

A close-up photograph of a person's open palm holding three coins. The hand is wearing a silver metal link bracelet. The background is dark and out of focus. The coins are: a silver Ethereum coin with a yellow pyramid logo, a gold Bitcoin coin with the 'B' logo, and a gold coin featuring a map of the United States.

**Bank Failures Goldbacks and the  
ushering in of digital currency**

1  
00:00:06,710 --> 00:00:03,309  
fractional Reserve banking

2  
00:00:08,890 --> 00:00:06,720  
purportedly has its roots in a time when

3  
00:00:11,870 --> 00:00:08,900  
gold and silver were traded

4  
00:00:14,330 --> 00:00:11,880  
goldsmiths would issue promissory notes

5  
00:00:17,689 --> 00:00:14,340  
which were later used as a means of

6  
00:00:20,510 --> 00:00:17,699  
exchange the goldsmiths used the

7  
00:00:24,470 --> 00:00:20,520  
deposited gold to issue loans with

8  
00:00:27,769 --> 00:00:24,480  
interest and fractional banking was born

9  
00:00:31,790 --> 00:00:27,779  
now many attribute this to the Templars

10  
00:00:33,830 --> 00:00:31,800  
in the Middle East and the way they came

11  
00:00:37,010 --> 00:00:33,840  
across this information may have been

12  
00:00:39,350 --> 00:00:37,020  
through ritualistic or occult means in

13  
00:00:42,530 --> 00:00:39,360

the United States the National Bank Act

14

00:00:45,290 --> 00:00:42,540

was passed in 1863 to require Banks to

15

00:00:48,049 --> 00:00:45,300

keep reserves on hand to protect

16

00:00:49,490 --> 00:00:48,059

depositor funds from being used in Risky

17

00:00:53,029 --> 00:00:49,500

Investments

18

00:00:56,689 --> 00:00:53,039

in 1913 the Federal Reserve Act created

19

00:00:58,490 --> 00:00:56,699

the system of federal reserve banks we

20

00:00:59,810 --> 00:00:58,500

now know collectively as the Federal

21

00:01:02,569 --> 00:00:59,820

Reserve System

22

00:01:05,450 --> 00:01:02,579

Banks were required to keep Reserve

23

00:01:07,969 --> 00:01:05,460

balances with the Federal Reserve Banks

24

00:01:10,609 --> 00:01:07,979

now what is very interesting about all

25

00:01:15,230 --> 00:01:10,619

of this and what it has to do with us

26

00:01:17,810 --> 00:01:15,240

today is that JP Morgan was a major

27

00:01:20,690 --> 00:01:17,820

player in the

28

00:01:24,230 --> 00:01:20,700

Federal Reserve he is the man who funded

29

00:01:26,090 --> 00:01:24,240

the building of the Titanic and he's

30

00:01:28,190 --> 00:01:26,100

also the man who canceled his

31

00:01:30,350 --> 00:01:28,200

long-awaited journey just hours before

32

00:01:32,030 --> 00:01:30,360

its proposed departure

33

00:01:34,670 --> 00:01:32,040

what does that have to do with the

34

00:01:37,310 --> 00:01:34,680

Federal Reserve well three of the

35

00:01:39,050 --> 00:01:37,320

wealthiest men on Earth whom were

36

00:01:41,510 --> 00:01:39,060

against the creation of the Federal

37

00:01:46,310 --> 00:01:41,520

Reserve Bank happened to be invited on

38

00:01:54,289 --> 00:01:50,270

it then headed full speed into a known

39

00:01:56,569 --> 00:01:54,299

Iceberg field with less than half the

40

00:01:58,490 --> 00:01:56,579

requested lifeboats

41

00:02:01,910 --> 00:01:58,500

and

42

00:02:05,109 --> 00:02:01,920

no red signal flares

43

00:02:07,730 --> 00:02:05,119

no Rothschild or Rockefeller on board

44

00:02:09,529 --> 00:02:07,740

and it sank to the bottom of the North

45

00:02:11,869 --> 00:02:09,539

Atlantic Ocean

46

00:02:14,089 --> 00:02:11,879

less than a year later

47

00:02:16,670 --> 00:02:14,099

now that the wealthy opposition was out

48

00:02:20,270 --> 00:02:16,680

of the way the Federal Reserve was

49

00:02:22,790 --> 00:02:20,280

created and the USA was turned into an

50

00:02:26,449 --> 00:02:22,800

incorporated business with its own

51  
00:02:27,949 --> 00:02:26,459  
business ID number

52  
00:02:29,449 --> 00:02:27,959  
it's true

53  
00:02:32,330 --> 00:02:29,459  
so

54  
00:02:34,070 --> 00:02:32,340  
Mr Benjamin Guggenheim who opposed the

55  
00:02:36,770 --> 00:02:34,080  
Federal Reserve

56  
00:02:38,210 --> 00:02:36,780  
Isa Strauss who opposed the Federal

57  
00:02:41,030 --> 00:02:38,220  
Reserve

58  
00:02:43,070 --> 00:02:41,040  
and Jacob Astor who opposed the Federal

59  
00:02:45,890 --> 00:02:43,080  
Reserve

60  
00:02:48,110 --> 00:02:45,900  
disappeared to the depths of the sea

61  
00:02:50,449 --> 00:02:48,120  
today these men would be worth 11

62  
00:02:52,910 --> 00:02:50,459  
billion dollars

63  
00:02:56,809 --> 00:02:52,920

all three were aboard the Titanic when

64

00:02:59,750 --> 00:02:56,819

it sank all three died that night and

65

00:03:02,990 --> 00:02:59,760

the Federal Reserve was born

66

00:03:05,690 --> 00:03:03,000

so we have a system that relies on

67

00:03:06,530 --> 00:03:05,700

fractional Reserve banking the problem

68

00:03:13,610 --> 00:03:06,540

is

69

00:03:17,690 --> 00:03:13,620

the reserve requirements for banks

70

00:03:22,490 --> 00:03:17,700

under the Federal Reserve Act we're set

71

00:03:26,690 --> 00:03:22,500

at 13 10 and 7 depending on the type of

72

00:03:29,630 --> 00:03:26,700

Bank in 1917. in the 1950s and 60s the

73

00:03:32,630 --> 00:03:29,640

FED has had not set the reserve ratio as

74

00:03:34,970 --> 00:03:32,640

high as 17.5 and it remained between

75

00:03:38,390 --> 00:03:34,980

eight and ten percent throughout much of

76  
00:03:41,990 --> 00:03:38,400  
the 70s through 2010s during this period

77  
00:03:43,670 --> 00:03:42,000  
banks with fewer than 16.3 million in

78  
00:03:47,690 --> 00:03:43,680  
assets were not required to hold

79  
00:03:48,789 --> 00:03:47,700  
Reserves at all however banks with fewer

80  
00:03:55,009 --> 00:03:48,799  
than

81  
00:03:58,369 --> 00:03:55,019  
16.3 million had to have a reserve size

82  
00:03:59,410 --> 00:03:58,379  
of 3 percent and those banks with more

83  
00:04:03,770 --> 00:03:59,420  
than

84  
00:04:06,229 --> 00:04:03,780  
124.2 million in assets had a 10 reserve

85  
00:04:08,630 --> 00:04:06,239  
requirement see the problem here

86  
00:04:10,729 --> 00:04:08,640  
worst case scenario let's say you do

87  
00:04:12,949 --> 00:04:10,739  
have to keep 10 percent you can only

88  
00:04:14,990 --> 00:04:12,959

give 10 percent of the people their

89

00:04:17,750 --> 00:04:15,000

money back if at all

90

00:04:20,270 --> 00:04:17,760

and it is not a system backed by

91

00:04:22,490 --> 00:04:20,280

precious metals such as gold which means

92

00:04:25,670 --> 00:04:22,500

it is prone to many problems

93

00:04:28,909 --> 00:04:25,680

on today's podcast we have a gold expert

94

00:04:31,909 --> 00:04:28,919

we have someone who has worked in the

95

00:04:34,490 --> 00:04:31,919

financial system in New York he's a pro

96

00:04:37,370 --> 00:04:34,500

that's going to explain what the

97

00:04:41,689 --> 00:04:37,380

problems are where we're headed

98

00:04:44,270 --> 00:04:41,699

how if at all we can stimulate the

99

00:04:46,850 --> 00:04:44,280

economy or at least prepare and batten

100

00:04:49,850 --> 00:04:46,860

down the hatches for what may come

101

00:04:52,969 --> 00:04:49,860

none other than Dr true Ott

102

00:04:56,870 --> 00:04:52,979

of Mother Earth minerals it's also a

103

00:05:00,110 --> 00:04:56,880

company that I 100 stand behind I use

104

00:05:01,749 --> 00:05:00,120

their products on a daily basis and I

105

00:05:03,370 --> 00:05:01,759

highly recommend going to mother

106

00:05:06,890 --> 00:05:03,380

earthminerals.com

107

00:05:08,409 --> 00:05:06,900

my other serious recommendation is if

108

00:05:10,969 --> 00:05:08,419

you haven't gone to

109

00:05:13,550 --> 00:05:10,979

heroparanormal.com or patreon and

110

00:05:16,189 --> 00:05:13,560

searched for hero paranormal you are

111

00:05:18,670 --> 00:05:16,199

missing a ton of content behind the

112

00:05:21,530 --> 00:05:18,680

paywall so please head on over to

113

00:05:24,710 --> 00:05:21,540

heroparanormal.com for just five bucks a

114

00:05:27,650 --> 00:05:24,720

month less than one coffee a month you

115

00:05:29,270 --> 00:05:27,660

can get all kinds of preparation and

116

00:05:31,310 --> 00:05:29,280

interesting information

117

00:05:32,810 --> 00:05:31,320

and although I don't give Financial

118

00:05:35,870 --> 00:05:32,820

advice

119

00:05:39,529 --> 00:05:35,880

this is my opinion and the opinion of Dr

120

00:05:42,350 --> 00:05:39,539

true Ott who has a lot of expertise when

121

00:05:45,110 --> 00:05:42,360

it comes to gold gold backs which are an

122

00:05:47,330 --> 00:05:45,120

interesting new commodity and the

123

00:05:48,950 --> 00:05:47,340

banking system as he worked in finance

124

00:05:53,469 --> 00:05:48,960

for many years

125

00:05:56,930 --> 00:05:53,479

you can also get a ton of phenomenology

126  
00:05:59,029 --> 00:05:56,940  
cryptozoology ufology and all kinds of

127  
00:06:00,590 --> 00:05:59,039  
other interesting topics having to do

128  
00:06:02,749 --> 00:06:00,600  
with secret societies at

129  
00:06:05,810 --> 00:06:02,759  
heroparanormal.com

130  
00:06:09,529 --> 00:06:05,820  
aka the hyper anomalous esoteric

131  
00:06:12,710 --> 00:06:09,539  
research organization podcast get behind

132  
00:06:15,710 --> 00:06:12,720  
that paywall at patreon and search for

133  
00:06:18,290 --> 00:06:15,720  
hero paranormal well buckle up this is

134  
00:06:21,050 --> 00:06:18,300  
going to be a heck of a ride into wild

135  
00:06:21,060 --> 00:06:26,160  
I

136  
00:06:26,170 --> 00:06:35,650  
[Music]

