sort of against what marijuana farmers

875

00:32:55,750 --> 00:32:53,360

do but there's a lot of new photos and

876

00:32:58,789 --> 00:32:55,760

videos and situations being analyzed by

877

00:33:01,350 --> 00:32:58,799

the community a lot of it seems very

878

00:33:03,830 --> 00:33:01,360

interesting what are your thoughts on a

879

00:33:06,549 --> 00:33:03,840

lot of the new info coming out

880

00:33:10,549 --> 00:33:06,559

well as i brought up the new video that

881

00:33:12,149 --> 00:33:10,559

the bfro had posted that's a poltergeist

882

00:33:14,310 --> 00:33:12,159

any ghost owner is going to tell you

883

00:33:16,630 --> 00:33:14,320

that that's what it is and it's kind of

884

00:33:18,310 --> 00:33:16,640

replaying whatever it's doing by hopping

885

00:33:19,909 --> 00:33:18,320

around over there like a rabbit whatever

886

00:33:21,430 --> 00:33:19,919

it's doing in the distance messing

887

00:33:23,509 --> 00:33:21,440

around on the ground

888

00:33:25,269 --> 00:33:23,519

so i had made the comment on whatever

889

00:33:26,630 --> 00:33:25,279

group i had commented i forgot it was

890

00:33:29,990 --> 00:33:26,640

this morning i said i got a hundred

891

00:33:31,590 --> 00:33:30,000

bucks says his grave is nearby

892

00:33:33,350 --> 00:33:31,600

you go poking around you're gonna find a

893

00:33:35,590 --> 00:33:33,360

little grave and that's what that is and

894

00:33:38,950 --> 00:33:35,600

his spirit is restless and still there

895

00:33:41,590 --> 00:33:38,960

because it's i mean i i that's

896

00:33:43,110 --> 00:33:41,600

it opens up a whole pandora's box

897

00:33:44,710 --> 00:33:43,120

but when you're a paranormal

898

00:33:47,029 --> 00:33:44,720

investigator you kind of have to

899

00:33:48,870 --> 00:33:47,039

categorize these things and put them in

900

00:33:51,269 --> 00:33:48,880

the right place because what happens is

901
00:33:53,509 --> 00:33:51,279
it's called the flights of fancy and

902
00:33:55,990 --> 00:33:53,519
your imagination will just take off in

903
00:33:57,350 --> 00:33:56,000
all kinds of directions and things are

904
00:33:59,509 --> 00:33:57,360
coming at you

905
00:34:02,950 --> 00:33:59,519
because of that information is coming at

906
00:34:05,830 --> 00:34:02,960
you and you're not deciphering

907
00:34:08,389 --> 00:34:05,840
fact from from you know fiction sure and

908
00:34:10,710 --> 00:34:08,399
that happens that's just part of

909
00:34:13,190 --> 00:34:10,720
you know trying to explain humans always

910
00:34:16,790 --> 00:34:13,200
trying to explain the paranormal

911
00:34:19,510 --> 00:34:16,800
um there is still a lot of that going on

912
00:34:22,629 --> 00:34:19,520
i mean i understand like i said

913
00:34:24,149 --> 00:34:22,639

the paranormal stuff um it does happen

914

00:34:25,190 --> 00:34:24,159

but

915

00:34:26,149 --> 00:34:25,200

it's

916

00:34:31,109 --> 00:34:26,159

i

917

00:34:32,950 --> 00:34:31,119

race

918

00:34:34,310 --> 00:34:32,960

and people have laughed at me and said

919

00:34:36,149 --> 00:34:34,320

you're suggesting there's an

920

00:34:38,310 --> 00:34:36,159

undiscovered race living out there in

921

00:34:39,909 --> 00:34:38,320

the wilds in colorado and i'm saying

922

00:34:41,990 --> 00:34:39,919

well yeah basically that's what i'm

923

00:34:44,230 --> 00:34:42,000

saying and they are an undiscovered race

924

00:34:45,510 --> 00:34:44,240

population who knows it's going to be

925

00:34:46,829 --> 00:34:45,520

high because

926
00:34:49,190 --> 00:34:46,839
it's booming in

927
00:34:51,990 --> 00:34:49,200
colorado uh but yeah the community

928
00:34:54,069 --> 00:34:52,000
itself in in in you kind of have to

929
00:34:55,990 --> 00:34:54,079
understand trends when you've been doing

930
00:34:57,670 --> 00:34:56,000
this a long time for the people who've

931
00:35:00,150 --> 00:34:57,680
been doing big for a long time we've

932
00:35:02,230 --> 00:35:00,160
seen a lot of things come and go a lot

933
00:35:03,589 --> 00:35:02,240
in a short period of time everything

934
00:35:06,310 --> 00:35:03,599
from

935
00:35:08,190 --> 00:35:06,320
world-class hoaxers to to catch and

936
00:35:10,950 --> 00:35:08,200
study to

937
00:35:12,710 --> 00:35:10,960
personalities that have come and gone

938
00:35:16,069 --> 00:35:12,720

passed away to

939

00:35:16,950 --> 00:35:16,079

new information new insights and trends

940

00:35:25,829 --> 00:35:16,960

and

941

00:35:27,990 --> 00:35:25,839

where they came from

942

00:35:29,910 --> 00:35:28,000

when when things get too out of control

943

00:35:31,750 --> 00:35:29,920

like that and people can't make a sense

944

00:35:34,550 --> 00:35:31,760

of really what they believe like you

945

00:35:37,109 --> 00:35:34,560

know ascribing the nephilim from the

946

00:35:38,710 --> 00:35:37,119

bible to sasquatch

947

00:35:39,910 --> 00:35:38,720

in the a lot of the people that have

948

00:35:41,910 --> 00:35:39,920

done that

949

00:35:44,390 --> 00:35:41,920

haven't done the homework on hominins

950

00:35:47,349 --> 00:35:44,400

and so forth they haven't done the the

951
00:35:48,310 --> 00:35:47,359
scientific they're not even aware

952
00:35:51,030 --> 00:35:48,320
that

953
00:35:53,030 --> 00:35:51,040
