

1

00:00:01,289 --> 00:00:07,707

Lightning

2

00:00:07,707 --> 00:00:10,506

County, increases in outdoor r ete namely Band Holding Salons.

3

00:00:12,525 --> 00:00:13,565

Places saying of r ech.

4

00:00:27,560 --> 00:00:29,319

Spring 1941

5

00:00:30,399 --> 00:00:31,699

A warm Mizzouri evening

6

00:00:32,378 --> 00:00:33,858

enternderarlos  ronomo.

7

00:00:33,858 --> 00:00:37,857

Suddenly, the serenity is shattered as something

8

00:00:37,857 --> 00:00:44,854

streaks across the night sky and goes down in flames

9

00:00:44,854 --> 00:00:46,854

in the nearby woods.

10

00:00:49,853 --> 00:00:53,851

A story that would have been buried had it not been

11

00:00:53,851 --> 00:00:55,850

for a local clergyman.

12

00:00:55,850 --> 00:00:59,849

Reverend William Huffman, a small town minister,

13

00:00:59,849 --> 00:01:00,849

got a phone call.

14

00:01:00,849 --> 00:01:04,847

He was asked to administer the last rites at a crash scene.

15

00:01:07,846 --> 00:01:09,846

As he's led through the wreckage,

16

00:01:09,846 --> 00:01:12,845

Reverend Huffman is astounded.

17

00:01:13,844 --> 00:01:15,844

There's firemen there, there's the police,

18

00:01:15,844 --> 00:01:16,843

there's the FBI.

19

00:01:16,843 --> 00:01:19,842

He's escorted to the middle of the scene

20

00:01:19,842 --> 00:01:21,842

and he sees a flying saucer.

21

00:01:23,841 --> 00:01:26,840

There was a casualty in this UFO crash, the pilot.

22

00:01:27,840 --> 00:01:30,839

Not just one casualty, but three.

23

00:01:30,839 --> 00:01:33,838

And the report goes on to say that he realizes

24

00:01:33,838 --> 00:01:35,837

they are not of this world.

25

00:01:42,835 --> 00:01:45,833

Still, the Reverend does as requested.

26

00:01:45,833 --> 00:01:47,833

That's what you did back then.

27

00:01:47,833 --> 00:01:49,832

You had to have somebody administer to the victim.

28

00:01:50,832 --> 00:01:53,831

But it's the activity beyond the Reverend's view

29

00:01:53,831 --> 00:01:55,830

that is significant.

30

00:01:57,829 --> 00:02:00,828

Reverend Huffman is preying over these extraterrestrial bodies,

31

00:02:00,828 --> 00:02:02,828

but while he's doing that,

32

00:02:02,828 --> 00:02:05,827

the military is already taking charge of the scene.

33

00:02:07,826 --> 00:02:10,825

Scattered throughout the site is wreckage,

34

00:02:10,825 --> 00:02:14,824

containing remnants of never-before-seen technology.

35

00:02:15,823 --> 00:02:17,823

They're securing the site.

36

00:02:17,823 --> 00:02:20,822

They're labeling and packing away every piece of the craft.

37

00:02:21,821 --> 00:02:25,820

The military recognizes that this technology far surpasses

38

00:02:25,820 --> 00:02:27,819

our capabilities.

39

00:02:29,819 --> 00:02:31,818

It is beyond explanation.

40

00:02:33,817 --> 00:02:35,817

This drops into your lap.

41

00:02:35,817 --> 00:02:37,816

And what is this?

42

00:02:37,816 --> 00:02:43,814

It is the arrival of some kind of exotic technology

43

00:02:43,814 --> 00:02:46,813

vastly beyond anything that we had.

44

00:02:47,812 --> 00:02:49,812

And that's the starting point.

45

00:02:51,811 --> 00:02:53,810

With the material in hand,

46

00:02:53,810 --> 00:02:57,809

it becomes clear the military needs to thoroughly investigate

47

00:02:57,809 --> 00:03:00,808

the craft and its technology.

48

00:03:00,808 --> 00:03:03,807

But the question becomes, where to study it?

49

00:03:06,806 --> 00:03:09,805

Mufan Files suggests that some of this material

50

00:03:09,805 --> 00:03:12,804

may have been sent to Purdue University,

51

00:03:12,804 --> 00:03:15,803

home to many of the brightest minds in the country.

52

00:03:15,803 --> 00:03:19,802

The government acquires this technology from the crash,

53

00:03:19,802 --> 00:03:22,801

so where is the top research facility to work on it?

54

00:03:23,800 --> 00:03:25,800

Purdue.

55

00:03:25,800 --> 00:03:28,799

A Purdue graduate student was visited by a government official

56

00:03:28,799 --> 00:03:31,797

who dropped some exotic technology into his hands.

57

00:03:32,797 --> 00:03:36,796

He tells the kid it was intercepted from an unnamed foreign nation.

58

00:03:36,796 --> 00:03:37,795

Take a look at this.

59

00:03:37,795 --> 00:03:39,795

Figure out what it does.

60

00:03:39,795 --> 00:03:41,794

It's a very simple and simple thing.

61

00:03:41,794 --> 00:03:43,793

It's not much more explanation than that.

62

00:03:44,793 --> 00:03:46,792

This technology was allegedly presented to grad students

63

00:03:46,792 --> 00:03:49,791

at Purdue University, like fire from Olympus.

64

00:03:50,791 --> 00:03:54,790

Some speculate that the recovered UFO technology

65

00:03:54,790 --> 00:03:57,789

is eventually reverse engineered.

66

00:03:58,788 --> 00:04:00,788

And within seven years,

67

00:04:00,788 --> 00:04:05,786

what started at Purdue may have led to a breakthrough invention

68

00:04:05,786 --> 00:04:08,785

that could have been used to create a new world.

