Propulsion

Alternative theories to power UFOs

1
00:00:07,610 --> 00:00:05,090
what does it take to power a UFO maybe

2
00:00:10,850 --> 00:00:07,620
everything we've been told about UFO

3
00:00:14,330 --> 00:00:10,860
propulsion is slightly off point

4
00:00:17,090 --> 00:00:14,340
what if what it takes to power a UFO is

5
00:00:19,430 --> 00:00:17,100
an open mind to some of these other

6
00:00:21,710 --> 00:00:19,440
orders of propulsion

7
00:00:24,410 --> 00:00:21,720
we know there are a lot of theories

8
00:00:28,070 --> 00:00:24,420
about wormholes

9
00:00:32,450 --> 00:00:28,080
there are a variety of theories

10
00:00:35,510 --> 00:00:32,460
about the space-time continuum

11
00:00:38,270 --> 00:00:35,520
light speed being one of the major

12
00:00:42,049 --> 00:00:38,280
theories and that's kind of the speed

13
00:00:49,790 --> 00:00:45,889

a lot of talk about anti-gravity

14

00:00:53,450 --> 00:00:49,800

and in order to create anti-gravity

15

00:00:57,770 --> 00:00:53,460

you need negative Mass

16

00:01:01,430 --> 00:00:57,780

which brings in liquid light

17

00:01:04,490 --> 00:01:01,440

and the polareton condensate

18

00:01:07,429 --> 00:01:04,500

if you're ready for a bumpy ride through

19

00:01:10,370 --> 00:01:07,439

the space-time Continuum opening your

20

00:01:13,990 --> 00:01:10,380

mind to explosive new ideas about

21

00:01:16,910 --> 00:01:14,000

propulsion and what might or could power

22

00:01:27,490 --> 00:01:16,920

unidentified flying objects

23

00:01:46,990 --> 00:01:36,789

in the era of breakthrough flight laser

68

00:04:07,850 --> 00:04:03,239

light craft Nano satellites the list

69

00:04:10,369 --> 00:04:07,860

goes on and on we need to keep up on

70

00:04:15,410 --> 00:04:10,379

these terms because these are the terms

71

00:04:18,949 --> 00:04:15,420

that are going to pave our future so in

72

00:04:21,830 --> 00:04:18,959

order to create anti-gravity

73

00:04:27,170 --> 00:04:21,840

you need negative Mass

74

00:04:31,969 --> 00:04:27,180

and this has been proven and shown to be

75

00:04:37,070 --> 00:04:33,610

utilizing

76

00:04:41,629 --> 00:04:37,080

polaretron condensate

77

00:04:46,430 --> 00:04:41,639

so this is basically liquid light

78

00:04:49,850 --> 00:04:46,440

and negative mass is a key component if

79

00:04:53,570 --> 00:04:49,860

you follow UAP and UFO studies negative

80

00:04:56,210 --> 00:04:53,580

mass is necessary in order to create

81

00:04:59,030 --> 00:04:56,220

anti-gravity

82

00:05:02,330 --> 00:04:59,040

there is a law of conservation of

83

00:05:06,070 --> 00:05:02,340

momentum that requires that active and

84

00:05:09,650 --> 00:05:06,080

passive gravitational Mass be identical

85

00:05:13,730 --> 00:05:09,660

Einstein's equivalence principle says

86

00:05:17,030 --> 00:05:13,740

that inertial mass must be equal

87

00:05:19,370 --> 00:05:17,040

passive gravitational mass and all

88

00:05:23,150 --> 00:05:19,380

experimental evidence to date has found

89

00:05:24,650 --> 00:05:23,160

that it's always got to be that way it's

90

00:05:26,749 --> 00:05:24,660

always the same

91

00:05:29,570 --> 00:05:26,759

don't get me going on whether or not

92

00:05:32,710 --> 00:05:29,580

Einstein was a fraud because his

93

00:05:36,590 --> 00:05:32,720

equations with cosmological constants

94

00:05:38,629 --> 00:05:36,600

seem on point but there is a lot that's

95

00:05:41,810 --> 00:05:38,639

a whole other podcast going into whether

96

00:05:44,689 --> 00:05:41,820

or not Einstein and his corresponding

97

00:05:45,770 --> 00:05:44,699

achievements are worthy of the praise he

98

00:05:49,129 --> 00:05:45,780

received

99

00:05:52,550 --> 00:05:49,139

but for the moment let's get on with

100

00:05:55,790 --> 00:05:52,560

this and although no particles are known

101
00:06:00,110 --> 00:05:55,800
to have negative Mass physicists

102
00:06:03,950 --> 00:06:00,120
primarily Hermann bond in 1957

103
00:06:07,490 --> 00:06:03,960
and William B Bonner in 1964 and 1989

104
00:06:09,590 --> 00:06:07,500
and then Robert L forward have been able

105
00:06:12,850 --> 00:06:09,600
to describe some of the anticipated

106
00:06:16,570 --> 00:06:12,860
properties such particles may have

107
00:06:19,249 --> 00:06:16,580
assuming that all three concepts of mass

108
00:06:22,150 --> 00:06:19,259
are equivalent according to the

109
00:06:25,670 --> 00:06:22,160
equivalence principle the gravitational

110
00:06:28,550 --> 00:06:25,680
interactions between masses of arbitrary

111
00:06:30,770 --> 00:06:28,560
sign can be explored based on the

112
00:06:32,930 --> 00:06:30,780
Newtonian approximation of the Einstein

113
00:06:35,749 --> 00:06:32,940

field equations in other words

114

00:06:38,749 --> 00:06:35,759

the interaction laws are this positive

115

00:06:41,749 --> 00:06:38,759

Mass attracts both other positive masses

116

00:06:45,050 --> 00:06:41,759

and negative masses negative Mass repels

117

00:06:46,550 --> 00:06:45,060

both other negative masses and positive

118

00:06:47,870 --> 00:06:46,560

masses

119

00:06:50,390 --> 00:06:47,880

so

120

00:06:52,370 --> 00:06:50,400

it's pointed out that these two objects

121

00:06:54,710 --> 00:06:52,380

of equal and opposite Mass would produce

122

00:06:57,350 --> 00:06:54,720

a constant acceleration on the system

123

00:07:00,650 --> 00:06:57,360

towards the positive Mass object

124

00:07:03,050 --> 00:07:00,660

an effect called Runaway motion

125

00:07:05,210 --> 00:07:03,060

this is where things get hairy no pun

126
00:07:08,390 --> 00:07:05,220
intended but physicists

127
00:07:09,590 --> 00:07:08,400
have been experimenting with this for

128
00:07:12,590 --> 00:07:09,600
some time

129
00:07:16,129 --> 00:07:12,600
and basically the consensus is that

130
00:07:18,830 --> 00:07:16,139
antonym anti-matter has positive mass

131
00:07:21,529 --> 00:07:18,840
and should be affected by gravity just

132
00:07:24,830 --> 00:07:21,539
like normal matter

133
00:07:27,290 --> 00:07:24,840
so experiments provide further evidence

134
00:07:28,909 --> 00:07:27,300
that anti-particles have the same

135
00:07:30,469 --> 00:07:28,919
inertial mass as their normal

136
00:07:31,850 --> 00:07:30,479
counterparts

137
00:07:35,510 --> 00:07:31,860
however

138
00:07:38,510 --> 00:07:35,520

particle slash anti-particle pairs are

139

00:07:39,770 --> 00:07:38,520

observed to electrically attract one

140

00:07:42,170 --> 00:07:39,780

another

141

00:07:45,950 --> 00:07:42,180

this implies that both have positive

142

00:07:47,870 --> 00:07:45,960

inertial mass and opposite charges

143

00:07:51,950 --> 00:07:47,880

now we hear a lot of people talking

144

00:07:55,249 --> 00:07:51,960

about metamaterials falling from UFOs

145

00:07:57,050 --> 00:07:55,259

meta materials exploit the effect of the

146

00:07:58,790 --> 00:07:57,060

negative mass in the vicinity of the

147

00:08:01,070 --> 00:07:58,800

plasma frequency

148

00:08:03,409 --> 00:08:01,080

in UFOs or

149

00:08:05,629 --> 00:08:03,419

what of course is more modernly called

150

00:08:07,510 --> 00:08:05,639

uaps

151

00:08:11,210 --> 00:08:07,520

when it comes to the example of

152

00:08:14,809 --> 00:08:11,220

polaratron condensate physicists have

153

00:08:17,210 --> 00:08:14,819

created a fluid with negative Mass

154

00:08:18,770 --> 00:08:17,220

which accelerates towards you when

155

00:08:23,749 --> 00:08:18,780

pushed

156

00:08:25,490 --> 00:08:23,759

accelerates in the same direction as the

157

00:08:28,850 --> 00:08:25,500

force applied to it

158

00:08:31,969 --> 00:08:28,860