137  
00:06:41,710 --> 00:06:38,210  
couldn't Blast Off In My Time Machine

138  
00:06:45,950 --> 00:06:41,720

sir I feel like an evizing Blast Off

139

00:06:48,210 --> 00:06:45,960

Blast Off blast off

140

00:06:56,830 --> 00:06:48,220

come blast off in my turn

141

00:07:02,870 --> 00:07:00,409

Blast Off on another epic episode of the

142

00:07:07,150 --> 00:07:02,880

hyper anomalous esoteric research

143

00:07:09,890 --> 00:07:07,160

organization podcast AKA hero paranormal

144

00:07:12,110 --> 00:07:09,900

broadcasting from just south of the old

145

00:07:15,230 --> 00:07:12,120

Bigelow Ranch in the Uinta Basin of Utah

146

00:07:17,510 --> 00:07:15,240

my name is Ryan the anomalous ambassador

147

00:07:20,029 --> 00:07:17,520

of the airwaves bringing you an epic

148

00:07:23,570 --> 00:07:20,039

Financial interesting

149

00:07:27,110 --> 00:07:23,580

dark episode tonight we have none other

150

00:07:29,990 --> 00:07:27,120

than gold expert Dr truwat I could go on

151  
00:07:32,749 --> 00:07:30,000  
and on about his legitimacy what he does

152  
00:07:34,909 --> 00:07:32,759  
and everything that he does for so many

153  
00:07:36,230 --> 00:07:34,919  
but instead I am just going to bring him

154  
00:07:40,550 --> 00:07:36,240  
right on and we're going to go right

155  
00:07:43,309 --> 00:07:40,560  
into this Bank Run situation and the

156  
00:07:46,249 --> 00:07:43,319  
financial collapse that may await

157  
00:07:48,350 --> 00:07:46,259  
Dr truwa welcome to the hero paranormal

158  
00:07:50,450 --> 00:07:48,360  
podcast

159  
00:07:53,089 --> 00:07:50,460  
well thank you so much Ryan it's a

160  
00:07:55,790 --> 00:07:53,099  
pleasure being back with you my goodness

161  
00:07:59,330 --> 00:07:55,800  
are the times getting crazy or what this

162  
00:08:01,070 --> 00:07:59,340  
is beyond belief actually and I you know

163  
00:08:02,930 --> 00:08:01,080

the first person I thought of when this

164

00:08:04,550 --> 00:08:02,940

was all happening was you because you've

165

00:08:07,909 --> 00:08:04,560

told me

166

00:08:10,070 --> 00:08:07,919

for so long that this was coming and you

167

00:08:11,809 --> 00:08:10,080

know that the system the Federal Reserve

168

00:08:14,749 --> 00:08:11,819

and the fractional banking Reserve

169

00:08:17,330 --> 00:08:14,759

System does not really have our best

170

00:08:19,010 --> 00:08:17,340

interest at mind I don't know

171

00:08:22,189 --> 00:08:19,020

how in the world we're in this position

172

00:08:24,710 --> 00:08:22,199

but it seems like we're here

173

00:08:27,650 --> 00:08:24,720

well we are because you know humans tend

174

00:08:31,129 --> 00:08:27,660

to to be creatures of convenience

175

00:08:33,469 --> 00:08:31,139

we we like to do what's easiest and the

176

00:08:35,389 --> 00:08:33,479

path of least resistance I mean that

177

00:08:37,670 --> 00:08:35,399

that's kind of like what's called being

178

00:08:40,490 --> 00:08:37,680

smart too you know

179

00:08:41,329 --> 00:08:40,500

so it's not necessarily a bad thing why

180

00:08:44,089 --> 00:08:41,339

why

181

00:08:46,370 --> 00:08:44,099

work your tail off when you have ability

182

00:08:47,870 --> 00:08:46,380

to to bring a battle in and do the work

183

00:08:48,530 --> 00:08:47,880

for you you know type of thing and

184

00:08:53,470 --> 00:08:48,540

that's

185

00:08:56,269 --> 00:08:53,480

bloodline German

186

00:08:58,850 --> 00:08:56,279

Innovation you know uh

187

00:09:01,310 --> 00:08:58,860

it's important to work smarter not

188

00:09:04,810 --> 00:09:01,320

necessarily work harder

189

00:09:08,269 --> 00:09:04,820

but there are drawbacks to this and and

190

00:09:10,550 --> 00:09:08,279

the money the money they call so-called

191

00:09:13,009 --> 00:09:10,560

money is different

192

00:09:15,170 --> 00:09:13,019

than currency and and that's what I kind

193

00:09:17,449 --> 00:09:15,180

of want to focus on with your with your

194

00:09:20,750 --> 00:09:17,459

listeners today Ryan is the difference

195

00:09:22,130 --> 00:09:20,760

between currency and money if we it is

196

00:09:24,889 --> 00:09:22,140

to find that

197

00:09:28,670 --> 00:09:24,899

yeah let's jump into it because you know

198

00:09:30,949 --> 00:09:28,680

I was I was horrified to not only see

199

00:09:33,590 --> 00:09:30,959

that many of the regional banks are

200

00:09:36,170 --> 00:09:33,600

going down but also the major Banks

201  
00:09:39,170 --> 00:09:36,180  
and I can't help but wonder if this is

202  
00:09:41,810 --> 00:09:39,180  
you know in my conspiratorial mind if

203  
00:09:44,449 --> 00:09:41,820  
this might just be by Design to usher in

204  
00:09:46,970 --> 00:09:44,459  
a new digital currency

205  
00:09:47,870 --> 00:09:46,980  
what's exactly what it's all about you

206  
00:09:51,110 --> 00:09:47,880  
can't

207  
00:09:53,690 --> 00:09:51,120  
bring people in to accept something

208  
00:09:57,170 --> 00:09:53,700  
without having an underlying emergency

209  
00:10:00,050 --> 00:09:57,180  
to get people fearful to embrace it with

210  
00:10:00,829 --> 00:10:00,060  
open arms let's be honest with this we

211  
00:10:03,410 --> 00:10:00,839  
know

212  
00:10:05,690 --> 00:10:03,420  
let's just be objective shall we

213  
00:10:09,769 --> 00:10:05,700

there has to be an overarching emergency

214

00:10:11,990 --> 00:10:09,779

where people begin to lose touch I think

215

00:10:14,750 --> 00:10:12,000

lose touch with the reality

216

00:10:17,710 --> 00:10:14,760

uh well I trust that the the science is

217

00:10:19,310 --> 00:10:17,720

right I trust my government right

218

00:10:22,550 --> 00:10:19,320

uh-huh

219

00:10:25,250 --> 00:10:22,560

um tell that to the Tuskegee Airmen and

220

00:10:27,470 --> 00:10:25,260

others who were tested you know for was

221

00:10:30,350 --> 00:10:27,480

civilist syphilis and other VDS right

222

00:10:34,130 --> 00:10:30,360

now I myself

223

00:10:36,170 --> 00:10:34,140

I I hope and pray my government is not

224

00:10:39,949 --> 00:10:36,180

going to harm me

225

00:10:44,269 --> 00:10:39,959

but I don't trust them that they won't

226

00:10:46,370 --> 00:10:44,279

I trust my own instincts I trust in

227

00:10:50,650 --> 00:10:46,380

people as a whole

228

00:10:53,569 --> 00:10:50,660

I trust that Ryan Ryan Burns is is

229

00:10:55,550 --> 00:10:53,579

knocked on some nefarious reason to harm

230

00:10:58,069 --> 00:10:55,560

me I think he's a friend I look at him

231

00:10:59,870 --> 00:10:58,079

you know what I'm saying you look you

232

00:11:02,630 --> 00:10:59,880

look at it you trust

233

00:11:03,949 --> 00:11:02,640

into a certain degree of of your fellow

234

00:11:07,610 --> 00:11:03,959

man

235

00:11:10,069 --> 00:11:07,620

but I've got to tell you I do not trust

236

00:11:11,509 --> 00:11:10,079

that somebody comes in and hi I'm from

237

00:11:14,389 --> 00:11:11,519

the government

238

00:11:17,389 --> 00:11:14,399

and I'm here to help you

239

00:11:20,750 --> 00:11:17,399

uh I grabbed my my wallet in my backside

240

00:11:23,870 --> 00:11:20,760

and say no thanks I'm good

241

00:11:26,389 --> 00:11:23,880

I'm sorry I don't need you yeah yeah and

242

00:11:28,970 --> 00:11:26,399

it does seem like this is It's a similar

243

00:11:30,829 --> 00:11:28,980

function trust in government if this

244

00:11:32,870 --> 00:11:30,839

digital currency is rolled out it's

245

00:11:35,210 --> 00:11:32,880

going to basically be the same thing I

246

00:11:39,530 --> 00:11:35,220

mean they've moved us from precious

247

00:11:41,210 --> 00:11:39,540

metals to paper from paper now we are

248

00:11:44,509 --> 00:11:41,220

moving into something that has

249

00:11:46,310 --> 00:11:44,519

absolutely no substance whatsoever and

250

00:11:48,650 --> 00:11:46,320

that kind of brings up something that

251

00:11:50,210 --> 00:11:48,660

you're familiar with which is uh not

252

00:11:52,490 --> 00:11:50,220

only the precious metals but also

253

00:11:56,150 --> 00:11:52,500

something new and interesting which is

254

00:11:59,150 --> 00:11:56,160

the gold backs how do we attack all this

255

00:12:01,550 --> 00:11:59,160

okay first we Define what money is

256

00:12:03,550 --> 00:12:01,560

versus currency okay

257

00:12:07,069 --> 00:12:03,560

first of all let's Define currency

258

00:12:10,430 --> 00:12:07,079

because we all know what that's in our

259

00:12:12,730 --> 00:12:10,440

wallets and our purses to some degree

260

00:12:16,130 --> 00:12:12,740

we have these little pieces of paper

261

00:12:18,110 --> 00:12:16,140

what's the difference between uh one

262

00:12:19,250 --> 00:12:18,120

thousand dollar bill or a hundred dollar

263

00:12:24,590 --> 00:12:19,260

bill

264

00:12:26,569 --> 00:12:24,600

aren't they the same

265

00:12:28,610 --> 00:12:26,579

size of paper

266

00:12:29,449 --> 00:12:28,620

are they it's the same amount of ink put

267

00:12:32,210 --> 00:12:29,459

on them

268

00:12:35,569 --> 00:12:32,220

ability to make some difference is that

269

00:12:38,150 --> 00:12:35,579

everybody accepts the numbers on them

270

00:12:40,370 --> 00:12:38,160

okay the banks the banks understand

271

00:12:43,610 --> 00:12:40,380

allowance is not counterfeited as long

272

00:12:45,889 --> 00:12:43,620

as you see the the the strips and things

273

00:12:47,750 --> 00:12:45,899

in it Diana counterfeit it it's all if

274

00:12:48,530 --> 00:12:47,760

it's all legitimate everybody accepts

275

00:12:51,590 --> 00:12:48,540

that

276

00:12:54,710 --> 00:12:51,600

okay the banks accept it

277

00:12:56,810 --> 00:12:54,720

uh the government will accept it because

278

00:12:59,870 --> 00:12:56,820

they made a contract with the private

279

00:13:01,730 --> 00:12:59,880

Federal Reserve which is private ladies

280

00:13:03,230 --> 00:13:01,740

and gentlemen it's not public whatsoever

281

00:13:05,210 --> 00:13:03,240

they have a contract with the treasury

282

00:13:07,129 --> 00:13:05,220

but it's a private for-profit

283

00:13:08,930 --> 00:13:07,139

corporation like Federal Express is

284

00:13:12,949 --> 00:13:08,940

right

285

00:13:16,190 --> 00:13:12,959

so the competence is simply I can go

286

00:13:20,509 --> 00:13:16,200

take that 100 Century bill

287

00:13:22,490 --> 00:13:20,519

and buy 100 of groceries of my if if my

288

00:13:25,250 --> 00:13:22,500

grocery store will accept cash

289

00:13:27,530 --> 00:13:25,260

all right I can pay for whatever I need

290

00:13:29,930 --> 00:13:27,540

because everybody accepts it

291

00:13:32,449 --> 00:13:29,940

that's what is called fungible in other

292

00:13:36,110 --> 00:13:32,459

words it's the same value in your wallet

293

00:13:38,449 --> 00:13:36,120

as it is in my wallet or my wife's purse

294

00:13:40,610 --> 00:13:38,459

everybody recognizes that and accepts it

295

00:13:42,230 --> 00:13:40,620

and everybody accepts it even

296

00:13:44,329 --> 00:13:42,240

internationally

297

00:13:46,449 --> 00:13:44,339

you know I've traveled abroad enough and

298

00:13:49,250 --> 00:13:46,459

and a lot of times people especially

299

00:13:53,329 --> 00:13:49,260

certain uh countries will rather have a

300

00:13:55,310 --> 00:13:53,339

U.S dollar than a peso or a Mark or what

301  
00:13:58,610 --> 00:13:55,320  
have you okay

302  
00:14:02,150 --> 00:13:58,620  
because it's recognized universally so

303  
00:14:04,730 --> 00:14:02,160  
that's that's what currency is

304  
00:14:08,269 --> 00:14:04,740  
if you took

305  
00:14:09,949 --> 00:14:08,279  
let's say ten thousand US Dollars and

306  
00:14:11,750 --> 00:14:09,959  
hundred dollar bills and put them away

307  
00:14:13,389 --> 00:14:11,760  
in your closet hit them up for a rainy

308  
00:14:16,790 --> 00:14:13,399  
day

309  
00:14:20,810 --> 00:14:16,800  
that is what the problem with currency

310  
00:14:23,690 --> 00:14:20,820  
as opposed to money it's a valuation at

311  
00:14:27,170 --> 00:14:23,700  
that time you put it away

312  
00:14:29,810 --> 00:14:27,180  
you see but through a little thief

313  
00:14:32,930 --> 00:14:29,820

called inflation

314

00:14:35,750 --> 00:14:32,940

what that ten thousand dollars would buy

315

00:14:39,590 --> 00:14:35,760

in 1975 is a whole lot different than

316

00:14:42,590 --> 00:14:39,600

what it's going to pay for in 2023.

317

00:14:44,449 --> 00:14:42,600

that's the difference between currency

318

00:14:49,550 --> 00:14:44,459

and money

319

00:14:52,310 --> 00:14:49,560

money is a storehouse of real wealth

320

00:14:56,389 --> 00:14:52,320

which is purchasing power

321

00:14:58,730 --> 00:14:56,399

okay because historically money has

322

00:15:01,189 --> 00:14:58,740

always been they started the Egyptians

323

00:15:05,509 --> 00:15:01,199

and the Phoenicians started stamping out

324

00:15:08,210 --> 00:15:05,519

gold and silver coins primarily and they

325

00:15:10,310 --> 00:15:08,220

became a storehouse of wealth

326

00:15:13,310 --> 00:15:10,320

because if you

327

00:15:17,030 --> 00:15:13,320

have a hundred gold coins

328

00:15:18,949 --> 00:15:17,040

in 1971 and 100 100 one ounce gold coins

329

00:15:21,829 --> 00:15:18,959

in 2023

330

00:15:24,290 --> 00:15:21,839

you have an absolute Storehouse of

331

00:15:27,170 --> 00:15:24,300

buying power that's preserved

332

00:15:29,689 --> 00:15:27,180

okay even though it might have the same

333

00:15:32,689 --> 00:15:29,699

amount it may have men have ten dollars

334

00:15:35,030 --> 00:15:32,699

stamped on it it's worth a thousand

335

00:15:36,769 --> 00:15:35,040

dollars or more today you see that's the

336

00:15:38,150 --> 00:15:36,779

storehouse of wealth

337

00:15:39,230 --> 00:15:38,160

so that's the difference between

338

00:15:41,269 --> 00:15:39,240

currency

339

00:15:43,129 --> 00:15:41,279

and money

340

00:15:47,090 --> 00:15:43,139

so

341

00:15:48,829 --> 00:15:47,100

gold backs are just like your paper

342

00:15:50,569 --> 00:15:48,839

currency in the fact that they're about

343

00:15:53,990 --> 00:15:50,579

the same size

344

00:15:55,310 --> 00:15:54,000

the difference is they aren't backed by

345

00:16:03,170 --> 00:15:55,320

gold

346

00:16:04,910 --> 00:16:03,180

they are money not currency that's the

347

00:16:08,870 --> 00:16:04,920

big difference

348

00:16:14,329 --> 00:16:11,689

and you you bring up a very interesting

349

00:16:17,629 --> 00:16:14,339

point uh with the Federal Reserve

350

00:16:19,310 --> 00:16:17,639

because you know I find it so odd that

351  
00:16:21,230 --> 00:16:19,320  
how it is

352  
00:16:23,750 --> 00:16:21,240  
literally a business

353  
00:16:26,870 --> 00:16:23,760  
and I find it so odd that the man who

354  
00:16:29,090 --> 00:16:26,880  
funded the building of the Titanic JP

355  
00:16:30,290 --> 00:16:29,100  
Morgan and who was all for the Federal

356  
00:16:32,810 --> 00:16:30,300  
Reserve

357  
00:16:35,870 --> 00:16:32,820  
canceled these long-awaited Journey just

358  
00:16:37,910 --> 00:16:35,880  
hours before its proposed departure and

359  
00:16:39,470 --> 00:16:37,920  
three of the wealthiest men on Earth who

360  
00:16:41,990 --> 00:16:39,480  
were against the creation of the Federal

361  
00:16:44,509 --> 00:16:42,000  
Reserve Bank happened to be invited on

362  
00:16:48,470 --> 00:16:44,519  
board for its maiden voyage Mr

363  
00:16:51,170 --> 00:16:48,480

Guggenheim Strauss and Jacob Astor and

364

00:16:53,689 --> 00:16:51,180

oddly enough we have similar things with

365

00:16:58,009 --> 00:16:53,699

this Silicon Valley Bank where people

366

00:17:00,829 --> 00:16:58,019

like Mr Thiel Peter Thiel removed his

367

00:17:03,710 --> 00:17:00,839

money just before it all came apart and

368

00:17:05,809 --> 00:17:03,720

it does kind of seem as if

369

00:17:08,090 --> 00:17:05,819

some of these people are either very

370

00:17:11,689 --> 00:17:08,100

lucky or they know what's coming down

371

00:17:14,510 --> 00:17:11,699

the pipe what are your thoughts of of

372

00:17:17,270 --> 00:17:14,520

this and do you think that this is

373

00:17:19,610 --> 00:17:17,280

funneling us towards towards this

374

00:17:22,250 --> 00:17:19,620

digital currency I have a little bit of

375

00:17:23,750 --> 00:17:22,260

uh cryptocurrency and I was horrified at

376

00:17:26,929 --> 00:17:23,760

how much it went up

377

00:17:28,970 --> 00:17:26,939

and you know my fear of cryptocurrency

378

00:17:31,130 --> 00:17:28,980

is that there's nothing to show for it

379

00:17:33,470 --> 00:17:31,140

versus these gold backs or precious

380

00:17:37,130 --> 00:17:33,480

metals

381

00:17:43,070 --> 00:17:40,430

my advice is to cash it out to Federal

382

00:17:46,610 --> 00:17:43,080

Reserve notes and as soon as possible

383

00:17:49,310 --> 00:17:46,620

get it into goldback or if you don't

384

00:17:51,110 --> 00:17:49,320

really like to go back concept then get

385

00:17:54,250 --> 00:17:51,120

it into as much as you can into what's

386

00:17:56,110 --> 00:17:54,260

called Junk silver which is simply

387

00:18:00,590 --> 00:17:56,120

pre-1964

388

00:18:03,250 --> 00:18:00,600

1965 issue gold coins dimes quarters

389

00:18:06,529 --> 00:18:03,260

half dollars dollars

390

00:18:09,470 --> 00:18:06,539

those that's fungible store of wealth

391

00:18:12,169 --> 00:18:09,480

you can you can put it in your in your

392

00:18:14,630 --> 00:18:12,179

safe deposit box or put it anywhere safe

393

00:18:16,730 --> 00:18:14,640

in your home safe or whatever and it's

394

00:18:18,289 --> 00:18:16,740

always going to retain its value is it's

395

00:18:21,770 --> 00:18:18,299

what's called money

396

00:18:24,110 --> 00:18:21,780

not currency and sorry cryptocurrencies

397

00:18:27,169 --> 00:18:24,120

fund to play around with you see a spike

398

00:18:29,409 --> 00:18:27,179

but it's nothing but really uh some

399

00:18:33,049 --> 00:18:29,419

debit entries and what's called a

400

00:18:35,570 --> 00:18:33,059

non-fungible token nfts

401  
00:18:38,450 --> 00:18:35,580  
is there value there sure right now

402  
00:18:40,370 --> 00:18:38,460  
while the Matrix is up and running the

403  
00:18:42,409 --> 00:18:40,380  
computer cyberspace

404  
00:18:43,610 --> 00:18:42,419  
yeah you can buy and purchase things

405  
00:18:47,810 --> 00:18:43,620  
with it

406  
00:18:50,830 --> 00:18:47,820  
but it's not real uh were you gonna you

407  
00:18:53,870 --> 00:18:50,840  
know you're gonna print out a

408  
00:18:57,710 --> 00:18:53,880  
non-fungible token no it's it's only in

409  
00:19:00,650 --> 00:18:57,720  
cyberspace the metaverse or it's real

410  
00:19:04,430 --> 00:19:00,660  
all right so if if you're seeing

411  
00:19:06,070 --> 00:19:04,440  
substantial returns my and I'm not a a

412  
00:19:09,590 --> 00:19:06,080  
license

413  
00:19:12,590 --> 00:19:09,600

Securities advisor and I'm just telling

414

00:19:15,070 --> 00:19:12,600

what I would do as soon as I would be

415

00:19:18,529 --> 00:19:15,080

possible turn that into

416

00:19:23,150 --> 00:19:18,539

a a vehicle where you can transfer it

417

00:19:24,710 --> 00:19:23,160

right into into a fungible

418

00:19:28,070 --> 00:19:24,720

fungible

419

00:19:30,049 --> 00:19:28,080

form of money in this case what I've

420

00:19:32,150 --> 00:19:30,059

done myself is just that

421

00:19:34,549 --> 00:19:32,160

did I have some crypto yeah I've played

422

00:19:35,390 --> 00:19:34,559

around with it made some money lost some

423

00:19:37,669 --> 00:19:35,400

money

424

00:19:40,370 --> 00:19:37,679

did okay

425

00:19:43,430 --> 00:19:40,380

but it's all into buildbacks all of it

426

00:19:47,090 --> 00:19:43,440

even even my gold coins I had I got

427

00:19:50,029 --> 00:19:47,100

quite a bit of build coins Ryan that I

428

00:19:53,450 --> 00:19:50,039

just it was it was neat because I can

429

00:19:56,150 --> 00:19:53,460

take and and transfer it uh pretty much

430

00:19:58,490 --> 00:19:56,160

straight across for for a good supply of

431

00:19:59,350 --> 00:19:58,500

buildbacks people say well why did you

432

00:20:01,789 --> 00:19:59,360

do that

433

00:20:04,570 --> 00:20:01,799

uh well because

434

00:20:08,029 --> 00:20:04,580

my gold coins were pretty much one ounce

435

00:20:10,310 --> 00:20:08,039

krugerrands American Eagles uh Canadian

436

00:20:12,470 --> 00:20:10,320

Maple Leafs and that type of thing and

437

00:20:14,690 --> 00:20:12,480

look at the price we build now it's just

438

00:20:15,650 --> 00:20:14,700

a little shy of about two thousand

439

00:20:16,970 --> 00:20:15,660

dollars

440

00:20:19,370 --> 00:20:16,980

an ounce

441

00:20:22,010 --> 00:20:19,380

in other words if I want to go buy a

442

00:20:25,070 --> 00:20:22,020

um a bag of groceries for my family

443

00:20:26,690 --> 00:20:25,080

and I have nothing you know but gold

444

00:20:28,610 --> 00:20:26,700

what am I going to do it's a good change

445

00:20:30,650 --> 00:20:28,620

for a two thousand dollar gold gold

446

00:20:32,330 --> 00:20:30,660

piece they're not going to do that

447

00:20:34,909 --> 00:20:32,340

they're going to have you go to a coin

448

00:20:37,909 --> 00:20:34,919

dealer and take a big hit on the spread

449

00:20:40,730 --> 00:20:37,919

because you're selling and not buying it

450

00:20:43,310 --> 00:20:40,740

and then you take that in and

451  
00:20:46,490 --> 00:20:43,320  
try and use your paper dollars for

452  
00:20:49,370 --> 00:20:46,500  
whatever see that's a problem that I saw

453  
00:20:53,810 --> 00:20:49,380  
with with gold in the coins this

454  
00:20:57,590 --> 00:20:53,820  
gold backs the one one unit goldback

455  
00:21:00,310 --> 00:20:57,600  
is one one thousandth of a troy ounce of

456  
00:21:06,710 --> 00:21:03,529  
pure 24 karat gold now like I said it's

457  
00:21:11,270 --> 00:21:06,720  
not gold backed it is gold

458  
00:21:14,750 --> 00:21:11,280  
and that makes it easily spent and and

459  
00:21:17,630 --> 00:21:14,760  
used as currencies whereas gold coins

460  
00:21:20,210 --> 00:21:17,640  
and even some gold bullion not so easy

461  
00:21:23,150 --> 00:21:20,220  
to do that you see

462  
00:21:25,130 --> 00:21:23,160  
yeah and Utah is in a

463  
00:21:27,470 --> 00:21:25,140

interesting position when it comes to

464

00:21:29,690 --> 00:21:27,480

Gold backs among some other states can

465

00:21:32,029 --> 00:21:29,700

you explain to listeners what that is

466

00:21:34,010 --> 00:21:32,039

and and what's taking place in the gold

467

00:21:36,529 --> 00:21:34,020

back Market

468

00:21:37,850 --> 00:21:36,539

oh yeah great question thank you I I

469

00:21:39,470 --> 00:21:37,860

like to think I had a little bit of

470

00:21:42,110 --> 00:21:39,480

something to do with the reason why

471

00:21:45,409 --> 00:21:42,120

goldbacks are in existence

472

00:21:48,289 --> 00:21:45,419

I was uh in the financial planning

473

00:21:53,090 --> 00:21:48,299

industry uh since I graduated in

474

00:21:55,669 --> 00:21:53,100

accounting from the University in uh in

475

00:22:00,230 --> 00:21:55,679

in 2004.

