

A landscape photograph of a grassy hill with trees under a cloudy sky. The foreground is filled with tall, green grasses. In the middle ground, a line of trees sits atop a gentle rise. The background shows rolling hills and a hazy horizon under a sky with soft, grey clouds.

bigfoot like entities and an array of

00:01:24,070 --> 00:01:21,520
high strangeness that can only be

20

00:01:26,870 --> 00:01:24,080
likened to the events taking place

21

00:01:29,429 --> 00:01:26,880

trey hudson brings pieces of the puzzle

37
00:02:12,470 --> 00:02:08,399
concerning our reality

38
00:02:14,710 --> 00:02:12,480

ufos ghost-like encounters portals and

39

00:02:16,390 --> 00:02:14,720

cryptid creatures to the proverbial

40

00:02:18,869 --> 00:02:16,400

table of truth

41

00:02:20,309 --> 00:02:18,879

with a scientific scrutiny

42

00:02:22,470 --> 00:02:20,319

which is hard

43

00:02:24,869 --> 00:02:22,480

to compare to anything else

44

00:02:27,030 --> 00:02:24,879

when i came across his work

45

00:02:29,990 --> 00:02:27,040

the meadow project

46

00:02:31,030 --> 00:02:30,000

explorations into the south's skinwalker

47

00:02:33,190 --> 00:02:31,040

ranch

48

00:02:34,790 --> 00:02:33,200

i became obsessed

49

00:02:36,869 --> 00:02:34,800

whether it be scientifically

50

00:02:38,550 --> 00:02:36,879

investigating portals

51
00:02:41,030 --> 00:02:38,560
lights in the sky

52
00:02:43,509 --> 00:02:41,040
or things that go bump in the night

53
00:02:46,470 --> 00:02:43,519
trex hudson has carved out a slice of

54
00:02:49,350 --> 00:02:46,480
paranormal heaven in an area with a long

55
00:02:54,390 --> 00:02:49,360
history of high strangeness

56
00:02:58,149 --> 00:02:54,400
a secret spot named baz or the baz

57
00:03:00,790 --> 00:02:58,159
the blackwater anomalous zone

58
00:03:02,869 --> 00:03:00,800
leaving no stone unturned he and a group

59
00:03:06,949 --> 00:03:02,879
of well-equipped knowledgeable team

60
00:03:09,830 --> 00:03:06,959
members have investigated this location

61
00:03:11,030 --> 00:03:09,840
in a professional scientific manner for

62
00:03:13,589 --> 00:03:11,040
years

63
00:03:15,110 --> 00:03:13,599

and the results are outstanding and

64

00:03:18,390 --> 00:03:15,120

amazing

65

00:03:20,790 --> 00:03:18,400

with that being said let's get to it

66

00:03:23,670 --> 00:03:20,800

trey hudson welcome to the hero

67

00:03:25,830 --> 00:03:23,680

paranormal podcast

68

00:03:27,430 --> 00:03:25,840

well ryan thank you for having me uh i

69

00:03:29,750 --> 00:03:27,440

don't know who that interesting guy was

70

00:03:31,750 --> 00:03:29,760

that you just introduced uh you know i'm

71

00:03:33,990 --> 00:03:31,760

just kind of an average guy that's uh

72

00:03:35,589 --> 00:03:34,000

stumbled across an amazing site you know

73

00:03:36,949 --> 00:03:35,599

you had said you had a chance to read

74

00:03:39,430 --> 00:03:36,959

the book so you get a little bit of a

75

00:03:41,430 --> 00:03:39,440

flavor for what exactly i'm talking to

76
00:03:43,509 --> 00:03:41,440
and i'm really happy and honored to be

77
00:03:45,350 --> 00:03:43,519
with you today to share some of these

78
00:03:47,830 --> 00:03:45,360
amazing happenings with you and your

79
00:03:50,710 --> 00:03:47,840
audience

80
00:03:52,470 --> 00:03:50,720
it really is a great book

81
00:03:55,270 --> 00:03:52,480
not only is it a page turner but

82
00:03:58,470 --> 00:03:55,280
everything you delve into is is just

83
00:04:00,710 --> 00:03:58,480
done with such professionalism

84
00:04:03,110 --> 00:04:00,720
let's get a little history just general

85
00:04:05,110 --> 00:04:03,120
history about the area and what

86
00:04:06,630 --> 00:04:05,120
originally drew you to this particular

87
00:04:08,630 --> 00:04:06,640
area

88
00:04:11,509 --> 00:04:08,640

oh that's a that's a great great uh

89

00:04:13,589 --> 00:04:11,519

first question uh i am primarily a

90

00:04:15,509 --> 00:04:13,599

paranormal researcher that's kind of you

91

00:04:17,749 --> 00:04:15,519

know where i earned my chops in the uh

92

00:04:19,270 --> 00:04:17,759

the paranormal or and i don't like the

93

00:04:20,789 --> 00:04:19,280

term ghost hunting but in the ghost

94

00:04:24,550 --> 00:04:20,799

hunting realm

95

00:04:27,510 --> 00:04:24,560

and i've always had a very uh strong

96

00:04:30,790 --> 00:04:27,520

feeling about following the folklore you

97

00:04:32,950 --> 00:04:30,800

know if you if you look for the folklore

98

00:04:35,030 --> 00:04:32,960

it might be a little bit outlandish and

99

00:04:37,749 --> 00:04:35,040

full of hyperbole but usually there's a

100

00:04:41,110 --> 00:04:37,759

nugget a tiny grain of truth that that

101
00:04:44,310 --> 00:04:41,120
uh act as an incubator for the folklore

102
00:04:47,270 --> 00:04:44,320
and this area is uh is is absolutely

103
00:04:49,990 --> 00:04:47,280
chocked full of not only folklore but

104
00:04:52,150 --> 00:04:50,000
actual reported sightings of the strange

105
00:04:54,310 --> 00:04:52,160
and anomalous goings-on

106
00:04:56,310 --> 00:04:54,320
uh what got me kind of focused on this

107
00:04:58,469 --> 00:04:56,320
area is a uh

108
00:04:59,430 --> 00:04:58,479
i started receiving reports of a haunted

109
00:05:01,270 --> 00:04:59,440
road

110
00:05:03,510 --> 00:05:01,280
you know like a uh you know every

111
00:05:06,070 --> 00:05:03,520
community seems to have a haunted road

112
00:05:07,909 --> 00:05:06,080
you don't go down this road at night

113
00:05:09,990 --> 00:05:07,919

and the locals would say you know

114

00:05:11,909 --> 00:05:10,000

whatever you do don't go down that road

115

00:05:13,749 --> 00:05:11,919

them paints will get you you know this

116

00:05:15,830 --> 00:05:13,759

is a you know kind of a rural part you

117

00:05:17,990 --> 00:05:15,840

know back in the south

118

00:05:19,670 --> 00:05:18,000

and uh being warned off of a road

119

00:05:22,310 --> 00:05:19,680

because it's so haunted and so

120

00:05:23,990 --> 00:05:22,320

terrifying is like waving a red flag in

121

00:05:25,670 --> 00:05:24,000

front of me like a bull you know it's

122

00:05:27,350 --> 00:05:25,680

like don't go there well heck yeah

123

00:05:28,390 --> 00:05:27,360

that's where i'm going you better

124

00:05:30,230 --> 00:05:28,400

believe it

125

00:05:32,390 --> 00:05:30,240

so it started off investigating this

126

00:05:36,150 --> 00:05:32,400

haunted road and it turned out that the

127

00:05:37,830 --> 00:05:36,160

haunted road was not quite as advertised

128

00:05:39,510 --> 00:05:37,840

but once you start peeling back the

129

00:05:42,070 --> 00:05:39,520

layers of the onion and looking down

130

00:05:44,310 --> 00:05:42,080

into the the kernels of truth that that

131

00:05:46,070 --> 00:05:44,320

are sometimes buried you know beneath uh

132

00:05:48,469 --> 00:05:46,080

you know gears of folklore and

133

00:05:51,189 --> 00:05:48,479

retellings of tails it turns out that

134

00:05:54,390 --> 00:05:51,199

this area is absolutely

135

00:05:56,629 --> 00:05:54,400

a hotbed for paranormal and other 40

136

00:05:58,390 --> 00:05:56,639

activities and goings-on

137

00:06:00,629 --> 00:05:58,400

i started finding everything from

138

00:06:02,230 --> 00:06:00,639

reports uh in a macro sense and i'm

139

00:06:04,790 --> 00:06:02,240

talking about you know

140

00:06:07,350 --> 00:06:04,800

a multi-state kind of

141

00:06:10,710 --> 00:06:07,360

look uh in a macro sense you know the 10

142

00:06:13,510 --> 00:06:10,720

000 yard uh look i started seeing uh ufo

143

00:06:15,270 --> 00:06:13,520

sightings uh ghost stories

144

00:06:17,029 --> 00:06:15,280

hauntings in all the various little

145

00:06:19,749 --> 00:06:17,039

towns in this region

146

00:06:21,670 --> 00:06:19,759

and i started delving into uh the going

147

00:06:24,070 --> 00:06:21,680

zone at the blackwater nature preserve

148

00:06:26,469 --> 00:06:24,080

and also the contiguous counties and i

149

00:06:28,309 --> 00:06:26,479

started finding a very rich history and

150

00:06:30,390 --> 00:06:28,319

unfortunately at times a very tragic

151

00:06:32,629 --> 00:06:30,400

history of uh

152

00:06:35,110 --> 00:06:32,639

murders this bodies being discovered

153

00:06:37,909 --> 00:06:35,120

there started finding uh mutual reports

154

00:06:39,909 --> 00:06:37,919

of bigfoot sightings sasquatch sightings

155

00:06:42,390 --> 00:06:39,919

ufo sightings you know digging into the

156

00:06:44,150 --> 00:06:42,400

records of the bfro move on things like

157

00:06:48,790 --> 00:06:44,160

that

158

00:06:50,629 --> 00:06:48,800

perhaps was a little bit closer to the

159

00:06:52,230 --> 00:06:50,639

truth than i thought but albeit not in a

160

00:06:54,309 --> 00:06:52,240

way that i originally had intended it

161

00:06:56,230 --> 00:06:54,319

wasn't just a ghost thing it was just an

162

00:06:58,390 --> 00:06:56,240

anomalous you know

163

00:07:00,469 --> 00:06:58,400

uh phenomenon thing

164

00:07:03,270 --> 00:07:00,479

and uh we decided we were going to start

165

00:07:06,150 --> 00:07:03,280

looking into this area and we discovered

166

00:07:08,710 --> 00:07:06,160

and ran across a meadow or a pristine

167

00:07:10,309 --> 00:07:08,720

mountain field if you will

168

00:07:12,150 --> 00:07:10,319

that turned out to be just one of the

169

00:07:14,950 --> 00:07:12,160

strangest and weirdest spots i've ever

170

00:07:16,390 --> 00:07:14,960

encountered in my life

171

00:07:17,510 --> 00:07:16,400

wow

172

00:07:20,070 --> 00:07:17,520

epic

173

00:07:22,550 --> 00:07:20,080

and it it seems like almost from the

174

00:07:25,350 --> 00:07:22,560

very start you had you had some high

175

00:07:27,990 --> 00:07:25,360

strangeness that your team encountered

176

00:07:30,469 --> 00:07:28,000

and your team is made up of very

177

00:07:33,029 --> 00:07:30,479

professional investigators uh veterans

178

00:07:35,110 --> 00:07:33,039

special operations uh

179

00:07:36,469 --> 00:07:35,120

all kinds of walks of life

180

00:07:38,309 --> 00:07:36,479

and

181

00:07:40,629 --> 00:07:38,319

it seems like from the get-go according

182

00:07:43,430 --> 00:07:40,639

to the book you really sort of

183

00:07:45,110 --> 00:07:43,440

came in touch with this high strangeness

184

00:07:47,189 --> 00:07:45,120

oh yeah absolutely i mean the first

185

00:07:49,189 --> 00:07:47,199

thing that really turned us on

186

00:07:50,629 --> 00:07:49,199

while we myself and another researcher

187

00:07:53,110 --> 00:07:50,639

were off about 20 miles away

188

00:07:55,110 --> 00:07:53,120

investigating you know this haunted road

189

00:07:57,110 --> 00:07:55,120

back at base camp uh

190

00:07:59,029 --> 00:07:57,120

one of my researchers while he was

191

00:08:00,390 --> 00:07:59,039

minding the store

192

00:08:02,390 --> 00:08:00,400

you know taking care of business back

193

00:08:03,749 --> 00:08:02,400

there base camp had an amazing ufo

194

00:08:05,830 --> 00:08:03,759

sighting

195

00:08:07,830 --> 00:08:05,840

and uh just just absolutely uh

196

00:08:11,110 --> 00:08:07,840

phenomenal it was uh

197

00:08:13,589 --> 00:08:11,120

he had a gigantic orb come up

198

00:08:15,990 --> 00:08:13,599

and uh traverse from uh right to left

199

00:08:18,070 --> 00:08:16,000

across the sky and then wink out

200

00:08:19,589 --> 00:08:18,080

so of course we're like okay well the uh

201
00:08:21,110 --> 00:08:19,599
the so-called haunted road didn't really

202
00:08:23,029 --> 00:08:21,120
yield a lot of results but we we've got

203
00:08:25,749 --> 00:08:23,039
a dog on you know world-class ufo

204
00:08:27,749 --> 00:08:25,759
sighting here let's hang around here