the chinese found dragon man or

954
00:35:55,190 --> 00:35:53,040
new hominin species in germany have

955
00:35:57,430 --> 00:35:55,200
shown up they're not even aware of that

956
00:35:59,190 --> 00:35:57,440
and all of that has to do

957
00:36:01,190 --> 00:35:59,200
with what what we're dealing with here

958
00:36:03,030 --> 00:36:01,200
because it's not some

959
00:36:05,190 --> 00:36:03,040
yes there are the native american

960
00:36:07,349 --> 00:36:05,200
stories people always refer to that and

961
00:36:09,190 --> 00:36:07,359
say well the native americans that i

962
00:36:11,589 --> 00:36:09,200
know said it's a spiritual being and

963
00:36:13,510 --> 00:36:11,599

it's not real well the cheyenne indians

964

00:36:15,589 --> 00:36:13,520

never said that and they were the first

965

00:36:18,069 --> 00:36:15,599

really major

966

00:36:19,670 --> 00:36:18,079

major tribe to start moving across from

967

00:36:21,430 --> 00:36:19,680

north america as they came down with the

968

00:36:23,430 --> 00:36:21,440

black feet and canada and they

969

00:36:25,990 --> 00:36:23,440

eventually ended up in montana but they

970

00:36:26,950 --> 00:36:26,000

traveled all across yosemite

971

00:36:29,349 --> 00:36:26,960

and uh

972

00:36:30,950 --> 00:36:29,359

all through yosemite with cheyenne

973

00:36:32,950 --> 00:36:30,960

in the shine clearly state in their

974

00:36:35,030 --> 00:36:32,960

creation story that the hairy ones the

975

00:36:36,710 --> 00:36:35,040

hairy people they didn't intermingle

976

00:36:38,710 --> 00:36:36,720

with them and

977

00:36:40,230 --> 00:36:38,720

there weren't green blue red lights

978

00:36:42,390 --> 00:36:40,240

coming out of the sky and picking them

979

00:36:44,790 --> 00:36:42,400

up they pretty much kept to themselves

980

00:36:46,550 --> 00:36:44,800

and stayed in their caves

981

00:36:49,030 --> 00:36:46,560

and that's basically what we're dealing

982

00:36:51,829 --> 00:36:49,040

with in colorado i have an isolated race

983

00:36:53,109 --> 00:36:51,839

of hairy beings of hominins that stick

984

00:36:56,150 --> 00:36:53,119

to the cave

985

00:36:58,390 --> 00:36:56,160

and they do come close into the towns um

986

00:37:00,390 --> 00:36:58,400

part of that has to do like within daily

987

00:37:01,910 --> 00:37:00,400

colorado has to do with resources you

988

00:37:04,069 --> 00:37:01,920

know a lot of the mountain towns are

989

00:37:04,950 --> 00:37:04,079

built around a river and that's where

990

00:37:06,630 --> 00:37:04,960

you're going to be you're going to have

991

00:37:09,270 --> 00:37:06,640

your game and fish that's going to stock

992

00:37:11,430 --> 00:37:09,280

the rivers uh with fish which is going

993

00:37:13,589 --> 00:37:11,440

to attract the deer and

994

00:37:15,349 --> 00:37:13,599

the reptiles and every other type of

995

00:37:16,950 --> 00:37:15,359

fauna and that's basically how

996

00:37:19,430 --> 00:37:16,960

communities in the in the rockies are

997

00:37:20,950 --> 00:37:19,440

built around is that water source so the

998

00:37:22,790 --> 00:37:20,960

sasquatch is going to be right there in

999

00:37:23,750 --> 00:37:22,800

their perimeter to living amongst the

1000

00:37:25,190 --> 00:37:23,760

people

1001

00:37:27,190 --> 00:37:25,200

so they get close

1002

00:37:28,470 --> 00:37:27,200

uh enough because it's a sharing of

1003

00:37:30,390 --> 00:37:28,480

resources

1004

00:37:33,270 --> 00:37:30,400

that's why they're there

1005

00:37:35,109 --> 00:37:33,280

but it's not it's not brain surgery

1006

00:37:38,230 --> 00:37:35,119

the like i said the other paranormal

1007

00:37:39,910 --> 00:37:38,240

stuff has always been there um

1008

00:37:42,150 --> 00:37:39,920

you know me and susan have been to some

1009

00:37:44,710 --> 00:37:42,160

places in the rockies with the where the

1010

00:37:47,829 --> 00:37:44,720

historical content is really rich i mean

1011

00:37:49,430 --> 00:37:47,839

a lot of outlaws and gold miners stuff

1012

00:37:51,430 --> 00:37:49,440

like that

1013

00:37:54,550 --> 00:37:51,440

we've actually seen

1014

00:37:56,710 --> 00:37:54,560

well susan actually saw this uh we were

1015

00:37:58,950 --> 00:37:56,720

standing on the banks of the platte

1016

00:38:01,270 --> 00:37:58,960

river and she said look over there do

1017

00:38:02,950 --> 00:38:01,280

you see that and i said what and i

1018

00:38:03,910 --> 00:38:02,960

didn't see anything and she said there's

1019

00:38:55,510 --> 00:38:03,920

a

1020

00:38:57,109 --> 00:38:55,520

um

1021

00:38:59,270 --> 00:38:57,119

and a lot of times i think it's a

1022

00:39:01,750 --> 00:38:59,280

misidentification people ascribe that to

1023

00:39:05,589 --> 00:39:01,760

being a bigfoot and

1024

00:39:07,829 --> 00:39:05,599

yeah a bigfoot a bigfoot to us is

1025

00:39:10,950 --> 00:39:07,839

is what we're finding the prince in the

1026
00:39:13,589 --> 00:39:10,960
uh and what we've seen in here audibly

1027
00:39:16,510 --> 00:39:13,599
they've talked to us we've heard them

1028
00:39:19,190 --> 00:39:16,520
shout phrases to us no telepathic not

1029
00:39:21,750 --> 00:39:19,200
telepathically not that what people call

1030
00:39:24,870 --> 00:39:21,760