this relationship is described as the

159

00:08:37,070 --> 00:08:35,089

but in theory matter can have negative

160

00:08:39,050 --> 00:08:37,080

mass in the same sense that an

161

00:08:40,430 --> 00:08:39,060

electrical charge can be positive or

162

00:08:44,449 --> 00:08:40,440

negative

163

00:08:47,810 --> 00:08:44,459

so in this state particles move slowly

164

00:08:50,329 --> 00:08:47,820

and follow Behavior by quantum mechanics

165

00:08:53,210 --> 00:08:50,339

acting like waves

166

00:08:55,670 --> 00:08:53,220

and now we enter negative effective mass

167

00:08:58,009 --> 00:08:55,680

in plasmonic systems

168

00:09:00,410 --> 00:08:58,019

it's very interesting because these

169

00:09:03,970 --> 00:09:00,420

waves or acoustical branches of

170

00:09:06,470 --> 00:09:03,980

vibrations bring the possibility of

171

00:09:10,130 --> 00:09:06,480

anti-resonance propagation

172

00:09:13,970 --> 00:09:10,140

I love the explanation when Bob Lazar

173

00:09:16,550 --> 00:09:13,980

was asked how these things work

174

00:09:19,130 --> 00:09:16,560

now let's not go down the Robert Lazar

175

00:09:22,070 --> 00:09:19,140

rabbit hole because that's another

176

00:09:23,630 --> 00:09:22,080

entirely different subject

177

00:09:26,090 --> 00:09:23,640

however

178

00:09:29,870 --> 00:09:26,100

um I I did like how he explained it

179

00:09:31,670 --> 00:09:29,880

would be much like I believe a ball on a

180

00:09:33,590 --> 00:09:31,680

mattress if you go on your mattress and

181

00:09:35,530 --> 00:09:33,600

you put a bowling ball on one side of

182

00:09:38,810 --> 00:09:35,540

the bed and you sit on the other

183

00:09:40,970 --> 00:09:38,820

your act of sitting draws the bowling

184

00:09:43,550 --> 00:09:40,980

ball towards you with practically no

185

00:09:45,949 --> 00:09:43,560

exertion on your part to push it towards

186

00:09:48,730 --> 00:09:45,959

you it's actually drawn towards you

187

00:09:51,650 --> 00:09:48,740

so this is key negative Mass

188

00:09:55,610 --> 00:09:51,660

anti-gravity anti-matter gravitational

189

00:09:58,910 --> 00:09:55,620

repulsion and space Drive seem to be at

190

00:10:01,509 --> 00:09:58,920

least super interconnected in theory so

191

00:10:04,130 --> 00:10:01,519

the question is when and whether

192

00:10:05,930 --> 00:10:04,140

anti-matter will appear or more

193

00:10:08,870 --> 00:10:05,940

generally negative Mass

194

00:10:12,050 --> 00:10:08,880

is it already being used it's difficult

195

00:10:15,470 --> 00:10:12,060

to know and according to some it is

196

00:10:17,930 --> 00:10:15,480

there's a curious belief that these

197

00:10:22,490 --> 00:10:17,940

things are going on coming back to Bob

198

00:10:25,370 --> 00:10:22,500

Lazar and that gravitational mass is

199

00:10:26,389 --> 00:10:25,380

perfected that we have figured out how

200

00:10:29,810 --> 00:10:26,399

to

201
00:10:32,930 --> 00:10:29,820
make this work in the anti-gravity field

202
00:10:36,470 --> 00:10:32,940
and therefore utilize it with

203
00:10:38,690 --> 00:10:36,480
anti-gravity so per Bob Lazar's

204
00:10:41,150 --> 00:10:38,700
explanation if you push an ordinary ball

205
00:10:43,850 --> 00:10:41,160
a bowling ball on a mattress it moves

206
00:10:45,829 --> 00:10:43,860
away from your hand no surprise but if

207
00:10:47,509 --> 00:10:45,839
you push the ball with negative Mass it

208
00:10:49,970 --> 00:10:47,519
would actually accelerate backwards

209
00:10:52,009 --> 00:10:49,980
moving towards you instead much like

210
00:10:54,470 --> 00:10:52,019
sitting on the mattress and it might be

211
00:10:57,170 --> 00:10:54,480
hard to picture how this would work but

212
00:10:58,150 --> 00:10:57,180
I think his explanation is among the

213
00:11:02,690 --> 00:10:58,160

best

214

00:11:05,810 --> 00:11:02,700

I'm not a huge fan of delving into

215

00:11:09,410 --> 00:11:05,820

people's past and picking them apart

216

00:11:11,329 --> 00:11:09,420

but Bob has a way of actually quoting a

217

00:11:13,730 --> 00:11:11,339

lot of these things in layman's terms

218

00:11:15,829 --> 00:11:13,740

he's been ripped apart by people who

219

00:11:17,150 --> 00:11:15,839

claim he's not a real physicist and I'm

220

00:11:20,449 --> 00:11:17,160

actually kind of thankful for that

221

00:11:23,870 --> 00:11:20,459

because he explains things in order and

222

00:11:27,410 --> 00:11:23,880

in a way that most can understand at

223

00:11:31,069 --> 00:11:27,420

least in some way shape or form now when

224

00:11:33,530 --> 00:11:31,079

it comes to this polarotron condensate

225

00:11:36,050 --> 00:11:33,540

we're talking about very interesting

226

00:11:38,210 --> 00:11:36,060

strange substance that can allow

227

00:11:41,090 --> 00:11:38,220

scientists to study some of the most

228

00:11:44,449 --> 00:11:41,100

mysterious forces in the universe

229

00:11:46,069 --> 00:11:44,459

now I have a ton of questions when it

230

00:11:49,009 --> 00:11:46,079

comes to this because we all want to

231

00:11:51,650 --> 00:11:49,019

know a lot of things and among my top

232

00:11:54,410 --> 00:11:51,660

questions are black holes and dark

233

00:11:56,750 --> 00:11:54,420

energy I've always been fascinated by

234

00:11:59,170 --> 00:11:56,760

this I believe there is an abundance of

235

00:12:00,730 --> 00:11:59,180

dark energy in and around

236

00:12:03,590 --> 00:12:00,740

SWR

237

00:12:06,470 --> 00:12:03,600

space Wolf research base camp in the

238

00:12:10,610 --> 00:12:06,480

Uintah Basin of Utah I believe there is

239

00:12:11,990 --> 00:12:10,620

an array of energies and among them dark

240

00:12:14,990 --> 00:12:12,000

energy

241

00:12:18,170 --> 00:12:15,000

and if they can actually make this all

242

00:12:21,530 --> 00:12:18,180

work there's no reason that when we move

243

00:12:23,449 --> 00:12:21,540

beyond the Micron scale we can see all

244

00:12:25,550 --> 00:12:23,459

kinds of new technologies come out of

245

00:12:29,870 --> 00:12:25,560

this obviously we have the propulsion

246

00:12:33,110 --> 00:12:29,880

aspect we have other militarized aspects

247

00:12:35,269 --> 00:12:33,120

that could be used uh force fields or

248

00:12:37,310 --> 00:12:35,279

forced Shields

249

00:12:40,750 --> 00:12:37,320

there's a lot of experiments that can be

250

00:12:43,430 --> 00:12:40,760

done right here on Earth in priority

251
00:12:46,610 --> 00:12:43,440
locations which in my opinion would be

252
00:12:49,670 --> 00:12:46,620
places in the Uinta Basin of Utah and

253
00:12:54,590 --> 00:12:49,680
other locations in the the world which

254
00:12:58,910 --> 00:12:54,600
have intend to be hot spots for well

255
00:13:01,910 --> 00:12:58,920
abnormal activity in fact oftentimes the

256
00:13:04,190 --> 00:13:01,920
UFOs and uaps people claim to have seen

257
00:13:06,550 --> 00:13:04,200
in the stories behind them

258
00:13:08,590 --> 00:13:06,560
sound similar

259
00:13:13,129 --> 00:13:08,600
eerily similar

260
00:13:14,690 --> 00:13:13,139
a ball of light or plasma looking

261
00:13:18,949 --> 00:13:14,700
shaped

262
00:13:21,889 --> 00:13:18,959
lit object manifests

263
00:13:24,410 --> 00:13:21,899

becomes more intense and brighter over a

264

00:13:26,990 --> 00:13:24,420

short period of time

265

00:13:29,509 --> 00:13:27,000

and then either disappears at a high

266

00:13:32,030 --> 00:13:29,519

rate of speed or D manifests and

267

00:13:34,190 --> 00:13:32,040

disappears altogether

268

00:13:35,449 --> 00:13:34,200

now interestingly

269