476

00:22:01,850 --> 00:22:00,240

I'm sorry 1984. oh my goodness just

477

00:22:05,090 --> 00:22:01,860

showed you how old I am

478

00:22:06,649 --> 00:22:05,100

uh and so I went into that and and you

479

00:22:09,590 --> 00:22:06,659

know I I

480

00:22:13,070 --> 00:22:09,600

had the opportunity I I won a a

481

00:22:15,770 --> 00:22:13,080

scholarship type of of award where I

482

00:22:19,549 --> 00:22:15,780

went back with six week uh intensive

483

00:22:22,310 --> 00:22:19,559

Elites they say elitist training in Wall

484

00:22:25,010 --> 00:22:22,320

Street and at the end of the six weeks

485

00:22:29,230 --> 00:22:25,020

we had a a final

486

00:22:32,450 --> 00:22:29,240

a visit from the star of the Stars right

487

00:22:34,730 --> 00:22:32,460

and it happened to be Mr Paul volcker

488

00:22:36,110 --> 00:22:34,740

who was chairman of the Federal Reserve

489

00:22:41,510 --> 00:22:36,120

Bank of New York

490

00:22:44,390 --> 00:22:41,520

well he comes in and and wow he's a this

491

00:22:47,090 --> 00:22:44,400

is the head of the FED right

492

00:22:49,370 --> 00:22:47,100

and what he told us

493

00:22:52,850 --> 00:22:49,380

was shocking to me keep in mind that I

494

00:22:55,850 --> 00:22:52,860

spent uh last six weeks learning how to

495

00:22:58,549 --> 00:22:55,860

diversify portfolios even how to manage

496

00:23:01,250 --> 00:22:58,559

and make a mutual fund okay

497

00:23:02,750 --> 00:23:01,260

how to to manage risk versus rewarding

498

00:23:06,710 --> 00:23:02,760

look in all the markets from Bond

499

00:23:09,590 --> 00:23:06,720

markets to to what's uh called Arbitrage

500

00:23:11,870 --> 00:23:09,600

moving markets around and taking you

501  
00:23:14,390 --> 00:23:11,880  
know making money off of just to sell of

502  
00:23:16,370 --> 00:23:14,400  
one asset versus another in it in the

503  
00:23:18,649 --> 00:23:16,380  
trade markets okay

504  
00:23:21,169 --> 00:23:18,659  
FX currency trading all of this we

505  
00:23:23,029 --> 00:23:21,179  
learned we learned how to do all of this

506  
00:23:24,950 --> 00:23:23,039  
and how to look at Trends and if you

507  
00:23:26,830 --> 00:23:24,960  
follow the trends you can make money in

508  
00:23:30,350 --> 00:23:26,840  
your sleep okay

509  
00:23:31,850 --> 00:23:30,360  
but it's but it's all again

510  
00:23:33,649 --> 00:23:31,860  
the key to the city type of thing

511  
00:23:35,570 --> 00:23:33,659  
whether it's a stock

512  
00:23:38,270 --> 00:23:35,580  
certificate

513  
00:23:39,590 --> 00:23:38,280

for their stock broker or a bond a

514

00:23:42,890 --> 00:23:39,600

treasury bill

515

00:23:49,070 --> 00:23:45,350

Paul Walker knew this as did you

516

00:23:51,230 --> 00:23:49,080

mentioned JP Morgan who didn't go on the

517

00:23:52,789 --> 00:23:51,240

Titanic right

518

00:23:54,950 --> 00:23:52,799

but

519

00:23:58,610 --> 00:23:54,960

in 1912

520

00:24:00,890 --> 00:23:58,620

I have this quote on a on a placard in

521

00:24:02,450 --> 00:24:00,900

my wall JP Morgan said this right the

522

00:24:05,570 --> 00:24:02,460

year before the Federal Reserve was

523

00:24:08,210 --> 00:24:05,580

actually formed in 1913.

524

00:24:11,210 --> 00:24:08,220

Morgan said and I quote

525

00:24:13,610 --> 00:24:11,220

gold is money

526

00:24:16,070 --> 00:24:13,620

everything else

527

00:24:19,310 --> 00:24:16,080

is credit

528

00:24:21,049 --> 00:24:19,320

that's exactly right exactly right the

529

00:24:23,810 --> 00:24:21,059

elite all know this

530

00:24:26,210 --> 00:24:23,820

money which I just Define as money

531

00:24:28,909 --> 00:24:26,220

is gold nothing else is

532

00:24:29,750 --> 00:24:28,919

well then silver to a certain degree of

533

00:24:32,510 --> 00:24:29,760

course

534

00:24:34,370 --> 00:24:32,520

but their focus the elites has always

535

00:24:36,710 --> 00:24:34,380

been the focus on gold

536

00:24:39,649 --> 00:24:36,720

everything else including your your

537

00:24:43,130 --> 00:24:39,659

currency so-called bills they're called

538

00:24:45,529 --> 00:24:43,140

bills for a reason they're an IOU

539

00:24:47,990 --> 00:24:45,539

it's credit

540

00:24:50,770 --> 00:24:48,000

okay stocks

541

00:24:53,270 --> 00:24:50,780

or an IOU you give your earnings

542

00:24:54,950 --> 00:24:53,280

sometimes in gold and you get a piece of

543

00:24:56,029 --> 00:24:54,960

paperback saying you own a part of the

544

00:24:57,890 --> 00:24:56,039

company

545

00:25:02,330 --> 00:24:57,900

it's a promise to pay

546

00:25:05,450 --> 00:25:02,340

credits everything a bond well

547

00:25:08,029 --> 00:25:05,460

you know you you in the old times you

548

00:25:10,610 --> 00:25:08,039

you you've got messing around and and

549

00:25:13,070 --> 00:25:10,620

then got caught into canary

550

00:25:14,990 --> 00:25:13,080

you put in what's called stocks and put

551  
00:25:16,850 --> 00:25:15,000  
on bonds

552  
00:25:18,890 --> 00:25:16,860  
is the stocks is where you put your head

553  
00:25:21,350 --> 00:25:18,900  
and your arms in they lock you down or

554  
00:25:23,270 --> 00:25:21,360  
they put you in behind it

555  
00:25:26,330 --> 00:25:23,280  
chains

556  
00:25:29,149 --> 00:25:26,340  
stocks and bond markets okay

557  
00:25:30,970 --> 00:25:29,159  
Wall Street yeah

558  
00:25:34,549 --> 00:25:30,980  
you see where I'm going with this

559  
00:25:37,549 --> 00:25:34,559  
volcker his whole message

560  
00:25:39,710 --> 00:25:37,559  
was he took a hundred thousand dollar a

561  
00:25:41,810 --> 00:25:39,720  
one hundred thousand dollar

562  
00:25:43,370 --> 00:25:41,820  
Federal Reserve Note out of his money

563  
00:25:45,830 --> 00:25:43,380

clip

564

00:25:47,570 --> 00:25:45,840

I never see anything like that you know

565

00:25:49,510 --> 00:25:47,580

hey hey you've got to change for 100

566

00:25:53,330 --> 00:25:49,520

grand

567

00:25:55,610 --> 00:25:53,340

it's the real deal it had Woodrow Wilson

568

00:25:58,549 --> 00:25:55,620

on it as the president you ever have a

569

00:25:59,710 --> 00:25:58,559

ever have a woody Wilson bill in your

570

00:26:02,269 --> 00:25:59,720

pocket

571

00:26:06,470 --> 00:26:02,279

hey hey you got a water you just

572

00:26:10,789 --> 00:26:07,909

pretty good

573

00:26:13,669 --> 00:26:10,799

so he he takes that Woody that Woodrow

574

00:26:15,710 --> 00:26:13,679

Wilson and life then Burns it as he

575

00:26:17,390 --> 00:26:15,720

lights his cigar up

576

00:26:20,750 --> 00:26:17,400

okay

577

00:26:23,090 --> 00:26:20,760

object lesson I got money to burn I'm

578

00:26:25,490 --> 00:26:23,100

filthy rich

579

00:26:28,549 --> 00:26:25,500

earn a hundred thousand dollar bills in

580

00:26:35,330 --> 00:26:31,789

his message was this and he holds up his

581

00:26:38,510 --> 00:26:35,340

wad of paper money is not for you

582

00:26:39,830 --> 00:26:38,520

he said and I quote it is for the

583

00:26:43,250 --> 00:26:39,840

consumption

584

00:26:49,070 --> 00:26:46,250

now I being a Mormon boy from Utah had

585

00:26:51,110 --> 00:26:49,080

no idea what that meant

586

00:26:54,049 --> 00:26:51,120

I thought it was an acronym of some kind

587

00:26:58,010 --> 00:26:54,059

with these gois I mean gross over income

588

00:26:59,810 --> 00:26:58,020

or or guaranteed oblong insurance I

589

00:27:03,409 --> 00:26:59,820

don't know what it meant okay

590

00:27:05,510 --> 00:27:03,419

but I wrote g-o-g-o-i no it wasn't GOI

591

00:27:08,149 --> 00:27:05,520

it's g-o-y

592

00:27:09,730 --> 00:27:08,159

and it's now I understand [h\_\_h] is a

593

00:27:14,149 --> 00:27:09,740

Yiddish term meaning

594

00:27:16,549 --> 00:27:14,159

non-jewish or lesser people okay some

595

00:27:20,149 --> 00:27:16,559

would even say it's a term that stands

596

00:27:22,549 --> 00:27:20,159

for human cattle or what have you uh but

597

00:27:26,330 --> 00:27:22,559

it's definitely it's not for you Mr

598

00:27:28,430 --> 00:27:26,340

wolfer who's Jewish said to all of my

599

00:27:30,049 --> 00:27:28,440

people that I remember they were mostly

600

00:27:33,169 --> 00:27:30,059

Jewish if not all

601  
00:27:35,690 --> 00:27:33,179  
uh most of them came from Wall Street

602  
00:27:36,769 --> 00:27:35,700  
firms big venture capitalist firms that

603  
00:27:39,049 --> 00:27:36,779  
type of thing

604  
00:27:41,690 --> 00:27:39,059  
because I know most of them were Yama

605  
00:27:43,669 --> 00:27:41,700  
school cap skull caps you know

606  
00:27:45,350 --> 00:27:43,679  
uh and I didn't

607  
00:27:48,289 --> 00:27:45,360  
Etc but anyway

608  
00:27:51,350 --> 00:27:48,299  
here I'm sinning of what is this not for

609  
00:27:54,590 --> 00:27:51,360  
us for the consumption of the [h\_\_h]

610  
00:27:56,870 --> 00:27:54,600  
now I'll leave it to the listener

611  
00:27:58,909 --> 00:27:56,880  
to decide if that means for the [h\_\_h] to

612  
00:27:59,990 --> 00:27:58,919  
consume or whether this was to consume

613  
00:28:02,269 --> 00:28:00,000

the [h\_\_\h]

614

00:28:05,630 --> 00:28:02,279

I don't know

615

00:28:08,269 --> 00:28:05,640

but it was not for these people to use

616

00:28:10,490 --> 00:28:08,279

the the whole message was you turn all

617

00:28:12,649 --> 00:28:10,500

of your paper

618

00:28:16,010 --> 00:28:12,659

now he said it's okay to have short-term

619

00:28:18,230 --> 00:28:16,020

paper you have to be in the system okay

620

00:28:21,470 --> 00:28:18,240

but once you have the profits you turn

621

00:28:23,870 --> 00:28:21,480

your paper into these and he and he held

622

00:28:25,669 --> 00:28:23,880

a handful of gold coins and they he

623

00:28:29,930 --> 00:28:25,679

shook them and they made it clink clink

624

00:28:33,230 --> 00:28:29,940

clink clink sound it was kind of musical

625

00:28:36,789 --> 00:28:33,240

and that was his entire message

626  
00:28:40,490 --> 00:28:36,799  
he had it he had about a dozen or more

627  
00:28:43,370 --> 00:28:40,500  
laminated little cards with some phone

628  
00:28:45,830 --> 00:28:43,380  
numbers and addresses on it

629  
00:28:47,630 --> 00:28:45,840  
what you said were these specific myths

630  
00:28:50,630 --> 00:28:47,640  
of different countries hotlines you can

631  
00:28:53,269 --> 00:28:50,640  
call and order in bulk if you needed to

632  
00:28:57,169 --> 00:28:53,279  
a special special numbers

633  
00:28:59,810 --> 00:28:57,179  
once you transfer your paper into this

634  
00:29:04,070 --> 00:28:59,820  
he said then you take and you transfer

635  
00:29:06,110 --> 00:29:04,080  
this these coins and put them into

636  
00:29:08,090 --> 00:29:06,120  
numbered

637  
00:29:10,490 --> 00:29:08,100  
bank accounts

638  
00:29:12,230 --> 00:29:10,500

some were Swiss some were Cayman Islands

639

00:29:13,970 --> 00:29:12,240

they were all offshore

640

00:29:16,010 --> 00:29:13,980

so that's

641

00:29:19,610 --> 00:29:16,020

my message to you

642

00:29:23,269 --> 00:29:21,289

well

643

00:29:26,630 --> 00:29:23,279

I looked around nobody's raising their

644

00:29:29,930 --> 00:29:26,640

hand but I had a number of questions

645

00:29:32,269 --> 00:29:29,940

so I I raised my hand respectfully he

646

00:29:35,450 --> 00:29:32,279

looks right at me and says oh you're the

647

00:29:39,409 --> 00:29:37,430

oh really nice to make your acquaintance

648

00:29:42,970 --> 00:29:39,419

Mr Wolf I know yeah how'd you know that

649

00:29:45,889 --> 00:29:42,980

because I'm not wearing a yellow mook

650

00:29:49,789 --> 00:29:45,899

I said yes sir yeah

651  
00:29:52,370 --> 00:29:49,799  
my question is we spent the last

652  
00:29:56,210 --> 00:29:52,380  
several weeks learning how to diversify

653  
00:30:00,049 --> 00:29:56,220  
and manage risks and and doom risk

654  
00:30:03,470 --> 00:30:00,059  
portfolios based on risk versus reward

655  
00:30:05,510 --> 00:30:03,480  
why are you now telling us to put all of

656  
00:30:08,330 --> 00:30:05,520  
our eggs in one basket

657  
00:30:10,250 --> 00:30:08,340  
why shouldn't we diversify

658  
00:30:12,110 --> 00:30:10,260  
our

659  
00:30:14,149 --> 00:30:12,120  
Holdings

660  
00:30:16,190 --> 00:30:14,159  
in accounts that's my that was my

661  
00:30:19,730 --> 00:30:16,200  
question too

662  
00:30:21,710 --> 00:30:19,740  
he was still puffing away on his cigar

663  
00:30:23,450 --> 00:30:21,720

and he acted like he didn't even hear my

664

00:30:25,490 --> 00:30:23,460

question

665

00:30:28,070 --> 00:30:25,500

I was about ready to it was getting a

666

00:30:30,110 --> 00:30:28,080

little nervous he just silent as he

667

00:30:32,810 --> 00:30:30,120

popped away in blue smoke rings with his

668

00:30:32,820 --> 00:30:36,470

finally he said

669

00:30:42,230 --> 00:30:38,810

he reached into his pocket again pulled

670

00:30:44,570 --> 00:30:42,240

out his gold coins flanked him again and

671

00:30:46,490 --> 00:30:44,580

he'll never never I'll never forget his

672

00:30:50,029 --> 00:30:46,500

his words

673

00:30:52,370 --> 00:30:50,039

until you have these clink clink clink

674

00:30:58,850 --> 00:30:52,380

clink clink right

675

00:31:04,490 --> 00:31:01,130

unbelievable

676  
00:31:09,710 --> 00:31:04,500  
that's what he said and goes back to

677  
00:31:14,210 --> 00:31:09,720  
what JP Morgan said in 1912 gold is

678  
00:31:15,590 --> 00:31:14,220  
money everything else is credit

679  
00:31:18,889 --> 00:31:15,600  
see

680  
00:31:21,710 --> 00:31:18,899  
the elite notice Ryan

681  
00:31:23,029 --> 00:31:21,720  
I knew this then and I never forgot it

682  
00:31:25,250 --> 00:31:23,039  
because I thought

683  
00:31:27,649 --> 00:31:25,260  
I'll tell you I'll be honest with you my

684  
00:31:29,630 --> 00:31:27,659  
initial knee-jerk reaction was this guy

685  
00:31:31,310 --> 00:31:29,640  
is is an old

686  
00:31:36,230 --> 00:31:31,320  
School

687  
00:31:39,110 --> 00:31:36,240  
he's as foggy as a stogies right

688  
00:31:41,269 --> 00:31:39,120

he's out of touch with modern I I was I

689

00:31:44,269 --> 00:31:41,279

was so brush and calm self-confident

690

00:31:46,610 --> 00:31:44,279

cocky oh my goodness I'm gonna go make

691

00:31:49,010 --> 00:31:46,620

millions now they know the secrets and

692

00:31:51,049 --> 00:31:49,020

I'm going to diversify my portfolio

693

00:31:53,690 --> 00:31:51,059

this guy's nuts I'm not going to put

694

00:31:55,190 --> 00:31:53,700

them all into this metal that's not

695

00:31:58,610 --> 00:31:55,200

siding

696

00:32:02,870 --> 00:32:01,669

so I ignored it I really did

697

00:32:05,330 --> 00:32:02,880

I said

698

00:32:07,970 --> 00:32:05,340

well it Lobby because I came back to my

699

00:32:09,350 --> 00:32:07,980

to my brokerage house in Utah and I'm on

700

00:32:11,029 --> 00:32:09,360

a financial group and

701  
00:32:12,409 --> 00:32:11,039  
they wanted to have a report of what I

702  
00:32:15,350 --> 00:32:12,419  
learned I told them all about it and

703  
00:32:17,750 --> 00:32:15,360  
then I learned about what volcker said

704  
00:32:20,210 --> 00:32:17,760  
and maybe I thought we should advise our

705  
00:32:23,810 --> 00:32:20,220  
clients to put half of their of their

706  
00:32:26,450 --> 00:32:23,820  
assets under management into gold oh

707  
00:32:28,850 --> 00:32:26,460  
that was vetoed there's no money in gold

708  
00:32:31,010 --> 00:32:28,860  
as far as commissions are concerned you

709  
00:32:34,730 --> 00:32:31,020  
can't turn the gold and make commissions

710  
00:32:38,090 --> 00:32:34,740  
that doesn't work you see so no no no

711  
00:32:39,950 --> 00:32:38,100  
Mr volcker has his ideas but they're

712  
00:32:41,090 --> 00:32:39,960  
old-fashioned and that's not what we do

713  
00:32:43,310 --> 00:32:41,100

here

714

00:32:46,909 --> 00:32:43,320

it was uh

715

00:32:50,870 --> 00:32:46,919

like cutting wind in a public

716

00:32:54,289 --> 00:32:50,880

yeah public black tie party

717

00:32:59,870 --> 00:32:57,590

so okay I I you're right I don't think

718

00:33:03,350 --> 00:32:59,880

that's what we should do but

719

00:33:06,529 --> 00:33:03,360

but since then again this was in 1984

720

00:33:08,810 --> 00:33:06,539

when this happened Ryan

721

00:33:12,169 --> 00:33:08,820

but since then I've come to realize

722

00:33:14,330 --> 00:33:12,179

volcker and JP Morgan before him was

723

00:33:17,330 --> 00:33:14,340

absolutely right

724

00:33:19,850 --> 00:33:17,340

okay there's a company called I itm

725

00:33:22,549 --> 00:33:19,860

trading who I know very well they they

726

00:33:28,029 --> 00:33:22,559

do all their 99 of their business is

727

00:33:29,649 --> 00:33:28,039

basically putting and uh putting in Pre

728

00:33:32,389 --> 00:33:29,659

1933

729

00:33:35,889 --> 00:33:32,399

U.S gold coins

730

00:33:38,870 --> 00:33:35,899

they they make they Market those into

731

00:33:42,169 --> 00:33:38,880

you know large-scale retirement Holdings

732

00:33:45,110 --> 00:33:42,179

because they show that nothing

733

00:33:47,450 --> 00:33:45,120

no mutual fund or anything else has even

734

00:33:50,210 --> 00:33:47,460

matched the rate of return of the

735

00:33:51,889 --> 00:33:50,220

numismatic values of these pre-1933 gold

736

00:33:53,509 --> 00:33:51,899

U.S Eagles

737

00:33:56,450 --> 00:33:53,519

period

738

00:33:58,490 --> 00:33:56,460

they are that valuable and that tradable

739

00:34:00,289 --> 00:33:58,500

if I'd listen to what Volker had said

740

00:34:02,509 --> 00:34:00,299

and done what he said in 1984 I'd be a

741

00:34:04,730 --> 00:34:02,519

multi-millionaire today

742

00:34:06,769 --> 00:34:04,740

because I put so much into the stock

743

00:34:09,230 --> 00:34:06,779

market I lost so much here and they're

744

00:34:12,290 --> 00:34:09,240

risking things that I I took a big time

745

00:34:14,389 --> 00:34:12,300

bath at the when the housing bubble

746

00:34:16,129 --> 00:34:14,399

crash the subprime mortgage crash of

747

00:34:20,510 --> 00:34:16,139

2008

748

00:34:23,510 --> 00:34:20,520

I took a beating okay

749

00:34:25,310 --> 00:34:23,520

if I had not done that and if I done

750

00:34:27,649 --> 00:34:25,320

with Nick Volker it said you know

751  
00:34:29,349 --> 00:34:27,659  
hindsight is 20 20.