205
00:08:30,070 --> 00:08:27,759
so as we started looking at doing aerial

206
00:08:31,830 --> 00:08:30,080
surveys of that area you know within you

207
00:08:35,269 --> 00:08:31,840
know half a mile off where this ufo

208
00:08:36,550 --> 00:08:35,279
sighting took place we found a field

209
00:08:38,389 --> 00:08:36,560
and it's like you know that would be an

210
00:08:41,190 --> 00:08:38,399
excellent place to start our research

211
00:08:42,870 --> 00:08:41,200
because it's a large open space

212
00:08:44,230 --> 00:08:42,880
and several factors came into play you

213
00:08:45,910 --> 00:08:44,240

know from a researcher's perspective

214

00:08:47,910 --> 00:08:45,920

number one it's open

215

00:08:49,670 --> 00:08:47,920

and anything moves across this field

216

00:08:51,509 --> 00:08:49,680

would leave tracks it's a perfect track

217

00:08:53,350 --> 00:08:51,519

trap you know that people talk about in

218

00:08:54,630 --> 00:08:53,360

the in the cryptic world

219

00:08:55,990 --> 00:08:54,640

so uh

220

00:08:57,670 --> 00:08:56,000

so you know that we were down on that

221

00:08:59,750 --> 00:08:57,680

that looked like a very good location it

222

00:09:02,230 --> 00:08:59,760

was also very open where if we were out

223

00:09:03,910 --> 00:09:02,240

there at night with our night vision and

224

00:09:05,990 --> 00:09:03,920

thermal equipment anything that moved

225

00:09:08,870 --> 00:09:06,000

across this large open expanse we would

226

00:09:11,030 --> 00:09:08,880

once again be able to see

227

00:09:13,110 --> 00:09:11,040

it also had an open sky that we would be

228

00:09:14,389 --> 00:09:13,120

able to see a portion of the sky if we

229

00:09:16,790 --> 00:09:14,399

were out there tonight so this was a

230

00:09:19,110 --> 00:09:16,800

really cool place to kind of focus our

231

00:09:20,630 --> 00:09:19,120

initial research on and it turns out it

232

00:09:23,110 --> 00:09:20,640

was an epicenter

233

00:09:25,590 --> 00:09:23,120

and it once it started producing it

234

00:09:28,550 --> 00:09:25,600

hasn't stopped and the cool thing is

235

00:09:30,949 --> 00:09:28,560

once you think you've uh exhausted

236

00:09:33,509 --> 00:09:30,959

you know all the types of paranormal and

237

00:09:35,350 --> 00:09:33,519

uh high strangeness it throws you a

238

00:09:37,110 --> 00:09:35,360

curveball we

239

00:09:38,710 --> 00:09:37,120

thought that we had everything kind of

240

00:09:41,350 --> 00:09:38,720

locked up as far as

241

00:09:43,110 --> 00:09:41,360

sightings of entities and strange chupas

242

00:09:44,949 --> 00:09:43,120

you know that our team would disappear

243

00:09:46,310 --> 00:09:44,959

into when they approached

244

00:09:47,829 --> 00:09:46,320

uh

245

00:09:49,110 --> 00:09:47,839

we thought that that was going to be

246

00:09:51,430 --> 00:09:49,120

pretty much it and then we started

247

00:09:52,630 --> 00:09:51,440

getting uh downloads of information into

248

00:09:54,389 --> 00:09:52,640

team members

249

00:09:56,630 --> 00:09:54,399

and then other strange things you know

250

00:09:58,230 --> 00:09:56,640

craft moving past our campsites you know

251

00:10:00,389 --> 00:09:58,240

blacked out and

252

00:10:02,230 --> 00:10:00,399

strange stuff so it's uh it's one of

253

00:10:04,310 --> 00:10:02,240

those uh you know unique gifts that just

254

00:10:05,430 --> 00:10:04,320

keeps on giving

255

00:10:07,590 --> 00:10:05,440

yes

256

00:10:10,310 --> 00:10:07,600

and i was so blown away by many of the

257

00:10:13,750 --> 00:10:10,320

methods that you detail in the book

258

00:10:16,310 --> 00:10:13,760

it uh i i absolutely loved the estes

259

00:10:19,030 --> 00:10:16,320

message method that you used for evps

260

00:10:21,190 --> 00:10:19,040

what a genius move and we might be able

261

00:10:24,310 --> 00:10:21,200

to get into that kind of jumping back to

262

00:10:26,550 --> 00:10:24,320

the meadow and the tracks

263

00:10:28,790 --> 00:10:26,560

you have sent me some footage that is

264

00:10:30,949 --> 00:10:28,800

absolutely unbelievable i'm not going to

265

00:10:33,829 --> 00:10:30,959

share it with anyone but i can verify

266

00:10:35,750 --> 00:10:33,839

that everything you're saying is 100

267

00:10:36,949 --> 00:10:35,760

true i'm blown away

268

00:10:41,990 --> 00:10:36,959

by

269

00:10:45,030 --> 00:10:42,000

chupa like triangular areas where people

270

00:10:47,030 --> 00:10:45,040

seem to and completely just disappear

271

00:10:48,949 --> 00:10:47,040

and um

272

00:10:52,470 --> 00:10:48,959

gosh where to start how did you come up

273

00:10:54,710 --> 00:10:52,480

with the idea of the estes evp method

274

00:10:56,310 --> 00:10:54,720

and i guess we'll take it from there

275

00:10:58,230 --> 00:10:56,320

okay that's a that's a great question

276

00:11:00,949 --> 00:10:58,240

like i said my uh my background is

277

00:11:04,069 --> 00:11:00,959

primarily as a paranormal researcher you

278

00:11:06,069 --> 00:11:04,079

know the oxford paranormal society is a

279

00:11:07,590 --> 00:11:06,079

nuts and bolts you know paranormal

280

00:11:09,350 --> 00:11:07,600

research group we've been around since

281

00:11:10,790 --> 00:11:09,360

2006.

282

00:11:12,389 --> 00:11:10,800

uh you know we're pretty well known

283

00:11:14,389 --> 00:11:12,399

we've been a member of the uh the the

284

00:11:15,750 --> 00:11:14,399

taps family for quite a few years so you

285

00:11:19,829 --> 00:11:15,760

know we

286

00:11:23,430 --> 00:11:19,839

strong roots in that background

287

00:11:25,269 --> 00:11:23,440

and back a few years ago uh

288

00:11:27,110 --> 00:11:25,279

kind of your traditional haunted

289

00:11:28,630 --> 00:11:27,120

location referral started kind of

290

00:11:30,230 --> 00:11:28,640

petering out

291

00:11:31,590 --> 00:11:30,240

so we decided to start looking elsewhere

292

00:11:33,910 --> 00:11:31,600

start looking into the america's

293

00:11:35,590 --> 00:11:33,920

wildland see what we could find

294

00:11:37,990 --> 00:11:35,600

and when we found this location of

295

00:11:41,110 --> 00:11:38,000

course you know being a paranormal guy

296

00:11:43,190 --> 00:11:41,120

the estes method is such a very in my

297

00:11:45,190 --> 00:11:43,200

opinion a very good method

298

00:11:47,910 --> 00:11:45,200

of uh instrumental trans communication

299

00:11:50,389 --> 00:11:47,920

that takes out any you know pre-loading

300

00:11:51,990 --> 00:11:50,399

uh by the questioner and the receiver by

301
00:11:53,750 --> 00:11:52,000
you know hopefully your audience is

302
00:11:56,629 --> 00:11:53,760
familiar with sd's method

303
00:11:58,470 --> 00:11:56,639
uh is you basically do evp sessions but

304
00:11:59,829 --> 00:11:58,480
the person who is listening to the uh

305
00:12:01,910 --> 00:11:59,839
the ghost box

306
00:12:03,590 --> 00:12:01,920
has on blindfolds and earmuffs they

307
00:12:05,030 --> 00:12:03,600
can't hear the questions being asked and

308
00:12:07,430 --> 00:12:05,040
their instructions are basically to

309
00:12:09,670 --> 00:12:07,440
repeat any intelligible word they hear

310
00:12:11,910 --> 00:12:09,680
if they hear the word rutabaga then they

311
00:12:13,910 --> 00:12:11,920
just speak rutabaga

312
00:12:16,150 --> 00:12:13,920
and so it takes a lot of the the uh the

313
00:12:18,230 --> 00:12:16,160

pre-loading and preconceived stuff out

314

00:12:20,310 --> 00:12:18,240

of it you know a lot of the matrix audio

315

00:12:21,829 --> 00:12:20,320

matrix thing that people you know

316

00:12:22,790 --> 00:12:21,839

say are issues with the other ghost

317

00:12:25,190 --> 00:12:22,800

boxes

318

00:12:27,990 --> 00:12:25,200

so i thought well why not you know

319

00:12:29,750 --> 00:12:28,000

these uh my beliefs uh go back to you

320

00:12:30,949 --> 00:12:29,760

know some of the the writings of john

321

00:12:33,030 --> 00:12:30,959

keel

322

00:12:34,550 --> 00:12:33,040

about uh you know what he called ultra

323

00:12:36,710 --> 00:12:34,560

terrestrials i think that we're dealing

324

00:12:39,350 --> 00:12:36,720

with things that are interdimensional

325

00:12:40,870 --> 00:12:39,360

and i actually use the term uh

326

00:12:42,150 --> 00:12:40,880

pair dimensional instead of ultra

327

00:12:43,430 --> 00:12:42,160

terrestrial because i think that's what

328

00:12:45,350 --> 00:12:43,440

we're dealing with what a great

329

00:12:48,230 --> 00:12:45,360

opportunity to take this method you know

330

00:12:49,910 --> 00:12:48,240

out of my ghost research toolbox and

331

00:12:51,750 --> 00:12:49,920

apply it to this

332

00:12:53,990 --> 00:12:51,760

and you know we use methods out of the

333

00:12:55,590 --> 00:12:54,000

cryptid research world uh i'm a mufon

334

00:12:58,230 --> 00:12:55,600

field investigator so i use you know

335

00:13:00,629 --> 00:12:58,240

toolbox tools out of that toolbox so we

336

00:13:03,190 --> 00:13:00,639

decided to use the estes method

337

00:13:05,030 --> 00:13:03,200

and uh i neglected to send you the video

338

00:13:06,949 --> 00:13:05,040

of that actual sd session the uh the

339

00:13:08,790 --> 00:13:06,959

transcript is in the book but we

340

00:13:11,430 --> 00:13:08,800

actually believe that we were able to

341

00:13:13,509 --> 00:13:11,440

contact some sort of entity

342

00:13:16,069 --> 00:13:13,519

that during this session became very

343

00:13:17,750 --> 00:13:16,079

agitated when i started drilling down to

344

00:13:19,590 --> 00:13:17,760

the actual

345

00:13:21,750 --> 00:13:19,600

uh

346

00:13:24,790 --> 00:13:21,760

indicators and phenomenology of these

347

00:13:27,350 --> 00:13:24,800

portals or boxes and uh it was just an

348

00:13:28,710 --> 00:13:27,360

absolutely amazing amazing event and it

349

00:13:31,190 --> 00:13:28,720

couldn't have gone any better than we

350

00:13:36,790 --> 00:13:33,430

i think that's what really struck me is

351
00:13:39,910 --> 00:13:36,800
how extra fluid the conversation seemed

352
00:13:42,389 --> 00:13:39,920
to be and um all you know that although

353
00:13:45,430 --> 00:13:42,399
the intelligence let's just call it that

354
00:13:46,870 --> 00:13:45,440
was speaking in short phrases if not one

355
00:13:49,430 --> 00:13:46,880
word responses

356
00:13:51,269 --> 00:13:49,440
it was extra fluid and it seemed to

357
00:13:52,629 --> 00:13:51,279
covered all it covered all the bases

358
00:13:53,829 --> 00:13:52,639
that you were asking about i was blown

359
00:13:56,550 --> 00:13:53,839
away by that

360
00:13:59,670 --> 00:13:56,560
uh getting back to the meadow

361
00:14:02,629 --> 00:13:59,680
many of the things in the book are very

362
00:14:05,430 --> 00:14:02,639
relatable as you've mentioned to other

363
00:14:08,069 --> 00:14:05,440

areas of high strangeness something that

364

00:14:10,389 --> 00:14:08,079

really stood out to me is

365

00:14:13,509 --> 00:14:10,399

the gps tracking of one of your

366

00:14:16,150 --> 00:14:13,519

investigators and his possible turning

367

00:14:18,230 --> 00:14:16,160

into a well we don't we just don't know

368

00:14:21,189 --> 00:14:18,240

but could we get into that

369

00:14:23,189 --> 00:14:21,199

that scenario and how how much

370

00:14:24,949 --> 00:14:23,199

land he covered and what kind of terrain

371

00:14:26,790 --> 00:14:24,959

and how he did so in

372

00:14:28,710 --> 00:14:26,800

straight lines

373

00:14:31,110 --> 00:14:28,720

oh excellent question excellent question

374

00:14:32,629 --> 00:14:31,120

we had uh this was back and i'm looking

375

00:14:34,629 --> 00:14:32,639

at my notes back here this was back in

376

00:14:36,790 --> 00:14:34,639

january of 2016.