00:13:43,370 --> 00:13:35,459

light

270

00:13:48,290 --> 00:13:43,380

and in fact give the impression that it

271

00:13:50,449 --> 00:13:48,300

disappears because it's gone it is gone

272

00:13:54,050 --> 00:13:50,459

so

273

00:13:56,629 --> 00:13:54,060

the Enigma of the polareton condensate

274

00:13:58,910 --> 00:13:56,639

is a interesting one

275

00:14:01,250 --> 00:13:58,920

and one that has a lot of tangible

276

00:14:04,550 --> 00:14:01,260

Assets in my opinion

277

00:14:07,069 --> 00:14:04,560

so the National Security Administration

278

00:14:10,250 --> 00:14:07,079

the U.S government

279

00:14:12,949 --> 00:14:10,260

and others say UFOs are real

280

00:14:16,490 --> 00:14:12,959

and I have to agree with them

281

00:14:18,790 --> 00:14:16,500

however many things are often mistaken

282

00:14:23,629 --> 00:14:18,800

for UFOs

283

00:14:24,650 --> 00:14:23,639

and among those things are well ball

284

00:14:27,350 --> 00:14:24,660

lightning

285

00:14:30,230 --> 00:14:27,360

when the electric field above a storm

286

00:14:33,889 --> 00:14:30,240

produces dancing flashes of bright light

287

00:14:36,710 --> 00:14:33,899

or they are at a lower altitude

288

00:14:39,590 --> 00:14:36,720

this can be misidentified

289

00:14:43,009 --> 00:14:39,600

also there are other

290

00:14:45,069 --> 00:14:43,019

light anomalies which can be

291

00:14:48,949 --> 00:14:45,079

misidentified

292

00:14:50,930 --> 00:14:48,959

light reflecting off of strange cloud

293

00:14:54,110 --> 00:14:50,940

formations

294

00:14:55,189 --> 00:14:54,120

we also have the recent example of the

295

00:15:02,870 --> 00:14:55,199

balloons

296

00:15:07,069 --> 00:15:02,880

misidentified for UFOs and we have an

297

00:15:09,350 --> 00:15:07,079

array of military experiments now got

298

00:15:10,730 --> 00:15:09,360

not getting too far off of the topic of

299

00:15:12,949 --> 00:15:10,740

balloons I thought it was very

300

00:15:14,889 --> 00:15:12,959

interesting that many of these

301
00:15:16,490 --> 00:15:14,899
quote-unquote

302
00:15:18,470 --> 00:15:16,500
UFOs

303
00:15:22,430 --> 00:15:18,480
right around the time these balloons

304
00:15:25,189 --> 00:15:22,440
were being shot down were well described

305
00:15:27,350 --> 00:15:25,199
as being crystalline in nature now

306
00:15:30,829 --> 00:15:27,360
that's very odd because if you go back

307
00:15:34,069 --> 00:15:30,839
to the story about Roswell

308
00:15:37,730 --> 00:15:34,079
and Jesse Marcel having some of this

309
00:15:40,850 --> 00:15:37,740
meta material or Memory Metal whatever

310
00:15:43,009 --> 00:15:40,860
it was I doubt that it was a piece of

311
00:15:46,370 --> 00:15:43,019
tinfoil

312
00:15:49,910 --> 00:15:46,380
um but this memory metal even Jessie

313
00:15:53,870 --> 00:15:49,920

Marcel's son who got to see it said that

314

00:15:57,230 --> 00:15:53,880

it had crystalline appearance this kind

315

00:16:01,189 --> 00:15:57,240

of uh jogged my memory and you know it's

316

00:16:04,269 --> 00:16:01,199

it's odd that we're in the same topic of

317

00:16:07,550 --> 00:16:04,279

unidentified flying objects or

318

00:16:08,810 --> 00:16:07,560

unidentified aerial phenomena and the

319

00:16:12,170 --> 00:16:08,820

crystalline

320

00:16:17,269 --> 00:16:12,180

description comes up multiple times

321

00:16:21,590 --> 00:16:17,279

is there metal that acts as if it is a

322

00:16:24,650 --> 00:16:21,600

thermosetting phenol formaldehyde resin

323

00:16:27,470 --> 00:16:24,660

it does seem as if there seemed to be

324

00:16:31,069 --> 00:16:27,480

some kind of meta materials

325

00:16:32,269 --> 00:16:31,079

which have properties that allow them to

326

00:16:37,009 --> 00:16:32,279

react

327

00:16:39,829 --> 00:16:37,019

as if they are of synthetic components

328

00:16:41,389 --> 00:16:39,839

almost rubbery

329

00:16:44,210 --> 00:16:41,399

and

330

00:16:47,990 --> 00:16:44,220

the the amazing part is that they are

331

00:16:50,449 --> 00:16:48,000

hard infusible and chemically resistant

332

00:16:53,629 --> 00:16:50,459

but they are not plastic apparently

333

00:16:55,790 --> 00:16:53,639

these are in fact Metals which bring up

334

00:16:59,150 --> 00:16:55,800

another interesting interesting

335

00:17:01,610 --> 00:16:59,160

phenomenon and that is the fact that

336

00:17:04,030 --> 00:17:01,620

scientists who have been employed by

337

00:17:07,850 --> 00:17:04,040

private corporations

338

00:17:10,069 --> 00:17:07,860

or institutions for that matter

339

00:17:14,090 --> 00:17:10,079

which

340

00:17:17,270 --> 00:17:14,100

have strong connections to military

341

00:17:22,669 --> 00:17:17,280

projects and the

342

00:17:28,490 --> 00:17:24,370

have

343

00:17:32,830 --> 00:17:28,500

encountered materials that they honestly

344

00:17:36,070 --> 00:17:32,840

believed was alien they were tasked to

345

00:17:39,169 --> 00:17:36,080

dissolve these Metals in certain cases

346

00:17:42,409 --> 00:17:39,179

measure the gases that came off of the

347

00:17:44,510 --> 00:17:42,419

metals and try to distinguish what

348

00:17:45,890 --> 00:17:44,520

exactly the metal was

349

00:17:48,590 --> 00:17:45,900

and

350

00:17:51,169 --> 00:17:48,600

they have relayed to family members

351
00:17:53,630 --> 00:17:51,179
loved ones Etc that they quite honestly

352
00:17:56,990 --> 00:17:53,640
believe these medals were alien in

353
00:17:59,810 --> 00:17:57,000
origin because they could not fathom

354
00:18:02,270 --> 00:17:59,820
human beings making such materials

355
00:18:05,029 --> 00:18:02,280
the mystery does not end with our

356
00:18:08,150 --> 00:18:05,039
government and its control of the

357
00:18:11,890 --> 00:18:08,160
situation order of doing things and

358
00:18:15,110 --> 00:18:11,900
obviously ability of covering things up

359
00:18:19,310 --> 00:18:15,120
there is pretty amazing

360
00:18:21,830 --> 00:18:19,320
efforts taking place at other locations

361
00:18:24,230 --> 00:18:21,840
around the world other governments are

362
00:18:26,990 --> 00:18:24,240
definitely involved other government

363
00:18:29,150 --> 00:18:27,000

agencies are doing things which are

364

00:18:30,409 --> 00:18:29,160

incredible China is among those and

365

00:18:32,870 --> 00:18:30,419

India

366

00:18:35,870 --> 00:18:32,880

interestingly there is a liquid

367

00:18:38,870 --> 00:18:35,880

propulsion system center which is a

368

00:18:40,669 --> 00:18:38,880

government agency a research and

369

00:18:43,669 --> 00:18:40,679

development center functioning under

370

00:18:45,409 --> 00:18:43,679

Indian space research organization and

371

00:18:49,490 --> 00:18:45,419

it has two units

372

00:18:50,890 --> 00:18:49,500

it's uh doing all kinds of liquid

373

00:18:54,590 --> 00:18:50,900

propulsion

374

00:18:57,470 --> 00:18:54,600

empowering access to space and enabling

375

00:18:59,029 --> 00:18:57,480

space operations through liquid

376

00:19:01,570 --> 00:18:59,039

propulsion

377

00:19:04,490 --> 00:19:01,580

it's engaged in development of liquid

378

00:19:06,169 --> 00:19:04,500

cryogenic propulsion stages for launch

379

00:19:07,669 --> 00:19:06,179

vehicles and auxiliary propulsion

380

00:19:10,610 --> 00:19:07,679

systems and this is one that kind of

381

00:19:12,289 --> 00:19:10,620

falls under the radar a lot people don't

382

00:19:14,770 --> 00:19:12,299

understand just how amazing the

383

00:19:18,110 --> 00:19:14,780

development of liquid propellant stages

384

00:19:20,390 --> 00:19:18,120

and control systems are for satellite

385