752  
00:34:31,310 --> 00:34:29,359  
I'm telling you I'd be a

753  
00:34:33,409 --> 00:34:31,320  
multi-multi-millionaire today

754  
00:34:36,169 --> 00:34:33,419  
he was exactly right

755  
00:34:39,409 --> 00:34:36,179  
the final thing he said is we closed up

756  
00:34:42,050 --> 00:34:39,419  
and after he said that about you have no

757  
00:34:43,730 --> 00:34:42,060  
eggs I mean I asked him what isn't it

758  
00:34:46,669 --> 00:34:43,740  
like putting all your eggs in one basket

759  
00:34:49,430 --> 00:34:46,679  
you know no you unless you have these

760  
00:34:50,869 --> 00:34:49,440  
gold coins you have no eggs

761  
00:34:52,669 --> 00:34:50,879  
the final thing he said was he took out

762  
00:34:54,470 --> 00:34:52,679  
another hundred thousand dollar Woody

763  
00:34:56,930 --> 00:34:54,480

Woodrow bill

764

00:34:59,690 --> 00:34:56,940

and then compared it to a one dollar

765

00:35:04,130 --> 00:35:02,150

and he said it may not happen in my

766

00:35:10,730 --> 00:35:04,140

lifetime

767

00:35:15,530 --> 00:35:10,740

the people I work for know and have told

768

00:35:19,250 --> 00:35:17,569

this could be held up the hundred

769

00:35:22,430 --> 00:35:19,260

thousand dollar Woody

770

00:35:24,349 --> 00:35:22,440

will be equal in value to this

771

00:35:26,930 --> 00:35:24,359

the George Washington in other words no

772

00:35:29,030 --> 00:35:26,940

no difference in one dollar and a

773

00:35:32,569 --> 00:35:29,040

hundred thousand dollars that that

774

00:35:36,109 --> 00:35:32,579

caused nightmares to me at night I said

775

00:35:43,490 --> 00:35:41,390

what are they really planning to do that

776

00:35:45,410 --> 00:35:43,500

hmm

777

00:35:48,349 --> 00:35:45,420

now we see that that's a very real

778

00:35:52,670 --> 00:35:49,849

you know the same thing happened in the

779

00:35:56,089 --> 00:35:52,680

Weimar Republic of Germany after World

780

00:36:00,530 --> 00:35:56,099

War one ended okay the German Mark which

781

00:36:03,349 --> 00:36:00,540

uh uh was so valuable in all of Europe

782

00:36:05,089 --> 00:36:03,359

was basically the premier currency

783

00:36:07,790 --> 00:36:05,099

there in Europe

784

00:36:10,069 --> 00:36:07,800

became totally worthless it being

785

00:36:11,750 --> 00:36:10,079

hyperinflation they couldn't print them

786

00:36:15,530 --> 00:36:11,760

up fast enough

787

00:36:17,810 --> 00:36:15,540

so hyperinflationary Cycles uh during

788

00:36:21,050 --> 00:36:17,820

the 1920s in Europe

789

00:36:23,089 --> 00:36:21,060

the employees were paid not once a day

790

00:36:25,010 --> 00:36:23,099

twice sometimes three times a day so

791

00:36:27,770 --> 00:36:25,020

they can get to the to the bank or the

792

00:36:30,109 --> 00:36:27,780

butcher shop and get their food before

793

00:36:34,010 --> 00:36:30,119

the price went up the roof again

794

00:36:38,510 --> 00:36:36,349

wheelbarrows full of paper marks to

795

00:36:40,190 --> 00:36:38,520

trade in for a loaf of bread

796

00:36:42,890 --> 00:36:40,200

the fact

797

00:36:45,109 --> 00:36:42,900

that's what what volca was talking about

798

00:36:46,730 --> 00:36:45,119

there come a time where the United

799

00:36:48,650 --> 00:36:46,740

States

800

00:36:50,930 --> 00:36:48,660

currency will be

801  
00:36:53,569 --> 00:36:50,940  
just like the Weimar Republic It's

802  
00:36:56,510 --> 00:36:53,579  
called fiat currency Fiat meaning it's

803  
00:36:59,510 --> 00:36:56,520  
only valuable based on government decree

804  
00:37:02,690 --> 00:36:59,520  
government says it is therefore it is

805  
00:37:05,990 --> 00:37:02,700  
a one dollar bill is got the same amount

806  
00:37:08,089 --> 00:37:06,000  
of paper in it as a five or a 20.

807  
00:37:10,790 --> 00:37:08,099  
same amount of ink

808  
00:37:12,410 --> 00:37:10,800  
similar artwork

809  
00:37:15,109 --> 00:37:12,420  
but it's just the numbers on it that's

810  
00:37:18,770 --> 00:37:15,119  
the difference you see

811  
00:37:20,089 --> 00:37:18,780  
and volcker knew it explain it to us

812  
00:37:23,329 --> 00:37:20,099  
and I've

813  
00:37:24,950 --> 00:37:23,339

never forgotten that as I've advised my

814

00:37:27,470 --> 00:37:24,960

clients at the time when I was doing

815

00:37:29,329 --> 00:37:27,480

financial planning work with them so

816

00:37:31,190 --> 00:37:29,339

just for what it's worth

817

00:37:35,150 --> 00:37:31,200

to hedge your bets and have your

818

00:37:37,849 --> 00:37:35,160

insurance policy I would put gold

819

00:37:39,530 --> 00:37:37,859

in your portfolio

820

00:37:43,430 --> 00:37:39,540

now

821

00:37:46,010 --> 00:37:43,440

fast forward to to the crash of 2008 the

822

00:37:49,310 --> 00:37:46,020

big recession where I lost a ton of

823

00:37:53,390 --> 00:37:49,320

money a lot of people I knew did also

824

00:37:56,690 --> 00:37:53,400

so in 2009 and into 2010

825

00:37:59,150 --> 00:37:56,700

I did seminars in fact you can see I did

826

00:38:02,390 --> 00:37:59,160

a seminar that's on the line

827

00:38:04,550 --> 00:38:02,400

you just Google up Dr Ott and money

828

00:38:05,530 --> 00:38:04,560

mechanics is what I called it it's a

829

00:38:09,230 --> 00:38:05,540

video

830

00:38:11,089 --> 00:38:09,240

and I did it uh it's like an hour-long

831

00:38:13,250 --> 00:38:11,099

presentation

832

00:38:14,569 --> 00:38:13,260

where I calls exactly what's happening

833

00:38:16,970 --> 00:38:14,579

now I just thought it was going to

834

00:38:18,890 --> 00:38:16,980

happen in 2010

835

00:38:22,310 --> 00:38:18,900

I really was amazed because I didn't

836

00:38:24,290 --> 00:38:22,320

realize how much they would do with

837

00:38:26,329 --> 00:38:24,300

quantitative easing you know what Obama

838

00:38:28,310 --> 00:38:26,339

would pull out the stops and just print

839

00:38:30,170 --> 00:38:28,320

money like nothing else

840

00:38:32,270 --> 00:38:30,180

right

841

00:38:33,770 --> 00:38:32,280

flood the flood the people with Mark and

842

00:38:36,710 --> 00:38:33,780

so

843

00:38:39,170 --> 00:38:36,720

what I was saying in 2010 is what I see

844

00:38:39,950 --> 00:38:39,180

happening right now in a in a big big

845

00:38:44,329 --> 00:38:39,960

way

846

00:38:48,710 --> 00:38:46,310

more money to solve the problem anymore

847

00:38:50,630 --> 00:38:48,720

you can't really take out

848

00:38:54,430 --> 00:38:50,640

and do what's called quantitative easing

849

00:38:58,250 --> 00:38:54,440

any longer because why

850

00:39:01,970 --> 00:38:58,260

internationally it's all rupturing

851  
00:39:04,849 --> 00:39:01,980  
I have friends overseas

852  
00:39:07,430 --> 00:39:04,859  
who visited places like Tehran and Iran

853  
00:39:09,290 --> 00:39:07,440  
and places in the Middle East

854  
00:39:12,470 --> 00:39:09,300  
Abu Dhabi

855  
00:39:14,510 --> 00:39:12,480  
they are taking U.S dollar bills and

856  
00:39:19,069 --> 00:39:14,520  
burning them in the streets

857  
00:39:21,589 --> 00:39:19,079  
and bonfires that's what's happening

858  
00:39:23,690 --> 00:39:21,599  
okay the dollar bill is no longer

859  
00:39:25,310 --> 00:39:23,700  
revered

860  
00:39:27,650 --> 00:39:25,320  
it's not

861  
00:39:29,870 --> 00:39:27,660  
that's what's that's a Fallout from when

862  
00:39:32,510 --> 00:39:29,880  
we pulled out so gloriously from

863  
00:39:34,190 --> 00:39:32,520

Afghanistan and left our past personnel

864

00:39:36,410 --> 00:39:34,200

and people behind for the Taliban to

865

00:39:40,730 --> 00:39:36,420

take over that's in the message to the

866

00:39:43,190 --> 00:39:40,740

Arab Nations America betrayed Islamic

867

00:39:48,950 --> 00:39:46,970

okay and that was a big problem for

868

00:39:50,990 --> 00:39:48,960

America's overseas

869

00:39:52,910 --> 00:39:51,000

the United States dollar has always been

870

00:39:54,790 --> 00:39:52,920

special because it's been held up since

871

00:39:57,050 --> 00:39:54,800

Bretton Woods

872

00:39:59,990 --> 00:39:57,060

conference as the world's Reserve

873

00:40:02,170 --> 00:40:00,000

currency and as such the OPEC nations

874

00:40:05,810 --> 00:40:02,180

have recognized it as the Petro dollar

875

00:40:07,790 --> 00:40:05,820

so people have been taking dollars in in

876

00:40:10,970 --> 00:40:07,800

exchange for oils

877

00:40:12,349 --> 00:40:10,980

since the 60s and 70s and 80s and all

878

00:40:15,230 --> 00:40:12,359

the way through the present time until

879

00:40:17,750 --> 00:40:15,240

until Afghanistan pull out

880

00:40:19,849 --> 00:40:17,760

not happening anymore

881

00:40:23,089 --> 00:40:19,859

so when you when the reserve currency is

882

00:40:28,690 --> 00:40:23,099

gone who is going to buy the excess

883

00:40:35,990 --> 00:40:33,890

Street bins that's what's happening

884

00:40:37,370 --> 00:40:36,000

all right it's it's a fulfillment of

885

00:40:40,370 --> 00:40:37,380

volkers

886

00:40:44,329 --> 00:40:40,380

prediction to me that this would happen

887

00:40:47,450 --> 00:40:44,339

so do I think that uh Silicon Valley

888

00:40:49,970 --> 00:40:47,460

Bank was accidental no absolutely not

889

00:40:51,950 --> 00:40:49,980

the Brokers internationally that

890

00:40:56,030 --> 00:40:51,960

understand this

891

00:40:58,069 --> 00:40:56,040

gave strong warning Thursday and

892

00:41:01,790 --> 00:40:58,079

Wednesday before

893

00:41:04,250 --> 00:41:01,800

to pull money out pull their

894

00:41:07,849 --> 00:41:04,260

currency out and put it someplace else

895

00:41:10,430 --> 00:41:07,859

there was a 48 plus billion dollar run

896

00:41:13,130 --> 00:41:10,440

unprecedented run they couldn't fill

897

00:41:16,010 --> 00:41:13,140

they couldn't fill the the withdrawal

898

00:41:18,890 --> 00:41:16,020

orders fast enough and so The Regulators

899

00:41:22,670 --> 00:41:18,900

had to come down and shut it down so

900

00:41:25,849 --> 00:41:22,680

normally FDIC insured Banks cover up to

901  
00:41:26,690 --> 00:41:25,859  
250 000 in deposits right the problem

902  
00:41:29,150 --> 00:41:26,700  
was

903  
00:41:31,550 --> 00:41:29,160  
the vast majority of depositors were

904  
00:41:34,069 --> 00:41:31,560  
Silicon Valley startups with millions

905  
00:41:35,569 --> 00:41:34,079  
and millions of dollars in some cases a

906  
00:41:37,790 --> 00:41:35,579  
couple billion

907  
00:41:39,349 --> 00:41:37,800  
they worked mostly tied to a little

908  
00:41:41,450 --> 00:41:39,359  
country in the Middle East called Israel

909  
00:41:46,849 --> 00:41:41,460  
their startup companies

910  
00:41:49,730 --> 00:41:46,859  
like Samuel bankman Freed's buddies okay

911  
00:41:51,650 --> 00:41:49,740  
so they began to pull out and the word

912  
00:41:53,690 --> 00:41:51,660  
spread and before long

913  
00:41:56,150 --> 00:41:53,700

the regulars had to come and shut it

914

00:41:58,190 --> 00:41:56,160

down but Mr Biden

915

00:42:00,710 --> 00:41:58,200

for the first time ever said oh no

916

00:42:03,349 --> 00:42:00,720

problem we'll guarantee every depositor

917

00:42:06,950 --> 00:42:03,359

even the big boys not just the people

918

00:42:10,550 --> 00:42:06,960

with less than 250 000.