377

00:14:39,910 --> 00:14:36,800

when we really started researching the

378

00:14:42,150 --> 00:14:39,920

meadow uh you know in earnest

379

00:14:43,910 --> 00:14:42,160

and uh our idea was kind of like i

380

00:14:45,750 --> 00:14:43,920

alluded to earlier is we were going to

381

00:14:48,550 --> 00:14:45,760

have three teams set up in the meadow

382

00:14:50,870 --> 00:14:48,560

with night vision equipment and thermals

383

00:14:52,870 --> 00:14:50,880

the idea was to have a single solitary

384

00:14:55,350 --> 00:14:52,880

member move across a ridgeline which is

385

00:14:57,910 --> 00:14:55,360

to the south of the meadow the idea was

386

00:14:59,509 --> 00:14:57,920

if there was anything in between the top

387

00:15:01,670 --> 00:14:59,519

of this ridge line in the meadow that

388

00:15:03,189 --> 00:15:01,680

hopefully this researcher would drive it

389

00:15:05,350 --> 00:15:03,199

down into the meadow and we'd be able to

390

00:15:06,949 --> 00:15:05,360

capture it on our flear and or night

391

00:15:07,990 --> 00:15:06,959

vision

392

00:15:10,150 --> 00:15:08,000

and

393

00:15:12,069 --> 00:15:10,160

once we got our teams in place

394

00:15:13,750 --> 00:15:12,079

we were waiting for the other researcher

395

00:15:15,509 --> 00:15:13,760

to say he had already started his uh

396

00:15:17,670 --> 00:15:15,519

trek to traverse across the top of the

397

00:15:19,110 --> 00:15:17,680

ridge and one thing we do is we run

398

00:15:20,710 --> 00:15:19,120

things and

399

00:15:22,230 --> 00:15:20,720

a lot of us have military backgrounds we

400

00:15:24,230 --> 00:15:22,240

run things in kind of a military type

401
00:15:26,389 --> 00:15:24,240
setup you know we have a radio net

402
00:15:28,230 --> 00:15:26,399
control very strict command and control

403
00:15:29,749 --> 00:15:28,240
everybody has coms with everybody else

404
00:15:30,949 --> 00:15:29,759
so once we were in place we were waiting

405
00:15:32,870 --> 00:15:30,959
for the radio

406
00:15:34,629 --> 00:15:32,880
uh cue that he was going to start moving

407
00:15:35,910 --> 00:15:34,639
and he came to us over the radio and he

408
00:15:38,310 --> 00:15:35,920
said

409
00:15:40,870 --> 00:15:38,320
i just reached this landmark it's a

410
00:15:42,230 --> 00:15:40,880
well-known landmark it's a downed tree

411
00:15:43,590 --> 00:15:42,240
and he said i just reached the uh the

412
00:15:46,310 --> 00:15:43,600
tree across the trail and i don't

413
00:15:48,310 --> 00:15:46,320

remember how i got here

414

00:15:49,509 --> 00:15:48,320

of course the first thing is uh occam's

415

00:15:50,949 --> 00:15:49,519

razor you know he had some sort of

416

00:15:53,030 --> 00:15:50,959

medical condition you know maybe he had

417

00:15:55,590 --> 00:15:53,040

a stroke a concussion some sort of

418

00:15:57,509 --> 00:15:55,600

epileptic episode something like that so

419

00:15:59,189 --> 00:15:57,519

our medics on the team started

420

00:16:01,110 --> 00:15:59,199

interrogating him over the radio can you

421

00:16:03,030 --> 00:16:01,120

feel both hands you know do you feel

422

00:16:05,030 --> 00:16:03,040

dizzy does your head hurt do you have

423

00:16:08,389 --> 00:16:05,040

any balance issues like no no i just

424

00:16:09,829 --> 00:16:08,399

don't remember how i got here okay you

425

00:16:12,150 --> 00:16:09,839

know we were excited about this new

426
00:16:14,629 --> 00:16:12,160
investigatory uh experience and looking

427
00:16:15,910 --> 00:16:14,639
at this new location we thought maybe

428
00:16:17,829 --> 00:16:15,920
he was daydreaming you know kind of like

429
00:16:20,069 --> 00:16:17,839
you drive into work in the morning you

430
00:16:23,110 --> 00:16:20,079
don't really remember driving there

431
00:16:24,389 --> 00:16:23,120
so we kind of brushed that off uh

432
00:16:26,310 --> 00:16:24,399
and he traversed the top of the

433
00:16:27,910 --> 00:16:26,320
ridgeline

434
00:16:29,430 --> 00:16:27,920
with no results dropped down into the

435
00:16:31,110 --> 00:16:29,440
west end of the meadow started working

436
00:16:33,749 --> 00:16:31,120
his way east

437
00:16:35,590 --> 00:16:33,759
uh i had a team of uh researchers that

438
00:16:36,949 --> 00:16:35,600

picked him up on their floor equipment

439

00:16:37,990 --> 00:16:36,959

their thermal equipment as he dropped

440

00:16:39,350 --> 00:16:38,000

down into the meadow these two

441

00:16:40,310 --> 00:16:39,360

individuals

442

00:16:42,629 --> 00:16:40,320

give you a little bit about their

443

00:16:43,590 --> 00:16:42,639

backgrounds one individual has a degree

444

00:16:45,350 --> 00:16:43,600

in uh

445

00:16:47,030 --> 00:16:45,360

management from the georgia institute of

446

00:16:49,430 --> 00:16:47,040

technology a very prestigious

447

00:16:50,949 --> 00:16:49,440

engineering school in atlanta georgia

448

00:16:52,550 --> 00:16:50,959

also has a master's degree in public

449

00:16:54,870 --> 00:16:52,560

administration has been a career

450

00:16:56,629 --> 00:16:54,880

paramedic for over 30 years

451
00:16:58,790 --> 00:16:56,639
the other individual with him comes from

452
00:17:01,430 --> 00:16:58,800
the us army special operations community

453
00:17:03,030 --> 00:17:01,440
specifically the 75th ranger regiment

454
00:17:06,230 --> 00:17:03,040
has a degree from georgia tech and

455
00:17:09,590 --> 00:17:06,240
physics with a dual degree in philosophy

456
00:17:11,909 --> 00:17:09,600
works in the technical field very solid

457
00:17:13,590 --> 00:17:11,919
feet on the ground kind of guys

458
00:17:14,870 --> 00:17:13,600
and they watched our researcher drop

459
00:17:16,789 --> 00:17:14,880
down in the meadow and start working

460
00:17:19,189 --> 00:17:16,799
their way towards them

461
00:17:20,309 --> 00:17:19,199
and much of their surprise they witness

462
00:17:23,350 --> 00:17:20,319
him

463
00:17:24,710 --> 00:17:23,360

turn into a sphere of energy

464

00:17:26,949 --> 00:17:24,720

on their equipment

465

00:17:29,909 --> 00:17:26,959

and move several hundred yards in a few

466

00:17:32,070 --> 00:17:29,919

seconds and we calculated this out

467

00:17:34,390 --> 00:17:32,080

whatever that thing was it was moving at

468

00:17:36,630 --> 00:17:34,400

26 miles per hour

469

00:17:39,590 --> 00:17:36,640

over rugged terrain faster than the

470

00:17:44,070 --> 00:17:39,600

fastest runner could move wow

471

00:17:48,470 --> 00:17:46,870

thermal signature on our flear

472

00:17:50,549 --> 00:17:48,480

and they quickly radioed and they said

473

00:17:53,110 --> 00:17:50,559

you know are you okay and they saw this

474

00:17:54,710 --> 00:17:53,120

shape and their thermal you know imagery

475

00:17:57,669 --> 00:17:54,720

bring a radio up to its mouth and

476

00:17:58,950 --> 00:17:57,679

respond yes i'm fine why do you ask

477

00:18:01,350 --> 00:17:58,960

well perhaps you should come over here

478

00:18:02,710 --> 00:18:01,360

and let's talk about it

479

00:18:04,310 --> 00:18:02,720

so

480

00:18:06,549 --> 00:18:04,320

they met up and they explained what they

481

00:18:08,630 --> 00:18:06,559

saw which was basically his heat

482

00:18:10,310 --> 00:18:08,640

signature man-shaped heat signature

483

00:18:12,710 --> 00:18:10,320

turned into a ball of energy moved

484

00:18:14,549 --> 00:18:12,720

several hundred yards

485

00:18:17,430 --> 00:18:14,559

over a few seconds and then turn back

486

00:18:19,350 --> 00:18:17,440

into a man-shaped heat signature

487

00:18:20,870 --> 00:18:19,360

and uh

488

00:18:22,470 --> 00:18:20,880

walk over to them

489

00:18:23,510 --> 00:18:22,480

and they said what did you experience

490

00:18:25,110 --> 00:18:23,520

he's like i don't know what you're

491

00:18:26,470 --> 00:18:25,120

talking about i was just walking across

492

00:18:28,630 --> 00:18:26,480

the field

493

00:18:30,630 --> 00:18:28,640

there was no change or nothing different

494

00:18:32,310 --> 00:18:30,640

to me from my perspective

495

00:18:34,310 --> 00:18:32,320

so i would literally

496

00:18:36,470 --> 00:18:34,320

we were just arguing about this amongst

497

00:18:38,230 --> 00:18:36,480

the team members last week whose

498

00:18:40,310 --> 00:18:38,240

perspective changed

499

00:18:41,750 --> 00:18:40,320

who had their reality shifted was it the

500

00:18:43,190 --> 00:18:41,760

observer

501
00:18:44,950 --> 00:18:43,200
or was it the observed and then you

502
00:18:46,230 --> 00:18:44,960
start getting into all kinds of quantum

503
00:18:47,669 --> 00:18:46,240
issues you know when you start looking

504
00:18:49,270 --> 00:18:47,679
at it that way

505
00:18:50,630 --> 00:18:49,280
so we thought okay well that was kind of

506
00:18:52,549 --> 00:18:50,640
the strangest thing that's probably

507
00:18:54,230 --> 00:18:52,559
going to happen to us ever

508
00:18:55,830 --> 00:18:54,240
and we were wrong

509
00:18:57,270 --> 00:18:55,840
the next morning the individual who

510
00:18:59,590 --> 00:18:57,280
experienced the missing time and has

511
00:19:01,990 --> 00:18:59,600
changed into the sphere of energy came

512
00:19:03,830 --> 00:19:02,000
over to us uh with his gps a little bit

513
00:19:06,070 --> 00:19:03,840

about this gentleman's background he is

514

00:19:08,789 --> 00:19:06,080

a retired law enforcement officer

515

00:19:10,310 --> 00:19:08,799

spent many many years doing back country

516

00:19:12,549 --> 00:19:10,320

search and rescue in the wilds of

517

00:19:14,150 --> 00:19:12,559

california back in the 80s when they

518

00:19:16,310 --> 00:19:14,160

would literally drop you and your search

519

00:19:18,470 --> 00:19:16,320

dog off in a helicopter and you were on

520

00:19:20,549 --> 00:19:18,480

your own until you were retrieved so

521

00:19:22,870 --> 00:19:20,559

this guy has a lot of back country

522

00:19:25,669 --> 00:19:22,880

search and rescue experience and as part

523

00:19:27,190 --> 00:19:25,679

of that he always runs his tracking

524

00:19:29,110 --> 00:19:27,200

uh

525

00:19:30,950 --> 00:19:29,120

feature on his gps it always runs a

526
00:19:32,630 --> 00:19:30,960
track wherever he's at

527
00:19:34,549 --> 00:19:32,640
that morning he showed us his track from

528
00:19:36,630 --> 00:19:34,559
the evening before and what it showed

529
00:19:38,630 --> 00:19:36,640
was several straight lines

530
00:19:39,750 --> 00:19:38,640
those lines being several kilometers

531
00:19:41,909 --> 00:19:39,760
long

532
00:19:43,990 --> 00:19:41,919
going from point to point for example

533
00:19:46,230 --> 00:19:44,000
point a to point b point b to point c

534
00:19:47,350 --> 00:19:46,240
point c to point d several kilometers

535
00:19:49,270 --> 00:19:47,360
long

536
00:19:51,029 --> 00:19:49,280
straight lines

537
00:19:52,470 --> 00:19:51,039
the only problem is you can't

538
00:19:54,310 --> 00:19:52,480

can't travel in a straight line over

539

00:19:55,830 --> 00:19:54,320

this terrain it's too rugged

540

00:19:57,430 --> 00:19:55,840