69

00:04:08,785 --> 00:04:13,783

That led to a breakthrough invention that ushers in the computer age.

70

00:04:15,783 --> 00:04:18,782

That invention is the transistor.

71

00:04:23,780 --> 00:04:27,778

Is it possible that a number of our technological achievements

72

00:04:27,778 --> 00:04:30,777

have been built on reverse engineered materials

73

00:04:30,777 --> 00:04:33,776

retrieved from extraterrestrial spacecraft?

74

00:04:33,776 --> 00:04:38,775

Mufon opens its files right now.

75

00:04:39,774 --> 00:04:43,773

The Mutual UFO Network, known as Mufon,

76

00:04:43,773 --> 00:04:47,772

is an independent organization not bound to any government.

77

00:04:47,772 --> 00:04:52,770

They investigate reports of UFO sightings from around the world.

78

00:04:52,770 --> 00:04:54,769

Over the past five decades,

79

00:04:54,769 --> 00:04:57,768

they have collected more than 70,000 files

80

00:04:57,768 --> 00:05:01,767

stored at a secure location known as Hangar One.

81

00:05:01,767 --> 00:05:03,766

Now, for the first time,

82

00:05:03,766 --> 00:05:07,765

Mufon is granting access to their fast archive.

83

00:05:07,765 --> 00:05:10,764

These are the files of Hangar One.

84

00:05:26,758 --> 00:05:28,758

Over the past 70 years,

85

00:05:28,758 --> 00:05:31,757

technology has advanced at a staggering rate,

86

00:05:31,757 --> 00:05:36,755

providing mankind with capabilities that were once unimaginable.

87

00:05:37,755 --> 00:05:41,753

Achievements that have revolutionized communication,

88

00:05:41,753 --> 00:05:46,752

medicine, transportation, and the military.

89

00:05:47,751 --> 00:05:52,750

But what suddenly sparked this technological leap forward?

90

00:05:52,750 --> 00:05:56,748

Mufon files point to one possible answer

91

00:05:56,748 --> 00:05:57,748

and the

92

00:05:57,748 --> 00:06:00,747

the Cape Girardeau crash,

93

00:06:00,747 --> 00:06:05,745

an event that may have led to the development of the transistor.

94

00:06:10,743 --> 00:06:13,742

The transistor is a component now used in most electronics

95

00:06:13,742 --> 00:06:16,741

that acts like an amplifier for an electronic signal.

96

00:06:16,741 --> 00:06:19,740

Before the transistor, we used vacuum tubes,

97

00:06:19,740 --> 00:06:22,739

which is why we had huge TV cabinets with tiny little screens

98

00:06:22,739 --> 00:06:25,738

and radios the size of refrigerators.

99

00:06:26,738 --> 00:06:31,736

The transistor breakthrough unlocks a world of possibilities.

100

00:06:32,736 --> 00:06:36,735

What the transistor enabled is a vast miniaturization

101

00:06:36,735 --> 00:06:40,733

of the electronics to which we regularly have access.

102

00:06:40,733 --> 00:06:44,732

What would have been a supercomputer the size of a room,

103

00:06:44,732 --> 00:06:46,731

we now call a smartphone.

104

00:06:46,731 --> 00:06:51,730

In the 1950s, portable radios utilized five transistors.

105

00:06:51,730 --> 00:06:56,728

Today, one smartphone contains billions.

106

00:07:05,725 --> 00:07:09,723

It's really interesting to look at our technological breakthrough

107

00:07:09,723 --> 00:07:10,723

since the 1940s.

108

00:07:10,723 --> 00:07:14,722

Computers, the internet, cell phones, nuclear power,

109

00:07:14,722 --> 00:07:16,721

space travel, it's just staggering.

110

00:07:16,721 --> 00:07:18,720

Just in the last few years alone,

111

00:07:18,720 --> 00:07:20,720

we've seen televisions go from three feet in depth

112

00:07:20,720 --> 00:07:22,719

to less than an inch.

113

00:07:22,719 --> 00:07:24,718

And that's all thanks to the transistor.

114

00:07:24,718 --> 00:07:27,717

You could really make a case that the world we live in today

115

00:07:27,717 --> 00:07:30,716

would not be possible had it not been for our acquisition

116

00:07:30,716 --> 00:07:32,716

of this extraterrestrial technology.

117

00:07:35,715 --> 00:07:40,713

Mufon files suggest that the 1941 Cape Girardeau crash

118

00:07:40,713 --> 00:07:44,712

is ground zero for our technological boom.

119

00:07:48,710 --> 00:07:53,708

But this isn't the only time we've exploited a UFO crash.

120

00:07:54,708 --> 00:07:57,707

A pattern starts emerging where things fall from the sky.

121

00:07:57,707 --> 00:07:59,706

We collect them, do our best to study them,

122

00:07:59,706 --> 00:08:01,706

and figure out how they can benefit us.

123

00:08:03,705 --> 00:08:08,703

Yet another UFO crash may have provided us with a vast amount

124

00:08:08,703 --> 00:08:10,703

of alien technology.

125

00:08:10,703 --> 00:08:15,701

1947, Roswell, New Mexico.

126

00:08:20,699 --> 00:08:22,699

There are a lot of stories about what really happened

127

00:08:22,699 --> 00:08:25,698

regarding the crash in Roswell, New Mexico.

128

00:08:26,697 --> 00:08:29,696

But I think the best account comes from a military insider

129

00:08:29,696 --> 00:08:31,696

who was actually at the scene,

130

00:08:31,696 --> 00:08:34,695

and that's Colonel Philip J. Corso.

131

00:08:34,695 --> 00:08:36,694

According to Philip J. Corso,

132

00:08:36,694 --> 00:08:39,693

what crashed at Roswell was indeed an extraterrestrial spacecraft.