919

00:42:10,560 --> 00:42:14,930

it seems like a favor to me

920

00:42:21,670 --> 00:42:18,890

well it could have possibly be that the

921

00:42:23,690 --> 00:42:21,680

big hitters were buddies of Hunter

922

00:42:26,390 --> 00:42:23,700

his son

923

00:42:28,310 --> 00:42:26,400

which are tied to the Ukraine accounts

924

00:42:30,890 --> 00:42:28,320

and all of this see

925

00:42:33,410 --> 00:42:30,900

when you understand really the secret

926

00:42:35,810 --> 00:42:33,420

behind this the whole Silicon Valley

927

00:42:37,609 --> 00:42:35,820

Bank thing and Signature Bank

928

00:42:39,950 --> 00:42:37,619

uh with this heavy leanings towards

929

00:42:42,170 --> 00:42:39,960

crypto and all of this if these

930

00:42:44,210 --> 00:42:42,180

institutional bigwigs

931

00:42:46,370 --> 00:42:44,220

had their money lost it would be a

932

00:42:47,690 --> 00:42:46,380

ripple effect to affect places like

933

00:42:50,569 --> 00:42:47,700

credit Swiss

934

00:42:53,450 --> 00:42:50,579

another big International Banks which

935

00:42:56,810 --> 00:42:53,460

are more into laundering drug money

936

00:42:58,790 --> 00:42:56,820

right and securing it in safe havens

937

00:43:02,390 --> 00:42:58,800

than anything else

938

00:43:04,550 --> 00:43:02,400

so he had to protect the big big boys as

939

00:43:07,130 --> 00:43:04,560

well or the ripples would have been felt

940

00:43:10,550 --> 00:43:07,140

all the way up into Credit Suisse

941

00:43:16,250 --> 00:43:10,560

okay hmm

942

00:43:25,849 --> 00:43:21,190

why the big run you say who

943

00:43:28,190 --> 00:43:25,859

advised to get the money out and why

944

00:43:33,790 --> 00:43:28,200

those are the big questions

945

00:43:39,250 --> 00:43:36,190

Silicon Valley Bank

946

00:43:42,290 --> 00:43:39,260

SVP B was

947

00:43:44,210 --> 00:43:42,300

15th largest bank

948

00:43:46,849 --> 00:43:44,220

in the country

949

00:43:49,130 --> 00:43:46,859

over 200 billion dollars under

950

00:43:52,370 --> 00:43:49,140

management

951  
00:43:58,910 --> 00:43:54,130  
see

952  
00:44:01,670 --> 00:43:58,920  
electronic startup it's book valuations

953  
00:44:03,170 --> 00:44:01,680  
Signature Bank was mostly crypto based

954  
00:44:04,370 --> 00:44:03,180  
you know that

955  
00:44:07,730 --> 00:44:04,380  
so

956  
00:44:09,890 --> 00:44:07,740  
it goes back to what volcker was telling

957  
00:44:13,849 --> 00:44:09,900  
me and my friends

958  
00:44:18,410 --> 00:44:13,859  
into in 1984

959  
00:44:20,809 --> 00:44:18,420  
it's going to happen this

960  
00:44:24,829 --> 00:44:20,819  
thing we call currency

961  
00:44:28,609 --> 00:44:24,839  
United States dollars USD

962  
00:44:30,230 --> 00:44:28,619  
Fiat Federal Reserve no

963  
00:44:32,030 --> 00:44:30,240

you got a window here ladies and

964

00:44:35,270 --> 00:44:32,040

gentlemen you better put him into some

965

00:44:37,670 --> 00:44:35,280

fungible absolute money

966

00:44:39,829 --> 00:44:37,680

and that's why I recommend so highly

967

00:44:42,349 --> 00:44:39,839

this gold back

968

00:44:43,849 --> 00:44:42,359

it's it's a that's the right product for

969

00:44:46,730 --> 00:44:43,859

the right time

970

00:44:48,829 --> 00:44:46,740

and I can't I just can't emphasize how

971

00:44:51,109 --> 00:44:48,839

important that is right now

972

00:44:53,569 --> 00:44:51,119

and that brings that brings me to a

973

00:44:55,730 --> 00:44:53,579

really important question which it seems

974

00:44:57,530 --> 00:44:55,740

that people are so complacent that we

975

00:44:59,329 --> 00:44:57,540

are a little bit late on the calendar on

976

00:45:01,910 --> 00:44:59,339

this one but there is still time as you

977

00:45:04,370 --> 00:45:01,920

said and you know looking back

978

00:45:08,270 --> 00:45:04,380

throughout history even before the great

979

00:45:11,210 --> 00:45:08,280

Deluge 12 to 13 000 years ago there is

980

00:45:15,130 --> 00:45:11,220

historical evidence for civilizations

981

00:45:18,589 --> 00:45:15,140

mining gold you know 200 000 years ago

982

00:45:20,150 --> 00:45:18,599

and when when you look at that and why

983

00:45:22,490 --> 00:45:20,160

it had

984

00:45:25,190 --> 00:45:22,500

value then you have to seriously

985

00:45:28,490 --> 00:45:25,200

contemplate our situation now when we

986

00:45:30,770 --> 00:45:28,500

are trading in paper and credit cards

987

00:45:33,710 --> 00:45:30,780

and everything is based on debt there's

988

00:45:36,410 --> 00:45:33,720

no real value as you said I'm hoping you

989

00:45:39,290 --> 00:45:36,420

can tell listeners where they can

990

00:45:42,890 --> 00:45:39,300

purchase these gold backs secure

991

00:45:44,990 --> 00:45:42,900

something more that is uh tangible and a

992

00:45:47,089 --> 00:45:45,000

type of currency that will help them get

993

00:45:50,089 --> 00:45:47,099

through this

994

00:45:53,329 --> 00:45:50,099

oh you bet I'm I am uh well you probably

995

00:45:54,770 --> 00:45:53,339

guessed I am a gold back dealer I you

996

00:45:56,150 --> 00:45:54,780

asked and this is kind of goes into the

997

00:45:58,370 --> 00:45:56,160

other question I didn't quite fully

998

00:46:01,130 --> 00:45:58,380

answer where did this all begin

999

00:46:03,290 --> 00:46:01,140

so I I'm sorry for not answering more

1000

00:46:07,370 --> 00:46:03,300

quick more succinctly and quickly let me

1001  
00:46:12,410 --> 00:46:07,380  
let me dovetail into both questions okay

1002  
00:46:13,910 --> 00:46:12,420  
so in 2000 after this whole Fiasco with

1003  
00:46:16,670 --> 00:46:13,920  
the with the uh

1004  
00:46:19,910 --> 00:46:16,680  
a housing bubble or the the subprime

1005  
00:46:22,609 --> 00:46:19,920  
mortgage level I should say collapsed

1006  
00:46:24,170 --> 00:46:22,619  
I was the only thing I really had that

1007  
00:46:25,849 --> 00:46:24,180  
was asked that was my gold and silver

1008  
00:46:28,130 --> 00:46:25,859  
that I had I had positioned myself

1009  
00:46:29,210 --> 00:46:28,140  
pretty well with so I had that to fall

1010  
00:46:30,770 --> 00:46:29,220  
back on

1011  
00:46:34,130 --> 00:46:30,780  
and so

1012  
00:46:36,829 --> 00:46:34,140  
some of my larger accounts are that I

1013  
00:46:40,030 --> 00:46:36,839

that I counsel to do qualified funds I

1014

00:46:43,370 --> 00:46:40,040

mean start up an IRAs and Keels and

1015

00:46:45,710 --> 00:46:43,380

401ks right profit sharing

1016

00:46:48,470 --> 00:46:45,720

I went back to them and I said based on

1017

00:46:51,230 --> 00:46:48,480

what we saw you know with the this

1018

00:46:53,750 --> 00:46:51,240

recession and the you know the

1019

00:46:55,190 --> 00:46:53,760

the subprime collapse what I would

1020

00:46:57,470 --> 00:46:55,200

recommend is

1021

00:46:59,750 --> 00:46:57,480

now you know now Congress has passed

1022

00:47:01,790 --> 00:46:59,760

laws where you can put all if you want

1023

00:47:07,910 --> 00:47:01,800

all of your

1024

00:47:09,589 --> 00:47:07,920

inside of your qualified accounts

1025

00:47:12,170 --> 00:47:09,599

so I went back to some of my clients and

1026

00:47:15,349 --> 00:47:12,180

there was one one firm that had over 100

1027

00:47:18,530 --> 00:47:15,359

employees and they did amassed Governor

1028

00:47:20,390 --> 00:47:18,540

a million dollars worth of in in their

1029

00:47:23,809 --> 00:47:20,400

paper accounts

1030

00:47:25,010 --> 00:47:23,819

and they're qualified 401K structure

1031

00:47:27,170 --> 00:47:25,020

okay

1032

00:47:29,930 --> 00:47:27,180

so I went to the owners of the company I

1033

00:47:32,270 --> 00:47:29,940

said look what you can do now you can I

1034

00:47:34,069 --> 00:47:32,280

really seeing us how you know same thing

1035

00:47:37,790 --> 00:47:34,079

we're talking about today

1036

00:47:39,770 --> 00:47:37,800

why not uh put all of these into solid

1037

00:47:42,470 --> 00:47:39,780

gold put them in a custodial account in

1038

00:47:45,050 --> 00:47:42,480

which I can put you in touch with

1039

00:47:47,150 --> 00:47:45,060

and just make sure you keep the the

1040

00:47:50,690 --> 00:47:47,160

promise of

1041

00:47:52,309 --> 00:47:50,700

the hard asset intact you own this but

1042

00:47:55,130 --> 00:47:52,319

if you can't have possession of it until

1043

00:47:57,650 --> 00:47:55,140

you retire correct you have to have in

1044

00:47:59,030 --> 00:47:57,660

what's called an IRS approved custodial

1045

00:48:01,550 --> 00:47:59,040

account

1046

00:48:04,670 --> 00:48:01,560

so I I had brokered a million dollars

1047

00:48:05,690 --> 00:48:04,680

roughly just to sit under a million into

1048

00:48:11,390 --> 00:48:05,700

gold

1049

00:48:14,030 --> 00:48:11,400

little bit so here I am brokering this

1050

00:48:14,690 --> 00:48:14,040

deal with uh a gold

1051

00:48:16,609 --> 00:48:14,700

um

1052

00:48:18,589 --> 00:48:16,619

gold company it's actually two gold

1053

00:48:20,329 --> 00:48:18,599

companies here in Utah

1054

00:48:22,130 --> 00:48:20,339

and of course we came in this as well

1055

00:48:24,829 --> 00:48:22,140

you know there's new state regulations

1056

00:48:26,630 --> 00:48:24,839

anything over a hundred thousand dollar

1057

00:48:28,849 --> 00:48:26,640

purchase they need to have this

1058

00:48:31,490 --> 00:48:28,859

information sent in and so that's

1059

00:48:32,870 --> 00:48:31,500

another business but if it's a law fine

1060

00:48:34,849 --> 00:48:32,880

we'll do it

1061

00:48:38,450 --> 00:48:34,859

well they sent it in and electronically

1062

00:48:41,089 --> 00:48:38,460

within hours after filling out the form

1063

00:48:43,670 --> 00:48:41,099

they were notified the the gold house

1064

00:48:47,809 --> 00:48:43,680

before they could transfer payment

1065

00:48:49,309 --> 00:48:47,819

that they had to collect 6.2 percent

1066

00:48:52,370 --> 00:48:49,319

sales tax

1067

00:48:56,089 --> 00:48:52,380

on that gold

1068

00:49:02,690 --> 00:48:58,790

I mean I was making maybe one and a half

1069

00:49:05,450 --> 00:49:02,700

percent on the float

1070

00:49:06,770 --> 00:49:05,460

I mean fifteen thousand that's a pretty

1071

00:49:09,349 --> 00:49:06,780

good condition

1072

00:49:12,950 --> 00:49:09,359

for the work that I'd done but it to

1073

00:49:15,530 --> 00:49:12,960

have the state take 62

1074

00:49:17,390 --> 00:49:15,540

000 for nothing

1075

00:49:18,410 --> 00:49:17,400

it didn't set well with me especially

1076

00:49:21,829 --> 00:49:18,420

because

1077

00:49:23,930 --> 00:49:21,839

we're talking money here right

1078

00:49:26,290 --> 00:49:23,940

so I wrote letters to the I says no

1079

00:49:28,490 --> 00:49:26,300

because if when I gave this information

1080

00:49:30,849 --> 00:49:28,500

to that they were saying well maybe we

1081

00:49:33,589 --> 00:49:30,859

better rethink this whole thing right

1082

00:49:36,170 --> 00:49:33,599

we'll keep it where it's at

1083

00:49:37,910 --> 00:49:36,180

that's 62 000 hit

1084

00:49:40,309 --> 00:49:37,920

I said wait a minute

1085

00:49:43,010 --> 00:49:40,319

let me work on this

1086

00:49:45,230 --> 00:49:43,020

so I began I mean I I went to the state

1087

00:49:47,569 --> 00:49:45,240

tax commissioner in Utah and I I said

1088

00:49:50,329 --> 00:49:47,579

what are you people thinking

1089

00:49:53,870 --> 00:49:50,339

what part of article one section 8 and

1090

00:49:55,609 --> 00:49:53,880

section 10 of our U.S Constitution don't

1091

00:49:58,069 --> 00:49:55,619

you understand

1092

00:50:00,849 --> 00:49:58,079

we're only gold and silver will be used

1093

00:50:04,010 --> 00:50:00,859

for extinguisher for debt for basically

1094

00:50:06,470 --> 00:50:04,020

money that's what article one section in

1095

00:50:10,250 --> 00:50:06,480

our constitution talks about

1096

00:50:14,210 --> 00:50:10,260

this is not a commodity like like oil or

1097

00:50:15,710 --> 00:50:14,220

or pork belly shares okay

1098

00:50:17,870 --> 00:50:15,720

this is

1099

00:50:19,550 --> 00:50:17,880

money

1100

00:50:22,130 --> 00:50:19,560

I said would you would you have a

1101

00:50:25,130 --> 00:50:22,140

problem if I put it all a million

1102

00:50:28,069 --> 00:50:25,140

dollars into jump silver which is still

1103

00:50:29,450 --> 00:50:28,079

quarters and dimes and half dollars all

1104

00:50:32,390 --> 00:50:29,460

silver

1105

00:50:34,730 --> 00:50:32,400

it's getting changed from their dollars

1106

00:50:37,130 --> 00:50:34,740

but no

1107

00:50:39,890 --> 00:50:37,140

you recognize that because it's stamped

1108

00:50:43,550 --> 00:50:39,900

in the U.S currency it's just taking

1109

00:50:46,670 --> 00:50:43,560

change for a dollar are you going to to

1110

00:50:48,530 --> 00:50:46,680

to charge 6.2 percent tax on junk silver

1111

00:50:50,390 --> 00:50:48,540

their answer was yes

1112

00:50:53,030 --> 00:50:50,400

it's a commodity at this point I'm

1113

00:50:57,650 --> 00:50:53,040

saying oh my goodness

1114

00:51:01,970 --> 00:50:59,569

so I came back and I did another chart

1115

00:51:05,450 --> 00:51:01,980

for for my client says okay look at

1116

00:51:09,490 --> 00:51:05,460

what's the historical value of gold okay

1117

00:51:11,030 --> 00:51:09,500

so you take a 6.2 percent hit

1118

00:51:12,950 --> 00:51:11,040

it's

1119

00:51:14,750 --> 00:51:12,960

like a surcharge but you'll probably get

1120

00:51:16,849 --> 00:51:14,760

it back and and they went ahead and did

1121

00:51:18,770 --> 00:51:16,859

anyway but I had to pay our state

1122

00:51:21,829 --> 00:51:18,780

government 62

1123

00:51:25,609 --> 00:51:23,750

and they didn't take it in Gold by the

1124

00:51:28,549 --> 00:51:25,619

way you had to pay them

1125

00:51:29,630 --> 00:51:28,559

it's a currency

1126  
00:51:31,490 --> 00:51:29,640  
so

1127  
00:51:34,250 --> 00:51:31,500  
I said this isn't this

1128  
00:51:35,510 --> 00:51:34,260  
additionally wrong

1129  
00:51:38,870 --> 00:51:35,520  
okay

1130  
00:51:42,109 --> 00:51:38,880  
so an attorney that I knew a very

1131  
00:51:44,930 --> 00:51:42,119  
skilled common law based attorney

1132  
00:51:47,630 --> 00:51:44,940  
he said you're right I I did I was on

1133  
00:51:50,870 --> 00:51:47,640  
talk radio shows explaining the problem

1134  
00:51:52,309 --> 00:51:50,880  
and and grousing about it in a strong

1135  
00:51:54,170 --> 00:51:52,319  
way I says this is just not

1136  
00:51:57,049 --> 00:51:54,180  
constitutional

1137  
00:51:58,910 --> 00:51:57,059  
even the state constitution it violates

1138  
00:52:00,290 --> 00:51:58,920

that in my opinion right

1139

00:52:03,230 --> 00:52:00,300

so

1140

00:52:05,690 --> 00:52:03,240

this attorney uh Mr Hilton

1141

00:52:07,970 --> 00:52:05,700

wrote A bill

1142

00:52:11,750 --> 00:52:07,980

and introduced to the state legislature

1143

00:52:14,510 --> 00:52:11,760

it's called the Utah Species Act

1144

00:52:16,670 --> 00:52:14,520

where in if you check it out it was

1145

00:52:21,349 --> 00:52:16,680

passed in 2011

1146

00:52:24,710 --> 00:52:21,359

it made it clear that gold and silver

1147

00:52:27,109 --> 00:52:24,720

cannot be taxed

1148

00:52:31,309 --> 00:52:27,119

as a commodity because it isn't it's

1149

00:52:34,790 --> 00:52:31,319

it's it is found money end of story

1150

00:52:37,730 --> 00:52:34,800

and so Utah passed that law

1151

00:52:40,670 --> 00:52:37,740

and that's that the foundation for

1152

00:52:42,770 --> 00:52:40,680

again people buying large amounts of

1153

00:52:45,349 --> 00:52:42,780

gold and silver in their IRAs and POS

1154

00:52:47,870 --> 00:52:45,359

and 401ks

1155

00:52:49,630 --> 00:52:47,880

and not being having to pay tax to a

1156

00:52:52,190 --> 00:52:49,640

gold broker for it see

1157

00:52:56,210 --> 00:52:52,200

but that began

1158

00:52:58,849 --> 00:52:56,220

the the basis for the same group of

1159

00:53:01,910 --> 00:52:58,859

people to get together and and come up

1160

00:53:03,349 --> 00:53:01,920

with the patented process of the gold

1161

00:53:06,589 --> 00:53:03,359

back

1162

00:53:09,470 --> 00:53:06,599

making it smaller denominations and so

1163

00:53:12,349 --> 00:53:09,480

easily transferred and all being gold

1164

00:53:15,530 --> 00:53:12,359

right you don't have to worry about it

1165

00:53:16,849 --> 00:53:15,540

and that became the the foundation of

1166

00:53:19,010 --> 00:53:16,859

Golbat so

1167

00:53:22,069 --> 00:53:19,020

the other SEC the other question is you

1168

00:53:26,630 --> 00:53:22,079

asked that you asked uh I'm a I'm a

1169

00:53:28,849 --> 00:53:26,640

broker I'm proud to be a broker I I make

1170

00:53:30,410 --> 00:53:28,859

no bones out hopefully get some

1171

00:53:33,470 --> 00:53:30,420

Commission on people that are interested

1172

00:53:36,230 --> 00:53:33,480

in this but if they I guarantee you Ryan

1173

00:53:38,930 --> 00:53:36,240

it's going to be a minimal thing

1174

00:53:41,930 --> 00:53:38,940

all right I will tell you this

1175

00:53:44,210 --> 00:53:41,940

if it's okay with you Ryan

1176

00:53:47,930 --> 00:53:44,220

um have people contact you that are

1177

00:53:50,329 --> 00:53:47,940

interested okay all right I will

1178

00:53:53,630 --> 00:53:50,339

I will promise to you