you can't travel in a straight line on

541

00:19:59,430 --> 00:19:57,440

foot nor can you travel in a straight

542

00:20:01,110 --> 00:19:59,440

line by automobile

543

00:20:02,630 --> 00:20:01,120

so i'm going to ask you how can you

544

00:20:04,310 --> 00:20:02,640

travel in a straight line over rugged

545

00:20:06,390 --> 00:20:04,320

terrain

546

00:20:08,470 --> 00:20:06,400

yeah it is

547

00:20:12,870 --> 00:20:08,480

it's something

548

00:20:14,710 --> 00:20:12,880

can't be explained i thought this was

549

00:20:15,669 --> 00:20:14,720

ultra strange

550

00:20:18,710 --> 00:20:15,679

and

551
00:20:21,990 --> 00:20:18,720
there do see it seems that

552
00:20:24,230 --> 00:20:22,000
there's many facets to this area you are

553
00:20:26,390 --> 00:20:24,240
investigating with your team

554
00:20:28,710 --> 00:20:26,400
and at times it seems like there is a

555
00:20:31,669 --> 00:20:28,720
trickster element involved

556
00:20:34,070 --> 00:20:31,679
everything from sticks over backpacks to

557
00:20:36,549 --> 00:20:34,080
entire trees over trails could we go

558
00:20:38,630 --> 00:20:36,559
into the trickster type uh element that

559
00:20:40,549 --> 00:20:38,640
has been encountered

560
00:20:43,029 --> 00:20:40,559
oh yeah that's that's excellent uh you

561
00:20:45,029 --> 00:20:43,039
know these areas uh all over the world

562
00:20:48,149 --> 00:20:45,039
that are hot spots for high strength as

563
00:20:50,630 --> 00:20:48,159

often as you said have a trickster or a

564

00:20:52,149 --> 00:20:50,640

joker element to it uh you know you go

565

00:20:53,510 --> 00:20:52,159

all the way back in the you went to

566

00:20:55,110 --> 00:20:53,520

valley you know you've got uh you know

567

00:20:57,590 --> 00:20:55,120

some of the tricksters there and you

568

00:21:00,830 --> 00:20:57,600

know back in the first nations folklore

569

00:21:03,750 --> 00:21:00,840

and we're not immune to that uh we had

570

00:21:05,669 --> 00:21:03,760

uh some of the trickster elements is as

571

00:21:08,230 --> 00:21:05,679

you alluded to the uh stick across the

572

00:21:09,909 --> 00:21:08,240

backpack uh we had we're exploring

573

00:21:11,110 --> 00:21:09,919

another meadow that was about seven

574

00:21:13,190 --> 00:21:11,120

miles away

575

00:21:15,990 --> 00:21:13,200

this one was a very remote we had to

576

00:21:17,669 --> 00:21:16,000

hike about seven miles back to get to it

577

00:21:19,350 --> 00:21:17,679

carrying all of our equipment with us

578

00:21:21,830 --> 00:21:19,360

and the next morning

579

00:21:24,549 --> 00:21:21,840

one of our team members had had a stick

580

00:21:26,310 --> 00:21:24,559

placed uh interwoven within a hip belt

581

00:21:28,149 --> 00:21:26,320

of his backpack and there's a photograph

582

00:21:29,909 --> 00:21:28,159

in the book of this

583

00:21:31,830 --> 00:21:29,919

his backpack had been left outside of a

584

00:21:34,230 --> 00:21:31,840

single man bivvy tent

585

00:21:36,149 --> 00:21:34,240

and one side of the stick was under the

586

00:21:38,549 --> 00:21:36,159

left side of the backpack left side of

587

00:21:40,230 --> 00:21:38,559

the hip belt and the top of the stick

588

00:21:41,590 --> 00:21:40,240

was over the right side of the hip belt

589

00:21:43,750 --> 00:21:41,600

interwoven

590

00:21:45,830 --> 00:21:43,760

and we explored where maybe this stick

591

00:21:47,510 --> 00:21:45,840

had come from uh

592

00:21:49,270 --> 00:21:47,520

it could have fallen from a tree could

593

00:21:51,669 --> 00:21:49,280

we have missed it the evening before and

594

00:21:54,549 --> 00:21:51,679

we could not come up with an explanation

595

00:21:56,789 --> 00:21:54,559

and gifting or trick tricking

596

00:21:59,270 --> 00:21:56,799

is very very rich in the folklore of

597

00:22:02,149 --> 00:21:59,280

these areas another example of the

598

00:22:05,510 --> 00:22:02,159

trickster is we

599

00:22:07,110 --> 00:22:05,520

were set up in a campsite quite remote

600

00:22:08,789 --> 00:22:07,120

from the one that we were used to

601
00:22:11,029 --> 00:22:08,799
because of our covid restrictions here

602
00:22:13,990 --> 00:22:11,039
in the nature preserve

603
00:22:15,909 --> 00:22:14,000
and we started hearing a cat

604
00:22:18,070 --> 00:22:15,919
you know a feline

605
00:22:19,909 --> 00:22:18,080
meowing off in the distance now it was

606
00:22:21,909 --> 00:22:19,919
one of those situations that we were so

607
00:22:23,909 --> 00:22:21,919
far in the back country it makes no

608
00:22:25,669 --> 00:22:23,919
sense for a domestic cat

609
00:22:27,750 --> 00:22:25,679
to be meowing

610
00:22:29,669 --> 00:22:27,760
you know at night so we took our

611
00:22:30,950 --> 00:22:29,679
flashlights and our thermals we went out

612
00:22:32,549 --> 00:22:30,960
and scanned

613
00:22:34,470 --> 00:22:32,559

you know all around the campsite in the

614

00:22:36,549 --> 00:22:34,480

surrounding areas for this cat and we

615

00:22:37,750 --> 00:22:36,559

were never able to find it so there's

616

00:22:40,549 --> 00:22:37,760

there's something

617

00:22:41,430 --> 00:22:40,559

almost uh kind of playing with us uh i

618

00:22:43,029 --> 00:22:41,440

never

619

00:22:44,870 --> 00:22:43,039

really had a feeling of anything

620

00:22:46,789 --> 00:22:44,880

benevolent

621

00:22:48,390 --> 00:22:46,799

uh i have had a feeling of something

622

00:22:51,350 --> 00:22:48,400

maybe being a bit perturbed and

623

00:22:53,190 --> 00:22:51,360

irritated with us not you know not

624

00:22:55,510 --> 00:22:53,200

cruelly irritated with it but maybe we

625

00:22:57,110 --> 00:22:55,520

were just bothering it and then there's

626
00:22:59,350 --> 00:22:57,120
also like you said a trickster element

627
00:23:00,950 --> 00:22:59,360
most certainly

628
00:23:02,789 --> 00:23:00,960
it's fascinating

629
00:23:05,430 --> 00:23:02,799
and uh

630
00:23:06,870 --> 00:23:05,440
another fascinating fascinating aspect

631
00:23:10,070 --> 00:23:06,880
to this is

632
00:23:12,710 --> 00:23:10,080
almost well like a men in black feature

633
00:23:14,630 --> 00:23:12,720
or women in black could we go a little

634
00:23:17,110 --> 00:23:14,640
bit into some of those encounters and

635
00:23:20,950 --> 00:23:17,120
how strange those have been

636
00:23:23,990 --> 00:23:20,960
oh yeah absolutely that was probably

637
00:23:26,230 --> 00:23:24,000
the most unnerving uh aspect of all of

638
00:23:28,630 --> 00:23:26,240

this uh we had had the very very strange

639

00:23:30,789 --> 00:23:28,640

encounter with the uh the troopas or box

640

00:23:32,630 --> 00:23:30,799

likes uh portals or whatever you know

641

00:23:36,230 --> 00:23:32,640

whatever you want to call them

642

00:23:38,390 --> 00:23:36,240

you know and this was back in uh 2017

643

00:23:40,630 --> 00:23:38,400

and after we had assembled our team and

644

00:23:43,110 --> 00:23:40,640

we're doing a very quick uh in the field

645

00:23:45,750 --> 00:23:43,120

after action review we decided that it

646

00:23:49,510 --> 00:23:45,760

would be wise to go back to uh back to

647

00:23:52,470 --> 00:23:49,520

our base camp do a very formal on video

648

00:23:54,549 --> 00:23:52,480

after action review using uh the

649

00:23:56,149 --> 00:23:54,559

some interview techniques

650

00:23:57,590 --> 00:23:56,159

to

651
00:24:00,230 --> 00:23:57,600
get as much information while it was

652
00:24:02,710 --> 00:24:00,240
still fresh on everybody's mind

653
00:24:04,230 --> 00:24:02,720
and i received a radio call from my base

654
00:24:06,070 --> 00:24:04,240
camp operator he says you know trey

655
00:24:08,230 --> 00:24:06,080
there's somebody here that wants to see

656
00:24:09,830 --> 00:24:08,240
you when you come back

657
00:24:11,190 --> 00:24:09,840
i'm like yeah okay glenn i'll see you

658
00:24:12,549 --> 00:24:11,200
when i get there we're getting ready to

659
00:24:15,830 --> 00:24:12,559
pack up our gear and head back he goes

660
00:24:18,390 --> 00:24:17,510
so i'm painting a picture this is in

661
00:24:20,630 --> 00:24:18,400
february

662
00:24:22,390 --> 00:24:20,640
at 10 30 in the evening

663
00:24:24,310 --> 00:24:22,400

at night

664

00:24:26,310 --> 00:24:24,320

uh in the winter time in the middle of

665

00:24:27,909 --> 00:24:26,320

nowhere

666

00:24:30,470 --> 00:24:27,919

and there's somebody that wants to talk

667

00:24:32,390 --> 00:24:30,480

to me that's not part of our crew

668

00:24:36,149 --> 00:24:32,400

so i get back there and much to my

669

00:24:38,070 --> 00:24:36,159

chagrin there's a vehicle uh that

670

00:24:39,510 --> 00:24:38,080

doesn't belong to us pulled up in our in

671

00:24:40,789 --> 00:24:39,520

our camping area

672

00:24:43,110 --> 00:24:40,799

and there's a woman standing there

673

00:24:46,070 --> 00:24:43,120

waiting for me

674

00:24:48,390 --> 00:24:46,080

and this woman is wearing loafers slacks

675

00:24:50,710 --> 00:24:48,400

blouse and a blazer

676

00:24:52,230 --> 00:24:50,720

a businesswoman if you will

677

00:24:53,990 --> 00:24:52,240

who seemed very very interested in

678

00:24:55,990 --> 00:24:54,000

talking to me

679

00:24:57,830 --> 00:24:56,000

and the first thing she said is she

680

00:24:59,830 --> 00:24:57,840

wanted us to drop everything we were

681

00:25:02,710 --> 00:24:59,840

doing and follow her down this deserted

682

00:25:04,310 --> 00:25:02,720

county road there in the nature preserve

683

00:25:06,070 --> 00:25:04,320

and at the end of this county road she

684

00:25:07,830 --> 00:25:06,080

said there was a dwelling or a structure

685

00:25:10,070 --> 00:25:07,840

that was inhabited by creatures that she

686

00:25:11,590 --> 00:25:10,080

described as monkey bears i don't really

687

00:25:15,350 --> 00:25:11,600

know what a monkey bear is but that was

688

00:25:17,669 --> 00:25:15,360

the term she used yeah so i had a choice

689

00:25:19,750 --> 00:25:17,679

of taking my entire team

690

00:25:22,470 --> 00:25:19,760

and draping off in the forest with some

691

00:25:24,230 --> 00:25:22,480

strange woman down a deserted road

692

00:25:26,870 --> 00:25:24,240

to chase after

693

00:25:29,029 --> 00:25:26,880

legendary monkey bears or maybe stay put

694

00:25:30,789 --> 00:25:29,039

where i was at so i

695

00:25:32,870 --> 00:25:30,799

you know sometimes discretion is the

696

00:25:34,390 --> 00:25:32,880

better part of valor and i decided to

697

00:25:36,470 --> 00:25:34,400

stay where we were and not follow this

698

00:25:38,390 --> 00:25:36,480

woman because it just seemed often odd

699

00:25:40,830 --> 00:25:38,400

she was very

700

00:25:41,669 --> 00:25:40,840

off you know that's about the best way i

701
00:25:43,269 --> 00:25:41,679
can uh

702
00:25:45,430 --> 00:25:43,279
mm-hmm

703
00:25:47,830 --> 00:25:45,440
and uh she just continued and was very

704
00:25:50,549 --> 00:25:47,840
persistent about uh

705
00:25:52,230 --> 00:25:50,559
you know us following her and i kept you

706
00:25:53,590 --> 00:25:52,240