woo we've actually heard the things bark

1031
00:39:26,150 --> 00:39:24,880
phrases out at us before

1032
00:39:29,270 --> 00:39:26,160
amazing

1033
00:39:30,550 --> 00:39:29,280
and you're right over the years uh a lot

1034
00:39:32,069 --> 00:39:30,560
of things have come and gone in the

1035
00:39:34,710 --> 00:39:32,079
bigfoot community

1036
00:39:37,270 --> 00:39:34,720
uh one thing one controversy over the

1037
00:39:38,230 --> 00:39:37,280
years that the bigfoot community has

1038
00:39:40,550 --> 00:39:38,240

well

1039

00:39:43,270 --> 00:39:40,560

had and still struggles with

1040

00:39:45,750 --> 00:39:43,280

is the need to have a viable corpse or

1041

00:39:48,310 --> 00:39:45,760

body for science and this has exploded

1042

00:39:50,150 --> 00:39:48,320

into almost a political debate

1043

00:39:52,470 --> 00:39:50,160

in your expert opinion is this something

1044

00:39:55,270 --> 00:39:52,480

you believe is necessary

1045

00:39:57,349 --> 00:39:55,280

what what i believe the next evolution

1046

00:39:59,270 --> 00:39:57,359

for bigfoot research and i want to be

1047

00:40:01,589 --> 00:39:59,280

involved in it in any way that i can if

1048

00:40:02,550 --> 00:40:01,599

i can find a route is search for the

1049

00:40:05,589 --> 00:40:02,560

bones

1050

00:40:07,430 --> 00:40:05,599

i like as i mentioned before i believe

1051
00:40:10,230 --> 00:40:07,440
in the hominid discoveries that have

1052
00:40:12,309 --> 00:40:10,240
been moving slowly east right to us it

1053
00:40:15,430 --> 00:40:12,319
started in alaska

1054
00:40:17,990 --> 00:40:15,440
the uh now it's moved back in my area

1055
00:40:19,990 --> 00:40:18,000
and i need to find out why douglas

1056
00:40:21,510 --> 00:40:20,000
county is digging in caves again they're

1057
00:40:23,430 --> 00:40:21,520
looking for something and beyond

1058
00:40:25,510 --> 00:40:23,440
arrowheads i know they are because

1059
00:40:28,790 --> 00:40:25,520
that's a big project and it takes a huge

1060
00:40:32,870 --> 00:40:28,800
federal grant to start doing that

1061
00:40:34,950 --> 00:40:32,880
um so that is the next evolution of

1062
00:40:36,710 --> 00:40:34,960
and i actually have more interesting

1063
00:40:39,750 --> 00:40:36,720

stories about that

1064

00:40:41,510 --> 00:40:39,760

um historically but i believe that's

1065

00:40:45,190 --> 00:40:41,520

where we need to be focusing is not the

1066

00:40:46,550 --> 00:40:45,200

dna not extracting dna from nests um and

1067

00:40:48,630 --> 00:40:46,560

doing things like that where we're

1068

00:40:50,470 --> 00:40:48,640

really kind of like pushing pushing

1069

00:40:51,750 --> 00:40:50,480

pushing trying to find something it's

1070

00:40:54,470 --> 00:40:51,760

like you're almost reaching and

1071

00:40:56,230 --> 00:40:54,480

searching the bones if we can locate and

1072

00:40:59,030 --> 00:40:56,240

prove that there was that hominids did

1073

00:41:00,309 --> 00:40:59,040

here exist in north america uh then

1074

00:41:02,790 --> 00:41:00,319

we're on our way

1075

00:41:04,470 --> 00:41:02,800

uh because we'll find the giants now

1076

00:41:07,670 --> 00:41:04,480

there's all kinds of conspiracies out

1077

00:41:09,750 --> 00:41:07,680

there about why um because of native law

1078

00:41:11,990 --> 00:41:09,760

and other things so for tribal law in

1079

00:41:14,150 --> 00:41:12,000

the united states they can't dig up huge

1080

00:41:15,829 --> 00:41:14,160

mounds and so forth to see what's in

1081

00:41:19,510 --> 00:41:15,839

those huge mounds

1082

00:41:21,990 --> 00:41:19,520

but ground penetrating radar can work um

1083

00:41:23,589 --> 00:41:22,000

the problem is is that this is like new

1084

00:41:24,870 --> 00:41:23,599

this is almost like virgin territory

1085

00:41:25,990 --> 00:41:24,880

because

1086

00:41:27,270 --> 00:41:26,000

there hasn't been a whole lot of

1087

00:41:30,470 --> 00:41:27,280

archaeology

1088

00:41:33,349 --> 00:41:30,480

for this type stuff in um

1089

00:41:34,870 --> 00:41:33,359

in north america now hominology

1090

00:41:36,390 --> 00:41:34,880

typically what archaeologists and

1091

00:41:39,510 --> 00:41:36,400

anthropologists do is they're looking

1092

00:41:41,190 --> 00:41:39,520

for pottery shards in baskets basket

1093

00:41:42,309 --> 00:41:41,200

weaving and pottery shards is how we

1094

00:41:44,710 --> 00:41:42,319

determine

1095

00:41:47,109 --> 00:41:44,720

uh an anthropology where certain native

1096

00:41:49,430 --> 00:41:47,119

populations moved migrated to and so

1097

00:41:51,190 --> 00:41:49,440

forth because they based on the type of

1098

00:41:53,910 --> 00:41:51,200

pottery they made i mean that's pretty

1099

00:41:56,470 --> 00:41:53,920

much how archaeology works they have not

1100

00:41:59,910 --> 00:41:56,480

been looking for

1101

00:42:00,790 --> 00:41:59,920

the bones of a buried hominin

1102

00:42:03,990 --> 00:42:00,800

like

1103

00:42:05,349 --> 00:42:04,000

homo heidelbergensis in the pit of bones

1104

00:42:07,829 --> 00:42:05,359

in spain

1105

00:42:09,430 --> 00:42:07,839

i believe with all my heart that that is

1106

00:42:10,790 --> 00:42:09,440

what is going to be the next major

1107

00:42:12,230 --> 00:42:10,800