1179

00:53:56,809 --> 00:53:53,640

that I will I will give this out at my

1180

00:53:58,910 --> 00:53:56,819

rock bottom uh it's just this is roughly

1181

00:54:01,790 --> 00:53:58,920

30 cents off

1182

00:54:04,430 --> 00:54:01,800

of the average exchange rate

1183

00:54:05,930 --> 00:54:04,440

that's your Buy rate and that's a I mean

1184

00:54:08,930 --> 00:54:05,940

I don't think you'll find that anywhere

1185

00:54:11,750 --> 00:54:08,940

anywhere on the internet okay sure you

1186

00:54:15,069 --> 00:54:11,760

can go buy some from money money uh

1187

00:54:18,829 --> 00:54:15,079

medals or or other places

1188

00:54:20,109 --> 00:54:18,839

apex apex has them American impressive

1189

00:54:22,190 --> 00:54:20,119

Metal Exchange

1190

00:54:24,530 --> 00:54:22,200

they're all over

1191

00:54:26,630 --> 00:54:24,540

but I don't think you'll find that

1192

00:54:28,790 --> 00:54:26,640

guaranteed price I will price that to

1193

00:54:31,670 --> 00:54:28,800

you Ryan all day long with your with

1194

00:54:34,490 --> 00:54:31,680

listeners I'll tell you something else

1195

00:54:37,549 --> 00:54:34,500

if you if you go into into a bigger

1196

00:54:40,549 --> 00:54:37,559

amounts like if you want to put out some

1197

00:54:43,849 --> 00:54:40,559

of your you go above 50 000 in a

1198

00:54:46,430 --> 00:54:43,859

qualified account okay I will drop that

1199

00:54:49,370 --> 00:54:46,440

another five five cents I'll go to 35

1200

00:54:51,530 --> 00:54:49,380

cents below

1201

00:54:53,569 --> 00:54:51,540

that's a good deal

1202

00:54:55,490 --> 00:54:53,579

that is a good deal

1203

00:54:57,410 --> 00:54:55,500

I'm gonna make a little bit on the other

1204

00:55:01,130 --> 00:54:57,420

side but not much

1205

00:55:03,710 --> 00:55:01,140

okay I don't care about making a

1206

00:55:07,370 --> 00:55:03,720

commission on this I care about getting

1207

00:55:11,390 --> 00:55:07,380

people outside of the box

1208

00:55:14,150 --> 00:55:11,400

of the the more people that are freed up

1209

00:55:16,730 --> 00:55:14,160

the more I'm freed up

1210

00:55:18,470 --> 00:55:16,740

you know what I'm talking about oh

1211

00:55:21,710 --> 00:55:18,480

absolutely all of this together we're

1212

00:55:27,349 --> 00:55:23,630

and you know all right the the the

1213

00:55:30,589 --> 00:55:27,359

amazing thing is that in all cultures

1214

00:55:33,589 --> 00:55:30,599

gold has an extensive history as do all

1215

00:55:35,809 --> 00:55:33,599

precious metals and in the even in the

1216

00:55:37,430 --> 00:55:35,819

Indigenous system of medicine the

1217

00:55:40,309 --> 00:55:37,440

consumption of gold or what they call

1218

00:55:43,910 --> 00:55:40,319

Gold therapy very little amounts

1219

00:55:45,770 --> 00:55:43,920

um has had widely prevalent use in areas

1220

00:55:50,150 --> 00:55:45,780

like India where it's still used a lot

1221

00:55:53,809 --> 00:55:50,160

and you go back more in uh biblical

1222

00:55:56,150 --> 00:55:53,819

times gold was valued very highly and

1223

00:55:59,829 --> 00:55:56,160

you go way back even discussing things

1224

00:56:03,109 --> 00:55:59,839

such as the Anunnaki and getting into

1225

00:56:06,049 --> 00:56:03,119

extraterrestrial areas and there are

1226

00:56:08,270 --> 00:56:06,059

very widespread beliefs that gold was

1227

00:56:09,770 --> 00:56:08,280

very involved in that so it's not as if

1228

00:56:12,650 --> 00:56:09,780

this is a commodity that's going to lose

1229

00:56:15,530 --> 00:56:12,660

its value because since the beginning of

1230

00:56:19,190 --> 00:56:15,540

man and his ability to write down or

1231

00:56:21,710 --> 00:56:19,200

verbally communicate history it has been

1232

00:56:23,390 --> 00:56:21,720

at the top of the totem pole as far as

1233

00:56:25,250 --> 00:56:23,400

currency I mean I don't see that

1234

00:56:29,230 --> 00:56:25,260

changing

1235

00:56:33,049 --> 00:56:29,240

absolutely you looked at the the uh the

1236

00:56:38,870 --> 00:56:33,059

Bible in the Old Testament talked about

1237

00:56:41,990 --> 00:56:38,880

the the contract between God and Abraham

1238

00:56:44,510 --> 00:56:42,000

and it was all based on a sound

1239

00:56:47,870 --> 00:56:44,520

principle of of weights and measures

1240

00:56:49,849 --> 00:56:47,880

were were ordained gold

1241

00:56:51,710 --> 00:56:49,859

to be the prime measurements called a

1242

00:56:55,190 --> 00:56:51,720

Sheck L of gold

1243

00:56:57,410 --> 00:56:55,200

check means a measurement of L or God

1244

00:57:00,049 --> 00:56:57,420

so that's what it actually means and so

1245

00:57:02,569 --> 00:57:00,059

this was the weight weight and measure

1246

00:57:05,210 --> 00:57:02,579

to measure what a a bushel of wheat

1247

00:57:07,970 --> 00:57:05,220

would be or a bunch of grapes to make

1248

00:57:11,329 --> 00:57:07,980

wine or wine itself any Commodities this

1249

00:57:13,430 --> 00:57:11,339

was ordained and this actually was true

1250

00:57:15,290 --> 00:57:13,440

in in Egypt anciently

1251

00:57:17,630 --> 00:57:15,300

the Egyptians were the first to

1252

00:57:20,450 --> 00:57:17,640

basically find our soul was told by

1253

00:57:22,870 --> 00:57:20,460

archaeologists to to make gold gold

1254

00:57:25,849 --> 00:57:22,880

coins as a means a border and

1255

00:57:28,309 --> 00:57:25,859

standardizing it so we see all this

1256

00:57:31,190 --> 00:57:28,319

happened through the judeo-christian

1257

00:57:32,270 --> 00:57:31,200

um code and even going back to Babylon

1258

00:57:34,370 --> 00:57:32,280

of course

1259

00:57:36,710 --> 00:57:34,380

the Code of Hammurabi and all of this

1260

00:57:38,569 --> 00:57:36,720

talks All About You Know The Honest

1261

00:57:41,510 --> 00:57:38,579

weights and measure of gold and silver

1262

00:57:46,190 --> 00:57:41,520

to some degree now

1263

00:57:48,950 --> 00:57:46,200

the ex the actual Hebrew word

1264

00:57:54,650 --> 00:57:48,960

for gold in the in the Hebrew text is

1265

00:57:56,630 --> 00:57:54,660

the word the zafab zahab z-a-h-a-b

1266

00:57:59,329 --> 00:57:56,640

now zahab

1267

00:58:01,670 --> 00:57:59,339

has a special meeting by the way

1268

00:58:04,670 --> 00:58:01,680

and I gotta say when we talk about gold

1269

00:58:06,470 --> 00:58:04,680

and even silver or any mineral my

1270

00:58:09,349 --> 00:58:06,480

business is called Mother Earth minerals

1271

00:58:11,930 --> 00:58:09,359

I I prepare minerals for the consumption

1272

00:58:13,609 --> 00:58:11,940

of people medicinally okay

1273

00:58:15,230 --> 00:58:13,619

or to help their health I shouldn't say

1274

00:58:16,190 --> 00:58:15,240

their medicine because they're they're

1275

00:58:18,049 --> 00:58:16,200

natural

1276

00:58:21,770 --> 00:58:18,059

Pure Nutrition

1277

00:58:24,530 --> 00:58:21,780

but guilt golden and silver and copper

1278

00:58:26,930 --> 00:58:24,540

and zinc and every other mineral

1279

00:58:29,690 --> 00:58:26,940

you know it's amazing

1280

00:58:31,670 --> 00:58:29,700

man cannot make that

1281

00:58:36,109 --> 00:58:31,680

you know how many times men has tried to

1282

00:58:38,270 --> 00:58:36,119

make manufacture gold synthetically or

1283

00:58:41,690 --> 00:58:38,280

silver think about it

1284

00:58:45,950 --> 00:58:44,329

we hear of the King Midas and the Midas

1285

00:58:47,809 --> 00:58:45,960

is touched when it's you know having the

1286

00:58:50,510 --> 00:58:47,819

gods give them the ability to make goal

1287

00:58:53,089 --> 00:58:50,520

we hear about Rumpelstiltskin and and

1288

00:58:55,430 --> 00:58:53,099

the mythology and fairy tale stories

1289

00:58:57,890 --> 00:58:55,440

this little elf that can spin straw into

1290

00:58:59,390 --> 00:58:57,900

gold right so this has always been

1291

00:59:02,270 --> 00:58:59,400

what's known as the Philosopher's Stone

1292

00:59:03,950 --> 00:59:02,280

that the ancient ones have tried

1293

00:59:05,930 --> 00:59:03,960

to make

1294

00:59:07,010 --> 00:59:05,940

but you can't

1295

00:59:10,130 --> 00:59:07,020

okay

1296

00:59:11,630 --> 00:59:10,140

what's the difference Ryan between shiny

1297

00:59:13,430 --> 00:59:11,640

beautiful gold

1298

00:59:16,970 --> 00:59:13,440

and led

1299

00:59:19,069 --> 00:59:16,980

weighs weighs the same pretty much

1300

00:59:21,789 --> 00:59:19,079

then gold

1301

00:59:23,390 --> 00:59:21,799

lead has one

1302

00:59:25,190 --> 00:59:23,400

electron

1303

00:59:27,230 --> 00:59:25,200

and it's outer shell difference that's

1304

00:59:29,390 --> 00:59:27,240

it

1305

00:59:31,069 --> 00:59:29,400

you should be able to take away that

1306

00:59:35,089 --> 00:59:31,079

electron

1307

00:59:37,970 --> 00:59:35,099

proton

1308

00:59:40,670 --> 00:59:37,980

and then create turn light into gold you

1309

00:59:42,650 --> 00:59:40,680

think it would be easy for a a chemist

1310

00:59:45,109 --> 00:59:42,660

to do that

1311

00:59:46,670 --> 00:59:45,119

on the and the on the micro scale but

1312

00:59:49,309 --> 00:59:46,680

they can't

1313

00:59:51,289 --> 00:59:49,319

you can't it's it's

1314

00:59:52,789 --> 00:59:51,299

got a firewall they haven't been able to

1315

00:59:55,010 --> 00:59:52,799

break

1316

00:59:59,390 --> 00:59:55,020

you see

1317

01:00:02,569 --> 00:59:59,400

so it is absolutely the creation of a

1318

01:00:04,430 --> 01:00:02,579

form of the of our creator

1319

01:00:06,230 --> 01:00:04,440

that made this an ordained this on

1320

01:00:08,390 --> 01:00:06,240

everything else of every other mineral

1321

01:00:11,750 --> 01:00:08,400

okay

1322

01:00:13,670 --> 01:00:11,760

That's Unique people say well Dr Roth

1323

01:00:14,990 --> 01:00:13,680

thank you so much for for making these

1324

01:00:16,670 --> 01:00:15,000

minerals I have to correct him I said

1325

01:00:19,910 --> 01:00:16,680

please I don't make them

1326

01:00:22,250 --> 01:00:19,920

I just put them in a usable form and

1327

01:00:24,170 --> 01:00:22,260

bond them and label them okay the

1328

01:00:28,069 --> 01:00:24,180

Creator belongs it belongs to the person

1329

01:00:31,190 --> 01:00:28,079

who the the enemy that made this world

1330

01:00:35,630 --> 01:00:31,200

it didn't happen accidentally

1331

01:00:41,770 --> 01:00:38,569

it means this three

1332

01:00:44,750 --> 01:00:41,780

original paleo Hebrew letters

1333

01:00:46,910 --> 01:00:44,760

Zeon a hell

1334

01:00:49,549 --> 01:00:46,920

and better

1335

01:00:51,109 --> 01:00:49,559

those three things mean it mean

1336

01:00:53,510 --> 01:00:51,119

something by themselves when you combine

1337

01:00:54,770 --> 01:00:53,520

them it's a special message

1338

01:00:57,109 --> 01:00:54,780

## The Hub

1339

01:00:58,490 --> 01:00:57,119

literally means

1340

01:01:01,549 --> 01:00:58,500

look

1341

01:01:04,970 --> 01:01:01,559

to this one who was coming who will be

1342

01:01:09,470 --> 01:01:04,980

pierced for your sins and will come from

1343

01:01:13,490 --> 01:01:09,480

the House of Bread of Bethlehem

1344

01:01:17,650 --> 01:01:13,500

it's a covenant word anciently

1345

01:01:21,069 --> 01:01:17,660

holy mackerel and we hear about

1346

01:01:25,309 --> 01:01:21,079

we read in the in the gospel text

1347

01:01:27,109 --> 01:01:25,319

Parables of of Christ teaching of

1348

01:01:30,049 --> 01:01:27,119

something called the Refiner's Fire

1349

01:01:33,049 --> 01:01:30,059

right you you have to go through this

1350

01:01:34,609 --> 01:01:33,059

trial and heed to refine to make the

1351  
01:01:37,549 --> 01:01:34,619  
purest gold

1352  
01:01:38,750 --> 01:01:37,559  
now when you have that 24 Karat pure

1353  
01:01:41,690 --> 01:01:38,760  
gold

1354  
01:01:44,210 --> 01:01:41,700  
it's indestructible right

1355  
01:01:45,650 --> 01:01:44,220  
you can't you can burn you try melting

1356  
01:01:48,530 --> 01:01:45,660  
it it doesn't

1357  
01:01:50,809 --> 01:01:48,540  
lose itself

1358  
01:01:52,549 --> 01:01:50,819  
you can even nuke it it won't matter

1359  
01:01:53,569 --> 01:01:52,559  
it's still

1360  
01:01:57,109 --> 01:01:53,579  
eternal

1361  
01:01:59,270 --> 01:01:57,119  
and it never loses its Brilliance and

1362  
01:02:02,690 --> 01:01:59,280  
its shine in this book no matter it's

1363  
01:02:05,630 --> 01:02:02,700

not corruptable it's incorruptible

1364

01:02:08,510 --> 01:02:05,640

that's what's amazing about this

1365

01:02:10,910 --> 01:02:08,520

I mean Mel Fisher brought out all these

1366

01:02:13,609 --> 01:02:10,920

these pure gold uh artifacts out the

1367

01:02:16,430 --> 01:02:13,619

bottom of the ocean after since 14 or

1368

01:02:17,870 --> 01:02:16,440

since 1622.

1369

01:02:20,569 --> 01:02:17,880

and they're shiny as the day they went

1370

01:02:26,210 --> 01:02:23,270

it's incorruptible fascinating it really

1371

01:02:30,230 --> 01:02:26,220

is I mean it is it is when it comes to

1372

01:02:33,289 --> 01:02:30,240

Alchemy it really is the Divine medal

1373

01:02:35,510 --> 01:02:33,299

the Divine element and you know it's

1374

01:02:38,569 --> 01:02:35,520

it's just amazing and I want to also

1375

01:02:40,430 --> 01:02:38,579

point out I earlier I mentioned uh

1376

01:02:44,569 --> 01:02:40,440

before we jumped on together I mentioned

1377

01:02:46,430 --> 01:02:44,579

Mother Earth minerals me minerals.com

1378

01:02:49,970 --> 01:02:46,440

and listeners should definitely go there

1379

01:02:51,410 --> 01:02:49,980

I purchase your liquid minerals and I

1380

01:02:55,549 --> 01:02:51,420

think they're essential for good health

1381

01:02:58,430 --> 01:02:55,559

as well as other things liquid you even

1382

01:03:01,089 --> 01:02:58,440

have colloidal silver you have liquid

1383

01:03:03,829 --> 01:03:01,099

gold you have all kinds of nutritional

1384

01:03:06,109 --> 01:03:03,839

supplements and you get them out to

1385

01:03:07,789 --> 01:03:06,119

people quickly they're very healthy I

1386

01:03:09,829 --> 01:03:07,799

noticed the difference I was I was in

1387

01:03:12,349 --> 01:03:09,839

the toilet and I needed potassium and

1388

01:03:16,190 --> 01:03:12,359

some other supplements and talk about

1389

01:03:18,650 --> 01:03:16,200

easily ingestible no horrid taste made

1390

01:03:20,930 --> 01:03:18,660

me feel amazing so I just want to

1391

01:03:23,150 --> 01:03:20,940

mention two listeners to go to me

1392

01:03:24,589 --> 01:03:23,160

minerals.com that's Mother Earth

1393

01:03:27,530 --> 01:03:24,599

minerals

1394

01:03:30,530 --> 01:03:27,540

and if you're interested in buying these

1395

01:03:32,569 --> 01:03:30,540

gold backs please reach out to me you

1396

01:03:36,530 --> 01:03:32,579

can do that at

1397

01:03:43,010 --> 01:03:36,540

hero paranormal at yahoo.com

1398

01:03:45,589 --> 01:03:43,020

and I can funnel you through to Dr

1399

01:03:48,349 --> 01:03:45,599

truatt and you can get some of these

1400

01:03:50,270 --> 01:03:48,359

amazing Utah gold backs is there

1401

01:03:54,710 --> 01:03:50,280

anything else that we should tell

1402

01:03:56,089 --> 01:03:54,720

listeners having to do with this topic

1403

01:03:57,770 --> 01:03:56,099

well it

1404

01:03:59,510 --> 01:03:57,780

it's not aware you are in the country

1405

01:04:02,150 --> 01:03:59,520

okay because

1406

01:04:04,069 --> 01:04:02,160

again the definition of money is is

1407

01:04:06,890 --> 01:04:04,079

something that's of value that anybody

1408

01:04:07,910 --> 01:04:06,900

will want to exchange goods or services

1409

01:04:11,089 --> 01:04:07,920

for

1410

01:04:13,069 --> 01:04:11,099

all right if you look on on eBay and

1411

01:04:15,950 --> 01:04:13,079

look at goldback there's a fellow that's

1412

01:04:18,349 --> 01:04:15,960

been selling these single goldback

1413

01:04:21,170 --> 01:04:18,359

units for about I don't know a year or

1414

01:04:23,690 --> 01:04:21,180

so at at twenty dollars you can buy it

1415

01:04:26,569 --> 01:04:23,700

now in 1995 or you can bid on the single

1416

01:04:28,670 --> 01:04:26,579

unit that's twenty dollars a unit and he

1417

01:04:30,470 --> 01:04:28,680

sold many of them

1418

01:04:32,870 --> 01:04:30,480

I was a shock

1419

01:04:36,109 --> 01:04:32,880

now that this is catching on more with

1420

01:04:39,470 --> 01:04:36,119

the with the bullion Sellers and coin

1421

01:04:42,230 --> 01:04:39,480

shops you know it's more like five fifty

1422

01:04:45,490 --> 01:04:42,240

six dollars a unit okay uh the average

1423

01:04:48,650 --> 01:04:45,500

exchange rate is as of today I think was

1424

01:04:50,030 --> 01:04:48,660

3.98 just a couple cents try it four

1425

01:04:53,510 --> 01:04:50,040

bucks

1426

01:04:54,950 --> 01:04:53,520

so you get the idea for this and I also

1427

01:04:57,109 --> 01:04:54,960

want to say when they first came out

1428

01:05:00,829 --> 01:04:57,119

based on the price of gold

1429

01:05:03,349 --> 01:05:00,839

in 2019 they were just a shy of two

1430

01:05:05,930 --> 01:05:03,359

dollars an average change rate they were

1431

01:05:08,809 --> 01:05:05,940

like the Bucks Buck 90 or something okay

1432

01:05:11,089 --> 01:05:08,819

so they they pretty much doubled in

1433

01:05:12,770 --> 01:05:11,099

value since 2019.