00:19:23,450 --> 00:19:20,400

propulsion systems including the

386

00:19:27,049 --> 00:19:23,460

production of pressure transducers and

387

00:19:29,690 --> 00:19:27,059

other cryogenic upper stage launch

388

00:19:34,070 --> 00:19:29,700

systems and vehicles

389

00:19:37,909 --> 00:19:34,080

they have all kinds of wild stuff and

390

00:19:41,630 --> 00:19:37,919

interestingly have been involved for

391

00:19:43,610 --> 00:19:41,640

quite some time in spacecraft launch

392

00:19:46,490 --> 00:19:43,620

systems

393

00:19:48,770 --> 00:19:46,500

and yet not one you usually think of

394

00:19:52,070 --> 00:19:48,780

when you think of

395

00:19:54,470 --> 00:19:52,080

Next Level futuristic

396

00:19:58,850 --> 00:19:54,480

spacecraft propulsion

397

00:20:02,930 --> 00:19:58,860

India is usually seen as a place in the

398

00:20:07,730 --> 00:20:02,940

East where Eastern religious magical

399

00:20:10,310 --> 00:20:07,740

systems are enhanced and or learned and

400

00:20:13,430 --> 00:20:10,320

definitely practiced and the same is

401
00:20:16,970 --> 00:20:13,440
true of the West uh chaos magic and

402
00:20:19,610 --> 00:20:16,980
rocket science go along like peas and

403
00:20:22,130 --> 00:20:19,620
carrots of course many people know about

404
00:20:25,190 --> 00:20:22,140
JPL Jack Parsons one of the most

405
00:20:27,590 --> 00:20:25,200
influential figures in the history of

406
00:20:31,130 --> 00:20:27,600
American space and the American space

407
00:20:33,830 --> 00:20:31,140
programs he was an interesting guy

408
00:20:35,169 --> 00:20:33,840
um he he was very interested in the

409
00:20:39,890 --> 00:20:35,179
Supernatural

410
00:20:42,230 --> 00:20:39,900
and he was into chaos magic friends with

411
00:20:45,289 --> 00:20:42,240
Aleister Crowley he was definitely a

412
00:20:47,870 --> 00:20:45,299
thalamite or practiced thalima which was

413
00:20:52,010 --> 00:20:47,880

the religion of Aleister Crowley

414

00:20:54,409 --> 00:20:52,020

and he of course believed in achieving a

415

00:20:57,230 --> 00:20:54,419

higher state of existence by embracing

416

00:21:00,650 --> 00:20:57,240

one's true will or one's ultimate

417

00:21:04,370 --> 00:21:00,660

purpose Beyond selfishness or ego he

418

00:21:08,230 --> 00:21:04,380

performed magic and dealt with

419

00:21:10,789 --> 00:21:08,240

pentagrams often and this is interesting

420

00:21:12,650 --> 00:21:10,799

pentagrams are something very important

421

00:21:14,870 --> 00:21:12,660

to mention and it's important that we

422

00:21:17,690 --> 00:21:14,880

also don't take this out of context

423

00:21:18,770 --> 00:21:17,700

because there is a variety of context

424

00:21:23,029 --> 00:21:18,780

here

425

00:21:25,669 --> 00:21:23,039

however the bottom line is lon thrusters

426
00:21:28,490 --> 00:21:25,679
and the pentagram

427
00:21:30,789 --> 00:21:28,500
have a lot to do with propulsion we're

428
00:21:32,409 --> 00:21:30,799
talking about the

429
00:21:36,529 --> 00:21:32,419
interesting

430
00:21:42,710 --> 00:21:39,350
the pentagram

431
00:21:46,370 --> 00:21:42,720
or a Shape close to it

432
00:21:48,110 --> 00:21:46,380
is used with ion thrusters

433
00:21:50,870 --> 00:21:48,120
and it's not limited there it's been

434
00:21:54,169 --> 00:21:50,880
used for other thrusters as well

435
00:21:56,750 --> 00:21:54,179
and is used in an array of different

436
00:22:00,590 --> 00:21:56,760
projects models and thrust

437
00:22:02,450 --> 00:22:00,600
configurations now Jack Parsons had his

438
00:22:04,370 --> 00:22:02,460

first test site in the mountains

439

00:22:07,549 --> 00:22:04,380

directly behind the current location of

440

00:22:10,970 --> 00:22:07,559

scientology's gold base north of Hemet

441

00:22:13,130 --> 00:22:10,980

at Gilman Hot Springs Scientology also

442

00:22:15,890 --> 00:22:13,140

has strong connections to Parsons but

443

00:22:17,630 --> 00:22:15,900

we'll get into that a bit later the

444

00:22:20,510 --> 00:22:17,640

entire flood plain

445

00:22:23,750 --> 00:22:20,520

a stride gold base was at one time

446

00:22:26,930 --> 00:22:23,760

designated as an EPA site for

447

00:22:29,510 --> 00:22:26,940

perch chlorate contamination this is

448

00:22:32,210 --> 00:22:29,520

mostly due to Parsons and the tests and

449

00:22:35,510 --> 00:22:32,220

experiments perch chlorate was the

450

00:22:37,430 --> 00:22:35,520

oxidizer that Parsons used for is Jato

451
00:22:40,850 --> 00:22:37,440
Rockets

452
00:22:44,270 --> 00:22:40,860
that's jet assisted takeoff there is a

453
00:22:46,870 --> 00:22:44,280
burn Channel running down the center to

454
00:22:49,549 --> 00:22:46,880
the control the burn rate of this engine

455
00:22:51,169 --> 00:22:49,559
now remember that Aleister Crowley

456
00:22:54,049 --> 00:22:51,179
taught Parsons

457
00:22:56,390 --> 00:22:54,059
that Central ambition was to achieve a

458
00:22:58,789 --> 00:22:56,400
higher state of existence by embracing

459
00:23:02,330 --> 00:22:58,799
one's true will or one's ultimate

460
00:23:03,770 --> 00:23:02,340
purpose Beyond selfishness or ego due to

461
00:23:06,350 --> 00:23:03,780
these reasons

462
00:23:09,529 --> 00:23:06,360
Jack Parsons performed ritual Magic

463
00:23:12,590 --> 00:23:09,539

including banishing impure elements with

464

00:23:15,230 --> 00:23:12,600

pentagrams invoking the power of the

465

00:23:17,510 --> 00:23:15,240

Holy Guardian Angel and offering daily

466

00:23:22,130 --> 00:23:17,520

adorations to the Sun

467

00:23:25,730 --> 00:23:22,140

and these rituals magic and shapes such

468

00:23:27,529 --> 00:23:25,740

as the pentagram entered his field of

469

00:23:29,570 --> 00:23:27,539

work

470

00:23:33,289 --> 00:23:29,580

he pushed the limits

471

00:23:36,470 --> 00:23:33,299

of rocket science and utilized much of

472

00:23:41,149 --> 00:23:36,480

the symbolism involved with the occult

473

00:23:43,970 --> 00:23:41,159

due to his selfless and fearless group

474

00:23:47,149 --> 00:23:43,980

of fellow scientists which

475

00:23:49,970 --> 00:23:47,159

he gathered to do these experiments

476
00:23:52,010 --> 00:23:49,980
they were nicknamed The Suicide Squad

477
00:23:53,870 --> 00:23:52,020
because of their selflessness and the

478
00:23:55,370 --> 00:23:53,880
possibility of them getting hurt in

479
00:23:59,350 --> 00:23:55,380
their experiments

480
00:24:02,270 --> 00:23:59,360
what is interesting is Parsons

481
00:24:03,950 --> 00:24:02,280
j-a-t-o rocket systems

482
00:24:06,710 --> 00:24:03,960
opened up

483
00:24:09,950 --> 00:24:06,720
in a very interesting way

484
00:24:12,590 --> 00:24:09,960
the propellant would go around a red

485
00:24:14,390 --> 00:24:12,600
Hollow burn control Channel area the

486
00:24:16,850 --> 00:24:14,400
shape of a pentagram

487
00:24:21,529 --> 00:24:16,860
this was by no means a coincidence

488
00:24:24,909 --> 00:24:21,539

however an amazing synchronicity in the

489

00:24:28,610 --> 00:24:24,919

fact that it was extremely useful

490

00:24:32,330 --> 00:24:28,620

remarkably efficient and of course as

491

00:24:34,789 --> 00:24:32,340

with all things Jack Parsons seemed to

492

00:24:36,130 --> 00:24:34,799

get involved with touch or have his

493

00:24:37,789 --> 00:24:36,140

fingers in

494

00:24:40,789 --> 00:24:37,799

groundbreaking

495

00:24:43,430 --> 00:24:40,799

the scientific Community took notice of

496

00:24:47,990 --> 00:24:43,440

Jack's amazing methods

497

00:24:50,810 --> 00:24:48,000

and he he made this happen over and over

498

00:24:52,850 --> 00:24:50,820

again since the age of 12.