133

00:08:42,692 --> 00:08:46,690

And Corso says that the military took that wreckage,

134

00:08:46,690 --> 00:08:50,689

studied it, and that accounts for the technological boom

135

00:08:50,689 --> 00:08:52,688

of the 20th century.

136

00:08:55,687 --> 00:08:59,686

Technology from the Roswell crash may also be responsible

137

00:08:59,686 --> 00:09:02,685

for a number of post-war innovations

138

00:09:02,685 --> 00:09:06,684

A list of inventions that were seeded from the Roswell crash

139

00:09:06,684 --> 00:09:08,683

includes integrated computer chips,

140

00:09:08,683 --> 00:09:13,681

fiber optics, night vision, stealth technology,

141

00:09:13,681 --> 00:09:15,681

and even microwaves.

142

00:09:17,680 --> 00:09:19,679

This is a big piece of the puzzle

143

00:09:19,679 --> 00:09:23,678

that our official truth has sort of whitewashed out.

144

00:09:24,678 --> 00:09:26,677

If the files are correct,

145

00:09:26,677 --> 00:09:28,676

cracking the code to this technology

146

00:09:28,676 --> 00:09:30,676

will require fast resources.

147

00:09:31,675 --> 00:09:35,674

This job is entrusted to the U.S. military.

148

00:09:36,674 --> 00:09:38,673

The government didn't know what they were dealing with,

149

00:09:38,673 --> 00:09:40,672

so what they did was they brought in the sharpest minds

150

00:09:40,672 --> 00:09:42,671

in the country to look at this.

151

00:09:42,671 --> 00:09:44,671

That's the way it's always been.

152

00:09:44,671 --> 00:09:47,670

The sharpest minds have always worked on national security.

153

00:09:51,668 --> 00:09:54,667

If the U.S. government is not able to find a way

154

00:09:54,667 --> 00:09:56,667

to get a job,

155

00:09:56,667 --> 00:10:00,665

if the U.S. government has extraterrestrial technology

156

00:10:00,665 --> 00:10:04,664

and is reverse-engineering it for military purposes,

157

00:10:04,664 --> 00:10:07,663

what other breakthroughs have they achieved?

158

00:10:08,663 --> 00:10:10,662

Shielded from the public

159

00:10:11,662 --> 00:10:13,661

and the eyes of our enemies.

160

00:10:16,660 --> 00:10:18,659

We have got technology that's better than George Luke,

161

00:10:18,659 --> 00:10:20,659

it's better than anything you've seen in Star Wars,

162

00:10:20,659 --> 00:10:22,658

Star Trek, whatever.

163

00:10:23,658 --> 00:10:25,657

And it's kept absolutely secret.

164

00:10:27,656 --> 00:10:31,655

Hanger One files point to a controversial figure

165

00:10:31,655 --> 00:10:35,653

who claims to be a member of this inner circle

166

00:10:35,653 --> 00:10:41,651

and comes forward to reveal not only where this top-secret work takes place,

167

00:10:41,651 --> 00:10:44,650

but what they are creating there.

168

00:10:57,646 --> 00:11:00,645

Inside the walls of Hanger One

169

00:11:00,645 --> 00:11:06,643

are thousands of eye-witness reports of unexplained UFO activity.

170

00:11:07,643 --> 00:11:13,641

In 1941, a Baptist minister witnesses a crashed UFO.

171

00:11:13,641 --> 00:11:15,640

Technology extracted from the site

172

00:11:15,640 --> 00:11:20,638

may have jump-started the greatest leap forward in human technology,

173

00:11:20,638 --> 00:11:24,637

beginning with the invention of the transistor.

174

00:11:26,636 --> 00:11:30,635

And leading to even more innovations of the 20th century.

175

00:11:35,633 --> 00:11:39,632

Mufan files point to one controversial figure

176

00:11:39,632 --> 00:11:43,630

who speaks out about inside information he holds

177

00:11:43,630 --> 00:11:46,629

on the military's deepest secrets.

178

00:11:47,629 --> 00:11:53,627

In 1989, Las Vegas, a man named Bob Lazar claims to have knowledge

179

00:11:53,627 --> 00:11:56,626

of a highly classified military operation

180

00:11:56,626 --> 00:12:01,624

that is experimenting with reverse engineered UFOs.

181

00:12:01,624 --> 00:12:04,623

I have degrees in physics and electronics technology.

182

00:12:04,623 --> 00:12:06,623

I worked in a number of scientific programs,

183

00:12:06,623 --> 00:12:08,622

some of which required a lot of research

184

00:12:08,622 --> 00:12:10,621

and a lot of research.

185

00:12:10,621 --> 00:12:13,620

I worked in a number of scientific programs,

186

00:12:13,620 --> 00:12:15,620

some of which required top-secret

187

00:12:15,620 --> 00:12:18,618

and above-top-secret security clearances.

188

00:12:18,618 --> 00:12:22,617

Lazar alleges to know where this work is taking place

189

00:12:22,617 --> 00:12:27,615

and also hints at an astonishing secret propulsion technology.

190

00:12:32,614 --> 00:12:36,612

And he's about to blow the whistle on all of it.

191

00:12:36,612 --> 00:12:38,612

What is your synopsis in a nutshell?

192

00:12:38,612 --> 00:12:40,611

My synopsis of what I know to be true.

193

00:12:40,611 --> 00:12:44,610

The government is holding nine alien spacecraft.

194

00:12:44,610 --> 00:12:48,608

The work is being conducted 15 miles south of the lake.

195

00:12:51,607 --> 00:12:53,607

Bob Lazar went on television in 1989.

196

00:12:53,607 --> 00:12:58,605

He declared that located south from the secret infamous Area 51 base,

197

00:12:58,605 --> 00:13:02,604

there's an area called S-4, and that's where he said he worked.