1434

01:05:15,170 --> 01:05:12,780

not because

1435

01:05:17,930 --> 01:05:15,180

okay that they're more valuable because

1436

01:05:21,589 --> 01:05:17,940

of their numismatic or collectible thing

1437

01:05:23,930 --> 01:05:21,599

no no no it's because gold is increased

1438

01:05:26,630 --> 01:05:23,940

which is what they are they're gold

1439

01:05:31,069 --> 01:05:26,640

which really means the purchasing power

1440

01:05:33,710 --> 01:05:31,079

of your paper dollars have gone in the

1441

01:05:35,450 --> 01:05:33,720

toilet they've they're less than half of

1442

01:05:38,450 --> 01:05:35,460

what they were in 2019 before the

1443

01:05:41,710 --> 01:05:38,460

so-called pandemic hit us

1444

01:05:46,069 --> 01:05:41,720

that's what you have to realize it's not

1445

01:05:47,030 --> 01:05:46,079

what the value is in U.S dollars no no

1446

01:05:49,549 --> 01:05:47,040

no

1447

01:05:52,130 --> 01:05:49,559

it's what people will take in exchange

1448

01:05:53,809 --> 01:05:52,140

for goods and services and that's the

1449

01:05:54,890 --> 01:05:53,819

store of value that I'm talking about

1450

01:05:57,530 --> 01:05:54,900

here

1451

01:05:59,690 --> 01:05:57,540

okay I don't know if too many stocks

1452

01:06:04,010 --> 01:05:59,700

that almost doubled in value since not

1453

01:06:05,390 --> 01:06:04,020

2019 do you do you Ryan none

1454

01:06:07,549 --> 01:06:05,400

yeah

1455

01:06:10,309 --> 01:06:07,559

see and it's based and it's all tagged

1456

01:06:13,309 --> 01:06:10,319

on return on investment rois

1457

01:06:15,410 --> 01:06:13,319

based on what people perceive is their

1458

01:06:18,230 --> 01:06:15,420

store of value which is false which is

1459

01:06:21,049 --> 01:06:18,240

the US dollar it's not

1460

01:06:22,730 --> 01:06:21,059

not bad at all that's what is it's what

1461

01:06:25,309 --> 01:06:22,740

you comply with it ladies and gentlemen

1462

01:06:27,529 --> 01:06:25,319

okay so that's why I'm saying get these

1463

01:06:29,870 --> 01:06:27,539

while you can

1464

01:06:31,250 --> 01:06:29,880

um I've been I've been super busy with

1465

01:06:32,930 --> 01:06:31,260

people now especially since what's

1466

01:06:35,690 --> 01:06:32,940

happened on Friday

1467

01:06:38,390 --> 01:06:35,700

but I I'm really shocked because I think

1468

01:06:40,430 --> 01:06:38,400

it should be three times more more busy

1469

01:06:41,390 --> 01:06:40,440

because people don't know what I just

1470

01:06:43,370 --> 01:06:41,400

talked about

1471

01:06:46,370 --> 01:06:43,380

they don't understand what money is

1472

01:06:48,109 --> 01:06:46,380

versus currency Ryan

1473

01:06:50,089 --> 01:06:48,119

and they're you know they don't have

1474

01:06:53,630 --> 01:06:50,099

money I think the friend of mine into

1475

01:06:56,750 --> 01:06:53,640

the to the mall uh about you know in

1476

01:06:57,950 --> 01:06:56,760

October or into November okay people are

1477

01:06:59,750 --> 01:06:57,960

starting to do their Christmas shopping

1478

01:07:01,849 --> 01:06:59,760

right

1479

01:07:03,410 --> 01:07:01,859

so I just set up and I

1480

01:07:06,710 --> 01:07:03,420

I had a

1481

01:07:09,529 --> 01:07:06,720

um I had my little VCR camera going and

1482

01:07:11,450 --> 01:07:09,539

I said could I you know I'm I'm through

1483

01:07:13,010 --> 01:07:11,460

lot with the story behind the story

1484

01:07:15,650 --> 01:07:13,020

radio show

1485

01:07:17,510 --> 01:07:15,660

can I ask you just a quick question

1486

01:07:20,150 --> 01:07:17,520

I'm doing it like a survey and most

1487

01:07:23,630 --> 01:07:20,160

people were polite and says well sure

1488

01:07:27,890 --> 01:07:23,640

I says what is money

1489

01:07:29,930 --> 01:07:27,900

and they look at uh what did you say

1490

01:07:31,250 --> 01:07:29,940

uh what

1491

01:07:34,309 --> 01:07:31,260

is

1492

01:07:38,450 --> 01:07:35,990

I think it looks to be like

1493

01:07:41,630 --> 01:07:38,460

are you kidding me are you this is

1494

01:07:46,849 --> 01:07:41,640

looking up a Candid Camera you know silk

1495

01:07:52,910 --> 01:07:50,870

and it is a big question though

1496

01:07:54,650 --> 01:07:52,920

and they looked at me and I said Do you

1497

01:07:56,569 --> 01:07:54,660

have do you have any money they just

1498

01:07:58,010 --> 01:07:56,579

want and they just turned up most of

1499

01:07:59,930 --> 01:07:58,020

them just said that's it I don't want to

1500

01:08:01,970 --> 01:07:59,940

talk to you anymore

1501

01:08:06,049 --> 01:08:01,980

but the ones that were that stayed

1502

01:08:08,930 --> 01:08:06,059

around to say well yeah uh money is what

1503

01:08:10,970 --> 01:08:08,940

I buy things with

1504

01:08:13,190 --> 01:08:10,980

see no

1505

01:08:15,230 --> 01:08:13,200

you buy things in your wallet in your

1506

01:08:16,970 --> 01:08:15,240

purse with currency

1507

01:08:19,249 --> 01:08:16,980

not money

1508

01:08:20,689 --> 01:08:19,259

it's a huge difference

1509

01:08:22,550 --> 01:08:20,699

and they didn't want to even stick

1510

01:08:24,349 --> 01:08:22,560

around to even learn more about when I

1511

01:08:27,050 --> 01:08:24,359

looked and I said what is money what's

1512

01:08:28,729 --> 01:08:27,060

nobody could tell me I mean I must have

1513

01:08:30,349 --> 01:08:28,739

talked to 100 people

1514

01:08:32,329 --> 01:08:30,359

and they all looked at me and said

1515

01:08:33,769 --> 01:08:32,339

you're stupid you know what kind of a

1516

01:08:36,169 --> 01:08:33,779

question is that we all know what money

1517

01:08:39,169 --> 01:08:36,179

is no but they don't

1518

01:08:41,150 --> 01:08:39,179

see that's the whole issue

1519

01:08:43,729 --> 01:08:41,160

to look for people I remember a couple

1520

01:08:46,849 --> 01:08:43,739

of couple of uh Hispanic ladies plus or

1521

01:08:49,430 --> 01:08:46,859

you and they started talking in Spanish

1522

01:08:50,110 --> 01:08:49,440

but instead of like this local crazy you

1523

01:08:53,630 --> 01:08:50,120

know

1524

01:08:55,130 --> 01:08:53,640

and just walked away like don't answer

1525

01:08:57,229 --> 01:08:55,140

any questions

1526

01:08:59,329 --> 01:08:57,239

it's by asking what money is run away

1527

01:09:00,650 --> 01:08:59,339

from them they're stupid or crazy right

1528

01:09:02,390 --> 01:09:00,660

that's right

1529

01:09:06,289 --> 01:09:02,400

and and there seems to be a lot of

1530

01:09:09,169 --> 01:09:06,299

imitation money or currency because

1531

01:09:12,349 --> 01:09:09,179

since the beginnings of time it seems as

1532

01:09:14,749 --> 01:09:12,359

if everything is trying to represent or

1533

01:09:16,970 --> 01:09:14,759

be the new gold or silver and there's

1534

01:09:19,970 --> 01:09:16,980

just no way to really mimic that it's

1535

01:09:22,249 --> 01:09:19,980

it's a pretty important message

1536

01:09:24,650 --> 01:09:22,259

well absolutely that's why you know I

1537

01:09:26,749 --> 01:09:24,660

thank you for inviting me on on your

1538

01:09:29,150 --> 01:09:26,759

podcast again you're always on the cusp

1539

01:09:31,249 --> 01:09:29,160

of things Ryan and so I would just I

1540

01:09:33,229 --> 01:09:31,259

would just leave it with with that as

1541

01:09:35,269 --> 01:09:33,239

people just just to contemplate

1542

01:09:38,390 --> 01:09:35,279

philosophically really what we're

1543

01:09:41,590 --> 01:09:38,400

talking about here okay

1544

01:09:44,689 --> 01:09:41,600

whatever people are willing

1545

01:09:48,650 --> 01:09:44,699

to exchange is really the value here

1546

01:09:52,070 --> 01:09:48,660

okay so it goes back and even though you

1547

01:09:54,169 --> 01:09:52,080

may be listening to us in Alaska or even

1548

01:09:57,890 --> 01:09:54,179

Canada I I have some people on my radio

1549

01:09:59,570 --> 01:09:57,900

show send me money in the Philippines to

1550

01:10:00,830 --> 01:09:59,580

send them to the Philippines

1551  
01:10:03,410 --> 01:10:00,840  
because

1552  
01:10:06,530 --> 01:10:03,420  
whether it's a peso in the Philippines

1553  
01:10:09,110 --> 01:10:06,540  
or Mexico or what have you would you

1554  
01:10:10,669 --> 01:10:09,120  
rather have that piece of Monopoly

1555  
01:10:13,310 --> 01:10:10,679  
looking paper or a really sunny

1556  
01:10:15,770 --> 01:10:13,320  
beautiful fungible

1557  
01:10:19,669 --> 01:10:15,780  
same and you know what's happening the

1558  
01:10:21,950 --> 01:10:19,679  
the guy that I sent about 200 USD worth

1559  
01:10:25,010 --> 01:10:21,960  
down to the Philippines he's like people

1560  
01:10:27,110 --> 01:10:25,020  
are just loving these

1561  
01:10:29,149 --> 01:10:27,120  
they love them

1562  
01:10:31,970 --> 01:10:29,159  
because they look so they look really

1563  
01:10:34,010 --> 01:10:31,980

cool their artwork

1564

01:10:35,990 --> 01:10:34,020

the this bracelets and the other Pro

1565

01:10:38,510 --> 01:10:36,000

problem that we're facing with these

1566

01:10:39,950 --> 01:10:38,520

right they do look like something you

1567

01:10:41,930 --> 01:10:39,960

could frame if they don't want to give

1568

01:10:43,130 --> 01:10:41,940

them up they're hoarding them and I want

1569

01:10:47,630 --> 01:10:43,140

people

1570

01:10:49,850 --> 01:10:47,640

and use them as currency but even though

1571

01:10:51,350 --> 01:10:49,860

they're money uh to buy goods and

1572

01:10:53,390 --> 01:10:51,360

services get them exchange because they

1573

01:10:55,850 --> 01:10:53,400

hold up a whole lot better

1574

01:10:59,030 --> 01:10:55,860

than paper dollars I mean they're they

1575

01:11:01,870 --> 01:10:59,040

don't they don't have you know viruses

1576

01:11:04,370 --> 01:11:01,880

bugs and anything I don't know gold is

1577

01:11:07,490 --> 01:11:04,380

anti-bacterial by the way you know you

1578

01:11:09,050 --> 01:11:07,500

really it's not filthy Luther it's not

1579

01:11:10,970 --> 01:11:09,060

nasty

1580

01:11:13,630 --> 01:11:10,980

things where people can Harbor disease

1581

01:11:16,370 --> 01:11:13,640

and now these are gold and silver

1582

01:11:19,130 --> 01:11:16,380

anti-bacterial and antiviral themselves

1583

01:11:21,350 --> 01:11:19,140

is a very nature of them okay

1584

01:11:23,750 --> 01:11:21,360

so you don't have to disinfect these and

1585

01:11:25,550 --> 01:11:23,760

they they no matter what they are shiny

1586

01:11:27,649 --> 01:11:25,560

and beautiful I mean you can put them in

1587

01:11:29,870 --> 01:11:27,659

salt water and they just come out

1588

01:11:31,370 --> 01:11:29,880

looking like I mean they don't corrode

1589

01:11:34,189 --> 01:11:31,380

they're beautiful

1590

01:11:35,990 --> 01:11:34,199

so people are saying wow

1591

01:11:37,610 --> 01:11:36,000

um in fact my employees shared Mother

1592

01:11:39,350 --> 01:11:37,620

Earth minerals

1593

01:11:41,330 --> 01:11:39,360

it says you know I'll give you guys a

1594

01:11:42,890 --> 01:11:41,340

choice I'll either you know keep you

1595

01:11:45,169 --> 01:11:42,900

know to do your time cards and I'll pay

1596

01:11:47,330 --> 01:11:45,179

you in in Gold bags

1597

01:11:49,130 --> 01:11:47,340

oh we'll just keep it the way it is and

1598

01:11:50,510 --> 01:11:49,140

even though my employees love to go

1599

01:11:53,450 --> 01:11:50,520

backs

1600

01:11:54,350 --> 01:11:53,460

they say well I want to be paid in this

1601  
01:11:56,689 --> 01:11:54,360  
because

1602  
01:11:59,630 --> 01:11:56,699  
I don't want to spend I won't spend

1603  
01:12:05,209 --> 01:12:02,390  
okay well that's a real compliment to

1604  
01:12:06,950 --> 01:12:05,219  
their their value because people you go

1605  
01:12:10,010 --> 01:12:06,960  
out and say would you would you give me

1606  
01:12:11,270 --> 01:12:10,020  
a five dollar hunk of cheese for one of

1607  
01:12:14,330 --> 01:12:11,280  
these dollars

1608  
01:12:17,149 --> 01:12:14,340  
one of these uh these

1609  
01:12:19,490 --> 01:12:17,159  
this artwork this goldback

1610  
01:12:21,950 --> 01:12:19,500  
well heck yeah that's that's beautiful

1611  
01:12:24,410 --> 01:12:21,960  
yeah I guess so

1612  
01:12:27,530 --> 01:12:24,420  
it's what people are willing to exchange

1613  
01:12:30,110 --> 01:12:27,540

for in in their goods and services which

1614

01:12:33,229 --> 01:12:30,120

is what money is all about it's why we

1615

01:12:37,970 --> 01:12:33,239

made money is how do you exchange

1616

01:12:40,250 --> 01:12:37,980

uh for a fish or a uh piece of bread a

1617

01:12:42,110 --> 01:12:40,260

loaf right

1618

01:12:43,490 --> 01:12:42,120

what are you willing to exchange for

1619

01:12:48,470 --> 01:12:43,500

that

1620

01:12:50,870 --> 01:12:48,480

yeah

1621

01:12:53,209 --> 01:12:50,880

I'll if I'm hungry I'll work if I have

1622

01:12:55,010 --> 01:12:53,219

to I don't want to starve

1623

01:12:57,110 --> 01:12:55,020

you see

1624

01:13:00,470 --> 01:12:57,120

so that's the whole basis of what gold

1625

01:13:02,030 --> 01:13:00,480

is it's a measurement of a person's

1626

01:13:04,550 --> 01:13:02,040

labor

1627

01:13:08,930 --> 01:13:04,560

you understand that

1628

01:13:11,689 --> 01:13:08,940

okay the biggest thief of all is the

1629

01:13:14,810 --> 01:13:11,699

individual that comes in and gives you

1630

01:13:17,930 --> 01:13:14,820

an inflationary piece of paper as a

1631

01:13:20,270 --> 01:13:17,940

promise to pay for your labor

1632

01:13:24,290 --> 01:13:20,280

man is putting people under under

1633

01:13:27,229 --> 01:13:24,300

slavery a bondage again a bond

1634

01:13:29,270 --> 01:13:27,239

kind of stock

1635

01:13:30,110 --> 01:13:29,280

oh we've got to change people's mindset

1636

01:13:32,390 --> 01:13:30,120

Brian

1637

01:13:33,770 --> 01:13:32,400

the way you think about things

1638

01:13:37,430 --> 01:13:33,780

and then

1639

01:13:40,250 --> 01:13:37,440

yeah uh at least here in my neighborhood

1640

01:13:43,550 --> 01:13:40,260

I'm working to get a little convenience

1641

01:13:45,649 --> 01:13:43,560

stores groceries grocery places that a

1642

01:13:47,330 --> 01:13:45,659

mom and pop especially they're easy oh

1643

01:13:49,370 --> 01:13:47,340

heck yeah I'll take these on and I'll

1644

01:13:50,990 --> 01:13:49,380

take them at the at the average exchange

1645

01:13:54,709 --> 01:13:51,000

rate the only thing they have to do is

1646

01:13:58,370 --> 01:13:54,719

is look up goldback.com okay that's the

1647

01:14:03,950 --> 01:14:00,649

and see what the average exchange rate

1648

01:14:07,070 --> 01:14:03,960

is whether it's a a Nevada issued one

1649

01:14:08,450 --> 01:14:07,080

the Nevada series there's a Wyoming

1650

01:14:12,110 --> 01:14:08,460

series there's a New Hampshire series

1651  
01:14:13,910 --> 01:14:12,120  
and a Utah Series right no matter what

1652  
01:14:16,669 --> 01:14:13,920  
it is it's the same price average

1653  
01:14:19,729 --> 01:14:16,679  
exchange rate across the board

1654  
01:14:22,910 --> 01:14:19,739  
so that the the gross or whoever the gas

1655  
01:14:25,010 --> 01:14:22,920  
station owner says okay well

1656  
01:14:26,810 --> 01:14:25,020  
I can I'll I'll take them for that

1657  
01:14:28,189 --> 01:14:26,820  
exchange rate it's just a matter of

1658  
01:14:31,330 --> 01:14:28,199  
calculating them out there's a really

1659  
01:14:34,070 --> 01:14:31,340  
handy calculator on goldback.com

1660  
01:14:35,510 --> 01:14:34,080  
exchange rate calculator if you put out

1661  
01:14:38,330 --> 01:14:35,520  
the amount let's say you have a hundred

1662  
01:14:39,410 --> 01:14:38,340  
dollars worth of gas or petrol

1663  
01:14:41,510 --> 01:14:39,420

okay

1664

01:14:44,270 --> 01:14:41,520

ding ding ding put it in place that's

1665

01:14:46,130 --> 01:14:44,280

how much buildbacks you have to to give

1666

01:14:47,270 --> 01:14:46,140

pretty simple

1667

01:14:50,810 --> 01:14:47,280

you know

1668

01:14:55,010 --> 01:14:50,820

not not not rocket science

1669

01:14:57,709 --> 01:14:55,020

so so I want people and and the in the

1670

01:14:59,810 --> 01:14:57,719

marketplace to start taking them

1671

01:15:01,930 --> 01:14:59,820

and exchanging him and it even says if

1672

01:15:05,390 --> 01:15:01,940

it's a neighborhood uh

1673

01:15:08,990 --> 01:15:05,400

start paying your your the kids that do

1674

01:15:11,270 --> 01:15:09,000

odd jobs for you uh I I made a deal with

1675

01:15:13,250 --> 01:15:11,280

my lawn uh maintenance people the

1676

01:15:15,649 --> 01:15:13,260

payment gold back

1677

01:15:17,750 --> 01:15:15,659

that's where it starts I want to get

1678

01:15:19,370 --> 01:15:17,760

these out and get people they can they

1679

01:15:21,050 --> 01:15:19,380

want to go down to the grocery store and

1680

01:15:23,090 --> 01:15:21,060

buy some they can use the Gold bags they

1681

01:15:26,450 --> 01:15:23,100

just gave them

1682

01:15:28,970 --> 01:15:26,460

now that's where things change

1683

01:15:31,310 --> 01:15:28,980

if enough people start exchanging these

1684

01:15:32,390 --> 01:15:31,320

and using them as currency that's the

1685

01:15:36,550 --> 01:15:32,400

big thing is you on the website

1686

01:15:39,530 --> 01:15:36,560

goback.com they are virtually

1687

01:15:40,729 --> 01:15:39,540

impossible to counterfeit

1688

01:15:42,709 --> 01:15:40,739

okay

1689

01:15:45,530 --> 01:15:42,719

they're each given individual serial

1690

01:15:47,630 --> 01:15:45,540

number and the the the structures of

1691

01:15:50,450 --> 01:15:47,640

them good luck trying to counterfeit

1692

01:15:53,209 --> 01:15:50,460

those you just really can't

1693

01:15:54,709 --> 01:15:53,219

it's impossible it's a patent-pending

1694

01:15:56,330 --> 01:15:54,719

process

1695

01:15:58,250 --> 01:15:56,340

that's a neat thing you can't

1696

01:16:01,430 --> 01:15:58,260

counterfeit these

1697

01:16:03,169 --> 01:16:01,440

and in closing you know man a lot of

1698

01:16:05,330 --> 01:16:03,179

gold and silver

1699

01:16:08,270 --> 01:16:05,340

coins have been counterfeited lately and

1700

01:16:14,450 --> 01:16:11,930

a good friend of mine put I told them

1701

01:16:17,149 --> 01:16:14,460

about about getting I wanted to buy some

1702

01:16:19,550 --> 01:16:17,159

some uh Silver Eagles from me

1703

01:16:22,310 --> 01:16:19,560

because I do broker with a with a

1704

01:16:25,189 --> 01:16:22,320

company called Monarch coin

1705

01:16:28,250 --> 01:16:25,199

and he says okay well they're expensive

1706

01:16:29,390 --> 01:16:28,260

they're 30 35 36 dollars a coin says

1707

01:16:31,669 --> 01:16:29,400

yeah because

1708

01:16:33,470 --> 01:16:31,679

they're American Eagles and people pay a

1709

01:16:35,870 --> 01:16:33,480

premium for that because it's of the U.S

1710

01:16:38,689 --> 01:16:35,880

treasury all right

1711

01:16:41,450 --> 01:16:38,699

well I can get a I can get a generic

1712

01:16:44,270 --> 01:16:41,460

round for about nine dollars less why

1713

01:16:48,229 --> 01:16:44,280

should I want to do that

1714

01:16:49,370 --> 01:16:48,239

so I said to him well because the U.S

1715

01:16:50,689 --> 01:16:49,380

treasury

1716

01:16:53,209 --> 01:16:50,699

they're more

1717

01:16:56,030 --> 01:16:53,219

available and more you know easily

1718

01:16:58,189 --> 01:16:56,040

there's a there's a a premium on no

1719

01:17:01,430 --> 01:16:58,199

matter where you go to them to buy them

1720

01:17:05,030 --> 01:17:01,440

you always get that that same value

1721

01:17:08,390 --> 01:17:05,040

higher well you said ah well I I think

1722

01:17:10,850 --> 01:17:08,400

I'll just look for generic rounds hmm

1723

01:17:14,330 --> 01:17:10,860

so you know what he did he he found a

1724

01:17:15,709 --> 01:17:14,340

place he got him off of eBay thirty

1725

01:17:17,450 --> 01:17:15,719

thousand dollars

1726

01:17:19,970 --> 01:17:17,460

and they certified that they were

1727

01:17:22,970 --> 01:17:19,980

American Eagles

1728

01:17:27,050 --> 01:17:22,980

and so he gets them and they were about

1729

01:17:28,189 --> 01:17:27,060

they got up about 22 around instead of

1730

01:17:30,350 --> 01:17:28,199

35.