breakthrough in north america and

1108

00:42:13,510 --> 00:42:12,240

bigfoot research is we're going to

1109

00:42:16,630 --> 00:42:13,520

discover

1110

00:42:18,230 --> 00:42:16,640

a cavern or cave where

1111

00:42:21,910 --> 00:42:18,240

bones are

1112

00:42:23,990 --> 00:42:21,920

of the species and it was ritualized and

1113

00:42:26,790 --> 00:42:24,000

they practiced burial rites to make sure

1114

00:42:28,950 --> 00:42:26,800

that it wasn't disturbed but you know

1115

00:42:31,030 --> 00:42:28,960

one way that the problem with that is in

1116

00:42:33,270 --> 00:42:31,040

caves you're going to have to use ground

1117

00:42:34,390 --> 00:42:33,280

penetrating radar and that type things

1118

00:42:36,790 --> 00:42:34,400

because

1119

00:42:39,270 --> 00:42:36,800

each civilization that uses a rock

1120

00:42:41,510 --> 00:42:39,280

shelter or a cave like let's say people

1121

00:42:42,829 --> 00:42:41,520

way back in the archaic period used it

1122

00:42:45,910 --> 00:42:42,839

and then people in

1123

00:42:47,750 --> 00:42:45,920

1725 used it in the old west so you have

1124

00:42:49,829 --> 00:42:47,760

all these layers of civilization and

1125

00:42:51,750 --> 00:42:49,839

have their trash and other stuff buried

1126
00:42:53,349 --> 00:42:51,760
in that and that's basically where they

1127
00:42:55,589 --> 00:42:53,359
need to get to the lowest level to find

1128
00:42:57,510 --> 00:42:55,599
out if bigfoot's you know

1129
00:42:59,030 --> 00:42:57,520
been burying their dead here

1130
00:43:01,670 --> 00:42:59,040
that that's either going to make or

1131
00:43:03,589 --> 00:43:01,680
break us um yeah i may not see it in my

1132
00:43:05,670 --> 00:43:03,599
lifetime i'm hoping i do i can feel it

1133
00:43:08,150 --> 00:43:05,680
like it's on the horizon but i feel

1134
00:43:10,790 --> 00:43:08,160
bones the bones of the creature is where

1135
00:43:12,870 --> 00:43:10,800
we need to be focusing so like i said we

1136
00:43:15,510 --> 00:43:12,880
have several graves

1137
00:43:17,910 --> 00:43:15,520
we're kind of debating on what to do

1138
00:43:19,349 --> 00:43:17,920

you know going forward with that

1139

00:43:21,349 --> 00:43:19,359

because some of them are in national

1140

00:43:22,870 --> 00:43:21,359

forest so if there was a big foot buried

1141

00:43:24,790 --> 00:43:22,880

there and we had very large funds we

1142

00:43:27,750 --> 00:43:24,800

wouldn't get in trouble but if it was on

1143

00:43:29,109 --> 00:43:27,760

blm land or tribal end we could

1144

00:43:31,190 --> 00:43:29,119

so that's one of those things to

1145

00:43:34,069 --> 00:43:31,200

consider before you go start digging

1146

00:43:36,790 --> 00:43:34,079

upgrades looking for the bones

1147

00:43:38,950 --> 00:43:36,800

yeah and mark mark you are always in the

1148

00:43:41,430 --> 00:43:38,960

field and far from being an armchair

1149

00:43:43,430 --> 00:43:41,440

researcher as they are called can you

1150

00:43:45,589 --> 00:43:43,440

give listeners other than the examples

1151
00:43:47,030 --> 00:43:45,599
you have already a couple of details of

1152
00:43:48,550 --> 00:43:47,040
recent bigfoot sightings or

1153
00:43:51,670 --> 00:43:48,560
investigations that have made an

1154
00:43:56,550 --> 00:43:54,950
you mean here in colorado right

1155
00:44:00,470 --> 00:43:56,560
yes you mean my research here yeah

1156
00:44:02,630 --> 00:44:00,480
colorado correct yeah um okay um the uh

1157
00:44:05,910 --> 00:44:02,640
i'll start with the haman group

1158
00:44:08,390 --> 00:44:05,920
2009 hayman fire down in the flat river

1159
00:44:10,230 --> 00:44:08,400
valley uh here in colorado

1160
00:44:12,390 --> 00:44:10,240
it's one of the most devastating fires

1161
00:44:14,550 --> 00:44:12,400
colorado history it destroyed

1162
00:44:17,190 --> 00:44:14,560
much of the historical area i'm talking

1163
00:44:19,030 --> 00:44:17,200

around the south platte river valley a

1164

00:44:20,309 --> 00:44:19,040

big area around buffalo creek it just

1165

00:44:22,230 --> 00:44:20,319

burned it up

1166

00:44:24,710 --> 00:44:22,240

part of section two of the colorado

1167

00:44:26,630 --> 00:44:24,720

trail is completely gone and

1168

00:44:29,510 --> 00:44:26,640

uh was just destroyed

1169

00:44:33,430 --> 00:44:29,520

and that particular area was bigfoot

1170

00:44:35,109 --> 00:44:33,440

rich in lore legend and sightings for

1171

00:44:36,710 --> 00:44:35,119

many many years it's near decker's

1172

00:44:38,950 --> 00:44:36,720

colorado

1173

00:44:41,349 --> 00:44:38,960

uh which is still a hot spot but

1174

00:44:43,750 --> 00:44:41,359

basically what the bigfoot did in in the

1175

00:44:47,670 --> 00:44:43,760

predictive model with the forest fire is

1176

00:44:49,349 --> 00:44:47,680

they ran to the river to the to the uh

1177

00:44:51,430 --> 00:44:49,359

and set up shop on the other side where

1178

00:44:53,910 --> 00:44:51,440

the fire didn't jump the river basically

1179

00:44:57,990 --> 00:44:53,920

they set up shop there and

1180

00:44:59,430 --> 00:44:58,000

just basically using a a basic model of

1181

00:45:01,190 --> 00:44:59,440

where would you run if you were a

1182

00:45:02,150 --> 00:45:01,200

bigfoot and this forest fire happened