198

00:13:02,604 --> 00:13:05,603

Between December of 1988 and April of 1989,

199

00:13:05,603 --> 00:13:07,602

I worked as a senior staff physicist

200

00:13:07,602 --> 00:13:10,601

in what has to be the most secret project in history.

201

00:13:10,601 --> 00:13:13,600

Area S-4 is located approximately 15 miles south

202

00:13:13,600 --> 00:13:17,598

of the infamous Area 51 installation at Groom Lake.

203

00:13:17,598 --> 00:13:19,598

For the duration of my employment at S-4,

204

00:13:19,598 --> 00:13:22,597

I was paid by the United States Navy.

205

00:13:23,596 --> 00:13:27,595

Lazar claims that S-4 is an above-top-secret

206

00:13:27,595 --> 00:13:32,593

underground research facility hidden deep in the Nevada desert.

207

00:13:33,593 --> 00:13:40,591

He says that S-4 houses reverse engineered ET craft and UFOs that we've built.

208

00:13:41,590 --> 00:13:44,589

These are amazing claims that Bob Lazar is making.

209

00:13:44,589 --> 00:13:49,588

He comes out of nowhere and goes on TV saying that we're building a fleet of UFOs

210

00:13:49,588 --> 00:13:51,587

based on alien designs.

211

00:13:51,587 --> 00:13:53,586

Nobody knows what to make of this guy.

212

00:13:53,586 --> 00:13:55,586

Is he for real? Can we even trust him?

213

00:13:57,585 --> 00:14:01,584

He claims S-4, or Site-4, which is 10 miles south of Area 51,

214

00:14:01,584 --> 00:14:05,582

is apparently cut out of the side of the mountain and concealed.

215

00:14:05,582 --> 00:14:08,581

How deep it goes, who knows?

216

00:14:09,581 --> 00:14:12,580

Although many are skeptical about his claims,

217

00:14:12,580 --> 00:14:18,578

Lazar asserts that S-4 is the real home of acquired alien technology.

218

00:14:19,577 --> 00:14:26,575

A place where UFO retrievals are stored, studied, and reverse engineered.

219

00:14:26,575 --> 00:14:30,574

This would be a perfect location, of course.

220

00:14:30,574 --> 00:14:34,572

To study any acquired alien hardware that you would have gotten,

221

00:14:34,572 --> 00:14:36,572

it's about as remote as you're going to get in the U.S.

222

00:14:36,572 --> 00:14:38,571

It's totally off limits to the public.

223

00:14:42,570 --> 00:14:48,568

Lazar's most controversial claim is that intergalactic travel is made possible

224

00:14:48,568 --> 00:14:55,565

by an alien power source that he refers to as atomic element 115.

225

00:14:56,565 --> 00:14:58,564

Or, un-unpentium.

226

00:14:58,564 --> 00:15:03,562

He said it was a near 100% efficient electromagnetic generator.

227

00:15:03,562 --> 00:15:08,561

Some of the capabilities of the craft that Lazar had talked about operated on.

228

00:15:08,561 --> 00:15:13,559

A very advanced gravitational pull where you would bring the destination toward you,

229

00:15:13,559 --> 00:15:17,558

and then when you turned off the reactor, you would end up at your destination.

230

00:15:17,558 --> 00:15:23,556

Warp the fabric of space-time, and you're at your destination instantaneously.

231

00:15:24,555 --> 00:15:28,554

So this is space-time compression that Lazar is talking about,

232

00:15:28,554 --> 00:15:32,553

but he's attributing this technology to an element that, as far as we know, doesn't even exist.

233

00:15:32,553 --> 00:15:35,552

One that goes against known science.

234

00:15:35,552 --> 00:15:37,551

Naturally, people are going to be skeptical.

235

00:15:38,551 --> 00:15:44,549

A deeper look into Hangar 1 files uncovers another surprise from Bob Lazar.

236

00:15:45,548 --> 00:15:49,547

One that alleges the origins of element 115.

237

00:15:54,545 --> 00:15:56,544

This is the most interesting part about Lazar's story.

238

00:15:56,544 --> 00:16:00,543

According to Lazar, element 115 wasn't actually pilfered from extraterrestrials.

239

00:16:00,543 --> 00:16:03,542

It was given to us by extraterrestrials.

240

00:16:05,541 --> 00:16:08,540

We're not just scavenging for extraterrestrial scraps.

241

00:16:08,540 --> 00:16:12,539

Our government is actually in some sort of a partnership with extraterrestrials.

242

00:16:15,538 --> 00:16:22,536

With such a questionable claim, the idea is quickly dismissed by mainstream scientists.

243

00:16:22,536 --> 00:16:26,534

And Lazar faces widespread ridicule.

244

00:16:26,534 --> 00:16:31,533

At the time Bob Lazar's claims of element 115 were considered to be ridiculous,

245

00:16:31,533 --> 00:16:34,532

Lazar himself was said to be delusional.

246

00:16:35,531 --> 00:16:37,531

I think that's very insulting to humans.

247

00:16:37,531 --> 00:16:41,529

I think that says we're incapable of developing things on our own.

248

00:16:41,529 --> 00:16:44,528

I give humankind much more credit than that.

249

00:16:52,525 --> 00:16:59,523

But in 2004, an international team of scientists appears to vindicate Bob Lazar

250

00:16:59,523 --> 00:17:04,521

by announcing the discovery of a new super heavy element.

251

00:17:04,521 --> 00:17:09,520

Element 115 or Ununpentium.

252

00:17:10,519 --> 00:17:14,518

So now we finally discover element 115 in 2004.

253

00:17:14,518 --> 00:17:19,516

It has the exact properties that Bob Lazar said it had in 1989.

254

00:17:20,516 --> 00:17:25,514

Everyone laughed when Lazar told us about element 115 and he turned out to be right about that.

255

00:17:25,514 --> 00:17:31,512

So maybe we need to seriously consider his claim that the aliens actually gave us this element.