know saying have a good night thank you

707
00:25:55,350 --> 00:25:53,600
for coming

708
00:25:57,269 --> 00:25:55,360
you're trying to you know

709
00:25:59,430 --> 00:25:57,279
throw those social cues out there that

710
00:26:01,110 --> 00:25:59,440
most people would pick up that means the

711
00:26:02,230 --> 00:26:01,120
conversation is over please leave us

712
00:26:04,070 --> 00:26:02,240
alone

713
00:26:05,430 --> 00:26:04,080

and she wouldn't do that

714

00:26:07,909 --> 00:26:05,440

and then she started getting kind of

715

00:26:10,549 --> 00:26:07,919

personal she said well you know did you

716

00:26:12,470 --> 00:26:10,559

go to college i said well yeah i did she

717

00:26:14,070 --> 00:26:12,480

goes well what college did you go to and

718

00:26:17,830 --> 00:26:14,080

i said well i went to the university of

719

00:26:19,430 --> 00:26:17,840

west georgia and she said well i did too

720

00:26:21,029 --> 00:26:19,440

well that's odd

721

00:26:23,669 --> 00:26:21,039

she goes well what's your degree in i

722

00:26:25,590 --> 00:26:23,679

said well my degree is i have a ba in

723

00:26:27,510 --> 00:26:25,600

psychology with a minor in anthropology

724

00:26:29,029 --> 00:26:27,520

she goes oh i have a ba in psychology

725

00:26:30,470 --> 00:26:29,039

too

726

00:26:31,909 --> 00:26:30,480

and i thought okay this woman's just

727

00:26:32,789 --> 00:26:31,919

messing with me you know she's toying

728

00:26:34,070 --> 00:26:32,799

with me

729

00:26:36,070 --> 00:26:34,080

so i was going to be smart i was going

730

00:26:37,430 --> 00:26:36,080

to catch her up in a lie i said well

731

00:26:38,950 --> 00:26:37,440

that's very interesting who were some of

732

00:26:39,830 --> 00:26:38,960

your favorite professors while you were

733

00:26:41,590 --> 00:26:39,840

there

734

00:26:43,669 --> 00:26:41,600

and this woman actually started naming

735

00:26:46,310 --> 00:26:43,679

people i knew

736

00:26:48,470 --> 00:26:46,320

so i have a business woman

737

00:26:50,830 --> 00:26:48,480

in the middle of the forest

738

00:26:53,510 --> 00:26:50,840

in the winter time 10 30 at

739

00:26:56,070 --> 00:26:53,520

night that went to the same university i

740

00:26:57,909 --> 00:26:56,080

went to has the same degree i have it

741

00:26:59,669 --> 00:26:57,919

knows the same people i have

742

00:27:00,870 --> 00:26:59,679

so statistically what are the odds of

743

00:27:02,789 --> 00:27:00,880

that

744

00:27:05,590 --> 00:27:02,799

rather remote

745

00:27:08,149 --> 00:27:05,600

it gets even stranger

746

00:27:10,390 --> 00:27:08,159

while this woman was talking to us she

747

00:27:12,549 --> 00:27:10,400

uh excused herself

748

00:27:15,669 --> 00:27:12,559

and she stepped away from our small

749

00:27:17,590 --> 00:27:15,679

gathering moved about 20 yards away

750

00:27:18,230 --> 00:27:17,600

still within the light of our lanterns

751
00:27:19,430 --> 00:27:18,240
and

752
00:27:21,190 --> 00:27:19,440
camp lights

753
00:27:24,870 --> 00:27:21,200
and she squatted down and urinated in

754
00:27:28,070 --> 00:27:26,630
and after that we finally were able to

755
00:27:29,510 --> 00:27:28,080
convince her to leave so i started

756
00:27:31,430 --> 00:27:29,520
thinking about this and going back and

757
00:27:33,350 --> 00:27:31,440
looking at some of the literature

758
00:27:34,950 --> 00:27:33,360
you have a person who shows up out of

759
00:27:36,870 --> 00:27:34,960
nowhere

760
00:27:39,510 --> 00:27:36,880
seems to want to distract you from what

761
00:27:41,669 --> 00:27:39,520
you're doing your mission

762
00:27:44,710 --> 00:27:41,679
is not properly dressed for the occasion

763
00:27:47,029 --> 00:27:44,720

as wearing clothes that are unusual

764

00:27:51,190 --> 00:27:47,039

seems off something about this person is

765

00:27:52,389 --> 00:27:51,200

off they don't understand social cueing

766

00:27:55,430 --> 00:27:52,399

they also

767

00:27:56,950 --> 00:27:55,440

don't understand uh polite niceties like

768

00:27:58,310 --> 00:27:56,960

you don't urinate in front of people

769

00:27:59,430 --> 00:27:58,320

unless you're really really friendly

770

00:28:01,190 --> 00:27:59,440

with them

771

00:28:03,110 --> 00:28:01,200

so i started looking at all of these

772

00:28:05,350 --> 00:28:03,120

elements and there's one

773

00:28:06,950 --> 00:28:05,360

group of people that falls

774

00:28:08,710 --> 00:28:06,960

you know right smack dab in the middle

775

00:28:11,830 --> 00:28:08,720

of all these indicators and it's what

776

00:28:13,430 --> 00:28:11,840

people call the men in black

777

00:28:15,430 --> 00:28:13,440

so true

778

00:28:18,070 --> 00:28:15,440

and and not picking up on those social

779

00:28:19,430 --> 00:28:18,080

cues everything in my opinion just fit

780

00:28:22,789 --> 00:28:19,440

to a t

781

00:28:25,990 --> 00:28:22,799

and uh yeah it is also it seems like

782

00:28:28,389 --> 00:28:26,000

these areas tend to have as a facet of

783

00:28:29,430 --> 00:28:28,399

the strange prism of high strangeness

784

00:28:31,430 --> 00:28:29,440

they have

785

00:28:32,710 --> 00:28:31,440

that feature that that men in black

786

00:28:34,789 --> 00:28:32,720

feature and i thought that your

787

00:28:36,070 --> 00:28:34,799

experiences with that are very important

788

00:28:37,029 --> 00:28:36,080

part of this

789

00:28:40,149 --> 00:28:37,039

another

790

00:28:43,269 --> 00:28:40,159

just fascinating in my opinion uh

791

00:28:45,750 --> 00:28:43,279

part of your investigation is some of

792

00:28:47,110 --> 00:28:45,760

the amazing images you've captured both

793

00:28:49,430 --> 00:28:47,120

on flear

794

00:28:52,310 --> 00:28:49,440

regular cameras etc

795

00:28:54,710 --> 00:28:52,320

and some of the most amazing cryptids

796

00:28:56,830 --> 00:28:54,720

large broad-shouldered figures in the

797

00:29:01,430 --> 00:28:56,840

woods that are hard to

798

00:29:03,430 --> 00:29:01,440

explain oh yeah absolutely this area uh

799

00:29:06,630 --> 00:29:03,440

like i said has a very rich history of

800

00:29:08,630 --> 00:29:06,640

uh cryptid uh involvement uh

801
00:29:10,070 --> 00:29:08,640
you know many of the areas uh around

802
00:29:12,389 --> 00:29:10,080
where we were at

803
00:29:14,630 --> 00:29:12,399
uh and within just a few miles of the

804
00:29:16,789 --> 00:29:14,640
meadow have had numerous reportings of

805
00:29:20,789 --> 00:29:16,799
uh you know sasquatch cryptids things

806
00:29:22,950 --> 00:29:20,799
like that uh we have video uh footage of

807
00:29:25,510 --> 00:29:22,960
large broad shoulder creatures watching

808
00:29:27,510 --> 00:29:25,520
us from the woodland

809
00:29:30,470 --> 00:29:27,520
which was very interesting

810
00:29:32,070 --> 00:29:30,480
from the fact that the the the image

811
00:29:33,269 --> 00:29:32,080
was actually colder than the

812
00:29:34,549 --> 00:29:33,279
surroundings

813
00:29:37,350 --> 00:29:34,559

not warmer

814

00:29:39,110 --> 00:29:37,360

the flare was set up to uh to indicate

815

00:29:41,510 --> 00:29:39,120

coolness

816

00:29:43,430 --> 00:29:41,520

so the the broad shouldered figure was

817

00:29:45,590 --> 00:29:43,440

colder than the surroundings which was

818

00:29:48,389 --> 00:29:45,600

very strange it doesn't make a lot of

819

00:29:50,630 --> 00:29:48,399

sense so you know i put on my you know

820

00:29:53,669 --> 00:29:50,640

paranormal ghost guy hat

821

00:29:54,789 --> 00:29:53,679

i'm like okay cold figures that's a

822

00:29:56,710 --> 00:29:54,799

ghost

823

00:29:59,350 --> 00:29:56,720

but i'm in the woods where you've had

824

00:30:01,190 --> 00:29:59,360

reportings of bigfoot so

825

00:30:03,430 --> 00:30:01,200

maybe it's a bigfoot maybe it's a ghost

826

00:30:05,269 --> 00:30:03,440

i don't know and what starts to happen

827

00:30:07,269 --> 00:30:05,279

is these different areas these different

828

00:30:09,350 --> 00:30:07,279

phenomenologies

829

00:30:12,630 --> 00:30:09,360

these different uh

830

00:30:14,630 --> 00:30:12,640

uh areas of research start to overlap

831

00:30:16,549 --> 00:30:14,640

your ghost stuff starts to overlap with

832

00:30:19,830 --> 00:30:16,559

your bigfoot stuff we start to overlap

833

00:30:22,070 --> 00:30:19,840

with your uh ufology stuff and we're all

834

00:30:24,310 --> 00:30:22,080

starting to look at the same phenomena

835

00:30:26,470 --> 00:30:24,320

albeit through different lenses

836

00:30:29,990 --> 00:30:26,480

so that's really really interesting we

837

00:30:31,990 --> 00:30:30,000

also have a photograph

838

00:30:33,669 --> 00:30:32,000

of uh of a figure watching us from the

839

00:30:35,830 --> 00:30:33,679

woodline during the daytime we didn't

840

00:30:37,350 --> 00:30:35,840

notice the figure until about a year

841

00:30:40,149 --> 00:30:37,360

later when we were going back and doing

842

00:30:42,549 --> 00:30:40,159

some uh review of our photographs

843

00:30:45,269 --> 00:30:42,559

and once again it was a large sasquatch

844

00:30:47,990 --> 00:30:45,279

type feature or creature

845

00:30:49,350 --> 00:30:48,000

watching is kind of obscured by some of

846

00:30:51,350 --> 00:30:49,360

the vegetation watching us from the

847

00:30:52,389 --> 00:30:51,360

woodline as i'm giving a briefing to my

848

00:30:55,190 --> 00:30:52,399

team

849

00:30:56,310 --> 00:30:55,200

prior to going out later that night

850

00:30:58,070 --> 00:30:56,320

one of our

851
00:31:00,870 --> 00:30:58,080
expeditions we also

852
00:31:02,389 --> 00:31:00,880
had a report in sightings of a large

853
00:31:04,389 --> 00:31:02,399
whitish humanoid

854
00:31:05,590 --> 00:31:04,399
watching us uh watching the edge of our

855
00:31:07,750 --> 00:31:05,600
campsite

856
00:31:10,470 --> 00:31:07,760
so yeah there is a just you know just

857
00:31:12,389 --> 00:31:10,480
boucous of a cryptid

858
00:31:14,230 --> 00:31:12,399
type phenomena going on this location

859
00:31:15,590 --> 00:31:14,240
also

860
00:31:18,549 --> 00:31:15,600
and

861
00:31:21,190 --> 00:31:18,559
as as you mentioned the layers of this

862
00:31:23,509 --> 00:31:21,200
are much like an onion and getting back

863
00:31:26,310 --> 00:31:23,519

to baths or the black water anomalous

864

00:31:29,750 --> 00:31:26,320

zone and particularly the meadow

865

00:31:31,909 --> 00:31:29,760

i was blown away by this

866

00:31:35,110 --> 00:31:31,919

i hate to call them tracks but they seem

867

00:31:36,070 --> 00:31:35,120

to be tire tracks could we go into how

868

00:31:46,149 --> 00:31:36,080

the

869

00:31:48,470 --> 00:31:46,159

oh yeah absolutely we had uh i mentioned

870

00:31:50,310 --> 00:31:48,480

earlier we had dispatched a team out to

871

00:31:52,870 --> 00:31:50,320

a similar meadow

872

00:31:55,110 --> 00:31:52,880

uh that was several miles away and left

873

00:31:58,230 --> 00:31:55,120

a uh we left a team back at our base

874

00:32:01,590 --> 00:31:58,240

camp this was back in april of 2018.