499

00:24:54,350 --> 00:24:52,860

he was kicked out of school for blowing

500

00:24:56,149 --> 00:24:54,360

up toilets

501
00:25:02,149 --> 00:24:56,159
he

502
00:25:04,430 --> 00:25:02,159
and a group of his successfully tested a

503
00:25:05,570 --> 00:25:04,440
static motor rocket that could run for

504
00:25:08,570 --> 00:25:05,580
over a minute

505
00:25:11,750 --> 00:25:08,580
with funding from the federal government

506
00:25:14,090 --> 00:25:11,760
Jack Parsons would go on to invent the

507
00:25:16,730 --> 00:25:14,100
first rocket engine to use castable

508
00:25:18,350 --> 00:25:16,740
composite propellant a mixture of fuel

509
00:25:21,110 --> 00:25:18,360
that allowed Rockets to harness enough

510
00:25:23,090 --> 00:25:21,120
Force to finally make it into space he

511
00:25:25,029 --> 00:25:23,100
was a groundbreaker and everything he

512
00:25:28,789 --> 00:25:25,039
did was groundbreaking

513
00:25:32,570 --> 00:25:28,799

unfortunately due to his involvement and

514

00:25:35,029 --> 00:25:32,580

beliefs with thalima

515

00:25:37,669 --> 00:25:35,039

he was sort of like a bull in a china

516

00:25:42,049 --> 00:25:37,679

shop and it would come to costume its

517

00:25:45,649 --> 00:25:42,059

career by 1944 Parsons was booted

518

00:25:48,830 --> 00:25:45,659

from JPL and persuaded to sell his stock

519

00:25:50,930 --> 00:25:48,840

in the company 30 years old unemployed

520

00:25:53,890 --> 00:25:50,940

and without a college degree

521

00:25:57,230 --> 00:25:53,900

Parsons used the proceeds to purchase

522

00:25:58,730 --> 00:25:57,240

1003 Orange Grove Avenue in Pasadena

523

00:26:00,950 --> 00:25:58,740

California

524

00:26:03,950 --> 00:26:00,960

this property turned into a hub of

525

00:26:04,970 --> 00:26:03,960

occultus fanaticism and homegrown rocket

526
00:26:07,370 --> 00:26:04,980
science

527
00:26:11,330 --> 00:26:07,380
with rooms rented out to Bohemians

528
00:26:13,010 --> 00:26:11,340
musicians artists you name it anarchists

529
00:26:14,510 --> 00:26:13,020
atheists

530
00:26:17,810 --> 00:26:14,520
eventually

531
00:26:20,029 --> 00:26:17,820
this is where the founder of Scientology

532
00:26:22,850 --> 00:26:20,039
comes into the picture

533
00:26:25,610 --> 00:26:22,860
Parsons would rent out a room in his

534
00:26:29,450 --> 00:26:25,620
house to U.S naval officer and science

535
00:26:31,430 --> 00:26:29,460
fiction writer L Ron Hubbard the two of

536
00:26:35,510 --> 00:26:31,440
them jumped headfirst into thalima

537
00:26:37,750 --> 00:26:35,520
together and did experiments rituals and

538
00:26:40,149 --> 00:26:37,760

practiced the occult as well as

539

00:26:43,250 --> 00:26:40,159

experimenting with science

540

00:26:46,250 --> 00:26:43,260

unfortunately although being fast and

541

00:26:49,669 --> 00:26:46,260

close friends L Ron Hubbard would

542

00:26:53,149 --> 00:26:49,679

ultimately take Jack Parsons former

543

00:26:55,549 --> 00:26:53,159

lover ran off to Miami with her and also

544

00:26:58,970 --> 00:26:55,559

took ten thousand dollars of Jack

545

00:27:05,510 --> 00:27:02,390

this left Parsons a Broken Man

546

00:27:08,149 --> 00:27:05,520

he also ran into all kinds of problems

547

00:27:11,690 --> 00:27:08,159

with the government and

548

00:27:14,090 --> 00:27:11,700

they were keen on getting him out of the

549

00:27:17,810 --> 00:27:14,100

system even though he was a genius they

550

00:27:20,570 --> 00:27:17,820

could not handle his lack of boundaries

551
00:27:23,049 --> 00:27:20,580
the people he was hanging out with and

552
00:27:28,190 --> 00:27:23,059
the fact that he was a self-taught

553
00:27:31,430 --> 00:27:28,200
rocket scientist who invented solid

554
00:27:34,610 --> 00:27:31,440
rocket fuel I mean blowing all of his

555
00:27:38,630 --> 00:27:34,620
counterparts to the curb he his fellows

556
00:27:41,810 --> 00:27:38,640
were absolute minions compared to his

557
00:27:45,350 --> 00:27:41,820
intellect as usual instead of praising

558
00:27:47,149 --> 00:27:45,360
him NASA has kicked him to the curb and

559
00:27:49,430 --> 00:27:47,159
tried to remove him from their history

560
00:27:52,430 --> 00:27:49,440
books as much as possible

561
00:27:54,529 --> 00:27:52,440
never a straight answer from NASA pun

562
00:27:56,269 --> 00:27:54,539
intended when it came to government

563
00:27:59,230 --> 00:27:56,279

channels though although they kept

564

00:28:02,269 --> 00:27:59,240

kicking him out of classified projects

565

00:28:06,110 --> 00:28:02,279

stripping him of his clearance

566

00:28:09,049 --> 00:28:06,120

and doing so for a bunch of reasons even

567

00:28:11,390 --> 00:28:09,059

the FBI banned him from working on

568

00:28:13,610 --> 00:28:11,400

projects preventing him from working in

569

00:28:15,110 --> 00:28:13,620

U.S rocketry ever again

570

00:28:18,409 --> 00:28:15,120

yet

571

00:28:21,049 --> 00:28:18,419

the inventor continued to be needed the

572

00:28:24,950 --> 00:28:21,059

government continued to want him and

573

00:28:27,649 --> 00:28:24,960

they were very needful of him

574

00:28:30,289 --> 00:28:27,659

because they wanted to utilize him in

575

00:28:31,750 --> 00:28:30,299

establishing an explosives Factory

576
00:28:34,789 --> 00:28:31,760
well

577
00:28:35,870 --> 00:28:34,799
they've had a rush order they sent out

578
00:28:38,710 --> 00:28:35,880
to him

579
00:28:43,789 --> 00:28:38,720
he had a home laboratory by this time

580
00:28:45,169 --> 00:28:43,799
and they needed these explosives in a

581
00:28:46,490 --> 00:28:45,179
big hurry

582
00:28:49,010 --> 00:28:46,500
well

583
00:28:52,010 --> 00:28:49,020
a fatal explosion

584
00:28:54,350 --> 00:28:52,020
took his life and he was pronounced dead

585
00:28:57,649 --> 00:28:54,360
after the explosion

586
00:28:58,930 --> 00:28:57,659
only a day before he had planned to move

587
00:29:01,310 --> 00:28:58,940
to Mexico

588
00:29:03,649 --> 00:29:01,320

interesting the coincidence and the

589

00:29:05,149 --> 00:29:03,659

synchronicity of his demise

590

00:29:07,250 --> 00:29:05,159

and

591

00:29:12,909 --> 00:29:07,260

it's also interesting that there's a lot

592

00:29:18,169 --> 00:29:15,710

criminologists believed that the

593

00:29:19,610 --> 00:29:18,179

explosion was caused by fulminated

594

00:29:21,669 --> 00:29:19,620

Mercury

595

00:29:25,669 --> 00:29:21,679

which they claim Jack Parsons

596

00:29:27,710 --> 00:29:25,679

accidentally dropped onto the floor

597

00:29:30,110 --> 00:29:27,720

and

598

00:29:33,169 --> 00:29:30,120

Jack's colleagues

599

00:29:36,830 --> 00:29:33,179

were not impressed because they realized

600

00:29:40,789 --> 00:29:36,840

that he was scrupulously neat and would

601
00:29:43,549 --> 00:29:40,799
never drop anything or be clumsy when in

602
00:29:45,169 --> 00:29:43,559
his work

603
00:29:47,990 --> 00:29:45,179
they believed

604
00:29:51,169 --> 00:29:48,000
that this was an assassination plot

605
00:29:53,750 --> 00:29:51,179
but why had Jack invented something else

606
00:29:55,490 --> 00:29:53,760
that we are still unfamiliar with

607
00:29:56,870 --> 00:29:55,500
and did the government shortly

608
00:29:59,690 --> 00:29:56,880
afterwards

609
00:30:02,090 --> 00:29:59,700