256

00:17:32,512 --> 00:17:41,509

But if we have been handed alien technology and are utilizing these secrets to build our own futuristic UFOs,

257

00:17:41,509 --> 00:17:45,507

how does the government keep these projects wrapped up so tightly?

258

00:17:46,507 --> 00:17:50,506

If you're in charge of keeping this from the public, you're going to take extreme measures.

259

00:17:50,506 --> 00:17:55,504

I know of one story from a former Air Force Intelligence Officer that's especially disturbing.

260

00:17:57,503 --> 00:18:03,501

Many believe there are certain elements within the government that are willing to go to extraordinary lengths

261

00:18:03,501 --> 00:18:07,500

to keep their otherworldly secrets from being exposed.

262

00:18:08,500 --> 00:18:10,499

We'll see just how far.

263

00:18:16,497 --> 00:18:26,494

According to Mufon files secured in Hangar One, alien technology retrieved from UFO crashes

264

00:18:26,494 --> 00:18:34,491

has led to breakthroughs in everything from computers to our own ultra classified military UFOs.

265

00:18:37,490 --> 00:18:43,488

The secret that our government is reverse engineering alien technology, this is something that would change the world.

266

00:18:43,488 --> 00:18:48,486

But if you're in charge of keeping this from the public, you're going to take extreme measures.

267

00:18:49,486 --> 00:18:53,484

Some of the stories about this are truly disturbing.

268

00:18:58,483 --> 00:19:01,482

California, 1989.

269

00:19:02,481 --> 00:19:11,478

The military defense contractor learns first hand just how far some will go to keep their secret technology concealed.

270

00:19:14,477 --> 00:19:19,476

This story comes from Edgar Fouchet, a retired Air Force Intelligence Officer.

271

00:19:19,476 --> 00:19:27,473

He tells about a friend of his named Sal, who was an engineer contracted by a top secret research facility in California.

272

00:19:28,472 --> 00:19:34,470

So, Ed Fouchet says that one day toward the end of Sal's contract, he starts to feel a little sick.

273

00:19:34,470 --> 00:19:37,469

His supervisor sends him to the on-site doctor.

274

00:19:38,469 --> 00:19:44,467

The doctor gives Sal an injection and tells him to get some rest.

275

00:19:50,465 --> 00:19:56,463

Sal goes home, falls asleep and awakens to a nightmare.

276

00:20:00,462 --> 00:20:02,461

Sal wakes up the next day and heads for work.

277

00:20:02,461 --> 00:20:04,460

Then it hits him.

278

00:20:04,460 --> 00:20:07,459

He doesn't remember how to get there.

279

00:20:07,459 --> 00:20:10,458

He has no idea what he's been doing for the past several months.

280

00:20:12,458 --> 00:20:15,456

He eventually learns that his contract has been terminated.

281

00:20:15,456 --> 00:20:21,454

His security clearances revoked and he has zero memory of the projects he's actually worked on.

282

00:20:21,454 --> 00:20:25,453

His old pay stubs are the only proof he ever worked there at all.

283

00:20:25,453 --> 00:20:35,450

Every technological secret that Sal developed and worked on is forgotten, erased from his memory.

284

00:20:39,448 --> 00:20:46,446

Whether Sal's story can be verified or not, you can't deny the intense lockdown of defense industry secrets.

285

00:20:47,446 --> 00:20:53,444

You got to ask yourself if this kind of thing is going on, memories being erased, how did we even get here?

286

00:20:53,444 --> 00:20:57,442

But every once in a while we still get a peek behind the defense industry's curtain.

287

00:21:00,441 --> 00:21:02,441

Sometimes from a very unlikely source.

288

00:21:08,438 --> 00:21:17,435

Hanger One files contain a surprising admission from the former CEO of the US military's biggest defense contractor.

289

00:21:18,435 --> 00:21:21,434

Written shortly before his death.

290

00:21:22,434 --> 00:21:27,432

We have a letter on file from Ben Rich, the former president and CEO of the Lockheed Skunk Works,

291

00:21:27,432 --> 00:21:30,431

where he states there are two kinds of UFOs.

292

00:21:30,431 --> 00:21:34,430

Those of extraterrestrial origin and those that we manufacture.

293

00:21:34,430 --> 00:21:39,428

And those that are of extraterrestrial origin had a great impact on the development of our own UFOs.

294

00:21:42,427 --> 00:21:44,426

This is amazing.

295

00:21:44,426 --> 00:21:49,425

I mean, here's one of the biggest military defense contractors in the world and he comes right out and says,

296

00:21:49,425 --> 00:21:52,424

we have technology based on UFO designs.

297

00:21:53,423 --> 00:21:58,422

Does Ben Rich's letter shed light on even more technological secrets?

298

00:21:58,422 --> 00:22:04,419

Revelations that may hint at some of mankind's true capabilities.

299

00:22:08,418 --> 00:22:12,417

We already have the means to travel among the stars.

300

00:22:13,416 --> 00:22:18,415

But these technologies are locked up in black projects.

301

00:22:18,415 --> 00:22:24,413

And it would take an act of God to ever get them out for the benefit of humanity.

302

00:22:29,411 --> 00:22:36,409

Ben Rich said that we have a technology that is so far advanced that, you know, there's no way he could mention any of it.

303

00:22:36,409 --> 00:22:39,408

We're 400 years ahead of what we see here.

304

00:22:39,408 --> 00:22:43,406

Flying cars and this, that's all real stuff. We're just not seeing it here.

305

00:22:43,406 --> 00:22:46,405

Ben Rich makes this claim of unlimited possibilities.

306

00:22:46,405 --> 00:22:51,404

We already have these technologies, but the government has yet to acknowledge its existence.