875

00:32:03,590 --> 00:32:01,600

uh while we were away uh

876
00:32:04,950 --> 00:32:03,600
the uh the morning saturday morning we

877
00:32:06,950 --> 00:32:04,960
were uh the

878
00:32:08,710 --> 00:32:06,960
team that had gone out to the uh

879
00:32:10,630 --> 00:32:08,720
the the distant meadow was waiting for

880
00:32:12,549 --> 00:32:10,640
extraction and we were waiting on our

881
00:32:14,230 --> 00:32:12,559
vehicle to come and get us

882
00:32:15,750 --> 00:32:14,240
and i had several team members decided

883
00:32:17,029 --> 00:32:15,760
they would take that opportunity since

884
00:32:19,909 --> 00:32:17,039
they were still back at base camp to

885
00:32:21,830 --> 00:32:19,919
walk out to the meadow and look at it

886
00:32:24,789 --> 00:32:21,840
they walked out there and they found

887
00:32:26,870 --> 00:32:24,799
what they can describe as

888
00:32:28,710 --> 00:32:26,880

i'm going to use the term tire tracks

889

00:32:30,630 --> 00:32:28,720

and that's not what they were but it's a

890

00:32:32,389 --> 00:32:30,640

it's it'll allow people to kind of paint

891

00:32:33,509 --> 00:32:32,399

a picture in their mind i want them to

892

00:32:35,750 --> 00:32:33,519

imagine

893

00:32:38,950 --> 00:32:35,760

a set of parallel tracks

894

00:32:41,190 --> 00:32:38,960

each track may be about 10 inches and

895

00:32:43,029 --> 00:32:41,200

10 inches in width

896

00:32:45,190 --> 00:32:43,039

you know maybe

897

00:32:46,950 --> 00:32:45,200

three and a half four feet

898

00:32:48,630 --> 00:32:46,960

apart from one another moving in a

899

00:32:50,549 --> 00:32:48,640

straight line almost like you would see

900

00:32:51,669 --> 00:32:50,559

tire tracks but these were a little bit

901
00:32:53,509 --> 00:32:51,679
different

902
00:32:55,190 --> 00:32:53,519
uh the grass out there at this time was

903
00:32:57,830 --> 00:32:55,200
about eight twelve to eighteen inches

904
00:33:00,310 --> 00:32:57,840
high and it's the tracks look like

905
00:33:02,230 --> 00:33:00,320
something was dropped into the meadow

906
00:33:04,230 --> 00:33:02,240
traveled a distance and it was lifted

907
00:33:08,230 --> 00:33:04,240
out so they had a distinct beginning a

908
00:33:10,789 --> 00:33:08,240
finite beginning and a finite ending

909
00:33:12,710 --> 00:33:10,799
in the grass in these tire tracks in the

910
00:33:14,230 --> 00:33:12,720
width of these two uh

911
00:33:16,950 --> 00:33:14,240
depressions

912
00:33:18,630 --> 00:33:16,960
was pressed over it wasn't broken it

913
00:33:20,549 --> 00:33:18,640

wasn't torn

914

00:33:21,909 --> 00:33:20,559

it was pressed over

915

00:33:24,470 --> 00:33:21,919

uh

916

00:33:26,389 --> 00:33:24,480

there were ant hills and small saplings

917

00:33:27,909 --> 00:33:26,399

and mole hills

918

00:33:31,350 --> 00:33:27,919

inside of these tracks that were not

919

00:33:33,430 --> 00:33:31,360

compressed that were not pressed down

920

00:33:35,509 --> 00:33:33,440

and they ran for several hundred yards

921

00:33:38,310 --> 00:33:35,519

and then just stopped

922

00:33:40,630 --> 00:33:38,320

so they were almost like crop circles

923

00:33:42,149 --> 00:33:40,640

but they were linear in nature which is

924

00:33:43,509 --> 00:33:42,159

really weird we were never able to

925

00:33:45,350 --> 00:33:43,519

figure that out

926
00:33:47,029 --> 00:33:45,360
later that afternoon i had two more my

927
00:33:50,070 --> 00:33:47,039
researchers go out and they took with

928
00:33:53,110 --> 00:33:50,080
them a full spectrum camera

929
00:33:55,269 --> 00:33:53,120
and they were photographing uh the the

930
00:33:58,149 --> 00:33:55,279
the tracks and they noticed that they

931
00:34:00,389 --> 00:33:58,159
stood within the tracks

932
00:34:02,149 --> 00:34:00,399
and faced uh you know down the tracks

933
00:34:04,710 --> 00:34:02,159
that at the end of the track was another

934
00:34:06,070 --> 00:34:04,720
cube or box this one by three meters by

935
00:34:07,669 --> 00:34:06,080
three meters about three meters nine

936
00:34:10,149 --> 00:34:07,679
foot by nine foot by nine foot very much

937
00:34:12,230 --> 00:34:10,159
smaller than the original one

938
00:34:13,909 --> 00:34:12,240

and it was only visible

939

00:34:15,270 --> 00:34:13,919

through their full spectrum camera which

940

00:34:17,430 --> 00:34:15,280

you know you uh

941

00:34:19,190 --> 00:34:17,440

captures infrared and ultraviolet uh

942

00:34:20,950 --> 00:34:19,200

light waves

943

00:34:23,270 --> 00:34:20,960

so every time they would step outside of

944

00:34:25,190 --> 00:34:23,280

the tracks and look at the uh

945

00:34:26,550 --> 00:34:25,200

the anomaly through their viewfinder it

946

00:34:29,270 --> 00:34:26,560

would disappear but as soon as they

947

00:34:31,349 --> 00:34:29,280

stepped back into it it would reappear

948

00:34:32,950 --> 00:34:31,359

so it was another one of these boxes

949

00:34:34,950 --> 00:34:32,960

that had something to do with these

950

00:34:37,990 --> 00:34:34,960

anomalous tracks

951
00:34:39,750 --> 00:34:38,000
and much to my disappointment that when

952
00:34:41,990 --> 00:34:39,760
they went to take a photograph of this

953
00:34:44,069 --> 00:34:42,000
box they had realized they left their sd

954
00:34:45,589 --> 00:34:44,079
camera back at campsite it was not in

955
00:34:47,190 --> 00:34:45,599
the camera they had pulled it out to

956
00:34:49,430 --> 00:34:47,200
download some stuff and forgot to put it

957
00:34:51,109 --> 00:34:49,440
back in but i have affidavits from these

958
00:34:53,349 --> 00:34:51,119
two individuals about what they saw and

959
00:34:55,829 --> 00:34:53,359
experience with these two tracks

960
00:34:57,510 --> 00:34:55,839
so that uh you know once again these

961
00:35:00,790 --> 00:34:57,520
strange boxes

962
00:35:02,470 --> 00:35:00,800
and crop circle similar type formations

963
00:35:03,829 --> 00:35:02,480

come into play

964

00:35:07,270 --> 00:35:03,839

yes

965

00:35:10,150 --> 00:35:07,280

it is very odd uh a lot of the goings on

966

00:35:13,829 --> 00:35:10,160

whether they're natural or otherworldly

967

00:35:15,349 --> 00:35:13,839

vehicles um a particular section of your

968

00:35:17,829 --> 00:35:15,359

book which

969

00:35:20,790 --> 00:35:17,839

really freaked me out was

970

00:35:24,069 --> 00:35:20,800

when a team member back at camp

971

00:35:25,750 --> 00:35:24,079

heard what well it seemed to be

972

00:35:28,310 --> 00:35:25,760

for lack of a better word i'll let you

973

00:35:31,430 --> 00:35:28,320

describe it but a vehicle with no lights

974

00:35:32,950 --> 00:35:31,440

on coming down the road i mean very high

975

00:35:34,630 --> 00:35:32,960

tech if

976

00:35:36,710 --> 00:35:34,640

i mean if it could even be called

977

00:35:39,510 --> 00:35:36,720

technology at all

978

00:35:41,030 --> 00:35:39,520

right yeah that was uh that was uh

979

00:35:45,030 --> 00:35:41,040

several years later

980

00:35:46,870 --> 00:35:45,040

we were camping at a remote site and

981

00:35:48,150 --> 00:35:46,880

i call it the uh

982

00:35:49,910 --> 00:35:48,160

the uh

983

00:35:51,750 --> 00:35:49,920

baskins hunt camp is what i call it in

984

00:35:53,910 --> 00:35:51,760

the book

985

00:35:56,550 --> 00:35:53,920

and that was in june of 2020 so we're

986

00:35:58,069 --> 00:35:56,560

talking about you know not too long ago

987

00:36:00,310 --> 00:35:58,079

during the summer of 2020 we were

988

00:36:03,030 --> 00:36:00,320

camping at this remote site

989

00:36:05,349 --> 00:36:03,040

because of ocovit had uh had forced us

990

00:36:07,510 --> 00:36:05,359

to uh not camp at the site that we

991

00:36:09,190 --> 00:36:07,520

usually you know camp at because the uh

992

00:36:10,870 --> 00:36:09,200

the department of natural resources had

993

00:36:13,750 --> 00:36:10,880

closed it down

994

00:36:15,030 --> 00:36:13,760

and we were off in the meadow uh trying

995

00:36:17,589 --> 00:36:15,040

something a little bit different like i

996

00:36:19,349 --> 00:36:17,599

said we bring different tools

997

00:36:21,750 --> 00:36:19,359

into the fray out of different toolboxes

998

00:36:24,790 --> 00:36:21,760

and we were using the ce5 protocol

999

00:36:26,390 --> 00:36:24,800

developed by dr stephen greer that night

1000

00:36:30,230 --> 00:36:26,400

which uh people aren't familiar with it

1001
00:36:33,030 --> 00:36:30,240
you go into an area you project uh

1002
00:36:34,390 --> 00:36:33,040
your intent to make contact uh a lot of

1003
00:36:35,910 --> 00:36:34,400
my team members are trained remote

1004
00:36:38,150 --> 00:36:35,920
viewers

1005
00:36:40,710 --> 00:36:38,160
and while we were doing that the one

1006
00:36:43,510 --> 00:36:40,720
individual back of base camp

1007
00:36:44,950 --> 00:36:43,520
heard what he described as a vehicle

1008
00:36:46,710 --> 00:36:44,960
driving down

1009
00:36:47,750 --> 00:36:46,720
a road that goes through the nature

1010
00:36:49,589 --> 00:36:47,760
preserve

1011
00:36:51,270 --> 00:36:49,599
probably about 30 yards from place where

1012
00:36:52,630 --> 00:36:51,280
we were camped now anybody that's ever

1013
00:36:54,950 --> 00:36:52,640

lived in a rural area knows that a

1014

00:36:56,950 --> 00:36:54,960

vehicle driving down a dirt or shirt

1015

00:36:59,510 --> 00:36:56,960

covered or gravel road has a very

1016

00:37:04,150 --> 00:36:59,520

distinct sound

1017

00:37:06,470 --> 00:37:04,160

a vehicle driving but he looked

1018

00:37:09,910 --> 00:37:06,480

and he could see nothing it was pitch

1019

00:37:12,470 --> 00:37:09,920

black it was about 10 o'clock at night

1020

00:37:14,150 --> 00:37:12,480

no moon you could not see your hands in

1021

00:37:15,510 --> 00:37:14,160

front of your face that's how dark it

1022

00:37:18,150 --> 00:37:15,520

was

1023

00:37:19,430 --> 00:37:18,160

and he heard this craft and that's i'm

1024

00:37:21,670 --> 00:37:19,440

just going to use that term because

1025

00:37:24,310 --> 00:37:21,680

that's the best descriptor move past the

1026

00:37:26,630 --> 00:37:24,320

campsite on this road

1027

00:37:29,750 --> 00:37:26,640

no lights

1028

00:37:32,470 --> 00:37:29,760

and he heard what he described as faint

1029

00:37:34,390 --> 00:37:32,480

voices out in the forest after this

1030

00:37:36,470 --> 00:37:34,400

where it gets a little weird is the only

1031

00:37:37,990 --> 00:37:36,480

way that you could drive down this road

1032

00:37:39,829 --> 00:37:38,000

that night

1033

00:37:42,310 --> 00:37:39,839

with no lights is if you had the most

1034

00:37:44,150 --> 00:37:42,320

advanced military grade gen 3 night

1035

00:37:47,109 --> 00:37:44,160

vision equipment

1036

00:37:49,030 --> 00:37:47,119

and why somebody would drive down a road

1037

00:37:53,670 --> 00:37:49,040

completely blacked out

1038

00:37:57,430 --> 00:37:55,349

he was also running his radiation

1039

00:37:59,430 --> 00:37:57,440

detector at that time and it's

1040

00:38:01,510 --> 00:37:59,440

interesting to note that the background

1041

00:38:02,870 --> 00:38:01,520

radiation of this particular area is

1042

00:38:05,910 --> 00:38:02,880

about

1043

00:38:08,550 --> 00:38:05,920

0.08 micro sieverts per hour you know

1044

00:38:11,990 --> 00:38:08,560

that's that's kind of average but when

1045

00:38:15,190 --> 00:38:12,000

this craft passed by our campsite and by

1046

00:38:18,069 --> 00:38:15,200

my researcher the radiation spiked up to

1047

00:38:19,829 --> 00:38:18,079

0.66 micro sieverts per hour that's

1048

00:38:21,190 --> 00:38:19,839

really interesting because if anybody's

1049

00:38:22,790 --> 00:38:21,200

been following some of the other

1050

00:38:24,790 --> 00:38:22,800

research going on with places like

1051
00:38:26,870 --> 00:38:24,800