1183

00:45:04,710 --> 00:45:02,160

here

1184

00:45:06,550 --> 00:45:04,720

we started running across the symbology

1185

00:45:09,430 --> 00:45:06,560

the prince everything that we needed on

1186

00:45:11,270 --> 00:45:09,440

the other side of the river and uh

1187

00:45:13,349 --> 00:45:11,280

uh we

1188

00:45:15,109 --> 00:45:13,359

were up there and we had a rock thrown

1189

00:45:16,710 --> 00:45:15,119

at us um

1190

00:45:19,030 --> 00:45:16,720

because subsequently

1191

00:45:21,030 --> 00:45:19,040

oh we found the caves i used google

1192

00:45:21,829 --> 00:45:21,040

earth

1193

00:45:24,069 --> 00:45:21,839

uh

1194

00:45:25,510 --> 00:45:24,079

we used google earth in a little bit of

1195

00:45:28,390 --> 00:45:25,520

remote viewing

1196

00:45:31,270 --> 00:45:28,400

to try and track this rock thrower down

1197

00:45:33,190 --> 00:45:31,280

we narrowed them down on the uh on the

1198

00:45:35,030 --> 00:45:33,200

platte river near a place called strata

1199

00:45:37,349 --> 00:45:35,040

springs reservoir

1200

00:45:39,190 --> 00:45:37,359

uh up on a high cliff he was just

1201
00:45:41,030 --> 00:45:39,200
sitting up there we were there we were

1202
00:45:42,950 --> 00:45:41,040
actually there looking to see what you

1203
00:45:45,750 --> 00:45:42,960
know who threw the rock

1204
00:45:47,030 --> 00:45:45,760
he was sitting up on a cliff

1205
00:45:48,309 --> 00:45:47,040
we were on the other side of the river

1206
00:45:50,550 --> 00:45:48,319
we were yelling at it and so forth and

1207
00:45:52,390 --> 00:45:50,560
we couldn't get its attention so we came

1208
00:45:53,430 --> 00:45:52,400
back the next week went up that side of

1209
00:45:55,190 --> 00:45:53,440
the hill

1210
00:45:57,270 --> 00:45:55,200
climbed up that cliff to where he was i

1211
00:45:58,390 --> 00:45:57,280
did a video up there the day that i went

1212
00:45:59,270 --> 00:45:58,400
up there

1213
00:46:01,750 --> 00:45:59,280

uh

1214

00:46:03,270 --> 00:46:01,760

found a rock stack up there twisted tree

1215

00:46:04,150 --> 00:46:03,280

maybe a print

1216

00:46:05,910 --> 00:46:04,160

um

1217

00:46:07,589 --> 00:46:05,920

we had the picture of what looked like

1218

00:46:09,829 --> 00:46:07,599

patty patty's sitting up there just

1219

00:46:11,829 --> 00:46:09,839

massive just watching the river we were

1220

00:46:13,349 --> 00:46:11,839

yelling at the and it didn't turn and

1221

00:46:15,190 --> 00:46:13,359

look at us or anything it's just sitting

1222

00:46:17,910 --> 00:46:15,200

there staring like it was meditating it

1223

00:46:20,470 --> 00:46:17,920

was like in a sitting meditative style

1224

00:46:22,069 --> 00:46:20,480

uh so we got up there i i went up there

1225

00:46:22,950 --> 00:46:22,079

susan stayed at the bottom we did the

1226

00:46:25,030 --> 00:46:22,960

video

1227

00:46:26,309 --> 00:46:25,040

ran into another one at the top of the

1228

00:46:28,390 --> 00:46:26,319

hill

1229

00:46:30,710 --> 00:46:28,400

uh the hair on my neck stood up

1230

00:46:32,550 --> 00:46:30,720

i got a in a little bit of him on video

1231

00:46:33,829 --> 00:46:32,560

and i booked it down the hill killed the

1232

00:46:35,829 --> 00:46:33,839

video

1233

00:46:37,510 --> 00:46:35,839

in that time in that group that we've

1234

00:46:39,430 --> 00:46:37,520

been studying the haven group we found

1235

00:46:42,470 --> 00:46:39,440

like i was talking about holes in the

1236

00:46:44,550 --> 00:46:42,480

ground where you have big logs that have

1237

00:46:46,069 --> 00:46:44,560

been snapped and shoved down in the hole

1238

00:46:47,829 --> 00:46:46,079

like somebody's been like hanging out in

1239

00:46:49,990 --> 00:46:47,839

the hole and then you have these big

1240

00:46:52,150 --> 00:46:50,000

rocks that could just be moved and plug

1241

00:46:54,470 --> 00:46:52,160

up the hole i said who's doing that you

1242

00:46:55,990 --> 00:46:54,480

know that that was them that's that's

1243

00:46:58,550 --> 00:46:56,000

the heyman group that's what we named

1244

00:47:00,950 --> 00:46:58,560

them we're still focusing on that group

1245

00:47:03,349 --> 00:47:00,960

uh we have another

1246

00:47:06,150 --> 00:47:03,359

group that does some incredible twisting

1247

00:47:08,829 --> 00:47:06,160

of logs like king kong is doing it up

1248

00:47:12,630 --> 00:47:08,839

near evergreen in a hit in an area

1249

00:47:15,349 --> 00:47:12,640

um very structure-rich environment

1250

00:47:18,710 --> 00:47:15,359

um this is all in our book in my in my

1251

00:47:20,870 --> 00:47:18,720

upcoming book all of these locations uh

1252

00:47:23,510 --> 00:47:20,880

i don't name them specifically all the

1253

00:47:26,390 --> 00:47:23,520

locations uh for privacy reasons but but

1254

00:47:27,750 --> 00:47:26,400

i give you a pretty good idea because we

1255

00:47:29,589 --> 00:47:27,760

are working in a

1256

00:47:31,990 --> 00:47:29,599

along the front range of the eastern

1257

00:47:34,710 --> 00:47:32,000

rockies so my area stretches from about

1258

00:47:37,670 --> 00:47:34,720

monument colorado down south

1259

00:47:39,990 --> 00:47:37,680

of castle rock to about evergreen and

1260

00:47:43,190 --> 00:47:40,000