acquire this invention

610
00:30:04,610 --> 00:30:02,100
we may never know but these are theories

611
00:30:06,950 --> 00:30:04,620
of some of his peers I can't lend

612
00:30:08,990 --> 00:30:06,960
Credence to those but it is interesting

613
00:30:11,269 --> 00:30:09,000

that these are the thoughts those who

614

00:30:14,570 --> 00:30:11,279

knew him best had

615

00:30:17,630 --> 00:30:14,580

getting back to L Ron Hubbard

616

00:30:19,730 --> 00:30:17,640

and the fact that Jack Parsons first

617

00:30:21,529 --> 00:30:19,740

test site in the mountains were directly

618

00:30:24,230 --> 00:30:21,539

behind the current location of

619

00:30:27,769 --> 00:30:24,240

scientology's gold base north

620

00:30:31,010 --> 00:30:27,779

of Hemet at Gilman Hot Springs

621

00:30:33,710 --> 00:30:31,020

the Jack Parsons and government Rabbit

622

00:30:36,409 --> 00:30:33,720

Hole go deeper and deeper here

623

00:30:40,070 --> 00:30:36,419

as I mentioned before

624

00:30:41,930 --> 00:30:40,080

this was at one point designated as an

625

00:30:46,070 --> 00:30:41,940

EPA site

626
00:30:49,430 --> 00:30:46,080
due to perch chlorate contamination this

627
00:30:54,529 --> 00:30:49,440
was all due to Jack Parsons experiments

628
00:30:56,090 --> 00:30:54,539
with jet assisted takeoff Rockets Jato

629
00:30:59,269 --> 00:30:56,100
for short

630
00:31:01,430 --> 00:30:59,279
well now now the top of the mountain

631
00:31:03,529 --> 00:31:01,440
overlooking gold just happens to be a

632
00:31:07,010 --> 00:31:03,539
high security usn Communications

633
00:31:09,350 --> 00:31:07,020
facility covered with antennas

634
00:31:11,930 --> 00:31:09,360
access to the Mountaintop is through an

635
00:31:14,090 --> 00:31:11,940
unmanned underground entrance visible on

636
00:31:16,730 --> 00:31:14,100
the road going towards the Soboba Indian

637
00:31:19,669 --> 00:31:16,740
Reservation Casino

638
00:31:21,889 --> 00:31:19,679

on the left side of the road enclosed by

639

00:31:24,649 --> 00:31:21,899

barbed wire and labeled U.S government

640

00:31:28,190 --> 00:31:24,659

property no trespassing

641

00:31:31,610 --> 00:31:28,200

the trifecta of the occult the

642

00:31:34,190 --> 00:31:31,620

government of course and Scientology now

643

00:31:37,430 --> 00:31:34,200

Dianetics convinces people using various

644

00:31:39,409 --> 00:31:37,440

means of coercive persuasion including

645

00:31:43,610 --> 00:31:39,419

covert hypnosis

646

00:31:47,450 --> 00:31:43,620

and repetition of suggestion

647

00:31:49,490 --> 00:31:47,460

that you have an evil reactive mind and

648

00:31:50,630 --> 00:31:49,500

that you have to get rid of this evil at

649

00:31:53,990 --> 00:31:50,640

any cost

650

00:31:55,130 --> 00:31:54,000

and that L Ron Hubbard's technology can

651
00:31:57,950 --> 00:31:55,140
do this

652
00:32:01,250 --> 00:31:57,960
it also calls the reactive Mind by the

653
00:32:04,730 --> 00:32:01,260
term the bank and you have to get rid of

654
00:32:07,370 --> 00:32:04,740
that too which makes emptying your bank

655
00:32:10,810 --> 00:32:07,380
account far easier

656
00:32:15,169 --> 00:32:10,820
are some of the same

657
00:32:16,490 --> 00:32:15,179
coercive persuasive techniques used by

658
00:32:18,409 --> 00:32:16,500
other orders

659
00:32:21,710 --> 00:32:18,419
and maybe even

660
00:32:23,450 --> 00:32:21,720
possibly used by some of those in

661
00:32:27,289 --> 00:32:23,460
government positions

662
00:32:29,630 --> 00:32:27,299
it's hard to say I have no background or

663
00:32:32,330 --> 00:32:29,640

data that would prove this

664

00:32:35,029 --> 00:32:32,340

However the fact that technology seems

665

00:32:37,789 --> 00:32:35,039

to be the answer in Scientology and

666

00:32:42,710 --> 00:32:37,799

Technology seems to be the answer in

667

00:32:44,930 --> 00:32:42,720

modern times it seems as if hypnosis and

668

00:32:48,110 --> 00:32:44,940

Scientology and dianetics

669

00:32:50,450 --> 00:32:48,120

have something to do with deprogramming

670

00:32:51,769 --> 00:32:50,460

our natural state

671

00:32:56,570 --> 00:32:51,779

everything

672

00:32:58,909 --> 00:32:56,580

that a hypnotized subject is told tends

673

00:33:00,710 --> 00:32:58,919

to be true for them afterwards

674

00:33:02,029 --> 00:33:00,720

we may have different kinds of

675

00:33:05,690 --> 00:33:02,039

programming

676
00:33:08,750 --> 00:33:05,700
and different Technologies however I can

677
00:33:11,090 --> 00:33:08,760
say that there have been strong ties to

678
00:33:14,450 --> 00:33:11,100
the investigation of Scientology by the

679
00:33:16,669 --> 00:33:14,460
government and there are secrets of

680
00:33:19,730 --> 00:33:16,679
Scientology especially their technology

681
00:33:22,370 --> 00:33:19,740
the e-meter well anyway the government

682
00:33:24,590 --> 00:33:22,380
definitely investigated Scientology as

683
00:33:27,230 --> 00:33:24,600
well as their Technologies and maybe

684
00:33:31,310 --> 00:33:27,240
they pick something up along the way

685
00:33:33,830 --> 00:33:31,320
so while now it takes hundreds if not

686
00:33:36,169 --> 00:33:33,840
thousands of Rocket scientists to make

687
00:33:40,190 --> 00:33:36,179
new groundbreaking rocket propulsion

688
00:33:43,070 --> 00:33:40,200

systems inventions and discoveries it

689

00:33:44,630 --> 00:33:43,080

seemed to uh have been a one-man band in

690

00:33:46,610 --> 00:33:44,640

the past

691

00:33:51,710 --> 00:33:46,620

however that doesn't mean that science

692

00:33:54,830 --> 00:33:51,720

is not making daily strides as we open a

693

00:33:58,630 --> 00:33:54,840

new deep space program

694

00:34:02,570 --> 00:33:58,640

in fact earlier in 2023

695

00:34:06,169 --> 00:34:02,580

NASA announced a successful test of a

696

00:34:07,549 --> 00:34:06,179

new propulsion technology for deep space

697

00:34:10,609 --> 00:34:07,559

travel

698

00:34:12,909 --> 00:34:10,619

this technology is best described as a

699

00:34:16,369 --> 00:34:12,919

rotating detonation rocket engine

700

00:34:19,430 --> 00:34:16,379

powered by supersonic technology

701
00:34:21,970 --> 00:34:19,440
the rdre

702
00:34:26,149 --> 00:34:21,980
rotating detonation rocket engine

703
00:34:29,290 --> 00:34:26,159
generates thrust with detonation

704
00:34:32,510 --> 00:34:29,300
where a supersonic exothermic front

705
00:34:35,389 --> 00:34:32,520
accelerates to produce thrust

706
00:34:38,030 --> 00:34:35,399
so it's super similar to a shock wave

707
00:34:40,609 --> 00:34:38,040
and the way a shock wave travels through

708
00:34:43,430 --> 00:34:40,619
the atmosphere

709
00:34:45,589 --> 00:34:43,440
much like when there is a dynamite

710
00:34:48,050 --> 00:34:45,599
explosion

711
00:34:49,190 --> 00:34:48,060
NASA says that this design uses less

712
00:34:51,649 --> 00:34:49,200
fuel

713
00:34:55,430 --> 00:34:51,659

and has more thrust

714

00:34:57,349 --> 00:34:55,440

keep in mind that the rdre is almost

715

00:34:59,750 --> 00:34:57,359

completely

716

00:35:03,109 --> 00:34:59,760

new technologies

717

00:35:08,750 --> 00:35:03,119

and includes 3D printed Parts made with

718

00:35:11,030 --> 00:35:08,760

a copper alloy called gr copper 42 or gr

719

00:35:13,310 --> 00:35:11,040

cop 42.