skinwalker ranch they're starting to

1052
00:38:29,109 --> 00:38:26,880
detect these little micro variances and

1053
00:38:30,950 --> 00:38:29,119
radiation and background radiation so

1054
00:38:33,190 --> 00:38:30,960
there's something going on about these

1055
00:38:35,270 --> 00:38:33,200
uh little tiny spikes and radiation and

1056
00:38:37,030 --> 00:38:35,280
this was just another example of that

1057
00:38:38,710 --> 00:38:37,040
particular phenomena being recorded by

1058
00:38:41,589 --> 00:38:38,720
my team

1059
00:38:43,829 --> 00:38:41,599
absolutely and it falls right into line

1060
00:38:46,870 --> 00:38:43,839
with these areas of ice strangeness that

1061
00:38:49,750 --> 00:38:46,880
the strange technologies the

1062
00:38:51,589 --> 00:38:49,760
spikes in your detectors and something

1063
00:38:54,550 --> 00:38:51,599

else that really spoke to me and i

1064

00:38:56,870 --> 00:38:54,560

thought was very odd was you were very

1065

00:38:58,310 --> 00:38:56,880

professional and i commend you on that

1066

00:39:00,230 --> 00:38:58,320

on how you

1067

00:39:02,069 --> 00:39:00,240

used radio silence and also how you

1068

00:39:04,390 --> 00:39:02,079

communicated via radio because this is

1069

00:39:05,990 --> 00:39:04,400

an area of bad cell service

1070

00:39:07,670 --> 00:39:06,000

something that really stood out to me in

1071

00:39:10,390 --> 00:39:07,680

the book is

1072

00:39:12,790 --> 00:39:10,400

how you were using call signs in talking

1073

00:39:15,510 --> 00:39:12,800

to one another and and

1074

00:39:17,030 --> 00:39:15,520

i'll let you kind of explain but

1075

00:39:20,550 --> 00:39:17,040

somebody was listening to your call and

1076

00:39:22,950 --> 00:39:20,560

not only that they they jumped in

1077

00:39:25,829 --> 00:39:22,960

right right we uh several of our members

1078

00:39:27,750 --> 00:39:25,839

are licensed amateur radio operators

1079

00:39:29,990 --> 00:39:27,760

and this area is so remote we have just

1080

00:39:32,230 --> 00:39:30,000

really you know poor cell reception so

1081

00:39:34,950 --> 00:39:32,240

in order to communicate with uh remote

1082

00:39:37,829 --> 00:39:34,960

camps and remote teams a lot of times we

1083

00:39:40,310 --> 00:39:37,839

use a a high altitude repeater

1084

00:39:42,150 --> 00:39:40,320

a two meter repeater that's about 30

1085

00:39:44,710 --> 00:39:42,160

miles from our campsite but it allows us

1086

00:39:45,910 --> 00:39:44,720

tremendous coverage using our our radio

1087

00:39:47,430 --> 00:39:45,920

equipment

1088

00:39:49,750 --> 00:39:47,440

so you know being

1089

00:39:51,589 --> 00:39:49,760

you know a two meter uh

1090

00:39:53,829 --> 00:39:51,599

repeater you have to be a licensed ham

1091

00:39:58,150 --> 00:39:53,839

radio operator to uh to utilize it so we

1092

00:39:59,990 --> 00:39:58,160

have to use our fcc uh issued call signs

1093

00:40:02,630 --> 00:40:00,000

and during this particular this was the

1094

00:40:04,390 --> 00:40:02,640

same night as the strange craft driving

1095

00:40:06,710 --> 00:40:04,400

past the campsite

1096

00:40:09,829 --> 00:40:06,720

uh we got on the radio and we've got a

1097

00:40:11,750 --> 00:40:09,839

radio back to our base camp saying that

1098

00:40:13,670 --> 00:40:11,760

you know we're returning so you know a

1099

00:40:16,150 --> 00:40:13,680

call a radio call goes something like

1100

00:40:17,990 --> 00:40:16,160

this you know uh one two three four this

1101
00:40:20,550 --> 00:40:18,000
is five six seven eight you know five

1102
00:40:22,470 --> 00:40:20,560
six seven eight go uh we're returning

1103
00:40:23,349 --> 00:40:22,480
back to base camp we will see you in a

1104
00:40:25,750 --> 00:40:23,359
few

1105
00:40:27,430 --> 00:40:25,760
well thank you very much this is uh one

1106
00:40:29,030 --> 00:40:27,440
two three four thank you five six seven

1107
00:40:30,870 --> 00:40:29,040
eight one two three four out five six

1108
00:40:33,510 --> 00:40:30,880
seven eight out that would be

1109
00:40:36,069 --> 00:40:33,520
kind of how the flow of data would go

1110
00:40:38,069 --> 00:40:36,079
and uh while we were doing this uh this

1111
00:40:42,150 --> 00:40:38,079
conversation of us returning to base

1112
00:40:45,349 --> 00:40:42,160
camp a single female voice came in

1113
00:40:47,349 --> 00:40:45,359

and repeated the call sign of

1114

00:40:48,710 --> 00:40:47,359

uh the individual back of base camp

1115

00:40:50,230 --> 00:40:48,720

we'll call him one two three four and

1116

00:40:53,109 --> 00:40:50,240

it's just with a female voice that came

1117

00:40:54,870 --> 00:40:53,119

on and said one two three four

1118

00:40:56,550 --> 00:40:54,880

and then nothing

1119

00:40:58,790 --> 00:40:56,560

this is very strange in a couple of

1120

00:41:00,470 --> 00:40:58,800

reasons number one is

1121

00:41:02,470 --> 00:41:00,480

amateur radio etiquette is you don't

1122

00:41:03,829 --> 00:41:02,480

break into a conversation or a

1123

00:41:05,750 --> 00:41:03,839

transmission

1124

00:41:06,950 --> 00:41:05,760

unless it's an emergency it's very very

1125

00:41:08,230 --> 00:41:06,960

rude

1126

00:41:09,270 --> 00:41:08,240

number two

1127

00:41:11,190 --> 00:41:09,280

is

1128

00:41:13,430 --> 00:41:11,200

you're not always required to give the

1129

00:41:15,349 --> 00:41:13,440

other person's call sign

1130

00:41:17,430 --> 00:41:15,359

but you are required by law to give

1131

00:41:19,910 --> 00:41:17,440

yours and this person that broke in

1132

00:41:23,109 --> 00:41:19,920

never gave their call sign

1133

00:41:25,589 --> 00:41:23,119

and we only had one instance instance

1134

00:41:27,190 --> 00:41:25,599

of that person giving the call sign of

1135

00:41:28,950 --> 00:41:27,200

the individual that was back at base

1136

00:41:31,910 --> 00:41:28,960

camp who had just experienced that

1137

00:41:32,790 --> 00:41:31,920

strange crap driving past or gliding

1138

00:41:35,589 --> 00:41:32,800

past

1139

00:41:37,910 --> 00:41:35,599

so wild so wild

1140

00:41:40,309 --> 00:41:37,920

and there are so many wild instances

1141

00:41:42,230 --> 00:41:40,319

like that in your book it's just

1142

00:41:45,430 --> 00:41:42,240

there's no way we can hit upon all of

1143

00:41:48,790 --> 00:41:45,440

them something that really stood out as

1144

00:41:50,950 --> 00:41:48,800

well in your work is how the meto

1145

00:41:52,309 --> 00:41:50,960

project and the area that you are

1146

00:41:55,670 --> 00:41:52,319

investigating

1147

00:41:57,430 --> 00:41:55,680

seems to have very similar uh

1148

00:42:00,550 --> 00:41:57,440

gosh i don't know what to call it but

1149

00:42:02,230 --> 00:42:00,560

your gear is shut down batteries drained

1150

00:42:03,190 --> 00:42:02,240

things don't seem to be working in the

1151

00:42:06,309 --> 00:42:03,200

field

1152

00:42:07,990 --> 00:42:06,319

and uh it goes as far as even vehicles

1153

00:42:10,950 --> 00:42:08,000

locking and unlocking themselves can we

1154

00:42:12,950 --> 00:42:10,960

get into some of those instances oh

1155

00:42:14,870 --> 00:42:12,960

absolutely uh

1156

00:42:18,870 --> 00:42:14,880

you know strange things and

1157

00:42:20,230 --> 00:42:18,880

malfunctioning gear is is just endemic

1158

00:42:22,309 --> 00:42:20,240

at this site

1159

00:42:24,950 --> 00:42:22,319

you know we have literally had two

1160

00:42:28,230 --> 00:42:24,960

drones completely fried

1161

00:42:31,190 --> 00:42:28,240

uh operating at this site i had uh my my

1162

00:42:32,950 --> 00:42:31,200

drone was damaged so bad

1163

00:42:35,109 --> 00:42:32,960

by some force

1164

00:42:36,230 --> 00:42:35,119

that i had to send it back and buy a new

1165

00:42:40,550 --> 00:42:36,240

one

1166

00:42:42,550 --> 00:42:40,560

was a mavic

1167

00:42:45,030 --> 00:42:42,560

very nice high-end drone

1168

00:42:46,150 --> 00:42:45,040

it got damaged so bad that it had to be

1169

00:42:48,710 --> 00:42:46,160

sent back

1170

00:42:51,349 --> 00:42:48,720

one of our team members uh was using her

1171

00:42:52,950 --> 00:42:51,359

high-end fleer equipment it was damaged

1172

00:42:55,030 --> 00:42:52,960

so bad that it had to be sent back to

1173

00:42:56,790 --> 00:42:55,040

the manufacturer

1174

00:42:59,990 --> 00:42:56,800

we have had vehicles that lock and

1175

00:43:01,190 --> 00:43:00,000

unlock as recently as july of this year

1176

00:43:03,030 --> 00:43:01,200

uh

1177

00:43:05,270 --> 00:43:03,040

it was so bad that one of my team

1178

00:43:07,109 --> 00:43:05,280

members was returning home

1179

00:43:08,870 --> 00:43:07,119

in july

1180

00:43:11,430 --> 00:43:08,880

and before she was able to cross a state

1181

00:43:12,390 --> 00:43:11,440

line back into her her home state

1182

00:43:14,470 --> 00:43:12,400

her

1183

00:43:16,710 --> 00:43:14,480

vehicle completely died all electronic

1184

00:43:17,990 --> 00:43:16,720

vehicle electronic features in her cam

1185

00:43:19,990 --> 00:43:18,000

air vehicle

1186

00:43:22,069 --> 00:43:20,000

were completely dead

1187

00:43:24,309 --> 00:43:22,079

i've had uh

1188

00:43:26,390 --> 00:43:24,319

camcorders that worked fine back at base

1189

00:43:27,910 --> 00:43:26,400

camp get out to the meadow couldn't get

1190

00:43:30,390 --> 00:43:27,920

them to work at all

1191

00:43:32,230 --> 00:43:30,400

come back to base camp they work fine

1192

00:43:35,270 --> 00:43:32,240

so this is a you know these types of

1193

00:43:37,030 --> 00:43:35,280

electronic anomalies and malfunctions

1194

00:43:39,430 --> 00:43:37,040

are are very well known and very well

1195

00:43:41,670 --> 00:43:39,440

recorded throughout all these various uh

1196

00:43:43,270 --> 00:43:41,680

places of high strangeness

1197

00:43:46,950 --> 00:43:43,280

very interesting

1198

00:43:48,870 --> 00:43:46,960

also it's important to mention and

1199

00:43:51,270 --> 00:43:48,880

one thing you are currently and

1200

00:43:53,030 --> 00:43:51,280

continually investigating this location

1201
00:43:55,349 --> 00:43:53,040
these are not things we're talking about

1202
00:43:57,990 --> 00:43:55,359
that happened decades ago and i really

1203
00:43:58,870 --> 00:43:58,000
commend you for that as we begin to wrap

1204
00:44:00,710 --> 00:43:58,880
up

1205
00:44:02,630 --> 00:44:00,720

1206
00:44:04,390 --> 00:44:02,640
they can support your efforts keep up

1207
00:44:06,630 --> 00:44:04,400
with your work buy your books and keep

1208
00:44:09,430 --> 00:44:06,640
up with you

1209
00:44:11,910 --> 00:44:09,440
oh absolutely absolutely the uh the best

1210
00:44:14,150 --> 00:44:11,920
way to get the book and uh

1211
00:44:15,910 --> 00:44:14,160
i will say that it is in hardback

1212
00:44:18,710 --> 00:44:15,920
softback

1213
00:44:20,470 --> 00:44:18,720

uh audiobook and ebook so all the

1214

00:44:22,710 --> 00:44:20,480

various you know uh

1215

00:44:25,270 --> 00:44:22,720

types of book it's out there

1216

00:44:27,670 --> 00:44:25,280

is on amazon and the easiest way to do

1217

00:44:30,430 --> 00:44:27,680

that is just in the search bar

1218

00:44:32,470 --> 00:44:30,440

type in my name trey t r e y hudson

1219

00:44:33,750 --> 00:44:32,480

h-u-d-s-o-n it'll come up and the book

1220

00:44:35,990 --> 00:44:33,760

is titled

1221

00:44:38,470 --> 00:44:36,000

uh the meadow project explorations into

1222

00:44:41,349 --> 00:44:38,480

the south skinwalker ranch

1223

00:44:43,829 --> 00:44:41,359

you can go onto facebook and

1224

00:44:46,630 --> 00:44:43,839

type in trey hudson-author

1225

00:44:49,430 --> 00:44:46,640

that's my facebook page and also the

1226
00:44:51,910 --> 00:44:49,440
oxford paranormal society facebook page

1227