then west as far as

1261

00:47:45,750 --> 00:47:43,200

uh kenosha pass bailey area

1262

00:47:47,910 --> 00:47:45,760

so that that's about

1263

00:47:50,829 --> 00:47:47,920

you know the areas that we cover

1264

00:47:53,270 --> 00:47:50,839

we hit up our hottest areas first

1265

00:47:55,750 --> 00:47:53,280

um but we've kind of taken a little time

1266

00:47:57,430 --> 00:47:55,760

off post lock down and so forth i really

1267

00:47:59,990 --> 00:47:57,440

wanted to do this book

1268

00:48:03,030 --> 00:48:00,000

uh and get it out there because i i have

1269

00:48:05,430 --> 00:48:03,040

so many pictures so much data and and so

1270

00:48:07,589 --> 00:48:05,440

much stuff it's starting to get lost

1271

00:48:09,589 --> 00:48:07,599

and so it was time it was time to tell

1272

00:48:13,190 --> 00:48:09,599

the the story of the first 12 years of

1273

00:48:14,549 --> 00:48:13,200

doing this in colorado and uh

1274

00:48:16,230 --> 00:48:14,559

and so that's what we've been kind of

1275

00:48:19,109 --> 00:48:16,240

focused on right now we know where these

1276

00:48:20,950 --> 00:48:19,119

clans are right and if we know they

1277

00:48:22,150 --> 00:48:20,960

don't travel

1278

00:48:24,870 --> 00:48:22,160

beyond that

1279

00:48:27,190 --> 00:48:24,880

the rule of thumb for us in colorado has

1280

00:48:30,230 --> 00:48:27,200

become you know the elk

1281

00:48:32,069 --> 00:48:30,240

the resources is their fish

1282

00:48:34,870 --> 00:48:32,079

they really do love fish

1283

00:48:36,549 --> 00:48:34,880

um one of the biggest areas up near

1284

00:48:38,230 --> 00:48:36,559

mount siobhana which is the fish

1285

00:48:41,190 --> 00:48:38,240

hatchery for this part of eastern

1286

00:48:43,030 --> 00:48:41,200

colorado uh they've got lots of big put

1287

00:48:45,109 --> 00:48:43,040

up activity up there it's almost like

1288

00:48:47,109 --> 00:48:45,119

they sit in the cliffs over and watch

1289

00:48:48,870 --> 00:48:47,119

the hatchery

1290

00:48:52,309 --> 00:48:48,880

is so cool

1291

00:48:54,470 --> 00:48:52,319

very cool and you know

1292

00:48:56,790 --> 00:48:54,480

studying bigfoot can be a challenging

1293

00:48:58,309 --> 00:48:56,800

endeavor uh people have opinions of

1294

00:49:00,870 --> 00:48:58,319

folks like you and i and others in the

1295

00:49:02,950 --> 00:49:00,880

field and i'm wondering if research has

1296

00:49:05,510 --> 00:49:02,960

changed your life in any positive or

1297

00:49:07,910 --> 00:49:05,520

even negative ways

1298

00:49:10,390 --> 00:49:07,920

okay the most i tell people this when i

1299

00:49:11,430 --> 00:49:10,400

got into this the most important thing i

1300

00:49:13,349 --> 00:49:11,440

ever did

1301
00:49:15,190 --> 00:49:13,359
when i decided to become in bigfoot was

1302
00:49:17,430 --> 00:49:15,200
do the background research

1303
00:49:19,589 --> 00:49:17,440
out of all the bfr reports out there

1304
00:49:21,510 --> 00:49:19,599
that i had said were too far to travel

1305
00:49:23,510 --> 00:49:21,520
there was one particular report out

1306
00:49:26,870 --> 00:49:23,520
there that stood alone online all by

1307
00:49:29,670 --> 00:49:26,880
itself and that was oregon report

1308
00:49:33,190 --> 00:49:29,680
number uh oregon babyfoot

1309
00:49:38,870 --> 00:49:36,230
report number 1339

1310
00:49:41,109 --> 00:49:38,880
and that single report gave me an outlet

1311
00:49:41,990 --> 00:49:41,119
where to go to start looking high siding

1312
00:49:43,829 --> 00:49:42,000
area

1313
00:49:46,710 --> 00:49:43,839

this guy talked about dogs getting

1314

00:49:48,710 --> 00:49:46,720

wrapped around trees and so forth

1315

00:49:50,549 --> 00:49:48,720

chose that location because it was

1316

00:49:52,390 --> 00:49:50,559

convenient for me

1317

00:49:54,309 --> 00:49:52,400

and it changed my life because i would

1318

00:49:56,470 --> 00:49:54,319

have never had i not pursued that

1319

00:49:58,150 --> 00:49:56,480

particular report i would have never

1320

00:50:00,150 --> 00:49:58,160

ended up in those canyons i would have

1321

00:50:02,630 --> 00:50:00,160

never ever had my first encounter there

1322

00:50:04,630 --> 00:50:02,640

i would have chosen another location i

1323

00:50:06,109 --> 00:50:04,640

chose that report

1324

00:50:07,750 --> 00:50:06,119

i'm sure those guys at

1325

00:50:09,910 --> 00:50:07,760

oregonbigfootresearch.com are really

1326

00:50:12,309 --> 00:50:09,920

loving that

1327

00:50:13,990 --> 00:50:12,319

but their report stuck out all by itself

1328

00:50:15,990 --> 00:50:14,000

so it was almost kind of like fate to me

1329

00:50:18,870 --> 00:50:16,000

i believe that i was meant to follow up

1330

00:50:21,190 --> 00:50:18,880

on that report it caused my sighting and

1331

00:50:22,790 --> 00:50:21,200

it caused me to become part of this uh

1332

00:50:25,349 --> 00:50:22,800

this community

1333

00:50:26,549 --> 00:50:25,359

uh going forward and i've been obsessed

1334

00:50:28,630 --> 00:50:26,559

with

1335

00:50:31,030 --> 00:50:28,640

answering some things i know they exist

1336

00:50:32,630 --> 00:50:31,040

i mean and they're they're like i said

1337

00:50:34,870 --> 00:50:32,640

there's other researchers who tell you