720

00:35:15,589 --> 00:35:13,320

which the agency developed

721

00:35:18,109 --> 00:35:15,599

this particular rocket seemed to

722

00:35:20,810 --> 00:35:18,119

withstand high temperatures

723

00:35:24,349 --> 00:35:20,820

and produced over four thousand pounds

724

00:35:27,710 --> 00:35:24,359

of thrust for almost 60 Seconds

725

00:35:29,630 --> 00:35:27,720

if Jack Parsons did invent something I

726

00:35:31,250 --> 00:35:29,640

would expect it to be along the order of

727

00:35:33,410 --> 00:35:31,260

something like this

728

00:35:37,250 --> 00:35:33,420

now

729

00:35:40,370 --> 00:35:37,260

this isn't the end of the story there is

730

00:35:44,569 --> 00:35:40,380

a ton of new technology new thrust

731

00:35:49,010 --> 00:35:44,579

systems new fuel systems ion drives

732

00:35:51,170 --> 00:35:49,020

fission fusion solar sales and other

733

00:35:54,349 --> 00:35:51,180

ideas powering

734

00:35:55,970 --> 00:35:54,359

this new generation of spacecraft

735

00:35:58,550 --> 00:35:55,980

propulsion

736

00:36:01,550 --> 00:35:58,560

it seems like it's out of almost a

737

00:36:05,270 --> 00:36:01,560

science fiction novel not to go down the

738

00:36:07,609 --> 00:36:05,280

L Ron Hubbard path again but

739

00:36:10,730 --> 00:36:07,619

if we are to believe everything that

740

00:36:13,490 --> 00:36:10,740

seems to be coming out including the use

741

00:36:15,650 --> 00:36:13,500

of things such as chemical Rockets

742

00:36:17,050 --> 00:36:15,660

ion drives

743

00:36:20,329 --> 00:36:17,060

and

744

00:36:23,810 --> 00:36:20,339

very speculative systems

745

00:36:27,530 --> 00:36:23,820

some with Electro thermal attributes

746

00:36:30,650 --> 00:36:27,540

it is a Brave New World

747

00:36:33,770 --> 00:36:30,660

for propelling spacecraft to the

748

00:36:37,849 --> 00:36:33,780

furthest edges of the solar system and

749

00:36:39,829 --> 00:36:37,859

doing so in ways that seem beyond the

750

00:36:43,730 --> 00:36:39,839

comprehension of man

751

00:36:46,609 --> 00:36:43,740

a new electric Thruster has been

752

00:36:48,230 --> 00:36:46,619

rumored to be utilized that blasts out

753

00:36:50,569 --> 00:36:48,240

iodine

754

00:36:52,069 --> 00:36:50,579

they claim it's been successfully tested

755

00:36:55,910 --> 00:36:52,079

in orbit

756

00:36:59,150 --> 00:36:55,920

and that it could lead to tinier smaller

757

00:37:01,069 --> 00:36:59,160

much more simple inexpensive and high

758

00:37:03,950 --> 00:37:01,079

performance engines

759

00:37:06,349 --> 00:37:03,960

for spacecraft not to mention these

760

00:37:08,450 --> 00:37:06,359

quote-unquote satellites and not the

761

00:37:11,690 --> 00:37:08,460

ones that are hanging from balloons

762

00:37:14,390 --> 00:37:11,700

this is of course according to them and

763

00:37:15,589 --> 00:37:14,400

it's generating a lot of interest

764

00:37:27,109 --> 00:37:15,599

so

765

00:37:31,490 --> 00:37:27,119

I said science fictiony iodine spewing

766

00:37:35,390 --> 00:37:31,500

come on xenon gas with electric

767

00:37:37,910 --> 00:37:35,400

thrusters now xenon's super rare it

768

00:37:41,450 --> 00:37:37,920

makes up less than one part per 10

769

00:37:44,390 --> 00:37:41,460

million of our atmosphere and it's super

770

00:37:47,270 --> 00:37:44,400

expensive it's about three thousand

771

00:37:51,050 --> 00:37:47,280

dollars for 2.2 pounds you know the same

772

00:37:54,490 --> 00:37:51,060

Xenon that is in your uh high-end luxury

773

00:37:57,829 --> 00:37:54,500

automobile headlights it's super complex

774

00:38:00,770 --> 00:37:57,839

and yet these are the things and the

775

00:38:02,450 --> 00:38:00,780

systems that are being used so how

776

00:38:05,270 --> 00:38:02,460

far-fetched is it

777

00:38:09,170 --> 00:38:05,280

that liquid light

778

00:38:12,170 --> 00:38:09,180

in propulsion is added to the mix

779

00:38:14,990 --> 00:38:12,180

and if anything was a reverse engineered

780

00:38:17,410 --> 00:38:15,000

real alien technology I think it could

781

00:38:21,410 --> 00:38:17,420

be something like this I mean

782

00:38:25,510 --> 00:38:21,420

what would you believe an alien would

783

00:38:28,069 --> 00:38:25,520

utilize to travel light years across

784

00:38:31,250 --> 00:38:28,079

incomprehensible distances

785

00:38:34,310 --> 00:38:31,260

I don't know maybe something like this

786

00:38:36,890 --> 00:38:34,320

now reverse engineering and the theory

787

00:38:40,609 --> 00:38:36,900

that things are reverse engineered has

788

00:38:43,130 --> 00:38:40,619

been a long time belief in UFO circles

789

00:38:45,050 --> 00:38:43,140

of course that is the description of the

790

00:38:47,750 --> 00:38:45,060

act of the government dismantling an

791

00:38:49,609 --> 00:38:47,760

object to see how it works from the

792

00:38:52,490 --> 00:38:49,619

inside out

793

00:38:54,890 --> 00:38:52,500

and done to analyze and gain knowledge

794

00:38:58,130 --> 00:38:54,900

about the way something works however

795

00:39:00,589 --> 00:38:58,140

according to much of the rumor mill

796

00:39:03,950 --> 00:39:00,599

taking alien technology and trying to

797

00:39:06,170 --> 00:39:03,960

reverse engineer it from our perspective

798

00:39:08,210 --> 00:39:06,180

could take hundreds

799

00:39:11,450 --> 00:39:08,220

of years

800

00:39:13,250 --> 00:39:11,460

I mean if we look at history it took the

801
00:39:17,690 --> 00:39:13,260
Soviet Union

802
00:39:20,210 --> 00:39:17,700
after analyzing the US B-29 bomber it

803
00:39:22,849 --> 00:39:20,220
took the Soviets seven years to reverse

804
00:39:26,329 --> 00:39:22,859
engineer that now this is a seemingly

805
00:39:30,550 --> 00:39:26,339
simple task when compared to the scope

806
00:39:33,170 --> 00:39:30,560
of analyzing an alien craft or alien

807
00:39:36,349 --> 00:39:33,180
propulsion system that is outside the

808
00:39:38,150 --> 00:39:36,359
bounds of our scientific method so yeah

809
00:39:40,310 --> 00:39:38,160
we're gonna have to get creative and

810
00:39:43,990 --> 00:39:40,320
think outside the box much like Jack

811
00:39:47,690 --> 00:39:44,000
Parsons and secret military technology

812
00:39:49,730 --> 00:39:47,700
and operations need to uh really do

813
00:39:53,690 --> 00:39:49,740

everything they can

814

00:39:58,010 --> 00:39:53,700

to make this scenario come true if we do

815

00:40:01,849 --> 00:39:58,020

in fact have and are sitting on alien

816

00:40:03,230 --> 00:40:01,859

spacecraft housed at secret bunkers and

817

00:40:05,329 --> 00:40:03,240

Facilities

818

00:40:08,390 --> 00:40:05,339

but that brings to question is it even

819

00:40:12,230 --> 00:40:08,400

possible for us to have some sort of

820

00:40:14,150 --> 00:40:12,240

alien craft that has been downed or

821

00:40:17,569 --> 00:40:14,160

captured

822

00:40:21,109 --> 00:40:17,579

because what if the likelihood that an

823

00:40:23,510 --> 00:40:21,119

alien craft which can travel vast dense

824

00:40:26,150 --> 00:40:23,520

distances in space

825

00:40:29,089 --> 00:40:26,160

to get where it needs to go

826
00:40:30,950 --> 00:40:29,099
would be so super Advanced to do these

827
00:40:33,670 --> 00:40:30,960
things yet go down and something as

828
00:40:35,770 --> 00:40:33,680
simple as bad weather a lightning storm

829
00:40:38,810 --> 00:40:35,780
or a

830
00:40:42,589 --> 00:40:38,820
projectile being shot at it this is

831
00:40:45,950 --> 00:40:42,599
where the Catch-22 is in my opinion

832
00:40:49,730 --> 00:40:45,960
yet we have Congressman saying that

833
00:40:51,950 --> 00:40:49,740
alien UFO Tech is in fact being reverse

834
00:40:54,410 --> 00:40:51,960
engineered in secret