1731

01:17:33,050 --> 01:17:30,360

and he was like

1732

01:17:34,910 --> 01:17:33,060

uh you're trying to rip me off because I

1733

01:17:37,430 --> 01:17:34,920

thought you were my friend I got these

1734

01:17:39,890 --> 01:17:37,440

on on a special clothes out on eBay for

1735

01:17:42,290 --> 01:17:39,900

22 bucks you're trying to make all this

1736

01:17:44,209 --> 01:17:42,300

money on me and he got he's I said I

1737

01:17:46,729 --> 01:17:44,219

thought you're my friend

1738

01:17:49,010 --> 01:17:46,739

I said I won't tell you his name I said

1739

01:17:56,030 --> 01:17:49,020

no

1740

01:17:58,550 --> 01:17:56,040

legitimate well he got him let me tell

1741

01:18:02,330 --> 01:17:58,560

you right they came

1742

01:18:06,169 --> 01:18:02,340

just what's called a monster box right

1743

01:18:09,229 --> 01:18:06,179

they had the green lid on the plastic uh

1744

01:18:11,390 --> 01:18:09,239

it looked boy it looked legitimate oh my

1745

01:18:13,250 --> 01:18:11,400

goodness I was wondering how in the

1746

01:18:14,570 --> 01:18:13,260

world this this guy must be really hard

1747

01:18:19,310 --> 01:18:14,580

up to sell

1748

01:18:24,530 --> 01:18:21,229

and I was thinking maybe I could go buy

1749

01:18:27,410 --> 01:18:24,540

a bunch because my goodness

1750

01:18:30,350 --> 01:18:27,420

but I said okay not all I said

1751

01:18:33,649 --> 01:18:30,360

something's wrong here my friend he says

1752

01:18:35,630 --> 01:18:33,659

yeah you're trying to rip people off I'm

1753

01:18:37,729 --> 01:18:35,640

telling everybody I can to go buy these

1754

01:18:41,149 --> 01:18:37,739

that want to buy silk

1755

01:18:43,310 --> 01:18:41,159

I said okay bring them to me unless look

1756

01:18:46,430 --> 01:18:43,320

let's analyze

1757

01:18:47,830 --> 01:18:46,440

I gotta tell you

1758

01:18:52,030 --> 01:18:47,840

I

1759

01:18:54,410 --> 01:18:52,040

looked looked so legitimate to me

1760

01:18:56,450 --> 01:18:54,420

they clinked like these you know they

1761

01:18:58,729 --> 01:18:56,460

have a special thing they're shiny they

1762

01:19:01,130 --> 01:18:58,739

look beautiful

1763

01:19:03,770 --> 01:19:01,140

man did they go do a good job on these

1764

01:19:11,270 --> 01:19:03,780

except for one thing they're magnetic

1765

01:19:11,280 --> 01:19:16,010

that's what he said he got hosed

1766

01:19:19,550 --> 01:19:18,410

so he went back on I want to return

1767

01:19:21,530 --> 01:19:19,560

these

1768

01:19:23,770 --> 01:19:21,540

why are they defective

1769

01:19:26,709 --> 01:19:23,780

well they're phoning baloney

1770

01:19:29,510 --> 01:19:26,719

no they wouldn't return them because

1771

01:19:31,149 --> 01:19:29,520

they said that he exchanged and then

1772

01:19:34,550 --> 01:19:31,159

ripped them off

1773

01:19:38,510 --> 01:19:34,560

exactly who way to go yep buyer beware

1774

01:19:42,310 --> 01:19:40,149

don't

1775

01:19:45,890 --> 01:19:42,320

listen they said

1776

01:19:50,030 --> 01:19:45,900

these come from our friends in China

1777

01:19:50,040 --> 01:19:54,350

I took him into my coin dealer

1778

01:19:58,370 --> 01:19:56,209

I took a sleeve you know they had the

1779

01:19:59,689 --> 01:19:58,380

U.S treasury seal and everything on them

1780

01:20:03,470 --> 01:19:59,699

right

1781

01:20:08,630 --> 01:20:03,480

I took the sleep in he looked him up

1782

01:20:12,050 --> 01:20:08,640

he says okay I'll give you 34 per coin

1783

01:20:14,930 --> 01:20:12,060

I said you will because yep

1784

01:20:18,229 --> 01:20:14,940

you got 20 in a sleeve

1785

01:20:21,050 --> 01:20:18,239

600 whatever you know

1786

01:20:23,510 --> 01:20:21,060

you want to cash a check I said

1787

01:20:25,070 --> 01:20:23,520

oh man he slapped he says what are you

1788

01:20:27,169 --> 01:20:25,080

laughing at

1789

01:20:28,850 --> 01:20:27,179

I said I don't blame you I would have I

1790

01:20:31,610 --> 01:20:28,860

mean it fooled me too

1791

01:20:33,229 --> 01:20:31,620

I had my neodymium magnet I said put a

1792

01:20:37,310 --> 01:20:33,239

magnet on those

1793

01:20:39,649 --> 01:20:37,320

think he goes what the hell it was it

1794

01:20:42,649 --> 01:20:39,659

would have fooled him without the magnet

1795

01:20:45,290 --> 01:20:42,659

unbelievable

1796

01:20:48,050 --> 01:20:45,300

and he says what's going on here I says

1797

01:20:51,649 --> 01:20:48,060

I want to help oh and you know what's

1798

01:20:51,659 --> 01:20:55,310

he went to his

1799

01:20:55,320 --> 01:20:58,430

coin case

1800

01:21:05,209 --> 01:21:00,530

he had just taken in a bunch of these

1801  
01:21:05,219 --> 01:21:11,870  
just got Shady he got hosed he got hoes

1802  
01:21:11,880 --> 01:21:16,729  
he never thought to put a magnet on him

1803  
01:21:16,739 --> 01:21:19,970  
what a concept

1804  
01:21:24,770 --> 01:21:20,990  
so

1805  
01:21:26,630 --> 01:21:24,780  
and you know what he there was there was

1806  
01:21:28,189 --> 01:21:26,640  
there was another fellow he has to put

1807  
01:21:30,050 --> 01:21:28,199  
him on some of this there was a couple

1808  
01:21:32,270 --> 01:21:30,060  
of of gold

1809  
01:21:35,630 --> 01:21:32,280  
Eagle you know the smaller Gold Eagles

1810  
01:21:37,090 --> 01:21:35,640  
that he just bought from the same guy

1811  
01:21:40,490 --> 01:21:37,100  
and they were like

1812  
01:21:42,950 --> 01:21:40,500  
1878 he paid him he said there were

1813  
01:21:47,510 --> 01:21:42,960

three of them he paid him a

1814

01:21:53,030 --> 01:21:50,530

and those were magnetic too

1815

01:21:57,229 --> 01:21:53,040

whoa they are getting Good China is

1816

01:22:01,430 --> 01:21:57,239

getting good at falsifying really good

1817

01:22:03,590 --> 01:22:01,440

man was he he was he was happy and

1818

01:22:06,169 --> 01:22:03,600

thankful for me up on one end but

1819

01:22:07,850 --> 01:22:06,179

thick on the other he said I can't very

1820

01:22:09,470 --> 01:22:07,860

well go back and

1821

01:22:11,149 --> 01:22:09,480

you know

1822

01:22:14,149 --> 01:22:11,159

because I think the guy was probably

1823

01:22:17,990 --> 01:22:14,159

duped him as well he was but he didn't I

1824

01:22:19,250 --> 01:22:18,000

just I know this guy he's not a shyster

1825

01:22:21,530 --> 01:22:19,260

he's a

1826

01:22:24,290 --> 01:22:21,540

he probably took him in for somebody

1827

01:22:27,950 --> 01:22:24,300

else and pay somebody else

1828

01:22:32,090 --> 01:22:29,810

yeah and that's the difference you're

1829

01:22:35,870 --> 01:22:32,100

somebody I know and trust and and and

1830

01:22:42,649 --> 01:22:35,880

and these these people on eBay Etc a lot

1831

01:22:46,010 --> 01:22:43,970

you know the the

1832

01:22:48,590 --> 01:22:46,020

History Channel boys down there at Vegas

1833

01:22:50,450 --> 01:22:48,600

I would be surprised that they maybe

1834

01:22:51,770 --> 01:22:50,460

they could catch it because they

1835

01:22:53,330 --> 01:22:51,780

probably have magnets on these because

1836

01:22:56,510 --> 01:22:53,340

they're they're pretty up on things but

1837

01:23:01,610 --> 01:22:56,520

man oh man I don't think most people

1838

01:23:05,630 --> 01:23:04,010

it's I thought well they just I just

1839

01:23:06,709 --> 01:23:05,640

thought about putting a magnet on it

1840

01:23:08,810 --> 01:23:06,719

could clink

1841

01:23:12,669 --> 01:23:08,820

it stuck to him even through the the

1842

01:23:18,169 --> 01:23:15,649

what amazing

1843

01:23:20,270 --> 01:23:18,179

it's scary it's scary what people are

1844

01:23:22,430 --> 01:23:20,280

getting away with and I I just can't

1845

01:23:24,770 --> 01:23:22,440

thank you enough as we wrap up here uh

1846

01:23:27,350 --> 01:23:24,780

for coming on sharing your knowledge and

1847

01:23:29,570 --> 01:23:27,360

experience I will definitely send any

1848

01:23:31,070 --> 01:23:29,580

listeners your way

1849

01:23:33,590 --> 01:23:31,080

um that are interested in buying

1850

01:23:36,229 --> 01:23:33,600

something that is more conducive to

1851

01:23:39,709 --> 01:23:36,239

weathering the storm and

1852

01:23:41,450 --> 01:23:39,719

um yeah uh definitely look forward to

1853

01:23:43,070 --> 01:23:41,460

hopefully talking to you again is there

1854

01:23:44,270 --> 01:23:43,080

any closing comments we should we should

1855

01:23:46,490 --> 01:23:44,280

end with

1856

01:23:49,189 --> 01:23:46,500

now just to just get these you'll love

1857

01:23:51,410 --> 01:23:49,199

them uh if you if you're not really

1858

01:23:54,709 --> 01:23:51,420

looking to spend them if you want to

1859

01:23:57,649 --> 01:23:54,719

hold them I would say go 50 the 50s

1860

01:24:01,010 --> 01:23:57,659

which is 50 you can feel the weight of

1861

01:24:04,310 --> 01:24:01,020

the 50 50 units okay

1862

01:24:07,490 --> 01:24:04,320

it's literally the same exact weight as

1863

01:24:09,290 --> 01:24:07,500

a you know 51s in fact I have a friend

1864

01:24:11,090 --> 01:24:09,300

who's an engineer

1865

01:24:12,530 --> 01:24:11,100

um who I showed all this to and he

1866

01:24:15,530 --> 01:24:12,540

thought well

1867

01:24:17,149 --> 01:24:15,540

I have about uh I had about ten thousand

1868

01:24:17,930 --> 01:24:17,159

dollars worth and I've shown to him he

1869

01:24:21,050 --> 01:24:17,940

says

1870

01:24:22,729 --> 01:24:21,060

I'm gonna let's let's analyze these and

1871

01:24:25,070 --> 01:24:22,739

so I should have made I'll probably make

1872

01:24:28,130 --> 01:24:25,080

this into a video right because he he

1873

01:24:31,430 --> 01:24:28,140

has as an engineer he has a very precise

1874

01:24:33,649 --> 01:24:31,440

to the half gram scale

1875

01:24:37,250 --> 01:24:33,659

he measures things with his when he does

1876

01:24:39,590 --> 01:24:37,260

he worked for uh file call okay

1877

01:24:40,669 --> 01:24:39,600

and so he has a very precise measuring

1878

01:24:42,770 --> 01:24:40,679

scale

1879

01:24:45,290 --> 01:24:42,780

electronic

1880

01:24:48,229 --> 01:24:45,300

he put one goal back and measured the

1881

01:24:49,910 --> 01:24:48,239

gram weight which is indeed one

1882

01:24:51,590 --> 01:24:49,920

thousandth of an ounce of the to the

1883

01:24:54,169 --> 01:24:51,600

gram

1884

01:24:56,750 --> 01:24:54,179

exactly what it says

1885

01:24:58,669 --> 01:24:56,760

on on the from the face

1886

01:25:02,149 --> 01:24:58,679

and then he measured

1887

01:25:03,590 --> 01:25:02,159

a hundred other ones and they were all

1888

01:25:06,530 --> 01:25:03,600

identical

1889

01:25:09,229 --> 01:25:06,540

no up or down

1890

01:25:12,050 --> 01:25:09,239

then he measured the fives and the tens

1891

01:25:16,430 --> 01:25:12,060

and the 25s and the 50s and they were

1892

01:25:19,550 --> 01:25:16,440

all identical he was mightily impressed

1893

01:25:22,610 --> 01:25:19,560

he says I would like to help you you

1894

01:25:25,070 --> 01:25:22,620

move these I these are great

1895

01:25:26,990 --> 01:25:25,080

but he was he did he didn't believe that

1896

01:25:29,870 --> 01:25:27,000

this could all be uniform

1897

01:25:32,870 --> 01:25:29,880

but he found out they were and so he's

1898

01:25:35,510 --> 01:25:32,880

yeah he's all on board and I appreciated

1899

01:25:38,330 --> 01:25:35,520

that I didn't think to even you know

1900

01:25:40,910 --> 01:25:38,340

measure the exact weight of each one of

1901

01:25:43,790 --> 01:25:40,920

these but it's it was exact

1902

01:25:45,950 --> 01:25:43,800

and that's the the neat thing about how

1903

01:25:48,410 --> 01:25:45,960

these are manufactured the computer

1904

01:25:51,470 --> 01:25:48,420

generates them it's a patent-pending

1905

01:25:54,649 --> 01:25:51,480

machine process and it is absolutely

1906

01:25:56,450 --> 01:25:54,659

awesome so yeah uh get people if people

1907

01:25:58,370 --> 01:25:56,460

are interested in ordering these don't

1908

01:26:01,370 --> 01:25:58,380

wait if you want to test the water

1909

01:26:03,470 --> 01:26:01,380

before you jump in fine get some we'll

1910

01:26:05,450 --> 01:26:03,480

ship them to your door

1911

01:26:08,090 --> 01:26:05,460

well actually you know box them and

1912

01:26:09,590 --> 01:26:08,100

insure them through probably UPS the

1913

01:26:12,169 --> 01:26:09,600

brown guys

1914

01:26:13,189 --> 01:26:12,179

but they will come out to your door and

1915

01:26:25,790 --> 01:26:13,199

the

1916

01:26:28,250 --> 01:26:25,800

on a credit card it has to be you know

1917

01:26:29,870 --> 01:26:28,260

they only takes Federal Reserve notes in

1918

01:26:31,669 --> 01:26:29,880

exchange and every time I do that I feel

1919

01:26:33,410 --> 01:26:31,679

like I'm ripping them off

1920

01:26:35,689 --> 01:26:33,420

so you're actually taking this filthy

1921

01:26:37,550 --> 01:26:35,699

money and give me these Chinese well

1922

01:26:39,770 --> 01:26:37,560

that's the only way we'll take them

1923

01:26:43,729 --> 01:26:39,780

so we have to work something out with

1924

01:26:44,629 --> 01:26:43,739

that people want them uh I would say

1925

01:26:46,370 --> 01:26:44,639

um

1926

01:26:47,810 --> 01:26:46,380

have to work something out where people

1927

01:26:48,830 --> 01:26:47,820

have this might be a little bit of a

1928

01:26:51,470 --> 01:26:48,840

trust

1929

01:26:54,350 --> 01:26:51,480

uh because we have to have the wire and

1930

01:26:57,229 --> 01:26:54,360

then we do have to certify it and then

1931

01:26:59,990 --> 01:26:57,239

as it clears into into the into the

1932

01:27:02,750 --> 01:27:00,000

currency we'll change it for the money

1933

01:27:04,729 --> 01:27:02,760

so there's not I've done a few people uh

1934

01:27:06,350 --> 01:27:04,739

that are substantial over a hundred

1935

01:27:07,729 --> 01:27:06,360

thousand dollars and

1936

01:27:09,950 --> 01:27:07,739

they didn't want to do it all at once

1937

01:27:12,430 --> 01:27:09,960

they did you know in ten thousand dollar

1938

01:27:15,470 --> 01:27:12,440

increments and they tried one you know

1939

01:27:16,610 --> 01:27:15,480

they trusted me and it it's just a you

1940

01:27:18,169 --> 01:27:16,620

know I don't know how else to do it

1941

01:27:19,970 --> 01:27:18,179

other than just

1942

01:27:21,830 --> 01:27:19,980

take an armored car to your door and

1943

01:27:23,810 --> 01:27:21,840

change it that way okay you see what I'm

1944

01:27:27,350 --> 01:27:23,820

saying

1945

01:27:30,410 --> 01:27:27,360

um we can make it happen absolutely

1946

01:27:32,390 --> 01:27:30,420

but it I mean once you have these like I

1947

01:27:36,169 --> 01:27:32,400

got people all the time now saying I

1948

01:27:38,149 --> 01:27:36,179

feel so I feel secure I feel safe with

1949

01:27:40,790 --> 01:27:38,159

these you know in my possession now

1950

01:27:43,610 --> 01:27:40,800

where I didn't feel that way uh two or

1951

01:27:46,610 --> 01:27:43,620

three months ago okay that sounds great

1952

01:27:48,350 --> 01:27:46,620

thank you Dr true and um I hope to talk

1953

01:27:50,030 --> 01:27:48,360

to you in person uh one of these days

1954

01:27:51,770 --> 01:27:50,040

soon we'll talk more about that later

1955

01:27:54,470 --> 01:27:51,780

but thanks so much for coming on the

1956

01:27:58,250 --> 01:27:54,480

podcast you bet my pleasure you're

1957

01:27:59,270 --> 01:27:58,260

always on top of this great stuff

1958

01:27:59,930 --> 01:27:59,280

um yeah

1959

01:28:03,050 --> 01:27:59,940

um

1960

01:28:05,689 --> 01:28:03,060

let's just do it they people in

1961

01:28:07,250 --> 01:28:05,699

is something that I guarantee you you'll

1962

01:28:09,250 --> 01:28:07,260

be happy with once you get them in your

1963

01:28:13,970 --> 01:28:09,260

possession okay

1964

01:28:17,930 --> 01:28:13,980

okay there we have it Dr true Ott from

1965