1338

00:50:36,710 --> 00:50:34,880

what you live in a in a rich environment

1339

00:50:38,309 --> 00:50:36,720

like the rockies they're not hard to

1340

00:50:40,150 --> 00:50:38,319

find so

1341

00:50:41,990 --> 00:50:40,160

i don't need to be out there every

1342

00:50:43,670 --> 00:50:42,000

single day hunting them down every

1343

00:50:45,190 --> 00:50:43,680

single day because

1344

00:50:46,710 --> 00:50:45,200

if someone were to fly out here and say

1345

00:50:48,549 --> 00:50:46,720

hey take me to one of your research

1346

00:50:50,150 --> 00:50:48,559

areas let's see what happened i'm pretty

1347

00:50:52,069 --> 00:50:50,160

sure we would have some sort of an

1348

00:50:54,950 --> 00:50:52,079

encounter in one of those areas

1349

00:50:56,630 --> 00:50:54,960

guaranteed so um i'm not worried about

1350

00:50:58,950 --> 00:50:56,640

taking a little time off and pursuing

1351
00:51:00,710 --> 00:50:58,960
other endeavors too but we're still at

1352
00:51:02,470 --> 00:51:00,720
it let's go ahead and the answers are

1353
00:51:03,589 --> 00:51:02,480
going to continue on even after the book

1354
00:51:05,190 --> 00:51:03,599
endeavor

1355
00:51:05,990 --> 00:51:05,200
because we're not really book writers

1356
00:51:07,750 --> 00:51:06,000
but

1357
00:51:10,470 --> 00:51:07,760
again it had to be done

1358
00:51:12,230 --> 00:51:10,480
so that's what's coming up um

1359
00:51:13,589 --> 00:51:12,240
and then i need to buy me an rc car a

1360
00:51:15,510 --> 00:51:13,599
nice one i've been looking at some with

1361
00:51:17,670 --> 00:51:15,520
the cameras and the lights all set up on

1362
00:51:19,990 --> 00:51:17,680
it because i need to get some of these

1363
00:51:21,670 --> 00:51:20,000

these pit holes i'm not brave enough to

1364

00:51:23,910 --> 00:51:21,680

go crawling down into them like some

1365

00:51:26,790 --> 00:51:23,920

other people would be i don't just go

1366

00:51:28,230 --> 00:51:26,800

down there with a helmet like that's not

1367

00:51:29,349 --> 00:51:28,240

that's not something i want to do

1368

00:51:31,750 --> 00:51:29,359

because

1369

00:51:33,510 --> 00:51:31,760

if you get bit by an animal or something

1370

00:51:34,630 --> 00:51:33,520

then it's just a whole host of other

1371

00:51:37,510 --> 00:51:34,640

problems so

1372

00:51:39,670 --> 00:51:37,520

yeah you use utilize technology the best

1373

00:51:41,670 --> 00:51:39,680

i can i also want to uh

1374

00:51:44,870 --> 00:51:41,680

working on getting a drone i want to add

1375

00:51:47,270 --> 00:51:44,880

drones into the mix for

1376
00:51:49,349 --> 00:51:47,280
coming in our next number of years doing

1377
00:51:51,349 --> 00:51:49,359
research so that i can get up into high

1378
00:51:53,270 --> 00:51:51,359
cliffs and areas and check areas like

1379
00:51:54,950 --> 00:51:53,280
that where where it would be too hard or

1380
00:51:57,750 --> 00:51:54,960
too long to climb to

1381
00:51:59,270 --> 00:51:57,760
yeah so drones and rc cars that's going

1382
00:52:00,470 --> 00:51:59,280
to be next uh

1383
00:52:03,510 --> 00:52:00,480
on our list

1384
00:52:04,549 --> 00:52:03,520
now i got a skype

1385
00:52:06,390 --> 00:52:04,559
yeah

1386
00:52:08,150 --> 00:52:06,400
and you know it does seem like the

1387
00:52:11,190 --> 00:52:08,160
technology is making it a little bit

1388
00:52:14,950 --> 00:52:11,200

easier to uh or at least it's offering

1389

00:52:16,710 --> 00:52:14,960

new angles to to research you are beyond

1390

00:52:18,630 --> 00:52:16,720

doubt one of the most influential

1391

00:52:20,710 --> 00:52:18,640

researchers in north america mark and

1392

00:52:22,549 --> 00:52:20,720

it's always good to touch base with you

1393

00:52:24,630 --> 00:52:22,559

and get updates in the field of bigfoot

1394

00:52:26,150 --> 00:52:24,640

research i can't thank you enough for

1395

00:52:28,790 --> 00:52:26,160

taking the time out of your day to talk

1396

00:52:30,630 --> 00:52:28,800

to me again and for our listeners where

1397

00:52:31,990 --> 00:52:30,640

can they keep up with findings and

1398

00:52:34,549 --> 00:52:32,000

everything you're doing and i'm really

1399

00:52:37,349 --> 00:52:34,559

excited about the book coming up

1400

00:52:40,790 --> 00:52:37,359

yeah um well i it's just my facebook

1401

00:52:43,750 --> 00:52:40,800

page um i i have an open group sasquatch

1402

00:52:45,829 --> 00:52:43,760

researchers of the american southwest

1403

00:52:47,589 --> 00:52:45,839

that's an open group on facebook and

1404

00:52:50,150 --> 00:52:47,599

then i have the colorado sasquatch

1405

00:52:51,990 --> 00:52:50,160

research um i just started like a little

1406

00:52:54,549 --> 00:52:52,000

science page but i don't update it very

1407

00:52:57,910 --> 00:52:54,559

much but you can reach me on uh on skype

1408

00:52:59,270 --> 00:52:57,920

now too mark parra

1409

00:53:01,190 --> 00:52:59,280

so

1410

00:53:02,870 --> 00:53:01,200

uh the book um

1411

00:53:05,349 --> 00:53:02,880

we're having some technical issues

1412

00:53:07,510 --> 00:53:05,359

because self-publishing is not an easy

1413

00:53:08,390 --> 00:53:07,520

thing to do but it saves you a lot of

1414

00:53:09,589 --> 00:53:08,400

money

1415