835
00:40:57,650 --> 00:40:54,420
that's Tennessee Congressman Tim

836
00:40:59,870 --> 00:40:57,660
Burchette he told Newsweek that he

837
00:41:00,770 --> 00:40:59,880
believed we have recovered a craft at

838
00:41:03,890 --> 00:41:00,780

some point

839

00:41:06,829 --> 00:41:03,900

and possible beings

840

00:41:08,810 --> 00:41:06,839

he also said and I quote I think that a

841

00:41:11,510 --> 00:41:08,820

lot of what's being reverse engineered

842

00:41:13,130 --> 00:41:11,520

right now we just don't understand it he

843

00:41:17,150 --> 00:41:13,140

continued

844

00:41:20,690 --> 00:41:17,160

so we have a big question on our hands

845

00:41:23,150 --> 00:41:20,700

has the U.S military in fact reverse

846

00:41:26,750 --> 00:41:23,160

engineered alien technology

847

00:41:29,810 --> 00:41:26,760

for its fighter jets and possibly other

848

00:41:36,710 --> 00:41:33,650

we have Decades of secrecy if they have

849

00:41:38,810 --> 00:41:36,720

for those familiar with Colonel Philip

850

00:41:42,710 --> 00:41:38,820

Corso

851

00:41:45,050 --> 00:41:42,720

he wrote a book uh later in life

852

00:41:49,370 --> 00:41:45,060

in his later years practically on his

853

00:41:51,290 --> 00:41:49,380

deathbed called the day after Roswell

854

00:41:54,710 --> 00:41:51,300

it's a book

855

00:41:58,970 --> 00:41:54,720

which basically says we have in fact

856

00:42:03,470 --> 00:41:58,980

captured extraterrestrial spacecraft

857

00:42:05,810 --> 00:42:03,480

and it mentions the Roswell UFO incident

858

00:42:08,990 --> 00:42:05,820

it was written by United States Army

859

00:42:12,050 --> 00:42:09,000

Colonel Philip J Corso

860

00:42:15,050 --> 00:42:12,060

and if you remember UFO Hunters

861

00:42:19,010 --> 00:42:15,060

William J burns the producer of that he

862

00:42:21,050 --> 00:42:19,020

helped Philip J Corso write the book

863

00:42:24,290 --> 00:42:21,060

now the majority of the book is an

864

00:42:27,050 --> 00:42:24,300

account of Colonel Corso's claims that

865

00:42:28,550 --> 00:42:27,060

he was assigned to a secret government

866

00:42:30,170 --> 00:42:28,560

program

867

00:42:33,290 --> 00:42:30,180

not only that

868

00:42:36,770 --> 00:42:33,300

but he provides that some material

869

00:42:38,569 --> 00:42:36,780

recovered from Crash spacecraft went to

870

00:42:41,329 --> 00:42:38,579

Private Industry

871

00:42:44,630 --> 00:42:41,339

he didn't exactly say where the items

872

00:42:46,910 --> 00:42:44,640

came from to reverse engineer but he did

873

00:42:48,829 --> 00:42:46,920

say that they were reverse engineered

874

00:42:52,190 --> 00:42:48,839

for corporate use

875

00:42:55,250 --> 00:42:52,200

now Corso was a Special Assistant to

876
00:42:57,890 --> 00:42:55,260
Lieutenant General Arthur Trudeau who

877
00:43:00,470 --> 00:42:57,900
headed Army research and development

878
00:43:02,930 --> 00:43:00,480
and was in charge of the foreign

879
00:43:08,809 --> 00:43:02,940
technology desk as they call it

880
00:43:14,150 --> 00:43:11,390
secret and Plain Sight

881
00:43:16,250 --> 00:43:14,160
because in this position he would take

882
00:43:18,470 --> 00:43:16,260
technological artifacts

883
00:43:20,930 --> 00:43:18,480
from Russian German and other foreign

884
00:43:23,690 --> 00:43:20,940
sources and have American companies

885
00:43:26,030 --> 00:43:23,700
reverse engineer the Technologies

886
00:43:28,849 --> 00:43:26,040
however these this is where things get

887
00:43:31,910 --> 00:43:28,859
very muddled and interesting

888
00:43:33,470 --> 00:43:31,920

because he also says

889

00:43:35,809 --> 00:43:33,480

that

890

00:43:39,050 --> 00:43:35,819

several aspects of these modern

891

00:43:40,670 --> 00:43:39,060

Technologies such as fiber optics and

892

00:43:43,150 --> 00:43:40,680

integrated circuits

893

00:43:47,390 --> 00:43:43,160

were developed by using information

894

00:43:50,030 --> 00:43:47,400

taken from extraterrestrial craft

895

00:43:53,750 --> 00:43:50,040

he also claimed that the world was at

896

00:43:57,710 --> 00:43:53,760

war with extraterrestrials and that the

897

00:44:00,710 --> 00:43:57,720

SDI system also known as Star Wars SDI

898

00:44:02,930 --> 00:44:00,720

stands for Strategic Defense Initiative

899

00:44:05,809 --> 00:44:02,940

that that project was part of that

900

00:44:10,670 --> 00:44:05,819

campaign and was successfully concluded

901
00:44:13,910 --> 00:44:10,680
in Earth's favor so apparently we have

902
00:44:18,349 --> 00:44:13,920
the ability to shoot these things down

903
00:44:27,530 --> 00:44:22,730
there is a famous video of Ronald Reagan

904
00:44:28,790 --> 00:44:27,540
talking about SDI and Star Wars and what

905
00:44:31,309 --> 00:44:28,800
it all meant

906
00:44:34,970 --> 00:44:31,319
he said that we would probably get along

907
00:44:39,109 --> 00:44:34,980
better as human beings if we had a

908
00:44:41,809 --> 00:44:39,119
common threat of alien invasion

909
00:44:44,770 --> 00:44:41,819
well that would explain why the

910
00:44:47,990 --> 00:44:44,780
Strategic Defense Initiative project

911
00:44:50,870 --> 00:44:48,000
came out during his administration

912
00:44:54,050 --> 00:44:50,880
oddly that particular initiative and

913
00:44:56,270 --> 00:44:54,060

project is the grandfather to most of

914

00:44:57,650 --> 00:44:56,280

the Technologies which are now being

915

00:45:01,250 --> 00:44:57,660

discussed

916

00:45:05,270 --> 00:45:01,260

as these futuristic propulsion methods

917

00:45:08,930 --> 00:45:05,280

such as trapping this liquid light so

918

00:45:10,130 --> 00:45:08,940

once you're able to trap this liquid

919

00:45:14,030 --> 00:45:10,140

light

920

00:45:17,410 --> 00:45:14,040

into cavities into containers then

921

00:45:21,829 --> 00:45:17,420

you're able to work with it and you can

922

00:45:26,569 --> 00:45:21,839

basically formulate it into

923

00:45:29,750 --> 00:45:26,579

projects of propulsion such as uh done

924

00:45:33,290 --> 00:45:29,760

by possibly companies like Battelle

925

00:45:36,470 --> 00:45:33,300

or other companies which

926
00:45:38,510 --> 00:45:36,480
are private in that they are not

927
00:45:41,569 --> 00:45:38,520
government

928
00:45:43,690 --> 00:45:41,579
per se even though they are it's kind of

929
00:45:47,150 --> 00:45:43,700
a tough thing

930
00:45:48,950 --> 00:45:47,160
because they are hired by and work for

931
00:45:51,470 --> 00:45:48,960
the government however they are not

932
00:45:54,109 --> 00:45:51,480
government entities so you have that

933
00:45:57,710 --> 00:45:54,119
plausible deniability

934
00:45:59,450 --> 00:45:57,720
that's a big gray area and basically

935
00:46:01,970 --> 00:45:59,460
that's The Sweet Spot that's the thing

936
00:46:05,390 --> 00:46:01,980
that has really changed since the times

937
00:46:07,609 --> 00:46:05,400
of Philip J Corso we learned that

938
00:46:10,490 --> 00:46:07,619

because of the work of people like him

939

00:46:12,670 --> 00:46:10,500

that we can just hand these things over

940

00:46:15,770 --> 00:46:12,680

to private corporations

941

00:46:17,710 --> 00:46:15,780

and we have plausible deniability we

942

00:46:22,010 --> 00:46:17,720

don't have to

943

00:46:24,109 --> 00:46:22,020

describe or depict or explain anything

944

00:46:25,790 --> 00:46:24,119

utter genius and a pretty smooth move

945

00:46:29,450 --> 00:46:25,800

it's exactly what I would do if I was

946

00:46:32,390 --> 00:46:29,460

the government then why not it's safe

947

00:46:35,150 --> 00:46:32,400

there it is with a bow on it

948

00:46:37,069 --> 00:46:35,160

what goes around comes around

949

00:46:40,190 --> 00:46:37,079

if you stick around