307

00:22:52,403 --> 00:22:59,401

Yes, we have got technology that's better than George Luke is better than anything you've seen in Star Wars, Star Trek, whatever.

308

00:22:59,401 --> 00:23:01,400

And it's kept absolutely secret.

309

00:23:05,399 --> 00:23:09,397

The central question here is how did we acquire this knowledge?

310

00:23:09,397 --> 00:23:14,396

According to Ben Rich, we learned how to build our own UFOs by studying crash retrievals.

311

00:23:14,396 --> 00:23:18,394

And he came right out and said that extraterrestrials have been in contact with our civilization.

312

00:23:18,394 --> 00:23:22,393

And we've been pilfering their technology for more than 70 years.

313

00:23:24,392 --> 00:23:34,389

Ben Rich's statements seem to confirm what Bob Lazar claimed in 1989, that we are reverse engineering UFOs.

314

00:23:35,389 --> 00:23:40,387

But Hanger 1.0 files suggest another startling disclosure.

315

00:23:40,387 --> 00:23:49,384

That the United States may not be the only country with a history of reverse engineering alien technology.

316

00:23:50,383 --> 00:24:02,379

During World War II, under the control of the SS, the Nazis and Nazi scientists were doing a whole array of highly advanced technological research.

317

00:24:02,379 --> 00:24:08,377

Was the Third Reich attempting to arm themselves with extraterrestrial technology?

318

00:24:08,377 --> 00:24:31,370

Hanger 1.0 files suggest a history of reverse engineered alien technology as a possible source for some of our most advanced weapons and aircraft.

319

00:24:32,369 --> 00:24:40,366

But is America the only country to reap these extraterrestrial rewards?

320

00:24:43,365 --> 00:24:55,361

The files point to the possibility that enemy nations may have also been experimenting with extraterrestrial technology, at least since World War II.

321

00:24:56,361 --> 00:25:04,358

Of course, when we're talking about very advanced cutting-edge technologies, not just the U.S., let's go back to the Second World War.

322

00:25:04,358 --> 00:25:06,358

Let's not forget the Germans.

323

00:25:06,358 --> 00:25:18,354

During World War II, under the control of the SS, the Nazis and Nazi scientists were doing a whole array of highly advanced technological research.

324

00:25:19,353 --> 00:25:25,351

Is some of this advanced technology also reverse engineered from alien sources?

325

00:25:26,351 --> 00:25:36,347

One file reports a UFO recovery that occurred over a decade before Roswell, in the heart of Nazi Germany.

326

00:25:37,347 --> 00:25:42,345

1936

327

00:25:42,345 --> 00:25:52,342

A mysterious disc-shaped craft is spotted flying erratically over the German countryside.

328

00:25:52,342 --> 00:25:58,340

It suddenly plummets to earth, crashing into the black forest.

329

00:25:59,340 --> 00:26:07,337

The disc is recovered by the military and soon comes to the attention of Adolf Hitler.

330

00:26:10,336 --> 00:26:17,334

When Hitler hears about this weird flying disc, naturally he wanted to learn everything about it. What is it? What can it do?

331

00:26:17,334 --> 00:26:21,332

And most importantly, how could he use this to his advantage?

332

00:26:22,332 --> 00:26:33,328

Hitler orders the crash debris taken to Wellesburg Castle, a massive stronghold at the center of the Nazis' plan for a third-reich-dominated world.

333

00:26:35,327 --> 00:26:46,324

Inside Wellesburg Castle, high-ranking SS officers study both science and the occult under the direct command of Heinrich Himmler.

334

00:26:47,323 --> 00:26:55,321

Himmler oversaw the most esoteric, advanced and sometimes outright frightening elements of the Nazi war machine.

335

00:26:58,320 --> 00:27:05,317

We know that the Nazis pursued the idea of the Wunderwaffe, the super weapon. This was their effort for victory through science.

336

00:27:05,317 --> 00:27:09,316

They worked on things like directed energy weapons, basically ray guns.

337

00:27:09,316 --> 00:27:15,314

They tried to create a sun gun, an orbital mirror that can focus the sun's rays at a target on earth.

338

00:27:17,313 --> 00:27:23,311

Nazi scientists study the UFO and make a startling discovery.

339

00:27:23,311 --> 00:27:27,310

Some of this physics appeared to have to do with propulsion technology.

340

00:27:27,310 --> 00:27:34,307

The claim is that it contains an anti-gravity generator, unlike any technology on earth.

341

00:27:34,307 --> 00:27:43,304

It is now known that the Nazis were experimenting with many advanced technologies, including anti-gravity during World War II.

342

00:27:43,304 --> 00:27:47,303

And some of that technology may have been more advanced than what the Americans had.

343

00:27:48,303 --> 00:27:58,299

The SS works to study and reverse engineer the salvaged UFO, resulting in a secret project called de Gloc.

344

00:28:00,299 --> 00:28:06,297

A terrifying weapon intended to conquer the skies for the third-right.

345

00:28:06,297 --> 00:28:10,295

We have stories of something called de Gloc, the bell. It could very well have existed.

346

00:28:10,295 --> 00:28:20,292

And it was a device that created a kind of electromagnetic field that seemed to be able to play with gravity and possibly even allow it to levitate.

347

00:28:21,291 --> 00:28:25,290

But the prototype proves unstable and deadly.

348

00:28:25,290 --> 00:28:29,289

It was said to be highly dangerous. You get too close to it, you'd be dead.

349

00:28:29,289 --> 00:28:37,286

De Gloc supposedly works through some kind of anti-gravity power source, but when the Nazis couldn't replicate it, they abandoned the project.

350

00:28:41,285 --> 00:28:56,280

Despite the Nazis' lack of success, MUFON files indicate that for decades, other enemy nations may have also benefited from recovering crashed UFOs and reverse engineering their technology.