00:53:10,549 --> 00:53:09,599

um

1416

00:53:14,790 --> 00:53:10,559

so

1417

00:53:16,549 --> 00:53:14,800

but it's i'm hoping by the end of august

1418

00:53:18,069 --> 00:53:16,559

i want to do um

1419

00:53:21,030 --> 00:53:18,079

you know i'm going to premiere the book

1420

00:53:22,870 --> 00:53:21,040

and so forth when i'll launch it so

1421

00:53:24,950 --> 00:53:22,880

i'm going to have prizes and so forth

1422

00:53:27,430 --> 00:53:24,960

signed copies and some t-shirts and so

1423

00:53:29,270 --> 00:53:27,440

forth to do it um you know because it's

1424

00:53:30,790 --> 00:53:29,280

not about me and it's not about me he

1425

00:53:33,990 --> 00:53:30,800

wants to be a big book writer or

1426
00:53:35,910 --> 00:53:34,000
whatever uh the story had to be told of

1427
00:53:38,150 --> 00:53:35,920
the research um

1428
00:53:41,829 --> 00:53:38,160
all the data that i've collected over 12

1429
00:53:43,829 --> 00:53:41,839
years and susan you know joining me

1430
00:53:45,829 --> 00:53:43,839
that we have on the eastern front range

1431
00:53:47,670 --> 00:53:45,839
of the rockies that is our location that

1432
00:53:49,349 --> 00:53:47,680
is where we have researched

1433
00:53:52,150 --> 00:53:49,359
so everything in it is going to be our

1434
00:53:53,750 --> 00:53:52,160
experiences and our opinions based on

1435
00:53:55,750 --> 00:53:53,760
those experiences

1436
00:53:57,589 --> 00:53:55,760
and doesn't apply to

1437
00:53:59,990 --> 00:53:57,599
let's say florida or what somebody

1438
00:54:03,349 --> 00:54:00,000

experienced in michigan or missouri or

1439

00:54:06,069 --> 00:54:03,359

wherever because the diet's different

1440

00:54:09,030 --> 00:54:06,079

um they don't have mountain goats or

1441

00:54:11,430 --> 00:54:09,040

rams and so forth that the bigfoot feed

1442

00:54:13,349 --> 00:54:11,440

on here so everything is completely

1443

00:54:16,549 --> 00:54:13,359

different in that respect so

1444

00:54:17,349 --> 00:54:16,559

it's it's a colorado based book

1445

00:54:19,430 --> 00:54:17,359

so

1446

00:54:21,270 --> 00:54:19,440

i'm not out there uh you know trying to

1447

00:54:23,109 --> 00:54:21,280

preach or tell people how it is with

1448

00:54:24,950 --> 00:54:23,119

bigfoot i'm giving them you know

1449

00:54:27,430 --> 00:54:24,960

basically the gist of what it is here in

1450

00:54:29,109 --> 00:54:27,440

colorado uh and what we've discovered

1451
00:54:30,390 --> 00:54:29,119
over that period of time and going

1452
00:54:32,309 --> 00:54:30,400
forward

1453
00:54:34,549 --> 00:54:32,319
very cool that's uh

1454
00:54:37,910 --> 00:54:34,559
we're looking forward to it

1455
00:54:39,430 --> 00:54:37,920
great idea and yeah it's it's it's

1456
00:54:41,670 --> 00:54:39,440
really something that i think a lot of

1457
00:54:44,549 --> 00:54:41,680
people will welcome in the field

1458
00:54:46,470 --> 00:54:44,559
and uh maybe we have to do like gofundme

1459
00:54:48,470 --> 00:54:46,480
to get some drones and some of these rc

1460
00:54:50,470 --> 00:54:48,480
cars because i mean you are consistently

1461
00:54:52,309 --> 00:54:50,480
finding habitats and structures and i

1462
00:54:54,230 --> 00:54:52,319
can i can only imagine how that

1463
00:54:55,670 --> 00:54:54,240

technology will help you

1464

00:54:58,309 --> 00:54:55,680

the only reason that i haven't gone to

1465

00:55:01,910 --> 00:54:58,319

thermals not just the price it's because

1466

00:55:04,230 --> 00:55:01,920

the credibility of it yeah because

1467

00:55:06,630 --> 00:55:04,240

um

1468

00:55:07,589 --> 00:55:06,640

there's no definition in it

1469

00:55:09,510 --> 00:55:07,599

like

1470

00:55:11,990 --> 00:55:09,520

if you think about how easy it is to

1471

00:55:13,030 --> 00:55:12,000

hoax a thermal yeah it's pretty easy

1472

00:55:14,789 --> 00:55:13,040

actually

1473

00:55:17,109 --> 00:55:14,799

depending on what you're using because

1474

00:55:18,870 --> 00:55:17,119

it's basically just a heat signature

1475

00:55:20,950 --> 00:55:18,880

and so i kind of shut away from that

1476

00:55:23,589 --> 00:55:20,960

because if i was to get something on

1477

00:55:26,309 --> 00:55:23,599

thermal it would be ridiculed and

1478

00:55:28,470 --> 00:55:26,319

dissected up and down a million times so

1479

00:55:31,109 --> 00:55:28,480

i try and keep it

1480

00:55:32,710 --> 00:55:31,119

in the daytime if possible

1481

00:55:36,549 --> 00:55:32,720

so that there's less

1482

00:55:40,630 --> 00:55:38,230

introspection and where people think

1483

00:55:41,829 --> 00:55:40,640

that it's contrived in some way

1484

00:55:43,910 --> 00:55:41,839

so true

1485

00:55:45,270 --> 00:55:43,920

but drones drones are good i need to get

1486

00:55:46,870 --> 00:55:45,280

and see what's up on top of that cliff

1487

00:55:49,109 --> 00:55:46,880

up there if there's a cave or something

1488

00:55:51,030 --> 00:55:49,119

you know decide if i want to try getting

1489

00:55:52,390 --> 00:55:51,040

up there or not saves you a lot of time

1490

00:55:54,150 --> 00:55:52,400

in that respect

1491

00:55:57,109 --> 00:55:54,160

a ton of time

1492

00:55:58,549 --> 00:55:57,119

so true so very cool and i can't thank

1493

00:56:00,710 --> 00:55:58,559
