Waves of UFO sightings across the world may, in fact, be evidence of a secret fleet of military UFOs that we've created. Has NASA and the U.S. government been secretly building this program to protect us against alien and asteroid attacks? A look into MUFON's files suggests that these space weapons may already be in place.

Fri, Apr 11, 2014

Commercial airline pilots and flight crew spend more time in the sky than anyone. It's no surprise, then, that many UFO sighting reports have been generated by pilots and airline personnel. UFOs have chased commercial flights and even collided with them. One UFO hovered in plain sight above Chicago's O'Hare Airport and was seen by dozens of witnesses. However, despite thousands of sightings, pilots are still discouraged from publicizing their experiences, and the few that do have faced professional ridicule and loss of their jobs. Hangar 1 files uncover many UFO incidents, and suggest that the next time you fly, keep your window shade open. You never know what you might see up in the skies.

Stories of the Men in Black expose the extreme measures taken to protect these secrets from being revealed. If this shadow government does exist, what information do they have regarding the existence of UFOs? Hangar 1 files investigate the origins of this shadow government, and the case files that expose their actions.