351

00:28:56,280 --> 00:29:01,278

There's no reason to believe that we're the only nation on earth that has this technology.

352

00:29:01,278 --> 00:29:08,275

And if rival nations possess the technology that we have, this could be a potentially disastrous situation.

353

00:29:11,274 --> 00:29:19,272

What if a crashed UFO ended up in the hands of one of our enemies and they were able to reverse engineer the technology?

354

00:29:19,272 --> 00:29:22,271

That's one of the worst-case scenarios.

355

00:29:23,270 --> 00:29:27,269

Has this scenario already occurred?

356

00:29:27,269 --> 00:29:33,267

We believe that the Iranian government re-engineered UFO technology to capture our drones.

357

00:29:34,267 --> 00:29:41,264

Hanger Ones Archives recount a possible history of UFO reverse engineering conducted by Nazi Germany during World War II.

358

00:29:41,264 --> 00:29:49,262

But more recent files suggest that some foreign nations may also be arming themselves with extraterrestrial technology.

359

00:29:49,262 --> 00:29:54,260

We have evidence of crashes all around the world, right?

360

00:29:54,260 --> 00:30:01,257

Russia in 1969, China in 2006, and the Middle East in 1991 and in 2007.

361

00:30:01,257 --> 00:30:06,256

If this really happened, then we have advanced technology that might be in the hands of our enemies.

362

00:30:25,249 --> 00:30:32,247

December 2011, an American drone crosses into Iran's airspace.

363

00:30:32,247 --> 00:30:38,245

It is captured by the Iranian military without so much as a dent.

364

00:30:38,245 --> 00:30:44,243

Iran proudly broadcasts the captured aircraft on international television.

365

00:30:44,243 --> 00:30:53,240

American military insiders are thrown into a frenzy, uncertain how Iran could execute this feat.

366

00:30:54,239 --> 00:31:00,237

This is a state-of-the-art military drone and Iran brought it down out of midair without a scratch.

367

00:31:00,237 --> 00:31:05,236

It's not like they shot the thing down. They somehow were able to capture the drone in midair.

368

00:31:05,236 --> 00:31:10,234

How could a small country like Iran have the technology to pull this off?

369

00:31:12,233 --> 00:31:20,231

The files contain reports that suggest the Iranian military may have had help developing this technology.

370

00:31:21,230 --> 00:31:28,228

So after the drone is captured, the U.S. is pretty embarrassed and rattled about what's going on.

371

00:31:28,228 --> 00:31:35,226

And then a few days later, a different story emerges by a nuclear engineer by the name of Dr. Moran Keshi.

372

00:31:35,226 --> 00:31:44,222

Dr. Keshi, a controversial nuclear scientist, claims that he helped design an Iranian military UFO

373

00:31:44,222 --> 00:31:47,221

that was used to capture the American drone.

374

00:31:47,221 --> 00:31:54,219

He describes the UFO as having capabilities that exceed any known aircraft,

375

00:31:54,219 --> 00:31:59,217

including a technology that many believe does not exist.

376

00:32:01,217 --> 00:32:09,214

He says that the drone was captured intact by a tractor beam that was mounted on a secret aircraft that he designed.

377

00:32:10,214 --> 00:32:16,212

A tractor beam is the ability to pull or tow an object without necessarily being physically connected to it.

378

00:32:16,212 --> 00:32:20,210

The beam uses photons or light particles as a mean of achieving this.

379

00:32:20,210 --> 00:32:26,208

In 2013, NASA announced that they have had some success with this technology, but on a very small scale.

380

00:32:26,208 --> 00:32:33,206

The Iranians claim that they brought down one of our drones with a tractor beam, not buying it.

381

00:32:33,206 --> 00:32:39,204

We have had limited success, but what this scientist claimed just doesn't exist.

382

00:32:39,204 --> 00:32:46,201

Could Iran have constructed this technology by reverse engineering alien materials?

383

00:32:48,201 --> 00:32:54,199

To answer this question, MUFON examines Iran's long history of UFO incidents.

384

00:32:55,198 --> 00:33:02,196

Beginning in 1976, Iran experiences a succession of UFO encounters.

385

00:33:02,196 --> 00:33:09,194

And in 2004, they appear to have recovered their own UFO crash.

386

00:33:11,193 --> 00:33:19,190

In 2004, FAR's news agency stated that multiple eyewitnesses saw a UFO crash in the mountain of Kermon.

387

00:33:20,190 --> 00:33:28,187

The crash is witnessed by many, but the Iranian military arrive at the scene before any civilians.

388

00:33:28,187 --> 00:33:40,183

By the time they are gone, so too is any evidence of a UFO crash, leaving many to ask what became of the UFO.

389

00:33:41,183 --> 00:33:46,181

Our experts say that that 2004 crash was re-engineered by the Iranian government,

390

00:33:46,181 --> 00:33:51,179

and that technology was used by Dr. Moran Keshi to capture that drone.

391

00:33:51,179 --> 00:33:58,177

What if a crashed UFO ended up in the hands of one of our enemies and they were able to reverse engineer the technology?

392

00:33:58,177 --> 00:34:01,176

That's one of the worst-case scenarios.

393

00:34:03,175 --> 00:34:09,173

But within Hangar One files, there is evidence of a more immediate danger to our planet.

394

00:34:10,173 --> 00:34:15,171

Because if UFO crashes have truly given us the wonders of our modern world,

395

00:34:15,171 --> 00:34:21,169

can we really trust the alien technology that we've grown to depend on?

396

00:34:21,169 --> 00:34:27,167

It's kind of like giving matches to a bunch of preschool students. It's not going to turn out really well.

397

00:34:28,167 --> 00:34:33,165

Does this technology pose a greater threat to our future?