00:44:54,390 --> 00:44:51,920
is active too so those are some of the

1228
00:44:55,670 --> 00:44:54,400
ways that uh

1229
00:44:57,190 --> 00:44:55,680
you know you can reach out to me i've

1230
00:44:58,870 --> 00:44:57,200
got some other projects in the work that

1231
00:45:00,790 --> 00:44:58,880
i'm not really a liberty to go into but

1232
00:45:03,190 --> 00:45:00,800
uh you know i'm just trying to get this

1233
00:45:06,150 --> 00:45:03,200
story out to as many people as possible

1234
00:45:08,630 --> 00:45:06,160
primarily because it's not my story it's

1235
00:45:11,270 --> 00:45:08,640
the world story it belongs to everybody

1236
00:45:13,829 --> 00:45:11,280
and i want people to experience the awe

1237
00:45:17,349 --> 00:45:13,839
and the wonder of this remarkable and

1238
00:45:20,870 --> 00:45:17,359

unique site just as much as i have

1239

00:45:23,109 --> 00:45:20,880

and we all thank you for that it's uh as

1240

00:45:23,910 --> 00:45:23,119

we delve into this

1241

00:45:25,670 --> 00:45:23,920

this

1242

00:45:27,349 --> 00:45:25,680

peak behind the veil

1243

00:45:29,750 --> 00:45:27,359

something else that really stood out to

1244

00:45:31,270 --> 00:45:29,760

me and lastly i want to kind of touch on

1245

00:45:34,069 --> 00:45:31,280

it a little bit is

1246

00:45:34,870 --> 00:45:34,079

in the uh estes sessions that you took

1247

00:45:37,030 --> 00:45:34,880

place

1248

00:45:39,190 --> 00:45:37,040

they really are a special treat to read

1249

00:45:42,069 --> 00:45:39,200

because the way they read is much like a

1250

00:45:44,950 --> 00:45:42,079

conversation and in this conversation

1251

00:45:47,510 --> 00:45:44,960

the word cold continued to come up

1252

00:45:49,829 --> 00:45:47,520

and i think uh you

1253

00:45:52,870 --> 00:45:49,839

may have uncovered one of the layers to

1254

00:45:55,030 --> 00:45:52,880

this onion and possibly connected the

1255

00:45:58,230 --> 00:45:55,040

maybe maybe something to do with injured

1256

00:46:01,190 --> 00:45:58,240

cold could we get into that just a bit

1257

00:46:04,550 --> 00:46:01,200

oh yes absolutely uh you know indrid

1258

00:46:07,349 --> 00:46:04,560

cold of course is the protagonist

1259

00:46:09,670 --> 00:46:07,359

uh of john keels during his book the

1260

00:46:11,030 --> 00:46:09,680

mothman prophecies it was a mysterious

1261

00:46:13,589 --> 00:46:11,040

entity

1262

00:46:15,349 --> 00:46:13,599

that uh you know keeps he keeps coming

1263

00:46:18,150 --> 00:46:15,359

in contact with

1264

00:46:20,950 --> 00:46:18,160

uh it's interesting and and somewhat

1265

00:46:24,150 --> 00:46:20,960

fascinating that indrid cold

1266

00:46:26,550 --> 00:46:24,160

is now also starting to become uh

1267

00:46:28,069 --> 00:46:26,560

kind of rear his his head once again if

1268

00:46:30,710 --> 00:46:28,079

anybody's familiar with the uh the

1269

00:46:33,510 --> 00:46:30,720

documentary series hillier

1270

00:46:35,190 --> 00:46:33,520

uh indrid cold plays into that quite

1271

00:46:36,790 --> 00:46:35,200

quite heavily

1272

00:46:39,510 --> 00:46:36,800

and i thought it was interesting that

1273

00:46:41,589 --> 00:46:39,520

the the word cold

1274

00:46:46,230 --> 00:46:41,599

you know literally came out of nowhere

1275

00:46:48,390 --> 00:46:46,240

that it was a phrase that was uttered

1276

00:46:50,550 --> 00:46:48,400

just basically in absence

1277

00:46:53,510 --> 00:46:50,560

of any other reference

1278

00:46:55,670 --> 00:46:53,520

but injury cold this this entity known

1279

00:46:57,750 --> 00:46:55,680

as injured cold is

1280

00:47:00,069 --> 00:46:57,760

heavily involved

1281

00:47:01,589 --> 00:47:00,079

in instances of high strangeness

1282

00:47:04,230 --> 00:47:01,599

especially when it involves

1283

00:47:05,990 --> 00:47:04,240

interdimensional interactions

1284

00:47:09,109 --> 00:47:06,000

so that is something that we are

1285

00:47:10,870 --> 00:47:09,119

certainly going to explore further

1286

00:47:12,710 --> 00:47:10,880

is the possible indrid cold

1287

00:47:14,710 --> 00:47:12,720

interdimensional aspect

1288

00:47:16,710 --> 00:47:14,720

of this whole phenomena and how it

1289

00:47:18,630 --> 00:47:16,720

relates to the meadow

1290

00:47:20,549 --> 00:47:18,640

yes

1291

00:47:22,870 --> 00:47:20,559

another question that

1292

00:47:27,030 --> 00:47:22,880

i'm sure

1293

00:47:29,109 --> 00:47:27,040

this as you mentioned you have a lot of

1294

00:47:31,750 --> 00:47:29,119

uh veterans special operations veterans

1295

00:47:35,030 --> 00:47:31,760

etc and remote viewers

1296

00:47:37,589 --> 00:47:35,040

on the team has anything come about from

1297

00:47:39,990 --> 00:47:37,599

any remote viewing or has any have any

1298

00:47:42,150 --> 00:47:40,000

sessions been focused on the meadow and

1299

00:47:46,150 --> 00:47:42,160

what came of those

1300

00:47:47,990 --> 00:47:46,160

uh yes yes we have done uh i have had a

1301

00:47:50,790 --> 00:47:48,000

a well-known remote viewer here in the

1302

00:47:52,870 --> 00:47:50,800

u.s somebody that i'm associated with do

1303

00:47:55,190 --> 00:47:52,880

a remote viewing of some of the

1304

00:47:58,470 --> 00:47:55,200

instances

1305

00:48:03,430 --> 00:47:58,480

and what came out of this remote viewing

1306

00:48:07,030 --> 00:48:05,589

you know a classic ufo abduction you

1307

00:48:08,630 --> 00:48:07,040

know

1308

00:48:10,390 --> 00:48:08,640

which falls in line with some of the

1309

00:48:12,950 --> 00:48:10,400

stuff that we're experiencing i have one

1310

00:48:13,990 --> 00:48:12,960

team member that has recurring dreams of

1311

00:48:15,990 --> 00:48:14,000

uh

1312

00:48:16,870 --> 00:48:16,000

creatures coming into their bedroom at

1313

00:48:19,270 --> 00:48:16,880

night

1314

00:48:22,790 --> 00:48:19,280

you know hovering over them

1315

00:48:24,230 --> 00:48:22,800

uh this individual also had a uh you

1316

00:48:25,190 --> 00:48:24,240

know their vehicle

1317

00:48:28,390 --> 00:48:25,200

die

1318

00:48:30,710 --> 00:48:28,400

unexpectedly in a remote area

1319

00:48:33,589 --> 00:48:30,720

uh so that is something that you know

1320

00:48:34,950 --> 00:48:33,599

we're going to continue to explore

1321

00:48:36,470 --> 00:48:34,960

unfortunately

1322

00:48:37,910 --> 00:48:36,480

we're self-funded

1323

00:48:42,230 --> 00:48:37,920

so we don't have a lot of money i'm

1324

00:48:44,390 --> 00:48:42,240

hoping to get some funding up to have a

1325

00:48:46,150 --> 00:48:44,400

hypnotic therapist hypnotherapist go

1326

00:48:48,230 --> 00:48:46,160

back and do some regression

1327

00:48:49,190 --> 00:48:48,240

because i think that there are multiple

1328

00:48:50,950 --> 00:48:49,200

layers

1329

00:48:52,870 --> 00:48:50,960

that can be peeled back and maybe we can

1330

00:48:54,790 --> 00:48:52,880

get a uh

1331

00:48:56,790 --> 00:48:54,800

a truthful if not unsettling look at

1332

00:48:58,230 --> 00:48:56,800

what might be going on underneath the uh

1333

00:49:00,230 --> 00:48:58,240

the surface

1334

00:49:02,630 --> 00:49:00,240

great idea

1335

00:49:04,390 --> 00:49:02,640

and you do have some very exciting

1336

00:49:06,309 --> 00:49:04,400

things coming up we're going to have to

1337

00:49:07,670 --> 00:49:06,319

hold our breath on those but i know they

1338

00:49:09,270 --> 00:49:07,680

are huge

1339

00:49:11,589 --> 00:49:09,280

thank you so much for coming on the

1340

00:49:13,670 --> 00:49:11,599

podcast tray everything you do and your

1341

00:49:14,870 --> 00:49:13,680

approach to these mysteries is a very

1342

00:49:16,470 --> 00:49:14,880

noble work

1343

00:49:17,910 --> 00:49:16,480

please keep doing what you're doing and

1344

00:49:19,910 --> 00:49:17,920

we can't thank you enough for sharing

1345

00:49:22,230 --> 00:49:19,920

your research transparently with all of

1346

00:49:24,630 --> 00:49:22,240

us keep up the amazing work and

1347

00:49:27,829 --> 00:49:24,640

is there a site where listeners can go

1348

00:49:31,430 --> 00:49:27,839

and donate towards your research

1349

00:49:33,109 --> 00:49:31,440

oh no we're we're not set up as a 501c3

1350

00:49:35,109 --> 00:49:33,119

yet so uh

1351
00:49:36,710 --> 00:49:35,119
i'm afraid not the best way people can

1352
00:49:38,790 --> 00:49:36,720
support us is uh

1353
00:49:40,950 --> 00:49:38,800
buy the book uh if

1354
00:49:42,950 --> 00:49:40,960
i think for approximately five dollars

1355
00:49:44,870 --> 00:49:42,960
for the e-book format it's a heck of a

1356
00:49:47,349 --> 00:49:44,880
deal and i would love for you to share

1357
00:49:49,270 --> 00:49:47,359
in the adventure by uh working your way

1358
00:49:51,910 --> 00:49:49,280
through the pages of the book be it an

1359
00:49:54,710 --> 00:49:51,920
e-format or hard copy

1360
00:49:57,030 --> 00:49:54,720
it is a great read such a page turner

1361
00:50:00,390 --> 00:49:57,040
and it's a book that i i recommend to

1362
00:50:03,270 --> 00:50:00,400
everyone the events taking place

1363
00:50:04,790 --> 00:50:03,280

in this area are going to be associated

1364

00:50:06,630 --> 00:50:04,800

with some of the larger questions i

1365

00:50:07,910 --> 00:50:06,640

think that will be answered possibly in

1366

00:50:09,670 --> 00:50:07,920

our lifetime and

1367

00:50:11,990 --> 00:50:09,680

your work is proving to be very

1368

00:50:13,990 --> 00:50:12,000

important and essential to that so thank

1369

00:50:15,670 --> 00:50:14,000

you so much trey and

1370

00:50:17,109 --> 00:50:15,680

i can't thank you enough for coming on

1371

00:50:19,270 --> 00:50:17,119

the podcast and hope to talk to you

1372

00:50:20,950 --> 00:50:19,280

again in the future

1373

00:50:23,910 --> 00:50:20,960

well thank you for having me it has been

1374

00:50:26,150 --> 00:50:23,920

a distinct honor and privilege

1375

00:50:28,549 --> 00:50:26,160

trey hudson ladies and gentlemen i've

1376
00:50:31,589 --> 00:50:28,559
been so excited about today's podcast

1377
00:50:32,790 --> 00:50:31,599
for some time and it was a real treat to

1378
00:50:35,349 --> 00:50:32,800
talk to him

1379
00:50:38,069 --> 00:50:35,359
the groups that he's involved with and

1380
00:50:39,750 --> 00:50:38,079
directs and the experience that he

1381
00:50:42,390 --> 00:50:39,760
brings to the table

1382
00:50:43,589 --> 00:50:42,400
is something that i believe is truly

1383
00:50:45,910 --> 00:50:43,599
important

1384
00:50:49,670 --> 00:50:45,920
he is bringing pieces of the paranormal

1385
00:50:51,030 --> 00:50:49,680
puzzle to the proverbial table in a way

1386
00:50:54,630 --> 00:50:51,040
that is

1387
00:50:56,549 --> 00:50:54,640
essential and his scientific scrutiny

1388
00:50:57,589 --> 00:50:56,559

let's just say when i came across his

1389

00:51:00,710 --> 00:50:57,599

work

1390

00:51:03,109 --> 00:51:00,720

i became obsessed as you should as well

1391

00:51:04,230 --> 00:51:03,119

definitely pick up a copy of the book to

1392

00:51:06,870 --> 00:51:04,240

help him

1393

00:51:09,910 --> 00:51:06,880

it is called the meadow project

1394

00:51:11,510 --> 00:51:09,920

explorations into the south's skinwalker

1395

00:51:15,270 --> 00:51:11,520

ranch

1396

00:51:19,270 --> 00:51:15,280

trey hudson has really carved out a

1397

00:51:20,390 --> 00:51:19,280

beautiful piece of the paranormal

1398

00:51:23,430 --> 00:51:20,400

enigma

1399

00:51:25,750 --> 00:51:23,440

in the black water anomalous zone we are

1400

00:51:26,710 --> 00:51:25,760

going to hear a lot about it

1401

00:51:29,670 --> 00:51:26,720

soon

1402

00:51:32,470 --> 00:51:29,680

and uh keep your eyes to the skies

1403

00:51:36,230 --> 00:51:32,480

feet on the ground but don't forget

1404

00:51:36,240 --> 00:52:03,109

hey