398

00:34:41,162 --> 00:35:00,156

Inside Hangar One, MUFON files contain information that suggests that many of the wonders of the 20th century might be built on a foundation of alien technology,

399

00:35:00,156 --> 00:35:11,152

reverse engineered from recovered UFO crashes, such as the debris recovered in Cape Girardeau, Missouri and Roswell, New Mexico.

400

00:35:11,152 --> 00:35:19,149

And some foreign nations may already be using their own reverse-engineered technology against us.

401

00:35:20,149 --> 00:35:25,147

But could we potentially face an even greater threat?

402

00:35:26,147 --> 00:35:33,145

This is the worst-case scenario. We become absolutely dependent on technology in every facet of our life.

403

00:35:34,144 --> 00:35:39,143

What would happen to us if it were suddenly taken away?

404

00:35:47,140 --> 00:35:50,139

August 13, 2003.

405

00:35:51,139 --> 00:35:59,136

MUFON received sighting reports of UFO activity near three separate power plants in the northeastern United States.

406

00:35:59,136 --> 00:36:07,133

4.10 p.m. that day, the second largest blackout in North American history begins.

407

00:36:10,132 --> 00:36:17,130

Over 50 million citizens across the northeastern U.S. and Canada are without electricity.

408

00:36:17,130 --> 00:36:21,128

Entire states are blanketed in darkness.

409

00:36:21,128 --> 00:36:31,125

Transportation systems shut down. Medical equipment fails. Radio and television broadcasts go dead.

410

00:36:32,125 --> 00:36:38,123

Cities and towns across the northeast shut down. People are trapped in elevators and underground on subway trains.

411

00:36:38,123 --> 00:36:42,121

There's no drinking water flowing because pumps are now controlled by electrical regulators.

412

00:36:42,121 --> 00:36:46,120

The Internet, cell phone coverage goes down. It was total chaos.

413

00:36:47,120 --> 00:36:55,117

Hundreds of thousands of blackout-related emergencies are reported, including several dozen fatalities.

414

00:36:55,117 --> 00:37:01,115

So, what caused this huge disaster? It's attributed to a software bug at an Ohio power plant.

415

00:37:01,115 --> 00:37:07,113

But that doesn't account for the multiple UFO sightings near power stations right before the blackout began.

416

00:37:07,113 --> 00:37:12,111

It's easy to interpret these events as an act of aggression.

417

00:37:15,110 --> 00:37:23,107

Whether the 2003 blackout was caused by UFOs or not, it lasted less than one day and affected less than a quarter of the United States.

418

00:37:23,107 --> 00:37:32,104

And look how bad that got. But if in fact, extraterrestrials could cut us off from our technology, what if they did it on a worldwide scale?

419

00:37:33,104 --> 00:37:40,102

One of the biggest threats to our power grid is from solar flares or its big brother, the coronal mass ejection.

420

00:37:40,102 --> 00:37:47,099

These occur when eruptions on the sun blast out showers of charged particles that can disrupt electronics.

421

00:37:47,099 --> 00:37:55,096

In fact, I remember in 1998 when suddenly everyone's pager, back when we had pagers, suddenly died.

422

00:37:55,096 --> 00:38:03,094

What happened was that we had a solar flare that literally disrupted hundreds of millions of dollars worth of satellites from all nations.

423

00:38:07,092 --> 00:38:15,090

If we were to experience another event of that size today, considering our dependence on computers and electronics, it would cripple us.

424

00:38:16,089 --> 00:38:23,087

Many believe that vulnerabilities in our energy grid may pose the biggest danger to our world today.

425

00:38:24,087 --> 00:38:32,084

Today we are collectively addicted to electrons. More to the point we're addicted to objects that conduct electronics.

426

00:38:34,083 --> 00:38:39,082

When something happens that deprives us of our electrons, we're screwed.

427

00:38:41,081 --> 00:38:47,079

I think that a hundred years ago we were more prepared to deal with that eventuality than we are today.

428

00:38:47,079 --> 00:38:55,076

Forget about our inability to access our own personal bank accounts. Government and industry would completely collapse. Civilization wouldn't be able to survive.

429

00:38:58,075 --> 00:39:05,073

If you accept the premise that ET technology is already here, that it's already happened and integrated into our lives, then what's the end game?

430

00:39:05,073 --> 00:39:11,071

There are a few ways to look at this. That this is great. That we've embraced these technologies from extraterrestrials.

431

00:39:11,071 --> 00:39:15,069

That we're catching up to them. That the human race is moving forward.

432

00:39:17,069 --> 00:39:24,066

Here's another perspective on the whole situation. What if this technology, we're not supposed to have it at all?

433

00:39:24,066 --> 00:39:34,063

And these crash retrievals have messed us up on an evolutionary scale. It's kind of like giving matches to a bunch of preschool students. It's not going to turn out really well.

434

00:39:36,062 --> 00:39:45,059

For thousands of years mankind flourished without this technology. We conquered and mapped the world. We built the pyramids and founded massive empires.

435

00:39:45,059 --> 00:39:54,056

Now we all need our phones to guide us across town. We need computers for everything from balancing our budgets to managing our elections to guiding our missiles.

436

00:39:56,055 --> 00:40:01,054

Astrophysicist Carl Sagan in his final interview warned.

437

00:40:02,053 --> 00:40:10,051

We've arranged a society based on science and technology in which nobody understands anything about science and technology.

438

00:40:10,051 --> 00:40:17,048

And this combustible mixture of ignorance and power sooner or later is going to blow up in our faces.

439

00:40:20,047 --> 00:40:24,046

With this technology comes great responsibility.

440

00:40:25,046 --> 00:40:31,044

While many wonder if we will ever know the truth about UFO crashes and reverse engineer technology,

441

00:40:31,044 --> 00:40:39,041

perhaps the only way to continue uncovering this truth is to keep investigating and studying the files contained in heavy-weight technology.

442

00:40:40,040 --> 00:40:41,040

The Hangar One.
